But if you look at all of the different agencies involved, you will see that we've got the Federal Energy Regulatory Commission involved. We've got the United States Department of Agriculture that's going to be involved. The Internal Revenue Service will be engaged in this bill as well. The Department of the Treasury. I wish I could tell you what FWS was, but somebody could probably tell me. We have the Commodity Futures Trading Commission that's going to be involved in helping to regulate this. The National Oceanic and Atmospheric Administration, the Weather Service, basically. The Department of Health and Human Services is going to be involved in putting this together. The Department of State will play a big role in making sure that we get cleaner air and green energy. We've got the Department of Energy, of course, the Department of Labor, the U.S. Army Corps of Engineers, the Bureau of Indian Affairs, and the Bureau of Land Management. All these Federal agencies are going to take part in trying to put this bill into action.

But that's not all. Not even close. We've got the Offsets Integrity Advisory Board. We also have a Carbon Markets Oversight Interagency Working Group that is going to try to help control who gets these carbon credits and who doesn't, how they can be traded and how they can't, and where in the world these offsets are going to be.

They don't have to be in the United States. We're going to see billions of American tax dollars being shipped around the world. Whether it's replanting forests in other parts of the world, they're going to help clean up our air. I'm sure our constituents want our money being shipped overseas to plant trees.

But that's not all. That's not all. It's not even close. We've got the Consumer Refunds Fund that is going to be outlined here. We've got the International Reserve Allowance Program here. How about the domestic offset providers? We've got the offset traders and the national offset providers. We've got the Clean Vehicle Technical Advisory Board. We have a Carbon Capture Board. And it goes on and on and on.

This elaborate government structure that will cost the American people several trillion dollars over the next 10 years, all in an effort to clean up our air, will help build a new alternative energy industry in the United States and help create jobs in our country. I don't believe there are hardly any people in America who believe that this giant government bureaucracy is going to be able to deliver on the three goals that you outline.

And it's not just the cost, and it's not just the bureaucracy. Listen, there's not a Member in this body that doesn't want to improve the air quality in our country and around the world. There isn't a Member in this body who doesn't believe that speeding up the development of alternative sources of energy isn't good for America. No one. There's complete agreement on that.

But do we need to go through all of this? Do we need to have a national energy tax on every person in America who would drive a car, who would flip on a light switch or who would buy an American-made product, because virtually every American-made product has an awful lot of energy in it.

That's not enough. If you look at this bill and you look at the analysis of this bill, you'll see that two-and-a-half million jobs on average will be lost each and every year over the next 10 years as a result of this bill. Some of those people happen to reside in my district, in Middletown, Ohio, where AK Steel is headquartered. They make steel the old-fashioned way. They bring in iron ore, coal and limestone. You get it hot enough, you've got steel. The cost of their steel will increase 30 to 40 percent if this bill were to pass. And at a time when we're trying to help the American automobile industry get back on its feet, the last thing they're going to do is pay 30 or 40 percent more for their steel.

So what are they going to do? They're going to bring it in from China, they'll bring it in from India, who are not burdened under this regulatory scheme, nor are they burdened under our current environmental regulations. So what happens is, high-energy jobs in America are going to get shipped overseas at exactly the wrong time.

The American people sent us here to help this economy, to get them back to work. This is the biggest job-killing bill that has ever been on the floor of the House of Representatives, right here, this bill, and I don't think that's what the American people want.

But if our goals are to clean up the air, to build a alternative energy business in the United States, a thriving one, and to create jobs, there's a better way to do this, and it's the all-of-the-above strategy that we've been talking about in this Chamber for nearly a year. That is to say, we need to have more alternative sources, whether they be solar, wind, geothermal.

We can produce those additional types of energy and help renew them. But, in the meantime, America needs energy to grow our economy, so we need to have more drilling for oil and gas in the United States. There's no question about it. We need to increase the supply of American-made energy so that we bring down the price.

What we do in our bill is, we take all the royalties from the development of additional oil and gas reserves in the United States and we plow it back into renewable sources of energy. As a result, our bill puts more money into renewables and speeding up the development of renewables at a faster pace than the bill on the floor of the House today.

That's not enough. We need to do all of the above. We need to develop clean coal technology. We need to be serious about nuclear energy. There's nothing in this bill before us that's going to allow us to produce nuclear energy in any kind of a quick way, or, frankly, any at all. But we all know it's the cleanest source of energy that we can have in the United States. So why shouldn't we do all of the above?

Because here's what all-of-the-above does for us: It gives us cleaner air. It gives us lower energy prices. It really

does move us quickly away from our dependence on all the foreign sources of oil that we have to rely on today. And it will do more in a very simple way than this big complex bureaucracy that is being outlined in this bill.

Why can't we do all of the above? Why do we have to try to establish this giant structure that attempts to put some cap in, but really doesn't, when we can do something simple that will help lower prices for Americans while cleaning up the air and moving us to alternative sources of energy. No, that's not what we're dealing with here today.

And if all of this wasn't enough, I woke up this morning and realized that last night at 3:09 a.m., a 300-page manager's amendment was dropped into the hopper, at 3:09 a.m.

□ 1745

I have spent most of the day trying to look at this 309-page bill and trying to come up with and understand what this 309-page amendment to the 1,200-page bill really does? As I started to go through this, I didn't get past the first page, where on page 16, line 5 strike 1992 and insert 1988, and on line 13 strike 1992 and insert 1988. This appears to deal with the hydropower, and I'm trying to figure out what is the impact of this date change? Nowhere in this manager's amendment can I find out what the impact of that is.

Then we get to page 2, not from components of the National Wilderness Preservation System, Wilderness Study Areas, Inventoried Roadless Areas or old growth stands and late-successional stands. So does this mean that renewable biomass is not defined by what it is but rather where it comes from? And why was this change made at 3:09 a.m. this morning?

We get to page 9, the President shall ensure that, of the total amount of electricity Federal agencies consume in the United States during each calendar year, the following percentage shall be renewable electricity.

We are going to mandate to every Federal agency how much electricity they buy that comes from renewable sources. And in here we have this year, 2012, 6 percent, 2013, 6 percent, 2014 we go to 9½ percent, 2016 we go to 13 percent. 2018 we go to 16½ percent. And 2020 through 2039, 20 percent of the electricity that goes into every Federal agency has to come from renewable sources. Do we have any idea whether this is possible? I can't find the answer here.

On Page 10 it says, contracts for renewable energy, a contract for the acquisition of electricity generated from a renewable energy resource for the Federal Government may be made for a period of not more than 20 years. Twenty-year contracts. What if the price of renewable energy goes down? Are taxpayers going to be stuck with a contract that is written today as opposed to what that contract could be negotiated for 10 years from now? I can't tell, because there is no answer here.

Or we get on page 12, renewable biomass. The term ''renewable'' means any of the following. And it goes through of this language. Of course, there is nothing renewable in a National Wilderness Preservation System or a Wilderness Study Area or Inventoried Roadless Areas or old growth stands or late-successional stands except for dead, severely damaged or badly infested trees. Wasn't this the same language that we had on page 2? And why is it being repeated again? I can't tell as I read through this.

So we get to page 16, so that the vehicle or engine is capable of alternative fuel. First we are going to require now every car sold in America, it has to have an engine that is capable of operating on an alternative fuel. So what if you have a car that doesn't operate on a renewable fuel? Are we going to buy the car back from the American people? Are we going to reimburse them for their cost? I can't tell, because, again, this was dropped at 3:09 a.m., and no one probably has had a chance to read it.

How about on page 24, there are authorized to be appropriated such sums as may be necessary to carry out this paragraph. It sounds like a blank check to me.

Or on page 26, this section applies only to States located in the Western Interconnection and does not apply to States located in the Eastern Interconnection, to the States of Alaska or Hawaii or ERCOT. So are we going to have different rates for different parts of the country under this amendment that was filed at 3:09 a.m. this morning?

Then we get to Page 30. The Federal Energy Regulatory Commission shall act as the lead agency for purposes of coordinating all applicable Federal authorizations and related environmental reviews. So now we have FERC is in charge of coordinating environmental reviews, as I read this. Is that what Greenpeace demanded be part of this bill? Then we get to page 34. Page 34, it says not later than 1 year after August 8, 2005—

PARLIAMENTARY INQUIRIES

Mr. WAXMAN. Madam Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will suspend.

Does the gentleman yield for a parliamentary inquiry?

Mr. BOEHNER. I would be happy to yield to the gentleman.

Mr. WAXMAN. The Republican leader was yielded the balance of the time, which I think amounted to around 4 or 5 minutes. He has talked for around 20. I know we have this ''magic'' minute that gives leaders a lot of extra time to speak, but I'm just wondering if there is some limit under the rules on the time that a leader may take, even though the time yielded was not 20 or 30 minutes.

The SPEAKER pro tempore. It is the custom of the House to hear the leaders' remarks.

Mr. WAXMAN. Further parliamentary inquiry.

The SPEAKER pro tempore. Does the gentleman yield for a parliamentary inquiry?

Mr. BOEHNER. I will be happy to yield to the gentleman.

Mr. WAXMAN. I know it is the custom of the House to give a little extra latitude. Is there any outside limit to the amount of time a leader might take? And do we have historical records that might be broken tonight? Or is this an attempt to try to get some people to leave on a close vote?

The SPEAKER pro tempore. It is the custom of the House to hear to the leaders' remarks.

Mr. BOEHNER. Reclaiming my time, the gentleman has had his 30 years to put this bill together, and the House is going to spend a whopping 5 hours debating the most profound piece of legislation to come to this floor in 100 years. And the chairman has the audacity to drop a 300-plus-page amendment in the hopper at 3:09 a.m. this morning. And so I would ask my colleagues, don't you think the American people expect us to understand what is in this bill before we vote on it?

So we get to page 34. Not 1 year after August 8, 2005. Now, wait a minute. One year later? One year after August of 2005? Wasn't that 3 years ago? I'm just trying to understand what the gentleman has in his amendment.

Then we get to page 36, high efficiency gas turbine research, development and demonstration. Now, I'm trying to figure out who inserted this broad new section of the bill that is covered nowhere in the underlying bill.

Then we get to page 39, $65 million for each of the fiscal years 2011 through 2014, $65 million for 3 years. And who is going to get this money? I can't tell in this amendment.

And as we go through this, page 41, determine any geographic area within the contiguous United States that lacks a Federal power marketing agency. Because, you know, we can't move power around the country without a Federal power marketing agency. We do it today, but now we have to have a new government agency to do this. We are doing it already.

Or same page, 41, the establishment of any new Federal lending authority, including authorization of additional lending authority for existing Federal agencies, not to exceed $3.5 billion per geographic area identified in subsection (a)(1). This is $3.5 billion in loans for each geographic area, but we don't know how many geographic areas are included or how many billions in total we are really talking about.

How about on page 42, any source of funds, including Federal funds provided through the Robert T. Stafford Disaster Relief and Emergency Assistance Act, shall qualify as the building owner's 50 percent contribution. Now, let me make sure I get this straight. So now you can use federal money for non-Federal matching requirements. How much is all of this going to cost?

Or on page 45—remember now, this is the amendment. This is not the bill. This is the amendment filed at 3:09 a.m. On Page 45, this section shall apply only to construction beginning after the date of enactment of this Act. For those of you who don't know it, all of California housing standards are now going to be imposed on every American community. You don't have the right to have your own building standards in your community or in your State. Hell, no, the Federal Government is going to tell you what they are. And guess what? We all get to have California standards. Who is going to pay the price for those new homes? How are we going to do affordable housing when we are pushing up the cost of houses? And while I'm at it, we have to have an energy rating for every home in America. In this bill, we require every home to have an energy rating. And if you are going to sell your house, guess what? You have to have a review, bring people in, have them check out your windows, your appliances, your hot water heater, your door, make sure that your house is energy efficient. And guess what if it isn't? You have got to bring it up to standards before you can sell it. Now what kind of bizarre notion is that?

Well, we get to page 46 at the bottom, a plan for local governmental actions to be taken to establish and sustain local building code enforcement administration functions, without continuing Federal support, at a level at least equivalent to that proposed in the grant application. Do you all get that? It doesn't explain it. But here is what it is. The Federal Government is going to mandate all of these new standards on every house built in America. It is going to cost your local building department all kinds of money to enforce this and to revise their code. And when the money runs out, we are going to allow them to apply for a grant to the United States Government. I'm sure my constituents will love that.

Page 48, each building code enforcement department receiving a grant under subsection (a) shall empanel a code administration and enforcement team consisting of at least one full-time building code enforcement officer, a city planner, and a health planner or similar officer.

Now I have some big towns in my district. Hamilton, Middletown and Westchester can probably afford this new enforcement. But I can take you to Chickasaw, Mercer County, in my district. They don't have one full-time person that works for the village. Not one. Look at the mandate on every city and village in America right here in this bill.

So that we are not only going to tell you what the codes are going to be. But we are going to tell you how many people you need to hire to enforce this in this section of this code. See, we actually did take time, most of today, trying to understand what was in here.

How about on page 53, solar energy systems building permit requirements for receipt of community development block grants. So what are we doing here to amend the community development block grant program? Are we going to impose global warming requirements on all the cities who get CDBG monies from us? That is what it appears to say to me.

□ 1800

Or on page 54, any metropolitan city or urban county, during such fiscal year the cost of any permit or license, for construction or installation of any solar energy system for any structure, that is required by the metropolitan city or urban county, or by any other political subdivision of such city or county complies with paragraph (2).

So now we are going to tell them what to charge for their building permits as well in every city in America.

Then we get to page 56. The Secretary of Energy shall issue regulations to prohibit any private covenant, contract provision, lease provision, homeowners' association rule or bylaw.

Let me read this again: The Secretary of Energy here in Washington, DC, shall issue regulations to prohibit any private covenant, contract provision, lease provision, homeowners' association rule or bylaw. Just for those of you who didn't think there might not be a lot of government bureaucracy in this bill.

We get to page 63. The amount necessary to change consumer behavior to purchase water efficient products and services. So now—let me read this again and make sure that I am right. The amount necessary to change consumer behavior to purchase water efficient products and services. So we are going to provide the American people with money in order to change their behavior so they will buy goods and services that they don't want to buy.

I wonder how much that will cost.

Page 64, subsection 2, to create jobs through the retooling and expansion of manufacturing facilities to produce clean energy technologies to create jobs. So how many jobs is this going to create? Will it replace the 2.5 million jobs that will be lost each year as a result of this bill? I can't tell.

Now going to page 68, the Secretary shall award grants to States to establish revolving loan funds to provide loans to small and medium-sized manufacturers. So who is going to compensate manufacturers for putting them out of business with more loans?

Let me get to page 70. In particular, where mass layoffs have resulted in a precipitous increase in unemployment. So we have a provision in here that recognizes that millions of American jobs are going to be lost; but don't worry, don't worry, we are going to extend your unemployment. Most of my constituents who are unemployed don't want more unemployment. They want a job, and this is going to kill them.

I hate to do this to all of you, I do. I hate to do this, but when you file a 300-page amendment at 3:09 in the morning, somebody needs to work on it, and I worked on it today and I want to make sure that everybody understands what is in this 300-page amendment.

Page 76. Certification by Hollings Manufacturing Extension Center. A Hollings Manufacturing Extension Center or other entity designated by the Secretary for purposes of providing certification under clause so and so and so and so.

So now, why are we singling out one company, one company, and where did this company come from?

Further down the page on page 76, Repayment upon relocation outside the United States. In general. If a person receives a loan under paragraph (1) to finance the cost of reequipping, expanding, or establishing a manufacturing facility as described in subsection (c)(1)(A) or to reduce the energy intensity of a manufacturing facility and such person relocates the production activities of such manufacturing facility outside the United States.

So we recognize here that we are going to force companies to take their jobs and ship them overseas. It is right here. It is right here in the bill, and I am glad it is recognized by my colleagues.

Then we go to page 80, to support manufacturers in their identification of and diversification to new markets. Another admission that the bill before us is going to kill millions of small businesses and even tens of millions of jobs, so we have to have an effort in here to support manufacturers in their identification and diversification into new markets.

Then we get to page 83. Consumer Behavior Research. The Secretary of Energy is authorized to establish a research program to identify the factors affecting consumer actions to conserve energy and make improvements in energy efficiency. Through the program the Secretary will make grants to public and private institutions of higher education to study the effects of consumer behavior on total energy use.

Do we really need to spend government money to do a study on why people don't want to pay twice the cost and get half the quality?

Page 87, the development of a global framework for the regulation of greenhouse gas emissions from civil aircraft that recognizes the uniquely international nature of the industry and treats commercial aviation industries in all countries fairly.

Will this include China and India? I can't tell from the amendment that we have in front of us.

On page 92, we want to make sure that the structure have appropriate electrical outlets with the facility and capacity to recharge a standard electric passenger vehicle, including an electric hybrid vehicle, where such vehicle would normally be parked.

Oh, no, we are not just going to take the California standard and impose it on every community in America, oh, no. Now we are going to tell you where the electric outlets are going to be and how big they have to be to charge a hybrid vehicle.

I just don't understand whether this would apply to nursing homes where there are no cars.

Oh, here we are, page 96. Existing structures. For existing structures, a reduction in energy consumption from the previous level of consumption for the structure, as determined in accordance with energy audits performed both before and after any rehabilitation or improvements undertaken to reduce such consumption, that exceeds the reduction necessary for compliance with the energy efficiency standards under subsection (a) then in effect and applicable to existing structures.

So not only are we going to tell every community in America what the building codes are going to be, what the efficiency standards are going to be, but if you make changes to your house, you have to have another study done to show how much increase in energy efficiency was gained. That will help sell a lot of new houses and a lot of old ones.

Page 97, for manufactured housing, energy star rating with respect to fixtures, appliances, and equipment in such housing, as such standard or successor standard is in effect for purposes of this section.

Please, is there anything that we are not regulating in this bill?

How about page 105. Waive or modify any existing statutory or regulatory provision that would otherwise impair the implementation or effectiveness of the demonstration program under this section, including provisions relating to methods for rent adjustments, comparability standards, maximum rent schedules, and utility allowances; notwithstanding the preceding provisions of this paragraph, the Secretary may not waive any statutory requirement relating to fair housing, nondiscrimination, labor standards, or the environment.

Now in implementing this demo program, rising rent can be dismissed out of hand, but labor standards or the environment cannot, as I read it.

Let me go to page 107. No amounts made available under the American Recovery and Reinvestment Act of 2009 can be used to carry out the demonstration program under this section.

So if no stimulus funds can be used, and the majority claims stimulus funds are for job creation, is this demo going to create one new job? I don't think so.

Page 112, additional credit for Fannie Mae and Freddie Mac housing goals for energy-efficient and location-efficient mortgages. Oh, yeah. Oh yeah, everybody listen up here. It is not enough that we have huge problems with Fannie Mae and Freddie Mac, they are at the core of the credit meltdown we have had in our country, but we are going to give them a little more money so they can have goals for energy-efficient and location-efficient mortgages. Now we are going to tell Fannie Mae and Freddie Mac what kind of mortgages we are going to have in the marketplace.

How about page 113. Supports housing that complies with enhanced energy efficiency and conservation standards, or the green building standards, under section 284 of such Act.

This is the Federal Government using Fannie Mae and Freddie Mac to impose new Federal building codes and standards across the country.

Let me go to page 114. The Federal Housing Enterprises Financial Safety and Soundness Act of 1992, as amended, by the Federal Housing Finance Regulatory Reform Act of 2008.

If this is supposed to be about energy, why are we further bogging it down with trying to solve problems for Fannie Mae and Freddie Mac?

Page 115, the term ''energy-efficient mortgage'' means a mortgage loan under which the income of the borrower, for purposes of qualification for such loan, is considered to be increased by not less than $1 for each $1 of savings projected to be realized by the borrower as a result of cost-effective energy-saving designs.

I'm sure that will create a lot of jobs.

And then we get to page 141, the Cranston-Gonzalez National Affordable Housing Act is amended. Why are we amending the Cranston-Gonzalez National Affordable Housing Act? I thought we were doing an energy bill here.

Page 142, use of building materials and methods that are healthier for residents of the housing, including the use of building materials that are free of added known carcinogens that are classified as Group 1 Known Carcinogens by the International Agency for Research on Cancer.

We are going to outline building materials as well, it appears.

Then we have a grant program to increase the sustainability of low-income community development capacity. We are going to provide loans, grants, or predevelopment assistance to eligible community development organizations or qualified youth service and conservation corps to carry out energy efficiency improvements.

I just want to know if ACORN would qualify for these grants.

And on page 146, we have another authorization here. There are authorized to be appropriated to the Secretary to carry out this section $10 million for each of the fiscal years 2010 through 2014.

So all the Members know, we have spent all of the year's income by April 16th. Everything we spend here, we have to borrow from our kids and grandchildren and the Chinese and everybody else who wants to loan us money.

Page 148, 25 points, in the case of any proposed plan, or portion thereof, consisting of new construction. So now we have a new government formula to determine winners and losers when it comes to the building of new houses.

Page 149, at the bottom, for purposes of this paragraph, the Secretary shall identify rating systems and levels for green buildings that the Secretary determines to be the most likely to encourage a comprehensive and environmentally sound approach to ratings and standards for green buildings.

So the government is going to decide what is green, not the American people.

In identifying these green rating systems, the Secretary has to take into consideration the ability and availability of assessors and auditors to independently verify the criteria and measurement of metrics at the scale necessary to implement this paragraph.

She also has to improve indoor and outdoor environmental quality through enhanced indoor and outdoor air quality, thermal comfort, acoustics, outdoor noise pollution, day lighting, pollutant source control, sustainable landscaping, and use of building system controls and low- or no-emission materials, and such other criteria as determined by the Secretary.

So why are we giving the Secretary all of this authority under this Act to determine virtually everything?

□ 1815

The Secretary may, by regulation, adopt and apply, for purposes of this paragraph, future amendments and supplements to, and editions of, the national Green Communities criteria checklist, any standard or standards that the Secretary has determined to be substantially equivalent to such checklist, and the green building ratings systems.

So a lot of power for the new Secretary without any congressional oversight.

Now I really hate to do this, but when you file a 300-page amendment at 3:09 a.m., the American people have a

right to know what's in this bill and they have a right to know what we're voting on.

Let me get to the bottom of page 155:

Revision of Appraisal Standards. Each Federal financial institutions regulatory agency shall, not later than 6 months after the date of the enactment of this Act, revise its standards for the performance of real estate appraisers in connection with federally related transactions under the jurisdiction of the agency to comply with the requirement under the amendments made by paragraph (1) of this subsection.

So now we have to retrain every appraiser in America so that they understand this law, so that they know how to properly appraise the value of someone's property. And they need to meet the requirements established pursuant to subsection (f) for qualifications regarding consideration of any renewable energy sources, or energy efficiency.

So every appraiser is not only going to be retrained but now we're going to have to send them all to school.

Let me get to page 157: The Appraisal Subcommittee—another new part of the bureaucracy—shall establish requirements for State certification of State certified real estate appraisers and for State licensing of State licensed appraisers, to ensure that appraisers are qualified to consider, in determining the value of a property, any renewable energy sources for, or energy efficiency or energy-conserving improvements or features of, the property.

Interesting.

And the Secretary—on page 158—shall require the Housing Assistance Council to encourage each organization that receives assistance from the Council with any amounts made available from the Secretary to provide that any structures and buildings developed or assisted under projects, programs, and activities funded with such amounts complies with the energy efficiency standards under section 284(a) of this subtitle.

More power for a lot of unelected bureaucrats.

Then on page 160, the middle of the page, it says:

In General. The Secretary shall use amounts in the Fund to provide loans to States and Indian tribes to provide incentives to owners of single-family and multifamily housing, commercial properties, and public buildings to provide renewable energy sources, and it goes on and gives a whole long list. But there is no appropriation in here for it.

And then on page 164 we authorize another $5 billion and there is no idea where this money comes from.

Page 165. Green Banking Centers. It's not going to do houses and commercial properties and multifamily housing. Now we're going to have Green Banking Centers.

The Federal banking agencies shall prescribe guidelines encouraging the establishment and maintenance of ''green banking'' centers by insured depository institutions to provide any consumer who seeks information on obtaining a mortgage, home improvement loan, home equity loan, or renewable energy lease with additional information.

Are you kidding me? I've heard of blackmail, but now I know what greenmail really is.

On page 170 at the top of the page, section 299F.

Government Accountability Office Reports on Availability of Affordable Mortgages.

Really. After we drive the price of every mortgage up in America, we're going to have them do a report on affordable mortgages. Guess what—they're going to be a hell of a lot more expensive.

You get to page 173.

The Secretary of Housing and Urban Development may make commitments to a guarantee under this section and may guarantee the repayment of the portions of the principal obligations of eligible mortgages that are used to finance eligible sustainable building elements for the housing that is subject to the mortgage.

So now we're not only going to guarantee the mortgage but we're going to guarantee the improvements to the property as well.

Page 180. And I would direct all of your attention if you have a copy of this to section 3 of that page:

The full faith and credit of the United States is pledged to the payment of all guarantees issued under this section with respect to principal and interest.

The term ''green portion'' means, with respect to an eligible mortgage, the portion of the mortgage principal referred to in subsection (b)(2) that is attributable, as determined in accordance with regulations issued by the Secretary.

So we've got a new government program and we're going to guarantee this with the full faith and credit of the United States.

Then on page 184:

On April 1 (or a later date established by the administrator under subsection (j)) of the calendar year in which a term offset credit expires, the owner or operator holds for purposes of finally demonstrating compliance, an allowance or a domestic offset credit.

I read it because I cannot tell you what that means.

On page 190 at the bottom of the page it talks about algae.

And on page 189 we've got Renewable Biomass. This is the third definition of Renewable Biomass that we have just in the manager's amendment, much less in the bill.

This caught my attention, at the bottom of page 191, section 3, for vintage year 2012.

Are we talking about wine?

Then we get to page 208. Carbon Derivative Markets. Now we've already heard enough about credit default swaps, but I think most of you know that under this section, the Commodity Exchange Act is amended by striking ''or an agricultural commodity'' and inserting ''an agricultural commodity, or any emission allowance, compensatory allowance, offset credit, or Federal renewable electricity credit established or issued under this Act.''

So now we're going to let those governed under the CFTC trade these credits with others around the world.

And on page 209 it talks about the effect of derivatives regulatory reform legislation. Upon passage of this legislation that includes derivatives, regulatory reform, sections 351, 352, 354, 355, 356 or 357 shall be repealed.

Any idea of the derivatives regulations that we're repealing in this bill? You probably didn't know we were doing that.

Then on page 210:

To prevent an increase in greenhouse gas emissions in countries other than the United States—I presume that means countries like India and China—to induce foreign countries, and, in particular, fast-growing developing countries, to take substantial action with respect to their greenhouse gas emissions.

India and China have made it perfectly clear to every one of us that they have no interest and will not go down this path.

It further goes on to ensure that the measures described in subpart 2 are designed and implemented in a manner consistent with applicable international agreements to which the United States is a party.

The very structure of the border provisions, however, makes this impossible to achieve. The Wall Street Journal said the other day and suggested that this bill really could start a trade war and that if we begin to try to impose our bureaucracy on other countries, we could just have that.

Let me get to page 225. Distribution of Emission Allowance Rebates. Further down the page, it says, Shall be pursuant to the entity's indirect carbon factor as calculated under subsection (b)(3).

Can anybody tell me how to calculate an indirect carbon factor or what an indirect carbon factor is?

Then we get to page 226. That more than 85 percent of United States imports for that sector are produced or manufactured in countries that have met one of the criteria in that section, then the 10-year reduction schedule set forth in this subsection shall begin in the next vintage year.

So now we're going to try to control imports from countries based on what they're doing with regard to their energy policy.

Use of Other Data to Determine Factor, page 231. Where it is not possible to determine the precise electricity emissions intensity factor for an entity using the methodology in clause (i). In what instances would it not be possible to determine what that is?

Then we get to page 233:

In each eligible industrial sector every 4 years, using an average of the four most recent years of the best available data. For purposes of the lists required to be published no later than February 1, 2013, the Administrator shall use the best available data for the maximum number of years, up to 4 years, for which data are available.

Why every 4 years? What's this data used for? Then it goes on: The Administrator shall limit the average direct greenhouse gas emissions per unit output, calculated under paragraph (4), for any eligible industrial sector to an amount that is not greater than it was in any previous calculation under this subsection.

So what is the cost of this provision?

Or on page 234: The Administrator shall use data from the greenhouse gas registry established under section 713. How much is this going to cost?

Promoting International Reductions in Industrial Emissions, page 236. Congress finds that for the purposes of this subpart, as set forth in section 761(c), can be most effectively addressed and achieved through agreements negotiated between the United States and foreign countries.

It is the policy of the United States to work proactively under the United Nations Framework Convention on Climate Change, and in other appropriate fora, to establish binding agreements, including sectoral agreements, committing all major greenhouse gas-emitting nations to contribute equitably to the reduction of global greenhouse emissions.

The bottom line of all of this is all pain for United States citizens and no gain.

Then we get to page 237: The President shall provide a notification on climate change described in paragraph (2) to each foreign country the products of which are not exempted under section 768.

This is less than a fig leaf here. They're trying to pretend that this notification will satisfy the consultation required by the WTO rules. It won't end there and it's going to result in retaliation against United States exports.

Then we get further down on that page: Requesting the foreign country to take appropriate measures to limit the greenhouse gas emissions in those countries.

So if they're really nice they won't have to but if we can, we can force them to adopt our bizarre regulatory scheme.

Then we get to page 238. United States Negotiating Objectives with Respect to Multilateral Environmental Negotiations.

□ 1830

So here we are telling the administration what their objectives are going to be as they negotiate environmental issues with other countries around the world.

Presidential Reports, page 239: Not later than January 1, 2017, and every 2 years thereafter, the President shall submit a report to Congress on the effectiveness of the distribution of emission allowance rebates under subpart 1 in mitigating carbon leakage in eligible industrial sectors.

Let me go to page 260: Modification of Earned Income Credit Amount For Individuals With No Qualifying Children.

Why does this bill neglect middle class families in America? Why is it that we're only going to help some people who will qualify for the earned income credit for individuals with no qualifying children?

Further down here it says: the Secretary determines experienced a reduction in purchasing power as a result of the provisions of this act.

That's a flat-out admission that every American is going to pay more for all of their energy. And it goes on and on and on.

Ladies and gentlemen, does this give you some idea of why the American people think their Congress is out of touch? The idea that the Federal Government can create this giant bureaucracy to try to control how much CO_2 gets into atmosphere.

We know that if we were to do our all-of-the-above energy strategy, we'd see renewable sources of energy on the scene, available, producing jobs more quickly than under the underlying bill. We know that under our bill, you could actually have nuclear energy plants being built, cleaning up the air at a much faster rate than the underlying bill.

But there's really a big underlying difference between our approach and the approach of my colleagues on the other side of the aisle, and that is trusting the American people. If we give the American people the right incentives, they'll make the right decisions. But that's not what we have on the floor today. What we have on the floor today is typical big government. And the fight that we have between the two sides of the aisle really boils down to one word: It boils down to freedom. The freedom to allow the American people to live their lives without all of these extra taxes and all of this bureaucracy.

And I would just say to my colleagues, I did my best to try to get through the 300-page amendment that was filed at 3:09 in the morning. Obviously somebody knew this was coming, but it wasn't filed until 3:09 this morning.

This is not the way we should be doing legislation. The American people expect more of us. And you know what? They deserve a lot more from us.

So I would say to my colleagues let's not go down this path of increasing taxes on every single American. Let's not go down the path of moving millions of jobs to China, India, and other countries around the world. Let's trust the American people. Let's give them our all-of-the-above energy act and allow America to flourish, to allow jobs to flourish, and, most importantly, to allow freedom to flourish.

Mr. WAXMAN. Madam Speaker, the minority leader was yielded 2½ minutes. Could you tell us how much time he consumed?

The SPEAKER pro tempore. The gentleman used a customary amount of time.

Mr. WAXMAN. Well, Madam Speaker, the 2½ minutes was extended to over an hour, and this is from the same party that had a 15-minute roll call extended into 3 hours while they tried to twist the arms of their own people.

Madam Speaker, to close the debate, I wish to yield the balance of my time, and I presume it will not be an hour or two, to our distinguished Speaker because of whose leadership we have the attempt to do something that the Republicans neglected, and that's to help our country deal with our energy problems, Speaker NANCY PELOSI.

Ms. PELOSI. I thank the gentleman for yielding.

Madam Speaker, I want to join those who have sung your praises as a distinguished presider over hundreds of hours of debate in the House of Representatives. Your service here, your leadership here will long be remembered and be an inspiration to us. Katherine will be very missed, but now she's off to college. Thank you, ELLEN TAUSCHER, for being such a great chairwoman and presider over the House of Representatives.

Madam Speaker, I also wish to acknowledge the leadership of our chairmen, who so ably brought this important legislation, this historic and transformational legislation, to the floor: Chairman WAXMAN of the Energy and Commerce Committee, Chairman MARKEY of the Energy Security and Climate Change Committee, Chairman RANGEL of the Ways and Means Committee, and Chairman PETERSON of the Agriculture Committee. We thank them for their leadership and for giving us this opportunity today.

Madam Speaker, no matter how long this Congress wants to talk about it, we cannot hold back the future. And so in order to move on with the future, I want to yield back my time, submit my statement for the RECORD, and urge my colleagues to vote for this important legislation.

And when you do, just remember these four words for what this legislation means: jobs, jobs, jobs, and jobs.

Let's vote for jobs.

Madam Speaker, today the House has an opportunity to pass historic and transformative legislation: the American Clean Energy and Security Act.

I would like to acknowledge the authors of the legislation: Chairman WAXMAN of the Committee on Energy and Commerce and Chairman MARKEY of the Select Committee on Energy Security and Climate Change.

I would also like to acknowledge: Chairman COLLIN PETERSON of the Agriculture Committee for bringing the priorities of America's farmers to this bill and Chairman RANGEL who helped ensure that this bill is fiscally responsible and fully paid for.

And I would like to acknowledge the many staff who worked so hard on this legislation.

In his inaugural speech, President Obama called upon us to, ''harness the sun and the winds and the soil to fuel our cars and run our factories.''

One week and one day later, we did just that. We passed the American Recovery and Reinvestment Act—the single largest investment in history in clean energy—with over $69 billion for new investments in clean energy.

Shortly thereafter, we passed the Omnibus spending bill, with significant investments in advanced energy research and the labs and equipment necessary to perform the next generation of advanced energy research.

We passed the Budget, which included a 10% increase in investment in clean energy and energy efficiency.

This was building upon the work of the last Congress: The Farm Bill was the first in history to include a real investment in energy independence, with over $1 billion to leverage renewable energy industry investments in new technologies and new feedstocks.

And the historic and bipartisan energy bill signed by President Bush increased fuel efficiency standards for vehicles for the first time in 30 years and redirected this country's energy policy toward clean, renewable energy.

Creating a new energy policy and addressing the global climate crisis is: Energy independence is: a national security issue by reducing our dependence on foreign oil; an environmental and health issue; it is a moral issue; and it is an economic issue for America's families.

There are four words that can describe this bill: jobs, jobs, jobs, and jobs.

Madam Speaker, we debate this legislation as millions of Americans are struggling in this economy. This is our moment to transform our economy and create jobs.

This is the moment when we can unleash private sector investment in clean energy to create millions of new jobs and make America the global innovation leader. It will promote clean energy technology—made in America. It will put America in the lead in the global competition.

As we rebuild America in a green way, we will create jobs that cannot be shipped overseas. We are creating a framework in which innovation can occur and that gives business certainty that we are moving to a clean energy economy. That will unleash innovation, investment, and venture capital to drive new technologies into the market.

America's farmers will fuel America's energy independence. They will do so with carbon-offsetting crops and forests, and biofuel and wind farms to repower America.

This historic legislation is the product of months of consensus building to achieve an effective and affordable transition to a clean energy future.

I am so pleased that the diverse coalition supporting this bill includes everyone from: The Union of Concerned Scientists to the Evangelical Climate Initiative and the U.S. Conference of Catholic Bishops; from the business community to labor organizations, from ALCOA to the U.S. Steelworkers of America; from the U.S. Conference of Mayors to members of the U.S. Climate Action Partnership, a coalition of business and nonprofit groups.

Today, we have an opportunity to lead America toward an effective and affordable transition to a clean energy future. It is a moment we cannot afford to miss. We have a responsibility to create jobs and make America more secure, protect the health of our citizens, and honor our moral responsibility to our children and our future generations.

Vote to create jobs. Let's put this Congress on the right side of the future. Vote yes on the American Clean Energy and Security Act.

I urge my colleagues on both sides of the aisle to protect God's beautiful creation by supporting this legislation.

Mr. WOLF. Madam Speaker, our country has always been the world's innovation leader, and I believe innovation and not taxation must be the answer to the energy challenges we face.

That's why I support the Forbes amendment which would substitute this bill with a new Manhattan project for energy independence, bringing together the best and brightest minds of a new generation of scientists, engineers and researchers in a unified national challenge just as we did with the original Manhattan project in World War II.

Like the first project, which was launched to ensure the security of our country, today our national security depends on our ability to produce reliable, cost-effective and environmentally friendly sources of energy to fuel our economy.

This project would award significant cash prizes to the first person or entity to achieve set energy goals, such as doubling car fuel efficiency to 70 mpg while keeping vehicles affordable, cutting home and business energy usage in half, making solar power work at the same cost as coal, making the production of biofuels cost-competitive with gasoline, safely and cheaply storing carbon emissions from coal-powered plants, safely storing or neutralizing nuclear waste, and producing usable electricity from a nuclear fusion reaction.

Just like the challenge of the space program to put a man on the moon in a decade, I believe by working together, a new Manhattan project could transform our nation's energy security. But the ''cap-and-trade'' plan the House considered is the wrong solution at the wrong time. We can do better and I think this alternative is a better solution.

The SPEAKER pro tempore. The question is on the amendment in the nature of a substitute offered by the gentleman from Virginia (Mr. FORBES).

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. FORBES. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

□ 1859

Messrs. ADLER of New Jersey, PATRICK J. MURPHY of Pennsylvania, BERMAN, MCMAHON, and Mrs. MALONEY changed their vote from ''aye'' to ''no.''

Messrs. MCHENRY and HOLDEN changed their vote from ''no'' to ''aye.''

So the amendment was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. WAXMAN. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on passage will be followed by a 5-minute vote on approval of the Journal, if ordered.

The vote was taken by electronic device, and there were—ayes 219, noes 212, not voting 3, as follows:

NOT VOTING—3

Flake
Hastings (FL)
Sullivan

□ 1917

Mr. GOHMERT changed his vote from ''aye'' to ''no.''

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

THE JOURNAL

The SPEAKER pro tempore (Mr. WEINER). Pursuant to clause 8 of rule XX, the unfinished business is the question on agreeing to the Speaker's approval of the Journal, which the Chair will put de novo.

The question is on the Speaker's approval of the Journal.

Pursuant to clause 1, rule I, the Journal stands approved.

THANKING STAFF INVOLVED IN PASSAGE OF ENERGY BILL

(Mr. WAXMAN asked and was given permission to address the House for 1 minute.)

Mr. WAXMAN. I would like to take a moment to thank the staff of the Office of Legislative Counsel and the Congressional Budget Office for their hard work on this bill. The efforts and dedication of Tim Brown, Warren Burke, Alison Bell, Pope Barrow and their colleagues in the Office of Legislative Counsel were indispensable in writing this wide-ranging and historic legislation. Similarly, Suzanne Mehlman, Dan Hoople and their colleagues at the Congressional Budget Office were essential in analyzing the complex financial and scoring issues associated with this bill. Both the staff of the Legislative Counsel and the CBO deserve to be thanked and congratulated for their outstanding work over the many late nights and weekends. We are very grateful for their service to the Nation.

I would like to add my appreciation to the fantastic job that our committee, subcommittee and select committee staffs have done in getting this legislation before the Congress of the United States.

Mr. Speaker, I would like to yield to my colleague on this legislation, Congressman ED MARKEY.

Mr. MARKEY of Massachusetts. I thank you, Mr. Chairman. And I thank everyone who worked on this legislation, all of the Members on both sides of the aisle. But as Chairman WAXMAN just said, this took an enormous amount of work by a lot of staffers over a sustained, intense period of time. And I want to thank all of you for everything that you have done to make today possible.

I think you really do deserve a round of applause for the tremendous work that you have done. It is your victory as much as any Member, and we thank you for it.

Mr. WAXMAN. Reclaiming my time, I would like to read from page 333 of the manager's amendment and to indicate my gratitude to our staff director Phil Barnett; to the environmental staff on the committee, Greg Dotson, Lorie Schmidt, Alexandra Teitz, John Jimison, Jeff Baran, Alex Barron, Ben Hengst, Melissa Bez, and Rob Cobbs.

Mr. MARKEY of Massachusetts. I would like to thank Joel Beauvais, Michael Goo, Danielle Baussan, Ana Unruh-Cohen. I would also like to thank Michal Freedhoff, Morgan Gray, Jonathan Phillips, Eban Burnham-Snyder, Jackie Chenault, Jeff Sharp, Ali Brodsky, Camilla Bausch, and especially Gerry Waldron and Jeff Duncan, along with Shannon Kenny, who is still sitting over there as well.

All of you were fantastic, and it's just a historic achievement. We thank you all so much for everything that you do.

Mr. WAXMAN. Mr. Speaker, I also wanted to add our appreciation to Matt Wiener, our staff assistant on this legislation.

I feel empowered because I only asked for 1 minute, and I have talked far more than 1 minute. I guess that's become a new tradition in the House, but I don't want to abuse it, and I yield back the balance of my time.

REPORT ON H.R. 3081, THE DEPARTMENT OF STATE, FOREIGN OPERATIONS AND RELATED PROGRAMS APPROPRIATIONS ACT, 2010

Mrs. LOWEY, from the Committee on Appropriations, submitted a privileged report (Rept. No. 111–187) on the bill (H.R. 3081) making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2010, and for other purposes, which was referred to the Union Calendar and ordered to be printed.

The SPEAKER pro tempore (Mr. LUJÁN). Pursuant to clause 1, rule XXI, all points of order are reserved on the bill.

REPORT ON H.R. 3082, MILITARY CONSTRUCTION AND VETERANS AFFAIRS APPROPRIATIONS ACT, 2010

Mr. EDWARDS of Texas, from the Committee on Appropriations, submitted a privileged report (Rept. No. 111–188) on the bill (H.R. 3082) making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2010, and for other purposes, which was referred to the Union Calendar and ordered to be printed.

The SPEAKER pro tempore. Pursuant to clause 1, rule XXI, all points of order are reserved on the bill.

PRIVILEGED REPORT ON RESOLUTION OF INQUIRY TO THE PRESIDENT

Mr. CONYERS, from the Committee on Judiciary, submitted an adverse privileged report (Rept. No. 111–189) on the resolution (H. Res. 537) requesting that the President and directing that the Attorney General transmit to the House of Representatives all information in their possession relating to specific communications regarding detainees and foreign persons suspected of terrorism, which was referred to the House Calendar and ordered to be printed.

□ 1930

SUPPORTING PRAGUE CONFERENCE ON HOLOCAUST ERA ASSETS

Mr. WEXLER. Mr. Speaker, I ask unanimous consent that the Committee on Foreign Affairs be discharged from further consideration of the concurrent resolution (H. Con. Res. 89) supporting the goals and objectives of the Prague Conference on Holocaust Era Assets, and ask for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The text of the concurrent resolution is as follows:

H. CON. RES. 89

Whereas the Government of the Czech Republic will host a Conference on Holocaust Era Assets in Prague from June 26, 2009, through June 30, 2009;

Whereas the Prague Conference will facilitate a review of the 1998 Washington Conference on Holocaust Era Assets, which had participation of 44 nations, 13 nongovernmental organizations, scholars, and Holocaust survivors;

Whereas a high level United States delegation participated in the Washington Conference on Holocaust Era Assets led by Undersecretary of State Stuart Eizenstat, Nobel Peace Laureate Elie Wiesel, Federal Judge Abner Mikva, senior diplomats, and a bipartisan group of Members of Congress;

Whereas then-Secretary of State Madeleine Albright delivered the key note address at the Washington Conference on Holocaust Era Assets, articulating the United States commitment to Holocaust survivors and urging conference participants to ''chart a course for finishing the job of returning or providing compensation for stolen Holocaust assets to survivors and the families of Holocaust victims.'';

Whereas the Prague Conference is expected to take stock of issues agreed on at the Washington Conference, including financial assets, bank accounts, insurance issues, and other financial property;

Whereas the Prague Conference is expected to include a special session on social programs for Holocaust survivors and other victims of Nazi atrocities;

Whereas the Prague Conference is expected to include working groups on Holocaust education, remembrance and research, looted art, Judaica, Jewish cultural property, and immovable property, including both private, religious, and communal property;

Whereas United States participation and leadership at the highest level is critically important to ensure a successful outcome of the Prague Conference;

Whereas Congress supports further inclusion of Holocaust survivors and their advocates in the Prague Conference planning and proceedings;

Whereas the United States strongly supports an immediate and just restitution or compensation of property illegally confiscated during the last century by Nazi and Communist regimes;

Whereas many Holocaust survivors lack the means for even the most basic necessities, including proper housing and health care;

Whereas the United States and the international community has a moral obligation to uphold and defend the plight and dignity of Holocaust survivors and to ensure their well-being;

Whereas for the Prague Conference is a critical forum to effectively address the increasing economic, social, housing, and health care needs of Holocaust survivors in their waning years;

Whereas President Barack Obama, during his visit to the Yad Vashem Holocaust Memorial in Israel in July 2008, stated ''Let our children come here and know this history so they can add their voices to proclaim 'never again.' And may we remember those who perished, not only as victims but also as individuals who hoped and loved and dreamed like us and who have become symbols of the human spirit.''; and

Whereas the Prague Conference may represent the last opportunity for the international community to address outstanding Holocaust-era issues: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) supports the goals and objectives of the 2009 Prague Conference on Holocaust Era Assets;

(2) applauds the Government of the Czech Republic for its decision to host the Prague Conference and its unwavering commitment to address out standing Holocaust-era issues;

(3) expresses strong support for the decision to make the economic, social, housing, and health care needs of Holocaust survivors a major focus of the Prague Conference;

(4) urges the countries in Central and Eastern Europe, which have not already done so, to return looted and confiscated properties to their rightful owners or, where restitution is not possible, pay equitable compensation to the rightful owners in accordance with principles of justice and in an expeditious manner that is just, transparent, and fair;

(5) calls on the President to send a high-level official, such as the Secretary of State, to represent the United States at the Prague Conference; and

(6) urges other invited nations to participate at a similarly high level.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today in support of H. Con. Res. 89, which supports the goals and objectives of the Prague Conference on Holocaust Era Assets. From June 26, 2009, through June 30, 2009, the Government of the Czech Republic will host a Conference in Prague of utmost importance, which will focus exclusively on the reparation of Holocaust Era Assets. The Prague Conference will facilitate a review of the 1998 Washington Conference on Holocaust Era Assets, which had participation of 44 nations, 13 nongovernmental organizations, scholars, and Holocaust survivors.

In his internationally recognized and critically acclaimed novel, ''Night,'' Nobel Peace Prize winner Elie Weisel so chillingly depicted the Holocaust in the following vivid description:

''Never shall I forget that night, the first night in camp, which has turned my life into one long night, seven times cursed and seven times sealed. Never shall I forget that smoke. Never shall I forget the little faces of the children, whose bodies I saw turned into wreaths of smoke beneath a silent blue sky. Never shall I forget those flames which consumed my faith forever. Never shall I forget that nocturnal silence which deprived me, for all eternity, of the desire to live. Never shall I forget those moments which murdered my God and my soul and turned my dreams to dust. Never shall I forget these things, even if I am condemned to live as long as God Himself. Never.''

And never again shall we forget the atrocities that transpired during the Holocaust. As we go forward into the 21st Century, it is our job to make sure that the history of the Holocaust is re-told, so that such crimes against humanity never again recur. It is our job as humanitarians of the world to restore to victims of the Holocaust the private property and real property, chattels and assets which were so wrongfully taken by the nefarious acquisition of the Nazi regime during World War II, and restore to Holocaust Survivors and to their heirs that property which is rightfully theirs.

I sit on the Advisory Board of the Houston Holocaust Museum, and I understand the urgency and necessity expressed by former Secretary of State Madeleine Albright, when she delivered the keynote address at the Washington Conference on Holocaust Era Assets. Former Secretary Albright articulated the U.S. commitment to Holocaust survivors and urged conference participants to ''chart a course for finishing the job of returning or providing compensation for stolen Holocaust assets to survivors and the families of Holocaust victims.'' The Prague Conference is expected to do just that. The Conference will take stock of issues agreed on at the Washington Conference, including financial assets, bank accounts, insurance issues, and other financial property. United States participation and leadership at the highest level is critically important

to ensure a successful outcome of the Prague Conference. The Prague Congress supports further inclusion of Holocaust survivors and their advocates in the Prague Conference planning and proceedings, to provide direct testimony as to the ongoing repercussions of the Holocaust on survivors and the families of survivors.

While it is largely unspoken, many Holocaust survivors lack the means for even the most basic necessities, including proper housing and health care. We have a moral obligation to uphold and defend the plight and dignity of Holocaust survivors and to ensure their well-being. The Prague Conference is a critical forum to effectively address the increasing economic, social, housing, and health care needs of Holocaust survivors in their waning years.

On his visit to the Yad Vashem Holocaust Memorial in Israel in July 2008, President Barack Obama stated ''Let our children come here and know this history so they can add their voices to proclaim 'never again.' And may we remember those who perished, not only as victims but also as individuals who hoped and loved and dreamed like us and who have become symbols of the human spirit.''

I urge my colleagues to support this important Resolution today, which advocates for an immediate and just restitution or compensation of property illegally confiscated during the last century by Nazi and Communist regimes. I applaud the Government of the Czech Republic for its decision to host the Prague Conference and its unwavering commitment to address outstanding Holocaust-era issues. Furthermore I express strong support for the decision to make the economic, social, housing, and health care needs of Holocaust survivors a major focus of the Prague Conference. Finally, this Resolution urges the countries in Central and Eastern Europe, which have not already done so, to return looted and confiscated properties to their rightful owners or, where restitution is not possible, pay equitable compensation to the rightful owners in accordance with principles of justice and in an expeditious manner that is just, transparent, and fair. I urge passage of H. Con. Res. 89.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

THE FOURTH OF JULY

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, the most patriotic time of the year is at hand. I love the Fourth of July. It is picnics, hot dogs, potato salad and barbecue. It is kids decorating wagons with red, white and blue for neighborhood parades and little kids sitting on their dad's shoulders watching the parade. It is horses and cowboys. It is John Phillips Sousa and ''The Stars and Stripes Forever.'' It is waving flags and thanking our troops for their service. It is yellow ribbons tied to trees.

The Fourth of July is a packed freeway and a long weekend. It is going to the beach and getting sand in everything. It is coolers, beach towels, blankets, sunscreen and the salty air.

It is the big fireworks display in the big cities and the small ones in the neighborhood. It is making circles in the air with sparklers. It is bottle rocket wars. It is Black Cat firecrackers and Roman candles. It is buy one, get four free.

It is stump speeches by politicians. It is people dressing up as Tom Jefferson and George Washington. It is snow cones and caramel apples. It is kids, grandkids and pets all packed in the Jeep and going for cotton candy.

Everybody is happy about the Fourth of July. There is nothing sad about freedom. After all, it is happy birthday to our country.

And that's just the way it is.

DEATH OF MICHAEL JACKSON, JUNE 25, 2009

(Ms. JACKSON-LEE of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. Mr. Speaker, I too wish our Nation a very happy birthday. But I rise in sadness to celebrate, but yet mourn, the passing of Michael Jackson, to celebrate a life that was full of artistry. It was, in essence, a joy to many who listened and those who danced.

Michael Jackson loved America. He was truly a story that came from the very dreams that Americans have. Starting in the very bowels of a city called Gary, Indiana, living in a two bedroom bungalow, he rose to the highest pedestals of entertainment and, of course, iconic state.

He was the King of Pop. But he was also a quiet man, a man who, in fact, loved to give back and a humanitarian. For those of us who remember the words of ''We Are the World,'' one of the first conglomerations of bringing people together, to be able to emphasize that we do have a responsibility to others. And then the song, ''The Man in the Mirror,'' we can make a difference.

Born on August 29, 1958, in Gary, Indiana, he was one of the Jackson Five. But more importantly, he was a father. He was someone who would bring a face to America. I intend to introduce a resolution in honor of Michael Jackson because we believe in the good. And he was good. He saw our soldiers. He fought against HIV/AIDS. He wanted to show that he cared. And he did.

It is my pleasure to have hosted Michael Jackson on Capitol Hill in 2004 when he came to stand against AIDS and to fight that devastating disease.

Today I stand and recognize that he truly was a man who loved America.

Mr. Speaker, I stand before you today to remember and honor the memory of the King of Pop, Michael Jackson. Michael Jackson who was a charismatic musician and beloved American musician from a tender age, suffered from cardiac arrest today and died at the age of 50.

Michael Jackson truly was the King of Pop and a true icon that was world renowned. We watched a boy grow into a superstar before our eyes and enjoyed the music he brought to the world. The Jackson 5 were the first act in recorded history to have their first four major label singles (''I Want You Back'', ''ABC'', ''The Love You Save'', and ''I'll Be There'') reach the top of the American charts.

Jackson was born on Aug. 29, 1958, in Gary, Indiana, the seventh of nine children. Five Jackson boys—Jackie, Tito, Jermaine, Marlon and Michael—first performed together at a talent show when Michael was 6. They walked off with first prize and went on to become a best-selling band, The Jackson Five.

Once Michael Jackson went solo we enjoyed such hits as Thriller, Beat It and Billie Jean and of course the legendary moonwalk. ''Thriller'' released in 1982, which became a smash hit yielded seven top-10 singles. The album sold 21 million copies in the United States and at least 27 million worldwide. It was a monumental moment in music history.

Not only an iconic singer and performer, Michael Jackson was a philanthropist and advocate for AIDS awareness and Child Hunger. Jackson co-wrote the charity single ''We Are the World'' with Lionel Richie, which was released worldwide to aid the poor in Africa and the US. He was one of 39 music celebrities who performed on the record. The single became one of the best-selling singles of all time, with nearly 20 million copies sold and millions of dollars donated to famine relief.

I was honored to personally meet with Michael Jackson on Capitol Hill in 2004 and am deeply saddened by his passing. He is survived by his three children, his brothers and sisters, family, friends and a world full of fans. I will leave you all with a quote from Michael, ''If you enter this world knowing you are loved and you leave this world knowing the same, then everything that happens in between can be dealt with.''

HEARTBREAK ON CAPITOL HILL

(Mr. GOHMERT asked and was given permission to address the House for 1 minute.)

Mr. GOHMERT. Mr. Speaker, just moments ago on this floor there was cheering and there was clapping over the passing of the crap-and-trade bill. And it is a little tough to get excited. From a political standpoint, I should be overjoyed because I really believe in my heart that when the American people find out, and this is just a part of it, when they find out what has been done to them, they are going to be livid. And they are going to throw some people out of this body. I just know that will happen. But I care more about America than I do politics.

I know that we will be facing the single moms that we heard from last summer that can't afford the gasoline bill. They can't afford the propane.

You didn't do a great thing. You hurt some really decent families struggling

and trying to make it. And this is going to be their death knell. It breaks my heart.

CELEBRATING BLACK MUSIC MONTH

(Mr. COHEN asked and was given permission to address the House for 1 minute.)

Mr. COHEN. This is Black Music Month. And we had a resolution to introduce and pass celebrating the 30th anniversary of Black Music Month. Because of the scheduling, it didn't come up. That is why I wanted to address that fact today.

Black Music Month is important because it reminds people of the history of music in this country and the contributions of black Americans. Much of that happened in my city in Memphis, at Stax Soulsville, home of Isaac Hayes, Sam and Dave, Stax Soulsville Records, Al Green, Willy Mitchell and others, also Detroit and Motown and New Orleans and Fats Domino, Professor Long Hair, and many great musicians.

But back to Kansas City, and Charlie Parker, and Miles Davis and Max Roach and Dizzy Gillespie, not all from Kansas City, but that from that jazz era, and others. Michael Jackson, of course, passed. Many great musicians whose music needs to be remembered and young people need to learn that music is a great way to pass on our culture and preserve it and a great way to enjoy their own life and experience a better way. I'm pleased this is the 30th anniversary of Black Music Month. And we need to enjoy music and soothe the soul.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

CELEBRATING THE ALBANIAN DIASPORA OF SOUTHEAST MICHIGAN

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Michigan (Mr. PETERS) is recognized for 5 minutes.

Mr. PETERS. Mr. Speaker, I rise today to celebrate the Albanian diaspora of southeast Michigan and to raise the concern they have expressed to me.

Respect for people of diverse cultures is an American value and has made our Nation great. Our national heritage reflects the cultural contributions of a wide range of ethnic groups.

I am fortunate to represent the Ninth District of Michigan, a district rich in ethnic and religious diversity and one that includes many families from the Balkan region. In my time as a Congressman and resident of the Ninth District, I have developed a strong bond with the Albanian American community. This is a people that strongly value community service, family, and education. These are the values we can all admire and strive to instill in our children.

The Albanian American community of southeast Michigan is relatively new to our country. Most are first- or second-generation Americans. However, this community has established strong roots in southeast Michigan, establishing churches, community centers and small businesses. These places preserve and celebrate Albanian culture. They help enrich the lives of fellow Albanian Americans and the broader community alike.

Saint Paul's Albanian Church in Rochester Hills, Michigan, a city in my district, boasts nearly 5,000 members and is a shining example of how the Albanian diaspora has taken root in southeast Michigan. These roots are nourished by the community's focus on family, a value deeply embedded in Albanian culture, and one that I greatly respect.

As with many new immigrant communities, the entrepreneurial spirit runs deep among our Albanian Americans. Our Nation has provided many Albanian Americans with their first opportunity for business success. Members of the community have embraced these opportunities and worked tirelessly for the success of their endeavors, helping to grow our economy and create jobs in our region.

The community's affinity for entrepreneurship is coupled with a deep appreciation for education. Albanian Americans recognize the invaluable return on investment that educational achievement brings to the next generation.

I am particularly proud of the Albanian American community's patriotism, love for America and participation in the American democratic process.

Albanian Americans truly are full participants in the American democratic system. They understand that the essential element of a thriving democracy is active engagement.

Albanian Americans' unwavering dedication to democracy does not stop at our borders. The Albanian community is working tirelessly to bring attention to the needs of the emerging democracies in the Balkan region and to strengthen U.S.-Balkan relations.

I am proud of the relationship the city of Rochester Hills has formed with Tuz, Montenegro. For example, the Albanian American diaspora in Michigan and the city of Rochester Hills recently worked together to provide school supplies to the cities of Tuz, and I commend them for these efforts.

While many are aware of the efforts made by the Albanian American community to assist refugees during the Kosovo conflict, it is important to highlight important work still being performed by the Albanian American community.

The Albanian diaspora continues to seek further recognition for the Republic of Kosova and has been vital in helping former refugees rebuild their lives. The recent independence of the Republic of Kosova and the induction of Albania into NATO are a testament to the Albanian American community's progress.

The Albanian community in Michigan remains concerned with events and issues currently affecting their brethren and families overseas. Some particular concerns of my constituents I want to raise today relate to recent reports of inequities in the Montenegrin justice system. In particular, reputable human rights organizations like Amnesty International have reported that several Albanian American citizens convicted in connection with the Eagle's Flight case have been subject to torture and physical abuse. These incidents and reports have caused tremendous anxiety and uncertainty in the Albanian American community. It is my hope that the Montenegrin Government will work diligently to protect human rights and the rule of law in the exercise of justice in the future.

Whether fighting for justice, advancing democracy, supporting our schools, or working hard to strengthen our economy, Albanian Americans in my district and across America are helping to make our Nation even greater. It is an honor to represent a prominent Albanian American community here in the United States Congress.

WE ARE FREE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Michigan (Mr. MCCOTTER) is recognized for 5 minutes.

Mr. MCCOTTER. Mr. Speaker, from the hellish streets where Iranians demand freedom, voices arise to pray for deliverance and liberty; but, elsewhere, safely ensconced in freedom, others argue for appeasement and ''neutrality.'' We must choose wisely between these competing voices and visions, lest we betray our allegiance to liberty.

Some voices allege America's support of Iranian democracy demonstrators harms their cause, strengthens the regime, increases the repression, and, once the freedom seekers are slaughtered, precludes ''good'' relations with the murderous mullahs.

Their siren song is wrong. Despite pronouncements, America has not intervened, the mullahs publicly accuse us of it, their illegitimate puppet Ahmadinejad demands our prostration at the regime's feet, and all the while, the regime butchers innocents.

□ 1945

On June 24, CNN recorded a call from a terrified Iranian girl, who told of democracy demonstrators being hacked with axes, shot or thrown from bridges. She pleaded: ''You should stop this. You should help the people of Iran who demand freedom. You should help us. It's time to act.'' She was pleading to America. She was pleading to us.

Once, another generational chance for freedom was seized, as Soviet dissident and gulag prisoner Natan Sharansky attests, ''We developed our own tapping language to communicate with each other between the crawls of our cells. We had to develop new communication methods to pass on this great, impossible news.

''Reagan dared to call of the great Soviet Union an evil empire. That moment made it impossible for anyone in the West to continue closing their eyes to the real nature of the Soviet Union.

''It was one of the most important, freedom-affirming declarations, and we all instantly knew it. For us, that was the moment that really marked the end for them, and the beginning for us. The beginning of a new revolution, a freedom revolution. Reagan's revolution.''

As for voices clamoring for a ''grand bargain'' with Iran's inhumane regime if it clings to power, Sharansky warns: ''How a government treats its own people cannot be separated from how that government could be expected to treat other countries.'' How did the regime treat the family of Neda Agha-Soltan, the student it shot in the streets? Her state executioners refused to tender Neda's body to her family; buried her without a funeral; banned all signs of mourning; and forced her family to flee from their Tehran home.

To defeat such a regime, Sharansky offers Reagan's example: ''Ronald Reagan had the moral clarity to understand the truth, and the courage both to speak the truth and to do what needed to be done to support it.''

What concrete actions can we take today to aid the Iranian people's march to freedom?

We must increase funding for Radio Farda and other democracy building programs to provide the Iranian people with the free flow of information and communications in their struggle to be free.

The President must use his full authority under the Iranian Sanctions Act to deter companies from investing in Iran's energy sector.

We must place column 2 tariff rates on Iran's remaining exports to the United States. We must pass the Global Online Freedom Act to prevent American companies from assisting foreign governments, including Iran, from censoring and monitoring their people on the Internet. We must pass the Iran Refined Petroleum Sanctions Act and the Iran Threat Reduction Act to embargo the flow of refined fuel to and increase the pressure upon the regime.

The President must prohibit regime members from entering the United States of America.

We must seek a United Nations Security Council resolution denouncing the regime; demanding a new, internationally monitored election; and tightening the current U.N. sanctions against the regime until this election occurs and its outcome's integrity verified.

We must work with American labor organizations to establish a support fund for Iranian workers striking in protest of the regime.

Finally, we must link all of our relations with Iran, and with those nations abetting the regime's perpetuation in defiance of its people's freedom to human rights.

If we pale and fail to take these measures, we will be haunted by the cries of the oppressed Iranians abandoned to preserve our neutrality in this time of moral crisis.

But, when we act, we will expand freedom to the oppressed and enslaved; and ensure it for our children and ourselves. Only then will we have honorably performed our duty to liberty by guaranteeing generations of Americans and Iranians may proclaim, ''We are free.''

RESIGNATION FROM THE HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore laid before the House the following resignation from the House of Representatives:

JUNE 26, 2009.

HOUSE OF REPRESENTATIVES,
Washington, DC,
OFFICE OF THE SPEAKER,
U.S. Capitol,
Washington, DC.

DEAR MADAM SPEAKER: This letter is to alert you that I have sent a letter to Governor Arnold Schwarzenegger of California informing him that I will be resigning as the United States Representative for the 10th Congressional District of California effective immediately.

In May, I had the distinguished honor of being nominated by President Obama to serve as Undersecretary of State for Arms Control and International Security. Keeping nuclear weapons out of the hands of terrorists, making sure other countries do not obtain them and, one day, I hope, ridding the world of these terrible weapons, has become my passion and, I hope, my life's work.

It has been an immense pleasure working with you Madam Speaker. I owe you, and my colleagues on both sides of the isle, a debt of gratitude for your leadership, guidance and dedication. I eagerly await the opportunity to work with you in my new role with the Obama Administration.

Sincerely,

ELLEN O. TAUSCHER.

JUNE 26, 2009.

CONGRESS OF THE UNITED STATES,
House of Representatives,
Washington, DC,
Governor ARNOLD SCHWARZENEGGER,
California State Capitol Building, Sacramento, CA.

DEAR GOVERNOR SCHWARZENEGGER: On May 5th, I was nominated by President Obama to serve as Undersecretary of State for Arms Control and International Security. Therefore I am resigning my position as the United States Representative for the 10th Congressional District of California effective immediately.

Thirteen years ago, the people of California's 10th Congressional district bestowed upon me the privilege of serving as their representative in Congress. It has been a remarkable period marked by tremendous challenges and remarkable achievements. I take great pride, along with my distinguished colleagues in the California delegation, in working to make our communities safer, California more prosperous and our nation more secure. No matter where I am serving in government, I always will remember those who sent me to Washington and I always will be grateful for their support and the trust they placed in me.

I also wanted to thank you for your leadership. It has been a pleasure to work with you and your staff and I look forward to continuing our productive relationship.

Sincerely,

ELLEN O. TAUSCHER.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Under clause 5(d) of rule XX, the Chair announces to the House that, in light of the resignation of the gentlewoman from California (Mrs. TAUSCHER), the whole number of the House is 433.

HONORING FIRE CAPTAIN JAMES HALL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio (Mr. BOCCIERI) is recognized for 5 minutes.

Mr. BOCCIERI. Mr. Speaker, there are difference makers among us. I rise today to honor a man who committed his life to public service and put his life on the line working to save people in our community.

Just a few short weeks ago, James Martin ''Marty'' Hall, City of Canton, Ohio Fire Captain of 15 years, made the ultimate sacrifice and died in the line of duty after suffering a fatal heart attack just hours after serving a volunteer fire shift at the Greentown Fire Department.

Captain Hall was a member of the City of Canton's fire force for more than 20 years.

Captain Hall clearly moved our community. Joining the thousands of friends and neighbors and loved ones who lined the streets of Canton for his funeral procession deeply moved me. This man was a respected member of our city who touched and saved many lives, including a child he performed

CPR on after rescuing him from a burning home in Canton.

Captain Hall's peers called and said to him as they bid him farewell, ''If you needed to be rescued, Captain Hall and his crew would be the crew you wanted coming for you.''

Captain Hall was a hero in our community and in his home. Being a father of four small children, it was exceptionally emotional to witness his three daughters stand up at his funeral and say, ''We're going to miss you, Daddy.''

Their words should remind each of us that our time on Earth is limited and we must live fully each day. Captain Hall's passing shocked our community, and he will forever remain one of our community heroes.

My prayers and deepest condolences go out to his family as they grieve this tragic loss. Captain Hall's family and our community reflect on his service both in the military and as a firefighter.

Today, I take this moment to honor his life and his service to our country. We thank you, Marty, for your service.

SAD DAY FOR AMERICA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. SOUDER) is recognized for 5 minutes.

Mr. SOUDER. Mr. Speaker, this is a sad day for America, and I don't mean because of the death of Michael Jackson; I mean because if this legislation we just passed were to become law, tens and hundreds of thousands of people would lose their jobs.

In my district, we are already getting green jobs. We will have thousands of green jobs, but we are going to lose tens of thousands of other jobs. My congressional district in northeast Indiana is the number one manufacturing district in the United States. One county has 57 percent of the people working in manufacturing. I heard on this floor that we don't have any manufacturing jobs left in America anymore. Oh, yes, we do.

In my district, we have 30,000 jobs related to the recreational vehicle area. We have 40,000 jobs related to auto and truck. We make boats. We have tire factories. We have axle factories and windshield factories. We are the manufacturing center, along with JOE DONNELLY's district in the South Bend area and PETE VISCLOSKY's in northwest Indiana.

We still have an industrial base, an industrial base that has tried to adjust and accommodate and make the changes they need to make. We have the most efficient steel factories in America. We have two steel factories that were roughly a billion dollars each to build, five new core facilities; the only two steel companies in America that haven't lost money because they have cut their costs 75 percent. They have their labor cost down at 4 to 5 percent, yet we are looking at energy costs that could go up 80 to 100 percent because, you know what, you can't power a steel plant in Indiana with solar panels. You cannot do this with windmills. Manufacturing takes an incredible amount of energy.

Now let me be honest. I admire the Amish. My great, great grandpa was one of the first Amish settlers in the State of Indiana. My great grandpa left about 1880. It is fine if you want to be Amish with no electricity and windmills and ride around in a horse and buggy, but that should be a choice, not pronounced on you by the Federal Government.

For people who want to come to the Notre Dame games in South Bend, I worry that in a couple years you can go over to Elkhart County, one of the largest Amish settlements, and go, Oh, look at that Amish farm. There's no electricity there. They're riding around in a buggy; but it won't be Amish, it will be everybody in the area because that is county that has 57 percent manufacturing, a county that the President went in with the stimulus package and said, This is the highest unemployment area in the United States, and we are going to bring you jobs. And instead, we are bringing death to manufacturing.

I just don't understand it. Maybe my district should introduce legislation to make it a national historical industrial park area where people could go and see what steel mills used to look like. They could go and see what axle companies used to look like. What it looked like to make the Silverado and the Sierra pickup before we drove them to China, before we moved the last companies out.

And in between, you could see soybean and corn farms, and apparently we made some change here, but it is amazing we even had to make this change, that ethanol soy-diesel, we have the biggest integrated soy-diesel plant in the world. Dreyfus was worried down to the original draft of this bill they were going to be put out because they were cutting down trees to plant soybeans and corn for ethanol, except our trees are already cut down. Oh, you mean they were going to cut down trees in Brazil? Well, not our companies. But because we are internationalists now and we're trying to be one world, if we grow soybeans in Indiana, then we have to offset it with trees in other places, and now maybe we won't have to offset it and maybe we won't wipe out soy-diesel and ethanol. What kind of joke is this?

I honestly did not think that this House could pass this bill.

These are hardworking, blue collar workers. Many in my area, if not most, union members. Look, they are not necessarily big fans of MARK SOUDER or Republicans. It is their constituency who they are putting out of work, people who didn't necessarily have a college degree, who worked in steel mills, who worked in auto places, who got up early in the morning and worked a hard day and thought they could make it in America.

But no, we are shipping their jobs away from America because now they are dirty, even though now they will go to other countries where it will be dirtier air?

What about farmers who get up and they work hard all day, six, seven days a week in the peak season, and now they are going to be told that their energy costs are going to go up. The REMCs in my area, which are huge, when I have gone to their meetings, 1,400 and 1,500, they say it is going to be $60 to $80 minimum a month on each of their people who are working hard ever day and are trying to figure out now, with a 15 percent average unemployment in my district, that they are supposed to take this kind of a heating bill.

I do not understand this. If you don't have steel, how do you have a military? Are we going to build our big aircraft carriers out of bamboo? What are we going to do here? Maybe we can have China build the steel for our military. That will work real well. They are our good buddies.

Before, when we heard the day of infamy from Franklin Delano Roosevelt, we at least had a manufacturing base to respond. This day of infamy, if this bill becomes law, we won't have a manufacturing base to respond.

CAP-AND-TRADE NOT THE ANSWER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. MCCLINTOCK) is recognized for 5 minutes.

Mr. MCCLINTOCK. Mr. Speaker, I had a strange sense of deja vu as I stood here on the floor of the House and watched all of the self-congratulatory rhetoric a few moments ago on the passage of the cap-and-trade bill, and I feel the need to rise to issue an urgent warning from the west coast.

I stood on the floor of the Senate of California 3 years ago and watched a very similar bill adopted and watched the same sort of self-congratulatory celebrations as we just saw here, and I have watched over those years as that measure has dramatically deepened California's recession. It uses a slightly different mechanism than cap-and-trade, but the objective is exactly the same, to force a dramatic reduction in carbon dioxide emissions.

□ 2000

Now, up until that bill took effect, California's unemployment numbers tracked very closely with the national unemployment rate. But then, in January of 2007, California's unemployment

rate began a steady upward divergence from the national jobless figures. Today, California's unemployment rate is more than two points above the national rate and is at its highest point since 1941.

What happened in January of 2007? AB 32 took effect and it began shutting down entire sectors of California's economy.

Let me give you just one example from my own district. The city of Truckee, California, was about to sign a long-term power contract to get its electricity from a new EPA-approved coal-fired plant way off in Utah. But AB 32 and companion legislation caused them to abandon that contract. The replacement power that they acquired literally doubled their electricity costs.

So when economists warn that we can expect electricity prices to double under the cap-and-trade bill, I can tell you from the bitter experience of my district that that is not some future prediction. That is a historical fact.

Governor Schwarzenegger assured us at the time that AB 32 would mean an explosion of new, green jobs—exactly the same promises that we heard on this floor today.

Well, in California exactly the opposite has happened. We have lost so many jobs that the UCSB economic forecast is now using the D word—depression—to describe California's job market.

Mr. Speaker, the cap-and-trade bill proposes what amounts to endlessly increasing taxes on any enterprises that produce carbon dioxide or other so-called greenhouse gases. We need to understand exactly what that means. It has profound implications for agriculture, construction, cargo and passenger transportation, energy production, baking and brewing—all of which produce enormous quantities of this innocuous, ubiquitous compound. In fact, every human being produces 2.2 pounds of carbon dioxide every day—just by breathing.

So applying a tax to the economy designed to radically constrict carbon dioxide emissions means radically constricting the economy. And this brings us to the fine point of the matter.

When we look back on the folly of the Hoover administration and how it turned the recession of 1929 into the Depression of the 1930s, the first thing that economists point to is the Smoot-Hawley Tariff Act that imposed new taxes on 20,000 imported products.

The Waxman-Markey bill, I'm afraid, is our generation's Smoot-Hawley that imposes new taxes on an infinitely larger list of domestic products on a scale that utterly dwarfs Smoot-Hawley.

Let's ignore for the moment the fact that the planet's climate is constantly changing and that long-term global warming has been going on since the last ice age. Let's ignore the fact within recorded history we know of periods when the Earth's climate has been much warmer than it is today, and others when it's been much cooler. Let's ignore the thousands of climate scientists and meteorologists who've concluded that human-produced greenhouse gases are, at most, a negligible factor in global warming or climate change.

Ignore all of that and we're still left with one lousy sense of timing. In the most serious recession since the Great Depression, why is it that Members of this House want to repeat the same mistakes that produced the Great Depression?

Watching how California has just wrecked its own economy and destroyed its own finances, why would Members of this House want to do the same thing to our Nation?

Mr. Speaker, this is deadly serious stuff. It transcends ideology and politics. This House has just made the biggest economic mistake since the days of Herbert Hoover.

Two things are certain if this measure becomes law. First, our planet is going to continue to warm and cool, as it's been doing for billions of years. And, secondly, this House will have just delivered a staggering blow to our Nation's economy at precisely that moment when the economy has been the most vulnerable.

BAD DAY FOR AMERICA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. CONAWAY) is recognized for 5 minutes.

Mr. CONAWAY. Today is a bad day for America. We just passed and witnessed the passing of a bill that will have dramatic impact on our lives and our way of life for years to come if it should ever see the President's signature.

One matter of process. At 3:08, 3:09 this morning the Democrat majority landed on the Internet a 300-plus page amendment to the already bloated bill that was passed. Apparently, the bragging on the thousands and thousands of hours of work and hearings and process that had gone into the development of the bill that was filed on Monday left it a little short of the mark. In spite of all those thousands of hours, they were unable to get it right. So they had to use a little fine-tuning with a 300-pager that was dropped this morning. So, that issue aside, Mr. Speaker, it is a bad bill.

Science, Mr. Speaker, is never settled. Take the example of Galileo as an example. The consensus science of his time was that the Earth was the center of the universe. The Roman Catholic Church believed it and all the scientists who you and I have no clue who their names are believed it as well.

Galileo, on the other hand, bucked the system. He said, No, in fact the Sun was the center of the universe. He spent the last years of his life under house arrest because he bucked the consensus science.

You and I both know that both the consensus side of that day and Galileo were wrong. Most on the other side believe that Washington, D.C., is the center of the universe. But that's a different conversation.

Science is never settled. We should continue to ask the question; we should continue to ask whatever it is that's out there.

The sense of urgency that the other side used to try to pass this bill the way they have done it evaporates and is quite muted when you look at the details: 25-year exemptions for certain energy companies to allow them to get their power plants in under the wire to get support for this bill. Even the Ag amendment delays for 6 years the implementation of some of the provisions that will devastate Ag. And so this sense of urgency seems to evaporate as well.

The cost of this bill will be thousands of jobs, as has already been said over and over. The empirical data is the Spanish experiment of the last 12 years. A report there on their greening of their economy shows that for every single green job created, that two private sector jobs were destroyed. Of the green jobs created, only one in 10 were permanent jobs.

Our own President has said that his cap-and-trade bill, which is the one that just passed, will cause electricity rates to skyrocket. Skyrocket, Mr. Speaker. That does not sound good when you're talking about the cost of a product that goes into every manufactured product in this country, that every one of us who likes air conditioning use. That's not a good idea.

This bill also, Mr. Speaker, nationalizes the building codes. No longer will you be able to look to your local planning and zoning commission, your local city council as to how the building code should be. You can't go to your State government. You're going to have to look to the Federal Government. Some bureaucrat in the bowels of the institution in Washington, D.C., is going to decide whether or not you can build a house and what those standards should be.

Congratulations. Thank you so very much, Mr. Tenth Amendment.

Mr. Speaker, MIT has a study that shows this will cost every family in America $3,100 for implementation of this bill. All of the pain that's associated with this bill and, quite frankly, there is a lot of pain. And we will just begin to see it as the details unfold. So what do we get for that pain?

I've recently asked a climate scientist who feeds his family, basically, looking at this issue. I said, If we were

able to pass the Waxman-Markey bill, can you in fact measure after 40 or 50 years the positive impact on our atmosphere? If we're going to spend $3,100 per family to get this done, if we're going to lose all of these thousands of jobs and decrease the standard of living in America as a result of this deal, what do we get for our money?

He looked me right in the eye, Mr. Speaker, and said, Maybe. Maybe you can measure the impact? He said, Yeah, maybe.

The Congress of Racial Equality, not someone you would normally think would be doing things that Republicans would agree with, their spokesman, Niger Innis, talks about the study they performed that shows that should this happen or, actually, should America go to a zero carbon footprint over the next 100 years, that the impacts on the temperature will be like .07 degrees Celsius over that entire timeframe. Again, not measurable. So a lot of pain for no gain.

Mr. Speaker, I guess the call to action for all of this is for our fellow American citizens to get mad. I'm hoping that, Mr. Speaker, this next week before they go to their 4th of July parades in their cars, which is a limited opportunity because there will soon become a day they won't be able to drive those kinds of cars that they want. We will tell them the kind of cars they want to drive, not themselves.

But I hope they get mad, Mr. Speaker. I hope they use this climate change bill—global warming bill, because we changed the phraseology because the climate is not warming—I hope they use this to incent their TEA parties on the 4th of July to go after us on this deal. I hope they begin to call their Senators and tell them ''no'' on this deal.

Call your Congressman who voted for this nonsense. There are 219 of them. You can go to the Web and find out who they are. Start calling them now and tell them they made a mistake, Mr. Speaker.

This bill is bad for America, it's bad for our economy, and it will lower our standard of living. It was done simply to allow our President to have a photo op in Copenhagen in December while the Chinese and Indian leaders laughed behind his back.

THEIR LIVES, THEIR FORTUNES, AND THEIR SACRED HONOR

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. We all know that liberty is not free, and our history shows that it is cause to stand on principle. But freedom has always been worth the price.

Even before that magic list was published in 1776—on July 4—of the signers of the Declaration of Independence, those 56 men, the British knew who they were, and they had already marked down every Member of Congress suspected of putting their name to that treasonous document. All of them became the objects of individual manhunts by the British. Of course, the punishment for treason was death by hanging.

Of the 56 who signed the Declaration of Independence, nine of them died of wounds or hardships during the American War of Independence. Five were captured and imprisoned. In each case, they were treated brutally. Several lost their wives, their sons, or their entire families. One Member lost all 13 of his children.

Two wives were brutally treated. And all at one time or another were victims of manhunts or driven from their homes. Twelve signers of the Declaration had their homes completely burned. Seventeen lost everything that they owned. Yet not one defected or went back on their pledged word. Their honor and the Nation they sacrificed so much to create is, yes, still intact.

You see, they pledged to themselves their lives, their fortunes, and their sacred honor. And they did not go back on their word.

New Jersey signer, Abraham Clark, gave two sons to the officer corps in the Revolutionary Army. But they were captured and sent to the infamous British prison ship in New York harbor known as hell ship ''Jersey,'' where thousands of Americans who had been captured were going to die.

They were treated with a special brutality because of their father, Abraham Clark. But when the war was almost over, the British told Clark to come out in favor of the King and his sons' lives would be spared. Abraham Clark, in his anguished answer, replied, No.

Francis Lewis was a New York delegate. He saw his home plundered and his estates in what is now Harlem completely destroyed by the British. Mrs. Lewis, his wife, was captured and treated with great brutality because of her husband.

John Hart of Trenton, New Jersey, risked his life to return home to see his dying wife. But German Hessian soldiers rode after him and he escaped into the woods. While his wife lay on her deathbed, the soldiers ruined his farm and wrecked his homestead.

Hart, 65, hid in the woods as he was hunted throughout the countryside. When he finally made it home, he found that his wife had already been buried and his 13 children had disappeared. He never saw any of them again.

Judge Richard Stockton, another New Jersey signer, had rushed back to his estate in an effort to evacuate his wife and his children. The family found refuge with friends, but a sympathizer betrayed them. Judge Stockton was pulled from bed and brutally beaten and put in jail.

Congress finally arranged for Stockton's parole, but his health was ruined. He returned home to find his estate looted and did not live to see the triumph of the Revolution. His family was forced to live off charity after he died.

John Morton was a British sympathizer, but once he came to sign the Declaration of Independence, he changed his mind and came out strongly for independence. Most of his neighbors, however, in Pennsylvania, and his relatives, were British sympathizers and ostracized him.

When he died, just 1 year later after signing the Declaration of Independence, his last words to his tormenters were, ''Tell them that they will live to see the hour when they shall acknowledge the signing of the declaration to have been the most glorious service that I have rendered to my country.''

There were similar stories with the other 51 signers of the Declaration of Independence.

A person who did not sign the Declaration, but one of my favorite persons in history, and a son of liberty, was a schoolteacher by the name of Nathan Hale. He was from Connecticut. He was a 21-year-old teacher by trade, but joined the Colonial Army under George Washington.

At the Battle of Harlem Heights, George Washington was facing General Howe in battle and asked for a volunteer to go behind enemy lines and spy on behalf of the Colonial Army. Hale volunteered and went forward.

He disguised himself as a Dutch schoolmaster, set out on his mission for a week and he gathered information on the position of the British. But he was finally captured when returning to the American lines. Because of incriminating papers that he had in his position, the British knew that he was a spy.

□ 2015

It is said that his cousin, a British sympathizer under Howe's command, betrayed him. So Howe ordered Hale to be hanged the following day without trial.

On September 22, 1776, American patriot Nathan Hale was hanged for spying on British troops. His famous last words, I regret that I have but one life to give to my country.

Mr. Speaker, an amazing breed these early Americans. So this July 4th we should pledge to ourselves and our Nation that no matter the cost, we who live here now will not ever allow the flame of liberty or the flag of freedom to quietly disappear from our land, a land that God has shed His grace upon.

And that's just the way it is.

AMERICAN CLEAN ENERGY AND SECURITY ACT WILL CREATE GREEN JOBS

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Texas (Ms. JACKSON-LEE) is recognized for 5 minutes.

Ms. JACKSON-LEE of Texas. I want to take this time to say to the distinguished Speaker that I have enjoyed working with him and I thank him for his leadership.

Mr. Speaker, I love America. There is no better country. And I think it is well to express it at the same time of acknowledging the importance of the world family and the respect and dignity that all people around the world deserve.

So as I stand before my colleagues today recognizing that in a few days we will celebrate America's birthday, it reminds me of the uniqueness of this country, that we have the opportunity to agree and disagree but that democracy stands. We have an opportunity to show people what they disbelieve. We have an opportunity to correct what others may have had a chance to misrepresent.

So it is important that we had a vigorous debate today on the American Clean Energy and Security Act of 2009. It is important that we respect the differences of our regions, my good friends on the other side of the aisle, Midwesterners, Southwesterners, people from the west coast, the east coast, the southeastern part of the United States, our friends as far away as Hawaii and Alaska.

But it is important to note that there was a value that we were discussing. It was not a value to eliminate jobs, to punish certain regions or certain industries. For having been an oil and gas lawyer for a number of years, having worked in natural gas pipeline companies, I know the value of all of the hard work of those who are in that industry. In fact, it has been my argument that we should have a seamless energy policy that continues to enhance and to work with those who are existing in our energy industry today, but let's make it better.

Mr. Speaker, when the Wright Brothers created that small plane, almost a glider, in the Carolinas, it probably was flown by one person. But as we improved, we began to do jetliners and planes that could fly across the ocean, and we created jobs: pilots, flight attendants, airlines, and all the employees that come with it. So, in essence, even as our technology changes, jobs may change but jobs are created.

The American Clean Energy and Security Act will create some 1.7 million jobs and will unlock billions in industry investment and be a major job creator. And $750 per household will, in fact, be part of the savings that many Americans will see. This doesn't include the new benefits that will come from new technology, reduced pollution, economic growth, or job creation.

I live in Houston. I live in the refinery corridor. So we know what pollution is all about, but we know what jobs are all about. So I believe we can have both.

This is the first step for this bill, Mr. Speaker. It moves to the Senate. And I have told my constituents that you have a guardian against the loss of jobs and that you will see savings, $29 billion in consumer savings. The American Council for an Energy Efficient Economy found that energy-efficiency provisions in this bill will save $29 billion. It is important to note as well that we have the opportunity to listen and change.

Let me just share with you some of the work after reading the bill until 5:30 a.m. in the morning on Thursday morning, reading the manager's amendment, which could actually be done, and knowing what is in front of us.

First of all, I discussed and got taken out the impact of building labeling on old buildings, old homes. So the bill was limited to new construction. And we are going to work to ensure that if they do a building-labeling program, as was brought to my attention by the National Realtors, that old buildings, old homes will not be labeled. Your value will not be devalued because of a lack of energy-efficiency efforts in your home. We worked on that because we believe a home is to be cherished.

Then we opened up the opportunities to minority-owned and women-owned businesses, along with small businesses, to ensure that they would be guaranteed the right to be involved in energy-innovative companies. We did that because we were concerned about creating jobs and we know that small businesses do create jobs.

In addition, I was concerned about displacement, temporary displacement, even though some of these jobs, 1.7 million, will come to my community. So we have language that says the Secretary of Labor will monitor the potential growth of impacted and displaced workers to ensure that necessary funding, funding for training, funding for giving people a bridge to go into a new job, will be, in fact, included. We know that there are issues between big refineries and small refineries. Mr. Speaker, it is crucial that those issues be addressed as we make our way through the Senate.

We also know that the energy industry was divided. Some were supporting this legislation. Others were taking a backseat. Now they've come full circle and they believe that this is a time that they should rally to provide information.

Mr. Speaker, as I close, let me just say we are going to work this bill. We're not going to lose jobs. We are going to have an investment of green jobs and we're going to have an investment in our energy industry. And Houston will be fine. Texas will be fine. We will be working together.

REVISION TO ALLOCATIONS FOR CERTAIN HOUSE COMMITTEES FOR FISCAL YEAR 2010 AND THE PERIOD OF FISCAL YEARS 2010 THROUGH 2014

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. SPRATT) is recognized for 5 minutes.

Mr. SPRATT. Madam Speaker, under section 323 of S. Con. Res. 13, the concurrent resolution on the budget for fiscal year 2010, I hereby submit a revision to the budget allocations and aggregates for certain House committees for fiscal year 2010 and the period of fiscal years 2010 through 2014. This adjustment responds to House consideration of the bill H.R. 2454, the American Clean Energy and Security Act of 2009. A corresponding table is attached.

This revision represents an adjustment for the purposes of sections 302 and 311 of the Congressional Budget Act of 1974, as amended. For the purposes of the Congressional Budget Act of 1974, as amended, this revised allocation is to be considered as an allocation included in the budget resolution, pursuant to section 427(b) of S. Con. Res. 13.

DIRECT SPENDING LEGISLATION—AUTHORIZING COMMITTEE 302(a) ALLOCATIONS FOR RESOLUTION CHANGES

[Fiscal years, in millions of dollars]

House Committee	2009		2010		2010–2014 total	
	BA	Outlays	BA	Outlays	BA	Outlays
Current allocation:						
Energy and Commerce	11	2	10	13	−10	−2
Ways and Means	0	0	6,840	6,840	37,000	37,000
Change in the American Clean Energy and Security Act (H.R. 2454):						
Energy and Commerce	0	0	9,260	370	266,324	252,354
Ways and Means	0	0	0	0	4,416	4,416
Total	0	0	9,260	370	270,740	256,770
Revised allocation:						
Energy and Commerce	11	2	9,270	383	266,314	252,352
Ways and Means	0	0	6,840	6,840	41,416	41,416

BUDGET AGGREGATES

[On-budget amounts, in millions of dollars]

	Fiscal year 2009	Fiscal year 2010	Fiscal years 2010–2014
Current Aggregates: [1]			
Budget Authority	3,668,788	2,882,117	n.a.
Outlays	3,357,366	2,999,049	n.a.
Revenues	1,532,579	1,653,728	10,500,149
Change in the American Clean Energy and Security Act (H.R. 2454):			
Budget Authority	0	9,260	n.a.
Outlays	0	370	n.a.
Revenues	0	948	260,543
Revised Aggregates:			
Budget Authority	3,668,788	2,891,377	n.a.
Outlays	3,357,366	2,999,419	n.a.
Revenues	1,532,579	1,654,676	10,760,692

[1] Current aggregates do not include the disaster allowance assumed in the budget resolution, which if needed will be excluded from current level with an emergency designation (section 423(b)).

n.a. = Not applicable because annual appropriations Acts for fiscal years 2011 through 2014 will not be considered until future sessions of Congress.

ENERGY AND JOBS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Texas (Mr. GOHMERT) is recognized for 60 minutes as the designee of the minority leader.

Mr. GOHMERT. Mr. Speaker, I appreciate the time.

This is a trying time. And I appreciate my friend from Texas' belief and hope in the future. I just have read enough of this bill and know enough to understand the consequences. And this isn't the whole bill. This is two-thirds of it. The other 300 pages, they allowed me to borrow a copy briefly earlier today during debate right before the debate closed. But this is about two-thirds of it.

We're having a job fair in Longview, Texas, Monday. That arose when I met with a bunch of my constituents, most of whom were African Americans, in a North Lufkin church a month or so ago who had lost jobs because jobs were being moved overseas. Energy was too costly here. The corporate tax is over twice as much here as what it is in China. And I have been hearing from other manufacturers that we have in our district that if this cap-and-trade bill goes through and becomes law, there will be many more lost jobs.

And it breaks my heart. It broke my heart to meet with those people there in North Lufkin and others around my district who have lost jobs. So that's why I got to thinking what can I maybe do to help. I know the Texas Workforce Commission does a good job of having job fairs and trying to match up job openings with people's job skill sets and try to get people a job.

As someone said on the floor earlier on our side of the aisle, Our people are not interested in unemployment benefits; they're interested in a job. That's what they want. That's what they had.

We have continued to take actions for the last 2½ years since our friends across the aisle have been in the majority to place more and more of our energy off-limits, to make it more expensive.

I also have plants in my district that use natural gas as feedstock, feedstock meaning that natural gas is absolutely the most essential element to producing the things that they do like plastics and other materials. And natural gas under this cap-and-trade bill will naturally skyrocket. Our Democrat majority leadership is pushing to regulate and tax hydraulic fracking, which will make much of the gas that we're currently getting unavailable and will shove those prices even higher. I lost around 900 jobs in my district when the Abitibi paper mill closed because natural gas was more expensive here in the United States than it was virtually anywhere else. It was a Canadian company. They held on to the property hoping that one day they could reopen it and get back those 900 good jobs, but eventually they have announced they will not be reopening the plant. That was the price of natural gas that did that.

So I know with the job fair I've got coming up in Longview, we have over 60 employers there that will be offering jobs. We had over 600 people show up looking for jobs at the job fair in Lufkin, and I'm hoping it will go well.

But I have read enough of this bill and I know enough about the energy industry because we produce a lot of it in East Texas. We've got coal, we've got oil, we've got gas, solar, wind. But this bill is going to put a lot of people out of work. It's going to put people out of work all over the country. So the job fairs are not going to be adequate for the damage that this bill is going to do.

I have been joined by colleagues here on the floor who I think are as heartbroken as I am. And you would think we'd be giddy, you know, that our friends across the aisle have passed a bill that's going to come back to haunt them. It's going to cost jobs. It's going to make Americans mad. But I'm nothing but brokenhearted because I know what this will do to individuals.

And I know that my friend Mr. SOUDER is likewise affected, and I would like to yield to him.

Mr. SOUDER. I appreciate the honor of being an honorary Texan here tonight because in Indiana we're still unusual. I mean we still make things. We don't have the mountains like they have out West or beaches. What we have are hardworking Americans who are still competing worldwide in manufacturing.

And if you go into any of the types of plants—earlier I was talking about our steel mills in addition to the two SDI mini-mills with recycled steel. Everything they use, they recycle and use recycled materials, as does NuCor. I have a Valbruna steel mill. One of the interesting things that Valbruna has done is they built an additional facility because they're the number one provider of steel to the refinery industry in Texas and Louisiana. So in my district we're making the things still in America. Your options are basically Korea, Brazil, China, or Indiana steel in many of these cases.

But these factories take an incredible amount of energy. Some of our factories, we have 85 percent coal, 15 percent nuclear in our basic provision of things. And basically this bill doesn't like things that we can use in Indiana. It doesn't like coal. They really aren't too fond of nuclear. I think that a lot of the question of what to do with waste, I used to think it was driven by Jane Fonda in ''The China Syndrome'' movie, but that's us old people. I think the younger people are thinking of Homer Simpson coming in and kind of blowing up the city of Springfield all the time, and they think of that as nuclear energy. There are 13 or 15 or more plants on the drawing board right now, but it may take 20 years to get there.

What do I do if I don't have coal? Well, I could use gas and oil, but, boy, those are kind of bad. We tried to get the BP Refinery done in Indiana to handle Canadian tar sands. There's another one over by Detroit. But they're going to be tied up for 10, 15 years. They were half of EPA discharge. But Rahm Emanuel and others are saying, Oh, no, we can't build that refinery. We don't want any refineries in America. Well, we make 58 percent of the RVs.

□ 2030

What are you going to do, put a little fan up on the roof to try to make these RVs go? International designs—800 people to design the big trucks in my district. How are we going to deliver goods to market? The rail is already jammed, the canals are jammed, the rivers are jammed. If we can't use trucks, which take up about 40 percent of the energy on our roads, how are we going to move around?

The foundries take this—it was the biggest ice cream plant in the world, an Edy's ice cream plant until they built one additional. But when you go in an ice cream plant, how do you think ice cream is made? You have got to deliver it there, the milk in, then you have got to process it and you have all these electrical machines powering this. You know, they can't do that with a couple of solar panels.

I have Kraft Caramels in my district, all sorts of things, not just kind of windshields and axles and stuff. How do you power these kinds of things? I am not against alternative energy at all. I worked hard.

In my district, in fact, Guardian windshields has learned that their process of windshields, if you think about it, took solar heat for a long time. And these solar panels in Nevada and other places are cracking. By going with Guardian, they are learning that they can make these panels more efficient, get 20 percent or more energy,

and they don't crack. Spain is using them. The new model projects in the U.S. are using them, and they are going to have possibly hundreds of jobs making the windshields for the solar panel industry.

Of course, they had near a thousand jobs making windshields for SUVs, pickups and things that are now kind of on the bad list, so we will get green jobs, maybe half as many as we had before in that category.

I have Parker-Hannifin in New Haven. We have had an earmark to help them, to try to get the heat down inside of everything from your handheld, your BlackBerry, to wind turbines, and could possibly make the wind turbines 20 percent more efficient. We may have, at some point here, 200 people doing windmill turbines and other things, but that plant had 1,200 supplying traditional energy industries.

I have worked with people who are coming, trying to come up with alternative car engines.

One of my friends and supporters is putting in a huge wind farm. In Indiana, we have two basic areas that we can put wind farms. We might get to 4 percent, but we can't reach the targets in these bills. It's not that we are not committed to alternative energy, but we don't have as much wind and solar. We have to have traditional forms of energy: oil, gas, nuclear, coal, not just the alternative form, especially if they are going to put limitations on ethanol and biodiesel. So this is a critical time, really, where we are trying to decide in America, are we going to have manufacturing or aren't we going to have manufacturing?

Are we basically going to basically have service jobs and then high-tech jobs? Yes, at a coffee house at different universities they sit around and go, Oh, this stuff sounds really great. And the others in their beach houses on the coast go, Oh, this stuff really sounds great. But what's missing in America is we are getting increasingly two classes of people, and the blue collar class of people who made things and had a decent living where they could get a house, maybe a boat where they could go on vacation, they are disappearing.

And the knowledge class, often in the liberal upper groups of the Democratic Party, are basically saying goodbye to their working class. And they are saying, You can either basically maybe bring us a drink, grill us a hamburger, or go get a doctorate and teach at a university.

What we are losing is the middle group of blue collar Americans who worked with their hands and worked in their fields, and they are basically knocking them out, and those jobs are going to other countries.

Mr. GOHMERT. And perhaps, Mr. SOUDER, that's why, on this map we have here, the dark red is high vulnerability under cap-and-tax to losses of jobs. That's why Indiana is in this area up here where apparently it's in the high vulnerability for high losses of jobs.

Texas, where I am from, it's in the medium vulnerability, but I already know. I have seen the loss of jobs we have.

And actually, we have some of the same industries. We have a Nucor, but we have Tyler Pipe, Lufkin Industries involved in steel, but there is going to be a lot of loss of jobs.

Mr. SOUDER. The Heritage study showed that my congressional district is number one is loss. Next to the me is JOE DONNELLY in the South Bend district, who was number two. Congressman LATTA, who asked for the split out, just to my east in Ohio, is number three. MIKE PENCE, who is just to my south in that part of Indiana is number four. Congressman JORDAN is number five and Congressman BOEHNER is number six. Because not only do we have manufacturing, we tend to use coal and nuclear because alternative energy is less of an option in these heavy industrials. Then it kind of jumps up to Michigan.

The other thing that's noticeable in that map where the dark red is and the other is that's really where most of the water is in the United States, coming out of the Mississippi, and to manufacture, you need to have water and access to water. You are not going to move—you will see some in the orange States. You can move some steel and manufacturing into those areas, but basically you can't really transfer to those light yellow because that's mostly desert area. And you can't power these big plants with just solar or wind, and they don't have enough water to supplement the traditional that you need in refineries and in steel mills and that type of thing, and they don't really have a plan.

That's why we Republicans, when you look at the actual details—if you could even stomach, by the way, the government making all these decisions rather than market, that's bad enough. I mean, that document basically is page after page of the government telling us how we should live, the government telling us how we should make things.

But the bottom line, when you look at that map, if it goes out of the red zone, it's basically going to Mexico, to China, to Korea, to South America. Because the areas that are lighter, where you conceivably could shift it, it's just not possible to build these plants there.

Mr. GOHMERT. I appreciate that, that's an excellent point.

For this heavy manufacturing, you do have to have water. Regardless of any other energy source you may have, it takes water. That's a great point, which is why the traditional iron belt was up here in the Midwest. In those areas, you had water. You had all the things you needed. You had good workers. You had everything you needed to produce those things.

And just as an aside, as a history major and history buff, it needs to be noted. When a Nation can no longer make the things from scratch that are required to defend itself at a time of war, then the country will be lost in the next big war. We are losing the steel industry weekly, and it won't be long before we cannot produce tanks, airplanes, things.

Right now, we are barely able to produce tires because so many of the tire plants have moved overseas. You have got to have tires. You have got to have rubber. You have got to have wood. You know, we cut out so much of the wood industry, and that continues to happen, and people would be surprised how much that's used for.

Natural gas helps—is part of the process of making so many of the parts for weaponry, and that will become more and more difficult to obtain.

Mr. SOUDER. Yes, I don't mean to monopolize the time, but when you say these things, to illustrate the manufacturing in my district, Michelin bought a U.S.—bought a BFGoodrich tire plant in my district with 1,600 people in it. They have invested $15 million a year if they can become 5 percent more efficient, so they put $120 million into this huge plant, and people don't even realize what they are putting in. And I was just part of a suit to say stop the dumping, because we can compete with China without the dumping, but not if you add 7 percent health care and then add a cap-and-trade and then add the other OSHA and all the types of regulations that are coming back that we had restricted, we can't compete in tires.

I have a lot of the defense industry. I have a BAE plant with 2,500 people working in it. They do a lot for Boeing. One Member just a moment ago referred to Wilbur and Orville Wright and the amazing thing, but, you know, we are going to go back to these kinds of paper airplanes if we are not careful here. Boeing, that's metal. It takes energy to build every part in that plane, and it takes energy to launch the plane. And it's not—let's just say, they don't have windmills on this thing. They don't have solar panels to get a jet up in the air.

I have NASA satellites. The ones that feed into The Weather Channel are made by ITT in Fort Wayne, and they actually are looking at being able to track, as my friend from Texas earlier said about, we don't really have the science on that. Well, that's what one of the companies in my district is looking at; can we get satellites up in the air to track the climate change? Because the truth is, we are doing this bill with no data.

But put a satellite up. You know what, it has aluminum on it. You know

what takes an incredible amount of energy to make, aluminum. The electrical systems in a plane and a satellite are copper. You can't get copper if you can't mine for copper. You can't make—the smelting of copper takes an incredible amount of energy. Aluminum and copper take as much or more energy than steel. How do they think we are going to get airplanes? How do they think we are even going to track the climate change?

It is baffling that this bill could have gone through a Congress. I am going to make a flat-out statement. If most of the Members of Congress were businessmen, this would have never passed.

Mr. GOHMERT. I appreciate my friend's point, and that is a good point.

I think if most of the people in this House had read this bill and been given a chance to read the additional third that was added at 3 a.m. or so this morning, then I don't think this would have passed either.

But we have been joined by another friend, a former fellow judge, a district judge also. I would like to yield to my friend, Mr. POE.

Mr. POE of Texas. Thank you for yielding, Judge GOHMERT. You know, we approach what we consider the most important of all days for our Republic, and that's Independence Day.

And this legislation that unfortunately passed tonight has not made us more independent, but it has made us more dependent. As a Nation, we are more dependent upon, now, government control of every aspect of our lives, our personal lives, our business lives.

When the government starts telling you what type of electricity you can have in your home, when the government starts telling you that you have to pass an energy efficiency before you can sell your home, maybe we have gone too far in the government controlling our lives. But that's just a smidge of what has occurred in the passing of this legislation.

I am not sure what the goal of the legislation was. We heard different things. One was that it's going to create more jobs for Americans. Well, that's just not going to happen. All the sane studies show that that's not going to occur in the United States.

There will be government programs, which means subsidies paid by taxpayers to go to, quote, green jobs. Those are programs, and they will be created, subsidized by the taxpayers, to move us in a direction of the green environment, which I will say just a little bit more about in a minute.

But one group that has not been mentioned today in the House debate that talked about jobs, the National Black Chamber of Commerce said this legislation will cost 2.5 million jobs almost immediately. Well, that's a lot of Americans being put out of work when we are already having Americans losing their jobs.

We do have an example of a country that has tried this legislation. Although they didn't sign this one, it's one very similar. Spain has had this so-called idea of trying to control carbon emissions in their country for several years, and they have created jobs, but they have lost jobs. For every green job that they have created, by their own statistics, two other jobs have been lost.

Now, I am not a CPA like Mr. CONAWAY is, but it would seem to me the more green jobs you create, the more jobs you are going to lose.

And that's what Spain has done, and now they are trying to get out from under their own legislation that has cramped their economy because they are losing jobs by moving to this so-called green job economy. So we are losing American jobs overseas for a lot of reasons already, and a lot of it is because of the high cost of energy. Now we are going to have energy cost increase. So first idea, a goal to create American jobs, that's just fiction.

The second thing is that this is supposed to be a bill to save the planet. You know, humans are bad and that we are creating all this gas that we need to control, and it's all because of energy. And so if we have this legislation that passed, we are going to save the planet.

Up until a few months ago, we heard from those people. That was called global warming. But since global warming is not occurring, it is now changed to climate change. We changed the title, because global warming does not appear to be what those who claim it to be is occurring here.

Now we hear from the Congressional Budget Office, when they testified before the Senate several weeks ago, that the effect of this legislation will have little or no effect on climate change.

□ 2045

Now, the first goal, create jobs, is a fiction. The second goal, to control the climate from bad humans, is not going to have any effect because of this legislation. And the third thing about this legislation is it costs too much; we can't afford it. We can't afford it even if it did create jobs or save the planet. But the billions of dollars in that 1,200 pages you have in front of you there, Judge GOHMERT, that's going to cost Americans. It's not going to result in what we were all promised. So those are two items that I see as a major problem.

And another problem that I think is very paramount is the fact that we're going to turn our lives, our businesses over to government control. The government is going to control all energy in this country and it's going to tax it all. You turn on these lights here in the Capitol—of course this is the government, they don't have to pay their bills—but if you turn them on at home, the cost of electricity is going to go up. If you use natural gas, a hot water heater, that's going to go up. You drive down the street using gasoline, that's made from crude oil, that's going to go up. Because everything that uses energy—which is everything—will cost Americans more. The energy companies, the ones that stay in America, they will pass that tax on to consumers, and the consumers pay because the consumers always pay.

But the hardest hit group is going to be, as Mr. SOUDER from Indiana said, the small manufacturing plants in the United States. They have to use energy to produce their products. Whether it's a paper mill in east Texas or whether it's a van up in Indiana or whether it's a small steel mill in my district, they have to use some form of energy to produce the product.

Now, the cost of that energy is going to go up so high they cannot produce the product and sell it. Because, you see, over in China, they're producing the same product and can ship it to the United States cheaper because they're not bound by all of these energy regulations and are not taxed for use of energy as American manufacturing companies will be. And that's a sad thing because it has always been the small business—and really the small manufacturing companies—that's been the heart and soul of the American economy.

You know, there was a time when you could go into a Wal-Mart—you've got them in your district, I don't know if Mr. CONAWAY has them in his, but we have a lot of Wal-Marts—but you could go into a Wal-Mart and they had a big sign that said ''Made in America.'' They claimed that everything they sold in that Wal-Mart was made in America. Well, that sign isn't up anymore; it hasn't been up in years because I don't think they make anything in America that they sell at Wal-Mart. It irks me to no end. This time of year, you go into a Wal-Mart and you want to buy a flag, just like that one behind the Speaker, and it's made in China. We can't even make our own flags because manufacturing in this country is being killed by the cost of doing business. And that bill in front of you, Judge GOHMERT, is not going to help that at all. It's going to just make the situation worse.

The last thing that bill does not do is create more energy. It taxes energy. It does not provide for more energy for Americans. Nuclear energy, I mean, even France, 80 percent of its energy comes from nuclear energy. And it can be done and created in a clean and safe way. We don't have any more nuclear plants in this country because of the fear tactics that have been placed upon the thoughts, so we don't use nuclear energy.

So we're not doing anything. We're not drilling offshore even for natural

gas. Natural gas is supposed to be the product that we go from this one environment to this beautiful environment. Of course, we can't get there from here. And now the other side that voted for this bill says, well, we need natural gas to bridge that gap because it's clean. Well, they don't allow drilling. You can't drill anymore. You can't drill offshore. You can't drill anywhere that there is natural gas. So how are we supposed to have energy to get to the clean energy if we cannot, as a Nation, even drill for natural gas?

So there's no nuclear, no natural gas, and of course we can't use clean coal. We don't want to use any more of that nasty old crude oil, even though crude oil and its byproducts is in everything Americans use, from plastics to our radios to our cell phones. It's in everything. And it's a derivative of some product of crude oil. We are always going to need crude oil to build the products that we have in this country. You can't build them all from biodiesels.

And so the bill does not do what it's supposed to do. It doesn't create jobs, it doesn't help the climate, it doesn't give us a new alternative for energy until we get to this supposed clean energy. And of course I think the worst thing is it takes control of Americans and their independence and makes us slaves to the Federal Government and the Federal bureaucrats to run our lives every day.

I will yield back, Judge GOHMERT.

Mr. GOHMERT. I appreciate so much those sterling observations about what this bill does and the effect it's going to have.

I know last summer I was approached by so many different people about the high price of gasoline. And I know those same people are going to get hammered again as time marches on—the summer into the fall into winter—if this becomes law. And the only thing standing between it now and becoming law is the Senate, because the President is sure going to sign it if it gets there. But a single mom saying I don't make enough money to live in town, so I'm out in the rural area, which means I have to pay for more gasoline to get into town, I'm maxing out my credit card every month just on gasoline. And it's getting close on whether I have enough leeway each month on my credit card to get enough gas to keep going back and forth to my job, because if I lose my job, I can't pay anything, including my credit card bill. And just the desperation in their eyes.

The things that are in this ''crap and trade'' bill, they're an inconvenience to the wealthy. They will be an inconvenience; but to people like that single mom and to so many others that are just struggling to get by—one 80-plus-year-old lady told me last summer, she said, you know, I started out in a house that had no running water and no power, we cooked with wood. And she said, Because of the price of fuel now, it looks like I'm going to finish my life in a house the way I started. This bill is going to do that.

And I know that privately there are people who are so pleased about this bill because they really believe if gasoline goes to $10, $20 a gallon, people won't use it and they will save the planet. And what they don't seem to understand is the only way you ever get a grip on pollution is to have an economy that is just thriving, that's doing so well in an advanced society, like ours has been, and then they're able to do something about pollution. But with this bill being passed, it is going to so cripple our economy. And when people lose their jobs and they're struggling and they can't make ends meet and they're using wood to cook food, they could care less about the environment. It's unfortunate, but it's true. They care more about living and sustainability.

And so what happens is these jobs will go to places like China, India, Brazil, where the pollution standards are not what they are here. And so they will put out, as we've already heard today, three, four, five, six times more pollution than we would if we kept the jobs here. And guess what? That pollution goes into the same atmosphere that these people over here are complaining about.

So by passing a bill that drives jobs, which this will, to other countries who don't have our pollution control and don't have our sensitivities to pollution, then we are doing such a disservice to the environment.

Mr. POE of Texas. Will the gentleman yield?

Mr. GOHMERT. I certainly will.

Mr. POE of Texas. Let me just speak to that issue of jobs. As you know, in my southeast Texas district I have 20 percent of the Nation's refineries; and those are blue collar jobs, union jobs. And it's a tremendous concern for not just management, but for those people who work in those refineries when they're told that the cost of producing energy—because they have to use, as you mentioned, fuel to produce energy—that they will be driven out of business and somewhere else where they didn't sign this 1,200-page bill. You know, China didn't sign that, Cuba didn't sign it, India didn't sign it. They laugh at us for signing it. And they're really doing a better job of making sure that they produce energy cleanly.

Perfect example: as you know, and have also advocated, we should drill in the Gulf of Mexico for more crude oil and natural gas. We can do that safely and cleanly. But we're not doing it. So who's going to do that? The Cubans and the Chinese are going to be drilling in waters that are near the United States where we ought to be drilling. And I can assure you that those platforms that the Cubans are building and the Chinese are helping them build are not going to be near as safe, pollution safe, as what we can currently do. And so it makes no sense that we hurt ourselves in producing energy and automatically say we're going to punish energy consumption by taxing energy and its consumers, the American people, out of business in hopes that we can get a cleaner environment. We'll all be riding bicycles and living in towns where we used to have to use candles because we're not going to have the energy to take care of ourselves as we are doing now.

I would yield back. Thank you.

Mr. GOHMERT. Well, I appreciate those observations.

And we've gotten testimony and evidence in other hearings that indicate if we were to open up the Outer Continental Shelf of this country where drilling is not allowed, it would, within a couple of years, have added 1.2 million jobs—not just on the platform, we're talking about most of those jobs would be added throughout the country.

We also understood from evidence presented that if you allowed drilling in ANWR, 1.1 million jobs added, there would be a handful, there would be some up in ANWR, but around the country to deal with all of that oil that would be produced. There are slopes in Alaska where drilling is not permitted that have incredible amounts of natural gas, that if allowed to drill, there is another 1.1 to 1.2 million jobs that would be added. If we just used the energy with which God has blessed our country, we would have 3.5 million more jobs. And then the President—it would suit me fine if President Obama took credit for it. If we start producing that, then he could live up to his pledge and say, see, I told you I would produce 3 million more jobs. Then he changed that to ''save or produce'' 4 million jobs because he knew nobody could prove if he saved a job or not. But this would nearly produce 4 million jobs. And I would be happy with him taking credit just to have people employed and producing energy, making us less reliant on countries overseas.

And I appreciated the point our friend, MARK SOUDER, made earlier about you do have to use energy to produce these products. And it's the same with agriculture. You know, we have a good bit of agriculture in east Texas where I'm from. And as one farmer pointed out, they don't make a Prius tractor. There is no hybrid tractor. And when you get away from the barn and you've got to have power, to my knowledge nobody makes a hybrid generator—which is a joke because a hybrid means you plug it in, and if you plug it in, you wouldn't—anyway, I won't explain it. But you have to use

diesel, you have to use gasoline, kerosene, something to produce the energy that agriculture needs to produce.

And then the fertilizer, goodness sakes, it takes massive amounts of natural gas to produce the fertilizer that the farmers use to produce all the food we get. And so it is heartbreaking to know how agriculture, you know, it's just going to devastate the middle class, the lower middle class, particularly. And what we are going to see in the next days ahead is heartbreaking.

We are joined also by a friend who Mr. POE indicated is a CPA. And I always appreciate the way he looks at things because it's such a straightforward approach. So I would like to yield to my friend, Mr. CONAWAY.

□ 2100

Mr. CONAWAY. I thank the gentleman. I appreciate that.

These are troubling times, and this bill is awfully troubling. The science that surrounds this climate change issue, everybody gets an opinion about it; but there's only a certain set of facts that we ought to deal with.

One of those facts is, if you would equate the Earth's atmosphere to a football stadium with 10,000 people in the stadium—to you guys from Texas, in Indiana we play a lot of football there. So there are 10,000 people in the stands. About 7,600 of those people are wearing jerseys that say ''nitrogen'' on the front; and about 2,100 or so have jerseys that say ''oxygen'' on them; and about 100 of them, or so, would say ''argon.'' The remaining 100 or so jerseys in that stadium are referred to as trace elements. Among those trace elements are four jerseys—up from three 150 years ago—four jerseys that say ''CO_2.'' So the catastrophic disaster of biblical proportions that is being predicted by the zealots and the religious folks on this climate change thing argue that the addition of one more jersey that says CO_2 on it to that stadium of 10,000 drives the change that they're talking about.

Now I'm skeptical. I get to be that way because everybody gets their own opinion. That's a fact. You get to interpret that fact however you want to. But the truth of the matter is, that's what they're asking us to believe. If you look at the 21 models that the Intergovernmental Panel on Climate Change used to predict this disaster, and they start in the year 2000, and you plot them on a graph over time, and they start out with a bracket, you've got the worst-case scenario on the top, the best-case scenario on the bottom, and then all those in the middle. They start at a relatively narrow band, and they go out over time. They begin to spread a little bit. Then they get out a certain number of years, and they go straight up, big slash. It kind of looks like a hockey stick at that point. Right there is where Earth ends as we know it, life ends as we know it, under their scenario.

So you've got that graph plotted over time, starting in 2000. If you had plotted Earth's actual temperature for the last 9 years on that exact same graph, it's below the best-case scenario, and it's falling away from the path that their predictions are on.

Now, I've got a lot more experience in financial projections than I do climate change projections, but the concepts are the same. Whatever your time frame on your projection, the most accurate period is the near term. In other words, you should be able to get the close-in years right, so to speak. So what these climate signs are saying is, their 21 models couldn't get it right in the first 9 years.

Now what they've not been able to explain is there's some sort of a self-correcting mechanism in their scheme that somewhere out here, it brings them back in line with what's going on, and it marries it back up. So if your predictions don't get it right in the first 9 years, should we trust those predictions? The other question you have to ask yourself is, Did you come up with the model before you came up with the answer? Or did you come up with the answer, and then you derive a model to get there? I can't answer that question.

Now these models look incredibly accurate because they are fraught with algebraic equations and all kinds of high math and calculus and trigonometry and all this kind of stuff that I'm sure you have built into these things. They look very great, and they look very intellectual. But they are predictions. They are guesses. They start with a series of assumptions. And if you take them back in time—I don't know that if you put it back in time and put the really out numbers in there and ran them forward that they'd get it even better. So the models themselves are not working, and that's what's driving the change in terminology from global warming to climate change, man-made, by the way.

If you look at the quotes from our President, who is one of these aficionados, one of these people who has drunk the Kool-Aid, so to speak—this is a quote from Senator Obama who was then trying to convince us that he should be President of the United States. Apparently he convinced about 53 percent of us that that was a good idea.

I guess he must have been really tired that day, talking to the editorial board because he got very straightforward and didn't mince his words too well. He probably wishes he had these ones back. But he said, ''Under my plan of a cap-and-trade system, electricity rates would necessarily skyrocket.'' Well, to those of us from west Texas, that would mean that if I am paying $2 for something today, then to skyrocket means that I am going to be paying $7, $8, $9 for it at some point in the future. So it increased costs on the skyrocket thing.

And there's a ellipse here of where he goes on to talk about coal-fired powered plants and the coal industry having to be retrofitted and fixed and brought into the 21st century, so to speak, and the costs associated with those, that will cost money. And they, the energy producers, will pass that money on to consumers.

Now you and I are the consumers. Anybody who pays for the turning on of a lightbulb is a consumer in this regard.

Mr. SOUDER. Would the gentleman yield for a question?

Mr. CONAWAY. Sure.

Mr. SOUDER. If you could put your quote back up, I just want to say that you are just so incredibly not politically correct for this day and age.

Because American electricity rates would go up, but we're world citizens now. Surely you are not claiming that rates would go up in Pakistan, China and other places. We use a disproportionate amount of the energy of the world. So we should be willing to sacrifice so that all the world's citizens can benefit more by taking our jobs and having a better standard of living. Then we can be all more equal. You are just not being politically correct tonight.

Mr. CONAWAY. Well, I struggle with that, obviously.

Mr. SOUDER. You are acting like an American, Congressman.

Mr. CONAWAY. These are American consumers, American jobs and American families that our good colleague from east Texas has been talking about. If you look at what other nations have done—and I am never one to say, Well, if so-and-so is doing it, we ought to do it too. But if you can learn from their example and apply it to your own circumstance, then there may be some value there. Australia, there's an editorial in today's Wall Street Journal that recounts Australia's struggle with this issue. Their Prime Minister, much like our President, ran last year on a platform that he and Obama would, together, cure this issue. To get it through their House of Representatives, he had to delay the implementation of it under their legislation until 2011.

So this urgency thing that you've been hearing about—that if we don't do something soon that life will end as we know it—apparently has softened a little bit under the new terms since the world's getting cooler instead of warmer. But the story went on to say that they would not get it through the senate in Australia.

New Zealand right after last year, right after the new government took over, suspended their cap-and-tax program within weeks of its initial implementation because they didn't believe

it was correct. Poland's leadership is now saying that we are skeptical on the science. The Czech Republic has folks saying, We are skeptical. There are scientists in this country that are beginning to say—politically correct now—to challenge this science associated with this because prior to this if you did it, you were called a Neanderthal, a knuckle dragger. One of our colleagues today called us ''Flat Earth People.'' You know, those kinds of things. But now it's beginning to be a little more politically correct to be able to say, hey, the scientists never settle on any issue, certainly not something as unknown as this is going on. So the science is beginning to push back on them.

And one final thing for my colleague who mentioned the 20 percent refinery. There was an article in Bloomberg today, talking about how major oil companies intend to cope with this bill, and they intend to cope by reducing their emphasis on refining. No more investment. They will shut them in. They would rather buy the oil, produce the oil overseas, refine it overseas and import refined products to this country to sell as opposed to buying it. What we would prefer to do is produce the crude oil from the U.S., and refine it in U.S. refineries. Those are all U.S. jobs. But companies will adapt to this. They will figure out how to make this deal work, and it will be at the expense of the American economy and American jobs and American families who will be punished with this legislation.

So I appreciate my colleague leading the fight tonight, giving us this opportunity to talk to each other and the Speaker about what's going on because this is—as I mentioned earlier this afternoon, there is an old movie that was entitled, ''Bad Day at Black Rock.'' Folks, this was a bad day at Black Rock for this country.

With that, I yield back.

Mr. GOHMERT. Thank you, Mr. CONAWAY.

Mr. SOUDER. Will the judge yield for a minute?

Mr. GOHMERT. I will yield to my friend Mr. SOUDER.

Mr. SOUDER. You have been making a number of parliamentary points today during the debate and on the floor. You are an experienced judge as well as a Congressman. Is he allowed to use factual science on the floor? I don't know if we're allowed to really debate this stuff. This is mostly an ideological bill, not a factual bill. As Mr. CONAWAY correctly said, did they come to a conclusion and then make the facts fit the conclusion? It is really disturbing. Much of what's behind us is, in fact, that there's a group of people who feel guilty about us being such a successful Nation and about Western nations being so successful and that we use a disproportionate amount of the energy of the world and that somehow we should not do that. Some of the other western countries, like Australia and New Zealand, as you pointed out, are like, Hey, what's going on here? Do we have to buy into this? What does it exactly mean that we need to sacrifice and go down in our lifestyle? What will we gain? Is the science really there?

Then the developing countries that want to be like the United States, they look at us like a model, and they are going, like Poland, Hey, what is this stuff here? Is this something that you guys came up with at some university or a couple guys smoking some marijuana cigarettes? Or is this real fundamental stuff? And maybe we ought to prove this before we give up our cars, before we give up our SUVs and our station wagons.

I mean, we've had this debate about the Volt and whether GM should go to an electric car that costs $40,000. We talk about gas and oil and how you power these big trucks that I make in my district and how you power the RVs. How exactly are you going to tow a towable with a Smart Car? That the challenge is, how are you going to move around? And one of the questions is, I think they think that electric cars, when you plug them in, that the electricity is in the wall. What is going to make the power to power electric cars? And how many, kind of, regular people are going to be able to afford a $40,000 electric car?

Which gets to the core of this bill. We've had Members on the floor today say, Oh, well, we're going to fix this because low-income people are going to get exemptions, and there's going to be this class that gets an exemption. About 80 to 90 percent of that bill are government preferences to try to fix the problem they are creating.

In fact, one of our colleagues, the Democrat from Oregon, Mr. DEFAZIO, in his 1-minute this morning made two terrific points. One was, the alternative jobs and alternative energy are being created faster now than they will be under this bill because we're moving in that direction already with the incentives in the market. And with some supplemental funding out of Congress, some tax incentives out of Congress, we're going to get major breakthroughs.

I have a car company in my district that may be able to get 60 miles a gallon out of E85. The test case shows they got 100 in the first test, and it's a new motor. But if we mandate electric cars, it will never come to market. Government doesn't make efficient decisions, that if they protect this class, protect this company, protect the TVA power system but not this power system, you get all these special categories.

But what we know is, as all of you have pointed out, the upper classes will figure that out. They're not going to get damaged much by this; and to some degree, they're going to try to cover and patch up in a mishmash of expensive government regulatory programs. And who gets lost in this? The very people that the other party promised to protect when they ran, the middle class, the forgotten man and woman and young person who is somewhere in the middle, working hard and not, as Mr. DEFAZIO pointed out in his other point, making money on credit swaps.

We're going through one of the greatest financial messes in the world, and we have just set up a cap-and-trade. What does trade mean? We call it cap-and-tax. Cap and send the jobs to China. A number of different things. Mr. GOHMERT a while ago just coined another version of the bill. But the bottom line is, the trade is trading credits and swapping and then securitizing those in markets and encouraging other countries around the world to do this. This will be a boondoggle. How many trees did you plant in Brazil to offset your ethanol plant? How many whatever did you do in damming up a river, which historically the environmentalists were opposed to damming. Now they talk about hydropower. Which is it? You did a hydroplant in Thailand. Therefore, you get to have a credit swap worth $50,000. You put that $50,000 out. A number of people bid on it. That gets leveraged 30 times. We're creating a bigger mess than we have now, based on trying to do all sorts of equalization. This is a disaster, and it cannot happen without basically destroying our country.

We pointed out tonight different angles of this, and this is not—as Mr. POE goes through his list on July 4 and our Founding Fathers and what they sacrificed for. They sacrificed for freedom, not for government setting up credit swaps, protecting one group of people against another group of people, one region against another group of people. Then when you complain, they make deals on the floor during the debate today. Oh, I didn't realize that. There's such a lack of understanding that it takes that many pages. By the time we get done with the regulations, there will be that stack across that whole top of the table, and they'll still be inventing it as people sue and go to court to judges, like my friend Mr. GOHMERT said.

Mr. GOHMERT. I appreciate so much, Mr. SOUDER, your great observations.

Thomas Jefferson said: ''The natural progress of things is for liberty to yield and government to gain ground.'' And that's what we're seeing in this bill, the dramatic gains of the government's right to control your life in this bill are just extraordinary.

□ 2115

I do want to make a couple of quick points. Apparently we have about 7 or 8 minutes left.

For one thing, Mr. CONAWAY had mentioned earlier that it will likely cost the average family across America an extra $3,031. And I know there will be some people out there who have seen some in the mainstream media say, oh, well, we saw where that guy from MIT said it won't cost that much. It may be $300 or $500 or $600, but it won't be $3,100.

Those people just bought the Democratic talking points and didn't bother to check to see why it was that they are saying that it won't cost over $3,000. From what I have read, apparently they are saying it won't cost over $3,000 because even though the average family will pay more than $3,000 additionally because of this bill, they are saying what you will get back from the government in the way of services and benefits will be a wash because of all that you will get out of the government as a result of that extra $3,000 you pay for energy in the first year. It won't be that much, because you will be grateful for all you get. Baloney.

And another thing we heard in debate on the floor today about was, gee, the AFL–CIO leaders and other union leaders, we heard these union leaders were in support of this bill. Well, how about that? They were in favor of the government taking over GM and Chrysler. Why? Because they got a deal. They get to own the companies. Who knows what they have promised the union leaders to support this ''crap-and-trade'' bill.

It is a sad, sad day for America because the rank-and-file people in America are going to pay a severe price. This intrudes into their lives so much. And for my unfortunate Democratic friends who have not read this, they said, no, no, no. This will provide jobs, not take jobs. They just need to go to section 426 where it talks about the climate change adjustment allowance because there are provisions in it. They know that people are going to lose their jobs as a result of this bill. So it is built in here.

Now, you have to understand, though, it says here, you won't get such allowance for the first week you are unemployed. But then it will kick in after that. There is good stuff here. Over here it does mention that you're not going to get an adjustment allowance for that first week either that you're unemployed. They know this is going to cost so many jobs.

There is climate change adjustment assistance and relocation assistance. Unfortunately, it is not going to pay you to go get your job back from China, India, Brazil and Latin America. So that part of the relocation is not going to help. But I'll tell you the one that just galled me to no end. It says here, absolutely part of the law, the Secretary shall conduct a study to examine the circumstances of older adversely affected workers.

In other words, if you're over 50 or so and you lose your job—because you're going to, you're going to lose a lot of jobs here—and you lose your job, when you do as a result of this bill, don't worry. We are going to do a study about you and your lost job. That will warm your heart, won't it? It won't keep you warm on a cold night next winter when you lost your job as a result of this bill.

But the good news is, the Senate has still not acted. Mr. Speaker, it is not too late for people to let their Senator know, look, I know you're a Democrat. I know the pressure is enormous. I know they are promising you all kinds of things to get you to vote for this bill. But don't get sucked in, because we will be the ones, the constituents will say, for paying the price for your sin and error.

I would like to yield to my friend, Judge POE, in our last few minutes.

Mr. POE of Texas. Thank you for yielding.

The concern that I have about this bill is that, as I mentioned at the outset, we love the fact that we are a free people and that we are an independent Nation. This bill makes us dependent on government. It will control our lives. We have to get permission from the government for every action we will take as individuals and as businesses. We do not have free will to make decisions, because the government won't let us have that free will to make decisions. Decisions will be made by the government. The government picks winners and losers in that bill because it creates great subsidies to some people to make them more dependent on government and government control.

That is not what America is about. America is about freedom. It is not about dependence.

So the sad part about the bill is the aspect that it creates right here in Washington, D.C., as Mr. CONAWAY said, the center of the universe to some, control over everybody from Indiana to Texas to California to Hawaii to Florida. And that ought not to be.

Mr. GOHMERT. Thank you, and I appreciate your observations. I would like to also observe, though, we heard during the debate today that the National Association of Realtors was supporting this. Obviously they didn't know about the 300 pages added at 3:08 a.m. this morning, because whoever that Realtor was that pushed that should lose their job because it is going to cost Realtors jobs. It is going to cost them commissions. It is going to cost them royally.

With that, Mr. Speaker, I would yield back time.

OMISSION FROM THE CONGRESSIONAL RECORD OF THURSDAY, JUNE 25, 2009, AT PAGE 16483

RELATING TO IMPEACHMENT PROCEEDINGS OF JUDGE SAMUEL B. KENT—MESSAGE FROM THE SENATE (H. DOC. NO. 111–53)

The SPEAKER pro tempore laid before the House the following message from the Senate; which was read and referred to the managers on the part of the House appointed by House Resolution 565 and ordered to be printed:

I, Nancy Erickson, having custody of the seal of the United States Senate, hereby certify that the attached record is a true and correct copy of a record of the United States Senate, received by the United States Senate Sergeant at Arms from Samuel B. Kent on June 24, 2009, and presented to the Senate in open session on June 25, 2009.

In Witness Whereof, I have set my hand and caused to be affixed the Seal of the United States Senate at Washington, D.C., this 25th day of June, 2009.

I, Samuel B. Kent, Judge of the United States District Court for the Southern District of Texas, hereby tender my resignation as a Federal District Judge effective 30th June 2009.

SAMUEL B. KENT,

Dated 24 June 2009.
Witnessed: Terrance W. Gainer; 4:44 p.m., Andrew B. Willison.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. PETERS) to revise and extend their remarks and include extraneous material:)

Ms. WOOLSEY, for 5 minutes, today.

Mr. GEORGE MILLER of California, for 5 minutes, today.

Mr. PETERS, for 5 minutes, today.

Mr. SCHIFF, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Mr. SPRATT, for 5 minutes, today.

Mr. DOGGETT, for 5 minutes, today.

Ms. JACKSON-LEE of Texas, for 5 minutes, today.

(The following Members (at the request of Mr. CONAWAY) to revise and extend their remarks and include extraneous material:)

Mr. MCCLINTOCK, for 5 minutes, today.

Mr. CONAWAY, for 5 minutes, today.

(The following Member (at his request) to revise and extend his remarks and include extraneous material:)

Mr. BOCCIERI, for 5 minutes, today.

BILL PRESENTED TO THE PRESIDENT

Lorraine C. Miller, Clerk of the House reports that on June 26, 2009 she presented to the President of the United States, for his approval, the following bills.

H.R. 1777. To make technical corrections to the Higher Education Act of 1965, and for other purposes.

ADJOURNMENT

Mr. GOHMERT. Mr. Speaker, pursuant to Senate Concurrent Resolution 31, 111th Congress, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 9 o'clock and 21 minutes p.m.), the House adjourned until Tuesday, July 7, 2009, at 2 p.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of Rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2459. A letter from the U.S. Senate, transmitting a message from the Senate pertaining to the certification of the resignation of Samuel B. Kent, Judge of the United States District Court for the Southern District of Texas. Referred to the Managers on the part of the House appointed by House Resolution 565; (H. Doc. No. 111—53).

2460. A letter from the Fiscal Assistant Secretary, Department of the Treasury, transmitting the Department's report that no exceptions to the prohibition against favored treatment of a government securities broker or government securities dealer were granted by the Secretary during the period January 1, 2008, through December 31, 2008; to the Committee on Financial Services.

2461. A letter from the Fiscal Assistant Secretary, Department of the Treasury, transmitting the Department's report on two modifications to the auction process in 2008 that are deemed significant, pursuant to Public Law 103-202, section 203; to the Committee on Financial Services.

2462. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 18-116, ''City Market At O Street Project Financing Clarification Temporary Act of 2009'', pursuant to D.C. Code section 1-233(c)(1); to the Committee on Oversight and Government Reform.

2463. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 18-117, ''DCPL Procurement Temporary Amendment Act of 2009'', pursuant to D.C. Code section 1-233(c)(1); to the Committee on Oversight and Government Reform.

2464. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 18-118, ''Day Care Facility Temporary Act of 2009'', pursuant to D.C. Code section 1-233(c)(1); to the Committee on Oversight and Government Reform.

2465. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 18-122, ''Adoption and Safe Families Amendment Act of 2002'', pursuant to D.C. Code section 1-233(c)(1); to the Committee on Oversight and Government Reform.

2466. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 18-115, ''Withholding of Tax on Lottery Winnings Temporary Act of 2009'', pursuant to D.C. Code section 1-233(c)(1); to the Committee on Oversight and Government Reform.

2467. A letter from the Deputy Assistant Administrator for Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Missile Launch Activities at San Nicolas Island, CA [Docket No.: 090218189-9910-02] (RIN: 0648-AX29) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2468. A letter from the Deputy Assistant Administrator for Operations, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Atlantic Highly Migratory Species; 2009 Atlantic Bluefin Tuna Quota Specifications and Effort Controls [Docket No.: 080728943-9716-02] (RIN: 0648-AX12) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2469. A letter from the Deputy Assistant Administrator for Operations, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Taking of Marine Mammals Incidental to Commercial Fishing Operations; Atlantic Pelagic Longline Take Reduction Plan [Docket No.: 070717352-8886-02] (RIN: 0648-AV65) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2470. A letter from the Deputy Assistant Administrator for Operations, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Bering Sea and Aleutian Islands Crab Rationalization Program; Amendment 27 [Docket No.: 080416577-9898-03] (RIN: 0648-AW73) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2471. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Deep-Water Species Fishery by Catcher Vessels in the Gulf of Alaska [Docket No.: 0910091344-9056-02] (RIN: 0648-XP21) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2472. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by American Fisheries Act Catcher Processors Using Trawl Gear in the Bering Sea and Aleutian Islands Management Area [Docket No.: 0810141351-9087-02] (RIN: 0648-XP29) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2473. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Northern Rockfish, Pacific Ocean Perch, and Pelagic Shelf Rockfish for Catcher Vessels Participating in the Limited Access Rockfish Fishery in the Central Regulatory Area of the Gulf of Alaska [Docket No.: 0910091344-9056-02] (RIN: 0648-XP22) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2474. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Shallow-Water Species Fishery by Catcher Processors in the Gulf of Alaska [Docket No.: 0910091344-9056-02] (RIN: 0648-XP23) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2475. A letter from the Deputy Assistant Administrator for Operations, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries in the Western Pacific Crustacean Fisheries; Deepwater Shrimp [Docket No.: 070719388-9911-04] (RIN: 0648-AV29) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2476. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Standard Insturment Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments [Docket No.: 30672 Amdt. No 3326] received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2477. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments [Docket No.: 30673; Amdt. No. 3327] received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2478. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; DORNIER LUFTFAHRT GmbH Models Dornier 228-100, Dornier 228-101, Dornier 228-200, Dornier 228-201, Dornier 228-202, and Dornier 228-212 Airplanes [Docket No.: FAA-2009-0284; Directorate Identifier 2009-CE-016-AD; Amendment 39-15939; AD 2009-12-16] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2479. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; ATR Model ATR42-500 and ATR72-212A Airplanes [Docket No.: FAA-2009-0524; Directorate Identifier 2009-NM-030-AD; Amendment 39-15935; AD 2009-12-12] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2480. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Airbus Model A340-541 and -642 Airplanes [Docket No.: FAA-2009-0523; Directorate Identifier 2009-NM-018-AD; Amendment 39-15934; AD 2009-12-11] (RIN: 2120-AA64) received June 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2481. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; ATR Model ATR42-200, ATR42-300, ATR42-320, ATR42-500, ATR72-101, ATR72-201, ATR72-102, ATR72-202, ATR72-211, ATR72-212, and ATR72-212A Airplanes [Docket No.: FAA-2008-1237; Directorate Identifier 2008-NM-125-AD; Amendment 39-15932; AD 2009-12-09] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2482. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Aeromot-Industria Mecanico Metalurgica Itda. Model AMT-200 and AMT-300 Series Gliders [Docket No.: FAA-2009-0323 Directorate Identifier 2009-CE-012-AD; Amendment 39-15937; AD 2009-12-14] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2483. A letter from the Regulations Officer, Federal Highway Administration, transmitting the Department's final rule — Worker Visibility [FHWA Docket No.: FHWA-2008-0157] (RIN: 2125-AF28) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2484. A letter from the Clerk of the House of Representatives, transmitting the annual compilation of personal financial disclosure statements and amendments thereto required to be filed by Members of the House with the Clerk of the House of Representatives, pursuant to Rule XXVI, clause 1, of the House Rules; (H. Doc. No. 111—54); to the Committee on Standards of Official Conduct and ordered to be printed.

2485. A letter from the Chief Counsel, Department of the Treasury, transmitting the Department's final rule — Offering of United States Savings Bonds, Series I — received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, OR LIMITED TARIFF BENEFITS

Under clause 9 of rule XXI, lists or statements on congressional earmarks, limited tax benefits, or limited tariff benefits were submitted as follows:

The amendment to be offered by Representative FORBES, or a designee, to H.R. 2454, the American Clean Energy and Security Act of 2009, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9(d), 9(e), or 9(f) of Rule XXI.

DISCHARGE PETITIONS—ADDITIONS OR DELETIONS

The following Member added his name to the following discharge petition:

Petition 3 by Mr. LATOURETTE on House Resolution 359: Daniel E. Lungren.

EXTENSIONS OF REMARKS

A TRIBUTE TO PRINCE WILLIAM COUNTY SUPERVISOR JOHN D. JENKINS

HON. GERALD E. CONNOLLY
OF VIRGINIA
IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today in honor of Prince William County Supervisor John D. Jenkins and the years of service that he has selflessly devoted to his neighbors, constituents and friends. Supervisor Jenkins was recently awarded the Occoquan District Good Scout Award by the National Capital Area Council of the Boy Scouts of America. I cannot think of a more appropriate recognition of John's accomplishments in public service than an award based on the credo, "You are put here to do something for your fellow man and to take an active part in your community and its issues."

Supervisor Jenkins and his wife Ernestine moved to Prince William County in 1973 and immediately took a role in their neighborhood as the Forestdale representatives to the Dale City Civic Association. Their three sons were educated in the Prince William County Public School system and were Eagle Scouts in local Troop 1378. They have 14 grandchildren and two great grandchildren.

Supervisor Jenkins began his life in public office in October of 1982 when he was appointed to fill the vacant Neabsco District Supervisor's seat. He has since been reelected to that position 6 times. He has served two terms as Vice Chairman of the Board of County Supervisors, two terms as Chairman of the Northern Virginia Regional Commission, two terms as the State President of the Virginia Association of Planning District Commissions, two terms as the State President of the Virginia Association of Counties and two terms as the Chairman of the Virginia Railway Express Operations Board. John has served on boards and steering committees of the Virginia Municipal League, the Virginia Association of Counties, the National Association of Counties and represents the Board of County Supervisors on the Quantico Marine Corps and Fort Belvoir Base Realignment and Closing advisory committees.

Supervisor Jenkins has been a tireless advocate for many organizations throughout his 27-year tenure on the Board of County Supervisors. However, his involvement in the Scouts predates even his time in office, spanning 6 decades and involving countless Scouting causes. Camp William B. Snyder in Haymarket, VA opened its doors in 2006 due in part to the Supervisor's efforts to end its stalled development. He is a fixture at local Scouting promotion ceremonies and often uses his considerable fundraising abilities on behalf of the Boy Scouts of America. His dedication to the Scouts is unquestioned and with his receipt of the Good Scout Award, the Boy Scouts of America recognize his devotion to the people of Prince William County. As a two-tour Vietnam Veteran and the longest serving county supervisor in Prince William County history, his career is one of service to country and community.

Madam Speaker, I ask that my colleagues join me in applauding Supervisor John D. Jenkins' dedication to his community. As a public servant he embodies the values the Boy Scouts hope to instill in their youth. He has taught generations of Scouts the nobility of public service and the great potential that it holds to help one's fellow man.

PERSONAL EXPLANATION

HON. ALLYSON Y. SCHWARTZ
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Ms. SCHWARTZ. Madam Speaker, during an absence yesterday, I regrettably missed rollcall vote No. 426. Had I been present, I would have voted in the following manner: rollcall No. 426: "no"

IN RECOGNITION OF THE STROKE COMEBACK CENTER

HON. GERALD E. CONNOLLY
OF VIRGINIA
IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize the Stroke Comeback Center and the critical health care services that it provides to stroke survivors and their families.

The Stroke Comeback Center (SCC) is a non-profit organization that provides ongoing rehabilitation and therapy to help combat the devastating damage that strokes can cause. The mission of the SCC has been to pick up where traditional health care coverage leaves off by providing affordable speech and language therapy programs to stroke victims in a caring and supportive environment.

The SCC was founded in 2004 by Darlene Williamson and John Phillips based on the premise that stroke victims who suffer with communications problems can continue to improve with treatment and therapy. This theory went against the conventionally held belief that stroke survivors reached their maximum potential within the first few months of recovery. In addition, most insurance companies cover only short term treatment, which can limit access to therapy and thereby inhibit recovery.

The SCC addresses these issues in a proactive and effective manner. Fees charged for services are on a sliding scale and are up to 75% less than at other facilities. No individual is ever turned away due to inability to pay. The programs offered by the SCC include group programs to assist with improvement of communication skills, computer assisted training, individual sessions and caregiver support meetings.

The growth of the SCC is a tribute to the success of its programs. In 2005, the SCC had five groups meeting two days per week. There are now 21 groups meeting four days per week. Since opening, the SCC has provided more than 7,000 hours of therapy to stroke survivors.

The SCC works closely with the American Heart Association, the Inova Mount Vernon Hospital, the National Rehabilitation Hospital and the George Washington University Department of Speech and Hearing Science.

Madam Speaker, I ask my colleagues to join me in recognizing the Stroke Comeback Center and its dedicated staff and volunteers. The services and programs offered by the SCC fill a void in the rehabilitation process and significantly improve the quality of lives of stroke survivors and their families.

CAP-AND-TAX DOES NOT WORK

HON. JOE WILSON
OF SOUTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. WILSON of South Carolina. Madam Speaker, a national energy tax will do harm to American families by raising electric bills, gas prices, and food prices by thousands of dollars. Moreover, it will not achieve the goals of a cleaner environment.

As our European neighbors have learned from their own cap and trade scheme, costs go up but so do carbon emissions. Indeed, in the so-called market place of carbon trade, the American people will lose just as our European friends have. America will lose jobs and American families will lose money, and there is no excuse for the Democrat leadership in this House to place such a burden upon the American people.

I hope my colleagues will abandon this plan to raise taxes and realize that an all-of-the-above approach to our energy needs—one that has bipartisan support—is a far better course for this country to pursue.

In conclusion, God bless our troops, and we will never forget September 11th in the Global War on Terrorism.

HONORING THE HEROISM AND BRAVERY OF THE WOMAN AIRFORCE SERVICE PILOTS OF WORLD WAR II

HON. STEVE COHEN

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. COHEN. Madam Speaker, I rise today in support of H.R. 2014, which awarded the Woman Airforce Service Pilots of World War II with a Congressional Gold Medal. Known as WASP, these courageous women faced incredible bias and hardship while serving our country. Out of the 300 recipients, three WASP are from the 9th district in Memphis, TN.

Women were essential to our effort in World War II. In factories and shipyards throughout this nation, they provided the fundamental infrastructure and labor which allowed our military to prevail. We can't forget that just 23 years before the war, Rosie the Riveter didn't have the right to vote. Suddenly, she was the muscle behind the plane, the tank, the ship—in short the entire arsenal of democracy. The women of these times toiled selflessly. They were passionately patriotic.

The WASP were no exception. They were the backbone of the Army Air Corps and performed vital jobs such as delivering newly assembled planes to key military bases and test piloting new planes. They even flew the first jets. The WASP flew over 60 million miles in every type of aircraft. Without their work, the Army Air Corps would not have been able to function properly and domestic efforts would have been severely crippled, making it more difficult to receive crucial supplies, troops and planes.

I am very proud to have three WASP veterans living in my home district in Memphis, TN. Martha M. Carpenter, Frankie Yearwood and Lillian E. Goodman all graduated from the WASP program with extensive flight experience and training. Their jobs required incredible skill and were highly dangerous. Recently, Ms. Goodman recalled, ''in my own class there were two girls and an instructor that went up in a twin engine plane . . . they crashed and were all killed.'' The women that Ms. Goodman remembers were sent home in unmarked pine boxes. Their service was not acknowledged. They were denied military funerals and their families were not permitted to put up a Gold Star in their memory. It wasn't until 1977 that Congress finally gave the WASP veteran status and benefits.

For all their patriotism and service, the WASP—all of whom were pilots before the war—faced harassment and shocking levels of discrimination during and after their service. Sadly, they were made to pay for their own flight training and for their own trip home after being discharged. When the war ended, some male combat veterans fought vigilantly to deny them equal veteran status.

For thirty years, the federal government classified WASP records. For too long, their heroism was kept out of the history books. Grandmothers could only tell incredible stories of serving as pilots in World War II to disbelieving grandchildren. President Carter helped to change all that by finally opening up the records and allowing Ms. Goodman, Ms. Carpenter, and Ms. Yearwood's service to be public.

The WASP's exemplary record and contributions towards the war effort were referenced in the 1993 congressional hearings which led to legislation allowing women to fly aircraft in combat roles. Currently, women make up more than 14% of the military on active duty and more than 17% of the reserve and National Guard. The Air Force has the highest percentage of women enlisted, as nearly 20% of its members on active duty and 25% of the National Air Force Reserve are women. Ms. Carpenter, Mrs. Goodman, Ms. Yearwood and the other brave women of the WASP were pioneers for the dedicated women who serve in our military today and for all who face prejudice in pursuit of equality.

REPEAL TONNAGE TAX'S 30-DAY LIMIT ON DOMESTIC OPERATIONS

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BLUMENAUER. Madam Speaker, U.S.-flag ships that compete in international trade face many disadvantages. The U.S. tax code should not be one of them. Today I am introducing legislation that will help smooth the seas for U.S.-flag shippers and increase their international competitiveness.

The version of the American Jobs Creation Act of 2004 that passed both the House and Senate provided for the application of a ''tonnage tax'' based on the tonnage of a vessel, rather than taxing the U.S. vessel's international income at corporate tax rates. In the conference process on that legislation, however, new language was inserted which states that a U.S. vessel cannot use the tonnage tax on its income from international operations if that vessel also operates in U.S. domestic commerce for more than 30 days per year.

This 30-day limitation dramatically limits the availability of the tonnage tax for those U.S. ships that operate in both domestic and international trade and hinders their competitiveness in foreign commerce. It is important to recognize that ships operating in U.S. domestic trade already have significant cost disadvantages. The inability of domestic operators to use the tonnage tax for their international service is a further burden on their competitive position in foreign commerce. Foreign registered ships now carry 97 percent of the imports and exports moving in United States international trade. These foreign vessels are not held to the higher Coast Guard operating standards that apply to American-registered ships and foreign vessels are virtually untaxed.

Adding to the perversity of the provision, in December 2006, Congress repealed the 30-day limit on domestic trading for approximately 50 ships operating in the Great Lakes. There are 13 U.S.-flag vessels outside of these Great Lakes ships that remain caught in these tax provisions. In the interest of providing equity to these 13 vessels, this legislation would repeal the 30–day limit on domestic operations, enabling these vessels to also utilize the tonnage tax on their international income. Under this legislation, these ships will continue to pay the normal 35 percent U.S. corporate tax rate on their income for operations in domestic commerce.

Repeal of the tonnage tax's 30-day limit on domestic operations is a necessary step toward providing tax equity between U.S.-flag and foreign flag vessels. I look forward to working with my colleagues to pass this important legislation.

IN RECOGNITION OF THE 2009 VIRGINIA HUMAN RIGHTS AWARDS

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize the recipients of the 2009 Virginia Human Rights Awards. These awards were presented during a recent ceremony hosted jointly with the Prince William County Human Rights Commission.

Prince William County has long been an area of growth in our Northern Virginia region. As the county population grew in the early 1990s and the demographics shifted, the Board of County Supervisors recognized the need for a study to examine the county's ability to respond to increasing population diversity. The result of the study was the creation of a Human Rights Ordinance prohibiting discriminatory practices based on race, color, sex, national origin, religion, marital status or disability in employment, housing, public accommodations, education and credit in Prince William County. When the Board of County Supervisors established the Human Rights Ordinance in September of 1992, it created the Human Rights Commission to ensure that ''each citizen is treated fairly, provided equal protection of the law and equal opportunity to participate in the benefits, rights, and privileges of community life.''

The recipients of this year's awards have exhibited a devotion to ''[eliminating] discrimination through civil and human rights law enforcement and [establishing] equal opportunity for all persons within the county through advocacy and education.''

The recipients of the Prince William Human Rights Awards are Betty Covington from Prince William Public Schools and Dexter Fox with Unity in the Community.

The Virginia Human Rights Commissioner of the Year is Victor Dunbar, Chairman of the Fairfax County Human Rights Commission.

The Staff Member of the Year is Annie Carroll, Deputy Director of the Fairfax County Human Rights Commission.

The Virginia Human Rights Commemorative Award for contributions to human rights through the signing of the Civil Rights and Voting Rights Acts will be made posthumously to President Lyndon B. Johnson.

Madam Speaker, I ask that my colleagues join me in applauding the efforts of these individuals on behalf of harmony and equality in our communities. We are a happier, safer society when we promote fairness and justice. I

would like to extend my unconditional support for the Human Rights Commission's mission and my deepest appreciation to those who take up the cause of human and civil rights.

EARMARK DECLARATION

HON. RANDY NEUGEBAUER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. NEUGEBAUER. Madam Speaker, pursuant to the Republican standards on member requests, I am submitting the following information regarding congressionally directed appropriation projects I sponsored as part of H.R. 2847, FY 2010 Department of the Interior, Environment and Related Agencies Appropriations Bill.

Agency/Account: U.S. EPA—State and Tribal Assistance Grant

Amount: $439,065

Requesting Entity: City of Petersburg, P.O. Box 326 Petersburg, Texas 79250

Funding will enable the city of Petersburg to continue supplying quality drinking water to its residents. The Texas Commission on Environmental Quality has ordered the city to replace one of its elevated water tanks or place it offline or the city will be forced to pay penalties and fines. Loss of a water tank will reduce the water supply, as well as drop the water pressure which is important for fire fighting. Without a stable water supply, the city of Petersburg will not be able to maintain economic growth. The total cost of this project is $798,300.

EARMARK DECLARATION

HON. TIM MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. TIM MURPHY of Pennsylvania. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010:

Requesting Member: Congressman TIM MURPHY

Bill Number: H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: State and Tribal Assistance Grant Program

Legal Name of Requesting Entity: Findlay Township Municipal Authority

Address of Requesting Entity: 1271 Route 30, Clinton, PA 15026–1537

Amount: $500,000

Description of Request: to replace old and undersized water transmission lines, and to expand and upgrade the water and sewer infrastructure, to benefit the entire Township of Findlay in economic development and job creation, fire safety and environmental protection.

The water and sewer upgrades and expansion will serve businesses—and the 21,310 jobs being created—at three business parks in the Pittsburgh International Airport Corridor: the Chapman Commerce Center; the Clinton Commerce Park and the Route 30 Industrial Site. Furthermore, annual tax revenue generated at the three business parks is projected to be $48.7 million. In terms of fire safety, the project will replace old and undersized water transmission lines to provide adequate fire flow for the entire township, including residents and businesses. In terms of environmental protection, the project will rectify a concern of the Pennsylvania Department of Environmental Protection that the sanitary sewer system capacity from Enlow Road to the Moon Township Interceptor must be expanded to adequately convey additional flow.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I took extreme care to ensure that these projects are well vetted and strongly supported within the community. The Findlay Township Municipal Authority appropriation is of particular interest to my district and importance to my constituents.

EARMARK DECLARATION

HON. TOM COLE

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. COLE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010:

Requesting Member: Congressman TOM COLE

Bill Number: H.R. 2996

Provision: Title I

Account: National Park Service—Construction

Legal Name of Requesting Entity: ''National Park Service—Chickasaw National Recreation Area''

Address of Requesting Entity: 1008 West Second Street, Sulphur, OK

Description of Request: Provide an earmark of $500,000 for a design plan to construct a Visitor's Center at the Chickasaw National Recreation Area. The need for a Visitor's Center was identified in the recreation area's 1980 General Management Plan and 1994 Addendum to the 1980 General Management Plan. The Visitor's Center was previously budgeted for, but funds were reprogrammed for wildfire suppression. The Visitor's Center will provide those visiting the Chickasaw National Recreation Area a much needed centralized location where the Park Service may educate individuals on the ecosystems and history of the area. This will increase tourism to the recreation area, and thereby grow the local economy substantially.

Requesting Member: Congressman TOM COLE

Bill Number: H.R. 2996

Provision: Title II

Account: STAG Water and Wastewater Infrastructure

Legal Name of Requesting Entity: Lawton Ft. Sill Chamber of Commerce

Address of Requesting Entity: 9 SW ''C'' Avenue, Lawton, OK 73501

Description of Request: Provide an earmark of $500,000 for water and sewer line expansions at the Lawton Industrial Park, in Lawton, OK. The Comanche County Industrial Development Authority recently purchased an additional 480 acres immediately southwest of the present industrial park for purposes of expansion. Before this development can begin, water and sewer lines must be expanded to the property. The industrial park expansion will allow for more commercial expansion, thus creating jobs and aiding Lawton's economy. For this project, 80 percent of funds will be used for construction costs, 12 percent will be used for contingency, 6 percent will be for engineering costs and 2 percent will be used for inspections.

EARMARK DECLARATION

HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. DUNCAN. Madam Speaker, consistent with House Republican Earmark Standards, I am submitting the following earmark disclosure information for project requests that I made and which were included within H.R. 2996, ''Making appropriations for the Department of Interior, environment, and related agencies for the fiscal year ending September 30, 2010.''

Requesting Member: Congressman JOHN DUNCAN

Account: National Park Service, Save America's Treasures

Project Amount: $200,000

Legal Name of Requesting Entity: Blount Mansion Association, 200 W. Hill Avenue, Knoxville, TN 37902

Description of Request: This funding will be used to upgrade and improve the National Historic Landmark.

IN RECOGNITION OF THE 25TH ANNIVERSARY OF THE ROTARY CLUB OF BURKE, VIRGINIA

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to congratulate the Rotary Club of Burke, Virginia, on the occasion of its 25th Anniversary and to pay tribute to its significant contributions to the community.

The world's first service club, the Rotary Club of Chicago, Illinois, was formed on February 23, 1905, by Paul P. Harris. The name ''Rotary'' is derived from the early practice of rotating meetings among members' offices. The Rotary Club concept thrived in its early years, and, by 1921, there were chapters on six continents. In 1922, the name ''Rotary International'' was adopted. The objective of

Rotary International is to encourage and foster the ideal of community service as a basis of worthy enterprise. International understanding, goodwill and peace are fostered through the shared commitment to service of Rotarians from 166 countries.

The Rotary Club of Burke was organized by Brian Tilbury and was chartered by Rotary International on June 30, 1984. Since that time, the Burke Rotary has grown in not only the number of active members, but also in the areas of community service.

The Burke Rotary participates in Polio Plus, which is dedicated to the eradication of polio in countries such as Afghanistan, India, Pakistan and Nigeria. Closer to home, The Rotary Club of Burke is a dependable ally in the Toys 4 Tots Program and the Northern Virginia Literacy Council. It also encourages involvement in the Medical Reserve Corps, a Fairfax County, Va., program that trains volunteers to provide vital services in the event of a public health emergency.

The Rotary Club of Burke has partnered with the Rotary Club of Annandale to provide scholarships to deserving students who wish to pursue vocational training at Northern Virginia Community College. This partnership now provides six scholarships each year and has allowed approximately 40 individuals to continue their education and learn a marketable skill. The quality of life for each of these students and their families will be forever improved because of this opportunity.

Madam Speaker, I ask my colleagues to join me in congratulating The Rotary Club of Burke on the occasion of its 25th Anniversary and to express our gratitude for their contributions here at home and abroad.

EARMARK DECLARATION

HON. PHIL GINGREY

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. GINGREY of Georgia. Madam Speaker, pursuant to the Republican Leadership standards on earmarks as well as in accordance with Clause 9 of Rule XXI, I am submitting the following information regarding the earmark I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act for Fiscal Year 2010.

Requesting Member: Congressman PHIL GINGREY

Bill Number: H.R. 2996

Account: Environmental Protection Agency; STAG Water and Wastewater Infrastructure Projects

Legal Name of Requesting Entity: Metropolitan North Georgia Water Planning District

Address of Requesting Entity: 40 Courtland Street, NE Atlanta, GA 30303

Description of Request:

The $500,000 in STAG funding secured will be applied to this list of the Water District projects:

COBB COUNTY

Sweetwater Creek Sanitary Sewer Extension—This proposed extension of the Sweetwater Creek interceptor will provide gravity sewer service to much of the unsewered portion of southwestern Cobb County, including several dry sewer subdivisions. It will also extend service into the Sweetwater basin in Paulding County, eliminating the need for an additional treatment facility and comporting with our regional plan. The project includes about 20,000 linear feet of large diameter sewer. Estimated cost of this project is $7,700,000.

Mack Dobbs Road Water Main Replacement—Replacement of 11,200 linear feet of existing 6-inch asbestos cement water main with 12-inch ductile iron between Cobb Parkway and Stilesboro Road. Estimated cost of this project is $1,200,000.

Low Flow Toilet and Urinal Retrofit for 127 Cobb County Public Schools—A water conservation project which consists of replacing approximately 5,782 older, inefficient toilets and urinals and 2,478 miscellaneous faucets and pre-rinse spray valves in Cobb County Schools. The estimated cost of this project is $875,000.

COBB COUNTY-MARIETTA WATER AUTHORITY

The Cobb County-Marietta Water Authority (CCMWA), a political subdivision of the State of Georgia, is a regional water wholesaler with 13 customers that serve over 790,000 people. The customers include Cobb County, all of the municipalities within Cobb County, all of Paulding County, portions of Douglas County, Cherokee County, the City of Woodstock, and a small community in Fulton County.

Austell West Side Connector 24''—This pipeline project installs 8,000 feet of 24'' ductile iron pipe to connect existing transmission lines. The pipeline will improve system flow capacity and provide redundancy to Cobb Hospital and high growth area along East-West Connector. The estimated cost of this project is $2,549,800.

Five Million Gallon Steel Tank at Lost Mountain—This tank will provide enhanced fire protection. It will also increase system reliability by improving storage-to-production ratio and source water reliability for existing pump station. It will provide additional water storage for west Cobb County and Paulding County. The estimated cost of this project is $3,500,000.

Five Million Gallon Steel Tank at Pete Shaw—This tank will provide enhanced fire protection. It will also increase system reliability by improving storage-to-production ratio. This tank will provide additional water storage capacity to east Cobb County. The estimated cost of this project is $3,500,000.

Columns Drive Pipe Replacement—Replacement of approximately 600 linear feet of 36'' ductile iron pipe with 54'' restrained joint ductile iron pipe. This installation will eliminate a restriction in the main line from the Quarles Water Treatment Plant. The estimated cost of this project is $780,600.

HALL COUNTY

Low Flow Toilet and Urinal Retrofit for Hall County Government Facilities—A water conservation project which consists of replacing all older, inefficient toilets and urinals in County facilities not already fitted with low flow systems including; Parks, Fire Stations, Senior Centers, Prisons, etc. The estimated cost of this project is $190,000.

THE CITY OF GAINESVILLE

Flat Creek Watershed Improvement Plan and Ecosystem Restoration—The City of Gainesville and Hall County have developed a watershed improvement and ecosystem restoration plan for the Flat Creek watershed which includes several projects involving stream restoration and construction of storm water best management practices. The City is currently designing the Upper Flat Creek Stream Restoration and Regional Stormwater Detention Pond project. The estimated cost of this project is $700,000. Other projects we are moving forward with would cost approximately $2,000,000.

Gainesville/Hall County Water Main Extensions and Improvements projects—These projects include approximately 25 miles of 8″–20″ water line extensions/improvements throughout Gainesville/Hall County. Projects will extend water service to new customers and improve fire and water service by installing fire hydrants in new locations and improving flow capacity and quality in the water distribution system. The cost of these projects is estimated to be $13,200,000.

ROCKDALE COUNTY WATER RESOURCES

Distribution Waterline Replacements—A water conservation project to significantly reduce or eliminate unaccounted for water (i.e. reducing water leaks in public water supply distribution system). Estimated cost of this project is $15,000,000.

Wastewater Pump Station—To prevent sewer overflows and upgrade pumping station to meet current demands in a concentrated area. Estimated cost of this project is $300,000.

THE CITY OF LOCUST GROVE

Water Supply Wells—The City of Locust Grove has drilled two additional wells for drinking water supply. These wells have already been drilled and permitted by GA EPD. The wells are needed to help supply enough water for current demand. The design has already been drawn. Estimated cost of this project is $250,000.

THE CITY OF ROSWELL

Municipal Buildings Water Conservation Project—The condition of Roswell's municipal building restroom facilities vary widely in age, use, quality and repair. An initial assessment of the restrooms found 106 urinals, 295 toilets and 265 faucets to replace. The proposed water conservation project will purchase and install high-efficiency urinals, and toilets for the City's administrative, public safety, public-works, recycling center and park buildings. Additionally the project could include low-flow faucets, eco-friendly sanitizer systems and to minimize restroom vandalism and maintenance the installation of stainless steel panels, new and replacement tile. The estimated cost for this project is $500,000.

THE CITY OF ALPHARETTA

North Park Improvements: Construct off-line sediment forebay—A sediment forebay will allow silt to fall out in a confined area just prior to the lake. During non-storm flows, the creek will flow naturally into the lake. When it rains and the creek rises, water will be diverted to the forebay. The forebay will slow down the water, allowing time for much of the silt to fall out before discharging back into the lake. The forebay will be much easier to clean out than the lake itself.

North Park Improvements: Construct three enhanced swales to treat water coming from

the softball fields and two parking lots—Enhanced swales are state recognized water quality Best Management Practices (BMPs) that allow for more water to infiltrate and be treated prior to entering the creek. As part of the installation of the enhanced swales, the water from these areas will be diverted to directly enter the lake instead of entering upstream through very eroded gullies. The gullies are so large that it is actually more cost effective to install the BMPs and divert the flow than it would be to repair the gullies, which are over 20 feet deep in some areas.

North Park Improvements: Modify the outlet control structure of the lake—The current outlet structure of the lake clogs in nearly every storm event, requiring parks maintenance personnel to have to remove debris to restore drainage. The outlet control structure can be modified to reduce clogging and provide improved water quality benefits for the lake. This will reduce necessary maintenance and give the lake an overall better aesthetic appearance.

Total cost for these improvements is: $517,818.75. This price includes the cost to prepare conceptual and final design; construction of three improvements/BMPS; and model pollutant removal.

RECOGNIZING CHILDREN'S MEDICAL CENTER OF DALLAS FOR ITS RANKING AMONG THE TOP TEN CHILDREN'S HOSPITALS IN THE NATION

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, in 1913, a group of nurses established Children's Medical Center of Dallas as an open air clinic. Today, Children's Medical Center has been chosen among the top 10 children's hospitals in the nation, according to U.S. News & World Report. Children's provides exemplary care and resources to its thousands of patients, as well as a wide range of teaching opportunities to the future physicians and nurses of our country. As a former nurse, I am proud to have such an accomplished medical institution in my district and would like to extend warm congratulations to them for receiving such recognition.

Children's Medical Center of Dallas is a private, non-profit pediatric health care center. As one of the largest pediatric hospitals in the country, Children's treats approximately 360,000 patients a year, with treatments ranging from simple physical exams to specialized care in heart disease, oncology, orthopedics, kidney disorders, neurology, respiratory disorders, neonatal care, urology, diabetes, and digestive disorders. Furthermore, Children's is a major pediatric transplant center, and also is the only academic health care facility and only designated Level 1 trauma center in Texas. Children's Medical Center of Dallas is continuously conducting research and developing new and improved treatments and therapies regarding pediatric diseases.

It is my hope that Children's Medical Center of Dallas will continue its strong record of success and provide patients with excellent care. It shines as an example of excellence, and I truly appreciate the dedication put forth by the administrators, doctors, nurses, and everyone else there. Again, I offer my congratulations to Children's Medical Center of Dallas on its achievement of being named one of America's top 10 children's hospitals.

EARMARK DECLARATION

HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. HUNTER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010:

I originally requested $1 million in this legislation for the El Monte Valley Groundwater Recharge Project through the Environmental Protection Agency's State and Tribal Assistance Grant Water and Wastewater Infrastructure Project account. It is my understanding that $500,000 was ultimately appropriated for this project by the Subcommittee and the entity to receive funding for this project is the Helix Water District located at 7811 University Avenue, La Mesa, California 91941.

This is a groundwater recharge and habitat restoration effort led by the Helix Water District where it will secure highly treated wastewater from the Padre Dam Municipal Water District's Santee Water Recycling Facility, provide additional treatment to purify the wastewater, pump and pipe this water to surrounding basins and then release it into the San Diego Riverbed where it will be allowed to seep down to existing groundwater levels. As the purified water is maintained in this location, it will receive additional natural treatment as it percolates through native materials. Extraction wells will be installed at strategic locations for conveyance to a water treatment plant as a new source of water for all District users.

This action will assist in the continued goals of the San Diego County region to reduce its dependence on imported water from the Colorado River and Northern California by annually producing 5,000 acre-feet of locally available drinking water and meeting 10–15% of the Helix Water District's raw water needs. By raising the groundwater levels in El Monte Valley, revegetation of the riverbed is supported and a more natural habitat is created for recreation and wildlife. This project is the beginning of an 8-year program and has been endorsed by other elected officials, including California Assemblyman Joel Anderson and California State Senator Christine Kehoe, as well as the Association of California Water Agencies, Endangered Habitats League, San Diego County Water Authority, Padre Dam Municipal Water District, Otay Water District, and the Lakeside Water District.

IN RECOGNITION OF WOODBRIDGE MIDDLE SCHOOL

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize Woodbridge Middle School as a leader in education reform. Woodbridge was recently designated as a 2009 School to Watch by the National Forum to Accelerate Middle-Grades Reform.

The Schools to Watch program was establish in 1999 with the purpose of identifying schools on a path to meeting the National Forum's criteria for high performing schools. There are four categories in which qualifying schools must excel to be selected as a School to Watch. First, students must be challenged academically with clear and well-communicated education goals. Second, a school must work to develop a well-rounded student. This is accomplished through programs that foster healthy physical, social, emotional and intellectual development. Third, a School to Watch must present students with a socially equitable learning environment where diversity, civility, service, and democratic citizenship are valued. Finally, a qualifying school must have organizational structures in place that work to institutionalize the first three criteria.

Consistent with the cooperative spirit of the Schools to Watch program, the motto that drives Woodbridge Middle School is, ''We get better together.'' Students, faculty and administration are held accountable for school performance and are encouraged to make the education experience a team effort. The staff is required to follow a set meeting schedule for the purpose of monitoring instructional and support programs. Students who are in danger of failing a course must work with parents and teachers to map out a plan to achieve a passing grade. No one is an island at Woodbridge Middle School where education is a community effort.

Madam Speaker, I ask that my colleagues join me in applauding Woodbridge Middle School on this prestigious designation and in encouraging it to continue these proven successful approaches to education. Woodbridge Middle School is a model that provides guidance in how to effectively improve our education system. The students, faculty and entire community benefit when we invest in our nation's future by providing our children with a productive and positive learning experience.

EARMARK DECLARATION

HON. MARY BONO MACK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mrs. BONO MACK. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892, Department of Homeland Security Act of 2010:

Requesting Member: MARY BONO MACK
Bill Number: H.R. 2892
Account: Department of Homeland Security—State and Local Programs
Entity Requesting: City of Moreno Valley, 14177 Frederick Street, Moreno Valley, CA 88005
Description of Earmark: The City of Moreno Valley currently has plans to construct a new 8,000 square foot Emergency Operations Center (EOC). The City's current EOC consists of one room inside the existing Public Safety Building. With the new facility, the City will be fully prepared to respond to all emergency situations, restore services to our residents as quickly as possible, and provide effective communication among other agencies as well as with our residents. This request is to fund the purchase of new equipment such as telecommunications and video display, resource tracking software, and computers. The federal nexus is to assist federal, state and local authorities and help coordinate responses to emergencies such as earthquakes and wildfires.
Spending Plan: The total project construction costs for the Emergency Operations Center are $4.5 million. The $400,000 appropriation will be used to fund the purchase of equipment for the EOC. This project is currently out to bid for construction. This request is to fund the purchase of new equipment such as telecommunications and video display, resource tracking software, and computers.

THANKING ROBERT WARNICK FOR HIS SERVICE TO THE HOUSE

HON. ROBERT A. BRADY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BRADY of Pennsylvania. Madam Speaker, on the occasion of his retirement on May 1, 2009, we rise to thank Mr. Robert "Bob" Warnick for thirty-one years of distinguished service to the United States House of Representatives. Bob has served this great institution as a valuable employee of House Information Resources, HIR, in the Office of the Chief Administrative Officer.

Bob began his tenure with the United States House of Representatives in May of 1978 in House Information Resources, HIR, as a Senior Systems Analyst, SSA. As an SSA, he successfully implemented a system to generate the Committee Calendar for the Committee on Public Works and Transportation using HIR's Legislative Information Management System, LIMS, developed a case history and mailing list system for the Helsinki Commission, and successfully implemented the first Correspondence Management System, CMS, on the Hill.

In 1987, he transferred to the Administrative Systems Division as the Senior Project Leader for LIMS. In 1995, he was promoted to Senior Systems Specialist and transferred to the Integration Group. As a senior member of this group, he was tasked with the design and implementation of several applications using Standard Generalized Mark-Up Language, SGML. As a proof of concept project, his group successfully converted and produced three House documents using SGML.

In 1996, he was transferred to the Cyber Congress task force within the Integration Group. He was appointed to the position of Senior Internet Systems Specialist when the Cyber Congress task force was renamed the Web System Branch, WSB. His important contributions as a team member in the CAO Advanced Business Solutions Web Solutions Branch have resulted in continued success of the Web Solutions Design team where he designed and implemented Member and Committee Web sites and provided a wealth of knowledge of the Web Indexed Document Automation, WIDA, service application to staff and Member offices.

On behalf of the entire House community, we extend congratulations to Robert "Bob" Warnick for many years of dedication and outstanding contributions to the United States House of Representatives. We wish Bob many wonderful years in fulfilling his retirement dreams.

COMMENDING ARTHUR LEE HENRY FOR BEING NAMED A STATE OF LOUISIANA "CITIZEN HERO"

HON. CHARLES W. BOUSTANY, JR.

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BOUSTANY. Madam Speaker, I rise today to honor Arthur Lee Henry, a true "Citizen Hero", as honored by the president of Victims and Citizens Against Crime.

Law enforcement officers in St. Landry Parish nominated Arthur for an incident that occurred in August of 2008, when he successfully disarmed a gunman on the campus of T.H. Harris Technical College in Opelousas, Louisiana. Upon seeing a man produce a gun and fire shots, Arthur quickly reacted and saved the lives of several innocent bystanders.

Arthur, a happily-married man with two children, proudly serves as a custodian at the technical college, where he has worked for twelve years. Coworkers describe him as "a very professional individual", "a wonderful employee", and "an integral part of campus." Today, he will be attending a banquet to receive the award with the dean of the college, Allen Espree.

Again, congratulations to Arthur Lee Henry, one of Louisiana's "Citizen Heroes" for taking pride in the campus he proudly serves.

2009 CONGRESSIONAL AWARD RECIPIENTS

HON. THOMAS J. ROONEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. ROONEY. Madam Speaker, I rise today to honor the efforts and achievements of the 2009 Congressional Award recipients. Striving to better themselves and inspire others, these individuals have invested countless hours into public service, built their strength and endurance through academic and athletic pursuits, and explored their own abilities in new and challenging arenas. Volunteerism, self-discipline, and determination are hallmarks of this class of award recipients, and their passion rightfully deserves the admiration of this House.

The Congressional Awards recognize four avenues of individual growth—community service, physical fitness, exploration, and personal development—while acknowledging their interconnectivity in forming balanced and promising young citizens.

In their pursuit of these goals, recipients have encouraged the growth of new skills and greater confidence. For many, these projects will be the cornerstone for future endeavors, further enriching their lives and encouraging others to follow their lead.

The 2009 Congressional Award winners demonstrate dedication to improving their communities and making the world a better place.

The following are honored recipients of the 2009 Congressional Award:

Alec Kohli, Lukas Bergqvist, Ashley Macres, Kristen Glass, Stephanie Glass, Sarah Williams, Kelly Chen, Renee Jorgensen, Spencer Chase, Mark Felicio, Todd Lundrigan, George Major, Sarah Schwab, Charles Su, Christopher Barnum, Sacha Finn, Cameron Chalfant, John Hunsaker, Malinda Seu, Lynn Tse, Natalie Millman, Kathryn Gasparro, Heather Mauldin, Jena Mauldin, Andy Powers Davis, David Steinmetz, Christina DiMarzio, Courtney Cox, Hayley Gibson, Drake Gordon, Alexandra Abadia, Brian Asker, Christian Estevez, Jessica Fillhaber, Jordan Gallas, Stefan Hogle, Shannon Johnson, Kiera Kadri, Jesse Lively, Nicholas Lively, Adam Pere, Aleksi Poirier, Maxwell Poirier, Mitchell Poirier, Faren Silverman, Philip Stumpf, Neil Zimmerman, Erin Brannen, Katherine Brattebo, Taylor Celedinas, Lyndsay Daubert, Elizabeth Doane, Michelle Hardin, Adam Hollander, Summer Lubart, Connor Melnyk, Amanda Pekar, Jessica Olsen, Joshua Howard, Michael Moroz, Jenna Harris, Ashley Newman, Weston Newman, Rebecca Brazeale, Jeralyn Westercamp, Katelyn Benton, Jonathan Bertsch, Kyle Felzien, Heather Layher, Josh Layher, Jacob Levi, Daniel Revard, Shelby Roth, Kathryn Vincent, Lyndsey Vincent, Megan Breeding, Shawn Bybee, Ida Fischer, Hosanna Kabakoro, Mary Jordan Langfield, Elizabeth Middleton, Justin Novacek, Anna Sandven, Ryan Seastrom, Rebecka Seward, Candace Trautwein, Alexander Hawkins, Erica Newell, Melanie Spung, David Cieply, Emily Carlile, Alex Cain, Joshua Chudy, Lisa Huber, Jadhken Kerr, Jadhon Kerr, Rachel Battershaw, Annie Burke, Dakota Hauserman, Rachel Matthew, Denver Shipman, Scott Shipman, Emilee Whitesell, Mari Reeves, Tyler Wilcox, Brandi Thomas, Christopher Camillucci, Niels Steadman, Todd Sharpe, Kristen Barnett, Cassandra Dalrymple, Joanna Guy, Henry Zheng, Joseph Jendrusina, Veronica Kirin, Jenna Bjorke, Alexander Mace, Ashley Mace, Ami Mehta, Emma Frey, Kelsey Abele, Elizabeth Lewis, Tyler Camp, Daniel Clark, Cory Gargus, Chelsi Smith, Justin Armstrong, Mattie Carter, Ashley Cooper, Derek Lair, Steven Elliott, Alston Harris, Eleanor

Hoppe, Sarah Smith, Colin Sorensen, Katherine Aronoff, Summer Brecht, Elizabeth Cubbage, Jordan Phifer, Eric Stump, Katie Stump, Rebecca Wentzel, Steven Zipparo, Gabrielle Giaquinto, Madeline Giaquinto, Sonam Shah, Nicholas Stango, John Voorhees, Samantha Albala, Patrick Chevalier, Robert Dorfman, Adam Gross, Megan Arguell, Alexandra Garney, Megan Partridge, Nevin Raj, Neal Bakshi, Elizabeth Bogdon, Sean Lu, Tina Shiang, Rebecca Wu, Christina Borovilas, Mary-Katherine Rose, Sujay Tyle, Nandini Srinivasan, Michael Cox, Mike Eklund, Teor Khuon, Du Luong, Phong Ma, Quyen Ma, Nhan Nguyen, Tevorith Srong, Srun Chhang, Le Long, Phanit Nhem, Mi Ta, Camlung Ung, Kyle Zhu, Jazmin Richardson, Vinay Trivedi, Cuiping Chen, Cuiyu Chen, Jillian Comer, Elizabeth Donahoe, Jacob Feldman, Julie Ann Haldeman, Brittany Love, James McDonald, Julia Melin, Victoria Patchell, Marta Piotrowicz, Julia Powers, Jocelyn Simons, Michelle Wojciechowicz, Tyler Zimmerman, Stephanie Bernasconi, Luis Gutierrez, Joaquin Mondragon, Amin Ruiz, Brian Elgort, Ryan Kane, Kent Willis, Michele Felberg, Christina Noblett, Amanda Vining, John Bradshaw, Collin Evans, Christine Folger, Britt Brandon, Sarah Gresser, Alicia Hanson, Jonathan Hanson, McKenna Rankin, Marshall Christopher, Karen Pickens, Cassandra Tuten, Mark Van Wagenen, Jenessa Barch, Faith Jones, Amanda O'Malley, Katherine Shannon, George Smith III, Dana Mathews, Blythe Hall, Devin Hall, Kaitlin Smith, Jacqueline Bedsaul, Taryn Bierhuizen, Courtney Owens, Patrick Crow, Matthew Cutler, Sam Pauken, Stephanie Redfern, Jennifer Baltas, Alexander Grigg, Emily Green, David Ramish, Nicolo Mendolia, Alexander Chin, Chelsea Green, Ryan Pyke, Leanne Paulsen, Lauren Below, James Hilgendorf, Paul Isaac Picklesimer, John Tate Bauman, Nicole Clikeman, Beth Cochran, Alex Coolidge, Kali Gentleman, Jessica Griffith, Keegan Hall, Tylor Hanzlik, Ian Kline, Edward, Lynch, Michael Aaron Meier, Stephanie Meisner, Christina Nielsen, Betsy Plemons, Christopher Plemons, Kurt B. Rangitsch, Sara Rangitsch, Katrina Sauter, Katherine Stewart, Lara Wilson.

HONORING RECIPIENTS OF THE 2009 FAIRFAX COUNTY HUMAN RIGHTS AWARDS

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise to recognize the recipients of this year's Fairfax County Human Rights Awards. Jeannie Cummins Eisenhour, Philip N. Reeves, Robert B. Worley, and the Communities of Faith United for Housing will be honored on July 2nd 2009 for their dedication and commitment to the community.

Each year, the Fairfax County Human Rights Commission presents the Human Rights Awards to individuals, nonprofits, and business who ''demonstrate accomplishments in eliminating discrimination on the basis of race, color, sex, religion, national origin, marital status, age or disability in the areas of employment, housing, public accommodations, private education and credit.''

Ms. Eisenhour is recognized for her commitment to working with members of the community with disabilities, opening opportunities to them and educating the public on their specific needs. Her distinguished work has aided persons with disabilities throughout Fairfax County and the D.C. area. Her accomplishments include working with the Fairfax County Redevelopment and Housing Authority to ensure that it amend its universal design policy to accommodate those with special needs. Ms. Eisenhour is not only president of the board for the Coalition for Housing Opportunities in the Community for Everyone, but she also is director of development for RPJ Housing. She uses her positions to work tirelessly on behalf of disability groups to ensure accessible and affordable housing.

Philip N. Reeves is recognized for his work as a health services advocate, educator and author. After serving in the Air Force, he worked to develop the Leaders of Tomorrow program which works to eliminate discrimination in nursing and long term care methods.

Robert B. Worley is a deserving recipient for his dedicated work on behalf of people in need in Fairfax County and the D.C. area. A leader of the United Way's Fairfax County/Falls Church campaign, he has been an indispensible asset to and dedicated fundraiser for local and regional charities. Mr. Worley has also dedicated his time working with organizations like the YMCA and the American Heart Association, raising funds to help those in need.

This year, The Virginia Peters Fair Housing Award and the Human Rights Award are being given to the Communities of Faith United for Housing (CFUH). The CFUH is an advocacy network of faith communities and nonprofit organizations that are committed to increasing the amount of affordable housing in Fairfax County for low-income families and individuals. The CFUH is especially dedicated to providing long term housing to the homeless or those who are dangerously close to becoming homeless. They have dedicated time to educating the public and elected officials on how to do more to provide low-income housing and have worked with the community and the county to create the Plan to Prevent and End Homelessness. Their work has provided an invaluable service to the community.

Madam Speaker, I ask that my colleagues join me in honoring these individuals and their dedicated service to the community. Their commitment is deserving of not only the prestigious Human Rights Award, but of our respect and deep appreciation.

EARMARK DECLARATION

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CARTER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

Requesting Member: JOHN R. CARTER

Bill Number: H.R. 2996

Account: STAG

Requesting entity: City of Temple, TX

Address of Requesting Entity: 2 North Main Street, Suite 306, Temple, TX 76501

Description: $500,000 was secured for a wastewater Interceptor that will enable the construction of approximately 9,000 feet of wastewater main line and 11,500 feet of wastewater interceptor. $50,000 will be spent on a Preliminary Design, $155,000 on the Final Design, $10,000 to Bid & Award construction, $1.7 million for construction, and $85,000 for construction administration. The total price for this project is $2 million. The requesting entity will provide the required funding match. Construction of this piece of utility infrastructure will benefit taxpayers by providing wastewater service to Industrial Park tenants. Wastewater services are critical to the services required for a growing economy.

A TRIBUTE IN RECOGNITION OF THE 25TH ANNIVERSARY OF SRO HOUSING CORPORATION AND THE GRAND OPENING OF ITS NEW JAMES M. WOOD APARTMENTS

HON. LUCILLE ROYBAL-ALLARD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Ms. ROYBAL-ALLARD. Madam Speaker, I rise today to recognize SRO Housing Corporation, a nonprofit, community-based organization dedicated to building a vibrant community for homeless and very low-income individuals in the Central City East community of Downtown Los Angeles in the 34th District, an area more commonly known as ''Skid Row.''

Skid Row is home to one of the largest populations of homeless persons in the nation. To address the needs of this vulnerable population, the late James M. Wood, who served as the Chairman of the Community Redevelopment Agency of the City of Los Angeles, pursued a vision in the late 1970s to include in the revitalization of Downtown Los Angeles a plan to redevelop the Skid Row area and address its rampant homelessness.

In 1977 that plan began to take form as the City of Los Angeles adopted a redevelopment plan for the Downtown Los Angeles Central City East area to preserve and expand the single room occupancy hotels in the area. To acquire and rehabilitate the hotels, the Single Room Occupancy (SRO) Housing Corporation was founded in February 1984 by the Community Redevelopment Agency under the leadership of James Wood.

Through the development of thousands of affordable housing units, the SRO Housing Corporation provides a full continuum of emergency, transitional, and permanent housing for Skid Row residents. This month's grand opening of the James Woods Apartments, at 408 E. 5th Street and 506 S. San Julian Street, is

the most recent shining example of its successful efforts to develop clean, safe and affordable housing units. The project involved converting two decaying parking lots into a 5-story building containing 53 studio apartments with private bathrooms and kitchenettes.

The corporation also offers a wide array of supportive services for its clients, including food services, case management, transportation, support groups and referrals. Every week, SRO Housing serves nearly 4,000 meals in its emergency shelter and senior meal program as well as delivering over 8,000 pounds of food and fresh produce to all permanent-housing sites. This critical service ensures that very low-income individuals, who are attempting to sustain themselves on a fixed income, receive nutritious foods that would otherwise be absent from their diets. In addition, SRO Housing provides its residents with a way to regain basic living skills through classes in cooking, laundry, and money management.

The SRO Housing Corporation also works to build a sense of community belonging for its residents. It manages two public parks—the San Julian Park and Gladys Park—and operates the James Wood Community Center where area residents can socialize and have fun in safe, clean and public areas located in their own neighborhood.

With 25 years of experience, SRO Housing Corporation has a unique insight into the needs of the Skid Row community. More than 40 percent of its diverse and multi-cultural staff is made up of formerly homeless individuals, residents and community members whose history and life experiences are a source of inspiration to others.

Madam Speaker, on the occasion of SRO Housing Corporation's 25th Anniversary and the Grand Opening of its new James M. Wood Apartments, I join today with my congressional colleagues in recognizing all of the many dedicated people who make this fine organization the beacon of hope that it is today. I especially commend Anita Nelson who works day in and day out to keep James Wood's memory and mission alive as the corporation's Chief Executive Officer. I also pay tribute to the SRO Housing Corporation's community partners, supporters, invaluable volunteers, its entire staff and, most of all, the residents of the Skid Row community. Thousands of lives have been transformed and positively impacted through the wonderful work of SRO Housing Corporation and I wish everyone involved with this fine organization many more years of continued success.

EARMARK DECLARATION

HON. PETER J. ROSKAM

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. ROSKAM. Madam Speaker, pursuant to Republican standards on disclosure for Member project requests, I am submitting the following information regarding a project I support for inclusion in H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act.

Congressman PETER J. ROSKAM: H.R. 2996, Environmental Protection Agency, STAG Water and Wastewater Infrastructure Project account for the Tubeway Drive Storm Water Lift Station Rehabilitation Project in Carol Stream, Illinois. The entity to receive funding for this project is the Village of Carol Stream, 500 North Gary Avenue, Carol Stream, IL 60188. It is my understanding that the funding would be used to rehabilitate and replace a 35-year-old storm water lift station at the end of its useful life. The Tubeway Drive Storm Water Lift Station is showing signs of corrosion, and is in need of desperate repair to alleviate flooding in the village. Under this rehabilitation project, the lift station will be totally replaced with new more efficient pumps, valving, backup systems and structures. Replacing the station in a timely manner will ensure storm water flows are effectively managed, preventing flood damage losses. Carol Stream has demonstrated a good-faith cost share in the project, providing a 45% commitment of matching funds. Severe flooding has plagued the village in the last year. Rains in September 2008 submerged 50 homes and damaged 400. This was followed in December by more rain, melting snow, and another round of flooding. Even last week the Daily Herald reported on how Carol Stream has had to deal with "severe flooding in several areas." This timely funding will bring much-needed relief to my constituents.

EARMARK DECLARATION

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. MILLER of Florida. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the Fiscal Year 2010 National Defense Authorization bill.

Requesting Member: Congressman JEFF MILLER

Project Name: AFSOC Injury Prevention and Human Performance Initiative

Account: RDAF

Legal Name of Requesting Entity: University of Pittsburgh School of Health and Rehabilitative Services/Andrews Institute

Address of Requesting Entity: 1040 Gulf Breeze Parkway Gulf Breeze, FL 32561

Description of Request: $1,000,000—AFSOC Injury Prevention and Human Performance Initiative, University of Pittsburgh School of Health and Rehabilitative Services/Andrews Institute. I requested these funds for an injury prevention and performance enhancement initiative that will achieve a critical doctrinal shift in human performance strategies in Air Force Special Operations. Phase 1 will include task and demand analyses to identify Air Force Special Operator-specific tasks during which injuries occur, mechanisms of injury, and the physiological requirements of training.

The entity to receive funding for this project is the University of Pittsburgh School of Health and the Andrews Institute located at 1040 Gulf Breeze Parkway Gulf Breeze, FL 32561. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: Anti-Materiel Explosive Round for Javelin Block II

Account: RDA

Legal Name of Requesting Entity: General Dynamics Ordinance and Tactical Systems, Niceville Operations

Address of Requesting Entity: 115 Hart Street Niceville, FL 32578

Description of Request: $3,000,000—Anti-Materiel Explosive Round for Javelin Block II, General Dynamics. I requested these funds to provide the warfighter with a significant improvement in lethality against Military Operations in Urban Terrain (MOUT) structures. The funding will allow for a qualification program in FY 2010 and early fielding in FY 2012.

The entity to receive funding for this project is General Dynamics located at 115 Hart Street Niceville, FL 32578. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: Coordinated Operation of Unmanned Vehicles for Littoral Defense

Account: RDN

Legal Name of Requesting Entity: Florida Institute for Human and Machine Cognition

Address of Requesting Entity: 40 South Alcaniz Street, Pensacola, FL 32502

Description of Request: $2,000,000—Coordinated Operation of Unmanned Vehicles for Littoral Defense, General Dynamics. I requested these funds to perform research to: develop a fully-functioning prototype of biologically inspired robotic concepts uniquely suited to the littoral environment; to develop and evaluate policies and metrics for optimal resource utilization and for effective configuration and control of hybrid teams of people and heterogeneous unmanned systems and to assure effective tasking of physically distributed humans and heterogeneous configurations of unmanned platforms to best support littoral operations.

The entity to receive funding for this project is the Florida Institute for Human and Machine Cognition located at 40 South Alcaniz Street, Pensacola, FL 32502. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this

request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: Eglin Air Force Base Range Operations Control Center (ROCC)

Account: RDAF

Legal Name of Requesting Entity: Cubic Corporation

Address of Requesting Entity: 1225 South Clark Street, Suite 702 Arlington, VA 22202

Description of Request: $3,000,000—Eglin Air Force Base Range Operations Control Center (ROCC), Cubic Corporation. I requested these funds to address the increased testing and evaluation at Eglin AFB, the 46th Test Wing Super ROCC initiative is a phased effort involving development, procurement and military construction (MILCON) funding to meet the future need in the 2015–2020 timeframe. This project provides more effective control to better optimize range scheduling and increases flexibility in meeting the Eglin AFB test and training missions. By knowing the locations of all entities on the range, the Super ROCC will have great flexibility in reassigning missions to ground and air space previously not being used.

The entity to receive funding for this project is Cubic Corporation located at 1225 South Clark Street, Suite 702 Arlington, VA 22202. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: Flight Test Operations Facility (413 FLTS)

Account: MCAF

Legal Name of Requesting Entity: Hurlburt Air Force Base

Address of Requesting Entity: Hurlburt Air Force Base

Description of Request: $9,400,000—Flight Test Operations Facility (413 FLTS), Hurlburt Air Force Base. I requested these funds to a construct a facility to conduct developmental and qualification testing of aircraft. A modern facility is necessary to ensure mission success, minimize acquisition costs and fielding delays. Functional areas include administration, operations and special purpose areas including open storage area with SIPRNET, workshop/maintenance area with compressed air, a hoist system and an electrical system capable of providing multi-phase power and covered outside storage.

The entity to receive funding for this project is Hurlburt Air Force Base located at Hurlburt AFB, Florida. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: Gulf Range Mobile Instrumentation Capability

Account: RDDW

Legal Name of Requesting Entity: Prologic

Address of Requesting Entity: 9400 Innovation Drive Manassas, VA 20110

Description of Request: $3,000,000—Gulf Range Mobile Instrumentation Capability, Prologic. I requested these funds for Gulf Range Mobile Instrumentation Capability for the 46th Range Group (46 RANG. The 46th Range Group (46 RANG) has a need for a capability for remote test, collection, storage and relay of various data types. This capability can be accomplished with a Gulf Range Mobile Instrumentation Capability (GR–MIC). The GR–MIC is needed to support test events on the Eglin AFB range which occur over large geographic areas (land and sea based).

The entity to receive funding for this project is Prologic located at 9400 Innovation Drive Manassas, VA 20110. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: Intelligence Broadcast Receiver (IBR) for AFSOC MC 130 Aircraft

Account: PDW

Legal Name of Requesting Entity: DRS Technologies

Address of Requesting Entity: 651 Anchors St., Fort Walton Beach, FL 32548

Description of Request: $2,500,000—Intelligence Broadcast Receiver (IBR) for AFSOC MC–130 Aircraft, DRS Technologies. I requested these funds to procure equipment that provides Air Force Special Operations Command (AFSOC) MC–130 Combat Shadow aircraft with vastly improved situational awareness in high threat arenas. These aircraft provide clandestine or low visibility, low level missions into denied areas to provide support to small SOF ground teams as well as to provide air refueling for specialized infiltration aircraft. This equipment provides real time information to include; immediate intelligence, Blue Force tracking (friendly units), and survivor information, greatly improving mission success and survivability.

The entity to receive funding for this project is DRS Technologies located at 651 Anchors St., Fort Walton Beach, FL 32548. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.–

Requesting Member: Congressman JEFF MILLER

Project Name: Joint Gulf Complex Test and Training

Account: RDDW

Legal Name of Requesting Entity: Boeing

Address of Requesting Entity: 634 Anchors St NW Fort Walton Beach, FL 32548

Description of Request: $3,000,000—Joint Gulf Complex Test and Training, Boeing. I requested these funds to provide critical training and mission rehearsal for Iraq and Afghanistan deployments. The range must accommodate requirements for joint testing of weapons systems that are revolutionary in nature and being developed for the War on Terrorism. The Joint Gulf Range must accommodate critical joint training requirements specifically in support of U.S. Air Force Special Operations Command and U.S. Special Operations Command.

The entity to receive funding for this project is Boeing located at 634 Anchors St NW Fort Walton Beach, FL 32548. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: LAIRCM for AFSOC MC–130

Account: PDW

Legal Name of Requesting Entity: L–3 Crestview

Address of Requesting Entity: 5486 Fairchild Road Crestview, FL 32539

Description of Request: $4,000,000—LAIRCM for AFSOC MC–130, L–3. I requested these funds for enhanced protection of AFSOC's C–130 aircraft operating in combat conditions where man-portable infrared missiles are present. Current countermeasures, during critical phases of their mission, have marginal effectiveness. This is needed to protect lives and assets in current and future missions in the Global War on Terror.

The entity to receive funding for this project is L–3 located at 5486 Fairchild Road Crestview, FL 32539. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: Mobile Learning Cultural Training for Military Personnel

Account: OMN

Legal Name of Requesting Entity: University of West Florida

Address of Requesting Entity: 11000 University Parkway Pensacola, FL 32514

Description of Request: $1,500,000—Mobile Learning Cultural Training for Military Personnel, University of West Florida. I requested these funds to provide regional cultural awareness training through multiple mobile devices and through the Navy Knowledge Online (NKO) portal. Cultural awareness and language skills are critical for operations in Iraq and Afghanistan. This project builds on previous projects by the University of West Florida on mobile learning instructional delivery and on an Arabic Language and Cultural Awareness for-credit certificate program.

The entity to receive funding for this project is the University of West Florida located at 11000 University Parkway Pensacola, FL 32514. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: Moving Target Strike

Account: RDAF

Legal Name of Requesting Entity: General Atomics/Alpha Data Corporation

Address of Requesting Entity: 1326 Lewis Turner Blvd Fort Walton Beach, FL 32547

Description of Request: $3,000,000—Moving Target Strike, General Atomics/Alpha Data Corporation. I requested these funds for GPS-guided weapons systems. The project will demonstrate the ability to strike a time-critical moving target with a low cost GPS guided weapon using coordinates derived and communicated from a single platform. GPS guided weapons are replacing higher cost laser guided and seeker weapons throughout DoD. The ability to use the GPS guided weapons against moving targets furthers this trend and reduces overall costs of weapon systems.

The entity to receive funding for this project is General Atomics/Alpha Data Corporation located at 1326 Lewis Turner Blvd Fort Walton Beach, FL 32547. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Requesting Member: Congressman JEFF MILLER

Project Name: Virtual Perimeter Monitoring System (VPMS)

Account: RDDW

Legal Name of Requesting Entity: DRS Technologies

Address of Requesting Entity: 651 Anchors St., Fort Walton Beach, FL 32548

Description of Request: $2,000,000—Virtual Perimeter Monitoring System (VPMS), DRS Technologies. I requested these funds to provide a perimeter monitoring system of remote sensors for detecting and alerting security personnel of intrusions in defined areas of interest at critical facilities. Virtual Perimeter Monitoring System (VPMS) provides continuous and persistent surveillance of areas of interest to include near real time monitoring of air fields, ports, depots and other critical infrastructures.

The entity to receive funding for this project is DRS Technologies located at 651 Anchors St., Fort Walton Beach, FL 32548. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

CELEBRATING FISH AND LOAVES COMMUNITY PANTRY'S MILLIONTH POUND SERVED

HON. JOHN D. DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. DINGELL. Madam Speaker, I rise today to acknowledge, honor, and celebrate the Fish and Loaves Community Pantry for serving its one millionth pound of food to people in need from across the Downriver area. Since its opening in 2007, Fish and Loaves continues to collaborate with churches, food banks, and hundreds of volunteers to provide cost-free, quality groceries to thousands of families and individuals.

Tough economic times have made acquiring even basic necessities difficult for many residents of Southeastern Michigan. Many of the people that Fish and Loaves serve are below the poverty line, lack medical coverage, and struggle to pay for essential services.

The organizers of the Fish and Loaves Community Pantry recognized this and, in response, churches and volunteers joined together in remarkable collaboration to construct a special kind of food pantry. The facility, located in Taylor, is arranged as a small grocery store in which individuals may select the items they need most, which include quality products like fresh produce, dairy products, frozen meat, and perishable items. Of course, everything is still provided at no cost to the client. The pantry serves the residents of Taylor, Romulus, Allen Park, Southgate, Dearborn Heights, and Brownstown.

Fish and Loaves provides assistance to those in need with both efficiency and dignity by providing a wide variety of foods and household products from which to choose. The hard work and dedication of the Board and volunteers is the source of its great success and support it gives to the thousands of individuals and families it helps to feed.

Madam Speaker, I ask that all of my colleagues join me in honoring the Fish and Loaves Community Food Pantry on its millionth pound of food served. It is an exemplary organization that continues to be an invaluable member of the Southeastern Michigan community and for which I, and thousands others, are truly grateful.

EARMARK DECLARATION

HON. BRIAN P. BILBRAY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BILBRAY. Madam Speaker, I submit the following:

Requesting Member: Congressman BRIAN BILBRAY

Bill Number: H.R. 2996—Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: Environmental Protection Agency, State Tribal Assistance Grants

Legal Name of Requesting Entity: City of Carlsbad, CA

Address: 1200 Carlsbad Village Drive, Carlsbad, CA 92008

Description of Request: I received an earmark of $500,000 for the Vista-Carlsbad Interceptor project (VC4), consisting of wastewater pipeline improvements project, including the construction of a new 24-inch HDPE forcemain, the trenchless rehabilitation (lining) of the existing 24-inch forcemain and refurbishment of pipeline appurtenances. VC4 is one of a number of joint wastewater projects between the cities of Vista and Carlsbad. VC4 is one of two pipelines that convey all of the wastewater from the City of Vista to the Encina regional wastewater treatment facility. In April 2007, the 24-inch ductile iron pipeline ruptured creating a significant sewage spill into the Buena Vista Lagoon. The 2,400 foot long 24-inch diameter pipeline receives flow from the cities of Carlsbad, Oceanside and Vista. This is the only year of funding needed to complete this aspect of the project. The cities of Carlsbad and Vista will provide the remaining funds required for the project directly.

EARMARK DECLARATION

HON. W. TODD AKIN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. AKIN. Madam Speaker, in accordance with House Republican Conference standards, and Clause 9 of rule XXI, I submit the following member requests regarding H.R. 2647, the National Defense Authorization Act of 2010.

Project: Air Filtrations Systems for Helicopters

Account: Department of Defense, Army, Aircraft Modifications

Legal Name of Requesting Entity: Aerospace Filtration Systems, Inc.

Address of Requesting Entity: 4 Research Park Dr, Suite 200, St Charles, MO, USA

Description of Request: To provide $2,000,000 to install barrier filtration systems on National Guard aircraft. This request would

allow the National Guard to obtain dramatic savings by reducing engine replacements and thus maintenance, keeping overall engine performance from being reduced due to erosion and Foreign Object damage (FOD), and increasing readiness rates of the ARNG fleet. The earmark will address a portion of the ARNG fleet to include: AH–64A APU Barrier Filter—32 Aircraft; AH–64D APU Barrier Filter—48 Aircraft; CH–47 APU Barrier Filter—80 Aircraft; OH–58A/C Engine Barrier Filter—50 Aircraft. AFS Barrier Filtration Systems capture 99% of the dirt and debris that would otherwise enter the engine or APU and cause a significant loss of performance. This prevents engines/APU's from being removed from the aircraft for costly maintenance or overhaul. Engine overhaul costs could cost as much as $300,000 on one engine. By extending the life of the engine/APU up to 11 times, the savings from one installation kit could be as high as $6.6M on one AH–64 helicopter alone. AFS barrier filters in use by the U.S. Army in the deserts of Iraq and Afghanistan have been proven extremely effective. These kits have allowed engines to reach TBO and have been a major part of unprecedented readiness rates for the aircraft fleets.

Project: Hyperspectral Imaging for Improved Force Protection (HYPER–IFP)

Account: Department of Defense, Army, RDT&E (CERDEC, NVESD, Special Projects)

Legal Name of Requesting Entity: Clean Earth Technologies, LLC.

Address of Requesting Entity: 13378 Lakefront Drive, Earth City, MO, USA

Description of Request: To provide $5,400,000 for the Hyper-IFP (Hyper spectral Sensor for Improved Force Protection) Program. The introduction of a Hyper-IFP in FY08 is allowing the detection and recognition of humans (with a near zero false alarm rate) and providing indication of other certain physiological triggers that can indicate that a person is under extreme stress such as contemplating ''bad'' behavior. To date successful development, test and evaluation has been done in the lab, though these systems have not been fully optimized for theatre operation or for costs. The continued funding of Hyper-IFP will operationalize and integrate the knowledge gain in the lab and apply it in a true-fielded application at an affordable cost. The Hyper-IFP system will also be environmentally hardened to allow field deployment and allow integration w/other FP sensors in the last quarter of 2009. Hyper-IFP is focused on the missions of Perimeter Security, Suicide Bomb Detection and Urban Route Recon. Utility will be demonstrated through an evaluation in both the Southwest border and contingency mission in Southwest Asia. This effort will require leveraging the current Force Protection sensor suite designs for the missions cites to maintain interoperability. In the end, this request focuses on both achieving data verification, and the delivery of sufficient hardware to validate the Technical Data package for re-procurement as well as demonstrate the system's ability to deploy to DoD/DHS users for the missions described. The Night Vision Electronic Sensors Directorate, Ft. Belvoir, Virginia, is very supportive of this project.

Project: Backpack Medical Oxygen System (BMOS)

Account: Department of Defense, Air Force, RDT&E

Legal Name of Requesting Entity: Essex Cryogenics of Missouri Inc.

Address of Requesting Entity: 8007 Chivvis Drive, St. Louis, MO 63123–2395

Description of Request: To provide $2,900,000 for improving Air Force oxygen generation technology for emergency field medical rescues. With modification, the Backpack Medical Oxygen System (BMOS) is the system that satisfies the USAF Requirement for a small deployable oxygen generator system. This spiral development program for the BMOS system will significantly decrease the time and funds required to field critical capabilities needed today by our warfighters. The U.S. Air Force requirement for oxygen is a minimum of 93% pure oxygen at 6 liters per minute for critically injured personnel and the BMOS satisfies that requirement.

Project: High Power Electrolytic Super-Capacitors Based on Conducting Polymers

Account: Department of Defense, Army, RDT&E, Weapons and Munitions Technology

Legal Name of Requesting Entity: Crosslink, Inc

Address of Requesting Entity: 950 Bolger Court, St. Louis, MO 63026

Description of Request: To provide $9,000,000 for the development of State of the art electrolytic supercapacitors for the purpose of supplying Non-Line-of-Sight (NLOS) weapons, which are dubbed the ''Objective Force Weapons,'' with quick discharging/recharging energy storage systems that are capable of high power pulses, on the order of megawatts, to be delivered in the hundreds of microseconds to one millisecond time range to make these weapons successful. Approximately 21% of the funds will be used for salaries for four (4) employees, 43% for equipment and materials, and 36% for indirect costs associated with completing the project. This project has received past funding of $2.6 million in FY'07, $2.4 million in FY'08, and $800,000 in FY'09. Crosslink, University of Missouri-St. Louis, University of Missouri-Rolla and University of Florida have collaborated to develop new polyaniline and PXDOT (poly(3,4-Alkylenedioxythiophene—Conjugated electroactive polymers). The results of this collaboration will be the development of devices capable of power delivery rates significantly faster than standard supercapacitors.

Project: Aircrew Body Armor and Load Carriage Vest System

Account: Other Procurement—U.S. Air Force

Legal Name of Requesting Entity: Eagle Industries

Address of Requesting Entity: 1000 Biltmore Drive, Fenton, MO 63026

Description of Request: To provide $9,000,000 to issue the Aircrew Body Armor Load Carriage Vest System, an integrated body armor vest system, to aircrew personnel. The system provides fire retardancy and ballistics protection from a wide array of threats including small arms fire, fragmenting shrapnel and spall, while decreasing the heat stress and weight burdens faced by airmen. Currently issued aircrew flight equipment survival vests are not body armor-compatible due to weight, heat, and survivability concerns. Current issue is not fire retardant and fails to meet the present needs of the U.S. Air Force. Of the $9 million, approximately 25% is for materials; 25% is for labor; and 50% is for armor and armor integration.

This request is consistent with the intended and authorized purpose of the U.S. Air Force—Other Procurement account. If funded in full, this is a one-time funding request with the goal of the Air Force using internally budgeted funding to continue fielding the system to aircrew personnel.

Project: Mission Equipment Technology Implementation (METI)

Account: Department of Defense, Army, RDT&E

Legal Name of Requesting Entity: QinetiQ North America (Formerly Westar Aerospace and Defense Group)

Address of Requesting Entity: 36 Research Park Ct., St. Charles, MO 63304, USA

Description of Request: To provide $5,300,000 for funding to complete the METI plan initiated by the Aeromechanics division 3 years ago. This funding will complete the development of a robust enterprise level data repository that supports the Aviation Engineering Directorate's (AED) airworthiness release mission to rapidly develop and deploy mission equipment tools. The AED will have the capability to data mine and analyze complex data to determine trend information to reduce high cycle times between flight tests and airworthiness releases.

Project: Bonded Cellular Aluminum Tail Rotor Blades

Account: Department of Defense, Army, RDT&E

Legal Name of Requesting Entity: Kemco Aerospace Manufacturing

Address of Requesting Entity: 3616 Scarlet Oak Blvd., St. Louis, MO 63122

Description of Request: To provide $3,600,000 for bonded cellular aluminum helicopter tail rotor blades that are well suited for military helicopter structures which operate in demanding environmental conditions and must be battle damage tolerant. Unlike traditional aluminum honeycomb, the vented/drained cellular bonded structure redistributes load paths around damaged areas and has eliminated corrosion problems associated with traditional aluminum honeycomb structures; dramatically improving life cycle costs. This technology offers significant advantages compared with current structural technologies that were designed over 30 years ago, including 82% reduced parts count, elimination of skin delamination, significantly enhanced battle damage tolerance and field reparability benefits. The tongue and groove joint structures reduce the amount of touch labor required as well as tooling costs. This has the potential to reduce procurement costs by 20–30%.

Project: Adaptive-Defense HIPPIE (High-speed Internet Protocol Packet Inspection Engine) on a Chip.

Account: Department of Defense, Army, RDT&E

Legal Name of Requesting Entity: TechGuard Security, LLC

Address of Requesting Entity: 743 Spirit 40 Park Drive, Chesterfield, MO 63005

Description of Request: Provide $6,000,000 to enhance the Army's Cyber Security. This

project puts the rapid and power-conserving High-speed Internet Protocol Packet Inspection Engine's (HIPPIE) security capability on a silicon chip. This funding will allow for development of a Nano-power supply and a nano-memory capability. It will enhance the coalition warrior and the US Warfighter's communication security and access control through discreet deployment with secure remote-controlled chip-level destruction in the event a device is compromised. This enhanced capability at the chip-level allows for deployment directly into the hands of the warfighter engaged in traditional and irregular warfare.

Project: JSOW–ER

Account: Department of Defense, Navy, RDT&E

Legal Name of Requesting Entity: LaBarge Inc.

Address of Requesting Entity: 9900 Clayton Road, St. Louis, MO 63124

Description of Request: Provide $6,500,000 for Joint Stand Off Weapon (JSOW) a GPS-guided air-to-ground weapon designed to attack a variety of targets in day, night and adverse weather conditions. The 70+ mile range of JSOW allows launch aircraft to stand off beyond the range of most Surface-to-Air missiles. There is a need for a small number of weapons with greater stand off. Currently the Navy fills this requirement with SLAM–ER, Harpoon and Tomahawk. The Navy completed its relatively small buy of fewer than 500 SLAM–ERs in 2004. A new variant of JSOW (JSOW–ER Block IV) would have a range and lethal capability equal to or greater than SLAM–ER and would satisfy the warfighter's need at less than half the cost of SLAM–ER. An existing engine from the Miniature Air-Launched Decoy program will be used to extend the range of JSOW–ER to more than four times of the current glide version.

RECOGNIZING GABRIEL PEREZ

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. KILDEE. Madam Speaker, Gabriel Perez, the Director of the Saginaw Michigan Aleda E. Lutz Veterans Affairs Medical Center, has been appointed as the new Health System Administrator/Medical Center Director of the Veterans Affairs HealthCare System in Phoenix, Arizona. He will start his new position on July 19, 2009.

Mr. Perez graduated from Loyola University in 1968, attended the University of California at Los Angeles Law School and obtained his Master's Degree in Public and Health Care Administration from the University of Southern California. Prior to his work with the Department of Veterans Affairs, Mr. Perez spent several years working for the Los Angeles County Department of Health Services and teaching courses at the university level in medical legal law and personnel.

Prior to becoming the Director of the Lutz Veterans Affairs Medical Center in 2000, Mr. Perez was the Chief Operating Officer and Acting Director of the Honolulu VA Medical and Regional Office Center. Since assuming his duties in Saginaw, he led the facility to improve its overall performance and move to a top ten spot among Department of Veterans Affairs facilities nationwide, ranking 3rd in the nation for its hospital grouping. From October 2005 to August 2006 he also served as Acting Director of the Veterans Affairs Ann Arbor Healthcare System.

Patient care and safety has been his primary concern and his practices have earned him the respect of his peers. The delivery efficiencies he developed have been adopted nationwide and have won awards for improving VeteranCare delivery. He is a member of several professional organizations and community groups. His work with veterans, Hispanics, workers and children has been recognized numerous times and he is a regular participant in efforts to promote veterans and Hispanics at the local and national levels.

Madam Speaker, Gabriel Perez has brought insight and innovation to the day-to-day operations of the Lutz Veterans Affairs Medical Center over the past 9 years. He has worked to enhance the health and well-being of veterans, improve service to veterans, and expand accessibility for all veterans. I congratulate him on his new position and wish him the best as he enters this new phase of his life.

EARMARK DECLARATION

HON. DONALD A. MANZULLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. MANZULLO. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding the earmark I secured as part of H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

My request, totaling $280,000, will come from the Surveys, Investigations & Research account at the U.S. Geological Survey (USGS) for the Groundwater and Stormwater Protection program in McHenry County, Illinois. The funding would be used to accelerate work on studies associated with the implementation of McHenry County's Groundwater Protection Program. McHenry County is continuing to experience rapid population growth and there is a critical need to plan for the future. The county's program is working to address the protection of groundwater resources, stormwater drainage and detention, stream and wetland protection, and sustainable growth all into a single program. Ongoing and future development poses serious challenges because of the reduction of the land's ability to absorb precipitation and the continuing pressure to develop flood prone areas. The McHenry County government has already invested over $615,000 of local resources in studying local groundwater resources and stormwater investigations. The local USGS entity to receive funding for this request is the Illinois Water Science Center at 1201 West University Avenue, Suite 100, in Urbana, Illinois 61801, who will work in partnership with McHenry County to implement this initiative.

Madam Speaker, I want to take this opportunity to thank the Chairman of the House Appropriations Committee, Representative DAVID OBEY, and the Ranking Minority Member, Representative JERRY LEWIS, and the Chairman of the Interior and Environment Appropriations Subcommittee, Representative NORM DICKS, and the Ranking Minority Member, Representative MIKE SIMPSON, for working with me in a bipartisan manner to include this critical request in this spending bill.

EARMARK DECLARATION

HON. CHARLES W. DENT

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. DENT. Madam Speaker, pursuant to the House Republican Leadership standards on earmarks, I am submitting the following information regarding projects that are listed in H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010:

Bill Number: H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010, Account: National Park Service, Save America's Treasures, Title: Saylor Cement Kilns Historic Preservation, Legal Name of Requesting Entity: County of Lehigh, Address of Requesting Entity: 17 South 7th Street, Allentown, PA 18101, Description of Request: This funding will be used to stabilize and restore the historic Coplay Company Cement Kilns, known locally as the Saylor Cement Kilns, a unique industrial feature built between 1892 and 1893 that is key to the Delaware & Lehigh National Heritage Corridor's industrial story. The Saylor Cement Kilns are in a state of serious decay, prompting concerns about public safety and liability, as well as the potential loss of a significant historical landmark in the Lehigh Valley region. Rehabilitating the kilns will have a positive impact on local economic development through increased heritage tourism. Once restored, the site will encourage use for historical education and community events.

Bill Number: H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010, Account: EPA, STAG Water and Wastewater Infrastructure Project, Title: Vera Cruz Wastewater Collection System, Legal Name of Requesting Entity: Lehigh County Authority, Address of Requesting Entity: 1053 Spruce Street, P.O. Box 3348, Allentown, PA 18106, Description of Request: This funding will be used to build a wastewater collection system for the Vera Cruz area of Upper Milford Township. On-lot sewer disposal systems in the area are failing, causing environmental damage and public health concerns. The project will provide central sewer service to approximately 284 properties in the village of Vera Cruz and the surrounding area. Funds will be used for construction, engineering services and purchase of capacity in downstream transportation and treatment facilities.

EARMARK DECLARATION

HON. RODNEY P. FRELINGHUYSEN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. FRELINGHUYSEN. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the Fiscal Year 2010 Interior, Environment and Related Agencies Appropriations Act.

Bill: H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: STAG Water and Wastewater Infrastructure

Legal Name and Address of Requesting Entity: Borough of Hopatcong located at 111 River Styx Road, Hopatcong, New Jersey 07843.

Description of Request: H.R. 2996 includes $500,000 for the Borough of Hopatcong's Drinking Water Disinfection Improvement project to provide safe drinking water to the residents of the Borough. The funds will be used to install large diameter pipes at public community supply wells to improve the disinfection of the raw water before being distributed.

Bill: H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: Land Acquisition (Fish and Wildlife Service)

Legal Name and Address of Requesting Entity: The entity to receive funding for this project is the Great Swamp National Wildlife Refuge located at 241 Pleasant Plains Road, Basking Ridge, New Jersey 07920.

Description of Request: H.R. 2996 includes $750,000 for the Great Swamp National Wildlife Refuge, a component of the Fish and Wildlife Service. The Great Swamp Refuge is located in Morris County, New Jersey, about 26 miles west of Manhattan's Times Square. The refuge was established by an act of Congress on November 3, 1960. The protection of this gem of wilderness in the heart of dense suburban development is one of the success stories of our National Wilderness Preservation System. The funding would be used to acquire an 18.31 acre parcel of land, known as the Great Brook Property, adjacent to the Great Swamp National Wildlife Refuge, which provides critical habitat for numerous rare species.

SUPPORTING HEALTH REFORM

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. STARK. Madam Speaker, this past Sunday my colleague from Pennsylvania, ALLYSON SCHWARTZ, addressed the issue of health reform in a guest editorial for the Philadelphia Inquirer. In her piece she laid out an indisputable case for why the current healthcare system has become unacceptable for Americans and what we must do to fix it. I encourage all of my colleagues to read the article and to work in the coming months to ensure that we enact affordable, quality health care for all.

[From the Philadelphia Inquirer June 21, 2009]

OP-ED HEADLINE: FIXING HEALTH CARE

Health-care reform is the number-one issue my constituents raise with me, and a leading concern of business owners. For Democrats in Congress, health-care reform is a moral and an economic imperative.

American families are facing inadequate health coverage, mounting bills, and lack of access to care. They like their doctors and appreciate the quality of care provided by their hospitals. But, they have deep worries that their current coverage may change suddenly and limit access to their doctor or to needed benefits.

Business owners are struggling to pay for health benefits for their workers, forcing them to pass greater costs to employees or drop coverage.

Increasing costs for the federal government are neither sustainable, nor producing the health outcomes they should. Taxpayers pay 46 percent of our nation's $2.5 trillion health-care costs. And, just as in the private market, costs are skyrocketing. The share of our GDP devoted to health-care spending has doubled in the last 20 years, threatening our budget stability.

The status quo is unacceptable and unsustainable. We must do a better job to contain costs for families, businesses, and the government, and to ensure meaningful, affordable coverage for all Americans.

Can we? I believe we can by keeping what works, fixing what doesn't, and demanding quality care and greater value for our dollar.

In the first three months of this new administration, we did more to strengthen health care than in the prior decade. We expanded affordable health coverage to 11 million American children, took major steps to modernize medicine through health-information technology, invested significantly in lifesaving medical research, and ensured that U.S. workers and their families hurt hardest by this recession continue to have access to health coverage when they lose a job.

Building on these achievements, we can find a uniquely American solution to cost, coverage, and quality. This is essential if our businesses are to be economically competitive, our people healthier, and our federal budget balanced.

Here's what we should do:

First and foremost, we start with the acknowledgment that health care is a shared responsibility. Every American will be expected to get health coverage and employers will have to provide coverage or help pay to cover the cost of the uninsured.

As President Obama has said, if you have coverage, and you like it, you can keep it. This means work-based coverage for most Americans, Medicare for seniors, Medicaid for our poorest and sickest, and continued benefits for veterans.

For the nearly 50 million uninsured Americans, many of whom are working families, we will help you buy either private or public coverage. While everyone will have to pay part of their premiums, partial subsidies on a sliding scale will be established and can be used to buy either private or public insurance.

To ensure affordable, meaningful coverage, we will change the ground rules in the insurance market. Denying coverage or charging more for preexisting conditions, health status, or sex is going to stop. Insurers will have to simplify terms and procedures. And, we expect insurers to pass those savings along to their consumers.

Next, we know that in order to control costs and improve health-care outcomes, delivery of health services must be more efficient, more accountable, and better coordinated. Changes in Medicare and the new public-insurance option will create choices for patients to find primary-care providers and will mean better continuity of care for those with chronic diseases. We will gather, analyze, and disseminate information on best practices to doctors, nurses, and health providers, and then expect them to use it. And, we must have a renewed focus on primary care, encouraging future health-care providers to enter the field and working to ensure their excellence.

Third, we have to strengthen our commitment to innovation and technology. Americans have always been scientists and innovators, and we must keep investing in the next generation of medicines, technologies, devices, and cures.

Finally, without increased personal responsibility, Americans will not be healthier. We must take greater responsibility in the way we get health care and the way we take care of ourselves. If we don't, we all pay the consequences—from lost productivity, to the cost of expensive care, to personal pain and suffering.

Setting our nation toward a healthier, more economically competitive future will take fair and responsible financial investment. We are committed to covering the cost of health reform. To do so, we will consider means that are appropriate, fair, shared, and the least disruptive to economic growth and financial security for our families. The president has asked that those making under $250,000 not be burdened by higher taxes. These are the parameters; the decisions will be difficult, but ones that you have entrusted to us.

Much of the cost of health-care reform will come from savings within the system. Reducing hospitalizations, duplicative testing, and medical errors, ending the current overpayments to private insurance companies that contract with Medicare, and insisting on better prices for prescription drugs for seniors will result in hundreds of billions of dollars of savings.

Besides the significant dollars that will come from savings and new premiums paid by those currently uninsured, stakeholders in health care, including insurance companies, hospitals, doctors, pharmaceutical companies, medical-device manufacturers, have committed to reducing costs by $2 trillion over 10 years. These savings should be passed along to consumers.

There will always be naysayers who say these decisions are too hard, that health-care reform cannot be done, but I believe that today even ''Harry and Louise,'' who helped stop reform before, would tell us reform is a necessity. If our businesses are to be economically competitive, our families healthier, and our government fiscally sound, we must find a uniquely American solution to our health-care challenges.

The time to act is now.

PERSONAL EXPLANATION

HON. TIMOTHY V. JOHNSON

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. JOHNSON of Illinois. Madam Speaker, on rollcall No. 425, I was present on the floor, but due to a malfunction, my vote was not recorded.

Due to insufficient time to consider the subject before us, adjournment was the most responsible alternative. Thus my vote below would be in the affirmative.

Had I been present, I would have voted ''yes.''

EARMARK DECLARATION

HON. DAVID DREIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. DREIER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Fiscal Year 2010 Interior, Environment and Related Agencies Appropriations Act:

Requesting Member: Congressman DAVID DREIER

Bill Number: H.R. 2996, the Fiscal Year 2010 Interior, Environment and Related Agencies Appropriations Act

Account: EPA STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: City of Arcadia, California

Address of Requesting Entity: 240 West Huntington Drive, Arcadia, CA 91066

Description of Request: Provide an earmark of $500,000 for the cities of Arcadia and Sierra Madre for their Joint Water Infrastructure Projects. Arcadia's project will provide for the portion of the construction cost for the Baldwin Reservoir Rehabilitation Project ($250,000). This project will provide for structural reinforcement of the existing reinforced concrete reservoir to be able to withstand a seismic event as identified in the Corps Seismic Reliability Study in 1997. Sierra Madre's project will provide for the portion of the construction cost for its Water Supply Well Project ($250,000). This project will replace an existing well with a new high capacity well to provide for groundwater supply reliability. Each city will provide a 45% local match to the 55% EPA STAG funding, as required.

EARMARK DECLARATION

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. LANCE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647—National Defense Authorization Act for Fiscal Year 2010:

Authorized Amount: $4,800,000.00

Project Name: Tactical Metal Fabrication (TacFab)

Funding Account/Service: RDA, Army

PE Number: 0602601A, Combat Vehicle and Automotive Technology Line Number: 13

Intended Recipient: SeaBox Inc., 450 Black Horse Lane, No. Brunswick, NJ 08902

The TacFab system, which is currently under development, will demonstrate a tactically mobile rapid metal fabrication capability that will be a companion unit to the Mobile Parts Hospital to provide spare and replacement parts to our Warfighters in theater, and also as a stand-alone, metal casting resource provided to domestic organic Army depots and industrial facilities in support of RESET activities. This final increment for FY 2010 will result in a mobile, rapidly deployable asset, both in theater and within the U.S. in support of RESET operations. Once fully configured, the Army expects a 5x–10x reduction in delivery times for poured metal part base shapes using TacFab versus conventional procurement processes.

TacFab's containerized, mobile foundry to the U.S. Army allows deployed forces to produce spare and replacement parts in the field. This cuts the order time from weeks or months to 24 hours. Funding for this project will provide our troops with the parts they need to effectively complete their missions. Additionally, the system can be deployed at depots in CONUS assisting in RESET as currently exists. TacFab will reduce time waiting for parts and cut costs for DoD while ensuring our troops have the weapons they need as soon as they need them so they may effectively complete their missions.

IN HONOR OF DR. GOFF

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. FARR. Madam Speaker, I rise today to recognize the outstanding life-work of Dr. Lynda J. Goff. Dr. Goff has served with distinction as a Professor of Ecology and Evolutionary Biology at the University of California, Santa Cruz for more than 30 years. Dr. Goff has decided to take the next step in her life, and is retiring from the University of California. While she will no longer be a faculty member, her legacy of outstanding dedication to California and the scientific community at large shall be persistent.

Dr. Goff is a devoted and truly inspiring biology teacher. In the tenure of over three decades, she has taught 10,000 university students, and has supervised the research of more than 100 graduate students. Her noteworthy achievements include teaching and researching molecular plant and marine biology on all seven continents. She has the honor of having significantly contributed to seven expeditions to Antarctica and twenty in the Arctic. Her exemplary teaching led her to serve in the distinguished role of Vice Provost and Dean of Undergraduate Education from 1999 to 2004, and subsequently as the first director of the ''California Teach'' program. Dr. Goff played a pivotal role in creating this program, established to increase the number of highly trained K–12 science and mathematics teachers in California—something our nation desperately needs. She dedicated herself wholeheartedly to ensure that California, and indeed our great Nation, increases its competitiveness in math and science in the 21st Century.

Professor Goff has received national and international recognition for her scientific research, much of which has centered on cell-cell and genome interaction in algae and the evolution of parasitism. Dr. Goff has been a solid pillar in the Monterey Bay community for years; not only as a distinguished professor, but also as an elementary science teacher, a naturalist and photographer. Her work embodies what California's central coast prides: experiencing the beauty of nature, seeking to understand the mysteries of our oceans' flora and fauna and giving back to the community to ensure our posterity's brighter future.

I would like to thank her for her meritorious service to California and commend her for her many accomplishments.

EARMARK DECLARATION

HON. SHELLEY MOORE CAPITO

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mrs. CAPITO. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2874, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Awarded under: COPS TECH GRANT, Kanawha Prosecuters Case Management, Kanawha County Prosecuting Attorney, 700 Washington Street, East Charleston, WV 25301.

This project would allow for the cost of implementation of the case management system, integration of the system with law enforcement and hardware needed for both systems.

Awarded under: COPS TECH GRANT, Spencer PD Computer System, Spencer Police Department, 116 Court St., Spencer, WV 25276.

Funding will be used to purchase a computer system for processing criminals and case management.

Awarded under: COPS TECH GRANT, Weston Police Department Technology Upgrade, Weston Police Department, 102 West 2nd Street, Weston, WV 26452.

Funding would help establish a computer network in all police vehicles that is networked with the 911 center and the Weston Police Department and surrounding counties.

Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996 Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

Awarded under: U.S. Forest Service Land Acquisition, Nature Conservancy—Monongahela National Forest, U.S. Forest Service, 200 Sycamore Street, Elkins, WV 26241.

Funds would go towards the acquisition 1,210 acres within the Monongahela National Forest.

Awarded under: Save America's Treasures, Claymont Court Claymont, Society for Continuous Education, 667 Huyett Road, Charles Town, WV 25414.

This funding will go to underwrite initial phases for restoration of Claymount Court, a national historic site of great significance.

EARMARK DECLARATION

HON. STEVEN C. LATOURETTE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. LATOURETTE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, Department of the Interior, Environment and Related Agencies Appropriations Act, 2010:

Requesting Member: Mr. STEVEN C. LATOURETTE

Bill Number: H.R. 2996

Account: National Park Service, Construction Account

Legal Name of Requesting Entity: Cuyahoga Valley National Park

Address of Requesting Entity: 15610 Vaughn Rd., Brecksville, Ohio 44141

Description of Request: Provide an earmark in the amount of $500,000 to carry out the Cuyahoga Valley National Park's Site and Structure Rehabilitation Program which is a component of its General Management Plan. With more than 250 historic structures, nearly 100 of which are on the National Register, the park will use the full amount for restoration, rehabilitation and stabilization of the buildings and the environment within the park. Protection of our nation's national parks and their facilities is a relevant use of taxpayer dollars.

Requesting Member: Mr. STEVEN C. LATOURETTE

Bill Number: H.R. 2996

Account: U.S. Environmental Protection Agency, State and Tribal Assistance Grants

Legal Name of Requesting Entity: The City of Stow, Ohio

Address of Requesting Entity: 3760 Darrow Road, Stow, Ohio 44224

Description of Request: Provide an earmark in the amount of $500,000 for the construction of a sanitary sewer system within the City of Stow, Ohio. The full amount of the funding will be used for the construction and installation of the new system. The City of Stow will provide $600,000 toward the total $1.1 million cost of the project. Sanitary sewer systems protect human health and the environment.

EARMARK DECLARATION

HON. CANDICE S. MILLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mrs. MILLER of Michigan. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of HR 2892 the Department of Homeland Security Appropriations Act of 2010

Requesting Member: Congresswoman CANDICE S. MILLER

Bill Number: HR2996

Account: STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: The office of the Oakland County Water Resources Commissioner

Address of Requesting Entity: Oakland County Water Resources Commissioner 1 Public Works Dr. Building 95 West, Waterford, MI 48328

Description of Request: This request, in the amount of $500,000.00, would be used to help rehabilitate the Oakland Macomb Interceptor. This is critical to the environment and health and safety of the region. This interceptor has experienced a catastrophic failure and is in need of major repairs.

IN RECOGNITION OF THE SONS OF THE PIONEERS 75TH ANNIVERSARY

HON. ROY BLUNT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BLUNT. Madam Speaker, I rise today to honor a legendary Ozarks western singing group—Sons of the Pioneers, who will celebrate their 75th anniversary of performing this year. They are known worldwide for their vocal blend, unique harmonies and special arrangements of their classic songs. Introduced in 1934, the Sons of the Pioneers are reputed to be the longest continually performing musical group in the history of western music.

After about 50 years of touring, the Sons of the Pioneers decided to make Branson their home. They settled at the Shepherd of the Hills, where they perform at the Sons of the Pioneers Pavilion. The six-member group entertains guests with western songs and stories.

The members have changed over the years, but they all continue to present the music in its original form for everyone to enjoy.

The founding members included Roy Rogers (Leonard Slye), Bob Nolan and Tim Spencer, who was born in Webb City, Missouri, which is now part of my congressional district. Their unique style of music became widely admired and copied. They composed many original songs, several of which have become true American classics. ''Tumbling Tumbleweeds,'' ''Cool Water,'' and ''Riders in the Sky'' were part of a unique sound and style, which became the traditional music of the American cowboy and the West.

The Sons of the Pioneers has had 33 members, and has never disbanded. The Sons of the Pioneers have performed in nearly 100 movies and have sung over 3,000 western songs. They have starred in movies with well known actors such as John Wayne, Gene Autry, Bing Crosby, and of course Roy Rogers.

The Sons of the Pioneers has achieved many awards and accolades over their three-quarters of a century performing. They are considered ''National Treasures'' by the Smithsonian Institute. They have been inducted in several halls of fames including: Nashville Country Hall of Fame in 1978, Western Hero's Hall of Fame in 1984, Western Music Association Hall of Fame in 1990 and the National Cowboy Hall of Fame in 1995. The group won Vocal Group of the Year in 1970 and Band of the Year in 1978. In 1986, their popular song ''Cool Water'' was inducted into the Grammy Hall of Fame.

Sons of the Pioneers is truly a group who deserves significant credit for the music they have created, the standards they have set, the achievements they have accomplished, and all the generations they have touched.

This year celebrates the Sons of the Pioneers' 75th Anniversary of creating and preserving western music. It is truly an honor for Southwest Missouri to be the home of such a distinguished group. I wish Sons of the Pioneers continued success and many more years of keeping western music alive for future generations to enjoy.

EARMARK DECLARATION

HON. ROBERT B. ADERHOLT

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. ADERHOLT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2847, the Commerce, Justice, and Science Appropriations Bill:

Requesting Member: ADERHOLT

Bill Number: H.R. 2296, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: National Park Service, Save America's Treasures

Legal Name of Requesting Entity: City of Fort Payne

Address of Requesting Entity: City of Fort Payne, 100 Alabama Ave., NW, Fort Payne, AL 35967

Description of Request: ''Historic Fort Payne Coal and Iron Building Rehabilitation, $150,000''

The funding would allow Fort Payne to create the construction documents, let bids, and begin the phased rehabilitation of an important landmark. The building will house a cultural center, which will serve the entire county. Taxpayer Justification: This building is located in the Fort Payne Boom Town Historical District (National Register #88000444), and upon completion of renovation, will be a valuable asset in stimulating cultural tourism and raising awareness of our heritage. The $150,000.00 appropriation will be applied to the project in the following manner: $40,000 for the completion of the design phase (creation of construction documents); $30,000 for the rehabilitation of the roof system; $30,000 for the renovation of the exterior of the building; $50,000 for the installation of HVAC, plumbing and electrical components.

Requesting Member: ADERHOLT

Bill Number: H.R. 2296, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: National Park Service, Save America's Treasures

Legal Name of Requesting Entity: University of Montevallo

Address of Requesting Entity: UM Station 6130, Montevallo, AL 35115

Description of Request: ''Historic Montevallo Main Hall Renovation'', $150,000

Provide $150,000 to fund interior and exterior renovation and an upgrade to existing safety codes. Priorities include upgrades to fire and life safety systems, HVAC systems, elevators, and toilet and shower rooms; enhancements to interior cosmetics and furnishings; and an exterior renovation. Taxpayer Justification: This building anchors the Montevallo campus and is a prominent feature of the Olmsted Brother's 1930 Master Plan. Main Hall was placed on the National Register of Historic Places in 1978. This project's budget is $2.5 million. Within the budget is $150,000 for stone and masonry work, $300,000 for metal cornice repairs, $250,000 for exterior painting, $1,600,000 for windows, and $200,000 for professional services. This request is consistent with the intended and authorized purpose of the National Park Service, Save America's Treasures account. The University of Montevallo will meet or exceed all statutory requirements for match funding where applicable.

Requesting Member: ADERHOLT

Bill Number: H.R. 2296, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: STAG, Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: City of Sulligent

Address of Requesting Entity: City of Sulligent, 5795 Highway 278, Sulligent, AL 35586

Description of Request: ''Water Supply Project'', $500,000''

The funding would be used for the planning, design, and construction of an additional water supply well, an additional water storage tank, and a booster pumping station, all to provide an additional source of potable water and to increase system pressures. Taxpayer Justification: This funding will help meet the water needs of a growing population. The proposed project consists of the design and construction of a new water supply well and new water storage tank. The project budget includes $315,000 for the construction of a new water supply well, $600,000 for the construction of a new water storage tank, and $75,000 for the construction of a booster pumping station. In addition, the budget includes $110,000 for engineering services for a total estimated project cost of $1,100,000.

EARMARK DECLARATION

HON. PETER T. KING

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. KING of New York. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996—the Department of Interior, Environment, and Related Agencies Appropriations Act, 2010:

Requesting Member: Congressman PETER KING

Bill Number: H.R. 2996

Account: Environmental Protection Agency—STAG

Legal Name of Requesting Entity: City of Glen Cove

Address of Requesting Entity: 9 Glen Street, Glen Cove, NY 11542

Description of Request: $500,000 will be used to rehabilitate and obtain technology for failing drinking and storm water infrastructure that are critical to protection of the Long Island Sound, the community's sole source aquifer, and shoreline properties.

EARMARK DECLARATION

HON. DEAN HELLER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. HELLER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010:

Requesting Member: Congressman DEAN HELLER

Bill Number: H.R. 2996

Account: Environmental Protection Agency—STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: Lyon County Utilities

Address of Requesting Entity: 275 Main Street, Yerington, NV 89447

Description of Request: $500,000. This project will expand the current wastewater treatment facility at Mound House to serve residents currently on septic. This will help remediate the groundwater contamination currently taking place downstream of the wastewater treatment plant's leach field. Through this project groundwater contamination can be reversed with improved wastewater treatment and by eliminating the existing septic system.

HICO POTHOLE PATCHING

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CARTER. Madam Speaker, the residents of Hico, Texas deserve to be greatly commended for the service they provided to their own city through the Pothole Patching Project on March 7, 2009. One hundred and fifty dedicated and eager volunteers prepared for weeks for a long day of repairing the city's roads. These hardworking volunteers not only made their roads safer for residents and travelers, but nurtured a strong sense of community while doing it. The fellowship that this act of volunteerism illustrates is nothing short of honorable and I hope other cities can mirror this kind of community enthusiasm and resourcefulness.

EARMARK DECLARATION

HON. ROBERT E. LATTA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. LATTA. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010.

Requesting Member: Congressman ROBERT E. LATTA

Bill Number: H.R. 2647, National Defense Autorization Act for Fiscal Year 2010

Account: AirForce; Research, Development, Test & Evaluation, Air force (RDAF)

Legal Name of Requesting Entity: Metals Affordability Initiative (MAI)

Address of Requesting Entity: 1138 by-the-Shores Drive, Huron, OH 44839

Description of Request: $10,000,000 for the initiation of 4 new, more immediate high-impact programs, as well as sustaining ongoing programs. These new industry-led programs will be directed at improvement in total systems cost, fuel savings/energy management, ''green'' (environmental impact), sustainment/life extension, and access to space. The mission of MAI is to innovation to maintain leadership in the strategic aerospace metals industrial sector by using technology innovation to maintain global competitiveness while improving performance and increasing affordablity of weapons systems. MAI's main economic impact will be to maintain leadership in the strategic aerospace metals industrial sector by using technology innovation to maintain global competitiveness. This industrial sector continues to be under pressure by foreign manufacturers, and investing in technology will help sustain jobs. I certify that neither I nor my spouse has any financial interest in this project.

EARMARK DECLARATION

HON. SPENCER BACHUS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BACHUS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding funding that I requested as part of H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman SPENCER BACHUS

Bill Number: H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: National Park Service, Save America's Treasures

Legal Name of Requesting Entity: University of Montevallo

Address of Requesting Entity: UM Station 6130, Montevallo, AL 35115

Description of Request: Provide $150,000 to fund interior and exterior renovation and an upgrade to existing safety codes. The Main Hall renovation project will provide students with safe, comfortable, and accessible housing in a building listed on the National Historic Registry. The projects will provide an enhanced environment for living and learning. This project's budget is $2.5 million. Within the budget is $150,000 for stone and masonry work, $300,000 for metal cornice repairs, $250,000 for exterior painting, $1,600,000 for windows, and $200,000 for professional services. This request is consistent with the intended and authorized purpose of the National Park Service, Save America's Treasures account. The University of Montevallo will meet or exceed all statutory requirements for match funding where applicable

HONORING THE 100TH ANNIVERSARY OF JOHNSON MATTHEY INC.

HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. GERLACH. Madam Speaker, I rise today to honor an outstanding southeastern Pennsylvania manufacturer celebrating its 100th anniversary.

Johnson Matthey Inc. was officially incorporated on June 30, 1909 and has grown from a platinum works shop in Philadelphia to a thriving business that employs approximately 8,700 workers at operations in more than 30 countries. The company's North America headquarters is in Wayne, Pennsylvania and several plants operate throughout the Commonwealth of Pennsylvania.

Johnson Matthey focuses on catalysis, precious metals, fine chemicals and process technology. While the company's roots extend back to the 19th Century, Johnson Matthey has continued to develop its technology, demonstrating the company's ability to maintain world leadership by adapting constantly to rapidly changing customer needs. While adhering to rigorous environmental standards itself, Johnson Matthey products have contributed greatly to a cleaner environment and have enhanced the quality of life for millions of people around the world.

Throughout the week of June 30, 2009, Johnson Matthey management, employees, affiliate companies, parent company, and communities will commemorate the company's centennial.

Madam Speaker, I ask that my colleagues join me today in congratulating everyone at Johnson Matthey for reaching this memorable milestone and in wishing the company continued success in creating jobs and improving the quality of life across the globe.

EARMARK DECLARATION

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BONNER. Madam Speaker, I submit the following information:

Project Name: Washington County Commission Sewer Extension

Requesting Member: Congressman JO BONNER

Bill Number: H.R. 2996

Account: STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: Washington County Commission

Address of Requesting Entity: 45 Court Street, P.O. Box 146, Chatom, Alabama 36518

Description of Request: Provide an earmark of $500,000 for Phase II of an ongoing project for unincorporated areas of Washington County not currently served by sanitary sewers. The soils in some areas of the county are generally conducive to percolation and some areas are on soils that have higher water tables that absorb water very slowly. Approximately, $500,000 [or 100%] of funding will be used for construction, labor and materials of a low pressure, decentralized sanitary sewer collection and treatment facility. The county is currently working on phase I of this project and phase II would construct a 30,000 GPD on-site treatment and disposal facility, collection mains, interceptor tanks and pumps to provide homes and businesses with sanitary sewer. Washington County, the most economically challenged county in the state of Alabama, is home to a new steel plant that is providing 25,000 new construction jobs and 2,000 fulltime jobs. This much needed project will allow the county to continue to grow and recruit even more industry. The Washington County Commission will provide dollar for dollar match for this project.

CARNEGIE MEDAL

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CARTER. Madam Speaker, I would like to congratulate the family of Courtney E. Butler from Stephenville, who was presented with the Carnegie Medal for heroism for their daughter's bravery in attempting to save a civilian caught in a flood on a low water crossing. Miss Butler was only sixteen when she made her valiant attempt in May of last year, and was swept up and drowned in the process. It is citizens like this young girl who make me proud to serve the great people of Texas District 31 and continually inspire me, as they should everyone else who learned of her valor.

EARMARK DECLARATION

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. MICA. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received in the amount of $500,000 as part of the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010, Environmental Protection Agency, STAG Water and Wastewater Infrastructure Account for the South Seminole and North Orange County Wastewater Improvement Project. The entity to receive funding for this project is the Orange County Wastewater Transmission Authority located at 410 Lake Howell Road, Maitland, Florida.

This project will replace wastewater pipes and mechanical equipment that are approaching the end of their service lives. Portions of the Force Main that will be replaced are under the travel lanes of Aloma Avenue. The roadway carries 33,000 vehicles per day and a collapse of the Aloma Avenue pipe and a resulting collapse of the road would be a major public health and safety liability.

EARMARK DECLARATION

HON. ZACH WAMP

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. WAMP. Madam Speaker, as a leader on earmark reform, I am committed to protecting taxpayers' money and providing greater transparency and a fully accountable process. H.R. 2996, The Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations Act contains the following funding that I requested:

Requesting Member: Rep. ZACH WAMP

Account: National Park Service—Construction

Legal Name Entity Receiving Funding: Moccasin Bend National Archeological District

Address: Moccasin Bend Road, Chattanooga, Tennessee 37405

Description of Request: Moccasin Bend National Archeological District, a unit of the Chickamauga and Chattanooga National Military Park, has a rich and varied cultural history with evidence of occupation dating back to the earliest human cultures in North America. Moccasin Bend was designated as a unit of the National Park Service to preserve the area's rich heritage for future generations. There are no facilities for public enjoyment of these nationally significant resources. Moccasin Bend National Archeological District received $500,000 for design and construction of an Interpretive Center and educational exhibits to promote awareness of the archeological district.

Distribution of funding:

Design development and construction 100%

Requesting Member: Rep. ZACH WAMP

Account: Environmental Protection Agency-State and Tribal Assistance Grant

Legal Name Requesting Entity: City of Harrogate, Tennessee

Address: 138 Harrogate Crossing, Harrogate, Tennessee 37752

Description of Request: The Mayor and City Council of Harrogate requested funding to extend a wastewater collection system to the Tri-State Health and Rehabilitation Center, residences and businesses. Upgraded sewer capabilities are critical to support the increasing residential and commercial development in Harrogate. The proposed expansion will allow residents in the area to have safe, adequate wastewater service. The City of Harrogate received $500,000 for the wastewater improvements.

Distribution of funding:
Construction—83%
Survey/Fees—1%
Engineering—6%
Inspection—3%
Project Contingency—4%
Environment Review—1%
Administration—2%

CELEBRATING THE CITY OF ERBENDORF, GERMANY'S 900TH BIRTHDAY

HON. MICHAEL E. McMAHON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. McMAHON. Madam Speaker, I rise today to commemorate and honor the city of Erbendorf in the Oberpfalz region in the State of Bavaria in Germany as it celebrates its 900th Birthday.

Nine hundred years ago, this village was first mentioned as ''Herbendorf' in the Establishment and Protection letters of Pope Paschalis II as he wrote to the monastery Weissenohe in Oberfranken. Although it appears that location is today what is known as Altenstadt, it is clear that the city we know today has enjoyed an existence for more than 900 years. And since history does not stand still, we are sure that someday an even earlier mention of this city will be found.

In its more than 900 year history, the city of Erbendorf has certainly changed and developed. Through the middle ages and modern times it has been beset by war, hunger, pestilence, and siege. However, this has given the city its inner strength and it has now grown into a beloved city with a wonderful quality of life, enviable infrastructure, and a strong economy.

Certainly some of its most prominent citizens include Buergermeister Hans Donko, Axel Baron von Stromberg, and Hilde and Fritz Kohr, who recently celebrated their 50th Wedding Anniversary and continue to operate one of the city's most beloved businesses, Konditorei Kohr. In addition the city was the birthplace of two of its most favorite daughters, Maria Schrebs Trottmann, who emigrated to Neustadt/Waldnaab, and my mother Meta Baronin von Stromberg McMahon, who emigrated to the United States where she had seven children who to this day consider themselves part of the Erbendorf family. For many years, her brother Doctor Nils Baron von Stromberg and his wife Charlotte served the city as family doctors.

Madam Speaker, the city of Erbendorf has had a front row seat to the turbulent course of European history. For nearly a millennium, her citizens have borne witness to the countless events—from the epic to the mundane which unfolded to shape the Europe and the world of today. I am proud to be a son of the city of Erbendorf and offer my congratulations on its 900th anniversary.

EARMARK DECLARATION

HON. HAROLD ROGERS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. ROGERS of Kentucky. Madam Speaker, I submit the following:

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 2647

Account: MILCON, Army National Guard

Legal Name of Requesting Entity: Kentucky Department of Military Affairs

Address of Requesting Entity: Boone National Guard Center, 100 Minuteman Parkway, Frankfort, Kentucky 40601

Description of Request: Provide directed funding of $1.805 million to complete construction of the Phase IV Aviation Operation Facility—London Joint Readiness Center located in Laurel County, Kentucky. The funding will be used for the construction of two additional (11,400 Sf) unheated aircraft storage buildings at the facility. The project is required to fully house the Joint Support Operations equipment and personnel in one facility located in the vicinity of operations. At the conclusion of this project, the unit will be able to respond quicker and in a much more efficient manner which will allow a greater return on investment funds spent on the operation.

TEMPLE TEACHER

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CARTER. Madam Speaker, congratulations to Temple High School German teacher Nella Spurlin who was recently honored as Regional Teacher of the Year by the Southwest Conference on Language Teaching. The hard work and passion that she was committed to distinguished her from educators of the nine other states in the region.

On behalf of Texas District 31, I would like to wish Ms. Spurlin the best of luck when she competes against other regional winners for the American Council on the Teaching of Foreign Language National Teacher of the Year award in November.

EARMARK DECLARATION

HON. C.W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. YOUNG of Florida. Madam Speaker, pursuant to the House Republican Standards on Congressional appropriations initiatives, I am submitting the following information regarding a project that was included at my request in H.R. 2647, The National Defense Authorization Act of Fiscal Year 2010:

Consolidate Communications Facility

Account: Military Construction, U.S. Air Force

Legal name and address of requesting entity: MacDill Air Force Base, Tampa, Florida.

Description of request: $21,000,000 for a Consolidated Communication Facility (Project Number NVZR033702). MacDill Air Force Base, Tampa, Florida does not have an adequate Consolidated Communication Facility for the Joint Components of USSOCOM and USCENTCOM forces. This Consolidated Communication Facility would provide for all communication circuits (both digital and analog) entering and exiting MacDill AFB. The Department of Defense Unified Facilities Criteria Anti-Terrorism and Force Protection guidance requires that essential communication equipment be located in a secure environment. Base Network Control Center functions currently located in Bldg 260 will be relocated to the new secure facility.

PERSONAL EXPLANATION

HON. MICHAEL E. CAPUANO

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CAPUANO. Madam Speaker, on June 24, 2009, due to a medical situation involving a member of my immediate family, I had to return to my district and was unable to participate in rollcall votes 435 through 452. Had I been present, I would have voted in the following manner:

''yes'' on rollcall 435; ''yes'' on rollcall 436;
''no'' on rollcall 437; ''yes'' on rollcall 438;
''no'' on rollcall 439; ''no'' on rollcall 440;
''no'' on rollcall 441; ''yes'' on rollcall 442;
''no'' on rollcall 443; ''no'' on rollcall 444;
''no'' on rollcall 445; ''no'' on rollcall 446;
''no'' on rollcall 447; ''no'' on rollcall 448;
''no'' on rollcall 449; ''yes'' on rollcall 450;
''yes'' on rollcall 451; ''yes'' on rollcall 452.

EARMARK DECLARATION

HON. BRIAN P. BILBRAY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BILBRAY. Madam Speaker, I submit the following:

Bill Number: H.R. 2647—National Defense Authorization Act for Fiscal Year 2010

Account: OPAF, Line 12

Legal Name of Requesting Entity: California National Guard

Address of Requesting Entity: 9800 Goethe Road, Box 42, Sacramento, CA 95826

Description of Request: I received an earmark of $4 million to upgrade the Eagle Vision III system which is operated by the 147th Combat Communications Squadron, in San Diego, California. In October of 2007, San Diego suffered through one of the worst wildfire disasters in California history. With thousands of homes lost and hundreds of thousands of lives changed, the California National Guard requested upgrades to Eagle Vision, the San Diego based system that has already proven itself as an asset for the Federal Emergency Management Agency, CAL Fires/OES, and the Army Strategic Command. The Eagle Vision III system directly and indirectly supported the 2008 Midwest Flooding, Hurricanes Fay, Gustav, and Ike and has participated in numerous military exercises. To augment the current system, this request seeks to provide resources for an increased imaging system that will provide higher resolution images, with more frequent access to images for first responders, while at the same time allowing for image data collection through clouds, haze and smoke. These capabilities are essential for the military and will be critical to the San Diego region for combating natural disasters such as wildfires, floods and hurricanes.

MARY HARDIN-BAYLOR CHANCELLOR

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CARTER. Madam Speaker, I would like to congratulate Dr. Jerry G. Bawcom, President at the University of Mary Hardin-Baylor, in Belton Texas, as Dr. Bawcom transitions into the office of the Chancellor. As the 21st President of UMHB, he has served as President for 18 years and will become Chancellor on June 1, 2009. I would like to thank Dr. Bawcom for his leadership and service as well as congratulate him and wish him well in his new position as Chancellor.

EARMARK DECLARATION

HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BURGESS. Madam Speaker, pursuant to the U.S. House of Representatives Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010:

The City of Gainesville Water Treatment Plant Expansion Project, Gainesville, TX—$500,000—STAG Water and Wastewater Infrastructure Project—Congressman MICHAEL C. BURGESS

The purpose of this project is to expand the water supply and distribution system to convey treated water to the City of Valley View, Bolivar Water Supply and other water users in Cooke County, Texas. The requested funding will be utilized for raw water pump station improvements, a treatment unit and backwash pump station, high service pump station expansion, and other appurtenances as necessary for the water treatment plant upgrade. Federal funding is necessary to allow the city to meet its obligation to provide a stable drinking water supply for residents of Gainesville and surrounding communities and to reduce the region's reliance on limited groundwater sources. The total project cost is $2,533,007. Matching funds will be provided through in-kind services and through city and state funds.

The City of Gainesville is located at 200 South Rusk, Gainesville, TX 76240.

THANKING LILLIAN BETHEA FOR HER SERVICE TO THE HOUSE

HON. ROBERT A. BRADY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BRADY of Pennsylvania. Madam Speaker, on the occasion of her retirement on December 31, 2008, we rise to thank Mrs. Lillian Bethea for twelve years of distinguished service to the United States House of Representatives and 36 years of service in the United States Government. Lillian has served this great institution as a valuable employee of House Information Resources, in the Office of the Chief Administrative Officer.

Lillian began her tenure with the United States House of Representatives in 1996 as a Systems Analyst working in the Member Information Network (MIN) Group and later for the Quality Assurance Team. Lillian specialized in the support and maintenance of in-House applications including but not limited to Federal Funds Reports, Grants and Contracts and Bulletin Board services. She became a Federal Funds Trainer based on her extensive knowledge and attention to detail on the project. Lillian has played an important role in many information technology projects including Quality Assurance and Integrated Services and Information Systems (ISIS) testing. During the Y2K remediation efforts, she played an instrumental role in quality assurance and data testing of systems resulting in the successful transfer of services from the mainframe to their new platforms.

Since 2004, Lillian has been a Team Leader for the Web Solutions Call Center. Her attention to detail and quality assurance experience were again highlighted as she managed the customer request tracking system, team assignments, and day to day customer requests for the Web Group. Her duties included managing customer requests for web services using the Customer Tracking System (CTS) and coordinating with external teams to process Secure ID Web Manager requests, establishing Listserv lists, and providing permissions and access to Web Site Statistic services. Again, her detail orientation and quality work ethic assured the security of the House Web infrastructure through oversight and management of the necessary processes involved. Lillian also played a vital role in the preparation of materials and coordination of efforts for the House Services Fair, ensuring the Web Solutions Branch was properly represented during the event.

On behalf of the entire House community, we extend congratulations to Lillian for many years of dedication and outstanding contributions to the United States House of Representatives. We wish Lillian many wonderful years in fulfilling her retirement dreams.

WILLIAMSON COUNTY JOP

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CARTER. Madam Speaker, I would like to congratulate The Honorable Judy Schier Hoobs, Justice of the Peace for Williamson County, Precinct 4, who was awarded "Judge of the Year" by the Central Texas Justices of the Peace and Constables Association (CTJPCA) on April 15, 2009. When the group held their first meeting in 1986, Judge Hobbs was elected as the first vice president and was later elected as president in 1987. A lifetime member of the CTJPCA, Judge Hobbs was chaplain in 2008 and chair of the Legislative Committee. I am truly proud to have Judge Hobbs serve in Texas District 31.

IN HONOR OF SENATOR THURMAN G. ADAMS, JR.

HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CASTLE. Madam Speaker, it is with a heavy heart but great honor that I rise today to pay tribute to the life of the Honorable Thurman G. Adams, Jr. A member of Delaware's State Senate for the past 37 years and owner of T.G. Adams & Sons Inc., Senator Adams is a man who has given much to his community and his state; a man who is to be recognized for all that he has done and a man who will truly be missed by me and Delawareans throughout our state.

Since his initial election in 1972, Senator Adams worked diligently as a representative of his constituents and as an advocate for progress, molding Delaware into the business-friendly, agriculturally rich state that it is today. The longest serving State Senator in Delaware history, Thurman served in this capacity under eight Governors and was elected as the Senate Majority Leader in 1999 and as the President Pro Tempore in 2002. Regarding Thurman's dedication to our State and his strength of character, I cannot say enough. For nearly four decades now, there is hardly a bill that has come to pass in Delaware upon which Thurman's influence has not been felt. One of the most notable pieces of legislation that he sponsored and fought for was an enhanced 9–1–1 bill. Passed and currently in place, the bill created a system that automatically gives the address from which a 9–1–1 call originates—

enabling a quicker, more accurate response time. A member of the Senate Executive Committee since his first term and later appointed as chairman, Thurman played a huge role in determining who served in the judiciary, cabinet and various other influential state posts. The strong, positive force which he brought to the legislature every day has helped to strengthen and solidify Delaware's courts and government for many decades.

In his capacity as a legislator and as a citizen, Thurman spent his life in service to the State of Delaware. Senator Adams graduated from the University of Delaware in 1950 with a B.S in agricultural education and went on to succeed his father as the President of T.G. Adams & Sons Inc., a feed and grain business in his hometown of Bridgeville. With a solid base in agriculture and the business world, Thurman was appointed to the State Highway Commission in 1961 and appointed as the chairman of the Governor's Safety Committee in 1966. Over the years, Senator Adams was recognized for many accomplishments. In 1996, he received the University of Delaware's ''Medal of Distinction,'' an honor acknowledging his outstanding professional achievements. He and his wife Hilda also became very active in trying to make the process to receive organ transplants easier for individuals and their families after their own personal experience with their son Brent. In 2008, he was both inducted into the National 4–H Hall of Fame and awarded the ''Order of the First State,'' the highest award our Governor can present in recognition of his many years of service.

Senator Adams spent his life as an advocate for his Bridgeville district, for the county of Sussex, and for the State of Delaware. A believer in personal, deep-rooted relationships, Thurman was a respected and compassionate legislator and his passing will leave a void in Delaware's General Assembly and our state. During my time as a State Senator and in my role as Lt. Governor and Governor, I had the privilege of working with Senator Adams on many key legislative issues. Thurman is someone with whom I worked closely and confided in frequently and I feel confident in recognizing him for who he was—a man who was incredibly fair, a strong, trusted and great leader with devotion unequaled, and a sterling reputation for helping others.

Foremost in Thurman's life was his family. Thurman was a loving husband to his wife Hilda, a father who could bestow life's lessons as well as heartfelt love to his three children, Brent, Lynn, and Polly, a grandfather who adored his grandchildren, and a brother to Leon, Beatrice and his deceased brother Alvin. His family and grandchildren warmed his heart and he took great pride in watching them grow and mature over the years. While we will all miss him dearly, I take comfort in knowing that he, Hilda, and Brent have been reunited and I am sure are watching over all of us now.

He gave his time, his energy, and his heart in pursuit of comprehensive and useful measures, established and implemented for the benefit of his fellow Delawareans. Steadfast in his beliefs, Thurman once said, ''I hope that every bill will make life better.'' I stand today to acknowledge and honor that he was a man dedicated to just that. Godspeed to my good friend, Senator Thurman G. Adams, Jr. and thank you for your guidance, support and friendship over the years.

EARMARK DECLARATION

HON. DENNY REHBERG

OF MONTANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. REHBERG. Madam Speaker, I submit the following:

Requesting Member: Rep. DENNY REHBERG
Bill Number: H.R. 2996
Account: STAG Water and Wastewater Infrastructure Project
Name and Address: Em-Kayan County Water and Sewer District, 910 Greers Ferry Road, Libby, Montana 59923.
Description: The Em-Kayan community water system consists of three springs, two wells, five steel storage tanks and a water distribution system inclusive of fire hydrants. The original water system was constructed in the 1960s. Funding would be used to replace badly corroded steel water main with PVC water main, install additional fire hydrants to meet fire flow requirements, install water meters to better account for the District's water resource and install a control system.

Requesting Member: Rep. DENNY REHBERG
Bill Number: H.R. 2996
Account: National Park Service—Save America's Treasures
Name and Address: City of Bozeman, 121 North Rouse Avenue, Bozeman, Montana 59771
Description: Historic Downtown Bozeman suffered a devastating loss due to a natural gas pipeline explosion in March, 2009. The explosion and subsequent fire destroyed four historic building, and significantly damaged three others. All building are in the Bozeman Main Street Historic District, which is on the National Register of Historic Places. The destroyed buildings covered 150 linear feet of historic streetscape.

Requesting Member: Rep. DENNY REHBERG
Bill Number: H.R. 2996
Account: BLM—Land Acquisition
Name and Address: The Conservation Fund, 125 Bank Street, Suite #612, Missoula, Montana 59802.
Description: Funding would be used for the BLM to purchase Phase II of this project. Located in Carbon County, near Red Lodge, the wind-blasted stone pinnacles of the Meeteetse Spires reach hundreds of feet into the sky and provide a unique backdrop to a scenic hanging valley as part of the Meeteetse Spires Area of Critical Environmental Concern (ACEC). In partnership with the BLM, The Conservation Fund has reached an agreement to acquire a 560-acre private inholding from a willing seller within the ACEC with the goal of conveying the property to the BLM through an appropriation.

Requesting Member: Rep. DENNY REHBERG
Bill Number: H.R. 2996
Account: U.S. Forest Service—Land Acquisition
Name and Address: The Nature Conservancy, 32 S. Ewing, Helena, Montana 59601.
Description: This funding would be used for the U.S. Forest Service to acquire lands critical for protecting the existing federal investment in the Blackfoot Community—Nora Gulch—project area, including wildlife habitat for grizzly bears, elk, and threatened trout species.

Requesting Member: Rep. DENNY REHBERG
Bill Number: H.R. 2996
Account: EPA—Science and Technology
Name and Address: Consortium for Plant Biotechnology Research Inc., 100 Sylvan Drive, Suite #210, St. Simons Island, Georgia 31522.
Description: Partnering with Montana State University, this funding would be used to fund university research and technology transfer for phytoremediation and environmentally friendly industries. Working with The Consortium for Plant Biotechnology Research, Inc., it will develop new and improved technologies that range from ''green'' chemicals and industrial manufacturing processes to environmental remediation.

Requesting Member: Rep. DENNY REHBERG
Bill Number: H.R. 2996
Account: EPA—Science and Technology
Name and Address: The Water Research Foundation, 6666 Quincy Street, Denver, Colorado 80235.
Description: Partnering with the Mountain Water Company of Missoula, Montana, this funding would be used to sponsor individual research projects that enable utilities to provide safe, affordable and sustainable water to their customers.These projects will help water utilities address challenges such as climate change impacts on water supply, pharmaceutical contaminants in drinking water, aging infrastructure, and protection of watersheds.

Requesting Member: Rep. DENNY REHBERG
Bill Number: H.R. 2996
Account: U.S. Fish and Wildlife Service—Land Acquisition
Name and Address: The Nature Conservancy, 32 S. Ewing, Helena, Montana 59601.
Description: This funding will be used for the U.S. Fish and Wildlife Service to acquire conservation easements along the Montana's Rocky Mountain Front.

Requesting Member: Rep. DENNY REHBERG
Bill Number: H.R. 2996
Account: BLM—Land Acquisition
Name and Address: The Nature Conservancy, 32 S. Ewing, Helena, Montana 59601.
Description: This funding will be used for acquiring lands for the Bureau of Land Management to protect the existing federal investment in the project area, including wildlife habitat for grizzly bears, elk, and threatened trout species near the Blackfoot River.

Requesting Member: Rep. DENNY REHBERG
Bill Number: H.R. 2996
Account: U.S. Forest Service—Land Acquisition
Name and Address: The Trust for Public Land, 111 South Grand Avenue, Suite #203, Bozeman, Montana 59715.
Description: This funding will be used as an acquisition project for the United States Forest Service to purchase mining claims within the Yellowstone National Park ecosystem. These lands offer natural and recreational resources that will be protected by the United States Forest Service.

RECOGNIZING THE CREW OF THE RB-47H SHOT DOWN OVER INTERNATIONAL WATERS BY THE SOVIET UNION ON JULY 1, 1960

HON. ROBERT J. WITTMAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. WITTMAN. Madam Speaker, I rise today to recognize Major Willard Palm, Captain Freeman B. Olmstead, Captain John McKone, and the crew of the RB-47H shot down over international waters by the Soviet Union on July 1, 1960. This recognition is well-deserved and highlights the unending service and integrity of our men and women in uniform.

The plane was crewed by Major Willard Palm as aircraft commander; Captain Freeman B. Olmstead as pilot; Captain John McKone as navigator.

Freeman B. Olmstead was born in Elmira, New York, and brought up in a devout Episcopal family. He earned a bachelor's degree in history from Kenyon College, Gambier, Ohio. He entered active duty with the Air Force in 1957.

McKone was a native of Tonganoxie, Kansas, and he graduated from Kansas State University with a bachelor's degree in history in 1954. He entered active duty on March 15, 1955.

On July 1, 1960, a United States Air Force RB-47H based at Forbes Air Force Base, Kansas, departed from Brize-Norton Royal Air Force Base in England. The flight's planned route kept the plane over international waters.

A MiG-19 fighter intercepted the American bomber in the Barents Sea. The MiG eventually opened fire on the RB-47H. Olmstead and McKone successfully ejected and survived only to be picked up by a Soviet fishing vessel. The aircraft commander, however, perished in the Barents Sea.

Ten days after the shootdown, Soviet Premier Nikita Khrushchev announced that they had shot down the bomber and captured the two crewmen. The pair were imprisoned in Moscow's Lubyanka prison, and accused by the Soviets of espionage, punishable by death, for allegedly violating the Soviet Sea frontier.

Shortly after the inauguration of President John F. Kennedy, Premier Nikita Khrushchev extended an offer to free Olmstead and McKone quickly—but with three terms later agreed to.

After seven months of imprisonment and interrogation the guards drove Captain Freeman B. Olmstead and Captain John McKone to the American embassy. They were handed over to U.S. officials to be reunited with their families without having disclosed any information to the Soviet government.

Madam Speaker, as a member of the Committee on Armed Services, I am continuously struck by the integrity of our servicemembers. With examples like Captain Freeman B. Olmstead and Captain John McKone it is clear where this integrity comes from and I ask my colleagues to join me in honoring them.

TRIBUTE TO BEN SACCO

HON. KEVIN McCARTHY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. MCCARTHY of California. Madam Speaker, I rise today to honor Bernard ''Ben'' Sacco, a longtime Bakersfield entrepreneur, community leader, and friend who passed away on Tuesday, June 23, 2009, at the age of 87.

Ben Sacco was born in a small town outside Salerno, Italy, and immigrated to the United States in 1935. Sacco moved to California after serving his country in the U.S. Army Air Corps during World War II, and worked in agriculture in Hanford. In 1947, he and Morris Rosenberg founded Sierra Bag Company in Bakersfield to produce containers for local growers.

A devoted recycling advocate, Ben also founded Sierra Iron and Metal Company to recycle salvaged metals in 1959. Eventually, it became Sierra Recycling and Demolition, which cleans up land for redevelopment. On a visit to Italy, Sacco visited a scrap yard near Venice and discovered a unique machine—a mobile baler that could process twice as much scrap metal in a day as its U.S. counterparts. He promptly bought one, and at an age when many are considering retirement, Sacco embarked on a new career equipment vendor. He introduced the combination shear/baler in the United States in 1987, and soon Sierra International Machinery expanded into a major industry. Earlier this year, the Institute of Scrap Recycling Industries honored Ben Sacco with a lifetime achievement award for his dedication to Sierra International Machinery, LLC. Adding to his list of accomplishments, Sacco founded the Italian Heritage Dante organization in 1996.

Ben Sacco is survived by his wife, Eunice Sacco; sons John, Anthony, and Phillip; daughters Angela, Aragon, and Laura; and six grandchildren. Devoted to serving his community in a variety of ways, Ben's death is a great loss for the Bakersfield community, but his legacy of dedication to his family, friends, and businesses will always be remembered.

FEDERAL OFFSET PROGRAM

HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. MORAN of Virginia. Madam Speaker, today I am proposing bipartisan legislation to establish a program that would mirror the existing law for states. The legislation, in which I am joined by my colleagues, Representatives WOLF, WITTMAN, and CONNOLLY, would allow certain types of delinquent local tax debt to be collected through the reduction of federal tax refunds. Providing local governments access to these needed and due funds is important both in principle and for budgetary purposes. In the middle of this recession, it is especially important to assist cities and counties to collect the taxes they are owed. The alternatives would be a reduction in vital services and jobs at a time when the government safety net for very poor families who lack jobs has weakened significantly and increases in deep poverty in this recession are likely to be severe. This will impose significantly higher demands on local governments for police, housing and shelter, food, and other vital services. This bill offers a unique opportunity not just to provide hundreds of millions of dollars of desperately needed assistance at no cost to federal taxpayers, but also to protect honest taxpayers from an increase in local property taxes. Under this legislation, the only cost is to the delinquent taxpayer, who would finally be made to pay his or her outstanding tax obligation.

This proposed program would have no additional cost to the federal government. Local governments would pay the federal government the fee of $25 for each offset refund. It would alleviate the administrative burden to Department of the Treasury by requiring the state taxing authority to act as the clearinghouse. Therefore, the client base for the Department of the Treasury would not increase.

This concept of an offset originated as a way to assist states with securing child support arrearages. It was expanded to allow states to submit other delinquent claims against an individual's federal tax return. This program has been very successful for the states. Now this bill would expand its successful idea and concept to local governments in all states. Doing so could potentially result in several billion dollars annually for local governments by effecting the collection of delinquent taxes.

The bill would instruct the Secretary of the Treasury, upon receiving notice from any eligible state on behalf of a local government, that a named person owes such local government a past-due, legally enforceable tax obligation and provide, consequently, for the reduction of the federal tax refunds payable to such person by the amount of such debt. That amount would be remitted to the state for payment to the affected local government, provide for notification to the state of the taxpayer's name, taxpayer identification number, address, and the amount collected; and notification of the person due the refund that it has been reduced by an amount necessary to satisfy a past-due, legally enforceable tax obligation.

This bill offers a unique opportunity to provide hundreds of millions of dollars of desperately needed assistance at little cost to federal taxpayers. For Virginia localities, it is estimated that it will bring in between 65–70 million dollars in revenue during the first year in the program. From its participation in the Federal Offset Program, for FY 2008, the Commonwealth of Virginia received over $17 million dollars in offsets of federal income tax refunds and an additional $5 million in offsets of the tax stimulus checks. This legislation has the official support of the National Association of Counties, the Government Finance Officers Association, the National League of Cities, the Treasurers' Association of Virginia, the United States Conference of Mayors, the Association of Public Treasurers of the United States and Canada, and the Conference of State Court Administrators.

This concept of an offset originated as a way to assist states with securing child support arrearages. It was expanded to allow states to submit other delinquent claims against an individual's federal tax return. This program has been very successful for the states. Now this bill would expand its successful idea and concept to local governments in all states. Doing so could potentially result in several billion dollars annually for local governments by effecting the collection of delinquent taxes. Under this legislation, the following order of priority for payment of an offset would be: (1) past-due federal income tax, (2) past-due state child support, (3) past-due federal government agency debt, (4) past-due state income tax, and (5) local government tax. The state taxing authority for each state would act as the clearinghouse for the local government tax debts, so this will not be an additional burden to Financial Management Services (which is a division of the United States Department of the Treasury administers the Federal Offset Program).

This is a bipartisan, good-government bill. If the legislation is passed, it would allow federal, state, and local governments to work together. Good citizens, who pay their taxes, will appreciate that the federal government and the state government are assisting localities to help local government collect from the delinquents. Each citizen should share in paying his fair share of taxes.

CONGRATULATING TRIXIE JOHNSON ON HER RETIREMENT

HON. JAMES L. OBERSTAR

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. OBERSTAR. Madam Speaker, I rise today to congratulate Ms. Trixie Johnson on her recent retirement and to commemorate her dedicated service to the Southern California and to the nation throughout her distinguished career. Johnson served as the Director of Research for the Mineta Transportation Institute ("MTI") and where she worked for ten years before retiring this past May.

MTI was established by Congress in 1991 as part of the Intermodal Surface Transportation Efficiency Act and is located at San Jose State University (SJSU). This institution conducts research, education, and information and technology transfers specializing in transportation policy and management.

Ms. Johnson led a research program at MTI that brought together faculty and student researchers from SJSU, along with other academic institutions around the country, and the private sector to advance the body of knowledge in transportation policy and management from an intermodal perspective. In addition to publishing innovative reports and research findings, Ms. Johnson was deeply committed to recruiting, engaging, and training the nation's next generation of transportation planners and leaders.

Before joining the Mineta Transportation Institute in July 1999, Trixie Johnson served the full limit of two terms on the San Jose City Council—from 1991 through 1998. Due to Ms. Johnson's extensive experience, she has been recognized as a land use and environmental specialist by her peers. Her council service included two years as Vice Mayor and several years as chairperson of the city's Transportation, Development and Environment Committee.

Ms. Johnson has a long record of public service that included serving as chair of the Environmental Quality Committee and member of the Board of Directors for the League of California Cities; vice-chair of the Energy, Environment and Natural Resources Committee of the National League of Cities; and member of the Bay Area Air Quality Management District Board.

While her passionate work on transportation issues throughout her career will surely be missed, the many students and colleagues she has inspired will carry on her work as the nation seeks solutions to the transportation challenges of the 21st century.

Therefore, Madam Speaker, I would like to congratulate Trixie Johnson on her retirement, and wish her and her family the best of luck in this next chapter of their lives.

EARMARK DECLARATION

HON. TODD RUSSELL PLATTS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. PLATTS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of Interior, Environment and Related Agencies Appropriations Act.

Requesting Member: Congressman TODD RUSSELL PLATTS (PA–19)

Bill Number: H.R. 2996—Department of the Interior, Environment and Related Agencies Appropriations Act

Account: STAG

Legal Name of Requesting Entity: York City Sewer Authority

Address of Requesting Entity: 1701 Blackbridge Road, York, PA 17402

Description of Request/Justification of Federal Funding: The York City Sewer Authority is a public, municipal authority providing wastewater services for residential, commercial, and industrial users in an eight municipality service area. The York City Sewer Authority would use this funding to construct a new headworks facility, which includes the replacement of the building's heating and ventilation system and replacement of the activated carbon bed in the building's odor control system. This is a good use of taxpayer funds because the combined improvements provide the most cost effective solution for updating infrastructure for the authority's residents and businesses.

EARMARK DECLARATION

HON. BILL POSEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. POSEY. Madam Speaker, pursuant to the Republican Leadership standards on earmarks as well as in accordance with Clause 9 of Rule XXI, I am submitting the following information regarding earmarks I received as part of H.R. 2647, the National Defense Authorization Act of Fiscal Year 2010.

Requesting Member: Congressman BILL POSEY

Bill Number: H.R. 2647

Account: Research, Development, Test & Evaluation, Defensewide

Legal Name of Requesting Entity: Soneticom

Address of Requesting Entity: 1045 South John Rodes Boulevard, West Melbourne, Florida 32904

Description of Request: This technology is important to helping our military and would be used for enhancement of a currently installed system for continued operations. $3 million is provided for this program.

EARMARK DECLARATION

HON. DANIEL E. LUNGREN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. DANIEL E. LUNGREN of California. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I rise today to submit the following information regarding an earmark I received as part of the Interior-Environment Appropriation.

The following earmark was requested by my office and is listed for funding in this bill:

City of Galt Wastewater Treatment Plant

Requesting Member: DANIEL E. LUNGREN

Bill Number: HR 2996

Account: EPA/STAG Water and Wastewater Infrastructure Project

Requesting Agency: City of Galt

Agency Address: 495 Industrial Drive, Galt, CA 95632

Amount: $500,000

Description: The City of Galt is being forced to upgrade their existing wastewater treatment facility as a result of increased Federal water quality mandates. The new wastewater treatment facility will put Galt in to compliance with the National Pollutant Discharge Elimination System (NPDES). NPDES is the Federal system for the issuance of permits under Section 402 of the Federal Water Pollution Control Act Amendments of 1972, and many of the stringent NPDES permit requirements are based on National Toxics Rule (NTR). The NTR is an Environmental Protection Agency regulation that established numeric water quality criteria for priority inorganic pollutants for fourteen States and jurisdictions, including California, into compliance with Section 303 (c)(2)(b) of the Clean Water Act.

Federal mandates dictate an increased number of contaminants for which the City must treat wastewater. The existing WWTP was not designed to meet most of the new standards, and therefore must be upgraded. The City is subject to mandatory Environmental Protection Agency (EPA) fines until such time as the project is completed. This project will enable the City of Galt to come into compliance with these Federal mandates.

This project represents an appropriate use of taxpayer funds as it responds to EPA mandates to improve wastewater treatment, to provide mitigation against a wider array of water

contaminants, in a community acutely impacted by the capital demands of such undertaking.

INTRODUCING LEGISLATION PROVIDING STRONG LAND PROTECTION INCENTIVES

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BLUMENAUER. Madam Speaker, more than 2 million farms make up America's rural landscape. Ninety-eight percent of these farms are owned by individuals, family partnerships, and family corporations, producing about 86 percent of U.S. agricultural products sold.

The most significant asset held by many of these farmers is their land. In some cases, when the owner of the farm dies, surviving family members must sell portions of the farm to cover their estate tax costs. Today I am introducing legislation to help ensure that families are not forced to sell the farm and that their land resources are available for agricultural and conservation use by future generations.

In 1997, in order to encourage the conservation of sensitive lands and farms, Congress enacted an estate tax exclusion for land placed under a conservation easement. 26 USC 2031(c). That law caps the exclusion at $500,000. Given the significant rise in land values over the past decade, especially for agricultural regions near urbanizing areas, that cap is now too low to provide a meaningful incentive to many farmers.

My legislation updates and increases the exclusion to $5 million. By increasing the current cap on the property value that can be excluded from an estate when the land is protected by a conservation easement from $500,000 to $5,000,000 (and by raising the exclusion percentage from 40 percent to 50 percent, this bill will encourage significant additional protection of farmland across our country.

The voluntary placement of a conservation easement on private land is a very effective and successful tool for protecting and conserving our nation's open spaces and sensitive lands. As the American Farmland Trust has written, "We strongly believe that the proper incentives are the most effective way of encouraging landowners to conserve land." This legislation provides strong land protection incentives and will result in the preservation of America's vital farm and ranchlands.

HONORING MR. JOHN GAMBLE

HON. JOHN T. SALAZAR

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. SALAZAR. Madam Speaker, I rise today to pay tribute to a respected leader of Southwest Colorado, Mr. John Gamble of Durango. Mr. Gamble has served the community of Southwest Colorado with distinction for 24 years and is announcing his retirement this month.

In 1985, Mr. Gamble took over the new Southwest Colorado Volunteers of America in Durango, Colorado. Under his strong and steady leadership, the agency grew to provide many critical services to the community. At the beginning of his tenure, Mr. Gamble helped to open a domestic violence shelter to provide a safe haven for those in need. And, in the early 1990s, he led the effort to open a much needed homeless shelter. To fund all of these critical services, Mr. Gamble opened a very successful thrift store and led many colorful and profitable fundraising events. In his spare time, Mr. Gamble served on the Durango City Council, including a term as the mayor of that proud city.

Madam Speaker, I commend Mr. John Gamble for his outstanding service and dedication to the residents of Southwest Colorado. Mr. Gamble clearly has a heart for service and the skills to get the job done. His community is a better place due to his efforts. While we will all miss Mr. Gamble's service and leadership, I ask that you join me in wishing him well upon his retirement.

EARMARK DECLARATION

HON. DAVID G. REICHERT

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. REICHERT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations Act.

(1) $333,000 for the City of Buckley, WA for an emergency intertie booster station.

Requesting Entity: City of Buckley, PO Box 1960, 933 Main Street, Buckley, WA 98321

Agency: Environmental Protection Agency

Account: STAG

Funding requested by: Rep. DAVE REICHERT

The City of Buckley will construct an emergency intertie booster station to allow the City to use water from the City of Tacoma in an emergency. The City of Tacoma water system in this area operates with a hydraulic grade line of 810 feet. The City of Buckley water system operates with a hydraulic grade line of 882 feet. Therefore the booster station is required to overcome a static head of approximately 72 feet. The City's largest water source is the S. Prairie Creek surface water source. The City's water right for this source is 900 gpm. To allow the system to operate effectively with the S. Prairie Creek source out of service, the booster station will have a capacity of 900 gpm. The booster station will be constructed in right-of-way in a location close to existing City of Buckley and City of Tacoma water infrastructure.

Finance Plan:

City of Buckley, Budget Details: This request is for federal funding in the amount of $550,000 to construct an emergency water intertie and booster station between the City of Tacoma's transmission main and the City of Buckley's water system. As illustrated below in the engineering cost estimate, approximately, $121,000 is for administration & engineering; and $485,000 for construction. The City of Buckley is currently working on a major flood damaged repair to our primary transmission water main, but will be able to allocate $57,000 as a match towards this project.

PRELIMINARY COST ESTIMATE

[Tacoma Emergency Intertie Booster Station]

	Item	Quantity	Unit price	Amount
1.	Mobilization/Demobilization	Lump sum	$34,000	$34,000
2	Site Work	Lump sum	15,000	15,000
3	Erosion Control	Lump sum	2,500	2,500
4	Locate Existing Utilities	Lump sum	2,000	2,000
5	Intertie	Lump sum	25,000	25,000
6	Booster Pumps (2 x 450 gpm)	Lump sum	32,000	32,000
7	Booster Station Building (12′ x 16′)	Lump sum	52,000	52,000
8	Piping, Valves, and Appurtenances	Lump sum	80,000	80,000
9	Site Fencing	200 LF	28	5,600
10	Surface Restoration	Lump sum	5,000	5,000
11	Electrical, Telemetry, and Instrumentation	Lump sum	105,000	105,000
12	Primary Power Service	Lump sum	15,000	15,000
	Subtotal			373,100
	Sales Tax (8.4%)			31,340
	Subtotal			404,440
	Contingency (20%)			81,060
	TOTAL ESTIMATED CONSTRUCTION COST			485,500
	Engineering and Administrative Costs (25%)			121,000
	R.O.W., Easement and/or Land Acquisition			—

PRELIMINARY COST ESTIMATE—Continued

[Tacoma Emergency Intertie Booster Station]

Item	Quantity	Unit price	Amount
TOTAL ESTIMATED PROJECT COST (2008 Dollars)			607,000

2) $2,150,000 for Mt. Rainier National Park for Land Acquisition.

Requesting Entity: U.S. Department of Interior, National Park Service, 1849 C Street, NW, Room 7256, Washington, DC 20240

Agency: Department of Interior

Account: National Park Service

Funding requested by: Rep. DAVE REICHERT, JIM MCDERMOTT

This land acquisition will ensure visitors' access to Mt. Rainier National Park at the northwest entrance. The Carbon River Road has frequently been washed out, preventing visitors from reaching the Ipsut Creek campground and picnic area, as well as day-use parking for access to the Carbon Glacier and Wonderland Trail. To address this problem, and to eliminate the considerable maintenance costs necessitated by the frequent flooding, Congress passed an expansion of the park's northwestern boundary three miles along the Carbon River Valley. The addition of these lands will allow the National Park Service to establish a new campground with associated roads and parking, new hiking trails, and riverfront fishing areas. The expansion will also afford much needed protection to the beautiful Carbon River Valley, conserving habitat for endangered and threatened species. The valley contains one of the last inland old-growth rainforests in the United States, and connects wildlife corridors from the park to Puget Sound. Among the property included within the newly expanded park boundary is the 240-acre Carbon River Gateway. This parcel lies adjacent to Forest Service lands that link current Park Service lands with the privately owned parcels within the expansion area.

Finance Plan: The National Park Service will use these funds to cover the fair market value (FMV) of two properties located within the expanded boundaries of Mt. Rainier National Park in Washington State. The actual amount to be expended will depend on federally approved appraisals of the parcels. $2,500,000 is the best estimate of the cost at this time. Due diligence costs for the Carbon River Gateway property will be borne by the The Trust for Public Land and the acquisition management account of the National Park Service. There is no cost-share requirement for this program. This request is consistent with the authorized purposes of the Land and Water Conservation Act and Public Law 108–312, which authorizes land acquisition in this area of the park.

This office conducted site visits to meet with representatives from both of the projects listed above.

EARMARK DECLARATION

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. ROGERS of Alabama. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996—Interior, Environment, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman MIKE ROGERS (AL)

Bill Number: H.R. 2996

Account: EPA, STAG account, $275,000

Legal Name of Requesting Entity: East Alabama Water Sewer and Fire Protection District

Address of Requesting Entity: P.O. Box 37, Valley, Alabama 36855

Description of Request: ''Wastewater System Planning'' Taxpayer justification—It is my understanding that the funding would be used to map the District's entire sanitary sewer system, analyze specific areas within the existing sanitary sewer system and, identify areas within the system where modifications and upgrades must be performed.

Requesting Member: Congressman MIKE ROGERS (AL)

Bill Number: H.R. 2996

Account: NPS, Save America's Treasures account, $100,000

Legal Name of Requesting Entity: Talladega College, Talladega, AL

Address of Requesting Entity: 627 West Battle Street, Talladega, Alabama 35160

Description of Request: ''Swayne Hall Historic Restoration and Renovation'' Taxpayer justification—It is my understanding that the funding would be used to restore and upgrade Swayne Hall, the original building that housed Talladega College (built in 1852–53).

EARMARK DECLARATION

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. MICA. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996—Department of the Interior, Environment, and Related Agencies Appropriations Act. This legislation appropriates $500,000 in the Department of the Interior, Environment, and Related Agencies Appropriations Bill, for land acquisition for the Florida Trail Association. The entity to receive this funding is the Florida Trail Association, 5415 SW 13th St., Gainesville, FL.

Funding will be used for the acquisition of land to protect 16 critical segments of the Florida National Scenic Trail. Designed by Congress in 1983, the Florida National Scenic Trail is an essential part of maintaining Florida's natural beauty for future generations and serves as an inspirational, educational tool for conservation efforts in the state.

BOULDER, COLORADO'S SESQUICENTENNIAL

HON. JARED POLIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. POLIS. Madam Speaker, I rise today in recognition of the 150th birthday of my home town, Boulder, Colorado.

Boulder is a special place. When I meet people from other parts of the country who have passed through our fair state, the very mention of Boulder always brings a smile to their face. On February 10, 1859, settlers from the Nebraska Territory (the beginnings of a world renowned college football rivalry perhaps) founded the ''Boulder City Town Company.'' From its birth, our city has been a shining example of what is possible with a civic minded populace.

From our humble beginning as a supply town for miners, to the national leader in smart growth and environmental stewardship we are today, Boulder has always been dedicated to the careful balance of entrepreneurship and wise land use.

The beauty of our natural surroundings has caused generations of Boulderites to value our town and to embrace a life of grace rather than greed. Over the years, Boulder residents have taken extraordinary measures to mesh the human environment seamlessly with our natural environment. Through a citizen initiative, we brought Frederick Law Olmstead to Boulder at the beginning of the 20th century to craft a vision plan for our city designed to highlight our natural treasures such as Boulder Creek and the Flatirons. In 1959, our residents took action to create the ''blue-line'' to preserve the mountain backdrop, and made Boulder the first city in the nation to impose a tax for land conservation. We purchased the Arapahoe Glacier to ensure a source of drinking water for our residents and agricultural uses. Boulder was also the first community to adopt a ''carbon tax'' to deal with the crisis of climate change. Today, our open space program has made Boulder the envy of many an over-crowded community and is now a model duplicated state and nationwide.

Boulder's commitment to the environment is equaled by its commitment to the community and especially to education. The Colorado Territory's first class of high school seniors graduated in Boulder. When Colorado became a state in 1874, Boulder citizens pooled their resources and raised $15,000, a fortune in those days, to build the state's first public university. The vibrant culture surrounding this top tier institution of higher learning—full of philosophical debate, football, and foreign exchange—has created the colorful lifestyle that makes our town unique.

Our highly skilled workforce has attracted world class employers, such as IBM, Ball Aerospace, and Roche Pharmaceuticals Boulder, as well as some of the nation's premier

research institutes, such as the National Oceanic and Atmospheric Agency (NOAA), the National Institute of Standards and Technology, and the National Center for Atmospheric Research (NCAR).

The heart of Boulder is our award winning Downtown. Boulder's small businesses are the life blood of our community and give Boulder the special sense of place that is loved by residents and visitors alike. For more than 50 years, Boulder residents have relied on the Boulderado, McGuckins Hardware, and The Sink. The Pearl Street Mall and our Downtown, both easily accessible by pedestrians, drivers and bicyclists, are national models of smart urban development. The eclectic mix of housing, independent retailers and commercial enterprises give Boulder an economic driver that many larger communities envy.

I congratulate my fellow Boulderites on 150 years of progress and prosperity, and look forward with great anticipation of what the future holds for our diverse and vibrant community.

Happy Birthday, Boulder.

EARMARK DECLARATION

HON. FRANK A. LoBIONDO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. LoBIONDO. Madam Speaker, as per the requirements of the Republican Conference Rules on earmarks, I secured the following earmarks in H.R. 2996:

Requesting Member: Congressman FRANK LoBIONDO (NJ–02) (along with Reps. ADLER, SIRES and ROTHMAN)

Bill Number: HR 2996

Account: Fish and Wildlife Service, Land Acquisition

Legal Name of Requesting Entity: New Jersey Audubon Society

Address of Requesting Entity: 11 Hardscrabble Road, Bernardsville, NJ 09724.

Description of Request: Provide an earmark of $1,100,000 for a land acquisition project at Edwin B. Forsythe National Wildlife Refuge.

Requesting Member: Congressman FRANK LoBIONDO (NJ–02) (along with Reps. SIRES and ROTHMAN)

Bill Number: HR 2996

Account: Fish and Wildlife Service, Land Acquisition

Legal Name of Requesting Entity: New Jersey Audubon Society

Address of Requesting Entity: 11 Hardscrabble Road, Bernardsville, NJ 09724.

Description of Request: Provide an earmark of $2,000,000 for a land acquisition project at National Wildlife Refuge.

HOMAGE TO MR. GEORGE A. DALLEY

HON. YVETTE D. CLARKE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Ms. CLARKE. Madam Speaker, I rise today extremely humbled and privileged to pay homage to Mr. George A. Dalley, who will retire as Counsel and Chief of Staff to the Honorable CHARLES B. RANGEL of the 15th Congressional District of New York. Chairwoman, anyone who has worked with Mr. Dalley, knows that he is extremely fond of CONGRESSIONAL RECORDS. So it is more than appropriate that I submit my sentiments and testimony about him into the RECORD for posterity.

George A. Dalley is not only a highly-successful leader and an amazing human being, he has been a true supporter and friend to all who have crossed his path. I especially feel blessed to have him serve as my mentor and advisor, who was integral in helping me acclimate and adapt to the rigors of Congress, even before I arrived in D.C. I am also blessed to share with Mr. Dalley a rich Jamaican heritage and common lineage. The pride he exhibits in heritage and his work with the Caribbean American community has truly been an inspiration and motivation for my advocacy on behalf of Caribbean Americans across this nation and their countries of origin.

General Douglas McArthur once said, ''A true leader has the confidence to stand alone, the courage to make tough decisions, and the compassion to listen to the needs of others. He does not set out to be a leader, but becomes one by the quality of his actions and the integrity of his intent.''

Mr. George A. Dalley, your example has been a guide to us here on Capitol Hill and your leadership is an example for generations to come. I wish you all the best in the next stage of your life. Your presence on the Hill will sorely be missed.

THE AMERICAN CLEAN ENERGY AND SECURITY ACT OF 2009

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. RAHALL. Madam Speaker, the Congress would be unwise to sit by and simply allow the Environmental Protection Agency to regulate a reduction in greenhouse gas emissions, as the agency has been mandated to do by the Supreme Court. Similarly, it would be a mistake to sit back and allow other countries to devise international rules that will affect America's economic and energy interests.

I do not agree with those who advocate for sitting on our hands and just saying NO to everything, sight unseen. The international community has no interest in protecting American businesses, and the Environmental Protection Agency is not required by the Supreme Court to consider the views of our constituents or the economic consequences to our communities.

I believe America is the one nation best equipped to lead such a multinational effort and, in doing so, to strike a balance between environmental preservation and the preservation of jobs. The hands-off approach of recent years did nothing to help promote new energy technologies, or to advance carbon capture and sequestration, or to protect American jobs.

It is evident that wishing that this complex issue would simply go away will not lead to better results for our Nation or the people we represent. And ''just saying no'' to any and all proposals, sight unseen, is unrealistic and irresponsible.

For those reasons, I chose to work with my colleagues and with numerous stakeholders—including the coal industry, manufacturers, and labor—to positively influence this bill and America's climate change strategies. And for those reasons our coal miners and responsible industry members have been at the table, too, rather than on the sidelines.

I thank Chairman WAXMAN, who has made many concessions in this bill, and I thank leadership for listening to my concerns about this legislation and moving to help address them.

As well, I commend my colleague RICK BOUCHER, from southwestern Virginia, who serves on the Energy and Commerce Committee and worked in determined fashion to make improvements to the bill that we both sought. I am grateful that he has been so welcoming of my views and supportive of our interests—such as ensuring the availability of $10 billion to advance carbon capture and sequestration technologies and other changes that are beneficial to the people of our neighboring districts.

While this bill is greatly improved from the discussion draft that was first circulated in March of this year—and opponents were saying NO even before that draft was written—more improvements are needed to gain my support.

Coal does much more than keep the lights on in big cities across America. In my district, it covers the mortgage, puts food on the family dinner table, and keeps open the doors of small businesses. While the emissions target in the early years of this program has been lowered from the 20% cap initially contained in this bill, there remains widespread concern that even the reduced cap—17% in 2020—is still too high and too soon to incentivize rapid development and deployment of carbon capture and sequestration technologies, so as to ensure coal mining jobs for the future. We must allow time for expensive clean coal technologies to come on line.

These technologies are critical to lowering emissions across multiple sectors of our economy. And they are necessary for keeping hardworking coal miners in the jobs they want, providing power for the country they love.

Madam Speaker, today, I cannot cast my vote for this bill.

PERSONAL EXPLANATION

HON. JOSEPH CROWLEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CROWLEY. Madam Speaker, on June 25, 2009, I was absent for eight rollcall votes because I was in a meeting at the White House with President Obama on immigration reform. If I had been here, I would like the RECORD to reflect that I would have voted:

Yes on rollcall vote 453, Yes on rollcall vote 454, No on rollcall vote 455, No on rollcall vote 456, Yes on rollcall vote 457, Yes on rollcall vote 458, No on rollcall vote 459, and Yes on rollcall vote 460.

EARMARK DECLARATION

HON. LEE TERRY

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. TERRY. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the Department of the Interior, Environment and Related Agencies Appropriations Bill for Fiscal Year 2010 (H.R. 2998).

My Congressional District received $500,000 for the City of Omaha Public Works Department, located at 1819 Farnam Street, Suite 600, Omaha, NE 68183. This money is from the State and Tribal Assistance Grant (STAG) account, and will be used by the City of Omaha for the design and construction of improvements to portions of the City's combined sewer system. These projects will allow the City of Omaha to reduce the amount of sewage overflowing to receiving streams. These efforts are consistent with the latest requirements from the Environmental Protection Agency (EPA) and Nebraska Department of Environmental Quality (NDEQ) to achieve the goal of improved water quality in the United States.

A TRIBUTE TO MAJOR EARL G. ANDERSON, JR.

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BURTON of Indiana. Madam Speaker, I rise today to honor the life and military service of Major Earl G. Anderson, Jr. who was recently named the 2009 Aviator of the Year at the Indianapolis Air Show.

Born in Rockford, Illinois in 1920, twenty-two-year old Earl Anderson, Jr. enlisted in the United States Army Air Corps in April of 1942 leaving behind his wife Geraldine to serve his country in its time of need. By September 1943, Aviation Cadet Anderson had completed his State-side training and was assigned to the United States 15th Air Force flying The Consolidated B–24 Liberator bomber over Europe. The B–24 was an American heavy bomber that still holds the record as the most produced U.S. military aircraft.

Between December 1943 and June 1944 Major Anderson flew fifty-one successful combat missions against enemy targets before being shot down. He spent the remainder of the war as a Prisoner of War (POW) in a camp outside Munich, Germany. For his heroic and courageous flying, Major Earl Anderson, Jr. was awarded by order of the President of the United States the Distinguished Flying Cross, the Air Medal with 6 clusters, and the Distinguished Unit Badge with one cluster.

Earl's prison camp was eventually liberated by allied troops in 1945 and after debriefing Earl was sent back to the United States to spend some time on furlough before returning to duty. Major Anderson continued serving both on active duty and as a member of the Reserves until he was Honorably Discharged in 1961.

Fortunately for all Hoosiers, Earl's passion for aviation stayed with him after he left the service and he's been an active part of Indiana's aviation community for many years. Earl and his wife Geraldine (Gerrie) have been married for 67 years. They have two daughters, Marilyn and Barbara, and five grandchildren.

I ask all of my colleagues to join me now to thank Major Earl Anderson, Jr. for his service and his sacrifices for our country, and to congratulate him on being named the 2009 Indiana Aviator of the Year.

HONORING LT. COLONEL CHARLIE PARNELL

HON. JOHN T. SALAZAR

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. SALAZAR. Madam Speaker, I rise today to pay tribute to an unsung hero from Southwest Colorado; Lt. Colonel Charlie Parnell of Durango. Charlie Parnell has selflessly and tirelessly been serving the veterans of Southwest Colorado for many years and it is time that he is recognized for this service.

In 1988, Lt. Colonel Parnell retired from the United States Air Force after 26 years of honorable service, including tours of duty in Germany, Thailand, Vietnam, Korea, Turkey and Saudi Arabia. He is the proud recipient of the Bronze Star.

After struggling for 15 years to receive the disability benefits he had earned from the Department of Veterans Affairs, Lt. Colonel Parnell dedicated himself to helping his fellow veterans wade through the challenging VA benefits system so they too would receive the compensation they had earned. Since then, he has helped over 1000 veterans receive their benefits, and has done so completely at his own expense.

It is this type of above the call-of-duty service that makes this nation great. And it is this kind of service that deserves all of our recognition. When asked why he does what he does for his fellow disabled veterans, Lt. Colonel Parnell says simply, ''Because I can.''

Madam Speaker, today I rise to join the 1000 veterans in Colorado's Southwest region to thank and honor Charlie Parnell for his service to this country and to my constituents in the Third Congressional District.

Thank you, Lt. Colonel Parnell for your hard work and dedication to our nation.

EARMARK DECLARATION

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. MICA. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of H.R. 2996, the Interior, Environment and Related Agencies Appropriations Act. This legislation appropriates $500,000 to the Department of the Interior National Park Service account for the Castillo de San Marco National Monument in the City of St. Augustine, Florida, which is in my district. The entity to receive this funding is the U.S. Department of Interior, National Park Service, Castillo de San Marco National Monument located at 1 South Castillo Drive, St. Augustine, FL 32084.

The City of St. Augustine, founded 444 years ago in 1565, is our nation's oldest enduring settlement of European design. Prominent within the Historic Spanish Colonial District, which features thirty-six original colonial buildings, is the majestic Castillo de San Marcos stone fortress that began construction in 1672.

As the only existing 17th century fort in North America, the Castillo de San Marcos is an important historical and cultural landmark that features the oldest surviving masonry in our nation. About 538,500 people visited the Castillo in 2008, hosting as many as 3,751 tourists in just one day.

Authorized by Public Law 108–480, this funding will be used for the planning and design phase of the Castillo de San Marcos National Monument Restoration Project, as outlined in Alternative C of the March 2007 Final General Management Plan and Environmental Impact Statement.

This planning will help preserve and expand the Castillo by constructing a visitor center in the Spanish Quarter of St. Augustine and removing a portion of the visitor parking lot to restore the glacis.

TRIBUTE TO LARRY E. REIDER

HON. KEVIN McCARTHY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. MCCARTHY of California. Madam Speaker, I rise today to honor Dr. Larry E. Reider, a resident and community leader from Bakersfield, California, on his retirement as Kern County Superintendent of Schools and to recognize his remarkable and distinguished leadership while serving the students of Kern county. Over the last 44 years, Larry has been instrumental in advancing Kern County's public education system.

Larry was born in the State of Washington and was raised on his family's farm. In 1965, he earned his bachelor's degree from Central Washington State University and made the move to Kern County to teach in the Arvin Union School District. A dedicated math teacher, Larry spent 19 years in Arvin schools' classrooms and later as a school administrator. He also earned advanced degrees from the California Polytechnic State University, San Luis Obispo and the University of Southern California.

In 1984, Larry joined the Office of the Kern County Superintendent of Schools as a district advisory consultant. Recognizing his dedication and commitment to the schools, students, and parents of the community, the Kern County Board of Education tapped him to be the

Kern County Superintendent of Schools in 1999.

Since becoming Kern County Superintendent of Schools, Larry has been integral to a plethora of local initiatives and projects designed to enhance the reading, writing, and mathematical skills of elementary school students in the county. For instance, he partnered with the Bakersfield Californian to develop the Community Reading Project, which places volunteer reading tutors throughout various classrooms in the county to aid second graders in becoming more proficient readers. Additionally, he developed the Kern Reading Collaborative, an association that analyzes which reading programs are productive and investigates ways those programs can reach more students. Larry also established the Do The Math program, a bi-weekly television homework help channel where teachers assist students in both English and Spanish with their math problems both on and off the air, as well as Ready to Start, a summer pilot program that prepares pre-kindergartners to learn more efficiently as they begin their academic career.

As a former teacher, Larry was always cognizant that highly qualified and effective teachers in the classroom are the best recipe for successful students. To that end, he co-chaired a task force which formulated various approaches to recruit and retain highly qualified teachers in Kern County schools and get them in the classroom. This initiative has been highly successful, and our schools have some of the best and brightest teachers in the region. He also recognized that new generations of students are exceedingly technology savvy, and so opened a learning center that helps teachers integrate technology into the classroom to better teach and engage their students. This not only helps teachers be more effective, it also helps ensure their students continue to develop the skills necessary to be successful in the technology-driven workplace of today.

Not only has Larry harnessed cutting-edge technology in the classroom, he has also been an advocate to use technology to help keep our environment clean. Under Larry's leadership, Kern County schools are in the process of converting their current diesel school bus fleet to clean burning Compressed Natural Gas (CNG). More than half of the diesel buses have already been replaced. As part of this initiative, in 2006, the Superintendent of Schools opened a CNG fueling station, which serves Kern County school buses and is open to the public. As Kern County unfortunately has some of the dirtiest air in the United States, this initiative is extremely important to helping clean the air in the Central Valley.

Larry is also active in several community organizations, including the Bakersfield Chamber of Commerce, Kern County Network for Children, United Way, Rotary Club of Bakersfield, and Vision 2020. He has also been honored by several local and state organizations over the years for his leadership by organizations such as the Community Action Partnership of Kern, California State University-Bakersfield School of Education, Association of California School Administrators, California Teachers Association, Kern Council of Governments, and Kern Reading Association.

Larry exemplifies how one can serve their community with great enthusiasm, fortitude, and dedication. Over the years, I have enjoyed working with Larry and always found his perpetual optimism infectious. There was never an obstacle he did not challenge head-on in his amiable, but no-nonsense style, and fight for the best interests of the students of Kern County. After 44 years in public service, I know that Larry looks forward to spending more time with his wife, Sandy, a retired junior high language arts and drama teacher, and his daughter Mikhail. I know that Larry will be missed in the Kern County public education system, and I salute his lifetime of service and wish him the best as he begins this new chapter in his life.

EARMARK DECLARATION

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. LANCE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, The FY 2010 Department of the Interior, Environment, and Related Agencies Appropriations Act:

Agency: Environmental Protection Agency

Account: STAG Water and Wastewater Infrastructure Project

Amount: $500,000

Project: Railroad Avenue/Main Street stormwater improvements, Borough of Califon, NJ

Recipient: Borough of Califon, 39 Academy Street, Califon, NJ 07830

The funding would be used for reconstruction of the storm water conveyance system to reduce flooding, meet storm water management standards, and to enhance storm water quality in the Borough of Califon, New Jersey.

Much of the historic core of the Borough of Califon was developed during the mid-late 19th century. Drainage systems were constructed to collect and deliver stormwater to waterpower sites. Considerable segments of the original drainage infrastructure remain and are antiquated. The current drainage ways are susceptible to frequent flooding. During flooding events, recharge to groundwater is reduced, suspended solids and floatables bypass normal catchments, and septic systems are inundated. The quality of receiving waters is degraded.

A reoccurring flooding problem exists along an unnamed tributary which traverses a natural, wooded area between Academy Street and Main St. Severe flooding occurs as flows overtop the existing channel and then sheet overland along Railroad Avenue and Main Street. Flooding along the area reoccurs on a regular basis and results in the degradation of water quality of the downstream receiving watercourses.

In general, the problem is inadequate capacity of the conveyance system of open channels, pipes and culverts. Reconstruction of the system is needed to reduce flooding, meet current stormwater management standards and to enhance stormwater quality.

This project is consistent with environmental criteria established by the State of New Jersey to improve stormwater systems and water quality. Since the stormwater from the area of this project enters the South Branch of the Raritan River, which flows directly through the center of the Borough of Califon, the benefits of this project are far reaching.

IN REMEMBRANCE AND RECOGNITION OF TIMOTHY MICHAEL ELLIOTT

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. KUCINICH. Madam Speaker, I rise today in remembrance of Timothy Michael Elliott and in recognition of his service to our country and his dedication to the City of Cleveland, Ohio. Tim lived and worked in the Detroit-Shoreway neighborhood of Cleveland's west side in my district. He sought to preserve Cleveland's historic housing one house at a time and devoted his time to ensuring the historic integrity of each home he restored.

As a young man, Tim served in the U.S. Army and worked as a draftsman for Hauserman Inc., and B.F. Goodrich. He also worked for Century 21 Real Estate and led the Nolasco Housing Corporation, a non-profit development organization affiliated with the neighborhood Catholic Church, Our Lady of Mount Carmel. In addition to his work, he dedicated his life to the City of Cleveland. He was proud of the west side neighborhood in which he lived and became concerned about deteriorating conditions. He began to buy and repair neighboring homes to improve the housing of the neighborhood. He rarely worked on houses he could not walk to from his Herman Avenue home. ''He could walk into a place that was falling apart and not see it as it was but what it could be,'' said Judge Ray Pianka, a neighbor and friend as well as Cleveland's municipal housing judge. ''He has taken some homes that appeared to be beyond saving and made them showplaces.''

Also within walking distance of their home was Edgewater State Park, a beautiful park along the Lake Erie shore with beaches, boating, picnic areas, and other recreational activities. Tim and his wife Mimi, along with other neighbors and local officials, started the Friends of Edgewater Park to promote and preserve this wonderful amenity in their neighborhood. Tim is survived by his wife Mimi, his son Timothy Michael Jr., his granddaughter Brooke Elliott, and his many friends.

Madam Speaker and colleagues, please join me in celebrating the life of Tim Elliott, and in recognizing his dedication to the betterment of our community. His service and leadership in the west side neighborhood of Cleveland inspired us all to work toward neighborhood preservation.

TIMOTHY ELLIOTT, 63, FIXED UP OLD HOMES ON THE WEST SIDE—OBITUARY

(By Grant Segall)

Tim Elliott helped to turn around the West Side. The painstaking renovator and Realtor helped revive Ohio City and Detroit-

Shoreway in the past four decades, boosting a couple of hundred properties and winning over skeptical investors, bankers and officials.

Elliott died Friday in his West Side home, one of his pet projects, a 3,200-square-foot Italianate from the 1860s. He was 63 and had struggled for several years with strokes.

''He could walk into a place that was falling apart and not see it as it was but what it could be,'' said Raymond Pianka, Cleveland's housing judge, a neighbor and the employer of Elliott's widow, Mimi. ''He has taken some homes that appeared to be beyond saving and made them showplaces.''

Elliott liked not just walking into a place but walking to it. He'd turn down a project if he and his small crew couldn't walk there from their homes.

He hoped each project would ripple through the neighborhood. He preferred corner homes, helping two blocks instead of one.

He liked to install modern conveniences such as whirlpools while highlighting history.

''There's not a newer old house in the city,'' he boasted about one salvage job.

He bought homes suffering from water, waste and vandals and sold them for several times his purchase price. He'd comb rural Ohio for replacement parts or make them himself, from tiles to spindles.

Elliott said he'd decided at age 7 to spruce up old homes. He was born on the East Side, the seventh of eight children. His father was an engineer, and several brothers followed suit.

He left Cleveland at 12 and graduated from Willoughby South High School. He enlisted in the U.S. Army, making photographs and maps, serving partly in South Korea.

Elliott returned to Cleveland in the early 1970s and helped Hauserman Inc. draft work for projects such as the Americana high-rise in Euclid. He later drafted pipes and buildings for Goodrich in Solon.

On the side, he got an associate's degree in arts at Cuyahoga Community College.

He started renovating West Side homes about 1978. He owned about 16 buildings over the years and handled many others as well.

He worked for Century 21 and led Nolasco Housing Corp., a development group affiliated with Our Lady of Mt. Carmel Church, in the 1980s.

Elliott was honored by Cleveland Magazine and the Cleveland Restoration Society.

On the side, he liked to bicycle, raise terriers and sail. He put together a 27-foot boat from a kit.

EARMARK DECLARATION

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. MILLER of Florida. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the Fiscal Year 2010 Department of Interior and Environment Appropriations request.

Requesting Member: Congressman JEFF MILLER

Project Name: Santa Rosa County for Navarre Beach water clarifier

Account: STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: Santa Rosa County, FL

Address of Requesting Entity: 6495 Caroline Street, Milton, FL 32570

Description of Request: $220,000—Santa Rosa County for Navarre Beach Water Clarifier, Milton, Florida. I requested these funds to allow for Navarre Beach residents to have a safe and reliable source of water. Currently there is no reliable backup beyond three days for citizens. It would also increase compliance with both State and Federal regulations. The entity to receive funding for this project is Santa Rosa County, Florida, located at 6495 Caroline Street, Milton, FL 32570. The funding would be used to complete the Navarre Beach Water Reclamation Facility clarifiers to protect the area's water quality. I certify that this project does have a direct and foreseeable effect on the pecuniary interest of my spouse or me. Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to any entity or program named after a sitting Member of Congress; (2) is not intended for a ''front'' or ''pass through'' entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

EARMARK DECLARATION

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. POE of Texas. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892, Department of Homeland Security Appropriations Act, 2010:

Requesting Member: Congressman TED POE

Bill Number: H.R. 2892, Department of Homeland Security Appropriations Act, 2010

Account: FEMA, Predisaster Mitigation

Legal Name of Requesting Entity: CHRISTUS St. Elizabeth Hospital

Address of Requesting Entity: 2830 Calder Street, Beaumont, TX 77702

Description of Request: I have secured $250,000 in funding under FEMA's Predisaster Mitigation account to allow for the purchase of a 2.5 megawatt diesel generating plant to ensure sanitary and safe conditions for both current and potential patients during disasters. Although the Hospital has basic generator capabilities to sustain life support, Hurricanes Rita and Ike have proved that this basic capacity is insufficient. During Hurricane Ike, 190 patients were unable to be evacuated and as commercial utilities were shut down, basic hospital operations were compromised. The generator will make certain that the Hospital remains serviceable by ensuring that power and water are functional; thus, allowing the Hospital to maintain its mission of providing essential medical care to the residents of southeast Texas.

EARMARK DECLARATION

HON. KEN CALVERT

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. CALVERT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman KEN CALVERT

Bill Number: H.R. 2996

Account: Environmental Protection Agency, STAG Water and Wastewater Infrastructure

Legal Name of Requesting Entity: Western Municipal Water District

Address of Requesting Entity: 450 Alessandro Boulevard, Riverside, CA 92508

Description of Request: H.R. 2996 provides $500,000 for the Western Municipal Water District for Arlington Desalter Biodenitrification project. The funding will be used to build a biological denitrification facility for drinking water. The process, called ''Fixed-Bed Biological Treatment'' (FXB) uses an innovative bioreactor to remove multiple contaminants from groundwater. Western Municipal Water District has completed pilot testing of the FXB process at the Arlington Desalter and has already received conditional approval from the California Department of Public Health for a full scale facility. This new facility will consist of a series of large biofilter, polishing and backwash equalization tanks as well as supply pumps and a new groundwater well. It will be built at the site of the Arlington Desalter in Riverside, California. The project benefits the City of Norco, portions of the City of Riverside, unincorporated areas of Riverside County, and any entity within the Arlington Groundwater Basin by cleaning the area's water supply and creating up to 3.7 million-gallons-per-day of new water.

Requesting Member: Congressman KEN CALVERT

Bill Number: H.R. 2996

Account: Environmental Protection Agency, STAG Water and Wastewater Infrastructure

Legal Name of Requesting Entity: City of San Juan Capistrano

Address of Requesting Entity: 32400 Paseo Adelanto, San Juan Capistrano, CA 92675

Description of Request: H.R. 2996 provides $500,000 to the City of San Juan Capistrano for ground water recovery plant expansion and regional distribution facility. The funding will allow the city to expand the current capacity of the existing treatment facility to 7.3 million-gallons-per-day from 5.6 million-gallons-per-day. During the ongoing drought, water that is produced locally can be conveyed to surrounding water agencies thereby reducing the demands placed on the Sacramento Bay Delta and the Colorado River. In the event of a natural disaster or other emergency, the treatment plant will have the ability to function as a regional distribution facility to neighboring water agencies and helping to provide a reliable source of safe drinking water.

EARMARK DECLARATION

HON. WALTER B. JONES

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. JONES. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment and Related Agencies Appropriations Bill, 2010:

Rep. WALTER B. JONES

Project: Rural Water Technical Assistance, National Rural Water Association

Recipient: National Rural Water Association, 2915 South 13th Street, Duncan, OK 74544

Account: Environmental Protection Agency, Environmental Programs and Management

Amount: $13,000,000

Explanation: The funding will be used to provide rural water technical assistance, including source water and ground water protection, to help small rural communities across the nation protect their drinking water quality and comply with federal mandates.

EARMARK DECLARATION

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. GRAVES. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010:

Congressman SAM GRAVES, (MO–6), Department of the Interior, EPA/STAG Account—$500,000 to the City of St. Joseph for Stormwater and Wastewater Infrastructure (1100 Frederick Avenue, St. Joseph, MO 64501)

The federal funding I obtained will be utilized by the City of St. Joseph, MO, to repair and update its aging stormwater and wastewater system. The community's sanitary and stormwater collection system is divided into two components: a large combined sewer system and a separated system. Specifically, the funds will support the development and implementation of a county-wide Stormwater Management Plan to make improvements to the system to comply with EPA requirements and operational needs resulting from new regulations, system conditions and community growth in the City of St. Joseph and Buchanan County, MO. This federal funding has the potential to create new jobs with the increased sanitary waste capacity, as well as have a positive impact on ratepayers thanks to more efficient operations with improved water quality.

HONORING THE EFFORTS OF MR. RUSS DAVIDSON

HON. DENNY REHBERG

OF MONTANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. REHBERG. Madam Speaker, I rise to honor Russ Davidson of Colstrip, Montana, for 25 years of dedicated service to the Close Up Foundation. On behalf of the U.S. House of Representatives and Montana, it's a privilege to thank Russ for his many years of service.

As a high school teacher of history and government, Russ has traveled to Washington, D.C. with his students many times over the course of his career. According to his students and all who know him, Russ is an excellent teacher with years of experience in the classroom. Each year, I enjoy meeting with hundreds of Close Up students in Washington, D.C., and I appreciate the extent to which Close Up sponsors promote informed participation in the democratic process. Close Up gives students the unique opportunity to learn about the democratic process as they are introduced to lawmakers, public interest groups and personnel from all branches of government.

Thanks to people like Russ, students from across America are able to meet with their elected leaders and understand how they can make a positive difference through democratic participation. Once again, I thank Russ for his dedication as an educator and Close Up sponsor, and it's a privilege to formally recognize his efforts.

CELEBRATION OF THE 100TH BIRTHDAY OF MARTHA POFFENBERGER MCKINLEY

HON. GEORGE RADANOVICH

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. RADANOVICH. Madam Speaker, I rise today on behalf of my colleagues, Representative DEVIN NUNES and Representative JIM COSTA, to acknowledge, congratulate, and celebrate the 100th Birthday of Martha Poffenberger McKinley.

Martha has always been an active member of the Fresno community. She worked for the State of California Department of Industrial Welfare for many years, where she was involved with a number of business and professional organizations. She also founded and became the first president of the women's section of the Fresno County Chamber of Commerce.

Mrs. McKinley now lives with her daughter and son-in-law. She enjoys spending time with her three grandchildren, 8 great grandchildren, and is looking forward to the birth of her first great-great grandchild.

Martha has been a remarkable mother not only to her own daughter but also to her other daughter Sally Lewis. In 2000, Martha was recognized by the Fresno County Women's Chamber of Commerce as Mother of the Year. She is well-deserving of this award.

My colleagues and I want to take this opportunity to not only wish Martha a happy birthday, but to express our admiration and gratitude for her service to the people of Fresno County. It is truly an honor to celebrate such a remarkable lady.

Below is a letter submitted by her long time friend, Sally M. Lewis.

''On July 17th, a remarkable lady will celebrate her 100th birthday. Martha Poffenberger McKinley was born in Portsmouth, Ohio, on July 17, 1909, the only child of Edward Daniel and Claire Kennedy Poffenberger.

Her life is a long list of accomplishments, but most of all she was a loving wife to Pete before his death and she is a remarkable mom to her daughter Monna and a true blessing in my life for treating me as a daughter since I was a child.

After graduation from Ohio State, Martha began her professional life in Ohio as the private secretary to Governor Bricker. Following her marriage to Peter B. McKinley they moved to northern California. Not much for staying at home, she went to work at Mare Island Ship Yard and quickly moved up from secretarial pool to department head. The family moved to Fresno after Monna was born and once she started school Martha went to work for the state of California Department of Industrial Welfare. While working there she was active in many business and professional organizations. Among them she founded and was the first president of the women's section of the Fresno County Chamber of Commerce (now The Fresno County Women in Chambers of Commerce).

She lived in her own home and washed her own car until she lost her vision well into her 90's. She now enjoys living with her daughter and son-in-law surrounded by her three grandchildren, 8 great children and soon her first great-great grand child.

Even though she is now blind, she still keeps up on current events, manages her own investments and has voted in every election.

Martha has a wonderful mind and fantastic memory. She is never without a joke and a smile. Always the life of any gathering, Martha has always enjoyed her evening cocktail and visits with family and friends. An evening with Martha is one you're not likely to forget.

It's an honor and a privilege to have her as my ''other mutter.'' From: Sally M. Lewis''

CENTENNIAL CELEBRATION OF OREGON STATE UNIVERSITY'S HERMISTON AGRICULTURAL RESEARCH AND EXTENSION CENTER

HON. GREG WALDEN

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. WALDEN. Madam Speaker, I rise today to draw my colleagues' attention to the historic June 30, 2009, centennial of Oregon State University's Hermiston Agricultural Research and Extension Center, located in the corner of northeast Oregon near the mighty Columbia River.

Few areas in the world can match the quantity or quality of crop production of the Columbia Basin region that straddles the Oregon-Washington border. This center has been in

the middle of it all for 100 years, helping farmers, ranchers, and researchers find ways to better grow and steward crops ranging from dry land wheat to watermelons; from sugar beets to wine grapes; from beef cattle to dairy cows.

Established in 1909, the ''Umatilla Experiment Farm'' initially served farmers trying to make a living on 20,000 acres of semi-arid northern Oregon desert as part of a federal government reclamation program. By the 1930s, farming expanded to well over 160,000 acres and the demand for the center's research reached levels far surpassing its initial 40 acres. The center moved and expanded to its current 300-acre location to better serve the region's agricultural communities. Today, the work done at this center serves well over 500,000 acres of irrigated and non-irrigated crop land.

The West is dominated by nutrient-deprived, semi-desert soils. The Columbia Basin is no different. So at the beginning, the center set upon helping farmers and ranchers overcome the fundamental challenges posed by an annual rainfall rate of eight inches. Researchers determined which types of organic matter, when put into the soil, would produce the best crops. They worked with farmers, ranchers, and communities to identify more efficient water use, based on soil type, topography, and micro-climate.

Madam Speaker, it is summertime, and if you enjoy a refreshing slice of watermelon this time of year, chances are you have the great work at this center to thank for it. The Columbia Basin is renowned for its delicious watermelons, and the center's researchers helped increase their production from 30-tons per acre under center-pivot irrigation to 70-tons per acre with drip irrigation and weed control. In the process, they made more efficient use of the water and decreased the amount of herbicide needed during production of the watermelon crop.

The center's researchers are in the middle of the battle against crop disease. Tuber worm has emerged as a threat to root crops in recent years. Late blight, the same fungus that caused the great potato famine, has resurfaced. Researchers are on the cutting of edge of identifying new methods to fight diseases that cost producers thousands of dollars each year to control.

And if all that work were not enough, researchers at the center are helping improve the quality of the country's food supply. This is one of the only centers of its kind in America with a molecular biologist working to increase the nutritional quality of our food.

The center's research is so valuable to the region that the many producers who benefit from its research return their thanks generously, donating over $1 million to the center in the past two decades. Growers also funded the building of two large insect houses at $40,000 each that facilitate research on which pests carry crop damaging diseases.

Today's challenges require innovative thinking and solutions. New crop varieties developed at the center help overcome the present challenges facing old crops. Many of the solutions that producers and individuals in the region see as major milestones are all in a day's work for the researchers of the center. As described by the station superintendent, Philip Hamm, ''Our staff are just doing their job, and looking for the next challenge.''

Madam Speaker, this center has played a vital role in helping farmers, ranchers and agricultural communities thrive on the sandy soils that have presented many challenges over the past 100 years. Today, the region served by the center is one of the most important agriculture production areas in the Northwest and produces some of the highest yielding, highest quality crops in the United States.

I congratulate Oregon State University's Hermiston Agricultural Research and Extension Center leadership, its board members, area farmers and ranchers, and the community on reaching this remarkable milestone. I am confident the center's next 100 years will be as successful as 1909–2009 has been.

ON THE 150TH ANNIVERSARY OF FOURTH BAPTIST CHURCH

HON. ROBERT C. "BOBBY" SCOTT

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. SCOTT of Virginia. Madam Speaker, I rise today to congratulate an institution in Richmond, the capital of the Commonwealth of Virginia. On Saturday, June 27, 2009, the members of Fourth Baptist Church are celebrating their 150th anniversary, and I would like to take a moment to highlight the rich history of this church and its contribution to our community.

Fourth Baptist Church, the first black Baptist church in the Church Hill community in Richmond, began in 1859 as a regular assembly of slaves for prayer. The group met regularly on Chimborazo Hill until the outbreak of the Civil War, when the white congregation of the Leigh Street Baptist Church granted permission for the slaves to hold their services in the church basement.

In 1865 the Reverend Scott Gwathmey, one of the group's prayer leaders, gained permission for the group to meet in a Union barracks on Chimborazo Hill. There, on December 2, 1865, the Fourth Baptist Church was formally organized, with Reverend Gwathmey serving as the first pastor.

The barracks were eventually demolished, but the congregation salvaged lumber from the debris and constructed their own church building. In 1875 this church was replaced by another one of frame, on the northern side of Church Hill, near what was to be the site of the present church. The present building was completed in 1884, three months after the former church was destroyed by fire.

The church has grown considerably from these humble beginnings. Major expansion was conducted under the direction of current Pastor Emeritus, Dr. Robert L. Taylor. Dr. Taylor served as Pastor of Fourth Baptist for 34 years. He was responsible for instituting many of the programs that still exist at the church, and oversaw the building of the addition to the church building now known as Taylor Hall.

Fourth Baptist has vibrant Men's and Women's programs that enlighten and assist the young people as they participate in the Boy Scouts, Girl Scouts, and the Youth Usher programs. Fourth Baptist also participates with the Baptist General Convention of Virginia to conduct outreach ministries throughout Greater Richmond and the Commonwealth of Virginia.

I would like to congratulate Chairman of the Board of Deacons Gerard A. Dabney, Interim Pastor Dr. Marion Tapscott, and the entire congregation of Fourth Street Baptist on the occasion of their 150th anniversary. I would to wish them another 150 years of service to their community.

EARMARK DECLARATION

HON. GEOFF DAVIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. DAVIS of Kentucky. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I secured as part of H.R. 2996, the Department of Interior, Environment, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman GEOFF DAVIS

Bill Number: H.R. 2996

Account: STAG

Legal Name of Requesting Entity: City of Wurtland

Address of Requesting Entity: 500 Wurtland Avenue, Wurtland, Kentucky 41144

Description of Request: Appropriate $500,000 for the Wurtland/Greenup/Lloyd Regional Sewer project. This project will extend sewers to underserved areas and decommission one WWTP consolidating service with a more modern regional facility. The project serves approximately 3,200 people and will accommodate growth and expansion. Completion of the project will improve health and environmental conditions in the region. In addition, it will eliminate two package plants & approximately 520 septic systems. The Kentucky Infrastructure Authority and the Greenup County Fiscal Court have committed $1.37 million to this project. This project is a valuable use of taxpayer funds because it will reduce pollution in local streams that flow into the Ohio River and will help the community comply with federal environmental standards.

IN RECOGNITION OF THE PASSING OF DAN MCKENZIE

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. MILLER of Florida. Madam Speaker, I rise today to recognize Dan McKenzie, a Northwest Florida community leader and businessman who passed away on June 22, 2009. Mr. McKenzie spent his entire life serving his community and family. I am proud to honor his life of dedication and service.

Mr. McKenzie grew up in Pineapple, Alabama, the son of a sawmill owner. He chose

to branch out and not follow in the family business, instead trying his hand at ranching. As a young man, continuing health issues forced him to seek medical care in Foley, Alabama where he was told he would have to leave the area completely in order to regain his health. He spent the night in Milton, Florida and said he was never sick again. Milton became his permanent home after his miraculous recovery, where he became entrenched in the local business community.

Upon settling in Milton, Mr. McKenzie began a new career in the automotive industry. His first day on the job, he sold a brand new Mercury sedan for $3,000. From there, he built a family owned automotive business that still stands to this day. For over 40 years, McKenzie Pontiac GMC Buick has provided for the automotive needs of the people of Northwest Florida. Billing themselves as a hometown dealership, their motto of ''We will treat you like family'' was a promise and not just a slogan.

Mr. McKenzie was not only a businessman, but a dedicated family man. In 1945, he married his childhood sweetheart, Mary Till, and often credited her as his inspiration. They were the parents of five daughters. Sadly, Dianne passed away at the age of 9, but left to cherish his memory are Janet, Linda, Lisa and Dana.

Madam Speaker, on behalf of the United States Congress, I am privileged to honor Mr. Dan McKenzie as a man reflective of the true spirit of Northwest Florida. Mr. McKenzie will be remembered by all as a loving husband and father, a successful businessman and an important part of our Northwest Florida community.

EARMARK DECLARATION

HON. K. MICHAEL CONAWAY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. CONAWAY. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996—FY 2010 Interior, Environment, and Related Agencies Appropriations Act.

In the Environmental Protection Agency STAG Water and Wastewater Infrastructure Project account, an earmark for the City of Andrews arsenic filtration pilot project was included on my behalf. The entity to receive this funding is the City of Andrews, Texas. Andrews City Hall is located at 111 Logsdon, Andrews, TX, 79714. The funding would create a pilot program for demonstrating an alternative method to achieve EPA mandates for arsenic mitigation in rural public drinking water systems through the use of under-the-counter reverse-osmosis filtration systems.

EARMARK DECLARATION

HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. GERLACH. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act of 2010.

City of Reading Wastewater Treatment Plant, Reading PA—$500,000 for upgrades to address environmental issues as required by Department of Justice Consent Decree.

EARMARK DECLARATION

HON. DON YOUNG

OF ALASKA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. YOUNG of Alaska. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the fiscal year 2010 Interior, Environment and Related Agencies Appropriations Bill:

Requesting Member: Congressman DON YOUNG

Bill Number: H.R. 2996, FY10 Interior, Environment, and Related Agencies Appropriations Bill

Account: Fish and Wildlife Services/Fisheries.

Legal Name of Requesting Entity: Alaska Sea Otter and Stellar Sea Lion Commission.

Address of Requesting Entity: P.O. Box 142, Old Harbor, Alaska 99643.

Description of Request: $200,000 for the Alaska Sea Otter and Stellar Sea Lion Commission. The Alaska Sea Otter and Stellar Sea Lion Commission is an Alaska Native organization that works to ensure conservation, co-management, education, and artistic development of sea otters and sea lions. It is my understanding that this funding would facilitate the development of a co-management plan for sea otters and sea lions by local communities in the interest of sustainable populations and increasing involvement in subsistence management.

Requesting Member: Congressman DON YOUNG

Bill Number: H.R. 2996, FY10 Interior, Environment, and Related Agencies Appropriations Bill

Account: Fish and Wildlife Service/Resource Management.

Legal Name of Requesting Entity: Alaska Sealife Center.

Address of Requesting Entity: P.O. Box 1329, Seward, Alaska 99664.

Description of Request: $350,000 for the Sealife Center's Eider Research Program. It is my understanding that the funding for this project would be used to integrate the Sealife Center's marine research facilities with field research to help recover the Stellar and Spectacled Eider, and support the Recovery Team mandated by the Endangered Species Act.

IN RECOGNITION OF THE NORTHEAST OHIO SIERRA CLUB

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. KUCINICH. Madam Speaker, I rise today in recognition of the Northeast Ohio Sierra Club and applaud their efforts to raise awareness about the dangers of coal and its contributions to global warming. As the nation takes strides towards more environmentally sound ways of producing energy, it is important that we recognize the danger of trading one harmful fuel for another. If we hope to have a stable climate, we must refrain from the use of strong and toxic pollutants like coal.

Americans are known for their determination and innovation when faced with a challenge. Let us rely on these qualities in our transition to cleaner energy, rather than choosing an easy way out represented by coal. The health of our children and our planet is too big of a price to pay for our continued dependence on coal.

Madam Speaker and colleagues, please join me in recognizing the efforts that the Northeast Ohio Sierra Club has taken in raising awareness of the dangers of coal. As the nation works towards cleaner energy policies, organizations such as the Northeast Ohio Sierra Club are working tirelessly to keep the American public accurately informed on energy issues.

EARMARK DECLARATION

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. POE of Texas. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, Department of Interior, Environment, and Related Agencies Appropriations Act, 2010:

Requesting Member: Congressman TED POE

Bill Number: H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: Environmental Protection Agency's STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: City of Baytown, TX

Address of Requesting Entity: 2401 Market Street, Baytown, TX 77522

Description of Request: I, and Rep. Ron Paul, have jointly secured $500,000 in funding under the Environmental Protection Agency's STAG Water and Wastewater Infrastructure Project account for the city of Baytown, TX to help them fund a six-year, $140 million Capital Improvement Project that will rehabilitate and

upgrade the city's wastewater and water infrastructure to comply with increased federal and state regulations, maintain its condition and reliability and save costs. This project rehabilitates portions of the Central District Wastewater Treatment plant. The work includes redesign of critical components to elevate structures out of the floodway and to reduce the storm surge impacts suffered as was suffered during Hurricane Ike. These include the influent lift station, blower building, administration/laboratory building, and grit removal process. The internal piping needs to be replaced to improve energy and operating efficiency, along with the chlorine contact basin and plant pumping/transfer systems. Installation of post-storm emergency power systems are also a part of this project.

EARMARK DECLARATION

HON. J. RANDY FORBES

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. FORBES. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman J. RANDY FORBES

Bill Number: H.R. 2996

Account: Fish and Wildlife Service, Land Acquisition

Legal Name of Requesting Entity: The Conservation Fund, Chesapeake, VA

Address of Requesting Entity: US 17, Chesapeake, Virginia, 23323, USA

Description of Request: Provides $150,000 to fund the acquisition of 50 acres that has been identified by the U.S. Fish and Wildlife Service as the preferred site for the construction of a new visitor's center for the Great Dismal Swamp National Wildlife Refuge.

Requesting Member: Congressman J. RANDY FORBES

Bill Number: H.R. 2996

Account: National Park Service, Save America's Treasures

Legal name of Requesting Entity: Chesterfield County, Chesterfield, VA

Address of Requesting Entity: 9901 Lori Rd, Chesterfield, VA, 23832, USA

Description of Request: Provides $150,000 to repair and preserve five historical structures in Chesterfield County.

EARMARK DECLARATION

HON. BRETT GUTHRIE

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. GUTHRIE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act of 2010.

Requesting Member: Congressman BRETT GUTHRIE

Bill Number: H.R. 2996

Account: STAG Water and Wastewater Infrastructure

Recipient: Owensboro-Daviess County Regional Water Resource Agency, 1722 Pleasant Valley Road, Owensboro, KY 42303

Description of Request: Provide $220,000 to install a sewer system in the Locust Hill Subdivision, which is currently without sewer services.

EARMARK DECLARATION

HON. AARON SCHOCK

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. SCHOCK. Madam Speaker, in accordance with the Republican adopted standards on earmarks, I submit the below detailed explanation of the Village of Hopedale, Village of Hopedale, IL.

Bill Number: H.R. 2996 Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Provisions/Account: STAG Water and Wastewater Infrastructure Project

Name and Address of Requesting Entity: entity to receive funding for this project is the Village of Hopedale, located at Box 387, Hopedale, IL 61747.

Description of Request: The funding would be used to conduct preliminary work on a new wastewater treatment plant.

TRIBUTE TO MARINE GUNNERY SERGEANT CHARLES ''BRANDON'' BAILEY

HON. GEOFF DAVIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. DAVIS of Kentucky. Madam Speaker, today I rise to pay tribute to Marine Gunnery Sergeant Charles ''Brandon'' Bailey from Florence, Kentucky, who was wounded in an improvised explosive device attack on January 23, 2009, while serving in Afghanistan.

Gunnery Sergeant Bailey is a true patriot. Having felt the call to serve his country since childhood, Brandon sold his small business and selflessly joined the Marine Corps when he was twenty-four years old. He served his first combat deployment in Iraq and was a member of the 22nd Marine Expeditionary Unit. In April, 2008, Brandon married his childhood friend, Kristie. He was deployed to Afghanistan as a member of the Marine Special Operations Command shortly after the wedding. Without any hesitation, he left his new wife to serve his country once more in harm's way, ultimately to be severely wounded in action.

Gunnery Sergeant Bailey is undergoing rehabilitation with recovery in the distant future. He and Kristie are expecting their first baby this December. Gunnery Sergeant Bailey stays positive and says he is happy he had the opportunity to do the job that he loved and serve his country. Brandon's life and character epitomize the Marine Corps Motto—Semper Fidelis, Always Faithful.

Gunnery Sergeant Bailey is an inspiration to us all. Today, Madam Speaker, I ask the House of Representatives to recognize Gunnery Sergeant Bailey's unwavering dedication to the Marine Corps and to thank him for his service to our great nation.

EARMARK DECLARATION

HON. BRETT GUTHRIE

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. GUTHRIE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act of 2010.

Requesting Member: Congressman BRETT GUTHRIE

Bill Number: H.R. 2996

Account: Save America's Treasures

Recipient: Breckinridge County Fiscal Court, Hardinsburg, KY

Description of Request: Provide $150,000 to help preserve the historic Holt House. Judge Joseph Holt served as Judge Advocate General, and then later as Secretary of the Interior and Attorney General in President Lincoln's administration. The house has been on the National Register since 1976, however has not been properly maintained. Restoring the home would be key to helping develop regional tourism.

RECOGNIZING FRANKIE BRETHERICK HONORING AMERICA'S FIRST FLY GIRLS

HON. SAM JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. SAM JOHNSON of Texas. Madam Speaker, Women Air Force Service Pilots (WASP) were the first women in American history to fly military aircraft. Between the years 1942–1944, women were recruited to fly non-combat missions, so that every male pilot could be deployed in combat. These women piloted every kind of military aircraft and logged 60 million miles flying missions across the United States. They were never awarded full military status and were not eligible for officer status. It was not till 1977 that the WASP pilots were granted veterans' status. Of the 1,102 WASP pilots, just under 300 are living today. One of these living legends resides in the Third Congressional District, Frankie Bretherick. I'd like to thank her personally for her service to this great nation for being a pioneer of flight.

Frankie Lovvorn was born September 19, 1914, in Cranfils Gap, Bosque County, Texas.

Her parents were Francis Marion Lovvorn and Primrose Smith. She graduated from high school in Meridian, Bosque County, Texas. She graduated from Providence Hospital Nursing School in Waco, Texas, in 1937. She worked for five years at various veteran's hospitals in Texas and Louisiana. She began flying lessons at an airport south of Dallas, Texas.

By the time she applied and was accepted into the WASP program, Class of 44W–6, she had acquired a commercial pilot's license and had logged over 200 hours of flying time. While stationed in Greenville, Mississippi at Greenville Army Air Base until deactivated on December 20, 1944, she flew BT–13s and UC–78s and slow-timed repaired aircraft.

After deactivation, Frankie was asked to join the Army Nurse Corps in May 1945. She was sent to Mitchell Field, New York where she worked at a hospital for three weeks. She was then sent to Randolph Field in San Antonio, Texas to attend the School of Aviation Medicine where she received training to become an air evacuation nurse. After World War II, she went to business school and attended Southern Methodist University in Dallas, Texas. She also worked part-time as a nurse while in school.

Frankie met Joseph Harry Bretherick while both were stationed in Greenville, Mississippi. They married in 1949 and lived in Philadelphia, Pennsylvania for 19 years. Frankie continued working as a part-time nurse after their marriage.

They moved to Sarasota, Florida in 1968. After moving to Sarasota, Florida, Frankie became involved with the Sarasota Garden Club. She also acquired her Real Estate license. Frankie's husband, Joe, died in 1999. About three years ago Frankie moved to Plano, Collin County, Texas, to be close to family.

Through their actions, Women Air Force Service Pilots were a catalyst for revolutionary reform in the integration of women pilots into the U.S. Armed Services. Just as the Navajo Code Talkers served with distinction and were awarded the Congressional Gold Medal, it is also appropriate for Congress to recognize and honor the service of the WASP with the Congressional Gold Medal. The Congressional Gold Medal is the highest and most distinguished award that the U.S. Congress can award to a civilian. Finally, these women will receive that long-overdue recognition now that the House and the Senate have passed the bill granting these women.

This Congressional Gold Medal honors mothers, grandmothers, teachers, office workers, nurses, business women, photographers, dancers, one was even a nun. But before that, they were pilots for the US Army Air Corps during World War II. Finally, this Congress has recognized their sacrifice and considers them all heroes because these trailblazers and true patriots served our country without question and with no expectations of recognition or praise. That is what being a true hero is all about! The Congressional Gold Medals will be awarded to all 1,102 pilots and/or their surviving family members.

To the brave and selfless women like Frankie, our nation owes them a debt of gratitude for their service and sacrifice. I am so very proud of them. God bless them and God bless America! I salute them one and all.

HONORING THE MILITARY SERVICE OF THE LOTHSPEICH FAMILY

HON. EARL POMEROY

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. POMEROY. Madam Speaker, I rise today to honor the military service of the Lothspeich family of North Dakota. North Dakota has a proud military tradition and has sent many of its sons and daughters into the service of their country. Amongst this proud history and tradition the Lothspeich family is unique. Edward and Rose Lothspeich were the parents of nine boys and one girl. From this family all nine of the Lothspeich brothers have bravely answered the call of a grateful nation when it was sorely needed.

These brave men served across several critical periods in our nation's history. Eugene, Harold and Edward served at the height of World War II. Donald, Gerald, Lyle, Marlin served during the Korean War and the beginning of the Cold War. Franklin and Leon served in Germany during a period in which the Soviet Union was increasing the isolation of East Germany.

Next week as we gather to celebrate the birth of our nation, the City of Park River, North Dakota will be celebrating its 125th anniversary. As a part of that celebration, Park River will honor those brothers who are still with us, Edward, Lyle, and Marlin, and those who are not Eugene, Harold, Edward, Donald, Gerald, Franklin and Leon.

The United States is what it is today because of the sacrifices of families like the Lothspeich's who gave so selflessly and served so bravely. These brothers helped win World War II and kept watch during the coldest nights of the Cold War.

The sacrifices of the Lothspeich brothers are worthy of our highest respect and I can think of no greater duty of a member of Congress than to honor our nation's heroes. I stand today to honor their service as the city of Park River will next week.

RECOGNIZING RICHARD F. MELL

HON. MIKE QUIGLEY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. QUIGLEY. Madam Speaker, I rise today to recognize the long and distinguished career of Richard F. Mell. Alderman Mell, who is celebrating his 35th year of service, is a vital part of the Chicago community.

Born in Muskegon, Michigan, Dick Mell began his career in public service shortly after moving to Chicago, starting as a precinct captain with the 33rd Ward Regular Democratic Organization and working closely with a variety of neighborhood organizations. Knowing he could do more to help the community by taking on a larger role, in 1975, he ran to be Alderman of the 33rd Ward and won. A year later, he became the Ward Committeeman and took his seat on the Democratic Central Committee of Cook County, representing his community on Chicago's Northwest side.

Alderman Mell has continued to take on important and influential roles throughout his successful career. He held the office of Vice Mayor of the City of Chicago for eight years and currently serves as Chairman of the Committee on Committees, Rules and Ethics. He is also a member of the Committees on Budget and Governmental Operations, Finance, Health, Housing & Land Acquisition, Human Relations, and Traffic Control and Safety.

As Alderman, Mr. Mell has always put his community first, remaining accessible to his constituents with an open door policy and frequent attendance at community meetings. He celebrates his multi-ethnic, multi-racial community and understands that diversity stimulates growth in all of its residents. He consistently strives to protect his entire community and has helped make possible social programs to assist the less fortunate.

Alderman Mell's list of accomplishments is longer than this statement will allow and includes setting new ethic codes for elected officials, fighting absentee slum landlords in housing courts, initiating an Adjacent Neighborhood Program that rids the city of vacant lots, and fighting to decrease graffiti in the city by banning spray paint and passing an ordinance that allows judges to sentence graffiti vandals to community service work.

Madam Speaker, I ask my colleagues to join me in recognizing Alderman Richard Mell and his extraordinary career, and thank him for his many outstanding contributions to the City of Chicago and its citizens. His commitment to public service stands as an example to us all.

H. RES. 543, DESIGNATING JUNE AS HOME SAFETY MONTH

HON. MAXINE WATERS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Ms. WATERS. Madam Speaker, I am proud to be a consponsor of this of this legislation, which recognizes June as Home Safety Month.

I would like to thank Congresswoman HALVORSON for her leadership in introducing this resolution and her commitment to the safety of America's homeowners.

At a time when we are encouraging homeowners to stay in their homes and increasing our efforts to spur new homeownership, we must also recognize the importance of ensuring the safety of homeowners within their homes.

Each year, 20,000 deaths and an average of 21 million medical visits result from unintentional injuries in the home, according to the Home Safety Council. The top five causes of unintentional home injury deaths include, falls, poisoning, fires or burns, choking or suffocation, and drowning. Such home injuries can cost employers up to $38 billion dollars a year.

Many of these deaths and injuries could have been prevented if homeowners were equipped with the knowledge of simple and inexpensive steps to reduce the injury of risk in each area of the home.

Furthermore, children and older adults have increased rates of unintentional home injury. We must encourage adults, parents, caregivers to take greater actions to reduce unintentional injuries to protect the most vulnerable family members.

H. Res. 543 encourages manufacturers to develop innovative safety products and features to help lessen home injuries and accidents and encourages all levels of government to support funding for critical home safety education programs to reduce the risks from home injuries.

I strongly support H. Res. 543 and cannot stress enough how home safety education and awareness can help saves lives and money.

I urge all of my colleagues to support this important resolution.

RECOGNIZING THE SERVICE OF COLONEL KIRK W. HYMES

HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. MURTHA. Madam Speaker, I rise today to honor the service of Colonel Kirk W. Hymes, U.S.M.C., the director of the Joint Non-Lethal Weapons Directorate. After 26 years of honorable and distinguished service to our great nation, Colonel Hymes will be retiring.

Colonel Hymes is a native of Altoona, Pennsylvania and graduated from the United States Naval Academy. After attending the Basic School, he trained at the Field Artillery Officer Basic Course at Fort Sill, Oklahoma. He also attended the Amphibious Warfare School in Quantico, Virginia and the Industrial College of the Armed Forces.

Colonel Hymes served in a number of different places and in a variety of capacities, including the Recruiting Station in Harrisburg, Pennsylvania where he served as the Operations Officer and Executive Officer and Twentynine Palms, California where he served with the 5th Battalion, 11th Marines. He also carried out a Unit Deployment to Okinawa, Japan and deployed with the 31st MEU (SOC). Following his return he became the Director of the 11th Marines Artillery Training School.

Subsequently, Colonel Hymes became the Fire Support Operational Test Project Officer at the Marine Corps Operational Test and Evaluation Activity, Quantico, Virginia. After transferring to the 2d Marine Division, Camp Lejeune, North Carolina he served with the 10th Marine Regiment where he was the Operations Officer and Executive Officer for 2d Battalion, 10th Marines and then the Regimental Operations Officer.

After reporting to Okinawa for duty with III Marine Expeditionary Force, he served in the G–3 Exercise Branch as the South East Asia Exercise Branch Head and Tandem Thrust Exercise Planner. He then returned to Twentynine Palms, California for duty as the Commanding Officer, 3d Battalion, 11th Marines where he deployed the battalion to support Operation Enduring Freedom and then Operation Iraqi Freedom. Colonel Hymes was later assigned to the Expeditionary Force Development Center at the Marine Corps Combat Development Center as the Integration Branch Head and Deputy Director for Operations.

Madam Speaker, throughout his career, Colonel Hymes received many personal awards including the Bronze Star with Combat "V", the Meritorious Service Medal with four Gold Stars, the Navy Marine Corps Achievement Medal, and the Combat Action Ribbon. Upon his retirement, I commend him for his outstanding service and wish him the best of luck in all of his future endeavors.

EARMARK DECLARATION

HON. TODD TIAHRT

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. TIAHRT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996—the Department of Interior, Environment, and Related Agencies Appropriations Act, 2010:

H.R. 2996 includes $500,000 for a State and Tribal Assistance Grant to the City of Rose Hill, Kansas, for improvements to the city drainage system. The entity to receive funding for this project is the City of Rose Hill, 125 W. Rosewood, PO Box 185, Rose Hill, Kansas 67133.

This funding will facilitate the installation of a 48-inch drainage pipe, which will allow the area to handle up to a 10-year storm event, protecting homes in the area.

EARMARK DECLARATION

HON. MICHAEL K. SIMPSON

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. SIMPSON. Madam Speaker, in accordance with the policies and standards put forth by the House Appropriations Committee and the GOP Leadership, I would like to list the congressionally-directed projects I requested in my home state of Idaho that are contained in the report of H.R. 2996, the FY2010 Interior, Environment, and Related Agencies Appropriations Bill.

Project Name: City of Buhl Wastewater System Improvements

Amount: $500,000

Account: EPA/STAG

Recipient: City of Buhl

Recipient's Address: 203 North Broadway, Buhl, ID 83316

Description: The city is periodically exceeding the NPDES limitations under the Clean Water Act and was recently fined by EPA for non-compliance of their pH, Total Suspended Solids (TSS), and Biochemical Oxygen Demand (BOD) limitations. IDEQ and EPA have mandated that the city build a new wastewater treatment center. Buhl, a town of less than 5,000 residents, recently passed a bond election for $15 million to help pay for the required improvements to their water system. The loan funds will be a burden to the residents—many of whom are elderly (19% of the community) and the majority of whom are low to moderate income—and will increase monthly water bills by over $100, but even this will be unsustainable without additional assistance. Funding for this project will enable the city build a new wastewater treatment center that would meet the Federal and State mandates imposed on the community.

Project Name: Historic Old Pen Site Stabilization Project

Amount: $150,000

Account: National Park Service/Save America's Treasures

Recipient: Idaho State Historical Society

Recipient's Address: 2205 Old Penitentiary Road, Boise, ID 83712

Description: This project will provide stabilization to the Old Idaho State Penitentiary historic site, which is operated by the Idaho State Historical Society. The Old Pen is one of the West's most significant prison sites and one of the most visited cultural facilities in Idaho. It thus plays a key role in the economic vitality of Boise and the Treasure Valley. Funding would be used for work needed immediately to stabilize the site. In addition, funding would be used for a historic structures report to help better anticipate future maintenance and repair needs before they become emergency situations.

Project Name: Idaho Sage-Grouse Management Plan

Amount: $500,000

Account: Fish and Wildlife Service/ESA Resource Management

Recipient: Idaho Governor's Office of Species Conservation

Recipient's Address: 300 N. 6th Street, Boise, ID 83702

Description: Sage-grouse are on the verge of being listed under the Endangered Species Act, with a decision on listing expected this spring. Idaho is taking proactive steps to recover this species before a listing is required. The management plan, which is a partnership with private landowners, is an attempt to be wise stewards of the nation's wildlife without being compelled to do so by law.

Project Name: Piva Parcel Land Acquisition

Amount: $400,000

Account: USFS/Land Acquisition

Recipient: U.S. Forest Service, Sawtooth National Recreation Area

Recipient's Address: 5 North Fork Canyon Road, Ketchum, ID 83340

Description: Funds will be used to enable the Forest Service to acquire the 160-acre Piva parcel from a willing seller so that it can be used for public recreation and access to the Redfish Lake recreation area from the town of Stanley. The Forest Service currently has a conservation easement on the property, but acquiring the land is necessary to carry out planned improvements.

Project Name: SNRA Trail Maintenance and Improvements

Amount: $1,200,000

Account: Capital Improvements and Maintenance (Trail Construction)

Recipient: U.S. Forest Service, Sawtooth National Recreation Area

Recipient's Address: 5 North Fork Canyon Road, Ketchum, ID 83340

Description: Funds will be used for trail construction, maintenance, and improvement in the Sawtooth National Recreation Area. Of the funds appropriated for trail maintenance and improvement in the Sawtooth National Recreation Area, $500,000 is for trail improvements; $500,000 is for maintenance of existing motorized trails and areas; and $200,000 is for the improvement of two existing trails to provide primitive wheelchair access at Murdock Creek and Phyllis Lake.

I appreciate the opportunity to provide a list of congressionally-directed projects in my district that have received funding in the Interior, Environment, and Related Agencies Appropriations Act for FY2010 and provide an explanation of my support for them.

IN RECOGNITION OF MR. SCOTT F. LARGE

HON. SILVESTRE REYES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. REYES. Madam Speaker, I rise today to pay tribute to a man of great integrity, intelligence and insight, Mr. Scott F. Large, on the occasion of his retirement after 23 years of distinguished service to the Intelligence Community.

I have had the pleasure of working with Mr. Large throughout his tenure as the Director of the National Reconnaissance Office. When he assumed this role in 2007, the organization was undertaking significant transformation that he helped initiate in earlier leadership roles. He carefully guided changes to strengthen his organization's role as the nation's primary source of space reconnaissance for military and intelligence forces.

Mr. Large's prior assignments prepared him well for this leadership role. He served as the Principal Deputy Director of the National Reconnaissance Office from April, 2007 until his appointment as Director later that year. He also served as Director of the Imagery Systems Operations and Acquisition Directorate from 2003 to 2006, during a period of significant technological and programmatic challenges.

Mr. Large has carried out leadership assignments in two other intelligence community organizations. He was Director of the Source Operations and Management Directorate at the National Geospatial-Intelligence Agency. He also served in the Central Intelligence Agency's Directorate of Operations and as Associate Director of the Science and Technology directorate, leading technology development programs. Mr. Large made fundamental contributions to these programs and helped establish them as some of the nation's premier intelligence efforts.

Mr. Large's determination to lead fundamental changes in his organization, his willingness to assume leadership roles in other intelligence organizations, and his ability to facilitate collaborative partnerships with other elements of the Intelligence Community are testament to the quality of his leadership.

In announcing that he was stepping down as Director of the National Reconnaissance Office, Mr. Large reminded his workforce of the critical role of space reconnaissance to the nation: For nearly 50 years the NRO has provided this nation with an undeniable intelligence and operational advantage. Today the NRO continues to provide mission critical information to all of our end users. We are clearly on the verge of taking our mission to the next level and have set in motion strategic initiatives which will clearly demonstrate the importance of what you do.

The nation's space reconnaissance workforce and systems are better positioned to contribute to the nation's defenses as a result of the leadership of this public servant. For this, we thank Mr. Large and wish him continued success in all of his future endeavors.

PERSONAL EXPLANATION

HON. NEIL ABERCROMBIE

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. ABERCROMBIE. Madam Speaker, I regret that I missed rollcall vote No. 297, 389, 392, 394 and 405. Had I been present, I would have voted "yea" on all rollcall votes No. 297, 392, and 394. I would have voted "nay" on rollcall votes No. 389 and 405.

IN RECOGNITION OF THE TENTH ANNIVERSARY OF THE OLMSTEAD DECISION SUPPORTING CIVIL RIGHTS FOR PERSONS WITH DISABILITIES

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. DAVIS of Illinois. Madam Speaker, I want to take this moment to recognize the tenth anniversary of a monumental United States Supreme Court decision that represented a great advance in our contemporary civil rights struggle. On June 22, 1999, the United States Supreme Court asserted the right of individuals with disabilities to reside in their community via a 6–3 ruling. The Olmstead v. L.C. decision stated that making services for disabled individuals available only in institutions, thereby forcing them out of their homes, went against the Americans with Disabilities Act. Essentially, the Olmstead decision clarified the fact that the Americans with Disabilities Act gives individuals with disabilities the right to choose to receive their care in the community rather than in an institutional setting. Provision of care within one's community via personal care assistants is cost-effective and improves the quality of life of persons with disabilities. Studies show the cost of providing services in the community is much lower than in institutionalized settings, thereby allowing more individuals to receive services for the same cost. In addition, the ability to receive community based services and supports improves the ability of persons with disabilities to lead independent lives, work, and participate in their communities.

The federal government bears the responsibility of restructuring our current health care system. The inequities that exist in our health care system are profoundly disturbing. It is essential that we take the steps necessary to create an overhaul of the health care system that is both moral and practical. As Reverend Dr. Martin Luther King, Jr., once said: "Of all the forms of inequality injustice, health care is the most shocking and inhumane." In this spirit, I urge concerned citizens to mobilize to help us create a system that best serves those in our society who have limited resources.

As a policymaker who is adamant about improving health care for persons with disabilities, I believe it is imperative that the health care reform legislation that Congress intends to enact this year take a substantial step forward in requiring that all Medicaid-eligible individuals with disabilities have a choice between receiving care at home or in an institution. The option to receive care in one's community is critical to conforming to the goal of the Americans with Disabilities Act and with the Olmstead decision.

The Olmstead decision was a great step forward in allowing persons with disabilities the option to receive care in their own community. The tenth anniversary of the Olmstead decision symbolizes the struggle to create more options in our current health care system. We must strive to include the tenets of the Olmstead decision in our health care reform plans. Including provisions that provide choice in location of care to Medicaid-eligible persons with disabilities in comprehensive health care reform legislation would be a wonderful way to mark the tenth anniversary of the Olmstead decision.

INTRODUCTION OF THE COMPREHENSIVE COMPARATIVE STUDY OF VACCINATED AND UNVACCINATED POPULATIONS ACT OF 2009

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mrs. MALONEY. Madam Speaker, today, I am reintroducing bipartisan legislation that I hope will resolve the question of whether there is any link between the increased incidence of neurological disorders, including autism, and the use of certain vaccines and/or multiple vaccine schedules. Vaccines have been instrumental in reducing the incidence of many once-common diseases. However, there continue to be questions raised in numerous media reports, and by medical professionals, regarding the safety of vaccines and multiple vaccine schedules while there have been no comprehensive studies comparing the health outcomes between vaccinated and unvaccinated populations.

We owe it to parents and children to study and resolve the question of a possible link between vaccines and neurological disorders. The comprehensive national study comparing outcomes between vaccinated and unvac-

cinated children mandated by this legislation would help resolve this controversy once and for all. As the most scientifically advanced country in the world, we should be jumping at the chance to conduct a comprehensive national study and help ensure absolute trust in our nation's vaccine program. Parents deserve answers, and children deserve no less than absolute certainty and safety when it comes to their health, which is why I am pleased to reintroduce this legislation today.

INTRODUCTION OF THE GLOBAL WILDLIFE CONSERVATION, COORDINATION AND ENHANCEMENT ACT OF 2009

HON. MADELEINE Z. BORDALLO

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Ms. BORDALLO. Madam Speaker, as our understanding of human impacts on the environment grows, so too, must our commitment to the protection and conservation of the world's fish and wildlife resources. The United States is largely regarded as the global frontrunner in international fish and wildlife conservation. Our nation has a longstanding history of sharing our knowledge, technical abilities, and experience gained through the North American Model of Wildlife Conservation to aid other countries in the conservation of their wildlife and wildlife habitat. Unfortunately, wildlife conservation resources, including trained wildlife professionals and basic logistical and communication tools, still commonly remain unavailable in many foreign range states that are home to globally significant species.

Notwithstanding the many successful conservation initiatives implemented by the United States Fish and Wildlife Service around the world through its programs such as Wildlife Without Borders Program, there remains a glaring need to improve coordination and collaboration within the Federal government. In addition, improving cooperation between the Federal Government and non-governmental organizations to increase public awareness about illegal and unsustainable wildlife trade, to raise awareness about the implications of global biodiversity loss, to enhance assistance to range states in the conservation of their wildlife, and to close existing gaps in current conservation activities, is necessary and long overdue.

The Global Wildlife Conservation, Coordination and Enhancement Act of 2009, which I have introduced today, would address these needs by consolidating and enhancing the authority of the Secretary of the Interior to specifically conduct fish and wildlife conservation activities internationally. This legislation reflects the solid input gained through two oversight hearings conducted by the Committee on Natural Resources during the 110th Congress. The bill also benefits from extensive dialogue with wildlife conservationists, zoo and aquarium professionals, law enforcement experts, animal health and welfare organizations, and other stakeholders.

Title I of the bill would create an Institute for International Wildlife Conservation within the United States Fish and Wildlife Service, through which the Department of the Interior's international conservation initiatives would be coordinated and collaborative partnerships built. The Institute, which would enhance and strengthen the Service's existing International Affairs Office, would have authority to carry out a targeted public education and awareness campaign to better inform U.S. consumers of the illegal trade in wildlife and wildlife products, and most important, what they can do to limit the United States as a market for illegal contraband.

The Institute also would be empowered to provide financial, educational and technical assistance to range states and other partner institutions to support capacity building, to create and enhance locally adapted wildlife management programs abroad, and to develop professional cadres of wildlife conservationists in the United States and abroad. In addition, the Institute, through its Center for International Wildlife Recovery Partnerships, would provide a forum for the active collaboration of federal, state, tribal, local, and non-governmental entities regarding wildlife conservation and the care, rehabilitation and recovery of threatened and endangered wildlife species.

Title II of this bill would create a Global Wildlife Coordination Council within the Executive Branch in recognition of the fact that international wildlife conservation is a multi-dimensional issue that requires the broad involvement of the Federal Government to be successful. This Council, which is patterned after the highly successful United States Coral Reef Task Force, would be comprised of various Federal agencies with a responsibility and stake in global wildlife conservation. To comprehensively address the myriad threats confronting global wildlife, this Council would be tasked to develop a cross-cutting strategy to better utilize existing resources to increase Federal coordination without creating new bureaucracy.

In closing, the illegal wildlife trade, which has received considerably less public attention than the illegal trade in narcotics and weapons, is an increasing challenge threatening not only the conservation of biodiversity but also the social, political and environmental stability of range states throughout the world. Congress must act to ensure that the Federal Government has the authority and tools it needs to promote the conservation of wildlife resources abroad, to protect the environmental health and security of the United States today, and ensure that we pass on those resources to future generations.

I look forward to working with my colleagues on both sides of the aisle to advance this legislation and to strengthen the abilities of the Federal Government to provide critical wildlife conservation support around the world and to maintain the United States' leadership role internationally in wildlife conservation.

TRIBUE TO FRANK REYES

HON. JOE BACA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. BACA. Madam Speaker, I stand here today to honor the career and contributions of a longstanding community activist, dear friend, loving husband, and father—Frank Reyes.

After 32 years of loyal service to the Inland Empire of Southern California, Frank recently announced his retirement from his post as Executive Director of Governmental Relations for the San Bernardino City Community College District (SBCCD).

Frank has made San Bernardino, California, his home since first immigrating to the United States from Guadalajara, Mexico, at age 12. He attended San Bernardino High School and Valley College before earning his degree in business from Cal State San Bernardino.

While Frank's academic background is in business, his true passion lies in the field of education. Before joining SBCCD, Frank worked as both a professor and a student counselor. During his tenure at SBCCD, Frank's strong leadership helped secure over $100 million in grant money for both Crafton Hills College and San Bernardino Valley College.

Frank has received numerous Community Awards, from myself and many others for his excellent work in the areas of education, county safety, and community leadership.

Frank has been an active member of many distinguished professional organizations, including, the Hispanic Association of Colleges and Universities, the California Teachers' Association, the California Community College Counselors Association, the Association of Mexican American Educators, and the Inland Empire Latino Business Council.

In addition, Frank has been involved in numerous philanthropic activities in the San Bernardino area. He is a board member with Hands of Mercy, which builds homes for the needy in Ensenada, is an active member of the Kiwanis Club of Greater San Bernardino, and has been very involved with the Jerry Lewis Fire Training Facility. I know Frank will continue to work tirelessly, even in retirement, to support the causes he believes in.

I have had the great privilege of becoming close, personal friends with Frank, his wonderful wife, Eloise, and their son Christopher. In addition to being an outstanding husband and father, Frank has always been a strong supporter to me and my family, and for that—I am forever grateful.

My wife Barbara and I, my sons Councilman Joe Baca Jr. and Jeremy, and my daughters Natalie and Jennifer cherish their friendship, and are appreciative of all they have done over the years to create positive change in the Inland Empire.

In fact, I gave Eloise Reyes a ''Woman of the Year'' award in 1993, when I was in the California State Legislature. She was recognized for all her great work in the community, and for being a true trailblazer as the first Hispanic, female attorney in the Inland Empire.

Madam Speaker, my good friend Frank Reyes has lived a true life of service. He is a perfect example of what one can achieve with hard work, dedication, faith in God, and love in family and friends. My family and I congratulate him on a wonderful career, and wish him nothing but the best in retirement.

WHITMAN HOSPITAL AND MEDICAL CENTER OF COLVILLE, WASHINGTON

HON. CATHY McMORRIS RODGERS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mrs. McMORRIS RODGERS. Madam Speaker, I rise today to recognize Whitman Hospital and Medical Center in Colville, Washington. Whitman Hospital, founded in 1893, has carried out its mission of providing medical care to members of the rural community in Northeast Washington for over 115 years.

Whitman Hospital and Medical Center is dedicated to assuring medical service is provided in accordance with its core values of respect, compassion, teamwork, stewardship, and responsiveness to the community. In addition to emergency services and surgery, the Medical Center operates a variety of clinics to support non-critical community health, such as allergy, cardiology, neurology, and ear, nose and throat conditions. The Whitman Hospital and Medical Center also provides opportunities for health education through classes, programs, and training seminars. The hospital proved its resilience by winning the ''Top 100 Benchmark Hospital'' award in 1994 and 1995 despite nearly closing due to financial difficulties in the late 1980s. Whitman Hospital and Medical Center's employees have contributed to providing the rural counties of Northeast Washington the kinds of healthcare options often only available in large urban centers.

Currently in the second stage of a $19 million building and expansion project, the hospital and medical center continues to strive to provide better and more varied healthcare options. In its first stage of construction, the hospital constructed a new facility to house a 25-bed inpatient center, labor and delivery rooms, and radiology clinic. The current construction stage, scheduled for completion in late summer, 2009, involves remodeling several current operations, such as the respiratory therapy clinic and pharmacy.

Madam Speaker, I believe the ongoing efforts to provide excellent medical assistance to the counties of Northeast Washington make the Whitman Hospital and Medical Center worthy of recognition before this body. I invite my colleagues to join me in honoring Whitman Hospital and Medical Center by observing over 115 years of continuing dedication to community health services and education.

CELEBRATING THE 75TH ANNIVERSARY OF BROOKFIELD ZOO, COOK COUNTY, IL

HON. DANIEL LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. LIPINSKI. Madam Speaker, I rise to commemorate the Chicago Zoological Society's Brookfield Zoo, which is celebrating its 75th anniversary. Located in Cook County, just outside Chicago and in my district, Brookfield Zoo has consistently been a leader in cutting edge animal science, zoo management and education programs. The zoo has been and will continue to be a wonderful resource for the people of metropolitan Chicago, the State of Illinois and beyond. I ask my colleagues to join me today in honoring Brookfield Zoo on the occasion this distinguished anniversary.

Brookfield Zoo, owned by the Forest Preserve District of Cook County and managed by the Chicago Zoological Society, has a stated mission to ''inspire conservation leadership by connecting people with wildlife.'' It plays host to 2.1 million visitors annually, and cares for 3000 animals representing 450 different animal species.

Brookfield Zoo first opened to the public in 1934. Following the overwhelming approval of a referendum by the people of Cook County, construction began on the Zoo in 1926. While the onset of the Great Depression hindered progress, the federal Civil Works Administration (CWA) assisted in completing construction of the Zoo, and today many of the original, historic CWA buildings remain in use at the Zoo.

Brookfield Zoo has been an innovative leader among zoos. Notably, the zoo was one of the first ''bar-less'' zoos in North America. A revolution among zoos began in Europe in 1900, where cramped cages were disdained in favor of spacious enclosures, surrounded by moats and landscaped in natural settings. This was based on the belief that 'animals should be exhibited in as near natural conditions as possible', for the benefit of both the animal and the viewing public. Brookfield Zoo was designed with this modern concept in mind, and creatively overcame the challenges involved in maintaining safe, cageless environments in the northern climate of Chicago. Today, exhibits maintain their modern approach through a focus on ecosystems, incorporating native plants into animals' habitats.

Another ''first'' was the creation of a specific Children's Playground at the Zoo in 1937, which was later formalized into the Children's Zoo in 1953. This facility provided children not only with a location to play, but also enabled them to interact with animals, including goats, ducks, and lambs. Following the successful development of these facilities, Brookfield Zoo became the first zoo in North America to exhibit giant pandas in 1937, to breed black rhinos (1941) and okapi (1959) in captivity, and created the first inland ''Dolphinarium'' in 1960. It was also among the first to open a zoo animal hospital and to launch animal nutrition programs.

Just like millions of others, I have fond memories of Brookfield Zoo from my childhood. Growing up in Chicago, I was a member of the zoo for many years when I was in grade school and high school. It was a fun and safe place to go at all times of the year. Although I did not think about it at the time, I received a great education at Brookfield Zoo, including learning about not only animals and habitats around the world, but also the environment and environmental stewardship.

Education is something that Brookfield Zoo is strongly committed to. Last year, 250,000 students participated in school field trips to Brookfield Zoo, and more than 1,700 teachers participated in training and certification programs there as well. Facilities such as Brookfield Zoo are important sources of informal science education, which can develop interest among children in future technological and scientific scholarship and careers. Brookfield Zoo has a remarkable research and professional training program organized under the Center for the Science of Animal Well-Being. Through the Chicago Zoological Society, field programs are sponsored and undertaken, now including long-term research on bottle nose dolphins, western lowland gorillas, and African lions, among other species.

I would like to commend Brookfield Zoo, as well as the Chicago Zoological Society, on their successful completion of 75 years of operation, and their continuing efforts to promote conservation leadership through education, research and family enjoyment. Congratulations on this notable anniversary, and I wish Brookfield Zoo and its dedicated staff and leadership many more years of success, effective research, and valuable education and outreach.

STATEMENT ON JANE MARGARET O'BRIEN AND TORRE MERINGOLO

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. HOYER. Madam Speaker, I would like to recognize the efforts of two individuals who have been key in the success of St. Mary's College of Maryland. Unfortunately, both of them have chosen to move on to new challenges and will be leaving this summer, so I wanted to reflect on the incredible contributions they have both made to the College.

Jane Margaret O'Brien leaves as the president of St. Mary's College of Maryland, having served in that capacity since 1996. Maggie is a personal friend and I want to salute her years of leadership as President, along with Torre Meringolo, who has served during much of that time as Vice President for Development. Together, they brought to St. Mary's College a strong reputation for excellence in scholarship, research, and community engagement.

Dr. O'Brien received her bachelor's degree from Vassar College in 1975 with a major in biochemistry. She completed a Ph.D. in chemistry at the University of Delaware in 1981. In her early academic career she was a member of the chemistry and biochemistry department at Middlebury College where she also served as dean of the faculty. She was president of Hollins University from 1991–96.

Dr. O'Brien received a Kellogg National Leadership Fellowship from 1989–92, served as an International Fellow with the American Association of Colleges and Universities in 1990–91, and was an Eisenhower Fellow to Malaysia and Hungary in 1999. She is a member of Phi Beta Kappa and the science honors society Sigma Xi. After stepping down as president, Dr. O'Brien will continue to work for the College with the Centre for Medieval and Renaissance Studies in Oxford, England.

Dr. O'Brien assumed her post in July 1996 and dedicated herself and the College to the newly adopted Honors College Curriculum.

She provided critical guidance to the College's external relations and fundraising, which included the $40 million Heritage Campaign in support of the faculty's academic leadership, the extension of the residential college, and the enhancement of community programs. Fundraising during Dr. O'Brien's tenure reshaped the College's scholarships, professorships, lecture and learning series, and arts, athletic, and community programs. External support made possible the Paul H. Nitze Scholars Program, the annual River Concert Series, over 40 new scholarships, nine endowed professorships and chairs, and many student and faculty awards presented at the annual Awards Convocation.

The Center for the Study of Democracy was established with a $2 million NEH grant and challenge matches. Private funds now support the William Donald Schaefer Internships, the Ben Bradlee Lectures, the Andrew Goodpaster Lecture Series and the Patuxent Defense Forum.

In honoring the successful accomplishments at St. Mary's College under Maggie's leadership, we should also recognize the accomplishments of Torre Meringolo, who has been instrumental in carrying out much of Maggie's vision for the College. Torre also leaves this month after serving most of his 15 years at St. Mary's College as the Vice President for Development. He has accepted the position of vice president for university advancement and external relations at the University of Mary Washington.

Torre leaves a proud record of accomplishment at St. Mary's. Hired originally as director of the library and information services, he directed a comprehensive modernization effort that encompassed library partnerships with the University of Maryland System, raised $2 million for library endowment, and provided the foundation for a contemporary IT system. Torre's previous employment at the University of Massachusetts at Amherst, Penn State University, and UNC Charlotte brought a strong knowledge of information systems to St. Mary's, which he deftly adapted for a smaller-scale campus with modest resources.

In concert with Trustee Terry Rubenstein, chair of the board's development committee, Torre led a professional development team that successfully completed a $40.4 million campaign. During his time, endowment funds at the College grew to over $24 million. Torre worked to create a modern, professionally run Foundation, which granted over $16 million for the College's programs over the past 10 years. His passion for supporting students with financial needs made possible the graduation of many alumni.

Under Torre's leadership, the Alumni Office now serves 11,000 proud alumni with regular events and mailings to keep alumni involved and informed. His work has led to the creation of major campus events such as Reunion Weekend, Governor's Cup, Madrigals, and now the River Concert Series on the Townhouse Greens, all successful programs that bring thousands of alumni and friends to the College annually.

As Maggie O'Brien and Torre Meringolo depart, St. Mary's College is today a nationally recognized leader. Newsweek has called it ''an Ivy-level College with a public-school price tag.'' It is now consistently ranked as one of the best liberal arts schools in the nation by U.S. News and World Report, and the Princeton Review named it a ''best value college'' this year.

I want to congratulate Maggie and Torre for their contributions to higher education. Their accomplishments at St. Mary's College of Maryland have greatly benefitted their community and our State of Maryland. Both of them will be sorely missed.

HONORING CAPTAIN MARK GINDA FOR HIS LEADERSHIP OF NAVAL SUBMARINE BASE NEW LONDON

HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. COURTNEY. Madam Speaker, I rise today to honor Captain Mark S. Ginda, who, after three years of service as Commanding Officer at Naval Submarine Base New London, will be moving on to his new position at the Defense Liaison Division in Washington, DC.

Captain Mark Ginda has served our nation through his service in the Submarine force since 1982, when he graduated from the United States Naval Academy. He went on to serve on the USS George C. Marshall (SSBN 654), USS Alexander Hamilton (SSBN 617), USS Sand Lance (SSN 660) and commanded the USS Pasadena (SSN 752). Back on shore, Captain Ginda served as an instructor at Naval Nuclear Power School, flag aide to the Commander of the Atlantic Fleet, directed readiness preparations at Submarine Squadron FIFTEEN in Guam, helped to coordinate intelligence, surveillance and reconnaissance (ISR) resources at the United States Strategic Command.

In August 2006, Captain Ginda became the 48th Commanding Officer of Naval Submarine Base New London. Since then, he has overseen one of our nations most historic and important naval bases, which covers 680 acres, serves as home to 70 tenant commands, and supports the officers and crew of nearly one-quarter of our attack submarine fleet. He has done so with enthusiasm, with passion and with a dedication not only to strengthening the base for the future, but with a renewed commitment to our nation's most import asset: the young Americans who serve our nation.

In his three years there, Captain Ginda has overseen a flurry of activity unmatched in the recent history of SUBASE New London. From a new crane facility at the waterfront, to a long-needed renovation of the Liberty Center for bachelor sailors, the completion of an initiative to improve housing options and a number of other critical projects, there isn't a corner of the base where Captain Ginda hasn't had an impact. Under his leadership, SUBASE embarked on one of the most ambitious demolition projects in the Navy, pulling down more than 35 buildings and structures through a more than $18 million undertaking of projects that will trim down the excess infrastructure at the base and lower operating costs. He's also been a commander who takes things into his own hands, and recently manned the controls of a backhoe and helped demolish buildings.

More important than the bricks and mortar, however, has been Captain Ginda's efforts to improve the quality of life for the sailors, and their families, stationed at SUBASE New London, and breath new life into the base not just as a military facility—but as a home to its residents and a contributing member of the southeastern Connecticut community.

Not too long ago SUBASE New London was threatened with closure. While advocates and supporters from across the state joined together to reverse this decision and keep the base open, there hung over the base a sense that it was a ''relic,'' that it was somehow an outdated and gloomy place in which to serve. Each and every day since arriving at the base, Captain Ginda worked to reverse that perception by reconnecting the base with the community around it, by looking forward at what the base could be, and by ensuring that the base is able to accomplish its most important goal—the support of the sailors and families who make up our submarine force.

Not too long after Captain Ginda took command of the base, I was honored to be elected as the representative of the second Congressional district of Connecticut. As a new member from the other side of the district, it was important for me to get up to speed fast on the needs of the base and the challenges it faced. From day one, Captain Ginda made sure to reach out to me, and take the time to walk me through his vision for the base and ensuring that no question of mine went unasked. His help, and counsel, was instrumental in making sure I had the knowledge I needed to come to Washington to advocate on behalf of the base and its importance to our nation. I am so grateful for his assistance and the close working relationship he has had with me and my office. I am also especially thankful for the warm friendship that he and his wife, Terry, have shown and their efforts to ensure that I felt at home as a member of the SUBASE New London community.

Madam Speaker, it has truly been an honor to work with Captain Ginda, and I have no doubt that his legacy will be felt at the base and in the region for some time to come. He has been a terrific resource for me and my office, a trusted advocate for his base, and a respected partner in the southeastern Connecticut community. I ask all my colleagues in joining me in thanking Captain Ginda for his service to the Navy, recognizing his tireless efforts at SUBASE New London, and in wishing he and Terry good luck as they prepare to move on to this next step in their lives.

TRIBUTE TO CHARLES PRATHER, FIRE CHIEF ORANGE COUNTY FIRE AUTHORITY

HON. KEN CALVERT

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. CALVERT. Madam Speaker, I rise today to honor and pay tribute to an individual whose dedication and contributions to the community of Orange County, California are

exceptional. Orange County has been fortunate to have dynamic and dedicated community leaders who willingly and unselfishly give their time and talent and make their communities a better place to live and work. Fire Chief Charles "Chip" Prather is one of these individuals. Chief Prather is retiring from the Orange County Fire Authority (OCFA) and today I honor his years of public service.

Chief Prather became Fire Chief for the Orange County Fire Authority on October 1, 1997. In this capacity he is responsible for the daily operation of one of the largest fire organizations in the State of California. Under Chief Prather's direction are a total of 1,500 firefighters, reserves and professional staff. The OCFA serves 22 cities and unincorporated areas of Orange County, with a total population of more than 1,300,000, from 62 fire stations and has an annual operating budget of 260 million dollars.

In addition, Chief Prather currently serves on the Orange County Emergency Council, Chairs the Orange County Emergency Operational Area Council, Fire Scope Board of Directors, Co-chairs an Orange County Joint Law/Fire/Health anti-terrorism advisory committee and is a member of the California Fire Chiefs Association Executive Board of Directors. In 2002, Chip was appointed by Governor Davis to the State Emergency Council which advises the Governor on policy matters during times of disaster and served on the states 2003 Blue Ribbon Fire Commission.

Chief Prather is also is a member of The Raise Foundation's Advisory Board (formerly Prevent Child Abuse Orange County), serves as a member of the Salvation Army Advisory Board and the Trauma Intervention Program Advisory Board and numerous other boards and commissions. Chief Prather was honored as the recipient of the Boy Scouts Spurgeon Award 2000 for his involvement in Explorer Scouting and in 2002 was selected as the Fire Chief of the Year by the California Fire Chiefs Association.

Chief Prather is a member of the following organizations: Orange County Chambers of Commerce, International Association of Fire Chiefs, Metropolitan Fire Chiefs' Association, California Fire Chiefs' Association, California State Firefighters' Association, the Orange County Fire Chiefs' Association and the National Fire Protection Association.

Chip holds a Bachelor of Arts Degree in Management and has completed the Harvard University John F. Kennedy School of Government Program for Senior Executives in state and local government. He has also attended the United States Fire Administration National Fire Academy, completing the Executive Fire Officer Program.

Chief Prather and his wife Katie live in San Clemente California with their two children.

Chief Prather's tireless passion for community and public service has contributed immensely to the betterment of the community of Orange County, California. I am proud to call Chip a fellow community member, American and friend. I know that many community members are grateful for his service and salute him as he retires.

MT. CARMEL HOSPITAL OF COLVILLE, WASHINGTON CELEBRATES 90TH ANNIVERSARY

HON. CATHY McMORRIS RODGERS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mrs. McMORRIS RODGERS. Madam Speaker, I rise today to recognize Mt. Carmel Hospital in Colville, Washington. Mt. Carmel Hospital was founded in 1919 as a non-profit, critical access, Catholic hospital and is currently run by the Sisters of Providence. For 90 years, the hospital has carried out its mission of providing medical care to members of the rural community in the Stevens, Ferry, and Pend Oreille counties of Northeast Washington.

Mt. Carmel Hospital is dedicated to assuring medical service is provided in accordance with its core values of respect, compassion, justice, excellence, and stewardship. In addition to its operating emergency services, a surgery center, rehabilitation, and diagnostic imaging, Mt. Carmel serves the community's underprivileged and provides education to professionals and laymen alike. Through their partnership with various other regional nonprofits, such as Christ Clinic and Project Access, Mt. Carmel compassionately reaches out to those who have limited or no health insurance. Additionally, the hospital's Resident Physician program offers training for new medical personnel while its Community Health Education Center provides classes and support groups on awareness and health improvement opportunities. The excellent care and community support contributed by Mt. Carmel Hospital offers the rural counties of Northeast Washington the kind of healthcare options often only available in large urban centers.

In early June, 2009, Mt. Carmel Hospital completed its renewal and expansion project, which doubled the hospital's size and renovated the existing building. Construction of the new hospital building will increase the hospital's area by 70,000 square feet, which will include a new inpatient facility and an expanded outpatient area, emergency room, and laboratory, as well as other additions.

Madam Speaker, I believe the ongoing efforts to provide excellent medical assistance to the counties of Northeast Washington make Mt. Carmel Hospital worthy of recognition before this body. I invite my colleagues to join me in honoring Mt. Carmel Hospital and the Sisters of Providence by observing and celebrating 90 years of dedication to wellness and health education in the community.

IN RECOGNITION OF THE THIRTY-SEVENTH ANNIVERSARY OF TITLE IX

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. DAVIS of Illinois. Madam Speaker, I wish to take a moment this week to recognize the thirty-seventh anniversary of Title IX. When I think of this historic legislation that champions equal rights for women, I am reminded of something Betty Friedan said in her book, the Feminine Mystique. She said, "The problem that has no name—which is simply the fact that American women are kept from growing to their full human capacities—is taking a far greater toll on the physical and mental health of our country than any known disease." Ms. Friedan—a leader of the women's rights movement and a founding member of the National Organization for Women—described an ongoing battle; a battle that has plagued our country for far too long.

Title IX was enacted with the purpose of removing the barriers that could negatively constrict the potential of over 50% of our population. This monumental advance in equal rights for women was passed on June 23, 1972, with the goal of prohibiting gender discrimination in education programs, especially concerning athletic opportunities for young men and women. I have time and time again commended this milestone in U.S. legislation for empowering women to engage and contribute positively to society as well as for encouraging women to make responsible decisions.

Upon celebrating the thirty-seventh anniversary of Title IX, it is only right to recognize what has thus far been accomplished since the enactment of Title IX in 1972. In the arena of athletics, we have seen tremendous increases in the participation of women in sports. In 1972, there were merely 294,000 female high school athletic participants, in contrast to the 3.6 million male participants; now, looking at 2006, there has been a 904% increase with just under 3 million female high school athletes. In 1972, only about 30,000 women continued on to collegiate athletic participation, compared to 170,000 male participants. But in 2006, that number also increased exponentially, by 456%, to 167,000 female collegiate participants. In the world of business, the percentage of women general counsels in Fortune 500 companies rose from 4% to 15% between 1994 and 2002. Within the legal profession, the percentage of women in tenured positions at law schools increased from 5.9% in 1994 to 25.1% in 2006. In addition, I am certain that Title IX laid the foundation for other advancements in equal rights for women, such as the Lilly Ledbetter Fair Pay Act of 2009 that President Obama signed into law this January and that I proudly co-sponsored.

Even with this progress, the United States still has quite a journey ahead toward the goal of equality for women. There still exists resistance to efforts to treat women and men equally. Even now there is still a remarkably large gap between the number of female and male high school and collegiate sports participants. Beyond athletics, there still exists gender inequality in the work force on multiple fronts, including: the ratio of male to female professionals; the difference in the earnings of male and female employees; and the ratio of male to female leadership positions in the workforce. It is true that in 2003 female professional earnings had risen to 76% of what their male counterparts were making; nevertheless, 76% is still far less than 100%.

So, I celebrate the advances made during the thirty-seven years since Title IX was enacted, and I promise to continue to dedicate my time and efforts to champion equal rights for women.

IN RECOGNITION OF OFFICER GARLAND C. THOMPSON

HON. PETE SESSIONS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. SESSIONS. Madam Speaker, I rise today to honor Officer Garland C. Thompson's retirement from the United States Capitol Police after thirty-five years of service.

Founded in 1828, the Capitol Police have protected countless lives and secured our nation's historic Capitol complex. Officer Thompson first joined the Capitol Police on June 6, 1975. His deep sense of patriotism and dedication to upholding the rule of law is evident to all. Known as a strict enforcer, Officer Thompson has ensured the safety of elected officials, staffers, journalists, and tourists alike and the corner of First and C Streets will not be the same without his friendly face. I have had the pleasure of knowing him and am proud to call him my friend. I know he will be greatly missed.

Madam Speaker, I ask my esteemed colleagues to join me in expressing our heartfelt gratitude for Officer Thompson's thirty-five years of dedicated service to the Capitol Police and this great Nation. I wish him and his family all my very best.

RECOGNIZING THE 20TH ANNIVERSARY OF THE NATIONAL CENTER FOR BIOTECHNOLOGY INFORMATION

HON. DAVID R. OBEY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. OBEY. Madam Speaker, I rise today, as a member of the House of Representatives who has been intimately involved with the area of biomedical research and health care, to draw the attention of the Congress and the nation to the 20th anniversary of the National Center for Biotechnology Information (NCBI), a national resource for molecular biology information located at the National Library of Medicine, National Institutes of Health (NIH).

I am reminded at this time of our late distinguished colleague Claude Pepper who, in 1987, introduced H.R. 393, a bill to establish a National Center for Biotechnology Information. As he eloquently described it, the Center would deal ''with nothing less than the mystery of human life and the unfolding scroll of knowledge, seeking to penetrate that mystery, which is life itself.'' A quick study, Claude early on concluded there was a growing need to fit together the pieces of the genetic puzzle so as to benefit humankind. Although the term biotechnology was relatively new at that time, there was clear evidence that the whole biotechnology information infrastructure was overloaded and there was an urgent need for developing a central repository for storing and sharing the data resulting from the explosive growth of research in molecular biology. The information-handling organization envisioned in the bill, the National Center for Biotechnology Information, became a reality with the signing by President Reagan of the Health Omnibus Extension Act (P.L. 100–607) on November 4, 1988.

I remember well those early years when a group of Nobel Laureates appeared before the House Appropriations Subcommittee on Health and laid out a vision that revolutionized our understanding of biology and genomics. Chairman Bill Natcher and those of us on the subcommittee enthusiastically supported the Genome Project. Its magnitude was nothing short of President Kennedy's vision of landing a man on the moon for it launched a grand national challenge of utmost importance to human health. NIH Director James Wyngaarden testified that year that we had sequencing data on less than one-tenth of one percent of the human genome. He said then that while the pace of biology research was rapidly accelerating, the ability to analyze and share information was severely constrained and that if we were going to understand the disease process we would need new and better information approaches. Clearly, the organization defined in Claude's bill fit that need and so the Appropriations Committee readily provided the necessary funding for NCBI.

Today molecular biology and genomics are the primary drivers of medical progress. And, under the innovative leadership of Dr. David Lipman, NCBI's first and current director, NCBI's molecular biology information resources are empowering hundreds of thousands of researchers around the world to identify disease-related genes and develop strategies for treating and preventing disease. It's amazing that each and every week researchers are downloading data from NCBI that is equivalent in size—I am told—to the entire contents of the Library of Congress.

The U.S. Congress has encouraged and generously supported the more than 40 database resources developed by the NCBI. The recent legislative requirement that the results of NIH-funded research be made available through NCBI's PubMed Central database will, we believe, accelerate scientific progress and the discovery of new treatments.

Over the past 20 years, the management of biological information has progressed rapidly and has become an integral part of the scientific process. It is now virtually impossible to think of an experimental strategy in biomedicine that does not rely heavily on the kind of resources and tools developed by the NCBI for analyzing molecular and genomic data.

In summary, Madam Speaker, under Dr. Lipman's careful planning and creative stewardship the NCBI has responded successfully to the challenge of the mandate of the 1988 legislation by effectively developing a major national resource for molecular biology information that is greatly benefiting medical researchers, practitioners, educators, and the general public.

I believe that the era of ''personalized medicine''—including highly targeted individualized treatments— will soon be upon us, and NCBI clearly will be a driving force in making that a reality. So I want to offer my congratulations to NCBI's visionary leader, Dr. David Lipman, to NLM's excellent director, Dr. Donald A. B. Lindberg, and to the bright and dedicated staff of the NCBI for 20 years of outstanding public service to the nation and to the world.

HONORING MAYOR WILLIAM HICKS

HON. SHELLEY MOORE CAPITO

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mrs. CAPITO. Madam Speaker, I rise to recognize the remarkable achievements of William ''Bill'' Hicks, the beloved mayor of Romney, West Virginia.

Bill is a veteran of the Second World War's Pacific Theater where he was involved in navigation and sighting for secret bombing missions. Just fifteen days after returning home from the war, he married Thelma Elizabeth Berg on December 27, 1945.

Together, they made Romney their home on July 1, 1964 and have lived there ever since. Bill worked for Western Union Telegraph Company where he played a key role in setting up the first transcontinental microwave relay communications in the U.S. His work involved implementing communications infrastructure for private and government entities located throughout West Virginia and the surrounding areas. Through his work, Bill also developed a passion for public service.

He was first elected to the Romney City Council in 1968 and later was elected as Mayor of Romney in 1991. After more than 40 years of service, Mayor Hicks recently stepped down, but still remains committed to serving his community. He has been involved in numerous community organizations. He also serves on the Hampshire County Development Authority, the Potomac Valley Transit Authority, the Romney VFW, and the American Boy Scout Committee, just to name a few.

Bill and his wife Thelma remain committed to their community and their family. They raised five children, boast eight grandchildren and now have five great-grandchildren.

Madam Speaker, I am proud to honor Romney's beloved Mayor and long-time distinguished public servant, William ''Bill'' Hicks for his years of service and contributions to Hampshire County and the State of West Virginia. Mayor Hicks is a friend and a fellow West Virginian. I wish him all the best in the years to come.

HONORING THE 100TH ANNIVERSARY OF PETE'S HAMBURGERS

HON. RON KIND

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. KIND. Madam Speaker, I rise today to honor Pete's Hamburgers of Prairie du Chien, Wisconsin and to recognize their 100th anniversary.

It is reassuring to see that despite these tough economic times many American small businesses are still thriving. It was 100 years ago when Pete Gokey opened Pete's Hamburgers as a small, humble stand selling pan-fried hamburgers. Pete Gokey's life embodies the hard work, dedication, and commitment that have made our country great.

Although we recognize it today for achieving the feat of keeping its doors open for 100 years, the story of Pete's Hamburgers is one founded upon an individual's commitment to public service and hard work. Before opening his stand to sell hamburgers, Pete Gokey was a member of the volunteer fire department in Prairie du Chien. As fate would have it, Pete was selected to be the chef for one of the fire department's community events, at which he was expected to serve fried hamburgers with onions. The hamburgers were a huge success and became the catalyst for Pete Gokey's successful stand.

Gokey was able to turn his stand into a fixture of the Prairie du Chien community. Whether serving hamburgers or volunteering as a fire fighter, Pete Gokey was a man who lived a life based on hard work and service to his community.

Pete's Hamburgers and its quality product have stood the test of time and I proudly stand before this chamber to recognize the success of Pete and his family who have dedicated their lives to something they love: hamburgers.

I applaud the efforts of Pete Gokey and his family members who now run the business and I am proud to see their hard work rewarded by 100 years of business and 100 years of service to the Prairie du Chien community. May their success continue for many more years to come.

CONGRATULATING PAIGE EPLER ON HER GRADUATION FROM THE UNIVERSITY OF OKLAHOMA HIGH SCHOOL

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize Paige Laura Epler from Woodbridge, Virginia, on her graduation from the University of Oklahoma High School. Twelve year old Paige graduated on June 5, 2009 as the youngest girl to earn a high school diploma from an accredited high school. Paige had a 4.0 grade point average; however, she excelled in other areas as well. An extremely accomplished violinist, in addition to playing at her graduation, she was the selected violinist for NASA's 50th Year celebration and at President Obama's Inaugural Luncheon.

My colleagues also may know Paige from her passionate efforts to Save the Sharks. Starting at age eight, she has worked to educate people about sharks and dispel the myths that have led to a number of species becoming endangered. Paige has given briefings at the Smithsonian Air and Space Museum, the Science Museum of Virginia, and to the United States Congress.

Madam Speaker, Paige Epler represents the best this country has to offer, and her dedication to her studies bespeaks of the bright future before her. I congratulate her on her wonderful accomplishment and wish her well in all of her future endeavors.

IN TRIBUTE TO THE LATE AUBREY EMMITT FALLIN

HON. JACK KINGSTON

OF GEORGIA–

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. KINGSTON. Madam Speaker, I rise today to honor the life and service of a truly great American, Aubrey Emmitt Fallin. Aubrey was a courageous veteran, a dedicated citizen, and a fiercely loyal friend and father.

Aubrey was a patriot by anybody's definition. He served as a marine during WWII, landing on Iwo Jima February 19, 1945. He demonstrated indestructible bravery and strength, enduring a grueling 24 hours in which 2,721 of his fellow patriots lost their lives. Within the following 36 days, over 7,000 American soldiers were killed in action. His presence during this historic struggle put him in one of the bloodiest battles in World history. If it were not for brave men like Aubrey the war would have been lost. Risking and overcoming much, Aubrey emerged from the war with deeply rooted pride, admiration, respect, and love for his America.

After his completion of service, Aubrey was not only a veteran, he was a veteran's veteran. Beyond his recollection and stories of this era he would also give lectures on how to apply yesterday's lessons to today and tomorrow. In peacetime, he was just as fierce of a freedom fighter as he was when bullets were flying all around him. Even as his health failed him, he kept a vigilant eye out for the best interest of America. He used his devotion to our great nation to spur and awaken that very same passion within every individual he knew.

Beyond the battlefield, Aubrey served on the front lines of his local political community through his active leadership. He was a member of Coffee County Board of Registrars, The American Legion and Veterans of Foreign War, past chairman of The Coffee County Republican Party, former president of Douglas Hobos & Shriner Clowns, a member of the Masons and Shriners, and a past president of the Exchange Club. He manifested his faithful love for our country through continuing to sacrifice his time and serve his fellow citizens. His unwavering service, vigilance, and outspoken nature secured freedom for all.

Aubrey was an unquestionably loyal friend. I never left Coffee County without at least one bag of peanut brittle. Enjoying a treat made by such patriotic and loving hands was an honor. We will miss Aubrey as a friend and companion, and we will always be appreciative of the freedom we enjoy because of his and others' sacrifice. His life undoubtedly impacted all who came in contact with him for the better. Aubrey has left a lasting legacy of compassion, strength, and service. May God bless his memory forever!

IN REMEMBRANCE OF THOMAS RAE

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. KUCINICH. Madam Speaker, I rise today in remembrance of Thomas Rae and in recognition of his dedication to his family and country.

Thomas was born on March 2, 1930 in Cleveland Ohio as one of five siblings. Upon graduating from high school, Thomas joined and served in the United States Army for three years before being honorably discharged. After returning to Ohio, he married Mildred Dziak, and they had four daughters who were raised in Strongsville, Ohio. While raising a family, Thomas worked as an inspector for Terex General Motors and later as a supervisor at NASA. Thomas enjoyed his later years in the company of his children and their families. He was fortunate enough to spend time with all thirteen of his grandchildren and especially enjoyed watching them participate in sports. Thomas also took pleasure in the outdoors, playing golf, and handy-work after retirement.

Madam Speaker and colleagues, please join me in remembrance of Thomas Rae, who lived his life with the enduring support of his family and in recognition to his dedicated service to our country. I offer my deepest sympathies to his wife, Mildred; children, Denise Kucinich, Karen Vraja, Arleen Miciunas and Cheryl Vanderwyst; and grandchildren, Gary, Matt, Ryan and Michael Kucinich, Amanda, Samantha and Tommy Vraja, Lukas, Alyssa and Alec Miciunas, Lindsey, David and Nicole Vanderwyst.

PERSONAL EXPLANATION

HON. BEN RAY LUJÁN

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. LUJÁN. Madam Speaker, due to scheduling conflicts, I was unable to be present for rollcall vote No. 431. Had I been present, I would have voted "no."

RECOGNIZING EUROPE'S BLACK POPULATION

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. HASTINGS of Florida. Madam Speaker, I rise today to introduce a resolution recognizing Europe's Black population and expressing solidarity with their struggle.

Last year, on April 29, 2008, I chaired the U.S. Helsinki Commission hearing entitled, "The State of (In)visible Black Europe: Race, Rights, and Politics" which focused on the more than 7 million people who make up Europe's Black or Afro-descendant population.

Despite their numerous contributions to European society, like African-Americans here, many Black Europeans face the daily challenges of racism and discrimination.

This includes being the targets of violent hate crimes, many of which have resulted in death. Existing inequalities in education, housing, and employment remain a problem and racial profiling is a norm. Few Black Europeans are in leadership positions and political participation is also limited for many, providing obstacles for addressing these problems.

In an effort to raise public awareness of these issues at the national and international level, the Black European Women's Council (BEWC) was launched on September 9, 2008 at the European Union's headquarters. More than 130 Black women from across Europe came to ''insist on the recognition and inclusion of Black Europeans economically, politically, and culturally.''

This resolution supports BEWC's fight for equality and urges European governments to implement anti-discrimination legislation and other plans of action, including a fund for victims incapacitated as a result of a hate crime.

Given the history of our own country, an increase in transatlantic cooperative efforts between our government and European governments, U.S. and European based civil rights groups, and within the private sector would also provide useful partnerships and assistance in combating racism and discrimination abroad and at home.

This resolution therefore also calls on the U.S. Government to increase support for public and private sector initiatives focused on combating racism and discrimination in Europe as part of our efforts to support global human rights.

It is for this reason that on April 15–16, 2009, I also co-hosted the ''Black European Summit: Transatlantic Dialogue on Political Inclusion'' at the European Parliament in Brussels with Black and other European minority parliamentarians to exchange information on the roles of racial and ethnic minority policymakers in developing and supporting policies and initiatives to address racism, discrimination, and inequality.

As I continue to work on these initiatives, I urge my colleagues to join me in supporting this Resolution Recognizing Black Europeans and encourage them to review the statements and submissions from the Helsinki Commission's Black Europe Hearing at www.csce.gov.

EARMARK DECLARATION

HON. MARY FALLIN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Ms. FALLIN. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, ''The National Defense Authorization Act for Fiscal Year 2010.''

Title of Project: Advanced Autonomous Robotic Inspections for Aging Aircraft

Amount of Project: $2,000,000

Account: Air Force, Operations & Maintenance

Project Recipient: Veracity Technology Solutions, LLC 2701 Liberty Parkway, Suite 311, Midwest City, OK 73001

At my request, $2,000,000 was included in the FY10 NDAA, H.R. 2647, for Veracity Solutions in Midwest City, OK, to implement a fully automated autonomous robotic vehicle that has the capability to inspect for corrosion, as well as crack detection around fasteners for the KC–135 aircraft. Current inspection methods are both antiquated and time consuming, which has increased maintenance downtime and unnecessary refurbishment. A state-of-the-art nondestructive inspection system and training, which decreases maintenance costs and improves safety, will have the ability to detect corrosion and cracking on the KC–135 wing skins (and other aging aircraft). This system will allow for condition assessment of aircraft structures, as well as continuous assessment through the historical comparison of pervious and present inspection results.

Specifically, the funding will be used for the technical personnel, facilities, and equipment required to develop an integrated system that includes a medical grade ultrasonic inspection system, an advanced impedance plane analysis eddy current unit, and an autonomous inspection vehicle that will allow engineers and depot crews to accurately and instantly identify defects and that are currently undetectable with traditional nondestructive inspection methods. The end product will provide a permanent record of the structural member which can be stored on the network for future comparison.

Title of Project: E–6B Strategic Communications Upgrade Block 1A (VLF–TX & HPTS)

Amount of Project: $4,000,000

Account: Navy, Research, Development, Test & Evaluation

Project Recipient: Rockwell Collins, 400 Collins Road, Cedar Rapids, Iowa 52498

At my request, $4,000,000 was included in the FY10 NDAA, H.R. 2647, to provide modifications to the Navy's E–6B Mercury TACAMO. The E–6B Mercury TACAMO is a manned airborne communications relay platform designed to provide a survivable, reliable, endurable airborne Command and Control communications link between the President, Secretary of Defense, and U.S. strategic and non-strategic forces, especially in the time of crisis or national emergency. In performing the TACAMO mission, the platform's primary purpose is the relay of messages via survivable Very Low Frequency transmission (VLF-TX).

This funding will provide for the modification of the VLF-TX, in addition to the High Power Transmit Set (HPTS) subsystem. The current VLF-TX is becoming unsupportable for the mission at hand. The money requested would provide for an encryption function which extends the development cycle for deployment of new equipment. In addition, it would be used to upgrade improvement in the HPTS system and improve the wire control system and operational availability.

These upgrades are critical to the E–6B execution of the TACAMO mission located at Tinker AFB and provide communications to the nation's strategic ballistic missile submarine force as a part of the Minimum Essential Emergency Communication Network (MEECN).

Title of Project: FIDO EXPLOSIVE DETECTOR

Amount of Project: $7,000,000

Account: Army, Other Procurement

Line Number: 135

Project Recipient: ICx Nomadics, 1024 S. Innovation Way, Stillwater, OK 74074

At my request, $7,000,000 was included in the FY10 NDAA, H.R. 2647, for the FIDO Explosive Detector, which will provide soldiers in combat theater the ability to identify and disable explosive devices and those who manufacture these devices by detecting explosive vapors and residues. Over 1,500 FIDO systems have been fielded in support of current military operations.

The small, lightweight, handheld devices provide the soldier the ability to screen persons, packages, cargo, equipment, vehicles, and buildings and report vapor detections in real time with audio and visual feedback to the operator. The small detection devices can be mounted onto a unit's organic Unmanned Ground Vehicle (UGV) to provide additional force protection, while protecting the safety of the unit. Current FIDO systems have been successful in the field, and advances have been made to increase the ability of the sensor to detect additional substances in use today and into the future. This funding will accelerate the fielding of FIDO's in combat theater and providing explosive detection and protection to men and women in uniform.

Title of Project: Joint Fires and Effects Trainer System Enhancements

Amount of Project: $2,500,000

Account: Army, Research, Development, Test & Evaluation

Project Recipient: Creative Technologies, 6255 West Sunset Boulevards, Suite 716, Los Angeles, CA

At my request, $2,500,000 was included in the FY10 NDAA, H.R. 2647, to provide upgrades to the Joint Fires and Effects Trainer System (JFETS) located at Fort Sill, Oklahoma. The current immersive simulation training capability suffers from one significant drawback—the one-to-one instructor/student requirement. The funding provided for this project would increase the ability for this program to upgrade the voice recognition technology of JFETS and allow a single instructor to manage nine concurrent call for fire training sessions in the Open Terrain module simultaneously and improve efficiency by 800%. Additionally, the project will develop an interactive application to drill soldiers in the five essential elements of accurate predictive fires to prepare them before they train in the immersive environment and reinforce the training before the deploy.

Title of Project: T–9 Noise Suppressor Support

Amount of Project: $5,100,000

Account: Air Force, Military Construction

Project Recipient: Tinker Air Force Base, 3001 Staff Drive, Tinker AFB, OK 73145

At my request, $5,100,000 was included in the FY10 NDAA, H.R. 2647, to fund the construction of foundations and supporting facilities for two T–9 noise suppression systems at Tinker AFB, Oklahoma. This project would consist of the construction of reinforced concrete footings and slabs capable of supporting T–9 style engine testing facilities, a 20,000 gallon jet engine fuel storage and delivery system, utilities, access driveways, and a small

office/restroom/break facility. Current engine test facilities are aging and unable to support the current test mission.

With the completion of the new Tinker Aerospace Complex (TAC) and the transfer of engine maintenance to this facility, construction of these test cells near the TAC will allow contiguous support of military jet engine repair, decrease maintenance downtime, and associated cost. This will allow the 76th Maintenance Wing and the 76th Propulsion Maintenance Group the capabilities to meet its mission of delivering engines on time and on cost and position Tinker AFB for increased mission capabilities in the future.

''A VISION FOR HEALTH CARE'' COMMENCEMENT ADDRESS BY SENATOR RICHARD T. MOORE

HON. MICHAEL E. CAPUANO

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. CAPUANO. Madam Speaker, my friend, Senator Richard T. Moore was honored recently at the commencement of the New England College of Optometry. I wanted to share his remarks, as his address justly paid tribute to the school, its faculty, and graduates for their commitment to public service.

A VISION FOR HEALTH CARE

President Chen, Chairman Manfredi, Vice Chairman Ferrucci (my friend and personal Optometrist), Members of the Board of Trustees, parents, alumni, friends, and most especially, my fellow graduates of the Class of 2009 . . . I'm honored to share in your celebration today and to receive a degree from this prestigious institution with its well-deserved reputation for improving access to care, enhancing the quality of life by preventing blindness, and developing innovative, economically viable models of eye care.

Visus per mentem, vision through the mind, has long been the motto of this great College. It is a phrase that reflects a sincere commitment to learn the skills and knowledge necessary to serve others, as well as a deeply felt belief that you can help people to see the world with more clarity and purpose—to give in a way, the gift of sight—or at least improved vision. Hopefully, your clinical experience working at the New England Eye Institute and in community health centers and school or elderly vision clinics, has kindled in you to a desire to devote some portion of your time, treasure and talent to bring quality eye care to the underserved of our society.

Few, if any of you, in the Class of 2009 could have attended New England College of Optometry for four or more years without deriving from your studies, from your outstanding instructors and most of all from your own inner hearts some sense of inspiration and idealism as well as an appreciation of your social responsibility as a newly-minted health care professional.

CONTINUE THE LEGACY OF COMMUNITY SERVICE

Graduates of New England College of Optometry who preceded you have blazed a trail of community service through vision research and care that is almost legendary! They left an inspiring legacy upon which you and your classmates can now build. With your OD degree in hand, challenge yourselves to follow in the footsteps of exemplary alumni such as Charlie Mullen OD ''69 (who addressed you a few moments ago) and Kenneth Myers OD ''74, who firmly established vision care as a focus of the U.S. Veterans Administration. Their pioneering work is, today, helping wounded veterans of the wars in Iraq and Afghanistan to see beyond the trauma of war and return to productive lives in our communities.

Then, there's Edward Goodnig OD ''76. He brought his knowledge and skills to underserved regions expanding primary care opportunities for Alaska's Native American settlements and schools. You may also know of Frank Thorn OD ''79, today's Commencement Marshal and an expert on the causes and development of Myopia, who has shared his professional knowledge and restless energy from this campus on the banks of the Charles River to remote villages in the Amazon Rain Forest and—in Marco Polo fashion—from Europe to China. Their exciting and fulfilling careers, chronicled in the College's 2008 Annual Report, offer a glimpse of the potential that awaits you as today's graduates.

Such stories of successful graduates can teach, they can offer hope, they can provide inspiration. But they cannot supply the courage to follow your own path. For that each of you must look into your own hearts. Accept your degrees today with the same pride, enthusiasm, and commitment that launched those pioneers of Optometry into rewarding lives of caring service.

CONTINUE TO LEARN AND SHARE KNOWLEDGE

Never be too busy to keep from learning how to better serve your patients. That includes sharing your real world knowledge of your patients and the condition of their eyes with those involved in academic research here at New England College of Optometry and elsewhere. It also means staying informed about the rapidly changing science of your profession. Each of you, my fellow graduates, as our newest health care professionals, have a responsibility to continue your education by maintaining competency in vision care and in the technology necessary to deliver the best quality of care to all who seek better vision.

Whether your career takes you to remote regions of America or the world, or takes you back to wherever you may call ''home,'' remember one of the basic concepts that you learned here in the Back Bay, that eye care professionals are an integral part of the team of primary care providers, and deserve to be treated with the same degree of professional respect as any other health care professional! In this era of health care reform, each of you will play an essential role in not only diagnosing and treating conditions of the eye, but you will also serve as part of the team of professional caregivers who assist and support each other for the benefit of every patient.

MASSACHUSETTS AS A MODEL FOR THE NATION

For the past four years, as each of you have been immersed in becoming competent, dedicated vision care professionals in the classrooms at 424 Beacon Street, I've been learning the lessons of health care reform about a mile away in the State House meeting rooms at 24 Beacon Street. The grades are now in, and the results are clearly informing the growing national debate on health care. Massachusetts is leading the way in health care reform! We are:

First in the nation in health care access.

First in electronic health records and e-prescribing.

In the forefront of patient safety, quality improvement, and cost containment.

Leading the way in prescription drug ethics.

In just three years, 432,000 Massachusetts residents, who were previously un-insured, have gained access to health care and the many stories of lives saved or improved are truly heart-warming.

OPTOMETRY'S CONTRIBUTION TO HEALTH REFORM

One of the challenges facing Massachusetts and the Nation in fully realizing the health improvement and cost savings benefits of health care reform is the need to expand patient access to primary care. It is just as important—and less expensive—to keep people healthy, as well as to treat those who are ill. We have made great progress in expanding access to health insurance for the people of Massachusetts, but there is still an unmet need for easy access to primary care providers. I believe that optometrists, such as each of you, are ready—even anxious—to help to fill some of that void.

To address this challenge, those who pay for health care need to embrace new payment models that support wellness as well as coordinating care for those who suffer from illness, injury or less than good health. Any such wellness effort needs to include regular screening—such as vision screening—and be coordinated with health information technology such as through a centralized vision care registry.

Major stakeholders in health care reform obviously include the physician community. The Massachusetts Medical Society, the oldest, continuously operating state medical society in the United States, is the primary voice of physicians in the development of public policy. However, it sometimes seems to me that the society's policy positions have evolved far more slowly than the progress of science itself.

An old baseball player once said, ''I don't question the integrity of an umpire, just his eyesight.'' Similarly, I don't question the integrity of our state medical society, just their vision! As fewer medical doctors enter the field of primary care, the medical profession needs to embrace other health professionals who, with appropriate training such as that provided by the New England College of Optometry, can do much to provide safe, cost-effective care for patients needing attention.

It's high time for all Massachusetts physicians to rise above the tradition-bound guildmentality that confounds health care progress, and respect the education and experience of all health professions in treating the whole person. It's time for Massachusetts to embrace treatment regimens for optometrists that are already fully accepted in 49 other states, if we are to offer quality care that is convenient and affordable for patients. You, the Class of 2009, must make your voices heard as that debate unfolds!

It was Robert Kennedy who once challenged an earlier graduating class at another college—''to decide, as Goethe put it, whether you will be a hammer—or an anvil. The question is whether you are to be a hammer—whether you are to give to the world in which you were reared and educated, the broadest possible benefits of that education.'' So I challenge you to get involved in writing the health care policy of your generation—be a hammer!

A VISION FOR HEALTH CARE IN AMERICA

You are graduating at a most exciting time in health care! As you begin your professional careers in vision care, health reform is about to take center stage in the national arena. National health reform is likely to include minimum standards for benefits, an individual insurance mandate, a guaranteed issue requirement for health insurance, a prohibition on excluding coverage of pre-existing conditions, the creation of an insurance exchange where people can sign up for coverage—all factors that are included in the Massachusetts health reform effort.

If we view health reform through the lens of the ongoing Massachusetts experiment, there are some fundamental principles to anchor the national effort.

1. Each of us has an individual responsibility to take care of our health—including screenings and check-ups, as well as maintaining health insurance to help pay for our care and that of our families.

2. Each of us has a collective responsibility, as citizens of a caring society, to support public policies that guarantee access to safe, high quality, affordable and patient-centered health care for everyone in society.

3. Each of us, in the field of health care, has a professional responsibility to strive for the highest level of competency, to ensure that we, and our colleagues in the patient care team, deliver the right care at the right time and in the right place.

These principles can serve as a shining beacon for health reform in the nation, much as this Commonwealth led the nation in propagating the principles of democratic government, social progress, and educational excellence throughout its proud history.

Massachusetts'' first Governor, John Winthrop, wrote in 1630 about the social experiment being launched in this New World. He called upon his Puritan brethren and all their descendants to share their resources and gifts with others, ''rejoice together, mourn together, labor and suffer together so that—''the world will say of succeeding plantations, may the Lord make it like that of New England . . . we shall be as a city upon a hill. The eyes of all people are upon us.'' Sharing our gifts with others is the cornerstone of health care reform in Massachusetts and, I hope, it will be your personal cornerstone in your health care careers as well.

Truly, the eyes of all people in America are focused on the Massachusetts health reform experience as a framework for bringing expanded access to quality care to all Americans. But that's not all we're contributing to health care. This morning, Massachusetts is sending forth from this city upon a hill, a new class of highly skilled, and energized health care professionals with their degree in optometry in hand!

While past experience may teach us to be skeptical of the promises of any politician, to those of you who will dedicate your health care careers to the betterment of your state and all her people—I can promise a lifetime of challenge and opportunity, sometimes exciting and rewarding, sometimes slow and difficult, but always, always worthwhile.

And let me add one final bit of parting wisdom: No one ever injured his or her eyesight by looking on the bright side of things! The economy will improve! You'll earn a good living! And those of us in government can't wait to share in your success every April 15th!

IN HONOR OF CAPTAIN MICHAEL T. DOYLE

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. KUCINICH. Madam Speaker, I rise today in honor of Captain Michael T. Doyle, upon his retirement from the Cleveland Police Department, following thirty years of dedicated service to the citizens of Cleveland.

Captain Doyle graduated from Normandy High School in Parma, Ohio, then went on to graduate with honors from Cleveland State University. Shortly thereafter, Captain Doyle accepted a position in law enforcement as the Assistant Deputy Sherriff for Medina County. After four years, in 1981, he began his service to the City of Cleveland as a Cleveland Police officer.

Captain Doyle's service to our community extended across nearly every police district in the City and included work as patrol officer, detective, sergeant, lieutenant and captain. Throughout his tenure, Captain Doyle fostered trust, communication and cooperation among individuals throughout our community, from neighborhood block club members to elected officials at Cleveland City Hall.

Madam Speaker and colleagues, please join me in honoring Captain Michael T. Doyle for his unwavering dedication to protecting the citizens of Cleveland, Ohio.

EARMARK DECLARATION

HON. GARY G. MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. GARY G. MILLER of California. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the FY 2010 Homeland Security Appropriations Bill.

Requesting Member: Congressman GARY G. MILLER

Bill Number: H.R. 2892

Account: FEMA, State and Local Programs

Legal Name of Requesting Entity: City of La Habra

Address of Requesting Entity: 201 E. La Habra Blvd., La Habra, CA 90631

Funding Secured: $254,500

Description of Request: Currently, the City of La Habia's Emergency Operations Center (EOC) is a very small conference room within the Police Station. The maximum occupancy is less than a dozen individuals, and there is not adequate space or equipment to serve as an Emergency Operations Center, particularly if there were a large-scale emergency such as an earthquake, wildfires, act of terrorism, etc. During the recent ''Golden Guardian'' earthquake exercise in California, the team evaluating the City's performance noted the inadequacy of the facility and its hindrance to the exercise. The problems would be even more pronounced should there be an actual emergency requiring the mobilization of our first responders and emergency personnel. This project would provide for necessary equipment and modifications to establish the various required components of an EOC (Planning and Intelligence, Operations, Communications, Public Information, etc.). I believe that it is critical for Congress to use taxpayer dollars responsibly by investing in Southern California communities to prevent, combat, and contain the devastating threat of fire and natural disasters that routinely ravage the Southern California landscape

TRIBUTE TO REVEREND DR. DAVID GORDON PERSONS

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. HIGGINS. Madam Speaker, I rise today to honor Reverend Doctor David Gordon Persons on the occasion of his retirement from Wayside Presbyterian Church after thirty three years of leadership. It is my pleasure to recognize Reverend Dr. Persons and acknowledge him as an influential role model in the Western New York area.

Reverend Dr. Persons' leadership abilities were apparent at an early age. As a student of Sherman High School, he was lettered in both basketball and track and he was a member of the Top Math Team to represent Western New York at Boys Town. Upon graduating from Sherman High School in 1961, he received the American Legion Citizen of the Year award.

Reverend Dr. Persons' commitment to the Western New York community is evident by his leadership, devotion and dedication to the people in our community. His community service extended to the Lake Shore Volunteer Fire Department, where he served as Chaplain and Life Member for over thirty years. He was also a member of the Kiwanis Club from 1979 to 1986.

His belief that understanding and reaching out to the world can make a difference led to his co-founding of the Task Force to Reduce the Nuclear Arms Race at the United Nations, which later became the Peace Committee of Western New York. He has been a major influence and inspiration in the lives of young people. From 1979 to 1986, he led yearly youth group bike tours in Western New York and Southern Pennsylvania. Reverend Dr. Persons also led a youth group to the 20th Anniversary of Martin Luther King's speech.

Foremost, Reverend Dr. Persons has been integral to the life of his congregation. Over his religious career, he has officiated at some six hundred funerals, six hundred weddings and one thousand baptisms. His skills were recognized by his colleagues, and from 1965 to 1967, Reverend Dr. Persons was President of the Preaching Association in Seminary. In 1987, he was awarded grants to study meditation in ashrams in India. He is currently Moderator of Wright's Memorial Presbyterian Church—Native American Church in Irving, New York as well as Moderator of Presbytery of Western New York. He also holds the positions of the Chair of Presbytery Church and

Society Committee as well as the Head of Presbytery Worship Committee.

Madam Speaker, along with his family, friends and great admirers who will join together today at the Wanakah Country Club, I am honored to pay tribute to the admirable accomplishments of Reverend Dr. Persons. His life of leadership, compassion and service to others is truly an example for us all on the enormous difference one person can make. I wish him all the best in his retirement.

RECOGNIZING THE FIRST BAPTIST CHURCH OF DANVILLE, VIRGINIA

HON. THOMAS S.P. PERRIELLO

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. PERRIELLO. Madam Speaker, today I recognize the First Baptist Church of Danville, Virginia, which celebrates its 175th anniversary on June 28, 2009. Since its founding in 1834, the First Baptist Church has been a source of fellowship, education, and service in its community and beyond.

Although the First Baptist Church has suffered from a terrible fire, moved its location several times, seen the town it serves grow from 1,000 to almost 50,000, and faced countless other changes throughout its long history, it remains true to its founding principles. Under the leadership of Reverend Stephen Cook, today the church is a community of strong relationships, where individuals bond over worship, meals, study, and music. Their affinity extends beyond just Sunday mornings to include weekly dinners, small group meetings, choirs and instrumental ensembles, programs for seniors and children, cultural outings, and engagement in the larger community through service.

I commend the First Baptist Church and its leadership on this commitment to hands-on service, whether locally, elsewhere in our nation, or abroad. The church has stated, ''When our worship together ends, our service truly begins,'' and it has undoubtedly abided by this principle. The numerous organizations that have benefitted from the dedication and generosity of the church's congregants include Hope Harbor, Hope Tree Family Services, God's Storehouse, Klothes 4 Kids, the Danville Homeless Shelter, Habitat for Humanity, and Baptist World Aid. The efforts of the First Baptist Church to live out its mission in its works are an inspiring example: we should all strive to be so diligent in following the call to love and serve our fellow man.

The Book of Isaiah tells us, ''And if you give yourself to the hungry, and satisfy the desire of the afflicted, then your light will rise in darkness, and your gloom will become like midday.'' I congratulate the First Baptist Church on its tireless efforts to meet both the physical and spiritual needs of the Danville community, and I hope that its light will continue to shine for many years to come.

ARMY RESERVE ASSOCIATION'S ENLISTED SCHOLARSHIP PROGRAM

HON. TODD TIAHRT

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. TIAHRT. Madam Speaker, I am honored today to speak on a wonderful program that impacts the lives of many great heroes and their families. The Army Reserve Association's, ARA United States Army Reserve, USAR Enlisted Scholarship Program awards a $500 scholarship to assist qualifying enlisted reservists or their dependents attend an institution of higher learning.

Started in 2000 as an initiative of Command Sergeant Major Ray Lackey, this program has awarded a total of $225,500 in scholarships. Through the generosity of the United Services Automobile Association, USAA, the administrative efforts of the ARA, and the support of the USAR, these patriots have the opportunity to pursue their dreams. The opportunity to further their education not only benefits these heroes, but the Army Reserve and the country as a whole.

I applaud the Army Reserve Association and all those responsible for this effort on behalf of our Army Reserve soldiers and their families. Additionally, I request that the following two letters regarding this program be inserted into the record: a letter from the Army Reserve Association and a letter from Lieutenant General Jack C. Stultz, Chief of the Army Reserve.

THE ARMY RESERVE ASSOCIATION,
Fort McPherson, GA, March 3, 2009.

Subject ARA Enlisted Scholarship Program Standards Approval.

Lieutenant General JACK C. STULTZ,
Commanding General,
U.S. Army Reserve

DEAR LIEUTENANT GENERAL STULTZ: This letter requests you approve the standards of the ARA Enlisted Scholarship Program listed below. Request approval of the following standards:

(1) a member of the USAR not under flag or pending disciplinary action;

(2) qualified in the MOS of their position of assignment;

(3) attending or entering an institution of higher learning (2 or 4 year college, vocational school, bible college, etc.) that is regionally or nationally accredited;

(4) military dependents must be registered In DEERS.

The applicant's chain of command CSM or SGM will certify that the applicant meets qualification standards (1) through (4), as applicable.

The ARA Enlisted Scholarships are for enlisted members of the United States Army Reserve and their dependent family members. Each year the ARA offers scholarships to each major command to which USAR members are assigned as designated by the Command Sergeant Major of the USAR. The annual goal of awarding fifty scholarships is predicated on the number of major commands participating and the number of scholarship applicants from each major command, as well as the amount of funds donated by the program cosponsor, the United Services Automobile Association (USAA).

The Army Reserve Association will create an announcement for the annual scholarship program and will transmit that announcement to the USARC G–1 with a request that the USARC G–1 forward the announcement to each major command. The announcement will include the approved standards and an application form that each command's applicants can use to apply for the scholarships. The calendar year program's closing date for receipt of all applications is 31 December, unless a waiver is granted.

We request the USARC G–1 to forward the scholarship program announcement to USAR commands with instructions on submitting the applications to the USARC G–1 together with submission dates specified by the USARC G–1, so that applications can be forwarded to the ARA in time for evaluation and award of scholarships.

The ARA will appoint a selection board with a board president from its existing association membership to select nominations for award of the ARA Enlisted Scholarship Award. Board members will serve in their private-citizen capacity and not in any military role and the board recorder may be a member of the Army Reserve Association. The selection list will be compiled, signed by the ARA enlisted scholarship selection board president and forwarded to the ARA for issuance of individual scholarship awards. The ARA may choose to either present or mail the awards to the Soldier's command or directly to the individual.

We appreciate your continued support and assistance in implementing this program.

Sincerely,

MG KENT HILLHOUSE (R),
President, Army Reserve Association.
COL GEORGE M. LIND, (R)
Director, ARA Field Support Services.

DEPARTMENT OF THE ARMY, OFFICE OF THE CHIEF, ARMY RESERVE,
WASHINGTON, DC, APRIL 24, 2009.

Major General KENT HILLHOUSE, RETIRED,
Winfield, Kansas.

DEAR GENERAL HILLHOUSE; This is to acknowledge receipt of your letter of March 3, 2009, requesting approval of the eligibility standards for the Army Reserve Association (ARA) Enlisted Scholarship Program. I approve the following eligibility standards:

a. an enlisted member of the U.S. Army Reserve not under flag or pending disciplinary action

b. qualified in the MOS of their position of assignment

c. attending or entering an institution of higher learning (2 or 4 year college, vocational school, bible college, etc.) that is regionally or nationally accredited

d. Military dependents who are registered in DEERS

The ARA will submit any changes to the eligibility standards to this office for approval before implementation. It is understood that ARA is solely responsible for selection and notification of scholarship awardees.

The Army Reserve G–1 will make information available to the Army Reserve Major Subordinate Commands regarding the scholarships and forward all applications to ARA for processing as outlined in your letter.

If you have questions or concerns, please contact Sergeant Major Gary Martz of the Army Reserve G–1, at (404) 464–9011.

Sincerely,

JACK C. STULTZ,
Lieutenant General,
U.S. Army Chief, Army Reserve.

HONORING THE MINUTE MAN NATIONAL HISTORICAL PARK ON THE OCCASION OF ITS 50TH ANNIVERSARY

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. MARKEY of Massachusetts. Madam Speaker, the resolution that I am introducing today with the gentlewoman from Massachusetts, Ms. TSONGAS, honors the Minute Man National Historical Park in Massachusetts on its upcoming 50th anniversary. Since being established in September 1959, the Minute Man National Historical Park has played a vital role in protecting and preserving the historic sites in the towns of Lexington, Lincoln, and Concord, where the American Revolution began. As the July 4th holiday approaches, it is fitting that we also have the opportunity to recognize Minute Man for its critical role in educating millions of Americans about the ideals of freedom and democracy that were embodied in the American Revolution and are the cornerstones of our Nation.

The Minute Man National Historical Park recognizes the people, places and events that have become enduring symbols of our shared American values. The park includes many important sites and landscapes along the historic 22-mile route from Boston to Concord, known as the ''Battle Road'' where British soldiers and American militia first clashed on April 19, 1775. The park includes the famed North Bridge in Concord, MA, where American militia were first ordered to return British fire. This heroic action was commemorated by the great American laureate Ralph Waldo Emerson in ''The Concord Hymn'' as ''the shot heard round the world.'' The park commemorates Paul Revere's ''midnight ride'' on the night of April 18, 1775, to raise the alarm for the residents of Concord, Massachusetts, that the British were marching to destroy military stockpiles.

The Minute Man National Historical Park continues to serve as a vital and enduring educational resource not only to the American people, but also to people all around the globe. The Minute Man National Historical Park plays a vital role in protecting these special places in Massachusetts where the fight for our democracy began and providing a true benefit to our Nation.

A TRIBUTE TO FRANK REYES FOR A LIFETIME DEDICATION TO EDUCATION AND PUBLIC SERVICE

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. LEWIS of California. Madam Speaker, I would like to pay tribute to my good friend Frank Reyes, an exceptional educator who has helped the San Bernardino Community College District become a national leader in programs designed to meet a diverse student body.

Frank Reyes has been involved in education in San Bernardino County for more than three decades, beginning with receiving a bachelors and masters degree from California State University, San Bernardino, and culminating in his current position as Executive Director of Governmental Affairs for the 16,000-student San Bernardino Community College District.

Prior to joining the district management team, Frank worked as a counselor, professor, Director of Community Services and Director of the Counseling Department. He has shown a dedication to his hometown, and the students there, which has paid huge dividends for the community college district. He is part of the team that has helped keep costs down, while improving the campuses and their quality of education. This has helped make the two colleges—Crafton Hills College in Yucaipa, and Valley College in San Bernardino—among the most diverse in the Nation.

In his current role in administration, Frank has been extremely successful at winning competitive government grants for the community college district. After a major earthquake in 1992 made nearly all of the buildings at the Valley College campus unsafe, Frank led a team that secured Federal Emergency Management Agency funds to build a new library, health and human services building, administration and student services building. Most recently, the campus has added a 37,000-square-foot campus center, a new art building and modern gallery.

I was proud to work closely with Frank in bringing funding to deserving projects for the colleges. Thanks largely to his hard work, the Federal Aviation Administration provided $12.6 million for a new state-of-the-art fire academy that focuses on commercial aviation fires. Located at the San Bernardino International Airport, the facility attracts students from all over the country for real-life training on a jet fuselage. Most recently, I was delighted to work with Frank in winning the donation to Crafton Hills College of the swimming pool used in the 2004 Olympic Trials, which will be part of a recreation facility used by both the students and the community.

Frank has developed a national reputation for education excellence, serving on the International Development Team in Spain in May 2006, as well as the Defense Department's partnership with the Hispanic Associations of Colleges and Universities (HACU). Frank was also selected to be part of the U.S. Delegation to China in February 2006. The delegation continues its work on business, education and cultural exchanges. He has been a national leader with HACU, ensuring a significant federal funding increase for schools with significant Hispanic student bodies.

His community involvement beyond the colleges has been widely recognized—he has been listed in the Inland Empire Magazine as one of The Most Influential Hispanics and was named Latino of the Year by the Hispanic Chamber of Commerce. He has been Chairman of the Board for the Arrowhead Regional Medical Center Foundation for two years, and is an active Board member of the Hands of Mercy, an organization which builds loft houses for the indigent.

Madam Speaker, after three decades of service to the students and people of San Bernardino County, Frank Reyes is retiring from the community college district. Please join me in thanking him for his hard work and dedication, and wish him well in his future endeavors.

PERSONAL EXPLANATION

HON. LARRY KISSELL

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. KISSELL. Madam Speaker, on Wednesday, June 24, 2009, I missed two rollcall votes as I was attending a White House briefing on the Energy bill. Had I been present, I would have voted ''aye'' on rollcall number 428, and ''no'' on rollcall number 429.

PERSONAL EXPLANATION

HON. LUIS V. GUTIERREZ

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. GUTIERREZ. Madam Speaker, due to a meeting at the White House, a Financial Services Committee Hearing and other commitments, I was unavoidably absent for certain votes this week. I would like the record to show that, had I been present, I would have voted ''yea'' on rollcall votes 419, 420, 421, 422, 423, 453, 454, 457, 458 and 460 and voted ''nay'' on rollcall votes 427, 455, 456, and 459.

A TRIBUTE TO THE LIFE OF DON GILKEY

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. COSTA. Madam Speaker, I rise today to pay tribute to the life of an agricultural icon in California, Mr. Don Gilkey of Corcoran, California. Don passed away on May 24, 2009 at the age of 74. He is survived by his wife of 52 years, Moonyeen Gilkey, three children and several grandchildren.

Don Gilkey was born on February 3, 1935 in Corcoran, California to Margaret and Ralph Gilkey. Don graduated in 1952 from Corcoran High School. In 1953 he left for the University of California, Berkeley, where he played football and rugby all four years of college. Don was a lineman and punter for the Cal Berkeley Bears and in 1956 was voted the team captain. He was named First Team All Pacific Coast and Second Team A.P. All-American. In August 1956, during his senior year, Don married the love-of-his life, Moonyeen Apperson, and they spent their first year of marriage in Berkeley while Don finished college. After graduating from Cal, Don spent a short period of time as an officer with the U.S. Army. Upon returning, Don declined several offers to become a professional football player, deciding instead to return home to Corcoran where he

would become an integral part of the family farming business.

In 1958, Don became a partner with his brother Charles and brothers-in-law Don Riddle and Ken DeVaney in the family farming operation. Soon thereafter, the family partnership grew to include another brother-in-law, Bill Bondurant. During his farming career, Don farmed cotton, grain, alfalfa and raised turkeys. In 1962, the family farming operation was such a success they decided to build their own cotton gin and the company went on to successfully bale 30,000 to 60,000 bales per year at their peak.

In 1966, one of Don's many community efforts became a reality when a new football stadium was built. In appreciation of Don's efforts, the following year the community of Corcoran overwhelmingly named Don Gilkey as their ''Citizen of the Year''. His community involvement was boundless. For many years, Mr. Gilkey served on the board of directors for Lakeland Dusters Aviation and Commercial Tire. He was a three-term board member and president of the Corcoran Unified School District board of trustees, president of the Corcoran Chamber of Commerce, member of the Corcoran Hospital Foundation, a lifelong member and trustee of the Corcoran First United Methodist Church, a long time member of Corcoran's Rotary Club, board member of the California Wheat Commission and the California Wheat Growers Association, past delegate to the National Cotton Council, member of Class V of the California Agricultural Leadership Program and for several years Don served as a board member of the California Ammonia Company. Don was honored as a member of the ''65 Club'', a select group of farmers chosen for their achievement in agriculture production, farm and community leadership. This special honor was given to him in 1982 in Washington, D.0 by then U.S. Secretary of Agriculture John R. Black during the National Agriculture Day ceremonies.

It goes without saying that Mr. Don ''Donnie'' Gilkey's dedication to his family, the family farm and his community have earned him a legacy of respect and enormous appreciation from Central Valley farmers, the Corcoran community and the agriculture industry. He will forever be remembered as ''Don Gilkey, The Big Man with the Big Heart''. I am honored and humbled to celebrate the life of this amazing man and agricultural icon.

PERSONAL EXPLANATION

HON. ALLEN BOYD

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. BOYD. Madam Speaker, I was unable to attend to a vote on May 20, 2009. Had I been present, my vote would have been ''yea'' on H.R. 2352, Job Creation Through Entrepreneurship Act.

IN RECOGNITION OF THE LA SAGRADA FAMILIA FESTIVAL

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. KUCINICH. Madam Speaker, I rise today in recognition of La Sagrada Familia Festival being held this June 26 through 28, 2009 and in remembrance of Reverend David F. Fallon, founding pastor of La Sagrada Familia Parish. This year's celebration is the twenty-fifth annual Latin American Festival and is being held at the Sagrada Familia Parish in Cleveland, Ohio.

The members of the La Sagrada Familia Parish in Cleveland have a long history of dedication to our community and to empowering Cleveland's diverse Latin American community. This year's celebration will feature live music, cultural dances, children's activities and a talent show that highlight the rich culture of the Latin American community. This year's honoree, Reverend David Fallon, became the founding pastor of Sagrada Familia on April 11, 1998 and continued in that role until his death on May I, 2009. Under his direction, La Sagrada Familia became a source of strength and support for people of all ethnic and religious backgrounds. Father Fallon initiated numerous programs and organized church volunteers to serve the community through social service, employment and education initiatives.

Madam Speaker and colleagues, please join me in recognition of the La Sagrada Familia Festival as they honor the memory of Reverend David F. Fallon at the 25th annual Latin American Festival. I offer my best wishes for a joyous celebration of culture and community.

TRIBUTE TO SGT. MIKE HEADRICK

HON. ZACH WAMP

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. WAMP. Madam Speaker, the Volunteer State has done it again! Today, I rise to honor Sgt. Mike Headrick, a Tennessee National Guard soldier from Dunlap, Tennessee, who will be among seven National Guardsmen from across the entire United States competing for the prestigious title of Non-Commissioned Officer (NCO) of the Year.

Sgt. Headrick has successfully competed against other highly talented National Guardsmen from our region for the opportunity to contend in the national finals. Competition begins in the hometown unit and becomes more difficult as the participant advances. In Sgt. Headrick's case, each unit in his Armored Cavalry Regiment squadron selected an NCO to compete at the Squadron level. Testing includes marksmanship, first aid, and warrior task training, along with proficiency on Army regulations and history. Squadron winners move up to regimental competition and face more difficult challenges including a physical fitness test, more warrior tasks, weapons qualification and a 10-mile road march. At the statewide competition, obstacles become even tougher with the addition of a land navigation course, another long road march and a mandatory appearance before a panel of Sergeant Majors.

The national competition begins at Fort Benning, Georgia, on July 30, and is packed with a grueling physical fitness test, five-mile run, day and night land navigation course, 12-mile road march with a 30 lb. rucksack, water survival, day and night weapons marksmanship, obstacle course, and hand-to-hand combat with little or no sleep. The competition concludes here in Washington, DC., one week later.

Sgt. Headrick is a member of the 278th Armored Cavalry Regiment's Det. 1, Headquarters Troop, 2nd Squadron, in Gallatin, Tennessee, and has proudly served in our National Guard for six years. He volunteered for military service at the age 33, just before the age-limit cutoff, because he wanted future generations to have the ability to live in freedom without the fear of terrorists attacks.

In civilian life, Sgt. Headrick is a Certified Master Auto Technician at Bavarian Auto in my hometown of Chattanooga. He has been married to his wife, Audrey, for 20 years and they have one son, Alex.

Tennessee is very proud of the accomplishments and service of Sgt. Mike Headrick, and I am honored to recognize him today in the U.S. House of Representatives. This friendly competition sharpens the skills of our service men and women and better prepares them for the intensities of combat. We wish all seven soldiers the very best as they prepare to win the coveted title of Non-Commissioned Officer of the Year, but it's no secret that I hope Sgt. Headrick brings it home to the great State of Tennessee!

EARMARK DECLARATION

HON. HAROLD ROGERS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. ROGERS of Kentucky. Madam Speaker, pursuant to the House Republican standards on congressional-directed funding, I am submitting the following information regarding funding included in H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act of 2010.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 2996

Account: Department of the Interior—National Park Service—Land Acquisition

Legal Name of Recipient: Cumberland Gap National Historic Park

Address of Recipient: US 25E S, P.O. Box 1848, Middlesboro, KY 40965

Description of Request: Provide directed funding of $500,000 for Cumberland Gap National Historical Park. P.L. 108–07 gave the National Park Service authority to acquire the historic and pristine Fern Lake and surrounding 4500 acre watershed incorporating this area into Cumberland Gap National Historical Park. Fern Lake will eventually serve as a clean and reliable water source for the city of Middlesboro, Kentucky as well as enhance

recreational opportunities at Cumberland Gap. In May 2009, using previously secured federal funds, over 2000 acres of this property were conveyed to Cumberland Gap National Historical Park. To date, 4021 acres of the watershed have been added to the park, and the ultimate goal is to acquire 4500 acres within the sightline of the park's popular Pinnacle Overlook.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 2996

Account: Environmental Protection Agency—Science & Technology

Legal Name of Recipient: Consortium for Plant Biotechnology Research

Address of Recipient: 100 Sylvan Drive, Suite 210, St. Simons Island, GA 31522

Description of Request: Provide directed funding of $1,000,000 for the Consortium for Plant Biotechnology Research, a non-profit organization whose membership includes 43 leading U.S. research universities and 39 agribusiness companies and trade associations. 92.6% of funding is utilized for researching plant biotechnologies that will improve the competitiveness of U.S. agriculture by developing technologies to lessen the country's dependence on foreign energy supplies. Federal funds are matched 130% on average. The University of Kentucky is a CPBR member.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 2996

Account: Environmental Protection Agency—Environmental Programs and Management—National Programs

Legal Name of Recipient: Rural Communities Assistance Partnership

Address of Recipient: 1522 K Street, NW., Suite 400, Washington DC 20005

Description of Request: Provide directed funding of $2,500,000 for the Rural Communities Assistance Partnership with the EPA. RCAP service providers work with federal and state agencies to help small communities address their drinking water and wastewater treatment concerns. While small, rural communities are home to less than 25% of the nation's population, they account for over 85% of the nation's community water systems. Problems with EPA clean water compliance may arise when small communities lack the oversight capacity and technical expertise to deal with the complexities of maintaining a safe and clean supply of water, and communities with fewer than 10,000 residents are more than twice as likely to violate drinking water standards as are larger systems. Each year, the RCAP network delivers services to more than 2,000 rural communities, 90% of which have populations of 2,500 or fewer, while leveraging an average of $25 in additional funding for every $1 in federal investment. FY10 funding will be equally divided between technical assistance activities related to drinking water and clean water compliance.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 2996

Account: Environmental Protection Agency—STAG Water & Wastewater Infrastructure

Legal Name of Recipient: Perry County Sanitation District

Address of Recipient: P.O. Box 1615, Hazard, KY 41702

Description of Request: Provide directed funding of $500,000 to support the Perry County Sanitation District's ongoing efforts to provide sanitary wastewater treatment services for residents in the Chavies area. Funds will support the Sanitation District in developing a 150,000 gallon per day wastewater treatment plant and an enhanced collection system, which will ultimately serve 502 households. The project will initially construct approximately 24,900 feet of gravity sewer, 3,500 feet of force main and two pump stations to serve 109 new customers. The wastewater treatment plant will be constructed to accommodate future expansions as collection lines are extended to serve additional customers. The Perry County Sanitation District received a grant from the U.S. Army Corps of Engineers for the design of the Wastewater Treatment Plant and Collection System, which covered the cost of a regional facilities plan, environmental assessment and design. An additional $1.154 million in Environmental Protection Agency funds have also been secured to begin construction.

PERSONAL EXPLANATION

HON. BART STUPAK

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. STUPAK. Madam Speaker, on Wednesday, June 24, 2009, I could not be present for votes due to a family funeral back in Michigan. I rise today to enter into the RECORD how I would have voted had I been able to vote.

House rollcall vote No. 424. I would have voted no.

House rollcall vote No. 425. I would have voted no.

House rollcall vote No. 426. I would have voted no.

House rollcall vote No. 427. I would have voted no.

House rollcall vote No. 428. I would have voted yes.

House rollcall vote No. 429. I would have voted no.

House rollcall vote No. 430. I would have voted yes.

House rollcall vote No. 431. I would have voted no.

House rollcall vote No. 432. I would have voted no.

House rollcall vote No. 433. I would have voted yes.

House rollcall vote No. 434. I would have voted no.

House rollcall vote No. 435. I would have voted yes.

House rollcall vote No. 436. I would have voted yes.

House rollcall vote No. 437. I would have voted no.

House rollcall vote No. 438. I would have voted yes.

House rollcall vote No. 439. I would have voted yes.

House rollcall vote No. 440. I would have voted no.

House rollcall vote No. 444. I would have voted no.

House rollcall vote No. 445. I would have voted no.

House rollcall vote No. 446. I would have voted no.

House rollcall vote No. 447. I would have voted no.

House rollcall vote No. 448. I would have voted no.

House rollcall vote No. 449. I would have voted yes.

House rollcall vote No. 450. I would have voted yes.

House rollcall vote No. 451. I would have voted yes.

House rollcall vote No. 452. I would have voted yes.

REGARDING THE AVAILABILITY OF THE CLASSIFIED ANNEX TO H.R. 2701, THE INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2010

HON. SILVESTRE REYES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. REYES. Madam Speaker, I wish to inform my colleagues that the classified annex to H.R. 2701, the Intelligence Authorization Act for Fiscal Year 2010, will be available for review by members during regular Committee business hours, beginning on Monday, July 6th, 2009.

Members will be required to complete the appropriate security paperwork to view any classified information.

Staff are requested to contact the Committee to schedule a viewing appointment for members.

INTRODUCTION OF THE TRIBAL CHARITIES FAIRNESS ACT OF 2009

HON. XAVIER BECERRA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. BECERRA. Madam Speaker, I rise to introduce the "Tribal Charities Fairness Act of 2009" with Representatives DEVIN NUNES, EARL BLUMENAUER, MICHAEL HONDA, DALE KILDEE, BEN RAY LUJÁN, BETTY MCCOLLUM, and JOHN OLVER. This legislation remedies an inequity in our tax code and will enhance the ability of tribal charities to provide essential services such as nutritional, educational and health care assistance for many in Indian country.

The economic and social needs of the Native American community are immense. Native American households are among the most economically disadvantaged in the United States. Over 25 percent live in poverty, with greater proportions of Native American children and seniors living in poverty compared

with the general United States population. Health status is lower for Native Americans, who have a life expectancy that is 4.6 years shorter than all races considered together, and mortality rates from diabetes, tuberculosis, and alcoholism that are many times higher than in the general U.S. population. And although 76 percent of Native Americans have a high school diploma, just 13 percent go on to receive a bachelor's degree.

Tribal charities play an essential role in remedying these untenable circumstances by providing assistance to communities across Indian country. Their work and assistance ensure Native American children, working adults, and seniors have access to the same opportunities available to all Americans.

Unfortunately, the tax code currently treats tribes like corporations rather than like state and local governments when they provide support to charities that serve tribal members. This flawed tax treatment has significant implications, affecting tribal charities' ability to access tax-exempt financing, receive grants from private foundations, and operate in the governmental arena without being subject to additional tax rules and regulations.

The ''Tribal Charities Fairness Act of 2009'' will correct this inequity in the law by treating tribal governments the same as state and local governments when they provide support to charitable organizations. This simple change in our tax code will have far-reaching, positive effects for tribes and charities across the nation by increasing the availability of resources to address the poor economic and social conditions plaguing many in Indian country.

I encourage my colleagues to support this essential legislation that puts tribal charities on an equal playing field with other government-funded charities and increases their ability to carry out their necessary and important work.

TRIBUTE TO POLICE CHIEF WILLIAM ''BILLY'' WEBBER

HON. JAMES P. McGOVERN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. McGOVERN. Madam Speaker, I proudly rise today to pay tribute to William ''Billy'' Webber, a revered Chief of Police of the Town of Southborough, Massachusetts, who died too early at the age of 53 on November 11, 2008 after a courageous 18 month battle with pancreatic cancer.

Earlier this week, family members, friends and colleagues held a golf tournament in honor of Chief Webber—''dedicated to his memory, to his kind heart and to the courage he has given all of us to rise above the sorrow.'' All proceeds from the event went to the Dana Farber Cancer Institute in Boston to support research efforts to fight the dreaded disease that claimed his life.

The son of proud parents, Harry and Claire Webber, Bill Webber grew up in Milford, Massachusetts and joined the Police Department in nearby Southborough in 1980, beginning an impressive and distinguished 28 year career in law enforcement. He received his Bachelor of Science in Criminal Justice from Northeastern University in 1983 and earned a Master's Degree in Public Administration from Clark University in Worcester in 2003. He was also a graduate of the State Police Academy where he was President of his class. In 2004 he was appointed as Southborough's Chief of Police.

Chief Webber's career with the Town of Southborough was characterized by honor, courage and commitment. His professionalism and integrity made him a great role model for his fellow officers and law enforcement colleagues. Town Planner Vera Kolias said ''Chief Billy Webber had all of the qualities that you can only hope for in one person: an accomplished, intelligent and caring professional, and a consummate gentleman who displayed integrity and sensitivity at every turn.''

With Chief Webber's death, the citizens of Southborough have suffered a tragic loss. The love and respect felt by his neighbors and members of the community is reflected by the Town's dedication of its 2008 Annual Report to him. In presenting copies of the Annual Report to his family at a recent Board of Selectmen meeting, Chairman Bill Boland expressed thanks to them ''for sharing Billy with us; he was truly a remarkable person and a great representative of the Town of Southborough.''

Chief Webber's Pastor, Reverend James Flynn of St. Matthew's Church in Southborough observed that he was a man of great compassion and said that ''We of St. Matthews were awed with the example that Bill left for us, a man of faith who genuinely loved his neighbor.''

Sadly, the record of impressive achievements and honorable service throughout Chief Webber's life came to an early end on November 11, 2008. As noted by Vanessa Hale, Assistant Town Administrator of Southborough, ''It was providential that he left us on Veterans Day—a proud, patriotic American who loved his family, God and Country to the end.''

On behalf of the residents of the Third Massachusetts District, I extend our deep sympathy to his loving wife Kathy (Carmody) Webber, his children Kathleen and Kevin, his siblings Patricia and Stephen, their family members and the legion of friends who will always remember Billy Webber and the cherished part he played in their lives.

PERSONAL EXPLANATION

HON. JOHN LEWIS

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. LEWIS of Georgia. Madam Speaker, on June 8, 2009, I underwent surgery and have been recuperating for the past 3 weeks. In my 24 years in Congress, I have missed very few votes and have taken pride in having a voting record of over 90%. This is the first time I've missed this many votes. Had I been here, I would have cast the following votes:

On rollcall 311, I would have voted yes.
On rollcall 312, I would have voted yes.
On rollcall 313, I would have voted yes.
On rollcall 314, I would have voted yes.
On rollcall 315, I would have voted yes.
On rollcall 316, I would have voted yes.
On rollcall 317, I would have voted yes.
On rollcall 318, I would have voted yes.
On rollcall 319, I would have voted yes.
On rollcall 320, I would have voted yes.
On rollcall 321, I would have voted no.
On rollcall 322, I would have voted yes.
On rollcall 323, I would have voted yes.
On rollcall 324, I would have voted no.
On rollcall 325, I would have voted no.
On rollcall 326, I would have voted yes.
On rollcall 327, I would have voted no.
On rollcall 328, I would have voted yes.
On rollcall 329, I would have voted no.
On rollcall 330, I would have voted yes.
On rollcall 331, I would have voted no.
On rollcall 332, I would have voted no.
On rollcall 333, I would have voted no.
On rollcall 334, I would have voted yes.
On rollcall 335, I would have voted yes.
On rollcall 336, I would have voted yes.
On rollcall 337, I would have voted yes.
On rollcall 338, I would have voted yes.
On rollcall 339, I would have voted yes.
On rollcall 340, I would have voted yes.
On rollcall 341, I would have voted yes.
On rollcall 342, I would have voted yes.

IN RECOGNITION OF JIM BOREN'S 40 YEARS OF SERVICE

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. COSTA. Madam Speaker, I rise today to give recognition to James V. ''Jim'' Boren, the Editorial Page Editor/Vice President of the Fresno Bee newspaper as he prepares to celebrate four decades of dedicated service to the Fresno Bee.

A native of Fresno, California, Jim attended Hoover High School, where his talent for using written words to convey specific imagery and captivate a reader's interest, officially began. While at Hoover, Boren became actively involved in the school's newspaper, the Hoover Patriot, and continued as a school reporter until his graduation in 1967. Following graduation, Boren attended Fresno City College where he earned his AA degree and became engaged with the official news publication of Fresno City College, the Rampage. His strong interest in journalism continued during his tenure at California State University, Fresno, where he graduated in 1972 with a bachelor's degree in journalism.

While still in college, on June 9, 1969, at the age of 19, Jim Boren was hired as a vacation relief reporter for the Valley Department of the Fresno Bee and with that position, Boren's illustrious journalism career officially began. During his 40-year tenure at the Bee, Boren has covered almost every beat at the paper. In 1980, Jim Boren quickly became known as ''The Bee's Political Guru,'' as he continued to report exclusively on politics for nearly 15 years. During that time, Boren covered every level of politics, including city council elections, gubernatorial races, and presidential campaigns, joining the press pool of national campaigns to see, hear and report first-hand the events and progress surrounding those campaigns.

In 1995, Jim became the Editorial Page Editor of the Bee, one of the positions he still enjoys today. Boren has received a variety of journalism awards, including an investigative reporting award from the Society of Professional Journalists and in 2004, Boren earned recognition as the winner of the Jim Tucker Journalism Award presented by the Mass Communications and Journalism Department of his alma mater, California State University, Fresno.

Always dedicated to helping prevent hunger for Valley residents, Boren's volunteer advocacy on behalf of the Community Food Bank continues to aid those less fortunate. Additionally, his volunteer efforts on behalf of Children's Hospital of Central California, resulted in significant funds being raised for the annual Kids Day event, where he has raised tens of thousands of dollars for those seeking medical care at the valley's only children's hospital. Boren is a founding board member and remains active on the board of the Kenneth L. Maddy Institute at California State University, Fresno.

A proud father, Marissa Boren continues in her father's footsteps and is dedicated to education and the community. She has just completed her education at the University of California at San Diego.

Boren, in his current role as Editorial Page Editor/Vice President, continues to write a weekly column on politics and public policy in addition to his duties overseeing the Bee's opinion pages. He is also a member of the Operating Committee, which is the senior management group of the newspaper.

On behalf of all those who have read his words, it is with great pleasure that I congratulate Jim Boren for 40 years of providing interesting informative stories, columns and opinions to Fresno Bee readers everywhere.

THE TRUE IMPORTANCE OF INDEPENDENCE DAY

HON. GABRIELLE GIFFORDS

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Ms. GIFFORDS. Madam Speaker, I rise today to encourage all citizens to take a moment during the upcoming Independence Day weekend to reflect on what the United States and the ideals of our Republic mean to them.

America's experiment with democracy represents the origins of a new outlook and new system of governance. Our founders dared to challenge history. The principles of personal liberty and collective justice—exercised daily across our country—were once little more than the lofty goals of our ancestors. Today, we have come a long way. We have struggled and continue to struggle, to achieve the true spirit of freedom for every American and every citizen of humanity.

When I reflect on the ideals of our nation and consider the significance of our shining example of freedom to the world, I think not only of our deep-rooted principle of self-determination but the basic liberties set forth by the Declaration of Independence and our Bill of Rights. These two great doctrines lay a foundation for all free nations.

But I believe freedom is more than words.

Freedom is a society in which all have an equal opportunity to succeed.

A free society is one in which citizens are not burdened by a perpetual cycle of poverty that breeds crime, violence and chronic disease.

A free society is one in which the people are not crushed into bankruptcy by the weight of growing medical costs that seem without bounds.

Citizens of a free society need not choose between buying food and affording care.

A free society educates all of its children and provides vast opportunity for betterment beyond the classroom.

A free society ought not be bound by the shackles of oppression, be it physical restraints or the restraints imposed by a dependence on foreign assets.

A free society puts its stock in innovation, tapping into its own financial and human capital to grow a smarter economy and a safer future that doesn't poison our air, water and land or tie self determination to the foreign resources of another land's oppressor.

In our still pioneering young republic, we refuse to cede the initiative to innovate.

In our pursuit of freedom we agree to forgo some of our individual interests and intemperance to allow the space for open dialogue, debate and discussion.

Our society and all free societies must be open to compromise without bias to age, color or creed.

So as I stand here on the eve of our 233rd Independence Day, I am grateful for our founding fathers and their quest for democracy. While I value the vast distances we have traveled since Philadelphia, I remain mindful of the long journey yet to perfection.

On this Independence Day, I urge my fellow Arizonans and all Americans to endeavor to renew and revive the spirit of liberty that launched this great nation, and strive to seek a more perfect Union.

CONGRATULATING THE SOCORRO BULLDOGS BASEBALL TEAM

HON. SILVESTRE REYES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. REYES. Madam Speaker, I rise today to congratulate the Socorro High School baseball team for winning the 2009 Texas 5A State Baseball Championship. The Socorro High Bulldogs ended their championship season with an impressive record, becoming the second team in El Paso history to bring home the coveted state title.

The team was tested by fierce competitors from across the great State of Texas, one of the most competitive states in the entire nation for high school baseball. As the post-season progressed, the Bulldogs fended off tough challengers and finished with an impressive 35–4 record.

On Saturday, June 20th, the Bulldogs had their toughest test this year when they faced the Lufkin Panthers in the state championship game at the Dell Diamond in Round Rock, Texas, and were down 2–0 in the game's early innings. The talented young men on the Socorro Bulldog team never waivered and forged an impressive come-from-behind victory.

I am extremely proud of the dedication, determination, sportsmanship, and discipline of this talented baseball team and their Coach Chris Forbes. The members of this championship team are to be commended for their drive and perseverance. The 2009 team members include: Tavi Amparan, Chuy Diaz, Cory Falvey, Roger Favela, Chris Guzman, Eric Herrera, Bobby Mares, Sergio Mendoza, Marcus Molina, Armando Muniz, Jessirey Navarrete, Aaron Olivas, Josh Rodriguez, Rene Rodriguez, Oscar Sandate, Ivan Sigala, Angel Soria, George Stoltz, and Luis Yanez.

Head Coach Chris Forbes and his great team of assistant coaches, Joe Alvarez, Adrian Garcia, Federico Contreras, and Herbert Reyes, were the masterminds behind the team's success. Coach Forbes, in particular, instilled a sense of hard work and discipline that kept the players motivated throughout the regular season and post-season. As part of his 25–year career in coaching, the former Austin High School baseball player has taken Socorro to 20 playoff appearances. Coach Forbes also boasts the most wins (576) of any varsity baseball coach in El Paso.

The Bulldogs' championship title energized El Paso sports fans, as over a thousand parents and members of the community made the long journey to Round Rock to cheer the team to victory. This team will forever be remembered for its historic victory that brought the State Championship Trophy to El Paso, 60 years after the storied Bowie Bears baseball team achieved the same feat in 1949. I am proud to join my constituents from the 16th District of Texas in commending the Socorro Bulldogs baseball team for a job well done.

RENEWABLE ENERGY DEVELOPMENT AND TRANSMISSION ISSUES

HON. JAY INSLEE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. INSLEE. Madam Speaker, I greatly appreciate the sentiments expressed in the attached letter from Carl Zichella, and I intend to work with these groups to achieve strong environmental protections in areas affected by transmission line siting.

SIERRA CLUB,
Sacramenta, CA, June 26, 2009.

Hon. JAY INSLEE,
House of Representatives,
Washington, DC.

DEAR REPRESENTATIVE INSLEE: I write to thank you for your leadership on renewable energy development and transmission issues. The Sierra Club, The Wilderness Society and NRDC have concerns about the presidential override provision of the manager's transmission amendment. We recognize that it was not the intention of the amendment's author to, in any way, undermine environmental protection. We would like to work with Congressman Inslee and the Energy and Commerce Committee to help ensure that public land protection measures in transmission policy reforms are as strong as possible, as reflected in HR 2211 and to clarify the role of public stakeholders in the planning process the amendment establishes.

We are at your service in the coming days and weeks to address these issues.

Sincerely,

CARL ZICLIELLA,
Western Renewable Projects Director.

EARMARK DECLARATION

HON. ROBERT E. LATTA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. LATTA. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations Act.

Requesting Member: Congressman ROBERT E. LATTA

Bill Number: H.R. 2996, Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations Act

Account: EPA; STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: Village of Tiro, Ohio

Address of Requesting Entity: P.O. Box 31, Tiro, OH 44887

Description of Request: $500,000 for the Village of Tiro Water Distribution System. This project consists of purchasing treated water from the City of Shelby and transporting it to Tiro via 32,500 ft. of water main. 10,700 ft. of water main will be constructed in the Village for distribution of water. A booster pumping station, storage tower, and fire hydrants will be included. The Village of Tiro currently has no municipal water system. Water is collected or hauled into shallow wells or cisterns. The Village has tried for several years to secure a source of water and funding. The current project is the closest this village has come for a safe water supply. I certify that neither I nor my spouse has any financial interest in this project.

TRIBUTE TO FRANCISCO ''PACO'' SALDANA

HON. ANDER CRENSHAW

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. CRENSHAW. Madam Speaker. I rise today to congratulate one of my constituents Francisco ''Paco'' Saldana who as the Director of Guest Services, The Ritz-Carlton, Amelia Island is the winner of the ''Faces of Travel'' award granted on an annual basis by the U.S. Travel Association to an employee in the travel business who exemplifies the travel industry and what makes it a unique employment opportunity for 7.7 million Americans.

After months of searching and thousands of votes by industry members, Francisco ''Paco'' Saldana, a resident of Fernandina Beach, Florida, will be announced as the winner of the ''Faces of Travel Contest.''

As the winner of this award, Francisco ''Paco'' Saldana who is a proud employee at the Ritz-Carlton on Amelia Island will help communicate the critical role travel plays in the lives of working Americans across our great country.

Mr. Saldana is the embodiment of the American Dream and what is possible in this great land of opportunity, having emigrated to the United States in 1995 from Mexico City and rising up the ranks at The Ritz-Carlton. Mr. Saldana's dedication to hard work and his positive attitude over the last 14 years have propelled him to become the Director of Guest Services.

Mr. Saldana's work in the travel industry not only had a positive impact on his professional life, but also his personal life. Mr. Saldana met his wife, Christina, who also happened to work at The Ritz-Carlton, Amelia Island. They were married in September 2002. Mr. and Mrs. Saldana have three children, Isabella Grace, Nikolas Valentino and Sophia Claire.

SUPPORT OF: H.R. 1511, THE ''TORTURE VICTIMS RELIEF REAUTHORIZATION ACT OF 2009''

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Ms. JACKSON-LEE of Texas. Madam Speaker, I support H.R. 1511, the ''Torture Victims Relief Reauthorization Act of 2009.'' This bill was sponsored by Representative CHRISTOPHER SMITH of New Jersey. The bill's purpose is to amend the Torture Victims Relief Act of 1998 to authorize appropriations for FY2010–FY2011 which will provide assistance for domestic and foreign programs and centers for the treatment of victims of torture. I support this bill and I urge my colleagues to support this bill as it provides needed rehabilitation treatment to those who have been impacted by the effects of torture.

H.R. 1511, the Torture Victims Relief Reauthorization Act of 2009, authorizes appropriations for the Department of Health and Human Services (HHS) to provide grants to programs in the United States to cover the costs of services provided by domestic treatment centers in the rehabilitation of victims of torture (including treatment of the physical and psychological effects of torture). It will also allow the centers to provide social and legal services as well as research and training of health care providers outside of treatment centers or programs to enable them to provide such services. It authorizes the President to provide grants to treatment centers and programs in foreign countries that carry out projects and activities specifically designed to treat victims of torture for the physical and psychological effects of torture. In addition, it provides grants to the United Nations Voluntary Fund for Victims of Torture.

This bill is not only important, it is necessary. The Abu Ghraib prisoner abuse scandal and the myriad of consequential allegations of prisoner abuse across both Iraq and Afghanistan have cast a heavy shadow over our role in Iraq and our country as a whole. Under the Bush Administration, evidence indicates that torture was conducted on prisoners which included methods such as: waterboarding, weeklong sleep deprivation, forced nudity, use of painful positions, belly-slap and the exploitation of prisoner's fears of animals or insects. President Obama has since denounced these inhumane integration practices and has vowed that the United States does not condone torture. H.R. 1511 supports the President's vow by providing treatment to victims which is designed to enable the victim to step back from the trauma, learn to identify and accept it and gradually become reintegrated into society and/or the working world. This treatment will also serve a social purpose in that it will enable the victim to restore ties that were severed by an array of clinical symptoms caused by being tortured.

In the wake of the Abu Ghraib scandal, the U.S. has gone to great pains to persuade the world that U.S. policy does not condone torture. If Congress enacts this legislation, it would reaffirm America's commitment to a world without torture and show the rest of the world that the U.S. is committed to rehabilitating those who have suffered at the hands of torture.

We as a nation must set a clear example that we do not support torture, nor do we condone such practices. For the benefit or our troops, for the good of Iraq, for the good of America, and for the safety of the World, we must heal the wounds caused by torture to those victims domestic and foreign. A strong bipartisan message of support needs to be displayed by this body to right the wrongs and send a message to the world that America is committed to ending what President Obama called a ''dark and painful chapter in our history,'' by providing treatment to the victims of torture. I invite my colleagues to stand with me today and support this important legislation.

TAX AND CAP A JOB KILLER

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. MICA. Madam Speaker, the U.S. House of Representatives today passed H.R. 2454, the so-called Cap and Trade bill. I noted in opposition to that measure and offer the following statement.

The Cap and Tax bill could not come at a worse time and could be a job killer. The 1,200 page measure will impose a national tax on ALL energy and lead to higher energy prices for ALL American households, Most families cannot afford the estimated $1,400 yearly increase in energy costs. With the economy struggling, this bill, with its increased expense to industry, will cause additional unemployment by sending jobs overseas where doing business is cheaper. This bill also further expands the role of government by imposing new restrictions and requirements on everything from light bulbs to water dispensers.

As the Republican Leader of the Transportation and Infrastructure Committee, I want to point out that Transportation accounts for 30% of greenhouse gas emissions. This legislation contains significant provisions in the committee's jurisdiction, yet we held no hearings on this massive tax increase, and willingly surrendered our responsibility to consider any amendments to try to improve the bill.

According to the Heritage Foundation, by 2035 this Cap and Trade bill would: reduce aggregate gross GDP by $9.4 trillion (or reduce Florida gross state product by $28 billion); raise electricity rates 90 percent; raise gasoline prices by 58 percent; raise residential natural gas prices by 55 percent; and Increase inflation-adjusted federal debt by 26 percent, or $28,728 additional federal debt per person.

For this any significant other reasons I voted against passage or H.R. 2454.

COMMEMORATING THE FIRST BURIALS AT BAKERSFIELD NATIONAL CEMETARY

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. COSTA. Madam Speaker, I rise today to give tribute and honor to the brave men and women of Kern County who have proudly served their country in the United States Armed Forces. As a nation, one of our most vital duties is to ensure we are committed to providing for our military veterans. This includes providing a final resting place for the honored to be recognized. Thus, today, I would like to commemorate the first burials at the new Bakersfield National Cemetery.

The Bakersfield National Cemetery is a 500–acre site located approximately 25 miles outside of Bakersfield nestled in the Tehachapi Mountains. Surrounded by golden scenery, crushed red rock and drought resistant plants, the newly developed cemetery is furnished with a memorial walkway, committal service shelter, internet areas and administrative and maintenance buildings. Upon project completion, the cemetery will be equipped to serve 200,000 Central California veterans, their spouses and children.

The first cremation and casket burials will take place on July 1 and July 2, 2009, respectively. On July 1, the cremated remains of nine soldiers and one spouse from the Bakersfield and surrounding area will be lowered in unison. The casket burial ceremony on July 2 will commemorate the life of Iraqi veteran Army Reserve Maj. Jason E. George, a fallen soldier killed in action.

''A Place of Honor, For Those Who Served With Honor.'' These patriotic words to be inscribed at Bakersfield's National Cemetery demonstrate the overwhelming pride we have for our soldiers. Veterans in Kern County and surrounding areas take comfort in knowing their undying pledge and sacrifice to protect America's freedom is not forgotten. Having our own national shrine allows us to properly honor the fallen soldiers, veterans from generations past, and soldiers who are currently fighting overseas from the Kern County area.

On behalf of our veterans, I hereby express my high admiration and appreciation for all those who are currently serving our nation and commemorate those who have given the ultimate sacrifice. Let today's ceremony be a perpetual reminder of honor for all of America's men and women of valor.

SUPPORT OF H. CON. RES. 127, ''RECOGNIZING THE SIGNIFICANCE OF NATIONAL CARIBBEAN-AMERICAN HERITAGE MONTH

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Ms. JACKSON-LEE of Texas. Madam Speaker, I rise today to express my support of

H. Con. Res 127, which recognizes the significance of National Caribbean-American Heritage Month.

As a child of Jamaican grandparents, I understand the importance of recognizing the influence Caribbean cultures continues to have on all facets of these United States. Growing up, my grandmother who hails from Jamaica, instilled in me a strong appreciation for her Caribbean values. As a result of my upbringing, I have adopted a strong work ethic and tremendous pride in my heritage. As a parent, I have passed on these same values to my own children, so they will develop a sense of pride in their Caribbean heritage and acknowledge the many roles Caribbean people play in shaping this nation. I whole-heartedly support this resolution that commemorates Caribbean heritage, history, culture and contributions to the United States.

In her 1970 autobiography, Shirley Chislom, the first black woman elected to Congress, credited her success to the education she received while attending school in Barbados. She wrote, ''Years later I would know what an important gift my parents had given me by seeing to it that I had my early education in the strict, traditional, British-style schools of Barbados. If I speak and write easily now, that early education is the main reason.''

This is a nation built by immigrants. From as early as the 17th century there have been individuals from the Caribbean Islands, working here in the United States as indentured servants in the colony of Jamestown, Virginia. They worked in fields picking cotton, tobacco and crops just as the slaves did.

Caribbean immigrants have been contributing to the well-being of American society since its founding. Alexander Hamilton, the First Secretary of the Treasury, was from the Caribbean island of St. Kitts. We count among our famous sons and daughters, Secretary of State Colin Powell, Cicely Tyson, W.E.B. Dubois, James Weldon Johnson, Harry Belafonte and Sidney Poitier to name a few.

H. Con. Res. 127 recognizes the significance of Caribbean people and their descendants in the history and culture of the United States. Our nation would not be what it is today without these significant contributions of the Caribbean people and we should honor these accomplishments with the passing of this legislation. The contributions of Caribbean-Americans are a significant part of the history, progress, and heritage of the United States and play an important role in shaping the ethnic and racial diversity of the United States, which ultimately enriches and strengthens our nation.

By passing this legislation we continue to honor the friendship between the United States and Caribbean countries. We are united by our common values and shared history, and we should celebrate the rich Caribbean Heritage and the many ways in which Caribbean Americans have helped shape this nation.

I urge my colleagues to support this resolution to pay tribute to the common culture and bonds of friendship that unite the United States and the Caribbean countries.

TRIBUTE TO JAMES R. KIRBY

HON. JAMES P. McGOVERN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. MCGOVERN. Madam Speaker, I rise today to pay tribute to the James R. Kirby American Legion Post 50 of Clinton, Massachusetts for its generous contributions to the people of my district. The American Legion is a not-for-profit organization that seeks to advocate for our distinguished veterans and to also promote community involvement. This weekend, the James R. Kirby Post 50 will be celebrating its 90th year of service to the community.

For the past 90 years, the James R. Kirby Legion Post has helped friends and neighbors in Clinton, MA in a variety of ways. Allow me to provide some background on the organization. James R. Kirby, for whom the post is named, was born on July 18th, 1876. He graduated from Clinton High School and joined the military soon afterward. He attended the College of the Holy Cross to pursue a career in medicine. He later attended Baltimore Medical College and began his own practice. Kirby was one of the first veterans of World War I from Clinton. He signed up for the Draft at the age of 42 and tragically died shortly after on September 29th, 1918 of influenza. In his memory, the citizens of Clinton chose to name the new American Legion Post 50 in Kirby's honor. Over the past 90 years, the current members of the Legion Post have continued to honor and serve veterans.

The American Legion Post will celebrate its founding at an event being held on Saturday, June 27th, 2009. The goal of this event is to honor the contributions of the Legion Post and the veterans it has worked hard to represent over the past 90 years. The event will also serve as a day of enjoyment for the community it serves so well. Members of the Legion Post and their families as well as state and local representatives will pay tribute to the service of this American Legion Post to the community of Clinton over the past 90 years. The Legion Post's passion for serving the common good of the community through veteran's advocacy and community involvement continues to demonstrate the service that the James R. Kirby Legion Post 50 has provided for the past 90 years.

Madam Speaker, I commend this group for its dedication to the Town of Clinton and the veteran community. I congratulate the Clinton James R. Kirby Post 50 for its 90 years of service, and I ask my colleagues to join me in paying tribute to its unyielding dedication to community involvement.

EARMARK DECLARATION

HON. GARY G. MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. GARY G. MILLER of California. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the FY 2010 Defense Authorization Bill.

Requesting Member: Congressman GARY G. MILLER

Bill Number: H.R. 2647

Account: Navy—Research, Development, Test, and Evaluation

Legal Name of Requesting Entity: General Dynamics

Address of Requesting Entity: 180 North Riverview Drive, Suite 300, Anaheim Hills, California 92808

Funding Authorized: $3,600,000

Description of Request: The Deployable Autonomous Distributed System (DADS) is the future of Network-Centric Anti-Submarine Warfare. The DADS program integrates and demonstrates an autonomous undersea sensor system, deployable from multiple platforms, to improve the Navy's capability to conduct effective anti-submarine warfare and intelligence, surveillance and reconnaissance operations in the littoral environment. DADS enhances the automation and connectivity between sensors, operators, and weapons and feeds the network-centric antisubmarine warfare picture. DADS utilizes multiple, cutting edge sensor technologies to increase the probability of detecting threats and to reduce the false alarm rate. With a goal to be deployable by any available asset, DADS will serve as an unmanned, autonomous reporting entity, freeing surveillance platforms for other missions. This funding will help the Navy in developing a system small enough to support deployability goals and in the development of compact power sources.

Requesting Member: Congressman GARY G. MILLER

Bill Number: H.R. 2647

Account: Navy—Research, Development, Test, and Evaluation

Legal Name of Requesting Entity: L–3 Power Paragon

Address of Requesting Entity: 901 E. Ball Road Anaheim, California 92805,

Funding Authorized: $5,000,000

Description of Request: This project is a design build prototype for a hybrid electric drive (HED) for the CG 47 Class Cruisers for the US Navy. This project contributes to the future of environmentally sound, fuel-efficient propulsion. The Navy believes that this improvement would realize a significant savings per year per ship. This HED for surface combatants such as the CG 47 would significantly reduce fuel costs, increase ship endurance and range, produce less environmental emissions, increase ship survivability through reduce signatures, and provide increased overall ship electric power generation capacity. This installation would leverage advances in lighter weight and more efficient electric propulsion technologies that have resulted from the Office of Naval Research investments over the last several years.

COMMENDING THE CONGRESS OF LEADERS OF WORLD AND TRADITIONAL RELIGIONS FOR CALLING UPON ALL NATIONS TO LIVE IN PEACE AND MUTUAL UNDERSTANDING

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Ms. JACKSON-LEE of Texas. Madam Speaker, I rise today in support of H. Res. 535, to commend the Congress of Leaders of World and Traditional Religions for their call to action for the nations of our world to work toward peace and mutual understanding. Established in 2003, the Congress of Leaders of World and Traditional Religions is comprised of our world's major religions, including Buddhism, Christianity, Hinduism, Islam, Judaism, Shinto, and Taoism. Since its founding, the Congress has promulgated the tenet that religion should not be seen as a divisive limitation within the global community, but rather world religions should be the benchmark and arbiter for resolving ongoing international political conflicts. Accordingly, we turn to our global religious leaders to be the driving force in maintaining peace.

As a Member of Congress from Houston, Texas, my district is one of religious diversity. I represent constituents from all faiths and religious beliefs, and I stand here before you Madam Speaker to say that as a Representative of the 18th District of Texas, I am a humanitarian first and foremost. I believe in celebrating our differences in global theology, and in utilizing these differences as the basis of tolerance as we engage in multilateral interfaith dialogue.

As a Member of the Foreign Affairs Committee, I have worked hard to pass legislation in the foreign affairs arena which speaks to the importance of tolerance and recognizes the need for multilateralism. With respect to Pakistan and Afghanistan, I have worked to pass H.R. 2410 and H.R. 1886 which allocate U.S. support for both Afghanistan and Pakistan respectively. In turn, H.R. 2410 and H.R. 1886 emphasize the necessity of ongoing multilateral engagement with the U.S. in order to forge strong and enduring partnerships with these countries in a united effort to bridge global security disparity.

In his internationally esteemed doctrine on nonviolent protest, Mahatma Gandhi so eloquently stated, ''All faiths constitute a revelation of Truth, but all are imperfect and liable to error. Reverence to other faiths need not blind us to their faults. We must be keenly alive to the defects of our own faith, and must not leave it on that account but try to overcome those defects. Looking at all religions with an equal eye, we would not only not hesitate but would think it our duty to adopt into our faith every acceptable feature of other faiths.'' In deference to Gandhi's wisdom, we must work toward our own ''Revelation of Truth,'' in an international context. Despite the imperfections within every world religion, we must turn to our religious leaders to set the tone for understanding. We must work in concert to engage in interfaith dialogue to maintain peace and security in the world.

H. Res. 535 applauds the Congress of Leaders of World and Traditional Religions for regularly holding forums that address the need for religious freedom. Its inclusion of more than 26 nations, such as Israel, Egypt, Pakistan, Saudi Arabia, Libya, Armenia, South Korea, China, India, and the United States as its representatives is to be commended. The third Congress will be held in Astana, Kazakhstan, July 1–2, 2009, and I would like to recognize Kazakhstan for having been selected by the Secretariat to host the second and third Congress. As we move forward to promote freedom of religion and engage in interfaith dialogue as the foundation to global security, we turn to the Congress of Leaders of World and Traditional Religions to guide us in multilateral reform. I urge passage of this important resolution.

IN HONOR AND RECOGNITION OF KEN WARREN

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. KUCINICH. Madam Speaker, I rise today in honor and recognition of Ken Warren, on the occasion of his retirement as director of the Lakewood Library after 25 years of dedicated service to our community. In his capacity as director of the Lakewood Library, Ken worked to promote and develop innovative projects and programs hosted at the Lakewood Library and throughout the Lakewood community.

Ken Warren has maintained an enthusiasm for books and the power of the written word since his childhood. His interest in community issues began when he was a teen, as editor of an underground paper at his parochial high school. He is founding member of the Lakewood Observer and has made the publication a critical instrument of exchange of ideas and opinions on important civic and community issues.

During his tenure as director, the Lakewood Library underwent major expansions and improvements, including the complete interior and exterior renovation of the main library building, the development of a new technology center, public auditorium, a children's wing, and an inspiring display of murals that grace the walls throughout the facility. Ken has consistently reached out to the citizens, agencies and community leaders of Lakewood creating strong working relationships and friendships throughout the city. His legacy is highlighted by his unwavering advocacy and innovation in promoting and implementing literacy and learning programs, connecting the library to the public schools.

Madam Speaker and colleagues, please join me in honor and recognition of Ken Warren, whose tenure at the Lakewood Library is framed by integrity, kindness, love for learning, passion for the written word, and above all, an unbridled commitment to the betterment of the entire Lakewood community.

RECOGNIZING BLACK EUROPEAN SUMMIT: TRANSATLANTIC DIALOGUE ON POLITICAL INCLUSION

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Mr. HASTINGS of Florida. Madam Speaker, I rise today to introduce a resolution recognizing the first ''Black European Summit: Transatlantic Dialogue on Political Inclusion'' and ensuing Brussels Declaration.

The Black European Summit (BES) was held in Brussels, Belgium at the European Parliament on April 15th and 16th. The historic 2-day Summit brought together political and intellectual minority leaders from the United States and Europe to exchange information on the roles of racial and ethnic minority policymakers in developing and supporting policies and initiatives to address racism, discrimination, and inequality.

The event was hosted and organized by myself, Harlem Desir, Member of the European Parliament; Joe Frans, President of the United Nations Working Group of Experts on People of African Descent and a former Swedish Parliamentarian; Claude Moraes, Member of the European Parliament and President of the European Parliament All Party Group on Anti-Racism and Diversity; and Glyn Ford, former Member of the European Parliament.

Participants included Parliamentarians, Congressional representatives, local and nationally elected officials, academics, representatives from European and international institutions, civil society, the private sector, and media from Black and other minority backgrounds.

During the Summit we exchanged information and best practices on addressing structural barriers that impact minority political participation, including implementing initiatives that address racism and discrimination.

Like in the United States, it was noted that despite the numerous contributions of minorities to European society, minorities still face the daily challenges of racism and discrimination. This includes being the targets of violent hate crimes, many of which in recent years have resulted in death. Existing inequalities in education, housing, and employment remain a problem and racial profiling is often a norm. Obstacles for addressing these problems, include the lack of minorities in leadership positions and the rise of racist and xenophobic political parties seeking to implement non-inclusive policies.

Summit participants committed to addressing these issues by adopting the Brussels Declaration, which calls for: (1) concrete action to assist ethnic and racial minorities in obtaining full access to participation in the political sphere and relevant areas of decision making, especially in the development and implementation of policy initiatives to address racial and ethnic discrimination and inequality; and (2) to support future opportunities to exchange and share perspectives in these areas through a sustained transatlantic dialogue.

As I continue to work on these initiatives, I urge my colleagues to join me in supporting this Resolution Recognizing both the Black European Summit and Brussels Declaration

and encourage them to review the statements and submissions from the Helsinki Commission's Black Europe and Racism in the 21st Century Hearings at www.csce.gov and recently introduced Resolution on Black Europeans. Additionally, I would like to submit the following background materials on the Brussels Declaration and Black Europeans for the official record.

BLACK EUROPEAN SUMMIT—TRANSATLANTIC DIALOGUE ON POLITICAL INCLUSION

BRUSSELS DECLARATION

Preamble

We, as members of the public, private, and voluntary sectors from Europe and the United States of America convening in Brussels, Belgium from the 15 to 16 of April for the Black European Summit: Transatlantic Dialogue on Political Inclusion, draw attention to the need for coordinated strategies to address racism and discrimination;

We recognize the democratic, multi-ethnic and multi-racial nature of our countries' diverse societies;

We reaffirm the principles of equal rights and self-determination of peoples and recalling that all individuals are born equal in dignity and rights;

We remain concerned that the political and legal systems in some of our societies do not reflect the racial and ethnic diversity within our societies, which then contributes to the continuation of racism and discrimination;

We recognize that the full access of racial and ethnic minorities to participate in the political sphere and relevant areas of decision making at the levels of national, regional, and locally elected government appropriate to each nation is critical to combating racism and inequality and ensuring our democratic societies;

We therefore note the need for concrete strategies to: increase the representation and influence of racial and ethnic minority policymakers; jointly seek solutions to racial and ethnic minorities increased participation in decision-making in the development and implementation of policy initiatives to address discrimination and inequality; and support opportunities to exchange and share perspectives in these areas through the continuance of a transatlantic dialogue to realize these goals.

We today resolve that we will endeavor to enact initiatives to eradicate racial and ethnic discrimination through:

Continuing a transatlantic dialogue that: includes cultural exchanges between American and European racial and ethnic minority groups, including youth; focuses on the development of opportunities for racial and ethnic minority political leadership and participation in the policymaking process; and fosters the exchange of information on best practices to implement and enforce anti-discrimination measures and achieve racial equality;

Joining forces over the coming months to develop common goals and objectives in each of our decision-making bodies to recognize Europe's Black and racial and ethnic minority populations for their historical and present-day contributions and acknowledge past injustices;

Promoting racial and ethnic minority participation at all levels of national, regional, and local government through the education of civil and political rights, including the legislative process and advocacy of legislative issues relevant to racial and ethnic minority communities, development of targeted professional development and hiring strategies, increased youth and community outreach, and self-organization and other empowerment initiatives;

Reaffirming our continued cooperation and commitment to work with our governments, international institutions, civil society, private sector, and other partners to improve institutions so that they are fully participatory and reflect the democratic principles of equality, justice, and celebration of the strengths of our countries' diversity.

AS EUROPE VEERS RIGHT, MINORITY PARLIAMENTARIANS COUNTER

WASHINGTON—With far-right and anti-immigrant parties making worrying advances in recent elections across Europe, minority lawmakers and leaders called today for the political process to be more inclusive of minorities.

Following April's ''Black European Summit: Transatlantic Dialogue on Political Inclusion'' in Brussels, Belgium, minority political and intellectual leaders today adopted a declaration calling for increased efforts to include racial and ethnic minorities in the political process. (Please find attached a copy of the Brussels Declaration).

I was very pleased to have the opportunity to work on these initiatives with my European colleagues,'' said U.S. Congressman and Helsinki Commission Co-Chairman Alcee L. Hastings (D–FL). ''Whether speaking about voting and civil rights, increasing minority elected officials and diversity in policy staff, or responding to discriminatory policies, we have common issues. While I have been able to share the many successes we have had in the United States in terms of minority political participation, most recently evidenced by President Obama, one need only look at the lack of diversity in the U.S. Senate and staff in Congressional offices and many government agencies to know that we can be doing more. It is one reason I fully support this transatlantic declaration.''

''Despite the global significance of President Obama's historic election, the reality is that our elected leadership does not reflect the diversity of origins of people in our nations'' said Summit co-organizer Harlem Desir, Member of the European Parliament (MEP). ''This has contributed to a lack of inclusion of minorities in the planning and implementation of the very policies that impact us. Despite some successes, the overall results of recent elections are simply further evidence that we must do more to ensure the representation of the diversity of our society.''

''In Britain we had never elected fascists in a national election until now. Whilst in the past there have been far-right MEPs from other countries, such as France, this election saw new groups gaining seats across Europe, and thus a worrying threshold has been crossed,'' said Summit co-organizer and President of the European Parliament All Party Group on Anti-Racism and Diversity, Claude Moraes MEP. ''We will have to tackle the pernicious growth of far-right racist parties head-on, at both the grass-roots and parliamentary levels, and an integral part of this lies in encouraging the full inclusion of minorities in the political process.''

U.S. Helsinki Commissioner Congressman G.K. Butterfield (D–NC), a former Judge known for his work supporting voting rights, who participated in the Summit, added, ''it is clear by the outcome of the European elections that too few people are taking part in the political process at a potentially great risk to democracy. As I have learned from my work in the U.S., it is critical to remedy this situation rather than preserve a status quo that repeatedly elects lawmakers who do not represent the diverse interests of the population.''

''These concerns for minority representation are exactly why we adopted the Brussels Declaration,'' said Summit co-organizer Joe Frans, Vice President of the United Nations Working Group on Experts of People of African Descent. ''The declaration calls for the full and equal participation of non-White citizens of Europe with African, migrant, and other backgrounds in our countries' democracies. With more racist, xenophobic, and anti-Muslim parties making political gains, immigration and anti-discrimination policies are going to be further scrutinized, which will impact how persons of different races, ethnicities, and religions, are viewed and treated. Implementation of the Brussels declaration in this current climate is of the utmost importance.''

THE DEATH OF FARRAH FAWCETT

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 26, 2009

Ms. JACKSON-LEE of Texas. Madam Speaker, thank you for letting me stand before you today in order to mourn a great American icon, Farrah Fawcett. She died today, Thursday, June 25, 2009, shortly before 9:30 a.m. after battling cancer. She was 62.

I would also like to express and send my condolences to her family and friends. I know the actress fought a very public battle with cancer and I am proud to say that this beautiful, talented and courageous woman was an American legend, icon and a TEXAN.

Mary Farrah Leni Fawcett was born on Feb. 2, 1947, in Corpus Christi, Texas. Her father, James William Fawcett, was an oil pipefitter who later founded a pipeline construction company and a custodial service. She enrolled at the University of Texas in Austin, where she initially planned to study microbiology but later switched her major to art.

Farrah Fawcett is a true Hollywood success story. Winning a campus beauty contest got her noticed by an agent, who encouraged her to pursue acting. After graduating, she moved to Los Angeles and her healthy style and beauty was immediately noticed. She quickly got roles in various television commercials and also made appearances in some TV series.

Eventually, she came to the attention of the highly successful producer Aaron Spelling, who was impressed by her beauty and vivacious personality which won her a role in the TV series ''Charlie's Angels'' (1976). She played a private investigator who worked for a wealthy and mysterious businessman, along with two other glamorous female detectives. The show immediately became the most popular series on television, earning record ratings and a huge audience. All three actresses became very popular, but Farrah became by far the best known.

She was America's sweetheart, and found herself on every celebrity magazine and pursued by photographers and fans. While she enjoyed the success and got along well with her co-stars (both of whom were also of Southern origin), she found the material lightweight. Also, the long hours she worked were

beginning to take a toll on her marriage so the following year, when the show was at its peak, she left to pursue a movie career.

September 2006, Fawcett, who at 59 still maintained a strict regimen of tennis and paddleball, began to feel strangely exhausted. She underwent two weeks of tests and was told the devastating news: She had anal cancer. Farrah fought a long, difficult brave battle against the cancer for three years and we must admire her determination and strength through it all. According to the American Cancer Society, an estimated 5,290 Americans, most of them adults over 35, will be diagnosed with that type of cancer this year, and there will be 710 deaths. She was able to give many people hope for a cure while documenting her own personal battle, so we must continue to search for a cure for this abhorrent disease that is cancer.

I would just like to leave her friends and family and all Americans who have lost a loved one with this poem by Henry Van Dyke:

GONE FROM MY SIGHT

(By Henry Van Dyke)

I am standing upon the seashore. A ship, at my side, spreads her white sails to the moving breeze and starts for the blue ocean. She is an object of beauty and strength.

I stand and watch her until, at length, she hangs like a speck of white cloud just where the sea and sky come to mingle with each other.

Then, someone at my side says, ''There, she is gone''

Gone where?

Gone from my sight. That is all. She is just as large in mast, hull and spar as she was when she left my side.

And, she is just as able to bear her load of living freight to her destined port.

Her diminished size is in me—not in her.

And, just at the moment when someone says, ''There, she is gone,'' there are other eyes watching her coming, and other voices ready to take up the glad shout, ''Here she comes!''

And that is dying. . .

SENATE—*Monday, July 6, 2009*

The Senate met at 2 p.m. and was called to order by the Honorable MARK R. WARNER, a Senator from the Commonwealth of Virginia.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Almighty God, architect and creator of our destinies, we marvel at Your power, majesty, and might. From the beginning, Your grace has underlain the foundations of our lives, so we ask that You would lead us in the paths of Your purposes.

Today, awaken in our lawmakers the ability to see the opportunities that exist in the challenges they face. May this knowledge motivate them to move forward with faith and optimism. Lord, show them unused resources that can be mobilized to solve problems and to make dreams come true. When they experience doubts and uncertainties, give them the wisdom to ask You for Your guidance that will save them from all false choices.

We pray in Your great Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable MARK R. WARNER led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, July 6, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable MARK R. WARNER, a Senator from the Commonwealth of Virginia, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. WARNER thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, following leader remarks, the Senate will be in a period of morning business for up to 1 hour, with Senators permitted to speak for up to 10 minutes each.

Following that morning business, the Senate will resume consideration of H.R. 2918, the Legislative Branch Appropriations bill. Senators should expect at least two rollcall votes to begin at about 5:30 this evening. Those votes will be in relation to the McCain amendment and passage of the Legislative Branch Appropriations bill.

There are a few other amendments in order, but I have been told by the manager of the bill, Senator NELSON, that he doubts there will be other rollcall votes.

We hope to reach an agreement to begin consideration of the Homeland Security Appropriations bill tomorrow.

ACCOMPLISHMENTS AND CHALLENGES

Mr. REID. Mr. President, I, of course, wish to welcome you and all my colleagues back after the July 4 recess. Now we are closer to the end of this year than the beginning of this year. We have much to be proud of, but our time is short and we have much to do in the coming weeks and months. So far this year we started to get our country back on track by passing bills that have already started to revive our economy. Have we revived it enough? Of course not. But what position would we be in, what kind of financial meltdown would the world be in, had we not moved forward? We have already started to strengthen our national security. We have started to protect our environment. We have started to demand accountability from government agencies and entities. We have started promoting equality and ensuring progress, as America returns to being positively viewed by the world community.

Norman Ornstein, a resident scholar at the conservative American Enterprise Institute, calls this Congress ''as active and productive as any I can remember.'' He went on to say: ''The number of major bills passed and enacted into law—serious, sustained activities in areas of broad, complex and critical importance—are all truly impressive.''

Some pundits have said the work we have done so far this year is unmatched except during the first year President Franklin Roosevelt was in office. I can assure Republicans that this serious, sustained activity will not stop. We will finish this year in the same active, productive way in which it started, and I encourage my Republican colleagues to join us. I am confident the steps we have taken in the first half of this year, and that we will continue to take, will certainly anchor our recovery. It has anchored our recovery and it will do even more so. But I also know we must keep going. We must do more, lots more.

One of the most important steps we can take is reforming health care and doing so the right way. It has to wind up being health care reform that helps the middle class, that helps everyone, not just reform to take care of those who have none. It has to be a program that takes care of those who are afraid they are losing their insurance and those who have lost their insurance. That is why we will soon bring to the Senate floor a plan that lowers the high cost of health care. We will also make sure every American has access to quality, affordable care, and we will make sure people can still choose their own doctors, hospitals, and health plans.

We will no longer let insurance companies use a patient's preexisting condition as an excuse to deny the needed coverage, and we will help small businesses give their employees health care while keeping costs as low as possible. We are committed to a plan that protects what works, fixes what is broken, and ensures that if you like the coverage you have, you will be able to keep it. We will lower costs by preventing disease in the first place, reducing health disparities, and encouraging early detection and effective treatments that save lives and money.

This is the year we must act, and when we do we must act as partners, not partisans. Rising health care costs and the risk of losing one's health care is now greater than ever. The status quo is unacceptable. Doing nothing is not an option because the costs of inaction are too great.

Americans are paying too much for health care. They can lose this health care they have with just one pink slip, one accident or one illness. Every day, more Americans go bankrupt or lose their homes trying to stay healthy, and every year we do not act health care costs increase by the billions of dollars. We must, and we will, pass health care reform.

But health care is not the only issue on our agenda. We will also continue working on a number of appropriations bills to keep our government running, funding our government. With Republican cooperation, we can finish these bills, starting today by funding the legislative branch and tomorrow by doing

the same for the Department of Homeland Security. We will continue working to confirm President Obama's many nominees for critical positions, including his outstanding nominee for the Supreme Court, Judge Sotomayor. Those who have chosen to serve our country must be able get to work without delay. We have far too many nominees who have not moved forward because of Republican holds.

The Independence Day holiday was one where all Americans observed the birth of our country. The Independence Day holiday was one that reminded us of the debt we owe to the first patriots who stood for liberty and the many who died for liberty. Brave Americans have never stopped sacrificing so we can now know the self-evident truths and exercise the inalienable rights Jefferson described.

Keeping the Department of Defense strong is one of the ways we can support and thank those patriots. This work period we will do just that by passing the Department of Defense authorization bill.

The revolutionary document Congress adopted on July 4, 1776, declared that power derives from the consent of the governed. In the 233 years since that day, we have also learned we must govern by consensus. Although we will discuss, debate and disagree, I urge my colleagues to remember that finding common ground is in our common interest. I ask them not to forget that the governed, those who sent each of us here, sent us with their hopes we will work with each other, not against each other.

Finally, let me say that the long Senate race in the State of Minnesota is over. Al Franken will be sworn in as a Senator tomorrow before the weekly party caucuses. History will write about that race for generations to come. Three million votes were cast by hand. The recount was long, deliberate, and fair. Al Franken won by 312 votes.

He is a good man. He is someone who is extremely smart—he is Harvard educated. He had chosen as his life's work the entertainment world. He has been on many USO caravans and trips. He has a great love for the American soldier. I met with him in my office today, and I was so impressed that his first piece of legislation is going to be one involving veterans—unique and very important.

I want everyone within the sound of my voice to understand that we have 60 Senators on the Democratic side. That means that now more than ever we have to work together. We have no intention—I have no intention of running roughshod over the Republicans. I think we have proven that during this first 6 months. We want cooperation from the Republicans, we deserve cooperation from the Republicans as they do from us.

I started my remarks by talking about what a terrific legislative session it has been so far. We have accomplished, I repeat, as much as any other legislative first 6 months, other than the first Roosevelt year. We have accomplished all that, and we needed Republican votes to get it done. We haven't gotten a lot of Republican votes—I wish we had gotten more—but we have gotten enough to get it done.

I hope in the next few weeks we all realize we have so much important work to do. I laid that out with my remarks here today. We have to get as many appropriations bills done as we can; we have to finish the Defense Department bill; we have to do health care reform; we have to do Judge Sotomayor. We have a huge schedule. As I have said and we all know—everyone has been alerted, this is no message the people have not heard—this period is going to be a long hard slog.

We have lots to do. We are going to be working in the evenings, Mondays and Friday—weekends, if necessary, to get all our work done.

I say to my Republican colleagues I, of course, am very thankful for Al Franken. It is terrific that Minnesota now has two Senators. For over 8 months, they have gone with just one. But I repeat, this is not the time for people to be arrogant or attempt to throw their weight around. Things have not changed. We still need to work together. That is what the American people want and that is what the message is to my Republican colleagues.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. There will now be a period of morning business for 1 hour, with Senators permitted to speak for up to 10 minutes each.

Mr. REID. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KYL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SOTOMAYOR NOMINATION

Mr. KYL. Mr. President, we have heard some debate recently centered on whether it is appropriate for judges to consider foreign law and public attitudes when interpreting our U.S. Constitution and laws.

In our constitutional system, the American people, through their elected representatives, make the laws by which we are governed. As James Madison said in Federalist 49:

> The people are the only legitimate fountain of power, and it is from them that the Constitutional charter, under which the several branches of government hold their power, is derived.

Judges have the responsibility to faithfully interpret the Constitution and the laws that have been adopted through our democratic processes. Again, judges do not make the law, they interpret it.

Within our constitutional structure, the growing idea of using foreign law to interpret our own laws and Constitution is troubling and problematic for two main reasons:

First, as Chief Justice John Roberts pointed out during his confirmation hearings, the consideration of foreign law by American judges is contrary to the principles of democracy. Foreign judges and legislators are not accountable to the American electorate. Using foreign law, even as a thumb on the scale, to help decide key constitutional issues devalues Americans' expressions through the democratic process. An analogy would be to allow noncitizens to vote in our elections, thus devaluing the votes of every American.

Second, even if the use of foreign law were not inconsistent with our constitutional system, its use would free judges to enact their personal preferences under the cloak of legitimacy. If an American judge wants to find a foreign judicial decision or legislative enactment consistent with his or her preferred outcome in a case, he or she could find it in the laws of at least 1 of the 192 United Nations member states. That would be judicial activism compounded by the error of using inappropriate precedent.

As we soon begin the consideration of Judge Sonya Sotomayor's nomination to the Nation's highest Court, both the American people and the Senate deserve to know where she stands on the issue of the use of foreign law to interpret the U.S. Constitution. Although we do have some materials that suggest her views, we are still waiting on a number of important documents that will help us better understand her views. For example, in response to the Senate Judiciary Committee's questionnaire, Judge Sotomayor identified 200 public speeches or remarks she has given. Of those, we have not received a draft, video, or a sufficient topic description for more than 100 of them. These include four occasions in which she publicly spoke on the issue of foreign law. On one of these occasions, Judge Sotomayor apparently participated in a panel discussion with foreign judges at St. John's Law School in November of 2006. According to her Judiciary Committee questionnaire, she

said she ''spoke on the permissible uses of international law by American courts.'' And in October 2008, Judge Sotomayor participated in a roundtable discussion at New York University's law school on the ''Dynamic Relations Between International and National Tribunals.''

With hearings scheduled to begin in a couple of weeks, getting this information is critical to our understanding of her judicial philosophy. The most notable of the materials we do have is a 22-minute speech Judge Sotomayor gave to the ACLU of Puerto Rico on April 28, 2009, entitled ''How Federal Judges Look to International and Foreign Law Under Article VI of the U.S. Constitution.'' From that speech, we begin to see how foreign law could shape Judge Sotomayor's jurisprudence in the future. Her views were not casual observations but directed to this specific topic. In this speech, she says:

[I]nternational law and foreign law will be very important in the discussion of how we think about the unsettled issues in our own legal system. It is my hope that judges everywhere will continue to do so because . . . within the American legal system we're commanded to interpret our law in the best way we can, and that means looking to what other, anyone, has said to see if it has persuasive value.

What on Earth does this have to do with judging, asking what ''anyone has said to see if it has persuasive value''? How about using the traditional rules of judicial construction, precedents, and our judicial tests based on our common law heritage.

Judge Sotomayor also reveals that she believes foreign law is a source for ''good ideas'' that can ''set our creative juices flowing.'' Deciding an antitrust case or a commerce clause dispute or an Indian law issue or an establishment of religion case does not require ''creative juices.'' Indeed, it could interfere with specific rules of construction or application of precedent. But Judge Sotomayor says that not considering foreign law would be ''asking American judges to close their minds to good ideas.'' What is ''closedminded,'' I would ask, about requiring that American judges interpret our laws and our Constitution? That is what they take their oath of office to do.

Let's also remember that Judge Sotomayor has previously stated that appellate courts are ''where policy is made.'' When you combine the notion that judges may usurp the legislative power of policymaking with the view that foreign law is an incubator of creative ideas for a judge to employ as he or she sees fit, you open the door to the worst form of judicial activism, one completely untethered from American legal principles. Judges do not have the responsibility of finding new good ideas that would make good policy. That is the role for our elected representatives. The ideas expressed by Judge Sotomayor threaten to undermine a system that has served us well for over two centuries.

Judge Sotomayor went on in the same ACLU speech to criticize two sitting justices and align her views with those of Justice Ginsburg, who recently endorsed the use of foreign law at a symposium at the Moritz College of Law at Ohio State University.

Specifically, Judge Sotomayor stated that ''[t]he nature of the criticism comes from . . . a misunderstanding of the American use of that concept of using foreign law and that misunderstanding is unfortunately endorsed by some of our own Supreme Court justices. Both Justice Scalia and Justice Thomas have written extensively criticizing the use of foreign and international law in Supreme Court decisions. . . .''

She continues: ''I share more the ideas of Justice Ginsburg in thinking . . . that unless American courts are more open to discussing the ideas raised by foreign cases, and by international cases, that we are going to lose influence in the world. Justice Ginsburg has explained very recently . . . that foreign opinions . . . can add to the story of knowledge relevant to the solution of a question, and she's right.''

Judge Sotomayor's rationale for judges looking to foreign law—so that the United States does not ''lose influence in the world''—is absolutely irrelevant to the role of judges in America. It is the province of the President and the legislative bodies—not activist judges—to make policy and manage foreign affairs.

In defending the Supreme Court's use of foreign law, Judge Sotomayor made an astonishing argument: Courts, she said, ''were just using that law to help us understand what the concepts meant to other countries, and to help us understand whether our understanding of our own constitutional rights fell into the mainstream of human thinking.'' But the words of our Constitution were not intended to reflect the ''mainstream of human thinking.'' Think about mainstream public opinion in Europe, Asia, Africa, and South America at the end of the 18th century. Even today, it is doubtful the United States would be satisfied being governed by the thinking of most of the governments in the world, such as China, much of the Muslim world, and the dozens of kleptocracies around the world.

As I noted in my remarks that related my concerns about Harold Koh's views on foreign law, if the Founding Fathers had been given to transnationalism, America would not be the leading light of freedom in the world that it is today. Nor would it be a leader in convincing other nations to protect free speech, assembly and other political freedoms, such as are being asserted in Iran right now.

Do we really want judges to look to the laws of foreign countries when deciding our most treasured, constitutional provisions, such as, for instance, the Second Amendment? I do not, and the American people share my view. Judicial activism is not a popular concept.

While I do not intend to judge her qualifications to decide cases on the U.S. Supreme Court based on this one speech, I believe it is fair to ask what else she has said on the subject. There are apparently other speeches that we do not have. The nominee should either find these speeches or ask whether there are other records—for example, transcripts, tape or video recordings, press accounts, and so on—that would indicate whether her April 28 speech is indicative of her approach to judging.

As we begin to consider the nomination of Judge Sotomayor, we will need this information to properly evaluate her qualifications, especially as it relates to her view that using foreign or international law is an appropriate way for U.S. Supreme Court Justices to interpret the U.S. Constitution.

The ACTING PRESIDENT pro tempore. The Senator from Florida.

Mr. NELSON of Florida. I ask unanimous consent to speak for 15 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

BURMESE PYTHONS

Mr. NELSON of Florida. Mr. President, tragedy has struck. It is not like we haven't been warned. With the proliferation of the Burmese python being brought into the United States, these pythons people buy as pets, and then they get so big that the people don't want them around the house anymore and they release them. Of course, in south Florida they are releasing them into a natural habitat which is the Florida Everglades, so much so that the superintendent of the Everglades National Park has now estimated that they have proliferated to the tune of 150,000 to 180,000 of these Burmese pythons.

When Secretary Salazar came down a month ago for us to take him into the Everglades so he could see that extraordinary feature of Mother Nature, the river of grass, we took him in an airboat out across this river of grass. We also wanted to show him what is lurking beneath that grass now. We took him to two captured Burmese pythons. One was about an 8 footer and another one was a 16 footer. A 16-foot Burmese python in his midsection is that much in diameter. It took three grown men to hold that python. The oldest registered Burmese python in captivity has grown to 27 feet. Indeed, an 18 footer was captured and killed in the Everglades, and it was a female. They found inside of her 56 eggs that

were ready to hatch. That is why we have a proliferation.

We have spent a lot of money, along with the State of Florida, to restore the Everglades, one of the great natural wonders of the world. Mankind, over the course of three quarters of a century, has diked and drained the Everglades, and we are trying to restore them now. But here we have an invasive species that has been introduced that is upsetting the entire ecological balance. Already we have found, for example, somehow a Burmese python swam across the ocean to Key Largo in the upper Florida Keys. They found inside this Burmese python the endangered Key Largo wood rat. They have found a full size bobcat. They have found a full size deer. Indeed, the Burmese python is at the top of the food chain. These pythons, in fact, get into fights with alligators, and they found inside one of the Burmese pythons a 6-foot alligator.

I want to show what I am talking about. I want colleagues to see this critter. This is only a 6 footer. This Burmese python is 2 feet shorter than the Burmese python 4 days ago that, after it had escaped from its glass container at midnight, the man of the house found missing. He went and got the Burmese python, put it back in the container and, unfortunately, did not secure the top of the container, put, if we can believe it, a quilt over the top and secured down the edges of the quilt. Guess what an 8-foot Burmese python can do coming out of a glass container? Tragedy struck, because that python slithered throughout the house and up into a baby crib where there was a 2-year-old little girl named Shaiunna Hare. That Burmese python attached its fangs to the forehead of that child and then did what they do, wrapped its body around the body of the little child and proceeded with all of that muscle to strangle the child to death. This is what we have been saying was going to happen. This happened with a domestic pet in a home. This is what is capable of happening with 180,000 of these pythons in the Florida National Everglades Park.

Sooner or later, a Burmese python will get the endangered Florida panther. Sooner or later, for an unsuspecting tourist in the Everglades National Park, there will be an encounter with a human. Tragically, it took this event of the strangulation by one of these snakes of a child within her own home in the child's crib to bring this to our attention.

This Wednesday there will be a hearing in the committee chaired by Senator BOXER. I will be testifying. I will bring further evidence than these photographs. Here are wildlife officers encountering a snake with an attachment that grabs the snake from right behind the head. In this case, it is probably a 6½ footer—relatively small. But we can see the size. This is solid muscle. That is why these constricter snakes have the capability of asphyxiating their prey before they then consume their prey. We have heard the old adage, a pig in a python. That is exactly what it is. Once they asphyxiate their prey, then their jaws are capable of totally opening and they ingest the entire victim into their body. There is the old phrase: a pig in a python with the hump. That is exactly what it is.

That is the alligator that was found, the 6-foot alligator, within the stomach of the snake. That is the same thing.

There is something we can do about this. No. 1, the U.S. Fish and Wildlife Service has the capability under law now to declare this an injurious species. Since they have been studying this for the last 2½ years and have still not acted, although I believe that Secretary of the Interior Salazar is getting them off dead center and is going to get them to start moving, there is something else we can do. We can change the law. We can stop the importation by changing this from being a species that is allowed to be imported into one that is injurious. That change of definition in the law would stop the importation of these snakes into this country and would stop the exporting of these snakes from one State across State lines to another.

The State of Florida has a registration fee. They now require the implantation of a chip so that if the snake gets loose, we will have a chance of chasing it down. Nevertheless, when we have 150,000 to 180,000 of these snakes in the Everglades National Park alone, we can see that the ecological balance of Mother Nature is definitely being upset. We must change it. We must do it quickly.

Therefore, in front of the Boxer committee will be the legislation I have offered with a number of other Senators, trying to put a halt to the things that led to this tragedy of this little girl being strangled to death by a Burmese python.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

HEALTH CARE

Mr. MCCONNELL. Mr. President, over the past several weeks, Americans have heard a number of proposals for reforming health care, and they are increasingly concerned about many of the details. Americans want reform, but they want the right reform, not a reform that ends up costing them much more for worse care than they already receive. Unfortunately, the government-run plan that some are proposing would do just that.

A government-run plan would force millions of Americans to give up the care they currently have and replace it with a system in which care is denied, delayed, and rationed. Instead of increasing access and quality, it could limit access and options. It could lead us into deeper debt. And millions could well remain uninsured.

Americans are skeptical about all of this. They do not want to be forced to change the coverage they have for a government system they do not particularly want. Some of the advocates of a government plan are beginning to sense this growing public opposition to their proposal. But rather than make their case on the merits, they are basing their arguments on the urgency of the moment.

We keep hearing that time is running out, that the clock on reform is about to expire, that the entire health care system and the whole economy will soon collapse without this particular reform. Well, we have been down this road before.

Earlier this year, we heard the same dire warnings about the stimulus. If Congress did not pass the stimulus, we were told, unemployment would continue to rise and the economy would continue to falter. We did not just have to pass it, we had to pass it right away. The results are now coming in: higher unemployment, soaring job losses, higher debt, huge deficits, and growing fears about inflation.

Many of us saw this coming. That is why we proposed an alternative stimulus that would not add a trillion dollars to the debt and would have gotten to the root cause of our economic problem, which is housing. That is why in the debate over health care Republicans are proposing reforms that would make health care more accessible and less expensive without destroying what people like about our health care system and without sending the Nation deeper and deeper into debt.

Every cost estimate we have heard about the administration's plans for health care is astronomical. The administration realizes this is a problem, and yet they have no good plan for covering the cost. Some of the ideas that have been floated are a series of taxes, including a tax on soft drinks. But

even that would not come close to covering the cost. So they have been looking frantically for money, and the target they seem to have landed on is Medicare—the government health plan for the elderly.

Last month, the administration proposed hundreds of billions of dollars in cuts. It said by taking this money out of Medicare and putting it into a new government-run plan for all Americans, we could help pay for health care reform. Not only is this aimed at concealing the cost of the new government plan, it is also a reckless misuse of funds that should be used to stabilize Medicare instead.

Weeks before the administration proposed its cuts to Medicare, the government board that oversees this vital program issued an urgent report on its looming insolvency. Let me say that again. Just weeks before the administration recommended Medicare cuts in order to pay for a new program, the government board that oversees this program issued an urgent report on its looming insolvency. Already, Medicare is spending more money than it is taking in. It runs out of money altogether in 8 years. And over the coming decades, Medicare is already committed to spend nearly $40 trillion that it does not have.

If there were ever a crisis that cannot wait another day for reform, it is Medicare. Yet rather than do the hard but necessary work to put this program on a sound financial basis, the administration wants to take money away from it and use it to create an entirely new government-run system that would presumably have the same fiscal problems down the road that Medicare has today. This makes no sense whatsoever.

Savings from Medicare should be put back into Medicare—not a government plan that could drive millions of Americans out of the private health care plans they have and like and lead to the same kind of denial, delay, and rationing of health care that we have seen in other countries.

We must be committed to reform but not a so-called reform that raids one insolvent government-run health care program in order to create another insolvent government-run health care program. The administration should be applauded for trying to fix what is wrong with our Nation's health care system, but it needs to slow down and take a deep breath before taking over what amounts to about one-sixth of our Nation's economy with a single piece of legislation that lacks bipartisan support.

The administration rushed ahead with a poorly conceived stimulus plan that added a trillion dollars to the national debt and has not stopped half a million Americans a month from losing their jobs. It should learn from that and not rush a poorly conceived health care plan with money we do not have. We do not need more rush-and-spend policymaking. We need to reform health care, but we do not need to weaken Medicare to do it. We can reform both, but we should start with Medicare.

At a time when Americans are increasingly concerned about the future of health care and also about a political system in which they see fewer and fewer checks on the party in power, now would be the ideal time to advance a truly bipartisan reform. The President has repeatedly expressed openness to reforming Medicare in the past. We stand ready to work with him to strengthen and preserve Medicare if he chooses to follow through on those assurances.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I congratulate the Republican leader on his remarks. I remember Senator MCCONNELL's first address following President Obama's election at the National Press Club. It was to the President, saying: Mr. President, we look forward to working with you, and the pressing issue is the entitlements facing this country, the automatic spending that means more and more and more debt.

I would ask the Republican leader whether there has been any response from the administration to him about the opportunity to work together across party lines to deal with Social Security which, as I remember in January, was your proposal?

Mr. MCCONNELL. I say to my good friend from Tennessee, unfortunately, there has been no followup whatsoever. There seemed to be, on the part of the President and the President's Chief of Staff at the beginning of the administration, a willingness to support the Conrad-Gregg proposal, which would have given us a way to get a handle on at least Social Security—they did not seem to want to deal with Medicare, and I think we now know why—at least Social Security, with an expedited procedure and an up-or-down vote guaranteeing a result. But I would say to my friend from Tennessee, there has been no word on that lately.

Mr. ALEXANDER. Mr. President, in my visits in Tennessee this past week, if I heard two things, one was too many Washington takeovers; the other was too much debt. I found in people—and I hesitate to use the word—a great deal of fear about the amount of debt we are piling up here in Washington.

Mr. MCCONNELL. Mr. President, I think there is a genuine alarm. Americans see the government now running banks, insurance companies, automobile companies. The Senator from Tennessee points out student loans. Now they fear the government wants to take over health care as well. I think there is a growing suspicion that this is exactly the wrong way to go.

Mr. ALEXANDER. Mr. President, I thank the Senator for his comment about checks and balances. There is something innate in the American character about checks and balances. Alexis de Tocqueville warned, in the early 1800s, about the tyranny of a majority. We like to see results, but we do not want to see one party or one faction run away with policy. We seem to know it is better if there is a check and a balance. And the genius of the American system is we have many checks and balances.

I wonder, Mr. President, how much time do I have remaining?

The ACTING PRESIDENT pro tempore. The Senator has 8 minutes remaining.

Mr. ALEXANDER. I thank the Acting President pro tempore.

NUCLEAR POWER

Mr. ALEXANDER. Mr. President, health care is not the only issue before the Senate. We have the nomination by the President of a distinguished jurist, Judge Sotomayor. Hearings will begin next week on whether she should be confirmed for the Supreme Court.

Tomorrow, the Senate, in the Environment and Public Works Committee, begins discussion on climate change and global warming—a subject we have talked about a lot. The House of Representatives has made that an issue by passing, about 10 days ago, another one of these bills that by all reports no one in the House of Representatives read before it was passed—1,200 pages served up the day before they voted. They voted and sent it on over to us. So we have energy and climate change to deal with, which is the subject of my remarks this afternoon.

My question is this: Why is Congress and, to a great extent, the administration ignoring the cheap energy solution to global warming—nuclear power?

Consider this: No. 1, coal-burning powerplants produce about 40 percent of carbon, and carbon is the principal greenhouse gas causing global warming. That is the first fact.

Second, nuclear powerplants, which produce only 20 percent of all of our electricity in America, produce 70 percent of our carbon-free, pollution-free electricity.

So coal-burning powerplants produce 40 percent of the carbon, and nuclear powerplants produce 70 percent of the carbon-free electricity, and our goal is to get rid of the carbon to slow down global warming. I think that is the goal anyway.

So if that is the goal, if global warming is your issue, why not build 100 new nuclear powerplants during the next 20 years to deal with it? Nuclear power costs less than one-half cent per kilowatt hour to produce, which means it

is cheap enough to pay for building the plants and will still leave electric rates low.

The rest of the world seems to understand this a little better than we do in the United States today. France gets 80 percent of its electricity from nuclear and has among the lowest carbon emission rates and electricity prices in the European Union. The United States—our taxpayers—is helping India and China build nuclear plants. Japan is building one nuclear plant a year. The President has even said that Iran has the right to build nuclear powerplants. But the United States has not built one new nuclear plant in 30 years, even though we invented the technology.

So instead, the House of Representatives, 10 days ago, chose the high-cost solution to the climate change energy dilemma, narrowly passing an economywide so-called cap-and-trade bill, the Waxman-Markey bill. This is a job-killing $100 billion a year new national energy tax, which would add a new utility bill to the budget of every American family.

The House also mandated the use of solar and wind power, which is 6 percent of our carbon-free electricity. Remember, nuclear is 70 percent of our carbon-free electricity. So the House, ignoring nuclear, says: Let's expand solar and wind, which is 6 percent of our carbon-free electricity, even though both are more expensive and more unreliable since solar and wind power cannot be stored today, which means you have to use it when the Sun shines and the wind blows. Wind, especially, barely works in some parts of the country, such as the Southeast.

So the choice is between a high-priced or a low-priced clean energy strategy. I think we all want a clean energy future, but do we want a deliberately high-priced clean energy future or a low-priced one? High pricers want taxes and mandates. Cheap energy advocates—almost all Republicans in Congress and some Democrats, and I hope a growing number—say build nuclear plants and double research to make renewable energy cheaper and reliable. High-priced energy sends American jobs overseas looking for cheap energy. I see that in all of the auto plants we have in Tennessee, and the auto suppliers. They are operating on a very thin margin. Add a little cost and those cars and trucks are built in Mexico and Japan instead of Tennessee and Michigan.

Cheap energy not only creates jobs, it will reduce global warming faster than taxes and mandates. Here is why: 100 new plants in 20 years would double U.S. nuclear production, making it more than 40 percent of all electricity production. Add 10 percent or so for Sun and wind and biomass, another 10 percent for hydroelectric, and we begin to have a cheap as well as a clean energy policy.

Some predict renewable sources will be 20 percent of electricity in 20 years. I predict it will be about half that, after Americans understand its costs and its lack of reliability and they begin to see what some conservationists are calling the ''renewable energy sprawl''—50-story wind turbines along the foothills of the Great Smokey Mountain National Park and the Blue Ridge Parkway and the Shenandoah Valley and solar thermal plants 5 miles wide next to national parks, all with big new transmission lines. Plus, since the Sun shines and the wind blows only about one-third of the time—remember, you can't store it—we will still need nuclear plants for base load power.

Step 2 for a clean and cheap energy policy is to electrify half our cars and trucks. There is so much unused electricity at night, we can also do this in 20 years without building one new powerplant if we plug in vehicles while we sleep. This is the fastest way to reduce dependence on foreign oil, keep fuel prices low, and reduce the one-third of carbon that comes from gasoline engines.

Step 3 is offshore exploration for natural gas—that is low carbon—and oil. We should use less but use more of our own.

Finally, we should double energy research and development to make renewable energy such as solar more cost competitive.

Obstacles to nuclear power are diminishing. Used fuel can be stored safely onsite for 40 to 60 years while scientists figure out the best way to reduce its mass and recycle or reuse it. New plants can be one-tenth the size and one-tenth the cost of the big ones we are accustomed to today and can be put together at an American factory and shipped to the site and assembled like Lego blocks—all of this American made—and with air cooling towers, not water cooling, and the towers are only two stories tall.

I have introduced legislation to deal with global warming ever since I came to the Senate, but I am not in favor of economy-wide cap and trade. It is unnecessary. It is complex. It has unintended consequences. Our economy can't tolerate it. A simpler way to do it would be to focus on smokestacks, tailpipes, and find alternative ways to deal with the coal and the oil we want to use less of. We have that with tailpipes, cars, and trucks. We can shift to electric cars and trucks and the cost to the consumer will be as low or lower as they plug in at night to electricity. We also have that with smokestacks. We can shift some of our dirtiest coal plants to nuclear power, and instead of increasing the cost of energy, we could keep it steady or probably reduce it. So why would we want to deliberately proceed with a high-cost energy strategy when cheap energy is the key to our national security, to rebuilding our economy, and the key to so much of what is important to America's future?

There is an old rule of thumb that sometimes in government we take a good idea and expand it until it doesn't work. I am afraid we are doing that with renewable energy—which is a good idea—the idea of putting up your own windmill in your backyard, put some solar panels on your roof, use biomass, and cut your energy costs and cut your use of fossil fuels. That is a good idea, but it is only going to produce a small percentage of what we actually need to run a country such as this which uses 25 percent of all of the energy in the world.

Biomass, for example, to produce the amount of energy that one nuclear powerplant produces, you would have to forest continuously an area the size of the entire Great Smokey Mountain National Park, which is 550,000 acres. To produce enough electricity to equal a nuclear powerplant from solar power you would have to cover an area about the size of 270 square miles, and that is 5 or 6 miles on each side. The same with wind, or the same with hydroelectric, and we are not going to be building any big, new reservoirs anymore of that size.

So we should take what we can get in appropriate places of wind and solar and biomass. We should put a few turbines in the Mississippi River and pick up some megawatts for the TBA, for example, but that is a few hundred megawatts for a system that needs to produce 27,000 megawatts of reliable, low-cost, clean electricity every year.

The only technology we have available to produce large amounts of clean, reliable electricity in the next 20 years is nuclear power. We invented it. We know how to use it. The rest of the world is taking advantage of it. Why don't we? Especially in this economy, when we have nearly 10 percent unemployment, when in Tennessee and Virginia and in the Midwest we are trying to find ways to rebuild the economy, when we know that cheap energy is the key to new jobs and that high-priced energy drives jobs overseas looking for cheap energy, why are we ignoring the cheap energy strategy for dealing with global warming, cheap energy based on nuclear power, No. 1; electric cars and trucks, No. 2; offshore drilling for natural gas and oil which we are still going to need, and pushing ahead with mini Manhattan projects in energy research and development to figure out renewable energy and help make it cost competitive while we move ahead?

This is not only the fastest way to increase American energy independence, clean the air, and reduce global warming, it is the best way to help strained family budgets and a sick economy with 10 percent unemployment.

I thank the President, I yield the floor, and I note the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

Mr. NELSON of Nebraska. Mr. President, I ask for the clerk to report the bill.

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of H.R. 2918, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes.

Pending:

Nelson (NE) amendment No. 1365, in the nature of a substitute.

McCain amendment No. 1366 (to amendment No. 1365), to strike the earmark for the Durham Museum in Omaha, NE.

Mr. NELSON of Nebraska. Mr. President, we are returning to the Legislative Branch Committee bill for further consideration today. It is my understanding that my colleague from Oklahoma has an amendment he would like to offer. He was here. Perhaps he will rejoin us shortly.

To recap, this is the legislative branch bill, which has a number of different important issues in it, not the least of which is the fact that when you compare the percentage of increase this year with previous years, it is an effective 2.4-percent increase. We controlled the growing costs associated with the new Visitor Center, which were significant in the last budget.

Let me, at this point, yield to the Senator from Oklahoma.

The ACTING PRESIDENT pro tempore. The Senator from Oklahoma is recognized.

AMENDMENT NO. 1369 TO AMENDMENT NO. 1365

Mr. COBURN. Mr. President, I wish to spend a few minutes talking about the legislative branch and us and where we find ourselves. I do have an amendment and I appreciate the consideration of it.

Right now, the average income in this country is down four-tenths of 1 percent this year. Historically, people wonder why Congress cannot control spending. They cannot control spending because they cannot even control their own budget. We are going to see about a 3.2-percent increase in the bill. The House is coming in at 6.1. In conference, we will decide what the legislative branch increase in expenses is on the American public. The reason that spending is out of control and the reason we are shackling our grandchildren with an enormous amount of debt—another $5 trillion in the next 5 years—is because we don't even do a good job managing our own office budgets.

I am on the floor a lot complaining about wasteful spending, earmarks, and other issues. I don't do that without setting the proper example in my own office. I have been here 4 complete years. I am in my fifth year. During that time, I have turned back, in 2005, $321,000; in 2006, $529,000; in 2007, $516,000; and in 2008, $491,000—about 16 to 17 percent of my budget.

If I can do that, the question the American people ought to ask is: Why can't everybody up here do that? Why can't we manage our own legislative branch expenses? With the economic environment in which we find ourselves today, the American people ought to be asking what are our elected leaders doing to cut their expenses because we are borrowing a good portion of this money. Why are we not setting an example? If we don't do it, then we are certainly not going to have the various Federal agencies do it.

If you look at spending increases, outside the omnibus and the Recovery Act, Congress increased spending almost 7.2 percent last year. The budget has in it 7.3 percent. That is three times the rate of income growth prior to this recession. Yet we are growing the government three, four times faster, and we are growing our own budgets two and a half or three times faster. This time, it will be five or six times faster than Americans' income is growing.

The question has to be asked: If we are not good stewards with our own offices, how can we be good stewards with the money entrusted to us?

Mr. President, I call up amendment No. 1369 and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 1369 to amendment No. 1365.

Mr. COBURN. Mr. President I ask unanimous consent that reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To require expenditures by every Senate office be posted online for the public to review)

At the appropriate place, insert the following:

SEC. _____. REPORTING REQUIREMENT.

Section 105(a) of the Legislative Branch Appropriations Act 1965 (Public Law 88-454; 2 U.S.C. 104a) is amended—

(1) in the last sentence of paragraph (1), by striking ''shall'' and inserting ''may''; and

(2) by adding at the end the following:

''(6) Beginning with the report covering the first full semiannual period of the 112th Congress, the Secretary of the Senate—

''(1) shall publicly post on-line on the website of the Senate each report in a searchable, itemized format as required under this section;

''(2) shall issue each report required under this section in electronic form; and

''(3) may issue each report required under this section in other forms at the discretion of the Secretary of the Senate.''.

Mr. COBURN. Mr. President, this is a very simple amendment. It says we will take the money we spend and make available online to the American people how we spent it. Right now, there are a limited number of books published. We transfer it from computers to a book, but we don't give it to the American people so they can see how we are spending money on our office accounts. Senators NELSON of Nebraska and REID have graciously said they support this amendment. We will have limited debate.

The one way to get this spending under control in our individual offices, as well as in the Federal Government, is to make available to the American people how we spend it. So my hope is this will be a short period of time, and at the end of this year, the American people can go on a Web site and see how TOM COBURN spent his money, in terms of running the office of the junior Senator from Oklahoma. I think they will find I am as frugal with their money in my office as I am trying to be frugal on the floor when it comes to wasteful spending. There is $350 billion worth of waste that will go through this year, without one stroke of it being eliminated—$350 billion worth of waste and not one legitimate stroke will be eliminated as we go through the Appropriations Committees and the President's budget—and he is trying to eliminate some. But we won't even do a line-by-line review.

I hope we will accept this amendment and lead by example, and the American people can hold us accountable for how we spend their money.

With that, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Nebraska is recognized.

Mr. NELSON of Nebraska. I know of no further debate on the amendment.

The ACTING PRESIDENT pro tempore. If there is no further debate, the question is on agreeing to the amendment.

The amendment (No. 1369) was agreed to.

Mr. NELSON of Nebraska. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BARRASSO. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. HAGAN). Without objection, it is so ordered.

Mr. BARRASSO. Madam President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. BARRASSO. Madam President, when it comes to health care, Democrats and Republicans all agree that we need and we want health care reform. Having practiced medicine for over two decades in Wyoming, I know that doing nothing is simply not an option. But let me tell you from experience that the devil is always in the details. We must be careful, we must be thoughtful, and we must be deliberate about the changes we make.

Health care is a very complex and intensely personal issue. It deserves a serious, open, and transparent national debate. Any changes Congress makes are going to impact millions and millions of American families. These are people of our Nation; these are not nameless or faceless statistics; these are husbands, mothers, neighbors; these are our wives, our friends, and our coworkers; these Americans are our children—the Nation's most precious resources.

We must act, but still at issue is whether Congress will act without sacrificing our health care system's greatest strengths. And what are those strengths? The freedom to choose your own doctor, the freedom to choose the hospital you want, and the freedom to choose the health care plan that fits you and fits your family's needs.

I travel home to Wyoming every weekend. I was there yesterday. One of the top issues I hear about is health care. The people of Wyoming are concerned about the cost of their health care. Many families worry they will lose the health care coverage they currently have. Still others can't afford health insurance at all. This is what is wrong with the current health care system. This is what we need to fix. Wyoming families want to purchase health insurance coverage at an affordable price. They do not want to be denied coverage because of preexisting conditions. They do not want to lose coverage if they change jobs. But most of all, these families do not want Washington telling them—do not want Washington telling them—whom they have to see for their medical care. Everyone should have the freedom to choose the doctor, the hospital, and the health care plan they want. No Washington bureaucrat should ever be allowed to deny that right.

Some in Congress continue focusing solely on government solutions. They want Washington, in its enduring wisdom, to take over health care. Some in Congress want to create a government-run health care plan. Their plan creates a government-run insurance model that could limit patient choice, eliminate personal freedoms, and decrease the quality of care. What starts out as one option could quickly lead to being the only option.

We all know how this happens. Unlike regular health insurance, government health plans have unlimited access to taxpayer money. They can use the money to temporarily subsidize the cost of services, but ultimately someone must pay for the care.

According to the Lewin Group, 119 million Americans would lose the private coverage they currently have if we have a government-run system. I know some in the Senate and the administration keep saying: If you like your insurance coverage, you will get to keep it. The Lewin Group's data proves otherwise. Their study shows that businesses will face a situation where it is cheaper for them to insure their employees through the government-run plan, so employers will then transfer their workers from the private insurance that they currently have—and that they may like—to this new Washington-run government plan. So where is the personal choice? At this point, the individual has no option. The government-run plan is their option, it is their plan, unless that person changes jobs to an employer who is willing or can afford to offer private coverage. So what happened to the ''If I like my health insurance plan offered by my employer, I will be able to keep it''? Well, that promise is out the window.

Some say we can create safeguards that will ensure a level playing field between private insurance and a government-run plan. Well, as a doctor, I can tell you from personal experience that the government will never, ever compete on a level playing field with private business. Washington will never let its health care plan go bankrupt. Never. It will lose money, it will hide costs, and ultimately taxpayers will pay the difference. Private plans will not enjoy this same kind of support. That is exactly how the heavy hand of government can drive out competition.

So how does government compete with private business? Well, Congressman MIKE PENCE of Indiana summed it up pretty well. He said: ''The government competes with private business the way an alligator competes with a duck.''

Supporters of the government-run Washington takeover of health care say the plan will keep costs low. How? By paying hospitals, doctors, nurses, home health agencies, hospice providers, and long-term care facilities less than private insurers pay. This should sound familiar. This is what already happens with Medicare and Medicaid. Any participating Medicare or Medicaid provider will tell you that today, right now, doctors and hospitals have to shift costs onto private insurers just to keep their doors open. The cost shift is to make up the difference between what a procedure costs and what the government is willing to pay for it. That is what they call cost shifting. We see it every day.

A government-run plan will not encourage competition; it will take away your access to private health insurance. The private plans millions of Americans have today—the program they like, the one they want to keep—will be gone. The only choice remaining will be the government plan.

So what does this all mean to someone who is listening in—to the patient? Well, it means politicians will be making health care decisions, not patients making those decisions with their doctors. It means Washington bureaucrats will be deciding whether you can have the hip or the knee procedure you need. It means the government will be saying you cannot have lifesaving medical treatment because it is too expensive or because you are too old. It means Washington will be restricting your and your child's access to the most advanced medical testing equipment. It means testing delays, it means diagnosis delays, and it means treatment delays. Delayed care is denied care, and we do not want that in America.

Take a close look at what is going on in Canada right now. Last year, in Calgary, ophthalmologists—eye doctors—had no waiting lists for people needing cataract surgery. Then Alberta's cash-strapped government made a decision to arbitrarily lower the number of cataract operations it would pay for. They arbitrarily said: We are going to pay for 2,000 fewer cataract operations this year in Alberta than we did last year. So what did that mean for the people there? Well, many patients now have to wait a year for treatment—a year. Why? Well, the cutbacks forced surgeons to cancel all of the operations they had scheduled on people with moderately severe cataract conditions. So now they only book the most severe cases. Ophthalmologists are now concentrating their efforts only on the patients who are about to go blind—not the people who have a hard time seeing, the people about to go blind.

Patients living in Alberta have to almost be going blind to get cataract surgery. Is that the kind of medical care we want for Americans? Absolutely not. America should strive to offer its citizens the highest quality, most timely health care services in the world. That means Americans should not have to wait weeks at a time for tests and treatments they need. It means no one should be denied health care services because of government limits or government restrictions. It

means no government bureaucrat should interfere in the doctor-patient relationship.

Currently, the Senate HELP Committee has been debating a reform plan that has been put forth by Senator KENNEDY and Senator DODD. The nonpartisan Congressional Budget Office told us—first, it told us the Kennedy-Dodd plan increases spending by more than $1.3 trillion in the first 10 years. Once it is fully operational, the 10-year fee would be closer to $2.6 trillion. The number was staggering. People cried ''sticker shock.'' What did they do? They tweaked it around a little bit and came out with a new estimate.

They are just guessing. Even more disturbing is the plan is incomplete. The Congressional Budget Office still has additional policies to score to come up with a pricetag. Clearly, this estimate does not reflect the bill's true cost because they left out Medicaid, something they have been forcing onto the States, and Governors all around the country have been crushed by these Medicaid-increased fees and increased expenses.

Ten years and trillions of dollars later, the Congressional Budget Office also tells us this plan only reduces the number of people who do not have insurance by 17 million. That leaves over 30 million Americans still without health insurance, and they are spending $1 trillion.

Finally, the Congressional Budget Office indicates that about 15 million people would actually lose the insurance they have now, be forced off of their employer-paid-for insurance under this trillion-dollar plan.

To me, this Kennedy-Dodd plan suffers from what I call the three Cs: it costs too much, it covers too few, and it causes too many people who already have insurance to lose the coverage they have.

Some in Congress believe unless we completely dismantle the current health care system and build it up in the image of big government, then reform, they say, is simply not worth doing. I disagree. Americans do not want the same government bureaucracy that has given us the Department of Motor Vehicles controlling our medical decisions. Americans don't want increased bureaucratic hassles, we don't want long waits, and we don't want restrictions on our medical care.

What we need is a serious, transparent health care debate. That is what Americans want. They want us to listen to their ideas, their concerns, their suggestions. The only way they can give us their ideas, concerns, and specifically their suggestions about a health care bill is if they actually get to read the bill.

Whether we should reform our health care system is no longer in question. Americans have answered with a resounding yes, and they don't want to continue to wait. They want simple, practical, affordable changes now: Changes such as prohibiting the use of preexisting condition clauses, changes such as allowing people to take their health insurance with them when they switch jobs. Madam President, you have a young family; I have a young family. Our children are going to have seven or eight jobs over the course of their lifetimes. They will need to take their insurance with them. We need to have changes such as offering premium breaks for making healthy lifestyle choices, changes such as having the same tax breaks for people who buy their own insurance as big companies get when they pay for insurance for their employees—we need families to have those same tax breaks. We need changes such as allowing people to shop across State lines to look for better deals, keeping their costs down.

I want to continue to come forward with commonsense ideas. I want the majority in Congress to work with me and with members of my party on a bipartisan health reform plan. That is the need. That is the need the country is expecting us to address. That is what I would like to do. We cannot simply put government in charge of health care and put bureaucrats in between patients and their doctors.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DEMINT. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1370 TO AMENDMENT NO. 1365

Mr. DEMINT. Madam President, I hope everyone had a good break. I can't say that I am glad to be back, but there are some important things to do. I start by calling up amendment No. 1370, which is at the desk, and ask for its immediate consideration.

The PRESIDING OFFICER. Without objection, the clerk will report.

The legislative clerk read as follows:

The Senator from South Carolina [Mr. DEMINT] proposes an amendment numbered 1370 to Amendment No. 1365.

Mr. DEMINT. I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To direct the Architect of the Capitol to engrave the Pledge of Allegiance to the Flag and the National Motto of ''In God We Trust'' in the Capitol Visitor Center)

At the appropriate place, insert the following:

SEC. _____. ENGRAVING OF THE PLEDGE OF ALLEGIANCE TO THE FLAG AND THE NATIONAL MOTTO IN THE CAPITOL VISITOR CENTER.

(a) ENGRAVING REQUIRED.—The Architect of the Capitol shall engrave the Pledge of Allegiance to the Flag and the National Motto of ''In God We Trust'' in the Capitol Visitor Center, in accordance with the engraving plan described in subsection (b).

(b) ENGRAVING PLAN.—The engraving plan described in this subsection is a plan setting forth the design and location of the engraving required under subsection (a) which is prepared by the Architect of the Capitol and approved by the Committee on Rules and Administration of the Senate and the Committee on House Administration of the House of Representatives.

Mr. DEMINT. Madam President, this amendment is about the Capitol Visitor Center. Among other things, we all know the new Capitol Visitor Center, which is very beautiful, welcomes folks from all over the country and the world to the Capitol. It includes interesting and valuable museum-style exhibits about the history of the Capitol and Congress. Unfortunately, the way the Capitol Visitor Center has been built and the way the displays have been set up, it conspicuously ignores America's unique religious heritage and the role that heritage played in the founding of the Republic. Indeed, the original exhibits now there seem to suggest the Federal Government was the solution to all our problems and the fulfillment of all human aspirations, as if we were a government with a nation instead of the other way around. Even the national motto was misrepresented—as out of many, one.

My unanimous consent agreement will help correct the record as it is displayed at the Capitol Visitor Center. It will authorize the engraving of our true national motto, which is: In God we trust. It will also order the engraving of the Pledge of Allegiance with its reference to one Nation under God in a prominent position in the Capitol Visitor Center. From the beginning many of us were concerned about what looked like a historical whitewash of our Nation's faith heritage from the Capitol Visitor Center. I thank Senators FEINSTEIN and BENNETT for their support. I have a letter they both signed formalizing our agreement for the historical corrections in my amendment.

I ask unanimous consent that this letter be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE, COMMITTEE ON RULES AND ADMINISTRATION
Washington, DC, September 26, 2008.

Hon. JIM DEMINT,
Russell Senate Office Building,
Washington, DC.

DEAR JIM: After many years of anticipation the Architect of the Capitol is preparing for the opening of the new Capitol Visitor Center (CVC) on December 2, 2008.

Delaying the opening of the CVC has serious security implications. The CVC was designed so that public visitors will be screened at one secure location, improving security in the U.S. Capitol for constituents, staff and Members.

Delaying the opening of the CVC also has significant financial consequences. As you

are aware, the CVC has already cost $621 million for construction. The Architect is currently paying the cost of salaries and benefits for staff preparing to open and operate the facility for the American public. Every day the CVC is closed to the public, it will cost the taxpayer $72,040 in unused staff resources.

In response to your letter dated September 25, 2008, we agree in principle to support engraving ''In God We Trust'' in stone in a prominent location within the CVC; engraving ''The Pledge of Allegiance'' in stone in a prominent location within the CVC; and removing the words ''Our Nation's Motto'' from the Unity panel on the Wall of Aspirations of the Exhibition Hall in the CVC, and replacing it with a new panel.

We recognize that one of your suggestions (renaming ''Our Nation's Motto'') is a correction, and the ''Pledge'' and ''In God We Trust'' are additions. The approximate cost of doing all three projects, according to the Architect of the Capitol, is $150,000.

We are pleased that you have agreed to Senate consideration of the CVC legislation.

Sincerely,

DIANNE FEINSTEIN,
Chairman.
ROBERT F. BENNETT,
Ranking Member.

Mr. DEMINT. I also want to make a point about the unfortunate expense associated with these design corrections. I regret these funds must be spent. That the historical whitewash of the original design contained these inaccuracies was unfortunate, certainly. But the $150,000 this project will cost is less than 1/10th of 1 percent of the cost of the Capitol Visitor Center. Anyone interested in finding offsets can count on my support in identifying waste in the underlying bill that is funding Congress for next year. When these engravings are completed and when we can welcome God back into the Capitol Visitor Center, visitors to the Capitol will see a fairer and more historically accurate depiction of the all-important relationship between faith and freedom in America.

I understand the majority is prepared to accept the amendment by a voice vote or unanimous consent.

Mr. NELSON of Nebraska. There is no objection.

The PRESIDING OFFICER. If there is no further debate on the amendment, the question is on agreeing to the amendment.

The amendment (No. 1370) was agreed to.

AMENDMENT NO. 1367 TO AMENDMENT NO. 1365

Mr. DEMINT. Madam President, I have another amendment I have been informed the majority plans to block consideration of, which is No. 1367 regarding transparency at the Federal Reserve. I wish nonetheless to take a few moments to discuss it.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DEMINT. The unelected central bank of the United States, the Federal Reserve, enjoys a monopoly over the flow of our money and credit but has never been completely transparent and accountable to Congress since its creation in 1913. Since 1913, our dollar has lost more than 95 percent of its purchasing power. My amendment is called the Federal Reserve sunshine amendment. It is modeled after legislation sponsored by Representative RON PAUL of Texas in the House and our colleague Senator SANDERS of Vermont in the Senate. This amendment amends section 714 of title 31 of the United States Code to remove existing restrictions on how the Government Accountability Office can audit the Federal Reserve. With these limitations gone, the Fed's discount window operation, funding facilities, open market operations, and agreements with foreign central banks and governments would all be finally open to congressional oversight. The Government Accountability Office would be required to audit the Fed by the end of 2010 and to report its findings to Congress.

Every dollar created by the Fed has an effect on the value of the dollars in our pockets and bank accounts. We need to pay more attention to the effect of Washington decisions, whether fiscal policy made by Congress or monetary policy made by the Fed. They all are ultimately borne by the American people. The Federal Reserve will create and disburse trillions of dollars in response to our current financial crisis. Americans across the Nation, regardless of their opinion on the bailout, want to know where the money has gone, exactly how much has been spent, and what collateral has been taken in return. That is why we see so much bipartisan support in the House, in BERNIE SANDERS and JIM DEMINT being on the same side in the Senate. Inflation is a hidden tax. We, unfortunately, forget about it too often when we are debating spending bills in Congress.

Our fiscal actions, higher deficits, increased long-term debt, and entitlement obligations will necessarily need to be paid for by printing new money or borrowing more money from an increasingly skeptical world. Either option results in higher interest rates for consumers and a devaluing of the dollars they have already earned and saved. Allowing the Fed to operate our Nation's monetary system in almost complete secrecy leads to abuse, inflation, and a lower quality of life for every American. Unfortunately, the majority has decided to use a procedural tactic to block a vote on this amendment by invoking something called rule XVI. This is a rule that prevents policy being added to spending bills. The majority claims we do not legislate on appropriations bills. Of course, that is false. In fact, there are already rule XVI violations in the bill we are trying to amend. We saw this majority airdrop the cash for clunkers program into the recent supplemental appropriations bill.

The majority may claim this amendment is not relevant to the underlying bill, but in fact there are already provisions in this bill related to Government Accountability Office audits, so this language is quite appropriate on this bill. The legislation has already received the support of more than one-half of the House of Representatives within a few short months of its introduction. It is time for the Senate to show its support.

I ask the majority leader again to allow a vote on amendment 1367 regarding a GAO audit of the Federal Reserve.

I call up amendment 1367.

The PRESIDING OFFICER. Without objection, the clerk will report.

The legislative clerk read as follows:

The Senator from South Carolina [Mr. DEMINT] proposes an amendment numbered 1367 to amendment No. 1365.

The amendment is as follows:

(Purpose: To amend title 31, United States Code, to reform the manner in which the Board of Governors of the Federal Reserve System is audited by the Comptroller General of the United States and the manner in which such audits are reported, and for other purposes)

At the appropriate place, insert the following:

SEC. _____. AUDIT REFORM AND TRANSPARENCY FOR THE BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

(a) IN GENERAL.—Subsection (b) of section 714 of title 31, United States Code, is amended by striking all after ''shall audit an agency'' and inserting a period.

(b) AUDIT.—Section 714 of title 31, United States Code, is amended by adding at the end the following new subsection:

''(e) AUDIT AND REPORT OF THE FEDERAL RESERVE SYSTEM.—

''(1) IN GENERAL.—The audit of the Board of Governors of the Federal Reserve System and the Federal reserve banks under subsection (b) shall be completed before the end of 2010.

''(2) REPORT.—

''(A) REQUIRED.—A report on the audit referred to in paragraph (1) shall be submitted by the Comptroller General to the Congress before the end of the 90-day period beginning on the date on which such audit is completed and made available to the Speaker of the House, the majority and minority leaders of the House of Representatives, the majority and minority leaders of the Senate, the Chairman and Ranking Member of the committee and each subcommittee of jurisdiction in the House of Representatives and the Senate, and any other Member of Congress who requests it.

''(B) CONTENTS.—The report under subparagraph (A) shall include a detailed description of the findings and conclusion of the Comptroller General with respect to the audit that is the subject of the report, together with such recommendations for legislative or administrative action as the Comptroller General may determine to be appropriate.''.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. NELSON of Nebraska. Madam President, I make a point of order against the DeMint amendment that it is legislation on appropriations.

The PRESIDING OFFICER. The point of order is well taken. The amendment falls.

Mr. DEMINT. Madam President, I regret the objection. Since the other side is arguing that rule XVI applies here, my amendment contains language to an existing GAO audit of the Federal Reserve. Because it is legislative in nature—in other words, because it actually addresses the audit itself and not just the funds for the General Accountability Office—they say it is out of order. I have a parliamentary inquiry: Is the language in section 1501(b) dealing with an existing GAO audit of the National Transportation Safety Board legislative?

The PRESIDING OFFICER. It is.

Mr. DEMINT. I thank the Chair. Does it violate rule XVI?

The PRESIDING OFFICER. It does.

Mr. DEMINT. So the Democrats are suggesting that it is somehow illegitimate for me to offer an amendment dealing with an existing GAO audit when they themselves have included language dealing with other audits that flatly violates rule XVI.

Further parliamentary inquiry: Is the language in section 1501(c) regarding a GAO audit of local educational agency spending legislative in nature and in violation of rule XVI?

The PRESIDING OFFICER. Yes.

Mr. DEMINT. I thank the Chair. What about section 1501(d) which repeals a GAO audit of the small business participation in the Alaska national pipeline; is that legislative in nature and does it violate rule XVI?

The PRESIDING OFFICER. Yes, it is.

Mr. DEMINT. Madam President, I have a long list here for which I understand from the Parliamentarian the answers will continue to be yes. We have several provisions, obviously, dealing with the GAO and GAO audits in this bill. The other side cannot stand behind a rule they have flagrantly violated themselves.

There is an earmark in this bill for Nebraska. It is the only earmark in the bill.

I would ask the Chair, what about the provision in the Library of Congress section containing a $200,000 earmark for the Durham Museum in Omaha, NE? Is that a legislative item? And does it violate rule XVI?

The PRESIDING OFFICER. It is legislative, but the Chair is aware of a defense in germaneness.

Mr. DEMINT. Thank you, Madam President. Then, would it be accurate to say the provision contains legislative language that meets the definition of rule XVI, even though it is arguably germane to the House language?

The PRESIDING OFFICER. It is legislative in nature.

Mr. DEMINT. Thank you, Madam President.

I think I have made my point, and I will not take this any further. Clearly, there is a double standard.

One of the most sought after amendments we have probably brought up in the House and the Senate since I have been here is an audit of the Federal Reserve. Everywhere I went last week people were thanking me for finally looking at what the Federal Reserve was doing and trying to let the American people know what is happening.

This is an audit that has broad support, and I would encourage my colleagues on the Democratic side to allow this amendment to be voted on. But, apparently, the other side has decided to challenge it with rule XVI, which they do not apply to their own language.

But as I said, Madam President, I have probably said enough and I thank you for your indulgence.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MCCAIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1366

Under the previous order, there will now be 10 minutes of debate, equally divided and controlled between the Senator from Arizona, Mr. MCCAIN, and the Senator from Nebraska, Mr. NELSON.

The Senator from Arizona is recognized.

Mr. MCCAIN. Madam President, I hope my colleagues will vote to strike this earmark for the Durham Museum in Omaha, NE. Strangely enough, this amount has been inserted by the Senator from Nebraska—this $200,000 for the Durham Museum in Omaha, NE.

Lest there be any confusion about this, in the last tax return of the Durham Museum in Omaha, NE, they had $10,917,319. So the museum is fairly well off. They have assets of about $11 million. Apparently, the Senator from Nebraska thinks they need a couple hundred grand extra—on the Legislative Branch Appropriations bill.

Again, I am interested in hearing the Legislative Branch Appropriations connection to the Durham Museum in Omaha, NE. I am sure it is a fine museum, a wonderful museum, and it gets many visitors from all over the great State of Nebraska. I just came from the great State of Arizona, and do you know what. Storefronts are closing, people are losing their jobs, and unemployment is up. So what are we doing here in Washington, our Nation's capital? Business as usual. But what is an earmark of just $200,000? What is $200,000 in the trillions we are spending? The legislation says that amount ''shall remain available until expended for the purpose of preserving, digitizing, and making available historically and culturally significant materials related to the development of Nebraska and the American West.''

What makes this museum so needy of the taxpayers' dollars? What is it about the Durham Museum in Omaha, NE, that says we need $200,000? Well, they don't, obviously. They had nearly $11 million in net assets at the end of 2007. Why are we earmarking $200,000 of taxpayer funds for this museum?

We should not be earmarking these kinds of funds. This is a Legislative Branch Appropriations bill to fund the functioning of Congress, the legislative branch, not a museum in Omaha, NE, which I am sure is a wonderful place.

I reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Nebraska is recognized.

Mr. NELSON of Nebraska. My colleague from Arizona is right. It is a wonderful, an outstanding museum.

As a quick refresher for my colleagues, this is a project that was requested by the Durham Museum in Omaha, NE. This is a well-respected, not-for-profit organization with a longstanding and close relationship with the Library of Congress.

The $200,000 requested in this bill for the Durham Museum to begin the preservation and digitization of the museum's photo archive collection will preserve our history and improve access to these priceless treasures.

The museum will provide a public service of Federal interest making it appropriate to promote a public-private partnership. This truly is a public-private partnership—the funding for the project in this bill is only 10 percent of the total cost. The Durham Museum will privately raise the remaining 90 percent and incur all ongoing operating costs.

The Library of Congress is an expert in the area of digitization and preservation of fragile photos and images. Taking that into consideration with the fact that the library enjoys ''a remarkable long-term relationship with the Durham Museum,'' to use the words of the Librarian of Congress, Dr. James Billington, it makes this partnership worthy of support and further makes this funding appropriate in this legislation.

To reiterate some of the points I made prior to the recess, this project is more than just a ''photo exhibit.'' In addition to making these images available to the public, the Durham will work with and assist the Library of Congress to establish conservation and preservation training programs, and on incorporating digitized primary source materials into school curricula.

While I understand my colleague and I may disagree on the larger philosophical issue about the role of Congress to set spending priorities, I note that this project relates explicitly to the goals and purposes of the Library to expand access to our Nation's most

treasured documents and artifacts. It will, through this partnership, make these historical images accessible nationally. It is funded here for that reason.

Lastly, not all treasures are located inside the beltway. The Durham Museum seeks to preserve a significant collection of images and photos that document the western expansion of this great Nation. These images will include, among others, a number of wonderful images of Presidents Roosevelt, Kennedy, and others; growth and development of the transcontinental railroad—the Union Pacific is headquartered in Omaha, NE—Native American tribes from across the country dating back to the 1880s; photographs taken by prominent early photographer William Henry Jackson, who lived and worked briefly in Omaha; stockyards and meatpacking industries, which brought many immigrants and settlers to that part of the country in the early and mid-20th century; early transportation, including steamboats, streetcars, and cityscapes.

Again quoting Dr. Billington:

Digitization of the Durham Museum's nationally significant collection of more than 500,000 images in prints, negatives, and glass plate negatives will greatly enhance citizens' access to these treasures and preserve them for future generations.

The project will be moved significantly forward by the able assistance of the Library of Congress, and I thank Dr. Billington for his willingness to assist with this important project. I ask my colleagues to support its inclusion in this bill.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. MCCAIN. Madam President, how much time do I have remaining?

The PRESIDING OFFICER. Two minutes 14 seconds.

Mr. MCCAIN. Madam President, let me get this straight. We now have an unauthorized earmark, and there has never been a hearing or a request from the administration for this vital project in Omaha, NE. There has never been a hearing of any kind or a request from the administration, nor, to my knowledge, scheduling of any kind of hearing on it.

Of course, this is one of the classic examples of an earmark being put in because of the judgment of a Member of Congress who believes this project is important to his or her State or locality, and there has never been any competition for it. I am sure there are libraries all over America—including in Arizona—that would love to have a couple hundred grand to digitize and preserve materials related to the development of the West.

Let's get this straight. This is a Legislative Branch Appropriations bill intended to fund the legislative activities of the Congress of the United States, which has some connection to the Library of Congress, which I imagine that hundreds, if not thousands, of libraries throughout the country do, and then we connect it now as a rationale for $200,000 for the Durham Museum.

Again, all I say to my colleague from Nebraska is that Americans are tired of earmarking and projects that are not authorized, that there is no competition for, but are directly related to the influence of Members of Congress. It is wrong. We should remove this, and we should use this as an example of the kind of fiscal discipline that maybe we ought to start exercising, and I intend to go to the floor on earmark after earmark, and the American people are going to have tea parties all over America in direct objection to the kind of conduct we are exercising in Congress. I hope that sooner or later we will listen.

I yield back the remainder of my time.

Mr. NELSON of Nebraska. Madam President, I respectfully urge my colleagues to vote ''no'' on this amendment.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. NELSON of Nebraska. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

All time has expired. The question is on agreeing to amendment No. 1366. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Washington (Mrs. MURRAY), and the Senator from New Mexico (Mr. UDALL) are necessarily absent.

Mr. KYL. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Georgia (Mr. ISAKSON), and the Senator from Mississippi (Mr. WICKER).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 31, nays 61, as follows:

[Rollcall Vote No. 215 Leg.]

YEAS—31

Byrd	Murray	
Isakson	Udall (NM)	

The amendment (No. 1366) was rejected.

AMENDMENT NO. 1365

Mr. COBURN. Madam President, I make a constitutional point of order that the earmark for the Durham Museum in Omaha, NE, as contained on page 21, line 15, after the word ''mission'' through line 20, violates article I, section 8 of the Constitution, and also violates the 10th amendment of the Constitution of the United States.

The PRESIDING OFFICER. The Chair submits the constitutional point of order to the Senate. Is it in order to offer such an amendment to the bill?

Mr. COBURN. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be a sufficient second.

Is there further debate? If not, the clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Washington (Mrs. MURRAY), and the Senator from New Mexico (Mr. UDALL) are necessarily absent.

Mr. KYL. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK) and the Senator from Georgia (Mr. ISAKSON).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 70, nays 23, as follows:

[Rollcall Vote No. 216 Leg.]

NOT VOTING—6

Brownback	Isakson	Murray
Byrd	Kennedy	Udall (NM)

The PRESIDING OFFICER. The point of order is not sustained. The substitute amendment is in order.

Under the previous order, the substitute amendment (No. 1365), as amended, is agreed to and the motion to reconsider is considered made and laid upon the table.

Mr. CONRAD. Mr. President, I rise to offer for the record, the Budget Committee's official scoring of S. 1294, the Legislative Branch Appropriations Act for fiscal year 2010.

The bill, as reported by the Senate Committee on Appropriations, provides $3.1 billion in discretionary budget authority for fiscal year 2010, which will result in new outlays of $2.6 billion. When outlays from prior-year budget authority are taken into account, discretionary outlays for the bill will total $3.3 billion.

The Senate-reported bill is below its section 302(b) allocation for budget authority by $1.5 billion and below its allocation for outlays by $1.3 billion. The Senate-reported bill does not include funding for House-only items. Funding for these items will be included in the conference agreement. No points of order lie against the committee-reported bill.

I ask unanimous consent that the table displaying the Budget Committee scoring of the bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1294, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

[Spending comparisons—Senate-Reported Bill (in millions of dollars)]

	General purpose
Senate-Reported Bill:	
Budget Authority–	3,136
Outlays–	3,275
Senate 302(b) Allocation:	
Budget Authority–	4,622
Outlays–	4,615
House-Passed Bill:	
Budget Authority–	3,675
Outlays–	3,810
President's Request:	
Budget Authority–	5,154
Outlays–	4,912
Senate-Reported Bill Compared To:	
Senate 302(b) allocation:–	
Budget Authority –	−1,486
Outlays–	−1,340
House-Passed Bill:–	
Budget Authority –	−539
Outlays–	−535
President's Request:–	
Budget Authority –	−2,018
Outlays–	−1,637

Note: The Senate-reported bill does not include funding for House-only items.–

The PRESIDING OFFICER. The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill, as amended, pass?

Mr. NELSON of Nebraska. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Louisiana (Ms. LANDRIEU), the Senator from Washington (Mrs. MURRAY), and the Senator from New Mexico (Mr. UDALL) are necessarily absent.

Mr. KYL. The following Senators are necessariy absent: the Senator from Kansas (Mr. BROWNBACK) and the Senator from Georgia (Mr. ISAKSON).

The PRESIDING OFFICER (Mr. BEGICH). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 67, nays 25, as follows:

[Rollcall Vote No. 217 Leg.]

The bill (H.R. 2918), as amended, was passed, as follows:

H.R. 2918

Resolved, That the bill from the House of Representatives (H.R. 2918) entitled ''An Act making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes.'', do pass with the following amendment:

Strike out all after the enacting clause and insert:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the legislative branch for the fiscal year ending September 30, 2010, and for other purposes, namely:

TITLE I

LEGISLATIVE BRANCH

SENATE

EXPENSE ALLOWANCES

For expense allowances of the Vice President, $20,000; the President Pro Tempore of the Senate, $40,000; Majority Leader of the Senate, $40,000; Minority Leader of the Senate, $40,000; Majority Whip of the Senate, $10,000; Minority Whip of the Senate, $10,000; Chairmen of the Majority and Minority Conference Committees, $5,000 for each Chairman; and Chairmen of the Majority and Minority Policy Committees, $5,000 for each Chairman; in all, $180,000.

REPRESENTATION ALLOWANCES FOR THE MAJORITY AND MINORITY LEADERS

For representation allowances of the Majority and Minority Leaders of the Senate, $15,000 for each such Leader; in all, $30,000.

SALARIES, OFFICERS AND EMPLOYEES

For compensation of officers, employees, and others as authorized by law, including agency contributions, $178,982,000, which shall be paid from this appropriation without regard to the following limitations:

OFFICE OF THE VICE PRESIDENT

For the Office of the Vice President, $2,517,000.

OFFICE OF THE PRESIDENT PRO TEMPORE

For the Office of the President Pro Tempore, $752,000.

OFFICES OF THE MAJORITY AND MINORITY LEADERS

For Offices of the Majority and Minority Leaders, $5,212,000.

OFFICES OF THE MAJORITY AND MINORITY WHIPS

For Offices of the Majority and Minority Whips, $3,288,000.

COMMITTEE ON APPROPRIATIONS

For salaries of the Committee on Appropriations, $15,844,000.

CONFERENCE COMMITTEES

For the Conference of the Majority and the Conference of the Minority, at rates of compensation to be fixed by the Chairman of each such committee, $1,726,000 for each such committee; in all, $3,452,000.

OFFICES OF THE SECRETARIES OF THE CONFERENCE OF THE MAJORITY AND THE CONFERENCE OF THE MINORITY

For Offices of the Secretaries of the Conference of the Majority and the Conference of the Minority, $850,000.

POLICY COMMITTEES

For salaries of the Majority Policy Committee and the Minority Policy Committee, $1,763,000 for each such committee; in all, $3,526,000.

OFFICE OF THE CHAPLAIN

For Office of the Chaplain, $415,000.

OFFICE OF THE SECRETARY

For Office of the Secretary, $25,790,000.

OFFICE OF THE SERGEANT AT ARMS AND DOORKEEPER

For Office of the Sergeant at Arms and Doorkeeper, $70,000,000.

OFFICES OF THE SECRETARIES FOR THE MAJORITY AND MINORITY

For Offices of the Secretary for the Majority and the Secretary for the Minority, $1,836,000.

AGENCY CONTRIBUTIONS AND RELATED EXPENSES

For agency contributions for employee benefits, as authorized by law, and related expenses, $45,500,000.

OFFICE OF THE LEGISLATIVE COUNSEL OF THE SENATE

For salaries and expenses of the Office of the Legislative Counsel of the Senate, $7,154,000.

OFFICE OF SENATE LEGAL COUNSEL

For salaries and expenses of the Office of Senate Legal Counsel, $1,544,000.

EXPENSE ALLOWANCES OF THE SECRETARY OF THE SENATE, SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE, AND SECRETARIES FOR THE MAJORITY AND MINORITY OF THE SENATE

For expense allowances of the Secretary of the Senate, $7,500; Sergeant at Arms and Doorkeeper of the Senate, $7,500; Secretary for the Majority of the Senate, $7,500; Secretary for the Minority of the Senate, $7,500; in all, $30,000.

CONTINGENT EXPENSES OF THE SENATE

INQUIRIES AND INVESTIGATIONS

For expenses of inquiries and investigations ordered by the Senate, or conducted under paragraph 1 of rule XXVI of the Standing Rules of the Senate, section 112 of the Supplemental Appropriations and Rescission Act, 1980 (Public Law 96–304), and Senate Resolution 281, 96th Congress, agreed to March 11, 1980, $145,500,000.

EXPENSES OF THE UNITED STATES SENATE CAUCUS ON INTERNATIONAL NARCOTICS CONTROL

For expenses of the United States Senate Caucus on International Narcotics Control, $520,000.

SECRETARY OF THE SENATE

For expenses of the Office of the Secretary of the Senate, $2,000,000.

SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE

For expenses of the Office of the Sergeant at Arms and Doorkeeper of the Senate, $153,601,000, which shall remain available until September 30, 2014.

MISCELLANEOUS ITEMS

For miscellaneous items, $19,145,000, of which up to $500,000 shall be made available for a pilot program for mailings of postal patron postcards by Senators for the purpose of providing notice of a town meeting by a Senator in a county (or equivalent unit of local government) at which the Senator will personally attend: Provided, That any amount allocated to a Senator for such mailing shall not exceed 50 percent of the cost of the mailing and the remaining cost shall be paid by the Senator from other funds available to the Senator.

SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

For Senators' Official Personnel and Office Expense Account, $425,000,000.

OFFICIAL MAIL COSTS

For expenses necessary for official mail costs of the Senate, $300,000.

ADMINISTRATIVE PROVISION

GROSS RATE OF COMPENSATION IN OFFICES OF SENATORS

SECTION 1. Effective on and after October 1, 2009, each of the dollar amounts contained in the table under section 105(d)(1)(A) of the Legislative Branch Appropriations Act, 1968 (2 U.S.C. 61–1(d)(1)(A)) shall be deemed to be the dollar amounts in that table, as adjusted by law and in effect on September 30, 2009, increased by an additional $50,000 each.

REPORTING REQUIREMENT

SEC. 2. Section 105(a) of the Legislative Branch Appropriations Act 1965 (Public Law 88–454; 2 U.S.C. 104a) is amended—

(1) in the last sentence of paragraph (1), by striking ''shall'' and inserting ''may''; and

(2) by adding at the end the following:

''(6) Beginning with the report covering the first full semiannual period of the 112th Congress, the Secretary of the Senate—

''(1) shall publicly post on-line on the website of the Senate each report in a searchable, itemized format as required under this section;

''(2) shall issue each report required under this section in electronic form; and

''(3) may issue each report required under this section in other forms at the discretion of the Secretary of the Senate.''.

HOUSE OF REPRESENTATIVES

SALARIES AND EXPENSES

For salaries and expenses of the House of Representatives, $1,375,200,000, as follows:

HOUSE LEADERSHIP OFFICES

For salaries and expenses, as authorized by law, $25,881,000, including: Office of the Speaker, $5,077,000, including $25,000 for official expenses of the Speaker; Office of the Majority Floor Leader, $2,530,000, including $10,000 for official expenses of the Majority Leader; Office of the Minority Floor Leader, $4,565,000, including $10,000 for official expenses of the Minority Leader; Office of the Majority Whip, including the Chief Deputy Majority Whip, $2,194,000, including $5,000 for official expenses of the Majority Whip; Office of the Minority Whip, including the Chief Deputy Minority Whip, $1,690,000, including $5,000 for official expenses of the Minority Whip; Speaker's Office for Legislative Floor Activities, $517,000; Republican Steering Committee, $981,000; Republican Conference, $1,748,000; Republican Policy Committee, $362,000; Democratic Steering and Policy Committee, $1,366,000; Democratic Caucus, $1,725,000; nine minority employees, $1,552,000; training and program development—majority, $290,000; training and program development—minority, $290,000; Cloakroom Personnel—majority, $497,000; and Cloakroom Personnel—minority, $497,000.

MEMBERS' REPRESENTATIONAL ALLOWANCES

INCLUDING MEMBERS' CLERK HIRE, OFFICIAL EXPENSES OF MEMBERS, AND OFFICIAL MAIL

For Members' representational allowances, including Members' clerk hire, official expenses, and official mail, $660,000,000.

COMMITTEE EMPLOYEES

STANDING COMMITTEES, SPECIAL AND SELECT

For salaries and expenses of standing committees, special and select, authorized by House resolutions, $139,878,000: Provided, That such amount shall remain available for such salaries and expenses until December 31, 2010, except that $1,000,000 of such amount shall remain available until expended for committee room upgrading.

COMMITTEE ON APPROPRIATIONS

For salaries and expenses of the Committee on Appropriations, $31,300,000, including studies and examinations of executive agencies and temporary personal services for such committee, to be expended in accordance with section 202(b) of the Legislative Reorganization Act of 1946 and to be available for reimbursement to agencies for services performed: Provided, That such amount shall remain available for such salaries and expenses until December 31, 2010.

SALARIES, OFFICERS AND EMPLOYEES

For compensation and expenses of officers and employees, as authorized by law, $200,301,000, including: for salaries and expenses of the Office of the Clerk, including not more than $23,000, of which not more than $20,000 is for the Family Room, for official representation and reception expenses, $32,089,000 of which $4,600,000 shall remain available until expended; for salaries and expenses of the Office of the Sergeant at Arms, including the position of Superintendent of Garages, and including not more than $3,000 for official representation and reception expenses, $9,509,000; for salaries and expenses of the Office of the Chief Administrative Officer including not more than $3,000 for official representation and reception expenses, $130,782,000, of which $3,937,000 shall remain available until expended; for salaries and expenses of the Office of the Inspector General, $5,045,000; for salaries and expenses of the Office of Emergency Planning, Preparedness and Operations, $4,445,000, to remain available until expended; for salaries and expenses of the Office of General Counsel, $1,415,000; for the Office of the Chaplain, $179,000; for salaries and expenses of the Office of the Parliamentarian, including the Parliamentarian, $2,000 for preparing the Digest of Rules, and not more than $1,000 for official representation and reception expenses, $2,060,000; for salaries and expenses of the Office of the Law Revision Counsel of the House, $3,258,000; for salaries and expenses of the Office of the Legislative Counsel of the House, $8,814,000; for salaries and expenses of the Office of Interparliamentary Affairs, $859,000; for other authorized employees, $1,249,000; and for salaries and expenses of the Office of the Historian, including the cost of the House Fellows Program (including lodging and related expenses for visiting Program participants), $597,000.

ALLOWANCES AND EXPENSES

For allowances and expenses as authorized by House resolution or law, $317,840,000, including: supplies, materials, administrative costs and Federal tort claims, $3,948,000; official mail for committees, leadership offices, and administrative offices of the House, $201,000; Government contributions for health, retirement, Social Security, and other applicable employee benefits, $278,278,000, including employee tuition assistance benefit payments, $3,500,000, if authorized, and employee child care benefit payments, $1,000,000, if authorized; Business Continuity and Disaster Recovery, $27,698,000, of which $9,000,000 shall remain available until expended; transition activities for new members and staff, $2,907,000; Wounded Warrior Program, $2,500,000, to be derived from funding provided for this purpose in Division G of Public Law 111–8; Office of Congressional Ethics, $1,548,000; Energy Demonstration Projects, $2,500,000, if authorized, to remain available until expended; and miscellaneous items including purchase, exchange, maintenance, repair and operation of House motor vehicles, interparliamentary receptions, and gratuities to heirs of deceased employees of the House, $760,000.

CHILD CARE CENTER

For salaries and expenses of the House of Representatives Child Care Center, such amounts as are deposited in the account established by section 312(d)(1) of the Legislative Branch Appropriations Act, 1992 (2 U.S.C. 2062), subject to the level specified in the budget of the

Center, as submitted to the Committee on Appropriations of the House of Representatives.

ADMINISTRATIVE PROVISIONS

SEC. 101. (a) REQUIRING AMOUNTS REMAINING IN MEMBERS' REPRESENTATIONAL ALLOWANCES TO BE USED FOR DEFICIT REDUCTION OR TO REDUCE THE FEDERAL DEBT.—Notwithstanding any other provision of law, any amounts appropriated under this Act for ''House of Representatives—Salaries and Expenses—Members' Representational Allowances'' shall be available only for fiscal year 2010. Any amount remaining after all payments are made under such allowances for fiscal year 2010 shall be deposited in the Treasury and used for deficit reduction (or, if there is no Federal budget deficit after all such payments have been made, for reducing the Federal debt, in such manner as the Secretary of the Treasury considers appropriate).

(b) REGULATIONS.—The Committee on House Administration of the House of Representatives shall have authority to prescribe regulations to carry out this section.

(c) DEFINITION.—As used in this section, the term ''Member of the House of Representatives'' means a Representative in, or a Delegate or Resident Commissioner to, the Congress.

SEC. 102. Effective with respect to fiscal year 2010 and each succeeding fiscal year, the aggregate amount otherwise authorized to be appropriated for a fiscal year for the lump-sum allowance for each of the following offices is increased as follows:

(1) The allowance for the office of the Majority Whip is increased by $96,000.

(2) The allowance for the office of the Minority Whip is increased by $96,000.

JOINT ITEMS

For Joint Committees, as follows:

JOINT ECONOMIC COMMITTEE

For salaries and expenses of the Joint Economic Committee, $4,814,000, to be disbursed by the Secretary of the Senate.

JOINT COMMITTEE ON TAXATION

For salaries and expenses of the Joint Committee on Taxation, $11,327,000, to be disbursed by the Chief Administrative Officer of the House of Representatives. For other joint items, as follows:

OFFICE OF THE ATTENDING PHYSICIAN

For medical supplies, equipment, and contingent expenses of the emergency rooms, and for the Attending Physician and his assistants, including: (1) an allowance of $2,175 per month to the Attending Physician; (2) an allowance of $1,300 per month to the Senior Medical Officer; (3) an allowance of $725 per month each to three medical officers while on duty in the Office of the Attending Physician; (4) an allowance of $725 per month to two assistants and $580 per month each not to exceed 11 assistants on the basis heretofore provided for such assistants; and (5) $2,366,000 for reimbursement to the Department of the Navy for expenses incurred for staff and equipment assigned to the Office of the Attending Physician, which shall be advanced and credited to the applicable appropriation or appropriations from which such salaries, allowances, and other expenses are payable and shall be available for all the purposes thereof, $3,805,000, to be disbursed by the Chief Administrative Officer of the House of Representatives.

OFFICE OF CONGRESSIONAL ACCESSIBILITY SERVICES

SALARIES AND EXPENSES

For salaries and expenses of the Office of Congressional Accessibility Services, $1,377,000, to be disbursed by the Secretary of the Senate.

STATEMENTS OF APPROPRIATIONS

For the preparation, under the direction of the Committees on Appropriations of the Senate and the House of Representatives, of the statements for the first session of the 111th Congress, showing appropriations made, indefinite appropriations, and contracts authorized, together with a chronological history of the regular appropriations bills as required by law, $30,000, to be paid to the persons designated by the chairmen of such committees to supervise the work.

CAPITOL POLICE

SALARIES

For salaries of employees of the Capitol Police, including overtime, hazardous duty pay differential, and Government contributions for health, retirement, social security, professional liability insurance, and other applicable employee benefits, $267,203,000, to be disbursed by the Chief of the Capitol Police or his designee.

GENERAL EXPENSES

For necessary expenses of the Capitol Police, including motor vehicles, communications and other equipment, security equipment and installation, uniforms, weapons, supplies, materials, training, medical services, forensic services, stenographic services, personal and professional services, the employee assistance program, the awards program, postage, communication services, travel advances, relocation of instructor and liaison personnel for the Federal Law Enforcement Training Center, and not more than $5,000 to be expended on the certification of the Chief of the Capitol Police in connection with official representation and reception expenses, $64,354,000, to be disbursed by the Chief of the Capitol Police or his designee: Provided, That, notwithstanding any other provision of law, the cost of basic training for the Capitol Police at the Federal Law Enforcement Training Center for fiscal year 2010 shall be paid by the Secretary of Homeland Security from funds available to the Department of Homeland Security.

ADMINISTRATIVE PROVISION

TRANSFER AUTHORITY

SEC. 1001. Amounts appropriated for fiscal year 2010 for the Capitol Police may be transferred between the headings ''Salaries'' and ''General expenses'' upon the approval of the Committees on Appropriations of the House of Representatives and the Senate.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

For salaries and expenses of the Office of Compliance, as authorized by section 305 of the Congressional Accountability Act of 1995 (2 U.S.C. 1385), $4,418,000, of which $883,990 shall remain available until September 30, 2011: Provided, That not more than $500 may be expended on the certification of the Executive Director of the Office of Compliance in connection with official representation and reception expenses.

ADMINISTRATIVE PROVISION

DISPOSITION OF SURPLUS OR OBSOLETE PERSONAL PROPERTY

SEC. 1101. (a) IN GENERAL.—Title III of the Congressional Accountability Act of 1995 (2 U.S.C. 1381 et seq.) is amended by inserting after section 305 the following:

''SEC. 306. DISPOSITION OF SURPLUS OR OBSOLETE PERSONAL PROPERTY.

''The Executive Director may, within the limits of available appropriations, dispose of surplus or obsolete personal property by interagency transfer, donation, or discarding.''.

(b) TECHNICAL AND CONFORMING AMENDMENT.—The table of contents for the Congressional Accountability Act of 1995 (2 U.S.C. 1301 et seq.) is amended by inserting after section 305 the following:

''Sec. 306. Disposition of surplus or obsolete personal property.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to fiscal year 2010, and each fiscal year thereafter.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

For salaries and expenses necessary for operation of the Congressional Budget Office, including not more than $6,000 to be expended on the certification of the Director of the Congressional Budget Office in connection with official representation and reception expenses, $45,165,000.

ADMINISTRATIVE PROVISION

EXECUTIVE EXCHANGE PROGRAM FOR THE CONGRESSIONAL BUDGET OFFICE

SEC. 1201. Section 1201 of the Legislative Branch Appropriations Act, 2008 (2 U.S.C. 611 note; Public law 110–161; 121 Stat. 2238) is amended—

(1) in subsection (b)—

(A) in paragraph (1), by striking ''3'' and inserting ''5''; and

(B) in paragraph (2), by striking ''3'' and inserting ''5'';

(2) by striking subsection (d), and redesignating subsection (e) as subsection (d); and

(3) in subsection (d) (as redesignated by this section), by striking ''Subject to subsection (d), this'' and inserting ''This''.

ARCHITECT OF THE CAPITOL

GENERAL ADMINISTRATION

For salaries for the Architect of the Capitol, and other personal services, at rates of pay provided by law; for surveys and studies in connection with activities under the care of the Architect of the Capitol; for all necessary expenses for the general and administrative support of the operations under the Architect of the Capitol including the Botanic Garden; electrical substations of the Capitol, Senate and House office buildings, and other facilities under the jurisdiction of the Architect of the Capitol; including furnishings and office equipment; including not more than $5,000 for official reception and representation expenses, to be expended as the Architect of the Capitol may approve; for purchase or exchange, maintenance, and operation of a passenger motor vehicle, $106,587,000, of which $5,400,000 shall remain available until September 30, 2014.

CAPITOL BUILDING

For all necessary expenses for the maintenance, care and operation of the Capitol, $33,305,000, of which $6,499,000 shall remain available until September 30, 2014.

CAPITOL GROUNDS

For all necessary expenses for care and improvement of grounds surrounding the Capitol, the Senate and House office buildings, and the Capitol Power Plant, $10,974,000, of which $1,410,000 shall remain available until September 30, 2014.

SENATE OFFICE BUILDINGS

For all necessary expenses for the maintenance, care and operation of Senate office buildings; and furniture and furnishings to be expended under the control and supervision of the Architect of the Capitol, $74,392,000, of which $15,390,000 shall remain available until September 30, 2014.

HOUSE OFFICE BUILDINGS

For all necessary expenses for the maintenance, care and operation of the House office buildings, $100,466,000, of which $53,360,000 shall remain available until September 30, 2014.

CAPITOL POWER PLANT

For all necessary expenses for the maintenance, care and operation of the Capitol Power Plant; lighting, heating, power (including the purchase of electrical energy) and water and

sewer services for the Capitol, Senate and House office buildings, Library of Congress buildings, and the grounds about the same, Botanic Garden, Senate garage, and air conditioning refrigeration not supplied from plants in any of such buildings; heating the Government Printing Office and Washington City Post Office, and heating and chilled water for air conditioning for the Supreme Court Building, the Union Station complex, the Thurgood Marshall Federal Judiciary Building and the Folger Shakespeare Library, expenses for which shall be advanced or reimbursed upon request of the Architect of the Capitol and amounts so received shall be deposited into the Treasury to the credit of this appropriation, $118,597,000, of which $25,074,000 shall remain available until September 30, 2014: Provided, That not more than $8,000,000 of the funds credited or to be reimbursed to this appropriation as herein provided shall be available for obligation during fiscal year 2010.

LIBRARY BUILDINGS AND GROUNDS

For all necessary expenses for the mechanical and structural maintenance, care and operation of the Library buildings and grounds, $40,754,000, of which $14,470,000 shall remain available until September 30, 2014.

CAPITOL POLICE BUILDINGS, GROUNDS AND SECURITY

For all necessary expenses for the maintenance, care and operation of buildings, grounds and security enhancements of the United States Capitol Police, wherever located, the Alternate Computer Facility, and AOC security operations, $26,160,000, of which $7,050,000 shall remain available until September 30, 2014.

BOTANIC GARDEN

For all necessary expenses for the maintenance, care and operation of the Botanic Garden and the nurseries, buildings, grounds, and collections; and purchase and exchange, maintenance, repair, and operation of a passenger motor vehicle; all under the direction of the Joint Committee on the Library, $11,898,000, of which $1,280,000 shall remain available until September 30, 2014: Provided, That of the amount made available under this heading, the Architect may obligate and expend such sums as may be necessary for the maintenance, care and operation of the National Garden established under section 307E of the Legislative Branch Appropriations Act, 1989 (2 U.S.C. 2146), upon vouchers approved by the Architect or a duly authorized designee.

CAPITOL VISITOR CENTER

For all necessary expenses for the operation of the Capitol Visitor Center, $22,756,000.

ENGRAVING OF THE PLEDGE OF ALLEGIANCE TO THE FLAG AND THE NATIONAL MOTTO IN THE CAPITOL VISITOR CENTER

SEC. 1202. (a) ENGRAVING REQUIRED.—The Architect of the Capitol shall engrave the Pledge of Allegiance to the Flag and the National Motto of ''In God We Trust'' in the Capitol Visitor Center, in accordance with the engraving plan described in subsection (b).

(b) ENGRAVING PLAN.—The engraving plan described in this subsection is a plan setting forth the design and location of the engraving required under subsection (a) which is prepared by the Architect of the Capitol and approved by the Committee on Rules and Administration of the Senate and the Committee on House Administration of the House of Representatives.

ADMINISTRATIVE PROVISIONS

DISPOSITION OF SURPLUS OR OBSOLETE PERSONAL PROPERTY

SEC. 1301. (a) IN GENERAL.—The Architect of the Capitol shall have the authority, within the limits of available appropriations, to dispose of surplus or obsolete personal property by interagency transfer, donation, sale, trade-in, or discarding. Amounts received for the sale or trade-in of personal property shall be credited to funds available for the operations of the Architect of the Capitol and be available for the costs of acquiring the same or similar property. Such funds shall be available for such purposes during the fiscal year received and the following fiscal year.

(b) EFFECTIVE DATE.—This section shall apply with respect to fiscal year 2010, and each fiscal year thereafter.

FLEXIBLE AND COMPRESSED WORK SCHEDULES

SEC. 1302. Chapter 61 of title 5, United States Code, is amended—

(1) in section 6121(1) by striking ''and the Library of Congress'' and inserting ''the Library of Congress, the Architect of the Capitol, and the Botanic Garden''; and

(2) in section 6133(c) by adding at the end the following:

''(3) With respect to employees of the Architect of the Capitol and the Botanic Garden, the authority granted to the Office of Personnel Management under this subchapter shall be exercised by the Architect of the Capitol.''.

DISABLED VETERANS; NONCOMPETITIVE APPOINTMENT

SEC. 1303. Section 3112 of title 5, United States Code, is amended—

(1) by inserting ''(a)'' before ''Under''; and

(2) by adding at the end the following:

''(b) For purposes of this section, the term 'agency' shall include the Architect of the Capitol and the Botanic Garden. With respect to the Architect of the Capitol and the Botanic Garden, the authority granted to the Office of Personnel Management under this section shall be exercised by the Architect of the Capitol.''.

ACCEPTANCE OF VOLUNTARY STUDENT SERVICES

SEC. 1304. (a) Section 3111 of title 5, United States Code, is amended by adding at the end the following:

''(e) For purposes of this section the term 'agency' shall include the Architect of the Capitol. With respect to the Architect of the Capitol, the authority granted to the Office of Personnel Management under this section shall be exercised by the Architect of the Capitol.''.

BOTANIC GARDEN VENDOR CONTRACTS

SEC. 1305. Section 307E of the Legislative Branch Appropriations Act, 1989 (2 U.S.C. 2146) is amended—

(1) in subsection (b)(1), by striking ''an account entitled 'Botanic Garden, Gifts and Donations'.'' and inserting ''an account entitled 'Botanic Garden, Operations and Maintenance'.'';

(2) by redesignating subsection (d) as subsection (e); and

(3) by inserting after subsection (c) the following:

''(d) CONTRACTS WITH VENDORS.—

''(1) IN GENERAL.—The Architect of the Capitol may enter into a commission-based service contract with a vendor who, notwithstanding section 5104(c) of title 40, United States Code, may sell refreshments at the Botanic Garden and National Garden.

''(2) DEPOSIT AND USE OF COMMISSIONS.—Any amounts paid to the Architect of the Capitol as a commission under paragraph (1) shall be—

''(A) deposited in the account described under subsection (b); and

''(B) available for operation and maintenance in the same manner as provided under subsection (b).''.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

For necessary expenses of the Library of Congress not otherwise provided for, including development and maintenance of the Library's catalogs; custody and custodial care of the Library buildings; special clothing; cleaning, laundering and repair of uniforms; preservation of motion pictures in the custody of the Library; operation and maintenance of the American Folklife Center in the Library; preparation and distribution of catalog records and other publications of the Library; hire or purchase of one passenger motor vehicle; and expenses of the Library of Congress Trust Fund Board not properly chargeable to the income of any trust fund held by the Board, $441,033,000, of which not more than $6,000,000 shall be derived from collections credited to this appropriation during fiscal year 2010, and shall remain available until expended, under the Act of June 28, 1902 (chapter 1301; 32 Stat. 480; 2 U.S.C. 150) and not more than $350,000 shall be derived from collections during fiscal year 2010 and shall remain available until expended for the development and maintenance of an international legal information database and activities related thereto: Provided, That the Library of Congress may not obligate or expend any funds derived from collections under the Act of June 28, 1902, in excess of the amount authorized for obligation or expenditure in appropriations Acts: Provided further, That the total amount available for obligation shall be reduced by the amount by which collections are less than $6,350,000: Provided further, That of the total amount appropriated, not more than $12,000 may be expended, on the certification of the Librarian of Congress, in connection with official representation and reception expenses for the Overseas Field Offices: Provided further, That of the total amount appropriated, $7,315,000 shall remain available until expended for the digital collections and educational curricula program: Provided further, That of the total amount appropriated, $750,000 shall remain available until expended, and shall be transferred to the Abraham Lincoln Bicentennial Commission for carrying out the purposes of Public Law 106–173, of which $10,000 may be used for official representation and reception expenses of the Abraham Lincoln Bicentennial Commission: Provided further, That, $200,000 shall remain available until expended for the purpose of preserving, digitizing and making available historically and culturally significant materials related to the development of Nebraska and the American West, which amount shall be transferred to the Durham Museum in Omaha, Nebraska.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

For necessary expenses of the Copyright Office, $55,476,000, of which not more than $28,751,000, to remain available until expended, shall be derived from collections credited to this appropriation during fiscal year 2010 under section 708(d) of title 17, United States Code: Provided, That the Copyright Office may not obligate or expend any funds derived from collections under such section, in excess of the amount authorized for obligation or expenditure in appropriations Acts: Provided further, That not more than $5,861,000 shall be derived from collections during fiscal year 2010 under sections 111(d)(2), 119(b)(2), 803(e), 1005, and 1316 of such title: Provided further, That the total amount available for obligation shall be reduced by the amount by which collections are less than $34,612,000: Provided further, That not more than $100,000 of the amount appropriated is available for the maintenance of an ''International Copyright Institute'' in the Copyright Office of the Library of Congress for the purpose of training nationals of developing countries in intellectual property laws and policies: Provided further, That not more than $4,250 may be expended, on the certification of the Librarian of Congress, in connection with official representation and reception expenses for activities of the

International Copyright Institute and for copyright delegations, visitors, and seminars: Provided further, That notwithstanding any provision of chapter 8 of title 17, United States Code, any amounts made available under this heading which are attributable to royalty fees and payments received by the Copyright Office pursuant to sections 111, 119, and chapter 10 of such title may be used for the costs incurred in the administration of the Copyright Royalty Judges program, with the exception of the costs of salaries and benefits for the Copyright Royalty Judges and staff under section 802(e).

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

For necessary expenses to carry out the provisions of section 203 of the Legislative Reorganization Act of 1946 (2 U.S.C. 166) and to revise and extend the Annotated Constitution of the United States of America, $112,836,000: Provided, That no part of such amount may be used to pay any salary or expense in connection with any publication, or preparation of material therefor (except the Digest of Public General Bills), to be issued by the Library of Congress unless such publication has obtained prior approval of either the Committee on House Administration of the House of Representatives or the Committee on Rules and Administration of the Senate.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

For salaries and expenses to carry out the Act of March 3, 1931 (chapter 400; 46 Stat. 1487; 2 U.S.C. 135a), $70,182,000, of which $30,577,000 shall remain available until expended: Provided, That of the total amount appropriated, $650,000 shall be available to contract to provide newspapers to blind and physically handicapped residents at no cost to the individual.

ADMINISTRATIVE PROVISIONS

REIMBURSABLE AND REVOLVING FUND ACTIVITIES

SEC. 1401. (a) IN GENERAL.—For fiscal year 2010, the obligational authority of the Library of Congress for the activities described in subsection (b) may not exceed $123,328,000.

(b) ACTIVITIES.—The activities referred to in subsection (a) are reimbursable and revolving fund activities that are funded from sources other than appropriations to the Library in appropriations Acts for the legislative branch.

(c) TRANSFER OF FUNDS.—During fiscal year 2010, the Librarian of Congress may temporarily transfer funds appropriated in this Act, under the heading ''Library of Congress'', under the subheading ''Salaries and Expenses'', to the revolving fund for the FEDLINK Program and the Federal Research Program established under section 103 of the Library of Congress Fiscal Operations Improvement Act of 2000 (Public Law 106–481; 2 U.S.C. 182c): Provided, That the total amount of such transfers may not exceed $1,900,000: Provided further, That the appropriate revolving fund account shall reimburse the Library for any amounts transferred to it before the period of availability of the Library appropriation expires.

TRANSFER AUTHORITY

SEC. 1402. (a) IN GENERAL.—Amounts appropriated for fiscal year 2010 for the Library of Congress may be transferred during fiscal year 2010 between any of the headings under the heading ''Library of Congress'' upon the approval of the Committees on Appropriations of the Senate and the House of Representatives.

(b) LIMITATION.—Not more than 10 percent of the total amount of funds appropriated to the account under any heading under the heading ''Library of Congress'' for fiscal year 2009 may be transferred from that account by all transfers made under subsection (a).

CLASSIFICATION OF LIBRARY OF CONGRESS POSITIONS ABOVE GS–15

SEC. 1403. Section 5108 of title 5, United States Code, is amended by adding at the end the following:

''(c) The Librarian of Congress may classify positions in the Library of Congress above GS–15 under standards established by the Office in subsection (a)(2).''.

LEAVE CARRYOVER FOR CERTAIN LIBRARY OF CONGRESS EXECUTIVE POSITIONS

SEC. 1404. Section 6304(f)(1) of title 5, United States Code, is amended—

(1) in subparagraph (F), by striking ''or'' at the end;

(2) in subparagraph (G), by striking the period and inserting ''; or'' and

(3) by adding after subparagraph (G) the following:

''(H) a position in the Library of Congress the compensation for which is set at a rate equal to the annual rate of basic pay payable for positions at level III of the Executive Schedule under section 5314.''.

GOVERNMENT PRINTING OFFICE

CONGRESSIONAL PRINTING AND BINDING

(INCLUDING TRANSFER OF FUNDS)

For authorized printing and binding for the Congress and the distribution of Congressional information in any format; printing and binding for the Architect of the Capitol; expenses necessary for preparing the semimonthly and session index to the Congressional Record, as authorized by law (section 902 of title 44, United States Code); printing and binding of Government publications authorized by law to be distributed to Members of Congress; and printing, binding, and distribution of Government publications authorized by law to be distributed without charge to the recipient, $93,296,000: Provided, That this appropriation shall not be available for paper copies of the permanent edition of the Congressional Record for individual Representatives, Resident Commissioners or Delegates authorized under section 906 of title 44, United States Code: Provided further, That this appropriation shall be available for the payment of obligations incurred under the appropriations for similar purposes for preceding fiscal years: Provided further, That notwithstanding the 2-year limitation under section 718 of title 44, United States Code, none of the funds appropriated or made available under this Act or any other Act for printing and binding and related services provided to Congress under chapter 7 of title 44, United States Code, may be expended to print a document, report, or publication after the 27-month period beginning on the date that such document, report, or publication is authorized by Congress to be printed, unless Congress reauthorizes such printing in accordance with section 718 of title 44, United States Code: Provided further, That any unobligated or unexpended balances in this account or accounts for similar purposes for preceding fiscal years may be transferred to the Government Printing Office revolving fund for carrying out the purposes of this heading, subject to the approval of the Committees on Appropriations of the House of Representatives and Senate.

OFFICE OF SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

For expenses of the Office of Superintendent of Documents necessary to provide for the cataloging and indexing of Government publications and their distribution to the public, Members of Congress, other Government agencies, and designated depository and international exchange libraries as authorized by law, $40,911,000: Provided, That amounts of not more than $2,000,000 from current year appropriations are authorized for producing and disseminating Congressional serial sets and other related publications for fiscal years 2008 and 2009 to depository and other designated libraries: Provided further, That any unobligated or unexpended balances in this account or accounts for similar purposes for preceding fiscal years may be transferred to the Government Printing Office revolving fund for carrying out the purposes of this heading, subject to the approval of the Committees on Appropriations of the House of Representatives and Senate.

GOVERNMENT PRINTING OFFICE REVOLVING FUND

For payment to the Government Printing Office Revolving Fund, $12,782,000 for information technology development and facilities repair: Provided, That the Government Printing Office is hereby authorized to make such expenditures, within the limits of funds available and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 9104 of title 31, United States Code, as may be necessary in carrying out the programs and purposes set forth in the budget for the current fiscal year for the Government Printing Office revolving fund: Provided further, That not more than $7,500 may be expended on the certification of the Public Printer in connection with official representation and reception expenses: Provided further, That the revolving fund shall be available for the hire or purchase of not more than 12 passenger motor vehicles: Provided further, That expenditures in connection with travel expenses of the advisory councils to the Public Printer shall be deemed necessary to carry out the provisions of title 44, United States Code: Provided further, That the revolving fund shall be available for temporary or intermittent services under section 3109(b) of title 5, United States Code, but at rates for individuals not more than the daily equivalent of the annual rate of basic pay for level V of the Executive Schedule under section 5316 of such title: Provided further, That activities financed through the revolving fund may provide information in any format: Provided further, That the revolving fund and the funds provided under the headings ''Office of Superintendent of Documents'' and ''Salaries and Expenses'' may not be used for contracted security services at GPO's passport facility in the District of Columbia.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

For necessary expenses of the Government Accountability Office, including not more than $12,500 to be expended on the certification of the Comptroller General of the United States in connection with official representation and reception expenses; temporary or intermittent services under section 3109(b) of title 5, United States Code, but at rates for individuals not more than the daily equivalent of the annual rate of basic pay for level IV of the Executive Schedule under section 5315 of such title; hire of one passenger motor vehicle; advance payments in foreign countries in accordance with section 3324 of title 31, United States Code; benefits comparable to those payable under sections 901(5), (6), and (8) of the Foreign Service Act of 1980 (22 U.S.C. 4081(5), (6), and (8)); and under regulations prescribed by the Comptroller General of the United States, rental of living quarters in foreign countries, $553,658,000: Provided, That not more than $5,449,000 of payments received under section 782 of title 31, United States Code, shall be available for use in fiscal year 2010: Provided further, That not more than $2,350,000 of reimbursements received under section 9105 of title 31, United States Code, shall be available for use in fiscal year 2010: Provided further, That not more than $7,423,000 of reimbursements received

under section 3521 of title 31, United States Code, shall be available for use in fiscal year 2010: Provided further, That this appropriation and appropriations for administrative expenses of any other department or agency which is a member of the National Intergovernmental Audit Forum or a Regional Intergovernmental Audit Forum shall be available to finance an appropriate share of either Forum's costs as determined by the respective Forum, including necessary travel expenses of non-Federal participants: Provided further, That payments hereunder to the Forum may be credited as reimbursements to any appropriation from which costs involved are initially financed.

ADMINISTRATIVE PROVISION

REPEAL OF CERTAIN AUDITS, STUDIES, AND REVIEWS OF THE GOVERNMENT ACCOUNTABILITY OFFICE

SEC. 1501. (a) USE OF FUNDS IN PROJECTS CONSTRUCTED UNDER PROJECTED COST.—Section 211 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3151) is amended by striking subsection (d).

(b) EVALUATION AND AUDIT OF NATIONAL TRANSPORTATION SAFETY BOARD.—Section 1138 of title 49, United States Code, is repealed.

(c) LOCAL EDUCATIONAL AGENCY SPENDING AUDITS.—Section 1904 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6574) is repealed.

(d) AUDITS OF SMALL BUSINESS PARTICIPATION IN CONSTRUCTION OF THE ALASKA NATURAL GAS PIPELINE.—Section 112 of the Alaska Natural Gas Pipeline Act (15 U.S.C. 720j) is amended by striking subsection (c).

(e) AUDITS OF ASSISTANCE UNDER COMPACTS OF FREE ASSOCIATION.—Section 104(h) of the Compact of Free Association Amendments Act of 2003 (48 U.S.C. 1921c(h)) is amended by striking paragraph (3).

(f) SEMIANNUAL AUDITS OF INDEPENDENT COUNSEL EXPENDITURES.—The matter under the heading ''Salaries and Expenses, General Legal Activities'' under the heading ''Legal Activities'' under title II of the Department of Justice Appropriation Act of 1988, (28 U.S.C. 591 note; Public Law 100–202; 101 Stat. 1329, 1329–9) is amended by striking ''Provided further, That the Comptroller General shall perform semiannual financial reviews of expenditures from the Independent Counsel permanent indefinite appropriation, and report their findings to the Committees on Appropriations of the House and Senate:''.

(g) REPORTS ON AMBULANCE SERVICE COSTS.—Section 414 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108–173) is amended—

(1) by striking subsection (f); and

(2) by redesignating subsection (g) as subsection (f).

OPEN WORLD LEADERSHIP CENTER TRUST FUND

For a payment to the Open World Leadership Center Trust Fund for financing activities of the Open World Leadership Center under section 313 of the Legislative Branch Appropriations Act, 2001 (2 U.S.C. 1151), $14,456,000.

ADMINISTRATIVE PROVISION

OPEN WORLD LEADERSHIP CENTER

SEC. 1601. (a) BOARD MEMBERSHIP.—Section 313(a)(2) of the Legislative Branch Appropriations Act, 2001 (2 U.S.C. 1151(a)(2)) is amended—

(1) in subparagraph (A), by striking ''members'' and inserting ''Members of the House of Representatives''; and

(2) in subparagraph (B), by striking ''members'' and inserting ''Senators''.

(b) EXECUTIVE DIRECTOR.—Section 313(d) of the Legislative Branch Appropriations Act, 2001 (2 U.S.C. 1151(d)) is amended in the first sentence by striking ''The Board shall appoint'' and inserting ''On behalf of the Board, the Librarian of Congress shall appoint''.

(c) EFFECTIVE DATE.—The amendments made by this subsection shall apply with respect to—

(1) appointments made on and after the date of enactment of this Act; and

(2) the remainder of the fiscal year in which enacted, and each fiscal year thereafter.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

For payment to the John C. Stennis Center for Public Service Development Trust Fund established under section 116 of the John C. Stennis Center for Public Service Training and Development Act (2 U.S.C. 1105), $430,000.

TITLE II

GENERAL PROVISIONS

MAINTENANCE AND CARE OF PRIVATE VEHICLES

SEC. 201. No part of the funds appropriated in this Act shall be used for the maintenance or care of private vehicles, except for emergency assistance and cleaning as may be provided under regulations relating to parking facilities for the House of Representatives issued by the Committee on House Administration and for the Senate issued by the Committee on Rules and Administration.

FISCAL YEAR LIMITATION

SEC. 202. No part of the funds appropriated in this Act shall remain available for obligation beyond fiscal year 2010 unless expressly so provided in this Act.

RATES OF COMPENSATION AND DESIGNATION

SEC. 203. Whenever in this Act any office or position not specifically established by the Legislative Pay Act of 1929 (46 Stat. 32 et seq.) is appropriated for or the rate of compensation or designation of any office or position appropriated for is different from that specifically established by such Act, the rate of compensation and the designation in this Act shall be the permanent law with respect thereto: Provided, That the provisions in this Act for the various items of official expenses of Members, officers, and committees of the Senate and House of Representatives, and clerk hire for Senators and Members of the House of Representatives shall be the permanent law with respect thereto.

CONSULTING SERVICES

SEC. 204. The expenditure of any appropriation under this Act for any consulting service through procurement contract, under section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued under existing law.

AWARDS AND SETTLEMENTS

SEC. 205. Such sums as may be necessary are appropriated to the account described in subsection (a) of section 415 of the Congressional Accountability Act of 1995 (2 U.S.C. 1415(a)) to pay awards and settlements as authorized under such subsection.

COSTS OF LBFMC

SEC. 206. Amounts available for administrative expenses of any legislative branch entity which participates in the Legislative Branch Financial Managers Council (LBFMC) established by charter on March 26, 1996, shall be available to finance an appropriate share of LBFMC costs as determined by the LBFMC, except that the total LBFMC costs to be shared among all participating legislative branch entities (in such allocations among the entities as the entities may determine) may not exceed $2,000.

LIMITATION ON TRANSFERS

SEC. 207. None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or transfer authority provided in, this Act or any other appropriation Act.

GUIDED TOURS OF THE CAPITOL

SEC. 208. (a) Except as provided in subsection (b), none of the funds made available to the Architect of the Capitol in this Act may be used to eliminate guided tours of the United States Capitol which are led by employees and interns of offices of Members of Congress and other offices of the House of Representatives and Senate.

(b) At the direction of the Capitol Police Board, or at the direction of the Architect of the Capitol with the approval of the Capitol Police Board, guided tours of the United States Capitol which are led by employees and interns described in subsection (a) may be suspended temporarily or otherwise subject to restriction for security or related reasons to the same extent as guided tours of the United States Capitol which are led by the Architect of the Capitol.

COMPLIANCE DATE RELATING TO CERTAIN VIOLATIONS OF OSHA WITHIN THE LEGISLATIVE BRANCH

SEC. 209. Section 215(c) of the Congressional Accountability Act of 1995 (2 U.S.C. 1341(c)) is amended by striking paragraph (6).

This Act may be cited as the ''Legislative Branch Appropriations Act, 2010''.

Mr. COCHRAN. Mr. President, I move to reconsider the vote by which the bill was passed.

The PRESIDING OFFICER. In my capacity as a Senator from the State of Alaska, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. Under the previous order, the Senate insists on its amendment and requests a conference with the House, and the Chair is authorized to appoint the following conferees.

The Presiding Officer appointed Mr. NELSON of Nebraska, Mr. INOUYE, Mr. PRYOR, Mr. TESTER, Ms. MURKOWSKI, and Mr. COCHRAN conferees on the part of the Senate.

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. COBURN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

HONDURAS

Mr. COBURN. Mr. President, I want to spend a few minutes tonight talking about what is going on in Honduras. I have a lot of friends in Honduras, and I have this peculiar worry that we find ourselves on the wrong side of freedom in the situation that is happening in Honduras.

As you read the press clips, what we have heard is there was a coup. That, in fact, is not true. The Supreme Court of Honduras, under the direction of the Congress, asked the military to intercede because the President of Honduras

had violated their own laws. Yet our State Department and our foreign policy sided with Hugo Chavez, Raoul Castro, and the former President.

There is no question that improvements have been made in the past in Central and South America, but tonight we find ourselves supporting an anticonstitutional President of Honduras when, in fact, the Congress of Honduras and the Supreme Court of Honduras have said he is violating their laws. So rather than look at the whole picture, we have decided we will intervene in our diplomacy on the side of a Chavez-type, would-be dictator because what was happening in Honduras was an effort to change so you could have a President for life in Honduras. That is what was going on. That is why the Congress and that is why the Supreme Court of Honduras acted. We now are siding against the people of Honduras.

What is little known is 800 to 1,000 Venezuelan thugs were admitted into Honduras, in the week prior to this, with Honduran passports to create chaos or a systematic attempt to create upheaval and discord and rioting by Chavez's thugs. So now we find ourselves, the free United States, siding with somebody who wants to make sure the Honduran people are not free, to create another petro czar dictator in South Central America.

It is tremendously important we get this right. I think we are heading in the wrong direction right now. I think we are heading in the direction where we are going to make sure Honduras falls into the fold of Hugo Chavez, the last thing any of us should want. He has become the dictator in charge of Venezuela. He has nationalized American assets. He has corrupted the free Democratic process, and he seeks to do that in all the other areas where he can maintain influence. In fact, he was doing it.

The other thing that is important that is not well published is that the President of Honduras was totally associated with drug cartels, cash, the distribution and transmission of drugs into this country, and the moneys associated with that were used to buy people to support his pursuit of permanent power. Now we find ourselves out there on a limb with our foreign policy without looking at the whole story.

My main concern is about all those people who do want freedom in Honduras, who do believe we model in this country what they aspire to, and now the country they aspire to is siding against the vast majority of the people in Honduras. No illegal acts took place under the orders of the supreme court by the military—no illegal acts. Yet we didn't look at it close enough, and we have made now foreign policy decisions I fear are going to be irreversible.

There is no question things could be done better in Honduras, but there is also no question things could be done better here. For us to decide to side with the factors that are going to force Honduras into a situation similar to Cuba and Venezuela makes my blood boil, because not only are we going to eliminate and limit the freedom of those great people, we are going to help perpetuate the loss of freedom in that hemisphere.

So I call out to the President and the Secretary to do a reassessment. Let's relook at the facts. Let's talk to the people on the ground. Let's make sure we have the facts and the knowledge about what the vast majority of people in Honduras want. You can stimulate chaos if you pay enough money and bring enough people in to do that, which was the intent of President Zelaya.

My hope is that we will slow down, that we will use caution at every turn as we interface with the situation. The Honduran people have the right to have their Constitution followed. That is what they did when they executed the imposition of removal of the President of Honduras. They followed their own law, their own Constitution. They don't have the right of impeachment, but they do have the right of carrying out the orders of the supreme court, which were given. For us to take this position—and this strong of a position—on what I feel has been a diplomatic lack of information of what is truth in Honduras speaks poorly for us as a nation and, most importantly, undermines the hopes of the people from Honduras.

With that, I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MERKLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. MERKLEY. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

DISCLOSURE OF CONGRESSIONALLY DIRECTED SPENDING ITEMS

Mr. INOUYE. Mr. President, I submit pursuant to Senate rules a report, and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DISCLOSURE OF CONGRESSIONALLY DIRECTED SPENDING ITEMS

I certify that the information required by rule XLIV of the Standing Rules of the Senate related to congressionally directed spending items has been identified in the committee report which accompanies S. 1294 and that the required information has been available on a publicly accessible congressional website at least 48 hours before a vote on the pending bill.

PROMOTING U.S.-GERMAN FRIENDSHIP

Mr. BENNETT. Mr. President, I rise today to honor Dr. Georg Schulze Zumkley and members of his team at the German Information Center USA for their dedication in promoting friendship between the United States and Germany. Dr. Zumkley's work to commemorate the 60th anniversary of the Berlin Airlift is truly appreciated.

In the spring of 1948, Berlin was isolated within the Soviet occupation zone and had only 35 days' worth of food and 45 days' worth of coal remaining for the city. A massive American, British, and French airlift mounted to save the city and provide supplies necessary to sustain life in Berlin. Mr. President, 2008 marked the 60th anniversary of the Berlin Airlift, one of the largest and longest running humanitarian airlift operations in history.

Dr. Zumkley's group was given the mission to commemorate the 60th anniversary of the Berlin Airlift, honor Airlift veterans, and tell the story of this great humanitarian effort. They planned and implemented the successful ''Friends-Always: 60 Years After the Berlin Airlift'' outreach program, and designed, produced and managed ''The Berlin Airlift—A Legacy of Friendship'' exhibit at more than 25 venues across the United States. It is estimated that more than 150,000 people will have visited the exhibit personally and learned about the legacy of the Berlin Airlift during its tour of the United States. Dr. Zumkley ensured that Airlift veterans personally received the German-American Friendship award as an expression of appreciation and gratitude from the German people. Additionally, Dr. Zumkley has worked far above and beyond his duties and displayed outstanding leadership qualities in the fulfillment of the team's mission.

I know my fellow Senators join me in thanking Dr. Zumkley and his team for their endeavors to promote U.S.-German friendship and to honor and celebrate the 60th anniversary of the Berlin Airlift.

ADDITIONAL STATEMENTS

COMMENDING VICE ADMIRAL BRUCE E. MACDONALD

● Ms. CANTWELL. Mr. President, today I honor VADM Bruce E. MacDonald, Judge Advocate General's

Corps, U.S. Navy, who is retiring after more than 31 years of faithful service to our Nation, culminating in his service as the Judge Advocate General of the Navy.

VADM Bruce MacDonald was born in 1956 in Cincinnati, OH. He graduated from the College of the Holy Cross in 1978 with a bachelor of arts degree in English, and entered the Navy in May of that year.

Vice Admiral MacDonald was commissioned an ensign in the unrestricted line through the Naval Reserve Officer Training Corps. Following surface warfare training, he reported to the USS Hepburn, FF 1055, in October 1979, where he served as the Main Propulsion Assistant and Navigator. After a 2-year tour at Fleet Combat Training Center, Pacific, where he served as Intermediate Combat Systems Team Training and Advanced Multi-Threat Team Training Course Director, he was selected for the Navy's Law Education Program in 1984. He received his degree of Juris Doctor from California Western School of Law in 1987.

In 1987, Vice Admiral MacDonald reported to Naval Legal Service Office, San Diego, where he served as Senior Defense Counsel, Trial Counsel, and Medical Care Recovery Act claims officer. In 1990, he reported aboard USS Independence, CV 62, as the Command Judge Advocate. After receiving a master of laws degree from Harvard Law School in 1992, he was transferred to Seoul, Republic of Korea, where he served as Chief, Operational Law Division, on the staffs of United Nations Command, Combined Forces Command and United States Forces Korea. He also served as Staff Judge Advocate on the staff of U.S. Naval Forces Korea.

In August 1994, Vice Admiral MacDonald reported aboard Naval Legal Service Office Northwest as its executive officer. In November 1996, he became the Officer-in-Charge of Trial Service Office West Detachment, Bremerton, WA. In July 1997, he reported to Commander Seventh Fleet in Yokosuka, Japan, as the Fleet Judge Advocate. Vice Admiral MacDonald assumed command of Naval Legal Service Office, Northwest, in August 1999, serving as commanding officer until June 2002. He was assigned to the Pentagon as the Special Counsel to the Chief of Naval Operations from June 2002 through October 2004. In November 2004, Vice Admiral MacDonald became the Deputy Judge Advocate General of the Navy and Commander, Naval Legal Service Command. In July 2006, Vice Admiral MacDonald assumed his current position as Judge Advocate General of the Navy.

Vice Admiral MacDonald is admitted to practice before the courts of the State of California and the U.S. District Court for the Southern District of California. His military decorations include the Navy Distinguished Service Medal, the Legion of Merit with two Gold Stars, the Defense Meritorious Service Medal, the Navy Meritorious Service Medal with Gold Star, the Navy Commendation Medal with Gold Star, and the Navy Achievement Medal with Gold Star.

It is through the commitment and sacrifice of Americans such as Vice Admiral MacDonald that our Nation is able to continue upon the path of democracy and strive for the betterment of mankind. I am proud to thank him, his wife Karen, and daughter Erin for his honorable service to our nation in the U.S. Navy. I wish him fair winds and following seas as he concludes a distinguished naval career.●

COMMENDING VINCE NESCI

● Mr. CARPER. Mr. President, today I recognize Vince Nesci who, in a few months, will retire from Amtrak after 33 years as its chief mechanical officer. Vince has dedicated his adult life to improving passenger rail transportation in America, and I wish him the very best in retirement.

Railroaders are not employed; they serve, and Vince's retirement will culminate a lifetime of service to the railroad and country. He began his service in the Air Force as a flight engineer, flying on the remarkably durable C–130 Hercules transports. He performed aerial delivery missions of every kind—paratroop drops, low altitude equipment and cargo drops, and heavy equipment drops.

After leaving the Air Force, Vince went to work on the Penn Central Railroad in 1974. Since that day, he has never drawn a paycheck that wasn't issued by a railroad. He began in the traditional way, as a laborer in the mechanical department, working on the famous GG–1 class electric engines that Penn Central had inherited from its 1930s-era predecessor, the Pennsylvania Railroad. He qualified as an electrician and a machinist, putting his natural engineering aptitude to the task of learning the tics and tricks of 40-year-old locomotives with millions of miles on them.

His skill was rewarded, and he rose through the ranks. Promotion followed promotion, and he soon became a foreman and then a general foreman with Penn Central. When Amtrak took over its labor force from the freight railroads, Vince continued the unforgiving job of making sure that engines and cars would be ready to roll when the minute hand touched the top of the hour in Washington, Boston, or New York each day. He was there to work on each generation of new engines and to supervise the men and women who were working on them. He witnessed the end of the GG–1s and saw three new generations of locomotives emerge for Northeast Corridor service.

When the time came to rebuild the 20-year-old AEM–7 locomotives in 2001, Vince took on the job as the company's chief mechanical officer. This was a demanding job, and the shops accomplished it in large part because Vince was there to keep the process moving, to wade into a problem on the shop floor, and to figure out the answers to tough technical questions that manuals and instructions couldn't answer. He was no mere manager—he was that very traditional combination of expert practical mechanic, engineer, and operating man that railroad chief mechanical officers have always had to be. And through some of the toughest times Amtrak has ever faced, when money to keep the trains on the road was scarce, he kept things moving. He was famous on the railroad for his good humor, his skill, and his understanding of how locomotives worked. He was liked, but more importantly, he was respected, and his opinion carried weight in both the board room and on the shop floor.

Vince begins almost every day of his work with a smile. There is hardly ever a time that, when you talk to Vince, he does not greet your questions or begin his answers without a smile. When he talks about the cars and locomotives in his care, he speaks quickly because he is enthusiastic and wants you to feel the enthusiasm he has for the work he does. Whether the temperature is 100 degrees or 10 below zero, Vince always wears a short-sleeved white cotton shirt. If one asks him why he only wears a short-sleeved shirt, he will tell you without a moment's hesitation that when you wear short sleeves, you don't have to roll up your sleeves when you get to work.

People like Vince Nesci don't come along very often, and when they do, we should be thankful that we get to spend time with them and learn from them. The railroad is a better and safer place because of Vince, and the good news is that he has helped train a cadre of people who will be there after he leaves to carry on the work that needs to be done.

Now he has come to the end of his long career, and will soon depart into a well-earned retirement. His working life has encompassed the transformation of the Northeast Corridor, from a tentative experiment to a modern, high-speed intercity passenger rail system. Nobody has worked harder than Vince to build the railroad that may one day become a model for transportation in our country, and no one can take more justified pride in the safe, reliable, and frequent passenger rail service that travelers enjoy today than Vince Nesci.

I thank Vince for the warm friendship that we share, and I congratulate him on a truly remarkable and distinguished career. I wish him, his wife Donna, and their family the very best in all that lies ahead for each of them. As we say in the Navy on occasions like this, ''fair winds and a following sea.''●

150TH ANNIVERSARY OF JEFFERSON, SOUTH DAKOTA

● Mr. JOHNSON. Mr. President, today I pay tribute to the 150th anniversary of the founding of Jefferson, SD. This community in southeastern South Dakota has a rich heritage, as well as a promising future.

Jefferson was first settled in 1859 by three families on the site of Lewis and Clark's first settlement in South Dakota. Its original name was Adelescat after young girl, Adele, lost her cat and all the settlers joined together to find it. In 1876, the town built their Grasshopper Cross to keep their crops safe after 2 particularly hard years. The town was formally organized in 1885 after the arrival of the railroad and renamed for President Thomas Jefferson.

The people of Jefferson celebrate this momentous occasion on the weekend of July 10–12, 2009. South Dakota's small communities are the bedrock of our economy and vital to the future of our State. One hundred and fifty years after its founding, Jefferson remains a progressive community and a great asset to the wonderful State of South Dakota. I am proud to honor Jefferson on this historic milestone.●

REMEMBERING MARIA CAROLINA HINESTROSA

● Ms. MIKULSKI. Mr. President, on behalf of the people of Maryland, and breast cancer fighters worldwide, I wish to express my heartfelt condolences to the family and friends of Ms. Carolina Hinestrosa, who passed away last week after battling soft tissue sarcoma, a side effect of past breast cancer treatment. Ms. Hinestrosa served for 5 years as the executive vice president of the National Breast Cancer Coalition, in which capacity she fought passionately for the coalition's work to eradicate breast cancer. My thoughts and prayers are with Ms. Hinestrosa's family and friends during this difficult time.

After a 1994 breast cancer diagnosis, Ms. Hinestrosa turned her suffering into an opportunity when she joined with a group of survivors and health care professionals to form Nueva Vida, the only comprehensive support network for Latinas with breast and cervical cancer in the Washington metropolitan area.

As executive director of Nueva Vida, Ms. Hinestrosa gave voice to the struggles of Latinas with breast cancer, representing them on the board of directors of the National Breast Cancer Coalition and the National Cancer Institute's Central Institutional Review Board. She also played a leading role in the development of the International Latina Breast Cancer Advocacy Network.

While serving as executive vice president of the National Breast Cancer Coalition, Ms. Hinestrosa was a member of many national panels including the Department of Defense Breast Cancer Research Program and numerous committees for the Institute of Medicine. Most recently she was an appointee to the IOM Committee on Comparative Effective Research.

Ms. Hinestrosa is remembered by those who knew her as an extraordinary woman who contributed so much to women's health, breast cancer, and minority rights. An outpouring of admiration has come from the many people she touched.

Fran Visco, president of the National Breast Cancer Coalition, said Ms. Hinestrosa ''was incredibly brilliant, analytical and at the same time warm and compassionate. Nothing intimidated Carolina because of her determination to change the system.'' Director of the National Cancer Institute John Niederhuber wrote ''she was a remarkable woman. She was the type of person who you never forgot encountering. She was smart and passionate; committed and accomplished. The cancer community has lost an important voice.'' The director of the Agency for Healthcare Research and Quality, Carolyn Clancy, worked frequently with Carolina and wrote that ''her legacy is that patients and consumers are recognized voices in efforts to improve health care quality. Her contribution has inspired physicians, scientists, employers to focus on patients needs.''

Ms. Hinestrosa was born in Bogotá, Columbia, and came to the United States in 1985 on a Fulbright scholarship to pursue a master's in economics. Carolina impacted countless people in her work both here in Washington, DC, and elsewhere. She was just 50 years old at the time of her passing and leaves behind a husband and daughter.

We must carry on Ms. Hinestrosa's work in eradicating breast cancer from our midst. Until then, we must continue to support one another and honor the legacy of passion and commitment that Carolina left behind.●

COMMENDING KEVIN McENEANEY

● Mrs. SHAHEEN. Mr. President, I would like to congratulate and honor Mr. Kevin McEneaney of Dover, NH, for his faithful service to the New Hampshire Board of Land Surveyors. Mr. McEneaney served on the board from August 18, 1999, until July 11, 2009, and he led the board as chairman during the final 2 years of his term.

The New Hampshire Board of Land Surveyors' mission is to set the standards for licensing and regulating land surveyors. The board sets the technical and ethical standards for the profession and is committed to upholding the highest level of public safety.

For a decade, Mr. McEneaney demonstrated the utmost integrity and professionalism in his work on the board. His colleagues have recognized his diligence and his generosity of spirit. His contributions to the Board of Land Surveyors and to the people of New Hampshire are admirable. I commend Mr. McEneaney for his exemplary service to our State.

On a personal note, I have known Mr. McEneaney since he was a student in my class at Dover High School almost 40 years ago. I have seen firsthand his integrity, his work ethic, and his commitment to his community. I know he will succeed in whatever he does, and I wish him well in his future endeavors.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

At 2:03 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 2454. An act to create clean energy jobs, achieve energy independence, reduce global warming pollution and transition to a clean energy economy.

H.R. 2647. An act to authorize appropriations for fiscal year 2010 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, to provide special pays and allowances to certain members of the Armed Forces, expand concurrent receipt of military retirement and VA disability benefits to disabled military retirees, and for other purposes.

H.R. 2892. An act making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes.

H.R. 2996. An act making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

The message further announced that the House has agreed to the following concurrent resolution; without amendment:

S. Con. Res. 31. Concurrent resolution providing for a conditional adjournment or recess of the Senate, and a conditional adjournment of the House of Representatives.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 89. Concurrent resolution supporting the goals and objectives of the Prague Conference on Holocaust Era Assets.

The message further announced that pursuant to 22 U.S.C. 276d, clause 10 of rule I, and the order of the House of January 6, 2009, the Speaker appoints the following Members of the House of Representatives to the Canada-United States Interparliamentary Group: Mr. OBERSTAR of Minnesota, Chairman, Mr. MEEKS of New York, Vice-Chairman, Ms. SLAUGHTER of New York, Mr. STUPAK of Michigan, Ms. KILPATRICK of Michigan, Mr. HODES of New Hampshire, Mr. WELCH of Vermont, Mr. MANZULLO of Illinois, Mr. STEARNS of Florida, Mr. BROWN of South Carolina, and Mrs. MILLER of Michigan.

The message also announced that pursuant to 22 U.S.C. 2761, clause 10 of rule I, and the order of the House of January 6, 2009, the Speaker appoints the following Members of the House of Representatives to the British-American Interparliamentary Group: Mr. CHANDLER of Kentucky, Chairman, Mr. SIRES of New Jersey, Vice-Chairman, Mr. CLYBURN of South Carolina, Mr. ETHERIDGE of North Carolina, Mrs. DAVIS of California, Mr. BISHOP of New York, Mr. MILLER of North Carolina, Mr. PETRI of Wisconsin, Mr. BOOZMAN of Arkansas, Mr. CRENSHAW of Florida, Mr. ADERHOLT of Alabama, and Mr. LATTA of Ohio.

The message further announced that pursuant to section 703(c) of the Public Interest Declassification Act of 2000 (50 U.S.C. 435 note), and the order of the House of January 6, 2009, the Speaker appoints the following member on the part of the House of Representatives to the Public Interest Declassification Board for a term of 3 years: Mr. David Skaggs of Longmont, Colorado.

MEASURES REFERRED

The following bill was read the first and the second times by unanimous consent, and referred as indicated:

H.R. 2996. An act making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; to the Committee on Appropriations.

The following concurrent resolution was read, and referred as indicated:

H. Con. Res. 89. Concurrent resolution supporting the goals and objectives of the Prague Conference on Holocaust Era Assets; to the Committee on Foreign Relations.

MEASURES PLACED ON THE CALENDAR

The following bills were read the first and second times by unanimous consent, and placed on the calendar:

H.R. 2647. An act to authorize appropriations for fiscal year 2010 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, to provide special pays and allowances to certain members of the Armed Forces, expand concurrent receipt of military retirement and VA disability benefits to disabled military retirees, and for other purposes.

H.R. 2892. An act making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes.

MEASURES READ THE FIRST TIME

The following bill was read the first time:

H.R. 2454. An act to create clean energy jobs, achieve energy independence, reduce global warming pollution and transition to a clean energy economy.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–2137. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Amendment of Class E Airspace; Mount Sterling, Illinois'' ((RIN2120–AA66) (6–8/6–8/0115/AGL–3)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2138. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Amendment of Class E Airspace; Waverly, Ohio'' ((RIN2120–AA66) (6–8/6–8/1236/AGL–16)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2139. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Amendment of Class E Airspace; Cleveland, Ohio'' ((RIN2120–AA66) (6–8/6–8/0127/AGL–4)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2140. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Amendment of Class E Airspace; Waverly, Ohio'' ((RIN2120–AA66) (6–4/6–8/1236/AGL–16)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2141. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Amendment of Class D and E Airspace; Modification of Class E Airspace; Bunnell, Florida'' ((RIN2120–AA66) (Docket No. FAA–2009–0327)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2142. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Sikorsky Aircraft Corporation Model S–92A Helicopters'' ((RIN2120–AA64) (Docket No. FAA–2009–0518)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2143. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Aeromot-Industria Mecanico Metalurgica ltda. Model AMT–200 and AMT–300 Series Gliders'' ((RIN2120–AA64) (Docket No. FAA–2009–0323)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2144. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; ATR Model ATR42–200, ATR42–300, ATR42–320, ATR42–500, ATR72–101, ATR72–201, ATR72–102, ATR72–202, ATR72–211, ATR72–212, and ATR72–212A Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2008–1237)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2145. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Airbus Model A340–541 and –642 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0523)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2146. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; ATR Model ATR42–500 and ATR72–212A Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0524)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2147. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; DORNIER LUFTFAHRT GmbH Models Dornier 228–100, Dornier 228–101, Dornier 228–200, Dornier 228–201, Dornier 228–202, and Dornier 228–212 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0284)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2148. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Bombardier Model DHC–8–400 Series Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0530)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2149. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; GROB-Werke Model G120A Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0531)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2150. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Bell Helicopter Textron, Inc. Model 47, 47B, 47B3, 47D, 47D1, 47E, 47G, 47G–2, 47G–2A, 47G–2A–1, 47G–3, 47G–3B, 47G–3B–1, 47G–3B–2, 47G–3B–2A, 47G–4, 47G–4A, 47G–5, 47G–5A, 47H–1, 47J, 47J–2, 47J–2A, and 47K Helicopters'' ((RIN2120–AA64) (Docket No. FAA–2009–0484)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2151. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 747 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2008–0612)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2152. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Airbus Model A300 Airplanes; Model A300 B4–601, B4–603, B4–620, B4–622, B4–605R, B4–622R, F4605R, FR–622R, and C4–605R Variant F Airplanes (Collectively Called A300–600 Series Airplanes); and Model A310 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2008–1082)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2153. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; BAE Systems (Operations) Limited Model BAe 146 and Avro 146–RJ Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0133)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2154. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; SOCTA Model TBM 700 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0557)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2155. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Piper Aircraft, Inc. PA–23, PA–31, and PA–42 Series Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0218)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2156. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; DORNIER LUFTFAHRT GmbH Models Dornier 228–100, Dornier 228–101, Dornier 228–200, Dornier 228–201, Dornier 228–202, and Dornier 228–212 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0261)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2157. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Amendment of Class E Airspace; Cleveland, Ohio'' ((RIN2120–AA66) (6–4/6–8/0127/AGL–4)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2158. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Airbus Model A330–201, –202, –203, –223, –243, –301, –302, –303, –321, –322, –323, –341, –342, and –343 Series Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0262)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2159. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Airbus Model A300 Airplanes; Model A300 B4–601, B4–603, B4–620, B4–622, B4–605R, B4–622R, F4–605R, F4–622R, and C4–605R Variant F Airplanes (Collectively Called A300–600 Series Airplanes; and Model A310 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0218)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2160. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; ATR Model ATR42–200, ATR42–300, ATR42–320, ATR 42–500, ATR72–101, ATR72–201, ATR72–102, ATR72–202, ATR72–211, ATR72–212, and ATR72–212A'' ((RIN2120–AA64) (Docket No. FAA–2008–1237)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2161. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 737–300, –400, –500, –600, –700, –700C, –800, and –900 Series Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2007–0163)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2162. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 737–300, –400, and –500 Series Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2008–1364)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2163. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Rolls–Royce Corporation AE 2100D2, AE 2100D2A, AE 2100D3, and AE 2100J Turboprop Engines'' ((RIN2120–AA64) (Docket No. FAA–2009–0082)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2164. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Construcciones Aeronauticas, S.A. (CASA), Model C–212–CB, C–212–CC, C–212–CD, C–212–CE, C–212–CF, and C–212–DE Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0005)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2165. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 757–200, –200CB, and –300 Series Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2007–29067)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2166. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; McDonnell Douglas Model MD–90–30 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0213)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2167. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Eurocopter Deutschland GmbH Model EC135 Helicopters'' ((RIN2120–AA64) (Docket No. FAA–2009–0482)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2168. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Airbus Model A330–202, –223, –243, –301, –322, and –342 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0479)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2169. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; British Aerospace Model HS 748 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0478)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2170. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; M7 Aerospace LP Models SA226–AT, SA226–T, SA226–TC, SA227–AC (C–26A), SA227–AT, SA227–BC (C–26A), SA227–CC, and SA227–DC (C–26B) Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0119)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2171. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Eurocopter Deutschland GmbH (ECD) Model MBB–BK 117 A–1, A–3, A–4, B–1, B–2, and C–1 Helicopters'' ((RIN2120–AA64) (Docket No. FAA–2009–0453)) received in the Office of the President of the Senate on June 24, 2009; to

the Committee on Commerce, Science, and Transportation.

EC–2172. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Boeing Model 747–100, 747–100B, 747–100B SUD, 747–200B, 747–200C, 747–200F, 747–300, 747–400, 747–400D, 747–400F, 747SR, and 747SP Series Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0218)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2173. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Cessna Aircraft Company 150 and 152 Series Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2007–27747)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2174. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Learjet Model 45 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0498)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2175. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Airworthiness Directives; Airbus Model A310 Airplanes and Airbus Model A300–600 Airplanes'' ((RIN2120–AA64) (Docket No. FAA–2009–0486)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2176. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Emissions Standards for Turbine Engine Powered Airplanes; CORRECTION'' ((RIN2120–AJ41) (Docket No. FAA–2009–0112)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2177. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Part 95 Instrument Flight Rules (33); Amdt. No. 481'' (RIN2120–AA63) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2178. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Calculation of Noise Levels Published in Advisory Circular 36–3'' (14 CFR Part 36) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2179. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65) (Amendment No. 3325)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2180. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65) (Amendment No. 3324)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2181. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65) (Amendment No. 3327)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2182. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments'' ((RIN2120–AA65) (Amendment No. 3326)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2183. A communication from the Trial Attorney, Federal Railroad Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Interim Statement of Agency Policy and Interpretation on the Hours of Service Laws as Amended; Proposed Interpretation; Request for Public Comment'' (Docket No. 2009–0057, Notice No. 1) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2184. A communication from the Program Analyst, National Highway Traffic Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''E–911 Grant Program'' ((RIN2127–AK37) (Docket No. NTSA–2009–0142)) received in the Office of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2185. A communication from the Paralegal, Federal Transit Authority, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Buy America; Petition for Rulemaking'' ((RIN2132–AA99) (Docket No. FTA–2008–0057)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2186. A communication from the Regulations Officer, Federal Highway Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Worker Visibility'' ((RIN2125–AF28) (Docket No. FHWA–2008–0157)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2187. A communication from the Secretary of Transportation, transmitting, pursuant to law, a report relative to the expenditure of funds under the Recovery Act; to the Committee on Commerce, Science, and Transportation.

EC–2188. A communication from the Secretary of Transportation, transmitting, pursuant to law, the Department's Fiscal Year 2008 Annual Report; to the Committee on Commerce, Science, and Transportation.

EC–2189. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled ''Amendment of Class E Airspace; Mount Sterling, Illinois'' ((RIN2120–AA66) (6–4/6–8/0115/AGL–3)) received in the Office of the President of the Senate on June 24, 2009; to the Committee on Commerce, Science, and Transportation.

PETITIONS AND MEMORIALS

The following petition or memorial was laid before the Senate and was referred or ordered to lie on the table as indicated:

POM–52. A resolution adopted by the Legislature of the State of Minnesota urging Congress to repeal the federal legislation of 1863 ordering the removal of Dakota people from Minnesota; to the Committee on Indian Affairs.

RESOLUTION

Whereas, in the aftermath of the events of 1862—the delay of United States treaty payments to the Dakota, the refusal of white traders to sell to them, the resulting starvation on the reservation, and the ensuing Dakota Conflict—white sentiment against Indian people was at its height, and many were pressing for the execution of 303 Dakota and mixed-blood men; and

Whereas, fearing that there would be further violence if he did not act, and to appease public feeling, Abraham Lincoln cooperated with the efforts of Congress to remove Indian people unilaterally, without even the semblance of agreement by treaty, by signing ''An Act for the Removal of the Sisseton, Wahpaton, Medawakanton, and Wahpakoota Bands of Sioux or Dakota Indians, and for the Disposition of their Lands in Minnesota and Dakota,'' an action which ultimately ignited the Plains Indian Wars and brought 30 more years of conflict; and

Whereas, the act remains in federal law to this day, despite the fact that its terms are obsolete and its presence is a continuing offense; Now, therefore, be it

Resolved by the Legislature of the State of Minnesota, That it urges the Congress of the United States to repeal United States Statutes at Large, volume 12, page 819, chapter 119, and pages 803–804, chapter 103; and be it further

Resolved, That the Secretary of State of the State of Minnesota is directed to prepare copies of this memorial and transmit them to the President of the United States, the President and the Secretary of the United States Senate, the Speaker and the Clerk of the United States House of Representatives, and Minnesota's Senators and Representatives in Congress.

REPORTS OF COMMITTEES DURING THE ADJOURNMENT OF THE SENATE

Under the authority of the order of the Senate of June 25, 2009, the following reports of committees were submitted on July 2, 2009:

By Mr. LEVIN, from the Committee on Armed Services, without amendment:

S. 1390. An original bill to authorize appropriations for fiscal year 2010 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes (Rept. No. 111–35).

By Ms. LANDRIEU, from the Committee on Small Business and Entrepreneurship, with an amendment in the nature of a substitute:

S. 1229. A bill to reauthorize and improve the entrepreneurial development programs of the Small Business Administration, and for other purposes (Rept. No. 111–36).

S. 1233. A bill to reauthorize and improve the SBIR and STTR programs and for other purposes (Rept. No. 111–37).

By Mr. LEVIN, from the Committee on Armed Services, without amendment:

S. 1391. An original bill to authorize appropriations for fiscal year 2010 for military activities of the Department of Defense, to prescribe military personnel strengths for such fiscal year, and for other purposes.

S. 1392. An original bill to authorize appropriations for fiscal year 2010 for military construction, and for other purposes.

S. 1393. An original bill to authorize appropriations for fiscal year 2010 for defense activities of the Department of Energy, and for other purposes.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mrs. GILLIBRAND:

S. 1394. A bill to direct the Secretary of Veterans Affairs to acknowledge the receipt of medical, disability, and pension claims and other communications submitted by claimants, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. CRAPO:

S. 1395. A bill to amend the Marine Mammal Protection Act of 1972 to allow importation of polar bear trophies taken in sport hunts in Canada before the date on which the polar bear was determined to be a threatened species under the Endangered Species Act of 1973; to the Committee on Commerce, Science, and Transportation.

By Ms. COLLINS (for herself and Mr. DURBIN):

S. 1396. A bill to direct the Administrator of the United States Agency for International Development to carry out a pilot program to promote the production and use of fuel-efficient stoves engineered to produce significantly less black carbon than traditional stoves, and for other purposes; to the Committee on Foreign Relations.

By Ms. KLOBUCHAR (for herself and Mrs. GILLIBRAND):

S. 1397. A bill to authorize the Administrator of the Environmental Protection Agency to award grants for electronic device recycling research, development, and demonstration projects, and for other purposes; to the Committee on Environment and Public Works.

By Mrs. GILLIBRAND:

S. 1398. A bill to amend the Food, Conservation, and Energy Act of 2008 to increase the payment rate for certain payments under the milk income loss contract program as an emergency measure; to the Committee on Agriculture, Nutrition, and Forestry.

By Mrs. FEINSTEIN (for herself and Ms. SNOWE):

S. 1399. A bill to amend the Commodity Exchange Act to establish a market for the trading of greenhouse gases, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BAYH (for himself and Mr. LUGAR):

S. Res. 207. A resolution recognizing the 100th anniversary of the Indianapolis Motor Speedway; to the Committee on the Judiciary.

ADDITIONAL COSPONSORS

S. 240

At the request of Mr. SANDERS, his name was added as a cosponsor of S. 240, a bill to set the United States on track to ensure children are ready to learn when they begin kindergarten.

S. 254

At the request of Mrs. LINCOLN, the names of the Senator from Massachusetts (Mr. KERRY) and the Senator from Connecticut (Mr. DODD) were added as cosponsors of S. 254, a bill to amend title XVIII of the Social Security Act to provide for the coverage of home infusion therapy under the Medicare Program.

S. 259

At the request of Mr. BOND, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 259, a bill to establish a grant program to provide vision care to children, and for other purposes.

S. 423

At the request of Mr. AKAKA, the names of the Senator from Florida (Mr. MARTINEZ) and the Senator from New York (Mrs. GILLIBRAND) were added as cosponsors of S. 423, a bill to amend title 38, United States Code, to authorize advance appropriations for certain medical care accounts of the Department of Veterans Affairs by providing two-fiscal year budget authority, and for other purposes.

S. 434

At the request of Mr. KERRY, the name of the Senator from Wisconsin (Mr. KOHL) was added as a cosponsor of S. 434, a bill to amend title XIX of the Social Security Act to improve the State plan amendment option for providing home and community-based services under the Medicaid program, and for other purposes.

S. 435

At the request of Mr. CASEY, the name of the Senator from Virginia (Mr. WEBB) was added as a cosponsor of S. 435, a bill to provide for evidence-based and promising practices related to juvenile delinquency and criminal street gang activity prevention and intervention to help build individual, family, and community strength and resiliency to ensure that youth lead productive, safe, healthy, gang-free, and law-abiding lives.

S. 451

At the request of Ms. COLLINS, the names of the Senator from Georgia (Mr. CHAMBLISS) and the Senator from Idaho (Mr. CRAPO) were added as cosponsors of S. 451, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

S. 455

At the request of Mr. ROBERTS, the names of the Senator from Alaska (Mr. BEGICH) and the Senator from Maryland (Mr. CARDIN) were added as cosponsors of S. 455, a bill to require the Secretary of the Treasury to mint coins in recognition of 5 United States Army Five-Star Generals, George Marshall, Douglas MacArthur, Dwight Eisenhower, Henry ''Hap'' Arnold, and Omar Bradley, alumni of the United States Army Command and General Staff College, Fort Leavenworth, Kansas, to coincide with the celebration of the 132nd Anniversary of the founding of the United States Army Command and General Staff College.

S. 461

At the request of Mrs. LINCOLN, the names of the Senator from South Dakota (Mr. JOHNSON) and the Senator from South Carolina (Mr. GRAHAM) were added as cosponsors of S. 461, a bill to amend the Internal Revenue Code of 1986 to extend and modify the railroad track maintenance credit.

S. 471

At the request of Ms. SNOWE, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 471, a bill to amend the Education Sciences Reform Act of 2002 to require the Statistics Commissioner to collect information from coeducational secondary schools on such schools' athletic programs, and for other purposes.

S. 476

At the request of Mrs. BOXER, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 476, a bill to amend title 10, United States Code, to reduce the minimum distance of travel necessary for reimbursement of covered beneficiaries of the military health care system for travel for specialty health care.

S. 538

At the request of Mrs. LINCOLN, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 538, a bill to increase the recruitment and retention of school

counselors, school social workers, and school psychologists by low-income local educational agencies.

S. 624

At the request of Mr. DURBIN, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 624, a bill to provide 100,000,000 people with first-time access to safe drinking water and sanitation on a sustainable basis by 2015 by improving the capacity of the United States Government to fully implement the Senator Paul Simon Water for the Poor Act of 2005.

S. 632

At the request of Mr. BAUCUS, the name of the Senator from Montana (Mr. TESTER) was added as a cosponsor of S. 632, a bill to amend the Internal Revenue Code of 1986 to require that the payment of the manufacturers' excise tax on recreational equipment be paid quarterly.

S. 645

At the request of Mrs. LINCOLN, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 645, a bill to amend title 32, United States Code, to modify the Department of Defense share of expenses under the National Guard Youth Challenge Program.

S. 653

At the request of Mr. CARDIN, the names of the Senator from Louisiana (Ms. LANDRIEU), the Senator from Kansas (Mr. ROBERTS), the Senator from Vermont (Mr. SANDERS) and the Senator from Virginia (Mr. WARNER) were added as cosponsors of S. 653, a bill to require the Secretary of the Treasury to mint coins in commemoration of the bicentennial of the writing of the Star-Spangled Banner, and for other purposes.

S. 654

At the request of Mr. BUNNING, the names of the Senator from Utah (Mr. HATCH) and the Senator from Oregon (Mr. MERKLEY) were added as cosponsors of S. 654, a bill to amend title XIX of the Social Security Act to cover physician services delivered by podiatric physicians to ensure access by Medicaid beneficiaries to appropriate quality foot and ankle care.

S. 662

At the request of Mr. CONRAD, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. 662, a bill to amend title XVIII of the Social Security Act to provide for reimbursement of certified midwife services and to provide for more equitable reimbursement rates for certified nurse-midwife services.

S. 663

At the request of Mr. NELSON of Nebraska, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 663, a bill to amend title 38, United States Code, to direct the Secretary of Veterans Affairs to establish the Merchant Mariner Equity Compensation Fund to provide benefits to certain individuals who served in the United States merchant marine (including the Army Transport Service and the Naval Transport Service) during World War II.

S. 717

At the request of Mr. DODD, his name was added as a cosponsor of S. 717, a bill to modernize cancer research, increase access to preventative cancer services, provide cancer treatment and survivorship initiatives, and for other purposes.

S. 749

At the request of Mr. COCHRAN, the name of the Senator from Nebraska (Mr. JOHANNS) was added as a cosponsor of S. 749, a bill to improve and expand geographic literacy among kindergarten through grade 12 students in the United States by improving professional development programs for kindergarten through grade 12 teachers offered through institutions of higher education.

S. 769

At the request of Mrs. LINCOLN, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 769, a bill to amend title XVIII of the Social Security Act to improve access to, and increase utilization of, bone mass measurement benefits under the Medicare part B program.

S. 801

At the request of Mr. AKAKA, the names of the Senator from Missouri (Mrs. MCCASKILL) and the Senator from Oregon (Mr. MERKLEY) were added as cosponsors of S. 801, a bill to amend title 38, United States Code, to waive charges for humanitarian care provided by the Department of Veterans Affairs to family members accompanying veterans severely injured after September 11, 2001, as they receive medical care from the Department and to provide assistance to family caregivers, and for other purposes.

S. 812

At the request of Mr. BAUCUS, the name of the Senator from Montana (Mr. TESTER) was added as a cosponsor of S. 812, a bill to amend the Internal Revenue Code of 1986 to make permanent the special rule for contributions of qualified conservation contributions.

S. 819

At the request of Mr. DURBIN, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 819, a bill to provide for enhanced treatment, support, services, and research for individuals with autism spectrum disorders and their families.

S. 831

At the request of Mr. KERRY, the name of the Senator from Kansas (Mr. BROWNBACK) was added as a cosponsor of S. 831, a bill to amend title 10, United States Code, to include service after September 11, 2001, as service qualifying for the determination of a reduced eligibility age for receipt of non-regular service retired pay.

S. 832

At the request of Mr. NELSON of Florida, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 832, a bill to amend title 36, United States Code, to grant a Federal charter to the Military Officers Association of America, and for other purposes.

S. 833

At the request of Mr. SCHUMER, the names of the Senator from Indiana (Mr. BAYH), the Senator from Pennsylvania (Mr. SPECTER), and the Senator from Rhode Island (Mr. WHITEHOUSE) were added as cosponsors of S. 833, a bill to amend title XIX of the Social Security Act to permit States the option to provide Medicaid coverage for low-income individuals infected with HIV.

S. 841

At the request of Mr. KERRY, the name of the Senator from Louisiana (Mr. VITTER) was added as a cosponsor of S. 841, a bill to direct the Secretary of Transportation to study and establish a motor vehicle safety standard that provides for a means of alerting blind and other pedestrians of motor vehicle operation.

S. 870

At the request of Mrs. LINCOLN, the name of the Senator from Kentucky (Mr. BUNNING) was added as a cosponsor of S. 870, a bill to amend the Internal Revenue Code of 1986 to expand the credit for renewable electricity production to include electricity produced from biomass for on-site use and to modify the credit period for certain facilities producing electricity from open-loop biomass.

S. 883

At the request of Mr. KERRY, the names of the Senator from Georgia (Mr. ISAKSON), the Senator from Florida (Mr. MARTINEZ), and the Senator from Oklahoma (Mr. INHOFE) were added as cosponsors of S. 883, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the establishment of the Medal of Honor in 1861, America's highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Services of the United States, to honor the American military men and women who have been recipients of the Medal of Honor, and to promote awareness of what the Medal of Honor represents and how ordinary Americans, through courage, sacrifice, selfless service and patriotism, can challenge fate and change the course of history.

S. 908

At the request of Mr. BAYH, the name of the Senator from Rhode Island (Mr.

WHITEHOUSE) was added as a cosponsor of S. 908, a bill to amend the Iran Sanctions Act of 1996 to enhance United States diplomatic efforts with respect to Iran by expanding economic sanctions against Iran.

S. 909

At the request of Mr. BENNET, his name was added as a cosponsor of S. 909, a bill to provide Federal assistance to States, local jurisdictions, and Indian tribes to prosecute hate crimes, and for other purposes.

S. 921

At the request of Mr. CARPER, the name of the Senator from Illinois (Mr. BURRIS) was added as a cosponsor of S. 921, a bill to amend chapter 35 of title 44, United States Code, to recognize the interconnected nature of the Internet and agency networks, improve situational awareness of Government cyberspace, enhance information security of the Federal Government, unify policies, procedures, and guidelines for securing information systems and national security systems, establish security standards for Government purchased products and services, and for other purposes.

S. 935

At the request of Mr. CONRAD, the name of the Senator from Oklahoma (Mr. INHOFE) was added as a cosponsor of S. 935, a bill to extend subsections (c) and (d) of section 114 of the Medicare, Medicaid, and SCHIP Extension Act of 2007 (Public Law 110–173) to provide for regulatory stability during the development of facility and patient criteria for long-term care hospitals under the Medicare program, and for other purposes.

S. 944

At the request of Mr. FEINGOLD, the names of the Senator from Arkansas (Mrs. LINCOLN) and the Senator from Illinois (Mr. BURRIS) were added as cosponsors of S. 944, a bill to amend title 10, United States Code, to require the Secretaries of the military departments to give wounded members of the reserve components of the Armed Forces the option of remaining on active duty during the transition process in order to continue to receive military pay and allowances, to authorize members to reside at their permanent places of residence during the process, and for other purposes.

S. 970

At the request of Ms. LANDRIEU, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 970, a bill to promote and enhance the operation of local building code enforcement administration across the country by establishing a competitive Federal matching grant program.

S. 975

At the request of Mr. MARTINEZ, the names of the Senator from Michigan (Mr. LEVIN) and the Senator from Oklahoma (Mr. COBURN) were added as cosponsors of S. 975, a bill to amend title XVIII of the Social Security Act to reduce fraud under the Medicare program.

S. 984

At the request of Mrs. BOXER, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 984, a bill to amend the Public Health Service Act to provide for arthritis research and public health, and for other purposes.

S. 994

At the request of Ms. KLOBUCHAR, the names of the Senator from California (Mrs. BOXER), the Senator from New Jersey (Mr. LAUTENBERG), the Senator from Massachusetts (Mr. KERRY), and the Senator from New Mexico (Mr. UDALL) were added as cosponsors of S. 994, a bill to amend the Public Health Service Act to increase awareness of the risks of breast cancer in young women and provide support for young women diagnosed with breast cancer.

S. 1002

At the request of Mr. CASEY, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 1002, a bill to provide for the acquisition, construction, renovation, and improvement of child care facilities, and for other purposes.

S. 1020

At the request of Mr. WHITEHOUSE, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. 1020, a bill to optimize the delivery of critical care medicine and expand the critical care workforce.

S. 1026

At the request of Mr. CORNYN, the name of the Senator from Alabama (Mr. SESSIONS) was added as a cosponsor of S. 1026, a bill to amend the Uniformed and Overseas Citizens Absentee Voting Act to improve procedures for the collection and delivery of marked absentee ballots of absent overseas uniformed service voters, and for other purposes.

S. 1065

At the request of Mr. BROWNBACK, the names of the Senator from Rhode Island (Mr. WHITEHOUSE), the Senator from Maine (Ms. COLLINS) and the Senator from Connecticut (Mr. LIEBERMAN) were added as cosponsors of S. 1065, a bill to authorize State and local governments to direct divestiture from, and prevent investment in, companies with investments of $20,000,000 or more in Iran's energy sector, and for other purposes.

S. 1066

At the request of Mr. SCHUMER, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1066, a bill to amend title XVIII of the Social Security Act to preserve access to ambulance services under the Medicare program.

S. 1067

At the request of Mr. FEINGOLD, the names of the Senator from Rhode Island (Mr. WHITEHOUSE), the Senator from Oregon (Mr. WYDEN), the Senator from New Jersey (Mr. LAUTENBERG), the Senator from Michigan (Mr. LEVIN) and the Senator from Missouri (Mr. BOND) were added as cosponsors of S. 1067, a bill to support stabilization and lasting peace in northern Uganda and areas affected by the Lord's Resistance Army through development of a regional strategy to support multilateral efforts to successfully protect civilians and eliminate the threat posed by the Lord's Resistance Army and to authorize funds for humanitarian relief and reconstruction, reconciliation, and transitional justice, and for other purposes.

S. 1079

At the request of Ms. KLOBUCHAR, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 1079, a bill to amend title XVIII of the Social Security Act to extend reasonable cost contracts under the Medicare program.

S. 1091

At the request of Mr. WYDEN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1091, a bill to amend the Internal Revenue Code of 1986 to provide for an energy investment credit for energy storage property connected to the grid, and for other purposes.

S. 1129

At the request of Mr. DURBIN, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 1129, a bill to authorize the Secretary of Education to award grants to local educational agencies to improve college enrollment.

S. 1132

At the request of Mr. LEAHY, the name of the Senator from Alabama (Mr. SESSIONS) was added as a cosponsor of S. 1132, a bill to amend title 18, United States Code, to improve the provisions relating to the carrying of concealed weapons by law enforcement officers, and for other purposes.

S. 1157

At the request of Mr. CONRAD, the names of the Senator from New Mexico (Mr. UDALL) and the Senator from Colorado (Mr. BENNET) were added as cosponsors of S. 1157, a bill to amend title XVIII of the Social Security Act to protect and preserve access of Medicare beneficiaries in rural areas to health care providers under the Medicare program, and for other purposes.

S. 1160

At the request of Mr. SCHUMER, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 1160, a bill to provide housing assistance for very low-income veterans.

S. 1166

At the request of Mr. REID, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 1166, a bill to amend the Internal Revenue Code of 1986 to allow taxpayers to designate part or all of any income tax refund to support reservists and National Guard members.

S. 1167

At the request of Mr. THUNE, the name of the Senator from Alabama (Mr. SESSIONS) was added as a cosponsor of S. 1167, a bill to require that the Federal Government procure from the private sector the goods and services necessary for the operations and management of certain Government agencies, and for other purposes.

S. 1183

At the request of Mr. DURBIN, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 1183, a bill to authorize the Secretary of Agriculture to provide assistance to the Government of Haiti to end within 5 years the deforestation in Haiti and restore within 30 years the extent of tropical forest cover in existence in Haiti in 1990, and for other purposes.

S. 1203

At the request of Mr. BAUCUS, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 1203, a bill to amend the Internal Revenue Code of 1986 to extend the research credit through 2010 and to increase and make permanent the alternative simplified research credit, and for other purposes.

S. 1223

At the request of Mr. JOHANNS, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a cosponsor of S. 1223, a bill to require prior Congressional approval of emergency funding resulting in Government ownership of private entities.

S. 1229

At the request of Ms. LANDRIEU, the names of the Senator from New Hampshire (Mrs. SHAHEEN) and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of S. 1229, a bill to reauthorize and improve the entrepreneurial development programs of the Small Business Administration, and for other purposes.

S. 1230

At the request of Mr. ISAKSON, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 1230, a bill to amend the Internal Revenue Code of 1986 to provide a Federal income tax credit for certain home purchases.

S. 1233

At the request of Ms. LANDRIEU, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 1233, a bill to reauthorize and improve the SBIR and STTR programs and for other purposes.

S. 1243

At the request of Mr. HATCH, the name of the Senator from Missouri (Mr. BOND) was added as a cosponsor of S. 1243, a bill to require repayments of obligations and proceeds from the sale of assets under the Troubled Asset Relief Program to be repaid directly into the Treasury for reduction of the public debt.

S. 1249

At the request of Ms. KLOBUCHAR, the name of the Senator from Ohio (Mr. BROWN) was withdrawn as a cosponsor of S. 1249, a bill to amend title XVIII of the Social Security Act to create a value indexing mechanism for the physician work component of the Medicare physician fee schedule.

S. 1253

At the request of Mr. CORKER, the names of the Senator from Mississippi (Mr. COCHRAN) and the Senator from New Jersey (Mr. MENENDEZ) were added as cosponsors of S. 1253, a bill to address reimbursement of certain costs to automobile dealers.

S. 1261

At the request of Mr. AKAKA, the name of the Senator from Illinois (Mr. BURRIS) was added as a cosponsor of S. 1261, a bill to repeal title II of the REAL ID Act of 2005 and amend title II of the Homeland Security Act of 2002 to better protect the security, confidentiality, and integrity of personally identifiable information collected by States when issuing driver's licenses and identification documents, and for other purposes.

S. 1265

At the request of Mr. CORNYN, the names of the Senator from Nevada (Mr. ENSIGN) and the Senator from Georgia (Mr. ISAKSON) were added as cosponsors of S. 1265, a bill to amend the National Voter Registration Act of 1993 to provide members of the Armed Forces and their family members equal access to voter registration assistance, and for other purposes.

S. 1267

At the request of Mr. MENENDEZ, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 1267, a bill to amend title V of the Social Security Act to provide grants to establish or expand quality programs providing home visitation for low-income pregnant women and low-income families with young children, and for other purposes.

S. 1283

At the request of Mr. SCHUMER, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 1283, a bill to require persons that operate Internet websites that sell airline tickets to disclose to the purchaser of each ticket the air carrier that operates each segment of the flight, and for other purposes.

S. 1304

At the request of Mr. GRASSLEY, the names of the Senator from Florida (Mr. NELSON), the Senator from Georgia (Mr. CHAMBLISS), the Senator from Iowa (Mr. HARKIN), the Senator from Florida (Mr. MARTINEZ) and the Senator from Minnesota (Ms. KLOBUCHAR) were added as cosponsors of S. 1304, a bill to restore the economic rights of automobile dealers, and for other purposes.

S. 1308

At the request of Mr. LAUTENBERG, the names of the Senator from Texas (Mrs. HUTCHISON) and the Senator from West Virginia (Mr. ROCKEFELLER) were added as cosponsors of S. 1308, a bill to reauthorize the Maritime Administration, and for other purposes.

S. 1348

At the request of Mr. CHAMBLISS, the name of the Senator from South Dakota (Mr. THUNE) was added as a cosponsor of S. 1348, a bill to recognize the heritage of hunting and provide opportunities for continued hunting on Federal public land.

S. 1375

At the request of Mr. ROBERTS, the names of the Senator from South Dakota (Mr. THUNE) and the Senator from Oklahoma (Mr. INHOFE) were added as cosponsors of S. 1375, a bill to amend the Agricultural Credit Act of 1987 to reauthorize State mediation programs.

S. 1382

At the request of Mr. DODD, the names of the Senator from Illinois (Mr. DURBIN) and the Senator from Massachusetts (Mr. KENNEDY) were added as cosponsors of S. 1382, a bill to improve and expand the Peace Corps for the 21st century, and for other purposes.

S. 1384

At the request of Mr. CARDIN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1384, a bill to amend title XVIII of the Social Security Act to provide a senior housing facility plan option under the Medicare Advantage program.

S. 1389

At the request of Mr. NELSON of Nebraska, the name of the Senator from Louisiana (Mr. VITTER) was added as a cosponsor of S. 1389, a bill to clarify the exemption for certain annuity contracts and insurance policies from Federal regulation under the Securities Act of 1933.

S.J. RES. 17

At the request of Mr. MCCONNELL, the names of the Senator from Georgia (Mr. ISAKSON), the Senator from Florida (Mr. MARTINEZ) and the Senator from Mississippi (Mr. COCHRAN) were added as cosponsors of S.J. Res. 17, a joint resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes.

S. CON. RES. 25

At the request of Mr. MENENDEZ, the names of the Senator from Connecticut

(Mr. LIEBERMAN) and the Senator from Alaska (Ms. MURKOWSKI) were added as cosponsors of S. Con. Res. 25, a concurrent resolution recognizing the value and benefits that community health centers provide as health care homes for over 18,000,000 individuals, and the importance of enabling health centers and other safety net providers to continue to offer accessible, affordable, and continuous care to their current patients and to every American who lacks access to preventive and primary care services.

S. RES. 206

At the request of Mr. JOHANNS, the names of the Senator from Idaho (Mr. CRAPO) and the Senator from South Carolina (Mr. DEMINT) were added as cosponsors of S. Res. 206, a resolution expressing the sense of the Senate that the United States should immediately implement the United States-Colombia Trade Promotion Agreement.

AMENDMENT NO. 1367

At the request of Mr. DEMINT, the name of the Senator from Kentucky (Mr. BUNNING) was added as a cosponsor of amendment No. 1367 proposed to H.R. 2918, a bill making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. COLLINS (for herself and Mr. DURBIN):

S. 1396. A bill to direct the Administrator of the United States Agency for International Development to carry out a pilot program to promote the production and use of fuel-efficient stoves engineered to produce significantly less black carbon than traditional stoves, and for other purposes; to the Committee on Foreign Relations.

Ms. COLLINS. Mr. President, I rise today to offer a bill to reduce the production of black carbon, a potent contributor to global climate change. I am pleased to be joined on this bill by my friend and colleague, Senator DURBIN, as the lead cosponsor.

Black carbon is a particulate produced during the incomplete combustion of carbon-containing materials. It has been estimated to have, on an equivalent mass basis, more than 500 times the global warming potential of carbon dioxide. Reducing the production of black carbon would help stabilize the global climate.

Black carbon is produced by some events, such as forest fires, that cannot easily be corrected by Senate actions. My bill addresses a mechanism of black carbon production that we can influence.

Throughout the world today, an estimated two billion people cook with solid fuels over an open fire or with primitive stoves. More than 50 percent of the controllable black carbon emissions in the world are due to these practices. Modern stoves, designed to efficiently burn fuel, can eliminate up to 90 percent of the black carbon produced during cooking and home heating.

Additionally, cooking and heating with poorly designed stoves emits noxious gases and particulates. Experts believe that these pollutants cause the premature deaths of over 1 million people, chiefly women and children, each year. Replacing these stoves with modern alternatives will strongly reduce the number of these deaths. There is a real need to find alternatives to those poorly performing stoves to improve global environmental and human health.

The U.S. Agency for International Development carries out activities under a number of existing projects to place low-cost, fuel efficient stoves in poor communities. It has found that, to be successful, the new stoves must be customized to fit the needs and cooking traditions of the community. These programs have had a very positive impact. But, they have not had the resources to optimize stoves to minimize black carbon emissions.

Our bill authorizes $1 million per year for 2 years for the U.S. Agency for International Development to conduct a pilot program to develop and test stoves that optimize both fuel efficiency and black carbon reduction.

This measure addresses an issue, global climate change, that we must take very seriously. It also provides funding that, while addressing an important global pollutant, also alleviates a public health disaster affecting developing nations. I urge my colleagues to join me in supporting this bill.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1396

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DEFINITIONS.

In this Act:

(1) ADMINISTRATOR.—The term ''Administrator'' means the Administrator of the United States Agency for International Development.

(2) BLACK CARBON.—The term ''black carbon'' means a particulate formed through the incomplete combustion of fossil fuels, biofuel, and biomass.

SEC. 2. PILOT PROGRAM ON PROMOTION OF FUEL-EFFICIENT STOVES ENGINEERED TO OPERATE WITHOUT THE PRODUCTION OF BLACK CARBON.

The Administrator shall establish a 2-year pilot program to promote the production and use of fuel-efficient stoves that—

(a) do not produce significant amounts of black carbon; and

(b) are customized for use throughout the world.

SEC. 3. REPORTS TO CONGRESS.

Not later than 6 months after the date of the enactment of this Act, and not later than 30 days after the last day of the pilot program established under section 2, the Administrator shall submit to Congress a report on the pilot program that includes—

(1) the names of the organizations receiving funding through the pilot program;

(2) the names of communities identified for participation in the pilot program and descriptions of the socioeconomic parameters that led to their selection for participation in the pilot program;

(3) a description of the services carried out by the Administrator under the pilot program;

(4) an assessment of the effectiveness of the pilot program; and

(5) the recommendations of the Administrator with respect to the extension or expansion of the pilot program.

SEC. 4. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out this Act $1,000,000 for each of the fiscal years 2010 and 2011.

By Mrs. FEINSTEIN (for herself and Ms. SNOWE):

S. 1399. A bill to amend the Commodity Exchange Act to establish a market for the trading of greenhouse gases, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

Mrs. FEINSTEIN. Mr. President, I rise today to introduce The Carbon Market Oversight Act, which is cosponsored by Senator SNOWE.

I believe this bill is necessary to ensure that future markets created by proposed climate change legislation are transparent and free from manipulation.

Our legislation would establish a comprehensive framework to regulate both primary and derivative carbon markets at the Commodity Futures Trading Commission, CFTC.

Trading would be transparent and electronically monitored.

Manipulation, fraud, and excessive speculation would be prohibited, and violations would be severely punished.

All carbon permits and standardized carbon derivatives would have to be traded through facilities that monitor trading, establish fair trading rules, and follow established regulatory principles.

All standardized contracts would have to be cleared through a centralized counterparty clearinghouse, to reduce systemic risk.

CFTC would maintain a centralized position accounting system to monitor all large traders across multiple markets.

Traders, dealers, and brokers would have to be educated, would have to pass an exam to demonstrate competence, and would need to maintain certification.

Bottom line: the legislation would use lessons learned in other markets to establish the most comprehensive and

efficient market oversight structure in the U.S.

This legislation is necessary because cap and trade legislation would create, in an unprecedented manner, an extremely large new financial market.

Without regulation, this market would likely emerge quickly into one of the largest over-the-counter derivatives markets in the world.

Resources for the Future Economist Dallas Burtraw recently testified in Congress that putting a price on carbon dioxide emissions through ''a cap and trade program would constitute the greatest creation of government-enforced property rights since the 19th century.''

Depending on the stringency of the cap, the breadth of the program, and the cost containment measures employed, the annual value of the pollution permits alone is estimated to range from $100 billion to $370 billion. Secondary markets for futures, options, and over-the-counter derivatives are expected to be considerably larger than that market.

If we fail to establish a framework for oversight, the greenhouse gas market could turn into a wild west.

The market would invite the worst kind of manipulation, fraud, and abuse.

The resulting volatility would affect consumer energy costs and harm the environmental goals of the system.

My concerns regarding the emergence of new over-the-counter derivatives markets are based on real experience, not hypothetical situations.

In 2000 and 2001, newly created California energy markets lacked the basic protections proposed in this legislation.

Specifically, there was no federal oversight to assure transparency, no limits on speculation, no prohibition on manipulation, no requirements to prevent systemic risk, no monitoring of trading to address price spikes and irregularities, and no professional requirements to ensure that energy traders and dealers knew the law and followed a professional code of conduct.

In short, the electricity and related natural gas markets emerged before the law caught up, and much of the manipulation that resulted, shockingly, was legal.

The market that looked more like the wild west than an efficient price discovery tool.

Enron, for instance, ran a market where only it knew the prices. It was able to manipulate natural gas and electricity prices beyond the view of any third party, and it swindled the people of California to the tune of billions of dollars.

Not until enactment of the Energy Policy Act of 2005, years after the crisis, were we able to amend the Natural Gas Act and the Federal Power Act to clarify that this manipulation was unlawful.

Not until the Farm Bill in 2008 were we able to close the infamous ''Enron Loophole'' that had allowed Enron to operate an unregulated electronic energy trading exchange in which prices were not public, speculation was unlimited, and there was no audit trail.

More recently, our government failed to establish a regulatory framework for over-the-counter, OTC, credit default swap and energy derivative markets.

First, energy swaps markets wreaked havoc on oil and other energy commodity prices during the speculative energy bubble of 2008.

Then, credit default swaps emerged from the shadows to bring our entire financial system to the brink of collapse.

According to the Treasury Department's recent report titled Financial Regulatory Reform: A New Foundation, a ''lax regulatory regime for OTC derivatives'' can be blamed for creating a situation in which ''regulators were unable to identify or mitigate the enormous systemic threat that had developed.''

The Obama administration has called for Congress to rectify this failure by giving regulators tools to provide transparency, limit excessive speculation, require margins, and require clearing and other systemic risk mitigation measures.

First in California, then in energy derivatives markets, and finally in financial swaps markets, we have learned the same three lessons.

First, unregulated and non-transparent markets do not perform the price discovery function effectively. They are more volatile than supply and demand can explain.

Second, transparency leads to informed buyers and sellers, improving market functionality and price discovery. Economics stands on a basic tenet: perfect markets require perfect information. The more transparent the market, the more likely it is functioning efficiently.

Third, totally unregulated markets are prone to increased risk taking and manipulative schemes that can bring about market failure, posing a risk to our financial system.

In each of the cases I have described, we in government have learned these lessons the hard way.

systemic or near-systemic collapse in each market reminded us that regulation plays an essential role in market functionality.

Scientists tell us that we need to reduce greenhouse gas emissions by approximately 80 percent by 2050, and economists believe that a cap and trade system with a greenhouse gas emissions allowance market would be the most cost-efficient way to guarantee specified levels of emissions reductions.

The economists also tell us that markets are most efficient when: buyers and sellers have complete information, no market participant can cheat another, and prices result from supply and demand, not manipulation.

That is why we need to prevent manipulation, fraud, and a lack of transparency.

Senator SNOWE and I introduce this legislation today so that we will not have to learn the lessons taught by recent unregulated over-the-counter derivatives markets one more time.

We propose to establish mature and effective regulation for this market before it booms, busts, and threatens our economic wellbeing.

Our legislation would establish a transparent carbon market governed by proven regulatory principles and practices to maintain stable prices that reflect supply and demand, including: transparency. We know that transparency can be provided by requiring reporting, record keeping, and publication of trading information.

Position Limits. We know that speculation can be limited by imposing comprehensive, aggregate position limits across multiple markets.

Monitoring. We know that fraud and manipulation can be prevented and identified by active, electronic monitoring of trading.

Clearing. We know that systemic risk can be mitigated by requiring margins and central counterparty clearing through a CFTC regulated clearing house.

Professional Standards. We know that trader and dealer abusive behavior can be controlled and punished if traders and dealers are governed by a code of conduct.

Bottom line: this legislation is vital to protecting the market integrity of greenhouse gas emissions markets, and it should be included as part of any cap and trade legislation approved by Congress.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1399

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Carbon Market Oversight Act of 2009''.

SEC. 2. REGULATION OF CARBON MARKETS.

(a) IN GENERAL.—The Commodity Exchange Act (7 U.S.C. 1 et seq.) is amended by adding at the end the following:

''TITLE II—REGULATION OF CARBON MARKETS

''SEC. 201. PURPOSES.

''The purposes of this title are—

''(1) to ensure that the greenhouse gas market established by this title—

''(A) is formed in a manner consistent with the public interest and

''(B) is formed in a manner consistent with the goal of reducing greenhouse gas emissions in the United States;

''(C) is designed to prevent fraud and manipulation, which could potentially arise from many sources, including—

''(i) the concentration of market power within the control of a limited number of individuals or entities;

''(ii) the abuse of material, nonpublic information; and

''(iii) the unique nature of the allowance markets in which supply is known and declining over time, but demand is unknown, which can create an inherent potential for scarcity;

''(D)(i) is appropriately transparent, with real-time reporting of quotes and trades;

''(ii) makes information on price, volume, and supply, and other important statistical information, available to the public on fair, reasonable, and nondiscriminatory terms;

''(iii) is subject to appropriate recordkeeping and reporting requirements regarding transactions; and

''(iv) has the confidence of investors;

''(E) functions smoothly and efficiently, generating prices that accurately reflect supply and demand for emission allowances;

''(F) promotes just and equitable principles of trade; and

''(G) establishes an equitable system for the best execution of customer orders;

''(2) to minimize transaction costs for regulated entities so that the cost of abatement is reduced for those entities and customers of those entities;

''(3) to establish a cost-effective capability for real-time monitoring of the market in order to avoid manipulation and market failure;

''(4) to minimize the volatility induced by the structure of the marketplace itself in the interest of providing an accurate price signal for regulated entities; and

''(5) to ensure that the markets will function in a stable and efficient manner to promote the environmental and economic objectives of the United States.

''SEC. 202. DEFINITIONS.

''In this title:

''(1) CARBON CLEARING ORGANIZATION.—The term 'Carbon Clearing Organization' means the entity established under section 206(a).

''(2) CARBON DIOXIDE EQUIVALENT.—The term 'carbon dioxide equivalent' means for each greenhouse gas, the quantity of the greenhouse gas that the Administrator of the Environmental Protection Agency determines makes the same contribution to global warming as 1 metric ton of carbon dioxide.

''(3) DEALER.—The term 'dealer' means an individual, association, partnership, corporation, or trust that—

''(A) is engaged in soliciting or in accepting orders for the purchase or sale of a regulated instrument on or subject to the rules of a registered carbon trading facility; and

''(B) in or in connection with the solicitation or acceptance of such an order, accepts money, securities, or property (or extends credit in lieu of such an acceptance) to margin, guarantee, or secure any trade or contract that results or may result from such an acceptance.

''(4) DIRECTOR.—The term 'Director' means the Director of the Office.

''(5) ELECTRONIC MARKET TRADER.—The term 'electronic market trader' means a person who executes a trade on an electronic trading facility.

''(6) ELECTRONIC TRADING FACILITY.—The term 'electronic trading facility' means a trading facility that—

''(A) operates by means of an electronic or telecommunications network; and

''(B) maintains an automated audit trail of bids, offers, and the matching of orders or the execution of transactions on the facility.

''(7) EMISSION ALLOWANCE.—The term 'emission allowance' means a Government-issued or Government-accredited authorization to emit 1 carbon dioxide equivalent of greenhouse gas.

''(8) GREENHOUSE GAS.—The term 'greenhouse gas' means any of—

''(A) carbon dioxide;

''(B) methane;

''(C) nitrous oxide;

''(D) sulfur hexafluoride;

''(E) a perfluorocarbon; or

''(F) a hydrofluorocarbon.

''(9) INTRODUCING BROKER.—

''(A) IN GENERAL.—The term 'introducing broker' means any person engaged in soliciting or in accepting orders for the purchase or sale of a regulated instrument on or subject to the rules of a registered carbon trading facility, who does not accept money, securities, or property (or extend credit in lieu of such an acceptance) to margin, guarantee, or secure any trade or contract that results or may result from such a solicitation or acceptance.

''(B) EXCLUSION.—The term 'introducing broker' does not include an individual who elects to be and is registered as an associated person of a dealer.

''(10) MEMBER.—The term 'member' means, with respect to a trading facility, an individual, association, partnership, corporation, or trust owning or holding membership in, admitted to membership representation on, or having trading privileges on the trading facility.

''(11) OFFICE.—The term 'Office' means the Office of Carbon Market Oversight established by section 203(a)(1).

''(12) PRIVATE BILATERAL CONTRACT.—The term 'private bilateral contract' means a nonstandard contract that lacks each of the following characteristics:

''(A) The applicable transaction or class of transactions settles against any price (including the daily or final settlement price) of 1 or more contracts listed for trading on a registered trading facility.

''(B) The price of the applicable transaction or class of transactions is reported to a third party, published, or otherwise disseminated.

''(C) The price of the applicable transaction or class of transactions is referenced in another transaction.

''(D) There is a significant volume of the applicable transaction or class of transactions.

''(E) The value of the applicable transaction is significant in comparison to the value of the underlying carbon derivative market.

''(F) The contract or applicable transactions meets other criteria that the Commission determines to be appropriate.

''(13) REGISTERED CARBON TRADER.—The term 'registered carbon trader' means a member, in good standing, of a registered carbon trading facility who has registered with the Commission under section 205(b).

''(14) REGISTERED CARBON TRADING FACILITY.—The term 'registered carbon trading facility' means a facility that meets standards established by the Commission under section 203(d)(1).

''(15) REGULATED ALLOWANCE.—The term 'regulated allowance' means—

''(A) an emission allowance; or

''(B) a Government-issued unit of reduction in the quantity of emissions, or an increase in sequestration, equal to 1 carbon dioxide equivalent.

''(16) REGULATED ALLOWANCE DERIVATIVE.—The term 'regulated allowance derivative' means an instrument that is or includes—

''(A) any instrument, contract, or other obligation (or guaranty or indemnity of such an obligation), the value of which, in whole or in part, is linked to the price of a regulated allowance or another regulated allowance derivative;

''(B) any contract for future delivery (including an option, a swap agreement, or a futures contract) of—

''(i) a regulated allowance; or

''(ii) any obligation described in subparagraph (A); or

''(C) any other contract—

''(i) the value of which is derived from the existence of a market for regulated allowances; and

''(ii) that the Commission has not determined to be a private bilateral contract.

''(17) REGULATED INSTRUMENT.—The term 'regulated instrument' means—

''(A) a regulated allowance; or

''(B) a regulated allowance derivative.

''(18) SHORT SALE.—The term 'short sale' means—

''(A) any sale of a regulated allowance that the seller does not own; and

''(B) any sale that is consummated by the delivery of a regulated allowance borrowed by, or for the account of, the seller.

''(19) TRADING FACILITY.—

''(A) IN GENERAL.—The term 'trading facility' means 1 or more individuals or entities that constitute, maintain, or provide a physical or electronic facility or system in which multiple participants have the ability to execute or trade agreements, contracts, or transactions involving a regulated instrument by accepting bids and offers made by other participants that are open to multiple participants in the facility or system.

''(B) INCLUSION.—The term 'trading facility' includes a telephone voice brokerage that executes multiple, largely offsetting, bilateral transactions.

''(20) UNITED STATES.—The term 'United States' includes the territories and possessions of the United States.

''SEC. 203. OFFICE OF CARBON MARKET OVERSIGHT; JURISDICTION.

''(a) ESTABLISHMENT OF OFFICE OF CARBON MARKET OVERSIGHT.—

''(1) IN GENERAL.—There is established within the Commission an Office of Carbon Market Oversight.

''(2) DIRECTOR.—

''(A) IN GENERAL.—The Office shall be headed by a Director for Carbon Market Oversight.

''(B) ADDITIONAL NATURE OF POSITION.—The position of Director for Carbon Market Oversight shall be in addition to the directors of other offices of the Commission.

''(C) APPOINTMENT; QUALIFICATIONS.—The Director shall be—

''(i) appointed by the Commission; and

''(ii) an individual who is, by reason of background and experience in the regulation of commodities, securities, or other financial markets, especially qualified to direct a program of oversight of the market in regulated instruments.

''(b) ADMINISTRATION OF THIS TITLE.—The Commission, acting through the Director, shall administer this title.

''(c) DUTY OF COMMISSION.—The Commission shall regulate all contracts of sale involving regulated instruments under the jurisdiction of the Commission.

''(d) REGULATIONS.—The Commission shall, not later than 1 year after the date of enactment of this title, promulgate regulations

governing the implementation of this title, and periodically thereafter, revise the regulations as necessary, including regulations that relate to—

''(1) specific initial and ongoing standards for qualification as a registered carbon trading facility;

''(2) position limits for individual market participants, adjusted as necessary based on market conditions;

''(3) margin requirements for the instruments traded by registered carbon trading facilities;

''(4) suitability standards for the solicitation by members of carbon instruments to retail investors;

''(5) a best execution standard for regulated allowance trading, such as the standard used in the national securities markets;

''(6) approval of—

''(A) specific protocols of the central limit order books of carbon trading facilities; and

''(B) the connection of those facilities to—

''(i) Carbon Clearing Organizations established under section 206; and

''(ii) the automated quotation system established under section 207;

''(7) the establishment of baseline initial and ongoing membership standards for registered carbon trading facilities;

''(8) subject to section 204(a)(4), specific standards for short sale transactions involving regulated instruments;

''(9) such other matters as are necessary for the carbon market to operate with the highest standards of fairness and efficiency; and

''(10) the establishment and operation of a carbon clearing organization.

''(e) MEMORANDUM OF UNDERSTANDING.—

''(1) IN GENERAL.—Not later than 180 days after the date of enactment of this title, the Commission shall enter into a memorandum of understanding with the Federal Energy Regulatory Commission, the Environmental Protection Agency, and any State or regional organization operating a market-based greenhouse gas emissions control program relating to information-sharing and coordination of oversight roles regarding—

''(A) trading facilities;

''(B) registered carbon traders;

''(C) carbon clearing organizations; and

''(D) derivative clearing organizations.

''(2) INCLUSIONS.—The memorandum of understanding shall include, at a minimum, provisions—

''(A) ensuring that information requests to markets within the respective jurisdictions of each agency are properly coordinated to minimize duplicative information requests; and

''(B) regarding the treatment of proprietary trading information.

''(f) COORDINATION FOR FOREIGN REGULATORS.—Not later than 180 days after the date of enactment of this title, the Commission shall, to the maximum extent practicable, enter into agreements with foreign regulatory bodies to ensure that foreign boards of trade do not offer for sale allowance derivatives beyond the jurisdiction of the Commission that would undermine the authority of the carbon market regulators in the United States or reduce the effectiveness of Commission oversight.

''(g) REGULATIONS.—The regulations issued to carry out this section shall take into account impacts on liquidity, flexibility, and robust participation in carbon markets, in order to maximize cost-effective and efficient reductions in carbon emissions.

''SEC. 204. REGULATION OF CARBON TRADING.

''(a) LIMITATION OF CERTAIN ACTIVITIES TO REGISTERED ENTITIES.—

''(1) CARBON ALLOWANCE TRADING FACILITY ACTIVITIES.—It shall be unlawful for a person to offer to enter into, execute, confirm the execution of, or conduct an office or a business for the purpose of soliciting, accepting an order for, or otherwise dealing in, an agreement, contract, or transaction involving a contract for the purchase or sale of a regulated allowance, unless—

''(A) the transaction is conducted through the carbon allowance trading facility established under section 205(a);

''(B) the contract for the purchase or sale is evidenced by a record in writing (or other form acceptable to the Commission) that includes—

''(i) the date;

''(ii) the names of the parties to the contract (including the addresses of those parties);

''(iii) a description of the property covered by the contract (including the price of the property);

''(iv) the terms of delivery; and

''(v) all other nonstandardized terms and conditions; and

''(C) the contract is cleared through the Carbon Clearing Organization.

''(2) CARBON DERIVATIVE TRADING FACILITY ACTIVITIES.—It shall be unlawful for a person to offer to enter into, execute, confirm the execution of, or conduct an office or a business for the purpose of soliciting, accepting an order for, or otherwise dealing in, an agreement, contract, or transaction involving a contract for the purchase or sale of a regulated allowance derivative, unless—

''(A) the Commission has determined that the contract is a private bilateral contract that has been reported to the Commission and included as part of the total market risk exposure of a participant; or

''(B)(i) the transaction is conducted through a trading facility designated as a registered carbon derivative trading facility under section 205(a);

''(ii) the contract for the purchase or sale is evidenced by a record in writing (or other form acceptable to the Commission) that includes—

''(I) the date;

''(II) the names of the parties to the contract (including the addresses of those parties);

''(III) a description of the property covered by the contract (including the price of the property);

''(IV) the terms of delivery; and

''(V) all other nonstandardized terms and conditions; and

''(iii) the contract is cleared through a derivatives clearing organization registered with the Commission pursuant to section 5b.

''(3) BROKER OR DEALER ACTIVITIES.—It shall be unlawful for a person to act in the capacity of an introducing broker, dealer, floor broker, electronic market trader, or floor trader in connection with the purchase or sale of a regulated instrument, unless—

''(A) the person is a registered carbon trader; and

''(B) the registration of the person is not suspended, revoked, or expired.

''(4) SHORT SALE TRANSACTIONS.—A short sale transaction involving a regulated instrument that occurs without the borrowing of a regulated allowance shall be unlawful unless the Commission determines that the transaction is in the best interest of regulated entities and the public.

''(b) PROHIBITION ON PRICE OR MARKET MANIPULATION, FRAUD, AND FALSE OR MISLEADING STATEMENTS OR REPORTS.—It shall be unlawful for a person, directly or indirectly—

''(1) to use or employ, or attempt to use or employ, in connection with a transaction involving the purchase or sale of a regulated instrument or private bilateral contract, in violation of such rules and regulations as the Commission may promulgate to protect the public interest or consumers, including—

''(A) any manipulative or deceptive device or contrivance (within the meaning of section 10(b) of the Securities Exchange Act of 1934 (15 U.S.C. 78j(b)));

''(B) any corner; or

''(C) any device or contrivance that cheats or defrauds any other person;

''(2) for the purpose of creating a false or misleading appearance of active trading in a regulated instrument or private bilateral contract, or a false or misleading appearance with respect to the market for such an instrument—

''(A) to effect any transaction in the instrument that involves no change in the beneficial ownership of the instrument;

''(B) to enter an order for the purchase of the instrument, with the knowledge that 1 or more orders of substantially the same size, at substantially the same time, and at substantially the same price, for the sale of any such instrument, has been or will be entered by or for the same or different parties; or

''(C) to enter an order for the sale of the instrument with the knowledge that 1 or more orders of substantially the same size, at substantially the same time, and at substantially the same price, for the purchase of the instrument, has been or will be entered by or for the same or different parties;

''(3) to deliver or cause to be delivered a knowingly false, misleading, or inaccurate report concerning information or conditions that affect or tend to affect the price of a regulated instrument;

''(4)(A) to make, or cause to be made, in an application, report, or document required to be filed under this title or any regulation promulgated under this title, a statement that is false or misleading with respect to a material fact; or

''(B) to omit any material fact that is required to be stated in such an application, report, or document, or that is necessary to make the statements in such an application, report, or document not misleading; or

''(5) to falsify, conceal, or cover up by any trick, scheme, or artifice a material fact, make any false, fictitious, or fraudulent statements or representations, or make or use any false writing or document that contains a false, fictitious, or fraudulent statement or entry, to an entity registered under this title acting in furtherance of the official duties of the entity under this title.

''(c) PREVENTION OF EXCESSIVE SPECULATION.—

''(1) IN GENERAL.—To prevent, decrease, or eliminate burdens associated with excessive speculation relating to regulated instruments (which may be more severe in markets in which supply is known and declining and demand is unknown), the Commission shall promulgate regulations establishing such position or transaction limitations, in the aggregate, as the Commission determines to be necessary to prevent potential upward bias in price with respect to any regulated instrument.

''(2) AGGREGATE POSITIONS.—In carrying out paragraph (1), the Commission shall, to the maximum extent practicable, aggregate carbon dioxide equivalent positions in natural gas, electricity, and regulated instruments.

''(3) INAPPLICABILITY TO BONA FIDE HEDGING TRANSACTIONS AND POSITIONS.—The limitations and requirements established under

paragraph (1) shall not apply to a position or transaction that is a bona fide hedging position or transaction, as defined by the Commission in accordance with the purposes of this title.

''(d) RECORDKEEPING; REPORTING; ACCESS TO BOOKS AND RECORDS.—

''(1) MEMBERS OF REGISTERED ENTITIES.—Each member of an entity registered under this title shall—

''(A) keep books and records, and make such reports as are required by the Commission, regarding the transactions and positions of the member, and the transactions and positions of the customer involved, in regulated instruments and private bilateral contracts, in such form and manner, and for such period, as may be required by the Commission; and

''(B) make the books and records available for inspection by any representative of the Commission or the Department of Justice.

''(2) REGISTERED ENTITIES.—Each entity registered under this title shall—

''(A) maintain daily trading records (including a time-stamped audit trail), that include such information, in such form, and for such period as the Commission may require by regulation;

''(B) before the beginning of trading each day, insofar as is practicable and under terms and conditions specified by the Commission, make public the volume of trading on each type of contract for the previous day and such other information as the Commission considers necessary in the public interest and prescribes by rule, order, or regulation; and

''(C) make such reports from the records, at such times and places, and in such form, as the Commission may require by regulation to protect the public interest and the interest of persons trading in regulated instruments.

''(e) FOREIGN TRANSACTIONS.—

''(1) IN GENERAL.—Any United States person or corporation shall be subject to this section for all contracts executed by the United States person or corporation, including contracts executed outside of the United States.

''(2) FOREIGN PERSONS AND CORPORATIONS.—A foreign person or corporation shall be subject to this section for all contracts executed by the foreign person or corporation within the United States.

''SEC. 205. ESTABLISHMENT AND REGISTRATION OF A CARBON TRADING FACILITIES; REGISTRATION OF TRADERS, BROKERS, AND DEALERS.

''(a) CARBON TRADING FACILITIES.—

''(1) ESTABLISHMENT OF A CARBON ALLOWANCE TRADING FACILITY.—The Commission may establish a carbon allowance trading facility in accordance with this section to process trades of regulated allowances.

''(2) REGISTRATION OF CARBON TRADING FACILITIES.—

''(A) IN GENERAL.—A trading facility may apply to the Commission for designation as a registered carbon allowance trading facility or a registered carbon allowance derivative trading facility by submitting to the Commission an application that contains such information and commitments as the Commission may require.

''(B) REVIEW.—A designation under this paragraph shall be reviewed by the Commission from time to time, but not less frequently than once every 3 years.

''(3) OPERATION OF THE CARBON TRADING FACILITIES.—

''(A) IN GENERAL.—To obtain or maintain designation and continue operating as a registered carbon allowance trading facility or a registered carbon allowance derivative trading facility under this title, a carbon allowance trading facility established by the Commission or registered with the Commission under this section shall comply with the requirements and principles described in this paragraph.

''(B) PREVENTION OF MARKET MANIPULATION.—The trading facility shall demonstrate capability to prevent market manipulation through market surveillance, compliance, and enforcement practices and procedures, including methods for conducting real-time monitoring of trading and comprehensive and accurate trade reconstructions.

''(C) ELECTRONIC MONITORING OF TRADING.—The trading facility shall demonstrate—

''(i) that the trading facility monitors trading on or through the facility to prevent manipulation, price distortion, and disruptions of the delivery or cash-settlement process; and

''(ii) in addition to traditional methods, a capability to monitor market activities electronically on a real-time basis and, if appropriate, by algorithm and other such means as are determined to be appropriate by the Commission.

''(D) FAIR AND EQUITABLE TRADING.—The trading facility shall establish and enforce rules to ensure—

''(i) fair and equitable trading through the trading facility;

''(ii) the capacity to detect, investigate, and discipline any person that violates the rules;

''(iii) the operation of any electronic matching platform;

''(iv) the terms and conditions of any contracts to be traded on or through the trading facility;

''(v) any limitations on access to the trading facility;

''(vi) the financial integrity of transactions and contracts entered into by or through the trading facility, including the clearance and settlement of the transactions;

''(vii) the financial integrity of brokers, dealers, and traders doing business on or through the trading facility;

''(viii) the protection of customer funds;

''(ix) that the trading facility is able to discipline, suspend, or expel members or market participants that violate the rules of the trading facility, or similar methods for performing the same functions, including delegation of the functions to third parties; and

''(x) that market participants are protected from abusive practices committed by any party acting as an agent for the participants.

''(E) AGGREGATE POSITION LIMITATIONS OR ACCOUNTABILITY.—The trading facility shall—

''(i) adopt and enforce aggregate position limitations or position accountability for speculators, as necessary and appropriate, to reduce the potential threat of market manipulation and excessive speculation in a marketplace in which supply is fixed by government policy and demand is set by market prices;

''(ii) facilitate netting of members' positions across all of the instruments through the trading facility, in order to minimize the cost of trading while ensuring adequate risk management; and

''(iii) monitor and enforce any limitations on leverage or position size that might be imposed by the Commission.

''(F) EMERGENCY AUTHORITY.—The trading facility shall adopt and enforce rules to provide for the exercise of emergency authority, in consultation or cooperation with the Commission, as necessary and appropriate, including the authority—

''(i) to liquidate or transfer open positions in any contract;

''(ii) to suspend or curtail trading in any regulated instrument; and

''(iii) in the case of a regulated derivative, to require market participants to meet special margin requirements.

''(G) AVAILABILITY OF GENERAL INFORMATION.—The trading facility shall make available to market authorities, market participants, and the public information concerning—

''(i) the terms, conditions, and specifications of the contracts traded on or through the trading facility;

''(ii) the mechanisms for executing transactions on or through the trading facility; and

''(iii) the rules and regulations of the trading facility

''(H) PUBLICATION OF TRADING INFORMATION.—

''(i) IN GENERAL.—The trading facility shall, in real time, to the maximum extent practicable, provide the public with information on bids, offers, settlement prices, volume, open interest, and opening and closing ranges for all regulated instruments traded on the trading facility.

''(ii) CENTRALIZED ENTITY.—The Commission may by regulation permit compliance with this subparagraph through the provision of pricing information described in clause (i) to a centralized entity that will simultaneously post that information to the public.

''(I) EXECUTION OF TRANSACTIONS.—The trading facility shall provide a competitive, open, and efficient market and mechanism for executing transactions on or through the trading facility.

''(J) SECURITY OF TRADE INFORMATION.—The trading facility shall maintain rules and procedures to provide for the recording and safe storage of all identifying trade information in a manner that enables the trading facility to use the information—

''(i) to assist the prevention of customer and market abuses; and

''(ii) provide evidence of violations of the rules of the trading facility.

''(K) DISPUTE RESOLUTION.—The trading facility shall establish and enforce rules regarding and provide facilities for alternative dispute resolution as appropriate for market participants and any market intermediaries.

''(L) GOVERNANCE FITNESS STANDARDS.—The trading facility shall establish and enforce appropriate fitness standards for directors, members of any disciplinary committee, members of the trading facility, and any other person with direct access to the trading facility (including any parties affiliated with any of the persons described in this subparagraph).

''(M) CONFLICTS OF INTEREST.—The trading facility shall—

''(i) establish and enforce rules to minimize conflicts of interest in the decision-making process of the trading facility; and

''(ii) establish a process for resolving any such conflict of interest.

''(N) COMPOSITION OF BOARDS OF MUTUALLY OWNED TRADING FACILITIES.—In the case of a mutually owned trading facility, the trading facility shall ensure that the composition of the governing board reflects market participants.

''(O) RECORDKEEPING.—The trading facility shall maintain records of all activities relating to the business of the trading facility in

a form and manner acceptable to the Commission for a period of at least 5 years.

''(P) ANTITRUST CONSIDERATIONS.—Unless necessary or appropriate to achieve the purposes of this title, the trading facility shall endeavor to avoid—

''(i) adopting any rules or taking any actions that result in any unreasonable restraint of trade; or

''(ii) imposing any material anticompetitive burden on trading on or through the trading facility.

''(Q) TRADING FEES.—The trading facility shall establish and enforce rules requiring the payment of fees for the purpose of funding Commission oversight, as established under section 208(h).

''(R) CENTRAL LIMIT ORDER BOOK.—The trading facility shall operate an electronic central limit order book as the trading mechanism for regulated derivatives and regulated allocations and share sufficient information, in a timely manner, with the automated quotation system to allow implementation of section 207.

''(S) NATIONAL MARKET SYSTEM.—The trading facility shall participate, along with the Commission, in the formation and operation of a national market system that allows for best execution in the trading of regulated instruments among registered carbon trading facilities.

''(T) SCREENING.—The trading facility shall establish and enforce rules to screen members based on capital, systems, and standards of compliance, and other such membership standards as the Commission determines to be appropriate.

''(U) USE OF CLEARING.—The trading facility shall facilitate the clearing of all trades of regulated allowances through the Carbon Clearing Organization and the clearing of all trades of regulated allowance derivatives through a Derivatives Clearing Organization registered with the Commission.

''(V) ENFORCEMENT.—The trading facility shall establish and enforce rules that allow the trading facility to obtain any necessary information to perform any of the functions described in this paragraph, including the capacity to carry out such international information-sharing agreements as the Commission may require.

''(b) BROKERS, DEALERS, TRADERS, AND THEIR ASSOCIATES.—The Commission shall promulgate regulations governing—

''(1) the eligibility of a person to act in the capacity of an introducing broker, a dealer, a floor broker, an electronic market trader, or a floor trader of regulated instruments in the United States;

''(2) the registration of introducing brokers, dealers, floor brokers, electronic market traders, and floor traders as registered carbon traders with the Commission;

''(3) the conduct of a person registered pursuant to regulations promulgated under paragraph (2), and of a partner, officer, employee, or agent of the registered person, in connection with transactions involving a regulated instrument; and

''(4) minimum standards for eligibility of a person to register as a registered carbon trader, including the requirements that an applicant for such a position—

''(A) has never had an applicable license or registration revoked in any governmental jurisdiction;

''(B) has never been convicted of, or pled guilty or nolo contendere to, a felony in a domestic, foreign, or military court;

''(C) has demonstrated such financial responsibility, character, and general fitness as to command the confidence of the community and to warrant a determination that the applicant will operate honestly, fairly, and efficiently within the purposes of this title;

''(D) has completed the preregistration education requirement described in paragraph (5); and

''(E) has passed a written test that meets the test requirement described in paragraph (6).

''(5) PREREGISTRATION EDUCATION OF A CARBON TRADER.—

''(A) MINIMUM EDUCATIONAL REQUIREMENTS.—In order to meet the preregistration education requirement referred to in paragraph (4)(D), a person shall complete at least 20 hours of education approved in accordance with subparagraph (B), which shall include at least—

''(i) 6 hours of instruction on applicable Federal law (including regulations);

''(ii) 10 hours of instruction in ethics, which shall include instruction on fraud, manipulation, excessive speculation, and consumer protection; and

''(iii) 2 hours of training relating to reporting requirements under this title.

''(B) APPROVED EDUCATIONAL COURSES.—

''(i) IN GENERAL.—For the purpose of subparagraph (A), preregistration educational courses shall be reviewed and approved by the Commission.

''(ii) PROHIBITION.—To maintain the independence of the approval process, the Commission shall not directly or indirectly offer preregistration educational courses for loan originators.

''(C) STANDARDS.—In approving courses under this paragraph, the Commission shall apply reasonable standards in the review and approval of courses.

''(6) TESTING OF A CARBON TRADER.—

''(A) IN GENERAL.—In order to meet the written test requirement referred to in paragraph (4)(E), an individual shall pass, in accordance with the standards established under this paragraph, a qualified written test developed by the Commission and administered by an approved test provider.

''(B) QUALIFIED TEST.—A written test shall not be treated as a qualified written test for purposes of subparagraph (A) unless—

''(i) the test consists of a minimum of 100 questions; and

''(ii) the test adequately measures the knowledge and comprehension of the individual taking the test in appropriate subject areas, including—

''(I) ethics;

''(II) Federal law (including regulations) pertaining to trading regulated instruments; and

''(III) Federal law (including regulations) on fraud, manipulation, excessive speculation, and reporting.

''(C) MINIMUM COMPETENCE.—

''(i) PASSING SCORE.—An individual shall not be considered to have passed a qualified written test under this paragraph unless the individual achieves a test score of not less than 75 percent correct answers to questions on the test.

''(ii) INITIAL RETESTS.—An individual may retake a test 3 consecutive times, with each consecutive taking occurring not later than 14 days after the preceding test.

''(iii) SUBSEQUENT RETESTS.—After 3 consecutive tests, an individual shall be required to wait at least 14 days before retaking the test.

''(iv) RETEST AFTER LAPSE OF REGISTRATION.—A registered carbon trader who fails to maintain a valid registration for a period of 5 years or longer shall retake the test.

''(7) BACKGROUND CHECKS.—An applicant for registration shall, at a minimum, provide to the Commission—

''(A) fingerprints for submission to the Federal Bureau of Investigation for a State and national criminal history background check;

''(B) a description of personal history and experience, including an independent credit report obtained from a consumer reporting agency described in section 603(p) of the Fair Credit Reporting Act (15 U.S.C. 1681a(p)); and

''(C) information relating to any administrative, civil, or criminal findings by any governmental jurisdiction.

''SEC. 206. CARBON CLEARING ORGANIZATION.

''(a) ESTABLISHMENT.—

''(1) IN GENERAL.—The Commission shall establish an entity to be known as the 'Carbon Clearing Organization' for the purpose of creating a common clearing platform for regulated allowances.

''(2) APPLICATION BY DERIVATIVES CLEARING ORGANIZATION.—A derivatives clearing organization registered with the Commission pursuant to section 5b may apply to the Commission for designation as the Carbon Clearing Organization by submitting to the Commission an application that contains such information and commitments as the Commission may require.

''(b) OPERATION.—

''(1) REQUIREMENTS.—

''(A) IN GENERAL.—The Carbon Clearing Organization shall comply with the requirements described in this paragraph.

''(B) FINANCIAL RESOURCES.—The Carbon Clearing Organization shall demonstrate adequate financial, operational, and managerial resources to discharge the responsibilities of a clearing organization.

''(C) PARTICIPANT AND PRODUCT ELIGIBILITY.—The Carbon Clearing Organization shall establish—

''(i) appropriate admission and continuing eligibility standards (including appropriate minimum financial requirements) for members of and participants in the Carbon Clearing Organization; and

''(ii) appropriate standards for determining eligibility of agreements, contracts, or transactions submitted to the Carbon Clearing Organization.

''(D) RISK MANAGEMENT.—The Carbon Clearing Organization shall manage the risks associated with discharging the responsibilities of a clearing organization through the use of appropriate tools and procedures.

''(E) SETTLEMENT PROCEDURES.—The Carbon Clearing Organization shall—

''(i) complete settlements on a timely basis under varying circumstances; and

''(ii) maintain an adequate record of the flow of funds associated with each transaction that the Carbon Clearing Organization clears.

''(F) TREATMENT OF FUNDS.—The Carbon Clearing Organization shall have standards and procedures designed to protect and ensure the safety of member and participant funds.

''(G) DEFAULT RULES AND PROCEDURES.—The Carbon Clearing Organization shall have rules and procedures designed to allow for efficient, fair, and safe management of events if members or participants become insolvent or otherwise default on obligations to the Carbon Clearing Organization.

''(H) RULE ENFORCEMENT.—The Carbon Clearing Organization shall—

''(i) maintain adequate arrangements and resources for the effective monitoring and enforcement of compliance with rules of Carbon Clearing Organization and for resolution of disputes; and

''(ii) have the authority and ability to discipline, limit, suspend, or terminate the activities of a member or participant for violations of rules of the Carbon Clearing Organization.

''(I) SYSTEM SAFEGUARDS.—The Carbon Clearing Organization shall—

''(i) establish and maintain a program of oversight and risk analysis to ensure that the automated systems of the Carbon Clearing Organization function properly and have adequate capacity and security; and

''(ii) establish and maintain emergency procedures and a plan for disaster recovery, and will periodically test backup facilities sufficient to ensure daily processing, clearing, and settlement of transactions.

''(J) PUBLIC INFORMATION.—The Carbon Clearing Organization shall make information concerning the rules and operating procedures governing the clearing and settlement systems (including default procedures) available to market participants.

''(K) INFORMATION-SHARING.—The Carbon Clearing Organization shall—

''(i) enter into and abide by the terms of all appropriate and applicable domestic and international information-sharing agreements; and

''(ii) use relevant information obtained from the agreements in carrying out the risk management program of the Carbon Clearing Organization.

''SEC. 207. AUTOMATED QUOTATION SYSTEMS.

''(a) IN GENERAL.—The Commission shall facilitate the widespread dissemination of reliable and accurate last-sale and quotation information with respect to regulated instruments, short sales, and private bilateral contracts the value of which, in whole or in part, is linked to the price of a regulated instrument by establishing an automated quotation system that will collect and disseminate information regarding all regulated instruments.

''(b) CHARACTERISTICS OF SYSTEM.—The automated quotation system shall—

''(1) collect and disseminate quotation and transaction information;

''(2) provide bid and ask quotations of participating brokers or dealers; and

''(3) provide for the reporting of information on bids, offers, settlement prices, volume, open interest, and opening and closing ranges for all regulated instrument transactions, including last-sale reporting.

''(c) ELECTRONIC LINKAGE.—The carbon allowance trading facility and all registered carbon derivative trading facilities shall be linked electronically with the automated quotation system.

''(d) MISSING.—All registered carbon trading facilities shall share sufficient information with the automated quotation system to allow the implementation of this section.

''SEC. 208. ADMINISTRATIVE ENFORCEMENT.

''(a) INVESTIGATIONS.—The Commission may conduct such investigations as the Commission determines to be necessary to carry out this title, in accordance with this Act.

''(b) REVIEW OF ADVERSE ACTION BY REGISTERED CARBON TRADING FACILITY.—

''(1) IN GENERAL.—

''(A) DISCIPLINARY ACTIONS.—The Commission may, in accordance with such standards and procedures as the Commission determines to be appropriate, review a decision by a registered carbon trading facility—

''(i) to suspend, expel, or otherwise discipline a member of the trading facility; or

''(ii) to deny access to the trading facility.

''(B) OTHER ACTIONS.—On application of any person who is adversely affected by any decision by a registered carbon trading facility described in subparagraph (A), the Commission may—

''(i) review the decision; and

''(ii) issue such order with respect to the decision as the Commission determines to be appropriate to protect the public interest.

''(2) SCOPE OF AUTHORITY.—The Commission may affirm, modify, set aside, or remand a trading facility decision reviewed under paragraph (1), after a determination on the record as to whether the decision was made in accordance with the rules of the trading facility.

''(c) COMPLAINTS.—The Commission shall enforce this title in accordance with this Act.

''(d) AUTHORITY TO SUSPEND OR REVOKE REGISTERED CARBON TRADING FACILITY DESIGNATION.—The Commission may suspend for a period of not more than 180 days, or revoke, the designation of a trading facility as a registered carbon trading facility if, after notice and opportunity for a hearing on the record, the Commission finds that—

''(1) the trading facility or the entity, as the case may be, has not complied with a requirement of subsection (a)(3) or (c) of section 205, as the case may be; or

''(2) a director, officer, employee, or agent of the trading facility or entity, as the case may be, has violated this title or a regulation or order promulgated or issued under this title.

''(e) INJUNCTIVE RELIEF.—If the Commission finds that a person has violated this title or a regulation or order promulgated or issued under this title, the Commission may seek injunctive relief in accordance with this Act.

''(f) TRADING SUSPENSIONS; EMERGENCY AUTHORITY.—

''(1) DEFINITION OF EMERGENCY.—In this subsection, the term 'emergency' means—

''(A) a major market disturbance characterized by or constituting—

''(i) sudden and excessive fluctuations of prices of regulated instruments generally (or a substantial threat of such sudden and excessive fluctuations) that threaten fair and orderly markets; or

''(ii) a substantial disruption of the safe or efficient operation of the national system for clearance and settlement of transactions in regulated instruments (or a substantial threat of such a disruption); or

''(B) a major disturbance that substantially disrupts, or threatens to substantially disrupt—

''(i) the functioning of markets in regulated instruments, or any significant portion or segment of the markets; or

''(ii) the transmission or processing of transactions in regulated instruments.

''(2) TRADING SUSPENSIONS.—

''(A) IN GENERAL.—Subject to subparagraph (B), if the Commission determines that the public interest so requires, the Commission may, by order, summarily suspend all trading of regulated instruments on any trading facility or otherwise, for a period not exceeding 90 calendar days.

''(B) NOTIFICATION OF DECISION.—An order issued by the Commission under subparagraph (A) shall not take effect unless—

''(i) the Commission notifies the President of the decision of the Commission; and

''(ii) the President notifies the Commission that the President does not disapprove of the decision.

''(3) EMERGENCY ORDERS.—

''(A) IN GENERAL.—The Commission, in an emergency, may by order summarily take such action to alter, supplement, suspend, or impose requirements or restrictions with respect to any matter or action subject to regulation by the Commission or an entity registered under this title, as the Commission determines is necessary in the public interest—

''(i) to maintain or restore fair and orderly markets in regulated instruments; or

''(ii) to ensure prompt, accurate, and safe clearance and settlement of transactions in regulated instruments.

''(B) EFFECTIVE PERIOD.—An order of the Commission under this paragraph—

''(i) shall continue in effect for the period specified by the Commission;

''(ii) may be extended in accordance with subparagraph (C); and

''(iii) except as provided in subparagraph (C), may not continue in effect for more than 10 business days, including extensions.

''(C) EXTENSION.—An order of the Commission under this paragraph may be extended to continue in effect for more than 10 business days, but in no event may continue in effect for more than 30 calendar days, if, at the time of the extension, the Commission determines that—

''(i) the emergency situation still exists; and

''(ii) the continuation of the order beyond 10 business days is necessary in the public interest and for the protection of investors to attain an objective described in clause (i) or (ii) of subparagraph (A).

''(D) EXEMPTION.—In exercising the authority provided by this paragraph, the Commission shall not be required to comply with section 553 of title 5, United States Code.

''(4) TERMINATION OF EMERGENCY ACTIONS BY PRESIDENT.—The President may direct that action taken by the Commission under paragraph (3) shall not continue in effect.

''(5) COMPLIANCE WITH ORDERS.—A member of a trading facility, introducing broker, dealer, floor broker, or floor trader shall not effect any transaction in, or induce the purchase or sale of, any regulated instrument in contravention of an order of the Commission under this subsection, unless the order—

''(A) has been stayed, modified, or set aside as provided in paragraph (6); or

''(B) has ceased to be effective on direction of the President as provided in paragraph (4).

''(6) LIMITATIONS ON REVIEW OF ORDERS.—

''(A) IN GENERAL.—An order of the Commission pursuant to this subsection shall be subject to review by the United States Court of Appeals for the District of Columbia Circuit.

''(B) BASIS.—A review of an order under subparagraph (A) shall be based on an examination of all the information before the Commission at the time the order was issued.

''(C) STANDARD FOR FINDINGS.—The reviewing court shall not enter a stay, writ of mandamus, or similar relief unless the court finds, after notice and hearing before a panel of the court, that the action of the Commission is arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law.

''(g) OTHER AUTHORITY TO ISSUE ORDERS.—The Commission may issue such other orders as are necessary to ensure compliance with this title (including regulations promulgated under this title).

''(h) TRADING FEES TO SUPPORT COMMISSION ACTIVITIES.—

''(1) IN GENERAL.—To support oversight by the Commission of markets under this title, each registered trading facility shall charge a trading fee, per transaction, to be established by the Commission at a level not to exceed ½ of 1 percent of the value of the contract being executed.

''(2) REMITTANCE OF FEES.—Each registered trading facility shall submit fees charged under this subsection to the Commission on such schedule as the Commission shall designate.

"SEC. 209. CIVIL JUDICIAL ENFORCEMENT.

''(a) IN GENERAL.—If it appears to the Commission that a person has engaged, is engaging, or is about to engage in any act or practice constituting a violation of this title (including a regulation promulgated or order issued under this title), the Commission may bring a civil action in the appropriate United States district court or United States court of any territory or other place subject to the jurisdiction of the United States—

''(1) to enjoin the act or practice; or

''(2) to enforce compliance with this title (or a regulation or order promulgated or issued under this title).

''(b) FORMS OF RELIEF.—

''(1) INJUNCTIVE RELIEF; RESTRAINING ORDER.—On a proper showing, a court described in subsection (a) shall grant a permanent or temporary injunction or issue a restraining order, without bond.

''(2) CIVIL MONEY PENALTY.—

''(A) IN GENERAL.—The Commission may seek and the court, on a proper showing, shall have jurisdiction to impose on any person found in the civil action brought under this section to have committed a violation, a civil penalty in an amount that is not more than the greater of—

''(i) $100,000; or

''(ii) triple the monetary gain to the person for the violation.

''(B) ENFORCEMENT OF PENALTY BY THE ATTORNEY GENERAL.—If a person on whom such a penalty is imposed fails to pay the penalty within the time prescribed in the order of the court, the Commission may refer the matter to the Attorney General, who shall recover the penalty by action in the appropriate United States district court.

"SEC. 210. CRIMINAL ENFORCEMENT.

''(a) VIOLATIONS GENERALLY.—A person that knowingly violates section 204 (or any regulation promulgated under section 204), or willfully violates any other provision of this title (or a regulation promulgated under this title) the violation of which is made unlawful or the observance of which is required by or under this title, shall—

''(1) be fined not more than $1,000,000 (or not more than $500,000, if the violator is an individual), imprisoned not more than 5 years, or both; and

''(2) shall pay the costs of prosecution.

''(b) FAILURE TO COMPLY WITH CEASE AND DESIST ORDER.—

''(1) IN GENERAL.—If, after the period allowed for appeal of an order issued under section 206(e) or after the affirmance of such an order, a person subject to the order fails or refuses to comply with the order, the person shall be—

''(A) fined not more than the greater of $100,000 or triple the monetary gain to the person, imprisoned not less than 180 days nor more than 1 year, or both; or

''(B) if the failure or refusal to comply involves a violation referred to in subsection (a), subject to the penalties provided in that subsection for the violation.

''(2) SPECIAL RULE.—Each day during which a failure or refusal to comply with such an order continues shall be considered to be a separate offense for purposes of paragraph (1).

"SEC. 211. MARKET REPORTS.

''(a) COLLECTION AND ANALYSIS OF INFORMATION.—The Commission shall, on a continuous basis, collect and analyze the following information on the functioning of the markets for regulated instruments established under this title:

''(1) The status of, and trends in, the markets, including prices, trading volumes, transaction types, and trading channels and mechanisms.

''(2) Spikes, collapses, and volatility in prices of regulated instruments, and the causes of the spikes, collapses, and volatility.

''(3) The relationship between the market for emission allowances, offset credits, and allowance derivatives, and the spot and futures markets for energy commodities, including electricity.

''(4) Evidence of fraud or manipulation in any such market, the effects on any such market of any such fraud or manipulation (or threat of fraud or manipulation) that the Commission has identified, and the effectiveness of corrective measures undertaken by the Commission to address the fraud or manipulation, or threat.

''(5) The economic effects of the markets, including to the macro- and micro-economic effects of unexpected significant increases and decreases in the price of regulated instruments.

''(6) Any changes in the roles, activities, or strategies of various market participants.

''(7) Regional, industrial, and consumer responses to the market, and energy investment responses to the markets.

''(8) Any other issue relating to the markets that the Commission determines to be appropriate.

''(b) QUARTERLY REPORTS TO CONGRESS.—Not later than 30 days after the end of each calendar quarter, the Commission shall submit to the President, the Committee on Energy and Commerce of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committee on Environment and Public Works of the Senate, and make available to the public, a report on the matters described in subsection (a) with respect to the quarter, including recommendations for any administrative or statutory measures the Commission considers necessary to address any threats to the transparency, fairness, or integrity of the markets in regulated instruments.

"SEC. 212. AUTHORIZATION OF APPROPRIATIONS.

''In addition to any fees collected by the Commission under this Act, there are authorized to be appropriated such sums as are necessary to carry out this title.''.

(b) CONFORMING AMENDMENT.—The Commodity Exchange Act (7 U.S.C. 1 et seq.) is amended by inserting after section 1a (7 U.S.C. 1a) the following:

"TITLE I—REGULATION OF COMMODITY EXCHANGES".

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 207—RECOGNIZING THE 100TH ANNIVERSARY OF THE INDIANAPOLIS MOTOR SPEEDWAY

Mr. BAYH (for himself and Mr. LUGAR) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 207

Whereas the Indianapolis Motor Speedway is the largest spectator sporting facility in the world, with more than 250,000 permanent seats;

Whereas founders Carl G. Fisher, Arthur C. Newby, Frank H. Wheeler, and James A. Allison pooled their resources in 1909 to build the Indianapolis Motor Speedway 5 miles from downtown Indianapolis as a testing ground to support the growing automotive industry of Indiana;

Whereas, on August 14, 1909, the first motorized races, using motorcycles, took place on the recently completed 2.5-mile oval, which had a racing surface composed of crushed stone and tar;

Whereas, on August 19, 1909, the first 4-wheeled automobile races at the Indianapolis Motor Speedway took place;

Whereas, for 63 days in late 1909, 3,200,000 paving bricks, each weighing 9.5 pounds, were laid on top of the crushed stone and tar surface to upgrade the Indianapolis Motor Speedway, leading the facility to be nicknamed ''The Brickyard'';

Whereas a 3-foot horizontal strip of that original brick remains exposed at the start and finish line, known as the ''Yard of Bricks'';

Whereas, on May 30, 1911, the first Indianapolis 500-mile race (in this preamble referred to as the ''Indianapolis 500'') took place and was won by Ray Harroun at an average speed of 74.602 miles per hour;

Whereas the Indianapolis Motor Speedway was a pioneer in introducing seating areas specifically for people with disabilities;

Whereas the race car of Ray Harroun, the Marmon ''Wasp'', was the first automobile to use a rearview mirror, one of many innovations in automotive technology and safety devised or developed at the Indianapolis Motor Speedway, including in 1911 the first use of a Pace Car, in 1921 the first use of 4-wheel hydraulic brakes, in 1935 the first installation of color warning lights, in 1935 the first mandatory use of helmets, in 1993 the first use of crash-data recorders, and in 2002 the steel and foam energy reduction (SAFER) barrier, an energy-absorbing barrier affixed to concrete walls that has become the standard at all major oval tracks in the United States;

Whereas the Indianapolis 500, the largest single-day spectator sporting event in the world, has occurred on every Memorial Day weekend since 1911, except during the involvement of the United States in world wars from 1917 through 1918 and 1942 through 1945;

Whereas, in 1977, Janet Guthrie became the first woman to compete in the Indianapolis 500, making the competition the first and only major sport in which men and women compete, according to the same rules, against one another;

Whereas, in 1991, Willy T. Ribbs became the first of several African-American drivers to compete in the Indianapolis 500;

Whereas, in 2005, Danica Patrick became the first female driver to lead the Indianapolis 500 when she took the lead near the 140-mile mark;

Whereas, in 2009, Helio Castroneves became a 3-time winner of the Indianapolis 500 and Danica Patrick finished in third place, the best finish ever by a woman in the sport;

Whereas the Indianapolis Motor Speedway, by hosting the IndyCar Series, the NASCAR Sprint Cup Series, the MotoGP Series, and the Formula One Series, is the only facility in the world that has played host to 4 elite racing series;

Whereas nearly every international motorsport icon has competed and won at the Indianapolis Motor Speedway, including A.J. Foyt, Al Unser, Rick Mears, Dale Earnhardt, Mario Andretti, Graham Hill,

Jeff Gordon, Tony Stewart, Jimmie Johnson, Michael Schumacher, Lewis Hamilton, and Valentino Rossi;

Whereas every May since 1981 the Indianapolis Motor Speedway has served as the backdrop for the annual Armed Forces Induction Ceremony, in which citizens of Indiana who have volunteered to serve in the Armed Forces are administered the oath of enlistment;

Whereas, in 1987, the Indianapolis Motor Speedway was officially listed on the National Park Service list of National Historic Landmarks as the oldest continuously operated automobile racecourse; and

Whereas, the Indianapolis Motor Speedway has played an enormous part in shaping and defining the City of Indianapolis, the State of Indiana, United States motorsports, and the United States automobile industry, and is a great source of pride to all citizens of Indiana: Now, therefore, be it

Resolved, That the United States Senate recognizes the 100th anniversary of the Indianapolis Motor Speedway.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1369. Mr. COBURN submitted an amendment intended to be proposed to amendment SA 1365 proposed by Mr. NELSON of Nebraska (for himself and Ms. MURKOWSKI) to the bill H.R. 2918, making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes.

SA 1370. Mr. DEMINT submitted an amendment intended to be proposed to amendment SA 1365 proposed by Mr. NELSON of Nebraska (for himself and Ms. MURKOWSKI) to the bill H.R. 2918, supra.

TEXT OF AMENDMENTS

SA 1369. Mr. COBURN submitted an amendment intended to be proposed to amendment SA 1365 proposed by Mr. NELSON of Nebraska (for himself and Ms. MURKOWSKI) to the bill H.R. 2918, making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. _____. REPORTING REQUIREMENT.

Section 105(a) of the Legislative Branch Appropriations Act 1965 (Public Law 88-454; 2 U.S.C. 104a) is amended—

(1) in the last sentence of paragraph (1), by striking ''shall'' and inserting ''may''; and

(2) by adding at the end the following:

''(6) Beginning with the report covering the first full semiannual period of the 112th Congress, the Secretary of the Senate—

''(1) shall publicly post on-line on the website of the Senate each report in a searchable itemized format as required under this section;

''(2) shall issue each report required under this section in electronic form; and

''(3) may issue each report required under this section in other forms at the discretion of the Secretary of the Senate.''.

SA 1370. Mr. DEMINT submitted an amendment intended to be proposed to amendment SA 1365 proposed by Mr. NELSON of Nebraska (for himself and Ms. MURKOWSKI) to the bill H.R. 2918, making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. _____. ENGRAVING OF THE PLEDGE OF ALLEGIANCE TO THE FLAG AND THE NATIONAL MOTTO IN THE CAPITOL VISITOR CENTER.

(a) ENGRAVING REQUIRED.—The Architect of the Capitol shall engrave the Pledge of Allegiance to the Flag and the National Motto of ''In God We Trust'' in the Capitol Visitor Center, in accordance with the engraving plan described in subsection (b).

(b) ENGRAVING PLAN.—The engraving plan described in this subsection is a plan setting forth the design and location of the engraving required under subsection (a) which is prepared by the Architect of the Capitol and approved by the Committee on Rules and Administration of the Senate and the Committee on House Administration of the House of Representatives.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. MERKLEY. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar Nos. 197 and 258; that the nominations be confirmed en bloc; the motions to reconsider be laid upon the table en bloc; that no further motions be in order and any statements relating thereto be printed in the RECORD; the President be immediately notified of the Senate's action and the Senate then resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

ENVIRONMENTAL PROTECTION AGENCY

Stephen Alan Owens, of Arizona, to be Assistant Administrator for Toxic Substances of the Environmental Protection Agency.

DEPARTMENT OF DEFENSE

Daniel Ginsberg, of the District of Columbia, to be an Assistant Secretary of the Air Force.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will now return to legislative session.

MEASURE READ FIRST TIME—H.R. 2454

Mr. MERKLEY. Mr. President, I understand that H.R. 2454 has been received from the House and is at the desk.

The PRESIDING OFFICER. The Senator is correct.

Mr. MERKLEY. I ask for its first reading.

The PRESIDING OFFICER. The clerk will state the bill by title.

The legislative clerk read as follows:

A bill (H.R. 2454) to create clean energy jobs, achieve energy independence, reduce global warming pollution and transition to a clean energy economy.

Mr. MERKLEY. Mr. President, I ask for its second reading and object to my own request.

The PRESIDING OFFICER. Objection is heard.

The bill will be read for the second time on the next legislative day.

ORDERS FOR TUESDAY, JULY 7, 2009

Mr. MERKLEY. Mr. President, I ask unanimous consent that when the Senate completes it business today, it adjourn until 10 a.m. tomorrow, July 7; that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed to have expired, the time for the two leaders be reserved for their use later in the day, and there be a period of morning business for 1 hour, with the time equally divided and controlled between the two leaders or their designees, with the majority controlling the first half and the Republicans controlling the final half, with Senators permitted to speak therein for up to 10 minutes each; that following morning business, as previously ordered, the Senate proceed to H.R. 2892, the Homeland Security appropriations bill; finally, I ask that the Senate recess from 12:30 until 2:15 p.m. to allow for the weekly caucus luncheons.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. MERKLEY. Mr. President, tomorrow, we will begin consideration of the Homeland Security appropriations bill. Rollcall votes are expected to occur throughout the day. As stated earlier today, at approximately 12:15 tomorrow, Senator-elect Al Franken will be sworn in to be U.S. Senator from the State of Minnesota.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. MERKLEY. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate adjourn under the previous order.

There being no objection, the Senate, at 7:12 p.m. adjourned until Tuesday, July 7, 2009, at a 10 a.m.

NOMINATIONS

Executive nominations received by the Senate:

DEPARTMENT OF DEFENSE

JOHN M. MCHUGH, OF NEW YORK, TO BE SECRETARY OF THE ARMY, VICE PRESTON M. GEREN.

DEPARTMENT OF DEFENSE

DANIEL GINSBERG, OF THE DISTRICT OF COLUMBIA, TO BE AN ASSISTANT SECRETARY OF THE AIR FORCE.

THE ABOVE NOMINATIONS WERE APPROVED SUBJECT TO THE NOMINEES' COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

WITHDRAWAL

Executive Message transmitted by the President to the Senate on July 6, 2009 withdrawing from further Senate consideration the following nomination:

PHILIP MUDD, OF VIRGINIA, TO BE UNDER SECRETARY FOR INTELLIGENCE AND ANALYSIS, DEPARTMENT OF HOMELAND SECURITY. (NEW POSITION), WHICH WAS SENT TO THE SENATE ON MAY 4, 2009.

EXTENSIONS OF REMARKS

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, July 7, 2009 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

JULY 8

9 a.m.
Foreign Relations
To hold hearings to examine the nominations of Carlos Pascual, of the District of Columbia, to be Ambassador to Mexico, Arturo A. Valenzuela, of the District of Columbia, to be Assistant Secretary for Western Hemisphere Affairs, Kenneth H. Merten, of Virginia, to be Ambassador to the Republic of Haiti, and Thomas Alfred Shannon, Jr., of Virginia, to be Ambassador to the Federative Republic of Brazil, all of the Department of State.
SD–419

10 a.m.
Appropriations
Energy and Water Development Subcommittee
Business meeting to markup proposed budget estimates for fiscal year 2010 for Energy and Water Development.
SD–124

Finance
To hold hearings to examine how climate change legislation relates to international trade considerations.
SD–215

Homeland Security and Governmental Affairs
To hold hearings to examine reform in the Federal Protective Service.
SD–342

Environment and Public Works
Water and Wildlife Subcommittee
To hold hearings to examine threats to native wildlife species.
SD–406

1:30 p.m.
Appropriations
Financial Services and General Government Subcommittee
Business meeting to markup proposed budget estimates for fiscal year 2010 for Financial Services and General Government.
SD–192

2 p.m.
Commerce, Science, and Transportation

SR–418

10 a.m.
Energy and Natural Resources
To hold hearings to examine S. 796, to modify the requirements applicable to locatable minerals on public domain land.
SD–366

JULY 15

2:30 p.m.
Commerce, Science, and Transportation
To hold hearings to examine the nominations of Mignon L. Clyburn, of South Carolina, and Meredith Attwell Baker, of Virginia, both to be a Member of the Federal Communications Commission.
SR–253

JULY 16

2:30 p.m.
Homeland Security and Governmental Affairs
Contracting Oversight Subcommittee
To hold hearings to examine contracting for Alaska native corporations.
SD–342

JULY 22

10 a.m.
Veterans' Affairs
To hold hearings to examine the nominations of Raymond M. Jefferson, of Hawaii, to be Assistant Secretary of Labor for Veterans' Employment and Training, and Joan M. Evans, of Oregon, to be an Assistant Secretary of Veterans Affairs for Congressional and Legislative Affairs.
SR–418

JULY 29

9:30 a.m.
Veterans' Affairs
To hold hearings to examine veteran's disability compensation.
SR–418

SENATE—*Tuesday, July 7, 2009*

The Senate met at 10 a.m. and was called to order by the Honorable ROLAND W. BURRIS, a Senator from the State of Illinois.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal God, before You nations rise and fall; they grow strong or wither by Your design. Help our Nation to embrace righteousness and to strive for unity and renewal.

Lord, hasten the coming of Your kingdom, where pain, tears, and death will be no more. May America's example of right living prompt the world's nations to gather in the light of Your presence. Teach all nations the way of peace so we may plow up battlefields and pound weapons into liberation tools. Teach us to talk across boundaries as brothers and sisters, united by Your love. Today, help our Senators and all who labor with them to work with a renewed sense of their accountability to You.

We pray in Your sovereign Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable ROLAND W. BURRIS led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, July 7, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable ROLAND W. BURRIS, a Senator from the State of Illinois, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. BURRIS thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Following the remarks of the two leaders, the Senate will proceed to a period of morning business for 1 hour, with Senators permitted to speak for up to 10 minutes each, with the majority controlling the first half and the Republicans controlling the second half. Following morning business, the Senate will begin consideration of H.R. 2892, the Homeland Security Appropriations Act.

Around 12:15 today, Senator-elect AL FRANKEN will be sworn in to be U.S. Senator from the State of Minnesota. At 12:30, the Senate will recess to allow for the weekly caucus luncheons. Senators should expect rollcall votes throughout the day as we consider the Homeland Security Appropriations bill.

Prior to leaving that subject, I hope Senators will be ready to offer amendments. We have a rule XVI, but this is a wide jurisdiction bill. There should be lots of opportunity for people to offer amendments. I hope they would consider doing their amendments as soon as possible. We are not going to spend day after day on this bill. We need to move appropriations bills as quickly as we can. I want people to have the opportunity to offer amendments. We will be happy to look at time agreements if that is appropriate. Without any preconditions, let's move to this bill and get it done as quickly as possible.

MEASURE PLACED ON THE CALENDAR—H.R. 2454

Mr. REID. Mr. President, H.R. 2454 is at the desk. It is my understanding it is due for a second reading.

The ACTING PRESIDENT pro tempore. The clerk will read the bill for the second time.

The legislative clerk read as follows:

A bill (H.R. 2454) to create clean energy jobs, achieve energy independence, reduce global warming pollution and transition to a clean energy economy.

Mr. REID. Mr. President, I object at this time to any further proceedings on this legislation.

The ACTING PRESIDENT pro tempore. Objection is heard. The bill will be placed on the Calendar pursuant to rule XIV.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. MCCONNELL. I thank the Chair.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

HEALTH CARE WEEK V, DAY II

Mr. MCCONNELL. Mr. President, the American people want health care reform. There is no question about that. But they have serious concerns about some of the proposals coming out of Washington, concerns that I have outlined on the Senate floor over the past few weeks. And Americans are also increasingly concerned about the way these proposals are being sold. Specifically, they are concerned that the same mistakes that were made on the economic stimulus bill are about to be made again—only this time, those mistakes would be all but permanent and would directly affect every single American family.

Here is what they are concerned about:

Earlier this year, advocates of the stimulus said that the bill had to pass right away, with minimal scrutiny and minimal bipartisan support. They gave the American people less than 24 hours to review one of the costliest pieces of legislation in history, and then they hoped for a good result. The reason for the rush is clear. Proponents of the stimulus were concerned that public support would start to fade if people got a closer look at the details. So they short-changed the debate and overpromised on results. And now their predictions are coming back to bite them.

Here is what they said at the time.

They said that if the stimulus passed, unemployment wouldn't rise above 8 percent. Unemployment is now approaching 10 percent. They said the stimulus was necessary to jumpstart the economy. Yet now, with about a half million jobs lost every month, they have started to admit that they simply ''misread'' the economy.

These were costly mistakes, and we can't take them back.

But we can prevent these same kinds of mistakes on health care. If the stimulus taught us anything it is that Americans should be skeptical any time someone in Washington rushes them into a major purchase with taxpayer dollars. We would walk away from any car salesman who tried to

rush us into buying a car—even if it was a cheap one.

We should be just as skeptical of a lawmaker who tries to do the same thing with our tax dollars and trillions in borrowed money. And now that Americans are hearing the same kinds of arguments about health care that we heard about the stimulus, the taxpayer antenna should begin to go up.

Now it is time for advocates of a government-run health plan to actually take the time to determine what reforms will actually save us money and increase access to care while preserving the things people like about our system.

Taking time may be frustrating to those who want to rush a health care bill through Congress before their constituents have a chance to see what they are buying. But the fact that the public is increasingly concerned about government-run health care isn't reason to rush. It is reason to take the time we need to get it right—and to make a serious effort to get members of both parties to work out reforms that a bipartisan majority can agree to, several of which I have enumerated many times already on the Senate floor.

We should reform our medical liability laws to discourage junk lawsuits and bring down the cost of care; we should encourage wellness and prevention programs that have been successful in cutting costs; we should encourage competition in the private insurance market; and we should address the needs of small businesses without creating new taxes that kill jobs.

Advocates of government health care should also be exceedingly cautious about the predictions they make this time around. We already know that many of the promises that are being made about a government-run health plan are unrealistic—such as the claim that everyone who likes the insurance they have will be able to keep it and that the cost of such health care proposals won't add to the national debt.

As Democrats rushed the stimulus funds out the door, they also predicted it wouldn't be wasted. Yet every day we hear about another outrageous project that it is being used to fund. I have listed some of these projects in previous floor remarks, such as a $3.4 million turtle tunnel in Florida. Americans struggling to hold onto their homes and their jobs want to know why their tax dollars are being spent on such wasteful and needless projects.

Americans were overpromised on the stimulus. This time they want the facts.

Soon, the Government Accountability Office will issue a report that gives us an even greater sense of the problems with the stimulus. I am concerned that this report provide an even clearer accounting of the mistakes that were made with that bill—and the flawed manner in which it was sold to the American people.

Americans who are now waking up to headlines about the problems with the stimulus don't want to be told a few months from now that the people who sold them a government-run health care system misread the state of our health care industry, or that the health care plan they are proposing was based on faulty assumptions.

Americans don't want to wake up a few years from now with their families enrolled in a government-run health care system because some here in Washington decided to rush and spend a trillion dollars and let the chips fall where they may.

The American people don't want us to rush through a misguided plan that pushes them off of their health insurance and onto a government plan that denies, delays, and rations care. On the stimulus, Americans saw what happens when Democrats rush and spend. When it comes to health care, they are demanding we take the time to get it right.

SOTOMAYOR NOMINATION

Mr. MCCONNELL. Mr. President, last week, the Supreme Court decided the case of Ricci v. DeStefano in which it ruled that the city of New Haven, CT, unlawfully discriminated against a number of mostly White firefighters by throwing out a standardized employment promotion test because some minority firefighters had not performed as well as they had.

In this case, the Supreme Court was correct in my view. The government should not be allowed to discriminate intentionally on the basis of race on the grounds that a race-neutral, standardized test—which is administered in a racially neutral fashion—results in some races not performing as well as others.

Yet regardless of where one comes out on this question, there are at least two aspects of how all nine Justices handled this very important case that stand in stark contrast to how Judge Sotomayor and her panel on the Second Circuit handled it—and which call into question Judge Sotomayor's judgment.

First, this case involves complex questions of Federal employment law; namely, the tension between the law's protection from intentional discrimination—known as ''disparate treatment'' discrimination—and the law's protection from less overt forms of discrimination, known as ''disparate impact'' discrimination.

It also involves important constitutional questions—such as whether the government, consistent with the 14th amendment's guarantee of equal protection under the law, may intentionally discriminate against some of its citizens in the name of avoiding possible discriminatory results against other of its citizens.

Every court involved in this case realized that it involved complex questions that warranted thorough treatment—every court, that is, except for Judge Sotomayor's panel. The district court, which first took up the case, spent 48 pages wrestling with these issues. The Supreme Court devoted 93 pages to analyzing them. By contrast, Judge Sotomayor's panel dismissed the firefighters' claims in just 6 sentences—a treatment that her colleague and fellow Clinton appointee, Jose Cabranes, called ''remarkable,'' ''perfunctory,'' and not worthy ''of the weighty issues presented by'' the firefighters' appeal.

It would be one thing if the Ricci case presented simple issues that were answered simply by applying clear precedent. But the Supreme Court doesn't take simple cases. And at any rate, no one buys that this case was squarely governed by precedent, not even Judge Sotomayor.

We know this because in perfunctorily dismissing the firefighters' claims, Judge Sotomayor did not even cite a precedent.

Moreover, she herself joined an en banc opinion of the Second Circuit that said the issues in the case were ''difficult.'' So, to quote the National Journal's Stuart Taylor, the way Judge Sotomayor handled the important legal issues involved in this case was ''peculiar'' to say the least. And it makes one wonder why her treatment of these weighty issues differed so markedly from the way every other court has treated them and whether her legal judgment was unduly affected by her personal or political beliefs.

Second, all nine Justices on the Supreme Court said that Judge Sotomayor got the law wrong. She ruled that the government can intentionally discriminate against one group on the basis of race if it dislikes the outcome of a race-neutral exam and claims that another group may sue it. Or, as Judge Cabranes put it, under her approach, employers can ''reject the results of an employment examination whenever those results failed to yield a desired racial outcome, i.e., failed to satisfy a racial quota.''

No one on the Supreme Court, not even the dissenters, thought that was a correct reading of the law.

Justice Kennedy's majority opinion said that before it can intentionally discriminate on the basis of race in an employment matter, the government must have a ''strong basis in evidence'' that it could lose a lawsuit by a disgruntled party claiming a discriminatory effect of an employment decision. And even Justice Ginsburg and the dissenters said that before it intentionally discriminates, the government must have at least ''good cause'' to believe that it could lose a lawsuit by the disgruntled party.

Not Judge Sotomayor. She evidently believes that statistics alone allow the government to intentionally discriminate against one group in favor of another if it claims to fear a lawsuit.

Stuart Taylor notes why this is problematic. As he put it, the Sotomayor approach would, ''risk converting'' Federal antidiscrimination ''law into an engine of overt discrimination against high-scoring groups across the country and allow racial politics and racial quotas to masquerade as voluntary compliance with the law.'' Under such a regime, Taylor notes, ''no employer could ever safely proceed with promotions based on any test on which minorities fared badly.''

It is one thing to get the law wrong, but Judge Sotomayor got the law really wrong in the Ricci case, and the New Haven firefighters suffered for it. To add insult to injury, the perfunctory way in which she treated their case indicates either that she did not really care about their claims, or that she let her own experiences planning and overseeing these types of lawsuits with the Puerto Rican Legal Defense and Education Fund affect her judgment in this case.

As has been reported, before she was on the bench, Judge Sotomayor was in leadership positions with PRLDEF for over a decade. While there, she monitored the group's lawsuits and was described as an ''ardent supporter'' of its litigation projects, one of the most important of which was a plan to sue cities based on their use of civil service exams. In fact, she has been credited with helping develop the group's policy of challenging these types of standardized tests.

Is the way Judge Sotomayor treated the firefighters' claims in the Ricci case what President Obama means when he says he wants judges who can ''empathize'' with certain groups? Is this why Judge Sotomayor herself said she doubted that judges can be impartial, ''even in most cases''? It is a troubling philosophy for any judge, let alone one nominated to our highest court, to convert ''empathy'' into favoritism for particular groups.

The Ricci decision is the tenth of Judge Sotomayor's cases that the Supreme Court has reviewed. And it is the ninth time out of ten that the Supreme Court has disagreed with her. In fact, she is 0 for 3 during the Supreme Court's last term.

The President says that only 5 percent of cases that Federal judges decide really matter. I do not know if he is right. But I do know that, by necessity, the Supreme Court only takes a small number of cases, and it only takes cases that matter. And I know that in the Supreme Court, Judge Sotomayor's been wrong 90 percent of the time.

In the Ricci case, her third and final reversal of this term, Judge Sotomayor was so wrong in interpreting the law that all nine justices, of all ideological stripes, disagreed with her. As we consider her nomination to the Supreme Court, my colleagues should ask themselves this important question: is she allowing her personal or political agenda to cloud her judgment and favor one group of individuals over another, irrespective of what the law says?

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period of morning business for 1 hour, with the time equally divided and controlled between the two leaders or their designees, with the majority controlling the first half and the Republicans controlling the final half, with Senators permitted to speak for up to 10 minutes each.

The ACTING PRESIDENT pro tempore. The Senator from Illinois.

SOTOMAYOR NOMINATION

Mr. DURBIN. Mr. President, Republican Senate leader Senator MCCONNELL has just completed his leadership statement. I would like to respond to two or three of his points.

I am not surprised that he opposes Sonya Sotomayor, the President's nominee to the Supreme Court. He has stated that earlier, that he does not believe she should take this important position. I disagree. Sonya Sotomayor comes to us having first been nominated for a Federal judgeship under Republican President George H.W. Bush and then was nominated for a promotion to the circuit level, the next higher bench, by President Clinton. So she has enjoyed bipartisan support in her judicial career. In fact, she brings more experience on the bench to the Supreme Court if she wins the nomination, if it is approved by the Senate, than any nominee in modern memory. So there is no question she was qualified both under a Republican President and a Democratic President. Now she brings that accumulated experience in this effort to be part of the Supreme Court.

I have met her. She has met personally with over 80 Senators and talked to them, answering every question they had about her background, her approach to the law. She is an outstanding candidate.

Her life story is one that is inspiring to all. She was raised in public housing in the Bronx, NY. There has been some mention of the fact that she was a volunteer attorney for the Puerto Rican Legal Defense Fund. It is a fact that she is of Puerto Rican national descent. When she was 9 years old, her father passed away. Her mother, a very strong-willed and energetic person, raised her and her brother. Her brother is a medical doctor. She is an accomplished attorney. She went to Princeton University and graduated with one of the highest academic honors and then went on to Yale Law School, where she also was acknowledged as being one of the most outstanding law students in her class.

This is a person who comes to this job with a resume that, as a lawyer myself, I look at with a great deal of envy. She is an extraordinarily gifted person. There could be questions raised about any judge's ruling on any case. But the fact is, I believe she has a record that is unparalleled in terms of judicial experience. So I hope those who listened to Senator MCCONNELL's remarks will also reflect on the fact that Judge Sotomayor is an extraordinarily talented and gifted person. If Senator MCCONNELL is going to oppose her nomination—it sounds as if he will—I hope some on his side of the aisle will join us in a bipartisan effort to make her part of the U.S. Supreme Court.

THE ECONOMY FIT

Mr. DURBIN. Senator MCCONNELL was also critical of President Obama, the President's attempt to deal with the economy he inherited from the previous President. The economy was in the worst shape we have seen it since the Great Depression when President Obama was sworn into office. It was not, as he said, his choice to face that kind of an issue or challenge, but it was the reality of what he faced. He did the right thing. He said: I am not going to stand idly by and observe this economy continue to decline, with more and more people facing unemployment, businesses failing, and people losing their savings. I am going to step up and try to create jobs, save and create jobs here in America so that we do not see more people in the unemployment lines.

I supported that. Luckily, three Republican Senators at the time joined us; otherwise, we could not have passed it. So we had a bipartisan vote supporting President Obama's recovery and reinvestment package. Senator MCCONNELL, the Republican leader, opposed it. He came to the floor today to say that we wasted our money on this stimulus package and that we should be very skeptical of these things. The fact is, the Republicans in the Senate had nothing to offer as an alternative. Their alternative was to stand idly by and watch the economy continue to descend, continue to deteriorate, and maybe with a little prayer and hope that it would turn around. That is not good enough.

President Obama said: Let's first, in this stimulus package, take at least 40 percent of all of the funds I am asking for and give it back to Americans in tax breaks for working families. Families need a helping hand, the President said. I voted for that. I think that was sensible. The President made that decision. Senator MCCONNELL thinks that is wasteful, to give tax breaks to working families—at least he said it was wasted. I do not believe it is wasteful. It is a good thing to do to try to revitalize the country.

The President said: Let's invest in what will pay off for a long time to come. Let's put money into infrastructure, let's build that which will serve our economy and serve America, and let's create good-paying jobs to do it. I thought that was sensible.

The President said: Let's look to the next generation of needs in America. Let's make sure we are investing in energy projects which will pay back in years to come and lessen our dependence on foreign energy sources—another good investment from where I am sitting.

He also said: Give a helping hand to those unemployed, a little extra money for them each month to get by. It was not a lot, but for many families it made a difference.

He also said: Give the unemployed a helping hand so they can keep their health insurance. If you lose a job, you lose your health insurance. Think about that if you are trying to raise a family. The President said: Let's try to reduce the premiums unemployed people will pay.

Now Senator MCCONNELL comes to the floor and said this was a waste of time and a waste of money for us to make that kind of investment in America. I believe the President did the right thing. I would commend to Senator MCCONNELL, the Republican leader, the latest Pew Poll, which shows that when Americans were asked if America's economy is on the right track or wrong track, they have come in with the highest number—53 percent on the right track, 39 percent on the wrong track—we have seen in months. There is a feeling that we still have a long way to go. There are still too many people unemployed, too many businesses failing. But at least we are on the right track toward recovery. It may take some time. Nobody predicted this would be fast or easy. But the President showed leadership, inheriting a bad economy and showing leadership to deal with it.

HEALTH CARE

Mr. DURBIN. The major thrust of the remarks of the Senate Republican leader, day after day, has been in opposition to health care reform. I will tell you that I think the Republican leader is out of step with America. America understands we need to do something about our health care system. We are spending twice as much per person for health care in America as any nation on Earth—twice as much—and the medical outcomes, unfortunately, do not reflect that kind of major investment. In other words, we are wasting money in our current health care system.

That has to change. So what we need to do is preserve those things in our health care system today that are good and fix the things that are broken, and that is what the President has challenged us to do. This is not something new. This challenge has been waiting for 15 years since former President Clinton tackled it and, unfortunately, could not pass it. We have seen our health care costs in America continue to skyrocket and our costs for health insurance following in track. Now we have to do something about it.

Time and again, the Senator from Kentucky comes to the floor and says: We are rushing into this. I would just say to him that in the year 2008 the Senate Finance Committee, under Chairman MAX BAUCUS, held 10 hearings on health reform and a day-long bipartisan summit with the Finance Committee's ranking member, Republican CHUCK GRASSLEY. This year, the Finance Committee has held two reform-related hearings, three roundtabless, three walk-throughs with policy options, and a number of closed-door sessions to discuss all of the issues on a bipartisan basis. The HELP Committee, which is another committee of the Senate also considering health care reform, has held 14 bipartisan roundtabless, 13 committee hearings, and 20 walk-throughs. Democrats are not rushing this through. We have taken this up in an orderly way, trying to analyze one of the most significant challenges ever facing Congress.

Time and again, Senator MCCONNELL has also come to the floor and argued that Americans should be afraid of change, be afraid, be very afraid. He argued before be afraid of closing Guantanamo; now he is saying be afraid of health care reform. This is not a fearful nation. We are a nation which accepts challenges and does our best to try to find solutions. We are a good and caring nation of people who want to make certain that, at end of the day, we reduce the cost of health care for everyone, bringing it more in line with efficiency and effective medical care, and we also pick up the 50 million Americans who have no health insurance and give them protection, bring them under the umbrella of protection. We should not be afraid of that challenge. Why would we be afraid? We know if we don't tackle it, it will continue to cost us more and more money.

One of the things the Senator from Kentucky says repeatedly, which is just plain wrong, is that under the proposals coming before the Senate, the government can take away health insurance people have today. I am sorry the Senator is not on the floor. I am sure some Members of his staff will alert him to the fact. I would like to read from the language from the HELP Committee bill which is presently being considered. This language makes it abundantly clear,—in fact, says directly—that we can keep our health care plans, that they would not be taken away. That is something most Americans want to have the benefit of. Let me read from the HELP Committee bill that will be considered by the Senate:

> Nothing in this Act or an amendment made to this Act shall be construed to require that an individual terminate coverage under a group health plan or health insurance coverage in which such individual was enrolled prior to the date of enactment of this title.

That is what it says. If one likes their health insurance today, nothing we do in health care reform will take that way from them. It is expressly stated. Time and again, Senator MCCONNELL comes to the floor and says the opposite: Government is going to take away your health insurance. The clear language of the bill says: No, that is not our intention. That is not what we are going to do.

I am also concerned when I listen to the Senator from Kentucky talk about government-run health care. He says it in negative terms, as if the government's involvement in health insurance and medical care is inherently wrong or misguided or ineffective. Here are the realities: 45 million Americans out of 300 million currently are covered by Medicare. Does the Senator from Kentucky want to eliminate Medicare, a government-run health care plan? I am waiting for him to say that. He has never said it. Another 60 million Americans are under Medicaid, which provides health insurance for the poorest among us and those who are disabled. So 105 million Americans today have either Medicare or Medicaid. That is a third of America being covered by government-run health care. That is a reality. Most Americans understand there are very positive things to be said for those plans. Would we do without Medicare; would we abolish it? I certainly wouldn't be part of that. In over 40 years, Medicare has brought peace of mind, dignity, and great medical care to millions of seniors across America. I wouldn't want to see that go away. I think it is a program that has served us well.

A question was asked recently by CNN: In general, would you favor or oppose a program that would increase the Federal Government's influence over the country's health care system in an attempt to lower costs and provide health care coverage to more Americans? The numbers that came back on

May 15, by CNN: 69 percent of the American people favor that statement, favor more government involvement in health care to reduce cost and expand coverage. Only 29 percent oppose. The position argued by the Republican leader does not reflect America's feelings about health care.

If Senator MCCONNELL feels the current health care system is fine and we should not work to change it, he does not, I am afraid, reflect the feelings of most Americans. We can do better. We need to do better on a bipartisan basis. We need cooperation on the Republican side of the aisle in a bipartisan effort to find real solutions, compromise that would not compromise the values of our American health care system but give people a health care program that would not be taken away from them by some health insurance company bureaucrat, something the family can afford, something small businesses can afford.

We can do it. We should not be afraid. America has tackled bigger challenges in the past.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Delaware.

HONORING JOHN GRANVILLE

Mr. KAUFMAN. Mr. President, I rise once again to speak about the vital role our Federal employees play in keeping America safe, prosperous, and free.

Just days ago, on the Fourth of July, we celebrated the 233rd anniversary of our independence. For 233 years, ordinary Americans have chosen to give their energy, their time, and their talents in service to our government. Many have given their lives.

All Federal employees, as I have said previously, are bound together by a shared sense of duty and willingness to sacrifice.

When the Founders added their signatures to the Declaration of Independence, they did so with faith in their fellow Americans—that the 56 names inked on that parchment were joined in spirit by millions of others in their own day and for generations to come.

They knew that building a nation requires more than a handful of men.

It entails the active participation of citizens from all walks of life.

This is why, a decade later, when the Framers assembled in Philadelphia to draft our Constitution, they did so with an expectation that regular citizens would be the form and substance of our government.

Indeed, they knew firsthand the value of service above self. This virtue would lead countless Americans who had fought for freedom to become the first generation of Federal employees.

The Founders and Framers had good cause to predict such participation among citizens beyond their appointed role as electors and jurors. The classical history and writings that influenced them are filled with praise for the values of duty and sacrifice that inspire public service.

Many educated Americans in 1776 were familiar with the story of Horatius the Roman.

When the armies of a tyrant approached the walls of Rome, the citizens of its infant republic were called to arms.

Horatius ran across the last bridge spanning the Tiber River where he alone held off the enemy as his compatriots destroyed the bridge behind him. With this personal act of courage, he prevented the capture of Rome.

Horatius was not a professional soldier. He was neither an elected leader nor a man of high birth.

But he defended with pride that title of honor greater than any other—citizen. He gave his life so that others could remain free.

His act is an example of the kind of sacrifices that ordinary citizens are willing to make when they know freedom is in jeopardy.

Americans looked to classical figures like Horatius in 1776, when their own liberty was uncertain.

It is this common willingness to risk safety and personal gain that sets apart a commonwealth of citizens from a nation of subjects.

It is these same qualities that make our Federal employees so worthy of praise.

On the Fourth of July, I thought about ordinary Americans who choose to serve their country in often perilous situations. Many of them risk harm while defending the liberty and values that infuse our citizenship with meaning.

As I have said before, our Federal employees exemplify the American value of service above self.

Throughout our history, Federal employees have traveled to dangerous corners of the globe, in order to represent the American people abroad, promote peaceful international cooperation, and provide aid to those in need.

John Granville was one of those who felt called to serve his country, even if it meant traveling to places where his own safety was uncertain.

A native of Orchard Park, NY, near Buffalo, John studied at Fordham and Clark Universities before joining the Peace Corps. His service in the Corps took him to Cameroon, in West Africa, from 1997 to 1999.

While there, he applied for and received a Fulbright fellowship to continue living in that country and conduct research on its society and development.

John, committed to serving his country and helping others, then joined the Foreign Service.

He worked for the U.S. Agency for International Development—or USAID—in Kenya before heading to Sudan in 2005.

It was a dangerous assignment. That year, the Sudanese Government signed a cease-fire to end a long civil war in that country's south. John's assignment was to distribute 75,000 radios to rural villagers.

These radios could be powered by the Sun or by handcrank.

With democratic elections approaching, these radios would give the local Sudanese access to uncensored international news broadcasts.

As a former member of the Broadcasting Board of Governors, I can attest to the importance of providing access to free and uncensored news. It is a vital part of developing democratic culture and press freedom. It also promotes hope and understanding, which help deter the spread of extremist views.

John worked with a dedicated team of USAID officials to distribute these radios and other aid to rural south Sudanese. One of his coworkers later said that John was ''the glue'' that held their group together and that he kept up their spirits throughout the mission.

On New Year's Day, 2008, John was gunned down by four militants who targeted his car for its diplomatic plates. He was only 33 years old.

His loved ones back home remembered him as an ''unselfish humanitarian,'' a ''consummate professional,'' and someone who ''worked with energy and imagination.'' John was an active member of the St. John Vianney Church community, and he was a mentor who inspired others to follow in his footsteps by helping those in need.

John Granville believed in the importance of service as part of citizenship.

He crossed the ocean and stood on the other side, like the Roman Horatius at the far end of the bridge, carrying out the people's work and risking his own safety in service to his Nation.

He had told his mother on several occasions that despite the danger of his work, he would not want to be doing anything else.

There are thousands of Foreign Service officers, USAID workers, and journalists and employees with the Broadcasting Board of Governors all over the globe.

These dedicated men and women leave behind family, friends, and communities. Their careers often take them through dangerous parts of the world, where the threat from crime, disease, war, and terrorism is very real.

All too frequently their sacrifices and achievements go unrecognized. On occasion, they make the ultimate sacrifice.

Because we just celebrated the Fourth of July, let me return for a moment to the founding generation.

Those first Americans who sacrificed for liberty established more than our

Republic. They left us with a democratic legacy that reminds us everyday of our rights and our duties as equal citizens.

The descendents of those revolutionaries, when they designed and ornamented this magnificent Capitol, enshrined a powerful message. The paintings in the Capitol Rotunda, just steps from here, narrate the story of how America achieved its greatness.

They tell not of the force of arms or the achievements of a powerful few. Rather, taken as a whole, these eight paintings celebrate the evolution of American citizenship.

The turning point in this narrative is highlighted by Trumbull's iconic portrayal of the drafting of the Declaration of Independence.

But the last painting in the cycle is the most poignant and recalls the climactic movement in the development of our citizenship.

Washington, at his height of popularity, willingly yields his power and authority back to the people by resigning his commission.

With his sacrifice in that moment, the American people were truly free, and those who laid out this cycle of paintings did so to acclaim this birth of American citizenship.

They remind us that our citizenship is a pact between equals, that no American should ever rule arbitrarily over another.

It is this notion of citizenship that governs the relationship between the American people and our Federal employees.

As a commonwealth of citizens, we entrust our fellow Americans who work in the Federal Government to perform that noble task so yearned for by the 56 men who wrote and signed the Declaration.

They secure our unalienable rights by constituting a government deriving its ''just powers from the consent of the governed.''

Their hard work and their sacrifices protect our lives, preserve our liberty, and enable all Americans to pursue happiness.

I call on my colleagues to join me in honoring and recognizing the immeasurable sacrifice made by John Granville and all civilian Federal employees who gave their lives in service to our Nation.

Their names will forever be inscribed on the eternal Declaration that continually secures our freedom.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MCCAIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. MCCAIN. Mr. President, I ask unanimous consent that the time of the majority be preserved.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

HEALTH CARE

Mr. MCCAIN. Mr. President, in the last few years, I have traveled all over this country talking to people about health care. After listening to countless Americans—including in two townhall meetings last week—I proposed in the past health care reforms that would have ensured health care coverage was more affordable, accessible, portable, and suitable for all American families.

Health reforms need to be consistent with our American values of freedom, choice, and limited government. The key to these reforms is to put our citizens in charge of their own health coverage. Rather than being stuck in a job because the job provides health care, or worse, losing health insurance if the economy causes you to lose your job, we need to change our system and allow Americans to obtain coverage options with a tax credit for policies not limited by State boundaries or government dictates.

Just this past week, I had the great good fortune to visit two of the finest health care institutions in this country. First, I spent time with hundreds of patients, doctors, nurses, and health care leaders at the world-renowned MD Anderson Cancer Center in Houston, TX. I heard from patients who had come to this center of excellence from 90 countries and States, including Arizona. Why do patients come to the United States of America from all over the world? It is because the highest quality health care is in the United States of America. And I repeat, the fundamentals of this discussion and debate sometimes go astray from the fact that the highest quality health care in the world is available in the United States of America. The key to it and our challenge is to make that health care available and affordable to all Americans. The path we are on will destroy the quality of that coverage and will, in fact, make health care the same as it is in other countries. The reason they leave there is to get high-quality health care in the United States of America. It is the best—our system—because innovation and technology are allowed to flourish.

Later in the week, in my home State of Arizona, I visited one of the premier children's hospitals in the country. Phoenix Children's Hospital is a destination medical facility for children all around the Southwest and in the country. At Phoenix Children's Hospital, I also met with patients, physicians, nurses, medical executives, and average Arizonans. During this visit, not one health care provider in Phoenix told me they wanted more government control over health care. In fact, they told me the opposite. PCH has experience with Medicaid, and time after time I was told of the problems providers face every day with the government Medicaid Program. The program is a vital safety net for the low income, but we have to recognize the important lessons we have already learned about government running health care programs.

During these events, I was repeatedly told that we need reform. They also told me about the problems they face in the government-controlled Medicare and Medicaid Programs, both with massive unfunded liabilities. They want a stable system that keeps costs under control, gets everyone covered, pays fairly, encourages innovation, and maintains America's standing as providing the best health care in the world. But none of them told me we need more government control of health care or government-controlled health insurance.

I have listened to Americans. But I am worried they are not being heard here in Congress by those who control the agenda in the White House and the Senate. If President Obama and the Democratic leaders were listening, we would not have a bill before us that costs too much, taxes too much, covers too few, and puts government in control at every turn.

This country has fought for over 200 years for the fundamental values that I fear are being eroded by the other side's appetite for one-size-fits-all government control of one of our most cherished economic gems.

First, this administration takes over the banking industry. Then they take over the auto industry. Along the way, they tell us $787 billion in more and bigger government, along with $1.8 trillion of debt this year alone, is the answer to our ailing economy. Now they are telling the American people they were not aware of the economic situation and, guess what, they are going to want another stimulus package. I think that idea would be soundly rejected by the American people. And now they are telling the American people that we must rush to pass a new government health care plan that we cannot pay for, will increase taxes, and kill jobs. We are talking about one-sixth of the gross national product of America. And it is pretty obvious the other side wants to jam this through in the next 4 weeks. We should not do that. They still have not come up with ways to pay for this grandiose takeover of the American health care system.

Americans are losing health care coverage every day. And it gets back to the issue of affordability, not quality.

But the Democrats cannot produce legislation that responsibly makes coverage available to all Americans without trillions of dollars in new spending.

This weekend, after a 4-week delay, we finally received new provisions in their new government-run health care plans. Here is what we know about the legislation before us:

The Congressional Budget Office says the preliminary cost estimate for the new language they reviewed was nearly $900 billion in new spending. The other side says this is a cost reduction from an earlier version of the bill. Do not be fooled by the smoke and mirrors. After an inexplicable 4-year phase-in that delays several provisions in the Democratic bill in an effort to hide costs through accounting techniques, the bill will actually spend $1.5 trillion when it is fully implemented. And that is not counting the hundreds of billions of dollars in new Medicaid spending promised by that legislation.

CBO also tells us the HELP Committee bill still leaves over 30 million Americans without coverage. Mr. President, for all the spending being proposed, don't you think we should be covering more than 40 percent of the uninsured? When the final numbers come in, don't be surprised if the cost of this ''rush'' proposal is at or above $2 trillion. What is worse, the sponsors cannot tell us how we will pay for such a massive price tag.

My colleagues and I plan to continue talking to the American public. I suggest the other side in the Senate talk to all Americans about what they need rather than making these decisions for them.

Again, Mr. President, we cannot risk running through a legislative proposal in the next 4 to 5 weeks and be sure that we are not making serious and fundamental mistakes. And the serious and fundamental mistake is the approach to this legislation, which is, the quality of health care in America can and must be preserved; it is the cost that needs to be brought under control. We can bring those costs under control by innovative techniques, by competition, by allowing Americans to go all across America to get the health insurance of their choice—the same way we have been able to reduce costs in other sectors of our economy, as technology has improved the quality of our lives.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I am glad I was here to listen to the thoughtful comments of the Senator from Arizona. His leadership on the HELP Committee in trying to help make certain we help Americans have access to health care they can afford and that we do that in a way that leaves them with a government they can afford and with choices so they do not have government in between themselves and their doctors has been very important. I thank him for his leadership.

TAXPAYER STOCK OWNERSHIP

Mr. ALEXANDER. Mr. President, the Senator talked about spending and debt. During my week in Tennessee last week, if I heard about anything, it was about too much debt. People are genuinely worried about the amount of new debt and spending in Washington. But if I heard anything else last week, it was about too many Washington takeovers. Senator MCCAIN mentioned some of them. He mentioned banking. He talked about, perhaps, student loans. He mentioned the health care industry. And he mentioned the automobile industry, which is what I would like to talk about for a few minutes this morning.

Yesterday was good news for General Motors. The judge in the bankruptcy case apparently approved a plan that by the end of the week should free General Motors from bankruptcy, and we could have a new GM, for which I wish great success because General Motors has made great contributions to our State of Tennessee over the last 25 years. Its Saturn plant has helped to attract hundreds of suppliers and has produced a good car, although they never made any money for one reason or another. But they made a great contribution to our State. So the good news is General Motors is going to get out of bankruptcy. The bad news is that the U.S. Government still owns 61 percent of General Motors, as well as about 8 percent of Chrysler. And it was paid for with real dollars.

Mr. President, $50 billion or so in taxpayer dollars went to buy 61 percent of General Motors. Well, I have a solution which I would like to discuss, offered by the Senator from Utah, Mr. BENNETT; the Senator from Arizona, Mr. KYL; the Senator from Kentucky, Mr. MCCONNELL, other Senators, and myself. Our legislation would direct the Department of the Treasury, within 1 year after General Motors comes out of bankruptcy, to distribute all of the government stock in General Motors and in Chrysler to the 120 million Americans who pay taxes on April 15—in other words, a stock dividend. We want to give the stock to the people who paid for it. The idea is pretty simple: I paid for it, I ought to own it. Not only would that stop the incestuous political meddling that seems to go on here in Washington with General Motors—Washington cannot seem to keep its hands off the car company—it would also create an investor fan base of 120 million Americans who might be interested in the success of General Motors or be a little more interested than they are today.

Think of the Green Bay Packers. The fans own the team, and the fans are even a little bit more interested in who the quarterback might be than they might otherwise be. Well, if 120 million Americans owned a little bit of General Motors, the New GM, they might be a little more interested in the next Chevy and it might help General Motors succeed.

I can suggest one thing that will make sure the company does not succeed, and that is to keep the ownership of General Motors in Washington, DC, with meddling politics interfering with the executives and the workers who are designing and building and selling cars—or who, I might say, ought to be designing, building, and selling cars.

Madam President, about how much time do I have remaining?

The PRESIDING OFFICER (Mrs. GILLIBRAND). The Senator has 6 minutes.

Mr. ALEXANDER. Thank you, Madam President.

When I first suggested that what we ought to do is just give the stock to taxpayers, I think some of my colleagues thought I might be being facetious. But this is a very normal corporate event. It is called a stock distribution or a corporate spinoff. In 1969, Procter & Gamble did a spinoff with Clorox, its subsidiary. Procter & Gamble decided its Clorox subsidiary was not a part of the core business of Procter & Gamble anymore, so it simply gave shares of Clorox to people who owned the major company, Procter & Gamble. Time Warner did it with Time Warner Cable in March of 2009. PepsiCo did it with its restaurant business in 1997 by spinning off KFC, Pizza Hut, and Taco Bell.

If you stop and think about it, it is the simplest way to solve the problem. The President has said he does not want to micromanage General Motors and that he plans to sell it. But the President himself has already fired the president of General Motors, put in the board, and called the mayor of Detroit and said he believes the headquarters ought to be in Detroit instead of Warren, MI. Next, you have the chairman of the House Financial Services Committee calling up General Motors saying: Don't close a warehouse in my district. Senators from Tennessee and Michigan and other States are saying: Please put a plant in our states. We have at least 60 Congressional committees and subcommittees that could have the General Motors and Chrysler executives drive their congressionally approved hybrid cars to Washington to testify all day when they ought to be home trying to figure out how to make a car that would sell better than a Toyota or a Nissan or a Honda or some other company.

So let's get the stock out of Washington and into the hands of the taxpayers.

Madam President, I have twice presented a car czar award to try to put a

spotlight on the political meddling in Washington, DC. Once I gave it to BARNEY FRANK, the chairman of the House Financial Services Committee, who called up the General Motors president and said: Don't close a warehouse in my district, and General Motors did not close the plant. Once I gave the award to myself and others, who met with GM people and said: Please put a plant in our district. Today I would like to present it to a real car czar.

In the June 1 Wall Street Journal, there is an article by Lieutenant General Pacepa, who was literally the car czar of Romania.

Madam President, I ask unanimous consent that following my remarks, this article about what Lieutenant General Pacepa learned as car czar be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. ALEXANDER. Madam President, basically, he says:

The United States is far more powerful than Great Britain was then, and no American Attlee should be capable of destroying its solid economic and political base. I hope that the U.S. administration, Congress, and the American voters will take a closer look at history and prevent our automotive industry from following down the [road of the Romanian cars.]

He cites many examples. For example, how the President of Romania decreed that the Oltcit parts were to be manufactured at 166 existing Romanian factories in parts of the country that corresponded to the voting districts. I can see that happening in the United States. We already have Congressmen saying: Don't buy a battery in South Korea; buy one made in my congressional district. General Motors might be buying a battery from South Korea because it would make the Chevy Volt a success.

In the New York Times in 1989, there was an article talking about Soviet cars called the Lada, which were the brunt of many jokes, and the difficulty the Soviet Union had coming out of perestroika and glasnost.

There were jokes such as: What do you call a Lada with twin tailpipes? A wheelbarrow.

Why do Ladas have heated rear windows? So you can keep your hands warm when you are pushing them in the snow.

We politicians don't know anything about making cars. We should not pretend we do. The American people know that. They don't like the fact that the federal government has spent more than $50 billion bailing out the car companies, but the American people like it worse that we in Congress are sitting on 60 committees and subcommittees acting as if we are going to help the auto companies succeed. The single most important thing we can do to celebrate General Motors coming out of bankruptcy this week is to pass legislation we have offered, which would give all of the stock the government has in General Motors and Chrysler, within 1 year, to the 120 million Americans who pay taxes on April 15.

The rationale is very simple: They paid for it; they should own it. That would begin to stop this trend we are seeing every day and every month in Washington of too many Washington takeovers and move us back in the direction we ought to go to rebuild a great car company and get jobs flowing in this country again.

I thank the Chair and yield the floor.

EXHIBIT 1

WHAT I LEARNED AS A CAR CZAR

(By Ion Mihai Pacepa)

They say history repeats itself. If you are like me and have lived two lives, you have a good chance of seeing the re-enactment with your own eyes. The current takeover of General Motors by the U.S. government, and United Auto Workers makes me think back to Romania's catastrophic mismanagement of the car factories it built jointly with the French companies Renault and Citroen. I was Romania's car czar.

When the Romanian dictator Nicolae Ceausescu, decided in the mid-1960s that he wanted to have a car industry, he chose me to start the project rolling. In the land of the blind, the one-eyed man is king. I knew nothing about manufacturing cars, but neither did anyone else among Ceausescu's top men. However, my father had spent most of his life running the service department of the General Motors affiliate in Bucharest.

My job at the time was as head of the Romanian industrial espionage program. Ceausescu tasked me to mediate the purchase of a minimum, basic license for a small car from a major Western manufacturer, and then to steal everything else needed to produce the car.

Three Western companies competed for the honor. Ceausescu decided on Renault, because it was owned by the French government (all Soviet bloc rulers distrusted private companies). We ended up with a license for an antiquated and about-to-be-discontinued Renault-12 car, because it was the cheapest. ''Good enough for the idiots,'' Ceausescu decided, showing what he thought of the Romanian people. He baptized the car Dacia, to commemorate Romania's 2,000-year history, going back to Dacia Felix, as the ancient Romans called that part of the world. In that government-run economy, symbolism was the most important consideration, especially when it came to things in short supply (such as food).

''Too luxurious for the idiots,'' Ceausescu decreed when he saw the first Dacia car made in Romania. Immediately, the radio, right side mirror and backseat heating were dropped. Other ''unnecessary luxuries'' were soon eliminated by the bureaucrats and their workers' union that were running the factory. The car that finally hit the market was a stripped-down version of the old, stripped-down Renault 12. ''Perfect for the idiots,'' Ceausescu approved. Indeed, the Romanian people, had never before had any car, came to cherish the Dacia.

For the Western market, however, the Dacia was a nightmare, To the best of my knowledge, no Dacia car was ever sold in the U.S.

Ceausescu, undaunted, was determined to see Romanian cars running around in every country in the world. He tasked me to buy another Western license, this time to produce a car tailored for export. Oltcit was the name of the new car—an amalgam made from the words Oltenia, Ceausescu's native province, and the French car maker Citroen, which owned 49% of the shares. Oltcit was projected to produce between 90,000 and 150,000 compact cars designed by Citroen.

Ceausescu micromanaged Oltcit, but he didn't even know how to drive a car, much less run a car industry. To save the foreign currency he coveted, he decreed that the components for the Oltcit were to be manufactured at 166 existing Romanian factories. Coordinating 166 plants to have them deliver all the parts on time would be a monumental job even for an experienced car producer. It proved impossible for the Romanian bureaucracy, which pretended to work and was paid accordingly. The Oltcit factory could produce only 1% to 1.5% of its intended capacity owing to the lack of the parts that those 166 companies were supposed to furnish simultaneously. The Oltcit project lost billions.

Ceausescu was an extreme case, but automobile manufacturing and government were never a good mix in any socialist/communist country. In the late 1950s; when I headed Romania's foreign intelligence station in West Germany, I worked closely with the foreign branch of the East German Stasi. Its chief, Markus Wolf, rewarded me with a Trabant car—the pride of East Germany—when I left to return to Romania.

That ugly little car became famous in 1989 when thousands of East Germans used it to cross to the West. The Trabant originally derived from a well regarded West German car (the DKW) made by Audi, which today produces some of the most prestigious cars in the world. In the hands of the East German government, the unfortunate DKW became a farce of a car. The bureaucrats and union that ran the Trabant factory made the car smaller and boxier, to give it a more proletarian look. To reduce production costs, they cut down on the size of the original, already small DKW engine, and they replaced the metal body with one made of plastic-covered cardboard. What rolled off the assembly line was a kind of horseless carriage that roared like a lawn mower and polluted the air worse than a whole city block full of big Western cars.

After German reunification, the plucky little ''Trabi'' that East Germans used to wait 10 years to buy became an embarrassment, and its production was stopped. Germany's junkyards are now piled high with Trabants, which cannot be recycled because burning their plastic-covered cardboard bodies would release poisonous dioxins. German scientists are now trying to develop a bacterium to devour the cardboard-and-plastic body.

Automobile manufacturing and government do not mix in capitalist countries either. In the spring of 1978 Ceausescu appointed me chief of his Presidential House, a new position supposed to be similar to that of the White House chief of staff. To go with it he gave me a big Jaguar car, That Jaguar, which at the time had been produced in a government-run British factory, was so bad that it spent more time in the garage being repaired than it did on the road.

''Apart from some Russian factories in Gorky, Jaguars were the worst,'' Ford executive Bill Hayden stated when Ford bought the nationalized British car maker in 1988. How did the famous Jaguar, one of the most prestigious cars in the world, become a joke?

In 1945, the British voters, tired of four years of war, kicked out Winston Churchill

and elected a leftist parliament led by Labour's Clement Attlee. Attlee nationalized the automobile, trucking and coal industries, as well as communication facilities, civil aviation, electricity and steel. Britain was already saddled by crushing war debts. Now it was sapped of economic vigor. The old empire quickly passed into history. It would take decades until Margaret Thatcher's privatization reforms restored Britain's place among the world's top-tier economies.

The United States is far more powerful than Great Britain was then, and no American Attlee should be capable of destroying its solid economic and political base. I hope that the U.S. administration, Congress and the American voters will take a closer look at history and prevent our automotive industry from following down the Dacia, Oltcit or Jaguar path.

The PRESIDING OFFICER. The Senator from Alabama is recognized.

Mr. SESSIONS. Madam President, how much time is left?

The PRESIDING OFFICER. There is 12 minutes remaining.

SOTOMAYOR NOMINATION

Mr. SESSIONS. Madam President, I express my appreciation to the Senator from Tennessee for his insightful comments. Indeed, it is a tangled web we create when we first start to regulate. It is a tangled web, too, when we start owning automobile companies which we know nothing about. Madam President, we are looking forward to next week and working as hard as we can to ensure that we have a very fine confirmation hearing in the Judiciary Committee for the judge nominated to be a Justice of the Supreme Court by President Obama, Judge Sotomayor. I will share a few thoughts about that and some matters that I think are important for my colleagues to think about as they study this issue and work to do the right thing about it.

The President's nominee is, of course, his nominee, and it is our responsibility—and the only opportunity the American people have to know anything about this process is the hearing in which the nominee has to answer questions and respond. Senators will make comments and ask questions.

When we elevate one of our citizens to a Federal judgeship, we give them an awesome responsibility, and particularly so when elevated to the Supreme Court. They are the final word on our Constitution, how the Constitution and our laws are to be interpreted. Some judges, I have to say, have not been faithful in their responsibilities. They have allowed personal views and values to impact them, in my view. We ask them as judges to take on a different role than they have in private practice. We ask them to shed their personal beliefs, their personal bias and, yes, their personal experiences. We ask them to take an oath to impartial justice.

Our wonderful judicial system—the greatest the world has ever seen—rests upon this first principle. It is an adversarial system that is designed to produce, through cross-examination and other rules and procedures, truth—objective truth. The American legal system is founded on a belief in objective truth and its ascertainability. This is a key to justice.

But in this postmodern world, our law schools and some intellectuals tend to be of a view that words don't really have meaning; words are just matters some politically powerful group got passed one day, and they don't have concrete meanings and you don't have to try to ascertain what they meant. And, indeed, a good theory of law is to allow the judge to update it, change it, or adopt how they would like it to be.

I suggest this is not a healthy trend in America. It impacts this Nation across the board in so many ways. But I think it is particularly pernicious, when it comes to the law, if that kind of relativistic mentality takes over.

This notion of blind justice, objectivity, and impartiality has been in our legal system from the beginning, and it should not be eroded. Every judge takes this oath. I think it sums up so well the ideals of the fabulous system we have. A judge takes this oath:

> I do solemnly swear that I will administer justice without respect to persons, and do equal right to the poor and to the rich, and that I will faithfully and impartially discharge and perform all the duties incumbent upon me under the Constitution and laws of the United States, so help me God.

Well, I guess the Court hasn't gotten around to striking their oath yet—at least that part that says ''so help me God.'' Those phrases have certainly been attacked around the country by Federal judges, in many instances. This oath—I have to say this—stands in contrast to the President's standard for judicial nominees.

I am concerned, based on her speeches and statements, that it may also be the judicial philosophy of Judge Sotomayor.

In 2005, then-Senator Obama explained that 5 percent of cases, he believes, are determined by ''one's deepest values and core concerns . . . and the depth and breadth of one's empathy.'' He means a judge's personal core concerns, values, and empathy.

Well, according to the President, in 5 percent of the cases where issues are close, that is acceptable. I think we must draw from his statement that it is acceptable for judges to not set aside their personal beliefs, not discard personal bias, not dispense with their personal experiences as they make rulings, as they decide cases, which is what judges do.

According to the President, in 5 percent of cases, Lady Justice should remove her blindfold, take a look at the litigants, and then reach out and place her thumb on the scales of justice on one side or the other. I think this is a dangerous departure from the most fundamental pillar of our judicial system—judicial impartiality. That is why judges are given lifetime appointments. They are supposed to be unbiased and impartial.

Whatever this new empathy standard is, it is not law. It is more akin to politics than law. Whenever a judge puts his or her thumb on the scale of justice in favor of one party or another, the judge necessarily disfavors the other party. For every litigant who benefits from this so-called empathy, there will be another litigant who loses not because of the law or the facts, but because the judge did not empathize or identify with them.

What is empathy? Is this your personal feeling that you had a tough childhood or some prejudice that you have—you are a Protestant or a Catholic or your ethnicity or your race or some bias you brought with you to life and to the court? Is that what empathy is? Well, it has no objective meaning, and that is why it is not a legal standard. The oath of ''impartiality'' to ''equal justice to the rich and the poor alike'' is violated when such things infect the decisionmaking process.

With this as his stated standard, the President nominated Judge Sonia Sotomayor for the Supreme Court of the United States. Thus far our review of her record suggests that she may well embrace the President's notion of empathy, and I will share a few thoughts on that.

On a number of occasions over the years, Judge Sotomayor delivered a speech entitled ''Women in the Judiciary.'' In it she emphasizes that she accepts the proposition that a judge's personal experiences affect judicial outcomes:

> In short, I accept the proposition that a difference will be made by the presence of women on the bench and that my experiences will affect the facts that I choose to see as a judge.

In fact, in one speech, she rejected another woman judge's view that a woman and a man should reach the same decision in a case. She explicitly rejected that concept. She reaffirms:

> I simply do not know exactly what that difference will be in my judging, but I accept there will be some [differences] based on my gender and the experiences it has imposed on me.

I think this would tend to be a rejection of even the aspiration, the ideal, of impartiality that is fundamental to our legal system and our freedoms.

In a later speech, Judge Sotomayor takes a giant step, expressing a desire to draw upon her experiences in her judging. She states:

> Personal experiences affect the facts judges choose to see. My hope is that I will take the good from my experiences and extrapolate them further into areas with which I am unfamiliar. I simply do not know exactly what that difference will be in my judging. But I accept that there will be some based on my gender and my Latina heritage.

Well, are the days now gone when judges should see their taking office as a commitment to set aside their personal experiences, biases, and views when they put on the robe? Gone are the days when judges even aspire to be impartial.

In that same speech, which has been given a number of times, Judge Sotomayor goes a step further, saying:

I willingly accept that we who judge must not deny the differences resulting from experience and heritage, but attempt continuously to judge when those opinions, sympathies and prejudices are appropriate.

She says a judge should attempt continuously to judge when those opinions, sympathies, and prejudices are appropriate. That means that a judge's prejudices are appropriate to use in the decisionmaking process.

I find this to be an extraordinary judicial philosophy. Some might say you are making too much of it, that empathy sounds fine to me; I don't have any problem with that. Empathy is great, perhaps, if you are the beneficiary of it. The judge is empathetic with you, your side of the argument, but it is not good if you are on the wrong side of the argument, if you don't catch a judge's fancy or fail to appeal to a shared personal experience.

This approach to judging, as expressed in her speeches and writings, appears to have played an important part in the New Haven firefighters' case Senator MCCONNELL mentioned earlier. These are the 17 firefighters who followed all the rules, studied for the test. It was publicly set out how the promotions would take place in that department. A number of people passed, but a number of people did not, and there were a number of minorities who did not pass. They wanted to change the test after it had been carried out, to change the rules of the game after it had been carried out because they did not like the results. This is a results-oriented question.

Bowing to political pressure, the city government looked only at the test results and the statistical data and changed the rules of the game. They threw out the test. This was challenged by the persons who passed. The district judge then agreed with the city in a 48-or-so-page opinion. It was appealed to Judge Sotomayor's court. In one paragraph only, she agreed with that decision, even though it raised fundamental, important constitutional questions, important questions.

She concluded that the complaining firefighters were not even entitled to a trial, that the pretrial motions were sufficient to deny them the remedy they sought and to affirm the city's opinion in one paragraph.

The U.S. Supreme Court disagreed. They wrote almost 100 pages in their opinion, and all nine Justices voted to reverse the opinion. It was not 5 to 4. Five of the Justices, the majority, ruled that based on the facts in evidence that had been presented prior to trial, the firefighters were entitled to total victory and be able to win their lawsuit. This is a pretty significant reversal, I have to say.

The question is: Did she allow her prior experiences and beliefs to impact her decision in that case? I point out that she was an active member of the Puerto Rican Legal Defense Fund, where she spent a number of years working on cases such as this and filing litigation and challenging promotion policies in cities around the country, which is a legitimate thing for a group to do. But they did take a very aggressive standard criticizing tests and the standardized process of testing.

Of course, her stated philosophy is that a judge should use life experiences in reaching decisions. We do know she believes a judge is empowered to utilize his or her personal ''opinions, sympathies, and prejudices'' in deciding cases. We do know her particular life experiences with the Legal Defense Fund were contrary to the claims brought by the New Haven firefighters. We know she was a leader and board member and chair of that organization's litigation committee. According to the New York Times, she ''met frequently with the legal staff of the organization to review the status of cases.'' According to the New York Times, ''she was involved and was an ardent supporter of their various legal efforts.'' She oversaw, as a board member and litigation chair, several cases involving the New York City Department of Sanitation, which challenged a promotion policy because Hispanics comprised 5.2 percent of the test takers but only 3.8 percent had passed the test. They declared that was an unfair result and challenged the test. Another involved the New York City Police Department on behalf of the Hispanic Police Society. Another one involved police officers in a discrimination case challenging the New York Police Department's lieutenants exam, claiming that exam was biased.

Under her leadership, the Puerto Rican Legal Defense Fund, before she became a judge, involved itself in a series of cases designed to attack promotion exams because the group concluded that after the fact, after the test, not enough minorities were being promoted. It sounds a lot like this firefighters case we talked a good bit about so far.

We are left to wonder what role did the judge's personal experiences play when she heard the case. Did her personal views, as she has stated, ''affect the facts she chose to see?''

The PRESIDING OFFICER. The Republican time has expired.

Mr. SESSIONS. Madam President, I ask unanimous consent for 1 additional minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. Madam President, those are important questions, and we will ask about them and give her full and ample opportunity to respond. I did wish to raise these issues.

The firefighters were denied promotion, and under her stated philosophy, her prior background, they are left to wonder: Was perhaps the reason they lost in her court because she brought her background and her prejudices to bear on the case and did not give them a fair chance? Very few cases are taken by the Supreme Court, but the Supreme Court did take this one, to the benefit of the firefighters, and reversed this decision. All nine Justices concluded the decision was improperly done and should be reversed, and five of them rendered a verdict in favor of the firefighters on the record as existed then.

I yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

ORDER OF PROCEDURE

Mr. DURBIN. Madam President, it is my understanding the Senator from North Carolina is going to make a unanimous consent request; is that correct?

Mr. BURR. Madam President, the Senator is correct. I believe the Senator from Nebraska, as well. I ask unanimous consent to be recognized after the Senator from Nebraska, it is my understanding, for up to 10 minutes as in morning business.

Mr. DURBIN. The time suggested for the Senator from Nebraska is how much?

Mr. JOHANNS. Madam President, I anticipate 10 minutes, and I ask unanimous consent to speak for 10 minutes.

Mr. DURBIN. My only hesitation is the fact that we are having a Senator sworn in at 12:15 p.m., and there is going to be a speech given before that by his colleague. We also wanted to have opening statements on the bill. If I may ask the Senators—I will not object—but if I may ask them to be closer to the 5-minute mark, I think we can achieve all that in a timely fashion. I ask unanimous consent that the Senator from Nebraska be recognized for 5 minutes——

Mr. JOHANNS. Five minutes.

Mr. DURBIN. In morning business and that the Senator from North Carolina be given up to 10 minutes. I know he said he would not use up to 10 minutes, and we will be protected with whatever time is used by these two Republican Senators being allocated to the Democratic side for morning business, which we will not likely use. I make that unanimous consent request.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Nebraska.

HEALTH CARE

Mr. JOHANNS. Madam President, I spent several days during the recess hosting a series of discussions on health care. I met with doctors and hospitals, underwriters, small business owners, and uninsured Nebraskans. Many of them feel as if they are one illness away from a crisis. The economic slowdown has only heightened this fear as they worry that they may lose their job and the health insurance their family depends upon to stay healthy.

Their concerns are real, and Congress should act carefully to address them. We need to create a health care system that protects patient rights, let's them see their doctor, and is affordable.

But I am concerned about the discussion that is occurring today. The American people deserve true solutions and should not be led down a path that is fraught with shadowy numbers and unfulfilled promises. Specifically, I have reservations about a government-run public plan. Some have attempted to sugar-coat this new bureaucracy as simply an option. However, the more you learn about it, the more you realize there is nothing optional about it. In my judgment, it is a one-way ticket to a single-payer, government-run health care system, one that will compromise patient access to quality care.

It is impossible for private industry to compete with the government. The government can fix the prices and pick the rules that make only one plan feasible—the government plan. When the government acts as both the player and the umpire, it's not a level playing field. That close call at the plate will never go to the runner and the foul ball magically will become a home run.

Some will say the government-run option will increase competition and keep the private insurers honest. Left unsaid is that government underpayments on Medicaid and Medicare are creating enormous cost shifting and increase the health care costs for others. Underpayments for Medicare and Medicaid are estimated to shift about $89 billion onto people who have private insurance. Each family pays an additional $1,800 annually to make up for the government's flawed payment system. Hospitals and doctors literally told me they could not keep their businesses open on the Medicaid and Medicare reimbursement rate. So the creation of another plan, a government plan, will only rob from Peter to pay Paul. Eventually, there will be no private insurance companies left to bear the burden.

Bottom line is that government does not balance the books, and it views itself as not having to. Washington seems happy to keep on printing money and raising taxes. How can private business compete with that?

If a government-run public plan was truly going to compete, it would face the same regulations and the same risks that the private industry feels. No bailouts if it becomes insolvent. Does anyone think the bill's proponents would honestly let that happen? The Administration would probably claim it is too big to fail, like AIG, Citibank, General Motors.

A system with a competitive government option, I fear, is a fairy tale. A government-run plan will undercut the private market and ultimately drive them out of business. I am not defending the private insurance industry. Far from it. But we need to be honest with the American people. An uneven playing field is not right, and it will not benefit Americans.

The effect, I fear, will be longer waiting lines, less innovation, and rationing of care. In Canada, the average wait time for radiation treatment is 7 weeks. I cannot imagine asking Americans diagnosed with cancer to wait that long. There are some in Washington who have their heels dug in on a single-payer plan. It contradicts the President's promise. He has said over and over that people will be able to keep their health care. But Americans beware. One study estimates 119 million people will shift to the government plan. They will not choose that; their employer will choose it for them. We cannot fault employers that are trying to save money.

In the committee draft, businesses that employ 25 or more employees would be required to pay an annual penalty of $750 per employee. When you do the math, this is no penalty compared to the cost of private insurance.

In 2008, the average employer's cost for an individual health care plan was $3,900. Putting their employees on the public plan option would save them over $3,200 a year for each employee. So you can see why this shift would occur.

Ultimately, people will not have a choice. Their employer will make the choice, and they will be forced onto the government plan. To promise otherwise is misleading. Even the President has recognized that shift is going to occur.

I conclude my comments today by saying: Don't be fooled. A government plan that does not compete on a level playing field means people will migrate to the government plan, and the choice to keep private insurance will not be a viable option.

The PRESIDING OFFICER. The Senator from North Carolina.

HONORING OUR ARMED FORCES

MASTER SERGEANT BRENDAN O'CONNOR

Mr. BURR. Madam President, one of the privileges of being a Senator is that we have the opportunity to meet extraordinary people every day. Whether you are the Senator from Illinois or the Senator from Nebraska, extraordinary people walk through your door every day of the week. But sometimes we get to meet amazing individuals whom we can honestly call heroes, who lay their lives on the line for their country and sacrifice themselves for our freedom.

MSG Brendan O'Connor, a medic in the 7th Special Forces Group, is one of those very special people. In June of 2006, Master Sergeant O'Connor was deployed to Afghanistan in support of Operation Enduring Freedom. His group was stationed near Kandahar and charged with a variety of things, including security, training of the Afghan Army, and counterterrorism operations against a ruthless enemy.

We have all heard news reports and heard of suicide bombers driving cars loaded with explosives into markets and crowded areas killing innocent men, women, and children. We have all heard accounts of suicide bombers strapping explosives to their waists and walking through a market, intentionally killing individuals. All of these individuals have been branded as religious zealots willing to die for their cause. However, that is not always the case. Oftentimes, these Taliban warlords recruit suicide bombers in other ways. They go into small villages and they hold whole families hostage. They instruct the young men in the family that if they do not carry out a suicide mission, they are going to kill the rest of the family, or if they do, they will let them live.

Brendan's team was tracking one of these Taliban warlords, one of these thugs, outside of Kandahar, who was notorious for this type of ''recruitment.'' They tracked the terrorist to a small farming village surrounded by vineyards and orchards. Once in the area, Brendan's team set up a perimeter and defensive position to root out these warlords. They arrived late one evening and, working under the cloak of darkness, proceeded to sweep the village, hoping to surprise the local Taliban leader. However, their arrival was tipped off to the Taliban, and they had fled just minutes before U.S. soldiers arrived.

Having found evidence of the Taliban's existence, the soldiers knew it was only a matter of time before they engaged the enemy. That first skirmish started the next day at dusk. Brendan's team, about 70 soldiers comprised of 8 U.S. special ops and 60 Afghan soldiers, took some small arms and rocket propelled grenade fire, but it didn't last long. The Taliban attacked the U.S.-led forces several more times over the next day and night but never amounting to much. U.S.-led forces didn't even sustain a single injury during those firefights.

After having arrived on Wednesday evening and sporadically fighting the Taliban for 2 days, Brendan's team decided it was time to take the fight to the enemy. On that Saturday, MSG Tom Maholluck led a small recon group to a Taliban stronghold, which

was just outside the village in a cluster of farm buildings. The team was comprised of four special forces operators and a dozen Afghan Army. Sergeant Maholluck was able to get in close enough to the compound without being detected. Once he assessed the situation, Sergeant Maholluck thought he could take the compound with a simple recon team. He ordered two of his soldiers—SSG Matt Binnie and SSG Joe Feurst—to take a fire suppression position and cover Sergeant Maholluck and the remaining Afghan Army contingency while they stormed the compound.

When the U.S.-led recon team launched its first attack on the Taliban compound, they were quickly greeted with heavy machine gunfire. The first fire expression team returned fire; however, the machine gun nest had a tactical advantage over the fire team—they had the higher ground. Matt was struck first by a bullet that grazed his neck and stunned him for a moment. Matt regained his senses, and he and Joe returned fire, as much as they could, but the Taliban had them pinned down. Then an RPG round came and struck Staff Sergeant Feurst directly in the leg. It didn't explode, thankfully, but badly wounded SSG Joe Feurst. As Staff Sergeant Binnie was tending to Joe's leg, he was shot through the shoulder. The only thing left of the fire suppression team was a young Afghan interpreter who had stayed with them. Master Sergeant Maholluck was cut off from Staff Sergeant Binnie and Staff Sergeant Feurst, so he radioed for help.

Back at the main perimeter, Brendan O'Connor got the call and put a team together to go get his wounded soldiers. When Brendan's team got to the area, the Taliban had taken positions along the route to the wounded soldiers, leaving Brendan only one path—an exposed field. Brendan instructed his team to take up positions to support the wounded and started on his mission to save the lives of these soldiers.

At first, Brendan started crawling through an open field with his gear on. He quickly realized this wasn't going to work. So under a hail of small arms, RPG, and machine gun fire, Brendan removed all his armor and crawled through an open field to get to the two wounded. Brendan couldn't locate the two soldiers by sight, only by calling out. And as he heard them, he would get closer and closer.

When he arrived at the two wounded, he had to make a quick decision about Joe's injuries, which were life threatening. Brendan quickly got Staff Sergeant Binnie taken care of and instructed him to crawl through a culvert to get to safety. Staff Sergeant Feurst wasn't so easy. He was unconscious and unable to move. Brendan pulled him down as far as he could into the culvert. He started to drag him, but he realized he couldn't drag him the entire way.

As if the actions of Brendan and his team weren't heroic enough at this point, the next part of this account will send chills down your spine.

At this time during the fight, it was estimated that nearly 300 Taliban fighters had engaged the approximately 15-member U.S. force. I say approximately because several Afghan Army members who originally accompanied Brendan's team had fled by this point. As Brendan's natural cover was coming to an end, he pulled Joe on to his shoulder, and he ran across an area while 300 Taliban fighters were shooting at him. God was watching Brendan that day. God saw one man risk his life to save another, and he saw fit to keep Brendan from harm as he carried a wounded U.S. soldier to safety. Unfortunately, Joe Feurst died soon after Brendan got him back due to massive blood loss. SSG Matt Binnie survived because of Brendan's leadership and courage under fire.

The battle that had gone on for nearly 3 days was coming to an end at this point. U.S. forces had air support, which escorted them out of the area. All told, the U.S.-led force killed 125 Taliban fighters and only lost 2 of their own, with 1 wounded. They weren't able to capture or kill the warlord that time; however, due to the losses to the Taliban that day in that strike, U.S. forces got him several weeks later.

For their heroics in combat, MSG Tom Maholluck and SSG Matt Binnie were awarded the Silver Star. SSG Joe Feurst was awarded the Bronze Star. Brendan O'Connor was awarded the Distinguished Service Cross for his valor. It was the first time a member of the 7th Special Forces Group had been awarded the medal since 1964.

It is an honor to have Brendan and his family in Washington today. He is joined by his beautiful wife Meg and their children, Ryan, Colin, Darby, and Dillon.

It is this type of story that we rarely hear about on the nightly news, but this story was so amazing that ''60 Minutes'' felt compelled to do a piece on it after the soldiers arrived back home. MSG Brendan O'Connor is a person held in the highest regard by other warriors who have proudly served this country. He is a soldier who truly understands the price of freedom. The Senate salutes MSG Brendan O'Connor today.

I thank the Chair, and I yield the floor.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2010

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to the consideration of H.R. 2892, which the clerk will state by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes.

The PRESIDING OFFICER. The majority leader.

AMENDMENT NO. 1373

(Purpose: In the nature of a substitute)

Mr. REID. Madam President, I call up the amendment at the desk on behalf of Senator BYRD and Senator INOUYE.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID] for Mr. BYRD and Mr. INOUYE, and Mrs. MURRAY, proposes an amendment numbered 1373.

Mr. DURBIN. Madam President, I ask unanimous consent to dispense with the reading of the substitute amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today's RECORD under ''amendments Submitted.'')

Mr. DURBIN. Madam President, we now turn to the fiscal year 2010 Department of Homeland Security Appropriations bill. The chairman of the Homeland Security Subcommittee, Senator ROBERT C. BYRD, is home from the hospital and is improving daily and is eager to return to the Senate as soon as he can.

He has been in regular consultations with his staff in the development of the bill that was approved by the Appropriations Committee on June 18 by a vote of 30–0. This is a bipartisan bill. I thank the ranking member on the Appropriations Committee, Senator THAD COCHRAN, and the ranking member on the subcommittee, Senator GEORGE VOINOVICH, for their cooperation in the development of the bill. I also thank the chairman of the Appropriations Committee, Senator DANIEL K. INOUYE, for his support.

The establishment of the Department of Homeland Security after the devastating events of September 11, 2001, was one of the most ambitious Federal reorganizations since the Department of Defense was created following World War II. Regrettably, it was the official position of the Bush administration that the Department could be created at no cost to the taxpayer. This translated into a Department with aging assets, an inability to prepare for and respond to natural disasters and future threats, and significant management and employee morale problems.

In response, Congress, on a bipartisan basis, increased homeland security spending by an average of $2 billion per year above the President's request. These increases were invested in border security, chemical security, port security, transit security, aviation security, and cyber security. Congress also ensured State and local partners in homeland security received adequate resources to equip and train our first responders. These investments have paid off, making our Nation more secure and making us better prepared for any disaster. But we have much more work to do.

The committee-reported bill totals $42.9 billion of discretionary budget authority, an increase of 7 percent over fiscal year 2009.

Chairman BYRD has set five major goals for the bill: No. 1, securing our borders and enforcing our immigration laws; No. 2, protecting the American people from terrorist threats and other vulnerabilities; No. 3, preparing and responding to all hazards, including natural disasters; No. 4, supporting our State, local, tribal and private sector partners in homeland security with resources and information; and finally, giving the Department the management tools it needs to succeed.

To meet these goals, the bill provides $10.2 billion for Customs and Border Protection, including an initiative to combat drugs and violence on the Southwest border; $5.4 billion for Immigration and Customs Enforcement, including increased funds for the Southwest border initiative, and the Secure Communities and Criminal Alien Programs, which identify dangerous criminal aliens for deportation when they are released from prison.

It includes $7.7 billion for the Transportation Security Administration, including a $513 million increase for the purchase and installation of explosives detection systems at airports. And funding is included for 50 additional air cargo inspectors to help meet the August 2010 mandate in the 9/11 act for 100 percent air cargo screening.

The bill also provides $143 million for surface transportation, including 100 additional inspectors and 15 additional security teams to improve security on our transit and rail systems, and $8.9 billion for the Coast Guard, including funding to complete national security cutter No. four and provide long lead materials for NSC No. five.

The bill also funds 4 fast response cutters, 2 maritime patrol aircraft, 40 medium-sized response boats, and includes funding for interagency operations centers, which are required by the Safe Port Act. And $4.2 billion is provided for first responder grants, including $800 million for fire grants, $887 million for urban area security grants, $950 million for State homeland security grants, with $350 million for emergency management performance grants.

Port security grants receive $350 million and transit/railroad/bus grants receive $356 million.

The bill also includes $399 million to combat the evolving cyber security threat.

Since its inception, the Department has had significant management problems.

The committee bill includes funding increases and clear direction to strengthen financial, procurement, and information technology systems at the Department of Homeland Security.

This is a good bill. By focusing on the five goals that Chairman BYRD established for this bill, we provide the resources and the information necessary to build confidence in our ability to secure the homeland. I urge adoption of the bill.

I yield the floor to the ranking Republican on this appropriations subcommittee, Senator VOINOVICH of Ohio.

The PRESIDING OFFICER. The Senator from Ohio is recognized.

Mr. VOINOVICH. Madam. President, I thank Senator DURBIN. I would like to acknowledge the cooperation we received from Senator BYRD and his staff. We are pleased Senator BYRD is out of the hospital and recuperating at home. I appreciate the fact that the Senator from Illinois has stepped in to pinch-hit for him this morning.

I think the Senator from Illinois has done an outstanding job of covering the details of the bill. I would like to concentrate on some of the highlights I think need to be underscored.

The bill recommends a total of $44.3 billion in appropriations to support programs and activities of the Department of Homeland Security. Of this amount, $42.7 billion is for discretionary spending. This is roughly $145 million less than the President's total discretionary request and is consistent with the subcommittee's spending allocation.

In addition, $1.4 billion is provided for Coast Guard retired pay—the only mandatory funding in the bill—and $241.5 million is provided for Coast Guard overseas contingency operations, the same amount as requested by the President in the Department of Defense budget to be transferred to the Coast Guard and instead of being appropriated in the Defense Appropriations bill is being appropriated here.

The bill includes significant resources: for border security and enforcement of our immigration laws, for continued improvements in security at our Nation's airports and modes of surface transportation, for the Coast Guard's operations and Deepwater Program recapitalization efforts, for helping our citizens prepare for and recover from natural disasters, and for equipping and training our Nation's first responders.

As Senator DURBIN has indicated, there is much in this bill to recommend. I am pleased the Secretary of the Department of Homeland Security understands we have done our best to fund her priorities. I will not list all the bill's funding recommendations, but I do want to note some.

Full funding is provided for border security, including the funds to support 20,063 border patrol agents; 21,12 customs and border protection officers; 33,400 detention beds; and $800 million for continued work on the virtual border fence and improved radio communications.

Starting in fiscal year 2005, significant increases have been provided for border security and immigration enforcement. This bill alone provides an increase of $880 million from the fiscal year 2009 level, excluding emergency appropriations. Progress has been made with these investments.

Fewer people are illegally crossing our borders. This can be seen in the decrease in apprehensions of aliens along our borders—from 1,198,075 in fiscal year 2005 to 723,825 in fiscal year 2008. In other words, we have made it more difficult for 474,250 illegal aliens to cross our borders. More fencing, roads, and personnel have allowed the border patrol to increase the number of miles over which it has effective control—from 241 miles in October 2005 to 625 miles in October 2008. Additional agents and detention beds have allowed U.S. Immigration and Customs Enforcement to increase total removals of aliens—from 246,431 removals in fiscal year 2005 to 347,184 in fiscal year 2008. We are making progress but we still have a long way to go and at great expense.

In particular, I am pleased that the bill includes funds above the request to implement a biometric air exit capability. As the chief Senate sponsor of the Secure Travel and Counterterrorism Partnership Act of 2007, expanding and improving the Visa Waiver Program is one of my top priorities. The Visa Waiver Program has become an important national security tool because under that law, countries who participate in the program are required to share information on terrorists and criminals, report lost and stolen passports, and maintain high counterterrorism and document security practices. Since enactment of this law, 8 new countries have been accepted into the program and we are seeing improvements in the security practices of the 27 countries that were already participating.

I have just returned from Lithuania and Latvia, where I was joined by several other Members of the Senate, including Senator DURBIN. Lithuania and Latvia are two countries that were recently admitted into the visa waiver program. From a public diplomacy point of view, it has been a home run and has been well received by government officials and citizens alike.

I was up in Latvia. They pointed out to me that General Mullen was in Latvia, which should have been the biggest thing in the newspaper the next day, that he was there. The thing that blew him away was the fact that Latvia was approved for visa waiver status. It was so well received by the people of Latvia.

I must note however the two areas which continue to be of concern to me. One is the way this administration has budgeted for disasters. The President's fiscal year 2010 request for disaster relief is only $2 billion. We know now from FEMA estimates that this is not enough to pay for the declared disasters already on the books. Based on current needs, an appropriation of $5.8 billion is required. I understand we cannot afford that within the discretionary spending limits for this bill, but I am hopeful this is addressed in future budgets.

This administration has worked hard to break the cycle of requesting emergency funding for the wars in Iraq and Afghanistan. Yet no one has suggested fixing the way we budget for natural disasters. Last year alone, $11.757 billion in emergency supplemental appropriations were provided for disaster relief.

We cannot continue to ''kick the can down the road,'' relying on supplemental emergency appropriations to pay for known costs. Hurricane Katrina was a catastrophic event. Exceptions were made to regulations and policies to speed assistance to those struggling to recover from the enormity of the losses. But now these are becoming the standard rather than an ''exception to the rule,'' and the Federal taxpayers are picking up an ever increasing share of disaster recovery costs.

It is kind of interesting that at the time of Katrina I commented we were doing some things we ordinarily do not do in a FEMA environment and predicted that what we were doing at Katrina would become the role model for other disasters that have been experienced by States. The fact is, more and more States are now asking for more and more FEMA money, saying: You did it in Katrina, why can't you do it in Texas? Why can't you do it wherever else we have a disaster? This has to change if we are going to handle Federal spending and do something about the deficit.

In addition, this bill provides almost $16 billion for border and immigration enforcement. That does not even include Coast Guard funding to protect our maritime borders. This is a 99.6-percent increase for U.S. Customs and Border Protection, U.S. Immigration and Customs Enforcement, and US-VISIT from fiscal year 2004 levels in the first Department of Homeland Security Appropriations Act.

It is a significant increase. I think the citizens of our country should know that. They have been saying, for a long time, that we have not been doing the job in enforcing the security of our borders. I must tell them we are doing a much better job than ever before because we are allocating the resources to get the job done.

As we have increased the resources for border I have often wondered if there was another way we can secure our borders and deal with 11 or so million illegal immigrants other than by drastically increasing the resources for border and immigration enforcement. In fiscal year 2008, the Federal Government removed 347,184 individuals. In fiscal year 2009, $5.6 billion is available to locate, detain, and remove unauthorized aliens. At the current pace of removals, it could require a further investment of $272 billion and 31 years to locate and remove the estimated 11 million unauthorized aliens in the United States. We must ask whether we are willing or can afford to make that kind of investment in enforcement rather than investing time in comprehensive immigration reform.

I appreciate very much the courtesies of the distinguished Senator from West Virginia and his staff and all members of the Appropriations Committee during our preparation of this bill. I believe it reflects our careful consideration of the President's budget request for the Department and our best effort to address the Department's resource requirements of the Department for the coming fiscal year. I look forward to considering amendments which Senators may suggest to the bill and to work throughout the appropriations process to ensure the Department has the funds to carry out its duties and responsibilities.

In closing, I would point out that the President's budget was received on May 7 and the Appropriations Committee is working diligently to move forward on the passage of our 12 appropriations bills. Two of the 12 fiscal year 2010 appropriations bills were reported by the committee on June 18—including this Homeland Security bill—and 2 more were reported on June 25. Another five of the appropriations bills are scheduled to be considered and reported by the committee this week—two this afternoon and another three on Thursday.

The House considered and adopted its version of the fiscal year 2010 Department of Homeland Security Appropriations bill on June 24. It is unfortunate that Senate consideration of this bill could not have occurred that same week, which would have put us in a position now to go to conference with the House.

Expeditious consideration of the fiscal year 2010 appropriations bills by the Senate is required if the Congress is to complete its work on all twelve of the appropriations bills by the October 1 start of the fiscal year. I have long been concerned about our failure to complete our appropriations work on time and the consequences of inaction, and I intend to speak at greater length on that during our consideration of this bill.

But, I do want to note here that a letter, dated March 24, 2009, to the majority leader, which included the signatures of all Republican Members, asked that the legislative schedule for this session:

> . . . allocate an appropriate amount of time for the Senate to consider, vote and initiate the conference process on each of the 12 appropriations bills independently through a deliberative and transparent process on the Senate floor.

The letter goes on to point out that:

> For a variety of reasons, over the past several years, the Senate has failed to debate, amend and pass each of the bills separately prior to the end of the fiscal year. Far too often this has resulted in the creation of omnibus appropriations bills that have been brought to floor so late in the fiscal year that Senators have been forced to either pass a continuing resolution, shut down government or consider an omnibus bill. These omnibus bills have not allowed for adequate public review and have clouded what should otherwise be a transparent process.

The letter further points out that President Obama, on March 11, 2009, said that he expects future spending bills to be

> . . . debated and voted on in an orderly way and sent to [his] desk without delay or obstruction so that we don't face another massive, last minute omnibus bill like this one.

So let us proceed with this bill and debate and dispose of amendments Senators may wish to offer to it without unnecessary delay to allow us to complete our appropriations work this session. And, I would like to add that it is incumbent on our side of the aisle to make sure our amendments are relevant and germane.

I recommend this bill to my colleagues for their consideration and support, and I yield the floor.

The PRESIDING OFFICER. The Senator from Hawaii is recognized.

Mr. INOUYE. Madam President, today the Senate begins its consideration of the Homeland Security appropriations bill which was passed by the House and marked up by the Senate Appropriations Committee late last month. This week the Committee on Appropriations will meet, to consider five additional appropriations bills.

Over the next several weeks we expect to have many of these bills debated and hopefully passed by the Senate so that we can begin final conference deliberations on these critically important measures.

The bill before the Senate was prepared by our Homeland Security Subcommittee chaired by Senator ROBERT BYRD.

Senator BYRD along with this ranking member Senator VOINOVICH of Ohio

and all the subcommittee members crafted this bill which provides $42.7 billion in discretionary spending for the critical programs to defend our Nation, protect our borders and coastline, and respond to natural disasters.

The amount represents a 7 percent increase over the funding provided in fiscal year 2009, but is approximately $150 million less than requested.

An additional $241 million is also included in the bill for the overseas contingency operations of the Coast Guard. This sum was requested in the defense bill for the same purpose.

Our colleagues should thank Senators BYRD and VOINOVICH for completing their hard work on this bill. The bill was marked up by the committee 3 weeks ago and approved on a unanimous bipartisan vote.

As the Senate reviews this and the other spending bills which will soon follow I urge it to be mindful of the importance of this task.

It is imperative to the efficient operation of our Federal Government that we move to pass this measure and complete a conference with the House. For too long we have relied on cumbersome omnibus spending measures to fund our Federal agencies.

In order to break this habit, the Appropriations Committee will continue to report noncontroversial bipartisan bills which will be within the congressionally approved budget levels and should be considered expeditiously by the Senate. Passage of this bill quickly will demonstrate the Senate's ability to act responsibly and collegially in fulfilling its constitutional responsibilities.

The bill before the Senate deserves the support of every Member of this body. It is a clean bill free of unnecessary legislative riders. It is within the committee's spending allocation and $150 million below the amount requested. I strongly recommend its approval.

The PRESIDING OFFICER. The Senator from Alabama is recognized.

AMENDMENT NO. 1371 TO AMENDMENT NO. 1373

Mr. SESSIONS. Madam President, I have an amendment at the desk, No. 1371, and would ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Alabama [Mr. SESSIONS] proposes an amendment numbered 1371 to amendment No. 1373.

Mr. SESSIONS. Madam President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To make the pilot program for employment eligibility confirmation for aliens permanent and to improve verification of immigration status of employees)

On page 72, strike lines 8 through 14 and insert the following:

SEC. 545. Section 144 of the Continuing Appropriations Resolution, 2009 (division A of Public Law 110–329; 122 Stat. 3581), as amended by section 101 of division J of the Omnibus Appropriations Act, 2009 (Public Law 111–8; 123 Stat. 988), is further amended by striking ''September 30, 2009'' and inserting ''September 30, 2012''.

SEC. 546. Section 401(b) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104–208; 8 U.S.C. 1324a note) is amended by striking ''Unless'' and all that follows.

SEC. 547. The head of each agency or department of the United States that enters into a contract shall require, as a condition of the contract, that the contractor participate in the pilot program described in 404 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104–209; 8 U.S.C. 1324a note) to verify the employment eligibility of—

(1) all individuals hired during the term of the contract by the contractor to perform employment duties within the United States; and

(2) all individuals assigned by the contractor to perform work within the United States the under such contract.

SEC. 548. (a)(1) Sections 401(c)(1), 403(a), 403(b)(1), 403(c)(1), and 405(b)(2) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104–208; 8 U.S.C. 1324a note) are amended by striking ''basic pilot program'' each place that term appears and inserting ''E-Verify Program''.

(2) The heading of section 403(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 is amended by striking ''BASIC PILOT'' and inserting ''E-VERIFY''.

(b) Section 404(h)(1) of the Illegal Immigration Reform and Immigration Responsibility Act of 1996 (Public Law 104–208; 8 U.S.C. 1324a note) is amended by striking ''under a pilot program'' and inserting ''under this subtitle''.

Mr. SESSIONS. This is an amendment to make permanent the E-Verify system that is supported by Secretary of Homeland Security Napolitano and would require that all governmental contractors who do work for the Federal Government use it before they hire people to ensure that the individuals they hire are Americans and not illegally in the country.

At a time when our unemployment rate is now 9.5 percent, this is more important now than ever.

I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

SENATOR-ELECT AL FRANKEN

Ms. KLOBUCHAR. Madam President, today, a new Senator from Minnesota is being sworn in. It is my honor, along with former Vice President Mondale, to escort AL FRANKEN as the new Senator from our State. I think it was AL who told me the third year of his campaign would be the best, and he was right.

I did want to thank my staff, first of all—some of them, many of them, are here—for the hard work they did in the past 6 months doing double duty. They never complained, they did it without extra resources, and they are as happy as can be this has finally been resolved.

I also wanted to say something about Norm Coleman. Last week, he made a difficult decision. He had the right to pursue a legal challenge, but he did what was right for Minnesota. Norm was my Senate colleague for 2 years. We often worked together on issues for Minnesota, and we all wish him and his family the best.

So despite a little delay, to be exact, 246 days since election day and 183 days since the Senate convened—why would I know that—AL FRANKEN now joins me in representing the State of Minnesota. I have gotten to know AL very well over the past few years. I know he will be getting acquainted with his fellow Senators in the coming weeks and the coming months. This a special place with special people. I know AL looks forward to working with every Member of the Senate.

I also know AL arrived in Washington ready to get to work and ready to serve the people of Minnesota. He brings with him that same high energy and passion and idealism of our friend Paul Wellstone.

I was telling AL when I first came to the Capitol I was stunned at how many people would come up to me, when I said I was a Senator from Minnesota, and say: That is where Paul Wellstone was from. It was not just other Senators, it was people such as the tram operators, the secretaries at the front desk, the cops who work on the front line. They remembered Paul because of his dignity and how he treated people. And AL, I know, will do the same.

Before seeking elected office, AL had a full career. Among other things he was an Emmy Award-winning television writer and producer, a best-selling author with three of his books going to the very top of the New York Times Bestseller List. He was the host of a national radio show and a Grammy Award-winning satirist, who, with the USO, has gone overseas several times—seven times in fact. He went four times to Iraq to entertain our troops and to visit our wounded solders.

We all know AL spent some time in comedy, but during this long campaign, he has demonstrated to Minnesotans that he takes his job very seriously. I know he is taking his new job as a Senator incredibly seriously.

AL's heart is with middle-class families who work hard, live responsibly, and follow the rules. He knows their hopes and fears, their dreams and their struggles. He knows it because he has lived it.

When AL was 4 his family moved to the town of Albert Lea in southern Minnesota. AL always tells the story

about that move. His dad never graduated from high school and never had a career. But his mom's father owned a quilting business out East, and he gave AL's dad a chance to start up a factory in Albert Lea. After about 2 years the factory failed, and AL's family moved to the Twin Cities. Years later, AL asked his dad: Dad, why Albert Lea?

His dad said: Well, your grandfather wanted to open a factory in the Midwest, and the railroad went right through Albert Lea.

So then AL asked: Why did the factory fail?

His father said: Well, it went through Albert Lea, but it didn't stop in Albert Lea.

Eventually the family, including AL and his older brother, settled into a two-bedroom, one-bathroom home in the Minneapolis suburb of St. Louis Park. His father became a printing salesman and his mom was a homemaker and worked as a real estate agent. Because of the security and opportunity his family enjoyed living in America, he says he felt like the ''luckiest kid in the world.''

While AL likes to tell jokes, and he has some good ones, he is not one to make fun of family values because there is no husband or father who is more devoted to his family than AL is.

He met his wife—I see her right now up there in the gallery—Franni during his first year at college. They have been married 33 years, and together they have raised two children.

AL often tells the story about Franni's family. Her dad, a decorated World War II veteran, died in a car accident when she was 17 months old. Her dad left her mom suddenly widowed and alone with five children.

It was a lesson for the family, and it was an example of how one family pulled themselves up with help. He knows how difficult it is for so many families who are struggling to make it, squeezed over high health care costs, college costs, housing costs.

During the past 2 years, AL has traveled to every corner of Minnesota, from the Iowa border to the Canadian border. He has had coffee at the Main Street cafes, and he has spoken at local bean feeds. He has toured homegrown businesses, and he has stood with workers. He has been to veterans halls, and he has gone to college campuses.

He has been there day in and day out listening to the people of Minnesota. Now he has the honor and the responsibility to serve them in the U.S. Capitol. The Senate is an old and established institution. For any newcomer, it takes some getting used to the arcane rules and unique customs, but I am confident AL can adapt.

This is a big moment for Franni and their kids as well. AL and his friends and relatives have been waiting for a while. The State has been waiting. The Senate has been waiting. But, most importantly to me, Franni has been waiting.

My favorite image from the last few months was this idea that Franni had actually packed a bag with her toothbrush in it; that she had it right next to her bedside in case at any moment the court would come with a decision and she and AL would have to rush to Washington so he could take a critical vote.

Well, today the time has come and AL will cast his first vote. If there is any silver lining to the past 8 months, it is that AL has had time to prepare for this moment. The times are tumultuous, the stakes are high, and history will forever judge whether we fail or succeed, whether we are courageous or timid.

AL FRANKEN is ready for this job. It is time to get to work, and, AL FRANKEN, there is a desk waiting for you in the Senate.

I yield the floor.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The VICE PRESIDENT. Without objection, it is so ordered.

CERTIFICATE OF ELECTION AND CREDENTIALS

The VICE PRESIDENT. The Chair lays before the Senate the certificate of election for a 6-year term, beginning January 3, 2009, for the representation of the State of Minnesota. The certificate, the Chair is advised, is in the form suggested by the Senate. If there is no objection, the reading of the certificate will be waived, and it will be printed in full in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

STATE OF MINNESOTA

Executive Department

CERTIFICATE OF ELECTION FOR SIX-YEAR TERM

To the President of the Senate of the United States:

This is to certify that on the fourth day of November, 2008, Al Franken was duly chosen by the qualified electors of the State of Minnesota a Senator from said State to represent said State in the Senate of the United States for the term of six years, beginning on the 3rd day of January, 2009.

Witness: His excellency our governor Tim Pawlenty, and our seal hereto affixed at Saint Paul, Minnesota this 30th day of June, in the year of our Lord 2009.

By the governor:

TIM PAWLENTY,
Governor.
MARK RITCHIE,
Secretary of State.

[State Seal Affixed]

ADMINISTRATION OF OATH OF OFFICE

The VICE PRESIDENT. If the Senator elect will present himself at the desk, the Chair will administer the oath of office as required by the Constitution and prescribed by law.

The Senator elect, escorted by Mrs. KLOBUCHAR and former Vice President Walter Mondale, advanced to the desk of the Vice President; the oath prescribed by law was administered to him by the Vice President; and he subscribed to the oath in the Official Oath Book.

The VICE PRESIDENT. Congratulations, Senator.

(Applause, Senators rising.)

The PRESIDING OFFICER (Mrs. GILLIBRAND). The majority leader.

MAJORITY PARTY COMMITTEE MEMBERSHIP

Mr. REID. Madam President, I have a resolution at the desk, and I ask for its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The legislative clerk read as follows:

A resolution (S. Res. 208) to constitute the majority party's membership on certain committees for the One Hundred Eleventh Congress, or until their successors are chosen.

The PRESIDING OFFICER. Without objection, the resolution is considered and agreed to.

The resolution (S. Res. 208) was agreed to, as follows:

S. RES. 208

Resolved, That the following shall constitute the majority party's membership on the following committee for the One Hundred Eleventh Congress, or until their successors are chosen:

COMMITTEE ON THE JUDICIARY: Mr. Leahy (Chairman), Mr. Kohl, Mrs. Feinstein, Mr. Feingold, Mr. Schumer, Mr. Durbin, Mr. Cardin, Mr. Whitehouse, Ms. Klobuchar, Mr. Kaufman, Mr. Specter, and Mr. Franken.

Mr. DURBIN. I move to reconsider the vote.

Mr. NELSON of Florida. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. REID. Madam President, under the authority granted pursuant to S. Res. 18, I announce that Senator FRANKEN has been assigned to the following committees: the Committee on Indian Affairs, the Select Committee on Aging and, as was just agreed to, the Committee on the Judiciary. As soon as the markup is completed in the HELP Committee on the health care bill, he will go on to the HELP Committee.

RECESS

Mr. REID. Madam President, I ask unanimous consent that we recess 10 minutes early today.

There being no objection, the Senate, at 12:20 p.m., recessed until 2:15 p.m. and reassembled when called to order by the Acting President pro tempore.

Mr. SCHUMER. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2010—Continued

AMENDMENT NO. 1371

Mr. SCHUMER. Mr. President, I rise in opposition to Senator SESSIONS' amendment to the Department of Homeland Security appropriations bill. The Sessions amendment would make E-Verify permanent and would immediately mandate all Federal contractors and subcontractors to use E-Verify.

First of all, obviously, legislating on and delaying a critical appropriations bill, which is necessary for us to pass quickly to secure our borders, ports of entry, and our interior points of vulnerability, is a delay we do not need. But, secondly, and more importantly, despite claims that this amendment only seeks to reauthorize E-Verify for 3 years, which I do not oppose, the actual language of the amendment of my distinguished colleague would make E-Verify permanent and mandatory.

There would be nothing wrong with that if the system actually worked, but it does not. The distinguished Senator from Alabama and I agree upon one of the main seven principles for immigration reform which I issued 2 weeks ago; namely, that an employer verification system with tough enforcement and auditing is necessary to significantly diminish the job magnet that attracts illegal aliens to the United States. The bottom line is that they mainly come for jobs, and until they are tough on employers, wave after wave is not going to stop.

As we speak, even under the E-Verify system, any individual who steals a Social Security number—and that is easy these days—and has access to a credible fake ID can get a job in the United States. What is more, nothing about E-Verify stops a U.S. citizen from ''loaning their identity'' to their friends and family to get a job. In either of these cases—an illegal immigrant stealing a Social Security number and getting a fake ID done or some citizen, an employer or whatever, giving a Social Security card to the person—it doesn't do the job because that illegal immigrant can enter into the system. Once they are in the system, they stay in it, never to be removed. So E-Verify, frankly—and I know many in the immigrant community object to it because it only affects immigrants. But there is also another objection, and that is that it is just not tough enough, it is not strong enough. If we are going to make a system permanent, it really ought to work.

The current E-Verify system creates havoc for both employers and employees. No one has any certainty. Employers who accept all credible documents in good faith are not guaranteed they will never be targeted by ICE for turning a blind eye toward illegal immigrants in their workplace, and employers who question suspicious documents face potential lawsuits from U.S. citizen employees who can claim they were wrongly profiled as illegal immigrants.

There is only one way to really get a system that will stop illegal immigration and stop employers from hiring, and that is by creating a biometric-based Federal employment verification system that will give both employers and employees the peace of mind that employment relationships are both lawful and proper. It will also give the American people the same peace of mind. This system will be our most important asset in dramatically reducing the number of illegal aliens who are able to live and work in the United States.

There are many proposals for practical and effective biometric-based employment verification systems, and the immigration subcommittee, which I chair, will be vetting each proposal during our upcoming hearing on July 22. The distinguished Senator from Alabama, my friend, is a member of the immigration subcommittee. I invite him to engage in this critical process for our country during the hearing and ask all of the questions he would like to the distinguished panel of expert witnesses who will be appearing. We are not seeking to delay. I am eager to enact comprehensive reform with a strong, tough employer verification system.

An amendment making the flawed E-Verify system permanent and mandatory will only create more problems than it solves. Once we go down the road of making this flawed system permanent and mandatory, without fixing what is wrong with the program, we will waste substantial amounts of taxpayer money and we will make life more difficult, rather than simpler, for employers who wish to do the right thing, and for employees.

The time is coming for comprehensive immigration reform. The legislation will create the best employment verification system possible that will be a product of deliberation and consensus and will be informed by the world's foremost experts on this issue. It will be tougher, tighter, and more effective than E-Verify. I believe we can get that done this year.

Let's not do something hasty and counterproductive just to say we are doing something, and, just as important, let's not do it as an amendment to an appropriations bill. I urge my colleagues to vote against this amendment, and let's get to work on crafting an employer verification system that really works, prevents identity fraud, and actually curtails the illegal immigration job magnet.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. THUNE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. THUNE. Mr. President, I ask unanimous consent to speak as in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CAP AND TRADE

Mr. THUNE. Mr. President, like many of my colleagues, last week, over the Fourth of July break, I spent much of the week traveling in my State of South Dakota. Many of my colleagues were in their individual States and probably heard a lot from their constituents about what they perceive to be the challenges facing our country's economy. First and foremost is jobs and the economy.

I think there is a real concern—and rightly so—about in which direction the economy is headed and what are the things Congress ought to properly be focused on, and I think that discussion is always informed by the American people by commonsense realizations. One realization is that you cannot spend money you don't have. That is something I think the American people get very clearly, largely because that is their reality. They cannot spend money they don't have. They have to live within a budget. The same is true with many small businesses. The second realization is that when you borrow money, someday you have to pay it back. You cannot continue to borrow endlessly and rack up more and more debt. At some point, there is an end to that. Certainly, that is true for family budgets and small business budgets. The only place it is evidently not true is in Washington, DC, where we continue to borrow and spend and put massive amounts of borrowing and debt upon future generations. Even most State governments—mine included—have balanced budget amendments that require them in any given year to make sure the revenues they

take in match up with expenses. If they don't do that in South Dakota, the legislature has to stay until the budget is balanced. So most Americans, as they observe what is happening in Washington these days, are increasingly concerned by the massive amounts of spending and borrowing and, frankly, the taxes they perceive to be in their future as well.

One of the things that is clear to me in doing parades and public events over the Fourth of July break is how much people picked up on the debate about the cap-and-trade bill, which is a national energy tax on the American people. It passed in the House a little over a week ago—before the break—by a seven-vote margin. There was big pressure to move it very quickly and jam it through the process. It was over 1,200 pages long. One amendment was 300 pages long. There weren't many Members of the House—before the bill passed—who had an opportunity to review it and study it closely to determine what the ramifications will be on their constituents if the bill passed. Yet it did. It was a very close vote. At some point, it will be considered by the Senate.

The one thing we know, at a minimum, is that we can debate about how much or how big the cost of that bill will be, but we do know it is going to impose significant increases in costs on the American public for power, whether it is electricity, fuel, natural gas, or home heating oil—the things the American people depend upon every single day for their very existence. They are going to see the cost of those things go up if this cap-and-trade bill passes. We have seen different estimates by different organizations. The most recent one was done by the CBO, which concluded that it will have a $700 billion impact. I think that if you reduced it to a per-family cost, it ends up being several hundred dollars a year in increased rates that they are going to pay. I argue that it will be much higher for people in the Midwest, where I come from, because of the way we derive our power. Most of it comes from coal-fired power. It is true that we get a good amount in South Dakota and other States around us get even more from those sources. There will be additional costs imposed upon the people in the Midwest, where the people on the west or east coasts may not see their costs go up as much. This will disproportionately impact people in the heartland, but everybody's electricity costs and fuel costs are going up if this passes.

The American people are asking: OK, if you are going to put a massive new tax on us with a new energy tax, what kinds of benefits do we derive? I think there is increasing concern and questions being raised about whether the environmental benefit that would be derived as a result of this massive new tax on energy in this country would be in any way close to the cost that would be associated with it. I think most Americans have concluded that it will not. Most of the data bears that out. Other countries in the world are not going to participate in this system, and America will be unilaterally implementing this regime, if passed, and the Americans will pay the costs for little benefit.

There are many ways you can get reduction in carbon emissions, and we are all looking for ways to reduce pollutants in the atmosphere. You can give incentives and drive investment in certain directions, and we could make more use of nuclear power, which is clean, green energy—something we do very little of relative to our counterparts in other parts of the world. France gets 80 percent of its power from nuclear energy. There is no reason why the United States could not turn to that clean, green energy source, as well as renewable energy sources that we have an abundance of in my part of the country, such as wind energy. If you put in incentives and drive investment in that direction, you can achieve the same ends without putting the big cap, top-down government mandate on the American economy at an enormous cost to the American consumers.

HEALTH CARE

That is the issue, I would say, probably as much as anything else I have heard people talk about, but not far behind it was this notion that the government is now going to take over one-sixth of our economy because of the legislation that is moving through the Congress right now that would ''reform'' our health care system.

It is, I guess, no surprise to most Americans that we spend a lot on health care. Most of us would like to see us spend less on health care. Many of us think we can do that, that we can get costs under control, that we can do it through reforms that preserve what is good about the American health care system, that doesn't copy what is happening in other places around the world, Europe being an example, where care is rationed, where people don't have access to the types of therapies and treatments because the government decides what procedures are going to be covered, which procedures are cost-effective.

Those are decisions made by government. In this country, those are decisions made by patients and doctors, by physicians, by health care providers and those they serve. We believe that is a basic relationship we ought to preserve when we talk about reforming our health care system.

But most Americans are very concerned that the government may take over one-sixth of the American economy and run it, imposing the government in the place of, as I said before, what has typically been a relationship between physicians and patients.

What I would argue is that whether it is the issue of new energy taxes on the American consumer, whether it is the issue of the government taking over the health care system in this country at a minimum cost of $1 trillion—there was a CBO Congressional Budget Office report that came out recently that said the new plan the Democrats are unveiling may only be $600 billion, but it also doesn't include many of the most costly parts of the plan that we expect the Democrats to put on the floor of the Senate at some point in the not too distant future.

I will simply say again that based on the feedback I got from people across this country and people across South Dakota in particular over the break, the government takeover of health care in this country is something with which they are very uncomfortable, and they don't want to pay trillions of dollars in new taxes to make that possible.

If you talk about the amount of spending that is going on, the amount of borrowing we are doing from future generations, I think most Americans come back to those two basic principles I mentioned earlier, what I call our sort of commonsense conclusions that the American people come to. One is, you cannot spend money you do not have, and they see Washington doing that every single day; that when you borrow money, at some point you have to pay it back. And there is borrowing going on here right now like there is no tomorrow.

The health care entitlement program, if passed, would be a minimum of $1 trillion in new spending and would either have to be financed by tax increases, by revenue raisers the economy is going to pay for at a time we can least afford it, or by borrowing at a time when we are running over the next decade at least on average $1 trillion a year in deficits.

We cannot continue on this path. It is unsustainable. I believe the American people are coming to that realization. I hope the Senate will put the brakes on this energy tax, will put the brakes on this massive rush to take over one-sixth of our economy by taking over the health care system in this country.

I believe as the American people start to weigh in to this debate those of us in Washington who are in positions to make some of these policies and shape some of these policies will be getting an earful, and I hope so because we need to put the brakes on this massive takeover of the health care system, and we need to put the brakes on this cap and trade, this energy tax imposed on the American people, if it is passed in the Senate as it was a week ago in the House of Representatives.

I hope we can stop those things. I hope at least we can bring some sense

to the debate about health care that does reform our system, that does get costs under control, that does not allow the government to get in the way of making decisions that rightfully ought to be made by patients and their doctors.

I yield the floor and yield back the remainder of my time.

The ACTING PRESIDENT pro tempore. The Senator from South Carolina.

Mr. DEMINT. Mr. President, I thank my colleague, Senator THUNE, for pointing out, again, the disastrous course we are on as a nation with the level of spending, borrowing, and debt we are creating and the amount of government intrusion into so many areas of our economy that have alarmed so many Americans. I appreciate the Senator bringing up that issue today.

AMENDMENT NO. 1399 TO AMENDMENT NO. 1373

I rise today to express my grave concerns about the administration's response to the situation in Honduras. There are few absolutes in the arena of diplomacy and international affairs. As circumstances and regimes change, so do our interests and allegiances. But one principle that should stand as a bedrock constant is this: a friend of freedom is a friend of America. Our commitment to freedom is not confined to a culture or a continent. It is absolute and universal.

It was this principle, hardwired into our DNA, that President Obama appeared to violate during his 8 days of silence while innocent democratic demonstrators were tortured and murdered in the streets of Tehran by Iran's tyrannical regime.

Thankfully, the President finally changed his rhetoric and offered some support to the people of Iran risking their lives for their freedom. But he stopped short of any criticism or action that might be construed as ''meddling,'' in his words, in the domestic affairs of a sovereign nation.

But in the last week, the President has reversed course, meddling up to his ears in the domestic affairs of another sovereign nation, Honduras. Depressingly, the President has once again sided with an illegitimate and anti-American autocrat over democracy, the rule of law, and an oppressed people who only want to be free.

The facts on the ground in Honduras are neither disputed nor confusing, but they have been largely ignored by an international media distracted by the death of a celebrity.

Let me read these facts into the record.

Honduras is a constitutional republic and a longtime ally of the United States. It is one of the poorest nations in the Western Hemisphere, especially since it was ravaged by the direct hit of Hurricane Mitch in 1998.

In 2005, Hondurans elected as their President Manuel Zelaya, a left of center but seemingly moderate candidate from the Liberal Party. Given Latin America's troubling history of military coups and self-appointed Presidents for life, the Honduran Constitution strictly limits Presidents to one term.

So seriously do Hondurans take their Presidential term limits that in Latin America, the phrase—and I will butcher this Spanish, but I want to give it a try—''continuar en el poder.'' It means to continue in power. It carries with it a dark connotation to the region for everyone living there.

For a President to overthrow the Constitution and violate term limits is violating the constitutional form of government. So seriously that article 238 of the Honduran Constitution says any President who even proposes an extension of his tenure in office ''shall immediately cease performing the functions of his post.'' So it is a de facto resignation of office in Honduras for a President to attempt to do what their President did.

Zelaya's 2005 campaign was supported by Hugo Chavez, the Marxist Venezuelan dictator bent on amassing power in the Western Hemisphere at the expense of what he calls ''the North American empire.'' That is us.

Zelaya quickly aligned his government with Chavez's and joined anti-American socialists, such as the Castro brothers in Cuba and Daniel Ortega in Nicaragua, in Chavez's economic cartel.

With Zelaya's term coming to an end early next year, Chavez convinced him to do as he has done in Venezuela: to force a constitutional amendment extending his Presidential term. This would be in direct violation of what their Constitution says.

Earlier this year, Zelaya called for a referendum to initiate a constitutional convention. In the ensuing litigation, the Honduran courts ruled the referendum was unconstitutional and illegal, as the Honduran Constitution explicitly gives only its Congress the power to call such a vote.

Zelaya forged ahead, calling his referendum a ''nonbinding survey.'' This, too, the supreme court found unconstitutional.

Zelaya then ordered the head of the Honduran military, General Vasquez, to conduct the election anyway. Vasquez expressed concerns about the vote's legality, so Zelaya fired him.

The supreme court ordered Zelaya to reinstate Vasquez, and Zelaya refused. The supreme court ordered the military to seize the referendum ballots to prevent Zelaya from going ahead with the illegal vote. Zelaya then personally led an armed mob to steal back the ballots, which, it should be noted, were suspiciously printed in Venezuela. Zelaya ordered his government to set up 15,000 polling places to conduct the referendum for June 28.

On Friday, June 26, the Attorney General of Honduras, Luis Rubi, filed a complaint before the Honduran Supreme Court petitioning for an arrest warrant for President Zelaya. The court issued the warrant unanimously and, according to the Constitution, ordered the Honduran military to execute it.

Early in the morning of Sunday, June 28, the day of the vote, the military arrested President Zelaya at his home. They put him on a plane to Costa Rica, as Honduras has no prison capable of withstanding a mob riot of the sort they feared Chavez and Ortega might whip up. So they did it for his safety.

That same day, the Honduran Congress, controlled by his Liberal Party—his own party—voted 125 to 3 to replace Zelaya with their speaker, Roberto Micheletti, as a member of the Liberal Party. This transfer of power was strictly in keeping with Honduras's constitutional line of succession as the Vice President had recently resigned.

The regularly scheduled general elections remain set for this November, and interim President Micheletti is not a candidate. The previously nominated candidates from the two major parties remain on the campaign trail, and both candidates and parties overwhelmingly approved the ouster of Zelaya.

At every step in the process, the legitimate democratic government strictly adhered to the Honduran Constitution and civilian leadership of the military remained intact. The military did not execute a coup. It thwarted the coup plotted by Hugo Chavez and implemented by Manuel Zelaya.

Honduras's democratic institutions are operating today, and its government functions are secure. The only aggrieved party in this process is Mr. Chavez, whose brazen attempts to corrupt Honduran democracy was thwarted by what has now been nicknamed ''the little country that could.''

The people of Honduras stood up to Hugo Chavez, Daniel Ortega, the Castro brothers, and they stood up for freedom and the rule of law. For their courage, President Obama has condemned them. He has called the constitutional ouster of President Zelaya not legal, claiming an expertise in Honduran law over and above that of a unanimous Honduran Supreme Court and a nearly unanimous Honduran Congress.

Secretary of State Clinton lazily joined the international media in calling the removal of President Zelaya ''a coup,'' a term fraught with dark memories of military juntas and banana republic. Of course, this is the same administration that insists on calling the recent fraud in Iran an election.

The Obama administration joined Chavez's preposterous Soviet-style propaganda resolution in the Organization of American States condemning Honduran democracy. Hondurans I have spoken with—I have spoken with

a number of folks who have missionary groups there, medical groups. I have talked to Miguel Estrada who was born and raised in Honduras and is now a constitutional expert in this country. This morning I talked to former Honduran President Ricardo Maduro. They are all totally befuddled at the strange response they are getting from the supposedly free world, including our own administration. Why are we siding with Hugo Chavez?

This morning in Russia, President Obama reiterated his support for Zelaya, the would-be dictator, as the rightful President of Honduras. According to ABC News, he said:

America supports now the restoration of the democratically elected President of Honduras, even though he has strongly opposed American policies.

Continuing with the quote from President Obama:

We do so not because we agree with him. We do so because we respect the universal principle that people should choose their own leaders, whether they are leaders we agree with or not.

The President appears to think his support for Zelaya is based on some principles of self-determination. He speaks as if opposition to Zelaya is based on partisan political differences. Zelaya was not ousted by political enemies; he was ousted by a government controlled by his own party. He was ousted by a unanimous supreme court operating in accordance with the Honduran Constitution and in conjunction with the nation's attorney general and Supreme Electoral Tribunal. These folks followed the rule of law.

The Honduran people have chosen their own leaders. Those leaders—in a constitutional, bipartisan, and nearly unanimous process—removed Manuel Zelaya from office. The Honduran people have upheld our President's so-called universal principle. The people seeking to undermine that principle are Hugo Chavez, the Castro brothers, Daniel Ortega, Mel Zelaya, and—unbelievably—the Obama administration.

This is not about politics. This is about the rule of law, freedom, and democracy, all of which are being defended by the Hondurans right now against their enemies—of which we appear to be one. Why are we not standing with them? Blood was shed in Iran while we stood idly by. Zelaya's return to Honduras on a Venezuelan jet and with the moral authority of the United States will almost certainly lead to more bloodshed. What are we doing on the side of tyrants and sworn enemies of freedom; going as far, on their behalf, to threaten economic sanctions against one of our poorest and bravest allies?

Secretary of State Clinton is reportedly planning a meeting with Mr. Zelaya in Washington this week. I implore her to reconsider that meeting. Elevating an impeached and disgraced autocrat is more than an insult to Honduran democracy, it is a green light to other would-be Chavezes around Latin America. It is a signal to the enemies of democracy and freedom that the United States no longer stands as a beacon of liberty. It is a signal that the rule of law is now passe in Latin America and that Hugo Chavez and his corrupt and brutal idealogy has free rein to meddle wherever he pleases in the Western Hemisphere.

What do we stand for, if not for freedom, democracy, and the rule of law? Where is the spine of the administration to stand up to anti-American and antidemocratic thugs in our own back yard? Where is the intellectual clarity to see the facts on the ground as they are? Manuel Zelaya is a criminal, a constitutionally removed former President of a proud and noble country. To my knowledge, no administration official has refuted or even grappled with the facts regarding Zelaya's attempted coup.

Given those still undisputed and documented facts, on what basis does the administration demand Zelaya's reinstatement? His removal from office was no more a coup than was Gerald Ford's ascendance to the Oval Office or the election to the Senate of our newest colleague, Al Franken. It is bad enough that the President's ad hoc and highly personalized foreign policy seems to be less about supporting the rule of law than it is about supporting particular rulers. But the last 4 weeks suggest that the President cannot even be counted upon to support our legitimate allies.

What happened in Honduras last week was not a tragedy, it was a triumph of democratic courage and the unyielding determination of a free people to stand up to despotism. The tragedy has been the failure of the West and of our own government in Washington to stand up for justice and freedom in Latin America.

It is not too late. I have written to Secretary Clinton, and there is growing congressional support for the legitimate government in Honduras. Everywhere I go someone comes up to me and tells me to stand up for freedom in Honduras. There is still time to look at the facts, even to visit Honduras itself. Call down there, talk to the people, even Americans in the Peace Corps or on missionary work, and ask them if they are living under an oppressive military junta. They will laugh and tell you they are living under an independent and vibrant democracy, with a representative government led by people they elected. They will tell you about the free and open debate in the ongoing Presidential campaign and whom they are supporting in the November elections.

There is still time to correct our position and support our true allies. And because we can, we should. We must. Because today—and I will try my Spanish again—''un amigo de libertad es un amigo de Honduras''—a friend of freedom is a friend of Honduras.

Mr. President, before I yield, I ask unanimous consent to set aside the pending amendment and call up the DeMint amendment.

The PRESIDING OFFICER (Mr. UDALL of Colorado). Is there objection?

Hearing no objection, it is so ordered. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from South Carolina [Mr. DEMINT] proposes an amendment numbered 1399 to amendment No. 1373.

Mr. DEMINT. I ask unanimous consent to dispense with the reading of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To require the completion of at least 700 miles of reinforced fencing along the southwest border by December 31, 2010)

At the appropriate place, insert the following:

SEC. ___. BORDER FENCE COMPLETION.

(a) MINIMUM REQUIREMENTS.—Section 102(b)(1) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1103 note) is amended—

(1) in subparagraph (A), by adding at the end the following: ''Fencing that does not effectively restrain pedestrian traffic (such as vehicle barriers and virtual fencing) may not be used to meet the 700-mile fence requirement under this subparagraph.'';

(2) in subparagraph (B)—

(A) in clause (i), by striking ''and'' at the end;

(B) in clause (ii), by striking the period at the end and inserting ''; and''; and

(C) by adding at the end the following:

''(iii) not later than December 31, 2010, complete the construction of all the reinforced fencing and the installation of the related equipment described in subparagraph (A).''; and

(3) in subparagraph (C), by adding at the end the following:

''(iii) FUNDING NOT CONTINGENT ON CONSULTATION.—Amounts appropriated to carry out this paragraph may not be impounded or otherwise withheld for failure to fully comply with the consultation requirement under clause (i).''.

(b) REPORT.—Not later than September 30, 2009, the Secretary of Homeland Security shall submit a report to Congress that describes—

(1) the progress made in completing the reinforced fencing required under section 102(b)(1) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1103 note), as amended by this Act; and

(2) the plans for completing such fencing before December 31, 2010.

Mr. DEMINT. Mr. President, I will speak to the amendment later. I see a colleague wanting to speak and so I will yield the floor.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. MCCAIN. Mr. President, what is the pending business?

The PRESIDING OFFICER. The DeMint amendment No. 1399.

Mr. MCCAIN. And the underlying legislation is the Department of Homeland Security appropriations bill?

The PRESIDING OFFICER. The Senator is correct.

AMENDMENT NO. 1400 TO AMENDMENT NO. 1373

Mr. MCCAIN. Mr. President, I ask unanimous consent to set aside the pending amendment and to call up amendment No. 1400.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. MCCAIN] proposes an amendment numbered 1400 to amendment No. 1373.

Mr. MCCAIN. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To eliminate the appropriation for the Over-the-Road Bus Security Assistance, as recommended by the Administration)

On page 31, line 19, strike all through page 32, line 3, and insert the following:

(6) $350,000,000 shall be for Public Transportation Security Assistance and Railroad Security Assistance under sections 1406 and 1513 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (Public Law 110-53; 6 U.S.C. 1135 and 1163), of which not less than $25,000,000 shall be for Amtrak security.

Mr. MCCAIN. Mr. President, the Department of Homeland Security appropriations bill before us today spends $44.3 billion. It is $207.5 million—or 7 percent more than last year's appropriation and nearly $97 million more than the budget request. An increase of this size is remarkable. I need to remind my colleagues that Americans are hurting, they are losing their jobs and their homes at record rates, and here we are, business as usual, as was made very clear in the vote on the amendment that was defeated concerning a museum in Nebraska on another appropriations bill—a bill that was supposed to be for funding legislative business of the Congress. On this bill again, it is business as usual. The level of spending is wrong, and there are numerous unrequested, unauthorized earmarks which were added at the direction of members of the Appropriations Committee and the Senate.

Maybe we ought to take a look at them. This is the Department of Homeland Security appropriations bill, I would remind my colleagues, but we threw in $4 million for the Fort Madison Bridge in Fort Madison, WI. As always, there are earmarks and geographic locations delineated in the bill for these pork-barrel projects. There is $39.7 million for the Advanced Training Center in West Virginia and $3.6 million for the Coast Guard Operations Systems Center in West Virginia. That is a good place for Coast Guard operations, to say the least.

I wish to point out that none of these earmarks were authorized. None of them had a hearing. None of them were requested. In fact, three of them I will read about were included in the President's budget request in a report from the Office of Management and Budget entitled ''Terminations, Reductions, and Savings: Budget of the U.S. Government, Fiscal Year 2010,'' which was submitted by the Office of Management and Budget. In other words, the administration requested that these specific appropriations not be spent because of the fact they either are not needed or are outright wasteful spending of the taxpayers' dollars.

Continuing with the list of earmarks in this bill, we have another $16.8 million for the Coast Guard Station in Cleveland Harbor, OH, to demolish the existing facility and construct a new multipurpose building.

I wish to emphasize to my colleagues that these may be worthy projects. They may be. Generally, they aren't, but they may be. But there has been no hearing, there is no request on the part of the administration, there is no request from anybody except for the representative of that State.

Continuing: $4 million for the National Infrastructure Simulation and Analysis Center; $102 million for the National Domestic Preparedness Consortium—and that contains six earmarks: The National Energetic Materials Research and Testing Center in New Mexico, $23 million; National Center for Biomedical Research and Training at Louisiana State University, $23 million; National Emergency Response and Rescue Training Center at Texas A&M University, $23 million; National Exercise, Test, and Training Center in Nevada, $23 million; Transportation Technology Center in Pueblo, CO, $5 million; and, of course, we never want to forget the Natural Disaster Preparedness Training Center at the University of Hawaii, $5 million.

There is $3 million for the Distributed Environment for Critical Infrastructure Decision-making Exercises. We need $3 million for the infrastructure decision-making exercises. Money is also set aside for the Cyber Security Consortium, which is a group of schools, including Miami University of Ohio, Utah State University, University of Nevada at Reno, and Potomac Institute for Policy Studies.

A certain thread may become apparent throughout this conversation and that is that States which are generally getting most of this money happen to have representatives in the Senate on the Appropriations Committee.

There is $2 million for the Cincinnati Urban Area Partnership; $20.8 million for the Southeast Region Research Initiative; $300,000 for the City of Hackensack Emergency Operations Center. Emergency operations centers are very popular in this bill. But there was no competition for these emergency operation centers. They may be worthwhile, they may not. We will never know because they are earmarked by the Members and they range from $1 million to $20 million to $247,000. We have New Jersey, New Jersey, New Jersey; Washington State; Providence, RI; north Louisiana; Little Rock; Vermont; Columbus, OH; city of Ames; and the city of Mount Vernon.

There is $900,000 for the City of Whitefish Emergency Operations Center in Montana. And because we wouldn't want to leave them out, there is $1 million for the City of Chicago Emergency Operations Center.

None of these projects were requested by the administration or authorized or competitively bid in any way. No hearing was held to judge whether these were national priorities worthy of scarce taxpayers' dollars. They are in this bill for one reason and one reason only: because of the selective prerogatives of a few Members of the Senate. Sadly, these Members choose to serve their own interests over those of the American taxpayers.

I have filed, and intend to offer, amendments to strike each and every one of these earmarks. Enough is enough. The American people are tired of this process, and they are tired of watching their hard-earned money go down the drain. I intend to fight every single unnecessary, unrequested, unauthorized earmark in every appropriations bill.

In addition to the earmarks I covered, this bill includes millions of dollars for programs that the administration has sought to cut due to the program's ineffectiveness or lack of necessity. The amendment I propose has as an example: The Over-the-road Bus Security Program. The administration proposed in its 2010 budget to eliminate the Over-the-Road Bus Security Program since the awards are not based on risk, as recommended by the 9/11 Commission, and has not been assessed as effective. Specifically, the Office of Management and Budget stated:

Recently, the funding (for this program) has gone to private sector entities for business investments in GPS-type tracking systems that they could be making without Federal funding. For now, this program should be eliminated in favor of funding initiatives aimed at mitigated verified transit threats.

Again, in the Office of Management and Budget submission the administration says:

The Government Accountability Office has recommended that TSA conduct an in-depth risk analysis of the commercial vehicle sector before more funding is allocated.

For now, this program should be eliminated in favor of funding initiatives aimed at mitigating verified transit threats. Funding for the intercity bus industry should be included in the larger Public Rail/Transit Security Grant program and prioritized against all transit-related security investments.

But it is not. Here, on the one hand, we have the President announce with great fanfare a group of reductions and terminations and savings that the administration is going to make and is strongly urging be done. Here we have on the bill an earmark that, indeed, funds these very same programs the administration wants eliminated.

There is another one, and that is the U.S. Coast Guard Loran-C. Loran-C sounds like a pretty good program, but the fact is, this $35 million, by the way, is a federally funded radio navigation system for civil marine use in coastal areas. I will quote from the Office of Management and Budget:

The Nation no longer needs this system because federally supported civilian Global Positioning System—GPS—has replaced it with superior capabilities. As a result, Loran-C, including recent limited technological enhancements, serves only the remaining small group of long-time users. It no longer serves any governmental function and is not capable as a backup for GPS.

So we are going to spend $35 million on GPS that is useless. It is useless for Loran-C. Why? Why would we want to do that? Why would we want to spend that kind of money? It is amazing.

Then there is the emergency operation centers, of course, some $20 million for operation centers in Ohio, Illinois, Indiana, New Jersey—et cetera. These, of course, are obviously the result of earmarks. Again, the Office of Management and Budget says the administration is proposing to eliminate the Emergency Operations Center Grant Program in the 2010 budget because the program's award allocations are not based on risk assessment.

Oh, really. Also:

. . . other Department of Homeland Security grant programs can provide funding for the same purpose more effectively.

It goes on to talk about how the grant program was established:

. . . by supporting flexible, sustainable, secure and interoperable EOCs, with a focus on addressing identified deficiencies and needs. . . . The EOC Grant Program uses award criteria that are not risk-based, and the administration supports a risk-based approach to homeland security grant awards.

I wonder how many of these would be awarded if they were risk based and how many of them are awarded because of the influence of members of the Appropriations Committee.

In addition, in 2009, EOC construction and renovation was approved as an allowable expense under the Emergency Management Performance Grant Program, thus providing a more effective funding mechanism through which potential grantees prioritize expenditures on EOCs against other emergency management initiatives.

In other words, we are spending these millions of dollars—$20 million I guess it is—in an unnecessary fashion that has nothing to do with risk but has everything to do with influence.

It is business as usual in our Nation's Capitol. We just came off a recess. A lot of us spent time, as I did, traveling around our States. People in my State are hurting. People in my State are wondering whether they are going to be able to keep their jobs or get a job; whether they will be able to afford health care; whether they are going to be able to educate their children. They are having to tighten their belts in ways that certainly no one has ever had to do before in their lifetime.

So what do we do here? Business as usual: $97-some-million of unnecessary and unwanted pork. Last year, Congress appropriated many millions of dollars. This, once again, is $97 million more than the budget request, and much of that is obviously unnecessary and unneeded and in some cases even unwanted.

On behalf of the citizens of my State who are having to tighten their belts, who are undergoing unprecedented difficulties and hard times while we are on this spending spree and accumulating trillions of dollars of debt—we are committing generational theft, laying it on our children and grandchildren. I intend to fight for their tax dollars, and I intend to fight until this egregious practice of porkbarrel earmarked spending, which has bred corruption, is brought to a halt.

I ask for the yeas and nays on this amendment.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. MCCAIN. Mr. President, before I yield the floor I would like to include in the RECORD at this time a list of the various bus companies and the States in which they operate. I ask unanimous consent they be printed in the RECORD at this time.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FY 2009 INTERCITY BUS SECURITY GRANT PROGRAM
FINAL ALLOCATIONS

State	Entity name	Amount

The PRESIDING OFFICER. The Senator from Florida is recognized.

Mr. MARTINEZ. Mr. President, I ask unanimous consent I be permitted to speak as in morning business for a period of about 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MARTINEZ. Mr. President, let me begin by thanking my dear friend from the State of Arizona for once again reminding us of this egregious practice of earmark spending that continues to not only grow but continues to be a dark mark on our record as Members of the Congress.

I think, as he rightly pointed out, at a time of serious economic distress in places such as Arizona—and I certainly could say as well in Florida—it is a bit out of sync for us to continue the spending as usual just for the mere fact that there is a member of the Appropriations Committee who can, in fact, command something be done only because it would benefit a narrow interest in their State, within their district, and which, in fact, may not be requested and which may not be needed.

HONDURAS

Mr. MARTINEZ. Mr. President, I rise, though, to speak about the events in Honduras. The events that are taking place in Honduras right now are the unfortunate result of the silence of both the United States and the inter-

American community to the assault on Honduras' democratic institutions.

It is difficult for Hondurans and other democrats within the region to understand the full significance of President Zelaya's expulsion from Honduras. Up until this point, there has not been any significant voice in the opposition to the dismantling of democratic institutions and free societies in Venezuela, Bolivia—and as Honduras was going down the path, you might also add Nicaragua to that, to name only a few of the most visible cases.

It is also hard to explain why there was this silence in the face of President Zelaya's earlier unconstitutional actions, especially the event that appeared to precipitate his ousting: the storming of a military base to seize and distribute ballots for a referendum that previously had been declared unconstitutional by the Honduran Supreme Court.

A fundamental tenet of democracy is the separation of powers. You have a President in the executive branch and then you have the judicial branch of government, a coequal and separate branch, and that branch told the President the referendum he was seeking to have to extend his rule beyond the constitutional term was illegal, it should not be done. He was undeterred and he was completely unrepentant as he sought to continue his plan to have a referendum, even though the Congress, even though the judiciary had already told him that was in contravention of the Constitution of their country.

Where was the region's outrage over Hugo Chavez's support for Mr. Zelaya's unconstitutional actions in Honduras? Mr. Chavez supported Mr. Zelaya because they are kindred spirits, because Mr. Chavez had already been able to usurp every institution of democracy within his country of Venezuela and now rules as an autocrat. He wanted to have the same playbook applied in Honduras as he coached and shepherded to do some of the same things in Bolivia and to some degree in Nicaragua as well—and Nicaragua coming along.

The Honduran people decided this was not going to happen in their country, and the people in the Honduran Congress and in the Honduran Supreme Court decided it was not going to happen on their watch. But the region's silence toward the assault on democracy in Honduras followed a pattern of acquiescence of Chavez's dismantling of democratic institutions and civil liberties in Venezuela.

For instance, the OAS has said absolutely nothing about Chavez's closing of independent media, his manipulation of elections, his erosion of independent branches of government, and his usurping of the authority of local elected officials. Leaders like Chavez, Ortega, and Zelaya have cloaked themselves in the language of democracy when it was convenient for them. Yet their actions ignored it when it did not further their personal ambitions.

This situation was compounded by the actions of the United States, including work behind the scenes to keep the Honduran Congress and Supreme Court from using the clearly legal means of Presidential impeachment. Some of us have wondered why wasn't he impeached? Why didn't the Congress go ahead and impeach President Zelaya? Our Embassy in Tegucigalpa counseled that the Hondurans should not use the tools of impeachment.

Having stood on sidelines while Mr. Zelaya overstepped his nation's Constitution, the United States and the inter-American community only speak now. Protecting a sitting President, regardless of his illegal acts, sets a dangerous precedent. Instead, U.S. policy should be focused on only supporting efforts that uphold the integrity of constitutional order and democratic institutions.

In fairness to the Obama administration, this distorted policy is not new. Through advice from the State Department, former President George W. Bush was talked out of having the United States stand visibly with democratic advocates in Latin America. The advice was based on the belief that by not making the United States an issue, this would allow the region to stand up for democratic activists. Unfortunately, no country or leader did so, and most significant of all, the leader of the OAS has sat idly by, year after year, as democracy after democracy was dismantled, one piece at a time, one election at a time, one institution at a time, saying absolutely nothing.

The OAS has a responsibility to condemn and sanction Presidential abuses, not just abuses against Presidents. Because of the OAS failure to uphold the checks and balances within democracies, it has become an enabler of authoritarian leaders throughout the region. The result of this has been a signal of acceptance to antidemocratic actions and abandonment of those fighting for democracy in Venezuela, Bolivia, Nicaragua, Ecuador, and elsewhere.

This silence was compounded by the recent repudiation of the application of the Inter-American Democratic Charter to the Cuban dictatorship. Ironically, it was in Honduras, with Mr. Zelaya taking a leading role, where the OAS General Assembly decided against any clear democratic standards for Cuba retaking its seat in that organization.

So here is what occurred: The OAS, filled with a desire to reincorporate Cuba into the family of nations, completely ignored that for 50 years Cuba has been a military dictatorship without even the vestiges of a free and fair election, and they invited Cuba to be readmitted without setting up a standard by which they would have to live.

President Zelaya, with his partner Hugo Chavez, was leading the charge in saying Cuba should be welcomed back and there should be no conditions, no conditions of democratic rule like the ones he is now relying upon to try to get his Presidency back.

It is Mr. Zelaya now seeking the very protection of the Democratic Charter of the OAS which he thinks applies to him but which he felt was unimportant to apply the rights and opportunities to the Cuban people to try to claim the democratic future for themselves.

The crisis in Honduras stems from the failure of its leaders to live within constitutional boundaries and from the earlier silence of the United States and the international community regarding the abuse of power by the Honduran executive. Tragically, the United States and the OAS have put Honduras and the region in a position where democracy is the loser once again.

The return of Mr. Zelaya will signal the approval of his unconstitutional acts. If he is not allowed to return, then the unacceptable behavior of forcibly exiling a leader elected by the people would be given tacit approval. This is what happens when principles are sacrificed for a policy that can only be described as the appeasement of authoritarians.

In the current crisis, neither the United States nor other countries in the region or the international community should be taking sides in a constitutional dispute but, rather, encouraging a resolution through dialog among Hondurans. To this end, efforts should be focused on helping Hondurans form a reconciliation government that would include representatives not associated with either the Zelaya administration or the current interim government.

The objective should be to keep Hondurans on track to hold currently scheduled Presidential elections in November, with the inauguration of a new President in January as mandated in the Honduran Constitution. The newly elected President, with an electoral mandate, then can decide whether and how to deal with Mr. Zelaya and those involved in his ouster.

As the Senate takes up President Obama's nominees for key State Department positions in Latin America, it is time to question the acceptance by the United States and the inter-American community of the sustained dismantling of democratic institutions in free societies by Presidents seeking to consolidate personal power at any cost. This is the larger challenge in Latin America, and Honduras is only the latest symptom. The United States must no longer remain silent when democratic institutions are undermined. Any disruption of the constitutional order is unacceptable, regardless of who commits it.

It would be well for us to remember that as we look forward to what may

come next, the Presidential succession ought to be honored, however, institutions of democracy ought to also be equally honored.

Secretary of State Clinton met today at 1 o'clock with deposed President Zelaya. It appears she is seeking to align the United States with the mediation that is about to be undertaken by President Oscar Arias, a Nobel Prize-winning, well-regarded man from Costa Rica, and that President Arias might take this opportunity to see how we can bring this process back together again.

It seems to me that the elections in Honduras ought to take place as scheduled and a new democratically elected government ought to go forward. The real question is, Will Mr. Zelaya be allowed to return to the office of President? It seems to be fairly unanimous that all Honduran institutions oppose such an outcome. They do not want Mr. Zelaya back. They have seen the dark movie of what life can be like in a Cuba-type situation. They have seen the dark movie of what life can be like in a Cuba-type situation. They have seen the erosion of democracy with the complete erosion of freedoms, so much made a dear part of what we in this country believe in that has taken place in Venezuela. They have seen the continued erosion of democratic values in Nicaragua and they do not want to see it happen in their country, and one cannot blame them. It would only be fitting that they should find comfort by those of us in this country who not only value democracy for us but believe it should be shared by others around the world no matter their circumstances.

It isn't good enough to be elected democratically but then rule as a dictator and in the process of being an elected President, then move to erode all of the institutions of democracy—the courts, the congresses, even the military as an institution; they ought to be respected. Their independence ought to be valued. The playbook of Mr. Chavez, which is to dismantle the military leadership and bring in cronies of his, the efforts to then discredit the courts and bring in judges that he would also approve—this has been the playbook by which Chavez has operated and one that Mr. Zelaya was attempting to put into play.

So let's hope President Arias from Costa Rica will be able to lead a mediation effort that will bring together all of the disparate groups so that there can be a free and fair election and there can be a resolution to this crisis of democracy. But let this also be a wake-up call to the rest of us who have sat silently by as this erosion of democracy takes place one country at a time in Latin America. We ought to say: Enough is enough. Let's stand for the rule of law, let's stand for democracy, not only on election day but each and every day thereafter as we seek leaders who not only are elected democratically but govern democratically.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Mr. President, I wish to compliment my colleague from Florida for a very thorough explanation of what has been, to many Americans, a very confusing situation and also his support for the most recent call for a mediation and discussion among the various parties so that this whole matter can be brought to a successful conclusion without armed force or other inappropriate action. I, too, hope that can produce the right kind of result. But I think the point—if I could, while the Senator is still here, make this point strongly, as he did—you have to stand up for what is right. And we all know an election does not a democracy make. You can elect a government which then begins to govern undemocratically.

Unfortunately, some of the governments in the southern part of our hemisphere have started all right with the elections and then ended in a very bad way. We certainly did not want that to happen to our friends in Honduras. And, in fact, the people of Honduras did not want that either. They are people who stood by us when we were trying to support the forces of freedom who were fighting in Nicaragua, and there were some sacrifices on the part of the Hondurans to do that. It is a country that has had very friendly relations with the United States over the years, and it is important for us to stand up for our friends.

For that, I compliment my colleague from Florida, and I again add my voice to his saying we hope these discussions the Secretary of State has now called for can produce an appropriate resolution to this issue without any kind of bloodshed.

Mr. MARTINEZ. I thank the Senator from Arizona for his kind comments. But it also brings up one more point. Honduras has been by our side. There is no more important country, in terms of military relations in Central America, than Honduras, where we have a presence of our military, where we work together in partnership to try to stem the flow of drugs and narcotics into our country, and where we conduct not only training missions but other important training missions with the Honduran military, where we are very involved in providing aid and assistance.

I think it would be well for us to hold back any declaration that a coup has taken place that would then trigger other events. This is not your traditional military coup where a military group decides to set up a junta. These are military people who, while maybe they acted a little too strongly, the fact is, they did not seek power for themselves but they established a congressional order. So it is important.

Mr. KYL. Mr. President, that is precisely the way I see it as well. I hope that helps to clarify for the American people what is really going on there and that we can support our friends in Honduras and that relationship which has existed all these years can continue to be the productive one it has been.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Mr. President, I ask unanimous consent that I be able to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

HELSINKI COMMISSION

Mr. CARDIN. Mr. President, I take this time as the Chairman of the U.S. Helsinki Commission, for which I had the opportunity to lead a delegation of 13 members representing the United States at the 18th Annual Parliamentary Assembly of the Organization for Security and Cooperation in Europe. We attended meetings in Europe, along with representatives, parliamentarians from 56 countries representing Europe, central Asia, Canada, and the United States.

We first decided to stop in Bosnia, and we did that because I am sure my colleagues recall the bloody conflict that erupted in the former Yugoslavia, in Bosnia, in which communities were dislocated and people were killed because of their ethnic background.

We found in Bosnia, because of outside interference, the three ethnic communities that had coexisted for many years were drawn into a conflict. The United States, in the Dayton Accords, took the leadership in trying to figure out a way in which we could get the ethnic communities to live together in peace. As a result of the Dayton Accords, there was this government established for Bosnia which is a bit unusual. There are three Presidents, one representing the orthodox community, the Serbs, one representing the ethnic Bosnians, and one representing the ethnic Croats. And this government brought an end to the open violence.

But we knew in recent weeks and months there had been problems in Bosnia. So we traveled to Sarajevo to talk to all of the ethnic community leaders to see what was happening. And I must tell you, there has been progress in that region, particularly with the neighboring countries that are now progressing, some of which are our strong allies in NATO, and we have seen progress to integration in Europe. So we can take pride in what we have been able to achieve in that region of Europe in the Balkans.

But Bosnia needs our attention. I am pleased we were there. I think it is clear to each member of our delegation that if Bosnia is going to be able to continue its integration into Europe—

we hope that will occur—if Bosnia is going to be able to move on a path toward NATO membership, it needs to have constitutional reform so it has a functioning federal government protecting the rights of the three entities. But it needs to have a government that can function, and during our trip I think we delivered that message. We were there shortly after Vice President BIDEN was there.

We then traveled to Vilnius, where the annual meeting was taking place. But we took the opportunity to visit Minsk in Belarus. We did that because Belarus is a repressive state in which the President, Mr. Lukashenko, rules with an iron fist. The political opposition is denied the normal opportunities of a government.

We went there because we wanted to have an opportunity to advance the OSCE principles. The Helsinki Commission, which is our arm in implementing the OSCE, is known for advancing human rights, it is known for advancing economic cooperation, it is known for advancing security issues. And we went to Belarus because we wanted that country, which is a member of OSCE, to live up to its OSCE commitments, to allow its people basic human rights, the right of a free press, the right to express their views, the right to challenge their government peacefully, the right to organize the religions of their choice, and the right for economic reform, which is being denied to the people of Belarus. We met with President Lukashenko, and we met with the leaders of the different factions, of the activists.

We also carried a humanitarian request. There was an American, Mr. Zeltser, Emanual Zeltser, who was imprisoned in Belarus. We do not know why he was imprisoned. There were secret indictments and a secret trial. The United States was not permitted to monitor the trial. He was sentenced to 3 years. He has a very serious medical condition. It is believed he could not survive if he remained in Belarusian prisons. So we carried a humanitarian request that he be released. Mr. Lukashenko had the power to do that, and we were very pleased that our humanitarian request was granted. During our meetings, the President told us he would honor our request that he be released immediately, and Mr. Zeltser was released later that afternoon, and he is now back in safe care. So we appreciated that effort, and we hope that represents a change in the direction of Belarus.

We made it clear that if the Belarusian Government made concrete steps toward the OSCE-type reforms on human rights, on economics, and other issues, then it would be a signal to the international community that we would bring Belarus more into the family of nations.

This Congress passed the Democracy Act, which imposed sanctions against Belarus because of their repressive regime. I hope our trip, which was the highest delegation to visit Belarus in over a decade, will be the first step to seeing change in that country and a better relationship between Belarus and other countries in Europe and the United States.

The main reason for our visit was to go to Vilnius, Lithuania, to participate in the Parliamentary Assembly. One member of our delegation visited Latvia in order to advance relations. At the Parliamentary Assembly, I was pleased that Congressman ROBERT ADERHOLT was elected vice chairman of the Third Committee, which is human rights. There are only three committees in the OSCE: for human rights, economics, and security. An American, Congressman ADERHOLT, will be vice chairman of the Human Rights Committee. I was elected vice president. That follows in the footsteps of Congressman ALCEE HASTINGS, former President of the Parliamentary Assembly.

The United States proposed three resolutions in addition to the normal work. All three were adopted—one on maternal mortality, one on Afghanistan encouraging the Obama administration's policies in Afghanistan, and one on Internet freedom. All three of these resolutions were adopted by the Parliamentary Assembly.

We also recommended 26 amendments to the core resolutions. All 26 amendments were adopted. I wish to cover some quickly because I think they are important to U.S. policy and we now have the support of the OSCE, of the European and central Asian communities in advancing these goals.

One was to seek Pakistan's interest in becoming an OSCE partner. They are not eligible for membership because it is central Asia, Europe, and North America. But we have partners in cooperation that work with us. We have Mediterranean partners, including Israel and Jordan and Egypt. We have Asian partners that belong, including Afghanistan. We think it would be helpful if Pakistan sought membership as a partner in cooperation within OSCE. By way of example, OSCE has a mission in Afghanistan that deals with border security. They know how to do nation building, how to help countries. We think that could be useful in dealing with U.S. policies against terrorists in Afghanistan and Pakistan if both had an arrangement with the Organization for Security and Cooperation in Europe. That amendment was approved by the Parliamentary Assembly.

We offered another amendment dealing with combating anti-Semitism. The U.S. Helsinki Commission has been a leader in developing strategies to deal with the rise of anti-Semitism. We have made a lot of progress. We continued to make progress at this meeting in dealing with the rise of anti-Semitism.

There were amendments offered dealing with water issues, energy, climate change, and preserving cultural heritage sites. We had a very active delegation, and we advanced many causes that were important to the United States.

We had bilateral meetings. We met with our counterparts from Russia to try to improve the dialog between Russia and the United States. This was a day or two before the meeting of our Presidents in Moscow. I think it is in keeping with the Obama strategy of trying to have a more effective dialog between the United States and Russia. We have differences, but we need to understand each other's positions to try to bring about the type of change that would be in the interests of both countries. We underscored those points during our bilateral meetings with the Russian parliamentarians.

We also met with the parliamentarians from Georgia. We were very disappointed that the OSCE mission in Georgia was terminated as a result of Russia's veto of the continuation of that mission. That mission deals with conflict prevention. It is there to keep peace in Georgia, where we know there is still the potential for conflict to erupt at any moment. We had a chance to meet with the Georgia parliamentarians to go over those issues.

We met with the parliamentarians from Lithuania. The last time I was in Lithuania was February 1991, when the Soviet tanks were in Lithuania, where they had taken over the TV towers. We returned to the TV towers. We were there in 1991 and saw the tragedy that the Soviets had committed in that country. We also went to the parliament building, where it was barricaded in 1991 because of Soviet tanks. Now we were able to enter a free country, a close ally of the United States, a member of NATO. It was a proud moment to return to that site and see what has happened. The United States has a proud record of always recognizing the independence of Lithuania and never recognizing the Soviet takeover of that independent country. We had a chance to meet with the President. We had a chance to meet with the parliamentarians, and we met with the Prime Minister. We mentioned an issue that is still pending that needs to be resolved; that is, property restitution issues and community property issues dating back to the Nazi occupation. We urged the Lithuanian Parliament to promptly pass an appropriate law so that the payments can be made to the appropriate victims as quickly as possible since many of the families are dying out and it is important that this issue be handled as quickly as possible. I hope Lithuania will follow through on those recommendations.

We had a very busy agenda. I am very proud of the work of each member of our delegation. We advanced the interests of the United States. We will be

following through on the different discussions we had to make sure progress continues in each of these areas. It was an honor to represent the Senate with the Helsinki Commission. We will keep Senators informed on the progress we are making.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. KAUFMAN). The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. GREGG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I ask unanimous consent that at 4:45 p.m. today, there be 2 minutes of debate prior to a vote in relation to McCain amendment No. 1400, with the time equally divided and controlled between Senator MCCAIN and the majority leader or their designees; further, that on Wednesday, July 8, when the Senate resumes consideration of H.R. 2892, there be 5 minutes for debate prior to a vote in relation to the Sessions amendment No. 1371, with the time equally divided and controlled between Senator SCHUMER and Senator SESSIONS or their designees; that upon disposition of the Sessions amendment No. 1371, the Senate resume consideration of DeMint amendment No. 1399, with 2 minutes of debate prior to a vote in relation thereto, with the time equally divided between Senator MURRAY and Senator DEMINT or their designees; that no amendment be in order to any of the amendments covered in this agreement prior to a vote in relation to these amendments.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, let me quickly say, before I turn it over to my friend from New Hampshire, we have been in many quorum calls today, with plenty of opportunities to offer amendments. We have to move forward on this bill. When we finish this bill, we have 10 other appropriations bills to do. We have to move forward on this bill. People cannot complain that they have not had opportunity to offer amendments when they don't offer them.

DEBT EXPLOSION

Mr. GREGG. Mr. President, I rise to speak on a couple of items. The two things I wish to speak about are, first, this rumbling we are starting to hear about having a third stimulus package. Some people say it is a second. It is a third stimulus package. We did a tax stimulus package about $140 billion and the $700-plus billion stimulus package earlier this year. It is incomprehensible to me that we would want to have another stimulus package unpaid for and add that to the debt.

We are facing a massive explosion of debt in this country. The best thing we can do to get this economy going would be to show the world and the American people we are serious about doing something about our debt.

To roll out another stimulus package in the face of that type of a situation that would be unpaid for is a huge mistake, whether it is a tax cut or whether it is spending. I cannot understand why we are even thinking about it.

When we look at the stimulus package which was just passed a few months ago, that hasn't even spent out. Only 15 percent of that is going to be spent this year, and another 37 percent of it will be spent next year. That means we still have 50 percent of the spending of that $700-plus billion bill to occur in 2011 and beyond. So if the purpose of a new stimulus package is to try to bring up the slack in the economy as we move into 2010 and on to 2011, we do not need it because we already have a stimulus package that is coming down the road, if you accept that as being useful—I don't happen to—but it is clearly counterproductive if it is simply going to add to and increase the debt of this Nation and the debt that is passed on to our children.

The debt of this country is increasing to astronomical proportions. We are looking at deficits of 4 to 5 percent of GDP for the next 10 years. We are looking at a debt that goes to 80 percent of GDP. The new stimulus would aggravate both those numbers dramatically.

To quote my colleague from North Dakota, the chairman of the Budget Committee, the debt is the threat. If we continue to pass through this Congress spending which is not offset, which is not paid for, in the name of stimulus or anything else, we are simply aggravating this extraordinarily difficult situation, which is the massive explosion of Federal debt. It is not fair to our children. More importantly, it is not correct, and it is not good policy.

Nothing would energize this economy more than to have the world look at America and recognize that we are going to do something substantive about reducing our debt and our deficits. People around the world and in our Nation would have confidence in our government again. But if we continue to talk about rolling out another stimulus upon the stimulus we already have—the first stimulus and the second stimulus—rolling out a third stimulus, which will be unpaid for and expensive, that is not sound fiscal policy.

Since the debt is the issue, let me turn to the second point I wish to make. The TARP, which has received a lot of negative press over the last few months, has accomplished its purpose in large degree. The reason the TARP was passed was to stabilize the financial industry during a period when it looked like we were going to have a cataclysmic implosion of the financial industry. We were on the verge of a catastrophic event, where basically our whole financial industry would have melted down, bringing down with it Main Street and people's ability to get loans, people's ability to send their kids to school, people's ability to buy a house, to meet a payroll, run a small business. All that would have been at risk if the financial institutions of this country had been allowed to implode, which is exactly where we were back in September and October when the TARP was passed.

With those TARP dollars, those financial institutions are stabilized, and they were stabilized by purchasing what is known as preferred stock in them.

As part of the TARP, it was made very clear that the $700 billion that was going to be spent to stabilize the financial institutions, or potentially spent—not all of it was spent—that those dollars, when they came back—and we expected them to come back because it was an investment; it was not spending like a stimulus package where we essentially put money out the door and it never comes back; we were buying assets, the preferred stock of these banks. When those moneys came back to the Treasury, it was understood that those moneys would be used to reduce the deficit and the debt. That was the understanding that was written in the bill. The moneys from TARP, as they came back in, would be used to reduce the debt.

We are now seeing the first group come in. Mr. President, $70 billion has come back to the Treasury as a result of four or five major banks paying off the TARP moneys through repurchasing their preferred stock. Interestingly enough, the taxpayers made some money here. We made about $4.5 billion on that investment—a pretty good deal over 4 months to make $4.5 billion. That money is also coming to the Treasury. Those dollars should be used to reduce the debt. That is what the whole idea was: Buy assets, stabilize the financial industries, as the assets come back, pay down the debt that was run up in order to purchase those assets.

Unfortunately, some of my colleagues in the other body have suggested that we now start spending this money as it comes in on what happens to be, I am sure, very worthwhile initiatives which they want to pursue in the area of housing, in the case of one proposal. That would be the totally wrong thing to do. These dollars have to be used to reduce the debt, and by using them to reduce the debt, once again we will make it clear to Americans and to the international community that we are going to act in a fiscally prudent way, and we will have a very positive impact on how much it costs us as a nation to borrow on the value of our dollars and on the amount of outstanding debt which we face as a

nation, which is extraordinary, as I mentioned earlier.

It is totally inappropriate to spend this money on something other than what the proposal originally was, which was to spend it to stabilize the financial institutions and then take the money we received—in this case, with interest—and use it to pay down the debt.

The administration understands this, and I respect the fact they made it very clear in a letter to me from Secretary Geithner—I ask unanimous consent to have printed in the RECORD the letter from Secretary Geithner.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEPARTMENT OF THE TREASURY,
Washington, DC, June 30, 2009.

Hon. JUDD GREGG,
U.S. Senate,
Washington, DC.

DEAR SENATOR GREGG: Thank you for our recent conversation on June 11. In addition to our discussion on deficit reduction and the repayment of Emergency Economic Stabilization Act (EESA) funds, I also wanted to formally respond to your letter of April 23.

As you know, banks are indeed permitted to repay Treasury's investments through the Capital Purchase Program (CPP). Repaid funds will be deposited into the general fund for the purpose of deficit reduction, as required by EESA. This reduction in the total amount of outstanding assets frees up headroom under EESA's $700 billion cap, providing additional flexibility to Treasury in its efforts to stabilize the economy and build the foundation for long-term economic growth.

To date, 32 banks have repaid Treasury's investment for a total of approximately $70.1 billion, including $68.3 billion received on June 17, 2009, from ten of the largest banks that participated in the stress test. With these repayments, we have $127 billion remaining to support EESA's objectives. Another important item to note is that to date the United States Government's general fund has received $5.2 billion in dividends.

These repayments and dividends are an encouraging sign of financial repair, but we still have work to do in order to mend our economy. We believe that it is critical that Treasury maintain the full flexibility provided by EESA to strengthen our financial system, promote the flow of credit, and permit a rapid response to unforeseen economic threats.

As you know, I share your concerns about the fiscal situation. I look forward to working with you to bring down the deficit once we are confident that the economy is back on track and we have successfully addressed the challenges to our financial system.

Sincerely,

TIMOTHY F. GEITHNER,
Secretary of the Treasury.

Mr. GREGG. Mr. President, Secretary Geithner has made it very clear that they understand this money should go to reduce the debt. They would like to hold it sort of at the desk for a few months to make sure they are not going to need it for another event of maybe severe fiscal strain. But it is pretty obvious we are past that time and they probably are not going to need it. So this money is coming back to the Treasury and will only be used to reduce the debt unless we, as a Congress, change the law.

I wished to come to the floor and say it would be a real failure of fiscal stewardship for us to use these dollars for anything other than what their purpose was, which was to reduce the debt.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. BOXER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. BOXER. Mr. President, I yield back any remaining time.

The PRESIDING OFFICER. Without objection, it is so ordered.

The question is on agreeing to McCain amendment No. 1400. The yeas and nays were previously ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) and the Senator from Massachusetts (Mr. KENNEDY) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 47, nays 51, as follows:

[Rollcall Vote No. 218 Leg.]

YEAS—47

Barrasso	Ensign	McConnell
Bayh	Enzi	Murkowski
Bennet	Feingold	Nelson (FL)
Bennett	Graham	Risch
Bond	Grassley	Roberts
Brownback	Hatch	Sessions
Bunning	Hutchison	Shaheen
Burr	Inhofe	Snowe
Chambliss	Isakson	Thune
Coburn	Johanns	Udall (CO)
Collins	Kyl	Udall (NM)
Conrad	Lincoln	Vitter
Corker	Lugar	Warner
Cornyn	Martinez	Webb
Crapo	McCain	Wicker
DeMint	McCaskill	

NAYS—51

Akaka	Franken	Merkley
Alexander	Gillibrand	Mikulski
Baucus	Gregg	Murray
Begich	Hagan	Nelson (NE)
Bingaman	Harkin	Pryor
Boxer	Inouye	Reed
Brown	Johnson	Reid
Burris	Kaufman	Rockefeller
Cantwell	Kerry	Sanders
Cardin	Klobuchar	Schumer
Carper	Kohl	Shelby
Casey	Landrieu	Specter
Cochran	Lautenberg	Stabenow
Dodd	Leahy	Tester
Dorgan	Levin	Voinovich
Durbin	Lieberman	Whitehouse
Feinstein	Menendez	Wyden

NOT VOTING—2

Byrd	Kennedy

The amendment (No. 1400) was rejected.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. MCCAIN. Mr. President, the Senate just voted against the President of the United States—I think we should know that—and his recommendation. The President, on May 7 of this year, as part of his budget submission, recommended terminating or reducing 121 Federal programs, which was estimated to save the taxpayers $41 billion over the next decade. One of the programs the President hopes to see terminated is the Intercity Bus Security Grant Program.

What the Senate did was to tell the President of the United States: No, we are sorry, this is a vital program, the Intercity Bus Security Grant Program. I am sure the folks in Maryland at Cavalier Coach Trailways that got $8,000 and Crystal Transport, Inc., that got $108,000—there is one in here that is a limousine service that got several thousand dollars, the Rimrock Stages got only $8,000. But Busco, Inc., doing business as Arrow Stage Lines, they got $137,000 in Nebraska. Maybe they will take people to visit the library that just got $200,000, those from outside of Omaha.

What we are talking about is that we cannot even eliminate a program, with a decent number of Democratic votes, about which the President told the American people: We will reduce spending, we will cut spending, don't worry; here are the 121 Federal programs. There are two more that are coming, my friends, that you will be able to vote against the President on because there are two more on his list that are included in this appropriations bill.

Anybody in the United States who thinks we got the message that it is time to tighten our belts, including especially members of the Appropriations Committee on both sides of the aisle, they are sadly mistaken.

They are sadly mistaken. We are going to vote on all 27. We are going to be on record, and the American people are going to hear about it. They are going to figure it out. It is business as usual. The porkbarrel spending continues even to the point where we cannot even eliminate a program the President of the United States said we would eliminate. There are 60 votes over there. We could not get 51.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wisconsin is recognized.

AMENDMENT NO. 1402 TO AMENDMENT NO. 1373

Mr. FEINGOLD. Mr. President, I ask unanimous consent that the pending amendment be set aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FEINGOLD. I rise to call up amendment No. 1402 to the bill.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Wisconsin [Mr. FEINGOLD] proposes an amendment numbered 1402 to amendment No. 1373.

Mr. FEINGOLD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To require grants for Emergency Operations Centers and financial assistance for the predisaster mitigation program to be awarded without regard to earmarks)

On page 32, strike line 19 and all that follows through page 33, line 22, and insert the following:

Assistance Act (42 U.S.C. 5196c), which shall be awarded on a competitive basis: *Provided,* That the Administrator of the Federal Emergency Management Agency shall award financial assistance using amounts made available under the heading ''NATIONAL PREDISASTER MITIGATION FUND'' under the heading ''FEDERAL EMERGENCY MANAGEMENT AGENCY'' under this title—

(A) in accordance with section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5133); and

(B) without regard to any congressionally directed spending item (as defined in rule XLIV of the Standing Rules of the Senate) or any congressional earmark (as defined in rule XXI of the Rules of the House of Representatives) in a committee report or joint explanatory statement relating to this Act.

Mr. FEINGOLD. This amendment would prohibit the earmarking of two critically important homeland security grants: the Emergency Operations Centers and the Pre-Disaster Mitigation Program.

The Emergency Operations Centers, or EOC program, is intended to improve emergency management and preparedness capabilities, and it funds, among other things, construction of State and local EOCs. These centers are a vital part of the comprehensive national emergency management plan.

The Pre-Disaster Mitigation Program is intended to implement hazard reduction measures before disasters strike. Eligible projects can include, for example, preparing mitigation plans, or retrofitting public buildings against hurricane-force winds, and constructing so-called ''safe rooms'' in tornado-prone areas.

While we may not all agree on the appropriateness of earmarking in general, I certainly hope we can agree certain things should not be earmarked, including FEMA grant programs such as those that protect Americans from terrorist attacks and natural disasters.

Obviously, these funds should be awarded by an impartial entity that is expert in matters of emergency operations and disaster mitigation. It is FEMA that actually possesses these qualities; Members of Congress do not. Indeed, FEMA has informed me that many past earmarks would not have even qualified for the Pre-Disaster Mitigation Program under the established guidelines. The result is that low-priority projects get funded and high-risk areas do not have adequate resources they need so people in those areas can truly be protected from natural disasters. I think these funds are too important to be passed out based on political dealings.

The Association of State Floodplain Managers supports this amendment and notes that a key element of the Pre-Disaster Mitigation Program is the encouragement of hazard mitigation planning. According to the Association:

Congressional earmarks, unfortunately, undercut the local planning process when it became evident that process could be short-circuited by getting a Congressional earmark.

This year, the House has earmarked all of its Emergency Operations Centers funds in its Homeland Security appropriations bill. The Senate has earmarked nearly half of its funds. The earmarks in the Senate are directed to 10 States. That means 40 States will have to compete for the remaining half of these funds.

If my amendment fails, 10 States get half and the other 40 States only get half combined. Many of these earmarks have historically gone to small communities while at the same time many State operations centers in major cities still need assistance. So my amendment would strike the earmarks in the text of the Senate bill so that FEMA can decide which projects are homeland security priorities and Federal responsibilities.

With regard to the Pre-Disaster Mitigation funds, the House report has earmarked one-fourth of the funds, and the Senate has so far not earmarked any of them. However, last year both the House and the Senate earmarked roughly 27 percent of the funds in conference. So my amendment directs FEMA to disregard any such earmarks in the explanatory statement of managers. As the majority of us will not be members of the conference committee, I urge my colleagues to consider whether it is in the best interests of your State to permit the earmarking of these critical homeland security funds outside of the regular legislative process.

The chairman and the ranking member of the Homeland Security and Governmental Affairs Committee introduced legislation last year to mandate that Pre-Disaster Mitigation funds be awarded competitively. I, of course, commend both of them for their leadership on this issue.

Given that a percentage of these funds are guaranteed for every State in light of the fact that all States are at risk of natural disasters, there is even less reason for these funds to be earmarked.

President Obama has stated that he would like these funds to be awarded on the basis of risk. Federal law lays out the criteria for the competitive awarding of these grants and focuses on the need to fund those projects that will mitigate the most high-risk areas.

Therefore, I think this amendment is consistent with the President's request that we focus on those communities that are in most need of assistance. I urge my colleagues to support this amendment.

I ask unanimous consent that Senator MCCAIN be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FEINGOLD. Not only will the amendment restore objectivity to two homeland security grant programs, it will also help ensure important decisions about Federal spending are actually made on the merits not on the basis of political backroom deals.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

GENERIC BIOLOGICS

Mr. BROWN. Mr. President, I thank my colleague from Ohio, Senator VOINOVICH, for allowing me to go first. I appreciate his public service as he concludes his Senate career in the next year and a half.

This week Congress is debating whether to broaden access to affordable generic drugs for millions of Americans. Let me explain how access to generic drugs—and generic drugs for pharmaceuticals—so-called chemical drugs are called generics, just to make this clear, for live—what are called biologics they are called follow-on biologics. But either is the same concept.

Let me explain how the access to generic, or follow-on biologics, would benefit millions of Americans who cannot afford the crushing drug costs they face, whether prescription drugs or biologics.

Sergio from Rocky River, a suburb west of Cleveland, wrote about how he and his family lost their health insurance last year and are heavily buried with debt. His young son has type 1 diabetes, a terrible disease that an increasing number of young people have. His wife has severe asthma, and Sergio had quadruple heart bypass surgery, along with surgeries to repair a hernia and treatment for back and knee injuries, all within the last 3 years. Sergio and his family have cut back on the medications they were taking and stopped going to the doctor because they can't afford the $35,000 in outstanding medical bills, much of it in prescription drug costs. Sergio writes that his family walks on eggshells each day hoping they don't get sick and slide further into debt.

For far too long, Americans like Sergio have struggled with the exorbitant cost of prescription drugs. For far too long, soaring drug costs have meant seniors were forced to choose between eating and taking medicine. I have heard these stories for more than a decade, most acutely when I traveled with seniors from Ohio to Canada to buy affordable prescription drugs. I was a Member of the House in those days in the late 1990s. It was curious that an elected Federal official in one country would rent a bus and take 30 to 40 seniors 3 hours from Lorraine up through Toledo, OH, into Detroit, then into Windsor, Ontario, from one country to another to buy prescription drugs. Of course, I did that because these people were hurting. They didn't have decent health care and couldn't get low-cost prescription drugs. So they went to Canada where the prices were much, much cheaper, one-half to one-third the cost, the same drug, same manufacturer, same packaging, same dosage, but costing one-half or one-third as much.

As we move forward on health care reform, we have the opportunity to make affordable generic drugs more accessible to seniors and to the Nation's middle class. Health care reform must broaden access to generic alternatives to the most expensive kinds of prescription drugs known as biologics. Biologics are different from the chemical pharmaceuticals we are most used to that sell in much larger numbers than the biologics based on living ingredients that are more expensive and—much more expensive to produce, originally, with the research but also much more expensive for the person taking the biologics. Failing to come up with generic alternatives to these most expensive kinds of prescription drugs is not just bad policy, it is irresponsible on our part.

Countless Americans simply cannot afford these expensive brand-name drugs. These drugs provide promise and hope to those suffering from devastating diseases and chronic illness: cancer, Parkinson's, diabetes, Alzheimer's, MS. For example, annual treatment for breast cancer in the 1990s was with a drug called Taxol which cost an exorbitant amount of money—$4,000 a year. Today, annual treatment for some cancers—in this case, breast cancer—is with the biologic drug Herceptin, which costs $48,000 a year or $4,000 a month. Annual treatment for rheumatoid arthritis with Remicade costs approximately $20,000 a year, almost $2,000 a month. These drugs are simply too expensive for many people to afford.

Liz from Brecksville is a director of a breast cancer advocacy group in northern Ohio and wrote to me that many of her members and clients face impossible financial barriers after being diagnosed with breast cancer and needing treatment. Liz works with breast cancer patients who face excessive copays and deductibles for prescription drugs, often with 10-year preexisting condition restrictions. That is why we must provide broader access to generic drugs to help lower prescription drug costs for millions of Americans.

This isn't a debate about policy between biologics and follow-on biologics and prescription drugs and generics. That is interesting for the textbooks and the economists. This is about the lives of people who simply cannot afford $4,000 a month for a cancer drug, $1,500 a month for a drug if they are dealing with rheumatoid arthritis.

Ensuring a pathway for generic drugs and breaking the monopoly pharmaceutical companies have on brand-name drugs can make prescription drugs affordable for Americans who need them. By setting a reasonable period of exclusivity for many brand-name drugs, we will speed up the generic approval process and speed up cost savings for families in Toledo, Lima, Canton, Youngstown, and Cincinnati, OH.

It is estimated that biologics, those drugs that increasingly are used to help treat cancer and Parkinson's and diabetes and Alzheimer's and MS, will make up 50 percent of the pharmaceutical market by 2020. These are becoming more and more common. Yet there is not even a process to establish generic drug alternatives. Therefore, there is no price competition and the price for these biologics goes up and up and up. The prices go up and up and up, yet there is no competition and they can keep charging outrageous prices. These prescriptions cost anywhere from $10,000 a year, almost a $1,000 a month; sometimes they cost as much as $200,000 a year, which is $16,000 or $17,000 a month.

We are not saying the prescription drug companies don't deserve a chance to recoup the $1.2 billion they spend on research and development. This chart is 1 year of sales with no competition from generics. It often means multiple billions of dollars in revenue. This was compiled by the AARP. The drug Enbrel for rheumatoid arthritis—average cost to develop a new biotech product, $1.2 billion; annual total U.S. sales for top-selling biologic drug, $14.8 billion. Look at another pretty common drug, Remicade, for rheumatoid arthritis. In this case, this company spends a little more than $1.2 billion to develop this product; $13 billion in sales. We can go down the list: Epogen for anemia, Procrit for anemia, Rituxan for rheumatoid arthritis, Humira for rheumatoid arthritis, Avastin, Herceptin, Aranesp for anemia, Neulasta for neutropenia. On biologic after biologic, the average cost not just to develop this biologic, the average cost to the company as a whole for its successful biologics and its unsuccessful biologics, for the amount of research they are putting forward averaging $1.2 billion, look at their sales: 14.8, 13, almost 15, almost 14, almost 12, almost 7, 8 billion, 5.5 billion, 11, almost 12 billion. These are costs for which consumers are paying $2,000 a month, $3,000 a month. They simply can barely afford it in many cases and can't afford it at all in other cases. These are costs that employers have to pay, that taxpayers have to pay if they are in Medicaid.

It is pretty clear these are huge profits these companies are making. And I want more innovation. You bet I want to see these companies succeed. But they don't need to make these kinds of profits at the expense of taxpayers and small businesses that are paying the freight and larger businesses that are less competitive because they have to pay such high costs for health care. That makes it harder for GM to compete with Toyota and compete with overseas auto manufacturers, one after another after another.

Sales in 2008 for the average biologic, not just the blockbusters, totaled over $666 million. That means it takes less than 2 years for the average brand-name biologic to recoup the R&D cost. Why are some of my colleagues advocating for a 12-year monopoly period? They want to give these companies that are recovering this kind of money this quickly each year, this kind of money with the kinds of sales they have had, they want to give them 12 years to recoup this $1.5 billion. Many of them recoup it in the first year, let alone the second, third, fourth, and fifth. Again, I want to have a healthy profit, but I don't want to see price gouging aimed at small businesses and large companies that are less competitive as a result, aimed at seniors and others who suffer from these diseases. Why a 12-year monopoly period? Twelve years sounds good. If the industry gets 12 years, they will laugh all the way to the bank. They will be exultant if they get 12 years.

The President says 12 years is too long. The President thinks it should be 7. The Federal Trade Commission says it is too long. The Federal Trade Commission thinks giving them 12 years will actually reduce innovation because the drug companies won't even try to compete with themselves and come up with new drugs. Nearly everyone—insurance companies, patients groups, consumer groups, and the AARP—has said this is too long. All kinds of organized labor unions, because of their members, say it is too long. Most insurance companies say it is too long. Patient groups, groups that advocate for people with diabetes, with heart disease, groups that advocate for people with arthritis and MS and other deadly and crippling diseases—all say 12 years is too long. Everyone says 12 years is too long except two groups: the drug companies and some House Members and Senators.

It is clear this is a fight between pharmaceutical companies looking to make lucrative profits and patients in need of prescription drugs.

I read yesterday in the Washington Post how the pharmaceutical industry is spending well over $1 million every single day trying to influence the outcome of health care reform legislation. Over $1 million a day spent to prevent generic drugs—affordable medicine—from making their way to seniors in Zanesville and Bolero and Youngstown and Van Wert and Piqua and all over my State, from making their way to people in middle-class families, to patients who can't afford brand-name drugs. We can't let special interests or political maneuvering delay making affordable prescription drugs more available to millions of Americans.

We are on the cusp of fundamental reform of our health care system. Let's not blow it. Let's not pass this giveaway of billions and billions of taxpayer dollars, individual dollars out of people's pockets, dollars raided from small businesses and large corporations alike.

We should not let that stand in the way. We are on the cusp of meaningful, fundamental reform. We must ensure access to generic drugs that will reduce costs, that will improve quality of care for millions, that will mean more innovation and more miracle drugs. This is part of our historical moment. We need to do it right.

I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. VOINOVICH. I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. VOINOVICH. Mr. President, it is time for Congress to join forces and unite in a bipartisan way to help the President deal with the unbelievable challenges he has domestically and internationally. One easy way to help our Nation is by passing our appropriations bills by September 30. Our getting it done this year is urgent because of the state of our economy and the impact Federal spending has on that economy. Our reliance on continuing resolutions to fund the Federal Government continues to plague Congress and has a cascading effect on government agencies and the citizens they serve.

In recent decades, it has become common for appropriations bills to be enacted after the start of the fiscal year, during the last quarter of the calendar year, or even in the next session of Congress, as was the case this year. Repeatedly managing by continuing resolution is inefficient. It results in wasteful spending, disruption and chaos in the operations of Federal programs, and dramatic productivity slowdowns. This is not a good record for either party and is an irresponsible approach to managing our limited resources. It has to stop.

Last year, because the Senate did not do its job, agencies were rushed to spend their budgets before the end of the fiscal year and used overtime to ensure requests were processed before midnight on September 30, making it ripe for overspending as agencies stockpiled to try to meet future needs. This also means fewer dollars being returned to the Treasury to help reduce our growing budget deficit.

We need to get back to basics to solve it. This is one problem the Congress can solve, and we need to do it this year. Congress may hold the power of the purse, but we undermine our credibility by starving good managers and agencies of necessary resources and by turning a blind eye to failing programs. This is about more than allocating funds. It is about good management and good public policy. I can assure you, as a county commissioner, mayor, and Governor, if the appropriations were not done on time we would have been run out of town for not doing our job.

Inaction causes chaos in the operations of our Federal Government. Continuing resolutions do exactly what their name implies: they continue funding at prior year levels, without regard to whether changes in funding are necessary or appropriate. As a result, agency program managers are now in the untenable position of having to manage on the prior year's budget, which often results in a loss of productivity and a waste of taxpayer dollars. Imagine if these same program managers could spend their time instead on our current economic situation, ensuring that the stimulus funds are being spent wisely and appropriately.

Programs which cannot justify the level of funding they used to have, and ought to be cut, will continue to get the level of funding they were getting. Likewise, programs for which increased need has been demonstrated, and which therefore should get increased funding, will continue to be funded at the prior year's level, leaving the increased need unaddressed.

Since 1990, the Government Accountability Office has issued its biennial high-risk report, which examines the challenges faced by Federal programs and operations and recommends ways to improve their performance and accountability. Many of the programs on the GAO high-risk list are dysfunctional and fail to deliver the intended services to the taxpayer. In other instances, the Federal Government is wasting taxpayer dollars that could be better used for higher priority programs or cutting the deficit.

Imagine if we were able to dedicate 1 week—or even 1 day—per month as a body debating solutions to the challenges identified by GAO instead of debating whether and when to proceed on appropriations bills or throwing together a continuing resolution to ensure we avoid the embarrassment of a government shutdown.

This is not a case of benign neglect. We have become overly reliant on past practice and refuse to make the end-to-end budget process a priority. Continuing appropriations acts have become commonplace and, unfortunately, fully integrated into the process. The end result is funding uncertainty—not because the money is not there but because Congress cannot join in a bipartisan manner and hammer out an agreement on how money should be spent. No business would manage its affairs in this manner, and neither should the Federal Government. As I said, the Federal Government is the only level of government that gets away with it.

I think few in the Senate recognize the adverse impact continuing resolutions have on agencies where budgets rely heavily on personnel. Hiring freezes, cuts in training budgets have lasting effects. It is irresponsible for us not to provide appropriations on time to those we have asked to provide services to the American people and give them gigantic excuses to not perform.

Our inaction also has an impact on program management. Federal public servants spend countless hours preparing detailed budget justifications for our review. We reward their hard work by asking them to spend their time figuring out how to manage under last year's budget. Imagine if these people could spend their time managing programs instead of figuring out how to operate under a continuing resolution, including completion of reprogramming requests.

Managing by continuing resolution has the effect of delaying construction, reducing overall efficiency, wasting time and paper resources, and disallowing any new starts in procurement. Fortune 100 companies do not walk away from difficult budget choices by taking a pass to the next fiscal year. Neither does Main Street USA. Regardless of whether you subscribe to the belief that CRs save money, this is no way to run an organization. It is part of our obligation to the American people to ensure our scarce resources are given to projects that produce results.

I want to share a few examples of the true impact of continuing resolutions, taken from a memo prepared by the Congressional Research Service and hearings before the Committee on Homeland Security and Governmental Affairs.

Let's take the Department of Education. The Impact Aid Program is an elementary and secondary education program that does not receive forward funding or advance appropriations and, therefore, is more easily affected by an

interim continuing resolution. Payments for children with disabilities are delayed when the Department of Education is operating under a continuing resolution.

USAID: The delay of funding of the President's Malaria Initiative, which was enacted in order to reduce deaths due to malaria by 50 percent, lasted until February 15, 2007, 5 months or 138 days into fiscal year 2007. Doing the math, this delay in funding relates to the loss of, say, 198,000 lives unnecessarily. In other words, by delaying it, the money was not there. We did not get the job done, and this resulted in the deaths of individuals.

NASA: On June 8, 2009, the Federal Times reported the following from NASA Administrator Michael Griffin:

> Any time Congress passes a continuing resolution that holds agencies to their current spending levels at a time when the economy is experiencing inflation translates into a budget cut. And so we will be cutting the budget at NASA and the only question is how much. . . . And then the second question, after how much is decided, is will the continuing resolution be broadly applied and left to the discretion of agency heads to implement or will special programs be targeted to be either favored or disfavored.

FEMA: In fiscal year 2008, the Emergency Food and Shelter Program, which ''provides emergency food and shelter to needy individuals,'' did not receive funds under the CR. Thus, the program did not have funds available for communities and their respective homeless provider agencies during what many view as critical winter months until February 26, 2008, or 149 days into fiscal year 2008.

The judiciary: The judiciary has had to resort to hiring freezes or furloughing employees under continuing resolutions. In fiscal year 2004, the judiciary reduced 1,350 positions, with probation and pretrial services receiving significant cuts.

HUD: During fiscal year—I am just giving you examples that have been pointed out by CRS. During fiscal year 2004, the Department of Housing and Urban Development had to temporarily suspend the General Insurance and Special Risk Insurance Fund of the Federal Housing Administration because the continuing resolution did not provide a sufficient credit subsidy to continue with the programs. During the suspension, HUD was unable to meet the needs of the borrowers who would ordinarily be served by the respective programs, which created uncertainty among the lenders and potential borrowers. Mr. President, I think most of us have seen what happens when we have uncertainty in our mortgage system.

The Treasury Department: Continuing resolutions in fiscal year 2007 and fiscal year 2008 limited and delayed the IRS's ability to implement improvements in the taxpayer service. Also, these continuing resolutions prevented the agency from making job offers to highly qualified candidates until enactment of a full year's appropriation.

Just jerk them around.

Research and development: Most research and development programs continue to receive funding at the prior year's level when operating under a continuing resolution. However, this funding mechanism can only support existing R&D priorities rather than shifting to new ones because only existing programs retain funding. New and emerging technologies must be funded in real time.

The Social Security Administration: Operating under a continuing resolution for fiscal year 2010 will hamper efforts to reduce backlogs in the agency's disability program, which would result in decreased efficiency. Also, in previous years continuing resolutions caused the agency to implement a hiring freeze that contributed to service delivery problems. While Commissioner Astrue has gone to great lengths to send additional resources, for example, to my home State, Ohio still has people waiting more than 500 days for a decision on their Social Security disability claim.

I was very critical of SSA. I started looking back on the continuing resolutions that were passed. It was a chaotic situation. They were not able to keep the people they had. They were not able to hire more people, and we have a 500-day wait now. I am sure the Presiding Officer gets the same complaints from his people that they cannot get their disability appeals heard.

DHS: In testimony before the House Homeland Security Subcommittee on Management, the Department of Homeland Security's Deputy Procurement Officer, Richard Gunderson, spoke to the impact continuing resolutions have on the key homeland security programs. Gunderson testified:

> A CR would stop those programs in their tracks and we would not be able to grow the way that everybody is saying that we need to grow.

Mr. President, there are a lot more examples of what I am talking about. I think this has to be the year we do our job. The Senator from Nevada, our leader, and the Senator from Kentucky, our minority leader, have both publicly stated that we need to do our job on time. As I mentioned earlier, the need for it is more urgent than ever before.

If I were the President of the United States today, I would probably look at what the Congress is doing, and I think I would say: One of the greatest gifts you can give me, one of the greatest gifts you can give our country, is to do your work on time so we do not have this chaotic situation we have had for so many years.

None of our hands are clean. None of our hands are clean. I have been here when we have deliberately not passed appropriations with the idea that maybe our guy is going to get elected President or we are going to get the majority in the Senate or the Congress and so then we can tweak it the way we want to because a majority is no longer in the majority.

This game has been played for too long around here, and it is about time we recognized it and did something about it.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mrs. MURRAY. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. SHAHEEN). Without objection, it is so ordered.

MORNING BUSINESS

Mrs. MURRAY. Madam President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators allowed to speak therein for 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Rhode Island.

Mr. WHITEHOUSE. Madam President, I ask unanimous consent that I be permitted to speak in morning business for up to 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WHITEHOUSE. Thank you, Madam President.

HEALTH CARE

Mr. WHITEHOUSE. Madam President, I have spoken many times on the floor of the Senate about the desperate need for reform of our broken health care system. Today the Congress stands at a moment of historic opportunity. The attention, hopes, and anxieties of the American people are focused on us like never before.

We have seen over the course of the last 60 years constant lament over the system's flaws and failure—failure when true opportunities for reform arise. President Obama has now challenged this Congress to reform our Nation's health care system, to expand access to insurance, to improve below-average results, and to bring down its costs. It is about this last challenge—the challenge of our unimaginable and grotesque health care costs—that I speak today.

In his recent speech to the AMA, the President called escalating health care costs ''a threat to our economy . . . an escalating burden on our families and businesses . . . a ticking time-bomb for the federal budget, and . . . unsustainable for the United States of America.''

I hope all of us share his sense of urgency. Our country's economic future may well depend on it.

Over the past few weeks, I have been privileged to work with my HELP Committee colleagues to make long-awaited reforms and investments to control costs and wring savings from the system. In that process, much attention has been paid to the Congressional Budget Office's cost and savings estimates—estimates that, in many cases, have significant limitations.

CBO, as we know, plays a vital role in our legislative branch by ensuring that we have objective, nonpartisan estimates of the likely costs and savings to the Federal budget of legislation. These estimates can help us make responsible and efficient use of the taxpayers' money, but we must recognize that in the particular context of health care reform, they are fundamentally limited by CBO's professional restrictions.

CBO can only estimate health care costs and savings that have historic precedent. For example, since we have the experience of Medicaid and the Children's Health Insurance Program, CBO can estimate how much expanding coverage to all needy families will cost. These subsidies account for the vast majority of CBO's $600 billion estimate of the 10-year cost of the HELP Committee bill.

On the cost savings side, however, CBO's capability is limited. We know our health care system is on an unsustainable course, and there is broad agreement on which of the broken pieces need fixing, but it is impossible to estimate cost savings with the degree of certainty CBO requires to provide what we call a score.

CBO's Director has been refreshingly candid about this. In a recent letter to our budget chairman, Senator CONRAD, he writes the following:

Changes in government policy have the potential to yield large reductions in both national health expenditures and Federal health care spending without harming health.

He continues:

Moreover, many experts agree on some general directions in which the government's health policies should move, typically involving changes in the information and incentives that doctors and patients have when making decisions about health care. Yet many of the specific changes that might ultimately prove most important cannot be foreseen today and could be developed only over time through experimentation and learning.

CBO's professional discipline requires it to score legislation through a rearview mirror, looking back, and basing its calculations on what it can chronicle has happened in the past. But when we propose to take the country in a new direction, when there is a turn in the road, when we seek to fulfill President Obama's promise of true change in America, the rearview mirror doesn't help much. We have not been where we need to go.

In addition, getting there will require leadership, creativity, and perseverance. It will require executive administration with constant adjustments and improvements as we work toward our goal. Those factors are beyond the capability of CBO to predict.

I speak not to criticize the hard-working public servants of the Congressional Budget Office. They do an exemplary job with the tools at their disposal. Americans owe them a particular debt of gratitude now for how incredibly hard they have worked over these past weeks, but their tools come with their own limitations. The point of this reform is to turn around a system that is spiraling out of control. We spent 18 percent of our gross domestic product on health care, the next highest spending Nation in the world—the next worst is Switzerland, at 11 percent. Even if our success in this reform is limited to shaving a few percentage points off our national expenditure on health care, that change will be worth hundreds of billions of dollars a year. Yes, there will need to be an initial investment in health care reform, but the potential savings are multiples larger. CBO's inability to score those savings does not mean that those savings are not both real and substantial.

One measure of the potential savings is the recent report of the President's Council of Economic Advisers, June 2009. I ask unanimous consent that the executive summary of this document be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THE ECONOMIC CASE FOR HEALTH CARE REFORM

EXECUTIVE SUMMARY

The Council of Economic Advisers (CEA) has undertaken a comprehensive analysis of the economic impacts of health care reform. The report provides an overview of current economic impacts of health care in the United States and a forecast of where we are headed in the absence of reform; an analysis of inefficiencies and market failures in the current health care system; a discussion of the key components of health care reform; and an analysis of the economic effects of slowing health care cost growth and expanding coverage.

The findings in the report point to large economic impacts of genuine health care reform:

We estimate that slowing the annual growth rate of health care costs by 1.5 percentage points would increase real gross domestic product (GDP), relative to the no-reform baseline, by over 2 percent in 2020 and nearly 8 percent in 2030.

For a typical family of four, this implies that income in 2020 would be approximately $2,600 higher than it would have been without reform (in 2009 dollars), and that in 2030 it would be almost $10,000 higher. Under more conservative estimates of the reduction in the growth rate of health care costs, the income gains are smaller, but still substantial.

Slowing the growth rate of health care costs will prevent disastrous increases in the Federal budget deficit.

Slowing cost growth would lower the unemployment rate consistent with steady inflation by approximately one-quarter of a percentage point for a number of years. The beneficial impact on employment in the short and medium run (relative to the no-reform baseline) is estimated to be approximately 500,000 each year that the effect is felt.

Expanding health insurance coverage to the uninsured would increase net economic well-being by roughly $100 billion a year, which is roughly two-thirds of a percent of GDP.

Reform would likely increase labor supply, remove unnecessary barriers to job mobility, and help to ''level the playing field'' between large and small businesses.

WHERE WE ARE AND WHERE WE ARE HEADED

Health care expenditures in the United States are currently about 18 percent of GDP, and this share is projected to rise sharply. If health care costs continue to grow at historical rates, the share of GDP devoted to health care in the United States is projected to reach 34 percent by 2040. For households with employer-sponsored health insurance, this trend implies that a progressively smaller fraction of their total compensation will be in the form of take-home pay and a progressively larger fraction will take the form of employer-provided health insurance.

The rising share of health expenditures also has dire implications for government budgets. Almost half of current health care spending is covered by Federal, state, and local governments. If health care costs continue to grow at historical rates, Medicare and Medicaid spending (both Federal and state) will rise to nearly 15 percent of GDP in 2040. Of this increase, roughly one-quarter is estimated to be due to the aging of the population and other demographic effects, and three-quarters is due to rising health care costs.

Perhaps the most visible sign of the need for health care reform is the 46 million Americans currently without health insurance. CEA projections suggest that this number will rise to about 72 million in 2040 in the absence of reform. A key factor driving this trend is the tendency of small firms not to provide coverage due to the rising cost of health care.

INEFFICIENCIES IN THE CURRENT SYSTEM AND KEY ELEMENTS OF SUCCESSFUL HEALTH CARE REFORM

While the American health care system has many virtues, it is also plagued by substantial inefficiencies and market failures. Some of the strongest evidence of such inefficiencies comes from the tremendous variation across states in Medicare spending per enrollee, with no evidence of corresponding variations in either medical needs or outcomes. These large variations in spending suggest that up to 30 percent of health care costs (or about 5 percent of GDP) could be saved without compromising health outcomes. Likewise, the differences in health care expenditures as a share of GDP across countries, without corresponding differences in outcomes, also suggest that health care expenditures in the United States could be lowered by about 5 percent of GDP by reducing inefficiency in the current system.

The sources of inefficiency in the U.S. health care system include payment systems that reward medical inputs rather than outcomes, high administrative costs, and inadequate focus on disease prevention. Market imperfections in the health insurance market create incentives for socially inefficient

levels of coverage. For example, asymmetric information causes adverse selection in the insurance market, making it difficult for healthy people to receive actuarially reasonable rates.

CEA's findings on the state of the current system lead to a natural focus on two key components of successful health care reform: (1) a genuine containment of the growth rate of health care costs, and (2) the expansion of insurance coverage. Because slowing the growth rate of health care costs is a complex and difficult process, we describe it in general terms and give specific examples of the types of reforms that could help to accomplish the necessary outcomes.

THE ECONOMIC IMPACT OF SLOWING HEALTH CARE COST GROWTH

The central finding of this report is that genuine health care reform has substantial benefits. CEA estimates that slowing the growth of health care costs would have the following key effects:

1. It would raise standards of living by improving efficiency. Slowing the growth rate of health care costs by increasing efficiency raises standards of living by freeing up resources that can be used to produce other desired goods and services. The effects are roughly proportional to the degree of cost containment.

2. It would prevent disastrous budgetary consequences and raise national saving. Because the Federal government pays for a large fraction of health care, lowering the growth rate of health care costs causes the budget deficit to be much lower than it otherwise would have been (assuming that the savings are dedicated to deficit reduction). The resulting rise in national saving increases capital formation.

Together, these effects suggest that properly measured GDP could be more than 2 percent higher in 2020 than it would have been without reform and almost 8 percent higher in 2030. The real income of the typical family of four could be $2,600 higher in 2020 than it otherwise would have been and $10,000 higher in 2030. And, the government budget deficit could be reduced by 3 percent of GDP relative to the no-reform baseline in 2030.

3. It would lower unemployment and raise employment in the short and medium runs. When health care costs are rising more slowly, the economy can operate at a lower level of unemployment without triggering inflation. Our estimates suggest that the unemployment rate may be lower by about one-quarter of a percentage point for an extended period of time as a result of serious cost growth containment.

THE ECONOMIC IMPACT OF EXPANDING COVERAGE

The report identifies three important impacts of expanding health care coverage:

1. It would increase the economic well-being of the uninsured by substantially more than the costs of insuring them. A comparison of the total benefits of coverage to the uninsured, including such benefits as longer life expectancy and reduced financial risk, and the total costs of insuring them (including both the public and private costs), suggests net gains in economic well-being of about two-thirds of a percent of GDP per year.

2. It would likely increase labor supply. Increased insurance coverage and, hence, improved health care, is likely to increase labor supply by reducing disability and absenteeism in the work place. This increase in labor supply would tend to increase GDP and reduce the budget deficit.

3. It would improve the functioning of the labor market. Coverage expansion that eliminates restrictions on pre-existing conditions improves the efficiency of labor markets by removing an important limitation on job-switching. Creating a well-functioning insurance market also prevents an inefficient allocation of labor away from small firms by leveling the playing field among firms of all sizes in competing for talented workers in the labor market.

The CEA report makes clear that the total benefits of health care reform could be very large if the reform includes a substantial reduction in the growth rate of health care costs. This level of reduction will require hard choices and the cooperation of policymakers, providers, insurers, and the public. While there is no guarantee that the policy process will generate this degree of change, the benefits of achieving successful reform would be substantial to American households, businesses, and the economy as a whole.

Mr. WHITEHOUSE. This report compares the share of America's gross domestic product spent on health care to the share spent by our international industrialized competitors. It also looks to the wide variation in health care expense and quality, region to region, within the United States of America. From each of these measures, the report comes to the same conclusion: They estimate excess health care expenditures of about 5 percent of GDP, which translates to $700 billion per year. Former Treasury Secretary O'Neill has written recently that the target is $1 trillion per year. Whether $700 billion or $1 trillion, that is a savings target that is worth an enormous expenditure of executive and legislative effort to achieve, particularly when all the evidence suggests that achieving it will actually improve health care outcomes for the American people.

Perfect examples of the savings that await us are in quality of care. I have spoken before about the Keystone Project up in Michigan which reformed care in a significant number of Michigan's intensive care units. It reduced infections, respiratory complications, and other medical errors. Between March 2004 and June 2005, just a little over a year, the project is documented to have saved 1,578 lives, 81,020 days patients otherwise would have spent in the hospital, and over 165 million health care dollars—just in a little over a year, just in intensive care units, just in one State, and not even all of the intensive care units in that State.

In my home State, the Rhode Island Quality Institute has taken this model statewide with every hospital participating, and we are already seeing hospital-acquired infections and costs declining.

Why aren't these quality reforms happening spontaneously all over the country? Because government and private insurers haven't set up the right rules for the game. When we began our intensive care unit reform in Rhode Island, the Hospital Association of Rhode Island estimated a $400,000 cost for a potential $8 million savings from the ICU reform program. That is a 20-to-1 return on investment. Super deal, right? Who wouldn't take that? Well, the hospitals pointed out that all the savings—the $8 million—went to the payers—to Medicare, to the insurance companies—and all the costs and all the trouble and all the risk came out of their own pockets. The savings actually cut hospital revenues. So with a lot of business experience around this Chamber, do we know a lot of businesses that would spend $400,000 in cash in order to lose $8 million in revenues? That is not a good economic proposition. We have made the rules such that it is not a good economic proposition for hospitals to invest that way.

That is why the HELP Committee bill changes payment incentives and invests in grant programs so it begins to make economic sense for doctors and hospitals to invest in lifesaving and cost-saving quality improvements. If we can make it an economic win for providers to improve quality this way, think of the torrent of American ingenuity that will unleash. Now we are stuck. We are stuck in a bog of market failure, with the connection between risk and reward—the fundamental connection between risk and reward that is the basic engine of American capitalism—interrupted and disabled. But CBO can't score that innovation because we haven't been down this road before. There is nothing in the rearview mirror for CBO professionals to work with to determine what those savings will be.

There is a similar problem in disease prevention. A study by the Trust for America's Health found that investing $10 per person per year in proven community-based programs to increase physical activity, improve nutrition, and prevent tobacco use could save the country more than $16 billion annually within 5 years. Out of the $16 billion in savings, Medicare could save more than $5 billion, Medicaid could save more than $1.9 billion, and private payers could save more than $9 billion, but those program providers don't get funded. That is why the HELP Committee bill establishes a prevention and public health investment fund to provide expanded and sustained nationwide investment in preventing illness. Well run, the savings could be enormous. But CBO can't score it because we haven't been down this road before, and there is nothing in the rearview mirror for CBO professionals to work with.

A third area for significant efficiencies and savings is the contentious, inefficient billing and approval process. Right now, doctors and insurance companies are locked in an arms race. Private insurers delay claims and deny claims for reimbursement and throw up

barriers to payment, and the providers, in turn, staff up and hire consultants and add people to fight back. This battle creates a colossal burden on the system, consuming perhaps 10 to 15 percent of all private insurance expenditure and then creating a reciprocal and probably actually greater cost shadow out in the provider community from having to fight back against that 10- to 15-percent expenditure. It all adds no overall health care value—none. It is pure administrative cost shifting. Even the insurance industry estimates that $30 billion per year could be saved through simplification of that process. That is why the HELP Committee bill has strong administrative simplification requirements. But again, CBO can't score it because this is another new road. Again, there is nothing in the rearview mirror for CBO to work with.

Finally, multiple studies show that the private insurance market is plagued by inefficiency and waste. While administrative costs for Medicare run about 3 to 5 percent, overhead for private insurers is an astounding 20 to 27 percent—charges that consumers pay for higher premiums. A Commonwealth Fund report indicates that private insurer administrative costs increased 109 percent—they more than doubled—private insurer administrative costs more than doubled from 2000 to 2006, just in 6 years. The McKinsey Global Institute and a leading health economist indicate that Americans spend roughly $128 billion annually on ''excess administrative overhead''—that is, $128 billion on excess administrative overhead—in the private health insurance market.

That is why the HELP Committee bill establishes a strong nonprofit public health insurance option that would compete on even terms with private insurance companies, bringing down premiums, negotiating more efficient provider payments, and increasing consumer access—all through the power of free market competition. All this is done through the power of free market competition. But, again, CBO cannot score it because we have not been down that road before. There is, again, nothing in the rearview mirror for CBO professionals to work with.

In the 1930s, Franklin Delano Roosevelt's proposal for an innovative program called the Tennessee Valley Authority faced this dour prediction from a Member of the House of Representatives:

> Mr. Speaker, I think I can accurately predict no one in this generation will see materialize the industrial empire dream of the Tennessee Valley.

Another Member remarked:

> The development of power in that particular locality of the Nation . . . can be of no general good.''

Had FDR been cowed and discouraged by such pessimism, by the difficulty and uncertainty and novelty of his task, the TVA would never have brought electricity, jobs, and prosperity to millions of Americans.

Likewise, today, it is precisely because our reforms are innovative and because they will take energy, commitment, and leadership to achieve that they are unscorable. That should be an inspiration to us, not a discouragement. Through this reform bill, we must challenge ourselves and the Obama administration to do that which economists and commentators cannot specifically score and analyze. With strong leadership and dedication, we can not only bend the cost curve, we can break it.

Let's set a hard target, say, $500 billion in annual savings, and see how fast we can get there. Let's make this the Apollo project of our generation. The stakes are high enough to justify that effort.

I thank the Chair and yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming is recognized.

Mr. BARRASSO. Madam President, I ask unanimous consent to speak for up to 10 minutes in morning business and that Senator SESSIONS be recognized when I have finished.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BARRASSO. Madam President, most everybody knows I am an orthopedic surgeon. In Wyoming, many refer to me as ''Wyoming's doctor.'' That is because for over two decades folks have invited me into their home with statewide television and radio health reports, where I gave people information on how they can stay healthy and how to keep down the cost of their medical care. I ended each report by saying: ''Here in Wyoming, I'm Dr. John Barrasso, helping you care for yourself.''

That is also my philosophy for government—helping people help themselves. As medical director of the Wyoming Health Fairs, I worked to give people around the Cowboy State access to lifesaving preventive tests and low-cost medical screenings.

My goal was always to encourage families to eat right, exercise, manage chronic diseases, and stop smoking because prevention is one of the keys to a long and happy and healthy life.

As I travel home every weekend, I hear the concerns people have about health care and the cost of their medical care. They are concerned about the specific cost of their medical care and how it affects them and their family budgets. Many families across Wyoming and in this country worry that they will lose the health care coverage they currently have. Others cannot afford insurance today. That is what is wrong with our current health care system. That is what we need to fix.

I know from firsthand experience that doing nothing is simply not an option. We must be careful, thoughtful, and deliberate about the changes we make. Health care is a very complex and an intensely personal issue. It deserves a national debate—a serious, open, and transparent national debate.

I welcome the opportunity to talk about the concerns of people living longer and needing more care and more advanced care. The concerns are affordable care, access to care, and high-quality care.

In the midst of this debate, we cannot stand for rural Americans to be left behind. They need access to high-quality, affordable health care like everybody else.

When I first came to the Senate, I promised the people of Wyoming I would fight each and every day to protect and modernize our rural health care delivery system. I committed to do my part to strengthen our rural hospitals, rural health clinics, and community health centers. I committed to do my part to increase rural America's access to primary health care services and to aid in the successful recruitment and retention of nurses, nurse practitioners, doctors, and physician assistants all across rural and frontier America.

There are obstacles faced by our hospitals, clinics, and our providers—obstacles they have to overcome to deliver quality care to all the families in rural America. They end up having to do it in an environment of markedly limited resources. The Federal Government needs to recognize these important differences and then respond with appropriate policy.

The people of Wyoming know I am here not just as their Senator but also as a rural doctor who has practiced medicine, fighting on their behalf.

Recently, I joined three of my colleagues to introduce S. 1157, the Craig Thomas Rural Hospital and Provider Equity Act.

Today, I rise to talk about a different bill that I have introduced alongside my colleague from Oregon, Senator RON WYDEN. It is called the Rural Health Clinic Patient Access and Improvement Act.

This legislation is a great example of what true bipartisanship can produce. I thank Senator WYDEN and his staff for working so hard to collaborate with me on this very important bill. I commend him for his dedication to helping rural Americans have equal access to the high-quality medical care they deserve.

This legislation strengthens America's 3,500 rural health clinics that serve rural and frontier communities.

Rural health clinics are a highly valued medical provider in communities all across this country. In Wyoming, we have rural health clinics located in communities that many people have never heard of, such as Baggs, Glenrock, Hulett, Lovell, Medicine Bow, Saratoga, and my wife Bobbie's hometown of Thermopolis. These clinics make sure people have access to

primary care as close to home as possible. That is not easy to.

To give you a snapshot of Wyoming's health care landscape, we have only 26 hospitals and 18 rural health clinics spread over nearly 100,000 square miles, which is a remarkably large distance. With vast distances, complex medical cases, and increased demand for technologically advanced medical care, the rural health care system is certainly not one size fits all.

Let me explain what this Rural Health Clinic Patient Access and Improvement Act actually does.

First, the rural health clinics currently receive an all-inclusive payment rate that is capped at $76. That payment has not been adjusted—except for inflation—since 1988. We all know that medical inflation has gone up at a much greater rate than regular inflation.

This bill addresses this problem by raising the rural health clinic cap from $76 to $92. Rural health clinics are a key component of the rural health care delivery system, and we need to make sure there is fair pay for patients who are taken care of in those facilities.

We also need to give them enough flexibility to meet their community's health care needs.

Additionally, this measure would establish a new quality reporting program for rural health clinics.

Three years ago, Congress required the Centers for Medicare and Medicaid to create a physician quality reporting system. This program offers bonus payments to doctors who report quality measures on Medicare services.

The quality incentive program is linked to the Medicare physician fee schedule. Rural health clinics, though, are not paid using the physician fee schedule. If Congress wants to pay doctors based not on volume but on the quality of care, then it is important to remember that the one-size-fits-all approach will not work here.

That is why this bill ensures that a comparable quality incentive is available to rural health care providers.

Third, the Rural Health Clinic Patient Access and Improvement Act would create a provider retention demonstration project. It is a five-State project that will study the extent to which a medical professional can be encouraged and enticed to practice in an underserved rural and frontier area.

The States would be given grants to help physicians, physician assistants, nurse practitioners, and certified nurse midwives to help them pay a small portion of their medical liability costs.

I believe these incentives will help draw more providers—especially those who deliver babies—to work in an underserved area because their malpractice insurance is the same whether they deliver 1 baby or 100. In these small areas, there aren't that many babies being born each year, so the cost, while it is the same for malpractice insurance, has to be distributed over a fewer number of patients. This will encourage them to practice in underserved areas.

Wyoming has too few primary care providers for the population we must serve. My State is not alone. This bill that Senator WYDEN and I have introduced reflects our commitment to ensure rural Americans have access to high-quality health care services.

I strongly encourage all my colleagues with an interest in rural health to cosponsor this bipartisan piece of legislation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alabama is recognized.

HOMELAND SECURITY APPROPRIATIONS

Mr. SESSIONS. Madam President, I offered an amendment to the Homeland Security legislation that is before us which would make that system permanent, and make its use mandatory for contractors that do business with the U.S. Government.

Essentially, employers all over America are accessing the E-Verify online system that allows them to have an instant check to determine whether the person who has applied for employment with them is legally in the country. They simply check their Social Security number and other data against the Social Security Administration and Department of Homeland Security databases. When the system determines a person is not here legally, employers don't hire them. Over 96 percent of the people are cleared automatically when a business checks. Of the remaining 3.9 percent of queries with an initial mismatch, only .37 percent of those were later determined to be work authorized. A certain percent of applicants are found to be here illegally, and they should not get a job or any taxpayers' money from a part of the stimulus package. Stimulus funds were set aside to help us reduce our unemployment rate in this country and to hire American workers. The prospect of jobs should not be a magnet to draw more illegal workers into the country.

The first thing you do, if you have an immigration problem, is stop rewarding those who break the law. One of the things you do not do is reward people who come illegally with jobs. You do not have to arrest them or do anything unkind. You simply do not hire them, especially with taxpayers' money that is designed to create American jobs.

This has been a matter we have talked about for some time. It is very important in this time of economic slowdown because the Bureau of Labor Statistics reported that the unemployment rate for June, just a week or so ago, had jumped to 9.5 percent, 467,000 jobs lost, the highest unemployment rate in 25 years. We have massive job losses. A lot of good people are out of work, they need work and are willing to work.

E-Verify is not a perfect system. People can find ways beat it, no doubt, but it actually works. One study by the Heritage Foundation concluded that as much as 13 percent of the jobs created under the stimulus plan would go to people illegally in the country the way we were operating. By utilizing the E-Verify system, I have no doubt we could drop that percentage dramatically. I am very concerned about it. I am a bit baffled by the difficulty we have had in moving forward with this amendment.

I will say that two bits of progress—small progress, I know—have occurred. The House Homeland Security appropriations bill for fiscal year 2010 has come over to the Senate, and it includes a 2-year extension of E-Verify. That is better than letting it expire. In addition, the Senate version of the bill includes a generous 3-year extension of this proven system. I have to say that is OK, but neither bill has any language that would make this system permanent. It leaves it on very shaky ground, making businesses that might voluntarily want to utilize it wonder if it really is the policy of our country to use it. Madam President, over 1,000 businesses a week are now voluntarily signing up to use the system.

Failing to make the system permanent also raises questions about the sincerity of our commitment. More significantly, neither one of the bills has any language that says that government contractors, people who are doing work for the U.S. Government, paid for by us, the taxpayers, must use this system. I ask, Why not? What possible, justifiable, rational reason can we give to pass legislation designed to help deal with this recession, to try to create American jobs and not make sure federal contractors only hire lawful workers? What basis could we utilize to say that those contractors should not at least take about 2 minutes—that is about all it takes to punch in a Social Security number into the system—to see whether a person applying for a job is legally in the country.

There is a long history on this amendment. For some reason, interest groups have been lobbying against permanent authorization and mandating use of E-Verify by federal contractors. Certain business groups oppose this amendment. It scares them. Why? I suggest there is only one logical conclusion: They like the idea of hiring illegal workers. But how can we as Members of the Senate representing the American taxpayers possibly justify using their money that is designed to create jobs for American citizens to

hire people who are here illegally, creating an even greater magnet to attract more people to come into our country illegally?

I have offered this amendment to the appropriations bill to ensure this successful program be made permanent. And, of course, any time in the future if it ceases to be practical, we could end it. But this amendment would make it permanent, sending a signal—that is part of what we want to do—and it would also be mandatory for government contractors. If a Federal contractor gets a contract to do work, at least they ought to determine whether a worker is legally in the country before they hire them. I don't think that is too much to ask, and I cannot imagine why anyone would oppose it. But I understand, once again, we are going to have objections.

It is working, and Department of Homeland Security Secretary Janet Napolitano recently said this in response to a question I asked:

The administration——

She is talking about the Obama administration—

strongly supports E-Verify as a cornerstone of work site enforcement and will work to continue to improve the program to ensure it is the best tool to prevent and deter the hiring of persons who are not authorized to work in the United States.

I think that is a pretty good affirmation of it. In fact, that has been a known reality for years. We have known this system has worked for years, but we have had people say: Oh, it is a bureaucratic nightmare. Why do businesses voluntarily sign up to use it, then? They say some people might be held up in employment. Under the bill, if something in the system raises questions about your employability, the person can still be hired while the problem is worked out. What we found is that 96 percent of the people are cleared immediately and only a very small number have turned out to have some sort of mistake in their situation. It is just not a practical objection, in my view.

I understand that some are claiming—my colleagues on the other side of the aisle—that it looks as if Secretary Napolitano will announce something with regard to federal contractors soon, maybe even tomorrow. That would be good. It would be a Presidential directive that could, in the short run, solve this problem. But we have heard that talk before.

President Bush finally, after being subjected to some criticism about this, issued Executive Order 12989 last June. That order mandated the use of the E-Verify system for Federal contractors and subcontractors and was supposed to take effect in January of this year. President Obama came in, as he has the power to do, and he delayed implementation of the order. Indeed, we have had four delays to date in implementing this Executive Order. The first was when President Obama said that the January 28 date was not appropriate. He put it off to February 20 and said that on February 20, businesses that get government contracts have to use the system. Then a few weeks later, the implementation was pushed back to May 21. Before May 21 got here, they pushed it back to June 30. A few weeks ago, we heard it would not be implemented until some time in September. And now we are hearing that they may implement it soon.

E-Verify is certainly one of the most effective tools we have, as the Secretary herself has stated. Why are we not moving forward with making it permanent, I ask. I ask Members of Congress in the House and in the Senate, why don't we play a role in this? Why leave it totally up to the President, who is subjected to all kinds of political and corporate lobbying to not do this program? Why don't we as a Senate just pass it, as we do so many other things, and make it law? If Secretary Napolitano plans to do this in the future, it wouldn't conflict with anything she planned to do. If they were not going to do it, it would be mandated and it would come into effect.

We have to be aware that we have had a lot of obstacles before with the implementation with this system and it has not gone forward in an effective way. I don't think we should wait any longer. Jobs are being lost every single day. They are being lost in significant numbers to people illegally in our country.

T.J. Bonner, the head of the Border Patrol Union, told us most passionately at a Judiciary Committee hearing a number of years ago that jobs are the magnet. If you can stop the magnet, the number of people they have to deal with at the border can be reduced. It sends a signal that the days of open borders and the ability to get a job even if you are illegally here are past. That is the way you do things and make it work. It is all part of a plan to send a message to the world that we are not open for illegality. Under E-Verify nobody is arrested, nobody is captured and taken to be deported. We just simply are taking a reasonable step to reduce the magnet of jobs from taxpayers' money, not private businesses, just government businesses and government contractors. The Federal Government uses it today in its hiring process.

I was surprised to hear one of my Democratic colleagues asking that we not support this amendment, saying that we should have a biometric employment identification database and that he cannot support E-Verify because it is not strong enough. That was a remarkable thing. Anyone who has studied the history of this program has good reason to wonder about the sincerity of people who object because E-Verify is not tough enough. The reason people are objecting is because it works. That is why the immigrant advocacy groups and the business crowd object to it. That is why. There may be better systems, but this one has been up and running for some time and been incredibly successful.

It was contended that I.D. thieves can defeat the system. I suspect that is so. But does that mean the system has to be perfect before we use it? That argument ignores the fact that this bill appropriates a significant amount of extra funds to assist the Department of Homeland Security's continuing effort to reinforce the system's antifraud protections. We have money in this legislation to try to eliminate the ability of people to defeat the system by fraud.

I don't think the argument can rationally be made that extending it would be ''a waste of taxpayers' money.'' We already have the system up and running. In reality, it is not going to cost any more money to have people use it. The system is up and working. I guess if people want to use that as an excuse to vote against the amendment, they can, but it makes little sense to me.

I would like to see an enhanced biometric system. It is absolutely something that can work. We need to do that. There are a lot of things we can do this very day, but you have to admit, if we cannot get the votes to just maintain the E-Verify system, it looks as if we may have even more difficulties with an advanced system.

I won't go on at length about this anymore. We have debated it before. Earlier this year on the stimulus bill, I offered an amendment to make E-Verify apply to the stimulus bill and the people who got government contracts would have to use it. The House put that in their bill. I kept getting objection from the Democratic leadership to my amendment. I couldn't understand why. And then I began to think about it, and it dawned on me what was happening. If my amendment were to pass and the language was in the House bill, unless real skullduggery were to occur, that language should be in the final bill. But if they could keep the language out of the Senate bill, even though the House had put the language in their bill by an overwhelming vote, they could take it out in conference when they meet in secret to deal with the conflicts between the House bill and the Senate bill. So I brought it up three or four times, and every time I tried to get a vote, it was blocked.

Then, finally, the bill passed without my amendment having passed. And do you know what happened? When they met in secret, in conference, the House leadership—the Speaker and her team—receded to the Senate bill, agreed to eliminate their language, and therefore the language wasn't in the

bill. And what happened politically? All the House Members, Republicans and Democrats, could say: I voted for E-Verify. And the Senate Members, when hearing complaints, could say: Well, I would have voted for it if it had come up. It just never came up.

See, this was the plan all along. I just have to tell you what the truth is and how this happened and what is at work out there.

So I hope Secretary Napolitano will do what she can do and the President will do what he can do and order that this system be mandatory for government contractors and to permanently authorize it. But I don't see any reason in the world why we should wait on that. What we should do as a Congress, if we believe in what we say about our goal to eliminate the surge of illegal immigration and trying to protect American jobs at this time of economic recession, is we ought to vote for the amendment. What harm can there be?

So I urge my colleagues to do the right thing on this amendment and vote for it. I am baffled as to why there would be hesitation about it. I think if people look at it, it is very simple. The E-Verify system is up and running. The government employment offices use it before they hire anybody for the government. Thousands of businesses are using it every day. Over 130,000 employers are currently enrolled in the program, and about a thousand businesses a week are signing up to use it. It protects them, in a way. If somebody says: You knowingly hired illegal workers, they can say: I checked and they had a good I.D. and a good name, and I did my best. And that will protect them from complaints against them. Most employers want to do the right thing. They do not want to hire people who are not lawfully in the country. So that is why it is working even as a voluntary program. We are not hearing complaints about it. It is not violating people's civil rights. It is working in a healthy way.

All we need to do now is make this system permanent, not keep leaving it out here in limbo. And secondly, let's make sure it applies to people who not only go directly to work for the U.S. Government but for contractors who do work for the government, people who are getting money under the stimulus bill, which was designed to create jobs for American citizens.

I thank the Chair, and I yield the floor.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. BROWN. Madam President, earlier today, just a couple of hours ago, I spoke in this Chamber about the need to expand access to generic drugs. I spoke about expanding generic access for biologics—drugs that treat cancer, and diabetes, and rheumatoid arthritis, Alzheimer's, multiple sclerosis, Parkinson's, and a whole host of disabling and often fatal diseases. I talked about how much money could be saved with a pathway to what are called follow-on biologics—or generics—and how much better access that would be for people who simply can't afford the thousands of dollars per month that it often costs for these biologics, these very expensive treatments. I talked about how it could save money for small businesses that so often pay the freight for health care, for health insurance for their employees, and how it could save money for large companies that simply aren't able to be as competitive around the world because of the high cost of these biologics. All this is part of a larger debate about health care reform.

Just a few short days after celebrating our Nation's birthday, we are fighting for what should be a right for every American; that is, access to affordable health coverage. This isn't about the Republicans. It isn't about Democrats. It is not about my part of the country, the Midwest, or the Presiding Officer's part of the country, New England. It is not about Ohio or New Hampshire or California or Nebraska. It is about America. It is about fighting for the next great progressive chapter in our Nation's 233-year history.

Think of the progress as a nation we have made in the last hundred years. I wear on my lapel a pin depicting a canary in a bird cage. The mine workers used to take a canary down in the mines. If the canary died from lack of oxygen or toxic gas, the mine worker knew he had to get out of the mines immediately. He had no union strong enough to protect him or no government that cared enough to protect him. Think of the progress this country has made over these past 100 years since the canaries went down in the mines with the miners.

A baby born in America at the turn of the last century, say, in 1900, had a life expectancy of only about 46 years. Today, we live three decades longer because of our progressive government, because of a ban on child labor, because of civil rights and women's rights, because of safe drinking water and clean air, because of seatbelts and airbags, because of Medicare and Social Security and minimum wage and workers' compensation, and so many great things this institution has done.

Over the Fourth of July weekend, I was honored to have spent time with the Scalia family from Australia. Natalie and Greg Scalia lived in the United States, just upstairs from my wife when she was a struggling single parent. Greg Scalia was an intern, I believe at the Cleveland Clinic, making very little money. They had two children then. They now have four children. Will and Issy were born and were here a dozen years ago when they lived in the United States for a couple of years in the 1990s. Born to the Scalia family since living here and joining the family on this visit were Richie and Rosie. They came to Cleveland over the Fourth of July weekend. They did what Americans do: They went to a Cleveland Indians game. Unfortunately, typically, they saw the Indians lose—a pattern that has been all too common this year. They went to a parade in the southwest part of Cleveland, they went to picnics, and they had family time.

As I talked with Dr. Scalia and all of us talked about the current debate over health care reform, it occurred to me that this debate and the hours and hours spent by staff and Members who work in the Senate in crafting the public plan we announced last Thursday, the issue of generic drugs we engage in today and all the work done on prevention and on quality of care and on workforce training and on stopping fraud in the Medicare system—all the different kinds of health care systems overall are really part of the American experience. But years from now, when we look back on this, we will know that it is not about terms such as ''public option'' or ''follow-on biologics'' or concepts such as preventive care, quality control, or the discharge plan, where people leave hospitals; this is really all about American families.

That is why, as we celebrated the Fourth of July over the weekend, it was particularly important to think about what we do this month in the Health, Education, Labor, and Pensions Committee, on which I sit, and in the Finance Committee—the two committees of the Senate joined with the House Ways and Means Committee and the Education and Labor Committee and the Energy and Commerce Committee—as we work on this. Our first pledge is to protect what is right in our health care system, and our second pledge is to fix what is wrong.

Protecting what is right means if you have health insurance and you are pleased with your health insurance, you keep it. No government is going to tell you to change that; you keep what you have. If you are unhappy with your insurance, if you are dissatisfied or simply have no health insurance or have very inadequate health insurance, then we can offer you private insurance or we can offer you public insurance—the public plan option, so to speak—that will give you the choices as an American citizen.

This is a historic moment for our country. This is the first time since Franklin Roosevelt thought about trying to add health care, a Medicare-like

system, to Social Security in the 1930s. He backed off under pressure from the American Medical Association. In the 1940s President Truman offered Medicare. He was not able to pass it for all kinds of reasons. In 1965, President Johnson, with the huge Democratic majorities, the biggest majorities we have had in the last 70 years, was able to pass Medicare and Medicaid, and look what that brought us.

Madam President, as you join us in your first term from New Hampshire, and many other freshmen who have moved on this side of the aisle—we have sort of squeezed these desks together, as we see—we will be facing a historic moment where we will have a chance to provide health insurance and help all these families I saw on the Fourth of July reach the American dream. It is an opportunity for people who have not had health insurance and people who have inadequate health insurance to be able to provide for their families. They are working hard and they are playing by the rules. They work as hard as any United States Senator. The comforts of their job are not nearly as much as we have in this body, and they are deserving of the same kind of health insurance that people in this Chamber have—Senators, staff people, all of us.

This is a great moment, a historic moment, as we move forward in the history of our great country.

DISCLOSURE OF CONGRESSIONALLY DIRECTED SPENDING ITEMS

Mr. INOUYE. Mr. President, pursuant to Senate rules, I submit a report, and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DISCLOSURE OF CONGRESSIONALLY DIRECTED SPENDING ITEMS

I certify that the information required by rule XLIV of the Standing Rules of the Senate related to congressionally directed spending items has been identified in the committee report which accompanies S. 1298 and that the required information has been available on a publicly accessible congressional website at least 48 hours before a vote on the pending amendment to H.R. 2892.

VOTE EXPLANATION

Mr. ISAKSON. Mr. President, I was unavoidably detained during rollcall vote No. 215, an amendment to strike the earmark for the Durham Museum in Omaha, NE, from H.R. 2918, the Legislative Branch Appropriations Act of 2010; rollcall vote No. 216 on a point of order with respect to amendment No. 1365; and rollcall vote No. 217 on passage of H.R. 2918, the Legislative Branch Appropriations Act of 2010.

Had I been present I would have voted yea for rollcall vote No. 215; nay for rollcall vote No. 216; and nay for rollcall vote No. 217 and ask that the RECORD reflect that.

OBSTRUCTIONISM OF NOMINATIONS

Mr. LEAHY. Mr. President, I am sorry to see Republican obstructionism in the Senate return with such a vengeance. Just last November, the American people voted for change. They sent a new President to the White House to lead our government and sent a strong message that they expected Washington to put aside pettiness and work on their behalf on the serious problems facing them and the country. After only 6 months, it seems Republicans in the Senate have already forgotten that message.

The Senate majority leader has spoken about the difficulties he is having getting any semblance of reasonable cooperation from across the aisle. The Republicans' obstruction of Presidential nominees is a stark example. Just a few years ago, they were intent on employing the ''nuclear option'' and risking destruction of longstanding Senate rules and practices in order to ensure that every one of President Bush's nominees was confirmed. This year, with President Obama making the nominations, they have reverted to the anonymous holds that characterized their actions during the Clinton years. It is impossible to find a principle that justifies this obstruction. It is likewise difficult to see what ''extraordinary circumstances'' exist to justify filibusters and unwillingness to proceed to consider these nominations.

The Senate's last week in session before the July 4th recess witnessed a Republican filibuster of the President's nominee to serve as the Legal Advisor at the State Department. The target was Harold Koh, the distinguished dean of the Yale Law School, a former high-ranking official in the State Department as well as a former official at the Office of Legal Counsel at the Justice Department. That filibuster was unsuccessful, although 31 Republican Senators supported it. That was not the first attempt by Senate Republicans to filibuster executive branch nominees. Earlier this year, the Senate was forced to file for cloture to avert a Republican filibuster against the nomination of David Ogden to serve as the Deputy Attorney General.

The destructive strategy culminated on June 25 when Republicans objected to confirming nine executive branch nominees reported by the Judiciary Committee for action by the Senate. They included five U.S. attorneys, 3 Assistant Attorneys General and the Chairman of the U.S. Sentencing Commission. In addition, the Judiciary Committee has reported 3 judicial nominees to begin filling the 74 vacancies in our Federal courts around the country. Republicans are turning the clock back to 10 years ago, when their obstructionism led to more than 100 judicial vacancies and earned rebukes from Chief Justice Rehnquist.

In an editorial entitled ''Call It Obstructionism,'' the New York Times on June 28 noted that the Senate adjourned for the July 4th recess with ''21 nominees for important posts awaiting confirmation.'' Thirteen had been reported by the Senate Judiciary Committee but remained stalled before the Senate by Republican objections. I hope this work period sees the cooperation from Senate Republicans that the American people have demanded.

REMEMBERING TERRY BARNICH AND MAGED HUSSEIN

Mr. KERRY. Mr. President, I would like to say a few words about two brave Americans who were tragically killed in Iraq earlier this year. On May 25, 2009, Terrance Barnich of Illinois and Maged Hussein of Florida died when an improvised explosive device detonated near a construction site outside of Fallujah.

Terry Barnich was the deputy director of the Iraq Transition Assistance Office in Baghdad. He had signed on for multiple tours in Iraq and was the senior American expert responsible for expanding the generation of electricity across Iraq. Dr. Maged Hussein was the senior adviser for water resources in the Iraq Transition Assistance Office and a civilian member of the Army Corps of Engineers. He, too, volunteered for multiple tours in Iraq.

These two men represent the very best America has to offer. Both gave up the comforts of home to live in trailers in Baghdad in an effort to help provide a better future for Iraq. Countless thousands of Iraqi civilians have access to electricity and potable water as a result of Terry's and Maged's efforts. Along with the personal tragedy, their loss represents a serious setback for American reconstruction efforts in Iraq. We mourn their passing and offer our deepest condolences to their families.

ADDITIONAL STATEMENTS

COMMENDING LIEUTENANT GENERAL SCOTT C. BLACK

● Mr. GRAHAM. Mr. President, today I wish to recognize and pay tribute to LTG Scott C. Black for his many years of loyal and exceptionally meritorious service to our Nation culminating in his steadfast devotion, stewardship, and leadership of the Army Judge Advocate General's Corps as the 37th and first 3-Star Judge Advocate General. Lieutenant General Black will retire from the Army on 1 October 2009 having completed a distinguished military

career of over 35 years. We owe him a debt of gratitude for his many contributions to our Nation and the legal profession, particularly during operations in support of the global war on terror.

Born on September 1, 1952, in Camp Cook, CA, this great patriot grew up traveling around the world in a military family but always considered California his home and is a resident to this day. He graduated in 1974 from California Polytechnic State University with a bachelor of arts in political science. While attending Cal Poly, Lieutenant General Black was enrolled in the Reserve Officers' Training Corps. Upon graduation, he began his military career as a commissioned armor officer. After completing the armor officer basic course and Airborne and Ranger schools, he returned to California for his first duty assignment and served at Fort Ord from 1974–1977. In 1977, the Army selected him to attend law school through the Funded Legal Education Program. He remained on the west coast and graduated in 1980 with his juris doctor degree from the California Western School of Law.

He then attended the Judge Advocate Officer Basic Course in Charlottesville, VA, before heading to Fort Bliss, TX, where he honed his legal skills serving as the chief of legal assistance; trial counsel; chief, criminal law; and as a contracts attorney. In 1984, he returned to Charlottesville to attend the judge advocate officer graduate course. In the short time he was a judge advocate before attending the graduate course, Lieutenant General Black quickly distinguished himself from his peers as possessing the legal acumen and interpersonal skills to serve in the Judge Advocate General's Corps' most visible and challenging positions. From 1985–1989 he served in the general law branch, administrative law division, Office of The Judge Advocate General. During this time period, he received the high honor and rare distinction of being selected to serve as an assistant counsel to the President of the United States. After leaving the White House, his stellar performance led to his selection to attend the U.S. Army Command and General Staff College at Fort Leavenworth, KS. In 1990, he returned to Fort Ord, CA, where he served as the deputy staff judge advocate for the 7th Infantry Division, Light, until 1993. After leaving Fort Ord, Lieutenant General Black continued to expertly fill and excel in challenging positions.

In 1993, Lieutenant General Black and his family moved to Europe where he was the chief, military and civil law division, Office of the Judge Advocate, U.S. Army Europe and Seventh Army, Germany. In 1994 he became the staff judge Advocate, 3d Infantry Division, later redesignated 1st Infantry Division, U.S. Army Europe and Seventh Army, Germany. In 1996, he returned to Washington, DC, where he served as the legislative counsel and chief, investigations and legislative division, Office of the Chief of Legislative Liaison, Office of the Secretary of the Army, until 1998. From 1998–1999, Lieutenant General Black attended the Industrial College of the Armed Forces. In 1999 he returned to the Office of The Judge Advocate General to serve as the chief, personnel, plans, and training office. In 2000, Lieutenant General Black returned to Germany as the staff judge advocate, V Corps, U.S. Army Europe and Seventh Army, Germany.

In 2001 Lieutenant General Black was selected for promotion to brigadier general, and so he returned to Washington, DC, to serve as the assistant judge advocate general for military law and operations. In 2003 he was assigned as the first commanding general of the U.S. Army Judge Advocate General's Legal Center and School. In 2005 he became the 37th The judge advocate general of the Army. He was promoted to lieutenant general on 8 December 2008 to become the Army's first 3-star the judge advocate general.

As the judge advocate general of the Army, Lieutenant General Black served as the principal staff officer responsible for the largest legal services corps within the Department of Defense, with over 9,000 uniformed and civilian attorneys, paralegal noncommissioned officers, and civilian support staff across 651 offices in 19 countries. Lieutenant General Black expertly advised the Secretary of the Army and the Army Staff on sensitive issues affecting the Army and the Department of Defense during a tumultuous and difficult time in our Nation's history. Along with the judge advocate generals of the other services he was the conscious of the nation as he provided counsel on novel legal issues in international law and the ethical values fundamental to the United States.

Under his leadership the Judge Advocate General's Corps transitioned along with the rest of the Army so that judge advocates were more accessible and effective to the commanders who rely on their advice. Lieutenant General Black's awards include the Legion of Merit with Oak Leaf Cluster, Army Meritorious Service Medal with four Oak Leaf Clusters, Army Commendation Medal with Oak Leaf Cluster, and the Army Achievement Medal with Oak Leaf Cluster. He has earned the Ranger Tab and the Parachutist Badge.

Lieutenant General Black and his wonderful wife Kim have been married for 33 years. They have four children and one grandchild.

I know all my colleagues join me in saluting LTG Scott C. Black and his family for their many years of truly outstanding service to the Judge Advocate General's Corps, the U.S. Army, and our great Nation.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Williams, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

H.R. 2454. An act to create clean energy jobs, achieve energy independence, reduce global warming pollution and transition to a clean energy economy.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–2190. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Chlorantranilprole; Pesticide Tolerances'' (FRL No. 8413–6) as received during adjournment of the Senate in the Office of the President of the Senate on June 26, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2191. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Sodium 1, 4-Dialkyl Sulfosuccinates; Exemption from the Requirement of a Tolerance'' (FRL No. 8423–2) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2192. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Pyrimethani; Pesticide Tolerances'' (FRL No. 8423–6) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2193. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Polyglyceryl Phthalate Ester of Coconut Oil Fatty Acids; Exemption from the Requirement of a Tolerance'' (FRL No. 8423–1) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2194. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''d-Phenothrin; Pesticide Tolerances'' (FRL No. 8417–4) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2195. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Cyazofamid; Pesticide Tolerance'' (FRL No. 8423–5) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2196. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled ''Movement of Hass Avocados From Areas Where Mexican Fruit Fly or Sapote Fruit Fly Exist'' ((RIN0579–AC67) (Docket No. APHIS–2006–0189)) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2197. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''2-Propenoic acid, 2-methyl-, polymers with Bu acrylate, Et acrylate, Me methacrylate and polyethylene glycol methacrylate C16–18-alkyl ethers; Tolerance Exemption'' (FRL No. 8422–3) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2198. A communication from the Acting Assistant Secretary, Bureau of Political-Military Affairs, Department of State, transmitting, pursuant to law, an addendum to certification, transmittal number: DDTC 019–09, of the proposed sale or export of defense articles, including technical data, and defense services to a Middle East country regarding any possible affects such a sale might have relating to Israel's Qualitative Military Edge over military threats to Israel; to the Committee on Armed Services.

EC–2199. A communication from the Acting Assistant Secretary, Bureau of Political-Military Affairs, Department of State, transmitting, pursuant to law, an addendum to certification, transmittal number: DDTC 032–09, of the proposed sale or export of defense articles, including technical data, and defense services to a Middle East country regarding any possible affects such a sale might have relating to Israel's Qualitative Military Edge over military threats to Israel; to the Committee on Armed Services.

EC–2200. A communication from the Acting Assistant Secretary, Bureau of Political-Military Affairs, Department of State, transmitting, pursuant to law, an addendum to certification, transmittal number: DDTC 036–09, of the proposed sale or export of defense articles, including technical data, and defense services to a Middle East country regarding any possible affects such a sale might have relating to Israel's Qualitative Military Edge over military threats to Israel; to the Committee on Armed Services.

EC–2201. A communication from the Director, Defense Procurement, Acquisition Policy, and Strategic Sourcing, Department of Defense, transmitting, pursuant to law, the report of a rule entitled ''Motor Carrier Fuel Surcharge (DFARS Case 2008–D040)'' (RIN0750–AG30) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Armed Services.

EC–2202. A communication from the Director, Defense Procurement, Acquisition Policy, and Strategic Sourcing, Department of Defense, transmitting, pursuant to law, the report of a rule entitled ''Lease of Vessels, Aircraft, and Combat Vehicles (DFARS Case 2006–D013)'' (RIN0750–AF39) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Armed Services.

EC–2203. A communication from the Director, Defense Procurement, Acquisition Policy, and Strategic Sourcing, Department of Defense, transmitting, pursuant to law, the report of a rule entitled ''Use of Commercial Software (DFARS Case 2008–D044)'' (RIN0750–AG32) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Armed Services.

EC–2204. A communication from the Secretary of Defense, transmitting a report on the approved retirement of General Bantz J. Craddock, United States Army, and his advancement to the grade of general on the retired list; to the Committee on Armed Services.

EC–2205. A communication from the Secretary of Defense, transmitting a report on the approved retirement of Lieutenant General James G. Roudebush, United States Air Force, and his advancement to the grade of lieutenant general on the retired list; to the Committee on Armed Services.

EC–2206. A communication from the Secretary of Defense, transmitting a report on the approved retirement of Lieutenant General Michael D. Rochelle, United States Army, and his advancement to the grade of lieutenant general on the retired list; to the Committee on Armed Services.

EC–2207. A communication from the Secretary of Defense, transmitting a report on the approved retirement of Lieutenant General Samuel T. Helland, United States Marine Corps, and his advancement to the grade of lieutenant general on the retired list; to the Committee on Armed Services.

EC–2208. A communication from the Secretary of Defense, transmitting a report on the approved retirement of General John D.W. Corley, United States Air Force, and his advancement to the grade of general on the retired list; to the Committee on Armed Services.

EC–2209. A communication from the Secretary of Defense, transmitting a report on the approved retirement of General David D. McKiernan, United States Army, and his advancement to the grade of general on the retired list; to the Committee on Armed Services.

EC–2210. A communication from the General Counsel of the Department of Defense, transmitting proposed legislation relative to Authority to Extend Eligibility for Enrollment in Department of Defense Elementary and Secondary Schools to Certain Additional Categories of Dependents and the National Defense Authorization Bill for Fiscal Year 2010; to the Committee on Armed Services.

EC–2211. A communication from the Director, Office of Legal Affairs, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled ''Processing of Deposit Accounts in the Event of an Insured Depository Institution Failure'' (RIN3064-AD26) as received during adjournment of the Senate in the Office of the President of the Senate on July 1, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC–2212. A communication from the Director, Office of Legal Affairs, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled ''Modification of Temporary Liquidity Guarantee Program'' (RIN3064–AD37) as received during adjournment of the Senate in the Office of the President of the Senate on July 1, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC–2213. A communication from the Director, Office of Legal Affairs, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled ''Interest Rate Restrictions on Insured Depository Institutions That Are Not Well Capitalized'' (RIN3064–AD44) as received during adjournment of the Senate in the Office of the President of the Senate on July 1, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC–2214. A communication from the Director, Office of Legal Affairs, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled ''Special Assessments'' (RIN3064–AD35) as received during adjournment of the Senate in the Office of the President of the Senate on July 1, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC–2215. A communication from the Director, Office of Legal Affairs, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled ''Implementation of the 2008 Australia Group Intersessional Decisions; Additions to the List of States Parties to the Chemical Weapons Convention'' (RIN0694–AE55) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC–2216. A communication from the Regulatory Specialist, Office of the Comptroller of the Currency, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Risk-Based Capital Guidelines; Capital Adequacy Guidelines; Capital Maintenance; Capital—Residential Mortgage Loans Modified Pursuant to the Making Homes Affordable Program'' (RIN1557–AD25) as received during adjournment of the Senate in the Office of the President of the Senate on July 1, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC–2217. A communication from the Chairman and President of the Export-Import Bank, transmitting, pursuant to law, a report relative to transactions involving U.S. exports to the Kingdom of Bahrain; to the Committee on Banking, Housing, and Urban Affairs.

EC–2218. A communication from the Chairman and President of the Export-Import Bank, transmitting, pursuant to law, a report relative to transactions involving U.S. exports to Norway; to the Committee on Banking, Housing, and Urban Affairs.

EC–2219. A communication from the Chairman and President of the Export-Import Bank, transmitting, pursuant to law, a report relative to transactions involving U.S. exports to Egypt; to the Committee on Banking, Housing, and Urban Affairs.

EC–2220. A communication from the Chairman and President of the Export-Import Bank, transmitting, pursuant to law, a report relative to transactions involving U.S.

exports to Ireland; to the Committee on Banking, Housing, and Urban Affairs.

EC–2221. A communication from the Secretary of Energy, transmitting, pursuant to law, a report concerning operations at the Naval Petroleum Reserves for fiscal year 2008; to the Committee on Energy and Natural Resources.

EC–2222. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Dodecanedioic acid, 1, 12-dihydrazide and Thiophene, 2,5-dibromo-3-hexyl-; Significant New Use Rules'' ((RIN2070–AB27)(FRL No. 8398–5)) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Environment and Public Works.

EC–2223. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''American Recovery and Reinvestment Act of 2009 Clarification of April 30, 2009, Addendum to Supplemental Funding for Brownfields Revolving Loan Fund Grantees'' (FRL No. 8925–6) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Environment and Public Works.

EC–2224. A communication from the Director of Regulatory Management, Office of Policy, Economics and Innovations, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''New York: Final Authorization of State Hazardous Waste Management Program Revision'' (FRL No. 8916–7) as received during adjournment of the Senate in the Office of the President of the Senate on June 26, 2009; to the Committee on Environment and Public Works.

EC–2225. A communication from the Office Manager, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled ''Medicaid Program: Rescission of School-Based Administration/Transportation Final Rule, Outpatient Hospital Services Final Rule, and Partial Rescission of Case Management Interim Final Rule'' (RIN0938–AP75) as received during adjournment of the Senate in the Office of the President of the Senate on June 29, 2009; to the Committee on Finance.

EC–2226. A communication from the Office Manager, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled ''Medicaid Programs: Health Care-Related Taxes'' (RIN0938–AP74) as received during adjournment of the Senate in the Office of the President of the Senate on June 29, 2009; to the Committee on Finance.

EC–2227. A communication from the Director, Defense Procurement, Acquisition Policy, and Strategic Sourcing, Department of Defense, transmitting, pursuant to law, the report of a rule entitled ''Defense Federal Acquisition Regulation Supplement; Trade Agreements—Costa Rica and Peru (DFARS Case 2008–D046)'' (RIN0750–AG31) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Finance.

EC–2228. A communication from the Assistant Secretary for Legislative Affairs, Department of the Treasury, transmitting, the report of proposed legislation relative to the Asian Development Fund; to the Committee on Foreign Relations.

EC–2229. A communication from the Director of Regulations and Policy Management Staff, Food and Drug Administration, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled ''Beverages: Bottled Water; Correction'' (Docket No. FDA–2008–N–0446) as received during adjournment of the Senate in the Office of the President of the Senate on July 2, 2009; to the Committee on Health, Education, Labor, and Pensions.

EC–2230. A communication from the Chairman of the Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 18–115, ''Withholding of Tax on Lottery Winnings Temporary Act of 2009''; to the Committee on Homeland Security and Governmental Affairs.

EC–2231. A communication from the Chairman of the Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 18–116, ''City Market at O Street Project Financing Clarification Temporary Act of 2009''; to the Committee on Homeland Security and Governmental Affairs.

EC–2232. A communication from the Chairman of the Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 18–117, ''DCPL Procurement Temporary Amendment Act of 2009''; to the Committee on Homeland Security and Governmental Affairs.

EC–2233. A communication from the Chairman of the Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 18–118, ''Day Care Facility Temporary Act of 2009''; to the Committee on Homeland Security and Governmental Affairs.

A communication from the Federal Register Liaison Officer, Veterans Health Administration, Department of Veterans Affairs, transmitting, pursuant to law, the report of a rule entitled ''Civilian Health and Medical Program of the Department of Veterans Affairs: Preauthorization of Durable Medical Equipment'' (RIN2900–AM99) as received during adjournment of the Senate in the Office of the President of the Senate on June 29, 2009; to the Committee on Veterans' Affairs.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mrs. FEINSTEIN, from the Committee on Appropriations, with an amendment in the nature of a substitute:

H.R. 2996. A bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes (Rept. No. 111–38).

By Mr. KOHL, from the Committee on Appropriations, without amendment:

S. 1406. An original bill making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes (Rept. No. 111–39).

By Mr. JOHNSON, from the Committee on Appropriations, without amendment:

S. 1407. A bill making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2010, and for other purposes (Rept. No. 111–40).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mrs. BOXER for the Committee on Environment and Public Works.

*Colin Scott Cole Fulton, of Maryland, to be an Assistant Administrator of the Environmental Protection Agency.

*Paul T. Anastas, of Connecticut, to be an Assistant Administrator of the Environmental Protection Agency.

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Ms. STABENOW (for herself, Mr. ROBERTS, Mr. SCHUMER, Mr. CHAMBLISS, Mrs. HAGAN, Mr. BURR, Mrs. SHAHEEN, Mr. GRAHAM, Ms. LANDRIEU, Mr. LUGAR, Mr. KYL, Mr. DURBIN, and Mr. ISAKSON):

S. 1400. A bill to amend the Internal Revenue Code of 1986 to make permanent the depreciation classification of motorsports entertainment complexes; to the Committee on Finance.

By Mr. MARTINEZ (for himself, Mr. CASEY, Mr. ENSIGN, and Mr. UDALL of Colorado):

S. 1401. A bill to provide for the award of a gold medal on behalf of Congress to Arnold Palmer in recognition of his service to the Nation in promoting excellence and good sportsmanship in golf; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. MERKLEY (for himself and Mr. ALEXANDER):

S. 1402. A bill to amend the Internal Revenue Code of 1986 to increase the amount allowed as a deduction for start-up expenditures; to the Committee on Finance.

By Mr. INOUYE (for himself and Mr. BEGICH):

S. 1403. A bill to amend title VII of the Public Health Service Act to ensure that social work students or social work schools are eligible for support under certain programs that would assist individuals in pursuing health careers or for grants for training projects in geriatrics, and to establish a social work training program; to the Committee on Health, Education, Labor, and Pensions.

By Mr. INOUYE:

S. 1404. A bill to implement demonstration projects at federally qualified community health centers to promote universal access to family-centered, evidence-based behavioral health interventions that prevent child maltreatment and promote family well-being by addressing parenting practices and skills for families from diverse socioeconomic, cultural, racial, ethnic, and other backgrounds, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. REID (for Mr. KENNEDY (for himself and Mr. KERRY)):

S. 1405. A bill to redesignate the Longfellow National Historic Site, Massachusetts, as the ''Longfellow House-Washington's Headquarters National Historic Site''; to the Committee on Energy and Natural Resources.

By Mr. KOHL:

S. 1406. An original bill making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes; from the Committee on Appropriations.

By Mr. JOHNSON:

S. 1407. A bill making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; from the Committee on Appropriations; placed on the calendar.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. REID:

S. Res. 208. A resolution to constitute the majority party's membership on certain committees for the One Hundred Eleventh Congress, or until their successors are chosen; considered and agreed to.

By Mr. ISAKSON (for himself and Mr. CARDIN):

S. Res. 209. A resolution recognizing the 40th anniversary of the National Eye Institute and expressing support for designation of the years 2011 through 2020 as the ''Decade of Vision''; considered and agreed to.

ADDITIONAL COSPONSORS

S. 21

At the request of Mr. REID, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 21, a bill to reduce unintended pregnancy, reduce abortions, and improve access to women's health care.

S. 144

At the request of Mr. KERRY, the names of the Senator from New Jersey (Mr. LAUTENBERG) and the Senator from Nebraska (Mr. JOHANNS) were added as cosponsors of S. 144, a bill to amend the Internal Revenue Code of 1986 to remove cell phones from listed property under section 280F.

S. 211

At the request of Mr. BURR, the name of the Senator from Utah (Mr. HATCH) was added as a cosponsor of S. 211, a bill to facilitate nationwide availability of 2-1-1 telephone service for information and referral on human services and volunteer services, and for other purposes.

S. 213

At the request of Mrs. BOXER, the name of the Senator from Washington (Ms. CANTWELL) was added as a cosponsor of S. 213, a bill to amend title 49, United States Code, to ensure air passengers have access to necessary services while on a grounded air carrier, and for other purposes.

S. 348

At the request of Mr. ROCKEFELLER, the name of the Senator from Washington (Ms. CANTWELL) was added as a cosponsor of S. 348, a bill to amend section 254 of the Communications Act of 1934 to provide that funds received as universal service contributions and the universal service support programs established pursuant to that section are not subject to certain provisions of title 31, United States Code, commonly known as the Antideficiency Act.

S. 422

At the request of Ms. STABENOW, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 422, a bill to amend the Federal Food, Drug, and Cosmetic Act and the Public Health Service Act to improve the prevention, diagnosis, and treatment of heart disease, stroke, and other cardiovascular diseases in women.

S. 451

At the request of Ms. COLLINS, the name of the Senator from Wyoming (Mr. BARRASSO) was added as a cosponsor of S. 451, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

S. 461

At the request of Mrs. LINCOLN, the name of the Senator from Washington (Ms. CANTWELL) was added as a cosponsor of S. 461, a bill to amend the Internal Revenue Code of 1986 to extend and modify the railroad track maintenance credit.

S. 491

At the request of Mr. WEBB, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 491, a bill to amend the Internal Revenue Code of 1986 to allow Federal civilian and military retirees to pay health insurance premiums on a pretax basis and to allow a deduction for TRICARE supplemental premiums.

S. 511

At the request of Mr. BROWNBACK, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 511, a bill to amend part B of title XVIII of the Social Security Act to provide for an exemption of pharmacies and pharmacists from certain Medicare accreditation requirements in the same manner as such exemption applies to certain professionals.

S. 560

At the request of Mr. FRANKEN, his name was added as a cosponsor of S. 560, a bill to amend the National Labor Relations Act to establish an efficient system to enable employees to form, join, or assist labor organizations, to provide for mandatory injunctions for unfair labor practices during the organizing efforts, and for other purposes.

S. 599

At the request of Mr. CARPER, the name of the Senator from Virginia (Mr. WEBB) was added as a cosponsor of S. 599, a bill to amend chapter 81 of title 5, United States Code, to create a presumption that a disability or death of a Federal employee in fire protection activities caused by any certain diseases is the result of the performance of such employee's duty.

S. 649

At the request of Mr. KERRY, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 649, a bill to require an inventory of radio spectrum bands managed by the National Telecommunications and Information Administration and the Federal Communications Commission.

S. 654

At the request of Mr. BUNNING, the name of the Senator from Utah (Mr. BENNETT) was added as a cosponsor of S. 654, a bill to amend title XIX of the Social Security Act to cover physician services delivered by podiatric physicians to ensure access by Medicaid beneficiaries to appropriate quality foot and ankle care.

S. 693

At the request of Mr. HARKIN, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. 693, a bill to amend the Public Health Service Act to provide grants

for the training of graduate medical residents in preventive medicine.

S. 700

At the request of Mr. BINGAMAN, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of S. 700, a bill to amend title II of the Social Security Act to phase out the 24-month waiting period for disabled individuals to become eligible for Medicare benefits, to eliminate the waiting period for individuals with life-threatening conditions, and for other purposes.

S. 711

At the request of Mr. BAUCUS, the name of the Senator from Colorado (Mr. BENNET) was added as a cosponsor of S. 711, a bill to require mental health screenings for members of the Armed Forces who are deployed in connection with a contingency operation, and for other purposes.

S. 811

At the request of Mr. INOUYE, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 811, a bill to amend the Public Health Service Act to promote mental and behavioral health services for underserved populations.

S. 812

At the request of Mr. BAUCUS, the name of the Senator from Arkansas (Mr. PRYOR) was added as a cosponsor of S. 812, a bill to amend the Internal Revenue Code of 1986 to make permanent the special rule for contributions of qualified conservation contributions.

S. 846

At the request of Mr. DURBIN, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 846, a bill to award a congressional gold medal to Dr. Muhammad Yunus, in recognition of his contributions to the fight against global poverty.

S. 848

At the request of Mrs. MCCASKILL, the names of the Senator from North Carolina (Mr. BURR) and the Senator from Washington (Ms. CANTWELL) were added as cosponsors of S. 848, a bill to recognize and clarify the authority of the States to regulate intrastate helicopter medical services, and for other purposes.

S. 908

At the request of Mr. BAYH, the names of the Senator from Ohio (Mr. BROWN) and the Senator from Alabama (Mr. SESSIONS) were added as cosponsors of S. 908, a bill to amend the Iran Sanctions Act of 1996 to enhance United States diplomatic efforts with respect to Iran by expanding economic sanctions against Iran.

S. 934

At the request of Mr. HARKIN, the names of the Senator from Rhode Island (Mr. REED), the Senator from Wisconsin (Mr. KOHL), the Senator from South Dakota (Mr. JOHNSON), and the Senator from Washington (Ms. CANTWELL) were added as cosponsors of S. 934, a bill to amend the Child Nutrition Act of 1966 to improve the nutrition and health of schoolchildren and protect the Federal investment in the national school lunch and breakfast programs by updating the national school nutrition standards for foods and beverages sold outside of school meals to conform to current nutrition science.

S. 979

At the request of Mr. DURBIN, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 979, a bill to amend the Public Health Service Act to establish a nationwide health insurance purchasing pool for small businesses and the self-employed that would offer a choice of private health plans and make health coverage more affordable, predictable, and accessible.

S. 981

At the request of Mr. REID, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 981, a bill to support research and public awareness activities with respect to inflammatory bowel disease, and for other purposes.

S. 984

At the request of Mrs. BOXER, the name of the Senator from Indiana (Mr. BAYH) was added as a cosponsor of S. 984, a bill to amend the Public Health Service Act to provide for arthritis research and public health, and for other purposes.

S. 999

At the request of Mr. BINGAMAN, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of S. 999, a bill to increase the number of well-trained mental health service professionals (including those based in schools) providing clinical mental health care to children and adolescents, and for other purposes.

S. 1022

At the request of Mr. BAYH, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 1022, a bill to amend the Public Health Service Act to establish a graduate degree loan repayment program for nurses who become nursing school faculty members.

S. 1169

At the request of Mrs. GILLIBRAND, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 1169, a bill to amend title 10, United States Code, to provide for the treatment of autism under TRICARE.

S. 1210

At the request of Mr. KAUFMAN, the names of the Senator from Washington (Mrs. MURRAY), the Senator from New Mexico (Mr. BINGAMAN), the Senator from Hawaii (Mr. INOUYE) and the Senator from Maryland (Ms. MIKULSKI) were added as cosponsors of S. 1210, a bill to establish a committee under the National Science and Technology Council with the responsibility to coordinate science, technology, engineering, and mathematics education activities and programs of all Federal agencies, and for other purposes.

S. 1239

At the request of Mr. BINGAMAN, the name of the Senator from Hawaii (Mr. INOUYE) was added as a cosponsor of S. 1239, a bill to amend section 340B of the Public Health Service Act to revise and expand the drug discount program under that section to improve the provision of discounts on drug purchases for certain safety net providers.

S. 1284

At the request of Ms. SNOWE, the names of the Senator from New York (Mr. SCHUMER) and the Senator from New York (Mrs. GILLIBRAND) were added as cosponsors of S. 1284, a bill to require the implementation of certain recommendations of the National Transportation Safety Board, to require the establishment of national standards with respect to flight requirements for pilots, to require the development of fatigue management plans, and for other purposes.

S. 1304

At the request of Mr. GRASSLEY, the names of the Senator from Alaska (Mr. BEGICH) and the Senator from Utah (Mr. BENNETT) were added as cosponsors of S. 1304, a bill to restore the economic rights of automobile dealers, and for other purposes.

S. 1308

At the request of Mr. LAUTENBERG, the name of the Senator from South Dakota (Mr. THUNE) was added as a cosponsor of S. 1308, a bill to reauthorize the Maritime Administration, and for other purposes.

S. 1313

At the request of Mr. LUGAR, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1313, a bill to amend the Internal Revenue Code of 1986 to permanently extend and expand the charitable deduction for contributions of food inventory.

S. 1319

At the request of Mr. COBURN, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 1319, a bill to require Congress to specify the source of authority under the United States Constitution for the enactment of laws, and for other purposes.

S. 1344

At the request of Mr. VITTER, the names of the Senator from Oklahoma (Mr. COBURN), the Senator from Nevada (Mr. ENSIGN) and the Senator from Texas (Mr. CORNYN) were added as cosponsors of S. 1344, a bill to temporarily protect the solvency of the Highway Trust Fund.

S. 1397

At the request of Ms. KLOBUCHAR, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1397, a bill to authorize the Administrator of the Environmental Protection Agency to award grants for electronic device recycling research, development, and demonstration projects, and for other purposes.

S.J. RES. 16

At the request of Mr. DEMINT, the name of the Senator from South Carolina (Mr. GRAHAM) was added as a cosponsor of S.J. Res. 16, a joint resolution proposing an amendment to the Constitution of the United States relative to parental rights.

S.J. RES. 17

At the request of Mrs. FEINSTEIN, the names of the Senator from Ohio (Mr. BROWN), the Senator from Illinois (Mr. BURRIS), the Senator from Pennsylvania (Mr. CASEY), the Senator from North Carolina (Mrs. HAGAN), the Senator from Louisiana (Ms. LANDRIEU), the Senator from New Jersey (Mr. LAUTENBERG), the Senator from Vermont (Mr. LEAHY), the Senator from Connecticut (Mr. LIEBERMAN), the Senator from Vermont (Mr. SANDERS), the Senator from Pennsylvania (Mr. SPECTER) and the Senator from New Mexico (Mr. UDALL) were added as cosponsors of S.J. Res. 17, a joint resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes.

S. CON. RES. 25

At the request of Mr. MENENDEZ, the names of the Senator from New York (Mrs. GILLIBRAND) and the Senator from California (Mrs. FEINSTEIN) were added as cosponsors of S. Con. Res. 25, a concurrent resolution recognizing the value and benefits that community health centers provide as health care homes for over 18,000,000 individuals, and the importance of enabling health centers and other safety net providers to continue to offer accessible, affordable, and continuous care to their current patients and to every American who lacks access to preventive and primary care services.

S. RES. 71

At the request of Mr. WYDEN, the names of the Senator from New York (Mr. SCHUMER) and the Senator from Illinois (Mr. BURRIS) were added as cosponsors of S. Res. 71, a resolution condemning the Government of Iran for its state-sponsored persecution of the Baha'i minority in Iran and its continued violation of the International Covenants on Human Rights.

S. RES. 200

At the request of Mr. UDALL of Colorado, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. Res. 200, a resolution designating September 12, 2009, as ''National Childhood Cancer Awareness Day''.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. MARTINEZ (for himself, Mr. CASEY, Mr. ENSIGN, and Mr. UDALL of Colorado):

S. 1401. A bill to provide for the award of a gold medal on behalf of Congress to Arnold Palmer in recongition of his service to the Nation in promoting excellence and good sportsmanship in golf; to the Committee on Banking, Housing, and Urban Affairs.

Mr. CASEY. Mr. President, today, I honor one of the great sports legends of all time, Arnold Palmer. Not only is Arnold Palmer a world-class athlete, he is a generous philanthropist and devoted husband, father, and grandfather.

This son of Latrobe, PA, changed the game of golf, both how it is played and how it is appreciated, forever.

Mr. Palmer learned how to play golf when he was merely 4 years old, playing with clubs his father had cut down for him at Latrobe Country Club. His talent emerged visibly at an early age, and he was soon able to outplay children far older than him. He began to caddy when he was 11 years old and later held almost every job at the country club. In his late teens, he also served as a member of the U.S. Coast Guard.

His seven major career victories make Mr. Palmer one of the greatest golfers of all time. He won the Masters Tournament four times in 1958, 1960, 1962, and 1964; the U.S. Open in 1960 and the British Open in 1961 and 1962. He twice represented the United States in the Ryder Cup Match, including serving as captain of the victorious american team in 1963.

In 1997, he successfully battled prostate cancer and is a champion of programs supporting cancer research and early detection. In addition to the numerous charities he supports, Mr. Palmer led a fundraising drive creating the Arnold Palmer Hospital for Children in Orlando and the Latrobe Area Hospital Charitable Foundation. Mr. Palmer has led by example in kindness, good sportsmanship, and generosity.

Today, along with my colleagues, I ask Congress to award Mr. Palmer a gold medal in recognition of his service to the Nation in promoting excellence and good sportsmanship in golf.

By Mr. MERKLEY (for himself and Mr. ALEXANDER):

S. 1402. A bill to amend the Internal Revenue Code of 1986 to increase the amount allowed as a deduction for start-up expenditures; to the Committee on Finance.

Mr. MERKLEY. Mr. President, I rise today to discuss legislation that will make it significantly easier for small businesses to open their doors. Providing a helping hand to small businesses is important at any time, but never more so than now, when so many Americans are out of work.

Small businesses are the engines of our economy. By some estimates, they employ approximately half the private workforce, and, in rural America, comprise nine out of ten businesses. In my home State of Oregon, many of the rural counties have unemployment rates approaching—or even surpassing—20 percent. Clearly, small businesses are going to be instrumental in turning things around.

Furthermore, small businesses are innovators—they produce 13 times more patents per employee than large firms. Right now, the U.S. needs this kind of innovation more than ever.

Our economy cannot thrive if small businesses are not doing well.

Unfortunately, it can be very difficult for small businesses to succeed. Start-up expenses are often prohibitive and it can take a few years before business owners begin to see a profit. There are administrative systems to create, employees to hire, a client base to build and supplies to purchase. This adds up to a lot of expenses. A Gallup poll showed that the average small business incurs $10,000 in expenses during that first year. However, if a business can last 4 years, it is much more likely to survive in the long term. We need to do more to help these businesses get through this difficult period.

Today, I am joining with my colleague from Tennessee, Senator ALEXANDER, to introduce legislation that will help small businesses through their first year. The Small Business Jump Start Act of 2009 lessens the tax burden on new small businesses by doubling the deduction they can take for start-up expenses to $10,000. The Act also widens the pool of businesses eligible to take the full amount of the deduction in their first year of business. The Small Business Jump Start Act gives these new businesses a boost that first year, and for some, will eliminate the tax complications of amortizing start-up expenses. The Small Business Jump Start Act of 2009 is supported by the U.S. Chamber of Commerce, the National Federation of Independent Businesses, the National Association of the Self-Employed, and the National Association of Small Businesses.

I will highlight one Oregon small business that the Jump Start Act could have helped. Jack and Giovanina Giaccarini moved to Grants Pass, Oregon after Hurricane Katrina came through their town in Mississippi. It was their dream to start a business installing systems to help quadriplegics and disabled veterans maneuver around their homes. The first year of their business was tough—finding start-up capital was difficult and purchasing just one system to use for demonstrations cost $10,000. They struggled. Now they are in their third year of business and finally making a profit. Having a Jump Start in that first year would have made a significant difference early on.

This bill will go a long way for new small businesses looking to open their doors and employ people in their communities. Colleagues, in order to help America's small businesses and the economies of rural America, I urge you to support the Small Business Jump Start Act of 2009. It is time to reach out a helping hand to entrepreneurs and assist them in starting that new business now, to jump start our economy and create new jobs across America.

Mr. President, I ask unanimous consent that the text of the bill and letters of support be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1402

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Small Business Jump Start Act of 2009''.

SEC. 2. INCREASE IN AMOUNT ALLOWED AS DEDUCTION FOR START-UP EXPENDITURES.

(a) IN GENERAL.—Subsection (b) of section 195 of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

''(3) SPECIAL RULE FOR TAXABLE YEARS BEGINNING IN 2009, 2010, OR 2011.—In the case of a taxable year beginning in 2009, 2010, or 2011, paragraph (1)(A)(ii) shall be applied—

''(A) by substituting '$10,000' for '$5,000', and

''(B) by substituting '$60,000' for '$50,000'.''.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred in taxable years beginning after the date of the enactment of this Act.

CHAMBER OF COMMERCE OF THE UNITED STATES OF AMERICA,
Washington, DC, June 26, 2009.

Hon. JEFF MERKLEY,
U.S. Senate,
Washington, DC.

DEAR SENATOR MERKLEY: As a long-standing advocate of tax relief for small businesses, the U.S. Chamber of Commerce applauds your leadership on introducing the ''Small Business Jump Start Act of 2009.'' This bill would increase the small business start-up expense deduction from $5,000 to $10,000 and increase the threshold for the deductions phase-out from $50,000 to $60,000.

A robust small business community is a vital component to America's economic recovery. Allowing small business owners the opportunity to expense additional start-up costs up front would foster more entrepreneurial activity and further encourage the important role of small business as the job producers in our economy.

The U.S. Chamber of Commerce is the world's largest business federation, representing more than three million businesses and organizations of every size, sector, and region. More than 96 percent of the Chamber's members are small businesses and organizations with 100 or fewer employees. On behalf of these small employers, the Chamber strongly supports your efforts to encourage investment and growth in America's 27 million small enterprises and looks forward to working with you to pass this important legislation.

Sincerely,

R. BRUCE JOSTEN,
Executive Vice President,
Government Affairs.

NATIONAL ASSOCIATION FOR THE SELF-EMPLOYED,
Washington, DC, July 7, 2009.

Hon. JEFF MERKLEY,
U.S. Senate,
Washington, DC.

DEAR SENATOR MERKLEY: On behalf of the National Association for the Self-Employed (NASE) and our 250,000 member businesses, I am pleased to announce our support for the Small Business Jump Start Act of 2009. We strongly believe that in this uncertain economic time it is more important than ever to assist our nation's budding entrepreneurs.

By increasing the start up business expenses deduction, the Small Business Jump Start Act will greatly assist start up ventures at the most critical time—their first year of business—and give them the financial boost they need to succeed.

The NASE believes that entrepreneurs have been pillars of innovation and job creation, fueling much of what is great about America. Legislation that supports and invests in these enterprises is in the best interests of our economy and our nation. We feel that the Small Business Jump Start Act of 2009 will encourage many individuals who have been considering entrepreneurship, to take the next steps to open their small business and in turn, help create jobs in this tough economy.

If you have any questions or comments, please contact Kristie Arslan, NASE's executive director. We are looking forward to working with you and your staff to gain passage of this legislation.

Thank you for your leadership on this important small business issue.

Sincerely,

ROBERT HUGHES,
President.

NATIONAL FEDERATION OF INDEPENDENT BUSINESS,
Nashville, TN, July 7, 2009.

Hon. JEFF MERKLEY,
Russell Senate Office Building,
Washington, DC.

DEAR SENATOR MERKLEY: On behalf of the National Federation of Independent Business (NFIB), the nation's leading small business advocacy organization, I want to thank you for introducing the Small Business Jump Start Act, a bill to increase the start-up deduction for new small businesses from $5,000 to $10,000.

While a typical business can deduct its ordinary business expenses in the year the expenses are paid, a start-up business is limited as to how much and when it can deduct start-up expenses. Start-up business expenses are the costs associated with formation of a business made prior to the actual opening of the business. Most new small businesses face significant start-up costs, including advertising, obtaining licenses, permits and fees, paying rent, hiring business and financial consultants and providing employee training. Under this bill, expenses connected with setting up or investing in the creation of a new business are deductible up to $10,000 in the first year of the business.

During a time of economic uncertainty, this legislation provides a significant incentive for entrepreneurs—as well as many people who have recently lost their jobs—to start their own business. By increasing the start-up cost deduction, small business owners will be able to put money back into their business sooner, creating greater opportunities for job creation and investment in local economies.

Thank you again for introducing this bill to help America's small businesses. I look forward to working with you on this issue as the 111th Congress continues.

Sincerely,

SUSAN ECKERLY,
Senior Vice President,
Federal Public Policy.

NATIONAL SMALL BUSINESS ASSOCIATION,
JULY 7, 2009.

Hon. JEFF MERKLEY,
U.S. Senate, Russell Senate Office Building,
Washington, DC.

DEAR SENATOR MERKLEY: On behalf of the National Small Business Association, I would like to thank you for your leadership in crafting the Small Business Jump Start Act of 2009. As the nation's oldest non-partisan small business advocacy group, NSBA reaches more than 150,000 small businesses nation-wide, and our members have highlighted tax relief as a top priority for the 111th Congress.

Small business is one of the primary catalysts of both job growth and innovation in our national economy. In fact, according to the Small Business Administration since the mid-1990s, small businesses have created 60 to 80 percent of the net new jobs annually.

However, over the past year, small businesses have experienced marked economic challenges. Between skyrocketing gas prices, a weak real estate market and the credit crunch, today's slow economy is having a noticeable effect on our entrepreneurs. This new reality is coupled with the fact that the first year of a small business is often difficult and expensive. New employer establishments face challenges keeping up with growing first year demands—building a client base, hiring employees, creating new products and services, and often opening a facility.

Yet, small businesses that make it past the first four years have a better chance of surviving long-term and this is why your legislation is so crucial. It will boost the federal tax deduction for small business start-up costs and broaden the pool of businesses eligible for the deduction.

Start-up businesses are currently eligible for a $5,000 tax deduction if they spend $50,000 or less to open their doors. The legislation proposed by you would boost the deduction to $10,000 and also expand eligibility to companies that spend up to $60,000 on start-up costs. The deduction would be phased out dollar-for-dollar for expenditures above $60,000. A business that spends $61,000 in start-up costs, for example, could deduct $9,000 under the proposed legislation and take the remaining $1,000 deduction over 15 years, just as in current law.

Small businesses are the lifeblood of all communities, and this bill supports them by providing the financial assistance they need to achieve success. The Small Business Jump Start Act of 2009 will give small businesses the necessary financial boost in their first year which will encourage investments that create jobs and economic growth. NSBA supports this measure, and commends you for working to bring this legislation to the Senate floor.

Sincerely,

TODD MCCRACKEN,
President.

By Mr. INOUYE:

S. 1404. A bill to implement demonstration projects at federally qualified community health centers to promote universal access to family-centered, evidence-based behavioral health interventions that prevent child maltreatment and promote family well-being by addressing parenting practices and skills for families from diverse socioeconomic, cultural, racial, ethnic, and other backgrounds, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. INOUYE. Mr. President, today I introduce the Supporting Child Maltreatment Prevention Efforts in Community Health Centers Act of 2009. I am introducing this bill on behalf of the American Psychological Association and the National Association of Community Health Centers. This much-needed legislation would help address a critical problem in our country, the abuse and neglect of millions of children. Today, I am introducing legislation that will help address this preventable tragedy.

Unfortunately, child maltreatment continues to be a serious public health problem in our country that affects millions of children and their families. Child abuse and neglect can take many forms, including neglect of children's medical needs, physical or psychological maltreatment, sexual abuse, and multiple types of maltreatment.

In 2007 alone, an estimated 5.8 million were allegedly victims of maltreatment, 3.2 million referrals were made to Child Protective Services agencies, and 794,000 children were determined to be victims of abuse and neglect. During that same year, 1,760 children died as a result of abuse or neglect, most of them younger than 4-years old.

Nearly 80 percent of the perpetrators of child maltreatment were parents, and approximately seven percent were other relatives. Therefore, child maltreatment is a tragedy that impacts millions of children in their own families. Considering that not all maltreatment is reported to the authorities, the actual numbers are estimated to be higher.

Focusing on prevention will help save billions of dollars that are currently spent annually—due to victimization and injuries—with hospitalization, visits to ER, out-of-home placements, CPS services, investigations, incarceration of abusers, services to address mental health issues, and other related costs.

At the same time, we know that community health centers represent a unique resource for many families who depend on their services to obtain much-needed health and mental health care. Community Health Centers, CHCs, served 16 million individuals in 2007, most of them poor, uninsured, and at-risk for child maltreatment. In fact, one in five low-income children in the U.S. receives health care at a CHC. Furthermore, the centers provide comprehensive primary care services that set up the stage for an integrated care model.

Given this evidence, the American Psychological Association, APA, convened a group of experts to review the best available science to identify and recommend public health strategies to prevent child maltreatment within the context of behavioral health integration at community health centers. For decades, the APA and its members have been at the forefront of child maltreatment prevention efforts in research, development of interventions, and evaluation. The findings of this report provided the seed to develop this critical legislation on behalf of children and families in our country.

Among its provisions, this important legislation supports the implementation of demonstration projects at federally qualified health centers to promote universal access to a family-centered integrated and voluntary services model, evidence-based behavioral health interventions that prevent child maltreatment and promote family well-being by addressing parenting practices and skills for families from diverse socioeconomic, cultural, racial, ethnic, and other backgrounds. The bill would also support program evaluation outcomes, technical assistance, project coordination, and the design and implementation of a cross-site evaluation plan.

I have been committed to the support of psychology contributions to children and families and the vital role of community health centers for decades. This bill will help address the critical need to help and protect our nation's children by giving their parents and caregivers the tools and skills they need to be become the best parents and caregivers they can be and to, ultimately, help prevent child abuse and neglect.

It is my hope that the science-based recommendations utilized in the development of this legislation will serve as a useful resource to inform current health care reform legislative efforts.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1404

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Supporting Child Maltreatment Prevention Efforts in Community Health Centers Act of 2009''.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds as follows:

(1) Child abuse and neglect are serious public health problems in this country. During 2007, approximately 3,200,000 referrals, involving the alleged maltreatment of approximately 5,800,000 children, were sent to child protective services agencies.

(2) The most recent data show 794,000 substantiated cases of child abuse and neglect in 2007, and child maltreatment-related deaths rose 15.5 percent in 2007. Approximately 1,760 children in the United States, nearly ¾ of whom were under 4 years of age, died as a result of abuse or neglect.

(3) Early childhood experiences may have lifelong effects. Severe and chronic childhood stress, including from maltreatment and exposure to violence, is associated with persistent effects and can lead to enduring health, behavior, and learning problems.

(4) Child maltreatment has—

(A) psychological and behavioral consequences such as depression, anxiety, suicide, aggressive behavior, delinquency, posttraumatic stress disorder, and criminal behavior;

(B) health consequences, including injuries and death, chronic obstructive pulmonary disease, smoking, heart disease, liver disease, and drug use; and

(C) developmental consequences that can compromise brain development and learning.

(5) Child maltreatment has significant financial consequences, including the short-term costs associated with case handling by child protective services and investigations, hospitalization or emergency room visits for medical treatment of injuries, out-of-home placement alternatives, services to address mental health and substance abuse problems, loss of productivity, and poor physical health requiring multiple treatments.

(6) Child maltreatment can be prevented. Given that parents and caregivers are responsible for the majority of the abuse and neglect, caregiver-focused strategies and interventions that address parenting skills and parental risk factors such as depression, substance abuse, and intimate partner violence, as well as strategies and interventions that promote family well-being are critical. Parenting practices are amenable to change, given reasonable efforts, and the building of safe, stable, nurturing parent-child relationships is a scientifically proven strategy for the prevention of child maltreatment.

(7) Prevention of child maltreatment should have a focus on primary prevention (before any maltreatment), emphasizing community-centered and population-based strategies.

(8) Prevention of child maltreatment should focus on promoting healthy parent-child relationships and an environment that provides safe, stable, nurturing relationships for children.

(9) Primary health care is an existing and widely-accessed system in which a range of prevention strategies can be implemented, and there is growing evidence that primary health care settings are promising venues in which to conduct child maltreatment prevention and behavioral health promotion programs.

(10) Community health centers (referred to in this Act as ''CHCs'') serve more than 18,000,000 individuals in the United States annually, including individuals who are poor, uninsured, hard-to-reach, and at-risk for child maltreatment.

(11) One in 5 low-income children in the United States receives health care at a CHC.

(12) CHCs are an existing network of neighborhood health clinics widely and regularly accessed by families in need that can serve as a fitting venue for child maltreatment prevention initiatives.

(13) In the last decade, behavioral issues have had an expanding presence in the portfolio of services of CHCs. Seventy percent of CHCs have some, if minimal, on-site mental health and substance abuse services. When demand exceeds capacity or on-site services do not exist, CHCs refer individuals to off-site options.

(14) The integration of behavioral health services in primary care settings is a promising framework. Evaluation results of integrated care have shown—

(A) improvement in service utilization, such as shorter waiting time and fewer sessions to complete treatment;

(B) reduction in the stigma related to mental health services; and

(C) improvement in access to services.

(b) PURPOSES.—The purposes of this Act are as follows:

(1) To fund the implementation of a minimum of 10 demonstration projects of evidence-based and promising parenting programs at federally qualified health centers.

(2) To provide universal access to a family-centered integrated and voluntary services model that prevents child maltreatment and promotes family well-being and which may include:

(A) implementation of evidence-based preventive parenting skills training programs at health centers or permanent or temporary residences of caregivers to strengthen the capacity of parents to care for their children's health and well-being and promote their own ability to create safe, stable, nurturing family environments that protect children and youth from abuse and neglect and its consequences and support children's optimal social, emotional, physical, and academic development;

(B) screening to identify parental risk factors such as depression, substance abuse, and intimate partner violence that are associated with the likelihood that parents will abuse or neglect their children, and to further develop screening methods and instruments; and

(C) linkage with, and referral to, on-site individualized quality mental health services provided by trained mental health professionals for parents and caregivers screening positive for child maltreatment risk factors to help them overcome the impediments to effective parenting and change their behaviors toward child rearing and parenting.

(3) To coordinate the design and implementation of an evaluation plan to assess the impact and feasibility of integrated services model implementation at each federally qualified health center participating in the demonstration project for health outcomes, cost effectiveness, patient satisfaction, program local adaptation, reduction of child maltreatment and injuries, and improvement of parenting behaviors and family functioning.

(4) To implement critical system factors for successful implementation of the integrated services model to prevent child maltreatment. Such factors include training of a culturally- and linguistically-competent workforce, use of best available technology, establishment of cooperation among FQHCs participating in the demonstration project, and building internal and external buy-in and support for the project.

(5) To coordinate the design and implementation of the cross-site system-wide evaluation plan to assess the impact and feasibility of an integrated services model on the reduction of child maltreatment and injuries, to increase a family's access to services, to evaluate the effectiveness of the response of FQHCs organizational systems to the model implemented, and to identify lessons learned and outline recommendations for system-wide areas for improvement and changes.

SEC. 3. DEFINITIONS.

In this Act:

(1) FEDERALLY QUALIFIED HEALTH CENTER OR FQHC.—The term ''federally qualified health center'' or ''FQHC'' means an entity receiving a grant under section 330 of the Public Health Service Act (42 U.S.C. 254b).

(2) CAREGIVERS.—The term ''caregiver'' means an adult who is the primary caregiver, including biological, adoptive, or foster parents, grandparents or other relatives, and non-custodial parents who have an ongoing relationship, and provides physical care for, 1 or more children under the age of 10. Caregivers may be individuals who were born in, or outside of, the United States and individuals whose main language is not English, including American Indians and Alaska Natives. Caregivers may be heterosexual or homosexual, and may have learning, physical, and other disabilities.

(3) CENTER-BASED EVIDENCE-BASED PREVENTIVE PARENTING SKILLS PROGRAM.—The term ''center-based evidence-based preventative parenting skills program'' means research-based and proven, promising interventions provided and located at a health center that—

(A) have the potential for broad impact across multiple types of maltreatment, including physical and psychological abuse and neglect;

(B) are associated with effective parent behaviors and parenting practices and with reducing child behavior problems;

(C) may be expected to reduce child maltreatment rates; and

(D) may be implemented at the FQHCs.

(4) HOME VISITATION PROGRAM.—The term ''home visitation program'' means an evidence-based program in which trained professionals visit a caregiver in the permanent or temporary residence of the caregiver, and provide a combination of information, support, or training regarding child development, parenting skills, and health-related issues.

(5) MENTAL HEALTH SERVICES.—The term ''mental health services'' means psychotherapeutic interventions offered at health centers, or off-site locations in partnership with health centers, by mental health professionals to caregivers that screen for or are referred for child maltreatment.

(6) SCREENING.—The term ''screening'' means a form of triage, using valid, culturally-sensitive tools such as scales or questionnaires applied universally by trained professionals to identify caregivers who are at-risk for maltreating or neglecting children. Screening assesses parental risks for child maltreatment such as depression, substance abuse, and intimate partner violence.

SEC. 4. GRANTS FOR DEMONSTRATION PROJECTS ON INTEGRATED FAMILY-CENTERED PREVENTIVE SERVICES.

(a) DEMONSTRATION PROJECT GRANTS.—The Secretary of Health and Human Services, acting through the Director of the National Center for Injury Prevention and Control of the Centers for Disease Control and Prevention, shall award competitive grants to eligible federally qualified health centers to fund a minimum of 10 demonstration projects to promote—

(1) universal access to family-centered, evidence-based interventions in the FQHCs that prevent child maltreatment by addressing parenting practices and skills; and

(2) behavioral health and family well-being for families from diverse socioeconomic, cultural, racial, and ethnic backgrounds, including addressing issues related to sexual orientation and individuals with disabilities.

(b) ELIGIBILITY.—To be eligible to receive a grant under subsection (a), an entity shall—

(1) be a federally qualified community health center; and

(2) submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(c) USE OF GRANT FUNDS.—A federally qualified health center receiving a grant under subsection (a) may use such funds to—

(1) conduct a needs assessment for the demonstration project, including the need for proposed integrated services, the number of caregivers involved, an organizational assessment, workforce capacity and needs, and technological needs;

(2) use available technologies to collect, organize, and provide access to health and mental health information of patients, and to provide referrals, train staff, monitor service delivery and outcomes, and create networking opportunities for on-site providers and others in the community;

(3) adapt and implement evidence-based parenting skills training programs for caregivers from all backgrounds who use the health center for health care and child well-visits, through on-site programs or programs operated at permanent or temporary residences and administered, supervised, and monitored by trained professionals employed by the FQHC;

(4) adapt instruments and screen caregivers for child maltreatment risk factors such as depression, substance abuse, and intimate partner violence, provided that such screening is conducted by trained professionals employed by the FQHC;

(5) provide access to mental health services to caregivers screened positive for child maltreatment risk factors, which may include services offered at the health centers or at off-site locations in partnership with the health centers, and which shall be conducted by mental health professionals;

(6) promote models of integrated care that involve behavioral health specialists and primary care providers working collaboratively in integrated teams to deliver services that prevent child maltreatment and promote family well-being;

(7) develop public education campaigns to increase community awareness of the integrated services offered by the health centers; and

(8) evaluate patient satisfaction, project cost effectiveness, results of the integrated services model, and effectiveness of evidence-based parenting programs in improving parenting practices and reducing child abuse and neglect.

(d) DURATION OF GRANT.—A grant under subsection (a) shall be awarded for a period not to exceed 5 years.

(e) TECHNICAL ASSISTANCE AND PROJECT COORDINATION.—

(1) IN GENERAL.—The Secretary shall award a contract to 1 or more eligible entities to provide—

(A) technical assistance and project coordination for the recipients of grants under subsection (a);

(B) training for health care professionals, including mental health care professionals, at FQHCs that receive grants under subsection (a); and

(C) cross-site evaluation of the demonstration projects under subsection (a).

(2) ELIGIBLE ENTITIES.—To be eligible to receive a contract under this section, an entity shall—

(A) be—

(i) an institution of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001));

(ii) a nonprofit organization that qualifies for tax exempt status under section 501(c)(3) of the Internal Revenue Code of 1986; or

(iii) such national and professional organizations and community-based organizations as the Secretary determines appropriate;

(B) have expertise in parent-child relationships, parenting programs, prevention of child maltreatment, the integration of behavioral health in primary and community health center settings, and coordinating multi-sites projects;

(C) demonstrate a defined or proposed collaboration with purveyors of evidence-based child maltreatment prevention interventions; and

(D) submit to the Secretary an application that includes—

(i) an outline of a technical assistance and coordination plan and timeline;

(ii) a description of activities, services, and strategies to be used to reach out and work with the FQHCs and others involved in the demonstration projects under subsection (a); and

(iii) a description of the evaluation methods and strategies the entity plans to use, and an outline of the progress and final reports required under subsection (f)(2).

(3) PRIORITY.—In awarding contracts under this subsection, the Secretary shall give priority to eligible entities whose applications under paragraph (2)(D) demonstrate that the evaluation design of such eligible entity uses strong experimental designs that capture a range of health and behavioral outcomes and include feasibility evaluation of the integrated health-behavioral health services model. Such evaluation designs should provide evaluation results that identify lessons learned and generate recommendations for improvements and changes.

(4) AUTHORIZED ACTIVITIES.—Each recipient of a contract under this subsection shall use such award to provide technical assistance to the FQHCs receiving a grant under subsection (a) and to provide coordination and cross-site evaluation of such demonstration projects to the Secretary. Such technical assistance and coordination and cross-site evaluation may include—

(A) establishing and implementing uniform tracking and monitoring systems across FQHCs participating in the demonstration project, using the best available, highest level of technological tools;

(B) developing and implementing a cross-site, multi-level evaluation plan using rigorous research and evaluation designs to evaluate the demonstration projects across FQHCs;

(C) ensuring that, in implementing the evidence-based parenting training programs, each such FQHC follows standardized manuals and protocols, and ensuring effectiveness of the integrated services of each FQHC in promoting positive stable, nurturing parent-child relationships and preventing child maltreatment and injuries;

(D) ensuring an effective and feasible evaluation of the outcomes of the demonstration projects, including an assessment of—

(i) improvement of parent knowledge of child social, emotional, cognitive development;

(ii) improvement of parent-child relationships;

(iii) parental use of positive discipline methods and effective communication skills;

(iv) health outcomes for children;

(v) reduction of incidence of child maltreatment;

(vi) cost-effectiveness of the demonstration projects;

(vii) implementation that follows standardized manuals and protocols;

(viii) the interdisciplinary collaborative model;

(ix) cultural sensitivity and local adaptation of the projects;

(x) any increase in access to services; and

(xi) further improvements and changes needed at the FQHCs;

(E) establishing and coordinating the implementation of a workforce development and training plan to ensure that professionals working at the health centers, including physicians, nurses, nurse practitioners, psychologists, social workers, physician's assistants, clinical pharmacists, and others, are trained to participate in interdisciplinary teams and work collaboratively to provide culturally-competent and linguistically-sensitive integrated services to all caregivers coming to such center, with a focus on the development and strengthening of—

(i) knowledge of the public health model, child development, family functioning, the problem of child maltreatment, and methods of prevention;

(ii) core attitudes, including the belief that child maltreatment is preventable, professionals have a role in prevention, families are partners in preventing maltreatment, and evaluation is a critical element of interventions;

(iii) ability to conduct screenings, implement evidence-based parenting programs, provide mental health services, and collaborate with evaluation efforts;

(iv) ability to manage the site project, participate in interdisciplinary teams, work on integrated efforts, and master technology for best results;

(v) the knowledge, skills, and attitude to work with individuals from diverse cultural, racial, ethnic, and other backgrounds; and

(vi) an understanding of cross-field culture and language to effectively participate in interdisciplinary teams and collaborate in integrated activities;

(F) educating and involving the governing boards of FQHCs participating in the demonstration projects in the integrated service efforts;

(G) promoting partnerships with State and local institutions of higher education, community networks, and professional associations for staff training and recruitment;

(H) promoting collaboration and networking among FQHCs participating in the demonstration projects; and

(I) establishing and coordinating child maltreatment prevention collaboratives across FQHCs participating in the demonstration projects and helping such FQHCs partner with local departments of child welfare and community mental health centers.

(5) ADVISORY GROUPS.—

(A) IN GENERAL.—Each recipient of a contract under this subsection shall establish an advisory group. Each such advisory group shall provide feedback and input to the contract recipient to ensure such recipient's effectiveness in providing quality services.

(B) MEMBERSHIP.—Each such advisory group shall be composed of representatives of—

(i) national organizations representing community health centers;

(ii) national professional organizations representing professionals from various fields, including pediatrics, nursing, psychology, and social work; and

(iii) government agencies with relevant expertise, as determined by the Director of the National Center for Injury Prevention and Control of the Centers for Disease Control and Prevention.

(f) EVALUATION AND REPORTING.—

(1) DEMONSTRATION PROJECT REPORTING.—

(A) ANNUAL PROGRESS EVALUATION AND FINANCIAL REPORTING.—For the duration of the grant under subsection (a), each FQHC shall submit to the Secretary an annual progress evaluation and financial reporting indicating activities conducted and the progress of the health center toward achievement of established outcomes, including cost effectiveness, patient satisfaction, program local adaptation, reduction of child maltreatment and injuries, and improvement of parenting behaviors and family functioning.

(B) FINAL REPORT.—At the end of the grant period, each FQHC shall submit a final report with evaluation data analysis and conclusions related to the outcomes of the demonstration project.

(2) TECHNICAL ASSISTANCE REPORTING.—

(A) ANNUAL PROGRESS AND FINANCIAL REPORT.—For the duration of the contract under subsection (e), each technical assistance provider shall submit to the Secretary an annual progress and financial report indicating activities conducted under such contract.

(B) FINAL REPORT.—At the end of the contract period, each recipient of a technical assistance contract under subsection (e) shall submit to the Secretary a final report that includes—

(i) an analysis of comparative data related to effectiveness and feasibility of projects implemented at the FQHCs, workforce training, and achievement of outcomes at the FQHCs;

(ii) overall recommendations for system improvement and changes that would allow the demonstration projects to be expanded;

(iii) an outline of the project results; and

(iv) a plan that outlines opportunities and vehicles for the dissemination of cross-site evalution results, findings, and recommendations.

(g) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—To carry out the demonstration project grant program described in subsection (a), there are authorized to be appropriated $10,000,000 for fiscal year 2010, and such sums as may be necessary for each of fiscal years 2011 through 2014.

(2) TECHNICAL ASSISTANCE.—The Secretary shall reserve not less than 10 percent of the amounts appropriated under paragraph (1) to carry out the technical assistance program described in subsection (e).

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 208—TO CONSTITUTE THE MAJORITY PARTY'S MEMBERSHIP ON CERTAIN COMMITTEES FOR THE ONE HUNDRED ELEVENTH CONGRESS, OR UNTIL THEIR SUCCESSORS ARE CHOSEN

Mr. REID submitted the following resolution; which was considered and agreed to:

S. RES. 208

Resolved, That the following shall constitute the majority party's membership on the following committee for the One Hundred Eleventh Congress, or until their successors are chosen:

COMMITTEE ON THE JUDICIARY: Mr. Leahy (Chairman), Mr. Kohl, Mrs. Feinstein, Mr. Feingold, Mr. Schumer, Mr. Durbin, Mr. Cardin, Mr. Whitehouse, Ms. Klobuchar, Mr. Kaufman, Mr. Specter, and Mr. Franken.

SENATE RESOLUTION 209—RECOGNIZING THE 40TH ANNIVERSARY OF THE NATIONAL EYE INSTITUTE AND EXPRESSING SUPPORT FOR DESIGNATION OF THE YEARS 2011 THROUGH 2020 AS THE ''DECADE OF VISION''

Mr. ISAKSON (for himself and Mr. CARDIN) submitted the following resolution; which was considered and agreed to:

S. RES. 209

Whereas vision impairment and eye disease are major public health problems, especially due to the aging of the population;

Whereas there is a disproportionate incidence of eye disease in minority populations;

Whereas vision loss as a result of diabetes and other chronic diseases costs the people of the United States $68,000,000,000 each year in health care expenses, lost productivity, reduced independence, diminished quality of life, increased depression, and accelerated mortality;

Whereas approximately 38,000,000 people in the United States over 40 years of age currently experience blindness, low-vision, or an age-related eye disease, and this number is expected to grow to 50,000,000 by 2020, as the tidal wave of approximately 78,000,000 baby boomers who will begin to reach 65 years of age in 2010, many of whom will continue working well beyond age 65, crashes;

Whereas, in public opinion polls conducted during the past 40 years, people in the United States have consistently identified fear of vision loss as second only to fear of cancer, and, as recently as 2008, a study by the National Eye Institute showed that 71 percent of respondents indicated that a loss of eyesight would have the greatest impact on their life;

Whereas, with wisdom and foresight, Congress passed an Act entitled ''An Act to amend the Public Health Service Act to provide for the establishment of a National Eye Institute in the National Institutes of Health'' (Public Law 90–489; 82 Stat. 771), which was signed into law by President Johnson on August 16, 1968;

Whereas the National Eye Institute (in this resolution referred to as the ''NEI'') held the first meeting of the National Advisory Eye Council on April 3, 1969;

Whereas the NEI leads the Federal commitment to basic and clinical research, research training, and other programs with respect to blinding eye diseases, visual disorders, mechanisms of visual function, preservation of sight, and the special health problems and needs of individuals who are visually-impaired or blind;

Whereas the NEI disseminates information aimed at the prevention of blindness, specifically through public and professional education facilitated by the National Eye Health Education Program;

Whereas the NEI maximizes Federal funding by devoting 85 percent of its budget to extramural research that addresses a wide variety of eye and vision disorders, including ''back of the eye'' retinal and optic nerve disease, such as age-related macular degeneration, glaucoma, and diabetic retinopathy, and concomitant low vision, and ''front of the eye'' disease, including corneal, lens, cataract, and refractive errors;

Whereas research by the NEI benefits children, including premature infants born with retinopathy and school children with amblyopia (commonly known as ''lazy eye'');

Whereas the NEI benefits older people in the United States by predicting, preventing, and preempting aging eye disease, thereby enabling more productive lives and reducing Medicare costs;

Whereas the NEI has been a leader in basic research, working with the Human Genome Project of the National Institutes of Health to translate discoveries of genes related to eye disease and vision impairment, which make up ¼ of genes discovered to date, into diagnostic and treatment modalities;

Whereas the NEI has been a leader in clinical research, funding more than 60 clinical trials (including a series of Diabetic Retinopathy Clinical Trials Networks, in association with the National Institute for Diabetes and Digestive and Kidney Disorders) which have developed treatment strategies that have been determined by the NEI to be 90 percent effective and to save an estimated $1,600,000,000 each year in blindness and vision impairment disability costs;

Whereas the NEI has been a leader in prevention research, having reported from the first phase of its Age-Related Eye Disease Study that high levels of dietary zinc and anti-oxidant vitamins reduced vision loss in individuals at high risk for developing advanced age-related macular degeneration by 25 percent, and, in the second phase of Age-Related Eye Disease Study, studying the impact of other nutritional supplements;

Whereas the NEI has been a leader in epidemiologic research, identifying the basis and progression of eye disease and the disproportionate incidence of eye disease in minority populations, so that informed public health policy decisions can be made regarding prevention, early diagnosis, and treatment;

Whereas the NEI has been a leader in collaborative research across the National Institutes of Health, working with the National Cancer Institute and the National Heart, Lung, and Blood Institute to identify factors that promote or inhibit new blood vessel growth, which has resulted in the first generation of ophthalmic drugs approved by the Food and Drug Administration to inhibit abnormal blood vessel growth in the form of age-related macular degeneration commonly known as the ''wet'' form of age-related macular degeneration, thereby stabilizing, and often restoring, vision;

Whereas the NEI has been a leader in collaborative research with other Federal entities, and its bioengineering research partnership with the National Science Foundation and the Department of Energy has resulted in a retinal chip implant, referred to as the ''Bionic Eye'', that has enabled individuals who have been blind for decades to perceive visual images;

Whereas the NEI has been a leader in collaborative research with private funding entities, and its human gene therapy trial with the Foundation Fighting Blindness for individuals with Leber Congenital Amaurosis, a rapid retinal degeneration that blinds infants in their first year of life, has demonstrated measurable vision improvement even within the initial safety trials;

Whereas, from 2011 through 2020, the people of the United States will face unprecedented public health challenges associated with aging, health disparities, and chronic disease; and

Whereas Federal support by the NEI and related agencies within the Department of Health and Human Services is essential for prevention, early detection, access to treatment and rehabilitation, and research associated with vision impairment and eye disease: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes the 40th anniversary of the NEI, commends the NEI for its leadership, and supports the mission of the NEI to prevent blindness and to save and restore vision;

(2) supports the designation of the years 2011 through 2020 as the ''Decade of Vision'', to—

(A) maintain a sustained awareness of the unprecedented public health challenges associated with vision impairment and eye disease; and

(B) emphasize the need for Federal support for prevention, early detection, access to treatment and rehabilitation, and research; and

(3) commends the National Alliance for Eye and Vision Research, also known as the ''Friends of the National Eye Institute'', for its efforts to expand awareness of the incidence and economic burden of eye disease through its Decade of Vision 2011–2020 Initiative.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1371. Mr. SESSIONS submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes.

SA 1372. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1373. Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) proposed an amendment to the bill H.R. 2892, supra.

SA 1374. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1375. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1376. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1377. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1378. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1379. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD

(for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1380. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1381. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1382. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1383. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1384. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1385. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1386. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1387. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1388. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1389. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1390. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1391. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1392. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1393. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1394. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1395. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1396. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1397. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1398. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1399. Mr. DEMINT proposed an amendment to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra.

SA 1400. Mr. MCCAIN proposed an amendment to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra.

SA 1401. Mr. ROCKEFELLER submitted an amendment intended to be proposed by him to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1402. Mr. FEINGOLD (for himself and Mr. MCCAIN) submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra.

SA 1403. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1404. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1375 submitted by Mr. VITTER and intended to be proposed to the amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1405. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1406. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1407. Mr. LEAHY submitted an amendment intended to be proposed to amendment SA 1371 submitted by Mr. SESSIONS to the amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1408. Mr. CORNYN (for himself, Mr. VITTER, Mr. CRAPO, Mr. WYDEN, and Mr. ENZI) submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1409. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1410. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill H.R. 2892, supra; which was ordered to lie on the table.

SA 1411. Mr. LAUTENBERG submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 1371. Mr. SESSIONS submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 72, strike lines 8 through 14 and insert the following:

SEC. 545. Section 144 of the Continuing Appropriations Resolution, 2009 (division A of Public Law 110-329; 122 Stat. 3581), as amended by section 101 of division J of the Omnibus Appropriations Act, 2009 (Public Law 111–8; 123 Stat. 988), is further amended by striking ''September 30, 2009'' and inserting ''September 30, 2012''.

SEC. 546. Section 401(b) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104–208; 8 U.S.C. 1324a note) is amended by striking ''Unless'' and all that follows.

SEC. 547. The head of each agency or department of the United States that enters into a contract shall require, as a condition of the contract, that the contractor participate in the pilot program described in 404 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104–209; 8 U.S.C. 1324a note) to verify the employment eligibility of—

(1) all individuals hired during the term of the contract by the contractor to perform employment duties within the United States; and

(2) all individuals assigned by the contractor to perform work within the United States the under such contract.

SEC. 548. (a)(1) Sections 401(c)(1), 403(a), 403(b)(1), 403(c)(1), and 405(b)(2) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104–208; 8 U.S.C. 1324a note) are amended by striking ''basic pilot program'' each place that term appears and inserting ''E-Verify Program''.

(2) The heading of section 403(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 is amended by striking ''BASIC PILOT'' and inserting ''E-VERIFY''.

(b) Section 404(h)(1) of the Illegal Immigration Reform and Immigration Responsibility

Act of 1996 (Public Law 104–208; 8 U.S.C. 1324a note) is amended by striking ''under a pilot program'' and inserting ''under this subtitle''.

SA 1372. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 72, strike lines 8 through 14 and insert the following:

SEC. 545. Section 144 of the Continuing Appropriations Resolution, 2009 (division A of Public Law 110–329; 122 Stat. 3581), as amended by section 101 of division J of the Omnibus Appropriations Act, 2009 (Public Law 111–8; 123 Stat. 988), is further amended by striking ''September 30, 2009'' and inserting ''September 30, 2012''.

SEC. 546. Section 143 of the Continuing Appropriations Resolution, 2009 (division A of Public Law 110–329; 122 Stat. 3580), as amended by section 101 of division J of the Omnibus Appropriations Act, 2009 (Public Law 111–8; 123 Stat. 988), is amended by striking ''shall'' and all that follows through the end and inserting ''is further amended by striking '11-year' and inserting '17-year'.''.

SA 1373. Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) proposed an amendment to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; as follows:

Strike all after the enacting clause and insert the following:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes, namely:

TITLE I

DEPARTMENTAL MANAGEMENT AND OPERATIONS

OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

For necessary expenses of the Office of the Secretary of Homeland Security, as authorized by section 102 of the Homeland Security Act of 2002 (6 U.S.C. 112), and executive management of the Department of Homeland Security, as authorized by law, $149,268,000: *Provided*, That not to exceed $60,000 shall be for official reception and representation expenses, of which $20,000 shall be made available to the Office of Policy solely to host Visa Waiver Program negotiations in Washington, DC: *Provided further*, That $20,000,000 shall not be available for obligation for the Office of Policy until the Secretary submits an expenditure plan for the Office of Policy for fiscal year 2010.

OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT

For necessary expenses of the Office of the Under Secretary for Management, as authorized by sections 701 through 705 of the Homeland Security Act of 2002 (6 U.S.C. 341 through 345), $307,690,000, of which not to exceed $3,000 shall be for official reception and representation expenses: *Provided*, That of the total amount, $5,000,000 shall remain available until expended solely for the alteration and improvement of facilities, tenant improvements, and relocation costs to consolidate Department headquarters operations at the Nebraska Avenue Complex; and $17,131,000 shall remain available until expended for the Human Resources Information Technology program.

OFFICE OF THE CHIEF FINANCIAL OFFICER

For necessary expenses of the Office of the Chief Financial Officer, as authorized by section 103 of the Homeland Security Act of 2002 (6 U.S.C. 113), $63,530,000, of which $11,000,000 shall remain available until expended for financial systems consolidation efforts.

OFFICE OF THE CHIEF INFORMATION OFFICER

For necessary expenses of the Office of the Chief Information Officer, as authorized by section 103 of the Homeland Security Act of 2002 (6 U.S.C. 113), and Department-wide technology investments, $338,393,000; of which $86,912,000 shall be available for salaries and expenses; and of which $251,481,000, to remain available until expended, shall be available for development and acquisition of information technology equipment, software, services, and related activities for the Department of Homeland Security: *Provided*, That of the total amount appropriated, not less than $82,788,000 shall be available for data center development, of which not less than $38,540,145 shall be available for power capabilities upgrades at Data Center One (National Center for Critical Information Processing and Storage): *Provided further*, That the Chief Information Officer shall submit to the Committees on Appropriations of the Senate and the House of Representatives, not more than 60 days after the date of enactment of this Act, an expenditure plan for all information technology acquisition projects that: (1) are funded under this heading; or (2) are funded by multiple components of the Department of Homeland Security through reimbursable agreements: *Provided further*, That key milestones, all funding sources for each project, details of annual and lifecycle costs, and projected cost savings or cost avoidance to be achieved by the project.

ANALYSIS AND OPERATIONS

For necessary expenses for intelligence analysis and operations coordination activities, as authorized by title II of the Homeland Security Act of 2002 (6 U.S.C. 121 et seq.), $347,845,000, of which not to exceed $5,000 shall be for official reception and representation expenses; and of which $208,145,000 shall remain available until September 30, 2011.

OFFICE OF THE FEDERAL COORDINATOR FOR GULF COAST REBUILDING

For necessary expenses of the Office of the Federal Coordinator for Gulf Coast Rebuilding, $2,000,000.

OFFICE OF THE INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978 (5 U.S.C. App.), $115,874,000, of which not to exceed $150,000 may be used for certain confidential operational expenses, including the payment of informants, to be expended at the direction of the Inspector General.

TITLE II

SECURITY, ENFORCEMENT, AND INVESTIGATIONS

U.S. CUSTOMS AND BORDER PROTECTION

SALARIES AND EXPENSES

For necessary expenses for enforcement of laws relating to border security, immigration, customs, agricultural inspections and regulatory activities related to plant and animal imports, and transportation of unaccompanied minor aliens; purchase and lease of up to 4,500 (4,000 for replacement only) police-type vehicles; and contracting with individuals for personal services abroad; $8,075,649,000, of which $3,226,000 shall be derived from the Harbor Maintenance Trust Fund for administrative expenses related to the collection of the Harbor Maintenance Fee pursuant to section 9505(c)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 9505(c)(3)) and notwithstanding section 1511(e)(1) of the Homeland Security Act of 2002 (6 U.S.C. 551(e)(1)); of which not to exceed $45,000 shall be for official reception and representation expenses; of which not less than $309,629,000 shall be for Air and Marine Operations; of which such sums as become available in the Customs User Fee Account, except sums subject to section 13031(f)(3) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(f)(3)), shall be derived from that account; of which not to exceed $150,000 shall be available for payment for rental space in connection with preclearance operations; and of which not to exceed $1,000,000 shall be for awards of compensation to informants, to be accounted for solely under the certificate of the Secretary of Homeland Security: *Provided*, That for fiscal year 2010, the overtime limitation prescribed in section 5(c)(1) of the Act of February 13, 1911 (19 U.S.C. 267(c)(1)) shall be $35,000; and notwithstanding any other provision of law, none of the funds appropriated by this Act may be available to compensate any employee of U.S. Customs and Border Protection for overtime, from whatever source, in an amount that exceeds such limitation, except in individual cases determined by the Secretary of Homeland Security, or the designee of the Secretary, to be necessary for national security purposes, to prevent excessive costs, or in cases of immigration emergencies: *Provided further*, That of the total amount provided, $1,700,000 shall remain available until September 30, 2011, for the Global Advanced Passenger Information/Passenger Name Record Program.

AUTOMATION MODERNIZATION

For expenses for U.S. Customs and Border Protection automated systems, $462,445,000, to remain available until expended, of which not less than $267,960,000 shall be for the development of the Automated Commercial Environment: *Provided*, That of the total amount made available under this heading, $167,960,000 may not be obligated for the Automated Commercial Environment program until 30 days after the Committees on Appropriations of the Senate and the House of Representatives receive a report on the results to date and plans for the program from the Department of Homeland Security.

BORDER SECURITY FENCING, INFRASTRUCTURE, AND TECHNOLOGY

For expenses for border security fencing, infrastructure, and technology, $800,000,000, to remain available until expended: *Provided*, That of the amount provided under this heading, $50,000,000 shall not be obligated until the Committees on Appropriations of the Senate and the House of Representatives receive a plan for expenditure, prepared by the Secretary of Homeland Security and submitted not later than 90 days after the date of the enactment of this Act, for a program to establish and maintain a security barrier along the borders of the United States of fencing and vehicle barriers, where practicable, and other forms of tactical infrastructure and technology.

AIR AND MARINE INTERDICTION, OPERATIONS, MAINTENANCE, AND PROCUREMENT

For necessary expenses for the operations, maintenance, and procurement of marine vessels, aircraft, unmanned aerial systems, and other related equipment of the air and marine program, including operational training and mission-related travel, the operations of which include the following: the interdiction of narcotics and other goods; the provision of support to Federal, State, and local agencies in the enforcement or administration of laws enforced by the Department of Homeland Security; and at the discretion of the Secretary of Homeland Security, the provision of assistance to Federal, State, and local agencies in other law enforcement and emergency humanitarian efforts, $515,826,000, to remain available until expended: *Provided*, That no aircraft or other related equipment, with the exception of aircraft that are one of a kind and have been identified as excess to U.S. Customs and Border Protection requirements and aircraft that have been damaged beyond repair, shall be transferred to any other Federal agency, department, or office outside of the Department of Homeland Security during fiscal year 2010 without the prior approval of the Committees on Appropriations of the Senate and the House of Representatives.

CONSTRUCTION AND FACILITIES MANAGEMENT

For necessary expenses to plan, construct, renovate, equip, and maintain buildings and facilities necessary for the administration and enforcement of the laws relating to customs and immigration, $316,070,000, to remain available until expended, of which $39,700,000 shall be for the Advanced Training Center: *Provided*, That for fiscal year 2011 and thereafter, the annual budget submission of U.S. Customs and Border Protection for ''Construction and Facilities Management'' shall, in consultation with the General Services Administration, include a detailed 5-year plan for all Federal land border port of entry projects with a yearly update of total projected future funding needs.

U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT

SALARIES AND EXPENSES

For necessary expenses for enforcement of immigration and customs laws, detention and removals, and investigations; and purchase and lease of up to 3,790 (2,350 for replacement only) police-type vehicles; $5,360,100,000, of which not to exceed $7,500,000 shall be available until expended for conducting special operations under section 3131 of the Customs Enforcement Act of 1986 (19 U.S.C. 2081); of which not to exceed $15,000 shall be for official reception and representation expenses; of which not to exceed $1,000,000 shall be for awards of compensation to informants, to be accounted for solely under the certificate of the Secretary of Homeland Security; of which not less than $305,000 shall be for promotion of public awareness of the child pornography tipline and anti-child exploitation activities; of which not less than $5,400,000 shall be used to facilitate agreements consistent with section 287(g) of the Immigration and Nationality Act (8 U.S.C. 1357(g)); and of which not to exceed $11,216,000 shall be available to fund or reimburse other Federal agencies for the costs associated with the care, maintenance, and repatriation of smuggled aliens unlawfully present in the United States: *Provided*, That none of the funds made available under this heading shall be available to compensate any employee for overtime in an annual amount in excess of $35,000, except that the Secretary, or the designee of the Secretary, may waive that amount as necessary for national security purposes and in cases of immigration emergencies: *Provided further*, That of the total amount provided, $15,770,000 shall be for activities in fiscal year 2010 to enforce laws against forced child labor, of which not to exceed $6,000,000 shall remain available until expended: *Provided further*, That of the total amount available, not less than $1,000,000,000 shall be available to identify aliens convicted of a crime, and who may be deportable, and to remove them from the United States once they are judged deportable: *Provided further*, That the Secretary, or the designee of the Secretary, shall report to the Committees on Appropriations of the Senate and the House of Representatives, at least quarterly, on progress implementing the preceding proviso, and the funds obligated during that quarter to make that progress: *Provided further*, That funding made available under this heading shall maintain a level of not less than 33,400 detention beds through September 30, 2010: *Provided further*, That of the total amount provided, not less than $2,539,180,000 is for detention and removal operations, including transportation of unaccompanied minor aliens: *Provided further*, That of the total amount provided, $6,800,000 shall remain available until September 30, 2011, for the Visa Security Program: *Provided further*, That nothing under this heading shall prevent U.S. Immigration and Customs Enforcement from exercising those authorities provided under immigration laws (as defined in section 101(a)(17) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(17))) during priority operations pertaining to aliens convicted of a crime.

AUTOMATION MODERNIZATION

For expenses of immigration and customs enforcement automated systems, $85,000,000, to remain available until expended: *Provided*, That of the funds made available under this heading, $10,000,000 shall not be obligated until the Committees on Appropriations of the Senate and the House of Representatives receive an expenditure plan prepared by the Secretary of Homeland Security.

TRANSPORTATION SECURITY ADMINISTRATION

AVIATION SECURITY

For necessary expenses of the Transportation Security Administration related to providing civil aviation security services pursuant to the Aviation and Transportation Security Act (Public Law 107–71; 115 Stat. 597; 49 U.S.C. 40101 note), $5,237,828,000, to remain available until September 30, 2011, of which not to exceed $10,000 shall be for official reception and representation expenses: *Provided*, That of the total amount made available under this heading, not to exceed $4,395,195,000 shall be for screening operations, of which $1,154,775,000 shall be available for explosives detection systems; and not to exceed $842,633,000 shall be for aviation security direction and enforcement: *Provided further*, That of the amount made available in the preceding proviso for explosives detection systems, $806,669,000 shall be available for the purchase and installation of these systems, of which not less than 28 percent shall be available for the purchase and installation of certified explosives detection systems at medium- and small-sized airports: *Provided further*, That any award to deploy explosives detection systems shall be based on risk, the airports current reliance on other screening solutions, lobby congestion resulting in increased security concerns, high injury rates, airport readiness, and increased cost effectiveness: *Provided further*, That security service fees authorized under section 44940 of title 49, United States Code, shall be credited to this appropriation as offsetting collections and shall be available only for aviation security: *Provided further*, That any funds collected and made available from aviation security fees pursuant to section 44940(i) of title 49, United States Code, may, notwithstanding paragraph (4) of such section 44940(i), be expended for the purpose of improving screening at airport screening checkpoints, which may include the purchase and utilization of emerging technology equipment; the refurbishment and replacement of current equipment; the installation of surveillance systems to monitor checkpoint activities; the modification of checkpoint infrastructure to support checkpoint reconfigurations; and the creation of additional checkpoints to screen aviation passengers and airport personnel: *Provided further*, That the sum appropriated under this heading from the general fund shall be reduced on a dollar-for-dollar basis as such offsetting collections are received during fiscal year 2010, so as to result in a final fiscal year appropriation from the general fund estimated at not more than $3,137,828,000: *Provided further*, That any security service fees collected in excess of the amount made available under this heading shall become available during fiscal year 2011: *Provided further*, That Members of the United States House of Representatives and United States Senate, including the leadership; the heads of Federal agencies and commissions, including the Secretary, Deputy Secretary, Under Secretaries, and Assistant Secretaries of the Department of Homeland Security; the United States Attorney General and Assistant Attorneys General and the United States attorneys; and senior members of the Executive Office of the President, including the Director of the Office of Management and Budget; shall not be exempt from Federal passenger and baggage screening.

SURFACE TRANSPORTATION SECURITY

For necessary expenses of the Transportation Security Administration related to providing surface transportation security activities, $142,616,000, to remain available until September 30, 2011.

TRANSPORTATION THREAT ASSESSMENT AND CREDENTIALING

For necessary expenses for the development and implementation of screening programs of the Office of Transportation Threat Assessment and Credentialing, $171,999,000, to remain available until September 30, 2011.

TRANSPORTATION SECURITY SUPPORT

For necessary expenses of the Transportation Security Administration related to providing transportation security support and intelligence pursuant to the Aviation and Transportation Security Act (Public Law 107–71; 115 Stat. 597; 49 U.S.C. 40101 note), $999,580,000, to remain available until September 30, 2011: *Provided*, That of the funds appropriated under this heading, $20,000,000 may not be obligated for headquarters administration until the Secretary of Homeland Security submits to the Committees on Appropriations of the Senate and the House of Representatives detailed expenditure plans for air cargo security, and for checkpoint support and explosives detection systems refurbishment, procurement, and installations on an airport-by-airport basis for fiscal year 2010: *Provided further*, That these plans shall be submitted no later than 60 days after the date of enactment of this Act.

FEDERAL AIR MARSHALS

For necessary expenses of the Federal Air Marshals, $860,111,000.

COAST GUARD

OPERATING EXPENSES

For necessary expenses for the operation and maintenance of the Coast Guard, not otherwise provided for; purchase or lease of not to exceed 25 passenger motor vehicles, which shall be for replacement only; for purchase or lease of small boats for contingent and emergent requirements (at a unit cost of no more than $700,000) and for repairs and service-life replacements, not to exceed a total of $26,000,000; minor shore construction projects not exceeding $1,000,000 in total cost at any location; payments pursuant to section 156 of Public Law 97–377 (42 U.S.C. 402 note; 96 Stat. 1920); and recreation and welfare; $6,838,291,000, of which $581,503,000 shall be for defense-related activities, $241,503,000 of which are designated as being for overseas deployments and other activities pursuant to sections 401(c)(4) and 423(a)(1) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010; of which $24,500,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)); of which not to exceed $20,000 shall be for official reception and representation expenses; and of which $3,600,000 shall be available until expended for the cost of repairing, rehabilitating, altering, modifying, and making improvements, including customized tenant improvements, to any replacement or expanded Operations Systems Center facility: *Provided*, That none of the funds made available by this or any other Act shall be available for administrative expenses in connection with shipping commissioners in the United States: *Provided further*, That none of the funds made available by this Act shall be for expenses incurred for recreational vessels under section 12114 of title 46, United States Code, except to the extent fees are collected from yacht owners and credited to this appropriation: *Provided further*, That the Coast Guard shall comply with the requirements of section 527 of Public Law 108–136 with respect to the Coast Guard Academy: *Provided further*, That of the funds provided under this heading, $30,000,000 is withheld from obligation from Headquarters Directorates until the second quarter acquisition report required by Public Law 108–7 and the fiscal year 2008 joint explanatory statement accompanying Public Law 110–161 is received by the Committees on Appropriations of the Senate and the House of Representatives.

ENVIRONMENTAL COMPLIANCE AND RESTORATION

For necessary expenses to carry out the environmental compliance and restoration functions of the Coast Guard under chapter 19 of title 14, United States Code, $13,198,000, to remain available until expended.

RESERVE TRAINING

For necessary expenses of the Coast Guard Reserve, as authorized by law; operations and maintenance of the reserve program; personnel and training costs; and equipment and services; $133,632,000.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of acquisition, construction, renovation, and improvement of aids to navigation, shore facilities, vessels, and aircraft, including equipment related thereto; and maintenance, rehabilitation, lease and operation of facilities and equipment, as authorized by law; $1,597,580,000, of which $20,000,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)); of which $123,000,000 shall be available until September 30, 2014, to acquire, repair, renovate, or improve vessels, small boats, and related equipment; of which $147,500,000 shall be available until September 30, 2012, for other equipment; of which $27,100,000 shall be available until September 30, 2012, for shore facilities and aids to navigation facilities, including not less than $300,000 for the Coast Guard Academy Pier and not less than $16,800,000 for Coast Guard Station Cleveland Harbor; of which $105,200,000 shall be available for personnel compensation and benefits and related costs; and of which $1,194,780,000 shall be available until September 30, 2014, for the Integrated Deepwater Systems program: *Provided*, That of the funds made available for the Integrated Deepwater Systems program, $305,500,000 is for aircraft and $734,680,000 is for surface ships: *Provided further*, That the Secretary of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives, in conjunction with the President's fiscal year 2011 budget, a review of the Revised Deepwater Implementation Plan that identifies any changes to the plan for the fiscal year; an annual performance comparison of Integrated Deepwater Systems program assets to pre-Deepwater legacy assets; a status report of legacy assets; a detailed explanation of how the costs of legacy assets are being accounted for within the Integrated Deepwater Systems program; and the earned value management system gold card data for each Integrated Deepwater Systems program asset: *Provided further*, That the Secretary shall submit to the Committees on Appropriations of the Senate and the House of Representatives a comprehensive review of the Revised Deepwater Implementation Plan every 5 years, beginning in fiscal year 2011, that includes a complete projection of the acquisition costs and schedule for the duration of the plan through fiscal year 2027: *Provided further*, That the Secretary shall annually submit to the Committees on Appropriations of the Senate and the House of Representatives, at the time that the President's budget is submitted under section 1105(a) of title 31, United States Code, a future-years capital investment plan for the Coast Guard that identifies for each capital budget line item—

(1) the proposed appropriation included in that budget;

(2) the total estimated cost of completion;

(3) projected funding levels for each fiscal year for the next 5 fiscal years or until project completion, whichever is earlier;

(4) an estimated completion date at the projected funding levels; and

(5) changes, if any, in the total estimated cost of completion or estimated completion date from previous future-years capital investment plans submitted to the Committees on Appropriations of the Senate and the House of Representatives:

Provided further, That the Secretary shall ensure that amounts specified in the future-years capital investment plan are consistent to the maximum extent practicable with proposed appropriations necessary to support the programs, projects, and activities of the Coast Guard in the President's budget as submitted under section 1105(a) of title 31, United States Code, for that fiscal year: *Provided further*, That any inconsistencies between the capital investment plan and proposed appropriations shall be identified and justified: *Provided further*, That subsections (a) and (b) of section 6402 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Public Law 110–28) shall apply to fiscal year 2010.

ALTERATION OF BRIDGES

For necessary expenses for alteration or removal of obstructive bridges, as authorized by section 6 of the Truman-Hobbs Act (33 U.S.C. 516), $4,000,000, to remain available until expended: *Provided*, That of the amounts made available under this heading, $4,000,000 shall be for the Fort Madison Bridge in Fort Madison, Iowa.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

For necessary expenses for applied scientific research, development, test, and evaluation; and for maintenance, rehabilitation, lease, and operation of facilities and equipment; as authorized by law; $29,745,000, to remain available until expended, of which $500,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)): *Provided*, That there may be credited to and used for the purposes of this appropriation funds received from State and local governments, other public authorities, private sources, and foreign countries for expenses incurred for research, development, testing, and evaluation.

RETIRED PAY

For retired pay, including the payment of obligations otherwise chargeable to lapsed appropriations for this purpose, payments under the Retired Serviceman's Family Protection and Survivor Benefits Plans, payment for career status bonuses, concurrent receipts and combat-related special compensation under the National Defense Authorization Act, and payments for medical care of retired personnel and their dependents under chapter 55 of title 10, United States Code, $1,361,245,000, to remain available until expended.

UNITED STATES SECRET SERVICE

SALARIES AND EXPENSES

For necessary expenses of the United States Secret Service, including purchase of not to exceed 652 vehicles for police-type use, of which 652 shall be for replacement only, and hire of passenger motor vehicles; purchase of motorcycles made in the United States; hire of aircraft; services of expert witnesses at such rates as may be determined by the Director of the Secret Service; rental of buildings in the District of Columbia, and fencing, lighting, guard booths, and other facilities on private or other property not in Government ownership or control, as may be necessary to perform protective functions; payment of per diem or subsistence allowances to employees where a protective assignment during the actual day or days of the visit of a protectee requires an employee to work 16 hours per day or to remain overnight at a post of duty; conduct of and participation in firearms matches; presentation of awards; travel of United States Secret Service employees on protective missions without regard to the limitations on such expenditures in this or any other Act if approval is obtained in advance from the Committees on Appropriations of the Senate and the House of Representatives; research and development; grants to conduct behavioral research in support of protective research and operations; and payment in advance for commercial accommodations as

may be necessary to perform protective functions; $1,482,709,000; of which not to exceed $25,000 shall be for official reception and representation expenses; of which not to exceed $100,000 shall be to provide technical assistance and equipment to foreign law enforcement organizations in counterfeit investigations; of which $2,366,000 shall be for forensic and related support of investigations of missing and exploited children; and of which $6,000,000 shall be for a grant for activities related to the investigations of missing and exploited children and shall remain available until expended: *Provided*, That up to $18,000,000 provided for protective travel shall remain available until September 30, 2011: *Provided further*, That up to $1,000,000 for National Special Security Events shall remain available until expended: *Provided further*, That the United States Secret Service is authorized to obligate funds in anticipation of reimbursements from Federal agencies and entities, as defined in section 105 of title 5, United States Code, receiving training sponsored by the James J. Rowley Training Center, except that total obligations at the end of the fiscal year shall not exceed total budgetary resources available under this heading at the end of the fiscal year: *Provided further*, That none of the funds made available under this heading shall be available to compensate any employee for overtime in an annual amount in excess of $35,000, except that the Secretary of Homeland Security, or the designee of the Secretary, may waive that amount as necessary for national security purposes: *Provided further*, That none of the funds appropriated to the United States Secret Service by this Act or by previous appropriations Acts may be made available for the protection of the head of a Federal agency other than the Secretary of Homeland Security: *Provided further*, That the Director of the United States Secret Service may enter into an agreement to perform such service on a fully reimbursable basis: *Provided further*, That the United States Secret Service shall open an international field office in Tallinn, Estonia to combat electronic crimes with funds made available under this heading in Public Law 110–329: *Provided further*, That $4,040,000 shall not be made available for obligation until enactment into law of authorizing legislation that incorporates the authorities of the United States Secret Service Uniformed Division into the United States Code, including restructuring the United States Secret Service Uniformed Division's pay chart.

ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

For necessary expenses for acquisition, construction, repair, alteration, and improvement of facilities, $3,975,000, to remain available until expended.

TITLE III

PROTECTION, PREPAREDNESS, RESPONSE, AND RECOVERY

National Protection and Programs Directorate

SALARIES AND EXPENSES

For salaries and expenses of the Office of the Under Secretary for the National Protection and Programs Directorate, support for operations, information technology, and the Office of Risk Management and Analysis, $44,577,000: *Provided*, That not to exceed $5,000 shall be for official reception and representation expenses.

INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY

For necessary expenses for infrastructure protection and information security programs and activities, as authorized by title II of the Homeland Security Act of 2002 (6 U.S.C. 121 et seq.), $901,416,000, of which $760,755,000 shall remain available until September 30, 2011: *Provided*, That of the total amount provided, $20,000,000 is for necessary expenses of the National Infrastructure Simulation and Analysis Center.

UNITED STATES VISITOR AND IMMIGRANT STATUS INDICATOR TECHNOLOGY

For necessary expenses for the development of the United States Visitor and Immigrant Status Indicator Technology project, as authorized by section 110 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1365a), $378,194,000, to remain available until expended: *Provided*, That of the total amount made available under this heading, $75,000,000 may not be obligated for the United States Visitor and Immigrant Status Indicator Technology project until the Committees on Appropriations of the Senate and the House of Representatives receive a plan for expenditure prepared by the Secretary of Homeland Security not later than 90 days after the date of enactment of this Act: *Provided further*, That not less than $28,000,000 of unobligated balances of prior year appropriations shall remain available and be obligated solely for implementation of a biometric air exit capability.

FEDERAL PROTECTIVE SERVICE

The revenues and collections of security fees credited to this account shall be available until expended for necessary expenses related to the protection of federally-owned and leased buildings and for the operations of the Federal Protective Service: *Provided*, That the Secretary of Homeland Security and the Director of the Office of Management and Budget shall certify in writing to the Committees on Appropriations of the Senate and the House of Representatives no later than December 31, 2009, that the operations of the Federal Protective Service will be fully funded in fiscal year 2010 through revenues and collection of security fees, and shall adjust the fees to ensure fee collections are sufficient to ensure that the Federal Protective Service maintains not fewer than 1,200 full-time equivalent staff and 900 full-time equivalent Police Officers, Inspectors, Area Commanders, and Special Agents who, while working, are directly engaged on a daily basis protecting and enforcing laws at Federal buildings (referred to as ''in-service field staff'').

OFFICE OF HEALTH AFFAIRS

For necessary expenses of the Office of Health Affairs, $135,000,000, of which $30,411,000 is for salaries and expenses; and of which $104,589,000 is to remain available until September 30, 2011, for biosurveillance, BioWatch, medical readiness planning, chemical response, and other activities: *Provided*, That not to exceed $3,000 shall be for official reception and representation expenses.

Federal Emergency Management Agency

MANAGEMENT AND ADMINISTRATION

For necessary expenses for management and administration of the Federal Emergency Management Agency, $859,700,000, including activities authorized by the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), the Cerro Grande Fire Assistance Act of 2000 (division C, title I, 114 Stat. 583), the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), the Defense Production Act of 1950 (50 U.S.C. App. 2061 et seq.), sections 107 and 303 of the National Security Act of 1947 (50 U.S.C. 404, 405), Reorganization Plan No. 3 of 1978 (5 U.S.C. App.), the Homeland Security Act of 2002 (6 U.S.C. 101 et seq.), and the Post-Katrina Emergency Management Reform Act of 2006 (Public Law 109–295; 120 Stat. 1394): *Provided*, That not to exceed $3,000 shall be for official reception and representation expenses: *Provided further*, That the President's budget submitted under section 1105(a) of title 31, United States Code, shall be detailed by office for the Federal Emergency Management Agency: *Provided further*, That of the total amount made available under this heading, $32,500,000 shall be for the Urban Search and Rescue Response System, of which not to exceed $1,600,000 may be made available for administrative costs; and $6,995,000 shall be for the Office of National Capital Region Coordination: *Provided further*, That for purposes of planning, coordination, execution, and decision-making related to mass evacuation during a disaster, the Governors of the State of West Virginia and the Commonwealth of Pennsylvania, or their designees, shall be incorporated into efforts to integrate the activities of Federal, State, and local governments in the National Capital Region, as defined in section 882 of Public Law 107–296, the Homeland Security Act of 2002.

STATE AND LOCAL PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

For grants, contracts, cooperative agreements, and other activities, $3,067,200,000 shall be allocated as follows:

(1) $950,000,000 shall be for the State Homeland Security Grant Program under section 2004 of the Homeland Security Act of 2002 (6 U.S.C. 605): *Provided*, That of the amount provided by this paragraph, $60,000,000 shall be for Operation Stonegarden.

(2) $887,000,000 shall be for the Urban Area Security Initiative under section 2003 of the Homeland Security Act of 2002 (6 U.S.C. 604), of which, notwithstanding subsection (c)(1) of such section, $20,000,000 shall be for grants to organizations (as described under section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax section 501(a) of such code) determined by the Secretary of Homeland Security to be at high risk of a terrorist attack.

(3) $35,000,000 shall be for Regional Catastrophic Preparedness Grants.

(4) $40,000,000 shall be for the Metropolitan Medical Response System under section 635 of the Post-Katrina Emergency Management Reform Act of 2006 (6 U.S.C. 723).

(5) $15,000,000 shall be for the Citizen Corps Program.

(6) $356,000,000 shall be for Public Transportation Security Assistance, Railroad Security Assistance, and Over-the-Road Bus Security Assistance under sections 1406, 1513, and 1532 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (Public Law 110–53; 6 U.S.C. 1135, 1163, and 1182), of which not less than $25,000,000 shall be for Amtrak security, and not less than $6,000,000 shall be for Over-the-Road Bus Security Assistance.

(7) $350,000,000 shall be for Port Security Grants in accordance with 46 U.S.C. 70107.

(8) $50,000,000 shall be for Buffer Zone Protection Program Grants.

(9) $50,000,000 shall be for Driver's License Security Grants Program, pursuant to section 204(a) of the REAL ID Act of 2005 (division B of Public Law 109–13).

(10) $50,000,000 shall be for the Interoperable Emergency Communications Grant Program under section 1809 of the Homeland Security Act of 2002 (6 U.S.C. 579).

(11) $20,000,000 shall be for grants for Emergency Operations Centers under section 614 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5196c), of which no less than $1,500,000 shall be for the Ohio Emergency Management Agency Emergency Operations Center, Columbus, Ohio; no less than $1,000,000 shall be for the City of Chicago Emergency Operations Center, Chicago, Illinois; no less than $600,000 shall be for the Ames Emergency Operations Center, Ames, Iowa; no less than $353,000 shall be for the County of Union Emergency Operations Center, Union County, New Jersey; no less than $300,000 shall be for the City of Hackensack Emergency Operations Center, Hackensack, New Jersey; no less than $247,000 shall be for the Township of South Orange Village Emergency Operations Center, South Orange, New Jersey; no less than $1,000,000 shall be for the City of Mount Vernon Emergency Operations Center, Mount Vernon, New York; no less than $900,000 shall be for the City of Whitefish Emergency Operations Center, Whitefish, Montana; no less than $1,000,000 shall be for the Lincoln County Emergency Operations Center, Lincoln County, Washington; no less than $980,000 shall be for the City of Providence Emergency Operations Center, Providence, Rhode Island; no less than $980,000 for the North Louisiana Regional Emergency Operations Center, Lincoln Parish, Louisiana; and no less than $900,000 for the City of North Little Rock Emergency Operations Center, North Little Rock, Arkansas.

(12) $264,200,000 shall be for training, exercises, technical assistance, and other programs, of which—

(A) $164,500,000 is for purposes of training in accordance with section 1204 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (6 U.S.C. 1102), of which $62,500,000 shall be for the Center for Domestic Preparedness; $23,000,000 shall be for the National Energetic Materials Research and Testing Center, New Mexico Institute of Mining and Technology; $23,000,000 shall be for the National Center for Biomedical Research and Training, Louisiana State University; $23,000,000 shall be for the National Emergency Response and Rescue Training Center, Texas A&M University; $23,000,000 shall be for the National Exercise, Test, and Training Center, Nevada Test Site; $5,000,000 shall be for the Transportation Technology Center, Incorporated, in Pueblo, Colorado; and $5,000,000 shall be for the Natural Disaster Preparedness Training Center, University of Hawaii, Honolulu, Hawaii; and

(B) $1,700,000 shall be for the Center for Counterterrorism and Cyber Crime, Norwich University, Northfield, Vermont:

Provided, That 4.1 percent of the amounts provided under this heading shall be transferred to the Federal Emergency Management Agency ''Management and Administration'' account for program administration, and an expenditure plan for program administration shall be provided to the Committees on Appropriations of the Senate and the House of Representatives within 60 days of the date of enactment of this Act: *Provided further*, That, notwithstanding section 2008(a)(11) of the Homeland Security Act of 2002 (6 U.S.C. 609(a)(11)), or any other provision of law, a grantee may use not more than 5 percent of the amount of a grant made available under this heading for expenses directly related to administration of the grant: *Provided further*, That for grants under paragraphs (1) through (5), the applications for grants shall be made available to eligible applicants not later than 25 days after the date of enactment of this Act, that eligible applicants shall submit applications not later than 90 days after the grant announcement, and that the Administrator of the Federal Emergency Management Agency shall act within 90 days after receipt of an application: *Provided further*, That for grants under paragraphs (6) through (10), the applications for grants shall be made available to eligible applicants not later than 30 days after the date of enactment of this Act, that eligible applicants shall submit applications within 45 days after the grant announcement, and that the Federal Emergency Management Agency shall act not later than 60 days after receipt of an application: *Provided further*, That for grants under paragraphs (1) and (2), the installation of communications towers is not considered construction of a building or other physical facility: *Provided further*, That grantees shall provide reports on their use of funds, as determined necessary by the Secretary: *Provided further*, That (a) the Center for Domestic Preparedness may provide training to emergency response providers from the Federal Government, foreign governments, or private entities, if the Center for Domestic Preparedness is reimbursed for the cost of such training, and any reimbursement under this subsection shall be credited to the account from which the expenditure being reimbursed was made and shall be available, without fiscal year limitation, for the purposes for which amounts in the account may be expended, (b) the head of the Center for Domestic Preparedness shall ensure that any training provided under (a) does not interfere with the primary mission of the Center to train State and local emergency response providers.

FIREFIGHTER ASSISTANCE GRANTS

For necessary expenses for programs authorized by the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2201 et seq.), $800,000,000, of which $380,000,000 shall be available to carry out section 33 of that Act (15 U.S.C. 2229) and $420,000,000 shall be available to carry out section 34 of that Act (15 U.S.C. 2229a), to remain available until September 30, 2010: *Provided*, That 5 percent of the amount available under this heading shall be for program administration, and an expenditure plan for program administration shall be provided to the Committees on Appropriations of the Senate and the House of Representatives within 60 days of the date of enactment of this Act.

EMERGENCY MANAGEMENT PERFORMANCE GRANTS

For necessary expenses for emergency management performance grants, as authorized by the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), and Reorganization Plan No. 3 of 1978 (5 U.S.C. App.), $350,000,000: *Provided*, That total administrative costs shall be 3 percent of the total amount appropriated under this heading.

RADIOLOGICAL EMERGENCY PREPAREDNESS PROGRAM

The aggregate charges assessed during fiscal year 2010, as authorized in title III of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999 (42 U.S.C. 5196e), shall not be less than 100 percent of the amounts anticipated by the Department of Homeland Security necessary for its radiological emergency preparedness program for the next fiscal year: *Provided*, That the methodology for assessment and collection of fees shall be fair and equitable and shall reflect costs of providing such services, including administrative costs of collecting such fees: *Provided further*, That fees received under this heading shall be deposited in this account as offsetting collections and will become available for authorized purposes on October 1, 2010, and remain available until expended.

UNITED STATES FIRE ADMINISTRATION

For necessary expenses of the United States Fire Administration and for other purposes, as authorized by the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2201 et seq.) and the Homeland Security Act of 2002 (6 U.S.C. 101 et seq.), $45,588,000.

DISASTER RELIEF

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses in carrying out the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), $1,456,866,000, to remain available until expended: *Provided*, That the Federal Emergency Management Agency shall submit an expenditure plan to the Committees on Appropriations of the Senate and the House of Representatives detailing the use of the funds for disaster readiness and support within 60 days after the date of enactment of this Act: *Provided further*, That the Federal Emergency Management Agency shall provide a quarterly report detailing obligations against the expenditure plan and a justification for any changes in spending: *Provided further*, That of the total amount provided, $16,000,000 shall be transferred to the Department of Homeland Security Office of Inspector General for audits and investigations related to disasters, subject to section 503 of this Act: *Provided further*, That up to $50,000,000 may be transferred to Federal Emergency Management Agency ''Management and Administration'' for management and administration functions: *Provided further*, That the amount provided in the previous proviso shall not be available for transfer to ''Management and Administration'' until the Federal Emergency Management Agency submits an implementation plan to the Committees on Appropriations of the Senate and the House of Representatives: *Provided further*, That the Federal Emergency Management Agency shall submit the monthly ''Disaster Relief'' report, as specified in Public Law 110–161, to the Committees on Appropriations of the Senate and the House of Representatives, and include the amounts provided to each Federal agency for mission assignments: *Provided further*, That for any request for reimbursement from a Federal agency to the Department of Homeland Security to cover expenditures under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), or any mission assignment orders issued by the Department for such purposes, the Secretary of Homeland Security shall take appropriate steps to ensure that each agency is periodically reminded of Department policies on—

(1) the detailed information required in supporting documentation for reimbursements; and

(2) the necessity for timeliness of agency billings.

DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT

For activities under section 319 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5162), $295,000 is for the cost of direct loans: *Provided*, That gross obligations for the principal amount of

direct loans shall not exceed $25,000,000: *Provided further*, That the cost of modifying such loans shall be as defined in section 502 of the Congressional Budget Act of 1974 (2 U.S.C. 661a).

FLOOD MAP MODERNIZATION FUND

For necessary expenses under section 1360 of the National Flood Insurance Act of 1968 (42 U.S.C. 4101), $220,000,000, and such additional sums as may be provided by State and local governments or other political subdivisions for cost-shared mapping activities under section 1360(f)(2) of such Act (42 U.S.C. 4101(f)(2)), to remain available until expended: *Provided*, That total administrative costs shall not exceed 3 percent of the total amount appropriated under this heading.

NATIONAL FLOOD INSURANCE FUND

For activities under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), and the Flood Disaster Protection Act of 1973 (42 U.S.C. 4001 et seq.), $159,469,000, which shall be derived from offsetting collections assessed and collected under section 1308(d) of the National Flood Insurance Act of 1968 (42 U.S.C. 4015(d)), which is available as follows: (1) not to exceed $52,149,000 for salaries and expenses associated with flood mitigation and flood insurance operations; and (2) no less than $107,320,000 for flood plain management and flood mapping, which shall remain available until September 30, 2011: *Provided*, That any additional fees collected pursuant to section 1308(d) of the National Flood Insurance Act of 1968 (42 U.S.C. 4015(d)) shall be credited as an offsetting collection to this account, to be available for flood plain management and flood mapping: *Provided further*, That in fiscal year 2010, no funds shall be available from the National Flood Insurance Fund under section 1310 of that Act (42 U.S.C. 4017) in excess of: (1) $85,000,000 for operating expenses; (2) $969,370,000 for commissions and taxes of agents; (3) such sums as are necessary for interest on Treasury borrowings; and (4) $120,000,000, which shall remain available until expended for flood mitigation actions, of which $70,000,000 is for severe repetitive loss properties under section 1361A of the National Flood Insurance Act of 1968 (42 U.S.C. 4102a), of which $10,000,000 is for repetitive insurance claims properties under section 1323 of the National Flood Insurance Act of 1968 (42 U.S.C. 4030), and of which $40,000,000 is for flood mitigation assistance under section 1366 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c) notwithstanding subparagraphs (B) and (C) of subsection (b)(3) and subsection (f) of section 1366 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c) and notwithstanding subsection (a)(7) of section 1310 of the National Flood Insurance Act of 1968 (42 U.S.C. 4017): *Provided further*, That amounts collected under section 102 of the Flood Disaster Protection Act of 1973 and section 1366(i) of the National Flood Insurance Act of 1968 shall be deposited in the National Flood Insurance Fund to supplement other amounts specified as available for section 1366 of the National Flood Insurance Act of 1968, notwithstanding 42 U.S.C. 4012a(f)(8), 4104c(i), and 4104d(b)(2)–(3): *Provided further*, That total administrative costs shall not exceed 4 percent of the total appropriation.

NATIONAL PREDISASTER MITIGATION FUND

For the predisaster mitigation grant program under section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5133), $120,000,000, to remain available until expended: *Provided*, That the total administrative costs associated with such grants shall not exceed 3 percent of the total amount made available under this heading.

EMERGENCY FOOD AND SHELTER

To carry out the emergency food and shelter program pursuant to title III of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11331 et seq.), $175,000,000, to remain available until expended: *Provided*, That total administrative costs shall not exceed 3.5 percent of the total amount made available under this heading.

TITLE IV

RESEARCH AND DEVELOPMENT, TRAINING, AND SERVICES

UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES

For necessary expenses for citizenship and immigration services, $135,700,000, of which $5,000,000 is for the processing of military naturalization applications and $118,500,000 is for the E-Verify program to assist United States employers with maintaining a legal workforce: *Provided*, That of the amount provided for the E-Verify program, $10,000,000 is available until expended for E-Verify process and system enhancements: *Provided further*, That notwithstanding any other provision of law, funds available to United States Citizenship and Immigration Services may be used to acquire, operate, equip, dispose of and replace up to five vehicles, of which two are for replacement only, for areas where the Administrator of General Services does not provide vehicles for lease: *Provided further*, That the Director of United States Citizenship and Immigration Services may authorize employees who are assigned to those areas to use such vehicles between the employees' residences and places of employment.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

For necessary expenses of the Federal Law Enforcement Training Center, including materials and support costs of Federal law enforcement basic training; the purchase of not to exceed 117 vehicles for police-type use and hire of passenger motor vehicles; expenses for student athletic and related activities; the conduct of and participation in firearms matches and presentation of awards; public awareness and enhancement of community support of law enforcement training; room and board for student interns; a flat monthly reimbursement to employees authorized to use personal mobile phones for official duties; and services as authorized by section 3109 of title 5, United States Code; $244,356,000, of which up to $47,751,000 shall remain available until September 30, 2011, for materials and support costs of Federal law enforcement basic training; of which $300,000 shall remain available until expended for Federal law enforcement agencies participating in training accreditation, to be distributed as determined by the Federal Law Enforcement Training Center for the needs of participating agencies; and of which not to exceed $12,000 shall be for official reception and representation expenses: *Provided*, That the Center is authorized to obligate funds in anticipation of reimbursements from agencies receiving training sponsored by the Center, except that total obligations at the end of the fiscal year shall not exceed total budgetary resources available at the end of the fiscal year: *Provided further*, That section 1202(a) of Public Law 107–206 (42 U.S.C. 3771 note), as amended by Public Law 110–329 (122 Stat. 3677), is further amended by striking ''December 31, 2011'' and inserting ''December 31, 2012'': *Provided further*, That the Federal Law Enforcement Training Accreditation Board, including representatives from the Federal law enforcement community and non-Federal accreditation experts involved in law enforcement training, shall lead the Federal law enforcement training accreditation process to continue the implementation of measuring and assessing the quality and effectiveness of Federal law enforcement training programs, facilities, and instructors: *Provided further*, That the Director of the Federal Law Enforcement Training Center shall schedule basic or advanced law enforcement training, or both, at all four training facilities under the control of the Federal Law Enforcement Training Center to ensure that such training facilities are operated at the highest capacity throughout the fiscal year.

ACQUISITIONS, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

For acquisition of necessary additional real property and facilities, construction, and ongoing maintenance, facility improvements, and related expenses of the Federal Law Enforcement Training Center, $43,456,000, to remain available until expended: *Provided*, That the Center is authorized to accept reimbursement to this appropriation from government agencies requesting the construction of special use facilities.

SCIENCE AND TECHNOLOGY

MANAGEMENT AND ADMINISTRATION

For salaries and expenses of the Office of the Under Secretary for Science and Technology and for management and administration of programs and activities, as authorized by title III of the Homeland Security Act of 2002 (6 U.S.C. 181 et seq.), $143,200,000: *Provided*, That not to exceed $10,000 shall be for official reception and representation expenses.

RESEARCH, DEVELOPMENT, ACQUISITION, AND OPERATIONS

For necessary expenses for science and technology research, including advanced research projects; development; test and evaluation; acquisition; and operations; as authorized by title III of the Homeland Security Act of 2002 (6 U.S.C. 181 et seq.); $851,729,000, to remain available until September 30, 2011: *Provided*, That not less than $20,865,000 shall be available for the Southeast Region Research Initiative at the Oak Ridge National Laboratory: *Provided further*, That not less than $3,000,000 shall be available for Distributed Environment for Critical Infrastructure Decisionmaking Exercises: *Provided further*, That not less than $12,000,000 is for construction expenses of the Pacific Northwest National Laboratory: *Provided further*, That not less than $2,000,000 shall be for the Cincinnati Urban Area partnership established through the Regional Technology Integration Initiative: *Provided further*, That not less than $36,312,000 shall be for the National Bio and Agro-defense Facility.

DOMESTIC NUCLEAR DETECTION OFFICE

MANAGEMENT AND ADMINISTRATION

For salaries and expenses of the Domestic Nuclear Detection Office as authorized by title XIX of the Homeland Security Act of 2002 (6 U.S.C. 591 et seq.) for management and administration of programs and activities, $37,500,000: *Provided*, That not to exceed $3,000 shall be for official reception and representation expenses.

RESEARCH, DEVELOPMENT, AND OPERATIONS

For necessary expenses for radiological and nuclear research, development, testing, evaluation, and operations, $326,537,000, to remain available until September 30, 2011.

SYSTEMS ACQUISITION

For expenses for the Domestic Nuclear Detection Office acquisition and deployment of radiological detection systems in accordance with the global nuclear detection architecture, $10,000,000, to remain available until September 30, 2011: *Provided*, That none of the funds appropriated under this heading in this Act or any other Act shall be obligated for full-scale procurement of Advanced Spectroscopic Portal monitors until the Secretary of Homeland Security submits to the Committees on Appropriations of the Senate and the House of Representatives a report certifying that a significant increase in operational effectiveness will be achieved: *Provided further*, That the Secretary shall submit separate and distinct certifications prior to the procurement of Advanced Spectroscopic Portal monitors for primary and secondary deployment that address the unique requirements for operational effectiveness of each type of deployment: *Provided further*, That the Secretary shall continue to consult with the National Academy of Sciences before making such certifications: *Provided further*, That none of the funds appropriated under this heading shall be used for high-risk concurrent development and production of mutually dependent software and hardware.

TITLE V

GENERAL PROVISIONS

(INCLUDING RESCISSIONS OF FUNDS)

SEC. 501. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 502. Subject to the requirements of section 503 of this Act, the unexpended balances of prior appropriations provided for activities in this Act may be transferred to appropriation accounts for such activities established pursuant to this Act, may be merged with funds in the applicable established accounts, and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 503. (a) None of the funds provided by this Act, provided by previous appropriations Acts to the agencies in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year 2010, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that: (1) creates a new program, project, or activity; (2) eliminates a program, project, office, or activity; (3) increases funds for any program, project, or activity for which funds have been denied or restricted by the Congress; (4) proposes to use funds directed for a specific activity by either of the Committees on Appropriations of the Senate or the House of Representatives for a different purpose; or (5) contracts out any function or activity for which funding levels were requested for Federal full-time equivalents in the object classification tables contained in the fiscal year 2010 Budget Appendix for the Department of Homeland Security, as modified by the explanatory statement accompanying this Act, unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such reprogramming of funds.

(b) None of the funds provided by this Act, provided by previous appropriations Acts to the agencies in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year 2010, or provided from any accounts in the Treasury of the United States derived by the collection of fees or proceeds available to the agencies funded by this Act, shall be available for obligation or expenditure for programs, projects, or activities through a reprogramming of funds in excess of $5,000,000 or 10 percent, whichever is less, that: (1) augments existing programs, projects, or activities; (2) reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent as approved by the Congress; or (3) results from any general savings from a reduction in personnel that would result in a change in existing programs, projects, or activities as approved by the Congress, unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such reprogramming of funds.

(c) Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of Homeland Security by this Act or provided by previous appropriations Acts may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by such transfers: *Provided*, That any transfer under this section shall be treated as a reprogramming of funds under subsection (b) and shall not be available for obligation unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such transfer.

(d) Notwithstanding subsections (a), (b), and (c) of this section, no funds shall be reprogrammed within or transferred between appropriations after June 30, except in extraordinary circumstances that imminently threaten the safety of human life or the protection of property.

SEC. 504. The Department of Homeland Security Working Capital Fund, established pursuant to section 403 of Public Law 103–356 (31 U.S.C. 501 note), shall continue operations as a permanent working capital fund for fiscal year 2010: *Provided*, That none of the funds appropriated or otherwise made available to the Department of Homeland Security may be used to make payments to the Working Capital Fund, except for the activities and amounts allowed in the President's fiscal year 2010 budget: *Provided further*, That funds provided to the Working Capital Fund shall be available for obligation until expended to carry out the purposes of the Working Capital Fund: *Provided further*, That all departmental components shall be charged only for direct usage of each Working Capital Fund service: *Provided further*, That funds provided to the Working Capital Fund shall be used only for purposes consistent with the contributing component: *Provided further*, That such fund shall be paid in advance or reimbursed at rates which will return the full cost of each service: *Provided further*, That the Working Capital Fund shall be subject to the requirements of section 503 of this Act.

SEC. 505. Except as otherwise specifically provided by law, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year 2010 from appropriations for salaries and expenses for fiscal year 2010 in this Act shall remain available through September 30, 2011, in the account and for the purposes for which the appropriations were provided: *Provided*, That prior to the obligation of such funds, a request shall be submitted to the Committees on Appropriations of the Senate and the House of Representatives for approval in accordance with section 503 of this Act.

SEC. 506. Funds made available by this Act for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2010 until the enactment of an Act authorizing intelligence activities for fiscal year 2010.

SEC. 507. None of the funds made available by this Act may be used to make a grant allocation, discretionary grant award, discretionary contract award, Other Transaction Agreement, or to issue a letter of intent totaling in excess of $1,000,000, or to announce publicly the intention to make such an award, including a contract covered by the Federal Acquisition Regulation, unless the Secretary of Homeland Security notifies the Committees on Appropriations of the Senate and the House of Representatives at least 3 full business days in advance of making such an award or issuing such a letter: *Provided*, That if the Secretary of Homeland Security determines that compliance with this section would pose a substantial risk to human life, health, or safety, an award may be made without notification and the Committees on Appropriations of the Senate and the House of Representatives shall be notified not later than 5 full business days after such an award is made or letter issued: *Provided further*, That no notification shall involve funds that are not available for obligation: *Provided further*, That the notification shall include the amount of the award, the fiscal year in which the funds for the award were appropriated, and the account from which the funds are being drawn: *Provided further*, That the Federal Emergency Management Agency shall brief the Committees on Appropriations of the Senate and the House of Representatives 5 full business days in advance of announcing publicly the intention of making an award under the State Homeland Security Grant Program; Urban Area Security Initiative; and the Regional Catastrophic Preparedness Grant Program.

SEC. 508. Notwithstanding any other provision of law, no agency shall purchase, construct, or lease any additional facilities, except within or contiguous to existing locations, to be used for the purpose of conducting Federal law enforcement training without the advance approval of the Committees on Appropriations of the Senate and the House of Representatives, except that the Federal Law Enforcement Training Center is authorized to obtain the temporary use of additional facilities by lease, contract, or other agreement for training which cannot be accommodated in existing Center facilities.

SEC. 509. None of the funds appropriated or otherwise made available by this Act may be used for expenses for any construction, repair, alteration, or acquisition project for which a prospectus otherwise required under chapter 33 of title 40, United States Code, has not been approved, except that necessary funds may be expended for each project for required expenses for the development of a proposed prospectus.

SEC. 510. Sections 519, 520, 528, and 531 of the Department of Homeland Security Appropriations Act, 2008 (division E of Public Law 110–161; 121 Stat. 2073, 2074) shall apply with respect to funds made available in this Act in the same manner as such sections applied to funds made available in that Act.

SEC. 511. None of the funds in this Act may be used in contravention of the applicable

provisions of the Buy American Act (41 U.S.C. 10a et seq.).

SEC. 512. None of the funds provided by this or previous appropriations Acts may be obligated for deployment or implementation of the Secure Flight program or any other follow-on or successor passenger screening program that: (1) utilizes or tests algorithms assigning risk to passengers whose names are not on Government watch lists; or (2) uses data or a database that is obtained from or remains under the control of a non-Federal entity: *Provided*, That this restriction shall not apply to Passenger Name Record data obtained from air carriers.

SEC. 513. None of the funds made available in this Act may be used to amend the oath of allegiance required by section 337 of the Immigration and Nationality Act (8 U.S.C. 1448).

SEC. 514. None of the funds appropriated by this Act may be used to process or approve a competition under Office of Management and Budget Circular A–76 for services provided as of June 1, 2004, by employees (including employees serving on a temporary or term basis) of United States Citizenship and Immigration Services of the Department of Homeland Security who are known as of that date as Immigration Information Officers, Contact Representatives, or Investigative Assistants.

SEC. 515. (a) The Assistant Secretary of Homeland Security (Transportation Security Administration) shall work with air carriers and airports to ensure that the screening of cargo carried on passenger aircraft, as defined in section 44901(g)(5) of title 49, United States Code, increases incrementally each quarter until the requirement of section 44901(g)(2)(B) of title 49 are met.

(b) Not later than 45 days after the end of each quarter, the Assistant Secretary shall submit to the Committees on Appropriations of the Senate and the House of Representatives a report on air cargo inspection statistics by airport and air carrier detailing the incremental progress being made to meet the requirement of section 44901(g)(2)(B) of title 49, United States Code.

SEC. 516. Except as provided in section 44945 of title 49, United States Code, funds appropriated or transferred to Transportation Security Administration ''Aviation Security'', ''Administration'' and ''Transportation Security Support'' for fiscal years 2004, 2005, 2006, 2007, and 2008 that are recovered or deobligated shall be available only for the procurement or installation of explosives detection systems, for air cargo, baggage, and checkpoint screening systems, subject to notification: *Provided*, That quarterly reports shall be submitted to the Committees on Appropriations of the Senate and the House of Representatives on any funds that are recovered or deobligated.

SEC. 517. Any funds appropriated to United States Coast Guard, ''Acquisition, Construction, and Improvements'' for fiscal years 2002, 2003, 2004, 2005, and 2006 for the 110–123 foot patrol boat conversion that are recovered, collected, or otherwise received as the result of negotiation, mediation, or litigation, shall be available until expended for the Replacement Patrol Boat (FRC-B) program.

SEC. 518. (a)(1) Except as provided in paragraph (2), none of the funds provided in this or any other Act shall be available to commence or continue operations of the National Applications Office until—

(A) the Secretary certifies that: (i) National Applications Office programs comply with all existing laws, including all applicable privacy and civil liberties standards; and, (ii) that clear definitions of all proposed domains are established and are auditable;

(B) the Comptroller General of the United States notifies the Committees on Appropriations of the Senate and the House of Representatives and the Secretary that the Comptroller has reviewed such certification; and

(C) the Secretary notifies the Committees of all funds to be expended on the National Applications Office pursuant to section 503 of this Act.

(2) Paragraph (1) shall not apply with respect to any use of funds for activities substantially similar to such activities conducted by the Department of the Interior as set forth in the 1975 charter for the Civil Applications Committee under the provisions of law codified at section 31 of title 43, United States Code.

(b) The Inspector General shall provide to the Committees on Appropriations of the Senate and the House of Representatives a classified report on a quarterly basis containing a review of the data collected by the National Applications Office, including a description of the collection purposes and the legal authority under which the collection activities were authorized: *Provided*, That the report shall also include a listing of all data collection activities carried out on behalf of the National Applications Office by any component of the National Guard.

(c) None of the funds provided in this or any other Act shall be available to commence operations of the National Immigration Information Sharing Operation until the Secretary certifies that such program complies with all existing laws, including all applicable privacy and civil liberties standards, the Comptroller General of the United States notifies the Committees on Appropriations of the Senate and the House of Representatives and the Secretary that the Comptroller has reviewed such certification, and the Secretary notifies the Committees on Appropriations of the Senate and the House of Representatives of all funds to be expended on the National Immigration Information Sharing Operation pursuant to section 503.

SEC. 519. Within 45 days after the close of each month, the Chief Financial Officer of the Department of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives a monthly budget and staffing report that includes total obligations, on-board versus funded full-time equivalent staffing levels, and the number of contract employees by office.

SEC. 520. Section 532(a) of Public Law 109–295 (120 Stat. 1384) is amended by striking ''2009'' and inserting ''2010''.

SEC. 521. The functions of the Federal Law Enforcement Training Center instructor staff shall be classified as inherently governmental for the purpose of the Federal Activities Inventory Reform Act of 1998 (31 U.S.C. 501 note).

SEC. 522. (a) None of the funds provided by this or any other Act may be obligated for the development, testing, deployment, or operation of any portion of a human resources management system authorized by 5 U.S.C. 9701(a), or by regulations prescribed pursuant to such section, for an employee as defined in 5 U.S.C. 7103(a)(2).

(b) The Secretary of Homeland Security shall collaborate with employee representatives in the manner prescribed in 5 U.S.C. 9701(e), in the planning, testing, and development of any portion of a human resources management system that is developed, tested, or deployed for persons excluded from the definition of employee as that term is defined in 5 U.S.C. 7103(a)(2).

SEC. 523. None of the funds made available in this or any other Act may be used to enforce section 4025(1) of Public Law 108–458 unless the Assistant Secretary of Homeland Security (Transportation Security Administration) reverses the determination of July 19, 2007, that butane lighters are not a significant threat to civil aviation security.

SEC. 524. Funds made available in this Act may be used to alter operations within the Civil Engineering Program of the Coast Guard nationwide, including civil engineering units, facilities design and construction centers, maintenance and logistics commands, and the Coast Guard Academy, except that none of the funds provided in this Act may be used to reduce operations within any Civil Engineering Unit unless specifically authorized by a statute enacted after the date of the enactment of this Act.

SEC. 525. (a) Except as provided in subsection (b), none of the funds appropriated in this or any other Act to the Office of the Secretary and Executive Management, the Office of the Under Secretary for Management, or the Office of the Chief Financial Officer, may be obligated for a grant or contract funded under such headings by a means other than full and open competition.

(b) Subsection (a) does not apply to obligation of funds for a contract awarded—

(1) by a means that is required by a Federal statute, including obligation for a purchase made under a mandated preferential program, such as the AbilityOne Program, that is authorized under the Javits-Wagner-O'Day Act (41 U.S.C. 46 et seq.);

(2) under the Small Business Act (15 U.S.C. 631 et seq.);

(3) in an amount less than the simplified acquisition threshold described under section 302A(a) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 252a(a)); or

(4) by another Federal agency using funds provided through an interagency agreement.

(c)(1) Subject to paragraph (2), the Secretary of Homeland Security may waive the application of this section for the award of a contract in the interest of national security or if failure to do so would pose a substantial risk to human health or welfare.

(2) Not later than 5 days after the date on which the Secretary of Homeland Security issues a waiver under this subsection, the Secretary shall submit notification of that waiver to the Committees on Appropriations of the Senate and the House of Representatives, including a description of the applicable contract and an explanation of why the waiver authority was used. The Secretary may not delegate the authority to grant such a waiver.

(d) In addition to the requirements established by this section, the Inspector General for the Department of Homeland Security shall review departmental contracts awarded through other than full and open competition to assess departmental compliance with applicable laws and regulations: *Provided*, That the Inspector General shall review selected contracts awarded in the previous fiscal year through other than full and open competition: *Provided further*, That in determining which contracts to review, the Inspector General shall consider the cost and complexity of the goods and services to be provided under the contract, the criticality of the contract to fulfilling Department missions, past performance problems on similar

contracts or by the selected vendor, complaints received about the award process or contractor performance, and such other factors as the Inspector General deems relevant: *Provided further*, That the Inspector General shall report the results of the reviews to the Committees on Appropriations of the Senate and the House of Representatives no later than February 5, 2010.

SEC. 526. None of the funds made available in this Act may be used by United States Citizenship and Immigration Services to grant an immigration benefit unless the results of background checks required by law to be completed prior to the granting of the benefit have been received by United States Citizenship and Immigration Services, and the results do not preclude the granting of the benefit.

SEC. 527. None of the funds made available in this Act may be used to destroy or put out to pasture any horse or other equine belonging to the Federal Government that has become unfit for service, unless the trainer or handler is first given the option to take possession of the equine through an adoption program that has safeguards against slaughter and inhumane treatment.

SEC. 528. None of the funds provided in this Act shall be available to carry out section 872 of Public Law 107–296.

SEC. 529. None of the funds provided in this Act under the heading ''Office of the Chief Information Officer'' shall be used for data center development other than for Data Center One (National Center for Critical Information Processing and Storage) until the Chief Information Officer certifies that Data Center One (National Center for Critical Information Processing and Storage) is fully utilized as the Department's primary data storage center at the highest capacity throughout the fiscal year.

SEC. 530. None of the funds in this Act shall be used to reduce the United States Coast Guard's Operations Systems Center mission or its government-employed or contract staff levels.

SEC. 531. None of the funds appropriated by this Act may be used to conduct, or to implement the results of, a competition under Office of Management and Budget Circular A–76 for activities performed with respect to the Coast Guard National Vessel Documentation Center.

SEC. 532. The Secretary of Homeland Security shall require that all contracts of the Department of Homeland Security that provide award fees link such fees to successful acquisition outcomes (which outcomes shall be specified in terms of cost, schedule, and performance).

SEC. 533. None of the funds made available to the Office of the Secretary and Executive Management under this Act may be expended for any new hires by the Department of Homeland Security that are not verified through the basic pilot program under section 401 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note).

SEC. 534. None of the funds made available in this Act for U.S. Customs and Border Protection may be used to prevent an individual not in the business of importing a prescription drug (within the meaning of section 801(g) of the Federal Food, Drug, and Cosmetic Act) from importing a prescription drug from Canada that complies with the Federal Food, Drug, and Cosmetic Act: *Provided*, That this section shall apply only to individuals transporting on their person a personal-use quantity of the prescription drug, not to exceed a 90-day supply: *Provided further*, That the prescription drug may not be—

(1) a controlled substance, as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802); or

(2) a biological product, as defined in section 351 of the Public Health Service Act (42 U.S.C. 262).

SEC. 535. None of the funds made available in this Act may be used by the Secretary of Homeland Security or any delegate of the Secretary to issue any rule or regulation which implements the Notice of Proposed Rulemaking related to Petitions for Aliens To Perform Temporary Nonagricultural Services or Labor (H–2B) set out beginning on 70 Fed. Reg. 3984 (January 27, 2005).

SEC. 536. Section 537 of the Department of Homeland Security Appropriations Act, 2009 (division D of Public Law 110–329; 122 Stat. 3682) shall apply with respect to funds made available in this Act in the same manner as such sections applied to funds made available in that Act.

SEC. 537. None of the funds made available in this Act may be used for planning, testing, piloting, or developing a national identification card.

SEC. 538. (a) Notwithstanding any other provision of this Act, except as provided in subsection (b), and 30 days after the date that the President determines whether to declare a major disaster because of an event and any appeal is completed, the Administrator shall submit to the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on Homeland Security of the House of Representatives, the Committee on Transportation and Infrastructure of the House of Representatives, the Committees on Appropriations of the Senate and the House of Representatives, and publish on the website of the Federal Emergency Management Agency, a report regarding that decision, which shall summarize damage assessment information used to determine whether to declare a major disaster.

(b) The Administrator may redact from a report under subsection (a) any data that the Administrator determines would compromise national security.

(c) In this section—

(1) the term ''Administrator'' means the Administrator of the Federal Emergency Management Agency; and

(2) the term ''major disaster'' has the meaning given that term in section 102 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122).

SEC. 539. Notwithstanding any other provision of law, should the Secretary of Homeland Security determine that the National Bio and Agro-defense Facility be located at a site other than Plum Island, New York, the Secretary shall have the Administrator of General Services sell through public sale all real and related personal property and transportation assets which support Plum Island operations, subject to such terms and conditions as necessary to protect government interests and meet program requirements: *Provided*, That the gross proceeds of such sale shall be deposited as offsetting collections into the Department of Homeland Security Science and Technology ''Research, Development, Acquisition, and Operations'' account and, subject to appropriation, shall be available until expended, for site acquisition, construction, and costs related to the construction of the National Bio and Agro-defense Facility, including the costs associated with the sale, including due diligence requirements, necessary environmental remediation at Plum Island, and reimbursement of expenses incurred by the General Services Administration which shall not exceed 1 percent of the sale price or $5,000,000, whichever is greater: *Provided further*, That after the completion of construction and environmental remediation, the unexpended balances of funds appropriated for costs in the preceding proviso shall be available for transfer to the appropriate account for design and construction of a consolidated Department of Homeland Security Headquarters project, excluding daily operations and maintenance costs, notwithstanding section 503 of this Act, and the Committees on Appropriations of the Senate and the House of Representatives shall be notified 15 days prior to such transfer.

SEC. 540. Any official that is required by this Act to report or certify to the Committees on Appropriations of the Senate and the House of Representatives may not delegate such authority to perform that act unless specifically authorized herein.

SEC. 541. The Secretary of Homeland Security, in consultation with the Secretary of the Treasury, shall notify the Committees on Appropriations of the Senate and the House of Representatives of any proposed transfers of funds available under 31 U.S.C. 9703.2(g)(4)(B) from the Department of the Treasury Forfeiture Fund to any agency within the Department of Homeland Security.

SEC. 542. (a) Not later than 3 months from the date of enactment of this Act, the Secretary of Homeland Security shall consult with the Secretaries of Defense and Transportation and develop a concept of operations for unmanned aerial systems in the United States national airspace system for the purposes of border and maritime security operations.

(b) The Secretary of Homeland Security shall report to the Committees on Appropriations of the Senate and the House of Representatives not later than 30 days after the date of enactment of this Act on any foreseeable challenges to complying with subsection (a).

SEC. 543. If the Assistant Secretary of Homeland Security (Transportation Security Administration) determines that an airport does not need to participate in the basic pilot program, the Assistant Secretary shall certify to the Committees on Appropriations of the Senate and the House of Representatives that no security risks will result by such non-participation.

SEC. 544. For fiscal year 2010 and thereafter, the Secretary may provide to personnel appointed or assigned to serve abroad, allowances and benefits similar to those provided under chapter 9 of title I of the Foreign Service Act of 1990 (22 U.S.C. 4081 et seq.).

SEC. 545. Sections 143 and 144 of division A of the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009 (Public Law 110–329; 122 Stat. 3580 et seq.), as amended by section 101 of division J of Public Law 111–8, are further amended by striking ''September 30, 2009'' and inserting ''September 30, 2012''.

SEC. 546. Notwithstanding any other provision of law, should the Secretary of Homeland Security determine that specific U.S. Immigration and Customs Enforcement Service Processing Centers, or other U.S. Immigration and Customs Enforcement owned detention facilities, no longer meet the mission need, the Secretary is authorized to dispose of individual Service Processing Centers, or other U.S. Immigration and Customs Enforcement owned detention facilities, by

directing the Administrator of General Services to sell all real and related personal property which support Service Processing Centers, or other U.S. Immigration and Customs Enforcement owned detention facilities, operations, subject to such terms and conditions as necessary to protect government interests and meet program requirements: *Provided*, That the proceeds, net of the costs of sale incurred by the General Services Administration and U.S. Immigration and Customs Enforcement shall be deposited as offsetting collections into a separate account that shall be available, subject to appropriation, until expended for other real property capital asset needs of existing U.S. Immigration and Customs Enforcement assets, excluding daily operations and maintenance costs, as the Secretary deems appropriate.

SEC. 547. Section 550 of Public Law 109–295 is amended in subsection (b) by deleting from the last proviso ''three years after the date of enactment of this Act'' and inserting in lieu thereof ''October 4, 2010''.

SEC. 548. For fiscal year 2010 and thereafter, the Secretary of Homeland Security may collect fees from any non-Federal participant in a conference, seminar, exhibition, symposium, or similar meeting conducted by the Department of Homeland Security in advance of the conference, either directly or by contract, and those fees shall be credited to the appropriation or account from which the costs of the conference, seminar, exhibition, symposium, or similar meeting are paid and shall be available to pay the costs of the Department of Homeland Security with respect to the conference or to reimburse the Department for costs incurred with respect to the conference: *Provided*, That in the event the total amount of fees collected with respect to a conference exceeds the actual costs of the Department of Homeland Security with respect to the conference, the amount of such excess shall be deposited into the Treasury as miscellaneous receipts: *Provided further*, That the Secretary shall provide a report to the Committees on Appropriations of the Senate and the House of Representatives not later than January 5, 2011, providing the level of collections and a summary by agency of the purposes and levels of expenditures for the prior fiscal year, and shall report annually thereafter.

SEC. 549. For purposes of section 210C of the Homeland Security Act of 2002 (6 U.S.C. 124j) a rural area shall also include any area that is located in a metropolitan statistical area and a county, borough, parish, or area under the jurisdiction of an Indian tribe with a population of not more than 50,000.

SEC. 550. From the unobligated balances of prior year appropriations made available for ''Analysis and Operations'', $5,000,000 are rescinded.

SEC. 551. From the unobligated balances of prior year appropriations made available for U.S. Immigration and Customs Enforcement ''Construction'', $7,000,000 are rescinded.

SEC. 552. From the unobligated balances of prior year appropriations made available for National Protection and Programs Directorate ''Infrastructure Protection and Information Security'', $8,000,000 are rescinded.

SEC. 553. From the unobligated balances of prior year appropriations made available for Science and Technology ''Research, Development, Acquisition, and Operations'', $7,500,000 are rescinded.

SEC. 554. From the unobligated balances of prior year appropriations made available for Domestic Nuclear Detection Office ''Research, Development, and Operations'', $8,000,000 are rescinded.

SEC. 555. (a) Subject to subsection (b), none of the funds appropriated or otherwise made available by this Act may be available to operate the Loran-C signal after January 4, 2010.

(b) The limitation in subsection (a) shall take effect only if the Commandant of the Coast Guard certifies that—

(1) the termination of the operation of the Loran-C signal as of the date specified in subsection (a) will not adversely impact the safety of maritime navigation; and

(2) the Loran-C system infrastructure is not needed as a backup to the Global Positioning System or any other Federal navigation requirement.

(c) If the Commandant makes the certification described in subsection (b), the Coast Guard shall, commencing January 4, 2010, terminate the operation of the Loran-C signal and commence a phased decommissioning of the Loran-C system infrastructure.

(d) Not later than 30 days after such certification pursuant to subsection (b), the Commandant shall submit to the Committees on Appropriations of the Senate and House of Representatives a report setting forth a proposed schedule for the phased decommissioning of the Loran-C system infrastructure in the event of the decommissioning of such infrastructure in accordance to subsection (c).

(e) If the Commandant makes the certification described in subsection (b), the Secretary of Homeland Security, acting through the Commandant of the Coast Guard, may, notwithstanding any other provision of law, sell any real and personal property under the administrative control of the Coast Guard and used for the Loran system, by directing the Administrator of General Services to sell such real and personal property, subject to such terms and conditions that the Secretary believes to be necessary to protect government interests and program requirements of the Coast Guard: *Provided*, That the proceeds, less the costs of sale incurred by the General Services Administration, shall be deposited as offsetting collections into the Coast Guard ''Environmental Compliance and Restoration'' account and, subject to appropriation, shall be available until expended for environmental compliance and restoration purposes associated with the Loran system, for the demolition of improvements on such real property, and for the costs associated with the sale of such real and personal property, including due diligence requirements, necessary environmental remediation, and reimbursement of expenses incurred by the General Services Administration: *Provided further*, That after the completion of such activities, the unexpended balances shall be available for any other environmental compliance and restoration activities of the Coast Guard.

This Act may be cited as the ''Department of Homeland Security Appropriations Act, 2010''.

SA 1374. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 77, between lines 16 and 17, insert the following:

SEC. 556. None of the funds made available in this Act may be used in contravention of section 505 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1623).

SA 1375. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 77, between lines 16 and 17, insert the following:

SEC. 556. None of the amounts made available under this Act may be used to—

(1) amend, rewrite, or change the final rule requiring Federal Contractors to use E-Verify (promulgated on November 14, 2008);

(2) further delay the implementation of the rule described in paragraph (1) beyond September 8, 2009; or

(3) amend, rewrite, change, or delay the implementation of the final rule describing the process for employers to follow after receiving a ''no match'' letter in order to qualify for ''safe harbor'' status (promulgated on August 15, 2007).

SA 1376. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 34, line 6, strike ''$23,000,000'' and all that follows through ''Hawaii;'' on line 21.

SA 1377. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 22, beginning on line 5, strike '': *Provided*,'' and all that follows through ''Iowa'' on line 7.

SA 1378. On page 48, line 1, strike ''*Provided further*,'' and all that follows through ''Exercises:'' on line 3.

SA 1398. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 77, between lines 16 and 17, insert the following:

SEC. 556. NATIONAL INFRASTRUCTURE SIMULATION AND ANALYSIS CENTER.

The amount appropriated for the National Infrastructure Simulation and Analysis Center under the heading ''INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY'' under the heading ''NATIONAL PROTECTION AND PROGRAMS DIRECTORATE'' under title III of this Act is reduced by $4,000,000.

SA 1399. Mr. DEMINT proposed an amendment to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. ___. BORDER FENCE COMPLETION.

(a) MINIMUM REQUIREMENTS.—Section 102(b)(1) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1103 note) is amended—

(1) in subparagraph (A), by adding at the end the following: ''Fencing that does not effectively restrain pedestrian traffic (such as vehicle barriers and virtual fencing) may not be used to meet the 700-mile fence requirement under this subparagraph.'';

(2) in subparagraph (B)—

(A) in clause (i), by striking ''and'' at the end;

(B) in clause (ii), by striking the period at the end and inserting ''; and''; and

(C) by adding at the end the following:

''(iii) not later than December 31, 2010, complete the construction of all the reinforced fencing and the installation of the related equipment described in subparagraph (A).''; and

(3) in subparagraph (C), by adding at the end the following:

''(iii) FUNDING NOT CONTINGENT ON CONSULTATION.—Amounts appropriated to carry out this paragraph may not be impounded or otherwise withheld for failure to fully comply with the consultation requirement under clause (i).''.

(b) REPORT.—Not later than September 30, 2009, the Secretary of Homeland Security shall submit a report to Congress that describes—

(1) the progress made in completing the reinforced fencing required under section 102(b)(1) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1103 note), as amended by this Act; and

(2) the plans for completing such fencing before December 31, 2010.

SA 1400. Mr. MCCAIN proposed an amendment to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; as follows:

On page 31, line 19, strike all through page 32, line 3, and insert the following:

(6) $350,000,000 shall be for Public Transportation Security Assistance and Railroad Security Assistance under sections 1406 and 1513 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (Public Law 110-53; 6 U.S.C. 1135 and 1163), of which not less than $25,000,000 shall be for Amtrak security.

SA 1401. Mr. ROCKEFELLER submitted an amendment intended to be proposed by him to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SECTION ___. MARITIME TRANSPORTATION SECURITY INFORMATION.

(a) SHORT TITLE.—This section may be cited as the ''American Communities'' Right to Public Information Act''.

(b) IN GENERAL.—Section 70103(d) of title 46, United States Code, is amended to read as follows:

''(d) NONDISCLOSURE OF INFORMATION.—

''(1) IN GENERAL.—Information developed under this chapter is not required to be disclosed to the public, including—

''(A) facility security plans, vessel security plans, and port vulnerability assessments; and

''(B) other information related to security plans, procedures, or programs for vessels or facilities authorized under this chapter.

''(2) LIMITATIONS.—Nothing in paragraph (1) shall be construed to authorize the designation of information as sensitive security information (as defined in section 1520.5 of title 49, Code of Federal Regulations)—

''(A) to conceal a violation of law, inefficiency, or administrative error;

''(B) to prevent embarrassment to a person, organization, or agency;

''(C) to restrain competition; or

''(D) to prevent or delay the release of information that does not require protection in the interest of transportation security, including basic scientific research information not clearly related to transportation security.''.

(c) CONFORMING AMENDMENTS.—

(1) Section 114(r) of title 49, United States Code, is amended by adding at the end thereof the following:

''(4) LIMITATIONS.—Nothing in this subsection, or any other provision of law, shall be construed to authorize the designation of information as sensitive security information (as defined in section 1520.5 of title 49, Code of Federal Regulations)

''(A) to conceal a violation of law, inefficiency, or administrative error;

''(B) to prevent embarrassment to a person, organization, or agency;

''(C) to restrain competition; or

''(D) to prevent or delay the release of information that does not require protection in the interest of transportation security, including basic scientific research information not clearly related to transportation security.''.

(2) Section 40119(b) of title 49, United States Code, is amended by adding at the end thereof the following:

''(3) Nothing in paragraph (1) shall be construed to authorize the designation of information as sensitive security information (as defined in section 15.5 of title 49, Code of Federal Regulations)—

''(A) to conceal a violation of law, inefficiency, or administrative error;

''(B) to prevent embarrassment to a person, organization, or agency;

''(C) to restrain competition; or

''(D) to prevent or delay the release of information that does not require protection in the interest of transportation security, including basic scientific research information not clearly related to transportation security.''.

SA 1402. Mr. FEINGOLD (for himself and Mr. MCCAIN) submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 32, strike line 19 and all that follows through page 33, line 22, and insert the following:

Assistance Act (42 U.S.C. 5196c), which shall be awarded on a competitive basis: *Provided*, That the Administrator of the Federal Emergency Management Agency shall award financial assistance using amounts made available under the heading ''NATIONAL PREDISASTER MITIGATION FUND'' under the heading ''FEDERAL EMERGENCY MANAGEMENT AGENCY'' under this title—

(A) in accordance with section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5133); and

(B) without regard to any congressionally directed spending item (as defined in rule XLIV of the Standing Rules of the Senate) or any congressional earmark (as defined in rule XXI of the Rules of the House of Representatives) in a committee report or joint explanatory statement relating to this Act.

SA 1403. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr.

INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 9, lines 15 and 16, strike '', of which $39,700,000 shall be for the Advanced Training Center''.

On page 17, line 10, strike ''; and of'' and all that follows through ''facility'' on line 15.

On page 19, lines 9 and 10, strike '', including not less than'' and all that follows through ''Harbor'' on line 11.

On page 75, strike line 15 and all that follows through page 77, line 16, and insert the following:

SEC. 555. NATIONAL INFRASTRUCTURE SIMULATION AND ANALYSIS CENTER.

The amount appropriated for the National Infrastructure Simulation and Analysis Center under the heading ''INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY'' under the heading ''NATIONAL PROTECTION AND PROGRAMS DIRECTORATE'' under title III of this Act is reduced by $4,000,000.

SA 1404. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1375 submitted by Mr. VITTER and intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 9, lines 15 and 16, strike '', of which $39,700,000 shall be for the Advanced Training Center''.

On page 17, line 10, strike ''; and of'' and all that follows through ''facility'' on line 15.

On page 19, lines 9 and 10, strike '', including not less than'' and all that follows through ''Harbor'' on line 12.

On page 22, line 5, strike '': *Provided,*'' and all that follows through ''Iowa'' on line 7.

On page 32, line 19, strike '', of which no less'' and all that follows through ''Arkansas'' on page 33, line 22.

On page 33, line 25, strike ''which—'' and all that follows through page 34, line 24, and insert ''which, $164,500,000 is for purposes of training in accordance with section 1204 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (6 U.S.C. 1102), of which $62,500,000 shall be for the Center for Domestic Preparedness:''.

On page 47, line 23, strike ''That'' and all that follows through ''*Provided further,*'' on page 48, line 3.

On page 48, lines 5 and 6, strike ''*Provided further,*'' and all that follows through ''Initiative:'' on line 8.

On page 77, between lines 16 and 17, insert the following:

SEC. 556. NATIONAL INFRASTRUCTURE SIMULATION AND ANALYSIS CENTER.

The amount appropriated for the National Infrastructure Simulation and Analysis Center under the heading ''INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY'' under the heading ''NATIONAL PROTECTION AND PROGRAMS DIRECTORATE'' under title III of this Act is reduced by $4,000,000.

SA 1405. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 32, line 16, strike all through page 33, line 22.

SA 1406. Mr. MCCAIN submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 75, line 15, strike all through page 77, line 16.

SA 1407. Mr. LEAHY submitted an amendment intended to be proposed to amendment SA 1371 submitted by Mr. SESSIONS to the amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 3, after line 7, add the following:

SEC. 549. Section 610 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1993 (8 U.S.C. 1153 note) is amended—

(1) by striking ''pilot'' each place it appears; and

(2) in subsection (b), by striking ''for 15 years''.

SA 1408. Mr. CORNYN (for himself, Mr. VITTER, Mr. CRAPO, Mr. WYDEN, and Mr. ENZI submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 77, between lines 16 and 17, insert the following:

SEC. 556___. IMPORTATION OF CERTAIN POCKET KNIVES.

(a) IN GENERAL.—No department, agency, or instrumentality of the United States receiving appropriated funds under this Act or any other Act may obligate or expend in any way such funds to pay administrative expenses or the compensation of any officer or employee of the United States to amend, interpret, enforce or promulgate any administrative rule or action which regulates, restricts, or bars from importation any knife under the Act entitled ''An Act to prohibit the introduction, or manufacture for introduction, into interstate commerce of switchblade knives, and for other purposes'' (commonly known as the Federal Switchblade Act) (15 U.S.C. §1241 et seq.), if the knife contains a spring, detent, or other mechanism designed to create a bias toward closure of the blade and that requires exertion applied to the blade by hand, wrist, or arm to overcome the bias toward closure to assist in opening the knife.

(b) REPORT.—Not later than 60 days after the date of the enactment of this Act—

(1) the Secretary of Homeland Security shall submit to the appropriate congressional committees a report that describes the actions taken to ensure the effective implementation of this section; and

(2) shall publish the report in the Federal Register.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect upon enactment of this Act.

SA 1409. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____. REQUIRED PARTICIPATION BY UNITED STATES CONTRACTORS.

Section 402(e) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (Public Law 104–208; 8 U.S.C. 1324a note) is amended—

(1) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(2) by inserting after paragraph (1) the following:

''(2) UNITED STATES CONTRACTORS.—Any person, employer, or other entity that enters into a contract with the Federal Government shall participate in the E-Verify Program and shall comply with the terms and conditions of such election.''.

SA 1410. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____. REVERIFICATION.

Section 403(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (Public Law 104–208; 8 U.S.C. 1324a note) is amended by adding at the end the following:

''(5) REVERIFICATION.—Each employer participating in the E-Verify Program shall use the confirmation system to reverify the work authorization of any individual not later than 3 days after the date on which such individual's employment authorization is scheduled to expire, as indicated by the documents that the individual provided to the employer pursuant to section 274A(b) of the Immigration and Nationality Act (8 U.S.C. 1324a(b)), in accordance with the procedures otherwise applicable to the verification of a newly hired employee under this subsection.''.

SA 1411. Mr. LAUTENBERG submitted an amendment intended to be proposed to amendment SA 1373 proposed by Mr. REID (for Mr. BYRD (for himself, Mr. INOUYE, and Mrs. MURRAY)) to the bill H.R. 2892, making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC.__. None of the funds in this Act provided for Railroad Security Assistance under section 1513 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (Public Law 110–53) shall require a cost share.

NOTICES OF HEARINGS

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before Committee on Energy and Natural Resources Subcommittee on National Parks.

The hearing will be held on Wednesday, July 15, 2009, at 2:30 p.m. in room SD–366 of the Dirksen Senate Office Building.

The purpose of the hearing is to receive testimony on the following bills:

S. 227, to establish the Harriet Tubman National Historical Park in Auburn, New York, and the Harriet Tubman Underground Railroad National Historical Park in Caroline, Dorchester, and Talbot Counties, Maryland, and for other purposes;

S. 625, to authorize the Secretary of the Interior to establish the Waco Mammoth National Monument in the State of Texas;

S. 853, to designate additional segments and tributaries of White Clay Creek, in the States of Delaware and Pennsylvania, as a component of the National Wild and Scenic Rivers System;

S. 1053, to amend the National Law Enforcement Museum Act to extend the termination date;

S. 1117, to authorize the Secretary of the Interior to provide assistance in implementing cultural heritage, conservation, and recreational activities in the Connecticut River watershed of the States of New Hampshire and Vermont;

S. 1168 and H.R. 1694, to authorize the acquisition and protection of nationally significant battlefields and associated sites of the Revolutionary War and the War of 1812 under the American Battlefield Protection Program; and

H.R. 714, to authorize the Secretary of the Interior to lease certain lands in Virgin Islands National Park, and for other purposes.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510–6150, or by email to *anna_fox@energy.senate.gov*.

For further information, please contact David Brooks at (202) 224–9863 or Anna Fox at (202) 224–1219.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN: Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before the Committee on Energy and Natural Resources.

The hearing will be held on Tuesday, July 21, 2008, at 10 a.m., in room SD–366 of the Dirksen Senate Office Building.

The purpose of the hearing is to consider the preparedness of Federal land management agencies for the 2009 wildfire season and to receive testimony on S. 561 and H.R. 1404, the Federal Land Assistance, Management and Enhancement Act.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510–6150, or by e-mail to *anna_fox@energy.senate.gov*.

For further information, please contact Anna Fox at (202) 224–1219 or Scott Miller at 202–2245488.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 10 a.m. in room 328A of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ARMED FORCES

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 9:30 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 9:30 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on Tuesday, July 7, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 10 a.m. in room 406 of the Dirksen Senate Office Building to hold a hearing entitled, ''Moving America toward a Clean Energy Economy and Reducing Global Warming Pollution: Legislative Tools.''

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 2:15 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 3 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 10 a.m., in room 325 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON ANTITRUST, COMPETITION POLICY, AND CONSUMER RIGHTS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on the Judiciary, Subcommittee on Antitrust, Competition Policy, and Consumer Rights, be authorized to meet during the session of the Senate, on July 7, 2009, at 2:30 p.m., in room SD–226 of the Dirksen Senate Office Building, to conduct a hearing entitled ''The Bowl Championship Series: Is it Fair and In Compliance with Antitrust Law?''

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON FEDERAL FINANCIAL MANAGEMENT, GOVERNMENT INFORMATION, FEDERAL SERVICES, AND INTERNATIONAL SECURITY

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs' Subcommittee on Federal Financial Management, Government Information, Federal Services, and International Security be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 2:30 p.m., to conduct a hearing entitled, ''From Strategy to Implementation: Strengthening U.S.-Pakistan Relations.''

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON OCEANS, ATMOSPHERE, FISHERIES, AND COAST GUARD

Mr. DURBIN. Mr. President, I ask unanimous consent that the Subcommittee on Oceans, Atmosphere, Fisheries, and Coast Guard of the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Tuesday, July 7, 2009, at 9:30 a.m., in room 253 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. DURBIN. I ask unanimous consent that Arex Avanni, a detailee from the Coast Guard to the Homeland Security Subcommittee, be granted the privilege of the floor during debate on the pending legislation, the fiscal year 2010 Department of Homeland Security Appropriations bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. VOINOVICH. I ask unanimous consent that Carol Cribbs on the Appropriations Committee staff be granted the privilege of the floor during the consideration of the fiscal year 2010 Homeland Security Appropriations bill and any votes in relation thereto.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARDIN. Mr. President, I ask unanimous consent that Tara Magner, a consultant on the staff of Senator LEAHY's Judiciary Committee staff, be granted the privileges of the floor for the remainder of this work period, until August 8, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNIZING THE NATIONAL EYE INSTITUTE AND SUPPORTING THE DECADE OF VISION

Mr. BROWN. Mr. President, I ask unanimous consent the Senate now proceed to the immediate consideration of S. Res. 209, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 209) recognizing the 40th anniversary of the National Eye Institute and expressing support of the designation of the years 2011 through 2020 as the ''Decade of Vision.''

There being no objection, the Senate proceeded to consider the resolution.

Mr. BROWN. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be laid on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 209) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 209

Whereas vision impairment and eye disease are major public health problems, especially due to the aging of the population;

Whereas there is a disproportionate incidence of eye disease in minority populations;

Whereas vision loss as a result of diabetes and other chronic diseases costs the people of the United States $68,000,000,000 each year in health care expenses, lost productivity, reduced independence, diminished quality of life, increased depression, and accelerated mortality;

Whereas approximately 38,000,000 people in the United States over 40 years of age currently experience blindness, low-vision, or an age-related eye disease, and this number is expected to grow to 50,000,000 by 2020, as the tidal wave of approximately 78,000,000 baby boomers who will begin to reach 65 years of age in 2010, many of whom will continue working well beyond age 65, crashes;

Whereas, in public opinion polls conducted during the past 40 years, people in the United States have consistently identified fear of vision loss as second only to fear of cancer, and, as recently as 2008, a study by the National Eye Institute showed that 71 percent of respondents indicated that a loss of eyesight would have the greatest impact on their life;

Whereas, with wisdom and foresight, Congress passed an Act entitled ''An Act to amend the Public Health Service Act to provide for the establishment of a National Eye Institute in the National Institutes of Health'' (Public Law 90–489; 82 Stat. 771), which was signed into law by President Johnson on August 16, 1968;

Whereas the National Eye Institute (in this resolution referred to as the ''NEI'') held the first meeting of the National Advisory Eye Council on April 3, 1969;

Whereas the NEI leads the Federal commitment to basic and clinical research, research training, and other programs with respect to blinding eye diseases, visual disorders, mechanisms of visual function, preservation of sight, and the special health problems and needs of individuals who are visually-impaired or blind;

Whereas the NEI disseminates information aimed at the prevention of blindness, specifically through public and professional education facilitated by the National Eye Health Education Program;

Whereas the NEI maximizes Federal funding by devoting 85 percent of its budget to extramural research that addresses a wide variety of eye and vision disorders, including ''back of the eye'' retinal and optic nerve disease, such as age-related macular degeneration, glaucoma, and diabetic retinopathy, and concomitant low vision, and ''front of the eye'' disease, including corneal, lens, cataract, and refractive errors;

Whereas research by the NEI benefits children, including premature infants born with retinopathy and school children with amblyopia (commonly known as ''lazy eye'');

Whereas the NEI benefits older people in the United States by predicting, preventing, and preempting aging eye disease, thereby enabling more productive lives and reducing Medicare costs;

Whereas the NEI has been a leader in basic research, working with the Human Genome Project of the National Institutes of Health to translate discoveries of genes related to eye disease and vision impairment, which make up ¼ of genes discovered to date, into diagnostic and treatment modalities;

Whereas the NEI has been a leader in clinical research, funding more than 60 clinical trials (including a series of Diabetic Retinopathy Clinical Trials Networks, in association with the National Institute for Diabetes and Digestive and Kidney Disorders) which have developed treatment strategies that have been determined by the NEI to be 90 percent effective and to save an estimated $1,600,000,000 each year in blindness and vision impairment disability costs;

Whereas the NEI has been a leader in prevention research, having reported from the first phase of its Age-Related Eye Disease Study that high levels of dietary zinc and anti-oxidant vitamins reduced vision loss in individuals at high risk for developing advanced age-related macular degeneration by 25 percent, and, in the second phase of Age-Related Eye Disease Study, studying the impact of other nutritional supplements;

Whereas the NEI has been a leader in epidemiologic research, identifying the basis and progression of eye disease and the disproportionate incidence of eye disease in minority populations, so that informed public health policy decisions can be made regarding prevention, early diagnosis, and treatment;

Whereas the NEI has been a leader in collaborative research across the National Institutes of Health, working with the National Cancer Institute and the National Heart, Lung, and Blood Institute to identify factors that promote or inhibit new blood vessel growth, which has resulted in the first generation of ophthalmic drugs approved by the Food and Drug Administration to inhibit abnormal blood vessel growth in the form of age-related macular degeneration commonly known as the ''wet'' form of age-related macular degeneration, thereby stabilizing, and often restoring, vision;

Whereas the NEI has been a leader in collaborative research with other Federal entities, and its bioengineering research partnership with the National Science Foundation and the Department of Energy has resulted in a retinal chip implant, referred to as the ''Bionic Eye'', that has enabled individuals who have been blind for decades to perceive visual images;

Whereas the NEI has been a leader in collaborative research with private funding entities, and its human gene therapy trial with the Foundation Fighting Blindness for individuals with Leber Congenital Amaurosis, a rapid retinal degeneration that blinds infants in their first year of life, has demonstrated measurable vision improvement even within the initial safety trials;

Whereas, from 2011 through 2020, the people of the United States will face unprecedented public health challenges associated with aging, health disparities, and chronic disease; and

Whereas Federal support by the NEI and related agencies within the Department of Health and Human Services is essential for prevention, early detection, access to treatment and rehabilitation, and research associated with vision impairment and eye disease: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes the 40th anniversary of the NEI, commends the NEI for its leadership, and supports the mission of the NEI to prevent blindness and to save and restore vision;

(2) supports the designation of the years 2011 through 2020 as the ''Decade of Vision'', to—

(A) maintain a sustained awareness of the unprecedented public health challenges associated with vision impairment and eye disease; and

(B) emphasize the need for Federal support for prevention, early detection, access to treatment and rehabilitation, and research; and

(3) commends the National Alliance for Eye and Vision Research, also known as the ''Friends of the National Eye Institute'', for its efforts to expand awareness of the incidence and economic burden of eye disease through its Decade of Vision 2011–2020 Initiative.

ORDERS FOR WEDNESDAY, JULY 8, 2009

Mr. BROWN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. tomorrow, July 8; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and there be a period of morning business for 1 hour with the time equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first half and the majority controlling the final half, with Senators permitted to speak for up to 10 minutes each; further, following morning business, the Senate resume consideration of H.R. 2892, the Homeland Security appropriations bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. BROWN. Mr. President, tomorrow we will resume consideration of the Homeland Security appropriations bill. Under the previous order, there will be two votes tomorrow morning around 10:40 a.m. in relation to two amendments: Sessions No. 1371 and DeMint No. 1399. As we continue working on the Homeland Security appropriations bill, additional votes are possible throughout the day.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. BROWN. If there is no further business to come before the Senate, I ask unanimous consent the Senate adjourn under the previous order.

There being no objection, the Senate, at 7:06 p.m., adjourned until Wednesday, July 8, 2009, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate:

DEPARTMENT OF TRANSPORTATION

SUSAN L. KURLAND, OF ILLINOIS, TO BE AN ASSISTANT SECRETARY OF TRANSPORTATION, VICE ANDREW B. STEINBERG.

DEPARTMENT OF STATE

MATTHEW WINTHROP BARZUN, OF KENTUCKY, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO SWEDEN.

WILLIAM CARLTON EACHO, III, OF MARYLAND, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF AUSTRIA.

FAY HARTOG-LEVIN, OF ILLINOIS, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE KINGDOM OF THE NETHERLANDS.

PATRICIA NEWTON MOLLER, OF ARKANSAS, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF MINISTER-COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF GUINEA.

MICHAEL H. POSNER, OF NEW YORK, TO BE ASSISTANT SECRETARY OF STATE FOR DEMOCRACY, HUMAN RIGHTS, AND LABOR, VICE DAVID J. KRAMER, RESIGNED.

STEPHEN J. RAPP, OF IOWA, TO BE AMBASSADOR AT LARGE FOR WAR CRIMES ISSUES, VICE JOHN CLINT WILLIAMSON, RESIGNED.

DEPARTMENT OF EDUCATION

ALEXA E. POSNY, OF KANSAS, TO BE ASSISTANT SECRETARY FOR SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION, VICE TRACY RALPH JUSTESEN.

DEPARTMENT OF HOMELAND SECURITY

ALEXANDER G. GARZA, OF MISSOURI, TO BE ASSISTANT SECRETARY FOR HEALTH AFFAIRS AND CHIEF MEDICAL OFFICER, DEPARTMENT OF HOMELAND SECURITY, VICE JEFFREY WILLIAM RUNGE.

DEPARTMENT OF DEFENSE

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT AS DEPUTY JUDGE ADVOCATE GENERAL, UNITED STATES ARMY AND FOR APPOINTMENT IN THE UNITED STATES ARMY TO THE GRADE INDICATED WHILE SERVING AS DEPUTY JUDGE ADVOCATE GENERAL, UNITED STATES ARMY TO THE GRADE INDICATED IN ACCORDANCE WITH TITLE 10, U.S.C., SECTIONS 3037, 3064, AND 624:

To be major general

BRIG. GEN. CLYDE J. TATE II

HOUSE OF REPRESENTATIVES—*Tuesday, July 7, 2009*

The House met at 2 p.m. and was called to order by the Speaker pro tempore (Mr. CUELLAR).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
July 7, 2009.

I hereby appoint the Honorable HENRY CUELLAR to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

O God, our Source of life, liberty, and everlasting happiness, our weekend celebration of this Nation's Independence Day was filled with parades; religious services; family events; and a wonderful Capitol concert of music, song, and fireworks on the West Lawn of this Capitol building.

Citizens of this land of promise were inspired to rededicate themselves to Your service and to work for the justice and freedom of all Your people.

Called to be representative of the people, Congress must stand together to solidify the Nation's security and meet fiscal responsibilities of our day.

Give all Your grace, prudence, and perseverance to address the needs of our times.

We make our prayer with gracious humility and deepened faith in the power of Your Holy Name, and Your Kingdom come both now and forever. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from South Carolina (Mr. WILSON) come forward and lead the House in the Pledge of Allegiance.

Mr. WILSON of South Carolina led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ADMINISTRATION MISREAD HISTORY

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, Vice President JOE BIDEN recently admitted that the Obama administration misread the economy when drafting their nearly trillion dollar spending bill. Meanwhile, the American people have long known, and House Republicans have long argued, that this administration actually misread history when putting together their massive borrowing bonanza.

Had Democrats followed the example of former Presidents Kennedy and Reagan, they would have implemented the type of broad tax relief for American families and small businesses that has a proven record of stimulating the economy and creating jobs. Today's continued decline in jobs is a symptom of the slow, bureaucratic-driven spending this administration put in place.

Our economy will recover, but small businesses will be far better vehicles of job creation than big government expansion. By saddling future generations with such massive debt while threatening Social Security and encouraging the potential for hyperinflation and higher interest rates, this administration has misread history, misplaced its priorities, and misspent American tax dollars.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

TO DIE OR NOT TO DIE—THAT IS THE GOVERNMENT QUESTION

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, British Government medical ethics advisor Baroness Warnock proclaimed that people who suffer from dementia have a patriotic duty to die. She said: ''The care dementia requires is very expensive and drains the government resources for health care.'' This government decision maker said that people will soon be licensed to put other people down if they are unable to look after themselves. If that wasn't bad enough, she went on to say: ''If you're demented, you're wasting government resources.''

Human beings are a drain on the government; so they need to be put to death? Mr. Speaker, that sounds like a rather sick and demented idea to me.

Government-run medicine like in England puts the government's welfare above the welfare of the people. Government always values itself more than anyone or anything. It's the nature of the beast.

Recently, the President said at a town hall meeting we could save money on health care in America by putting a stop to expensive procedures for people who have been diagnosed with terminal diseases. He said: ''Maybe you're better off not having the surgery, just taking the painkiller.''

Now, is our government going to adopt the English system and determine who lives and who dies? It doesn't sound like a healthy health care plan to me.

And that's just the way it is.

PASS THE COOPER-WOLF SAFE COMMISSION BILL TO SAVE AMERICA'S FUTURE ECONOMY

(Mr. WOLF asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WOLF. Mr. Speaker, our economic house is crumbling. We are being bought piece by piece by China and Saudi Arabia. We owe these and other countries billions. And in a few years, because of this crushing debt and our huge mandated entitlement programs, we will have no money for research to find cures for cancer, Alzheimer's disease, autism, or other diseases. No money for science advances or for education. This Congress cannot abandon the American people and leave our children and grandchildren to shoulder these awful burdens.

There is a way to solve this dilemma. We can pass the bipartisan Cooper-Wolf SAFE Commission bill to save America's future economy.

This Congress, this Congress that we serve in now, is failing, is failing the American people.

ENERGY INDEPENDENCE AND FOSSIL FUELS

(Mr. YOUNG of Alaska asked and was given permission to address the House for 1 minute.)

Mr. YOUNG of Alaska. Mr. Speaker, the week before last we passed the crap-and-trade bill, which is a terrible bill. It's a tax.

Then we celebrated Independence Day. And the week before Independence Day, we became more dependent on foreign countries for our fossil fuels.

We have fossil fuels in the United States, and we need them. Next year we're going to spend $552 billion buying oil from overseas.

I think it's time that this Congress accepts the fact that we have to have fossil fuels for the bridge to the future in order to have the ability to provide power for this country. Let's do the right thing for this Nation.

HEALTH CARE

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, Democrats in Washington are pushing hard for a government takeover of health care. The result will be devastating for patients across the country.

In countries that already have government-run health care, like Britain and Canada, bureaucrats are put in charge of intimate health care decisions and critical care is denied.

Look at the story of one woman from Great Britain, Sarah Anderson. Her father suffers from a kidney tumor that could be treated by a drug approved throughout most of Europe. But, sadly, Britain's National Health Service is denying Sarah's father this lifesaving treatment.

This case is not unique as patients across Great Britain are denied the care they need by the government's health care service. In much of Canada, patients are even banned from paying for private health care.

The Democrats' health care reform would be a bad prescription for the American people.

Republicans have a better health care reform that provides high-quality health care coverage to every American and that doesn't put bureaucrats between patients and the care they need.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

HOUSE OF REPRESENTATIVES,
Washington, DC, July 7, 2009.

Hon. NANCY PELOSI,
The Speaker, The Capitol, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on July 7, 2009, at 10:37 a.m.:

That the Senate passed with an amendment, requests a conference with the House, and appoints conferees, H.R. 2918.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

UTAH RECREATIONAL LAND EXCHANGE ACT OF 2009

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1275) to direct the exchange of certain land in Grand, San Juan, and Uintah Counties, Utah, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1275

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Utah Recreational Land Exchange Act of 2009''.

SEC. 2. DEFINITIONS.

In this Act:

(1) FEDERAL LAND.—The term ''Federal land'' means the land located in Grand, San Juan, and Uintah Counties, Utah, that is identified on the maps as—

(A) ''BLM Subsurface only Proposed for Transfer to State Trust Lands'';

(B) ''BLM Surface only Proposed for Transfer to State Trust Lands''; and

(C) ''BLM Lands Proposed for Transfer to State Trust Lands''.

(2) GRAND COUNTY MAP.—The term ''Grand County Map'' means the map prepared by the Bureau of Land Management entitled ''Utah Recreational Land Exchange Act Grand County'', dated May 14, 2009, and relating to the exchange of Federal land and non-Federal land in Grand and San Juan Counties, Utah.

(3) MAPS.—The term ''maps'' means the Grand County Map and the Uintah County Map.

(4) NON-FEDERAL LAND.—The term ''non-Federal land'' means the land in Grand, San Juan, and Uintah Counties, Utah, that is identified on the maps as—

(A) ''State Trust Land Proposed for Transfer to BLM''; and

(B) ''State Trust Minerals Proposed for Transfer to BLM''.

(5) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

(6) STATE.—The term ''State'' means the State of Utah, as trustee under the Utah State School and Institutional Trust Lands Management Act (Utah Code Ann. 53C–1–101 et seq.).

(7) UINTAH COUNTY MAP.—The term ''Uintah County Map'' means the map prepared by the Bureau of Land Management entitled ''Utah Recreational Land Exchange Act Uintah County'', dated May 14, 2009, and relating to the exchange of Federal land and non-Federal land in Uintah County, Utah.

SEC. 3. EXCHANGE OF LAND.

(a) IN GENERAL.—If the State offers to convey to the United States title to the non-Federal land, the Secretary shall—

(1) accept the offer; and

(2) on receipt of all right, title, and interest of the State in and to the non-Federal land, convey to the State all right, title, and interest of the United States in and to the Federal land.

(b) CONDITIONS.—The exchange authorized under subsection (a) shall be subject to—

(1) valid existing rights;

(2) except as otherwise provided by this section—

(A) section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716); and

(B) any other applicable laws;

(3) all costs of land exchanges under this Act, including but not limited to appraisals, surveys, and related costs, shall be paid equally by the Secretary and the State; and

(4) any additional terms and conditions that the Secretary and the State mutually determine to be appropriate.

(c) TITLE APPROVAL.—Title to the Federal land and non-Federal land to be exchanged under this section shall be in a format acceptable to the Secretary and the State.

(d) APPRAISALS.—

(1) IN GENERAL.—The value of the Federal land and the non-Federal land shall be determined by appraisals conducted by 1 or more independent appraisers selected jointly by the Secretary and the State.

(2) APPLICABLE LAW.—The appraisals conducted under paragraph (1) shall be conducted in accordance with section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716).

(3) APPROVAL.—The appraisals conducted under paragraph (1) shall be submitted to the Secretary and the State for approval.

(4) ADJUSTMENT.—

(A) IN GENERAL.—If value is attributed to any parcel of Federal land because of the presence of minerals subject to leasing under the Mineral Leasing Act (30 U.S.C. 181 et seq.), the value of the parcel (as otherwise established under this subsection) shall be reduced by the estimated value of the payments that would have been made to the State of Utah from bonuses, rentals, and royalties that the United States would have received if such minerals were leased pursuant to the Mineral Leasing Act (30 U.S.C. 181 et seq.).

(B) LIMITATION.—An adjustment under subparagraph (A) shall not be considered as a property right of the State.

(5) AVAILABILITY OF APPRAISALS.—

(A) IN GENERAL.—All final appraisals, appraisal reviews, and determinations of value for land to be exchanged under this section shall be available for public review at the Utah State Office of the Bureau of Land Management at least 30 days before the conveyance of the applicable parcels.

(B) PUBLICATION.—The Secretary or the State, as applicable, shall publish in a newspaper of general circulation in Salt Lake County, Utah, a notice that the appraisals are available for public inspection.

(e) CONVEYANCE OF PARCELS IN PHASES.—

(1) IN GENERAL.—Notwithstanding that appraisals for all of the parcels of Federal land and non-Federal land may not have been approved under subsection (d)(3), parcels of the Federal land and non-Federal land may be exchanged under subsection (a) in 3 phases beginning on the date on which the appraised values of the parcels included in the applicable phase are approved under this subsection.

(2) PHASES.—The 3 phases referred to in paragraph (1) are—

(A) phase 1, consisting of the non-Federal land identified as ''phase one'' land on the Grand County Map;

(B) phase 2, consisting of the non-Federal land identified as ''phase two'' land on the Grand County Map and the Uintah County Map; and

(C) phase 3, consisting of any remaining non-Federal land that is not identified as ''phase

one'' land or ''phase two'' land on the Grand County Map or the Uintah County Map.

(3) NO AGREEMENT ON EXCHANGE.—If agreement has not been reached with respect to the exchange of an individual parcel of Federal land or non-Federal land, the Secretary and the State may agree to set aside the individual parcel to allow the exchange of the other parcels of Federal land and non-Federal land to proceed.

(4) TIMING.—It is the intent of Congress that at least the first phase of the exchange of land authorized by subsection (a) be completed not later than 360 days after the date on which the State makes the Secretary an offer to convey the non-Federal land under that subsection.

(f) RESERVATION OF INTEREST IN OIL SHALE.—

(1) IN GENERAL.—With respect to Federal land that contains oil shale resources, the Secretary shall reserve an interest in the portion of the mineral estate that contains the oil shale resources.

(2) EXTENT OF INTEREST.—The interest reserved by the United States under paragraph (1) shall consist of—

(A) 50 percent of any bonus bid or other payment received by the State as consideration for securing any lease or authorization to develop oil shale resources;

(B) the amount that would have been received by the Federal Government under the applicable royalty rate if the oil shale resources had been retained in Federal ownership; and

(C) 50 percent of any other payment received by the State pursuant to any lease or authorization to develop the oil shale resources.

(3) PAYMENT.—Any amounts due under paragraph (2) shall be paid by the State to the United States not less than quarterly.

(4) NO OBLIGATION TO LEASE.—The State shall not be obligated to lease or otherwise develop oil shale resources in which the United States retains an interest under this subsection.

(5) VALUATION.—Federal land in which the Secretary reserves an interest under this subsection shall be appraised—

(A) without regard to the presence of oil shale; and

(B) in accordance with subsection (d).

(g) WITHDRAWAL OF FEDERAL LAND PRIOR TO EXCHANGE.—Subject to valid existing rights, during the period beginning on the date of enactment of this Act and ending on the earlier of the date that the Federal land is removed from the exchange or the date on which the Federal land is conveyed under this Act, the Federal land is withdrawn from—

(1) disposition (other than disposition under section 4) under the public land laws;

(2) location, entry, and patent under the mining laws; and

(3) the operation of—

(A) the mineral leasing laws;

(B) the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.); and

(C) the first section of the Act of July 31, 1947 (commonly known as the ''Materials Act of 1947'') (30 U.S.C. 601).

(h) APPURTENANT WATER RIGHTS.—Any conveyance of a parcel of Federal land or non-Federal land under this Act shall include the conveyance of water rights appurtenant to the parcel conveyed.

(i) EQUAL VALUE EXCHANGE.—

(1) IN GENERAL.—The value of the Federal land and non-Federal land to be exchanged under this Act—

(A) shall be equal; or

(B) shall be made equal in accordance with paragraph (2).

(2) EQUALIZATION.—

(A) SURPLUS OF FEDERAL LAND.—If the value of the Federal land exceeds the value of the non-Federal land, the value of the Federal land and non-Federal land shall be equalized, as determined to be appropriate and acceptable by the Secretary and the State, by one or more of the following:

(i) By reducing the acreage of the Federal land to be conveyed.

(ii) By adding additional State land to the non-Federal land to be conveyed.

(iii) Consistent with section 206(b) of the Federal Land Policy and Management Act (43 U.S.C. 1716), by cash equalization of not more than 5 percent of the total value of the lands or interests in lands to be transferred out of Federal ownership.

(B) SURPLUS OF NON-FEDERAL LAND.—If the value of the non-Federal land exceeds the value of the Federal land, the value of the Federal land and non-Federal land shall be equalized, as determined to be appropriate and acceptable by the Secretary and the State, by one or both of the following:.

(i) By reducing the acreage of the non-Federal land to be conveyed.

(ii) Consistent with section 206(b) of the Federal Land Policy and Management Act (43 U.S.C. 1716), by cash equalization of not more than 5 percent of the total value of the lands or interests in lands to be transferred out of Federal ownership.

(3) NOTICE AND PUBLIC INSPECTION.—

(A) IN GENERAL.—If the Secretary and the State determine to add or remove land from the exchange, the Secretary or the State shall—

(i) publish in a newspaper of general circulation in Salt Lake County, Utah, a notice that identifies when and where a revised exchange map will be available for public inspection; and

(ii) transmit to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a copy of the revised exchange map.

(B) LIMITATION.—The Secretary and the State shall not add or remove land from the exchange until at least 30 days after the date on which the notice is published under subparagraph (A)(i) and the map is transmitted under subparagraph (A)(ii).

SEC. 4. STATUS AND MANAGEMENT OF LAND AFTER EXCHANGE.

(a) ADMINISTRATION OF NON-FEDERAL LAND.—

(1) IN GENERAL.—Subject to paragraph (2) and in accordance with section 206(c) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716(c)), the non-Federal land acquired by the United States under this Act shall become part of, and be managed as part of, the Federal administrative unit or area in which the land is located.

(2) WITHDRAWAL PARCELS.—Any non-Federal land acquired by the United States under this Act identified on the maps as ''Withdrawal Parcels'' is withdrawn from the operation of the mineral leasing and mineral material disposal laws.

(3) RECEIPTS.—

(A) IN GENERAL.—Any mineral receipts derived from the non-Federal land acquired under this Act shall be paid into the general fund of the Treasury.

(B) APPLICABLE LAW.—Mineral receipts from the non-Federal land acquired under this Act shall not be subject to section 35 of the Mineral Leasing Act (30 U.S.C. 191).

(b) GRAZING PERMITS.—

(1) IN GENERAL.—If land conveyed under this Act is subject to a lease, permit, or contract for the grazing of domestic livestock in effect on the date of acquisition, the Secretary and the State shall allow the grazing to continue for the remainder of the term of the lease, permit, or contract, subject to the related terms and conditions of user agreements, including permitted stocking rates, grazing fee levels, access rights, and ownership and use of range improvements.

(2) RENEWAL.—To the extent allowed by Federal or State law, on expiration of any grazing lease, permit, or contract described in paragraph (1), the holder of the lease, permit, or contract shall be entitled to a preference right to renew the lease, permit, or contract.

(3) CANCELLATION.—

(A) IN GENERAL.—Nothing in this Act prevents the Secretary or the State from canceling or modifying a grazing permit, lease, or contract if the land subject to the permit, lease, or contract is sold, conveyed, transferred, or leased for nongrazing purposes by the Secretary or the State.

(B) LIMITATION.—Except to the extent reasonably necessary to accommodate surface operations in support of mineral development, the Secretary or the State shall not cancel or modify a grazing permit, lease, or contract because the land subject to the permit, lease, or contract has been leased for mineral development.

(4) BASE PROPERTIES.—If land conveyed by the State under this Act is used by a grazing permittee or lessee to meet the base property requirements for a Federal grazing permit or lease, the land shall continue to qualify as a base property for the remaining term of the lease or permit and the term of any renewal or extension of the lease or permit.

(c) HAZARDOUS MATERIALS.—

(1) IN GENERAL.—The Secretary and, as a condition of the exchange, the State shall make available for review and inspection any record relating to hazardous materials on the land to be exchanged under this Act.

(2) COSTS.—The costs of remedial actions relating to hazardous materials on land acquired under this Act shall be paid by those entities responsible for the costs under applicable law.

(d) EASEMENT.—The conveyance of Federal land in sec. 33, T. 4 S., R. 24 E., and sec. 4, T. 5 S., R. 24 E., of the Salt Lake Meridian, shall be subject to a 1,000 foot wide scenic easement and a 200 foot wide road right-of-way previously granted to the National Park Service for the Dinosaur National Monument, as described in Land Withdrawal No. U–0141143, pursuant to the Act of September 8, 1960 (74 Stat. 857,861).

SEC. 5. TERMINATION OF AUTHORITY.

The provisions of this Act shall terminate 5 years after the date of enactment.

SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Alaska (Mr. YOUNG) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I may consume.

Before I go any further, I would like to thank the distinguished gentleman from Alaska, the former chairman of the Natural Resources Committee, for joining me in managing the bills from our committee here today.

Mr. Speaker, H.R. 1275, introduced by our colleague Representative JIM MATHESON, would direct the Secretary of the Interior to enter into a land exchange with the State of Utah for certain lands in Grand, San Juan, and Uintah Counties in Utah.

The legislation authorizes the exchange of approximately 40,000 acres of Federal land and minerals for approximately 42,000 acres of State land and minerals. This exchange would place valuable conservation and recreation lands into public ownership while also benefiting public school funding in Utah.

Many of the lands that the State of Utah is proposing to transfer to the Bureau of Land Management, the BLM, are lands within wilderness study areas, Areas of Critical Environmental Concern, or other sensitive areas. Many of the lands the State would acquire from the BLM have a high potential for development, and the State puts the receipts generated from the use of these lands into a trust fund for public schools in Utah.

So I commend Representative MATHESON for his hard work on, and commitment to advancing, H.R. 1275. Many land exchanges in Utah have been controversial in the past, but by actively working with all the stakeholders affected by this exchange, this bill now enjoys broad support.

So I support H.R. 1275 and I urge its adoption by House today.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

H.R. 1275 authorizes a land exchange that enhances the State of Utah's ability to fund public education. In return for 36,000 acres, the Federal Government will receive 46,000 acres of land that is of a higher conservation value and is believed to be environmentally sensitive.

This legislation passed the House in the 109th and 110th Congresses and is supported by local and State governments, as well as representatives of the outdoor recreational and environmental communities. I believe this is a good bill.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support the bill.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1275, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. FOXX. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

□ 1415

NATIVE AMERICAN IRON WORKER TRAINING PROGRAM

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1129) to authorize the Secretary of the Interior to provide an annual grant to facilitate an iron working training program for Native Americans.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1129

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. IRON WORKING TRAINING PROGRAM FOR NATIVE AMERICANS.

(a) IN GENERAL.—To the extent funds are made available for this purpose, the Secretary of the Interior, acting through the Bureau of Indian Affairs, shall annually provide a grant to an eligible entity to provide an iron working training program for members of federally recognized Indian tribes. An eligible entity that receives a grant under this section shall provide a program that meets the requirements of subsection (b) and may require such other criteria of the program and participants of the program as the eligible entity considers appropriate to further the goals of the program.

(b) REQUIREMENTS.—A program funded by a grant under this section shall—

(1) provide specialized training in iron working skills to adult members of federally recognized Indian tribes;

(2) provide classroom and on-the-job training; and

(3) facilitate job placement for participants upon successful completion of the requirements of the program.

(c) ELIGIBLE ENTITY.—To be eligible for a grant under this section, an entity shall—

(1) have proven experience in providing successful iron working training programs to Native American populations; and

(2) have the facilities necessary to carry out such a program with a grant provided under this section.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Alaska (Mr. YOUNG) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, H.R. 1129 would authorize appropriations for an Interior Department program that makes grants available to fund a Native American ironworker training program. The appropriations for this program have been made for many years, and this program provides both classroom and on-the-job ironwork training for members of federally recognized Indian tribes.

This program would also facilitate job placements for those tribal members who successfully complete the requirements of the program.

With unemployment rates rising to a staggering rate of over 80 percent on some Indian reservations, this program is desperately needed. The ironworker training program provides Native American participants with the knowledge and the ability to join a skilled labor force as a career.

I want to commend our colleague Mr. LYNCH of Massachusetts for his hard work and dedication to this legislation, and I ask my colleagues to support its passage.

I reserve the balance of my time.

Mr. YOUNG of Alaska. I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1129, which will create an ironworking program for Native Americans. The manager for the majority has effectively explained the bill, but I would like to make a few additional comments.

This country is suffering from record unemployment, but few areas are feeling the effects of job loss worse than Indian country. I hope that when Native Americans complete the training available through this program that we're authorizing today in this bill, jobs will be available for them.

Unfortunately, if the Environmental Protection Agency has any say, there will be a lot fewer jobs. One of the first major actions taken by the EPA under the Obama administration was to seek to revoke a key permit issued in 2008 to the Navajo Nation for the construction of a 1,500-megawatt power plant employing the most advanced clean coal technology available today. This is the Desert Rock project.

Navajo Nation President Joe Shirley said that Desert Rock would create ''500 permanent jobs at union wages on a reservation with an unemployment rate hovering around 50 percent.''

This is an example that every community in America should follow, but it's an example lost on the Democrat leadership of this House. I hope my friends on the other side of the aisle consider that job training makes sense only when those jobs are available.

I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield such time as he may consume to the sponsor of this bill, the gentleman from Massachusetts (Mr. LYNCH).

Mr. LYNCH. I thank the gentlelady from Guam for yielding me this time. I also would like to thank our chairman, NICK RAHALL, and Ranking Member

DOC HASTINGS of the Natural Resources Committee for their cooperation in allowing this bill to move forward.

Mr. Speaker, I rise in support of H.R. 1129, legislation to authorize the Secretary of the Interior to provide annual grants for the development of regional ironworker training programs for Native Americans. Notably, an identical version of this legislation passed the House of Representatives under suspension of the rules by the 110th Congress by a vote of 302–72.

Currently, only one ironworker training program that is specifically geared towards Native Americans exists in the United States, and that is the highly successful National Ironworkers Training Program for American Indians based in Broadview, Illinois. The Broadview program has stemmed from a strong and enduring partnership between the Federal Government's Bureau of Indian Affairs and the Ironworkers International Union, one that has lasted over 35 years.

Working in conjunction with the International Association of Bridge, Structural and Ornamental Iron Workers, the Broadview center provides highly specialized training in ironworking skills and related fabricating and welding shop classes and on-the-job education to Native American Indians from across the United States.

Upon completion of the program, each student possesses essential knowledge in union structure and history, OSHA safety regulations and a variety of ironworking skills, including blueprint reading and related math, arc welding and the erection of structural steel. Broadview graduates are subsequently placed as apprentices at local ironworker unions nationwide and, as a result, are afforded the opportunity to pursue productive and high-quality construction careers.

H.R. 1129 will build upon the success of the Broadview, Illinois, program by facilitating the establishment of regional ironworker training centers for Native Americans across the United States through the authorization of annual Interior Department grants. Mr. Speaker, the impetus behind the legislation is to provide occupational training to Native Americans residing in economically depressed communities, to accord them the opportunity to secure good jobs in the ironworking trade and ensure a solid future for themselves and their families.

H.R. 1129 also stems from and expands upon the ironworkers longstanding relationship with the Native American community. As a structural ironworker for 20 years, I have been a member of Iron Workers Local 7 for 30 years, and I am actually past president of that union. I am well aware of a longstanding contribution made by Native Americans to the ironworking industry.

As noted by the Ironworkers International Union and its president, Joe Hunt, Native Americans have been a part of ironworker history since 1886, when the St. Lawrence River was bridged on tribal land in Quebec and ironworkers' foremen first hired Native Americans as ironworkers.

In my own role here, as an ironworker apprentice, I worked under a number of Native American foremen and general foremen. It was a number of Native American journeymen ironworkers who taught me how to weld and gave me a chance at that trade. As an ironworker foreman and a general foreman myself, I had an opportunity to have a lot of young Native American Indians working in my crews, not only in the Boston area, but out in Indiana and Illinois, as well as New Mexico and Arizona.

And I have had a long relationship with members from the Navajo Tribe. I actually lived for a while on the Navajo Reservation, and I count those men and women as some of my closest friends, and I am greatly indebted to them. I also worked with members of the Apache Tribe and Mohawk Tribe in the New England area. This will really, I think, give a wonderful opportunity to Native Americans who have sort of adopted the ironworking industry as a family business. And it was not uncommon for me to be, as a Caucasian, a minority on a lot of the construction sites that I worked on in New Mexico and in other parts of the country where American Indians really provided the majority of the working members on those jobs.

Again, I would like to thank Chairman RAHALL and Ranking Member HASTINGS for their wonderful support on this legislation, also, Member DALE KILDEE, who has also put his shoulder to the wheel on this bill.

I urge my colleagues to join me in supporting H.R. 1129.

Mr. YOUNG of Alaska. I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support this bill.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1129.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms FOXX. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

TULE RIVER TRIBE WATER DEVELOPMENT ACT

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1945) to require the Secretary of the Interior to conduct a study on the feasibility and suitability of constructing a storage reservoir, outlet works, and a delivery system for the Tule River Indian Tribe of the Tule River Reservation in the State of California to provide a water supply for domestic, municipal, industrial, and agricultural purposes, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1945

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Tule River Tribe Water Development Act''.

SEC. 2. WATER SUPPLY FOR TRIBE.

(a) DEFINITIONS.—In this section:

(1) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior, acting through the Commissioner of Reclamation.

(2) TRIBE.—The term ''Tribe'' means the Tule River Indian Tribe of the Tule River Reservation in the State of California.

(b) STUDY AND REPORT ON ALTERNATIVES.—

(1) STUDY.—Not later than 2 years after the date on which funds are made available under paragraph (3), the Secretary shall complete a feasibility study to evaluate alternatives (including alternatives for phase I reservoir storage of a quantity of water of not more than 5,000 acre-feet) for the provision of a domestic, commercial, municipal, industrial, and irrigation water supply for the Tribe.

(2) REPORT.—On completion of the study under subsection (a), the Secretary shall submit to the Committee on Natural Resources of the House of Representatives and the Committees on Energy and Natural Resources and Indian Affairs of the Senate a report describing the results of the study.

(3) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary $3,000,000 to carry out this subsection.

(c) CONDITIONS FOR FUTURE PROJECTS.—

(1) IN GENERAL.—No project constructed relating to the feasibility study under subsection (b) shall provide any water supply for—

(A) the casino of the Tule River Tribe, as in existence on the date of enactment of this Act;

(B) any expansion of that casino;

(C) any other tribal casino; or

(D) any current or future lodging, dining, entertainment, meeting space, parking, or other similar facility in support of a gaming activity.

(2) AVAILABILITY OF WATER SUPPLIES.—A water supply provided by a project constructed relating to the feasibility study under subsection (b) shall be available to serve—

(A) the domestic, municipal, and governmental (including firefighting) needs of the Tribe and members of the Tribe; and

(B) other commercial, agricultural, and industrial needs not related to a gaming activity.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from

Guam (Ms. BORDALLO) and the gentleman from Alaska (Mr. YOUNG) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, the Tule River Water Development Act, sponsored by our colleague from California, Representative DEVIN NUNES, would authorize the Secretary of the Interior, acting through the Bureau of Reclamation, to complete a feasibility study that would evaluate alternatives for a water supply for the Tule River Tribe of the Tule River Tribal Reservation.

The tribe views this study as a very important first step in settling their water right claims. Similar legislation passed the House in the last Congress, and I urge my colleagues to support the passage of H.R. 1945 today.

I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself as much time as I may consume.

This important legislation, introduced by our California colleagues, DEVIN NUNES and JIM COSTA, is the first step towards improving the water supply situation on the Tule River Indian Reservation. This bill authorizes the Bureau of Reclamation to conduct a feasibility study to capture more surface water on the reservation.

Many areas throughout the West, including California, need new water storage to help meet water supply needs for humans, fish and wildlife. This legislation will help the tribe move one step closer to utilizing its water rights. This legislation enjoys universal support from the tribe and nearby communities and is an excellent example of where neighbors have come together for the common good.

I urge my colleagues to support this very bipartisan piece of legislation.

I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support this bill. I have no further speakers.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1945.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. FOXX. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

SUPPORTING NATIONAL MEN'S HEALTH WEEK

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 142) supporting National Men's Health Week.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

H. CON. RES. 142

Whereas despite the advances in medical technology and research, men continue to live an average of almost 6 fewer years than women and African-American men have the lowest life expectancy;

Whereas 9 of the 10 leading causes of death, as defined by the Centers for Disease Control and Prevention, affect men at a higher percentage than women;

Whereas between the ages of 45 and 54, men are 3 times more likely than women to die of heart attacks;

Whereas men die of heart disease at almost twice the rate of women;

Whereas men die of cancer at almost one and a half times the rate of women;

Whereas testicular cancer is one of the most common cancers in men between the ages of 15 and 34, and when detected early, has a 95 percent survival rate;

Whereas the number of cases of colon cancer among men was almost 54,000 in 2008, and almost half of such men died from the disease;

Whereas the likelihood that a man will develop prostate cancer is 1 in 6;

Whereas the number of men contracting prostate cancer reached over 186,000 in 2008, and almost 29,000 of such men died from the disease;

Whereas African-American men in the United States have the highest incidence in the world of prostate cancer;

Whereas significant numbers of male-related health problems, such as prostate cancer, testicular cancer, infertility, and colon cancer, could be detected and treated if men's awareness of these problems was more pervasive;

Whereas more than one-half the elderly widows now living in poverty were not poor before the death of their husbands, and by age 100 women outnumber men 8 to 1;

Whereas educating both the public and health care providers about the importance of early detection of male health problems will result in reducing rates of mortality for these diseases;

Whereas appropriate use of tests such as Prostate Specific Antigen (PSA) exams, blood pressure screens, and cholesterol screens, in conjunction with clinical examination and self-testing for problems such as testicular cancer, can result in the detection of many of these problems in their early stages and increases in the survival rates to nearly 100 percent;

Whereas women are 100 percent more likely to visit the doctor for annual examinations and preventive services than men;

Whereas men are less likely than women to visit their health center or physician for regular screening examinations of male-related problems for a variety of reasons, including fear, lack of health insurance, lack of information, and cost factors;

Whereas National Men's Health Week was established by Congress and first celebrated in 1994 and urged men and their families to engage in appropriate health behaviors, and the resulting increased awareness has improved health-related education and helped prevent illness;

Whereas the Governors of over 45 States issue proclamations annually declaring Men's Health Week in their States;

Whereas since 1994, National Men's Health Week has been celebrated each June by dozens of States, cities, localities, public health departments, health care entities, churches, and community organizations throughout the Nation, that promote health awareness events focused on men and family;

Whereas the National Men's Health Week website has been established at www.menshealthweek.org and features Governors' proclamations and National Men's Health Week events;

Whereas men who are educated about the value that preventive health can play in prolonging their lifespan and their role as productive family members will be more likely to participate in health screenings;

Whereas men and their families are encouraged to increase their awareness of the importance of a healthy lifestyle, regular exercise, and medical checkups; and

Whereas June 15 through 21, 2009, is National Men's Health Week, which has the purpose of heightening the awareness of preventable health problems and encouraging early detection and treatment of disease among men and boys: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) supports the annual National Men's Health Week; and

(2) requests that the President of the United States issue a proclamation calling upon the people of the United States and interested groups to observe National Men's Health Week with appropriate ceremonies and activities.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Mississippi (Mr. HARPER) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

□ 1430

Mr. LYNCH. Mr. Speaker, on behalf of the Committee on Oversight and Government Reform, I present House Concurrent Resolution 142 for consideration. This resolution expresses our support for the goals and ideals of the annual National Men's Health Week,

the observance of which is designed to heighten awareness of preventable health problems and encourage early detection and treatment of disease among men.

Introduced by my colleague, Mr. CUMMINGS of Maryland, on June 3, 2009, and reported out of the Oversight Committee by unanimous consent on June 18, 2009, H. Con. Resolution 142 enjoys strong bipartisan support.

Mr. Speaker, according to the Centers for Disease Control and Prevention, nine of 10 of the leading causes of death in America among men, including heart disease and cancer, affect men at a significantly higher percentage than women. In addition, the CDC has reported that women are 100 percent more likely than men to seek annual medical examinations and preventative health care.

Moreover, health statistics also indicate that, despite advances in medical care, men continue to live an average of approximately 6 fewer years than women—with African American men having the lowest life expectancy.

Nonetheless, many male-related health problems, including prostate cancer, testicular cancer, and colon cancer, are treatable upon early detection. Specifically, the use of prostate cancer-specific antigen exams, blood pressure screenings, and other exams, when coupled with clinical examination and self-testing for testicular cancer, can lead to early detection and increase survival rates to nearly 100 percent.

Accordingly, we must do more to encourage healthy behavior and disease prevention within America's male population. A more concentrated focus on male-related health conditions such as prostate, colon, and testicular cancer, along with a genuine commitment to addressing heart health, will go a long way toward ensuring that men have access to critical health information and treatment.

In addition, it's important to remember that prevention and treatment of men's health conditions are critical not only to men, but also to the health and well-being of the American family; and having just recently celebrated Father's Day, I believe that it is important for this legislative body to recognize men's health from a family perspective.

Furthermore, while an effort to encourage prevention and wellness among the male population can help meet our primary goal of improving health outcomes, in aggregate, utilization of these preventive services can lower health costs that currently are spiraling out of control.

Mr. Speaker, since 1994, National Men's Health Week has served as a catalyst for increased attention towards men's health issues. I strongly urge my colleagues to join me in supporting House Concurrent Resolution 142, recognizing the tremendous importance of these efforts.

I reserve the balance of my time.

Mr. HARPER. I yield myself such time as I may consume.

I rise today in support of H. Con. Res. 142, supporting National Men's Health Week. Since first being signed into law on May 31, 1994, National Men's Health Week has been celebrated all over the Nation during the week leading up to Father's Day as a way to raise men's health awareness and to promote a healthy way of living among men.

Men suffer from many health problems at a higher rate than women. They are almost twice more likely than women to die of heart disease; and between the ages of 45 and 54, men are three times more likely than women to die of heart attacks.

Additionally, diseases such as testicular cancer and prostate cancer affect thousands of men every year. Studies have shown, however, that with proper lifestyle choices and medical assistance, men can fight and survive these diseases.

Many health discrepancies between men and women can be attributed to lifestyle differences such as drinking, smoking, and other high-risk behavior, with men more likely than women to partake in these practices. But these differences only contribute a portion of the shorter life span and poorer health of men. In reality, men are less likely than women to visit a doctor, missing opportunities to pinpoint and change unhealthy habits and to diagnosis and treat diseases.

Significant numbers of male-related health problems such as prostate, colon, and testicular cancer could be detected and treated with men's greater awareness of their susceptibility to these health problems. When detected early, men who are diagnosed with these cancers have a high survival rate.

Awareness, combined with the appropriate use of tests such as exams and cholesterol screenings, can detect many health problems early and increase the survival rate of these diseases to nearly 100 percent.

National Men's Health Week not only benefits men, but also the important people in their lives. National Men's Health Week encourages men and their families to increase their awareness of the importance of a healthy lifestyle, regular exercise, and medical checkups. Moreover, better long-term health among men can contribute to fewer medical expenses for their families, for taxpayers, and for employers.

I encourage my fellow Members to join me in supporting House Concurrent Resolution 142.

I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, at this time I don't believe we have any further speakers on this issue, so I will continue to reserve the balance of my time.

Mr. HARPER. Mr. Speaker, I urge all Members to support the passage of House Concurrent Resolution 142.

I yield back the balance of my time.

Mr. LYNCH. I thank the gentleman from Mississippi for his kind words and his support.

Mr. JOHNSON of Georgia. Mr. Speaker, I rise today in strong support of H. Con. Res. 142, supporting National Men's Health Week. I would like to thank my colleague Representative ELIJAH CUMMINGS from Maryland for introducing this important piece of legislation, as well as its many co-sponsors.

I stand in support of this legislation because it highlights the importance of increasing attention to personal health. Men in the United States are disproportionately affected by health issues. These issues are particularly acute within minority populations. In the state of Georgia, these disparities are especially evident. African-American men have a life expectancy of 64 years while Caucasian men have a life expectancy of 73, both of which are dwarfed by the nearly 79 years of life expected from Caucasian women. Georgia has a tragic death rate of 79.2 for African-American men with prostate cancer compared to 28.8 among Caucasian men.

These issues impact not only men's personal wellbeing but radiate throughout our families, our businesses, and our society. Indeed, health has an impact on America's economic well-being. Recent statistics indicate that more than half of the elderly widows now living in poverty were not poor before the death of their husbands.

Many of the issues affecting men's health are treatable and manageable if caught early, but women are 100 percent more likely than men to visit a doctor for annual exams and preventive services. There is a Spanish proverb that says, ''A man too busy to take care of his health is like a mechanic too busy to take care of his tools.'' Men throughout the United States owe it to their loved ones to take better care of their health. Increasing men's health will improve families' fullness and will help ensure healthy living at all levels: social, economic, and political. To quote President Obama, ''children who grow up without a father are five-times more likely to live in poverty and commit crime; nine times more likely to drop out of schools and twenty times more likely to end up in prison . . . We need fathers to realize that responsibility does not end at conception. We need them to realize that what makes you a man is not the ability to have a child—it's the courage to raise one.'' Part of that responsibility is caring for your health. Eat healthier, perform self-exams, visit your doctor, and get screened. We owe it to ourselves and our families. I ask my colleagues to join me in supporting this call for increased awareness and self-responsibility for men's health.

Mr. LYNCH. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 142.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. HARPER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

RECOGNIZING NATIONAL CARIBBEAN-AMERICAN HERITAGE MONTH

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 127) Recognizing the significance of National Caribbean-American Heritage Month.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

H. CON. RES. 127

Whereas people of Caribbean heritage are found in every State of the Union;

Whereas emigration from the Caribbean region to the American Colonies began as early as 1619 with the arrival of indentured workers in Jamestown, Virginia;

Whereas during the 17th, 18th, and 19th centuries, a significant number of slaves from the Caribbean region were brought to the United States;

Whereas since 1820, millions of people have emigrated from the Caribbean region to the United States;

Whereas like the United States, the countries of the Caribbean faced obstacles of slavery and colonialism and struggled for independence;

Whereas also like the United States, the people of the Caribbean region have diverse racial, ethnic, cultural, and religious backgrounds;

Whereas the independence movements throughout the Caribbean during the 1960s and the consequential establishment of independent democratic countries in the Caribbean strengthened ties between the region and the United States;

Whereas Alexander Hamilton, a founding father of the United States and the first Secretary of the Treasury, was born in the Caribbean;

Whereas many influential Caribbean-Americans have contributed to the rich history of the United States, including Jean Baptiste Pointe du Sable, the pioneer settler of Chicago; Claude McKay, a poet of the Harlem Renaissance; James Weldon Johnson, the writer of the Black National Anthem; Celia Cruz, the world-renowned queen of Salsa music; and Shirley Chisholm, the first African-American Congresswoman and first African-American woman candidate for President;

Whereas the many influential Caribbean-Americans in the history of the United States also include Colin Powell, the first African-American Secretary of State; Sidney Poitier, the first African-American actor to receive the Academy Award for best actor in a leading role; Harry Belafonte, a musician, actor, and activist; Al Roker, a meteorologist and television personality; and Roberto Clemente, the first Latino inducted into the baseball hall of fame;

Whereas Caribbean-Americans have played an active role in the civil rights movement and other social and political movements in the United States;

Whereas Caribbean-Americans have contributed greatly to the fine arts, education, business, literature, journalism, sports, fashion, politics, government, the military, music, science, technology, and other fields in the United States;

Whereas Caribbean-Americans share their culture through festivals, carnivals, music, dance, film, and literature, which enrich the cultural landscape of the United States;

Whereas the countries of the Caribbean are important economic partners of the United States;

Whereas the countries of the Caribbean represent the United States' third border;

Whereas the people of the Caribbean region share the hopes and aspirations of the people of the United States for peace and prosperity throughout the Western Hemisphere and the rest of the world;

Whereas in June 2008, President George W. Bush issued a proclamation declaring June National Caribbean-American Heritage Month after the passage of H. Con. Res. 71 in the 109th Congress by both the Senate and the House of Representatives; and

Whereas June is an appropriate month to establish a Caribbean-American Heritage Month: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) supports the goals and ideals of Caribbean-American Heritage Month;

(2) encourages the people of the United States to observe Caribbean-American Heritage Month with appropriate ceremonies, celebrations, and activities; and

(3) affirms that—

(A) the contributions of Caribbean-Americans are a significant part of the history, progress, and heritage of the United States; and

(B) the ethnic and racial diversity of the United States enriches and strengthens the Nation.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Mississippi (Mr. HARPER) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

GENERAL LEAVE

Mr. LYNCH. I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. On behalf of the Committee on Oversight and Government Reform, I present House Concurrent Resolution 127 for consideration. This resolution expresses our support for the goals and ideals of National Caribbean-American Heritage Month.

Introduced by my colleague, Representative BARBARA LEE of California, on May 14, 2009, and reported out of the Oversight Committee by unanimous consent on June 18, 2009, House Concurrent Resolution 127 enjoys the support of over 50 Members of Congress.

Since June of 2005, Congress has taken time each year to recognize Americans of Caribbean descent for their significant contributions to American culture and history during National Caribbean Heritage Month.

Beginning as early as the year 1619, generations of Caribbean immigrants have come to America and significantly contributed their rich traditions and culture, ethnic, and religious diversity to our social fabric.

Regrettably, we must acknowledge that many Caribbean-Americans arrived against their own volition—as slaves and indentured servants, whose struggles for freedom continue to reverberate. Many others came to this country in search of a better life for themselves and their children; and today, over 5 million Americans proudly share Caribbean heritage.

Caribbean-Americans have offered lasting contributions to every sector of our society, from public service, science, and athletics to business, education, and entertainment.

Prominent Caribbean-Americans include such historical and cultural figures as Alexander Hamilton—who was born in the Caribbean region—former Secretary of State Colin Powell; Eric Holder, our current Attorney General; and Shirley Chisholm, the first African American Congresswoman and first African American candidate for President.

Other influential Caribbean-Americans include Harlem renaissance poet, Claude McKay; actor and civil rights activist Harry Belafonte; and Sidney Poitier, the first African American actor to receive an Academy Award for best performance in a leading role.

Mr. Speaker, these and countless other Caribbean-Americans have made invaluable contributions to our Nation, and it is fitting that we on honor them today. I urge my colleagues to join me in supporting House Concurrent Resolution 127.

I reserve the balance of my time.

Mr. HARPER. I yield myself such time as I may consume.

I rise today in support of House Concurrent Resolution 127 recognizing the significance of National Caribbean-American Heritage Month. Every year since 2006, our Nation has recognized the contribution Caribbean-Americans have made to the United States during the month of June.

The Caribbean people have had a place in the history of the United States from its very beginning. The first Caribbean people who immigrated to the United States did so in 1619 as indentured workers who were brought to Jamestown, Virginia. During the centuries that followed, many people were brought to the United States from the Caribbean as slaves and, since 1820,

millions more have emigrated, bringing with them their talents and high values, which have enriched our Nation and assisted in its formation.

Many notable people in the history of the United States have strong Caribbean ties. Those already mentioned are certainly very important to the history of our country. Alexander Hamilton, not only the first Secretary of the Treasury, but also one of the authors of the Federalist Papers, was born in the Caribbean. Former Secretary of State Colin Powell, Sidney Poitier, and musician Harry Belafonte are all Caribbean-Americans, as you have heard.

Other Caribbean-Americans have contributed to every aspect of our Nation, from the sciences to the Armed Forces. For all of these contributions, we are grateful.

The United States and the nations of the Caribbean have had many traits that are indicative of our similarities with one another. The histories of the United States and the countries of the Caribbean have faced similar trials of slavery, colonialism, and the struggle for independence.

The people who comprise our separate nations are similar in that we are all different, coming from very diverse racial, ethnic, cultural, and religious backgrounds. In addition to celebrating the contribution Caribbean-Americans have made to the United States, we honor these historical similarities between our nations.

I ask my fellow Members of Congress to join me in recognizing the contributions of Caribbean-Americans to the history of the United States and the way in which their presence enriches and strengthens our country.

I support House Concurrent Resolution 127.

I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, at this time I would like to yield such time as she may consume to the lead sponsor of this measure, the gentlewoman from California (Ms. LEE).

Ms. LEE of California. Let me thank the gentleman from Massachusetts for yielding and for your leadership and for supporting and managing this resolution today.

Mr. Speaker, I rise in support of H. Con. Res. 127, a resolution which I have authored for several years recognizing the significance of National Caribbean-American Heritage Month. This resolution acknowledges the important contributions of Caribbean-Americans for the many contributions they have made to our Nation's history and culture.

Let me begin by thanking Chairman TOWNS, Ranking Member ISSA, and the staff of the Oversight and Government Reform Committee on both sides for making this a bipartisan effort and for helping to bring this resolution to the floor today.

I would also like to recognize many of my colleagues on this side: Congresswoman DONNA CHRISTENSEN, Congresswoman YVETTE CLARKE, Congresswoman SHEILA JACKSON-LEE, Congresswoman WATERS, Congressman PAYNE, Chairman CHARLIE RANGEL, Chairman JOHN CONYERS, Congressman BURTON, and many, many Members of Congress for their tremendous leadership on issues relating to the Caribbean.

Congresswoman CHRISTENSEN, whom you will hear from in just a minute, from the Virgin Islands, has lead health care reform efforts to ensure that any health care reform bill must address strategies that deal with the disparities in communities of color. And for this, Congresswoman CHRISTENSEN, Dr. CHRISTENSEN, we are deeply grateful.

I'd like to also acknowledge Dr. Claire Nelson and the Institute of Caribbean Studies, and all of the other Caribbean-American organizations in Washington, D.C., and across the country, that have worked so hard to make Caribbean-American Heritage Month 2009 a great success.

As a longtime supporter of the Caribbean and a frequent visitor to the region, I am very proud to see us celebrate this important commemorative month for the fourth straight year.

Since Congress first passed H. Con. Res. 71 in February of 2006, the President has issued a proclamation recognizing Caribbean-American Heritage Month every year during the month of June. This year, President Obama issued a proclamation on June 2. Mr. Speaker, I will insert that proclamation into the RECORD.

NATIONAL CARIBBEAN-AMERICAN HERITAGE MONTH, 2009

By the President of the United States of America

A Proclamation: Caribbean Americans have made lasting contributions to our Nation's culture and history, and the month of June has been set aside to honor their cultural, linguistic, ethnic, and social diversity.

Generations of immigrants have preserved the traditions of their homelands, and these traditions have defined our Nation's identity. Caribbean Americans bring a unique and vibrant culture. This multilingual and multiethnic tradition has strengthened our social fabric and enriched the diversity of our Nation.

Millions of individuals in the United States have Caribbean roots. Unfortunately some Caribbean Americans were forced to our country as slaves; others arrived of their own volition. All have sought the promise of a brighter tomorrow for themselves and their children.

In their pursuit of success, Caribbean Americans exhibit the traits all Americans prize: determination, a devotion to community, and patriotism. They have made their mark in every facet of our society, from art to athletics and science to service. Caribbean Americans have also safeguarded our Nation in the United States Armed Forces.

This month we also recognize the critical relationship the United States maintains with Caribbean nations. In a world of increasing communication and connectivity, this friendship has become even more important. We are neighbors, partners, and friends; we share the same aspirations for our children; and we strive for the very same freedoms. Together, we can meet the common challenges we face.

NOW, THEREFORE, I, BARACK OBAMA, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim June 2009 as National Caribbean-American Heritage Month. I urge all Americans to commemorate this month by learning more about the history and culture of Caribbean Americans.

IN WITNESS WHEREOF, I have hereunto set my hand this second day of June, in the year of our Lord two thousand nine, and of the Independence of the United States of America the two hundred and thirty-third.

BARACK OBAMA.

People of Caribbean heritage reside in every part of our country. Since 1820, millions of people have immigrated from the Caribbean to the United States. Throughout U.S. history, we have been fortunate to benefit from countless individuals of Caribbean decent who have contributed to American Government, politics, business, arts, education, and culture, including one of my personal mentors, the Honorable Shirley Chisholm from Brooklyn, New York.

□ 1445

Shirley Chisholm was a woman of Bajan and Guyanese descent who never forgot her roots in the Caribbean. She was the first African American and the first woman to seriously run a Presidential campaign in 1972. She was also the first African American woman elected to the House of Representatives. So personally I have to honor her today because I have to say that my political involvement began as a volunteer during her historic Presidential campaign in 1972, and through her mentorship, she strengthened my interest in issues important to the African diaspora both here in the United States and abroad.

During Caribbean-American Heritage Month, we recognized the important contributions of people like Shirley Chisholm as well as Alexander Hamilton, Hazel Scott, Sidney Poitier, Wyclef Jean, Eric Holder, Colin Powell, Harry Belafonte, Celia Cruz and, yes, Congresswomen DONNA CHRISTENSEN, SHEILA JACKSON-LEE and YVETTE CLARKE and many other persons of Caribbean descent who have helped shape this country. Caribbean-American Heritage Month provides us an opportunity to strengthen our long-term partnerships with nations of the Caribbean community through greater dialogue and engagement, and must not stop with June. From disaster preparedness to trade and energy, education, and the campaign against HIV and AIDS, we share a number of mutual policy interests with our Caribbean neighbors. Last month we were able to address some of these important issues through the Institute of Caribbean Studies' Caribbean-American Legislative Forum, held annually

on the Hill during Caribbean-American Heritage Month. At the forum, people from the academic community and the private sector, regional policymakers and members of the Caribbean diaspora were able to meet to better integrate policy interests between the United States and Caribbean countries.

Recent global events, from the sharp rise in food and energy prices to a series of devastating storms and the global economic downturn, have acutely affected people of the Caribbean, particularly our friends in Haiti. These ongoing regional and global crises highlight the need for continuing engagement and involvement with innovative policy solutions with our neighbors. I'm very pleased to see the Obama administration's recent announcement of increased foreign assistance to Haiti and the President's participation in the Summit of the Americas, held in Trinidad. These are all signs of this administration's fresh and new engagement with the region. Caribbean-American Heritage Month also reminds us of the large and diverse constituencies of Caribbean-Americans in our Nation and provided us with an opportunity to send a message of good will to the Caribbean community both here and abroad. This month also provided us with an opportunity to share in the rich culture of our natives through showcases of Caribbean art, festivals, concerts and films. In my own district in Oakland, California, the Caribbean-American Heritage Association of Northern California celebrated the rich cultural heritage of the people of the Caribbean through a musical concert and family picnic. The association also hosted its Third Annual Caribbean-American Heritage Legacy Awards ceremony, honoring the contributions of Caribbean-Americans to our great country. Just as we should commemorate the achievements of the many diverse communities that make up this great country, the United States Government should continue to celebrate the rich history and diversity of Caribbean-Americans and work each and every day to ensure that the issues of concern to Caribbean-Americans and the nations of the Caribbean are included in our policy debates here in the Congress. I ask all of my colleagues to join me in supporting this measure to honor and salute the Caribbean-American community and to acknowledge their rich and varied contributions to the history, culture and progress of the United States.

Mr. HARPER. Mr. Speaker, I have no other speakers at this moment. I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, at this time I would like to yield 3 minutes to a cosponsor of this measure, the gentlelady from the U.S. Virgin Islands, DONNA CHRISTENSEN.

Mrs. CHRISTENSEN. Thank you for yielding, Congressman LYNCH.

As a person of Caribbean-American descent, I proudly rise in support of House Concurrent Resolution 127 and applaud the chairwoman of the Congressional Black Caucus, Congresswoman BARBARA LEE, for leading this effort to recognize our joint and very special heritage. The ties between the United States and its close neighbors to the south are ones that go back to the founding of our early colonies, the fight for independence and the founding of this country. George Washington, our first President, visited family in Barbados. As you've heard many times this afternoon, Alexander Hamilton, his aide-de-camp, a Revolutionary War hero, chief author of the Federalist Papers and first Secretary of the Treasury, was born in Nevis and raised in St. Croix in my own district. The service and contributions of people from the Caribbean to every facet of life in this country are countless and invaluable, and there is much to celebrate. In a special order on June 15, members of the Congressional Black Caucus came to the floor to speak about many of those individuals, and you've heard some this afternoon. But the true test of the homage we pay to the special heritage that we share is what happens going forward, and the step taken with President Obama's attendance and leadership at the Summit of the Americas in Trinidad earlier this year bodes well for that future.

From the inclusion of the Caribbean countries in PEPFAR to the extension of security initiatives, the forgiveness of Haiti's debt, Congresswoman LEE's proposal for the Shirley Chisholm Educational Exchange program for students in the United States and the Caribbean, and many other initiatives, the Congressional Black Caucus has actively fostered the relationship to the benefit of both the region and our country. It is fitting that this body recognizes the special heritage we, the people of the Caribbean and the people of the United States, share and the contributions of each to the other. Again, I thank Chairwoman LEE for introducing this resolution and urge its passage.

Mr. HARPER. Mr. Speaker, I have no other speakers at the moment. I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, at this time I would like to yield 3 minutes to the gentleman from Georgia, Mr. HANK JOHNSON, also a cosponsor of this resolution.

Mr. JOHNSON of Georgia. Mr. Speaker, I rise in support of Caribbean-American Heritage Month. As has been pointed out, there have been tremendous accomplishments made by our friends from the Caribbean, and it's only just that we recognize them today for the achievements that they have procured not just for folks of Caribbean descent but also for all Americans. There have been great contributions, and there will continue to be great contributions.

Mr. Speaker, I believe that in this Congress we have a number of folks from the Caribbean, including my good friend and colleague DONNA CHRISTENSEN, whose quest has been on health care for the time that she has been in office. And she is getting ready to have her dreams realized with a good start that we're going to do on health care. Then, not to leave anyone out, but I do want to recognize my colleague and class member YVETTE CLARKE, who, as a staunch advocate for small businesses, is poised to do great things on behalf of small businesses, and I admire her for what she has done already and what she will do in the future.

Mr. HARPER. Mr. Speaker, I urge all Members to support the passage of House Concurrent Resolution 127, and I yield back the balance of my time.

Mr. LYNCH. Mr. Speaker, in conclusion, I'd just ask all of our Members to support Ms. BARBARA LEE, the lead sponsor of this legislation, in support of Caribbean-American Heritage Month, and I ask all of our Members to join her in that effort.

Mr. JOHNSON of Georgia. Mr. Speaker, I rise today in strong support of H. Con. Res. 127, recognizing the significance of National Caribbean-American Heritage Month. I would like to thank my colleague Representative BARBARA LEE from California for introducing this important piece of legislation, as well as its many other co-sponsors.

I stand in support of this legislation because it recognizes the profound role that Caribbean-Americans have played in the development of this great country. Social scientists call the United States of America "the Melting Pot" because of the vast number of cultures, races, ethnicities, skills, talents, and ideas that come together to make this experiment in democracy work. Caribbean-Americans are integral to that process.

Slave laborers brought to the United States from the Caribbean laid the foundation for this country in its earliest days. Today, millions of Carribean-Americans have immigrated to the United States on their own accord, bringing with them their vibrant culture and firm ideals. From beginning the Department of the Treasury and breaking color barriers to changing the sound of Salsa and the Harlem Renaissance, our nation's history is steeply ingrained with the contributions of Caribbean-Americans. Caribbean nations are important neighbors and partners within the global community, playing a vital role in the pursuit of peace and prosperity throughout the world. Caribbean-American poet Claude McKay once said, "Nations, like plants and human beings, grow. And if the development is thwarted they are dwarfed and overshadowed." The United States owes a great deal of its development to the Caribbean, its people, and its culture. I urge my colleagues to join me in supporting this legislation recognizing the significance of National Caribbean-American Heritage Month.

Mr. RANGEL. Mr. Speaker, I rise today to bring attention to Caribbean Heritage Month.

In New York Carib News' June 16, 2009 edition, the article highlights the important contributions made by Caribbean Americans to both the Untied States and their respective home countries. The article refers to President Obama as having recognized the importance of the Caribbean American community and the enormous contributions it has made to the United States over past centuries. The Caribbean community continues the tradition of offering a vibrant culture, as have so many other cultures that have helped to define our American heritage. It is important to note the contributions made by English, French, Spanish and Dutch speaking nations of the Caribbean, as each of these brings its own cultural aspect to the larger American community.

It is imperative that we note not only the contributions Caribbean Americans have made to the United States, but also the contributions they have made to their home countries. Each year, Caribbean Americans remit billions of dollars per year to CARICOM nations, and maintain a multi-billion dollar buying power, some of which is used to advance the growth of their home countries. The Caribbean Heritage Month celebration that will kick off in Brooklyn is defined by music, theatre, panel discussions, a cultural fair, and other activities that actively illustrate the culture of the Caribbean.

In the years to come, it is important that the United States maintain a strong relationship with the Caribbean nations. The value that these nations place on growth and economic development, as well as personal advancement are values reflected in American culture and thus show the commonalities that our country shares with these nations. As we continue to cultivate these relationships, let us not forget the wealth of interchangeable benefit such communication and interaction with one another can yield. Caribbean Heritage Month plays an integral role in shaping America's understanding that such nations play in our progress and growth. May this Caribbean Heritage Month designation continue to draw from the unique culture of Caribbean Americans, and be used as a source of influence for continued Caribbean-American relations.

Ms. CLARKE. Mr. Speaker, I rise today in support of H. Con. Res. 127, Recognizing the Significance of National Caribbean-American Heritage Month. I thank my friend The Gentle lady from California, BARBARA LEE for her hard work on this very important resolution. This resolution ensures that every June, we recognize the many contributions of Caribbean-Americans and highlight the issues facing the Caribbean community.

I have the distinct honor and privilege of representing New York's 11'h Congressional District, located in central Brooklyn. And as a child of Jamaican immigrants, I have experienced first hand the impact Caribbean Americans can have on a community, let alone a nation. That is why I have been a staunch advocate for Caribbean issues my entire public life; fighting to ensure that the agenda of Caribbean Americans are visible on the national stage.

From the various Caribbean Associations dedicated to helping Caribbean Americans with myriad issues, to the West-Indian American Day Carnival on Eastern Parkway, the influence and impact of Caribbean descendents is undeniable.

Caribbean Americans have contributed greatly to our nation as a whole. Some prominent Caribbean Americans include: My predecessor and role model, Former U.S. Representative Shirley Chisholm, the first African American female Member of Congress, who was of Caribbean descent; Former Secretary of State Collin Powell, both the first African American to be Chairman of the Joint Chiefs of Staff and Secretary of State of Jamaican lineage; Jamaica Kincaid, an American novelist; social activists Stokely Carmichael and Malcolm X; and dancer Pearl Primus, to name a few.

In Brooklyn, there have been many who have influenced my advocacy for the Caribbean community. People like my mother Dr. Una Clarke, who was the first Caribbean born woman elected to the New York City's Legislature; Lemuel Stanislaus of Grenada; Dr. Henry Frank of Haiti; and Carlos Rosada of Grenada, chairman of the West-Indian American Day Carnival Association, continue to remind me of the fight for equality, not only for the Caribbean community and their countries of origin, but for all.

While Caribbean Americans have made great strides, there are still lingering issues affecting Caribbean Americans in this country. Caribbean immigrants often have little money or access to practical information when making their transition to the United States, making them the targets of immigration fraud. As a result, earlier this year, I introduced H.R. 1992, the Immigration Fraud Prevention Act of 2009, which makes it a federal crime to willfully misrepresent the immigration process through fraud or false representation.

I also introduced H.R. 2071, which directs the Secretary of Commerce to include Caribbean descent as an option on census questionnaires. This will finally bring recognition to the broad diversity of Caribbean natives that call our country home and ensure an accurate count and proper representation.

Our nation's ''third border'', shared with the Caribbean community, links the security of the U.S. with our island neighbors. In 2007, a joint-report by the United Nations Office of Drug and Crime and the World Bank linked rising crime rates in Caribbean nations to an increase in drug-trafficking. In the 110th Congress, I introduced H. Res. 1504 which calls for increased cooperation between U.S. and Caribbean officials to combat this problem. Last week, I came to this floor to express my support for provisions within H.R. 2410, the Foreign Relations Authorization Act of 2009 that added the Caribbean community (CARICOM), to the Merida Initiative. This initiative is a multi-year program that works in partnership with governments in Mexico, the nations of Central America, the Dominican Republic and Haiti to confront criminal organizations whose illicit actions undermine public safety, erode the rule of law, and threaten the national security of the United States.

I also expressed my appreciation for the Shirley A. Chisholm Educational Exchange Program authorized in the bill. These provisions promote security and education within the Caribbean community, fostering social and economic development abroad and keeping us safe at home.

Again it is my honor as a child of the Caribbean and my duty as the Representative of the 11th Congressional District of New York, to urge my colleagues to stand with me in supporting this Resolution. I thank Congresswoman LEE for leading the charge on this and for yielding time.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today to express my support of H. Con. Res. 127, which recognizes the significance of National Caribbean-American Heritage Month.

As a child of Jamaican parents, I understand the importance of recognizing the influence Caribbean cultures continues to have on all facets of these United States. Growing up, my parents, who hail from Jamaica, instilled in me a strong appreciation for their Caribbean values. As a result of my upbringing, I have adopted a strong work ethic arid tremendous pride in my heritage. As a parent, I have passed on these same values to my own children, so they will develop a sense of pride in their Caribbean heritage and acknowledge the many roles Caribbean people play in shaping this nation. I whole-heartedly support this resolution that commemorates Caribbean heritage, history, culture and contributions to the United States.

In her 1970 autobiography, Shirley Chislom, the first black woman elected to Congress, credited her success to the education she received while attending school in Barbados. She wrote, ''Years later I would know what an important gift my parents had given me by seeing to it that I had my early education in the strict, traditional, British-style schools of Barbados. If I speak and write easily now, that early education is the main reason.''

This is a nation built by immigrants. From as early as the 17th century there have been individuals from the Caribbean Islands, working here in the United States as indentured servants in the colony of Jamestown, Virginia. They worked in fields picking cotton, tobacco and crops just as the slaves.

Caribbean immigrants have been contributing to the well-being of American society since its founding. Alexander Hamilton, the First Secretary of the Treasury was from the Caribbean island of St. Kitts. We count among our famous sons and daughters, Secretary of State Colin Powell, Cicely Tyson, W.E.B. Dubois, James Weldon Johnson, Harry Belafonte and Sidney Poitier to name a few.

H. Con. Res. 127 recognizes the significance of Caribbean people and their descendants in the history and culture of the United States. Our nation would not be what it is today without these significant contributions of the Caribbean people and we should honor these accomplishments with the passing of this legislation. The contributions of Caribbean-Americans are a significant part of the history, progress, and heritage of the United States and play an important role in shaping the ethnic and racial diversity of the United States, which ultimately enriches and strengthens our nation.

By passing this legislation we continue to honor the friendship between the United States and Caribbean countries. We are united by our common values and shared history, and we should celebrate the rich Caribbean Heritage and the many ways in which Caribbean Americans have helped shape this nation.

I urge my colleagues to support this resolution to pay tribute to the common culture and bonds of friendship that unite the United States and the Caribbean countries.

Mr. LYNCH. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 127.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. HARPER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

PROVIDING FOR DESIGN OF SLAVE LABOR MARKER IN CAPITOL VISITOR CENTER

Mr. JOHNSON of Georgia. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 135) directing the Architect of the Capitol to place a marker in Emancipation Hall in the Capitol Visitor Center which acknowledges the role that slave labor played in the construction of the United States Capitol, and for other purposes.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

H. CON. RES. 135

Whereas enslaved African-Americans provided labor essential to the construction of the United States Capitol;

Whereas the report of the Architect of the Capitol entitled ''History of Slave Laborers in the Construction of the United States Capitol'' documents the role of slave labor in the construction of the Capitol;

Whereas enslaved African-Americans performed the backbreaking work of quarrying the stone which comprised many of the floors, walls, and columns of the Capitol;

Whereas enslaved African-Americans also participated in other facets of construction of the Capitol, including carpentry, masonry, carting, rafting, roofing, plastering, glazing, painting, and sawing;

Whereas the marble columns in the Old Senate Chamber and the sandstone walls of the East Front corridor remain as the lasting legacies of the enslaved African-Americans who worked the quarries;

Whereas slave-quarried stones from the remnants of the original Capitol walls can be found in Rock Creek Park in the District of Columbia;

Whereas the Statue of Freedom now atop the Capitol dome could not have been cast without the pivotal intervention of Philip Reid, an enslaved African-American foundry worker who deciphered the puzzle of how to separate the 5-piece plaster model for casting when all others failed;

Whereas the great hall of the Capitol Visitor Center was named Emancipation Hall to help acknowledge the work of the slave laborers who built the Capitol;

Whereas no narrative on the construction of the Capitol that does not include the contribution of enslaved African-Americans can fully and accurately reflect its history;

Whereas recognition of the contributions of enslaved African-Americans brings to all Americans an understanding of the continuing evolution of our representative democracy; and

Whereas a marker dedicated to the enslaved African-Americans who helped to build the Capitol will reflect the charge of the Capitol Visitor Center to teach visitors about Congress and its development: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring),

SECTION 1. PLACEMENT OF MARKER IN CAPITOL VISITOR CENTER TO ACKNOWLEDGE ROLE OF SLAVE LABOR IN CONSTRUCTION OF CAPITOL.

(a) PROCUREMENT AND PLACEMENT OF MARKER.—The Architect of the Capitol, subject to the approval of the Committee on House Administration of the House of Representatives and the Committee on Rules and Administration of the Senate, shall design, procure, and place in a prominent location in Emancipation Hall in the Capitol Visitor Center a marker which acknowledges the role that slave labor played in the construction of the United States Capitol.

(b) CRITERIA FOR DESIGN OF MARKER.—In developing the design for the marker required under subsection (a), the Architect of the Capitol—

(1) shall take into consideration the recommendations developed by the Slave Labor Task Force Working Group;

(2) shall, to the greatest extent practicable, ensure that the marker includes stone which was quarried by slaves in the construction of the Capitol; and

(3) shall ensure that the marker includes a plaque or inscription which describes the purpose of the marker.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Georgia (Mr. JOHNSON) and the gentleman from Mississippi (Mr. HARPER) each will control 20 minutes.

The Chair recognizes the gentleman from Georgia.

GENERAL LEAVE

Mr. JOHNSON of Georgia. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous matter on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. JOHNSON of Georgia. I yield myself as much time as I may consume.

Mr. Speaker, in May 2005 the congressional leadership appointed a task force to study the contributions of enslaved African Americans to the construction of this great edifice, our United States Capitol. The task force was also asked to recommend appropriate steps to recognize their contribution. In support of that effort, the architectural historian to the Architect of the Capitol produced a report on the contributions of slave laborers to the Capitol's construction. During the 110th Congress the Committee on House Administration conducted a hearing to receive recommendations of the task force, chaired by the gentleman from Georgia, my colleague and mentor, Congressman JOHN LEWIS. The task force devoted considerable time and effort to reviewing the Architect's report on the use of slaves during the Capitol's construction and developing recommendations. Mr. Speaker, Americans now living cannot remove the stain of our Nation's past, but we can admit our forebears' sin. We must acknowledge the sacrifices of those Americans who, without choice, worked to build a government that kept them in bondage. The task force's report recommended a number of steps to do what we can.

□ 1500

Several of their recommendations, including the naming of Emancipation Hall in the new Capitol Visitor Center, have already been completed.

The placement of a marker in Emancipation Hall requires further legislative action as embodied in this resolution. This resolution will provide for the installation of a marker by the Architect of the Capitol, under the supervision of the House Administration Committee and the Senate Committee on Rules and Administration.

As the resolution contemplates, the committees will make every effort to use some of the original, slave-quarried stones. These stones were removed from the Capitol during previous renovations and are held in storage.

I urge all Members to support the resolution, which proposes a fitting commemoration of slave laborers' contribution to this temple of democracy.

I reserve the balance of my time.

Mr. HARPER. Mr. Speaker, I yield myself as much time as I may consume.

I rise today in support of House Concurrent Resolution 135, which will enhance the educational offerings of the Capitol Visitor Center by highlighting the contributions of enslaved African Americans to the construction of the U.S. Capitol Building.

Far too often the historical record detailing the rise of our Capitol Building fails to appropriately recognize the vital contributions by slave laborers. As a result of the Slave Labor Task Force, we are better equipped to fill that void and will take steps toward doing so here today.

The Capitol Visitor Center quickly has become a major attraction for those visiting our Federal city, seeking greater understanding of the history which led to our present. It is therefore appropriate that Emancipation Hall, in

the CVC, house a formal recognition of these essential laborers, further enriching the educational experience of visitors young and old.

I urge my colleagues' support for the successful passage of this resolution.

I reserve the balance of my time.

Mr. JOHNSON of Georgia. Mr. Speaker, I would now yield 5 minutes to the Honorable Congressman from Georgia and sponsor of this resolution, JOHN LEWIS.

Mr. LEWIS of Georgia. Mr. Speaker, I want to thank my colleague and friend from Georgia for yielding the time.

Mr. Speaker, I rise today to tell the full story of our Nation's Capitol Building. We must recognize all of the hands that helped to construct this temple of freedom. We must continue to teach the full history of this country, and to do that, we must recognize the role that African American slaves played in the construction of our Nation's Capitol.

I would like to thank Chairman BRADY and Ranking Member LUNGREN for all their efforts to bring this bill to the floor, and also the staff of the House Administration Committee, and Jesse Uman, of my own staff, for their work and perseverance to pass this bill.

Additionally, Mr. Speaker, I'm going to thank and recognize Senator BLANCHE LINCOLN, who has championed the work of the Slave Labor Task Force in the Senate.

Mr. Speaker, for too long, the use of slave labor in the construction of the United States Capitol has gone untold. We look back today, not to open old wounds, but to ensure that we tell the story, the whole story, the complete story of those slaves, so their toils are never forgotten.

Slavery is part of our Nation's history of which we are not proud. However, we should not run or hide from it.

The history of the Capitol, like the history of our Nation, should be complete. As thousands of visitors walk through our Nation's Capitol, they leave without knowing the full history of its construction. Today, there is nothing, not one thing, not one note, that tells the story of the African American slaves who helped build this magnificent building: no drawings, no murals, no statues, nothing but nothing.

Mr. Speaker, with this resolution, this untold story will now be told. Thanks to the work of the Slave Labor Task Force, we will now honor those slaves who built our temple of freedom. We need something that visitors can see, that visitors can feel and which communicates the back-breaking labor that slaves completed to help construct our Capitol.

Passage of this resolution will create a historic marker in the Capitol Visitor Center, made of stones quarried by the hands of slave laborers to stand testament to their sacrifices. This physical and permanent marker will pay tribute to the blood, sweat and toils of the African American slaves who helped build this magnificent building and ensure that their story is told and never forgotten.

I urge all of my colleagues to support the passage of this resolution.

Mr. HARPER. Mr. Speaker, I have no other Members who wish to speak at the moment, and I reserve the balance of my time.

Mr. JOHNSON of Georgia. Mr. Speaker, I would now like to yield 3 minutes to my friend, the gentlelady from the Virgin Islands, Dr. DONNA CHRISTENSEN.

I am proud to report, Mr. Speaker, that she has distinguished herself as one of the foremost experts on the issue of health care in this Congress where she has served for the past 14 years. And so it is my great pleasure to introduce my friend and member of the powerful Energy and Commerce Committee, which has taken primary jurisdiction of the issue of health care reform.

Mrs. CHRISTENSEN. I thank my colleague for yielding and for those kind words.

Mr. Speaker, I rise in support of House Concurrent Resolution 135 which would have the work of enslaved African Americans in the building of our historic Capitol Building memorialized for this generation and for posterity. And I applaud, thank and honor the lead sponsor, the mentor of all of us, Congressman JOHN LEWIS, for this resolution and for his unwavering commitment to justice.

The Architect of the Capitol's 2005 report entitled ''History of Slave Laborers in Construction of the United States Capitol'' clearly outlines the contributions of ''the slaves who quarried the stone, cut the timber, and formed and fired the bricks that became our Nation's Temple of Freedom.''

I am sure that there are many who will wonder, Why is this important? Why is it necessary to have a marker placed in the Capitol Visitor Center that acknowledges the work of the unfree in the construction of the Capitol?

In response, let me say that it is important because it is part of the American story. It is an integral part of the fabric of our history which runs from its founding on the great ideals of freedom, justice and equality to today, where we have witnessed the toils, tears and prayers of hundreds of years answered in the contributions of the descendants of those enslaved Africans in every endeavor of American life today. And that story, the American story, is an enduring one of redemption. It is a story that points to the unique quality of our Nation and our continuous striving to achieve those ideals of freedom, equality and justice.

Mr. Speaker, while some may see irony in the fact that it was hands of the then un-free that forged the structure that has become the temple of freedom for the entire world, we see it as the hand of God pointing, as always, to the lives of the ''least of these'' as precious in His sight.

There should be a marker in the Capitol Visitor Center because it is an appropriate way to mark how far this country has come and to show countries around the world that the impossible is indeed possible. The marker needs to be placed to finally give voice to those whose silent witness to the potential greatness of our country was forged in their blood, sweat and tears.

I urge my colleagues to vote ''aye'' for this resolution.

Mr. HARPER. Mr. Speaker, I yield back the balance of my time.

Mr. JOHNSON of Georgia. Mr. Speaker, again, I would want to commend the conscience of the Congress, the Honorable Congressman from the great State of Georgia and the great city of Atlanta. I would like to commend him for taking on this measure and proceeding with it to conclusion. And I want to congratulate you, sir, for this and for all of the things you will continue to do to make sure that everyone's contribution throughout the history of this great country is recognized.

Mr. CONYERS. Mr. Speaker, more than 200 years ago, on September 18, 1793, our Nation broke ground for what would become our home to democracy—the United States Capitol.

At this time in our Nation's history, however, democracy and freedom were not enjoyed by all Americans.

Ironically, it was those who were disenfranchised—enslaved African Americans—who helped construct our symbol of democracy, the Capitol.

I commend my colleague, the gentleman from Georgia, JOHN LEWIS, for introducing this bipartisan resolution acknowledging this fact.

Specifically, the resolution ''directs the Architect of the Capitol to place a marker in Emancipation Hall in the Capitol Visitor Center which acknowledges the role that slave labor played in the construction of the United States Capitol.''

There are at least three reasons why this resolution is necessary.

First, the history of the United States Capitol would not be accurate without recognizing that enslaved African Americans played an integral role in building the Capitol. For example, the Capitol's architects negotiated with slave owners with respect to hiring out their slaves. Although the Architect of the Capitol states that ''[n]o one will ever know how many slaves helped to build the United States Capitol Building,'' it is estimated that at least several hundred were involved in the construction.

These slaves skillfully toiled as carpenters, sawyers, blacksmiths, brickmakers, and bricklayers. They were responsible for quarrying stone and then hauling it to the work site.

Notably, an enslaved African American—Philip Reid—helped cast the Statue of Freedom, which was placed on top of the Capitol

Dome during the Civil War on December 2, 1863.

Second, given the significant contributions of enslaved African Americans in the building of the U.S. Capitol, a marker in Emancipation Hall is an appropriate tribute to such efforts.

The marker was recommended by the Slave Labor Task Force Working Group, which also recommended designating the great hall of the Capitol Visitor Center as Emancipation Hall.

This marker, which is to include stone quarried by these slaves, will ensure that this part of the story of the Capitol's construction is told.

When visitors stand in Emancipation Hall and view the commemorative marker, they will be reminded of the significant role that slaves played in the construction of the U.S. Capitol, thereby ensuring that the legacy of these slaves will live on.

Finally, by acknowledging that enslaved African Americans played a major role in building the Nation's Capitol, we recommit ourselves to the pursuit of freedom and democracy for all Americans.

We recognize that, even today, there are some who have yet to realize all of the rights and privileges that are afforded through our Constitution and laws. Prejudice, discrimination, and inequities remain a reality.

However, by paying tribute to those enslaved African Americans who built our Nation's Capitol, we understand that freedom and democracy are constantly evolving.

We recognize that we can commit ourselves to the advancement of these principles, knowing that those who toiled and labored in the very building that we stand in today, could not enjoy freedom and democracy for themselves.

Mr. JOHNSON of Georgia. Mr. Speaker, I rise today in strong support of H. Con. Res. 135, the resolution directing the Architect of the Capitol to place a marker in Emancipation Hall in the Capitol Visitor Center which acknowledges the role that slave labor played in the construction of the United States Capitol, and for other purposes. I would like to thank my colleague and fellow Georgian, Representative JOHN LEWIS for introducing this important piece of legislation, as well as the co-sponsors.

I stand in support of this resolution because it recognizes the important contributions that African-American slaves have made to the establishment of this country, particularly the Capitol Building, which is the foundation of our country's government. It is in this very building where the biggest decisions of our country are made. Therefore, we can all imagine how important this structure really is to the wellbeing of our nation.

It has almost been 150 years since the Thirteenth Amendment of the U.S. Constitution was ratified, which officially abolished slavery was passed within these same walls. It is in due time that slaves be recognized for the back breaking labor that they endured while building this great building that we now stand in. If it was not for the crucial intervention of Philip Reid, an African-American slave foundry worker, the Statue of Freedom that sits on top of the Capitol Dome may not have existed. Reid figured out how to separate the 5-piece plaster model for casting when all others workers failed to figure out how this could be done.

The true purpose of this resolution is to draw recognition to the past, so that we can move on to a better future of race relations in America. There is no better time than now, than on the coat tails of one of the most historic presidential elections in United States history. By no means is this resolution erasing or justifying slavery. Instead it shows America and the world the positive progression that our nation is making in its journey to ensure that all people be treated equally. I urge my colleagues to support this resolution.

Mr. HASTINGS of Florida. Mr. Speaker, as a co-sponsor of H. Con. Res. 135, I rise in strong support of this resolution directing the Architect of the Capitol to place a marker in Emancipation Hall in the Capitol Visitor Center which acknowledges the role that slave labor played in the construction of the United States Capitol.

African Americans throughout the world continue to make remarkable contributions to their communities every single day. We must not disregard the hands that worked and the feet that toiled to build our Nation's Capitol. We must honor the contributions of the slaves who helped build this magnificent structure.

Mr. Speaker, when we look to the hands that shape and built this city, particularly this Capitol, we should no longer hang our heads in shame of slavery, but instead celebrate the people who are so often forgotten. We should appreciate and acknowledge the thousands of unnamed men and women who built this structure representing democracy, liberty, and freedom. Just last month, my colleagues in the Senate approved a resolution that apologized for the enslavement and racial segregation of African Americans. As the legislative branch, we have officially acknowledged the institution that barred hundreds of thousands from freedom, and with this resolution, we can begin to celebrate those slaves that physically helped to create this country.

The Capitol Visitor Center sees almost 3 million visitors annually. As they walk the halls and admire the architecture and statues, marveling at the rich history and stories that accompany them throughout the building, it is our responsibility to ensure that all slaves who helped build the Capitol have their stories told. In the Capitol Visitor Center, Emancipation Hall was named to help acknowledge the work of the slaves who toiled over the work of the Capitol and we must ensure that their stories are told for generations to come.

Mr. Speaker, I express my unwavering support for this resolution and urge my colleagues to do the same.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today in support of House Concurrent Resolution 135, recognizing the contributions of enslaved African Americans in building the United States Capitol.

This resolution will commission the Architect of the Capitol to create and place a historical marker in the Capitol Visitor Center made from the original government owned sandstone rocks that were quarried by slave labor, and removed from the Capitol building during a previous renovation.

Slavery played an important role in the foundation of this country, and slave labor was used extensively in the creation of many of the buildings that are home to our government. While we cannot rectify the sins of the past, nor thank slave laborers for their sacrifice, the contributions of these men and women should not go unnoticed.

It is important this plaque be prominently displayed for the thousands of visitors that come into the CVC. In order for these visitors to know the complete history of our Nation's Capitol, they must be aware of the contributions of these laborers.

I would like to thank Representative JOHN LEWIS for introducing this resolution and acknowledging this frequently overlooked part of our Capitol's story. The contributions made by these workers are a part of our history and our legacy, and this recognition will help future generations better understand the sacrifices of those who came before them.

Mr. AL GREEN of Texas. Mr. Speaker, I rise in strong support of H. Con. Res. 135, a resolution which pays tribute to the contributions of African American slave laborers in the building of the United States Capitol.

We owe a great debt to the enslaved African Americans who played an instrumental role in the construction of the United States Capitol. Their labor was responsible for erecting this massive building, a place where the hopes and dreams of this nation are represented, voiced, and debated each and every day.

Thank you to my colleague, Congressman JOHN LEWIS, for introducing this resolution which directs the Architect of the Capitol to place a historical marker in the Capitol Visitors Center to acknowledge the toils of slaves who helped construct the U.S. Capitol.

The history of this country and her most enduring symbol of democracy, the United States Capitol, cannot be told without fully and accurately reflecting the contributions of enslaved African-Americans. According to the History of Slave Laborers in the Construction of the United States Capitol report, there is documentation that slave labor was employed from 1795 to 1801 for the construction of this building. African American slaves participated in almost every aspect of construction of the U.S. Capitol, completing such tasks as removing tress, quarrying stone, painting, and roofing. Evidence of their work can be seen in the columns of Statuary Hall and the Old Senate Chamber. Their story is a story that must be told for it is our collective story, the great American story.

After nearly 200 years, it is time for America to acknowledge these individuals who contributed to one of our nation's symbols of freedom while never having the opportunity to experience it themselves. Constructing a historical marker that includes the original stone used to build the Capitol is an outstanding tribute to African American slaves that will teach all who visit the Capitol of our nation's past as well as her future.

I ask my colleagues to join me in honoring and recognizing the work of enslaved African Americans in the building of the U.S. Capitol by voting in support of this important resolution.

Mr. HARE. Mr. Speaker, I rise today in strong support of H. Con. Res. 135. I commend my colleague from Georgia, Representative JOHN LEWIS, for introducing this important legislation that acknowledges the role

slave labor had in the construction of the U.S. Capitol building.

Over four hundred enslaved African Americans performed the backbreaking work of quarrying the stone which now comprises many of the floors, walls, and columns of the U.S. Capitol. They were carpenters, masons, painters, and roofers—all skilled workers who built this important symbol of American democracy, while at the same time were denied their freedom by the evil grasp of slavery.

Mr. LEWIS' resolution calls for a marker in the Capitol Visitor Center's Emancipation Hall dedicated to the enslaved African-Americans who helped build the Capitol. This marker would serve as a humble token of appreciation and teach visitors about this vital part of the Capitol's history.

The American people deserve a government that is honest about its past. It is only by recognizing the past, in all its complexities, that we can fully appreciate what we now have in the present, and build a better future. Slavery in no shape or form shall be acceptable in the eyes of the United States, which is why we must always give thanks and appreciation to the hundreds of enslaved workers who contributed to the making of this building. Though they themselves were denied personal freedom, they courageously constructed a testament to freedom that has represented this great nation for over 200 years. It is time for their efforts to be brought forward from the shadows of history.

I strongly urge all my colleagues to vote for H. Con. Res. 135, and would again like to thank my friend JOHN LEWIS for introducing this important legislation.

Ms. JACKSON-LEE of Texas. Mr. Speaker, today I speak in strong support of H. Con. Res. 135, and thank my colleague Congressman JOHN LEWIS, for authoring this important resolution which designates a marker in Emancipation Hall in the Capitol Visitor Center to acknowledge the role that slave labor played in the construction of the United States Capitol. We have already taken the first step in recognizing the slave labor that was used to construct this great Capitol building, by naming the hall Emancipation Hall. Now, we must complete our promise by educating visitors to the Capitol about the enslaved African-Americans who worked tirelessly to build the Capitol.

According to records, local farmers rented out their slaves for an average of $55 a year to help build the Capitol. While this may not seem like a lot of money today, the physical, mental and emotional cost this backbreaking work had on the slaves cannot be overlooked. Slaves cut trees on the hill where the Capitol would stand, cleared stumps from the new streets, worked in the stone quarries where sandstone was cut and assisted the masons laying stone for the walls of the new homes of Congress and the president.

It is estimated that over 400 slaves were used to perform the backbreaking work of quarrying the stone which comprised many of the floors, walls, and columns of the Capitol. Enslaved African-Americans also participated in other facets of construction of the Capitol, including carpentry, masonry, carting, rafting, roofing, plastering, glazing, painting, and sawing.

We have already taken steps to acknowledge the role slaves played in building the Capitol; now we must place a marker in Emancipation Hall so that all visitors to the Capitol Visitor's Center are aware of struggles and contributions of our ancestors to helping establish one of the most fundamental institutions of our great country.

Approximately 4 million Africans and their descendants were enslaved in the United States and the colonies that became the United States between 1619 and 1865. I know that many would think it a non-issue to address the events of over 135 years ago, but the scars from over 400 years of slavery in this nation still ache for a balm that is sufficient to the injury to the minds of this nation's people. After slavery there were still many difficult journeys for former slaves to overcome. Placing this marker in the Capitol allows us to give a voice to those slaves who were never heard and to tell their story.

I thank Congressman LEWIS from Georgia for your leadership in sponsoring this important legislation. I know that you are a firm believer in our nation and that we as a nation should recognize and take great pride in the contribution of all Americans to the creation of this great nation.

I strongly urge my colleagues to support this bill.

Mr. JOHNSON of Georgia. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. JOHNSON) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 135.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. JOHNSON of Georgia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

PROVIDING FOR ENGRAVEMENTS IN CAPITOL VISITOR CENTER

Mrs. CHRISTENSEN. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 131) directing the Architect of the Capitol to engrave the Pledge of Allegiance to the Flag and the National Motto of ''In God We Trust'' in the Capitol Visitor Center.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

H. CON. RES. 131

Resolved by the House of Representatives (the Senate concurring),

SECTION 1. ENGRAVING OF PLEDGE OF ALLEGIANCE TO THE FLAG AND NATIONAL MOTTO IN CAPITOL VISITOR CENTER.

(a) ENGRAVING REQUIRED.—The Architect of the Capitol shall engrave the Pledge of Allegiance to the Flag and the National Motto of ''In God we trust'' in the Capitol Visitor Center, in accordance with the engraving plan described in subsection (b).

(b) ENGRAVING PLAN.—The engraving plan described in this subsection is a plan setting forth the design and location of the engraving required under subsection (a) which is prepared by the Architect of the Capitol and approved by the Committee on House Administration of the House of Representatives and the Committee on Rules and Administration of the Senate.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) and the gentleman from Mississippi (Mr. HARPER) each will control 20 minutes.

The Chair recognizes the gentlewoman from the Virgin Islands.

GENERAL LEAVE

Mrs. CHRISTENSEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous matter on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the Virgin Islands?

There was no objection.

Mrs. CHRISTENSEN. I yield myself such time as I might consume.

This resolution, introduced by the gentleman from California, Mr. DANIEL LUNGREN, requires the Architect of the Capitol to engrave the Pledge of Allegiance and the National Motto ''In God We Trust'' in the Capitol Visitor Center.

The details of the engraving, including their locations, would be approved in advance by the House Administration Committee and the Senate Rules and Administration Committee. Various Members have expressed support for this proposal which the committee approved by voice vote. The cost of these engravings has been estimated by the Architect as less than $100,000.

I reserve the balance of my time.

Mr. HARPER. Mr. Speaker, I yield myself as much time as I may consume.

I am honored to rise today in support of House Concurrent Resolution 131, and I certainly greatly appreciate the leadership of Congressman DAN LUNGREN on this matter, who is delayed by travel and unable to be here at this time.

□ 1515

This resolution would direct the Architect of the Capitol to engrave our national motto ''In God We Trust'' and the Pledge of Allegiance in the Capitol Visitor Center. The installation of these two references will be a reminder of the importance our Founders placed on the guidance of Providence in the birth and development and future of our Nation.

The Declaration of Independence, our Nation's first national document,

spoke to inalienable rights given by our Creator. Those men acknowledged that in signing that document, one that would be seen as high treason by the King of England, they were placing themselves under the protection of ''Divine Providence.''

When Congress adopted our Great Seal in 1782, included in its design were numerous allusions to biblical references, and the seal was marked by the words ''Annuit Coeptis,'' which translated means ''Providence has favored our undertakings.''

As the Founders were drafting the Constitution, numerous sources point to their collective reliance on God for direction and wisdom. In 1787, when the Constitution was framed at the Convention in Philadelphia, Benjamin Franklin reminded the delegates, ''To that kind Providence, we owe this happy opportunity of consulting in peace on the means of establishing our future national felicity.''

During the War of 1812, when Francis Scott Key penned the Star Spangled Banner, he included in the final stanza: Praise the Power that hath made and preserv'd us a nation. Then conquer we must, when our cause it is just, and this be our motto: ''In God is our trust.''

These glimpses into our history show but a few examples of the national consciousness that served as prelude to the establishment of our national motto.

The establishment of ''In God We Trust'' as the Nation's motto sprung out of a Civil War letter. The letter from Reverend M.R. Watkinson of Pennsylvania urged Treasury Secretary Chase to install upon our currency some indication for future generations of the Nation's religious consciousness. Reverend Watkinson was concerned that the United States might be shattered beyond recognition by the Civil War.

Secretary Chase agreed and instructed the Director of the U.S. Mint that, ''No nation can be strong except in the strength of God, or safe except in His defense. The trust of our people in God should be declared on our national coins.''

The Presidency of Dwight Eisenhower saw the codification of both our national motto and the Pledge of Allegiance as we know it. On Flag Day, 1954, President Eisenhower signed the Federal law which added ''Under God'' to the Pledge.

Two years later, President Eisenhower signed into law the bill officially recognizing ''In God We Trust'' as our national motto. The motto has since been installed on both our paper currency and the Speaker's rostrum in the House.

By incorporating our national motto and the Pledge of Allegiance as permanent fixtures in the CVC, we will provide further testimony to our Nation's rich history and the degree to which these two statements reflect the philosophical foundation of these United States.

At this time, I would like to enter into the RECORD those of my colleagues who, in addition to the 160 cosponsors of House Concurrent Resolution 131, wished to be added but were unable due to time constraints:

The Honorable ROSCOE BARTLETT of Maryland;

The Honorable ROY BLUNT of Missouri;

The Honorable BILL CASSIDY of Louisiana;

The Honorable ANDER CRENSHAW of Florida;

The Honorable DAVID DREIER of California;

The Honorable ELTON GALLEGLY of California;

The Honorable BRETT GUTHRIE of Kentucky;

The Honorable DARREL ISSA of California;

The Honorable LYNN JENKINS of Kansas;

The Honorable TIM JOHNSON of Illinois;

The Honorable BLAINE LUETKEMEYER of Missouri;

The Honorable JERRY MORAN of Kansas;

The Honorable BILL SHUSTER of Pennsylvania;

The Honorable PAT TIBERI of Ohio.

I am proud to stand in support of this resolution and urge my colleagues' support.

I reserve the balance of my time.

Mrs. CHRISTENSEN. I continue to reserve the balance of my time.

Mr. HARPER. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Texas (Mr. POE).

Mr. POE of Texas. Mr. Speaker, I appreciate the gentleman yielding.

This legislation basically directs the Architect of the Capitol to quit ignoring history, just like the last piece of legislation where it is not mentioned anywhere in Emancipation Hall or the Visitor Center that this Capitol was built in due part by slave labor. Neither does that expensive Visitor Center mention any religious history that this country has.

I don't know if the Architect of the Capitol doesn't like the Pledge or approve of the national motto ''In God We Trust''; otherwise, both of those would already be in this expensive Visitor Center. Both mention God, and it appears that the Visitor Center, the way that it is conducted and constructed, wishes to disown and deny our religious heritage.

You go to the Visitor Center and you are led to believe, Mr. Speaker, that the national motto is not ''In God We Trust'' but it is ''E Pluribus Unum,'' because the national motto is never mentioned in the propaganda video that all people see when they come into the Visitor Center. Well, the national motto is not ''E Pluribus Unum.'' It is ''In God We Trust,'' and that is the national motto and it should remain as such.

Mr. Speaker, our religious history is a part of American history. When the Founders of this great country got together in the Continental Congress, before they decided to draft this new concept of freedom and liberty, Benjamin Franklin made the comment that if the good Lord is concerned about the birds that fall from the air, certainly he would be concerned about the birth of a new nation; and with that, the Members of the Continental Congress knelt down and they prayed. And, Mr. Speaker, we have continued that tradition every day since the Continental Congress.

We start every day the same way. When the House is called to order, the first order of business is a prayer. The second order of business is the Pledge of Allegiance to the flag, and it is important that we continue those traditions, but it is also important that people who come to the Capitol understand that is part of our routine.

Mr. Speaker, ''unless the Lord watches over this House, the builders build in vain. Unless the Lord watches over the city, those that watch watch in vain.''

Above the flag behind you, Mr. Speaker, is the phrase ''In God We Trust.'' It is not to the side. It is not below it. It is above it, symbolic of what we do each day, that we pray and then we have the Pledge of Allegiance. So I strongly support this legislation to make sure that the Architect of the Capitol does not deny our religious history. Put it in its proper perspective, because religion is a part of our history, whether the Architect of the Capitol likes it or not.

And that's just the way it is.

Mr. GINGREY of Georgia. Mr. Speaker, I rise today in strong support of H. Con. Res. 131, a resolution urging the Architect of the Capitol to engrave the Pledge of Allegiance to the Flag and the National Motto of ''In God We Trust'' in the Capitol Visitor Center.

The Pledge of Allegiance is an excellent example of national solidarity for all Americans and the foremost demonstration of America as ''one nation, under God, with liberty and justice for all.'' These words illustrate an eternal commitment to a nation unified by a common history, identity, and Constitution. The Pledge further represents that if God gives you a right, then no man should have the power to take it away. This is the premise of our nation, our rights, and our system of law, and it must be upheld in an effort to never lose sight of the fact that we are bound together as one nation—common in purpose—endeavoring to provide an open and free democracy for all of mankind.

''In God We Trust'' was codified as our national motto in 1956 in recognition of the Judeo-Christian values upon which our nation is founded. Faith has always been a very important part of American history and culture, and I believe that it is imperative to uphold this

cornerstone of our heritage to preserve the rights of all Americans to worship freely and openly. I am proud that my home state of Georgia has recognized ''God'' in its own Constitution and seeks to maintain a reliance on faith in God as one of its founding principles.

Mr. Speaker, I want to make clear that the Pledge of Allegiance and our national motto are two public illustrations of the values to which we hold firmly in America. These two principles are demonstrated in this very chamber by our opening of each legislative day with prayer and by reciting the Pledge of Allegiance to the Flag. One need look no further than behind the chair of the Speaker of this great body to see the inscription of ''In God We Trust.'' These two testaments of our founding must remain the stronghold of American values and continue to be espoused in every public meeting.

Therefore, it is with great pride and honor that I stand here today to advocate for the engraving of the Pledge of Allegiance and our national motto in the newly constructed Capitol Visitor Center. Displaying these two documents prominently in an open arena for all tourists and citizens is just one more reminder of the founding and enduring principles of our nation, of which we must be reminded daily. As lawmakers, we must never cease to instill the doctrine of democracy and freedom of religion for the entire world, and by displaying these words in our nation's capitol we are only reaffirming our dedication to this endeavor. I urge all of colleagues to support this resolution and to hold steadfast to the values upon which our great nation was founded.

Mr. TURNER. Mr. Speaker, I am a cosponsor of H. Con. Res. 131 which directs the Architect of the Capitol to engrave the National Motto, ''In God We Trust,'' and the Pledge of Allegiance in the U.S. Capitol Visitor Center.

Over one million visitors have passed through the new U.S. Capitol Visitor Center since it was opened in December 2008. The new Visitor Center is more than just a pathway to the 200-year-old Capitol. It is also a museum and classroom. In it you will find historic documents, including the patent drawing for the Wright Brothers' Flying Machine.

The Visitor Center is a magnificent addition to the Capitol, but it is incomplete without our National Motto, ''In God We Trust,'' as well as the Pledge of Allegiance. This resolution will ensure that these important words are given appropriate recognition.

Our national reverence to God is fundamental in our history. Our National Motto and the Pledge of Allegiance both mention God. Yet, there have been attempts, including a 9th Circuit Court of Appeals decision in 2002, to remove references to ''God'' from government.

In 2007, I joined in a successful effort to reverse one such prohibition. When a 17-year-old Eagle Scout from Dayton, Ohio, wanted to honor his grandfather's ''dedication and love of God, Country, and family'' with a flag flown over the U.S. Capitol, the Architect of the Capitol censored the word ''God'' from the flag certificate. I strongly objected and introduced legislation to permanently allow religious references on Capitol flag certificates. The Architect of the Capitol later reversed his position and restored the reference to God on the flag certificate.

It's important that America's traditions, religious freedom and freedom of expression be promoted and protected. I support this resolution and urge its adoption.

Mr. HARPER. Mr. Speaker, I yield back the balance of my time.

Mrs. CHRISTENSEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 131.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. HARPER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

U.S. PATENT AND TRADEMARK OFFICE FUNDING

Mr. JOHNSON of Georgia. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3114) to authorize the Director of the United States Patent and Trademark Office to use funds made available under the Trademark Act of 1946 for patent operations in order to avoid furloughs and reductions-in-force, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3114

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORITY OF PTO DIRECTOR TO USE TRADEMARK FUNDS.

(a) AUTHORITY.—

(1) IN GENERAL.—The Director of the United States Patent and Trademark Office—

(A) may use funds made available for fiscal year 2009, pursuant to section 31 of the Trademark Act of 1946 (15 U.S.C. 1113), under the heading ''Department of Commerce—United States Patent and Trademark Office—Salaries and Expenses'' in title I of division B of the Omnibus Appropriations Act, 2009 (Public Law 111-8), up to $70,000,000, to support the processing of patents and other activities, services, and materials relating to patents, notwithstanding section 42(c) of title 35, United States Code; and

(B) notwithstanding any other provision of law, shall, upon the exercise of the authority under subparagraph (A), establish a surcharge, in amounts up to $70,000,000, on patent fees in effect under title 35, United States Code, to repay any funds drawn down pursuant to subparagraph (A),

if the Director certifies in writing to the Congress that the use of the funds described in subparagraph (A) is reasonably necessary to avoid furloughs or a reduction-in-force, or both, in the United States Patent and Trademark Office, and does not create a substantial risk of a furlough or reduction-in-force of personnel working in the Trademark Operation of the United States Patent and Trademark Office.

(2) SURCHARGES DEPOSITED IN TREASURY.—All surcharges paid under paragraph (1)(B) shall be deposited in the Treasury as an offsetting receipt that shall not be available for obligation or expenditure.

(b) LIMITATIONS ON AUTHORITY.—The authority under subsection (a)(1)(A) shall terminate on June 30, 2010. The surcharge established under subsection (a)(1)(B) shall take effect no later than September 30, 2011, and all funds drawn down pursuant to subsection (a)(1)(A) shall be repaid pursuant to subsection (a)(1)(B) no later than September 30, 2014.

(c) DEFINITIONS.—In this section:

(1) DIRECTOR.—The terms ''Director of the United States Patent and Trademark Office'' and ''Director'' mean the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

(2) TRADEMARK ACT OF 1946.—The term ''Trademark Act of 1946'' means the Act entitled ''An Act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes'', approved July 5, 1946 (15 U.S.C. 1051 et seq.).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Georgia (Mr. JOHNSON) and the gentleman from Texas (Mr. POE) each will control 20 minutes.

The Chair recognizes the gentleman from Georgia.

GENERAL LEAVE

Mr. JOHNSON of Georgia. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. JOHNSON of Georgia. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill will help the Patent and Trademark Office retain educated and trained employees who face the possibility of furlough and reduction in force due to the current economic downturn.

It is with great urgency that I bring this bill to the floor today. We have recently been informed by the Department of Commerce and the Patent and Trademark Office that the current downtrend in patent fee revenues could lead to employee furlough.

The USPTO is a user-fee funded organization, and the downturn in the economy has led to a steep drop in revenues. USPTO management has already shaved over $120 million from its current budget through various cost savings; however, June's receipts show that those cuts may not be sufficient.

A budget shortfall is a very real possibility, which could necessitate furloughs and, if severe enough, a reduction in force.

Now is not the time to impede the essential economic stimulating activity at the Patent Office. Now more than ever, we need to foster innovation to help the U.S. economy rebound.

This century has seen an explosion in the number of patent applications filed, and even though the PTO has hired over 1,000 examiners each year for the past several years, this explosion has led to a current inventory of about 1.2 million pending applications. That is 1.2 million potential patents that could provide the foundation for new businesses and new jobs.

Because of this backlog, inventors are waiting an average of 32 months to get their patents approved, and in some areas, such as communications and computer-related technologies, the wait is much longer. This backlog means a delay in the creation of new products or startup companies that would generate new jobs and research and development investment.

Now is not the time to exacerbate this problem. Furloughing employees will only increase the backlog and the consequent delays. In order to help the USPTO get through the next year, we have identified an approximately $60 million surplus in the trademark operation at the USPTO.

The bill we are considering today would permit the Director of the USPTO to use a portion of that surplus to prevent the furlough of USPTO employees. Rest assured, Mr. Speaker, this is not robbing Peter to pay Paul. Any trademark money used for patent operations will be recovered by a surcharge on the patent fees paid by those who benefit from the efforts of the patent workforce.

I think it is pretty shameful that throughout the years we have not fully funded the number of employees that this agency needs to fulfill its mandate and so now in the 111th Congress we are seeking to use this lull period, if you will, because the number of applications will pick up, but we can use this period with our employees, our current employees, to put a dent in those 1.2 million applications that exist currently that are on file. This inefficiency in government with respect to the Patent and Trademark Office stifles commercial activity, and it just doesn't make any sense for the agency to not have been funded to begin with and staffed with an adequate amount of employees to meet the demand.

It is our understanding, Mr. Speaker, that with the Department of Commerce and the USPTO agreement, that the money raised by the surcharge will be used to pay the trademark operation for the money borrowed from it. The surcharge will be no more and no less than what is needed to repay the loan.

□ 1530

This bill is a limited and temporary exception to the statutory fence built around trademark fees. It will last only until June 30 of next year and requires that all fees used for patent payroll purposes will be recovered through surcharges on the patent operation. And it ensures, Mr. Speaker, that furloughs or reduction-in-force will not occur in the trademark operation as a consequence of the patent operations needs.

This bill will ensure that we retain the highly qualified and experienced patent examiners that helped innovators protect important technological gains, and we certainly need to do all that we can, now especially, to make it more efficient for those who would create new products in this rapidly changing environment that will lead to jobs for our citizens.

I urge my colleagues to join me in supporting this important measure.

Mr. Speaker, I reserve the balance of my time.

Mr. POE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Given the ongoing economic downturn in this country, patent fee collections at the Patent and Trademark Office are running short, based on earlier estimates. If things do not improve, the agency must initiate furloughs of its staff in the fall, an outcome that no one wants.

Aside from affecting the individual workers, mostly examiners, these furloughs would create another setback in the effort to reduce application backlogs and expedite the processing of new applications.

The agency has already reduced its operating plan for fiscal year 2009 by $120 million and is pursuing another $125 million in cuts. But the PTO cannot accurately estimate at this time how much additional revenue it needs to survive through this fiscal year. H.R. 3114 responds to this crisis by allowing the director to shift necessary funds from the trademark ledger to patent operations through June 30, 2010, less than 1 year from now.

The bill also requires the Patent Office to reimburse the Trademark Office for any funds reassigned to it within the CBO's 5-year scoring window. The bill also is an appropriate legislative response because trademark operations currently have a projected surplus of $60 million to $70 million.

In addition, there is precedence for allowing such an intra-agency revenue transfer. Twice in the past 10 years, the Trademark Office borrowed more than $24 million from patent operations. This is an unfortunate but necessary response to a funding crisis at an agency that is crucial to the economic vitality of this country.

American IP industries now account for over half of all U.S. exports and 40 percent of our economic growth. These industries provide millions of jobs for Americans with high-paying salaries. Patents encourage innovation and provide incentives to create, build, and market new products.

Delays in obtaining patents stifle entrepreneurship in our country. We want new ideas, new technologies, and new patents. America has always been the Nation of great inventors. Now we must protect those inventors and their inventions with timely patents.

Mr. Speaker, this bill won't cure all that ails the Patent and Trademark Office long term. For that we need the other body to confirm the new PTO director who will work with Congress to implement fundamental change to the agency; but failure to enact H.R. 3114 at this time will place PTO in an even deeper hole that jeopardizes agency jobs, harms the interests of inventors, and damages a crucial component of our national economy.

I urge my colleagues to support H.R. 3114.

Mr. ISSA. Mr. Speaker, I rise today in support of H.R. 3114, a bill to promote the success and vitality of the United States Patent and Trademark Office, "USPTO."

The USPTO is integral in strengthening America's battered economy. Although there are those in this body that believe the federal government can spend our way out of the current financial crisis, this is a fallacy. It is through private commerce and investment that we will find the light at the end of the tunnel. For many sectors of our economy, patent protections provide tremendous incentive to invest.

The USPTO is already faced with a tremendous backlog of patent applications. A reduction in labor force at the USPTO would only compound this problem. It is for this reason that we must make sure that the USPTO is not forced to lay off or furlough patent examiners. Allowing the USPTO Director to use funds made available under the Trademark Act of 1946 will help to ensure this does not occur.

Innovation is the lifeblood of the U.S. economy. It is innovation which has and will continue to promote prosperity and wealth in the United States and aid in combating the recession in which we find ourselves today. I encourage my colleagues to support the USPTO and support this legislation.

Mr. MORAN of Virginia. Mr. Speaker, I rise in strong support of H.R. 3114, and commend the Chairman for his leadership in acting so swiftly to rectify this situation.

The U.S. Patent & Trademark Office, located in my District, is funded entirely by the user fees it collects; it does not draw any taxpayer funds from the general Treasury.

Like many other businesses and industries, the PTO has seen significant reductions in its revenues as a result of economic belt-tightening by its customers. In response, PTO has already enacted over $140 million in budget cuts and cost-savings measures. PTO has instituted a hiring freeze, curtailed non-bargaining unit performance awards, stopped overtime for many workers and significantly reduced contracts, travel, supplies and other non-essential overhead expenses.

In the meantime, we must ensure that the USPTO can continue to maintain its personnel level and perform its critical mission of examining and granting patents that promote innovation and create jobs. As a result, a serious budget situation has developed. Absent adoption of this legislation approximately 9,000 patent office employees would be subject to furloughs during the last pay period of FY09 (last two weeks of September).

The Department of Commerce is monitoring the situation on a daily basis, and out of an abundance of caution, and to prevent a possible violation of federal law, the Department of Commerce is asking for a one-time funding fix from Congress to avoid the furlough of Patent Office employees.

The Trademark Office, as distinct from the Patent Office, within PTO has a surplus of $60–$70 million. Without asking for new monies from Congress, the Treasury, or other agency programs funds, this bill before us would provide an immediate and one-time-only borrowing option that is accompanied by a statutory repayment period. In 1999 and 2005, the opposite situation occurred, and the Trademark Office received assistance from Patents totaling $24 million.

In order for Americans to prevail against this economic downturn, and to remain competitive globally, we need to ensure new technologies, innovation, and products are fully funded. The new concepts and ideas promoted by the work of PTO are drivers for American economic recovery and growth.

At such a time as this, America should be looking for its next Thomas Edison, Bill Gates, or Steve Jobs.

This bill simply lets the USPTO's patent operation borrow from an existing balance held by the trademark operation, and only if reasonably necessary to avoid employee furloughs or a reduction in force. Payback of any borrowed funds is assured by a temporary surcharge on patent fees.

This is a crucial juncture for the PTO. We need to remain at the cutting edge of global technological progress and achievement, or we risk lagging behind other nations.

The bill amounts to an insurance policy for the USPTO to make sure it can cover its payroll for over 9,000 federal employees. I ask my colleagues to support it.

Mr. POE of Texas. Mr. Speaker, I yield back the balance of my time.

Mr. JOHNSON of Georgia. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. JOHNSON) that the House suspend the rules and pass the bill, H.R. 3114.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. POE of Texas. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 3 o'clock and 35 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 1831

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mrs. HALVORSON) at 6 o'clock and 31 minutes p.m.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H. Con. Res. 135, by the yeas and nays;

H.R. 3114, de novo;

H.R. 1129, de novo.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

PROVIDING FOR DESIGN OF SLAVE LABOR MARKER IN CAPITOL VISITOR CENTER

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the concurrent resolution, H. Con. Res. 135, on which the yeas and nays were ordered.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. JOHNSON) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 135.

The vote was taken by electronic device, and there were—yeas 399, nays 1, not voting 32, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Two minutes remain in this vote.

□ 1857

Messrs. MINNICK and GRAYSON changed their vote from ''nay'' to ''yea.''

So (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

U.S. PATENT AND TRADEMARK OFFICE FUNDING

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, H.R. 3114.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. JOHNSON) that the House suspend the rules and pass the bill, H.R. 3114.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

NATIVE AMERICAN IRON WORKER TRAINING PROGRAM

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, H.R. 1129.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1129.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

RECORDED VOTE

Mr. CAMPBELL. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 329, noes 75, not voting 28, as follows:

[Roll No. 479]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There is 1 minute remaining in this vote.

□ 1909

Messrs. KINGSTON and ROYCE changed their vote from ''aye'' to ''no.''

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. MICA. Madam Speaker, due to inclement weather canceling US Airways flight No. 2041, I was unavoidably detained and was unable to vote on rollcalls 478 and 479. Had I been present, I would have voted ''yea'' on each of these measures.

ANNOUNCEMENT REGARDING AVAILABILITY OF CLASSIFIED ANNEX TO H.R. 2701, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2010

(Mr. REYES asked and was given permission to address the House for 1 minute.)

Mr. REYES. Madam Speaker, on Friday, June 26, I submitted a statement for publication in the CONGRESSIONAL RECORD that informed all my colleagues of the availability of the classified annex to H.R. 2701, the Intelligence Authorization Act for Fiscal Year 2010.

I would like to remind my colleagues that the classified annex is now available for Member review in the committee spaces. Staff should contact the committee to schedule an appointment for any Member interested in viewing the classified annex.

Members will be required to complete the appropriate security paperwork in order to view any classified information.

□ 1915

HONORING MICHAEL JACKSON, KING OF POP

(Mr. JOHNSON of Georgia asked and was given permission to address the House for 1 minute.)

Mr. JOHNSON of Georgia. Madam Speaker, I know some people in this esteemed Chamber would consider all of the hoopla surrounding the death of Michael Jackson to be unnecessary. I know that some people consider this to not be important. But that's to them.

There are a lot of people out here whom Michael Jackson brought together. Despite any kinds of allegations, which I consider to be false in terms of child molestation and that kind of thing, despite all of that, we have to look at the good things that Michael did.

I know there are some generations that preceded mine that have no idea about the music of Michael Jackson because they never listened, and they don't know the international aspects of what he did. They don't know that he was a fundraiser for worthy causes.

The only thing they know about him is ''child molester,'' and nothing could be further from the truth. The man was never found guilty of child molestation. He paid a settlement, but that had nothing to do with guilt or innocence. So I just want us to be very Christian.

MEDIA SHOULD REPORT HEALTH CARE FACTS

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Madam Speaker, recently 12 separate articles in The New York Times, The Washington Post, and The Los Angeles Times have reported that 46 million people don't have health insurance in America. And the administration is trying to justify a government takeover of health care because of this figure.

But not one of the articles explained that this number is a hoax. Fourteen million people are eligible for existing government programs like Medicare and Medicaid but have not enrolled. Almost ten million uninsured are not citizens. Nine million have high incomes and can afford health insurance but choose not to purchase it. And millions more are without insurance for only a few months between jobs.

When you whittle down the 46 million figure, you get about 10 million people who truly need health insurance. We could buy all of these individuals a gold-plated health insurance policy for one-thirtieth of the cost of the President's health care plan.

The media should give Americans all of the facts on health care, not just give them part of the story.

PERMISSION FOR MEMBER TO BE CONSIDERED AS FIRST SPONSOR OF H.R. 1283

Mr. PATRICK J. MURPHY of Pennsylvania. Madam Speaker, I ask unanimous consent that I may hereafter be considered to be the first sponsor of H.R. 1283, the Military Readiness Enhancement Act, a bill originally introduced by Representative Ellen Tauscher of California, for the purposes of adding cosponsors and requesting reprintings pursuant to clause 7 of rule XII.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

THE NATIONAL DEBT

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Madam Speaker, I rise today to call attention to a dangerous precedent that was set recently and another record that will be set this week.

Two weeks ago the Treasury Department auctioned off a record $104 billion worth of U.S. debt in just one week. This week it is going to set the record for the number of auctions held in a given week.

More debt means a weaker dollar and rising interest rates, which will further stifle the housing market, hinder an economic recovery, and shackle future generations with debt. In fact, our debt has reached a level so high that the Federal Reserve has resorted to printing money to buy U.S. Treasurys, a practice that is both dangerous and counterproductive in the long term.

It's time for Congress to rein in reckless spending that's been the status quo here in Washington. Without drastic changes, our debt will continue to rise, and our children and grandchildren will pay the price.

PRESCRIPTION OF THE DAY: MEDICAL JUSTICE REFORM

(Mr. BURGESS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURGESS. Madam Speaker, one of the problems today in health care is that too many doctors are forced to practice defensive medicine and face the constant threat of lawsuits and unsustainable medical liability insurance rates. This results in millions of dollars of unnecessary tests and procedures. Furthermore, seasoned medical professionals are retiring early because staying in practice is no longer financially feasible, further contributing to our Nation's physician workforce shortage. It's a growing crisis that is pushing affordable care beyond the reach and grasp of millions of Americans.

National across-the-board change in the medical justice system would lower the costs and improve care by lessening the threat of unnecessary lawsuits. The Medical Justice Act, H.R. 1468, does just that, modeled after the successful Texas reforms passed in 2003. The results are documented reductions in liability insurance rates, reported growth in the number of doctors licensed each year in the State of Texas, increased charity care, amongst others.

To learn more about this very important act and how it is affecting health care in Texas, please visit healthcaucus.org or my Web site, burgess.house.gov.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order

of the House, the following Members will be recognized for 5 minutes each.

THE BABIES ARE EXPENDABLE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Madam Speaker, a critically ill baby was born in Canada just last month. Her name is Ava Isabella Stinson. She was born 13 weeks premature and weighed only 2 pounds. Unfortunately, Canada rations health care. And since the government must grant permission for one to have health care access, Ava was unable to get the treatment she needed to survive.

Shortages and rationing under a government system means waiting lists. There was no room at the government hospitals for special needs babies. Not in the entire province of Ontario, Canada. Little Ava had no time to be on a waiting list.

Fortunately for her, Ava's parents were able to quickly transport her to Buffalo, New York. Little Ava's life was saved by the best doctors in the world right here in America.

News reports say that the neonatal intensive care unit in Ontario, Canada, is closed to new patients half of the time. Half of the time, Madam Speaker. That doesn't happen in the United States. A case like Ava's is not unusual in Canada. Babies with special needs, like being born early, are usually sent to America for care.

Autumn, Brooke, Calissa, and Dahlia Jepps were born in America to Canadian parents back in 2007. The girls are doing just fine now. They are an extremely rare set of identical quadruplets. There was no room for them in any neonatal facility in all of Canada. Their parents flew to Great Falls, Montana, from Calgary so they could be born safely in America. Think about that for a minute. Great Falls, Montana, a city of 56,000 people, offers better access to health care than Calgary, a city of over a million people. Why? Government rationing in Canada.

Government control of health care means less access to health care, unless you are on the government special favorites list. Anyone who has tried to find a doctor or a specialist who uses Medicare knows exactly what that's like.

Bureaucrats try to tell us that more babies survive under government-run health care. They cite higher infant mortality rates in other countries as proof. But these countries skew the statistics. Babies born in some countries are considered stillborn unless they survive longer than 24 hours. You see, they don't count. In Canada, if a baby weighs less than 500 grams when born, that's about a pound, and the baby doesn't survive, they don't count it as a baby. The government calls these babies ''unsalvageable.'' Not able to be saved. ''Unsalvageable.'' What a word.

There's a lot of truth in the use of that word because under a government-run health care system, these babies just aren't worth saving. They are expendable. But they are saved in America. At least for now.

Madam Speaker, the health care debate in America is literally a matter of life and death. It's not about improving quality. America's health care system offers the best quality in the world. That's why everybody comes here.

But when the government runs a health care system, it's all about how much it costs and who the special favorites of government are. Also, government-run health care doesn't pay the doctors or nurses enough to stay in business. That means health care is rationed because there aren't enough doctors to go around. Government then decides who gets treatment and who just loses out. Like the medical ethics expert in Britain I talked about earlier today. She is a government decision-maker, and she says some of the elderly just have a duty to die. In Canada the government lets special needs babies born early just die because they apparently aren't worth the cost of saving. So now the elderly and certain babies are not important enough to be saved under socialized medicine.

In a government-run system, the government decides who gets treatment in medicine and who doesn't. That means the government decides who lives, who dies.

The government does not have the moral right to make those decisions. Not one of the politicians who want to force America into a government-run health care boondoggle is going to be denied treatment or medicine. Not one of them. Like the book ''Animal Farm'', which had the philosophy all are equal, but some are just more equal than others. That's not what America is all about. It's the age-old struggle of freedom over tyranny.

When government bureaucrat gatekeepers have control over who lives and who dies in America, freedom is the first casualty. Just ask the elderly and the babies of Canada and England.

And that's just the way it is.

WE MUST DO MORE TO HELP THE IRAQI REFUGEES

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California (Ms. WOOLSEY) is recognized for 5 minutes.

Ms. WOOLSEY. Madam Speaker, after more than 6 years of foreign occupation, occupation that never should have happened in the first place, American combat troops have been withdrawn from Iraqi cities. This has led some people to believe that the conflict is over. But our troops remain in danger so long as they continue to stay in Iraq. And the suffering of the Iraqi people, especially the refugees, hasn't ended either.

A report issued last month by the International Rescue Committee described the bleak lives of the Iraqi refugees who have come to the United States to escape the violence in their home country. We admitted over 13,800 Iraqi refugees in the year 2008. Many of them had to come here because they worked for the United States military or the United States Government in Iraq and they became targets for retaliation as a result.

A large number of the refugees are war widows with young children. They are grieving over the loss of their loved ones, and many are suffering war-related emotional distress or injuries. While the refugees are grateful to be in America, most are frustrated and even in despair. The International Rescue Committee says, A flawed U.S. refugee admissions program is resettling Iraqi refugees into poverty rather than helping them rebuild their lives.

□ 1930

The committee says that the Federal program designed to help the refugees doesn't meet their basic needs. The resettlement program is badly underfunded and newly arriving refugees get a mere pittance. The United States State Department provides $900 to each refugee. The refugees are also eligible for State assistance, which varies from State to State, but which averages about $575 a month.

In addition, the refugees are eligible for Medicaid or a Federal medical assistance program, but the program runs out after 8 months. With this tiny amount of assistance, the refugees are supposed to pay rent, utilities, food, clothes, transportation and all the other expenses of daily life.

Put yourself in their shoes. If you were a refugee, already suffering from trauma and injury, could you and your family make it in a country that is as high cost as the United States of America with so little help?

The refugees are searching for jobs to help pay the bills, but we know how hard that is. And in Atlanta, for example, only 25 percent of the Iraqi refugees have been able to find jobs when they were here for over 6 months. Resettlement agencies, which received State Department funding, are struggling to do as much as they can, and they are providing a number of very important services, but their resources are dwindling because of the recession.

As a result of all these problems, Madam Speaker, many of the refugees are destitute and facing eviction from their homes. Some are wondering if they should have stayed in Iraq, even though their lives would have been in danger.

Madam Speaker, the Iraqi refugee in our country deserves better. The International Rescue Committee has called

for an increase in Federal assistance to help alleviate the situation. We must support them by doing more.

We had a hand in their upheaval. Now we must give them a hand in their new country. We have a moral obligation to act.

MADOFF VICTIMS ARE VICTIMIZED AGAIN, THIS TIME BY OUR OWN GOVERNMENT

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Florida (Ms. ROS-LEHTINEN) is recognized for 5 minutes.

Ms. ROS-LEHTINEN. Madam Speaker, my remarks are entitled ''Madoff Victims Are Victimized Again, this Time by Our Own Government.'' Americans rely on the Security and Exchange Commission, the SEC, to safeguard their stock transactions through registered broker dealers.

The SEC, however, did not do that in the case of Bernard Madoff. Irrespective of his receiving 150 years in prison for life-damaging financial crimes, many Americans who lost their life savings, who were first victimized as a result of the SEC failures, are being today victimized a second time by our own judicial system and its court-appointed trustee.

The victims' plight is compelling. Think about this, Madam Speaker, irrespective of numerous warnings the SEC received dating back 17 years, all of our Federal agencies stood by and did nothing while thousands of investors deposited their money, usually their life savings, with Bernard L. Madoff Investment Securities.

In fact, after a supposed investigation in 1992, the SEC issued a clear-cut and definitive Statement of Innocence about Madoff's business. This was an unusual occurrence. Indeed, it may be the only time in history that the SEC went as far as issuing a Statement of Innocence to clear a business that it was investigating.

Then, starting in 2002, the SEC continued to ignore seven individual and specific fraud warnings by a credible, financial whistleblower. Again, in 2004, in another government failure, the IRS approved Madoff to be one of only 260 nonbank IRA custodians, the very place that people put their retirement money for safekeeping. Why would the IRS have approved Madoff when it had the legal right and, indeed, the fiduciary obligation to inspect the books and the records of all nonbank IRA custodians?

The approval process, which the IRS shirked, was specifically designed to prevent this exact type of fraud. As Madoff's downfall exposed, both the IRS and the SEC failed to inspect Madoff in even the most basic fundamental fashion. Unfortunately, two different U.S. Government agencies both seemed to have given their approval for Americans to invest with Madoff. They indicated that he had a financial clean bill of health.

Now that Madoff's scheme has imploded, the government seeks to convey the appearance of serving justice on behalf of those who were duped.

Through the Federal Bankruptcy Court, the government has hired a private sector attorney to act as a Madoff bankruptcy trustee and will pay the trustee a fee based on his hours extended to claw back money. Well, this is not what it appears to be. Justice is not being served.

While it is true that the trustee cannot ask for a specific percentage of the total clawed back, he can ask for any specific amount he desires, and it can be based on his own internal computation using a percentage.

Since the trustee won't have enough manpower to sue thousands of people at the same time, he will also hire associate firms to assist in this litigation. All the fees charged by the law firms who are handling this case will first be paid, and then the trustee will receive his fee.

The government should, instead, offer tax or financial relief to those who were victimized, not under an arcane net equity basis, but based on their statements as of November 30, 2008. The IRS should compute tax refunds so as to return 100 percent of each individual's first loss of $2 million; then 90 percent of their loss between $2 and $4 million; 80 percent of their loss dollars between $4 and $6 million, and so forth, until a 20 percent return level has been reached, and at that point return should remain at 20 percent.

This would be most beneficial to smaller investors, who are most impacted by their losses.

If private citizens are required to reimburse other private citizens for harm they caused, why should the government be able to drastically injure people and have no responsibility to restore those individuals' positions or pay restitution to them?

The SIPC, or the quasi-governmental body that offers insurance to those defrauded by the SEC, also stands to gain greatly by not paying the insurance. Even to the casual observer, this is a potential conflict of interest. A mistake has been made, and it must be corrected.

Their computation of net equity for purposes of insurance and clawback for Madoff victims is quite different than the formulas they have used each and every time in the past for other cases which were similar in nature. Since when did rules, regulations, and laws become changeable based on circumstances that would save the insurer the most money and allow the trustee to go after the largest clawbacks? To even the casual observer, there is a conflict of interest.

The President says that it's time to take responsibility and admit when a mistake has been made. ''A mistake has been made.''

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2997, AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

Mr. MCGOVERN, from the Committee on Rules, submitted a privileged report (Rept. No. 111–191) on the resolution (H. Res. 609) providing for consideration of the bill (H.R. 2997) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes, which was referred to the House Calendar and ordered to be printed.

PROVIDING FOR CONSIDERATION OF H.R. 2965, ENHANCING SMALL BUSINESS RESEARCH AND INNOVATION ACT OF 2009

Mr. MCGOVERN, from the Committee on Rules, submitted a privileged report (Rept. No. 111–192) on the resolution (H. Res. 610) providing for consideration of the bill (H.R. 2965) to amend the Small Business Act with respect to the Small Business Innovation Research Program and the Small Business Technology Transfer Program, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REMEMBERING ROBERT MCNAMARA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. QUIGLEY) is recognized for 5 minutes.

Mr. QUIGLEY. Robert McNamara once said, ''You can correct a wrong only if you understand how it occurred and you take steps to make sure it won't happen again.''

Today, as we mark the passing of the late Secretary, I think it's time to apply the lessons he learned in Vietnam to our own times. He said, ''We are not omniscient. If we cannot persuade other nations with similar interests and similar values of the merits of the proposed use of that power, we should not proceed unilaterally.''

We had to learn that lesson again in Iraq.

He also said, ''Our judgments of friend and foe, alike, reflected our profound ignorance of the history, culture, and politics of the people in the area, and the personalities and habits of their leaders.''

That's another lesson we learned again in Iraq.

Secretary McNamara's Vietnam regrets also extended to the homefront. He confessed that ''We failed to draw Congress and the American people into a full and frank discussion and debate

of the pros and cons of a large-scale military involvement before we initiated the action.''

Unfortunately, we did the same thing with Iraq.

Instead of being straight with the American people, we spent years reducing the debate to a false choice between ''stay the course'' and ''cut and run.'' Today, as in McNamara's time, we face the consequences of our silence.

McNamara also recognized that we did not learn from his initial mistake. We stuck to the same tired plan of action, even if it had minimal relevance to the situation on the ground.

''After the action got underway,'' McNamara said, ''and unanticipated events forced us off our planned course, we did not fully explain what was happening and why we were doing what we did.''

We have learned that same lesson again in Iraq and too often find ourselves bogged down by unattainable goals and unable to explain why we are there and what we plan to do about it. Unfortunately, we have had to learn many of the same lessons twice.

In the early years of the Vietnam war, just as in the early years of the Afghanistan and Iraqi wars, you could state with confidence that our military was the most powerful in the world. But military strength does not always translate into victory on the ground.

Secretary McNamara had learned a terrible lesson, that fighting a war without committed allies, without planning, without public discussion and against an enemy force defending its home territory, is not a winning proposition.

In fact, in 1962, McNamara said, ''Every quantitative measurement we have shows we're winning this war.''

But Vietnam wasn't ultimately about quantitative measures. It wasn't enough to burn out its jungles with napalm or blockade its ports with gunships. The bigger issue was strategy, planning and foresight. We didn't know why we were fighting in the first place nor what we are fighting to achieve in the long run.

We had no perspective from which to evaluate our progress and reevaluate our goals. All we had were empty measures of troops, bombs and jets. The lesson of Vietnam has had to be learned and relearned too many times.

Secretary McNamara finally admitted in 1995, ''We were in the wrong place with the wrong tactics.''

At this time of his passing, we should take a moment to reflect on his legacy and take steps to ensure the wrongs of Vietnam don't happen again. The key lesson from Secretary McNamara is that we do that we do not live in a simple world with simple solutions. Military force is only one piece of the puzzle. Success depends on many variables.

McNamara saw this complexity in Vietnam. ''We failed to recognize that in international affairs, as in other aspects of life, there may be problems for which there are no immediate solutions. At times we may have to live with an imperfect, untidy world.''

That same complexity exists in the present conflicts in Afghanistan and Iraq. We need an open and frank discussion of our goals as well as how we plan to achieve them. The American people deserve to know if we are in the wrong place with the wrong tactics. Let's not sacrifice another generation to a war we think we are winning on paper.

HONORING JOHN W. FISHER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. PENCE) is recognized for 5 minutes.

Mr. PENCE. Madam Speaker, I rise today with a heavy heart to pay tribute to a friend and to the memory of a great man who will long be remembered across the State of Indiana as a civic leader and a philanthropist whose impact will be felt for generations.

For decades, John W. Fisher has been a leader in the business community of eastern Indiana. Remembered by many as a giant of industry, John will be greatly missed, not only by his family and friends, but all those whose lives he touched.

A native of Walland, Tennessee, John was known for his athleticism, an all-American. He graduated a Volunteer from the University of Tennessee in 1938, but it was his connection to the Ball family that brought him to Muncie, Indiana.

Married to his beloved Janice, John did not plan to live in Muncie; rather, he had always thought he would eventually settle in his native Tennessee. However, he was convinced to take a more active role in the Ball Corporation by his brother-in-law, Edmund, one of the founding members of that company.

By then, John had earned an MBA from the Harvard Graduate School of Business, and with a keen business intellect, he quickly became a prominent figure in the Muncie business community and all across our State.

□ 1945

While serving in various capacities for Ball Corporation, John W. Fisher distinguished himself as a risk-taker. Richard Ringoen, former Ball Corporation president, noted John's performance once, saying, ''This company has grown because John Fisher was willing to take calculated risks. He has been willing to immerse himself in details that a lot of executives would simply avoid.''

John was elected to serve as corporate vice president in 1963 and by 1970 was named president and CEO of the Ball Corporation. By the time he retired as chairman of the board, Ball Corporation had experienced a period of rapid growth, significant diversification of its products; and thanks to John Fisher's leadership, that year Ball Corporation's annual sales exceeded a billion dollars.

Retirement wouldn't mark the end of his civic contributions to the community or his entrepreneurial spirit. Until his death, John W. Fisher served as chairman of the Cardinal Health Care Systems, trustee of DePauw University, director and former president of the Indiana Chamber of Commerce, a life director of the National Association of Manufacturers, and a benefactor and booster of Ball State University.

Never one to let a good business opportunity pass by, John relied on his experience and remarkable insight to become involved in one project after another. When asked about his approach to business, John said, I take major risks. I don't hesitate to take a very careful look at fresh ideas, especially when capable people are associated with the idea.

It was that entrepreneurial spirit that led John to become involved with so many different industries. From furniture companies to fish farms and many things in between, John Fisher simply seized life with both hands.

Madam Speaker, John Fisher will also be renowned for his business acumen, but also remembered by friends and colleagues and those close to him as a kind-hearted man with a deep commitment to the community.

The Fishers donated millions of dollars to Ball State University, establishing the John and Janice Fisher Chair in Exercise Science and created the Fisher Distinguished Professorship in Wellness and Gerontology. Until his passing, he served on the national campaign committee for Ball State Bold: Investing in the Future—which is the university's fundraising campaign.

Upon learning of his passing, the president of Ball State University said that John W. Fisher's commitment to Ball State University had been ''unequaled in the university's 90-year history.''

More recently, to honor his service, Ball Memorial Hospital dedicated the John W. Fisher Heart Center in January 2009.

Now, many will remember John W. Fisher for these business undertakings and the rest, but I will remember him as a dear friend and a mentor. I first met John Fisher back in 1988 when I entered public life. Since that time, our relationship has been a continuous source of wisdom and guidance to me.

While he had no political ambitions for himself, he had a lifelong interest in public affairs and was keenly aware of the issues facing the country. As an active participant in the Muncie Rotary—and every time I showed up there

he always had a good question to ask in public—but I'll most cherish the privilege of having spent innumerable occasions sitting in John's office and learning from him about the world and business and public life, and drawing on his wisdom, his faith, and his integrity. John Fisher shaped my life and my career in countless ways.

John W. Fisher personified everything that's great about the United States of America. He was a strong, principled leader, generous philanthropist, devoted family man, and he was always willing to take a stand for what he believed in.

Blessed with a wonderful family, John Fisher is survived by his wife, Janice, their seven children, 19 grandchildren, and 28 great grandchildren.

The Bible tells us that ''the Lord is close to the brokenhearted,'' and so is my prayer for his extended family and community of friends today.

Madam Speaker, one of my favorite John Fisher quotes is: ''Ride hard, shoot straight, tell the truth, and be good to your fellow man.'' And that's how he spent his 93 years on this Earth.

Indiana lost a giant—and in John W. Fisher I lost a cherished friend. And it's been my privilege to pay tribute to him on the floor of the House this evening.

STATEMENT IN MEMORY OF STEVE STREATER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. JONES) is recognized for 5 minutes.

Mr. JONES. Madam Speaker, I rise today in memory of Steve Streater, who passed away in Asheboro, North Carolina, on June 20, 2009, at the age of 50. I extend to all of his friends and family my deepest sympathy for their loss.

Many North Carolina residents will remember Steve as a University of North Carolina football hero, who helped lead the team to the 1980 Atlantic Coast Conference ACC title. What some might not know is that Steve was a star player in both baseball and football as a student at Sylva-Webster High School.

As a baseball pitcher, he set North Carolina High School Athletic Association baseball records that still stand today—with a reported 12 shutouts in a season, 23 wins in a season, and 61 career wins. He also had eight no-hitters.

Steve was a good student and like his brothers Eric and Jimmy, he went on to play football for a Division I college, the University of North Carolina at Chapel Hill.

At the University of North Carolina, Steve became the only ACC player in history to earn all-conference honors at two positions. He was a first-team punter and safety for the 1980 Tar Heels football team, the last to win an ACC championship.

During his senior season, he had five interceptions, including three in the season closer against Duke University. Steve was also the defensive Most Valuable Player of the 1980 Bluebonnet Bowl, with an interception that set up the winning touchdown against Texas.

Sadly, after his triumphant season, Steve's athletic career abruptly ended when he was involved in a freak car accident. In April of 1981, he was returning home from a tryout with the Washington Redskins. Hours after he agreed to sign a free agent contract, his car hit a slick spot, slid into an embankment, and was hit by another car. He suffered a back jury in that accident and was left paralyzed from the waist down for the remainder of his life. I remember that the Washington Redskins thought so much of Steve, they still paid his signing bonus after the injury.

Although Steve could no longer impress fans with his skills on the field, he made an even greater difference as he served as a role model for countless young people. From this tragedy, Steve became an inspiration to high school students throughout North Carolina. In addition to coaching, he was appointed State field coordinator for SADD, Students Against Drunk Driving, which launched in North Carolina in 1983. His car accident was not alcohol related, but in this role he was not only an inspiration to students, but to people like me.

While serving in the North Carolina General Assembly, I had the privilege and honor of introducing Steve several times when he spoke to student groups in my district. I am certain that he benefited from the love and support of his family and friends because, despite his accident, he never showed the pain of what he had lost.

Steve touched many of us young and old in such a positive way that his life will never be forgotten by those of us who had the privilege to know him. Steve Streater was an outstanding individual and he will be dearly missed.

REVISIONS TO ALLOCATION FOR HOUSE COMMITTEE ON APPROPRIATIONS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. SPRATT) is recognized for 5 minutes.

Mr. SPRATT. Madam Speaker, under section 423(a)(1) of S. Con. Res. 13, the concurrent resolution on the budget for fiscal year 2010, I hereby submit an adjustment to the budget allocations for the Committee on Appropriations for each of the fiscal years 2009 and 2010. Section 423(a)(1) of S. Con. Res. 13 permits the chairman of the Committee on the Budget to adjust discretionary spending limits for overseas deployments and other activities when these activities are so designated. Such a designation is included in the bill H.R. 3082, Making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2010, and for other purposes. A corresponding table is attached.

This adjustment is filed for the purposes of section 302 of the Congressional Budget Act of 1974, as amended. For the purposes of the Congressional Budget Act of 1974, as amended, this adjusted allocation is to be considered as an allocation included in the budget resolution, pursuant to section 427(b) of S. Con. Res. 13.

DISCRETIONARY APPROPRIATIONS—APPROPRIATIONS COMMITTEE 302(A) ALLOCATION

[In millions of dollars]

	BA	OT
Current allocation:		
Fiscal Year 2009	1,482,201	1,247,872
Fiscal Year 2010	1,086,660	1,306,614
Changes for overseas deployment and other activities designations:		
H.R. 3082 (Appropriations for Military Construction, Veterans Affairs, and Related Agencies):		
Fiscal Year 2009	0	0
Fiscal Year 2010	1,399	145
Revised allocation:		
Fiscal Year 2009	1,482,201	1,247,872
Fiscal Year 2010	1,088,059	1,306,759

IN MEMORY OF WILLIAM LOUIS ISSA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. ISSA) is recognized for 5 minutes.

Mr. ISSA. Today is July 7, 2009. Today would have been the 24th birthday of my own nephew, William Louis Issa. Last week, I attended his funeral.

He had a connection to this House because he worked both in Cleveland, his home, and here in Washington for his Congressman, DENNIS KUCINICH. In his passing, I lost a nephew; Cleveland lost somebody who cared about the environment, who was passionate about wolves in the wild, who in fact had graduated from college and was going on to law school to be an environmentalist, to seek what liberty allows us in this country, which is the right to feel and do what you think is right for your country.

I speak from this side of the center of this body and I speak about somebody who I disagreed with on many policies. As a young man, while he was summering here and staying at our home, he wanted me to know that the eating of meat was wrong and that if I wasn't a vegetarian, then I wasn't getting it. And he admired DENNIS KUCINICH, who's a lifelong—or at least as an adult person—a vegan. And he on a host of other issues felt so strongly. But, most of all, he felt strongly about the individual liberties, particularly his.

Now his choice was a Prius and his choice was in fact to try to do and be everything for a sustainable ecology as he saw it. So when I thought about coming and using his nexus here to the House floor tonight to speak on what would have been his 24th birthday, I thought it appropriate to say that from

the left—and he certainly was a child of the left; perhaps a child of the sixties reborn in a next generation—and from someone on the right, I wonder if we shouldn't come together the way this young man did with everyone he met and talk in terms of America's liberty.

What in fact is this body doing—not to pass new laws. That wasn't what we were sent for. But to defend the inherent constitutional obligations: Life, liberty, the pursuit of happiness.

I believe that he ended his life far too soon and without accomplishing what he would have, had he lived longer. But tonight I will tell you that I'm brought to the House floor for perhaps only the third or fourth time in 8 or 9 years to say that those on the left and those on the right, we need to recommit ourselves.

At a time when we're talking about regulating CO_2, where we regulate the highways, the waterways, where we're looking at an 8 percent tax on health care to pay for the new health care proposal, while so much of what we once thought of as the free wild, wild west of the United States has been changed, particularly post-9/11, I wonder if this wouldn't be a good time for men and women of good conscience on both sides of the aisle to say: Shouldn't we relook at every liberty? Shouldn't we form a liberty caucus? Shouldn't Congress be dedicated to ask the question not as Republicans or Democrats, but in fact as Americans sworn to uphold the Constitution?

Isn't it time we start looking at every single law we passed and the regulation they produced and find out how many of them we could do without—not liberal laws, not conservative laws, but all of them. I believe that that is the highest calling for those of us here in Congress.

I will tell you tonight, perhaps as a small tribute to my nephew, that I will reach out and I will ask every Democrat I see and all of my colleagues on this side of the aisle: What have we done in fact to defend liberty? What have we done to give somebody the right to decide they want to spend three months with wolves in the wild or that they want to in fact go out and save our delicate ecosystem from the unnatural twisting that 300 million people here in America bring upon the world.

That liberty is important. It's important that we pay tribute to it every chance we have, and can.

Madam Speaker, I want to thank you for the opportunity to, in a small way, talk about liberty and a man who would have fought for it.

DRAINING THE SWAMP OF CORRUPTION

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Iowa (Mr. KING) is recognized for 60 minutes as the designee of the minority leader.

Mr. KING of Iowa. As always, I appreciate the privilege to be recognized here on the floor of the House of Representatives. We have had a little bit of a break here, a hiatus to go back home and spend some time on the 4th of July to celebrate the birth of our great country—233 years of freedom.

A lot of that freedom has been debated, deliberated, and argued over here on the floor of the House of Representatives in this world's greatest deliberative body. The most costly freedom was fought for and lives and blood were sacrificed for on this soil and in foreign lands as well for this Nation to emerge at what has been and had become a strong and vibrant constitutional Republic. Part of the requirements to maintain that strong and vibrant constitutional Republic are that we engage in debate here and that we bring together and aggregate the best ideas of the 300 million Americans that elect the 435 Members of the House of Representatives and the 100 Senators.

□ 2000

It's essential that we maintain that kind of vibrant dialogue in this deliberative democracy, as some would call it. It's essential that we maintain the highest levels of integrity in order that this great Republic can continue on the path that has been charted for it by so many of our Founding Fathers and our predecessors. However difficult the process that they were in might have been, they emerged and led this Nation clearly along a path, a higher road; and that higher road has been a road that held our own Members accountable for the highest standards of ethics. We have an Ethics Committee here in the House. I recall much of the debate that took place here on the floor back during the 108th and the 109th Congresses when allegations were made about Members and their levels of integrity. I remember prior to my arrival here many charges being filed in the Ethics Committee against Members of Congress who, it seemed to be, their only transgression was that they were effective in advancing the conservative cause. I recall, Madam Speaker, that when NANCY PELOSI was the leader and not the Speaker, she gave many speeches herself and alleged over and over again, Elect us into the majority, and we will come in, and we will drain the swamp, Madam Speaker. Well, here we are now. The majority has changed. The promise apparently is drifting away, and there are questions that continue to emerge and questions about the standards that are being adhered to, or not being adhered to, by certain Members of this body. Questions that are raised by publications that have a strong affinity for the majority party in this Congress, those who made a living out of attacking and criticizing Republicans when they were in the majority and Republicans when they were in the minority now are raising ethics questions about the activities of the Members of this new Democrat majority who is now halfway through their third year. So 2½ years into this majority, we're starting to see that the allegation about draining the swamp was only an allegation about using ethics charges to attack Republicans. I'm not seeing this same level of leadership, regardless of the promise made by the Speaker, to scrutinize the Members that are under the public's scrutiny now, and some who are reportedly under investigation by the FBI. Now I'm going to be a little gentle about how I discuss some of these issues, Madam Speaker, because it is a delicate subject. But it's essential that the subject be raised and that we have this debate and this dialogue here on this floor because in the end, it's not going to be the conscience of the people that are crossing the line or allegedly crossing the line. They aren't going to wake up in the night and have an attack of conscience or an epiphany and come down here and say, I'm going to clean up my act. I've gone too far. I slipped into some things that I shouldn't have been involved in. That is not going to happen. That is not what human nature does except in very, very rare circumstances. No. What will happen is, if this is to be cleaned up, and if it's to be addressed, the ethics questions, the cloud that hangs over Member after Member here, influential Members, members of the Appropriations Committee, Chairs of the Appropriations Subcommittees that exert significant influence over where taxpayer dollars go, this cloud that hangs over is only going to be cleared if the Speaker of the House follows through on her promise to drain her swamp—or if the public becomes so outraged that they demand that the situation be cleaned up.

Now we have had for a long time in this House—and I can think back at least 2½ years—we've had a dysfunctional Ethics Committee, a committee that was a black hole, that if there was a charge that was filed, it went in, and it was never acted upon. And they could investigate in complete confidentiality so no one could look over their shoulder, a committee that was balanced and nonpartisan in such a way that it was immobilized and couldn't take action at all. I cannot remember the last action of the Ethics Committee that had any effect in a constructive way of providing more cleanliness here in the House of Representatives.

Now if I get to these posters, I am going to go through some of the things that are constantly in the news. This summary comes out to be this: This is the ''draining the swamp'' leadership

hour of the Republican leadership, and we have a pattern of ignoring the corruption. There is a pattern of practice for Speaker PELOSI. We have eight appropriators who, it's reported, are now under investigation for potential conflict of interest violations. With the Nation's spending out of control and trillions going to special interest, we have questions and challenges that are coming up, flowing throughout the media. Let me say that new allegations of these defense millions are funneled to aides and relatives; contractors are now charged with kickbacks. We have seen thousands in defense contractor dollars go through PMA, and out of there came donations to the Appropriations Chair of the Armed Services Committee. Then we've seen $250 million in earmarks go back through that lobbying firm, PMA, which, it's reported, is clearly under investigation. A lobbying firm that has been closed down because of the investigation and those activities that are the subject of FBI investigations have shut down the lobbying firm PMA, a defense contractor lobbying firm, and have implicated a significant number of NANCY PELOSI's chosen Chairs, people whom she has handed the gavel to. This list is long, and I think it's expressive of what is going on. We had one of the Appropriations Chairs step down from the Ethics Committee because of reports of an ethics investigation but found himself chairing the Justice Appropriations Committee—the people that were reportedly investigating him, holding onto the gavel in one hand to control the Appropriations and Justice approps, at the same time holding the purse strings of the FBI, who is reportedly investigating the chairman of Justice approps. This goes on in the United States Congress, and the American people are not outraged? I think they are. I think they just have so many things to be outraged about that they can't bring their focus on one subject or another because it comes at them over and over again like a triphammer. These allegations that are documented—the same Member, the chairman of Justice approps, received a $70,000 donation to his family's foundation. At the same time millions were earmarked to the West Virginia High Tech Consortium. That's just a touch of what's going on there, Madam Speaker. And as I've watched this for 4 to 5 years, it just gets worse. When we see a chairman of Justice approps, for example, with 50 earmarks in a bill, and the people that are on the committee are afraid to challenge him for fear that their district will be punished, a certain culture grows up within the appropriators in this Congress, when their fear that they will lose their leverage and not be considered to be a loyal member of that committee, might be considered ineffective, if they are to raise the issues that they know should be raised. What happened to the altruism that I read about in our history books, the altruism that I was convinced existed and burned within the heart of all of our predecessors as they shaped this country? Yes, they disagree on policy; but I didn't think that they disagreed on ethics. That's the chairman of the Justice approps. We know about the Appropriations Chair of Armed Services and his connection with the earmark to the unused airport. I think we ought to take a CODEL to that airport. We have here a situation that has to do with the CBC. As we call it here, the Congressional Black Caucus, Madam Speaker, for those who are not on a day-to-day basis dealing with the acronyms of this House and, let me say, a separatist group that has formed themselves in a way that if it were any other group of people, they wouldn't be allowed to have an organization like this. But it's a matter of record that the Congressional Black Caucus took some trips down into St. Martin, Antigua and Barbuda. That was in 2007. And the question is: Were there corporate funds that sponsored these trips? And if so, it would be a clear violation of House rules. There is videotape, I'm advised, that shows the banners of the corporations hung up across the area where it's presented, and Members are thanking the corporations for sponsoring their trip. And who would be dealing with the investigation? Representative G.K. BUTTERFIELD, Democrat, North Carolina, member of the Congressional Black Caucus, and one who had gone on a previous trip into that same part of the world with the same group of people. So we would ask the same people who are being, let me say, evaluated for a potential ethics violations to investigate essentially themselves. So maybe they want to get back together and have a little reunion and decide if they did anything wrong. We don't have answers to the public. We simply have a black hole of ethics that hangs over their head. They also argue that it's improper for someone—and I'll argue this. It's improper for someone who attended the Caribbean conference to lead an investigation into it as to whether it violated House rules. What a contradiction. But the same gentleman who's leading the investigation, Mr. BUTTERFIELD of North Carolina said, You cannot completely divorce yourself from relationships. Yet he would be willing to recuse himself if he got the sense that there was a contradiction. We shall see.

And what do we hear from the Congressional Black Caucus when the issue was raised and the press asked them the question, Did you go on a corporate-funded trip to the Caribbean? Or was it two or three? Their response was—well, they complained about a lack of minorities in the office that was taking a look at this issue, the Office of Congressional Ethics, which was set up by NANCY PELOSI. So Speaker PELOSI's Office of Congressional Ethics is looking into the activities of the Congressional Black Caucus and their trips to the Caribbean, potentially funded by corporations. And what does the Congressional Black Caucus have to say? They don't think that the committee looking into them has enough minorities. The first question asked, and they have to play the race card. That doesn't speak to me as an issue that they have a very strong defense for. That's the knee-jerk response, Play the race card. That's why they are the Congressional Black Caucus, after all, the liberal Congressional Black Caucus. And we have Peter Flaherty, the president of a conservative watchdog group, and upon uncovering evidence of the trip's corporate sponsors, he said he was disappointed with the appointment of Mr. BUTTERFIELD to head up the investigative group. His answer was, the Congressional Black Caucus really sticks together. You can see their solidarity in the face of these ethics charges. To put one of their own members in charge of the investigation just shows that nothing has changed. The ethics process is still a complete mockery. Peter Flaherty.

And Mr. McGee also questioned whether the Congressional Black Caucus members should be leading the probe. He said, In this case, this is a trip that is publicly connected to the CBC, and only CBC members were participants. To have a CBC member lead the investigation is not the best way to ensure a publicly credible and acceptable result. Mr. McGee, I agree.

We could go on and on. But here is the quote from Speaker PELOSI when she said that she's making a commitment to ''draining the swamp of corruption.'' I don't see activity on that commitment, and it is time. It is time we raised the issue. It's time the American people look into these allegations. It's time that this Congress form an effective Ethics Committee, an Ethics Committee that can clean this up and drain this swamp, as defined by the Speaker, who I think eventually is going to have to respond to this. She's going to have to keep her word. She has created the organization, the evaluation organization, and now it's time to use it. And the name of the organization that she shaped escapes me for the moment, but it was formed by the Speaker of the House for the purposes of—in her words, ''draining the swamp,'' and what do we get from the Congressional Black Caucus but a complaint that there weren't enough minorities on the committee that were appointed by the Speaker. Now, I'd like to think that ethics is completely independent of ethnicity. I'd like to think that morality is independent of ethnicity or race or gender or whatever one happens to be oriented.

□ 2015

I would like to think right is right and wrong is wrong, that truth is truth, that fiction is fiction, that the Constitution is what it is, that the Bible says what it says, that the Declaration says what it says, and that every Member here would speak the truth.

I would like to think that every Member of this Congress carries with them, internally, an ethical conscience that we owe a duty to the American people, that we owe a duty to the American people to live here at the highest standards and that we will not be drawn down into the low standards, and that we owe a duty to them to stop and to evaluate ourselves. That is what the Ethics Committee is about.

The working group that is designed to enhance the Ethics Committee apparently is not functioning, but we do have a Member of the Congressional Black Caucus investigating the Congressional Black Caucus under the auspices of the organization that is formed by the Speaker to do just that. I don't think it is quite the fox guarding the henhouse because I don't know what goes on in the mind of Mr. BUTTERFIELD. But I will say it raises questions. This Congress needs to raise questions.

We are watching favoritism here on the floor of the House. A week ago last Friday, the cap-and-trade bill, cap-and-tax bill, I call it, passed off the floor of this House. There were dozens of Members of this Congress, Democrats in the dozens, who had made the public statement that they were opposed to this cap-and-tax bill. But what we saw happen was as they needed the votes to get it passed, Member after Member would walk down in a lineup. They would queue up back here behind the microphone. And they would have in their hand their little script. They would carry that script down to the microphone. And the chairman who was managing the time would yield to them. They would read from the script. And the script would say something to the effect of ''I took a position against the bill because I was concerned about the interests of my constituents,'' which really means ''because I know it will cost my district a lot of money, it will transfer our jobs overseas, and it is a bad idea.'' This is what they said before the bill came to the floor.

An amendment was dropped in at 3 o'clock in the morning. It was 309 pages. No one had a chance to read it. But still they read from their script, and it said, on balance, I think that we have mitigated some of the disaster created by this—they wouldn't say it quite that plainly, of course—but I think we've mitigated some of the problems in this bill and I think we're working on this and we're going in the right direction. I think my constituents are going to be adequately covered.

Then they would pause while the committee chairman would read from his script. And he would say, I appreciate working with the gentleman. We've made progress on this bill. And even though we haven't had a chance to change any more language in this amendment that came in, 309 pages at 3 o'clock in the morning, to accommodate for this component that this Member would like to have, still, the fact that we read this colloquy into the RECORD changes the meaning of the bill.

And now the Member that was there and had read off the script, ''So therefore I'm going to vote for the bill because I've worked with the chairman and we each agree we've done our duty to God and country and the bill is not as bad as it would have been otherwise.''

Really? The bill changes because one Member won't vote for it unless he gets some cover? So he walks down here, reads from the script, the chairman reads from the script, the Member reads from the conclusion of the script, and now we have changed the meaning of the bill? And it is enough to turn a vote around 180 degrees and deliver to America a cap-and-tax bill by a vote of 219–212 which, by all appearances, is this: They're wrong on the science, they're wrong on the global warming argument, and the idea that you can set the Earth's thermostat simply by controlling CO_2 emissions, only CO_2 emissions, and by doing so from American industry is going to lower the temperature of the Earth, and that by lowering the temperature of the Earth, we are going to have a higher quality of life. That is the undercurrent of this.

I will say they are wrong on the science. They can't make a scientific argument. They are completely wrong on the economics. The idea that we are going to create green jobs by taxing energy, specific kinds of energy, CO_2-emitting energy, is completely wrong.

What solution was the best solution if you accept the premise of Mr. WAXMAN? It would be a lot of nuclear-generated power, for which we have no provision that opens it up so that we can build more nuclear-generating plants. It has become virtually impossible to build new coal-fired generating plants before this bill passed the floor of the House. The development of electrical generation in America is now frozen, suspended until we can figure out what is going to take place, what the Senate will do, if they take up the bill at all, and how they might amend it. But when you take something that is bad and you amend it marginally, it is still bad.

I have watched this unfold here on the floor of the House. I have watched it unfold behind the scenes. I have watched it unfold in committee. And I have yet to hear a legitimate dialogue in debate. I have yet to hear one Member of this Congress come here and raise the argument that scientifically they are right, that they can dial the temperature of the Earth down by reducing the CO_2 emissions in the United States and by raising the cost of energy.

This bill is an energy tax. It taxes all the energy in America. If you get in a car or on a bus and ride a half a block, you have used energy. If you throw on a light switch, you have used energy. If you pick up a cup of coffee, it took energy to heat the coffee and make it. It took energy to make the cup. Whenever you move, you are using something that took energy to produce. All of our components are intricately tied to energy.

A nation that has expensive energy will be uncompetitive against the nations that have cheap energy and lots of it. One of the strengths of this Nation has been that we have had a sound and good, competitive, multi-sourced energy policy in the United States. We pioneered the oil drilling in the world. We led with this. It started in Pennsylvania. It developed in Texas and Oklahoma and other places around the country. It went up to the North Slope of Alaska. It went offshore.

America has developed much of the technology that produces the oil and natural gas for the world today. That has been a core of the strength of America's vibrant and huge global economy that we drive. The percentage of it that we have is so significant. We have had almost unlimited natural resources for most of this term of 233 years. We have had a lot of cheap energy of many different varieties. We have had constitutional rights, especially property rights, the rule of law, a work ethic and a morality that has tied this country together. These are the pillars of American exceptionalism.

We had ideas for energy just a year ago. A year and a month ago, some of us were here on the floor of the House, and we had been debating energy for I will say about 6 weeks, when we got up to the August break. Now as the energy debate got turned up, the Speaker of the House decided she didn't want to hear any more discussion about energy. So they abruptly adjourned and shut this process down. We kept debating anyway as the microphones were shut off and eventually the lights were shut off. We kept debating anyway. And we went out into the Capitol Building and brought people in to the seats, people off the streets, and set them in the seats here on the floor of the House of Representatives. People sat in CHARLIE RANGEL's seat. They sat over here in BARNEY FRANK's seat. They sat in Mr. DINGELL's seat. They sat in Republican seats too. They sat this close, right here, tourists off the streets of Washington, D.C., off the Capitol Building in

here on the floor of the House of Representatives so we would have somebody to talk to because the TV cameras were shut off and turned to the side. The microphones were shut off. And the lights were shut down in here because the Speaker didn't want to hear any more energy debate. But the delivery we gave then and the delivery that we continued on up until nearly the election last fall was all energy all the time, as our leader says, ''all of the above.''

I put a chart here on the floor that showed all of the sources of energy that we consume in the United States. It is a pie chart with color code, how much is coal, how much is natural gas, how much is petroleum products, gas and diesel fuel, jet fuel, heating oil, how much is ethanol, biodiesel, wind, nuclear, geothermal, solar, and coal. The list goes on. We were consuming 101.4 quadrillion Btus of energy in the United States and producing about 72 quadrillion Btus of energy. So roughly speaking, we are producing only 72 percent of the overall energy that we are consuming in the United States. And yet we are an energy-rich nation. We are an energy-rich nation that should be able to shape an energy policy, an energy policy that will keep our energy cheap so that our economy can be competitive, so that Americans can make things here in the United States, and America will be where the jobs are. Jobs are going to be where it is competitive.

It is pretty obvious from looking at what is happening to General Motors and Chrysler that we have had a lot of trouble being competitive on labor. If we can't be competitive on labor, at least we can be competitive on our natural resources and at least we can be competitive on our energy prices. Instead, the Speaker of the House has embarked upon a path of making energy more expensive in this country under this viewpoint of trying to save the planet. Do you remember the quote from last year? ''I'm trying to save the planet. I'm trying to save the planet.'' She is trying to save the planet by increasing the cost of all of the energy in America and driving up the cost of electricity.

We had a witness before an Energy and Commerce Subcommittee chaired by Mr. MARKEY. This gentleman's name is David Sokol, who is the chairman of the board at MidAmerican Energy. Mr. Sokol testified as to the costs in increased electricity, the costs to the, I think the number is 6.9 million, ratepayers that MidAmerican has. They have a balanced portfolio of energy sources. They said they can meet the carbon caps that are being imposed on them in this cap-and-tax bill. But what will happen is the customers will have to pay. They will have to pay twice, once for the cap-and-tax, and again to change, to renovate the means by which they deliver that energy. He testified that the cost, just for the additional cost annually per household, was $110 a month, which maths out to be $1,320 a year just for the electricity. Add on to that the extra cost for gas for all of the costs on consumers because of diesel fuel in trucks and the extra energy that it takes to produce anything. Let's just say you're in the business of mining iron ore and shipping that over and melting it down and turning it into steel. All of the energy that is required there to mine it, to heat it, to convert it, all of that makes it almost prohibitive when you see costs that are going up for energy costs, in many cases a doubling of certain kinds of energy costs.

Also, when you look at the map of the United States, you will see that the States that have the credits, that have a surplus of hydroelectric power, a lot of the people in those States would like to put our rivers back where they were. I'm not among them. I think we can improve upon Mother Nature. I think hydroelectric power is a wonderful thing. I would be happy to have more of it. But the States that have it are the States that get carbon credits to trade back, to sell back to the States that are generating a lot of their electricity with coal.

So that amounts to a transfer of wealth from the States that are short on hydroelectric and other forms of renewable energy production to those that are long on the nongreenhouse-gas-emitting-generating systems. So you would see almost all of the country transferring their wealth to the Northeast, to the full West and the entire western seaboard. South Dakota would be a recipient State because they have a series of hydroelectric dams in South Dakota and not a lot of people to use the electricity. That is what happens. It pits Americans against Americans. It punishes some, and it benefits others. It punishes all of agriculture.

This is all taking place because an idea was generated 30 or so years ago and was pushed by Al Gore who received a Pulitzer Prize and made a movie. And they don't have to be factual. They don't have to prove anything. They just simply make an allegation that the Earth is getting warmer, and if the Earth is getting warmer, then we must do something because things are horrible. And so the only thing we can do is the thing that they present to us, of course.

It reminds me a lot of the stimulus package.

□ 2030

The stimulus package was put together by President Obama. He came to our conference and said it is one leg of a multilegged stool that we have to construct to get us out of this economic crisis we are in. It was all one leg at that time. It was about a $2 trillion leg. It was $787 billion, and they throw in some more from some other bailouts, and it is about $2 trillion.

So we went down this path. We were all pressured to vote for that $787 billion stimulus package because, after all, we were in an economic crisis and we must do something. Those of us who opposed the stimulus package were accused of being against doing anything. They just want to do nothing, they said, as if their idea was the only thing we could do.

I wrote legislation, introduced it, argued for it, and got the back of the hand from the people who thought government should own everything because they didn't want free market solutions. It looks to me like they wanted government intervention.

And so we have a stimulus plan and we have the nationalization that has taken place of Bank of America, AIG, Bear Stearns, and Merrill Lynch, is incorporated into that. Fannie Mae and Freddie Mac that used to be private became quasi-government, and now they are completely government, a wholly owned subsidiary of the Federal Government. And roughly, there is a $5.5 trillion outside potential liability of Fannie Mae and Freddie Mac, and that is if it all melts down.

General Motors and Chrysler, there are about eight huge national entities that have been nationalized, formerly private, now nationalized under President Obama, the President Obama who said: I don't want to do this. I am not interested in taking over corporations. I don't want to be involved in the day-to-day operations of these corporations. He is a reluctant nationalizer of private businesses. He didn't want to be involved in the day-to-day operations.

There are other solutions out there. One would have been to take AIG, this huge insurance company which had such a large share of the market that no one could check its balance sheet, no one could evaluate the premiums they were charging because no one understood the scope of the business that they were in. And they guaranteed the return, the performance of these mortgage-backed securities, this toxic debt, this toxic paper that these investment bankers had. No one could evaluate AIG. But they could pour hundreds of millions of dollars into AIG, and we couldn't even have a discussion about splitting them up, dividing them up and throwing away the bad components and letting them compete against each other, or sending them into bankruptcy and letting them go that route and let the emerging insurance companies fill that market. That could have been a solution, too.

I argued this way. Look at AIG as if it were an apple, and you take that tool off the kitchen counter and it takes the core out and slices it up into six pieces. That could have happened

with AIG like it happened to Ma Bell, and they could have competed with each other. But instead, hundreds of billions of dollars poured into AIG and our investment banks, propping them up, carrying them on, and then effectively nationalizing them, refusing to allow some of the lending institutions to pay the money back so they could be out from underneath the thumb of the White House, a White House that claims to not want to operate any of these companies, a White House that fired the CEO of General Motors and hired a new CEO of General Motors and named all but two of the board members of General Motors and dictated to the bankruptcy court the terms of the Chapter 11 before the court made the decision, dictated by the White House. By the way, the White House that says, as a matter of fact a President that says I don't want to be involved in the day-to-day operations of General Motors appointed a car czar who had never sold a car nor made one, and probably never even fixed one but probably has driven several, to call the shots on General Motors and on Chrysler, a car czar who is on the phone on a regular basis at the report of Fritz Henderson, the new Obama-appointed CEO of General Motors.

We are at the point where we have eight huge entities that are nationalized by the White House in a breathtaking fashion that many of us would have claimed would not have been a legal activity, or would have taken the authorization of Congress or resources that were not available to the White House to spend without congressional authorization, all happening so fast with the operation here that has shut down the kind of criticism that might have produced some free market results.

So the White House is involved in day-to-day operations of General Motors. The White House dictated who would be buying up what is left of Chrysler, appointed the new CEO of General Motors and all but two of the board members, and all of this works under the auspices of the car czar, who is one of 22 czars appointed by the President. There are 22 czars; more czars than the Romanovs, as Senator MCCAIN famously said. One of them is the payroll czar. The payroll czar looks around to determine whether the CEOs of the companies that have been nationalized or received TARP funds or Federal funds by the White House, to determine if the CEOs and their executives are making too much money performing the service that they are performing. In America? The President appoints someone to decide who is making too much money while they advocate the class envy that was part of the campaign and nationalize eight huge formerly private sector entities and invest our tax dollars in them and hold back shares now of common stock as if they were an outside investor, as if they were Warren Buffett riding to the rescue.

Madam Speaker, America has gone down the line. When I take us to the point of these hugely nationalized formerly private companies, all of that can be reversed at this point. All can be overturned in a saner time by a more prudent Congress and an administration that either sees the light or is replaced by one that does. All of it can be.

But this line of the cap-and-tax bill is the Rubicon. It is the stream that we have crossed here in the House that if they cross it in the Senate, it will be an irrevocable policy that forever burdens the economy of the United States of America to our detriment and hands over an advantage in global competitiveness to China and India and other emerging industrializing countries. And if that happens, there is no going back.

I talked about the culture of corruption and the promise of the Speaker to drain the swamp. There is new corruption on the horizon. The cap-and-tax bill lays the foundation for a massive amount of corruption.

When President Obama said look across to Spain for an example, an example of a country that gets it right, an example of a country that has already gone through the green revolution and created the green jobs and now they are in this new green economy, we can do that in the United States, too.

The President and many others make the argument that taxing energy in America and trading carbon credits will create these green jobs and we will have this new green economy that will be apparently healthy and vibrant, and they guarantee that they will create green jobs.

But what they don't do is talk about this in the context of, similar to the same philosophy we are going to create or save, and I don't remember the first number now, maybe 4.5 million jobs. I know it got down to 3.5 million or 3 million jobs this stimulus plan was going to create or save. Let's say 3 million jobs. That is on the low side. It has been lowered a little since then.

Create or save. Now the instant I heard that, it just hit me, create or save. If it is going to be 3 million jobs that you create or save with the stimulus plan, as long as there are 3 million jobs left in the United States of America, the President can always claim those jobs were the jobs I saved. You would have lost them all if it hadn't been for the stimulus plan. That's the logic of the ''create or save'' kind of phrase.

Those are slippery phrases, calculated ambiguities. They intentionally, I believe, give a dual meaning so people can listen and they hear something. What do they want to hear? They want to hear that the stimulus package is going to create 3 million jobs and so they grab ahold of that, and they are not listening to the words ''or save.'' Create or save. They are not thinking that there is no way that anyone can quantify a job that is saved.

You can save a job if it is already lost and you put it back. I remember a company that was getting shut down, in the neighborhood of 40 jobs, and we engaged with the bureaucrats and entreated that they look at it more objectively and stick with their rules but not be so hasty. And out of that, those jobs remained. I would quantify we saved about 40 jobs.

But you can't deal with a national policy that can take credit for creating or saving jobs in the same category.

So what's the net increase or decrease in jobs? The stimulus plan hasn't created net new jobs. It has not lived up to the standards set by the White House which predicted we would see unemployment as high as 8 percent, maybe even 8.5 percent. Now it is at 9.4 or 9.5 percent, and the numbers are 14.5 million Americans unemployed and another 6 million who are looking for work. So let's just say 20 million, 20 million unemployed in the United States of America. None of those were jobs that were saved. None of those were jobs that were created, and the White House hasn't defined a single one yet of the jobs that were created, nor the ones that are saved.

So cap-and-trade, cap-and-tax, what does it do to the culture of corruption? What does it do to the ethics challenge that is before these many Members of Congress of which I have a list? Let me see. One, two, three, four, five, six, seven, eight, nine that are being scrutinized and are in the public eye.

Even under this environment of getting to the cap-and-tax, and I will share with you what happened in Spain as they lurched into their green economy to create their green jobs.

Spain drew a conclusion 7 or 8 years ago that they wanted to be a world leader in green jobs, a world leader in this green revolution, and they wanted to reduce the amount of CO_2 being emitted into the atmosphere and get themselves in line with the Kyoto treaty. So they set about replacing their normal generation in Spain with a lot of wind power generators; other means, too, but wind power in particular. When you get involved in issuing permits and who gets to put up and where you are going to locate a wind generator, that means bureaucrats and politicians are involved and favorites get chosen, just like the favorite dealership in Massachusetts that lost his franchise, but at the pleadings of the chairman of the Financial Services Committee had his franchise reinstated even though others did lose their franchise.

Favorites get played in politics. It happened in Spain. In the case of

Spain, they were going to create these green jobs. Here is what they learned. This is the data that comes out of 7 to 8 years of experience, of going down this path that cap-and-tax takes the United States of America if the Senate passes it and the President has promised that he will veto it. They did create jobs. They created green jobs. And for every green job that they created, they had a net loss of 2.2 private sector jobs because it drew capital out of the private sector and out of the Spanish economy. They lost the two largest companies in Spain. One of them was British Petroleum, or BP as they are known now, that pulled out of Spain because their costs have gone too high.

They created a new green job here and there at the cost of, for every one, 2.2 lost jobs in the private sector. It took Spain up to the highest unemployment rate in the industrialized world, 17.5 percent unemployment and rising. The cost per green job created was $770,000 per job.

So they spent $770,000, created a green job and lost 2.2 jobs in the private sector. And they saw their electrical bills skyrocket. I think that was the phrase used by President Obama. You would see coal-fired generating plants, the cost of that electricity skyrocket under his cap-and-tax plan.

Well, electricity skyrocketed under a very similar plan, a plan that has been identified by President Obama as a model to follow, the Spanish model. In 3 years' time, the electrical bills for the residents in Spain increased 20 percent. Now that is not quite so shocking, I don't suppose, Madam Speaker, but industrial electricity costs in the same period of time went up 100 percent.

□ 2045

So residential electricity up 20 percent; industrial electrical costs 100 percent. Now, we already see the picture of why they've lost so many large companies out of Spain. They've driven up the electrical costs where they can't compete any longer. And with electrical costs doubling in industrial in 3 years and up 20 percent in residential, they actually just hit the political threshold.

It wasn't that that covered all the additional costs of generating electricity. The real truth is, Madam Speaker, that they took the cost of electricity up to the political threshold where they couldn't sustain it any longer, held it at a 20 percent increase for residents and a doubling, a 100 percent increase in industrial, and then, to pay for the rest of the cost of the electricity, went out on the financial market and borrowed the money to pay the electrical bills, borrowed the money from the international financial markets to pay the electrical bills in Spain at costs above the doubling of industrial and the 20 percent increase in the residential. And in order to borrow the money, they had to pledge the full faith and credit of the Spanish Government, which means children yet to be born and the children and the grandchildren and likely the great-grandchildren of those using electricity in Spain today will be paying the interest and the principal on the electrical bills of their parents, their grandparents and their great-grandparents—should the economy hold together long enough that they would even have the opportunity to do that—while the competitiveness of Spain digresses in the world.

And if this isn't bad enough, high electrical costs, borrowing on the international financial market to pay the electrical bill, 17.5 unemployment, $770,000 per green job created, and for every time they created a green job they lost 2.2 jobs in the private sector. All of this going on, you still had the Sicilian Mafia involved in the politics of Spain, greasing the palms, so to speak, making sure that the right people received the right cash favors in the right denominations because politicians, business people are brokering who gets to put up the wind charger, who's going to issue the permit—well, they have that determined—who gets the permit issued to put the wind charger up on which land. And the Sicilian Mafia was involved in that and remains involved in that, according to the speaker we had for a breakfast I hosted a couple months ago. Not only were they involved in the politics of the permitting process, but also involved in the politics of determining who would be the contractors, the subcontractors, and the suppliers.

So add Sicilian Mafia to this web, this web of corruption, this web of political favoritism, this ethical snarl that's there in Spain that contributes to dragging down their economy—the green economy that they set up with the idea they were going to create green jobs.

There is no empirical data, no quantifiable way that one can look at Spain and declare that Spain is a model that the United States should emulate, but the President has declared that we should do that and doesn't seem to be accountable for that flawed judgment.

So when I asked the question, of all of these things that are wrong in the Spanish green economy—the high unemployment, the high electrical bills, borrowing money to pay your electrical bills, the Sicilian Mafia wrapped up in the politics that's contributing to political corruption—of which there are many indicators here in this swamp that the Speaker has declared she wants to drain but taken no move to do so when it's her own Democratic Members—all of this going on in Spain, and here in the House of Representatives we pass a cap-and-tax bill that is a tax on all of our energy, that sets up carbon credits that will be traded—not just in the United States, but around the world.

And so somehow, with a bill in the House, we are going to pay somebody to plant trees in Brazil, thinking that that's going to sequester some carbon so we can burn some more natural gas to generate some electricity in Florida. How about that?

And I would just ask the question, aside from this snarled mess and the open door for confusion and corruption and favoritism and people getting rich off of credits, aside from all of that, aside from the extra cost in electricity of $1,320 a year just for the households in my district—according to MidAmerican Energy, who hasn't seen a rate increase in over 10 years—aside from all of that, where are we going?

If we could take the 25 or the 50 or the 100 smartest people in America, or the world, erase from their minds any of the last 25 or 30 years of this global warming fear that has been perpetrated—and now has had to morph itself into ''climate change'' because we don't have evidence that the globe has been warming since 2002 so they had to change it to climate change—but if we could put the smartest people together, send them off on a retreat somewhere—send them down to the Caribbean where the Congressional Black Caucus had their little codel that's being looked at—set them up on an island, erase from their memory anything that they've heard about this global warming allegation or the proposed solutions, and first ask the question on the science, do you really believe that the Earth is getting warmer? Well, maybe.

And there are some trend lines prior to 2002 that would indicate that. That's not so much the point, but we should ask that question. Do you believe it is? And if you conclude that it is—smartest people in the world with great training in all of the fields that they need, then the next question would be, do you believe that the emissions from the industrial era, the industrial revolution are contributing to it? How much, and what could we do about that?

Now, remember that if you would take the atmosphere—and we're dealing only with CO_2 emissions in the United States of America, the cumulative total—and I've got to go a little bit from memory, but I'm going to get the scale of this exactly right, and if you take the entire atmosphere of the Earth—I know all this air has a volume to it, it's measured in metric tons, and that number is 105.5 million metric tons—I believe that's the number, that's the right decimal anyway—all of that Earth's atmosphere and draw it out and represent it proportionately in a circle, let's say a circle 8 feet in diameter, two 4 by 8 sheets of drywall side to side, draw a circle 8 feet in diameter, a foot higher than my hand

around, draw that circle, think of that circle in your mind's eye, Madam Speaker, and that represents all the Earth's atmosphere.

Now, the cumulative total of the CO_2 suspended in the Earth's atmosphere over the last 205 years, since the dawn of the industrial revolution, all of that CO_2 that's gone in and that's now suspended in the atmosphere, if you would draw it on a circle, in the middle of that 8-foot circle—which is all of the Earth's atmosphere—that circle would be how big: 5 foot, 4 foot, 3 foot, 2 foot, 1 foot in diameter, perhaps, in the middle of that 8-foot circle? Or 6 inches, or 3 inches, or 1 inch—we're still going, Madam Speaker. About the diameter of my little finger; .56 inches would be all that would represent all of the CO_2 that is suspended in the Earth's atmosphere that has been emitted by the United States of America in the last 205 years, the dawn of the industrial revolution. And we're talking about that half-inch diameter circle in the middle of the 8-foot circle and reducing those emissions by 17 percent in the near term, as much as 83 percent per year in the long term.

Now, where does that get us? And how can anyone think that you can put a drop into an ocean and change the temperature of the ocean, or think that you could microscopically alter the dimension of that center little circle that represents all of the suspended CO_2 from the United States and somehow magically that's the key to adjust the Earth's thermostat. It is utter vanity, Madam Speaker. And you can put the smartest people in the world off on an island somewhere, erase all of the things that have been pumped out in their brain, start them out with fresh data, scientific data, empirical data, put some physicists there, put some meteorologists out there, some mathematicians there while we're at it, and by the way, let all of those people churn around on this climate change model—and let's put some economists out there also to churn around on what happens—and I would just be about willing to guarantee that 50 or 100 of the smartest people in the world, if you erase their institutional memory of all of the information that has been pounded into this country over the last 30 years since we made the transition from the impending ice age—which some of us remember, and at least one scientist made the switch himself, said it was certain that there was a near-term ice age that was going to come down and freeze us off of the North American continent. Now he's a global warming enthusiast. He was right one time maybe, and he will never live to see if he was right or wrong.

But all of those smart people that we could put on an island and erase their institutional memory and start them with an objective analysis, very well trained physicists, meteorologists, economists, mathematicians, chemists, put them on that island and ask them, evaluate the data that we have today and look at the science that we have, if the Earth is getting warmer and if you think that's a problem, what would you do about it, I can't imagine that 25 or 50 or 100 smartest people in the world coming up with such a concoction as a proposed solution as passed off the floor of this House in the form of the bill that's called Waxman-Markey cap-and-trade, cap-and-tax—or whatever the other acronyms are for this bill. I can't imagine that really smart people could ever cook something like that up.

Because this bill that passed the House, it was never a product of, let me say, sound science, peer-reviewed analysis, sound economics. It was never a product that ever laid this thing out down through the continuum and gamed it out to the end. No, Madam Speaker. It's a political concoction that's put together in a hodgepodge. It's—what shall I call it—liberal genetic engineering of policy. And we are stuck with it coming out of this House.

I think that this House made the single most colossal mistake made in the history of the United States Congress a week ago last Friday when they passed the cap-and-tax bill. I think they're wrong on the science, and I think they're really, really wrong on the economics. And if they're right on the science, they hand over the economy of the United States and put us at a disadvantage and allow India and China and other developing countries to continue to belch crud into the atmosphere and out-compete us economically. And more and more companies will be moving to those countries while those economies prosper and pollute the atmosphere, even to the extent of producing or developing an average of one new coal-fire generating plant per week without the emissions controls that we have here in the United States of America, pouring this all forth out of the smoke stacks in Asia and shipping us more and more of our goods.

So what's happening is we're buying plenty from Asia already, and that contributes to our trade imbalance. And then, in order to meet these budget shortfalls that are driven by the President and the liberals in Congress—trillions of dollars, a $9.3 trillion deficit in the budget offered by President Obama on top of an $11.3 trillion existing deficit, over $20 trillion—and what do we do to deal with that? We buy everything we can that we don't want to make here in the United States anymore, and then we borrow the money from the Chinese to buy things from the Chinese. So it's the equivalent of going to the car dealer, I suppose, and borrowing the money from him to buy the car that he makes.

And you keep doing that over and over again, but you've got to build something that has value. You've got to make things. You've got to provide goods and services that can be competitive. And we need to be competitive globally.

The very idea that this country is a giant chain letter, a giant ATM to be cashed into and that we can create a government economy is false. It has to have value, and it has to have value in the private sector. The private sector is the productive sector of the economy; the government sector is the parasitic sector of the economy. And you cannot grow the parasitic sector of the economy at the expense of the productive sector of the economy and think that you can compete indefinitely in this world while you're borrowing money from the Chinese to pay the bills that you're creating by having the Chinese make the things that we can't be competitive anymore and buying it from them.

And I get along fine with the Chinese, but you've got to build things that have value and you've got to have a sound economy. We've got to have an ethical Congress. We've got to stand on free markets. And we've got to reverse the nationalization of our privatized industries. And I urge that we do so with all haste.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Ms. EDDIE BERNICE JOHNSON of Texas (at the request of Mr. HOYER) for today.

Ms. JACKSON-LEE of Texas (at the request of Mr. HOYER) for today on account of Michael Jackson memorial.

Ms. FALLIN (at the request of Mr. BOEHNER) for today on account of attending a funeral.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Ms. WOOLSEY) to revise and extend their remarks and include extraneous material:)

Ms. WOOLSEY, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Mr. QUIGLEY, for 5 minutes, today.

Mr. SPRATT, for 5 minutes, today.

(The following Members (at the request of Mr. POE of Texas) to revise and extend their remarks and include extraneous material:)

Mr. POE of Texas, for 5 minutes, today, July 8, 9, 10, 13 and 14.

Ms. ROS-LEHTINEN, for 5 minutes, today.

Mr. FLEMING, for 5 minutes, July 8.

Mr. PENCE, for 5 minutes, today.

Mr. JONES, for 5 minutes, today, July 8, 9, 10, 13 and 14.

Mr. BURTON of Indiana, for 5 minutes, today, July 8, 9 and 10.

Mr. OLSON, for 5 minutes, July 9.

Mr. INGLIS, for 5 minutes, today and July 13.

Mr. MORAN of Kansas, for 5 minutes, today, July 8, 9 and 10.

(The following Member (at his request) to revise and extend his remarks and include extraneous material:)

Mr. ISSA, for 5 minutes, today.

ADJOURNMENT

Mr. KING of Iowa. Madam Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 8 o'clock and 59 minutes p.m.), the House adjourned until tomorrow, Wednesday, July 8, 2009, at 10 a.m.

EXPENDITURE REPORTS CONCERNING OFFICIAL FOREIGN TRAVEL

Reports concerning the foreign currencies and U.S. dollars utilized for speaker-authorized official travel during the first quarter and second quarter of 2009, pursuant to Public Law 95–384 are as follows:

REPORT OF EXPENDITURES FOR OFFICIAL TRAVEL, DELEGATION TO HAITI, EXPENDED BETWEEN MAY 8 AND MAY 11, 2009

Name of Member or employee	Date		Country	Per diem [1]		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]
Hon. Mazie Hirono	5/8	5/11	Haiti		888.00						888.00
Hon. David Dreier	5/8	5/11	Haiti		888.00						888.00
Hon. Jim McDermott	5/8	5/11	Haiti		888.00						888.00
Hon. Gwen Moore	5/8	5/11	Haiti		888.00						888.00
Delegate Gregorio Sablan	5/8	5/11	Haiti		888.00						888.00
John Lis	5/8	5/11	Haiti		888.00						888.00
Margarita Seminario	5/8	5/11	Haiti		888.00						888.00
Tommy Ross	5/8	5/11	Haiti		888.00						888.00
Rachael Leman	5/8	5/11	Haiti		888.00						888.00
Moftiah McCartin	5/8	5/11	Haiti		888.00						888.00
Clay Wellborn	5/8	5/11	Haiti		888.00						888.00
Maureen Taft Morales	5/8	5/11	Haiti		888.00						888.00
Committee totals											10,656

[1] Per diem constitutes lodging and meals.
[2] If foreign currency is used, enter U.S. dollar equivalent; if U.S. currency is used, enter amount expended.

HON. MAZIE K. HIRONO, May 21, 2009.

REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, JOINT ECONOMIC COMMITTEE, U.S. HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JAN. 28 AND FEB. 1, 2009

Name of Member or employee	Date		Country	Per diem [1]		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]
Hon. Carolyn B. Maloney	1/28	2/1	Switzerland		2006.40						2006.40
Committee total											2006.40

HON. CAROLYN B. MALONEY, Chairman, June 16, 2009.

[1] Per diem constitutes lodging and meals.
[2] If foreign currency is used, enter U.S. dollar equivalent; if U.S. currency is used, enter amount expended.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of Rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2486. A letter from the Secretary, Department of Defense, transmitting the Department's May 2009 Semi-Annual Report providing the progress toward destruction of the U.S. stockpile of lethal chemical agents and munitions by the Chemical Weapons Convention (CWC) deadline of April 29, 2012, but not later than December 31, 2017 pursuant to section 8119 of the Department of Defense (DoD) Appropriations Act, 2008, Pub. L. 110-116, and section 922 of the National Defense Authorization Act for FY 2008, Pub. L. 110-181; to the Committee on Armed Services.

2487. A letter from the Chairman, Joint Chiefs of Staff, Department of Defense, transmitting a copy of a report to Congress entitled, ''Reachback Distributed Decision Support'' recommended by the National Defense Authorization Act for Fiscal Year 2007; to the Committee on Armed Services.

2488. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's Uniform Resource Locators (URLs) for documents recently issued related to regulatory programs; to the Committee on Energy and Commerce.

2489. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting a six-month periodic report on the national emergency with respect to the proliferation of weapons of mass destruction that was declared in Executive Order 12938 of November 14, 1994, and continued by the President each year, most recently on November 10, 2008, pursuant to 50 U.S.C. 1641(c); to the Committee on Foreign Affairs.

2490. A letter from the Secretary of Defense, Department of Defense, transmitting the Department's report on Activities and Assistance under Cooperative Threat Reduction (CTR) Programs (FY 2010 CTR Annual Report), pursuant to Public Law 106-398, section 1308 (114 Stat. 1654A-341); to the Committee on Foreign Affairs.

2491. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting a report concerning methods employed by the Government of Cuba to comply with the United States-Cuba September 1994 ''Joint Communique'' and the treatment by the Government of Cuba of persons returned to Cuba in accordance with the United States-Cuba May 1995 ''Joint Statement'', together known as the Migration Accords, pursuant to Public Law 105-277, section 2245; to the Committee on Foreign Affairs.

2492. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting Determination Related to Serbia Under Section 7072(c) of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2009 (Div. H, P.L. 111-8); to the Committee on Foreign Affairs.

2493. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting the Department's report on progress toward a negotiated solution of the Cyprus question covering the period February 1, 2009 through March 31, 2009, pursuant to Section 620C(c) of the Foreign Assistance Act of 1961, as amended , and in accordance with Section 1(a)(6) of Executive Order 13313; to the Committee on Foreign Affairs.

2494. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting the Department's report covering current military, diplomatic, political, and economic measures that are being or have been undertaken to complete the mission in Iraq successfully, pursuant to Public

Law 109-163, as amended by Public Law 110-181, section 1223 and Pub. L. 110-417, section 1213(c); to the Committee on Foreign Affairs.

2495. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Learjet Model 45 Airplanes [Docket No.: FAA-2009-0498; Directorate Identifier 2009-NM-065-AD; Amendment 39-15923; AD 2009-11-13] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2496. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Airbus Model A310 Airplanes and Airbus Model A300-600 Airplanes [Docket No.: FAA-2009-0486; Directorate Identifier 2009-NM-064-AD; Amendment 39-15919; AD 2009-11-09] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2497. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Cessna Aircraft Company 150 and 152 Series Airplanes [Docket No.: FAA-2007-27747; Directorate Identifier 2007-CE-030-AD; Amendment 39-15904; AD 2009-10-09] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2498. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Boeing Model 747-100, 747-100B, 747-100B SUD, 747-200B, 747-200C, 747-200F, 747-300, 747-400, 747-400D, 747-400F, 747SR, and 747SP Series Airplanes [Docket No.: FAA-2008-0731; Directorate Identifier 2008-NM-058-AD; Amendment 39-15812; AD 2009-04-06] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2499. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Eurocopter Deutschland GmbH (ECD) Model MBB-BK 117 A-1, A-3, A-4, B-1, B-2, and C-1 Helicopters [Docket No.: FAA-2009-0453; Directorate Identifier 2008-SW-63-AD; Amendment 39-15911; AD 2009-11-01] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2500. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; M7 Aerospace LP Models SA226-AT, SA226-T, SA226-TC, SA227-AC (C-26A), SA227-AT, SA227-BC (C-26A), SA227-CC, and SA227-DC (C-26B) Airplanes [Docket No.: FAA-2009-0119; Directorate Identifier 2008-CE-068-AD; Amendment 39-15916; AD 2009-11-06] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2501. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; British Aerospace Model HS 748 Airplanes [Docket No.: FAA-2009-0478; Directorate Identifier 2008-NM-133-AD; Amendment 39-15917; AD 2009-11-07] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2502. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Airbus Model A330-202, -223, -243, -301, -322, and -342 Airplanes [Docket No.: FAA-2009-0479; Directorate Identifier 2009-NM-006-AD; Amendment 39-15918; AD 2009-11-08] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2503. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Eurocopter Deutschland GmbH Model EC135 Helicopters [Docket No.: FAA-2009-0482; Directorate Identifier 2008-SW-54-AD; Amendment 39-15920; AD 2009-11-10] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2504. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; McDonnell Douglas Model MD-90-30 Airplanes [Docket No.: FAA-2009-0213; Directorate Identifier 2008-NM-224-AD; Amendment 39-15921; AD 2009-11-11] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2505. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Bell Helicopter Textron, Inc. Model 47, 47B, 47B3, 47D, 47D1, 47E, 47G, 47G-2, 47G-2A, 47G-2A-1, 47G-3, 47G-3B, 47G-3B-1, 47G-3B-2, 47G-3B-2A, 47G-4, 47G-4A, 47G-5, 47G-5A, 47H-1, 47J-2, 47J-2A, and 47K Helicopters [Docket No.: FAA-2009-0484; Directorate Identifier 2008-SW-44-AD; Amendment 39-15924; AD 2009-12-01] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2506. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; GROB-Werke Model G120A Airplanes [Docket No.: FAA-2009-0531; Directorate Identifier 2009-CE-030-AD; Amendment 39-15938; AD 2009-12-15] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2507. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Bombardier Model DHC-8-400 Series Airplanes [Docket No.: FAA-2009-0530; Directorate Identifier 2009-NM-079-AD; Amendment 39-15936; AD 2009-12-13] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2508. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Boeing Model 747 Airplanes [Docket No.: FAA-2008-0612; Directorate Identifier 2008-NM-059-AD; Amendment 39-15931; AD 2009-12-08] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2509. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; ATR Model ATR42-200, ATR42-300, ATR42-320, ATR42-500, ATR72-101, ATR72-201, ATR72-102, ATR72-202, ATR72-211, ATR72-212, and ATR72-212A Airplanes [Docket No.: FAA-2008-1237; Directorate Identifier 2008-NM-125-AD; Amendment 39-15932; AD 2009-12-09] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2510. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Boeing Model 737-300, -400, -500, -600, -700, -700C, -800, and -900 Series Airplanes [Docket No.: FAA-2007-0163; Directorate Identifier 2007-NM-046-AD; Amendment 39-15929; AD 2009-12-06] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2511. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Boeing Model 737-300, -400, and -500 Series Airplanes [Docket No.: FAA-2008-1364; Directorate Identifier 2008-NM-103-AD; Amendment 39-15928; AD 2009-12-05] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2512. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Boeing Model 757-200, -200CB, and -300 Series Airplanes [Docket No.: FAA-2007-29067; Directorate Identifier 2007-NM-148-AD; Amendment 39-15926; AD 2009-12-03] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2513. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Construcciones Aeronauticas, S.A. (CASA), Model C-212-CB, C-212-CC, C-212-CD, C-212-CE, C-212-CF, and C-212-DE Airplanes [Docket No.: FAA-2009-0005; Directorate Identifier 2008-NM-164-AD; Amendment 39-15927; AD 2009-12-04] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2514. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Rolls-Royce Corporation AE 2100D2, AE 2100D2A, AE 2100D3, and AE 2100J Turboprop Engines [Docket No.: FAA-2009-0082; Directorate Identifier 2008-NE-42-AD; Amendment 39-15914; AD 2009-11-04] (RIN: 2120-AA64) received June 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. GORDON of Tennessee: Committee on Science and Technology. H.R. 2965. A bill to amend the Small Business Act with respect to the Small Business Innovation Research Program and the Small Business Technology Transfer Program, and for other purposes; with an amendment (Rept. 111–190, Pt. 2). Referred to the Committee of the Whole House on the State of the Union.

Mr. MCGOVERN: Committee on Rules. House Resolution 609. Resolution providing for consideration of the bill (H.R. 2997) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes (Rept. 111–191). Referred to the House Calendar.

Mr. POLIS: Committee on Rules. House Resolution 610. Resolution providing for consideration of the bill (H.R. 2965) to amend the

Small Business Act with respect to the Small Business Innovation Research Program and the Small Business Technology Transfer Program, and for other purposes (Rept. 111–192). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. RAHALL:

H.R. 3113. A bill to amend the Wild and Scenic Rivers Act to designate a segment of the Elk River in the State of West Virginia for study for potential addition to the National Wild and Scenic Rivers System, and for other purposes; to the Committee on Natural Resources.

By Mr. CONYERS (for himself, Mr. ISSA, Mr. JOHNSON of Georgia, and Mr. SHERMAN):

H.R. 3114. A bill to authorize the Director of the United States Patent and Trademark Office to use funds made available under the Trademark Act of 1946 for patent operations in order to avoid furloughs and reductions-in-force, and for other purposes; to the Committee on the Judiciary; considered and passed.

By Mr. HODES (for himself and Ms. SHEA-PORTER):

H.R. 3115. A bill to amend the Internal Revenue Code of 1986 to provide credits to small businesses and their employees for health insurance coverage; to the Committee on Ways and Means.

By Mr. KISSELL:

H.R. 3116. A bill to prohibit the Department of Homeland Security from procuring certain items directly related to the national security unless the items are grown, reprocessed, reused, or produced in the United States, and for other purposes; to the Committee on Homeland Security.

By Mr. LYNCH:

H.R. 3117. A bill to provide enhanced voucher rental assistance for residents of certain federally assisted low-income housing, and for other purposes; to the Committee on Financial Services.

By Mr. MURPHY of New York:

H.R. 3118. A bill to amend the Internal Revenue Code of 1986 to provide a 1-year extension of the making work pay credit; to the Committee on Ways and Means.

By Ms. PELOSI (for herself, Mr. BACA, Mr. BECERRA, Mr. BERMAN, Mrs. CAPPS, Mr. CARDOZA, Mr. COSTA, Mrs. DAVIS of California, Ms. ESHOO, Mr. FARR, Mr. FILNER, Ms. HARMAN, Mr. HONDA, Mr. ISSA, Ms. LEE of California, Ms. ZOE LOFGREN of California, Ms. MATSUI, Mr. MCCLINTOCK, Mr. MCNERNEY, Mr. GEORGE MILLER of California, Mrs. NAPOLITANO, Mr. NUNES, Ms. RICHARDSON, Mr. ROHRABACHER, Ms. ROYBAL-ALLARD, Ms. LINDA T. SÁNCHEZ of California, Ms. LORETTA SANCHEZ of California, Mr. SCHIFF, Mr. SHERMAN, Ms. SPEIER, Mr. STARK, Mr. THOMPSON of California, Ms. WATERS, Ms. WATSON, Mr. WAXMAN, and Ms. WOOLSEY):

H.R. 3119. A bill to designate the facility of the United States Postal Service located at 867 Stockton Street in San Francisco, California, as the ''Lim Poon Lee Post Office''; to the Committee on Oversight and Government Reform.

By Mr. REHBERG:

H.R. 3120. A bill to extend the Federal relationship to the Little Shell Tribe of Chippewa Indians of Montana as a distinct federally recognized Indian tribe, and for other purposes; to the Committee on Natural Resources.

By Mr. HALL of Texas (for himself, Mr. GORDON of Tennessee, Ms. GIFFORDS, and Mr. OLSON):

H. Res. 607. A resolution celebrating the Fortieth Anniversary of the Apollo 11 Moon Landing; to the Committee on Science and Technology.

By Mr. CARSON of Indiana (for himself, Mr. HILL, Mr. BURTON of Indiana, Mr. BUYER, Mr. PENCE, Mr. VISCLOSKY, Mr. DONNELLY of Indiana, Mr. SOUDER, and Mr. ELLSWORTH):

H. Res. 608. A resolution recognizing the 100th anniversary of the opening of the Indianapolis Motor Speedway; to the Committee on Oversight and Government Reform.

By Mr. HARE (for himself, Mr. DELAHUNT, Mr. HARPER, and Mr. BILBRAY):

H. Res. 611. A resolution supporting the goals and ideals of ''Fragile X Awareness Day''; to the Committee on Energy and Commerce.

By Ms. NORTON (for herself, Mr. HOYER, Mr. CANTOR, Ms. EDWARDS of Maryland, Mr. VAN HOLLEN, Mr. CUMMINGS, Mr. MORAN of Virginia, Mr. BARTLETT, Mr. CONNOLLY of Virginia, Mr. SARBANES, Mr. GOODLATTE, Mr. KRATOVIL, Mr. NYE, Mr. PERRIELLO, Mr. RUPPERSBERGER, Mr. WOLF, Mr. WITTMAN, Mr. DAVIS of Alabama, Mr. DAVIS of Illinois, Mr. ELLISON, Mr. FATTAH, Mr. AL GREEN of Texas, Ms. JACKSON-LEE of Texas, Ms. LEE of California, Mr. CLEAVER, Mrs. CHRISTENSEN, Ms. CLARKE, Ms. CORRINE BROWN of Florida, Mr. CARSON of Indiana, Mr. CLYBURN, Ms. EDDIE BERNICE JOHNSON of Texas, Mr. JOHNSON of Georgia, Ms. KILPATRICK of Michigan, Mr. MEEK of Florida, Mr. MEEKS of New York, Ms. MOORE of Wisconsin, Mr. PAYNE, Ms. RICHARDSON, Mr. SCOTT of Virginia, Mr. THOMPSON of Mississippi, Mr. TOWNS, Ms. WATERS, Ms. WATSON, Mr. WATT, Mrs. SCHMIDT, Mr. RUSH, Mr. JACKSON of Illinois, Ms. FUDGE, Mr. HASTINGS of Florida, Mr. CONYERS, Mrs. CAPPS, Mr. LEWIS of Georgia, Mrs. MALONEY, Mr. BECERRA, Mr. BACA, Mr. CARDOZA, Mr. KENNEDY, Ms. ROYBAL-ALLARD, Mr. LYNCH, Mr. FOSTER, and Mr. QUIGLEY):

H. Res. 612. A resolution expressing the profound sympathies of the House of Representatives for the victims of the tragic Metrorail accident on Monday, June 22, 2009, and for their families, friends, and associates; to the Committee on Oversight and Government Reform.

By Mr. PLATTS:

H. Res. 613. A resolution supporting the goals and ideals of the Apple Crunch and the Nation's domestic apple industry; to the Committee on Oversight and Government Reform.

By Mr. QUIGLEY (for himself, Mr. FLAKE, and Mr. KIRK):

H. Res. 614. A resolution amending the Rules of the House of Representatives to prohibit earmarks to for-profit entities; to the Committee on Rules.

PRIVATE BILLS AND RESOLUTIONS

Under clause 3 of rule XII,

Mr. HOLDEN introduced a bill (H.R. 3121) to authorize and request the President to award the Medal of Honor to Richard D. Winters, of Hershey, Pennsylvania, for acts of valor on June 6, 1944, in Normandy, France, while an officer in the 101st Airborne Division; which was referred to the Committee on Armed Services.

H.R. 82: Mr. MURPHY of Connecticut.

H.R. 137: Mr. POE of Texas.

H.R. 176: Ms. ZOE LOFGREN of California.

H.R. 179: Mr. BAIRD.

H.R. 265: Mr. PIERLUISI, Ms. RICHARDSON, and Mr. BLUMENAUER.

H.R. 333: Ms. KAPTUR and Mr. SIRES.

H.R. 389: Mr. BLUMENAUER.

H.R. 413: Mr. LINCOLN DIAZ-BALART of Florida, Mrs. CAPPS, Mr. BOSWELL, Mr. MEEK of Florida, Mr. MEEKS of New York, Mr. PETERSON, Mrs. NAPOLITANO, Mr. RUSH, Mr. SARBANES, Mr. TURNER, Mr. FILNER, Mr. SHERMAN, Mr. OBERSTAR, Mr. TIERNEY, Mr. KUCINICH, Mr. RUPPERSBERGER, Mr. ACKERMAN, Mr. KIND, Mr. AL GREEN of Texas, and Mr. BLUMENAUER.

H.R. 426: Ms. JACKSON-LEE of Texas.

H.R. 430: Mr. WAMP and Mr. TURNER.

H.R. 442: Mr. SMITH of Nebraska, Mrs. MCMORRIS RODGERS, and Mr. BUCHANAN.

H.R. 468: Mr. MICHAUD.

H.R. 482: Mr. TAYLOR.

H.R. 528: Mr. LEVIN.

H.R. 614: Mr. TURNER.

H.R. 622: Mr. MCCOTTER.

H.R. 635: Mr. KUCINICH and Mr. CONNOLLY of Virginia.

H.R. 658: Mr. PERRIELLO.

H.R. 690: Mr. BLUNT and Mr. DOYLE.

H.R. 697: Mr. CONNOLLY of Virginia.

H.R. 856: Mr. DANIEL E. LUNGREN of California.

H.R. 868: Mr. HALL of New York.

H.R. 874: Ms. SPEIER.

H.R. 930: Mr. MARSHALL and Mr. BERMAN.

H.R. 936: Mr. ROE of Tennessee.

H.R. 949: Ms. LINDA T. SÁNCHEZ of California.

H.R. 950: Ms. ZOE LOFGREN of California.

H.R. 953: Mr. TURNER.

H.R. 981: Mr. BLUMENAUER.

H.R. 1030: Mr. ROTHMAN of New Jersey.

H.R. 1064: Mr. BOCCIERI and Mr. SPACE.

H.R. 1103: Mr. MEEK of Florida.

H.R. 1126: Mr. UPTON and Mr. THOMPSON of California.

H.R. 1135: Mr. PASTOR of Arizona.

H.R. 1142: Mr. OLVER.

H.R. 1150: Mr. COHEN.

H.R. 1177: Mr. WOLF.

H.R. 1197: Ms. CORRINE BROWN of Florida.

H.R. 1207: Ms. ZOE LOFGREN of California, Mr. CHANDLER, Ms. HARMAN, Mr. MURPHY of Connecticut, and Mr. GALLEGLY.

H.R. 1210: Mr. ROTHMAN of New Jersey.

H.R. 1213: Mr. ROTHMAN of New Jersey.

H.R. 1215: Mr. MCGOVERN and Ms. JACKSON-LEE of Texas.
H.R. 1255: Mr. Fleming, Mr. SESSIONS, Mr. CLAY, and Mr. CARNAHAN.
H.R. 1293: Mr. WALZ.
H.R. 1324: Mr. SHULER, Mr. MARSHALL, Ms. ZOE LOFGREN of California, and Mr. CAPUANO.
H.R. 1392: Mr. DENT.
H.R. 1428: Mr. GRIJALVA, Mr. THOMPSON of California, Mr. LEWIS of Georgia, Mrs. MALONEY, Mr. ROTHMAN of New Jersey, Mr. MASSA, Mr. MCNERNEY, and Mr. ELLISON.
H.R. 1443: Mr. DOYLE.
H.R. 1454: Mr. SNYDER.
H.R. 1460: Ms. ROYBAL-ALLARD.
H.R. 1472: Mr. MCCOTTER.
H.R. 1485: Mr. BAIRD.
H.R. 1503: Mr. POE of Texas and Mr. BURTON of Indiana.
H.R. 1521: Mr. LINCOLN DIAZ-BALART of Florida, Mr. WAMP, Mr. BUYER, Mr. DOYLE, Mr. SULLIVAN, and Mr. INSLEE.
H.R. 1526: Mr. ROSS, Mr. EHLERS, Mr. DICKS, Mr. SIRES, Mr. MCDERMOTT, Mr. MCGOVERN, Mr. LANCE, and Mr. ROTHMAN of New Jersey.
H.R. 1528: Ms. WATERS and Mr. TANNER.
H.R. 1530: Mr. RUSH, Ms. WATERS, and Mr. TANNER.
H.R. 1531: Mr. RUSH, Mr. TANNER, and Ms. WATERS.
H.R. 1546: Mrs. NAPOLITANO.
H.R. 1547: Mr. BARROW and Ms. ZOE LOFGREN of California.
H.R. 1548: Mr. BACA, Ms. RICHARDSON, Mr. ROSKAM, and Mr. GRIFFITH.
H.R. 1552: Mr. BRIGHT.
H.R. 1557: Mr. LANCE.
H.R. 1636: Mr. BLUMENAUER.
H.R. 1675: Ms. ZOE LOFGREN of California.
H.R. 1681: Mr. TANNER.
H.R. 1685: Ms. MATSUI.
H.R. 1691: Mr. MCMAHON.
H.R. 1707: Mr. WAMP.
H.R. 1708: Mr. MARSHALL.
H.R. 1775: Mr. COHEN.
H.R. 1816: Mr. KIRK.
H.R. 1835: Mr. KISSELL and Mr. DAVIS of Tennessee.
H.R. 1844: Ms. CLARKE and Mr. MCCOTTER.
H.R. 1866: Mr. KUCINICH.
H.R. 1881: Mr. CUELLAR and Ms. PINGREE of Maine.
H.R. 1894: Mr. MEEK of Florida.
H.R. 1928: Mr. MICHAUD.
H.R. 1933: Mr. POE of Texas.
H.R. 1956: Mr. CAPUANO.
H.R. 1969: Mr. GARRETT of New Jersey.
H.R. 1977: Mr. POE of Texas.
H.R. 1992: Mr. FILNER.
H.R. 2006: Mr. BLUMENAUER, Mr. FILNER, and Mr. CARSON of Indiana.
H.R. 2026: Mr. SCALISE.
H.R. 2035: Mr. LANGEVIN.
H.R. 2058: Mr. MCINTYRE.
H.R. 2061: Mr. HALL of Texas.
H.R. 2084: Mr. CRENSHAW, Mr. MASSA, and Mr. ROTHMAN of New Jersey.

H.R. 2427: Mr. HOLT and Mr. KENNEDY.
H.R. 2452: Mr. GOODLATTE.
H.R. 2478: Mr. JACKSON of Illinois, Mrs. MYRICK, Mr. SHERMAN, Mr. CAPUANO, Mr. CONYERS, Mr. WILSON of South Carolina, Mr. SOUDER, Mr. BLUMENAUER, Mr. HUNTER, Mrs. NAPOLITANO, and Mr. CONNOLLY of Virginia.
H.R. 2492: Mr. FILNER, Mr. PAUL, and Mr. MARSHALL.
H.R. 2499: Mr. THOMPSON of California, Mr. WAMP, Mr. KLINE of Minnesota, and Mr. SCHIFF.
H.R. 2516: Mr. LEE of New York.
H.R. 2517: Ms. GIFFORDS.
H.R. 2519: Mr. MCMAHON.
H.R. 2523: Mr. HONDA.
H.R. 2538: Mr. MASSA and Ms. CORRINE BROWN of Florida.
H.R. 2542: Mr. NUNES.
H.R. 2560: Mr. BLUMENAUER.
H.R. 2567: Mr. CARNAHAN.
H.R. 2570: Mr. KUCINICH.
H.R. 2596: Mr. BRALEY of Iowa.
H.R. 2597: Mr. SARBANES, Mrs. MCCARTHY of New York, and Mr. SESTAK.
H.R. 2625: Ms. ZOE LOFGREN of California, Mr. KUCINICH, and Mr. VAN HOLLEN.
H.R. 2632: Mr. PETERSON.
H.R. 2648: Ms. SCHAKOWSKY.
H.R. 2669: Mr. FILNER.
H.R. 2676: Ms. KOSMAS.
H.R. 2681: Mr. HONDA.
H.R. 2685: Mr. HOLT.
H.R. 2697: Mr. MICHAUD and Mr. TONKO.
H.R. 2702: Mr. POE of Texas.
H.R. 2724: Mr. AL GREEN of Texas.
H.R. 2738: Mr. RODRIGUEZ.
H.R. 2746: Mr. BARROW, Mr. LEWIS of Georgia, Mr. GEORGE MILLER of California, Ms. SCHAKOWSKY, Mr. MCGOVERN, and Ms. ZOE LOFGREN of California.
H.R. 2752: Mr. POE of Texas.
H.R. 2770: Mr. PETERSON.
H.R. 2777: Ms. KAPTUR.
H.R. 2799: Mr. HINCHEY.
H.R. 2801: Ms. JACKSON-LEE of Texas.
H.R. 2810: Mr. KISSELL.
H.R. 2828: Mr. WITTMAN.
H.R. 2845: Mr. OLSON, Mr. SOUDER, and Mr. CONAWAY.
H.R. 2846: Mr. YOUNG of Alaska.
H.R. 2859: Mr. BRADY of Pennsylvania.
H.R. 2861: Mr. HINCHEY.
H.R. 2866: Mr. HOLT, Mr. PALLONE, Ms. CORRINE BROWN of Florida, and Mr. BLUMENAUER.
H.R. 2876: Mr. WELCH.
H.R. 2900: Mr. CONAWAY, Mrs. BLACKBURN, Mr. AKIN, and Mr. RADANOVICH.
H.R. 2902: Ms. JACKSON-LEE of Texas.
H.R. 2909: Mr. KUCINICH and Mr. JOHNSON of Georgia.
H.R. 2914: Mr. PITTS, Mr. HOEKSTRA, Mr. BURTON of Indiana, Mr. PATRICK J. MURPHY of Pennsylvania, and Mr. WEINER.
H.R. 2920: Mr. DEFAZIO, Mr. CAPUANO, Mr. HOLT, and Mr. YARMUTH.
H.R. 2941: Mr. TIERNEY and Mr. KENNEDY.
H.R. 2943: Mr. GEORGE MILLER of California and Mr. KUCINICH.
H.R. 2964: Mrs. LUMMIS, Mr. FLEMING, and Mr. MASSA.
H.R. 2980: Mr. MICHAUD.
H.R. 2995: Mr. ALEXANDER.
H.R. 2999: Ms. GIFFORDS.
H.R. 3001: Mr. SERRANO and Mr. HOLT.
H.R. 3006: Mr. BOUCHER.
H.R. 3011: Mr. GARRETT of New Jersey, Mr. COSTELLO, and Mr. DAVIS of Alabama.
H.R. 3012: Mr. FATTAH, Mr. BOUCHER, and Ms. VELÁZQUEZ.
H.R. 3017: Mr. GRAYSON, Mr. LUJÁN, Mr. OBERSTAR, Mr. CONNOLLY of Virginia, and Mr. KENNEDY.
H.R. 3020: Mr. MINNICK.
H.R. 3025: Mr. CHANDLER and Mr. MARSHALL.
H.R. 3042: Mr. HASTINGS of Florida, Mr. MICHAUD, Ms. MOORE of Wisconsin, Ms. SUTTON, Mr. SCHAUER, Mr. MASSA, Mr. FILNER, Mr. TIERNEY, Mr. KILDEE, Ms. SHEA-PORTER, and Mr. GUTIERREZ.
H.R. 3047: Ms. BALDWIN, Mr. DAVIS of Illinois, Ms. NORTON, and Mr. CONYERS.
H.R. 3050: Mr. WOLF and Mr. PERRIELLO.
H.R. 3053: Ms. LEE of California.
H.R. 3068: Mr. FATTAH.
H.R. 3074: Mr. WALZ, Mr. OBERSTAR, Mr. PETERSON, Mr. BRALEY of Iowa, and Mr. LOEBSACK.
H.R. 3086: Mr. FALEOMAVAEGA.
H.R. 3088: Mr. BISHOP of New York.
H.R. 3090: Mr. KENNEDY and Mrs. NAPOLITANO.
H.J. Res. 47: Mr. WITTMAN and Mrs. HALVORSON.
H. Con. Res. 16: Mr. POE of Texas.
H. Con. Res. 74: Mr. OLVER.
H. Con. Res. 94: Mr. JONES, Mr. FILNER, Mr. KIRK, Mr. GRIJALVA, Mr. REICHERT, Mr. HINCHEY, Mr. ROGERS of Kentucky, Mr. MORAN of Virginia, Mr. WHITFIELD, Ms. LEE of California, Mr. GUTHRIE, Mr. ELLISON, Mr. SHIMKUS, Ms. SCHAKOWSKY, Mr. BOUSTANY, Mr. FATTAH, Mr. BRADY of Texas, Mr. MARKEY of Massachusetts, Mr. CAMP, Mr. KUCINICH, Mr. CONAWAY, Ms. JACKSON-LEE of Texas, Mr. CAO, Mr. MASSA, and Mr. WU.
H. Con. Res. 117: Mr. ADERHOLT, Mr. MCCAUL, and Ms. JACKSON-LEE of Texas.
H. Con. Res. 144: Mr. ETHERIDGE, Mr. SERRANO, Mr. HODES, Mrs. MALONEY, Ms. NORTON, Mr. CHILDERS, Mr. HINCHEY, Mr. RANGEL, Mr. CASTLE, Mr. SALAZAR, and Ms. JACKSON-LEE of Texas.
H. Con. Res. 152: Mr. AL GREEN of Texas.
H. Con. Res. 156: Mr. ROYCE, Mr. SMITH of New Jersey, Mr. COBLE, Mr. ROHRABACHER, and Mr. TOWNS.
H. Con. Res. 158: Ms. MATSUI, Mr. SESTAK, Mr. MINNICK, Mr. LEWIS of Georgia, Mr.

MASSA, Mr. GUTIERREZ, Mr. MARKEY of Massachusetts, Mr. MCGOVERN, Ms. JACKSON-LEE of Texas, Mr. CAO, Mr. BUTTERFIELD, Mr. MEEK of Florida, Mr. HINOJOSA, and Mr. SHULER.

H. Con. Res. 159: Mr. CAPUANO and Mr. HERGER.

H. Res. 69: Mr. SMITH of Texas.

H. Res. 90: Mr. KUCINICH.

H. Res. 111: Mr. CAMPBELL, Mrs. HALVORSON, Mr. OLVER, and Mr. WILSON of Ohio.

H. Res. 130: Mr. MCNERNEY.

H. Res. 271: Mr. HOLT.

H. Res. 278: Ms. KAPTUR.

H. Res. 362: Mr. PAYNE.

H. Res. 394: Mr. BONNER.

H. Res. 409: Ms. CORRINE BROWN of Florida.

H. Res. 416: Mr. STARK, Mr. CLAY, Mr. COHEN, Ms. EDDIE BERNICE JOHNSON of Texas, Mr. JOHNSON of Georgia, Ms. CLARKE, and Mr. ELLISON.

H. Res. 461: Mr. STARK.

H. Res. 494: Mr. TANNER and Mr. DUNCAN.

H. Res. 496: Mr. ROHRABACHER.

H. Res. 507: Mr. RADANOVICH and Mr. SCALISE.

H. Res. 554: Mr. PAULSEN and Mr. WALDEN.

H. Res. 577: Mrs. BLACKBURN, Mr. FLEMING, and Mr. MORAN of Virginia.

CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, OR LIMITED TARIFF BENEFITS

Under clause 9 of rule XXI, lists or statements on congressional earmarks, limited tax benefits, or limited tariff benefits were submitted as follows:

The Manager's Amendment to be offered by Chairman REYES, or a designee, to H.R. 2701, the Intelligence Authorization Act for Fiscal Year 2010, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits, as defined in clause 9 of Rule XXI.

The amendment to be offered by Representative VELÁZQUEZ, or a designee, to H.R. 2965, the Enhancing Small Business Research and Innovation Act of 2009, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of Rule XXI.

The amendment to be offered by Representative DELAURO, or a designee, to H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010, contains no congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9(e), 9(f) or 9(g) of rule XXI.

EXTENSIONS OF REMARKS

EARMARK DECLARATION

HON. ROBERT J. WITTMAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. WITTMAN. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of H.R. 3082, the Military Construction and Veterans Affairs Appropriations Act, 2010.

Project Name: Electromagnetic Research and Engineering Facility

Amount: $3,660,000

Requested By: ROBERT J. WITTMAN (VA–01)

Account: Military Construction (MCN)

Intended Recipient of Funds: Naval Activity South Potomac, Dahlgren, Virginia. Dahlgren, VA 22448

Project description and explanation of the request: This project will provide an addition to the Electromagnetic Research and Engineering Facility (EMREF). This addition is required to facilitate the Directed Energy Technology Office at Naval Surface Warfare Center, Dahlgren Division (NSWCDD) to meet its mission in Directed Energy research, development of prototypes and engineering development model systems and in fielding these prototypes to the warfighter. This project will provide laboratories and analysis spaces for wideband RF, High Powered Microwave, Pulsed Power and high energy laser systems engineering and development. This project provides necessary access to a maritime boundary layer environment and therefore is sited along the Potomac River Test Range. This project will house 25–30 engineers and scientists some of whom will be new hires. This project was developed because it represents the lost scope of another military construction project, P295, that was approved in Fiscal Year 2006. Due to high bids, only about 75% of the original facility could be built. This project provides the remaining 25% (6,500 SF). Funding will be used for electrical facilities ($120,000), mechanical facilities ($110,000), paving and site improvements ($30,000), site preparations ($110,000), demolition of previous buildings ($230,000), anti-terrorism/force protection measures ($180,000), information systems ($60,000), built-in equipment ($60,000), and technical operating manuals ($40,000). I certify that neither I nor my spouse has any financial interest in this project.

EARMARK DECLARATION

HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. CASTLE. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding funding for Delaware included as part of FY 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, H.R. 2997:

Name of Project: Avian Bioscience, DE

Requesting Member: Congressman MICHAEL N. CASTLE

Bill Number: H.R. 2997

Account: National Institute of Food and Agriculture—SRG

Legal Name of Requesting Entity: University of Delaware

Address of Requesting Entity: University of Delaware, Hullihen Hall, Newark, DE 19716

Description of Request: $94,000 to be used to upgrade Delaware's existing diagnostic facility. Delmarva is the nation's leader in the research, development, and implementation of successful avian influenza (AI) surveillance and response plans to protect poultry and human health. The University of Delaware, through its College of Agriculture and Natural Resources, is central to Delmarva's preparedness for AI.

Name of Project: Agriculture Compliance Laboratory Equipment, Delaware

Requesting Member: Congressman MICHAEL N. CASTLE

Bill Number: H.R. 2997

Account: Animal and Plant Health Inspection Service—Salaries and Expenses

Legal Name of Requesting Entity: State of Delaware

Address of Requesting Entity: Delaware Department of Agriculture, Tatnall Building, William Penn Street, Dover, DE 19901

Description of Request: $69,000 to fully equip and modernize the Poultry and Animal Health Lab for the state of Delaware in order to protect Delaware's animal industries (including food animals and poultry, horse-racing industry, and companion animals) and therefore public health of all Delawareans.

EARMARK DECLARATION

HON. CATHY McMORRIS RODGERS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mrs. MCMORRIS RODGERS. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2997, FY2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act

Requesting Member: Congresswoman MCMORRIS RODGERS

Bill Number: H.R. 2997

Account: Salaries and Expenses

Legal Name of Requesting Entity: Washington Grain Alliance (on behalf of the USDA Agricultural Research Service)

Address of Requesting Entity: USDA Agriculture Research Service; Jamie L. Whitten Building; 1400 Independence Avenue, SW; Washington, DC; 20250

Description of Request: Provide an addition of $290,000 for salaries and expenses for a coordinated research effort to identify and introduce new germplasm, genes, and varieties of wheat, barley, and oats with improved and sustainable rust resistance. This research will help combat stem, leaf, and stripe rust that threaten the entire U.S. production of wheat, barley, and oats.

Requesting Member: Congresswoman MCMORRIS RODGERS

Bill Number: H.R. 2997

Account: RE/FA

Legal Name of Requesting Entity: Washington State University

Address of Requesting Entity: French Administration Building, Room 324; Pullman, WA 99164

Description of Request: Provide $268,000 for the study of PM10 Particulate Emission Prediction and Control. By researching wheat farming and air quality issues, farmers can develop practices that allow for the control of wind erosion and dust emissions without suffering economic hardship. This research project addresses national and regional agricultural needs and helps maintain a robust and healthy agriculture industry.

Requesting Member: Congresswoman MCMORRIS RODGERS

Bill Number: H.R. 2997

Account: SRG

Legal Name of Requesting Entity: Washington State University–

Address of Requesting Entity: French Administration Building, Room 324; Pullman, WA 99164

Description of Request: Provide $235,000 for the Cool Season Food and Legume research program to improve the efficiency and sustainability of the U.S. dry pea, fresh pea, lentil, and chickpea industries. The program is a cooperative effort between federal and state university scientists to establish and maintain a robust and healthy agricultural industry and address national and regional agricultural research needs as they relate to the development of genetically-superior legume varieties.

Requesting Member: Congresswoman MCMORRIS RODGERS

Bill Number: H.R. 2997

Account: SRG

Legal Name of Requesting Entity: Washington State University

Address of Requesting Entity: French Administration Building, Room 324; Pullman, WA 99164

Description of Request: Provide $313,000 to address the needs of the grass seed industry by utilizing the research and technology expertise of scientists from Washington, Idaho, and Oregon, and USDA–ARS with input from industry representatives. By researching the genetic of barley, the U.S. can further the goal

of establishing and maintaining a robust and healthy agriculture industry and address national and regional agriculture research needs.

Requesting Member: Congresswoman MCMORRIS RODGERS

Bill Number: H.R. 2997

Account: SRG

Legal Name of Requesting Entity: Washington State University–

Address of Requesting Entity: French Administration Building, Room 324; Pullman, WA 99164

Description of Request: Provide $98,000 for perennial wheat research to develop it into a viable part of the small grains cropping systems, especially in areas where soil erosion potential is high. Perennial wheat offers a viable option for sustainable farming systems and improved environmental stewardship. Soil erosion by wind and water is a direct cause of lower air and water quality; perennial wheat provides constant soil coverage by plant material, resistance to pests and diseases, and a source of straw for new fiber products.

Requesting Member: Congresswoman MCMORRIS RODGERS

Bill Number: H.R. 2997

Account: SRG

Legal Name of Requesting Entity: Washington State University

Address of Requesting Entity: French Administration Building, Room 324; Pullman, WA 99164

Description of Request: Provide $1,037,000 for the Northwest Tri-State potato breeding and cultivation research project. The knowledge generated by this project has led to a decrease in the use of harmful pesticides and an increase in profits for the potato industry. It has also led to an increased knowledge of potato varieties.

Requesting Member: Congresswoman MCMORRIS RODGERS

Bill Number: H.R. 2997

Account: SRG

Legal Name of Requesting Entity: Washington State University

Address of Requesting Entity: Crop and Soil Science Department; Johnson Hall, Room 273; Pullman, WA 99164

Description of Request: Provide $471,000 to fund the Regional Barley Mapping Project to develop improved barley varieties using the tools of genomics. Barley is the cornerstone of American agriculture; it provides farmers with the opportunity to increase genetic diversity, use less irrigation water, and be more profitable. It can also lead to rural community sustainability and development by increasing the manufacture and sale of value-added barley products generating business activity.

Requesting Member: Congresswoman MCMORRIS RODGERS

Bill Number: H.R. 2997

Account: SRG

Legal Name of Requesting Entity: Washington State University

Address of Requesting Entity: French Administration Building, Room 324; Pullman, WA 99164

Description of Request: Provide $444,000 to fund the STEEP IV water quality project. This research will contribute solutions to modern societal problems faced by U.S. farmers and the public, such as energy and food security, sequestration of greenhouse gasses, and improved trade balance. Conservation information obtained through this work is transferable to other parts of the U.S. and the world. Benefits of this research include reduction if food production costs and greater energy independence for the nation's food supply.

Requesting Member: Congresswoman MCMORRIS RODGERS

Bill Number: H.R. 2997

Account: SRG

Legal Name of Requesting Entity: Washington State University

Address of Requesting Entity: French Administration Building, Room 324; Pullman, WA 99164

Description of Request: Provide $223,000 to fund research for Virus-free Wine Grape Cultivation. To maintain competitiveness and health, this project addresses an immediate high-priority need to meet the certification standards of the vineyard industry.

EARMARK DECLARATION

HON. C.W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. YOUNG of Florida. Madam Speaker, pursuant to the House Republican Standards on Congressional appropriations initiatives, I am submitting the following information regarding projects that were included at my request in H.R. 2997, the Fiscal Year 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Bill:

TROPICAL AND SUBTROPICAL AGRICULTURE RESEARCH (T–STAR)

Account: Department of Agriculture, Cooperative State Research, Education, and Extension Service, Research and Education Activities

Legal name and address of requesting entity: The University of Florida, 226 Tigert Hall, Gainesville, FL 32611

Description of request: $6,677,000 is included in the bill for Tropical and SubTropical Agriculture Research (T–STAR) at the Universities of Florida and Hawaii to address the problem of exotic pests and other tropical and subtropical problems in America's Caribbean and Pacific Basins. The major goal of the T–STAR program is to develop strategies and tactics to stem the invasion of exotic diseases, insects, and weeds into the United States. The recent introduction of asian soybean rust into the United States, along with the increasing threat of avian influenza and foot-and-mouth disease entering the country, heightens the possibility of a terrorist-induced attack on the nation's food supply. There is an urgent need to identify exotic pests in other countries with which the United States maintains frequent and extensive trade and travel in order to: (1) determine potential avenues for the introduction of these pests into the United States, (2) develop technologies for the early detection of these pests, (3) find effective and environmentally acceptable methods for the eradication and containment of these pests if they enter the United States. Under the T–STAR program, scientists aggressively protect the nation against the growing environmental and economic threat of invasive exotic pests. The Universities of Florida and Hawaii represent important agricultural states which are prime locations for the introduction of exotic pests from other parts of the world. Previous funding has been provided by the Department of Agriculture for T–STAR in the following amounts: FY 2001—$3,800,000, FY 2002—$3,800,000, FY 2003—$9,000,000, FY 2004—$9,000,000, FY 2005—$9,400,000, FY 2006—$9,500,000, FY 2008—$7,400,000, FY 2009—$6,677,000.

EARMARK DECLARATION

HON. MARY FALLIN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Ms. FALLIN. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2487 Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010 the appropriations.

I, Rep. MARY FALLIN, requested and received $2,000,000 under The Department of Commerce, NOAA—Operations, Research, and Facilities Account for The University of Oklahoma—National Radar Testbed—Phased Array Radar. The entity to receive funding for this project is the University of Oklahoma, 100 E. Boyd Street, Norman, OK 73109. It is my understanding that the funding would be used to support research and development for forecasting advanced warning detection of tornadoes and other forms of severe weather at the National Severe Storms Labs (NSSL) in Norman, OK.

I, Rep. MARY FALLIN, requested and received $350,000 under The Department of Justice, Cops Law Enforcement Account for the Oklahoma Department of Public Safety—Statewide Public Safety Communication System. The entity to receive funding for this project is the Oklahoma Department of Public Safety, 3600 Martin Luther King, Oklahoma City, OK 73136. It is my understanding that the funding would be used to enhance the Oklahoma Highway Patrol, Law Enforcement Technology Division's mobile data program.

I, Rep. MARY FALLIN, requested and received $150,000 under The Department of Commerce, COPS Law Enforcement Technology Account for University of Central Oklahoma Forensic Laboratory Program Enhanced DNA Analysis Training for Law Enforcement. The entity to receive funding for this project is University of Central Oklahoma, 100 N. University Drive, Edmond, OK 73034. It is my understanding that the funding would be used to utilize new laboratory infrastructure and equipment to significantly expand the services available to the Oklahoma State Bureau of Investigation Forensic Institution's training programs and to state and local law enforcement officers.

EARMARK DECLARATION

HON. CHRISTOPHER JOHN LEE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. LEE of New York. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of the Agriculture Appropriations bill.

Requesting Member: Congressman CHRISTOPHER LEE (NY–26)

Bill Number: H.R. 2997

Account: Natural Resources Conservation Service—Watershed/Flood Prevention Operations

Legal Name of Requesting Entity: State University of New York College at Brockport

Address of Requesting Entity: 350 New Campus Drive, Brockport, NY 14420

Description of Request: Provide an earmark of $500,000 for the Genesee River Watershed project. No systematic studies have attempted to identify the causes of the water quality issues that also affect the near-shore of Lake Ontario. Identification will provide a basis for management practices in order to improve water quality.

Of the total amount, $283,000 (or 56.6%) is for salaries for project administrator and field agents; $113,200 (22.64%) is for fringe benefits; $86,500 (17.3%) is for supplies, travel, and equipment; and $17,300 (3.46%) is for indirect costs.

EARMARK DECLARATION

HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Ms. GRANGER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I, KAY GRANGER, submit the following information regarding earmarks I received as part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations bill for fiscal year 2010. For the project titled ''Assistance to Improve Water Quality for Tarrant County, Texas,'' which received $336,000 in H.R. 2997, Natural Resources Conservation Service, Conservation Operations account, the legal name and address of the receiving entity is Texas AgriLife Extension Service, 113 Jack K. Williams Building 2142 TAMU, College Station, TX 77843–2142. This funding supports specialized studies to improve water quality in North Central Texas. The project aims to create a watershed protection plan and improve the water quality in the five reservoirs that supply water for the majority of Fort Worth and fifty-nine surrounding communities. By implementing a watershed protection plan, water quality can be improved in North Central Texas, thereby protecting supply and quality for over 1.6 million residents in the area. Tarrant Regional Water District, Texas Water Resources Institute, and the Texas AgriLife Extension Service support this project through in-kind support including employee salaries and data and sample analysis.

IMMIGRATION RIGHTS—ATTORNEY ACCESS RESTORED

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. RANGEL. Madam Speaker, I rise today to enter into the record an article published in the New York Carib News newspaper on June 23, 2009, titled ''Eric Holder Restores Key Immigration Right, Access to Attorney'', written by Tony Best. The article applauds Attorney General Eric Holder's swift action in reversing the past Administration's move to deprive individuals facing deportation with the right to an attorney.

As this Administration moves towards immigration reform, it is important that we articulate that we are a nation that was founded on immutable rights, and these rights should not be limited to those who have the great benefit of US citizenship. Everyone who stands before a judge in our country is afforded the right to an attorney and why should an immigrant be excluded from such due process?

It is understood that immigrants are not granted all the same protections that citizenship guarantees, but the integrity of the immigration proceedings are compromised when an individual does not have the ability to assert themselves through the benefit of counsel. Cultural and language barriers already place many immigrants at a disadvantage when standing before a judge and it is important that we offer these individuals the benefit of legal counsel to represent and assert their rights.

I am pleased to hear that the Attorney General will be drafting a new order on this policy to recognize the need to give immigrants the capacity to be fairly judged.

HONORING DR. JAMES D. LOMBARDO

HON. PATRICK J. MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. PATRICK J. MURPHY of Pennsylvania. Madam Speaker, I rise today to honor Dr. James D. Lombardo, Superintendent of Schools of the Bensalem Township School District.

Dr. Lombardo will be stepping down from his position this summer after two and a half years of dynamic leadership in the district. Prior to this position he was superintendent for the Upper St. Clair School District in Pennsylvania as well as school districts in the state of Vermont. Dr. Lombardo's experience in the public education system also includes positions as a curriculum and staff development director, principal, associate principal, and English teacher.

As an educator, Dr. Lombardo's philosophy centers on the concept of providing learning for the ''whole'' child, challenging and supporting each student to discover a passion for learning while designing and achieving a personal vision of success. He has guided members of his school district in setting goals and beliefs to achieve this vision of education.

During his time as superintendent, Dr. Lombardo has encouraged staff and parents alike to ensure that no child is ''invisible'' and that each student is safe, healthy, and engaged. Specifically students in grades 3, 7, and 8 now have an opportunity to learn a second language, students with special needs are spending more of their time in the regular classroom setting, more than 100 kindergarten students now benefit from a full time program, and smaller class sizes in grades K–2 promise improved learning for hundreds of Bensalem children.

Dr. Lombardo has contributed enormously to the education and well-being of children in his community. Madam Speaker, I am proud to recognize Dr. Lombardo for his outstanding efforts, and am extremely honored to serve as his Congressman.

EARMARK DECLARATION

HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Ms. GRANGER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I, KAY GRANGER, submit the following information regarding earmarks I received as part of H.R. 3081, the Department of State, Foreign Operations, and Related Programs Appropriations Act of Fiscal Year 2010 for the language pertaining to ''Sister Cities International Cultural and Economic Development Exchange Programs.'' Any funding granted by the Department of State Educational and Cultural Exchange Programs account would go to Sister Cities International, 1301 Pennsylvania Ave., NW, Suite 850, Washington, DC 2004. It is my understanding that the funding would be used to support Sister Cities International's ongoing initiatives to increase the numbers of international citizen exchange opportunities through its network with Africa and Islamic communities. Once funded, there is a one-to-one match of local private dollars to re-granted federal dollars. The City of Fort Worth, TX, is an active partner in Sister Cities International, leading in U.S. public diplomacy efforts.

BLACK MUSIC MONTH

HON. HENRY C. ''HANK'' JOHNSON, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. JOHNSON of Georgia. Madam Speaker, I rise today in strong support of H. Res. 476, celebrating the 30th anniversary of June as ''Black Music Month''. I would like to thank my colleague Representative STEVE COHEN from Tennessee for introducing this important piece of legislation, as well as the co-sponsors.

I stand in support of this resolution because it is continuing to recognize the importance that black music has played in American culture. Many American made genres of music such as jazz, blues, gospel, rock and roll, and the rhythm and blues owe their existence to the contribution of black musicians in the past. Georgians such as Tenor Richard Hayes, born in 1887 to former slaves, was one of the most important African-American tenors performing in classical music during the first part of the 20th century. Hayes was one of the highest paid musicians of his time breaking down color barriers for other black classical performers such as Paul Robeson, Leontyne Price, William Dawson, William Grant Still, and even Duke Ellington. As well as other native Georgia artists like Ray Charles, one of the main creators of ''soul music'', who is well known for his unique version of ''America the Beautiful''. Charles' rendition of ''Georgia on My Mind'' was proclaimed the state song on April 24, 1979.

This resolution aims to continue to stress the importance of recognizing June as Black Music Month as it was formally declared in 1979. Celebrating the phenomenal work of black composers, musicians, producers, writers, and singers during one month of the year is the least that we can do to pay tribute to contributions that they have made in shaping the musical art forms that we enjoy today. Celebrating and observing the 30th anniversary of June as ''Black Music Month'' is something that I encourage all Americans to do. I urge my colleagues to support this resolution.

TRIBUTE TO ANTOINETTE TRIFARI

HON. BILL PASCRELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. PASCRELL. Madam Speaker, I would like to call to your attention the life of an outstanding individual, Antoinette Trifari. She will mark her 100th birthday with a celebration, joined by family and friends, some of whom are traveling great distances to be part of this happy occasion.

It is only fitting that she be honored in this, the permanent record of the greatest democracy ever known, for she has brought so much joy to the lives of others throughout her lifetime.

Antoinette is a native of the great City of Paterson, NJ. She was born there on July 9, 1909 to Angelina and John Pescatore, and was the fifth of fourteen children. She attended Paterson schools, going first to School 19, then graduating from School 5. Then at age fourteen, she began working, sewing pearls and sequins onto fabric that was used for opera gowns. Antoinette soon went on to work for more than ten years in Paterson's world famous silk and textile mills.

Antoinette was married on June 9, 1935 to Edmund Trifari, also of Paterson, who had attended New Jersey Law School. The wedding was held at St. Anthony's R.C. Church and was officiated by the groom's brother, Reverend Aloysius Trifari, a Salesian priest. Two years later, the Trifaris welcomed twins, Edmund, Jr. and Nancy Angela. The young family soon moved to a new development of Cape Cod homes on the outskirts of Paterson, known as Colonial Village. Antoinette and Edmund lived there together until Edmund passed away on January 2, 2003, after sixty-seven and a half years of marriage. She remained in their home until 2005 when she moved to Connecticut to live with Edmund, Jr. and his wife Claire Elwood. Her daughter Nancy lives in England with her husband George Dowden.

Over the years, Antoinette has been blessed not only with her children, but with seven grandchildren; Conrad, MaryBeth and Michael Roncati, and TerriAnn, Edmund III, John and Brian Trifari. Now, she also has thirteen great-grandchildren; Conrad Maxwell, Dean, Mia, Dylan, Carissa Roncati and Jessica Bates, Abigaile, James, Ryan and Michael Sands, Joshua, Nicholas and Tyler Trifari. She is also the loving aunt of countless nieces, nephews, grandnieces and grandnephews.

She is well known throughout the Paterson area for a business that she began. She made poodles out of commercial yarn; they were so creative and lifelike that the yarn company featured a story about her in their corporate magazine. She also continues crocheting, a lifelong hobby she still enjoys. Antoinette also has a passion for helping people and volunteering. She was a member of St. Mary's R.C. Church in Paterson her entire life until she moved, and is a now a parishioner of Saint Peter Claver R.C. Church in West Hartford. Even into her nineties she was a volunteer at St. Joseph's Home for the Aged in Totowa, NJ. She made many lasting friendships and touched many lives through her involvement with the Little Sisters of the Poor. When she moved in 2006 to Middlewoods Assisted Living Home in Farmington, Connecticut, she immediately became an active participant in many of their programs. She is the assistant to the pianist in the Choral Group, attends Sunday outings visiting historic and cultural points of interest around Connecticut, and is a tutoring mentor for young children. She enjoys playing Scrabble with friends and playing solitaire on the computer, and most of all, sharing her joy of life and her love with all those she encounters.

The job of a United States Congressman involves much that is rewarding, yet nothing compares to celebrating and recognizing individuals like Antoinette Trifari.

Madam Speaker, I ask that you join our colleagues, Antoinette's family and friends, everyone at St. Joseph's Home in Totowa, New Jersey, all those who have been touched by her, and me in recognizing Antoinette Trifari.

UPPER ELK RIVER WILD AND SCENIC STUDY ACT

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. RAHALL. Madam Speaker, at the request of the Pocahontas County Commission of the great State of West Virginia, today I am introducing legislation to provide for a study to determine the feasibility and suitability of including a segment of the Elk River as a component of the Wild and Scenic River System.

The Elk River is one of West Virginia's premier natural resource assets. It is the longest river in West Virginia with its boundaries entirely within the State. The study which would be authorized by this legislation, however, would focus only on that segment of the Elk where it begins at the confluence of two streams—Old Field Fork and Big Spring Fork—at the community of Slatyfork and flows North for approximately five miles to the Pocahontas/Randolph County line. The study would be conducted by the U.S. Forest Service.

The idea of preserving this river in its natural state is not something new. Indeed, I well recall conversations with one of West Virginia's visionary conservationists, former State Senator Robert K. Holliday, on this matter during the late 1980s and early 1990s. In 1989, the Senate of West Virginia passed a resolution calling for the development of the Elk River into a national recreation area by Federal and State governments. And in 1993, I did propose a Wild and Scenic study for a 57.5 mile segment of the river. For one reason or another, the enthusiasm over this endeavor dissipated.

The February 4, 2009, unanimous vote by the Pocahontas County Commission consisting of President Martin V. Saffer, David M. Fleming and Reta J. Griffith to request that a study be conducted on a much smaller segment of the Elk River resurrects this issue and makes it ripe for consideration.

The ''Slaty'' segment of the Elk River that would be the subject of the study authorized by this bill, named in reference to the community of Slatyfork where the river begins, was described in a January 2009 letter written by local resident Tom Shipley to the Pocahontas County Commission as follows: ''History abounds around, near and on the banks of the Elk River. She is, in a literal sense, very much as she was back in the early 1800's . . . one of the last rivers on the East Coast that has three naturally reproducing species of wild trout . . . Brook, Brown and Rainbow. As Big Spring Fork and Old Field merge, they form an impressive gateway to the Upper Elk . . . a gift from God to Pocahontas County.''

Indeed, the Slaty segment of the Elk River is a superb fishery, and the West Virginia Division of Natural Resources does a good job in the area. While what is being proposed is a study—not a designation—and while the Wild and Scenic Rivers Act is very clear that nothing in the statute ''shall affect the jurisdiction or responsibilities of the State with respect to fish and wildlife,'' I am including in the legislation being introduced today a reaffirmation that the mere act of studying this segment of the Elk River will not change the status quo with respect to State jurisdiction.

The legislation being introduced today states that nothing in the bill ''shall be construed as affecting access for recreational activities otherwise allowed by law or regulation, including hunting, fishing, or trapping.'' It further states that nothing in the measure ''shall be construed as affecting the authority, jurisdiction, or responsibility of the State to manage, control, or regulate fish and resident wildlife under State law or regulations, including

the regulation of hunting, fishing, and trapping.''

In my view, most people associated with this segment of the Elk River want to keep it the way it is. As Mr. Shipley wrote, the river is ''a gift of God to Pocahontas County'' and I would add, to the State of West Virginia and the Nation as a whole.

In his book entitled ''Upper River, Elk's Origins and Beyond,'' Skip Johnson, a long time outdoor columnist and reporter for the Charleston Gazette, concisely summed up the essence of our relationship with rivers. ''Rivers like Elk touch us in a spiritual way,'' he wrote. ''Dave Teets, my neighbor, gave a talk on rivers at our 2004 church picnic. He said that rivers are important in the Bible, important to our soul and mind, and important to God. They also provide recreation, transportation, and natural boundaries. Then he made a less profound but equally important point: 'Who hasn't spent at least a part of a day just watching a river roll on?' ''

I could not agree more.

CELEBRATING THE LIFE OF ELIZABETH LOUISE ALLEN, AN AMERICAN MEZZO-SOPRANO AND HARLEM SCHOOL OF THE ARTS' PRESIDENT EMERITUS

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. RANGEL. Madam Speaker, I rise today in memoriam of my dear friend Elizabeth Louise Allen, who departed this life peacefully on Monday, June 22, 2009. Known to all of us as, Betty Lou Allen, she had been a guiding force at The Harlem School of the Arts since she became Executive Director, and eventually President after Dorothy Maynor, the school's founder, retired in 1979.

Betty Lou was born on March 17, 1927, in Campbell, Ohio, near Youngstown. Her father worked in the steel mills; her mother had a thriving business taking in laundry. Betty grew up in a neighborhood which was mostly made up of Sicilian and Greek families, and where she was introduced to the opera and its music. From the neighbors' windows, she could hear the broadcasts from the Metropolitan Opera house every Saturday from their radios.

Betty lost her mother to lung cancer when she was 12 years old. After many turbulent years, that began with her father, and later in foster homes, where she was treated badly and unfairly, Betty moved into the Youngstown Y.W.C.A. when she was 16 years old. She supported herself cleaning houses, excelled in Latin and German languages in high school, and entered Wilberforce College in Wilberforce, Ohio, on a scholarship (A historically black institution, it is now Wilberforce University).

At Wilberforce, Ms. Allen met Theodor Heimann, a former Berlin Opera tenor who taught German and voice there and encouraged her to sing. Soprano Leontyne Price was also a classmate at Wilberforce. Betty went on to earn a scholarship to what was then the Hartford School of Music in Connecticut.

In the early 1950s, Ms. Allen studied at Tanglewood, where Leonard Bernstein chose her to be the mezzo-soprano soloist in his Symphony No. 1 (''Jeremiah''); she was later a frequent soloist with Mr. Bernstein and the New York Philharmonic. Betty made her New York recital debut at Town Hall in 1958 in a program that included Brahms and Fauré.

Elizabeth ''Betty Lou'' Allen was part of the first great wave of African-American singers to appear on the world's premier stages in the postwar years. Active from the 1950s to the 1970s, she performed with the New York City Opera; the Metropolitan Opera; and the opera companies of Houston, Boston, San Francisco, and Santa Fe. In 1954 Ms. Allen made her City Opera debut as Queenie in ''Show Boat,'' by Jerome Kern and in 1964, she made her formal Opera debut at the Teatro Colon in Buenos Aires, Argentina, followed by countless appearances worldwide.

Betty Allen sang the role of Begonia in the City Opera production of Hans Werner Henze's comic opera ''The Young Lord,'' conducted by Sarah Caldwell in 1973. In reviewing the production of ''The Young Lord,'' New York Times' Harold C. Schonberg wrote of Ms. Allen's on-stage performance: ''When she was onstage everything came to life, and everything around her was dimmed.''

Ms. Allen, who also toured as a recitalist, was known for her close association with the American composers Virgil Thomson, Ned Rorem and David Diamond. At her death, she was on the faculty of the Manhattan School of Music, where she had taught since 1969. She was also the president emeritus and a former executive director of the Harlem School of the Arts.

With the Met, Ms. Allen sang the role of Commère in Mr. Thomson's ''Four Saints in Three Acts'' in 1973; she later participated in the first complete recording of the work. Elsewhere, her roles included Teresa in ''La Sonnambula,'' by Bellini; Jocasta in Stravinsky's ''Oedipus Rex''; Monisha in Scott Joplin's ''Treemonisha''; and Mistress Quickly in Verdi's ''Falstaff.''

Betty Allen has brought so much joy to many audiences of all ages and diversity with her beautiful voice. She has long been committed to nurturing young artists across all disciplines and opening doors for so many African American children who would have never had the opportunity exploit their talents.

From 1979 to 1992 she served as Executive Director and President to her beloved Harlem School of the Arts. Upon her retirement she stayed on as President Emeritus. While HSA was born of the commitment and ideals of its founder, it was Betty Allen who strengthened the foundation of the vibrant and inspiring institution that it is today. HSA honored Betty Allen with the inaugural Betty Allen Lifetime Achievement Award at the Art is Life Gala on Monday, March 9, 2008, and graced her presence at this year's benefit.

In addition to her many years as a leader and master teacher with HSA, Ms. Allen has also taught at the North Carolina School of Arts, the Manhattan School of Music, and the Curtis institute of Music in Philadelphia. She also holds Honorary Doctorates from Wittenberg University, Union College, Adelphi University, and Clark University in Massachusetts and the New School in New York City.

Madam Speaker, HSA President and Chief Executive Officer Kakuna Kerina stated: ''The impact Betty Allen has made as an artist and arts educator is measured in the tens of thousands of lives she influenced in their youth. She was unique in that the standards she applied to herself were the same as the standards she expected of others, and we are better for it. We extend our condolences to Ms. Allen's family and thank them for sharing her with a vast community of admirers throughout the world.''

Elizabeth ''Betty Lou'' Allen is a national treasure and true American heroine, whose artistic talents expanded the boundaries for so many African American children to achieve to be the best in any genre they choose to explore. May God bless all of us for the life of our American mezzo-soprano, Betty Allen.

EARMARK DECLARATION

HON. JO ANN EMERSON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mrs. EMERSON. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information in regards to H.R. 2996, the Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations Bill.

Project Name: City of East Prairie, Missouri Stormwater and Sewer Infrastructure

Bill Number: H.R. 2996

Account: STAG Water and Wastewater Infrastructure Project

Requesting Entity: City of East Prairie, Missouri

Address of Requesting Entity: 219 N. Washington St., East Prairie, Missouri, 63845–1141

Description of Request: Provide an earmark in the amount of $200,000 to rebuild East Prairie, Missouri's wastewater and storm water infrastructure. The existing 84-year-old water infrastructure is crumbling under the streets due to sinkholes which have plagued the community. The sinkholes are destroying box culverts, which is posing a threat to streets and houses in East Prairie. The money procured will pay for the construction of new stormwater sewers. A minimum of 45% of the total project cost will come directly from the City of East Prairie, Missouri.

EARMARK DECLARATION

HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Ms. GRANGER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I, KAY GRANGER, submit the following information regarding earmarks I received as part of H.R. 3082, Military Construction and Veterans Affairs Appropriations Act for fiscal year 2010. For the project titled ''Replace Joint Base Communications Building,'' which received $6,170,000 in H.R. 3082, in the Navy Reserve Military Construction account, the legal name and address of the receiving entity is NAS JRB Fort Worth, in Fort

Worth, TX. Funds will be used to build a new communications building. The existing base communications building is undersized. The location of communications assets must remain in that position since communications lines that run throughout the base run underground into the building's terminal/switch room. This facility, built in 1951, does not lend itself to the demands of current technologies. This has resulted in piecemeal renovations over the years in an attempt to meet growing communications needs. The existing space will not accommodate growth requirements for the terminal/switch room, threatening a loss in communication functionality base-wide.

EARMARK DECLARATION

HON. MARY BONO MACK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mrs. BONO MACK. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Department of Interior, Environment, and Related Agencies Appropriations Act, 2010:

Requesting Member: MARY BONO MACK

Bill Number: H.R. 2996

Account: Interior, Environment, and Related Agencies Appropriations, 2010

Entity Requesting: Coachella Valley Mountains Conservancy and the Friends of the Desert, 45480 Portola Ave. Palm Desert, CA 92260

Description of Earmark: $500,000 is provided for the protection lands including two properties comprising 871 acres in the Santa Rosa and San Jacinto Mountains National Monument, improving resource management. A 504 acre property is bounded by USFS land on 4 sides. A portion of an 8.1 mile segment of Palm Canyon Creek, found eligible for classification as a Wild and Scenic River in the Forest Land Management Plan, traverses the property, as does the Palm Canyon trail. A 367 acre property is bounded by USFS land on 3 sides. The property also adjoins an existing rural residential area where a paved road provides access to the property. This access and available water and electric service create development potential. Acquisition of the property prevents potential future residential development on it and the attendant wildfire issues and water supply issues in this area of extremely high fire hazard. The property provides habitat for the gray vireo.

Spending Plan: Project Expenditures—

The total cost for the 871 acres is $1,500,000. Because both properties have been pre-acquired, they are available for immediate sale to USFS upon the enactment of the federal budget.

Requesting Member: MARY BONO MACK

Bill Number: H.R. 2996

Account: Interior, Environment, and Related Agencies Appropriations, 2010

Entity Requesting: Coachella Valley Mountains Conservancy and the Friends of the Desert, 45480 Portola Ave., Palm Desert, CA 92260

Description of Earmark: $500,000 is provided in the legislation for protecting local groundwater resources and preventing pollution in the City of Cathedral City. There are thousands of septic tanks that lie east of the Whitewater Channel in the Coachella Valley that have been identified as a significant threat to public potable groundwater resources. This project will permanently remove these known pollution sources (septic tanks) and will sustain and improve local and regional water supply reliability. Cathedral City is confident that this project will proceed with full community support and participation. Long-term attainment and maintenance of state and Federal drinking water quality standards will also be achieved as a result of this endeavor.

Spending Plan: Project Expenditures—

Task: Right-of-Way Acquisition: $0; Construction Costs: $12,700,000.

Design & Construction Management: $2,300,000—Design and Engineering, Environmental Permits, Environmental Clean-up, Construction Administration, Construction Inspection, Materials Testing, Surveying. Total Cost: $15,000,000.

Matching Funds Break-down: City of Cathedral City General Fund—$800,000, Federal Assistance—$1,000,000, Assessment District—$9,000,000, California Proposition 84 Grant—$2,000,000, Cathedral City Redevelopment Agency—$700,000, Coachella Valley Water District—$1,500,000. Total Match: $15,000,000.

EARMARK DECLARATION

HON. DEVIN NUNES

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. NUNES. Madam Speaker, I am submitting the following information regarding H.R. 1945, Tule River Tribe Water Development Act. The entity to receive funding authorized under this act is the Bureau of Reclamation. The project will benefit the Tule River Tribe located at 340 N. Reservation Road, Porterville, CA 93257. I certify, to the best of my knowledge, that neither I nor my spouse has any financial interest in this project; the project is not directed to an entity or program that will be named after a sitting Member of Congress; the project is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the authorizing legislation; and the project meets or exceeds all statutory requirements for matching funds where applicable.

EARMARK DECLARATION

HON. K. MICHAEL CONAWAY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. CONAWAY. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010. This legislation passed in the House of Representatives on June 18, 2009.

In the Department of Justice, Office of Justice Programs account, an earmark for Emergency Communications Equipment for the City of Midland was included on my behalf. The entity to receive funding for this project is the City of Midland, located at 300 North Lorraine, Midland, Texas 79702.

Funding for this project will be used to upgrade backup equipment for Midland's emergency communications system, which is used by the city's police, firefighters and other first responders. In the past, not all first responder groups in Midland could communicate with each other due to differences in their systems. An advantage of Midland's new, upgraded communications system is interoperability, enabling police and other first responders to communicate directly. The backup equipment must be upgraded so that it will properly take effect should the main system fail during an emergency.

In the Office of Justice Assistance, Edward Byrne Memorial Justice Assistance Grants Program account, an earmark for the Advanced Law Enforcement Rapid Response Training (ALERRT) Program, at the Texas State University, San Marcos, Texas (San Angelo Police Department in partnership with ALERRT) was included on my behalf. The entity to receive funding for this project is the ALERRT Program at Texas State University-San Marcos, located at 601 University Drive, San Marcos, Texas 78666.

ALERRT was established by Texas State University to provide first responders with the tactics they will need to effectively respond to active shooter situations. ALERRT enables officers that have successfully completed a special ''Train-the-Trainer'' course to train fellow officers at their home agencies, providing an efficient and cost-effective manner to increase the number of officers with these life-saving skills. Continued funding for ALERRT in FY10 will enable the program to train more patrol officers, including San Angelo Police Department, help establish the program as a national training system; further build train-the-trainer capacity; enhance retention of learned skills by former students; provide valuable research and evaluation to improve first responder abilities; and provide investigative training and support for evolving threats. In addition to providing ALERRT to the more than 400 entities requesting it, FY10 funding and beyond will be integral to sustain and build capacity for a nation-wide effort to standardize a level of preparedness among the more than 650,000 peace officers employed by law enforcement agencies across the United States.

EARMARK DECLARATION

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SHUSTER. Madam Speaker, consistent with the Republican Leadership's policy on earmarks, I am placing the following:

Requesting Member: Congressman BILL SHUSTER (PA–9)

Bill Number: H.R. 2997—Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, FY2010

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES PROJECTS

Project Name: Sustainable Agriculture and Natural Resources, PA

Account: National Institute of Food and Agriculture/SRG

Legal Name of Requesting Entity: Pennsylvania State University

Address of Requesting Entity: 117 Old Main, University Park, PA 16802

Description of Request/Justification of Federal Funding: $133,000 for Sustainable Agriculture and Natural Resources, PA

It is my understanding that funding for this project will support a collaborative research and education program to assist diverse farm operations better adopt more sustainable farming practices. This project will increase field research and demonstration to increase the exposure of farm advisors and farmers to sustainable cropping system practices. Additionally, the project will support research on specific techniques to infuse environmentally and economically sustainable practices into a wide variety of agricultural production systems.

This project is a valuable use of taxpayer funds because increased farmer understanding and adoption of sustainable farming practices is critical to meeting future agricultural and natural resources challenges in both the United States and worldwide. Sustainability in agricultural production is a national theme that resonates broadly with national targets of sustainability and responsible use of natural resources. Increasing production without causing permanent ecological damage benefits farmers, consumers, and the environment. It is also my understanding that approximately 25 percent of funding will be used to salaries, approximately 25 percent for graduate students, approximately 48 percent for other direct costs, and approximately 2 percent for travel.

Project Name: Milk Safety, PA

Account: National Institute of Food and Agriculture/SRG

Legal Name of Requesting Entity: Pennsylvania State University

Address of Requesting Entity: 117 Old Main, University Park, PA 16802

Description of Request/Justification of Federal Funding: $771,000 for Milk Safety, PA

It is my understanding that funding for this project will support research that protects the safety of dairy products for Pennsylvania and the nation. Research will address the continued threat of natural or intentional contamination of the fluid milk supply. The project will focus on continuing to develop more sensitive, accurate, and cost-effective diagnostic tools to identify pathogens and toxins.

Additionally, research will support developing and evaluating alternative preservation techniques that ensure the safety of dairy products while preserving food quality attributes, evaluating the benefits and risks associated with consumer and producer interest in raw milk products, and examining the integrity of the supply chain that moves diary products from the farm gate to the consumer.

This project is a valuable use of taxpayer funds because new technical approaches to solving crucial problems in dairy farming have high impact and are critical given the importance of the dairy production sector and the multiplier effect of dairy-derived income. Current challenges have placed the dairy production sector and related industries at risk. Milk safety funding provides a tool for the federal government to respond quickly to emerging issues within the dairy industry and is necessary to maintain consumer protection and confidence. Improvements can be transferred to producers, processors, distributors, and retailers.

It is also my understanding that approximately 32 percent of funding will be used for salaries, approximately 13 percent for graduate students, approximately 16 percent for wages, approximately 1 percent for travel, approximately 10 percent for equipment, and approximately 28 percent for other direct costs.

Project Name: Improved Dairy Management Practices, PA

Account: National Institute of Food and Agriculture/SRG

Legal Name of Requesting Entity: Pennsylvania State University

Address of Requesting Entity: 117 Old Main, University Park, PA 16802

Description of Request/Justification of Federal Funding: $243,000 for Improved Dairy Management Practices, PA

It is my understanding that funding for this project will provide research to address improved dairy management practices and specifically nutrient and emissions management. The project will be focused on addressing issues associated with dairy production by utilizing technology to improve water quality, lowering the impacts of emissions, and supporting efficient energy use.

This project is a valuable use of taxpayer funds because current challenges have placed the dairy production sector and related industries at risk. Evaluating new management tools for their impact on dairy farm profitability and delivering new tools to the industry based on sound scientific study is vital to the future of U.S. dairy production. New technical approaches to solving crucial problems in dairy farming have high impact and are critical given the importance of the dairy production sector and the multiplier effect of dairy-derived income.

It is also my understanding that approximately 24 percent of funding would be used for salaries, approximately 23 percent for graduate students, approximately 22 percent for wages, approximately 2 percent for travel, and approximately 29 percent for other direct costs.

Project Name: Dairy Farm Productivity, PA

Account: National Institute of Food and Agriculture/SRG

Legal Name of Requesting Entity: Pennsylvania State University

Address of Requesting Entity: 117 Old Main, University Park, PA 16802

Description of Request/Justification of Federal Funding: $349,000 for Dairy Farm Profitability, PA

It is my understanding that funding for this project will provide assistance to improve dairy farm profitability. This project will provide technological solutions to real-world problems that are reducing the profitability of dairy farms in Pennsylvania and across the nation. Technologies will be validated for their economic impact and delivered as part of a broader economic analysis of individual farms.

This project is a valuable use of taxpayer funds because the local dairy farm is part of a complex system which extends from local issues of decisions regarding nutrient management, animal genetics, and operation diversity to global issues of supply and demand for dairy products. New technical approaches to solving crucial problems in dairy farming have high impact and are critical given the importance of the dairy production sector and the multiplier effect of dairy-derived income.

It is also my understanding that approximately 24 percent of funding would be used for salaries, approximately 15 percent for graduate students, approximately 27 percent for wages, approximately 3 percent for travel, and approximately 31 percent for other direct costs.

Project Name: Agricultural Entrepreneurial Alternatives, PA

Account: National Institute of Food and Agriculture/SRG

Legal Name of Requesting Entity: Pennsylvania State University

Address of Requesting Entity: 117 Old Main, University Park, PA 16802

Description of Request/Justification of Federal Funding: $233,000 for Agricultural Entrepreneurial Alternatives, PA

It is my understanding that funding for this project will provide assistance for agricultural entrepreneurship development. This project is important both regionally and nationally because it focuses on education and other support necessary to help farmers make a transition from ''traditional'' types of farming to value-added agricultural enterprises.

This project is a valuable use of taxpayer funds because developing the entrepreneurial skills of agricultural producers assists in providing higher profits on farms, a decline in farm consolidation, and increased opportunities for consumers to obtain products that meet their lifestyles. Growth of entrepreneurial skills strengthens farmers' ability to act on consumer-based opportunities. This strengthens the agricultural industry, local communities, and provides consumers with goods and services they are willing and able to buy. Because of its unique production characteristics and market access, Pennsylvania is an ideal location for this project.

It is also my understanding that approximately 75 percent of funding would be used for salaries and approximately 25 percent for travel, communications, and program development.

PRIVATE FIRST CLASS PETER CROSS, USA

HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Ms. GRANGER. Madam Speaker, I rise today to honor the courage of a brave and

dedicated hero of the state of Texas and of our nation.

Private First Class Peter Cross was a soldier in the United States Army and is a true American hero. Peter gave his life in the service of his country on June 26, 2009, due to injuries he sustained from his vehicle overturning on a mountainous road in Afghanistan.

Assigned to 2nd Battalion, 87th Infantry Regiment, 10th Mountain Division, Fort Drum, New York, Private First Class Cross made the ultimate sacrifice for his country in a time of war, an action that speaks volumes far greater than words about his character and patriotism.

A native of Saginaw, Texas, Peter had aspirations of missionary work following his service in the Army. These ambitions, along with his efforts to avoid children herding sheep near Combat Outpost Carwile, Afghanistan, which ultimately resulted in the overturning of his vehicle, led his father Mike Cross to point out, ''His last act in life shows what kind of man he was—selflessly thinking of others.''

Peter had been on active duty in the United States Army for less than one year. He joined the Army in August of 2008 and was deployed to Afghanistan in February of 2009. Peter quickly developed a sincere passion for the people of Afghanistan that he was there to help. His father specifically noted, ''He really had a heart for the Afghani people. He used to hand out candy, and pens and papers, and anything else he could spare for the kids when they came around the guys. He was a fun guy. A godly guy.''

Our thoughts and prayers are with Private First Class Cross' parents, siblings, grandparents, and all of his family and friends. His community and nation honor his memory, and we are grateful for his faithful and distinguished service to America.

Private First Class Cross will not be forgotten. His memory lives on through his family and the legacy of selfless service that he so bravely imprinted on our hearts.

RECOGNIZING MAJOR GENERAL JEFFERY W. HAMMOND

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. CARTER. Madam Speaker, I would like to recognize Major General Jeffery W. Hammond, Commanding General, 4ID along with the 4th Infantry Division, Fort Hood, Texas for their honorable commitment to Fort Hood, Texas and the United States of America.

The 4th Infantry Division will be leaving Fort Hood and relocating to Ft. Carson, CO this month.

The citizens of TX-31 have supported the 4th Infantry Division through the Adopt-A-Unit Program as they deployed and completed tours in Iraq over the last year. Through this support relationships have been built with the men and women of the 4th ID and their families. The people of TX-31 will miss the remarkable family they have made.

It has been a true honor to have MG Hammond and the men and women of the 4th Infantry Division reside in Texas District 31.

I am pleased to recognize Major General Hammond and the 4th Infantry Division for their time spent at Fort Hood, Texas.

EARMARK DECLARATION

HON. NATHAN DEAL

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. DEAL of Georgia. Madam Speaker, I submit the following:

Requesting Member: Congressman NATHAN DEAL

Bill Number: H.R. 2996

Account: STAG Water and Wastewater Infrastructure Project account

Legal Name of Requesting Entity: The City of Gainesville, Georgia

Address of Requesting Entity: Metropolitan North Georgia Water Planning District, 40 Courtland Street, NE, Atlanta, GA 30303

Description of Request: Pursuant to the Republican Leadership standards on earmarks, I am submitting the following information for publication in the Congressional Record regarding earmarks I received as part of [Bill 2996, the ''Department of the Interior, Environment, and Related Agencies Appropriations Act for 2010.''] Any federal funding received would be used to help local governments meet water resource plan requirements and be used for various stages of design and construction for several water projects including watershed management, wastewater treatment and water conservation. District serves broad public purpose protecting water supplies and water quality. Rivers and streams don't follow political boundaries, (12 of 16 District counties lie within more than one watershed) regional solutions to problems are only way to achieve lasting results. District's projects are multi-jurisdictional in nature and beyond abilities of individual local governments. Consequently, federal assistance will allow members to work towards these critical regional solutions. District's plans outline variety of water related activities required by various state and federal requirements. Successful implementation of District's plans has national significance through protection of water resources of roughly half the Georgia population.

EARMARK DECLARATION

HON. LAMAR SMITH

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SMITH of Texas. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the FY 2010 Financial Services and General Government Appropriations Act.

Requesting Member: Congressman LAMAR SMITH

Bill Number: FY2010 Financial Services and General Government Appropriations Act

Account: GSA—Federal Buildings Fund

Legal Name of Requesting Entity: General Services Administration, Washington, DC

Address of Requesting Entity: 1800 F Street, NW, Washington, DC 20405

Description of Request: I have secured $4,000,000 for the San Antonio United States Courthouse, Texas. It is my understanding that the requested funds are additional design funding for a new federal courthouse in San Antonio, Texas. Design funds were originally appropriated in FY 2004, but GSA had difficulty identifying a site. They have now identified a site and intend to swap the land the courthouse is currently on, as well as an adjacent government-owned site, for a city-owned site on which to build the courthouse. GSA will require, however, additional design funding now to hire an architect to design the proposed facility. I certify that neither I nor my spouse has any financial interest in this project.

COMMEMORATING THE COURAGE AND SERVICE OF THE WORLD WAR II VETERANS OF IBEW LOCAL 601

HON. TIMOTHY V. JOHNSON

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. JOHNSON of Illinois. Madam Speaker, I rise today to pay tribute to the Veterans of the International Brotherhood of Electrical Workers Local 601 in Champaign, Illinois. On July 11, IBEW Local 601 will be sponsoring a World War II Heritage Day which will honor 48 of their members who fought for our freedom in World War II.

The citizens of the United States of America find great inspiration in the men and women of our armed forces. We hold our revered veterans with the highest respect and admiration, remembering those who stepped forth with tremendous courage to make the ultimate sacrifice in World War II. On July 11, 2009 we join to celebrate a particularly inspiring group of this nation's citizens, the World War II Veterans of IBEW Local 601 who served with remarkable dedication to protect our cherished ideals of freedom and democracy.

Throughout the history of our great nation, brave and patriotic individuals answered the most honorable call to serve this country. Out of the bloodshed and carnage of World War II rose shining examples of selfless courage, heroism and glorious deeds performed under the direst of circumstances and against a background of unprecedented loss of lives.

From the moment of the first attack upon Pearl Harbor to the declarations of victory in Europe and Japan, this assault waged upon the entire world took an enormous toll in terms of human casualties. They went off willingly to the battlefields, seas and skies of Europe and the South Pacific to risk their lives.

I have the utmost respect for the soldiers, sailors, airmen, and marines of our armed forces who bravely served this nation during World War II and welcome the opportunity to acknowledge and thank the members of IBEW Local 601 for their valiant efforts in defending freedom and democracy, and in building a more peaceful world.

To commemorate the noble service and sacrifices of IBEW Local 601 World War II

Veterans, I would like to read each of their names into the CONGRESSIONAL RECORD.

IBEW Local 601 World War II Veterans who served in the U.S. Navy:

Andrew Messmer
Arlo Deremial
Earl ''Pete'' Schweighart
Evan B. Renn
Fred L. Cline
Robert F. McNattin
Glen Wilsky
Howard McIntosh
Hugh Bothwell
Frederick C. Treseler
Morgan C. Craft
Richard G. Hensler
Merle R. ''Bud'' Mingee
Robert Carley
Ralph L. Allison
Ross Brown
Cecil E. Reynolds
Al Schaede
Richard McNattin
Miles P. ''Olie'' Bland
Orville L. Bell
John P. Bothwell
Lafayette C. Craft
Russell Reynolds

IBEW Local 601 World War II Veterans who served in the U.S. Army:

Brice ''Speedy'' Hartyman
Clarence Berger
Dale Terven
David R. Goodwin
Floyd H. Ellis
George Panbacker
Robert Faullin
George Bland
Howard Barham
Russell E. Wicks
Glen ''Red'' Eastman
Nyles R. '' Shorty'' Hardyman
Wally Lamb
Harold E. McHenry
Paul Rubenacker

IBEW Local 601 World War II Veterans who served in the U.S. Army Air Force:

E. L. ''Al'' Ruthstrom
Lynn Norris
Donald E. Wonders
Harold Schweighart
Wayne Billhymer
Leo J. Francis
John J. Minneci

IBEW Local 601 World War II Veterans who served in the U.S. Marines:

Harold Clements
Richard Henry Hillier, Jr.

May their noble service and sacrifices be remembered forever. I know the House of Representatives will join me in honoring the Veterans of IBEW Local 601 for their World War II Heritage Day on July 11, 2009.

WILLIAM CHURCHHILL ''DOBBER'' DOYLE

HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. DUNCAN. Madam Speaker, there is perhaps no greater sacrifice an American can make than serving their Country during a time of war, and one of my constituents—William Churchhill ''Dobber'' Doyle—has quite a story to tell.

At 90-years-old, Billy—as he is known to many—loves to share his tale with anyone who will listen. Like many from the ''Greatest Generation,'' his time during World War II reads like a Hollywood script, but to the humble man who lived it, the sacrifice was his duty.

Billy was assigned to a supply unit and stationed at Camp Forrest in Tullahoma, Tennessee in December 1941. On December 6, he was told to get ready to be deployed, and he boarded a troop train to the west coast on the eve of the Japanese attack on Pearl Harbor.

His first step on foreign soil was on his birthday on November 19, 1942, in North Africa. He would eventually pass through sites like Casablanca and Cairo and make his way to Europe, crossing through Italy, Germany, and France. As Billy told the Knoxville News Sentinel in Knoxville, Tennessee, ''Every time the front moved, we had to move.''

As part of a supply unit, Billy was one step behind General Patton throughout the war, tasked with keeping him supplied and always at risk of attack. He was part of one of the bloodiest campaigns of the war to establish a beachhead in Italy. 3,000 troops died in the effort, and his 30-member unit lost two in the battle.

Billy demonstrated his true character after breaking his nose in the field. He refused to seek treatment because that would mean having to leave his men.

His favorite moment of the war was when a group of French citizens called him a liberator. He learned of the end of the war in Lyon, France while listening to the radio. As he told the Knoxville News Sentinel, ''The town went crazy, especially the girls.''

Throughout his life in Tennessee after the war, Billy has selflessly given his time back to the community. He is known as the ''Bread Man'' around his hometown of Vestal, and donates his time to the Vestal United Methodist Church Food Pantry and Center of Hope Ministry. He is loved and respected by everyone who is fortunate enough to know him.

Madam Speaker, I have known many members of the Doyle family, and they are one of the most respected and prominent families in South Knoxville. I gladly bring this story of William Churchhill ''Dobber'' Doyle to the attention of my Colleagues and other readers of the RECORD, and I hope this tale of the ''Greatest Generation'' inspires the next.

TRIBUTE TO PRIVATE AMOS MCKINNY

HON. PARKER GRIFFITH

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. GRIFFITH. Madam Speaker, I rise today to recognize Private Amos McKinney. Private McKinney was a Black Soldier who served the United States Army in a White Regiment during the Civil War.

Amos McKinney started his service to our country at Rome, Georgia on December 15, 1863 as an Undercook in Company C of the 1st Alabama Calvary. Enlisting as a cook was the avenue to combat for many African American soldiers during the Civil War, and Private McKinney was no different. During his service, he was shot below the knee and also suffered several wounds to his chest before being mustered out of service on October 20, 1865 in Huntsville, Alabama.

Unfortunately, history has forgotten many Black Soldiers who served the Union White Regiments during the Civil War. Driven by a firm belief in the Union's purpose, Private McKinney and others were willing to work their way up the ranks so they could fight for the cause. Their perseverance and courage should not be lost. In recognition of Private McKinney's service, there will be a dedication ceremony on July 11, 2009 for a memorial established in his honor.

Amos McKinney married Melissa Ann McAfee Pearson after the war, and together they had 9 children. Private McKinney's courage is surely an inspiration to the family he left behind, and his bravery is a testament to the power of an unyielding American spirit and personal resolve.

Madam Speaker, I stand to recognize an American soldier and to extend my gratitude for the service of Private Amos McKinney and those who served beside him. I commend the McKinney family and the historians of my district whose efforts made this recognition possible.

HONORING THE CONGREGATION OF NOTRE DAME IN NEW HYDE PARK, NEW YORK

HON. CAROLYN MCCARTHY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mrs. MCCARTHY of New York. Madam Speaker, I rise in honor of the congregation of Notre Dame in New Hyde Park, New York to commemorate its remarkable contributions to the community. Celebrating its 50th anniversary, the Church of Notre Dame has been an influential and beneficial entity in New Hyde Park and beyond. Through a wide-range of programs, Notre Dame and its congregation have served their community with persistence and openness. For this, the Church and its congregation, both past and present, are deserving of recognition.

The Church of Notre Dame and its affiliated school do much for the community. Over the past half century, thousands of students have acquired the skills and focus to live meaningful and productive lives while attending Notre Dame. These students, drawing on their education at Notre Dame School, often give back to their community as a part of Notre Dame's congregation and beyond. In addition, the Church itself runs many programs that aid the local community. Reaching out to others in New Hyde Park and providing for both its congregation and those in need, the Church has and continues to provide important services and opportunities for the community and has

remained a place of both worship and hospitality. Activities such as food drives, educational seminars, and support groups, are just a few examples of programs sponsored by the Church for the benefit of its congregation and community. As Notre Dame celebrates its 50th anniversary, it is a great time to reflect on all the positive work its congregation has done in New Hyde Park over the past half century and to look towards a future of continued public and spiritual service.

The work of this Church and its congregation is inspiring to us all, and I am immensely grateful to them for all that they have accomplished. I ask my colleagues to join me in expressing the gratitude of the U.S. Congress for their extensive contributions to society.

EARMARK DECLARATION

HON. LAMAR SMITH

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SMITH of Texas. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the FY 2010 Energy and Water Development Appropriations Act.

Requesting Member: Congressman LAMAR SMITH

Bill Number: FY 2010 Energy and Water Development Appropriations Act

Account: Corps of Engineers—Investigations

Legal Name of Requesting Entity: U.S. Corps of Engineers (on behalf of the Lower Colorado River Authority)

Address of Requesting Entity: P.O. Box 17300, Fort Worth, TX 76102

Description of Request: I have secured $700,000 for the Lower Colorado River Basin Study. It is my understanding that the funding will be used towards the completion of the basin wide study in order to identify cost-effective ways to reduce flood damages in the lower Colorado River basin of Texas. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman LAMAR SMITH

Bill Number: FY 2010 Energy and Water Development Appropriations Act

Account: Corps of Engineers—Investigations

Legal Name of Requesting Entity: U.S. Army Corps of Engineers (on behalf of the San Antonio Water System)

Address of Requesting Entity: P.O. Box 17300, Fort Worth, TX 76102

Description of Request: I have secured $600,000 for the Nueces River and Tributaries Study. It is my understanding that the funding will be used for the continuation of a detailed study of the complex relationships between surface water, groundwater and the varying ecosystems and communities dependent on such water. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman LAMAR SMITH

Bill Number: FY 2010 Energy and Water Development Appropriations Act

Account: Corps of Engineers—Construction

Legal Name of Requesting Entity: U.S. Army Corps of Engineers (on behalf of the San Antonio River Authority)

Address of Requesting Entity: P.O. Box 17300, Fort Worth, TX 76102

Description of Request: I have secured $1,500,000 for the San Antonio Channel Improvement Project. It is my understanding that the funding will be used for the Mission Reach project to restore an eight-mile stretch of the San Antonio River south of downtown previously channelized for flood control purposes. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman LAMAR SMITH

Bill Number: FY 2010 Energy and Water Development Appropriations Act

Account: Department of Energy—EERE

Legal Name of Requesting Entity: Bexar County

Address of Requesting Entity: 100 Dolorosa, San Antonio, TX 78205

Description of Request: I have secured $1,000,000 for the Bexar County Solar Collection Farm and Distribution System. It is my understanding that the funding will be used for the installation of a 200-kilowatt solar photovoltaic system. I certify that neither I nor my spouse has any financial interest in this project.

IN COMMEMORATION OF THE GREAT CHARITABLE WORKS OF CHARLIE AND SANDY MARKEL IN MEMORY OF THEIR SON, RYAN

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. HIGGINS. Madam Speaker, I rise today to commemorate the great charitable works of Charlie and Sandy Markel in memory of their son, Ryan. Ryan tragically died during a school swim class on December 19, 2002 at age eleven. This was a heartbreaking loss to his family, friends and community.

Since the death of their young son, the Markel family has been working hard to spread safety awareness, especially in the school setting. They started Ryan's Hope Foundation, which offers low-cost cardiopulmonary resuscitation and defibrillator certification, as well as pool safety. Since the founding of Ryan's Hope Foundation, the Markels and their team of volunteers have trained around four thousand people in CPR and defibrillator skills.

Ryan was deeply loved by his family, friends and his school community. Mourning the loss, many members of the community donated money to the Markels, which they immediately put into the Ryan's Hope Foundation. Along with the money that comes from certification fees, the Markels have put any money that would have gone toward Ryan's allowance, Christmas and birthday presents into the Foundation.

This past June, Ryan would have graduated from Depew High School. To honor Ryan's life, Ryan's Hope Foundation rewarded every college-bound member of the graduating class with the Ryan Markel Scholarship. Two students received a $500 scholarship and 167 other graduates received a $100 scholarship. The recipient also received a letter from Charlie, Sandy and their daughter, Amanda wishing the graduates luck and thanking them for being a part of Ryan's life.

Ryan's classmates also took measures to commemorate Ryan at graduation. During the ceremony, one of Ryan's classmates read a letter about Ryan and called his family on stage. In addition, the graduating seniors created a memorial displayed in the foyer at the graduation ceremony, which included Ryan's photograph, a graduation cap and a poem. An entire page of the yearbook was dedicated to Ryan and his classmates included a tribute to Ryan in their class DVD. Finally, his classmates bought the rights to name a star in his honor.

It is my honor to commemorate the life of Ryan Markel and the charitable efforts of his family. On behalf of the Western New York community, I thank the Markels for their extraordinary efforts to increase safety awareness in the memory of their son.

EARMARK DECLARATION

HON. MARIO DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, I submit the following information.

Requesting Member: Representative MARIO DIAZ-BALART (FL–25)

Bill Number: H.R. 2997

Account: Agricultural Research Service

Name of Requesting Entity: University of Florida/IFAS

Address of Requesting Entity: 700 Experiment Station Rd, Lake Alfred, FL, 33850

Description of Request: I have secured $1,300,000 for the Citrus Canker and Greening Research. This funding will be used for Continuation of vital citrus Canker, citrus Greening/Huanglongbing (HLB) and Asian Citrus Psyllid (ACP) research to improve technologies for treatment and detection, methods of movement and containment, and means to control and eliminate these devastating citrus diseases and disease vector. Currently, citrus Canker disease, the spread of the ACP and citrus Greening/HLB are the two most serious diseases and vector facing the U.S. citrus industry. Both diseases and the vector have been declared endemic in the state of Florida and pose serious threats to California, Texas and to the viability of the U.S. citrus industry. Research supported through federal funding in addition to state and grower funds is critical to ensuring that the citrus industry remains a viable part of America's economy. In Florida alone, commercial citrus is a $9 billion dollar a year industry that supports almost 90,000 jobs. California and Texas combined have over a $3.2 billion economic impact with over 26,000 jobs in their respective states. Due to the severity of just these two diseases and

vector, the importance of continuing critical research unabated is crucial. Canker is caused by a bacterium that creates lesions on the leaves, stems, and fruit of citrus trees, including oranges and grapefruit. While not harmful to humans, Canker significantly affects the health of trees, causing leaves and fruit to drop prematurely. Wind and rain serve as the vector of Canker. Citrus greening/HLB is a bacterial disease which is spread by the Asian citrus psyllid. Although it presents no threat to humans or animals, trees diagnosed with citrus greening/HLB have greatly reduced production and often die within a few years. Recently, research for these diseases and vector has been done on a state by state basis. More than 100 research projects are currently underway in an attempt to find scientific answers to greening/HLB, the ACP and Canker. A new federal ARS research initiative could ultimately provide long-term solutions to these invasive pests and diseases. This new approach has become necessary to help protect U.S. citrus production and mitigate the impact of these exotic pest and diseases. Scientists are confident that intensive and sustained research can solve the Greening/HLB, ACP and Canker puzzles once and for all.

Requesting Member: Representative MARIO DIAZ-BALART (FL–25)

Bill Number: H.R. 2997

Account: CSREES

Name of Requesting Entity: University of Miami

Address of Requesting Entity: 142 Collegiate Loop, Tallahassee, FL, 32306

Description of Request: I have secured $2,494,000 for the Southeast Climate Consortium. This funding will be used to characterize the impacts of ENSO-related climate variability (a global coupled ocean-atmosphere phenomenon producing the most prominent known source of inter-annual variability in weather and climate around the world) on agricultural commodities and specialty crops. Explore alternative management responses to realistic climate scenarios and quantify expected outcomes. Establish communications process that can rapidly disseminate climate information and decision support tools regularly while gleaning user feedback on the usefulness and relevance of the provided analyses via agricultural stakeholders and state extension services. Study the agricultural impact of water managers' decisions in response to climate variability. Weather and climate significantly affect agriculture; year-to-year climate variability (e.g., flooding, droughts) can dramatically impact agricultural productivity. Climate forecast information for a relatively small regional group of agricultural decision-makers has proven useful. By expanding efforts into Georgia and Alabama via new collaborations with universities there, we enhance our understanding and predictive abilities as we tailor information for a wider range of Southeast agricultural decision makers.

EARMARK DECLARATION

HON. HOWARD COBLE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. COBLE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Interior, Environment and Related Agencies Appropriations Act of 2010.

Requesting Member: Congressman HOWARD COBLE

Bill Number: H.R. 2996

Account: Land and Water Conservation Fund

Legal Name of Requesting Entity: Uwharrie Trail, Randolph County, North Carolina.

Address of Requesting Entity: U.S. Forest Service, 160 Zillicoa Street, Suite A, Asheville, NC 28801

Description of Request: The bill provides $500,000 for land acquisition to complete the second portion of the Uwharrie Trail in Randolph County, NC. The Uwharrie National Forest is located in the Piedmont area of central North Carolina. It is located in a rural but developing area 40 miles from Charlotte (more than 1.3 million in population), and almost as near to the Research Triangle cities of Greenville/Raleigh and Durham, NC. At 50,189 acres, the Uwharrie is the smallest National Forest with the most fragmented ownership in North Carolina, owning only 23% of lands within the forest boundary. Land acquisition offers the best opportunity to consolidate this scattered ownership pattern and will also improve plant and wildlife habitat, reduce the threat to endangered species, increase recreation opportunities, and improve water quality in the Uwharrie River watershed. The Uwharrie National Recreation Trail currently runs north from a trailhead on Highway 24/27 near Wood Run Hunt Camp in Montgomery County through lands along the north portion of the Uwharrie National Forest in Randolph County. The current trail is 20.4 miles in length and provides views of the surrounding countryside containing a mixture of oak, hickory, maple and conifer tree communities.

RECOGNIZING THE W*I*N OF ROUND ROCK

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. CARTER. Madam Speaker, I would like to recognize W*I*N (Women Impacting the Nation) of Round Rock, Texas for their success in making a difference in the community in such a short time frame with Freedom Festival 2009.

The W*I*N organization helped organize and host the 2009 Freedom Fest held July 4th at Dell Diamond, a concert and firework presentation benefiting The Children of Fallen Soldiers. Children of Fallen Soldiers is a non-profit organization based out of Round Rock, Texas with a goal to provide each child who has lost a parent in the line of duty, with $25,000 to assist with college expenses, or to otherwise help them to start out in the world when they turn 18. Fifteen central Texas children have been identified through the program to have lost a parent in the line of duty. The soldiers who were killed were all from Ft. Hood, Texas.

The Freedom Fest 2009, is just one of the events the W*I*N organization has sponsored and organized in Texas District 31. It is an honor to recognize and thank the local W*I*N group for their dedication to the families in Texas District 31, our community and our country.

EARMARK DECLARATION

HON. HOWARD P. "BUCK" McKEON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. MCKEON. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding Member priority requests I received as part of H.R. 3082, the "Military Construction and Veterans Affairs Appropriations Act, 2010."

Requesting Member: Congressman HOWARD P. "BUCK" MCKEON

Bill Number: H.R. 3082, the "Military Construction and Veterans Affairs Appropriations Act, 2010"

Account: MILCON, Navy

Legal Name of Requesting Entity: U.S. Marine Corps Mountain Warfare Training Center

Address of Requesting Entity: U.S. Marine Corps Mountain Warfare Training Center, Bridgeport, CA, 93517

Description of Request: I requested and received a Member priority authorization request totaling $6,830,000 for a new commissary at the U.S. Marine Corps Mountain Warfare Training Center. This project would construct a permanent commissary at the U.S. Marine Corps Mountain Warfare Training Center. Due to the remote location of the base outside Bridgeport, California, military members and their families travel dozens of miles over steep and sometimes impassable roadways to buy groceries and supplies. This project would eliminate that drive and provide an improved quality of life on base, especially during the winter months.

EARMARK DECLARATION

HON. ERIK PAULSEN

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. PAULSEN. Madam Speaker, pursuant to the Republican standards on Member requests, I am submitting the following information regarding congressionally directed appropriations projects I sponsored as part of H.R. 2847, FY 2010 Department of the Interior, Environment and Related Agencies Appropriations Bill.

Account: STAG Water and Wastewater Infrastructure

Amount: $500,000
Requesting entity: City of Maple Plain
Address: 1620 Maple Avenue; Maple Plain, MN 55359
Description of Project Request: Funding would allow the City of Maple Plain to comply with Federal water standard mandates by helping finance a new water treatment facility. The facility is necessary to meet Environmental Protection Agency requirements for the city's water radium levels.
I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

EARMARK DECLARATION

HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SHIMKUS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2847.
Requesting Member: JOHN M. SHIMKUS
Bill number: H.R. 2847
The Account: COPS Tech
Requesting Entity: Christian County Sheriff at 301 Franklin St. Taylorville, IL 62568.
Funding would go to be used for interoperable communication needs for emergency response in Christian County.
The Account: OJP—Byrne
Requesting Entity: Fairfield Police Department at 108 NW 7th St. Fairfield, IL 62837.
Funding will be used for an emergency generator and security and communications upgrades for Fairfield Police Department to allow them to utilize their facility and provide the equipment necessary for security compliance.
The Account: OJP—Byrne
Requesting Entity: Findlay Police Department at 221 E. S. Second St. Findlay, IL 62534.
Funding will be used for equipment to allow the FPD to properly equip their officers for the seasonal increases in traffic
The Account: OJP—Byrne
Requesting Entity: Village of Southern View located at 3412 S. Fifth St. Springfield, IL 62703.
Funding will be used for training and equipment for the Southern View Police Department.
The Account: OJP—Byrne
Requesting Entity: Wayne County Sheriff's office located at 305 E. Court St. Fairfield, IL 62837.
Funding will be used for equipment and supplies to upgrade underage drinking enforcement and other communications related equipment at Wayne County Sheriff's office.
The Account: OJP—JJ
Requesting Entity: i-SAFE, Inc. located at 5900 Pasteur Court, Suite 100 Carlsbad, CA 92008.
i-SAFE is a non-profit foundation that has been providing, since 2002, Internet Safety curriculum to over 7.2 million students nationwide. Parents, educators, law enforcement and industry rely on i-SAFE to educate citizens in all 50 states about how to remain safe from online predators, consumer fraud, bullying and many other online victimizations. The funding will go toward furthering these goals.

RECOGNIZING THE CITY OF CEDAR PARK

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. CARTER. Madam Speaker, I would like to recognize the Cedar Park City Council and staff for their great work within the community and helping to identify economic drivers and the small business in Cedar Park that make our community work.
I appreciate the work and dedication of the Cedar Park City Council and look forward to continuing to work with them in the future.
It is an honor to recognize the Cedar Park City Council for their great work.

PAN AMERICAN GOLF ASSOCIATION NATIONAL TOURNAMENT AND CONVENTION

HON. SOLOMON P. ORTIZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. ORTIZ. Madam Speaker, I rise today to recognize the Pan American Golf Association National Tournament and Convention, which will be hosted on July 27–31 in Corpus Christi, Texas.
The tournament, which will be played on a beautiful day in the Coastal Bend area, returns to Corpus Christi after 10 years, and it has a special meaning to the Corpus Christi Chapter, which was established in 1951, with a handful of Hispanic golfers playing at Oso Golf course at the end of Alameda Street. Today, there are more than 42 Pan American Association Chapters in the country, including Corpus Christi.
I take this time on the House floor to welcome each and every one of our participants and ask that they enjoy their time with friends, family and loved ones. I know some of the best players of the sport will come together from across the nation to tee off.
I applaud the efforts made by those involved in getting the 2009 Pan American Golf Association National Tournament and Convention to Corpus Christi, and extend to all my best wishes.
Today, I ask that my colleagues join me in commemorating the 2009 Pan American Golf Association National Tournament and Convention and the Corpus Christi Chapter for their dedication, support and love for the sport of golf.

EARMARK DECLARATION

HON. PHIL GINGREY

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. GINGREY of Georgia. Madam Speaker, pursuant to the Republican Leadership standards on earmarks as well as in accordance with Clause 9 of rule XXI, I am submitting the following information regarding earmarks I received as part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010.
Requesting Member: Congressman PHIL GINGREY
Bill Number: H.R. 2997
Account: Department of Agriculture; Natural Resources Conservation Service, Watershed and Flood Prevention Operations
Legal Name of Requesting Entity: Paulding County (GA) Board of Commissioners
Address of Requesting Entity: 240 Constitution Boulevard, Dallas, GA 30132
Description of Request: The project will be a pump-fill reservoir located within the upper reaches of Richland Creek in northern Paulding County, Georgia. The funding granted in H.R. 2997 is to be used for engineering and design services for the dam structure and appurtenances, raw water withdrawal station, raw water pipeline, and for mitigation purposes.
Richland Creek Reservoir is a public water supply reservoir that is being proposed to fulfill Paulding County's water supply needs for the next 50 years. As Richland Creek has a small drainage basin, a raw water intake structure and pipeline must be constructed on the Etowah River to supply water to the 4.4 billion gallon reservoir. According to our 50-year water needs projections, Paulding County will need approximately 62 million gallons per day (MGD). Currently, Paulding County purchases 100% of its potable water from Cobb County-Marietta Water Authority (CCMWA). CCMWA has in its long-term plan to be able to supply Paulding with up to 27 MGD leaving an unmet need for Paulding County of 35 MGD. Richland Creek Reservoir is expected to fulfill the unmet water supply need of 35 million gallons per day (MGD) for Paulding County.
The $100,000 added to H.R. 2997 will be used in its entirety for Surveying, Engineering Studies & Permitting for the reservoir to help fulfill the water needs of Paulding County.

HONORING FRANK KUCINICH, JR.

HON. MARCIA L. FUDGE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Ms. FUDGE. Madam Speaker, I rise today to honor the memory of Frank Kucinich, Jr., brother of Representative DENNIS KUCINICH, and recognize his service to our country and his dedication to the City of Cleveland, Ohio.
Frank Kucinich, Jr. was a United States Marine Corps combat veteran of the Vietnam War, who was promoted to lance corporal on

the battlefield. After leaving Vietnam, Frank continued his service in the Mediterranean in support of the U.S. Navy's Sixth Fleet in Europe. He was honorably discharged from the United States Marine Corps in September 1968.

Frank Kucinich received many military awards for his service. He was also one of the founding members of the Vietnam Veterans of America, Chapter 15, in Cleveland, Ohio, and was nominated to the Ohio Veterans Hall of Fame.

Frank had retired and lived at the Ohio Veterans Home in Sandusky, Ohio when he passed away on June 30. Frank was the beloved brother of DENNIS, Gary, Theresa, Larry, the late Perry and the late Beth Ann.

Madam Speaker and colleagues, please join me in celebrating the life of Frank Kucinich, Jr., and in recognizing his service to our community and our country. His patriotism and contributions to society serve as an inspiration to all of us.

RECOGNIZING LANDY WARREN OF ROUND ROCK

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. CARTER. Madam Speaker, I would like to recognize Landy Warren of Round Rock, Texas for his unbelievable service to our country, his leadership through Children of Fallen Soldiers and Freedom Festival 2009.

The Children of Fallen Soldiers is a nonprofit organization based out of Round Rock, Texas with a goal to provide each child who has lost a parent in the line of duty, with $25,000 to assist with college expenses, or to otherwise help them to start out in the world when they turn 18. The Children of Fallen Soldiers organization was born through the vision of the Rotary DISTRICT 5870, in Round Rock, Texas.

Fifteen central Texas children have been identified through the program who have lost a parent in the line of duty. The soldiers who were killed were all from Ft. Hood, Texas.

The Freedom Fest 2009, a 4th of July concert and fireworks presentation to benefit The Children of Fallen Soldiers, was held this year with the hard work of Landy, and other local sponsors.

It is an honor to recognize Landy, as he continues to be a true leader in Texas District 31, and in our country.

CONGRATULATING SUE LOFGREN—SCI VOLUNTEER OF THE YEAR

HON. HARRY E. MITCHELL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. MITCHELL. Madam Speaker, I rise today to honor Sue Lofgren from my home town of Tempe, Arizona. Sue is being recognized as the Sister Cities International Volunteer of the Year at the annual conference. This year's conference takes place in Belfast, Northern Ireland.

The cities of Tempe, Arizona and Timbuktu, Mali, West Africa have enjoyed an eighteen year partnership through Sister Cities International. This relationship has persevered, despite hurdles which would have daunted most people. Lack of modern communication methods in 1991, the language barrier, as well as the physical difficulties of travel to that remote part of the world, were just a few of the hurdles. Sue found a way to overcome all of them.

The number one issue facing Timbuktu was lack of water. Sue arranged for a retired water engineer to travel to Timbuktu—no easy task in itself—to assess the feasibility of drilling water wells. Once water was found 100 feet down, Sue's real work began. She organized a fundraising effort to secure the $7,000 needed to drill a well, by selling bottled water bearing the label, ''Water for You . . . and Timbuktu''. The next hurdle was getting the money to Mali as Timbuktu had no bank, no Western Union, no nothing. This was eventually accomplished through a third party. When the first well opened, people literally danced in the streets and named that first effort, The Sue Lofgren Well. She has since raised money for six more wells.

When Sue made her first visit to Timbuktu, she packed her clothes and $11,000 of donated medical supplies, reading glasses, soccer balls and school supplies. While on her visit, she was home-hosted and saw first hand the great needs of these proud people. She returned home and redoubled her efforts on their behalf.

To date, she has singlehandedly raised at least $200,000 in aid for Timbuktu. In addition to the wells, money has gone to purchasing wheelchairs, goats, sheep and camels, sewing machines, gardening supplies, medical and school supplies, as well as toilets and a millet grinder for the Women's Center. In 2008 she also facilitated a relationship with Project C.U.R.E which resulted in the donation of another $500,000 in badly needed medical equipment.

All of this effort might seem to be enough for most of us, but not Sue. In addition to her efforts on Timbuktu's behalf, she volunteers a lot of her time to other programs of Tempe Sister Cities. She and her husband, Bob, have hosted international guests from Tempe's six other sister cities. She volunteers in the organization's gift shop, works in the kitchen for events and has organized the information booth at the annual Way Out West Oktoberfest. She is tireless in her dedication to Tempe Sister Cities, and especially to Timbuktu.

I am proud to call Sue Lofren a friend, and prouder yet that her efforts are being recognized by this wonderful award. Please join me in congratulating this outstanding person.

THE 100TH BIRTHDAY OF MR. JESUS GONZALEZ VILLAGOMEZ

HON. SOLOMON P. ORTIZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. ORTIZ. Madam Speaker, I rise today to recognize Mr. Jesus Gonzalez Villagomez, who celebrated his 100th birthday on May 5, 2009, surrounded by family, friends and loved ones.

Mr. Villagomez was born on May 5, 1909, in Villa Morelos, Michoacan, Mexico, to a ranching and farming family—Telesforo and Antonia Gonzalez Villagomez.

When he turned 18, he migrated to the United States entering at the Port of Brownsville in Brownsville, Texas, and a few years later returned to Mexico where he met and married his lifelong companion and wife, Mariana Aguillon Villagomez. Mr. Villagomez and his wife returned to the United States and settled in Fargo, North Dakota.

He joined the United States Army at Kelly Air Force Base in San Antonio, Texas, during World War II and was honorably discharged. Mr. Villagomez would go on to make a name for himself holding positions with the Union Pacific Railroad and the Armour Meat Packing Company in Fargo, North Dakota, where he retired from.

He is fluent in English and Spanish and has a true love and passion for education. He has a son, Jesse Villagomez, Jr., of Ft. Worth, Texas, and a daughter, Maria Antonieta Villagomez, of Corpus Christi, Texas, as well as four grandchildren and three great grandsons.

Mr. Villagomez's hobbies include: gardening, cooking, reading, dancing, and traveling.

Today, I ask that my colleagues join me in celebrating the 100th birthday of Mr. Jesus Gonzalez Villagomez who has lived a happy life surrounded by family, friends and loved ones.

PERSONAL EXPLANATION

HON. RON KLEIN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. KLEIN of Florida. Madam Speaker, I submit a record of how I would have voted on June 18 and 26, 2009 when I was unavoidably detained.

Had I voted, I would have voted ''yes'' on rollcall No. 383, ''yes'' on rollcall No. 390, ''yes'' on rollcall No. 400, ''yes'' on rollcall No. 406, and ''no'' on rollcall No. 472.

EARMARK DECLARATION

HON. GREG WALDEN

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. WALDEN. Madam Speaker, consistent with the House Republican Leadership's policy on earmarks, to the best of my knowledge the requests I have detailed below are (1) not directed to an entity or program that will be named after a sitting Member of Congress; and (2) not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark. As required by earmark standards adopted by the House Republican Conference, I submit the following information on projects I requested and that were

included in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010 (H.R. 2997).

Account: Agriculture Research Service—Salaries and expenses

Project Name: Northwest Center for Small Fruits, Corvallis, OR

Legal Name and Address of Requesting Entity: Northwest Center for Small Fruits Research, 4845 B SW Dresden Ave., Corvallis, OR 97333

Project Location: Corvallis, Oregon

Description of Project: H.R. 2997 appropriates $254,000 for the Northwest Center for Small Fruits Research conducted by USDA's Agriculture Research Service (ARS). According to the requesting entity, the appropriated funds for this project will be used by ARS to fund cooperative research, extension, and education activities on peer-reviewed small fruits research project proposals that will enhance profitability and sustainability of the small fruits industry in the Pacific Northwest.

Account: National Institute of Food and Agriculture—SRG

Project Name: Multi-commodity Research, OR

Legal Name and Address of Requesting Entity: Oregon State University, Corvallis, OR 97331–4501

Project Location: Corvallis, Oregon

Description of Project: H.R. 2997 appropriates $244,000 for the Multi-commodity Research, OR program to be conducted by Oregon State University. Oregon State University has confirmed in their justification that the appropriated funds for this project will be used to enhance competitiveness and expand the economic value-added component in Oregon agriculture products through research and outreach in food processing, product development, business strategy, marketing, and consumer testing.

Account: National Institute of Food and Agriculture—SRG

Project Name: Potato Research, ID, OR, WA

Legal Name and Address of Requesting Entity: Oregon State University, Corvallis, OR 97331–4501

Project Location: Corvallis, Oregon

Description of Project: H.R. 2997 appropriates $1,037,000 for the Potato Research, ID, OR, WA program to be conducted in part by Oregon State University. Oregon State University has confirmed in their justification that the appropriated funds for this project will be used to develop and commercialize new potato varieties that will directly benefit all segments of the Northwest potato industry and indirectly benefit all U.S. potato producing regions.

Account: National Institute of Food and Agriculture—SRG

Project Name: Regional Barley Gene Mapping Project, OR

Legal Name and Address of Requesting Entity: Oregon State University Corvallis, OR 97331–4501

Project Location: Corvallis, Oregon

Description of Project: H.R. 2997 appropriates $471,000 for the Regional Barley Gene Mapping Project, OR program to be conducted by Oregon State University. Oregon State University has confirmed in their justification that the appropriated funds for this project will be used to stimulate economic activity in the agriculture sector and to improve human health and welfare by using the tools of genomics to develop improved barley varieties, which will be more tolerant of stresses caused by plant diseases, insects, and climate change. Furthermore, enhanced tolerance will lead to greater productivity with fewer chemicals and fertilizer inputs. The project will also help develop varieties that will provide needed crop diversity for eastern Oregon wheat farmers.

Account: National Institute of Food and Agriculture—SRG

Project Name: Small Fruit Research, ID, OR, WA

Legal Name and Address of Requesting Entity: Oregon State University Corvallis, OR 97331–4501

Project Location: Corvallis, Oregon

Description of Project: H.R. 2997 appropriates $307,000 for the Small Fruit Research, ID, OR, WA program to be conducted in part by Oregon State University. Oregon State University has confirmed in their justification that the appropriated funds for this project will be used to fund cooperative and competitive research grants, and education activities to enhance the profitability and sustainability of the small fruits industry in the Pacific Northwest.

Account: National Institute of Food and Agriculture—SRG

Project Name: STEEP IV—Water Quality in Northwest

Legal Name and Address of Requesting Entity: Oregon State University Corvallis, OR 97331–4501

Project Location: Corvallis, Oregon

Description of Project: H.R. 2997 appropriates $444,000 for the STEEP IV—Water Quality in Northwest program to be conducted in part by Oregon State University. Oregon State University has confirmed in their justification that the appropriated funds for this project will be used to establish a network of agriculture research sites from which to address long term agriculture, environmental, and agroecosystem problems. According to the requesting entity, to date, the STEEP research grant has provided funds to develop cropping techniques such as direct-seeding, residue management, weed control, and accompanying extension programs to facilitate the adoption of successful conservation farming for the Pacific Northwest.

APPLAUDING HON. EDOLPHUS TOWNS IN CELEBRATION OF FATHER'S DAY

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. RANGEL. Madam Speaker, I rise today to praise my fellow colleague, EDOLPHUS TOWNS, for his outstanding career on Capitol Hill within the House of Representatives, as well as his continuous role as a father. This week, the New York Carib News acknowledged the Congressman in ''Edolphus Ed Towns, Father and Lawmaker'' in an article on outstanding fathers. The article noted his 30 years as a member of Congress and recognized TOWNS as the proud father of two adult children, Darryl, a New York State assembly member and his daughter Diedre, a Senior Executive with the Pfizer Pharmaceutical Company.

Mr. TOWNS, who is a former social worker and community activist, is a 14-term veteran and currently chairs the Committee on Oversight and Government Reform. Mr. TOWNS was born on July 21, 1934 in Chadbourn, North Carolina and earned his bachelor's degree from North Carolina A&T State University. He holds a master's degree in social work from Adelphi University. Prior to serving in the House, Mr. TOWNS was a teacher in the New York City Public School System, and a professor at Fordham University as well as Medgar Evers College. He is also a veteran of the United States Army and an ordained Baptist minister.

Mr. TOWNS continues to be dedicated and committed to serving his constituents within the 10th Congressional District of New York, which encompasses a variety of Brooklyn's diverse population. Mr. TOWNS also continues to be an advocate for adequate public health care, as well as equal access to quality public education and technology and financial security.

As a father, Mr. TOWNS strived to instill values in his children, as well as being fully invested in teaching them important life lessons by assuring the family spent time and had meals together. Mr. TOWNS understood the important role that fathers have in a child's life and cherishes the significance of sharing life experiences, which he attributes to his children's success in their personal and public lives. As an example, Mr. TOWNS and his son, Darryl, are the first African-American father-son team to serve simultaneously in New York public office.

Fatherhood is filled with many joys and challenges, and therefore, I applaud EDOLPHUS TOWNS for his continued commitment to his family as well as for his public service. I have thoroughly enjoyed working with my colleague and I commend him for his leadership.

EARMARK DECLARATION

HON. JO ANN EMERSON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mrs. EMERSON. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information in regards to H.R. 2997, the Fiscal Year 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010

Requesting Member: JO ANN EMERSON

Bill Number: H.R. 2997

Account: National Institute of Food and Agriculture—SRG

Legal Name of Requesting Entity: University of Missouri-Columbia

Address of Requesting Entity: 101 Park DeVille Drive, Suite E, Columbia, MO

Description of Request: Provide $1,139,000 for the Food and Agriculture Policy Research Institute to provide objective, quantitative economic analysis of agricultural policy alternatives. Approximately $188,000 or 17% is to continue a cooperative agreement with the University of Wisconsin relating to dairy policy; $140,000 or 12% is to conduct analysis of rangeland, cattle and hay with the University of Nevada—Reno; $811,000 or 71% is to be divided between the University of Missouri and Iowa State University to provide a ten-year baseline and policy analysis for US and world agriculture.

Requesting Member: JO ANN EMERSON

Bill Number: H.R. 2997

Account: National Institute of Food and Agriculture—SRG

Legal Name of Requesting Entity: University of Missouri-Columbia

Address of Requesting Entity: 101 Park DeVille Drive, Suite E, Columbia, MO

Description of Request: Provide $595,000 for the Food and Agriculture Policy Research Institute (FAPRI) and the Agricultural and Food Policy Center (AFPC) to provide Congress with information regarding farm financial risk and farm structure and the impacts of alternative agricultural policies on these factors. Approximately $244,000 or 41% is for FAPRI at the University of Missouri to provide stochastic and deterministic baseline and policy scenarios and $351,000 or 59% is for AFPC at Texas A&M University to provide representative farm analysis.

Requesting Member: JO ANN EMERSON

Bill Number: H.R. 2997

Account: National Institute of Food and Agriculture—SRG

Legal Name of Requesting Entity: University of Missouri-Columbia Delta Research Center

Address of Requesting Entity: Highway 61, Portageville, MO 63873

Description of Request: Provide $174,000 for the University of Missouri—Delta Research Center to continue research on rice production in the mid-South. Approximately $140,610 will be for multiple personnel costs, $29,000 for materials and supplies, and $5,000 for other costs.

Requesting Member: JO ANN EMERSON

Bill Number: H.R. 2997

Account: National Institute of Food and Agriculture—SRG

Legal Name of Requesting Entity: University of Missouri-Columbia

Address of Requesting Entity: 214 Middlebush Hall, Columbia, Missouri 65211

Description of Request: Provide $835,000 for the Rural Policies Institute to provide unbiased analysis and information on the challenges, needs, and opportunities facing rural people and places; and to spur public dialogue and help policymakers understand the impacts of public policies and programs on rural people and places. Of the $835,000, $600,000 is for salaries and benefits, and the remaining $135,000 is for center investments, conferences and events, consultants, office expenses and travel.

Requesting Member: JO ANN EMERSON

Bill Number: H.R. 2997

Account: National Institute of Food and Agriculture—SRG

Legal Name of Requesting Entity: University of Missouri-Columbia Delta Research Center

Address of Requesting Entity: Highway 61, Portageville, MO 63873

Description of Request: Provide $556,000 for continued soybean cyst nematode research at the University of Missouri—Delta Research Center. Of the $556,000, 85% is for salaries and benefits, the remaining 15% is for travel, supplies, and costs for a winter seed nursery.

Requesting Member: JO ANN EMERSON

Bill Number: H.R. 2997

Account: Animal and Plant Health Inspection Service—Salaries and Expenses

Legal Name of Requesting Entity: Bootheel Resource Conservation and Development, Inc.

Address of Requesting Entity: 18450 Ridgeview Lane, Dexter, MO 63841

Description of Request: Provide $207,000 to the USDA–APHIS–Wildlife Services in Southeast Missouri. Of the $207,000, 80% would be utilized for salaries and benefits, 17% for APHIS–Wildlife Services program support and 3% for vehicle maintenance and fuel. A portion of the operating budget will also be provided by local municipalities, commodity organizations and university support.

Requesting Member: JO ANN EMERSON

Bill Number: H.R. 2997

Account: General Provision

Legal Name of Requesting Entity: Congressional Hunger Center

Address of Requesting Entity: Hall of States Building, 400 North Capitol Street, N.W., Suite G100, Washington, DC 20001

Description of Request: Provide $2,500,000 for the Bill Emerson National Hunger Fellowship Program and the Mickey Leland International Hunger Fellowship Program. Of the $2,500,000 in funding 54% would be for salaries, benefits, healthcare and other costs associated with the Emerson National Hunger Fellowship Program and 46% for similar costs associated with the Mickey Leland International Hunger Fellowship Program.

Requesting Member: JO ANN EMERSON

Bill Number: H.R. 2997

Account: Agriculture Research Service—Salaries and Expenses

Legal Name of Requesting Entity: University of Missouri Center for Agroforestry

Address of Requesting Entity: 203 Anheuser-Busch Natural Resources Building, Columbia, Missouri 65211

Description of Request: Provide $660,000 to support research on viable alternative production and protection options to help revitalize the economic and environmental health of rural farms and communities in Missouri and surrounding states. Approximately, $438,882 [or 66%] is for salary and fringe to support professional track faculty, research associates, field research specialists, graduate and undergraduate students; $201,982 [or 31%] for materials and supplies in support of laboratory and field-based research on campus and at five MU farms and centers; $19,137 [or 3%] for travel.

Requesting Member: JO ANN EMERSON

Bill Number: H.R. 2997

Account: National Institute of Food and Agriculture—Research and Education Activities

Legal Name of Requesting Entity: Center for Grapevine Biotechnology at Missouri State University

Address of Requesting Entity: 9740 Red Spring Road, Mountain Grove, Missouri 65711

Description of Request: Provide $422,000 to research the ability of wild grapevines to defend themselves against pathogens, and their capacity to synthesize health-promoting properties. Of the funds available 46% for salary and benefits, 21% for other direct costs including materials and supplies, and 25% for F&A.

EARMARK DECLARATION

HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SHIMKUS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of HR 2997.

Requesting Member: JOHN M. SHIMKUS

Bill number: HR 2997

The Account: Agriculture Salaries and Expenses

Requesting Entity: National Corn-to-Ethanol Research Center (NCERC) at 400 University Park Dr in Edwardsville, IL.

NCERC is the only pilot plant facility in the world that has the flexibility to process any grain based feedstock to fuel ethanol and associated products. Funding will go toward the research at NRERC which is needed to reduce our reliance on foreign sources of energy.

HONORING JAMES C. KERNAN, JR.

HON. CAROLYN McCARTHY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mrs. MCCARTHY of New York. Madam Speaker, I rise to honor James C. Kernan Jr. for his contribution to both our government and local community. Through his commitment to serving others, Mr. Kerman has affected the lives of many, both nationally and locally. For these reasons and many others, I believe he is worthy of recognition.

As a dedicated member of United States Army, James received numerous accolades commemorating his outstanding bravery. Among his many distinctions, James was awarded the Kuwait Liberation Medal, the Southwest Asia Service Medal with two bronze stars, the Humanitarian Service Medal, and the National Defense Service Medal with a bronze star. After leaving the Army, Mr. Kernan continued to serve his country by enlisting in the Army Reserves. For years, James would travel from his home on Long Island to Utica, NY to train at the Elihu Root Army Reserve Center. Once again, James excelled, earning five separate Army Reserve Component Achievement Medals. I am proud to honor James for his 26 years of service in our Armed Forces.

Mr. Kernan's exemplary dedication does not end with his military record. Prior to his retirement in January, James spent thirty-five years as an employee of the Internal Revenue Service. Throughout his tenure, he was promoted

through the organization, and received thirteen distinct awards for his accomplishments.

Apart from his lifetime of public service, Mr. Kernan is an invaluable asset to his community. While raising his two sons on Long Island, James, and his wife Ruth, organized countless fundraisers and community events. They dedicated themselves to parent associations, the Our Lady of Victory Elementary School, and the Notre Dame Convent, and accepted the presidency of the Trinity Parents' Club at Holy Trinity Diocesan High School. Mr. Kernan's life's work is a testament to his commitment to developing a strong and healthy community for his children and others, James even acted as a volunteer referee for local little league games. Our children represent our future, and James has touched the lives of generations to follow.

The work of Mr. Kernan is inspiring, and I am grateful to him for all that he has accomplished. It is the through the efforts of individuals such as James Kernan that our nation remains strong and prosperous. I ask my colleagues to join me in expressing the gratitude of the U.S. Congress for his contributions to society.

TRIBUTE TO DAVID MUHLENDORF

HON. PARKER GRIFFITH

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. GRIFFITH. Madam Speaker, I rise today to congratulate Mr. David Muhlendorf, President and CEO of Paper and Chemical Supply, on his recent appointment to the U.S. Chamber Board of Directors.

Throughout the years, David's dedication and commitment to the success of north Alabama have directly contributed to my district's economic success. Small business has always served to be the backbone of our nation, and Mr. Muhlendorf's presence on the national economic stage will prove to be a great benefit to our country.

Earlier this year, David was named the 2008–2009 Shoals Citizen of the Year for his development work with the Chamber of Commerce of Northwest Alabama. He has also worked tirelessly for the area's education system with the Northwest Shoals Community College Board of Directors, for our local charities with the Shoals United Way, and for my State's economic development with the Business Council of Alabama.

Madam Speaker, I wish to congratulate Mr. David Muhlendorf for his new appointment and thank him for his diligent and determined work for the Tennessee Valley, the State of Alabama and our country.

EARMARK DECLARATION

HON. K. MICHAEL CONAWAY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. CONAWAY. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding authorizations I requested and were included as part of H.R. 2647, National Defense Authorization Act for fiscal year 2010.

A request for the Marksmanship Skills Trainer. The funding would be used for procuring a portable self contained system that allows for multiple scenarios from training to combat skills. This is a multiple user system allowing for high output during times of training constraints. The trainers will be stationed at the various Texas Army National Guard facilities allowing for maximum use for the soldiers. The system allows for ongoing marksmanship training in a simulated environment without the expenditure of ammunition or need to travel to a weapons range. The entity to receive funding for this project is the Texas National Guard, 2200 West 35th Street, Austin, TX 78763.

A request for the Mobile Firing Range. The mobile firing range is a self contained range that allows for the firing of pistol and rifle systems for the Texas National Guard. Currently there is no opportunity to fire weapons for training or qualification without traveling to a certified range on a military installation. The Texas Army National Guard currently does not have access to any indoor ranges that can be used to fire the M16/M4 which is the current armament for 90% of the soldiers within the Texas Army National Guard. The Mobile Firing Range will allow soldiers to train with their assigned weapons at home station. This system is a training and force multiplier due to the negation of travel and lodging, and staging needed when conducting this training on a military facility. The entity to receive funding for this project is the Texas National Guard, 2200 West 35th Street, Austin, TX 78763.

A request for the Visual Door Gunner Trainer (VDGT). The funding would be used for procuring a VDGT device that provides door gunnery and crew coordination training for UH–60 Blackhawk crewmembers. The VDGT also incorporates precision gunnery training to improve target engagement skills. This system is mobile and can be moved between Texas Army National Guard aviation facilities that have UH–60s. The system enables crews to train without leaving home station or flying additional hours. The entity to receive funding for this project is the Texas National Guard, 2200 West 35th Street, Austin, TX 78763.

A request for the Field Deployable Hologram Production System. The funding would be used for completing development of a compact production unit that produces 3D holographic imagery for mission planning and intelligence purposes for U.S. forces in Iraq and Afghanistan. The U.S. Army requests a self-contained, field-deployable EHI production system to accelerate imagery delivery to combat forces. The goal is a more efficient, cost effective production system that provides the deployed war fighter needed planning and intelligence capabilities on a much faster basis. The entity to receive funding for this project is Zebra Imaging, Inc, 9801 Metric Blvd, Austin, TX 78758.

A request for the Compact Pulsed Power Initiative. The funding would be used for the development of explosive- or battery-operated, compact, high-power radiation sources and associated antenna systems capable of destroying electronics used for radars, communications, computer, or remote detonation devices, and others that can disable car engines. The information gained from this research will be significant in furthering our nation's defense capabilities especially in the area of disabling and destroying IEDs. The research for this project will be conducted by Texas Tech University, 2500 Broadway (mail stop 3121), TX 79409.

A request for the Modular Shoot House. The funding would be used for procuring a self contained combat scenario system for team training in a safe 360 degree ballistic, combat simulated environment. The Modular Shoot House (MSH) will be placed on Texas Army National Guard training facilities as determined by training needs of the geographic regions in the state. New combat training tasks will be exercised using the MSH by multiple units who have building clearing as part of their mission essential tasks. There is currently no Texas Army National Guard controlled MSH. The addition of this system will greatly enhance training and readiness prior to unit deployment. The entity to receive funding for this project is the Texas National Guard, 2200 West 35th Street, Austin, TX 78763.

Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information for publication in the CONGRESSIONAL RECORD regarding earmarks I received as part of H.R. 2997–Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010.

A request to Cooperative State Research, Education and Extension Service (CSRESS), Special Research Grants Account, to the Animal Fiber Research Program. This funding would assist in the ongoing Wool Research Program. This program is a partnership between the Texas Agriculture Experiment Station in San Angelo, TX, New Mexico State University and Montana State University. This program helps enhance the quality and quantity of wool and mohair produced in this country. In addition, significant efforts are being made to work with small ruminants as a means to control invasive brush which is a major issue in many parts of Texas degrading rangelands and taking precious water. The project is located at 7887, U.S. Highway 87N, San Angelo, Texas, 76901.

A request to Cooperative State Research, Education and Extension Service (CSRESS), Special Research Grants Account to continue partial funding of the state of the art multidisciplinary research approach at the International Cotton Center at Texas Tech University. The International Cotton Center conducts cotton research programs for cotton production systems and provides market and policy analysis for natural fibers (cotton, wool, and mohair) in an effort to increase profitability and maintain viability of all segments of the U.S. cotton industry in an increasingly competitive and volatile international market. The project research would be centrally located at Texas Tech University, located at 2500 Broadway, Lubbock, Texas 79409.

A request to Cooperative State Research, Education and Extension Service (CSRESS), Special Research Grants Account, to continue partial funding for the Center for Food Industry

Excellence at Texas Tech University. The Center for Food Industry Excellence is a federal and state supported program that conducts systematic development and evaluations of production, processing and preparation methods of food products to achieve a safer and more nutritious food supply. The project research would be centrally located at Texas Tech University, located at 2500 Broadway, Lubbock, Texas 79409.

BRONX COMMUNITY COLLEGE (BCC))

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. RANGEL. Madam Speaker, I rise today to pay tribute to the opportunities Bronx Community College (BCC) has afforded its students for over half a century. This week, the New York Carib News acknowedged the most recent graduation at the school with a story in its June 23, 2009 edition entitled the "Spirited Commencement on Historic Field." For the graduation, thousands gathered on Ohio Field to watch BCC's graduating class of 2009 receive their degrees. Dedicated to serving its students through academics, leadership, and a commitment to service, BCC has done a remarkable job of producing talented individuals from all backgrounds. Approximately fifty-five percent of graduates are first generation college students and twenty-five percent balance school with work and family lives. Even more significant is the forty-four percent of students who come from households with an income of less than $15,000 per year. Bronx Community College is doing extraordinary things for a culturally diverse population of students, and deserves to be recognized for its years of commitment to this initiative.

This year, BCC graduated approximately 1,000 students who were prepared to enter the work force to begin careers in areas from medical office technicians to students who will receive full scholarships to complete their studies at four-year undergraduate institutions. Not only does such success among its students provide BCC with a strong alumni base, it also sets an incredibly strong example for both youth and adults in the surrounding area who have ever had doubts about their abilities to advance their education. The beauty of this institution is that it cultivates the dreams of those who want better careers and lives for themselves and their families. The Bronx Community College welcomes untraditional paths to education, and provides its students with the resources, motivation, and encouragement to succeed.

The continued pursuit of education and personal advancement even in such challenging economic times speaks volumes to the commitment of the Bronx Community College. This school confirms the validity of such public institutions and deserves to be recognized as a force of motivation in the Bronx community and a source of inspiration for anyone who dreams of succeeding.

TRIBUTE TO MONSIGNOR EUGENE M. BOLAND

HON. BILL PASCRELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. PASCRELL. Madam Speaker, I would like to call to your attention the work of an outstanding individual, Monsignor Eugene M. Boland, who was recognized on Sunday, June 28, 2009, on the occasion of his retirement.

It is only fitting that he be honored in this, the permanent record of the greatest democracy ever known, for he has been a true public servant and someone whose spiritual commitment has enhanced countless lives.

Eugene M. Boland was born on May 12, 1939, in the Village of Eyrecout, County Galway, Ireland, one of three sons of John and Nora (Potter) Boland. One of his brothers, Monsignor John V. Boland, is the pastor of St. Francis de Sales Church in Vernon Township, NJ. The other, Eamon, and his wife Mai and their four children reside in Castlecomer, County Kilkenny, Ireland. Young Eugene attended the local convent school until second grade, and then continued on at the local boys school until he was thirteen. He began his secondary education (high school) at St. Joseph's College, Ballinasloe, in 1952, and then went on to St. Patrick's Seminary in Carlow in the fall of 1957. He was ordained to the priesthood at the Cathedral in Carlow on June 8, 1963.

Father Boland came to this country on August 16, 1963, and was temporarily assigned to St. Vincent the Martyr Parish in Madison. On October 8th of that year, he was given a permanent assignment as associate pastor at St. George's Church in Paterson, where he would serve with Monsignor Joseph Brestle and Father Julian Varettoni. On June 29, 1971, he was assigned, with Monsignor Michael F. Hart as Pastor, to St. James of the Marches Church in Totowa, NJ, where he has remained ever since. He has served with many parochial vicars including Father Francis J. Duffy, Father Dennis O'Brien, Weekend Associate Father James Dolan, S.J., Father Paul Iovino, Father Joseph E. Murphy, Father Marc Mancini, Father James P. Bono, Father Damian Breen, O.S.B. Father Nicholas Gregoris and Father James Cerbone, S.D.B.

Monsignor Hart was called from this life on June 18, 1990, and soon after Father Boland was appointed as Pastor of St. James. On October 10, 1993, he was honored with the title of Monsignor.

During his time at St. James alone, Monsignor Boland baptized 1,364 infants, witnessed 470 marriages, administered First Eucharist to 2,864 children, attended 37 confirmations, and grieved with 1,249 families. He has made innumerable sick calls and communion visits. Over the 37 years he has served there, he has been involved in many activities of the Parish and of the greater Totowa community as well. He has attended not only graduations, Religious Education Classes and Rosary Altar Society meetings and events, but walked 37 May Crownings, attended 37 swearing in ceremonies for the Totowa Borough Council, and countless Boy and Girl Scout and Knights of Columbus events. He is the Chaplain of the Totowa Fire Department and was Dean of the Mid-Passaic Deanery for ten years beginning in February 1995.

Throughout his years of service, Monsignor Boland has helped to deepen the faith of many, and teach them more about their religion. His dedication to learning and expanding his own knowledge is exemplary.

The job of a United States Congressman involves much that is rewarding, yet nothing compares to learning about and recognizing the efforts of individuals like Monsignor Boland.

Madam Speaker, I ask that you join our colleagues, Monsignor Boland's family and friends and parishoners, all those who have been guided by him, and me in recognizing the outstanding and invaluable service of Monsignor Richard A. Boland.

CONGRATULATING ALEC KOHLI FOR EARNING THE CONGRESSIONAL AWARD GOLD MEDAL

HON. HARRY E. MITCHELL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. MITCHELL. Madam Speaker, I rise today to congratulate Alec Kohli, a resident of Scottsdale, Arizona, and a constituent of my district. Alec has earned The Congressional Award Gold Medal, the United States Congress' award for young Americans. The Congressional Award recognizes outstanding young people from all over the nation, and Alec has gone above and beyond by committing a tremendous amount of time and effort to attain the Award's highest ranking possible—the Gold Medal.

In order to be considered for the Congressional Award, individuals must achieve goals set in four exclusive program areas: Voluntary Public Service, Personal Development, Physical Fitness, and Expedition or Exploration. Alec has excelled in all areas, first completing over 400 hours of Voluntary Public Service by participating as an Environmental Proctor at Exeter Academy, as a youth mentor to underprivileged youth, and as an Eagle Scout. For Personal Development, Alec attended a five-week summer program at Stanford University, where he worked on improving his math and analytical abilities as well as his leadership and time management skills. In the Physical Fitness category, Alec focused on sports and fitness activities, and measured his progress over a three-year training period by his ability to run one mile in six minutes and forty-five seconds. Finally, for his Expedition, Alec attended Camp Philmont in the mountains of New Mexico.

Alec is an exceptional young man, and sets a great example for Arizona's youth. I would like to express my appreciation for his contributions to the community, and I hope you will join me, Madam Speaker, in congratulating Alec on his phenomenal accomplishments.

RETIREMENT OF MR. GEORGE DALLEY

HON. MARCIA L. FUDGE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Ms. FUDGE. Madam Speaker, I am pleased to congratulate Mr. George Dalley on his exemplary service to the United State House of Representatives. Mr. Dalley is retiring this year after thirty years of service to Chairman RANGEL. Throughout his tenure in Congress, Mr. Dalley provided a wealth of information to CBC members and was a strong advocate for a more responsive approach to Africa, the Caribbean, and Central America.

Having an informed, passionate and committed staff makes a significant difference for a Member of Congress. Mr. Dalley has been such a staffer for Chairman RANGEL. As a journalist once wrote, ''Dalley is the guy in Rangel's office who sees every piece of paper the boss sees. He's the one Rangel seeks out when he needs an answer.'' The trust and collegiality between these two men is indeed a rare and valuable commodity.

Even in his well-deserved retirement, I am sure he will maintain a busy schedule advocating for the causes in which he so passionately believes. As Mr. Dalley continues to raise his voice in support of human rights around the world, I wish him the best in his retirement from the House of Representatives.

EARMARK DECLARATION

HON. GINNY BROWN-WAITE

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Ms. GINNY BROWN-WAITE of Florida. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2997—Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010.

I requested two projects in H.R. 2997.

$300,000 for the University of Florida's Institute of Food and Agriculture Sciences Shellfish Aquaculture Development Program and the Cedar Key Aquaculture Association located at P.O. Box 89, Cedar Key, FL 32625. These funds will be used to conduct multi-disciplinary research into struggling aquaculture programs.

$1,033,000 for the study of Subtropical Beef Germplasm by the SubTropical Agricultural Research Station located at 22271 Chinsegut Hill Road, Brooksville, FL 34601. The 3800 acre USDA research facility conducts multidisciplinary research aimed at boosting efficiency, safety and environmental responsibility for the cattle industry of Florida and the southeast.

EARMARK DECLARATION

HON. HENRY E. BROWN, JR.

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. BROWN of South Carolina. Madam Speaker, I submit the following:

Requesting Member: HENRY E. BROWN, Jr.

Bill Number: H.R. 2892, Department of Homeland Security Appropriations Act, 2010

Account: FEMA, State and Local Programs

Legal Name of Requesting Entity: Dorchester County

Address of Requesting Entity: 201 Johnston Street, St. George, SC 29477

Description of Project: Construct and equip a new emergency operations center to enhance response by first responders and survivability of critical equipment in a county that contains significant critical infrastructure, including I–26, and is in close proximity to Charleston's military bases and ports.

Requesting Member: HENRY E. BROWN, Jr.

Bill Number: H.R. 2996, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010

Account: National Park Service, Save America's Treasures

Legal Name of Requesting Entity: Dorchester County

Address of Requesting Entity: 201 Johnston Street, St. George, SC 29477

Description of Project: Repairing standing wooden tents at this historic meeting compound that were damaged as a result of arson, and facilities upgrades allowable under program rules; Cypress Historic Meeting Compound, which was founded in 1794, is on the National Register of Historic Places and has been recognized as one of the last ''Great Awakening'' religious compounds. National Register Number: 78002504.

Requesting Member: HENRY E. BROWN, Jr.

Bill Number: H.R. 2997, Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010

Account: National Institute of Food and Agriculture, SRG

Legal Name of Requesting Entity: Clemson University

Address of Requesting Entity: 201 Sikes Hall, Clemson, SC 29634

Description of Project: Funds will be used to support the continued development of fruit tree genomics at Clemson University that currently underpins the future of competitive specialty crop agriculture in South Carolina and the U.S. This work identifies, characterizes and manipulates the genes and gene actions that control: the normal growth and development of fruiting trees, natural resistance genes to both abiotic and biotic stresses, genes that influence the progression of disease in the trees (e.g. peach tree short life), and genes controlling quality and yield of fruits. This research provides the pipeline for future fruit tree improvement and sustainability. Clemson is at the heart of fruit tree genomics research in the U.S. Project has been funded in past appropriations acts.

EARMARK DECLARATION

HON. ANDER CRENSHAW

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. CRENSHAW. Madam Speaker, I rise today to submit documentation consistent with the Republican Earmark Standards.

Requesting Member: Congressman ANDER CRENSHAW

Bill Number: H.R. 2997—Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010

Account: Cooperative State Research Education and Extension Services (CSREES)

Legal Name of Receiving Entity: University of Florida—Institute of Food and Agricultural Sciences (UF–IFAS)

Address of Receiving Entity: 700 Experiment Station Rd., Lake Alfred, FL 33850

Description of Request: I have secured $1,217,000 in funding in H.R. 2997 in the Cooperative State Research Education and Extension Services Account for University of Florida—Institute of Food and Agriculture Sciences.

The purpose of this funding is support the continuing citrus canker and greening research by UF–IFAS to improve technologies for treatment and detection, methods of movement and containment, and means to control and eliminate these devastating citrus diseases.

Federal funding, in addition to state and grower contributions will help improve technologies for treatment and detection, methods of movement and containment, and means to control and eliminate devastating citrus diseases and disease vector.. This project is eligible to receive a federal grant under the Department of Agriculture, Cooperative State Research Education and Extension Services (CSREES) Account.

PERSONAL EXPLANATION

HON. JOHN SULLIVAN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SULLIVAN. Madam Speaker, I rise to state for the record that I was on an official leave of absence from the U.S. House of Representatives on the account of illness and unable to vote on rollcall vote No. 328 to H.R. 2410 taken on June 10, 2009. Had I been present for this vote, I would have voted nay.

As an ardent supporter of the unborn, I am strongly opposed to this legislation, which among many issues created an Office of Global Women's Issues that could advocate for abortions around the world. I believe that life begins at conception and could not support this legislation without safeguards that ensure that abortion is not promoted.

EARMARK DECLARATION

HON. CHARLES W. DENT

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. DENT. Madam Speaker, pursuant to the House Republican Leadership standards on earmarks, I am submitting the following information regarding a project that is listed in H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, FY2010:

Bill Number: H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, FY2010

Account: National Institute for Food and Agriculture, SRG

Title: Sustainable Agriculture and Natural Resources

Legal Name of Requesting Entity: Pennsylvania State University

Address of Requesting Entity: 117 Old Main, University Park, PA 16802

Description of Request: Funding for this project will support a collaborative research and education program between the Pennsylvania State University and the Rodale Institute that will help diverse farm operations better adopt sustainable farming practices. The project will increase field research and demonstration to enhance the exposure of farm advisors and farmers to sustainable cropping system practices. Practices to be further investigated and field-demonstrated include: crop species and cultivars for inclusion in crop rotations that improve the performance of sustainable and organic cropping systems, especially for the Northeast; fine-tuning of management guidelines for mechanical control of cover crops and weeds in conservation and no-tillage systems to reduce or eliminate herbicides; factors that better promote conservation of biological control organisms and beneficial soil microorganisms for weed seed predation and management of other pests; and practices that increase soil organic matter.

EARMARK DECLARATION

HON. TOM COLE

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. COLE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010

Requesting Member: Congressman TOM COLE

Bill Number: H.R. 2997

Provision: Title I

Account: National Institute of Food and Agriculture—Extension

Legal Name of Requesting Entity: ''Oklahoma State University''

Address of Requesting Entity: 107 Whitehurst Hall, Stillwater, OK 74078

Description of Request: Provide an earmark of $209,000 to fund the Pilot Technology transfer services and engineering assistance to small, rural manufacturers with the goal of improving their profitability and enhancing the economy in rural communities. More specifically, 25 percent of these funds be used for Oklahoma State University's Corporate Extension office to fund the salary and benefits for one Applications Engineer, 25 percent of the funds would fund the Rural Enterprises Institute, and 50 percent of the funds would fund a companion program at Mississippi State University.

Requesting Member: Congressman TOM COLE

Bill Number: H.R. 2997

Provision: Title I

Account: National Institute of Food and Agriculture—Special Research Grants

Legal Name of Requesting Entity: ''Oklahoma State University''

Address of Requesting Entity: 107 Whitehurst Hall, Stillwater, OK 74078

Description of Request: Provide an earmark of $223,000 for the expanded Wheat Pasture project to develop science and technologies, uniquely adapted wheat varieties, decision-support economic models, and extension education programs to increase profitability of the many dual-purpose wheat enterprises (i.e. wheat grain and stocker cattle) in Oklahoma and the southern Great Plains and strengthen the economies of rural communities. More specifically, 60 percent will be used for staff salaries to conduct the program; 33 percent will be for the annual land lease where field trials are conducted; and 7 percent will be used for field supplies, vehicles and maintenance and other miscellaneous expenses.

Requesting Member: Congressman TOM COLE

Bill Number: H.R. 2997

Provision: Title I

Account: National Institute of Food and Agriculture—Special Research Grants

Legal Name of Requesting Entity: ''City of Norman, Oklahoma''

Legal Name of Requesting Entity: ''Oklahoma State University''

Address of Requesting Entity: 107 Whitehurst Hall, Stillwater, OK 74078

Description of Request: Provide an earmark of $177,000 for the Integrated Production Systems for Alternative Crops to develop and refine crop management techniques that enable environmentally sound and economically feasible production of alternative crops that will best utilize natural resources as they produce organically grown vegetable crops and crops for the bio-fuel industry. The research and educational program includes organic production practices, pest management strategies and weed control using organically approved practices and chemical agents. The work is conducted at the Agricultural Research and Extension Center in Lane, Oklahoma. All the funding will be used for the technician, researcher and student salaries needed to carry out the program.

EARMARK DECLARATION

HON. DEAN HELLER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. HELLER. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010:

Requesting Member: Congressman DEAN HELLER

Bill Number: H.R. 2997

Account: Natural Resources Conservation Service—Conservation Operations

Legal Name of Requesting Entity: Carson City, Nevada

Address of Requesting Entity: 201 N. Carson Street, Suite 2, Carson City, NV 89701

Description of Request: $375,000. Carson City suffered a devastating wildfire in July 2004. Over 8,700 acres reaching across the entire west side of Carson City were burned. This devastation removed all vegetation, and destroyed a large stand of timber. The eastern flank of the Sierras remains burned and barren. These mountains are extremely steep, and severe erosion continues to occur. Carson City therefore faces threats from flooding and potential debris flows, as well as severe damage to surface water supplies. This federal funding will help to continue critical reforestation work, which is necessary to control erosion, prevent flooding, and restore the areas destroyed by the fire.

EARMARK DECLARATION

HON. LOUIE GOHMERT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. GOHMERT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding funding received in my district as part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010.

Stephen F. Austin Medicinal and Bioactive Crop Research Project. Stephen F. Austin State University, Box 6078 SFA Station, Nacogdoches, Texas 75962, $280,000, in the National Institute of Food and Agriculture RE/FA account, for the continuation of medicinal and bioactive crop research at the National Center for Pharmaceutical Crops. The initiative seeks to discover anti-cancer agents from plants and develop new crops for securing nationally strategic pharmaceuticals. Successful implementation of this research will improve human health, secure the U.S. supply of critical pharmaceuticals that currently come from foreign suppliers, and establish high value crops to revitalize the U.S. rural economy, while ultimately saving and improving America's lives.

EARMARK DECLARATION

HON. JOHN SULLIVAN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SULLIVAN. Madam Speaker, consistent with House Republican Earmark Standards, I am submitting the following earmark disclosure and certification information for two project funding requests that I made and were included within the text of H.R. 2847—The Commerce, Justice, Science, and Related Agencies Appropriations Act of 2010.

Project 1

Project: Law Enforcement Interoperability/Regional Expansion Project

Project Amount: $200,000

Account: COPS Technology

Legal Name of Requesting Entity: Tulsa Police Department

Address of Requesting Entity: 600 Civic Center, Tulsa, OK 74103

Description of Request: Funding will be used to greatly improve the efficiency and effectiveness of public safety services in the City of Tulsa, and surrounding area. It will promote greater cooperation, collaboration, and operations among municipal, county, state, railroad, and tribal law enforcement agencies in the Tulsa area. The system will enable better cooperation among law enforcement agencies as part of the project includes developing a wireless broadband network with Internet-based applications: e.g., enabling helicopter video of pursuit suspects to all patrol cars; quickly sharing suspect photographs with all local and surrounding agencies.

Project 2

Project: Bartlesville Police Department Mobile Data Technology

Project Amount: $800,000

Account: COPS Technology

Legal Name of Requesting Entity: Bartlesville Police Department

Address of Requesting Entity: 100 East Hensley Blvd, Bartlesville, OK 74003

Description of Request: Project improves community safety, enhances law enforcement's ability to prevent crime, decreases response times to emergency calls, and dovetails with Department of Homeland Security and Department of Justice initiatives to help coordinate information sharing between agencies.

EARMARK DECLARATION

HON. PETER T. KING

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. KING of New York. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892—the Department of Homeland Security Appropriations Act, 2010.

Requesting Member: Congressman PETER T. KING

Bill Number: H.R. 2892

Account: Domestic Nuclear Detection Office

Legal Name of Requesting Entity: New York City Police Department

Address of Requesting Entity: 1 Police Plaza, New York, NY 10038

Description of Request: $40 million will be used to pay for the implementation of a unified strategy for defending the New York City region, including the surrounding New York, New Jersey, and Connecticut jurisdictions, against radiological and nuclear threats. The program, sponsored by the Department of Homeland Security's Domestic Nuclear Detection Office (DNDO), is designed to create a detection and interdiction architecture for radiological materials.

EARMARK DECLARATION

HON. ROY BLUNT

OF MISSOURI–

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. BLUNT. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2997, the Department of Agriculture Appropriations for Fiscal Year 2010.

Bill Number: H.R. 2997

Account: Natural Resources Conservation Service—Conservation Operations

Legal Name of Requesting Entity: Southwest Missouri Resource Conservation and Development, Inc.

Address of Requesting Entity: 283 US Highway 60 West, Republic, MO 65738

Description of Request: $287,000 is provided for the Upper White River Basin to provide additional conservation technical assistance to support the South Missouri Water Quality Project staff for a water quality program in southern Missouri. The Upper White River Basin is located in the Ozark Highlands region with approximately 6.8 million acres of the basin located in Missouri. Technical assistance includes forestry conservation, urban nutrient management and storm water planning, watershed planning and assessment, and water quality information and education activities. The use of taxpayer funds is justified because this watershed has experienced tremendous population growth in the last decade that has resulted in an increase in nonpoint source pollution pressure.

EARMARK DECLARATION

HON. ROB BISHOP

OF UTAH

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. BISHOP of Utah. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996, the Interior-Environment Appropriations Act, 2010.

Requesting Member: ROB BISHOP

Bill number: H.R. 2996

Account: Land Acquisition

Legal name and address of requesting entity: Western Rivers Conservancy, located at 302 N. Last Chance Gulch, Ste. 404, Helena, MT 59601

Description of project: $500,000 to purchase a 700-acre property to add to the Bear River Migratory Bird Refuge.

Requesting Member: ROB BISHOP

Bill number: H.R. 2996

Account: Save America's Treasures

Legal name and address of requesting entity: Salt Lake City Mayor's Office, 451 South State St., SLC, UT 84114

Description of project: $150,000 to restore the Albert Fisher Mansion and re-landscape the grounds surrounding the building.

Requesting Member: ROB BISHOP

Bill number: H.R. 2996

Account: STAG Water and Wastewater Infrastructure Project

Legal name and address of requesting entity: Weber County, Utah, located at 2380 Washington Blvd, Ogden, Utah 84401

Description of project: $500,000 to assist in providing detention basins, improved canal development and maintenance, and culvert replacements to better handle capacity problems.

EARMARK DECLARATION

HON. LINCOLN DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2997—Agricultural, Rural Development, Food and Drug Administration, and Related Agencies Appropriations bill, Fiscal Year 2010.

Requesting Member: Congressman LINCOLN DIAZ-BALART

Bill number: H.R. 2997—Agricultural, Rural Development, Food and Drug Administration, and Related Agencies Appropriations bill, Fiscal Year 2010

Account: National Institute of Food and Agriculture, Research and Education Activities, Other Federal Administration

Legal name of requesting entity: Southeast Climate Consortium

Address of Requesting Entity: Florida State University, Tallahassee, FL 32306

Description of Request: I have secured $2,494,000 for the Southeast Climate Consortium Application of Climate Forecasts in the Southeastern United States. The Consortium reduces economic risks and improves social well-being by providing climate information that is integral to agricultural decision-making. The program seeks to develop flood forecasting methods to help farmers and producers plan for reducing risks of economic losses and environmental damage; develop partnerships and methods for incorporating climate forecasts and other climate information into agricultural and water policy decisions; and begin development of a prototype decision support system for the application of climate forecasts to water resource management, especially for agricultural water use.

PERSONAL EXPLANATION

HON. JOHN SULLIVAN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SULLIVAN. Madam Speaker, I rise to state for the record that I was on official leave of absence from the U.S. House of Representatives on account of illness and unable to vote on rollcall vote 420 to H.R. 1016 Veterans Health Care Budget Reform and Transparency Act of 2009 taken on June 23, 2009. Had I been present for the vote, I would have voted "aye."

I strongly support our nation's servicemen and women and their families and realize the debt of gratitude that our nation owes the men and women who defend our country. As Representative for the first Congressional District of Oklahoma, I remain committed to providing them with the resources necessary to ensure they receive the funding and care they deserve. My colleagues and constituents can rest assured that I will continue to support initiatives which ensure those who serve our country to guard our freedom are treated with nothing less than the highest level of dignity and respect.

EARMARK DECLARATION

HON. JEFF FORTENBERRY

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. FORTENBERRY. Madam Speaker, pursuant to the Republican Leadership standards on member requests, I am submitting the following information regarding the earmarks I received as part of the FY10 Agriculture Appropriations Bill:

Requesting Member: Congressman JEFF FORTENBERRY

Bill Number: H.R. 2997, FY10 Agriculture Appropriations Bill

Account: Special Research Grants

Project Name: Drought Mitigation

Amount: $469,000

Name and Address of Requesting Entity: University of Nebraska-Lincoln located at 202 Agricultural Hall, Lincoln, Nebraska 68583

Description: This funding is for the National Drought Mitigation Center (NDMC) which conducts research and educational programs on drought mitigation and planning for drought. The project has assisted numerous states and municipalities in developing drought plans and implementing drought response action teams. The Center has received national visibility for providing information on the severity of drought throughout the United States. Both print and electronic mass media routinely use Center produced materials in their news stories on the drought.

EARMARK DECLARATION

HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. DUNCAN. Madam Speaker, consistent with House Republican Earmark Standards, I am submitting the following earmark disclosure information for project requests that I made and which were included within H.R. 2997, "Making appropriations for the Departments of Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes."

Requesting Member: Congressman JOHN DUNCAN

Account: National Institute of Food and Agriculture—SRG

Project Amount: $1,000,000

Legal Name of Requesting Entity: University of Tennessee, 114 Morgan Hall, 2621 Morgan Circle, Knoxville, Tennessee 37996.

Description of Request: This funding will be used for producing crop plants that can be used directly as early-warning sentinels for the detection of plant diseases.

PERSONAL EXPLANATION

HON. JOHN SULLIVAN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SULLIVAN. Madam Speaker, I rise to state for the record that I was on official leave of absence from the U.S. House of Representatives on account of illness and unable to vote on rollcall vote 460 to H.R. 2647, National Defense Authorization Act for Fiscal Year 2010 taken on June 25, 2009. Had I been present for the vote, I would have voted "aye."

I strongly support our nation's servicemen and women and their families and realize the debt of gratitude that our nation owes the men and women who defend our country. As Representative for the first Congressional District of Oklahoma, I remain committed to providing them with the resources necessary to ensure they receive the funding and care they deserve. My colleagues and constituents can rest assured that I will continue to support initiatives which ensure those who serve our country to guard our freedom are treated with nothing less than the highest level of dignity and respect.

HONORING THE LSU AGCENTER RICE RESEARCH STATION

HON. CHARLES W. BOUSTANY, JR.

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. BOUSTANY. Madam Speaker, I rise today to honor the LSU AgCenter Rice Research Station in Acadia Parish, Louisiana, situated 2 miles east of Crowley, which celebrated its 100th year in operation on July 1.

Since 1909, the Rice Research Station continues to provide invaluable information, innovative techniques and new varieties of rice to help Gulf Coast rice farmers feed the world. Originally a partnership between Acadia Parish, the U.S. Department of Agriculture and the Louisiana State University Agricultural Center, it was the first experimental rice research station in the country.

Now operating under the LSU AgCenter, scientists and farmers work in tandem to contribute to improvements in rice growing. A significant part of the center's funding comes from the Louisiana Rice Research Board, which receives a voluntary payment from area rice sales to ensure the station's work continues.

Rice farmers along the Gulf Coast face difficult conditions as weather and disease can devastate even the most promising crop. However, Louisiana's agricultural communities persevere and possess a richness of culture matched by none. The state's rice industry added $550 million to Louisiana's economy in 2008 alone. Rice farming will continue to be a way of life for thousands in Louisiana thanks to the work done at the Research Station.

Again, congratulations to the LSU AgCenter Rice Research Station at Crowley, Louisiana, for helping rice farmers throughout the Gulf Coast for 100 years and counting."

HONORING MECHANICVILLE HIGH SCHOOL SOFTBALL TEAM

HON. SCOTT MURPHY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. MURPHY of New York. Madam Speaker, I am honored to rise today to congratulate the Mechanicville High School Softball team who, in addition to winning an impressive five New York State titles in Class C this decade, have recently captured the Class B State Championship.

The Red Raiders faced tough competition, in addition to quite a bit of rain, to pull out a 3–1 victory against Fredonia at Waterloo High School. I would especially like to recognize the impressive performance of sophomore Anna Arcenaux, who allowed just one run while winning two games in the final four.

Arcenaux's efforts were aided by freshman Alysa Russell and sophomore Kelsey Hines, two of the team's most outstanding hitters. Leading Mechanicville's young team to victory was head Coach Dan Arcenaux, who will have the opportunity to repeat this success next year with the same roster of outstanding athletes.

On behalf of the citizens of the 20th District of New York, we congratulate the Mechanicville Red Raiders softball team and their coaches for an outstanding display of teamwork and athleticism.

EARMARK DECLARATION

HON. FRANK D. LUCAS

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. LUCAS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman FRANK D. LUCAS

Bill Number: H.R. 2997

Account: Cooperative State Research Education and Extension Service, Research and Education

Legal Name of Requesting Entity: Oklahoma State University

Address of Requesting Entity: 101 Whitehurst, Stillwater, Oklahoma, USA

Description of Request: I have received $209,000 for the Pilot Technology Transfer project. This funding will be used to provide technology transfer services and engineering assistance to small, rural manufacturers with the goal of improving their profitability and enhancing the economy in rural communities.

Requesting Member: Congressman FRANK D. LUCAS

Bill Number: H.R. 2997

Account: Cooperative State Research Education and Extension Service, Research and Education

Legal Name of Requesting Entity: Oklahoma State University

Address of Requesting Entity: 101 Whitehurst, Stillwater, Oklahoma, USA

Description of Request: I have received $274,000 for the Animal Waste Management project. This funding will be used to develop sustainable, environmentally safe, and ecologically healthy animal waste management practices in semiarid ecosystems that contribute to economic development in rural communities.

Requesting Member: Congressman FRANK D. LUCAS

Bill Number: H.R. 2997

Account: Cooperative State Research Education and Extension Service, Research and Education

Legal Name of Requesting Entity: Oklahoma State University

Address of Requesting Entity: 101 Whitehurst, Stillwater, Oklahoma, USA

Description of Request: I have received $839,000 for the Biomass-based Energy Research project. This funding will be used to find an alternative to traditional fuel sources, and to enhance rural economic development through the use of plant materials. A consortium of three universities (Oklahoma State University, Oklahoma University, and Mississippi State University) is working to refine and commercialize a unique gasification-fermentation process utilizing biomass to produce liquid fuel.

Requesting Member: Congressman FRANK D. LUCAS

Bill Number: H.R. 2997

Account: Cooperative State Research Education and Extension Service, Research and Education

Legal Name of Requesting Entity: Oklahoma State University

Address of Requesting Entity: 101 Whitehurst, Stillwater, Oklahoma, USA

Description of Request: I have received $223,000 for the Expanded Wheat Pasture project. This funding will be used to develop science and technologies, uniquely adapted wheat varieties, decision-support economic models, and extension education programs to increase profitability of the many dual-purpose wheat enterprises.

Requesting Member: Congressman FRANK D. LUCAS

Bill Number: H.R. 2997

Account: Cooperative State Research Education and Extension Service, Research and Education

Legal Name of Requesting Entity: Oklahoma State University

Address of Requesting Entity: 101 Whitehurst, Stillwater, Oklahoma, USA

Description of Request: I have received $382,000 for the Food Safety project. This funding will be used to conduct research and testing to develop rapid and efficient methods for detecting and controlling food borne pathogens throughout the food chain from point of origin to consumption.

Requesting Member: Congressman FRANK D. LUCAS

Bill Number: H.R. 2997

Account: Cooperative State Research Education and Extension Service, Research and Education

Legal Name of Requesting Entity: Oklahoma State University

Address of Requesting Entity: 101 Whitehurst, Stillwater, Oklahoma, USA

Description of Request: I have received $177,000 for the Integrated Production Systems project. This funding will be used to conduct research to develop and refine crop management techniques that enable environmentally sound and economically feasible production of alternative crops that will best utilize natural resources as they produce organically grown vegetable crops and crops for the biofuel industry.

Requesting Member: Congressman FRANK D. LUCAS

Bill Number: H.R. 2997

Account: Cooperative State Research Education and Extension Service, Research and Education

Legal Name of Requesting Entity: Oklahoma State University

Address of Requesting Entity: 101 Whitehurst, Stillwater, Oklahoma, USA

Description of Request: I have received $174,000 for the Preservation and Processing Research project. This funding will be used to emphasize research, development and implementation of integrated cropping, harvesting, storage and processing systems to facilitate new crop endeavors and assist new business development, to maintain and improve profitability for horticulture.

PERSONAL EXPLANATION

HON. JOHN SULLIVAN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SULLIVAN. Madam Speaker, I rise to state for the record that I was on an official leave of absence from the U.S. House of Representatives on the account of illness and unable to vote on rollcall vote 477 to H.R. 2454, the American Clean Energy and Security Act of 2009. Had I been present for this vote, I would have voted "nay" as the bill represents a partisan step in the wrong direction and a massive energy tax on the American people.

I was pleased to vote against H.R. 2454 when it was considered before the House Energy and Commerce Committee. Like many Americans, I believe that we have a shared responsibility to work to ensure clean air, clean water and a healthy environment for today but also for future generations. However, we also know that the national energy tax proposal which passed the House is not the way to do it. Being good stewards of our planet should not be a partisan issue; it is something that benefits us all.

As I have said from the start, H.R. 2454 is nothing more than a backdoor attempt to implement a massive national energy tax that will result in higher energy prices, less jobs, and a greater dependence on foreign sources of oil. The oil and gas industry employs 1.8 million people across the nation and represents a large portion of the economy in my district. I cannot support any bill that will eliminate these jobs or ship them overseas.

I also remain deeply concerned that the bill, if enacted into law, will force American manufacturers and other energy intensive industries to relocate to other countries such as China or India. These counties are not subject to limits on greenhouse gas emissions, and H.R. 2454 would place the United States at a competitive disadvantage.

Families and small businesses already are struggling during this recession, and increasing their direct and indirect energy costs to the tune of thousands of dollars per year will only make matters worse. Given our troubled economy, Congress should reject plans for a national energy tax through this deeply flawed bill and work across party lines on a plan to create jobs, lower energy costs, and establish a cleaner, more reliable energy future.

EARMARK DECLARATION

HON. VERNON J. EHLERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. EHLERS. Madam Speaker, pursuant to Republican Leadership standards, I am submitting the following information regarding projects I received funding for as part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act for fiscal year 2010.

Requesting Member: Congressman VERNON J. EHLERS

Bill Number: H.R. 2997

Agency: National Institute for Food and Agriculture

Account: Special Research Grants

Legal Name of Requesting Entity: Michigan State University College of Agriculture and Natural Resources

Address of Requesting Entity: 102 Agriculture Hall, East Lansing, Michigan 48824

Description of Request: This bill provides $147,000 for Improving the Sustainable Production of Specialty Crops (Improved Fruit Practices). This grant is a valuable use of taxpayer money because the research will be used to assist growers in producing high quality fruit, dry beans, and sugar beets with environmentally sound, safe, and effective pest control methods and management approaches. Approximately, $91,140 is for salaries and expenses, and $55,860 is for lab maintenance and equipment. In addition to the federal funds provided by this grant, this research is supported by personnel, equipment, and facilities funded by the Michigan Agricultural Experiment Station and Michigan State University Extension.

Requesting Member: Congressman VERNON J. EHLERS

Bill Number: H.R. 2997

Agency: National Institute for Food and Agriculture

Account: Special Research Grants

Legal Name of Requesting Entity: Michigan State University College of Agriculture and Natural Resources

Address of Requesting Entity: 102 Agriculture Hall, East Lansing, Michigan 48824

Description of Request: This bill provides $346,000 for Controlling Fire Blight Disease of Apple Trees. This grant is a valuable use of taxpayer money because the research will be used to develop blight-resistant varieties and new, environmentally responsible control strategies to combat this disease. This grant will be split between Michigan (which receives approximately 36 percent) and New York (which receives approximately 64 percent). For Michigan, approximately $99,648 is for the salaries of laboratory and field research personal; and $24,912 is for materials and supplies. Michigan State University is working to obtain funding from the Michigan Apple Committee, the Michigan Agricultural Experiment Station, project GREEN, and from other industry sources.

Requesting Member: Congressman VERNON J. EHLERS

Bill Number: H.R. 2997

Agency: National Institute for Food and Agriculture

Account: Special Research Grants

Legal Name of Requesting Entity: Michigan State University College of Agriculture and Natural Resources

Address of Requesting Entity: 102 Agriculture Hall, East Lansing, Michigan 48824

Description of Request: This bill provides $266,000 for Sustainable Agriculture: Expanding and Refining the Ecosystem Base (Sustainable Agriculture). This grant is a valuable use of taxpayer money because the research will be used to assist farmers on sustainable agriculture practices, which will help farmers manage their crops for improved yields, while reducing fertilizer and pesticide use, and stemming nutrient losses to ground and surface water. Organic farming concepts are also addressed. Approximately, $151,000 is for salaries of researchers; $15,000 is for travel expenses; $10,000 is for farmer stipends; $25,000 is for materials and supplies; and $65,000 is for communication and outreach. Michigan State University expects to leverage at least $150,000 in state, local, and private funds to expand the impacts of the special grant.

Requesting Member: Congressman VERNON J. EHLERS

Bill Number: H.R. 2997

Agency: National Institute for Food and Agriculture

Account: Special Research Grants

Legal Name of Requesting Entity: Michigan State University College of Agriculture and Natural Resources

Address of Requesting Entity: 102 Agriculture Hall, East Lansing, Michigan 48824

Description of Request: This bill provides $346,000 for Phytophthora Capsici research. This grant is a valuable use of taxpayer money because the research will be used to study the fungal-like pathogen that lives in the soil and causes plants to rot. Vegetables such as cucumbers, pumpkins, squash, watermelon, cantaloupe, tomatoes, zucchini, peppers, eggplants and lima and snap beans are particularly susceptible to rot caused by Phytophthora. This funding will go towards salaries of researchers, laboratory and field equipment, travel expenses, and publication or results. This program receives other federal/state/local/industry funding.

Requesting Member: Congressman VERNON J. EHLERS

Bill Number: H.R. 2997

Agency: Natural Resources Conservation Service

Account: Conservation Operations

Legal Name of Requesting Entity: Great Lakes Commission

Address of Requesting Entity: 2805 S. Industrial Hwy, Suite 100, Ann Arbor, MI 48104–6791

Description of Request: This bill provides $404,000 for the Great Lakes Basin Program for Soil Erosion and Sediment Control, which was authorized in the 2002 Farm Bill. This funding is a valuable use of taxpayer money because it will protect and improve Great Lakes water quality by controlling erosion and sedimentation; limiting the input of associated nutrients and toxic contaminants; and minimizing off-site sources of damage to harbors, streams, fish and wildlife habitat, recreational facilities and the Basin's system of public works.

EARMARK DECLARATION

HON. TIM MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. TIM MURPHY of Pennsylvania. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2997, Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010:

Requesting Member: Congressman TIM MURPHY

Bill Number: H.R. 2997, Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010

Account: National Institute of Food and Agriculture Cooperative State Research, Education, and Extension Service (CSREES)

Legal Name of Requesting Entity: University of Pittsburgh Graduate School of Business Institute for Entrepreneurial Excellence

Address of Requesting Entity: Posvar Hall, Room 1800, Pittsburgh, PA 15260

Amount: $500,000

Description of Request: The funding will be used to address the needs of the agricultural sector in the region to improve business practices, marketing strategies, and profit management. The University of Pittsburgh's Graduate School of Business Institute for Entrepreneurial Excellence will develop a model agricultural entrepreneurship program for sustainable agricultural production in emerging areas such as hydroponics and soilless controlled environment agriculture.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I took extreme care to ensure that these projects are well vetted and strongly supported within the community. The University of Pittsburgh Graduate School of Business Institute for Entrepreneurial Excellence appropriation is of particular interest to my district and importance to my constituents.

IN CELEBRATION OF PASTOR JOHN RICE FOR 39 YEARS OF SERVICE AS PASTOR

HON. DEBORAH L. HALVORSON

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mrs. HALVORSON. Madam Speaker, today I rise to celebrate the service of Pastor John Rice of Chicago Heights, Illinois. Pastor Rice has served his boyhood church, St. Bethel, for 39 years. Since he began his tenure, St. Bethel has flourished, with its membership growing to over 300 families. The church has been able to undertake many new projects under Pastor Rice's leadership, including the construction of the Bethel Community Center. The construction of the community center and the growth of the church would not have been possible without the tireless efforts and faith of Pastor Rice.

I have had the good fortune of working with Pastor Rice and have seen his work first hand. He has touched many lives, including the underprivileged, for whom he is a tireless champion. St. Bethel Church and the community of Chicago Heights are long indebted to Pastor Rice for his great service.

On June 28, 2009, Pastor Rice will be honored at St. Bethel. He will be accepting much deserved praise on that day. It is with great pride that I recognize all of his many accomplishments and wish him a continued success.

PERSONAL EXPLANATION

HON. JOHN SULLIVAN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. SULLIVAN. Madam Speaker, I rise to state for the record that I was on official leave of absence from the U.S. House of Representatives on account of illness and unable to vote on rollcall vote 328 to H.R. 2410, Foreign Relations Authorization Act, Fiscal Years 2010 and 2011 taken on June 10, 2009. Had I been present for the vote, I would have voted nay.

I am strongly opposed to the irresponsible spending increases contained in the bill and favored a Republican substitute which was offered at the committee level which saved nearly $2.84 billion dollars, while tightening sanctions against Iran, adding new measures to increase foreign military funding for Israel, and supporting missile defense for Israel. In a time of national financial uncertainty, I believe it is irresponsible to create unnecessary new programs and pass such large funding increases. In addition, I have significant concerns about the potential for taxpayer funded abortions that could result from the passage of this legislation.
