''(A) an illness or health condition for which exposure to airborne toxins, any other hazard, or any other adverse condition resulting from the September 11, 2001, terrorist attacks on the World Trade Center, based on an examination by a medical professional with experience in treating or diagnosing the medical conditions included in the applicable list of identified WTC-related health conditions, is substantially likely to be a significant factor in aggravating, contributing to, or causing the illness or health condition, as determined under paragraph (2); or

''(B) a mental health condition for which such attacks, based on an examination by a medical professional with experience in treating or diagnosing the medical conditions included in the applicable list of identified WTC-related health conditions, is substantially likely be a significant factor in aggravating, contributing to, or causing the condition, as determined under paragraph (2).

In the case of an eligible WTC responder described in section 3111(a)(2)(A)(ii), such term only includes the mental health condition described in subparagraph (B).

''(2) DETERMINATION.—The determination of whether the September 11, 2001, terrorist attacks on the World Trade Center were substantially likely to be a significant factor in aggravating, contributing to, or causing an individual's illness or health condition shall be made based on an assessment of the following:

''(A) The individual's exposure to airborne toxins, any other hazard, or any other adverse condition resulting from the terrorist attacks. Such exposure shall be—

''(i) evaluated and characterized through the use of a standardized, population appropriate questionnaire approved by the Director of the National Institute for Occupational Safety and Health; and

''(ii) assessed and documented by a medical professional with experience in treating or diagnosing medical conditions included on the list of identified WTC-related health conditions.

''(B) The type of symptoms and temporal sequence of symptoms. Such symptoms shall be—

''(i) assessed through the use of a standardized, population appropriate medical questionnaire approved by Director of the National Institute for Occupational Safety and Health and a medical examination; and

''(ii) diagnosed and documented by a medical professional described in subparagraph (A)(ii).

''(3) LIST OF IDENTIFIED WTC-RELATED HEALTH CONDITIONS FOR ELIGIBLE WTC RESPONDERS.—For purposes of this title, the term 'identified WTC-related health condition for eligible WTC responders' means any of the following health conditions:

''(A) AERODIGESTIVE DISORDERS.—

''(i) Interstitial lung diseases.

''(ii) Chronic respiratory disorder-fumes/vapors.

''(iii) Asthma.

''(iv) Reactive airways dysfunction syndrome (RADS).

''(v) WTC-exacerbated chronic obstructive pulmonary disease (COPD).

''(vi) Chronic cough syndrome.

''(vii) Upper airway hyperreactivity.

''(viii) Chronic rhinosinusitis.

''(ix) Chronic nasopharyngitis.

''(x) Chronic laryngitis.

''(xi) Gastro-esophageal reflux disorder (GERD).

''(xii) Sleep apnea exacerbated by or related to a condition described in a previous clause.

''(B) MENTAL HEALTH CONDITIONS.—

''(i) Post traumatic stress disorder (PTSD).

''(ii) Major depressive disorder.

''(iii) Panic disorder.

''(iv) Generalized anxiety disorder.

''(v) Anxiety disorder (not otherwise specified).

''(vi) Depression (not otherwise specified).

''(vii) Acute stress disorder.

''(viii) Dysthymic disorder.

''(ix) Adjustment disorder.

''(x) Substance abuse.

''(xi) V codes (treatments not specifically related to psychiatric disorders, such as marital problems, parenting problems, etc.), secondary to another identified WTC-related health condition for WTC eligible responders.

''(C) MUSCULOSKELETAL DISORDERS.—

''(i) Low back pain.

''(ii) Carpal tunnel syndrome (CTS).

''(iii) Other musculoskeletal disorders.

''(4) ADDITION OF IDENTIFIED WTC-RELATED HEALTH CONDITIONS FOR ELIGIBLE WTC RESPONDERS.—

''(A) IN GENERAL.—The WTC Program Administrator may promulgate regulations to add an illness or health condition not described in paragraph (3) to the list of identified WTC-related conditions for eligible WTC responders. In promulgating such regulations, the Secretary shall provide for notice and opportunity for a public hearing and at least 90 days of public comment. In promulgating such regulations, the WTC Program Administrator shall take into account the findings and recommendations of Clinical Centers of Excellence published in peer reviewed journals in the determination of whether an additional illness or health condition, such as cancer, should be added to the list of identified WTC-related health conditions for eligible WTC responders.

''(B) PETITIONS.—Any person (including the WTC Health Program Scientific/Technical Advisory Committee) may petition the WTC Program Administrator to propose regulations described in subparagraph (A). Unless clearly frivolous, or initiated by such Committee, any such petition shall be referred to such Committee for its recommendations. Following—

''(i) receipt of any recommendation of the Committee; or

''(ii) 180 days after the date of the referral to the Committee,

whichever occurs first, the WTC Program Administrator shall conduct a rulemaking proceeding on the matters proposed in the petition or publish in the Federal Register a statement of reasons for not conducting such proceeding.

''(C) EFFECTIVENESS.—Any addition under subparagraph (A) of an illness or health condition shall apply only with respect to applications for benefits under this title which are filed after the effective date of such regulation.

''(D) ROLE OF ADVISORY COMMITTEE.—Except with respect to a regulation recommended by the WTC Scientific/Technical Advisory Committee, the WTC Program Administrator may not propose a regulation under this paragraph, unless the Administrator has first provided to the Committee a copy of the proposed regulation, requested recommendations and comments by the Committee, and afforded the Committee at least 90 days to make such recommendations.

''(b) COVERAGE OF TREATMENT FOR WTC–RELATED HEALTH CONDITIONS.—

''(1) DETERMINATION BASED ON AN IDENTIFIED WTC-RELATED HEALTH CONDITION FOR CERTIFIED ELIGIBLE WTC RESPONDERS.—

''(A) IN GENERAL.—If a physician at a Clinical Center of Excellence that is providing monitoring benefits under section 3111 for a certified eligible WTC responder determines that the responder has an identified WTC-related health condition, and the physician makes a clinical determination that exposure to airborne toxins, other hazards, or adverse conditions resulting from the September, 11, 2001, terrorist attacks on the World Trade Center is substantially likely to be a significant factor in aggravating, contributing to, or causing the condition—

''(i) the physician shall promptly transmit such determination to the WTC Program Administrator and provide the Administrator

with the medical facts supporting such determination; and

''(ii) on and after the date of such transmittal and subject to subparagraph (B), the WTC program shall provide for payment under subsection (c) for medically necessary treatment for such condition.

''(B) REVIEW; CERTIFICATION; APPEALS.—

''(i) REVIEW.—A Federal employee designated by the WTC Program Administrator shall review determinations made under subparagraph (A) of a WTC-related health condition.

''(ii) CERTIFICATION.—The Administrator shall provide a certification of such condition based upon reviews conducted under clause (i). Such a certification shall be provided unless the Administrator determines that the responder's condition is not an identified WTC-related health condition or that exposure to airborne toxins, other hazards, or adverse conditions resulting from the September 11, 2001, terrorist attacks on the World Trade Center is not substantially likely to be a significant factor in significantly aggravating, contributing to, or causing the condition.

''(iii) APPEAL PROCESS.—The Administrator shall provide a process for the appeal of determinations under clause (ii) before an administrative law judge.

''(2) DETERMINATION BASED ON OTHER WTC-RELATED HEALTH CONDITION.—

''(A) IN GENERAL.—If a physician at a Clinical Center of Excellence determines pursuant to subsection (a) that a certified eligible WTC responder has a WTC-related health condition that is not an identified WTC-related health condition for eligible WTC responders—

''(i) the physician shall promptly transmit such determination to the WTC Program Administrator and provide the Administrator with the facts supporting such determination; and

''(ii) the Administrator shall make a determination under subparagraph (B) with respect to such physician's determination.

''(B) REVIEW; CERTIFICATION.—

''(i) USE OF PHYSICIAN PANEL.—With respect to each determination relating to a WTC-related health condition transmitted under subparagraph (A)(i), the WTC Program Administrator shall provide for the review of the condition to be made by a physician panel with appropriate expertise appointed by the WTC Program Administrator. Such a panel shall make recommendations to the Administrator on the evidence supporting such determination.

''(ii) REVIEW OF RECOMMENDATIONS OF PANEL; CERTIFICATION.—The Administrator, based on such recommendations shall determine, within 60 days after the date of the transmittal under subparagraph (A)(i), whether or not the condition is a WTC-related health condition and, if it is, provide for a certification under paragraph (1)(B)(ii) of coverage of such condition. The Administrator shall provide a process for the appeal of determinations that the responder's condition is not a WTC-related health condition before an administrative law judge.

''(3) REQUIREMENT OF MEDICAL NECESSITY.—

''(A) IN GENERAL.—In providing treatment for a WTC-related health condition, a physician shall provide treatment that is medically necessary and in accordance with medical protocols established under subsection (d).

''(B) MEDICALLY NECESSARY STANDARD.—For the purpose of this title, health care services shall be treated as medically necessary for an individual if a physician, exercising prudent clinical judgment, would consider the services to be medically necessary for the individual for the purpose of evaluating, diagnosing, or treating an illness, injury, disease or its symptoms, and that are—

''(i) in accordance with the generally accepted standards of medical practice;

''(ii) clinically appropriate, in terms of type, frequency, extent, site, and duration, and considered effective for the individual's illness, injury, or disease; and

''(iii) not primarily for the convenience of the patient or physician, or another physician, and not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the individual's illness, injury, or disease.

''(C) DETERMINATION OF MEDICAL NECESSITY.—

''(i) REVIEW OF MEDICAL NECESSITY.—As part of the reimbursement payment process under subsection (c), the WTC Program Administrator shall review claims for reimbursement for the provision of medical treatment to determine if such treatment is medically necessary.

''(ii) WITHHOLDING OF PAYMENT FOR MEDICALLY UNNECESSARY TREATMENT.—The Administrator may withhold such payment for treatment that the Administrator determines is not medically necessary.

''(iii) REVIEW OF DETERMINATIONS OF MEDICAL NECESSITY.—The Administrator shall provide a process for providers to appeal a determination under clause (ii) that medical treatment is not medically necessary. Such appeals shall be reviewed through the use of a physician panel with appropriate expertise.

''(4) SCOPE OF TREATMENT COVERED.—

''(A) IN GENERAL.—The scope of treatment covered under paragraphs (1) through (3) includes services of physicians and other health care providers, diagnostic and laboratory tests, prescription drugs, inpatient and outpatient hospital services, and other medically necessary treatment.

''(B) PHARMACEUTICAL COVERAGE.—With respect to ensuring coverage of medically necessary outpatient prescription drugs, such drugs shall be provided, under arrangements made by the WTC Program Administrator, directly through participating Clinical Centers of Excellence or through one or more outside vendors.

''(C) TRANSPORTATION EXPENSES.—To the extent provided in advance in appropriations Acts, the WTC Program Administrator may provide for necessary and reasonable transportation and expenses incident to the securing of medically necessary treatment involving travel of more than 250 miles and for which payment is made under this section in the same manner in which individuals may be furnished necessary and reasonable transportation and expenses incident to services involving travel of more than 250 miles under regulations implementing section 3629(c) of the Energy Employees Occupational Illness Compensation Program Act of 2000 (title XXXVI of Public Law 106–398; 42 U.S.C. 7384t(c)).

''(5) PROVISION OF TREATMENT PENDING CERTIFICATION.—In the case of a certified eligible WTC responder who has been determined by an examining physician under subsection (b)(1) to have an identified WTC-related health condition, but for whom a certification of the determination has not yet been made by the WTC Program Administrator, medical treatment may be provided under this subsection, subject to paragraph (6), until the Administrator makes a decision on such certification. Medical treatment provided under this paragraph shall be considered to be medical treatment for which payment may be made under subsection (c).

''(6) PRIOR APPROVAL PROCESS FOR NON-CERTIFIED NON-EMERGENCY INPATIENT HOSPITAL SERVICES.—Non-emergency inpatient hospital services for a WTC-related health condition identified by an examining physician under paragraph (1) that is not certified under paragraph (1)(B)(ii) is not covered unless the services have been determined to be medically necessary and approved through a process established by the WTC Program Administrator. Such process shall provide for a decision on a request for such services within 15 days of the date of receipt of the request. The WTC Administrator shall provide a process for the appeal of a decision that the services are not medically necessary.

''(c) PAYMENT FOR INITIAL HEALTH EVALUATION, MEDICAL MONITORING, AND TREATMENT OF WTC–RELATED HEALTH CONDITIONS.—

''(1) MEDICAL TREATMENT.—

''(A) USE OF FECA PAYMENT RATES.—Subject to subparagraph (B), the WTC Program Administrator shall reimburse costs for medically necessary treatment under this title for WTC-related health conditions according to the payment rates that would apply to the provision of such treatment and services by the facility under the Federal Employees Compensation Act.

''(B) PHARMACEUTICALS.—

''(i) IN GENERAL.—The WTC Program Administrator shall establish a program for paying for the medically necessary outpatient prescription pharmaceuticals prescribed under this title for WTC-related health conditions through one or more contracts with outside vendors.

''(ii) COMPETITIVE BIDDING.—Under such program the Administrator shall—

''(I) select one or more appropriate vendors through a Federal competitive bid process; and

''(II) select the lowest bidder (or bidders) meeting the requirements for providing pharmaceutical benefits for participants in the WTC program.

''(iii) TREATMENT OF FDNY PARTICIPANTS.—Under such program the Administrator may select a separate vendor to provide pharmaceutical benefits to certified eligible WTC responders for whom the Clinical Center of Excellence is described in section 3106(b)(1)(A) if such an arrangement is deemed necessary and beneficial to the program by the WTC Program Administrator.

''(C) OTHER TREATMENT.—For treatment not covered under a preceding subparagraph, the WTC Program Administrator shall designate a reimbursement rate for each such service.

''(2) MEDICAL MONITORING AND INITIAL HEALTH EVALUATION.—The WTC Program Administrator shall reimburse the costs of medical monitoring and the costs of an initial health evaluation provided under this title at a rate set by the Administrator.

''(3) ADMINISTRATIVE ARRANGEMENT AUTHORITY.—The WTC Program Administrator may enter into arrangements with other government agencies, insurance companies, or other third-party administrators to provide for timely and accurate processing of claims under this section.

''(4) CLAIMS PROCESSING SUBJECT TO APPROPRIATIONS.—The payment by the WTC Program Administrator for the processing of claims under this title is limited to the amounts provided in advance in appropriations Acts.

''(d) MEDICAL TREATMENT PROTOCOLS.—

''(1) DEVELOPMENT.—The Coordinating Centers of Excellence shall develop medical treatment protocols for the treatment of certified eligible WTC responders and certified eligible WTC community members for identified WTC-related health conditions.

''(2) APPROVAL.—The WTC Program Administrator shall approve the medical treatment protocols, in consultation with the WTC Health Program Steering Committees.

''PART 2—COMMUNITY PROGRAM

''SEC. 3121. IDENTIFICATION AND INITIAL HEALTH EVALUATION OF ELIGIBLE WTC COMMUNITY MEMBERS.

''(a) ELIGIBLE WTC COMMUNITY MEMBER DEFINED.—

''(1) IN GENERAL.—In this title, the term 'eligible WTC community member' means, subject to paragraphs (3) and (5), an individual who claims symptoms of a WTC-related health condition and is described in any of the following subparagraphs:

''(A) CURRENTLY IDENTIFIED COMMUNITY MEMBER.—An individual, including an eligible WTC responder, who has been identified as eligible for medical treatment or monitoring by the WTC Environmental Health Center as of the date of enactment of this title.

''(B) COMMUNITY MEMBER WHO MEETS CURRENT ELIGIBILITY CRITERIA.—An individual who is not an eligible WTC responder and meets any of the current eligibility criteria described in a subparagraph of paragraph (2).

''(C) COMMUNITY MEMBER WHO MEETS MODIFIED ELIGIBILITY CRITERIA.—An individual who is not an eligible WTC responder and meets such eligibility criteria relating to exposure to airborne toxins, other hazards, or adverse conditions resulting from the September 11, 2001, terrorist attacks on the World Trade Center as the WTC Administrator determines after consultation with the WTC Community Program Steering Committee, the Coordinating Centers of Excellence described in section 3106(b)(1)(C), and the WTC Scientific/Technical Advisory Committee.

The Administrator shall not modify such criteria under subparagraph (C) on or after the date that the number of certifications for eligible WTC community members has reached 80 percent of the limit described in paragraph (5) or on or after the date that the number of certifications for eligible WTC responders has reached 80 percent of the limit described in section 3111(a)(5).

''(2) CURRENT ELIGIBILITY CRITERIA.—The eligibility criteria described in this paragraph for an individual are that the individual is described in any of the following subparagraphs:

''(A) A person who was present in the New York City disaster area in the dust or dust cloud on September 11, 2001.

''(B) A person who worked, resided, or attended school, child care or adult day care in the New York City disaster area for—

''(i) at least four days during the 4-month period beginning on September 11, 2001, and ending on January 10, 2002; or

''(ii) at least 30 days during the period beginning on September 11, 2001, and ending on July 31, 2002.

''(C) A person who worked as a clean-up worker or performed maintenance work in the New York City disaster area during the 4-month period described in subparagraph (B)(i) and had extensive exposure to WTC dust as a result of such work.

''(D) A person who was deemed eligible to receive a grant from the Lower Manhattan Development Corporation Residential Grant Program, who possessed a lease for a residence or purchased a residence in the New York City disaster area, and who resided in such residence during the period beginning on September 11, 2001, and ending on May 31, 2003.

''(E) A person whose place of employment—

''(i) at any time during the period beginning on September 11, 2001, and ending on May 31, 2003, was in the New York City disaster area; and

''(ii) was deemed eligible to receive a grant from the Lower Manhattan Development Corporation WTC Small Firms Attraction and Retention Act program or other government incentive program designed to revitalize the Lower Manhattan economy after the September 11, 2001, terrorist attacks on the World Trade Center.

''(3) APPLICATION PROCESS.—The WTC Program Administrator in consultation with the Coordinating Centers of Excellence shall establish a process for individuals, other than individuals described in paragraph (1)(A), to be determined eligible WTC community members. Under such process—

''(A) there shall be no fee charged to the applicant for making an application for such determination;

''(B) the Administrator shall make a determination on such an application not later than 60 days after the date of filing the application; and

''(C) an individual who is determined not to be an eligible WTC community member shall have an opportunity to appeal such determination before an administrative law judge in a manner established under such process.

''(4) CERTIFICATION.—

''(A) IN GENERAL.—In the case of an individual who is described in paragraph (1)(A) or who is determined under paragraph (3) (consistent with paragraph (5)) to be an eligible WTC community member, the WTC Program Administrator shall provide an appropriate certification of such fact and of eligibility for followup monitoring and treatment benefits under this part. The Administrator shall make determinations of eligibility relating to an applicant's compliance with this title, including the verification of information submitted in support of the application and shall not deny such a certification to an individual unless the Administrator determines that—

''(i) based on the application submitted, the individual does not meet the eligibility criteria; or

''(ii) the numerical limitation on certification of eligible WTC community members set forth in paragraph (5) has been met.

''(B) TIMING.—

''(i) CURRENTLY IDENTIFIED COMMUNITY MEMBERS.—In the case of an individual who is described in paragraph (1)(A), the WTC Program Administrator shall provide the certification under subparagraph (A) not later than 60 days after the date of the enactment of this title.

''(ii) OTHER MEMBERS.—In the case of another individual who is determined under paragraph (3) and consistent with paragraph (5) to be an eligible WTC community member, the WTC Program Administrator shall provide the certification under subparagraph (A) at the time of such determination.

''(5) NUMERICAL LIMITATION ON CERTIFICATION OF ELIGIBLE WTC COMMUNITY MEMBERS.—

''(A) IN GENERAL.—The total number of individuals not described in subparagraph (C) who may be certified as eligible WTC community members under paragraph (4) shall not exceed 15,000. In applying the previous sentence, any individual who at any time so qualifies as an eligible WTC community member shall be counted against such numerical limitation.

''(B) PROCESS.—In implementing subparagraph (A), the WTC Program Administrator shall—

''(i) limit the number of certifications provided under paragraph (4) in accordance with such subparagraph; and

''(ii) provide priority in such certifications in the order in which individuals apply for a determination under paragraph (4).

''(C) INDIVIDUALS CURRENTLY RECEIVING TREATMENT NOT COUNTED.—Individuals described in this subparagraph are individuals who—

''(i) are described in paragraph (1)(A); or

''(ii) before the date of the enactment of this title, have received monitoring or treatment at the World Trade Center Environmental Health Center at Bellevue Hospital Center, Gouverneur Health Care Services, or Elmhurst Hospital Center.

The New York City Health and Hospitals Corporation shall, not later than 6 months after the date of enactment of this title, enter into arrangements with the Mt. Sinai Data and Clinical Coordination Center for the reporting of medical data concerning eligible WTC responders described in paragraph (1)(A), as determined by the WTC Program Administrator and consistent with applicable Federal and State laws and regulations relating to confidentiality of individually identifiable health information.

''(D) REPORT TO CONGRESS IF NUMERICAL LIMITATION TO BE REACHED.—If the WTC Program Administrator determines that the number of individuals subject to the numerical limitation of subparagraph (A) is likely to exceed such numerical limitation, the Administrator shall submit to Congress a report on such determination. Such report shall include an estimate of the number of such individuals in excess of such numerical limitation and of the additional expenditures that would result under this title if such numerical limitation were removed.

''(b) INITIAL HEALTH EVALUATION TO DETERMINE ELIGIBILITY FOR FOLLOWUP MONITORING OR TREATMENT.—

''(1) IN GENERAL.—In the case of a certified eligible WTC community member, the WTC program shall provide for an initial health evaluation to determine if the member has a WTC-related health condition and is eligible for followup monitoring and treatment benefits under the WTC program. Initial health evaluation protocols shall be approved by the WTC Program Administrator, in consultation with the World Trade Center Environmental Health Center at Bellevue Hospital and the WTC Community Program Steering Committee.

''(2) INITIAL HEALTH EVALUATION PROVIDERS.—The initial health evaluation described in paragraph (1) shall be provided through a Clinical Center of Excellence with respect to the individual involved.

''(3) LIMITATION ON INITIAL HEALTH EVALUATION BENEFITS.—Benefits for initial health evaluation under this part for an eligible WTC community member shall consist only of a single medical initial health evaluation consistent with initial health evaluation protocols described in paragraph (1). Nothing in this paragraph shall be construed as preventing such an individual from seeking additional medical initial health evaluations at the expense of the individual.

"SEC. 3122. FOLLOWUP MONITORING AND TREATMENT OF CERTIFIED ELIGIBLE WTC COMMUNITY MEMBERS FOR WTC-RELATED HEALTH CONDITIONS.

''(a) IN GENERAL.—Subject to subsection (b), the provisions of sections 3111 and 3112 shall apply to followup monitoring and treatment of WTC-related health conditions for certified eligible WTC community members in the same manner as such provisions apply to the monitoring and treatment of identified WTC-related health conditions for certified eligible WTC responders, except that such monitoring shall only be available to those certified as eligible for treatment under this title. Under section 3106(a)(3), the City of New York is required to contribute a share of the costs of such treatment.

''(b) LIST OF IDENTIFIED WTC-RELATED HEALTH CONDITIONS FOR WTC COMMUNITY MEMBERS.—

''(1) IDENTIFIED WTC-RELATED HEALTH CONDITIONS FOR WTC COMMUNITY MEMBERS.—For purposes of this title, the term 'identified WTC-related health conditions for WTC community members' means any of the following health conditions:

''(A) AERODIGESTIVE DISORDERS.—

''(i) Interstitial lung diseases.

''(ii) Chronic respiratory disorder—fumes/vapors.

''(iii) Asthma.

''(iv) Reactive airways dysfunction syndrome (RADS).

''(v) WTC-exacerbated chronic obstructive pulmonary disease (COPD).

''(vi) Chronic cough syndrome.

''(vii) Upper airway hyperreactivity.

''(viii) Chronic rhinosinusitis.

''(ix) Chronic nasopharyngitis.

''(x) Chronic laryngitis.

''(xi) Gastro-esophageal reflux disorder (GERD).

''(xii) Sleep apnea exacerbated by or related to a condition described in a previous clause.

''(B) MENTAL HEALTH CONDITIONS.—

''(i) Post traumatic stress disorder (PTSD).

''(ii) Major depressive disorder.

''(iii) Panic disorder.

''(iv) Generalized anxiety disorder.

''(v) Anxiety disorder (not otherwise specified).

''(vi) Depression (not otherwise specified).

''(vii) Acute stress disorder.

''(viii) Dysthymic disorder.

''(ix) Adjustment disorder.

''(x) Substance abuse.

''(xi) V codes (treatments not specifically related to psychiatric disorders, such as marital problems, parenting problems, etc.), secondary to another identified WTC-related health condition for WTC community members.

''(2) ADDITIONS TO IDENTIFIED WTC-RELATED HEALTH CONDITIONS FOR WTC COMMUNITY MEMBERS.—The provisions of paragraph (4) of section 3112(a) shall apply with respect to an addition to the list of identified WTC-related health conditions for eligible WTC community members under paragraph (1) in the same manner as such provisions apply to an addition to the list of identified WTC-related health conditions for eligible WTC responders under section 3112(a)(3).

"SEC. 3123. FOLLOWUP MONITORING AND TREATMENT OF OTHER INDIVIDUALS WITH WTC-RELATED HEALTH CONDITIONS.

''(a) IN GENERAL.—Subject to subsection (c), the provisions of section 3122 shall apply to the followup monitoring and treatment of WTC-related health conditions for eligible WTC community members in the case of individuals described in subsection (b) in the same manner as such provisions apply to the followup monitoring and treatment of WTC-related health conditions for WTC community members. Under section 3106(a)(3), the City of New York is required to contribute a share of the costs of such monitoring and treatment.

''(b) INDIVIDUALS DESCRIBED.—An individual described in this subsection is an individual who, regardless of location of residence—

''(1) is not an eligible WTC responder or an eligible WTC community member; and

''(2) is diagnosed at a Clinical Center of Excellence (with respect to an eligible WTC community member) with an identified WTC-related health condition for WTC community members.

''(c) LIMITATION.—

''(1) IN GENERAL.—The WTC Program Administrator shall limit benefits for any fiscal year under subsection (a) in a manner so that payments under this section for such fiscal year do not exceed the amount specified in paragraph (2) for such fiscal year.

''(2) LIMITATION.—The amount specified in this paragraph for—

''(A) fiscal year 2009 is $20,000,000; or

''(B) a succeeding fiscal year is the amount specified in this paragraph for the previous fiscal year increased by the annual percentage increase in the medical care component of the Consumer Price Index for All Urban Consumers.

"PART 3—NATIONAL ARRANGEMENT FOR BENEFITS FOR ELIGIBLE INDIVIDUALS OUTSIDE NEW YORK

"SEC. 3131. NATIONAL ARRANGEMENT FOR BENEFITS FOR ELIGIBLE INDIVIDUALS OUTSIDE NEW YORK.

''(a) IN GENERAL.—In order to ensure reasonable access to benefits under this subtitle for individuals who are eligible WTC responders or eligible WTC community members and who reside in any State, as defined in section 2(f), outside the New York metropolitan area, the WTC Program Administrator shall establish a nationwide network of health care providers to provide monitoring and treatment benefits and initial health evaluations near such individuals' areas of residence in such States. Nothing in this subsection shall be construed as preventing such individuals from being provided such monitoring and treatment benefits or initial health evaluation through any Clinical Center of Excellence.

''(b) NETWORK REQUIREMENTS.—Any health care provider participating in the network under subsection (a) shall—

''(1) meet criteria for credentialing established by the Coordinating Centers of Excellence;

''(2) follow the monitoring, initial health evaluation, and treatment protocols developed under section 3106(a)(2)(B);

''(3) collect and report data in accordance with section 3105; and

''(4) meet such fraud, quality assurance, and other requirements as the WTC Program Administrator establishes.

"Subtitle C—Research Into Conditions

"SEC. 3141. RESEARCH REGARDING CERTAIN HEALTH CONDITIONS RELATED TO SEPTEMBER 11 TERRORIST ATTACKS IN NEW YORK CITY.

''(a) IN GENERAL.—With respect to individuals, including eligible WTC responders and eligible WTC community members, receiving monitoring or treatment under subtitle B, the WTC Program Administrator shall conduct or support—

''(1) research on physical and mental health conditions that may be related to the September 11, 2001, terrorist attacks on the World Trade Center;

''(2) research on diagnosing WTC-related health conditions of such individuals, in the case of conditions for which there has been diagnostic uncertainty; and

''(3) research on treating WTC-related health conditions of such individuals, in the case of conditions for which there has been treatment uncertainty.

The Administrator may provide such support through continuation and expansion of research that was initiated before the date of the enactment of this title and through the World Trade Center Health Registry (referred to in section 3151), through a Clinical Center of Excellence, or through a Coordinating Center of Excellence.

''(b) TYPES OF RESEARCH.—The research under subsection (a)(1) shall include epidemiologic and other research studies on WTC-related health conditions or emerging conditions—

''(1) among WTC responders and community members under treatment; and

''(2) in sampled populations outside the New York City disaster area in Manhattan as far north as 14th Street and in Brooklyn, along with control populations, to identify potential for long-term adverse health effects in less exposed populations.

''(c) CONSULTATION.—The WTC Program Administrator shall carry out this section in consultation with the WTC Health Program Steering Committees and the WTC Scientific/Technical Advisory Committee.

''(d) APPLICATION OF PRIVACY AND HUMAN SUBJECT PROTECTIONS.—The privacy and human subject protections applicable to research conducted under this section shall not be less than such protections applicable to research otherwise conducted by the National Institutes of Health.

''(e) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated $15,000,000 for each fiscal year, in addition to any other authorizations of appropriations that are available for such purpose.

"Subtitle D—Programs of the New York City Department of Health and Mental Hygiene

"SEC. 3151. WORLD TRADE CENTER HEALTH REGISTRY.

''(a) PROGRAM EXTENSION.—For the purpose of ensuring on-going data collection for victims of the September 11, 2001, terrorist attacks on the World Trade Center, the WTC Program Administrator, shall extend and expand the arrangements in effect as of January 1, 2008, with the New York City Department of Health and Mental Hygiene that provide for the World Trade Center Health Registry.

''(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $7,000,000 for each fiscal year to carry out this section.

"SEC. 3152. MENTAL HEALTH SERVICES.

''(a) IN GENERAL.—The WTC Program Administrator may make grants to the New York City Department of Health and Mental Hygiene to provide mental health services to address mental health needs relating to the September 11, 2001, terrorist attacks on the World Trade Center.

''(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $8,500,000 for each fiscal year to carry out this section.''.

TITLE II—SEPTEMBER 11TH VICTIM COMPENSATION FUND OF 2001

SEC. 201. DEFINITIONS.

Section 402 of the Air Transportation Safety and System Stabilization Act (49 U.S.C. 40101 note) is amended—

(1) in paragraph (6) by inserting '', or debris removal, including under the World Trade Center Health Program established under section 3101 of the Public Health Service Act,'' after ''September 11, 2001'';

(2) by inserting after paragraph (6) the following new paragraphs and redesignating subsequent paragraphs accordingly:

''(7) CONTRACTOR AND SUBCONTRACTOR.—The term 'contractor and subcontractor' means any contractor or subcontractor (at any tier of a subcontracting relationship), including any general contractor, construction manager, prime contractor, consultant, or any parent, subsidiary, associated or allied company, affiliated company, corporation, firm, organization, or joint venture thereof that participated in debris removal at any 9/11 crash site. Such term shall not include any entity, including the Port Authority of New York and New Jersey, with a property interest in the World Trade Center, on September 11, 2001, whether fee simple, leasehold or easement, direct or indirect.

''(8) DEBRIS REMOVAL.—The term 'debris removal' means rescue and recovery efforts, removal of debris, cleanup, remediation, and response during the immediate aftermath of the terrorist-related aircraft crashes of September 11, 2001, with respect to a 9/11 crash site.'';

(3) by inserting after paragraph (10), as so redesignated, the following new paragraph and redesignating the subsequent paragraphs accordingly:

''(11) IMMEDIATE AFTERMATH.—The term 'immediate aftermath' means any period beginning with the terrorist-related aircraft crashes of September 11, 2001, and ending on August 30, 2002.''; and

(4) by adding at the end the following new paragraph:

''(14) 9/11 CRASH SITE.—The term '9/11 crash site' means—

''(A) the World Trade Center site, Pentagon site, and Shanksville, Pennsylvania site;

''(B) the buildings or portions of buildings that were destroyed as a result of the terrorist-related aircraft crashes of September 11, 2001;

''(C) any area contiguous to a site of such crashes that the Special Master determines was sufficiently close to the site that there was a demonstrable risk of physical harm resulting from the impact of the aircraft or any subsequent fire, explosions, or building collapses (including the immediate area in which the impact occurred, fire occurred, portions of buildings fell, or debris fell upon and injured individuals); and

''(D) any area related to, or along, routes of debris removal, such as barges and Fresh Kills.''.

SEC. 202. EXTENDED AND EXPANDED ELIGIBILITY FOR COMPENSATION.

(a) INFORMATION ON LOSSES RESULTING FROM DEBRIS REMOVAL INCLUDED IN CONTENTS OF CLAIM FORM.—Section 405(a)(2)(B) of the Air Transportation Safety and System Stabilization Act (49 U.S.C. 40101 note) is amended—

(1) in clause (i), by inserting '', or debris removal during the immediate aftermath'' after ''September 11, 2001''; and

(2) in clause (ii), by inserting ''or debris removal during the immediate aftermath'' after ''crashes''.

(3) in clause (iii), by inserting ''or debris removal during the immediate aftermath'' after ''crashes''.

(b) EXTENSION OF DEADLINE FOR CLAIMS UNDER SEPTEMBER 11TH VICTIM COMPENSATION FUND OF 2001.—Section 405(a)(3) of such Act is amended to read as follows:

''(3) LIMITATION.—

''(A) IN GENERAL.—Except as provided by subparagraph (B), no claim may be filed under paragraph (1) after the date that is 2 years after the date on which regulations are promulgated under section 407(a).

''(B) EXCEPTION.—A claim may be filed under paragraph (1), in accordance with subsection (c)(3)(A)(i), by an individual (or by a personal representative on behalf of a deceased individual) during the period beginning on the date on which the regulations are updated under section 407(b) and ending on December 22, 2031.''.

(c) REQUIREMENTS FOR FILING CLAIMS DURING EXTENDED FILING PERIOD.—Section 405(c)(3) of such Act is amended—

(1) by redesignating subparagraphs (A) and (B) as subparagraphs (B) and (C), respectively; and

(2) by inserting before subparagraph (B), as so redesignated, the following new subparagraph:

''(A) REQUIREMENTS FOR FILING CLAIMS DURING EXTENDED FILING PERIOD.—

''(i) TIMING REQUIREMENTS FOR FILING CLAIMS.—An individual (or a personal representative on behalf of a deceased individual) may file a claim during the period described in subsection (a)(3)(B) as follows:

''(I) In the case that the Special Master determines the individual knew (or reasonably should have known) before the date specified in clause (iii) that the individual suffered a physical harm at a 9/11 crash site as a result of the terrorist-related aircraft crashes of September 11, 2001, or as a result of debris removal, and that the individual knew (or should have known) before such specified date that the individual was eligible to file a claim under this title, the individual may file a claim not later than the date that is 2 years after such specified date.

''(II) In the case that the Special Master determines the individual first knew (or reasonably should have known) on or after the date specified in clause (iii) that the individual suffered such a physical harm or that the individual first knew (or should have known) on or after such specified date that the individual was eligible to file a claim under this title, the individual may file a claim not later than the last day of the 2-year period beginning on the date the Special Master determines the individual first knew (or should have known) that the individual both suffered from such harm and was eligible to file a claim under this title.

''(ii) OTHER ELIGIBILITY REQUIREMENTS FOR FILING CLAIMS.—An individual may file a claim during the period described in subsection (a)(3)(B) only if—

''(I) the individual was treated by a medical professional for suffering from a physical harm described in clause (i)(I) within a reasonable time from the date of discovering such harm; and

''(II) the individual's physical harm is verified by contemporaneous medical records created by or at the direction of the medical professional who provided the medical care.

''(iii) DATE SPECIFIED.—The date specified in this clause is the date on which the regulations are updated under section 407(a).''.

(d) CLARIFYING APPLICABILITY TO ALL 9/11 CRASH SITES.—Section 405(c)(2)(A)(i) of such Act is amended by striking ''or the site of the aircraft crash at Shanksville, Pennsylvania'' and inserting ''the site of the aircraft crash at Shanksville, Pennsylvania, or any other 9/11 crash site''.

(e) INCLUSION OF PHYSICAL HARM RESULTING FROM DEBRIS REMOVAL.—Section 405(c) of such Act is amended in paragraph (2)(A)(ii), by inserting ''or debris removal'' after ''air crash''.

(f) LIMITATIONS ON CIVIL ACTIONS.—

(1) APPLICATION TO DAMAGES RELATED TO DEBRIS REMOVAL.—Clause (i) of section 405(c)(3)(C) of such Act, as redesignated by subsection (c), is amended by inserting '', or for damages arising from or related to debris removal'' after ''September 11, 2001''.

(2) PENDING ACTIONS.—Clause (ii) of such section, as so redesignated, is amended to read as follows:

''(ii) PENDING ACTIONS.—In the case of an individual who is a party to a civil action described in clause (i), such individual may not submit a claim under this title—

''(I) during the period described in subsection (a)(3)(A) unless such individual withdraws from such action by the date that is 90 days after the date on which regulations are promulgated under section 407(a); and

''(II) during the period described in subsection (a)(3)(B) unless such individual withdraws from such action by the date that is 90 days after the date on which the regulations are updated under section 407(b).''.

(3) AUTHORITY TO REINSTITUTE CERTAIN LAWSUITS.—Such section, as so redesignated, is further amended by adding at the end the following new clause:

''(iii) AUTHORITY TO REINSTITUTE CERTAIN LAWSUITS.—In the case of a claimant who was a party to a civil action described in clause (i), who withdrew from such action pursuant to clause (ii), and who is subsequently determined to not be an eligible individual for purposes of this subsection, such claimant may reinstitute such action without prejudice during the 90-day period beginning after the date of such ineligibility determination.''.

SEC. 203. REQUIREMENT TO UPDATE REGULATIONS.

Section 407 of the Air Transportation Safety and System Stabilization Act (49 U.S.C. 40101 note) is amended—

(1) by striking ''Not later than'' and inserting ''(a) IN GENERAL.—Not later than''; and

(2) by adding at the end the following new subsection:

''(b) UPDATED REGULATIONS.—Not later than 90 days after the date of the enactment of the James Zadroga 9/11 Health and Compensation Act of 2009, the Special Master shall update the regulations promulgated under subsection (a) to the extent necessary to comply with the provisions of title II of such Act.''.

SEC. 204. LIMITED LIABILITY FOR CERTAIN CLAIMS.

Section 408(a) of the Air Transportation Safety and System Stabilization Act (49 U.S.C. 40101 note) is amended by adding at the end the following new paragraphs:

''(4) LIABILITY FOR CERTAIN CLAIMS.—

''(A) IN GENERAL.—Notwithstanding any other provision of law, subject to subparagraph (B), liability for all claims and actions (including claims or actions that have been previously resolved, that are currently pending, and that may be filed through December 22, 2031) for compensatory damages, contribution or indemnity, or any other form or type of relief, arising from or related to debris removal, against the City of New York, any entity (including the Port Authority of New York and New Jersey) with a property interest in the World Trade Center on September 11, 2001 (whether fee simple, leasehold or easement, or direct or indirect) and any contractors and subcontractors thereof, shall not be in an amount that exceeds the sum of the following:

''(i) The amount of funds of the WTC Captive Insurance Company, including the cumulative interest.

''(ii) The amount of all available insurance identified in schedule 2 of the WTC Captive Insurance Company insurance policy.

''(iii) The amount that is the greater of the City of New York's insurance coverage or $350,000,000. In determining the amount of the City's insurance coverage for purposes of the previous sentence, any amount described in clauses (i) and (ii) shall not be included.

''(iv) The amount of all available liability insurance coverage maintained by any entity, including the Port Authority of New York and New Jersey, with a property interest in the World Trade Center, on September 11, 2001, whether fee simple, leasehold or easement, or direct or indirect.

''(v) The amount of all available liability insurance coverage maintained by contractors and subcontractors.

''(B) EXCEPTION.—Subparagraph (A) shall not apply to claims or actions based upon conduct held to be intentionally tortious in nature or to acts of gross negligence or other such acts to the extent to which punitive damages are awarded as a result of such conduct or acts.

''(5) PRIORITY OF CLAIMS PAYMENTS.—Payments to plaintiffs who obtain a settlement or judgment with respect to a claim or action to which paragraph (4)(A) applies, shall be paid solely from the following funds in the following order:

''(A) The funds described in clause (i) or (ii) of paragraph (4)(A).

''(B) If there are no funds available as described in clause (i) or (ii) of paragraph (4)(A), the funds described in clause (iii) of such paragraph.

''(C) If there are no funds available as described in clause (i), (ii), or (iii) of paragraph (4)(A), the funds described in clause (iv) of such paragraph.

''(D) If there are no funds available as described in clause (i),(ii), (iii), or (iv) of paragraph (4)(A), the funds described in clause (v) of such paragraph.

''(6) DECLARATORY JUDGMENT ACTIONS AND DIRECT ACTION.—Any party to a claim or action to which paragraph (4)(A) applies may, with respect to such claim or action, either file an action for a declaratory judgment for insurance coverage or bring a direct action against the insurance company involved.''.

By Mr. AKAKA (for himself, Mr. INOUYE, Mr. KENNEDY, and Ms. CANTWELL):

S. 1337. A bill to exempt children of certain Filipino World War II veterans from the numerical limitations on immigrant visas; to the Committee on the Judiciary.

Mr. AKAKA. Mr. President, I am introducing the Filipino Veterans Family Reunification Act of 2009. I am pleased that my colleagues, Senators INOUYE, KENNEDY and CANTWELL, have joined me in introducing this bill. Our bill will reunite Filipino World War II veterans who are U.S. citizens and U.S. residents with their children in the Philippines, who have languished for years on the visa waiting list. In seeking an exemption from the numerical limitation on immigrant visas for the children of the Filipino veterans, our bill will address and resolve an issue rooted in a set of historical circumstances that are now nearly 7 decades old.

In 1934, the Philippines, an American possession since 1898, was placed on the path to independence. The enactment of the Philippine Independence Act established the Philippines as a commonwealth with certain powers over its internal affairs but with the United States retaining sovereign power. It also set a 10-year timetable for the commonwealth's independence from the U.S.

In 1941, President Franklin D. Roosevelt responded to Japan's increasingly aggressive military posture in Asia and the Pacific by issuing a presidential order that called and ordered into the service of the Armed Forces of the United States all of the organized military forces of the Commonwealth of the Philippines. The authority for this presidential order was the Philippine Independence Act, which retained for the United States sovereign power over the commonwealth. Accordingly, over 200,000 Filipinos were drafted into the United States armed forces, and served honorably during World War II.

In 1942, Congress passed the Second War Powers Act, including Sections 701 and 702, Nationality Act of 1940, which authorized the naturalization of all aliens serving in the U.S. armed forces. Pursuant to this act, about 7,000 Filipinos serving in the U.S. armed forces outside the Philippines became U.S. citizens. Naturalization of the Filipinos who had served in the U.S. armed forces in the Philippines began in Manila in August 1945, but was halted two months later when the American vice consul's naturalization authority was revoked.

At the time, U.S. officials indicated that the government of the Commonwealth of the Philippines had expressed concerns that the naturalization, and likely emigration to the U.S., of the Filipino veterans would drain the soon-to-be-independent Philippines of essential manpower and undermine the new nation's postwar reconstruction efforts. Others, however, believed this was a pretext for what came to be known as the Rescissions Act of 1946.

In February and May 1946, the 79th Congress passed the First Supplemental Surplus Appropriations Rescission Act, PL 79–301, and the Second Supplemental Surplus Appropriations Rescission Act, PL 79–391, respectively. Now collectively known as the Rescissions Act of 1946, PL 79–301 authorized a $200 million appropriation to the Commonwealth Army of the Philippines conditioned on a provision that service in the Commonwealth Army of the Phillippines should not be deemed to have been service in the active military or air service of the U.S.

It would take Congress more than four decades to acknowledge that the Filipino World War II veterans had, indeed, served in the U.S. armed forces. The Immigration Act of 1990 included a provision that offered the opportunity to obtain U.S. citizenship to those Filipino veterans who had not been naturalized pursuant to the Nationality Act of 1940. And nineteen years later, the American Recovery and Reinvestment Act, ARRA, of 2009 included a provision that authorized the payment of benefits to the 30,000 surviving Filipino veterans in the amount of $15,000 for those who are citizens and $9,000 for those who are non-citizens.

Of the 30,000 surviving Filipino World War II veterans, 7,000 are U.S. citizens and reside in this country. Many of these U.S. citizens filed visa petitions for their children, who remained in the Philippines. Now in their eighties and nineties, these men continue to wait for their children, who languish on the visa waiting lists, to join them. The Filipino Veterans Family Reunification Act exempts the veterans' children, about 20,000 individuals in all, from the numerical limitation on immigrant visas. It does not require any appropriation and will serve to not only reunite these veterans with their children, but also honor their too-long-forgotten World War II service to this Nation.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1337

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Filipino Veterans Family Reunification Act of 2009''.

SEC. 2. EXEMPTION FROM IMMIGRANT VISA LIMIT.

Section 201(b)(1) of the Immigration and Nationality Act (8 U.S.C. 1151(b)(1)) is amended by adding at the end the following:

''(F) Aliens who are eligible for a visa under paragraph (1) or (3) of section 203(a) and who have a parent who was naturalized pursuant to section 405 of the Immigration Act of 1990 (Public Law 101–649; 8 U.S.C. 1440 note).''.

By Mr. LEAHY (for himself and Mr. CRAPO):

S. 1340. A bill to establish a minimum funding level for programs under the Victims of Crime Act of 1984 for fiscal years 2010 to 2014 that ensures a reasonable growth in victim programs without jeopardizing the long-term sustainability of the Crime Victims Fund; to the Committee on the Judiciary.

Mr. LEAHY. Mr. President, I am pleased to join with Senator CRAPO to introduce the Crime Victims Fund Preservation Act of 2009, which would restore and increase critical funding for direct services and compensation to victims of crime under the Victims of Crime Act.

I was honored to support the passage of the Victims of Crime Act of 1984,

VOCA, which has been the principal means by which the Federal Government has supported essential services for crime victims and their families. The Victims of Crime Act provides grants for direct services to victims, such as state crime victim compensation programs, emergency shelters, crisis intervention, counseling, and assistance in participating in the criminal justice system. These services are all financed by a reserve fund created from fines and penalties paid by Federal criminal offenders, at no cost to taxpayers.

A number of us have worked hard over the years to protect the Crime Victims Fund. State victim compensation and assistance programs serve nearly four million crime victims each year, including victims of violent crime, domestic violence, sexual assault, child abuse, elder abuse, and drunk driving. The Crime Victims Fund makes these programs possible and has helped hundreds of thousands of victims of violent crime bravely move forward with their lives.

Several years ago, I worked to make sure that the Crime Victims Fund would be there in good times, and in bad. We made sure it had a ''rainy day'' capacity so that in lean years, victims and their advocates would not have to worry that the fund would run out of money and that they would be left stranded. More recently, an annual cap has been set on the level of funding to be spent from the Fund in a given year, in part to help preserve adequate funds from year to year. When this cap was established, and when President Bush then sought to empty the Crime Victims Fund of unexpended funds, I joined with Senator CRAPO, Senator MIKULSKI and others from both political parties to make sure that the Crime Victims Fund was preserved. Fortunately Congress has consistently rejected efforts to rob crime victims of resources that are appropriately set aside to assist them and their families.

Unfortunately, the cap on the fund has not kept pace with the demand for compensation and services. From 2006 to 2008, VOCA victim assistance formula grants were cut by $87 billion or 22 percent. This reduction in funding, coupled with the current economic climate, was devastating to victim service providers who were forced to curtail services, lay off staff, and close their doors, jeopardizing the well-being and recovery of many crime victims.

In addition, victim service professionals have seen a clear increase in victimization and victim need in the past year as job losses and economic stress translate into increased violence in the home and in our communities. The National Crime Victims Helpline reported a 25 percent increase in calls in recent months and the National Domestic Violence Hotline reported a similar increase. Local shelters and crisis lines are also reporting a rise in demand as the shortage of affordable housing and rising unemployment are increasing the time that victims stay in emergency shelters. The rising unemployment rate also means victims are less likely to have insurance to cover their crime-related expenses.

At a Judiciary Committee hearing I chaired in April on the Victim of Crime Act, witnesses testified that there has also been an increase in the variety of crimes being committed. The National Crime Victims Helpline has seen an increase in calls from fraud victims people falling prey to ''work at home'' scams, secret shopper scams, investment scams, mortgage fraud, and construction fraud. Such victims are in desperate need of financial counseling and mental health counseling to overcome the stress and emotional impact of falling victim to these scams. Under Federal regulations, States may use compensation and victim assistance programs to aid financial crime victims, but services are not available. Victim service providers are reluctant to expand their outreach and services without assured increased funding and there is already too much competition for the limited funds available. The National Census of Domestic Violence Services conducted last fall showed that in one day, nearly 9,000 victims were turned away from shelter, counseling, and other crucial services because local programs were unable to serve them.

The need for victim assistance and compensation has grown. The Crime Victims Fund can provide more help. Recent years have seen an increase in collections from criminal fines and penalties. Accordingly, Congress has the ability to provide stable and predictable growth without jeopardizing the sustainability of the fund, and should do so through this legislation. The Crime Victims Fund Preservation Act would establish a minimum funding level for programs under VOCA to ensure reasonable and predictable growth in victim services through fiscal year 2014. Providing a stable and predictable funding stream will enable states to expand their programs and outreach to the thousands of victims who have nowhere to turn. Again, I emphasize that it does not cost a dime of taxpayer funds but will come exclusively from Federal criminal fines and penalties.

I want to commend Senator MIKULSKI, the Chairwoman of the Commerce, Justice, and Science Appropriations Subcommittee, and Senator SHELBY, the Ranking Member, for working with the President to provide $100 million in the economic recovery package for crime victims. That additional funding is sorely needed right now and I know it was sincerely appreciated by victim service providers. Funding in the Omnibus Appropriations Act of 2009 together with the Recovery Act funds, restored funding to the 2006 level, adjusted for inflation. A 2010 cap on total VOCA obligations of $705 million is expected to maintain the funding level for assistance grants provided in 2009 through the Recovery Act funding and annual appropriations. I believe that the certainty this legislation will provide will be helpful to the states, victim service providers, and the citizens they serve, and will help improve this vital program.

I look forward to working with Senator CRAPO, Senator MIKULSKI and many other interested Senators on this initiative to provide increased, stable, and predicable funding for to meet the ongoing need for essential services for crime victims and their families in the years ahead.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1340

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Crime Victims Fund Preservation Act of 2009''.

SEC. 2. CRIME VICTIMS FUND.

Section 1402(c) of the Victims of Crime Act of 1984 (42 U.S.C. 10601(c)) is amended—

(1) by inserting ''(1)'' after ''(c)''; and

(2) by adding at the end the following:

''(2) The amount made available from the Fund for the purposes of paragraphs (2), (3), and (4) of subsection (d) shall be not less than—

''(A) $705,000,000 for fiscal year 2010;

''(B) $867,150,000 for fiscal year 2011;

''(C) $1,066,594,500 for fiscal year 2012;

''(D) $1,311,911,235 for fiscal year 2013; and

''(E) $1,613,650,819 for fiscal year 2014.''.

By Mr. MENENDEZ:

S. 1341. A bill to amend the Internal Revenue Code of 1986 to impose an excise tax on certain proceeds received on SILO and LILO transactions; to the Committee on Finance.

Mr. MENENDEZ. Mr. President, today I am introducing the Close the SILO/LILO Loophole Act. This legislation will close a loophole in which banks and other entities are taking advantage of the financial crisis to exploit transit agencies and other local public entities to collect windfall payments. This bill seeks to permanently end this abusive practice, saving the public scarce resources.

Sale-In/Lease Out and Lease-In/Lease Out, SILO/LILO, contracts are a type of financial transaction in which a public entity transfers assets, equipment or infrastructure, to a bank or other entity while simultaneously entering into a long-term lease with the same bank or other entity. From the 1990's to 2003, public agencies, including transit agencies and rural electric coops, entered into these LILO and SILO

transactions. As part of the agreement, the bank required the public agency to pay a AAA-rated entity a fee to make lease payments throughout the term of the lease. This arrangement provided security for the banks and insured that lease payments would be made.

When the financial crisis hit last year, many AAA-rated entities involved in these transactions were downgraded. Banks took advantage of these downgrades and some sued these public agencies, citing a clause in the agreements that required only AAA-rated entities to make lease payments. They did this even though the public agencies in question did not miss any of their regular lease payments to the banks.

Not only is this predatory, but allowing this practice to continue is also contrary to public policy. While the SILO/LILO contracts provided much needed resources for capital intensive projects that benefitted the public, they also provided tax benefits to the banks—tax benefits that Congress found to be tax avoidance schemes and effectively eliminated in 2003. In 2008, the Internal Revenue Service proposed a settlement of the leases, effectively eliminating all future tax benefits while allowing the underlying commercial transactions to remain in place. If we let these suits against public agencies continue, we are basically allowing banks to get these tax benefits through another means—taking taxpayer money from public transit agencies and other public agencies around the Nation.

At this moment in time, we have myriad infrastructure needs. Public agencies are working hard to fill the demand for infrastructure projects. President Obama and Congress acknowledged the need and delivered the American Recovery and Reinvestment Act. Now is not the time to financially burden the agencies that we rely on for building, repairing, maintaining and preserving our infrastructure. The Close the SILO/LILO Loophole Act will help lift the uncertainty under which these public agencies are operating, enabling them to serve the public better. I hope to work closely with Chairman BAUCUS to end this crisis so public agencies can continue to serve the public and not banks seeking a windfall.

By Mr. BROWN (for himself, Mr. BENNET, and Mr. CASEY):

S. 1343. A bill to amend the Richard B. Russell National School Lunch Act to improve and expand direct certification procedures for the national school lunch and school breakfast programs, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. BROWN. Mr. President, every day during the school year, some 700,000 Ohio children are eligible to receive a free or reduced-price lunch at their school. Every day during the school year, these meals could ensure that children get enough to eat, particularly those children who are from homes where they don't get enough to eat, and it would ensure that children receive the good-quality, nutritious food they need. Yet today only about 86 percent of eligible children in Ohio receive a free school breakfast, a free school lunch, or a reduced-price breakfast or lunch. Only 86 percent of those eligible do. That means 1 in 10 Ohio children goes without a meal every day at school unnecessarily. Thus, tens of thousands of children from large urban districts in Cleveland and Cincinnati and Toledo to rural districts in Appalachia, children in small towns and medium towns all over the State and all over the country don't receive a healthy meal at school. Mr. President, about 150,000 children eligible at school for free or reduced-price lunch or breakfast don't get the meals at school that they are eligible for, and it is unacceptable. We can do something about it.

The application process for free lunch and breakfast is antiquated—stuck in a low-tech, old-fashioned, file-cabinet kind of system. The current paper application process doesn't reflect today's school districts. It doesn't adjust to changing demographics. It doesn't take advantage of the tremendous advancements in technology our society enjoys generally. That is why I will be introducing today the Hunger Free Schools Act, along with Senators CASEY and BENNET, that would dramatically reduce the number of paper applications for the free school lunch program. This legislation will directly enroll an estimated 100,000 Ohio children and thousands of children around the Nation in the National School Lunch Program. The Hunger Free Schools Act would modernize the application system for free school meals. The Hunger Free Schools Act would ensure that the system functions the way it was actually designed to work.

By increasing the number of children who receive nutritional school meals, we can help them receive a better education. Just think of children who sit in schools—small children, children of middle-school age, children in high school, but particularly small children—with their stomachs growling. They haven't really had breakfast or they haven't had a nutritious breakfast. Children who think so much about their hunger rather than their school work, children who by afternoon feel weak because they haven't had the calories and nutrition they need, this bill could do something about this. By increasing the number of healthy children, we will be more effective in lowering rates of child obesity and diabetes. It is not just about not getting enough to eat, it is also the quality of food they eat if they don't eat in the school cafeteria the school breakfast that is provided for them.

Nationwide, this bill would reduce paperwork and administrative costs to make access to meals easier for nearly 7 million children—hundreds of thousands of children in the Presiding Officer's home State of Illinois and over 100,000 children in my State of Ohio. Reducing paperwork and administrative costs saves time for administrators, reduces the burden on schools, and makes it a whole lot easier for teachers who don't have to think so much about helping their children figure out how to get a free school lunch or a free school breakfast.

President Obama cited administrative costs as a barrier to ending childhood hunger. His goal of eliminating this moral problem by 2015 is within reach, in part because of this legislation. More must be done.

Another way to combat childhood hunger is to make sure more families are aware of summer feeding programs.

Let me give another number. Some 700,000 children in my State are eligible for the reduced or free school breakfast and lunch. Of that number, about 500,000 actually get free lunch and breakfast. Those same students are eligible for the summer feeding program in June, July, and August—a program that is in rec centers, churches, parks, and in other kinds of buildings sprinkled across our State. Yet only about 60,000, or 1 in 10 children who are eligible, partake in the summer feeding program. So those children who, every day, get a free breakfast and lunch during the school year are also eligible in the summer to get free breakfast, lunch, and a free snack. But very few of them actually get those breakfasts and lunches or snacks in the summer.

You can imagine what that does to the chance for those children to become obese or to have a lack of nutrition and what all that means. The summer feeding program is every bit as important as the school breakfast and lunch program. That is why I remind parents and educators and guardians that the summer food service program is available to provide children a free breakfast, lunch, or snack during summer months. I encourage parents, educators, and guardians in Ohio, and around the Nation, to find a local summer feeding location.

I suggest people watching, if they are from my State, to go on my Web site, brown.senate.gov. We have roughly 1,000 summer feeding program locations on the Web site. People from Ohio can look on there and find out where there might be half a dozen sites in Richland County or perhaps 5 or 6 locations in Allen County or 25 or so locations in Lorain County, where young people can sign up to go to the summer feeding program or they can just show up and be fed. Ohioans can also find information through the Ohio Department of Education. Other Americans

should contact the U.S. Department of Agriculture, which has a State-by-State breakdown of resources. Students in summer reading programs at the public libraries might be eligible for the summer feeding program. They should find out from the library or from a music program they are part of or anyplace they might go, if they are eligible.

Again, I remind people that if your son or daughter is eligible for the school lunch program, they are also eligible for the summer feeding program. The end of the school year doesn't mean that we have an end to hunger. It means we need to make some people aware of the summer feeding program. Coupled with the summer feeding program, this Hunger Free Schools Act can ensure that our children reach their full potential.

By Mr. REED (for himself, Mr. GRASSLEY, Mr. AKAKA, Mr. BAYH, Ms. COLLINS, Mr. KERRY, Mr. LAUTENBERG, Mr. LEAHY, Mrs. LINCOLN, Mr. LUGAR, Mrs. MURRAY, Ms. STABENOW, and Mr. WHITEHOUSE):

S. 1345. A bill to aid and support pediatric involvement in reading and education; to the Committee on Health, Education, Labor, and Pensions.

Mr. REED. Mr. President, today I introduce with my colleague, Senator GRASSLEY, the Prescribe A Book Act. I thank Senators AKAKA, BAYH, COLLINS, KERRY, LAUTENBERG, LEAHY, LINCOLN, LUGAR, MURRAY, STABENOW, and WHITEHOUSE for joining us as original cosponsors of this bill.

Our legislation would create a Federal pediatric early literacy grant initiative based on the long-standing, successful Reach Out and Read program. The program would award grants to high-quality non-profit entities to train doctors and nurses in advising parents about the importance of reading aloud and to give books to children at pediatric check-ups from six months to 5 years of age, with a priority for children from low-income families. It builds on the relationship between parents and medical providers and helps families and communities encourage early literacy skills so children enter school prepared for success in reading.

The Reach Out and Read model has consistently demonstrated effectiveness in increasing parent involvement and boosting children's reading proficiency. Research published in peer-reviewed, scientific journals has found that parents who have participated in the program are significantly more likely to read to their children and include more children's books in their home, and that children served by the program show an increase of 4–8 points on vocabulary tests. I have seen upclose the positive impact of this program on children and their families when visiting a number of the 40 Rhode Island Reach Out and Read sites.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1345

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Prescribe A Book Act''.

SEC. 2. DEFINITIONS.

In this Act:

(1) ELIGIBLE ENTITY.—The term ''eligible entity'' means a nonprofit organization that has, as determined by the Secretary, demonstrated effectiveness in the following areas:

(A) Providing peer–to–peer training to healthcare providers in research–based methods of literacy promotion as part of routine pediatric health supervision visits.

(B) Delivering a training curriculum through a variety of medical education settings, including residency training, continuing medical education, and national pediatric conferences.

(C) Providing technical assistance to local healthcare facilities to effectively implement a high-quality Pediatric Early Literacy Program.

(D) Offering opportunities for local healthcare facilities to obtain books at significant discounts, as described in section 7.

(E) Integrating the latest developmental and educational research into the training curriculum for healthcare providers described in subparagraph (B).

(2) PEDIATRIC EARLY LITERACY PROGRAM.—The term ''Pediatric Early Literacy Program'' means a program that—

(A) creates and implements a 3-part model through which—

(i) healthcare providers, doctors, and nurses, trained in research–based methods of early language and literacy promotion, encourage parents to read aloud to their young children, and offer developmentally appropriate recommendations and strategies to parents for the purpose of reading aloud to their children;

(ii) healthcare providers, at health supervision visits, provide each child between the ages of 6 months and 5 years a new, developmentally appropriate children's book to take home and keep; and

(iii) volunteers in waiting areas of healthcare facilities read aloud to children, modeling for parents the techniques and pleasures of sharing books together;

(B) demonstrates, through research published in peer-reviewed journals, effectiveness in positively altering parent behavior regarding reading aloud to children, and improving expressive and receptive language in young children; and

(C) receives the endorsement of nationally–recognized medical associations and academies.

(3) SECRETARY.—The term ''Secretary'' means the Secretary of Education.

SEC. 3. PROGRAM AUTHORIZED.

The Secretary is authorized to award grants to eligible entities to enable the eligible entities to implement Pediatric Early Literacy Programs.

SEC. 4. APPLICATIONS.

An eligible entity that desires to receive a grant under section 3 shall submit an application to the Secretary at such time, in such manner, and including such information as the Secretary may reasonably require.

SEC. 5. MATCHING REQUIREMENT.

An eligible entity receiving a grant under section 3 shall provide, either directly or through private contributions, non-Federal matching funds equal to not less than 50 percent of the grant received by the eligible entity under section 3. Such matching funds may be in cash or in-kind.

SEC. 6. USE OF GRANT FUNDS.

(a) IN GENERAL.—An eligible entity receiving a grant under section 3 shall—

(1) enter into contracts with private nonprofit organizations, or with public agencies, selected based on the criteria described in subsection (b), under which each contractor will agree to establish and operate a Pediatric Early Literacy Program;

(2) provide such training and technical assistance to each contractor of the eligible entity as may be necessary to carry out this Act; and

(3) include such other terms and conditions in an agreement with a contractor as the Secretary determines to be appropriate to ensure the effectiveness of such programs.

(b) CONTRACTOR CRITERIA.—Each contractor shall be selected under subsection (a)(1) on the basis of the extent to which the contractor gives priority to serving a substantial number or percentage of at–risk children, including—

(1) children from families with an income below 200 percent of the poverty line (as defined by the Office of Management and Budget and revised annually in accordance with section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))) applicable to a family of the size involved, particularly such children in high–poverty areas;

(2) children without adequate medical insurance;

(3) children enrolled in a State Medicaid program, established under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) or in the State Children's Health Insurance Program established under title XXI of such Act (42 U.S.C. 1397aa et seq.);

(4) children living in rural areas;

(5) migrant children; and

(6) children with limited access to libraries.

SEC. 7. RESTRICTION ON PAYMENTS.

The Secretary shall make no payment to an eligible entity under this Act unless the Secretary determines that the eligible entity or a contractor of the eligible entity, as the case may be, has made arrangements with book publishers or distributors to obtain books at discounts that are at least as favorable as discounts that are customarily given by such publisher or distributor for book purchases made under similar circumstances in the absence of Federal assistance.

SEC. 8. REPORTING REQUIREMENT.

An eligible entity receiving a grant under section 3 shall report annually to the Secretary on the effectiveness of the program implemented by the eligible entity and the programs instituted by each contractor of the eligible entity, and shall include in the report a description of each program.

SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this Act—

(1) $15,000,000 for fiscal year 2010;

(2) $16,000,000 for fiscal year 2011;

(3) $17,000,000 for fiscal year 2012;

(4) $18,000,000 for fiscal year 2013; and

(5) $19,000,000 for fiscal year 2014.

By Mr. DURBIN (for himself, Mr. LEAHY, and Mr. FEINGOLD):

S. 1346. A bill to penalize crimes against humanity and for other purposes; to the Committee on the Judiciary.

Mr. DURBIN. Mr. President, I rise today to introduce the Crimes Against Humanity Act of 2009. This narrowly-tailored legislation would make it a violation of U.S. law to commit a crime against humanity. Congress must ensure that criminals who commit mass atrocities do not find safe haven in our country.

I would like to thank the other original cosponsors of the Crimes Against Humanity Act, Senator PATRICK LEAHY of Vermont, the Chairman of the Senate Judiciary Committee, and Senator RUSSELL FEINGOLD of Wisconsin, the Chairman of the Senate Judiciary Subcommittee on the Constitution and the Chairman of the Senate Foreign Relations Subcommittee on African Affairs.

For generations, the U.S. has led the struggle for human rights around the world and has supported holding perpetrators of crimes against humanity accountable. Over 50 years before the Nuremberg trials, George Washington Williams, an African-American minister, lawyer and historian, called for an international commission to investigate ''crimes against humanity'' in the Congo, which was then ruled by Belgium's King Leopold II. Under King Leopold's iron fist, Congo's population was reduced by half, with up to 10 million people losing their lives. In a letter to the U.S. Secretary of State, Mr. Williams decried the ''crimes against humanity'' perpetrated by King Leopold's regime.

Over 50 years later, following the Holocaust, the U.S. led the efforts to prosecute Nazi perpetrators for crimes against humanity at the Nuremberg trials. Crimes against humanity were first defined in the Nuremberg Charter in 1945. Sixteen men were found guilty of crimes against humanity in the Nuremberg trials, including Hermann Goring, commander of the Luftwaffe and the highest-ranking official to order the ''Final Solution.''

Since then, the U.S. has supported efforts to prosecute perpetrators of crimes against humanity, including Nazi war criminals who had escaped accountability. In 1961, Adolf Eichman, the ''architect of the Holocaust,'' was convicted in Israel for committing crimes against humanity. Michael Musmanno, a U.S. Naval officer and judge at the Nuremberg trials, was a key prosecution witness. In 1987, Klaus Barbie, the ''Butcher of Lyon'', was convicted in France for crimes against humanity he committed while heading the Gestapo in Lyon.

The U.S. has also supported the prosecution of crimes against humanity before the International Criminal Tribunal for the former Yugoslavia, the International Criminal Tribunal for Rwanda, and the Special Court for Sierra Leone.

More recently, we have seen crimes against humanity being committed on a massive scale in Darfur in western Sudan. In this region of six million people, hundreds of thousands were killed and as many as 2.5 million were driven from their homes in recent years. Part of the solution to the carnage in Darfur is arresting and prosecuting the perpetrators. Otherwise, these perpetrators will continue to act with impunity and victims will feel they have no recourse but to resort to violence themselves.

We have also seen crimes against humanity being committed in the eastern Democratic Republic of Congo, most disturbingly through the use of rape as a weapon of war. The systematic and deliberate use of mass rape to humiliate, expel and destroy communities in the eastern Democratic Republic of Congo offends our common humanity.

However, it is not only Darfur and the eastern Democratic Republic of Congo that are safe havens for the perpetrators of crimes against humanity. Perpetrators of mass atrocities have sought to escape accountability for their actions by coming to our own country. According to the Department of Homeland Security, over 1000 war criminals have found safe haven in the United States.

I am the Chairman of the Judiciary Committee's Human Rights and the Law Subcommittee. Last year I held a Human Rights and the Law Subcommittee hearing entitled ''From Nuremberg to Darfur: Accountability for Crimes Against Humanity.'' This hearing identified a glaring loophole in U.S. law—currently, there is no U.S. law prohibiting crimes against humanity. As a result, the U.S. government is unable to prosecute perpetrators of crimes against humanity found in our country. In contrast, other grave human rights violations, including genocide, using or recruiting child soldiers, and torture, are crimes under U.S. law.

We heard testimony in the Human Rights and the Law Subcommittee that many U.S. allies have incorporated crimes against humanity into their criminal codes, including Australia, Canada, Germany, the Netherlands, New Zealand, South Africa, Spain, Argentina and the United Kingdom.

Expert witnesses testified before the Subcommittee about the urgent need for the United States to enact similar legislation. Gayle Smith, the Co-Founder of the Enough Project, testified that it is in our national interest to enact crimes against humanity legislation:

> If unchallenged, the violence that defines crimes against humanity feeds on itself: conflicts spread, institutions crumble, economies decline and young people are taught the dangerous lesson that violence is more potent tool for change than hope. . . . Ensuring that those who commit crimes against humanity are in violation of U.S. law is in our national interests, and clearly in the interests of the victims who have few if any protectors or defenders.

Diane Orentlicher, a law professor at American University's Washington College of Law and one of our country's leading experts on human rights crimes, testified:

> The United States has, since Nuremberg, provided indispensable leadership in ensuring prosecution of crimes against humanity by various international tribunals, as well as by other countries we have supported. So it's quite remarkable that we of all countries don't have a law on our books making it possible to prosecute this crime when perpetrators show up in our own territory.

The crimes against humanity loophole has real consequences. When the U.S. government learned that Marko Boskic, who allegedly participated in the Srebrenica massacre in the Bosnian conflict, was living in Massachusetts, he was charged with visa fraud, rather than crimes against humanity. ''They should condemn him for the crime,'' said Emma Hidic, whose two brothers were among the estimated 7,000 men and boys killed in the Srebrenica massacre, upon learning that Boskic had been charged only with visa fraud.

The Crimes Against Humanity Act would close this loophole in U.S. law and give our government the authority to prosecute those found in the U.S. who commit crimes against humanity. In keeping with the principles the U.S. and our allies established after World War II, this legislation would help ensure that the perpetrators of crimes against humanity do not find safe haven in our country.

This bill would make it a violation of U.S. law to commit a crime against humanity, i.e. any widespread and systematic attack directed against a civilian population that involves murder, enslavement, torture, rape, arbitrary detention, extermination, hostage taking or ethnic cleansing.

I am the author of the Genocide Accountability Act, the Child Soldiers Accountability Act, and the Trafficking in Persons Act, legislation passed unanimously by Congress and signed into law by President George W. Bush that denies safe haven in the United States to the perpetrators of genocide, child soldier recruitment and use, and human trafficking. The Crimes Against Humanity Act is the next logical step. It would subject perpetrators of crimes against humanity to criminal sanctions, in the same way that perpetrators of genocide, child soldier recruitment and human trafficking are subject to criminal sanctions under U.S. law.

Ensuring U.S. law prohibits crimes against humanity is consistent with the longstanding U.S. support for the prosecution of crimes against humanity perpetrated in World War II, Rwanda, the former Yugoslavia and Sierra Leone, among other places.

This legislation will send a clear message to perpetrators of crimes against humanity that there are real consequences to their actions. By holding such individuals criminally responsible, our country will help to deter crimes against humanity.

The Crimes Against Humanity Act is supported by a broad coalition of human rights and religious groups, including Armenian Assembly of America, Center for Justice and Accountability, Center for Victims of Torture, Enough Project, the Episcopal Church, Genocide Intervention Network, Human Rights First, Human Rights Watch, International Justice Mission, Jubilee Campaign USA, Inc., Physicians for Human Rights, Robert F. Kennedy Center for Justice & Human Rights, Save Darfur Coalition, the United Methodist Church, and U.S. Campaign for Burma. Today I received a letter of support for the Crimes Against Humanity Act from 29 organizations, including all of those I have named. As the letter explains:

This legislation would fill an existing gap in U.S. law by allowing U.S. prosecutors to hold the perpetrators of mass atrocities accountable for their acts. While often less publicized than genocides, crimes against humanity are as devastating to their victims and as worthy of vigorous and unbending attention from the United States government. We must ensure that perpetrators of mass atrocities cannot evade justice by coming to the United States.

Daoud Hari is a refugee from Darfur now living in our country and author of The Translator: A Tribesman's Memoir of Darfur. I urge my colleagues to contemplate the challenge that Mr. Hari posed at the Human Rights Subcommittee hearing on crimes against humanity: while none of us individually can stop the crimes against humanity committed in Darfur and other countries around the globe, failing to take action only ensures that these horrific atrocities will continue.

With far too few exceptions, we have failed to prevent and stop crimes against humanity. The promise of Nuremberg remains unfulfilled. We have a moral obligation to take action to help the survivors of crimes against humanity around the world and to help prevent this horrific crime by holding perpetrators accountable.

I urge my colleagues to support this legislation.

Mr. President, I ask unanimous consent that the text of the bill and a letter of support be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1346

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Crimes Against Humanity Act of 2009''.

SEC. 2. ACCOUNTABILITY FOR CRIMES AGAINST HUMANITY.

(a) IN GENERAL.—Part 1 of title 18, United States Code, is amended by inserting after chapter 25 the following:

''CHAPTER 25A—CRIMES AGAINST HUMANITY

''Sec.
''519. Crimes against humanity.

''§ 519. Crimes against humanity

''(a) OFFENSE.—It shall be unlawful for any person to commit or engage in, as part of a widespread and systematic attack directed against any civilian population, and with knowledge of the attack—

''(1) conduct that, if it occurred in the United States, would violate—

''(A) section 1111 of this title (relating to murder);

''(B) section 1581(a) of this title (relating to peonage);

''(C) section 1583(a)(1) of this title (relating to kidnapping or carrying away individuals for involuntary servitude or slavery);

''(D) section 1584(a) of this title (relating to sale into involuntary servitude);

''(E) section 1589(a) of this title (relating to forced labor); or

''(F) section 1590(a) of this title (relating to trafficking with respect to peonage, slavery, involuntary servitude, or forced labor);

''(2) conduct that, if it occurred in the special maritime and territorial jurisdiction of the United States, would violate—

''(A) section 1591(a) of this title (relating to sex trafficking of children or by force, fraud, or coercion);

''(B) section 2241(a) of this title (relating to aggravated sexual abuse by force or threat); or

''(C) section 2242 of this title (relating to sexual abuse);

''(3) conduct that, if it occurred in the special maritime and territorial jurisdiction of the United States, and without regard to whether the offender is the parent of the victim, would violate section 1201(a) of this title (relating to kidnapping);

''(4) conduct that, if it occurred in the United States, would violate section 1203(a) of this title (relating to hostage taking), notwithstanding any exception under subsection (b) of section 1203;

''(5) conduct that would violate section 2340A of this title (relating to torture);

''(6) extermination;

''(7) national, ethnic, racial, or religious cleansing;

''(8) arbitrary detention; or

''(9) imposed measures intended to prevent births.

''(b) PENALTY.—Any person who violates subsection (a), or attempts or conspires to violate subsection (a)—

''(1) shall be fined under this title, imprisoned not more than 20 years, or both; and

''(2) if the death of any person results from the violation of subsection (a), shall be fined under this title and imprisoned for any term of years or for life.

''(c) JURISDICTION.—There is jurisdiction over a violation of subsection (a), and any attempt or conspiracy to commit a violation of subsection (a), if—

''(1) the alleged offender is a national of the United States or an alien lawfully admitted for permanent residence;

''(2) the alleged offender is a stateless person whose habitual residence is in the United States;

''(3) the alleged offender is present in the United States, regardless of the nationality of the alleged offender; or

''(4) the offense is committed in whole or in part within the United States.

''(d) NONAPPLICABILITY OF CERTAIN LIMITATIONS.—Notwithstanding section 3282 of this title, in the case of an offense under this section, an indictment may be found, or information instituted, at any time without limitation.

''(e) DEFINITIONS.—In this section:

''(1) ARBITRARY DETENTION.—The term 'arbitrary detention' means imprisonment or other severe deprivation of physical liberty except on such grounds and in accordance with such procedure as are established by the law of the jurisdiction where such imprisonment or other severe deprivation of physical liberty took place.

''(2) ARMED GROUP.—The term 'armed group' means any army, militia, or other military organization, whether or not it is state-sponsored, excluding any group assembled solely for nonviolent political association.

''(3) ATTACK DIRECTED AGAINST ANY CIVILIAN POPULATION.—The term 'attack directed against any civilian population' means a course of conduct in which a civilian population is a primary rather than an incidental target.

''(4) ETHNIC GROUP; NATIONAL GROUP; RACIAL GROUP; RELIGIOUS GROUP.—The terms 'ethnic group', 'national group', 'racial group', and 'religious group' have the meanings given those terms in section 1093 of this title.

''(5) EXTERMINATION.—The term 'extermination' means subjecting a civilian population to conditions of life that are intended to cause the physical destruction of the group in whole or in part.

''(6) LAWFULLY ADMITTED FOR PERMANENT RESIDENCE; NATIONAL OF THE UNITED STATES.—The terms 'lawfully admitted for permanent residence' and 'national of the United States' have the meanings give those terms in section 101(a) of the Immigration and Nationality Act (8 U.S.C. 1101(a)).

''(7) NATIONAL, ETHNIC, RACIAL, OR RELIGIOUS CLEANSING.—The term 'national, ethnic, racial, or religious cleansing' means the intentional and forced displacement from 1 country to another or within a country of any national group, ethnic group, racial group, or religious group in whole or in part, by expulsion or other coercive acts from the area in which they are lawfully present, except when the displacement is in accordance with applicable laws of armed conflict that permit involuntary and temporary displacement of a population to ensure its security or when imperative military reasons so demand.

''(8) SYSTEMATIC.—The term 'systematic' means pursuant to or in furtherance of the policy of a state or armed group.

''(9) WIDESPREAD.—The term 'widespread' means involving multiple victims.''.

(b) CLERICAL AMENDMENT.—The table of chapters for part 1 of title 18, United States Code, is amended by inserting after the item relating to chapter 25 the following:

''25A. Crimes against humanity ..... 519''.

JUNE 24, 2009.

Hon. RICHARD J. DURBIN,
Chairman Subcommittee on Human Rights and the Law, Senate Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR CHAIRMAN DURBIN: We write to express our strong support for the Crimes Against Humanity Act of 2009. This legislation would fill an existing gap in U.S. law by allowing U.S. prosecutors to hold the perpetrators of mass atrocities accountable for their acts. While often less publicized than genocides, crimes against humanity are as devastating to their victims and as worthy

of vigorous and unbending attention from the United States government. We must ensure that perpetrators of mass atrocities cannot evade justice by coming to the United States. We applaud your leadership in ensuring that the United States is well equipped to fight these grave crimes and we urge Congress to enact the bill with all due speed.

The United States government has long been at the forefront of global efforts to seek accountability for the perpetrators of the worst crimes known to humankind. In the years after World War II, the United States was an essential player in the formation of the Nuremberg Tribunal and the Genocide Convention, two key pieces of the foundation for all international justice efforts that have followed. Since then, in Bosnia, Rwanda, Cambodia, Sierra Leone, and Darfur, among others, the U.S. government has steadfastly supported justice for victims of crimes against humanity, war crimes, and genocide, whether by supporting national justice systems or by assisting in the creation of special tribunals.

The bill defines crimes against humanity as widespread and systematic attacks directed against a civilian population that involve murder, enslavement, torture, rape, arbitrary detention, extermination, hostage taking, or ethnic cleansing. This category includes some of the most atrocious crimes committed in recent history—the campaigns of mutilation and murder of civilians in Sierra Leone and Uganda, the systematic rape of women in ethnic areas of Burma and in the Democratic Republic of the Congo, the ethnic cleansing in Bosnia and Kosovo. These crimes might look like genocide to a layperson, but they are a distinct category of crime and separate legislation is needed to provide United States courts with jurisdiction to prosecute those who commit them if they are present in the United States.

Such legislation has not existed before today, despite the U.S. government's sustained efforts to ensure accountability for crimes against humanity elsewhere. Alleged perpetrators of those crimes have therefore been able to escape prosecution in the United States. Though U.S. law prohibits grave human rights violations such as genocide and torture, alleged perpetrators of crimes against humanity may escape accountability due not to their innocence of unforgivable acts but to loopholes in the U.S. criminal code.

The Crimes Against Humanity Act of 2009 would close this illogical gap in U.S. law. Just as they may pursue those who have committed related and similarly horrific crimes, U.S. prosecutors would have the authority to ensure that those in the United States who have committed crimes against humanity may not evade accountability merely by fleeing to our country.

The United States has provided a means to prosecute those who commit genocide and torture as well as those who use child soldiers in war. Those who commit the similar crimes that constitute crimes against humanity should face no better future. We therefore urge Congress to enact this bill without delay.

Sincerely,

V-Day.

Mr. LEAHY. Mr. President, today, I am pleased to join Senator DURBIN and Senator FEINGOLD in introducing the Crimes Against Humanity Act of 2009. This legislation will make it a violation of United States law to commit a crime against humanity, and will help ensure that the perpetrators of crimes against humanity do not find safe haven in the United States. I commend Senator DURBIN for his work on this legislation and for his leadership as chairman of the Subcommittee on Human Rights and the Law.

Last Congress, I was pleased to work with Senator DURBIN to create the Human Rights and the Law Subcommittee, the first-ever congressional committee established to address human rights issues. The work that we have done through this Subcommittee has helped the Senate focus on important and difficult legal human rights issues, including genocide, human trafficking, child soldiers, war crimes, corporate accountability overseas, systematic rape, and torture.

The work of the Human Rights and the Law Subcommittee has already achieved important results. Last Congress, the President signed into law the Child Soldiers Accountability Act, which outlawed the abhorrent practice of recruiting and using child soldiers, and the Genocide Accountability Act, which closed a loophole that had allowed those who commit or incite genocide to seek refuge in our country without fear of prosecution for their actions. These legislative initiatives were a critical step toward showing the international community that the United States will not tolerate human rights abuses at home or abroad, and that those who commit these atrocities must be held accountable for their actions. I am pleased to join Senator DURBIN to take the next step to protect victims of crimes against humanity in the United States, and to hold those responsible for these terrible crimes to account.

Along with genocide and war crimes, crimes against humanity are among the most serious crimes under international law. We see such crimes against humanity by groups or governments as part of a widespread or systematic attack against a civilian population. These deplorable crimes include murder, enslavement, torture, rape, arbitrary detention, extermination, hostage taking, and ethnic cleansing, and they continue to take place around the world in places like Uganda, Burma, and Sudan.

Although the United States has strongly and consistently for more than 60 years supported the prosecution of perpetrators of crimes against humanity, there is currently no United States law prohibiting crimes against humanity. As a result, the government is unable to prosecute perpetrators of crimes against humanity found in our country. This legislation will fix this loophole by enabling the Attorney General to prosecute crimes against humanity committed by a U.S. national, legal alien or habitual resident in the United States. The law will also enable the prosecution of any crimes against humanity committed in whole or in part within the United States, as well as offenses that occur outside the United States, if the offender is currently located in the United States.

The actions prohibited by the Crimes Against Humanity Act of 2009 are appalling. They happen too often throughout the world. We must promote accountability for human rights violations committed anywhere in the world, and we must do whatever we can to prevent those who commit such crimes from escaping justice by finding a safe haven in the United States. A foreign policy that seeks to defend human rights will never fully achieve its goals if we undermine our own credibility by failing in our commitment to uphold the highest standards of human rights here at home. I urge Senators on both sides of the aisle to support this important legislation to help this country take another step toward reclaiming our place as a guardian of human rights.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 202—TO PROVIDE FOR ISSUANCE OF A SUMMONS AND FOR RELATED PROCEDURES CONCERNING THE ARTICLES OF IMPEACHMENT AGAINST SAMUEL B. KENT

Mr. REID (for himself and Mr. MCCONNELL) submitted the following resolution; which was considered and agreed to:

S. RES. 202

Resolved, That a summons shall be issued which commands Samuel B. Kent to file with the Secretary of the Senate an answer to the articles of impeachment no later than July 2, 2009, and thereafter to abide by, obey, and

perform such orders, directions, and judgments as the Senate shall make in the premises, according to the Constitution and laws of the United States.

SEC. 2. The Sergeant at Arms is authorized to utilize the services of the Deputy Sergeant at Arms or another employee of the Senate in serving the summons.

SEC. 3. The Secretary shall notify the House of Representatives of the filing of the answer and shall provide a copy of the answer to the House.

SEC. 4. The Managers on the part of the House may file with the Secretary of the Senate a replication no later than July 7, 2009.

SEC. 5. The Secretary shall notify counsel for Samuel B. Kent of the filing of a replication, and shall provide counsel with a copy.

SEC. 6. The Secretary shall provide the answer and the replication, if any, to the Presiding Officer of the Senate on the first day the Senate is in session after the Secretary receives them, and the Presiding Officer shall cause the answer and replication, if any, to be printed in the Senate Journal and in the Congressional Record. If a timely answer has not been filed, the Presiding Officer shall cause a plea of not guilty to be entered.

SEC. 7. The articles of impeachment, the answer, and the replication, if any, together with the provisions of the Constitution on impeachment, and the Rules of Procedure and Practice in the Senate When Sitting on Impeachment Trials, shall be printed under the direction of the Secretary as a Senate document.

SEC. 8. The provisions of this resolution shall govern notwithstanding any provisions to the contrary in the Rules of Procedure and Practice in the Senate When Sitting on Impeachment Trials.

SEC. 9. The Secretary shall notify the House of Representatives of this resolution.

SENATE RESOLUTION 203—TO PROVIDE FOR THE APPOINTMENT OF A COMMITTEE TO RECEIVE AND TO REPORT EVIDENCE WITH RESPECT TO ARTICLES OF IMPEACHMENT AGAINST JUDGE SAMUEL B. KENT

Mr. REID (for himself and Mr. MCCONNELL) submitted the following resolution; which was considered and agreed to:

S. RES. 203

Resolved, That pursuant to Rule XI of the Rules of Procedure and Practice in the Senate When Sitting on Impeachment Trials, the Presiding Officer shall appoint a committee of twelve senators to perform the duties and to exercise the powers provided for in the rule.

SEC. 2. The majority and minority leader shall each recommend six members and a chairman and vice chairman respectively to the Presiding Officer for appointment to the committee.

SEC. 3. The committee shall be deemed to be a standing committee of the Senate for the purpose of reporting to the Senate resolutions for the criminal or civil enforcement of the committee's subpoenas or orders, and for the purpose of printing reports, hearings, and other documents for submission to the Senate under Rule XI.

SEC. 4. During proceedings conducted under Rule XI the chairman of the committee is authorized to waive the requirement under the Rules of Procedure and Practice in the Senate When Sitting on Impeachment Trials that questions by a Senator to a witness, a manager, or counsel shall be reduced to writing and put by the Presiding Officer.

SEC. 5. In addition to a certified copy of the transcript of the proceedings and testimony had and given before it, the committee is authorized to report to the Senate a statement of facts that are uncontested and a summary, with appropriate references to the record, of evidence that the parties have introduced on contested issues of fact.

SEC. 6. The actual and necessary expenses of the committee, including the employment of staff at an annual rate of pay, and the employment of consultants with prior approval of the Committee on Rules and Administration at a rate not to exceed the maximum daily rate for a standing committee of the Senate, shall be paid from the contingent fund of the Senate from the appropriation account ''Miscellaneous Items'' upon vouchers approved by the chairman of the committee, except that no voucher shall be required to pay the salary of any employee who is compensated at an annual rate of pay.

SEC. 7. The Committee appointed pursuant to section one of this resolution shall terminate no later than 45 days after the pronouncement of judgment by the Senate on the articles of impeachment.

SEC. 8. The Secretary shall notify the House of Representatives and counsel for Judge Samuel B. Kent of this resolution.

SENATE RESOLUTION 204—DESIGNATING MARCH 31, 2010, AS ''NATIONAL CONGENITAL DIAPHRAGMATIC HERNIA AWARENESS DAY''

Mr. VITTER submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 204

Whereas the congenital diaphragmatic hernia birth defect is one of the most prevalent, life-threatening birth defects in the United States;

Whereas the congenital diaphragmatic hernia birth defect is a severe, often deadly birth defect that has a devastating impact, in both human and economic terms, affecting equally people of all races, sexes, nationalities, geographic locations, and income levels;

Whereas the congenital diaphragmatic hernia birth defect occurs in 1 in every 2,000 live births in the United States and accounts for 8 percent of all major congenital anomalies;

Whereas, in 2004, there were approximately 4,115,590 live births in the United States, and in approximately 1,800 of those live births, the congenital diaphragmatic hernia birth defect occurred, causing countless additional friends, loved ones, spouses, and caregivers to shoulder the physical, emotional, and financial burdens the congenital diaphragmatic hernia birth defect causes;

Whereas there is no genetic indicator or any other indicator available to predict the occurrence of the congenital diaphragmatic hernia birth defect, other than through the performance of an ultrasound during pregnancy;

Whereas there is no consistent treatment or cure for the congenital diaphragmatic hernia birth defect;

Whereas the congenital diaphragmatic hernia birth defect is a leading cause of neonatal death in the United States;

Whereas 50 percent of the patients who do survive the congenital diaphragmatic hernia birth defect have residual health issues, resulting in a severe strain on pediatric medical resources and on the delivery of health care services in the United States;

Whereas proactive diagnosis and the appropriate management and care of fetuses afflicted with the congenital diaphragmatic hernia birth defect minimize the incidence of emergency situations resulting from the birth defect and dramatically improve survival rates among people with the birth defect;

Whereas neonatal medical care is one of the most expensive types of medical care provided in the United States and patients with the congenital diaphragmatic hernia birth defect stay in intensive care for approximately 60 to 90 days, costing millions of dollars, utilizing blood from local blood banks, and requiring the most technically advanced medical care;

Whereas the congenital diaphragmatic hernia birth defect is a birth defect that causes damage to the lungs and the cardiovascular system;

Whereas patients with the congenital diaphragmatic hernia birth defect may have long-term health issues such as respiratory insufficiency, gastroesophageal reflux, poor growth, neurodevelopmental delay, behavior problems, hearing loss, hernia recurrence, and orthopedic deformities;

Whereas the severity of the symptoms and outcomes of the congenital diaphragmatic hernia birth defect and the limited public awareness of the birth defect cause many patients to receive substandard care, to forego regular visits to physicians, and not to receive good health or therapeutic management that would help avoid serious complications in the future, compromising the quality of life of those patients;

Whereas people suffering from chronic, life-threatening diseases and birth defects, similar to the congenital diaphragmatic hernia birth defect, and family members of those people are predisposed to depression and the resulting consequences of depression because of anxiety over the possible pain, suffering, and premature death that people with such diseases and birth defects may face;

Whereas the Senate and taxpayers of the United States want treatments and cures for disease and hope to see results from investments in research conducted by the National Institutes of Health and from initiatives such as the National Institutes of Health Roadmap to the Future;

Whereas the congenital diaphragmatic hernia birth defect is an example of how collaboration, technological innovation, scientific momentum, and public-private partnerships can generate therapeutic interventions that directly benefit the people and families suffering from the congenital diaphragmatic hernia birth defect;

Whereas collaboration, technological innovation, scientific momentum, and public-private partnerships can save billions of Federal dollars under Medicare, Medicaid, and other programs for therapies, and early intervention will increase survival rates among people suffering from the congenital diaphragmatic hernia birth defect;

Whereas improvements in diagnostic technology, the expansion of scientific knowledge, and better management of care for patients with the congenital diaphragmatic hernia birth defect already have increased survival rates in some cases;

Whereas there is still a need for more research and increased awareness of the congenital diaphragmatic hernia birth defect and for an increase in funding for that research in order to provide a better quality of life to survivors of the congenital diaphragmatic hernia birth defect, and more optimism for the families and health care professionals who work with children with the birth defect;

Whereas there are thousands of volunteers nationwide dedicated to expanding research, fostering public awareness and understanding, educating patients and their families about the congenital diaphragmatic hernia birth defect to improve their treatment and care, providing appropriate moral support, and encouraging people to become organ donors; and

Whereas volunteers engage in an annual national awareness event held on March 31, making that day an appropriate time to recognize National Congenital Diaphragmatic Hernia Awareness Day: Now, therefore, be it

Resolved, That the Senate—

(1) designates March 31, 2010, as ''National Congenital Diaphragmatic Hernia Awareness Day'';

(2) supports the goals and ideals of a national day to raise public awareness and understanding of the congenital diaphragmatic hernia birth defect;

(3) recognizes the need for additional research into a cure for the congenital diaphragmatic hernia birth defect; and

(4) encourages the people of the United States and interested groups to support National Congenital Diaphragmatic Hernia Awareness Day through appropriate ceremonies and activities, to promote public awareness of the congenital diaphragmatic hernia birth defect, and to foster understanding of the impact of the disease on patients and their families.

SENATE RESOLUTION 205—SUPPORTING THE GOALS AND IDEALS OF AFRICAN AMERICAN BONE MARROW AWARENESS MONTH

Ms. STABENOW (for herself and Mr. ISAKSON) submitted the following resolution; which was considered and agreed to:

S. RES. 205

Whereas a bone marrow or blood cell transplant is a potentially life-saving treatment for patients with leukemia, lymphoma, and other blood diseases;

Whereas a bone marrow or blood cell transplant replaces a patient's unhealthy blood cells with healthy blood-forming cells from a volunteer donor;

Whereas a patient who does not have a suitably matching donor in the family may search the National Marrow Donor Program Donor Registry for a donor;

Whereas blood or cell samples from adult donors or cord blood units are tested and the tissue or cell type is added to the National Marrow Donor Program Donor Registry, and physicians may search that registry when they need to find donors whose tissue type matches their patients';

Whereas African Americans make up 8 percent of, or more than 550,000 of the 7,000,000 people currently on, the National Marrow Donor Program Donor Registry;

Whereas of the 35,000 people that have received transplants since the inception of the National Marrow Donor Program Donor Registry, only 1,500 have been African Americans;

Whereas more than 70 life-threatening diseases can be treated with a bone marrow transplant;

Whereas there is a possibility that an African American patient could match a donor from any racial or ethnic group, but the most likely match is another African American;

Whereas to become a volunteer donor, potential donors must be between 18 and 60 years of age, meet health guidelines, provide a small blood sample or swab of cheek cells to determine the donor's tissue type, complete a brief health questionnaire, and sign a consent form to have the tissue type of the donor listed on the Donor Registry;

Whereas the Bone Marrow Wish Organization, which is a minority-run nonprofit organization based in Detroit that was started by an actual bone marrow donor, is initiating ''African American Bone Marrow Awareness Month'';

Whereas the annual month of awareness would promote donor awareness and increase the number of African Americans registered with the National Marrow Donor Program throughout the Nation; and

Whereas July 2009 would be an appropriate month to observe African American Bone Marrow Awareness Month: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of African American Bone Marrow Awareness Month;

(2) urges the people of the United States to participate in appropriate programs and activities with respect to bone marrow awareness, including speaking with health care professionals about bone marrow donation; and

(3) urges all people of the United States to register to become blood marrow donors and encourages all people of the United States to organize blood marrow registration drives in their communities.

NOTICE OF HEARING

IMPEACHMENT TRIAL COMMITTEE ON THE ARTICLES AGAINST JUDGE SAMUEL B. KENT

Ms. MCCASKILL. Mr. President, I wish to announce that the Impeachment Trial Committee on the Articles Against Judge Samuel B. Kent will meet on Thursday, June 25, 2009, at 4:30 p.m., to conduct its organization meeting.

For further information regarding this meeting, please contact Peg Gustafson on 202–224–6154.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Mr. CARDIN. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on Wednesday, June 24, 2009, at 2:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. CARDIN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Wednesday, June 24, 2009, at 2:30 p.m., in room 253 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. CARDIN. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on Wednesday, June 24, 2009 at 10:45 a.m. in room 406 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. CARDIN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, June 24, 2009, at 11 a.m., to hold a roundtable entitled ''Iran at a Crossroads?''.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. CARDIN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, June 24, 2009, at 2:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. CARDIN. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet during the session of the Senate on Wednesday, June 24, 2009, at 10 a.m. in room 325 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENT AFFAIRS

Mr. CARDIN. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on Wednesday, June 24, 2009, at 9 a.m. to conduct a hearing entitled ''Type 1 Diabetes Research: Real Progress and Real Hope for a Cure.''

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. CARDIN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Wednesday, June 24, 2009, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building, to conduct a hearing entitled ''Nominations.''

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON VETERANS' AFFAIRS

Mr. CARDIN. Mr. President, I ask unanimous consent that the Committee on Veterans' Affairs be authorized to meet during the session of the Senate on Wednesday, June 24, 2009. The Committee will meet in room 418 of the Russell Senate Office Building beginning at 9:30 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

SPECIAL COMMITTEE ON AGING

Mr. CARDIN. Mr. President, I ask unanimous consent that the Special Committee on Aging be authorized to meet during the session of the Senate on June 24, 2009, from 10:30 a.m.–12 p.m. in Dirksen 562 for the purpose of conducting a hearing.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON EMERGING THREATS AND CAPABILITIES

Mr. CARDIN. Mr. President, I ask unanimous consent that the subcommittee on Emerging Threats and Capabilities of the Committee on Armed Services be authorized to meet during the session of the Senate on Wednesday, June 24, 2009, at 9:30 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. CORNYN. Mr. President, I ask unanimous consent that four law clerks on my staff, Eka Akpakip, Kristina Campbell, Nick Rotsko, and Roberto Valenzuela be granted floor privileges during the remainder of this session.

The PRESIDING OFFICER. Without objection, it is so ordered.

ENHANCED PARTNERSHIP WITH PAKISTAN ACT OF 2009

Mr. REID. I ask unanimous consent the Senate proceed to Calendar No. 85, S. 962.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 962) to authorize appropriations for fiscal years 2009 through 2013 to promote an enhanced strategic partnership with Pakistan and its people, and for other purposes.

There being no objection, the Senate proceeded to consider the bill, which was reported by the Committee on Foreign Relations, with amendments.

(The parts of the bill intended to be stricken are shown in boldface brackets and the parts of the bill intended to be inserted are shown in italics.)

S. 962

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Enhanced Partnership with Pakistan Act of 2009''.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The people of Pakistan and the United States have a long history of friendship and comity, and the interests of both nations are well-served by strengthening and deepening this friendship.

(2) In February 2008, the people of Pakistan elected a civilian government, reversing years of political tension and mounting popular concern over governance and their own democratic reform and political development.

(3) A democratic, moderate, modernizing Pakistan would represent the wishes of the Pakistani people and serve as a model to other countries around the world.

(4) Economic growth is a fundamental foundation for human security and national stability in Pakistan, a country with over 175,000,000 people, an annual population growth rate of 2 percent, and a ranking of 136 out of 177 countries in the United Nations Human Development Index.

(5) Pakistan is a major non-NATO ally of the United States and has been a valuable partner in the battle against al Qaeda and the Taliban, but much more remains to be accomplished by both nations.

(6) The struggle against al Qaeda, the Taliban, and affiliated terrorist groups has led to the deaths of several thousand Pakistani civilians and members of the security forces of Pakistan over the past 7 years.

(7) Since the terrorist attacks of September 11, 2001, more al Qaeda terrorist suspects have been apprehended in Pakistan than in any other country, including Khalid Sheikh Muhammad, Ramzi bin al-Shibh, and Abu Faraj al-Libi.

(8) Despite the sacrifices and cooperation of the security forces of Pakistan, the top leadership of al Qaeda, as well as the leadership and rank-and-file of affiliated terrorist groups, are believed to be using Pakistan's Federally Administered Tribal Areas (FATA) and parts of the North West Frontier Province (NWFP) and Balochistan as a haven and a base from which to organize terrorist actions in Pakistan and globally, including—

(A) attacks outside of Pakistan that have been attributed to groups with Pakistani connections, including—

(i) the suicide car bombing of the Indian embassy in Kabul, Afghanistan, which killed 58 people on June 7, 2008; and

(ii) the massacre of approximately 165 people in Mumbai, India, including 6 United States citizens, in late November 2008; and

(B) attacks within Pakistan, including—

(i) an attack on the visiting Sri Lankan cricket team in Lahore on March 3, 2009;

(ii) an attack at the Marriott hotel in Islamabad on September 9, 2008;

(iii) the bombing of a political rally in Karachi on October 18, 2007;

(iv) the targeting and killing of dozens of tribal, provincial, and national holders of political office;

(v) an attack by gunfire on the U.S. Principal Officer in Peshawar in August 2008; and

(vi) the brazen assassination of former Prime Minister Benazir Bhutto on December 27, 2007.

(9) In the 12-month period ending on the date of the enactment of this Act, Pakistan's security forces have struggled to contain a Taliban-backed insurgency that has spread from FATA into settled areas, including the Swat Valley and other parts of NWFP and Balochistan. This struggle has taken the lives of more than 1,500 police and military personnel and left more than 3,000 wounded.

(10) On March 27, 2009, President Obama noted, ''Multiple intelligence estimates have warned that al Qaeda is actively planning attacks on the U.S. homeland from its safe-haven in Pakistan.''.

(11) According to a Government Accountability Office Report (GAO–08–622), ''since 2003, the administration's national security strategies and Congress have recognized that a comprehensive plan that includes all elements of national power—diplomatic, military, intelligence, development assistance, economic, and law enforcement support—was needed to address the terrorist threat emanating from the FATA'' and that such a strategy was also mandated by section 7102(b)(3) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108–458; 22 U.S.C. 2656f note) and section 2042(b)(2) of the Implementing the Recommendations of the 9/11 Commission Act of 2007 (Public Law 110–53; 22 U.S.C. 2375 note).

(12) In the past year, the people of Pakistan have been especially hard hit by rising food and commodity prices and severe energy shortages, with two-thirds of the population living on less than $2 a day and one-fifth of the population living below the poverty line according to the United Nations Development Program.

(13) The people of Pakistan and the United States share many compatible goals, including—

(A) combating terrorism and violent radicalism, both inside Pakistan and elsewhere;

(B) solidifying democracy and the rule of law in Pakistan;

(C) promoting the economic development of Pakistan, both through the building of infrastructure and the facilitation of increased trade;

(D) promoting the social and material well-being of Pakistani citizens, particularly through development of such basic services as public education, access to potable water, and medical treatment; and

(E) safeguarding the peace and security of South Asia, including by facilitating peaceful relations between Pakistan and its neighbors.

(14) According to consistent opinion research, including that of the Pew Global Attitudes Survey (December 28, 2007) and the International Republican Institute (January 29, 2008), many people in Pakistan have historically viewed the relationship between the United States and Pakistan as a transactional one, characterized by a heavy emphasis on security issues with little attention to other matters of great interest to citizens of Pakistan.

(15) The election of a civilian government in Pakistan in February 2008 provides an opportunity, after nearly a decade of military-dominated rule, to place relations between Pakistan and the United States on a new and more stable foundation.

(16) Both the Government of Pakistan and the United States Government should seek to enhance the bilateral relationship through additional multi-faceted engagement in order to strengthen the foundation for a consistent and reliable long-term partnership between the two countries.

SEC. 3. DEFINITIONS.

In this Act:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term ''appropriate congressional committees'' means the Committees on Appropriations and Foreign Relations of the Senate and the Committees on Appropriations and Foreign Affairs of the House of Representatives.

(2) COUNTERINSURGENCY.—The term ''counterinsurgency'' means efforts to defeat organized movements that seek to overthrow the

duly constituted Governments of Pakistan and Afghanistan through violent means.

(3) COUNTERTERRORISM.—The term ''counterterrorism'' means efforts to combat al Qaeda and other foreign terrorist organizations that are designated by the Secretary of State in accordance with section 219 of the Immigration and Nationality Act (8 U.S.C. 1189), or other individuals and entities engaged in terrorist activity or support for such activity.

(4) FATA.—The term ''FATA'' means the Federally Administered Tribal Areas of Pakistan.

(5) NWFP.—The term ''NWFP'' means the North West Frontier Province of Pakistan, which has Peshawar as its provincial capital.

(6) PAKISTAN-AFGHANISTAN BORDER AREAS.—The term ''Pakistan-Afghanistan border areas'' includes the Pakistan regions known as NWFP, FATA, and parts of Balochistan in which the Taliban or Al Qaeda have traditionally found refuge.

(7) SECURITY-RELATED ASSISTANCE.—The term ''security-related assistance'' means—

(A) grant assistance to carry out section 23 of the Arms Export Control Act (22 U.S.C. 2763);

(B) assistance under chapter 2 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2311 et seq.);

(C) assistance under chapter 5 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2347 et seq.);

(D) any equipment, supplies, and training provided pursuant to section 1206 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163; 119 Stat. 3456); and

(E) any equipment, supplies, and training provided pursuant to section 1206 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–181; 122 Stat. 368).

(8) SECURITY FORCES OF PAKISTAN.—The term ''security forces of Pakistan'' means the military and intelligence services of the Government of Pakistan, including the Armed Forces, Inter-Services Intelligence Directorate, Intelligence Bureau, police forces, levies, Frontier Corps, and Frontier Constabulary.

(9) MAJOR DEFENSE EQUIPMENT.—The term ''major defense equipment'' has the meaning given in section 47(6) of the Arms Export Control Act (22 U.S.C. 2794(6)).

SEC. 4. STATEMENT OF POLICY.

It is the policy of the United States—

(1) to support the consolidation of democracy, good governance, and rule of law in Pakistan;

(2) to support economic growth and development in order to promote stability and security across Pakistan;

(3) to affirm and build a sustained, long-term, multifaceted relationship with Pakistan;

(4) to further the sustainable economic development of Pakistan and the improvement of the living conditions of its citizens, including in the Federally Administered Tribal Areas, by expanding United States bilateral engagement with the Government of Pakistan, especially in areas of direct interest and importance to the daily lives of the people of Pakistan;

(5) to work with Pakistan and the countries bordering Pakistan to facilitate peace in the region and harmonious relations between the countries of the region;

(6) to work with the Government of Pakistan to prevent any Pakistani territory from being used as a base or conduit for terrorist attacks in Pakistan, Afghanistan, India, or elsewhere in the world;

(7) to work in close cooperation with the Government of Pakistan to coordinate military, paramilitary, and police action against terrorist targets;

(8) to work with the Government of Pakistan to help bring peace, stability, and development to all regions of Pakistan, especially those in the Pakistan-Afghanistan border areas, including support for an effective counterinsurgency strategy;

(9) to expand people-to-people engagement between the United States and Pakistan, through increased educational, technical, and cultural exchanges and other methods[; and]

(10) to encourage and promote public-private partnerships in Pakistan in order to bolster ongoing development efforts and strengthen economic prospects, especially with respect to opportunities to build civic responsibility and professional skills of the people of Pakistan[.]; *and*

(11) to encourage the development of local analytical capacity to measure progress on an integrated basis across the areas of donor country expenditure in Pakistan, and better hold the Government of Pakistan accountable for how the funds are being spent.

SEC. 5. AUTHORIZATION OF FUNDS.

(a) AUTHORIZATION.—There are authorized to be appropriated to the President, for the purposes of providing assistance to Pakistan under the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.), the following amounts:

(1) For fiscal year 2009, up to $1,500,000,000.

(2) For fiscal year 2010, up to $1,500,000,000.

(3) For fiscal year 2011, up to $1,500,000,000.

(4) For fiscal year 2012, up to $1,500,000,000.

(5) For fiscal year 2013, up to $1,500,000,000.

(b) AVAILABILITY OF [FUNDS.—Of the amounts] *FUNDS.—*

(1) *IN GENERAL.—Of the funds* appropriated in each fiscal year pursuant to the authorization of appropriations in subsection (a)—

[(1) none of the amounts]

(A) none of the amounts appropriated may be made available after the date of the enactment of this Act for assistance to Pakistan unless the Pakistan Assistance Strategy Report has been submitted to the appropriate congressional committees in accordance with subsection (j); and

[(2) not more than $750,000,000]

(B) not more than $750,000,000 may be made available for assistance to Pakistan in any fiscal year after 2009 unless the President's Special Representative to Afghanistan and Pakistan submits to the appropriate congressional committees during that fiscal year—

[(A) a certification]

(i) a certification that assistance provided to Pakistan under this Act to date has made or is making substantial progress toward achieving the principal objectives of United States assistance to Pakistan contained in the Pakistan Assistance Strategy Report pursuant to subsection (j)(1); and

[(B) a memorandum]

(ii) a memorandum explaining the reasons justifying the certification described in [subsection (A)]*clause (i).*

[(c) MAKER OF CERTIFICATION.—In the event]

(2) *MAKER OF CERTIFICATION.—In the event* of a vacancy in, or the termination of, the position of the President's Special Representative to Afghanistan and Pakistan, the certification described under [subsection (b)(2)]*paragraph (1)(B)* may be made by the Secretary of State.

(c) WAIVER.—The Secretary of State may waive the limitations in subsection (b) if the Secretary determines, and certifies to the appropriate congressional committees, that it is in the national security interests of the United States to provide such waiver.

(d) SENSE OF CONGRESS ON FOREIGN ASSISTANCE FUNDS.—It is the sense of Congress that, subject to an improving political and economic climate in Pakistan, there should be authorized to be appropriated up to $1,500,000,000 per year for fiscal years 2014 through 2018 for the purpose of providing assistance to Pakistan under the Foreign Assistance Act of 1961.

(e) SENSE OF CONGRESS ON SECURITY-RELATED ASSISTANCE.—It is the sense of Congress that security-related assistance to the [Government of Pakistan should be provided in close coordination with the Government of Pakistan, designed to improve the Government's capabilities in areas of mutual concern, and maintained at a level that will bring significant gains in pursuing the policies set forth in paragraphs (6), (7), and (8) of section 4.]*Government of Pakistan—*

(1) should be provided in close coordination with the Government of Pakistan, designed to improve the Government's capabilities in areas of mutual concern, and maintained at a level that will bring significant gains in pursuing the policies set forth in paragraphs (6), (7), and (8) of section 4; and

(2) should be geared primarily toward bolstering the counter-insurgency capabilities of the Government to effectively defeat the Taliban-backed insurgency and deny popular support to al Qaeda and other foreign terrorist organizations that are based in Pakistan.

(f) USE OF FUNDS.—

(1) IN GENERAL.—Funds appropriated pursuant to subsection (a) shall be used for projects intended to benefit the people of Pakistan, including projects that promote—

(A) just and democratic governance, including—

(i) police reform, equipping, and training;

(ii) independent, efficient, and effective judicial systems;

(iii) political pluralism, equality, and the rule of law;

(iv) respect for human and civil rights and the promotion of an independent media;

(v) transparency and accountability of all branches of government and judicial proceedings;

(vi) anticorruption efforts among bureaucrats, elected officials, and public servants at all levels of military and civilian government [administration; and

[(vii) countering the narcotics trade;] *administration;*

(vii) countering the narcotics trade; and

(viii) the implementation of legal and political reforms in the FATA;

(B) economic freedom, including—

(i) sustainable economic growth, including in rural areas, and the sustainable management of natural resources;

(ii) investments in energy and water, including energy generation and cross-border infrastructure projects with Afghanistan;

(iii) employment generation, including essential basic infrastructure projects such as roads and irrigation projects and other physical infrastructure; and

(iv) worker rights, including the right to form labor unions and legally enforce provisions safeguarding the rights of workers and local community stakeholders[; and];

(C) investments in people, particularly women and children, including—

(i) broad-based public primary and secondary education and vocational training for both boys and girls;

(ii) food security and agricultural development to ensure food staples and other crops

that provide economic growth and income opportunities in times of severe shortage;

(iii) quality public health, including medical clinics with well trained staff serving rural and urban [communities; and

(iv) higher education] *communities;*

(iv) vocational training for women and access to microfinance for small business establishment and income generation for women; and

(v) higher education to ensure a breadth and consistency of Pakistani graduates to prepare citizens to help strengthen the foundation for improved governance and economic vitality, including through public-private partnerships[.]*; and*

(D) long-term development in regions of Pakistan where internal conflict has caused large-scale displacement.

(2) FUNDING FOR POLICE REFORM, EQUIPPING, AND TRAINING.—Up to $100,000,000 of the funds appropriated pursuant to subsection (a) should be used for police reform, equipping, and training.

(g) PREFERENCE FOR BUILDING LOCAL CAPACITY.—The President is encouraged, as appropriate, to utilize Pakistani firms and community and local nongovernmental organizations in Pakistan, including through host country contacts, and to work with local leaders to provide assistance under this section.

(h) AUTHORITY TO USE FUNDS FOR OPERATIONAL AND AUDIT EXPENSES.—

(1) IN GENERAL.—Of the amounts appropriated for a fiscal year pursuant to subsection (a)—

(A) up to $10,000,000 may be used for administrative expenses of Federal departments and agencies in connection with the provision of assistance authorized by this section;

(B) up to [$20,000,000]*$30,000,000* may be made available to the Inspectors General of the Department of State, the United States Agency for International Development, and other relevant Executive branch agencies in order to provide audits and program reviews of projects funded pursuant to this section; and

(C) up to $5,000,000 may be used by the Secretary to establish a Chief of Mission Fund for use by the Chief of Mission in Pakistan to provide assistance to Pakistan under the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.) to address urgent needs or opportunities, consistent with the purposes outlined in subsection (f) or for purposes of humanitarian relief.

(2) AUTHORITY IN ADDITION TO EXISTING AMOUNTS.—The amounts authorized under subparagraphs (A) and (B) of paragraph (1) to be used for the purposes described in such subparagraphs are in addition to other amounts that are available for such purposes.

(i) USE OF FUNDS.—Amounts appropriated or otherwise made available to carry out this section shall be utilized to the maximum extent possible as direct expenditures for projects and programs, subject to existing reporting and notification requirements.

(j) PAKISTAN ASSISTANCE STRATEGY REPORT.—Not later than [30 days]*45 days* after the date of enactment of this Act, or September 15, 2009, whichever date comes later, the [President] *Secretary of State* shall submit to the appropriate congressional committees a report describing United States policy and strategy with respect to assistance to Pakistan. The report shall include—

(1) a description of the principal objectives of United States assistance to Pakistan to be provided under this Act;

(2) the amounts of funds authorized to be appropriated under subsection (a) proposed to be allocated to programs or projects designed to achieve each of the purposes of assistance listed in subsection (f);

(3) a description of the specific projects and programs for which amounts authorized to be appropriated pursuant to subsection (a) are proposed to be allocated;

(4) a list of [criteria to be used to measure the effectiveness of projects described under subsection (f), including a systematic, qualitative basis]*criteria and benchmarks to be used to measure the effectiveness of projects described under subsection (f), including a systematic, qualitative, and where possible, quantitative basis* for assessing whether desired outcomes are achieved and a timeline for completion of each project and program;

(5) a description of the role to be played by Pakistani national, regional, and local officials *and members of Pakistani civil society and local private sector, civic, religious, and tribal leaders* in helping to identify and implement programs and projects for which assistance is to be provided under this Act, and of consultations with [such officials] *such representatives* in developing the strategy[; and];

(6) a description of all amounts made available for assistance to Pakistan during fiscal year 2009 prior to submission of the report, including a description of each project or program for which funds were made available and the amounts allocated to each such program or project[.];

(7) a description of the steps taken, or to be taken, to ensure assistance provided under this Act is not awarded to individuals or entities affiliated with terrorist organizations; and

(8) a projection of the levels of assistance to be provided to Pakistan under this Act, broken down into the following categories as described in the annual ''Report on the Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance'':

(A) Civil liberties.
(B) Political rights.
(C) Voice and accountability.
(D) Government effectiveness.
(E) Rule of law.
(F) Control of corruption.
(G) Immunization rates.
(H) Public expenditure on health.
(I) Girls' primary education completion rate.
(J) Public expenditure on primary education.
(K) Natural resource management.
(L) Business start-up.
(M) Land rights and access.
(N) Trade policy.
(O) Regulatory quality.
(P) Inflation control.
(Q) Fiscal policy.

(k) NOTIFICATION REQUIREMENTS.—

(1) NOTICE OF ASSISTANCE FOR BUDGET SUPPORT.—The President shall notify the appropriate congressional committees not later than 15 days before obligating any assistance under this section as budgetary support to the Government of Pakistan or any element of such Government and shall describe the purpose and conditions attached to any such budgetary support.

(2) SEMIANNUAL REPORT.—Not later than 90 days after the submission of the Pakistan Assistance Strategy Report pursuant to subsection (j), and every 180 days thereafter, the [President] *Secretary of State* shall submit a report to the appropriate congressional committees that describes the assistance provided under this section. The report shall include—

(A) a description of all assistance provided pursuant to this Act since the submission of the last report, including each program or project for which assistance was provided and the amount of assistance provided for each program or project;

(B) a description of all assistance provided pursuant to this Act, including—

(i) the total amount of assistance provided for each of the purposes described in subsection (f); and

(ii) the total amount of assistance allocated to programs or projects in each region in Pakistan;

(C) a list of persons or entities from the United States or other countries that have received funds in excess of [$250,000]*$100,000* to conduct projects under this section during the period covered by the report, which may be included in a classified annex, if necessary to avoid a security risk, and a justification for the classification;

(D) an assessment of the effectiveness of assistance provided pursuant to this Act during the period covered by the report in achieving desired objectives and outcomes, measured on the basis of the criteria contained in the Pakistan Assistant Strategy Report pursuant to subsection (j)(4);

(E) a description of—

(i) the programs and projects for which amounts appropriated pursuant to subsection (a) are proposed to be allocated during the 180-day period after the submission of the report;

(ii) the relationship of such programs and projects to the purposes of assistance described in subsection (f); and

(iii) the amounts proposed to be allocated to each such program or project;

(F) a description of any shortfall in United States financial, physical, technical, or human resources that hinder the effective use and monitoring of such funds;

(G) a description of any negative impact, including the absorptive capacity of the region for which the resources are intended, of United States bilateral or multilateral assistance and recommendations for modification of funding, if any;

(H) any incidents or reports of waste, fraud, and abuse of expenditures under this section;

(I) the amount of funds appropriated pursuant to subsection (a) that were used during the reporting period for administrative expenses or for audits and program reviews pursuant to the authority under [subsection (h); and] *subsection (h);*

(J) a description of the expenditures made from any Chief of Mission Fund established pursuant to subsection (h)(3) during the period covered by the report, the purposes for which such expenditures were made, and a list of the recipients of any expenditures from the Chief of Mission Fund in excess of $10,000[.]*; and*

(K) an accounting of assistance provided to Pakistan under this Act, broken down into the categories set forth in subsection (j)(8).

(l) GOVERNMENT ACCOUNTABILITY OFFICE REPORT.—Not later than one year after the submission of the Pakistan Assistance Strategy Report under subsection (j), and annually thereafter, the Comptroller General of the United States shall submit to the appropriate congressional committees a report that contains—

(1) a review of, and comments addressing, the Pakistan Assistance Strategy Report; and

(2) recommendations relating to any additional actions the Comptroller General believes could help improve the efficiency and effectiveness of United States efforts to meet the objectives of this Act.

(m) SENSE OF CONGRESS ON FUNDING OF PRIORITIES.—It is the sense of Congress that, as

a general principle, the Government of Pakistan should allocate a greater portion of its budget to the recurrent costs associated with education, health, and other priorities described in this section.

(n) CONSULTATION REQUIREMENT.—The President shall consult the appropriate congressional committees on the strategy in subsection (j), including criteria and benchmarks developed under paragraph (4) of such subsection, not later than 15 days before obligating any assistance under this section.

SEC. 6. LIMITATION ON CERTAIN ASSISTANCE.

(a) LIMITATION ON CERTAIN MILITARY ASSISTANCE.—Beginning in fiscal year 2010, no grant assistance to carry out section 23 of the Arms Export Control Act (22 U.S.C. 2763) and no assistance under chapter 2 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2311 et seq.) may be provided to Pakistan in a fiscal year until the Secretary of State makes the certification required under subsection (c).

(b) LIMITATION ON ARMS TRANSFERS.—Beginning in fiscal year 2012, no letter of offer to sell major defense equipment to Pakistan may be issued pursuant to the Arms Export Control Act (22 U.S.C. 2751 et seq.) and no license to export major defense equipment to Pakistan may be issued pursuant to such Act in a fiscal year until the Secretary of State makes the certification required under subsection (c).

(c) CERTIFICATION.—The certification required by this subsection is a certification to the appropriate congressional committees by the Secretary of State, after consultation with the Secretary of Defense and the Director of National Intelligence, that the security forces of Pakistan—

(1) are making concerted [and consistent] efforts to prevent al Qaeda and associated terrorist groups, including Lashkar-e-Taiba and Jaish-e-Mohammed, from operating in the territory of Pakistan;

(2) are making concerted [and consistent] efforts to prevent the Taliban and associated militant groups from using the territory of Pakistan as a sanctuary from which to launch attacks within Afghanistan; and

(3) are not materially interfering in the political or judicial processes of Pakistan.

(d) WAIVER.—The Secretary of State may waive the limitations in subsections (a) and (b) if the Secretary determines it is important to the national security interests of the United States to provide such waiver.

(e) PRIOR NOTICE OF WAIVER.—A waiver pursuant to subsection (d) may not be exercised until 15 days after the Secretary of State provides to the appropriate congressional committees written notice of the intent to issue such waiver and the reasons therefor. The notice may be submitted in classified or unclassified form, as necessary.

(f) ANNUAL REPORT.—The Secretary of State, after consultation with the Secretary of Defense and the Director of National Intelligence, shall submit to the appropriate congressional committees an annual report on the progress of the security forces of Pakistan in satisfying the requirements enumerated in subsection (c). The Secretary of State shall establish detailed, specific requirements and metrics for evaluating the progress in satisfying these requirements and apply these requirements and metrics consistently in each annual report. This report may be submitted in classified or unclassified form, as necessary.

SEC. 7. SENSE OF CONGRESS ON COALITION SUPPORT FUNDS.

It is the sense of Congress that—

(1) Coalition Support Funds are critical components of the global fight against terrorism, and in Pakistan provide essential support for—

(A) military operations of the Government of Pakistan to destroy the terrorist threat and close the terrorist safe haven, known or suspected, in the FATA, the NWFP, and other regions of Pakistan; and

(B) military operations of the Government of Pakistan to protect United States and allied logistic operations in support of Operation Enduring Freedom in Afghanistan;

(2) despite the broad discretion Congress granted the Secretary of Defense in terms of managing Coalition Support Funds, the Pakistan reimbursement claims process for Coalition Support Funds requires increased oversight and accountability, consistent with the conclusions of the June 2008 report of the United States Government Accountability Office (GAO–08–806);

(3) in order to ensure that this significant United States effort in support of countering terrorism in Pakistan effectively ensures the intended use of Coalition Support Funds, and to avoid redundancy in other security assistance programs, such as Foreign Military Financing and Foreign Military Sales, more specific guidance should be generated, and accountability delineated, for officials associated with oversight of this program within the United States Embassy in Pakistan, the United States Central Command, the Department of Defense, the Department of State, and the Office of Management and Budget; and

(4) the Secretary of Defense should submit to the appropriate congressional committees and the Committees on Armed Services of the Senate and the House of Representatives a semiannual report on the use of Coalition Support Funds, which may be submitted in classified or unclassified form as necessary.

SEC. 8. PAKISTAN-AFGHANISTAN BORDER AREAS STRATEGY.

(a) DEVELOPMENT OF COMPREHENSIVE STRATEGY.—The Secretary of State, in consultation with the Secretary of Defense, the Director of National Intelligence, and such other government officials as may be appropriate, shall develop a comprehensive, cross-border strategy that includes all elements of national power—diplomatic, military, intelligence, development assistance, humanitarian, law enforcement support, and strategic communications and information technology—for working with the Government of Pakistan, the Government of Afghanistan, NATO, and other like-minded allies to best implement effective counterterrorism and counterinsurgency measurers in and near the Pakistan-Afghanistan border areas.

(b) REPORT.—Not later than 90 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees a detailed description of a comprehensive strategy for counterterrorism and counterinsurgency in the Pakistan-Afghanistan border areas containing the elements specified in subsection (a) and proposed timelines and budgets for implementing the strategy.

SEC. 9. SENSE OF CONGRESS.

It is the sense of Congress that the United States should—

(1) recognize the bold political steps the Pakistan electorate has taken during a time of heightened sensitivity and tension in 2007 and 2008 to elect a new civilian government, as well as the continued quest for good governance and the rule of law under the elected government in 2008 and 2009;

(2) seize this strategic opportunity in the interests of Pakistan as well as in the national security interests of the United States to expand its engagement with the Government and people of Pakistan in areas of particular interest and importance to the people of Pakistan;

(3) continue to build a responsible and reciprocal security relationship taking into account the national security interests of the United States as well as regional and national dynamics in Pakistan to further strengthen and enable the position of Pakistan as a major non-NATO ally[; and];

(4) seek ways to strengthen our countries' mutual understanding and promote greater insight and knowledge of each other's social, cultural and historical diversity through personnel exchanges and support for the establishment of institutions of higher learning with international accreditation[.]; *and*

(5) explore means to consult with and utilize the relevant expertise and skills of the Pakistani-American community.

SEC. 10. TERM OF YEARS.

With the exception of subsections (b)(1)(B), (j), (k), and (l) of section 5, this Act shall remain in force after September 30, 2013.

Mr. CARDIN. Mr. President, I am pleased the Senate is considering S. 962, the Enhanced Partnership with Pakistan Act. I would like to commend Senator KERRY and Senator LUGAR—the chairman and ranking member of the Foreign Relations Committee, respectively for introducing this important legislation and working to achieve its passage. I am proud to cosponsor this bill.

Pakistan's stability is of vital strategic importance to the United States of America. A nuclear-armed nation, Pakistan is also home to Taliban and al-Qaida militants who have taken countless innocent lives in their quest to impose an extremist vision on the world. We must support the Government of Pakistan as it confronts the threat of violent extremism, and we must support the people of Pakistan to enable them to resist extremist threats. Reports indicate over 2 million Pakistanis have been displaced following Taliban advances in recent months. This humanitarian crisis is compounded by fundamental problems of widespread poverty and underdevelopment. The United Nations Development Program reports two-thirds of Pakistan's population live on less than $2 a day. America's efforts in Pakistan must empower Pakistanis to improve their living conditions and resist propaganda campaigns by extremist groups. The Enhanced Partnership with Pakistan Act is an essential effort in accomplishing this mission.

America's relationship with Pakistan has too often relied on military aid and not enough on promoting a deeper, long-term strategic engagement with the Pakistani people. The Enhanced Partnership with Pakistan Act is intended to transform this relationship. The bill calls for a tripling of nonmilitary aid to Pakistan and conditions assistance of the United States on Pakistan's continued progress and achievement of benchmarks. In these difficult economic times, we must ensure taxpayer dollars are spent wisely.

The Enhanced Partnership with Pakistan Act requires the President to submit regular reports to Congress to ensure this is the case, and resources have the desired impact.

I look forward to continuing to build our relationship with the people of Pakistan as we tackle shared challenges and explore shared opportunities.

Mr. REID. I ask unanimous consent the committee-reported amendments be agreed to, the bill as amended be read three times, passed, the motion to reconsider be laid on the table, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee-reported amendments were agreed to.

The bill (S. 962), as amended, was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 962

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Enhanced Partnership with Pakistan Act of 2009''.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The people of Pakistan and the United States have a long history of friendship and comity, and the interests of both nations are well-served by strengthening and deepening this friendship.

(2) In February 2008, the people of Pakistan elected a civilian government, reversing years of political tension and mounting popular concern over governance and their own democratic reform and political development.

(3) A democratic, moderate, modernizing Pakistan would represent the wishes of the Pakistani people and serve as a model to other countries around the world.

(4) Economic growth is a fundamental foundation for human security and national stability in Pakistan, a country with over 175,000,000 people, an annual population growth rate of 2 percent, and a ranking of 136 out of 177 countries in the United Nations Human Development Index.

(5) Pakistan is a major non-NATO ally of the United States and has been a valuable partner in the battle against al Qaeda and the Taliban, but much more remains to be accomplished by both nations.

(6) The struggle against al Qaeda, the Taliban, and affiliated terrorist groups has led to the deaths of several thousand Pakistani civilians and members of the security forces of Pakistan over the past 7 years.

(7) Since the terrorist attacks of September 11, 2001, more al Qaeda terrorist suspects have been apprehended in Pakistan than in any other country, including Khalid Sheikh Muhammad, Ramzi bin al-Shibh, and Abu Faraj al-Libi.

(8) Despite the sacrifices and cooperation of the security forces of Pakistan, the top leadership of al Qaeda, as well as the leadership and rank-and-file of affiliated terrorist groups, are believed to be using Pakistan's Federally Administered Tribal Areas (FATA) and parts of the North West Frontier Province (NWFP) and Balochistan as a haven and a base from which to organize terrorist actions in Pakistan and globally, including—

(A) attacks outside of Pakistan that have been attributed to groups with Pakistani connections, including—

(i) the suicide car bombing of the Indian embassy in Kabul, Afghanistan, which killed 58 people on June 7, 2008; and

(ii) the massacre of approximately 165 people in Mumbai, India, including 6 United States citizens, in late November 2008; and

(B) attacks within Pakistan, including—

(i) an attack on the visiting Sri Lankan cricket team in Lahore on March 3, 2009;

(ii) an attack at the Marriott hotel in Islamabad on September 9, 2008;

(iii) the bombing of a political rally in Karachi on October 18, 2007;

(iv) the targeting and killing of dozens of tribal, provincial, and national holders of political office;

(v) an attack by gunfire on the U.S. Principal Officer in Peshawar in August 2008; and

(vi) the brazen assassination of former Prime Minister Benazir Bhutto on December 27, 2007.

(9) In the 12-month period ending on the date of the enactment of this Act, Pakistan's security forces have struggled to contain a Taliban-backed insurgency that has spread from FATA into settled areas, including the Swat Valley and other parts of NWFP and Balochistan. This struggle has taken the lives of more than 1,500 police and military personnel and left more than 3,000 wounded.

(10) On March 27, 2009, President Obama noted, ''Multiple intelligence estimates have warned that al Qaeda is actively planning attacks on the U.S. homeland from its safehaven in Pakistan.''.

(11) According to a Government Accountability Office Report (GAO–08–622), ''since 2003, the administration's national security strategies and Congress have recognized that a comprehensive plan that includes all elements of national power—diplomatic, military, intelligence, development assistance, economic, and law enforcement support—was needed to address the terrorist threat emanating from the FATA'' and that such a strategy was also mandated by section 7102(b)(3) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108–458; 22 U.S.C. 2656f note) and section 2042(b)(2) of the Implementing the Recommendations of the 9/11 Commission Act of 2007 (Public Law 110–53; 22 U.S.C. 2375 note).

(12) In the past year, the people of Pakistan have been especially hard hit by rising food and commodity prices and severe energy shortages, with two-thirds of the population living on less than $2 a day and one-fifth of the population living below the poverty line according to the United Nations Development Program.

(13) The people of Pakistan and the United States share many compatible goals, including—

(A) combating terrorism and violent radicalism, both inside Pakistan and elsewhere;

(B) solidifying democracy and the rule of law in Pakistan;

(C) promoting the economic development of Pakistan, both through the building of infrastructure and the facilitation of increased trade;

(D) promoting the social and material well-being of Pakistani citizens, particularly through development of such basic services as public education, access to potable water, and medical treatment; and

(E) safeguarding the peace and security of South Asia, including by facilitating peaceful relations between Pakistan and its neighbors.

(14) According to consistent opinion research, including that of the Pew Global Attitudes Survey (December 28, 2007) and the International Republican Institute (January 29, 2008), many people in Pakistan have historically viewed the relationship between the United States and Pakistan as a transactional one, characterized by a heavy emphasis on security issues with little attention to other matters of great interest to citizens of Pakistan.

(15) The election of a civilian government in Pakistan in February 2008 provides an opportunity, after nearly a decade of military-dominated rule, to place relations between Pakistan and the United States on a new and more stable foundation.

(16) Both the Government of Pakistan and the United States Government should seek to enhance the bilateral relationship through additional multi-faceted engagement in order to strengthen the foundation for a consistent and reliable long-term partnership between the two countries.

SEC. 3. DEFINITIONS.

In this Act:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term ''appropriate congressional committees'' means the Committees on Appropriations and Foreign Relations of the Senate and the Committees on Appropriations and Foreign Affairs of the House of Representatives.

(2) COUNTERINSURGENCY.—The term ''counterinsurgency'' means efforts to defeat organized movements that seek to overthrow the duly constituted Governments of Pakistan and Afghanistan through violent means.

(3) COUNTERTERRORISM.—The term ''counterterrorism'' means efforts to combat al Qaeda and other foreign terrorist organizations that are designated by the Secretary of State in accordance with section 219 of the Immigration and Nationality Act (8 U.S.C. 1189), or other individuals and entities engaged in terrorist activity or support for such activity.

(4) FATA.—The term ''FATA'' means the Federally Administered Tribal Areas of Pakistan.

(5) NWFP.—The term ''NWFP'' means the North West Frontier Province of Pakistan, which has Peshawar as its provincial capital.

(6) PAKISTAN-AFGHANISTAN BORDER AREAS.—The term ''Pakistan-Afghanistan border areas'' includes the Pakistan regions known as NWFP, FATA, and parts of Balochistan in which the Taliban or Al Qaeda have traditionally found refuge.

(7) SECURITY-RELATED ASSISTANCE.—The term ''security-related assistance'' means—

(A) grant assistance to carry out section 23 of the Arms Export Control Act (22 U.S.C. 2763);

(B) assistance under chapter 2 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2311 et seq.);

(C) assistance under chapter 5 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2347 et seq.);

(D) any equipment, supplies, and training provided pursuant to section 1206 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163; 119 Stat. 3456); and

(E) any equipment, supplies, and training provided pursuant to section 1206 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–181; 122 Stat. 368).

(8) SECURITY FORCES OF PAKISTAN.—The term ''security forces of Pakistan'' means the military and intelligence services of the Government of Pakistan, including the Armed Forces, Inter-Services Intelligence Directorate, Intelligence Bureau, police

forces, levies, Frontier Corps, and Frontier Constabulary.

(9) MAJOR DEFENSE EQUIPMENT.—The term ''major defense equipment'' has the meaning given in section 47(6) of the Arms Export Control Act (22 U.S.C. 2794(6)).

SEC. 4. STATEMENT OF POLICY.

It is the policy of the United States—

(1) to support the consolidation of democracy, good governance, and rule of law in Pakistan;

(2) to support economic growth and development in order to promote stability and security across Pakistan;

(3) to affirm and build a sustained, long-term, multifaceted relationship with Pakistan;

(4) to further the sustainable economic development of Pakistan and the improvement of the living conditions of its citizens, including in the Federally Administered Tribal Areas, by expanding United States bilateral engagement with the Government of Pakistan, especially in areas of direct interest and importance to the daily lives of the people of Pakistan;

(5) to work with Pakistan and the countries bordering Pakistan to facilitate peace in the region and harmonious relations between the countries of the region;

(6) to work with the Government of Pakistan to prevent any Pakistani territory from being used as a base or conduit for terrorist attacks in Pakistan, Afghanistan, India, or elsewhere in the world;

(7) to work in close cooperation with the Government of Pakistan to coordinate military, paramilitary, and police action against terrorist targets;

(8) to work with the Government of Pakistan to help bring peace, stability, and development to all regions of Pakistan, especially those in the Pakistan-Afghanistan border areas, including support for an effective counterinsurgency strategy;

(9) to expand people-to-people engagement between the United States and Pakistan, through increased educational, technical, and cultural exchanges and other methods;

(10) to encourage and promote public-private partnerships in Pakistan in order to bolster ongoing development efforts and strengthen economic prospects, especially with respect to opportunities to build civic responsibility and professional skills of the people of Pakistan; and

(11) to encourage the development of local analytical capacity to measure progress on an integrated basis across the areas of donor country expenditure in Pakistan, and better hold the Government of Pakistan accountable for how the funds are being spent.

SEC. 5. AUTHORIZATION OF FUNDS.

(a) AUTHORIZATION.—There are authorized to be appropriated to the President, for the purposes of providing assistance to Pakistan under the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.), the following amounts:

(1) For fiscal year 2009, up to $1,500,000,000.

(2) For fiscal year 2010, up to $1,500,000,000.

(3) For fiscal year 2011, up to $1,500,000,000.

(4) For fiscal year 2012, up to $1,500,000,000.

(5) For fiscal year 2013, up to $1,500,000,000.

(b) AVAILABILITY OF FUNDS.—

(1) IN GENERAL.—Of the funds appropriated in each fiscal year pursuant to the authorization of appropriations in subsection (a)—

(A) none of the amounts appropriated may be made available after the date of the enactment of this Act for assistance to Pakistan unless the Pakistan Assistance Strategy Report has been submitted to the appropriate congressional committees in accordance with subsection (j); and

(B) not more than $750,000,000 may be made available for assistance to Pakistan in any fiscal year after 2009 unless the President's Special Representative to Afghanistan and Pakistan submits to the appropriate congressional committees during that fiscal year—

(i) a certification that assistance provided to Pakistan under this Act to date has made or is making substantial progress toward achieving the principal objectives of United States assistance to Pakistan contained in the Pakistan Assistance Strategy Report pursuant to subsection (j)(1); and

(ii) a memorandum explaining the reasons justifying the certification described in clause (i).

(2) MAKER OF CERTIFICATION.—In the event of a vacancy in, or the termination of, the position of the President's Special Representative to Afghanistan and Pakistan, the certification described under paragraph (1)(B) may be made by the Secretary of State.

(c) WAIVER.—The Secretary of State may waive the limitations in subsection (b) if the Secretary determines, and certifies to the appropriate congressional committees, that it is in the national security interests of the United States to provide such waiver.

(d) SENSE OF CONGRESS ON FOREIGN ASSISTANCE FUNDS.—It is the sense of Congress that, subject to an improving political and economic climate in Pakistan, there should be authorized to be appropriated up to $1,500,000,000 per year for fiscal years 2014 through 2018 for the purpose of providing assistance to Pakistan under the Foreign Assistance Act of 1961.

(e) SENSE OF CONGRESS ON SECURITY-RELATED ASSISTANCE.—It is the sense of Congress that security-related assistance to the Government of Pakistan—

(1) should be provided in close coordination with the Government of Pakistan, designed to improve the Government's capabilities in areas of mutual concern, and maintained at a level that will bring significant gains in pursuing the policies set forth in paragraphs (6), (7), and (8) of section 4; and

(2) should be geared primarily toward bolstering the counter-insurgency capabilities of the Government to effectively defeat the Taliban-backed insurgency and deny popular support to al Qaeda and other foreign terrorist organizations that are based in Pakistan.

(f) USE OF FUNDS.—

(1) IN GENERAL.—Funds appropriated pursuant to subsection (a) shall be used for projects intended to benefit the people of Pakistan, including projects that promote—

(A) just and democratic governance, including—

(i) police reform, equipping, and training;

(ii) independent, efficient, and effective judicial systems;

(iii) political pluralism, equality, and the rule of law;

(iv) respect for human and civil rights and the promotion of an independent media;

(v) transparency and accountability of all branches of government and judicial proceedings;

(vi) anticorruption efforts among bureaucrats, elected officials, and public servants at all levels of military and civilian government administration;

(vii) countering the narcotics trade; and

(viii) the implementation of legal and political reforms in the FATA;

(B) economic freedom, including—

(i) sustainable economic growth, including in rural areas, and the sustainable management of natural resources;

(ii) investments in energy and water, including energy generation and cross-border infrastructure projects with Afghanistan;

(iii) employment generation, including essential basic infrastructure projects such as roads and irrigation projects and other physical infrastructure; and

(iv) worker rights, including the right to form labor unions and legally enforce provisions safeguarding the rights of workers and local community stakeholders;

(C) investments in people, particularly women and children, including—

(i) broad-based public primary and secondary education and vocational training for both boys and girls;

(ii) food security and agricultural development to ensure food staples and other crops that provide economic growth and income opportunities in times of severe shortage;

(iii) quality public health, including medical clinics with well trained staff serving rural and urban communities;

(iv) vocational training for women and access to microfinance for small business establishment and income generation for women; and

(v) higher education to ensure a breadth and consistency of Pakistani graduates to prepare citizens to help strengthen the foundation for improved governance and economic vitality, including through public-private partnerships; and

(D) long-term development in regions of Pakistan where internal conflict has caused large-scale displacement.

(2) FUNDING FOR POLICE REFORM, EQUIPPING, AND TRAINING.—Up to $100,000,000 of the funds appropriated pursuant to subsection (a) should be used for police reform, equipping, and training.

(g) PREFERENCE FOR BUILDING LOCAL CAPACITY.—The President is encouraged, as appropriate, to utilize Pakistani firms and community and local nongovernmental organizations in Pakistan, including through host country contacts, and to work with local leaders to provide assistance under this section.

(h) AUTHORITY TO USE FUNDS FOR OPERATIONAL AND AUDIT EXPENSES.—

(1) IN GENERAL.—Of the amounts appropriated for a fiscal year pursuant to subsection (a)—

(A) up to $10,000,000 may be used for administrative expenses of Federal departments and agencies in connection with the provision of assistance authorized by this section;

(B) up to $30,000,000 may be made available to the Inspectors General of the Department of State, the United States Agency for International Development, and other relevant Executive branch agencies in order to provide audits and program reviews of projects funded pursuant to this section; and

(C) up to $5,000,000 may be used by the Secretary to establish a Chief of Mission Fund for use by the Chief of Mission in Pakistan to provide assistance to Pakistan under the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.) to address urgent needs or opportunities, consistent with the purposes outlined in subsection (f) or for purposes of humanitarian relief.

(2) AUTHORITY IN ADDITION TO EXISTING AMOUNTS.—The amounts authorized under subparagraphs (A) and (B) of paragraph (1) to be used for the purposes described in such subparagraphs are in addition to other amounts that are available for such purposes.

(i) USE OF FUNDS.—Amounts appropriated or otherwise made available to carry out this section shall be utilized to the maximum extent possible as direct expenditures for

projects and programs, subject to existing reporting and notification requirements.

(j) PAKISTAN ASSISTANCE STRATEGY REPORT.—Not later than 45 days after the date of enactment of this Act, or September 15, 2009, whichever date comes later, the Secretary of State shall submit to the appropriate congressional committees a report describing United States policy and strategy with respect to assistance to Pakistan. The report shall include—

(1) a description of the principal objectives of United States assistance to Pakistan to be provided under this Act;

(2) the amounts of funds authorized to be appropriated under subsection (a) proposed to be allocated to programs or projects designed to achieve each of the purposes of assistance listed in subsection (f);

(3) a description of the specific projects and programs for which amounts authorized to be appropriated pursuant to subsection (a) are proposed to be allocated;

(4) a list of criteria and benchmarks to be used to measure the effectiveness of projects described under subsection (f), including a systematic, qualitative, and where possible, quantitative basis for assessing whether desired outcomes are achieved and a timeline for completion of each project and program;

(5) a description of the role to be played by Pakistani national, regional, and local officials and members of Pakistani civil society and local private sector, civic, religious, and tribal leaders in helping to identify and implement programs and projects for which assistance is to be provided under this Act, and of consultations with such representatives in developing the strategy;

(6) a description of all amounts made available for assistance to Pakistan during fiscal year 2009 prior to submission of the report, including a description of each project or program for which funds were made available and the amounts allocated to each such program or project;

(7) a description of the steps taken, or to be taken, to ensure assistance provided under this Act is not awarded to individuals or entities affiliated with terrorist organizations; and

(8) a projection of the levels of assistance to be provided to Pakistan under this Act, broken down into the following categories as described in the annual ''Report on the Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance'':

(A) Civil liberties.
(B) Political rights.
(C) Voice and accountability.
(D) Government effectiveness.
(E) Rule of law.
(F) Control of corruption.
(G) Immunization rates.
(H) Public expenditure on health.
(I) Girls' primary education completion rate.
(J) Public expenditure on primary education.
(K) Natural resource management.
(L) Business start-up.
(M) Land rights and access.
(N) Trade policy.
(O) Regulatory quality.
(P) Inflation control.
(Q) Fiscal policy.

(k) NOTIFICATION REQUIREMENTS.—

(1) NOTICE OF ASSISTANCE FOR BUDGET SUPPORT.—The President shall notify the appropriate congressional committees not later than 15 days before obligating any assistance under this section as budgetary support to the Government of Pakistan or any element of such Government and shall describe the purpose and conditions attached to any such budgetary support.

(2) SEMIANNUAL REPORT.—Not later than 90 days after the submission of the Pakistan Assistance Strategy Report pursuant to subsection (j), and every 180 days thereafter, the Secretary of State shall submit a report to the appropriate congressional committees that describes the assistance provided under this section. The report shall include—

(A) a description of all assistance provided pursuant to this Act since the submission of the last report, including each program or project for which assistance was provided and the amount of assistance provided for each program or project;

(B) a description of all assistance provided pursuant to this Act, including—

(i) the total amount of assistance provided for each of the purposes described in subsection (f); and

(ii) the total amount of assistance allocated to programs or projects in each region in Pakistan;

(C) a list of persons or entities from the United States or other countries that have received funds in excess of $100,000 to conduct projects under this section during the period covered by the report, which may be included in a classified annex, if necessary to avoid a security risk, and a justification for the classification;

(D) an assessment of the effectiveness of assistance provided pursuant to this Act during the period covered by the report in achieving desired objectives and outcomes, measured on the basis of the criteria contained in the Pakistan Assistant Strategy Report pursuant to subsection (j)(4);

(E) a description of—

(i) the programs and projects for which amounts appropriated pursuant to subsection (a) are proposed to be allocated during the 180-day period after the submission of the report;

(ii) the relationship of such programs and projects to the purposes of assistance described in subsection (f); and

(iii) the amounts proposed to be allocated to each such program or project;

(F) a description of any shortfall in United States financial, physical, technical, or human resources that hinder the effective use and monitoring of such funds;

(G) a description of any negative impact, including the absorptive capacity of the region for which the resources are intended, of United States bilateral or multilateral assistance and recommendations for modification of funding, if any;

(H) any incidents or reports of waste, fraud, and abuse of expenditures under this section;

(I) the amount of funds appropriated pursuant to subsection (a) that were used during the reporting period for administrative expenses or for audits and program reviews pursuant to the authority under subsection (h);

(J) a description of the expenditures made from any Chief of Mission Fund established pursuant to subsection (h)(3) during the period covered by the report, the purposes for which such expenditures were made, and a list of the recipients of any expenditures from the Chief of Mission Fund in excess of $10,000; and

(K) an accounting of assistance provided to Pakistan under this Act, broken down into the categories set forth in subsection (j)(8).

(l) GOVERNMENT ACCOUNTABILITY OFFICE REPORT.—Not later than one year after the submission of the Pakistan Assistance Strategy Report under subsection (j), and annually thereafter, the Comptroller General of the United States shall submit to the appropriate congressional committees a report that contains—

(1) a review of, and comments addressing, the Pakistan Assistance Strategy Report; and

(2) recommendations relating to any additional actions the Comptroller General believes could help improve the efficiency and effectiveness of United States efforts to meet the objectives of this Act.

(m) SENSE OF CONGRESS ON FUNDING OF PRIORITIES.—It is the sense of Congress that, as a general principle, the Government of Pakistan should allocate a greater portion of its budget to the recurrent costs associated with education, health, and other priorities described in this section.

(n) CONSULTATION REQUIREMENT.—The President shall consult the appropriate congressional committees on the strategy in subsection (j), including criteria and benchmarks developed under paragraph (4) of such subsection, not later than 15 days before obligating any assistance under this section.

SEC. 6. LIMITATION ON CERTAIN ASSISTANCE.

(a) LIMITATION ON CERTAIN MILITARY ASSISTANCE.—Beginning in fiscal year 2010, no grant assistance to carry out section 23 of the Arms Export Control Act (22 U.S.C. 2763) and no assistance under chapter 2 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2311 et seq.) may be provided to Pakistan in a fiscal year until the Secretary of State makes the certification required under subsection (c).

(b) LIMITATION ON ARMS TRANSFERS.—Beginning in fiscal year 2012, no letter of offer to sell major defense equipment to Pakistan may be issued pursuant to the Arms Export Control Act (22 U.S.C. 2751 et seq.) and no license to export major defense equipment to Pakistan may be issued pursuant to such Act in a fiscal year until the Secretary of State makes the certification required under subsection (c).

(c) CERTIFICATION.—The certification required by this subsection is a certification to the appropriate congressional committees by the Secretary of State, after consultation with the Secretary of Defense and the Director of National Intelligence, that the security forces of Pakistan—

(1) are making concerted efforts to prevent al Qaeda and associated terrorist groups, including Lashkar-e-Taiba and Jaish-e-Mohammed, from operating in the territory of Pakistan;

(2) are making concerted efforts to prevent the Taliban and associated militant groups from using the territory of Pakistan as a sanctuary from which to launch attacks within Afghanistan; and

(3) are not materially interfering in the political or judicial processes of Pakistan.

(d) WAIVER.—The Secretary of State may waive the limitations in subsections (a) and (b) if the Secretary determines it is important to the national security interests of the United States to provide such waiver.

(e) PRIOR NOTICE OF WAIVER.—A waiver pursuant to subsection (d) may not be exercised until 15 days after the Secretary of State provides to the appropriate congressional committees written notice of the intent to issue such waiver and the reasons therefor. The notice may be submitted in classified or unclassified form, as necessary.

(f) ANNUAL REPORT.—The Secretary of State, after consultation with the Secretary of Defense and the Director of National Intelligence, shall submit to the appropriate

congressional committees an annual report on the progress of the security forces of Pakistan in satisfying the requirements enumerated in subsection (c). The Secretary of State shall establish detailed, specific requirements and metrics for evaluating the progress in satisfying these requirements and apply these requirements and metrics consistently in each annual report. This report may be submitted in classified or unclassified form, as necessary.

SEC. 7. SENSE OF CONGRESS ON COALITION SUPPORT FUNDS.

It is the sense of Congress that—

(1) Coalition Support Funds are critical components of the global fight against terrorism, and in Pakistan provide essential support for—

(A) military operations of the Government of Pakistan to destroy the terrorist threat and close the terrorist safe haven, known or suspected, in the FATA, the NWFP, and other regions of Pakistan; and

(B) military operations of the Government of Pakistan to protect United States and allied logistic operations in support of Operation Enduring Freedom in Afghanistan;

(2) despite the broad discretion Congress granted the Secretary of Defense in terms of managing Coalition Support Funds, the Pakistan reimbursement claims process for Coalition Support Funds requires increased oversight and accountability, consistent with the conclusions of the June 2008 report of the United States Government Accountability Office (GAO–08–806);

(3) in order to ensure that this significant United States effort in support of countering terrorism in Pakistan effectively ensures the intended use of Coalition Support Funds, and to avoid redundancy in other security assistance programs, such as Foreign Military Financing and Foreign Military Sales, more specific guidance should be generated, and accountability delineated, for officials associated with oversight of this program within the United States Embassy in Pakistan, the United States Central Command, the Department of Defense, the Department of State, and the Office of Management and Budget; and

(4) the Secretary of Defense should submit to the appropriate congressional committees and the Committees on Armed Services of the Senate and the House of Representatives a semiannual report on the use of Coalition Support Funds, which may be submitted in classified or unclassified form as necessary.

SEC. 8. PAKISTAN-AFGHANISTAN BORDER AREAS STRATEGY.

(a) DEVELOPMENT OF COMPREHENSIVE STRATEGY.—The Secretary of State, in consultation with the Secretary of Defense, the Director of National Intelligence, and such other government officials as may be appropriate, shall develop a comprehensive, cross-border strategy that includes all elements of national power—diplomatic, military, intelligence, development assistance, humanitarian, law enforcement support, and strategic communications and information technology—for working with the Government of Pakistan, the Government of Afghanistan, NATO, and other like-minded allies to best implement effective counterterrorism and counterinsurgency measurers in and near the Pakistan-Afghanistan border areas.

(b) REPORT.—Not later than 90 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees a detailed description of a comprehensive strategy for counterterrorism and counterinsurgency in the Pakistan-Afghanistan border areas containing the elements specified in subsection (a) and proposed timelines and budgets for implementing the strategy.

SEC. 9. SENSE OF CONGRESS.

It is the sense of Congress that the United States should—

(1) recognize the bold political steps the Pakistan electorate has taken during a time of heightened sensitivity and tension in 2007 and 2008 to elect a new civilian government, as well as the continued quest for good governance and the rule of law under the elected government in 2008 and 2009;

(2) seize this strategic opportunity in the interests of Pakistan as well as in the national security interests of the United States to expand its engagement with the Government and people of Pakistan in areas of particular interest and importance to the people of Pakistan;

(3) continue to build a responsible and reciprocal security relationship taking into account the national security interests of the United States as well as regional and national dynamics in Pakistan to further strengthen and enable the position of Pakistan as a major non-NATO ally;

(4) seek ways to strengthen our countries' mutual understanding and promote greater insight and knowledge of each other's social, cultural and historical diversity through personnel exchanges and support for the establishment of institutions of higher learning with international accreditation; and

(5) explore means to consult with and utilize the relevant expertise and skills of the Pakistani-American community.

SEC. 10. TERM OF YEARS.

With the exception of subsections (b)(1)(B), (j), (k), and (l) of section 5, this Act shall remain in force after September 30, 2013.

JOHN ARTHUR ''JACK'' JOHNSON POSTHUMOUS PARDON

Mr. REID. I ask unanimous consent we now discharge the Judiciary Committee from further consideration of S. Con. Res. 29 and we proceed to that matter.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the concurrent resolution by title.

The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 29) expressing the sense of the Congress that John Arthur ''Jack'' Johnson should receive a posthumous pardon for the racially motivated conviction in 1913 that diminished the athletic, cultural, and historic significance of Jack Johnson and unduly tarnished his reputation.

Mr. REID. Mr. President, I ask unanimous consent to be a sponsor of this legislation.

The PRESIDING OFFICER. Without objection, it is so ordered.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. REID. I ask unanimous consent the concurrent resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid on the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (S. Con. Res. 29) was agreed to.

The preamble was agreed to.

The concurrent resolution, with its preamble, reads as follows:

S. CON. RES. 29

Whereas John Arthur ''Jack'' Johnson was a flamboyant, defiant, and controversial figure in the history of the United States who challenged racial biases;

Whereas Jack Johnson was born in Galveston, Texas, in 1878 to parents who were former slaves;

Whereas Jack Johnson became a professional boxer and traveled throughout the United States, fighting White and African-American heavyweights;

Whereas, after being denied (on purely racial grounds) the opportunity to fight 2 White champions, in 1908, Jack Johnson was granted an opportunity by an Australian promoter to fight the reigning White titleholder, Tommy Burns;

Whereas Jack Johnson defeated Tommy Burns to become the first African-American to hold the title of Heavyweight Champion of the World;

Whereas, the victory by Jack Johnson over Tommy Burns prompted a search for a White boxer who could beat Jack Johnson, a recruitment effort that was dubbed the search for the ''great white hope'';

Whereas, in 1910, a White former champion named Jim Jeffries left retirement to fight Jack Johnson in Reno, Nevada;

Whereas Jim Jeffries lost to Jack Johnson in what was deemed the ''Battle of the Century'';

Whereas the defeat of Jim Jeffries by Jack Johnson led to rioting, aggression against African-Americans, and the racially motivated murder of African-Americans nationwide;

Whereas the relationships of Jack Johnson with White women compounded the resentment felt toward him by many Whites;

Whereas, between 1901 and 1910, 754 African-Americans were lynched, some for simply for being ''too familiar'' with White women;

Whereas, in 1910, Congress passed the Act of June 25, 1910 (commonly known as the ''White Slave Traffic Act'' or the ''Mann Act'') (18 U.S.C. 2421 et seq.), which outlawed the transportation of women in interstate or foreign commerce ''for the purpose of prostitution or debauchery, or for any other immoral purpose'';

Whereas, in October 1912, Jack Johnson became involved with a White woman whose mother disapproved of their relationship and sought action from the Department of Justice, claiming that Jack Johnson had abducted her daughter;

Whereas Jack Johnson was arrested by Federal marshals on October 18, 1912, for transporting the woman across State lines for an ''immoral purpose'' in violation of the Mann Act;

Whereas the Mann Act charges against Jack Johnson were dropped when the woman refused to cooperate with Federal authorities, and then married Jack Johnson;

Whereas Federal authorities persisted and summoned a White woman named Belle Schreiber, who testified that Jack Johnson had transported her across State lines for the purpose of ''prostitution and debauchery'';

Whereas, in 1913, Jack Johnson was convicted of violating the Mann Act and sentenced to 1 year and 1 day in Federal prison;

Whereas Jack Johnson fled the United States to Canada and various European and South American countries;

Whereas Jack Johnson lost the Heavyweight Championship title to Jess Willard in Cuba in 1915;

Whereas Jack Johnson returned to the United States in July 1920, surrendered to authorities, and served nearly a year in the Federal penitentiary at Leavenworth, Kansas;

Whereas Jack Johnson subsequently fought in boxing matches, but never regained the Heavyweight Championship title;

Whereas Jack Johnson served his country during World War II by encouraging citizens to buy war bonds and participating in exhibition boxing matches to promote the war bond cause;

Whereas Jack Johnson died in an automobile accident in 1946; and

Whereas, in 1954, Jack Johnson was inducted into the Boxing Hall of Fame: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that Jack Johnson should receive a posthumous pardon—

(1) to expunge a racially motivated abuse of the prosecutorial authority of the Federal Government from the annals of criminal justice in the United States; and

(2) in recognition of the athletic and cultural contributions of Jack Johnson to society.

AFRICAN AMERICAN BONE MARROW AWARENESS MONTH

Mr. REID. I now ask unanimous consent the Senate proceed to the consideration of S. Res. 205.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 205) supporting the goals and ideals of African American Bone Marrow Awareness Month.

There being no objection, the Senate proceeded to consider the resolution.

Ms. STABENOW. Mr. President, this resolution will bring more attention to the crucial need for more minorities to become bone marrow donors. I am pleased to be joined by my colleague, Senator ISAKSON of Georgia, and my good friend, Representative CAROLYN CHEEKS KILPATRICK, in supporting this important endeavor.

According to A Bone Marrow Wish Foundation, bone marrow transplants can cure over 70 life-threatening diseases such as leukemia. About 70 percent of patients will need a nonfamily member to donate healthy marrow.

Generally, minority patients will need a match from someone who shares the same ethnicity. But finding a successful match can be a huge challenge: although there are more than 6 million potential donors registered, only 450,000 are African Americans.

I know from firsthand experience how important such a donation can be. Last year, any chief of staff, who is Latina, made a donation to a 9-year-old child with leukemia.

I urge all of my colleagues to join us in encouraging more Americans to learn more about bone marrow donation and perhaps consider being a donor themselves.

I ask unanimous consent that a letter of support from the National Marrow Donor Program be printed after my remarks.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL MARROW DONOR PROGRAM,
Washington, DC, June 22, 2009.

Resolution Designating July as African American Bone Marrow Awareness Month.

Hon. DEBBIE STABENOW,
U.S. Senate,
Washington, DC.

DEAR SENATOR STABENOW: The National Marrow Donor Program (NMDP) is pleased to offer this letter in support of a resolution that you sponsor to recognize July as African American Bone Marrow Awareness Month. You have been a long time supporter of the NMDP and the Bone Marrow Wish Organization, which is an NMDP affiliated nonprofit based in Detroit that works to promote awareness in minority communities. We applaud your efforts to bring further attention to the need for African Americans to join the Registry.

The NMDP is entrusted to operate the C.W. Bill Young Cell Transplantation Program (Program) via competitively bid contracts with the Health Resources and Services Administration (HRSA). The NMDP is the international leader in the facilitation of unrelated donor transplants using bone marrow, peripheral blood stem cells, and umbilical cord blood. We provide a single point of access for physicians and transplant patients. Over the last 20 years, the NMDP has facilitated over 35,000 transplants for patients with blood disorders such as leukemia, lymphoma and aplastic anemia, as well as certain immune system and genetic disorders. Congress established the program to ensure that every American in need of transplantation has access to a matching unrelated adult donor or cord blood unit.

This resolution will assist the NMDP with our efforts to recruit African American donors to the Registry by designating the month of July for the NMDP to promote donor awareness and increase the number of African Americans registered, which is critical to our success. Adding minorities to the Registry, and in particular African Americans, is critical. Unlike Caucasians who have an 88-percent chance of finding a match on the Registry or Hispanics who have an 81-percent chance, African Americans only have a 60-percent chance of finding a match. In designating July as African American Bone Marrow Awareness Month, the NMDP can continue to promote awareness to ensure that all Americans have a greater chance of finding a match.

Today the Registry lists over seven million adult donors on the Registry, but only 8-percent of those donors are African Americans. In closing, every day, more 6,000 men, women, and children search the National Marrow Donor Registry for a match. More donors are needed on the Registry so that all patients in need will have access to this therapy. This resolution will help raise the awareness needed to add more donors to the Registry. We appreciate your continued efforts to support the mission of the NMDP and to assist us to increase the numbers of individuals on the National Registry.

Sincerely,

MICHAEL J. BOO,
Chief Strategy Officer.

Mr. REID. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid on the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 205) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 205

Whereas a bone marrow or blood cell transplant is a potentially life-saving treatment for patients with leukemia, lymphoma, and other blood diseases;

Whereas a bone marrow or blood cell transplant replaces a patient's unhealthy blood cells with healthy blood-forming cells from a volunteer donor;

Whereas a patient who does not have a suitably matching donor in the family may search the National Marrow Donor Program Donor Registry for a donor;

Whereas blood or cell samples from adult donors or cord blood units are tested and the tissue or cell type is added to the National Marrow Donor Program Donor Registry, and physicians may search that registry when they need to find donors whose tissue type matches their patients';

Whereas African Americans make up 8 percent of, or more than 550,000 of the 7,000,000 people currently on, the National Marrow Donor Program Donor Registry;

Whereas of the 35,000 people that have received transplants since the inception of the National Marrow Donor Program Donor Registry, only 1,500 have been African Americans;

Whereas more than 70 life-threatening diseases can be treated with a bone marrow transplant;

Whereas there is a possibility that an African American patient could match a donor from any racial or ethnic group, but the most likely match is another African American;

Whereas to become a volunteer donor, potential donors must be between 18 and 60 years of age, meet health guidelines, provide a small blood sample or swab of cheek cells to determine the donor's tissue type, complete a brief health questionnaire, and sign a consent form to have the tissue type of the donor listed on the Donor Registry;

Whereas the Bone Marrow Wish Organization, which is a minority-run nonprofit organization based in Detroit that was started by an actual bone marrow donor, is initiating ''African American Bone Marrow Awareness Month'';

Whereas the annual month of awareness would promote donor awareness and increase the number of African Americans registered with the National Marrow Donor Program throughout the Nation; and

Whereas July 2009 would be an appropriate month to observe African American Bone Marrow Awareness Month: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of African American Bone Marrow Awareness Month;

(2) urges the people of the United States to participate in appropriate programs and activities with respect to bone marrow awareness, including speaking with health care professionals about bone marrow donation; and

(3) urges all people of the United States to register to become blood marrow donors and encourages all people of the United States to organize blood marrow registration drives in their communities.

MEASURE READ THE FIRST TIME—S. 1344

Mr. REID. Mr. President, I understand that S. 1344, introduced earlier today by a Senator, is at the desk and due for its first reading.

The PRESIDING OFFICER. The clerk will read the title of the bill.

The legislative clerk read as follows:

A bill (S. 1344) to temporarily protect the solvency of the Highway Trust Fund.

Mr. REID. Mr. President, I ask now for its second reading, but I object to my own request.

The PRESIDING OFFICER. Objection is heard. The bill will be read for the second time on the next legislative day.

ORDERS FOR THURSDAY, JUNE 25, 2009

Mr. REID. I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m., Thursday, June 25; that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and there be a period of morning business for 1 hour, with the time equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first half and the majority controlling the second half, with Senators permitted to speak during that morning business hour for up to 10 minutes each; that following morning business, the Senate proceed to executive session and resume postcloture debate on the nomination of Harold Koh to be Legal Adviser to the Department of State. Finally, I ask that the time during any adjournment or period of morning business count postcloture.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. REID. Mr. President, tomorrow we will resume the postcloture debate on the Koh nomination. If we are required to use the full 30 hours of debate time, we would vote on the confirmation of this good man around 5:30 tomorrow. We are also working on an agreement to consider the Legislative Branch appropriations bill. I hope we are able to yield back some of the debate time on the Koh nomination so we can begin consideration of that appropriations bill.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. REID. Mr. President, if there is no further business to come before the Senate this evening, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 6:46 p.m., adjourned until Thursday, June 25, 2009, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate:

EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT

JAMES LAGARDE HUDSON, OF THE DISTRICT OF COLUMBIA, TO BE UNITED STATES DIRECTOR OF THE EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT, VICE KENNETH L. PEEL.

CRISTIAN G. MORAZAN
MARK J. SAUER

HOUSE OF REPRESENTATIVES—*Wednesday, June 24, 2009*

The House met at 10 a.m.

Rev. Shawn L. Kumm, Zion Evangelical Lutheran Church, Laramie, Wyoming, offered the following prayer:

Gracious, Heavenly Father, who is ever-watchful and attentive to the needs of this country and who has promised to ''Satisfy us in the morning with Your steadfast love, that we may rejoice and be glad all our days,'' I implore You to provide for the people of this land honest and productive industry. Preserve us from famine, disasters, pestilence, and disease. Grant us courage and steadfastness in times of testing. Restrain unrest within and without our borders, and keep safe those who watch over and protect us at every level of life. Give us compassion and open hearts in times of want and need.

And finally, for this assembly who is charged with the responsibility of representing the people of this Nation, bestow wisdom and courage as laws are crafted and enacted.

To You, O Father, I give thanks and praise, with the Son and the Holy Spirit. Amen.

THE JOURNAL

The SPEAKER pro tempore (Mrs. TAUSCHER). The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. WILSON of South Carolina. Madam Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER pro tempore. The question is on the Speaker's approval of the Journal.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. WILSON of South Carolina. Madam Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Colorado (Mr. PERLMUTTER) come forward and lead the House in the Pledge of Allegiance.

Mr. PERLMUTTER led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has agreed to a concurrent resolution of the following title in which the concurrence of the House is requested:

S. Con. Res. 30. Concurrent resolution commending the Bureau of Labor Statistics on the occasion of its 125th anniversary.

The message also announced that pursuant to section 194 of title 14, United States Code, as amended by Public Law 101–595, the Chair, on behalf of the Vice President, and upon the recommendation of the Chairman of the Committee on Commerce, Science and Transportation, appoints the following Senators to the Board of Visitors of the United States Coast Guard Academy:

The Senator from Mississippi (Mr. WICKER), from the Committee on Commerce, Science and Transportation.

The Senator from Louisiana (Mr. VITTER), At Large.

The message also announced that pursuant to section 9355(a) of title 10, United States Code, the Chair, on behalf of the Vice President, appoints the following Senators to the Board of Visitors of the United States Air Force Academy:

The Senator from Utah (Mr. BENNETT), from the Committee on Appropriations.

The Senator from Oklahoma (Mr. INHOFE), At Large.

The message also announced that pursuant to section 4355(a) of title 10, United States Code, the Chair, on behalf of the Vice President, appoints the Senator from Texas (Mrs. HUTCHISON), from the Committee on Appropriations, and the Senator from North Carolina (Mr. BURR), At Large, to the Board of Visitors of the United States Military Academy.

The message also announced that pursuant to section 1295(b) of title 46, United States Code, as amended by Public Law 101–595, the Chair, on behalf of the Vice President, and upon the recommendation of the Chairman of the Committee on Commerce, Science and Transportation, appoints the following Senators to the Board of Visitors of the United States Merchant Marine Academy:

The Senator from Georgia (Mr. ISAKSON), from the Committee on Commerce, Science and Transportation.

The Senator from South Carolina (Mr. GRAHAM), At Large.

The message also announced that pursuant to section 6968(a) of title 10, United States Code, the Chair, on behalf of the Vice President, appoints the following Senators to the Board of Visitors of the United States Naval Academy:

The Senator from Alaska (Ms. MURKOWSKI), from the Committee on Appropriations.

The Senator from Arizona (Mr. MCCAIN), designated by the Chairman of the Committee on Armed Services.

HONORING PASTOR SHAWN KUMM, GUEST CHAPLAIN

The SPEAKER pro tempore. Without objection, the gentlewoman from Wyoming (Mrs. LUMMIS) is recognized for 1 minute.

There was no objection.

Mrs. LUMMIS. I rise in honor of today's guest chaplain, Pastor Shawn Kumm. He is joining us from Laramie, Wyoming, where he has served the congregation at the Zion Evangelical Lutheran Church for 13 years.

Originally from Iowa, Pastor Kumm settled in Wyoming in 1996. He has held two offices in the Wyoming District of the Lutheran Church Missouri Synod, first as secretary to the board of directors, followed by his nomination in 2003 to vice president of the synod, a position which he currently holds.

Pastor Kumm and his wife, Barbie, have two children, his son, Nickoli, and his daughter, Alexandra, who joins him here today.

Pastor Kumm has provided invaluable help to the members of his church and my constituency. I thank him for his positive impact, leadership, and service to the community and wish him the best as his congregation continues to grow with God's blessing.

I also want to acknowledge Representative JEFF FORTENBERRY, who joins me here today, and Pastor Kumm's parents, who reside in Representative FORTENBERRY's district.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 further requests for 1-minute speeches from each side of the aisle.

WMATA TRAGEDY

(Mr. HOYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOYER. Madam Speaker, on Monday evening, as millions of Americans were making their daily commute home, tragedy struck in our Nation's Capital. The collision outside of the Fort Totten station in Northeast Washington, the worst in the 33-year history of Washington's Metro system, claimed the lives of nine people and left more than 80 injured.

Among those lost were Ana Fernandez of Hyattsville and Cameron Williams of Takoma Park from my State of Maryland. My heart and my thoughts, as I know all the Members' thoughts, are with the loved ones as well as all of those suffering the sudden loss caused by this tragedy.

Those include the family and friends of train operator, Jeanice McMillan, and passengers, Lavonda King, Mary Doolittle, Veronica Dubose, Dennis Hawkins and Ann Wherley and her husband, Major General David F. Wherley, Jr. Let me also extend my gratitude to the first responders and medical professionals whose work at the scene was so critical in preventing further tragedies.

While the cause of this accident is unknown at this time, we do know this: The safety of our citizens is our highest priority, and we must take every precaution to make sure this loss of life does not occur again.

In the very near future, I will be joining with my colleagues from the region in introducing the final measure required to authorize $3 billion in dedicated Federal and local funding for Metro. Millions and millions of tourists from throughout this Nation ride on this system as well as tens of thousands of the employees who work for this country.

We received formal notice from the Governors of Maryland and Virginia and the Mayor of the District of Columbia that the jurisdictions had amended the WMATA Compact to enable such funding just last week, and I hope we can move quickly to pass this legislation critical to meeting Metro's capital and maintenance needs. We don't know that that was the cause, but certainly it is a consideration.

Hundreds of thousands of people rely on Washington's Metro system every day, from the Federal employees who keep our Government running to the visitors from every corner of the country who come to our Nation's Capital. Let it be our tribute to those we mourn today to ensure America's subway is safe for all who use it.

I know my colleagues join me in expressing our sympathy and prayers to all those who were struck by tragedy the other night.

''WE ARE OUT OF MONEY''

(Mr. KIRK asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KIRK. Madam Speaker, our Government will attempt to borrow $104 billion just this week, a world record. As Congress accelerates spending, Treasury has borrowed $560 billion in January, $707 billion in February, $750 billion in March, $665 billion in April, and $773 billion in May.

To cover increased borrowing, the Fed is now electronically printing money to cover our debts. Their records show they have printed $152.7 billion to cover our mounting debts.

We are quickly running out of other people's money. Printing dollars electronically will accelerate inflation next year.

Remember, inflation is the enemy of senior citizens on a fixed income. President Obama was right when he said, ''We are out of money.'' Our policies here in the Congress should reflect that sober assessment.

CARBON OFFSETS WILL BENEFIT POLLUTERS

(Mr. KUCINICH asked and was given permission to address the House for 1 minute.)

Mr. KUCINICH. Science tells us we must begin to reduce global greenhouse gas emissions in the next 5 to 10 years. But according to an analysis by offsets expert and Stanford law professor Michael Wara, it is possible that we could see no reduction of CO_2 emissions until the year 2040 because of offsets and unlimited banking of allowances in the new energy and environment bill.

The bill allows 2 billion tons of carbon dioxide a year, roughly equivalent to 30 percent of all U.S. greenhouse gas emissions. Supporters of the bill point out that coal use will increase by 2020 because electric utilities will continue to use dirty coal, the prime source of pollution.

With 2 billion tons of offsets per year, we are told that electric utilities will reduce carbon emissions at places other than their generating plants so they really don't have to actually decrease their emissions, and coal-fired CO_2 emissions will increase through 2025. No wonder there are 26 active coal plant applications. Increased CO_2 emissions will be our gift to the next generation? Apparently the planet is not melting. With this bill, it is just getting better—for polluters.

□ 1015

REFORM HEALTH CARE THE RIGHT WAY

(Mr. FLEMING asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FLEMING. Madam Speaker, from today, the ABC network will be known as the ''All Barack Channel'' due to unprecedented propaganda for the President's health plan.

Democrats and Republicans agree that our health care system needs reforming, and we essentially agree on how, with one very important exception: a government-run plan is not the solution.

Our current Medicare system is a microcosm of what the proposed public plan would look like. Medicare is propped up by the privately insured as it is, and is still on a course for bankruptcy within 10 years.

Our President says he can make a government-run system lower cost. Then why hasn't anybody been able to do that with Medicare in 50 years? Creating a public option like Medicare will progressively increase private insurance costs due to cost shifting and eventually drive private insurers out of business. Besides the damage it would do to the private sector, the government does not have the money to pay the $1.6 trillion price tag.

As a physician, I say we need to reform, bring down costs, and increase access to private insurance. We do not need the government in the exam room.

ENERGY: WALL STREET'S NEXT BUBBLE

(Mr. DEFAZIO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DEFAZIO. Madam Speaker, Europeans have had a market-based cap-and-trade system on greenhouse gas emissions for 4 years, and it has failed. The last recorded year, $60 billion in trades, that is added costs, and higher greenhouse gas emissions.

Now the House of Representatives wants to bring that European system here to the United States of America, despite its failures. Why? Well, the market-based approach is only a failure if your objective is meaningful and predictable real reductions in greenhouse gas emissions. Perhaps something else is afoot.

Europe already has a carbon offset futures derivatives market, complete with credit default swap insurance. Is it AIG and mortgages all over again but now with carbon? We are going to bring that here to the United States. Wall Street is tingling with excitement. A trillion dollars speculative market.

Listen to this: Carbon will be the world's biggest commodity market, and it could become the biggest market overall, Louis Redshaw at Barclays. Oh, Wall Street loves this so much. A brand new Wall Street bubble on something as essential as energy. Deja vu all over again.

CONGRATULATING CAROLINE COUNTY

(Mr. WITTMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WITTMAN. Madam Speaker, I rise today to express my sincere congratulations to Caroline County, Virginia, recipient of the 2009 All-American City Award for its outstanding civic accomplishments. This recognition is well deserved, and rightly honors Caroline County, which has long been dedicated to meeting the needs of its community.

Established by the National Civic League in 1949, the All-American City Award recognizes localities for community projects involving grassroots civic engagement and cooperation between public, private, and nonprofit sectors that best illustrate community-based problem solving. Each year, the National Civic League honors 10 communities throughout the country for effectively addressing the most critical challenges facing America's communities.

Caroline County submitted three community-based projects, including the Dawn Rehabilitation Project, the Caroline Library, and the Caroline Dental Program. These projects blend public, private, and civic resources to address specific challenges of the community.

I am proud to see our citizens and local government work in concert to meet community needs. Caroline County was the only city or county from Virginia in a field of 32 finalists from across the country. The Caroline County delegation traveled to Tampa, Florida, to present the challenges and solutions for its community to a panel of national experts, and I am proud to recognize Caroline County as a wonderful and unique community of Virginia's First Congressional District for receiving the 2009 All-American City Award.

AMERICAN CLEAN ENERGY AND SECURITY ACT

(Mr. POLIS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POLIS. Madam Speaker, I rise today in strong support of the American Clean Energy and Security Act. We are on the verge of an historic step that we have a responsibility and an opportunity to take for the health of our environment, our economy, and our Nation.

Opponents simply don't comprehend the magnitude of the problem of global warming or the opportunities that come with the solution. The U.S. is currently losing clean energy jobs and market share to Germany, China, and Korea. U.S. consumers continue to send $400 billion a year to places like the Middle East and Venezuela every time we fill up our gas tanks.

Madam Speaker, we have a responsibility to enact swift and strong climate change legislation. It is absolutely false to suggest that this legislation will cost Americans. It will cost us more if we don't act.

With the consumer protections and increases in efficiencies that this bill puts in place, American families will save hundreds of dollars each over the next decade. Saving consumers money is hardly a tax. Saving businesses money is hardly a tax. Allowing American technology to stagnate while we pollute and pay to address that pollution, that is a tax that the American people are tired of paying and have paid for far too long.

The Democratic plan declares energy independence and puts America on a path to economic recovery.

TAXING AMERICAN FAMILIES IS NOT THE ANSWER

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Madam Speaker, House Democrats plan to vote on their national energy tax legislation this week. It defies common sense when the American people are faced with losing jobs and families are making hard decisions about how to weather this tough economy. The Democrats' priority is to impose a new tax. This cap-and-tax proposal will lead to job losses, higher gas prices, and increased electricity rates on American families with $3,128 of new taxes for each family each year. Moreover, it is also unnecessary when there are positive alternatives to promote clean energy technology.

An all-of-the-above energy policy would achieve the goals of a cleaner environment while promoting oil and natural gas exploration in America, invest in innovative new technologies and encouraging conservation and smarter energy use. Above all, it would be no new tax on American families nor would it punish small businesses. Taxing American families is not the answer to our energy needs.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

GEOGRAPHIC DISPARITIES

(Mr. WALZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WALZ. Madam Speaker, reforming Medicare formulas so that they reward quality and value is one of the changes that must be part of any discussion on health care reform.

The Congressional Budget Office recognizes the problem of a simple fee-for-service payment system regardless of the quality of care our patients receive. That means we pay doctors for doing more tests and ineffective treatments.

In my home district of southern Minnesota, the Mayo Clinic is a model of providing high quality care at low prices. But because of the way Medicare payments are figured today, the Mayo Clinic is penalized for that. We must reward those that save money and at the same time provide the highest quality of care. This can be done by creating an index within the Medicare physician fee formula to simply measure quality.

I urge my colleagues to support the inclusion of this sort of provision in the final health care reform package.

AVOID EUROPEAN ENERGY MODEL

(Mr. TIAHRT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIAHRT. Madam Speaker, this administration and the Democrat Congress are pushing us towards European socialism through more government control. This week it is the energy economy. We are scheduled to consider the Waxman-Markey cap-and-tax scheme that will cap our growth and tax all of us.

In 2005, the Europeans implemented the emissions trading scheme, or ETS. ETS has increased household energy costs by 16 percent and industrial energy costs by 32 percent in just 4 years with no measurable effect on greenhouse gases.

The Heritage Foundation projects the Waxman-Markey impact on America will be a 74 percent increase in gasoline prices, a 90 percent increase in electricity prices, and at least 850,000 jobs lost every year. The energy bill for the average American household will go up over $3,000 per year. That is exactly what the authors want. President Obama recently stated that the only way a cap-and-tax scheme will work is for higher energy costs. They have to ''skyrocket.''

I urge my colleagues to reject this bill that is all economic pain and no environmental gain and, instead, join me in supporting the American Energy Act that promotes and develops domestic energy sources, encourages conservation, and advances renewable technologies while pursuing America's competitive edge.

COMMENDING BRIGADIER GENERAL JAMES P. COMBS

(Ms. LORETTA SANCHEZ of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LORETTA SANCHEZ of California. Madam Speaker, today I come

to the floor to honor an individual who has sacrificed over 42 years of his life for this great Nation.

Brigadier General James P. Combs has proudly and gallantly served his country on foreign soil in the countries of Vietnam, Afghanistan, and Iraq. He was appointed Commander of our Joint Forces Training Base in Los Alamitos, California, on November 1, 2005. General Combs retired from Federal service on October 1, 2007, at which time Governor Schwarzenegger assigned him in a State active duty position to remain as the base commander.

On July 4, 2009, in just a little over a week, General Combs will retire from the United States Armed Forces. And on behalf of those who have had the honor to serve with him and a grateful Nation, I commend him on his numerous accomplishments, his outstanding leadership, and his incredible military career.

Brigadier General James P. Combs will always remain a soldier's soldier and a true American hero.

CAP THE TAXACRATS AND TRADE THEM FOR OFFSHORE RIGS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Madam Speaker, this country has lost nearly 3 million jobs just this year. That's over a million more than the 2 million men, women, and children, including illegals living within the fourth largest city in the United States, namely, Houston, Texas.

We are still buying oil from dictators who don't like us because the enviro-elites are dead set on their none-of-the-above energy plan. No oil, no gasoline, no oil shale, no clean coal, no nuclear, no drilling, and that means no natural gas. Just what do they expect to use to power the Nation's cities and industry?

The taxacrats' plan is simple: tax energy consumption. And because of these new taxes and higher energy costs, even more jobs are at risk.

According to the National Black Chamber of Commerce, the national energy tax will cost another 2.5 million jobs in America. America cannot afford any more of this change. The cap-and-trade bill will cost jobs, raise taxes, raise the cost of energy, and, according to the Congressional Budget Office, won't even significantly help the climate.

The bill is bad for everybody except the enviro-elites who get more government control over the rest of us. What we need to do is cap the taxacrats and trade them for some offshore rigs in the Gulf of Mexico.

And that's just the way it is.

COMMENDING TULAROSA HIGH SCHOOL

(Mr. TEAGUE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TEAGUE. Madam Speaker, I want to congratulate Tularosa High School in Tularosa, New Mexico, for receiving a bronze medal in U.S. News and World Report's annual report of the best high schools in America.

This award shows that Tularosa High School is serving all of its students well regardless of their backgrounds. Also, this means that the school is performing well on a broad range of indicators, not just one or two, and that the students learning there are getting the training that they need to do well in college. Tularosa High School not only performed well against its peers in New Mexico, but competed admirably with schools across the United States.

Schools like Tularosa High School achieve such great distinctions because of the hard work and dedication of the teachers, staff, and administration. Their students also deserve to be commended for fully taking advantage of all of the opportunities provided to them at Tularosa High School. It takes a team of hardworking folks to make this type of progress.

I am honored to have schools like Tularosa High School in my district. I commend their achievement and wish them luck in replicating it again.

□ 1030

IRANIAN ELECTIONS: WHERE'S THE PROOF?

(Mr. STEARNS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEARNS. Good morning, Madam Speaker.

My colleagues, it is vital that the elected officials in the United States express their solidarity with those who peacefully advocate for freedom in Iran.

It is clear that the votes in the Iranian elections were manipulated. An analysis by the London-based Chatham House, a British think tank, found that the turnout in two provinces exceeded 100 percent, along with other fraudulent activities. How could they count 40 million votes in 4 hours, many of them paper votes?

Let's see a list of registered voters and voter turnout by province and how these elections compare with earlier Iranian elections. These are crucial questions and considerations in determining the validity of these elections.

I agree with the President that the disputed elections are a matter for the Iranians to resolve themselves. However, as a leader of the Free World, the President should have stepped up earlier in support of the pro-democracy demonstrators and in condemning the attacks on them. And he should ask, Where is the proof? Where is the proof in the Iranian elections?

RECOGNIZING OUTGOING OFFICIALS OF THE EIGHTH DISTRICT OF ILLINOIS

(Ms. BEAN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BEAN. Madam Speaker, I rise to recognize the outstanding contributions of the outgoing village presidents and mayors from the Eighth District of Illinois.

In April, following municipal elections and retirements, many of our local leaders left office, including Bill Gentes from Round Lake, Scott Gifford from Deer Park, Keith Hunt from Hawthorn Woods, Dick Hyde from Waukegan, Tom Hyde from Island Lake, Cindy Irwin from Fox Lake, Dorothy Larson from Antioch, Catherine Mechert from Bartlett, Ted Mueller from Hainesville, Rita Mullins from Palatine, Tim Perry from Grayslake, Virginia Povidas from Lakemoor, Salvatore Saccomanno from Wauconda, and John Tolomei from Lake Zurich. Their long-standing service embodies what leadership is all about.

Our mayors often serve as the voice of our local communities and are the closest contact for many residents on government issues. I thank them all for actively representing their cities and in their dealings with my office on Federal issues. I have enjoyed working with each and every one of them and wish them the best of success. They have assisted our office in better serving our communities and all Illinois families.

GUANTANAMO BAY

(Mr. MORAN of Virginia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MORAN of Virginia. Madam Speaker, for weeks this body has been subjected to uninformed, false demagoguery with regard to President Obama's effort to close the prison at Guantanamo Bay.

I want to share some actual facts with regard to the people at Guantanamo Bay. There were 772 sent between the years 2001 and 2003. They are clearly not the worst of the worst. According to the Department of Defense's own Combatant Status Review Tribunal, only 8 percent of detainees were characterized as fighters, 92 percent were not fighters.

Of all the foreign nationals at Guantanamo Bay, only 5 percent were captured by United States forces, 2 percent by coalition forces, but 93 percent were turned in primarily by Pakistani forces in return for ransom, oftentimes for as much as $5,000. And from DoD records, a significant majority of the detainees are not even accused of committing a single hostile act.

Madam Speaker, it is time to put aside the rhetoric and start informing our constituents. We are a better Nation than the demagoguery we've been subjected to over Guantanamo Bay.

FINANCIAL EMERGENCY FACING U.S. POSTAL SERVICE

(Mr. TOWNS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TOWNS. Madam Speaker, I would like to talk about the financial emergency facing the postal service. We must act now to correct this problem.

The postal service lost nearly $2 billion in the second quarter and expects to lose more than $6.5 billion in 2009, despite cutting billions in costs. It faces an unprecedented decline in mail volume due to the recession and the diversion of mail to electronic communication.

Uniquely, the postal service is required to pay over $5 billion annually into the Retiree Health Benefits Trust Fund, which is overfunded compared to similar companies. An inflexible law requires the postal service to shell out billions of dollars to prefund retiree benefits, regardless of economic or financial conditions.

The postal service expects a cash shortfall of $1.5 billion at the end of the fiscal year and might not be able to meet its financial obligations. This situation is a threat to postal employees and customers. We must act now to address the financial emergency at the postal service and continue to work on its long-term challenges as well.

HEALTH CARE REFORM

(Ms. WATSON asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. WATSON. Madam Speaker, we urgently need to fix health care for American families, for American businesses, and for our fiscal future.

President Barack Obama and his Congress want to reduce your cost, offer you the choice of doctors and plans, and guarantee affordable quality health care for all. Cost less and cover more. Your choice: you have it, you like it, then you keep it. Security and peace of mind. Quality patient-centered care.

We need a uniquely American solution that builds on the best of what works to foster competition among private plans and provide patients with quality choices. We must ensure that every child in America is covered. We must invest in prevention and wellness. We must ensure that doctors and nurses get the information they need.

Never again will your coverage be denied, and never again will we have to make a life or a job decision based on coverage.

Never let your family suffer financial catastrophe or bankruptcy because of high medical costs.

DEMOCRATS' BROKEN PROMISES

(Mr. BOEHNER asked and was given permission to address the House for 1 minute.)

Mr. BOEHNER. Madam Speaker and my colleagues, 3 years ago the Democrat leadership, in their document ''A New Direction,'' made these promises: ''Every person in America has a right to have his or her voice heard. No Member of Congress should be silenced on the House floor.''

Secondly: ''Respectful of both the wishes of the Founders and the expectations of the American people, we offer the following principles to restore democracy in the people's House, guaranteeing that the voices of all people are heard.''

And, thirdly, one of those principles was this: ''Bills should generally come to the floor under a procedure that allows for an open, full, and fair debate, consisting of a full amendment process that grants the minority its right to offer alternatives, including a substitute.''

Madam Speaker, today, and over the last few months, the majority is breaking its promise. Why? Because Democrats here in Congress just can't spend taxpayer money fast enough. It is bad for taxpayers who are already paying too much, and it's even worse for future generations who will inherit the Democrats' mountain of unsustainable debt.

Americans want Democrats to stop the spending and start keeping their promises, like helping to create more jobs in America. Where are the jobs that the administration and Democrats in Congress promised? After we passed the stimulus bill, where are the jobs? We haven't seen them yet. The American people deserve better, and Republicans will continue to demand it.

Madam Speaker, in my hand is the most dangerous credit card in the history of the world, it is also the most expensive: it is a voting card for Members of Congress. This voting card this year has been used to rack up trillions of dollars worth of additional debt, additional debt that our kids and our grandkids will be burdened under and will be imprisoned by.

Listen, we've got important work to do here on the floor, such as the Defense Authorization bill that we are about to take up. Republicans have been working with Democrats on this bill to get it done in a bipartisan way. And I think we also have a responsibility to protect taxpayers from Washington's out-of-control spending. We take that seriously as well, and we will never yield in our effort to protect taxpayers and future generations.

MOTION TO ADJOURN

Mr. BOEHNER. Madam Speaker, I move that the House do now adjourn.

The SPEAKER pro tempore. The question is on the motion to adjourn.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. BOEHNER. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 96, nays 308, not voting 29, as follows:

[Roll No. 424]

□ 1105

Messrs. CUMMINGS, LUJÁN, BRALEY of Iowa, FARR, ELLISON, BUTTERFIELD, DENT, LUETKEMEYER, COSTELLO, TAYLOR, BRIGHT, BERRY, JOHNSON of Georgia, ADLER of New Jersey, COURTNEY, SERRANO and Ms. JACKSON-LEE of Texas changed their vote from ''yea'' to ''nay.''

Messrs. DUNCAN, SCALISE, and GOODLATTE changed their vote from ''nay'' to ''yea.''

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later today.

DISABLED MILITARY RETIREE RELIEF ACT OF 2009

Mr. SKELTON. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 2990) to provide special pays and allowances to certain members of the Armed Forces, expand concurrent receipt of military retirement and VA disability benefits to disabled military retirees, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2990

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Disabled Military Retiree Relief Act of 2009''.

SEC. 2. TABLE OF CONTENTS.

The table of contents for this Act is as follows:

TITLE I—COMPENSATION AND BENEFITS FOR MEMBERS OF THE ARMED FORCES AND MILITARY RETIREES

Subtitle A—Bonuses and Special and Incentive Pays

SEC. 101. ONE-YEAR EXTENSION OF CERTAIN BONUS AND SPECIAL PAY AUTHORITIES FOR RESERVE FORCES.

The following sections of title 37, United States Code, are amended by striking ''December 31, 2009'' and inserting ''December 31, 2010'':

(1) Section 308b(g), relating to Selected Reserve reenlistment bonus.

(2) Section 308c(i), relating to Selected Reserve affiliation or enlistment bonus.

(3) Section 308d(c), relating to special pay for enlisted members assigned to certain high-priority units.

(4) Section 308g(f)(2), relating to Ready Reserve enlistment bonus for persons without prior service.

(5) Section 308h(e), relating to Ready Reserve enlistment and reenlistment bonus for persons with prior service.

(6) Section 308i(f), relating to Selected Reserve enlistment and reenlistment bonus for persons with prior service.

(7) Section 910(g), relating to income replacement payments for reserve component

members experiencing extended and frequent mobilization for active duty service.

SEC. 102. ONE-YEAR EXTENSION OF CERTAIN BONUS AND SPECIAL PAY AUTHORITIES FOR HEALTH CARE PROFESSIONALS.

(a) TITLE 10 AUTHORITIES.—The following sections of title 10, United States Code, are amended by striking ''December 31, 2009'' and inserting ''December 31, 2010'':

(1) Section 2130a(a)(1), relating to nurse officer candidate accession program.

(2) Section 16302(d), relating to repayment of education loans for certain health professionals who serve in the Selected Reserve.

(b) TITLE 37 AUTHORITIES.—The following sections of title 37, United States Code, are amended by striking ''December 31, 2009'' and inserting ''December 31, 2010'':

(1) Section 302c-1(f), relating to accession and retention bonuses for psychologists.

(2) Section 302d(a)(1), relating to accession bonus for registered nurses.

(3) Section 302e(a)(1), relating to incentive special pay for nurse anesthetists.

(4) Section 302g(e), relating to special pay for Selected Reserve health professionals in critically short wartime specialties.

(5) Section 302h(a)(1), relating to accession bonus for dental officers.

(6) Section 302j(a), relating to accession bonus for pharmacy officers.

(7) Section 302k(f), relating to accession bonus for medical officers in critically short wartime specialties.

(8) Section 302l(g), relating to accession bonus for dental specialist officers in critically short wartime specialties.

SEC. 103. ONE-YEAR EXTENSION OF SPECIAL PAY AND BONUS AUTHORITIES FOR NUCLEAR OFFICERS.

The following sections of title 37, United States Code, are amended by striking ''December 31, 2009'' and inserting ''December 31, 2010'':

(1) Section 312(f), relating to special pay for nuclear-qualified officers extending period of active service.

(2) Section 312b(c), relating to nuclear career accession bonus.

(3) Section 312c(d), relating to nuclear career annual incentive bonus.

SEC. 104. ONE-YEAR EXTENSION OF AUTHORITIES RELATING TO TITLE 37 CONSOLIDATED SPECIAL PAY, INCENTIVE PAY, AND BONUS AUTHORITIES.

The following sections of title 37, United States Code, are amended by striking ''December 31, 2009'' and inserting ''December 31, 2010'':

(1) Section 331(h), relating to general bonus authority for enlisted members.

(2) Section 332(g), relating to general bonus authority for officers.

(3) Section 333(i), relating to special bonus and incentive pay authorities for nuclear officers.

(4) Section 334(i), relating to special aviation incentive pay and bonus authorities for officers.

(5) Section 335(k), relating to special bonus and incentive pay authorities for officers in health professions.

(6) Section 351(i), relating to hazardous duty pay.

(7) Section 352(g), relating to assignment pay or special duty pay.

(8) Section 353(j), relating to skill incentive pay or proficiency bonus.

(9) Section 355(i), relating to retention incentives for members qualified in critical military skills or assigned to high priority units.

SEC. 105. ONE-YEAR EXTENSION OF AUTHORITIES RELATING TO PAYMENT OF OTHER TITLE 37 BONUSES AND SPECIAL PAY.

The following sections of chapter 5 of title 37, United States Code, are amended by striking ''December 31, 2009'' and inserting ''December 31, 2010'':

(1) Section 301b(a), relating to aviation officer retention bonus.

(2) Section 307a(g), relating to assignment incentive pay.

(3) Section 308(g), relating to reenlistment bonus for active members.

(4) Section 309(e), relating to enlistment bonus.

(5) Section 324(g), relating to accession bonus for new officers in critical skills.

(6) Section 326(g), relating to incentive bonus for conversion to military occupational specialty to ease personnel shortage.

(7) Section 327(h), relating to incentive bonus for transfer between armed forces.

(8) Section 330(f), relating to accession bonus for officer candidates.

SEC. 106. ONE-YEAR EXTENSION OF AUTHORITIES RELATING TO PAYMENT OF REFERRAL BONUSES.

The following sections of title 10, United States Code, are amended by striking ''December 31, 2009'' and inserting ''December 31, 2010'':

(1) Section 1030(i), relating to health professions referral bonus.

(2) Section 3252(h), relating to Army referral bonus.

SEC. 107. TECHNICAL CORRECTIONS AND CONFORMING AMENDMENTS TO RECONCILE CONFLICTING AMENDMENTS REGARDING CONTINUED PAYMENT OF BONUSES AND SIMILAR BENEFITS FOR CERTAIN MEMBERS.

(a) TECHNICAL CORRECTIONS TO RECONCILE CONFLICTING AMENDMENTS.—Section 303a(e) of title 37, United States Code, is amended—

(1) in paragraph (1)(A), by striking ''paragraph (2)'' and inserting ''paragraphs (2) and (3)'';

(2) by redesignating paragraphs (3) and (4) as paragraphs (4) and (5), respectively;

(3) in paragraph (5), as so redesignated, by striking ''paragraph (3)(B)'' and inserting ''paragraph (4)(B)'';

(4) by redesignating paragraph (2), as added by section 651(b) of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110–417; 122 Stat. 4495), as paragraph (3); and

(5) by redesignating the second subparagraph (B) of paragraph (1), originally added as paragraph (2) by section 2(a)(3) of the Hubbard Act (Public Law 110–317; 122 Stat. 3526) and erroneously designated as subparagraph (B) by section 651(a)(3) of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110–417; 122 Stat. 4495), as paragraph (2).

(b) INCLUSION OF HUBBARD ACT AMENDMENT IN CONSOLIDATED SPECIAL PAY AND BONUS AUTHORITIES.—Section 373(b) of such title is amended—

(1) in paragraph (2), by striking the paragraph heading and inserting ''SPECIAL RULE FOR DECEASED AND DISABLED MEMBERS.—''; and

(2) by adding at the end the following new paragraph:

''(3) SPECIAL RULE FOR MEMBERS WHO RECEIVE SOLE SURVIVORSHIP DISCHARGE.—(A) If a member of the uniformed services receives a sole survivorship discharge, the Secretary concerned—

''(i) shall not require repayment by the member of the unearned portion of any bonus, incentive pay, or similar benefit previously paid to the member; and

''(ii) may grant an exception to the requirement to terminate the payment of any unpaid amounts of a bonus, incentive pay, or similar benefit if the Secretary concerned determines that termination of the payment of the unpaid amounts would be contrary to a personnel policy or management objective, would be against equity and good conscience, or would be contrary to the best interests of the United States.

''(B) In this paragraph, the term 'sole survivorship discharge' means the separation of a member from the Armed Forces, at the request of the member, pursuant to the Department of Defense policy permitting the early separation of a member who is the only surviving child in a family in which—

''(i) the father or mother or one or more siblings—

''(I) served in the Armed Forces; and

''(II) was killed, died as a result of wounds, accident, or disease, is in a captured or missing in action status, or is permanently 100 percent disabled or hospitalized on a continuing basis (and is not employed gainfully because of the disability or hospitalization); and

''(ii) the death, status, or disability did not result from the intentional misconduct or willful neglect of the parent or sibling and was not incurred during a period of unauthorized absence.''.

Subtitle B—Retired Pay Benefits

SEC. 111. RECOMPUTATION OF RETIRED PAY AND ADJUSTMENT OF RETIRED GRADE OF RESERVE RETIREES TO REFLECT SERVICE AFTER RETIREMENT.

(a) RECOMPUTATION OF RETIRED PAY.—Section 12739 of title 10, United States Code, is amended by adding at the end the following new subsection:

''(e)(1) If a member of the Retired Reserve is recalled to an active status in the Selected Reserve of the Ready Reserve under section 10145(d) of this title and completes not less than two years of service in such active status, the member is entitled to the recomputation under this section of the retired pay of the member.

''(2) The Secretary concerned may reduce the two-year service requirement specified in paragraph (1) in the case of a member who—

''(A) is recalled to serve in a position of adjutant general required under section 314 of title 32 or in a position of assistant adjutant general subordinate to such a position of adjutant general;

''(B) completes at least six months of service in such position; and

''(C) fails to complete the minimum two years of service solely because the appointment of the member to such position is terminated or vacated as described in section 324(b) of title 32.''.

(b) ADJUSTMENT OF RETIRED GRADE.—Section 12771 of such title is amended—

(1) by striking ''Unless'' and inserting ''(a) GRADE ON TRANSFER.—Unless''; and

(2) by adding at the end the following new subsection:

''(b) EFFECT OF SUBSEQUENT RECALL TO ACTIVE STATUS.—(1) If a member of the Retired Reserve who is a commissioned officer is recalled to an active status in the Selected Reserve of the Ready Reserve under section 10145(d) of this title and completes not less than two years of service in such active status, the member is entitled to an adjustment in the retired grade of the member in the manner provided in section 1370(d) of this title.

''(2) The Secretary concerned may reduce the two-year service requirement specified in paragraph (1) in the case of a member who—

''(A) is recalled to serve in a position of adjutant general required under section 314 of title 32 or in a position of assistant adjutant general subordinate to such a position of adjutant general;

''(B) completes at least six months of service in such position; and

''(C) fails to complete the minimum two years of service solely because the appointment of the member to such position is terminated or vacated as described in section 324(b) of title 32.''.

(c) RETROACTIVE APPLICABILITY.—The amendments made by this section shall take effect as of January 1, 2008.

SEC. 112. ELECTION TO RECEIVE RETIRED PAY FOR NON-REGULAR SERVICE UPON RETIREMENT FOR SERVICE IN AN ACTIVE RESERVE STATUS PERFORMED AFTER ATTAINING ELIGIBILITY FOR REGULAR RETIREMENT.

(a) ELECTION AUTHORITY; REQUIREMENTS.—Subsection (a) of section 12741 of title 10, United States Code, is amended to read as follows:

''(a) AUTHORITY TO ELECT TO RECEIVE RESERVE RETIRED PAY.—(1) Notwithstanding the requirement in paragraph (4) of section 12731(a) of this title that a person may not receive retired pay under this chapter when the person is entitled, under any other provision of law, to retired pay or retainer pay, a person may elect to receive retired pay under this chapter, instead of receiving retired or retainer pay under chapter 65, 367, 571, or 867 of this title, if the person—

''(A) satisfies the requirements specified in paragraphs (1) and (2) of such section for entitlement to retired pay under this chapter;

''(B) served in an active status in the Selected Reserve of the Ready Reserve after becoming eligible for retirement under chapter 65, 367, 571, or 867 of this title (without regard to whether the person actually retired or received retired or retainer pay under one of those chapters); and

''(C) completed not less than two years of satisfactory service (as determined by the Secretary concerned) in such active status (excluding any period of active service).

''(2) The Secretary concerned may reduce the minimum two-year service requirement specified in paragraph (1)(C) in the case of a person who—

''(A) completed at least six months of service in a position of adjutant general required under section 314 of title 32 or in a position of assistant adjutant general subordinate to such a position of adjutant general; and

''(B) failed to complete the minimum years of service solely because the appointment of the person to such position was terminated or vacated as described in section 324(b) of title 32.''.

(b) ACTIONS TO EFFECTUATE ELECTION.—Subsection (b) of such section is amended by striking paragraph (1) and inserting the following new paragraph:

''(1) terminate the eligibility of the person to retire under chapter 65, 367, 571, or 867 of this title, if the person is not already retired under one of those chapters, and terminate entitlement of the person to retired or retainer pay under one of those chapters, if the person was already receiving retired or retainer pay under one of those chapters; and''.

(c) CONFORMING AMENDMENT TO REFLECT NEW VARIABLE AGE REQUIREMENT FOR RETIREMENT.—Subsection (d) of such section is amended—

(1) in paragraph (1), by striking ''attains 60 years of age'' and inserting ''attains the eligibility age applicable to the person under section 12731(f) of this title''; and

(2) in paragraph (2)(A), by striking ''attains 60 years of age'' and inserting ''attains the eligibility age applicable to the person under such section''.

(d) CLERICAL AMENDMENTS.—

(1) SECTION HEADING.—The heading for section 12741 of such title is amended to read as follows:

''§ 12741. Retirement for service in an active status performed in the Selected Reserve of the Ready Reserve after eligibility for regular retirement''.

(2) TABLE OF SECTIONS.—The table of sections at the beginning of chapter 1223 of such title is amended by striking the item relating to section 12741 and inserting the following new item:

''12741. Retirement for service in an active status performed in the Selected Reserve of the Ready Reserve after eligibility for regular retirement.''.

(e) RETROACTIVE APPLICABILITY.—The amendments made by this section shall take effect as of January 1, 2008.

Subtitle C—Concurrent Receipt of Military Retired Pay and Veterans' Disability Compensation

SEC. 121. ONE-YEAR EXPANSION OF ELIGIBILITY FOR CONCURRENT RECEIPT OF MILITARY RETIRED PAY AND VETERANS' DISABILITY COMPENSATION TO INCLUDE ALL CHAPTER 61 DISABILITY RETIREES REGARDLESS OF DISABILITY RATING PERCENTAGE OR YEARS OF SERVICE.

(a) PHASED EXPANSION CONCURRENT RECEIPT.—Subsection (a) of section 1414 of title 10, United States Code, is amended to read as follows:

''(a) PAYMENT OF BOTH RETIRED PAY AND DISABILITY COMPENSATION.—

''(1) PAYMENT OF BOTH REQUIRED.—

''(A) IN GENERAL.—Subject to subsection (b), a member or former member of the uniformed services who is entitled for any month to retired pay and who is also entitled for that month to veterans' disability compensation for a qualifying service-connected disability (in this section referred to as a 'qualified retiree') is entitled to be paid both for that month without regard to sections 5304 and 5305 of title 38.

''(B) APPLICABILITY OF FULL CONCURRENT RECEIPT PHASE-IN REQUIREMENT.—During the period beginning on January 1, 2004, and ending on December 31, 2013, payment of retired pay to a qualified retiree is subject to subsection (c).

''(C) PHASE-IN EXCEPTION FOR 100 PERCENT DISABLED RETIREES.—The payment of retired pay is subject to subsection (c) only during the period beginning on January 1, 2004, and ending on December 31, 2004, in the case of the following qualified retirees:

''(i) A qualified retiree receiving veterans' disability compensation for a disability rated as 100 percent.

''(ii) A qualified retiree receiving veterans' disability compensation at the rate payable for a 100 percent disability by reason of a determination of individual unemployability.

''(D) TEMPORARY PHASE-IN EXCEPTION FOR CERTAIN CHAPTER 61 DISABILITY RETIREES; TERMINATION.—Subject to subsection (b), during the period beginning on January 1, 2010, and ending on September 30, 2010, subsection (c) shall not apply to a qualified retiree described in subparagraph (B) or (C) of paragraph (2).

''(2) QUALIFYING SERVICE-CONNECTED DISABILITY DEFINED.—In this section, the term 'qualifying service-connected disability' means the following:

''(A) In the case of a member or former member receiving retired pay under any provision of law other than chapter 61 of this title, or under chapter 61 with 20 years or more of service otherwise creditable under section 1405 or computed under section 12732 of this title, a service-connected disability or combination of service-connected disabilities that is rated as not less than 50 percent disabling by the Secretary of Veterans Affairs.

''(B) In the case of a member or former member receiving retired pay under chapter 61 of this title with less than 20 years of service otherwise creditable under section 1405 or computed under section 12732 of this title, a service-connected disability or combination of service-connected disabilities that is rated by the Secretary of Veterans Affairs at the disabling level specified in one of the following clauses (and, subject to paragraph (3), is effective on or after the date specified in the applicable clause):

''(i) January 1, 2010, rated 100 percent, or a rate payable at 100 percent by reason of individual unemployability or rated 90 percent

''(ii) January 1, 2011, rated 80 percent or 70 percent.

''(iii) January 1, 2012, rated 60 percent or 50 percent.

''(C) In the case of a member or former member receiving retired pay under chapter 61 regardless of years of service, a service-connected disability or combination of service-connected disabilities that is rated by the Secretary of Veterans Affairs at the disabling level specified in one of the following clauses (and, subject to paragraph (3), is effective on or after the date specified in the applicable clause):

''(i) January 1, 2013, rated 40 percent or 30 percent.

''(ii) January 1, 2014, any rating.

''(3) LIMITED DURATION.—Notwithstanding the effective date specified in each clause of subparagraphs (B) and (C) of paragraph (2), the clause shall apply only if the termination date specified in subparagraph (D) of paragraph (1) occurs during or after the calendar year specified in the clause, except that, eligibility may not extend beyond the termination date.''.

(b) CONFORMING AMENDMENT TO SPECIAL RULES FOR CHAPTER 61 DISABILITY RETIREES.—Subsection (b) of such section is amended to read as follows:

''(b) SPECIAL RULES FOR CHAPTER 61 DISABILITY RETIREES WHEN ELIGIBILITY HAS BEEN ESTABLISHED FOR SUCH RETIREES.—

''(1) GENERAL REDUCTION RULE.—The retired pay of a member retired under chapter 61 of this title is subject to reduction under sections 5304 and 5305 of title 38, but only to the extent that the amount of the members retired pay under chapter 61 of this title exceeds the amount of retired pay to which the member would have been entitled under any other provision of law based upon the member's service in the uniformed services if the member had not been retired under chapter 61 of this title.

''(2) RETIREES WITH FEWER THAN 20 YEARS OF SERVICE.—

''(A) BEFORE TERMINATION DATE.—If a member with a qualifying service-connected disability (as defined in subsection (a)(2)) is retired under chapter 61 of this title with fewer than 20 years of creditable service otherwise creditable under section 1405 or computed under section 12732 of this title, and the termination date specified in subsection (a)(1)(D) has not occurred, the retired pay of the member is subject to reduction under

sections 5304 and 5305 of title 38, but only to the extent that the amount of the member's retired pay under chapter 61 of this title exceeds the amount equal to 2½ percent of the member's years of creditable service multiplied by the member's retired pay base under section 1406(b)(1) or 1407 of this title, whichever is applicable to the member.

''(B) AFTER TERMINATION DATE.—Subsection (a) does not apply to a member retired under chapter 61 of this title with less than 20 years of service otherwise creditable under section 1405 of this title, or with less than 20 years of service computed under section 12732 of this title, at the time of the retirement of the member if the termination date in paragraph (1)(D) of such subsection has occurred.''.

(c) CONFORMING AMENDMENT TO FULL CONCURRENT RECEIPT PHASE-IN.—Subsection (c) of such section is amended by striking ''the second sentence of''.

(d) CLERICAL AMENDMENTS.—

(1) SECTION HEADING.—The heading of such section is amended to read as follows:

''§ 1414. Concurrent receipt of retired pay and veterans' disability compensation''.

(2) TABLE OF SECTIONS.—The table of sections at the beginning of chapter 71 of such title is amended by striking the item related to section 1414 and inserting the following new item:

''1414. Concurrent receipt of retired pay and veterans' disability compensation.''.

(e) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 2010.

TITLE II—FEDERAL EMPLOYEE BENEFITS

Subtitle A—General Provisions

SEC. 201. CREDIT FOR UNUSED SICK LEAVE.

(a) IN GENERAL.—Section 8415 of title 5, United States Code, is amended—

(1) by redesignating the second subsection (k) and subsection (l) as subsections (l) and (m), respectively; and

(2) in subsection (l) (as so redesignated by paragraph (1))—

(A) by striking ''(l) In computing'' and inserting ''(l)(1) In computing''; and

(B) by adding at the end the following:

''(2) Except as provided in paragraph (1), in computing an annuity under this subchapter, the total service of an employee who retires on an immediate annuity or who dies leaving a survivor or survivors entitled to annuity includes the days of unused sick leave to his credit under a formal leave system and for which days the employee has not received payment, except that these days will not be counted in determining average pay or annuity eligibility under this subchapter. For purposes of this subsection, in the case of any such employee who is excepted from subchapter I of chapter 63 under section 6301(2)(x) through (xiii), the days of unused sick leave to his credit include any unused sick leave standing to his credit when he was excepted from such subchapter.''.

(b) EXCEPTION FROM DEPOSIT REQUIREMENT.—Section 8422(d)(2) of title 5, United States Code, is amended by striking ''section 8415(k)'' and inserting ''paragraph (1) or (2) of section 8415(l)''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to annuities computed based on separations occurring on or after the date of enactment of this Act.

SEC. 202. LIMITED EXPANSION OF THE CLASS OF INDIVIDUALS ELIGIBLE TO RECEIVE AN ACTUARIALLY REDUCED ANNUITY UNDER THE CIVIL SERVICE RETIREMENT SYSTEM.

(a) IN GENERAL.—Section 8334(d)(2)(A)(i) of title 5, United States Code, is amended by striking ''October 1, 1990'' each place it appears and inserting ''March 1, 1991''.

(b) APPLICABILITY.—The amendment made by subsection (a) shall be effective with respect to any annuity, entitlement to which is based on a separation from service occurring on or after the date of enactment of this Act.

SEC. 203. COMPUTATION OF CERTAIN ANNUITIES BASED ON PART-TIME SERVICE.

(a) IN GENERAL.—Section 8339(p) of title 5, United States Code, is amended by adding at the end the following:

''(3) In the administration of paragraph (1)—

''(A) subparagraph (A) of such paragraph shall apply with respect to service performed before, on, or after April 7, 1986; and

''(B) subparagraph (B) of such paragraph—

''(i) shall apply with respect to that portion of any annuity which is attributable to service performed on or after April 7, 1986; and

''(ii) shall not apply with respect to that portion of any annuity which is attributable to service performed before April 7, 1986.''.

(b) APPLICABILITY.—The amendment made by subsection (a) shall be effective with respect to any annuity, entitlement to which is based on a separation from service occurring on or after the date of enactment of this Act.

SEC. 204. AUTHORITY TO DEPOSIT REFUNDS UNDER FERS.

(a) DEPOSIT AUTHORITY.—Section 8422 of title 5, United States Code, is amended by adding at the end the following:

''(i)(1) Each employee or Member who has received a refund of retirement deductions under this or any other retirement system established for employees of the Government covering service for which such employee or Member may be allowed credit under this chapter may deposit the amount received, with interest. Credit may not be allowed for the service covered by the refund until the deposit is made.

''(2) Interest under this subsection shall be computed in accordance with paragraphs (2) and (3) of section 8334(e) and regulations prescribed by the Office. The option under the third sentence of section 8334(e)(2) to make a deposit in one or more installments shall apply to deposits under this subsection.

''(3) For the purpose of survivor annuities, deposits authorized by this subsection may also be made by a survivor of an employee or Member.''.

(b) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) DEFINITIONAL AMENDMENT.—Section 8401(19)(C) of title 5, United States Code, is amended by striking ''8411(f);'' and inserting ''8411(f) or 8422(i);''.

(2) CREDITING OF DEPOSITS.—Section 8422(c) of title 5, United States Code, is amended by adding at the end the following: ''Deposits made by an employee, Member, or survivor also shall be credited to the Fund.''.

(3) SECTION HEADING.—(A) The heading for section 8422 of title 5, United States Code, is amended to read as follows:

''§ 8422. Deductions from pay; contributions for other service; deposits''.

(B) The analysis for chapter 84 of title 5, United States Code, is amended by striking the item relating to section 8422 and inserting the following:

''8422. Deductions from pay; contributions for other service; deposits.''.

(4) RESTORATION OF ANNUITY RIGHTS.—The last sentence of section 8424(a) of title 5, United States Code, is amended by striking ''based.'' and inserting ''based, until the employee or Member is reemployed in the service subject to this chapter.''.

SEC. 205. RETIREMENT CREDIT FOR SERVICE OF CERTAIN EMPLOYEES TRANSFERRED FROM DISTRICT OF COLUMBIA SERVICE TO FEDERAL SERVICE.

(a) RETIREMENT CREDIT.—

(1) IN GENERAL.—Any individual who is treated as an employee of the Federal Government for purposes of chapter 83 or chapter 84 of title 5, United States Code, on or after the date of enactment of this Act who performed qualifying District of Columbia service shall be entitled to have such service included in calculating the individual's creditable service under sections 8332 or 8411 of title 5, United States Code, but only for purposes of the following provisions of such title:

(A) Sections 8333 and 8410 (relating to eligibility for annuity).

(B) Sections 8336 (other than subsections (d), (h), and (p) thereof) and 8412 (relating to immediate retirement).

(C) Sections 8338 and 8413 (relating to deferred retirement).

(D) Sections 8336(d), 8336(h), 8336(p), and 8414 (relating to early retirement).

(E) Section 8341 and subchapter IV of chapter 84 (relating to survivor annuities).

(F) Section 8337 and subchapter V of chapter 84 (relating to disability benefits).

(2) TREATMENT OF DETENTION OFFICER SERVICE AS LAW ENFORCEMENT OFFICER SERVICE.—Any portion of an individual's qualifying District of Columbia service which consisted of service as a detention officer under section 2604(2) of the District of Columbia Government Comprehensive Merit Personnel Act of 1978 (sec. 1–626.04(2), D.C. Official Code) shall be treated as service as a law enforcement officer under sections 8331(20) or 8401(17) of title 5, United States Code, for purposes of applying paragraph (1) with respect to the individual.

(3) SERVICE NOT INCLUDED IN COMPUTING AMOUNT OF ANY ANNUITY.—Qualifying District of Columbia service shall not be taken into account for purposes of computing the amount of any benefit payable out of the Civil Service Retirement and Disability Fund.

(b) QUALIFYING DISTRICT OF COLUMBIA SERVICE DEFINED.—In this section, ''qualifying District of Columbia service'' means any of the following:

(1) Service performed by an individual as a nonjudicial employee of the District of Columbia courts—

(A) which was performed prior to the effective date of the amendments made by section 11246(b) of the Balanced Budget Act of 1997; and

(B) for which the individual did not ever receive credit under the provisions of subchapter III of chapter 83 or chapter 84 of title 5, United States Code (other than by virtue of section 8331(1)(iv) of such title).

(2) Service performed by an individual as an employee of an entity of the District of Columbia government whose functions were transferred to the Pretrial Services, Parole, Adult Supervision, and Offender Supervision Trustee under section 11232 of the Balanced Budget Act of 1997—

(A) which was performed prior to the effective date of the individual's coverage as an employee of the Federal Government under section 11232(f) of such Act; and

(B) for which the individual did not ever receive credit under the provisions of subchapter III of chapter 83 or chapter 84 of title 5, United States Code (other than by virtue of section 8331(1)(iv) of such title).

(3) Service performed by an individual as an employee of the District of Columbia Public Defender Service—

(A) which was performed prior to the effective date of the amendments made by section 7(e) of the District of Columbia Courts and Justice Technical Corrections Act of 1998; and

(B) for which the individual did not ever receive credit under the provisions of subchapter III of chapter 83 or chapter 84 of title 5, United States Code (other than by virtue of section 8331(1)(iv) of such title).

(4) In the case of an individual who was an employee of the District of Columbia Department of Corrections who was separated from service as a result of the closing of the Lorton Correctional Complex and who was appointed to a position with the Bureau of Prisons, the District of Columbia courts, the Pretrial Services, Parole, Adult Supervision, and Offender Supervision Trustee, the United States Parole Commission, or the District of Columbia Public Defender Service, service performed by the individual as an employee of the District of Columbia Department of Corrections—

(A) which was performed prior to the effective date of the individual's coverage as an employee of the Federal Government; and

(B) for which the individual did not ever receive credit under the provisions of subchapter III of chapter 83 or chapter 84 of title 5, United States Code (other than by virtue of section 8331(1)(iv) of such title).

(c) CERTIFICATION OF SERVICE.—The Office of Personnel Management shall accept the certification of the appropriate personnel official of the government of the District of Columbia or other independent employing entity concerning whether an individual performed qualifying District of Columbia service and the length of the period of such service the individual performed.

Subtitle B—Non-Foreign Area Retirement Equity Assurance

SEC. 211. SHORT TITLE.

This subtitle may be cited as the ''Non-Foreign Area Retirement Equity Assurance Act of 2009'' or the ''Non-Foreign AREA Act of 2009''.

SEC. 212. EXTENSION OF LOCALITY PAY.

(a) LOCALITY-BASED COMPARABILITY PAYMENTS.—Section 5304 of title 5, United States Code, is amended—

(1) in subsection (f)(1), by striking subparagraph (A) and inserting the following:

''(A) each General Schedule position in the United States, as defined under section 5921(4), and its territories and possessions, including the Commonwealth of Puerto Rico and the Commonwealth of the Northern Mariana Islands, shall be included within a pay locality;'';

(2) in subsection (g)—

(A) in paragraph (2)—

(i) in subparagraph (A), by striking ''and'' after the semicolon;

(ii) in subparagraph (B) by striking the period and inserting ''; and''; and

(iii) by adding after subparagraph (B) the following:

''(C) positions under subsection (h)(1)(C) not covered by appraisal systems certified under section 5382; and''; and

(B) by adding at the end the following:

''(3) The applicable maximum under this subsection shall be level II of the Executive Schedule for positions under subsection (h)(1)(C) covered by appraisal systems certified under section 5307(d).''; and

(3) in subsection (h)(1)—

(A) in subparagraph (B) by striking ''and'' after the semicolon;

(B) by redesignating subparagraph (C) as subparagraph (D);

(C) by inserting after subparagraph (B) the following:

''(C) a Senior Executive Service position under section 3132 or 3151 or a senior level position under section 5376 stationed within the United States, but outside the 48 contiguous States and the District of Columbia in which the incumbent was an individual who on the day before the date of enactment of the Non-Foreign Area Retirement Equity Assurance Act of 2009 was eligible to receive a cost-of-living allowance under section 5941; and'';

(D) in clause (iv) in the matter following subparagraph (D), by inserting '', except for members covered by subparagraph (C)'' before the semicolon; and

(E) in clause (v) in the matter following subparagraph (D), by inserting '', except for members covered by subparagraph (C)'' before the semicolon.

(b) ALLOWANCES BASED ON LIVING COSTS AND CONDITIONS OF ENVIRONMENT.—Section 5941 of title 5, United States Code, is amended—

(1) in subsection (a), by adding after the last sentence ''Notwithstanding any preceding provision of this subsection, the cost-of-living allowance rate based on paragraph (1) shall be the cost-of-living allowance rate in effect on the date of enactment of the Non-Foreign Area Retirement Equity Assurance Act of 2009, except as adjusted under subsection (c).'';

(2) by redesignating subsection (b) as subsection (d); and

(3) by inserting after subsection (a) the following:

''(b) This section shall apply only to areas that are designated as cost-of-living allowance areas as in effect on December 31, 2009.

''(c)(1) The cost-of-living allowance rate payable under this section shall be adjusted on the first day of the first applicable pay period beginning on or after—

''(A) January 1, 2010; and

''(B) January 1 of each calendar year in which a locality-based comparability adjustment takes effect under section 214 (2) and (3) of the Non-Foreign Area Retirement Equity Assurance Act of 2009.

''(2)(A) In this paragraph, the term 'applicable locality-based comparability pay percentage' means, with respect to calendar year 2010 and each calendar year thereafter, the applicable percentage under section 214 (1), (2), or (3) of Non-Foreign Area Retirement Equity Assurance Act of 2009.

''(B) Each adjusted cost-of-living allowance rate under paragraph (1) shall be computed by—

''(i) subtracting 65 percent of the applicable locality-based comparability pay percentage from the cost-of-living allowance percentage rate in effect on December 31, 2009; and

''(ii) dividing the resulting percentage determined under clause (i) by the sum of—

''(I) one; and

''(II) the applicable locality-based comparability payment percentage expressed as a numeral.

''(3) No allowance rate computed under paragraph (2) may be less than zero.

''(4) Each allowance rate computed under paragraph (2) shall be paid as a percentage of basic pay (including any applicable locality-based comparability payment under section 5304 or similar provision of law and any applicable special rate of pay under section 5305 or similar provision of law).''.

SEC. 213. ADJUSTMENT OF SPECIAL RATES.

(a) IN GENERAL.—Each special rate of pay established under section 5305 of title 5, United States Code, and payable in an area designated as a cost-of-living allowance area under section 5941(a) of that title, shall be adjusted, on the dates prescribed by section 214 of this subtitle, in accordance with regulations prescribed by the Director of the Office of Personnel Management under section 218 of this subtitle.

(b) AGENCIES WITH STATUTORY AUTHORITY.—

(1) IN GENERAL.—Each special rate of pay established under an authority described under paragraph (2) and payable in a location designated as a cost-of-living allowance area under section 5941(a)(1) of title 5, United States Code, shall be adjusted in accordance with regulations prescribed by the applicable head of the agency that are consistent with the regulations issued by the Director of the Office of Personnel Management under subsection (a).

(2) STATUTORY AUTHORITY.—The authority referred to under paragraph (1), is any statutory authority that—

(A) is similar to the authority exercised under section 5305 of title 5, United States Code;

(B) is exercised by the head of an agency when the head of the agency determines it to be necessary in order to obtain or retain the services of persons specified by statute; and

(C) authorizes the head of the agency to increase the minimum, intermediate, or maximum rates of basic pay authorized under applicable statutes and regulations.

(c) TEMPORARY ADJUSTMENT.—Regulations issued under subsection (a) or (b) may provide that statutory limitations on the amount of such special rates may be temporarily raised to a higher level during the transition period described in section 214 ending on the first day of the first pay period beginning on or after January 1, 2012, at which time any special rate of pay in excess of the applicable limitation shall be converted to a retained rate under section 5363 of title 5, United States Code.

SEC. 214. TRANSITION SCHEDULE FOR LOCALITY-BASED COMPARABILITY PAYMENTS.

Notwithstanding any other provision of this subtitle or section 5304 or 5304a of title 5, United States Code, in implementing the amendments made by this subtitle, for each non-foreign area determined under section 5941(b) of that title, the applicable rate for the locality-based comparability adjustment that is used in the computation required under section 5941(c) of that title shall be adjusted effective on the first day of the first pay period beginning on or after January 1—

(1) in calendar year 2010, by using ⅓ of the locality pay percentage for the rest of United States locality pay area;

(2) in calendar year 2011, by using ⅔ of the otherwise applicable comparability payment approved by the President for each non-foreign area; and

(3) in calendar year 2012 and each subsequent year, by using the full amount of the applicable comparability payment approved by the President for each non-foreign area.

SEC. 215. SAVINGS PROVISION.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the application of this subtitle to any employee should not result in a decrease in the take home pay of that employee;

(2) in calendar year 2012 and each subsequent year, no employee shall receive less than the Rest of the U.S. locality pay rate;

(3) concurrent with the surveys next conducted under the provisions of section 5304(d)(1)(A) of title 5, United States Code, beginning after the date of the enactment of this Act, the Bureau of Labor Statistics should conduct separate surveys to determine the extent of any pay disparity (as defined by section 5302 of that title) that may exist with respect to positions located in the State of Alaska, the State of Hawaii, and the United States territories, including American Samoa, Guam, Commonwealth of the Northern Mariana Islands, Commonwealth of Puerto Rico, and the United States Virgin Islands;

(4) if the surveys under paragraph (3) indicate that the pay disparity determined for the State of Alaska, the State of Hawaii, or any 1 of the United States territories including American Samoa, Guam, Commonwealth of the Northern Mariana Islands, Commonwealth of Puerto Rico, and the United States Virgin Islands exceeds the pay disparity determined for the locality which (for purposes of section 5304 of that title) is commonly known as the ''Rest of the United States'', the President's Pay Agent should take appropriate measures to provide that each such surveyed area be treated as a separate pay locality for purposes of that section; and

(5) the President's Pay Agent will establish 1 locality area for the entire State of Hawaii and 1 locality area for the entire State of Alaska.

(b) SAVINGS PROVISIONS.—

(1) IN GENERAL.—During the period described under section 214 of this subtitle, an employee paid a special rate under 5305 of title 5, United States Code, who the day before the date of enactment of this Act was eligible to receive a cost-of-living allowance under section 5941 of title 5, United States Code, and who continues to be officially stationed in an allowance area, shall receive an increase in the employee's special rate consistent with increases in the applicable special rate schedule. For employees in allowance areas, the minimum step rate for any grade of a special rate schedule shall be increased at the time of an increase in the applicable locality rate percentage for the allowance area by not less than the dollar increase in the locality-based comparability payment for a non-special rate employee at the same minimum step provided under section 214 of this subtitle, and corresponding increases shall be provided for all step rates of the given pay range.

(2) CONTINUATION OF COST OF LIVING ALLOWANCE RATE.—If an employee, who the day before the date of enactment of this Act was eligible to receive a cost-of-living allowance under section 5941 of title 5, United States Code, would receive a rate of basic pay and applicable locality-based comparability payment which is in excess of the maximum rate limitation set under section 5304(g) of title 5, United States Code, for his position (but for that maximum rate limitation) due to the operation of this subtitle, the employee shall continue to receive the cost-of-living allowance rate in effect on December 31, 2009 without adjustment until—

(A) the employee leaves the allowance area or pay system; or

(B) the employee is entitled to receive basic pay (including any applicable locality-based comparability payment or similar supplement) at a higher rate,

but, when any such position becomes vacant, the pay of any subsequent appointee thereto shall be fixed in the manner provided by applicable law and regulation.

(3) LOCALITY-BASED COMPARABILITY PAYMENTS.—Any employee covered under paragraph (2) shall receive any applicable locality-based comparability payment extended under section 214 of this subtitle which is not in excess of the maximum rate set under section 5304(g) of title 5, United States Code, for his position including any future increase to statutory pay limitations under 5318 of title 5, United States Code. Notwithstanding paragraph (2), to the extent that an employee covered under that paragraph receives any amount of locality-based comparability payment, the cost-of-living allowance rate under that paragraph shall be reduced accordingly, as provided under section 5941(c)(2)(B) of title 5, United States Code.

SEC. 216. APPLICATION TO OTHER ELIGIBLE EMPLOYEES.

(a) IN GENERAL.—

(1) DEFINITION.—In this subsection, the term ''covered employee'' means—

(A) any employee who—

(i) on the day before the date of enactment of this Act—

(I) was eligible to be paid a cost-of-living allowance under 5941 of title 5, United States Code; and

(II) was not eligible to be paid locality-based comparability payments under 5304 or 5304a of that title; or

(ii) on or after the date of enactment of this Act becomes eligible to be paid a cost-of-living allowance under 5941 of title 5, United States Code; or

(B) any employee who—

(i) on the day before the date of enactment of this Act—

(I) was eligible to be paid an allowance under section 1603(b) of title 10, United States Code;

(II) was eligible to be paid an allowance under section 1005(b) of title 39, United States Code;

(III) was employed by the Transportation Security Administration of the Department of Homeland Security and was eligible to be paid an allowance based on section 5941 of title 5, United States Code; or

(IV) was eligible to be paid under any other authority a cost-of-living allowance that is equivalent to the cost-of-living allowance under section 5941 of title 5, United States Code; or

(ii) on or after the date of enactment of this Act—

(I) becomes eligible to be paid an allowance under section 1603(b) of title 10, United States Code;

(II) becomes eligible to be paid an allowance under section 1005(b) of title 39, United States Code;

(III) is employed by the Transportation Security Administration of the Department of Homeland Security and becomes eligible to be paid an allowance based on section 5941 of title 5, United States Code; or

(IV) is eligible to be paid under any other authority a cost-of-living allowance that is equivalent to the cost-of-living allowance under section 5941 of title 5, United States Code.

(2) APPLICATION TO COVERED EMPLOYEES.—

(A) IN GENERAL.—Notwithstanding any other provision of law, for purposes of this subtitle (including the amendments made by this subtitle) any covered employee shall be treated as an employee to whom section 5941 of title 5, United States Code (as amended by section 212 of this subtitle), and section 214 of this subtitle apply.

(B) PAY FIXED BY STATUTE.—Pay to covered employees under section 5304 or 5304a of title 5, United States Code, as a result of the application of this subtitle shall be considered to be fixed by statute.

(C) PERFORMANCE APPRAISAL SYSTEM.—With respect to a covered employee who is subject to a performance appraisal system no part of pay attributable to locality-based comparability payments as a result of the application of this subtitle including section 5941 of title 5, United States Code (as amended by section 212 of this subtitle), may be reduced on the basis of the performance of that employee.

(b) POSTAL EMPLOYEES IN NON-FOREIGN AREAS.—

(1) IN GENERAL.—Section 1005(b) of title 39, United States Code, is amended—

(A) by inserting ''(1)'' after ''(b)'';

(B) by striking ''Section 5941,'' and inserting ''Except as provided under paragraph (2), section 5941'';

(C) by striking ''For purposes of such section,'' and inserting ''Except as provided under paragraph (2), for purposes of section 5941 of that title,''; and

(D) by adding at the end the following:

''(2) On and after the date of enactment of the Non-Foreign Area Retirement Equity Assurance Act of 2009—

''(A) the provisions of that Act and section 5941 of title 5 shall apply to officers and employees covered by section 1003 (b) and (c) whose duty station is in a nonforeign area; and

''(B) with respect to officers and employees of the Postal Service (other than those officers and employees described under subparagraph (A)) of section 216(b)(2) of that Act shall apply.''.

(2) CONTINUATION OF COST OF LIVING ALLOWANCE.—

(A) IN GENERAL.—Notwithstanding any other provision of this subtitle, any employee of the Postal Service (other than an employee covered by section 1003 (b) and (c) of title 39, United States Code, whose duty station is in a nonforeign area) who is paid an allowance under section 1005(b) of that title shall be treated for all purposes as if the provisions of this subtitle (including the amendments made by this subtitle) had not been enacted, except that the cost-of-living allowance rate paid to that employee—

(i) may result in the allowance exceeding 25 percent of the rate of basic pay of that employee; and

(ii) shall be the greater of—

(I) the cost-of-living allowance rate in effect on December 31, 2009 for the applicable area; or

(II) the applicable locality-based comparability pay percentage under section 214.

(B) RULE OF CONSTRUCTION.—Nothing in this subtitle shall be construed to—

(i) provide for an employee described under subparagraph (A) to be a covered employee as defined under subsection (a); or

(ii) authorize an employee described under subparagraph (A) to file an election under section 217 of this subtitle.

SEC. 217. ELECTION OF ADDITIONAL BASIC PAY FOR ANNUITY COMPUTATION BY EMPLOYEES.

(a) DEFINITION.—In this section the term ''covered employee'' means any employee—

(1) to whom section 214 applies;

(2) who is separated from service by reason of retirement under chapter 83 or 84 of title 5, United States Code, during the period of January 1, 2010, through December 31, 2012; and

(3) who files an election with the Office of Personnel Management under subsection (b).

(b) ELECTION.—

(1) IN GENERAL.—An employee described under subsection (a) (1) and (2) may file an election with the Office of Personnel Management to be covered under this section.

(2) DEADLINE.—An election under this subsection may be filed not later than December 31, 2012.

(c) COMPUTATION OF ANNUITY.—

(1) IN GENERAL.—Except as provided under paragraph (2), for purposes of the computation of an annuity of a covered employee any cost-of-living allowance under section 5941 of title 5, United States Code, paid to that employee during the first applicable pay period beginning on or after January 1, 2010 through the first applicable pay period ending on or after December 31, 2012, shall be considered basic pay as defined under section 8331(3) or 8401(4) of that title.

(2) LIMITATION.—The amount of the cost-of-living allowance which may be considered basic pay under paragraph (1) may not exceed the amount of the locality-based comparability payments the employee would have received during that period for the applicable pay area if the limitation under section 214 of this subtitle did not apply.

(d) CIVIL SERVICE RETIREMENT AND DISABILITY RETIREMENT FUND.—

(1) EMPLOYEE CONTRIBUTIONS.—A covered employee shall pay into the Civil Service Retirement and Disability Retirement Fund—

(A) an amount equal to the difference between—

(i) employee contributions that would have been deducted and withheld from pay under section 8334 or 8422 of title 5, United States Code, during the period described under subsection (c) of this section if the cost-of-living allowances described under that subsection had been treated as basic pay under section 8331(3) or 8401(4) of title 5, United States Code; and

(ii) employee contributions that were actually deducted and withheld from pay under section 8334 or 8422 of title 5, United States Code, during that period; and

(B) interest as prescribed under section 8334(e) of title 5, United States Code, based on the amount determined under subparagraph (A).

(2) AGENCY CONTRIBUTIONS.—

(A) IN GENERAL.—The employing agency of a covered employee shall pay into the Civil Service Retirement and Disability Retirement Fund an amount for applicable agency contributions based on payments made under paragraph (1).

(B) SOURCE.—Amounts paid under this paragraph shall be contributed from the appropriation or fund used to pay the employee.

(3) REGULATIONS.—The Office of Personnel Management may prescribe regulations to carry out this section.

SEC. 218. REGULATIONS.

(a) IN GENERAL.—The Director of the Office of Personnel Management shall prescribe regulations to carry out this subtitle, including—

(1) rules for special rate employees described under section 213;

(2) rules for adjusting rates of basic pay for employees in pay systems administered by the Office of Personnel Management when such employees are not entitled to locality-based comparability payments under section 5304 of title 5, United States Code, without regard to otherwise applicable statutory pay limitations during the transition period described in section 214 ending on the first day of the first pay period beginning on or after January 1, 2012; and

(3) rules governing establishment and adjustment of saved or retained rates for any employee whose rate of pay exceeds applicable pay limitations on the first day of the first pay period beginning on or after January 1, 2012.

(b) OTHER PAY SYSTEMS.—With the concurrence of the Director of the Office of Personnel Management, the administrator of a pay system not administered by the Office of Personnel Management shall prescribe regulations to carry out this subtitle with respect to employees in such pay system, consistent with the regulations prescribed by the Office under subsection (a). With respect to employees not entitled to locality-based comparability payments under section 5304 of title 5, United States Code, regulations prescribed under this subsection may provide for special payments or adjustments for employees who were eligible to receive a cost-of-living allowance under section 5941 of that title on the date before the date of enactment of this Act.

SEC. 219. EFFECTIVE DATES.

(a) IN GENERAL.—Except as provided by subsection (b), this subtitle (including the amendments made by this subtitle) shall take effect on the date of enactment of this Act.

(b) LOCALITY PAY AND SCHEDULE.—The amendments made by section 212 and the provisions of section 214 shall take effect on the first day of the first applicable pay period beginning on or after January 1, 2010.

TITLE III—DEEPWATER OIL AND GAS RESEARCH AND DEVELOPMENT FUNDING SOURCE REPEAL

SEC. 301. REPEAL.

Effective October 1, 2010, section 999H of the Energy Policy Act of 2005 (42 U.S.C. 16378) is amended—

(1) by striking subsections (a), (b), (c), and (f);

(2) by redesignating subsections (d) and (e) as subsections (a) and (b), respectively;

(3) in subsection (a), as so redesignated, by striking ''obligated from the Fund under subsection (a)(1)'' and inserting ''available under this section''; and

(4) in subsection (b), as so redesignated, by striking ''In addition to other amounts that are made available to carry out this section, there'' and inserting ''There''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Missouri (Mr. SKELTON) and the gentleman from South Carolina (Mr. WILSON) each will control 20 minutes.

The Chair recognizes the gentleman from Missouri.

GENERAL LEAVE

Mr. SKELTON. I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks on then resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

Mr. SKELTON. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of H.R. 2990, the Disabled Military Retiree Relief Act of 2009. The disabled veterans tax has, for decades, prevented retirees from receiving the full benefits they have earned in military retired pay and veterans disability compensation.

The one group of retirees that have endured great hardship but have been among the last to be embraced by reform is the disabled retiree with less than 20 years of service.

This group of retirees has been ignored by even the most reform-minded advocate until the Democratic Congress acted to include them in the Combat-Related Special Compensation program when the National Defense Authorization Act for Fiscal Year 2008 was adopted. And yet this group of retirees has perhaps the most compelling story to tell.

Many of these servicemembers were on track to serve a full military career but were blocked from serving 20 years because of their disabilities. It's this group of retirees that were disabled at younger ages and often with young families. As a result, they are often the most financially stressed.

The President took a definitive step forward in support of disabled retirees with less than 20 years of service when he proposed legislation in his budget request for fiscal year 2010. The President's proposal would phase in full concurrent receipt of military retired pay and VA disability compensation for these deserving veterans over 5 years.

We share the President's view that our veterans and their families, and particularly disabled retirees with less than 20 years, have made tremendous sacrifices for our country, but this bill moves us closer to fulfilling the President's plans and the commitment of Congress to give disabled veterans full access to the benefits they deserve.

While H.R. 2990 is an important step, we must recognize that it is an incremental step that reaches only the most severely disabled over the first year of the President's phased implementation plan. Congress has been working to find a way to permanently eliminate the disabled veterans tax for many years, but finding this entitlement program is an immensely difficult task. I'm grateful to all of my House colleagues who have worked to find the budget offsets needed to provide this temporary fix for our veterans. As we pursue this legislation, we will continue to do all we can to honor our country's debt to our veterans and their families.

I would note that H.R. 2990 also includes a number of valuable changes that enhance the Federal civilian retirement benefits. In addition, the bill extends expiring authorities concerning a wide variety of bonuses and special pays that are critical to military recruiting and retention.

H.R. 2990 is a good bill. It's an important bill that supports the President's initiative regarding disabled retirees and fulfills the longstanding commitment of Congress to provide for the welfare of disabled veterans.

There still remains much to be done to find a permanent solution, and this

bill provides the framework for our future action. Our veterans have never quit on America, and you can be certain that we will never quit on our veterans. I urge my colleagues to support the Disabled Military Retiree Relief Act of 2009.

I reserve the balance of my time.

Mr. WILSON of South Carolina. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise to support H.R. 2990, the Disabled Military Retiree Relief Act of 2009. This bill has a number of good provisions dealing with military and civilian personnel, which I appreciate as a 31-year Army National Guard veteran representing Parris Island, the Marine Corps Air Station at Beaufort, the Beaufort Naval Hospital, and Fort Jackson.

I want to focus on one section of the bill that would provide concurrent receipt of Department of Defense disability pay and Veterans Administration disability pay to a small number of people discharged from the services with less than 20 years' service because of injuries sustained while in the service.

This section, which is but a ghost of the proposal submitted by President Obama, is a small but important step in expanding the population eligible for full concurrent receipt. I'm glad some progress is being made.

What troubles and disappoints me most, however, is that this bill, which will be attached to the National Defense Authorization Act for 2010, could have done so much more had the Democratic leadership of the House made elimination of concurrent receipt and elimination of the widow's tax a priority from the beginning of this Congress.

Instead, we were unable to even debate my amendment at the full committee markup of the Defense Authorization dealing with concurrent receipt, the elimination of the Survivor Benefit Plan and Dependency and Indemnity Compensation offset is a widow's tax, the extension of health care to early retiring Reserve component members, and the use of the misnamed Reserve Fund in the budget resolution.

I would note that since the introduction of the amendment, the Democratic leadership has found a way to fund H.R. 2990, using resources and dollars outside the House Armed Services Committee jurisdiction to provide for just 9 months of very limited concurrent receipt for disabled military retirees.

While that is a step forward to eliminating some of the injustice inflicted on disabled retirees, it does nothing to cure the injustice still being suffered by most persons losing their rightly earned benefits because of the remaining concurrent receipt prohibitions.

Had the House leadership seen eliminating these injustices as a priority, they could have allocated a small percentage—less than 1 percent—necessary in the $15 trillion they provided for government spending in 2010 to 2014. Or, they could have used the Reserve Fund authority as proposed in my amendment.

□ 1115

Instead we must settle for a small pittance for a small group of retirees. I hope that since the authority for this limited concurrent receipt is for only 9 months, that the Democratic leadership makes resolving all the concurrent receipt and SBP–DIC offset injustices a real, not a symbolic, priority next year. As a Nation, we owe more than our gratitude to the brave men and women in uniform and their families, past and present, for the sacrifices they make to protect our freedoms. I know firsthand of the courage of our troops. My late father-in-law Julian Dusenbury, a dedicated Marine, was awarded the Navy Cross for leading the capture of the Japanese headquarters of Shuri Castle in Okinawa. He was shot by a sniper, resulting in his being in a wheelchair for the rest of his life. He was grateful to have served America.

With that, Madam Speaker, I yield as much time as he may consume to the gentleman from Georgia, Dr. BROUN.

MOTION TO ADJOURN

Mr. BROUN of Georgia. Madam Speaker, I move that the House do now adjourn.

The SPEAKER pro tempore. The question is on the motion to adjourn.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. BROUN of Georgia. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 73, nays 316, not voting 44, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. HASTINGS of Florida) (during the vote). There are 2 minutes remaining in this vote.

□ 1140

Messrs. BUYER, BONNER, BOYD, POMEROY, Mrs. BIGGERT, Messrs. PETERSON, CANTOR, DICKS, WESTMORELAND, and Ms. HIRONO changed their vote from ''yea'' to ''nay.''

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

Stated against:

Ms. HARMAN. Madam Speaker, on rollcall No. 425, I was attending a classified briefing. Had I been present, I would have voted ''nay.''

DISABLED MILITARY RETIREE RELIEF ACT OF 2009

The SPEAKER pro tempore (Mrs. TAUSCHER). The gentleman from Missouri has 16 minutes remaining; the gentleman from South Carolina has 16¼ minutes remaining.

Mr. SKELTON. Madam Speaker, I yield myself such time as I may consume.

This is a very, very important bill, particularly important to disabled American veterans. I notice we have had two adjournment motions already. I hope we can take this bill up because those young and young women deserve it.

Special thanks to the Speaker, Leader HOYER, Chairman TOWNS, Chairman SPRATT, Chairman RAHALL, Chairman GORDON, Chairman WAXMAN, Chairman MARKEY, Mr. LYNCH, SUSAN DAVIS, and Mr. EDWARDS for all the help that they have given us on this very complicated, very important matter for our disabled veterans.

At this time, Madam Speaker, I yield 2 minutes to my friend and colleague, the distinguished chairman of the Committee on Oversight and Government Reform, the gentleman from New York (Mr. TOWNS).

Mr. TOWNS. I thank the gentleman from Missouri for yielding.

Madam Speaker, as Chair of the Oversight and Government Reform Committee, I rise in support of H.R. 2990. I am pleased the legislation we are considering today will assist the men and women of our Armed Forces by permitting disabled military retirees to receive both their disability compensation and their retired pay concurrently.

Let me pause and thank Chairman SKELTON for working closely with the Oversight Committee on title II of this legislation. Title II makes several positive changes to the retirement system for Federal employees. These changes will enhance the system's efficiency and effectiveness as a recruiting and management tool when we need to be attracting the best and the brightest to the Federal workforce.

Most of title II's provisions were included in H.R. 1804, a bill I sponsored that passed the House by a unanimous voice vote on April 1. After passing the House, the retirement provisions were added to the landmark tobacco legislation that President Obama signed into law this week. Unfortunately, they were removed for procedural reasons in the Senate version of the tobacco bill that President Obama signed.

I am delighted we have the opportunity to consider these measures again today. Title II includes provisions to eliminate inconsistency in the way part-time service, breaks in service, and unused sick leave are considered in calculating retirement benefits. These provisions will help employees and managers plan for a wave of upcoming retirements and encourage highly talented individuals to return to government service.

I thank the staff of both committees. I thank Chairman SKELTON for his support. And I urge all of my colleagues to vote for this very important legislation. And I hope that the other side stops calling for adjournments because this bill is very, very important and we need to move it forward.

Mr. WILSON of South Carolina. Madam Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. HALL).

□ 1145

Mr. HALL of Texas. Madam Speaker, I stand here to speak on this bill. I have some misgivings about it. But I intend to vote for this bill. I can't vote against this bill because it benefits people that have served this country and that have suffered for this country. And I have never, in the 28 years I have been here, voted for a bill that affected adversely any veteran or any person that stood up for this country, and I admire and respect Mr. SKELTON, the author of this bill. I disagree with the way he has funded it and want to point that out.

I would also point out that I have a letter addressed to Mr. SKELTON. He has not had the time to receive it because this bill was introduced yesterday, and it is on the floor today. That is a little hasty. But this is an important bill, and it is a bill that needs to be passed. But I'm torn today as I rise to speak on H.R. 2990. On the one hand, I support the revisions in the bill, retired pay benefits for Reserve members and compensation and benefits for servicemembers. But where I'm torn is how the chairman, my good friend, Mr. SKELTON, chose to pay for the compensation and benefits provided under the bill.

I will first point out that this is a bill for the veterans, and this is a bill for those that probably without this bill would not have the assistance that they need, that they deserve and that they are entitled to.

I would also say that as a veteran of World War II, and probably one of about four or five on this floor still here, five or six over in the Senate, there are not very many of us left, but I take no backseat to anybody in supporting veterans. I have a veterans' hospital that my predecessor, Sam Rayburn, provided and benefited. And I have had the pleasure of walking in a mass of walkathons to preserve that hospital, from Bonham, Texas, where Mr. Rayburn lived, to Dallas, to protest cuts in it, as anybody here would. Anybody on this floor has to support the purpose of this bill, which is for those that are suffering.

The major desire of those that have served in any war is that no other generation would have to fight such a war and that we remove the causes of war. And probably the greatest duty of a Member of Congress is to prevent a war. And how do you prevent a war? You prevent a war by removing the causes of it. And energy itself, or the lack of it, has been the cause of most wars that I know anything about. Japan didn't hate this country. Japan loved this country. But our country had cut off their access to oil. They had 13 months' national existence. We had to know that Japan would break out somewhere. That was a war over energy, not the hatred of the United States of America. Twelve or fourteen years ago, George Bush, Senior, sent 450,000 of our troops over to Kuwait. That was not a battle for the emir of Kuwait. We don't care anything at all about the emir of Kuwait. That was to keep a bad guy, Saddam Hussein, from getting his foot on half the known mineral reserves and energy of that area over there. That was a war for energy.

So I have a bill that I passed. I passed it as a Democrat once, it failed, it didn't get through. I passed it as a Republican with Democratic and Republican support. It passed this body. The

chairman, IKE SKELTON, voted for it at the time. And that bill is now underway. And I want to say a few words about that bill because I think you're entitled to know, and I'm very hopeful that the other body will look closely at this. And I'm going to be working toward that. I haven't had the time or the opportunity to work toward it, and neither did I have the incentive to do anything to kill this bill.

I urge everybody within the sound of my voice to vote for this bill and to commend IKE SKELTON for his leadership and his devotion to the men and women that fight for this country and care for this country.

I think unfortunately regarding this bill, he chose to redirect the funds which by law, Public Law 109–58, a law that passed the House 275–156, a law that Chairman SKELTON voted for, are reserved for the Ultra-Deepwater and Unconventional Onshore Natural Gas and Other Petroleum Research and Development Program, also known as section 999.

Now the hard, cold facts about it that brought that bill into being was that we can get energy up from the coastal waters. We can get it up to around 80 or 90, 900 feet. And this bill, without the technology, could not get it to the surface where we could benefit from it. But we knew that the energy was there. And we knew that technology was there. And the bill I introduced is not an energy bill nor a technology bill. It puts the two together. And it pays universities, and there are 26 universities in this country, and I'm going to mention some of those in a few minutes, that stepped forward, that are working within this bill and have put 3 years work into it.

I just think that we need to remember section 999. It has achieved a lot since its enactment. It passed, and it passed the bill. It was in the bill that we passed, what, a year and a half ago, a consortium that administers the program has grown to achieve over 140 entities in 28 States, including 26 universities. Those 26 universities, I'm not going to recite all those universities, they are available and people know where they are and which they are, but I do want to point out just some of the universities: MIT—this is a list of them here—MIT; Florida International University; Louisiana State University; Massachusetts Institute of Technology; Mississippi State University. It goes on down: Rice University; Texas A&M; Texas Tech; Universities of Kansas, Oklahoma, Texas, Tulsa, Utah, Alaska-Fairbanks, Houston, Michigan, South Carolina, Southern California, West Virginia, and West Virginia State. Those are just some of the many institutions that are working within the confines of the bill that we passed.

The consortium has awarded dozens of projects. These are underway. If you divert this money from this bill to support the bill that Mr. SKELTON has, these are the things that you're knocking out, an effort to find energy for 100 years that this country needs, that would prevent us from having to pay foreign agents, Arab nations that we don't trust and don't trust us, those millions and trillions of dollars could stay here in this country. And the consortium has awarded dozens of projects, including 43 research projects currently underway, with a total project value of nearly $60 million.

Also, Madam Speaker, the value of the projects over and above the amount of annual funding for the projects, $37,500,000 was achieved because industry believes in the value of the program and has invested substantially in it, a testament to the work that the program has achieved to date. These projects were selected on a competitive basis from over 180 proposals totaling nearly $415 million. This program is underway and the projects awarded by the consortium include components that benefit dozens of universities throughout the country. In fact, the research and development projects undertaken through the program have included the participation of nearly 1,500 energy researchers from coast to coast. These are not the majors. These are little people. These are for little people. These are for the American people. These are to prevent a war in the future by providing the energy of today.

Nearly 80 percent of the awards made through the section 999 program have gone to universities, nonprofit organizations, national laboratories, and State institutions.

Program awards have created high-tech and innovative domestic jobs. The National Energy Technology Laboratory has estimated that the awards would create 1,300 job years from research alone. All the while, Madam Speaker, the research projects are aiding the development of cleaner, safer, and more environmentally responsible domestic energy sources, and yes, hundreds of years of energy that is there, we can bring to the top now that we couldn't before.

We get the technology. It doesn't cost the taxpayers anything. We pay for the energy we get by the technology that gives us the ability to bring it up, ability we didn't have—we couldn't get the energy. With that technology, we can get that energy, and that is the thing that really breaks my heart to see us kill a program that is underway and is working. It is hundreds of years of energy.

I want to just point out one other thing. Section 999 does just the type of research that the Secretary of Energy, the Honorable Steven Chu, feels that the Federal Government should be supporting, as he stated in a hearing earlier this year as he testified before the House Science and Technology Committee.

So this is a bill that is a wonderful bill. For the purpose of the bill, I support it. I'm going to vote for it. I urge everybody else to vote for it. But I urge you to work and look forward and find out for yourself the funds that are being utilized to take its place, already underway successfully and producing for us, not to throw it aside. There are surely other areas that we can find. And I will join Mr. SKELTON in that, as this thing goes to conference, if it goes to conference, or as it works its way through the other body.

I thank you, and I thank Chairman SKELTON.

Mr. SKELTON. Madam Speaker, I yield 3 minutes to the distinguished gentleman from South Carolina, my friend, my colleague, the gentleman who is the chairman of the Committee on the Budget, Mr. SPRATT.

Mr. SPRATT. Madam Speaker, I commend the gentleman for bringing the bill to the floor and I rise in strong support of the Disabled Military Retiree Relief Act of 2009.

This bill accomplishes several important things. It enhances the benefits of Federal civil service retirees. It extends the bonuses available to our military recruiters to ensure that they have the tools needed for recruitment and retention. But most importantly, this bill restores the benefits earned by a group of veterans who are particularly deserving. The group I speak of is comprised of veterans who were medically retired with a disability and less than 20 years of service. These disabled veterans tend to be younger, and as a result, they tend to be less well off financially.

Reducing their earned benefits by offsetting the receipt of one benefit against the other, retirement pay against VA disability benefits, does not strike them as fair. And we can understand why.

We first recognized their cause in the Defense Authorization Act for Fiscal Year 2008, when the Congress, Democratic Congress, fought to include them in the Combat Related Special Compensation program. Now President Obama has asked us to take the cause one step further. He has asked us to provide concurrent receipt, phased in over a period of 5 years, for those veterans who are medically retired with a disability rating and for whom no longevity requirement applies. This bill moves to fund the first year of that proposal.

This legislation will go a long way towards showing these veterans that they have not been forgotten, their service has not been forgotten nor has their disability which they incurred in service. Specifically, this bill will repeal the offset, which has prevented medically retired veterans from concurrently receiving their retirement pay and their VA disability compensation at the same time.

Despite its high importance, please bear in mind that this is a 1-year solution. And there is a reason for that. We have a rule here called the PAYGO, pay-as-you-go rule, which basically says when you enhance or expand eligibility for an entitlement program, you have to pay for it so that it will not worsen the deficit.

In order to provide the offsets to keep from worsening the deficit as we undertook this very just adjustment of the veterans benefit program, we have had to look across the spectrum for different items. You just heard some of them read off by Mr. HALL a few minutes ago. We will have to, next year, do the same thing to continue this benefit. And to expand the benefit we will have to look for even more. So it is not easy. It is not easy by any means. But it is worthy of these veterans who have done a yeoman service for their country, who have sustained wounds that they will bear for the rest of their life, and which have disability benefits which should not be offset.

So this is a significant step forward, but it is a step that we have not yet completed. It is a step in the right direction, but we still have a way to go. And next year we will have to revisit this again in order to renew this benefit and in order to expand it for another year. Nevertheless, this is a well-worked piece of legislation for a veterans group that dearly deserves the benefits that it provides.

I urge support for the bill.

Mr. WILSON of South Carolina. Madam Speaker, I reserve the balance of my time.

Mr. SKELTON. Madam Speaker, I yield 3 minutes to my friend, my dear colleague, the chairwoman of the Armed Services Subcommittee on Military Personnel, the gentlelady from California (Mrs. DAVIS).

□ 1200

Mrs. DAVIS of California. Madam Speaker, I rise in support of H.R. 2990, the Disabled Military Retiree Relief Act of 2009.

I would like to echo the comments of Chairman SKELTON on the merits of this bill and to congratulate him for bringing this important measure to the floor.

The process of identifying and coordinating the spending offsets was a long, hard struggle which demonstrates the resolve of the chairman and the Armed Services Committee as a whole to end the disabled veterans tax.

The disabled veterans tax has been an economic burden on our military retirees for far too long. This is especially true for the severely disabled military retirees that were denied to serve for a full 20-year career, and this bill provides immediate protection for the most severely disabled with ratings of 190 percent.

Madam Speaker, this is not a perfect solution. The chairman and I and all of our colleagues on the Armed Services Committee want a full and permanent fix, but the task to find the needed offsets from entitlement accounts was a very difficult one. But no one, no one should doubt our resolve to bring full benefits to our disabled retirees.

I want to assure other groups with issues that face the same daunting challenge to find entitlement funding offsets, that we have not forgotten your causes. Today we have focused on disabled retirees, but we are fully aware that more needs to be done to (1) fix the SBP/DIC offset; (2) enhance reserve retirement benefits; (3) protect health care benefits; and (4) eliminate the disabled veteran's disability tax for those disabled retirees who are not addressed by H.R. 2990.

We will continue to search for the necessary offsets to resolve each and every one of these programs as soon as possible.

Madam Speaker, Democrats have much to be proud about in our efforts to eliminate the veterans disability tax. We are again taking a leadership role in providing the benefits that our disabled military retirees deserve. H.R. 2990 is a good bill that keeps faith with our veterans.

I urge my colleagues to support the Disabled Military Retiree Relief Act of 2009.

Mr. WILSON of South Carolina. Madam Speaker, I reserve the balance of my time.

Mr. SKELTON. Madam Speaker, this bill is a tribute to excellent Armed Services Committee staff work, and I wish to acknowledge the fact that so many, supporting both Democrats and Republicans, did yeomen's work on this: Erin Conaton, Bob Simmons, Debra Wada, Mike Higgins, John Chapla, Jeanette James, and Eryn Robinson did a masterful job in gluing a very complicated and difficult bill together, and I want to publicly thank them.

At this time, I want to yield 1 minute to my friend and colleague, the gentleman from Georgia, who is also a member of the Armed Services Committee, Mr. MARSHALL.

Mr. MARSHALL. Madam Speaker, I want to thank the chairman, the staff, and other Members for the work that has been done in order to provide this relief to the disabled veterans tax. I would like to encourage all Members and all veterans to call the failure or the inability of those who are entitled to concurrent receipt of retirement benefits and disability benefits to call this the disabled veterans tax, a term that was coined about 6 years ago. More and more veterans are using that term. And as we use at that term and get this thing labeled the way it should be, as a disabled veterans tax, I am convinced that over the years we will find the offsets that are needed in order to completely eliminate this unfair tax on disabled veterans.

Again, Mr. Chairman, I thank you. Without your due diligence here and an awful lot of work by staff, we wouldn't be able to make the inroads that we have made this time around. An awful lot of credit goes to you.

Mr. SKELTON. I thank the gentleman from Georgia.

At this time I yield to my colleague, my friend, the gentleman from Massachusetts (Mr. LYNCH) 2 minutes, who is also the chairman of the Subcommittee on Federal Workforce, Postal Service and the District of Columbia on the Committee on Oversight and Government Reform.

Mr. LYNCH. Madam Speaker, I would like to thank Chairman TOWNS and Chairman SKELTON for their leadership on this bill, H.R. 2990, and I am pleased to be a cosponsor of this bill. There is a saying which is true, that we can never fully repay our men and women in uniform for what they have given to our Nation. We can never fully repay them for their sacrifice and their service. But I am happy to say that Chairman SKELTON is trying his best, along with Chairman TOWNS and the ranking member, to do just that.

As chairman of the Subcommittee on the Federal Workforce, Postal Service and the District of Columbia, I am delighted that key civil service retirement provisions are also approved by this Chamber included in the measure being considered today.

Federal employee and postal unions, as well as employee retiree and management groups, all support these provisions. These provisions will improve the Federal Employee Retirement System by providing workers with retirement credit for unused sick leave. Additionally, the civil service retirement annuity calculations problem for those employees who wish to phase down to part-time work at the end of their Federal careers will also be rectified. The Office of Personnel Management has long supported this fix as a way to retain the skilled and knowledgeable employees who are nearing the end of their careers at a time of a more mature Federal workforce. The government, as an employer, must take the lead in addressing these workplace realities.

This bill will also provide retirement credit for hundreds of D.C. Government employees who now serve as Federal employees. I would like to make it clear that these retirement provisions are paid for by treating Federal workers in Hawaii, Alaska, Puerto Rico, Guam, the U.S. Virgin Islands and the Northern Mariana Islands the same as all other Federal employees, and I look forward to working with the respective delegates of those areas on this issue.

Mr. WILSON of South Carolina. Madam Speaker, I reserve the balance of my time.

Mr. SKELTON. Madam Speaker, at this time I yield 1 minute to my friend,

my colleague, the gentleman from Georgia (Mr. SCOTT) who is the vice chairman of the Foreign Affairs Subcommittee on Terrorism and Nonproliferation and International Trade.

Mr. SCOTT of Georgia. I thank Chairman SKELTON for giving me this opportunity to speak on behalf of this very important and timely bill. I also want to commend President Obama and Speaker PELOSI for the leadership they have provided.

This is my 8th year in Congress, and for each of these 8 years I have worked hard on this bill of concurrent receipts. I can't think of a more important bill that we could offer at this time as we approach the Fourth of July when this Nation celebrates its independence and freedom. At the forefront of that, the reason we are able to celebrate this independence and freedom is because of the soldiers and our veterans. And we have long felt that it is not fair nor right if our soldiers are injured and disabled, and if they have to leave service, why should they have to choose between a retirement pay and disability.

What we are saying with this measure is the right thing to do, is to make sure our soldiers have both. I urge a unanimous vote for this. Every Member of this Chamber should vote ''yes'' on this important bill.

Mr. WILSON of South Carolina. Madam Speaker, in conclusion, again I would like to commend the chairman for H.R. 2990. This is a step forward, but I am confident that all of us, that we can work together for more.

I yield back the balance of my time.

Mr. SKELTON. Madam Speaker, I have no more requests for time on our side and I wish to thank the gentleman from South Carolina (Mr. WILSON) for his excellent cooperation and hard work to make this bill a reality. We are most appreciative. Again, I thank all of those who worked on this very complicated piece of legislation, and other kudos to the Armed Services staff on both sides of the aisle. It is very important. It is very important for our veterans, particularly those disabled veterans who have had less than 20 years of service. It treats them as they should be treated.

Mr. FALEOMAVAEGA. Madam Speaker, I rise today in support of H.R. 2990 to provide special pays and allowances to certain members of the Armed Forces, expand concurrent receipt of military retirement and VA disability benefits to disabled military retirees, and for other purposes. I want to thank my good friend from Missouri, the Chairman of the Armed Services Committee Mr. SKELTON, and all the cosponsors of this important legislation. I want to thank you especially for including in this bill, provisions to extend locality pay to federal employees in Alaska, Hawaii, and the Territories.

Madam Speaker, federal employees in American Samoa are not getting fair treatment. To date, American Samoa is the only non-foreign area in which federal employees do not receive a cost-of-living allowance. Notwithstanding that by law, federal employees in the U.S. Territory of American Samoa are eligible to receive COLA payments, under OPM regulations American Samoa is not listed as a COLA-designated area. Given that American Samoa faces many of the same issues driving higher prices for goods, services, and travel that face other territories in similar situations, it seems discriminatory that the Office of Personnel Management (OPM) has chosen not to provide COLA to federal employees in American Samoa.

Further exacerbating the problem is the fact that ''post differential'' compensation is paid to federal employees who are working in American Samoa who have come in from other areas of the country. And so the only non-foreign area federal employees who do not receive any additional compensation are those federal employees from American Samoa, working in American Samoa.

All current and future employees in the non-foreign areas who are eligible to receive a COLA, whether or not they actually do receive it, are covered by this legislation and would therefore receive locality pay under this bill. Under this measure, federal employees in American Samoa will receive 12.9 percent locality pay received by the rest of the US.

Locality pay will be extended to GS employees, administrative law judges, members of the Senior Executive Service, senior level and senior technical (SL/ST) employees, administratively determined employees, GS employees that do not receive COLA, and employees in agencies with unique personnel systems such as the Transportation Security Administration, DoD, the Federal Aviation Administration, the Department of Veterans Affairs, and those agencies covered by the Financial Institution, Reform, Recovery and Enforcement Act.

This is a very important legislation for all federal employees and especially my constituents in the U.S. Territory of American Samoa, and I urge my colleagues to pass H.R. 2990.

Mr. ABERCROMBIE. Madam Speaker, I rise today in support of H.R. 2990, the Disabled Military Retiree Relief Act of 2009. This important legislation will finally address the issue of concurrent receipt, as well as other significant issues that plague public employees. One key issue affecting federal employees in Hawaii is the long-awaited transition from a Cost of Living Allowance (COLA) to locality pay, as is currently used on the mainland United States.

Equitable retirement pay for federal employees outside the contiguous 48 states is a concern shared by the approximately 50,000 civil servants living in Alaska, Hawaii and the U.S. territories. The current cost of living adjustment (COLA) provided to federal employees outside the continental United States has created a retirement inequity between them and their mainland counterparts. If federal service in non-contiguous areas is seen as a detriment to future financial security, our government will have an increasingly difficult time attracting and retaining the very best personnel. Further, federal workers should not have to resort to completing their final years of service on the mainland just to earn adequate retirement pay.

I think this bill is an important step in addressing the inequality between those serving in the continental United States and those in more remote locations, such as Alaska, Hawaii and the territories. Federal employees throughout the nation are making an equal contribution to the health, well-being and security of our nation. Regardless of where they live, they deserve equal treatment and should not be penalized in their retirement for choosing to contribute to the local communities outside the 48 contiguous states.

I believe that all federal employees will be better off under this bill than under the COLA system because their entire pay will now be counted toward their retirement benefits. Moreover, with COLA rates scheduled to decrease for many locations this year, and territories such as American Samoa receiving none, now is the time to act.

Please join me in supporting H.R. 2990 and ensuring retirement equity for all federal employees regardless of their location.

Mr. RAHALL. Madam Speaker, whenever an opportunity arises for the Congress to step forward and act to ensure that our veterans receive the full benefits they have earned, this Member is at the front of the line.

So when I was made aware of the need for monies to offset the cost of H.R. 2990, the Disabled Military Relief Act, I was proud to find the funds within the jurisdiction of the Natural Resources Committee which I chair.

Most Americans, I believe, see it as deeply unfair and certainly counter to American values that disabled veterans would be penalized with cuts in benefits when they also receive retirement pay. That policy does not reflect the thanks of a grateful nation. That is a practice that must be stopped.

Toward that end, I have been glad to support the use of $50 million in receipts from the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Resources Program to help in the short-term provide our veterans with full access to the benefits they so rightly deserve. While this legislation represents a temporary one-year fix, I look forward to the opportunity to support a permanent solution.

There are those who may decry the use of those funds to pay for veterans benefits and who will complain that this offset is too costly to the oil and gas industry.

In response I point out an Associated Press article from earlier this month, which reported that the oil and gas industry has accelerated its spending on lobbying during this year faster than any other industry. In fact, Big Oil spent $44.5 million lobbying Congress and federal agencies in just the first three months of this year.

Madam Speaker, if those lucrative, multinational firms would simply call off their highly paid, smartly dressed lobbyists for three-and-a-half-month, this offset would be entirely covered. In essence, this amounts to a choice between three-and-a-half months of pay of deep-pocketed lobbyists and the debt we owe our veterans.

Madam Speaker, I stand with America's veterans.

Mr. PIERLUISI. Madam Speaker, I rise to express my concern with Subtitle B of Title II of H.R. 2990, entitled ''Non-Foreign Area Retirement Equity Assurance.'' This Subtitle would transition federal employees in certain non-foreign areas, including Puerto Rico, from

non-foreign cost-of-living allowances ("COLAs") to locality pay. The legislation is no doubt the result of a well-meaning effort to create uniformity in how various areas of the contiguous and non-foreign areas of the United States are treated. However, because the legislation would significantly change the system governing pay and benefits for affected federal employees, a full vetting of this issue—including the holding of a hearing—is necessary before the House can prudently consider the legislation.

More than 41,000 white-collar federal civilian employees are stationed in the following "non-foreign" areas outside the contiguous United States: Alaska, Hawaii, Guam, the Commonwealth of Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. These employees receive non-foreign COLAs, in addition to their regular pay, to compensate them for the higher living costs they face in the non-foreign areas.

Replacing non-foreign COLAs with locality pay would represent a significant change to the manner in which pay, retirement, and other benefits are calculated. First, non-foreign COLAs and locality pay are calculated according to two different measurements. Non-foreign COLAs are based on cost-of-living differences between the affected areas and Washington, DC. By contrast, locality pay is based on cost-of-labor differences between federal and nonfederal workers in the same geographic area. Second, a non-foreign COLA is not added to an employee's basic rate of pay when calculating retirement and other benefits. Locality pay, by contrast, is counted toward those benefits. Third, COLA payments may not be taxed at the federal level; locality pay is federally taxed.

Because these differences between non-foreign COLAs and locality pay would have a substantial impact on the manner in which a federal employee's pay and other benefits are calculated, it is imperative that Congress carefully examine this legislation. In particular, concerns have been raised that the legislation may not sufficiently address the varying labor markets in the territories, which could result in decreased locality pay levels or reduced locality pay rates being applied in the territories. At this time, I am not in a position to fully assess the merits of these claims. However, this is precisely why a hearing by the committee of jurisdiction is necessary. The House Committee on Oversight and Government Reform and its Federal Workforce Subcommittee are well-positioned to address the concerns that have been expressed. However, by considering this legislation under suspension of the rules and outside the House's normal procedures, the House has taken away this important opportunity.

Too much is at stake for the Congress to act in such a hasty manner. I urge my colleagues to reconsider the House's approach to this legislation.

Mr. SKELTON. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Missouri (Mr. SKELTON) that the House suspend the rules and pass the bill, H.R. 2990.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. WILSON of South Carolina. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has agreed to the following resolution:

S. RES. 202

In the Senate of the United States, June 24, 2009.

Resolved, That a summons shall be issued which commands Samuel B. Kent to file with the Secretary of the Senate an answer to the articles of impeachment no later than July 2, 2009, and thereafter to abide by, obey, and perform such orders, directions, and judgments as the Senate shall make in the premises, according to the Constitution and laws of the United States.

SEC. 2. The Sergeant at Arms is authorized to utilize the services of the Deputy Sergeant at Arms or another employee of the Senate in serving the summons.

SEC. 3. The Secretary shall notify the House of Representatives of the filing of the answer and shall provide a copy of the answer to the House.

SEC. 4. The Managers on the part of the House may file with the Secretary of the Senate a replication no later than July 7, 2009.

SEC. 5. The Secretary shall notify counsel for Samuel B. Kent of the filing of a replication, and shall provide counsel with a copy.

SEC. 6. The Secretary shall provide the answer and the replication, if any, to the Presiding Officer of the Senate on the first day the Senate is in session after the Secretary receives them, and the Presiding Officer shall cause the answer and replication, if any, to be printed in the Senate Journal and in the Congressional Record. If a timely answer has not been filed, the Presiding Officer shall cause a plea of not guilty to be entered.

SEC. 7. The articles of impeachment, the answer, and the replication, if any, together with the provisions of the Constitution on impeachment, and the Rules of Procedure and Practice in the Senate When Sitting on Impeachment Trials, shall be printed under the direction of the Secretary as a Senate document.

SEC. 8. The provisions of this resolution shall govern notwithstanding any provisions to the contrary in the Rules of Procedure and Practice in the Senate When Sitting on Impeachment Trials.

SEC. 9. The Secretary shall notify the House of Representatives of this resolution.

The message also announced that the Senate has agreed to the following resolution:

S. RES. 203

In the Senate of the United States, June 24, 2009.

Resolved, That pursuant to Rule XI of the Rules of Procedure and Practice in the Senate When Sitting on Impeachment Trials, the Presiding Officer shall appoint a committee of twelve senators to perform the duties and to exercise the powers provided for in the rule.

SEC. 2. The majority and minority leader shall each recommend six members and a chairman and vice chairman respectively to the Presiding Officer for appointment to the committee.

SEC. 3. The committee shall be deemed to be a standing committee of the Senate for the purpose of reporting to the Senate resolutions for the criminal or civil enforcement of the committee's subpoenas or orders, and for the purpose of printing reports, hearings, and other documents for submission to the Senate under Rule XI.

SEC. 4. During proceedings conducted under Rule XI the chairman of the committee is authorized to waive the requirement under the Rules of Procedure and Practice in the Senate When Sitting on Impeachment Trials that questions by a Senator to a witness, a manager, or counsel shall be reduced to writing and put by the Presiding Officer.

SEC. 5. In addition to a certified copy of the transcript of the proceedings and testimony had and given before it, the committee is authorized to report to the Senate a statement of facts that are uncontested and a summary, with appropriate references to the record, of evidence that the parties have introduced on contested issues of fact.

SEC. 6. The actual and necessary expenses of the committee, including the employment of staff at an annual rate of pay, and the employment of consultants with prior approval of the Committee on Rules and Administration at a rate not to exceed the maximum daily rate for a standing committee of the Senate, shall be paid from the contingent fund of the Senate from the appropriation account ''Miscellaneous Items'' upon vouchers approved by the chairman of the committee, except that no voucher shall be required to pay the salary of any employee who is compensated at an annual rate of pay.

SEC. 7. The Committee appointed pursuant to section one of this resolution shall terminate no later than 45 days after the pronouncement of judgment by the Senate on the articles of impeachment.

SEC. 8. The Secretary shall notify the House of Representatives and counsel for Judge Samuel B. Kent of this resolution.

MOTION TO ADJOURN

Mr. WILSON of South Carolina. Madam Speaker, I move that the House do now adjourn.

The SPEAKER pro tempore. The question is on the motion to adjourn.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. WILSON of South Carolina. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 26, nays 361, not voting 46, as follows:

□ 1235

Mr. RYAN of Wisconsin, Mrs. MCMORRIS RODGERS, Messrs. GARY G. MILLER of California, BROUN of Georgia, Mrs. KIRKPATRICK of Arizona, Ms. HARMAN, Mrs. BLACKBURN, Messrs. INSLEE, BISHOP of Utah, RADANOVICH, MCHUGH, Mrs. SCHMIDT, Mrs. BACHMANN, Messrs. NEUGEBAUER, LAMBORN, BURTON of Indiana, and SCHOCK changed their vote from ''yea'' to ''nay.''

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

Stated against:

Mr. POSEY. Madam Speaker, on rollcall No. 426, I was unavoidably detained while questioning a witness in committee. Had I been present, I would have voted "nay."

PROVIDING FOR CONSIDERATION OF H.R. 2892, DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2010

Mr. PERLMUTTER. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 573 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 573

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations. After general debate the bill shall be considered for amendment under the five-minute rule. Points of order against provisions in the bill for failure to comply with clause 2 or 5 of rule XXI are waived. Notwithstanding clause 11 of rule XVIII, except as provided in section 2, no amendment shall be in order except: (1) the amendment printed in part A of the report of the Committee on Rules accompanying this resolution; (2) the amendments printed in part B of the report of the Committee on Rules; (3) not to exceed four of the amendments printed in part C of the report of the Committee on Rules if offered by Representative Flake of Arizona or his designee; and (4) not to exceed one of the amendments printed in part D of the report of the Committee on Rules if offered by Representative Campbell of California or his designee. Each such amendment shall be considered as read, shall be debatable for 10 minutes equally divided and controlled by the proponent and an opponent, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such amendments are waived except those arising under clause 9 or 10 of rule XXI and except that an amendment printed in part B, C, or D of the report of the Committee on Rules may be offered only at the appropriate point in the reading. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. In case of sundry amendments reported from the Committee, the question of their adoption shall be put to the House en gros and without intervening demand for division of the question. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

SEC. 2. After consideration of the bill for amendment, the chair and ranking minority member of the Committee on Appropriations or their designees each may offer one pro forma amendment to the bill for the purpose of debate, which shall be controlled by the proponent.

SEC. 3. The Chair may entertain a motion that the Committee rise only if offered by

the chair of the Committee on Appropriations or his designee. The Chair may not entertain a motion to strike out the enacting words of the bill (as described in clause 9 of rule XVIII).

SEC. 4. During consideration of H.R. 2892, the Chair may reduce to two minutes the minimum time for electronic voting under clause 6 of rule XVIII and clauses 8 and 9 of rule XX.

MOTION TO ADJOURN

Mr. TIBERI. Madam Speaker, I move that the House do now adjourn.

The SPEAKER pro tempore. The question is on the motion to adjourn.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. TIBERI. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 25, nays 366, not voting 42, as follows:

Ms. VELÁZQUEZ and Messrs. FRANK of Massachusetts and LARSON of Connecticut changed their votes from ''yea'' to ''nay.''

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

PROVIDING FOR CONSIDERATION OF H.R. 2892, DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2010

The SPEAKER pro tempore. The gentleman from Colorado is recognized for 1 hour.

Mr. PERLMUTTER. Thank you, Madam Speaker.

For purposes of debate only, I yield the customary 30 minutes to my friend from California (Mr. DREIER). All time yielded is for the purpose of debate only.

I yield myself as much time as I may consume.

GENERAL LEAVE

Mr. PERLMUTTER. I also ask unanimous consent that all Members be given 5 legislative days in which to revise and extend their remarks on House Resolution 573.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Colorado?

There was no objection.

Mr. PERLMUTTER. Madam Speaker, today the House will debate and vote on the Homeland Security Appropriations Act for fiscal year 2010.

My friend Chairman DAVID PRICE and Ranking Member HAROLD ROGERS have crafted a strong bill which invests in robust border security, attentive and agile emergency management capabilities, helpful to State and local partners, and secures our transportation system. This bill reflects Congress' commitment to protect our Nation from the threats it faces with a bottom line $2.6 billion increase in Department of Homeland Security funding over last year.

In the area of border security and immigration enforcement, this bill increases funding for Customs and Border Protection by more than $146 million. This increase will allow the Border Patrol to better address violence and drug smuggling along our southern border, which has become a very serious concern in recent years. For emergency preparedness and response, this bill fully funds the versatile State Homeland Security Grant program, a program for which I have long advocated. This critical program allows for States to address the security threats most pressing to them. After all, the biggest threats to Colorado may not be the same as the biggest threats to New York or California.

This bill also restores funding to the Assistance for Firefighters Grant program to $800 million. I have presented

dozens of Federal grant checks to fire departments across my district during my tenure in Congress; and I can say from experience, FIRE and SAFER Grants mean better training for our firefighters, better equipment and more firefighters on our streets, and safety for our citizens.

On another topic, I have said for years now that our computer networks are essential parts of our Nation's infrastructure; and as such, they need more focus for security. So I am pleased to see this bill increases funding for DHS's National Cybersecurity Division by $68 million over last year.

In the field of transportation security, this bill takes a large step forward. We increased funding for aviation security by $511 million over last year, investing a great deal in screening and detection technology for explosives. More important, in my opinion, we more than doubled funding for surface transportation security. This commitment is an essential step to preventing attacks on our rail and mass transit systems which have been the target of attacks in places such as London, Madrid and Mumbai.

Although we increase funding for many activities under DHS, this bill also tightens the belt. The bill terminates 16 programs, many of which have been unsuccessful in meeting their mission. In addition, the bill cuts nearly $800 million from various programs. In short, this bill puts the taxpayer dollars in the components of DHS which provide real results and real security.

Looking beyond the funding levels of this bill, we must also recognize that DHS is a department which relies heavily on a well-trained workforce. This bill provides the resources the Department of Homeland Security personnel, as well as our State and local partners, need to meet their objectives. I urge my colleagues to support this rule.

I reserve the balance of my time.

Mr. DREIER. Madam Speaker, I want to begin by expressing my appreciation to my very good friend, a new member of the Rules Committee, the gentleman from Colorado (Mr. PERLMUTTER) for yielding me the customary 30 minutes.

I yield myself as much time as I may consume.

Madam Speaker, I am going to begin by doing something that I don't believe I have ever done when managing a rule here in the House. Traditionally when Mr. BOEHNER, our Republican leader, gets up or my Rules Committee colleagues, Messrs. DIAZ-BALART and SESSIONS or Ms. FOXX, would stand up here, we rise to basically make the case for Members of the minority. We're Republicans. We make the Republican case about how important it is for us to ensure the rights of the minority, something that James Madison talked about very eloquently 220 years ago.

Today I rise on behalf of all of my colleagues; and I rise, especially today, for Democrats because it's unprecedented that we would be in the circumstance that we are today. Now I've seen an awful lot in this institution in the years that I've been privileged to serve here. I've observed the way this House is run. In most instances, under both Democrats and Republicans, I have been very proud of the work product that has emerged. But in many of those instances, I have been less than proud of the way the greatest deliberative body known to man—or what has been described as such by people like the distinguished Chair of the Committee on Appropriations, Mr. OBEY, is no longer the greatest deliberative body known to man, or at least we're slipping away from that—because we're undermining the deliberative process.

Usually when we get off-track, which has happened under both Republicans and Democrats, and put our short-term goals ahead of the long-term interest of the institution, it is not a good thing. It is, we often believe, noble for us to put our short-term goals there because we have an important priority. When my friends in the majority asked the Nation to give them control of this House, they correctly criticized me personally and others within the Republican leadership because we said that we limited their voices in amendment and debate. It didn't happen often, but it did happen. And I will say that without the ability to offer improvements to legislation and ideas, Members of this body could not do the job that they are charged with doing; and that is, pursuing the hopes, dreams and aspirations of their constituents. We all represent a little less than three-quarters of a million people; and we have a responsibility, Democrats and Republicans alike, to do just that. That's why I say again, Madam Speaker, I rise in support of the effort to ensure that my Democratic colleagues are not shut out of this process.

Now as you know very well, Madam Speaker, when our California colleague, Speaker PELOSI, took the gavel, she promised that they would do better than I did as chairman of the Rules Committee, and better than our Republican leadership had done in the past. Unfortunately this rule before us really illustrates just how far we have fallen from those great words that were put forward by Speaker PELOSI.

With this rule, it's very difficult for me to know exactly where to begin with criticism; but let's start with the very nature of the rule itself. We all know that the House has allowed less debate and fewer amendments in its consideration of bills over the last few years. The one great exception to that has been the appropriations process. Why? Because we all know article I, section 9 of the Constitution places the responsibility to spend the people's money in our hands as Members of Congress. We've always taken this responsibility very seriously in a bipartisan way. And we've always—under both Democrats and Republicans—allowed Democrats and Republicans to engage in a free-flowing and rigorous debate.

Everyone is very, very concerned about what happened last week. My Democratic colleagues are concerned with the number of votes that were held and the outrage that we demonstrated. We Republicans are horrified that we began down that route. Unfortunately, last week's act was just the warm-up to what we're seeing today. Today we are beginning what can only be described as the main event. This is because today's rule will become the model for every appropriations bill that we consider in the future. It is very likely that this rule, Madam Speaker, will become the model for every bill that we consider in this Congress.

Rather than any Member, Republican or Democrat, being able to offer any germane amendment on behalf of their constituents and the Nation, this resolution from the Rules Committee, under the direction of Chairman OBEY and Speaker PELOSI, limits what ideas can be debated on this floor; and as I said, it limits the ideas proposed by my Democratic colleagues. So anyone who wants to say that I'm standing here, Madam Speaker, just whining on behalf of the minority, it is preposterous. Democrats sat in line before the Rules Committee until nearly 11 o'clock last night; and Democrats have been shut out of this process. So unfortunately I, representing the minority, am the only one who can stand here on behalf of our Democratic colleagues. It means, unfortunately, that our constituents—and I say this to my colleagues—our constituents in Democratic districts and Republican districts alike are unfortunately being held hostage by the chairman of the Appropriations Committee. If he's having a bad day, the American people will have no recourse. That means that our constituents' concerns about spending will go unheeded, and we all know that that's what this is about. If you doubt it, look no further than last week's funding bill for this institution alone. We fought for several amendments that could bring about a reduction in the 16.2 percent increase in spending for the Legislative Branch appropriations bill. We had some large cuts, but we had the most modest cut imaginable. The gentleman from Georgia (Mr. BROUN) offered an amendment in the Rules Committee to allow for a one-half of 1 percent reduction in the 16.2 percent increase that we put into place. While the American people are struggling to make ends meet, while people are trying to keep their jobs, their homes, we in this institution allowed for a 16.2 percent increase; and

we simply said in the appropriations process that maybe we should debate on the floor whether or not we would have a one-half of 1 percent cut. Unfortunately that was completely denied.

I also want to take a moment to discuss some of the more creative aspects of this rule, as were read by the Reading Clerk. For the first time ever, the rule allows the Chair to impose 2-minute voting. Now previously 2-minute voting was something that was done with a bipartisan agreement. Democrats and Republicans came together and said, We have got so many votes here, rather than having Members sit around with 5-minute voting, we would agree to 2-minute voting. Now I will say that ignoring this process that has existed in the past, including the provision that allows the Chair to actually impose 2-minute voting, we ignore the stress that 2-minute voting places on the nonpartisan professionals who tally our votes. It increases the opportunity for error.

I would commend to my colleagues the report of the Select Committee to Investigate the Voting Irregularities of August 2, 2007; and on page 10 under The Events Surrounding Roll Call Number 814, it makes very clear that one of the factors involved in this was the fact that there were 11 2-minute votes held leading up to that. I know full well, as I look at the wonderfully dedicated and hardworking rostrum staff, what a litany of 2-minute votes is imposed on them.

□ 1315

And we want to make sure that what happened on August 2 of 2007 never happens again. And allowing the Chair to impose 2-minute voting does create the potential for that.

I also have to say, Madam Speaker, that I'm very concerned about the fact that this rule does create a scenario that puts people in an awkward position. I have a number of very, very close friends with whom I have been privileged to serve here. One of those is my colleague from North Carolina (Mr. PRICE), who works closely with Mr. ROGERS in a bipartisan way dealing with the issue of our Nation's homeland security.

I have already said, Madam Speaker, that I am very troubled with amendment No. 68 that was put forward, and I don't mean to get too far down into the weeds here, but we have another unprecedented action put into place here. Amendment No. 68 simply said, page 93, line 13, ''strike 'the.''' This is the amendment that was submitted to the Rules Committee. This amendment was submitted, and a revised version of it was submitted; and now, Madam Speaker, the revised version makes in order seven amendments, one of which actually required waivers to allow it to proceed. Now, this has not been done before and it's unfortunate. It was really sort of a bait and switch. We saw this amendment that said ''strike 'the,''' and then it's revised all of a sudden with seven amendments being made in order. Unfortunately, this is not the kind of transparency that we were promised when the new majority came to power.

There are other elements to the rule that I don't want to discuss, but suffice it to say that each and every provision of this rule, Madam Speaker, is designed to restrict and limit the rights of Democrats and Republicans to debate and improve this bill, as has always been done in the 220-year history of this great institution.

Now, why is any of this important? Because, Madam Speaker, process is substance. In committee there were many amendments defeated even though they would have gone a long way to improving the bill and reducing problems like illegal immigration, an issue that Mr. ROGERS has worked very closely on. One of those is the E-Verify program that my California colleague (Mr. CALVERT) has worked on. He made an attempt to offer that amendment. It was defeated. And Mr. KINGSTON similarly offered an amendment to require government contractors to use E-Verify to deal with our Nation's border security. His amendment was also defeated. I supported both of those amendments up in the Rules Committee.

Now we won't get the opportunity to debate the kinds of things that Mr. ROGERS, Mr. CALVERT, and Mr. KINGSTON wanted us to be able to address. I personally believe that, while I support E-Verify, I believe that the bill that I have worked on, H.R. 98, which would establish a smart counterfeit-proof Social Security card, is the best way to end the magnet that draws people into the country illegally. But I do think that E-Verify is a very important step in the direction of dealing with our security.

Under the traditional process, Madam Speaker, as you know very well, we could address all of these issues. All of these issues from both Democrats and Republicans could have been considered, but, unfortunately, it ain't going to happen.

One of the most senior Members of this institution once said, ''We have gotten so far from the regular order that I fear that the House will not have the capacity to return to the precedents and procedures of the House that have given true meaning to the term 'representative democracy.' The reason that we have stuck to regular order as long as we have in this institution is to protect the rights of every Member to participate. And when we lose those rights, we lose the right to be called the greatest deliberative body left in the world.''

Now, that Member was DAVID OBEY. He said that in the fall of 2000. While he was concerned about how the House was handling an appropriations conference report, those were the words of Chairman OBEY at that time. His words have never been truer than they are right now. The problem is that now the shoe is on the other foot. Today Chairman OBEY is the one who is circumventing regular order.

What we have here is, Madam Speaker, what tragically is becoming the new normal. And it's all being done in the name of dramatically increasing spending because we have seen over the last 2 years an 85 percent increase in nondefense spending, an 85 percent increase in nondefense spending. And now we're denied any opportunity to bring about the kinds of reductions that we need to utilize.

Madam Speaker, I know that we have schedules to keep. That's the argument that is regularly propounded by the Chair of the Rules Committee and others in the Democratic leadership. We understand the exigencies of that schedule. But throwing aside the quaint notion of democracy and debate is something that I believe would lead, as Republican leader JOHN BOEHNER said earlier today, Thomas Jefferson to be spinning in his grave. It would lead James Madison to be horrified, the notion of casting aside democracy and debate because we have to maintain our schedules.

And I will say again on this scheduling notion, Madam Speaker, last week, rather than 127 amendments, we would have had, I believe, 30 amendments, and before we had gotten to consideration of the legislative branch bill, I am sure that hours and hours and hours ahead of that we would have been completed with the work of the Commerce-Justice-Science Appropriations bill.

I urge my colleagues on the other side of the aisle to stand up for the rights of Democratic Members of this institution who are being denied this. Reject this rule. Let's come back with what has been the case for 220 years under both political parties, that being an open process.

With that, Madam Speaker, I reserve the balance of my time.

Mr. PERLMUTTER. Madam Speaker, I would like to inquire of my friend how many speakers he has on his side.

Mr. DREIER. Will the gentleman yield?

Mr. PERLMUTTER. Certainly.

Mr. DREIER. I thank my friend for yielding. Well, I would first inquire of my friend if he has any speakers before I respond.

Mr. PERLMUTTER. I do not.

Mr. DREIER. Let me just say at this juncture we do have several speakers, and I would ask my friend if he might want to yield some of his time because I know we have several speakers who would gladly utilize the time.

I will say to my friend that it does seem to me rather unfortunate that,

with the exception of our very brave and courageous friend from Colorado, there is no one on the majority side who wants to stand up and defend the notion of denying Democrats——

Mr. PERLMUTTER. Reclaiming my time, I thank my friend from California for commending me.

But what I want to talk about, and I will be brief and then reserve the balance of my time, is I appreciate some of the comments that the gentleman has made about the need for debate and speech and the opportunity for each of us to have a say as to the legislation that proceeds from this Chamber. But on the other hand, this country, the people of this country are demanding that we act, that we not completely just shut down and sit on our hands, twiddle our thumbs and say, woe is me, but it is time to act both on appropriations bills as well as other bills.

And I'd say to my friend, and I know that it was a way to protest what was happening on the floor, but the delay that was exhibited last week simply frustrates the will of the electorate to change the direction of this Nation. And I would also remind my friend that, Madam Speaker, the pressure that is placed on our staff at the rostrum by changing votes time and time again simply really is the problem and really redoubles the effort that they have to put forward.

So I appreciate his comments about the pressure that's placed on the staff by 2-minute voting. I would remind my friend the same kind of pressure, if not a lot more, is placed on the staff by changing votes for, in my opinion, only reasons of delay.

With that, Madam Speaker, I reserve the balance of my time.

Mr. DREIER. Madam Speaker, I yield myself such time as I may consume.

I will be happy to yield to my friend if he wants to engage on this issue at all.

First, to his last point, as he talked about the challenge that our wonderful rostrum staff before us, who are so dedicated and hard working, have to deal with with repeated votes. So the answer to that is to allow the Chair to impose on this institution 2-minute voting? I know this is all inside baseball stuff, but all one needs to do is go back and look at that report on the August 2, 2007, vote, which I have right here and look at page 10, and the issue of 2-minute votes is raised.

Mr. PERLMUTTER. Will my friend yield?

Mr. DREIER. I am happy to yield to my friend.

Mr. PERLMUTTER. To that point by my friend, on page 10, I have read the report since last night; so I thank you for pointing it out to me. And what page 10 says, and really what has led to this moment, I'd say to my friend, is the fact that at the close of the legislative day of Thursday, August 2, the House had been in session for 51 hours that week and 65 hours the week before. There really is no causal relation, I'd say to my friend, to where it talks about 2-minute votes.

Mr. DREIER. Reclaiming my time, Madam Speaker, let me just say that, again, if you look at the middle paragraph on page 10, the issue of 2-minute voting is raised, and I think common sense would say with the argument just put forward by my friend from Colorado about the challenge of votes, the notion of going from 5-minute to 2-minute votes does not improve the situation that they face.

To my friend's first point, Madam Speaker, I would like to say the following: the American people did send us here to act. They're expecting action. They want us to act. The American people are hurting. I come from Los Angeles, California. We have a 12½ percent unemployment rate in the City of Los Angeles. I represent suburban Los Angeles and part of the Inland Empire, and I will say that we are dealing with very serious economic challenges. People are losing their businesses, people are losing their homes, and people are obviously losing their jobs. They want us to get our economy back on track. And one of the things that they were promised was that if we passed the economic stimulus bill, the unemployment would not exceed 8 percent. Right now we all know that the unemployment rate, as was said by President Obama, is now 9.4 percent; and based on reports we have received in the last few days, it reportedly is probably going to go higher. I hope and pray that that is not the case.

But one of the things that we've found is that over the last couple of years, an 85 percent increase in nondefense spending has not provided what the American people want, and that is some security when it comes to their jobs, getting their jobs back, saving their businesses, and saving their homes. That's the action they want us to take. And the process we are in the midst of right now denies us any opportunity, Democrats or Republicans, the chance to bring about meaningful cuts in expenditures.

At this point, Madam Speaker, I would like to yield 4 minutes to the distinguished ranking member of the Subcommittee on Homeland Security from the Appropriations Committee, my very, very good friend and classmate (Mr. ROGERS).

□ 1330

Mr. ROGERS of Kentucky. I thank the gentleman for yielding.

Madam Speaker, I am sorely disappointed at the rule that has been proposed for the consideration of this Homeland Security Appropriations bill, one of the most important of the bills that the Congress will face. Our constituents are entitled to have us speak for them. That is the reason that they selected us. And yet now we are being denied the opportunity to register the thoughts and opinions of the constituents that we represent.

There were some 70 amendments proffered to be offered on the floor on this bill. Only 14 will be allowed. Never in my experience, and I have been here 28 years, on the Appropriations Committee 26 of those years, have I ever seen a rule this restrictive on allowing members of the committee, as well as the Members of the body, to express their views.

This is a muzzle of the minority. You are muzzling the people that we represent. You say, well, there are so many amendments, it would take us forever, and it would slow down our process of spending. That is what this is all about. The majority is attempting to muzzle the minority to speed up the process of spending, borrowing, and taxing. I regret that. I think it is sad for the institution, not to mention our constituents and the Members of this body.

Well, those 70 amendments we could go through in no time flat. Last year, well, for the 2008 appropriations for this department, there were 178 amendments offered. We didn't shut down the process and deny those people the chance to offer their amendment and to say their piece about what their constituents thought about the bill. We simply went through them, 2 days. After a certain period of time, we were able to work out unanimous consent agreements amongst the Members of the body to reduce the time allotted to each amendment. Or we substituted a colloquy with the other offerer of the amendment instead of offering the amendment, and that satisfied them. They had their day in court, so to speak. Other amendments were not offered. This is nothing new. This is the practice of this honored institution to allow Members to offer their thoughts and opinions and amendments.

If it takes time, that is what democracy is all about. It may not be pretty. The making of sausage is not pretty. But that is what we are in the process and the business of doing. You are shutting down the Members of this body who have legitimate, in-order amendments, almost in toto. And I resent that. The ranking member of the subcommittee was denied the opportunity to offer his own amendment, a legitimate, in-order amendment.

That has never happened, to my knowledge, before. You are making history, but in a sad, sad way. Give us the chance to speak for our constituents, the people that want to know why you are shutting off their voice in this great deliberative body. Give us an open rule, as we have always had it. We have never had a restrictive rule like this on appropriations bills. Give us a chance to be heard.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. PERLMUTTER. I continue to reserve the balance of my time.

Mr. DREIER. Madam Speaker, at this time, I'm happy to yield 1 minute to the son of a 20-year veteran of the House Rules Committee, the gentleman from Bowling Green, Ohio (Mr. LATTA).

Mr. LATTA. I appreciate the gentleman for yielding.

Madam Speaker, last night we brought, in my opinion, a very important amendment before the Rules Committee dealing with what I called the Homeland Security Administration run amok with their bureaucrats. And what this would do is, this amendment would prevent the Homeland Security Administration from being able to utilize the dollars under the bill to say that over 36 million Americans that have a certain type of pocketknife, I don't care if it is from a hunter or a fisherman or a farmer or a person that works in a factory or a police officer or a firefighter, and make these illegal. And it is sad that we have to do it this way, that instead of bringing them here to the floor that we have to go through the Rules Committee. But I think that the amendment that we offered last night, along with my colleague from Idaho (Mr. MINNICK), that it is an important thing to save jobs in this country. I think he said in his district alone it would be over some 200 hundred jobs. Nationally you are looking at over 4,000 individuals in a time when we are losing jobs in this country; 4,000 jobs could be affected, and ancillary jobs by over 20,000 jobs. So I really stress that this is an important amendment. I appreciate the gentleman for yielding.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. PERLMUTTER. I continue to reserve.

Mr. DREIER. I yield 1 minute to my very good friend from Athens, Georgia, who had an amendment that he would have been allowed to debate if we had an open rule, and unfortunately, he is not (Mr. BROUN of Georgia).

Mr. BROUN of Georgia. I thank the gentleman for yielding.

I rise today in strong opposition to this rule. I submitted six amendments to this bill. And I am outraged that the Democrats have denied my rights to debate and receive a vote on any of them today. And actually they not only denied my right, but they are denying Americans the ability for us to present amendments that will stop this outrageous spending.

One of my amendments would have added funding to the 287(g) program, which provides State law enforcement with the training and subsequent authorization to identify a process and then, when appropriate, detain immigration offenders that they encounter during their regular job as law enforcement. I had many amendments. But the Democrats denied my constituents, denied the American people, the ability to have my voice and others' heard.

They are stealing our grandchildren's future with this outrageous spending. We have got to stop it. The American people need to stand up and say ''no'' to this steamroller of socialism that is being brought by the Democratic majority and their leadership.

Mr. PERLMUTTER. I still reserve my time. I would ask my friend how many speakers he has.

Mr. DREIER. Madam Speaker, let me say that there were a number of Members who were expected to be joining us, I would say to my friend, and the fact is that they were anticipating a debate taking place on the rule. And very, very courageously, my friend has been the only Member on the Democratic side to stand up, and I am the one standing here defending the rights of Democrats I'm happy to say. So the gentleman might want to talk for a couple of minutes while I wait for some of my colleagues who thought the debate might be taking place later if he wants to.

Mr. PERLMUTTER. I would say my friend from California can speak on his own behalf and take up a few minutes if he likes, but I'm going to reserve the balance of my time.

Mr. DREIER. Madam Speaker, well, I guess then that I will close the debate. I thought we were expecting some other people.

The SPEAKER pro tempore. The gentleman has 5½ minutes remaining.

Mr. DREIER. Madam Speaker, this debate is all about spending. The American people are hurting. Jobs are being lost. Businesses are being lost. Homes are being lost. And the American people are expecting us to put into place policies that will get the economy back on track.

We were promised by President Obama that if we passed the $787 billion, really $1 trillion, stimulus bill that the unemployment rate would not exceed 8 percent. Today the unemployment rate is at 9.4 percent, and tragically it appears to be getting worse. And what is our answer? Well, it is to continue a pattern that has been going on for 2 years now. In nondefense spending, we have had an 85 percent increase in Federal spending, an 85 percent increase.

And what is it we have said? We believe, Madam Speaker, that we can responsibly put into place spending cuts. We have made attempts. My friend, Mr. BROUN, whom I mentioned earlier, wanted to offer a one-half of 1 percent spending cut in the 16.2 percent increase that was put into place for our spending for the legislative branch last week, and he was denied his chance to bring about that modest cut.

As we look at the appropriations process now, bringing about reductions in spending is not an option. They are simply increases in spending time and time again.

Now what is being utilized to make sure that we can continue to increase spending? Well, unfortunately, Madam Speaker, what is being done is we are shutting out the opportunity for both Democrats and Republicans to have a right to offer amendments. Now I will say, having been here for more than a couple of years, one of the most exhilarating experiences that one can have as a Member of Congress is to stand up under an open rule, especially during the appropriations process, ask that they strike the last word, and be recognized for 5 minutes to engage in what can really be a free-flowing debate. We have two members of the Rules Committee who have never served in this institution before, and they have never experienced the opportunity for that free-flowing debate on any legislation. And an open rule has not been an option so far.

But Madam Speaker, I never thought that I would see the day when we would, on the sacrosanct article 1, section 9 power in the Constitution dealing with spending, prevent Democrats and Republicans from having an opportunity to engage in that. I think about my colleagues who want to regularly engage in debate, Democrats like DENNIS KUCINICH and MARCY KAPTUR. I may not agree with them often, but I believe they should be able to participate in the process. We have Republicans like DEVIN NUNES, JEFF FLAKE and others who want to be able to stand up. Mr. BROUN, who just spoke, Mr. ROGERS, Mr. CALVERT and others want to have a chance to stand up. And guess what, Madam Speaker? They unfortunately are denied that in this process.

Justice Felix Frankfurter in 1943 made the following statement. He said, The history of liberty is largely due to the history of procedural safeguards.

Now, Madam Speaker, I believe that the Federal Government is too big and spends too much, as our Leader BOEHNER regularly says. And I believe that we should have a right to bring about those reductions so that we can get our economy back on track to ensure that Americans aren't going to lose their jobs, their businesses and their homes. And we are denied that chance today.

But I want to say to my Democratic colleagues and my Republican colleagues, Madam Speaker, we have an opportunity. And it is before us right now. All we need to do is vote ''no'' on the previous question, and what will happen? We will be continuing the 220-year tradition of appropriations under an open amendment process. If we can defeat the previous question, I, Madam Speaker, will offer an amendment that will allow us to do exactly what Chairwoman Obey in the year 2000 said needed to be done. We need to allow for a free-flowing, open debate so that deliberative democracy can, in fact, once

again flourish. So I urge my colleagues to vote against the previous question and allow us to have the opportunity to offer an open rule.

And with that, I yield back the balance of my time.

Mr. PERLMUTTER. Madam Speaker, I do want to compliment my friend from California on his debate, his comments, his remarks and his complaints. Some of them are legitimate. But what we are here today to deal with is the security of the United States of America. He is complaining about an 85 percent increase in spending when my friend knows full well that spending came about because of tax cuts, the prosecution of two wars, the collapse of a banking system and an emergency in the United States of America to get us back on track and to change the direction of this Nation.

Now what we are dealing with in this bill, and the reason we need to bring it on the floor and act, not delay, not delay like we saw last week, with Members circling the well, changing their votes time and time again or presenting amendments where they add $1 million, subtract $1 million, just to have an amendment. We are here, Madam Speaker, because this is one of our most important responsibilities, and that is to protect this country from terrorist attacks, foreign and domestic, and to ensure that our borders are secure. That is the purpose of the Homeland Security Appropriations bill.

The bill at $42.6 billion is slightly above last year's level. But it helps with Coast Guard, with border violence, with maritime safety, environmental protection, and assistance for the TSA as people come and go through our airports, as well as cybersecurity.

□ 1345

There are funds in the bill for FEMA, for flood map modernization, and for rebuilding of the gulf coast. This is a sensible investment. This is a sensible rule, and I would ask, Madam Speaker, that because this bill invests in a stronger domestic security both at our borders, throughout our transportation systems and our communities, I urge a ''yes'' vote on the previous question and on the rule.

Mr. DREIER. Madam Speaker, I ask unanimous consent that the text of the amendment be printed in the RECORD immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The material previously referred to by Mr. DREIER is as follows:

AMENDMENT IN THE NATURE OF A SUBSTITUTE TO H. RES. 573 OFFERED BY MR. DREIER OF CALIFORNIA

Strike the resolved clause and all that follows and insert the following:

Resolved, That immediately upon the adoption of this resolution the Speaker shall, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations. After general debate the bill shall be considered for amendment under the five-minute rule. Points of order against provisions in the bill for failure to comply with clause 2 of rule XXI are waived. During consideration of the bill for amendment, the Chairman of the Committee of the Whole may accord priority in recognition on the basis of whether the Member offering an amendment has caused it to be printed in the portion of the Congressional Record designated for that purpose in clause 8 of rule XVIII. Amendments so printed shall be considered as read. When the committee rises and reports the bill back to the House with a recommendation that the bill do pass, the previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

___

(The information contained herein was provided by the Democratic Minority on multiple occasions throughout the 109th Congress.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Democratic majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives, (VI, 308–311) describes the vote on the previous question on the rule as ''a motion to direct or control the consideration of the subject before the House being made by the Member in charge.'' To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that ''the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition'' in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R–Illinois) said: ''The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition.''

Because the vote today may look bad for the Democratic majority they will say ''the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever.'' But that is not what they have always said. Listen to the definition of the previous question used in the Floor Procedures Manual published by the Rules Committee in the 109th Congress, (page 56). Here's how the Rules Committee described the rule using information from Congressional Quarterly's ''American Congressional Dictionary'': ''If the previous question is defeated, control of debate shifts to the leading opposition member (usually the minority Floor Manager) who then manages an hour of debate and may offer a germane amendment to the pending business.''

Deschler's Procedure in the U.S. House of Representatives, the subchapter titled ''Amending Special Rules'' states: ''a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate.'' (Chapter 21, section 21.2) Section 21.3 continues: ''Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon.''

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Democratic majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Mr. PERLMUTTER. Madam Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DREIER. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on ordering the previous question will be followed by 5-minute votes on the adoption of H. Res. 573, if ordered, and suspending the rules and passing H.R. 2990.

The vote was taken by electronic device, and there were—yeas 238, nays 174, not voting 21, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are less than 2 minutes remaining on this vote.

□ 1426

So the resolution was agreed to.

The result of the vote was announced as above recorded.

MOTION TO RECONSIDER

Mr. WESTMORELAND. Madam Speaker, I move to reconsider the vote.

The SPEAKER pro tempore. The question is on the motion to reconsider.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. WESTMORELAND. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 169, nays 251, not voting 13, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Two minutes remaining on this vote.

□ 1433

So the motion to reconsider was rejected.

The result of the vote was announced as above recorded.

NOTICE OF INTENTION TO OFFER RESOLUTION RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. PRICE of Georgia. Madam Speaker, pursuant to clause 2(a)1 of rule IX, I hereby notify the House of my intention to offer a resolution as a question of the privileges of the House.

The form of my resolution is as follows:

Whereas on January 20, 2009, Barack Obama was inaugurated as President of the United States, and the outstanding public debt of the United States stood at $10.627 trillion;

Whereas on January 20, 2009, in the President's Inaugural Address, he stated, ''[T]hose of us who manage the public's dollars will be held to account, to spend wisely, reform bad habits, and do our business in the light of day, because only then can we restore the vital trust between a people and their government.'';

Whereas on February 17, 2009, the President signed into public law H.R. 1, the American Recovery and Reinvestment Act of 2009;

Whereas the American Recovery and Reinvestment Act of 2009 included $575 billion of new spending and $212 billion of revenue reductions for a total deficit impact of $787 billion;

Whereas the borrowing necessary to finance the American Recovery and Reinvestment Act of 2009 will cost an additional $300 billion;

Whereas on February 26, 2009, the President unveiled his budget blueprint for FY 2010;

Whereas the President's budget for FY 2010 proposes the eleven highest annual deficits in U.S. history;

Whereas the President's budget for FY 2010 proposes to increase the national debt to $23.1 trillion by FY 2019, more than doubling it from current levels;

Whereas on March 11, 2009, the President signed into public law H.R. 1105, the Omnibus Appropriations Act, 2009;

Whereas the Omnibus Appropriations Act, 2009 constitutes nine of the twelve appropriations bills for FY 2009 which had not been enacted before the start of the fiscal year;

Whereas the Omnibus Appropriations Act, 2009 spends $19.1 billion more than the request of President Bush;

Whereas the Omnibus Appropriations Act, 2009 spends $19.0 billion more than simply extending the continuing resolution for FY 2009;

Whereas on April 1, 2009, the House considered H. Con. Res. 85, Congressional Democrats' budget proposal for FY 2010;

Whereas the Congressional Democrats' budget proposal for FY 2010, H. Con. Res. 85, proposes the six highest annual deficits in U.S. history;

Whereas the Congressional Democrats' budget proposal for FY 2010, H. Con. Res. 85, proposes to increase the national debt to $17.1 trillion over five years, $5.3 trillion more than compared to the level on January 20, 2009;

Whereas Congressional Republicans produced an alternative budget proposal for FY 2010 which spends $4.8 trillion less than the Congressional Democrats' budget over 10 years;

Whereas the Republican Study Committee proposed an alternative budget proposal for FY 2010 which improves the budget outlook in every single year, balances the budget by FY 2019, and cuts the national debt by more than $6 trillion compared to the President's budget;

Whereas on April 20, 2009, attempting to respond to public criticism, the President convened the first cabinet meeting of his Administration and challenged his cabinet to cut a collective $100 million in the next 90 days;

Whereas the challenge to cut a collective $100 million represents just 1/40,000 of the Federal budget;

Whereas on June 16, 2009, total outstanding Troubled Asset Relief Program, or TARP, funds to banks stood at $197.6 billion;

Whereas on June 16, 2009, total outstanding TARP funds to AIG stood at $69.8 billion;

Whereas on June 16, 2009, total outstanding TARP funds to domestic automotive manufacturers and their finance units stood at $80 billion;

Whereas on June 19, 2009, the outstanding public debt of the United States was $11.409 trillion;

Whereas on June 19, 2009, each citizen's share of the outstanding public debt of the United States came to $37,236.88;

Whereas according to a New York Times/CBS News survey, three-fifths of Americans (60 percent) do not think the President has developed a clear plan for dealing with the current budget deficit;

Whereas the best means to develop a clear plan for dealing with runaway Federal spending is a real commitment to fiscal restraint and an open and transparent appropriations process in the House of Representatives;

Whereas before assuming control of the House of Representatives in January 2007, Congressional Democrats were committed to an open and transparent appropriations process;

Whereas according to a document by Congressional Democrats entitled ''Democratic Declaration: Honest Leadership and Open Government,'' page 2 states, ''Our goal is to restore accountability, honesty and openness at all levels of government.'';

Whereas according to a document by Congressional Democrats entitled ''A New Direction for America,'' page 29 states, ''Bills should generally come to the floor under a procedure that allows open, full, and fair debate consisting of a full amendment process that grants the Minority the right to offer its alternatives, including a substitute.'';

Whereas on November 21, 2006, The San Francisco Chronicle reported, ''Speaker Pelosi pledged to restore 'minority rights'—including the right of Republicans to offer amendments to bills on the floor . . . The principles of civility and respect for minority participation in this House is something that we promised the American people, she said. 'It's the right thing to do.' '' (The San Francisco Chronicle, November 21, 2006);

Whereas on December 6, 2006, Speaker Nancy Pelosi stated, ''[We] promised the American people that we would have the most honest and open government and we will.'';

Whereas on December 17, 2006, The Washington Post reported, ''After a decade of bitter partisanship that has all but crippled efforts to deal with major national problems, Pelosi is determined to try to return the House to what it was in an earlier era—'where you debated ideas and listened to each others arguments.' '' (The Washington Post, December 17, 2006);

Whereas on December 5, 2006, Majority Leader Steny Hoyer stated, ''We intend to have a Rules Committee . . . that gives opposition voices and alternative proposals the ability to be heard and considered on the floor of the House.'' (CongressDaily PM, December 5, 2006);

Whereas during debate on June 14, 2005, in the Congressional Record on page H4410, Chairwoman Louise M. Slaughter of the House Rules Committee stated, ''If we want to foster democracy in this body, we should take the time and thoughtfulness to debate all major legislation under an open rule, not just appropriations bills, which are already restricted. An open process should be the norm and not the exception.'';

Whereas since January 2007, there has been a failure to commit to an open and transparent process in the House of Representatives;

Whereas more bills were considered under closed rules, 64 total, in the 110th Congress under Democratic control, than in the previous Congress, 49, under Republican control;

Whereas fewer bills were considered under open rules, 10 total, in the 110th Congress under Democratic control, than in the previous Congress, 22, under Republican control;

Whereas fewer amendments were allowed per bill, 7.68, in the 110th Congress under Democratic control, than in the previous Congress, 9.22, under Republican control;

Whereas the failure to commit to an open and transparent process in order to develop a clear plan for dealing with runaway Federal spending reached its pinnacle in the House's handling of H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010;

Whereas H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010 contains $64.4 billion in discretionary spending, 11.6 percent more than enacted in FY 2009;

Whereas on June 11, 2009, the House Rules Committee issued an announcement stating that amendments for H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010 must be preprinted in the Congressional Record by the close of business on June 15, 2009;

Whereas both Republicans and Democrats filed 127 amendments in the Congressional Record for consideration on the House floor;

Whereas on June 15, 2009, the House Rules Committee reported H. Res. 544, a rule with a pre-printing requirement and unlimited pro forma amendments for purposes of debate;

Whereas on June 16, 2009, the House proceeded with one hour of general debate, or one minute to vet each $1.07 billion in H.R. 2847, in the Committee of the Whole;

Whereas after one hour of general debate the House proceeded with amendment debate;

Whereas after just 22 minutes of amendment debate, or one minute to vet each $3.02 billion in H.R. 2847, a motion that the Committee rise was offered by Congressional Democrats;

Whereas the House agreed on a motion that the Committee rise by a recorded vote of 179 Ayes to 124 Noes, with all votes in the affirmative being cast by Democrats;

Whereas afterwards, the House Rules Committee convened a special, untelevised meeting to dispense with further proceedings on H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010;

Whereas on June 17, 2009, the House Rules Committee reported H. Res. 552, a new and restrictive structured rule for H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010;

Whereas every House Republican and 27 House Democrats voted against agreeing on H. Res. 552;

Whereas H. Res. 552 made in order just 23 amendments, with a possibility for 10 more amendments, out of the 127 amendments originally filed;

Whereas H. Res. 552 severely curtailed pro forma amendments for the purposes of debate;

Whereas the actions of Congressional Democrats to curtail debate and the number of amendments offered to H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010 effectively ended the process to deal with runaway Federal spending in a positive and responsible manner; and

Whereas the actions taken have resulted in indignity being visited upon the House of Representatives: Now, therefore, be it

Resolved, That—

(1) the House of Representatives recommit itself to fiscal restraint and develop a clear plan for dealing with runaway Federal spending;

(2) the House of Representatives return to its best traditions of an open and transparent appropriations process without a preprinting requirement; and

(3) the House Rules Committee shall report out open rules for all general appropriations bills throughout the remainder of the 111th Congress.

The SPEAKER pro tempore. Under rule IX, a resolution offered from the floor by a Member other than the majority leader or the minority leader as a question of the privileges of the House has immediate precedence only at a time designated by the Chair within 2 legislative days after the resolution is properly noticed.

Pending that designation, the form of the resolution noticed by the gentleman from Georgia will appear in the RECORD at this point.

The Chair will not at this point determine whether the resolution constitutes a question of privilege. That determination will be made at the time designated for consideration of the resolution.

MOTION TO ADJOURN

Mr. PRICE of Georgia. Madam Speaker, I move that the House do now adjourn.

The SPEAKER pro tempore. The question is on the motion to adjourn.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. PRICE of Georgia. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on the motion to adjourn will be followed by a 5-minute vote on the motion to suspend the rules on H.R. 2990.

The vote was taken by electronic device, and there were—ayes 31, noes 393, not voting 9, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1510

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

DISABLED MILITARY RETIREE RELIEF ACT OF 2009

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 2990, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Missouri (Mr. SKELTON) that the House suspend the rules and pass the bill, H.R. 2990.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 404, nays 0, not voting 29, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1518

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. MCINTYRE. Madam Speaker, during rollcall vote No. 433 on June 24, 2009, I was unavoidably detained. Had I been present, I would have voted "yea."

Mr. ROONEY. Madam Speaker, on rollcall No. 433, I was in a meeting and unavoidably detained. Had I been present, I would have vote "yea."

Mr. CONAWAY. Madam Speaker, on rollcall No. 433, I was in a meeting of constituents and unavoidably detained. Had I been present, I would have voted "yea."

Mr. RAHALL. Madam Speaker, on rollcall No. 433, had I been present, I would have voted "yea."

MOTION TO ADJOURN

Mr. KING of Iowa. Madam Speaker, I move that the House do now adjourn.

The SPEAKER pro tempore. The question is on the motion to adjourn.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. KING of Iowa. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 36, noes 381, not voting 16, as follows:

□ 1535

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

GENERAL LEAVE

Mr. PRICE of North Carolina. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 2892, and that I may include tabular material on the same bill.

The SPEAKER pro tempore (Mrs. DAVIS of California). Is there objection to the request of the gentleman from North Carolina?

There was no objection.

DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2010

The SPEAKER pro tempore. Pursuant to House Resolution 573 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 2892.

□ 1536

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes, with Ms. DEGETTE in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time. The gentleman from North Carolina (Mr. PRICE) and the gentleman from Kentucky (Mr. ROGERS) each will control 30 minutes.

The Chair recognizes the gentleman from North Carolina.

Mr. PRICE of North Carolina. Madam Chair, I am pleased to present the fiscal year 2010 Homeland Security Appropriations bill, as reported by the Homeland Security Appropriations Subcommittee. It is the product of extensive information gathering and analysis, with 15 hearings touching every Department of Homeland Security component. The bill provides the resources and the direction that the Department needs for the coming fiscal year.

This bill also reflects our subcommittee's tradition of bipartisan cooperation initiated by its first chairman and now ranking member, HAL ROGERS. I want to thank the distinguished ranking member for his advice and help on making this a better bill, and to his staff, too, for working so closely and constructively with us. We agree on most of this bill, if not every item, and I believe this is a bill that every Member in this body can get behind.

In total, the bill contains $42.625 billion in discretionary appropriations for the Department of Homeland Security. This is $2.6 billion, or 6.5 percent, above the comparable fiscal year 2009 amount, and about 1 percent below the administration request, excluding Coast Guard overseas contingency operations. This level reflects our share of the $10 billion cut made in the budget resolution to the administration's overall request.

Homeland security requires identification and response to all threats, whether man-made or natural. This ''all-hazards'' approach is the hallmark of our subcommittee, an approach we are happy to see President Obama and Secretary Napolitano embrace. The persistent threat of pandemic flu is an unmistakable reminder of why we must prepare for all hazards, as is the annual and predictable onslaught of natural disasters, from hurricanes and floods to wildfires and ice storms. Accordingly, this bill will enable our government to better protect the American people against all major threats.

Appropriately for the start of hurricane season, the bill maintains a robust $844 million for FEMA management and administration, and $2 billion for disaster relief. In addition, the bill and report specifically place FEMA at the forefront of disaster response management, thereby avoiding confusion when working with our State and local partners.

State and local emergency managers and first responders are equal partners in disaster preparedness and response, and I am pleased that the administration's budget request recognizes this important partnership. This bill strengthens our commitment to our State and local partners by providing $3.96 billion for grant and training programs, including: $330 million for Emergency Management Performance Grants, our one true all-hazards grant program; $950 million for State homeland security grants; $887 million for the Urban Area Security Initiative, which targets the highest risks of terrorism; and $800 million for firefighter assistance grants.

Within that $800 million for firefighter assistance grants, $420 million is for SAFER staffing grants, or personnel grants, and $380 million is for basic equipment and training grants. The additional funding for SAFER is part of a targeted and temporary effort to stem the tide of layoffs and ensure our communities are protected by an adequate number of firefighters.

In addition to the increased funding, the supplemental appropriations bill just passed allows the waiver of certain restrictions and broadens the use of SAFER to allow the grants to be used for the hiring, rehiring and retention of firefighters for fiscal years 2009 and 2010.

Madam Chairman, one could make an argument for increasing nearly any account in this bill; but since we can't spend the whole Federal Treasury on homeland security, we must base our priorities on risk. The subcommittee has done this with respect to the identification and removal of illegal aliens who have committed crimes; in other words, illegal aliens who have proven their capacity to do harm in our communities.

The bill continues the tradition of recent bills by targeting $1.5 billion of Immigration and Customs Enforcement appropriations for this priority, an effort that the President and Secretary Napolitano wholeheartedly support.

Part of this funding furthers development of the Secure Communities program, which offers a productive approach for Federal immigration agents to work closely with State and local law enforcement while distinguishing the traditional Federal role of enforcing immigration law from the local role of prosecuting criminal violations. We have heard from many law enforcement and community groups about the importance of keeping a bright line between immigration enforcement and local community policing, and the Secure Communities program does just that.

Taking on the international drug cartels along our southwest border is another major priority we support in this bill. The bill enhances funding for CBP and ICE to combat illegal narcotics smuggling from Mexico and the cartels' trafficking in weapons and bulk currency. The bill supports a realistic and strategic approach to southwest border infrastructure and maintains a historically robust Border Patrol force.

Other specific priorities we have funded included: $800 million for explosive detection systems at airports and $122.8 million for air cargo security to meet the 100 percent screening requirement for air cargo in the hold of passenger planes by August of 2010; $804 million to continue developing systems to screen inbound land- and sea-based cargo for weapons or nuclear materials, which includes $162 million to strengthen overseas operations to monitor and target cargo; $241.5 million for the Coast Guard to support overseas contingencies in the Persian Gulf and off the coast of Somalia; $382 million for cybersecurity, to help protect vulnerable computer infrastructure from the escalating sophistication and intensity of cyberattacks; and $10 million above the administration's request to expand the Alternatives to Detention program nationwide. Alternatives to Detention is a cost-effective alternative for low-risk individuals such as asylum seekers, families, and the elderly.

The bill includes several policy items requested by the administration. It clarifies fee authorities for temporary protected status petitions and visa fraud investigations; it extends the E-Verify program for 2 years; and it continues a longstanding provision related to imported prescription drugs.

As it did last year, this bill contains Member-requested and Presidential earmarks. Each Member's project has been vetted by DHS and deemed eligible, if part of a grant program, or consistent with the Department's mission otherwise.

□ 1545

We did have to reduce earmarks by 5 percent below last year's level.

This is a good bill, one I hope every Member will support.

I reserve the balance of my time.

Mr. ROGERS of Kentucky. Madam Chairman, I yield myself such time as I may consume.

Let me start, Madam Chairman, by commending the chairman on putting together a thoughtful bill. I also want to sincerely thank him for listening to our concerns on this side and for continuing this subcommittee's traditions of bipartisanship, professionalism and, where possible, accommodating the minority's interests.

However, I must also express my grave concern over an issue that casts a long and sad shadow over this important bill. The fact that we are not here today debating this bill under an open rule breaks with long-cherished traditions concerning appropriations bills.

I, for one, am outraged that today's debate on the critical issue of homeland security has been arbitrarily constrained. Such dictatorial tactics are contrary to the very purposes of this Chamber and our legislative process. To add insult to injury, the majority also denies the ability of a hard-working member of our subcommittee, the gentleman from California, and

even the ranking member of this subcommittee, to offer amendments on E-Verify. Both amendments were clearly in order, and both amendments pertain to a critical issue that is germane to this bill. To deny us the ability to offer such legitimate amendments is a complete travesty.

Now, as to the FY10 bill, Chairman PRICE has already discussed many of the details, so I will refrain from repeating them. But I think it is important to note that with this bill before us today, the chairman has significantly improved the hand that we were dealt by the administration, a hand that included an extremely late and bureaucracy-laden budget request with huge increases for policy and administrative offices at headquarters at the expense of operations, and also a somewhat tightened 302(b) allocation that is nearly a half billion dollars below the budget estimate. These conditions present a somewhat mixed picture about how this new administration and the current House leadership are prioritizing security nearly 8 years after 9/11.

Indeed, I find it incredibly ironic and disappointing that just 2 weeks ago President Obama released a 77-page strategy on stopping the Mexican drug cartels that professes the need to enhance our intelligence and drug interdiction capabilities, yet his FY10 budget only marginally increases Homeland's intelligence office and Border Patrol and actually proposes cuts to Customs and Border Patrol's operational assets and Coast Guard personnel. This is a prime example of where the President's rhetoric doesn't match reality.

Given the current threat environment, now is not the time to shortchange our investment in security and leave our front-line personnel in the lurch wanting for the tools required to fulfill their mission.

Now, having said all that, I do think the chairman has endeavored to make up for these deficiencies by somewhat scaling back on the administration's plans for more bureaucrats, making some prudent enhancements to operations and producing a pretty good bill for FY10. That's not to say it is absolutely perfect. There are some areas where I would have changed and am concerned about.

One of the concerns I have is the bill's funding levels for operational and surveillance assets. While the chairman has made some enhancements to operations, more could and should be done to equip our operators in the field. With a drug war raging in Mexico and the drug supply lines bustling from South America, we must not only step up operations along the southwest border, but also increase our interdiction efforts in the source and transit zones.

Second, I would be remiss, Madam Chairman, if I didn't clarify my position on a piece of language contained in the report accompanying today's bill. On page 49, the report says ''that ICE must have no higher immigration enforcement priority,'' referring to the identification and removal of criminal aliens. Now, I know the issue of criminal aliens is near and dear to Chairman PRICE's heart, as it is mine. Over the past 2 years, I have supported his efforts in this regard with one major caveat, that an emphasis upon criminal aliens will not come at the expense of other critical immigration and enforcement functions. Every time I hear someone on the other side of the aisle profess that ICE should have no higher immigration enforcement priority than criminal aliens, I must remind them that not one of the 9/11 hijackers could be classified as so-called ''criminal aliens'' and that all of the 9/11 terrorists exploited the legal immigration system. So immigration enforcement matters to our homeland security, and we must not lose sight of that fact.

Now, in addition to these concerns, I think it is imperative that the homeland security implications of closing the Guantanamo Bay facility be thoroughly addressed. So I am thankful that through a bipartisan effort during our committee markup we adopted my amendment to require the Department to conduct a thorough threat assessment for each and every Guantanamo detainee, to add their names as well to the no-fly lists, and prevent the possibility of immigration benefits being used as a loophole that could lead to the release of these detainees into the United States.

This is a deadly serious issue. We need to know the threat posed by a possible transfer of these terrorists to both our hometowns and to susceptible inmate populations in our prisons across our country. And this need to know is exacerbated by the fact that the President is moving forward with detainee transfers and resettlements as we speak, ignoring Congress' bipartisan, bicameral calls for better planning and risk analysis. The adoption of that amendment is a prime example of how this body can work together in the name of responsible oversight and security, and I believe it's an absolutely vital addition to the bill.

Madam Chairman, it is my hope that we can continue to address these issues and further improve what I believe to be a well-crafted bill. While I have made it clear that it is my intention to support this bill, I will also continue to voice my suggestions for how it can be strengthened.

In closing, let me again voice my disappointment and indignation with the majority's decision to close down a full and open debate on today's bill. This misguided decision by the Democrat leadership clouds what should be a thorough discussion of the safety and security of our Nation.

I look forward to working with the chairman of the subcommittee and the committee as we continue to move the bill through the 2010 process, a process that I hope can salvage some vestige of the long-standing and cherished traditions of open and fair debate.

Madam Chairman, I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I yield myself 1 minute, to be followed by 4 minutes for a colloquy. But before we go any further in this debate today, I do want to pay tribute to our staff by name. These staff members have worked day and night for weeks now up to the committee markup, and now up to this floor consideration.

Our chief clerk, Stephanie Gupta, Shalanda Young, Jeff Ashford, Jim Holm, Will Painter, Adam Wilson, Matt Behnke; and from my staff, Paul Cox, who spends full time on Homeland Security matters. On the minority side, the able minority clerk, Ben Nicholson, as well as Allison Dieters. We need to again and again thank these staff members, these true professionals, for the way they back up our work.

And now, Madam Chairman, I would like to yield 4 minutes to the gentleman from Colorado (Mr. POLIS) for purposes of a colloquy.

Mr. POLIS. I thank and congratulate Chairman PRICE for his hard work on this legislation. My colleague, Congresswoman ROYBAL-ALLARD, and I would like to engage the chairman in a colloquy for the purpose of highlighting the funding for alternatives to detention in H.R. 2892.

Over the last decade, the United States has spent billions of dollars in the detention of hundreds of thousands of mostly noncriminal immigrants and asylum seekers. There are, however, viable alternatives to our current detention system, and they are generally more affordable and humane than detention itself.

It is not surprising that Immigration and Customs Enforcement, ICE, has also recognized the need for alternatives to detention, such as the Intensive Supervision Appearance Program (ISAP) and the Enhanced Supervision and Reporting Program, which includes electronic monitoring. The Homeland Security Appropriations Act for fiscal year 2010 funds these smarter and less expensive means of enforcing our immigration laws, allocating $74 million to expand alternatives to detention programs nationally.

I yield to Congresswoman ROYBAL-ALLARD.

Ms. ROYBAL-ALLARD. Mr. POLIS, I share your concerns about the financial cost of detention, and I am also distressed by the impact our current policies have on families and communities.

Every year, hundreds of thousands of noncriminal immigrants are held in detention. Many of these immigrants are

detained for months or years in one of several hundred detention facilities in the country. They often face significant challenges like inadequate access to medical care, legal assistance, and other necessary resources. Separated from their families and communities, they may languish in isolation and fall into depression. In some cases, entire families are held in prison-like conditions. I believe we can do better and have introduced legislation to address many of these concerns.

I commend Chairman PRICE for recognizing the importance of funding alternatives to detention, a major step towards reforming our detention system.

Mr. POLIS. I yield to Chairman PRICE.

Mr. PRICE of North Carolina. I want to thank Representative POLIS and Representative ROYBAL-ALLARD, a fine, hardworking member of our subcommittee, for the work they've done on this issue, for highlighting the financial cost and the human impact of ICE'S current detention policy. I, too, believe we can do better.

While the average cost of detention is about $100 per person per day, alternative programs such as telephone reporting, unannounced home visits, local office reporting, and electronic monitoring cost, on average, less than $20 per person per day and are very successful. According to a recent ICE analysis of the program, the Intensive Supervision Appearance Program currently has a 99 percent total appearance rate for all immigration hearings, a 95 percent appearance rate at final removal hearings, and a 91 percent compliance rate with removal orders.

This program has been successful at pilot sites in Colorado, California, Maryland, Kansas, Florida and Pennsylvania; so, therefore, I sought funding to expand it. Our bill increases the budget for alternatives to detention programs by 16 percent above the President's request.

Mr. POLIS. I thank the chairman for highlighting more cost-effective and humane alternatives to detention and for recognizing the financial and human costs of our current detention system. I want to applaud his leadership as well as that of my colleague, Representative ROYBAL-ALLARD from California, on this important issue.

Mr. PRICE of North Carolina. Madam Chairman, I reserve the balance of my time.

Mr. ROGERS of Kentucky. Madam Chairman, I yield 3 minutes to a very hardworking member of our subcommittee, the gentleman from California (Mr. CALVERT).

Mr. CALVERT. I would like to thank Chairman PRICE and Ranking Member ROGERS for crafting a very thoughtful bill for fiscal year 2010, the Homeland Security Appropriations bill. And I appreciate the recognition of the Air and Marine Operations Center, which is located in my congressional district. AMOC has been foremost in aviation-oriented law enforcement operations and coordinates our operations in the United States. It plays an integral role in protecting us from attack from drug and gun smuggling across our borders.

However, I was disappointed that the extension of E-Verify was reduced from the President's request of 3 years to 2 years. The House overwhelmingly passed a 5-year reauthorization last year, and I think many people would support a permanent reauthorization of E-Verify.

During full committee markup of the bill I offered an amendment but was repeatedly told that a reauthorization of E-Verify would be part of a comprehensive immigration reform bill, which simply makes no sense. A reauthorization of a voluntary program that has existed for 13 years should not be part of an immigration reform debate. Perhaps my friends on the other side of the aisle are confusing reauthorization with mandatory participation in E-Verify, which I support, of course.

However, the thousands of businesses that use E-Verify to comply with existing Federal law and the two States that have made it mandatory deserve assurance that the program will continue to be available.

□ 1600

Furthermore, I would like to clear up some misconceptions about the E-Verify program, which seem to be endlessly repeated.

E-Verify is 99.6 accurate. That's right, only .4 percent of tentative nonconfirmations are an error in the data. E-Verify is free to employers. It does not cost anything other than the minutes it takes to sign up for the program to use the system.

My friends on the other side of the aisle repeatedly state that 10 percent of naturalized citizens receive a tentative non-confirmation. I would like to deliver some good news: That statistic is now down to 6.1 percent. So that means 93.9 percent of naturalized citizens are immediately cleared to work. Of the 6.1 percent that received the tentative non-confirmation, they only need to call a toll-free number to rectify their information.

Other than my disagreement with the length of the reauthorization, I was also disappointed that an amendment I offered in the Rules Committee was ruled out of order. My amendment would have allowed Members to vote on whether the executive order requiring Federal contractors to use E-Verify should not be delayed again. The executive order has been delayed three times for dubious reasons.

Secretary Napolitano has signaled her support for E-Verify, and the people running E-Verify have declared they are ready with the Federal contractor requirement. When it comes to doing business with the Federal Government, which is funded by the American taxpayer, the use of E-Verify should be mandatory.

In closing, I would like to reiterate my support for the bill, but with strong reservations about the majority's actions that has severely restricted amendments and has shut down a once open process.

Mr. PRICE of North Carolina. Madam Chairman, I yield 2 minutes to another fine member of our subcommittee, Mrs. LOWEY.

Mrs. LOWEY. Madam Chair, I would like to thank the gentleman from North Carolina for writing a strong bill that provides much-needed funding for critical initiatives, several of which I would like to mention.

Emergency communication gaps remain for many first responders. The bill includes $50 million for interoperability grants, $45 million for the Office of Emergency Communications, and $80 million for Command, Control, and Interoperability research and development. These important programs will benefit first responders in all of our communities.

The bill also includes $887 million for the Urban Area Security Initiative, nearly $50 million more than FY09. This is the only program designed to exclusively assist high-risk urban areas such as New York, and I thank the chairman for substantially increasing its funding.

However, I would be remiss if I did not mention the Securing the Cities Initiative, which is not funded in the bill. This program seeks to prevent the smuggling of illicit nuclear material into Manhattan. The threat of a radiological attack and New York's status as the number one terror target remains, and I hope the bill signed into law includes money for securing the cities. I know there are concerns due to the length of the project and unspent funds, but I do believe we must do everything we can to prevent what President Obama has called the most immediate and extreme threat to global security.

This is still a good bill, and I thank the gentleman from North Carolina for everything he has done to ensure that our first responders, particularly those in high-risk areas, are prepared for future emergencies.

Mr. ROGERS of Kentucky. Madam Chairman, I yield 3 minutes for the purpose of a colloquy to the gentleman from Washington State, Mr. HASTINGS.

Mr. HASTINGS of Washington. Madam Chairman, I thank my friend from Kentucky for yielding, and I rise to engage in colloquy with Chairman PRICE.

Mr. Chairman, as you quickly know we are quickly approaching the August 2009 deadline to screen 100 percent of the cargo transported on passenger airplanes. I commend you and Ranking

Member ROGERS for your work to provide adequate funding to help TSA meet the important requirements without slowing commerce.

The cargo screening requirement has already gone into effect at the Seattle-Tacoma International Airport in the Northwest and other major west coast airports. Cherry growers in my district, who transport half of the cherries they export on passenger aircraft, will only be able to ship their fruit in a timely manner this season because TSA has committed to bringing in resources from other parts of the country. This will not be possible once the 100 percent requirement goes into effect nationwide.

As you know, Madam Chairman, perishable items like cherries can be harmed by screening equipment and even delayed in getting to market. Canine teams have been identified as the most workable way to screen cherries and other perishable items. I was pleased to work with Ms. JACKSON-LEE of Texas and Mr. ROGERS of Alabama to offer an amendment to the TSA authorization bill earlier this month to increase the number of canine teams used for air-cargo screening by no less than 100 teams. This amendment passed the House by a voice vote.

Now, while the TSA authorization bill has yet to be signed into law, Mr. Chairman, is it your intention that TSA utilize funds provided in this bill to train additional canine teams? And I yield.

Mr. PRICE of North Carolina. I thank the gentleman, and I certainly recognize the important role that canine teams play in screening perishable items like fruits and vegetables. It's my intention that TSA use a portion of these funds to train additional canine teams for air-cargo screening.

Mr. HASTINGS of Washington. Reclaiming my time, Mr. Chairman, I would like to thank you for this clarification and again, for the ranking member, Mr. ROGERS, and for your attention to this important issue. I look forward to continuing to work with you to ensure that the 100 percent air-cargo screening requirement is met 100 percent without unnecessarily harming cherry growers.

Mr. PRICE of North Carolina. Madam Chairman, I yield 3 minutes for the purpose of a colloquy to the gentleman from Illinois (Mr. HARE).

Mr. HARE. I rise for the purpose of entering into a colloquy with the chairman of the subcommittee.

Mr. Chairman, I welcome a colloquy with my distinguished colleague. Mr. Chairman, as you know, my district is home to many levee districts along the Mississippi River.

On February 25, 2009, the Federal Emergency Management Agency issued a new policy on rehabilitation assistance for levees. Under this new policy, levee districts are prohibited from receiving FEMA assistance for flood cleanups, debris removal and dewatering. Instead, the burden for funding critical flood control activities is being shifted away from FEMA to the Corps of Engineers even though, as I understand it, the Corps does not have the authorization or the funding to reimburse the levee districts for these activities.

My community, Mr. Chairman, is concerned that this policy leaves levees and the river communities they protect vulnerable during peak flooding seasons while many are still recovering from last summer's floods. In fact, the Illinois Emergency Management Agency recently reported that a drainage district in southern Illinois was denied reimbursement for debris removal as the direct result of this new policy.

Mr. Chairman, I have contacted FEMA to urge them to reverse the policy and continue assisting levee districts with these costs to avoid further gaps in disaster assistance.

Mr. Chairman, I understand that FEMA and the Corps are working on this issue, but if there is no resolution by the time this bill heads to conference, I may need the assistance of the chairman to resolve this matter.

Mr. PRICE of North Carolina. Well, I thank the gentleman from Illinois for recognizing this important issue. The FEMA policy on levee assistance was intended to clarify the roles and responsibilities of Federal agencies in providing critical flood recovery work.

I understand that the gentleman and the other members of the Illinois delegation have concerns that the policy may not be accurate in its accounting of Federal responsibility and may have the unintended consequence of leaving gaps in assistance for local communities in levee districts. As the gentleman mentioned, FEMA and the Army Corps are reevaluating the policy to ensure there are no gaps in disaster assistance.

I would like to stress this is only a policy, not a rule, so FEMA could easily make adjustments to this document. If changes are necessary, FEMA should do so in consultation with the Army Corps to ensure accurateness. This issue is also being evaluated with the House Transportation and Infrastructure Committee, the authorizing committee of jurisdiction.

I will monitor the issue as our bill progresses. I will work with the gentleman, the Transportation and Infrastructure Committee, and the Energy and Water Appropriations Subcommittee as we go forward.

Mr. HARE. I thank the chairman, and I thank you again for your attention to this matter. This is a matter of great importance to my district and I look forward to working with you.

Mr. PRICE of North Carolina. I reserve the balance of my time.

Mr. ROGERS of Kentucky. Madam Chairman, I yield 2 minutes to the gentleman from New Jersey (Mr. GARRETT).

Mr. GARRETT of New Jersey. I thank the gentleman.

I rise for the purpose of entering into a colloquy with the chairman of the subcommittee to highlight a serious concern with regard to FEMA's subcontracting practices.

Mr. PRICE of North Carolina. I welcome a colloquy with my distinguished colleague.

Mr. GARRETT of New Jersey. Thank you.

Chairman Price, I have constituents back in my district in the State of New Jersey who have highlighted a current FEMA solicitation for risk map production. What it does, it seems to shut out the small and the medium, the small medium-sized businesses. Back after Hurricane Katrina, FEMA was, rightly so, criticized for issuing sole-source contracts to three very large companies. Unfortunately, that pattern seems to be repeating itself.

I agree that updating the Nation's flood map is critical to managing and reducing the Nation's flood risk, but operating the program under a fair and an open competition, I think, will produce the best results for the district, the State and the country as well.

I yield.

Mr. PRICE of North Carolina. I thank the gentleman from New Jersey for highlighting this issue. I agree that the flood-map program is an instrumental tool in reducing the loss of life and property from floods. This subcommittee will work with the gentleman to review the recent contract solicitation.

I am committed to ensuring that DHS invests acquisition dollars in projects that are well planned, competitively awarded, well managed and closely overseen.

Mr. GARRETT of New Jersey. I appreciate the chairman's comments on that. As I said a moment ago, this is not just about the Fifth District or even the State of New Jersey, which has had a number of flooding problems in the past, but this is an important issue for fairness all across the country to address the issue of flooding across the country as well.

Mr. PRICE of North Carolina. Madam Chairman, I would like to recognize our colleague, Mr. CUELLAR, for 2 minutes.

Mr. CUELLAR. Thank you, Mr. Chairman.

Madam Chairman, I rise in strong support of this bill and Chairman PRICE's manager's amendment, which includes an amendment that I coauthored with my friend, Mr. MARTIN HEINRICH, to reduce government waste, abuse, and inefficiency.

This simple amendment, commonsense amendment, ensures that no taxpayer dollars will be used to purchase

first-class tickets for the employees of agencies funded by this bill, except in special circumstances, as allowed by law.

Madam Chairman, it goes without saying that the Federal Government should never use taxpayer dollars for extravagant luxuries and excessive spending. To say that these are difficult economic times is an understatement. There has never been a more important moment for the Federal Government to demonstrate that it is a careful steward of taxpayers' dollars and that it would not engage in frivolous and wasteful excesses.

Just as every American household has gathered around the kitchen table, finding ways to cut costs and reduce waste, the Federal Government has the responsibility to do the same. Fiscal responsibility should be a primary objective of every Member. And as a member of the fiscally responsible Blue Dog Coalition, I will continue to work with my colleagues to address the increasing national debt that we have.

However, it is important that we tackle every cost-saving opportunity, large or small, to meet that goal. I am pleased that Chairman PRICE included this amendment in his manager's amendment. I would also like to thank my colleague from New Mexico, Mr. HEINRICH, for working with me on this issue, and for his dedication on cost-saving issues.

I don't see Mr. HEINRICH here, so I would conclude my remarks.

Mr. PRICE of North Carolina. I reserve the balance of my time.

Mr. ROGERS of Kentucky. Madam Chairman, could I inquire of the time remaining.

The CHAIR. The gentleman from Kentucky has 14 minutes remaining and the gentleman from North Carolina also has 14 minutes remaining.

Mr. ROGERS of Kentucky. I yield 4 minutes to one of our hardest-working members of our committee and subcommittee, the gentleman from Texas (Mr. CULBERSON).

Mr. CULBERSON. Thank you, Mr. Chairman. I want to thank Mr. PRICE of North Carolina.

Our Subcommittee on Homeland Security is, I think, a terrific example of how the Congress ought to operate. I am one of the most dedicated fiscal conservatives in the House. Our subcommittee is made up of people of very strong beliefs on both sides of the aisle, but we don't work in that committee with regard to party. We don't even mention party labels. I have done my best to really erase that term from my language and focus on what's fiscally conservative and fiscally liberal.

But this committee really has to work on what is good for the Nation. We have to work together in a way, I think, that has—I hope the leadership of the Congress would use the work of this subcommittee, the work of all the subcommittees on Appropriations, as a model.

It's important, I think, for this Congress in this time of record debt and deficit to do what's right for the country, do what's right for the kids and our grandchildren, and focus on ways to be fiscally responsible. At a time of record debt and deficit, at a time when the national debt is now approaching $11 trillion, at a time when the deficit is at record levels, at a time when the new President has laid out a budget and foresees record debt and deficit as far as the eye can see, we in the Congress have a special responsibility to be guardians of the Treasury, do everything in our power to control spending and avoid unnecessary increases in spending.

And the Homeland Security bill in front of the Congress today is one that was again put together by our subcommittee, Mr. ROGERS, working with Chairman PRICE. Everybody in the subcommittee participated. I am very grateful to you, Chairman PRICE, for working so closely with all of us and putting this bill together.

□ 1615

Without the increase for bioshield, the funding level for Homeland Security is about what—actually, below the level of inflation. At a time when we are under attack from foreign terrorists who are going to use any means at their disposal to sneak into the United States to kill Americans, it's important that we do everything in our power to protect this Nation.

Homeland security is one of those areas where there are no parties' labels, where we have an obligation to work together, and we've done so on this subcommittee. We have profound concerns and differences on the overall spending levels of the appropriations bills as a whole, of the omnibus spending bill that we passed earlier this year, of the spendulus bill that was passed earlier year, of the tremendous unprecedented increases in spending we have seen in this Congress, but on this subcommittee we've all worked together.

I'm particularly pleased to follow my friend from Texas, Mr. CUELLAR. All of us in the Texas delegation have worked together so well in securing our southern border. HENRY CUELLAR and I were elected together, and CIRO RODRIGUEZ, who serves on the subcommittee with me, who represents the Del Rio area.

HENRY and CIRO and I were elected to the Texas legislature in 1986. That friendship that we formed from 1986 has served us well today. And we've worked together in establishing a program called Operation Streamline, a zero-tolerance program where we are enforcing in Texas existing law, with largely existing resources, to arrest and prosecute essentially everybody that crosses the border illegally between Del Rio and Zapata County, with a result that the crime rate has plummeted. In Laredo, they have seen about a 60 percent drop in the crime rate; in Del Rio, over 70 percent drop in the crime rate; and the lowest level of illegal crossings since they began to keep statistics.

This is a piece of good news the Nation needs to hear, that our border is far more secure in Texas because we're enforcing existing law, applying common sense, and working together in a partnership between State and local authorities and the Federal authorities.

We have, in Texas, I think, demonstrated that Texas, we always keep Texas first in our minds regardless of party. And I want to thank the chairman and our ranking member for putting together a bill that focuses on national security and includes the interests of all Members from all parts of the country.

Mr. PRICE of North Carolina. Madam Chairman, I would like to yield 2 minutes to one of our outstanding new Members from Florida, Ms. KOSMAS.

Ms. KOSMAS. I rise today in support of the 2010 Homeland Security Appropriations Act, a bill that will improve the safety and security of our cities, ports, borders, and air travel.

This bill also provides important funding for our first responders on the front lines of emergencies through State and local grants, including the Metropolitan Medical Response System. I would like to thank Chairman PRICE and Ranking Member ROGERS for including my amendment to increase funding by $4 million for this vital program in the manager's amendment.

Increasing funding over fiscal year 2009 will help ensure that high-threat, highly populated communities such as the Orlando metropolitan area will be better prepared to respond when faced with emergencies, whether it be a terrorist attack, an epidemic disease outbreak, or a natural disaster.

The MMRS program assists 124 highly populated jurisdictions across the country in their efforts to coordinate among law enforcement, fire, EMS, public health, and emergency management agencies. It allows these jurisdictions to develop response plans, conduct training and exercises, and acquire personal protective equipment to respond most effectively to emergency situations.

I believe, and I think we all believe, that preparedness is the key to mitigating disasters, and this additional funding will ensure that our local emergency responders will be better able to protect their citizens and to reduce damages.

Mr. ROGERS of Kentucky. Madam Chairman, I yield such time as he may consume to a hardworking Member of this Congress, the gentleman from Tennessee (Mr. DUNCAN).

Mr. DUNCAN. I do thank the gentleman from Kentucky for yielding me this time. I want to say, first of all, and express my appreciation to Chairman PRICE and to Ranking Member ROGERS. They certainly are two of the hardest working Members we have in this Congress and two men whom I admire the most and for whom I have the greatest respect.

I want to say that, overall, I think these leaders have produced a very good bill, particularly in regard to aviation security. That's something in which I have a great interest because I did chair the Aviation Subcommittee for 6 years, and I know they have greatly increased the security at the airports and so forth.

In fact, I will be offering an amendment a little bit later that does freeze the appropriation for the Air Marshal Service, which I do feel, as one high-ranking TSA official told me 2 days ago, is sort of gilding the lily. And I think it's a very unnecessary, useless part of the Federal Government and of this bill.

But, overall, I think it's a very fine bill. And I particularly want to thank Chairman PRICE and Ranking Member ROGERS for the work that they're doing in regard to cybersecurity, because from everything that I have read over these last few years, that is going to be one of the areas that is going to be the most troublesome to this country in the years ahead.

And so, Madam Chair, I will simply say that I want to express my appreciation to Chairman PRICE and Ranking Member ROGERS, and particularly the staff that has worked so hard on this legislation.

Mr. PRICE of North Carolina. Madam Chairman, I yield 2 minutes to the gentlewoman from Arizona (Mrs. KIRKPATRICK).

Mrs. KIRKPATRICK of Arizona. Madam Chairman, I rise to engage Chairman PRICE of the Homeland Security Subcommittee in a colloquy.

Mr. PRICE of North Carolina. I am pleased to enter into a colloquy with my distinguished colleague from Arizona.

Mrs. KIRKPATRICK of Arizona. Madam Chairman, Mr. Chairman, over the past several years we in the Southwest have witnessed a dramatic rise in illegal activity along our border. The new leadership at the Department of Homeland Security is committed to cracking down on this problem, and Federal law enforcement on the ground is doing an excellent job of putting the new plan into action.

One organization with a pivotal role in our border efforts is Customs and Border Protection, CBP, Air and Marine, which provides critical air support to CBP officers and Border Patrol agents. This air support is an unrivaled resource in our fight to keep our borders safe.

Unfortunately, I have repeatedly heard frustration from agents in my district that air resources are in short supply and are often not available to agents on the ground.

Mr. Chairman, it is important that we work to resolve this issue, whether by better management of existing resources or by increasing those resources. Therefore, as this bill heads toward conference, I ask your support in making sure these important questions are addressed and answered.

Mr. PRICE of North Carolina. I appreciate the gentlewoman's strong commitment to securing our Nation's borders and her hard work on this issue as a Member from a border State and a member of the authorizing committee on Homeland Security.

I assure her I will work with her to provide information about how it meets requests for air support on the border, as well as any program changes or resources required to optimize CBP Air and Marine effectiveness at the border.

Mrs. KIRKPATRICK of Arizona. Reclaiming my time, I wish to thank the distinguished chairman and his staff for working with me on this important issue.

Mr. ROGERS of Kentucky. Madam Chairman, I would like to recognize now for such time as he may consume the ranking Republican on the full Committee on Appropriations, the gentleman from California (Mr. LEWIS).

Mr. LEWIS of California. Thank you very much for yielding me the time. I really rise for a couple of reasons to speak generally about this bill.

First is to say that the two people who are providing the leadership for this bill are as fine of members of the Appropriations Committee as there are. Chairman PRICE is one of those people who digs into issues, does his homework. He treats people in a fair and balanced way. Beyond that, he's a fabulous person to be associated with in the Appropriations Committee.

HAL ROGERS, on the other hand—let's see, what can I say about HAL ROGERS? A wonderful Member from Kentucky, who also in this arena knows as much about this subject as anybody that I know.

One of the things that's disconcerting to me about this bill, for it is one that perhaps addresses the most important area of responsibility we have, that is, protecting our homeland. Combine this bill with our national security measure and that is our national defense and America's ability to protect freedom in the world. But, indeed, it's interesting to note that at a subcommittee meeting recently, I spent some time dealing with another bill, an area that the public isn't always so supportive of, namely, the foreign assistance or foreign aid bill.

And it came to my attention in this process and exchange that the foreign aid bill that will be coming to the floor very soon is approximately $10 billion more than our Homeland Security bill. Think about that.

We're in a condition where people, to say the least, here at home are pressed to the wall, all kinds of concerns besides the economy, concern about our security here at home. And they don't always stand up intently to say we've got to be sending our money overseas in the form of foreign aid. In this arena, the Homeland Security bill has almost $10 billion less in it than the foreign aid bill. Now, it's a very interesting commentary, to say the least.

Beyond that, let me mention to both the chairman and the ranking member, California, of course, has lots of border. Later on, I will have an amendment relative to border security. But, indeed, I know many of the Members who are listening to this discussion today are worried about their own borders in their home territory.

If we cannot advance technologically and by way of funding our ability to protect our homeland and be dead serious about it, projecting over a 10-year period, then we're making a very big mistake in this House.

The work that's done by our chairman and our ranking member has produced a very fine product. They really have balanced, within the limited means that they have, the priorities that I think I would apply myself. But, indeed, I want the Members to know that there is still a lot of work to do.

And, one more time, congratulations to both HAL ROGERS and to our chairman.

Mr. PRICE of North Carolina. Madam Chairman, I would like to yield 2 minutes to a distinguished subcommittee member from the authorizing committee, our colleague, the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. I offer my appreciation to the appropriators, Mr. PRICE and Mr. ROGERS, and would ask that as we make our way through this process that we continue to collaborate and work on issues that will move forward the whole issue of security and safety.

Quickly, I would hope that as we move through conference we'd have an opportunity to ensure that the Office of Risk Management is, in fact, the lead office that analyzes the issue of risk, risk-based assessment as it relates to security.

But, Mr. Chairman, Chairman PRICE, I would like to speak to you specifically about the Transportation Security Authorization bill, which just about a week or so ago was passed with a reemphasis or a new emphasis on the security of surface transportation.

We know that just a few days ago we had an enormous tragedy here in Washington, D.C. That question may have fallen upon the issue of safety, but it could have been an issue of security, an

issue dealing with terrorism. And we know, as it relates to the Department of Transportation safety inspectors for rail, pipeline, and highway, there are over a thousand of them; but as it relates to security, transportation security, a mere 175.

Of course, you know I had an amendment that would have simply moved $4 million in order to ensure that we would have an increase in safety or security inspectors under the Transportation Security Administration pursuant to the legislation that was passed by this House.

I would like to continue to work with the appropriators as this bill moves toward conference and moves toward the Senate. And I would ask the chairman, I would like to yield to him, that we have a focus on the authorizing language that says that we need to do more with respect to security for surface transportation, rail, buses, trains, and other resources, and work with him to ensure that we would have dollars to increase the number of transit security inspectors.

I yield to the gentleman.

□ 1630

Mr. PRICE of North Carolina. I thank my colleague for her good work on this issue and her very effective pointing out of our unmet needs in the area of surface transportation security. I do, indeed, pledge to work with her as we move toward conference to see what kind of resources we can identify.

Ms. JACKSON-LEE of Texas. I thank the chairman.

Mr. ROGERS of Kentucky. I yield 2 minutes to the gentleman from Ohio (Mr. LATTA).

Mr. LATTA. I thank the gentleman for yielding.

Madam Chair, last night we were in Rules on, I believe, a very important amendment that Mr. MINNICK and I offered. It was really to save jobs; and it was also really to put a hold on what was happening with Homeland Security and also what was going on with the folks at Customs, trying to put forward a regulation, a rule that's going to put Americans out of work.

At the same time it's also not only going to put Americans out of work, but we're looking at 35 million Americans that have a certain type of knife. I do not believe that a rule should be done that Congress in 1958 defined what a certain type of knife was. So last night of course we were there, and we shouldn't have been there. We should have been here on an open rule and with an amendment on the floor and not in the Rules Committee because this is important.

Again, as I said, this is going to cost jobs, jobs at the Buck Knife Company up in the northwest part of the United States—hundreds of jobs. It's estimated that over 4,000 individuals in this country could be affected just in the knife industry alone. Not only those 4,000 individuals there, but there is about 20,000 other ancillary jobs out there. That's why it's so important we should be talking about this. But unfortunately, again, where we were last night, we weren't doing what we should have been doing. We should have had the amendment here on the floor because I believe it's absolutely important that we make sure the House is headed in the right direction, the way it should be going; and that's through the process that we should be in, the normal process, not the process that we're in today.

But I thank the gentleman for yielding because I think that the debate that we're in is very, very vital to this country.

Mr. PRICE of North Carolina. Madam Chair, may I inquire how much time we have remaining?

The CHAIR. The gentleman from North Carolina has 8½ minutes remaining. The gentleman from Kentucky has 3½ minutes remaining.

Mr. PRICE of North Carolina. We have no further speakers on the floor at this point. There may be one on the way.

I would like to reserve the balance of my time.

Mr. ROGERS of Kentucky. I yield myself the balance of my time.

You know, since 9/11 I think we've come a long way in securing the country. It's been 8 long years. Laborious tasks have been undertaken. First, the formation of the Department of Homeland Security, attempting to merge some 22 different agencies of the government into a single agency under the umbrella of the Department of Homeland Security. And yes, we've made progress—I think substantial progress—in aviation security and the protection of goods coming into the country by container box. We've made substantial gains across the board in securing our American homeland. But we're still a long way from being where we need to be.

It seems like it's been terribly slow in many of the areas that we need to work on. But you know, it's amazing to me. I was just reading a book about World War II and just how quickly the Nation responded to the attack on Pearl Harbor, 1941. In just 4 years, Madam Chair, half the time since 9/11, the Nation geared up and produced 6,500 ships. It produced some 300,000 airplanes, hundreds of thousands of tanks and rifles, ammunition, warships, liberty ships, transport ships, thousands upon thousands of howitzers and weapons of war in just 4 short years. And we've had double that time since 9/11 to gear up for the protection of the country from the newest threat in the globe.

And yes, I am disappointed at times about the progress that we lack. But I've got to say that we've got some very brave people in all these agencies that now make up the Department of Homeland Security, that take their responsibilities deadly serious. They work hard; they don't get much thanks from anyone for the good work that they do; and we should take a moment the next time we go through an airport and thank that TSA worker or that Coast Guard worker or that FEMA helper in our home districts. I recently had the great opportunity to thank the FEMA response to a terrible flood in my district over Mother's Day weekend. But we need to thank these people because they don't get much of that, and they are doing a great service in defending us on our home turf.

With that, Madam Chair, I yield back the balance of my time.

Mr. PRICE of North Carolina. I want to thank our distinguished former chairman and ranking member for those remarks. He is a student of history, as he's just demonstrated. He came to this subcommittee as its founding chairman with a great deal of understanding of just how big this challenge was after 9/11, bringing these 22 agencies together, but also with an instinct for how to put it all together and make this department work. We've made great strides. I agree with him also on the work yet to be done, of course, but over these 7 years we can look back on considerable progress.

Mr. ROGERS talked about the careers of civil servants and others, the Border Patrol agents, Coast Guard men and women, the people who staff these agencies every day. One of the benefits of the process we had this year, holding more broad-gauged hearings before we had a budget and before we had the agency heads in place, was for us to get a closer look at some of these career people and the good work they've done. We took a broader look at agency operations and gained some appreciation for what is being achieved and a better fix on some of the things that we need to improve.

I hope and believe that our bill reflects that experience. It has been put together in a cooperative fashion. We look forward to taking it on from the House today and, by the start of the new fiscal year, being ready to put the program we envision in place. We're delighted to work with the new Secretary and the President's appointees at the agencies who are now assuming their roles. This bill today, I'm confident, is a very positive step in the process of putting this department's program together in cooperation with the new administration for the benefit of all Americans.

Mr. TIAHRT. Madam Chair, I rise today to express my concern regarding the provisions of this bill relating to the National Bio- and Agro-defense Facility, NBAF. The threats facing this country are numerous and varied. With the intention of closing the research facility at Plum Island, NY, it is imperative that a

new research facility be constructed as quickly as possible.

This is one of the many reasons why officials at the Department of Homeland Security selected Manhattan, Kansas, as the site for the new NBAF research center. Kansas State University is already home to a Biosafety Level 3, BSL 3, research facility, which means that right this minute the Plum Island facility could be relocated, with minimal disruptions in its critical research.

Construction is ready to begin on the new BSL 4 NBAF facility. State and local funding is already in place to assist in the development of the facility. The only thing lacking is action by those in Washington.

This bill, however, ignores not only the requests made by myself and other Members representing the great State of Kansas, but also the decision of the Department of Homeland Security. By not funding NBAF, this bill leaves our nation and its food supply vulnerable to dangerous diseases, including Rift Valley Fever and African Swine Fever. Furthermore, it allows live cultures of these and other dangerous diseases to remain in facilities at Plum Island that DHS defined as, ''reaching the end of its life cycle.''

In refusing to fund construction on the new NBAF site in Manhattan, the Committee raised concerns over the risk of diseases, particularly Foot-and-Mouth Disease, FMD, being released into the heart of livestock country. On that issue let me point out that DHS was aware of this risk when Manhattan, Kansas, was selected as the new site, and is already taking steps to address these concerns by an anticipated threat assessment which should be released shortly.

I sincerely hope that as this bill works its way towards the Conference Committee that funding for construction of the new NBAF facility can be included. I have spoken with the Chairman and Ranking Member, and have their assurances that once these concerns are addressed, they will take steps to fund this critical program. I look forward to working with my colleagues on the Committee to ensure that our nation remains protected from dangerous diseases.

Ms. ROYBAL-ALLARD. Madam Chair, I rise today in strong support of the fiscal year 2010 Homeland Security Appropriations bill.

One of our government's foremost duties is to protect the American people.

Fulfilling that critical mission falls to the men and women of the Department of Homeland Security and, as Members of Congress, we have an obligation to provide them with the resources they need to meet the challenge of defending our nation.

Ably led by Chairman DAVID PRICE and Ranking Member HAL ROGERS, the Homeland Security Subcommittee has crafted legislation that does just that. It allocates more than $42 billion to equip our Border Patrol officers, baggage screeners, customs agents and Coast Guard captains to successfully combat the threats America faces.

Like President Obama, we understand that even in a tough fiscal environment, with so many pressing priorities competing for the same scarce tax dollars, the Department deserves funding that reflects the scale of its responsibilities.

Of course, our success in meeting America's security challenges depends on more than the size of the Department's annual appropriation. Just as important is the strength of its planning and the effectiveness of its leadership.

Accordingly, the bill provides a sound blueprint for responsibly managing an organization that encompasses more than 200,000 employees at 22 different agencies. Drawing on the expertise of GAO, the DHS Inspector General and stakeholders both in government and private industry, the legislation successfully matches resources and risks, ensuring a balanced approach to protecting our most sensitive infrastructure. For example, in the wake of the London and Madrid bombings, it will ensure that our vulnerable transit systems are no longer neglected by providing $103 million for surface transportation security.

Just as importantly, the bill also takes meaningful steps to address the injustices inherent in our broken immigration system.

Under the previous administration, instead of pursuing violent felons, Immigration and Customs Enforcement, ICE, elected to fill its arbitrary quotas by seeking out working immigrants who posed no threat to their communities. Since 2002, the deportation of noncriminals has increased by 400 percent while criminal deportations are up only 60 percent. This bill sensibly shifts ICE's primary enforcement target from families to felons.

In addition, the bill responds to reports of asylum seekers denied medical attention and children subjected to lonely nights in border jails by imposing stronger oversight on detention centers and expanding alternatives to incarceration for vulnerable immigrants.

These provisions are vitally important and they point to perhaps the bill's greatest strength: the recognition that we can protect the American people without violating their rights or compromising our ideals.

I thank the Chairman and his staff once again for their excellent work on this crucial legislation and urge its swift passage.

Mr. VAN HOLLEN. Madam Chair, I rise in support of the Homeland Security Appropriations Act of 2010. This bipartisan legislation funds the homeland security priorities of the country and strengthens our commitment to our state and local homeland security partners.

To help address the unique security needs of our high-risk urban areas, such as the Washington Capitol Region, the bill requests $887 million for Urban Area Security Initiative grants. These grants fund the security services and equipment needs of the nation's highest-threat, high-density areas and helps to ensure that our state and local leaders have the resources they need to protect these areas from terrorist attack.

In addition to appropriating funding to secure our passenger rail and air and sea ports, the bill provides funding for interoperable communications and for the nation's emergency operation centers. For our firefighters and other first responders, the bill adds $800 million for assistance grants for training and equipment. These funds will also be used to stem the tide of layoffs that are weakening our fire services and putting the public's safety at increased risk.

The House considers this bill just two days after the Washington Capitol Area experienced one of the worst passenger rail tragedies in our nation's history. We owe a debt of gratitude to the first responders who arrived from across the region to provide aid and comfort to the victims of this tragedy.

By funding these and other important programs, the Homeland Security Appropriations Act of 2010, helps make our country more secure in times like these. I encourage my colleagues to join me in support of this vital piece of legislation.

Mr. MORAN of Kansas. Madam Chair, I come to the House of Representatives to encourage my colleagues to support and fund an urgent national security priority—the creation of the National Bio and Agro-Defense Facility, also known as NBAF.

From a rancher feeding his cattle this morning in Washington, Kansas, to a family sitting down for supper tonight here in Washington, D.C., Americans need to know that the United States is prepared to handle an outbreak of dangerous animal disease that could harm our country's economy and our food supply.

Our nation's current animal disease research center, located at Plum Island, New York, is well over 50 years old and can no longer meet our needs. With today's threat of bioterror attack, as well as the threat of natural and accidental outbreaks of foreign animal diseases, it is clear that more research capacity is needed. NBAF is needed to concentrate our efforts to assess disease threats to livestock, wildlife and humans, and to develop the vaccines and countermeasures against these threats. A modern, safe animal disease research laboratory is critical for protecting our country.

After years of study and a rigorous selection process, in January, the Department of Homeland Security unanimously chose to build NBAF at Kansas State University in Manhattan, Kansas. DHS found Kansas State University to be the best fit for this critical mission. Kansas was chosen because of the State's existing biosecurity research infrastructure, skilled animal science workforce, strong citizen support, and large cost-share contribution. At the time, NBAF was expected to be completed by 2015.

Despite the fact that there has never been stronger need for accelerated animal disease research, I am incredibly disappointed that NBAF may now be delayed. The President requested $36 million in 2010 for NBAF design and construction. I have concerns that this investment is inadequate for moving forward with this security priority. But as the House today considers H.R. 2892, the FY 2010 Department of Homeland Security Appropriations Act, it appears that even the President's requested funding amount may not be provided. Citing safety concerns with researching foot and mouth disease, FMD, on the mainland, the spending bill provides no funding for NBAF. In addition, the bill requires yet another FMD risk analysis.

As a Member of Congress who represents a large agricultural district, I understand the importance of determining the risks associated with conducting FMD research, whether on an island or in the middle of the country. What we know is that studies by experts at DHS and

elsewhere say that FMD can be safely studied on the mainland, as it is done in other countries like Canada, just across our northern border. Modern biocontainment technology has eliminated the need for locating this work on an island, like we did decades ago. The same state-of-the-art research methods and facilities allow the Centers for Disease Control and Prevention to research dangerous human diseases in the city of Atlanta. While I understand the risk associated with the research of any dangerous disease, it should not blind us to the risk of inaction. The bottom line is that if we do not build NBAF and increase our capacity to combat diseases, our country will be less safe.

The research that will be performed at NBAF is critical to secure America's food supply and protect our agricultural industries from animal disease outbreaks. A modern facility that can respond to outbreaks is urgently needed and must remain a top priority for the U.S. As the appropriations process moves forward, I strongly encourage my colleagues in Congress to fund and support NBAF.

Mr. NADLER of New York. Madam Chair, I rise in support of H.R. 2892, the Homeland Security Appropriations Act for fiscal year 2010.

While the bill provides vitally necessary funds to secure our nation's safety, it also contains a troubling provision regarding people who are currently detained at the Guantanamo Bay facility. This provision would prohibit the use of any funds in the bill to provide any immigration benefits to any Guantanamo detainee. Examples provided by the bill of such benefits include ''a visa, admission into the United States, parole into the United States, or classification as a refugee or applicant for asylum.'' The language does include the proviso that nothing in this provision prohibits detainees from being brought into the United States for prosecution.

Now, I want to prosecute and punish anyone who has sought to harm the United States or is responsible for attacks on the United States and its people. But, we do not know that everyone in Guantanamo fits into this category. There are likely people still imprisoned at Guantanamo today who are there, not because they are a threat, but because our government can not figure out what to do with them. As you know, the Bush Administration already released many people from Guantanamo who were wrongly detained there and our courts have ordered the release of others who apparently were not linked to any terrorist organization and pose no threat to the United States. There were, and possibly still are, innocent people being detained by our government at Guantanamo Bay.

It is shameful for our country to deny a visa to an innocent person who we have determined is no threat to the United States, who the United States wrongly imprisoned for years, who may be prosecuted if returned to his own country, and who the United States may not be able to send to any other country. Frankly, if they are innocent of any crime and pose no threat to the United States, they should be allowed to come to the United States. In addition, I do not see how we can deny them asylum if we determine they have a legitimate fear of persecution if sent anywhere else.

Because the Homeland Security bill provides such critical funding to first responders all over the country, and especially to my city of New York, I can not justify voting against it. Funding for these services is desperately needed.

However, I want to warn my colleagues about the dangers of reflexively adding provisions to every appropriations bill that may end up further harming innocent people who were mistakenly imprisoned by our government. If you want to make a political point that you oppose terrorists, fine. But, you have to allow for the fact that until we know for sure that all of the people remaining at Guantanamo are terrorists, it is not right to punish everyone who is there just to make a political point. We have a moral obligation to do better.

Mr. ETHERIDGE. Madam Chair, I rise today in support of H.R. 2892, the Department of Homeland Security Appropriations Act for Fiscal Year 2010.

This legislation provides $44 billion for the Department of Homeland Security to continue its work to keep Americans safe, keep our borders secure, and ensure our communities are prepared for any disaster—whether natural or man-made.

At a time when our state and local governments are strained in the current economic downturn, this legislation continues our federal commitment to support local efforts that keep our communities safe. It provides $3.55 billion for first responder grant initiatives, including $810 million for Fire Grants, $950 million for State Emergency Preparedness Grants, $330 million for Emergency Management Performance Grants, and a total of $90 million for interoperable communications and emergency response centers.

H.R. 2892 will help secure our border and improve the enforcement of our nation's immigration laws. The measure would fully fund 20,019 border patrol agents with $3.5 billion and provide $732 million for border fencing, infrastructure and technology. It would provide $5.7 billion for Immigration and Customs Enforcement (ICE) to enhance our ability to identify and remove immigrants who have illegally entered the country, and $248 million for the United States Citizenship and Immigration Services to improve the processing of visas for those eligible to enter the country. This funding includes $112 million to operate and improve E-Verify, the DHS initiative that empowers businesses to screen potential employees' immigration status.

As North Carolina is a prime hurricane state, I am pleased that this bill makes important investments in all-hazards disaster preparedness. It provides $2 billion for Disaster Relief, $220 million to continue flood map modernization and to maintain modernized maps, and $200 million to address the increasing needs for emergency food and shelter, recognizing that the current economic downturn is a disaster in its own right.

Madam Chair, this is a strong bill that enhances our ability to keep our nation secure and our citizens safe. I urge my colleagues to join me in supporting this legislation.

Mr. CROWLEY. Madam Chair, I rise in support of H.R. 2892, the Department of Homeland Security Appropriations Act of 2010.

The Department of Homeland Security Appropriations bill makes fundamental investments that are vital to our nation's security. It tightens our nation's borders, allows for installation of the latest explosive detection systems at airports nationwide, protects our ports and critical infrastructure, and provides grants to meet the needs of our first responders. It also increases funding for the Urban Areas Security Initiative, which is very important to my home city of New York, by almost $50 million, matching the President's request, for a total allocation of $887 million.

In the months following the September 11th attacks, I spearheaded the creation of the High Threat Urban Area Account Program, which later became the Urban Area Security Initiative (UASI). I undertook this effort because, at the time, there were no Federal domestic security grant programs that provided funding solely on the basis of threat and risk. While I recognize that the threat of terror lingers everywhere, there are, unfortunately, several cities and areas that are more vulnerable to attack. New York, my home city, is one of them.

This is not a distinction we are proud of, but it is a reality we face. Al-Qaeda has already attacked my city twice. And, for me, it became all the more personal when my cousin, a New York City fireman, died during the September 11, 2001 attacks trying to help people out of Tower 2 at the World Trade Center.

What happened on September 11th can never happen again, and that is what the UASI program is about. The grants go to cities and states under the greatest threat of attack. In New York City, the grants have been used to train and better equip first responders, and provide them with better communication systems to assure preparedness, in addition to improved monitoring of critical infrastructure.

Late last month, four men were arrested in a plot to bomb two Bronx synagogues. According to authorities, they had planted bombs in cars outside the two synagogues, and were planning to shoot down military planes at an Air National Guard base in upstate New York. New York's Office of Homeland Security later provided Urban Area Security Initiative Nonprofit Security Grant Program (NSGP) funds in order to resolve the vulnerabilities of the synagogues. Additionally, it was Federal homeland security dollars that assisted the New York Police Department in their excellent investigative work to stop this act of terror before it occurred.

Madam Chair, the threat of terrorism remains very real, making it essential for cities that face the greatest risk to have the tools and resources necessary to stop attacks before they occur. Cities, like New York, remain a major target for terrorists, and programs like UASI help us fight terrorism and ensures that our first responders have the equipment they need to protect the American people.

I would like to thank the gentleman from North Carolina, Chairman of the Homeland Security Appropriations Subcommittee, for his leadership, hard work, and dedication to the urban area initiative and I urge adoption of the bill.

Mr. KUCINICH. Madam Chair, I rise in support of the Department of Homeland Security Appropriations Act of 2009 and the employees of the Department of Homeland Security (DHS). The service and dedication of the men

and women that work to ensure the safety of our country is admirable.

This bill responds to the public safety needs of our communities in a time of hardship by providing $800 million in grants to fire departments, of which $380 million is provided for the Assistance for Firefighters Grants program used to train, hire and retain our local firemen and women. It funds an increase in the number of border patrol agents to 20,019, providing additional jobs and better national security. I also support the provisions requiring DHS to monitor the medical care of all detainees held in immigration detention facilities and to direct Immigration and Customs Enforcement (ICE) to report to Congress on steps it has taken to ensure that all detainees are receiving proper medical care and attention.

I remain concerned about provisions in the bill regarding prisoners held in the Guantanamo Bay detention facility. I commend President Obama's pledge to close Guantanamo Bay, but this bill fails to ensure that the rule of law and our commitment to universal human rights are being upheld for detainees.

Section 522(a) of the bill requires the Department of Homeland Security to conduct extensive threat assessments for all detainees held at the Guantanamo Bay detention facility as of April 20, 2009, and to place all detainees on the ''no-fly'' list unless there is Presidential Certification to exclude them on such a list. This section also prohibits any funds in the act from being used to provide detainees with any immigration benefits, including refugee or asylum classification. The treatment and detention of hundreds of foreign nationals held indefinitely and illegally without charge at Guantanamo Bay has violated our most basic democratic principles. The burden to right this wrong by ensuring due process for the remaining 245 falls on the U.S. The detainees held at Guantanamo Bay must be afforded habeas corpus protections. We must have the confidence in our own U.S. system of justice to try the detainees.

I will continue to work to ensure all have equal protection under the law. I urge my colleagues to support passage of this bill.

Mr. PRICE of North Carolina. Madam Chair, I yield back the balance of my time.

The CHAIR. All time for general debate has expired.

Pursuant to the rule, the bill shall be considered for amendment under the 5-minute rule.

No amendment shall be in order except the amendments printed in part A and B of House Report 111–183, not to exceed four of the amendments printed in part C of the report if offered by the gentleman from Arizona (Mr. FLAKE) or his designee, and not to exceed one of the amendments printed in part D of the report if offered by the gentleman from California (Mr. CAMPBELL) or his designee. Each amendment shall be considered as read, shall be debatable for 10 minutes equally divided and controlled by the proponent and an opponent, and shall not be subject to a demand for division of the question. An amendment printed in part B, C, or D of the report may be offered only at the appropriate point in the reading.

After consideration of the bill for amendment, the Chair and ranking minority member of the Committee on Appropriations or their designees each may offer one pro forma amendment to the bill for the purpose of debate, which shall be controlled by the proponent.

The Clerk will read.

The Clerk read as follows:

H.R. 2892

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes, namely:

TITLE I—DEPARTMENTAL MANAGEMENT AND OPERATIONS

OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

For necessary expenses of the Office of the Secretary of Homeland Security, as authorized by section 102 of the Homeland Security Act of 2002 (6 U.S.C. 112), and executive management of the Department of Homeland Security, as authorized by law, $147,427,000: *Provided*, That not to exceed $60,000 shall be for official reception and representation expenses, of which $20,000 shall be made available to the Office of Policy solely to host Visa Waiver Program negotiations in Washington, DC.

PART A AMENDMENT NO. 1 OFFERED BY MR. PRICE OF NORTH CAROLINA

Mr. PRICE of North Carolina. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part A Amendment No. 1 offered by Mr. PRICE of North Carolina:

Page 2, line 9, after the dollar amount, insert ''(reduced by $17,000,000)''

Page 2, line 18, after the dollar amount, insert ''(increased by $5,900,000)''.

Page 5, line 20, after the dollar amount, insert ''(increased by $4,900,000)''.

Page 39, line 21, after the dollar amount insert ''(increased by $7,000,000)''.

Page 40, line 10, after the dollar amount insert ''(increased by $3,000,000)''.

Page 40, line 14, after the dollar amount insert ''increased by $3,000,000)''

Page 40, line 20, after the dollar amount, insert ''(increased by $4,000,000)''.

Page 44, line 25, after the dollar amount insert ''(increased by $10,000,000)''.

Page 45, line 1, after the dollar amount insert ''(increased by $10,000,000)''.

At the end of the bill (before the short title), insert the following:

SEC.__. None of the funds made available under this Act may be used to close or transfer the operations of the Florida Long Term Recovery Office of the Federal Emergency Management Administration located in Orlando, Florida.

SEC.__. None of the funds made available in this Act may be used for first-class travel by the employees of agencies funded by this Act in contravention of sections 301–10.122 through 301.10–124 of title 41, Code of Federal Regulations.

SEC.__. No funds appropriated by this Act may be used to impose any negative personnel action against any Department of Homeland Security employee who engages with the public in the course of the employee's duties, for the use of surgical masks, N95 respirators, gloves, or hand sanitizer.

The CHAIR. Pursuant to House Resolution 573, the gentleman from North Carolina (Mr. PRICE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from North Carolina.

Mr. PRICE of North Carolina. Madam Chair, I yield myself as much time as I may consume.

My amendment, I believe, is noncontroversial. It includes a number of amendments put forth by other Members that we believe would be good additions to the bill, including: First, additional funding for the Firefighter grant program that draws on proposals from Representatives ALTMIRE, PASCRELL, AUSTRIA, PETER KING and BIGGERT; additional funding for nonprofit security grants, from Representatives COHEN and WEINER; additional funding for the Metropolitan Medical Response System, from Representative KOSMAS; additional funding to implement the Western Hemisphere Travel Initiative, from Representative MITCHELL; ensuring that DHS employees who interact with the public can use personal protective equipment without negative personnel action, from Representative LYNCH; a prohibition on funds in this bill being used for first-class travel, with certain exceptions, from Representative CUELLAR; and a prohibition of funds in this bill from being used to close or transfer operations of a FEMA recovery office, coming from Representative HASTINGS.

All increases are appropriately offset elsewhere in the bill. While the bill includes earmarks in it, which have been properly disclosed according to House procedures, this amendment does not contain any congressional earmarks. I ask Members to support this amendment.

I reserve the balance of my time.

Mr. ROGERS of Kentucky. Madam Chair, I rise to claim the time in opposition.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. ROGERS of Kentucky. Madam Chair, it saddens me that the longstanding cherished traditions of debate within this Chamber have come to this—a so-called manager's amendment that is more about limiting the time on today's debate and placating the interests of Democrats than truly improving this bill. So I rise in opposition to this amendment, not on the substance of the amendment itself, mind you, but on the flawed and misguided procedure under which it is being offered. We seldom do manager's amendments on appropriations bills on the floor; and when on the rare occasion that we have, it's been a true manager's amendment, one that is noncontroversial and bipartisan. This

amendment meets the interests of nine Democrats, and the minority was never consulted on the substance and construction of this amendment—never.

Furthermore, this amendment includes a provision that would be subject to a point of order during a normal debate to make this provision in order, then included in this flawed amendment. And finally, denying other Members the right to offer their amendments that were clearly germane and in order, including one of this ranking member. It's beyond the pale.

The majority also denies the ability of a hardworking member of our subcommittee, and myself as well, an opportunity to offer an amendment on E-Verify, the way that employers in this country can be sure that an applicant for work is not an illegal alien. Both amendments were clearly in order. Both amendments pertain to a critical issue that's germane to this bill. To deny us the ability to offer such legitimate amendments is a complete travesty, especially in light of this amendment before us.

So it is clearly not a manager's amendment, in my view. Instead, it's a vehicle for the majority to further ramrod this bill off the floor through what is perhaps the most closed and arbitrarily constrained debate I have seen in my 28 years or so in Congress.

□ 1645

I am very troubled by the road the majority is heading down with actions such as this, actions that muddle what should be an open debate on one of the most critical bills that this body will consider this year. Today should be about our homeland security, not partisan politics.

I urge Members to reject this flawed procedure and oppose this misnamed manager's amendment.

Madam Chairman, I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I would like to yield 1 minute to one of the sponsors of one of these amendments that has been included in this chairman's amendment, Representative ALTMIRE, who has been working very hard on the firefighter grant program.

Mr. ALTMIRE. I thank the chairman for yielding.

I want to highlight the one provision which I worked hard to put into this manager's amendment. I can think of few that are more deserving and in need of support under this Homeland Security bill than our Nation's first responders. In particular, volunteer firefighters represent all walks of life and are part of the fabric of nearly every community in this country.

The most important source of Federal assistance for our local firefighters is the Assistance to Firefighters Grant Program that has provided for so many fire companies over the years. Volunteer firefighters make every sacrifice for our communities and are always on call; so it's the very least we can do to make certain that they're as safe and well protected as possible.

That's why I add the language to this bill to shift $10 million in funding over to the firefighter grants program. This funding will help hundreds of fire companies across the Nation make the necessary equipment and vehicle upgrades that are so critically needed.

I thank the chairman for including in the bill my language to increase funding for our Nation's volunteer firefighters, and I ask my colleagues to support it.

Mr. ROGERS of Kentucky. Madam Chairman, I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I would like to yield 1 minute to the gentleman from Tennessee (Mr. COHEN), who likewise is the initiator of one of our amendments.

Mr. COHEN. Madam Chairman, this amendment, which I appreciate being incorporated into the manager's amendment and was also sought in a similar fashion by Mr. WEINER of New York, would include language to increase funding to the Urban Areas Security Initiative Nonprofit Security Grant program. The Urban Areas Security Initiative Nonprofit Security Grant program is an important program that helps fund support for the not-for-profits that could be subject to attack. Nonprofit organizations often are like hospitals, which are vital to our communities' ongoing security and safety, especially if there is an attack that can spread terror and havoc on a community if they are attacked. And if you have research facilities attacked, there are other concerns in the community. The nonprofit entities can include hospitals and historic landmarks.

In my community of Memphis, which I hope has an opportunity to share, there's the Med, there's St. Jude Children's Research Hospital, and other great hospitals. New York has many too; and that's why Mr. WEINER, I think, was interested in this. And the terror that could be spread by attacking a museum or a library and sending panic through the community could be very disastrous to the well-being of the people in that community and in the Nation.

So hopefully the increase in this funding will help our cities secure their funds and secure their facilities. I would like to thank the chairman for the addition of the funding and the support for the additional $3 million for the Urban Areas program. I would like to thank Mr. PRICE and the committee for their work in including it in the manager's amendment.

Mr. PRICE of North Carolina. Madam Chairman, I have no further requests for time, and I yield back the balance of my time.

Mr. ROGERS of Kentucky. Madam Chairman, I object to this amendment on procedural grounds. It's not a bipartisan amendment as manager's amendments are supposed to be, so I urge a ''no'' vote.

Mr. LYNCH. Madam Chair, I thank the gentleman from North Carolina for his work on this bill. I also thank the Chairman for incorporating my amendment into the manager's amendment and for giving me time to speak.

My amendment to H.R. 2892, the Department of Homeland Security Appropriations Act would afford D.H.S. workers the right to voluntarily don and access personal protective equipment (PPE), including surgical masks, the N–95 respirator, gloves and hand sanitizer without fear of reprisal.

Given the reluctance on the part of D.H.S. to address the voluntary use of personal protective equipment amidst the H1N1 flu outbreak, as Chair of the Federal Workforce Subcommittee, it has fallen on my shoulders to ensure the health and safety of Federal employees—especially frontline Federal workers at D.H.S. who are tasked with the tremendous job of keeping the American public safe.

In my opinion it is unconscionable that our workers have been repeatedly denied the use of these protective items—and even threatened with disciplinary action for attempting to protect themselves from a communicable disease that has resulted in the World Health Organization, WHO, declaring its highest pandemic alert possible—Phase Six. Further, it is alarming that D.H.S. has been unable—or unwilling—to issue and to distribute comprehensive, written guidance on the voluntary usage of PPE to its own employees during a public health emergency.

Federal workers such as Transportation Security Officers, TSOS, U.S. Customs and Border Patrol Officers and Border Patrol Agents, and ICE Agents who work in high risk areas and come in contact with thousands of individuals per shift deserve better. C.B.P. Officers working at the Laredo, Texas port of entry and the Otay Mesa port of entry in San Diego, CA, can screen over 5,000 individuals per shift and have been routinely threatened for asking to wear masks. The nineteen-month-old baby of an ICE agent in Miami, Florida, who works at the Krome Immigration Service Processing Center which has six confirmed H1N1 flu cases, has been diagnosed with the H1N1 virus. I simply cannot fathom why these workers are not being supported, but I am committed to ensuring that common-sense policies are implemented at D.H.S.

It is essential that Federal agencies implement adequate and uniform worker protection policies for the employees who protect the Nation as part of their daily duties. These are the very employees who will be called upon to respond in the event of an emergency. Without such policies, not only is the health of front line employees being put at risk, but the health of their families and the general welfare of the public is also placed at risk. In short, the Federal Government cannot ably respond to emergencies if the very personnel needed as part of that response are themselves compromised.

I thank Chairmen PRICE and THOMPSON for their support of this amendment.

Mr. ROGERS of Kentucky. Madam Chairman, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from North Carolina (Mr. PRICE).

The question was taken; and the Chair announced that the ayes appeared to have it.

Mr. ROGERS of Kentucky. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from North Carolina will be postponed.

PART B AMENDMENT NO. 5 OFFERED BY MR. LEWIS OF CALIFORNIA

Mr. LEWIS of California. Madam Chairman, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 5 offered by Mr. LEWIS of California:

Page 2, line 9, after the dollar amount, insert ''(reduced by $6,000,000)''.

Page 2, line 18, after the dollar amount, insert ''(reduced by $14,000,000)''.

Page 3, line 7, after the dollar amount, insert ''(reduced by $3,000,000)''.

Page 3, lines 14 and 16, after each dollar amount, insert ''(reduced by $18,000,000)''.

Page 5, line 20, after the first dollar amount, insert ''(increased by $34,000,000)''.

The CHAIR. Pursuant to House Resolution 573, the gentleman from California (Mr. LEWIS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. LEWIS of California. Madam Chairman, as I proceed with this amendment, I want to one more time associate myself first with the remarks of my ranking member regarding the manager's amendment but, in turn, express my deep respect and appreciation for the two gentlemen handling this bill. Chairman PRICE and my colleague from Kentucky have worked very professionally together and I think this House would be served well if we extend it to all of our subcommittees.

The amendment which I have at the desk is a relatively simple amendment. I rise to restore some balance to what otherwise is a thoughtful and very constructive bill.

My amendment takes a small fraction of funding, increases recommended for administrative expenses, and adds 200 new Border Patrol agents out of that transfer of funding, agents that will serve on the front lines of the bloody drug war raging in Mexico and produce increased security across our borders from entry by way of smugglers and people who are coming here for other sorts of contraband activities.

My amendment seeks to increase the resources for those who are charged to keep our Nation safe and secure as well as ensnare money and illegal weapons flowing southbound; resources that will fulfill the promises repeatedly made by President Obama to both the American people and the courageous Mexican Government in their fight against the cartels.

In fact, it was just 2 weeks ago that the President unveiled a new strategy on securing the southwest border and fighting the cartels, a strategy that calls for sustained enhancements to border security and counternarcotics activities.

The President's budget request calls for only 44 new agents. That's right, only 44 new agents. Contrast that with the 2,500 additional agents this Congress funded just last year; 44 new agents in this bill, 2,500 additional agents last year. How can we support such a flattening of this crucial security asset? How can we risk a reduction in the size of the Border Patrol when our border security needs are so great and the agent attrition rate is now creeping up to about 11 percent?

The decision to fund what is essentially a current services budget for Border Patrol comes in conjunction with a request for more than a 30 percent increase in administrative, policy, and bureaucratic functions at DHS. Talk about getting your priorities all wrong. Think about that, 11 percent versus 30 percent. Clearly a higher priority ought to be given to border security by way of more personnel.

At a time of such obvious need in the face of a bloody and all too real drug war, now is the time to follow through on border security, not plateau and rest on our laurels.

As Ranking Member ROGERS has often pointed out, Chairman PRICE has done a laudable job scaling back the President's request for more bureaucrats and made some rather prudent enhancements to operations in this bill. However, the Border Patrol agents are not increased above the request, and I think it is something this Chamber should weigh in on heavily.

So my amendment seeks to add 200 agents while asking the DHS administrative offices to get by on no more than a 14.8 percent increase, an increase that is more than sufficient and one that many of us probably think is too high during the current fiscal climate.

My amendment simply asks what's more important: resources to provide our operators and watch guards in the field or added bureaucracy? We have all read the terrible stories of the brutal murders in North Mexico. Let's follow through on our commitment to secure our borders, stop the advance of the cartels' influence, and improve on our homeland security.

I urge the Members to support this amendment.

Mr. ROGERS of Kentucky. Will the gentleman yield?

Mr. LEWIS of California. I'd be happy to yield.

Mr. ROGERS of Kentucky. I want to congratulate our leader for this very adequate amendment that will help us on the border where the drug war wages, and we can use that personnel. The meager increases in the number of agents the gentleman has referred to in the bill needs to be increased, and the gentleman's amendment does just that, and I congratulate him and support it fully.

Mr. LEWIS of California. I appreciate very much my colleague's speaking on my amendment.

Madam Chairman, I yield back the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I rise in opposition to the amendment.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. PRICE of North Carolina. Madam Chairman, this is an amendment that the Department of Homeland Security did not request and does not support.

I do, however, want to salute the distinguished ranking member for his support of the Border Patrol. That support is widely shared in this body, on both sides of the aisle. But as the honorable ranking member knows, this committee has been fully a part of that effort to build up the Border Patrol. We're second to none in supporting, on a bipartisan basis, robust increases in Border Patrol numbers in recent years. We have dramatically enhanced border enforcement measures overall.

Since the start of the 110th Congress, we have funded an increase of 5,100 agents. That's a 33 percent increase over the number funded through 2007. By October of this year, CBP will have 20,019 Border Patrol agents. That's more than double the workforce in 2003.

A level of 20,000 agents has been a bipartisan goal. Both the current and the prior administrations used it as a target. Indeed, the Republican majority in its report on the 2007 DHS authorization bill affirmed this when they wrote, and I'm quoting: ''It's estimated that a force of 18,000 to 20,000 agents will be necessary along with implementation of border technologies to secure the Nation's borders.'' So this amendment does somewhat move the goal posts in the middle of the game, you might say.

The amendment ignores the fact that CBP can't absorb this unplanned increase. They are right this minute pulling out all the stops to hire before October another 760 Border Patrol agents as well as 250 mission support staff to ensure that agents are out patrolling and not sitting behind desks. This is not the time to burden the recruitment system with unrequested new agents, not to mention to impose unfunded costs for their vehicles and facilities and ID support.

Just a word, Madam Chairman, about the offsets. The amendment uses as an offset several management accounts,

about 5 percent cuts in most of these areas. It doesn't seem so bad until you realize that when this bill came to the floor, we were already more than 10 percent below the administration's request in this account. The Chief Information Officer takes the largest cut. We are already $39 million below the request for this office, and cuts here would undermine key efforts to improve information security and reduce risks at the Department's data centers. So cutting more funds now means less core support for Department operations, less oversight, more waste, and an even longer road to getting the DHS the American taxpayers deserve.

For all these reasons, Madam Chairman, I urge my colleagues to defeat this amendment.

Madam Chairman, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from California (Mr. LEWIS).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. LEWIS of California. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from California will be postponed.

PART B AMENDMENT NO. 8 OFFERED BY MR. KING OF NEW YORK

Mr. KING of New York. Madam Chairwoman, I have an amendment at the desk that was made in order under the rule.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 8 offered by Mr. KING of New York:

Page 2, line 9, after the dollar amount insert ''(reduced by $5,000,000)''.

Page 2, line 18, after the dollar amount insert ''(reduced by $45,000,000)''.

Page 58, line 15, after the dollar amount insert ''(increased by $50,000,000)''.

The CHAIR. Pursuant to House Resolution 573, the gentleman from New York (Mr. KING) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from New York.

Mr. KING of New York. Madam Chairman, I ask unanimous consent that Representative CLARKE be listed as cosponsor of this amendment.

The CHAIR. The Chair cannot entertain that request at this time.

Mr. KING of New York. Madam Chairman, I yield myself 1 minute.

I insert into the RECORD a letter dated June 4, 2009, to Chairman PRICE and Ranking Member ROGERS from virtually every law enforcement first responder head in New York, Connecticut, and New Jersey.

NEW YORK REGIONAL JOINT WORKING GROUP ON SECURING THE CITIES,

JUNE 4, 2009.

Subject: FY2010 Appropriations for Securing the Cities Program

Hon. DAVID E. PRICE,
Chairman, Committee on Appropriations, Subcommittee on Homeland Security, Rayburn House Office Building, Washington, DC.

Hon. HAROLD ROGERS,
Ranking Member, Committee on Appropriations, Subcommittee on Homeland Security, Rayburn House Office Building, Washington, DC.

DEAR CHAIRMAN PRICE AND RANKING MEMBER ROGERS: We are writing to urge you to include $40 million to fund the Securing the Cities (STC) program in your markup of the FY2010 Department of Homeland Security appropriations bill. This funding would be equal to the FY2008 appropriation for the program.

Securing the Cities is a vital, federally funded effort to protect New York City from the threat of an improvised nuclear device or a radiological dispersal device (a ''dirty bomb''). The program involves equipping many different agencies in New York, New Jersey, and Connecticut with state-of-the-art mobile radiation-detection equipment, training them in its proper use, and leveraging existing technology and infrastructure to deploy a permanent defensive radiation-detection ring around New York City.

The STC program is the only federal initiative designed specifically to protect a U.S. city from a radiological or nuclear terrorist attack, which President Obama has called, ''the most immediate and extreme threat to global security.'' We never saw the program as a ''pilot,'' as some have suggested, but as an operational model, developed to protect the city that suffered the most on September 11, 2001, and that continues to be at the top of the terrorist threat list.

Since the STC program was proposed by the Department of Homeland Security in 2006, we have:

begun taking delivery of approximately 4,500 units of radiation-detection equipment;

prepared to train all of our response personnel in the proper use of the equipment;

conducted three full-scale exercises in which radioactive materials were intercepted by our agencies;

developed detailed operational nuclear-interdiction plans for the region;

begun developing the fixed radiation-detection systems that will be installed on bridges and tunnels into New York City;

and, begun to implement a situational awareness system that will ultimately allow us to track and swiftly interdict radiological threats anywhere in the region.

All of the money appropriated since FY2007 has been programmed, and most of it has been obligated. We expect to complete the purchase of our situational awareness system, developed with FY2007 funding, by the end of this year; we have begun taking delivery of radiation-detection equipment purchased with FY2008 funds; and, we have submitted our application for FY2009 funds. Additional funding is necessary to complete the final stages of development of the fixed radiation-detection system, which is on the verge of becoming operational, and to establish wireless connections among and between our mobile systems.

The STC program was designed as a joint federal, state, and local initiative with significant investments and commitments at all levels. Federal STC funding only pays for a fraction of the cost of the total program. For example, the STC program benefits from the absorption of manpower and operational costs by state and local agencies. STC also leverages major existing New York City investments, including the fiber-optic lines that will be run to New York City bridges and tunnels as part of the Lower Manhattan Security Initiative and New York City's wireless network (NYCWiN). The total cost of the STC program as seen by Congress does not account for these significant outlays at the state and local level.

Together, the STC partners represent three layers of government, three states, 60 counties, and over 80 law enforcement agencies. In our view, the STC program is an extraordinary example of interagency and intergovernmental collaboration, and one of the most successful DHS programs in existence. Zeroing this program out, as the President's FY2010 Budget has mistakenly proposed, would do great harm to the security of New York as well as the quality of our agencies' partnership with DHS. We understand the need for fiscal restraint in the current financial climate. However, this critical investment will ensure that law enforcement and emergency response agencies have the resources needed to protect our nation's largest city from the most damaging terrorist threat imaginable.

For these reasons, we urge you to appropriate funding to the STC program at a level equal to the FY2008 appropriation—$30 million for acquisitions and $10 million for research, development, and operations. We welcome the opportunity to brief members of your staff on the progress of this program either in the New York region or in Washington, DC.

We appreciate your consideration of this request.

Sincerely,

Raymond W. Kelly, Commissioner, Police Department, City of New York;

Nicholas Scoppetta, Commissioner, Fire Department, City of New York;

Harry J. Corbitt, Superintendent, New York State Police.

Colonel Joseph R. Fuentes, Superintendent, New Jersey State Police;

Colonel Thomas Davoren, Deputy Commissioner, Connecticut State Police;

Lawrence W. Mulvey, Commissioner of Police, Nassau County Police Department;

Richard Dormer, Commissioner, Suffolk County Police Department;

William A. Morange, Deputy Executive Director, Metropolitan Transportation Authority;

Denise E. O'Donnell, Deputy Secretary for Public Safety, New York State/Commissioner, NYS Division of Criminal Justice;

Thomas G. Donlon, Director, New York State Office of Homeland Security;

James F. Kralik, Sheriff, Rockland County Sheriff's Office;

Thomas Belfiore, Commissioner-Sheriff, Westchester County Police Department;

Richard L. Cañas, Director, New Jersey Office of Homeland Security and Preparedness;

James M. Thomas, Commissioner, Connecticut Department of Emergency Management and Homeland Security;

Samuel J. Plumeri, Jr., Director of Public Safety/Superintendent of Police, Port Authority of New York and New Jersey;

Steven W. Lawitts, Acting Commissioner, Department of Environmental Protection, City of New York;

Thomas R. Frieden, Commissioner, Department of Health and Mental Hygiene, City of New York;

Joseph F. Bruno, Commissioner, Office of Emergency Management, City of New York and;

Janette Sadik-Khan, Commissioner, New York City Department of Transportation.

□ 1700

Madam Chairlady, the King-Clarke bipartisan amendment restores $40 million for the Securing the Cities Initiative, a vital homeland security program which prevents terrorist attacks which are based on nuclear or radiological material, primarily in the form of dirty bombs. I should point out that a nearly identical amendment had the support of this House in 2007 by a majority of more than 2–1.

Securing the Cities is a networked ring of radiological detectors on highways, toll plazas, bridges, tunnels and waterways leading into and out of New York City. It is the only Department of Homeland Security program dedicated to protecting cities and surrounding regions against the nuclear threat of dirty bombs.

Madam Chair, this successful program is an operational model which can be replicated in cities and suburbs throughout the country. The proposed cut in funding for Securing the Cities would seriously undermine further implementation of needed nuclear and radiological detection capability.

The WMD Commission, a bipartisan commission, warned in December of 2008 that nuclear and biological terrorism was not only a serious threat but a likely threat.

The CHAIR. The time of the gentleman has expired.

Mr. KING of New York. I reserve my time.

Mr. PRICE of North Carolina. Madam Chairwoman, I rise in opposition to the amendment.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. PRICE of North Carolina. I want to first commend my New York colleagues, particularly NITA LOWEY, JOSÉ SERRANO and STEVE ISRAEL, all on the Appropriations Committee, for promoting Securing the Cities and the work that it has made possible in their State. Indeed, their tireless advocacy for New York's regional security has resulted in notable increases in grant allocations to regional governments and first responders.

New York State homeland security grants rose from $27 million in 2006 to $112 million in 2009. That is a four-fold increase. And New York's Urban Area Security Initiative grants grew from $124 million in 2006 to $145 million in 2009. It remains the largest recipient of urban area funds.

I couldn't agree more that Securing the Cities is a valuable pilot program demonstrating how State and local Governments could develop, with Federal agencies, an architecture to prevent a nuclear or radiological attack on New York. But I must emphasize that Securing the Cities is a 3-year pilot project, and this period is over. DHS requested no 2010 program because it is already positioned to accomplish its goals as a pilot program. So what we have here today is, in effect, an earmark for New York.

The next steps are to conclude the program, assess the results, and identify candidates of future pilots, if any, outside of New York. Funding remains available for New York to continue this program well into 2010. About 84 percent of the 2009 funding and 10 percent of the 2008 funding are presently unobligated. Award decisions for these funds are pending with one quarter left in the fiscal year. DHS knows of no unfunded requirements for this program. Remaining balances will enable New York to transition from a pilot to an ongoing regional operation. And that is what needs to happen.

Adding money to continue a completed pilot is not the answer. New York surely does not want to be dependent on year-to-year appropriations amendments to continue this vital protective function. This needs to move to a sustainment mode, run by New York and its partner communities. It needs to identify funding sources that can be used for this purpose, including these urban area security grants, of course, the Transit Security grants, and others. The New York area has received about $1.4 billion through these grants since 2003 and can expect about $298 million in new funding this year.

The amendment also earmarks $10 million for new radiation portal monitors. But here again, there is no identified requirement for additional funding. The ability to put this to use in 2010 is highly questionable.

The amendment's offsets, $5 million from the Office of the Secretary and Executive Management and $45 million from the Under Secretary For Management, are particularly troubling. We are already well below the request in these areas. We have trimmed salary increases. We rejected new investments in departmental facilities. Cutting more funds will result in a longer road to getting the Department of Homeland Security the American taxpayers deserve.

So I appreciate the intention of this amendment. I certainly appreciate the achievements of the Securing the Cities program. We know that this is a vital program and that these protective functions are important. But for that very reason, we need to get away from an earmark, and get away from a pilot program, and put this on the sustainment mode.

It is in that spirit and for that reason that I ask my colleagues to oppose this amendment.

I reserve the balance of my time.

The CHAIR. The Committee will rise informally.

The Speaker pro tempore (Ms. CLARKE) assumed the chair.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Williams, one of his secretaries.

The SPEAKER pro tempore. The Committee will resume its sitting.

DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2010

The Committee resumed its sitting.

Mr. KING of New York. Madam Chair, I recognize the gentlelady from New York, the cosponsor of the amendment, and a really zealous fighter on this issue, Ms. CLARKE, for 90 seconds.

Ms. CLARKE. Madam Chairman, I would like to thank Ranking Member KING for yielding. I want to urge Members of the House to support the King-Clarke amendment to the fiscal year 2010 Homeland Security Appropriations Act, H.R. 2892. Neither the President's budget request for fiscal year 2010 nor H.R. 2892 includes funding for the Securing the Cities Initiative. This initiative has created the department's Domestic Nuclear Detection Office, which is charged with directing the Nation's capability to detect and report unauthorized attempts to develop or transport nuclear or radiological materials.

This amendment restores the Federal commitment to this critical antiterrorism initiative and funds it.

Since coming to Congress in 2001, I have worked with my colleagues on homeland security to protect our Nation against dirty bomb threats. In fact, my bill, the Radiological Materials Security Act, would help secure domestic sources of radiological materials that could be used to make a dirty bomb.

We recognize that in the 21st century there are many very technical ways, many technologically advanced ways, in which communities across this Nation can sustain attack. And we are stating through this amendment today that this program has created a protocol that is a model for the Nation.

So I urge my colleagues as we continue to grow in the 21st century and protect our critical cities and infrastructure that we will redirect funds to this particular program and that you will vote this amendment in order.

Mr. PRICE of North Carolina. I will continue to reserve.

Mr. KING of New York. Madam Chair, I yield 90 seconds to the gentleman from California and the ranking member on the committee, Mr. LUNGREN, 90 seconds.

Mr. DANIEL E. LUNGREN of California. I thank the gentleman for yielding.

Madam Chair, some may wonder why someone from California would be here supporting an amendment that appears to be directed towards assisting the

other side of the country. It is because of the success of the program to this point. That is, this is not only for the City of New York, but it is for that entire region, and I believe it has shown how it can be replicated in other parts of the country. Also, the greatest concern I have of an attack by terrorists who wish to do us ill would be a nuclear attack of some sort in one of our major metropolitan areas.

The interdiction capabilities of this program could prevent a bomb from entering New York or from leaving the city to head to other parts of the region or Nation. And its lessons, I think, can help other cities around the country where similar initiatives could be implemented. And importantly, and this was used as a point of criticism I believe by the chairman, this amendment would provide $10 million for the procurement of radiation portal monitors, not just in the New York area, but from around the country. It seems to me that because of the success of this program, because of its opportunity for duplication and replication in other parts of the country, this is a worthy amendment.

I believe that these initiatives are designed to save lives. They are, in fact, not just regional but national in scope and deserve national support.

Radiation detection cannot be taken lightly. We must ensure that the federal commitment to a dedicated funding stream is there. So I would urge support of this amendment in restoring funding to the Securing Our Cities project, a critical national initiative and one of a kind.

Mr. KING of New York. Madam Chair how much time remains?

The CHAIR. The gentleman has 1 minute remaining.

Mr. KING of New York. Madam Chair, I yield myself the balance of my time.

Madam Chair, this initiative is extremely essential not just for New York but the entire Nation because it is very much expected that the next attack upon a major city will be launched from the suburbs, whether it is New York, Los Angeles, Chicago or wherever.

Now, on the issues raised by the chairman, I have great respect for the chairman. The fact is all of the 2008 funds have been designated. All of them, once all the materials come in, will be paid. Every penny has been designated.

Similarly for 2009, that money has been designated as well. There was a delay, not because of New York City, but because the department took so long in getting out the application. Once they were out, the city applied, and the money has been allocated and has been designated.

When the chairman mentioned the increase in New York funding since 2006, he picked 2006. That was the year that New York was cut by 40 percent. So that is really not a good barometer to be using. The fact is New York is the number one terrorist target in the country. New York remains the number one terrorist target in the country. My district lost well over 100 people on September 11. We dread the thought of another attack, certainly a nuclear attack.

This program works. I urge the adoption of the amendment.

Mr. PRICE of North Carolina. How much time is remaining, Madam Chairman?

The CHAIR. The gentleman has 90 seconds remaining.

Mr. PRICE of North Carolina. Madam Chairwoman, I will close and have no further speakers. But I do want, once again, to commend the gentleman for the spirit in which he offers this amendment and the zeal with which Members whom we all know and respect, like Mr. ISRAEL, Mr. SERRANO and Mrs. LOWEY, protect their cities and have defended this program.

We take a backseat to no one with respect to those efforts. We understand New York's unique needs and how successful this pilot program has been.

As a matter of fact, though, the money for carrying out the remaining aspects of this program is already in the pipeline. And these very arguments for the importance of this program are exactly why we need to take a more long-term approach and get away from a pilot program, get away from yearly amendments, yearly earmarks, and make this part of our permanent, long-term protective efforts. Of course, we will work with the New York delegation to find the resources that will let them do just that.

So I pledge my cooperation in that endeavor.

I hope the spirit of this opposition is well understood. We do want to work on this matter. We just believe that this amendment is not the right approach. And therefore we do ask for its defeat.

The CHAIR. The question is on the amendment offered by the gentleman from New York (Mr. KING).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. KING of New York. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from New York will be postponed.

PART B AMENDMENT NO. 1 OFFERED BY MR. BILIRAKIS

Mr. BILIRAKIS. Madam Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 1 offered by Mr. BILIRAKIS:

Page 2, line 9, after the dollar amount, insert ''(reduced by $1,700,000)''.

Page 15, line 20, after the dollar amount, insert ''(increased by $1,700,000)''.

Page 17, line 16, after the dollar amount, insert ''(increased by $1,700,000)''.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Florida (Mr. BILIRAKIS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Florida.

Mr. BILIRAKIS. Madam Chair, I yield myself as much time as I may consume.

I rise to offer this important amendment which will help increase our Nation's visa screening capabilities overseas to stop the entry into our country of terrorists, criminals, and others who may wish to do us harm.

As a member of the Homeland Security Committee and a ranking member of the Subcommittee on Management, Investigations and Oversight, I have come to understand the importance of being proactive in strengthening our homeland security. At the same time, I have also become concerned about the inadequacies in the screening process and background checks conducted on those seeking temporary admission to our country.

While many visa seekers simply want to come here to study or work and comply with the terms of their visas, some do not. And some, as we tragically saw on 9/11, want to enter our country to wage war against us.

□ 1715

That's why we need to strengthen the process by which temporary visitors are screened prior to their entry into the United States. Congress recognized this weakness and created the Visa Security Program, which places Immigration and Customs Enforcement personnel overseas at risk locations to more carefully screen and investigate visa applicants.

This important terrorist detection program allows ICE to proactively investigate and review visa applications to identify potential terrorists or criminal suspects before they gain entry into the United States. That is the key.

Unfortunately, the administration did not seek increased funding for this valuable program in its budget request. While I am pleased that the bill we are considering today ensures that a portion of the funding for this program will be reserved to open several new visa security units in high-risk locations, I think we should provide additional resources to accelerate ICE's plan for expanding to other critical locations, which is what my amendment does.

ICE currently operates 14 visa security units overseas. My amendment increases funding for the Visa Security Program by $1.7 million which will allow ICE to stand up an additional

visa security unit. ICE has identified additional locations for new units but has not yet opened its units in these areas, largely due to the resource constraints.

To offset this increase, my amendment would take a corresponding amount from the Office of the Secretary, which under this bill receives $147 million, a $24 million increase over fiscal year 2009, including $3 million for establishing a new intermodal security coordination office that largely will duplicate existing department efforts.

We must be mindful of the way we spend our scarce resources. When it comes to security, we must avoid creating more bureaucracy and ensure that we are allocating funds where the risk is greatest. This amendment will help do that and ensure that the department is operating as effectively and efficiently as possible.

My amendment will provide needed resources to keep terrorists out of the country while still allowing sufficient funding for establishing an office for which the need is questionable.

I urge all of my colleagues to help strengthen our Nation's homeland security by supporting this amendment.

Mr. ROGERS of Kentucky. Will the gentleman yield?

Mr. BILIRAKIS. I yield to the gentleman from Kentucky.

Mr. ROGERS of Kentucky. I want to salute the gentleman for a well-thought out and wise amendment. I will support the amendment, and I hope it wins.

Mr. BILIRAKIS. I reserve the balance of my time.

The CHAIR. Without objection, the gentleman from North Carolina is recognized for 5 minutes.

There was no objection.

Mr. PRICE of North Carolina. Madam Chairman, I rise also to thank the gentleman for this amendment, which would increase the budget for the ICE Visa Security Program by $1.7 million. This addition would be offset by corresponding reductions to the Office of Secretary and Executive Management, but not a devastating cut.

The committee has fully funded the $30.2 million request for the Visa Security Program, which is $3.4 million over the 2009 appropriations level already. This program places ICE agents and investigators overseas in embassies and consulates to assist State Department officials by investigating the criminal and terrorist backgrounds of those who apply for visas to come to the United States.

The committee also expanded the program by more than 45 percent in the 2009 Appropriations Act, and I recognize its ongoing importance for the security of our country. The additional funds proposed in this amendment will allow ICE to continue to accelerate its Visa Security Program deployments in 2010. In other words, it would build in a very positive way on the progress we were making. And with this in mind, I am happy to accept the gentleman's amendment.

I reserve the balance of my time.

Mr. BILIRAKIS. I yield myself the balance of my time to close.

I want to thank the chairman and the ranking member, and I urge my colleagues to help strengthen our Nation's homeland security by supporting this amendment.

I yield back the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Florida (Mr. BILIRAKIS).

The question was taken; and the Chair announced that the ayes appeared to have it.

Mr. BILIRAKIS. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Florida will be postponed.

The Clerk will read.

The Clerk read as follows:

OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT

For necessary expenses of the Office of the Under Secretary for Management, as authorized by sections 701 through 705 of the Homeland Security Act of 2002 (6 U.S.C. 341 through 345), $268,690,000, of which not less than $1,000,000 shall be for logistics training; and of which not to exceed $3,000 shall be for official reception and representation expenses: *Provided*, That of the total amount made available under this heading, $6,000,000 shall remain available until expended solely for the alteration and improvement of facilities, tenant improvements, and relocation costs to consolidate Department headquarters operations at the Nebraska Avenue Complex; and $17,131,000 shall remain available until expended for the Human Resources Information Technology program.

OFFICE OF THE CHIEF FINANCIAL OFFICER

For necessary expenses of the Office of the Chief Financial Officer, as authorized by section 103 of the Homeland Security Act of 2002 (6 U.S.C. 113), $63,530,000, of which $11,000,000 shall remain available until expended for financial systems consolidation efforts.

OFFICE OF THE CHIEF INFORMATION OFFICER

For necessary expenses of the Office of the Chief Information Officer, as authorized by section 103 of the Homeland Security Act of 2002 (6 U.S.C. 113), and Department-wide technology investments, $299,593,000; of which $86,912,000 shall be available for salaries and expenses; and of which $212,681,000, to remain available until expended, shall be available for development and acquisition of information technology equipment, software, services, and related activities for the Department of Homeland Security: *Provided*, That none of the funds appropriated shall be used to support or supplement the appropriations provided for the United States Visitor and Immigrant Status Indicator Technology project or the Automated Commercial Environment: *Provided further*, That the Chief Information Officer shall submit to the Committees on Appropriations of the Senate and the House of Representatives, not more than 60 days after the date of enactment of this Act, an expenditure plan for all information technology acquisition projects that: (1) are funded under this heading; or (2) are funded by multiple components of the Department of Homeland Security through reimbursable agreements: *Provided further*, That such expenditure plan shall include each specific project funded, key milestones, all funding sources for each project, details of annual and lifecycle costs, and projected cost savings or cost avoidance to be achieved by the project.

ANALYSIS AND OPERATIONS

For necessary expenses for intelligence analysis and operations coordination activities, as authorized by title II of the Homeland Security Act of 2002 (6 U.S.C. 121 et seq.), $345,556,000, of which not to exceed $5,000 shall be for official reception and representation expenses; and of which $199,677,000 shall remain available until September 30, 2011.

OFFICE OF THE FEDERAL COORDINATOR FOR GULF COAST REBUILDING

For necessary expenses of the Office of the Federal Coordinator for Gulf Coast Rebuilding, $2,000,000.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978 (5 U.S.C. App.), $111,874,000, of which not to exceed $150,000 may be used for certain confidential operational expenses, including the payment of informants, to be expended at the direction of the Inspector General.

TITLE II—SECURITY, ENFORCEMENT, AND INVESTIGATIONS

U.S. CUSTOMS AND BORDER PROTECTION

SALARIES AND EXPENSES

For necessary expenses for enforcement of laws relating to border security, immigration, customs, agricultural inspections and regulatory activities related to plant and animal imports, and transportation of unaccompanied minor aliens; purchase and lease of up to 4,500 (4,000 for replacement only) police-type vehicles; and contracting with individuals for personal services abroad; $7,576,897,000, of which $3,226,000 shall be derived from the Harbor Maintenance Trust Fund for administrative expenses related to the collection of the Harbor Maintenance Fee pursuant to section 9505(c)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 9505(c)(3)) and notwithstanding section 1511(e)(1) of the Homeland Security Act of 2002 (6 U.S.C. 551(e)(1)); of which not to exceed $45,000 shall be for official reception and representation expenses; of which not less than $309,629,000 shall be for Air and Marine Operations; of which such sums as become available in the Customs User Fee Account, except sums subject to section 13031(f)(3) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(f)(3)), shall be derived from that account; of which not to exceed $1,000,000 shall be for awards of compensation to informants, to be accounted for solely under the certificate of the Secretary of Homeland Security; and of which not more than $800,000 shall be for procurement of portable solar charging rechargeable battery systems, to be awarded under full and open competition: *Provided*, That for fiscal year 2010, the overtime limitation prescribed in section 5(c)(1) of the Act of February 13, 1911 (19 U.S.C. 267(c)(1)) shall be $35,000; and notwithstanding any other provision of law, none of the funds appropriated by this Act may be available to compensate any employee of U.S. Customs and Border Protection for overtime, from whatever source, in

an amount that exceeds such limitation, except in individual cases determined by the Secretary of Homeland Security, or the designee of the Secretary, to be necessary for national security purposes, to prevent excessive costs, or in cases of immigration emergencies.

PART B AMENDMENT NO. 3 OFFERED BY MR. KING OF IOWA

Mr. KING of Iowa. Madam Chairman, I have an amendment at the desk made in order by the rule.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B Amendment No. 3 offered by Mr. KING of Iowa:

Page 5, line 20, after the first dollar amount, insert ''(reduced by $1,000,000) (increased by $1,000,000)''.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Iowa (Mr. KING) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Iowa.

Mr. KING of Iowa. Madam Chair, I yield myself 2 minutes.

This is an amendment that takes a million dollars out and puts a million dollars in, and it comes from time I spent on the border and time I worked with our Border Patrol officers, our law enforcement officers on the border over the last several years. I have been down to the border, traveled along primarily the Arizona border, and had our law enforcement officers point to the pinnacles and say, There are drug lookouts, drug smuggling lookouts and people smuggling lookouts up on top of the promontories. These are the equivalent of military positions.

I have actually personally walked a map around and had them put X's on the map to show me where these lookouts are, and over time, I developed this map that I have handed to the Secretary of Homeland Security. The locations are not disputed. This is a cat-and-mouse game that is going on between our law enforcement personnel all along the border, between ICE, the Shadow Wolves, and our Border Patrol personnel.

I had a conversation with John Morton, who is the new director of ICE. He recognizes this concern. I am encouraged that this administration has taken notice of the lookouts that control the smuggling routes and tip them off when our law enforcement personnel converge in.

Sometimes they will run a decoy, and this cat-and-mouse game has got to end. No nation can maintain its sovereignty if we are going to allow military positions, lookout positions to exist. So this million dollars is at the encouragement of ICE's people as well. A million dollars will be directed at taking out these lookout sites and removing this as a tool from our drug smugglers and our people smugglers on the border.

I think it is something that is a bipartisan piece of legislation and it ends the cat-and-mouse game. By the way, their request was Congress should have a voice on this when I had that conversation with ICE. And so I encourage support for this amendment.

Mr. ROGERS of Kentucky. Would the gentleman yield?

Mr. KING of Iowa. I would be happy to yield to the ranking member.

Mr. ROGERS of Kentucky. The gentleman has worked hard on this issue and has brought forth some information that is very helpful to us, and I support the amendment he has offered and salute him for offering it.

Mr. KING of Iowa. I thank the gentleman, and I reserve my time.

Mr. PRICE of North Carolina. Madam Chairman, I rise in opposition to the amendment.

The CHAIR. The gentleman from North Carolina is recognized for 5 minutes.

Mr. PRICE of North Carolina. The amendment simply increases and decreases funding for CBP salaries and expenses by $1 million with no statutory direction.

Now, my colleague would have us understand this amendment would somehow provide funding for a targeted border enforcement effort. I must respectfully disagree. In fact, it will do nothing of the kind.

The procedure used in this amendment is meaningless, having no effect, and establishing no legislative mandate. With no statutory significance, it also will have no impact whatsoever on the conference outcome with the Senate. It neither identifies the activity being defunded nor the one being augmented.

On that basis alone, and to discourage the use of this kind of parliamentary tactic to stretch out the time for general debate, I urge colleagues to defeat this amendment.

I reserve the balance of my time.

Mr. KING of Iowa. I yield myself 1½ minutes.

I would respectfully disagree with the gentleman. As I read my amendment, I think the dialogue I heard was it increases and then decreases funding. Actually, this amendment decreases and then increases funding. I don't know if that changes the gentleman's analysis of what the amendment actually does. I don't add to this funding. I simply decrease it and then add it back in.

I would have been happy to work with some language that would have perhaps been made in order, but in order for this Congress to have a voice on these lookouts—and this is drug smugglers that hold military positions, the equivalent of military positions that have stones stacked up like sandbags and people in there with semiautomatic weapons and have their supplies brought up to them by patrols that make sure that they have food and water and sometimes other things. They come and go as they see fit. We let them sit on top of these mountains and smuggle into the United States 90 percent of the illegal drugs that are consumed in the United States of America. And accompanying that are all of the violence, the death, the things that are associated with illegal drugs.

This amendment is clearly in order, and how this Congress speaks to this amendment is how ICE and the balance of the law enforcement personnel on the border will react.

I'm asking that we simply join our voices together and ask for enforcement so we don't concede these locations to the people who are smuggling 90 percent of the illegal drugs into America.

Mr. ROGERS of Kentucky. Would the gentleman yield?

Mr. KING of Iowa. I would be very happy to yield.

Mr. ROGERS of Kentucky. Are these lookout posts on U.S. soil?

Mr. KING of Iowa. On U.S. soil.

I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I yield back the balance of my time.

Mr. KING of Iowa. Madam Chair, I yield myself the balance of my time in order to close.

As the ranking member from Kentucky said, this is something that I have done a lot of work on, and I am not the only Member of Congress who has gone to these lookouts. I have gone there and walked across the desert with our Shadow Wolves, for example, and had them point up and say, On that mountain, they have a position and they have state-of-the-art optical equipment, state-of-the-art radio equipment. They are watching every move that our Border Patrol, ICE, Customs and Border Protection, and Shadow Wolves are making on that southern border.

Whenever we deploy manpower, if we set up our ground-base radar that picks up humans, personnel walking across the desert, they know where our locations are. They shift their traffic accordingly. I have watched them run the decoy. I have been part of picking up 230 or 240 pounds of marijuana in one load that probably helped 2,000-some pounds go through another load.

We simply cannot tolerate in the United States of America, at least as much as 70 miles inside the United States—and I will be going down next week to look at some of these locations that are actually north of Tucson on the road to Phoenix. This is the United States of America, our sovereign territory, and playing cat and mouse with people there with semiautomatic weapons, supplies, smuggling drugs through the United States has got to stop. And this Congress should join together and,

with this amendment, ask them to do so to stop that activity and defend our soil and put an end to this. It would be a very good help to dramatically reduce the amount of illegal drug smuggling into the United States.

I urge adoption of the amendment.

The CHAIR. The question is on the amendment offered by the gentleman from Iowa (Mr. KING).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. KING of Iowa. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Iowa will be postponed.

The Clerk will read.

The Clerk read as follows:

AUTOMATION MODERNIZATION

For expenses for U.S. Customs and Border Protection automated systems, $462,445,000, to remain available until expended, of which not less than $267,960,000 shall be for the development of the Automated Commercial Environment: *Provided*, That of the total amount made available under this heading, $167,960,000 may not be obligated for the Automated Commercial Environment program until 30 days after the Committees on Appropriations of the Senate and the House of Representatives receive a report on the results to date and plans for the program from the Department of Homeland Security.

BORDER SECURITY FENCING, INFRASTRUCTURE, AND TECHNOLOGY

For expenses for border security fencing, infrastructure, and technology, $732,000,000, to remain available until expended: *Provided*, That of the total amount made available under this heading, $150,000,000 shall not be obligated until the Committees on Appropriations of the Senate and the House of Representatives receive and approve a plan for expenditure, prepared by the Secretary of Homeland Security, reviewed by the Government Accountability Office, and submitted not later than 90 days after the date of the enactment of this Act, for a program to establish and maintain a security barrier along the borders of the United States, of fencing and vehicle barriers where practicable, and of other forms of tactical infrastructure and technology, that includes—

(1) a detailed accounting of the program's implementation to date for all investments, including technology and tactical infrastructure, for funding already expended relative to system capabilities or services, system performance levels, mission benefits and outcomes, milestones, cost targets, program management capabilities, identification of the maximum investment, including lifecycle costs, related to the Secure Border Initiative program or any successor program, and description of the methodology used to obtain these cost figures;

(2) a description of how specific projects will further the objectives of the Secure Border Initiative, as defined in the Department of Homeland Security Secure Border Plan, and how the expenditure plan allocates funding to the highest priority border security needs;

(3) an explicit plan of action defining how all funds are to be obligated to meet future program commitments, with the planned expenditure of funds linked to the milestone-based delivery of specific capabilities, services, performance levels, mission benefits and outcomes, and program management capabilities;

(4) an identification of staffing, including full-time equivalents, contractors, and detailees, by program office;

(5) a description of how the plan addresses security needs at the Northern border and ports of entry, including infrastructure, technology, design and operations requirements, specific locations where funding would be used, and priorities for Northern border activities;

(6) a report on budget, obligations and expenditures, the activities completed, and the progress made by the program in terms of obtaining operational control of the entire border of the United States;

(7) a listing of all open Government Accountability Office and Office of Inspector General recommendations related to the program and the status of Department of Homeland Security actions to address the recommendations, including milestones to fully address such recommendations;

(8) a certification by the Chief Procurement Officer of the Department including all supporting documents or memoranda, and documentation and a description of the investment review processes used to obtain such certifications, that—

(A) the program has been reviewed and approved in accordance with the investment management process of the Department, and that the process fulfills all capital planning and investment control requirements and reviews established by the Office of Management and Budget, including as provided in Circular A–11, part 7;

(B) the plans for the program comply with the Federal acquisition rules, requirements, guidelines, and practices, and a description of the actions being taken to address areas of non-compliance, the risks associated with such actions, together with any plans for addressing these risks, and the status of the implementation of such actions; and

(C) procedures to prevent conflicts of interest between the prime integrator and major subcontractors are established and that the Secure Border Initiative Program Office has adequate staff and resources to effectively manage the Secure Border Initiative program and all contracts under such program, including the exercise of technical oversight;

(9) a certification by the Chief Information Officer of the Department including all supporting documents or memoranda, and documentation and a description of the investment review processes used to obtain such certifications that—

(A) the system architecture of the program has been determined to be sufficiently aligned with the information systems enterprise architecture of the Department to minimize future rework, including a description of all aspects of the architectures that were or were not assessed in making the alignment determination, the date of the alignment determination, and any known areas of misalignment together with the associated risks and corrective actions to address any such areas;

(B) the program has a risk management process that regularly and proactively identifies, evaluates, mitigates, and monitors risks throughout the system life cycle and communicates high-risk conditions to U.S. Customs and Border Protection and Department of Homeland Security investment decision-makers, as well as a listing of all the program's high risks and the status of efforts to address such risks; and

(C) an independent verification and validation agent is currently under contract for the projects funded under this heading;

(10) a certification by the Chief Human Capital Officer of the Department that the human capital needs of the Secure Border Initiative program are being addressed so as to ensure adequate staff and resources to effectively manage the Secure Border Initiative; and

(11) an analysis by the Secretary for each segment, defined as not more than 15 miles, of fencing or tactical infrastructure, of the selected approach compared to other, alternative means of achieving operational control, including cost, level of operational control, possible unintended effects on communities, and other factors critical to the decisionmaking process:

Provided further, That the Secretary shall report to the Committees on Appropriations of the Senate and the House of Representatives on program progress, and obligations and expenditures for all outstanding task orders as well as specific objectives to be achieved through the award of current and remaining task orders planned for the balance of available appropriations at least 15 days before the award of any task order requiring an obligation of funds in an amount greater than $25,000,000 and before the award of a task order that would cause cumulative obligations of funds to exceed 50 percent of the total amount appropriated: *Provided further*, That none of the funds made available under this heading may be obligated unless the Department has complied with section 102(b)(1)(C)(i) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1103 note), and the Secretary certifies such to the Committees on Appropriations of the Senate and the House of Representatives: *Provided further*, That none of the funds made available under this heading may be obligated for any project or activity for which the Secretary has exercised waiver authority pursuant to section 102(c) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1103 note) until 15 days have elapsed from the date of the publication of the decision in the Federal Register.

AIR AND MARINE INTERDICTION, OPERATIONS, MAINTENANCE, AND PROCUREMENT

For necessary expenses for the operations, maintenance, and procurement of marine vessels, aircraft, unmanned aircraft systems, and other related equipment of the air and marine program, including operational training and mission-related travel, and rental payments for facilities occupied by the air or marine interdiction and demand reduction programs, the operations of which include the following: the interdiction of narcotics and other goods; the provision of support to Federal, State, and local agencies in the enforcement or administration of laws enforced by the Department of Homeland Security; and at the discretion of the Secretary of Homeland Security, the provision of assistance to Federal, State, and local agencies in other law enforcement and emergency humanitarian efforts, $513,826,000, to remain available until expended: *Provided*, That no aircraft or other related equipment, with the exception of aircraft that are one of a kind and have been identified as excess to U.S. Customs and Border Protection requirements and aircraft that have been damaged beyond repair, shall be transferred to any other Federal agency, department, or office outside of the Department of Homeland Security during fiscal year 2010 without the

prior approval of the Committees on Appropriations of the Senate and the House of Representatives.

FACILITIES MANAGEMENT

For necessary expenses to plan, construct, renovate, equip, and maintain buildings and facilities necessary for the administration and enforcement of the laws relating to customs and immigration, $682,133,000, of which not to exceed $150,000 shall be available for payment for rental space in connection with preclearance operations; and of which $279,870,000 shall remain available until expended; of which not more than $3,500,000 shall be for acquisition, design, and construction of U.S. Customs and Border Protection Air and Marine facilities at El Paso International Airport, Texas.

U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT

SALARIES AND EXPENSES

For necessary expenses for enforcement of immigration and customs laws, detention and removals, and investigations; and purchase and lease of up to 3,790 (2,350 for replacement only) police-type vehicles; $5,311,493,000, of which not to exceed $7,500,000 shall be available until expended for conducting special operations under section 3131 of the Customs Enforcement Act of 1986 (19 U.S.C. 2081); of which not to exceed $15,000 shall be for official reception and representation expenses; of which not to exceed $1,000,000 shall be for awards of compensation to informants, to be accounted for solely under the certificate of the Secretary of Homeland Security; of which not less than $305,000 shall be for promotion of public awareness of the child pornography tipline and anti-child exploitation activities; of which not less than $5,400,000 shall be used to facilitate agreements consistent with section 287(g) of the Immigration and Nationality Act (8 U.S.C. 1357(g)); and of which not to exceed $11,216,000 shall be available to fund or reimburse other Federal agencies for the costs associated with the care, maintenance, and repatriation of smuggled aliens unlawfully present in the United States: *Provided*, That none of the funds made available under this heading shall be available to compensate any employee for overtime in an annual amount in excess of $35,000, except that the Secretary, or the designee of the Secretary, may waive that amount as necessary for national security purposes and in cases of immigration emergencies: *Provided further*, That of the total amount provided, $15,770,000 shall be for activities in fiscal year 2010 to enforce laws against forced child labor, of which not to exceed $6,000,000 shall remain available until expended: *Provided further*, That of the total amount available, not less than $1,500,000,000 shall be available to identify aliens convicted of a crime who may be deportable, and to remove them from the United States once they are judged deportable, of which $200,000,000 shall remain available until September 30, 2011: *Provided further*, That the Secretary, or the designee of the Secretary, shall report to the Committees on Appropriations of the Senate and the House of Representatives, not later than 30 days after the end of each fiscal quarter, on progress implementing the preceding proviso and the funds obligated during that quarter to make that progress: *Provided further*, That the Secretary shall prioritize the identification and removal of aliens convicted of a crime by the severity of that crime: *Provided further*, That of the total amount provided, not less than $2,549,180,000 shall be for detention and removal operations, including transportation of unaccompanied minor aliens: *Provided further*, That of the total amount provided, $6,800,000 shall remain available until September 30, 2011, for the Visa Security Program: *Provided further*, That none of the funds provided under this heading may be used to continue a delegation of law enforcement authority authorized under section 287(g) of the Immigration and Nationality Act (8 U.S.C. 1357(g)) if the Department of Homeland Security Inspector General determines that the terms of the agreement governing the delegation of authority have been violated: *Provided further*, That none of the funds provided under this heading may be used to continue any contract for the provision of detention services if the two most recent overall performance evaluations received by the contracted facility are less than ''adequate'' or the equivalent median score in any subsequent performance evaluation system: *Provided further*, That nothing under this heading shall prevent U.S. Immigation and Customs Enforcement from exercising those authorities provided under immigration laws (as defined in section 101(a)(17) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(17))) during priority operations pertaining to aliens convicted of a crime: *Provided further*, That none of the funds provided under this heading may be obligated to co-locate field offices of U.S. Immigration and Customs Enforcement until the Secretary of Homeland Security submits to the Committees on Appropriations of the Senate and the House of Representatives a plan for the nationwide implementation of the Alternatives to Detention Program that identifies: (1) the funds required for nationwide program implementation, (2) the timeframe for achieving nationwide program implementation; and (3) an estimate of the number of individuals who could be enrolled in a nationwide program.

FEDERAL PROTECTIVE SERVICE

The revenues and collections of security fees credited to this account shall be available until expended for necessary expenses related to the protection of Federally-owned and leased buildings and for the operations of the Federal Protective Service: *Provided*, That the Secretary of Homeland Security and the Director of the Office of Management and Budget shall certify in writing to the Committees on Appropriations of the Senate and the House of Representatives no later than December 31, 2009, that the operations of the Federal Protective Service will be fully funded in fiscal year 2010 through revenues and collection of security fees, and shall adjust the fees to ensure fee collections are sufficient to ensure that the Federal Protective Service maintains not fewer than 1,200 full-time equivalent staff and 900 full-time equivalent Police Officers, Inspectors, Area Commanders, and Special Agents who, while working, are directly is engaged on a daily basis protecting and enforcing laws at Federal buildings (referred to as ''in-service field staff''): *Provided further*, That none of the funds made available in this Act may be used to modify or restructure the bureaucratic organization of the Federal Protective Service as part of U.S. Immigration and Customs Enforcement.

AUTOMATION MODERNIZATION

For expenses of immigration and customs enforcement automated systems, $105,000,000, to remain available until expended.

CONSTRUCTION

For necessary expenses to plan, construct, renovate, equip, and maintain buildings and facilities necessary for the administration and enforcement of the laws relating to customs and immigration, $11,818,000, to remain available until expended: *Provided*, That none of the funds made available in this Act may be used to solicit or consider any request to privatize facilities currently owned by the United States Government and used to detain aliens unlawfully present in the United States until the Committees on Appropriations of the Senate and the House of Representatives receive a plan for carrying out that privatization.

TRANSPORTATION SECURITY ADMINISTRATION

AVIATION SECURITY

For necessary expenses of the Transportation Security Administration related to providing civil aviation security services pursuant to the Aviation and Transportation Security Act (Public Law 107–71; 115 Stat. 597; 49 U.S.C. 40101 note), $5,265,740,000, to remain available until September 30, 2011, of which not to exceed $10,000 shall be for official reception and representation expenses: *Provided*, That of the total amount made available under this heading, not to exceed $4,409,776,000 shall be for screening operations, of which $1,138,106,000 shall be available for explosives detection systems; and not to exceed $855,964,000 shall be for aviation security direction and enforcement: *Provided further*, That of the amount made available in the preceding proviso for explosives detection systems, $800,000,000 shall be available for the purchase and installation of these systems: *Provided further*, That of the total amount provided, $1,250,000 shall be made available for Safe Skies Alliance to develop and enhance research and training capabilities for Transportation Security Officer improvised explosive recognition training: *Provided further*, That security service fees authorized under section 44940 of title 49, United States Code, shall be credited to this appropriation as offsetting collections and shall be available only for aviation security: *Provided further*, That any funds collected and made available from aviation security fees pursuant to section 44940(i) of title 49, United States Code, may, notwithstanding paragraph (4) of such section 44940(i), be expended for the purpose of improving screening at airport screening checkpoints, which may include the purchase and utilization of emerging technology equipment; the refurbishment and replacement of current equipment; the installation of surveillance systems to monitor checkpoint activities; the modification of checkpoint infrastructure to support checkpoint reconfigurations; and the creation of additional checkpoints to screen aviation passengers and airport personnel: *Provided further*, That the sum appropriated under this heading from the general fund shall be reduced on a dollar-for-dollar basis as such offsetting collections are received during fiscal year 2010, so as to result in a final fiscal year appropriation from the general fund estimated at not more than $3,165,740,000: *Provided further*, That any security service fees collected in excess of the amount made available under this heading shall become available during fiscal year 2011: *Provided further*, That Members of the House of Representatives and Senate, including the leadership; the heads of Federal agencies and commissions, including the Secretary, Under Secretaries, and Assistant Secretaries of Homeland Security; the Attorney General and Assistant Attorneys General and the United States attorneys; and senior members of the Executive Office of the President, including the Director of the Office of Management and Budget; shall not be exempt from Federal passenger and baggage screening.

SURFACE TRANSPORTATION SECURITY

For necessary expenses of the Transportation Security Administration related to providing surface transportation security activities, $103,416,000, to remain available until September 30, 2011.

TRANSPORTATION THREAT ASSESSMENT AND CREDENTIALING

For necessary expenses for the development and implementation of screening programs of the Office of Transportation Threat Assessment and Credentialing, $171,999,000, to remain available until September 30, 2011: *Provided*, That if the Assistant Secretary of Homeland Security (Transportation Security Administration) determines that the Secure Flight program does not need to check airline passenger names against the full terrorist watch list, the Assistant Secretary shall certify to the Committees on Appropriations of the Senate and the House of Representatives that no significant security risks are raised by screening airline passenger names only against a subset of the full terrorist watch list.

TRANSPORTATION SECURITY SUPPORT

For necessary expenses of the Transportation Security Administration related to providing transportation security support and intelligence pursuant to the Aviation and Transportation Security Act (Public Law 107–71; 115 Stat. 597; 49 U.S.C. 40101 note), $992,980,000, to remain available until September 30, 2011: *Provided*, That not to exceed $5,000,000 may be obligated for headquarters administration until the Secretary of Homeland Security submits to the Committees on Appropriations of the Senate and the House of Representatives detailed expenditure plans for checkpoint support and explosives detection systems refurbishment, procurement, and installations on an airport-by-airport basis for fiscal year 2010: *Provided further*, That these plans shall be submitted no later than 60 days after the date of enactment of this Act.

FEDERAL AIR MARSHALS

For necessary expenses of the Federal Air Marshals, $860,111,000.

□ 1730

PART B AMENDMENT NO. 2 OFFERED BY MR. DUNCAN

Mr. DUNCAN. Madam Chairman, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 2 offered by Mr. DUNCAN:

Page 24, line 9, strike the dollar amount and insert ''$819,481,000''.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Tennessee (Mr. DUNCAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Tennessee.

Mr. DUNCAN. Madam Chairman, former Congressman Sonny Callahan, a very respected former subcommittee chairman on the Appropriations Committee, told me that we had done all we needed to do on airplane security when we secured the cockpit doors. Whether you agree with him or not, that one very inexpensive action took away the ability to hijack and use airplanes the way they were used on 9/11.

Now we are about to appropriate $860 million for the Federal Air Marshal Service, and I believe this money could be much better spent in any one of hundreds of other ways. However, my amendment does not eliminate this agency, even though I do believe it is a needless, useless agency. And my amendment does not even cut its funding. All it does is freeze this agency at its current level of funding, $819 million.

Air marshals arrest an average of a little over four people each year. Even after my amendment, they would still be getting about $200 million per arrest. There must not be a softer, easier, more cushy job in the entire Federal Government than just to ride airplanes back and forth, back and forth, back and forth, many of them in first class. I would rather give this money to local law enforcement people who are fighting real crime, the street crime that people want fought.

Families all over this country are having to tighten their belts, and many millions are having to reduce spending. It would seem to me that the least we can do is stop giving big increases to agencies like this that really are doing almost no good at all. Actually, more air marshals have been arrested since 9/11 than there have been arrests by air marshals. This is an agency that has gone from just 33 before 9/11 to over 4,000 today.

Now, what TSA is doing at the airports, what all the other Federal, State and local law enforcement agencies are doing, what private companies are doing on security and all the many other things that are done on this bill on aviation security are more than enough. We need to realize that we cannot make everyone totally safe even if we spent the entire Federal budget on security.

I chaired the Aviation Subcommittee for 6 years and have always been a strong supporter of law enforcement and aviation security, but as one high-ranking former TSA official told me 2 days ago, this air marshal agency is simply ''gilding the lily.''

The Wall Street Journal said in an editorial a few months after 9/11: ''We would like to suggest a new post-September 11 rule for Congress: Any bill with the word ''security'' should get double the public scrutiny and maybe four times the normal weight, lest all kinds of bad legislation become law under the phony guise of fighting terrorism.'' That was from The Wall Street Journal when they noticed that almost every Department agency was requesting additional funds and using the word ''security'' to justify it, even unnecessary appropriations.

Everyone on both sides of the aisle, Madam Chairman, likes to call themselves fiscally conservative. Well, even if my amendment were to pass, this agency would be getting an almost 60 percent increase since 2003, more than double the rate of inflation since that time.

This amendment is bare bones fiscal conservatism, very minimal fiscal conservatism. And I might add that I have never had a run-in with an air marshal. In fact, I don't even believe that I know an air marshal, so this is nothing personal. But USA Today a few months ago had an article about this agency and all the troubles and problems they're having, and I can tell you that I think this agency at least should not keep getting huge increases in funding.

Madam Chairman, I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I rise in opposition to the amendment.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. PRICE of North Carolina. Madam Chairman, I rise in opposition to the amendment with great respect for the gentleman from Tennessee who, after all, has labored in this body for many years in the areas of transportation and transportation security. I take what he believes very, very seriously. And I know that he offers this amendment in all earnestness.

I want to say more in a minute about what our committee has done to make certain some of the elements that he is looking for are indeed addressed; namely, by requiring a long-term assessment of the air marshal staffing needs. This is not something we should go on funding indefinitely without assessment or analysis; and we intend for that to occur. But I do not believe this amendment to simply flat-fund the Federal air marshals is the best approach.

The exact number of Federal air marshals is security-sensitive, but a reduction of $40.6 million, which the gentleman proposes, would result in a significant number of air marshals being let go, and TSA would have to put in place a hiring freeze for all of fiscal 2010. As a result, we would have fewer high-risk international and domestic flights covered. In fact, flight coverage would be below what it was in 2009.

With this funding reduction, it is possible that air marshals may not be on all flights during some high-consequence events, such as the 2010 Olympics or national special security events. Now, I'm sure that TSA would make every effort not to reduce coverage for such events, but we would need to worry about resources being spread thinly under the gentleman's amendment.

The funding reduction would limit the air marshals' ability to rapidly respond to unanticipated events as they did in the past, such as the U.K. liquid explosives threat, evacuation of U.S. citizens from Lebanon, or in response to hurricanes like Ike and Katrina. In addition, funding restrictions would affect air marshals' ability to support

TSA's VIPR teams. These are teams that conduct unannounced, high-visibility exercises in mass transit and passenger rail facilities and are designed to disrupt possible threats determined by reports from our intelligence community. So these air marshals do perform vital functions, and we need to know what we're doing if we cut back personnel levels.

Having said that, I do want to call the attention of colleagues to our report, page 74 to be explicit, where we discuss the long-term prospects for this air marshals program. We go into some detail about these additional security measures that the gentleman outlined which, indeed, may change the picture in the longer term. We don't know. We want DHS to reassess what is the appropriate long-term staffing level for the Federal air marshals in light of its new risk assessment model that better targets staff deployments.

So we have ordered up this study. Until we receive it, we believe it is premature to reduce funding for air marshals without the kind of sound analysis that would demonstrate what threats might be addressed or what might not be addressed if there is a diminished effort by the air marshal program.

So, again, with appreciation for the gentleman's history on this issue, I do respectfully urge a ''no'' vote on the amendment. But I do pledge to Members that we are going to undertake an assessment of this program for the long-term. And this time next year we will expect to have a much better analysis of what the long-term prospects should be.

With that, Madam Chairman, I reserve the balance of my time.

Mr. DUNCAN. Madam Chairman, I will close by saying that, first of all, I appreciate the kind comments by the chairman of the subcommittee for whom I have the greatest and deepest respect.

I served on the conference committee that created the TSA. I do believe that aviation security is very important, and I do believe that this bill does many good things in that respect. But I also know that the Air Marshal Service has a horrendous record so far. And as I said earlier, when you think of the very few arrests that they've made, it comes out to an average of a little over four a year, or about $200 million per arrest. I can't think, really, of any Department or agency in the Federal Government that does less good with more money than this agency. And yet, in spite of that, I am not trying to eliminate the agency; I am not trying to cut its funding. All I've done by this amendment is advocate a freeze that would save a little over $40 million. And if we can't do that, then really we can't do anything that is truly fiscally conservative in this Congress. I think when we recently raised our national debt limit to over $13 trillion, I think we at least need to start taking a few baby steps like this. So I urge my colleagues to support my amendment.

I yield back the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Tennessee (Mr. DUNCAN).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. DUNCAN. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Tennessee will be postponed.

The Clerk will read.

The Clerk read as follows:

COAST GUARD

OPERATING EXPENSES

For necessary expenses for the operation and maintenance of the Coast Guard, not otherwise provided for; purchase or lease of not to exceed 25 passenger motor vehicles, which shall be for replacement only; purchase or lease of small boats for contingent and emergent requirements (at a unit cost of no more than $700,000) and for repairs and service-life replacements for small boats for such requirements, not to exceed a total of $26,000,000; minor shore construction projects not exceeding $1,000,000 in total cost at any location; payments pursuant to section 156 of Public Law 97–377 (42 U.S.C. 402 note; 96 Stat. 1920); and recreation and welfare; $6,822,026,000, of which $340,000,000 shall be for defense-related activities; of which $241,503,000 is designated as being for overseas deployments and other activities pursuant to section 423(a)(1) of S. Con. Res. 13 (111/th/ Congress), the concurrent resolution on the budget for fiscal year 2010; of which $24,500,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)); of which not to exceed $20,000 shall be for official reception and representation expenses: *Provided*, That none of the funds made available by this or any other Act shall be available for administrative expenses in connection with shipping commissioners in the United States: *Provided further*, That none of the funds made available by this Act shall be for expenses incurred for recreational vessels under section 12114 of title 46, United States Code, except to the extent fees are collected from yacht owners and credited to this appropriation: *Provided further*, That the Coast Guard shall comply with the requirements of section 527 of Public Law 108–136 with respect to the Coast Guard Academy.

ENVIRONMENTAL COMPLIANCE AND RESTORATION

For necessary expenses to carry out the environmental compliance and restoration functions of the Coast Guard under chapter 19 of title 14, United States Code, $13,198,000, to remain available until expended.

RESERVE TRAINING

For necessary expenses of the Coast Guard Reserve, as authorized by law; operations and maintenance of the reserve program; personnel and training costs; and equipment and services; $133,632,000.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of acquisition, construction, renovation, and improvement of aids to navigation, shore facilities, vessels, and aircraft, including equipment related thereto; and maintenance, rehabilitation, lease and operation of facilities and equipment, as authorized by law; $1,347,480,000, of which $20,000,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)); of which $103,000,000 shall be available until September 30, 2014, to acquire, repair, renovate, or improve vessels, small boats, and related equipment; of which $119,500,000 shall be available until September 30, 2012, for other equipment; of which $10,000,000 shall be available until September 30, 2012, for shore facilities and aids to navigation facilities; of which $100,000,000 shall be available for personnel compensation and benefits and related costs; and of which $1,014,980,000 shall be available until September 30, 2014, for the Integrated Deepwater Systems program: *Provided*, That of the funds made available for the Integrated Deepwater Systems program, $269,000,000 is for aircraft and $591,380,000 is for surface ships: *Provided further*, That the Secretary of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives, in conjunction with the President's fiscal year 2011 budget, a review of the Revised Deepwater Implementation Plan that identifies any changes to the plan for the fiscal year; an annual performance comparison of Integrated Deepwater Systems program assets to pre-Deepwater legacy assets; a status report of such legacy assets; a detailed explanation of how the costs of such legacy assets are being accounted for within the Integrated Deepwater Systems program; and the earned value management system gold card data for each Integrated Deepwater Systems program asset: *Provided further*, That the Secretary shall submit to the Committees on Appropriations of the Senate and the House of Representatives a comprehensive review of the Revised Deepwater Implementation Plan every 5 years, beginning in fiscal year 2011, that includes a complete projection of the acquisition costs and schedule for the duration of the plan through fiscal year 2027: *Provided further*, That the Secretary shall annually submit to the Committees on Appropriations of the Senate and the House of Representatives, at the time that the President's budget is submitted under section 1105(a) of title 31, United States Code, a future-years capital investment plan for the Coast Guard that identifies for each capital budget line item—

(1) the proposed appropriation included in that budget;

(2) the total estimated cost of completion;

(3) projected funding levels for each fiscal year for the next 5 fiscal years or until project completion, whichever is earlier;

(4) an estimated completion date at the projected funding levels; and

(5) changes, if any, in the total estimated cost of completion or estimated completion date from previous future-years capital investment plans submitted to the Committees on Appropriations of the Senate and the House of Representatives:

Provided further, That the Secretary shall ensure that amounts specified in the future-years capital investment plan are consistent to the maximum extent practicable with proposed appropriations necessary to support the programs, projects, and activities of the

Coast Guard in the President's budget as submitted under section 1105(a) of title 31, United States Code, for that fiscal year: *Provided further*, That any inconsistencies between the capital investment plan and proposed appropriations shall be identified and justified: *Provided further*, That subsections (a) and (b) of section 6402 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Public Law 110–28) shall apply to fiscal year 2010.

ALTERATION OF BRIDGES

For necessary expenses for alteration or removal of obstructive bridges, as authorized by section 6 of the Truman-Hobbs Act (33 U.S.C. 516), $10,000,000, to remain available until expended.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

For necessary expenses for applied scientific research, development, test, and evaluation; and for maintenance, rehabilitation, lease, and operation of facilities and equipment; as authorized by law; $19,745,000, to remain available until expended, of which $500,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)): *Provided*, That there may be credited to and used for the purposes of this appropriation funds received from State and local governments, other public authorities, private sources, and foreign countries for expenses incurred for research, development, testing, and evaluation.

RETIRED PAY

For retired pay, including the payment of obligations otherwise chargeable to lapsed appropriations for this purpose, payments under the Retired Serviceman's Family Protection and Survivor Benefits Plans, payment for career status bonuses, concurrent receipts and combat-related special compensation under the National Defense Authorization Act, and payments for medical care of retired personnel and their dependents under chapter 55 of title 10, United States Code, $1,361,245,000, to remain available until expended.

UNITED STATES SECRET SERVICE

SALARIES AND EXPENSES

For necessary expenses of the United States Secret Service, including: purchase of not to exceed 652 vehicles for police-type use for replacement only; hire of passenger motor vehicles; purchase of motorcycles made in the United States; hire of aircraft; services of expert witnesses at such rates as may be determined by the Director of the Secret Service; rental of buildings in the District of Columbia, and fencing, lighting, guard booths, and other facilities on private or other property not in Government ownership or control, as may be necessary to perform protective functions; payment of per diem or subsistence allowances to employees where a protective assignment during the actual day or days of the visit of a protectee requires an employee to work 16 hours per day or to remain overnight at a post of duty; conduct of and participation in firearms matches; presentation of awards; travel of United States Secret Service employees on protective missions without regard to the limitations on such expenditures in this or any other Act if approval is obtained in advance from the Committees on Appropriations of the Senate and the House of Representatives; research and development; grants to conduct behavioral research in support of protective research and operations; and payment in advance for commercial accommodations as may be necessary to perform protective functions; $1,457,409,000, of which not to exceed $25,000 shall be for official reception and representation expenses; of which not to exceed $100,000 shall be to provide technical assistance and equipment to foreign law enforcement organizations in counterfeit investigations; of which $2,366,000 shall be for forensic and related support of investigations of missing and exploited children; and of which $6,000,000 shall be for a grant for activities related to the investigations of missing and exploited children and shall remain available until expended: *Provided*, That up to $18,000,000 provided for protective travel shall remain available until September 30, 2011: *Provided further*, That up to $1,000,000 for National Special Security Events shall remain available until expended: *Provided further*, That the United States Secret Service is authorized to obligate funds in anticipation of reimbursements from Federal agencies and entities, as defined in section 105 of title 5, United States Code, receiving training sponsored by the James J. Rowley Training Center, except that total obligations at the end of the fiscal year shall not exceed total budgetary resources available under this heading at the end of the fiscal year: *Provided further*, That none of the funds made available under this heading shall be available to compensate any employee for overtime in an annual amount in excess of $35,000, except that the Secretary of Homeland Security, or the designee of the Secretary, may waive that amount as necessary for national security purposes: *Provided further*, That none of the funds made available to the United States Secret Service by this Act or by previous appropriations Acts may be made available for the protection of the head of a Federal agency other than the Secretary of Homeland Security: *Provided further*, That the Director of the United States Secret Service may enter into an agreement to perform such service on a fully reimbursable basis.

ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

For necessary expenses for acquisition, construction, repair, alteration, and improvement of facilities, $3,975,000, to remain available until expended.

TITLE III—PROTECTION, PREPAREDNESS, RESPONSE, AND RECOVERY

NATIONAL PROTECTION AND PROGRAMS DIRECTORATE

MANAGEMENT AND ADMINISTRATION

For salaries and expenses of the Office of the Under Secretary for the National Protection and Programs Directorate, support for operations, information technology, and the Office of Risk Management and Analysis, $44,577,000: *Provided*, That not to exceed $5,000 shall be for official reception and representation expenses.

INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY

For necessary expenses for infrastructure protection and information security programs and activities, as authorized by title II of the Homeland Security Act of 2002 (6 U.S.C. 121 et seq.), $883,346,000, of which $744,085,000 shall remain available until September 30, 2011: *Provided*, That of the amount made available under this heading, $155,000,000 may not be obligated for the National Cyber Security Initiative program and $25,000,000 may not be obligated for the Next Generation Networks program until the Committees on Appropriations of the Senate and the House of Representatives receive and approve a plan for expenditure for that program that describes the strategic context of the program; the specific goals and milestones set for the program; and the funds allocated to achieving each of those goals: *Provided further*, That of the total amount provided, $1,000,000 is for Philadelphia infrastructure monitoring; $3,500,000 is for State and local cyber security training; $3,000,000 is for the Power and Cyber Systems Protection, Analysis, and Testing Program at the Idaho National Laboratory; $3,500,000 is for the Cyber Security Test Bed and Evaluation Center; $3,000,000 is for the Multi-State Information Sharing and Analysis Center; $500,000 is for the Virginia Operational Integration Cyber Center of Excellence; $100,000 is for the Upstate New York Cyber Initiative; and $1,000,000 is for interoperable communications, technical assistance and outreach programs.

UNITED STATES VISITOR AND IMMIGRANT STATUS INDICATOR TECHNOLOGY

For necessary expenses for the development of the United States Visitor and Immigrant Status Indicator Technology project, as authorized by section 110 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1365a), $351,800,000, to remain available until expended: *Provided*, That of the total amount made available under this heading, $75,000,000 may not be obligated for the United States Visitor and Immigrant Status Indicator Technology program until the Committees on Appropriations of the Senate and the House of Representatives receive a plan for expenditure prepared by the Secretary of Homeland Security that includes—

(1) a detailed accounting of the program's progress to date relative to system capabilities or services, system performance levels, mission benefits and outcomes, milestones, cost targets, and program management capabilities;

(2) an explicit plan of action defining how all funds are to be obligated to meet future program commitments, with the planned expenditure of funds linked to the milestone-based delivery of specific capabilities, services, performance levels, mission benefits and outcomes, and program management capabilities;

(3) a listing of all open Government Accountability Office and Office of Inspector General recommendations related to the program and the status of Department of Homeland Security actions to address the recommendations, including milestones for fully addressing such recommendations;

(4)(A) a certification by the Chief Procurement Officer of the Department that—

(i) the program has been reviewed and approved in accordance with the investment management process of the Department;

(ii) the process fulfills all capital planning and investment control requirements and reviews established by the Office of Management and Budget, including as provided in Circular A–11, part 7; and

(iii) the plans for the program comply with Federal acquisition rules, requirements, guidelines, and practices; and

(B) a description by the Chief Procurement Officer of the actions being taken to address areas of non-compliance, the risks associated with such areas as well as any plans for addressing such risks, and the status of the implementation of such actions;

(5)(A) a certification by the Chief Information Officer of the Department that—

(i) an independent verification and validation agent is currently under contract for the program;

(ii) the system architecture of the program is sufficiently aligned with the information systems enterprise architecture of the Department to minimize future rework, including a description of all aspects of the architecture that were or were not assessed in making the alignment determination, the date of the alignment determination, and any known areas of misalignment along with the associated risks and corrective actions to address any such areas; and

(iii) the program has a risk management process that regularly identifies, evaluates, mitigates, and monitors risks throughout the system life cycle, and communicates high-risk conditions to agency and Department investment decision makers; and

(B) a listing by the Chief Information Officer of all the program's high risks and the status of efforts to address them;

(6) a certification by the Chief Human Capital Officer of the Department that the human capital needs of the program are being strategically and proactively managed, and that current human capital capabilities are sufficient to execute the plans discussed in the report; and

(7) a detailed accounting of operation and maintenance, contractor services, and program costs associated with the management of identity services.

OFFICE OF HEALTH AFFAIRS

For necessary expenses of the Office of Health Affairs, $128,400,000, of which $30,411,000 is for salaries and expenses: *Provided*, That $97,989,000 shall remain available until September 30, 2011, for biosurveillance, BioWatch, medical readiness planning, chemical response, and other activities, including $5,000,000 for the North Carolina Collaboratory for Bio-Preparedness, University of North Carolina, Chapel Hill: *Provided further*, That not to exceed $3,000 shall be for official reception and representation expenses.

FEDERAL EMERGENCY MANAGEMENT AGENCY

MANAGEMENT AND ADMINISTRATION

For necessary expenses for management and administration of the Federal Emergency Management Agency, $844,500,000, including activities authorized by the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), the Cerro Grande Fire Assistance Act of 2000 (Div. C Title I, 114 Stat. 583), the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), the Defense Production Act of 1950 (50 U.S.C. App. 2061 et seq.), sections 107 and 303 of the National Security Act of 1947 (50 U.S.C. 404, 405), Reorganization Plan No. 3 of 1978 (5 U.S.C. App.), the Homeland Security Act of 2002 (6 U.S.C. 101 et seq.), and the Post-Katrina Emergency Management Reform Act of 2006 (Public Law 109–295; 120 Stat. 1394): *Provided*, That not to exceed $3,000 shall be for official reception and representation expenses: *Provided further*, That the President's budget submitted under section 1105(a) of title 31, United States Code, shall be detailed by office for the Federal Emergency Management Agency: *Provided further*, That of the total amount made available under this heading, $32,500,000 shall be for the Urban Search and Rescue Response System, of which not to exceed $1,600,000 may be made available for administrative costs; and $6,995,000 shall be for the Office of National Capital Region Coordination.

PART B AMENDMENT NO. 7 OFFERED BY MR. POE OF TEXAS

Mr. POE of Texas. Madam Speaker, I have an amendment at the desk made in order under the rule.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 7 offered by Mr. POE of Texas:

Page 38, line 19, after the dollar amount, insert ''(reduced by $32,000,000)''.

Page 52, line 2, after the dollar amount, insert ''(increased by $32,000,000)''.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Texas (Mr. POE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

Mr. POE of Texas. Madam Chairman, the amendment I am offering today seeks to add additional funding to the highly successful and widely supported National Predisaster Mitigation Fund. In a time of deficits and rampant government spending, predisaster mitigation is good for the taxpayer.

According to a study first released in 2005, the ''National Hazard Mitigation Saves: An Independent Study to Assess the Future Savings from Mitigation Activities,'' performed by the group called the Multi-Hazard Mitigation Council, stated that for every $1 spent on mitigation, $3 to $4 is saved. Further, the Congressional Budget Office issued its own report on predisaster mitigation and its cost savings and confirmed the savings derived from this program.

According to these studies, this amendment that I'm offering could save anywhere from $96 million to $128 million in future disaster costs. In communities such as I represent along the gulf coast of Texas, predisaster mitigation is essential in weathering future devastating hurricanes which have ravaged my district in recent years in helping to reduce the cost towards recovery. Just since I've been elected, the following hurricanes have hit my southeast district in Texas: Katrina, Rita, Humbert, Gustav, and the latest is Ike.

Every year it seems, Madam Chairman, a new hurricane comes down Hurricane Alley through my congressional district, but also hits other gulf States. The purpose of this program is to implement hazard reduction measures prior to an event. Funds can be used to help retrofit buildings, such as the courthouse that is used as the Center for Emergency Management Services. Those retrofitting buildings can withstand high wind damage. Also it moves properties out of flood plains, and flood-proof buildings, among many other things.

The problem is requests for funding from this program is three times the amount of money that is actually available under current law. This amendment takes $32 million out of the $850 million of salaries. The $32 million figure comes from the amount that's over the President's request. And communities throughout Hurricane Alley and other areas in the country prone to devastation, such as earthquakes and wildfires, are all looking at ways to strengthen their defenses and avoid the often long and painful recovery.

□ 1745

The predisaster recovery program is a community-based program and emphasizes commitment to local input on what's needed. Over the last decade, the predisaster mitigation program has developed and grown as mitigation itself has become accepted as Federal policy. Adoption and expansion of mitigation as a beneficial approach for government has been bolstered by studies that demonstrated cost reductions following disasters due to earlier mitigation investments.

So I ask support of this amendment and support of communities that would benefit from this amendment before disaster strikes.

I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I rise in opposition to the gentleman's amendment.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. PRICE of North Carolina. Madam Chairman, the gentleman seeks to add $32 million for predisaster mitigation grants by cutting the same amount from FEMA's management and operations programs.

Again, I appreciate the gentleman's support for predisaster mitigation. I come from a State where both predisaster and postdisaster mitigation have been very important and often successful programs. And I believe the funding levels recommended by our committee in recent years have reflected this favorable evaluation.

But the offset the gentleman proposes is just untenable. I have to say that, and I want to spend some time in explaining it because I do respect the motivation that he brings to this effort.

We have, today, correspondence from State and local emergency managers who also think this offset is unacceptable. They oppose this amendment because it cuts critical FEMA programs, and, in particular, I have a letter dated today from the International Association of Emergency Managers along these lines.

The Congress has spent the last 4 years since Hurricane Katrina rebuilding FEMA's management and operations capabilities. At the time of Katrina, the agency was understaffed and unable to effectively manage a catastrophic disaster. It's my belief that the increases over the last 2 fiscal years were a major factor in FEMA's

return to strength as demonstrated during the response to Hurricane Ike and the Midwest floods.

I am afraid the gentleman's amendment could send us backwards. The gentleman would cut the account that supports the National Hurricane Program, the National Dam Safety Program, national continuity programs, disaster operations and disaster mitigation.

The committee supports predisaster mitigation. That's why we included a $10 million increase for predisaster mitigation grants above fiscal year 2009.

But the gentleman proposes a further increase, and I believe that should not come at the detriment of FEMA's operational readiness.

Besides, the grant program that the gentleman seeks to increase had $143 million that was unobligated or not spent at the time this bill was reported. In other words, there is a good deal of money in the pipeline.

So as a supporter of increased mitigation, and as the chairman of a committee that has championed increased mitigation, I believe we have enough funds for now to support ongoing mitigation work, and I think the offset would be detrimental to FEMA's readiness to respond to disasters.

So I respectfully urge a ''no'' vote on the amendment.

I reserve the balance of my time.

Mr. POE of Texas. I yield myself as much time as I may consume.

I appreciate the chairman's input on my amendment.

As I mentioned earlier, the request for predisaster mitigation funds is three times what is available under current law. And I probably have dealt with FEMA as much as anybody in this House, not by choice, but because of the fact that our district keeps getting hammered by hurricanes, starting with Katrina. And the management system of FEMA has a lot to be desired. That has to be dealt with eventually in another issue.

Hurricane Rita, 2005, people in my congressional district are still living with blue plastic tarps on their roofs because of the inadequate response. That is why this bill is so important, because it allows for predisaster mitigation. It allows the hospitals to get a generator so that when they lose their power, they are able to take care of the patients that are in the emergency room. That is a portion of predisaster mitigation.

And I think it's imperative that we be proactive because it takes FEMA too long to respond to disasters, which drives up the cost of recovery. Some people in my district still say FEMA is the disaster.

We talked earlier on other amendments about the fact that a next terrorist attack may occur in New York City. That may be so. But Mother Nature, as we say in Texas, ''has a mad on'' for Hurricane Alley because we keep getting hammered every year with hurricanes.

And one way to help is to ratchet up the amount of money available in areas in the Gulf Coast and other parts of the country that have the likelihood of being hit by a major disaster. Where recovery takes a long time, and if we are prepared with just a third of the money that is needed to recover, we can be prepared, and communities can get back together a lot quicker.

So I would respectfully disagree with the chairman and say that we need to adopt this amendment.

I yield back the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Texas (Mr. POE).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. KING of Iowa. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Texas will be postponed.

The Clerk will read.

The Clerk read as follows:

STATE AND LOCAL PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

For grants, contracts, cooperative agreements, and other activities, $2,829,000,000 shall be allocated as follows:

(1) $950,000,000 shall be for the State Homeland Security Grant Program under section 2004 of the Homeland Security Act of 2002 (6 U.S.C. 605): *Provided*, That of the amount provided by this paragraph, $60,000,000 shall be for Operation Stonegarden: *Provided further*, That notwithstanding subsection (c)(4) of such section 2004, for fiscal year 2010, the Commonwealth of Puerto Rico shall make available to local and tribal governments amounts provided to the Commonwealth of Puerto Rico under this paragraph in accordance with subsection (c)(1) of such section 2004.

(2) $887,000,000 shall be for the Urban Area Security Initiative under section 2003 of the Homeland Security Act of 2002 (6 U.S.C. 604), of which, notwithstanding subsection (c)(1) of such section, $15,000,000 shall be for grants to organizations (as described under section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from taxation under section 501(a) of such code) determined by the Secretary of Homeland Security to be at high risk of a terrorist attack.

(3) $40,000,000 shall be for the Metropolitan Medical Response System under section 635 of the Post-Katrina Emergency Management Reform Act of 2006 (6 U.S.C. 723).

(4) $15,000,000 shall be for the Citizen Corps Program.

(5) $250,000,000 shall be for Public Transportation Security Assistance and Railroad Security Assistance under sections 1406 and 1513 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (6 U.S.C. 1135 and 1163): *Provided*, That such public transportation security assistance shall be provided directly to public transportation agencies.

(6) $250,000,000 shall be for Port Security Grants in accordance with 46 U.S.C. 70107, notwithstanding 46 U.S.C 70107(c).

(7) $12,000,000 shall be for Over-the-Road Bus Security Assistance under section 1532 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (6 U.S.C. 1182).

(8) $50,000,000 shall be for Buffer Zone Protection Program Grants.

(9) $50,000,000 shall be for grants in accordance with section 204 of the REAL ID Act of 2005 (49 U.S.C. 30301 note).

(10) $50,000,000 shall be for the Interoperable Emergency Communications Grant Program under section 1809 of the Homeland Security Act of 2002 (6 U.S.C. 579).

(11) $40,000,000 shall remain available until expended for grants for Emergency Operations Centers under section 614 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5196c), as detailed in the statement accompanying this Act.

(12) $235,000,000 shall be for training, exercises, technical assistance, and other programs, of which—

(A) $132,000,000 shall be for the National Domestic Preparedness Consortium in accordance with section 1204 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (6 U.S.C. 1102), of which $23,000,000 shall be for the National Energetic Materials Research and Testing Center, New Mexico Institute of Mining and Technology; $23,000,000 shall be for the National Center for Biomedical Research and Training, Louisiana State University; $23,000,000 shall be for the National Emergency Response and Rescue Training Center, Texas A&M University; $23,000,000 shall be for the National Exercise, Test, and Training Center, Nevada Test Site; and $40,000,000 shall be for the Center for Domestic Preparedness, Alabama; and

(B) $3,000,000 shall be for the Rural Domestic Preparedness Consortium, Eastern Kentucky University:

Provided, That not to exceed 3 percent of the amounts provided under this heading may be transferred to the Federal Emergency Management Agency ''Management and Administration'' account for program administration, and an expenditure plan for program administration shall be provided to the Committees on Appropriations of the Senate and the House of Representatives within 60 days after the date of enactment of this Act: *Provided further*, That for grants under paragraphs (1) through (4), the applications for grants shall be made available to eligible applicants not later than 25 days after the date of enactment of this Act, eligible applicants shall submit applications not later than 90 days after the grant announcement, and the Administrator of the Federal Emergency Management Agency shall act within 90 days after receipt of an application: *Provided further*, That for grants under paragraphs (5) through (7) and (10), the applications for grants shall be made available to eligible applicants not later than 30 days after the date of enactment of this Act, eligible applicants shall submit applications within 45 days after the grant announcement, and the Federal Emergency Management Agency shall act not later than 60 days after receipt of an application: *Provided further*, That for grants under paragraphs (1) and (2), the installation of communications towers is not considered construction of a building or other physical facility: *Provided further*, That grantees shall provide reports on their use of funds, as determined necessary by the Secretary: *Provided further*, That (a) the Center for Domestic Preparedness may provide training to

emergency response providers from the Federal Government, foreign governments, or private entities, if the Center for Domestic Preparedness is reimbursed for the cost of such training, and any reimbursement under this subsection shall be credited to the account from which the expenditure being reimbursed was made and shall be available, without fiscal year limitation, for the purposes for which amounts in the account may be expended, (b) the head of the Center for Domestic Preparedness shall ensure that any training provided under (a) does not interfere with the primary mission of the Center to train State and local emergency response providers.

FIREFIGHTER ASSISTANCE GRANTS

For necessary expenses for programs authorized by the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2201 et seq.), $800,000,000, of which $380,000,000 shall be available to carry out section 33 of that Act (15 U.S.C. 2229) and $420,000,000 shall be available to carry out section 34 of that Act (15 U.S.C. 2229a), to remain available until September 30, 2011: *Provided*, That not to exceed 5 percent of the amount available under this heading shall be available for program administration, and an expenditure plan for program administration shall be provided to the Committees on Appropriations of the Senate and the House of Representatives within 60 days of the date of enactment of this Act.

EMERGENCY MANAGEMENT PERFORMANCE GRANTS

For necessary expenses for emergency management performance grants, as authorized by the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), and Reorganization Plan No. 3 of 1978 (5 U.S.C. App.), $330,000,000: *Provided*, That total administrative costs shall not exceed 3 percent of the total amount appropriated under this heading.

RADIOLOGICAL EMERGENCY PREPAREDNESS PROGRAM

The aggregate charges assessed during fiscal year 2010, as authorized in title III of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999 (42 U.S.C. 5196e), shall not be less than 100 percent of the amounts anticipated by the Department of Homeland Security necessary for its radiological emergency preparedness program for the next fiscal year: *Provided*, That the methodology for assessment and collection of fees shall be fair and equitable and shall reflect costs of providing such services, including administrative costs of collecting such fees: *Provided further*, That fees received under this heading shall be deposited in this account as offsetting collections and will become available for authorized purposes on October 1, 2010, and remain available until expended.

UNITED STATES FIRE ADMINISTRATION

For necessary expenses of the United States Fire Administration and for other purposes, as authorized by the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2201 et seq.) and the Homeland Security Act of 2002 (6 U.S.C. 101 et seq.), $45,588,000.

DISASTER RELIEF

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses in carrying out the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), $2,000,000,000, to remain available until expended: *Provided*, That the Federal Emergency Management Agency shall submit an expenditure plan to the Committees on Appropriations of the Senate and the House of Representatives detailing the use of the funds for disaster readiness and support within 60 days after the date of enactment of this Act: *Provided further*, That the Federal Emergency Management Agency shall submit to such Committees a quarterly report detailing obligations against the expenditure plan and a justification for any changes in spending: *Provided further*, That of the total amount provided, $16,000,000 shall be transferred to the Department of Homeland Security Office of Inspector General for audits and investigations related to disasters, subject to section 503 of this Act: *Provided further*, That up to $90,080,000 may be transferred to the Federal Emergency Management Agency ''Management and Administration'' account for management and administration functions: *Provided further*, That the amount provided in the previous proviso shall not be available for transfer to the ''Management and Administration'' account until the Federal Emergency Management Agency submits an expenditure plan to the Committees on Appropriations of the Senate and the House of Representatives: *Provided further*, That the Administrator of the Federal Emergency Management Agency shall report monthly beginning July 1, 2009, to the Committee on Appropriations of the House of Representatives regarding the number of individuals and households in need of Federal disaster assistance as a result of such severe storms, tornados, flooding, and mudslides (under FEMA–1841–DR) but denied assistance due to failure to meet flood insurance requirements. Such report shall include the reasons and circumstances for each denial per individual and household: *Provided further*, That for any request for reimbursement from a Federal agency to the Department of Homeland Security to cover expenditures under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), or any mission assignment orders issued by the Department for such purposes, the Secretary of Homeland Security shall take appropriate steps to ensure that each agency is periodically reminded of Department policies on—

(1) the detailed information required in supporting documentation for reimbursements; and

(2) the necessity for timeliness of agency billings.

DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT

For activities under section 319 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5162), $295,000 is for the cost of direct loans: *Provided*, That gross obligations for the principal amount of direct loans shall not exceed $25,000,000: *Provided further*, That the cost of modifying such loans shall be as defined in section 502 of the Congressional Budget Act of 1974 (2 U.S.C. 661a).

FLOOD MAP MODERNIZATION FUND

For necessary expenses under section 1360 of the National Flood Insurance Act of 1968 (42 U.S.C. 4101), $220,000,000, and such additional sums as may be provided by State and local governments or other political subdivisions for cost-shared mapping activities under section 1360(f)(2) of such Act (42 U.S.C. 4101(f)(2)), to remain available until expended: *Provided*, That total administrative costs shall not exceed 3 percent of the total amount appropriated under this heading.

NATIONAL FLOOD INSURANCE FUND

For activities under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), and the Flood Disaster Protection Act of 1973 (42 U.S.C. 4001 et seq.), $159,469,000, which shall remain available until September 30, 2011, and shall be derived from offsetting collections assessed and collected under section 1308(b)(3) of the National Flood Insurance Act of 1968 (42 U.S.C. 4015(b)(3)), which shall be available as follows: (1) not to exceed $52,149,000 for salaries and expenses associated with flood mitigation and flood insurance operations; and (2) no less than $107,320,000 for flood plain management and flood mapping: *Provided*, That any additional fees collected pursuant to section 1308(b)(3) of the National Flood Insurance Act of 1968 (42 U.S.C. 4015(b)(3)) shall be credited as an offsetting collection to this account, to be available for flood plain management and flood mapping: *Provided further*, That if the Administrator of the Federal Emergency Management Agency determines that such amount for salaries and expenses is insufficient, the Administrator of the Federal Emergency Management Agency may use amounts made available under this heading for flood plain management and flood mapping to pay for such salaries and expenses, but only if the Administrator submits to the Committees on Appropriations of the Senate and the House of Representatives notice of the Administrator's intention to use such funds for such purpose 30 days in advance of any such use: *Provided further*, That in fiscal year 2010, no funds shall be available from the National Flood Insurance Fund under section 1310 of that Act (42 U.S.C. 4017) in excess of: (1) $85,000,000 for operating expenses; (2) $969,370,000 for commissions and taxes of agents; (3) such sums as are necessary for interest on Treasury borrowings; and (4) $120,000,000, which shall remain available until expended for flood mitigation actions, of which $70,000,000 shall be for severe repetitive loss properties under section 1361A of the National Flood Insurance Act of 1968 (42 U.S.C. 4102a), of which $10,000,000 shall be for repetitive insurance claims properties under section 1323 of the National Flood Insurance Act of 1968 (42 U.S.C. 4030), and of which $40,000,000 is for flood mitigation assistance under section 1366 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c) notwithstanding subparagraphs (B) and (C) of subsection (b)(3) and subsection (f) of section 1366 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c) and notwithstanding subsection (a)(7) of section 1310 of the National Flood Insurance Act of 1968 (42 U.S.C. 4017): *Provided further*, That amounts collected under section 102 of the Flood Disaster Protection Act of 1973 and section 1366(i) of the National Flood Insurance Act of 1968 (42 U.S.C 1366(i)) shall be deposited in the National Flood Insurance Fund to supplement other amounts specified as available for section 1366 of the National Flood Insurance Act of 1968, notwithstanding 42 U.S.C. 4012a(f)(8), 4104c(i), and 4104d(b)(2)-(3): *Provided further*, That total administrative costs shall not exceed 4 percent of the total appropriation.

NATIONAL PREDISASTER MITIGATION FUND

For the predisaster mitigation grant program under section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5133), $100,000,000, to remain available until expended and as detailed in the statement accompanying this Act: *Provided*, That the total administrative costs associated with such grants shall not exceed 3 percent of the total amount made available under this heading.

EMERGENCY FOOD AND SHELTER

To carry out the emergency food and shelter program pursuant to title III of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11331 et seq.), $200,000,000, to remain available until expended: *Provided*, That total administrative costs shall not exceed 3.5 percent of the total amount made available under this heading.

TITLE IV—RESEARCH AND DEVELOPMENT, TRAINING, AND SERVICES

UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES

For necessary expenses for citizenship and immigration services, $248,000,000, of which $100,000,000 shall be for processing applications for asylum or refugee status; and of which $112,000,000 is for the basic pilot program, as authorized by section 402 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note), to assist United States employers with maintaining a legal workforce: *Provided*, That notwithstanding any other provision of law, funds available to United States Citizenship and Immigration Services may be used to acquire, operate, equip, and dispose of up to five vehicles, for replacement only, for areas where the Administrator of General Services does not provide vehicles for lease: *Provided further*, That the Director of United States Citizenship and Immigration Services may authorize employees who are assigned to those areas to use such vehicles to travel between the employees' residences and places of employment: *Provided further*, That none of the funds made available under this heading may be obligated for processing applications for asylum or refugee status unless the Secretary of Homeland Security has published a final rule updating part 103 of title 8, Code of Federal Regulations, to discontinue the asylum/refugee surcharge: *Provided further*, That none of the funds made available under this heading for may be obligated for development of the ''REAL ID hub'' until the Committees on Appropriations of the Senate and the House of Representatives receive and approve a plan for expenditure for that program that describes the strategic context of the program, the specific goals and milestones set for the program, and the funds allocated for achieving each of these goals and milestones.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

SALARIES AND EXPENSES

For necessary expenses of the Federal Law Enforcement Training Center, including materials and support costs of Federal law enforcement basic training; the purchase of not to exceed 117 vehicles for police-type use and hire of passenger motor vehicles; expenses for student athletic and related activities; the conduct of and participation in firearms matches and presentation of awards; public awareness and enhancement of community support of law enforcement training; room and board for student interns; a flat monthly reimbursement to employees authorized to use personal mobile phones for official duties; and services as authorized by section 3109 of title 5, United States Code; $239,356,000, of which up to $47,751,000 shall remain available until September 30, 2011, for materials and support costs of Federal law enforcement basic training; of which $300,000 shall remain available until expended for Federal law enforcement agencies participating in training accreditation, to be distributed as determined by the Federal Law Enforcement Training Center for the needs of participating agencies; and of which not to exceed $12,000 shall be for official reception and representation expenses: *Provided*, That the Center is authorized to obligate funds in anticipation of reimbursements from agencies receiving training sponsored by the Center, except that total obligations at the end of the fiscal year shall not exceed total budgetary resources available at the end of the fiscal year: *Provided further*, That section 1202(a) of Public Law 107–206 (42 U.S.C. 3771 note), as amended by Public Law 110–329 (122 Stat. 3677), is further amended by striking ''December 31, 2011'' and inserting ''December 31, 2012'': *Provided further*, That the Federal Law Enforcement Training Accreditation Board, including representatives from the Federal law enforcement community and non-Federal accreditation experts involved in law enforcement training, shall lead the Federal law enforcement training accreditation process to continue the implementation of measuring and assessing the quality and effectiveness of Federal law enforcement training programs, facilities, and instructors: *Provided further*, That the Director of the Federal Law Enforcement Training Center shall schedule basic or advanced law enforcement training, or both, at all four training facilities under the control of the Federal Law Enforcement Training Center to ensure that such training facilities are operated at the highest capacity throughout the fiscal year.

ACQUISITIONS, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

For acquisition of necessary additional real property and facilities, construction, and ongoing maintenance, facility improvements, and related expenses of the Federal Law Enforcement Training Center, $43,456,000, to remain available until expended: *Provided*, That the Center is authorized to accept reimbursement to this appropriation from Government agencies requesting the construction of special use facilities.

SCIENCE AND TECHNOLOGY

MANAGEMENT AND ADMINISTRATION

For salaries and expenses of the Office of the Under Secretary for Science and Technology and for management and administration of programs and activities, as authorized by title III of the Homeland Security Act of 2002 (6 U.S.C. 181 et seq.), $142,200,000: *Provided*, That not to exceed $10,000 shall be for official reception and representation expenses.

RESEARCH, DEVELOPMENT, ACQUISITION, AND OPERATIONS

For necessary expenses for science and technology research, including advanced research projects; development; test and evaluation; acquisition; and operations; as authorized by title III of the Homeland Security Act of 2002 (6 U.S.C. 181 et seq.); $825,356,000, to remain available until expended: *Provided*, That of the amount provided, $12,000,000 shall be for construction expenses of the Pacific Northwest National Laboratory: *Provided further*, That not less than $10,000,000 shall be available for the National Institute for Hometown Security, Kentucky: *Provided further*, That not less than $2,000,000 shall be available for the Naval Postgraduate School: *Provided further*, That not less than $1,000,000 shall be available to continue a homeland security research, development, and manufacturing pilot project: *Provided further*, That $500,000 shall be available for a demonstration project to develop situational awareness and decision support capabilities through remote sensing technologies: *Provided further*, That $4,000,000 shall be available for a pilot program to develop a replicable port security system that would improve maritime domain awareness: *Provided further*, That none of the funds available under this heading, in this Act, or in any previously enacted law shall be obligated for construction of a National Bio– and Agro–defense Facility located on the United States mainland until the Secretary of Homeland Security receives a risk assessment prepared by a person who is not an officer or employee of the Department of Homeland Security of whether foot-and-mouth disease work can be done safely on the United States mainland.

DOMESTIC NUCLEAR DETECTION OFFICE

MANAGEMENT AND ADMINISTRATION

For salaries and expenses of the Domestic Nuclear Detection Office as authorized by title XIX of the Homeland Security Act of 2002 (6 U.S.C. 591 et seq.) as amended, for management and administration of programs and activities, $39,599,000: *Provided*, That not to exceed $3,000 shall be for official reception and representation expenses.

RESEARCH, DEVELOPMENT, AND OPERATIONS

For necessary expenses for radiological and nuclear research, development, testing, evaluation, and operations, $326,537,000, to remain available until expended.

TITLE V—GENERAL PROVISIONS

(INCLUDING RESCISSIONS OF FUNDS)

SEC. 501. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 502. Subject to the requirements of section 503 of this Act, the unexpended balances of prior appropriations provided for activities in this Act may be transferred to appropriation accounts for such activities established pursuant to this Act, may be merged with funds in the applicable established accounts, and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 503. (a) None of the funds provided by this Act, provided by previous appropriations Acts to the agencies in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year 2010, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that: (1) creates a new program, project, office, or activity; (2) eliminates a program, project, office, or activity; (3) increases funds for any program, project, or activity for which funds have been denied or restricted by the Congress; (4) proposes to use funds directed for a specific activity by either of the Committees on Appropriations of the Senate or the House of Representatives for a different purpose; or (5) contracts out any function or activity for which funding levels were requested for Federal full-time equivalents in the object classification tables contained in the fiscal year 2010 Budget Appendix for the Department of Homeland Security, as modified by the explanatory statement accompanying this Act, unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such reprogramming of funds.

(b) None of the funds provided by this Act, provided by previous appropriations Acts to the agencies in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year 2010, or provided from any accounts

in the Treasury of the United States derived by the collection of fees or proceeds available to the agencies funded by this Act, shall be available for obligation or expenditure for programs, projects, or activities through a reprogramming of funds in excess of $5,000,000 or 10 percent, whichever is less, that: (1) augments existing programs, projects, or activities; (2) reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent as approved by the Congress; or (3) results from any general savings from a reduction in personnel that would result in a change in existing programs, projects, or activities as approved by the Congress, unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such reprogramming of funds.

(c) Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of Homeland Security by this Act or provided by previous appropriations Acts may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by such transfers: *Provided*, That any transfer under this section shall be treated as a reprogramming of funds under subsection (b) and shall not be available for obligation unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such transfer.

(d) Notwithstanding subsections (a), (b), and (c) of this section, no funds shall be reprogrammed within or transferred between appropriations after June 30, except in extraordinary circumstances that imminently threaten the safety of human life or the protection of property.

(e) Within 90 days after the date of the enactment of this Act, the Secretary of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives a report listing all dollar amounts specified in this Act and accompanying explanatory statement that are identified in the detailed funding table at the end of the explanatory statement accompanying this Act or any other amounts specified in this Act or accompanying explanatory statement: *Provided*, That such dollar amounts specified in this Act and accompanying explanatory statement shall be subject to the conditions and requirements of subsections (a), (b), and (c) of this section.

SEC. 504. The Department of Homeland Security Working Capital Fund, established pursuant to section 403 of Public Law 103–356 (31 U.S.C. 501 note), shall continue operations as a permanent working capital fund for fiscal year 2010: *Provided*, That none of the funds appropriated or otherwise made available to the Department of Homeland Security may be used to make payments to the Working Capital Fund, except for the activities and amounts allowed in the President's fiscal year 2010 budget: *Provided further*, That funds provided to the Working Capital Fund shall be available for obligation until expended to carry out the purposes of the Working Capital Fund: *Provided further*, That all departmental components shall be charged only for direct usage of each Working Capital Fund service: *Provided further*, That funds provided to the Working Capital Fund shall be used only for purposes consistent with the contributing component: *Provided further*, That such fund shall be paid in advance or reimbursed at rates which will return the full cost of each service: *Provided further*, That the Working Capital Fund shall be subject to the requirements of section 503 of this Act.

SEC. 505. Except as otherwise specifically provided by law, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year 2010 from appropriations for salaries and expenses for fiscal year 2010 in this Act shall remain available through September 30, 2011, in the account and for the purposes for which the appropriations were provided: *Provided*, That prior to the obligation of such funds, a request shall be submitted to the Committees on Appropriations of the Senate and the House of Representatives for approval in accordance with section 503 of this Act.

SEC. 506. Funds made available by this Act for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2010 until the enactment of an Act authorizing intelligence activities for fiscal year 2010.

SEC. 507. None of the funds made available by this Act may be used to make a grant allocation, grant award, contract award, other transactional agreement, or to issue a letter of intent totaling in excess of $1,000,000, or to announce publicly the intention to make such an award, including a contract covered by the Federal Acquisition Regulation, unless the Secretary of Homeland Security notifies the Committees on Appropriations of the Senate and the House of Representatives at least 3 full business days in advance of making such an award or issuing such a letter: *Provided*, That if the Secretary of Homeland Security determines that compliance with this section would pose a substantial risk to human life, health, or safety, an award may be made without notification and the Committees on Appropriations of the Senate and the House of Representatives shall be notified not later than 5 full business days after such an award is made or letter issued: *Provided further*, That no notification shall involve funds that are not available for obligation: *Provided further*, That the notification shall include the amount of the award, the fiscal year for which the funds for the award were appropriated, and the account from which the funds are being drawn: *Provided further*, That the Federal Emergency Management Agency shall brief the Committees on Appropriations of the Senate and the House of Representatives 5 full business days in advance of announcing publicly the intention of making an award under the State and Local Programs.

SEC. 508. Notwithstanding any other provision of law, no agency shall purchase, construct, or lease any additional facilities, except within or contiguous to existing locations, to be used for the purpose of conducting Federal law enforcement training without the advance approval of the Committees on Appropriations of the Senate and the House of Representatives, except that the Federal Law Enforcement Training Center is authorized to obtain the temporary use of additional facilities by lease, contract, or other agreement for training which cannot be accommodated in existing Center facilities.

SEC. 509. None of the funds appropriated or otherwise made available by this Act may be used for expenses for any construction, repair, alteration, or acquisition project for which a prospectus otherwise required under chapter 33 of title 40, United States Code, has not been approved, except that necessary funds may be expended for each project for required expenses for the development of a proposed prospectus.

SEC. 510. Sections 519, 520, 522, 528, 530, and 531 of the Department of Homeland Security Appropriations Act, 2008 (division E of Public Law 110–161; 121 Stat. 2072, 2073, 2074, 2082) shall apply with respect to funds made available in this Act in the same manner as such sections applied to funds made available in that Act.

SEC. 511. None of the funds made available in this Act may be used in contravention of the applicable provisions of the Buy American Act (41 U.S.C. 10a et seq.).

SEC. 512. None of the funds appropriated by this Act may be used to process or approve a competition under Office of Management and Budget Circular A–76 for services provided as of June 1, 2004, by employees (including employees serving on a temporary or term basis) of United States Citizenship and Immigration Services of the Department of Homeland Security who are known as of that date as immigration information officers, contact representatives, or investigative assistants.

SEC. 513. (a) The Secretary of Homeland Security shall research, develop, and procure new technologies to inspect and screen air cargo carried on passenger aircraft by the earliest date possible.

(b) Checked baggage explosive detection equipment and screeners that exist as of the date of the enactment of this Act shall be used to screen air cargo carried on passenger aircraft to the greatest extent practicable at each airport until technologies developed under subsection (a) are available for such purpose.

(c) The Assistant Secretary of Homeland Security (Transportation Security Administration) shall work with air carriers and airports to ensure that the screening of cargo carried on passenger aircraft, as defined in section 44901(g)(5) of title 49, United States Code, increases incrementally each quarter.

(d) Not later than 45 days after the end of each quarter, the Assistant Secretary shall submit to the Committees on Appropriations of the Senate and the House of Representatives a report on air cargo inspection statistics by airport and air carrier detailing the incremental progress being made to meet the requirements of section 44901(g)(2) of title 49, United States Code.

(e) Not later than 180 days after the date of the enactment of this Act, the Assistant Secretary of Homeland Security (Transportation Security Administration) shall submit to the Committees on Appropriations of the Senate and the House of Representatives, a report on how the Transportation Security Administration plans to meet the requirement for screening all air cargo on passenger aircraft by the deadline under section 44901(g) of title 49, United States Code. The report shall identify the elements of the system to screen 100 percent of cargo transported between domestic airports at a level of security commensurate with the level of security for the screening of passenger checked baggage.

SEC. 514. Except as provided in section 44945 of title 49, United States Code, funds appropriated or transferred to the Transportation Security Administration ''Aviation Security'', ''Administration'' and ''Transportation Security Support'' accounts for fiscal years 2004, 2005, 2006, and 2007 that are recovered or deobligated shall be available only for the procurement or installation of explosives detection systems for air cargo, baggage, and checkpoint screening systems, subject to notification: *Provided*, That quarterly

reports shall be submitted to the Committees on Appropriations of the Senate and the House of Representatives on any funds that are recovered or deobligated.

SEC. 515. Any funds appropriated to the Coast Guard ''Acquisition, Construction, and Improvements'' account for fiscal years 2002, 2003, 2004, 2005, and 2006 for the 110–123 foot patrol boat conversion that are recovered, collected, or otherwise received as the result of negotiation, mediation, or litigation, shall be available until expended for the Fast Response Cutter program.

SEC. 516. Within 45 days after the end of each month, the Chief Financial Officer of the Department of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives a monthly budget and staffing report for that month that includes total obligations, on-board versus funded full-time equivalent staffing levels, and the number of contract employees for each office of the Department.

SEC. 517. Section 532(a) of Public Law 109–295 (120 Stat. 1384) is amended by striking ''2009'' and inserting ''2010''.

SEC. 518. The functions of the Federal Law Enforcement Training Center instructor staff shall be classified as inherently governmental for the purpose of the Federal Activities Inventory Reform Act of 1998 (31 U.S.C. 501 note).

SEC. 519. (a) None of the funds provided by this or any other Act may be obligated for the development, testing, deployment, or operation of any portion of a human resources management system authorized by Section 9701(a) of title 5, United States Code, or by regulations prescribed pursuant to such section, for an employee, as that term is defined in section 7103(a)(2) of such title.

(b) The Secretary of Homeland Security shall collaborate with employee representatives in the manner prescribed in section 9701(e) of title 5, United States Code, in the planning, testing, and development of any portion of a human resources management system that is developed, tested, or deployed for persons excluded from the definition of employee as that term is defined in section 7103(a)(2) of such title.

SEC. 520. For fiscal year 2010, none of the funds made available in this or any other Act may be used to enforce section 4025(1) of Public Law 108–458 unless the Assistant Secretary of Homeland Security (Transportation Security Administration) reverses the determination of July 19, 2007, that butane lighters are not a significant threat to civil aviation security.

SEC. 521. Funds made available in this Act may be used to alter operations within the Civil Engineering Program of the Coast Guard nationwide, including civil engineering units, facilities design and construction centers, maintenance and logistics commands, and the Coast Guard Academy, except that none of the funds provided in this Act may be used to reduce operations within any Civil Engineering Unit unless specifically authorized by a statute enacted after the date of the enactment of this Act.

SEC. 522. (a) Except as provided in subsection (b), none of the funds appropriated in this or any other Act to the Office of the Secretary and Executive Management, the Office of the Under Secretary for Management, or the Office of the Chief Financial Officer, may be obligated for a grant or contract funded under such headings by any means other than full and open competition.

(b) Subsection (a) does not apply to obligation of funds for a contract awarded—

(1) by a means that is required by a Federal statute, including obligation for a purchase made under a mandated preferential program, including the AbilityOne Program, that is authorized under the Javits-Wagner-O'Day Act (41 U.S.C. 46 et seq.);

(2) pursuant to the Small Business Act (15 U.S.C. 631 et seq.);

(3) in an amount less than the simplified acquisition threshold described under section 302A(a) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 252a(a)); or

(4) by another Federal agency using funds provided through an interagency agreement.

(c)(1) Subject to paragraph (2), the Secretary of Homeland Security may waive the application of this section for the award of a contract in the interest of national security or if failure to do so would pose a substantial risk to human health or welfare.

(2) Not later than 5 days after the date on which the Secretary of Homeland Security issues a waiver under this subsection, the Secretary shall submit notification of that waiver to the Committees on Appropriations of the Senate and the House of Representatives, including a description of the applicable contract and an explanation of why the waiver authority was used. The Secretary may not delegate the authority to grant such a waiver.

(d) In addition to the requirements established by subsections (a), (b), and (c) of this section, the Inspector General of the Department of Homeland Security shall review departmental contracts awarded through means other than a full and open competition to assess departmental compliance with applicable laws and regulations: *Provided*, That the Inspector General shall review selected contracts awarded in the previous fiscal year through other than full and open competition: *Provided further*, That in selecting which contracts to review, the Inspector General shall consider the cost and complexity of the goods and services to be provided under the contract, the criticality of the contract to fulfilling Department missions, past performance problems on similar contracts or by the selected vendor, complaints received about the award process or contractor performance, and such other factors as the Inspector General deems relevant: *Provided further*, That the Inspector General shall report the results of the reviews to the Committees on Appropriations of the Senate and the House of Representatives.

SEC. 523. None of the funds provided by this or previous appropriations Acts shall be used to fund any position designated as a Principal Federal Official for any Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) declared disasters or emergencies.

SEC. 524. None of the funds made available in this Act may be used by United States Citizenship and Immigration Services to grant an immigration benefit unless the results of background checks required by law to be completed prior to the granting of the benefit have been received by United States Citizenship and Immigration Services, and the results do not preclude the granting of the benefit.

SEC. 525. None of the funds made available in this Act may be used to destroy or put out to pasture any horse or other equine belonging to the Federal Government that has become unfit for service, unless the trainer or handler is first given the option to take possession of the equine through an adoption program that has safeguards against slaughter and inhumane treatment.

SEC. 526. None of the funds provided in this Act shall be available to carry out section 872 of the Homeland Security Act of 2002 (6 U.S.C. 452).

SEC. 527. None of the funds appropriated by this Act may be used to conduct, or to implement the results of, a competition under Office of Management and Budget Circular A–76 for activities performed with respect to the Coast Guard National Vessel Documentation Center.

SEC. 528. The Secretary of Homeland Security shall require that all contracts of the Department of Homeland Security that provide award fees link such fees to successful acquisition outcomes (which outcomes shall be specified in terms of cost, schedule, and performance).

SEC. 529. None of the funds made available to the Office of the Secretary and Executive Management under this Act may be expended for any new hires by the Department of Homeland Security that are not verified through the basic pilot program under section 401 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note).

SEC. 530. None of the funds made available in this Act for U.S. Customs and Border Protection may be used to prevent an individual not in the business of importing a prescription drug (within the meaning of section 801(g) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 381(g)) from importing a prescription drug from Canada that complies with the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.): *Provided*, That this section shall apply only to individuals transporting on their person a personal-use quantity of the prescription drug, not to exceed a 90-day supply: *Provided further*, That the prescription drug may not be—

(1) a controlled substance, as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802); or

(2) a biological product, as defined in section 351 of the Public Health Service Act (42 U.S.C. 262).

SEC. 531. None of the funds made available in this Act may be used by the Secretary of Homeland Security or any delegate of the Secretary to issue any rule or regulation which implements the Notice of Proposed Rulemaking related to Petitions for Aliens To Perform Temporary Nonagricultural Services or Labor (H–2B) set out beginning on 70 Fed. Reg. 3984 (January 27, 2005).

SEC. 532. Section 831 of the Homeland Security Act of 2002 (6 U.S.C. 391) is amended—

(1) in subsection (a), by striking ''Until September 30, 2009'' and inserting ''Until September 30, 2010,''; and

(2) in subsection (d)(1), by striking ''September 30, 2009,'' and inserting ''September 30, 2010,''.

SEC. 533. None of the funds made available in this Act may be used for planning, testing, piloting, or developing a national identification card.

SEC. 534. (a) Notwithstanding any other provision of this Act, except as provided in subsection (b), and 30 days after the date that the President determines whether to declare a major disaster because of an event and any appeal is completed, the Administrator shall submit to the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on Homeland Security of the House of Representatives, the Committee on Transportation and Infrastructure of the House of Representatives, the Committees on Appropriations of the Senate and the House of Representatives, and publish on the website of the Federal

Emergency Management Agency, a report regarding that decision, which shall summarize damage assessment information used to determine whether to declare a major disaster.

(b) The Administrator may redact from a report under subsection (a) any data that the Administrator determines would compromise national security.

(c) In this section—

(1) the term ''Administrator'' means the Administrator of the Federal Emergency Management Agency; and

(2) the term ''major disaster'' has the meaning given that term in section 102 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122).

SEC. 535. Notwithstanding any other provision of law, in the fiscal year 2010 or a subsequent fiscal year, if the Secretary of Homeland Security determine that the National Bio– and Agro–defense Facility should be located at a site other than Plum Island, New York, the Secretary shall liquidate the Plum Island asset by directing the Administrator of General Services to sell, through public sale, all real and related personal property and transportation assets that support Plum Island operations, subject to such terms and conditions as the Secretary determines are necessary to protect government interests and meet program requirements: *Provided*, That the proceeds of such sale shall be deposited as offsetting collections into the Department of Homeland Security Science and Technology ''Research, Development, Acquisition, and Operations'' account and, subject to appropriation, shall be available until expended, for site acquisition, construction, and costs related to the construction of the National Bio– and Agro–defense Facility, including the costs associated with the sale, including due diligence requirements, necessary environmental remediation at Plum Island, and reimbursement of expenses incurred by the General Services Administration: *Provided further*, That after the completion of construction and environmental remediation, the unexpended balances of funds appropriated for costs referred to in the preceding proviso shall be available for transfer to the appropriate account for design and construction of a consolidated Department of Homeland Security Headquarters project, excluding daily operations and maintenance costs, notwithstanding section 503 of this Act, and the Committees on Appropriations of the Senate and the House of Representatives shall be notified 15 days prior to such transfer.

SEC. 536. Any official who is required by this Act to report or certify to the Committees on Appropriations of the Senate and the House of Representatives may not delegate such authority to perform that act unless specifically authorized herein.

SEC. 537. The Secretary of Homeland Security, in consultation with the Secretary of the Treasury, shall notify the Committees on Appropriations of the Senate and the House of Representatives of any proposed transfers of funds available under subsection (g)(4)(B) of title 31, Unites States Code (as added by Public Law 102–393) from the Department of the Treasury Forfeiture Fund to any agency within the Department of Homeland Security: *Provided*, That none of the funds identified for such a transfer may be obligated until the Committees on Appropriations of the Senate and the House of Representatives approve the proposed transfers.

SEC. 538. If the Assistant Secretary of Homeland Security (Transportation Security Administration) determines that an airport does not need to participate in the basic pilot program under section 402 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note), the Assistant Secretary shall certify to the Committees on Appropriations of the Senate and the House of Representatives that no security risks will result from such non-participation.

SEC. 539. From the unobligated balances of prior year appropriations made available for ''Analysis and Operations'', $2,203,000 is rescinded.

SEC. 540. The explanatory statement referenced in section 4 of Public Law 110–161 for ''National Predisaster Mitigation Fund'' under Federal Emergency Management Agency is deemed to be amended—

(1) by striking ''Dalton Fire District'' and all that follows through ''750,000'' and inserting the following:

''Franklin Regional Council of Governments, MA	250,000
Town of Lanesborough, MA	175,000
University of Massachusetts, MA	175,000'';

(2) by striking ''Santee and'';

(3) by striking ''3,000,000'' and inserting ''1,500,000'';

(4) by inserting after the item relating to Adjutant General's Office of Emergency Preparedness the following:

''Town of Branchville, SC	1,500,000'';

and

(5) by striking ''Public Works Department of the City of Santa Cruz, CA'' and inserting ''Monterey County Water Resources Agency, CA''.

SEC. 541. Section 203(m) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5133(m)) is amended by striking ''September 30, 2009'' and inserting ''September 30, 2010''.

SEC. 542. From the unobligated balances of prior year appropriations made available for the ''Infrastructure Protection and Information Security'' account, $5,963,000 is rescinded.

SEC. 543. From unobligated amounts that are available to the Coast Guard for fiscal year 2008 or 2009 for acquisition, construction, and improvements for shoreside facilities and aids to navigation at Coast Guard Sector Buffalo, the Secretary of Homeland Security shall use such sums as may be necessary to make improvements to the land along the northern portion of Sector Buffalo to enhance public access to the Buffalo Lighthouse and the waterfront.

SEC. 544. For fiscal year 2010 and hereinafter, the Secretary may provide to personnel appointed or assigned to serve abroad, allowances and benefits similar to those provided under chapter 9 of title I of the Foreign Service Act of 1990 (22 U.S.C. 4081 et seq.).

SEC. 545. (a) EXTENSION OF PROGRAMS.—Section 143 of Division A of the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009 (Public Law 110-329; 122 Stat. 3580 et seq.), as amended by section 101 of division J of the Omnibus Appropriations Act, 2009 (Public Law 111–8), is amended by striking ''September 30, 2009'' and inserting ''September 30, 2011''.

(b) PROTECTION OF SOCIAL SECURITY ADMINISTRATION PROGRAMS.—

(1) FUNDING UNDER AGREEMENT.—Effective for fiscal years beginning on or after October 1, 2009, the Commissioner of Social Security and the Secretary of Homeland Security shall enter into and maintain an agreement which shall—

(A) provide funds to the Commissioner for the full costs of the responsibilities of the Commissioner under section 404 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note), including—

(i) acquiring, installing, and maintaining technological equipment and systems necessary for the fulfillment of the responsibilities of the Commissioner under such section 404, but only that portion of such costs that are attributable exclusively to such responsibilities; and

(ii) responding to individuals who contest a tentative nonconfirmation provided by the basic pilot confirmation system established under such section;

(B) subject to the availability of appropriations for such purpose, provide such funds quarterly in advance of the applicable quarter based on estimating methodology agreed to by the Commissioner and the Secretary (except in such instances where the delayed enactment of an annual appropriation may preclude such quarterly payments); and

(C) require an annual accounting and reconciliation of the actual costs incurred and the funds provided under the agreement, which shall be jointly reviewed by the Office of the Inspector General of the Social Security Administration and the Office of Inspector General of the Department of Homeland Security.

(2) CONTINUATION OF EMPLOYMENT VERIFICATION IN ABSENCE OF TIMELY AGREEMENT.—In any case in which the agreement required under paragraph (1) for any fiscal year beginning on or after October 1, 2009, has not been reached as of October 1 of such fiscal year, the most recent agreement between the Commissioner and the Secretary of Homeland Security providing for funding to cover the costs of the responsibilities of the Commissioner under section 404 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note) shall be deemed in effect on an interim basis for such fiscal year until such time as an agreement required under paragraph (1) is subsequently reached, except that the terms of such interim agreement shall be modified by the Director of the Office of Management and Budget to adjust for inflation and any increase or decrease in the volume of requests under the basic pilot confirmation system. In any case in which an interim agreement applies for any fiscal year under this paragraph, the Commissioner and the Secretary shall, not later than October 1 of such fiscal year, notify the Committee on Ways and Means of the House of Representatives, the Committees on the Judiciary of the Senate and the House of Representatives, the Committees on Appropriations of the Senate and the House of Representatives, and the Committee on Finance of the Senate of the failure to reach the agreement required under paragraph (1) for such fiscal year. Until such time as the agreement required under paragraph (1) has been reached for such fiscal year, the Commissioner and the Secretary shall, not later than the end of each 90-day period after October 1 of such fiscal year, notify such Committees of the status of negotiations between the Commissioner and the Secretary in order to reach such an agreement.

(c) GAO STUDY OF BASIC PILOT CONFIRMATION SYSTEM.—

(1) IN GENERAL.—As soon as practicable after the date of the enactment of this Act, the Comptroller General shall conduct a study regarding erroneous tentative nonconfirmations under the basic pilot confirmation system established under section 404(a)

of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note).

(2) MATTERS TO BE STUDIED.—In the study required under paragraph (1), the Comptroller General shall determine and analyze—

(A) the causes of erroneous tentative nonconfirmations under the basic pilot confirmation system;

(B) the processes by which such erroneous tentative nonconfirmations are remedied; and

(C) the effect of such erroneous tentative nonconfirmations on individuals, employers, and Federal agencies.

(3) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Comptroller General shall submit the results of the study required under paragraph (1) to the Committee on Ways and Means of the House of Representatives, the Committees on the Judiciary of the Senate and the House of Representatives, the Committee on Finance of the Senate, and the Committees on Appropriations of the Senate and the House of Representatives.

(d) GAO STUDY OF EFFECTS OF BASIC PILOT PROGRAM ON SMALL ENTITIES.—

(1) IN GENERAL.—Not later than 2 years after the date of the enactment of this Act, the Comptroller General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives and the Committees on Appropriations of the Senate and the House of Representatives a report containing the Comptroller General's analysis of the effects of the basic pilot program described in section 404(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note) on small entities (as defined in section 601 of title 5, United States Code). The report shall detail—

(A) the costs of compliance with such program on small entities;

(B) a description and an estimate of the number of small entities enrolled and participating in such program or an explanation of why no such estimate is available;

(C) the projected reporting, recordkeeping, and other compliance requirements of such program on small entities;

(D) factors that impact small entities' enrollment and participation in such program, including access to appropriate technology, geography, entity size, and class of entity; and

(E) the steps, if any, the Secretary of Homeland Security has taken to minimize the economic impact of participating in such program on small entities.

(2) DIRECT AND INDIRECT EFFECTS.—The report shall cover, and treat separately, direct effects (such as wages, time, and fees spent on compliance) and indirect effects (such as the effect on cash flow, sales, and competitiveness).

(3) SPECIFIC CONTENTS.—The report shall provide specific and separate details with respect to—

(A) small businesses (as defined in section 601 of title 5, United States Code) with fewer than 50 employees; and

(B) small entities operating in States that have mandated use of the basic pilot program.

SEC. 546. (a) IN GENERAL.—Strike subparagraphs (A) through (C) that appear within section 426(b) of division J of the Consolidated Appropriations Act, 2005 (Public Law 108–447) and insert the following:

''(A) SECRETARAY OF STATE.—One-third of the amounts deposited into the Fraud Prevention and Detection Account shall remain available to the Secretary of State until expended for programs and activities—

''(i) to increase the number of consular and diplomatic security personnel assigned primarily to the function of preventing and detecting fraud by applicants for visas described in subparagraph (H)(i), (H)(ii), or (L) of section 101(a)(15);

''(ii) otherwise to prevent and detect visa fraud, including fraud by applicants for visas described in subparagraph (H)(i), (H)(ii), or (L) of section 101(a)(15), as well as the purchase, lease, construction, and staffing of facilities for the processing of these classes of visa, in consultation with the Secretary of Homeland Security as appropriate; and

''(iii) upon request by the Secretary of Homeland Security, to assist such Secretary in carrying out the fraud prevention and detection programs and activities described in subparagraph (B).

''(B) SECRETARY OF HOMELAND SECURITY.—One-third of the amounts deposited into the Fraud Prevention and Detection Account shall remain available to the Secretary of Homeland Security until expended for programs and activities to prevent and detect immigration benefit fraud, including fraud with respect to petitions filed under paragraph (1) or (2)(A) of section 214(c) to grant an alien nonimmigrant status described in subparagraph (H) or (L) of section 101(a)(15).

''(C) SECRETARY OF LABOR.—One-third of the amounts deposited into the Fraud Prevention and Detection Account shall remain available to the Secretary of Labor until expended for wage and hour enforcement programs and activities otherwise authorized to be conducted by the Secretary of Labor that focus on industries likely to employ nonimmigrants, including enforcement programs and activities described in section 212(n) and enforcement programs and activities related to section 214(c)(14)(A)(i).''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date of the enactment of this Act.

CLARIFICATION OF FEE AUTHORITY

SEC. 547. (a) IN GENERAL.—In addition to collection of registration fees described in section 244(c)(1)(B) of the Immigration and Nationality Act (8 U.S.C. 1254a(c)(1)(B)), fees for fingerprinting services, biometric services, and other necessary services may be collected when administering the program described in section 244 of such Act.

(b) CONSTRUCTION.—Subsection (a) shall be construed to apply for fiscal year 1998 and each fiscal year thereafter.

SEC. 548. Section 550(b) of the Department of Homeland Security Appropriations Act, 2007 (Public Law 109–295; 6 U.S.C. 121 note) is amended by striking ''three years after the date of enactment of this Act'' and inserting ''October 4, 2010''.

SEC. 549. For Fiscal Year 2010 and thereafter, the Secretary of Homeland Security may collect fees from any non-Federal participant in a conference, seminar, exhibition, symposium, or similar meeting conducted by the Department of Homeland Security in advance of the conference, either directly or by entering into a contract, and those fees shall be credited to the appropriation or account from which the costs of the conference, seminar, exhibition, symposium, or similar meeting are paid and shall be available to pay the costs of the Department of Homeland Security with respect to the conference or to reimburse the Department for costs incurred with respect to the conference. In the event the total amount of fees collected with respect to a conference exceeds the actual costs of the Department of Homeland Security with respect to the conference, the amount of such excess shall be deposited into the Treasury as miscellaneous receipts.

SEC. 550. From unobligated balances for fiscal year 2009 made available for the Federal Emergency Management Agency ''Trucking Industry Security Grants'' account, $5,572,000 is rescinded.

SEC. 551. None of the funds made avilable in this Act may be obligated for full–scale procurement of Advanced Spectroscopic Portal monitors until the Secretary of Homeland Security submits to the Committees on Appropriations of the Senate and the House of Representatives a report certifying that a significant increase in operational effectiveness will be achieved: *Provided*, That the Secretary shall submit separate and distinct certifications prior to the procurement of Adveced Spectroscopic Portal monitors for primary and secondary deployment that address the unique requirements for operational effectiveness of each type of deployment: *Provided further*, That the Secretary shall consult with the National Academy of Sciences before making such certifications: *Provided further*, That none of the funds provided in this Act may be obligated for high-risk concurrent development and production of mutually dependent software and hardware.

SEC. 552. (a) As part of a plan regarding the proposed disposition of any individual who is detained, as of April 30, 2009, at Naval Station, Guantanamo Bay, Cuba, the Secretary of Homeland Security shall conduct a threat assessment for each such individual who is proposed to be transferred to the continental United States, Alaska, Hawaii, the District of Columbia, or the United States Territories that—

(1) determines the risk that the individual might instigate an act of terrorism within the continental United States, Alaska, Hawaii, the District of Columbia, or the United States Territories if the individual were so transferred; and

(2) determines the risk that the individual might advocate, coerce, or incite violent extremism, ideologically motivated criminal activity, or acts of terrorism, among inmate populations at incarceration facilities within the continental United States, Alaska, Hawaii, the District of Columbia, or the United States Territories if the individual were transferred to such a facility.

(b) Section 44903(j)(2)(C) of title 49, United States Code, is amended by adding at the end the following new clause:

''(v) INCLUSION OF DETAINEES ON NO FLY LIST.—The Assistant Secretary, in coordination with the Terrorist Screening Center, shall include on the No Fly List any individual who was a detainee held at the Naval Station, Guantanamo Bay, Cuba, unless the President certifies in writing to Congress that the detainee poses no threat to the United States, its citizens, or its allies. For purposes of this clause, the term 'detainee' means an individual in the custody or under the physical control of the United States as a result of armed conflict.''.

(c) None of the funds made available in this Act may be used to provide any immigration benefit (including a visa, admission into the United States, parole into the United States, or classification as a refugee or applicant for asylum) to any individual who is detained, as of April 20, 2009, at Naval Station, Guantanamo Bay, Cuba.

(d) Nothing in subsections (b) and (c) shall be construed to prohibit a detainee held at Guantanamo Bay from being brought to the United States for prosecution.

□ 1800

PART B AMENDMENT NO. 4 OFFERED BY MR. KING OF IOWA

Mr. KING of Iowa. Madam Chair, I have an amendment at the desk made in order by the rule.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 4 offered by Mr. KING of Iowa:

At the end of the bill, before the short title, insert the following:

SEC. _____. None of the funds made available in this Act may be used to employ workers described in section 274A(h)(3) of the Immigration and Nationality Act (8 U.S.C. 1324a(h)(3)).

The CHAIR. Pursuant to House Resolution 573, the gentleman from Iowa (Mr. KING) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Iowa.

Mr. KING of Iowa. I yield myself 2 minutes.

My amendment prohibits the Department of Homeland Security funds in this bill from being used to hire illegal immigrants. The Immigration and Nationality Act is very clear. Section 274(a) makes it a crime to knowingly hire or employ an illegal immigrant. There are no exceptions.

Despite the law, over 8 million illegal immigrants currently have jobs in the United States, and some of those are no doubt employed by and with DHS funds under Federal contracts.

Unemployment today is at over 15 percent for lower-skilled American workers. Congress should do anything possible to end the hiring of illegal immigrants and save those jobs for American workers, Madam Chair.

A 2006 audit report by the Office of Inspector General indicates that the U.S. Government was the Nation's most egregious employer of illegal aliens. Seventeen of the top 100 offending employers were Federal, State, or local government entities. This report also found that, of the sample, 44 percent of the government workers were unauthorized workers, and 3 percent of government workers had no immigration status whatsoever.

These numbers are alarming. The IG report raises a national security issue. The report states, ''Noncitizens who work without DHS authorization could affect homeland security because they may obtain employment in sensitive areas.''

The report goes on to say that the People's Republic of China ranked fourth and Iran ranked sixth among the top 10 countries of birth for employees that were audited in this report.

With the unemployment rate at 9.4 percent, we have got to stop the hiring of illegals, and the Federal Government has to lead the charge.

I reserve the balance of my time.

Mr. PRICE of North Carolina. I ask unanimous consent to claim the time in opposition.

The CHAIR. Without objection, the gentleman from North Carolina is recognized for 5 minutes.

There was no objection.

Mr. PRICE of North Carolina. I would reserve the balance of my time.

Mr. KING of Iowa. Madam Chair, I'd yield such time as he may consume to the ranking member, the gentleman from Kentucky (Mr. ROGERS).

Mr. ROGERS of Kentucky. I thank the gentleman for yielding and I thank him for this amendment, and I support it fully. The administration's new policy on worksite enforcement, from my point of view, amounts to de facto amnesty.

The raid that was made in Seattle after this administration took office, where the 24 or so illegal aliens who got their job by false papers were seized and arrested and then turned loose and, on top of that, given a work permit, that's the new policy of this administration. So that an illegal alien knows that if he or she is working in a place that's raided, they can get a permit to go back to work, which makes them legal.

So, as far as I'm concerned, the new policy of the administration is de facto amnesty, and the gentleman's amendment reaches a part of that issue, and I salute him for it. But I hope and trust that the administration will come to their senses and give us a rational immigration policy that requires worksite enforcement at a time when American citizens of the country are out of work, that will enforce the illegal alien laws on the books.

And I thank the gentleman for yielding.

Mr. KING of Iowa. Reclaiming my time, and thanking the ranking member from Kentucky, I would just add that we as employers on this Hill are now required to use E-Verify with our employees. This isn't too high a standard to ask of the balance of the Federal Government, particularly within this appropriation.

I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I yield such time as she may consume to the chairwoman of the Immigration Subcommittee of the Judiciary Committee, the gentlewoman from California (Ms. ZOE LOFGREN).

Ms. ZOE LOFGREN of California. Thank you, Mr. PRICE.

In looking at this amendment, I think it's important for Members to know that they can either vote for it or against it. It doesn't really matter because it's a restatement of existing law.

I would direct the attention of Members to section 274A(h)(3) of the Immigration and Nationality Act, 8 U.S. Code 1324a(h)(3), which says, and I read it, in part, authorized alien means with respect to the employment of an alien at a particular time the alien is not at that time either lawfully admitted for permanent residence or authorized to be so employed by this act or by the Attorney General.

As I say, this provision is not necessary. Current law also requires all employers to verify the employment authorization of employees here in the Federal Government, and there already are criminal and civil penalties for hiring unauthorized immigrants. Again, that is current law.

Current law also permits employers to electronically verify the employment eligibility of employees pursuant to section 401 and 402 of Public Law 104–208, the Illegal Immigration Reform and Immigrant Responsibility Act of 1996. That is the E-Verify program that Members are aware of.

Current law requires the legislative and executive branches of the Federal Government to use E-Verify to verify the employment eligibility of their employees pursuant to section 402(e)(1) of Public Law 104–208; again, the Illegal Immigration Reform and Immigration Responsibility Act of 1996.

So, I provide this information to Members not as an advocate for or against the amendment, simply to note that this is a restatement of existing law.

Mr. PRICE of North Carolina. I thank our colleague for those clarifying remarks and yield back the balance of my time.

Mr. KING of Iowa. Madam Chair, may I inquire as to how much time remains?

The CHAIR. The gentleman has 90 seconds remaining.

Mr. KING of Iowa. Thank you, Madam Chair. I yield myself the balance of my time.

I would just reiterate that the Federal Government is among the most egregious violators of hiring illegal workers, and that's been brought out in this IG report that I spoke to in my opening remarks.

Seventeen of the top 100 violating entities were government entities, with 44 percent of the government workers that were part of this study were unauthorized. It didn't mean they were all illegal; it meant they were not verified.

And so I recall back in 1986 when the amnesty bill was passed, the last big amnesty bill was passed, I remember the fear that the INS would come into my office, and I made sure that I dotted all the I's, crossed all the T's, verified the identification, and kept the I–9 file on record. And they're still on record someplace in my archives. I think that is the kind of due diligence that the Federal Government—all government ought to support.

This is an amendment that one might argue that it doesn't directly change policy. I would agree with the

gentlelady, the Chair of the Immigration Subcommittee, on that, but it reinforces and it reiterates a policy. There are no exceptions to violation of that section of the code.

This is an amendment also that passed on this particular appropriations bill in 2007. It's something that has had broad support across this country, and it really should not be controversial. It should be something that we should all join together with, and hopefully we will be able to move along and get to the point where the right, left, and middle hand knows what the others are doing.

I urge adoption of the amendment.

□ 1815

I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Iowa (Mr. KING).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr KING of Iowa. Madam Chair, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Iowa will be postponed.

PART B AMENDMENT NO. 6 OFFERED BY MR. NEUGEBAUER

Mr. NEUGEBAUER. Madam Chairman, I have an amendment at the desk made in order by the rule.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B Amendment No. 6 offered by Mr. NEUGEBAUER:

At the end of the bill (before the short title) add the following new section:

SEC. ____. The amounts otherwise provided in this Act for the following accounts are hereby reduced by the following amounts:

(1) ''Office of the Under Secretary for Management'', $200,000,000.

(2) ''Office of Inspector General'', $5,000,000.

(3) ''U.S. Customs and Border Protection—Salaries and Expenses'', $160,000,000.

(4) ''U.S. Customs and Border Protection—Border Security Fencing, Infrastructure, and Technology'', $100,000,000.

(5) ''U.S. Customs and Border Protection—Facilities Management'', $420,000,000.

(6) ''U.S. Immigration and Customs Enforcement—Automation Modernization'', $20,000,000.

(7) ''Transportation Security Administration—Aviation Security'', $1,000,000,000.

(8) ''Coast Guard—Acquisition, Construction, and Improvements'', $98,000,000.

(9) ''Federal Emergency Management Agency—State and Local Programs'', $300,000,000.

(10) ''Federal Emergency Management Agency—Firefighter Assistance Grants'', $210,000,000.

(11) and ''Federal Emergency Management Agency—Emergency Food and Shelter'', $100,000,000.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Texas (Mr. NEUGEBAUER) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

Mr. NEUGEBAUER. Madam Chairman, I yield myself 3 minutes.

These are unprecedented times in our country. We have people that are out of work. We have people that are losing their homes. Businesses are closing. And a lot of people wonder, how did that happen? When some people look for the cause of that, they say that unbridled spending and borrowing by individuals, by companies and even by government brought us to this point in our country where our economy is in a deep slump. Many of those families are having to make a lot of changes in their lives, making sacrifices.

Unfortunately, the Federal Government is not doing the same thing. At a time when across this country American families are tightening their belts, stopping the unlimited spending and borrowing, the Federal Government continues to do just that. In fact, Madam Chairman, this year we're on track to have a $2 trillion deficit. Now just for those folks that don't know what $1 trillion is, if you had to count to 1 trillion, it would take you 17,000 years. So if you are going to count to 2 trillion, it is going to take you 34,000 years.

So what does my amendment do? What this does is it just says, this stimulus money that we put into Homeland Security, some $2.7 billion on top of the $43 billion that we had already approved for FY09 and we're now talking about approving $43 billion for 2010, basically it says, you know what, we're going to have to tighten our belts. So it takes that stimulus money out.

Now you say, Well, why would you do that? Well, what we've already heard from a number of people, including administration officials, is, Hey, we may not be spending this correctly. We may not have gotten it right. Well, let me tell you, when people back home are having to tighten their belts and when they are looking at some of the largest deficits in the history of this country, they want Congress to get this right. What this does, it preserves the many programs that are already important and that many people have spoken on behalf of; but it doesn't let them continue to spend this $2.7 billion that, quite honestly, we didn't have to begin with. It's one thing to spend additional money when you have it; but when you don't have it, it's another issue.

The people back home are faced with that very same issue. I got a letter from one of my constituents in Abilene, Texas, the other day. It said, Congressman, you know what, we got caught up in the credit card and borrowing; and it said, We've stopped that. We've quit charging a lot of things we used to charge. We have not taken the vacations we were taking. We've dropped a lot of items. We were doing it, and now we're saving.

The question she asked, Congressman, why isn't the Federal Government doing the same thing? Do they not understand that we cannot continue to run these deficits at these levels, continue to spend money that we do not have? Madam Chairman, we have to stop this. We cannot leave a legacy for future generations where they have no future. It is projected in just a few years that we will be paying interest to the tune of $1 billion a day—$1 billion a day in interest. And that interest doesn't do anything for our country. It pays back countries like China and Japan for the money that they have provided to support our borrowing and spending habit. It's time that we stop that. This is a commonsense approach. It keeps the funding at a constant level, but it takes away this $2.7 billion that we didn't have in the first place.

I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I rise in opposition to the gentleman's amendment.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. PRICE of North Carolina. Madam Chairman, it's clear what the gentleman's amendment does. It reduces funding levels in various accounts in this bill by the amounts appropriated in the Recovery Act. Just as a few examples, he cuts $200 million from the Under Secretary for Management because there was $200 million in the Recovery Act for the new DHS headquarters at St. Elizabeth's. But there's no money in this bill for the new DHS headquarters. He's just cutting management and oversight for the Department by more than 75 percent.

He cuts $5 million from the Inspector General because there was $5 million specifically included to help monitor Recovery Act expenditures. But there's no money in this bill specifically for Recovery Act oversight. It simply comes out of the Inspector General's Office and the critical work that he does.

He cuts $420 million from the CBP budget for facilities management because there was $420 million included in the Recovery Act to replace and renovate land ports of entry into the U.S.. But there's no money in this bill for such construction. So it's really just an indiscriminate and enormous cut to the general upkeep of Border Patrol and Customs facilities.

The gentleman cuts $210 million from the Firefighter Assistance Grants program because there was $210 million included in the Recovery Act for fire station construction. But there's not a penny in this bill for fire station construction. This amendment would reduce grant funding for firefighter equipment by over 50 percent, at a time when local firefighter budgets are already on the chopping block.

The effect of this amendment is very different from the effect of simply rescinding Recovery Act funds. Rather than erasing the effect of stimulus moneys provided through this title in the current year, it guts the ability of the agency to function in the coming year. It would nearly eliminate the budgets for hiring personnel, managing equipment purchases, departmental security, and DHS facilities. If this amendment passes, the Kansas City Royals—not exactly the biggest spending team in baseball—would spend more on player payroll than the third-largest department in the Federal Government would have to manage its affairs. CBP couldn't pay rent for their existing facilities. Modernization of airport screening for explosives and advancements permitting passengers to safely carry larger containers of liquids onto planes would grind to a halt. I think that's probably enough to illustrate just how destructive this amendment would be and how indiscriminate it would be.

I urge my colleagues to oppose this devastating amendment.

I reserve the balance of my time.

Mr. NEUGEBAUER. The chairman brings up the point that we are gutting this bill. In fact, we are not gutting this bill. We're just trying to give the American taxpayers some of their money back, $2.7 billion. And unfortunately it was $2.7 billion that we didn't have. If he has some other areas that would be better served by cutting those programs, I would love to have that discussion with him. But the bottom line is, I was on an airplane coming back to Washington. I had two people come up and say, Congressman, y'all have got to stop this spending. We can't afford it.

And you know who even gets that more than anybody? I have a 10-year-old grandson Nathan, and I gave Nathan a gift card not too long ago. He and I went to the store, and he went around the store and gathered up a lot of things that he thought would be something that he would like to have. And when he got to the counter, he realized that had he more items in his basket than he had money on his gift card. So he didn't turn to his granddaddy and say, Granddaddy, can you spot me a little extra? He took those items that he couldn't afford back to the shelf where they belonged. That's what the American people want us to do. They want us to do what my 10-year-old grandson Nathan did, and that is to understand that we have a finite amount of money. We cannot break this country. And if we keep spending like this, we are going to break this country.

When we passed this $782 billion stimulus package, we then came back and we started bailing out automobile companies. We had an omnibus bill, $400 billion. We passed a $3.7 trillion budget. People in America, Madam Chairman, are saying, What in the world are y'all doing? The young family back in Abilene, Texas—they get it. Nathan Neugebauer, my 10-year-old grandson, he gets it. I'm wondering when the United States Congress is going to get it.

I yield back the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Texas (Mr. NEUGEBAUER).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. NEUGEBAUER. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Texas will be postponed.

PART C AMENDMENT NO. 7 OFFERED BY MR. FLAKE

Mr. FLAKE. I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part C Amendment No. 7 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds provided in this Act under the heading ''Federal Emergency Management Agency—National Predisaster Mitigation Fund'' shall be available for a grant to the City of Emeryville, California.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Madam Chairman, this amendment would remove $600,000 from the city of Emeryville, California, and return the money to FEMA's Pre-Disaster Mitigation account. The Pre-Disaster Mitigation account used to be awarded solely on the basis of merit. When we established the Department of Homeland Security, we were told time and time again, Don't worry. We're not going to earmark any funding in this legislation, or this bill will not be earmarked. We were told that for a couple of years. Now guess what—it was earmarked a couple of years ago. Now more, now more, now even more. Now there are well over 100 earmarks in the bill.

Of course the State of California is no stranger to floods. In fact, according to FEMA, since the year 2000, parts of California have been declared a major disaster due to flooding five times. But there are many other areas of the country that also suffer from flooding. Louisiana, we all know, is a State that often gets pounded with hurricanes and has also had five major disaster declarations due to flooding in the past 10 years alone. Yet Louisiana doesn't receive a single earmark in this year's Pre-Disaster Mitigation fund. How can this be? The answer is easy. When you abide by a process that rewards some Members over others, you wind up with a spoils system. And I would submit that's what we have with the Pre-Disaster Mitigation fund is a classic spoils system. Unless we can determine that mother nature somehow finds those districts represented by appropriators and sends more floods, more earthquakes, more natural disasters somehow to those districts or to the districts of powerful people on powerful committees, then we have a spoils system. That is an example here.

When we look at this year's Pre-Disaster Mitigation earmarks, we see of the $150 million appropriated for the grant program, altogether in this year's bill, more than $24 million is earmarked. There are a total of 58 predisaster earmarks. Nearly 30 percent of them go to members of the Appropriations Committee. When you consider the dollar value of these 58 earmarks, the picture becomes even bleaker. Nearly 40 percent of the funds earmarked for Pre-Disaster Mitigation are going to districts represented by members on the Appropriations Committee.

Again, unless Mother Nature knows which districts are represented by appropriators, we've got a problem here. Appropriators make up just 13 percent of this legislative body. So 13 percent of the House will take home 40 percent of Pre-Disaster Mitigation spoils. Homeland Security earmarks, as a whole, favor Members who serve in a position of power, either as an appropriator, in leadership, as a chairman or a ranking minority member of the committee. If that's not a spoils system, I don't know what is. We ought to let this Pre-Disaster Mitigation program work as it should.

A while ago the Department of Homeland Security asked if this account could be distributed with a risk-based formula, but the committee said no. They wanted to keep the same competitive grant formula, a competitive grant formula that really isn't competitive at all because a quarter of it is already earmarked; and within a few years, it will probably all be earmarked. And guess what—it will largely go to the districts represented by appropriators or those in powerful committee positions.

I urge the adoption of the amendment.

I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I rise in opposition to the amendment.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. PRICE of North Carolina. Madam Chairman, if this amendment were to be adopted, the locality that is targeted, namely, the city of Emeryville,

would not receive funding, nor would the locality even be able to compete for a Pre-Disaster Mitigation grant through FEMA because the amendment would strike any Pre-Disaster Mitigation funding for that locality for the fiscal year 2010.

Now, Madam Chairwoman, FEMA has reviewed every mitigation project in this bill. Each project was deemed eligible based on the requirements in the Stafford Act and will be used to protect lives and reduce property damages in some of the most hazard-prone areas of the country. There should be no question that this request underwent rigorous scrutiny and meets the test of being aligned with and supporting the missions of DHS.

□ 1830

So I urge colleagues to defeat this amendment.

Mr. ROGERS of Kentucky. Will the gentleman yield?

Mr. PRICE of North Carolina. I would yield, yes.

Mr. ROGERS of Kentucky. I want to join the gentleman in saying that we have scrubbed these congressionally directed spending in this bill unlike anything before. They are clean, and they are needed in the areas where they have been congressionally directed. So I join the gentleman in opposing this amendment.

Mr. PRICE of North Carolina. I thank the gentleman.

Madam Chairman, I am happy now to yield to our colleague from California (Ms. LEE).

Ms. LEE of California. Let me thank both gentlemen for their support and for understanding the necessity really for this congressionally directed spending, Federal funding, better known as an earmark to some.

Let me just say that I do rise in opposition to the amendment offered by the gentleman from Arizona and in support of the request for funding that was made by the city of Emeryville in my district for funding through FEMA's Predisaster Mitigation Program.

Let me just start by saying that I respect the gentleman from Arizona (Mr. FLAKE). We have worked together in the past on many issues related to lifting the embargo on Cuba and normalizing relations with that country and on many, many issues. But I believe he is wrong about the funding I requested in the Homeland Security Appropriations for the city of Emeryville's Community Emergency Safety Facilities Project.

The city of Emeryville is in my district. It has a dense population of nearly 10,000 residents and a 1.2 square-mile region. Although much smaller in size than the neighboring city of San Francisco, this small city has become a leader in interagency cooperation and for the new economy innovation. On behalf of the city of Emeryville—now, this was the only request that I made—I requested $600,000 to help finance the seismic retrofitting of the city's principal, and this is the only, emergency community gathering and housing facility in the event of a natural disaster. It's the Emery Unified High School gymnasium. The city has requested these funds to finance 15 percent of the initial cost for phase one of the project for ''seismic planning and development,'' which in total would cost about $4 million. The balance of the funding will come from redevelopment funds directly from the city of Emeryville and also an anticipated local bond between $40 million and $75 million that will also direct some funds to the project.

The remainder of the necessary capital, which is expected to finish this project, will come from State, local, and Federal sources, including school facilities funding, competitive State bond programs, and Federal development or infrastructure grants.

Several years ago an evaluation of the Emery Secondary School gymnasium was conducted based on FEMA's criteria for structurally sound facilities and came to the following conclusion: without seismic strengthening of the buildings, they could experience high levels of localized structural and nonstructural damage in a moderate or large earthquake sufficient to pose unacceptable high levels of risk to the life safety of the buildings' occupants.

The Hayward Fault, which runs through Emeryville and the two neighboring cities of Berkeley and Oakland, is considered one of the most dangerous earthquake faults in the world. Scientists agree that the Hayward Fault could soon experience a large earthquake with an impact on many densely populated cities throughout the bay area. The Hayward Fault has ruptured about every 140 years for its previous five large earthquakes, and this past October marked the 140th anniversary of the 1868 earthquake, which was approximated to be a magnitude of about 7.

The recent earthquake disasters around the world highlight the need for the highest level of structural safety in our schools and emergency facilities.

This is the only request and I'm just asking that we support this, Madam Chairman. I would certainly support any disaster mitigation efforts for Mr. FLAKE's district should a disaster hit his district. I would also support funding to alleviate that.

Mr. FLAKE. Madam Chair, let me just say again here's a chart. This is FEMA predisaster earmarks secured by appropriators, leadership, committee Chairs, and ranking members. If we look here at fiscal year 2009 and 2010, again 49 and 51 percent respectively, the money is going to powerful appropriators or committee Chairs or ranking minority members that represent just 25 percent of the body.

Again, I will yield anybody time who can stand and say with a straight face that Mother Nature targets districts represented by appropriators or committee Chairs or ranking minority members. I don't think that's the way it is.

I have great respect for the gentlewoman from California. We have worked together on a number of issues. And this is not just an issue that anybody has with this particular earmark, but it is with many in this piece of legislation. We need to ensure that FEMA looks and does this on a risk-based way where they look at risk and award accordingly. When Members of Congress do an earmark, it simply becomes a spoils system; and, unfortunately, I think that's what we are seeing here.

So I would urge support for the amendment.

Madam Chair, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. FLAKE. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

PART C AMENDMENT NO. 5 OFFERED BY MR. FLAKE

Mr. FLAKE. Madam Chairman, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

PARLIAMENTARY INQUIRY

Mr. CULBERSON. Madam Chair, parliamentary inquiry.

The CHAIR. The gentleman will state his parliamentary inquiry.

Mr. CULBERSON. Madam Chair, could we ask the Clerk to please read the text of the amendment so we can be sure which amendment is before the House.

The CHAIR. Without objection, the Clerk will report the amendment.

There was no objection.

The Clerk read as follows:

Part C amendment No. 5 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds provided in this Act under the heading ''Federal Emergency Management Agency—National Predisaster Mitigation Fund'' shall be available for a grant to the Harris County Flood Control District, Texas.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Madam Chair, this amendment would remove an earmark of $1 million for the Harris County Flood Control District and would return money to FEMA's Predisaster Mitigation Fund. This is a similar amendment to the one that I just offered. These are earmarks to the Predisaster Mitigation Fund, as I mentioned before.

It used to be that when organizations at the local level wanted to apply for this funding, they submitted a proposal to FEMA. FEMA has a 70-page guidance document for people applying for these grants. Unfortunately, when people apply now, 25 percent of the money that was in this grant program is gone because it's earmarked. It's been taken away, taken off the top. Where it really wasn't before. And as I mentioned before, when you have one-quarter of this funding taken, we find that 40 percent of the value goes to just 25 percent of the Members or actually 40 percent of the value goes to just 13 percent of the Members in this body, those districts represented by appropriators.

And, again, I will gladly yield time to anybody who can stand and say that Mother Nature targets districts by appropriators or other powerful Members more than Mother Nature does other districts. It simply doesn't happen.

But, again, FEMA has asked if they could establish a more risk-based program where they could evaluate risk and allocate funding accordingly. That's how it should be done. But we in Congress have said no, because why? We like the system how it is because it's easy to earmark and it makes it more likely that Members, particularly of the Appropriations Committee, can get earmarks for their district. And that's what we have here.

In this particular case, this flood control district, before we started earmarking this account, applied for a grant under the Predisaster Mitigation Program and got a grant. So competitively they established that they had need for it. That's how it should be. But then the next year I don't know if it was going to get the grant or just didn't want to apply, but money was earmarked and then the next year earmarked again. Now this year there's another earmark for that same flood control district.

I think it's time to let FEMA decide under a risk-based formula where this funding should go. We all know the process here. It's why we have a commission to close military bases because we simply can't discipline ourselves as Members to say that base in my district may need to be closed, and then we move to protect other people's bases if they'll protect ours. The process of logrolling takes effect. That's why it's best to establish criteria and let the agency do the work. If we don't like how they do it, we exercise oversight and force them to change the program and to do it equitably. But to do it this way just means that a spoils system occurs, and that's what we have here.

Madam Chair, I reserve the balance of my time.

Mr. CULBERSON. Madam Chairman, I rise to claim the time in opposition to the amendment.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. CULBERSON. Madam Chairman, the gentleman from Arizona's amendment purports to be fiscally conservative.

I have, as a Member of Congress over the years, established one of the best fiscal conservative ratings in Congress. I voted against $2.6 trillion of spending under President Bush, $1.3 trillion so far under this President. I've consistently been ranked as one of the most fiscally conservative Members of Congress. And we, each of us, are elected by our districts to use our good judgment, to use discretion and, in my case, fiscally conservative standards in those spending requests that we push forward, those that we set aside. I've worked aggressively with my ranking member and members of this committee to try to save money in this bill and others.

But the city of Houston, Harris County, has suffered in just the most recent hurricane, Hurricane Ike, which just hit the gulf coast. It hit Houston the hardest, $2.1 billion worth of damage to southeast Texas that the Federal Government has reimbursed. The city of Houston alone, Harris County, home damage: $8.5 billion worth of damage to homes in Harris County.

Now, I asked for very little as a Member of Congress to try to help the people of Houston. One area where we need help is in flood control. One area where we clearly need help is in mitigation to prevent additional damage.

In fact, because of the work I've done as a member of the Appropriations Committee and in the very few areas I asked for help on are national security, border security, medical and scientific research, and in flood control. And in flood control, the homes along Braes Bayou, for example, didn't flood. The Texas Medical Center, Mr. FLAKE, did not flood as a result of this hurricane because of work that I was able to do with the help of my colleagues on the Appropriations Committee, the Harris County delegation working together.

Mr. FLAKE's amendment would strike all Federal funding for all of Harris County flood control. His amendment not only would save no money. To all my fellow fiscal conservatives out there watching, that would be one thing.

Your amendment saves no money, and you would eliminate all Federal flood control money for all Harris County, which just got hammered by the biggest hurricane to hit southeast Texas in my lifetime.

□ 1845

Now let me yield briefly to my ranking member, Mr. ROGERS, and I would be proud to yield to my chairman, Mr. PRICE.

Mr. ROGERS of Kentucky. I join the gentleman in opposing the amendment.

I think the gentleman would be derelict in his duties to the Congress and to the people of his district and the country if he didn't make these efforts to help the people that he represents. That is not a unique thing to try to help the people that you represent in the U.S. Congress. And I salute the gentleman.

Mr. CULBERSON. In a fiscally conservative way I may add. And I'm proud to yield to my chairman, Mr. PRICE, from North Carolina.

Thank you, Mr. ROGERS.

Mr. PRICE of North Carolina. I commend the gentleman for looking out for his people, looking out for his home area and crafting an amendment that is responsive to some very real perils. And I will just say, once again, these proposals have been vetted by FEMA. There is no question they underwent rigorous scrutiny. This is consistent with the Stafford Act and will protect lives and reduce property damages in this locality. So I commend him for his advocacy.

Mr. CULBERSON. Thank you, Mr. Chairman.

I would also say that each one of us, as Members of Congress, how I for myself have said from the moment I was appointed to the Appropriations Committee, I have published every request that I submit for designated spending on my Web site. I was the first Member of Congress to send a Twitter message from the Oval Office, the first one to send a Twitter message from the floor of Congress. I love technology. My hero, Thomas Jefferson, always said to try all abuses at the bar of public opinion. And I believe very strongly in transparency and openness. I published every appropriations request I have ever made on my Web site since 2003. I was the first Member of Congress to do so. I published every appropriation, designated funding request, that I received on my Web site since 2003. I believe I was the first Member of Congress to do so, because I don't ask for much. I will not make a funding request for a private individual or a private company. I limit them to national security, border security, local units of government, State Government, or the Texas Medical Center, God bless them, the great work they are doing at M.D. Anderson Hospital, medical or scientific research, the Nation's space program or flood control. The Houston ship channel will silt up in 6 months unless we on the Appropriations Committee direct the Army Corps of Engineers to dredge it. They would not have built a railroad bridge connecting Galveston Island to the Texas mainland

unless the Homeland Security Committee, and I want to thank Mr. ROGERS and Chairman PRICE again, for connecting the Galveston Island to the mainland. That is not even in my district, nor is the Houston ship channel.

These are fiscally conservative, prudent requests, Mr. FLAKE. You in Arizona, I have to tell you, are just not familiar with Harris County. I don't think you will find any Member of Congress with higher fiscally conservative standards than I have. And I think the request is entirely appropriate. It is absolutely necessary for an area that got hammered by the hurricane.

And I urge defeat of the Member's amendment because it won't even save money.

The CHAIR. The time of the gentleman has expired.

ANNOUNCEMENT BY THE CHAIR

The CHAIR. Members are reminded to address their remarks to the Chair.

Mr. FLAKE. May I ask the time remaining.

The CHAIR. The gentleman has 2 minutes remaining.

Mr. FLAKE. I will be glad to yield to the gentleman 30 more seconds if you want to go on. You are making my case.

ANNOUNCEMENT BY THE CHAIR

The CHAIR. Members are reminded to address their remarks to the Chair.

Mr. CULBERSON. Thank you. Madam Chairman, Kitt Peak—I'm not sure what part Arizona Mr. FLAKE has, but every piece of legislation passed by Congress directs the Congress—JEFF, which part of Arizona do you have? Excuse me.

Mr. FLAKE. The East Valley.

Mr. CULBERSON. Due south. I'm an amateur astronomer, a passionate fan of Kitt Peak Observatory. Let's say Congress passes a piece of legislation to designate funding for Kitt Peak Observatory. Every bill Congress passes designates funding. All of us have an obligation——

Mr. FLAKE. Reclaiming my time.

Mr. CULBERSON. We have to be fiscally conservative, Mr. FLAKE, on every bill, not just appropriations.

Mr. FLAKE. I'm a slow learner.

Let me remind the gentleman that this district, Harris County, received $1 million when they applied for the funding before the earmarks started, 2 years ago, last year, I'm sorry, 3 years ago—2 years ago got a $1 million earmark, last year got another $1 million earmark, this year asking for a third $1 million earmark. And we just had another member of the Texas delegation stand just moments ago and offer an amendment to move money to the predisaster mitigation account because he couldn't get the funding for his district in Texas because 25 percent of the funding, by the time people in his district even applied for the funding, is gone. It is earmarked, cut off the top.

And I already explained the spoils system that is here, and still nobody has taken me up on my offer. I will yield time to anybody who can tell me that Mother Nature targets districts represented by appropriators.

It simply doesn't happen.

Mr. CULBERSON. I will happily take the challenge. I'm ready.

Mr. FLAKE. No thanks. I know better. But I believe my time is out.

I urge adoption of the amendment. We simply have to be more fiscally responsible. And we have to have a system at FEMA that is based on risk and merit rather than spoils. This is a system based on spoils right now. That is why the adoption of the amendment should be done.

I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. FLAKE. Madam Chair, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

PART C AMENDMENT NO. 2 OFFERED BY MR. FLAKE

Mr. FLAKE. I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part C amendment No. 2 Offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds provided in this Act under the heading ''Science and Technology—Research, Development, Acquisition, and Operations'' shall be available for the National Institute for Hometown Security, Kentucky, and the amount otherwise provided under such heading is hereby reduced by $10,000,000.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Madam Chair, this amendment would remove $10 million in funding for the National Institute for Homeland Security based in Somerset, Kentucky, and reduce the overall cost of the bill by a commensurate amount.

This is not the first time I have brought this earmark to the floor. This earmark is always noticeable if for nothing else the cost. Compared to most earmarks in the bill, this is one of the largest earmarks we have in the Homeland Security bill year after year. This year the earmark alone would cost taxpayers $10 million, and if approved, this would actually be the lowest dollar amount the institute has received since its creation in 2004. According to the Web site, the National Institute for Homeland Security is an independent, nonprofit corporation designed to allow universities in Kentucky to ''more effectively compete for research funds and projects aimed at improving homeland security.''

It goes on to say that the institute's end goal is to match up local universities with projects, then commercialize the resulting product.

Madam Chairman, we all know that Congress has a problem with spending overall. We have a $7.87 billion stimulus package. We had a massive omnibus appropriations bill, we have had numerous bailouts of private companies. Now we are facing nearly $2 trillion in deficits just this year. When I came to this body just 8 years ago, our total budget was around $2 trillion. Now we will have a deficit by the same amount. Yet here we are; we are funding a nonprofit organization, which again, according to its own Web site, apparently would not exist without the assistance of Congress. And it seems that the purpose of this center is to attract other earmarks. It is an institute that seems to beget other earmarks.

I simply don't think that we can continue to do this. Since it was created, the institute has received $74 million in taxpayer funding: $12 million in 2005; $20 million in both 2006 and 2007; $11 million in both 2008 and 2009. When will this end? When will we say enough is enough? We have funded this institute enough, and it will have to compete on its own for other grants.

I reserve the balance of my time.

Mr. ROGERS of Kentucky. Madam Chair, I rise to claim opposition to the amendment.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. ROGERS of Kentucky. Madam Chairman, the Consortium of Kentucky Colleges and Universities was asked by the Department of Homeland Security if they would take on research projects that the department needed answers on, and the consortium said, yes, we will. They said, we can't compete probably singly working by ourselves with the MITs or the Cal Techs or the Harvards or maybe Phoenix University or the University of Arizona. But collectively, as a group, we can.

And so the department gives the project to the consortium, and the best pieces of the consortium then collect together to work on that project. The University of Kentucky may be teamed up with Western Kentucky University, the University of Louisville or perhaps an out-of-state university, and they work on and solve the project that the department has need for.

To set the record straight, the institute receives specified research task orders from the science and technology directorate at DHS. The task orders are then farmed out to the consortium of colleges and universities throughout the State of Kentucky and other public

and private entities across the country for their input on that particular problem.

This process taps into and unleashes the intellectual firepower of our best and brightest people to address new and emerging threats to the homeland.

These are competitive grants. Make no mistake. These are competitive grants. All decisions on funding are made by the Department of Homeland Security. So far, 22 projects are underway with dozens of colleges and universities participating. These are low-cost solutions with a minimal footprint and maximum results.

A couple of examples. University of Kentucky researchers have developed a system to maintain the security of raw milk as it is transported from the dairy farm to the processing plant to combat a problem that we found in China where many dozens of young people were sickened by milk that had been tainted. This issue is critical in securing our food supply. That system is now available across America and is being used.

University of Louisville researchers are developing a system that samples air particles in large enclosed spaces such as shopping malls and sports venues to detect the presence of explosive materials. We know from the London and Madrid mass-transit bombings that terrorists seek enclosed and populated places. Western Kentucky University teamed up with the University of Louisville, and they have designed devices to detect leaks in rail transport tanker cars. A chlorine or ammonium nitrate spill in any neighborhood could be disastrous. Research funds have been awarded to reduce the explosive potential of ammonium nitrate and fuel oil by coating the material with coal combustion byproducts. These two chemicals, when mixed, form a common explosive material for terrorists and were the deadly combination used in the tragic Oklahoma City bombing.

MITOC, Man-Portable Interoperable Tactical Operation Center, provides communication services to disaster sites to make interoperable communications where it did not exist in these public venues. MITOC has been deployed to areas around the country to help them solve the interoperable need for communications in the disaster scene when no other communication systems were working, including Texas during Hurricane Ike and recently in Kentucky during the massive ice storm throughout the entire State.

So these are research projects that are producing results that the department needs and asks this consortium to do, and is engaging the intellectual firepower of these universities and colleges in Kentucky and their counterparts throughout the country. It is one of the best things the department has ever done. And I'm happy to say it is in my home State of Kentucky.

Mr. PRICE of North Carolina. If the gentleman will yield, I want to commend him for his advocacy of these outstanding programs and join him in opposition to this ill-conceived amendment.

Mr. ROGERS of Kentucky. I thank the gentleman.

I reserve.

Mr. FLAKE. May I inquire of the time remaining?

The CHAIR. The gentleman has 3 minutes remaining.

Mr. FLAKE. Let me just say first there have been a few statements first that imply that the Department of Homeland Security or FEMA in the case of the last two amendments somehow endorsed these amendments or endorsed these projects. According to OMB, the administration responses about earmark requests ''should not be construed as an evaluation or recommendation of specific earmark requests based on merit or value.'' So we can say that, hey, the agency wants this. But the official position of the administration is, We are taking no position. And of course, they really can't because these earmark dollars are sometimes taken from the account that they would otherwise use to give grants based on merit or based on risk.

Again, this chart is even starker when we look at the overall bill that we are considering today. Homeland security earmark dollars secured by appropriators, leadership, committee chairs, and ranking members. FY 09, 45 percent—45 percent—of the total in earmark dollars in the bill went to this group. This group represents just 25 percent of the body.

□ 1900

Mr. CULBERSON. Would the gentleman yield?

Mr. FLAKE. I yield to the gentleman.

Mr. CULBERSON. Did you do an analysis by geography? For example, those of us on the Texas gulf coast that get hammered by hurricanes need help with flood mitigation. Did you analyze it geographically and see what percentage goes to the coastal areas of the United States or the floodplains of the Mississippi River?

Mr. FLAKE. I thank the gentleman. I think we all know that the alignment of appropriators and Members in powerful positions does not align with the gulf coast or any other geographic position.

Getting back to the chart, 45 percent last year went to those in powerful positions; 45 percent to 25 percent. This year it is even starker: 71 percent of all earmark dollars in this bill are going to 25 percent of this body. That is a spoil system. I don't know how else you can claim otherwise, unless as I said, and I will yield simply for the purpose if somebody can stand up and say that Mother Nature targets this group more than others, then this is a spoil system. When we have here an earmark that has been over and over and over awarded, $74 million in taxpayer funding, $12 million in 2005, $20 million in both 2006 and 2007.

Mr. CULBERSON. Would the gentleman yield?

Mr. FLAKE. I will yield to the gentleman only if he will answer the question yes or no: Does Mother Nature target districts represented by appropriators?

Mr. CULBERSON. Mother Nature targets all districts equally, Mr. FLAKE. But when it comes to floods and hurricanes, they target the gulf coast. When it comes to floods from the big rivers, they target the Mississippi River Valley.

The CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. FLAKE. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

PART C AMENDMENT NO. 1 OFFERED BY MR. FLAKE

Mr. FLAKE. I have an amendment at the desk, amendment No. 1.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part C amendment No. 1 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds provided in this Act under the heading ''United States Customs and Border Protection—Salaries and Expenses'' shall be available for award to Global Solar, Arizona, for the portable solar charging rechargeable battery systems, and the amount otherwise provided under such heading is hereby reduced by $800,000.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Madam Chairman, I hesitate to challenge this earmark. It was secured by my colleague from Arizona, Mr. PASTOR, for whom I have great admiration and we have a great friendship, but this amendment would remove $800,000 for the portable solar charging rechargeable battery system, and it would lower the bill by a commensurate amount.

According to the earmark table itself, the recipient of this earmark is Global Solar, who, according to the Web site, is a ''privately held company that was incorporated in 1996 that has evolved into a major producer of solar cells.''

The certification letter filed by the earmark's sponsor says the money will

be used ''for the acquisition of manpackable, solar-charging, rechargeable battery systems for use by the U.S. Border Patrol.''

My concern is not with the technology nor with the needs of the Border Patrol, nor with this company in particular. My concern lies with why a specific for-profit entity was designated to receive this earmark funding.

The President recently referred to earmarks for for-profit entities as the ''single most corrupting element of this practice.''

The PMA scandal that has plagued the House of Representatives for months has largely centered on campaign contributions and earmarks for for-profit entities. We simply cannot move ahead as if nothing is happening outside of this body, or even within this body. We have our own Ethics Committee, and the Justice Department is investigating the relationship between campaign contributions and earmarks, and that is largely the case when you have earmarks that go to for-profit companies, earmarks that are little more than sole-source contracts or no-bid contracts.

This is the only one gratefully in this legislation that I have been able to find, an earmark that goes to a for-profit entity, and I would submit, Madam Chair, that we simply shouldn't be earmarking funds for private companies in this legislation.

I urge adoption of the amendment.

I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I rise in opposition to the amendment.

The CHAIR. The gentleman from North Carolina is recognized for 5 minutes.

Mr. PRICE of North Carolina. I want to very quickly turn to Mr. PASTOR, the author of this provision, but I want to assure Members that this provision, like other directed spending, has been vetted down at the Department of Homeland Security. It has been certified to be consistent with the agency's mission; otherwise, it simply isn't eligible.

Now, on this item in particular, I would invite the attention of Members to the actual language of the bill, page 6. This earmark is for $800,000 for procurement of portable solar-charging, rechargeable battery systems to be awarded under full and open competition.

That language is pretty plain; isn't it?

This item is required by law to be subject to a competitive procurement process. And, indeed, any item now in appropriations bills involving for-profit entities are subject to the same requirement. We all need to understand that and read the plain language of the bill.

I yield to the gentleman from Kentucky (Mr. ROGERS).

Mr. ROGERS of Kentucky. I join the chairman in opposing the amendment. As he says, all of these congressionally directed spending earmarks have been vetted by the Department. They have been scrubbed by our subcommittee unlike anything before, and I join in opposition.

Mr. PRICE of North Carolina. I thank the gentleman, and I yield now to my colleague, Mr. PASTOR, to expand on this provision and the reasons that the proposed amendment should be rejected.

Mr. PASTOR of Arizona. First of all, I want to state for the record that I have never met personally with the company listed as the recipient for this earmark. It has spurred my interest, the technology and the use of technology, that I brought this request to the subcommittee. And while this is a for-profit company which is listed as a recipient, under the new rules instituted in this Congress this year, this company or any company will have to compete for the contract, and I know of at least three U.S. companies with products suitable for such competition and a great number of foreign companies that could compete.

This request has been vetted by the Department of Homeland Security and the Border Patrol. The Border Patrol's special response teams and technical teams have stated requirements for this technology which allows them to recharge their power-intensive equipment while deployed in the field on extended missions. These teams manpack over 100 pounds of equipment into the field on their missions, so every pound saved is significant.

This technology, which is basically photovoltaic film, lightweight, portable, allows them to leave behind at the camp previously used car battery-type systems in favor of this lightweight, portable, photovoltaic film. And this allows the person using it to be able to extend the mission for a longer period of time and to be able to recharge their battery so that they can use their communication system, can use sensors, and will allow the Border Patrol to be more effective in its law enforcement efforts. This type of technology is currently used by the military, especially the Marine Corps.

So the intent for this earmark is not to reward a company because they met with me or because they contributed, which they did not, but to bring forth to the attention of the Border Patrol that this equipment is available for competition for the companies that qualify according to their purchase order so that we can make the Border Patrol, as they extend into the desert, to be more effective and be able to continue the law enforcement. That is the only reason for this earmark, and I oppose the amendment.

Mr. FLAKE. Madam Chair, we have that language saying that this earmark would be awarded under full and open competition. But if you meet with the Department of Defense, as I have, and you ask them, Currently, do you compete out? Do you subject to competition the earmarks that you see? They will say, Yes; yes, unless we don't, basically.

So I asked them—if we look at the 2008 Defense bill, for example, I asked the Department of Defense to actually look and do a random sampling of the earmarks that came that they say are subject to competition to see how many of them actually went to the earmark recipient listed. With uncanny precision, the answer came back all of them that they sampled did go to the earmark recipient listed. If these are to be competed out, why do we have to mention the company at all?

I don't know if it is in order to ask for a unanimous consent to simply remove the name of the company. If these are going to be competed out anyway and if there are at least three companies that have this technology, would it not be in order to say——

Mr. PASTOR of Arizona. Would the gentleman yield?

Mr. FLAKE. Yes, I would yield.

Mr. PASTOR of Arizona. I would have no objection if you removed the name.

Mr. FLAKE. Would it be in order to modify the amendment under a unanimous consent?

The CHAIR. The gentleman may ask unanimous consent to modify his amendment.

Mr. FLAKE. I would ask unanimous consent to modify the amendment to strike the name of the company listed in order that this may be subject to full and open competition.

The CHAIR. Is there objection to the request of the gentleman from Arizona?

Mr. PASTOR of Arizona. I object. At the urging of your colleagues, they asked me to object, so I will object.

The CHAIR. Objection is heard.

Mr. FLAKE. I understand.

As I mentioned before, I have the utmost respect for my colleague from Arizona. He is a straight shooter, and I know that if it were up to him, he would do this. And I think that some things go on their own without sometimes us realizing what we are doing.

But in this case, the language stands that this earmark is to go to a specific company despite other language that may be in the legislation to say this is to be competed out. We know, based on experience, that the Department of Defense or the Department of Homeland Security, in this case, the agency, looks to see what the committee wanted and they will award it based on that, and so it really isn't full and open competition. We shouldn't be listing the company here.

So I would have to urge adoption of the amendment to strike this earmark

unless we can remove the company listed.

Mr. PRICE of North Carolina. Would the gentleman yield?

Mr. FLAKE. Yes.

Mr. PRICE of North Carolina. The gentleman is aware the company is not listed in the bill. The only place the company is listed is in the report, which is a matter of disclosure, and it is not amendable. It can't be modified here on the floor. The bill, as I read earlier, the plain language of the bill says this will be competed.

The CHAIR. The gentleman's time has expired. The amendment will not be altered because objection has been heard.

The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. FLAKE. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

□ 1915

PART D AMENDMENT NO. 1 OFFERED BY MR. FLAKE

Mr. FLAKE. Madam Speaker, I have an amendment at the desk as designee of Mr. CAMPBELL.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part D amendment No. 1 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds provided in this Act under the heading ''National Protection and Programs Directorate—Infrastructure Protection and Information Security'' shall be available to SEARCH of Sacramento, California, for interoperable communications, technical assistance and outreach programs, and the amount otherwise provided under such heading is hereby reduced by $1,000,000.

The CHAIR. Pursuant to House Resolution 573, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. I feel obligated, since I ran out of time, to explain why simply because the language isn't in the bill itself or the name of the company that that still means that the earmark will likely go to the company listed.

In the past few years, the previous President said that he would instruct the agencies not to fund any earmarks that weren't in the bill text. And so as a way to get around it and make sure that those earmarks were funded, the Appropriations Committee actually inserted language saying that language in the report would carry the force of law. And so that's what we've been operating under for the past couple of years to make sure that those earmarks that are simply in a table or in a report still get funded.

In this case, we have language that will be in the table, the table that accompanies the bill in the report. The table in the report lists the company, Global Solar, that is to receive the earmark. And there is a certification that the Member filed saying this earmark is to go to this company at this address. And so, notwithstanding the fact that the language isn't in the bill itself, we still have an issue where the earmark will likely go to the intended recipient.

This amendment would remove $1 million for funding for the National Institute for Communications Interoperability, a nonprofit organization and a subsidiary of SEARCH, the National Consortium for Justice Information and Statistics. In recent testimony before the House Appropriations Committee, the executive director of SEARCH described the organization as a ''State criminal justice support program with a mission to promote the effective use of information and identification technology by criminal justice agencies nationwide.''

This entity just received a $500,000 earmark in the omnibus bill that Congress approved just a few short months ago. According to the sponsor's office, this particular earmark would support the launch of a nationwide institute to train emergency responders to better command and control emergency resources. The proposed pilot project would provide training, certification and outreach programs to State, regional and local coordinators in the first responder community.

Now, this sounds strikingly familiar to a program within the Department of Homeland Security, one that they already administer. The Department of Homeland Security SAFECOM program has developed the Statewide Communications Interoperability Planning Methodology, a comprehensive 10-phase process created to assist States in the creation of their statewide emergency communication plan.

Now, why should Federal funds be earmarked for a private organization that seems to duplicate an effort already undertaken by the agency for which we are appropriating now? If the Department of Homeland Security requires services that only SEARCH could provide, the administration could request funds for it.

So, Madam Chairman, I don't think that we need to earmark funds here. There is a program within the Department of Homeland Security already that does what this private organization—which has just received an earmark in a bill we did a few months ago—is seeking to do.

With that, I reserve the balance of my time.

Mr. PRICE of North Carolina. Madam Chairman, I rise in opposition to this amendment.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. PRICE of North Carolina. As with earlier items that we have discussed this evening, there is simply no question that this request underwent rigorous scrutiny, meets the test of being aligned with supporting the missions of the Department of Homeland Security, and I urge my colleagues to defeat the amendment.

I am happy to yield at this point to my colleague, Mr. ROTHMAN, to expand on the reasons that this amendment is ill advised.

Mr. ROGERS of Kentucky. Would the Chair yield?

Mr. ROTHMAN of New Jersey. I yield to the ranking member.

The CHAIR. The gentleman from North Carolina controls the time.

Mr. PRICE of North Carolina. I am happy to yield to the ranking member.

Mr. ROGERS of Kentucky. I simply want to join my chairman in opposition to the amendment for the reasons that he said.

Mr. PRICE of North Carolina. I thank the gentleman.

Now I yield to Mr. ROTHMAN.

Mr. ROTHMAN of New Jersey. I thank the chairman.

First, I would like to thank Chairman PRICE and Ranking Member ROGERS and my fellow subcommittee members for their leadership on this entire Homeland Security legislation and for their support for this project. As you know, the Department of Homeland Security reviewed this project and had no objection to it. This is a good bill and a good project.

Mr. FLAKE's amendment would remove funding for this project that would otherwise help local, State, and Federal emergency response agencies better communicate and coordinate in the aftermath of a terrorist attack or natural disaster.

My district is across the river from what were the Twin Towers in New York City, and we know firsthand the difficulties that arose in that terrible tragedy because of the inoperability, the lack of communication technologies working together amongst police, fire, and other emergency services.

There was a landmark publication, ''Why Can't We Talk,'' which was produced in the wake of 9/11 by a national task force of 18 associations representing public safety and elected officials. It noted five key reasons why first responders struggle to communicate sometimes with their own agencies.

This $1 million project would support specific initiatives established in the National Emergency Communications Plan delivered to Congress in July 2008 by the U.S. Department of Homeland

Security's Office of Emergency Communications. Working in partnership with that office, the National Institute for Communications Interoperability would address the most critical issue facing the first responder community today, their ability to command and control emergency resources in response to terrorist attacks, natural disasters and crimes through interagency communication.

This project will not only help to make our Nation safer by demonstrating how various regional emergency responses can better coordinate, but it will help to ensure that local, State and Federal tax dollars that have already been allocated in previous Homeland Security measures and in previous budgets throughout the United States are used more wisely. The primary goal of this project is to ensure the best possible use of taxpayer money by public safety officers and first responder organizations.

Federal, State, and local governments have invested a substantial amount of capital, as they should have, on first responder equipment, emergency plans, and safety personnel. It makes sense for Congress to support a project that will help to coordinate these efforts and maximize the return on these essential investments.

I urge the defeat of this amendment.

Mr. FLAKE. May I inquire as to the time remaining.

The CHAIR. The gentleman from Arizona has 2 minutes remaining.

Mr. FLAKE. I would urge adoption of the amendment. As I mentioned, when you look at the bill itself, you see again the spoils system that's occurring here: 71 percent of the dollar value of earmarks in this legislation go to just 25 percent of this body; 71 percent goes to 25 percent. That's not an equal distribution.

As we know, Mother Nature does not target those districts represented by appropriators or powerful Members, yet we have a system that awards earmarks based on those criteria.

Mr. ROTHMAN of New Jersey. May I ask the gentleman to yield for a short question?

Mr. FLAKE. Yes.

Mr. ROTHMAN of New Jersey. Is the gentleman aware that there will be five areas across this country that will be supported by this program as determined by this organization which has been established by 50 States and the territories?

Mr. FLAKE. That's right. And I'm also aware that the Department of Homeland Security has a similar program that does similar things, yet we are earmarking over and above on top of that.

I simply think that if we don't like the way the Department of Homeland Security is allocating resources, we need to change that or we need to give them guidance; we need to oversee what they do. For example, in my district a couple of years ago, the Department of Homeland Security spent money to synchronize street lights in a small town in my district. That wasn't an appropriate use of funds. But instead of spending time rooting out that kind of waste, we're saying we don't like the way you did that, so we're going to do some of our own. And so it is a duplicative program. And in the end, we end up spending more money and more money; and that's why the budget increases for this agency every year.

We simply cannot continue to do this when we have a $2 trillion budget deficit this year alone. At some point we've got to say we've got to save taxpayer money, spend it wisely, and do it in a way that actually addresses risk, not seniority.

Mr. ROTHMAN of New Jersey. Will the gentleman yield for one more question?

The CHAIR. The time of the gentleman has expired.

The gentleman from North Carolina has 1 minute remaining.

Mr. PRICE of North Carolina. I am happy to yield to my friend from New Jersey (Mr. ROTHMAN).

Mr. ROTHMAN of New Jersey. I thank the gentleman.

My friend from Arizona does not, Madam Chairman, dispute the validity and the importance of coordinating emergency communication throughout the United States, nor does my friend from Arizona dispute that this project represents five pilot projects across the country. So I find it difficult to believe that there would be any objection to this very valuable program that has already met with success and that is deserving of additional new outreach to the first responders emergency personnel across the country.

Ms. MATSUI. Madam Chair, SEARCH, the National Consortium for Justice Information and Statistics, is headquartered in my district in Sacramento, CA. I know this organization, and I support the earmark that will allow SEARCH to continue to perform its important work across the country supporting the homeland security efforts of state and local entities.

Over the past 40 years, this fine organization has accomplished a great deal to promote information sharing solutions among first responders. As a non-profit organization of the states with a membership body of gubernatorial appointees, SEARCH has served local, state, tribal, and federal information sharing and communications interoperability initiatives nationwide and continues to benefit the whole country.

SEARCH is uniquely qualified to develop and implement the program funded by this earmark. That is why I rise in support of the SEARCH National Institute for Communications Interoperability to promote interoperability in communications among first responders.

I urge Members to vote "no" on this amendment and support funding to SEARCH for the National Institute for Communications Interoperability.

The CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. FLAKE. Madam Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

Mr. PRICE of North Carolina. Madam Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. SERRANO) having assumed the chair, Ms. DEGETTE, Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes, had come to no resolution thereon.

PROVIDING FOR CONSIDERATION OF H.R. 2647, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2010

Ms. PINGREE of Maine. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 572 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 572

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for further consideration of the bill (H.R. 2647) to authorize appropriations for fiscal year 2010 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2010, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chair and ranking minority member of the Committee on Armed Services. After general debate the bill shall be considered for amendment under the five-minute rule.

SEC. 2. (a) It shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule the amendment in the nature of a substitute recommended by the Committee on Armed Services now printed in the bill. The committee amendment in the nature of a substitute shall be considered as read. All points of order against the committee amendment in the nature of a substitute are waived except those arising under clause 10 of rule XXI.

(b) Notwithstanding clause 11 of rule XVIII, no amendment to the committee amendment in the nature of a substitute shall be in order except those printed in the

report of the Committee on Rules accompanying this resolution and amendments en bloc described in section 3 of this resolution.

(c) Each amendment printed in the report of the Committee on Rules shall be considered only in the order printed in the report (except as specified in section 4 of this resolution), may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole.

(d) All points of order against amendments printed in the report of the Committee on Rules or amendments en bloc described in section 3 of this resolution are waived except those arising under clause 9 or 10 of rule XXI.

SEC. 3. It shall be in order at any time for the chair of the Committee on Armed Services or his designee to offer amendments en bloc consisting of amendments printed in the report of the Committee on Rules accompanying this resolution not earlier disposed of. Amendments en bloc offered pursuant to this section shall be considered as read, shall be debatable for 20 minutes equally divided and controlled by the chair and ranking minority member of the Committee on Armed Services or their designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. The original proponent of an amendment included in such amendments en bloc may insert a statement in the Congressional Record immediately before the disposition of the amendments en bloc.

SEC. 4. The Chair of the Committee of the Whole may recognize for consideration of any amendment printed in the report of the Committee on Rules accompanying this resolution out of the order printed, but not sooner than 30 minutes after the chair of the Committee on Armed Services or a designee announces from the floor a request to that effect.

SEC. 5. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the committee amendment in the nature of a substitute. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

SEC. 6. In the engrossment of H.R. 2647, the Clerk shall—

(a) add the text of H.R. 2990, as passed by the House, as new matter at the end of H.R. 2647;

(b) conform the title of H.R. 2647 to reflect the addition to the engrossment of H.R. 2990;

(c) assign appropriate designations to provisions within the engrossment; and

(d) conform provisions for short titles within the engrossment.

SEC. 7. Upon the addition of the text of H.R. 2990 to the engrossment of H.R. 2647, H.R. 2990 shall be laid on the table.

SEC. 8. During consideration of H.R. 2647, the Chair may reduce to two minutes the minimum time for electronic voting under clause 6 of rule XVIII and clauses 8 and 9 of rule XX.

□ 1930

The SPEAKER pro tempore. The gentlewoman from Maine is recognized for 1 hour.

Ms. PINGREE of Maine. Mr. Speaker, for purposes of debate only I yield the customary 30 minutes to the gentleman from Florida (Mr. LINCOLN DIAZ-BALART). All time yielded during consideration of the rule is for debate only.

GENERAL LEAVE

Ms. PINGREE of Maine. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and insert extraneous materials into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Maine?

There was no objection.

Ms. PINGREE of Maine. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 572 provides for consideration of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010, under a structured rule.

Last week the House Armed Services Committee reported H.R. 2647 favorably to the House by unanimous vote. The final vote came at 2:30 in the morning after more than 14 hours of thorough debate.

During that time the members of the committee did not see eye-to-eye on every issue, but we did not split by party lines on every vote, and we often had differing views on how to devote limited resources to endless challenges. In the end, we all agreed by a unanimous vote that we must take steps to keep our country safe and keep our military prepared. We must work to eliminate wasteful spending and restore fiscal discipline, and we must provide our troops and their families with the care that they need and the quality of life that is worthy of their sacrifice.

Mr. Speaker, H.R. 2647 makes significant progress on all these fronts. It strengthens our national security by focusing resources on the most immediate and severe threats to our troops and our country. The bill enhances efforts to prevent the spread of weapons of mass destruction by increasing funding for the Cooperative Threat Reduction Program and by fully supporting the Department of Energy's nonproliferation programs.

The bill cuts extensive spending, excessive spending on flawed missile-defense programs and, instead, invests more resources in systems that are proven to work and strategies that meet immediate threats.

H.R. 2647 also takes an important step forward in strengthening accountability and increasing oversight of the defense contracting process. The bill grows the size of the civilian acquisition workforce, which will reduce our reliance on defense contractors and cut down on wasteful spending.

The bill improves the quality of life and the quality of care for our men and women in uniform by providing a 3.4 percent pay raise for each servicemember, by expanding access to education and training, by increasing funding for family housing programs, and by expanding TRICARE coverage for members of the Reserve and their families prior to mobilization.

After 7 years of conflict in Afghanistan and Iraq, this bill provides a basis for ensuring that the plans for progress are sound and that the objectives for victory are clear. The bill requires frequent reports to Congress on the objectives and measurements for success in Afghanistan and the progress of withdrawing our troops from Iraq.

The bill also directs the GAO to provide Congress with separate reports, which will assess strategic plans for both Iraq and Afghanistan.

Congress must do everything in its power to ensure that our military strategies are working and our ultimate goals are achievable. I believe that we can always do more, but I also believe that this bill provides a starting point for that process. Lastly, Mr. Speaker, while this bill addresses broad strategic issues and threats across the globe, it also has a direct impact on our districts.

While communities across the country are saving, struggling and working to recover from this recession, other communities are preparing for even tougher times ahead. In 2011, scores of military bases will close for good as a result of the 2005 BRAC. For decades, these bases have been the backbones of communities and provided the surrounding areas with jobs, tenants, customers and neighbors, which will now be lost in a matter of years.

H.R. 2647 expands the use of no-cost economic development conveyances as a tool to redevelop and restart communities affected by base closure. This provision allows the Department of Defense to transfer property to a local redevelopment authority at no cost if the land will be used for purposes of economic development.

At a time of declining property values, devastating job loss and crippling economic hardship, we must provide communities with every possible tool to redevelop and reorganize. This bill will assist in that effort.

I am looking forward to completing our work on this year's defense authorization.

I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. I would like to thank my friend, the gentlewoman from Maine (Ms. PINGREE) for the time, and I yield myself such time as I may consume.

While our men and women in uniform are risking their lives in war zones, we,

in Congress, need to support them. I am proud to once again support the bipartisan National Defense Authorization Act to honor and support the brave men and women of the United States Armed Forces.

I also wish to commend and congratulate both the Armed Services Committee Chairman SKELTON and Ranking Member MCKEON for their commitment to put partisanship aside in order to get this important bill to the floor.

The National Defense Authorization Act, which passed unanimously out of the Armed Services Committee, authorizes $550.4 billion for the activities of the Department of Defense. It also provides $130 billion to support our combat operations in Iraq, Afghanistan and other fronts of the war on terror.

Our men and women in uniform and their families have sacrificed dearly to protect the United States, and that is why I am pleased that the bill will provide our troops with a 3.4 percent pay raise.

Furthering our commitment to our troops, the bill extends TRICARE eligibility to Reserve members so they can receive full TRICARE coverage 100 days before they go on active duty and provides almost $2 billion for family housing programs to expand and improve the quality of military housing.

The bill authorizes the expansion of the size of the military by 15,000 Army troops, 8,000 Marines, over 14,500 Air Force personnel, and approximately 2,500 sailors in the Navy.

I would like to thank the committee and the distinguished chairman for including my request for funding, authorization obviously of funding, for the construction of a new, permanent headquarters for the United States Southern Command that is located in the congressional district that I am honored to represent. Currently the Department of Defense is leasing the land for SOUTHCOM from a private individual. The funds authorized by this bill will be used to build a new headquarters on land adjacent to the current location and lease it from the State of Florida for the grand sum of $1 per year.

This provision is extremely important to my community because SOUTHCOM personnel and supporting services have contributed over $1.2 billion and over 20,000 jobs to south Florida's economy.

Mr. Speaker, while I support the underlying legislation, I have deep reservations about the majority's decision to block full restoration of missile defense funding. This comes as North Korea's demented despot continues to mock global condemnation of his nuclear program and threatens the United States and our friends and our allies with mass destruction.

Just today an official from the North Korean Central News Agency, a mouthpiece for the dictatorship said, ''If the U.S. imperialists start another war, the army and the people of Korea will wipe out the aggressors on the globe once and for all.''

At the same time, the Iranian tyranny, while it massacres its own people in the streets, continues to threaten to wipe Israel off the face of the map. It is clear to me that the world faces a grave and, I believe, imminent threat from both of those dictatorships in North Korea and Iran. Now is not the time to cut missile defense.

Since the beginning of military aviation, the United States has wisely invested in our military air superiority, and in recent military operations we have clearly seen our investments pay off. Our military air superiority saves the lives of our men and women in uniform and also saves the lives of countless civilians. Unfortunately, the Obama administration feels that it is not necessary to continue our long history of investment in air superiority and is calling for the termination of the F–22 fighter aircraft production, even though the chief of staff of the Air Force publicly called for continued production of F–22s.

Now, thankfully, the Armed Services Committee successfully reinstated over $300 million to at least keep alive F–22 production. Unfortunately, I am shown at this time a statement of administration policy where it reads that if the final bill presented to the President contains this provision keeping alive the F–22 production line, that the President's senior advisers would recommend a veto. Mr. Speaker, I think that's most unfortunate.

I am also concerned that the majority failed to support a repeal of the so-called widow's tax. This provision penalizes surviving spouses of servicemembers who die on active duty or from service-related conditions by forcing them to accept a dollar-for-dollar reduction in their military survivor benefit plan payments in order to receive tax-free dependency and indemnity compensation from the Department of Veterans Affairs.

I have cosponsored two-pieces of legislation introduced by Mr. BUYER and Mr. ORTIZ to remedy this injustice, and I am hopeful that Congress will soon address it.

Now, as supportive as I am of the underlying legislation, I must oppose the rule brought forth by the majority.

□ 1945

Prior to the consideration of the rule, Members from both sides of the aisle submitted 129 amendments to the Rules Committee. The vast majority of amendments, 79, were introduced by members of the majority party. Last night, the majority on the Rules Committee decided to make in order for discussion on this floor two-thirds of the majority amendments and one-third of the minority amendments.

Last week, when members of the minority submitted a number of amendments to the Commerce, Justice, and Science Appropriations bill, the majority claimed the minority were using dilatory tactics and shut down the ability of Members to offer amendments. This week, when the majority party offered a large number of amendments, the majority rewarded them for doing their jobs and representing their constituents by allowing 51 of their amendments for debate by the House.

At the same time, minority party members who were also representing the interests of their constituents were once again punished by the majority for doing their jobs and were only allowed 11 amendments.

In the end, the majority gets about five times the number of amendments made in order as the minority, and I think that's unfair. I think it's petty and unfair. What does the majority gain by using such an unfair process? In reality, nothing more than ending comity and diminishing the stature of this House and its Members.

I reserve the balance of my time.

Ms. PINGREE of Maine. I yield 3 minutes to a member of the Committee on Armed Services, the gentleman from Iowa (Mr. LOEBSACK).

Mr. LOEBSACK. Mr. Speaker, I thank the gentlewoman from Maine for yielding and would also like to thank, in particular, Chairman SKELTON and Ranking Member MCKEON for their leadership in crafting this legislation before us.

This year's National Defense Authorization Act takes significant steps forward in supporting our National Guard and Reserve. Earlier this month, Iowa observed the 1-year anniversary of the floods that devastated large parts of my district. The Iowa National Guard played a critical role in the response to those floods, and their heroic work is a testament to the vital function the National Guard plays in domestic disaster response, even as their role in operations abroad increases.

Nationwide, more than 700,000 National Guard and Reserve soldiers have been called to duty since September 11, 2001, and as the National Guard continues to transform into an operational reserve, it is essential that they are properly resourced for both their overseas and homeland missions.

This bill provides $6.9 billion, $600 million more than the President's request, to address equipment shortfalls in the Reserve components. It also extends health care coverage for the National Guard and Reserve and makes essential investments in National Guard facilities, including the Fairfield, Cedar Rapids, Muscatine, and Middletown facilities in my district.

I am very proud also that the NDAA includes an amendment I offered with Ms. BORDALLO to improve National

Guard readiness by requiring the Secretary of the Army to report to Congress on the creation of a Trainees, Transients, Holdees, and Students Account.

At any given time, 13.3 percent of the Army National Guard is nondeployable, and this account would serve as a temporary unit for these soldiers. In so doing, it would end the practice of borrowing soldiers from one unit in order to improve the readiness of others and will improve both morale and overall readiness.

I strongly urge support for the rule and for the underlying bill.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, it is my privilege to yield 3 minutes to the distinguished Republican whip, the gentleman from Virginia (Mr. CANTOR).

Mr. CANTOR. I thank the gentleman from Florida.

Mr. Speaker, today we are considering the rule for a bill to develop and deploy defensive capabilities for the protection of the American people, our stationed men and women, and our allies. The rising threat from North Korea and Iran highlights why our national security strategy must include a comprehensive, multilayered, and robust missile defense program to protect our homeland.

Both of these rogue nations, Mr. Speaker, provocatively flaunt their growing capabilities with long-range missiles and nuclear programs. Just last week, we learned that North Korea is planning to launch a missile towards the U.S. around the 4th of July holiday. To repeat a phrase used by our President just last week, these regimes pose a ''grave threat'' to the safety and security of our citizens and our allies.

Yet the bill which is the subject of this rule, Mr. Speaker, sustains an inexplicable $1.2 billion cut from the missile defense budget. Mr. Speaker, the question before us is very simple: How do we reconcile gutting missile defense when it will defend against what our own President rightfully calls a ''grave threat''? It simply doesn't make sense.

The cuts include a 35 percent reduction to the Ground-based Midcourse Defense program, a system located in Alaska and California for the purpose of protecting this country against the type of missile North Korea is gearing up to launch.

This is not the time to be reducing our commitment to missile defense. We must fund the current missile defense systems that protect us today and the forward-looking programs that will protect us tomorrow.

Mr. Speaker, we must restore the $1.2 billion cut from the missile defense programs today.

Ms. PINGREE of Maine. I yield 3 minutes to the Chair of the Committee on Financial Services, the gentleman from Massachusetts (Mr. FRANK).

Mr. FRANK of Massachusetts. Mr. Speaker, I cannot remember the last time I was as deeply disappointed in the actions of people with whom I generally agree and continue to admire as I am by this rule.

President Obama, to his credit, has become the first President to try to put on to military spending the same kind of notion that resources are limited that people apply elsewhere. Military spending, in which old threats are continued to be dealt with while new threats are dealt with, make it impossible for us to talk about curtailing a deficit without doing damage elsewhere.

To his credit, President Obama and Secretary Gates said we do not need to build more F–22s. It was conceived to defeat the Soviet Union in a war. It's over. It's a wonderful weapon. It just has a terrible defect for a weapon—no enemy, no military mission. It will never be fired in anger.

It is bad enough that the committee, by only a 31–30 vote, undercut this President's effort to begin to apply fiscal discipline everywhere. Sure, military is important, but health care is important and highway safety is important and local police are important. All of those impinge on our life and all must be dealt with in discipline in the fiscal area, except military gets a pass.

I was particularly disappointed when the Rules Committee, because of some in the leadership, decided not even to allow us to debate it. A major initiative of the new President to curtail excess military spending is overturned by one vote in committee, and we are not even allowed to debate it.

And I have to say to my Republican friends, it is clear to me that their interest in open debate is very selective. They are for openly debating anything they want to debate, but they were opposed to this amendment coming on as well. So there's no consistency or principle of: Let's have open debate. It's: Let's get what we want and let's forget about the rest.

It has been said that truth is the first casualty of war. Apparently, intellectual integrity and logical consistency are the first casualties of a military bill.

I heard Members say a few months ago, Oh, an economic recovery program. Federal spending can't bring jobs. Federal Government spending adds to the deficit. It doesn't bring jobs.

Lo and behold, the F–22 became a jobs bill. It's what I call weaponized Keynesianism. Only if you're building weapons, particularly weapons that will never be used, is there a stimulative effect in the economy.

Mr. LINCOLN DIAZ-BALART of Florida. Will the gentleman yield?

Mr. FRANK of Massachusetts. If the gentleman yields me time, I will.

Secondly, we are told that we have to deal with the deficit. The President made a beginning in trying to curtail military spending on weapons he said we do not need. If this bill goes through, as it apparently will, because we could not even debate it, his efforts will be undercut. The floodgates will be open, and any effort to have reasonable constraints on military spending, as we have on police and fire and emergency medical and other things that are important for health and safety, will be undercut.

This is a terrible decision and a terrible precedent. Of course, to add injury to injury, they did it by taking money out of environmental cleanup.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I simply wanted to point out to my friend that despite the fact that we support the committee having maintained the production line for the F–22, we made a motion in committee for an open rule that would have permitted the gentleman's amendment.

Mr. FRANK of Massachusetts. Will the gentleman yield?

Mr. LINCOLN DIAZ-BALART of Florida. I will yield.

Mr. FRANK of Massachusetts. I will acknowledge that. I was in error, and I apologize. It had been reported to me that there were votes against it, so I apparently got bad information. And I thank the gentleman for that futile gesture on my behalf.

Mr. LINCOLN DIAZ-BALART of Florida. I thank the gentleman for his debate. Despite the fact that we're in disagreement on this issue, he is a great parliamentarian and it's an honor to serve with him.

At this time, I yield 3 minutes to the distinguished gentleman from Washington (Mr. HASTINGS).

Mr. HASTINGS of Washington. I want to thank my friend from Florida for yielding time. Mr. Speaker, there is no greater priority for the Federal Government than the defense of our Nation, and the Defense Authorization bill is a vehicle for setting military priorities for our country.

This bill also has jurisdiction over the Nation's defense nuclear waste cleanup program administered by the Department of Energy. The Environmental Management program within the Department is responsible for cleaning up the waste of our Nation's nuclear weapons production sites; production sites like Hanford, in my district, that secured our Nation's victory in World War II and in the Cold War.

As a result of that work, these sites are now contaminated with massive volumes of radioactive and hazardous waste. The Federal Government has a legal obligation to clean up these sites.

As this bill, Mr. Speaker, has moved through the process, there have been several proposals by both Democrats and Republicans to move specific military projects by reducing the authorization for nuclear waste funding. Mr. Speaker, let's be clear on what these

proposals are really about. It's about setting our Nation's defense priorities and not a judgment on the merits of cleaning up our nuclear waste sites.

The nuclear cleanup program is being used as a piggy bank for these priorities since, Mr. Speaker, it's the only sizable source of funds within this bill that doesn't directly fund our troops or equipment.

Now, Mr. Speaker, I know why nuclear cleanup is being used by both parties as a piggy bank. I absolutely don't support those actions, and I will vote against those actions, but in doing so, I want to be clear that it is in the appropriations process where cleanup money becomes real.

Insufficient funding in the appropriations process would have real and serious consequences on cleaning up these sites. The cleanup program simply cannot sustain continued appropriation reductions without jeopardizing progress, breaking legally binding commitments to States, and increasing long-term costs to taxpayers.

Mr. Speaker, for 15 years I have worked in a bipartisan way to raise awareness of the Federal Government's cleanup obligation and to remind my colleagues again that the effort at these sites helped us win both World War II and the Cold War.

I will continue to stand up for cleanup where needed. In doing so, I am determined that the effort to promote cleanup be a bipartisan effort.

With that, I thank my friend from Florida for yielding.

Ms. PINGREE of Maine. Mr. Speaker, I yield 3 minutes to a member of the Committee on Armed Services, the gentlewoman from Arizona (Ms. GIFFORDS).

□ 2000

Ms. GIFFORDS. Mr. Speaker, I rise today in support of this bill and to praise Chairman SKELTON and Ranking Member MCKEON as well as the chairmen and ranking members of the subcommittees on Armed Services and especially the staff for getting this bill right.

This week we're having a great debate about energy in our country. Most Americans don't realize that the Department of Defense is responsible for approximately 80 percent of all the energy used by the Federal Government. The final bill that we were able to pass out of committee this week includes groundbreaking language to encourage continued advances on responsible energy. Working with the Department, we included a series of new reporting requirements. We increase the use of electric and hybrid vehicles; we speed up the development of biofuels; and we encourage additional investment and use of geothermal energy. We also made some commonsense decisions regarding our fighter aircraft fleet. As a committee working in a bipartisan manner, we set aside the rhetoric, and we took into account current and future threats to balance the force. We sustained the current operational fleet. We supported additional F–22s requested by our combatant commanders. We maintained robust F–35 funding. And we provided additional flexibility for the Air Force to fill the impending fighter gap with less expensive but quite capable 4.5 Generation fighters.

I again congratulate Chairman SKELTON, Ranking Member MCKEON and the committee staff for their hard work on this legislation. I strongly encourage my colleagues to support it.

The SPEAKER pro tempore. The Chair will note that the gentleman from Florida has 15½ minutes remaining, and the gentlewoman from Maine has 17¼ minutes.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 2 minutes to the distinguished gentlewoman from Illinois (Mrs. BIGGERT).

Mrs. BIGGERT. I thank the gentleman for yielding.

Mr. Speaker, I rise in opposition to this rule. I offered an amendment on Monday to address an injustice against the members of our armed services that were shut out from consideration by this rule.

Briefly, my amendment would have given an across-the-board pay raise of 5 percent to our military personnel. According to estimates made by the Congressional Research Service, the pay gap between military personnel and civilians in comparable positions is 3 percent. Given that the cost of living increase for 2010 is 2.9 percent, my amendment is an important first step to addressing this problem. Particularly during a recession but really at any time it is unacceptable that our men and women in uniform receive less than their civilian counterparts.

Recently I was in Afghanistan and had the opportunity to see firsthand the professionalism and the commitment of our troops, what service they render to us, why are they being treated this way. I received assurances from the House Parliamentarian that my amendment was in order, and the Congressional Budget Office said it complies with all PAYGO requirements. I cannot understand why the majority would deny our troops the right to an up-or-down vote or, at the very least, a debate that would at least bring out the issues. If we have time to debate an amendment that would require a study of the number of subcontractors used by the Department of Defense, we should have time to debate giving our troops a fair wage.

Mr. Speaker, this is the second time that I've offered this amendment to increase the pay of our troops and the second time that it has been denied. I would urge my colleagues to oppose this rule.

Ms. PINGREE of Maine. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. DRIEHAUS), a member of the Committee on Armed Services.

Mr. DRIEHAUS. I thank the gentlewoman for this opportunity.

There has been much talk about fiscal responsibility on the floor of this House, and I come to the floor to support the rule and support the bill. I support it because of the inclusion of the Joint Strike Fighter competitive engine program because when we talk about fiscal responsibility, it is through competition that we achieve fiscal responsibility. Since fiscal year 2006, nearly $2.5 billion has been provided for the development of the Joint Strike Fighter competitive engine program, and last month President Obama signed the Weapons Systems Acquisitions Reform Act of 2009 into law. This supported an increased use of competition and defense procurement. The expected cost of the primary Joint Strike Fighter propulsion system has increased by $1.8 billion while the competitive engine program has not experienced any cost growth at all. In fact, the contractor has indicated a willingness to negotiate on fixed price terms for the remaining development and production of the competitive engine.

We know that competition works. When we looked at the F–15 and F–16 in the 1970s, we found that the great engine war brought lower prices, better engines, better competition, and more reliability. We have the same thing today with the Joint Strike Fighter; and in this bill we have included the competitive engine program, which is critical to the success of the Joint Strike Fighter engines.

I urge you to support the rule because with it comes enhanced contractor responsiveness, technological innovation, improved operation readiness, and a more robust industrial base for the United States.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Texas (Mr. CONAWAY).

Mr. CONAWAY. I am going to oppose this rule and ask my colleagues also to oppose it based on what's not in it.

An amendment that I presented yesterday to the Rules Committee was not made in order; and consequently, the Members of this House will not be allowed to take a stance on a very important issue that our colleagues on the other end of the building, the Senators, have taken a stance on unanimously to oppose, the release of the detainee photographs.

The President of the United States has said, listening to his field commanders, General Petraeus and General Odierno, that the release of these photographs would work to put Americans in danger, would be used at as a recruiting tool and, in my view, might also be used by President Ahmadinejad

to turn the pro-democracy protests going on in his country away from protests against Ahmadinejad and protests against America, given the nature of these photographs.

This is a discrete body of photographs taken between September 1, 2001, to January 22, 2009, that have no business being released in the public arena. We need a legislative fix that would prevent the release of these photographs into the public arena; and my amendment, married up with an exact replica in the Senate, would have allowed these photographs to be protected properly.

The amendment would have protected on a rolling 3-year basis these photographs, certified by the Secretary of Defense that they would, in fact, be used as recruiting tools, and could be used to incite violence against American troops that might not otherwise be there should these photographs not be released. There is no good reason to release these photographs.

I wish the Rules Committee would have allowed this debate. As our colleague from Massachusetts said last night, For some reason we're afraid of debate on this floor, the way the Rules Committee works. Why are we afraid to have this debate? It is unanimous on the other end of this building that they believe these photographs should be protected. The President has come out saying that it is appropriate to protect these photographs. And we're not talking about forever. We're simply talking about 3 years at a time to protect these photographs. I'm disappointed that the Rules Committee failed to allow the Members of this body to express their will, as opposed to the will of the chairman of the committee and maybe a couple of others who, in their judgment, believe that these photographs should, in fact, be released.

The courts have said that they recognize the validity of the consequences that are set forth in General Petraeus' comments as well as General Odierno's comments to the courts. The other side can simply say they believe it is better to have these photographs be used as recruitment tools for al Qaeda as well as the other ill uses that they will be put to.

It's unfortunate the Rules Committee, led by the chairman, ruled this way. As a consequence, I will be voting against this rule, and I ask my colleagues to vote likewise.

Ms. PINGREE of Maine. Mr. Speaker, I yield 3 minutes to the gentlewoman from California (Ms. WOOLSEY).

Ms. WOOLSEY. I thank the gentlewoman for the time.

I rise today to support my colleague, Chairman BARNEY FRANK. I am equally or even more disappointed than he is that his amendment on the F–22 funding was not made in order for the defense authorization debate.

There is absolutely no need for additional funding for this flawed program. The Cold War is over. The existing 187 F–22 planes have already cost the United States a total of $65.1 billion; and while this bill only includes $369 million for advanced procurement, the total amount for 12 additional F–22s will run $2 billion.

Think of what we could do with $2 billion in the United States of America. We have schools that are in need. We have a health care system that's broken. We have to move on with our global warming program. Mr. Speaker, $2 billion would help any one of those issues. The F–22 has never been used in Iraq or Afghanistan. It is absolutely not necessary or useful in counterinsurgency operations. The existing 187 that we have right now are actually adequate for any single contingency that could happen in the United States of America. Both civilian and military leadership of the Pentagon support ending production at 187, including the President of the United States. The idea that this House will not have a chance to have a full debate on Chairman FRANK's amendment is unacceptable, and this rule is truly flawed.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 3 minutes to my friend, the distinguished gentleman from Georgia, Dr. BROUN.

Mr. BROUN of Georgia. I thank the gentleman for yielding. I rise today in adamant opposition to this rule.

This is one of many rules which do nothing but censor our side from being able to put forth amendments that make sense, that cut the size of the Federal Government, that cut the size of the huge growth in Federal spending.

Now under the Constitution, national defense should be and must be the major function of the Federal Government. We have to have a strong national Federal defense, and we have to have the experts tell us how that comes about. We need to have the experts tell us what defense systems are needed, such as the F–22.

The prior speaker was talking about how it's unneeded and how those funds could be utilized for social programs, but I disagree. National defense should and must be the major function of the Federal Government. We need to fund our defense because we have people around this world, countries as well as the terrorists, who want to destroy what this country stands for. So we need to fund missile defense; we need to fund the F–22; we need to fund those defense programs as well as the research and development that's absolutely critical to make sure that we stay a sovereign and a secure nation.

But also many Republican amendments were submitted. In fact, I submitted some myself. But the majority decided to stifle our ability to be able to bring those amendments to the floor, to talk about things that Members of Congress think are very important in this bill. But we were hushed. Our voices were quieted. Why? Because we have a steamroller of socialism that's being forced down the throats of the American people. We're trying very hard on our side to stop the outrageous spending. We're trying on our side to have a fiscally responsible government, not only in defense spending but also all across the board. We have an energy tax that's being proposed just this week that's going to cost jobs. It's going to put people literally out of work. It's going to raise the cost of food, medicine and all goods and services in this Nation.

Unfortunately, over and over again we've seen this majority, the leadership of this Congress, prevent Republican proposals from being brought to this floor, from being debated, from being presented to the American public for public examination and for us to be able to debate them. But we've been censored, and it's wrong. The American public needs to stand up and say ''no.'' I very adamantly encourage my colleagues to say ''no'' to this rule.

Ms. PINGREE of Maine. Mr. Speaker, I yield 3 minutes to the gentlewoman from California (Ms. HARMAN), the Chair of the Homeland Security Subcommittee on Intelligence.

Ms. HARMAN. I thank the gentlewoman for yielding to me.

Mr. Speaker, I rise in support of the rule and the underlying bill and commend Chairman SKELTON and Ranking Member MCKEON for moving another unanimous bipartisan authorization bill out of their committee. As a former member of the House Armed Services Committee, I admire the bipartisan way in which the committee operates. My aerospace-centric congressional district is grateful too. Thanks too to Personnel Subcommittee Chair SUSAN DAVIS and her staff for working with me on an issue of paramount importance, the epidemic of rape and sexual assault in the military.

Mr. Speaker, the math is shocking. Women who serve in the U.S. military are more likely to be raped by a fellow soldier than killed by enemy fire in Iraq.

□ 2015

Only 317 out of the 2,763 subjects investigated during fiscal year 2008 were referred to courts martial. That's 11 percent, a figure far below civilian prosecution rates where 40 percent of those arrested for rape are prosecuted.

DOD must close the gaps in prosecution and remove obstacles to legal enforcement. Effective investigation and prosecution are the keys to turning this epidemic around, by drawing bright red lines around unacceptable conduct.

This bill includes language from a resolution I authored with our colleague MIKE TURNER, who has been a

champion on this issue; and I thank him for his hard work. Our provision calls for review of DOD's capacity and infrastructure to investigate and prosecute sexual assault and rape cases and to identify any deficiencies. The legislation also requires that DOD develop a sexual assault prevention plan for Congress' review. This would include action plans for reducing the number of sexual assaults and timelines for implementation of the program. DOD would be required to develop a mechanism to measure the effectiveness of its prevention program.

While this bill is commendable and includes good steps towards eliminating rapists in the ranks, I believe we can do even more. We must build on these efforts and insist on real accountability from the chain of command. And a major step toward eradicating rape in the military is making sure that blue-on-blue attacks are punished.

Mr. Speaker, this is a force protection issue and a moral issue. Congress and DOD must do better. And when our colleague JOHN MCHUGH becomes Army Secretary, I urge him to pursue the issue and support the Army's impressive ''I am strong'' campaign initiated by his predecessor, our former colleague, Pete Geren. I urge an ''aye'' vote.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 2 minutes to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. I thank the gentleman for yielding.

Mr. Speaker, I rise in opposition to this rule.

This body at this time sits under a cloud. We have investigations from the Justice Department and an investigation by our own Ethics Committee into the intersection between campaign contributions and earmarks. More specifically, earmarks that go to for-profit companies, sole-source contracts, no-bid contracts, that's what earmarks basically are, that are going to, in particular, defense contractors. And then contributions come back from individuals who represent those groups and the lobbyists who represent those groups, so-called ''circular fundraising.'' That's being investigated, as I mentioned, by the Justice Department and our own Ethics Committee.

And yet this rule will set in motion a process by which we will approve more than 300 in this bill alone, 300 earmarks, no-bid contracts, for private companies, for-profit companies. Again, in this legislation, if this rule is approved, this legislation will provide more than 600 earmarks, more than half of which, over 300 of which, represent no-bid contracts to private companies. We simply cannot continue to do this, Mr. Speaker.

I offered an amendment that would prohibit Members from giving earmarks or no-bid contracts to their campaign contributors. That amendment was not ruled in order. It should have been. We should as a body decide that we cannot continue this practice. We need to remove the cloud that hangs over this body that rains on Republicans and Democrats alike.

Ms. PINGREE of Maine. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois (Mr. QUIGLEY).

Mr. QUIGLEY. Mr. Speaker, I read this evening with interest the President of the United States has threatened to veto the Defense bill if the additional funding exists for F–22 fighter planes.

Mr. Speaker, the President is absolutely right. And the real problem today is that opportunity to vote against those unnecessary planes are not allowed in this rule. In the end we have to stop spending more and start spending smarter.

I was extremely disappointed to learn that the administration's recommendation to halt the F–22 program was overridden. 187 F–22 Raptor fighter jets are not enough? The Raptor has not even been deployed to Iraq or Afghanistan, our two largest military fronts.

While I am not an expert on defense procurement, our Defense Secretary, Robert Gates, is. So I tend to believe him when he said that the notion of not buying 60 more F–22s imperils the national security of the United States is ''completely nonsense.''

We are far and away the most superior air force in the world. Why would we pour billions more into an area where we already dominate and continue to support an aircraft that is not suited to the current battlefields in which we fight? We have to invest in low-tech equipment such as unmanned drones, which are effective in those areas of conflict.

And always remember that every defense dollar spent to bolster an area where we already dominate is a dollar we don't have to spend to take care of our soldiers, strengthen our forces, and improve in areas where we may be vulnerable and our soldiers may be vulnerable.

Again, we have to simply stop spending more and start spending smarter. Our soldiers deserve it. The taxpayers deserve it.

Mr. LINCOLN DIAZ-BALART of Florida. I thank my friend from Maine and I thank you, Mr. Speaker, for your courtesy, and I want to thank all who have come to participate in this debate. This legislation enjoys extraordinarily wide bipartisan support.

It's unfortunate that the rule that brings it to the floor is not fair. As I pointed out, it makes about two-thirds of the amendments that were introduced to the Rules Committee from the majority party in order and only about one-third of the amendments presented or introduced, proposed for debate by Members of the minority party. That's not fair. And it maintains a pattern that obviously we have seen deepened, augmented significantly in a very worrisome way in the appropriations process, where for the first time all of the appropriations bills are being brought to the floor under restrictive rules. We have had significant debate, but that's something that is also unfair and unfortunate, and it diminishes the rights of each of the Members of this House.

So I do think it's important we get to debate on legislation, in this case, this authorization of the Armed Forces legislation that enjoys such widespread bipartisan support.

So once again, opposing the rule and opposing the previous question, I yield back the balance of my time.

Ms. PINGREE of Maine. Mr. Speaker, I thank my friend from Florida (Mr. LINCOLN DIAZ-BALART) for the dialogue that we have had here on the floor tonight.

Mr. Speaker, the rule before us today will continue the open debate that was held on committee, some of which continue tonight, and further our efforts to find solutions to those pressing problems.

In particular, this rule adds the text of H.R. 2990 to the underlying bill, which funds a 1-year expansion of concurrent receipts for retired veterans, extends retention bonuses and special pay authorities for enlisted servicemembers and funds provisions in the Federal Retirement Reform Act of 2009.

I would like to thank the Chair, Chairman SKELTON, Ranking Member MCKEON, and all my colleagues on the House Armed Services Committee for their tireless work on this bill.

I urge a ''yes'' vote on the previous question and on the rule.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

APPOINTMENT AS MEMBER TO THE PUBLIC INTEREST DECLASSIFICATION BOARD

The SPEAKER pro tempore. Pursuant to section 703(c) of the Public Interest Declassification Act of 2000 (50 U.S.C. 435 note) and the order of the House of January 6, 2009, the Chair announces the Speaker's appointment of the following member on the part of

the House to the Public Interest Declassification Board for a term of 3 years:

Mr. David Skaggs, Longmont, Colorado

CONTINUATION OF THE NATIONAL EMERGENCY WITH RESPECT TO NORTH KOREA—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 111–52)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred to the Committee on Foreign Affairs and ordered to be printed:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the national emergency, declared in Executive Order 13466 of June 26, 2008, is to continue in effect beyond June 26, 2009.

The current existence and risk of the proliferation of weapons-usable fissile material on the Korean Peninsula constitute a continuing unusual and extraordinary threat to the national security and foreign policy of the United States. For these reasons, I have determined that it is necessary to continue the national emergency and maintain certain restrictions with respect to North Korea and North Korean nationals that would otherwise have been lifted in Proclamation 8271 of June 26, 2008.

BARACK OBAMA.
THE WHITE HOUSE, *June 24, 2009*.

DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2010

The SPEAKER pro tempore. Pursuant to House Resolution 573 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 2892.

□ 2028

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes, with Mr. ALTMIRE (Acting Chair) in the chair.

The Clerk read the title of the bill.

The Acting CHAIR. When the Committee of the Whole rose earlier today, a request for a recorded vote on amendment No. 1 printed in part D of House Report 111–183, offered by the gentleman from Arizona (Mr. FLAKE) had been postponed and the bill had been read through page 93, line 12.

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments on which further proceedings were postponed, in the following order:

Amendment No. 1 printed in part A by Mr. PRICE of North Carolina.

Amendment No. 5 printed in part B by Mr. LEWIS of California.

Amendment No. 8 printed in part B by Mr. KING of New York.

Amendment No. 1 printed in part B by Mr. BILIRAKIS of Florida.

Amendment No. 3 printed in part B by Mr. KING of Iowa.

Amendment No. 2 printed in part B by Mr. DUNCAN of Tennessee.

Amendment No. 7 printed in part B by Mr. POE of Texas.

Amendment No. 4 printed in part B by Mr. KING of Iowa.

Amendment No. 6 printed in part B by Mr. NEUGEBAUER of Texas.

Amendment No. 7 printed in part C by Mr. FLAKE of Arizona.

Amendment No. 5 printed in part C by Mr. FLAKE of Arizona.

Amendment No. 2 printed in part C by Mr. FLAKE of Arizona.

Amendment No. 1 printed in part C by Mr. FLAKE of Arizona.

Amendment No. 1 printed in part D by Mr. FLAKE of Arizona.

The Chair will reduce to 2 minutes the time for any electronic vote after the first vote in this series.

AMENDMENT NO. 1 OFFERED BY MR. PRICE OF NORTH CAROLINA

The Acting CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from North Carolina (Mr. PRICE) on which further proceedings were postponed and on which the ayes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The Acting CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 345, noes 85, not voting 9, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There is 1 minute remaining in this vote.

□ 2124

Mr. HASTINGS of Florida changed his vote from ''aye'' to ''no.''

Mr. WELCH, Ms. ESHOO, and Ms. CORRINE BROWN of Florida changed their vote from ''no'' to ''aye.''

So the amendment was agreed to.

The result of the vote was announced as above recorded.

Stated for:

Mr. McMAHON. Madam Chair, during roll-call vote No. 442, I mistakenly recorded my vote as "no" when I should have voted "aye."

PART B AMENDMENT NO. 6 OFFERED BY MR. NEUGEBAUER

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Texas (Mr. NEUGEBAUER) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This will be a 2-minute vote.

The vote was taken by electronic device, and there were—ayes 113, noes 318, not voting 8, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There is 1 minute remaining in this vote.

□ 2145

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIR. The Clerk will read.

The Clerk read as follows:

This Act may be cited as the ''Department of Homeland Security Appropriations Act, 2010''.

The CHAIR. There being no further amendments, under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mrs. TAUSCHER) having assumed the chair, Ms. DEGETTE, Chair of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes, pursuant to House Resolution 573, she reported the bill back to the House with sundry amendments adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Pursuant to House Resolution 573, the question on adoption of the amendments will be put en gros.

The question is on the amendments.

The amendments were agreed to.

Mr. PRICE of Georgia. Madam Speaker, I move that the vote on the amendments be divided.

The SPEAKER pro tempore. The Chair will respond by reading from House Resolution 573.

The Chair is reading from page 3, line 11:

In case of sundry amendments reported from the Committee, the question of their adoption shall be put to the House en gros and without intervening demand for division of the question.

Mr. PRICE of Georgia. Madam Speaker, I move that the amendments be divided.

The SPEAKER pro tempore. The Chair has just read the rule saying that the amendments en gros may not be divided.

PARLIAMENTARY INQUIRIES

Mr. PRICE of Georgia. Parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. PRICE of Georgia. Madam Speaker, isn't it true that rules routinely provide for a separate vote to be allowed when the Committee rises on amendments being offered in the Committee of the Whole?

The SPEAKER pro tempore. The Chair will not compare this rule to other rules.

Mr. PRICE of Georgia. Further parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. PRICE of Georgia. Madam Speaker, if a Member voted ''no'' on one amendment and ''yes'' on another amendment and wanted the opportunity to have a separate vote on those two amendments, my understanding is that the ruling of the Chair and the rule prohibits a separate vote on those two amendments; is that correct?

The SPEAKER pro tempore. The Chair does not respond to hypothetical questions.

Mr. PRICE of Georgia. Madam Speaker, further parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. PRICE of Georgia. If I desired a vote on two separate amendments, is there a way under the rule for that to be accomplished?

The SPEAKER pro tempore. The Chair will read the rule again. Page 3, line 11:

In case of sundry amendments reported from the Committee, the question of their adoption shall be put to the House en gros and without intervening demand for division of the question.

Mr. PRICE of Georgia. Further inquiry, Madam Speaker.

It is my understanding that this type of rule has never been utilized before. Is the Speaker aware of that?

The SPEAKER pro tempore. The Chair will not serve as historian.

Mr. PRICE of Georgia. I thank the Speaker.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT

Mr. ROGERS of Kentucky. Madam Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. ROGERS of Kentucky. In its present form, I am.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Rogers of Kentucky moves to recommit the bill H.R. 2892 to the Committee on Appropriations with instructions to report the same back to the House forthwith with the following amendment:

On page 2, line 18, after the dollar amount insert ''(reduced by $50,000,000)''.

On page 52, line 19, after the first dollar amount insert ''(increased by $50,000,000)''.

On page 52, line 21, after the dollar amount insert ''(increased by $50,000,000)''.

The SPEAKER pro tempore. The gentleman from Kentucky is recognized for 5 minutes.

Mr. ROGERS of Kentucky. Madam Speaker, since the majority has shut out nearly all the minority from offering legitimate and well-reasoned amendments, I offer this motion to recommit.

The motion is straightforward. It would simply add $50 million to the E-Verify program. This program allows an employer to call and verify that an applicant for a job is not an illegal immigrant. For months the administration and this majority have delayed,

diminished and ultimately dismissed the government-run employee verification system under the guise that the system is inaccurate, costly, and susceptible to error and identity theft. However, E-Verify is accurate 99-plus percent of the time. In my book, 99 percent accuracy, especially when we're talking about jobs and security, is a pretty good statistic.

Having said that, this motion would ensure beyond a shadow of a doubt complete and total accuracy of E-Verify. No longer can opponents of E-Verify hide behind concerns about incorrect readings or system errors. This motion simply directs $50 million in this bill to improve on a system that the current Secretary of Homeland Security had the good sense to adopt in her home State when she was governor 2 years ago.

E-Verify ensures that a legitimate worker has a legitimate shot at a job. If we can't help our citizenry in this, what are we doing here? Second, it's a tool to prevent illegitimate workers from working in secure areas; airport runways, military bases, Federal buildings, train yards and so forth. Continued opposition to this creates a security vulnerability we simply can't afford. We have record-level unemployment in this country, and we have Americans who want to work, yet we continue to drag our feet and delay both an economic tool and a homeland security tool.

So let's get past the rhetoric. Let's add sufficient funds to ensure even greater accuracy, capacity and oversight to prevent the risk of identity theft. Madam Speaker, $50 million is just one-third of the raise the departmental headquarters gives itself under this bill. So let's give Americans at least a fighting chance at a job and ensure that our government and U.S. businesses are employing legitimate American workers.

I yield to my colleague from California.

Mr. CALVERT. Madam Speaker, as the original author of E-Verify, I would like to report tonight we have over 135,000 employers throughout the United States that are using E-Verify every day successfully. Millions of employees have gone through that system to make sure that the workforce that they're employing is a legal workforce. As a former employer in the restaurant business, I can tell you, I wish I had that system available to me. Adding this $50 million will make sure E-Verify is accurate. It's already 99 percent accurate. That's pretty good for government work. We can make it even more accurate. We need to make sure that jobs in this country go to people who are here legally. This is an opportunity for the House to vote for this motion to recommit that will make sure that Americans who are looking for jobs will have the opportunity to find one.

So I would ask all my colleagues, vote ''yes'' on this motion to recommit.

Mr. ROGERS of Kentucky. I thank the gentleman for those remarks. Give Americans a job.

I yield back the balance of my time.

Mr. PRICE of North Carolina. Madam Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman is recognized for 5 minutes.

Mr. PRICE of North Carolina. Madam Speaker, let me say at the outset that I understand Members will make their own decision about this amendment, and I'm not going to presume to recommend a ''yes'' or ''no'' vote. But I am going to say a few things which need to be said and give a few facts about the impact of this motion and about this program, which I hope will help Members make this decision.

It is ironic, given the amount of discussion we've heard tonight about how harmful the deficit is, to suddenly be told that a program that's already growing at 12 percent a year, well above inflation, needs to be increased.

Let me just remind Members of what the figures look like. This E-Verify program was funded in the '08 fiscal year at $60 million. It's funded this year at $100 million. It will be funded next year, according to our bill, at $112 million. Yet as of the end of April, the program had not obligated 70 percent of its 2009 budget, even though the fiscal year was more than half over. A third of the funds from the last year of the Bush administration also remain unobligated. So this doesn't look like a situation where throwing money at the program will solve its problems since the program obviously cannot spend the funds it currently has bankrolled.

Now it is true that the E-Verify system has problems, particularly with falsely telling an unacceptable number of U.S. citizens that they cannot work. We provide ample money in this bill to work on those problems. However, the 2010 budget funds the entire $112 million request for the E-Verify system. It also, by the way, extends the program's authorization by 2 years. The additional funding already provided in the bill will allow the DHS managers of E-Verify to improve oversight and auditing of the program to address technical difficulties that hamper its success. There is absolutely no indication that taking this $112 million budget figure to $162 million would accomplish anything except decimating the top ranks of DHS by way of this costly offset.

With the amendments that have been adopted here today, including this one, we would have cut $120 million below the administration's request for the Office of the Undersecretary for Management. A cut like this would fall hardest on important initiatives, which this House has backed in a bipartisan fashion: to improve departmental security, to train workers to meet the department's acquisition needs, to tighten oversight of DHS's major procurements, and to ensure classified programs aren't wasting taxpayer dollars or accidentally leaking classified information through the procurement process. It is a massive and devastating cut, not a free ride, not in the least. Members can make their own decision.

I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. ROGERS of Kentucky. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on the motion to recommit will be followed by 5-minute votes on passage of H.R. 2892; ordering the previous question on H. Res. 572; adopting H. Res. 572, if ordered; and approving the Journal, if ordered.

The vote was taken by electronic device, and there were—ayes 234, noes 193, not voting 6, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Less than 2 minutes remain on this vote.

□ 2215

Mr. SESTAK changed his vote from ''aye'' to ''no.''

Ms. MARKEY of Colorado, Ms. SHEA-PORTER and Messrs. ADLER of New Jersey, KANJORSKI and HODES changed their vote from ''no'' to ''aye.''

So the motion to recommit was agreed to.

The result of the vote was announced as above recorded.

Mr. PRICE of North Carolina. Madam Speaker, pursuant to the instructions of the House in the motion to recommit, I report the bill, H.R. 2892, back to the House with an amendment.

The SPEAKER pro tempore. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. PRICE of North Carolina:

On page 2, line 18, after the dollar amount insert ''(reduced by $50,000,000)''.

On page 52, line 19, after the first dollar amount insert ''(increased by $50,000,000)''.

On page 52, line 21, after the dollar amount insert ''(increased by $50,000,000)''.

The SPEAKER pro tempore. The question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

Under clause 10 of rule XX, the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 389, nays 37, not voting 7, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are less than 2 minutes remaining on this vote.

□ 2223

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF H.R. 2647, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2010

The SPEAKER pro tempore (Mr. SERRANO). The unfinished business is the vote on ordering the previous question on House Resolution 572, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 245, nays 181, not voting 7, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Two minutes are left on this vote.

□ 2238

Mr. KIND of Wisconsin changed his vote from ''yea'' to ''nay.''

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

THE JOURNAL

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the question on agreeing to the Speaker's approval of the Journal, which the Chair will put de novo.

The question is on the Speaker's approval of the Journal.

Pursuant to clause 1, rule I, the Journal stands approved.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2996, DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

Mr. POLIS, from the Committee on Rules, submitted a privileged report (Rept. No. 111–184) on the resolution (H. Res. 578) providing for consideration of the bill (H.R. 2996) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes, which was referred to the House Calendar and ordered to be printed.

GENERAL LEAVE

Mr. SKELTON. Mr. Speaker, I ask unanimous consent that Members may have 5 legislative days within which to revise and extend their remarks on H.R. 2647 and to insert extraneous material thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2010

The SPEAKER pro tempore. Pursuant to House Resolution 572 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 2647.

□ 2241

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 2647) to authorize appropriations for fiscal year 2010 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2010, and for other purposes, with Mr. ALTMIRE in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Missouri (Mr. SKELTON) and the gentleman from California (Mr. MCKEON) each will control 30 minutes.

The Chair recognizes the gentleman from Missouri.

Mr. SKELTON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in support of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010. The House Armed Services Committee brings before the House a bill reported out of committee by a vote of 61–0. This consensus was achieved after a great deal of hard work. Our mark lasted almost 17 hours. We considered 129 amendments; we adopted 107 of them. We had an excellent debate on the issues in the best traditions of our committee. I am confident we will have a similar experience here in the full House.

Mr. Chairman, I am pleased to be joined in support of the bill by my friend and my partner, BUCK MCKEON. I am thrilled that he is our ranking member, and I commend him for jumping in head first on his first official day on the job, which of course was a full day for our markup. He has been a very able and constructive partner as well as, when required, a skilled opponent. I must, however, mention our esteemed colleague, JOHN MCHUGH, who has agreed to become the Secretary of the Army, but who leaves our committee having established a lasting legacy, especially on issues of personnel.

In this debate we will consider, and I am confident that we will adopt, an amendment that is sponsored by both Mr. MCKEON and me that is a tribute to the work of JOHN MCHUGH on our committee.

Likewise, I must thank the subcommittee chairmen and ranking members who contributed so much on this bill. They did their homework, and I am pleased with the outcome of our efforts. They solved almost every problem set out for them, and they accomplished a lot of good government at the same time.

□ 2245

They were ably assisted by our committee staff, the amazing professionals in the Office of the Legislative Counsel, and the Office of the Parliamentarian.

This bill authorizes $550.5 billion in budget authority for the Department of Defense and the national security programs of the Department of Energy. The bill also authorizes $130 billion to support ongoing military operations in Iraq and Afghanistan during fiscal year 2010. These amounts are essentially equal to the President's budget request for items in the jurisdiction of our committee.

H.R. 2647 reflects the Congress' deep commitment to supporting American servicemembers and providing the necessary resources to keep Americans safe. The bill provides our military personnel with a 3.4 percent pay raise, an increase of .5 percent above the President's request. The bill also includes a number of initiatives to support military families. In this, the Year of the Military Family, we provide funds to establish a Center for Care for military members and their families. We also increase the weight allowance for senior noncommissioned officers, and authorize the transportation of a second vehicle for members who are changing stations from or to a nonforeign area outside the United States. The bill also provides funding to enhance the Health Professions Scholarship program for mental health providers to support the troops and their families.

The mark fully funds the President's budget request for military training, equipment, maintenance, and facilities upkeep. By doing so, the committee continues its efforts to address readiness shortfalls that have developed over the past 8 years.

To address some of these concerns in this mark, we have added $1.6 billion to operation and maintenance, including $395 million for Navy aviation and ship depot maintenance, $762 million to achieve 100 percent of the requirement for sustainment of facilities, including the Department of Defense schools, which, by the way, are excellent, and $450 million to improve the quality of Army training barracks.

The war in Afghanistan is a critical mission that is finally getting the attention it demands, and I've been saying that for quite some time. To ensure our strategy in both countries is effective and achieves the intended goals within well-defined timelines, the bill requires the President to assess American efforts and regularly report on progress. It also authorizes the new Pakistan Counter-Insurgency Fund to allow our commanders to help Pakistan quickly and more effectively go after the terrorists in their safe havens.

On Iraq, the committee supports the President's policy while also upholding the Congress' responsibility to provide oversight to the process of drawing down the mountain of material purchased, transported and built up in Iraq at tremendous expense to the taxpayer.

In the area of nonproliferation, the bill increases funding and creates new authorities to strengthen the Department of Defense's Cooperative Threat Reduction program. The bill also fully supports the Department of Energy's nonproliferation programs, and adds substantial funding in support of the President's plan to secure and remove all known vulnerable nuclear materials that can be used for weapons.

The bill takes additional steps on acquisition reform beyond what we did in the bill on weapons acquisition which was enacted and signed into law by the President last month.

It also ensures that the Quadrennial Defense Review currently being undertaken by the Department of Defense both complies with the law and gives Congress the insight it needs to make judgments about force structure and programmatic changes.

In summary, Mr. Chairman, I believe this bill can be supported by every Member of this House. I recognize that some who have deep objections to current defense policy on various issues may feel compelled maybe to oppose the bill. That's their right, of course. But even in most of those cases, I believe that solid progress is made in this bill toward protecting our national security in the right way.

I ask Members to vote for H.R. 2647, for our troops and their families, and for a strong national defense for our Nation.

The object of our affection, Mr. Chairman, are the young men and young women in uniform who do professional, outstanding work for our country. This bill helps them in their efforts. All of us are proud of them, and I hope that the vote on this bill, when we vote tomorrow, will reflect that pride in the military of the United States of America.

Mr. Chairman, I reserve the balance of my time.

Mr. MCKEON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, as legislators, we meet once again to address the wide range of important national security issues undertaken by the Departments of Defense and Energy.

We all take our legislative responsibilities very seriously. This is especially true during a time of war, and it is always true of my good friend and colleague, Armed Services Committee chairman IKE SKELTON.

I would be remiss, Mr. Chairman, without saying a word about the outgoing ranking member, JOHN MCHUGH. I know we all agree that this committee, this Congress, and the 23rd District of New York will all miss the leadership of JOHN MCHUGH. I look forward to speaking more about JOHN later in our debate.

As a result of Chairman SKELTON's tireless efforts to put forward this bill, our committee reported out the National Defense Authorization Act for Fiscal Year 2010 last Wednesday. The vote was unanimous, 61–0.

Consistent with the longstanding bipartisan practice of the Armed Services Committee, this bill reflects our committee's continued strong support for the brave men and women of the United States Armed Forces.

This legislation acknowledges that the United States has a vital national security interest in ensuring that Afghanistan does not once again become a safe haven for terrorists, supports a comprehensive counterinsurgency strategy that is adequately resourced and funded by Congress, and calls on the President to provide our U.S. military commanders with the military forces they require in order to succeed.

In Iraq, the committee ensures the Congress will support the President's plan to redeploy combat forces while providing our commanders on the ground the flexibility to hold hard-fought security gains and ensure the safety of our forces.

Mr. Chairman, we owe our soldiers, sailors, airmen and marines the very best available equipment, training and support in order to provide them with the best possible tools to undertake their missions and return safely. The provisions that are already in this bill go a considerable way in demonstrating this support, but we can, and should, improve it.

Congress, and particularly the Armed Services Committees in both Chambers, has the unmistakable obligation to ensure that the Department of Defense develops and deploys defensive capabilities that protect the American people, our forward-deployed forces, and our allies. This includes promising programs in the areas of missile defense.

In a year where Iran and North Korea have demonstrated the capability and intent to pursue long-range ballistic missiles and nuclear weapons programs, elements of genuine national security threat, this bill endorsed reductions to capabilities that would provide a comprehensive missile defense

system to protect the U.S. homeland, our forward-deployed troops, and our allies.

We need to take steps that would reverse the administration's 35 percent reduction to a critical component of the national missile defense system located in Alaska and California, which is designed as a last line of defense to protect the U.S. homeland. It's unfortunate that we've been forced to trade national missile defense capabilities for more theater missile defense. Both are necessary, and both could have been adequately funded without such deep cuts.

Building on the Weapons Acquisition Reform bill that the President signed in May, this legislation takes a number of important steps on major weapons programs. I am pleased that this bill provides $368.8 million in advance procurement funding for 12 additional F–22s. Keeping the F–22 production line open is not only necessary to meet military requirements, but also sustains a critical sector of the defense industrial base and provides over 95,000 direct and indirect jobs at a time when our economy is struggling through a recession.

As a Nation, we owe more than our gratitude to the brave men and women in uniform and their families, past and present, for the sacrifices they make to protect our freedom. I am pleased that this legislation includes a 3.4 percent pay raise, which is half a percentage point above the President's request. I commend and thank Chairman SKELTON for working to address the concurrent receipt in the suspension bill addressed earlier today. However, I remain concerned that we were not able to fund payments to military surviving spouses by repealing the ''widow's tax'' and allowing access to TRICARE for Guard and Reserve members who receive earlier retirement. If this is truly to be the Year of the Military Family, we must make it a priority to fund these programs, too.

One of the few areas where there is disagreement within our committee is detainee policy. These are differences that I believe need to be debated and given a vote within the full House. As you know, many Members believe the American people do not want detainees in Guantanamo brought to the sovereign territory of our country. I am disappointed we will not debate amendments dealing with the transfer or release of detainees from Guantanamo Bay, Cuba into the United States.

Finally, I strongly agree with many Members who believe that Congress should do everything possible to ensure that the detainee pictures presently subject to the Freedom of Information Act are not released. The President and our military commanders determined that these photos, if released, would risk the safety of U.S. forces in Iraq and Afghanistan. Given the overwhelming support for this language in the Senate, I regret that we could not address this issue on the House floor today.

As in years past, I believe that this legislation reflects many of the Armed Services Committee's priorities in supporting our Nation's dedicated and courageous servicemembers.

I thank Chairman SKELTON for putting together an excellent bill and helping us to stay focused on delivering a bill that protects, sustains, and builds our forces. I look forward to working with my colleagues to improve and pass H.R. 2647.

Mr. Chairman, I reserve the balance of my time.

Mr. SKELTON. Mr. Chairman, the Member I am about to yield to for 3 minutes will be giving her last presentation in this House, for she will be, very shortly, a member of the administration within the State Department with a high-ranking position. We wish her well, as well as wishing her well in her upcoming marriage.

I yield 3 minutes to my friend, my colleague, the distinguished chairman of the Subcommittee on Strategic Forces, the gentlelady from California (Mrs. TAUSCHER).

Mrs. TAUSCHER. Thank you, Mr. Chairman, for those very kind words. It has been a pleasure to work with you and my colleagues on the committee and my colleagues in the House. Thank you for your patriotic service.

I am pleased to rise in support of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010, and to summarize the portions of the bill drafted by the Strategic Forces Subcommittee which I am proud to have chaired for the past 3 years.

I want to thank my colleagues on both sides of the aisle, including Ranking Member TURNER for his hard work and always good willingness to work in a bipartisan way.

H.R. 2647 includes $14.3 billion for the Department of Energy national security programs, not including nuclear nonproliferation programs, $9.3 billion for ballistic missile defense programs, the amount the President requested, and $11 billion for military space programs, including just over $9 billion for Air Force space programs.

For Department of Energy national security programs, the bill authorizes $6.5 billion for nuclear weapons activities and $5 billion for the Defense Environmental Cleanup.

H.R. 2647 authorizes a new stockpiling management program to provide better guidance to the National Nuclear Security Administration on the maintenance of our nuclear weapons and to establish clear limits on that maintenance. The bill also adds a new requirement for lab-to-lab peer review called ''Dual Validation'' as part of the annual assessment of the nuclear stockpile.

For missile defense, the bill authorizes the President's request of $9.3 billion overall, including nearly $8 billion for the Missile Defense Agency. The bill focuses on the highest priority threats and on making our missile defense system more effective. As such, the bill shifts away from the capabilities-based approach of the last few years, which meant that if a contractor said they could build it, MDA would fund it whether or not it addressed a current threat or whether or not the combatant commanders requested it. That approach yielded several early-to-need programs that fell behind schedule and went way over budget and left us with ground-based interceptors in Alaska that we are currently spending millions of dollars to fix and upgrade.

□ 2300

In contrast, as MDA Director General Patrick O'Reilly told our subcommittee in May, the process leading up to this year's request on missile defense was the first that involved the combatant commanders in a meaningful way and the first with a mature Missile Defense Evaluation Board in place.

This more sensible process yielded a balanced, threat-based approach to missile defense.

H.R. 2647 includes $1 billion to further develop the Ground-based Midcourse Defense system to defend against emerging long-range threats, and it includes a requirement to prepare a sustainment and modernization program for the ground-based system.

H.R. 2647 also substantially increases the deployment of proven missile defense capabilities such as Aegis BMD and the Terminal High Altitude Area Defense, THAAD, which are designed to counter the ballistic missile threats our troops are most likely to face: Short, medium-range missiles.

Over the next 5 years, the Aegis Standard Missile-3 inventory will grow from 133 to 325.

Mr. Chairman, I want to thank you again for working with me. I think this is a very good bill. I think we address the threats to our forward-deployed troops, our allies, and I hope my colleagues work with us to support the bill and get its passage.

In military space programs, the mark builds on the bipartisan approach the subcommittee took in the last Congress.

The bill makes reductions in programs with significant schedule and cost risks, including the Third Generation Infrared Satellite System and the High Integrity GPS program.

The bill reflects the subcommittee's support for the Operationally Responsive Space (ORS) program, and includes an increase of twenty-three point four million dollars to support the launch of the first ORS imaging satellite, ORS SAT–1.

H.R. 2647 also requires the Secretary of Defense to submit a space science and technology strategy when the President submits

the budget request to Congress. This provision will help guide the Administration and Congress as we approach major investment decisions in national security space.

H.R. 2647 also provides a twelve month extension for the Congressional Commission on the Strategic Posture of the U.S., to allow the commission to review the strategic security issues addressed by the pending Nuclear Posture Review and Quadrennial Defense Review.

Finally, in intelligence-related matters, the bill recommends a funding increase to boost the focus and resources of the Intelligence Community devoted to analyzing foreign nuclear weapons capabilities, programs, and intentions.

H.R. 2647 also includes two important planning requirements related to intelligence.

First, it requires the Secretary of Energy, in consultation with the Director of National Intelligence and the Secretary of Defense, to prepare a plan to maintain a robust foreign nuclear activities analysis capability in the DOE national labs.

Second, it requires the Secretary of Defense, in consultation with the DNI, to assess foreign ballistic missile intelligence analysis gaps and shortfalls, and prepare a plan to address such gaps.

In sum, H.R. 2647 smartly tackles the critical national security priorities within the jurisdiction of the Strategic Forces Subcommittee. I strongly encourage my colleagues to support H.R. 2647.

Mr. MCKEON. Mr. Chairman, I yield to the gentleman from Maryland (Mr. BARTLETT) the ranking member on the Air and Land Forces Subcommittee such time as he may consume.

Mr. BARTLETT. Thank you.

I would like to thank my good friend from Hawaii (Mr. ABERCROMBIE) the chairman of the Air and Land Forces Subcommittee, for his continued professionalism and all the hard work that has taken place behind the scenes to get this bill done. This is not an easy process and the legislation before us reflects many difficult decisions.

Once again, this bill places force-protection issues at the top of the priority list. It provides additional funds for the National Guard equipment account and the services' unfunded priority lists. And the changes that this bill makes in regards to body armor is long overdue and will provide better protection for our war fighters for years to come.

As I said during our oversight hearings and subcommittee markup, there is no doubt that this budget and the decisions that come along with it will fundamentally change the United States Air Force and Army.

I see two problems. First, the budget should not drive the strategy. The strategy should be set, then the funding requirements are laid out in the budget that follows. It appears to me that in many cases funding limitations in the FY 2010 budget top line were the sole driver in major policy decisions.

The second problem that I see is that instead of openly engaging the legislative branch on policy matters proposed for structure changes and the shifting requirements for major weapons platforms, the executive branch has chosen to lock us out of those debates and tie our hands by unveiling sweeping policy changes buried under the guise of a budget request.

A case in point is the joint cargo aircraft. I have asked witnesses in the Army, the Air Force, the Office of the Secretary of Defense: What has changed? Why is this mission being moved out of the Army and solely over to the Air Force, when not 4 months ago we received the Quadrennial Roles and Missions Review Report that stated, ''the option that provided most value to the joint force was to assign the C–27J to the Air Force and Army. ''

None of them have been able to answer the question, but all of them stated that there was no new study or analysis conducted that countered the existing plan or reduced the JROC recruit requirement for 78 joint cargo aircraft.

What has happened as a result of all this is that the Congress is now left to debate the puts and takes in the budget when there has been no vetting of the underlying threat assumptions policy or strategy. This body, not the executive branch, is charged with a constitutional mandate to raise and support armies and navies. I am extremely troubled that these decisions have been made in a vacuum and appear at least on the surface to be informed by nothing other than top-line budget pressures.

I want to be clear that my frustration is with the Department, not this bill. In fact, given the little information that we have received, I believe our Members on both sides of the aisle and our really excellent staff have done an amazing job. As I said on many occasions, the House Armed Services Committee has a long tradition of focusing on those issues that most impact and help our brave men and women in uniform. And I, like all our Members on both sides of the aisle, am very proud to be serving on this committee.

Finally I would like to briefly comment on the Army's Future Combat System. As we all know, the Secretary of Defense announced a decision to restructure the decision and terminate the Manned Ground Vehicles. Our committee has scrutinized the Future Combat System program in a bipartisan manner since 2004. We have consistently had concerns in regard to the survivability of the Manned Ground Vehicles, but we have never questioned the need for the Army to modernize and replace a combat vehicle fleet that is in excess of 30 years old.

The problem that I have is there is still much information that we need from OSD so that we can make informed decisions. As a result, we have been forced to make some very difficult decisions I would prefer to make with more information.

Again, on balance, this is a good bill, and I encourage all members to support it.

Mr. SKELTON. Mr. Chairman, I yield 3 minutes to my friend, my colleague from Texas, who is the distinguished chairman of the Subcommittee on Readiness, Mr. ORTIZ.

Mr. ORTIZ. Thank you, Mr. Chairman.

I rise in support of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010. The bill before us today reflects our committee's continuing efforts to reverse a decline in the readiness posture for Armed Forces.

I would like to thank the ranking member from my subcommittee, my good friend, Mr. FORBES of Virginia, for his help in bringing together this excellent bill.

The United States military is, without a doubt, the premier fighting force in the world. However, military leaders face significant challenges as they seek to fulfill the basic equipment and training needs.

H.R. 2647 is dedicated to providing the necessary resources and authorities to help reverse declining trends in training and equipment readiness. H.R. 2647 includes the following provisions to improve the overall state of the United States military readiness:

It provides $13 billion for reset of Army and Marine Corps equipment, deployment. It adds $762 million to fully sustain military base facilities and infrastructure, including Department of Defense schools.

It adds $450 million for Army barracks improvements and provides $440 million to support National Guard and Reserve military construction programs. It adds $395 million to Navy depot maintenance accounts for ships and aircraft.

It authorizes $90 million for energy conservation projects and encourages use of renewable energy and hybrid and electric vehicles. It requires a GAO report on DOD's approach to balancing the dueling requirements of troops.

It includes a 1-year extension of premium pay for Federal civilian employees deployed to Iraq and Afghanistan, and it provides $4.7 billion for training opportunities for the Army.

This bill also does many good things for south Texas. It provides additional space for the Army Reserve to warehouse equipment in a controlled humidity environment in Robstown, Texas.

The bill also authorizes an energy demonstration project at Naval Air Station Kingsville that would reduce carbon emissions and provide a renewable source of free electricity.

I support this bill, H.R. 2647, and am proud of what this bill does to restore strength to our military.

My friends, this is a good bill that reflects our bipartisan desire to improve readiness and balance the many priorities of our Armed Forces.

I urge my colleagues and my friends to vote for this bill.

Mr. MCKEON. I yield now to the gentleman from Virginia, the subcommittee ranking member on the readiness committee, Mr. FORBES, 3 minutes.

Mr. FORBES. Thank you, Mr. Chairman, for the opportunity to stand in support of this year's defense policy bill.

I would also like to express my sincere appreciation for Chairman SKELTON and Ranking Member MCKEON for their leadership and hard work in crafting a bipartisan bill that was unanimously supported by the Armed Services Committee. I would also like to thank the gentleman from Texas (Mr. ORTIZ) for his friendship and the foresight with which he conducts the readiness subcommittee.

This bill does much to address the readiness issues facing the Department of Defense by providing the Navy with $395 million to address both of the Navy's shortfalls in ship repair and aviation maintenance. We have fully funded other key readiness accounts so that our men and women have the tools, training and equipment they need when they deploy to protect our Nation.

I am pleased that this bill continues a steadfast commitment to fully funding the 2005 BRAC round for the Army, Air Force and Navy so that it can be completed by September 2011. However, I am deeply disappointed that the measure does not fully fund $350 million for defense-wide BRAC projects, which includes the construction of critical military hospitals for our men and women in uniform.

The amendment that was adopted by the full committee that led to this reduction will end up costing taxpayers more than $2 billion in 2010 alone, which is enough money to fully fund these critical health care facilities and restore $1.2 billion for comprehensive missile defense. Instead, this provision will lead to inflated wages in Guam, while taking American jobs from construction projects in Texas, Maryland, and Virginia.

That provision notwithstanding, there are many worthwhile provisions in this bill that will support our men and women in uniform, as well as the communities that support them.

I am pleased that we have added $9 billion above the President's request to assist small businesses and allow them to compete for local defense contracts, an additional $65 million to provide aid to school districts impacted by military families, and $20 million above the President's request to assist the military and conservation groups working together to protect against encroachment at our military installations.

All in all, Mr. Chairman, I believe that this is a good bill, and it will do much to support the readiness of our military.

I urge my colleagues to support this bill.

Mr. SKELTON. Mr. Chairman, I yield 3 minutes to my friend, the distinguished chairman of the Subcommittee on Sea Power and Expeditionary Forces, the gentleman from Mississippi (Mr. TAYLOR).

Mr. TAYLOR. I very much want to thank our outstanding chairman, Mr. SKELTON for giving me this opportunity.

I rise in support of H.R. 2647, the National Defense Authorization Act. As chairman of the Sea Power and Expeditionary Forces Subcommittee, I am pleased to report to the House that this bill strengthens our Navy and Marine Corps by providing the necessary equipment for the brave young sailors and marines to carry out the tasks that our Nation requests of them. In all, this bill authorizes $38 billion for Navy and Marine Corps procurement, $19.6 billion for Navy and Marine Corps research and development efforts, $3.2 billion for Navy and Marine Corps Overseas Contingency Operations, and $401.9 million for maintaining a robust United States merchant fleet.

I believe that the balance between quality, capability, and affordability is met head on with the bill before the House tonight. The bill provides authorization for the correct number of ships, planes and ground vehicles with the right capability to meet the threat, but with the recognition that unless equipment can be procured affordably, we will never be able to build our fleet or our air wings. That's why, working in a bipartisan manner, the subcommittee recommended and the full committee adopted our recommendation to grant multiyear procurement authority for the construction of DDG 51 destroyer programs, the world's best destroyer, and multiyear procurement authority to realize significant cost savings in the procurement of F/A 18 Strike Fighters to repopulate our air wings on the decks of our carriers.

In particular, the bill would authorize construction of eight new battle force vessels to include a Virginia Class submarine, three Littoral Combat Ships, one DDG 51 Burke Class Destroyer, two T-AKE Dry Cargo Ammunition Ships and one Joint High Speed Vessel. In addition to new construction, the bill would authorize procurement of long lead material construction for seven additional vessels in coming years, most importantly, two submarines per year starting next year.

The bill would authorize the Secretary of the Navy to enter into multiyear contracts for the purchase of additional F/A 18 Superhornets and E/A 18 Growlers. The bill contains over $100 million in additional funding to buy long-lead equipment and materiel necessary to continue production of these aircraft.

These are the finest aircraft in the world today, save our own Air Force F22 Raptor. Since it's unlikely that our Navy and Air Force will go to battle against themselves, that means the Superhornet is unmatched by any other strike fighter in the world.

We must always remember that the Navy and the Marine Corps are our Nation's 9–1–1 force; they can arrive anywhere in the world quickly with full combat power. They do not need weeks or months to ship and stage equipment. This is why the expeditionary force desperately needs more of these strike fighters. The bill will provide that capability.

This bill would also continue vital research and development efforts to ensure that our fleet maintains the technology and the superiority necessary to defeat all threats.

The CHAIR. The time of the gentleman has expired.

Mr. SKELTON. I yield an additional minute to the gentleman.

Mr. TAYLOR. Most notably, advanced missile and advanced submarine threats. The bill would fund the design and development of the next class of missile submarine, the next class of nuclear powered cruiser, and the next class of aircraft carriers.

Finally, the bill authorizes the resources necessary to maintain a robust United States Merchant Marine and authorizes $60 billion for the Title XI program.

Mr. Chairman, I would like to thank Captain Will Ebbs, Ms. Jeaness Simlar, Heath Pope, Doug Bush, and Jesse Tollson for their work in putting together this portion of the bill. I recommend it to the full House for its passage.

□ 2315

The CHAIR. The gentleman from Missouri has 12 minutes remaining. The gentleman from California has 18 minutes remaining.

Mr. MCKEON. Mr. Chairman, I yield 3 minutes to the ranking member on the Terrorism Subcommittee, the gentleman from Florida (Mr. MILLER).

Mr. MILLER of Florida. I do rise in support of the National Defense Authorization Act for Fiscal Year 2010. As the ranking member of the Terrorism and Unconventional Threats and Capabilities Subcommittee, I think we have put together a good and an excellent mark. And I'd like to thank the chairman of the subcommittee for all of his cooperation in putting this together.

The members of the subcommittee have worked hard to address the many issues that face special operations, information technology, and science and technology investments, just to name a few of the areas that our subcommittee has handled.

We have provided important support to the Department's effort to enhance NATO capabilities so that our forces do not bear the entire burden of the efforts in Afghanistan and elsewhere around the globe.

I believe we should support additional efforts to increase NATO's ability to contribute, especially at a time when irregular threats are only increasing and partnerships will prove of the utmost importance.

Our bill also addresses the needs of our special operators by increasing the budget request to address the command's unfunded requirements. These forces are at the tip of the spear in our military's efforts to counter terrorism and to bring stability to regions on the brink of chaos.

The bill includes measures to strengthen the Department's ability to operate in cyberspace and to address vulnerabilities to our information technology systems. The bill directs the establishment of a joint program office to better coordinate the acquisition of cyber capabilities across the Department and continues to push the Department to establish processes for the timely acquisition of needed information technology systems.

Finally, this bill continues our previous support of science and technology programs. Sustained investment in this area is very important for our military forces to maintain their warfighting capability not just now, but well into the future.

I would say that we need to continue to work on strategic communications, combating the potential use of weapons of mass destruction, and ensuring our national defense strategy addresses appropriately the range of threats found in our security environment today.

We must not lose sight of the importance of these issues and to ensure our forces have the resources, the authorities, and the equipment needed to provide for our Nation's defense.

Before finishing, I'd like to thank our former ranking member, Mr. JOHN MCHUGH, for all of his help, confidence, and advice. We wish him Godspeed. With that, I ask for my colleagues to support this bill.

Mr. SKELTON. Mr. Chairman, I yield 3 minutes to my colleague, my friend, the chairman of the Subcommittee on Terrorism and Unconventional Threats and Capabilities, the gentleman from Washington (Mr. SMITH).

Mr. SMITH of Washington. I rise in support of the National Defense Authorization Act and to discuss briefly the portions of the bill contained under the subcommittee that I chair on Terrorism and Unconventional Threats and Capabilities. And I want to begin by thanking Ranking Member MILLER from the great State of Florida for his support for this bill. We work in true bipartisan fashion on the subcommittee, following the lead of our able chairman, who does the same with the full committee, and I think, in large part as a result of that, we produce a very good product.

I also want to thank the chairman for his overall leadership on the committee in putting together this mark. It places the priorities exactly where they belong, first and foremost, on our troops and their families, giving them the support they need to continue to fight and defend our country.

In program after program, you can see the priority that that is put in this bill. I really appreciate the chairman's work on that and, particularly, the 3.4 percent pay raise across the board for our military.

The bill also prioritizes our fight in Afghanistan, the central front now in the war against al Qaeda. It is absolutely clear that the battle over there has a profound impact on the national security of this country. This bill gives our troops over there the resources and equipment they need to fight the fight, to defeat al Qaeda, and to protect us against the violent extremists in that region.

In particular, it also recognizes the battle in Pakistan by funding counterinsurgency efforts there that are so critical not just to success in Pakistan but to success in Afghanistan as well.

On the subcommittee portion of our mark on the Terrorism Subcommittee, we are focused on three main issues: First of all, support for counterterrorism efforts, the fight against al Qaeda, and broader counterinsurgency and counterterrorism efforts across the globe; second, the support for innovative new technologies to give our troops the updated equipment that they need to best fight those fights; and lastly, to protect our homeland against unconventional threats.

All of these areas are focused on irregular warfare, unconventional threats, and the emerging threats that we face. And I want to take just a moment to thank Secretary Gates for his leadership in funding the money necessary, the programs necessary, the troops necessary to fight these fights. He made some bold steps in this bill to move us past a cold war mentality to focus on the threats that are right there before us from al Qaeda and other violent extremist groups. I think that makes an enormous difference.

In particular, in our mark we do everything we can to support our troops with the special operations command. They are the tip of the spear in fighting terrorism, in fighting insurgencies throughout the globe. We are growing their force—in the process of growing their force. It is necessary to fund that growth and fully support their outstanding efforts in protecting us across the globe.

We are very pleased with the operations and always make a high priority funding their efforts. We fully fund all of their unfunded requirements in this mark.

So, with that, Mr. Chairman, I simply again want to compliment Chairman SKELTON, Ranking Member MCKEON, also Ranking Member MCHUGH for all of his work on this committee and on this bill and Ranking Member MILLER for his support as well. I think we have put together an outstanding bill that will best protect the national security interests of this country.

Mr. MCKEON. I yield, at this time, 3 minutes to the ranking member on the Seapower Subcommittee, the gentleman from Missouri (Mr. AKIN).

Mr. AKIN. I rise in support of the National Defense Authorization Act for Fiscal Year 2010. As ranking member of the Seapower and Expeditionary Forces Subcommittee, I applaud the efforts of Chairman TAYLOR and his staff, who have done an excellent job in meeting the needs of our sailors, aviators, and marines.

With respect to aviation, the bill takes an important step toward addressing the Navy's strike-fighter shortfall. The Navy completed a study required in last year's bill to evaluate the potential benefits of a multiyear procurement for the F/A–18 Super Hornet, which is the only ''hot'' production line we have for fighters for the Navy.

Unfortunately, the Secretary of Defense refused to allow the report to be submitted to Congress. In the absence of any analysis of this issue from the Department, the committee used its own judgment and included a multiyear authority for the Super Hornet.

We also provide sufficient long-lead funding to allow the Navy to execute this multiyear contract. I believe this is imperative, especially as the Navy continues to find more and more areas of concern on the legacy fleet that may make it challenging to extend the service life of these aircraft. I want to thank Chairman TAYLOR for working with me on this issue, as well as a number of others.

For the Marine Corps, the bill fully funds the Marine's Expeditionary Fighting Vehicle program, Mine Resistant Ambush Protected Vehicles, known as MRAPs, and all of the items on their unfunded requirements.

Despite the fact that the Department of Defense refused to provide the 30-year shipbuilding program required by law, which made this committee's work difficult, the bill largely supports the President's budget request in this area.

At the full committee, Representative CONAWAY and I, along with Chairman TAYLOR, introduced an amendment that would put some teeth into the changes made to the Littoral Combat Ship program cost cap. The Navy needs to know that we're serious about

controlling costs and do not adjust cost caps lightly.

The main concern I have with this bill does not fall under the Seapower Subcommittee, but I must mention it. Cutting missile defense by $1.2 billion makes no sense, particularly when North Korea and Iran are both working on nuclear weapons and long-range missiles. A cut of this magnitude is unacceptable.

I also continue to have one other overarching concern. We're not investing enough in the future of our military. The top line provided by the administration and, frankly, by this Congress, is too low. While we seem to be throwing money into every other problem under the Sun, we're tightening our belts on defense. This makes no sense.

But, again, this is a good bill overall, and Chairman SKELTON has done his best with these constraints. We're very thankful for his leadership.

Finally, Mr. Chairman, I'd like to give my best wishes to our former ranking member, JOHN MCHUGH, who has a fine record in this institution, and I know he will continue to serve and fight for the men and women in uniform. Nevertheless, he will be missed on this committee.

Mr. Chairman, I ask my colleagues to support this bill.

Mr. SKELTON. I yield 3 minutes to my colleague and my friend, the distinguished chairwoman of the Subcommittee on Military Personnel, the gentlewoman from California (Mrs. DAVIS).

Mrs. DAVIS of California. I certainly want to salute our exemplary leader on this committee, Mr. SKELTON, and thank him very much for all his support.

Mr. Chairman, I join my colleagues on the House Armed Services Committee in support of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010. As chairwoman of the Military Personnel Subcommittee, I'm particularly proud of the provisions in the bill that improve the quality of life for our servicemembers, their families, retirees, and military survivors.

I want to recognize my colleague and ranking member, the gentleman from South Carolina, JOE WILSON, for working with me in support of these very important initiatives.

Mr. Chairman, servicemembers and their families are bearing the burden of multiple deployments after nearly 8 years of conflict. It is our responsibility to support our men and women in uniform and their families, given the enormous sacrifices they are making in defense of our Nation.

We all agree that these men and women are the heart and soul of our military. All the weapons systems in the world cannot substitute for their competency, their dedication and sacrifice.

Sadly, a recent survey shows that 94 percent of military families do not believe that the American people truly understand the sacrifices they are making on behalf of our country, so we have a responsibility to change that, and we're trying to do that with this bill today.

Fortunately, this year the subcommittee did not have to deal with the dramatic increases to TRICARE fees and premiums previously proposed by the Department of Defense. Secretary Gates has indicated a willingness to work with the committee to address the significant growth in military health care expenditures. And we need to work together not only with the Department of Defense, but with those who represent our military personnel, retirees, survivors, and their families to find a fair and equitable solution that protects our beneficiaries and ensures that the financial viability of the military health care system is real.

Some of the highlights of the bill include a 3.4 percent pay raise, which is half a percent higher than the President's budget request. Those who are serving on the front lines every day have earned this pay raise.

The bill also includes a number of initiatives that are focused on military families, such as TRICARE coverage for reservists and their families and a monthly compensation allowance for members with combat-related catastrophic illnesses and injuries to receive assistance for activities related to daily living.

The committee has taken more steps to address the serious mental health issues faced by our military. I am pleased that we will be able to include a series of amendments to make the mental health provisions in this bill even stronger. We must continue to work on this issue.

Lastly, this bill continues the committee's oversight and commitment to significantly reducing sexual assaults and harassment within the Department of Defense.

Mr. Chairman, I urge my colleagues to support this bill.

Mr. MCKEON. Mr. Chairman, I yield now to the subcommittee ranking member on Military Personnel, the gentleman from South Carolina (Mr. WILSON).

Mr. WILSON of South Carolina. Mr. Chairman, I rise in strong support of H.R. 2647. This bill contains significant policy and funding initiatives that address important issues for our military personnel and quality of life.

I was honored to serve with Military Personnel Subcommittee Chairwoman SUSAN DAVIS, who I have seen firsthand promote our servicemembers, their families, and veterans.

Mr. Chairman, I would also like to thank Chairman IKE SKELTON and the professional staff for their efforts; particularly John Chapla and Jeanette James.

To that end, the bill contains many important initiatives, including a military pay raise of 3.4 percent. The raise is 0.5 percent above the President's budget request.

□ 2330

Mindful of the challenge the Army is having with large numbers of nondeployable personnel, we have recommended continued growth in Army end strength. The bill would allow the Army to increase by 30,000 in 2011 or 2012. I am particularly pleased that we changed the matching fund requirement to a 75–25 percent ratio between the Department of Defense and the States for the National Guard Youth ChalleNGe Program.

In addition, the bill protects child custody arrangements for deployed parents, championed by Congressman MIKE TURNER of Ohio. With all these good things in the bill, I must again raise my disappointment that we were unable to even debate my amendment in full committee dealing with concurrent receipt; the elimination of the survivor benefit plan; the dependency and indemnity compensation offset, more sadly known as the widows tax; the extension of health care to early retiring Reserve component members; and the use of the misnamed Reserve fund in the budget resolution.

Had the Democratic leadership seen eliminating these injustices as a priority, they could have allocated the small percentages necessary in the $15 trillion they provided for government spending in 2010 to 2014. This is less than one-sixth of 1 percent of mandatory spending for this period.

In addition, I was disappointed by the fact that for the second year in a row, we were unable to include my amendment to extend early retirement credit for service for National Guardsmen and Reservists back to September 11, 2001, retrospectively. The prospective retirement credits since January 28, 2008, is a start; but as a 31-year veteran of the Army National Guard, I know more needs to be done. As a Nation, we owe more than our gratitude for the brave men and women in uniform and their families, past and present, for the sacrifices they make to protect our freedom.

With that, Mr. Chair, H.R. 2647 is a strong defense authorization bill. I urge my colleagues to vote ''yes'' in support of H.R. 2647.

Congratulations to our dedicated colleague Congressman JOHN MCHUGH of New York for his selection to serve as Secretary of the Army.

Mr. Chair, I rise in strong support of H.R. 2647, The National Defense Authorization Act for Fiscal Year 2010. This bill contains significant policy and funding initiatives that address important issues for military personnel and quality of life.

I was honored to serve with Military Personnel Subcommittee Chairwoman SUSAN DAVIS who I have seen firsthand promote our servicemembers, their families, and veterans.

Mr. Chair, I would also like to thank Chairman IKE SKELTON and the professional staff of the Armed Services Committee for their efforts, particularly John Chapla and Jeanette James.

To that end, this bill contains many important initiatives, including: A military pay raise of 3.4 percent. The raise is .5 percent above the President's Budget request which reduces the pay gap to 2.4 percent from 13.5 percent in fiscal year 1999, culminating ten years of enhanced pay raises.

Mindful of the challenge the Army is having with large numbers of non-deployable personnel, we recommend continued growth in Army end strength. The bill would allow the Army to increase by 30,000 in 2011 or 2012. Such growth would significantly improve the Army's ability to deploy fully manned units.

I am particularly pleased that we changed the matching fund requirement to a 75–25 percent ratio between the Department of Defense and the states for the National Guard Youth Challenge Program. Other initiatives I would mention are:

The statutory mandate for the Department of Defense to account for all the missing from World War II, the Korean War, the Cold War, the Vietnam War, the Persian Gulf War and other conflicts designated by the Secretary of Defense, and increase the number of identifications from the current 70 per year to 350 per year by 2020; and

Extending TRICARE Reserve Select to members of the Retired Reserve who qualify for a non-regular retirement but have not reached age 60, otherwise known as ''grey area retirees.''

Continuing our commitment to support our wounded warriors, the bill would:

Establish a database to track service members who have been exposed to blasts to further enhance the care provided to for blast-related health issues, and;

Require medical examinations before service members with post-traumatic stress or traumatic brain injury may be involuntarily separated from the service.

In addition, the bill protects child custody arrangements for deployed parents championed by Congressman MIKE TURNER of Ohio.

With all the good things in this bill, I must again raise my disappointment that we were unable to even debate my amendment at full committee dealing with concurrent receipt, the elimination of the Survivor Benefit Plan and the Dependency and Indemnity Compensation offset, more sadly known as the widow's tax, the extension of health care to early retiring reserve component members, and the use of the misnamed Reserve Fund in the Budget Resolution.

I would note that since the introduction of my amendment, the Democratic leadership has found a way to fund for nine months a very limited concurrent receipt for disabled military retirees. That is a step forward to eliminating some of the injustice inflicted on disabled retirees. It however does nothing to cure the injustice still being suffered by most persons losing their rightly earned benefits because of the remaining concurrent receipt prohibitions.

Had the Democratic leadership seen eliminating these injustices as a priority, they could have allocated the small percentages necessary in the 15 trillion dollars they provided for government spending in 2010 to 2014. This is less than one-sixth of one percent of mandatory spending for this period. Or, they could have used the Reserve Fund authority as proposed in my amendment.

Instead we must settle for a small pittance for a small group of retirees.

I hope that since the authority for this limited concurrent receipt is for only nine months, that the Democratic leadership makes resolving all the concurrent receipt and the Survivor Benefit Plan and Dependency and Indemnity Compensation injustices a real, not symbolic priority, next year. We should focus on eliminating the widow's tax.

In addition, I was disappointed by the fact that, for the second year in a row, we were unable to include my amendment to extend early retirement credit for service for National Guardsmen and Reservists back to September 11, 2001, retrospectively. The prospective retirement credit since January 28, 2008, is a start, but as a 31 year veteran of the Army National Guard I know more needs to be done.

As a nation, we owe more than our gratitude to the brave men and women in uniform and their families, past and present, for the sacrifices they make to protect our freedom.

With that, Mr. Chair, H.R. 2647 is a strong defense authorization bill. I urge my colleagues to vote ''yes'' in support of H.R. 2647.

Mr. SKELTON. Mr. Chairman, pursuant to section 4 of House Resolution 572 and as chairman of the Committee on Armed Services, I request that during further consideration of H.R. 2647 in the Committee of the Whole, and following consideration of amendment No. 1, printed in House Report 111–182, the following amendments be considered: amendment No. 3, printed in House Report 111–182; amendment No. 4, printed in House Report 111–182; en bloc amendment No. 1; amendment No. 2, printed in House Report 111–182; amendment No. 9, printed in House Report 111–182, as modified; amendment No. 15, printed in House Report 111–182, as modified; en bloc amendment No. 2; amendment No. 20, printed in House Report 111–182, as modified; amendment No. 24, printed in House Report 111–182; amendment No. 34, printed in House Report 111–182; amendment No. 39, printed in House Report 111–182; en bloc amendment No. 3; en bloc amendment No. 4.

Mr. Chairman, at this time I yield to the gentleman from Ohio (Mr. KUCINICH).

Mr. KUCINICH. I rise to invite the chairman to engage in a colloquy with me.

Mr. Chairman, I wish to respectfully convey that I have three concerns with some of the practices employed by the Virtual Army Experience, a high-tech traveling exhibit employed by the Army as a recruiting tool. First, children as young as 13 years old are participating in the Virtual Army Experience, which paints an inaccurate picture of war by glorifying it while sanitizing the real effects. More than a mere video game, it includes interactions with real veterans who appear to be in perfect health. It also requires that the user, regardless of age, share personal information as a condition of participation. I think that we can find common ground on these issues. Specifically, I believe we can agree that the Virtual Army Experience video game must be revalidated to ensure that its age-appropriate rating is accurate in the context of how it's being employed, that the Virtual Army Experience content should be reviewed to ensure it accurately reflects the consequences of war, and that there must be increased transparency with regard to how the personal information of the participants collected during participation will be used by the Army.

Mr. SKELTON. As the gentleman knows, I support the VAE. At the same time, I know it can be improved. I would be happy to work with the gentleman to address the issues that you have so aptly raised.

Mr. KUCINICH. I want to thank the chairman for working with me on this.

Mr. MCKEON. Mr. Chairman, I yield at this time 3 minutes to the gentleman from Ohio (Mr. TURNER), the ranking member on the Strategic Forces Subcommittee.

Mr. TURNER. I would like to thank and congratulate Chairman SKELTON, Ranking Member MCKEON and his predecessor JOHN MCHUGH, who has been nominated for Secretary of the Army, and lend my support for H.R. 2647, the fiscal year 2010 National Defense Authorization Act. I would also like to thank Mrs. TAUSCHER, Chairwoman of the Strategic Forces Subcommittee. She has provided a strong and thoughtful voice on national security issues. I wish her the very best in her new position as Under Secretary of State for Arms Control and International Security.

This bill contains sound bipartisan provisions that provide key capabilities to our warfighters, strengthens our Nation's strategic forces and sustains the intellectual capital supporting our national security infrastructure.

The National Nuclear Security Administration is provided with the flexibility necessary to increase the long-term reliability, safety and security of our nuclear weapons stockpile. I was disappointed, however, that the bill implements the administration's missile defense cut of $1.2 billion. Given North Korea's widely publicized nuclear missile tests and missile launches, not to mention Iran's recent missile tests, cuts in missile defense challenge common sense. I cannot reconcile why the administration has decided to decrease

missile defense funding while daily news reports, substantiated by our own intelligence agencies, articulate an increasing missile threat. Despite the current threat posed by North Korea, including reports of a potential ICBM launch, the committee rejected amendments, many that were offered by myself and my colleagues, to restore missile defense funds. This included providing a modest amount of funds to complete a partially constructed missile interceptor field in Alaska designed to protect the U.S. homeland. Ironically, the bill includes $80 million for dismantling North Korea's missile program. I don't think anyone actually believes that Kim Jong Il is going to allow the Obama administration to enter North Korea and dismantle its nuclear weapons program. Unfortunately, the administration's $1.2 billion cut has set up false choices between protection of the United States homeland and protection of our forward-deployed troops and allies. Both are necessary, and both could have been adequately funded without such deep cuts. I am, however, pleased this bill included key provisions of the bipartisan NATO First bill that my colleague Mr. MARSHALL and I introduced to fortify America's transatlantic security links with our European allies.

I want to thank the chairman for his efforts, including these provisions in this bill. Lastly I would like to thank JANE HARMAN, JOE WILSON and SUSAN DAVIS for their support and assistance as this bill includes strong provisions to enhance sexual assault protections for women in uniform. Also with the chairman's support, this bill includes provisions that would protect the custody rights of our men and women who are serving. Unbelievably, courts across this country have denied our men and women their custody rights as a result of their absence in serving their country. Secretary Gates has committed to work with this committee, and I look forward to his work on this. I would like to encourage support for the 2010 National Defense Authorization Act.

Mr. SKELTON. Mr. Chairman, may I inquire as to the time remaining for each side, please.

The CHAIR. The gentleman from Missouri has 4½ minutes remaining. The gentleman from California has 6½ minutes remaining.

Mr. SKELTON. At this time I yield to the gentleman from Florida (Mr. KLEIN).

Mr. KLEIN of Florida. I thank the gentleman and the chairman for his leadership and the opportunity to engage in a brief colloquy.

I rise today to ask for your help in improving the care of our wounded warriors. Later this week, I will introduce the Wounded Warrior K–9 Corps Act to establish a program for organizations that provide wounded warriors and disabled veterans with service animals, like physical therapy dogs and guide dogs. There are several organizations around the country that train animals to work with disabled soldiers and veterans. These organizations, like many not-for-profit organizations, are struggling at this moment to collect necessary resources in these difficult economic times. The difference between these organizations and others is that they're giving our soldiers and veterans a service that they have earned. I applaud their private fundraising, and at the same time I realize that this is our responsibility as well. Mr. Chairman, this legislation will allow the government to keep its promise to America's disabled soldiers and veterans and help them retain an excellent quality of life after their service. Thanks to modern medicine, more and more of our brave men and women are able to sustain wounds that may have been fatal in the past. This is a blessing, but it also requires new tools to allow them to return to civilian working life. I have seen these programs in action. I have witnessed the growth of these veterans and wounded soldiers after working with a guide dog or animal that can assist them with physical therapy and lifetime care and support. These programs succeed, and I believe every American who puts on a uniform and risks their lives for our country should have the full support of this Congress in this mission.

Mr. SKELTON. I certainly thank the gentleman from Florida (Mr. KLEIN) for bringing this issue to the floor. As the gentleman knows, the bill under consideration calls for a report on military working dogs. Mr. KLEIN's legislation would surely take the next step with a grant for therapy dogs for disabled soldiers and veterans. I look forward to working with the gentleman from Florida to ensure that Congress stands behind our soldiers as well as our veterans.

Mr. KLEIN of Florida. I thank the chairman of the Armed Services Committee, and I urge my colleagues to support H.R. 2647.

Mr. SKELTON. I reserve the balance of my time.

Mr. MCKEON. Mr. Chairman, I now yield 2 minutes to the gentleman from Virginia (Mr. WITTMAN), the ranking member on the Oversight and Investigations Subcommittee.

Mr. WITTMAN. Mr. Chairman, I rise in strong support of the National Defense Authorization Act for fiscal year 2010, and I'd like to take a moment to highlight some important aspects of the bill. The members and the staff of the House Armed Services Committee are dedicated to supporting our men and women in uniform, and this bill truly reflects our undying commitment to those servicemembers. I am pleased to see that this bill makes progress towards strengthening our naval power and projection on the high seas. We must continue to develop the industrial base and promote shipbuilding to establish a floor, not a ceiling, of 313 ships in our Navy.

Our Nation's security and forward presence also depends on the timely delivery and deployment of our various naval platforms. Therefore, I urge my colleagues to support the provisions that provide for the construction of a new Virginia-class submarine, research and development funds for the SSBN Ohio-class replacement submarine, and advanced procurement for the new Ford-class carrier. Although this bill provides a temporary waiver for the number of carriers to dip below 11, I have deep reservations about this provision and firmly believe maintaining 11 aircraft carriers is essential to maintaining our long-term naval superiority.

While I support this bill, I do have some concerns about the administration's overall direction for our military and the decision-making process that went into the budget. It is imperative that we preserve the integrity of the congressional oversight through appropriate and efficient transparency. Without a 30-year shipbuilding plan and a 30-year military aviation plan, we are denied a full understanding of the administration's perspective of what the defense of our Nation's interest requires. The strategic risk we accept in this defense authorization bill is equally as important as the dollar figure. The American people rightfully expect that the Members of this Congress are fully aware of the strategic risk associated with the President's budget request.

As we consider strategic threats facing our country today, I urge my colleagues to strongly support a bipartisan amendment that would be offered by the gentleman from Arizona (Mr. FRANKS). This amendment will rightfully restore funding for the Missile Defense Agency by $1.2 billion. North Korea continues to test its missile capabilities while Iran pursues a nuclear weapons program. Therefore, it is imperative that we provide full funding to our Nation's most crucial missile defense programs.

□ 2345

Keeping Americans safe from terrorists at home is equally important. The American people have spoken and made it very clear that they do not want detainees from Guantanamo brought to the United States. I believe this issue should be openly debated and given a vote within the full House.

Again, I strongly support this bill and look forward to improving some of the provisions on the floor tomorrow. I would like to thanking Ranking Member MCKEON, Chairman SKELTON, and also Mr. MCHUGH for his service.

Mr. SKELTON. Mr. Chairman, I yield 1 minute to my friend, my colleague,

the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. I thank the chairman very much for his continued leadership and the leadership of the ranking member.

Mr. Chairman, I rise to raise three points, and I'd like to refresh the memory of the chairman. As he well knows, over a period of congressional terms, I brought to his attention the inability of families to publicly acknowledge their loved ones who lost their life in battle coming back from a foreign land as they came into Dover Air Force Base. I want to recognize the fact that this new administration, even though we had a number of legislative initiatives in previous defense authorization bills, have now allowed families to be able to have their loved ones publicly acknowledged as they have come in from losing their life on a foreign field. I think that is an important note, and I hope families of America will recognize that the fallen are respected the moment they hit the soil of the United States.

I also wish to make note of the increased coverage of TRICARE, but I would like to work with the committee as we go forward to expand the number of facilities which our active duty soldiers and others can access. In particular, I would like to see an emphasis on inner-city facilities that would allow or have TRICARE accreditation.

Finally, I would like to acknowledge the GAO study that asked for a strategic response to Afghanistan and Iraq. As someone who has persistently or continuously expressed her opposition to the present Iraq war and the status, I want to keep the pressure on that we begin to downsize but, more importantly, that we have a strategy for doing so that we can do it safely. And then as it relates to Afghanistan to make sure that we also have a strategy so that we can ensure that our troops are, in fact, fighting a battle that we can win. We want peace. We want freedom. But we want to make sure that we can bring our troops home.

I thank the chairman for the time and the ranking member, and I appreciate their leadership on this legislation.

Mr. MCKEON. Mr. Chairman, I yield for the purpose of making a unanimous consent request to the gentleman from Utah, the one that led us in that great debate on the F–22 that saved the day.

Mr. BISHOP of Utah. I thank the chairman and the ranking member for this bipartisan bill and the wonderful bipartisan amendment the saves our Air Force and moves us forward.

I rise this evening to support the bill H.R. 2647. I commend my friends on both sides of the aisle on the House Armed Services Committee for continuing the tradition of working in a bi-partisan manner to provide for the common defense of this country, and for the dedicated men and women of the armed forces.

However, I do have reservations. It is readily apparent that the Administration has taken a haphazard approach to cutting defense programs, such as missile defense, and the F–22 fighter, as budget drills. There are no studies by any qualified source, including military analysis, that support these reductions as a means of meeting the needs of the military. When asked in committee, for example, if 187 F–22s were what the Air Force needs or merely what the Air Force can afford, the answer was quick and direct; It was what the Air Force was ''told'' it could afford, and the basis of the decision was political and budgetary, not based on national security.

When the F–22 program requirement was first established, it was based on procurement of 750 aircraft. We on the committee have repeatedly requested that the Department provide us with analysis upon which this budget decision of only 187 planes was based. That analysis still has not been provided, leaving a strong indication that it is a budget drill, pure and simple. I am pleased that a majority of committee members supported an amendment to restore F–22 long-lead procurement funding for 12 additional aircraft in FY10. There were strong indications during markup that many members, a good majority on both sides of the political aisle, would like to have supported full F–22 production of 12 to 20 aircraft in FY10, and not just long lead procurement items.

One of the most disturbing recent developments on the F–22 is the release of a letter signed by Air Force Combat Commander General John D. W. Corley, wherein he verifies in writing that there are NO studies which support the Administration's decision to end the F–22 production at 187 aircraft, and he further maintains that 250 aircraft are necessary to ensure a ''moderate risk'' level. A copy of his letter was included in the House Committee report to accompany this bill. I urge all of my colleagues to read it. General Corley also states that the Administration developed its F–22 termination plan without even consulting with Air Combat Command. That's very disturbing. The very command with the technical expertise in charge of fighter operations was not even consulted by the Office of the Secretary of Defense? This alone raises very serious questions about the soundness of the Administration's decision. This decision on F–22 will have profound implications on our nation's strength and air dominance 15 and 20 years from now. We cannot afford to go ''high risk'' at only 187 aircraft. Not with Russia, China and other nations fielding advanced fighter aircraft in the next two years.

It is also ironic that, at a time when the Administration is spending hundreds of billions in tax dollars to create jobs, that it would be so intent upon cutting the F–22, which is responsible for 25,000 direct and 70,000 indirect jobs. Why are good defense jobs any less valuable than those that the Administration claims to have created in the $800 billion Stimulus package? These are good jobs that are producing a vital defense weapon system to protect our homeland, which will be lost unless funding is restored.

The F–22 and F–35 are not duplicative aircraft. They are not interchangeable. They were designed for different, but complimentary roles. We need both, but we also need adequate numbers of both.

I also oppose the cuts proposed by the Administration to missile defense programs such as Ground Midcourse Defense (GMD) and Kinetic Energy Interceptor (KEI). It seems that the ''savings'' from these cuts, at $1.8 billion, are rather small in comparison to the lost opportunities for further research and development in improving our defense of the homeland against emerging and future missile threats.

These cuts also have devastating impacts on the defense industrial base, especially large defense solid rocket booster production. If allowed to stand, every program associated with large-scale defense solid booster production will be decimated. Someone must pay more attention to the cumulative impact of these different programmatic budget decisions on the solid rocket booster industrial base as a whole. It also seems wasteful that DoD and the Missile Defense Agency (MDA) will not proceed with a planned booster test firing in September of this year with the KEI program when the booster has already been produced and delivered to the test site at Vandenberg AFB. The MDA should move forward with this test that has already been bought and paid for by U.S. taxpayer investment since 2004, and which could result in a significant harvest of scientific data for use on future defense projects.

It is highly ironic that the Administration's announcement to end the Ground Based Interceptors at 30 land-based missiles occurred on the very same day that North Korea conducted its long-range missile test threatening Japan and possibly parts of the United States. Just this past week, with renewed missile threats from North Korea against Hawaii, the Secretary of Defense touted our ground-based interceptors as providing protection, even as the Administration continues to advocate a halt to their production! This is no way to protect the homeland. Secretary Gates has said his recommendation for GMD is ''not a forever decision.'' That's fine, but one cannot quickly restart a production line in the future. And we may not have the luxury of time in the future.

Were any of our 30 interceptors to be fired, there would be no replacements. It is also highly likely that two or more interceptors would be fired at any incoming threat. So potentially one rogue missile threatening Hawaii, or the western U.S. would require the use of two, three or more of our ground based interceptors. The Administration's termination of GMD allows for no replacements and worse—no defense industrial base capability to easily or quickly restart production of land based interceptors. Again, this is a short-sighted budget decision which endangers our long-term national security.

In conclusion, I urge that the cuts in missile defense be restored in order to adequately defend our homeland now and into the future. There is nothing more fundamental to the very survival of America than the United States military. Everything else is a corollary to that fundamental principle. It is my profound hope that we can work together over the next 3 to 4 years to build the additional F–22s until we reach the 240 to 250 numbers that Air Force planners have repeatedly stated are absolutely necessary.

Mr. MCKEON. Mr. Chairman, I yield now 1 minute to the gentleman from Ohio (Mr. LATTA).

Mr. LATTA. I thank the gentleman for yielding.

Mr. Chairman, I rise in support of the TRICARE Continuity of Coverage for National Guard and Reserve Families Act of 2009, of which I'm a cosponsor and which was amended into the National Defense Authorization Act.

Members of our National Guard and Reserves are eligible for TRICARE health insurance during their service and after the age of 60 but not during the time in between, the time in between when they retire until the age of 60, being referred to as being in the ''gray area. ''

Specifically, ''gray area'' retirees are Reserve component retirees under the age of 60 with more than 20 years of faithful and honorable service who have qualified for retirement at age 60.

The legislation fills in that gray area to ensure that these men and women have the opportunity to purchase TRICARE Standard health care coverage during that time and provides access to the care they deserve. This legislation is important because currently around 50 percent of those serving in Iraq and Afghanistan are Reservists and National Guard. And this option for purchasing TRICARE Standard will serve as an incentive for those Guardsmen and Reservists to continue to serve.

I thank the Armed Services Committee, the chairman, and the ranking member for including this important legislation in the National Defense Authorization Act for Fiscal Year 2010.

Mr. SKELTON. Mr. Chairman, I reserve the balance of my time.

Mr. MCKEON. Mr. Chairman, I yield such time as he may consume to Mr. AUSTRIA for the purpose of a colloquy.

Mr. AUSTRIA. I thank Mr. MCKEON for yielding.

I appreciate you and Chairman SKELTON for bringing this important bill to the floor. It does provide what we need for national security and for our men and women who are serving so selflessly in our Nation's defense, and I thank you both for your hard work on this bill.

I was reading the committee report language that accompanies the bill regarding insourcing new and contracted-out functions. And I wanted to bring to your attention some very serious concerns small business owners in my district have raised in regard to this issue.

Small business owners dealing in defense contracting are losing employees to the Federal Government. This practice apparently is becoming a trend in the defense contracting community, a trend that I find deeply troubling.

Mr. MCKEON. Will the gentleman yield?

Mr. AUSTRIA. I certainly will be happy to yield.

Mr. MCKEON. I thank the gentleman for raising this issue.

You are correct, the Defense Department is moving toward reshaping its workforce by reducing the number of service support contractors and replacing them with government employees. We have been told this effort will hire over 13,000 government civilians to replace support contractors at a proposed savings of $900 million.

Mr. AUSTRIA. Let me just say, in my view, that we should not be growing government during this economic crisis. In my opinion, it's already too big. But we certainly should not be increasing the Federal Government at the expense of small businesses, in this particular case, small defense contractors. It's simply not fair and it's not in the best interest of the taxpayer.

Mr. MCKEON. Will the gentleman yield?

Mr. AUSTRIA. I would be happy to yield.

Mr. MCKEON. As you know, Chairman SKELTON and I included in our committee report language that stresses our belief that these insourcing initiatives should not be driven by random goals or arbitrary budget reductions. In the language we also note that these insourcing initiatives should give appropriate consideration to the impacts on the contractor workforce. I'm also very concerned that the estimated cost savings will never be realized.

That said, I would be happy to work with the gentleman from Ohio and any other interested parties as the bill moves forward to revisit the important issue of how to balance the defense workforce: military, civilian employee, and contract.

Mr. AUSTRIA. I thank the gentleman, and I look forward to continuing to work with him on this very important issue.

Mr. MCKEON. Mr. Chairman, we have had, I think, a lot of good input tonight on the bill. I ask that all of our Members tomorrow support the bill.

In the morning we will move into the amendment process. The chairman and his staff have done a tremendous job of helping put the 60-plus amendments that were approved out of the Rules Committee into a process that I think will help us in moving forward in an expeditious manner in the morning. I look forward to that.

Again, I thank the chairman for his graciousness and his leadership in moving the bill to this point.

Mr. Chairman, I yield back the balance of my time.

Mr. SKELTON. Mr. Chairman, let me first express my gratitude and admiration to the new ranking member of the Armed Services Committee, Mr. MCKEON. He hit the ground running, a veteran of our committee, and his first baptism of fire was in the markup of the some-17 hours of this bill in committee, and we thank him for his leadership and for his diligence in making this a success.

Tomorrow, under the rule, Mr. Chairman, we will consider the various amendments, four groups of en bloc amendments and several by themselves, according to the rule that's been set forth and the time limits set thereon.

This is an important piece of legislation. It deals with the security of our country, the security of our citizens. It deals with those young men and young women in uniform wherever they may be. It's our job to do our best to support them and this bill does just that.

I thank the members of the committee on both sides of the aisle. They have been magnificent to work with.

Mr. BISHOP of Georgia. Mr. Chair, I rise in support of my amendment to H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010. In short, my amendment would provide the Department of Defense, and in particular, the Office of Economic Adjustment, the authority to financially support the development and construction of public infrastructure in communities which are directly impacted by the expansion and growth of military installations.

Mr. Chair, the last Military Base Re-alignment and Closure initiative, which occurred in 2005, coupled with the ongoing transformation of the Army and re-positioning of troops worldwide, has had a tremendous impact on the local communities which house our nation's military installations and facilities.

In its FY2009 Budget Justification, DOD estimated the total one-time cost for the most recent BRAC round in 2005 at nearly $32 billion, of which nearly $23 billion will be for military construction. For FY2009, DOD's budget request was $9.07 billion, while Congress approved $8.77 billion. And just yesterday, the House Appropriations Committee, of which I am a member, approved at total of $7.49 billion for BRAC construction activities.

The Muscogee County School District for example, which is located in my congressional district in Georgia, is estimated to receive 5,000 to 9,000 additional school-aged children as a result of the planned growth and expansion of Ft. Benning. DOD's most recent projections put the number of new school aged children at approximately 3,000 to 4,000. But no matter what the number, there is a consensus that several thousand new children will be attending a school system which currently does not have the facilities to house them.

According to some estimates, nearly 25 local school districts nationwide could be required to accommodate tens of thousands of additional military dependent school-aged children due entirely to DOD actions and decisions. The financial cost to school systems across the county resulting from the latest round of DOD initiatives could exceed $2 billion over the course of the next several years. This includes the communities surrounding Ft. Bliss [Texas], Ft. Bragg [North Carolina], Ft. Carson [Colorado], Ft Lee [Virginia], as well as several other facilities where major growth is envisioned by DOD.

By providing DOD the authority to develop public infrastructure, including local schools,

as provided in my amendment, we begin to address this challenge by providing the Department with expanded authority to assist select communities in addressing their local facility needs.

There is precedent. During Word War II, the Korea and Vietnam wars, our National leaders saw fit to partner with local education agencies to build schools to accommodate children of the military, defense employees and contractors who worked on the military installations. Likewise, the Department supported the construction of schools as a result of the expansion and growth of the military's Kings ay installation.

Mr. Chair, in closing, the enormity and size of the challenges facing communities impacted by DOD personnel movements is overwhelming. This amendment is an important step in providing the Department with the authority to begin to work with these communities in addressing their infrastructure needs—needs which have been created by the Department's own actions.

I urge the House's support for this amendment.

Mr. ABERCROMBIE. Mr. Chair, I have the honor of serving as the Chairman of the Air and Land Forces Subcommittee of our Armed Services Committee. I would like to thank our Chairman, IKE SKELTON, for his great leadership in bringing this outstanding bill to this point. I also welcome the new Ranking Member, BUCK MCKEON, and am confident that he and Chairman SKELTON will make a great team.

I would also like to thank ROSCOE BARTLETT, our subcommittee's ranking member, for all his support and advice in putting our bill together.

This bill is about balancing the capabilities and readiness of our current military forces with desired future required military capabilities.

Our military personnel are at risk each and every day. Our first priority is to make sure those men and women are properly supported by ensuring our military programs adequately support current military requirements.

We are doing everything possible to provide our personnel in Iraq and Afghanistan the equipment they need as well as provide for the equipment needs of our National Guard units here at home, to meet crisis response and potential natural disaster requirements. The subcommittee's jurisdiction includes $82 billion in Department of Defense procurement and research and development in Titles I and II and another $20 billion in Title XV, for overseas contingency operations.

We have made nearly $3 billion in reallocations within the Subcommittee, funding higher priority current requirements, using funds from programs with excessive unexpended balances, delayed execution, and excessive cost growth.

Our Subcommittee increased the unfunded requirements of the Army and Air Force by over $1 billion by reallocating funding from these lower priority projects. The mark also provides an additional $603 million for procurement and research and development of the F136 competitive engine for the F–35 aircraft program. This is largely offset by rebalancing within the F–35 program, by reducing procurement from 32 to 30 aircraft.

Nearly $2.7 billion is authorized for 176 Apache, Kiowa, Black Hawk, and Chinook helicopters and an additional $1.2 billion is provided for helicopter modifications. Our bill:

Fully funds elements of the Future Combat Systems program that will continue in some form, at $2.55 billion;

Provides $2.5 billion for new and upgraded Army ground combat vehicles;

Provides $263 million for research and development of future Army ground combat vehicle upgrades and improvements; and

Provides $600 million for National Guard and Reserve Equipment, above and beyond what is in the budget request.

The change by the National Guard to an operational reserve status, coincident with a reorganization of the Army, has greatly increased the amount of equipment Guard and Reserve units are required to have. While the Department is making improvements and progress in providing improved funding to equip the National Guard and Reserve to enhance its role as an operational reserve, there are a significant number of units that do not have their required equipment.

Given the operational reserve equipage model, a large percentage of nondeployed Army National Guard units are far below Army standards for equipment on hand. Without the right type and amounts of equipment, even the most dedicated and experienced soldier or airman cannot train for combat, or provide adequate assistance when there is a domestic emergency.

The committee continues to work on improving intelligence, surveillance, and reconnaissance, known as ISR capabilities, as well as improving counter improvised explosive device technology, vehicle armor, body armor, and helmet protection. Like many other mission areas in the Department of Defense, there is no apparent nexus for intelligence, surveillance, and reconnaissance joint strategy, requirements coordination, acquisition or deployment focus, where a single lead organization is responsible.

An example that can be cited is the unplanned and expensive proliferation of dissimilar ISR platforms all seeking to provide the same capability.

Coalition forces control the skies in both theaters and has the world's best ISR technology, but does not use this advantage to full advantage.

The Department still fails to provide joint ISR employment plans for both Iraq and Afghanistan. This bill directs the Department to assess the current use of ISR systems in Iraq and Afghanistan and make recommendations on how to more effectively coordinate and use all the systems we have deployed and plan to deploy.

The committee has in the past directed the Department to define joint ISR requirements and develop a long-term strategic plan to make informed acquisition decisions to meet ISR goals. That continues to be a work in progress.

BODY ARMOR

It is widely reported that our soldiers in Afghanistan routinely carry loads of 130 to 150 lbs for a 3-day mission. Personnel can only wear so much armor, beyond which their operational effectiveness is inhibited, which in turn increases their risk of being injured. Two provisions in our bill require the Secretary of Defense, beginning with the fiscal year 2011 budget request, to establish research and development program elements and procurement budget line items for the development and acquisition of body armor and personnel protection enhancements.

The language also strongly encourages the Secretary of Defense to consider establishing a DOD-wide Task Force on par with the MRAP Vehicle Task Force to promote weight reduction initiatives for body armor.

The bill fully funds the President's request of approximately $700 million for body armor.

MINE RESISTANT AMBUSH PROTECTED (MRAP) VEHICLES

With regard to the Mine Resistant Ambush Protected (MRAP) vehicle program, over 16,000 vehicles have been produced in just over two years. Approximately 15,000 vehicles have been fielded and these vehicles continue to save lives daily. Almost $26.0 billion has been provided by Congress for this program.

This bill fully funds the President's request of $5.45 billion for MRAP category vehicles. The request procures approximately 1,000 MRAP All-Terrain Vehicles, a lighter weight version of the current MRAP Vehicle, to be used in Afghanistan. The request also provides operation, maintenance, and sustainment funding as well as necessary funds to address home-station training requirements.

TACTICAL WHEELED VEHICLES

The bill provides $5.25 billion for light, medium, and heavy tactical wheeled vehicles or ''Humvees'' and ''trucks.'' This funding keeps the industrial base operating at high levels of production and will help address shortfalls in the Guard and Reserve components. In closing, I again want to thank my distinguished chairman and ranking member of the full committee and our subcommittee.

H.R. 2647 is deserving of a ''yes'' vote from every Member of this body.

Mr. LANGEVIN. Mr. Chair, I rise in support of the fiscal year 2010 National Defense Authorization Act, and I want to thank my good friend Chairman SKELTON for his leadership in crafting an excellent bill.

This bill gives not only gives our service men and women the tools they need to keep our nation safe, but it also makes valuable investments in programs and projects that support our military families, increase oversight of our war efforts and further critical non-proliferation efforts. It recognizes the sacrifices made not only by our troops, but by their families as well, providing a 3.4 percent pay raise, expanded TRICARE coverage, and $1.95 billion for military family housing. This measure will increase oversight and accountability by requiring the President to report on U.S. goals in Afghanistan and Pakistan and our redeployment from Iraq. It also adds $2.5 billion to programs designed to stop the proliferation of nuclear weapons, one of the most urgent threats the world faces today. Finally, the bill strengthens our nation's missile defense capabilities, by increasing funding for systems vital to protect against real threats while balancing technology development to face the needs of tomorrow.

I am particularly pleased with the steps taken in this bill to ensure that contractor

waste, fraud and abuse is brought to an end and that we have an efficient and fair system for meeting critical defense needs. During the Armed Services Committee's mark-up, I offered an amendment, which was adopted by voice vote, to alter the OMB Circular A–76 process for determining which activities are inherently governmental functions and vital to our national defense. My amendment will ensure the A–76 process is fair for our government workforce and provide the Obama Administration a chance to address past failures of the A–76 process.

This legislation also addresses the need to enhance our military's cybersecurity capabilities. Cyberspace is a growing component of the modern battlefield, and we must ensure our forces are prepared for the wars of tomorrow. I applaud the efforts of the Secretary of Defense and the services to meet the growing threat of cyberattacks. I am concerned, however, that individuals with critical cyber skills are not making a career in the uniformed services. We need to do everything in our power to recruit and retain talented and experienced individuals, and that is why I offered an amendment during committee consideration that requires the Secretary of Defense to submit to Congress a report assessing the challenges to retention and professional development of uniformed and civilian cyber operators. I am pleased that this requirement is now included in the bill before us today. This report will help define numbers of personnel, recruitment and retention incentives, policy impediments, and methods to improve interagency and academic outreach to individuals with critical cyber skills.

Finally, I also want to give praise to Secretary Gates, Chairman SKELTON and Chairwoman TAUSCHER for working with our military commanders to shape a budget that protects the U.S. and our allies from real ballistic missile threats. The bill provides $9.3 billion for missile defense, supporting critical programs that are tested and operational and eliminating unnecessary and unproven programs that waste taxpayer dollars.

The U.S. Intelligence Community estimates that the most significant ballistic missile threat to U.S. interests, deployed forces, and our allies comes from short- and medium-range ballistic missiles that represent 99% of the total number of ballistic missiles other than those held by the United States, NATO nations, Russia, and China. H.R. 2647 supports the President's request to increase funding by $900 million for systems that counter this threat, such as the Aegis BMD system and the Terminal High Altitude Area Defense (THAAD) system.

Looking forward, this bill also provides $1 billion to support the requests of President Obama, Secretary Gates, and the Chairman of the Joint Chiefs of Staff to support the development and operation of 30 Ground-based Midcourse Defense interceptors, designed to guard against future emerging threats. According to senior defense officials, these 30 interceptors are more than what is necessary to deal with any long-range threat from a rogue state in the near and mid-term. This will ensure our nation is able to face the threats of today and tomorrow.

Mr. Chair, this bill admirably balances critical national security needs with realistic budget considerations, and I am proud to support it. Again, I thank Chairman SKELTON for his leadership and urge my colleagues to vote for this important legislation.

Mr. GINGREY of Georgia. Mr. Chair, as we consider H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010, I would like to say a special thanks to Chairman SKELTON and Ranking Member MCKEON—as well as to subcommittee Chairman ABERCROMBIE and Ranking Member BARTLETT—for their tireless efforts in support of our soldiers, sailors, airmen, and marines who are bravely defending us at home and abroad.

While not a perfect bill, this legislation covers a wide scope of issues that are vitally important to our Armed Services, both active and reserve component, and it clearly addresses the most pressing needs of our troops in a very trying time for America. A 3.4% pay raise for all members of the Armed Forces will further reduce the military-civilian pay disparity. I am very pleased with the work the Committee has done this year to authorize $368 million for the advance procurement of long-lead supplies needed to build 12 additional F–22's in 2011. The F–22 is the world's most capable fighter, and these funds will go a long way towards providing stability for our forces and ensuring that America maintains air dominance for the foreseeable future.

While I applaud the work of the Committee in addressing pressing readiness issues, I am however concerned about the deep cuts to missile defense. A viable missile defense system is critical to deterring and countering emerging threats to our national security—especially as Iran and North Korea develop their nuclear capabilities. I look forward to working with Chairman SKELTON, Ranking Member MCKEON, and the rest of the Committee as this bill moves forward to address these program needs.

While there is much to be proud of in this bill, I am disappointed that the Rules Committee failed to make any of my four amendments in order. These were commonsense amendments, Mr. Chair, that would make the Department of Defense (DoD) more effective in carrying out its mission.

The first amendment I offered to this bill would have ensured that no detainees at the Guantanamo Bay detention facility are transported to the United States. The American people have spoken on this issue with 55% of them opposed to allowing terrorists to be transported to American soil. Further, a June 12, 2009 letter from the Director of the Federal Bureau of Prisons to my colleague, Trent Franks, stated that ''there is insufficient bed space in any high-security Federal prison to confine these individuals. In addition, there are currently no beds available in our Administrative Maximum United States Penitentiary in Florence, Colorado, to confine any more Federal inmates, let alone any of the Guantanamo Bay detainees. If called upon to confine any of these detainees, we would most likely confine them in ADX Florence and in one or more high-security penitentiaries. Depending on the numbers, this might require us to transfer a sufficient number of inmates to other penitentiaries in order to create the necessary bed space. Such transfers would impose significant additional challenges on our agency.'' Clearly the transfer of these detainees to anywhere in America is dangerous and must be prohibited.

My second amendment would express the sense of Congress that active military personnel who live in or are stationed in Washington, DC, would be exempt from the District's firearms restrictions. On June 26, 2008, the Supreme Court of the United States in the case, District of Columbia v. Heller, held that the Second Amendment protects an individual's right to possess a firearm for traditionally lawful purposes, and thus, ruled that the District of Columbia's handgun ban and requirements that rifles and shotguns in the home be kept unloaded and disassembled or outfitted with a trigger lock to be unconstitutional. However, the D.C. City Council has circumvented the Supreme Court ruling by enacting the Firearms Control Emergency Amendment Act of 2008, making a waiver necessary to ensure that our military men and women—of which there are 40,000 in Washington and who have been trained in firearm use—are permitted to safely carry a firearm in the District.

A further amendment would prohibit DoD civilian employees from using official paid work time for union activities, ensuring that American taxpayers are not subsidizing labor organizations. DoD was one of the largest abusers of using ''official time'' for union activity. Its total number of official time hours in FY 2008 was 331,099 (a 5.1% increase from FY 2007). OPM estimated the official time wage cost for the DoD was $12,141,699 for FY 2008, which is an $855,694 increase from FY 2007. This is just one example of union activity being subsidized by taxpayer dollars on official time.

My final amendment would have provided the Secretary of Defense with a waiver from section 526 of the Energy Independence and Security Act of 2007 regarding the procurement of alternative fuels if the Secretary feels that a waiver is appropriate to enhance the readiness of the Armed Forces. Section 526 prohibits all federal agencies from contracting for alternative fuels that emit higher levels of greenhouse gas emissions than ''conventional petroleum sources.'' DoD accounts for over 80% of all federal government fuel usage, and its annual fuel expense more than doubled between 2003 and 2007—from $5.2 billion to $12.6 billion. The Secretary of Defense needs a waiver from section 526 so that DoD's fuel costs can be kept low.

Mr. Chair, there is much to be proud of in this bill. I again commend Chairman SKELTON and Ranking Member MCKEON for their efforts to keep this bill focused on the needs of the war-fighter, a fact that I hope is not lost as we progress through the amendment process.

Ms. WOOLSEY. Mr. Chair, while I cannot support H.R. 2647, this legislation does contain important provisions regarding family and medical leave for military families.

Last session, Congress passed—also in a Defense Authorization bill—legislation to provide military families with up to 26 weeks of leave under the Family and Medical Leave Act (FMLA) to care for injured servicemembers. I had introduced this bill in the House, and its provisions implement one of the recommendations of the President's Commission on Care for America's Returning Wounded Warriors, chaired by Secretary Donna Shalala and Senator Bob Dole.

Also included in the final legislation was an amendment introduced by Representative ALTMIRE (with then Representative UDALL) to provide up to 12 weeks of leave for military families who need this leave to deal with qualifying exigencies arising out of the deployment of a servicemember to Iraq or Afghanistan.

Once this legislation became law, and the Bush Department of Labor issued regulations, we realized that corrections needed to be made to these FMLA provisions to truly effectuate their purpose to assist military families when these families need time off from work. Section 585 of H.R. 2647 does just that; and clarifies:

That family members of certain seriously ill and injured veterans are entitled to the 26 weeks of leave; and

That the family members of regular active servicemembers (and not just reservists and members of the national guard) are entitled to 12 weeks of leave for ''exigencies'' when they are deployed away from home.

Finally, Section 585 provides that exigency leave will be available when a servicemember is to be deployed anywhere overseas and not just overseas in support of a contingency operation (e.g. Iraq or Afghanistan).

The FMLA is intended to help individuals balance their family and work obligations. Millions of working people are now eligible for unpaid job protected leave. When the Act was passed in 1993, it was a giant step and is of great importance to working families.

Since a majority of military spouses work, they too must balance work and family. They work to put food on the table and support their families. But they face additional challenges because their lives are disrupted by multiple deployments, involving not only reservists and members in the National Guard, but those servicemembers in regular active duty as well.

The conflicts in Iraq and Afghanistan have resulted in over 34,000 casualties with many servicemembers being seriously wounded. These injured warriors need substantial support and care from their families, often for long periods of time, and some permanently. In addition, a recent Pentagon study found that 11 percent of Iraq veterans and 20 percent of Afghanistan veterans suffer from post-traumatic stress syndrome, an often disabling condition.

The expansion of the FMLA to include leave for military families was much needed. The provisions of Section 585 in H.R. 2647 help clarify the original intent of the law.

Mrs. MILLER of Michigan. Mr. Chair, I rise today in strong support of National Defense Authorization Act of 2009.

The Department of Defense directed the Army to restructure its premier modernization program known as Future Combat Systems—FCS program—which includes a network of new sensors, radios, robotic vehicles and a fleet of new combat vehicles.

I personally commend the thousands of dedicated soldiers, department of defense civilians and their defense industry partners who worked on the project.

More than 1,000 of these dedicated men and women that do the engineering work for the FCS program live and work in my district. Some 10,000 employees in 74 Michigan companies worked to provide the Army a new ground combat vehicle fleet.

Many of them will be economically disadvantaged, despite their best efforts, by termination of the combat vehicle project.

Legislation passed by the Armed Services committee recognizes the restructuring of the FCS program and provides guidance on how the Army should proceed.

Providing for the national defense is in the preamble of the Constitution of the United States, it is this body's most solemn duty and responsibility. We must ensure that the men and women we send into harm's way have the very best training and equipment we can provide.

It's imperative that we move rapidly to provide the Army a new ground combat vehicle that protects American soldiers against IEDs, road side bombs and anti-tank munitions. We must not lose the momentum gained during six years of research and development and the multibillion dollar taxpayer investment on this project.

Any new program must consider both Army and Marine Corps needs for manned ground combat vehicles now and in the future. It must build on what we have learned from three separate FCS ground vehicle designs as well as lessons learned from combat operations in Iraq and Afghanistan.

We have the best trained and dedicated Armed Forces in the world. Will we ask them to go to combat with vehicles that are nearly two generations old, designed for a different enemy and more conventional warfare?

Instead, let's build on the work that has already been done; ensure that billions of taxpayer dollars already spent are not wasted by starting from scratch, and provide U.S. Soldiers and Marines vehicles and systems that provide increased situational awareness for the conflicts of the future.

I urge the members to make a new combat vehicle the centerpiece of Army's research and development efforts in a restructured program.

Mr. PASCRELL. Mr. Chair, I would like to take this opportunity to thank Chairman SKELTON and his Committee for the important work they have done on this legislation and the strides they have made to ensure that individuals with traumatic brain injury (TBI) are identified and afforded the benefits that they deserve.

TBI is the signature injury of our current conflicts overseas. As many as 20 percent of the 1.8 million deployed troops—or an estimated 360,000 soldiers—have sustained traumatic brain injuries while in Iraq and Afghanistan. Unfortunately, many of these men and women in uniform are falling through the cracks. We must ensure that these individuals are properly identified and provided with the world class health care that they deserve. H.R. 2647 takes important steps to achieving both of these goals.

First, I applaud the inclusion of language submitted by myself and Congressman TODD PLATTS, who is both a member of the Armed Services Committee and serves as my Co-Chair on the Congressional Brain Injury Task Force, that calls on the branches of the Armed Services to implement long-term tracking for blast exposures, as the Army National Guard (NG) has already done. The NG initiative records the exposure to blasts in troops' personnel records in order to document the incident in the event of problems associated with traumatic brain injury or exposure to contaminants. This database will help determine eligibility for appropriate treatment, care, and disability entitlements. A comprehensive blast tracking system will also assist in efforts to research blast injuries and mild TBI and improve outreach, education, and follow-up for injured personnel who might otherwise fall through the cracks.

Second, I am appreciative of the inclusion of language that I submitted regarding the awarding of the Purple Heart to individuals who have sustained traumatic brain injuries, which calls on the Secretary to review its policies and procedures for determining eligibility and awarding of the Purple Heart as it relates to TBI. Media reports and anecdotal evidence have suggested that Purple Hearts may have been awarded inconsistently to service personnel who have sustained combat-related TBIs, suggesting that individuals with more severe TBIs may be eligible for the distinguished Purple Heart while individuals with less severe ones often receive refusals.

We believe that the Purple Heart criteria set out in regulation encompass soldiers who sustain a TBI or concussion as the result of enemy action. The Department of Defense's own Legislative Affairs has, however, stated that a brain injury that requires minimal medical attention would not suffice. I would caution against the use of such absolutes in the face of uncertainty about the effects of blast-related TBIs. Because the field of science still knows relatively little about effective interventions and the long-term consequences of traumatic brain injuries, particularly mild ones and those caused by blasts, the Department of Defenses' interpretation of treatment should not preclude injured soldiers who fulfill all other Purple Heart criteria from receiving the recognition and benefits they deserve.

Third, I am pleased to see the inclusion of legislation introduced by Congressman WALTER JONES, of which I am an original co-sponsor. This important language permits separated service members to seek a review of their discharge if their post-traumatic stress disorder (PTSD) or TBI was not taken into consideration when determining their separation and mandates a physical exam for active duty service members before an administrative separation proceeding if the service member had been diagnosed with PTSD or TBI. The effects and prevalence of PTSD and TBI have become too harsh and too widespread for our military leaders to overlook, and ensuring that the full facts of soldiers' injuries are considered upon discharge is the least we can do to ensure these individuals receive the care and benefits they deserve.

Finally, I praise the Committee for its recognition of the need for civilian and military collaboration in the science of the brain by providing for a Visiting NIH Senior Neuroscience Fellowship Program. This will provide an important opportunity for the military to learn from the work occurring at the National Institutes of Health on neuroscience and vice versa.

Thank you again to Chairman SKELTON, and I look forward to continuing to work with the Committee as we make further improvements

to the care and benefits that we provide to the brave men and women that put their lives on the line for our freedom.

Mr. ETHERIDGE. Mr. Chair, I rise today in support of H.R. 2647, the National Defense Authorization Act for FY 2010.

As the representative of Fort Bragg and Pope Air Force Base, I am pleased that this bill makes important investments to support our national security and recognize the contributions of not only our men and women in uniform but also the families that support them. It provides for a 3.4 percent pay raise for service members and authorizes $1.95 billion for family housing programs. It expands support for those who are injured in battle, with enhancements for the medical ''mission to heal'' and funding to help friends and family visit or otherwise support recovering service members. It also expands TRICARE health coverage for reserve component members and their families.

H.R. 2647 improves military readiness and authorizes additional funds for equipment depleted by the war in Iraq and Afghanistan. It authorizes the president's request for 15,000 more Army troops, 8,000 more Marines, 14,650 more Air Force personnel, and 2,477 more Navy sailors, and also includes funding for force protection to keep those troops safe in theater. It recognizes the toll on our Army National guard and reserves by providing new battle gear and construction projects in our communities.

While I am pleased that this resolution provides authorization of $50 million for Impact Aid funding, with additional $15 million for BRAC-affected areas, these levels are inadequate for the pressing needs our school districts have as they care for military-connected students. As the former superintendent of North Carolina's schools, I know first-hand that we cannot provide a high-quality education without high-quality facilities. In North Carolina, the BRAC process has swelled enrollment in the counties around Fort Bragg—Cumberland, Harnett, Johnston, and Sampson—without increasing the tax base that supports the local schools. Impact Aid funding has barely increased in the last five years. We must renew our commitment to support these students and give local schools the support they need to provide them a quality education, especially in the current economic downturn that is straining state and local budgets.

Mr. Chair, despite this shortfall, this is a strong bill that supports our men and women in uniform, and their families, and enhances our national security. I urge my colleagues to join me in supporting this legislation.

Ms. BEAN. Mr. Chair, I rise in support of H.R. 2647, the National Defense Authorization Act and encourage its passage. Earlier this Congress I introduced H.R. 1267, ''Captain James A. Lovell Federal Health Care Act of 2009, which provides legislative authority to the Navy and the Department of Veterans Affairs (VA) to jointly operate the new ''Captain James A. Lovell Federal Health Care Center.'' In the other body, Senator DICK DURBIN has been working to include similar language in the Senate version of the National Defense Authorization Act.

After completion, the Lovell Federal Health Care Center will be the first health care facility in the nation to be operated jointly between the VA and the Navy saving taxpayers millions of dollars that would otherwise have been needed to rebuild or renovate the Navy's nearby hospital. Without this legislation, the Center will not be able to provide essential services to thousands of military beneficiaries in the region. Beneficiaries who had previously received care at the Naval Health Clinic Great Lakes would either be ineligible for care or would charged a significant co-pay for certain care, including emergency, hospitalization, outpatient, and behavioral health services. The facility is scheduled to begin joint operations on October 1, 2010.

While my legislation was not included in the underlying bill, it is my understanding that Senator Durbin will be able to include similar language in the Senate NDAA. I will continue to work with my colleagues in the Senate on its inclusion, and encourage passage of the underlying bill.

Mr. VAN HOLLEN. Mr. Chair, I rise in support of the National Defense Authorization Act of 2010. This important piece of legislation authorizes $680 billion for training, equipment, healthcare, and for important quality of life improvements for our troops and their families.

The rising cost of goods and services and rising unemployment is taking an especially serious toll on our men and women in uniform and their families. As military commanders demand more time in theater for active duty personnel and rely more on the contribution of reservists, many of whom leave higher-paying jobs to be activated, demands on the limited financial resources of military families increase. The National Defense Authorization Act of 2010 was crafted with the concerns and urgent needs of these dedicated public servants and their families in mind.

The legislation authorizes $135 billion for personnel needs and $27 billion for healthcare. It raises the basic pay of our service members at a time when a pay-raise is dearly needed and the bill helps fund re-enlistment bonuses for active-duty members and reservists. To enable service members to spend more time with their families between tours, the bill increases the maximum leave days that a service member can accumulate and carry over from one year to the next. And, to ensure that our service members have a safe and secure home to return to, the bill contains $2 billion for the construction and renovation of new and existing family military housing.

I am pleased to report to my constituents who have concerns about traffic congestion as the region prepares for the move of Walter Reed Hospital to Bethesda, that the bill instructs the Department of Defense to use all available resources to implement the Defense Access Road Program near the National Naval Medical Center.

The provisions and funds authorized by this act will help our men and women in uniform serving in the field, and help give them more peace of mind that their families back home are being cared for in their absence. I encourage my colleagues to join me in supporting the bill.

Today, there was also a vote on an amendment to this legislation offered by my colleague Massachusetts Representative JAMES MCGOVERN, which would require the Department of Defense to report an exit strategy for military forces in Afghanistan by no later than December 31st of this year. While I do not oppose the intent of my colleague's amendment, I did oppose the amendment on the grounds that President Obama has already laid out his strategy for Afghanistan in a speech delivered in March 2009. Like President Obama, I want to bring our troops home as soon as possible consistent with our national security needs.

As the President emphasized in his speech, Afghanistan is where the plot to attack the United States on September 11th, 2001 was developed and put into motion. It is of vital importance to U.S. national security that we do what is necessary to eliminate the threat posed to the American people from al Qaeda.

Mr. Chair, I urge that we support the National Defense Act of 2010.

Mr. SKELTON. I yield back the balance of my time.

The CHAIR. All time for general debate has expired.

Mr. SKELTON. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. LUJÁN) having assumed the chair, Mr. ALTMIRE, Chair of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2647) to authorize appropriations for fiscal year 2010 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2010, and for other purposes, had come to no resolution thereon.

HONORING JOHN CALLAWAY

(Mr. QUIGLEY asked and was given permission to address the House for 1 minute.)

Mr. QUIGLEY. Mr. Speaker, yesterday evening the highly respected radio and television broadcasting pioneer John Callaway died in Chicago.

After more than 30 years with Chicago's Public Television, John Callaway's extraordinary dedication to honest journalism that served the people will be greatly missed.

John can be credited with many great firsts in the world of televised broadcasting. He was a leader in the nationwide development of CBS news stations and hosted WTTW's Chicago's first evening news analysis.

The former Peabody and Emmy Award winner had said that he hoped his shows would allow the viewer to see the ''fabric and soul of the city.'' Ladies and gentlemen, let me tell you in my city the fabric and soul is often both extraordinary and tragic. For me and many Chicagoans, the airwaves will feel quite empty without John Callaway as the host of channel 11's show ''Chicago's Tonight's Week in Review.'' Tonight he will be remembered not only by his loving wife, Sandra

Callaway, and daughters Liz and Ann, but by the citizens of Chicago and the American people.

REVISION TO BUDGET ALLOCATIONS AND AGGREGATES FOR CERTAIN HOUSE COMMITTEES FOR FISCAL YEAR 2010 AND FISCAL YEARS 2010 THROUGH 2014

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. SPRATT) is recognized for 5 minutes.

Mr. SPRATT. Madam Speaker, under section 324 of S. Con. Res. 13, the concurrent resolution on the budget for fiscal year 2010, I hereby submit a revision to the budget allocations and aggregates for certain House committees for fiscal year 2010 and the period of fiscal years 2010 through 2014. This adjustment responds to House consideration of the bill H.R. 2990, the Disabled Military Retiree Relief Act of 2009. A corresponding table is attached.

This revision represents an adjustment for the purposes of sections 302 and 311 of the Congressional Budget Act of 1974, as amended. For the purposes of the Congressional Budget Act of 1974, as amended, this revised allocation is to be considered as an allocation included in the budget resolution, pursuant to section 427(b) of S. Con. Res. 13.

BUDGET AGGREGATES

[On-budget amounts, in millions of dollars]

	Fiscal year	Fiscal year–	Fiscal years
	2009	2010	2010–2014
Current Aggregates: [1] [2]—			
Budget Authority–	3,668,788–	2,882,117–	n.a.
Outlays–	3,357,366–	2,999,049–	n.a.
Revenues–	1,532,579–	1,653,728–	10,500,149
Change in the Disabled Military Retiree Relief Act (H.R. 2990):–			
Budget Authority–	0–	178–	n.a.
Outlays–	0–	165–	n.a.
Revenues–	20–	54–	317
Revised Aggregates:—			
Budget Authority–	3,668,788–	2,882,295–	n.a.
Outlays–	3,357,366–	2,999,214–	n.a.
Revenues–	1,532,599–	1,653,782–	10,500,466

[1] Current aggregates do not include the disaster allowance assumed in the budget resolution, which if needed will be excluded from current level with an emergency designation (section 423(h)).
[2] Current aggregates include a correction to the 2010 outlay adjustment previously done for the supplemental. Outlays are $11 million below the previously reported amount.
n.a. = Not applicable because annual appropriations Acts for fiscal years 2011 through 2014 will not be considered until future sessions of Congress.

DIRECT SPENDING LEGISLATION—AUTHORIZING COMMITTEE 302(A) ALLOCATIONS FOR RESOLUTION CHANGES

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. QUIGLEY) to revise and extend their remarks and include extraneous material:)

Ms. WOOLSEY, for 5 minutes, today.
Mr. PETERS, for 5 minutes, today.
Mr. GEORGE MILLER of California, for 5 minutes, today.
Ms. KAPTUR, for 5 minutes, today.
Mr. QUIGLEY, for 5 minutes, today.
Mr. INSLEE, for 5 minutes, today.
Mr. SPRATT, for 5 minutes, today.

SENATE CONCURRENT RESOLUTION REFERRED

A concurrent resolution of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. Con. Res. 30. Concurrent resolution commending the Bureau of Labor Statistics on the occasion of its 125th anniversary; to the Committee on Education and Labor.

ENROLLED BILL SIGNED

Lorraine C. Miller, Clerk of the House, reported and found truly enrolled a bill of the House of the following title, which was thereupon signed by the Speaker:

H.R. 1777. An act to make technical corrections to the Higher Education Act of 1965, and for other purposes.

SENATE ENROLLED BILL SIGNED

The Speaker announced her signature to an enrolled bill of the Senate of the following title:

S. 407. An act to amend title 38, United States Code, to provide for an increase, effective December 1, 2009, in the rates of compensation for veterans with service-connected disabilities and the rates of dependency and indemnity compensation for the survivors of certain disabled veterans, to codify increases in the rates of such compensation that were effective as of December 1, 2008, and for other purposes.

ADJOURNMENT

Mr. QUIGLEY. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at midnight), the House adjourned until today, Thursday, June 25, 2009, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of Rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2405. A letter from the Deputy Secretary, Department of Defense, transmitting the Department's annual Developing Countries Combined Exercise Program report of expenditures for Fiscal Year 2008, pursuant to 10 U.S.C. 2010; to the Committee on Armed Services.

2406. A letter from the Chair, Congressional Oversight Panel, transmitting the Panel's monthly report pursuant to Section 125(b)(1) of the Emergency Economic Stabilization Act of 2008, Pub. L. 110-343; to the Committee on Financial Services.

2407. A letter from the Assistant Attorney General, Department of Justice, transmitting the Department's report on activities during Calendar Year 2008, pursuant to 15 U.S.C. 1691f; to the Committee on Financial Services.

2408. A letter from the Chairman, Federal Reserve System, transmitting the System's report entitled, ''Federal Reserve Credit and Liquidity Programs and the Balance Sheet''; to the Committee on Financial Services.

2409. A letter from the Administrator, Acting Energy Information Administration, Department of Energy, transmitting the Department's report for calendar year 2008 on the country of origin and the sellers or uranium and uranium enrichment services purchased by owners and operators of U.S. civilian nuclear power reactors, pursuant to Public Law 102-486, section 1015; to the Committee on Energy and Commerce.

2410. A letter from the Secretary, Department of Health and Human Services, transmitting the Department's annual Report on the Food and Drug Administration Advisory Committee Vacancies and Public Disclosures, pursuant to Section 712(e) of the Federal Food, Drug, and Cosmetic Act; to the Committee on Energy and Commerce.

2411. A letter from the Secretary, Department of Health and Human Services, transmitting the Department's annual financial report for fiscal year 2008, pursuant to the Animal Drug User Fee Act of 2003; to the Committee on Energy and Commerce.

2412. A letter from the Acting Secretary, Department of Health and Human Services, transmitting the Department's report regarding premarket approval of devices that may be used in pediatric patients, pursuant to Public Law 110-85, section 302; to the Committee on Energy and Commerce.

2413. A letter from the Members of the Board, Broadcasting Board of Governors, transmitting proposed legislation to authorize appropriations for the Broadcasting Board of Governors for Fiscal Years 2010 and 2011; to the Committee on Foreign Affairs.

2414. A letter from the Vice Admiral, USN Director, Defense Security Cooperation Agency, transmitting notice of enhancements or upgrades from the level of sensitivity of technology or capability of the F-16 Advanced Integrated Defensive Electronic Warfare Suite [Transmittal No. 0A-09], pursuant to Section 36(b)(5)(A) of the Arms Export Control Act (AECA); to the Committee on Foreign Affairs.

2415. A letter from the Assistant Secretary Legislative Affairs, Department of State, transmitting a translation of the Department's human rights reports into principal languages and the distribution on post websites, pursuant to Public Law 110-53, section 2122(b); to the Committee on Foreign Affairs.

2416. A letter from the Assistant Director for Policy, OFAC, Department of the Treasury, transmitting the Department's final rule — Alphabetical Listing of Blocked Persons, Blocked Vessels, Specially Designated Nationals, Specially Designated Terrorists, Specially Designated Global Terrorists, Foreign Terrorist Organizations, and Specially Designated Narcotics Traffickers — received June 12, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Foreign Affairs.

2417. A letter from the Acting Senior Procurement Executive, GSA, Department of Defense, transmitting the Department's final rule — Federal Acquisition Regulation; Federal Acquisition Circular 2005-33; Introduction [Docket FAR 2009-0001, Sequence 4] received June 17, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

2418. A letter from the Acting Senior Procurement Executive, GSA, Department of Defense, transmitting the Department's final rule — Federal Acquisition Regulation; FAR Case 2008-036, Trade Agreements-Costa Rica, Oman, and Peru [FAC 2005-33; FAR Case 2008-036; Item I; Docket 2009-0019, Sequence 1] (RIN: 9000-AL23) received June 17, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

2419. A letter from the Acting Senior Procurement Executive, GSA, Department of Defense, transmitting the Department's final rule — Federal Acquisition Regulation; FAR Case 2005-032, Contractor's Request for Progress Payments [FAC 2005-33; FAR Case 2005-032; Item II, Docket 2008-0002; Sequence 1] (RIN: 9000-AI47) received June 17, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

2420. A letter from the Acting Senior Procurement Executive, GSA, Department of Defense, transmitting the Department's final rule — Federal Acquisition Regulation; Federal Acquisition Circular 2005-33; Small Entity Compliance Guide [Docket FAR 2009-0002, Sequence 4] received June 17, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

2421. A letter from the Chief, Endangered Species Listing, FWS, Department of the Interior, transmitting the Department's final rule — Endangered and Threatened Wildlife and Plants; Revised Designation of Critical Habitat for the Quino Checkerspot butterfly (Euphydryas editha quino) [Docket No.: FWS-R8-ES-2008-0006; 92210-1117-0000-B4] (RIN: 1018-AV23) received June 17, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2422. A letter from the Deputy Chief, Regulatory Products Division, Department of Homeland Security, transmitting the Department's final rule — Removing References to Filing Locations and Obsolete References to Legacy Immigration and Naturalization Service; Adding a Provision To Facilitate the Expansion of the Use of Approved Electronic Equivalents of Paper Forms [CIS No.: 2405-07; DHS Docket No. USCIS-2007-0005] (RIN: 1615-AB56) received June 12, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on the Judiciary.

2423. A letter from the Acting Assistant Attorney General, Department of Justice, transmitting the Department's report entitled, ''Annual Report to Congress for Fiscal Year 2008'' in reference to the Office of Justice Programs (OJP), pursuant to 42 U.S.C. 3712(b), 3789e Public Law 90-351, section 102(b) and 810; to the Committee on the Judiciary.

2424. A letter from the Attorney Advisor, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; IJSBA World Finals; Colorado River, Lake Havasu City, AZ [Docket No.: USCG-2008-0320] (RIN: 1625-AA00) received July 17, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2425. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments [Docket No.: 30659 Amdt. No 3315] received June 17, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2426. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Oil Pollution Prevention; Non-Transportation Related Onshore and Offshore Facilities [EPA-HQ-OPA-2008-0546; FRL-8919-9] (RIN: 2050-AG49) received June 16, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2427. A letter from the Commissioner, Social Security Administration, transmitting the Administration's Thirteenth 2009 Annual Report of the Supplemental Security Income Program, pursuant to Section 231 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996; to the Committee on Ways and Means.

2428. A letter from the Director, Executive Office of the President Office of National Drug Control Policy, transmitting the Office's update on the study of chronic hardcore drug users, pursuant to 21 U.S.C. 1714; jointly to the Committees on Oversight and Government Reform, the Judiciary, Energy and Commerce, and Appropriations.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. POLIS: Committee on Rules. House Resolution 578. Resolution providing for consideration of the bill (H.R. 2996) making appropriations for the Department of the Interior, Environment, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes (Rept. 111–184). Referred to the House Calendar.

H.R. 2560: Mr. LATOURETTE.
H.R. 2563: Mr. LEE of New York.
H.R. 2567: Ms. WOOLSEY and Ms. DEGETTE.
H.R. 2581: Mr. SCOTT of Virginia.
H.R. 2625: Mr. QUIGLEY, Mr. CROWLEY, and Mr. PASCRELL.
H.R. 2632: Mr. BISHOP of New York.
H.R. 2635: Mr. HALL of New York, Ms. ROS-LEHTINEN, and Mr. WELCH.
H.R. 2691: Mr. SESTAK, Ms. KAPTUR, Mr. MCDERMOTT, Mrs. NAPOLITANO, and Mr. KING of New York.
H.R. 2697: Mrs. SCHMIDT, Mr. SIRES, Mr. YOUNG of Alaska, and Ms. ZOE LOFGREN of California.
H.R. 2724: Mr. JACKSON of Illinois and Mr. PRICE of North Carolina.
H.R. 2730: Mr. COURTNEY.
H.R. 2743: Mr. SARBANES, Mr. GORDON of Tennessee, Mr. STEARNS, and Mr. PLATTS.
H.R. 2770: Mr. BURTON of Indiana.
H.R. 2773: Ms. HERSETH SANDLIN and Ms. SCHAKOWSKY.
H.R. 2782: Mr. ROGERS of Kentucky.
H.R. 2793: Mr. BURTON of Indiana, Mr. LAMBORN, and Mr. MCCOTTER.
H.R. 2797: Mrs. SCHMIDT, Mr. ISSA, Mr. MARCHANT, Mr. LAMBORN, Mr. AKIN, Mr. COLE, Mr. POSEY, Mr. FRANKS of Arizona, Mr. MILLER of Florida, Mr. BROWN of South Carolina, Mr. ROGERS of Alabama, Mr. REICHERT, Mr. GINGREY of Georgia, Mr. WESTMORELAND, Mr. DEAL of Georgia, Mr. LATTA, Mrs. BACHMANN, Mr. DAVIS of Kentucky, Mr. BOUSTANY, Mr. PENCE, Mr. SHIMKUS, Mr. BONNER, Mr. BISHOP of Utah, Mr. FORBES, Mr. THORNBERRY, Mr. CARTER, Ms. GRANGER, Mr. NEUGEBAUER, and Mr. SOUDER.
H.R. 2799: Ms. ROS-LEHTINEN, Mr. RUPPERSBERGER, and Mr. CAO.
H.R. 2808: Mr. LUETKEMEYER, Mr. GARY G. MILLER of California, and Mr. MCCAUL.
H.R. 2817: Ms. MCCOLLUM.
H.R. 2835: Mr. HONDA and Mr. COHEN.
H.R. 2844: Mr. ELLISON.
H.R. 2874: Mr. BISHOP of New York and Mrs. LOWEY.
H.R. 2882: Mr. FRANK of Massachusetts and Mr. SCOTT of Virginia.
H.R. 2900: Mr. BARRETT of South Carolina, Mr. SAM JOHNSON of Texas, Mr. SMITH of Nebraska, Mr. LAMBORN, and Mr. FLAKE.
H.R. 2909: Ms. SCHAKOWSKY and Mr. STARK.
H.R. 2914: Mr. BRADY of Texas, Mr. HENSARLING, Mr. COLE, Mr. FLAKE, Mr. POSEY, Mr. LAMBORN, Mr. MARCHANT, Ms. FOXX, Mr. ISSA, Mr. JORDAN of Ohio, Mr. PRICE of Georgia, Mr. SCALISE, Mr. BARTLETT, Mr. TURNER, and Mr. AKIN.
H.R. 2925: Mr. SOUDER.
H.R. 2935: Ms. BORDALLO, Mr. KLEIN of Florida, Mrs. CHRISTENSEN, Mr. GRIJALVA, Mrs. MYRICK, and Mr. LUJÁN.
H.R. 2937: Ms. LEE of California and Mr. MORAN of Virginia.
H.R. 2939: Mr. GRIFFITH, Mr. BERRY, and Mr. NUNES.
H.R. 2941: Mr. MURTHA, Mrs. BONO MACK, and Mr. LATOURETTE.
H.R. 2942: Mr. BURGESS, Mr. WILSON of South Carolina, Mr. LOBIONDO, and Mr. DUNCAN.
H.R. 2959: Mr. ETHERIDGE.
H.R. 2964: Mr. BROWN of South Carolina, Mr. MCCOTTER, and Mr. BURTON of Indiana.
H.R. 2969: Mr. THOMPSON of California.
H.R. 2987: Mr. SESTAK.
H.R. 2990: Ms. SHEA-PORTER, Mr. COURTNEY, Ms. GIFFORDS, Ms. LORETTA SANCHEZ of California, Mr. MILLER of Florida, Mr. ELLSWORTH, Mr. ABERCROMBIE, Mr. HEINRICH, Mr. BRADY of Pennsylvania, Mr. LOBIONDO, Mr. SESTAK, Ms. PINGREE of Maine, Mr. MARSHALL, Ms. TSONGAS, Mr. SNYDER, Mr. JOHNSON of Georgia, Ms. BORDALLO, and Mr. COFFMAN of Colorado.
H.R. 3001: Mr. BRADY of Pennsylvania, Mr. ISRAEL, and Mr. NADLER of New York.
H.R. 3006: Ms. MCCOLLUM.
H.J. Res. 47: Mr. LUETKEMEYER.
H.J. Res. 57: Mr. JOHNSON of Illinois.
H. Con. Res. 44: Mr. MCDERMOTT and Mr. LEWIS of Georgia.
H. Con. Res. 45: Ms. JACKSON-LEE of Texas.
H. Con. Res. 51: Mr. BARTLETT.
H. Con. Res. 154: Ms. SCHAKOWSKY and Mr. KUCINICH.
H. Con. Res. 156: Mr. MARIO DIAZ-BALART of Florida, Ms. WASSERMAN SCHULTZ, and Mr. JACKSON of Illinois.
H. Con. Res. 157: Mr. WILSON of South Carolina.
H. Res. 90: Mr. FATTAH.
H. Res. 111: Mr. CAO, Mr. CUMMINGS, Mr. GERLACH, and Mr. DONNELLY of Indiana.
H. Res. 241: Ms. LORETTA SANCHEZ of California.
H. Res. 285: Mr. SCHOCK.
H. Res. 333: Mr. KUCINICH.
H. Res. 395: Mrs. LOWEY.
H. Res. 409: Mr. YOUNG of Florida.
H. Res. 443: Mr. CAPUANO.
H. Res. 445: Mr. CALVERT, Mr. ROGERS of Kentucky, Mr. LATTA, Mr. SPRATT, Mr. ROGERS of Alabama, Mr. BISHOP of New York, Mr. KINGSTON, Mr. ORTIZ, Mr. ABERCROMBIE, Mr. REYES, Mr. BOREN, and Mr. ELLSWORTH.
H. Res. 518: Mr. FARR and Mr. SESTAK.
H. Res. 519: Mr. LAMBORN, Mr. STEARNS, Mr. MCCOTTER, and Mr. MCDERMOTT.
H. Res. 531: Mrs. BIGGERT and Mr. DAVIS of Illinois.
H. Res. 549: Mr. MCCOTTER.
H. Res. 550: Ms. KILPATRICK of Michigan, Mr. CAO, and Ms. WATERS.

CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, OR LIMITED TARIFF BENEFITS

Under clause 9 of rule XXI, lists or statements on congressional earmarks, limited tax benefits, or limited tariff benefits were submitted as follows:

The amendment to be offered by Representative WAXMAN or a designee at the outset of consideration of H.R. 2454, the American Clean Energy and Security Act of 2009, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

The amendment to be offered by Representative DICKS or a designee to H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010, contains no congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9(e), 9(f) or 9(g) of rule XXI.

AMENDMENTS

Under clause 8 of rule XVIII, proposed amendments were submitted as follows:

H.R. 2454

OFFERED BY: MR. MANZULLO

AMENDMENT NO. 1: Page 718, strike line 7 through 20.

Strike part 2 of subtitle E of title IV of the bill (relating to the International Climate Change Adaptation Program).

H.R. 2454

OFFERED BY: MS. HIRONO

AMENDMENT NO. 2: Page 1168, line 21, through page 1169, line 2, amend paragraph (3) to read as follows:

(3) FOREST SERVICE.—Of the amounts made available each fiscal year to carry out this subpart, 5 percent shall be available to the Secretary of Agriculture for use in funding natural resource adaptation activities carried out on national forests and national grasslands under the jurisdiction of the Forest Service and for natural resource adaptation activities on State and private forest lands carried out under the Cooperative Forestry Assistance Act of 1978 and consistent with adaptation activities identified in the State-Wide Assessments and Strategies found in section 8002 of the Food, Conservation and Energy Act of 2008 or in accordance with other forest adaptation plans developed by the State forester through a public consultation processes.

EXTENSIONS OF REMARKS

EARMARK DECLARATION

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LANCE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R.—the Homeland Security Appropriations Act, 2010:

Federal Emergency Management Agency (FEMA), State and Local Programs—Emergency Operations Center, Union County, NJ. The entity to receive funding for this project is:

County of Union, One Elizabethtown Plaza, Elizabeth, NJ 07207.

The funding would be used to expand the capabilities of the Union County Emergency Operations Center to connect with each municipal police, fire and emergency management office, and also to serve as a redundant center to Union County Fire Mutual Aid and all 2 municipal departments during an emergency.

EARMARK DECLARATION

HON. MARIO DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, I submit the following:

Requesting Member: Representative MARIO DIAZ-BALART (FL–25)

Bill Number: H.R. 2892

Account: Predisaster Mitigation

Name of Requesting Entity: Jackson Health System

Address of Requesting Entity: 1611 NW 12th Avenue, Miami, FL 33136

Description of Request: I have secured $500,000 for the Jackson Health System Hurricane Mitigation Structural Reinforcement Initiative. This funding will be used for Jackson Health System (JHS), operated by Miami-Dade County's Public Health Trust and is the county's sole public health system; the primary provider for the county's indigent and uninsured and its sole trauma center. At its center is Jackson Memorial Hospital (JMH), one of the nation's busiest (based on # of admissions) and largest (1,567 beds) with average annual occupancy levels consistently over 90%. When a hurricane warning is issued, JHS serves as an emergency evacuation shelter for medically at risk individuals (with limited family members).

The number of psychiatric emergency issues countywide increases and presents at JHS. Employees are required to remain in place until they are relieved, which is often after storm conditions pass. These factors contribute to hurricane related occupancy levels that are considerably higher than normal levels of operation. Miami-Dade County's geographic location places the area at risk for many natural and societal hazards. Situated in the south eastern most part of Florida the area is marked by flat topography, low land elevations and high groundwater tables in the Biscayne aquifer. Over the last one hundred years, 33 hurricanes and tropical storms have approached within 75 miles of Miami-Dade County. Of these, 9 have been a category 3 or higher intensity storm. Given that the physical demographics of the almost 2.3 million residents of Miami-Dade County inhabit the eastern most 20 miles of coastline, it is the most populated areas that suffer the maximum impact of storms. In 2004, Florida had a record breaking hurricane season with four major disaster declarations, Hurricane Charley, Hurricane Frances, Hurricane Ivan, and Hurricane Jeanne. In 2005, Florida again suffered from an extreme season with four major disaster declarations: Hurricane Dennis, Hurricane Katrina, Hurricane Rita, and Hurricane Wilma. Florida consistently has the greatest risk for a direct hit by a hurricane of any other location in the United States. Additionally, it is subject to several other threats such as extreme tropical thunderstorms, sudden tornados and high trade winds and has the highest occurrences of severe lightning activity. Given the anticipated demands placed on the Ryder Trauma Center in the event of a direct hit of a high category storm, it is imperative that the building be structurally safe, adequately secured, and operationally functional. This funding will be used to structurally reinforce and fortify the trauma center through an exterior skin upgrade. The current construction is unsuitable for a threat of a higher category storm. This is a tremendous vulnerability for the County's only trauma center. As the most critical facility in all of Miami-Dade County, it is imperative that JHS fortify the building to ensure uninterrupted operations.This project is wholly consistent with Federal and agency missions to provide pre-disaster mitigation assistance to critical public entities who serve as vital providers of emergency services. The frequency and foreseeable nature of natural disasters striking densely populated Miami-Dade County make the project a natural priority for federal participation in protecting a safety-net institution such as the Ryder Trauma Center.

THANKING AND CONGRATULATING GEORGE A. DALLEY, CHIEF OF STAFF TO MY OFFICE, ON HIS RETIREMENT FROM THE HILL

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. RANGEL. Madam Speaker, I rise today to commend a dear friend and colleague, George Albert Dalley, on an illustrious public service career spanning 30 years in federal government, private practice, international affairs, and presidential politics. With a razor-sharp intellect, unmatched mettle and grit, and an undeniable warmth and grace that has made him a beloved figure on the Hill, George returned as my Chief of Staff and Counsel in 2001—his third stint in that capacity—and will this month retire after a successful tenure.

But George is more than just a co-worker to me. We have maintained a personal and working relationship for the larger part of my political life that has proved abundantly edifying and rewarding. The many who have met and been touched by George and his life's work can attest that he is equal parts strong mind and ample heart, a kind soul who cares deeply about the issues of the day and their impact on everyday people—in America and across the globe.

Born in Havana, Cuba, to Jamaican parents in 1941, George immigrated to New York City and became a naturalized citizen, attending the prestigious Columbia University where he earned three degrees: an undergraduate degree, a master's in business administration, and a juris doctorate. He is a member of the Bars of the District of Columbia, New York, and the U.S. Supreme Court, serves as a member of the Council on Foreign Relations, and is on the Board of Directors for the Apollo Theatre Foundation and for Africare as Chair.

Between 1989 and up until he rejoined my staff in 2001, he practiced in the areas of legislative, administrative, and international law. As a former partner at Holland and Knight, he represented the interests of foreign governments—from Trinidad and Tobago, Jamaica, Costa Rica, El Salvador, Honduras, and Nicaragua to Senegal, the Cote d'Ivoire, Kenya, Mali, and Botswana—before the federal government, Congress, and multilateral financial institutions.

He sought to bring economic development to Africa and the Caribbean, working tirelessly to spur private investment in the two regions and working closely with me in securing passage of the African Growth and Opportunity Act and the enhancement of the Caribbean Basin Initiative. As a founding member of the Corporate Council on Africa and as a former U.S. counsel to the African Business Round Table, he promoted greater understanding of the opportunities for successful investment in the private sectors of African nations.

George played an integral, central role in getting Congress to deny tax preferences to companies doing business in apartheid South Africa—a move that hugely undermined that government and was reportedly one of the most influential sanctions in bringing that system down.

Aside from his loyal and dedicated service with me in the early 1970s, mid–1980s, and 2000s, George has served in senior-level posts in our government: as Deputy Assistant Secretary of State for International Organizations Affairs, responsible for U.S. policy on human rights and social issues in the United Nations; as an appointed member of the U.S. Civil Aeronautics Board, advancing the deregulation of the airline industry in the administration of President Jimmy Carter; as Deputy Director of the Mondale for President campaign.

He is an unabashed lover of people; of politics, policy and law; and of course, of his beloved New York Yankees. He and his late wife, Pearl Elizabeth Love, were a remarkable and loving couple, having raised two great sons, Jason and Benjamin, who have in turn given George two young and vivacious grandchildren, Lilah Pearl and Reid. George has served this country superbly well over the course of his career, and America is the better for it. His insight and guidance will be missed in my office and in offices throughout the Hill, but his dynamic spirit and sense of purpose we take with us as our motivation and driving force.

We thank him for his incredible service, his devoted friendship, and wish him many blessings going forward.

RECOGNITION OF MUNICIPAL MAYORS AND PRESIDENTS IN THE 8TH DISTRICT OF ILLINOIS

HON. MELISSA L. BEAN

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Ms. BEAN. Madam Speaker, I submit the following in recognition for their service as past municipal mayors and presidents in the 8th District of Illinois:

Bill Gentes, Round Lake
Scott Gifford, Deer Park
Keith Hunt, Hawthorn Woods
Dick Hyde, Waukegan
Tom Hyde, Island Lake
Cindy Irwin, Fox Lake
Dorothy Larson, Antioch
Catherine Mechert, Bartlett
Ted Mueller, Hainsville
Rita Mullins, Paltine
Timothy Perry, Grayslake
Virginia Povidas, Lakemoor
Salvatore Saccomanno, Wauconda
John Tolomei, Lake Zurich.

EARMARK DECLARATION

HON. HAROLD ROGERS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. ROGERS of Kentucky. Madam Speaker, pursuant to the House Republican standards on congressionally directed funding, I am submitting the following information regarding funding included in H.R. 2892, the Homeland Security Appropriations Act of 2010.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 2892

Account: Federal Emergency Management Agency—Emergency Operations Center

Legal Name of Recipient: Kentucky Division of Emergency Management

Address of Recipient: 100 Minuteman Parkway, Frankfort, Kentucky 40601

Description of Request: Funding in the amount of $500,000 will be used to assist with planning and construction of a building addition to the existing Kentucky Emergency Operations Center (7,126 sq ft.) which was built in 1975. Staff are currently scattered across Frankfort in three different locations as far as 8 miles apart. During disasters, FEMA and other local, state, and federal partner agencies have no space available in the existing structure. The EOC serves as the primary in-state operations response center for coordination during an emergency.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 2892

Account: Federal Emergency Management Agency—Pre-Disaster Mitigation Program

Legal Name of Recipient: Kentucky Division of Emergency Management

Address of Recipient: 100 Minuteman Parkway, Frankfort, Kentucky 40601

Description of Request: The Martin County Fiscal Court, through the Kentucky Division of Emergency Management, proposes a stream improvement project to mitigate the repetitive damage at Blacklog Fork and Old Route 40 in Inez. The County proposes to widen the channel in key locations and armor eroding banks for the first two stream miles of Blacklog Fork (above its confluence with Coldwater Fork). Roadways and bridges have already been elevated and correction of the drainage problem will alleviate flooding in this area. The bill includes $500,000 in planning and construction funds toward this $700,000 project.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 2892

Account: S&T Research, Development, Acquisition, & Operations

Legal Name of Requesting Entity: National Institute for Hometown Security, Kentucky

Address of Requesting Entity: 610 Valley Oak Drive, Suite 1, Somerset, Kentucky 42503

Description of Request: The funding will be used to continue to provide leadership in discovering and developing community-based critical infrastructure protection solutions; facilitate commercialization; and encourage deployment. The $10 million FY10 program will help continue robust research for homeland security solutions and build on this successful partnership.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 2892

Account: Federal Emergency Management Agency

Legal Name of Requesting Entity: Rural Domestic Preparedness Consortium

Address of Requesting Entity: Eastern Kentucky University, 50 Stratton Bldg., 521 Lancaster Blvd., Richmond, Kentucky 40475

Description of Request: This $3 million allocation of FEMA funds will continue robust and tailor-made homeland security and disaster response training to the rural first responder community. The non-federal grant managing entity is Eastern Kentucky University (EKU). EKU manages these grant funds on behalf of itself and its partner institutions; East Tennessee State University, Johnson City, Tennessee; Iowa Central Community College, Ft. Dodge, Iowa; NorthWest Arkansas Community College, Bentonville, Arkansas; University of Findlay, Findlay, Ohio and North Carolina Central University, Durham, North Carolina. The funding will be used to continue to provide and deliver training to rural first responders consistent with the National Preparedness Goal.

EARMARK DECLARATION

HON. MARIO DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, I submit the following:

Requesting Member: Representative MARIO DIAZ-BALART (FL–25)

Bill Number: H.R.

Account: STAG Water and Wastewater Infrastructure Project

Name of Requesting Entity: City of Homestead

Address of Requesting Entity: 790 N. Homestead, FL, 33030

Description of Request: I have secured $500,000 for the City of Homestead Water Utility Upgrades. This funding will be used for the installation of telemetry systems that will: (1) allow the City to substantially decrease the carbon footprint associated with driving to check each pump station on a daily basis, (2) free personnel to respond to emergencies and result in the reduction of response time to emergencies at remote sites, as a result of a disaster, and (3) result in improved efficiencies in man-power, and usage of natural resources, significantly increasing reliability and diminishing sewage back up occurrences. This project is identified in the master plan which was created on the City's behalf in 2003 and updated in 2006, and will produce approximately 10 new jobs in the local economy. The City of Homestead owns and operates a wastewater treatment and sanitary sewer system, which encompasses over 89 miles of sewer lines of various sizes with a total of 50 pump stations. The plant is responsible for treatment of more than 1.63 billion gallons annually and currently serves over 9,200 customers, some of which are located outside the City limits. Now over 50 years old, Homestead's current infrastructure lacks the capacity and the ability to treat the increased wastewater demand as a result of the unprecedented population growth experienced in the last several years. Accordingly, the City has undertaken a multi-phase expansion of its Wastewater Treatment Plant and associated infrastructure. As part of this expansion and renovation, Homestead is requesting federal funding for the procurement and installation of

water and wastewater telemetry equipment, which will provide real-time information on performance, demands on the system and water withdrawals. These upgrades are crucial to allowing the staff to coordinate efforts and manage water usage, more efficiently using water from the aquifer and minimizing water losses, thereby conserving the natural resources of the Biscayne Aquifer. The projected cost for this system is $1,538,461 and will provide constant monitoring and control of 64 wastewater pump stations, 3 elevated water tanks, and 6 raw water well pumps. To date, the City has procured several studies and master plans addressing the needs of the wastewater system and has spent over $200,000 to predesign and identify crucial projects necessary to maintain the level of service to the growing community.

EARMARK DECLARATION

HON. STEVEN C. LaTOURETTE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LATOURETTE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of H.R. 2892, the Department of Homeland Security Appropriations bill of 2010.

Requesting Member: Congressman STEVEN C. LATOURETTE

Bill Number: H.R. 2892

Account: Predisaster Mitigation

Legal Name of Requesting Entity: Lake County Storm Water Management Agency

Address of Requesting Entity: 125 E. Erie St., Painesville, OH 44077, USA

Description of Request: Provide an earmark of $725,000 for the Lamplight Lane Retention Basin Project in Willoughby Hills. This flood control project along a tributary to the Euclid Creek would be funded as a flood mitigation project under FEMA. Funding will be used for excavation and embankment, clearing and grubbing, rock channel protection, 54″ diameter conduit, 16′x14′ box culvert, pavement replacement, restoration, channel erosion matting, engineering, surveying, inspection, construction, and administration. It is a valuable use of taxpayer funds because it will help alleviate substantial flooding of multiple properties. Funding this project will reduce overall risks to people, structures and property, while also reducing the need for funding from an actual disaster declaration.

EARMARK DECLARATION

HON. HOWARD COBLE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. COBLE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I am requesting as part of H.R. 2892, the Homeland Security Appropriations Act of 2010.

Requesting Member: Congressman HOWARD COBLE

Bill Number: H.R. 2892

Account: FEMA Pre-Disaster Mitigation Program

Legal Name of Requesting Entity: City of Kannapolis, North Carolina

Address of Requesting Entity: 614 8th Street, Kannapolis, NC 28081

Description of Request: Bill provides $425,000 for the 8th Street culvert replacement project in Kannapolis, NC. The existing 8th Street culvert is a 65-foot-long, four-inch by eight-inch box that was constructed using granite blocks mortared into place. As a result of Tropical Storm Fay, large cracks in the wall and floor of the culvert have allowed water to enter the area behind it and erode the fill material around it. This situation has caused a slope failure on the downstream side of 8th Street. In addition, a number of blocks used to form the top of the culvert have broken into two pieces, limiting structural support for the roadway above. The 8th Street culvert connector road from Main Street to West A Street is utilized by a number of citizens and the nearby Woodrow Wilson Elementary School as a primary transportation route. The roadway has been closed since early December 2008 due to the culvert's deteriorating condition.

EARMARK DECLARATION

HON. JOHN BOOZMAN

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BOOZMAN. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding earmarks I received as a part of H.R. 2996—the Department of the Interior, Environment, and Related Agencies Appropriations Act of 2010.

Requesting Member: Congressman JOHN BOOZMAN

Bill Number: H.R. 2996

Account: STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: City of Fayetteville

Address of Requesting Entity: 113 West Mountain, Fayetteville, Arkansas 72704

Description of Request: The existing sewer line that provides service to eastern Fayetteville and the city of Elkins was constructed of clay tile pipe in the mid-1970s. This pipe is no longer water tight due to external and internal corrosion, and age. As a result, there is groundwater intrusion, likely small amounts of sewage leakage into groundwater and thence into the White River, and piping failures resulting in sewage overflows. The multi-jurisdictional issues coupled with the absence of adequate local financial resources render this an ongoing environmental challenge. The piping system is in such poor condition that sewage flows are increased by a factor of three due to extraneous rain and ground water that enters the system through the pipe defects. This extra flow overtaxes the entire wastewater system, causing sanitary sewer overflows during heavy rains and requiring greatly oversized wastewater treatment facilities.

EARMARK DECLARATION

HON. ROBERT J. WITTMAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. WITTMAN. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of Interior, Environment, and Related Agencies Appropriations Act of 2010.

Project name: Fredericksburg and Spotsylvania National Military Park, Binns property

Amount: $200,000

Account: National Park Service Land Acquisition

Requested by: The Conservation Fund, 1655 N. Ft. Myer Drive, Arlington, VA 22209

Intended recipient of funds: Fredericksburg & Spotsylvania County Battlefields National Military Park

Project description and explanation of the request: This project will provide $200,000 for land acquisition by the U.S. National Park Service, Fredericksburg & Spotsylvania County Battlefields National Military Park to acquire a portion of the 1,100-acre Binns property. The Binns property was the site of significant fighting during the Chancellorsville's campaign in 1863 and is today one of the largest unprotected pieces of the core battlefield area. This project provides $200,000 for land acquisition as part of a $4,228,000 project to acquire the 1,100-acre Binns property. Public funds are justified to be used by a federal agency to acquire and preserve threatened Civil War battlefields.

Project name: Rappahannock River National Wildlife Refuge, Bowers property

Amount: $500,000

Account: Fish and Wildlife Service Land Acquisition

Requested by: The Conservation Fund, 1655 N. Ft. Myer Drive, Arlington, VA 22209

Intended recipient of funds: U.S. Fish and Wildlife Service, Rappahannock River National Wildlife Refuge (RRNWR)

Project description and explanation of the request: The acquisition of the 265-acre Bowers tract at Fones Cliff will provide RRNWR the opportunity to create hiking trails, provide historic interpretation relating to the Captain John Smith National Water Trail, and ensure public access to the Fones Cliff area. This project provides $500,000 for land acquisition as part of a $3,023,000 project to acquire the 265-acre Bowers tract property. Public funds are justified to be used by a federal agency to conserve, protect, and enhance the nation's fish and wildlife and their habitats for continuing benefit of people.

EARMARK DECLARATION

HON. GINNY BROWN-WAITE

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Ms. GINNY BROWN-WAITE of Florida. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996—Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

I requested one project in H.R. 2996.

$500,000 for The Conservation Fund located a 2507 Calloway Road, Tallahassee, FL 32303. This funding will go towards the purchase of environmentally sensitive land surrounding Three sisters Springs in Citrus County. This property abuts manatee protection areas and would place a large undeveloped tract of land in public ownership, allowing for the further protection of the spring as well as the endangered manatee species.

EARMARK DECLARATION

HON. DOUG LAMBORN

OF COLORADO–

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LAMBORN. Madam Speaker, pursuant to the Republican Leadership standards, I am submitting the following information regarding member requests I received as part of H.R. 2647—National Defense Authorization Act for Fiscal Year 2010:

Requesting Member: Representative DOUG LAMBORN, CO–05

Bill Number: H.R. 2647

Account: RDTE, Army, Line 13, PE 0602601A

Legal Name of the Requesting Entity: Sturman Industries

Legal Address of the Requesting Entity: One Innovation Way, Woodland Park, CO 80863

Description of the Request: Requesting $3.5 million funding for Digital Engine/Hydraulic Valve Actuation technology development and testing for combat vehicle and automotive technology allowing the use of alternative and renewable fuels while reducing military vehicle fuel consumption through improved engine efficiency.

Requesting Member: Representative DOUG LAMBORN, CO–05

Bill Number: H.R. 2647

Account: RDTE Navy, Line 27, PE 0603216N

Legal Name of the Requesting Entity: Global Near Space Services

Legal Address of the Requesting Entity: 8610 Explorer Dr, Ste 140, Colorado Springs, CO 80920

Description of the Request: Requesting $6 million funding for the Lighter-Than-Air Stratospheric UAV for Persistent Communications Relay and Surveillance. This project will develop a lighter-than-air, unmanned aerial vehicle (UAV) that will fly at 85,000 feet for three to four months, providing low cost, persistent surveillance, high bandwidth and over the horizon communications needed to effectively fight terrorism, achieve maritime domain awareness, protect critical infrastructures and secure national borders.

Requesting Member: Representative DOUG LAMBORN, CO–05

Bill Number: H.R. 2647

Account: RDTE Air Force, Line 8, PE 0602201F

Legal Name of the Requesting Entity: Colorado Engineering, Inc

Legal Address of the Requesting Entity: 1310 United Heights, Suite 105, Colorado Springs, CO 80921

Description of the Request: Requesting $3 million funding for the Unmanned Sense, Track, and Avoid Radar (USTAR) for low rate initial production of an advanced radar system for the Global Hawk unmanned aerial vehicle platform to detect and track large and small targets. USTAR will allow the UAV to identify potential collision risks and increase maneuvering capability in controlled airspace and improve operability in adverse weather conditions.

Requesting Member: Representative DOUG LAMBORN, CO–05

Bill Number: H.R. 2647

Account: RDTE Air Force, Line 80, PE 0604706F

Legal Name of the Requesting Entity: Goodrich Corporation

Legal Address of the Requesting Entity: 1275 N. Newport Road, Colorado Springs, CO 80916

Description of the Request: Requesting $7 million funding for continued development and testing of the ACES 5 ejection seat for U.S. military aircraft.

Requesting Member: Representative DOUG LAMBORN, CO–05

Bill Number: H.R. 2647

Account: RDTE Defense-wide, Line 89, PE 0603898C

Legal Name of the Requesting Entity: Not Applicable

Legal Address of the Requesting Entity: Not Applicable

Description of the Request: Requesting $500,000 funding for an Independent Advisory Group to review Ballistic Missile Defense (BMD) Education and Training Needs and recommend a BMD education and training solution to include a recommendation of roles and responsibilities, organizational structure, and/or resources and facilities for integrated missile defense training.

Requesting Member: Representative DOUG LAMBORN, CO–05

Bill Number: H.R. 2647

Account: MCAF

Legal Name of the Requesting Entity: Peterson Air Force Base

Legal Address of the Requesting Entity: Peterson Air Force Base, Colorado Springs, CO 80914

Description of the Request: Requesting $7.2 million funding for the East Gate realignment at Peterson Air Force Base. This project demolishes the existing gate house and road system at the East Gate of Peterson AFB and constructs a new, realigned entry road, gate house, check stations, vehicle inspection buildings and anti-terrorism/force protection measures.

EARMARK DECLARATION

HON. ROBERT B. ADERHOLT

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. ADERHOLT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892, the Department of Homeland Security Appropriations Act for 2010:

Requesting Member: ADERHOLT

B0ill Number: H.R. 2892

Account: FEMA—Predisaster Mitigation

Legal Name of Requesting Entity: City of Hartselle, Alabama

Address of Requesting Entity: 200 Sparkman St NW, Hartselle, AL 35640

Description of Request: ''City of Hartselle, AL, $245,000''

The funding would be used for construction and initializaing nine new emergency warning sirens. Taxpayer Justification: The citizens of Hartselle and nearby Morgan County residents will benefit from strategic placement of the emergency warning sirens. An estimated 18,000 residents will be served to ensure early warnings against potential devastating disasters. These funds will approximately be used for the following: Equipment ($190,120), Labor ($53,655), and Engineering ($1225).

Requesting Member: ADERHOLT

Bill Number: H.R. 2892

Account: FEMA—State and Local Programs

Legal Name of Requesting Entity:

Address of Requesting Entity:

Description of Request: ''Emergency Operations Center, Winston County Commission, AL, $20,000''

The funding would be used to purchase and install necessary equipment, including radios and computers, in the Emergency Operations Center to allow a central meeting place for county and city agencies to operate during emergency situations. Taxpayer Justification: To purchase emergency equipment for a central location to be used by all agencies during times of natural or man-made emergencies. It will provide resources for information and help for the general public during disasters. These funds will approximately be used for the following: $20,000 to purchase and install necessary computers, radios and other equipment.

HONORING THE CREW OF THE ''GENERAL ARNOLD''

HON. BILL DELAHUNT

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. DELAHUNT. Madam Speaker, I rise today so that my colleagues in the House of Representatives can join me in recognizing the heroic crew of the *General Arnold,* a contingent of men who risked and ultimately gave their lives for our country's independence some 230 years ago.

During the course of the Revolutionary War, the American colonies relied on a small, organized navy as well as a vast number of privateers to defend themselves against the British. The privateers chartered vessels both

large and small, were commissioned with letters of marque, and dispatched on the high seas. Indeed, it is unlikely that our nation could have achieved its independence without the noble efforts of these privateers, many of whom disrupted British shipping and wrought considerable damage upon the enemy's vessels during the war.

On Christmas Day, 1778, one of these privateer ships—the *General Arnold,* a brigantine with 20 cannons under the command of Captain James Magee—set sail with its own crew and a battalion of marines led by Captain John Russell. Battered by a frightening and terrible nor'easter, the ship was driven back toward Plymouth Harbor, where it ran aground on the White Flat, a sandbar approximately one half-mile from shore.

For three days, the crew remained trapped aboard the ill-fated vessel's quarter-deck, drenched by angry sea and freezing snow and lashed by savage winds. By the time help arrived on December 28, 72 of the 105 men had perished. Many of their bodies were frozen together, locked in an ''embrace of death.'' Some of the survivors were permanently crippled, some forced to undergo amputation, and some died prematurely not long thereafter, making this incident one of the most tragic and gruesome losses of life experienced by either side during our nation's struggle for independence.

As we prepare to celebrate the birthday of our nation next week, it is important that we take a moment to acknowledge the brave men aboard the *General Arnold* who suffered and died for our freedom. Many of them, sadly, remain nameless. Yet we owe them a debt of gratitude for their valiant efforts to champion the cause of life, liberty, and the pursuit of happiness. To the crew and to all those who served on the *General Arnold,* today we honor and give you thanks for your admirable sacrifice.

EARMARK DECLARATION

HON. BRETT GUTHRIE

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. GUTHRIE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, the National Defense Authorization Act of Fiscal Year 2010.

Requesting Member: Congressman BRETT GUTHRIE

Bill Number: H.R. 2647

Account: RDT&E, Defensewide

Recipient: EWA, Inc. 2413 Nashville Road, Bowling Green, KY 42101

Description of Request: Provide $2,000,000 to develop a tactical biometric identification system for the U.S. Special Operations Command. The system will allow intelligence officials to identify and track individuals of high suspicion remotely, without risking injury or loss of life. This project will allow for the development of a field-usable prototype, downsized for tactical mobility. It is a wise investment of taxpayer dollars to ensure, at a time when our nation's enemies attack through suicidal mass-casualty events, that the Special Operations Command be able to track and identify persons of high interest with high accuracy and from a safe distance.

EARMARK DECLARATION

HON. JOHN M. McHUGH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MCHUGH. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information for publication regarding earmarks I received as part of H.R. 2892—Department of Homeland Security Appropriations Act of 2010.

Requesting Member: Congressman JOHN MCHUGH

Bill Number: H.R. 2892

Account: Infrastructure Protection and Information Security

Legal Name of Requesting Entity: Clarkson University

Address of Requesting Entity: 8 Clarkson Avenue, Potsdam, NY 13699

Description: Provide an earmark of $100,000 to Clarkson University to establish and maintain a collaborative cyber security training center designed to strengthen the nation's ability to educate large numbers of highly qualified individuals in the fields of information assurance and cyber security. This initiative will also update cyber security training modules to anticipate and respond to new threats, improve warning capabilities, accelerate comprehensive responses to real time attacks, and develop next generation cyber security experts.

A TRIBUTE TO BRIG. GEN. JOSEPH ANDERSON

HON. BRETT GUTHRIE

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. GUTHRIE. Madam Speaker, I rise today to honor Brigadier General Joseph Anderson for his service to Fort Knox and our nation. Brig. Gen. Anderson has effectively served as the Deputy Commanding General of the United States Army Recruiting Command (USAREC) since May 27, 2008. Brig. Gen. Anderson will be leaving this post in July 2009.

Brig. Gen. Anderson provided outstanding leadership for USAREC that ensured it would become a successful command for recruiting. He is a talented leader, skilled motivator, and inspiring mentor.

Brig. Gen. Anderson displayed exceptional training skills, innovative ideas, and outstanding performance. His commitment to ensuring the safety of USAREC soldiers, civilian employees, contractors, and family members was extraordinary.

Brig. Gen. Anderson's dedicated effort is an example for all Kentuckians to follow. I thank Brig. Gen. Anderson for his commitment to the people of Fort Knox, the men and women in the Army, and our nation.

EARMARK DECLARATION

HON. JACK KINGSTON

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. KINGSTON. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010 in Title XXVI, Section 2601 (a) in the Guard and Reserve Forces Facilities Section.

Request information: Representative JACK KINGSTON, H.R. 2647, Department of Defense, Army National Guard Account

Recipient information: Georgia Army National Guard, Hunter Army Aviation Facility, Savannah GA

Description: The Georgia Army National Guard received an earmark in the amount of $8,967,000.

The current facility has exceeded its useful life with several irreparable leaks. The unit is devoting considerable time in overcoming these obstacles to meet its current requirements for training, planning and storage of weapons and information technology.

EARMARK DECLARATION

HON. TODD RUSSELL PLATTS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. PLATTS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I have received as part of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010.

Paladin Integrated Management (PIM): This project would fund the completion of testing and evaluation of the PIM self-propelled howitzer and companion ammunition resupply vehicle. These vehicles are manufactured in part by the BAE Systems facility located in York, Pennsylvania. This is a good use of taxpayer funds because the changes to this vehicle will reduce the logistics footprint thereby reducing operational and support costs. ($9 million above the President's Budget in the Research and Development Account)

BAE Systems, 3811 North Fairfax Drive, Suite 500, Arlington, VA 22203.

EARMARK DECLARATION

HON. SPENCER BACHUS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BACHUS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding funding that I requested as part

of H.R. 2892—Department of Homeland Security Appropriations Act, 2010.

Requesting Member: Congressman SPENCER BACHUS

Bill Number: H.R. 2892—Department of Homeland Security Appropriations Act, 2010

Account: FEMA, Predisaster Mitigation

Legal Name of Requesting Entity: Alabama Emergency Management Agency

Address of Requesting Entity: P.O. Drawer 2160, Clanton, AL 35046

Description of Request: Provide $200,000 for the construction of a Safe Room/Tornado and Severe Wind Shelter for the City of Graysville at the Graysville East Pavilion Park on 3rd Avenue N.E. The Shelter will accommodate approximately fifty people. This project directly supports efforts by the City of Graysville to reduce damages and the loss of life and property from natural disasters such as tornados and severe storms. This project's total budget is $250,000. Specifically within the budget, $50,000 will go toward engineering cost, $75,000 toward site preparations, and $125,000 toward construction cost. This request is consistent with the intended and authorized purpose of the FEMA, Predisaster Mitigation account. The City of Graysville will meet or exceed all statutory requirements for matching funds where applicable.

EARMARK DECLARATION

HON. JOHN M. McHUGH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MCHUGH. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996—Interior and Environment Act of 2010.

Requesting Member: Congressman JOHN MCHUGH

Bill Number: H.R. 2996

Account: Save America's Treasures

Legal Name of Requesting Entity: Traditional Arts in Upstate New York

Address of Requesting Entity: 53 Main Street, Canton, NY 13617

Description: Provide an earmark of $150,000 to the Traditional Arts in Upstate New York for the renovation of a building that houses the North Country Folk Life Center in Canton, NY. This National Register—listed building has the potential to become a destination point and serve as a vital economic driver in the region.

EARMARK DECLARATION

HON. PETER T. KING

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. KING of New York. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647—National Defense Authorization Act for FY2010:

Requesting Member: Congressman PETER T. KING

Bill Number: H.R. 2647

Account: Aircraft Procurement, Army

Legal Name of Requesting Entity: Sikorsky Aircraft Corporation

Address of Requesting Entity: 1 Financial Plaza, Hartford, CT 06301

Description of Request: $20,400,000 will be used to convert ''A'' model Black Hawk helicopters to the ''L'' configuration. This additional funding for UH–60L conversions will enable a more rapid standardization of the Black Hawk fleet and assure National Guard units are ready, deployable and available to protect our national interests abroad, and respond to emergencies here at home.

PERSONAL EXPLANATION

HON. DEAN HELLER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. HELLER. Madam Speaker, on rollcall No. 418, Article IV of impeaching Samuel B. Kent, I was unavoidably detained.

Had I been present, I would have voted "yea."

EARMARK DECLARATION

HON. DAVID DREIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. DREIER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010:

Requesting Member: DAVID DREIER

Bill Number: H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010

Account: Army, Research, Development, Test and Evaluation

Legal Name and Address of Entity Receiving Earmark: Chang Industry, located at 968 Palomares Avenue, La Verne, CA 91750

Description of Request: Provide an earmark of $2,000,000 to develop Fire Shield, an Active Protection System (APS) with the guidance of the U.S. Army Tank Automotive Research, Development and Engineering Center in Warren, Michigan. Fire Shield would be used to protect armored vehicles from the blast effects and the plasma jet of rocket propelled grenades (RPG) by detecting and destroying incoming projectiles. Approximately $800,000 is for directional warhead blast and fragment effects characterization and optimization. $600,000 will be used for static threat defeat characterization, test and evaluation with directional warhead. The remaining $600,000 will be used for threat defeat test and evaluation on a controlled moving platform with directional warhead. This request is consistent with the intended and authorized purpose of the Army RDT&E account.

Requesting Member: DAVID DREIER

Bill Number: H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010

Account: Air Force, Air National Guard, Operations and Maintenance

Legal Name and Address of Entity Receiving Earmark: Gentex Corporation, located at 11525 6th Street, Rancho Cucamonga, CA 91730

Description of Request: Provide an earmark of $6,000,000 to complete the Air National Guard's fleet-wide implementation and standardization to the MBU–20A/P Oxygen Mask and Mask Light. Approximately, 34 percent ($2,040,000) of the funding is for manufacturing; 4 percent ($240,000) is for sustainment and systems engineering support; 6 percent ($360,000) is for inspections and tests; 20 percent ($1,200,000) is for general and administrative; 35 percent ($2,100,000) is for material; 1 percent ($60,000) is for packaging handling shipping and transportation. This request is consistent with the intended and authorized purpose of the Air National Guard.

EARMARK DECLARATION

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. ROGERS of Alabama. Madam Speaker, in accordance with the Republican Conference standards regarding Member initiatives, I rise today to provide a description for how funds authorized in response to my requests submitted to the House Armed Services Committee will be allocated. In making those requests, I submitted a financial certification letter to Chairman SKELTON which accompanied my requests, and included the following information:

I hereby certify that to the best of my knowledge these requests (1) are not directed to any entity or program that will be named after a sitting Member of Congress; (2) are not intended to be used by any entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meet or exceed all statutory requirements for matching funds where applicable. I further certify that should any of the requests I have submitted be included in the bill, I will place a statement describing how the funds in each of the included requests will be spent and justifying the use of federal taxpayer funds.

In order to fully comply with these standards, Madam Speaker, I hereby submit a description of how the funds authorized in the National Defense Authorization Act for Fiscal Year 2010 will be used for the projects to follow.

Requesting Member: Congressman MIKE ROGERS (Alabama)

Bill Number: H.R. 2647 the National Defense Authorization Act for Fiscal Year 2010

Account: RDT&E, Air Force

Legal Name of Receiving Entity: THY Enterprises, Inc.

Address of Receiving Entity: 440 Hillabee St., Alexander City, AL 35010

Description of Request: Provide $2,700,000 in funding for Special Mission Clothing for

AFSOC. The funding will be used to continue research and development of Special Mission Clothing for AFSOC. Approximately, $1,500,000 is for research and development of a lighter, quieter, water/wind proof, tear resistant and fire retardant material; $375,000 for engineering; $100,000 for laboratory analysis; $25,000 for field assessment; and $700,000 for risk and plan management. This Special Mission Clothing project will focus on producing products suitable for multiple Special Mission Unit requirements, and which meet or exceed military operational specifications.

Requesting Member: Congressman MIKE ROGERS (Alabama)

Bill Number: H.R. 2647 the National Defense Authorization Act for Fiscal Year 2010

Account: Other Procurement, Air Force

Legal Name of Receiving Entity: Telos Corporation

Address of Receiving Entity: 7956 Vaughn Road, Suite 134, Montgomery, AL 36116

Description of Request: Provide $5,000,000 in funding for Application Software Assurance Center of Excellence. This funding will provide the Air Force additional tools, training and subject matter experts to robust the analysis capability at the newly established Application Software Assurance Center of Excellence (ASACoE). To counter the growing threats in information operations, the Air Force established the Application Software Assurance Center of Excellence (ASACoE) to assess and strengthen its defenses against cyber attacks .The center's mission is to develop application security best practices that can be put in place Air Force-wide. Over the last year, the center has successfully assessed and identified vulnerabilities in numerous applications across multiple functional communities. The requested additional funding will ensure the security of the people, systems, and equipment software applications that support the Warfighter. The Center currently has 12 contracted personnel that are charged with reviewing over 3,000 software applications. At the current funding levels, the Center will complete approximately 300 within a year. The requested funding would enable the Center to accelerate the completion of the most critical tasks. The fund would increase local labor by up to 12 advanced security engineers/computer programmers in Alabama. The remaining funds would support the application tools, software and Air Force-wide training. The lead agency executing this mission for the United States Air Force is the 554th Electronic Systems Wing located at Maxwell AFB—Gunter Annex in Montgomery, Alabama. This request is consistent with the intended and authorized purpose of this unit. The funding would be provided on an existing Air Force program line. The funding will provide for software tools that includes approximately $1,000,000 for source code analysis, $750,000 for web pen test tools, and $750,000 for database scanning tools in addition to $400,000 for training and $2,100,000 for subject matter experts and travel. The funding for Long term funds is being pursued in the Department's Future Years Defense Plan.

Requesting Member: Congressman MIKE ROGERS (Alabama)

Bill Number: H.R. 2647 the National Defense Authorization Act for Fiscal Year 2010

Account: RDT&E, Army

Legal Name of Receiving Entity: BAE Systems

Address of Receiving Entity: 1101 Wilson Blvd., Suite 2000, Arlington, VA 22209

Description of Request: Provide $9,000,000 for the Paladin Integrated Management for work to be completed in Anniston, AL. The FY 10 President's Budget contains funding for research and development Army funds to assist in making the M109A6 Paladin and its companion vehicle the Field Artillery Ammunition Support Vehicle (FAASV) sustainable through the year 2050. The changes to this vehicle will incorporate the Bradley's drive train and suspension components that will reduce the logistics footprint thereby reducing operational and support costs. This $9,000,000 in funding is needed in order to insure that this program be reinstated to its original schedule (the program was Congressionally reduced by that same amount during the FY09 budget process). Procurement funds to initiate low rate initial production are in the FY10 procurement budget. The Army intends to fund this program through completion. This is a national defense program which provides firepower to our troops engaged in combat.

Requesting Member: Congressman MIKE ROGERS (Alabama)

Bill Number: H.R. 2647 the National Defense Authorization Act for Fiscal Year 2010

Account: RDT&E, Army

Legal Name of Receiving Entity: Electric Fuel Battery Corporation (Arotech Subsidiary)

Address of Receiving Entity: 354 Industry Drive, Auburn, Alabama 36832

Description of Request: Provide $4,000,000 for the Novel Zinc Air Power Sources for Military. This funding will develop Zinc-Air battery technology that will provide the soldier with a high energy density power source that significantly reduces battery carry weight. Previous advances in the technology have helped to cut warfighter battery carry weight in half. Continued development of body-worn energy distribution systems, coupled with further development of Zinc-Air battery technology, promises to cut warfighter battery carry weight further, while reducing battery quantities carried on long missions. Reducing battery type and count lowers operational risk by reducing the need for re-supply. In addition, Zinc-Air battery's intrinsic safety (cannot combust or explode even when penetrated by hot projectiles) enhances warfighter safety. Lithium-Air battery technology is in its infancy but has the highest possible energy density of any battery system promising a quantum leap in the warfighter mission length.

Requesting Member: Congressman MIKE ROGERS (Alabama)

Bill Number: H.R. 2647 the National Defense Authorization Act for Fiscal Year 2010

Account: RDT&E, Army

Legal Name of Receiving Entity: SCRA, Institute for Solutions Generation (funding will benefit the Anniston Army Depot)

Address of Receiving Entity: 5300 International Boulevard, N. Charleston, SC 29418

Description of Request: Provide $8,200,000 in funding for the Highly Integrated Production for Expediting RESET. This funding was requested by the Calhoun County Chamber of Commerce to benefit the Anniston Army Depot, located at 7 Frankford Avenue, Anniston, AL 36201. A critical readiness issue facing the military today is repairing and restoring military equipment that has been damaged or worn out in battle. Resetting small arms and crew served weapons is particularly challenging, given their sheer numbers and the fact that, there is a growing incidence of nonconforming parts used to support reset operations there. In addition, under the current system, a lot of time and cost are required to design and apply product improvements during reset. HIPER ensure a quick and efficient RESET turn-around for weapons to the theater. The requested funding will drive downstream efficiencies in manufacturing and quality inspection by enabling the utilization of laser scanning technology to significantly shorten the time and lower the cost for resetting and modernizing the military's small arms and crew-served weapons. This funding will provide $4,800,000 for integration, collaboration, scanning and reverse engineering technology, and supply chain improvements to enhance and expedite RESET efforts: $7,596,000 for labor, $544,000 for materials and $60,000 for travel.

Requesting Member: Congressman MIKE ROGERS (Alabama)

Bill Number: H.R. 2647 the National Defense Authorization Act for Fiscal Year 2010

Account: Military Construction, Army

Legal Name of Receiving Entity:———

Address of Receiving Entity: Anniston Army Depot, 7 Frankford Avenue, Anniston, AL 36201

Description of Request: Provide $3,300,000 in funding for the Industrial Area Electrical System Upgrade. This funding will be used to construct electrical system upgrades to the area south of Third Avenue in the industrial area. Construction will include new power poles, cross arms, insulators, cutouts, re closers, anchor systems, wire, transformers, underground duct and circuit breakers for a couplet 12470 volt electrical service system in the area south of Third Avenue in the industrial area. This construction will provide upgraded overhead lines and underground service from the power poles to pad mounted transformers that supply each building. Construct the secondary for a 10.5 MVA 44.000/12/470 volt substation. The substation secondary will consist of vacuum breakers, voltage regulator, bypass switches and the structural steel. Antiterrorism/force protection measures will include observance of vehicle access sitting distances, landscaping berms, exterior lighting, laminated glass, and walkway bollards.

EARMARK DECLARATION

HON. STEVE BUYER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BUYER. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act for Fiscal Year 2010.

Requesting Member: Congressman STEVE BUYER

Bill Number: H.R. 2996

Account: Environmental Protection Agency, STAG Water and Wastewater project

Legal Name of Requesting Entity: Clinton County Government, Frankfort, IN

Address of Requesting Entity: 125 Courthouse Square, Frankfort, IN 46041

Description of Request: Provide an earmark of $500,000 in STAG monies to continue support of the construction and installation of a multi-pond regional storm water detention facility needed to help alleviate flooding that occurs to low to moderate income households, businesses and restaurants. This area experienced water damage 3 times in 2008.

HAITI'S RECENT DIPLOMATIC ATTENTION—OPPORTUNITY FOR CARICOM

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. RANGEL. Madam Speaker, I stand before you today in recognition of CARICOM's participation in the recent Haiti Donor's Conference in April and urge them to take this opportunity to fully embrace Haiti as they transition into a country looking to reach its fullest potential.

I introduce into the RECORD an article from the NY Carib News on June 16, 2009, where Assistant Secretary General of the Organization of American States (OAS), Albert Ramdin, urges CARICOM to provide greater support for Haiti.

Most people would agree that Haiti is at a critical point in its history, receiving unprecedented diplomatic attention with visits from the U.N. Secretary General, U.S. Security Council, and the appointment of President Clinton as special U.N. envoy to Haiti. Now it is especially important that CARICOM live up to its moral obligation and provide Haiti with overwhelming support and commitment.

The mentorship that CARICOM can provide to Haiti at this time is vital to Haiti's development into a country that is self-sustainable. The regional access and cultural commonality that CARICOM presents to the Haitians is one that should not be underscored.

I must acknowledge that the contributions that CARICOM have already made to Haiti are well appreciated, but I am convinced that in this global economic climate, it is especially necessary for CARICOM to reach within itself to offer a renewed commitment to the good people of Haiti.

At this time, I would like to urge CARICOM to look for additional ways to offer support to Haiti and provide them with the mentorship that is key to the country's success.

PERSONAL EXPLANATION

HON. BRUCE L. BRALEY

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BRALEY of Iowa. Madam Speaker, I missed votes on Tuesday, June 23, 2009 due to travel delays. If I was present I would have voted:

"Yea" on rollcall 419, On Motion to Suspend the Rules and Pass S. 407—Veterans' Compensation Cost-of-Living Adjustment Act of 2009;

"Aye" on rollcall 420, On Motion to Suspend the Rules and Pass, as Amended H.R. 1016—Veterans Health Care Budget Reform and Transparency Act of 2009;

"Yea" on rollcall 421, On Motion to Suspend the Rules and Pass, as Amended H.R. 1211—Women Veterans Health Care Improvement Act;

"Yea" on rollcall 422, On Motion to Suspend the Rules and Pass, as Amended H.R. 1172—To direct the Secretary of Veterans Affairs to include on the Internet website of the Department of Veterans Affairs a list of organizations that provide scholarships to veterans and their survivors.

COMMENDING DOORWAYS FOR WOMEN AND FAMILIES

HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MORAN of Virginia. Madam Speaker, I rise to commend Doorways for Women and Families, Arlington County, Virginia's leading provider and advocate for victims of homelessness, violence and abuse, for its deserved honor and recognition by the Center for Nonprofit Advancement as the 2009 winner of the Washington Post Award for Excellence in Nonprofit Management. For its distinguished leadership, Doorways will receive a $10,000 cash grant and a scholarship for one person to attend the Georgetown University Center for Public and Nonprofit Leadership's Nonprofit Management Executive Certificate Program. That is, the organization's hard work and innovation will be rewarded by enhancing its ability to help more families at this time of great need, but also by assisting the organization to be more effective in managing its resources.

As our country faces one its most serious economic challenges in a century, nonprofits will play a critical role. Consequently, coordination between nonprofits and the quality of nonprofit management will play key roles in making a difference in many, many lives. Therefore, this award is an important and richly deserved honor and acknowledgement of Doorways as a stellar example that other organizations could and should follow.

With new legislation we have enacted as part of the American Recovery and Reinvestment Act and a new White House Office on Social Innovation, those nonprofits like Doorways that have dedicated themselves to achieve excellence in management practices will, I believe, be in the position to not only provide some of the best and most efficient services, but also to leverage new and innovative ways to serve. Our country and our citizens are best served by those who constantly rededicate themselves to finding ways and means to transform their services in ways that can make lasting differences and maximum efficiency with resources.

For three decades, Doorways for Women and Families has empowered women and families who are abused, homeless, or at-risk to live safe, secure and self-sufficient lives. The organization has provided shelter and services and educated the larger community about violence and homelessness. Through its three core programs, including an 11-bed Safehouse for women and families in imminent danger; the Freddie Mac Foundation Family Home, which houses 21 homeless adults and children in a state-of-the art residential facility; and the HomeStart Supportive Housing Program, which offers prevention, rapid re-housing and long-term supportive housing for families in crisis; Doorways has become a unique and treasured asset to our community. We are honored to have such special resources in our region.

EARMARK DECLARATION

HON. J. RANDY FORBES

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. FORBES. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892, the Department of Homeland Security Appropriations Act, 2010.

Requesting Member: Congressman J. RANDY FORBES

Bill Number: H.R. 2892

Account: Homeland Security, FEMA, State and Local Programs

Legal Name of Requesting Entity: City of Hopewell

Address of Requesting Entity: 300 North Main Street, Hopewell, VA, 23860, USA

Description of Request: Provides $250,000 to construct an Emergency Operations Center for the City of Hopewell. Hopewell has a large industrial presence, heavy in hazardous materials near the downtown area. This project will move these primary public safety facilities away from the primary hazard zone.

EARMARK DECLARATION

HON. GUS M. BILIRAKIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BILIRAKIS. Madam Speaker, pursuant to the House Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of Interior and Related Agencies Appropriations Act for Fiscal Year 2010.

Member requesting: GUS. M. BILIRAKIS

Bill number: H.R. 2996

Account: STAG Water and Wastewater Infrastructure Project

Name of requesting entity: City of Clearwater, Florida

Address of requesting entity: 112 South Osceola Avenue, Clearwater, Florida 33756

Description: The $500,000 will be used for wastewater treatment facility improvement in

the City of Clearwater, Florida. The funds will help the city maintain the community's public water infrastructure, a vital public service, as well as save public sector jobs. The project meets all cost-sharing requirements for projects funded by STAG infrastructure grants.

RECOGNIZING THE ALLIANCE OF ILLINOIS JUDGES

HON. MIKE QUIGLEY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. QUIGLEY. Madam Speaker, I rise today to recognize the formation of a new judicial association—the Alliance of Illinois Judges, AIJ, which has been established to address lesbian, gay, bisexual and transgender issues in the judiciary and the legal system as a whole.

Founded by the Lesbian and Gay Judges of the Circuit Court of Cook County, the Alliance of Illinois Judges will serve to assist judges, lawyers and law students; to make sure that LGBT individuals interacting with the legal system are treated with respect and without regard to their sexual orientation or gender identity; and to help people in the LGBT community better understand how the courts and the legal system work.

The Alliance of Illinois Judges has also been set up to advocate for their members. The formation of All reminds us that lesbian and gay judges in Illinois—like lesbian and gay employees all over the country—are treated differently than their heterosexual counterparts. All intends to address these inequities.

In the last 15 years, the judiciary in Illinois and in Cook County has been transformed by the addition of many highly talented and dedicated gay and lesbian judges. Their presence in Cook County has brought about a sea change in attitudes in one of the largest consolidated court systems in the world.

In 1993, Cook County and Illinois took a giant step forward when Judge Tom Chiola, one of the founding members of AIJ, was elected not only as the first openly gay judge but also as the first openly gay elected official in Illinois. Then, in 1996, Judge Sebastian Patti was elected in a countywide election in Cook County, the second largest county in the nation. And in 1999, Nancy Katz, the first lesbian judge, was elected an Associate Judge of the Cook County Circuit Court. This month the Alliance of Illinois Judges is being launched with 16 founding members.

Madam Speaker, I want to offer my very best wishes to the Alliance of Illinois Judges and to all its members. The professional achievements of these individuals, their enormous contributions to the civic life of Chicago, Cook County and Illinois and their dedication to the legal profession remind us once again, especially during Gay Pride Month, of what we as a nation owe to lesbian and gay Americans and to the entire LGBT community.

EARMARK DECLARATION

HON. TODD TIAHRT

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. TIAHRT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892, The FY 2010 Department of Homeland Security Appropriations Act:

Heartland Preparedness Center, Wichita, Kansas. This bill includes $500,000 in FEMA State and Local Programs funding to the City of Wichita, Kansas, for the Heartland Preparedness Center. This emergency operations center will be the primary coordination center in the event of a disaster for local, county, state and federal emergency response personnel and officials. Facility enhancements and equipment are needed to increase the communication, cooperation, training and response capabilities of the Wichita Police Dept, Sedgwick Co Sheriff, Kansas Army Nat'l Guard and USMC. Jointly locating the partnering entities will enhance the overall level of cooperation, coordination and preparation for various emergencies, and provide for more efficient use of resources, including training time and costs.

HONORING THE 37TH ANNIVERSARY OF TITLE IX

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mrs. MALONEY. Madam Speaker, I rise today to commemorate the 37th anniversary of Title IX. This landmark legislation prohibits sex discrimination in educational programs and activities that receive federal funding, and has expanded educational and career opportunities for countless young women and girls across the United States.

This legislation is most famous for creating opportunities for women in athletics, but this legislation has done so much more. It is hard to imagine a time when women couldn't enroll in any college or university they wanted, had no chance of getting an athletic scholarship, and were steered away from classes in math and science in favor of home economics. But that was the United States before Title IX. This legislation works to address inequality and injustice in all areas of women's lives, from access to higher education, career training and advancement, and gender stereotyping and sexual harassment in schools, just to name a few.

In large part due to Title IX, more women are receiving higher degrees than at any time in the past, more each year are entering traditionally male dominated fields, and hundreds of thousands of girls are living happier and healthier lives because they have the opportunity to be part of a sports team and have strong women role models to look up to.

Yet despite the demonstrated positive impact of Title IX, opponents have tried to weaken this critical legislation. In 2005, the Department of Education issued a Title IX policy clarification that allows schools to use a less rigorous, e-mail based survey method to prove compliance. If enough young women simply deleted the mass e-mail, that was taken to mean that they were not interested in sports, and sports programs for girls could be cut. Men did not face the same burden, revealing a huge double standard while men's interest in sports was taken for granted, women's had to be proven.

What these actions seem to imply is that Title IX's work is done. I have worked to protect and promote women's rights since my very first day in Congress, and I look forward to the time when there is complete gender equality in the United States. But that day is not today.

While Title IX has undoubtedly opened doors for women faculty in higher education, women still make up just 36% of associate professors and 21% of full professors. Only 2.4% of full professors are women of color. Women only receive 20% of computer science and engineering-related Bachelor's degrees, and a joint study by the National Academy of Sciences, National Academy of Engineering, and the Institute of Medicine found that women who are interested in science and engineering careers are lost at every educational transition, and those who do enter these fields very likely to face severe discrimination throughout their careers.

The Obama Administration has already made an admirable start in tackling barriers to women's success by promoting work-family balance, establishing the White House Council on Women and Girls, and signing into law the Lily Ledbetter Fair Pay Act. Strengthening Title IX enforcement at the Department of Education would bolster the progress that has already been made in advancing women's rights, while helping to address the inequalities that remain in so many areas.

Those of us with daughters will probably remember promising them that they can be whatever they want to be when they grow up. Title IX works to make this a reality. I ask my colleagues to join me in celebrating the 37th anniversary of Title IX and acknowledging the essential role it has played in expanding opportunities for women and girls in the United States.

INTRODUCING THE FAMILIES FOR ORPHANS ACT OF 2009

HON. JOHN BOOZMAN

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BOOZMAN. Madam Speaker, today my colleague Rep. DIANE WATSON and I are introducing the Families for Orphans Act of 2009. This bicameral, bi-partisan bill seeks to provide children in the United States and around the world the best opportunity for the full development of his or her potential by growing up in a permanent family.

Despite good efforts of countless governments and nongovernmental organizations, the number of children growing up without parents is at epidemic levels. Thus, these children are forced to live on the streets, in child-

headed households or in institutions, hardly the nurturing environments needed for these children to reach their full potential as productive citizens of the world. Permanency is one of the most important things we can offer children and is something that every child craves.

The United States has long been interested in developing a global strategy for providing permanent parental care for orphans; however, we still lack a clear diplomatic authority to represent these interests. This bill aims to establish the Office of Orphan Policy, Development and Diplomacy, a specialized office in the Department of State. A specially appointed Coordinator would head this office, which would be responsible for developing and implementing comprehensive, evidence-based strategy to support the preservation of families and the provision of permanent families and for orphans. As our diplomats work with countries to prevent terrorism and child trafficking, this office is one more service we can offer. Our government will now be set up to identify and develop government infrastructures, services and programs that help forge permanent family care in different cultures. The ultimate goal is to find children permanent families with the focus on legally-recognized relationships between responsible adults and children without parents. It also provides resources for preserving families, seeking social, therapeutic and financial programs and services designed to enable birth families to provide safe, permanent, and nurturing care to their children and strengthen and support families at risk of dissolution, separation or domestic violence.

The bill establishes a minimum set of standards for the preservation of families and provision of permanent care by foreign governments. These standards are designed to ensure that partner countries are making the necessary steps to reduce the number of abandoned children, to reunify children with family when possible, and to promote adoption and guardianship when appropriate.

The millions of children growing up without parents have a devastating impact on society across the globe. Without a permanent family, the risk of suicide, homelessness, an incomplete education, and teen pregnancy is all far greater. Every child deserves to grow up in a loving family. This bill is a giant step to ensuring just that for all the children of the world.

PERSONAL EXPLANATION

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Ms. WOOLSEY. Madam Speaker, on June 18, 2009, I was unavoidably detained and was not able to record my vote for rollcall Nos. 364, No. 384, No. 406.

Had I been present I would have voted: rollcall No. 364—"no"—Price of Georgia Amendment No. 96; rollcall No. 384—"yes"—Mollohan of West Virginia Amendment No. 11; and rollcall No. 406—"yes"—Obey of Wisconsin Amendment.

Madam Speaker, on June 19, 2009, I was unavoidably detained and was not able to record my vote for rollcall Nos. 410, 418.

Had I been present I would have voted: rollcall No. 410—"yes"—Providing for consideration of H.R. 2918, making appropriations for the Legislative Branch FY 2010 and rollcall No. 418—"yes"—Impeaching Samuel B. Kent, judge of the United States District Court for the Southern District of Texas, for high crimes and misdemeanors

EARMARK DECLARATION

HON. VERNON J. EHLERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. EHLERS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010: $500,000 is provided in H.R. 2996 from the EPA STAG Water and Wastewater Infrastructure Project to separate the combined sewers and replace the aging water main in the Eastside portion of the City of Grand Rapids. The funding was requested by the City of Grand Rapids, 300 Monroe Ave. NW., Grand Rapids, MI 49503. Additional funding for this project will be covered by the City's Sewer System and Water System revenue bonds. This project is of national significance and a good use of taxpayer dollars because it will contribute to the cleanup of the Great Lakes, a nationally important water source which suffers from water quality and quantity degradation. This aggressive program and dedication of limited resources will result in the complete elimination of the city's combined sewer overflows to the Grand River and Lake Michigan in 10 years.

EARMARK DECLARATION

HON. J. RANDY FORBES

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. FORBES. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, the National Defense Authorization Act of 2010.

Requesting Member: Congressman J. RANDY FORBES

Bill Number: H.R. 2647

Account: Research and Development, Defense Wide, Joint Experimentation

Legal Name of Requesting Entity: Office of Commonwealth Preparedness, Commonwealth of Virginia

Address of Requesting Entity: Patrick Henry Building, 1111 East Broad Street, Richmond, VA 23218

Description of Request: Provides $2,700,000 for a Tidewater Full-Scale Exercise, to enhance the Commonwealth of Virginia's interdiction, response and recovery capabilities to a WMD event through the conduct of a multi-agency, maritime Full-Scale Exercise, utilizing the experience and unique capabilities of the U.S. Naval Postgraduate School's Center for Asymmetric Warfare (CAW) and Old Dominion University's Virginia Modeling, Analysis and Simulation Center (VMASC).

Requesting Member: Congressman J. RANDY FORBES

Bill Number: H.R. 2647

Account: Military Construction

Legal Name of Requesting Entity: Fort Lee

Address of Requesting Entity: 3901 A Avenue, Fort Lee, VA 23801

Description of Request: Provides $5,000,000 in the Defense Access Road (DAR) Program which provides a means for the military to pay a share of the cost of public highway improvements necessary to mitigate an unusual impact of a defense activity. This project would fund a roundabout at Adams Avenue at the entrance to Fort Lee to alleviate traffic congestion and improve vehicular and pedestrian safety, following the installation's growth resulting from the 2005 BRAC Round.

EARMARK DECLARATION

HON. GEOFF DAVIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. DAVIS of Kentucky. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I secured as part of H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman GEOFF DAVIS

Bill Number: H.R. 2892

Account: Predisaster Mitigation

Legal Name of Requesting Entity: City of Brooksville

Address of Requesting Entity: P.O. Box 216, 201 Government Street, Brooksville, KY 41004

Description of Request: Appropriate $18,500 to purchase an emergency generator for the City Fire Department/Community Center and City office building. This facility is the only emergency shelter area within the City of Brooksville. The generator will allow for this critical facility to serve as a shelter and emergency operations center during times of hardship and disaster, such as the ice storm in Kentucky in early 2009. This is a valuable use of taxpayer funds because completion of the project will ensure appropriate emergency management and protection the local community during significant weather events and emergencies.

HONORING THE LIFE OF JACK M. FARMER

HON. HEATH SCHULER

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. SHULER. Madam Speaker, I rise today to honor the life of Mr. Jack M. Farmer, a distinguished member of our Western North

Carolina community. Mr. Farmer dedicated his life to benefitting his community, and it was with great communal sadness that we mourned Mr. Farmer when he passed away on September 26, 2008. He is survived by his wife, Nancy Leming Farmer, his sons, Bruce Alan Farmer and Phillip Marlowe Farmer, and 6 grandchildren.

Mr. Farmer was born on July 8, 1937, in Haywood County, North Carolina. A graduate of the Florida School of Forestry, he went on to serve as the District Ranger of North Carolina District 9 for 37 years. Because of his outstanding service, Mr. Farmer was awarded the Order of the Long Leaf Pine in 2000 by Governor Jim Hunt. The Order of the Long Leaf Pine is one of the most prominent awards presented by the Governor of North Carolina, only available to those who have dedicated over 30 years of service to the state.

In addition to his forestry service, Mr. Farmer was actively involved in his community. He was instrumental in the establishment of Pinnacle Park, a 1,100 acre public park filled with frequently-used hiking trails. Mr. Farmer also served on the Jackson County Green Ways Committee, on the Board of Directors of Cullowhee Fire Department, and as the President of the Jackson County Habitat for Humanity. Additionally, Mr. Farmer worked with Jackson County Housing to construct elderly housing and with the Jackson County Department on Aging to build access ramps for the disabled elderly. He was also an active member of the First Baptist Church of Sylva since 1965, where he often served as a Deacon.

I am proud to have had Mr. Farmer as a constituent. I extend my condolences to his family and offer my most sincere appreciation for his service to North Carolina.

EARMARK DECLARATION

HON. HOWARD P. "BUCK" McKEON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MCKEON. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding Member priority requests received as part of H.R. 2996 the ''Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010''

Requesting Member: Congressman HOWARD P. ''BUCK'' MCKEON

Bill Number: H.R. 2996, the ''Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010''

Account: U.S. Forest Service, Land Acquisition

Legal Name of Requesting Entity: Angeles National Forest

Address of Requesting Entity: 701 Santa Anita Avenue, Arcadia, CA 91006

Description of Request: I requested and received a Member priority request totaling $500,000 for land acquisition in the Angeles National Forest. The acquisition of in holdings in Southern California's national forests has been identified as a priority in the state's wildlife action plan because the proximity of the forests to huge population centers puts them at high risk of development and presents significant dangers to the ecology of the region. Acquisition by the Angeles National Forest would protect the scenic values and ecological integrity of this significant in holding.

Requesting Member: Congressman HOWARD P. ''BUCK'' MCKEON

Bill Number: H.R. 2996, the ''Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010''

Account: Environmental Protection Agency (EPA), State Assistance Grant Program (STAG)

Legal Name of Requesting Entity: Palmdale, CA Water District

Address of Requesting Entity: 2029 East Avenue Q, Palmdale, CA 93550

Description of Request: I requested and received a Member priority request totaling $500,000 to replace 35,000 to 40,000 feet of rapidly deteriorating water pipelines and connections throughout the Palmdale area. This project would help conserve water otherwise lost to leakage, improve water quality, decrease maintenance costs for the District and its ratepayers, and create jobs. Additionally, these efforts would ease some of the local pressure to keep pace with reductions in water supply from the Colorado River and the State Water Project.

EARMARK DECLARATION

HON. TODD TIAHRT

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. TIAHRT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks in H.R. 2647, The National Defense Authorization Act of Fiscal Year 2010. H.R. 2647 contains $8,700,000 for TFI—Upgrade DCGS Facilities (PRQE089032) in the Air Force, Military Construction account. This project is for Air National Guard at McConnell Air Force Base located at 57837 Coffeyville St., Kansas, 67221.

The funds will build an adequately sized and properly configured facility for personnel, equipment, and materials, for near-real time intelligence mission conducting the processing, exploitation, and dissemination of U–2, MQ–1 Predator, and RQ–4 Global Hawk sensor data around the world in support of warfighters by the growing 161st Intelligence Squadron of the new 184th Intelligence Group. Security features, high-capacity environmental control equipment, high-capacity secure fiber optics, and redundant power supplies are all prerequisites to accommodate the sophisticated Intelligence, Surveillance, and Reconnaissance (ISR) Operation Center. No matching funds are required for this military construction project.

EARMARK DECLARATION

HON. J. RANDY FORBES

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. FORBES. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, the National Defense Authorization Act of 2010.

Requesting Member: Congressman J. RANDY FORBES

Bill Number: H.R. 2647

Account: Research and Development, Defense Wide, Joint Experimentation

Legal Name of Requesting Entity: Office of Commonwealth Preparedness, Commonwealth of Virginia

Address of Requesting Entity: Patrick Henry Building, 1111 East Broad Street, Richmond, VA 23218

Description of Request: Provides $2,700,000 for a Tidewater Full-Scale Exercise, to enhance the Commonwealth of Virginia's interdiction, response and recovery capabilities to a WMD event through the conduct of a multi-agency, maritime Full-Scale Exercise, utilizing the experience and unique capabilities of the U.S. Naval Postgraduate School's Center for Asymmetric Warfare (CAW) and Old Dominion University's Virginia Modeling, Analysis and Simulation Center (VMASC).

Requesting Member: Congressman J. RANDY FORBES

Bill Number: H.R. 2647

Account: Military Construction

Legal Name of Requesting Entity: Fort Lee

Address of Requesting Entity: 3901 A Avenue, Fort Lee, VA 23801

Description of Request: Provides $5,000,000 in the Defense Access Road (DAR) Program which provides a means for the military to pay a share of the cost of public highway improvements necessary to mitigate an unusual impact of a defense activity. HONORING THE 70TH WEDDING ANNIVERSARY OF ROSALYN AND MURRAY KALISH

HON. ROBERT WEXLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. WEXLER. Madam Speaker, I rise today to honor the 70th wedding anniversary of Rosalyn and Murray Kalish, a remarkable couple in my congressional district, whom I am proud to call my friends and who have been leaders and activists in our community for nearly three decades.

Roz and Murray, who met while attending Abraham Lincoln High School in Brooklyn, New York, both had the same last name and

the same birth date of February 18th. They instantly became friends, went to their high school prom together, and continued dating until their wedding on June 24, 1939. They lived in Brooklyn, New York, and later moved to East Meadow before relocating to Delray Beach, Florida in 1980, and they are blessed with two children, four grandchildren and four great-grandchildren.

After moving to South Florida, Murray founded the largest Democratic Club of Florida, the United South County Democratic Club, which currently has more than 2,000 members. Together, Roz and Murray have worked on behalf of so many in our community to deal with a range of issues, and it is through their advocacy that I established my friendship with them. As this friendship has grown over the years, their guidance on the needs and concerns of my constituents has grown ever more invaluable.

Madam Speaker, Roz and Murray are the true essence of community leaders. I know I speak not only for myself, but for my family and so many throughout South Florida in congratulating them on reaching this milestone. I wish Roz and Murray many more happy and healthy years together and thank them for having such an impact on my life and that of so many they have come to know.

HONORING THE HARPER J. RANSBERG YMCA FOR 50 YEARS OF SERVICE

HON. ANDRÉ CARSON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. CARSON of Indiana. Madam Speaker, I rise today to honor the Harper J. Ransburg YMCA for 50 years of service to the Indianapolis community.

The Ransburg YMCA facility, which seeks to strengthen the mental, physical and spiritual well-being of its members, is a cornerstone on the Indianapolis Eastside that has responded to the critical social needs of its residents for decades. The legacy of this community center is as diverse as its 9,500 members, touching the lives of individuals of every age and background.

In addition to promoting better health and wellness, the Ransburg YMCA has provided an environment for families and for individuals to build strong bonds to become dynamic and engaged citizens. Through its child outreach programs, this YMCA has sought to reinforce positive values and foster the commitment for community service amongst children.

It is important to mention that the Ransburg YMCA would not have reached this milestone without its dedicated staff, volunteers and community members. I would like to salute them for the hard work and support that made this milestone possible.

I ask my colleagues to join me congratulating the Harper J. Ransburg YMCA as it celebrates its 50th anniversary and hope that the next 50 years bring this center, and the Indianapolis Eastside community, continued success.

EARMARK DECLARATION

HON. JOE BARTON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BARTON of Texas. Madam Speaker, I submit documentation consistent with the Republican Earmark Standards.

Requesting Member: Congressman JOE BARTON

Bill Number: H.R. 2996—FY10 Interior, Environment and Related Agencies Appropriations Bill

Account: Capital Improvement and Maintenance (construction)

Legal Name of Receiving Entity: Davy Crockett National Forest

Address of Receiving Entity: 18551 State Highway 7 East, Kennard, TX 75847–7207

Description of Request: I have secured $475,000 in funding in H.R. 2996 in the Capital Improvement and Maintenance account for the Davy Crockett National Forest.

The funding would be used for developing a detailed site plan, redesigning and upgrading the camping loops, utilities, control systems, facilities, road and parking improvements as well as repairing the historic Dam and spillway.

HONORING THE MINNESOTA NATIONAL GUARD AT THE DISABLED VETERANS REST CAMP, MARINE ON SAINT CROIX, MINNESOTA

HON. MICHELE BACHMANN

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mrs. BACHMANN. Madam Speaker, those who return home after serving our Nation, often changed and scarred by their experiences, deserve special recognition and honor. The Disabled Veterans Rest Camp at Marine on St. Croix provides a sanctuary and gathering place for veterans and their families to connect and heal with one another. I rise today, Madame Speaker, to honor the members of the Minnesota National Guard who have spent the past weeks helping to restore the Disabled Veterans Rest Camp so military families from across the Nation can continue to enjoy its tranquility.

For the last several weeks, the Guard has volunteered their time and engineering expertise as part of their training to restore buildings, update facilities and address the needs that come with a nearly century-old campsite. I applaud these Guardsmen and women for giving back to their fellow uniformed service members. I also want to thank our Croatian allies that are sharing in this joint deployment with the Minnesota Guard. We are very grateful that they are able and willing to help our American veterans.

The site started as a camp for World War I disabled veterans in 1926 and has seen expansion and contraction over the years. I first became familiar with it as a State Senator when it faced potential demise in 2005—a fate I was proud to have had at least a small hand in defeating. Maintaining this camp—which has a treasured place in my heart, as do the veterans it serves—as a place for disabled veterans to call their own is one of my proudest moments in my public service career.

A board of representatives from veterans' organizations runs the site and is actively involved in preserving the purpose of the camp. Madam Speaker, I rise today to honor the Minnesota Guard for paying it forward to the men and women who have sacrificed so much for our country. The tireless hours they have given at the Veterans Rest Camp are just one representation of our duty to our veterans—to serve them with gratitude and respect. We should all take these citizen-soldiers' example to heart each day, as we live in a free and prosperous land and owe it all to our veterans.

CELEBRATING THE LOS ANGELES LAKERS 2009 NBA CHAMPIONSHIP

HON. MAXINE WATERS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Ms. WATERS. Madam Speaker, today I am introducing a resolution ''Celebrating the Los Angeles Lakers 2009 NBA Championship''. This legislation will commemorate the Los Angeles Lakers 15th National Basketball Association Championship. Prior to the 2008–2009 season, the Lakers won 14 National Basketball Association (NBA) championships, with a cast of Hall of Fame players and coaches, which included NBA greats such as Jerry West, Wilt Chamberlain, Earvin ''Magic'' Johnson, Kareem Abdul-Jabbar, Shaquille O'Neal, Pat Riley, and current head coach Phil Jackson.

This season Kobe Bryant, Lamar Odom, Derek Fisher, and Pau Gasol led the 2008–2009 Lakers to a 65–17 regular season record and the #1 spot in the Western Conference Playoffs. The Lakers entered the NBA playoffs with home court advantage as a result of the team's regular season performance. In the first round the Lakers defeated the Utah Jazz in 5 games to advance to the Western Conference semifinals. The Lakers then faced the Houston Rockets in the Western Conference semifinals, winning in 7 games; advancing to the Western Conference Finals where they faced the Denver Nuggets.

The Lakers clinched the Western Conference finals in 6 games, thanks to the outstanding play by Pau Gasol and Kobe Bryant, which closed out the series. In the NBA Finals, the Lakers matched up with the Orlando Magic, led by Dwight Howard. The Lakers won the first 2 games of the finals in Los Angeles, including a hard-fought Game 2 during which Kobe Bryant and Pau Gasol combined for 53 points propelling the Lakers to a 101–96 victory. The Lakers lost Game 3 in Orlando by a score of 108–104; however, Lakers' guard Kobe Bryant scored 31 points and played all but 8 minutes of the game. The Lakers followed their loss in Game 3, by winning the next two games in Orlando to win the 2009 NBA Championship.

For his outstanding play during the NBA Finals, Lakers' guard Kobe Bryant was presented with the Bill Russell NBA Finals Most

Valuable Player Award; and his fourth NBA Championship. Lakers head coach Phil Jackson, won his 10th NBA Championship as a head coach and his 12th NBA Championship overall. Congratulations to the Lakers players, coaches, and staff on winning the 2008–2009 NBA Championship.

HONORING CITY OF OAKLAND PARK

HON. DEBBIE WASSERMAN SCHULTZ

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Ms. WASSERMAN SCHULTZ. Madam Speaker, it is with great pride that I rise today to recognize the 80th anniversary of the City of Oakland Park in Florida's 20th Congressional District.

This once sleepy little town that was home to mostly farmers is now a bustling city with more than 43,000 residents.

Oakland Park is one of the older municipalities in Broward County. In fact, it was originally chartered as the town of Floranada in 1925.

But in September 1926 a hurricane devastated the area. In 1929, city leaders renamed it Oakland Park after the massive oaks that lined the community.

Residents and visitors can tour a piece of history always on display in this fine city. A portion of its oldest elementary school, Oakland Park Elementary School, is a nationally registered historical site. The school was built in 1927 and is the oldest school in continuous operation in Broward County.

The city is also at the forefront of innovation in Florida. It was the first municipality in the state to organize a public safety department. Oakland Park was also the first City to initiate a recycling program.

Madam Speaker, I thank Mayor Steven Arnst, the Members of the City Commission, and the city's staff for their many accomplishments that have made the City of Oakland Park a wonderful place to live, work and raise a family.

EARMARK DECLARATION

HON. J. RANDY FORBES

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. FORBES. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, the National Defense Authorization Act of 2010.

Requesting Member: Congressman J. RANDY FORBES

Bill Number: H.R. 2647

Account: Research and Development, Defense Wide, Joint Experimentation

Legal Name of Requesting Entity: Office of Commonwealth Preparedness, Commonwealth of Virginia

Address of Requesting Entity: Patrick Henry Building, 1111 East Broad Street, Richmond, VA 23218

Description of Request: Provides $2,700,000 for a Tidewater Full-Scale Exercise, to enhance the Commonwealth of Virginia's interdiction, response and recovery capabilities to a WMD event through the conduct of a multi-agency, maritime Full-Scale Exercise, utilizing the experience and unique capabilities of the U.S. Naval Postgraduate School's Center for Asymmetric Warfens (CAW) and Old Dominion University's Virginia Modeling, Analysis and Simulation Center (VMASC).

Requesting Member: Congressman J. RANDY FORBES

Bill Number: H.R. 2647

Account: Military Construction

Legal Name of Requesting Entity: Fort Lee

Address of Requesting Entity: 3901 A Avenue, Fort Lee, VA, 23801

Description of Request: Provides $5,000,000 in the Defense Access Road (DAR) Program which provides a means for the military to pay a share of the cost of public highway improvements necessary to mitigate an unusual impact of a defense activity. This project would fund a roundabout at Adams Avenue at the entrance to Fort Lee to alleviate traffic congestion and improve vehicular and pedestrian safety, following the installation's growth resulting from the 2005 BRAC Round.

INTRODUCING THE FOREIGN ADOPTED CHILDREN EQUALITY ACT OF 2009

HON. JOHN BOOZMAN

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BOOZMAN. Madam Speaker, today my colleague Rep. DIANE WATSON and I are introducing the Foreign Adopted Children Equality Act of 2009. This bicameral, bi-partisan bill is designed to improve upon the Child Citizenship Act of 2000, which was enacted to provide automatic U.S. citizenship to internationally adopted children of American citizens.

International adoption has been a rewarding experience for many families across the United States. However, it is a process that is stressful, complicated, and costly. The FACE Act is intended to cut through some of the paper work and to treat internationally adopted children as we treat children born abroad to American citizens.

Under the Child Citizenship Act, an internationally adopted child of a U.S. citizen receives U.S. citizenship once the child enters the U.S. to reside permanently. Once in the U.S., the child then has to go through the naturalization process. The FACE Act is intended to improve this process in many ways.

First, it would amend the CCA so that once an international adoption is completed by an American citizen and the adopted child is determined to be adoptable under U.S. law, citizenship would attach. Therefore, instead of parents having to apply for a costly visa to bring their newly adopted child home to the United States, they would apply for a U.S. passport and Consular Report of Birth, making the process that of what is required from American citizen parents whose child is born while abroad. Passports are much less expensive than visas, and once in the U.S., the passport and Consular Report of birth would serve as proof of U.S. citizenship streamlining the application process for a social security card, filing for the adoption tax credit or even enrolling the child into school thus eliminating additional paperwork burdens for these new parents.

In addition, the FACE Act allows for internationally adopted children who are now over the age of 18 and who were not naturalized by their adoptive parents, to apply for and receive citizenship without going through the naturalization process, if they so desire. Unfortunately there are many cases where adoptive parents failed to naturalize their internationally adoptive children prior to their 18th birthdays and prior to passage of the CCA in 2000. Many of these children grow up believing they are U.S. citizens only to find out they are not when they try to register to vote, enlist in the military, or apply for college. There are even cases of these children being deported to their country of origins, where they do not speak the native language nor know the culture, for committing misdemeanors. This act seeks to rectify this situation and give these children the privilege of two heritages—that of their country of origin and of their new home, the United States.

Finally, this act seeks to amend Section 301 of the Immigration and Nationality Act, the section of law that provides U.S. citizenship from birth to biological children of American citizens who are born abroad. The FACE act would add internationally adopted children of American citizens to this section providing them citizenship from birth. Thus, internationally adopted children would be given the same opportunities given to American children born abroad, such as the chance to run for President.

Together, these changes would finally treat internationally adopted children of American citizens as children of American citizens instead of as immigrants and would provide them equality with biological children born abroad to American citizens.

A SPECIAL TRIBUTE TO EDWIN G. SUAREZ

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. RANGEL. Madam Speaker, I rise with great sadness as I remember the life of my good friend and former Rangel Staff Alumni, Edwin G. Suarez. As I speak with profound sorrow, I ascend to celebrate a life well lived and to remember with fondness the accomplishments of a remarkable man who, over his many years, etched his name in history as a visionary and innovator who enriched and transformed housing projects and programs in my beloved East Harlem and the City of New York.

Edwin, a man whose life, to a remarkable degree, embodied the reverie of the American dream, was a great man of distinction which reflected his grand Puerto Rican heritage.

Born on August 13, 1940, Edwin was a longtime community leader who devoted many years to the betterment of East Harlem. He was born and raised in Manhattan, as the only son of Avelino Suárez and Julia González Suarez and dedicated his live to giving back to his beloved city as an urban planner dedicated to doing his part to ensure safe and affordable housing for all.

In his capacity as a housing manager for the City of New York, and with the NAACP as a sponsor, Edwin was able to travel the world in order to confer with his counterparts in great urban centers, including those in Japan, Ecuador, Italy, France, Holland and Scandinavia. He returned from these fact-finding missions with critical information used to improve the various housing projects and programs in New York City's East Harlem community.

Edwin proceeded to touch more lives when he entered the political arena as an elected District Leader of the 68th New York State Assembly District, Part B. He also served as my Special Legislative Assistant and served as my Congressional Liaison to my East Harlem constituents, a position he served with a tremendous sense of professionalism. He went on to serve on numerous community and municipal boards, including President of the Metro North Housing and Development Corporation, and Vice President of the Union Settlement Federal Credit Union.

The death of Edwin Suarez on June 20, 2006, brought immense sorrow and loss to his family and friends, countless community leaders and colleagues in government, and me personally. He is survived by his three children, Darlene Suárez Casey, Edwin Suárez II and Desiree J. Suárez; his only grandchild, Jasmine Suárez Osorio van Wijgerden, and his former wife, Josephine Suárez Reyes. Such a benevolent amalgamation of intellect, steadfastness, and vigor as that demonstrated by Edwin over a lifetime of sacrifice and dedication to others will greatly be missed.

This past weekend, on June 20, 2009, Edwin was memorialized by those that loved and cherished him with the renaming of the Northwest corner of East 101st Street and First Avenue in my district. It is my hope that this act will help preserve the memory of this remarkable man, not only for the benefit of those who knew him but for all who value the promise of America.

EARMARK DECLARATION

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. ROGERS of Alabama. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892—Department of Homeland Security Appropriations Act, 2010.

Requesting Member: Congressman MIKE ROGERS (AL)

Bill Number: H.R. 2892

Account: FEMA, State and Local Programs

Legal Name of Requesting Entity: Center for Domestic Preparedness

Address of Requesting Entity: Fort McClellan, Anniston, Alabama 36202

Description of Request: ''Center for Domestic Preparedness—$40,000,000'' Taxpayer justification—It is my understanding that the funding would be used by the Center for Domestic Preparedness in order for it to continue to provide the highest quality all hazards training to first responders from around the nation and world to ensure that they have the necessary skills to keep their communities safe. This is a Federal training facility.

Requesting Member: Congressman MIKE ROGERS (AL)

Bill Number: H.R. 2892

Account: FEMA, State and Local Programs

Legal Name of Requesting Entity: Town of Shorter, Alabama

Address of Requesting Entity: 2521 Old Federal Road, Shorter, Alabama 36075

Description of Request: ''Emergency Operations Center—$500,000'' Taxpayer justification—It is my understanding that the funding would be used to help provide emergency services to the citizens of Shorter, Alabama. Shorter is a small community in Macon County and as it develops economically it needs to be able to provide coordinated emergency services. This project will enhance community safety by allowing improved communications and coordination between first responders.

PERSONAL EXPLANATION

HON. DEAN HELLER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. HELLER. Madam Speaker, on rollcall No. 417, Article III of impeaching Samuel B. Kent, I was unavoidably detained.

Had I been present, I would have voted ''yea''.

EARMARK DECLARATION

HON. C. W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. YOUNG of Florida. Madam Speaker, pursuant to the House Republican Standards on Congressional appropriations initiatives, I am submitting the following information regarding projects that were included at my request in H.R. 2996, the Fiscal Year 2010 Department of Interior, Environment and Related Agencies Appropriations Bill:

Clearwater Wastewater Biosolids Project–

Account: Environmental Protection Agency, State and Tribal Assistance Grants Infrastructure Grants

Legal name and address of requesting entity: City of Clearwater, 112 S. Osceola Avenue, Clearwater, FL 33756

Description of request: $500,000 is included in the bill for the City of Clearwater to upgrade its wastewater treatment plant by making biosolids improvements; headworks repairs; renewal and replacement of gravity sewer lines, force mains, and pumping stations; pump station compliance; generator replacement at the wastewater treatment plant; and reclaimed water. Previous federal funding for this project is as follows: FY 2002—$900,000, FY 2003—$450,000, FY 2005—$500,000, and FY 2008—$500,000.

EARMARK DECLARATION

HON. JOHN FLEMING

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. FLEMING. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting information regarding the following earmarks I received as part of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010. I hereby certify that neither I nor my spouse has any financial interest in these projects.

Congressman JOHN FLEMING

H.R. 2647, National Defense Authorization Act for Fiscal Year 2010, Title I, Acct: APA, Line: 26

Intended Recipient: Sikorsky Aircraft Corporation, Stratford, CT

UH–60A to UH–60L Upgrade for the Army National Guard, $20.4 M, FY10 funds would provide for critical avionics upgrades to modernize Army National Guard Black Hawk medium-lift utility helicopters.

Congressman JOHN FLEMING

H.R. 2647, National Defense Authorization Act for Fiscal Year 2010, Title XXIII, Acct: MCA, Line: N/A

Intended Recipient: Fort Polk, Leesville, LA

Multipurpose Machine Gun Range, $6.4 M, FY10 funds would provide for the construction of a standard design Multi-Purpose Machine Gun Range, required to train and test soldiers on the skills necessary to detect, identify, engage and defeat targets in a tactical environment. Fort Polk does not currently have a suitable training area that meets the requirements needed for machine gunnery. Without this facility, the soldiers of Fort Polk, Reserve, and National Guard units will not be able to maintain efficiency for live fire training for machine gun engagements.

EARMARK DECLARATION

HON. JUDY BIGGERT

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mrs. BIGGERT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

Requesting Member: U.S. Representative JUDY BIGGERT

Bill Number: H.R. 2996

Account: STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: Naperville Heritage Society

Address of Requesting Entity: 523 S. Webster Street, Naperville, IL 60540

Description of Request: Provide an earmark of $500,000 to improve drainage and management of storm water at Chicagoland's only nationally accredited outdoor history museum. This request will improve the water quality in the DuPage River watershed by mitigating the impact of storm water on Naper Settlement's grounds and in the surrounding neighborhoods.

THE SPECTRUM RELOCATION IMPROVEMENT ACT OF 2009

HON. JAY INSLEE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. INSLEE. Madam Speaker, I rise today to announce the introduction of the Spectrum Relocation Improvement Act of 2009 along with my colleagues, Mr. UPTON of Michigan and Mr. BOUCHER of Virginia. This bipartisan bill reforms the Commercial Spectrum Enhancement Act (CSEA) to make the current spectrum relocation process more transparent and reduce relocation risks for federal agencies and those interested in bidding in future auctions of federally encumbered spectrum.

Washington State is a leader in the technology industry. It is home to companies large and small that are producing the most cutting edge Internet service technologies that benefit not only my constituents in the first District, but Washington State and the country as a whole. However despite the innovative efforts going on in Washington, and across the country, the United States ranks 15th in broadband adoption of 30 Organization for Economic Cooperation and Development (OECD) countries; a ranking that President Obama has called ''unacceptable.''

Investment in broadband infrastructure and services is a necessary economic driver, and the American Recovery and Reinvestment Act allocated $7.4 billion dollars to aid the build out of our nation's broadband infrastructure over current spectrum, to unserved and underserved communities. This investment demonstrates the importance of broadband services, not only for America's economic recovery, but its ongoing prosperity.

Meeting the broadband infrastructure objectives desired by the American people and outlined by President Obama will require the allocation of additional spectrum for commercial use. In order for consumers to experience the next generation of voice and broadband wireless services, the government must identify more sources of spectrum. Once the government has auctioned spectrum to carriers, it is in everyone's interest to see that consumers benefit from new services as quickly as possible.

In 2006, the Federal Communications Commission's Advanced Wireless Services (AWS) spectrum auction demonstrated that spectrum auctions can finance (1) all the Federal costs associated with clearing spectrum for commercial use, (2) enhance critical Federal communications capabilities and 3) raise revenue for the Treasury. The AWS auction raised $13.7 billion from wireless companies. That figure included roughly $1 billion to relocate federal communications systems for 12 federal agencies that had been operating in those spectrum bands. Originally, the agencies were slated to clear out of the affected spectrum by March 2010.

While relocation practices and procedures worked well for 10 of the 12 agencies involved, unforeseen problems affecting some agencies took more than a year to resolve and threatened to undermine the spectrum relocation process that the House Energy & Commerce Committee, the Department of Commerce, and the Office of Management and Budget worked for several years to implement. This bill is designed to improve the relocation process for all parties involved and address the problems that surfaced during the AWS relocation process.

Fundamentally, the Spectrum Relocation Improvement Act (1) increases the amount and quality of information available to potential bidders before an auction occurs, and (2) expedites the flow of auction proceeds to the relocating agencies to keep the relocation process on track. I am convinced that more complete information about the affected federal agencies' systems, their relocation cost estimates, and schedules reduces risks for potential bidders and ensures that commercial users' bids in future spectrum auctions more fully reflect the market value of the spectrum at auction.

In my home State of Washington we are already seeing the consumer and economic benefits of the AWS auction. T-Mobile, headquartered in Bellevue, WA, has rolled out 3G broadband service in Seattle, with 560 3G base stations, and by year's end will have built out over 900 3G base stations. This investment is adding to the local economy and job market, while providing services to customers. The company expects to deliver services to an additional 2,721,987 customers by year's end.

But this issue is not only about large companies like T-Mobile, it is about small and regional carriers that provide innovative and affordable services to consumers and often face challenges, relative to the larger carriers, in raising capital in order to bid on FCC licenses.

One successful AWS bidder—Cricket—has been in Washington State for eight years and serves a constituency often not reached by the larger carriers. Cricket provides flat-rate unlimited voice and broadband service to consumers without a long-term contract or early termination fee. Nearly half of Cricket's wireless broadband subscribers had never before subscribed to Internet service—not even dial-up.

This legislation will help ensure that customers, like Cricket's, will get to take advantage of not only the first generation of broadband services, but those still to come; and will provide the necessary structure to make sure that the next spectrum auction is successful for consumers, industry, and government.

I am pleased to introduce this legislation along with my colleague Mr. UPTON who played a major role in drafting the Commercial Spectrum Enhancement Act, and with the distinguished Chairman of the Subcommittee on Communications, Technology and the Internet, Mr. BOUCHER.

EARMARK DECLARATION

HON. DOC HASTINGS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. HASTINGS of Washington. Madam Speaker, to provide open disclosure, I am submitting the following information regarding projects that I support for inclusion in H.R. 2892, the Department of Homeland Security Appropriations Act for 2010.

Amount: $12 million

Account: Department of Homeland Security—Science and Technology Directorate Account: Research, Development, and Operations—Laboratory Facilities.

Entity receiving funds: The U.S. Department of Energy's Pacific Northwest National Laboratory (PNNL) located at P.O. Box 999, Richland, WA 22352.

Description: Existing PNNL facilities located in the 300 Area of the Hanford federal nuclear site in Washington state are scheduled for demolition and cleanup by 2010. PNNL capabilities housed in the 300 Area—nearly half of the PNNL's total lab space—support critical national security initiatives. PNNL's lab space supports the Department of Energy (DOE), the Department of Homeland Security (DHS), the intelligence community and other customers, including critical non-proliferation and weapons of mass destruction (WMD) detection work for the National Nuclear Security Administration (NNSA) and DHS.

In Fiscal Year 2005, a joint team of DOE Office of Science, NNSA, and DHS officials formed to plan new lab space for PNNL—known as the CRL. These funds would fulfill DHS's commitments under the Memorandum of Understanding it signed and keep the project on schedule for completion.

EARMARK DECLARATION

HON. RODNEY P. FRELINGHUYSEN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. FRELINGHUYSEN. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding a request for funding I made of the House Armed Services Committee for inclusion in H.R. 2647 the National Defense Authorization Act for Fiscal Year 2010.

Specifically, the project will be included in Division B, Title XXI, Military Construction—Army.

H.R. 2647 includes $10.2 million for Phase 2 of the Ballistic Evaluation Facility in the Fiscal Year 2010 National Defense Authorization Act. The entity to receive the funding for this project is the United States Army, specifically the Armament Research Development and Engineering Center (ARDEC) located at Picatinny Arsenal, Picatinny, New Jersey 07806–5000.

The actual design and construction will be executed by the U.S. Army Corps of Engineers.

The funding will be used for planning, design and construction of a state-of-the-art Ballistic Experimentation Facility (BEF) for Large Caliber Armaments at Picatinny Arsenal. This process will produce a one-of-kind research and testing facility which will reduce Army's operational overhead and maintenance costs and improve safety for Army employees. The use of U.S. taxpayer funding is justified because this construction will provide near-term and long-range benefits to the joint warfighter—Army, Marines, Navy and Air Force.

EARMARK DECLARATION

HON. MICHAEL K. SIMPSON

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. SIMPSON. Madam Speaker, in accordance with the policies and standards put forth by the House Armed Services Committee and the GOP Leadership, I list the congressionally-directed projects I have requested in my home state of Idaho that are contained in the report of HR 2647, the National Defense Authorization Act for Fiscal Year 2010.

Project Name: Civil Engineer Maintenance Complex at Mountain Home Air Force Base

Amount Requested: $690,000

Account: Air Force Military Construction Account

Recipient: 366th Wing, Mountain Home Air Force Base, Idaho

Recipient's Street Address: 366 Gunfighter Avenue, Ste 107, Mountain Home Air Force Base, Idaho 83648

Description: The civil engineer functions are currently dispersed among 10 WWII–era wood-frame and Korean war-era facilities. Wood frame facilities have a RAC 2 due to failing roof structures and cracked and spreading concrete foundations that have contributed to failing floors and trusses, presenting risk to squadron members who work in the facilities. Currently, employees must evacuate during heavy snowfall or high winds. The fire safety deficiencies are endemic to all buildings, the patchwork electric wiring is maxed out, which increases fire risk, and the HVAC systems can't keep buildings heated and cooled. The dispersed locations and failing conditions of existing facilities adversely affect all daily Civil Engineering operations and negatively impacts the Wing's mission.

I appreciate the opportunity to provide an explanation of the project that was included in the report accompanying the FY2010 Defense Authorization bill on behalf of Idaho and provide an explanation of my support for it.

EARMARK DECLARATION

HON. FRANK A. LoBIONDO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LoBIONDO. Madam Speaker, as per the requirements of the Republican Conference Rules on earmarks, I secured the following earmarks in H.R. 2467.

Requesting Member: Congressman FRANK LoBIONDO (NJ–02)

Bill Number: H.R. 2467

Account: Air Force, Military Construction, Air National Guard

Legal Name of Requesting Entity: 177th Fighter Wing

Address of Requesting Entity: 400 Langley Road, Egg Harbor Township, NJ 08234

Description of Request: Provide an earmark of $1.7 million for the construction of a properly sited, adequately sized, and configured functional space to support conventional munitions administration, training and maintenance in support of 18 PAA F–16 aircraft to better enable the 177th to perform its Air Sovereignty Alert mission in defense of the homeland.

Requesting Member: Congressman FRANK LoBIONDO (NJ–02)

Bill Number: H.R. 2467

Account: Army—Research, Development, Test, and Evaluation

Legal Name of Requesting Entity: (1) Drexel University (2) Waterfront Technology Center

Address of Requesting Entity: (1) 3141 Chestnut Street, Philadelphia, PA 19104 (2) 200 Federal Street, Suite 300, Camden, NJ 08103

Description of Request: Provide an earmark of $7.0 million for Applied Communications and Information Networking (ACIN). ACIN enables the warfighter to rapidly deploy state-of-the-practice communications and networking technology for warfighting and National Security. This funding will build on funding from previous years to fully develop this technology.

Requesting Member: Congressman FRANK LoBIONDO (NJ–02)

Bill Number: H.R. 2467

Account: Air Force—Research, Development, Test, and Evaluation

Legal Name of Requesting Entity: Accenture

Address of Requesting Entity: 200 Federal Street, Suite 300, Camden, NJ 08103

Description of Request: Provide an earmark of $7.0 million for Distributed Mission Interoperability Toolkit (DMIT). DMIT is a suite of tools that enables an enterprise architecture for on-demand, trusted, interoperability among and between mission-oriented C41 systems. This spending will build on funding from previous years to allow DMIT to be extended to Joint and coalition requirements, and address current weaknesses in Air Force management years ahead of current schedules. Adoption by major programs and commercial entities would lead to savings in the $100 millions on current and future DOD programs.

Requesting Member: Congressman FRANK LoBIONDO (NJ–02)

Bill Number: H.R. 2467

Account: Navy—Research, Development, Test, and Evaluation

Legal Name of Requesting Entity: Absecon Mills, Inc.

Address of Requesting Entity: Vienna and Aloe Avenues, PO Box 672, Cologne, NJ 08213

Description of Request: Provide an earmark of $3.586 million for Force Protection—Non-Traditional Weaving Application for Aramid (Ballistic) Fibers and Fabrics. By reevaluating standard Industry design and manufacturing techniques for force protection technology, we believe Non Traditional weave designs of Aramid (ballistic) fiber coupled with new applications of microwave plasma treatments can enhance the strength of the fiber and result in enhanced individual mobility, ease of medical access, reduced weight, increased ballistic protection, cost effective savings and weight reduction of ballistic materials currently used

Requesting Member: Congressman FRANK LoBIONDO (NJ–02)

Bill Number: H.R. 2467

Account: Air Force—Advance Procurement

Legal Name of Requesting Entity: L–3 Communications Systems

Address of Requesting Entity: 1 Federal Street, Camden, NJ 08103

Description of Request: Provide an earmark of $4.0 million for Senior Scout COMINT (Communications Intelligence) Capability Upgrade. As part of the Senior Scout ongoing mission, there is an immediate need to add improved COMINT capability to detect and characterize new, modern, low-power radio signals at extended standoff ranges in the presence of interference. The current systems are not able to detect these specific signal sets, which limits intelligence collection capabilities.

Requesting Member: Congressman FRANK LoBIONDO (NJ–02)

Bill Number: H.R. 2467

Account: Army—Research, Development, Test, and Evaluation

Legal Name of Requesting Entity: Price Systems, LLC

Address of Requesting Entity: 17000 Commerce Parkway, Suite A, Mt. Laurel, NJ 08054

Description of Request: Provide an earmark of $5.0 million for Software Lifecycle Affordability Management (SLAM). The Software Lifecycle Affordability Management (SLAM) project provides decision makers a means to understand cost tradeoffs in relation to both performance and Total Cost of Ownership (TCO). Development of the SLAM Service Oriented Architecture Cost Model (SOA–CM) enables the Army to determine which software lifecycle design/strategies realizes the greatest number of capabilities for the lowest possible cost, following the best possible schedule.

EARMARK DECLARATION

HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. HUNTER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, National Defense Authorization Act for Fiscal Year 2010:

I requested $3,000,000 for Trex Enterprises at 10455 Pacific Center Court, San Diego, CA 92121. Funding for this program will be used to complete development, flight testing and integration of the Brownout MMW Sensor that will reduce aircraft accident risk and allow aircrew visibility through the full range of landing and take-off operations in otherwise extremely hazardous flight conditions. ''Brownout'' is a situation Army aviators experience in combat

operations daily in Iraq and Afghanistan. Created by helicopter rotor downwash, it continues to cause aircraft accidents and remains a high risk to flight safety.

Specifically, as aircraft approach the ground, a thick plume of brown desert dust, dirt and sand disturbed by high velocity winds from rotor systems engulf the aircraft, causing a complete loss of the pilot's visual reference to the ground. The Brownout Situational Awareness Sensor (BSAS) is a cockpit display system capable of providing the aircrew visibility through the blowing sand and dust. This technology will greatly reduce the loss of aviator lives, loss of aircraft and reduce the amount of maintenance requirements resulting in damages from Brownout situations. Brownout is among the biggest hazards to rotary-wing operations in Iraq and Afghanistan, contributing to more than 71 U.S. helicopter accidents. Providing this capability is critical to aircrew safety and combat readiness.

I also requested $1,000,000 for CHI Systems at 12860 Danielson Court, Suite A, Poway, CA 92064. There is currently insufficient training provided to soldiers on the most crucial battlefield lifesaving situations. Medics and soldiers, in many instances, lack the experience to act swiftly and effectively in combat casualty situations. By combining instrumented manikin parts that support hands-on practice with computer based scenario training, this funding will complete the HapMed Combat Medic Trainer development and provide medics and soldiers the ability to practice critical lifesaving tasks. In addition to providing realistic training scenarios, HapMed is also portable, so soldiers can continue to train while they are deployed. This system has received high praise in its ability to train soldiers for medical treatment on the battlefield. According to a Science and Technology Manager for the Army, ''New technologies such as HapMed are needed to provide medics with greater opportunities to develop and test their decision making and technical medical skills.''

New Army recruits must receive training in Buddy Aid or as Combat Life Savers (CLS). Currently, insufficient training is provided to help soldiers and medics acquire and maintain some of the crucial battlefield lifesaving skills such as tourniquet application, needle chest decompression, and emergency cricothyrotomy, addressing, respectively, the top three causes of preventable death on the battlefield. In order to perform these lifesaving functions under battlefield conditions, military personnel must have the awareness and confidence to act swiftly and effectively.

Further, I requested $3,000,000 for Cubic Solutions at 5650 Kearny Mesa Road, San Diego, CA 92111. The Navy's carriers and large-deck amphibious assault ships serve as the flagships of battle groups and expeditionary forces. Commanders receive intelligence, reconnaissance, and surveillance (ISR) data from airborne manned and unmanned sensor vehicles via the ships' AN/USQ–167 Communications Data Link System (CDL–S) terminals. The AN/USQ–167 securely transports many forms of classified data, including voice communications, tactical data, photographs, and streaming video, using the NSA-approved KI–11 COMSEC equipment. The KI–11 is based on an encryption device that is no longer available. This initiative will fund a KI–11 replacement based on a new, interoperable, NSA-approved device.

Kinetic energy penetrators fabricated from tungsten offer a means to gain 40% more kill depth if nanoscale tungsten is consolidated to full density with retention of the small crystal sizes during consolidation. It is for this reason that I requested $2,000,000 for San Diego State University Research Foundation at 5250 Campanile Drive, San Diego, CA 92182. This funding will provide the Army the material that will ensure larger stand-off distances in battle (lethal to the enemy while our troops are beyond the lethal zone), earlier kinetic energy kills of incoming missiles, and more armor penetrations events. The current depleted uranium materials are toxic and need to be removed from the battlefield. For example, to avoid poisoning surgery is required on any friendly troops struck by fragments. Dual use applications are outstanding—from automobile vibration suppression to high thermal conductivity heat sinks in computers. For example, wireless telephone networks use tungsten-copper composites to improve heat removal from relay stations to improve performance.

I requested $1,000,000 for Allermed Laboratories, Inc at 7203 Convoy Court, San Diego, CA 92111. Leishmaniasis is a parasitic disease that occurs in many areas of the world in which U.S. Military personnel are deployed. Over 2500 service personnel were diagnosed with leishmaniasis in Iraq and Afghanistan during the present conflict. Funding this program will result in the development of a biological product that meets the specifications of the FDA and the DoD. A phase 1 safety trial was completed in 2007; a phase II dose-response study and sensitivity study were conducted in Tunisia and completed in 2008; a phase IIb trial is presently being conducted in San Diego, CA and will be completed in June 2009. In this trial, the sensitizing properties of the skin test doses that were used in the 2008 Tunisia trial are being evaluated.

The Navy is challenged to conduct ASW localization and small-area search operations in shallow water littoral areas against emerging modern, diesel-electric submarines and these new submarines provide a minimal noise signature making them virtually undetectable to acoustic arrays under many circumstances. $2,000,000 for Information Systems Laboratories at 10070 Barnes Canyon Road, San Diego, CA 92121 will address this issue. The Navy's answer to the quiet diesel-electric submarine localization problem is to rely on active sensors. Active sensor performance in the littorals, however, suffers degraded detection ranges from reverberation and alerts the submarine, enabling it to undertake countermeasures to avoid detection. Recent developments in miniaturization of low cost, low power electromagnetic sensor technology offers new potential for employing non-acoustic sensors to increase the Navy's capability for tactical surveillance, localization, and classification of quiet, modern diesel-electric submarines.

This funding will develop multiple small and inexpensive non-acoustic sensors, or clusters, packaged into ''A'' size buoys, the size buoy currently being used by U.S. Anti-Submarine Warfare (ASW) airborne assets, which will be demonstrated under this program. This revolutionary ''cluster approach'' is a development that promises to be equally effective in both the open ocean and the littoral against the evolving threat. A-size sonobuoy launch containers can be designed to deploy the mini-sensors in linear arrays, or clusters, depending on the mission. Ongoing electric-field detection technology research has already demonstrated promising near-term solutions and passive ''A''-size air dropped buoy concepts are ready for TRL7/8 demonstration in FY 2009.

Finally, I also requested $5,000,000 for MBDA at 5701 Lindero Canyon Road, Suite 4–100, Westlake Village, CA 91362. This funding will develop for the Navy an innovative missile solution for its requirement for an Affordable Weapon System (AWS) capable of operating from ships and with a potential Navy/USMC airborne launch capability. AWS will defeat targets at stand-off ranges, rapidly completing the engagement phase with a capability to loiter in a target area. The Navy is looking for an AWS that can kill a variety of target sets to include Strategic Fixed, Strategic Mobile, Tactical, Maritime and importantly, Irregular Warfare/Global War on Terrorism targets. Typically these include mobile land and sea targets, time critical targets, and targets of opportunity such as terrorist leadership meeting facilities, mobile missile launchers, communication nodes and weapons caches. AWS is packaged in the existing shipboard Mk–41 Vertical Launch System as a ''quad-pack'' missile which offers a four-to-one load-out advantage over the existing weapon system to provide combatant commanders the capability to carry a deeper magazine and strike many more targets. AWS also utilizes conventional, low-cost airframe materials and electronics in combination with flexible swarming cooperative attack algorithms to overwhelm and defeat these targets within their range of undefended to heavily defended threat environments. AWS will have a flyaway cost of $250K, less than a third the cost of the existing shipboard strike weapon system.

HONORING OFFICER GARLAND C. THOMPSON

HON. MARIO DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, today I rise to honor one of Capitol Hill's most devoted and beloved public servants, Officer Garland C. Thompson, who next Tuesday the 30th will serve his last day as a Member of the Capitol Police Service.

Officer Thompson has served this great institution with dignity and honor for 34 years, joining the Capitol Police Service on June 9, 1975, after working as a fingerprint examiner for the FBI.

On September 11th Officer Thompson was one of the first Capitol Police Officers to act. He witnessed a low flying plane over the Capitol, which later was identified as the plane that crashed into the Pentagon. From that first instance, Officer Thompson acted quickly and assertively, escorting frightened citizens, Members of Congress and their families to safe locations. On that devastating day, Officer

Thompson and his fellow officers put their own lives at risk by forming a perimeter around the building, using their bodies as a shield against an unpredictable enemy.

Officer Thompson is a true hero to us all, putting his life on the line every day for the last 34 years to protect and defend this great institution. Officer Thompson is truly the ''King of Capitol Traffic.''

Whether it's his friendly smile, trademark slogans, such as ''Remember Capitol Hill is a law making area, not a law breaking area,'' or his guidance and advice he has provided to the thousands of visitors that cross his path, we all will sorely miss seeing him every day.

I ask my colleagues to all take this opportunity to thank the Capitol Police and specifically Officer Thompson, for his dedicated service. Officer Thompson, we will miss you, but we wish you all the best in your retirement. Capitol Hill will never be the same without you.

CONGRATULATING THE PARTICIPANTS OF THE HOUSE FELLOWS PROGRAM

HON. JOHN B. LARSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LARSON of Connecticut. Madam Speaker, I rise today to congratulate the participants of the House Fellows Program. The House Fellows Program, run by the Office of the House Historian, is a unique opportunity for a select group of secondary education American history and government teachers to experience firsthand the inner-workings of Congress. These educators have demonstrated excellence in the classroom, are dedicated to educating our nation's youth and are truly deserving of our recognition.

One of the goals of the House Fellows Program is to develop curriculum on the history and practice of the House for use in schools. During the program, fellows prepare a brief lesson plan on a Congressional topic of their choosing, which is then shared with the other fellows. These plans will become part of a larger teaching resource database on the House. During the school year following their participation in the House Fellows Program, each Fellow is responsible for presenting his or her experience and lesson plans to at least one in-service institute for teachers of history and government.

The House Fellows Program began in 2006, and since then 63 teachers from across the country have participated in this innovative program. Twelve more teachers will be taking part this summer. With plans to select a teacher from every congressional district over the next several years, the House Fellows Program will impact thousands of high school teachers and their students and will energize thousands of students to become informed and active citizens.

As a former U.S. history teacher, I believe strongly in the importance of civic education. We must continue our efforts to get our youth involved in the political process in districts across the country. Educating teachers about the ''People's House'' is one of the best ways to do that. I congratulate the following educators who are participating in the 7th session of the House Fellows Program:

Ms. Ashley Greeley (BUYER, IN–4); Ms. Susan Hunter Hilton (SPRATT, SC–5); Mr. Wayne Williams, Mr. Gregory Cosgrove (DIAZ-BALART, FL–21); Ms. Dodie Kasper and Ms. Maria Arena (JOHNSON, TX–3); Mr. Jeffrey Boogaard (ANDREWS, NJ–1); Mr. Christopher Moreno (LOWEY, NY–18); Ms. Latasha Jones (ENGEL, NY–17); Mr. Eric Major (COSTELLO, IL–12); Ms. Mollie Huber and Ms. Yvonne Jackson Pittman (PAUL, TX–14).

Madam Speaker, I urge all of my colleagues to join me in thanking the Office of the Historian for sponsoring this program. Thanks to Dr. Robert Remini and Dr. Fred Beuttler for their outstanding leadership, and Dr. Thomas Rushford, Dr. Charles Flanagan, Mr. Anthony Wallis and Mr. Benjamin Hayes for providing the crucial staff support. Thank you also to the Office of the Historian interns: Mr. Maurice Robinson, Mr. Parker Williams, Ms. Kaitlin Utz and Ms. Debbie Kobrin.

HONORING THE JUNIOR MATRONS OF MORRISTOWN, NEW JERSEY

HON. RODNEY P. FRELINGHUYSEN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. FRELINGHUYSEN. Madam Speaker, I rise today to honor the Junior Matrons of Morristown, New Jersey who are celebrating their 50 Anniversary this year.

The Junior Matrons of Morristown was started in 1959 by a motivated group of young African American women. They concentrated their time and energy on addressing the lack of young African American high school graduates pursuing post secondary education. For the past 50 years the Junior Matrons have focused on fulfilling their motto, ''Service through Scholarship''. This has been done through providing financial assistance to over 3,000 high school students, totaling over $2 million over the past half century. The beneficial and residual impact of this assistance cannot be over-estimated.

The Junior Matrons sponsor an annual Graduation Ball and Cotillion. The purpose of this night is threefold. First, it helps to raise awareness among the African American community about how a college education can provide an avenue to economic, political and social advantage. Second, it recognizes and rewards those who have been committed to achieving their first major educational milestone. And finally, it generates the funds necessary for a high school graduate's dream of college to become a reality. This single evening can be summed up in a statement that these women pride themselves on, ''There were a lot of things we didn't know were impossible so we just went ahead and did them.''

The passion and energy behind the founding of the Junior Matrons has continued unabated for these last 50 years, and is a credit to the collective vision of twelve charter members: the late Sue Graddick, Harriet Britt, the late Frances Younginer, my dear friend Dr. Felicia B. Jamison, Emma L. Martin, Mattile Drew, Muriel Hiller, Nadine Alston, the late Emanualine Smith, Natalie Holmes, the late Marie Davis, the late Natalie Thurmond Lattimore and Cecelia Dowdy.

Over the years the Junior Matrons have been honored by the National Association for the Advancement of Colored People and the National Urban League, among many others. Although a few of the original group are no longer with us, new leaders have taken on the mantle and are endowed with the same zeal and vision.

Madam Speaker, I am quite certain that the Junior Matrons will continue to promote the cause quality education and help provide opportunities for our young people to pursue college degrees and productive, fulfilling careers. I ask you and my colleagues to join me in congratulating the Junior Matrons of Morristown as they celebrate 50 dedicated years of serving our community.

PERSONAL EXPLANATION

HON. KEVIN BRADY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BRADY of Texas. Madam Speaker, I was unable to be present for several votes on Tuesday, June 23, 2009 due to a personal situation I needed to attend to in Texas. Nevertheless, I would request that the record indicate that I would have voted ''yes'' on each of the bills considered in the House had I been present. Specifically, S. 407, the Veterans' Compensation Cost-of-Living Adjustment Act of 2009; H.R. 1016, the Veterans Health Care Budget Reform and Transparency Act of 2009; H.R. 1211, the Women Veterans Health Care Improvement Act; and H.R. 1172 are each common sense reforms that will improve the health and education benefits provided by the Veterans Administration. Our veterans and their families sacrifice so much on our behalf, it is important that Congress continue to do all it can to ensure that they receive the respect and support they deserve.

PERSONAL EXPLANATION

HON. PATRICK T. McHENRY

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MCHENRY. Madam Speaker, had I been present to vote on S. 407 ''Veterans' Compensation Cost-of-Living Adjustment Act of 2009'' my vote would have been cast in support of this bill. In addition, had I been present I would have cast my vote in support of the following bills, H.R. 1016 ''Veterans Health Care Budget Reform and Transparency Act of 2009'', H.R. 1211 ''Women Veterans Health Care Improvement Act'', H.R. 1172 ''To direct the Secretary of Veterans Affairs to include on the Internet website of the Department of Veterans Affairs a list of organizations that provide scholarships to veterans and their

survivors'' and H.R. 1777 ''Making technical corrections to the Higher Education Act of 1965, as amended''.

IN OPPOSITION TO CAP-ON-A-TAX LEGISLATION

HON. TODD TIAHRT

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. TIAHRT. Madam Speaker, I heard of a climatologist who went to apply for a job recently. During his interview, he was asked, ''What do you predict will happen with the earth's climate next year?'' He immediately replied, ''Whatever you want me to predict.''

Unfortunately, this joke seems to hit a little too close to home, when we are considering global warming legislation. Rather than responding to serious questions with serious answers, Congress is replying with what we think people want to hear. Rather than considering all angles before offering a solution, Congress is rushing through legislation in hopes to score points with voters back home. And instead of basing a bill on sound scientific data, we will be considering legislation that is devoid of input from this side of the aisle.

I rise today to express my strong opposition to Waxman-Markey ''cap and tax'' bill. I believe there are three interrelated problems with this misguided legislation. I am concerned with the process by which we have arrived at the point we are today. I am concerned with the political showmanship that has gone on as the bill was written. And I am concerned with the policy itself, which bears the tragic scars of both the process and the politics.

Madam Speaker, from the beginning of the 111th Congress to the present, the cap-and-tax bill has been subjected to unfortunate abuses of the legislative process. In April, the Energy and Commerce Committee held four days of hearings, with the intention of, according to the Committee's website, ''examine the views of the Administration and a broad range of stakeholders,'' on a discussion draft of Chairman WAXMAN's bill. However, these hearings reflected only the Chairman's perspective. Only four of the twenty-one witnesses called before the Committee expressed any opposition to cap-and-tax, despite a petition signed by more than thirty thousand meteorologists, climatologists, and other scientists stating their skepticism about the evidence of man-made greenhouse gases being responsible for increases in the earth's temperature. Contrary to claims made by the Committee, and witnesses at the hearing, there is no ''overwhelming consensus'' in favor of the hypothesis of human-caused global warming.

The bill was drafted without input from our side of the aisle. At no point was any Republican consulted regarding the contents of the bill. In the rush to get the legislation passed through Committee, it seems no one had time to read the entire bill, or figure out what it means. Committee members repeatedly asked questions regarding the potential cost of particular provisions or amendments, but received no answers.

All of this raises the question, ''why''? Why was the bill rushed through the Committee, with hardly enough time to read it, let alone determine the impact that it would have on American taxpayers, farms, and businesses? The only answer I can come up with is the desire on the part of some in this body to score points with their voters back home.

What I see happening here is similar to what happened at the end of World War II. When American soldiers first reached Nazi extermination camps, they found men, women and children that were gaunt, emaciated, and starving. A few soldiers offered children chocolate bars, not realizing that the very thing they thought would be helpful actually ended up killing the children, because their digestive systems were unable to handle the chocolate. The same sort of thing is happening here. In order to look like a hero to one part of their constituency, this cap and tax bill is being pushed through Congress, and forced on the American people, much to their detriment.

Which brings me to the third problem with Chairman WAXMAN's cap and tax bill—its just bad policy. Earlier this week, Investor's Business Daily had a front page article about the failures of Europe's program, called the Emissions Trading Scheme, or ETS. The article cites numerous studies finding that the ETS has significantly increased energy prices, ''with 'uncertain' effects on greenhouse gas emissions.'' That hardly sounds like a model of success that we should be emulating here in the United States.

Proponents of the cap and tax bill claim that they have learned from Europe's mistakes, but I disagree, Madam Speaker. The article identifies the giving away of the program's carbon allowances as the largest reason for the program's failure. This bill follows that same model, giving away roughly 85 percent of the emissions allowances.

The entire idea of a cap and trade program fails in practice. We are told, ''The cost of polluting will be paid by the polluters.'' And believe me, the authors of this bill expect them to pay a hefty price. In fact, President Obama's budget assumes that even with the sale of only 15 percent of the total emissions permits, the federal government will still take in more than $650 billion. As the cap gets lower, and there are fewer permits available, the cost for ''polluters'' is going to grow ever higher. But that is exactly what the authors want. President Obama recently stated that the only way for a cap-and-trade system to work is for energy prices to ''skyrocket.''

There is nothing in the bill to keep the ''polluters'' from passing those skyrocketing costs on to the consumers. In fact, they will be forced to so. Any business that cannot pass the costs on to consumers runs the risk of being driven out of business. In the end, it will be the American taxpayer that foots the bill for this program, in the form of higher prices at the pump, higher home energy bills, and lost economic growth. But don't just take my word for it. Even the director of the Congressional Budget Office has said that, ''under a cap-and-trade program, consumers would ultimately bear most of the costs of emission reductions.''

One analysis of this bill found that if the standards within the bill are met, by 2035 Americans will see gas prices rise 74 percent, electricity prices increase by 90 percent, and a loss of at least 850,000 jobs every year. The average American household will see its annual energy bill go up by nearly $1,500. For my home state of Kansas in particular, we are going to have to purchase an estimated $206.8 million worth of carbon credits. That is $206 million more that Kansans are going to have to pay in energy costs every year. My district will be particularly hard-hit, as estimates show my district standing to lose nearly half a billion dollars of production in 2012, and more than 5,000 non-agriculture jobs. It's this kind of economic pain that advocates are counting on to force a reduction in carbon emissions.

The European system proves this idea doesn't work. With no signs of a reduction in carbon emissions, Europeans have seen their household energy costs rise by 16 percent, and the industrial energy costs increase by 32 percent.

Spain is an especially poignant example of the failure of the European system. They committed to reaching the benchmarks set out by the Kyoto Protocol, with renewable energy standards, so-called green-collar jobs, and a commitment to reduce their carbon emission levels. But the high cost of energy in Spain has destroyed their economy, which is currently facing a 17.5 percent unemployment rate. Proponents of this bill say that we will be creating new, green jobs. But most of these jobs are temporary construction jobs that go away once facilities, like wind farms for example, are built. In Spain, for every 4 jobs that were created, 9 were lost due to the higher cost of doing business under the Emissions Scheme. We should avoid going down this same path.

There is huge potential for exploitation of the system, on multiple levels. Especially with permits being given out, rather than auctioned, government officials are in a prime position to divert additional credits towards industries or companies of their choice. There is also the possibility that utilities here in the United States could follow the lead of one European company that immediately raised their rate by 70 percent, explaining to customers that the rate hike was necessary to cover the costs of cap-and-trade. But this utility company was given more credits than it needed, and sold them on the open market.

Tack on a renewables standard to this bill, and we have the perfect recipe for failure. No place that has implemented a renewable standard has ever been able to meet the required levels. And there is little to indicate that a federal standard would be any different. As a 2008 article in the Energy Law Journal stated, ''The DOE has little, if any, experience in administering a program on the scale of a national RPS, and has shown no indication that enforcement of a major program is within the agency's capabilities...[this is] an area in which the DOE has already failed to show effective leadership.''

So what we have here is a bill that has been rammed through with no minority input, to create a system that is ripe for abuse, costs the American taxpayer thousands of dollars, cripples our businesses, and in the end, has no measureable result. This is a bill I cannot support, and urge my colleagues to reject as well. Instead, I would encourage my colleagues to join me in supporting the American

Energy Act, a comprehensive energy bill that increases access to domestic energy sources, encourages conservation, and promotes the increased use of renewable sources of energy.

Across this country, we are, once again, seeing gas prices rise. Since the beginning of the year, gas prices are up 60 cents, and crude oil has raised more than $20 a barrel, with no end in sight. Just last week, Russian oil executives predicted that crude prices could reach $250 per barrel.

It is possible for us to relieve some of this pressure by tapping into our own vast resources. The Department of Energy estimates that nearly 20 billion barrels of recoverable oil lie offshore beneath restricted waters, the equivalent to nearly 30 years worth of current imports from Saudi Arabia. Substantial offshore natural gas reserves are also restricted. Even though longstanding restrictions on offshore energy production were lifted last year, the process of leasing these areas falls under the jurisdiction of the Department of the Interior.

Unfortunately, new Secretary of the Interior Ken Salazar refuses to allow additional drilling permits, dredging up every excuse not to produce energy in these areas. The Alaskan National Wildlife Refuge, reported to hold more than 10 billion barrels of oil continues to remain off-limits. He has also sought to block progress on oil shale, a promising source of oil trapped in rock under parts of Colorado, Utah, and Wyoming. The Department of the Interior has even cancelled some existing oil and gas leases.

Often, environmental concerns are cited as the reason for opposing additional drilling. However, technological advances have greatly increased the safety of drilling. During hurricanes Rita and Katrina, less than one cup of oil was spilled in the Gulf of Mexico, despite damage to more than 120 drilling platforms. There is absolutely no reason why permits for additional drilling should be denied. Furthermore, revenue generated by these oil leases will be invested in the development of cleaner, alternative sources of energy. The end result is a reduced dependency on foreign oil, lower levels of pollution, and new jobs for Americans, all without crippling our economy.

Lastly, Madam Speaker, the American Energy Act includes one key source that could provide clean energy without emissions—nuclear power. The Department of Energy has stated that the best way for energy companies to reduce their carbon emissions is to increase their use of nuclear energy. Despite encouragement from DoE, and the fact that that it has been proven safe by countries like France, where more than 80 percent of their electricity is generated by nuclear power, the Waxman-Markey bill does nothing to encourage nuclear power.

Instead, this administration has begun to walk away from the hundreds of millions of dollars spent on the nuclear storage facility at Yucca Mountain, Nevada. The American Energy Act would provide the Nuclear Regulatory Commission authority to complete its review of the Yucca Mountain facility, repeal the limitations on Yucca's Mountain's storage capacity, and establishes a method for recycling spent nuclear fuel in the U.S. Furthermore, it would reduce the bureaucratic hoops and length of time required to receive a permit for the construction of new nuclear plants.

In conclusion, let me again encourage my colleagues to join me in rejecting the Waxman-Markey cap-and-tax bill that would cripple our economy, without addressing their environmental concerns. Instead, lets support the American Energy Act, which provides real solutions for our energy problems in an economically, and environmentally sound manner.

EARMARK DECLARATION

HON. DONALD A. MANZULLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MANZULLO. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information for regarding the earmark I secured as part of H.R. 2892, Department of Homeland Security Appropriations Act, 2010.

My request, totaling $350,000, will come from the Predisaster Mitigation account at the Federal Emergency Management Agency, FEMA, within the Department of Homeland Security, DHS, for the County of DeKalb, Illinois. This request will assist in the permanent relocation of the residents who currently live in the Evergreen Village mobile home park to protect them from future floods along the southeast branch of the Kishwaukee River. Severe storms and flooding have hit DeKalb County, Illinois, four times over the past 40 years, causing extensive property damage. Evergreen Village, which is located in an unincorporated area of DeKalb County, has been severely affected by flooding. Evergreen Village is a 19.9-acre, 130-unit mobile home park, just east of Sycamore, Illinois, and located in the southeast branch of the Kishwaukee River floodway. During major flood events, DeKalb County must evacuate Evergreen Village, which imposes high costs on the county and the residents of Evergreen Village.

DeKalb County has examined alternatives to mitigate this issue, including the construction of a levee, and concluded that the relocation and acquisition of Evergreen Village is the only viable option for protecting residents from future floods. The acquisition would involve the purchase of the mobile homes, the 19.69 acre parcel of land, three permanent buildings, and the relocation of the residents. While most residents of Evergreen Village own their mobile homes, they are nevertheless technically renters on the land they currently occupy. Thus, under the Uniform Relocation Act, URA, these mobile home owners cannot receive full relocation assistance given to other owners of primary residences in similarly situated circumstances. Factoring in the approximate appraised $30,000 cost for each mobile home and land acquisition in Evergreen Village, DeKalb County estimates that the total cost of the relocation effort will be $6.781 million. State and local resources will contribute more than the minimum matching Federal requirement to complete the project. The entity to receive funding for the Evergreen Village relocation project is the County of DeKalb, Illinois, which is located at 200 North Main Street in Sycamore, Illinois 60178.

Madam Speaker, I want to take this opportunity to thank the Chairman of the House Appropriations Committee, Representative DAVID OBEY, and the Ranking Minority Member, Representative JERRY LEWIS, and the Chairman of the Homeland Security Appropriations Subcommittee, Representative DAVID PRICE, and the Ranking Minority Member, Representative HAL ROGERS, for working with me in a bipartisan manner to include this critical request in this spending bill.

EARMARK DECLARATION

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MICA. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892, legislation that makes appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010. I have received $750,000 in the FEMA, Predisaster Mitigation Account for the City of Flagler Beach located at P.O. Box 70, Flagler Beach, FL 32136. To the best of my knowledge, the funding would be used for the construction of a new EOC facility in Flagler Beach, FL.

As the population of the City of Flagler Beach has grown, the demand for services has increased. The City Hall and Emergency Operations Center share the same building, creating a constrained environment when responding to emergency situations. The city needs assistance to build a new facility that will accommodate not only current staff, but also the emergency response teams that will use the facility to respond to natural disasters, such as hurricanes that frequent Florida. The new building will expand the necessary space for city departments which will more adequately and efficiently serve the people of the community.

EARMARK DECLARATION

HON. KEVIN McCARTHY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MCCARTHY of California. Madam Speaker, pursuant to the Republican Leadership guidelines on earmarks, I am submitting the following information regarding earmarks I requested that were included as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman KEVIN MCCARTHY

Bill Number: H.R. 2996

Account: Environmental Protection Agency, STAG Water and Wastewater Infrastructure

Legal Name of Requesting Entity: City of Ridgecrest, California

Address of Requesting Entity: 100 West California Avenue, Ridgecrest, California 93555

Description of Request: $400,000 is included for the City of Ridgecrest, California, to help fund Phase I (planning, environmental studies, engineering design and construction monitoring, and legal and administrative issues) of the city's new wastewater treatment facility. Ridgecrest, located in northeast Kern County, serves as a support community to the Naval Air Warfare Center Weapons Division at China Lake (NAWCWD), and receives and treats all of the base's wastewater, which accounts for more than one-third of the water treated at the existing facility. As the existing plant has limited capacity and with additional personnel expected on the naval base in the future, the current wastewater treatment facility will reach and exceed its capacity requiring another treatment plant in the next few years. The city recognizes the challenges it faces on this front and is proactively working to address this issue before acceptable discharge limitations are exceeded at the current plant.

EARMARK DECLARATION

HON. ANH "JOSEPH" CAO

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. CAO. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892—the Department of Homeland Security Appropriations Act, 2010:

As requested by me, Rep. ANH "JOSEPH" CAO, H.R. 2892—the Department of Interior, Environment and Related Agencies Appropriations Act, 2010, provides for the Audubon Institute, New Orleans, LA in support of an Endangered Whooping Crane Propagation Facility. This is in the Fish and Wildlife Service—Resource Management Account in the amount of $500,000. This will benefit the Audubon Nature Institute, P.O. Box 4327, New Orleans, LA 70178 in the form of additional specially-designed whooper breeding pens to hold new crane pairs, increasing Audubon's egg production capacity by 20% and contributing greatly to whooping crane preservation. In addition to benefitting Louisiana, Audubon's success in breeding cranes prompted the USFWS to select Audubon to hold 10 whooping cranes from the captive flock for potential breeding. The project will help preserve an endangered species native to Louisiana and inform similar projects on a national level.

EARMARK DECLARATION

HON. STEVE SCALISE

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. SCALISE. Madam Speaker, pursuant to the Republican Leadership standards on Congressionally-directed project funding, I am submitting the following information regarding project funding I requested for Southeast Louisiana as part of the Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations Act.

Requesting Member: Congressman STEVE SCALISE

Bill Number: Fiscal Year 2010 Interior and Environment Appropriations Bill

Account: Environmental Protection Agency—STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: St. Tammany Parish

Address of Requesting Entity: St. Tammany Parish, 21490 Koop Drive, Mandeville, LA 70471

Description of Request: I have secured $500,000 for St. Tammany Parish. This funding will be used to create an on-line retention pond at the western intersection of Bayou Chinchuba and U.S. Highway 59. This will reduce floodwater heights in order to reduce risk to homes, streets, highway flooding, and protect over 16,000 citizens in the Bayou Chinchuba area of St. Tammany Parish. I certify that neither I nor my spouse has any financial interest in this project.

EARMARK DECLARATION

HON. KEVIN BRADY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BRADY of Texas. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996—Interior, Environment and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman KEVIN BRADY, Texas 8th Congressional District

Bill Number: H.R. 2996—Interior, Environment and Related Agencies Appropriations Act, 2010

Project: Big Thicket National Preserve

Account: National Park Service, Land Acquisition

Requesting Entity: The Conservation Fund, Texas Office

Address of Requesting Entity: 101 W 6th Street, Suite 601, Austin, TX

The Big Thicket National Preserve is one of America's ecological treasures. It is an unusually shaped preserve whose boundaries include land once owned by major timber companies. This request enables the National Park Service to acquire critical land within the congressionally authorized boundary of the Big Thicket National Preserve to diversify the economic potential of southeast Texas through increased tourism opportunities. This project works only with voluntary, "willing-seller" landowners.

The $5,000,000 included in this bill for this project combined with previous funding will allow the National Park Service to purchase over 2500 acres of land on 23 tracts acquired from willing sellers or by voluntary donation. When funded in full, this request represents the final year in a seven-year land acquisition program.

EARMARK DECLARATION

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. CARTER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892, the Department of Homeland Security Appropriations Act, 2010.

Requesting Member: JOHN R. CARTER

Bill Number: H.R. 2892

Account: Other

Requesting entity: Texas Engineering Extension Service

Address of Requesting Entity: 301 Tarrow, College Station, TX 77842

Description: $23 million was received for The National Emergency Response and Rescue Training Center (NERRTC), a member of the National Domestic Preparedness Consortium (NDPC), to provide relevant and effective Weapons of Mass Destruction (WMD)/terrorism training and education to our nation's emergency responders and their supervisors, managers and senior officials. NERRTC integrates the TEEX world-class training facilities with experienced, professional instructors and trainers to provide the nation's emergency responders with a ''one-stop'' shop for training, technical assistance and exercises. NERRTC works with over 40,000 emergency responders annually and delivers training and services in all 50 states, five U.S. territories, and the District of Columbia. This funding is important to taxpayers because of its potential to save lives in emergency situations.

Salaries: $15,339,463*
Travel: $ 9,025,662*
Equipment: 0*
Supplies: $ 53,281*
Contracts: $ 259,556*
Training Materials: $10,322,038*
*Based on a $35 million request

EARMARK DECLARATION

HON. FRANK. A. LoBIONDO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LOBIONDO. Madam Speaker, as per the requirements of the Republican Conference Rules on earmarks, I secured the following earmarks in H.R. 2892.

Requesting Member: Congressman FRANK LOBIONDO (NJ–02)

Bill Number: H.R. 2892

Account: FEMA, State and Local Programs

Legal Name of Requesting Entity: City of Brigantine

Address of Requesting Entity: 1417 West Brigantine Avenue, Brigantine, NJ 08203

Description of Request: Provide an earmark of $300,000 to be used to create a fully functioning and stand alone Emergency Operations Center with adequate backup power generation and the ability to communicate with governmental agencies, as well as other neighboring Emergency Operations Centers if a catastrophic event or incident were to occur.

EARMARK DECLARATION

HON. MICHAEL K. SIMPSON

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. SIMPSON. Madam Speaker, in accordance with the policies and standard put forth by the House Appropriations Committee and the GOP Leadership, I would like to list the congressionally-directed project I requested in my home state of Idaho that is contained in the report of HR 2892, the FY2010 Homeland Security Appropriations bill.

Project Name: Power and Cyber Systems Protection, Analysis, and Testing Program

Amount $3,000,000

Account: NPPD Infrastructure Protection and Information Security

Recipient: Idaho National Laboratory

Recipient's Street Address: 2525 North Freemont Street, Idaho Falls, Idaho 83415

Description: This funding will be used to conduct vulnerability analysis, testing, and protection of power and cyber connected systems for the Department of Homeland Security, utilizing the unique resources available at the Idaho National Laboratory, such as the electric grid, SCADA and control systems, cyber and communication test beds, and the explosives test range. The project entails collaboration with leading universities and other National Laboratories to leverage ongoing research at these institutions and advance the state-of-the-art in building resilience into infrastructure systems. The funding will be used to obtain full-scale systems in sectors of interest to DHS for testing of vulnerabilities, identification of protection strategies, and evaluation of resilient designs; partner with universities and National Laboratories to develop resilient control systems; and establish a program that develops new protection schemes. The INL is uniquely placed to carry out this program, which leverages its ongoing work in this area sponsored by DOD, DHS, and Intelligence Agencies and its established relationships with industry, universities, and National Laboratories.

I appreciate the opportunity to provide a list of the Idaho project that has received funding in the FY2010 Homeland Security Appropriations bill and provide an explanation of my support for it.

EARMARK DECLARATION

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. MICA. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892, legislation that makes appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010. I have received $350,000 in the FY2010 FEMA, Emergency Operations Center account for a new EOC in Palm Coast, FL. The entity to receive funding for this project is the City of Palm Coast, 160 Cypress Point Parkway Suite B–106, Palm Coast, FL 32164. To the best of my knowledge, the funding would be used for the construction of a new EOC facility in Palm Coast, FL.

The FY 2010 funding will assist in the construction of an Emergency Operations Center in Palm Coast. The new EOC will replace the 36 year old obsolete facility. The new location of the replacement facility will better serve the community by having its location in a central area of the City.

EARMARK DECLARATION

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. SMITH of New Jersey. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the FY 10 Homeland Security Appropriation Act.

Requesting Member: Rep. CHRISTOPHER H. SMITH

Bill Number: H.R. 2892

Account: Federal Emergency Management Agency's Pre-Disaster Mitigation

Legal Name of Requesting Entity: City of Trenton

Address of Requesting Entity: 319 East State Street, Trenton, NJ 08608

Description of Request: Funding will be used to help fortify the City's water filtration plant from ongoing flooding and contamination risk. The plant is responsible for providing safe drinking water to 225,000 people in Trenton, Hamilton and surrounding Mercer County areas.

Work supported with the $300,000 in federal funds—which the city of Trenton will match with $100,000—will protect the drinking water supply by eliminating vulnerabilities to contamination resulting from future flood events. The city will use it to waterproof open areas, relocate vulnerable controls and electronics, and make improvements to the sump pump system and the Chlorination storage facility.

EARMARK DECLARATION

HON. LINCOLN DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996—Department of the Interior, Environment, and Related Agencies Appropriations Act, Fiscal Year 2010.

Requesting Member: Congressman LINCOLN DIAZ-BALART

Bill Number: H.R. 2996—Department of the Interior, Environment, and Related Agencies Appropriations Act, Fiscal Year 2010

Account: U.S. Forest Service, Land Acquisition

Legal Name of Requesting Entity: Florida National Scenic Trail

Address of Requesting Entity: 5416 SW 13th Street, Gainesville, FL 32608

Description of Request: I have secured $500,000 to acquire critical and strategic holdings buffering or adjacent to Eglin Air Force Base, its flyways over the Northwest Florida Greenway, the National Forests in Florida and other Federal and State land.

EARMARK DECLARATION

HON. GREG WALDEN

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. WALDEN. Madam Speaker, consistent with the House Republican Leadership's policy on earmarks, to the best of my knowledge the request I have detailed below is (1) not directed to an entity or program that will be named after a sitting Member of Congress; and (2) not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark. As required by earmark standards adopted by the House Republican Conference, I submit the following information on a project I requested and was included in H.R. 2996—the Interior, Environment, and Related Agencies Appropriations Act, 2010.

Account: National Park Service—Construction

Project Name: Crater Lake Visitor Education Center, Crater Lake National Park, Crater Lake, OR

Legal Name and Address of Requesting Entity: Crater Lake National Park Trust, PO Box 62, Crater Lake, OR 97604

Project Location: Crater Lake, Oregon

Description of Project: H.R. 2996 appropriates $350,000 for the Crater Lake Visitor Education Center project. According to the requesting entity, this funding will be used by Crater Lake National Park for construction and renovation of the Crater Lake Visitor Education Center. Crater Lake National Park was created by President Theodore Roosevelt and is the sixth oldest National Park in America. Furthermore, Crater Lake is the deepest lake in America and holds the purest water in the world. This is a beneficial use of taxpayer funding because the Crater Lake Visitor Center will provide valuable educational opportunities for over 2,000 grade school students and around 500,000 other visitors who visit Crater Lake from throughout the United States and the World each year.

EARMARK DECLARATION

HON. ZACH WAMP

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. WAMP. Madam Speaker, as a leader on earmark reform, I am committed to protecting taxpayers' money and providing greater transparency and a fully accountable process. H.R.

2647, The National Defense Authorization Act of Fiscal Year 2010 contains the following funding that I requested:

Requesting Member: Rep. ZACH WAMP

Bill Number: H.R. 2647

Account: Military Construction, Army

Legal Name Requesting Entity: Fort Campbell, Kentucky

Address: 39 Normandy Avenue, Fort Campbell, Kentucky

Description of Request: There is inadequate chapel space at Ft. Campbell. The current facilities are scattered across the entire installation in several substandard World War II buildings that are in disrepair. The construction of a chapel complex will provide every Fort Campbell soldier, their family members and retirees a quality facility in which to worship and practice their religious faith. As overseas deployments remain high, an increasing number of soldiers and families will rely on the chapel to support their spiritual needs. The local Clarksville Chamber of Commerce has strongly advocated for a new chapel on Ft. Campbell.

Distribution of funding: Chapel, 72 percent; Antiterrorism/Force Protection Measures, 1 percent; Infrastructure (electric, water), 11 percent; Supervision, Inspection & Overhead, 16 percent.

Requesting Member: Rep. ZACH WAMP

Bill Number: H.R. 2647

Account: Military Construction, Army

Legal Name Requesting Entity: Fort Campbell, Kentucky

Address: 39 Normandy Avenue, Fort Campbell, Kentucky

Description of Request: A consolidated physical fitness facility is required to enable soldiers to maintain required fitness levels, provide facilities for recreational use and increase the quality of life for military dependents. The designated location for the fitness center is in a remote part of the installation where no facilities exist. The local Clarksville Chamber of Commerce has strongly advocated for an improved physical fitness center on Ft. Campbell.

Distribution of funding: Planning and Design, 100 percent.

Requesting Member: Rep. ZACH WAMP

Bill Number: H.R. 2647

Account: National Nuclear Security Administration

Legal Name Requesting Entity: Y–12 National Security Complex

Address: Y–12 National Security Complex, Oak Ridge, TN 37830

Description of Request: The Operations of Facilities Program contributes to the transformation of the Y–12 site into a smaller, less expensive and more responsive enterprise. The Operations of Facilities Program provides the facilities and infrastructure required to support dismantlement, weapons production and other national security missions.

Distribution of funding: Service Contract, 100 percent.

EARMARK DECLARATION

HON. MICHAEL R. TURNER

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. TURNER. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2847.

(1) Project—Wilmington Police Department—Equipment Replacement and Modernization

Requesting Member: MICHAEL R. TURNER

Bill Number: H.R. 2847

Account: OJP—Byrne

Legal Name of Requesting Entity: Wilmington Police Department

Address of Requesting Entity: 69 N South St., Wilmington, Ohio 45177

Description of Project: Located in rural Clinton County, Ohio, the Wilmington Police and Fire Department are in need of equipment modernization in order to more effectively serve the first responder needs of the community. Funds for this request will be used to replace computer equipment for the Department in order to increase public safety.

(2) Project—Improved Solutions for Urban Systems—21st Century Jobs for Disengaged Youth

Requesting Member: MICHAEL R. TURNER

Bill Number: H.R. 2847

Account: OJP—JJ

Legal Name of Requesting Entity: Improved Solutions for Urban Systems (ISUS)

Address of Requesting Entity: 140 N. Keowee St., Dayton, OH 45402

Description of Project: Improved Solutions for Urban Systems is looking to expand upon their already successful model of providing education and job training for at-risk youth. Funds for this project will be used to support and train disengaged youth for 21st Century jobs, such as "green collar" jobs.

EARMARK DECLARATION

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. PAUL. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding earmarks I obtained as part of HR 2996.

Requesting Member: Congressman RON PAUL

Bill Number: H.R. 2996

Account: Fish and Wildlife Service, Land Acquisition

Legal Name of Requesting Entity: San Bernard Wildlife Refuge

Address of Requesting Entity: 2547 CR 316, Brazoria, TX 77422

Description of Request: An earmark of $2,500,000 to fund Land Acquisition for the San Bernard Wildlife Refuge in Brazoria County, Texas.

Requesting Member: Congressman RON PAUL

Bill Number: H.R. 2996

Account: EPA, STAG Water and Wastewater infrastructure project

Legal Name of Requesting Entity: City of Baytown

Address of Requesting Entity: 2401 Market Street, Baytown, TX 77522

Description of Request: An earmark of $500,000 to fund Water and Wastewater infrastructure improvement in Baytown, Texas.

PERSONAL EXPLANATION

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Ms. WOOLSEY. Madam Speaker, on June 23, 2009, I was unavoidably detained and was not able to record my vote for rollcall No. 419–423.

Had I been present I would have voted:

Rollcall No. 419—"yea"—Veterans' Compensation Cost-of-Living Adjustment Act of 2009.

Rollcall No. 420—"yea"—Veterans Health Care Budget Reform and Transparency Act of 2009.

Rollcall No. 421—"yea"—Women Veterans Health Care Improvement Act.

Rollcall No. 422—"yea"—To direct the Secretary of Veterans Affairs to include on the Internet website of the Department of Veterans Affairs a list of organizations that provide scholarships to veterans and their survivors.

Rollcall No. 423—"yea"—To make technical corrections to the Higher Education Act of 1965, and for other purposes.

PERSONAL EXPLANATION

HON. TIMOTHY H. BISHOP

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. BISHOP of New York. Madam Speaker, on June 19, 2009, I was detained by a previously scheduled commitment in my district. Due to my absence, I request unanimous consent for the record to reflect that had I been here, I would have voted in the following manner:

Rollcall No. 409, I would have voted "aye";
Rollcall No. 410, I would have voted "aye";
Rollcall No. 411, I would have voted "aye";
Rollcall No. 412, I would have voted "aye";
Rollcall No. 413, I would have voted "aye";
Rollcall No. 414, I would have voted "present";
Rollcall No. 415, I would have voted "aye";
Rollcall No. 416, I would have voted "aye";
Rollcall No. 417, I would have voted "aye";
Rollcall No. 418, I would have voted "aye."

EARMARK DECLARATION

HON. GREG WALDEN

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. WALDEN. Madam Speaker, consistent with the House Republican Leadership's policy

on earmarks, to the best of my knowledge the requests I have detailed below are (1) not directed to an entity or program that will be named after a sitting Member of Congress; and (2) not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark. As required by earmark standards adopted by the House Republican Conference, I submit the following information on projects I requested and were included in H.R. 2647—The National Defense Authorization Act of Fiscal Year 2010.

Account: Navy; Research, Development, Test & Evaluation; Line 3, Defense Research Sciences; PE #0601153N

Project Name: ONAMI Nanoelectronics, Nanometrology and Nanobiotechnology (N3I) Initiative

Legal Name and Address of Requesting Entity:

Portland State University; Oregon State University; University of Oregon; Oregon Nanosciences and Microtechnologies Institute

Portland State University

Portland, OR 97207

Project Location: Portland, OR; Corvallis, OR; Eugene, OR; Corvallis, OR

Description of Project: H.R. 2647 appropriates $2,000,000 for the ONAMI Nanoelectronics, Nanometrology and Nanobiotechnology (N3I) Initiative. According to the requesting entity, this project would support collaborative research to generate new applications such as nanoelectronic devices to address the end of Moore's Law scaling, advanced solar cells, nanoscale chemical imaging for catalysis improvements in areas such as bioremediation and ethanol production, nanoscale biosensors for point-of-care health management, and biological cell imaging and measurement capabilities.

Account: Defense-wide (DOD); Research, Development, Test & Evaluation; Line 238, Industrial Preparedness; PE # 0708011 S

Project Name: Northwest Manufacturing Initiative

Legal Name and Address of Requesting Entity:

Manufacturing 21 Coalition

1100 SW 6th Avenue, Suite 1425

Portland, OR 97204

Project Location: Portland, Oregon

Description of Project: H.R. 2647 appropriates $1,200,000 for the Northwest Manufacturing Initiative. According to the requesting entity, funds for this project would improve the performance of manufacturing companies and the products they create as part of the defense logistics pipeline.

EARMARK DECLARATION

HON. LINCOLN DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647—National Defense Authorization Act for Fiscal Year 2010.

Requesting Member: Congressman LINCOLN DIAZ-BALART

Bill Number: H.R. 2647, National Defense Authorization Act for Fiscal Year 2010

Account: Military Construction

Legal Name of Requesting Entity: United States Southern Command

Address of Requesting Entity: City of Doral, Florida

Description of Request: I have secured an authorization for $55.4 million for construction of a new headquarters for the U.S. Southern Command. Currently, the Department of Defense is leasing the land on which SOUTHCOM is now located from a private individual. The funds would be used by the Department of Defense to build the new SOUTHCOM headquarters adjacent to the current SOUTHCOM facility in Doral, Florida. The land for this facility will be leased from the State of Florida. SOUTHCOM received $100 million in the FY08 Military Construction Appropriations bill and $81.6 million in the FY09 Military Construction Appropriations bill as the first two installments of $237 million, previously authorized in the Military Construction Authorization Act for Fiscal Year 2008 (division B of Public Law 110–181; 122 Stat. 504).

EARMARK DECLARATION

HON. CHRISTOPHER JOHN LEE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LEE of New York. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of the FY10 Interior Appropriations bill.

Requesting Member: Congressman CHRISTOPHER LEE (NY–26)

Bill Number: H.R. 2996

Account: Environmental Protection Agency—STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: Town of Pendleton, NY

Address of Requesting Entity: 6570 Campbell Boulevard, Lockport, NY 14094

Description of Request: Provide an earmark of $500,000 for the sewer grinder pumps project in order to convert the low pressure system to a gravity system and will provide residents with a higher level of services and alleviate flooding of homes and roads.

Of the total amount received, 100% is for the purchase of replacement units (as a cost of $2,716 each). The Town of Pendleton will provide the labor to install each unit, which takes 4 hours and 4 laborers to complete.

The Town of Pendleton operates and maintains a sanitary sewer system on behalf of Town sewer districts. These districts currently provide sanitary services to more than half of the Town residents. The sanitary system is primarily a low-pressure system, with the exception of several new subdivisions served by gravity systems. The low-pressure system was constructed during the 1970s and is comprised of approximately 14 miles of sewer mains and 453 pump stations. The pump stations are pre-assembled package stations that were installed within individual service laterals. The stations grind residential waste and discharge it under pressure to the system. Years of harsh environmental conditions, improper waste products and normal wear and tear have caused significant deterioration in the pump stations. The stations are becoming increasingly problematic for the Town. System maintenance has steadily intensified with a current average of over 30 maintenance calls per month.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, June 25, 2009 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

JUNE 26

9:30 a.m.

Armed Services

Closed business meeting to markup the proposed National Defense Authorization Act for fiscal year 2010.

SR–222

JULY 14

9:30 a.m.

Veterans' Affairs

To hold hearings to examine bridging the gap in care of women veterans.

SR–418

10 a.m.

Energy and Natural Resources

To hold hearings to examine S. 796, to modify the requirements applicable to locatable minerals on public domain land.

SD–366

JULY 29

9:30 a.m.

Veterans' Affairs

To hold hearings to examine veteran's disability compensation.

SR–418

SENATE—*Thursday, June 25, 2009*

The Senate met at 9:31 a.m. and was called to order by the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York.

PRAYER

The PRESIDING OFFICER. Today's prayer will be offered by our guest Chaplain, Rabbi Shea Harlig, spiritual leader of Chabad of Southern Nevada.

The guest Chaplain offered the following prayer:

Almighty G-d, the Members of this prestigious body, the U.S. Senate, convene here in the spirit of one of the seven Noahide Laws which were set forth by You as an eternal universal code of ethics for all mankind; that every society be governed by just laws which shall be based in the recognition of You, O G-d, as the Sovereign Ruler of all peoples and all nations. We, the citizens of this blessed country, proudly proclaim this recognition and our commitment to justice in our Pledge of Allegiance—''One Nation, under G-d, with liberty and justice for all.''

Grant us, Almighty G-d, that those assembled here today be aware of Your presence and conduct their deliberations accordingly. Bless them with good health, wisdom, compassion, and good fellowship.

On this 25th day of June, 2009, which corresponds to the third day of the Hebrew month of Tammuz, we are 15 years—to the day—from the passing of our esteemed spiritual leader, The Lubavitcher Rebbe, Rabbi Menachem Mendel Schneerson, of blessed memory, who consistently extolled the virtues of this great land as a ''Nation of Kindness.''

I beseech You, Almighty G-d, to grant renewed strength and fortitude to all who protect, preserve, and help further these ideals so essential to the dignity of the human spirit. Please grant that our beloved Rebbe's vision of a world of peace and tranquility—free of war, hatred, and strife—be realized speedily in our days.

G-d bless this hallowed body. G-d bless our troops who stand in defense of this great land. G-d bless the United States of America.

PLEDGE OF ALLEGIANCE

The Honorable KIRSTEN E. GILLIBRAND led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, June 25, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mrs. GILLIBRAND thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

WELCOMING RABBI HARLIG

Mr. REID. Madam President, with the Senate Chaplain, Admiral Black, standing by, we all listened to a prayer from one of our Jewish brethren in Las Vegas, Rabbi Harlig. I am sure the Chaplain was pleased with the prayer. Those of us in attendance were pleased with the prayer. It was a meaningful, wonderful prayer for our Senate and the country. So I welcome Rabbi Harlig and thank him for helping us open the Senate with the beautiful prayer he uttered.

Rabbi Harlig and his wife Dina breathed new life into the southern Nevada Jewish community when they opened a Chabad center in their living room in 1990. It has grown dramatically since then, and successfully grown, and there are now five such community centers in southern Nevada. The organization Rabbi Harlig founded has taught so many children and adults and has done so many mitzvot—or good deeds—for so many people.

As Rabbi Harlig mentioned in his invocation, today is significant for the Chabad community because it is the day of the passing of The Lubavitcher Rebbe, Rabbi Menachem Mendel Schneerson, one of the great Jewish leaders of our time.

So thank you, Rabbi Harlig, for joining us in the Senate today.

SCHEDULE

Mr. REID. Madam President, following leader remarks, there will be a period of morning business for up to 1 hour. Senators will be permitted to speak for up to 10 minutes each. Republicans will control the first 30 minutes and the majority will control the final 30 minutes.

Following morning business, the Senate will turn to executive session to resume debate on the nomination of Harold Koh to be Legal Adviser to the Department of State. We hope some of the postcloture debate time will be yielded back and we are able to vote on the nomination as early as possible. If we are unable to yield any time, the vote will occur at about 5:30 this evening.

We are also working on an agreement to consider the Legislative Branch appropriations bill. Senators will be notified when votes are scheduled or agreements are reached.

MEASURE PLACED ON THE CALENDAR—S. 1344

Mr. REID. Madam President, it is my understanding that S. 1344 is at the desk and due for a second reading.

The ACTING PRESIDENT pro tempore. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1344) to temporarily protect the solvency of the Highway Trust Fund.

Mr. REID. Madam President, I object to any further proceedings with respect to this legislation at this time.

The ACTING PRESIDENT pro tempore. Objection is heard. The bill will be placed on the calendar.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

HEALTH CARE REFORM

Mr. MCCONNELL. Madam President, Americans are insisting that Members of Congress work together on reforms which make health care more affordable and accessible but which don't force people off their current plans or add to an already staggering national debt. Yet the Democratic plan now being rushed through the Senate would do just the opposite. It would force millions of Americans off their health care plans and bury our Nation deeper and deeper in debt.

Democrats have repeatedly and incorrectly declared that under their

plan Americans who like their current insurance will be able to keep it. This morning, I would like to explain why that is, unfortunately, not the case.

Just last week, the independent Congressional Budget Office said that the incomplete Democratic HELP Committee proposal would cause 10 million Americans who currently have employer-based insurance to lose that coverage. Let me repeat that. Before the Democratic bill is even complete, we know that it will cause 10 million Americans to lose their health care insurance they currently have. But 10 million would just be the beginning. One key section missing from the HELP bill is the government plan Democrats say they want, and according to one study, 119 million Americans could lose their private coverage if a government plan is enacted.

Here is why this so-called government option would lead to Americans losing their current plans and why it would soon become the only option.

First, a government-run plan would have unlimited access to taxpayer dollars and could operate at a loss indefinitely, which could force private insurers out of business. Private health plans simply wouldn't be able to compete, and millions of Americans could be forced off their health plans whether they like it or not. At that point, people would have to enroll in a government plan or any surviving private health care plan, if they could afford it. I say if they could afford it because another unintended consequence of creating a government plan is that it would cause rates for private health plans to skyrocket, leaving most Americans unable to afford them. They would simply be too expensive. Right now, government programs such as Medicare and Medicaid pay hospitals and doctors less than private insurers do, and hospitals and doctors then pass on the difference to private insurers. If a government plan was established, doctors and hospitals would shift more of their cost onto private health plans, making them even more expensive and making it even harder for them to compete with a government plan. In the end, only the wealthiest would be able to afford private health plans and the kind of care most Americans currently enjoy.

Some say safeguards could be put in place to create a level playing field. But the very nature of the government running a health insurance plan in the private market is the problem. Any safeguard could easily be eliminated, and one look at the government takeovers in the insurance and auto industries shows that when the government is involved, there is really no such thing as a fair playing field.

Let's take a look at the auto industry. The government has given billions of dollars to the financing arms of Chrysler and GM, allowing them to offer interest rates that Ford, a major manufacturer in my State, and other private companies struggle to compete with. This means the only major U.S. automaker that did not take a bailout is at a big disadvantage as it struggles to compete with government-run auto companies. When Ford needed money, it had to raise it in the open market and pay an 8-percent interest rate. But GM could just call up the Treasury—just call up the Treasury—and have them wire over some taxpayer money. No company can compete with that.

So contrary to their claims, if the Democratic plan is enacted, millions of Americans will lose the health insurance they have and that they like. Again, that is not what I say, it is what the Congressional Budget Office says, it is what independent analysts say, it is what America's doctors say, and it is even what President Obama now says. The President now acknowledges that under a government plan, some people might be shifted off of their current insurance.

This isn't the only Democratic claim about health care that is increasingly suspect. Democrats have also promised their health plan will be paid for and won't add to the deficit. But the facts just don't add up. Right now, just one section—one section—of the HELP bill would spend $1.3 trillion. It is not plausible that this won't add to the deficit, which has already swelled by more than $1 trillion thanks to bailouts and the stimulus money.

So when Democrats predict their health care plan won't cause people to lose their current insurance and won't add to the national debt, Americans are certainly right to be skeptical. They made the same kinds of predictions about the stimulus bill. They said the money wouldn't be wasted. Yet we are already hearing about a $3.4 million turtle tunnel and $40,000 to pay the salary of someone whose job is to apply for more stimulus money. The administration also predicted that if we passed the stimulus, the unemployment rate wouldn't rise above 8 percent. Now they say unemployment will likely rise to 10 percent.

Americans, indeed, want health care reform, but they do not want a so-called reform that takes away the care they have and stands in the way of their relationships with their doctors or that buries their children and grandchildren deeper and deeper in debt. I think we can do a lot better than that.

I yield the floor.

The ACTING PRESIDENT pro tempore. The majority leader.

HEALTH CARE REFORM

Mr. REID. Madam President, one-sixth of every dollar that is spent in America goes to health care today. If we do nothing with health care, by the year 2020 it will be 35 percent. Think about that. That is just 11 years from now. So it is obvious that crushing health care costs leave many families uninsured and underinsured and drive far too many into bankruptcy or foreclosure.

When we discuss our country's health care crisis with our constituents next week when we go home for the July 4th break and when we debate it with our colleagues in this Chamber in the coming months, they will talk about how best to relieve that burden. There are a lot of good ideas, but one of the best ways to bring down the cost is by preventing disease and illness in the first place.

Prevention and wellness are based on a simple premise: The less you get sick today, the less you will have to pay tomorrow. Part of reforming health care means making it easier for Americans to make healthier choices and live healthier lives. We are far from that goal and need to do a better job of making that possible. More than half of all Americans live with at least one chronic condition, and those conditions cause 70 percent of all deaths in America. So doesn't it make sense to stop them before they start? The obvious answer is yes.

It is not just a health issue, it is also an economic issue. Prevention isn't free, but it is a lot cheaper to invest in health before it is too late. Unfortunately, that investment is peanuts right now. We spend only 4 cents out of every health care dollar toward preventing disease. That is far too little. Although we spend only 4 cents of every dollar toward preventing disease, we spend 75 cents of every health care dollar caring for people with chronic conditions. It isn't enough just to treat and cure disease, we must also prevent disease and help people stay healthy. Reducing the number of us who suffer from chronic diseases will cut costs and help more Americans lead healthier and more productive lives. It is the same principle we bring to health care reform overall. Reform isn't free, but it is a lot cheaper to invest in our citizens' health, our country's health, and our economy's health before it is too late.

Everyone needs to listen, especially based on my colleague's statement he just gave. We Democrats are committed to lowering the high cost of health care. We Democrats want to ensure every American has access to that quality, affordable care, and letting people choose their own doctors, hospitals, and health plans. We are committed to protecting existing coverage when it is good, improving it when it is not, and guaranteeing health care to the millions—including 9 million children—who have no health care.

We are committed to a plan that says: If you like the coverage you have, you can keep it. We are committed to reducing health disparities and encouraging early detection and effective

treatment that saves lives. Just a small investment in prevention and wellness can make a big difference for American families. Reforming health care, doing so in the right way, and making that investment will help people get sick less often—and even when they do get sick, it will cost them less to get back on their feet. Benjamin Franklin famously said: ''An ounce of prevention is worth a pound of cure.'' For Americans' physical health and America's fiscal health it may be worth much more.

Madam President, I believe it is time to announce morning business.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period of morning business for 1 hour, with time equally divided and controlled between the two leaders or their designees, with Republicans controlling the first half and the majority in control of the second half, with Senators permitted to speak for up to 10 minutes each.

The Senator from Nebraska is recognized.

Mr. JOHANNS. I thank the Chair.

(The remarks of Mr. JOHANNS pertaining to the submission of S. Res. 206 are located in today's RECORD under ''Submission of Concurrent and Senate Resolutions.'')

The ACTING PRESIDENT pro tempore. The Senator from Tennessee is recognized.

Mr. ALEXANDER. Madam President, how much time is remaining on Republican time?

The ACTING PRESIDENT pro tempore. There is 18 minutes remaining.

Mr. ALEXANDER. Thank you, Madam President. Will you please let me know when 4 minutes remain?

The ACTING PRESIDENT pro tempore. The Chair will do so.

Mr. ALEXANDER. Madam President, let me talk about a threat to the middle-class family's budget, and that is health insurance. How do we pay for health care? I do not have to explain to anyone who might be listening or reading these remarks that health care, for most Americans, is a cost that is difficult to afford.

It is difficult for most small businesses. We have many large businesses who are having a difficult time competing in the world marketplace because of health care costs. We think of the auto industry in Detroit which has claimed that the legacy costs of health care have put them out of business, unable to compete, even with car companies that locate in the United States and make cars here employing American workers.

So we on the Republican side, like our friends on the Democratic side, want health care reform this year. President Obama is going to town meetings and saying what he is for. He is saying: Let's do it this year. He is saying: Let's make sure we cover the 47 million Americans who are uninsured. He is saying: Let's make sure we can afford it.

''We do not want more debt,'' the President is saying. We certainly agree with that. He already has proposed, over the next 10 years, more new debt than it cost to wage all of World War II according to the Washington Post. So we agree with him, we do not want any health care bill that creates more new debt. We do not want a health care bill that puts more new taxes on States as they pay for State-operated health care programs such as Medicaid.

We want to make sure that Americans who like their insurance are able to keep the insurance they have. About 177 million Americans have employer-sponsored health insurance which they like. They like the quality of the health care they get. We do not want to think about the 47 million who are uninsured, we want to think about all 300 million Americans.

We Republicans agree with the President. We want health care reform this year. We want a health care plan that you can afford. We want a health care plan your Government can afford, so your children do not get a big debt piled on top of them, and we want to make sure all of the uninsured are covered as well.

We want to make sure, on this side, that Washington does not come in between you and your doctor. In other words, you and your doctor make the health care choices, not some Washington bureaucrat who might cause you to wait in line or deny treatment that you and your doctor think is needed.

So how does the Senate bill that we are working on stack up with the President's ideas that we should cover everybody, be able to pay for it, and allow people to keep their insurance? Well, I am very disappointed to report that, according to the Congressional Budget Office, which is the nonpartisan agency in the Congress—and the Congress, of course, is majority Democratic, by a large margin—has given us some very disturbing information about the bill we are working on in the HELP Committee, a place that I am about to go in a few minutes to continue considering parts of the bill, since we only have a little bit of the bill that we are being asked to consider.

Here is what we know about cost: The Congressional Budget Office has said that in the first 10 years of the partial Kennedy bill which has been presented to us, it would add over $1 trillion to the debt, the national debt, $1 trillion.

Senator GREGG of New Hampshire, who is the ranking Republican on the Budget Committee, has pointed out that once the health care program envisioned in the Kennedy bill is up and going, that over a 10-year period, say years 5 through 14, it would be $2.3 trillion added to the debt, a debt that already has more new debt in the next 10 years, according to the Washington Post, than we spent in all of World War II in today's dollars.

People in Tennessee and across this country are saying: Whoa. Wait a minute. This is getting out of control. We need some limits. We know you have got a printing press there in Washington, DC, but our children and grandchildren and even we are going to pay the consequences if we do not have some limits on the amount of debt.

I would think the President would say to the Senators who are working on this: Wait a minute, Senators, I said this needs to be something that pays for itself. We cannot add $2.3 trillion.

That is not all. We do not even have all the Kennedy bill. Some of the most important parts are yet to come. Some of the most expensive parts are yet to come. The assumptions that we are left to work with—because we hear them discussed—is that there will be a big expansion of the Medicaid Program that States help to operate and help to pay for, usually about 40 percent of the cost, and an increase in the reimbursement rates that go to doctors and hospitals who participate in the Medicaid Program.

What would that cost? Well, in the State of Tennessee, if we increase Medicaid eligibility to 150 percent of the poverty level, which sounds pretty good, that adds about $600 million to the State cost of Medicaid in Tennessee.

If we increase the Medicaid reimbursement rates, that adds another $600 million to the State costs of Medicaid. When the stimulus funding goes away after 2 years, which was sent to the States to help pay for Medicaid costs, that is another $600 million.

Now we throw so many dollars around up here that it is hard to say what is important. But to give you one idea of what would happen if a Senator went home to be Governor and had to manage a Medicaid Program that expanded that much and were faced with a $1.2, $1.5, $1.8 billion new State cost about 2015, where would he or she get that money? A 10-percent income tax in our State would raise about $1.2 or $1.3 billion. So the costs we are talking about adding to States are astronomical. Most States are having a difficult time even balancing their budgets this year, some nearly bankrupt—think of California—and add to that huge new Medicaid costs, as well as a Federal addition to the debt of $2 or $3 trillion. It

is an unimaginable prospect and totally inconsistent with what President Obama has said, who said very sternly to Congress 2 or 3 weeks ago: We need pay as we go. If we are going to spend a dollar, we need to save a dollar or we need to tax a dollar. So we would have to raise or save $2 or $3 trillion to pay for the Kennedy bill, as we know it, and if you live in a State that has increased Medicaid costs, you could have, depending upon what these provisions say, huge new State taxes to pay for it.

That bill gets an ''F'' on the first aspect of the President's request, cost, and debt.

The second is that we cover the 47 million uninsured. Unfortunately, even though we add perhaps $2 to $3 trillion to the Federal debt, and a lot of new State taxes, the bill we are considering in the Senate HELP Committee will only cover 16 million more people who are not now insured.

In other words, we would reduce the uninsured from 47 to 30 million. We would have 30 million people left even though we added $2 or $3 trillion to the Federal debt and a lot of new State taxes. I think that is a flunking grade as well for this bill.

Then what about allowing you to keep your insurance if you like it? Well, the Congressional Budget Office also had something to say about that. It said: If the Kennedy bill, as it is presently, were enacted, about 15 million people would go from private insurance that they now have to an existing or a new government-run health care plan.

You might do that because you choose to, or you might do that because your employer says: I think I will quit offering the insurance you now have.

So this does not seem to fit what the President is suggesting we do. With all respect, I know that there has been a lot of hard work done on this bill, but we need to stop and start over even to get close to the President's own objectives.

Let's take the 46 or 47 million uninsured Americans. We need to be realistic about what we are dealing with here. Some 11 million of those are noncitizens, and about half of those are illegally here. So we deal with those in one way or another. About one-third of the uninsured, about 15 or 20 million, have incomes of over $75,000 a year. In other words, they could afford health insurance but do not have it. About 13 million are young and believe they are invincible and would only buy health insurance on their way to the hospital.

So the question is, do we raise costs for everybody else in a failed attempt to try to pass a ''one size fits all'' for all of those 46 million uninsured Americans, or do we come up with different ways of trying to entice them or require them to have an insurance policy, at least a catastrophic insurance policy, so we all are not paying $1,000 more in insurance so you cannot have insurance and go to the emergency room when you have a problem?

That is who the uninsured are.

Then let us think about the approach the Kennedy bill and other bills are making to the so-called government-run programs. There are some competing polls in newspapers, depending on how you ask the question. The New York Times, the other day, had a huge headline: Everybody likes the government-run health care program. But the Wall Street Journal and other polls that have presented questions in different ways said that by a 2-to-1 margin most people preferred a private insurance policy that they choose themselves, which is what 120 or 140 million Americans have chosen today.

Why do we need a government program? Let's think about that. The President said: Well, we need to keep the insurance companies honest. That is a little bit like saying: We need a government drugstore to keep the drugstores honest, or we need a government car company—actually we have almost got one with GM—to keep the other auto companies honest, or a government anything. That is not the way this country is supposed to work. We have a big free market system. We are entrepreneurs in this country. We want limited Federal Government.

We ought to get out of the car and banking business and out of the insurance business and stop these Washington takeovers. Yet the most imposing feature of the health care proposals proposed by our Democratic friends is a big, new government-run program to keep everybody honest.

I do not see that we need such a program under the proposals that Republicans have offered. I think we agree that whatever plan we have should require that everybody have a chance to be a part of it, that a preexisting condition you might have does not disqualify you, and that your rates need to be reasonable.

The ACTING PRESIDENT pro tempore. The Senator has 4 minutes remaining.

Mr. ALEXANDER. I thank the Chair.

We agree on that. We think competition is what helps keep prices low. The President says you need a government-run program for competition. But that is like putting an elephant, the government, in a room with a lot of mice and saying: All right, fellows, compete. After a while, there would not be any mice left. Your only choice would be big government, because it has the power to lower prices and subsidize itself to make sure it succeeds.

What is wrong with that? Most Medicaid patients can tell you what is wrong with that. Some 40 percent of doctors restrict access to Medicaid patients. Why? Mostly because the reimbursement rates are so low. The government program is cheaper, but it does not allow you to get any health care. It is like giving you a bus ticket, but there is no bus to catch.

So if what we chose to do in our plans is to expand the Medicaid Program, at enormous cost to State taxpayers, and have big increases in the Federal debt, we will be dumping low-income Americans into government programs that exist, and new government programs we create to which they might not gain admission.

So we think we have better ideas. They are in the Wyden-Bennett bill, which is bipartisan. They are in the Burr-Coburn bill. They are in the legislation introduced by Senator GREGG of New Hampshire. They are in the legislation Senator HATCH and Senator CORNYN are working on.

We would like to give dollars to low-income Americans so they can choose to buy an insurance policy and have the same kind of coverage that most of the rest of us can buy. We would rather give them choices in the private market, which is what, by far, most Americans have and choose today. We can do that without adding debt to the national debt. The Wyden-Bennett bill is scored at no extra debt. And we can do that in a way that reduces the number of uninsured more than the Kennedy bill does.

So, Madam President, with respect, I suggest we start over, we do it in a bipartisan way, that we take some suggestions actually from the Republican side, which has not been done at all. That is another thing the President said. He said he wanted a bipartisan bill. We have had a completely partisan bill in the Senate. We do not like that. We came here to be a part of solving this big problem. We have our ideas on the table. They are not being considered. Everyone is being polite to us, but it is: We have the votes. We won the election. We will write the bill.

I am afraid America will not be better off, and the President's goals will not be met because we will have added $2 or $3 trillion to the Federal debt, have a big new tax for states and locally, stuff low-income people into government programs, and we will still have 30 million people uninsured.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Colorado.

Mr. BENNET. Madam President, I rise to speak about the urgent need for health care reform. I wish to thank both the Finance and HELP Committees for the enormous amount of effort they are both putting into this monumental task.

When it comes to health care, if you talk with Coloradans, they will point you in the right direction. They want us to end double-digit premium increases on the middle class and small businesses. They want us to leave alone the parts of the system that are not

broken. They agree that all Americans should have access to affordable and secure health care coverage.

But they are skeptical that Washington can get this done without breaking the bank. They want us to find a way to pay for these reforms now and not just pass on the cost to the next generation in the form of increased deficits and debt.

That is a tall order, but it is the right one and simple common sense. We will be tempted throughout this process to settle for half-fixes and easier political victories that help a few people but do not deliver real reform for all families. We have to work hard across party lines and avoid these temptations.

Showing resolve means not giving in to the usual political posturing that has characterized the debate on health care for 30 years and has gotten us nowhere. Failing to act responsibly now will result in yet another lost decade of soaring health care costs for families and small businesses.

Working families with good health insurance are now spending over $3,700 of their own annual income just on premiums, drug copays, and other out-of-pocket costs. The amount a family has to pay before health insurance coverage kicks in has gone up by over 30 percent in the last 2 years alone.

Even the amount all of us pay to cover the uninsured as a part of our health care premium—a hidden tax on every family in the country who has health insurance—has increased to over $1,000 a year. This hidden tax will only continue to increase for all families if we keep walking down this path.

Our top priority must be to stop this ever-increasing spiral of health care costs that create such a struggle for families and small businesses. But we do not have the luxury of spending recklessly to accomplish these goals.

I agree with the President that reforming the health care system is the most pressing fiscal challenge our Nation faces right now. That is right, fiscal challenge.

Fail to reduce costs and health reform will not work. Fail to pass meaningful reform and we will face a worsening fiscal mess. Americans spend over $2 trillion on health care each year. Yet premiums continue to skyrocket, and our coverage is not keeping up with what we are paying for it.

Coloradans know this is a bad deal, and it is getting worse every day we do not act.

We do not have to look very hard for enormous cost savings. The potential savings in Medicare and Medicaid are right in front of us. We must look at inefficiencies and perverse incentives in the system and address those first. Medicare's payment incentives spur doctors and nurses to recommend procedures instead of spending more quality time with patients.

We can empower medical professionals to do the best job possible by fixing this incentive structure. It starts with Medicare. If we want a culture change in health care, we must start with our largest health care spending program, Medicare.

If nothing changes in the next 8 years, the cost of health insurance for families covered by their employer will rise by 124 percent. The average annual cost to cover a family will increase from $11,000 to $25,000.

As you can see, increases in the growth of health care costs have rapidly outpaced increases in family income. Median income has risen by $11,300 in the last decade, and it is projected to increase by $10,600 in the next decade. Income growth will stay relatively stable.

Let's look at the growth of health care costs in this same time. In the last decade, health care insurance to cover a family rose by $5,400, and now the cost of health insurance for a family will increase by $14,000 in this next decade. This rapid increase in growth is clearly unsustainable.

What you can see from this chart is that median income, in real dollars—the increase—remains essentially flat over these decades. From 1996 to 2006, the growth was $11,300. From 2006 to 2016, we see $10,600. But look at the growth in median health care premium costs at the same time: $5,400 over the first period; $14,000 over the second period. It is clearly unsustainable.

We have just come out of a decade when median family income in the United States, in real dollars, actually declined by $300, and over the course of this same time, health care costs went up by 80 percent and the cost of higher education went up by 60 percent. These are not ''nice to haves.'' These are essential things if our middle class is to remain intact and we are to preserve the American dream for the next generation of Americans.

Our revenues as consumers have been far outstripped by the costs of that which is essential to all of us, and it is one of the reasons we find ourselves in the fiscal mess we are in. Because in order to finance that gap, we piled on credit card debt, we had home mortgage loans we could not afford—all to try to finance this gap. It is unsustainable. It has been a house of cards, and we are dealing with the consequences now.

Already, some Coloradans are seeing cutbacks on the benefits in their coverage, and some businesses are no longer able to afford coverage for their workers. Faced with these unchecked increases, health coverage becomes a luxury few families and small businesses can afford. Many people are cutting back on other essentials, visiting the doctor less frequently, even when they know they need care.

We must meet this economic challenge head on. The first goal is fixing health care. But we cannot forget the second goal. It is just as important: fiscal responsibility. A more efficient health care system can save taxpayers money in the long run.

A study from the White House Council of Economic Advisers shows that smart reform will slow the rapid rise in health care costs by a percent and a half or more. Slowing health care costs by just a percent and a half will have a significant impact on our Federal budget.

If we were to look at how much we will save by reforming our health care, economists have shown us our Federal deficit will decrease. By 2040, we would have saved enough money to reduce our Federal budget deficit by 6 percent from health care cost savings alone.

Just this point and a half would increase the income of the average family in this country by $2,600 in the next decade, growing our economy and improving our ability to get a handle on the deficit. Colorado families will use $2,600 to make purchases, put away for college tuition and retirement, and obtain new employment skills to improve their earning potential. Part of fiscal responsibility is empowering middle-class families. The current health care system is holding them back.

If nothing changes, employers will see about a 10-percent increase in their health care costs next year. Businesses are straining to pay salaries already and remain competitive because health care costs are so high. Every day, they are making tough decisions about what kind of benefits they can afford to offer and whether they can even offer health coverage at all.

Coloradan Jean Butler is the clerk and treasurer for the small town of Blanca in Costilla County. The town has about 400 people and employs 6 people in its government. Two of those town employees, the town police officer and the head of maintenance—who oversees roads, water, and sewer—get health benefits provided with their employment.

The town pays the full premium for the two employees, though they do have to pay some out-of-pocket costs. The cost of maintaining a plan that covers just these two employees has become an increased burden on the small town. The coverage has been in place for about 10 years and has increased in cost almost every single year.

Jeannie said the town budgets for a significant increase every year, with the hope it has budgeted enough. In 2008, the increase was 25 percent; the year before, it was 15 percent—40 percent in 2 years. No other town expense requires such a big year-to-year increase. Most others are budgeted to increase with the inflation rate.

The current plan with San Luis Valley HMO costs the town $804 a month and the employees $750 in out-of-pocket expenses. But that plan is no longer

available. Jean said that similar plans from other providers would increase the cost premium anywhere from 33 percent to 235 percent. Even with the smallest cost increase, the total annual cost to the town will be close to $12,000.

Jeannie said—Jeannie told me her official name is Jean but that I could call her Jeannie; and she said everybody else does—Jeannie said:

My [town] board now has to decide whether to accept the higher rates, reduce the coverage, require the employee to pay a much larger share of the premium, or try something else. It is not an easy decision.

Jeannie may have summed up the problem we face as well as anyone. She pointed out that:

They should call it sick care not health care because the insurance companies do not pay to keep anyone healthy.

Because Jeannie cannot find another plan, hard decisions are being made about employees. We cannot continue down this path when we know health care costs are overwhelming businesses and working families.

Ann Brown and her husband Gordon run New Vista Image, a large-format digital design and printing company in Golden. The business has nine employees and provides health care benefits, covering 60 percent of each employee's premium but not that of their dependents.

Ann said she is happy with the choices available in Colorado for different types of plans, and she believes in the employer-provided benefits model. She and her husband built in the cost of health care when they began their business because she knew it would help attract the best employees.

Ann said she understands how important a healthy workforce is and supports wellness programs, so employees can prevent major medical conditions. Whenever she brings someone in, she knows the first question asked will be: Do you have a health care plan?

Nevertheless, the business has been forced to offer less and less coverage in order to keep premiums within its budget. Health care is one of the biggest ticket items they worry about. Ann said that in recent years, the percent cost increase over the previous year has been in the double digits. As a result, they have had to offer less coverage, with higher deductibles and more out-of-pocket costs.

The plan's deductible has gone from $1,500 to $3,000, and Ann said it is likely the next step they will have to take is a $5,000 deductible. She knows how hard those out-of-pocket costs can be for employees to absorb. A few years ago, when an employee was facing a serious health condition, the business covered the deductible so the employee would not be saddled with the medical bills.

''I would do it again,'' Ann said, although she knows higher deductibles mean a less generous plan to offer to her employees and less of a competitive edge for the business overall.

Teresa Trujillo of Pueblo, CO, has employer-based coverage. For 7 years, Teresa saved up money to buy a home, and then learned she had breast cancer. After 14 months of treatment, the money ran out and Teresa had to take a loan out to finish paying for the rest of her treatment.

For Teresa, her health insurance coverage only took her so far. While she has been cancer-free for 4 years, she constantly worries that her cancer will come back, and with it, the huge financial strain it would bring. All she wants is health care she can count on.

These are people who have done everything right, played by the rules, looked out for their fellow employees and fellow citizens. Our health care system is failing them. People should not have to wait until they get sick to learn their health insurance will not cover the cost of their treatments. Families should not have to watch their loved ones go through sickness and also deal with the anxiety of paying for medical bills that are increasingly becoming completely unaffordable.

We know health care reform will not be easy. As the President has said, if it were easy, we would have done it a long time ago. But for these Coloradans—for their families and for their businesses—the system must change. For our Nation's long-term prosperity, the system must change. We cannot burden future generations with responsibility for the reform we need today. If we make the hard choices, we will create a better health care system, a better economy, and a better future for our children and our grandchildren.

I thank my colleagues for listening this morning.

I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. SPECTER. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SOTOMAYOR NOMINATION

Mr. SPECTER. Madam President, I have sought recognition to comment briefly on the pending nomination of Judge Sotomayor to be an Associate Justice on the Supreme Court of the United States.

I have made it a practice to write to nominees in advance of the hearings in order to give advance notice to the nominee so that the nominee will be in a position to respond to questions raised without going back to read cases or consider the issues and facilitate the proceeding. I commented to Judge Sotomayor, when she had the so-called courtesy call with me, that I would be doing that.

In a letter dated June 15, I wrote her and commented about it in a floor statement, discussing in some detail the qualifications of Judge Sotomayor for the Supreme Court.

To briefly recapitulate, I noted in my earlier floor statement her excellent academic record and highest rankings in Princeton undergraduate and Yale Law School, her work as an assistant district attorney, her professional experience with a major law firm, her tenure on the Federal trial court, and her current tenure on the Court of Appeals for the Second Circuit.

Today, I am writing to Judge Sotomayor to give her advance notice that I will be inquiring into her views on televising the Supreme Court. I have long advocated televising the proceedings of the Supreme Court and have introduced legislation to require that, subject to a decision by the Court on a particular case if they thought the Court ought not to be televised. I think the analogy is very apt to televising proceedings of the Senate or the House of Representatives so that the public may be informed as to what is going on with these public matters.

The arguments in the Supreme Court are open to the public. Only a very few people have an opportunity to see them. First, it is not easy to come to Washington and, second, there are so many people who do come to Washington, but they are only allowed to be in there but a few minutes. With the marvel of television, this proceeding appears in the homes of many Americans on C–SPAN2, the House is televised on C–SPAN1, and many of our hearings are similarly televised. That is a great educational tool, and also it shows what is going on.

The Supreme Court of the United States, in a 1980 decision, Richmond Newspapers, Inc. v. Virginia, noted that a public trial belongs not just to the accused but to the public and the press as well. The Supreme Court noted that such openness has ''long been recognized as an indisputable attribute of an Anglo-American trial.''

Chief Justice William Howard Taft put the issue into perspective, stating:

Nothing tends more to render judges careful in their decisions and anxiously solicitous to do exact justice than the consciousness that every act of theirs is subject to the intelligent scrutiny of their fellow men and to candid criticism.

In the same vein, Justice Felix Frankfurter said:

If the news media would cover the Supreme Court as thoroughly as it did the World Series, it would be very important since ''public confidence in the judiciary hinges on the public's perception of it.''

The term ''press'' used in Richmond Newspapers would comprehend television in modern days. And certainly

Justice Frankfurter's use of the term ''media'' would comprehend television as well.

It is worth noting that Justices have frequently appeared on television. Chief Justice Roberts and Justice Stevens appeared on ''Prime Time,'' ABC TV. Justice Ruth Bader Ginsburg's interview on CBS by Mike Wallace was televised. Justice Breyer participated in Fox News Sunday and a debate between Justice Scalia and Justice Breyer was filmed and available for viewing on the Web.

There is no doubt of the enormous public interest in what the Supreme Court does. When the case of Bush v. Gore was decided, the block surrounding the Supreme Court Chamber, just across the green from the Senate, was loaded with television trucks. Although the cameras could not get inside, there was tremendous public concern. The decisions of the Court are on all of the cutting edge issues of the day. The Court decides executive power, congressional power, defendants' rights, habeas corpus, Guantanamo, civil rights, voting rights, affirmative action, abortion, and the list could go on and on.

In both the 109th and 110th Congresses, I introduced legislation calling for the Court to be televised. Twice it was reported favorably out of committee, but neither time did it reach the floor of the Senate. I intend to reintroduce the legislation and I intend to pursue it.

A number of Justices have commented about television. Justice Stevens said he favors televising the Supreme Court. He thinks, as he put it, ''it is worth a try.'' Justice Ruth Bader Ginsburg said she would support television and cameras as long as it was gavel to gavel. Justice Alito, in his Senate confirmation hearing, noted that when he was on the Third Circuit, he voted in favor of televising the proceedings, but had a reservation, saying if confirmed, he would want to consult with his colleagues about it. Justice Kennedy has said that he thinks televising the Court is inevitable. Chief Justice Roberts left the question open.

There is an obvious sensitivity in the Court if a colleague strenuously objects, and such a vociferous objection has been lodged by Justice Souter, who was quoted as saying, ''I can tell you the day you see a camera come into our courtroom, it is going to roll over my dead body.'' That is quite a dramatic statement. Justice Souter has announced his retirement. Perhaps in the absence of that strenuous objection, it is a good time for the Court to reconsider the issue.

I intend to ask Judge Sotomayor in her confirmation hearing whether she agrees with Justice Stevens that televising the Supreme Court is worth a try, whether she agrees with Justice Breyer that televising judicial proceedings is a valuable teaching device, whether she agrees with Justice Kennedy that televising the Court is inevitable. She can shed some light on the issue, because her courtroom was part of a pilot program where it was televised. There was a program from 1991 through 1994, where the Judicial Conference evaluated a pilot program conducted in six Federal district courts and 2 Federal circuits, and they found:

> Overall, attitudes of judges toward electronic media coverage of civil proceedings were initially neutral and became more favorable after experience under the pilot program.

The Judicial Center also stated:

> Judges and attorneys who had experience with electronic media coverage under the program generally reported observing small or no effects of camera presence on participants in the proceedings, courtroom decorum, or the administration of justice.

I think that is a very solid step forth from some of the Justices who have expressed concern that the dynamics of the Court would be changed. With the ability to put a camera in a concealed position and the findings of the Judicial Center that is a solid argument in favor of proceeding and, to repeat, I will continue to press the issue; and the confirmation proceedings of Judge Sotomayor will be a good opportunity to ask her about her experience when she presided over the trial under the pilot program, and to further develop the issue and perhaps stimulate some more public interest.

I commend to the attention of my colleagues the report of the Judiciary Committee on the legislation I had introduced in the 110th Congress. I cite Calendar No. 907, Senate Report 110–448 to Accompany S. 344, ''A Bill to Permit the Televising of Supreme Court Proceedings.'' It is lengthy, but I think it has a good summary to supplement the remarks that I have made to acquaint the public with the issue and the importance of it.

SYRIAN AMBASSADOR

Mr. SPECTER. Madam President, I compliment the President for his decision to send an Ambassador back to Syria. I am a firm believer in dialog. I believe that even though we may have some substantial questions about Syria's activities and Syria's conduct, we ought to continue the dialog. I believe in the famous maxim that you make peace with your enemies and not your friends. The derivative of that would be to talk to people who may be adversaries—not that I necessarily put Syria in an adversarial position, and I certainly wouldn't characterize them as an enemy. But the Ambassador was withdrawn 4 years ago as a protest to the assassination of former Lebanese Prime Minister Rafik Hariri.

The Security Council of the United Nations adopted a resolution on April 7, 2005, to establish an independent international investigating commission to inquire into all aspects of the terrorist attack killing Prime Minister Hariri. That tribunal has faced considerable obstacles, but it is still in operation, and I think its report would be very important in making a determination as to who was responsible for the assassination of Prime Minister Hariri and whether Syrian officials were implicated in any way.

I do believe and have believed for a long time that Syria could be the key to advancing the peace process in the Mideast.

In connection with my duties as chairman of the Intelligence Committee in the 104th Congress and my work on the Foreign Operations Subcommittee of the Appropriations Committee during my tenure in the Senate, I have traveled extensively abroad and have concentrated on the situation in the Mideast. In connection with those travels, I have visited Syria 18 times and have studied the Syrian Government. I have gotten to know former President Hafez al-Asad, current President Bashar al-Asad, Foreign Minister Walid Mualem, who for 10 years was Ambassador to the United States and now is Foreign Minister.

It has long been my view that a dialog with Syria is very important. In December of 1988, I had my first meeting with Syrian President Hafez al-Asad, a meeting which lasted 4 hours 35 minutes. During the course of that meeting—President Hafez al-Asad was noted for his long meetings—we discussed virtually every problem of the world and every problem of the Mideast. It seemed to me from that meeting that President Asad was open to conversation. I have had many similar meetings with him. I was the only Member of Congress to attend his funeral in the summer of 2000. At that time, I met his successor, President Bashar al-Asad, and have gotten to know him, with meetings virtually every year in the intervening time.

There have been back-channel negotiations conducted through Turkish intervention between Israel and Syria, and I think dialog between the United States and Syria could promote future discussions between Syria and Israel. It would be my hope that the day would be sooner rather than later when Syria would be willing to talk to Israel directly. The Israeli officials, the Prime Ministers, have repeatedly stated their interest in direct conversations. Syria has resisted but has undertaken conversations through back channels. President Clinton came very close to effectuating—or made a lot of progress toward an agreement is perhaps more accurate to say—in 1995 when Prime Minister Rabin was in charge of Israel. In the year 2000, again, there was substantial progress made by President Clinton on those efforts. The back-

channel communications brokered by Turkey suggest the time is right for promoting that kind of an effort.

Only Israel can make a determination as to whether Israel wants to give up the Golan Heights, which is key to having the peace talks proceed. But it is a very different world today in the era of rockets than it was in 1967 when Israel captured the Golan Heights. Syria, obviously, wants the Golan back as a matter of national pride.

Former Secretary of State Kissinger told me that he found President Hafez al-Asad to keep his word on the negotiations for the disengagement in 1974, so that, obviously, any arrangements would have to be very carefully negotiated under President Reagan's famous dictum of ''trust but verify.''

It seems to me now is a good time to promote that dialog. The advantages would be if Lebanon could be stabilized. It is an ongoing question to the extent Syria is destabilizing Lebanon. The Syrian officials deny it. There is no doubt that Syria supports Hezbollah and Hamas, so that Israel could gain considerably if the weapons to Hamas were cut off and attacks from the south and Hezbollah were not a threat from the north.

The sending of an Ambassador is a very positive sign, a positive sign that Envoy former-Senator George Mitchell was visiting. I think this bodes well. The article I wrote in the Washington Quarterly some time ago sets forth in some greater detail my views on the issue of dialog.

I note my colleague has come to the floor, so I will conclude my statement and yield the floor.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

EXECUTIVE SESSION

NOMINATION OF HAROLD HONGJU KOH TO BE LEGAL ADVISER TO THE DEPARTMENT OF STATE

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session to resume consideration of the following nomination, which the clerk will report.

The assistant legislative clerk read the nomination of Harold Hongju Koh, of Connecticut, to be Legal Adviser of the Department of State.

The Senator from Missouri.

Mr. BOND. Madam President, I rise today to express my strong opposition to the nomination of Mr. Harold Koh to be the Legal Adviser to the Department of State. My concerns with Mr. Koh arise primarily from his own statements, writings, and testimony before Congress. In my opinion, he seems more comfortable basing his legal conclusions on partisan political opinions and trendy arguments rather than the facts and the law. We do not need more legal theorists in government. We need more legal realists in government, someone who pays attention to the hard work we do in this body to pass laws. The Department of State and the country deserve better than that kind of advice.

Let me provide a few quick examples. On September 16, 2008, Mr. Koh testified before the Senate Judiciary Subcommittee on the Constitution. His written testimony included the following statement:

> A compliant Congress repeatedly blessed unsound executive policies by enacting nominal, loophole-ridden ''bans'' on torture and cruel treatment and rubberstamping without serious hearings presidentially introduced legislation ranging from the PATRIOT Act to the Military Commissions Act to the most recent amendment of the Foreign Intelligence Surveillance Act.

In the same testimony, he argued that Congress should revisit the hastily enacted FISA Amendments Act with less emphasis on the issue of immunity for telephone and Internet service providers. He obviously was not paying attention.

Besides his condescending and inappropriate tone, I think his statements reflect a poor understanding of some of the most important pieces of national security legislation that have been passed since the September 11 terrorist attacks and passed on a bipartisan basis in both Houses.

As my colleagues may know, I was heavily involved in the legislative process surrounding the passage of the FISA Amendments Act. I can assure you that certainly was not the result of a congressional rubberstamp that was enacted hastily. We began working on the first one, the Protect America Act, debated it, and passed it in the summer of 2007. When we came back in the fall, the Senate Intelligence Committee went to work on a bipartisan basis, and we worked for months to get a truly bipartisan bill that came out of the committee. In that bill, we added many additional protections to American citizens to assure their rights would be protected from warrantless surveillance, even if they were overseas. We added that. And we added further protections. That bill passed the Senate. It went to the House, and it was stalled for months.

In the spring of 2007, I sat down with the Republican whip and the Democratic whip in the House of Representatives—STENY HOYER of Maryland and Mr. ROY BLUNT of Missouri. We went through and took account of all of the concerns they had on both sides in the House of Representatives. We worked with lawyers from the Department of Justice, from the intelligence community, and lawyers for the majority staff in the House of Representatives. It took us several months. What we finally came up with was a piece of legislation that overwhelmingly passed the House on a bipartisan basis and came back and passed the Senate on a bipartisan basis.

Another key aspect of the FISA Amendments Act was to ensure the intelligence community could continue to collect timely intelligence that could be used to prevent future terrorist attacks. Another key aspect of the legislation was the carrier liability provisions that were designed to end frivolous litigation against companies alleged to have responded to requests for assistance from the highest levels of government. I don't know what planet Mr. Koh is living on, but if he thinks we can accept electronic communications without being able to give legitimate orders to the carriers of those communications, he doesn't understand the real world. That is where we find out what the terrorists' plans are, who the terrorists are, and where they are likely to strike. If we cannot say we are not going to have frivolous lawsuits against those who respond to lawful orders from the Federal Government, then we are not going to be able to have access to that information.

I am happy to report that earlier this month, the U.S. District Court for the Northern District of California, which had raised questions and entertained legislation, rejected the constitutional challenges to the carrier liability provisions and dismissed all but a few of the lawsuits involved in the multidistrict litigation. They found that, contrary to Mr. Koh, they were constitutional, and a well-reasoned opinion said they were right. A bipartisan majority in both Houses of Congress said they were right.

Let me be clear, the FISA Amendments Act was a necessary and important piece of national security legislation that is keeping us all safe. But despite the overwhelming bipartisan approval, apparently Mr. Koh does not see it that way. I urge my colleagues, even those who voted for cloture, to go back and think again, to see if legislation worked on for a year in this body on a bipartisan basis and passed by this and the other body should be dismissed as hastily approved.

In his book, he condemns the Democratic leaders in the Senate who played a leading role in making the improvements to the FISA Act. And to the Republicans, he condemned everybody who worked on it. Apparently, decisions need to be made in the Department of Justice, not through the elected will of those of us who represent the people of America. I think his charges and his disregard of Congress warrant a hard look at him.

Another example of Mr. Koh's partisan legal scholarship can be found in his May 2006 article in the Indiana Law Journal, where he wrote:

We should resist the claim that a War on Terror permits the commander in chief's power to be expanded into a wanton power to act as torturer in chief.

While that might appear to be a nice media sound bite in winning partisan plaudits, I think it is a bit premature to conclude that the United States illegally tortured detainees. We know the Department of Justice's Office of Legal Counsel reviewed the proposed interrogation procedures on several occasions and found them to be lawful. We in the Senate Intelligence Committee are conducting a review of those practices to make sure what was done complied with the law. Where American soldiers violated all standards—not only of law but of decency—and performed unspeakable acts on detainees at Abu Ghraib prison, they were rightfully punished and sent to prison, as they should have been. That is what we do even with our brave soldiers who step out of bounds.

Here is another clever sound bite from Mr. Koh. In an article for the Berkeley Journal of International Law back in 2004, he wrote:

What role can transnational legal process play in affecting the behavior of several nations whose disobedience with international law has attracted global attention after September 11—most prominently, North Korea, Iraq, and our own country, the United States of America? For shorthand purposes, I will call these countries the ''axis of disobedience.''

To my fellow colleagues, I ask: Do you accept the fact that the United States is part of an ''axis of disobedience''? Do you really think fighting back against the terrorists who struck us on 9/11 was disobedience? Do you think we should have a Legal Adviser in the State Department who believes international law—ill-defined, not applicable—should be applied to affect his political judgments on America?

The Legal Adviser for the State Department should be an advocate for the Nation not a detractor. If I remember correctly, after September 11, by a vote of 77 Members in the Senate, plus a majority in the House, we made the determination to go to war in Iraq to make sure we didn't suffer further attacks. It was in compliance with a U.N. resolution. Oh, I say, by the way, that was a legal international resolution.

A lot of people will say Mr. Koh had a distinguished career in government service and legal academia. I am concerned he spent a little too much time in the ivory tower, and I wish he would return to that jurisdiction.

Given my previously stated concerns, I cannot and will not in good conscience vote in favor of his nomination. I recognize that Mr. Koh may be headed for confirmation, but I would ask those who may have previously voted for cloture to go to this nomination and think about what he said about Congress, about the work we have done, and about what he has said about America. Are you comfortable having him as a Legal Adviser to the State Department after what he said about America being part of the ''axis of disobedience''? Are you comfortable with what he said about those of us who voted for the war resolution, about those of us who voted for the FISA Amendments Act? I certainly am not.

If he is confirmed, I would hope for his and our country's sake, if he returns to the State Department, his legal advice will be based on facts rather than political rhetoric.

I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. KAUFMAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. KAUFMAN. Madam President, I ask unanimous consent to speak as in morning business for up to 10 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

HONORING DENISE JOHNSON

Mr. KAUFMAN. Madam President, once again I rise to honor a Federal employee whose service to our Nation is exemplary. Before I do, I want to thank my distinguished colleague from Mississippi, Senator COCHRAN, for his June 11 statement about Federal employees. It is my great pleasure to join with him and other Senators to recognize the enormous contributions to the security and prosperity of our country by those who work in the Federal Government.

Madam President, last week, I shared the story of a Federal employee who spent his career working at the Redstone Arsenal in Alabama. He helped design and test the advanced missile systems used by our military to defend our ideals overseas. This week, I wish to share the story of a Federal employee who also works to advance our interests overseas—that of humanitarian good works. Both are vital to our global leadership.

I have spoken before about the groundbreaking medical research performed by Federal employees at the National Institutes of Health. The advances in medicine and biotechnology pioneered by those working at NIH keep America's health care the most innovative in the world. Yet making breakthroughs and developing treatments are only a part of how the Federal Government is helping to promote global health. One of our foreign policy and humanitarian priorities is to expand access to new medications and health technologies among those who live in the developing world.

The hard-working men and women of the Centers for Disease Control and Prevention are at the forefront of initiatives to bring lifesaving medicines to those in greatest need. Foremost, the CDC monitors, prevents, and, if necessary, contains the outbreak of deadly diseases in the United States, such as West Nile and Swine Flu. Part of this effort is a push to eradicate some of the most dangerous viruses throughout the world.

With the lens of Congress now focused on our health care system, so much has been said about its shortcomings. Yet for all the problems we face on this front, Americans are blessed with freedom from fear of diseases that afflicted previous generations.

When I was young, tens of thousands of children each year were stricken with polio. In the early part of the 20th century, polio outbreaks occurred in the United States with deadly frequency. Parents used to keep their children home and away from their peers. Many became paralyzed or had to make use of the iron lung. We have all seen those famous images of President Franklin Roosevelt seated behind his desk in the Oval Office signing New Deal programs into law and overseeing a World War against the enemies of liberty. But at the same time, few Americans knew that behind that desk our President sat in a wheelchair, his legs paralyzed from his own battle with polio.

Today, in parts of Africa and South Asia, hundreds of children each year still develop polio. While children in developing nations routinely receive the Salk or Sabin vaccines, this is a luxury for rural villagers in places such as India, Nigeria, Afghanistan, and Somalia. The CDC has set a goal of vaccinating every child on Earth. Leading this charge over the past decade, Denise Johnson serves as the Acting Chief of the CDC's Polio Eradication Branch.

Before she was recruited to direct this project, Denise served for 6 years as the manager of the CDC's Family and Intimate Partner Violence Prevention Program. In this role, she oversaw the promotion of nonviolent, respectful relationships through community and social change initiatives. This was around the time that Congress passed the Violence Against Women Act, which was one of the proudest achievements of my friend and predecessor, Vice President JOSEPH BIDEN, during his career in the Senate.

When asked why Denise was highly sought after to work on the polio project, one of her supervisors at the CDC said:

If you do a good job keeping women and children from being beaten, you can eradicate polio.

With Denise at the helm, the Polio Eradication Branch has been working in close concert with the World Health Organization and UNICEF to promote

immunization. In her first few years alone, Denise and her team helped immunize over a half billion—let me repeat that, a half billion—children in 93 countries.

From her office in Atlanta, Denise oversees a staff of over 40 professionals working overseas. Her effective leadership has proven to be a key factor in the program's success. Denise administers the purchase and distribution of over 200 million doses of the oral polio vaccine—bought for a mere 63 cents per dose—and routinely serves as a field consultant in polio hotspots around the world. In fact, Denise is in Kenya right now, taking the fight against polio straight to the front lines.

Twenty years ago, there were over 350,000 cases of polio in 125 countries, but today there are fewer than 2,000 cases. That is 350,000 cases down to 2,000 cases because of the diligent work performed by Denise and the rest of her team at the CDC's Polio Eradication Branch. It is only a matter of time before this disease no longer threatens our world's children.

Madam President, Denise is just one of so many Federal employees who have dedicated their lives to serving the greater good. She and her team are truly engaged in what President Obama has called ''repairing the world.'' Their work saves lives and helps demonstrate our Nation's commitment to humanitarian leadership in the global community.

I hope my colleagues will join me in honoring Denise Johnson and her team for their outstanding work, as well as the important contributions made by all of our excellent public servants.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CARPER. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. HAGAN). Without objection, it is so ordered.

GROVES NOMINATION

Mr. CARPER. Madam President, in the Constitution, we see laid out before us a framework of how our government is supposed to work, with three branches—legislative, executive, judicial. We also find in the Constitution what our relative responsibilities are, not with great detail but with some definitiveness.

Ironically, one of the requirements the Constitution provides for us in this country is that every 10 years we try to count everybody. We have a census. Most nations do that. We have been doing that really for over 200 years. It does not get any easier. In fact, every 10 years it gets harder, and it also gets to be more expensive.

The Director of the Census does not serve a finite period of time. The Director of the Census really serves at the pleasure of the President, and we have had Census Directors who have served as little as 1 year and some Directors who have served maybe 4 or even 5 years.

This is particularly appropriate to speak about today because we do not have a Director of the Census. We had a Dr. Murdock, from down in Texas, who served for about the last year of the Bush administration as our Census Director. He did a very nice job. But at the beginning of this year, Dr. Murdock resigned. We do not have a Census Director. What we do have coming down the railroad tracks is the requirement to do the census.

Next April 1—I call it a little bit like D-day. At Normandy, we sent all of our troops ashore, and they scrambled off of those landing vessels. They stormed the beaches. That took place after literally months of planning, months of preparation, and finally the day of execution came.

In a way, the census is like preparing for the Normandy invasion. The efforts are underway now. They have been underway for months and will continue up to April 1 and beyond that day, as we try to count everybody. Yet, at this critical time, as we approach the need to conduct our census, to do it in an accurate, cost-effective way, we do not have a leader there. We have some good people, but they lack a Director.

Last month, I held a hearing of our Homeland Security and Governmental Affairs Subcommittee, and we invited people who had been high-level officials in, I think, every census since 1970—the 1970 census, the 1980 census, the 1990 census, and the 2000 census. We asked them to come in and talk to us about how they thought we were doing in terms of the preparation for the 2010 census. At the end of their testimony, I asked each of them to give to us on our committee two names of people who they thought would be excellent Census Directors, and they were good enough to do that. I think every one of them included in their recommendations the name of a fellow from Michigan—I am an Ohio State guy, but they recommended a fellow from Ann Arbor whose name is Dr. Robert Groves.

Dr. Groves is an expert in survey methodology. He has spent decades working to strengthen the Federal statistical system, to improve its staffing through training programs, and to keep the system committed to the highest scientific principles of accuracy and efficiency. Having once served as Associate Director of the Census Bureau a number of years ago, Dr. Groves knows how the agency operates and what its employees need to successfully implement the decennial census and other programs. He knows because he has been there. He is not just an academician—one of the most respected people in his field in the country—he actually helped run the Census Bureau at an earlier time. The combination of those experiences has prepared him well to lead the Bureau at a time when rapid developments and changes are occurring.

As a manager, he elevated the University of Michigan's Institute for Social Research to a premier survey research organization, respected throughout the country—actually, respected around the globe. Numerous Federal and State agencies and policymakers have sought his expertise in survey design and response. His work has received professional recognition through awards from various professional associations, including the 2001 American Association for Public Opinion Research Innovator Award and more recently the 2008 American Statistical Association Julius Shiskin Award for original and important contributions in the development of economic statistics. Ultimately, his deep expertise in survey response will help the Census Bureau focus on the most important goal of the 2010 census, which is to encourage all people to respond to the census.

Dr. Groves will undoubtedly face a host of operational and management challenges as we move closer to the 2010 census. However, I remain confident he is well equipped—remarkably well equipped—to understand the agency's inner workings, to lead his staff—he has led a large organization already; he served at a senior level at the Census Bureau before—and to also be a national spokesperson for the 2010 census and the agency's other equally important ongoing survey programs. It is for these reasons that I hope the full Senate will support his nomination and move it quickly.

Let me just reiterate, we are now about 8 months away from when the first forms go out as part of the start of the 2010 census. The Bureau has already completed something we call address canvassing—an operation in which 140,000 people on the ground nationwide were making sure the address lists we have to do the census are accurate.

Since the 2000 count, the population in this country is estimated to have increased by over 40 million people, with increased numbers of minorities and an increase in the number of languages spoken. Further complicating the 2010 decennial operations is the mismanagement and lack of preparation that occurred in past years, most notably in the failure of the field data collection automation contract, resulting in a last-minute decision to return to paper-based questionnaires, ultimately adding billions of dollars to the census budget. And it is only going to get harder the longer the Senate delays the confirmation process.

The reason we do not have a Census Bureau Director is not because we do

not have a qualified candidate. It is not because our Subcommittee on Homeland Security and Governmental Affairs has not endorsed his candidacy. We have done so unanimously, and actually we have endorsed him with acclaim. We are just lucky, very fortunate in this country to have—at a time when we are about to try to meet our constitutional responsibility to count everybody accurately and in a cost-effective way—to actually have somebody with his gifts and his talents to bring to the job. What we do not have is the permission to bring his name up for a vote in the Senate. If we leave here today without having had the opportunity to vote up or down on the nomination of Dr. Groves, we will have made a very grave mistake.

I understand our Republican friends are uncomfortable, unhappy with the pace for the confirmation process for Judge Sotomayor, who has been nominated, as we know, to be an Associate Justice on the U.S. Supreme Court. I voted for Chief Justice John Roberts a couple of years ago. The timetable for approving his confirmation was almost the very same from the day he was nominated by former President Bush to the day we voted for him here, it was almost the same number of days we are talking about with respect to the Sotomayor nomination. The timetable on Justice Alito: almost the same from the day he was nominated by President Bush until the day we voted here in the Senate—at least a majority of our colleagues did—to confirm him. It was almost the same number of days. I realize some of our colleagues are unhappy that we are providing the same kind of timetable for Judge Sotomayor that we provided for Justice Alito and Chief Justice Roberts. I, for the life of me, do not see what the beef is.

Just as I believe we are fortunate to have someone with Dr. Groves' credentials to serve as our Census Director, I think we are lucky to have somebody with Judge Sotomayor's credentials to serve on the Supreme Court. I have had the opportunity to meet with her. I know a number of my colleagues have too. I must say, among the things I most like and respect about her: She is up from nothing. She was a kid born in the Bronx, raised in the Bronx, and very humble, from a humble setting, a humble beginning. She worked hard, won herself a scholarship to Princeton, went there, excelled, and later went off to law school at Yale—two of the finest institutions we have in our country.

After that, she was a prosecutor for a number of years; beyond that, a corporate litigator; and finally nominated by a Republican President—George Herbert Walker Bush—to serve as a district court judge. By all observers, she did a superb job. She was not just so-so. She was an exceptional judge—so good, in fact, that a few years later, when there was a vacancy on the circuit court of appeals in her district, a Democratic President, Bill Clinton, said: I think she ought to get the nod. He nominated her for that position, and she was confirmed by a wide margin. So she has actually been through this process not once but twice. I think she has gone on to serve longer as a Federal judge—when you add together the district court time and the circuit court of appeals time, I think she has served longer as a Federal judge than anybody in the last 100 years who has been nominated to serve on the U.S. Supreme Court.

I have read the comments some of her colleagues have to say about her, including colleagues who were also nominated by Republican Presidents. They have been uniformly complimentary, very gracious in their remarks, very laudatory as well.

So I would say to my Republican colleagues, while you struggle to get over the fact that we are going to set the same timeline or try to set the same timeline for the confirmation of Judge Sotomayor that we set for the nominations of Judges Alito and John Roberts—I just don't understand the angst you feel.

I do know this: Apparently, the nomination of Dr. Groves is being held up along with 25 to 30 other names, all of whom have cleared committees, I think, by wide margins. We can't move forward on those nominations. Some of them maybe are not of grave consequence. The nomination of Dr. Groves is of grave consequence. If we have the opportunity later today in the course of business to actually consider a number of nominations that are before the Senate, that are awaiting our consideration, I would urge my colleagues on the other side of the aisle to allow the nomination of Dr. Groves to come here for a vote and to give us the opportunity to vote him up or down. I am sure we will vote him up, and I am equally sure he will make us proud with the service he will provide as the Director of the Census Bureau for our country in the years ahead.

With that having been said, I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BROWN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. Madam President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. BROWN. Madam President, just before walking into this Chamber, I attended a historic rally on health care reform across the street. Today, thousands of Americans—some from every State in this country—traveled to Washington for one of the largest health care lobby days in the history of the Nation. I joined these citizens—volunteers, almost all—representing more than a thousand organizations and more than 30 million people who are fighting to ensure that every American has access to affordable health care coverage.

I am inspired by their activism and energy and by the message I hear from these Americans. I am hearing from hundreds of thousands of middle-class Ohioans, and their message is: Don't let the special interests hijack this health insurance reform.

The message I hear is to make sure health care reform includes a strong public option. I will tell you about individuals, Americans like Joseph from Powell, OH, who are demanding they change. Joseph, an ordained pastor and doctor of psychology, wrote to me that as a child he suffered a stroke and became paralyzed and blind. His father's insurance expired and his family had no coverage. They struggled to provide the care he needed. As an adult, he is concerned that too many Americans are not receiving the medical care they need. Joseph wishes to see a public insurance option that will bring down costs and help all Americans lead a productive life.

The spirit and energy of the people I met today—thousands from around this Nation demanding change—reaffirms why health care reform is so important.

Health care reform is about keeping what works and fixing what's broken. Middle-class families from all over the country are demanding a health care system that reduces costs, enhances quality of care, and provides choice—choice either of a private insurance plan or of a public option. It is their choice. The existence of both will make the other behave better and make the other work better and will improve the quality of care for all Americans. Good old American competition.

People are reminding elected officials in the Senate and House about Americans like Ken from Findlay, OH. He lost his manufacturing job a few years ago, after working in the industry for nearly 30 years. Shortly before losing his job, Ken began having serious health issues—unexplained seizures and memory loss. In and out of the hospital, and out of a job, Ken was forced to find expensive private insurance after being denied Social Security disability and not yet old enough to be eligible for Medicare. Unfortunately for Ken, the price of the private insurance was simply too high.

After a near-death seizure a few years ago, Ken was hospitalized again and diagnosed with lupus. After a

month-long hospitalization, Ken entered a nursing home for rehabilitation.

All this treatment was done without insurance. With tens of thousands of dollars in medical expenses, Ken had to withdraw from his 401(k) savings early—facing tax penalties, I might add—ultimately draining his lifetime, hard-earned savings, and putting his retirement security in jeopardy.

It is unacceptable that Ohioans such as Ken, who worked hard all their lives, have to fight for health insurance simply to take care of their disability. That is why the time for health care reform is now.

The HELP Committee has accomplished a lot on quality, on prevention and wellness, in part thanks to the contribution and efforts of the Presiding Officer from North Carolina. We have done well with the workforce shortages issue. We have good language on fraud and abuse. Clearly, most important, the most difficult work is in front of us. We have more work to do to make sure health care reform is about providing people with affordable, quality health insurance that protects them, to protect what works and to fix what is wrong.

I need some of my colleagues to explain to me something that is pretty confusing. As we talk about this public option, I hear the insurance industry tell us over and over they can do things better, that with their marketing, their skills, their bureaucracy, their well-paid executives and all the things they do they can do things better. As they argue against the public option, they say the government cannot do anything right. What puzzles me is why the insurance industry is so afraid that the public option will put them out of business. They tell us the insurance business does things better, the government cannot do anything right, but yet they are afraid the public option will put them out of business. I don't understand.

I encourage all of the grassroots volunteers whom I met today to keep moving forward to remind your elected officials this legislation is not about helping out the insurance companies. Health care reform is about helping people such as Cheryl from Cleveland.

Cheryl is 59 years old and was recently diagnosed with diabetes. Her husband died just 4 months ago, and with no income, her insurance costs more than $400 a month. With no income, Cheryl cares for a disabled adult son and an autistic granddaughter. She writes that she has no choices and that our system is broken and unaffordable for her, for some of her neighbors, and for too many Americans. She writes that she needs health care reform now before all her savings are lost. That is why it is so important we do this now.

President Obama is right we not wait for next year or the year after. Some people say the economy is bad; we cannot do it now. The same people said when the economy was good: We cannot do it now. As Chairman DODD repeatedly said in the committee that Senator HAGAN and I sit on, 14,000 Americans every day are losing their health insurance.

It is people such as Cheryl I talked about and Ken and Kathleen and Joseph—Kathleen, I will speak about in a minute—people who are losing their health insurance every day, 14,000 Americans every single day. For us to wait an additional 6 months or a year, or some people say let's wait until the next election until the voters, again, say we need health care reform, 14,000 people every day are losing their insurance.

Health care reform is about helping small business owners such as Kathleen from Rocky River, OH, west of Cleveland. One of Kathleen's finest employees suffers from rheumatoid arthritis. Kathleen's premiums have increased to $1,800 a month, and after trying to purchase another plan, she was turned down because of her employee's arthritic condition.

Keep in mind, if you have a small business of 10, 20, 50 employees, and you have a decent insurance plan, if one of them gets very sick to the tune of hundreds of thousands of dollars, everybody's premium goes up because it is such a small insurance plan. Then so often the small business person has to give up and cannot insure their employees. Kathleen is being victimized, as are her employees, by that phenomenon. She does not want to fire her finest employee, nor should she have to.

I stand ready to work with my colleagues to design a public insurance option that will help provide middle-class families with economic stability, with stable coverage, with stable costs, with stable quality. I stand with the thousands of volunteers who were here today across the street demanding real change in our health care system. They are showing the world how change in America happens. Their activism is important—the stories of the people they are fighting for, people I just mentioned—Joseph, Ken, Cheryl, and Kathleen. That is why we cannot wait any longer. We need health care reform now, and we need a strong public option now.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. UDALL of New Mexico). The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. GRAHAM. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRAHAM. Mr. President, I ask unanimous consent to speak as in morning business for 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

AID TO PAKISTAN

Mr. GRAHAM. Mr. President, I want to speak on the record in support of the Kerry-Lugar legislation that was passed by this body basically without objection—by voice vote. It went through so quickly, to me it demonstrates the power of the bill, and so I want to congratulate Senator KERRY and Senator LUGAR for this piece of legislation.

To the public, what I am talking about is an aid package to Pakistan of I think it is over $1.5 billion a year for the next 5 years. I know we need money here at home. Trust me, in South Carolina we have the third highest unemployment in the Nation. Times are tough. But all I can tell the taxpayers and the American people is that what happens overseas does matter.

September 11 was planned in Afghanistan. It was an area of the world, quite frankly, that we ignored. Pakistan has been an ally in the war on terror generally. It is a regime with nuclear weapons. It is a country that has been hit incredibly hard by the downturn of the world economy. There are millions of people in Pakistan who are looking to find a better way. The government is fighting forces that are aligned with the al-Qaida movement—the type of people who would impose a period of darkness in the Middle East that would affect the quality of our lives. So $1.5 billion is a lot of money, but it will do a lot of good in Pakistan and it will help this government and the Pakistan military combat the growing threat of terrorism in Pakistan. The aid package is going to help the government provide a better quality of life for its people. Where the government fails to provide a decent quality of life in Afghanistan and Pakistan, you will have a vacuum that will be filled by the Taliban. The Taliban is not in favor with the Afghan people, but when the government of Afghanistan cannot deliver justice, provide the basic necessities of life, that allows the drug dealers and the Taliban to come along and fill in the vacuum.

Pakistan is a large country with nuclear weapons. It is in our national security interest to make sure that the government is stable, that the military will be supportive of civilian control of the government and will be able to defeat the forces of extremism we have seen. We know what they can do when left unchecked. So this bill is an aid package which focuses on civil capacity.

The bill also makes sure that we know where the money is going to go. It is not a $1.5 billion check to Pakistan that could be stolen through corruption. It is a very accountable system that follows the money. It makes an effort to upgrade the Pakistan military to deal with counterinsurgency,

because they do not have the capacity now that they need. Again, it provides assistance to the Pakistani people and the government to improve the quality of their lives.

I think we are getting something for our money. I think we are going to get a good return if we can stabilize Pakistan. It helps us in Afghanistan, where we have thousands of American troops stationed and fighting as I speak.

So to Senators KERRY and LUGAR, congratulations on being able to get this bill through the Senate so swiftly. To Senators MCCONNELL and REID, I applaud them both, the minority and majority leaders, for working for the common good here. The administration has also been very supportive. I have had my differences with this administration, and I will continue to have them, but I want to acknowledge that Ambassador Holbrooke, who is now in charge of monitoring Pakistan and Afghanistan as a unit, has done a good job of focusing on what we need to do in both countries, because one does affect the other.

The Kerry-Lugar bill, according to the Ambassador and General Petraeus, would be the most important thing the Congress could do to aid the Pakistan Government and the Pakistan military at this crucial time. So I am glad to see that in a bipartisan fashion we responded to that call from our general and from our Ambassador, and hopefully this will become law soon.

To the American taxpayer, I know times are tough. I know money is in short supply. But quite frankly, this is an investment we have to make. We have soldiers serving in Afghanistan. If we can make Pakistan more secure and less of a safe haven for terrorists who are attacking our troops, that makes their lives better. If we can stabilize Pakistan and put it in the column of moderation and not extremism, not only will our Nation prosper now, but future generations will be able to prosper. It is impossible for us as a nation to have a strong, vibrant economy and to enjoy the freedom we enjoy today and pass it on to our kids and grandkids without confronting these problems head on. Anytime you ignore problems such as Pakistan and Afghanistan, they always come back to bite you.

This is a wise investment at a time that it matters. The tide is turning in Pakistan, it is turning our way, and I hope this aid package will allow it to accelerate and get a result in Pakistan that helps us in Afghanistan.

Every American should be proud of the history and tradition of our country. We have been blessed in many ways. The challenges we face are enormous, but we have to remember we are the most blessed nation on Earth and this is a chance for us not only to help ourselves but help the world at large.

I am proud of the Senate. I look forward to working in the future with Ambassador Holbrooke and the administration on Afghanistan, Iraq, and Pakistan, to find ways to make sure we are successful. This is not a Republican or Democratic problem, this is a problem for anyone who loves freedom. This is a problem that needs to be addressed and the Kerry-Lugar bill does address the problem of Pakistan in a reasoned way.

With that, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BURRIS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURRIS. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

STRUGGLE FOR EQUALITY

Mr. BURRIS. Mr. President, this June we celebrate our diversity as Americans as we mark Pride Month. In many ways, the struggle for equality is a singular thread that is woven through the fabric of American history.

From the Declaration of Independence, to the Emancipation Proclamation, to women's suffrage, from school integration, to Stonewall, the story of this Nation is a story of a long, slow march toward equal rights for every citizen. It is a story of ever greater inclusiveness—a tribute to the enduring promise of the American dream.

Together, we can reduce discrimination based on race, ethnicity, religion, sex, sexual orientation, and gender identity.

I believe we can achieve equal rights for all. I believe our next step in this ongoing struggle must be to secure the rights of the gay, lesbian, bisexual, and transgender community. We must start by stepping up our efforts to prevent hate crimes.

It is hard to believe that it has been over a decade since Matthew Shepard was brutally beaten and left to die on a bitterly cold Wyoming road. His story rightly sparked intense national debate about the nature of hate. It reminded us that if Matthew was vulnerable, anyone could be vulnerable to such a vicious attack.

The thing that is particularly heinous about hate crimes is that they are not just an assault on an individual, they are intended as an indiscriminate assault on an entire community.

Our government has a moral obligation to say this is wrong, and we need to make sure our law enforcement officers and our courts have all of the resources they need to deliver justice.

That is why I am proud to be a cosponsor of the bill inspired by Matthew's tragic story. I do not want to see another year go by without the Matthew Shepard Local Law Enforcement Act as the law of the land.

But we must not stop there. Far too many gay and lesbian Americans face not just violence but other forms of discrimination in their daily lives.

We are fortunate in Illinois to have laws on the books to protect our citizens from discrimination based on sexual orientation or gender identity. I believe those equal protections should be Federal law. I am also a proud cosponsor of the Employment Non-Discrimination Act. It is the fair thing to do, and it is the right thing to do, and it is far overdue.

Passing ENDA will not end all forms of discrimination. One of the worst forms of discrimination is not only destroying people's careers and lives, it is undermining our national security.

I am talking about the military's ''Don't Ask, Don't Tell'' policy.

To all of those who have served, and to those currently serving in our Armed Forces, let us say: Thank you—thank you to those who have served. We honor your service. We honor your sacrifices. And we honor your courage.

This Nation is a better, safer place because of them. They fight for this Nation every day. We should end this offensive and discriminatory policy so they can be the best soldiers, sailors, airmen, and marines they can be, while living their lives openly and honestly.

Especially in this time of war, when we face terrorist threats, we must welcome the service of every patriotic man and woman who signs up to defend our freedom. When we dismiss the sacrifices made by those with a different sexual orientation, we determine the strength—we undermine the strength—of our fighting forces.

When we fail to recognize the brave contributions that gay and lesbian servicemembers continue to make every single day, we diminish ourselves as much as we diminish their service.

Senator TED KENNEDY has long been a leader on this issue, and I know he wants to see legislation passed to end the ban. I support his important work and I will do all I can to support those efforts.

We will see justice, and not just in the military, but also for gay and lesbian families.

Last week, President Obama took a first step toward ending the inequality of gay and lesbian families when he extended certain benefits to domestic partners of Federal employees. For the first time, same-sex partners can be included in the Federal Long Term Care Insurance Program. Now any employee will be able to use sick leave to care for a same-sex partner, just as an employee can take time off to care for an opposite-sex spouse.

I applaud the President for beginning to tear down these inequities, but

while this Executive order represents an important initial step, there is so much more to be done. The U.S. Government is far behind the private sector on this front. A large number of Fortune 500 companies already offer comprehensive benefits to same-sex couples. They have done so for many years, sometimes for over a decade. This allows them to compete for the best and brightest, attracting talented professionals regardless of sexual orientation or gender identity. We need to make sure the Federal Government is able to compete for the same talented people.

I am proud to support a bill that would extend additional benefits to the domestic partners of Federal workers. This legislation, introduced by my friend Chairman LIEBERMAN and Ranking Member COLLINS, will extend the full range of benefits to these couples. This includes access to the same Federal health and retirement plan currently available to the recognized spouses of government workers. As the free market has shown, extending these benefits to same-sex partners is not only the right thing to do, it also makes good business sense.

I know that this week, the many Pride events around the country mean a lot of different things for people in the gay, lesbian, bisexual, and transgender community. For some, it is a chance to reflect on the progress and accomplishments made by this community and to organize for the future. For others, it is an opportunity to reflect and to honor those who have been lost to AIDS. And still for others, it is a chance to feel safer, to feel empowered to celebrate a part of something bigger than themselves, and to be reminded that everyone should be proud of who they are. However each of us celebrates Gay and Lesbian Pride Month, we must remember that gender equality is far from over. But just as the Emancipation Proclamation set this country on the path to racial equality, just as women's suffrage paved the way for gender equality, so that singular refrain throughout our history will be taken up again. The struggle for equality will not be easy, and it never has been, but if we keep at it, we will get there.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming is recognized.

Mr. ENZI. Mr. President, might I inquire what the status is?

The PRESIDING OFFICER. We are on the executive nomination of Harold Koh.

Mr. ENZI. Are there time restrictions?

The PRESIDING OFFICER. We are in postcloture, which requires debate on the pending matter.

Mr. ENZI. Mr. President, I ask unanimous consent to speak as if in morning business for such time as I might consume.

The PRESIDING OFFICER. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. ENZI. Mr. President, I rise today to speak about the need to reform our Nation's health care system. If we are to be successful, we must undertake this effort with the greatest care and deliberation.

When it comes to health care reform, we have started down this road before. Last Congress, I proposed legislation called Ten Steps to Transform Health Care in America in an effort to provide a blueprint from which we could begin to address the challenge of improving our health care system.

I might mention the way that came about is that Senator KENNEDY as the chairman of the Health, Education, Labor, and Pensions Committee, and I as the ranking member, worked together on a number of bills. In fact, I have quite a record for being able to work in a bipartisan way to get bills completed. We were very busy on the Higher Education Act and other education issues, so I took some leadership in the health area, and we talked about principles we wanted to achieve. Then I collected ideas from both sides of the aisle and put together this package of 10 steps that will transform health care in America as a blueprint to improve and address this challenge of improving our health care system. So it isn't something on which he or I just started working.

After I introduced the bill, I took my message of health care reform directly to the people in my State. I traveled 1,200 miles and held a series of events in March of last year to provide the people of Wyoming with the chance to see what I was working on and to voice their concerns with our current system. Everywhere I went, I heard the same message repeated over and over, and that was that people want change. They want a system that will provide them with a health care system that is affordable, more available, and easier for them to access. Simply put, the people of Wyoming, as do people all across the country, want more choices and more control over their health care. That was the goal of my Ten Steps bill. It was drafted with the aim of leveling the playing field in tax treatment of health insurance. It was also intended to provide a helping hand to low-income Americans in the form of subsidies that would ensure access to quality, affordable health insurance.

As I traveled through the State, I also heard from members of the small business community. They made it clear that they wanted greater equity and access to a plan that would allow cross-State pooling so they could band together with small business owners in other States and get better rates on the health insurance they provide to their employees.

In the end, no matter whom I spoke with, they all had one message they wanted me to bring to the Senate: Keep costs down and under control. There have to be limits. That is why, as the only accountant in the Senate and as a member of the Budget Committee, I was and remain very concerned with the effect any health care reform proposal will have on our Federal budget, both in the short and the long term.

I can't be the only one who heard those things when I was back home. I think my experience on the road was very similar to that of almost every one of my colleagues. Last year, whether they were campaigning for themselves or for other members of our party, we logged on a lot of travel miles. We met with and spoke to people from all walks of life who came from every imaginable background. Some were from large cities and towns with large populations and others came from the smaller cities and some very small towns with fewer people and resources. Whomever we spoke to and wherever we were, we all heard the same concerns: We need a better health care system, and we need it now.

In response, I was pleased to join with several of my colleagues as we continued to work on health care reform this year. As the ranking member on the Senate Committee on Health, Education, Labor, and Pensions and in my service on the Senate Finance Committee, I have been working to foster and facilitate a constructive dialog with my colleagues on both committees. I have also met with the President and administration officials on numerous occasions so we could share ideas on how to best craft a strong, bipartisan bill. As the debate on health care reform proceeds, I continue to stand ready to work on this critical issue.

This is likely to be the most important legislation we will ever work on as Members of the Senate, no matter how many terms we serve. How well we handle this crucial issue will have an impact not just today but for many tomorrows and countless years to come. If we fail to provide the change that is needed, it may be a long time before the Senate will ever try to do this again.

I am convinced we have a perfect storm before us as we face this issue. The time is right, the political winds are with us, and we have the support and encouragement of the current administration and the people of this Nation to get something done. That is why a good bill and a bipartisan effort are well within our grasp.

If we are to do the work that is before us and do it well, however, we can't have one side or the other try to grab the reins and lead the effort exclusively in their direction. The American people are looking for us to solve the problem, and they want to know we wrote this bill together, amended it together, and, most importantly, finished

it together. They know no one side has all the answers, so they do expect us to put partisanship aside. This is too important an issue not to follow a path that will produce a bill that will have the support of 75 or 80 Members of the Senate. I have every belief we can do that, and that is why I am so strongly committed to bringing massive change to the policies laid out in the recently filed Kennedy bill. I will continue to try to bring that change to the work being done by the Health, Education, Labor, and Pensions Committee and in the Finance Committee.

Let me be very clear about what I believe we can do if we put partisanship aside and work together. We can draft a good bipartisan bill, one that will draw a large majority to its side, and we can get it done this year.

Last week, the HELP Committee began to mark up a very flawed piece of legislation. I understand the difficult circumstances that brought Senator DODD to chair this extraordinarily complex bill, and I appreciate Senator DODD's willingness to take on the task, as he also chairs the Banking Committee. However, the legislation we are considering in the HELP Committee is broken, almost to the point of being beyond repair. It is too costly and it is incomplete. Of course, we are promised we will get the other pieces of the bill. Arguments made about the unfairness of estimating the cost of an incomplete bill show that in the race to revamp our health care system, this bill was a false start. In order to get this right, we should slow down, and in some areas we need to start over.

This shouldn't be a matter of speed. To stay with the analogy of health care, no one goes to a doctor or a surgeon based on how fast they can operate or conduct an examination. It never matters how long it takes. All that matters is that they get it right. We should do the same.

I am not suggesting that we come up with a new process to develop this legislation. All I am saying is that we need to make better use of the one we already have in place, the way we have always done things in the Senate when we want to make sure we get it done right.

For instance, it wasn't all that long ago that we had to do something about our Nation's pension system. We worked together. We talked about what we had to do together. Then we came up with a way to get there, together. The result was a bill that when it came to the floor was over 1,000 pages long and it had the immense involvement of two committees—the same two committees we are talking about with health care, the HELP Committee and the Finance Committee. Those two committees came together on a bill of over 1,000 pages. When it came to the floor, we already had an agreement between the two committee members which was taken to the leaders, which meant we had an agreement with everybody in the Chamber that there would be 1 hour of debate, two amendments, and a final vote. I asked the Parliamentarian when the last time was that there was a bill of that complexity that had that kind of an agreement before we even debated it, and that person said: Not in my lifetime. That is what is possible around here if we work together. That is what we did with the Nation's pension system.

I think we were talking about the Pension Benefit Guaranty Corporation being short a drastic $24 billion. Boy, that doesn't look like much money anymore, does it? No. We are talking about some errors on this one that are over $58 billion. That pensions bill wasn't so long ago. We worked together, we talked about what we had to do together, and then we came up with it together. The result was a bill that only had the two amendments offered to it because the agreement on both the illness and the remedy was so strong.

As we prepared to begin the markup of this bill last week, we received a troubling preliminary analysis from the Congressional Budget Office and the Joint Committee on Taxation regarding the costs and coverage figures associated with the legislation. In its review of the proposal, the CBO found that enacting the proposal would result in an increase in spending of about $1.3 trillion, with a net increase to the Federal budget deficit of about $1 trillion over the 2010-to-2019 period. This cost estimate did not include the promised ''significant expansion of Medicaid or other options for subsidizing coverage for those with an income below 150 percent of the poverty level.'' As the markup continues, we will be asking the CBO for an official analysis of the impact of the addition of such a policy on the Federal budget deficit.

We are having more and more seniors moving into the category of long-term care—and we have a proposal before us, which we will debate when we get back. The Senator from New Hampshire, Mr. GREGG, ranking member on the Budget Committee, pointed out that the only part of that proposal that gets scored are the premiums people would pay in over that first 10 years for their long-term care, which comes to about $59 billion, which shows a surplus of $59 billion. But what it doesn't take into consideration is the obligation to those people who are paying in those premiums that they will get long-term care.

The expected cost of that long-term care to those people paying in that $59 billion is $2 trillion. The proposed payment doesn't match the proposed costs, and it would not be sustainable beyond the 10 years. Whether or not people actually start taking long-term care benefits right away, we will have another Federal Government program with a budget deficit. At the same time we received notice of the preliminary analysis of the Kennedy bill, we got word the Finance Committee was postponing the markup on health care legislation, after reports surfaced that the CBO was preparing an estimate of its legislation that projected an increase to the Federal deficit of $1.6 trillion over the next 10 years. All of this was on the heels of President Obama's speech last week at the American Medical Association, in which he said:

> Health care reform must be and will be deficit neutral in the next decade.

The bill we have before us misses the target of this commitment by more than $1 trillion. Again, the bill is still missing language in three key areas.

I will take a few moments to speak about our Nation's deficit and overall fiscal and economic condition. My concern about the runaway spending in the Kennedy bill—I should call it the Kennedy staff bill; I know the Senator, had he been able to work with me, would have come up with some different conclusions on the bill. My concern with the runaway spending in the Kennedy staff bill is not simply a concern that it breaks faith with the President's health care reform commitments. Rather, I am deeply troubled by the direction this bill would take us during a truly perilous fiscal age.

I was elected to this body in 1996. In my first years in Congress, we moved from a budget deficit to a budget surplus. I am deeply disappointed that nearly 13 years later, our projected deficit for this fiscal year exceeds $1.84 trillion, and our national debt exceeds $11.4 trillion. That is bad. People are starting to take notice, and that, unfortunately, includes our creditors. Add to this the losses to our gross domestic product and an unemployment rate heading toward 10 percent and the news is worse. Again, there have to be limits. People have them in their families, municipalities have them, and most States have them. The Federal Government doesn't.

According to the Federal Reserve, the level of debt-to-GDP ratio is estimated to reach the highest levels it has since immediately after World War II. The increasing spread between short-term and long-term treasuries is evidence that global investors are increasingly concerned about our Nation's level of debt and the real potential for future inflation.

In recent weeks, Treasury Secretary Geithner traveled to China to attempt to ease growing concerns about our ability to pay off our growing debts. When Geithner told an audience of Chinese students at Peking University that ''Chinese assets are very safe,'' reports are that this statement drew loud laughter.

It is really not a laughing matter for us. It is serious. Tough action, not ''I

will tell you what you want to hear'' speeches, is what we need.

On the State and local front, our economic indicators are equally troubling. On Thursday, the Rockefeller Institute of Government issued a report on State personal income tax revenues for 2009. They are falling fast; 34 of the 37 States in the report saw declines in tax revenue, indicating that it will be increasingly more difficult than expected for States to close their widening budget gaps. I can hear calls for more bailouts, but my question is, who is going to bail out the Federal Government?

These numbers provide the critical backdrop as we consider the new deficit spending included in the Kennedy staff bill. Recently, Fed Chairman Bernanke stated that ''achieving fiscal sustainability requires that spending and deficits be well controlled.'' He went on to note that ''unless we demonstrate a strong commitment to fiscal sustainability in the longer term, we will have neither financial stability nor economic growth.'' For these reasons, the Kennedy proposal requires an entire rewrite with respect to its impact on our Federal budget deficit.

Just as troubling as this bill's impact on the deficit is its failure to help tens of millions of Americans get the health insurance they need. The Congressional Budget Office estimates that, if enacted, this bill would only provide health insurance for one-third of the Nation's uninsured. Let's see, $1 trillion for 16 million people. This number falls far short of the President's stated goal of ''quality, affordable health insurance for all Americans'' in his recent letter to Chairmen KENNEDY and BAUCUS.

Of even greater concern, the CBO projects that about 10 million individuals who would be covered through an employer's plan under current law would not have access to that coverage under the Kennedy legislation. This figure breaks President Obama's oftenrepeated promise during both the 2008 campaign and since taking office that under his health care plan:

> If you like your health care plan, you will be able to keep your health care plan, period. No one will take it away, no matter what.

Under the Kennedy plan, that promise rings hollow for millions of Americans, and that is simply unacceptable. I know the President has already scheduled an event on one of the networks to push his health care ideas. When it airs, I am sure we will hear him repeat the line over and over: If you like the health care plan you already have, you can keep it.

If he makes that promise again, every time we hear him say that, we should remind ourselves that the White House has already admitted that such statements aren't to be taken literally. I think that means they are not true.

I cannot recall ever hearing something like that from the White House, but those are their words. Maybe they should be applied to the whole presentation—that none of it should be taken literally.

I know one thing that can be taken literally, and we ought to give it straight to the American people, and that is this: Under the Kennedy proposal being rolled out, you would not be able to keep the care you have right now. Washington bureaucrats will be able to deny you and your family the care you need and that you fully deserve.

Unfortunately, that is not the only thing that we are in denial about. We are also in denial when it comes to the cost of the Democrats' health care plan and our ability to work our way out of a hole of debt that only promises to grow deeper and deeper for a long time and for many years to come.

A lot of times we talk about how we are spending our kids' and grandkids' money. I really feel compelled to point out that we are already spending our seniors' money. Why is that? Well, normally, what happens in this country is that a little bit is taken—well, a bunch is taken—out of your check for Social Security, which is matched by the employer. That amount of money each month has always gone to pay the seniors who are retired, their pensions, and to have a little bit of surplus. But do you know what? It is not doing that anymore. We are having to take money out of the trust funds now to supplement that to be able to pay the people who are retired now—and we are not even to the baby boomers yet. So we have a problem.

Unfortunately, that is not the only thing we are in denial about. Having shown the devastating impact of the Kennedy bill on the Federal deficit, and the failure of it to provide access to adequate health coverage for millions of Americans, I want to turn to one of the three foundational principles of my 10-step plan; namely, improving the quality of care.

On this front, I think the Kennedy plan again fails to live up to the promise laid out by President Obama to ''improve patient safety and quality of care.'' That is very important—to improve patient safety and quality of care.

I am deeply troubled by the real possibility that comparative effectiveness research, which is mentioned in the bill and has been debated in the committee, and which has been held intact in there, will be used as a cost-containment measure to ration care under this legislation. The result would be, for millions of Americans, a Federal bureaucrat would dictate the type of care they receive and interfere with the doctor-patient relationship.

As the Kennedy bill proceeds through Congress, I will fight to strip those provisions that will delay and deny needed health coverage to Americans. I spoke at length in committee about the truly horrible stories of rationing care that we hear about from the United Kingdom. I will continue to speak out to make sure this type of so-called care is not imported to the United States.

Finally, I am deeply troubled with a number of other policies advanced in the Kennedy bill. I believe the community rating provisions will result in skyrocketing premium costs for younger Americans. I am troubled that the bill doesn't provide incentives to encourage individuals to make healthier choices. There are a lot of choices we can make to improve our health ourselves.

As we complete the second week of the HELP Committee markup, we are still missing the guts of the Kennedy proposal. We expect that the final proposal will include a government-run plan, a mandate on employers to provide insurance, and a provision dealing with biosimilars. It is difficult to comment on these provisions until they are released.

Proponents of the government-run option—including the President—consistently argue that a public plan is necessary to keep the insurance companies honest and to foster competition. With respect to provisions dealing with preexisting conditions, rate bands, and other reforms, we are all committed to taking action to keep insurers honest and make sure people with preexisting and chronic diseases can get insurance. The creation of a new government program at a time when the experts and Medicare trustees tell us that Medicare stands on the brink of insolvency, does nothing to foster honesty; it fosters fiscal irresponsibility. We are borrowing to pay for the government-run programs we have now. If you already have trouble making your mortgage payments, why would you go out and buy a boat and an RV?

With respect to the notion that we will be fostering competition with the creation of a government-run health plan, I think the public is growing tired of government intervention in our day-to-day lives. First, there was our involvement in the mortgage system and then the banking system and then we got more involved in our Nation's automotive industry. It is certainly more than a possibility that the government has taken on more than it can handle. We are operating at more than the maximum capacity already. Having government take over our Nation's health care system may be the last straw.

Think about that—about all the things that just this year the government has decided to take over. The comment I get at home, and in other places I have traveled across the United States, is, doesn't the government have a little bit of trouble just running government?

There is certainly a role for government as a strong regulator of free market enterprise, but the inclusion of the government as a principal player in our competitive markets is entirely inconsistent with our Nation's capitalist economic system. I will forcefully oppose the creation of a government-run health plan.

Before I conclude, I would like to say a few words about the current process of health care reform in the Senate Finance Committee. I said at the outset that I am committed to working toward bipartisan health care reform. As a member of the Finance Committee, I have witnessed and have been a part of at least the foundations of such reform. There are many hurdles to remain, but I thank Chairman BAUCUS and Ranking Member GRASSLEY for their very hard work on this extremely complex, difficult issue. We have never had an issue that involved as many people in this country—100 percent of the people. It is important we get it right, that we take the time to get it right. Ranking member GRASSLEY has been cooperative and Chairman BAUCUS has been open and that has been extremely helpful. We have spent hours upon hours in that committee receiving inputs and options from both sides on how to reform our Nation's health care system.

This stands in great contrast to the partisan process that has, unfortunately, unfolded in the Health, Education, Labor, and Pensions Committee we have been tediously working through. There have been comments about how many amendments we turned in. We had 388 amendments. I had to remind them that if you don't get any piece of the drafting, you have to get your opinions in somehow and you do it through multiple amendments. Probably half those amendments were to fix grammatical errors, punctuation, typos—about half of them. Those were accepted.

It is my hope that the difference in process will result in a difference in substance between the Health, Education, Labor, and Pensions Committee legislation and the Finance Committee legislation. I will continue to work in the Finance Committee to shape legislation that improves the quality of our health care, reduces costs, is responsible in its budgetary impact, and increases access to care for all the American people.

As I have said, there is a long way to go on that committee and many differences to resolve, but I continue to work in good faith and hope for bipartisan, responsible health care reform. I am holding out hope a better, more inclusive process will emerge as we continue our work in the HELP Committee. I hope that a change will come about soon, but the bill we currently have before us is a clear sign that just as we have been excluded early on in the health care reform effort, it looks like we will continue to be excluded as the process continues. There is time to get us included. There is an important reason to get us included. But we will see.

In the end, for me and many people across this country, our discussions about health care can be summed up in a short story with a simple moral. I was reading a book about a Wyoming doctor who came home and decided to settle in a town called Big Piney. He found some ranch land he liked, and he decided to make it his home. When he was attending a local rodeo, one of the cowboys competing in the contest looked at him and said: You aren't from here, are you?

He said: Well, I am going to be, I am a doctor.

Unable to control his enthusiasm, the cowboy walked away shouting to all within earshot: Hey, we finally got ourselves a doctor.

That is what health care is all about in Wyoming, the West, and countless towns and cities all across our country.

I have to tell you, this doctor spent most of his life in the Congo. He studied Ebola and established a lot of health clinics over there. When he retired, he did move to Wyoming. He did health care the old-fashioned way. He made house calls. He sat with people while they were dying. He had a lot of friends over there. Incidentally, he did not take Medicare or Medicaid. He said there were too many strings attached to it. He set up a foundation, and people he worked with could make a donation to his foundation instead. That way he wouldn't violate any Federal rules about treating some people and taking money. He was a tremendous doctor. Unfortunately, we lost him this year. So that area is once again without a doctor. If you can send me one who likes rodeos, we would be happy to have him there. That is what health care in Wyoming is about.

In the big cities and towns of Chicago, New York, Boston, and Los Angeles, it seems to me there is a hospital or doctor's office on almost every corner. In States such as Wyoming, however, they are few and far between, which makes health care a very precious commodity. I always tell people the statistics are we are short every kind of provider in Wyoming, including veterinarians, which always brings the comment: Surely, veterinarians don't work on people. We say: Yes, if you are far enough from a regular doctor, you are happy to have a veterinarian. You just hope he doesn't use the same medicines!

If we are not careful with this legislation, it will not make health care more plentiful and abundant, it will make it even more rare and difficult to obtain, and when health care gets more expensive and less available in places such as the big cities in this Nation, imagine what it will be like in the small towns of Wyoming and the West. People back home know what it will be like—another one-size-fits-all policy that did not fit so well into the rural areas of this country to begin with. That is why people are worried right now. The only way we can assure them they do not have to worry is if we take the time to make sure we get it right the first time. Then, and only then, will the American people feel like they will be getting what they said they wanted during our campaigns last year—not just change but change for the better.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, I ask unanimous consent to be recognized as in morning business for the time I consume.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INHOFE. Mr. President, let me say of my friend, the senior Senator from Wyoming, he does articulate this issue well. He has spent countless hours working on it. When you listen to him, his depth of knowledge and trying to work out something that would give improvements and avoid a total socialization of medicine, he knows what he is talking about.

When I go back to my State of Oklahoma, it is not all that different than from when he goes back to his State of Wyoming and people ask the question: If government isn't working well now, why do we want to put all the rest of these things in government, whether it is health care or the banking industry, the insurance industry, oil and gas and the other takeovers we are witnessing right now?

I do think you can summarize what he said very simply by merely saying, if there is a government option, of course, this is a moving target. For those of us who are not on a committee that is dealing with health care reform, we are not sure what is going on there, and I am not sure anyone else does either because it is a moving target. From one time to another, we hear different things that are going to be in the bill, and then they change their mind.

One thing we know, though, they keep saying there is going to be a government option. If there is a government option, we are going to see a huge impact on insurers, private companies that offer insurance, and you will see that market dwindling. You can't blame them for that.

The other thing that is a certainty in this whole issue of the Kennedy bill and what they are trying to do, what the administration is trying to do with the health delivery system in America is they would be putting Washington between the patient and the doctor. That gets a response when I am back in Oklahoma of we don't want that to happen.

So we have right now a lot of invasions on the systems that have worked well in America.

NATIONAL ENERGY TAX

I wish to talk about one other issue since tomorrow the House is scheduled to vote on what is known as the Waxman-Markey bill, which is the Democrat's answer to the worst recession in decades, a national energy tax, a tax designed to impose economic pain through higher energy prices and lost jobs or as a recent Washington Post editorial put it:

> The bill contains regulations on everything from light bulb standards to the specs on hot tubs and it will reshape America's economy in dozens of ways that many don't realize.

In other words, this would be, if it were to pass, the largest tax increase in the history of America. I know a little bit about this issue because I started working on this issue back in the late nineties when they were trying to get the United States to ratify the Kyoto treaty. The Kyoto treaty is very similar to the proposals we have had since that time. We know what that would have cost at that time. Somewhere between $300 billion and $330 billion a year as a permanent tax increase.

There have been proposals on the floor of the Senate in 2003, 2005, 2007, 2008, and now this time. We in the Senate have more experience in dealing with this issue than the House does because this is the first time they have ever had it up for consideration.

Over the past several weeks, Speaker PELOSI has been facing an insurrection within her own ranks. We have been reading about the Democrats who are pulling out saying: We don't want to be part of the largest tax increase in the history of America. More and more people are jumping in and saying we cannot have it. As of yesterday, the American Farm Bureau came in opposing, the strongest opposition to this legislation.

Let me say, if the Democrats are having trouble passing this bill in the House, where the majority can pass just about any bill it wants, then there is no hope for a cap-and-trade bill to come out of the Senate. I think we know that. We watched it.

Right now, by my count, the most votes that could ever come for this largest tax increase in the history of America would be 34 votes—34 votes. They are not even close.

I say that because there are a lot of people wringing their hands: She wouldn't bring this bill up in the House on Friday unless she had the votes. Maybe she will have the votes. There has been a lot of trading, a lot of people getting mad. Nonetheless, she may have bought off enough votes to make it a reality.

The fact is the Waxman-Markey bill is just the latest incarnation of very costly cap-and-trade legislation that will have a very devastating impact on the economy, cost American jobs by pushing them overseas, and drastically increasing the size and scope of the Federal Government.

In the Senate, we have successfully defeated cap-and-trade legislation in the years I mentioned. Four different times it has been on the floor. I remember in 2005, I was the lead opposition to it. Republicans were in the majority at that time. It had 5 days on the Senate floor, 10 hours a day, 50 hours. It was the McCain-Lieberman bill at that time. It was defeated then and by larger margins ever since then.

Just a year later, with the economy in a deep recession, it is hard to believe that many more Senators would dare vote in favor of legislation that would not only increase the price of gas at the pump but cost millions of American jobs, create a huge new bureaucracy, and raise taxes by record numbers. It is not going to happen.

I appreciate that my Democratic colleagues desperately want to pass this bill. They argue that cap and trade is necessary to rid the world of global warming and to demonstrate America's leadership in this noble cause. But their strategy is all economic pain and no climate gain. This is a global issue that demands a global solution. Yet cap-and-trade advocates argue that aggressive unilateral—unilateral, that is just America; in other words, we pass the tax just on Americans—aggressive unilateral action is necessary to persuade developing countries—now we are talking about China, India, Mexico, and some other countries—to enact mandatory emission reductions. In other words, we provide the leadership and they will follow. But recent actions by the Obama administration and by China and other developing countries continue to prove just the opposite. They continue to confirm what I have been saying and arguing for the past decade, that even if we do act, the rest of the world will not.

If you still believe—and there are fewer people every day who believe that science is settled—that manmade gases, anthropogenic gases, CO_2, methane are causing global warming—there are a few people left who believe that. If you are one of those who still believes that, stop and think: Why would we want to do something unilaterally in America? It doesn't make sense. The logic is not difficult to understand.

Carbon caps, according to reams of independent analyses, will severely damage America's global competitiveness, principally by raising the cost of doing business here relative to other countries such as China, where they have no mandatory carbon caps. So the jobs and businesses would move overseas, most likely to China.

This so-called leakage effect would tip the global economic balance in favor of China. A lot of them are saying China is going to follow our lead, they are going to do it. Look at this chart. This person is the negotiator for the administration. His statement is: We don't expect China to take a national cap-and-trade system. This is the guy who is supposed to be in charge of seeing to it that they do. This is Todd Stern. He is admitting it.

I wish those people who come to the floor and say: Oh, no, we know that if America leads the way, China is going to follow us—they are sitting back there just rejoicing, hoping we will go ahead and have a huge cap-and-trade tax to drive our manufacturing jobs to places such as China where they don't have any real controls on emissions, and the result would be an increase in CO_2. In other words, if we pass this huge tax in this country, it is going to have the resulting effect of increasing the amount of CO_2 that is in the atmosphere.

By itself, China has a vested interest in swearing off of carbon restrictions in order to keep its economy growing and lifting its people from poverty. Add unilateral Federal U.S. action into the mix, and we give China an even stronger reason to oppose mandatory reductions for its economy. And China understands this all too well. I believe they will actively and unfailingly pursue their economic self-interest, which entails America acting alone to address global warming.

Consider that in other realms, whether on intellectual property rights or human rights. The Chinese have conspicuously failed to follow America's example. We have tried to get them to do it, and they haven't done it. All the human rights efforts we have gone through to try to get political prisoners released and all these other things we have said to them to do it—we have threatened, we have asked, we have begged—and they do not do it. So why would they do this? So for China, climate change will be no exception.

My colleagues in the Senate are rightly focused on the economic effects this bill will have on their States and their constituents. But with China and other developing countries staunchly opposed to accepting any binding emissions requirements, we should be asking a more fundamental question: What exactly are we doing this for? If the goal of cap and trade is to reduce global temperatures by reducing global greenhouse gas concentrations, and if China and other leading carbon emitters continue to emit at will, then how can this supposed problem be solved?

Well, if I accept the alarmist science that anthropogenic gases are causing a catastrophe, then reducing global greenhouse gas concentrations is a solution. But the unilateral Federal solution, again, that America must first act to persuade China and others to follow—please follow us, please pass a tax

in your own country, and then they are going to be following our example—there is no evidence that has ever happened before or that it would happen again. The only thing America gets by acting alone is a raw deal and a planet that is no better off.

Now, my Democratic colleagues want to sweep this reality under the rug. They argue that cap and trade—and I hope everyone understands what cap and trade is. I have often said, and other people have said—including some of the advocates of this—that they would prefer to have a carbon tax over cap and trade. Well, if you are going to have one or the other, I would too. But the only reason they use cap and trade is to hide the fact that this is a tax—a very large tax increase. So they argue that cap and trade will not only be at least to pull China along, but also it will solve our economic woes, create millions of new green jobs, and promote energy security.

Of course, these are laudable goals, and Republicans have a simple answer to this: Let's provide the incentives rather than the taxes and mandates to produce clean, affordable, and reliable sources of energy.

I am for all of the above. I want to have renewables, I want nuclear, I want wind, I want solar, I want clean coal, and natural gas. We need it all. Cut the redtape and encourage private investment. Let all technologies compete in the marketplace. However, that is not what the Democrats are proposing in the Waxman-Markey bill.

I am talking on the Senate floor about a House bill, and I am doing that because it is scheduled to pass tomorrow and then there will be an effort over here. We have had experience with this legislation. As I have said before, it is not going to pass here, but it is a very significant thing. Anytime one House is proposing to pass the largest tax increase in history, we have to be concerned.

This bill does the exact opposite. It closes access to affordable sources of energy by trying to price certain kinds of energy out of the market. It picks winners and losers that leave places such as the Midwest and the South paying higher energy prices to subsidize areas in the rest of the country. We have a chart that shows how much this would raise in the way of taxes in Middle America as opposed to the east coast and the west coast, and it creates more bureaucracy that will only increase the costs that consumers bear and add more layers of regulation to small business.

We have to ask: Why, then, do my colleagues believe creating a national energy tax is necessary? It is all rooted in fabricated global warming science. In fact, just last week, the administration produced yet another alarmist report on global warming—which, of course, is nothing new—that takes the worst possible predictions of the United Nations Intergovernmental Panel on Climate Change's Fourth Assessment Report—is what it is called.

By the way, these assessment reports are not reports by scientists. They are reports by political people, policy people. I have to also say—and I have said this on the floor of the Senate many times before—a lot of the things that come out and that are not in the best interests of the United States come from the United Nations. That is where this whole thing started, back in the middle 1990s.

It was the IPCC of the United Nations where it all started. So it is no surprise that such a report was released just in time for the House vote on Waxman-Markey. However, what is becoming clear is that despite millions of dollars spent on advertising, the American public has clearly rejected the so-called ''consensus'' on global warming. There was a time when this wasn't true. I can remember back between the years of 1998 and 2005, when I would be standing on the Senate floor and talking about the science that rejects this notion. Since that time, hundreds and hundreds of scientists who were on the other side of the issue have come over to the skeptic side, saying: Wait a minute, this isn't really true.

I can name names: Claude Allegre was perhaps considered by some people to be the top scientist in all of France. He used to be on Al Gore's side of this issue back in the late 1990s. Clearly, he is now saying: Wait a minute, we have reevaluated, and the science just isn't there. David Bellamy, one of the top scientists in the U.K., the same thing is true there. He was on the other side and came over. Nieve Sharif from Israel, same thing. So there is no consensus on the fact that they think anthropogenic gases are causing global warming.

Of course, the other thing is, we don't have global warming right now. We are in our fourth year of a cooling spell. But that is beside the point. I am not here to address the science today but on the argument advanced by my colleagues, which is that U.S. unilateral action on global warming will compel other nations to follow our lead, as I have documented in speeches before since 1998.

By the way, if anyone wants—any of my colleagues—to look up those speeches, they can be found at inhofe.senate.gov. If you have insomnia some night, it might be a good idea to read them. They are all about 2 hours long. But I think many would find it very troubling indeed, that even if they believe the flawed IPCC or United Nations science, that science dictates that any unilateral action by the United States will be completely ineffective. The EPA even confirmed it last year during the debate on the Lieberman-Warner bill, and the same would hold true for this year's bill.

Put simply, any isolated U.S. attempt to avert global warming is a futile effort without meaningful, robust international cooperation. No one disputes this fact. The American people need to know what they will be getting with their money: all cost and no benefit. This chart shows that U.S. action without international action will have no effect on world CO_2. This is assuming there is no change in the manufacturing base, which we know there would be.

This brings us to a key question as to whether a new robust international agreement can ever be achieved. In addition to the domestic process ongoing in Congress, the United States is currently involved in negotiations for a new international climate change agreement to replace the flawed Kyoto treaty. This process is scheduled to culminate in Copenhagen this December. This will be the big bash put on by the United Nations to encourage countries to buy into their program.

The prospects of such an endeavor are bleak at best. Following the conclusion of the climate meeting in Bonn recently, the U.N.'s top climate official—Yvo de Boer—said it would be physically impossible—now this is the chief advocate of all this—to have a detailed agreement by December in Copenhagen. This is ironic to say the least, considering that President Obama was supposed to bring all the parties together to transcend their differences and to produce a treaty that would save the world from global warming. But the reality of the cost of carbon reductions has intervened, and now a deal appears—as it always has to me and others—far from achievable.

We must not forget where the Senate stands on global warming. As Senators may recall, in 1997, the Senate voted favorably, 95 to 0—95 to 0 doesn't happen often in this Chamber—on the Byrd-Hagel resolution. That stated simply that if you go to Kyoto and you bring back a treaty, we will not ratify that treaty if it, No. 1, would mandate greenhouse gas reductions from the United States without also requiring new specific commitments from developing countries—China—over the same compliance period; or, No. 2, result in serious economic harm to the United States.

Well, obviously, we have talked about the serious harm to the United States and the fact there is no intention at all of having China have to be a part of this new treaty now, what, 15 years later they are going to be talking about. So I think the Byrd-Hagel resolution will still stand strong support in the Senate; therefore, any treaty the Obama administration submits must meet the resolution's criteria or it will be easily defeated.

Remember that criteria: If they submit something in which the United States is going to have to do something

that the rest of the world—or the developing world—doesn't have to do, then it is not going to pass; and, secondly, if it inflicts economic harm on this country.

Proponents of securing an international treaty are slowly acknowledging that the gulf is widening between what the United States and other industrialized nations are willing to do and what developing countries such as China want them to do. I suggest the gulf has always been wide but will continue to widen. Recent actions by the United States and China continue to confirm my belief.

Take China's initial reaction to the Waxman-Markey bill. The bill, hailed on Capitol Hill as a historic breakthrough, went over with a thud last week during the international negotiations. Get this: Waxman-Markey, which will be economically ruinous for the United States, was criticized by China for being too weak.

Another troubling aspect coming out of those meetings was the U.S. Government's official submission. Many in the Senate may be surprised to learn that this administration's position is to let China off the hook. You might wonder, why would China look at this thing that would destroy us economically and say they do not think it is strong enough; that they want it stronger? Because the stronger it is, the more manufacturing jobs will leave the United States to go to China. They have to go someplace where they are producing energy. Nowhere in the submission to the conference do we require China to submit to any binding emission reduction requirements before 2020. In fact, before 2020, the submission only asks for ''nationally appropriate'' mitigation actions, followed by a ''low carbon strategy for long-term net emissions reductions by 2050.''

I would submit this proposal is typical of the United States to say: Well, we have to do some face-saving, so at least let's put them in an awkward position of having to ''try'' to do something. It doesn't say they ''have'' to do anything; they have to try. So China can sit back and say: We are trying. Meanwhile, they enjoy all the jobs that are coming from the United States to China.

So what, then, is the Chinese Government's idea of a fair and balanced global treaty? Well, the Chinese believe the United States and other Western nations should, at a minimum, reduce their greenhouse gas emissions by 40 percent below the 1990 levels by 2020. For comparison's sake, Waxman-Markey, which could become the official U.S. negotiating position, calls for a 17-percent reduction—not 40 percent—below the 2005 levels by 2020.

Despite the positive spin the administration is putting on actions by the Chinese Government to reduce energy intensely or pass a renewable energy standard, while laudable, the official position of the Chinese in their submission to the United States remains as such, which I will read.

> The right to development is a basic human right that is undeprivable. Economic and social development and poverty eradication are the first and overriding priorities of the developing nations.

So China is talking about themselves and India and other developing nations.

> The right to development of developing countries shall be adequately and effectively respected and ensured in the process of global common efforts in fighting against climate change.

That is their written statement, and that speaks for itself.

Finally, and the most telling of all, the Chinese and other developing countries collectively argue that the price for reducing their emissions is a massive 1 percent of GDP from the United States and other developed countries. What does that tell us? That tells us they are not willing to pay anything.

So let me get this straight. China opposes any binding emission reduction targets on itself; China wants the United States to accept draconian emission reduction targets that will continue to cripple the U.S. economy; and on top of that, China wants the United States to subsidize its economy with billions of dollars in foreign aid. In the final analysis, one must give China credit for seeking its economic self-interest. I sure hope the Obama administration will do the same for America.

Despite this reality, some here in the Senate will continue to tout the fact that China's new self-imposed emissions intensity reductions, which do not pose any type of binding reductions requirements, will somehow miraculously appear—will somehow suffice for binding requirements. I believe, however, that position will fail to satisfy the American people as acceptable justifications for passage of a bill that will result in higher United States energy taxes and no change in the climate.

I do not blame them. If I were in China, I would be trying to do the same thing. I would be over there saying we want the United States to increase their energy taxes, we want a cap-and-trade bill, an aggressive one that is going to impose a tax—now it is expected to be—MIT had figures far above the $350 billion a year.

That is not a one-shot deal. I stood here on the Senate floor objecting last October when we were voting on a $700 billion bailout. I can't believe some of our Republicans, along with virtually most of the Democrats, voted for this. I talked about how much $700 billion is. If you do your math and take all the families who file tax returns, it comes out $5,000 a family.

At least that is a one-shot deal. What we are talking about here is a tax of somewhere around $350 billion every year on the American people and the bottom line is, China wants no restrictions for theirs. They want the highest reductions for the United States and they want foreign aid on top of that.

I want to mention one other thing that just came up in today's Chicago Tribune. I read this because the Chicago Tribune has editorialized in favor of the notion that anthropogenic gases are responsible for global warming. I will read this:

> Democratic leaders need to slow down. This proposed legislation would affect every American individual and company for generations. There's a huge amount of money at stake: $845 billion for the federal government in the first 10 years. Untold thousands of jobs created—or lost. This requires careful study, not a Springfield-style here's-the-bill-let's-vote rush job.

Then:

> The bill's sponsors are still trying to resolve questions over whether and how to impose sanctions on countries that do not limit emissions. That's crucial.

That is exactly what we have been saying. Even the Chicago Tribune agrees with that.

> That's crucial. Those foreign countries would enjoy a cost advantage in manufacturing if their industries were free to pollute, while American industries picked up the tab for controlling emissions. The Democrats need to delay the vote. Otherwise, the House Members should vote no.

That came out today in the Chicago Tribune. Even the Chicago Tribune says there should not be a vote, but there is going to be a vote. I can't imagine that Speaker PELOSI would bring this up for a vote unless she had the votes.

What is the motivation for this, knowing full well it will not pass the Senate? I mentioned Copenhagen a moment ago—the big meeting of the United Nations, all these people saying America should pass these tax increases. They have to take something up there that will make it look as though America is going to be taking some kind of leadership role. They are not going to do it. If they take the bill passed out of the House, I expect one will be passed out of the Senate committee—because that committee will pass about anything—they will take that to Copenhagen. Everyone will rejoice up there and come back only to find out we are not going to join in.

I am sure there is going to be some type of a treaty that is given to the Senate to ratify. We will all have to remember what happened in 1997. We voted 95 to 0 against ratifying any treaty that is either harmful to us economically or is not going to impose the same hardship and taxes on developing countries such as China as it does on the United States.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. UDALL of Colorado). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. BOXER. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AUTHORITY OF U.S. PATENT AND TRADEMARK OFFICE TO USE TRADEMARK FUND

Mrs. BOXER. I ask unanimous consent the Senate proceed to the immediate consideration of S. 1358, which was introduced earlier today.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (S. 1358) to authorize the Director of the United States Patent and Trademark Office to use funds made available under the Trademark Act of 1946 for patent operations in order to avoid furloughs and reductions-in-force.

There being no objection, the Senate proceeded to consider the bill.

Mrs. BOXER. I ask unanimous consent the bill be read three times and passed, the motion to reconsider be laid upon the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1358) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 1358

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORITY OF PTO DIRECTOR TO USE TRADEMARK FUND.

(a) AUTHORITY.—The Director of the United States Patent and Trademark Office may use funds made available under section 31 of the Trademark Act of 1946 (15 U.S.C. 1113) to support the processing of patents and other activities, services, and materials relating to patents, notwithstanding section 42(c) of title 35, United States Code, if—

(1) the Director certifies to Congress that the use of such funds is reasonably necessary to avoid furloughs or a reduction-in-force in the Patent and Trademark Office, or both; and

(2) funds so used are repaid to trademark operations not later than September 30, 2011.

(b) EXPIRATION OF AUTHORITY.—The authority under subsection (a) shall terminate on June 30, 2010.

(c) DEFINITIONS.—In this section:

(1) DIRECTOR.—The terms ''Director of the United States Patent and Trademark Office'' and ''Director'' mean the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

(2) TRADEMARK ACT OF 1946.—The term ''Trademark Act of 1946'' means the Act entitled ''An Act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes'', approved July 5, 1946 (15 U.S.C. 1051 et seq.).

Mrs. BOXER. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. BOXER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. BOXER. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

GLOBAL WARMING

Mrs. BOXER. Mr. President, I did not plan to come down to the floor and speak today about the global warming legislation. But I heard bits and pieces of my friend Senator INHOFE's speech about essentially why we will never approve global warming legislation, why it is a bad idea, and his usual litany of ''horribles'' about what will happen. My friend Senator INHOFE and I work very well together on most issues that come before our committee when it comes to building the infrastructure; the State Revolving Fund, we have been a team; the highway trust fund, we have been a team. He has been very helpful on most of our nominees, if not all. So I am very grateful to him. But I could not allow his words to be the last word here on the global warming legislation as we get ready to leave for our week to go home and work.

I disagree very strongly with those who say that if we attack the problem with global warming head-on, we are moving into territory where we are going to regret the fact that we did it because it is going to hurt our people, we are going to lose jobs, it is going to increase energy costs, when, in fact, we know the opposite is true. It is not just me saying it. I come from a State—California—where we have taken the lead in addressing the environment. We always have since the very early days. And what we have proven is that when you do it, you have a much healthier base for economic growth.

If you look at the per capita use of energy in my home State over the last 20 years, it has stayed absolutely flat, if you were to look at a graph. The rest of the country has gone up like this. So the difference between remaining on a flat line—in other words, keeping your per capita energy use stable—even with the creation in that time of computers and bigger TVs and all the rest, and a lot of other comforts, I might add—bigger homes—we have been able to do it. The rest of the country has gone this way with their per capita use. The difference between energy efficiency and the rest of the country, we have a lot of room for improvement, and it has been tried and it is proven and it makes a lot of sense, whether it is better energy-efficiency standards, which have been absolutely key to us, or better fuel economy, which has been key to us. We are the State that happens to buy the most, for example, hybrid cars. We have shown that we can keep per capita energy use down. A lot of us in our State have changed to the lightbulbs that make sense, the compact fluorescent bulbs. We know we have laws that will move that even faster. And we have not given up one ounce of our quality of life. We have a very good quality of life.

So by addressing the issue of global warming and getting the carbon out of the air, the first way to do it is through energy efficiency. That is what I call the low-hanging fruit. Renewable standards for our utilities—very important. We have done it in California, and I know my friend who is in the chair is on the Energy Committee, and I am very grateful they did renewable portfolio standards, although I would like to see it a little tougher. Be that as it may, we are on the road.

These are the things we can do that actually will tackle the problem of global warming, but there is so much more we can do through a system where we expect our industries that are emitting the most carbon to gradually bring it down so that we make sure we don't suffer the ravages of increased temperatures.

The science is so clear, and my friend Senator INHOFE and I have disputed this for a long time. He insists that the science is not clear. Well, he is not a scientist and I am not a scientist. So I think the best way to do this is to look to the most qualified scientists in the world. And we are very fortunate that we have had those scientists working at the United Nations, the Intergovernmental Panel on Climate Change, and they have come out with a series of reports, all of which tell us that temperatures are going up even more rapidly than we thought, the icemelt in the Arctic is occurring faster than we thought would happen. We all see the pictures of the polar bears. That picture is worth so much to us because we can see what is happening to the habitat there.

I will be leading a trip to Alaska for a couple of days at the invitation of Senator MARK BEGICH. He wants to show me and a group of Senators—and also Senator MURKOWSKI has been gracious enough to say she will join us in this. We are going to see ground zero for global warming in Alaska. I know in Greenland, where I went, you can just see the ice melt. You can sit and actually see the ice break off from these giant icebergs and watch them go out to sea.

So the scientists have proven it, and we know it is absolutely true. So when Senator INHOFE comes down here and he flies in the face of science, those of us who have been working on this—and

I see one of our great leaders, not only, I say this, in the Senate but, frankly, in the country and even in the world community, JOHN KERRY, who has joined us. Just for his information, I will be speaking for about another 10 minutes, and then I am going to be so happy to sit and hear him because he has such an important vision on this.

But here is the good news. The good news is that this is an enormous opportunity to move our country forward. Again, I could quote Thomas Friedman, who did an extraordinary job of writing books and articles, and he testified before the Committee on Environment and Public Works very clearly on this, that the country that does this now and does it right and sets up a price on carbon—and I am sure he now knows that a cap-and-trade system is a very good way to do that—is going to be the leader in the world, not just an environmental leader, which is very important for our kids and our grandkids—we don't want to turn over a planet to them where temperatures are so high that we see people dying in the summer from the high temperatures or see our kids swimming in rivers that have turned so warm that organisms now live in those rivers. We have seen some of that already happen, where toxins exist that couldn't exist before, where we can be harmed because of the kind of life that lives in these warmer waters that can, in fact, harm our children. So we do not want to know those stories. We do not want to see hordes of refugees coming to our shores because countries are inundated due to rising seas.

Look, our own national security teams—the Department of Defense, the CIA—all of those that worry so much about national security—have told us—and Senator KERRY has the quotes chapter and verse—that this is a national security issue.

So when my friend from Oklahoma comes down here and says: Don't worry about it, you know, don't worry about it at all, the science is divided, it is just not so, just not so.

I guess there were always people who said smoking doesn't cause cancer. I guess there still are. I guess there are some people who say HIV doesn't cause AIDS. You know, I know there were people when I was a kid who said: Forget about polio, there is nothing you can do about it. But Dr. Jonas Salk figured out we could do something about it.

The science is clear. The world is getting warmer. Yes, to a certain degree, we can handle it, but above that it gets very dangerous. None other than the Bush administration's CDC, the Centers for Disease Control, told us that it is unequivocal that the dangers are lurking. They started the work to say that there would be an endangerment finding, that our people are in danger if we don't act. And now President Obama sees it clearly, and his EPA has picked up the ball and they have issued a draft finding that we are in danger. So Senator INHOFE and other Senators can stand up and say that we are not, but this work started in the Bush administration, and Bush administration officials participated in a lot of these U.N. meetings. So it is clear.

We have a great recession we are dealing with, and we have this great challenge of global warming. The great news is that when we act to solve global warming, we act to solve the problem of this great recession. Why do I say that? Because we know from the venture capitalists, many of whom live in the Silicon Valley, that the amount of funding from the private sector, not the public sector, that is going to flow into clean energy is going to dwarf that that went into the computer industry, that went into high-tech and biotech. This is testimony from those who are venture capitalists. And that, matched with the cap-and-trade system, which will have the ability to really help agriculture, which will have the ability to help our manufacturers, which will have the ability to make sure we have fair trade at the border when products come in, that means we are going to see technologies invented, cleanups start to happen, we will stop the ravages of global warming, and eventually, when all of this technology kicks in, the average family is going to pay less for their electricity. In the short run, if you have to pay just a little more—and I mean a little more, like 50 cents a day more maybe, probably less—we have the wherewithal to give you a credit for that funding.

I think the House of Representatives has worked very hard to make sure they have the bill that will keep people whole, that will transform this economy to a clean energy economy, will get us off foreign oil, which is only to the good.

You know, Iran has been in the news, and our hearts go out to those who are trying to take their country back, if I could say that. We all stand with those demonstrators. We will not forget what they have gone through in their struggle.

I ask unanimous consent that when I am done, Senator KERRY finish this time on global warming, followed by Senator COBURN if he would like to be recognized at that time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. BOXER. Good.

So what Thomas Friedman—again, writing his great column, as he does—says is that Iran would not be such a formidable power in the world if oil was not so sought after in the world.

We do not buy any Iranian oil for obvious reasons, but the rest of the world does. The fact is, if we can create these clean alternatives, it is going to make every difference—every difference—in the world.

So in closing—and I am so pleased Senator KERRY is here—let me say this: My ranking member, JIM INHOFE, made a comment. I just want to say we are good friends, and anything I say here I say to him, and vice versa. My ranking member said in the press—and I do not know if Senator KERRY saw this—my ranking member, Senator INHOFE, said to me in the press I should get a life—get a life—and stop trying to pass global warming legislation because it is not going to happen.

I want to say to him very clearly today, I have a life, and I am spending it getting the votes I need to make sure we take advantage of this momentous opportunity. I want to thank those over in the House who seem to understand this golden moment of opportunity for our economy, for our foreign policy, for the creation of millions of new jobs, for energy independence—that is what they are fighting for over there—and for great opportunities for our agricultural sector, our manufacturing sector.

This is an opportunity we should not lose. I am very pleased at the progress we are making over here, and I want to send that signal: We are making great progress.

Mr. President, I thank you very much.

I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KERRY. Mr. President, what is the parliamentary situation?

The PRESIDING OFFICER. The Senate is operating under cloture on the nomination of Harold Koh.

Mr. KERRY. Mr. President, has the time for a vote been set at this point?

The PRESIDING OFFICER. It has not.

Mr. KERRY. It is not set. I thank the Chair.

With that in mind, I think the leadership is hopeful of trying to get that vote somewhere in the near term.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. REID. Mr. President, could I ask the distinguished Senator from Massachusetts if he would yield for a unanimous consent request or two?

Mr. KERRY. Of course, I will yield, Mr. President.

Mr. REID. As usual, I appreciate the courtesy of my friend from Massachusetts.

Mr. President, I ask unanimous consent that all postcloture time be yielded back except for 30 minutes and that time be divided as follows: 10 minutes for Senator KERRY—and we can count the time he has already used. Does the Senator need more time? OK—10 minutes for Senator KERRY, 10 minutes for Senator CORNYN, 10 minutes for Senator COBURN, or their designees; that upon the use or yielding back of time, the Senate proceed to vote on the confirmation of the nomination; that upon

confirmation, the President be immediately notified of the Senate's action, and the Senate then resume legislative session.

The PRESIDING OFFICER. Is there objection?

Mr. KERRY. Mr. President, reserving the right to object.

Mr. REID. Mr. President, I would ask to modify the consent request that instead of 10, 10, and 10, Senator KERRY be given 15 minutes and Senator CORNYN be given 15 minutes.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT—H.R. 2918

Mr. REID. Mr. President, I ask unanimous consent that upon disposition of the Koh nomination, and the Senate resuming legislative session, the Senate then move to proceed to the consideration of Calendar No. 84, H.R. 2918, the Legislative Branch Appropriations Act; that the motion be agreed to, and once the bill is reported, a Nelson of Nebraska substitute amendment, which is at the desk, be called up for consideration; further that the following be the only first-degree amendments and motion in order: McCain, Nebraska photo exhibit; Coburn, online disclosure of Senate spending; DeMint, Visitor Center inscription: ''In God We Trust''; Vitter, motion to commit, 2009 levels; DeMint, audit reform Federal Reserve; that upon disposition of the amendments and motion, the substitute amendment, as amended, if amended, be agreed to, and the motion to reconsider be laid upon the table; that the bill, as amended, be read a third time, and the Senate then proceed to vote on passage of the bill; that upon passage, the Senate insist on its amendment, request a conference with the House on the disagreeing votes of the two Houses, and that the Chair be authorized to appoint conferees on the part of the Senate; provided further that if a point of order is raised against the substitute amendment, then it be in order for another substitute amendment to be offered minus the offending provisions but including any amendments which had been agreed to; and that no further amendments be in order; and that the substitute amendment, as amended, if amended, be agreed to, and the remaining provisions beyond adoption of the substitute amendment remain in effect.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The Senator from Massachusetts.

Mr. KERRY. Mr. President, could I have a 5-minute notice from the Parliamentarian?

The PRESIDING OFFICER. The Senator will be notified.

GLOBAL CLIMATE CHANGE

Mr. KERRY. Mr. President, I want to make some closing comments with respect to the nomination of Dean Koh. But before I do that, I want to have a chance to share a few thoughts with the distinguished chairman of the Environment and Public Works Committee, who has been an extraordinary leader on this subject of global climate change.

Let me be the first to affirm that I rather think the Senator has a terrific life, and I am proud of what she is doing with respect to this issue. It is really interesting. I think it is important for us to talk about a few of the issues.

The Senator from Oklahoma, Mr. INHOFE, has made some comments on the floor of the Senate that are either wrong on the facts or wrong in terms of the judgment politically.

I want to say upfront, as my colleague has said, I enjoy my conversations and my relationship with the Senator enormously. We are both pilots. He flies often, much more frequently than I do these days, but we both share a passion for flight and for aerobatics, and for different kinds of airplanes, and I love talking to him about them.

I wish he were up to state of the art with respect to the science on global climate change. He made a number of comments on the floor of the Senate which Senator BOXER and I just have to set the record straight on: No. 1, suggesting that the science is somehow divided. That is myth. It is wishful thinking, perhaps, on the part of some people. I suppose if your definition of divided is that you have 5,000 people over here and 2 people over here—who want to put together a point of view that is usually encouraged and, in fact, paid for by a particular industry or something—you can claim it is divided.

But by any peer review standard, by any judgment of the broadest array of scientists in the world—not just the United States, across the planet—the science is not divided. The fact is, Presidents of countries are committing their countries to major initiatives on global climate change.

The science is clearly not divided with respect to global climate change. In fact, every major scientist in the United States whose life has been devoted to this effort, such as Jim Hansen at NASA, or John Holdren, the President's Science Adviser—formerly at Harvard—these people will tell you in private warnings that are even far more urgent than the warnings they give in public. The reason is, the science is coming back at a faster rate and to a greater degree in terms of the damage that was predicted than any of these people had predicted.

The fact is, there is a recent study about the melting of the permafrost lid of the planet. It shows in the Arctic—this is the Siberian Shelf Study, which I would ask my colleague from Oklahoma to read—columns of methane rising up out of the sea level, and if you light a match where those columns break out into the open air, it will ignite. Those columns of methane represent a gas that is 20 times more damaging and dangerous than carbon dioxide, and it is now—as the permafrost melts—uncontrollably being released into the atmosphere.

In addition to that, there is an ice shelf, the Wilkins Ice Shelf, down in Antarctica. A 25-mile ice bridge connected the Wilkins Ice Shelf to the mainland of Antarctica. That shattered. It just broke apart months ago. Now we have an ice shelf that for centuries—thousands of years—was connected to the continent that is no longer connected.

We have sea ice which is melting at a rate where the Arctic Ocean is increasingly exposed. In 5 years, scientists predict we will have the first ice-free Arctic summer. That exposes more ocean to sunlight. The ocean is dark. It consumes more of the heat from the sunlight, which then accelerates the rate of the melting and warming, rather than the ice sheet and the snow that used to reflect it back into the atmosphere.

There are countless examples of evidence of what global climate change is already doing across the planet. In Newtok, AK, they just voted to move their village 9 miles inland because of what is happening with the sea ice melt and the melting of the permafrost. We will spend millions of dollars mitigating and adapting to these changes as they come at us.

The Audubon Society has reported a 100-mile wide swath of land in the United States where their gardeners—who do not record themselves as Democrats or Republicans, ideologues, conservatives, or liberals; they are people who like to go out and garden; they are part of the Audubon Society as a result of that—are reporting plants they can no longer plant that used to be able to be planted.

We have millions of acres of forests in Alaska and in Canada that have been lost: spruce and pine to the spruce beetle that used to die, but because it is warmer, now it no longer dies. You can run down a long list.

Mr. President, I am not going to go through all of it here now, but suffice it to say, he is wrong about China. I just came back from a week in China where I met with their leaders. I went out to see what they are doing in wind power. I went to see their energy conservation efforts. They are ahead of us in some respects with respect to those efforts. They have a higher standard of automobile emissions reduction that they are putting in place sooner than we are. They are tripling their level of wind power that they are trying to target. They have a 20-percent energy intensity reduction level that they are now exceeding in several sectors of

their economy, which they did not think they would be able to do. In 2 or 3 years, we are going to be chasing China if we do not recognize what has happened and do this.

So the Senator from California, the chairperson of the Environment and Public Works Committee, completely understands, as do many others, this can be done without great cost to our electric production facilities, without our companies losing business and losing jobs. On the contrary, the jobs of the future are going to be in alternative and renewable energy and in the energy future of this country.

There is barely a person I know who does not think we would not be better off in America not sending $700 billion a year to the Middle East to pay for oil so we can blow it up in the sky and pollute and turn around and try to figure out how we are going to spend billions to undo it. Why not spend those $700 billion in the United States creating that energy in the first place, with jobs that do not get sent abroad, and which pay people good value for the job they are doing? It liberates America for our energy security. It provides a better environment. We are a healthier nation, and we increase our economy. So you get all those pluses. What are they offering? What is the alternative that Senator INHOFE and others are offering? If they are wrong in their predictions, we have catastrophe for the planet.

So I think we are on the right track. China is going to reduce emissions. China will be on a different schedule because that is what the international agreements set up years ago. But as a developing country with 800 million people living on less than $2 a day, it is understandable that they would fight to say: We can't quite meet the same schedule now, but we will get to the same schedule. What is important is that, globally, all countries come together to reduce emissions. That will happen in Copenhagen. It is much more likely to happen in Copenhagen if the United States of America leads here at home. If we undertake these efforts and pass legislation here, I guarantee my colleagues that Copenhagen will be a success and China and other countries will all agree to reductions that are measurable, that are verifiable, and that are reportable.

So we need to get our facts straight as we come at this debate. The Senator from California and I are thirsty and waiting for this debate because we will show how we can reduce emissions, how we can transition our economy with minimal—minimal—costs. In fact, for the first few years, it pays for itself to undertake many of these transformations.

I wish to reemphasize some thoughts in the time I have left about Dean Koh. Dean Koh has been chosen to be legal counsel for the State Department. I have already spoken about his remarkable academic career, his leadership in the legal profession, the respect and glowing praise he has received from colleagues within the legal profession. We have heard a lot about him. I wish to address some of the points that have been raised in opposition to his nomination, some of which I believe are just plain disrespectful and indecent. It is hard to find the rationale for where they come from, frankly—maybe a mean-spiritedness or something—but it is hard, and I am grateful, as I think we all ought to be, that nominees are willing to subject themselves to some of these kinds of arguments. Also, there are some misunderstandings and mischaracterizations.

It is no surprise that not everybody is going to agree with him and every decision or opinion he has made, but the fact is that a lot of the arguments that have been made aren't grounded in reality. First, there have been allegations that his views on foreign law would somehow undermine the Constitution of the United States. Well, please, that is baseless beyond any kind of evidence I have ever seen or any statement he has ever made. Let me repeat what Dean Koh, himself, has said about the primacy of our Constitution. I quote:

> My family settled here in part to escape from oppressive foreign law, and it was America's law and commitment to human rights that drew us here and have given me every privilege in life that I enjoy. My life's work represents the lessons learned from that experience. Throughout my career, both in and out of government, I have argued that the U.S. Constitution is the ultimate controlling law in the United States and that the Constitution directs whether and to what extent international law should guide courts and policymakers.

That is definitive. No one should insert any other interpretation into it other than the Constitution is primary.

Some have also argued that Dean Koh's views on international law, particularly on something called ''the transnational legal process,'' would somehow undermine our sovereignty and our security. Again, this represents a fundamental misunderstanding of his views. Dean Koh understands that international law and institutions are simply part of life in a globalized world. Engagement with the international community is inevitable. He believes it is best to engage constructively. Here is what he said at his confirmation hearing:

> Transnational legal process . . . says what we all know—that we live in an interdependent world that is growing increasingly more interdependent. It is not new, and . . . [i]t is not an ideology. It is a description of a world in which we live . . . It is from the beginning of the republic. It is the basic views of Thomas Jefferson and Ben Franklin, who called for us to give decent respect to the opinions of mankind. And most importantly, it is necessary and unavoidable that we be able to understand and manage the relationship between our law and other law.

Those aren't the words of an ideologue. They aren't the words of a radical. It is the broad perspective of a deeply knowledgeable and pragmatic and committed advocate for our Nation's interests. It reflects how we represent our interests. It reflects our real challenge, which is how we best use international law and institutions to advance national security interests and promote our core values. That is exactly what Dean Koh has spent his career working on. As one of the world's leading experts on international law, there is nobody better qualified to meet this challenge.

Yesterday, my colleague from Texas suggested that Dean Koh somehow created a moral equivalence between the United States and Iran's brutal and deadly crackdown after the recent election. This is what our colleague said:

> Koh appears to draw moral equivalence between the Iranian regime's political suppression and human rights abuses that we've been watching play out on television and America's counterterrorism policies on the other hand. In 2007, he wrote: The United States cannot stand on strong footing attacking Iran for illegal detentions when similar charges can and have been lodged against our own government.

Well, common sense—in one sentence, the Senator accuses Dean Koh of equating our treatment of detainees with Iran's actions and violently suppressing protests this week—right now—and in the next sentence he cites as evidence for that comments that Dean Koh made a couple years ago on an unrelated issue of Iran's treatment of detainees. I have heard of people trying to make ''six degrees of separation'' connections and somehow make it mean something, but this is to the extreme.

The broader point is, Dean Koh was not suggesting there is a moral equivalence between Iran and the United States. He was arguing that we are safer if we can convince countries such as Iran and North Korea to respect global norms and standards. It is harder for the United States to run around the world enlisting allies and marshaling pressure when we are simultaneously forced to fend off accusations of lawless activity by ourselves. So Guantanamos and other things work to deplete our ability to be able to maintain the highest moral ground. That is not moral equivalence. That is a practical reality about how the world works and how you protect the interests of the United States.

We have heard the argument that Dean Koh's position in supporting the regulation of global arms trade is somehow going to infringe on the rights of Americans under the second amendment. Please. I mean, please. Nothing could be further from the truth. The fact is that Dean Koh supports efforts to regulate the transfer of

guns across borders, which does nothing to interfere with the domestic possession of firearms. As he said at his confirmation hearing:

The goal is to prevent child soldiers in places like Somalia and Uganda from having AK–47s transferred from the former Soviet Union. It is not to in some way interfere with the legitimate hunter's right to use a hunting rifle in a national or State park.

Dean Koh went on to unequivocally state that he respects the Supreme Court's decision in Heller, which affirmed the right to bear arms under the second amendment as the law of the land.

There are other criticisms that have been made. I don't have time to go into all of them now, but the bottom line is whether it is the CEDAW—the Convention on the Elimination of Discrimination Against Women—or questions about his beliefs about the war in Iraq, the fact is that Dean Koh has also been questioned for allegedly supporting suits against the Bush administration's involvement in abusive interrogation techniques. Well, first of all, Dean Koh had no personal involvement in the lawsuit against John Yoo that has been mentioned, none whatsoever. Let's be clear. The State Department Legal Adviser is not charged with defending U.S. officials from legal suit or investigation of allegations of war crimes. That is the job of the Justice Department and the Defense Department.

Finally, we have heard questions about Dean Koh's respect for the role that Congress has played in crafting legislation relating to our national security. Dean Koh said at his confirmation hearing, and his words should stand:

[T]he Constitution's framework while defining the powers of Congress in Article 1 and the President in Article 2, creates a framework in which the foreign affairs power is a power shared. Checks and balances don't stop at the water's edge. It is both constitutionally required, and it is also smart in the sense that the President makes better decisions when Congress is involved. If they are in at the takeoff, they tend to be more supportive all the way through the exercise.

That is just the type of approach that we here in Congress should welcome.

While disagreements on legal and policy issues are entirely legitimate, I regret that there have been some accusations and insinuations against Dean Koh in the media that would be laughable if they weren't impugning the reputation of such a devoted public servant. Some have alleged that Dean Koh supports the imposition of Islamic Shariah law here in America. Others have actually claimed that he is against Mother's Day. Does anyone really think this President and this Secretary of State would seek legal advice from a man trying to impose Islamic law on America? Or abolish Mother's Day? That type of allegation has no place in this debate.

Fortunately, there is a chorus of voices across party lines and across American life that know the truth about Dean's Koh's record. That's why he has the support of such a long and impressive list of law professors, deans, clergy, former State Department Legal Advisers, and legal organizations.

I was heartened to see that eight Republicans voted for cloture. This sends an important message that his nomination has real bipartisan support. The words of Senator LUGAR on Dean Koh bear repeating: ''Given Dean Koh's record of service and accomplishment, his personal character, his understanding of his role as Legal Adviser, and his commitment to work closely with Congress, I support his nomination and believe he is well deserving of confirmation by the Senate.''

Senator LIEBERMAN, one of this body's strongest supporters of the war in Iraq and of Professor Koh's nomination, also put it well: ''[T]here is absolutely no doubt in my mind that Harold Hongju Koh is profoundly qualified for this position and immensely deserving of confirmation. He is not only a great scholar, he is a great American patriot, who is absolutely devoted to our nation's security and safety.''

In closing, I believe Dean Koh's own words best sum up the case for his confirmation: As he has written, ''I love this country with all my heart, not just because of what it has given me and my family, but because of what it stands for in the world: democracy, human rights, fair play, the rule of law.''

There is no stronger bipartisan voice for foreign policy or for the Constitution in the Senate than Senator DICK LUGAR of Indiana, and I hope my colleagues will follow his example.

I thank our Chair.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. Mr. President, I rise to speak, once again, on the nomination of Harold Koh, whom the President has nominated to be Legal Adviser for the State Department. To put this in context, as the Senator from Massachusetts has addressed, the Legal Adviser is a very important job at the State Department. He is responsible for providing guidance on important legal questions, including treaty interpretation and other international obligations of the United States. He gives the Secretary of State legal advice during negotiations with other nations. So the Legal Adviser can be a very influential voice in diplomatic circles, especially if he or she has particularly strong views on America's obligations to other nations and multilateral organizations.

Based on my review of Dean Koh's record, I don't believe he is the right man for this job. His views are in tension with what I believe are core Democratic values, in that he would subjugate America's sovereignty to the opinions of the so-called international common law, including treaty obligations that the Senate has never ratified. Indeed, they are not obligations, but he nevertheless would impose them on the United States. When the Senator from Massachusetts says he believes the U.S. Constitution is primary, I would have felt much better if he had said it was the exclusive source of American law, together with the laws that we ourselves pass as representatives of the people; not just a consideration but the consideration when it comes to determining the obligations and rights of America's citizens, rather than subjecting those to international opinion and vague international norms which I heard the Senator refer to.

It is true Professor Koh is an advocate of what he calls transnational jurisprudence. He believes Federal judges—these are U.S. judges—should use their power to ''vertically enforce'' or ''domesticate'' American law with international norms and foreign law. As I mentioned, this means judges using treaties and ''customary international law'' to override a wide variety of American laws, whether they be State or Federal. Of course, we understand treaties that have been ratified by the Senate are the law of the land, but Professor Koh believes that even treaties that the United States has not ratified can be evidence of customary international law and given legal effect as such.

The Legal Adviser to the State Department has an important role, as I mentioned, in drafting, negotiating, and enforcing treaties. That is why it is so crucial he understands that no treaty has the force of law in the United States until it has been ratified, pursuant to the Constitution, by the Senate. Do we want a top legal advisor at the State Department who believes that norms that he and other international scholars make should become the law, even if they are rejected or not otherwise embraced by the Congress? That can't be within the mainstream. That is outside the mainstream; indeed, I believe a radical view of our obligations in the international community.

In 2002, Professor Koh delivered a lecture on the matter of gun control. He argued for a ''global gun control regime.''

I don't know exactly what he means by that, but if he means that the second amendment rights under the U.S. Constitution of an individual American citizen to keep and bear arms are somehow affected by global gun control regimes, then I disagree with him very strongly. Our rights as Americans depend on the American Constitution and American law, not on some global gun control regime or unratified treaties because of some legal theory of customary international law.

On the matter of habeas corpus rights for terrorists, in 2007, Professor

Koh argued that foreign detainees held by the U.S. Armed Forces anywhere in the world—not just enemy combatants at Guantanamo Bay—are entitled to habeas corpus review in U.S. Federal courts. Those are the rights reserved to American citizens under our Constitution and laws, not to foreign terrorists detained by our military in farflung battlefields around the world.

If Professor Koh were correct—and he is not—this would mean that even foreign enemy combatants captured on the battlefield fighting against our troops in Afghanistan and held at Bagram Air Force Base would be able to sue in the U.S. courts seeking their release.

On this issue, fortunately, Dean Koh's radical views are not shared by the Obama administration, which filed a brief recently arguing that habeas corpus relief doesn't extend to detainees held at Bagram Air Force base in Afghanistan.

Do we want a top legal adviser in the State Department working to grant terrorists and enemy combatants even more rights than they have now?

There is the issue of military commissions, something Congress has spoken on at some length after lengthy debate. Professor Koh's views of military commissions also deserve our attention.

Military commissions, it turns out, have been authorized since the beginning of this country—by George Washington during the Revolutionary War, by Abraham Lincoln during the Civil War, and by Franklin Roosevelt during World War II. Yes, military commissions have been authorized both by our 43rd and 44th President of the United States in the context of the war on terror.

President Obama has said that ''military commissions . . . are an appropriate venue for trying detainees for violations of the laws of war.'' I agree with him.

Of course, military commissions, as I alluded to a moment ago, have had bipartisan support and have been authorized by the Congress. But somehow Professor Koh takes a more radical view. He believes military commissions would ''create the impression of kangaroo courts.'' He said they ''provide ad hoc justice.'' He said they do not and cannot provide ''credible justice.''

Do we want the top legal adviser at the State Department undermining both the will of Congress and the President regarding the time-tested practice of military commissions during wartime?

Again, here is another example of Professor Koh's views that are radical views—certainly outside of the legal mainstream. Senators should also take a look at Professor Koh's views on suing or prosecuting lawyers for providing professional legal advice in the service of their country.

My position is clear: Government lawyers—and I don't care whether they are working in a Democratic administration or a Republican one—should not be prosecuted or sued for doing their jobs in good faith. They should not be punished for giving their best legal advice under difficult and novel situations, even if it turns out that some lawyer somewhere later disagrees with that advice.

As dean of the Yale Law School, Professor Koh has enabled and empowered the leftwing attempt to sue one of its own alumni, John Yoo, who worked at the Office of Legal Counsel in the Bush administration.

The Yale Law School's Lowenstein International Human Rights Law Clinic has filed suit against John Yoo for the legal advice he provided to policymakers during his service on behalf of the American people.

I wonder if Professor Koh is willing to hold himself to the same standard and agree that individuals can sue him for his official acts if he is confirmed as Legal Adviser to the State Department—if later on lawyers, and perhaps prosecutors, disagree with that legal advice and say it was wrong.

Suppose Professor Koh gives legal advice that certain GTMO detainees should be released. If they return to the battlefield, as many have, and end up killing Americans, or our allies, should the victims' families be allowed to hold Professor Koh legally responsible in a court of law? Or suppose Professor Koh gives legal advice that authorizes military actions in Afghanistan or Pakistan. If those operations result in collateral damage, or civilian casualties, would the victims have standing in Federal Court to sue Professor Koh?

Do we want a top Legal Adviser at the State Department who is so compromised by the fear of being sued or prosecuted that he could not be trusted to give honest, good-faith legal advice to the Secretary of State or the President of the United States?

Perhaps most timely, given the civil unrest in Iran—and the Senator from Massachusetts was critical of the fact that I quoted a 2007 writing of Professor Koh, but it is true from this writing, and I will read it in a moment—Professor Koh appears to draw a moral equivalence between Iran's regime's political suppression and human rights abuses, on one hand, and America's counterterrorism policies on the other.

In 2007 he wrote:

> The United States cannot stand on strong footing attacking Iran for ''illegal detention'' when similar charges can be and have been lodged against our own government.

He goes on to say that U.S. Government criticism of Iranian ''security forces who monitored the social activities of citizens, entered homes and offices, monitored telephone conversations, and opened mail without court authorization,'' was ''hard to square'' with our own National Security Agency's surveillance programs.

Do we want to confirm a top Legal Adviser at the State Department who can't see the difference between counterterrorism policies approved by the Federal courts and the Congress and the brutal repression practiced by a theocratic regime?

We have heard enough moral equivalence about Iran over the last week, and we have heard enough apologies for the actions of the United States, and enough soft-peddling of the actions of the Iranian theocracy, which is a brutal police state. We don't need another voice in the administration whose first instinct is to blame America and whose long-term objective is to transform this country into something it is not.

For these reasons, I urge my colleagues to oppose the nomination of Harold Koh as the top Legal Adviser to the State Department.

I yield the floor and reserve the remainder of my time.

Mr. WARNER. Mr. President, I rise today in support of the nomination of Dean Harold Hongju Koh to serve as Legal Adviser to the Department of State. Dean Koh is a close friend of mine, whom I have known and respected for many years. His distinguished career reflects a long history of public service and bipartisanship. For example, Dean Koh served in both Republican and Democratic administrations, beginning his career in government in the Office of Legal Counsel during the Reagan administration and at the Department of Justice and as Assistant Secretary of State for Democracy, Human Rights, and Labor in the Clinton administration.

Dean Koh also has strong academic and professional credentials. He was the editor of the Harvard Law Review, a Marshall scholar and a law clerk for the Honorable Harry A. Blackmun of the U.S. Supreme Court. He has been awarded with several honorary degrees and more than 30 human rights awards.

Dean Koh's established expertise in international law makes him a strong candidate for the position. I am certain that he will protect the U.S. Constitution and execute the job with extraordinary professionalism. I strongly support his nomination.

Mr. DODD. Mr. President, I rise in support of the nomination of Harold Koh to serve as Legal Adviser to the Department of State.

My one and only regret in offering my enthusiastic support for this nomination is that it will take from my State of Connecticut a pillar of our academic community and a mentor to countless young legal minds at the Yale Law School, where Harold Koh has served as a member of the faculty since 1985 and dean since 2004.

Dean Koh is a man of extraordinary intellect, unquestioned patriotism, and

great accomplishment. He is a former Marshall Scholar, a graduate of Harvard Law School, the recipient of 11 honorary degrees, and the author of 8 books.

He has appeared before appellate courts and the Congress on countless occasions, won many awards and accolades as a human rights advocate, and served his country under Presidents of both parties. In his most recent service, he was unanimously approved by this body to serve as Assistant Secretary of State for Democracy, Human Rights, and Labor, where he served with tremendous distinction for 3 years.

In short, Dean Koh is exactly the sort of public servant we need at the State Department at a time when our Nation is seeking to restore its standing in the world by renewing our commitment to traditional American values like respect for all people and adherence to the rule of law.

After all, we confront global challenges as complex as they are numerous. Nuclear proliferation and international terrorism threaten our national security, and issues like genocide and human trafficking test our leadership on the world stage. Our foreign policy must be rooted in an understanding of American and international law, as well as a firm commitment to not only our Constitution, but also the underlying moral values from which it was created.

No one understands these issues better than Harold Koh. He is the child of parents born in South Korea who grew up under Japanese colonial rule. They lived through dictatorship and unrest before coming to America. Their son Harold chose to study law because he understood that, as he once stated in an essay, ''freedom is contagious.''

Dean Koh wrote movingly of his time with the State Department:

Everywhere I went—Haiti, Indonesia, China, Sierra Leone, Kosovo—I saw in the eyes of thousands the same fire for freedom I had first seen in my father's eyes. Once, an Asian dictator told us to stop imposing our Western values on his people. He said, ''We Asians don't feel the same way as Americans do about human rights'' I pointed to my own face and told him he was wrong.

Our Nation will be safer and stronger, and the world will be freer, with Harold Koh at the State Department once again.

I suspect that many of my colleagues who have raised concerns about this nomination understand fully just how qualified Dean Koh is for this position. Unfortunately, some are too willing to play politics with our foreign policy.

Let's be clear. To suggest that Dean Koh does not understand or appreciate American sovereignty or the supremacy of our Constitution is an insult. Dean Koh has done important and valuable work exploring the tenets of international law and comparisons between the legal systems of different countries, work I hope he will continue when his nomination is approved. He does not wish to subjugate our legal system to that of any other nation, or to international law, and claims to the contrary are simply inaccurate and unfair.

Indeed, while some have been tempted by the prospect of opposing a talented legal scholar nominated by a President of the opposing party, Dean Koh's nomination has been endorsed by serious legal minds on both sides of the ideological spectrum.

John Bellinger, who served in this position under President George W. Bush, wrote: ''I do think Harold Koh is well qualified and should be confirmed.''

Kenneth Starr, the well-known Republican attorney who has opposed Dean Koh in court on many occasions, calls him ''not only a great lawyer, but a truly great man of irreproachable integrity.''

Conservative legal legend Ted Olson agrees, calling Dean Koh a ''brilliant scholar and a man of great integrity.'' He also makes the very salient point that ''the President and the Secretary of State are entitled to have who they want as their legal adviser.''

Serious people, people who understand the importance of this position to our foreign policy and the nature of the man President Obama has nominated to fill it, have been able to look past political considerations and judge Dean Koh fairly.

They support him. I support him. I urge my colleagues to support him. And I look forward to his confirmation, his service, and his continued friendship.

Mr. CORNYN. We yield back the remainder of our time.

I ask for the yeas and nays.

The PRESIDING OFFICER (Mrs. SHAHEEN). Is there a sufficient second?

There is a sufficient second.

The question is, shall the Senate advise and consent to the nomination of Harold Koh, of Connecticut, to be Legal Adviser of the Department of State.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) and the Senator from Massachusetts (Mr. KENNEDY) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 62, nays 35, as follows:

[Rollcall Vote No. 213 Ex.]

YEAS—62

Akaka	Brown	Conrad
Baucus	Burris	Dodd
Bayh	Cantwell	Dorgan
Begich	Cardin	Durbin
Bennet	Carper	Feingold
Bingaman	Casey	Feinstein
Boxer	Collins	Gillibrand

Corker	Isakson	Wicker
Cornyn	Johanns	

NOT VOTING—2

Byrd	Kennedy

The nomination was confirmed.

Mr. KERRY. Madam President, I move to reconsider the vote.

Mr. WARNER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. KYL. Madam President, today the Senate confirmed Harold Koh to the position of Legal Adviser to the State Department by a vote of 62 to 35. I voted against his confirmation for reasons I explained on the floor yesterday. Chiefly, I am concerned about his support for a transnational legal process. The National Review recently published an article that explores the inherent conflict between transnational legal structures built on ''global norms'' and the constitutionally defined role of the American judiciary. I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

KOH FAILS THE DEMOCRACY TEST

(By John Fonte)

Advocates of global governance advance their agenda through the ''transnational legal process.'' Harold Koh, former dean of the Yale Law School, who has been nominated by President Obama to be the legal adviser to the State Department, is a leading advocate of this ''transnational legal process.'' His confirmation hearing is today, Tuesday, April 28.

Dean Koh has written extensively—sometimes clearly, sometimes obtusely—on transnational law and the ''transnational legal process.'' In a rather clear paragraph in The American Prospect (September 20, 2004), Koh explains how the system works: Transnational legal process encompasses the interactions of public and private actors—nation states, corporations, international organizations, and non-governmental organizations—in a variety of forums, to make, interpret, enforce, and ultimately internalize rules of international law. In my view, it is the key to understanding why nations obey international law. Under this view, those seeking to create and embed certain human

rights principles into international and domestic law should trigger transnational interactions, which generate legal interpretations, which can in turn be internalized into the domestic law of even resistant nation-states.

Koh says much the same thing in the Penn State International Law Journal (2006)—more abstractly, to be sure, but it is worth listening to his voice to begin to appreciate the tone of the global-governance debate in legal circles: To understand how transnational law works, one must understand ''Transnational Legal Process,'' the transubstantive process in each of these issues areas [business, crime, immigration, refugees, human rights, environment, trade, terrorism] whereby [nation] states and other transnational private actors use the blend of domestic and international legal process to internalize international legal norms into domestic law. As I have argued elsewhere, key agents in promoting this process of internalization include transnational norm entrepreneurs, governmental norm sponsors, transnational issue networks, and interpretive communities. In this story, one of these agents triggers an interaction at the international level, works together with other agents of internalization to force an interpretation of the international legal norm in an interpretive forum, and then continues to work with those agents to persuade a resisting nation-state to internalize that interpretation into domestic law.

Koh notes that the crucial mechanism for incorporating these global norms that are ''created'' and ''interpreted'' in transnational forums into American constitutional law is the American judiciary. As Koh declares, ''domestic courts must play a key role in coordinating U.S. domestic constitutional rules with rules of foreign and international law.''

The global norms that are to be ''internalized'' into American law cover a wide range of policy areas, including matters of foreign policy, terrorism, internal security, commerce, environment, human rights, free speech, and social issues such as feminism, abortion, gay rights, and the status of children.

To ask the crucial questions of democratic theory: Who governs? Who decides?

For the advocates of global governance, the policy issues listed above are typically global problems that require global solutions. In this view, international judges, NGO activists, international lawyers, and the like operating in transnational forums such as the International Court of Justice, the International Criminal Court, and various U.N. agencies are the appropriate decision-makers.

For the advocates of liberal democracy, these issues should be decided through the democratic political process. In the United States, this would mean the elected representatives of the people: the Congress and president at the national level, state legislatures and governors at the state level, and city councils and mayors at the local level.

To be sure, the American judiciary should perform its constitutional role of interpreting the laws made by the political branches of American democracy. However, it is not appropriate for American courts to impose or ''internalize'' global norms, rules, or laws ''created'' at transnational forums by transnational actors who have no direct accountability to ''We the People of the United States''; actors who not only are not elected by the American people, but who are, for the most part, not even citizens of the United States. It is not appropriate, that is, if one believes in liberal democracy.

But, of course, the ''transnational legal process'' articulated by Harold Koh and the politics of transnationalism generally are not democratic. They represent a new form of governance that I call ''post-democratic.'' To ''make, interpret, [and] enforce'' international law, ''which can in turn be internalized into the domestic law of even resistant nation-states'' (as Koh describes it), is to exercise governance. But do these transnational governors have the consent of the governed?

The transnational legal process fails the ''government by the consent of the governed'' test in two ways. First, the democratic branches of government, the elected representatives of the people, have no direct input either in writing the global laws in the first place, or even in consenting to their domestic internalization, as, for example, happens when the Senate ratifies a treaty or the Congress passes enabling legislation for a non-self-executing treaty.

Second, there is no democratic mechanism to repeal or change these international rules that are incorporated into U.S. law by this process. What if the American people decide that they object to these global norms and transnational laws that were imposed upon them without their consent (on, for example, the death penalty, internal security, immigration, family law, etc.)? What if the American people at first approved, but later changed their minds on, some of these rules: How can these global norms, now part of international law and U.S. constitutional law, be repealed? Legislation to repeal the global norms could be deemed ''unconstitutional.'' In short, there are no democratic answers to these questions consistent with the transnational legal process, because it is not a democratic process.

At the end of the day, the argument over the transnational legal process is one part of a larger argument that will come to dominate the 21st century: Who governs?

Will Americans continue to decide for themselves public policies related to national security, human rights, immigration, free speech, terrorism, the environment, trade, commercial regulation, abortion, gay rights, and family issues—or will questions be decided by ''transnational issue networks'' working with ''transnational norm entrepreneurs,'' ''governmental norm sponsors,'' and ''interpretive communities,'' with the complicity of American judges?

The PRESIDING OFFICER. Under the previous order, the President shall be notified of the Senate's action.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now return to legislative session.

LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

The PRESIDING OFFICER. Under the previous order, the clerk will report H.R. 2918.

The legislative clerk read as follows:

A bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Madam President, there will be at least one more vote today.

Senator NELSON should be here momentarily to start managing the Legislative Branch appropriations bill.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. NELSON of Nebraska. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1365

(Purpose: In the nature of a substitute.)

Mr. NELSON of Nebraska. Madam President, it is my understanding that there is an amendment already at the desk.

The PRESIDING OFFICER. That is correct. The clerk will report.

The legislative clerk read as follows:

The Senator from Nebraska [Mr. NELSON] proposes an amendment numbered 1365.

(The amendment is printed in today's RECORD under ''Text of Amendments.'')

Mr. NELSON of Nebraska. Madam President, I rise today to present the fiscal year 2010 legislative branch bill. I want to start by thanking Senator MURKOWSKI and her staff for their help in putting this bill together. I am very grateful for her support on this subcommittee. This was truly a bipartisan effort from start to finish. I thank her and I note that her health is improving because her leg is improving and she is getting to places on her own now.

This bill funds the salaries of the very dedicated public servants who support the legislative branch of government. The legislative branch is home to not only all of us here in the Senate and the House, but the Capitol Police, the Library of Congress, the Architect of the Capitol, the Government Accountability Office, the Government Printing Office, the Congressional Budget Office, the Office of Compliance, and the Open World Leadership Center.

In crafting this bill, it was our firm belief that the legislative branch should lead by example, funding only the most critical needs of our agencies and being good stewards of the taxpayers' dollars. This proved to be quite a challenge when we were presented with a budget request that reflected a 15-percent increase over the fiscal year 2009 enacted level. However, after several hearings, many meetings, and countless hours of staff negotiations, I am proud to say that we did exactly what we set out to do in writing this bill.

The bill before us today totals $4.6 billion, which is a 4.7-percent increase over the current year. The bill includes House-related items solely considered by that body which totaled $1.475 billion. It is important to note that the

Senate Legislative Branch appropriations bill, which did not include House-related items, over which we had no control, represented only a 3.3-percent increase over fiscal year 2009 and was significantly below the budget request. If you include the $25 million that GAO received in the stimulus bill, then this is only a 2.4-percent increase over current year funding levels.

The fiscal year 2010 bill provides $934 million for the Senate, which is an increase of 4.3 percent over the current year. This funding will provide for annual salary and operating increases for Senate offices, the Senate Sergeant at Arms, the Secretary of the Senate, and other agencies that support the operation of the Senate.

The bill includes $331 million for the Capitol Police, which is an 8-percent increase over current year. This includes $15.4 million to fully implement the merger of the Library of Congress Police with the Capitol Police, providing seamless security throughout the entire Capitol complex.

The bill also provides for 10 additional civilian positions to help resolve management issues, including the constant increase in the demand for overtime. The committee did not provide the 76 new officers requested in fiscal year 2010, but does direct GAO to work with the Capitol Police to ensure that they are getting the most efficient use of their nearly 1,800 officers currently on board, by far the biggest this force has ever been.

The Architect of the Capitol is funded at $445 million, which is a decrease of $18 million, or 4 percent below current year. The amount includes $48 million in deferred maintenance projects, including $16.8 million for continued work on asbestos abatement and structural repairs in the utility tunnels. I am happy to say that the utility tunnel work is on schedule and significantly below original cost estimates. The bill also includes over $14 million in energy and sustainability projects across the Capitol campus.

The Library of Congress funding totals $638.5 million, which is a 4-percent increase over the current year. This amount includes $8.5 million for technology upgrades to allow for increased digitization of the Library's collections and full funding for the Digital Talking Book for the Blind project.

The Government Accountability Office is funded at $553.6 million, which is a 4-percent increase over current year, and provides all salary and inflationary increases for GAO's current staff level.

The Government Printing Office is funded at $147 million, which is a 4-percent raise over current year, allowing for the continued implementation of GPO's Federal Digital System and other technology upgrades.

The Congressional Budget Office is funded at $45 million, a 2-percent increase over the current year. Combined with the $2 million included in the supplemental, CBO will have adequate funding and FTEs needed to perform the critical work associated with health care spending, the current financial crisis, and global climate change.

The Office of Compliance is funded at $4.4 million, an increase of 8 percent above current year to cover inflationary changes and to allow the Office to hire an Occupational Safety and Health Program supervisor.

Last, but not least, the Open World Leadership Office is funded at $14.4 million, which is a 4-percent increase over the current year.

I believe the bill before the Senate is sound, prudent, and fiscally responsible. Taking into account the calculations I have given, it is a 2.4-percent increase over the current with those calculations. I encourage my colleagues to support its passage.

The PRESIDING OFFICER. The Senator from Alaska is recognized.

Ms. MURKOWSKI. Madam President, I rise this afternoon in support of the Legislative Branch appropriations bill for fiscal year 2010. The chairman of the subcommittee, Senator NELSON, and I have worked collaboratively in this process of putting the bill together. I thank him for that. I think we had some real substance in our hearings and spent the time, the energy, and the focus we needed on these matters regarding this particular appropriation.

When combined with the House items, the bill before us totals $4.7 billion, and while this is an increase of 5 percent over the current year, the bill we reported out of the committee represented less than a 3-percent increase over fiscal year 2009, as the chairman has said—in fact, 2.4 percent. I would argue for those who say we need to keep our appropriations bills within the range of inflation, we are probably there at a 2.4-percent increase.

We cannot, within this body, control the amounts the other body may provide for its own operations, but the amounts for the Senate and the other legislative branch agencies that are controlled in this bill are controlled very closely, especially when we compare this with the average 15 percent increase that was requested by the legislative branch agencies. I think we worked very hard to take the requests that came before the committee and really pared them down to what was appropriate, what was needed, what was necessary.

Both Senator NELSON and I are new to the Appropriations Committee. I am very pleased we were able to have these very good and substantive hearings with all of the legislative branch agencies. We discussed the wide range of issues and challenges before the legislative branch. We worked well together and have been consistent in our efforts to eliminate unnecessary spending, tighten our belts, and help ensure that the legislative branch is a model for the rest of the government. We believed we needed to set a good standard. If we stay on schedule, we will be able to get this bill enacted prior to the beginning of the fiscal year. It is a good start to the appropriations process.

I would like to highlight just a few areas, adding on to what the chairman has mentioned.

First, with respect to the Architect of the Capitol, the bill funds those projects that address the most serious risks to safety and health, such as repairs within the utility tunnels that underlie the Capitol Complex and projects that remedy deferred maintenance in our buildings. If we don't address the maintenance backlogs, the price tags, we know, will just increase down the road.

The bill continues the Architect of the Capitol's efforts to improve energy efficiency, with over $14 million in funding designated for this purpose.

Within the Library of Congress, we managed to include funding to begin to update the agency's information technology infrastructure. For about a decade now, there have been no increases to IT within the Library of Congress. Yet most of the users of the Library are virtual users. This was the highest priority of our Librarian of Congress, Mr. Billington. This investment will ensure that millions of people who access the Library through its Web site will be able to find what it is they are looking for.

Similarly, within GPO, we funded the final increment for updating GPO's—this is the Government Printing Office—Web site to ensure government publications can be easily accessed and searched.

Also, the bill provides the final increment of funding to complete the merger of the Library of Congress Police into the Capitol Police. This project was initiated by Senator BENNETT when he was chairman of the subcommittee and has been promoted by each of the successive chairs and ranking members to improve security of the Capitol Complex.

Finally, there is a directive in the bill for a report by the Government Accountability Office of a study of Capitol Police staffing and overtime. Senator NELSON and I both share the concern that we right-size the Capitol Police and we control overtime spending. We recognize security is absolutely paramount, but effective management of the agency is equally as important.

I thank Senator NELSON for his efforts and those of his staff and my staff in putting this bill together. I also thank the full committee chairman, Senator INOUYE, and the ranking member, Senator COCHRAN, for getting us to the floor today.

I yield the floor.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. INOUYE. Madam President, today the Senate begins its consideration of our annual spending bills. We start with the legislative branch appropriations bill. I am pleased to announce to my colleagues that as of this moment, the Appropriations Committee has reported out four appropriations bills. It may please you to know, Madam President, that all of these bills—Legislative, Homeland Security, Commerce, and Interior—passed the committee unanimously and all of the bills represent a bipartisan approach.

We start with the legislative branch appropriations bill not because we want to take care of ourselves, but because it is the only bill so far which has been passed by the House and marked up by the Senate Appropriations Committee.

Without unanimous agreement, the Senate can only act on those appropriations bills which have already been approved by the House. While we begin today with the legislative bill, we are confident that several bills will soon follow. We are optimistic that the Homeland Security bill will pass the House this week and be available for consideration before we adjourn for the recess. Later this week the Committee on Appropriations will meet to consider two additional appropriations bills and we expect to meet in early July to prepare another five bills. Over the next several weeks we expect to have many bills debated and hopefully passed by the Senate so that we can begin final conference deliberations on these critically important measures.

The bill before the Senate, as prepared by our Legislative Subcommittee Chairman, Senator NELSON of Nebraska and his ranking member Senator MURKOWSKI of Alaska provides $3.1 billion for the operations of the Congressional Branch, excluding amounts specifically requested for the House of Representatives. It represents a 3-percent increase over the amounts provided in FY 2009, but it is nearly 10 percent below the amount requested.

Our colleagues should thank Senators NELSON and MURKOWSKI for completing their hard work on this bill. Because of the change in administration, the committee has had the details of the President's request for less than 2 months. Yet our colleagues, who have only assumed their subcommittee leadership positions this year, have already completed their review and prepared this measure.

The bill was marked up by the committee last week and approved on a unanimous vote. It is a tribute to our two managers that this bill was passed by the committee without a single amendment.

For those of our colleagues who focus on the small part of the Appropriations bills which are earmarks, I would note there is only one earmark in this bill.

Many critics and pundits constantly overstate the controversy over earmarks, but here in the bill which provides the essential support for our legislative branch, we include only one earmark.

As we begin our process to provide for our Nation's spending it is important to remember why we are engaged in this annual exercise.

As the Framers of our Constitution recognized it is critically important to our democracy to ensure that the people's representatives in the Congress are the ones who determine how taxpayer money should be expended.

While the Congress relies on the expertise of the executive branch to develop programs and to construct spending plans, it is our responsibility to determine which of these programs and plans is right for the American people. We were elected to represent our States. One way in which we carry out our responsibilities is by determining our Nation's budget.

Included in this process is the relatively small amount of funding that are included in direct response to our constituents' petitions. In the fiscal year 2010 bills that the Appropriations Committee will recommend to this body we will reduce our spending on non-project based earmarks by 50 percent compared to amounts for these program in fiscal year 2006.

To understand the importance of our willingness to curtail this type of spending, I would note that this means a reduction of more than $8 billion in earmarks.

Chairman OBEY and I have agreed that, as long as he and I are Chairmen, the total of non-project based earmarks in appropriations bills will not exceed 1 percent of the total discretionary funding appropriated by the committee in any fiscal year.

What this means is that this year and in future years we will allocate 99 percent of the funds in the budget for national programs and programs which are included in the president's request, and only 1 percent, really less than 1 percent, for programs that are included in direct response to the needs of our States, cities, towns and the constituents whom we represent.

It is essential that the Congress maintain its control over Federal spending. While it may not always be politically popular to challenge the authority of Presidents in determining the spending priorities for the country, it is how we safeguard the democratic traditions of this Nation.

The day that we cede this authority to the White House is the day when we create a monarchy. As chairman of the Appropriations Committee and a member of this body for more than 46 years, I have no intention to allow that to occur.

As the Senate reviews this and the other spending bills which will soon follow, I urge it to be mindful of the importance of this task.

The bill before this body deserves the support of every Member of this body. It provides for the essential services to fulfill the functions of our legislative branch.

It is a clean bill free of unnecessary legislative riders. It is $300 million below the amount requested and within the funding allocation provided to the subcommittee. I strongly recommend its approval.

The PRESIDING OFFICER. The Senator from Louisiana is recognized.

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. VITTER. Madam President, I have a motion to commit with instructions at the desk.

The PRESIDING OFFICER. The clerk will report the motion.

The legislative clerk read as follows:

Mr. VITTER moves to commit the bill H.R. 2918 to the Committee on Appropriations with instructions to report the same back to the Senate making the following changes.

(1) Amend the amounts appropriated in the bill so as to report back a bill with an aggregate level of appropriations for fiscal year 2010 not more than the level enacted for fiscal year 2009, while not reducing appropriations necessary for the security of the United States Capitol complex.

Mr. VITTER. Madam President, I will outline my motion to commit shortly. First, by way of introduction, let me say how disappointed and frustrated I am that another amendment I had proposed for this bill was consistently blocked out all of this week, and no vote, no consideration was allowed by the distinguished majority leader. That amendment, which had been filed some time ago, which I worked hard to get before this body, would have passed again, a repeal of the automatic pay raise provision for Members of the Senate and Members of the U.S. House currently in the law.

We are in the midst of a very serious recession. American families all around the country are really hurting. Many have been laid off, lost their jobs through investment losses and the stock market. Many others are scared to death about their future. Yet all of us as Members of Congress live under this system where we get an automatic pay raise virtually every year, a pay raise on autopilot without any need for a proposal or a bill to be offered, to be filed, to be debated or voted on. That really is a very offensive system to millions of American families, particularly so during this serious recession.

I am very sorry the majority leader felt the need to work at every turn to block out any consideration of this amendment and certainly any vote on this amendment. We have a unanimous consent agreement on this bill before us. It contains amendments that are not germane to the bill. It contains amendments that have points of order

against them. There is no legitimate way the majority leader can distinguish my amendment from those, except that he didn't want to deal with the issue.

We already have dealt with it by passing a stand-alone bill through the Senate. But, of course, to require the House to deal with it, we need to effectively attach it to another must-pass bill. So that remains my goal, and my effort will continue. I wish to assure and reassure the majority leader that effort will continue and we will be talking about this more in the future.

With regard to my motion to commit with instructions, it has a very similar theme because this motion to commit would simply send this appropriations bill back to the committee and ask that they restyle it so that it does not spend any more money than we spent on legislative appropriations for the last fiscal year. That would constitute about a $76 million cut. That is not a huge amount of money in Washington terms, but I think it would be the beginning of a huge and an important and an appropriate statement by this body.

Again, as I said, American families are hurting all over the country. There have been layoffs, job losses; there have been tremendous investment losses; people's savings have been whittled away, down to nearly nothing in some cases. People who had retired, counting on a certain future have seen that future disappear in front of their eyes. They don't have the luxury, particularly now, this year, in this recession, of any percentage increase—many of them. Many of those American families are dealing with a huge income decrease. Wouldn't it be reasonable and appropriate for us collectively to say we are going to live by the same dollar amount as we did last year? Consider that amount last year was an 11-percent increase from the year before, so that amount Congress passed last year was an 11-percent increase—about triple the rate of inflation—done in the middle of this serious recession. That was a significant increase last year. Shouldn't we temper that? Shouldn't we make a statement that we are going to live with the same dollar amount as last year?

I also note that under the exact language of my amendment, No. 1, we would give maximum flexibility to the Appropriations Committee about how they would find those modest savings of $76 million, and No. 2, the one thing we would protect, the one thing we would tell them not to touch is spending which is essential for security of the Capitol Complex. There would be no chance—not that it would be the desire of the Appropriations Committee—there would be no possibility of sacrificing anything to do with security of the Capitol Complex.

This is a pretty simple and a pretty basic suggestion. I think it is a pretty commonsense one. American families are struggling with the worst recession since World War II. Millions of American families have one or more members who have lost their jobs. Those families have seen their incomes go down enormously. Tens of millions of other Americans have seen life savings cut in half. Folks in retirement or near retirement have seen that whole picture change before their eyes. So there are plenty of Americans who are not dealing with an increase from last year, they are dealing with a huge decrease. How about we say on a bipartisan basis: OK, our legislative budget got an 11-percent increase last year even as this recession was underway.

So this year, we are going to get a zero percent increase. This year we are simply going to live with the same dollars as we lived with for the legislative branch last year. This is simple, straightforward, but I think important. Again, we would do this by giving the committee maximum flexibility in terms of finding those savings, and we would do it by protecting the security of the Capitol complex.

I urge all of my colleagues to support this important symbol and this important statement as families hurt all around our country.

Madam President, I reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. NELSON of Nebraska. Madam President, I rise in opposition to the Vitter amendment to fund the legislative branch agencies at current year levels, which would result in a reduction actually of $101 million below the level that Senator MURKOWSKI and I have proposed in the bill we are considering.

The fiscal year 2010 bill reflects, as I have mentioned and said, only a 2.4-percent increase over fiscal year 2009 spending when you take GAO's stimulus funding into account.

When we started drafting this bill, the budget request we received sought a 15-percent increase over fiscal year 2009. From the outset, my ranking member and I have been committed to holding this bill to the lowest possible funding level, and to lead by example in being good stewards of the taxpayers' money.

My intention was to hold this bill at the rate of inflation, if we could, and it frankly pained me to even have to go as far as 2.4 percent over current year. But the reality is there are expenses in the legislative branch that we are responsible for.

As a former Governor, I am used to hearing individuals assert the desire to make budget cuts without actually offering any specifics. So I am used to what we are seeing here tonight. I say to my colleague, if he has specific suggestions about what types of cuts would be prudent—he has told us what not to cut, but if he has some specific suggestions about the types of cuts, I would be happy to talk about them. Speaking in generalities will not get the job done. I can appreciate the desire to keep spending restrained. However, if the Senator wishes to make specific suggestions of the $100 million cuts that he is, in fact, proposing, I would welcome it, as I would have welcomed hearing any of the Senator's suggestions during the weeks and months it took to create this bill.

As a matter of fact, I have visited with my colleague Senator JOHANNS about the increases in this budget this year, and have suggested to him that if there are other areas we should cut, then we would take his thoughts into consideration and make any adjustments that would make sense.

But, to my knowledge, I have not received any note of concern from the Senator, the sponsor of this amendment, about any of the items included in this bill while it was being created. We are all concerned about fiscal responsibility.

Let's talk a little bit about this bill and what this amendment would mean. We now have a fully operating Visitor Center here in the Capitol that costs money to operate and to secure, recently completed. There are still costs associated with bringing it up and into the running process. The Visitor Center has provided increased amenities for our constituents when they make the trip to Washington to visit. But it does cost money.

I have already outlined the bill in my opening statements, so I will not go through all of that again.

This is the first time through this process as chairman of the Legislative Branch Subcommittee, and I must say I was honored when Chairman INOUYE tasked me with the enormous responsibility.

This committee funds the agencies Congress relies on to provide them with timely information pertaining to the oversight of the Federal Government. For example, last year the Government Accountability Office, the GAO, as it is referred to, received over 1,200 congressional requests and testified at over 300 congressional hearings. Their work produced hundreds of improvements in government operations and produced significant financial savings for the American taxpayer.

The Congressional Budget Office, the CBO, also funded in this bill, actually received emergency funding in the supplemental that passed last week to further strengthen their workforce, allowing for timelier production of analyses for congressional offices.

I do not know how a spending freeze can be proposed to an agency that desperately needed this kind of help to do their job here so we can do our jobs here in Congress.

It does not make sense. I know for a fact that my colleagues depend on the

CBO, that office, perhaps now more than ever before, for analysis related to health care costs, energy, and the current financial crisis.

The agencies funded in this legislative branch work for Congress. Quite simply, if you reduce their funding, you will reduce the service we receive here in Congress at an important time when we are facing important legislation. So we are a little spoiled here. But that is because of the great service we are used to receiving from the Government Printing Office to the Congressional Research Service to the Capitol Police who maintain our security, and the security of those who are in our buildings and on our grounds. These are agencies and staff that also support Congress. That is their mission. I think we owe it to them to at least to fund the cost-of-living increase for these dedicated public servants. The vote will determine whether you think your staff deserves a cost-of-living adjustment in 2010, and whether you think our Capitol Police deserve to be paid overtime with the long hours they work, risking life and limb to keep us and the thousands of Americans who visit here each year safe in the Capitol complex.

Every elevator operator, every construction worker, every plumber, every electrician, every maintenance person, every parking lot attendant, virtually every employee you encounter here in the Capitol complex, including staff present here today, is paid from this appropriations bill.

I could go on and I could go on. But I have to admit, I did not realize what a lot of those folks did until I started working on this bill. But now I do.

It is my responsibility, and the responsibility as well of the ranking member, to do what we think is right by these employees and these agencies.

I respectfully urge my colleagues to vote no on this motion.

How much time does the Senator need in response?

Mr. VITTER. I might need an additional 3 minutes to wrap up.

Mr. NELSON of Nebraska. I yield the Senator 3 minutes.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. VITTER. In summary, let me try to clarify and rebut a few points. First, to say that this bill is a 2.4-percent increase over last year's is complete fiction, because that assumes the stimulus into last year's number. In fact, last year's number, because of the stimulus—and the stimulus was a one-time bill, not a normal fiscal year bill.

No. 2, last year's bill, as I mentioned, was an 11-percent increase over the previous year, three times the rate of inflation.

No. 3, I wanted to give the committee maximum flexibility in making this modest cut. But there are plenty of suggestions I would have. I would be happy to offer specifics. I will offer one right now. The Open World Leadership Center Trust Fund, $14.5 million. That would be almost a quarter of the savings I am asking for. That is a program to bring governmental officials from Russia and Eastern European republics to tour the United States. I am sure it is a nice idea, but I think there would be a lot of American families in the middle of this recession who would ask, is that essential? Is that core to what we are doing in government in very tough economic times? Do we actually need to do this?

We can find those savings. That program alone is a quarter of the savings my motion to commit would require. We can find those savings clearly without touching Capitol Police overtime, without touching cost-of-living increases for employees.

Finally, there are millions of American families who are not dealing with any increase this year in their incomes. They are dealing with a huge decrease. They are dealing with a huge decrease in savings. So can't we simply live with the same dollar amount as we did in the legislative branch last year? I think the huge majority of Americans would find that a very reasonable and a very modest goal.

I yield the reminder of my time.

The PRESIDING OFFICER. The Senator from Nebraska is recognized.

Mr. NELSON of Nebraska. Madam President, I move to table the Vitter motion and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to the motion.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) and the Senator from Massachusetts (Mr. KENNEDY) are necessarily absent.

Mr. KYL. The following Senator is necessarily absent: the Senator from Oklahoma (Mr. INHOFE).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 65, nays 31, as follows:

[Rollcall Vote No. 214 Leg.]

YEAS—65

Akaka	Cochran	Landrieu
Alexander	Collins	Lautenberg
Baucus	Conrad	Leahy

NOT VOTING—3

Byrd	Inhofe	Kennedy

The motion was agreed to.

Mr. NELSON of Nebraska. Madam President, I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

SERVICE OF SUMMONS AGAINST AND RESIGNATION OF SAMUEL B. KENT, JUDGE OF THE U.S. DISTRICT COURT FOR THE SOUTHERN DISTRICT OF TEXAS

The PRESIDING OFFICER. Pursuant to rule IX of the Rules and Procedures in the Senate when Sitting on Impeachment Trials, the Secretary of the Senate will now swear the Sergeant at Arms.

The SECRETARY OF THE SENATE. Do you, Terrance W. Gainer, solemnly swear that the return made by you upon the process issued on the 24th of June, 2009, by the Senate of the United States, against Samuel B. Kent, is truly made, and that you have performed such service as therein described: So help you God?

The SERGEANT AT ARMS. I do.

Madam President, I send to the desk the return of service I executed upon service of the summons upon Judge Samuel B. Kent yesterday, June 24, 2009, at 4:30 p.m., at Devens Federal Medical Center, Ayers, MA, accompanied by a statement of resignation executed by Judge Samuel B. Kent following service of the summons, and to be effective June 30, 2009.

The PRESIDING OFFICER. The return of service and accompanying statement of resignation will be spread upon the Journal and printed in the RECORD.

The documents are as follows:

The foregoing writ of summons, addressed to Samuel B. Kent, United States District Judge, and the foregoing precept, addressed to me, were duly served upon the said Samuel B. Kent, by my delivering true and attested copies of the same to Samuel B. Kent, at Devens Federal Medical Center on the 24th day of June, 2009, at 4:30 p.m.

TERRANCE W. GAINER,
Sergeant at Arms.

Dated: June 24, 2009.

Witness: Andrew B. Willison, Deputy Sergeant at Arms.

I, Samuel B. Kent, Judge of the United States District Court for the Southern District of Texas, hereby tender my resignation as a Federal District Judge effective 30th June 2009.

SAMUEL B. KENT.

Dated 24 June 2009.
Witnessed: Terrance W. Gainer; 4:44 p.m., Andrew B. Willison.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. REID. Madam President, I ask unanimous consent that the Secretary of the Senate be directed to deliver the original statement of resignation executed by Judge Samuel B. Kent on June 24, 2009, to the President of the United States and to send a certified copy of the statement of resignation to the House of Representatives.

I further ask unanimous consent that a copy of the statement of resignation be referred to the Impeachment Trial Committee on the Articles Against Judge Samuel B. Kent established by the Senate on June 24, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF BUSINESS

The PRESIDING OFFICER. The majority leader is recognized.

Mr. REID. Madam President, there will be no more votes today. We will have no session tomorrow. When we come back a week from Monday, we will have a number of votes beginning at 5:30.

As I have told everyone more than once, the next 5 weeks after we get back are going to be jam packed with stuff to do. Members should understand that we will have votes on Mondays and Fridays, with one exception which has already been announced: It is July 17. We hope we don't have to have weekend sessions. We have a lot to do. Everyone knows the workload we have. I would hope that we understand the amount of work we have to do. We are going to be in a week longer than the House of Representatives, as everyone knows. Because of our rules, we can't move as quickly as they do. We have an immense amount of work to do. We have the Sotomayor nomination. We have Defense authorization that was reported out of committee today by Senators LEVIN and MCCAIN. That is something that is very important for the military and to the American people. We have other appropriations bills we have to work on. We have health care. We are going to move as far as we can on that during that period of time. So we have a lot of work to do.

Also, on July 14, there will be no votes after 2 p.m. These are arrangements I made with one of the Senators, and this will be good for the entire body. So there will be no votes after 2 p.m. on July 14.

LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010—Continued

AMENDMENT NO. 1366 TO AMENDMENT NO. 1365

Mr. MCCAIN. Madam President, I have an amendment at the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. MCCAIN] proposes an amendment numbered 1366 to amendment No. 1365.

Mr. MCCAIN. I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To strike the earmark for the Durham Museum in Omaha, Nebraska)

On page 27, strike lines 5 through 10 and insert ''mission.''.

Mr. MCCAIN. Madam President, the amendment is very simple. It strikes from the bill an earmark of $200,000 for the Durham Museum in Omaha, NE. Let me be very clear. I hold no grudge against the museum or the sponsor of this earmark. On the contrary, I hold my colleagues from Nebraska in very high esteem, and I have no doubt that the museum does wonderful work. Thanks to modern technology and Wikipedia, it has a very nice description of the Durham Museum, formerly known as the Durham Western Heritage Museum in downtown Omaha, NE, dedicated to preserving and displaying the history of the U.S. western region and it is housed in Omaha's Union Station.

I am sure it is a very fine place. I am sure it gets lots of visitors from all over the great State of Nebraska. The only problem is, as I understand from reading the bill, which sometimes some of us don't do, this is a bill that is entitled ''Making Appropriations for the Legislative Branch for the Fiscal Year Ending September 30, 2010, and for Other Purposes.'' Well, obviously, the distinguished manager of the bill found another purpose but certainly none that has the slightest connection to the city of Omaha or the State of Nebraska, except the Senator happens to be from that State. He maybe even resides in that city.

The reason I am taking the floor is because Americans are hurting right now. Americans all over this country are hurting right now. I go downtown in my city, my hometown of Phoenix, AR, and I see people closing store fronts. I see people not able to make their house payments or people not able to pay their medical bills, and $200,000 would mean a lot to them; $200,000 is not a small sum.

So the fact is, I don't question the merits of the program. I don't question that the Durham Museum is probably a nice place to visit. I do question when we are going to stop earmarking porkbarrel projects because of the influence or clout of Members of the Senate.

I want to repeat, I do not question that this museum is a fine museum. I do question—and any objective observer would question—how in the world that has a place on appropriations of the taxpayers' dollars for the legislative branch. I don't think the Durham Museum is in the legislative branch of government unless I am badly mistaken, and I am sure I am not.

Here we are with trillions of dollars of deficit—$1.2 trillion for TARP, $410 million for the Omnibus appropriations bill, which was loaded with 9,000 unnecessary and wasteful earmarks, tens of billions of dollars to the domestic auto manufacturers, and we passed a budget resolution totaling $3.5 trillion. Now we have a bill totaling $3.1 billion to run the legislative branch of government.

As has been widely trumpeted, this bill is less than that requested. What it is also, though, is 3 percent more than it was last year. How many Americans are able to get 3 percent more money than they had last year? It is over $76 million more than last year's bill. So is this a big deal, $200,000? Probably not, with the trillions of dollars that we seem to throw around here.

But I am serving notice on my colleagues that I and some of my other colleagues are going to come to the floor and challenge these earmarks. We have to stop doing business as usual while we are committing generational theft and mortgaging our children's future.

Since it is going to be about 10 days or so before we will have a vote on this amendment—as the majority leader mentioned, we are not going to have anymore votes—I ask unanimous consent that before the vote I have 5 minutes and the Senator from Nebraska have the time he needs before the vote that will take place at the pleasure of the majority leader.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. MCCAIN. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. MCCAIN. Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Nebraska is recognized.

Mr. NELSON of Nebraska. Madam President, I respect greatly my colleague from Arizona and his concern about spending. As was noted, the increase in the spending requested in the appropriations bill is about 2.4 percent. While $200,000 is a lot of money—and it certainly is a lot to people today—I

think it is important to point out that this museum is associated with the legislative branch in the following manner.

The Durham Museum is seeking to provide a public service of Federal interest making it appropriate to promote a public-private partnership. And this truly is a public-private partnership; the funding for the project in this bill is only 10 percent of the total cost. The Durham Museum will privately raise the remaining 90 percent and incur all ongoing operating costs.

The $200,000 requested in this bill for the Durham Museum to begin the preservation and digitization of the museum's photo archive collection will create new jobs, preserve our history and improve access to these priceless treasures.

This project will be moved significantly forward by the able assistance of the Library of Congress, and I thank Dr. Billington for his willingness to assist with this important project.

It is important to point out that the Library of Congress has been a leader in digitization efforts, having digitized more than 15 million unique primary source documents. The library enjoyed a remarkable long-term relationship with the Durham Museum long before I came to the Senate and will undoubtedly oversee a quality project as the Durham Museum seeks to follow in our national library's footsteps.

Mr. President, not all national treasures are located inside the beltway.

This project is more than just a ''photo exhibit.'' In addition to making these images available to the public, as noted in the Legislative Branch Report, Durham will work with the Library of Congress to establish conservation and preservation training programs, and on incorporating digitized primary source materials into school curricula.

Dr. Billington and I have worked together to ensure that the library's most impressive exhibits have traveled to the Durham Museum over the years, ensuring that my fellow Nebraskans, Iowans from the east, Kansans from the south, and South Dakotans from the north, have had access to some of our Nation's most treasured documents and artifacts.

Some of the notable library exhibits that have traveled to the Durham Museum have included: ''Bound for Glory,'' showcasing the photographs of the Farm Security Administration in the late 1930s and 1940s, and ''With An Even Hand, Brown v. Board at Fifty,'' commemorating the 50th anniversary of the landmark Supreme Court decision in the case of Brown v. the Board of Education.

In January of 2011, the library's most recent impressive exhibit on Abraham Lincoln, ''With Malice Toward None,'' will travel to the Durham Museum, showcasing some of our revered former President's most transformative speeches and eloquent letters.

I urge that this not be considered just a local project. It is associated with the Library of Congress and, as such, has a tie that is an ongoing and longstanding relationship that will benefit both the Library of Congress and the Durham Museum. There is a nexus here and it is not an isolated incident.

At this point, I ask my colleagues to support the inclusion of that funding within this budgetary request.

OSHA VIOLATIONS

Mr. GRASSLEY. Madam President, as the Senate considers the fiscal year 2010 legislative branch appropriations bill, S. 1294, I would like to raise a concern I have with a provision related to the Congressional Accountability Act of 1995, CAA. As the author of the Congressional Accountability Act, I have long believed that Congress needs to practice what it preaches by applying certain laws Congress passes to the legislative branch. The CAA did this by incorporating a number of laws including the Occupational Safety and Health Act of 1970. Senator MURKOWSKI, the distinguished ranking member of the Appropriations Subcommittee on the Legislative Branch, is here and I would like to ask about the provision in the bill related to the CAA.

I am concerned that the provision striking a section of the CAA related to the compliance date for OSHA violations may go further than necessary. As the author of the CAA, this provision was included to ensure that OSHA violations that are found in legislative branch buildings are remedied in a timely fashion. I understand that some concerns have arisen regarding the requirement that compliance occur by the next fiscal year, which prompted this revision, is that correct?

Ms. MURKOWSKI. That is correct, and it was a topic of discussion during the subcommittee hearings. Citations from the Office of Compliance are requiring certain actions by the Architect of the Capitol that don't always make sense. We found that the legislative branch is held to a higher standard than the executive branch and the private sector, and certain standards and timelines are applied that would not be applied outside the legislative branch, particularly to historic buildings.

As I said in our hearing with the Architect of the Capitol and Office of Compliance, I am completely supportive of having strong fire and life safety standards, but applying a ''gold standard'' to the legislative branch doesn't seem to be appropriate. We need to be pragmatic, and operate within a risk-based framework. In some cases, we have been asked to fund expensive projects by the AOC that simply aren't a good use of taxpayer dollars and don't necessarily offer significant improvements in fire and life safety.

Senator NELSON and I asked GAO to work with us to suggest how we could get the legislative branch on par with the executive branch and private sector. This language is the result of those discussions.

Mr. GRASSLEY. I agree that this provision should not lead to unnecessary expenditures and that we should examine this provision. However, I'm concerned the current revision in S. 1294 goes a bit too far by completely striking the compliance date. In fact I am informed the Office of Compliance, the entity in charge of enforcing the CAA has expressed concerns with completely striking this provision and instead recommends a selective amendment.

Out of the interest of saving time on the Senate floor, I will withhold an amendment to strike or modify this provision if the distinguished ranking member is willing to commit to working with me on this provision to make sure the revision is as narrow as possible as recommended by the Office of Compliance.

Ms. MURKOWSKI. I would agree to work with the ranking member of the Finance Committee, to work with the chairman of this subcommittee, Senator NELSON, and attempt to address his concerns as this bill moves forward.

Mr. GRASSLEY. I thank the distinguished ranking member and look forward to working with her and the chairman to narrow this provision and address the concerns expressed by the Office of Compliance.

Mr. NELSON of Nebraska. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SESSIONS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. Madam President, the nomination of a new Justice to the Supreme Court has somewhat unexpectedly brought to our mind a core question both for the Senate and the American people, and that is: What, if any, is the appropriate role for foreign law to play in the interpretation of our Constitution—meaning, should judges look at what other countries say when they are determining what are our constitutional rights.

This is not an academic question; it is a question that has the potential to impact our fundamental rights guaranteed to us by the U.S. Constitution.

Until recent years, the answer has always been understood to be no, apart from a few rare circumstances, certainly, and certainly never in the interpretation of the meaning of our precious constitutional rights.

This traditional understanding has served to protect our constitutional

right by ensuring that judges remain true to the will of the American people, not the will of foreign judges or courts.

Our system has a critical component: moral authority. That moral authority comes from the basic concept that our law is a product of the will of the people through the people they chose to represent them. The Constitution begins ''We the People do ordain and establish this Constitution.'' Our laws are enacted by a Congress, a body subject to the will of the people, composed of people elected by the people. We are accountable to the American citizens.

The novel idea that foreign law has a place in the interpretation of American law creates numerous dangers. A number of academics, and even Federal judges, I would say, are seduced by this idea.

Judge Sotomayor clearly shares in that idea. I am somewhat surprised, but it is true, as I will discuss. Her vision seems to be that we should change our laws, or listen to other laws and judges, and sort of merge them with this foreign law. That is the overt opinion of Mr. Koh, who was just nominated and confirmed to the chief counsel of the U.S. State Department. Mr. Koh is quite open about it—shockingly so, really.

But I suggest that if we become transnational, we suffer two monumental blows to our legal system. First, the laws we are subject to would not be laws made by us. This should remind us of the Boston tea party. The colonies objected to paying taxes, but not just any taxes; they objected because the taxes were being imposed on them by the British Parliament, and they didn't have a voice in it. The complaint was ''taxation without representation.'' Thus, the moral power of the American law to compel obedience arises from the people's choice to enact it in the first place. That moral authority is undermined when we allow foreign law, which we had nothing to do with, to impact our law. That is a pernicious thing, I suggest.

Second, it is not ever going to work in a good way. Most countries don't have laws, truth be known. They have politics masquerading as laws. Trying to merge our system, based on truth, the law, and the evidence, with these political legal systems will only result in our being shortchanged. We can reach agreements affecting mutual interests with foreign nations and adhere to them as long as we agree to do so—treaties and other kinds of agreements—but to submit ourselves to their political policies while pretending we are merging our law with theirs is foolishness.

It also creates confusion on a matter of utmost importance. The question is, who does the judge serve, the people of the United States or the people of the world or some individual country with whom they agree or the amorphous ''world community,'' which has been referred to?

Furthermore, reliance on foreign law places our constitutional rights in jeopardy. There are great differences between American and foreign law on cherished rights protected by our Constitution. The Constitution's protection of free speech is probably unparalleled anywhere in the world. Other nations punish sometimes spirited debate on controversial matters. They call it sometimes ''hate speech'' and take action against speech and other things that we would allow without a single thought, but it is criminalized in other countries.

The Constitution clearly protects the right to keep and bear arms. Other nations ban private gun ownership entirely. The Constitution allows for the death penalty. Other nations reject the use of the death penalty, even for violent killers, while some other nations have the death penalty and they impose it without due process being carried out. Yet this troubling potential for infringements on constitutional rights, I suggest, is only the tip of the iceberg.

First and foremost, reliance on foreign law creates opportunities for judges to indulge their policy preferences. In a speech that was given to the Puerto Rico chapter of the American Civil Liberties Union on April 28 of this year, 2009, 1 day after having been contacted by the White House about the possibility of a Supreme Court vacancy, Judge Sotomayor placed herself firmly on what I believe is the wrong side of this debate, stating in this speech:

> To suggest to anyone that you can outlaw the use of foreign or international law is a sentiment that is based on a fundamental misunderstanding. What you would be asking American judges to do is close their minds to good ideas.

Well, the ideas our judges are supposed to reflect are the ideas that the Congress sought to be good, the ones we enacted into law—not what was enacted in France, Saudi Arabia, China, or any other place. This is a matter of real importance. This whole concept of foreign law has been a matter of real controversy for several years. It is a timely subject, for sure. I thought it was pretty roundly condemned, although one judge on the Supreme Court defends it. In her speech, Judge Sotomayor explains:

> The nature of the criticism comes from . . . a misunderstanding of the American use of that concept of using foreign law, and that misunderstanding is unfortunately endorsed by some of our own Supreme Court justices. Both Justice Scalia and Justice Thomas have written extensively criticizing the use of foreign and international law in Supreme Court decisions.

So she criticized Justice Scalia and Justice Thomas, who have expressed opposition to this. Let me be blunt. I believe it is Judge Sotomayor, not Justices Scalia and Thomas, who is wrong.

Under her approach, a judge has free rein to survey the world to find what they might consider to be good ideas and then impose these views on the American people, calling it law. However, this is not the American system. Our system requires judges to adhere to this Constitution, to the statutes, and to the legal precedent, to the end that judges follow the will of the people of our country as expressed in our law.

The Constitution says ''We . . . do ordain and establish this Constitution for the United States of America,'' not some other. Judges are not free to amend it by citing some other foreign constitution. I think this is a big deal.

Judges are not free to indulge their own personal opinions about what good policy is. Judges do not set policy and search for support for that in foreign law. Despite Judge Sotomayor's claim at a Duke Law School panel discussion that ''courts of appeals is where policy is made,'' judges are not policymakers. They are servants of the law, if they are fulfilling their role properly—the law as it is, not the way they might wish it to be.

Second, reliance on foreign law causes confusion rather than clarification as to the state of American law. Judge Sotomayor claims that foreign law ''can add to the story [sic] of knowledge relevant to the solution of . . . [a] question [sic],'' paraphrasing Supreme Court Justice Ruth Bader Ginsburg, who pioneered this concept. She made those statements. Judge Ginsburg's citation of it in cases and her defense of it in speeches has really led to this controversy to which Justices Scalia and Thomas have responded.

On the contrary, reliance on foreign law creates confusion. Consider Judge Sotomayor's dissenting opinion in Croll v. Croll in the interpretation of a treaty—one of the few instances in which reliance on foreign law may be perfectly permissible. Judge Sotomayor repeatedly criticized the majority judges on the panel as ''parochial'' for consulting American dictionaries to understand the meaning of custody as determined by the Hague Convention on International Child Abduction, and then she relies on foreign interpretations of those words instead. Yet the majority rightly rebuked Judge Sotomayor for relying on the scattered and divergent foreign legal cases on this subject. The majority even cites a Supreme Court precedent that warns against relying on foreign law where it is in a state of confusion.

Third, the reliance on foreign law is also based on a misconception that judges, rather than elected officials in the political branches of government, play a role in advancing our Nation's foreign policy.

Judge Sotomayor states this:

> I share more the ideas of Justice Ginsburg in thinking . . . that unless American courts

are more open to discussing the ideas raised by foreign cases, and by international cases, that we are going to lose influence in the world.

But judges are not diplomats. It is the job of diplomats to protect our standing in the world, and they have to explain to the world why we rule the way we rule on our cases. That is their responsibility.

Fourth, reliance on foreign law blurs the distinction between domestic and foreign law, undermining our ability to make democratic choices. The examples of the Supreme Court reliance on foreign law, cited approvingly by Judge Sotomayor, involved the interpretation of the Constitution dealing with purely domestic legal issues that do not and should not touch on any matter of international concern. For example, she approvingly cites the case of Roper v. Simmons in which five Justices of the Supreme Court recently rendered a decision based in part on their review of foreign law and concluded that our Constitution declares that we cannot execute a violent criminal if that criminal is 1 day under 18 years of age when he killed someone or a group of people. There is nothing in the Constitution that says that. They found some foreign law to make an argument about what the Constitution says about what age a State can set for the death penalty. I know we can disagree on what the age should be, but it is a legislative matter.

The Court in that case said it was looking to ''evolving standards of decency that mark the progress of a maturing society.'' What kind of standard is that for law? Where do you find what a maturing society now believes? Do you check with China? Do you check with Iran? Or maybe France? Where do we do this? How do they divine what this all is?

The Court concluded that the death penalty violated the eighth amendment which prohibits cruel and unusual punishment. There are at least six or more references in the Constitution itself to capital crimes, to taking a life without due process. It has always been contemplated in the Constitution that the death penalty is not cruel and unusual. That was for drawing-and-quartering and such matters as that.

If basic constitutional rights are subject to redefinition by considering foreign law, our Constitution ceases to be the bulwark for our liberty it has always been. The Constitution will be weakened. Its authority and power will be diminished. Yet this is precisely the view of foreign law advocated by Judge Sotomayor, who says that these courts that do this ''were just using foreign law to help us understand what the concept meant to other countries, and to help us understand whether our understanding of our own constitutional rights fell into the mainstream of human thinking.'' I am not sure, did the judge conduct worldwide polls of human thinking? How does a judge find out what the mainstream of human thinking is? In truth, many of the critics of this idea have hit the nail on the head. They say that all it does is allow a judge to look around the world to find somebody who agrees with them and use that as authority to do what they wanted to do all along.

Judge Sotomayor not only advocates for reliance on foreign law, but she also goes a step further than Justice Ginsburg, advocating for adoption of the techniques of foreign judges, even ones that serve to conceal the individual judge's reasoning process from public scrutiny.

In her forward to the book ''The International Judge,'' which she was chosen to do, Judge Sotomayor states:

> [T]he question of how much we have to learn from foreign law and the international community when interpreting our Constitution is not the only one worth posing. As ''The International Judge'' makes clear, we should also question how much we have to learn from international courts and from their male and female judges about the process of judging and the factors outside the law that influence our decisions.

In her speech in 1999, Judge Sotomayor expressed admiration for the French tradition of judicial panels of judges issuing single decisions, commenting:

> With a single decision, there is less pressure on individual judges and less fear of reprisal for unpopular decisions.

According to law professor William D. Popkin, French legal opinions are anonymous, unanimous, and laconic, the legal ''equivalent of flashing a policeman's badge,'' and ''[t]he irony about French judicial opinion writing is that minimal reason-giving allows French judges to conceal a bold judicial lawmaking role, perhaps even bolder than in the case of U.S. and English judges because of the lack of any formal notion of precedent.''

That is different from the American heritage of law. Judges sign opinions. But we have seen at least three very significant opinions in recent years and months from Judge Sotomayor that were per curiam. No one judge assumed responsibility for the decision, and they were very short—so in a way, maybe she is following that—really surprisingly short in the case involving firearms, in the case involving the firefighters in Connecticut. They were very short opinions and not a lot of discussion and per curiam.

The problems with this tradition are clear. The approach makes it easier for judges to conceal the grounds of their decisions, making it more difficult to assess whether their legal reasoning was justified. Only then can one see if proper principles are being followed. Indeed, Judge Sotomayor may already be following that, as I noted with some of the per curiam opinions we have seen.

I have to say the judge wants more international law, not less. Ominously, Judge Sotomayor states:

> International law and foreign law will be very important in the discussion of how we think about the unsettled issues in our legal system. It is my hope that judges everywhere will continue to do this because . . . within the American legal system, we're commanded to interpret our law in the best way we can, and that means looking to what other, anyone has said to see if it has persuasive value.

The judge makes an audacious claim that the American legal system commands judges to look at foreign law and highlights the role of making decisions on unsettled cases. There have been and will be many differences between domestic and foreign law on matters that are fundamental. This is normal and understandable because different nations have different cultures, values, and legal systems. The United States should be independent to pursue its own individual choices expressed through the American people through their elected officials to reach the fullest and richest expression of our exceptionalism as a nation.

The American ideal of law is objectivity in deciding the case before the court, that case being sufficient for the day. This is unusual. Most countries are not so restrained. To a much greater degree, foreign judges see themselves as policymakers. In Afghanistan and Pakistan recently, the chief judge was setting all kinds of policy in Afghanistan. I thought it was most unusual. Surely nothing like that would happen here because we have a different heritage.

I suggest that for an ambitious, strong-willed American judge, such freedom to search around the world to identify arguments that might be helpful in allowing them to reach a result they might like to reach would be a great temptation. It is a siren call that ought not to be followed, and great judges do not do so. They analyze the American statutes, the American Constitution in a fair and objective way. They apply it to the evidence fairly and honestly found and render a decision without any regard to the parties before them, to the rich and poor alike, as their oath says. That is why we give them independence as a judge to show they will be more willing to render those kinds of opinions.

I am troubled by this, I have to say. I did not expect to see a nominee who would be one of the leading advocates for the adoption of foreign law in the American legal system. I think it is wrong. I don't think that is a good idea. The American people need to be talking about that issue as they think about the confirmation that will be coming up.

Our nominee, Judge Sotomayor, is delightful to talk to. She has a record and a practice as a private practitioner, as a prosecutor, as a district

judge, and an appellate judge. All of those are good. She has many good qualities. But some of the issues I am raising today and have raised previously do cause me concern.

I thank the Chair, and I yield the floor.

The PRESIDING OFFICER (Mr. BEGICH). The Senator from Connecticut.

Mr. DODD. Mr. President, what is the business before the Senate?

The PRESIDING OFFICER. The McCain amendment to H.R. 2918.

Mr. DODD. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Connecticut is recognized.

Mr. DODD. I thank the Chair.

(The remarks of Mr. DODD pertaining to the introduction of S. 1382 are located in today's RECORD under ''Statements on Introduced Bills and Joint Resolutions.'')

Mr. DODD. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent to proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMENDING MARK S. MANDELL

Mr. REID. Mr. President, I rise to honor my good friend, a good American and a good person, Mark Mandell.

Mark will turn 60 years old on Saturday, June 27. I have known Mark and his family for many years, and have long been impressed by his many accomplishments and contributions to his community.

Mark's affiliations are far too long to list but that is an accurate indication of how much of himself he has given to others.

A founding partner at his successful firm—Mandell, Schwartz & Boisclair, Ltd. in Providence, RI, Mark has been listed among the ''Best Lawyers in America.'' He has served as the president of the Association of Trial Lawyers of America, the Roscoe Pound Institute of Civil Justice, the Rhode Island Bar Association and the Rhode Island Trial Lawyers Association.

In addition to his abundant bar memberships, professional associations, sociecty memberships, civic and community activities, and government appointments, Mark has authored and lectured extensively throughout the United States and around the world.

Mark has been recognized with numerous awards, but I know that he is most gratified not by those that honor his professional achievements, but rather those that acknowledge his good citizenship and leadership in community service.

Many of those awards honor Mark for his strong commitment to the Jewish community he so values. As the Torah implores, ''Justice, justice shall you pursue.''

I am proud to call Mark Mandell my friend, and thank him for his dedicated and principled pursuit of justice. Happy birthday, Mark.

BUDGET SCOREKEEPING REPORT

Mr. CONRAD. Mr. President, I rise to submit to the Senate the first budget scorekeeping reports for the 2010 budget resolution. The reports, which cover fiscal years 2009 and 2010, were prepared by the Congressional Budget Office pursuant to section 308(b) and in aid of section 311 of the Congressional Budget Act of 1974, as amended.

The reports show the effects of congressional action through June 23, 2009, and include the effects of P.L. 111–22, the Helping Families Save Their Homes Act of 2009; P.L. 111–31, the Family Smoking Prevention and Tobacco Control Act; H.R. 1777, an act to make technical corrections to the Higher Education Act of 1965, and for other purposes, pending Presidential action; and H.R. 2346, the Supplemental Appropriations Act, 2009, pending Presidential action. The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of S. Con. Res. 13, the 2010 budget resolution.

For 2009, the estimates show that current level spending is $942 million below the level provided for in the budget resolution for budget authority and $3.9 billion above it for outlays while current level revenues match the budget resolution level. For 2010, the estimates show that current level spending is $1,205.9 billion below the level provided for in the budget resolution for budget authority and $715.9 billion below it for outlays while current level revenues are $12.3 billion above the budget resolution level.

I ask unanimous consent to have the letters and accompanying tables from CBO printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, June 25, 2009.

Hon. KENT CONRAD,
Chairman, Committee on the Budget, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The enclosed report shows the effects of Congressional action on the fiscal year 2009 budget and is current through June 23, 2009. This report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010, as approved by the Senate and the House of Representatives.

Pursuant to section 403 of S. Con Res. 13, provisions designated as emergency requirements are exempt from enforcement of the budget resolution. As a result, the enclosed current level report excludes these amounts (see footnote 2 of Table 2 of the report).

Since my last letter dated September 11, 2008, the Congress has cleared and the President has signed several acts that affect budget authority, outlays, and revenues for fiscal year 2009. The budgetary effects of legislation enacted at the end of the second session of the 110th Congress are included in the effects of previously enacted legislation on Table 2.

Legislation enacted during the 111th Congress prior to the adoption of S. Con. Res. 13 is included in the budget aggregates of S. Con. Res. 13 (see footnote 1 of Table 2). In addition, since the adoption of S. Con. Res. 13, the Congress has cleared and the President has signed the following acts:

Helping Families Save Their Homes Act of 2009 (Public Law 111–22); and

An act to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (Public Law 111–31).

The Congress has also cleared for the President's signature the following acts:

An act to make technical corrections to the Higher Education Act of 1965, and for other purposes (H.R. 1777); and

Supplemental Appropriations Act, 2009 (H.R. 2346).

This is CBO's first current level report since the adoption of S. Con. Res. 13.

Sincerely,

ROBERT A. SUNSHINE
(For Douglas W. Elmendorf, Director).

Enclosure.

TABLE 1.—SENATE CURRENT LEVEL REPORT FOR SPENDING AND REVENUES FOR FISCAL YEAR 2009, AS OF JUNE 23, 2009

[In billions of dollars]

	Budget resolution [1]	Current level [2]	Current level over/under (—) resolution
ON-BUDGET			
Budget Authority	3,668.6	3,667.6	—0.9
Outlays	3,357.2	3,361.0	3.9
Revenues	1,532.6	1,532.6	0.0
OFF-BUDGET			
Social Security Outlays [3]	513.0	513.0	0.0
Social Security Revenues	653.1	653.1	0.0

[1] S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010, includes $7.2 billion in budget authority and $1.8 billion in outlays as a disaster allowance to recognize the potential cost of disasters; those funds will never be allocated to a committee. At the direction of the Senate Committee on the Budget, the budget resolution totals have been revised to exclude those amounts for purposes of enforcing current level.

[2] Current level is the estimated effect on revenues and spending of all legislation, excluding amounts designated as emergency requirements (see footnote 2 of table 2), that the Congress has enacted or sent to the President for his approval. In addition, full-year funding estimates under current law are included for entitlement and mandatory programs requiring annual appropriations, even if the appropriations have not been made.

[3] Excludes administrative expenses of the Social Security Administration, which are off-budget, but are appropriated annually.

TABLE 2.—SUPPORTING DETAIL FOR THE CURRENT LEVEL REPORT FOR ON-BUDGET SPENDING AND REVENUES FOR FISCAL YEAR 2009, AS OF JUNE 23, 2009

[In millions of dollars]

	Budget authority	Outlays	Revenues
Previously Enacted [1]			
Revenues	n.a.	n.a.	1,532,571
Permanents and other spending legislation	2,186,897	2,119,086	n.a.
Appropriation legislation	2,031,683	1,851,797	n.a.
Offsetting receipts	−640,548	−640,548	n.a.
Total, Previously enacted	3,578,032	3,330,335	1,532,571
Enacted this session:			
Helping Families Save Their Homes Act of 2009 (P.L. 111–22) [2]	106	3,896	0
An act to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (P.L. 111–31)	11	2	8
Total, enacted this session	117	3,898	8
Passed, pending signature:			
An act to make technical corrections to the Higher Education Act of 1965, and for other purposes (HR–1777)	−187	−202	0
Supplemental Appropriations Act, 2009 (H.R. 2346) [2]	89,682	26,992	0
Total, passed, pending signature	89,495	26,790	0
Total Current Level [2,3]	3,667,644	3,361,023	1,532,579
Total Budget Resolution [4]	3,675,736	3,358,952	1,532,579
Adjustment to budget resolution for disaster allowance [5]	−7,150	−1,788	n.a.
Adjusted Budget Resolution	3,668,586	3,357,164	1,532,579
Current Level Over Budget Resolution	n.a.	3,859	n.a.
Current Level Under Budget Resolution	942	n.a.	0

[1] Includes the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111–3), the American Recovery and Reinvestment Act (ARRA) (P.L. 111–5), and the Omnibus Appropriations Act, 2009 (P.L. 111–8), which were enacted by the Congress during this session, before the adoption of S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010. Although the ARRA was designated as an emergency requirement, it is now included as part of the current level amounts.

[2] Pursuant to section 403 of S. Con. Res. 13, provisions designated as emergency requirements (and rescissions of provisions previously designated as emergency requirements) are exempt from enforcement of the budget resolution. The amounts so designated for fiscal year 2009, which are not included in the current level totals, are as follows:

	Budget authority	Outlays	Revenues
Helping Families Save Their Homes Act of 2009 (P.L. 111–22)	−630	−630	n.a.
Supplemental Appropriations Act, 2009 (H.R. 2346)	16,169	3,530	n.a.
Total, amounts designated as emergency	15,539	2,900	n.a.

[3] For purposes of enforcing section 311 of the Congressional Budget Act in the Senate, the budget resolution does not include budget authority, outlays, or revenues for off-budget amounts. As a result, current level excludes these items.

[4] Periodically, the Senate Committee on the Budget revises the totals in S. Con. Res. 13, pursuant to various provisions of the resolution:

	Budget authority	Outlays	Revenues
Original Budget Resolution Totals	3,675,927	3,356,270	1,532,571
Revisions:			
For the Supplemental Appropriations Act, 2009 (section 401(c)(4))	−1,530	2,240	0
For an act to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (sections 311(a) and 307)	11	2	8
For further revisions to the Supplemental Appropriations Act, 2009 (section 401(c)(4))	1,515	642	0
For an act to make technical corrections to the Higher Education Act of 1965, and for other purposes (section 303)	−187	−202	0
Revised Budget Resolution Totals	3,675,736	3,358,952	1,532,579

[5] S. Con. Res. 13 includes $7,150 million in budget authority and $1,788 million in outlays as a disaster allowance to recognize the potential cost of disasters; those funds will never be allocated to a committee. At the direction of the Senate Committee on the Budget, the budget resolution totals have been revised to exclude those amounts for purposes of enforcing current level.

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, June 25, 2009.

Hon. KENT CONRAD,
Chairman, Committee on the Budget, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The enclosed report shows the effects of Congressional action on the fiscal year 2010 budget and is current through June 23, 2009. This report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010, as approved by the Senate and the House of Representatives.

Pursuant to section 403 of S. Con Res. 13, provisions designated as emergency requirements are exempt from enforcement of the budget resolution. As a result, the enclosed current level report excludes these amounts (see footnote 2 of Table 2 of the report).

This is CBO' s first current level report for fiscal year 2010.

Sincerely,

ROBERT A. SUNSHINE
(For Douglas W. Elmendorf).

Enclosure.

Offsetting receipts	−690,251	−690,251	n.a.
Total, Previously enacted	947,172	1,531,924	1,665,986
Enacted this session:			
Helping Families Save Their Homes Act of 2009 (P.L. 111–22)	318	11,346	0
An act to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (P.L. 111–31)	10	13	46
Total, enacted this session	328	11,359	46
Passed, pending signature:			
An act to make technical corrections to the Higher Education Act of 1965, and for other purposes (HR–1777)	32	36	0
Supplemental Appropriations Act, 2009 (H.R. 2346) [2]	11	33,530	0
Total, passed, pending signature	43	33,566	0
Entitlements and mandatories:			
Budget resolution estimates of appropriated entitlements and other mandatory programs	728,688	706,384	0
Total Current Level [2,3]	1,676,231	2,283,233	1,666,032
Total Budget Resolution [4]	2,892,499	3,004,533	1,653,728
Adjustment to the budget resolution for disaster allowance [5]	−10,350	−5,448	n.a.
Adjusted Budget Resolution	2,882,149	2,999,085	1,653,728
Current Level Over Budget Resolution	n.a.	n.a.	12,304
Current Level Under Budget Resolution	1,205,918	715,852	n.a.

[1] Includes the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111–3), the American Recovery and Reinvestment Act (ARRA) (P.L. 111–5), and the Omnibus Appropriations Act, 2009 (P.L. 111–8), which were enacted by the Congress during this session, before the adoption of S. Con. Res. 13, the Concurrent Resolution on the Budget for Fiscal Year 2010. Although the ARRA was designated as an emergency requirement, it is now included as part of the current level amounts.

[2] Pursuant to section 403 of S. Con. Res. 13, provisions designated as emergency requirements (and rescissions of provisions previously designated as emergency requirements) are exempt from enforcement of the budget resolution. The amounts so designated for fiscal year 2010, which are not included in the current level totals, are as follows:

	Budget authority	Outlays	Revenues
Supplemental Appropriations Act, 2009 (H.R. 2346)	17	7,064	−2

[3] For purposes of enforcing section 311 of the Congressional Budget Act in the Senate, the budget resolution does not include budget authority, outlays, or revenues for off-budget amounts. As a result, current level excludes these items.

[4] Periodically, the Senate Committee on the Budget revises the totals in S. Con. Res. 13, pursuant to various provisions of the resolution:

	Budget authority	Outlays	Revenues
Original Budget Resolution Totals	2,888,691	3,001,311	1,653,682
Revisions:			
For the Supplemental Appropriations Act, 2009 (section 401(c)(4))	5	2,004	0
For an act to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (sections 311(a) and 307)	0	0	40
For the Congressional Budget Office's reestimate of the President's request for discretionary appropriations (section 401(c)(5))	3,766	2,355	0
For further revisions to a bill to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products . . . and for other purposes (sections 311(a) and 307)	10	13	6
For further revisions to the Supplemental Appropriations Act, 2009 (section 401(c)(4))	6	−1,175	0
For an act to make technical corrections to the Higher Education Act of 1965, and for other purposes (section 303)	32	36	0
For further revisions to the Supplemental Appropriations Act, 2009 (section 401(c)(4))	−11	−11	0
Revised Budget Resolution Totals	2,892,499	3,004,533	1,653,728

[5] S. Con. Res. 13 includes $10,350 million in budget authority and $5,448 million in outlays as a disaster allowance to recognize the potential cost of disasters; those funds will never be allocated to a committee. At the direction of the Senate Committee on the Budget, the budget resolution totals have been revised to exclude those amounts for purposes of enforcing current level.

HONORING OUR ARMED FORCES

SPECIALIST CHANCELLOR ARSENIO KEESLING

Mr. BAYH. Mr. President, I rise today with a heavy heart to honor the life of Army SPC Chancellor Arsenio Keesling, from Indianapolis, IN. Chancellor was 25 years old when he lost his life on June 19, 2009, in Baghdad, Iraq. He was a member of the 961st Engineer Company of the U.S. Army Reserve, based in Sharonville, OH.

Today, I join Chancellor's family and friends in mourning his death. Chancellor, who was known to his friends and family as Chancy, will forever be remembered as a loving brother, son and friend to many. He is survived by his parents Gregg and Jannett Keesling; his brother O'Neil; his sister Tiana; his grandparents Gary and Gwen Keesling and Terrence and Barbara Fowle; and a host of other friends and family members.

Chancellor, a graduate of Lawrence North High School in Indianapolis, enlisted in the Army following his graduation in 2003. He served his first tour of duty in Iraq as a combat engineer assigned to a company based at Fort Sill in Lawton, OK. He was redeployed to Iraq in May 2009 with the 961st Engineer Company for a second tour of duty.

Chancellor had been home just a few weeks ago to celebrate his 25th birthday with family and friends. A native of Jamaica, where he lived until he was 12 years old, he had a particular passion for soccer and reggae music. He planned on going into the construction business once his military career was complete.

While we struggle to express our sorrow over this loss, we can take pride in the example Chancellor set as a soldier and patriot. Today and always, he will be remembered by family and friends as a true American hero, and we cherish the legacy of his service and his life.

As I search for words to do justice to this valiant fallen soldier, I recall President Abraham Lincoln's words as he addressed the families of soldiers who died at Gettysburg: ''We cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it, far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here.'' This statement is just as true today as it was nearly 150 years ago, as we can take some measure of solace in knowing that Chancellor's heroism and memory will outlive the record of the words here spoken.

It is my sad duty to enter the name of Army SPC Chancellor Arsenio Keesling in the RECORD of the U.S. Senate for his service to this country and for his profound commitment to freedom, democracy and peace. I pray that Chancellor's family can find comfort in

the words of the prophet Isaiah who said, ''He will swallow up death in victory; and the Lord God will wipe away tears from off all faces.''

May God grant strength and peace to those who mourn, and may God be with all of you, as I know He is with Chancellor.

FREEDOM OF INFORMATION ACT

Mr. LEAHY. Mr. President, on July 4, the Nation will celebrate the 43rd anniversary of the signing of the Freedom of Information Act, FOIA. The tragic events unfolding in Iran are a powerful reminder of the vital role of a free press and the free flow of information in an open society. Now in its fifth decade, FOIA remains an indispensable tool for shedding light on bad policies and government abuses. The act has helped to guarantee the public's ''right to know'' for generations of Americans.

Today, thanks to the reforms contained in the Leahy-Cornyn OPEN Government Act, Americans who seek information under FOIA will experience a process that is much more transparent and less burdened by delays than it has been in the past. A key component of the OPEN Government Act was the creation of an Office of Government Information Services, OGIS, within the National Archives and Records Administration. This office will mediate FOIA disputes, review agency compliance with FOIA, and house a newly created FOIA ombudsman.

I applaud President Obama and Acting Archivist of the United States Adrienne Thomas for recently appointing Miriam Nisbet as the first Director of OGIS. I look forward to working closely with Director Nisbet and I will continue to work very hard to ensure that OGIS has the necessary resources to carry out its mission.

These new reforms to FOIA are very good news. But there is still much more to be done.

Earlier this year, Senator CORNYN and I joined together to reintroduce the bipartisan OPEN FOIA Act, S. 612, a commonsense bill to promote more openness regarding statutory exemptions to FOIA. This FOIA reform measure requires that Congress clearly and explicitly state its intention to create a statutory exemption to FOIA when it provides for such an exemption in new legislation. While there is a very real need to keep certain government information secret to ensure the public good and safety, excessive government secrecy is a constant temptation and the enemy of a vibrant democracy.

The OPEN FOIA Act has twice passed the Senate this year as a part of other legislation. This bill provides a safeguard against the growing trend towards FOIA exemptions and would make all FOIA exemptions clear and unambiguous, and vigorously debated, before they are enacted into law. I hope that the Congress will enact this good government measure this year.

When describing our vibrant democracy, President Kennedy once wisely observed that ''[w]e are not afraid to entrust the American people with unpleasant facts, foreign ideas, alien philosophies and competitive values. For a nation that is afraid to let its people judge the truth and falsehood in an open market is a nation that is afraid of its people.'' As we reflect upon the celebration of another FOIA anniversary, we in Congress must reaffirm this commitment to open and transparent government.

Open government is not a Democratic issue, nor a Republican issue. It is truly an American value and a virtue that all Americans hold dear. It is in this bipartisan spirit that I join Americans from across the political spectrum in celebrating the 43rd anniversary of FOIA and all that this law has come to symbolize about our vibrant democracy.

COMMENDING HUBERT AND THOMAS VOGELMANN

Mr. LEAHY. Mr. President, I would like to bring to the Senate's attention a recent article published in The Burlington Free Press on Father's Day, which featured father and son botanists Hubert and Thomas Vogelmann from Jericho, VT, and the University of Vermont.

Now professor emeritus at the University of Vermont, Hub Vogelmann was the pioneer researcher calling attention to the impact of atmospheric deposition—acid rain—on the forests of the Northeast. Hub led a field trip on the western slopes of the Green Mountains to view the damage in person with the Environmental Protection Agency, EPA, Administrator. His contributions to the stewardship of our natural resources are many, particularly concerning the health of the forest ecosystem.

Now dean of the College of Agriculture and Life Sciences at the University of Vermont, Hub's son Tom is carrying on in the Vogelmann family tradition of science, service and stewardship.

As if this were not remarkable enough, Hub and his late wife Marie's two other sons are scientists as well, Jim a botanist and Andy, a physicist.

I value the working relationship I have enjoyed with Hub over the years and look forward to working with Tom in his new role as dean.

Mr. President, I ask unanimous consent that the article ''Like Father, Like Son—Fellow botanists have a lot in common,'' be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

LIKE FATHER, LIKE SON; FELLOW BOTANISTS HAVE A LOT IN COMMON

(By Tim Johnson)

JERICHO.—This is a story about the family Vogelmann, father and son. They're next-door neighbors.

Hub, the father, grew up in a city, married, had three sons, moved here to the country, and tried his hand at raising beef cattle—grass-fed, back before that was fashionable.

Tom, the eldest, proved adept at haying. He was a bit of a handful, into everything, but he was good at tossing bales into the barn.

Hub had a day job, and he used to joke that's what made it possible for him to lose money on the cattle. Tom helped out but ''he always had a mind of his own—it was get out of my way,' '' Hub recalled the other day.

Tom smiled knowingly. They were sitting on Tom's porch in the late afternoon sun, reminiscing.

Hub's day job was professor of botany at the University of Vermont. He was there 36 years, retiring in 1991.

Tom turned out all right. He, too, is a professor of botany . . . at the University of Vermont, where else? He's also the new dean of the College of Agriculture and Life Sciences.

If ever there was a prime example of a son's following in his father's footsteps—not just figuratively, but literally—Tom is it. That's what he's doing every time he walks along the gravel road that runs past their houses.

BUTTERNUTS DECODED

Hubert W. ''Hub'' Vogelmann, son of a minister in Buffalo, N.Y., became a botanist by a kind of happenstance.

He liked science. During his last year at Heidelberg College, in Ohio, his favorite professor asked him what he was going to do after he graduated.

''I said, 'I dunno,' '' Hub recalled. ''And he said, 'You've got to go to graduate school. I know some people in the botany department at the University of Michigan.' ''

On the strength of the professor's recommendation, Hub went to Ann Arbor.

''They gave me an exam, and I flunked it,'' he said. ''The department chairman was very kind. He let me stay on.''

Hub stayed on long enough to get his Ph.D. His first job after that was at UVM, and he never left.

''Vermont,'' he said. ''As a botanist, you couldn't ask for a better place.''

At first, Hub and his wife, Marie, settled in Essex Junction. In 1958, when Tom was 5, Hub bought a 120-acre dairy farm in Jericho and has lived there ever since. He later acquired the adjoining property and rented that place out.

Tom was in the first entering class at the new Jericho Elementary School. He remembers being able, from the house, to spot the distant school bus approaching from far across the fields—far enough away that he could time his arrival just right at the stop down the road. His summers were pretty uneventful. He remembers sitting in a tree and watching draft horses at work—old farming technology that was in its last throws in the '50s. He appreciated what he saw.

''When they'd do haying,'' he said, ''there was not one straw left.''

At age 14, during a year the family spent in Mexico, Tom served as his father's assistant as they studied fog in the Cloud Forest. Later Tom went to UVM, where he sampled various disciplines. He liked science and remembers being intellectually swept away by

plant biochemistry and molecular biology, two courses in his senior year. He remembers one night at the family dinner table: Tom remarked how curious it seemed to him that butternuts grow next to stone walls—could it be something in their biochemistry or molecular biology?

His father looked at him.

''Tom,'' Hub said, ''you need to take more ecology. They grow there because that's where squirrels drop the nuts.''

Hub knew something about ecology, a field that began to flourish during his career. He did seminal research on the impact of acid rain on forests. He was the first to pin the decline of red spruce on industrial emissions from the Midwest, according to Walter Poleman, a senior lecturer at UVM, who delivered a testimonial May 1 when Hub received a Lifetime Achievement Award at the Center for Research on Vermont. ''His findings helped establish guidelines for the Clean Air Act and set the stage for acid rain research throughout the Northeast,'' Poleman said.

Tom went his own way. He applied to graduate school in plant biochemistry and in archaeology.

''The plant people took me,'' he said. ''The archaeology people didn't.'' So, he became a botanist, earning a Ph.D. from Syracuse University and specializing in whole-plant physiology. He and his wife, Mary (also a botanist), spent three years in southern Sweden, then they went to the University of Wyoming, where he rose to full professor. In 2001, someone from UVM asked if he'd be interested in chairing the botany department—the same department Hub had chaired for 20 years.

''I thought, 'Why not?' '' Tom said. ''So, I came back in January of 2002.'' He camped out in his old room in his father's place. Before long the tenant vacated the house next door. Tom and Mary moved in. ''The whole story is a bit surreal,'' Tom said, when asked how he came to be living next door to his father. ''It wasn't ever thought out or planned.

''One thing led to another,'' he said.

GROWING DEGREES

One thing led to another for Tom's younger brothers, too, both of whom also have doctorates. Jim has a Ph.D. in botany, and so does his wife. The youngest, Andy—the odd one out in this family, unless you count their late mother, Marie, who was an accomplished musician—has a Ph.D. in atmospheric physics.

Was it something in the water? How was it that all three Vogelmann offspring wound up with advanced degrees in science?

The question brought a blank look to Tom's face.

''A lot of conversations around dinner table . . .'' he said vaguely.

About what, besides butternuts?

''Could be about anything, '' he said, ''from fossils to. . . . We used to walk through plowed fields, we'd find artifacts, and we'd talk about them.''

Or, he mused, maybe it had to do with the ambiance in which they came of age. Some kids grow up in a corporate culture. They grew up in a university culture.

Hub still enjoys hearing Tom talk about the doings at UVM. Some things don't change, Hub said.

They don't just talk shop, though. Each one brags about the other's garden.

''He grows some of the world's best celeriac,'' Tom was saying before Hub showed up.

Celeriac, Tom explained, is a big root that you can grate into soups or salads. The leaves look like celery leaves.

After Hub arrived and sat down, the porch conversation soon got back to gardens.

''He has the biggest garlic patch in Vermont,'' Hub said.

''No, I don't,'' Tom said.

''How many plants do you have—a thousand?''

''Over a thousand,'' Tom said. ''That's a lot of holes to make with your thumb.''

''How many varieties?''

''Forty-two,'' Tom said.

Hub smiled. He seemed to know what was coming.

''It all tastes pretty much the same,'' Tom said.

GUN VIOLENCE

Mr. LEVIN. Mr. President, the past few months have been marked by several high-profile, tragic shootings that have left families to grieve and communities to ponder why. While many of the details of these recent shootings vary tremendously, one fact remains constant, our current gun laws have failed to keep firearms out of the hands of those who should not have been able to acquire them.

In 1983, James von Brunn, a white supremacist and Holocaust denier, was convicted of attempting to kidnap members of the Federal Reserve Board, after he was caught trying to enter a board meeting carrying multiple firearms. As a convicted felon, Mr. Von Brunn was legally barred from possessing firearms. Despite this fact, on June 10, Mr. Von Brunn walked into the United States Holocaust Memorial Museum and fatally shot security guard Stephen T. Johns, a 6-year veteran of the facility, before being shot himself by other officers. Holding a .22-caliber rifle, this man entered a museum that welcomes 30 million visitors and school children annually. Tragically, this type of violence is not uncommon.

On June 1, a 24-year-old man shot two soldiers, PVT William A. Long and PVT Quinton Ezeagwula, outside of a military recruiting station in Little Rock, AR. Private Long, who had just completed basic training and was volunteering at the recruiting office before starting an assignment in South Korea, was killed in the shooting. The man accused in this incident was later found with two rifles and a handgun, despite being under investigation by the FBI's Joint Terrorism Task Force. The day before, a 51-year-old man with a history of mental illness walked into the Reformation Lutheran Church in Wichita, KS, and shot Dr. George Tiller in the head while he served as an usher during Sunday morning services. The accused in this incident had been arrested by police in 1996, after being found with bomb-making material in his car.

These senseless acts of gun violence frequently also target police officers. On April 4, a 23-year-old man, dishonorably discharged from Marine basic training, armed with three guns, including an assault rifle, ambushed and gunned down Officers Eric Kelly, Stephen Mayhle, and Paul Sciullo in Pittsburgh, PA. A fourth officer, Timothy McManaway, was shot in the hand. This shooting occurred just 2 weeks after a 26-year-old man, with a prior conviction for assault with a deadly weapon, turned two guns, including an assault rifle, on police officers in Oakland, CA. SGTs Mark Dunakin, Ervin Romans, Daniel Sakai, and Officer John Hege were fatally shot in what was the deadliest day for U.S. law enforcement since September 11, 2001.

In the span of a few months, a security officer, a doctor, two soldiers, and seven police officers lost their lives. All devoted their professional lives to the protection of others; all gunned down by someone who should not have had access to a firearm. These are not uncommon events, but rather simply the latest high-profile shootings to capture national headlines. In a nation which suffers 12,000 gun homicides, 17,000 gun suicides, 650 accidental gun deaths, and another 70,000 nonfatal gun injuries every year, there are still those who resist legislation aimed at putting an end to these tragedies. I urge my colleagues to act immediately and pass urgently needed commonsense gun legislation.

CLOSE THE SILO/LILO LOOPHOLE ACT

Mr. BAUCUS. Mr. President, I have been extremely concerned about the problems lease-in/lease-out and sale-in/lease-out transactions cause our tax system for years. I have made clear before that gaming the system at the taxpayers' expense is simply unacceptable. In 2004, Senator GRASSLEY and I successfully shut down the loophole that allowed losses from these deductions, but the current economic crisis has created new problems. I applaud the work of Senator MENENDEZ to address these issues, and I support his efforts to resolve this problem.

COMMENDING JANIS LAZDA

Mr. BAUCUS. Mr. President, today I recognize one of the most dedicated members of my staff, Janis Lazda. Janis joined the Senate Finance Committee in 2005 to work on international trade matters, and today he leaves us to become senior policy adviser to the Deputy U.S. Trade Representative. USTR's gain truly is our loss.

For the past 5 years, Janis has demonstrated a quiet intelligence, unquestionable loyalty, and an unwavering commitment to the great State of Montana and this great country. He has worked hard to keep U.S. relations with Asia strong during these challenging economic times, and focused on improving America's competitiveness around the globe. He has spearheaded

policies to increase U.S. exports to the world, and brainstormed ways to make international institutions more meaningful.

He has performed all of these tasks diligently and with careful thought. And he has put the needs of Montanans and the American people first. Janis has witnessed the majestic mountains of Missoula, the bucolic beauty of the Big Hole Valley, and the memorable music of Molt. He met with hard-working people in all of these areas, and across Montana, to hear their thoughts and understand their needs. And he used these experiences to ensure that the policies crafted in Washington are meaningful for folks across America.

Janis has been a sound and knowledgeable adviser. His experience and analysis have been critical to many of the trade policies formulated by the Finance Committee. I thank Janis for his hard work, and wish him well as he takes the next step to what I am sure will be a brilliant future.

COMMENDING CHIEF WARRANT OFFICER KEVIN J. GALVIN

Mr. REED. Mr. President, today I pay tribute to the long and distinguished service of chief warrant officer and ancient keeper, Kevin J. Galvin of the U.S. Coast Guard.

For over 30 years, Chief Warrant Officer Galvin has served proudly in our Nation's Coast Guard, exhibiting the classic attributes of a ''Coastie'': a profound dedication to duty, unsurpassed technical expertise, and an uncompromising commitment to operational excellence.

Since June 2006, Chief Warrant Officer Galvin has served as the commanding officer of Castle Hill Station in Newport, RI. Through this period, during which the Coast Guard has taken on an increasing burden to help secure our homeland, Chief Warrant Officer Galvin exhibited sound and capable leadership. Under his watch, the Castle Hill Station exceeded every operational expectation, including the successful execution of over 350 search and rescue cases which resulted in 46 lives saved, 428 persons assisted, and $23 dollars in property secured. Chief Warrant Officer Galvin also oversaw more than 500 law enforcement boardings, directed multiple ports, waterways, and coastal security missions to protect critical infrastructure, provided security for visits by the President and foreign heads of state, and led his crew in providing security and SAR response for Tall Ships 2007, where 27 ships visited Rhode Island from around the world culminating in a Parade of Sail with over 6000 spectator vessels.

On June 21, 2008, Chief Warrant Officer Galvin relieved master chief boatswain's mate John E. Downey as the ancient keeper of the Coast Guard, becoming the second recipient of the Joshua James Ancient Keeper Award. The Ancient Keeper Award is presented to a Coast Guard member on Active Duty in recognition of their longevity and outstanding performance in boat operations. The award's namesake, CAPT Joshua James, is the most celebrated lifesaver in Coast Guard history with 626 lives saved. Only those who have exemplified the finest traits of maritime professionalism and leadership are appointed keepers. The ancient keeper is charged with overseeing Coast Guard boat operations to ensure the service's traditional professionalism remains intact. Chief Warrant Officer Galvin has carried out this responsibility with honor and distinction.

On July 1, 2009, Chief Officer Galvin will bring his long and impressive career in the Coast Guard to an end and will be relieved of his duty as the ancient keeper and commanding officer of the Castle Hill Station by another outstanding member of the Coast Guard, CWO Thomas Guthlein.

Again, I commend Chief Warrant Officer Galvin for his dedicated career in the U.S. Coast Guard and thank him for all he has done in service to our country.

PROJECT SPONSORSHIP CORRECTION

Ms. MIKULSKI. Mr. President, as Chairwoman of the Appropriations Subcommittee on Commerce, Justice, science, and Related Agencies, I rise today to clarify for the record the sponsorship of a congressionally-designated project included in the explanatory statement accompanying H.R. 1105, the Omnibus Appropriations Act, 2009, Public Law 111–8.

Specifically: Senator FEINSTEIN should not be listed as a cosponsor of the San Francisco district attorney ''Back on Track'' Byrne discretionary grant through the Department of Justice, since she did not request this funding. Senator FEINSTEIN's name was added as a cosponsor of this project through a clerical error.

MATTHEW SHEPARD HATE CRIMES PREVENTION ACT

Mr. CARDIN. Mr. President, I rise today to show my support for the Matthew Shepard Hate Crimes Prevention Act of 2009.

On June 15, 2009, Stephen Johns was killed in the U.S. Holocaust Museum. On February 12, 2008, Lawrence King, a 15-year-old student, was murdered in his high school because he was gay. On election night 2008, two men went on an assault spree to find African Americans, because then-Senator Obama won the Presidential election. In July 2008, four teenagers brutally beat and killed a Mexican immigrant while yelling racial epithets. Hate crimes continue to occur in our country every day. According to recent FBI data, there were over 7,600 reported hate crimes in 2007. That's nearly one every hour of every day. Over 150 of those incidents occurred in my own home State of Maryland.

The number of hate crimes occurring across the country is likely underestimated. At least 21 agencies in cities with populations between 100,000 and 250,000 did not participate in the FBI data collection effort for the 2007 report. Additionally, victims may be fearful of authorities and may not report these crimes. Local authorities may define what constitutes a hate crime differently than other jurisdictions. But what we do know is that hate crimes are occurring and have increased toward certain groups of individuals.

According to the recent Leadership Conference on Civil Rights Education Fund Report, entitled ''Confronting the New Faces of Hate,'' hate crimes against Latinos has been increasing steadily since 2003. This marked increase also closely correlates with the increasing heated debate over comprehensive immigration reform. There was also a five year high in victimization rates in 2007 toward lesbian, gay, bisexual and transgendered individuals. That number has increased by almost 6 percent. The number of White supremacist groups has increased by 54 percent and African Americans continue to experience the largest number of hate crimes, with an annual number essentially unchanged over the past 10 years. While religion based offenses decreased, the number of reported anti-Jewish crimes increased slightly between 2006 and 2007.

The Matthew Shepard Hate Crimes Prevention Act is a necessary and appropriate response to this ongoing threat to our communities. Currently, 45 States and the District of Columbia have enacted hate crime laws and have taken a stand against hate in their States. Thirty-one of those States have already included sexual orientation in their definition of what constitutes a hate crime. Twenty-seven States and the District of Columbia prohibit violent crimes based upon a victim's gender. States have a patchwork of hate crimes statutes which leaves gaps which need to be filled in order to have an effective response and prosecution of these crimes. The Federal Government has a clear responsibility to respond to hate crimes. Current Federal hate crime laws are based only on race, color, national origin and religion. We need to include gender, disability, gender identity, and sexual orientation. Current law also requires the victim to be participating in a federally protected activity, like attending school or voting. Those who commit hate crimes are not bound to certain jurisdictions and neither should the people

who prosecute them, which is why this legislation removes the requirement that a victim be participating in a federally protected activity. The Matthew Shepard Hate Crimes Prevention Act will make sure all Americans are equally protected against hate crimes.

The American public supports this goal. According to a Gallup poll from 2007, 68 percent of all Americans support extending hate crime protection to groups based on sexual orientation and gender identity, including 60 percent of Republicans, and 62 percent of individuals who frequently attend church. This legislation also enjoys the support of 43 Senators from both sides of the aisle. The legislation has also already passed the House of Representatives.

This legislation will also provide necessary resources to our State and local governments to fight hate crimes. Specifically, it will provide grants for State, local and tribal law enforcement entities for prosecution, programming and education related to hate crime prosecution and prevention. The bill will assist States and provide them with additional resources, not diminish their role in managing criminal activity within their State. The bill supplements state and local law enforcement efforts.

Additionally, and most importantly, the legislation was carefully drafted to maintain protections for Americans' first amendment rights. Nothing in this legislation diminishes any American's freedom of religion, freedom of speech or press, or the freedom to assemble. The Supreme Court has already ruled that such laws do not obstruct free speech. Let me be clear, the Matthew Shepard Hate Crimes Prevention Act targets violent acts, not speech.

Hate crimes affect not just the victims; they victimize entire communities and make residents fearful. We cannot allow our communities to be terrorized by hatred and violence. I encourage my fellow colleagues to support the Matthew Shepard Hate Crimes Prevention Act.

100TH ANNIVERSARY OF MEDICINE BOW, WYOMING

Mr. BARRASSO. Mr. President, I rise today to recognize the 100th anniversary of the town of Medicine Bow, WY. The town eventually became the setting for the classic Western novel by Owen Wister, ''The Virginian.''

Medicine Bow's history began decades before its incorporation on June 26, 1909. The town's name originates from the mountains surrounding the area. American Indians would annually travel to the foot of the Medicine Bow Mountains to obtain wood that was excellent for arrows. According to the Native Americans, anything that is perfect for the purpose for which it is intended is called ''good medicine.''

The Union Pacific Railroad routed tracks through the valley because the Medicine Bow River was an ideal place for a pumping station. Steam engines would pause to take on a load of water before roaring across the prairie to the east or over the mountains to the west. The railroad not only produced what is now known as the town of Medicine Bow, but it also created economic opportunities. Wyoming's booming cattle industry necessitated stock yards in Medicine Bow. The town became an important shipping center for cattle headed to the eastern market and a great place for cowboys to congregate after gathering their herds.

The wood in the Medicine Bow forest was excellent not only for arrows but also for railroad ties. Every year, tie hacks cut hundreds of thousands of railroad ties and mining props from the mountains at the head of the river. The material was then floated down to a river boom, a mile from the Medicine Bow Station. These ties were pulled from the river and shipped to supply America's swiftly expanding railroad network.

The tie hacks and the cowboys played a vital role in the development of Medicine Bow's untamed reputation. It was this reputation as one of the West's wildest towns that brought famous novelist Owen Wister to Medicine Bow. Following his stay in Medicine Bow, Wister authored the classic Western novel, ''The Virginian.'' In his novel, he mirrored more than just the setting of the town. His plot was a fictionalized story about the Johnson County War in Wyoming, told from the cattle barons' point of view. Even Wister's famous line from the novel was not original. The phrase, ''When you look at me smile,'' came from a local man named William Hines. His novel brought fame and recognition to Wyoming's culture and history. In 1913 the Virginian Hotel was built by August Grimm and named after Wister's novel. To this day, visitors from all over the world enjoy a nice meal and a comfortable night's sleep at the Virginian.

The area surrounding Medicine Bow has long been host to several energy industries. Coal and uranium mines brought jobs to the area. Presently, wind turbines secure Medicine Bow's future and contribution to the America's energy market. Without a major interstate nearby, the Medicine Bow Valley has been able to secure and maintain its majestic western roots. Modernization may sweep through, but valleys like the Medicine Bow remind us of the Old West legacy.

In celebration of the 100th anniversary of the town of Medicine Bow, I invite my colleagues to visit this historic place. I congratulate the citizens of Medicine Bow who steward this important piece of Wyoming's history and present it to visitors from all over the world.

ADDITIONAL STATEMENTS

COMMENDING REVEREND GEORGE POULOS

● Mr. LIEBERMAN. Mr. President, today I would like to recognize the extraordinary service and remarkable character of Reverend George Poulos of the Church of the Archangels in Stamford, CT, who recently retired after over a half decade of service.

Reverend Poulos has come to hold a special place in our hearts and minds over his 53-year career. Over the years, he has been a spiritual father and friend to thousands of Connecticut families. As parish priest for Church of the Archangels, Reverend Poulos has officiated over 2,000 baptisms, 1,000 weddings, and 800 funerals. Although his formal tenure as parish priest ended earlier this week, Reverend Poulos remains intimately connected to the birth, life, and remembrance of the Stamford community. I have known Reverend Poulos for many years and treasure the example he has set in his career of devoted service; I am grateful for all the wisdom he has offered me personally.

The Church of the Archangels where Reverend Poulos served as parish priest is a magnificent structure built in the 11th century Byzantine style; in fact, it is the only true Byzantine-style church in the Western Hemisphere. As a 16-year-old, I watched the amazing structure emerge just down the street from the house where I grew up. When you enter the church, the left side wall reads: ''AGIASON TOUS AGAPONTAS THN EFPREPEIAN TOU OIKOU SOU,'' which means, ''Bless those who love the beauty of thy house.'' Reverend Poulos has offered us a rare kind of love that helps the Stamford community practice reverence, celebrate growth, and appreciate all the beauty of this life.

Our State and this Nation are blessed to have leaders like Reverend Poulos in our communities. As he retires from his church to spend time with his wife Christine, his five sons, and six grandchildren, I thank him for his service and assure him that his important contributions and generous spirit will never fade from our memory.●

REMEMBERING H.A. ''RED'' BOUCHER

● Ms. MURKOWSKI. Mr. President, as our colleagues know, this year marks the 50th anniversary of Alaska's admission to statehood. Earlier this year I had the privilege to speak at a number of events to kickoff the 50th anniversary celebration. I marveled at the fact that so many of Alaska's statesmen and stateswomen—the people who led Alaska from a frontier territory to a modern and vibrant state—are still with us today. The founding fathers

and mothers of so many of our States are just names in a history book. In contrast, the founding fathers and mothers of Alaska are not remote historical figures, but our friends and neighbors. Alaska's history is very much a living history. That is a source of great pride to me and to all Alaskans.

Yet every year, it seems, we lose another piece of Alaska's living history as those who played a significant role in the statehood fight and the early growth of our 49th State pass on. Today it is my sad duty to acknowledge the loss of Red Boucher, the first elected lieutenant governor of Alaska. Red died last Friday at the age of 88. This Friday the people of Alaska will celebrate Red's life at a memorial service in Anchorage

Everyone who knew Red knew of his persuasive gifts. Born in Nashua, NH, he grew up in St. Vincent's Orphanage in Fall River, MA, where he was placed at age 9 after his father's death in 1930. Seven years later Red, who was barely 16 years old, talked his way into the U.S. Navy. He served for 20 years, including all of World War II. After he left the service he ended up in Fairbanks, where in 1958 he established one of Interior Alaska's first sporting goods stores. But sports was only one of his passions. Politics was clearly another.

Following service on the Fairbanks city council and as mayor of the city of Fairbanks, Red served as lieutenant governor of Alaska under Governor Bill Egan from 1970 to 1974.

After his term as lieutenant governor, Red did not disappear from public service. During his nationwide travels from 1976 to 1980 at the behest of the Citizens for Management of Alaska's Lands, Red met with hundreds of newspaper editorial boards, winning acclaim for his strong reasoned arguments for why the Arctic Coastal Plain should be left open to oil and gas development if an environmental impact statement proved it could be developed without environmental harm. Many credited Red's efforts as the reason that ANWR's coastal plain was not locked up as wilderness when ANILCA was enacted in 1980. He returned to Juneau in 1985 representing an Anchorage district in the Alaska House of Representatives. And in 1991 Red was elected to the Anchorage Assembly.

In the minds of many Alaskans these significant contributions are relatively minor. They would regard Red's creation of the Alaska Goldpanners, Fairbanks' summer baseball team, as his most enduring accomplishment. He managed the team from 1960 to 1969. During the 1964 and 1965 seasons Red managed a young pitcher named Seaver, Tom Seaver.

The alumni list of the Alaska Goldpanners reads like a ''who's who'' of Major League Baseball. In fact, nearly 200 Goldpanner alumni have gone on to play in the majors. Then there was Dan Pastorini who pursued a career in football as quarterback for the Houston Oilers, Oakland Raiders, Los Angeles Rams, and Philadelphia Eagles.

The Alaska Goldpanners continue to delight Alaskans and visitors from around the world each summer at Growden Memorial Field. At the time of his death, Red was the director of external affairs for the team.

Two days after Red's passing, at 10:30 P.M. on the evening of Sunday, June 21, his beloved Goldpanners took the field against the Lake Erie Monarchs. It was Fairbanks' 104th annual Midnight Sun Game, game played each year to commemorate the Summer Solstice. That game ended in the wee morning hours of Monday, June 22, with a 6–3 victory for the ''Panners.'' Red's still watching out for them.

In his later years Red championed bringing modern telecommunications and computing technologies to the remotest parts of Alaska. He hosted a statewide cable television show called ''Alaska On Line.'' I was proud to be Red's guest on more than one occasion. We discussed ANWR and the need to construct a pipeline to transport Alaska's abundant natural gas supplies to market.

The formula for ''Alaska On Line'' was simple: Invite interesting guests and let them tell their stories. These shows are virtual oral histories of Alaska. In fact, many of the tapes have already been acquired by the University of Alaska Anchorage Consortium Library for use by historians and scholars.

Red Boucher lived every day to the fullest enriching the lives of his fellow Alaskans in innumerable ways. I join with Red's family and all Alaskans in mourning the loss of this exemplary Alaskan.●

WEST VIRGINIA SCHOOL OF EXCELLENCE AWARD RECIPIENTS

● Mr. ROCKEFELLER. Mr. President, today I honor the recipients of the West Virginia School of Excellence award for the 2008–2009 academic school year. This is a prestigious award given to schools for providing rigorous curricula, innovative programs, and exhibiting an overall high standard of learning. Those receiving the award this year were Ben Franklin Career and Technical Center in Kanawha County; Poca Middle School in Putnam County; Eagle School Intermediate in Berkeley County; Davis Creek, Village of Barboursville, and Martha Elementary Schools all of Cabell County; Cottageville Elementary in Jackson County; and Stratton Elementary in Raleigh County. They are all incredibly impressive schools that are challenging their students. I would like to take a little time to highlight how each school is preparing their pupils for future success.

Ben Franklin Career and Technical Center, located in Dunbar, centers its curriculum on the principle of preparing all students for the 21st century by training them to operate efficiently in a complex economy. It offers career preparation programs, short-term skill courses, and customized training for local businesses.

Poca Middle School is based on the principles of allowing students to ''master basic academic skills and to explore and identify their own interests and talents.'' It is a school that prides itself on offering students various opportunities to explore the arts and to actively pursue their interest by attending a wide range of classes and school events. It has allowed students to experience a more personal learning environment by implementing an online math program. The school's use of online learning is just the beginning of the many expanded learning programs that West Virginia schools will be implementing in the near future.

Eagle School Intermediate, located in Martinsburg, is dedicated to ''providing educational opportunities for all students to reach their highest academic potential.'' Eagle School Intermediate was one of the first schools in West Virginia to allow parents to track their student's progress via online grade checking. This is just another example of how West Virginia is expanding its boundaries towards providing the most in-depth academic technology to its students and their parents.

Davis Creek Elementary School, located in Barboursville, is an extraordinary representation of the Mountain State's flourishing primary education programs. For the 2006–2007 school year, the Cabell County public school was declared a National Blue Ribbon School. Davis Creek served 169 students in grades K–5 and has also been named a West Virginia Exemplary School.

Village of Barboursville Elementary School, located in Barboursville as well, is an institution that is focused on cohesive learning among students and faculty. It boasts a strikingly high parental approval rating. The school focuses its curriculum on providing students with the opportunity not only to learn inside the classroom, but also to develop proper social skills that can be taken and used to develop a stronger bond with the community.

Martha Elementary School, also located in Barboursville, is an institution founded on cooperation between parents and students to create an environment conducive to learning. This 300-student rural school focuses on endowing students with the opportunity to follow their dreams. The dedicated faculty uses innovative programs to assist students on an individual basis, allowing for a more personalized educational experience. The school strives

to create an atmosphere of support among family, the school, and the community.

Cottageville Elementary, located in Cottageville, is dedicated to providing ''equity and excellence in education.'' The school bases its curriculum on the belief that all students should be held to a high standard and endowed with the resources necessary to receive an excellent education. Teachers and faculty strive to provide their students with the skills necessary to excel academically by creating a support system that includes the school, family, and the community.

Stratton Elementary, located in Beckley, strives to afford all of its students the opportunity to learn at a pace that is the best match for each individual. Stratton offers many gifted programs and online learning portals that allow students to take more advanced courses and to have access to one-on-one help around the clock.

Once again, I congratulate these eight schools for receiving the West Virginia School of Excellence award, a distinction each school undoubtedly deserves. I commend them on their impressive achievements and applaud all of the administrators, teachers, and students for the wonderful example they set for all West Virginians.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

ENROLLED BILLS SIGNED

At 9:33 a.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

S. 407. An act to amend title 38, United States Code, to provide for an increase, effective December 1, 2009, in the rates of compensation for veterans with service-connected disabilities and the rates of dependency and indemnity compensation for the survivors of certain disabled veterans, to codify increases in the rates of such compensation that were effective as of December 1, 2008, and for other purposes.

H.R. 1777. An act to make technical corrections to the Higher Education Act of 1965, and for other purposes.

The enrolled bills were subsequently signed by the Acting President pro tempore (Mrs. GILLIBRAND).

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

S. 1344. A bill to temporarily protect the solvency of the Highway Trust Fund.

ENROLLED BILLS PRESENTED

The Secretary of the Senate reported that on today, June 25, 2009, she had presented to the President of the United States the following enrolled bill:

S. 407. An act to amend title 38, United States Code, to provide for an increase, effective December 1, 2009, in the rates of compensation for veterans with service-connected disabilities and the rates of dependency and indemnity compensation for the survivors of certain disabled veterans, to codify increases in the rates of such compensation that were effective as of December 1, 2008, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–2091. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Triallate; Pesticide Tolerances'' (FRL No. 8421–2) received in the Office of the President of the Senate on June 22, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2092. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''2-Butenedioic acid (2Z)-, monobutyl ester, Polymer with methoxyethene, sodium salt; Tolerance Exemption'' (FRL No. 8418–7) received in the Office of the President of the Senate on June 18, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2093. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Oxirane, 2-methyl-, Polymer with Oxirane; Tolerance Exemption'' (FRL No. 8420–9) received in the Office of the President of the Senate on June 18, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2094. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Starch, oxidized, polymers with Bu acrylate, tert-Bu acrylate and styrene; Tolerance Exemption'' (FRL No. 8418–8) received in the Office of the President of the Senate on June 18, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2095. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''2-Propenoic acid, butyl ester, polymer with ethyl 2-propenoate and N-(hydroxymethyl)-2-propenamide; Tolerance Exemption'' (FRL No. 8418–4) received in the Office of the President of the Senate on June 18, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2096. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Acetochlorp Pesticide Tolerances'' (FRL No. 8417–8) received in the Office of the President of the Senate on June 18, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2097. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Data Requirements for Antimicrobial Pesticides; Technical Amendment'' (FRL No. 8418–5) received in the Office of the President of the Senate on June 18, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2098. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Glyphosate; Pesticide Tolerances'' (FRL No. 8417–5) received in the Office of the President of the Senate on June 18, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2099. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Regulation of Fuels and Fuel Additives: Modifications to Renewable Fuel Standard Program Requirements'' ((RIN2060–AO80)(FRL No. 8420–9)) received in the Office of the President of the Senate on June 22, 2009; to the Committee on Environment and Public Works.

EC–2100. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Protection of Stratospheric Ozone: Allocation of Essential Use Allowances for Calendar Year 2009'' ((RIN2060–AO77)(FRL No. 8420–9)) received in the Office of the President of the Senate on June 22, 2009; to the Committee on Environment and Public Works.

EC–2101. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval and Promulgation of Air Quality Implementation Plans; Tennessee; Approval of Revisions to the Knox County Portion'' (FRL No. 8903–6) received in the Office of the President of the Senate on June 22, 2009; to the Committee on Environment and Public Works.

S. 475

At the request of Mr. BURR, the names of the Senator from Connecticut (Mr. LIEBERMAN) and the Senator from South Dakota (Mr. JOHNSON) were added as cosponsors of S. 475, a bill to amend the Servicemembers Civil Relief Act to guarantee the equity of spouses of military personnel with regard to matters of residency, and for other purposes.

S. 515

At the request of Mr. LEAHY, the name of the Senator from Arkansas (Mr. PRYOR) was added as a cosponsor of S. 515, a bill to amend title 35, United States Code, to provide for patent reform.

S. 546

At the request of Mr. LEAHY, his name was added as a cosponsor of S. 546, a bill to amend title 10, United States Code, to permit certain retired members of the uniformed services who have a service-connected disability to receive both disability compensation from the Department of Veterans Affairs for their disability and either retired pay by reason of their years of military service or Combat-Related Special Compensation.

S. 565

At the request of Mr. DURBIN, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 565, a bill to amend title XVIII of the Social Security Act to provide continued entitlement to coverage for immunosuppressive drugs furnished to beneficiaries under the Medicare Program that have received a kidney transplant and whose entitlement to coverage would otherwise expire, and for other purposes.

S. 592

At the request of Ms. CANTWELL, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 592, a bill to implement the recommendations of the Federal Communications Commission report to the Congress regarding low-power FM service.

S. 604

At the request of Mr. SANDERS, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 604, a bill to amend title 31, United States Code, to reform the manner in which the Board of Governors of the Federal Reserve System is audited by the Comptroller General of the United States and the manner in which such audits are reported, and for other purposes.

S. 624

At the request of Mr. DURBIN, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 624, a bill to provide 100,000,000 people with first-time access to safe drinking water and sanitation on a sustainable basis by 2015 by improving the capacity of the United States Government to fully implement the Senator Paul Simon Water for the Poor Act of 2005.

S. 662

At the request of Mr. CONRAD, the name of the Senator from New Mexico (Mr. UDALL) was added as a cosponsor of S. 662, a bill to amend title XVIII of the Social Security Act to provide for reimbursement of certified midwife services and to provide for more equitable reimbursement rates for certified nurse-midwife services.

S. 686

At the request of Ms. MIKULSKI, the name of the Senator from Michigan (Mr. LEVIN) was added as a cosponsor of S. 686, a bill to establish the Social Work Reinvestment Commission to advise Congress and the Secretary of Health and Human Services on policy issues associated with the profession of social work, to authorize the Secretary to make grants to support recruitment for, and retention, research, and reinvestment in, the profession, and for other purposes.

S. 694

At the request of Mr. DODD, the names of the Senator from Pennsylvania (Mr. CASEY), the Senator from North Carolina (Mr. BURR), the Senator from Tennessee (Mr. ALEXANDER) and the Senator from New Hampshire (Mr. GREGG) were added as cosponsors of S. 694, a bill to provide assistance to Best Buddies to support the expansion and development of mentoring programs, and for other purposes.

S. 729

At the request of Mr. DURBIN, the name of the Senator from Hawaii (Mr. INOUYE) was added as a cosponsor of S. 729, a bill to amend the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 to permit States to determine State residency for higher education purposes and to authorize the cancellation of removal and adjustment of status of certain alien students who are long-term United States residents and who entered the United States as children, and for other purposes.

S. 846

At the request of Mr. DURBIN, the name of the Senator from New Mexico (Mr. UDALL) was added as a cosponsor

of S. 846, a bill to award a congressional gold medal to Dr. Muhammad Yunus, in recognition of his contributions to the fight against global poverty.

S. 855

At the request of Ms. COLLINS, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 855, a bill to establish an Energy Assistance Fund to guarantee low-interest loans for the purchase and installation of qualifying energy efficient property, idling reduction and advanced insulation for heavy trucks, and alternative refueling stations, and for other purposes.

S. 908

At the request of Mr. BAYH, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 908, a bill to amend the Iran Sanctions Act of 1996 to enhance United States diplomatic efforts with respect to Iran by expanding economic sanctions against Iran.

S. 909

At the request of Mr. KENNEDY, the name of the Senator from Delaware (Mr. KAUFMAN) was added as a cosponsor of S. 909, a bill to provide Federal assistance to States, local jurisdictions, and Indian tribes to prosecute hate crimes, and for other purposes.

S. 981

At the request of Mr. REID, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 981, a bill to support research and public awareness activities with respect to inflammatory bowel disease, and for other purposes.

S. 984

At the request of Mrs. BOXER, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 984, a bill to amend the Public Health Service Act to provide for arthritis research and public health, and for other purposes.

S. 994

At the request of Ms. KLOBUCHAR, the names of the Senator from Vermont (Mr. LEAHY), the Senator from Wisconsin (Mr. FEINGOLD) and the Senator from Maryland (Mr. CARDIN) were added as cosponsors of S. 994, a bill to amend the Public Health Service Act to increase awareness of the risks of breast cancer in young women and provide support for young women diagnosed with breast cancer.

S. 1012

At the request of Mr. ROCKEFELLER, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 1012, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of Mother's Day.

S. 1023

At the request of Mr. DORGAN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1023, a bill to establish a nonprofit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States.

S. 1035

At the request of Mr. REID, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 1035, a bill to enhance the ability of drinking water utilities in the United States to develop and implement climate change adaptation programs and policies, and for other purposes.

S. 1048

At the request of Mr. HARKIN, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 1048, a bill to amend the Federal Food, Drug, and Cosmetic Act to extend the food labeling requirements of the Nutrition Labeling and Education Act of 1990 to enable customers to make informed choices about the nutritional content of standard menu items in large chain restaurants.

S. 1064

At the request of Mr. LIEBERMAN, the name of the Senator from Colorado (Mr. BENNET) was added as a cosponsor of S. 1064, a bill to amend the American Recovery and Reinvestment Act of 2009 to provide for enhanced State and local oversight of activities conducted under such Act, and for other purposes.

S. 1131

At the request of Mr. WYDEN, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 1131, a bill to amend title XVIII of the Social Security Act to provide certain high cost Medicare beneficiaries suffering from multiple chronic conditions with access to coordinated, primary care medical services in lower cost treatment settings, such as their residences, under a plan of care developed by a team of qualified and experienced health care professionals.

S. 1150

At the request of Mr. ROCKEFELLER, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 1150, a bill to improve end-of-life care.

S. 1233

At the request of Ms. LANDRIEU, the names of the Senator from Massachusetts (Mr. KERRY) and the Senator from Maryland (Mr. CARDIN) were added as cosponsors of S. 1233, a bill to reauthorize and improve the SBIR and STTR programs and for other purposes.

S. 1257

At the request of Ms. CANTWELL, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 1257, a bill to amend the Social Security Act to build on the aging network to establish long-term services and supports through single-entry point systems, evidence based disease prevention and health promotion programs, and enhanced nursing home diversion programs.

S. 1280

At the request of Mr. CORKER, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. 1280, a bill to authorize the Secretary of the Treasury to delegate management authority over troubled assets purchased under the Troubled Asset Relief Program, to require the establishment of a trust to manage assets of certain designated TARP recipients, and for other purposes.

S. 1301

At the request of Mr. MENENDEZ, the name of the Senator from Arkansas (Mr. PRYOR) was added as a cosponsor of S. 1301, a bill to direct the Attorney General to make an annual grant to the A Child Is Missing Alert and Recovery Center to assist law enforcement agencies in the rapid recovery of missing children, and for other purposes.

S. 1304

At the request of Mr. GRASSLEY, the names of the Senator from Georgia (Mr. ISAKSON), the Senator from Kansas (Mr. ROBERTS) and the Senator from Maryland (Ms. MIKULSKI) were added as cosponsors of S. 1304, a bill to restore the economic rights of automobile dealers, and for other purposes.

S. 1309

At the request of Mr. BAYH, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 1309, a bill to amend title IV of the Social Security Act to ensure funding for grants to promote responsible fatherhood and strengthen low-income families, and for other purposes.

S. 1318

At the request of Mr. GREGG, the name of the Senator from Oklahoma (Mr. COBURN) was added as a cosponsor of S. 1318, a bill to prohibit the use of stimulus funds for signage indicating that a project is being carried out using those funds.

S. 1319

At the request of Mr. COBURN, the names of the Senator from Kentucky (Mr. MCCONNELL), the Senator from Kentucky (Mr. BUNNING) and the Senator from Idaho (Mr. RISCH) were added as cosponsors of S. 1319, a bill to require Congress to specify the source of authority under the United States Constitution for the enactment of laws, and for other purposes.

S. 1344

At the request of Mr. VITTER, the names of the Senator from Kansas (Mr. BROWNBACK) and the Senator from Wyoming (Mr. BARRASSO) were added as cosponsors of S. 1344, a bill to temporarily protect the solvency of the Highway Trust Fund.

S. 1345

At the request of Mr. REED, the name of the Senator from California (Mrs.

BOXER) was added as a cosponsor of S. 1345, a bill to aid and support pediatric involvement in reading and education.

S.J. RES. 17

At the request of Mr. MCCONNELL, the name of the Senator from Kansas (Mr. BROWNBACK) was added as a cosponsor of S.J. Res. 17, a joint resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes.

S. CON. RES. 11

At the request of Ms. COLLINS, the names of the Senator from Michigan (Ms. STABENOW) and the Senator from Texas (Mr. CORNYN) were added as cosponsors of S. Con. Res. 11, a concurrent resolution condemning all forms of anti-Semitism and reaffirming the support of Congress for the mandate of the Special Envoy to Monitor and Combat Anti-Semitism, and for other purposes.

S. CON. RES. 14

At the request of Mrs. LINCOLN, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. Con. Res. 14, a concurrent resolution supporting the Local Radio Freedom Act.

S. RES. 199

At the request of Mr. KOHL, the names of the Senator from Washington (Ms. CANTWELL), the Senator from Arkansas (Mr. PRYOR), the Senator from New York (Mrs. GILLIBRAND), the Senator from Maine (Ms. COLLINS), the Senator from Florida (Mr. NELSON) and the Senator from Minnesota (Ms. KLOBUCHAR) were added as cosponsors of S. Res. 199, a resolution recognizing the contributions of the recreational boating community and the boating industry to the continuing prosperity of the United States.

At the request of Mr. BURR, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. Res. 199, supra.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. SNOWE (for herself and Mr. CONRAD):

S. 1349. A bill to amend the Internal Revenue Code of 1986 to simplify the deduction for use of a portion of a residence as a home office by providing an optional standard home office deduction; to the Committee on Finance.

Ms. SNOWE. Mr. President, today I rise to reintroduce legislation to offer a drastically simplified alternative for home-based businesses to benefit from the home office tax deduction. The U.S. Small Business Administration's, SBA's, Office of Advocacy designated reforming the home office tax deduction as one of its top 10 regulatory review and reform initiatives for 2008. By establishing an optional home office deduction, the Home Office Tax Deduction Simplification and Improvement Act of 2009 would take a strong step toward making our tax laws easier to understand. I would like to thank Senator CONRAD for joining me to introduce this critical bill here in the Senate and Representative GONZALEZ for introducing identical legislation in the House of Representatives.

As Ranking Member of the Senate Committee on Small Business and Entrepreneurship, I continually hear from small enterprises across Maine and this nation about the necessity of tax relief and reform. Despite the fact that small firms are our economy's real job creators, the current tax system places an entirely unreasonable burden on them as they struggle to satisfy their tax obligations.

Notably, according to the Office of Management and Budget's Office of Information and Regulatory Affairs, the American public spends approximately nine billion hours each year to complete government-mandated forms and paperwork. A staggering 80 percent of this time is consumed by completing tax forms. What is even more troubling is that companies that employ fewer than 20 employees spend nearly $1,304 per employee in tax compliance costs, an amount that is nearly 67 percent more than larger firms.

Turning to the legislation we are reintroducing today, the Internal Revenue Code currently offers qualified individuals a home office tax deduction if they use a portion of their home as a principal place of business or as a space to meet with their patients or clients. That said, although recent research from the SBA indicates that roughly 53 percent of America's small businesses are home-based, few of these firms take advantage of the home office tax deduction. The reason is simple: reporting the deduction is complicated.

A 2006 survey conducted by the National Federation of Independent Business Research Foundation found that approximately 33 percent of small-employer taxpayers try to comprehend the tax rules governing the home office tax deduction, but only about half of those respondents believe that they actually have a good understanding of the rules. As Dewey Martin, a Certified Public Accountant from my home State of Maine, so aptly said in testimony last year before the Senate Finance Committee, ''Many small business owners avoid the deduction because of the complications and the fear of a potential audit.''

With a morass of paperwork attributable to the home office deduction, the time-consuming process of navigating the tangled web of rules and regulations makes it unsurprising that so many small business owners forego the home office deduction. So to encourage the use of the home office tax deduction, the bill we are introducing today would establish an optional, easy-to-use incentive.

Specifically, our bill would direct the Secretary of the Treasury to establish a method for determining a deduction that consists of multiplying an applicable standard rate by the square footage of the type of property being used as a home office. The proposal would also require the IRS to separately state the amounts allocated to several types of expenses in order to reduce the burden on the taxpayer. It is vital that the IRS clearly identify the amounts of the deduction devoted to real estate taxes, mortgage interest, and depreciation so that taxpayers do not duplicate them on Schedule A. Finally, the bill makes two changes designed to ease the administration of the deduction: First, to reflect an economy in which many business owners conduct business or consult with customers through the Internet or over the phone versus face-to-face, our legislation takes these entrepreneurs into account by allowing the home office deduction to be taken if the taxpayer uses the home to meet or deal with clients regardless of whether the clients are physically present. Second, our bill would allow for de minimis use of business space for personal activities so that taxpayers would not lose their ability to claim the deduction if they make a personal call or pay a bill online.

I would be remiss not to note that the bill we are introducing today is the result of the dedicated efforts of various groups and organizations, which have worked with Senator CONRAD and me on a consensus approach to improve the current home office tax deduction. In particular, it is significant to note that the IRS Taxpayer Advocate Service strongly backs this bill. In fact, the National Taxpayer Advocate, Nina E. Olson, sent my office the following statement regarding our legislation: ''In my 2007 Annual Report to Congress, I made a similar proposal to simplify the home office business deduction. I am pleased that Senator SNOWE and CONRAD's proposed bill reflects the gist of my legislative recommendation. Reducing the burdensome substantiation requirements for employees and self-employed taxpayers who incur modest home office costs would make the home office business deduction simpler and more accessible to them.''

Our bill also received an endorsement from the National Federation of Independent Business. Dan Danner, the organization's Executive Director, said the following: ''Currently only a small percentage of home-based businesses in the U.S. take advantage of the home-office deduction because calculating the deduction is unnecessarily complicated. NFIB small business owners have advocated for a simpler, standard home-office deduction for years. The Snowe-Conrad legislation gives home-based businesses the option to deduct a legitimate business expense with minimum hassle. This commonsense

change to the tax code will reduce tax complexity and help many home-based businesses take advantage of this deduction.'' Additionally, the SBA's Office of Advocacy added: ''The SBA Office of Advocacy reviewed the legislation and supports it.''

In closing, according to the SBA's Office of Advocacy, America's home-based sole proprietors generate $102 billion in revenue annually. With this in mind, it is absolutely critical to endow these small firms with as much relief from burdensome tax constraints as possible so that they can focus their efforts on developing the products and services of the future, as well as creating new jobs. The confusion over the home office business tax deduction, in my estimation, can be easily solved by passing this legislation. I urge all Senators to consider the benefits this bill will provide to thousands of small business owners, and I look forward to working with my colleagues to enact it in a timely manner.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1349

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Home Office Tax Deduction Simplification and Improvement Act of 2009''.

SEC. 2. OPTIONAL STANDARD HOME OFFICE DEDUCTION.

(a) IN GENERAL.—Subsection (c) of section 280A of the Internal Revenue Code of 1986 (relating to exceptions for certain business or rental use; limitation on deductions for such use) is amended by adding at the end the following new paragraph:

''(7) ELECTION OF STANDARD HOME OFFICE DEDUCTION.—

''(A) IN GENERAL.—In the case of an individual who is allowed a deduction for the use of a portion of a dwelling unit as a business by reason of paragraph (1), (2), or (4), notwithstanding the limitations of paragraph (5), if such individual elects the application of this paragraph for the taxable year with respect to such dwelling unit, such individual shall be allowed a deduction equal to the standard home office deduction for the taxable year in lieu of the deductions otherwise allowable under this chapter for such taxable year by reason of paragraph (1), (2), or (4).

''(B) STANDARD HOME OFFICE DEDUCTION.—

''(i) IN GENERAL.—For purposes of this paragraph, the standard home office deduction is an amount equal to the product of—

''(I) the applicable home office standard rate, and

''(II) the square footage of the portion of the dwelling unit to which paragraph (1), (2), or (4) applies.

''(ii) APPLICABLE HOME OFFICE STANDARD RATE.—For purposes of this subparagraph, the term 'applicable home office standard rate' means the rate applicable to the taxpayer's category of business, as determined and published by the Secretary for the 3 categories of businesses described in paragraphs (1), (2), and (4) for the taxable year.

''(iii) MAXIMUM SQUARE FOOTAGE TAKEN INTO ACCOUNT.—The Secretary shall determine and publish annually the maximum square footage that may be taken into account under clause (i)(II) for each of the 3 categories of businesses described in paragraphs (1), (2), and (4) for the taxable year.

''(C) EFFECT OF ELECTION.—

''(i) GENERAL RULE.—Except as provided in clause (ii), any election under this paragraph, once made by the taxpayer with respect to any dwelling unit, shall continue to apply with respect to such dwelling unit for each succeeding taxable year.

''(ii) ONE-TIME ELECTION PER DWELLING UNIT.—A taxpayer who elects the application of this paragraph in a taxable year with respect to any dwelling unit may revoke such application in a subsequent taxable year. After so revoking, the taxpayer may not elect the application of this paragraph with respect to such dwelling unit in any subsequent taxable year.

''(D) DENIAL OF DOUBLE BENEFIT.—

''(i) IN GENERAL.—Except as provided in clause (ii), in the case of a taxpayer who elects the application of this paragraph for the taxable year, no other deduction or credit shall be allowed under this subtitle for such taxable year for any amount attributable to the portion of a dwelling unit taken into account under this paragraph.

''(ii) EXCEPTION FOR DISASTER LOSSES.—A taxpayer who elects the application of this paragraph in any taxable year may take into account any disaster loss described in section 165(i) as a loss under section 165 for the applicable taxable year, in addition to the standard home office deduction under this paragraph for such taxable year.

''(E) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this paragraph.''.

(b) MODIFICATION OF HOME OFFICE BUSINESS USE RULES.—

(1) PLACE OF MEETING.—Subparagraph (B) of section 280A(c)(1) of the Internal Revenue Code of 1986 is amended to read as follows:

''(B) as a place of business which is used by the taxpayer in meeting or dealing with patients, clients, or customers in the normal course of the taxpayer's trade or business, or''.

(2) DE MINIMIS PERSONAL USE.—Paragraph (1) of section 280A(c) of such Code is amended by striking ''for the convenience of his employer'' and inserting ''for the convenience of such employee's employer. A portion of a dwelling unit shall not fail to be deemed as exclusively used for business for purposes of this paragraph solely because a de minimis amount of non-business activity may be carried out in such portion''.

(c) REPORTING OF EXPENSES RELATING TO HOME OFFICE DEDUCTION.—Within 60 days after the date of the enactment of this Act, the Secretary of the Treasury shall ensure that all forms and schedules used to calculate or report itemized deductions and profits or losses from business or farming state separately amounts attributable to real estate taxes, mortgage interest, and depreciation for purposes of the deductions allowable under paragraphs (1), (2), (4), and (7) of section 280A(c) of the Internal Revenue Code of 1986.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2009.

By Mr. PRYOR (for himself and Mr. INHOFE):

S. 1350. A bill to encourage increased production of natural gas and liquified petroleum gas vehicles and to provide tax incentives for natural gas and liquefied petroleum gas vehicle infrastructure, and for other purposes; to the Committee on Finance.

Mr. PRYOR. Mr. President, I rise today along with Senator INHOFE to introduce the Fueling America Act of 2009 which will provide incentives for the production and use of natural gas and propane vehicles throughout the United States.

In response to high gasoline and diesel fuel prices, consumers have become more interested in alternative fuel vehicles that run on natural gas or propane. These vehicles and aftermarket conversion kits have been available for years, but they have been used mostly in government and private fleets. Very few have been purchased and used by consumers. Larger natural gas and propone vehicles are often used for clean-burning transit buses and delivery trucks.

Natural gas and propane are clean, cost-effective alternative fuel choices. Two important potential benefits of increasing the supply of natural gas and propane vehicles are energy security and reduced pollutant and greenhouse gas emissions than comparable gasoline or diesel vehicles. Compared with conventional vehicles, natural gas vehicles produce only 5 to 10 percent of allowable emissions, which means far less greenhouse gases.

Thanks to new drilling technologies that are unlocking substantial amounts of natural gas from shale rocks, the nation's estimated gas reserves have surged by 35 percent, according to a study released last week. The report by the Potential Gas Committee, the authority on gas supplies, shows the United States holds far larger reserves than previously thought. Estimated natural gas reserves rose to 2,074 trillion cubic feet in 2008, from 1,532 trillion cubic feet in 2006, when the last report was issued.

Increasing the production of natural gas and propane vehicles for both individual and public transportation will provide a huge boost for Arkansas' economy and job growth. Arkansas, with its abundant natural gas resources, has the capability to be a leader in the alternative energy sector and the fight to reduce our country's dependence on foreign oil. Developing the natural gas vehicle and propane industry will help Arkansas' natural gas producers grow and thrive, boosting the State's economy. In Arkansas, the Fayetteville Shale is proving to be a major new find of domestic natural gas. The Center for Business and Economic Research at the University of Arkansas estimates that this shale play will result in about $17.9 billion in economic stimulus and 11,000 jobs for the State.

Natural gas and propane vehicles are more fuel efficient and environmentally friendly than their gasoline counterparts, but right now their high cost and lack of infrastructure, such as refueling stations, make them an unrealistic option for the average American. Since the number of natural gas refueling stations is limited only about 400 to 500 publicly available nationwide, compared to roughly 120,000 retail gasoline stations the purchaser of a new natural gas vehicle would likely also install a home refueling system. According to NGVAmerica, a typical home system costs roughly $4,500 plus installation.

The Fueling America Act of 2009 will establish a research, development and demonstration program at the Department of Energy to improve cleaner, more efficient natural gas and propane vehicle engines, on-board storage systems, and fueling station infrastructure; require the GSA to report on whether the Federal fleet should increase the number of natural gas and propane vehicles; extend the Clean School Bus Program through 2014; extend tax credits for natural gas and propane refueling property; and extend and increase the consumer tax credit for the purchase of natural gas, propane and bi-fuel vehicles.

The Fueling America Act will make it easier and more practical for people to buy these clean, green vehicles. This bill will provide incentives for consumers and industry to purchase new natural gas and propane vehicles, as well as aftermarket conversion kits. At the same time, America can become less dependent on foreign oil, utilize our ample domestic natural gas resources, and create a cleaner environment.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1350

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Fueling America Act of 2009''.

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

TITLE I—INCREASED PRODUCTION OF NATURAL GAS AND LIQUEFIED PETROLEUM GAS VEHICLES

SEC. 101. DEFINITIONS.

In this title:

(1) ADMINISTRATOR.—The term ''Administrator'' means the Administrator of the Environmental Protection Agency.

(2) NATURAL GAS.—The term ''natural gas'' means—

(A) compressed natural gas;

(B) liquefied natural gas;

(C) biomethane; and

(D) mixtures of—

(i) hydrogen; and

(ii) methane, biomethane, compressed natural gas, or liquefied natural gas.

(3) SECRETARY.—The term ''Secretary'' means the Secretary of Energy.

SEC. 102. NATURAL GAS AND LIQUEFIED PETROLEUM GAS VEHICLE RESEARCH, DEVELOPMENT, AND DEMONSTRATION PROJECTS.

(a) IN GENERAL.—The Secretary, in coordination with the Administrator, shall conduct a program of natural gas and liquefied petroleum gas vehicle research, development, and demonstration.

(b) PURPOSES.—The purposes of the program conducted under this section are to focus on—

(1) the continued improvement and development of new, cleaner, more efficient light-duty, medium-duty, and heavy-duty natural gas and liquefied petroleum gas vehicle engines;

(2) the integration of those engines into light-duty, medium-duty, and heavy-duty natural gas and liquefied petroleum gas vehicles for onroad and offroad applications;

(3) expanding product availability by assisting manufacturers with the certification of the engines or vehicles described in paragraph (1) or (2) to comply with Federal or California certification requirements and in-use emission standards;

(4) the demonstration and proper operation and use of the vehicles described in paragraph (2) under all operating conditions;

(5) the development and improvement of nationally recognized codes and standards for the continued safe operation of vehicles described in paragraph (2) and the components of the vehicles;

(6) improvement in the reliability and efficiency of natural gas and liquefied petroleum gas fueling station infrastructure;

(7) the certification of natural gas and liquefied petroleum gas fueling station infrastructure to nationally recognized and industry safety standards;

(8) the improvement in the reliability and efficiency of onboard natural gas and liquefied petroleum gas fuel storage systems;

(9) the development of new natural gas and liquefied petroleum gas fuel storage materials;

(10) the certification of onboard natural gas and liquefied petroleum gas fuel storage systems to nationally recognized and industry safety standards; and

(11) the use of natural gas and liquefied petroleum gas engines in hybrid vehicles.

(c) CERTIFICATION OF AFTERMARKET CONVERSION SYSTEMS.—

(1) IN GENERAL.—The Secretary shall coordinate with the Administrator on issues related to streamlining the certification of natural gas and liquefied petroleum gas aftermarket conversion systems to comply with appropriate Federal certification requirements and in-use emission standards.

(2) STREAMLINED CERTIFICATION.—For purposes of paragraph (1), streamlined certification shall include providing aftermarket conversion system manufacturers the option to continue to sell and install systems on engines and test groups for which the manufacturers have previously received a certificate of conformity without having to request a new certificate in future years.

(d) COOPERATION AND COORDINATION WITH INDUSTRY.—In developing and carrying out the program under this section, the Secretary shall coordinate with the natural gas and liquefied petroleum gas vehicle industry to ensure, to the maximum extent practicable, cooperation between the public and the private sector.

(e) ADMINISTRATION.—The program under this section shall be conducted in accordance with sections 3001 and 3002 of the Energy Policy Act of 1992 (42 U.S.C. 13541, 13542).

(f) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to the appropriate committees of Congress a report on the implementation of this section.

(g) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary to carry out this section $30,000,000 for each of fiscal years 2010 through 2014.

SEC. 103. STUDY OF INCREASING NATURAL GAS AND LIQUEFIED PETROLEUM GAS VEHICLES IN FEDERAL FLEET.

Not later than 180 days after the date of enactment of this Act, the Administrator of General Services, in consultation with the Administrator, shall—

(1) conduct a study on whether or not the Federal fleet should increase the number of light-duty, medium-duty, and heavy-duty natural gas and liquefied petroleum gas vehicles in the fleet;

(2) assess the barriers to increasing the number of natural gas and liquefied petroleum gas vehicles in the fleet;

(3) assess the potential for maximizing the use of natural gas and liquefied petroleum gas vehicles in the fleet; and

(4) submit to the appropriate committees of Congress a report on the results of the study.

SEC. 104. CLEAN SCHOOL BUS PROGRAM.

(a) IN GENERAL.—Section 6015 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (42 U.S.C. 16091a) is amended—

(1) in subsection (b)(5)—

(A) in subparagraph (A)—

(i) in the subparagraph heading, by striking ''50'' and inserting ''65''; and

(ii) in the matter preceding clause (i), by striking ''one-half'' and inserting ''65 percent'';

(iii) in clause (i)(II), by striking ''or'' after the semicolon at the end;

(iv) in clause (ii), by striking the period at the end and inserting as semicolon; and

(v) by adding at the end the following:

''(iii) clean school buses with engines manufactured in model year 2010, 2011, 2012, 2013, or 2014 that satisfy regulatory requirements established by the Administrator for emissions of oxides of nitrogen and particulate matter to be applicable for school buses manufactured in that model year; or

''(iv) clean school buses with engines only fueled by compressed natural gas, liquefied natural gas, or liquefied petroleum gas, except that school buses described in this clause may be eligible for a grant that is equal to an additional 25 percent of the acquisition costs of the school buses (including fueling infrastructure).''; and

(B) in subparagraph (B)—

(i) in the subparagraph heading, by striking ''25''and inserting ''50''; and

(ii) in the matter preceding clause (i), by striking ''one-fourth'' and inserting ''50 percent''; and

(2) in subsection (d)—

(A) in paragraph (1), by striking ''and'' at the end;

(B) in paragraph (2), by striking ''2008, 2009, and 2010.'' and inserting ''2008 and 2009; and''; and

(C) by adding at the end the following:

''(3) $75,000,000 for each of fiscal years 2010 through 2014.''.

(b) TECHNICAL CORRECTION.—Section 741 of the Energy Policy Act of 2005 (42 U.S.C. 16091) is repealed.

TITLE II—TAX INCENTIVES

SEC. 201. CREDIT FOR NATURAL GAS AND LIQUEFIED PETROLEUM GAS REFUELING PROPERTY.

(a) INCREASE IN CREDIT PERCENTAGE FOR NATURAL GAS AND LIQUEFIED PETROLEUM GAS REFUELING PROPERTY.—Subsection (e) of section 30C of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

''(7) SPECIAL RULE FOR QUALIFIED NATURAL GAS VEHICLE REFUELING PROPERTY AND QUALIFIED LIQUEFIED PETROLEUM GAS VEHICLE REFUELING PROPERTY.—

''(A) IN GENERAL.—In the case of any qualified natural gas vehicle refueling property and any qualified liquefied petroleum gas vehicle refueling property to which paragraph (6) does not apply—

''(i) subsection (a) shall be applied by substituting '50 percent' for '30 percent',

''(ii) subsection (b)(1) shall be applied by substituting '$50,000' for '$30,000', and

''(iii) subsection (b)(2) shall be applied by substituting '$2,000' for '$1,000'.

''(B) QUALIFIED NATURAL GAS VEHICLE REFUELING PROPERTY.—For purposes of this paragraph, the term 'qualified natural gas vehicle refueling property' has the same meaning as the term 'qualified alternative fuel vehicle refueling property' would have under subsection (c) if only natural gas, compressed natural gas, and liquefied natural gas were treated as clean-burning fuels for purposes of section 179A(d).

''(C) QUALIFIED LIQUEFIED PETROLEUM GAS VEHICLE REFUELING PROPERTY.—For purposes of this paragraph, the term 'qualified liquefied petroleum gas vehicle refueling property' has the same meaning as the term 'qualified alternative fuel vehicle refueling property' would have under subsection (c) if only liquefied petroleum gas were treated as a clean-burning fuel for purposes of section 179A(d).''.

(b) EXTENSION OF CREDIT.—Subsection (g) of section 30C of the Internal Revenue Code of 1986 is amended to read as follows:

''(g) TERMINATION.—This section shall not apply to any property placed in service after December 31, 2014.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after December 31, 2008, in taxable years ending after such date.

SEC. 202. CREDIT FOR PURCHASE OF VEHICLES FUELED BY NATURAL GAS OR LIQUEFIED PETROLEUM GAS.

(a) IN GENERAL.—Subsection (e) of section 30B of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

''(6) HIGHER INCREMENTAL COST LIMITS FOR NATURAL GAS VEHICLES AND LIQUEFIED PETROLEUM GAS VEHICLES.—

''(A) IN GENERAL.—In the case of any eligible natural gas motor vehicle and any eligible liquefied petroleum gas motor vehicle, paragraph (3) shall be applied by multiplying each of the dollar amounts contained in such paragraph by 2.

''(B) ELIGIBLE NATURAL GAS MOTOR VEHICLE.—For purposes of this paragraph, the term 'eligible natural gas motor vehicle' means (except as provided in clause (ii)) a new qualified alternative fuel motor vehicle or aftermarket conversion system the final assembly of which is in the United States and that—

''(i) is only capable of operating on compressed natural gas or liquefied natural gas, or

''(ii) is capable of operating for more than 175 miles on compressed natural gas or liquefied natural gas and is capable of operating on gasoline or diesel fuel.

''(C) ELIGIBLE LIQUEFIED PETROLEUM GAS MOTOR VEHICLE.—For purposes of this paragraph, the term 'eligible liquefied petroleum gas motor vehicle' means (except as provided in clause (ii)) a new qualified alternative fuel motor vehicle or aftermarket conversion system the final assembly of which is in the United States and that—

''(i) is only capable of operating on liquefied petroleum gas, or

''(ii) is capable of operating for more than 175 miles on liquefied petroleum gas and is capable of operating on gasoline or diesel fuel.

''(D) AFTERMARKET CONVERSION SYSTEM.—For purposes of this paragraph, the term 'aftermarket conversion system' means property that converts a vehicle that is not described in this paragraph into an eligible natural gas motor vehicle (for purposes of subparagraph (B)) or an eligible liquefied petroleum gas motor vehicle (for purposes of subparagraph (C)).''.

(b) EXTENSION OF CREDIT FOR NATURAL GAS AND LIQUEFIED PETROLEUM GAS VEHICLES.—Paragraph (4) of section 30B(k) of the Internal Revenue Code of 1986 is amended—

(1) by striking ''and'' at the end of paragraph (3),

(2) by striking the period at the end of paragraph (4) and inserting '', and'',

(3) by striking ''(as described in subsection (e))'' in paragraph (4) and inserting ''(as described in paragraph (4) or (5) of subsection (e))'', and

(4) by adding at the end the following new paragraph:

''(5) in the case of a new qualified alternative fuel vehicle described in subsection (e)(6), December 31, 2014.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to vehicles placed in service after December 31, 2008, in taxable years ending after such date.

By Mr. DODD (for himself, Ms. COLLINS, Mr. REED, Mr. LIEBERMAN, Mr. CARDIN, and Mr. WHITEHOUSE):

S. 1352. A bill to provide for the expansion of Federal efforts concerning the prevention, education, treatment, and research activities related to Lyme and other tick-borne diseases, including the establishment of a Tick-Borne Diseases Advisory Committee; to the Committee on Health, Education, Labor, and Pensions.

Mr. DODD. Mr. President, I rise today to join my fellow New Englander, Senator SUSAN COLLINS of Maine, in introducing the Lyme and Tick-Borne Disease Prevention, Education, and Research Act of 2009.

As families in New England look forward to outdoor fun this summer—and as families around the country look forward to vacationing in New England—they might not be thinking about the risks and dangers associated with hiking, camping, and other outdoor activities.

But every year, tens of thousands of Americans working or playing outdoors are bitten by ticks.

For most, a tick bite is nothing more than a minor annoyance. But approximately 20,000 Americans contract Lyme disease each year, and the numbers are rising. And because Lyme disease is difficult to diagnose, many experts believe the true number of cases each year could be as much as 10 or 12 times the reported number. Worst of all, it is our children who are most at risk.

Lyme disease was first described in my home State of Connecticut, and we still have the unfortunate distinction of being ten times more likely to contract Lyme disease than the rest of the Nation. But the Centers for Disease Control and Prevention has received reports of new cases from 46 States and the District of Columbia. According to some estimates, Lyme disease costs our Nation more than $2 billion in medical costs each year.

Lyme disease can affect every part of the body. Tens of thousands of Americans suffer through pain, severe fatigue, sleep disturbance, and cognitive difficulties, among many other symptoms. Some of these victims are able to lead normal lives, finding ways to cope with the disease. But many more find the disease significantly disrupts their lives, preventing them from everyday experiences that we all take for granted.

The legislation we offer today directs the Secretary of Health and Human Services to establish a Tick-Borne Diseases Advisory Committee at HHS to coordinate efforts and improve communication between the federal government, medical experts, physicians, and the public.

It will improve diagnostic efforts, establish a national clearinghouse for research and reporting, and require that scientific viewpoints on this often-frustrating disease be disseminated in a balanced way.

It contains tools for researchers, physicians, and the public to improve awareness and treatment.

Finally, it requires the Secretary to prepare and submit to Congress an annual report tracking developments related to Lyme disease, its spread, its treatment, and its impact on families in Connecticut and around the country.

Lyme disease is a frustrating puzzle for physicians, a burden on our Nation's health care system, and most importantly, a threat to American families enjoying our beautiful outdoor spaces.

I want to specifically mention and thank the organization from my home State of Connecticut that worked closely with me to develop this legislation, Time for Lyme. The co-presidents and founders of Time for Lyme, Diane Blanchard and Debbie Siciliano, are tireless advocates for the patients struggling with chronic Lyme disease. This is not their job. They are parents whose children suffer from this disease. They work to find time in their busy schedules to make a difference. This is their mission and they give me hope that we can get this done.

I also want to thank my good friend, Senator COLLINS, for her leadership on this issue. I want to thank Senators REED, LIEBERMAN, CARDIN, and WHITEHOUSE for their support for this bill. Whether it is fishing on the Housatonic River or exploring Gillette Castle State Park near my home in East Haddam, Connecticut families enjoy a variety of outdoor activities.

But Lyme disease remains a persistent and dangerous risk for my constituents, for Senator COLLINS's constituents, and for those across the country. With leadership from this body and better coordination from federal agencies, we can more effectively combat this disease, better protect our children and families, and make our outdoor spaces safer places to work and play.

I urge my colleagues to join Senator COLLINS and myself in support of this legislation and thank them kindly for their consideration.

By Mr. LEAHY (for himself and Mr. SANDERS):

S. 1353. A bill to amend title 1 of the Omnibus Crime Control and Safe Streets Act of 1986 to include nonprofit and volunteer ground and air ambulance crew members and first responders for certain benefits; to the Committee on the Judiciary.

Mr. LEAHY. Mr. President, I rise today to introduce legislation that will correct an inequality in the Department of Justice's Public Safety Officers Benefits, PSOB, Program by extending benefits to non-profit EMS providers who die or are disabled in the line of duty. I am pleased to be joined in this effort by Senator SANDERS.

Vermonters were deeply saddened earlier this week when we received word that veteran EMT specialist Dale Long died in a tragic, on-duty accident in Bennington. Dale Long had a superb 25-year career as a Vermont EMT, and I extend our deepest condolences to his family, to the Bennington Rescue Squad, and to the entire Vermont EMT community.

First responders nationwide literally put their lives at risk every day for the people of their communities. They represent the best of our nation's dedicated service to others, and Dale Long was a solid example of that tradition. He was Bennington Rescue Squad's 2008 EMT of the Year, and a 2009 recipient of the American Ambulance Association's Star of Life Award. I had the pleasure of meeting Dale just last month when he visited my office during the Star of Life festivities.

This tragedy highlights a major shortcoming in the current PSOB program, which Congress established over 30 years ago to provide assistance to police, fire and medics who lose their lives or are disabled in the line of duty. The benefit, though, only applies to public safety officers employed by a federal, state, and local government entity. With many communities around the United States choosing to have their emergency medical services provided by non-profit agencies, medics working for non-profit services unfortunately are not eligible for benefits under the PSOB program.

Non-profit public safety officers provide identical services to governmental officers and do so daily in the same dangerous environments. With a renewed appreciation for the important community service of first responders since the national tragedy of September 11, 2001, more people are answering the call to serve their communities. At the same time, more rescue workers are falling through the cracks of the PSOB program.

The Dale Long Emergency Medical Service Provider Protection Act would correct this inequality by extending the PSOB program to cover non-profit EMS officers who provide emergency medical and ground or air ambulance service. These emergency professionals protect and promote the public good of the communities they serve, and we should not unfairly penalize them and their families simply because they work or volunteer for a non-profit organization.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1353

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Dale Long Emergency Medical Service Providers Protection Act''.

SEC. 2. BENEFITS FOR CERTAIN NONPROFIT EMERGENCY MEDICAL SERVICE PROVIDERS.

Section 1204 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796b) is amended—

(1) in paragraph (7), by striking ''public employee member of a rescue squad or ambulance crew'' and inserting ''employee or volunteer member of a rescue squad or ambulance crew (including a ground or air ambulance service) that—

''(A) is a public agency; or

''(B) is (or is a part of) a nonprofit entity serving the public that is officially authorized or licensed—

''(i) to engage in rescue activity or to provide emergency medical services; and

''(ii) to respond to an emergency situation;''; and

(2) in paragraph (9)—

(A) in subparagraph (A), by striking ''as a chaplain'' and all that follows through the semicolon, and inserting ''or as a chaplain;'';

(B) in subparagraph (B)(ii), by striking ''or'' after the semicolon;

(C) in subparagraph (C)(ii), by striking the period and inserting ''; or''; and

(D) by adding at the end the following:

''(D) a member of a rescue squad or ambulance crew who, as authorized or licensed by law and by the applicable agency or entity, is engaging in rescue activity or in the provision of emergency medical services.''.

SEC. 3. EFFECTIVE DATE.

The amendments made by section 2(1) of this Act shall apply only to injuries sustained on or after January 1, 2009.

By Mr. BARRASSO (for himself and Mr. WYDEN):

S. 1355. A bill to amend title XVIII of the Social Security Act to improve access to health care for individuals residing in underserved rural areas and for other purposes; to the Committee on Finance.

Mr. WYDEN. Mr. President, along with my friend, Senator BARRASSO, I am introducing legislation to keep rural America from becoming a health care sacrifice zone. Our legislation, the Rural Health Clinic Patient Access and Improvement Act, will make it more financially attractive for doctors and other providers to treat patients in rural areas. Both Senator BARRASSO and I have heard from the folks back home about how hard it is to get doctors and mid-level practitioners in rural areas. My constituents have had to travel hours to get treatment when they need it. This bill takes major strides to ensure access to health care by building on the successes of the rural health clinic program. When it comes to health care, rural residents should not have to accept second-class status.

As the Senate takes up comprehensive healthcare reform, this Congress must not lose focus on the health needs of folks in rural areas. Too many Oregonians cannot get the kind of affordable and comprehensive coverage or access to care their Members of Congress receive. In addition, many patients in rural Oregon, even those with good health benefits, do not have access to providers or have to travel long distances to get medical care.

Meanwhile, providers lack incentives to go to—or stay in—rural areas. It is a lot more lucrative for them to work in big cities where they can work in state-of-the art facilities and earn top dollar. According to the Oregon State Office of Rural Health, a major obstacle facing Oregon's rural health clinics is the severe shortage of health care providers willing or able to work in a rural area. One out of three Oregon rural health clinics was recruiting in 2008.

That is why Senator BARRASSO and I come here to introduce the Rural Health Clinic Patient Access and Improvement Act. Simply put, our bill would help improve access for patients in rural areas, while increasing reimbursement rates and giving incentives to providers in rural areas.

The Rural Health Clinic Patient Access and Improvement Act increases the all-inclusive Medicare payment rate for rural health clinics by more than 20 percent per visit from an average of $76 to $92. This bill would provide an additional $2 bonus for rural health clinics that participate in a quality improvement program. Quality of care should be a focus for all providers.

The bill will allow for better collaboration between community health centers and rural health clinics. It also creates a 5-state demonstration project to recruit and retain providers in rural communities by subsidizing a portion of the provider's medical liability costs if they practice in a rural health clinic. These reforms will help ensure rural residents have access to the same level of quality care as those in other parts of the country.

This bill builds upon the success of Oregon's 54 rural health clinics that serve 26 out of 36 counties across the state. These rural health clinics help to ensure access to primary care for the underserved elderly and low-income populations. Ninety-eight percent of Oregon's rural health clinics are willing to see Medicare and Medicaid patients as well as patients with no insurance. Not only are they willing to see these patients, but 96 percent are currently accepting new patients. Many rural residents—whether they are uninsured, publically insured or have private insurance—would have nowhere to go to receive primary care without rural health clinics.

When it comes to health care, people want to go to a provider they know and trust. One of the reasons rural health clinics have been so successful is that they have become an integral part of their communities. A great example of this is Gilliam County Medical Center. Gilliam County hosted a succession of short-term physicians placed in the community through the National Health Service Corps. In the 1970s, the community, in conjunction with the State, sought a more permanent, stable health care provider situation. The Oregon legislature appropriated $20,000 as seed money to attract a team of health professionals to the community and the residents of Gilliam County created the South Gilliam Health District to support Gilliam County Medical Center, a certified rural health clinic.

Two physician assistants, David Jones and Dennis Bruneau who were on the faculty at the University of Washington PA program at the time they heard about the opportunity with the clinic were hired. Dave, Dennis, their spouses, who also work at the clinic, and supervising physician Dr. Bruce Carlson created a team that continues to sustain one of the most stable and long-term small rural primary care clinics in the state.

Dr. Carlson visits the clinic one day every 2 weeks to see those patients in need of his services and provide overall medical direction. Otherwise, the clinic is staffed full-time by physician assistants Jones and Bruneau. David's wife is a medical technician who works in the clinic and Dennis' wife serves as the clinic manager. When Dr. Carlson is not in Condon, he has his own medical practice 70 miles away in Hermiston, OR, which is also the location of the nearest hospital to Condon.

Not all rural areas are alike and the rural health clinic program gives these providers the flexibility they need to be the regular source of care of primary care in their communities. Regular access to primary care, as you know, is one of the key tests of whether or not you will receive the preventive health screenings that can mean the difference that could save your life. They allow for health problems to be caught early on so that they can be headed off for just a little money, instead of at later stages, which require costly specialty care that runs up the bill for the patient and the taxpayer.

Oregonians in rural areas have the same right to quality, affordable medical care as those living in urban areas, but they do not have it under our current system. This bill will expand access to health care for folks in rural areas and level the playing field for rural health clinics by giving them the tools they need to attract and retain quality medical providers.

I want to thank Senator BARRASSO and his staff for their hard work in bringing this important bipartisan legislation before the Senate.

I hope my colleagues will join Senator BARRASSO and me, and support this much needed and bipartisan bill.

By Mrs. BOXER (for herself and Mrs. FEINSTEIN):

S. 1356. A bill to amend the National Trails System Act to provide for the study of the Western States Trail; to the Committee on Energy and Natural Resources.

Mrs. BOXER. Mr. President, I rise on behalf of myself and Senator FEINSTEIN to speak on the introduction of the Western States Trail Study Act of 2009. This legislation would provide for a study by the Department of the Interior on the possible designation of the Western States Trail as a National Historic Trail.

The National Trails System Act specifies that to qualify for listing as a National Historic Trail, a trail must be historically significant and must have significant potential for public recreational use or historical interpretation and appreciation. The Western States Trail absolutely meets these criteria.

From the beginning of California's recorded history, the Western States Trail has played an important role in the development of our state and nation. Originally a Native American trail used by the Paiute and Washoe Indians, it later became the most direct link between the gold camps of California and silver mines of Nevada. Professor William Brewer also followed part of this trail in his 1863 expedition as part of State Geologist Josiah Whitney's survey of California.

In 1955, the Western States Trail became the site of the world's first and leading 100-mile trail ride, and in 1974 became the world's first and leading ultramarathon run. These recreational events are of tremendous importance to the local community as well as equestrians and runners throughout the nation. Western States volunteers dedicate hundreds of hours each year to the U.S. Forest Service and California Department of Parks and Recreation to maintain the trail, exemplifying citizen action at its best.

Most of the trail remains in the same state as in the 19th century, passing through scenic wilderness ranging from the Sierra Crest, to magnificent forests and mountain streams, to the grasses and oaks of the Sierra foothills.

The citizen-government partnership that our bill represents continues the tradition of the Western States Run to protect and preserve the Western States Trail, and to ensure that the public has access to its rich history and scenery.

By Mr. ROCKEFELLER:

S. 1357. A bill to amend the Internal Revenue Code of 1986 to provide a tax incentive to individuals teaching in elementary and secondary schools located in rural or high unemployment areas and to individuals who achieve certification from the National Board for Professional Teaching Standards, and for other purposes; to the Committee on Finance.

Mr. ROCKEFELLER. Mr. President, I believe that perhaps the most effective way to improve the education of our children is to invest in their teachers, and make certain that quality teachers have the incentive to stay in the classroom.

Unfortunately, without new investments, our disadvantaged and rural schools may not be able to attract the qualified teachers needed to prepare our children for the 21st Century workplace. Isolated and impoverished, too many West Virginia schools must compete against higher paying, well-funded schools for scarce classroom talent. As a result, they face a shortage of qualified teachers, particularly in math, science and foreign languages.

Today, I am introducing a bill designed to invest in bringing dedicated and qualified teaching professionals to West Virginia and America's disadvantaged and rural schools. This bill will help give students the opportunity to learn and flourish, an opportunity that every child deserves. The Incentives To Educate American Children Act—or I Teach Act—will provide teachers with a refundable tax credit every year they teach in the public schools with the most need. And it will give every public school teacher—regardless of the school they choose—a refundable tax credit for earning their certification by the National Board for Professional Teaching Standards. Together, these two tax credits will give economically depressed areas a better ability to recruit and retain skilled teachers.

There are over 16,000 rural school districts in the U.S., and these schools face real challenges in recruiting and retaining teachers, as well as dealing with other issues related to their rural location. Disadvantaged urban schools must overcome similar difficulties. My I Teach Act will reward teachers willing to work in rural or disadvantaged schools with an annual $1,000 refundable tax credit. Additionally, teachers that obtain certification by the National Board for Professional Teaching Standards will receive an annual $1,000 refundable tax credit. Therefore, teachers who work in rural or disadvantaged schools and get certified will earn a $2000 credit. Schools that desperately need help attracting teachers will get a boost, and children educated in disadvantaged and rural schools will benefit most.

In my state of West Virginia, as in over 30 other states, there is already a state fiscal incentive for teachers who earn National Board certification. My legislation builds upon the West Virginia program. Together, they will create a powerful tax incentive for teachers to remain in the classroom and to use their skills where they are most needed.

Education is among our top national priorities. It is essential for all children and it is vital for our economic and national security. Teachers are a critical component of quality education, and they deserve the incentives to stay in the classroom.

By Mr. LEAHY (for himself and Mr. BOND):

S. 1361. A bill to amend title 10, United States Code, to enhance the national defense through empowerment of the National Guard, enhancement of the functions of the National Guard Bureau, and improvement of Federal-State military coordination in domestic emergency response, and for other purposes; to the Committee on Armed Services.

Mr. LEAHY. Mr. President, today I am pleased to join with Senator BOND in introducing the National Guard Empowerment and State-National Defense Integration Act of 2009. This is a clearly needed piece of legislation that will enable the Nation to tap more of the tremendous experience and expertise that exists within the National Guard.

This legislation—known as Empowerment II—ensures that the Department of Defense takes advantage of the Guard's unique strengths and focuses on the critical mission of domestic operations and military support to civilian authorities. This bill is about focusing attention on the military's response to emergencies at home and fleshing out the structure of that response. Doing that will ensure our National Guard, Reserves and active forces can bring their specialized capabilities to bear, all while safely under the control of democratically elected officials and civilian authorities.

The bill will specifically make the Chief of the National Guard a full member of the Joint Chiefs of Staff, while creating a new three-star deputy to the Bureau Chief to reflect the Bureau Chief's increased responsibilities. Additionally, the 2009 Empowerment Act provides the National Guard Bureau with limited budget authority to be able to acquire specially designed equipment for domestic operations, and it requires the Department of Defense to establish procedures to formalize arrangements to allow National Guard forces to have tactical control over active forces that operate in a domestic setting.

Today Senator BOND and I seek to build on some of the major improvements to the Guard that we, together, made in the Fiscal Year 2008 Defense Authorization Bill. That landmark bill enacted large portions of the first version of the Guard Empowerment Bill which elevated the Chief of the National Guard from three-star general to full General. The goal of all the changes enacted was to begin to ensure that the Guard has a seat at the table in major budget and policy decisions.

We need to pick up where we left off early last year and sharpen the focus on the National Guard's role as a homeland defense and defense support to civilian authorities force. In fact, we are trying, in the realm of domestic operations and military support to civilian authorities, to do exactly what Secretary of Defense Robert Gates is trying to do in the realm of irregular warfare. The Secretary is working to ensure that at least a good portion of the Department of Defense's equipment has utility in counterinsurgency situations. The Secretary has recently testified that he foresees about 10 percent of procured equipment to be dedicated solely for counterinsurgencies. I strongly support the Secretary's initiative.

There also is a need to carve out a small wedge of the defense budget to develop technologies and systems that will help the National Guard, serving in a Title 32 capacity under the control of the Governors. Much of all Guard equipment is considered and should be ''dual use,'' but a sliver should be specially designed and used solely for domestic situations.

The Guard Empowerment bill we are introducing today will also reduce the confusion that sometimes exists when there is a domestic emergency about how National Guard forces, serving under a Governor during an emergency, will interact with active duty forces that serve under the President's command. United States Northern Command in Colorado has unfortunately only exacerbated those concerns through attempts to override Governors and take command-and-control of National Guard assets in a State even though they are in their so-called Title 32 status.

There is nothing in this bill that the National Guard is not already undertaking. The President and the Secretary of Defense look to the Guard Bureau Chief on matters related to defense at home. The Guard works to purchase homeland defense-oriented equipment through the so-called Guard and Reserve Equipment Account, and the Governors already wield active duty personnel during so-called National Security Events. The chain of command arrangements made during last year's political conventions in Minnesota and Colorado are a good example.

The President recognizes that this legislation makes sense. In his ''Blueprint for Change,'' his new Administration's national security plan, President Obama endorsed the idea of making the Guard Bureau Chief a full member of the Joint Chiefs of Staff, a move that Vice President BIDEN also has endorsed. In developing the bill, we worked closely with The National Guard Association of the United States, the Adjutants General Association of the United States and the Enlisted National Guard Association of the United States—organizations that we expect to formally endorse the bill after its introduction.

Everyone recognizes that if there is an emergency like Katrina and our civilian resources at all levels get overwhelmed, the military is going to have to come in to assist. The American people expect no less than a swift, coordinated and effective response. And it is the National Guard that knows how to do this mission right. Providing support to civilian authorities at the State level is what the Guard has done since its inception more than two centuries ago, and it is a mission that the National Guard continues to take seriously.

This legislation solidifies and codifies sensible approaches to improving the Guard's ability to support civil authorities in an emergency. Enactment

of this legislation is the very least we owe our proud citizen soldiers and airmen for their efforts.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1361

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''National Guard Empowerment and State-National Defense Integration Act of 2009''.

SEC. 2. EXPANDED AUTHORITY OF THE CHIEF OF THE NATIONAL GUARD BUREAU.

(a) MEMBERSHIP ON JOINT CHIEFS OF STAFF.—

(1) IN GENERAL.—Section 151(a) of title 10, United States Code, is amended by adding at the end the following new paragraph:

''(7) The Chief of the National Guard Bureau.''.

(2) CONFORMING AMENDMENT.—Section 10502 of such title is amended—

(A) by redesignating subsections (d) and (e) as subsections (e) and (f), respectively; and

(B) by inserting after subsection (c) the following new subsection (d):

''(d) MEMBER OF JOINT CHIEFS OF STAFF.—The Chief of the National Guard Bureau shall perform the duties prescribed for him or her as a member of the Joint Chiefs of Staff under section 151 of this title.''.

(b) ANNUAL REPORT TO CONGRESS ON VALIDATED REQUIREMENTS.—Section 10504 of title 10, United States Code, is amended by adding at the end the following new subsection:

''(c) ANNUAL REPORT ON VALIDATED REQUIREMENTS.—Not later than December 31 each year, the Chief of the National Guard Bureau shall submit to Congress a report on the following:

''(1) The requirements validated under section 10503a(b)(1) of this title during the preceding fiscal year.

''(2) The requirements referred to in paragraph (1) for which funding is to be requested in the next budget for a fiscal year under section 10544 of this title.

''(3) The requirements referred to in paragraph (1) for which funding will not be requested in the next budget for a fiscal year under section 10544 of this title.''.

SEC. 3. EXPANDED FUNCTIONS OF THE NATIONAL GUARD BUREAU.

(a) MILITARY ASSISTANCE FOR CIVIL AUTHORITIES.—Chapter 1011 of title 10, United States Code, is amended by inserting after section 10503 the following new section:

''§ 10503a. Functions of National Guard Bureau: military assistance to civil authorities

''(a) IDENTIFICATION OF ADDITIONAL NECESSARY ASSISTANCE.—The Chief of the National Guard Bureau shall—

''(1) identify gaps between Federal and State military capabilities to prepare for and respond to emergencies; and

''(2) make recommendations to the Secretary of Defense on programs and activities of the National Guard for military assistance to civil authorities to address such gaps.

''(b) SCOPE OF RESPONSIBILITIES.—In meeting the requirements of subsection (a), the Chief of the National Guard Bureau shall, in coordination with the adjutants general of the States, have responsibilities as follows:

''(1) To validate the requirements of the several States and Territories with respect to military assistance to civil authorities.

''(2) To develop doctrine and training requirements relating to the provision of military assistance to civil authorities.

''(3) To acquire equipment, materiel, and other supplies and services for the provision of military assistance to civil authorities.

''(4) To assist the Secretary of Defense in preparing the budget required under section 10544 of this title.

''(5) To administer amounts provided the National Guard for the provision of military assistance to civil authorities.

''(6) To carry out any other responsibility relating to the provision of military assistance to civil authorities as the Secretary of Defense shall specify.

''(c) ASSISTANCE.—The Chairman of the Joint Chiefs of Staff shall assist the Chief of the National Guard Bureau in carrying out activities under this section.

''(d) CONSULTATION.—(1) The Chief of the National Guard Bureau shall carry out activities under this section through and utilizing an integrated planning process established by the Chief of the National Guard Bureau for purposes of this subsection. The planning process may be known as the 'National Guard Bureau Strategic Integrated Planning Process'.

''(2)(A) Under the integrated planning process established under paragraph (1)—

''(i) the planning committee described in subparagraph (B) shall develop and submit to the planning directorate described in subparagraph (C) plans and proposals on such matters under the planning process as the Chief of the National Guard Bureau shall designate for purposes of this subsection; and

''(ii) the planning directorate shall review and make recommendations to the Chief of the National Guard Bureau on the plans and proposals submitted to the planning directorate under clause (i).

''(B) The planning committee described in this subparagraph is a planning committee (to be known as the 'State Strategic Integrated Planning Committee') composed of the adjutant general of each of the several States, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, and the District of Columbia.

''(C) The planning directorate described in this subparagraph is a planning directorate (to be known as the 'Federal Strategic Integrated Planning Directorate') composed of the following (as designated by the Secretary of Defense for purposes of this subsection):

''(i) A major general of the Army National Guard.

''(ii) A major general of the Air National Guard.

''(iii) A major general of the regular Army.

''(iv) A major general of the regular Air Force.

''(v) A major general (other than a major general under clauses (iii) and (iv)) of the United States Northern Command.

''(vi) The Vice Chief of the National Guard Bureau.

''(vii) Seven adjutants general from the planning committee under paragraph (B).''.

(b) BUDGETING FOR TRAINING AND EQUIPMENT AND MILITARY CONSTRUCTION FOR MILITARY ASSISTANCE TO CIVIL AUTHORITIES AND OTHER DOMESTIC MISSIONS.—Chapter 1013 of such title is amended by adding at the end the following new section:

''§ 10544. National Guard training and equipment and military construction: budget for military assistance to civil authorities and for other domestic operations

''(a) IN GENERAL.—The budget justification documents materials submitted to Congress in support of the budget of the President for a fiscal year (as submitted with the budget of the President under section 1105(a) of title 31) shall specify separate amounts for the National Guard for purposes of military assistance to civil authorities and for other domestic operations during such fiscal year as follows:

''(1) Amounts for training and equipment, including critical dual-use equipment.

''(2) Amounts for military construction, including critical dual-use capital construction.

''(b) SCOPE OF FUNDING.—The amounts specified under subsection (a) for a fiscal year shall be sufficient for purposes as follows:

''(1) The development and implementation of doctrine and training requirements applicable to the assistance and operations described in subsection (a) for such fiscal year.

''(2) The acquisition of equipment, materiel, and other supplies and services necessary for the provision of such assistance and such operations in such fiscal year.''.

(c) CLERICAL AMENDMENTS.—

(1) The table of sections at the beginning of chapter 1011 of such title is amended by inserting after the item relating to section 10503 the following new item:

''10503a. Functions of National Guard Bureau: military assistance to civil authorities.''.

(2) The table of sections at the beginning of chapter 1013 of such title is amended by adding at the end the following new item:

''10544. National Guard training and equipment and military construction: budget for military assistance to civil authorities and for other domestic operations.''.

SEC. 4. REESTABLISHMENT OF POSITION OF VICE CHIEF OF THE NATIONAL GUARD BUREAU.

(a) REESTABLISHMENT OF POSITION.—

(1) IN GENERAL.—Chapter 1011 of title 10, United States Code, is amended—

(A) by redesignating section 10505 as section 10505a; and

(B) by inserting after section 10504 the following new section 10505:

''§ 10505. Vice Chief of the National Guard Bureau

''(a) APPOINTMENT.—(1) There is a Vice Chief of the National Guard Bureau, selected by the Secretary of Defense from officers of the Army National Guard of the United States or the Air National Guard of the United States who—

''(A) are recommended for such appointment by their respective Governors or, in the case of the District of Columbia, the commanding general of the District of Columbia National Guard;

''(B) have had at least 10 years of federally recognized service in an active status in the National Guard; and

''(C) are in a grade above the grade of colonel.

''(2) The Chief and Vice Chief of the National Guard Bureau may not both be members of the Army or of the Air Force.

''(3)(A) Except as provided in subparagraph (B), an officer appointed as Vice Chief of the National Guard Bureau serves for a term of four years, but may be removed from office at any time for cause.

''(B) The term of the Vice Chief of the National Guard Bureau shall end within a reasonable time (as determined by the Secretary of Defense) following the appointment of a Chief of the National Guard Bureau who is a member of the same armed force as the Vice Chief.

''(b) DUTIES.—The Vice Chief of the National Guard Bureau performs such duties as may be prescribed by the Chief of the National Guard Bureau.

''(c) GRADE.—The Vice Chief of the National Guard Bureau shall be appointed to serve in the grade of lieutenant general.

''(d) FUNCTIONS AS ACTING CHIEF.—When there is a vacancy in the office of the Chief of the National Guard Bureau or in the absence or disability of the Chief, the Vice Chief of the National Guard Bureau acts as Chief and performs the duties of the Chief until a successor is appointed or the absence of disability ceases.''.

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 1011 of such title is amended by striking the item relating to section 10505 and inserting the following new items:

''10505. Vice Chief of the National Guard Bureau.

''10505a. Director of the Joint Staff of the National Guard Bureau.''.

(b) CONFORMING AMENDMENT.—Section 10506(a)(1) of such title is amended by striking ''and the Director of the Joint Staff of the National Guard Bureau'' and inserting '', the Vice Chief of the National Guard Bureau, and the Director of the Joint Staff of the National Guard Bureau''.

SEC. 5. STATE CONTROL OF FEDERAL MILITARY FORCES ENGAGED IN ACTIVITIES WITHIN THE STATES AND POSSESSIONS.

(a) IN GENERAL.—Part I of subtitle A of title 10, United States Code, is amended by inserting after chapter 15 the following new chapter:

''CHAPTER 16—CONTROL OF THE ARMED FORCES IN ACTIVITIES WITHIN THE STATES AND POSSESSIONS

''Sec.

''341. Tactical control of the armed forces engaged in activities within the States and possessions: emergency response activities.

''§ 341. Tactical control of the armed forces engaged in activities within the States and possessions: emergency response activities

''(a) IN GENERAL.—The Secretary of Defense shall prescribe in regulations policies and procedures to assure that tactical control of the armed forces on active duty within a State or possession is vested in the governor of the State or possession, as the case may be, when such forces are engaged in a domestic operation, including emergency response, within such State or possession.

''(b) DISCHARGE THROUGH JOINT FORCE HEADQUARTERS.—The policies and procedures required under subsection (a) shall provide for the discharge of tactical control by the governor of a State or possession as described in that subsection through the Joint Force Headquarters of the National Guard in the State or possession, as the case may be, acting through the officer of the National Guard in command of the Headquarters.

''(c) POSSESSIONS DEFINED.—Notwithstanding any provision of section 101(a) of this title, in this section, the term 'possessions' means the Commonwealth of Puerto Rico, Guam, and the Virgin Islands.''.

(b) CLERICAL AMENDMENTS.—The tables of chapters at the beginning of title 10, United States Code, and at the beginning of part I of subtitle A of such title, are each amended by inserting after the item relating to chapter 15 the following new item:

''16. Control of the Armed Forces in Activities Within the States and Possessions ..... 341''.

SEC. 6. FISCAL YEAR 2010 FUNDING FOR THE NATIONAL GUARD FOR CERTAIN DOMESTIC ACTIVITIES.

(a) CONTINUITY OF OPERATIONS, CONTINUITY OF GOVERNMENT, AND CONSEQUENCE MANAGEMENT.—

(1) AUTHORIZATION OF APPROPRIATIONS.—There is hereby authorized to be appropriated for fiscal year 2010 for the Department of Defense amounts as follows:

(A) For National Guard Personnel, Army, $11,000,000.

(B) For National Guard Personnel, Air Force, $3,500,000.

(C) For Operation and Maintenance, Army National Guard, $11,000,000.

(2) AVAILABILITY.—The amounts authorized to be appropriated by paragraph (1) shall be available to the Army National Guard and the Air National Guard, as applicable, for costs of personnel in training and operations with respect to continuity of operations, continuity of government, and consequence management in connection with response to terrorist and other attacks on the United States homeland and natural and man-made catastrophes in the United States.

(b) DOMESTIC OPERATIONS.—

(1) AUTHORIZATION OF APPROPRIATIONS.—There is hereby authorized to be appropriated for fiscal year 2010 for the Department of Defense, $300,000,000 for Operation and Maintenance, Defense-wide.

(2) AVAILABILITY.—The amount authorized to be appropriated by paragraph (1) shall be available for the Army National Guard and the Air National Guard for emergency preparedness and response activities of the National Guard while in State status under title 32, United States Code.

(3) TRANSFER.—Amounts under the amount authorized to be appropriated by paragraph (1) shall be available for transfer to accounts for National Guard Personnel, Army, and National Guard Personnel, Air Force, for purposes of the pay and allowances of members of the National Guard in conducting activities described in paragraph (2).

(c) JOINT OPERATIONS COORDINATION CENTERS.—

(1) AUTHORIZATION OF APPROPRIATIONS.—There is hereby authorized to be appropriated for fiscal year 2010 for the Department of Defense amounts as follows:

(A) For National Guard Personnel, Army, $28,000,000.

(B) For National Guard Personnel, Air Force, $7,000,000.

(2) AVAILABILITY.—The amounts authorized to be appropriated by paragraph (1) shall be available to the Army National Guard and the Air National Guard, as applicable, for costs of personnel in continuously staffing a Joint Operations Coordination Center (JOCC) in the Joint Forces Headquarters of the National Guard in each State and Territory for command and control and activation of forces in response to terrorist and other attacks on the United States homeland and natural and man-made catastrophes in the United States.

(d) SUPPLEMENT NOT SUPPLANT.—The amounts authorized to be appropriated by subsections (a), (b), and (c) for the purposes set forth in such subsections are in addition to any other amounts authorized to be appropriated for fiscal year 2010 for the Department of Defense for such purposes.

SEC. 7. ENHANCEMENT OF AUTHORITIES RELATING TO THE UNITED STATES NORTHERN COMMAND AND OTHER COMBATANT COMMANDS.

(a) COMMANDS RESPONSIBLE FOR SUPPORT TO CIVIL AUTHORITIES IN THE UNITED STATES.—The United States Northern Command and the United States Pacific Command shall be the combatant commands of the Armed Forces that are principally responsible for the support of civil authorities in the United States by the Armed Forces.

(b) DISCHARGE OF RESPONSIBILITY.—In discharging the responsibility set forth in subsection (a), the Commander of the United States Northern Command and the Commander of the United States Pacific Command shall each—

(1) in consultation with and acting through the Chief of the National Guard Bureau and the Joint Force Headquarters of the National Guard of the State or States concerned, assist the States in the employment of the National Guard under State control, including National Guard operations conducted in State active duty or under title 32, United States Code; and

(2) facilitate the deployment of the Armed Forces on active duty under title 10, United States Code, as necessary to augment and support the National Guard in its support of civil authorities when National Guard operations are conducted under State control, whether in State active duty or under title 32, United States Code.

(c) MEMORANDUM OF UNDERSTANDING.—

(1) MEMORANDUM REQUIRED.—Not later than 180 days after the date of the enactment of this Act, the Commander of the United States Northern Command, the Commander of the United States Pacific Command, and the Chief of the National Guard Bureau shall, with the approval of the Secretary of Defense, jointly enter into a memorandum of understanding setting forth the operational relationships, and individual roles and responsibilities, during responses to domestic emergencies among the United States Northern Command, the United States Pacific Command, and the National Guard Bureau.

(2) MODIFICATION.—The Commander of the United States Northern Command, the Commander of the United States Pacific Command, and the Chief of the National Guard Bureau may from time to time modify the memorandum of understanding under this subsection to address changes in circumstances and for such other purposes as the Commander of the United States Northern Command, the Commander of the United States Pacific Command, and the Chief of the National Guard Bureau jointly consider appropriate. Each such modification shall be subject to the approval of the Secretary of Defense.

(d) AUTHORITY TO MODIFY ASSIGNMENT OF COMMAND RESPONSIBILITY.—Nothing in this section shall be construed as altering or limiting the power of the President or the Secretary of Defense to modify the Unified Command Plan in order to assign all or part of the responsibility described in subsection (a) to a combatant command other than the United States Northern Command or the United States Pacific Command.

(e) REGULATIONS.—The Secretary of Defense shall prescribe regulations for purposes of aiding the expeditious implementation of the authorities and responsibilities in this section.

SEC. 8. REQUIREMENTS RELATING TO NATIONAL GUARD OFFICERS IN CERTAIN COMMAND POSITIONS.

(a) COMMANDER OF ARMY NORTH COMMAND.—The officer serving in the position of Commander, Army North Command, shall be an officer in the Army National Guard of the United States.

(b) COMMANDER OF AIR FORCE NORTH COMMAND.—The officer serving in the position of Commander, Air Force North Command,

shall be an officer in the Air National Guard of the United States.

(c) SENSE OF CONGRESS.—It is the sense of Congress that, in assigning officers to the command positions specified in subsections (a) and (b), the President should afford a preference in assigning officers in the Army National Guard of the United States or Air National Guard of the United States, as applicable, who have served as the adjutant general of a State.

By Mr. REED (for himself, Ms. KLOBUCHAR, Ms. STABENOW, Mr. WHITEHOUSE, and Mr. LAUTENBERG):

S. 1362. A bill to provide grants to States to ensure that all students in the middle grades are taught an academically rigorous curriculum with effective supports so that students complete the middle grades prepared for success in high school and postsecondary endeavors, to improve State and district policies and programs relating to the academic achievement of students in the middle grades, to develop and implement effective middle grades models for struggling students, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. REED. Mr. President, today I am introducing the Success in the Middle Act, which will help provide new support for raising student achievement in the middle grades. I thank Senators KLOBUCHAR, STABENOW, WHITEHOUSE, and LAUTENBERG for joining me as original cosponsors.

We know that the middle grades are an important and unique transition period for young people, and a critical time in a student's educational and social development. The middle grades are the key to ensuring students remain on track to college and career-readiness. International comparisons indicate that students in the United States do not start out behind other nations in math and science, but they fall significantly behind in these subjects by the end of the middle grades. According to the 2007 National Assessment on Educational Progress, only one-third of eighth grade students in the United States can read at proficiency or above. For math proficiency, this number falls to 31 percent of all American eighth grade students.

There has been significant focus during K–12 reform discussions regarding high school reform, and while there is no doubt that this is an essential component of improving our education system, addressing dropout prevention must begin earlier. It must begin at the middle schools that feed into the thousands of ''dropout factories'' across the country. Dropout factories are high schools in which fewer than 60 percent of students graduate. As one of the leading experts in the area of middle and high school reform, Robert Balfanz, has stated, middle schools are the ''first line of defense'' in identifying at-risk students and then effectively intervening to prevent them from dropping out. Balfanz's research has shown that sixth-graders who failed math or English, attended school less than 80 percent of the time, or received an unsatisfactory behavior grade in a core course had only a 10 to 20 percent chance of graduating on time. Without successful intervention, these behaviors lead students to course failure, non-promotion, and eventually dropping out.

That is why I am reintroducing the Success in the Middle Act. This bill will help strengthen that first line of defense by authorizing grants to states and school districts to improve and turnaround low-performing middle schools. It would concentrate new resources on the middle grades by requiring districts to develop an early warning indicator system for indentifying students at risk of dropping out, and tailoring research-based interventions to get these students back on track to graduating college and career-ready. These interventions would include high-quality professional development for teachers; personal academic plans such as the Individual Learning Plans required in Rhode Island; mentoring and counseling; and extended learning time.

When he was in the Senate, President Obama was the lead sponsor of this legislation. I am pleased that the President has continued to recognize the need for increased investment in middle and high school reform, including earlier this year, his action to encourage states and school districts to spend a significant portion of their American Recovery and Reinvestment Act education funds on improving student achievement in the middle and high school grades.

I was pleased to work with the Rhode Island Middle Level Educators, Rhode Island Association of School Principals, ACT, Alliance for Excellent Education, The College Board, International Reading Association, National Association of Secondary School Principals, National Council of Teachers of English, National Forum to Accelerate Middle Grades Reform, and National Middle Schools Association, and a host of other education organizations on this bill. I urge my colleagues to cosponsor the Success in the Middle Act.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1362

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Success in the Middle Act of 2009''.

SEC. 2. FINDINGS.

In this Act:

(1) International comparisons indicate that students in the United States do not start out behind students of other nations in mathematics and science, but that they fall behind by the end of the middle grades.

(2) Only ⅓ of eighth grade students in the United States, and only 4 percent of such students who are English language learners, can read with proficiency, according to the 2007 National Assessment on Educational Progress (NAEP). The percentage of eighth grade students proficient at reading has not increased since 1998, and the NAEP average reading score for eighth grade students has remained static. In contrast, NAEP reading scores and achievement levels for fourth grade students have increased significantly.

(3) In mathematics, less than ⅓ of students in eighth grade show skills at the NAEP proficient level, and nearly 30 percent score below the basic level. The percentage of eighth grade students scoring above the basic level was 8 points higher in 2007 than in 2000, but for fourth grade students, the percentage increased 17 points, more than double the increase for middle grades students. In eighth grade, the gaps between the average mathematics scores of white and black students and between white and Hispanic students were as wide in 2007 as in 1990.

(4) Fewer than 2 in 10 of the students who graduated from high school in 2005 or 2006 met, as eighth graders, all 4 of ACT's EXPLORE College Readiness Benchmarks, the minimum level of achievement that ACT has shown is necessary if students are to be college- and career-ready upon their high school graduation.

(5) Lack of basic skills at the end of middle grades has serious implications for students. Students who enter high school 2 or more years behind grade level in mathematics and literacy have only a 50 percent chance of progressing on time to the tenth grade; those not progressing are at significant risk of dropping out of high school.

(6) Middle grades students are hopeful about their future, with 93 percent believing that they will complete high school and 92 percent anticipating that they will attend college.

(7) Sixth grade students who do not attend school regularly, who are subjected to frequent disciplinary actions, or who fail mathematics or English have less than a 15 percent chance of graduating high school on time and a 20 percent chance of graduating 1 year late. Without effective interventions and proper supports, these students are at risk of subsequent failure in high school, or of dropping out.

(8) Student transitions from elementary school to the middle grades and to high school are often complicated by poor curriculum alignment, inadequate counseling services, and unsatisfactory sharing of student performance and academic achievement data between grades.

(9) According to ACT, the level of academic achievement that students attain by eighth grade has a larger impact on the students' college and career readiness upon graduation from high school than anything that happens academically in high school.

(10) Middle schools are almost twice as likely as elementary schools to be identified for improvement, corrective action, or restructuring (22 percent as compared to 13 percent) under section 1116 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 63116).

(11) Middle grades improvement strategies should be tailored based on a variety of performance indicators and data, so that educators can create and implement successful

school improvement strategies to address the needs of the middle grades, and so that teachers can provide effective instruction and adequate assistance to meet the needs of at-risk students.

(12) To stem a dropout rate nearly twice that of students without disabilities, students with disabilities in the critical middle grades must receive appropriate academic accommodations and access to assistive technology, high-risk behaviors such as absenteeism and course failure must be monitored, and problem-solving skills with broad application must be taught.

(13) Local educational agencies and State educational agencies often do not have the capacity to provide support for school improvement strategies. Successful models do exist for turning around low-performing middle grades, and Federal support should be provided to increase the capacity to apply promising practices based on evidence from successful schools.

SEC. 3. DEFINITIONS.

In this Act:

(1) ESEA DEFINITIONS.—The terms ''elementary school'', ''local educational agency'', ''secondary school'', and ''State educational agency'' have the meanings given the terms in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801).

(2) ELIGIBLE ENTITY.—The term ''eligible entity'' means a partnership that includes—

(A) not less than 1 eligible local educational agency; and

(B)(i) an institution of higher education;

(ii) an educational service agency (as defined in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801)); or

(iii) a nonprofit organization with demonstrated expertise in high quality middle grades intervention.

(3) ELIGIBLE LOCAL EDUCATIONAL AGENCY.—The term ''eligible local educational agency'' means a local educational agency that serves not less than 1 eligible school.

(4) ELIGIBLE SCHOOL.—The term ''eligible school'' means an elementary or secondary school that contains not less than 2 or more successive grades beginning with grade 5 and ending with grade 8 and for which—

(A) a high proportion of the middle grades students attending such school go on to attend a high school with a graduation rate of less than 65 percent;

(B) more than 25 percent of the students who finish grade 6 at such school, or the earliest middle grade level at the school, exhibit 1 or more of the key risk factors and early risk identification signs, including—

(i) student attendance below 90 percent;

(ii) a failing grade in a mathematics or reading or language arts course;

(iii) 2 failing grades in any courses; and

(iv) out-of-school suspension or other evidence of at-risk behavior; or

(C) more than 50 percent of the middle grades students attending such school do not perform at a proficient level on State student academic assessments required under section 1111(b)(3) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(3)) in mathematics or reading or language arts.

(5) INSTITUTION OF HIGHER EDUCATION.—The term ''institution of higher education'' has the meaning given the term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

(6) MIDDLE GRADES.—The term ''middle grades'' means any of grades 5 through 8.

(7) SCIENTIFICALLY VALID.—The term ''scientifically valid'' means the rationale, design, and interpretation are soundly developed in accordance with accepted principles of scientific research.

(8) SECRETARY.—The term ''Secretary'' means the Secretary of Education.

(9) STATE.—The term ''State'' means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

(10) STUDENT WITH A DISABILITY.—The term ''student with a disability'' means a student who is a child with a disability, as defined in section 602 of the Individuals with Disabilities Education Act (20 U.S.C. 1401).

TITLE I—MIDDLE GRADES IMPROVEMENT

SEC. 101. PURPOSES.

The purposes of this title are to—

(1) improve middle grades student academic achievement and prepare students for rigorous high school course work, postsecondary education, independent living, and employment;

(2) ensure that curricula and student supports for middle grades education align with the curricula and student supports provided for elementary and high school grades;

(3) provide resources to State educational agencies and local educational agencies to collaboratively develop school improvement plans in order to deliver support and technical assistance to schools serving students in the middle grades; and

(4) increase the capacity of States and local educational agencies to develop effective, sustainable, and replicable school improvement programs and models and evidence-based or, when available, scientifically valid student interventions for implementation by schools serving students in the middle grades.

SEC. 102. FORMULA GRANTS TO STATE EDUCATIONAL AGENCIES FOR MIDDLE GRADES IMPROVEMENT.

(a) IN GENERAL.—From amounts appropriated under section 107, the Secretary shall make grants under this title for a fiscal year to each State educational agency for which the Secretary has approved an application under subsection (f) in an amount equal to the allotment determined for such agency under subsection (c) for such fiscal year.

(b) RESERVATIONS.—From the total amount made available to carry out this title for a fiscal year, the Secretary—

(1) shall reserve not more than 1 percent for the Secretary of the Interior (on behalf of the Bureau of Indian Affairs) and the outlying areas for activities carried out in accordance with this section;

(2) shall reserve 1 percent to evaluate the effectiveness of this title in achieving the purposes of this title and ensuring that results are peer-reviewed and widely disseminated, which may include hiring an outside evaluator; and

(3) shall reserve 5 percent for technical assistance and dissemination of best practices in middle grades education to States and local educational agencies.

(c) AMOUNT OF STATE ALLOTMENTS.—

(1) IN GENERAL.—Except as provided in paragraph (2), of the total amount made available to carry out this title for a fiscal year and not reserved under subsection (b), the Secretary shall allot such amount among the States in proportion to the number of children, aged 5 to 17, who reside within the State and are from families with incomes below the poverty line for the most recent fiscal year for which satisfactory data are available, compared to the number of such individuals who reside in all such States for that fiscal year, determined in accordance with section 1124(c)(1)(A) of the Elementary and Secondary Education Act of 1965(20 U.S.C. 6333(c)(1)(A)).

(2) MINIMUM ALLOTMENTS.—No State educational agency shall receive an allotment under this subsection for a fiscal year that is less than ½ of 1 percent of the amount made available to carry out this title for such fiscal year.

(d) SPECIAL RULE.—For any fiscal year for which the funds appropriated to carry out this title are less that $500,000,000, the Secretary is authorized to award grants to State educational agencies, on a competitive basis, rather than as allotments described in this section, to enable such agencies to award subgrants under section 104 on a competitive basis.

(e) REALLOTMENT.—

(1) FAILURE TO APPLY; APPLICATION NOT APPROVED.—If any State educational agency does not apply for an allotment under this title for a fiscal year, or if the application from the State educational agency is not approved, the Secretary shall reallot the amount of the State's allotment to the remaining States in accordance with this section.

(2) UNUSED FUNDS.—The Secretary may reallot any amount of an allotment to a State if the Secretary determines that the State will be unable to use such amount within 2 years of such allotment. Such reallotments shall be made on the same basis as allotments are made under subsection (c).

(f) APPLICATION.—In order to receive a grant under this title, a State educational agency shall submit an application to the Secretary at such time, in such manner, and accompanied by such information as the Secretary may reasonably require, including a State middle grades improvement plan described in section 103(a)(4).

(g) PEER REVIEW AND SELECTION.—The Secretary—

(1) shall establish a peer-review process to assist in the review and approval of proposed State applications;

(2) shall appoint individuals to participate in the peer-review process who are educators and experts in identifying, evaluating, and implementing effective education programs and practices (including the areas of teaching and learning, educational standards and assessments, school improvement, and academic and behavioral supports for middle grades students), which individuals may include recognized exemplary middle grades teachers and middle grades principals who have been recognized at the State or national level for exemplary work or contributions to the field;

(3) shall ensure that States are given the opportunity to receive timely feedback, and to interact with peer-review panels, in person or via electronic communication, on issues that need clarification during the peer-review process;

(4) shall approve a State application submitted under this title not later than 120 days after the date of submission of the application unless the Secretary determines that the application does not meet the requirements of this title;

(5) may not decline to approve a State's application before—

(A) offering the State an opportunity to revise the State's application;

(B) providing the State with technical assistance in order to submit a successful application; and

(C) providing a hearing to the State; and

(6) shall direct the Inspector General of the Department of Education to—

(A) review final determinations reached by the Secretary to approve or deny State applications;

(B) analyze the consistency of the process used by peer-review panels in reviewing and recommending to the Secretary approval or denial of such State applications; and

(C) report the findings of this review and analysis to Congress.

SEC. 103. STATE PLAN; AUTHORIZED ACTIVITIES.

(a) MANDATORY ACTIVITIES.—

(1) IN GENERAL.—A State educational agency that receives a grant under this title shall use the grant funds—

(A) to prepare and implement the needs analysis and middle grades improvement plan, as described in paragraphs (3) and (4), of such agency;

(B) to make subgrants to eligible local educational agencies or eligible entities under section 104; and

(C) to assist eligible local educational agencies and eligible entities, when determined necessary by the State educational agency or at the request of an eligible local educational agency or eligible entity, in designing a comprehensive schoolwide improvement plan and carrying out the activities under section 104.

(2) FUNDS FOR SUBGRANTS.—A State educational agency that receives a grant under this title shall use not less than 80 percent of the grant funds to make subgrants to eligible local educational agencies or eligible entities under section 104.

(3) MIDDLE GRADES NEEDS ANALYSIS.—

(A) IN GENERAL.—A State educational agency that receives a grant under this title shall enter into a contract, or similar formal agreement, to work with entities such as national and regional comprehensive centers (as described in section 203 of the Educational Technical Assistance Act of 2002 (20 U.S.C. 9602)), institutions of higher education, or nonprofit organizations with demonstrated expertise in high-quality middle grades reform, to prepare a plan that analyzes how to strengthen the programs, practices, and policies of the State in supporting students in the middle grades, including the factors, such as local implementation, that influence variation in the effectiveness of such programs, practices, and policies.

(B) PREPARATION OF PLAN.—In preparing the plan under subparagraph (A), the State educational agency shall examine policies and practices of the State, and of local educational agencies within the State, affecting—

(i) middle grades curriculum instruction and assessment;

(ii) education accountability and data systems;

(iii) teacher quality and equitable distribution; and

(iv) interventions that support learning in school.

(4) MIDDLE GRADES IMPROVEMENT PLAN.—

(A) IN GENERAL.—A State educational agency that receives a grant under this title shall develop a middle grades improvement plan that—

(i) shall be a statewide plan to improve student academic achievement in the middle grades, based on the needs analysis described in paragraph (3); and

(ii) describes what students are required to know and do to successfully—

(I) complete the middle grades; and

(II) make the transition to succeed in academically rigorous high school coursework that prepares students for college, independent living, and employment.

(B) PLAN COMPONENTS.—A middle grades improvement plan described in subparagraph (A) shall also describe how the State educational agency will do each of the following:

(i)(I) Ensure that the curricula and assessments for middle grades education are aligned with high school curricula and assessments and prepare students to take challenging high school courses and successfully engage in postsecondary education; and

(II) ensure coordination, where applicable, with the activities carried out through grants for P–16 education alignment under section 6401(c)(1) of the America COMPETES Act (20 U.S.C. 9871(c)(1)).

(ii) Ensure that professional development is provided to school leaders, teachers, and other school personnel in—

(I) addressing the needs of diverse learners, including students with disabilities and English language learners;

(II) using challenging and relevant research-based best practices and curricula; and

(III) using data to inform instruction.

(iii) Identify and disseminate information on effective schools and instructional strategies for middle grades students based on high-quality research.

(iv) Include specific provisions for students most at risk of not graduating from secondary school, including English language learners and students with disabilities.

(v) Provide technical assistance to eligible entities to develop and implement their early warning indicator and intervention systems, as described in section 104(d)(2)(D).

(vi) Define a set of comprehensive school performance indicators that shall be used, in addition to the indicators used to determine adequate yearly progress, as defined in section 1111(b)(2)(C) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)(C)), to evaluate school performance, and guide the school improvement process, such as—

(I) student attendance and absenteeism;

(II) earned on-time promotion rates from grade to grade;

(III) percentage of students failing a mathematics, reading or language arts, or science course, or failing 2 or more of any courses;

(IV) teacher quality and attendance measures;

(V) in-school and out-of-school suspension or other measurable evidence of at-risk behavior; and

(VI) additional indicators proposed by the State educational agency, and approved by the Secretary pursuant to the peer-review process described in section 102(g).

(vii) Ensure that such plan is coordinated with State activities to turn around other schools in need of improvement, including State activities to improve high schools and elementary schools.

(b) PERMISSIBLE ACTIVITIES.—A State educational agency that receives a grant under this title may use the grant funds to—

(1) develop and encourage collaborations among researchers at institutions of higher education, State educational agencies, educational service agencies (as defined in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801)), local educational agencies, and nonprofit organizations with demonstrated expertise in high quality middle grades interventions, to expand the use of effective practices in the middle grades and to improve middle grades education;

(2) support local educational agencies in implementing effective middle grades practices, models, and programs that—

(A) are evidence-based or, when available, scientifically valid; and

(B) lead to improved student academic achievement;

(3) support collaborative communities of middle grades teachers, administrators, and researchers in creating and sustaining informational databases to disseminate results from rigorous research on effective practices and programs for middle grades education; and

(4) increase middle grades student support services, such as school counseling on the transition to high school and planning for entry into postsecondary education and the workforce.

SEC. 104. COMPETITIVE SUBGRANTS TO IMPROVE LOW-PERFORMING MIDDLE GRADES.

(a) IN GENERAL.—A State educational agency that receives a grant under this title shall make competitive subgrants to eligible local educational agencies and eligible entities to enable the eligible local educational agencies and eligible entities to improve low-performing middle grades in schools served by the agencies or entities.

(b) PRIORITIES.—In making subgrants under subsection (a), a State educational agency shall give priority to eligible local educational agencies or eligible entities based on—

(1) the respective populations of children described in section 102(c)(1) served by the eligible local educational agencies participating in the subgrant application process; and

(2) the respective populations of children served by the participating eligible local educational agencies who attend eligible schools.

(c) APPLICATION.—An eligible local educational agency or eligible entity that desires to receive a subgrant under subsection (a) shall submit an application to the State educational agency at such time, in such manner, and accompanied by such information as the State educational agency may reasonably require, including—

(1) a comprehensive schoolwide improvement plan described in subsection (d);

(2) a description of how activities described in such plan will be coordinated with activities specified in plans for schoolwide programs under section 1114 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6314) and school improvement plans required under section 1116(b)(3) of such Act (20 U.S.C. 6316(b)(3)); and

(3) a description of how activities described in such plan will be complementary to, and coordinated with, school improvement activities for elementary schools and high schools in need of improvement that serve the same students within the participating local educational agency.

(d) COMPREHENSIVE SCHOOLWIDE IMPROVEMENT PLAN.—An eligible local educational agency or eligible entity that desires to receive a subgrant under subsection (a) shall develop a comprehensive schoolwide improvement plan for the middle grades that shall—

(1) include the information described in subsection (c)(2);

(2) describe how the eligible local educational agency or eligible entity will—

(A) identify eligible schools;

(B) ensure that funds go to the highest priority eligible schools first, based on the eligible schools' populations of children described in section 102(c)(1);

(C) use funds to improve the academic achievement of all students, including English language learners and students with disabilities, in eligible schools;

(D) implement an early warning indicator and intervention system to alert schools when students begin to exhibit outcomes or behaviors that indicate the student is at increased risk for low academic achievement or is unlikely to progress to secondary school graduation, and to create a system of evidence-based interventions to be used by schools to effectively intervene, by—

(i) identifying and analyzing, such as through the use of longitudinal data of past cohorts of students, the academic and behavioral indicators in the middle grades that most reliably predict dropping out of high school, such as attendance, behavior measures (including suspensions, officer referrals, or conduct marks), academic performance in core courses, and earned on-time promotion from grade-to-grade;

(ii) analyzing student progress and performance on the indicators identified under clause (i) to guide decisionmaking;

(iii) analyzing academic indicators to determine whether students are on track to graduate on time, and developing appropriate evidence-based intervention; and

(iv) identifying or developing a mechanism for regularly collecting and reporting—

(I) student-level data on the indicators identified under clause (i);

(II) student-level progress and performance, as described in clause (ii);

(III) student-level data on the indicators described in clause (iii); and

(IV) information about the impact of interventions on student outcomes and progress;

(E) increase academic rigor and foster student engagement to ensure students are entering high school prepared for success in a rigorous college-ready curriculum, including a description of how such readiness will be measured;

(F) implement a systemic transition plan for all students and encourage collaboration among elementary grades, middle grades, and high school grades; and

(G) provide evidence that the strategies, programs, supports, and instructional practices proposed under the schoolwide improvement plan are new and have not been implemented before by the eligible local educational agency or eligible entity; and

(3) provide evidence of an ongoing commitment to sustain the plan for a period of not less than 4 years.

(e) REVIEW AND SELECTION OF SUBGRANTS.—In making subgrants under subsection (a), the State educational agency shall—

(1) establish a peer-review process to assist in the review and approval of applications under subsection (c); and

(2) appoint individuals to participate in the peer-review process who are educators and experts in identifying, evaluating, and implementing effective education programs and practices, including areas of teaching and learning, educational standards and assessments, school improvement, and academic and behavioral supports for middle grades students, including recognized exemplary middle grades teachers and principals who have been recognized at the State or national level for exemplary work or contributions to the field.

(f) REVISION OF SUBGRANTS.—If a State educational agency, using the peer-review process described in subsection (e), determines that an application for a grant under subsection (a) does not meet the requirements of this title, the State educational agency shall notify the eligible local educational agency or eligible entity of such determination and the reasons for such determination, and offer—

(1) the eligible local educational agency or eligible entity an opportunity to revise and resubmit the application; and

(2) technical assistance to the eligible local educational agency or eligible entity, by the State educational agency or a nonprofit organization with demonstrated expertise in high quality middle grades interventions, to revise the application.

(g) MANDATORY USES OF FUNDS.—An eligible local educational agency or eligible entity that receives a subgrant under subsection (a) shall carry out the following:

(1) Align the curricula for grades kindergarten through 12 for schools within the local educational agency to improve transitions from elementary grades to middle grades to high school grades.

(2) In each eligible school served by the eligible local educational agency receiving or participating in the subgrant:

(A) Align the curricula for all grade levels within eligible schools to improve grade to grade transitions.

(B) Implement evidence-based or, when available, scientifically valid instructional strategies, programs, and learning environments that meet the needs of all students and ensure that school leaders and teachers receive professional development on the use of these strategies.

(C) Ensure that school leaders, teachers, pupil service personnel, and other school staff understand the developmental stages of adolescents in the middle grades and how to deal with those stages appropriately in an educational setting.

(D) Implement organizational practices and school schedules that allow for effective leadership, collaborative staff participation, effective teacher teaming, and parent and community involvement.

(E) Create a more personalized and engaging learning environment for middle grades students by developing a personal academic plan for each student and assigning not less than 1 adult to help monitor student progress.

(F) Provide all students with information and assistance about the requirements for high school graduation, college admission, and career success.

(G) Utilize data from an early warning indicator and intervention system described in subsection (d)(2)(D) to identify struggling students and assist the students as the students transition from elementary school to middle grades to high school.

(H) Implement academic supports and effective and coordinated additional assistance programs to ensure that students have a strong foundation in reading, writing, mathematics, and science skills.

(I) Implement evidence-based or, when available, scientifically valid schoolwide programs and targeted supports to promote positive academic outcomes, such as increased attendance rates and the promotion of physical, personal, and social development.

(J) Develop and use effective formative assessments to inform instruction.

(h) PERMISSIBLE USES OF FUNDS.—An eligible local educational agency or eligible entity that receives a subgrant under subsection (a) may use the subgrant funds to carry out the following:

(1) Implement extended learning opportunities in core academic areas including more instructional time in literacy, mathematics, science, history, and civics in addition to opportunities for language instruction and understanding other cultures and the arts.

(2) Provide evidence-based professional development activities with specific benchmarks to enable teachers and other school staff to appropriately monitor academic and behavioral progress of, and modify curricula and implement accommodations and assistive technology services for, students with disabilities, consistent with the students' individualized education programs under section 614(d) of the Individuals with Disabilities Education Act (20 U.S.C. 1414(d)).

(3) Employ and use instructional coaches, including literacy, mathematics, and English language learner coaches.

(4) Provide professional development for content-area teachers on working effectively with English language learners and students with disabilities, as well as professional development for English as a second language educators, bilingual educators, and special education personnel.

(5) Encourage and facilitate the sharing of data among elementary grades, middle grades, high school grades, and postsecondary educational institutions.

(6) Create collaborative study groups composed of principals or middle grades teachers, or both, among eligible schools within the eligible local educational agency receiving or participating in the subgrant, or between such eligible local educational agency and another local educational agency, with a focus on developing and sharing methods to increase student learning and academic achievement.

(i) PLANNING SUBGRANTS.—

(1) IN GENERAL.—In addition to the subgrants described in subsection (a), a State educational agency may (without regard to the preceding provisions of this section) make planning subgrants, and provide technical assistance, to eligible local educational agencies and eligible entities that have not received a subgrant under subsection (a) to assist the local educational agencies and eligible entities in meeting the requirements of subsections (c) and (d).

(2) AMOUNT AND DURATION.—Each subgrant under this subsection shall be in an amount of not more than $100,000 and shall be for a period of not more than 1 year in duration.

SEC. 105. DURATION OF GRANTS; SUPPLEMENT NOT SUPPLANT.

(a) DURATION OF GRANTS.—

(1) IN GENERAL.—Except as provided in paragraph (2), grants under this title and subgrants under section 104(a) may not exceed 3 years in duration.

(2) RENEWALS.—

(A) IN GENERAL.—Grants and subgrants under this title may be renewed in 2-year increments.

(B) CONDITIONS.—In order to be eligible to have a grant or subgrant renewed under this paragraph, the grant or subgrant recipient shall demonstrate, to the satisfaction of the granting entity, that—

(i) the recipient has complied with the terms of the grant or subgrant, including by undertaking all required activities; and

(ii) during the period of the grant or subgrant, there has been significant progress in—

(I) student academic achievement, as measured by the annual measurable objectives established pursuant to section 1111(b)(2)(C)(v) of the Elementary and Secondary Education Act (20 U.S.C. 6311(b)(2)(C)(v)); and

(II) other key risk factors such as attendance and on-time promotion.

(b) FEDERAL FUNDS TO SUPPLEMENT, NOT SUPPLANT, NON-FEDERAL FUNDS.—

(1) IN GENERAL.—A State educational agency, eligible local educational agency, or eligible entity shall use Federal funds received

under this title only to supplement the funds that would, in the absence of such Federal funds, be made available from non-Federal sources for the education of pupils participating in programs assisted under this title, and not to supplant such funds.

(2) SPECIAL RULE.—Nothing in this title shall be construed to authorize an officer, employee, or contractor of the Federal Government to mandate, direct, limit, or control a State, local educational agency, or school's specific instructional content, academic achievement standards and assessments, curriculum, or program of instruction.

SEC. 106. EVALUATION AND REPORTING.

(a) EVALUATION.—Not later than 180 days after the date of enactment of this Act, and annually thereafter for the period of the grant, each State receiving a grant under this title shall—

(1) conduct an evaluation of the State's progress regarding the impact of the changes made to the policies and practices of the State in accordance with this title, including—

(A) a description of the specific changes made, or in the process of being made, to policies and practices as a result of the grant;

(B) a discussion of any barriers hindering the identified changes in policies and practices, and implementations strategies to overcome such barriers;

(C) evidence of the impact of changes to policies and practices on behavior and actions at the local educational agency and school level; and

(D) evidence of the impact of the changes to State and local policies and practices on improving measurable learning gains by middle grades students;

(2) use the results of the evaluation conducted under paragraph (1) to adjust the policies and practices of the State as necessary to achieve the purposes of this title; and

(3) submit the results of the evaluation to the Secretary.

(b) AVAILABILITY.—The Secretary shall make the results of each State's evaluation under subsection (a) available to other States and local educational agencies.

(c) LOCAL EDUCATIONAL AGENCY REPORTING.—On an annual basis, each eligible local educational agency and eligible entity receiving a subgrant under section 104(a) shall report to the State educational agency and to the public on—

(1) the performance on the school performance indicators (as described in section 103(a)(4)(B)(vi)) for each eligible school served by the eligible local educational agency or eligible entity, in the aggregate and disaggregated by the subgroups described in section 1111(b)(2)(C)(v)(II) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)(C)(v)(II)); and

(2) the use of funds by the eligible local educational agency or eligible entity and each such school.

(d) STATE EDUCATIONAL AGENCY REPORTING.—On an annual basis, each State educational agency receiving grant funds under this title shall report to the Secretary and to the public on—

(1) the performance of eligible schools in the State, based on the school performance indicators described in section 103(a)(4)(B)(vi), in the aggregate and disaggregated by the subgroups described in section 1111(b)(2)(C)(v)(II) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)(C)(v)(II)); and

(2) the use of the funds by each eligible local educational agency in the State and by each eligible school.

(e) REPORT TO CONGRESS.—Every 2 years, the Secretary shall report to the public and to Congress—

(1) a summary of the State reports under subsection (d); and

(2) the use of funds by each State under this title.

SEC. 107. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this title $1,000,000,000 for fiscal year 2010 and such sums as may be necessary for each of the 5 succeeding fiscal years.

TITLE II—RESEARCH RECOMMENDATIONS

SEC. 201. PURPOSE.

The purpose of this title is to facilitate the generation, dissemination, and application of research needed to identify and implement effective practices that lead to continual student learning and high academic achievement in the middle grades.

SEC. 202. RESEARCH RECOMMENDATIONS.

(a) STUDY ON PROMISING PRACTICES.—

(1) IN GENERAL.—Not later than 60 days after the date of enactment of this Act, the Secretary shall enter into a contract with the Center for Education of the National Academies to study and identify promising practices for the improvement of middle grades education.

(2) CONTENT OF STUDY.—The study described in paragraph (1) shall identify promising practices currently being implemented for the improvement of middle grades education. The study shall be conducted in an open and transparent way that provides interim information to the public about criteria being used to identify—

(A) promising practices;

(B) the practices that are being considered; and

(C) the kind of evidence needed to document effectiveness.

(3) REPORT.—The contract entered into pursuant to this subsection shall require that the Center for Education of the National Academies submit to the Secretary, the Committee on Health, Education, Labor, and Pensions of the Senate, and the Committee on Education and Labor of the House of Representatives a final report regarding the study conducted under this subsection not later than 1 year after the date of the commencement of the contract.

(4) PUBLICATION.—The Secretary shall make public and post on the website of the Department of Education the findings of the study conducted under this subsection.

(b) SYNTHESIS STUDY OF EFFECTIVE TEACHING AND LEARNING IN MIDDLE GRADES.—

(1) IN GENERAL.—Not later than 60 days after the date of enactment of this Act, the Secretary shall enter into a contract with the Center for Education of the National Academies to review existing research on middle grades education, and on factors that might lead to increased effectiveness and enhanced innovation in middle grades education.

(2) CONTENT OF STUDY.—The study described in paragraph (1) shall review research on education programs, practices, and policies, as well as research on the cognitive, social, and emotional development of children in the middle grades age range, in order to provide an enriched understanding of the factors that might lead to the development of innovative and effective middle grades programs, practices, and policies. The study shall focus on—

(A) the areas of curriculum, instruction, and assessment (including additional supports for students who are below grade level in reading, writing, mathematics, and science, and the identification of students with disabilities) to better prepare all students for subsequent success in high school, college, and cognitively challenging employment;

(B) the quality of, and supports for, the teacher workforce;

(C) aspects of student behavioral and social development, and of social interactions within schools that affect the learning of academic content;

(D) the ways in which schools and local educational agencies are organized and operated that may be linked to student outcomes;

(E) how development and use of early warning indicator and intervention systems can reduce risk factors for dropping out of school and low academic achievement; and

(F) identification of areas where further research and evaluation may be needed on these topics to further the development of effective middle grades practices.

(3) REPORT.—The contract entered into pursuant to this subsection shall require that the Center for Education of the National Academies submit to the Secretary, the Committee on Health, Education, Labor, and Pensions of the Senate, and the Committee on Education and Labor of the House of Representatives a final report regarding the study conducted under this subsection not later than 2 years after the date of commencement of the contract.

(4) PUBLICATION.—The Secretary shall make public and post on the website of the Department of Education the findings of the study conducted under this subsection.

(c) OTHER ACTIVITIES.—The Secretary shall carry out each of the following:

(1) Create a national clearinghouse, in coordination with entities such as What Works and the Doing What Works Clearinghouses, for research in best practices in the middle grades and in the approaches that successfully take those best practices to scale in schools and local educational agencies.

(2) Create a national middle grades database accessible to educational researchers, practitioners, and policymakers that identifies school, classroom, and system-level factors that facilitate or impede student academic achievement in the middle grades.

(3) Require the Institute of Education Sciences to develop a strand of field-initiated and scientifically valid research designed to enhance performance of schools serving middle grades students, and of middle grades students who are most at risk of educational failure, which may be coordinated with the regional educational laboratories established under section 174 of the Education Sciences Reform Act of 2002 (20 U.S.C. 9564), institutions of higher education, agencies recognized for their research work that has been published in peer-reviewed journals, and organizations that have such regional educational laboratories. Such research shall target specific issues such as—

(A) effective practices for instruction and assessment in mathematics, science, technology, and literacy;

(B) academic interventions for adolescent English language learners;

(C) school improvement programs and strategies for closing the academic achievement gap;

(D) evidence-based or, when available, scientifically valid professional development planning targeted to improve pedagogy and student academic achievement;

(E) the effects of increased learning or extended school time in the middle grades; and

(F) the effects of decreased class size or increased instructional and support staff.

(4) Strengthen the work of the existing national research and development centers under section 133(c) of the Education Sciences Reform Act of 2002 (20 U.S.C. 9533(c)), as of the date of enactment of this Act, by adding an educational research and development center dedicated to addressing—

(A) curricular, instructional, and assessment issues pertinent to the middle grades (such as mathematics, science, technological fluency, the needs of English language learners, and students with disabilities);

(B) comprehensive reforms for low-performing middle grades; and

(C) other topics pertinent to improving the academic achievement of middle grades students.

(5) Provide grants to nonprofit organizations, for-profit organizations, institutions of higher education, and others to partner with State educational agencies and local educational agencies to develop, adapt, or replicate effective models for turning around low-performing middle grades.

SEC. 203. AUTHORIZATION OF APPROPRIATIONS; RESERVATIONS.

(a) AUTHORIZATION.—There are authorized to be appropriated to carry out this title $100,000,000 for fiscal year 2010 and such sums as may be necessary for each of the 5 succeeding fiscal years.

(b) RESERVATIONS.—From the total amount made available to carry out this title, the Secretary shall reserve—

(1) 2.5 percent for the studies described in subsections (a) and (b) of section 202;

(2) 5 percent for the clearinghouse described in section 202(c)(1);

(3) 5 percent for the database described in section 202(c)(2);

(4) 42.5 percent for the activities described in section 202(c)(3);

(5) 15 percent for the activities described in section 202(c)(4); and

(6) 30 percent for the activities described in section 202(c)(5).

By Mr. WYDEN (for himself and Mr. MERKLEY):

S. 1369. A bill to amend the Wild and Scenic Rivers Act to designate segments of the Molalla River in the State of Oregon, as components of the National Wild and Scenic Rivers System, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. WYDEN. Mr. President, today I am introducing a bill to amend the Wild and Scenic Rivers Act to designate segments of the Molalla River as Wild and Scenic. I am pleased to be introducing this legislation with my colleague from Oregon, Senator MERKLEY. This legislation has already been introduced by Representative SCHRADER in the House, who is a champion for protecting the river. The Molalla River Wild and Scenic Rivers Act of 2009 will designate an approximately 15.1-mile segment of the Molalla River, and an approximately 6.2-mile segment of Table Rock Fork Molalla River as a recreational river under the Wild and Scenic Rivers Act.

The Molalla River Wild and Scenic Rivers Act protects a popular Oregon destination that provides abundant recreational activities all of which take place among the abundant wildlife that call this area home. The scenic beauty of the Molalla River provides a backdrop for hiking, mountain biking, camping, and horseback riding, while the waters of the river are a popular destination for fishing, kayaking, and whitewater rafting enthusiasts. My bill would not only preserve this area as a recreation destination, but would also protect the river habitat of the Chinook salmon and Steelhead trout, along with the wildlife habitat surrounding the river, home to the northern spotted owl, the pileated woodpecker, golden and bald eagles, deer, elk, the pacific giant salamander, and many others.

The Molalla River is not only an important habitat for wildlife and a popular northwest recreation destination, but it is also the source of clean drinking water for the towns of Molalla and Canby, Oregon. Protecting the approximately 21.3 miles of the Molalla River will provide the residents of these Oregon towns with the assurance that they will continue to receive clean drinking water, and will provide all the people of the Pacific Northwest and beyond the knowledge that this important natural resource will be preserved for continued enjoyment for years to come.

I want to express my thanks to the Molalla River Alliance—a coalition of more than 45 organizations that recognize that this river is a jewel. Michael Moody, the President of this Alliance, made sure that irrigators, city councilors, the mayor, businesses and environmentalists all came together on this. I look forward to working with Senator MERKLEY, Representative SCHRADER, and the bill's supporters to advance this legislation to the President's desk.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1369

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Molalla River Wild and Scenic Rivers Act''.

SEC. 2. DESIGNATION OF WILD AND SCENIC RIVER SEGMENTS, MOLALLA RIVER, OREGON.

Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)) is amended by adding at the end the following:

''(208) MOLALLA RIVER, OREGON.—

''(A) IN GENERAL.—The following segments in the State of Oregon, to be administered by the Secretary of the Interior as a recreational river:

''(i) MOLALLA RIVER.—The approximately 15.1-mile segment from the southern boundary line of T. 7 S., R. 4 E., sec. 19, downstream to the edge of the Bureau of Land Management boundary in T. 6 S., R. 3 E., sec. 7.

''(ii) TABLE ROCK FORK MOLALLA RIVER.—The approximately 6.2-mile segment from the easternmost Bureau of Land Management boundary line in the NE¼ sec. 4, T. 7 S., R. 4 E., downstream to the confluence with the Molalla River.

''(B) WITHDRAWAL.—Subject to valid existing rights, the Federal land within the boundaries of the river segments designated by subparagraph (A) is withdrawn from all forms of—

''(i) entry, appropriation, or disposal under the public land laws;

''(ii) location, entry, and patent under the mining laws; and

''(iii) disposition under all laws relating to mineral and geothermal leasing or mineral materials.

''(C) EFFECT OF DESIGNATION.—

''(i) IN GENERAL.—The designation of the river segments under this paragraph shall not affect valid existing rights (including rights-of-way and easements) in, through, and to the land designated as part of the Wild and Scenic River System under this paragraph.

''(ii) PRIVATE LAND.— Nothing in this paragraph requires management of private land within the basins of the river segments designated under this paragraph in a manner different than that required under State law, including Chapter 527 of the Oregon Revised Statutes.''.

By Mr. NELSON, of Florida (for himself, Mr. ENSIGN, and Mr. MARTINEZ):

S. 1371. A bill to amend the Internal Revenue Code of 1986 to provide for clean renewable water supply bonds; to the Committee on Finance.

Mr. NELSON of Florida. Mr. President, I rise today to introduce, with my colleagues Senators ENSIGN and MARTINEZ, the Clean Renewable Water Supply Bond Act of 2009.

While many of us do not think twice when we turn on the faucet, State and local authorities anticipate widespread water shortages in the near future, and the consequences may be severe, if not catastrophic. Rising demand and dwindling sources of fresh water raise serious questions about our ability to ensure every community has access to a clean, safe, and affordable water supply. The U.S. population has grown more than 50 percent in the last 30 years. At the same time, the amount of water used by each of us has tripled. In many States, particularly fast-growing States, water consumption nears or exceeds the renewable water supply.

Several parts of the country have experienced drought or near-drought conditions requiring authorities to impose water user strictions. According to a comprehensive Government Accountability Office study, even under normal conditions, 36 States expect water shortages by 2013. Compounding the problem, the Environmental Protection Agency estimates a shortfall of $224 billion in funding for water projects over the next 20 years.

Water shortages also have implications for the environment. The Everglades is a prime example. Over the years, diminished flows into the Everglades have reduced the ecosystem to

half its original size. As a result of less water, the Everglades experienced a 90 percent reduction in the population of wading birds. The effects of climate change—including salt water intrusion and higher sea levels—mean our recent experiences will only intensify over the next couple decades.

There is a growing consensus on the need for new investments in water supply and treatment projects. Advanced technologies offer extraordinary promise and can provide new sources of clean water, but the cost of the initial capital investment is often prohibitive. States are primarily responsible for managing the development, allocation, and use of freshwater supplies. A single advanced water project can cost as much as $400 million, an amount difficult to finance with conventional tax-exempt bonds, which require principal and interest payments by the issuer.

The bipartisan legislation we are introducing today would authorize public water agencies at the State and local level to issue tax credit bonds as a financing vehicle for innovative new water supply technologies. The legislation would create a new category of Clean Renewable Water Supply Bonds, to finance innovative projects such as water recycling, desalination, and groundwater contamination clean-up. Tax credit bonds such as CREWS provide a deeper and more efficient subsidy than tax-exempt bonds. The Federal Government provides a tax credit to the bondholder in lieu of an interest payment. As a result, a public agency financing a $100 million project with CREWS would save an estimated $62 million in interest payments over the life of the bond. The issuer remains responsible for repayment of the principal. The bonds would be issued by public agencies in the same way that they issue conventional tax-exempt bonds.

A project would not be eligible for CREWS unless the issuer has received all Federal and State regulatory approvals necessary to construct the project. Qualifying projects must be designed to comply with regulations that minimize negative environmental impacts. In order to limit the revenue loss to $1 billion over ten years, the bill caps the amount of annual CREWS bonding authority.

Tax credit bonds are a proven and effective financing mechanism. Congress has authorized the issuance of tax credit bonds for the construction of inner city schools, renewable energy projects, energy conservation measures, forestry conservation programs, and post-Katrina and Rita reconstruction. According to an analysis prepared for the New Water Supply Coalition, an investment of $6.2 billion in construction for desalination, recycling and groundwater recovery would generate a national economic impact of $19.5 billion and approximately 143,000 jobs. Most importantly, if enacted and fully funded, the Coalition projects that over 1.8 billion gallons of water per day would be created by the new investment resulting from the Clean Renewable Water Supply Bond Act—enough new water to meet the needs of over four million families of four.

Addressing the challenges of our growing water needs will require a concerted effort that involves all levels of government—Federal, State, and local. The Clean Renewable Water Supply Bond Act would create an effective tool for the shared Federal-State financing of advanced, innovative clean water supply projects. I encourage my colleagues to support the legislation.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1371

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Clean Renewable Water Supply Bond Act of 2009''.

SEC. 2. CLEAN RENEWABLE WATER SUPPLY BONDS.

(a) IN GENERAL.—Subpart I of Part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new section:

''SEC. 54G. CLEAN RENEWABLE WATER SUPPLY BONDS.

''(a) CLEAN RENEWABLE WATER SUPPLY BONDS.—For purposes of this subpart, the term 'clean renewable water supply bond' means any bond issued as part of an issue if—

''(1) 100 percent of the available project proceeds of such issue are to be used for capital expenditures incurred by qualified borrowers for 1 or more qualified projects,

''(2) the bond is issued by a qualified issuer,

''(3) the issuer designates such bond for purposes of this section, and

''(4) in the case of a bond issued by a qualified issuer before 2019, the bond is issued—

''(A) pursuant to an allocation by the Secretary to such issuer of a portion of the national clean renewable water supply bond limitation under subsection (b), and

''(B) not later than 6 months after the date that such qualified issuer receives an allocation under subsection (b).

''Any allocation under subsection (b) not used within the 6-month period described in paragraph (4)(B) shall be applied to increase the national clean renewable water supply bond limitation for the next succeeding application period under subsection (b)(2)(B).

''(b) NATIONAL LIMITATION ON AMOUNT OF BONDS DESIGNATED.—

''(1) IN GENERAL.—There is a national clean renewable water supply bond limitation for each calendar year before 2019. Such limitation is—

''(A) $0 for 2009,

''(B) $100,000,000 for 2010,

''(C) $150,000,000 for 2011,

''(D) $200,000,000 for 2012,

''(E) $250,000,000 for 2013,

''(F) $500,000,000 for 2014,

''(G) $750,000,000 for 2015,

''(H) $1,000,000,000 for 2016,

''(I) $1,500,000,000 for 2017, and

''(J) $1,750,000,000 for 2018.

''(2) ALLOCATION OF LIMITATION.—

''(A) IN GENERAL.—The limitation under paragraph (1) shall be allocated by the Secretary among qualified projects as provided in this paragraph.

''(B) METHOD OF ALLOCATION.—For each calendar year after 2009 for which there is a national clean renewable water supply bond limitation, the Secretary shall publish a notice soliciting applications by qualified issuers for allocations of such limitation to qualified projects. Such notice shall specify a 3-month application period in the calendar year during which the Secretary will accept such applications. Within 30 days after the end of such application period, and subject to the requirements of subparagraph (C), the Secretary shall allocate such limitation to qualified projects on a first-come, first-served basis, based on the order in which such applications are received from qualified issuers.

''(C) ALLOCATION REQUIREMENTS.—

''(i) CERTIFICATIONS REGARDING REGULATORY APPROVALS.—No portion of the national clean renewable water supply bond limitation shall be allocated to a qualified project unless the qualified issuer has certified in its application for such allocation that as of the date of such application the qualified issuer or qualified borrower has received all Federal and State regulatory approvals necessary to construct the qualified project.

''(ii) RESTRICTION ON ALLOCATIONS TO LARGE PROJECTS OR TO INDIVIDUAL PROJECTS.—

''(I) IN GENERAL.—Except as provided in subclause (III), for any calendar year the Secretary shall not allocate more than 60 percent of the national clean renewable water supply bond limitation to 1 or more large projects, more than 18 percent of such limitation to any single project that is a large project, or more than 12 percent of such limitation to any single project that is not a large project.

''(II) DEFINITION OF LARGE PROJECT.—For purposes of subclause (I), the term 'large project' means a qualified project that is designed to deliver more than 10,000,000 gallons of water per day.

''(III) EXCEPTION TO RESTRICTION.—Subclause (I) shall not apply to the extent its application would cause any portion of the national clean renewable water supply bond limitation for the calendar year to remain unallocated, based on applications for allocations of such limitation received by the Secretary during the application period referred to in subparagraph (B).

''(3) CARRYOVER OF UNUSED LIMITATION.—If the clean renewable water supply bond limitation for any calendar year exceeds the aggregate amount allocated under paragraph (2) for such year, such limitation for the succeeding calendar year shall be increased by the amount of such excess.

''(c) MATURITY LIMITATION.—

''(1) IN GENERAL.—A bond shall not be treated as a clean renewable water supply bond if the maturity of such bond exceeds 20 years.

''(2) COORDINATION WITH SECTION 54A.—The maturity limitation in section 54A(d)(5) shall not apply to any clean renewable water supply bond.

''(d) REFINANCING RULES.—For purposes of paragraph (a)(1), a qualified project may be refinanced with proceeds of a clean renewable water supply bond only if the indebtedness being refinanced (including any obligation directly or indirectly refinanced by such

indebtedness) was originally incurred by a qualified borrower after the date of the enactment of this section.

''(e) DEFINITIONS.—For purposes of this section—

''(1) GOVERNMENTAL BODY.—The term 'governmental body' means any State or Indian tribal government, or any political subdivision thereof.

''(2) LOCAL WATER COMPANY.—The term 'local water company' means any entity responsible for providing water service to the general public (including electric utility, industrial, agricultural, commercial, or residential users) pursuant to State or tribal law.

''(3) QUALIFIED BORROWER.—The term 'qualified borrower' means a governmental body or a local water company.

''(4) QUALIFIED DESALINATION FACILITY.—The term 'qualified desalination facility' means any facility that is used to produce new water supplies by desalinating seawater, groundwater, or surface water if the facility's source water includes chlorides or total dissolved solids that, either continuously or seasonally, exceed maximum permitted levels for primary or secondary drinking water under Federal or State law (as in effect on the date of issuance of the issue).

''(5) QUALIFIED GROUNDWATER REMEDIATION FACILITY.—The term 'qualified groundwater remediation facility' means any facility that is used to reclaim contaminated or naturally impaired groundwater for direct delivery for potable use if the facility's source water includes constituents that exceed maximum contaminant levels regulated under the Safe Drinking Water Act (as in effect on the date of the enactment of this section).

''(6) QUALIFIED ISSUER.—The term 'qualified issuer' means—

''(A) a governmental body, or

''(B) in the case of a State or political subdivision thereof (as defined for purposes of section 103), any entity qualified to issue tax-exempt bonds under section 103 on behalf of such State or political subdivision.

''(7) QUALIFIED PROJECT.—

''(A) IN GENERAL.—The term 'qualified project' means any facility owned by a qualified borrower which is a—

''(i) qualified desalination facility,

''(ii) qualified recycled water facility,

''(iii) qualified groundwater remediation facility, or

''(iv) facility that is functionally related or subordinate to a facility described in clause (i), (ii), or (iii).

''(B) ENVIRONMENTAL IMPACT.—A project shall not be treated as a qualified project under subparagraph (A) unless such project is designed to comply with regulations issued under subsection (f) relating to the minimization of the environmental impact of the project.

''(8) QUALIFIED RECYCLED WATER FACILITY.—

''(A) IN GENERAL.—The term 'qualified recycled water facility' means any wastewater treatment or distribution facility which—

''(i) exceeds the requirements for the treatment and disposal of wastewater under the Clean Water Act and any other Federal or State water pollution control standards for the discharge and disposal of wastewater to surface water, land, or groundwater (as such requirements and standards are in effect on the date of issuance of the issue), and

''(ii) except as provided in subparagraph (B), is used to reclaim wastewater produced by the general public (including electric utility, industrial, agricultural, commercial, or residential users) to the extent such reclaimed wastewater is used for a beneficial use that the issuer reasonably expects as of the date of issuance of the issue otherwise would have been satisfied with potable water supplies.

''(B) IMPERMISSIBLE USES.—Reclaimed wastewater is not used for a use described in subparagraph (A)(ii) to the extent such reclaimed wastewater is—

''(i) discharged into a waterway or used to meet waterway discharge permit requirements and not used to supplement potable water supplies,

''(ii) used to restore habitat,

''(iii) used to provide once-through cooling for an electric generation facility, or

''(iv) intentionally introduced into the groundwater and not used to supplement potable water supplies.

''(f) REGULATIONS.—The Secretary shall prescribe such regulations as are necessary to carry out the purposes of this section, including regulations promulgated in consultation with the Administrator of the Environmental Protection Agency to ensure the environmental impact of qualified facilities is minimized.''.

(b) CONFORMING AMENDMENTS.—

(1) Paragraph (1) of section 54A(d) of the Internal Revenue Code of 1986 is amended by striking ''or'' at the end of subparagraph (D), by inserting ''or'' at the end of subparagraph (E), and by inserting after subparagraph (E) the following new subparagraph:

''(F) a clean renewable water supply bond,''.

(2) Subparagraph (C) of section 54A(d)(2) of such Code is amended by striking ''and'' at the end of clause (iv), by striking the period at the end of clause (v) and inserting '', and'', and by adding at the end the following new clause:

''(vi) in the case of a clean renewable water supply bond, a purpose specified in section 54G(a)(1).''.

(3) The table of sections for subpart I of part IV of subchapter A of chapter 1 of such Code is amended by adding at the end the following new item:

''Sec. 54G. Clean renewable water supply bonds.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to obligations issued after December 31, 2008.

By Mr. LEAHY (for himself, Mr. COCHRAN, and Mr. DODD):

S. 1372. A bill to provide a vehicle maintenance building to house the Smithsonian Institution's Vehicle Maintenance Branch at the Suitland Collections Center in Suitland, Maryland; to the Committee on Rules and Administration.

Mr. LEAHY. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1372

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. VEHICLE MAINTENANCE BUILDING.

The Board of Regents of the Smithsonian Institution is authorized to plan, design, and construct a vehicle maintenance building at its Vehicle Maintenance Branch in Suitland, Maryland, to house, maintain, and repair Smithsonian vehicles and transportation equipment.

SEC. 2. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated $4,000,000 for fiscal year 2010 for the purposes described in section 1.

By Mr. LIEBERMAN (for himself and Mr. CORNYN):

S. 1373. A bill to provide for Federal agencies to develop public access policies relating to research conducted by employees of that agency; or from funds administered by that agency to the Committee on Homeland Security and Governmental Affairs.

Mr. CORNYN. Mr. President, I rise to introduce the Federal Research Public Access Act. I am very pleased to be joined again by my good friend and colleague, Senator JOE LIEBERMAN, who has remained dedicated to seeing this important legislation passed. This bipartisan bill is the same legislation we introduced in the 109th Congress. The purpose of this legislation is to ensure American taxpayers' dollars are spent wisely, which is even more important now in this time of fiscal tension.

To put things in perspective, the Federal Government spends upwards of $55 billion on investments for basic and applied research every year. There are approximately 11 departments/agencies that are the recipients of these investments, including: the National Institutes of Health, National Science Foundation, NASA, the Department of Energy, the Department of Defense, and the Department of Agriculture. These departments/agencies then distribute the taxpayers' money to fund research which is typically conducted by outside researchers working for universities, health care systems, and other groups.

While this research is undoubtedly necessary and is beneficial to America, it remains the case that not all Americans are capable of experiencing these benefits firsthand. Usually the results of the researchers are published in academic journals. Despite the fact that the research was paid for by Americans' tax dollars, most citizens are unable to attain timely access to the wealth of information that the research provides.

Some Federal agencies, most notably the NIH, have recognized this lack of availability and have proceeded to take positive steps in the right direction by requiring that those articles based on government-funded research be easily accessible to the public in a timely manner. I am proud to report that the NIH's public access policy has been a success over the past few years. By the NIH implementing a groundbreaking public access policy, there has been strong progress in making the NIH's federally funded research available to the public, and has helped to energize this debate.

Although this has surely been an encouraging and important step forward, Senator LIEBERMAN and I believe there is more that can and must be done, as

this is just a small part of the research funded by the Federal Government.

With that in mind, Senator LIEBERMAN and I find it necessary to reintroduce the Federal Research Public Access Act that will build on and refine the work done by the NIH and require that the Federal Government's leading underwriters of research adopt meaningful public access policies. Our legislation provides a simple and practical solution to giving the public access to the research it funds.

Our bill will ask all Federal departments and agencies that invest $100 million or more annually in research to develop a public access policy. Our goal is to have the results of all government-funded research to be disseminated and made available to the largest possible audience. By speeding access to this research, we can help promote the advancement of science, accelerate the pace of new discoveries and innovations, and improve the lives and welfare of people at home and abroad.

Each policy that these departments and agencies develop will require that articles resulting from federal funding must be presented in some publicly accessible archive within six months of publication. In doing so, the American taxpayers will have guaranteed access to the latest research, ensuring that they do not have to pay for the same research twice—first to conduct it and then again to view the results.

This simple legislation will provide our government with an opportunity to better leverage our investment in research and in turn ensure a greater return on that investment. All Americans stand to benefit from this bill, including patients diagnosed with a disease who will have the ability to use the Internet to read the latest articles in their entirety concerning their prognosis, students who will be able to find full abundant research as they further their education, or researchers who will have their findings more broadly evaluated which will lead to further discovery and innovation.

While a comprehensive competitiveness agenda is still a work-in-progress, this legislation is good step forward. Providing public access to cutting-edge scientific information is one way we can encourage public interest in these fields and help accelerate the pace of discovery and innovation. In promoting this legislation, I hope to guarantee that students, researchers, and every American can access the published results of the research they funded.

By Mr. ROCKEFELLER:

S. 1377. A bill provide for an automatic increase in the federal matching rate for the Medicaid program during periods of national economic downturn to help States cope with increases in Medicaid costs; to the Committee on Finance.

Mr. ROCKEFELLER. Mr. President, I rise today to introduce legislation that will guarantee that Medicaid remains available as a critical safety-net for working families in the event of another economic downturn. Medicaid is consistently the first program slated for cuts during a State budget crisis. My legislation would establish an automatic trigger for a temporary FMAP increase so that state Medicaid assistance becomes available in a timely and targeted manner during significant economic challenges.

State cutbacks during the 2001–2003 recession eliminated public health coverage for more than one million Americans. According to the Kaiser Commission on Medicaid and the Uninsured, between fiscal years 2002 and 2005, the loss of revenue led all 50 States to reduce Medicaid provider payment rates and implement prescription drug cost controls, 38 States to reduce Medicaid eligibility and 34 States to reduce benefits. Many more Americans would have lost coverage if Congress had not provided states with $20 billion in Federal aid in 2003.

Now, once again, the country is facing economic challenges unlike anything else we have faced since the Great Depression. Fortunately, the American Recovery and Reinvestment Act, ARRA, included $87 billion in Federal Medicaid relief for States. It is estimated that through this temporary FMAP increase, my State of West Virginia will receive nearly $450 million in Federal funding over the next 2 years to help meet the existing and growing enrollment needs in Medicaid. This temporary FMAP increase will protect the health care coverage of nearly 400,000 West Virginians, and approximately 58 million Americans, as this country works to pull itself out of the current economic recession.

After the last economic downturn, I joined a bipartisan group of my colleagues in requesting that the Government Accountability Office, GAO, study and report on options to protect Medicaid during future recessions. In response to this request, the GAO issued a report GAO–07–97, entitled Medicaid: Strategies to Help States Address Increased Expenditures during Economic Downturn and developed a State and local government model that can simulate the fiscal outcomes for this sector in the aggregate for several decades into the future.

The legislation I am introducing today is based on the findings of this GAO study. As we have seen in the past two recessions, waiting for Congress to act to provide necessary Federal Medicaid relief results in harmful delays in families getting the assistance they need. I believe that there should be an automatic economic trigger for State fiscal relief—independent of Congressional intervention—during future recessions. My legislation would create such a trigger for a temporary FMAP increase.

State fiscal relief would become available when the average unemployment rate has increased by at least 10 percent in at least 23 States. This type of automatic trigger would provide states with the timely, targeted, and temporary Federal Medicaid assistance that they need in the face of a significant economic downturn. More importantly, it would help Americans maintain access to health care in tough times.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1377

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTOMATIC INCREASE IN THE FEDERAL MEDICAL ASSISTANCE PERCENTAGE DURING PERIODS OF NATIONAL ECONOMIC DOWNTURN.

(a) NATIONAL ECONOMIC DOWNTURN ASSISTANCE FMAP.—

(1) IN GENERAL.—Section 1905 of the Social Security Act (42 U.S.C. 1396d) is amended—

(A) in subsection (b), in the first sentence—

(i) by striking ''and (4)'' and inserting ''(4)''; and

(ii) by inserting ''and (5) with respect to each fiscal year quarter other than the first quarter of a national economic downturn assistance period described in subsection (y)(1), the Federal medical assistance percentage for any State described in subsection (y)(2) shall be equal to the national economic downturn assistance FMAP determined for the State for the quarter under subsection (y)(3)'' before the period; and

(B) by adding at the end the following:

''(y) NATIONAL ECONOMIC DOWNTURN ASSISTANCE FMAP.—For purposes of clause (5) of the first sentence of subsection (b):

''(1) NATIONAL ECONOMIC DOWNTURN ASSISTANCE PERIOD.—A national economic downturn assistance period described in this paragraph—

''(A) begins with the first fiscal year quarter for which the Secretary determines that for at least 23 States, the rolling average unemployment rate for that quarter has increased by at least 10 percent over the corresponding quarter for the most recent preceding 12-month period for which data are available (in this subsection referred to as the 'trigger quarter'); and

''(B) ends with the first succeeding fiscal year quarter for which the Secretary determines that less than 23 States have a rolling average unemployment rate for that quarter with an increase of at least 10 percent over the corresponding quarter for the most recent preceding 12-month period for which data are available.

''(2) ELIGIBLE STATE.—A State described in this paragraph is a State for which the Secretary determines that the rolling average unemployment rate for the State for any quarter occurring during a national economic downturn assistance period described in paragraph (1) has increased over the corresponding quarter for the most recent preceding 12-month period for which data are available.

''(3) DETERMINATION OF NATIONAL ECONOMIC DOWNTURN ASSISTANCE FMAP.—

''(A) IN GENERAL.—The national economic downturn assistance FMAP for a fiscal year

quarter determined with respect to a State under this paragraph is equal to the Federal medical assistance percentage for the State for that quarter increased by the number of percentage points determined by—

''(i) dividing—

''(I) the Medicaid additional unemployed increased cost amount determined under subparagraph (B) for the quarter; by

''(II) the State's total Medicaid quarterly spending amount determined under subparagraph (C) for the quarter; and

''(ii) multiplying the quotient determined under clause (i) by 100.

''(B) MEDICAID ADDITIONAL UNEMPLOYED INCREASED COST AMOUNT.—For purposes of subparagraph (A)(i)(I), the Medicaid additional unemployed increased cost amount determined under this subparagraph with respect to a State and a quarter is the product of the following:

''(i) STATE INCREASE IN ROLLING AVERAGE NUMBER OF UNEMPLOYED INDIVIDUALS FROM THE BASE QUARTER OF UNEMPLOYMENT.—

''(I) IN GENERAL.—The amount determined by subtracting the rolling average number of unemployed individuals in the State for the base unemployment quarter for the State determined under subclause (II) from the rolling average number of unemployed individuals in the State for the quarter.

''(II) BASE UNEMPLOYMENT QUARTER DEFINED.—

''(aa) IN GENERAL.—For purposes of subclause (I), except as provided in item (bb), the base quarter for a State is the quarter with the lowest rolling average number of unemployed individuals in the State in the 12-month period preceding the trigger quarter for a national economic downturn assistance period described in paragraph (1).

''(bb) EXCEPTION.—If the rolling average number of unemployed individuals in a State for a quarter occurring during a national economic downturn assistance period described in paragraph (1) is less than the rolling average number of unemployed individuals in the State for the base quarter determined under item (aa), that quarter shall be treated as the base quarter for the State for such national economic downturn assistance period.

''(ii) NATIONAL AVERAGE AMOUNT OF ADDITIONAL FEDERAL MEDICAID SPENDING PER ADDITIONAL UNEMPLOYED INDIVIDUAL.—In the case of—

''(I) a calendar quarter occurring in fiscal year 2012, $350; and

''(II) a calendar quarter occurring in any succeeding fiscal year, the amount applicable under this clause for calendar quarters occurring during the preceding fiscal year, increased by the annual percentage increase in the medical care component of the consumer price index for all urban consumers (U.S. city average), as rounded up in an appropriate manner.

''(iii) STATE NONDISABLED, NONELDERLY ADULTS AND CHILDREN MEDICAID SPENDING INDEX.—

''(I) IN GENERAL.—With respect to a State, the quotient (not to exceed 1.00) of—

''(aa) the State expenditure per person in poverty amount determined under subclause (II); divided by—

''(bb) the National expenditure per person in poverty amount determined under subclause (III).

''(II) STATE EXPENDITURE PER PERSON IN POVERTY AMOUNT.—For purposes of subclause (I)(aa), the State expenditure per person in poverty amount is the quotient of—

''(aa) the total amount of annual expenditures by the State for providing medical assistance under the State plan to nondisabled, nonelderly adults and children; divided by

''(bb) the total number of nonelderly adults and children in poverty who reside in the State, as determined under paragraph (4)(A).

''(III) NATIONAL EXPENDITURE PER PERSON IN POVERTY AMOUNT.—For purposes of subclause (I)(bb), the National expenditure per person in poverty amount is the quotient of—

''(aa) the sum of the total amounts determined under subclause (II)(aa) for all States; divided by

''(bb) the sum of the total amounts determined under subclause (II)(bb) for all States.

''(C) STATE'S TOTAL MEDICAID QUARTERLY SPENDING AMOUNT.—For purposes of subparagraph (A)(i)(II), the State's total Medicaid quarterly spending amount determined under this subparagraph with respect to a State and a quarter is the amount equal to—

''(i) the total amount of expenditures by the State for providing medical assistance under the State plan to all individuals enrolled in the plan for the most recent fiscal year for which data is available; divided by

''(ii) 4.

''(4) DATA.—In making the determinations required under this subsection, the Secretary shall use, in addition to the most recent available data from the Bureau of Labor Statistics Local Area Unemployment Statistics for each State referred to in paragraph (5), the most recently available—

''(A) data from the Bureau of the Census with respect to the number of nonelderly adults and children who reside in a State described in paragraph (2) with family income below the poverty line (as defined in section 2110(c)(5)) applicable to a family of the size involved, (or, if the Secretary determines it appropriate, a multiyear average of such data);

''(B) data reported to the Secretary by a State described in paragraph (2) with respect to expenditures for medical assistance under the State plan under this title for nondisabled, nonelderly adults and children; and

''(C) econometric studies of the responsiveness of Medicaid enrollments and spending to changes in rolling average unemployment rates and other factors, including State spending on certain Medicaid populations.

''(5) DEFINITION OF 'ROLLING AVERAGE NUMBER OF UNEMPLOYED INDIVIDUALS', 'ROLLING AVERAGE UNEMPLOYMENT RATE'.—In this subsection, the term—

''(A) 'rolling average number of unemployed individuals' means, with respect to a calendar quarter and a State, the average of the 12 most recent months of seasonally adjusted unemployment data for each State;

''(B) 'rolling average unemployment rate' means, with respect to a calendar quarter and a State, the average of the 12 most recent monthly unemployment rates for the State; and

''(C) 'monthly unemployment rate' means, with respect to a State, the quotient of—

''(i) the monthly seasonally adjusted number of unemployed individuals for the State; divided by

''(ii) the monthly seasonally adjusted number of the labor force for the State,

using the most recent data available from the Bureau of Labor Statistics Local Area Unemployment Statistics for each State.

''(6) INCREASE IN CAP ON PAYMENTS TO TERRITORIES.—With respect to any fiscal year quarter for which the national economic downturn assistance Federal medical assistance percentage applies to Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, or American Samoa, the amounts otherwise determined for such commonwealth or territory under subsections (f) and (g) of section 1108 shall be increased by such percentage of such amounts as the Secretary determines is equal to twice the average increase in the national economic downturn assistance FMAP determined for all States described in paragraph (2) for the quarter.

''(7) SCOPE OF APPLICATION.—The national economic downturn assistance FMAP shall only apply for purposes of payments under section 1903 for a quarter and shall not apply with respect to—

''(A) disproportionate share hospital payments described in section 1923;

''(B) payments under title IV or XXI; or

''(C) any payments under this title that are based on the enhanced FMAP described in section 2105(b).

''(8) ADDITIONAL REQUIREMENT FOR CERTAIN STATES.—In the case of a State described in paragraph (2) that requires political subdivisions within the State to contribute toward the non-Federal share of expenditures required under section 1902(a)(2), the State shall not require that such political subdivisions pay for any fiscal year quarters occurring during a national economic downturn assistance period a greater percentage of the non-Federal share of such expenditures, or a greater percentage of the non-Federal share of payments under section 1923, than the respective percentage that would have been required by the State under State law in effect on the first day of the fiscal year quarter occurring immediately prior to the trigger quarter for the period.''.

(2) EFFECTIVE DATE; NO RETROACTIVE APPLICATION.—The amendments made by paragraph (1) take effect on January 1, 2012. In no event may a State receive a payment on the basis of the national economic downturn assistance Federal medical assistance percentage determined for the State under section 1905(y)(3) of the Social Security Act for amounts expended by the State prior to January 1, 2012.

(b) GAO STUDY AND REPORT.—

(1) STUDY.—The Comptroller General of the United States shall analyze the previous periods of national economic downturn, including the most recent such period in effect as of the date of enactment of this Act, and the past and projected effects of temporary increases in the Federal medical assistance percentage under the Medicaid program with respect to such periods.

(2) REPORT.—Not later than April 1, 2011, the Comptroller General of the United States shall submit a report to Congress on the results of the analysis conducted under paragraph (1). Such report shall include such recommendations as the Comptroller General determines appropriate for modifying the national economic downturn assistance FMAP established under section 1905(y) of the Social Security Act (as added by subsection (a)) to improve the effectiveness of the application of such percentage in addressing the needs of States during periods of national economic downturn, including recommendations for—

(A) improvements to the factors that begin and end the application of such percentage;

(B) how the determination of such percentage could be adjusted to address State and regional economic variations during such periods; and

(C) how the determination of such percentage could be adjusted to be more responsive to actual Medicaid costs incurred by States during such periods, as well as to the effects of any other specific economic indicators that the Comptroller General determines appropriate.

By Mr. GRASSLEY:

S. 1381. A bill to amend the Internal Revenue Code of 1986 to provide additional tax relief for small businesses, and for other purposes; to the Committee on Finance.

Mr. GRASSLEY. Mr. President, President Obama, in his press briefing this past Tuesday, June 23, 2009, made the following statement regarding his assessment of the first four months of the American Recovery and Reinvestment Act: ''I am not satisfied with the progress that we've made.'' I could not agree more with President Obama's assessment. Thus far, the $787 billion American Recovery and Reinvestment Act has fallen short on virtually every one of its advertised effects.

In the abbreviated debate leading up to the consideration of this bill, we constantly heard the mantra from my friends on the other side: JOBS, JOBS, JOBS! This stimulus bill was supposed to create jobs, jobs, jobs, but in the four months since the bill's passage, there are still no jobs in sight.

The architects of this bill made several bold claims in projecting the job effects of the $787 billion stimulus bill. First, they said that its passage would keep the unemployment rate from exceeding 8 percent. Second, they said it was going to create or save 3 to 4 million jobs. And third, they said that 90 percent of the new jobs created would be in the private sector.

So far, in all three of these areas, the actual effects of the stimulus bill have not lived up to the hype. Let us examine each of these areas one by one.

First, the stimulus bill was supposed to keep unemployment at or below 8 percent. In fact, the administration projected that in the absence of stimulus, the unemployment rate would peak at around 8.8 percent. However, four months into this program, the unemployment rate stands at 9.4 percent and rising—higher than the administration projected it would be in the absence of stimulus.

Just listen to President Obama's comments from his June 23rd press briefing to see which direction the unemployment rate is headed: ''I think it's pretty clear now that unemployment will end up going over 10 percent, if you just look at the pattern, because of the fact that even after employers and businesses start investing again and start hiring again, typically it takes a while for that employment number to catch up with economic recovery. And we're still not at actual recovery yet. So I anticipate that this is going to be a difficult, difficult year, a difficult period.''

When asked how high he thought the unemployment rate would go, President Obama responded, ''I am not suggesting that I have a crystal ball. Since you just threw back at us our last prognosis, let's not engage in another one.'' Once again, I have to agree with President Obama's assessment.

As the unemployment rate continues to go up, that means job numbers continue to go down, which brings me to my next point: The administration projected that the stimulus bill would create—or save—between 3 and 4 million jobs by the end of 2010. While we've got a long way to go before the end of 2010, the prospects of the stimulus bill living up to this job creation estimate seem very unlikely. Before we look at the actual job numbers for the past few months from the Department of Labor, let me discuss the source of the administration's projections.

In January, Christina Romer, who is now Chair of the Council of Economic Advisers, and Jared Bernstein, who is now the Chief Economist for the Vice President, released a 14-page paper titled ''The Job Impact of the American Recovery and Reinvestment Act.''

In this document, Romer and Bernstein repeatedly asserted that a package of the size discussed by the President-Elect would be expected to create between three and four million jobs by the end of 2010, which would more than meet the President-Elect's goal of creating or saving 3 million jobs by the end of 2010. In a follow-up report in May, the Council of Economic Advisers attempted to explain how the administration planned on measuring the number of jobs created or saved by the stimulus. This document articulated that all recipients of stimulus funds for government investment will be required to provide ''recipient reports'' estimating the number of jobs retained or created directly by the funds.

Then, to arrive at the total estimate of jobs created or saved by the stimulus, the job numbers from the recipient reports will be added to the administration's estimate of jobs created or saved through tax cuts, State fiscal relief and transfer payments. These estimates will be derived from administration-produced multipliers and macroeconomic modeling.

Sounds pretty simple, don't you think? Unfortunately, there are some problems.

The first problem is that the most accurate part of these job estimates will be from the recipient reports, and since the stimulus bill included approximately $271 billion in government investment spending, these reporting requirements cover just over a third of the $787 billion of stimulus funding.

While the job estimates from these recipient reports should be an accurate representation of actual jobs created by the stimulus, the administration even admits that ''there will likely be inconsistencies and measurement error across the individual reports.''

This leads us to the second problem: for the other ⅔ of the bill, in the administration's own words, ''There is no mechanism available for collecting data on actual job creation from these parts of the Act.'' So, for ⅔ of the bill, the job estimates are basically going to be guesswork from the administration based on mathematical formulas.

Since President Obama's ''First 100 Days'' address on April 29, 2009, we have heard plenty about the 150,000 jobs that have been created or saved so far by the stimulus.

As I have pointed out, it is impossible to verify these numbers with any degree of certainty, and the administration can not even give an estimate of how many of the 150,000 jobs were created and how many were saved.

What we can verify are the actual job numbers produced on a monthly basis by the Department of Labor. According to the Department of Labor, in the 3 full months March, April, and May, following the enactment of the stimulus bill, the U.S. economy has lost over 1.5 million jobs. In the first 5 months of 2009, the U.S. economy has lost 2.9 million jobs. These are the painful numbers that really matter.

As Jared Bernstein, Chief Economist for the Vice President, said on June 8, 2009, ''Most importantly from the perspective of American families, the nation's employers are still shedding jobs on net.''

So, the advertised effect of the stimulus on unemployment was clearly wrong, and the job claims resulting from the stimulus are unverifiable. Now, how about the claim suggesting that 90 percent of the jobs created by the stimulus will be in the private sector?

To be clear, this claim was first made in Romer and Bernstein's January report, and the President himself has repeated this assertion. Unfortunately, this projection—like the first two—is missing the mark by a long shot.

Let's look at the actual data from the Department of Labor once again. In the first three months since the stimulus bill has been the law of the land, the private sector has lost nearly 1.6 million jobs. In those same 3 months, government payrolls have actually expanded by 81,000 jobs. Similarly, in the first 5 months of 2009, while the private sector has lost over 3 million jobs, the government has gained 96,000 jobs.

While I am encouraged to see at least one sector of the economy experiencing job gains, I don't expect that the administration's projection of 90 percent of stimulus jobs being in the private sector will be realized. The administration has promised that 600,000 additional public sector jobs will be created or saved this summer. While an increase of 600,000 government jobs would certainly be a positive development if it comes to pass, it does raise concerns as to whether the government will be the only winner from the stimulus bill.

My point today, Mr. President, is not to berate the administration or those who voted for this bill.

My point is, first, to note the conspicuous absence of job gains in our

economy following the stimulus, and second, to bring our focus back to the source of 70 percent of net new jobs over the past decade—the engine that drives the U.S. economy. Of course, I am talking about America's small businesses.

America's small businesses have been suffering during this recession. If you go back to your States frequently, like I do, you'll hear about it directly. A few months ago, Senators LANDRIEU and SNOWE held a hearing on the credit crunch hitting small business. They found that big banks have been cracking down on lending to small businesses.

Another very good source of answers about the environment of small business is found in the monthly survey of small business. This survey is published by the National Federation of Independent Business ''NFIB''.

NFIB is the largest small business organization. NFIB has been conducting these surveys for 35 years.

NFIB's membership includes hundreds of thousands of small businesses all across America. You can find the survey on NFIB's website at http://www.nfib.com/Portals/0/PDF/sbet/sbet200906.pdf. I would encourage every member to check out the June 2009 survey.

The survey shows some extremely disturbing trends. On credit availability, small businesses are getting squeezed very hard. The availability of loans has fallen off a cliff since late 2007 and is at its lowest point since the recession period of 1980 to 1982.

This credit crunch and other factors have contributed to NFIB's index of small business optimism falling well below average. According to the survey, small business owners have become extremely pessimistic in the last couple of years. What you see here is the attitude of the decision makers in small business America.

Those are the decision makers for businesses that President Obama and Congress agree are the businesses most likely to grow or contract jobs. This data should concern every policy maker in this town.

While those two sets of data are bad, it doesn't get any better when you look at small business hiring plans. Another question on the survey asks the small business owner whether he or she plans to expand or contract employment over the next three months. The survey results show small business activity contracting tremendously, and the overall small business employment numbers tell the same story.

I must say that the President's recent efforts to increase lending to the small business sector are commendable. The center piece of his small business plan will allow the federal government to spend up to $25 billion to purchase the small-business loans that are now hindering community banks and lenders. Unfortunately, that is a drop in a very empty bucket.

Remember, colleagues, that small business accounts for about half of the private sector.

Moreover, the positives that will come to small businesses from this relatively small package of loans—which will ultimately have to be paid back—will be heavily outweighed by the negative impact of the President's proposed tax increases. Helping small businesses get loans just to take that money back in the form of tax hikes is not wise.

I now want to turn to those aforementioned tax hikes on small businesses that President Obama and my colleagues on the other side of the aisle have proposed. I certainly understand that small business is vital to the health of our economy. The President and I agree that 70 percent of new private sector jobs are created by small businesses.

However, where we differ is that I believe small businesses' taxes should be lowered, not raised, to get our economy back on track. In 2001 and 2003, Congress enacted bipartisan tax relief designed to trigger economic growth and create jobs by reducing the tax burden on individuals and small businesses. This included an across-the-board income tax reduction, which reduced marginal tax rates for income earners of all levels, a reduction of the top dividends and capital gains tax rate to 15 percent, and a gradual phaseout of the estate tax.

Unfortunately, like many of the other provisions enacted in 2001 and 2003, these tax relief measures are scheduled to expire at the end of 2010.

Some have referred to this bipartisan tax relief as ''the Bush tax cuts for the wealthy'' and have suggested that the tax relief provided for higher-income earners should be allowed to expire. However, this tax relief was bipartisan and provides tax relief for all taxpayers. The President and my colleagues on the other side of the aisle have proposed increasing the top two marginal tax rates from 33 percent and 35 percent to 36 percent and 39.6 percent, respectively.

They have also proposed increasing the tax rates on capital gains and dividends to 20 percent, and providing for an estate tax rate as high as 45 percent and an exemption amount of $3.5 million.

Also, the President has called for fully reinstating the personal exemption phaseout, or PEP for short, and the limitation on itemized deductions, which is known as Pease. Under the 2001 tax law, PEP and Pease are scheduled to be completely phased out in 2010. However, like other provisions in the law, PEP and Pease are scheduled to come back in full force in 2011 should Congress fail to take further action.

With PEP and Pease fully reinstated, individuals in the top two rates could see their marginal effective tax rate increased by 20 percent or more. For example, a family of four that is in the 33 percent tax bracket in 2010 could pay a marginal effective tax-rate of 41 percent after 2010—or even more if they had more children—because of PEP and Pease.

Some of my colleagues on the other side of the aisle have defended this proposal by claiming they will only raise taxes on ''wealthy'' taxpayers who make over $200,000 a year. For the vast majority of people who earn less than $200,000, raising taxes on higher earners might not sound so bad.

However, this means that many small businesses will be hit with a higher tax bill. These small businesses happen to at least 70 percent of all new private sector jobs in the U.S.

These small businesses that are taxed as sole proprietorships, S corporations, and partnerships—including LLCs—whose owners make over $200,000, or $250,000 if married, would get hit with the President's proposal to raise the top two marginal tax rates.

In addition, there are just under 2 million C corporations that are not publicly traded, and all C corporations are subject to double taxation. To the extent these C corporations' owners that make over $200,000, or $250,000 if married, pay themselves a salary, they would get hit with the tax increase on the top two marginal tax rates proposed by the President.

Also, any owners of C corporations that receive dividends or realize capital gains and make over $200,000, or $250,000 if married, would pay a 20 percent rate on these dividends and capital gains after 2010 under the President's tax hike proposals, instead of paying the current law rate of 15 percent.

According to NFIB survey data, 50 percent of owners of small businesses that employ 20–249 workers would fall in the top two brackets. According to the Small Business Administration, about ⅔ of the Nation's small business workers are employed by small businesses with 20–500 employees.

Do we really want to raise taxes on these small businesses that create new jobs and employ ⅔ of all small business workers?

With these small businesses already suffering from the credit crunch, do we really think it's wise to hit them with the double-whammy of a 20 percent increase in their marginal tax rates?

Newly developed data from the Joint Committee on Taxation demonstrates that 55 percent of the tax from the higher rates will be borne by small business owners with income over $250,000. This is a conservative number, because it doesn't include flow-through business owners making between $200,000 and $250,000 that will also be hit with the Budget's proposed tax hikes.

If the proponents of the marginal rate increase on small business owners agree that a 20 percent tax increase for half of the small businesses that employ two-thirds of all small business workers is not wise, then they should either oppose these tax increases, or present data that show a different result.

I will also fight for a lower estate tax rate and a higher estate tax exemption amount to protect successful small businesses and farmers. In a time when many businesses are struggling to stay afloat, it does not make sense to impose additional burdens on them by raising their taxes.

Odds are, they will cut spending. They will cancel orders for new equipment, cut health insurance for their employees, stop hiring, and lay people off. Instead of seeking to raise taxes on those who create jobs in our economy, policies need to focus on reducing excessive tax and regulatory barriers that stand in the way of small businesses and the private sector making investments, expanding production, and creating sustainable jobs.

As the current ranking member of the tax writing Finance Committee, you can be sure that I will continue to fight to prevent a dramatic tax increase on our nation's job engine—the small businesses of America. This includes working to protect small businesses from higher marginal tax rates, an increase in the capital gains and dividends tax rate, and an increase in the unfair estate tax rate that will penalize the success of small businesses and farmers who would like to pass on their gains to the next generation.

In fact, today I have introduced a bill to lower taxes on these job-creating small businesses.

My bill contains a number of provisions that will leave more money in the hands of these small businesses so that these businesses can hire more workers, continue to pay the salaries of their current employees, and make additional investments in these businesses.

For instance, my bill would increase the amount of capital expenditures that small businesses can expense from $250,000 to $500,000. Also, my bill would allow more small C corporations to benefit from the lower graduated tax rates for smaller C corporations.

Another provision takes the general business credits, which are listed in section 38, out of the Alternative Minimum Tax, AMT, for those sole proprietorships, flow-throughs and non-publicly traded C-corps with 50 million or less in annual gross receipts. This provision amends section 39 to extend the 1-year carryback for general business credits to a 5-year carryback. This applies to general business credits for those sole proprietorships, flow-through entities and non-publicly traded C-corps with 50 million or less in annual gross receipts.

Another provision in my bill amends section 199 of the Internal Revenue Code, which contains the deduction for manufacturing, to provide a 20 percent deduction for flow-through business income for all small businesses, which are defined as flow-through entities with 50 million or less in annual gross receipts. Another provision in my bill deals with the situation where a C corporation becomes an S corporation. Under current law, there is no tax on built-in gains of assets within a C corporation that converts to an S corporation if those assets with built-in gain are held for 10 years by the S corporation. The stimulus bill reduced this 10-year period down to 7 years for sales of assets with built-in gain that occur within 2009 and 2010.

My provision reduces this time period down to 5 years for all S corporations that have converted from a C corporation.

Another provision in my bill expands the net operating loss provision contained in the stimulus bill. Current law provides that net operating losses from any size business may be carried back 2 taxable years before the year that the loss arises and carried forward 20 years. The stimulus bill amended the carryback provision by expanding the carryback from 2 years to 5 years if a small business had gross receipts of $15 million or less.

This provision expands that $15 million gross receipt requirement to $50 million in gross receipts so that more small businesses can qualify for this benefit.

Another provision in my bill amends section 1202 of the Internal Revenue Code to eliminate the tax on capital gains for certain start-up C corporations. The stimulus bill reduced the capital gains tax to approximately 7 percent on stock qualifying under 1202. However, President Obama has called for eliminating, not simply reducing, the tax on capital gains for these start-up businesses, and that is exactly what my provision would do.

The final provision in my bill permits a deduction for payments made under the Self-Employment Contribution Act, or SECA, at one-hundred percent of health insurance premiums that are paid by those who are self-employed.

We all want to see the job numbers from the Department of Labor moving in a positive direction. We all want to see the unemployment rate plummet. I firmly believe that the best way for us to do that is to prime the job-creating engine of our economy, which is small businesses. Furthermore, increasing taxes on small businesses as President Obama has proposed will destroy even more jobs.

My small business bill, if enacted, will lead to many new jobs. As opposed to the jobs President Obama argues that the stimulus bill has saved while our economy has been hemorrhaging jobs, my bill will create countable, verifiable, private sector jobs that will put people to work and get the economy moving in the right direction again.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1381

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; AMENDMENT OF 1986 CODE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Small Business Tax Relief Act of 2009''.

(b) REFERENCE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

(c) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

SEC. 2. PERMANENT INCREASE IN LIMITATIONS ON EXPENSING OF CERTAIN DEPRECIABLE BUSINESS ASSETS.

(a) IN GENERAL.—Subsection (b) of section 179 (relating to limitations) is amended—

(1) by striking ''$25,000'' and all that follows in paragraph (1) and inserting ''$500,000.'',

(2) by striking''$200,000'' and all that follows in paragraph (2) and inserting ''$2,000,000'',

(3) by striking ''after 2007 and before 2011, the $120,000 and $500,000'' in paragraph (5)(A) and inserting ''after 2009, the $500,000 and the $2,000,000'',

(4) by striking ''2006'' in paragraph (5)(A)(ii) and inserting ''2008'', and

(5) by striking paragraph (7).

(b) PERMANENT EXPENSING OF COMPUTER SOFTWARE.—Section 179(d)(1)(A)(ii) of the Internal Revenue Code of 1986 (defining section 179 property) is amended by striking ''and before 2011''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2008.

SEC. 3. MODIFICATION OF CORPORATE INCOME TAX RATES.

(a) IN GENERAL.—Paragraph (1) of section 11(b) (relating to amount of tax) is amended to read as follows:

''(1) IN GENERAL.—The amount of the tax imposed by subsection (a) shall be the sum of—

''(A) 15 percent of so much of the taxable income as does not exceed $1,000,000,

''(B) 25 percent of so much of the taxable income as exceeds $1,000,000 but does not exceed $1,500,000,

''(C) 34 percent of so much of the taxable income as exceeds $1,500,000 but does not exceed $10,000,000, and

''(D) 35 percent of so much of the taxable income as exceeds $10,000,000.

In the case of a corporation which has taxable income in excess of $2,000,000 for any taxable year, the amount of tax determined under the preceding sentence for such taxable year shall be increased by the lesser of (i) 5 percent of such excess, or (ii) $235,000. In the case of a corporation which has taxable income in excess of $15,000,000, the amount of the tax determined under the foregoing provisions of this paragraph shall be increased

by an additional amount equal to the lesser of (i) 3 percent of such excess, or (ii) $100,000.''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 2009.

SEC. 4. GENERAL BUSINESS CREDITS OF ELIGIBLE SMALL BUSINESSES NOT SUBJECT TO ALTERNATIVE MINIMUM TAX.

(a) IN GENERAL.—Section 38(c) (relating to limitation based on amount of tax) is amended by redesignating paragraph (5) as paragraph (6) and by inserting after paragraph (4) the following new paragraph:

''(5) SPECIAL RULES FOR ELIGIBLE SMALL BUSINESS CREDITS.—

''(A) IN GENERAL.—In the case of eligible small business credits—

''(i) this section and section 39 shall be applied separately with respect to such credits, and

''(ii) in applying paragraph (1) to such credits—

''(I) the tentative minimum tax shall be treated as being zero, and

''(II) the limitation under paragraph (1) (as modified by subclause (I)) shall be reduced by the credit allowed under subsection (a) for the taxable year (other than the eligible small business credits).

''(B) ELIGIBLE SMALL BUSINESS CREDITS.—For purposes of this subsection, the term 'eligible small business credits' means the sum of the credits listed in subsection (b) which are determined for the taxable year with respect to an eligible small business. Such credits shall not be taken into account under paragraph (2), (3), or (4).

''(C) ELIGIBLE SMALL BUSINESS.—For purposes of this subsection, the term 'eligible small business' means, with respect to any taxable year__

''(i) a corporation the stock of which is not publicly traded, or

''(ii) a partnership,

which meets the gross receipts test of section 448(c) (by substituting '$50,000,000' for '$5,000,000' each place it appears) for the taxable year (or, in the case of a sole proprietorship, which would meet the test if such proprietorship were a corporation).''.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to credits determined in taxable years beginning after December 31, 2009, and to carrybacks of such credits.

SEC. 5. GENERAL BUSINESS CREDITS OF ELIGIBLE SMALL BUSINESSES CARRIED BACK 5 YEARS.

(a) IN GENERAL.—Section 39(a) (relating to carryback and carryforward of unused credits) is amended by adding at the end the following new paragraph:

''(4) 5-YEAR CARRYBACK FOR ELIGIBLE SMALL BUSINESS CREDITS.—

''(A) IN GENERAL.—Notwithstanding subsection (d), in the case of eligible small business credits—

''(i) this section shall be applied separately from the business credit (other than the eligible small business credits) or the marginal oil and gas well production credit,

''(ii) paragraph (1) shall be applied by substituting 'each of the 5 taxable years' for 'the taxable year' in subparagraph (A) thereof, and

''(iii) paragraph (2) shall be applied—

''(I) by substituting '25 taxable years' for '21 taxable years' in subparagraph (A) thereof, and

''(II) by substituting '24 taxable years' for '20 taxable years' in subparagraph (B) thereof.

''(B) ELIGIBLE SMALL BUSINESS CREDITS.—For purposes of this subsection, the term 'eligible small business credits' has the meaning given such term by section 38(c)(5)(B).''.

(b) CONFORMING AMENDMENT.—Section 39(a)(3)(A) is amended by inserting ''or the eligible small business credits'' after ''credit)''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to credits arising in taxable years beginning after December 31, 2009.

SEC. 6. DEDUCTION FOR ELIGIBLE SMALL BUSINESS INCOME.

(a) IN GENERAL.—Paragraph (1) of section 199(a) is amended to read as follows:

''(1) IN GENERAL.—There shall be allowed as a deduction an amount equal to the sum of—

''(A) 9 percent of the lesser of—

''(i) the qualified production activities income of the taxpayer for the taxable year, or

''(ii) taxable income (determined without regard to this section) for the taxable year, and

''(B) in the case of an eligible small business for any taxable year beginning after 2009, 20 percent of the lesser of—

''(i) the eligible small business income of the taxpayer for the taxable year, or

''(ii) taxable income (determined without regard to this section) for the taxable year.''.

(b) ELIGIBLE SMALL BUSINESS; ELIGIBLE SMALL BUSINESS INCOME.—Section 199 is amended by adding at the end the following new subsection:

''(e) ELIGIBLE SMALL BUSINESS; ELIGIBLE SMALL BUSINESS INCOME.—

''(1) ELIGIBLE SMALL BUSINESS.—For purposes of this section, the term 'eligible small business' has the meaning given such term by section 38(c)(5)(C).

''(2) ELIGIBLE SMALL BUSINESS INCOME.—

''(A) IN GENERAL.—For purposes of this section, the term 'eligible small business income' means the excess of—

''(i) the income of the eligible small business which—

''(I) is attributable to the actual conduct of a trade or business,

''(II) is income from sources within the United States (within the meaning of section 861), and

''(III) is not passive income (as defined in section 904(d)(2)(B)), over

''(ii) the sum of—

''(I) the cost of goods sold that are allocable to such income, and

''(II) other expenses, losses, or deductions (other than the deduction allowed under this section), which are properly allocable to such income.

''(B) EXCEPTIONS.—The following shall not be treated as income of an eligible small business for purposes of subparagraph (A):

''(i) Any income which is attributable to any property described in section 1400N(p)(3).

''(ii) Any income which is attributable to the ownership or management of any professional sports team.

''(iii) Any income which is attributable to a trade or business described in subparagraph (B) of section 1202(e)(3).

''(iv) Any income which is attributable to any property with respect to which records are required to be maintained under section 2257 of title 18, United States Code.

''(C) ALLOCATION RULES, ETC.—Rules similar to the rules of paragraphs (2), (3), (4)(D), and (7) of subsection (c) shall apply for purposes of this paragraph.

''(3) SPECIAL RULES.—Except as otherwise provided by the Secretary, rules similar to the rules of subsection (d) shall apply for purposes of this subsection.''.

(c) CONFORMING AMENDMENT.—Section 199(a)(2) is amended by striking ''paragraph (1)'' and inserting ''paragraph (1)(A)''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2009.

SEC. 7. REDUCTION IN RECOGNITION PERIOD FOR BUILT-IN GAINS TAX.

(a) IN GENERAL.—Paragraph (7) of section 1374(d) (relating to definitions and special rules) is amended to read as follows:

''(7) RECOGNITION PERIOD.—

''(A) IN GENERAL.—The term 'recognition period' means the 5-year period beginning with the 1st day of the 1st taxable year for which the corporation was an S corporation.

''(B) SPECIAL RULE FOR DISTRIBUTIONS TO SHAREHOLDERS.—For purposes of applying this section to any amount includible in income by reason of distributions to shareholders pursuant to section 593(e), subparagraph (A) shall be applied without regard to the phrase '10-year'.''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 2010.

SEC. 8. CARRYBACK OF NET OPERATING LOSSES OF CERTAIN SMALL BUSINESSES ALLOWED FOR 5 YEARS.

Subparagraph (H) of section 172(b)(1) is amended to read as follows:

''(H) 5-YEAR CARRYBACK OF LOSSES OF CERTAIN SMALL BUSINESSES.—

''(i) IN GENERAL.—In the case of a net operating loss with respect to any eligible small business for any taxable year ending after 2008, or, if applicable, following the taxable year with respect to which an election was made by such eligible small business under this subparagraph (as in effect before the date of the enactment of the Small Business Tax Relief Act of 2009)—

''(I) subparagraph (A)(i) shall be applied by substituting '5' for '2',

''(II) subparagraph (E)(ii) shall be applied by substituting '4' for '2', and

''(III) subparagraph (F) shall not apply.

''(ii) ELIGIBLE SMALL BUSINESS.—For purposes of clause (i), the term 'eligible small business' has the meaning given such term by section 38(c)(5)(C).''.

SEC. 9. MODIFICATIONS TO EXCLUSION FOR GAIN FROM CERTAIN SMALL BUSINESS STOCK.

(a) TEMPORARY INCREASE IN EXCLUSION.—Paragraph (3) of section 1202(a) (relating to exclusion) is amended to read as follows:

''(3) SPECIAL RULES FOR STOCK ACQUIRED BEFORE 2011.—In the case of qualified small business stock—

''(A) acquired after the date of the American Recovery and Reinvestment Tax Act of 2009 and on or before the date of the enactment of the Small Business Tax Relief Act of 2009—

''(i) paragraph (1) shall be applied by substituting '75 percent' for '50 percent', and

''(ii) paragraph (2) shall not apply, and

''(B) acquired after the date of the enactment of the Small Business Tax Relief Act of 2009 and before January 1, 2011—

''(i) paragraph (1) shall be applied by substituting '100 percent' for '50 percent',

''(ii) paragraph (2) shall not apply, and

''(iii) section 57(a)(7) shall not apply.''.

(b) INCREASE IN LIMITATION.—

(1) IN GENERAL.—Subparagraph (A) of section 1202(b)(1) (relating to per-issuer limitation on taxpayer's eligible gain) is amended by striking ''$10,000,000'' and inserting ''$15,000,000''.

(2) MARRIED INDIVIDUALS.—Subparagraph (A) of section 1202(b)(3) (relating to treatment of married individuals) is amended by

striking ''paragraph (1)(A) shall be applied by substituting '$5,000,000' for '$10,000,000'.'' and inserting ''the amount under paragraph (1)(A) shall be half of the amount otherwise in effect''.

(c) MODIFICATION OF DEFINITION OF QUALIFIED SMALL BUSINESS.—Section 1202(d)(1) (defining qualified small business) is amended by striking ''$50,000,000'' each place it appears and inserting ''$75,000,000''.

(d) INFLATION ADJUSTMENTS.—Section 1202 (relating to partial exclusion for gain from certain small business stock) is amended by redesignating subsection (k) as subsection (l) and by inserting after subsection (j) the following new subsection:

''(k) INFLATION ADJUSTMENT.—

''(1) IN GENERAL.—In the case of any taxable year beginning after 2009, the $15,000,000 amount in subsection (b)(1)(A), the $75,000,000 amount in subsection (d)(1)(A), and the $75,000,000 amount in subsection (d)(1)(B) shall each be increased by an amount equal to—

''(A) such dollar amount, multiplied by

''(B) the cost of living adjustment determined under section 1(f)(3) for the calendar year in which the taxable year begins, determined by substituting 'calendar year 2008' for 'calendar year 1992' in subparagraph (B) thereof.

''(2) ROUNDING.—If any amount as adjusted under paragraph (1) is not a multiple of $1,000,000 such amount shall be rounded to the next lowest multiple of $1,000,000.''.

(e) EFFECTIVE DATES.—

(1) EXCLUSION; QUALIFIED SMALL BUSINESS.—The amendments made by subsections (a) and (c) shall apply to stock acquired after the date of the enactment of this Act.

(2) LIMITATION; INFLATION ADJUSTMENT.—The amendments made by subsections (b) and (d) shall apply to taxable years ending after the date of the enactment of this Act.

SEC. 10. DEDUCTION FOR HEALTH INSURANCE COSTS IN COMPUTING SELF-EMPLOYMENT TAXES.

(a) IN GENERAL.—Section 162(l) (relating to special rules for health insurance costs of self-employed individuals) is amended by striking paragraph (4) and by redesignating paragraph (5) as paragraph (4).

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

By Mr. DODD:

S. 1382. A bill to improve and expand the Peace Corps. for the 21st century, and for other purposes; to the Committee on Foreign Relations.

Mr. DODD. Mr. President, I rise today to introduce a piece of legislation—and not just any old piece of legislation, I might add, because this organization I am about to talk about had as much to do with the formation of who I am as my family did: the Peace Corps Improvement and Expansion Act of 2009.

I would point out that some 35 years ago a young man from Massachusetts and an equally young man from Connecticut were elected to the House of Representatives. A fellow by the name of Paul Tsongas and myself were the first two former Peace Corps volunteers to be elected to the Congress. Paul Tsongas went on to be elected to the Senate, I think, in 1978. He is no longer with us. He died tragically a number of years ago. His wife Niki is now a Member of the House of Representatives from Massachusetts.

Paul Tsongas and I were great friends and enjoyed sharing stories with each other for many years about our respective Peace Corps experiences.

Paul Tsongas served in Ethiopia—one of the earliest programs, if not the earliest program, in that country. I served in the Dominican Republic from 1966 through 1968 as a Peace Corps volunteer up in the mountains of that country, not far from the Haitian border. The Peace Corps experience for me was as formative, as I said at the outset of these remarks, as anything else in my life, with the exception of my own family; growing up with wonderful five brothers and sisters in Connecticut and a family who was deeply involved in public service.

The Peace Corps experience was formative, and so over the years, I have expressed a great deal of interest in the organization and the various administrations that have served in Washington since the late 1970s through the 1980s and 1990s and this decade. So my interest in the organization is strong.

The contribution of the Peace Corps has been remarkable over the years. It is one of the few Federal agencies that enjoys almost universal support from the American public. It has had greater moments of celebration and public awareness than at others, but it has been consistent in the minds of most Americans. This organization sends mostly younger Americans, but not always younger Americans, to serve in underprivileged nations, nations that are struggling, including Third World nations, to make a difference in the lives of others. It has been a unique contribution to the world.

There are many other volunteer organizations—some in our own country, some in other nations—but I think the Peace Corps holds a special place in the minds not only of our own fellow citizenry but also millions of people around the world who have come to know those Peace Corps volunteers—as I said, mostly younger people but not always younger people—who serve and spend 2 years working with them in their villages or urban areas, not only making a difference in their daily lives but also getting to know them, getting to know us. People who would never have the chance to come to America got to know America because they got to know that young American who was learning their language and spending time with them and making a contribution to improve their lives.

Well, for 48 years, the Peace Corps has stood as a uniquely American institution. I know other nations make contributions. This is not a unique idea for ourselves. But what other great nation would send its people abroad not to extend its power or intimidate its adversaries, not to kill or be killed, but to dig, to teach, to empower, and ask for nothing in return. For 48 years, those men and women—180,000 of us—have returned, as stronger, wiser, and more inspired people prepared to live our American lives of service.

For a half century, the Peace Corps has shaped our lives and the identity of all Americans; who we are as a people and what we hope to achieve, not only for our own Nation but also for others who share this planet with us.

Today I rise to offer a piece of legislation for one simple reason, Mr. President: I want the Peace Corps to continue playing that role that it has for the last half century for another half century to come. But before we consider how the Peace Corps can grow going forward, I think it might be worth remembering just how it came into being. Where did it all start? How was it created?

Like an awful lot of groundbreaking ideas, Mr. President, the Peace Corps might not have survived a board meeting or a subcommittee hearing where the idea was first proposed. It was a wild notion in many ways, so breathtakingly outrageous that it could only have been born out of idealism, youthful energy, and—perhaps a key element—too much caffeine. For you see, the Peace Corps was born at 2 in the morning.

It was October 4, 1960, and a then young Senator from Massachusetts by the name of John F. Kennedy was running for the Presidency. He was running hours late, as candidates often do, for a campaign stop at the University of Michigan in Ann Arbor. John Kennedy assumed that most of the crowd would have gone home by that late hour. But when he arrived at the student union, at the campus in Ann Arbor, he found 10,000 students waiting outside in the frigid dark to greet him. As public officials and holders of elective office, I think we can sympathize with then-Senator Kennedy at that hour, having endured months of late nights on a campaign trail, uncomfortable beds, and a bad diet along the way. I suspect he might have been sorely tempted at that late hour—as all of us have been from time to time—to offer a perfunctory thank-you to the Michigan students for hanging around all that long, recite a memorized stump speech—having given it on countless occasions, he would know it from memory—and send them home and retire himself.

But something besides a chill was in the air that night in Ann Arbor. Floodlit and shivering, the crowd began to chant his name as he climbed the steps to the student union, and Senator John Kennedy realized this was something special. He realized he owed these students more than just that perfunctory set of remarks. So at 1:30 or 2:00 in the morning, on a frigid night in Michigan, he challenged them

as a candidate, as a United States Senator, and he asked:

How many of you, who are going to be doctors, are willing to spend your days in Ghana? Technicians or engineers, how many of you are willing to work in the Foreign Service and spend your lives traveling around the world?

I believe, Mr. President, that challenge is the Peace Corps' founding document. It didn't begin with a white paper or a TV ad. It began with a simple question.

In the days that followed the Kennedy rally at the student union in Michigan, students drafted a petition, circulating it to colleges all across the State, and within a couple of weeks across the country, presenting several scrolls ultimately to John Fitzgerald Kennedy containing thousands upon thousands upon thousands of names. Some 30,000 letters flooded his office asking him to continue with this idea.

So I think it is fair to say, Mr. President, the answer to that question—are you willing to serve your country by serving the world?—was an overwhelming yes by a generation almost 50 years ago. Of course, several other pressing questions also followed: How do you build an organization around that raw energy? How do you pay for that? What do you even call that idea or organization?

John Kennedy's top advisers were already working on those issues. After all, they had decided, if we don't start doing our part for the developing world, they were concerned—and rightfully so—the Communists around the world would. At a time much like today, when our Nation faced conflicts with people who knew as little of America as we knew of them, this case for a Peace Corps could be made not only in the lofty rhetoric of idealism but in the cold hard language of realpolitik.

The notion that service could be a part of our foreign policy—indeed that it could be a powerful weapon in the Cold War—was truly a radical idea. It suggested that there could be more measures of strength than caliber or tonnage. It argued that the world needed to see our ideals not just in ink but incarnate in the person of Americans with dirty hands working under a hot foreign sun. It said: You cannot hate America if you know Americans.

The skeptics quickly descended upon John Kennedy's idea. Richard Nixon called the Peace Corps ''a haven for draft-dodgers.'' Former President Dwight Eisenhower called it ''a juvenile experiment.'' Even those old foreign policy hands who supported Kennedy's idea thought it was a fine idea, as long as it was kept small. Academics and State Department officials agreed: Proceed with caution, they urged. Start with just a few hundred volunteers. Don't create a fiasco, they said. Don't let this experiment get out of hand.

If they had gotten their way, I suspect the Peace Corps might not even exist today. But just as a late-night burst of exuberance gave birth to the Peace Corps in Ann Arbor, a similar bolt of sleepless inspiration kept it alive. In a hotel room in downtown Washington—not far from where I am on the floor of the Senate—with only a few typewriters and a stack of blank papers, two aides—only two of them; one named Sergeant Shriver and the other named Harris Wofford, who turned out many years later to be a colleague of ours in the Senate—comprised the entirety of the Peace Corps staff that had been tasked with figuring out how to put this outrageous idea into practice.

The one thing the two of these men knew, Sergeant Shriver later told us, was that the conventional approach then in vogue wouldn't work. America would only have one chance to get it right. So it was that Sergeant Shriver happened to be in the office at 3 o'clock in the morning—not unlike the hour at Ann Arbor—reading a paper prepared by a State Department employee who had sent along some ideas. His name was Warren Wiggins.

Warren Wiggins called his paper ''The Towering Task,'' a reference to JFK's first State of the Union Address, where the young President said:

The problems are towering and unprecedented and the response must be towering and unprecedented as well.

Warren Wiggins called for a towering and unprecedented Peace Corps. He wrote:

One hundred youths engaged in agricultural work of some sort in Brazil might pass by unnoticed, but 5,000 American youths helping to build Brasilia might warrant the full attention and support of the President of Brazil himself.

Where a handful of young people might present a nuisance to a foreign ambassador, an army of motivated young Americans could make a real difference. Besides, wasn't it a moment for great ambition?

At 3 o'clock in the morning, Sergeant Shriver read Warren Wiggins's conclusion: The Peace Corps needed to begin with a ''quantum jump,'' and it needed to begin immediately, by Executive order, with as many as 5,000 to 10,000 volunteers right away. By 9 o'clock that same morning, Warren Wiggins himself was sitting alongside Sergeant Shriver in that very hotel room drafting a report for the President of the United States.

Within a month of that date, President John Kennedy had created the Peace Corps by Executive order. Within 2 years, more than 7,000 young Americans were serving across the globe, and that number had more than doubled by 1966, the year that I joined the Peace Corps.

One of those young Americans—as I mentioned, the person speaking to you this afternoon—was a 22-year-old English major at Providence College who arrived in the small village of Moncion in the Dominican Republic. As a young person, I spoke barely any Spanish. I had little idea I was doing, and I certainly didn't have a clue that more than 40 years later I would be standing on the floor of the United States Senate explaining that the Peace Corps gave me the richest 2 years of my life.

I owe those 2 years, and the impact they had on all of my years since, to John Kennedy's 2 a.m. question and Warren Wiggins paper that Sergeant Shriver read at 3 in the morning.

From the story of the Peace Corps, and my own story, we can learn three things: First, the Peace Corps works, Mr. President. Besides simple labor and goodwill, every American we send abroad brings with him or her another chance to make America known to a world that often fears and suspects us and our motives. Every American who returns to our country from that service comes home as a citizen strengthened with the knowledge of the world in which he or she has just lived.

As Sargent Shriver said, ''Peace Corps Volunteers come home to the USA realizing that there are billions—yes, billions—of human beings not enraptured by our pretensions, or our practices, or even our standards of conduct.''

Second: size matters. The perils of a small, timid Peace Corps are just as clear today as they were in 1961. Just as then, advocates of a stripped-down mission make the same arguments: sending untrained, untested students only aggravates our host countries and raises the chance of a mishap—so let's send a few experts instead. And just as in 1961, our response is fundamentally the same, and still fundamentally correct: of course we need volunteers of the highest quality. But we need the highest quantities, too.

Third: size comes at a cost. The bigger any organism grows, the slower it gets. The Peace Corps that charted its course in a hotel room with a staff of two now enjoys a staff of over a thousand and a fine office building close to the White House. But even the most groundbreaking ideas must all make, in good time, what the philosopher Gramsci called ''the long march through the institutions.'' And where President Kennedy once predicted that, within a few decades, our Nation would have more than one million returned volunteers, today fewer than 200,000 have had the opportunity to serve.

The legislation I offer today is designed to help the Peace Corps not only grow—and I have joined the many voices calling for it to grow dramatically—but also reform.

To those who know and love the Peace Corps, reform is an uncomfortable subject. After all, we don't want

to destroy what has made this institution so remarkable and unique. There wouldn't be a Peace Corps if JFK had stuck to the script in Ann Arbor. There wouldn't be a Peace Corps if thousands of students, acting on their own initiative, hadn't caught his attention with their movement. There might not be a Peace Corps if Sargent Shriver had listened to the respectable voices of caution in the early days of 1961.

The Peace Corps is unlike any other organ of our government because of its uniquely grassroots origin. And we can't treat it like any other organ of our government for those reasons.

So the Peace Corps Improvement and Expansion Act of 2009 does not include a list of mandates. It does not micromanage.

Instead, it asks those who have written this remarkable success story—from the Director to managers and country directors to current and returned volunteers—to serve once more by undertaking a thorough assessment of the Peace Corps and developing a comprehensive strategic plan for reforming and revitalizing the organization.

Just as JFK's question to those Michigan students sparked the Peace Corps, asking questions today, some 50 years later, I believe will strengthen it. How can volunteers be better managed? How can they be better trained? Can we improve recruiting? Are we sending our volunteers to the right countries? Why do we have volunteers in Samoa and Tonga, but not in Indonesia, Egypt, or Brazil? Are we still achieving the broader goals of the Peace Corps and helping our country meet 21st century challenges?

Most of all: How can we strengthen and grow this remarkable organization without losing the spark—the ambitious sense of the possible that led JFK to stay up late dreaming with those students in Ann Arbor and Sargent Shriver to stay up even later reading Warren Wiggins's paper?

Warren Wiggins died 2 years ago at the age of 84. His obituary quoted Harris Wofford: ''I think he embodied the watchwords that were once given to me: We must be more inventive if we're going to do our duty.''

Inventiveness and duty: two qualities that don't often go together. But the Peace Corps is the result of just such a combination. It has strengthened our Nation, improved the world, and stands today as one of the signal accomplishments of the 20th century. It has been supported by Republican and Democratic administrations over the last 50 years.

As I said at the outset of these remarks, except for my own family, nothing has meant more in my life—or in the lives of so many others—than the experience I enjoyed so many years ago.

Today we honor the accomplishment of this organization. But let us commit to strengthening and expanding the Peace Corps by passing this legislation which I will send to the desk momentarily. Let us strive to inspire future generations to walk the path of service and exploration, the one that led me and thousands of our Nation's citizens to nations such as the Dominican Republic or Ethiopia, where Paul Tsongas served, and then years later to arrive at this institution, which I cherish and love as well. And let us never lose that spirit, that idealism, that ambition that led a young President of a young nation to ask a generation to serve.

By Mr. DURBIN (for himself and Mr. GRASSLEY):

S. 1383. A bill to amend the Controlled Substances Act to prevent the abuse of dextromethorphan, and for other purposes; to the Committee on the Judiciary.

Mr. DURBIN. I rise to introduce the Dextromethorphan Abuse Reduction Act of 2009. This legislation will help prevent the dangerous abuse by minors of cough medicines containing the ingredient dextromethorphan, and will also help education and prevention efforts regarding teen abuse of prescription and nonprescription drugs. I am pleased to be joined by my colleague Senator GRASSLEY of Iowa in sponsoring this legislation, and I look forward to working with him to see it enacted into law.

Dextromethorphan, or DXM, is a cough suppressant commonly found in over-the-counter cold medicines. These medicines are safe and effective when taken in their recommended dosage, but when consumed in large amounts, medicines containing DXM can produce a hallucinogenic high. Teens who abuse cough medicines often refer to the practice as ''Robotripping,'' a term derived from the cough medicine Robitussin which contains DXM. When abused, cold medicines containing DXM can cause a variety of harmful physical effects, including disorientation, impaired physical coordination, abdominal pain, nausea, rapid heartbeat, and seizures. However, medicines containing DXM are legal, inexpensive, and sold at retail stores and over the Internet.

Studies show that teenagers are abusing cough medicines at an alarming rate. A recent study by the Partnership for a Drug-Free America revealed that about 7 percent of teens—or 1.7 million—reported abusing cough medicine in the year 2008. This study also found high rates of teen abuse of other prescription drugs, with 2.5 million teens reporting having abused a prescription pain reliever in 2008. Experts say that cough syrup and prescription drug abuse is significantly underreported.

The Dextromethorphan Abuse Reduction Act would take significant steps to reduce and prevent teen abuse of DXM and other over-the-counter drugs. First, the bill prohibits the sale of products containing DXM to a buyer who is under 18 years old. Several major retailers, including Walgreens, Rite-Aid, and Giant, have already voluntarily agreed not to sell products that contain DXM to purchasers who are under 18, and their retail clerks check IDs to verify the purchaser's age. The legislation would codify these voluntary steps, and would also direct the Justice Department to promulgate regulations ensuring that Internet sales of DXM-containing products comply with these age restrictions. Notably, the legislation prohibits the sale to minors of any product containing DXM, including not just over-the-counter cough medicines but also products containing DXM in its raw, unfinished form. This is important since the abuse of unfinished DXM products has been responsible for several deaths in my home State of Illinois and elsewhere.

Second, this legislation would fund prevention and educational programs to combat over-the-counter and prescription drug abuse. The bill authorizes the Director of National Drug Control Policy to provide money for the creation of a nationwide education campaign directed at teens and their parents regarding the prevention of abuse of prescription and nonprescription drugs. It also authorizes grants to communities for over-the-counter drug abuse awareness and prevention efforts, and provides increased funding to the National Community Anti-drug Coalition Institute to provide training and technical assistance to boost those community-level efforts.

I am pleased that drug manufacturers and drug prevention groups have joined together in support of this legislation. The bill is supported by the Consumer Healthcare Products Association, the Partnership for a Drug-Free America, and the Community Anti-Drug Coalitions of America.

Restricting access by minors to DXM-containing products and increasing awareness for teens and their parents of the potential harms of cough syrup and other over-the-counter drugs will help combat the high rates of teen abuse of these products. I urge my colleagues to support this important legislation.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1383

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Dextromethorphan Abuse Reduction Act of 2009''.

SEC. 2. FINDINGS.

Congress finds the following:

(1) When used properly, cough medicines that contain dextromethorphan have a long history of being safe and effective. But abuse of dextromethorphan at doses that exceed the recommended levels can produce hallucinations, rapid heart beat, high blood pressure, loss of consciousness, and seizures. The dangers multiply when dextromethorphan is abused with alcohol, prescription drugs, or narcotics.

(2) Dextromethorphan is inexpensive, legal, and readily accessible, which has contributed to the increased abuse of the drug, particularly among teenagers.

(3) Increasing numbers of teens and others are abusing dextromethorphan by ingesting it in excessive quantities. Prolonged use at high doses can lead to psychological dependence on the drug. Abuse of dextromethorphan can also cause impaired judgment, which can lead to injury or death.

(4) An estimated 1,700,000 teenagers (7 percent of teens) abused over-the-counter cough medicines in 2008.

(5) The Food and Drug Administration has called the abuse of dextromethorphan a ''serious issue'' and has said that while dextromethorphan, ''when formulated properly and used in small amounts, can be safely used in cough suppressant medicines, abuse of the drug can cause death as well as other serious adverse events such as brain damage, seizure, loss of consciousness, and irregular heart beat.''

(6) In recognition of the problem, several retailers have voluntarily implemented age restrictions on purchases of cough and cold medicines containing dextromethorphan, and several manufacturers have placed language on packaging of cough and cold medicines alerting parents to the dangers of medicine abuse.

(7) Prevention is a key component of the effort to address the rise in the abuse of dextromethorphan and other legal medications. Education campaigns teaching teens and parents about the dangers of these drugs are an important part of this effort.

SEC. 3. SALES OF PRODUCTS CONTAINING DEXTROMETHORPHAN.

(a) SALES OF PRODUCTS CONTAINING DEXTROMETHORPHAN.—

(1) IN GENERAL.—Part D of title II of the Controlled Substances Act (21 U.S.C. 841 et seq.) is amended by adding at the end the following:

''SEC. 424. CIVIL PENALTIES FOR CERTAIN DEXTROMETHORPHAN SALES.

''(a) IN GENERAL.—

''(1) SALE.—

''(A) IN GENERAL.—Except as provided in paragraph (2), it shall be unlawful for any person to knowingly or intentionally sell, cause another to sell, or conspire to sell a product containing dextromethorphan to an individual under 18 years of age, including any such sale using the Internet.

''(B) FAILURE TO CHECK IDENTIFICATION.—If a person fails to request identification from an individual under 18 years of age and sells a product containing dextromethorphan to that individual, that person shall be deemed to have known that the individual was under 18 years of age.

''(C) AFFIRMATIVE DEFENSE.—It shall be an affirmative defense to an alleged violation of subparagraph (A) that the person selling a product containing dextromethorphan examined the purchaser's identification card and, based on that examination, that person reasonably concluded that the identification was valid and indicated that the purchaser was not less than 18 years of age.

''(2) EXCEPTION.—This section shall not apply to any sale made pursuant to a validly issued prescription.

''(3) REGULATIONS.—Not later than 180 days after the date of enactment of this section, the Attorney General shall promulgate regulations for Internet sales of products containing dextromethorphan to ensure compliance with this subsection. The Attorney General may issue interim rules as necessary to ensure that such rules take effect not later than 180 days after the date of enactment of this section.

''(b) CIVIL PENALTY.—

''(1) IN GENERAL.—The Attorney General may file a civil action in an appropriate United States district court to enforce subsection (a).

''(2) MAXIMUM AMOUNT.—Any person who violates subsection (a)(1)(A) shall be subject to a civil penalty in an amount—

''(A) not more than $1,000 for the first violation of subsection (a)(1)(A) by a person;

''(B) not more than $2,000 for the second violation of subsection (a)(1)(A) by a person; and

''(C) not more than $5,000 for the third violation, or a subsequent violation, of subsection (a)(1)(A) by a person.

''(3) EMPLOYEE OR AGENT.—A violation of subsection (a)(1)(A) by an employee or agent of a person shall be deemed a violation by the person as well as a violation by the employee or agent.

''(4) FACTORS.—In determining the amount of a civil penalty under this subsection for a person who is a retailer, a court may consider whether the retailer has taken appropriate steps to prevent subsequent violations, such as—

''(A) the establishment and administration of a documented employee training program to ensure all employees are familiar with and abiding by the provisions of this section; or

''(B) other actions taken by a retailer to ensure compliance with this section.

''(c) DEFINITIONS.—In this section—

''(1) the term 'identification card' means an identification card that—

''(A) includes a photograph and the date of birth of the individual; and

''(B) is—

''(i) issued by a State or the Federal Government; or

''(ii) considered acceptable for purposes of sections 274a.2(b)(1)(v)(A) and 274a.2(b)(1)(v)(B)(1) of title 8, Code of Federal Regulations (as in effect on or after the date of the enactment of the Dextromethorphan Abuse Reduction Act of 2009); and

''(2) the term 'retailer' means a grocery store, general merchandise store, drug store, pharmacy, convenience store, or other entity or person whose activities as a distributor relating to products containing dextromethorphan are limited almost exclusively to sales for personal use, both in number of sales and volume of sales, either directly to walk-in customers or in face-to-face transactions by direct sales.''.

(2) SENSE OF THE SENATE.—It is the sense of the Senate that—

(A) manufacturers of products containing dextromethorphan should continue the practice of including language on packages cautioning consumers about the dangers of dextromethorphan abuse; and

(B) retailers selling products containing dextromethorphan should implement appropriate safeguards to protect against the theft of such products.

(b) PREVENTION FUNDING.—

(1) PRESCRIPTION AND NONPRESCRIPTION DRUG ABUSE PREVENTION GRANTS.—

(A) IN GENERAL.—The Director of National Drug Control Policy shall provide grants to one or more eligible entities for the creation and operation of a nationwide education campaign directed at individuals under the age of 18 years and their parents regarding the prevention of abuse of prescription and nonprescription drugs (including dextromethorphan).

(B) ELIGIBLE ENTITY.—For purposes of subparagraph (A), the term ''eligible entity'' means an organization that—

(i) is a not-for-profit organization;

(ii) has broad national experience and a nationwide presence and capabilities;

(iii) has specific expertise and experience in conducting nationwide education campaigns;

(iv) has experience working directly with parents, teens, people in recovery, addiction scientists, and drug specialists to design drug education programs;

(v) has conducted research upon which to base the campaign specified in subparagraph (A);

(vi) has experience generating news media coverage related to drug prevention;

(vii) is able to secure pro bono media time and space to support the campaign specified in subparagraph (A); and

(viii) has a well-established national Internet presence targeting parents seeking information about drug prevention and intervention.

(C) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $4,000,000, for each of fiscal years 2010 through 2012 to carry out this paragraph.

(D) SUPPLEMENT NOT SUPPLANT.—Grant funds provided under this subsection shall be used to supplement, not supplant, Federal and non-Federal funds available for carrying out the activities described in this subsection.

(2) GRANTS FOR EDUCATION, TRAINING AND TECHNICAL ASSISTANCE TO COMMUNITY COALITIONS.—

(A) IN GENERAL.—The Director of National Drug Control Policy shall award a grant to the entity created by section 4 of Public Law 107–82, as amended by Public Law 109–469 (21 U.S.C. 1521 note), for the development and provision of specially tailored education, training, and technical assistance to community coalitions throughout the nation regarding the prevention of abuse of prescription and nonprescription drugs (including dextromethorphan).

(B) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $1,500,000, for each of fiscal years 2010 through 2012 to carry out this paragraph.

(C) SUPPLEMENT NOT SUPPLANT.—Grant funds provided under this subsection shall be used to supplement, not supplant, Federal and non-Federal funds available for carrying out the activities described in this subsection.

(c) SUPPLEMENTAL GRANTS FOR COMMUNITIES WITH MAJOR PRESCRIPTION AND NONPRESCRIPTION DRUG ISSUES.—

(1) DEFINITIONS.—In this subsection—

(A) the term ''Administrator'' means the Administrator of the Substance Abuse and Mental Health Services Administration;

(B) the term ''drug'' has the meaning given that term in section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321);

(C) the term ''eligible entity'' means an organization that—

(i) before the date on which the organization submits an application for a grant under this subsection, has received a grant under the Drug-Free Communities Act of 1997 (21 U.S.C. 1521 et seq.); and

(ii) has documented, using local data, rates of prescription or nonprescription drug abuse above national averages for comparable time periods, as determined by the Administrator (including appropriate consideration of the Monitoring the Future Survey by the University of Michigan);

(D) the term ''nonprescription drug'' has the meaning given that term in section 760 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 379aa); and

(E) the term ''prescription drug'' means a drug described in section 503(b)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 353(b)(1)).

(2) AUTHORIZATION OF PROGRAM.—From amounts made available to carry out this subsection, the Administrator, in consultation with the Director of the Office of National Drug Control Policy, shall make enhancement grants to eligible entities to implement comprehensive community-wide strategies regarding the prevention of abuse of prescription and nonprescription drugs (including dextromethorphan).

(3) APPLICATION.—

(A) IN GENERAL.—An eligible entity seeking an enhancement grant under this subsection shall submit an application to the Administrator at such time, in such manner, and accompanied by such information as the Administrator may require.

(B) CRITERIA.—As part of an application for a grant under this subsection, the Administrator shall require an eligible entity to submit a detailed, comprehensive, multisector plan for addressing abuse of prescription and nonprescription drugs (including dextromethorphan).

(4) USES OF FUNDS.—An eligible entity that receives a grant under this subsection shall use the grant funds for implementing a comprehensive, community-wide strategy that addresses abuse of prescription and nonprescription drugs (including dextromethorphan) in that community, in accordance with the plan submitted under paragraph (3)(B).

(5) GRANT TERMS.—A grant under this subsection—

(A) shall be made for a period of not more than 4 years; and

(B) shall not be in an amount of more than $100,000 per year.

(6) SUPPLEMENT NOT SUPPLANT.—Grant funds provided under this subsection shall be used to supplement, not supplant, Federal and non-Federal funds available for carrying out the activities described in this subsection.

(7) EVALUATION.—A grant under this subsection shall be subject to the same evaluation requirements and procedures as the evaluation requirements and procedures required of the recipient of a grant under the Drug-Free Communities Act of 1997 (21 U.S.C. 1521 et seq.).

(8) ADMINISTRATIVE EXPENSES.—Not more than 6 percent of a grant under this subsection may be expended for administrative expenses.

(9) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $4,000,000 for each of fiscal years 2010 through 2012 to carry out this subsection.

(d) DATA COLLECTION.—It is the sense of the Senate that Federal agencies and grantees that collect data on drug use trends should ensure that the survey instruments used by such agencies and grantees include questions to ascertain changes in the trend of abuse of prescription and nonprescription drugs (including dextromethorphan).

(e) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) IN GENERAL.—Section 201(g) of the Controlled Substances Act (21 U.S.C. 811(g)) is amended—

(A) by striking paragraph (2); and

(B) by redesignating paragraph (3) as paragraph (2).

(2) TABLE OF CONTENTS.—The table of contents for the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Public Law 91–513; 84 Stat. 1236) is amended by inserting after the item relating to section 423 the following:

''Sec. 424. Civil penalties for certain dextromethorphan sales.''

By Mr. WYDEN (for himself and Mr. CHAMBLISS):

S. 1387. A bill to enable the Director of National Intelligence to transfer full-time equivalent positions to elements of the intelligence community to replace employees who are temporarily absent to participate in foreign language training, and for other purposes; to the Select Committee on Intelligence.

Mr. WYDEN. Mr. President, today I am introducing legislation that I hope will enable our national intelligence agencies to increase their employees' proficiency in critical foreign languages. I have been a member of the Senate Intelligence Committee for over eight years, and during that time I have sat in a number of briefings and hearings that addressed foreign language capabilities. While specific details regarding the intelligence community's capabilities are generally classified, it is no secret that there is still a great need for more analysts and agents trained in key foreign languages. Over the past few years there have been a number of new initiatives designed to address this problem from different angles, and even newer initiatives are being introduced this year. The legislation that I am introducing today, which I have drafted along with Senator CHAMBLISS of Georgia, is not designed to replace any of those initiatives—rather, we think it will complement those other initiatives by filling a key gap.

Let me explain this gap a little, so it will be clear what problem we are trying to fix. Most efforts to improve the language capabilities of various intelligence agencies focus on recruiting Americans who have a background in critical foreign languages—either from their education, or from their family. But this only attacks the problem from one angle. If you want the national security workforce to have the strongest language skills possible, you also need to improve language training for people who already work for the intelligence agencies. This means both teaching the basics of key languages to more people, and helping people who are already proficient improve their skills further. Unfortunately, language training is time-intensive, and this can mean that personnel are diverted from short-term priorities.

Here is an example of how this problem might crop up in practice. Imagine that you are the supervisor of a group of 10 people somewhere in the intelligence community, working on counterterrorism issues, and that one of those employees decides he wants to go spend several months in intensive language training to improve his Arabic. This would be a good career move for that individual, and a good long-term investment for your agency. But for you, the supervisor, it means that you might be short-handed for several months while one of your employees is off getting language training. Since you have a fixed number of positions available for your office, it is difficult for you to replace someone while they are gone. This means that as the supervisor you actually have an incentive to resist letting that employee head off for language training, since it will leave your team less well-equipped to meet short-term priorities.

I am not saying that all supervisors within the intelligence community are focused solely on short-term priorities, to the detriment of our long-term security interests. But I am saying that if we want our intelligence agencies to effectively balance short- and long-term priorities, we need to give them incentives that encourage them to do so, and not penalize people who try to balance short-term needs and long-term goals.

Here is how the bipartisan legislation that Senator CHAMBLISS and I are introducing today would attempt to address this problem. Our bill would give the Director of National Intelligence the authority to transfer additional positions to offices whose personnel are temporarily unavailable due to language training. The Director of National Intelligence is uniquely situated to evaluate which offices are most in need of these extra positions, and could transfer them to the places where they would do the most good.

So, to return to my previous example, if you were the supervisor of a young counterterrorism analyst who wants to take 6 months to go learn Arabic, you could go ask the Director of National Intelligence to transfer an extra position to your office for that 6 month period. That way, you could bring someone else in on a temporary basis to do that analyst's work while they are gone for training. The analyst and the agency would get the long-term benefits of additional language training, and you, the supervisor, would not have to sacrifice in the short-term.

Senator CHAMBLISS and I do not claim that this legislation will revolutionize the intelligence community's language capabilities overnight. But it is our hope that it will make it easier than it is today for managers to balance short- and long-term priorities. If we can achieve that it will be good for

our national intelligence workforce, and for our national security interests.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 206—EXPRESSING THE SENSE OF THE SENATE THAT THE UNITED STATES SHOULD IMMEDIATELY IMPLEMENT THE UNITED STATES-COLOMBIA TRADE PROMOTION AGREEMENT

Mr. JOHANNS (for himself, Mrs. HUTCHISON, Mr. BUNNING, Mr. ROBERTS, Mr. MARTINEZ, and Mr. BOND) submitted the following resolution; which was referred to the Committee on Finance:

S. RES. 206

Whereas, since his election in 2002, the President of Colombia, Alvaro Uribe, has been overwhelmingly successful in strengthening the institutions of Colombia, fighting terrorism, improving the economy of Colombia, and extending the authority of the central government, the social support network, and security to most of Colombia;

Whereas, during President Uribe's term, the economy of Colombia grew at an average rate of more than 5 percent per year between 2002 and 2007;

Whereas, according to the World Bank, the total gross domestic product of Colombia increased from $93,000,000,000 in 2002 to $207,800,000,000 in 2007;

Whereas, according to the Office of the United States Trade Representative, approximately 10,000,000 people in Colombia have been lifted out of poverty during the past 5 years;

Whereas, according to the Ministry of Defense of Colombia, between 2002 and 2007, kidnappings in Colombia decreased by 83 percent, murders decreased by 40 percent, and terrorist attacks decreased by 76 percent;

Whereas police are now present in all 1,099 municipalities in Colombia, including areas previously held by various criminal and terrorist groups;

Whereas, according to the Department of State, more than 30,000 paramilitaries have been demobilized and disarmed since 2002;

Whereas, in July 2008, the security forces of Colombia successfully rescued 15 prisoners held hostage by the Revolutionary Armed Forces of Colombia (FARC), including French-Colombian Ingrid Betancourt and 3 citizens of the United States, Marc Gonsalves, Keith Stansell, and Thomas Howes;

Whereas, according to the Office of the United States Trade Representative, unemployment in Colombia fell from 16 percent in 2002 to 9.9 percent in 2007;

Whereas, partially in recognition of the impressive economic, political, and diplomatic advances Colombia has made during the past decade, the United States negotiated and signed the United States–Colombia Trade Promotion Agreement on November 22, 2006, and a protocol of amendment to the Agreement on June 28, 2007;

Whereas, according to the Office of the United States Trade Representative, Colombia is currently the 27th largest trading partner of the United States with respect to goods;

Whereas, according to the United States International Trade Commission, goods valued at $11,400,000,000 were exported from the United States to Colombia in 2008, an increase from $3,600,000,000 in 2002;

Whereas, according to the United States International Trade Commission, implementing the United States–Colombia Trade Promotion Agreement would boost exports from the United States by an estimated $1,100,000,000;

Whereas, more than 90 percent of exports from Colombia to the United States already enter the United States duty-free under the Andean Trade Preference Act (19 U.S.C. 3201 et seq.) and the Generalized System of Preferences under title V of the Trade Act of 1974 (19 U.S.C. 2461 et seq.);

Whereas, according to the Office of the United States Trade Representative, more than 80 percent of consumer and industrial products exported from the United States to Colombia will enter Colombia duty-free as soon as the United States–Colombia Trade Promotion Agreement enters into force and all remaining tariffs on such products will be eliminated within 10 years after the Agreement enters into force;

Whereas, according to the Office of the United States Trade Representative, the primary exports from the United States to Colombia in 2008 were $2,600,000,000 in machinery, $997,000,000 in mineral fuel, $974,000,000 in organic chemicals, $969,000,000 in corn and wheat cereals, and $950,000,000 in electrical machinery;

Whereas, according to the Office of the United States Trade Representative, Colombia is the 15th largest market for farm products exported from the United States, with the United States exporting almost $1,700,000,000 worth of farm products to Colombia in 2008;

Whereas, since 2006, the quantity of agricultural products exported from the United States to Colombia has increased by approximately 40 percent per year;

Whereas, according to the Department of Agriculture, 99.9 percent of agricultural products imported into the United States from Colombia enter the United States duty-free, but no agricultural products exported from the United States to Colombia currently enter Colombia duty-free;

Whereas, according to the American Farm Bureau Federation, the United States–Colombia Trade Promotion Agreement would increase sales of agricultural products produced in the United States by $910,000,000,000 each year;

Whereas, according to the Department of Agriculture, more than half of agricultural products exported from the United States to Colombia will enter Colombia duty-free as soon as the United States–Colombia Trade Promotion Agreement enters into force and all remaining tariffs on such products will be phased out over time;

Whereas the United States–Colombia Trade Promotion Agreement will level the playing field for workers, businesses, and farmers in the United States by making duty-free treatment a 2-way street between the United States and Colombia for the first time;

Whereas, in the United States–Colombia Trade Promotion Agreement, Colombia agreed to exceed commitments made by Colombia as a member of the World Trade Organization and to dismantle significant barriers to services and investment from the United States; and

Whereas, in the United States–Colombia Trade Promotion Agreement, the United States and Colombia reaffirm their obligations as members of the International Labour Organization: Now, therefore, be it

Resolved, That—

(1) the Senate—

(A) recognizes the historic successes achieved by the President of Colombia, Alvaro Uribe, in rebuilding the Government of Colombia, strengthening the institutions of Colombia, and solidifying the rule of law in Colombia;

(B) congratulates President Uribe, the Government of Colombia, and the security forces of Colombia for significant successes in fighting the Revolutionary Armed Forces of Colombia (FARC);

(C) recognizes the close ties between the United States and Colombia in the fight against illicit narcotics, terrorism, and transnational crime; and

(D) recognizes that the United States–Colombia Trade Promotion Agreement is enormously advantageous for workers, businesses, and farmers in the United States, who would be able to export goods to Colombia duty-free for the first time; and

(2) it is the sense of that Senate that—

(A) it is in the security, economic, and diplomatic interests of the United States to deepen the relationship between the United States and Colombia; and

(B) the United States should implement the United States–Colombia Trade Promotion Agreement immediately.

Mr. JOHANNS. Mr. President, I rise today to speak about the United States-Colombia Free Trade Agreement which was signed way back in November of 2006. On July 29, President Uribe will be visiting the United States to meet with our President, President Obama. The two have previously met at the Summit of Americas in April, but this will be President Uribe's first time here under the new administration.

Today, as one Senator, I rise to express my hope for a continuing bond in our relationship with Colombia's President Uribe. I also rise to express some concerns that I will talk about. I am happy that President Obama recognizes the importance of our closest ally in South America. I am also pleased President Uribe continues to seek a close relation with the United States, for he is truly a courageous and a visionary leader.

Coming to power in some of the darkest and most vicious days of a Marxist insurgency everywhere in that country, he has pulled Colombia back from the brink. President Uribe has driven the terrorists from much of their territory in Colombia's cities, boosted the economy, and he has improved Colombia's human rights record.

If an American President had achieved this much, some would be clamoring for him or her to seek a third term. The same is true in Colombia, where despite term limits, Uribe is actually being petitioned to run again.

His achievements are very impressive. During President Uribe's time in office, the economy grew at an average rate of over 5 percent over the past 5 years.

According to the World Bank, Colombia's GDP growth then grew 7.5 percent in 2007, far surpassing the average in

Latin America. Ten million Colombians have been lifted out of poverty, unemployment has fallen from double digits—16 percent in 2002—to 9.9 percent in 2007.

Crime has been a historic problem in Colombia. Yet, under President Uribe's stewardship, kidnapings have declined 83 percent, murders are down by 40 percent, terrorist attacks are down by 76 percent. Every single one of Colombia's 1,099 municipalities now have a police presence. Finally, at long last, Colombia appears to be winning the war against the terrorists who have made life miserable for far too many years.

Last summer, the world was treated to the images of smiling U.S., French, and Colombian hostages when a daring Colombian Army raid freed them from the terrorists. These included three U.S. defense contractors and one hostage who had been held since February of 2002.

The U.S. State Department estimates that over 30,000 paramilitaries and terrorists have been disarmed and demobilized—an impressive number.

I look to the future in this relationship, but I will be very candid. I am concerned about the present. I speak of the Colombia trade agreement that is languishing in the executive branch. We should, in my judgment, be embarrassed by this inaction. I recognize the populism of opposing trade, but I cannot understand the opposition to the Colombian Free Trade Agreement. It levels the playing field for U.S. workers and farmers and small businesses. Over 90 percent of Colombia's exports to the United States already enter this country duty free. They have for years, under the Andean Trade Preferences Act and other previous agreements.

Meanwhile, U.S. exports to Colombia face high tariffs. They can be as high as 35 percent, a tax on our goods going into Colombia. In spite of these restrictions, Colombia is America's 27th largest trading partner.

An International Trade Commission study estimated that the United States-Colombia Free Trade Agreement would boost U.S. exports by $1.1 billion. Do my colleagues and others who oppose this deal think the U.S. economy is so robust it does not need another billion-dollar-plus market? Are things that rosy? I suggest not.

I come from a farm State where we are especially eager to open new markets. Virtually 100 percent of Colombia's agricultural products enter the United States duty free. Zero percent of U.S. agricultural exports enter Colombia duty free.

This FTA wipes out those differences. It levels the playing field. Tariffs would immediately disappear for 80 percent of U.S. exports into Colombia and the rest phase out over time. The potential for dramatic increases in our exports, in my judgment, is very clear.

Consider this: Even with the tariff imbalance our agricultural exports to Colombia totaled almost $1.7 billion in 2008. In spite of all of the current tariffs, corn and wheat cereals are one of the major U.S. exports to Colombia. Last year we sold $969 million worth, as well as $2.6 billion in machinery.

By anybody's definition these are very big numbers, and on a level playing field—which is what the FTA will do—they will be even bigger, with a potential to create thousands of jobs in an economy that needs every job.

These statistics clearly show the FTA we have negotiated with Colombia is not a blind leap into the unknown. Colombia already essentially has free trade with us, an open border. This FTA levels the playing field for America's farmers and ranchers and U.S. businesses.

Did you know more than 8,000 small- and medium-size businesses in our country export to Colombia? For them, the elimination of these tariffs would blow open the door of opportunity.

Congress should not be in the business of creating hurdles for the United States overseas, nor should the executive branch. Yet here we have a clear pathway to eliminate a huge hurdle with a simple nod of approval. Yet we have failed to act.

The economic justification speaks for itself, but it is just one of the several compelling reasons to ratify this agreement immediately. Perhaps as persuasive is the political situation in Latin America. Since his rise to power in Venezuela in 1998, Hugo Chavez has reinvigorated the radical Latin-American left. He has formed a block of anti-American countries in South and Central America composed of Cuba, Nicaragua, Bolivia, and, increasingly, Ecuador.

During an audacious raid on the Ecuador border, Colombian military units captured evidence detailing the Venezuelan Government's extensive support for the terrorists. Venezuela has used its petroleum money to buy friends and influence people throughout the hemisphere, and too often they have succeeded. Our friend in Colombia has stoutly resisted this siren song. When too many other nations have drifted into cheap anti-U.S. populism, Colombia has stood strong, and has traveled precisely the opposite way.

So while President Uribe is here in our Nation and is meeting with our President, I hope the President of the United States will do the right thing and stand firmly in support of completing the FTA that has been negotiated. It is time for the administration to show great leadership on this issue, which is at every level, in my judgment, just good common sense.

However, Congress cannot shirk its responsibility for the lack of action on the Colombia FTA. While the administration needs to step to the mound, Congress must step up to the plate and swing for the fences. This agreement was signed and it was sealed and it was delivered two and a half years ago. It is an unbelievable opportunity for our farmers, our ranchers, and our small businesses. It is waiting right here at our doorstep. All it needs is our nod of approval.

That is why today I introduce a resolution recognizing the benefits of the Colombian Free Trade Agreement. I encourage my colleagues to cosponsor this resolution and to implore the leadership to allow it to come to a vote.

Rarely has an initiative with benefits this crystal clear faced such a rocky and uncertain road. The time to level the playing field for farmers and ranchers and small businesses is here. It is upon us.

Mr. ALEXANDER. Mr. President, I congratulate the Senator from Nebraska on his resolution to recognize the importance of the United States continuing to trade in the world, especially with our friends in Latin America, especially when they are already taking advantage of low tariffs with us and we are not taking advantage of low tariffs with them. Our principal concern on the Republican side, and I am sure for many Democrats, too, is the cost of living for middle-class families in America. There are many issues that come before us that deal with that—the level of taxes, the level of tuition, that we get Medicaid spending under control so States will be able to fund the Universities of Nebraska and Tennessee better—but another way to do that is to trade with the world.

People walk into stores in America, and they are looking, today, in bad economic times, for low costs. Are we going to erect barriers and raise costs? Are we going to say to families who do not have many extra dollars that it is in our national interest to raise our costs? Are we going to keep out of our country people with products and ideas causing them to keep our products and ideas out of their country? Are we that afraid of competing in the world?

We Tennesseans have been much better off since Federal Express started flying in China and Nissan started building cars in Tennessee. Federal Express employs 30,000 people in the Memphis, TN, area, and Nissan just announced this week it is going to build electric cars, not in Japan but in Smyrna, TN. That is because we trade with the world. So this creeping protectionism that we see is a threat to the middle-class budget of every American.

Senator JOHANNS has made an important step toward change.

SENATE CONCURRENT RESOLUTION 31—PROVIDING FOR A CONDITIONAL ADJOURNMENT OR RECESS OF THE SENATE, AND A CONDITIONAL ADJOURNMENT OF THE HOUSE OF REPRESENTATIVES

Mr. REID submitted the following concurrent resolution; which was considered and agreed to:

S. CON. RES. 31

Resolved by the Senate (the House of Representatives concurring),

That when the Senate recesses or adjourns on any day from Thursday, June 25, 2009 through Sunday, June 28, 2009, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it stand recessed or adjourned until noon on Monday, July 6, 2009, or such other time on that day as may be specified by its Majority Leader or his designee in the motion to recess or adjourn, or until the time of any reassembly pursuant to section 2 of this concurrent resolution, whichever occurs first; and that when the House adjourns on any legislative day from Thursday, June 25, 2009, through Sunday, June 28, 2009, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it stand adjourned until 2:00 p.m. on Tuesday, July 7, 2009, or such other time on that day as may be specified in the motion to adjourn, or until the time of any reassembly pursuant to section 2 of this concurrent resolution, whichever occurs first.

SEC. 2. The Majority Leader of the Senate and the Speaker of the House, or their respective designees, acting jointly after consultation with the Minority Leader of the Senate and the Minority Leader of the House, shall notify the Members of the Senate and the House, respectively, to reassemble at such place and time as they may designate if, in their opinion, the public interest shall warrant it.

SENATE CONCURRENT RESOLUTION 32—A BILL EXPRESSING THE SENSE OF CONGRESS ON HEALTH CARE REFORM LEGISLATION

Mr. MENENDEZ submitted the following concurrent resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. CON. RES. 32

Whereas consumers may continue to confront a variety of problems with a reformed health care system;

Whereas those problems may range from difficulties in choosing an appropriate health plan, problems with calculation of premiums and cost-sharing, the possibility of a denial of benefits, and issues with enrollment and access to providers;

Whereas the Institute of Medicine estimates that as many as 30 percent of people in the United States suffer from health treatment illiteracy;

Whereas the Office of Disease Prevention and Health Promotion of the Department of Health and Human Services reports that only 12 percent of the population can use a table to calculate the share of health insurance costs for an individual;

Whereas a study by RAND Corporation found that increasing the ease of access to information regarding insurance products and simplifying the application process would increase purchase rates of insurance products as much as modest subsidies would;

Whereas the reports from the Institute of Medicine, the Office of Disease Prevention and Health Promotion, and RAND Corporation prove there is a need for a fundamental improvement in the manner in which consumers learn about insurance choices;

Whereas many consumers lack avenues or mechanisms to present grievances both to the managers of health plans and to external reviewers and fail to receive timely decisions with respect to those grievances;

Whereas consumers often need expert guidance to pursue claims for denied health care benefits and other coverage disputes;

Whereas some States have documented a number of cases of improperly rescinded health insurance policies, inappropriate billing for out-of-network services, and fraudulent and deceptive marketing of health plans;

Whereas the Federal Government lacks oversight mechanisms to prevent health care coverage problems from recurring in other States;

Whereas the appropriate resolution of a health coverage complaint may involve multiple Federal and State agencies;

Whereas health plans sometimes make mid-year changes to provider networks, benefit offerings, or other elements of the plan important to enrollees;

Whereas people need assistance enforcing consumer rights in the health care system; and

Whereas Federal laws have created successful models of consumer assistance with health dispute resolution, such as the Long Term Care Ombudsman program that assists nursing home residents in every State and the Senior Health Insurance Assistance Program that assists those eligible for Medicare: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that any health care reform legislation should include, with respect to health plans—

(1) support for consumer education and assistance with enrollment, particularly for vulnerable populations, at both the Federal and State levels;

(2) assistance for people asserting consumer rights;

(3) a strengthened system of consumer protections, including—

(A) an appeal mechanism within a health plan, and an appeal mechanism with an external entity independent of the health plan, which could address a variety of coverage problems;

(B) coverage for emergency care without prior authorization;

AMENDMENTS SUBMITTED AND PROPOSED

SA 1365. Mr. NELSON of Nebraska (for himself and Ms. MURKOWSKI) proposed an amendment to the bill H.R. 2918, making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes.

SA 1366. Mr. MCCAIN proposed an amendment to amendment SA 1365 proposed by Mr. NELSON of Nebraska (for himself and Ms. MURKOWSKI) to the bill H.R. 2918, supra.

SA 1367. Mr. DEMINT submitted an amendment intended to be proposed by him to the bill H.R. 2918, supra; which was ordered to lie on the table.

SA 1368. Mr. DEMINT submitted an amendment intended to be proposed by him to the bill H.R. 2918, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 1365. Mr. NELSON of Nebraska (for himself and Ms. MURKOWSKI) proposed an amendment to the bill H.R. 2918, making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes; as follows:

Strike all after the enacting clause and insert the following:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the legislative branch for the fiscal year ending September 30, 2010, and for other purposes, namely:

TITLE I

LEGISLATIVE BRANCH

SENATE

EXPENSE ALLOWANCES

For expense allowances of the Vice President, $20,000; the President Pro Tempore of the Senate, $40,000; Majority Leader of the Senate, $40,000; Minority Leader of the Senate, $40,000; Majority Whip of the Senate, $10,000; Minority Whip of the Senate, $10,000; Chairmen of the Majority and Minority Conference Committees, $5,000 for each Chairman; and Chairmen of the Majority and Minority Policy Committees, $5,000 for each Chairman; in all, $180,000.

REPRESENTATION ALLOWANCES FOR THE MAJORITY AND MINORITY LEADERS

For representation allowances of the Majority and Minority Leaders of the Senate, $15,000 for each such Leader; in all, $30,000.

SALARIES, OFFICERS AND EMPLOYEES

For compensation of officers, employees, and others as authorized by law, including agency contributions, $178,982,000, which shall be paid from this appropriation without regard to the following limitations:

OFFICE OF THE VICE PRESIDENT

For the Office of the Vice President, $2,517,000.

OFFICE OF THE PRESIDENT PRO TEMPORE

For the Office of the President Pro Tempore, $752,000.

OFFICES OF THE MAJORITY AND MINORITY LEADERS

For Offices of the Majority and Minority Leaders, $5,212,000.

OFFICES OF THE MAJORITY AND MINORITY WHIPS

For Offices of the Majority and Minority Whips, $3,288,000.

COMMITTEE ON APPROPRIATIONS

For salaries of the Committee on Appropriations, $15,844,000.

CONFERENCE COMMITTEES

For the Conference of the Majority and the Conference of the Minority, at rates of compensation to be fixed by the Chairman of each such committee, $1,726,000 for each such committee; in all, $3,452,000.

OFFICES OF THE SECRETARIES OF THE CONFERENCE OF THE MAJORITY AND THE CONFERENCE OF THE MINORITY

For Offices of the Secretaries of the Conference of the Majority and the Conference of the Minority, $850,000.

POLICY COMMITTEES

For salaries of the Majority Policy Committee and the Minority Policy Committee,

$1,763,000 for each such committee; in all, $3,526,000.

OFFICE OF THE CHAPLAIN

For Office of the Chaplain, $415,000.

OFFICE OF THE SECRETARY

For Office of the Secretary, $25,790,000.

OFFICE OF THE SERGEANT AT ARMS AND DOORKEEPER

For Office of the Sergeant at Arms and Doorkeeper, $70,000,000.

OFFICES OF THE SECRETARIES FOR THE MAJORITY AND MINORITY

For Offices of the Secretary for the Majority and the Secretary for the Minority, $1,836,000.

AGENCY CONTRIBUTIONS AND RELATED EXPENSES

For agency contributions for employee benefits, as authorized by law, and related expenses, $45,500,000.

OFFICE OF THE LEGISLATIVE COUNSEL OF THE SENATE

For salaries and expenses of the Office of the Legislative Counsel of the Senate, $7,154,000.

OFFICE OF SENATE LEGAL COUNSEL

For salaries and expenses of the Office of Senate Legal Counsel, $1,544,000.

EXPENSE ALLOWANCES OF THE SECRETARY OF THE SENATE, SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE, AND SECRETARIES FOR THE MAJORITY AND MINORITY OF THE SENATE

For expense allowances of the Secretary of the Senate, $7,500; Sergeant at Arms and Doorkeeper of the Senate, $7,500; Secretary for the Majority of the Senate, $7,500; Secretary for the Minority of the Senate, $7,500; in all, $30,000.

CONTINGENT EXPENSES OF THE SENATE

INQUIRIES AND INVESTIGATIONS

For expenses of inquiries and investigations ordered by the Senate, or conducted under paragraph 1 of rule XXVI of the Standing Rules of the Senate, section 112 of the Supplemental Appropriations and Rescission Act, 1980 (Public Law 96–304), and Senate Resolution 281, 96th Congress, agreed to March 11, 1980, $145,500,000.

EXPENSES OF THE UNITED STATES SENATE CAUCUS ON INTERNATIONAL NARCOTICS CONTROL

For expenses of the United States Senate Caucus on International Narcotics Control, $520,000.

SECRETARY OF THE SENATE

For expenses of the Office of the Secretary of the Senate, $2,000,000.

SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE

For expenses of the Office of the Sergeant at Arms and Doorkeeper of the Senate, $153,601,000, which shall remain available until September 30, 2014.

MISCELLANEOUS ITEMS

For miscellaneous items, $19,145,000, of which up to $500,000 shall be made available for a pilot program for mailings of postal patron postcards by Senators for the purpose of providing notice of a town meeting by a Senator in a county (or equivalent unit of local government) at which the Senator will personally attend: *Provided*, That any amount allocated to a Senator for such mailing shall not exceed 50 percent of the cost of the mailing and the remaining cost shall be paid by the Senator from other funds available to the Senator.

SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

ADMINISTRATIVE PROVISIONS

SEC. 101. (a) REQUIRING AMOUNTS REMAINING IN MEMBERS' REPRESENTATIONAL ALLOWANCES TO BE USED FOR DEFICIT REDUCTION OR

TO REDUCE THE FEDERAL DEBT.—Notwithstanding any other provision of law, any amounts appropriated under this Act for ''House of Representatives—Salaries and Expenses—Members' Representational Allowances'' shall be available only for fiscal year 2010. Any amount remaining after all payments are made under such allowances for fiscal year 2010 shall be deposited in the Treasury and used for deficit reduction (or, if there is no Federal budget deficit after all such payments have been made, for reducing the Federal debt, in such manner as the Secretary of the Treasury considers appropriate).

(b) REGULATIONS.—The Committee on House Administration of the House of Representatives shall have authority to prescribe regulations to carry out this section.

(c) DEFINITION.—As used in this section, the term ''Member of the House of Representatives'' means a Representative in, or a Delegate or Resident Commissioner to, the Congress.

SEC. 102. Effective with respect to fiscal year 2010 and each succeeding fiscal year, the aggregate amount otherwise authorized to be appropriated for a fiscal year for the lumpsum allowance for each of the following offices is increased as follows:

(1) The allowance for the office of the Majority Whip is increased by $96,000.

(2) The allowance for the office of the Minority Whip is increased by $96,000.
