United States of America

Congressional Record

PROCEEDINGS AND DEBATES OF THE 111th CONGRESS, FIRST SESSION

SENATE—*Thursday, June 18, 2009*

The Senate met at 9:45 a.m. and was called to order by the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Almighty God in whom we live and move and have our being, we need You every hour, in joy and in pain, in prosperity and in adversity, in success and in failure, in the moment of prayer and in the hours of toil.

To the human strivings of our Senators, add Your divine strength. Restrain and correct them when they do wrong and confirm and strengthen them when they do right. Guide them by Your spirit and support them by Your grace. Then in quietness and confidence may they leave the consequences to Your unerring judgment, remembering that Your judgments are ''true and righteous altogether.''

We pray in Your wonderful Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable KIRSTEN E. GILLIBRAND led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The bill clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, June 18, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mrs. GILLIBRAND thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Madam President, following Leader remarks, the Senate will be in a period of morning business for up to 1 hour. Senators will be allowed to speak for up to 10 minutes each. The majority will control the first 30 minutes and the minority will control the final 30 minutes.

Following morning business, the Senate will proceed to consideration of the concurrent resolution relating to an apology for slavery. There will be up to an hour for debate, equally divided and controlled between the two leaders or their designees prior to a vote. We do expect that vote to be a voice vote.

Upon disposition of the concurrent resolution, the Senate will resume consideration of the conference report to accompany H.R. 2346, the emergency supplemental appropriations bill. We hope to reach an agreement that will allow us to vote on motions to waive points of order and a time for a vote on adoption of the conference report. But if we are unable to reach an agreement, there will be a cloture vote on the conference report tomorrow morning.

We will resume consideration of the travel bill upon disposition of the supplemental conference report.

Madam President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MCCONNELL. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Republican leader is recognized.

HEALTH CARE REFORM

Mr. MCCONNELL. Madam President, Americans certainly want health care reform. There is no dispute about that. People are frustrated with the high cost of care, and many are worried about losing the health care coverage they already have. Some can't afford care or have to choose between basic necessities and the treatments they need. These are some of the things that are wrong with the current system, and they need to be fixed.

But while all of us recognize that serious reform is needed, we should also recognize the necessity of getting it right. Before we rush to pass just anything in the name of reform, such as the bill introduced in the HELP Committee this week, Americans have a right to ask some very basic questions: How much will it cost? How will we pay for it? What will this mean for me and for my family?

As to the first question, Americans have good reason to be concerned about what the bill would cost. The Congressional Budget Office estimates that just a portion—just a portion—of the HELP Committee bill would spend $1.3 trillion over 10 years. That doesn't even include major portions of the final proposal, including a massive expansion of Medicaid, which will cost untold billions of dollars. These are staggering amounts of money for taxpayers to contemplate, which is why it is troubling to a lot of people when we see committee members in such a rush to pass this legislation before the Congressional Budget Office even has a chance to fully estimate its cost. On something as important to the American people as health care reform, cost and effectiveness should be a higher priority than speed.

But even if we decided this bill was the right reform, another question

● This "bullet" symbol identifies statements or insertions which are not spoken by a member of the Senate on the floor.

arises: How would we pay for it? Most people don't walk onto a car lot, pick out the most expensive model, buy it, and then figure out how they are going to pay for it. Even if they wanted to, the car salesman wouldn't let them. We need to take the same approach here.

The proposal we have seen is full of creative new ways to spend taxpayer dollars, but it offers little in the way of offsetting the cost of the overall bill. We will have to either charge the money to the national credit card or, more likely, raise taxes on working families—in other words, more spending, higher taxes, and even more debt. So far, some of the taxes under discussion include a tax on soft drinks and juice boxes, the creation of a new tax on jobs, and new limits on charitable donations. But this would just be the beginning. The HELP Committee bill would be hugely expensive by any reckoning, and no one has a plan to pay for it. This isn't a very good start as far as health reform is concerned.

Americans are also right to wonder how these changes would affect the family budget. Will the HELP Committee's so-called reforms raise the health insurance costs for millions of families and businesses at a time when they are already struggling? This isn't a scare tactic or a theoretical question. Not only does the CBO estimate suggest the final bill is far too expensive, but we also have the example of States that have tried some of the proposals it suggests. Shouldn't we look at the experience of these States to determine whether we want to replicate these proposals nationwide?

Take Kentucky, for example. Many of the same concepts embraced by the HELP Committee bill were tried 15 years ago in my State—with disastrous results. Instead of reforms that were promised, Kentuckians were left with higher expenses and fewer choices for health coverage. Instead of more affordable care, one report estimates that 850,000 Kentuckians faced dramatically higher premiums. Instead of increased competition, about 50 insurance companies stopped offering individual insurance, leaving only a handful of private insurers and a government-run plan that wasn't affordable for taxpayers. After years of failure, many of these so-called reforms were repealed but not without significant damage to the Commonwealth. While the market has rebounded some, Kentucky's small businesses and families tell me that a lack of competition in the health care market continues to keep prices high. Shouldn't this experience figure into our consideration?

When it comes to our approach on legislation as costly as health care, we should learn from our experience with the stimulus. Democrats rushed that bill on the grounds that we needed it to jump-start the ailing economy. Yet a few months later we are already hearing outrageous stories of abuse and the unemployment rate actually continues to rise.

When it comes to specific proposals within any so-called health care reform bill, we should learn from the experience of Kentucky. We should not be rushed into enacting so-called reforms that cost taxpayers trillions and could increase premiums to consumers.

Americans indeed want reform, but they want us to do it right. They do not want a blind rush to spend trillions of dollars they and their grandchildren will have to pay for through higher taxes and even more debt.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The majority leader.

HEALTH CARE REFORM

Mr. REID. Madam President, if you will indulge me, it appears appropriate and necessary to briefly summarize the sorry state of health care in America today.

Nearly 50 million people in the greatest country and the largest economy the world has ever seen lack the fundamental ability to stay healthy or care for a loved one. Nine million of those people are children. Eight million fewer people who in 2003 had health insurance through their jobs can say the same today. Among those between 18 and 64, the State of Nevada has the second highest rate of uninsured citizens. Health care costs an average family more than twice what it did at the start of this decade. Half of all Americans who file for foreclosure do so because they can't afford both a house and their health care. More than half of all Americans who file for bankruptcy do so because health care is too expensive. More than half of all Americans skip doctor visits or treatments they need to stay healthy because it is too expensive.

Those fortunate enough to have health care pay a hidden tax just to cover those who don't. If your family has insurance, you pay at least $1,000 more for it than you would need to if other families had their insurance. If you are like about everybody I know and not in absolutely perfect health—if you have a history of anything from heart disease, to high cholesterol, to hay fever—your insurance company can force you to pay exorbitant rates or deny you coverage altogether. Insurance companies call these preexisting conditions. Everyone else calls them tragedies.

I know I am not telling the American people anything they do not already know. They know it better than any statistics can say. They struggle with these challenges every morning when they wake up and when they go to bed at night, second-guessing the agonizing decisions they made that day about what to sacrifice to stay healthy.

I said I thought it would be appropriate to go back to the basics for the benefit of our Republican colleagues. Their lack of interest in an open and candid debate, their lack of interest in coming to the negotiating table with productive proposals makes it painfully evident they need to be reminded of the reality of this crisis.

By any measure, these are serious problems, and serious problems deserve serious efforts by serious legislators to develop serious solutions. Our Republican colleagues think things are just fine the way they are. Why shouldn't they? They like the status quo. They are the ones who created the status quo. In fact, this is hard to comprehend. Just yesterday, the Republican leader in the House of Representatives said the following: ''I think we all understand that we've got the best health care system in the world.'' When we have 50 million people with no health insurance, is that the best health care system in the world? When we have 9 million children with no health insurance, is that the best health care system in the world? Is it the best health care system in the world when today there are 8 million people fewer than in 2003 who have health insurance through their jobs? Is it the best health care system in the world when people between 18 and 64 in the State of Nevada have the second highest rate of uninsured citizens? I don't think so. Is it the best health care system in the world when the health care cost for the average family is more than twice what it was at the beginning of this decade? Is it the best health care in the world when more than half of all Americans skip the doctor visits they need or the treatments they need because they cannot afford them?

The Republican leader in the House of Representatives is saying, ''I think we all understand that we've got the best health care system in the world.'' I think he better go back and check that out. He said that to a room of reporters. I doubt he would say the same with a straight face to the millions of Americans who have to skip routine medical checkups or live just one accident or illness away from bankruptcy or wonder if they will live long enough to fight through the redtape. We have heard President Obama talk about the death of his mother and how she fought as strongly as she could to get the health care she needed. She lost that battle.

What about the Republicans in the Senate? We talked about the Republican leader in the House. How have they approached the crisis? I am sorry to say they have only subscribed to more of the same stalling strategy that the American people are tired of. Republicans have introduced 400 amendments to the health care bill that is in the HELP Committee, 400 amendments,

and they say they have more to come. Here is a sample of some of their serious amendments: two amendments would force doctors to spy on each other, multiple amendments just to change the names of sections in the bill, and many amendments that simply would give greedy insurance companies the ability to deny coverage whenever they feel like it. Each of the 400 amendments says something different, but in truth they all say the same thing—no. They are designed to slow the process to a halt.

I am not making this up. Look at this newspaper today, Rollcall: ''Senate GOP Still Saying 'No.' '' Listen to what the story says. This is more than just a headline.

Though Senate Democrats have handed them defeat after legislative defeat this year, Republicans say they plan to continue trying to slow down the Democratic agenda on the Senate floor as much as possible. ''Democrats need to know when they bring [bills] up, we're going to extend the debate as long as we can—even if we can't win it—so that their people back home know that they're voting for this junk, [said one Republican Senator]. And we're going to see it on everything.''

The stalling on everything. How is that for moving this country out of the problems we have? ''They plan to continue trying to slow down the Democratic agenda on the Senate floor as much as possible.''

Republicans waste the time of the American people in the morning and in the afternoon complain that government is inefficient. What do I mean? We have wasted the whole week with 60 hours of wasted time on two postcloture time blocks. It is just as they said, they are just stalling for time. During that period of time, we could have moved to appropriations bills, we could have moved to many things.

I have Senators come to me. There is a bipartisan bill—Senator KERRY has worked with Senator KYL—dealing with Pakistan. It is essential that we do that. But because of what is going on here on the Senate floor with Republicans stalling, we can't get to that. I have been asked by Democrats and Republicans to do something about drug importation. We don't have time to go to it because of the stalling. The Senate GOP is still just saying no. They complain about the government being inefficient? The only inefficiency I see in Washington today is the Republican caucus in the House and the Senate.

Again, our health care system is in serious distress, and serious problems deserve serious efforts by serious legislators to develop serious solutions. That is why we are committed to lowering the high cost of health care, ensuring every American has access to quality, affordable care, and letting people choose their own doctors, hospitals, and health plans. We are committed to protecting existing coverage when it is good, improving it when it is not, and guaranteeing health care for the millions who have none. I don't think doing nothing is an option because the cost of doing nothing is far too great. We must pass health care reform this year.

As we said at the start of this Congress, the start of the work period, and the start of this debate, we will continue doing the best work with Republicans—we will work with them. They have a place at the negotiating table, and they should take it. We will work hard to do a bipartisan bill. But in order for this bipartisan process to work, Republicans must demonstrate an interest in legislating, not this:

Though Senate Democrats have handed them defeat after legislative defeat this year, Republicans say they plan to continue trying to slow down the Democratic agenda on the Senate floor as much as possible. ''Democrats need to know when they bring [bills] up, we're going to extend the debate as long as we can—even if we can't win it . . .''

I hope the American people who are watching talk to their Republican Representatives in the House and their Senators and say this isn't right.

Despite what we have seen in recent days, such cooperation is not out of the realm of possibility. Here is an example of what it looks like when Republicans and Democrats work together with each other instead of against each other and against the interests of the American people. Yesterday, Wednesday, a group called the Bipartisan Policy Center proposed a thoughtful and thorough plan for stemming this country's health care crisis. The group is led by three former Senate majority leaders—I have worked with all of them—Bob Dole from Kansas, Howard Baker from Tennessee, and Tom Daschle from South Dakota. I would mention about Tom Daschle, I think most people recognize he is a man who knows more about health care than just about anybody in America today. He has written a book, among other things. Together, Tom Daschle, a Democrat, and Senators Dole and Baker, Republicans, served a combined 80 years in the Congress. They know a thing or two about working across the aisle and getting things done. They know our job is public service, not lipservice. I may not agree with every part of their plan, but that is not the point. The point is, they have a goodfaith effort. They have avoided the temptation to distract each other with misrepresentations and misinformation about the real problem. They have put people ahead of partisanship and were able to find common ground.

I encourage Republicans in Congress to read the Bipartisan Policy Center's report. Even if they do not support its conclusions, I hope they take to heart its authors' motivations. Baker, Dole, and Daschle—serious problems deserve serious efforts by serious legislators to develop serious solutions. The time for partisan games is long over. It is time to get serious about fixing our health care.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for morning business for 1 hour, with Senators permitted to speak for up to 10 minutes each, with the time divided and controlled between the two leaders or their designees, with the majority controlling the first half and the Republicans controlling the final half.

The Senator from New Jersey is recognized.

THE RECOVERY ACT

Mr. MENENDEZ. Madam President, this February, Congress passed and the President signed a historic recovery package, setting the stage for the creation of 3½ million jobs and making critical investments to strengthen the 21st-century economy. We all agree that legislation has not ended the most serious economic crisis since the Great Depression. Americans know what this administration inherited and the time it will take to get out of it. Hundreds of thousands of Americans continue to lose their jobs every month, quality health care is still far from affordable for far too many, and we still have a dangerous dependence on foreign oil that threatens our safety, our wallets, and our planet at the same time.

But the optimism we feel is real. Quick action on our part has contributed to bringing the economy back from the brink of absolute collapse. There are green shoots in this economy, and the Recovery Act has fertilized them. It has cut taxes for working Americans; it has made education more affordable; it has jump-started urgent investments that will make our commutes faster and our air cleaner, investments such as repairing crumbling bridges and highways and building high-speed transit and light rail, investments that will pay off over the course of generations. The hundreds of thousands of Americans who are going to work this morning because of the Recovery Act can tell us in no uncertain terms that the legislation is working. It is creating jobs, making responsible investments, helping workers damaged by this crisis.

But in the face of these tremendous efforts, some are questioning the effectiveness of these investments. They

have decided to attack the entire recovery process by jumping to conclusions, distorting the facts, and spreading outright falsehoods—all because of their failed George Bush-style ideology that created this crisis in the first place.

There have been some who have commissioned their own report, a report which picked a conclusion first and then attempted to seek out facts later. The old saying goes, if the only tool you have is a hammer, everything starts to look like a nail. That is the case here. The radical conservative ideology that led to this report is like a steam hammer that its operators would like to use at all times, even if it means bashing away at the foundation of economic growth we are trying to build.

I notice this report did not mention any projects from my home State of New Jersey, and I guess, because the conclusion they wanted to draw was failure, that would make sense not to include projects in New Jersey because, in fact, if you look at the issue of how New Jersey is handling this among many other States in the Nation, you would have to take issue with the thousands of New Jerseyans who will owe their jobs to this act.

The report would have to take issue with an immediate tax cut for the average working family of up to $800, money that helped New Jerseyans pay their bills and support their families, or the over 1.5 million New Jerseyans who avoided the alternative minimum tax as a result of that law as well—more money in their pockets, less money going to the government.

You would have to take issue with the college students and parents of college students in New Jersey who are finding their term bills just a little easier to pay because of the increased Pell grants in the Recovery Act. In addition to higher education, it would have to take issue with all the ways public elementary and secondary schools are being improved with $957 million in funding that they would not otherwise have for critical needs ranging from up-to-date textbooks to better technology in the classroom.

It would have to take on all the teachers, police, and firefighters who have been able to keep their jobs and the individuals with disabilities who are now getting the support they need at school—made possible by the Recovery Act.

The Recovery Act was intended to create jobs fast, pump money into the economy quickly. How well has it done that in New Jersey? I saw firsthand how the funding created 250 construction and engineering jobs improving Route 46 in Lodi. It is a project that is going to reduce traffic congestion, cut down on the time it takes to commute, make it easier to do business, and protect the roadway against flooding so parents can feel just a little safer as they drive their kids in heavy rain.

I saw firsthand that the Recovery Act finally let us break ground on the Mass Transit Tunnel under the Hudson River that will ultimately create 6,000 jobs for several years and, at the end of the day, when that project is finished, over 50,000 permanent jobs. I met children who will be the future riders of that train and whose parents and neighbors are employed in its design, planning, and construction as we speak. In terms of infrastructure, you can see these results statewide.

The Recovery Act required our State Department of Transportation to get enough projects ready for bidding so that 50 percent of that funding could be set aside within 120 days to get people to work. New Jersey met that requirement and plans to allocate the funding for all of its projects by the end of this month. The Recovery Act has been a lifeline for New Jersey and, for that matter, for millions of people across the country.

I could not agree more that accountability is crucial. We understand that every dollar in the Recovery Act belongs to the American taxpayer. They deserve assurances that their money is being invested wisely. We have to ensure unprecedented transparency, oversight, and accountability so Americans can see not only how their money is being spent but also the results of their investments.

That is why this act is being personally overseen by the Vice President of the United States. And it is why the Act provides for so much transparency, such as a Web site with all of the information about it readily available to the public. Ironically, the fact that there is so much transparency is the reason an individual Senator can issue a report about it at all, and it is the reason we can figure out so easily that many of the assertions in that report are wrong.

Accountability means making sure our investments are smart and making corrections as need be. What accountability does not mean is attacking the job that hard-working men and women are doing, that the legislation made possible, because your ideology does not square with the facts.

That is not accounting, that is undermining. Frankly, after 8 years of undermining, the American people are ready to build up this country again. And with the Recovery Act, with health care reform, so not only those nearly 50 million Americans who have no health care coverage in the greatest Nation in all of the world, but at the same time millions more who are one paycheck away from losing it, and so many who have health insurance, but have told me that, in fact, after listening to their insurance company and following all of the rules, they still get denied for claims of coverage they need.

That is part of the reform we seek. With additional steps to make us energy independent, we are going to, in essence, rebuild this country. That is the process of saying ''yes'' to America, not ''no'' to America.

Madam President, I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ALEXANDER. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. ALEXANDER. I ask unanimous consent to speak for up to 10 minutes as in morning business on the Republican side.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

WASHINGTON TAKEOVER

Mr. ALEXANDER. Madam President, I just finished reading an excellent address by the Secretary of Education, Arne Duncan. Secretary Duncan made this to the National Governors Association. He said this:

> I am continually struck by the profound wisdom underlying the American political system. The genius of our system is that much of our power that shapes our future was wisely distributed to the States instead of being confined in Washington.

Continuing, he says:

> Our best ideas have always come from State and local governments, which are the real hothouses of innovation in America.

Secretary Duncan says:

> On so many issues: energy efficiency, mass transit, public safety, housing, economic development, [and then he goes on to say] education, it is the States that are often leading the way, sometimes with Federal help and sometimes without.

That is indeed the American way. That is my comment. The American way was recognized by President Lincoln who honored the importance of States. He argued for a limited Federal Government. He used the limited Federal Government to confer opportunities through the Transcontinental Railway, the Land Grant Colleges, the Homestead Act, instead of a ''Washington knows best'' command and control sort of Federal Government.

It has been our tradition to rely on decentralism of government and a free market to build our country, and it has given us the best colleges and universities, and a standard of living that produces 25 percent of all of the money in the world for just 5 percent of the people in the world, the Americans who live here.

Unfortunately, the wisdom that Secretary Duncan expressed seems to lie almost exclusively in the Department

of Education in this administration. It is an oasis of common sense, because at an astonishing rate, almost everything else in Washington seems to think that Washington knows best.

I was visited by a European auto executive the other day who said to me jokingly: Well, I am glad to be in the new American automotive capital: Washington, DC. It is not only America's automotive headquarters, it is becoming America's banking center and it is becoming America's insurance center.

Unfortunately, even in education, Washington, DC is now about to become America's student loan center for 15 million students, because the administration believes Washington knows best. Instead of having 2,000 banks make 15 million loans, we are going to have the U.S. Department of Education make the Secretary the banker of the year.

And now, we are discussing in the HELP Committee and in the Finance Committee a brazen takeover representing 16 percent of our economy which would say: Washington knows best about our health care system. Washington will become America's health care center as well.

The health care bill we are discussing in the HELP Committee, of which I am a member, would expand one failed government program, Medicaid, and create a new one, a new government insurance program, a so-called public option.

Those who support the public option—this includes our President—feel very strongly about it, and they speak eloquently about it. They say things such as one Senator said yesterday at our hearing, we need to ''keep the insurance companies honest.'' That is why we need a government-run insurance program. We need some ''good old-fashioned competition,'' so they said, and, ''we need to keep prices in check.'' They say that is why we need a government-run health insurance program.

Well, if that is the argument, perhaps we ought to start doing that with every sector of the economy, starting with automobiles. Why not buy the rest of General Motors—we already own 60 percent of it—and let's create a government car, and let's keep what is left of the American automobile industry honest by doing that. Let's have some good old-fashioned competition to keep prices in check.

We could own the car company, we could regulate the car company, we could subsidize the car company. And we could create a car that we knew is exactly the right size, the right color, that got 50 miles a gallon, that ran on ethanol, that had a solar panel, and that had a windmill on top. That would be the government car.

To be fair to the American communities across the country, because we would want to be, we could mandate that equal numbers of parts for the government car could be made in every congressional district and no one could buy an electric battery made in South Korea, even if it was the best battery in the world and would make the Chevy Volt an instant success.

We could have a board of directors on our government car company of 120 Members of the Congress or Senate. All of us, great car experts, right? We know how to build cars and trucks, how to design them, how to build them, how to sell them. And there are 120 of us who are the chairman or ranking member of some committee or subcommittee that has the authority to call the head of the car company into Washington, presumably driving his or her congressionally approved hybrid car, to come testify for 3 or 4 hours, and then drive back to Detroit having not a minute that day to design, build, or make a car.

That is what we could do. And we know what the result would be. The result would be a car a lot like the Soviet cars we all used to laugh about years ago. They were clunkers. They were the butt of jokes. They barely worked. No one wanted to buy them. And, of course, they kept lowering the price, so that people would want them. Pretty soon they priced everybody else out of business. There was only one car, the government car, and people either drove the government car or they walked, or they took the Metro, or they found some other way, maybe a bicycle.

That is what we are talking about here when we talk about a government-run health insurance program to keep the health insurance companies honest. It is the same idea as having a government-run car program to keep the American automobile companies honest.

We already have one government-run health care program. We call it Medicaid. It is a terrible example. The Government Accountability Office says we literally waste 10 percent of every dollar of all of the dollars that we give to Medicaid. That is $32 billion a year. It is filled with lawsuits, bureaucracies, inefficiencies. It is a tremendous expense to States. It is ruining higher education because Governors and legislatures are putting every available dollar into Medicaid, and they have nothing left for the community colleges.

The worst of it is it does not provide service. It is like giving you a Metro pass and there is no subway. Approximately 40 percent of the doctors will not serve Medicaid patients—low-income Americans—because of the low reimbursement rates.

So what do we have with our great government program called Medicaid? Twice as many Medicaid patients go to the emergency room to get their care as do uninsured Americans going to the emergency room. That is what we have with that government program.

Yet the Kennedy bill which we are considering in the Senate HELP Committee, the only bill we are considering even though there are other alternatives on the table, would expand that government-run program by 150 percent, increase its costs both to the Federal Government and to States, all in the name of keeping insurance companies honest.

There is a better way to give subsidies or grants to low-income Americans so they may buy their own health insurance.

There is a better way with autos as well. Instead of having a government car for the next 4 or 5 years, with politicians meddling in how GM and Chrysler operate their business, let's give the stock we own back to the American people. Give the 60 percent of General Motors stock and the 8 percent of Chrysler stock to the 120 million Americans who paid taxes on April 15 of this year. The reason would be they paid for it, they should own it. Some might say: Well, let's sell the stock. I would favor selling the stock. I would like to get the stock out of Washington and end this incestuous relationship of Congressmen calling up the President of General Motors and saying: Do not close the warehouse in my district. But it might take several years, according to the President of GM, to sell that block of stock. So the faster way to do it is a stock distribution, a corporate spinoff.

Proctor & Gamble did this with Clorox in 1969. Time Warner did it with Time Warner Cable in March of 2009. All of the stockholders of Time Warner simply received shares in Time Warner Cable. PepsiCo did it with its restaurant businesses—KFC, Pizza Hut, and Taco Bell. If you owned shares of PepsiCo, suddenly you had some of Colonel Sander's stock. PepsiCo shareholders received one share in the new restaurant company.

Madam President, would you let me know when I have 1 minute remaining, please?

The ACTING PRESIDENT pro tempore. The Senator has 30 seconds remaining.

Mr. ALEXANDER. I ask unanimous consent for an additional minute.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. ALEXANDER. These companies did all of this when the main company decided that the subsidiary was not consistent with the core business. That is what we should do with General Motors—give taxpayers its shares and get General Motors back in the marketplace where it belongs. This idea is fast, it is simple, and it creates a market for the shares.

The United States is not like the Soviet Union where people are not used to

handling shares. Half of American families own shares of stock. Distributing government owned shares in General Motors to taxpayers would create a fan base for the next Chevy, like the fan base for the Green Bay Packers, where the people in the community own the football team.

I have been giving ''Car Czar'' awards to political meddlers to put a spotlight on this incestuous relationship in Washington. American manufacturing of autos will not succeed if Washington is America's new automotive headquarters. Neither will American insurance succeed, neither will American banking succeed, neither will students be happy waiting outside the Department of Education for their student loans, and neither will health care help low-income Americans if Washington is the headquarters.

Later today or tomorrow I hope to be able to offer my amendment, cosponsored by Senators BENNETT, KYL, and others, to give all of the General Motors stock and all of the Chrysler stock our federal government owns back to the people who paid for it. They paid for it; they should own it. Let's get the Washington meddlers out of the automobile business and auto manufacturing back on its feet.

I ask unanimous consent to have printed in the RECORD newspaper articles supporting the Auto Stock for Every Taxpayer Act I have introduced and plan to offer as soon as I am able.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From Newsweek]

BARNEY FRANK, CAR GUY AND GREEN GUY. SO HE PRESSURES GM.

(By George F. Will)

General Motors changed its mind. Or maybe not. It is unclear that GM still has a mind of its own, so let us just say that GM changed its decision. The company first announced that it was going to close a parts-distribution center in Norton, Mass. Then it heard from the congressman who represents that community, Barney Frank.

That Democrat chairs the Financial Services Committee, which is mightily important to GM now that it is an appendage of the federal government, which soon will own 60 percent of it. Frank talked to GM's CEO, Fritz Henderson. So the distribution center will not be closed for at least another 14 months.

Is this a glimpse of what life is going to be like under the political economy of state capitalism? Heaven forfend, says Frank. To The Hill newspaper he said, ''I don't think this will lead to a pattern,'' because, well, because the distribution facility was not a dealership or an assembly plant. If that strikes you as a non sequitur, this will, too: Frank stressed that what he did was not improper because he talked to Henderson rather than to someone in the Obama administration. Which is significant because . . . never mind.

Frank's motive for intervening in GM's decision making was not political but altruistic. Really. He wanted to save the planet. If the Norton facility were closed, he says, GM parts for New England would be trucked from Philadelphia, and that would complicate the task of turning down Earth's thermostat.

Nowadays, green reasoning is the first refuge of scoundrels. Global warming has become like God: It is an explanation for everything and an all-purpose excuse for the political class to do whatever it wants to do. What a large portion of it wants to do—what it has a metabolic urge to do—is boss people around. It can maximize its opportunities for doing that if it maximizes the number of people dependent on government, and the number of ways in which they are dependent.

Sometimes bribing is a substitute for bossing, as with the ''cash for clunkers'' idea: Give vouchers worth up to $4,500 to people who trade in their vehicles for more fuel-efficient ones. One rationale for this is, of course, green: It would put a cool compress on Mother Earth's supposedly fevered brow. But the plan also is yet another bailout for the bottomless money pit called Detroit. The plan would entice customers into showrooms.

But in a cri de coeur published last week in The Wall Street Journal, two of the senators who dreamed this up lamented that something has gone horribly wrong. Dianne Feinstein, the California Democrat, and Susan Collins, the Maine Republican, are surprised and scandalized that their proposal for manipulating the market has been hijacked by industry lobbyists, who have a different manipulation agenda.

Feinstein and Collins tied their vouchers to purchases of vehicles meeting high fuel-efficiency standards. But the bill passed by the House, and a companion bill lurking in the Senate, would make vouchers available for vehicles meeting less exacting standards. This would help dealers move their unsold inventories of SUVs, pickups and other large vehicles. Feinstein and Collins denounce this as ''handouts for Hummers'' and say it is evidence of ''how quickly a good idea can go bad in Washington.''

Actually, it is evidence of what a bad idea they had—getting the government into the business of fine-tuning customers' choices. Once such market manipulations are given a seal of progressive approval, it is not a jaw-dropping shock that things will become messy, with factions competing to get the government to do their bidding.

Two other senators have three better ideas pertaining to the government's wallow in the auto industry. A bill written by Tennessee Republican Lamar Alexander and Utah Republican Bob Bennett would prohibit using any more TARP funds for GM or Chrysler. And it would require that as long as the government owns stock in the companies, the Treasury would have a fiduciary duty to see that the government's investment is managed with the single objective of maximizing the return to taxpayers—not to advance any environmental (hi, Barney), trade, energy, labor or other policy. And it would require the Treasury to distribute, within a year, all its GM and Chrysler stock evenly to the approximately 120 million persons who paid 2008 income taxes.

Although two years ago a share of GM's stock was worth $40, last Friday it was worth $1.22, and now GM has a new government—chosen chairman of its board of directors, Edward Whitacre Jr., who says, ''I don't know anything about cars,'' which means he is like those who appointed him. So the stock distribution will not soon be a bonanza to taxpayers. But unwinding the government's entanglement with GM might be.

[From the New York Times, June 12, 2009]

AUTO DEALERS AT RISK TURN TO WASHINGTON

(By Carl Hulse and Bernie Becker)

WASHINGTON.—Auto dealers accustomed to negotiating sales on their car lots clustered in the Capitol instead this week, looking to their trusty, neighborhood lawmakers to do some hard bargaining for them.

With about 2,000 Chrysler and General Motors dealers losing their franchises as the companies retrench, the dealers are pressing Congress to reverse what they see as an unfair process forcing some profitable businesses to close or stop selling new autos, with no explanation from the manufacturers of why they were singled out.

''We have never gotten one,'' said Rick Shaub, the owner of Montrose Dodge in Germantown, Md. He was with fellow dealers outside the office of the House majority leader, Steny H. Hoyer, on Wednesday, the day after his family's three-generation relationship with Chrysler came to an end.

As they lobby Congress, angry dealers are finding an increasingly receptive audience in the House and Senate, where lawmakers say the mass termination of franchises by the bankrupt car companies is threatening tens of thousands of jobs, not to mention the civic fabric of communities where car dealerships are often a chief local institution.

''The dealers in these small towns are kind of the heart of the town,'' said Senator Tom Udall, Democrat of New Mexico, who estimated that 12 G.M. dealers and six Chrysler dealers were affected in his state. ''They sponsor the Little League; the big guy in town is usually the car dealer. I am worried about it.''

But the campaign on behalf of the dealers is also providing a test of one of the central criticisms of the government's intrusion into the operations of many companies, from banks to insurers to auto giants. Even as they talk tough about the mismanagement of car companies, can members of Congress withstand political pressure and allow Chrysler and G.M. to make tough economic decisions that might hurt their own constituents?

For instance, Representative Barney Frank, the Massachusetts Democrat who heads the House Financial Services Committee, came under fire for intervening with G.M. to keep a parts distribution center open in his district, preserving about 90 jobs for another year. Critics said Mr. Frank used his sway as an overseer of federal bailout money to intervene in the company's decision-making.

Mr. Frank said that he made a commonsense argument to keep the center open, and that he was only standing up for his constituents. ''I will bear up under the criticism that I have been doing too much for my district,'' he said.

Other lawmakers said the growing number of calls for intervention showed the dangers of large-scale government involvement in the auto companies, saying the result would be lawmakers trying to serve as top executives of auto companies.

''It is incestuous for members of Congress to be saying, 'Close this plant; use this model; don't buy the Volt battery in South Korea but make it in my district,' '' said Senator Lamar Alexander, Republican of Tennessee, referring to the G.M. hybrid car now in development.

Senator Alexander has instituted a ''car czar of the day'' award in recognition of Congressional meddling. ''What do people in Washington know about building cars?'' he said. ''I don't think very much.''

Even lawmakers backing the dealers expressed mixed emotions about dipping into the workings of the auto companies. But the dealer closings are striking a nerve in Congress. The federal government has been coming to the aid of the auto manufacturers, which lawmakers see as then turning around and abandoning the element of the industry closest to home for most of them.

Representative Frank M. Kratovil, a Maryland Democrat who has introduced a measure that would restore the franchise agreements, portrayed the situation as a ''bailout for the big guys, but a force-out for the little guys.''

In the Senate, lawmakers have not gone as far as the House in pushing a bill to block the move by the manufacturers. But members of the Senate commerce committee this week urged Chrysler to allow dealers a chance to appeal the closures and for both carmakers to give preference to existing, profitable operations when the automakers try to set up new franchises in areas where dealers were shut off. G.M. already has an appeals process for dealers scheduled for closure.

''We think—in the interest of fairness—that profitable dealers in this situation should have a right of first refusal for the new dealership when Chrysler returns to that particular market,'' read a letter signed by Senator John D. Rockefeller IV, the West Virginia Democrat who heads the committee, along with other members. A similar letter was sent to G.M.

The car companies say that they need to scale back to be able to return to profitability and that cutting the number of dealers is crucial to that effort.

At a hearing last week of the commerce committee, Fritz Henderson, the chief executive of G.M., said that much of the growth in his company's dealer network occurred decades ago. Since then, he said, ''our market share has shrunk, leaving us with too many dealerships.''

''Everyone agrees—even the dealers themselves—that a restructuring of G.M.'s dealer network must take place,'' Mr. Henderson said.

Some point to the millions of dollars in campaign contributions that politically active car dealers have given to Congressional candidates over the years in explaining the intense interest in going to bat for the dealers. But lawmakers say that they are only trying to protect local jobs at companies that have persevered in difficult times and that donations have nothing to do with it.

Representative Dan Maffei, a freshman Democrat from New York who helped write the measure to protect the dealers, said that in his case, local car dealers strongly supported the opposition. ''The vast majority are either nonpolitical or support the other party pretty strongly,'' Mr. Maffei said.

Mr. Maffei said he hoped his legislation, which has already attracted about 70 cosponsors, would spur new negotiations between the car companies and the dealers.

The Obama administration has so far shown no inclination to push back against the closures, noting that its efforts on behalf of the manufacturers have kept most dealers in business. And with Chrysler already cutting its ties with dealers, undoing those decisions might be difficult. But lawmakers say they intend to try.

''We are sure that if we do nothing, nothing will happen,'' said Representative Hoyer, the House majority leader and a Maryland Democrat, who is backing the effort to restore the franchise contracts.

But it may be too late to help Mr. Shaub. Workers on Thursday were answering the phone at his business as Montrose Automotive rather than Montrose Dodge. ''I am not sure this is going to do any good,'' he said of the Congressional effort.

[From Politico, June 10, 2009]

MEMBERS TAKE AUTO CLOSINGS PERSONALLY

(By Lisa Lerer)

On Monday, Republican Sen. Lamar Alexander excoriated House Financial Services Committee Chairman Barney Frank for privately urging the CEO of GM to keep a plant open in his Massachusetts district, jokingly calling Frank the ''car czar.''

But on Tuesday, Alexander admitted he's not above taking similar actions to protect a GM plant in his home state of Tennessee.

''I, of course, will urge that the Spring Hill plant be a contender for a GM product in the future,'' Alexander said. ''I'll be doing what every congressman would be doing.''

Alexander's two-sided approach captures the complicated web of interests lawmakers weave as they call for greater transparency from troubled U.S. automakers while lobbying behind the scenes to protect the dealerships, distribution plants and parts manufacturers in their own backyards.

''Members have treated a potential dealership closure just like a potential plant closing,'' said David Regan, National Automobile Dealers Association vice president for, legislative affairs. ''There's been a significant amount of congressional interest.''

Legislation that would effectively halt plans by GM and Chrysler to close dealerships is expected to move through the House Financial Services Committee, chaired by the powerful Frank.

''We in Congress have put ourselves into an incestuous position,'' said Alexander. ''We shouldn't be putting ourselves a position of making calls like that.''

Yet they can't help themselves.

On Tuesday, Sen. John Rockefeller (D–W. Va.) and 19 other members of the Senate Commerce Committee sent letters to the CEOs of GM and Chrysler asking the companies to address several issues related to the dealership closings by Friday. The committee has questions about how rural consumers will get service and about the termination of profitable dealerships, among other issues. Several of the signers are also aiding individual appeals from dealerships in their districts.

Good-governance watchdogs see abuse in the double-edged effort.

''You have Barney Frank at the table making decisions that affect the auto industry across the board and then he's playing favorites,'' said Melanie Sloan, executive director of Citizens for Responsibility and Ethics. ''You don't get to both be at the table and demanding the auto industry make concessions which includes closing dealerships, and then say, 'But not mine.' ''

But Democrats insist the individual lobbying doesn't undermine their efforts to force the auto companies to become more transparent about how they targeted dealerships for closure.

''Mostly it's going to be based on the facts and the money,'' said Minnesota Democrat Amy Klobuchar, who said she's written letters on behalf of dealers who are appealing their decisions.

''It's normal that members are going to urge for decisions to be made that benefit their constituents,'' said Sen. Carl Levin (D–Mich.). ''I don't expect that there will be a lot of changes.''

The White House auto task force wants GM to close 2,600 of its 6,000 dealerships by 2010. Chrysler told nearly 800 dealerships that they have less than a month to close. The closures could affect 100,000 workers, according to the National Automobile Dealers Association.

The companies have faced a backlash from members of Congress who argue that the market, not the automakers, should determine which dealerships stay in business. They question whether manufactures are closing profitable dealership to circumvent expensive contracts or targeting dealerships that had previously clashed with the companies.

On Wednesday, the CEOs of General Motors and Chrysler will testify before the House Energy and Commerce Committee. The Senate Banking Committee plans to question administration officials overseeing the auto rescue efforts.

''The White House needs to be fully apprised of this and [needs] to review this process,'' said Sen. Olympia Snowe (R–Maine). ''There's just no rhyme or reason to this process.''

And Snowe added that she hopes ''to have some personal calls'' with the White House about the dealership closures.

House Majority Leader Steny Hoyer said on Tuesday that he supports legislation that would force General Motors and Chrysler to honor existing contracts with dealers.

''The dealers are being affected in a way that will adversely affect many, many communities around this country without an economic benefit to the manufacturers,'' said Hoyer.

His comments followed on a Monday letter more than 120 lawmakers sent to President Barack Obama, urging the White House to delay further action until there is more review of how GM and Chrysler selected the dealerships.

''It is our view that the market should make these decisions rather than leaving it up to the manufacturers whose poor leadership contributed to their demise,'' the lawmakers wrote.

''While we understand the desire to reduce the number of unprofitable dealerships, no one has yet sufficiently explained the need to close profitable dealerships.''

Auto companies argue that the closures are necessary for their survival. The manufacturers are making fewer cars and can't support the same number of dealers.

''Ideally, automakers would love to have the sales to support the current dealer network; however, with roughly 7 million fewer units being sold this year compared to just two years ago, there are economic realties that manufacturers and dealers need to face,'' said Charles Territo, spokesman for the Alliance of Automobile Manufacturers.

BREAKING DOWN GOVERNMENT MOTORS

(By Brian Darling)

During a recent speech denouncing capitalism, Venezuelan strong man Hugo Chavez said, ''Obama has just nationalized nothing more and nothing less than General Motors. Comrade Obama! Fidel, careful or we are going to end up to his right.'' The conversion of General Motors to Government Motors should be of grave concern to all Americans. It appears that President Bush's bailout of Wall Street merely set the table for an all-out assault by the Obama administration on capitalism.

Thankfully, freedom still has a voice in Congress. Sen. Mike Johanns (R–Neb.) introduced legislation that would require Congressional approval before the government

takes ownership of a private enterprise. This bill would allow Congress to stop the current shift away from free-market principles.

Johanns is not the only free-marketer. Sen. Lamar Alexander (R–Tenn.) has introduced legislation to require the federal government to distribute its ownership shares in General Motors and Chrysler to taxpayers when those companies emerge from bankruptcy proceedings. Alexander argues, ''instead of the Treasury owning 6o percent of shares in the new GM and 8 percent of Chrysler, you would own them, if you were one of about 120 million individuals who paid taxes on April 15. This is the fastest way to get the stock out of the hands of Washington and back into the hands of the American people in the marketplace where it belongs.''

Sen. John Thune (R–S.D.) also joined the fray last weekend, introducing legislation that would restore private ownership to companies that have been effectively nationalized. The Thune proposal would make July 1, 2010 a new day of independence. By that date, the government would have to sell any ownership stake acquired over the past year-and-a-half. There's no better way to fight the ever-expanding power of the federal government's ownership in private enterprises than to legislate it out of existence.

Speaking of debt, Federal Reserve Chairman Ben Bernanke told the House Budget Committee earlier this month ''we cannot allow ourselves to be in a situation where the debt continues to rise.'' Sen. Jim Bunning (R–Ky.) responded, ''Bernanke helped open up the floodgates of government spending for the last year. Did he finally have an epiphany this morning before the House Budget Committee or is he just trying to cover-up his mistakes? America is looking at mounting debt because of Chairman Bernanke's support of policies that will put the American taxpayer an estimated $2.8 trillion more in the red.'' The recent explosion of government spending and expansion of the money supply by the Fed are poor decisions by the Obama administration that will further lead America down the pothole-filled road to socialism.

THE SUPREME COURT OF HEALTH CARE

The recently released health reform legislation drafted by Sen. Ted Kennedy (D–Mass.) contains numerous provisions that propose fundamental changes to our health care system. Many are deeply troubling. One is the call for a Medical Advisory Council that would be comprised of Washington bureaucrats with the power to make significant decisions on health policy for all Americans. This Council would become the Supreme Court of health care, and these unelected bureaucrats would make final decisions about your treatment options.

The Kennedy bill includes an individual mandate requiring all Americans to purchase a health insurance plan approved by the federal government. The Medical Advisory Council would decide what constitutes a ''qualified health insurance plan.'' It would also determine the ''essential health care benefits'' that would be included in the much-discussed and debated public-run government plan that would compete against private health insurance plans if it's created.

To recap: a faceless group of Washington bureaucrats could be making life-and-death decisions about private health care for individuals.

Rather than propose reforms that truly offer Americans better and more affordable health care, Senate Democrats and the Obama administration seem eager to expand the role of government in the lives of individual Americans and their families. By pushing legislation that contains things like the Medical Advisory Board these politicians are endangering our freedoms and seek to come between individuals and their health care choices.

''SAVE'' THE CLIMATE—HURT FARMERS

The national energy tax snaking its way through the House of Representatives has a new potential victim—farmers. The cap-and-trade scheme would increase energy prices, building costs and a slow the economy. My colleagues at The Heritage Foundation calculate that farm income, which is the pre-tax amount that farmers live on after all their expenses, would drop 28% in the bill's first year. In 2035, the last year analyzed, farm income drops a whopping 98%. These numbers should raise a red flag for Midwesteners, and cause concern among all Americans who eat.

___

[From the Athens Banner-Herald, June 9, 2009]

EDITORIAL: GIMMICKY AUTO BILL FRAMES SERIOUS ISSUE

The name betrays it for the political stunt that, in part, it is. But that's not to say having Georgia Republican U.S. Sen. Johnny Isakson sign on to something called the Auto Stock for Every Taxpayer Act is anywhere near as embarrassing as having another Georgia Republican in Washington, our own Congressman Paul Broun, dubbing energy legislation sponsored by Democratic legislators dward Markey and Henry Waxman the ''Wacky-Marxist bill.''

The stunt in the proposed Auto Stock for Every Taxpayer Act, sponsored by Tennessee Republican Sen. Lamar Alexander and appended to a piece of tobacco regulation legislation, is its call for the U.S. Treasury to distribute an equal share of stock in General Motors and Chrysler to the 120 million Americans who filed tax returns on April 15.

The distribution would be undertaken a year after the companies emerge from bankruptcy, on the argument that American taxpayers who are funding the federal bailouts of the two companies hold, through the U.S. Treasury, 60 percent and 8 percent ownership stakes, respectively, in the enterprises.

Of course, the flaw in this proposal is that it's far from clear what General Motors and Chrysler will look like, and what their stock will be worth, even a year after they emerge from bankruptcy. For a reality check, take a look at GM stock. Delisted from the New York Stock Exchange as its stock hit 75 cents per share, GM was trading Tuesday afternoon around $1.50 per share on the over-the-counter market.

And, of course, the fact that the federal government now has a hand in running the auto companies isn't necessarily cause for optimism. As Alexander noted in a news release on his proposal last week, ''there are at least 60 congressional committees and subcommittees authorized to hold hearings on auto companies and most of them will, probably many times. You can just imagine the questions. About what the next model should look like. About which plant should be closed. . . . What the work rules and salaries should be?''

So maybe the Auto Stock for Every Taxpayer Act isn't the key to boosting millions of American families' college or retirement funds. But that—except for the fact that it allows a catchy title to be assigned to the legislation—isn't necessarily the point here.

The real meat of the proposal is its call to prohibit the U.S. Treasury from using any more federal Troubled Asset Relief Program fund—read American taxpayer dollars—to bail out GM or Chrysler. As Isakson correctly notes in his own news release announcing his support for Sen. Alexander's bill, ''I believe it was obvious back in December 2008 that a structured bankruptcy was the correct path for GM and Chrysler to restructure their debt and contracts. By giving these companies taxpayer funds from TARP, the administration only delayed the inevitable . . . .''

Outside its somewhat gimmicky approach, the Auto Stock for Every Taxpayer Act does serve to highlight the serious philosophical issues surrounding the question of whether the free market should be allowed to operate unfettered with regard to major segments of the American automobile industry.

It's a question that deserves some serious consideration in Congress.

The ACTING PRESIDENT pro tempore. The Senator from Florida.

TRAVEL PROMOTION ACT

Mr. NELSON of Florida. Madam President, the distinguished Senator from Tennessee is a great gentleman. He is a pleasure to work with.

The legislation that is on the Senate floor is the Travel Promotion Act. This is an important piece of legislation that will help our economy because it promotes travel to the United States, and it promotes travel to areas not traditionally visited which will highlight the United States as a premier travel destination. The bill initiates a nationally coordinated travel promotion campaign established in a public-private partnership to increase international travel to the United States. It also creates a corporation for travel promotion, an independent, nonprofit corporation, to run the travel promotion campaign. The program will be funded equally by a small fee paid by foreign travelers coming into the United States and by matching contributions from the travel industry.

It is interesting that the Department of Commerce announced that 3.8 million international visitors traveled to this country in March 2009, which was a decrease of 20 percent compared to March of 2008. Total visitation in the first quarter of 2009 was down 14 percent from the first quarter of 2008. International visitors spent almost $10 billion during the month of March, 16 percent less than they had a year ago. This March of 2009 marks the fifth consecutive month of decreases in international visitor spending. So the bill is going to go a long way to help reverse the declining trend.

I remember back in the 1980s, when I, as a Member of the House of Representatives, chaired the U.S. Congressional Travel and Tourism Caucus. We had this little agency in the Department of Commerce that leveraged so much of the taxpayers' dollars by advertising overseas to get visitors to come here which brought spending to our shores. That is what we are trying to recreate

here in the meantime and have been shut down. We are certainly cutting off our noses to spite our faces. This legislation clearly is something that is important to the country.

It is important to Florida because, of course, my State is one of the first destinations of foreign travelers coming to the United States. Despite obvious attractions such as Disney World, Florida beaches are ranked 1, 2, and 3, and No. 9 in a recent ranking of all beaches as the best beaches in the United States. Clearly, this is good for Florida. It is good for the United States. I hope we will get on with it and pass this legislation.

RISING GAS PRICES

Mr. NELSON of Florida. Madam President, while we debate the Tourism Promotion Act, we are remiss to not mention the fact that as we are going into this travel and tourism season of summer, what is happening with gas prices. Gas prices have risen for the last 50 days. It has been the longest record streak of rises, dating back to 1996. The national average of gas has gone from $1.61 a year ago to more than $2.67 a gallon today. Crude oil is now over $70 a barrel. It has doubled in the last 4 months. How soon we forget the lessons we learned a year ago during last summer. In the runup of the oil and gas prices, it wasn't the result of the fundamental concepts of supply and demand. It is largely runup due to excessive and unchecked speculators on unregulated commodities futures markets, running up the price of oil as they speculate buying and selling.

It is a fact that across America, we are using less gas. According to the Energy Information Administration, demand for petroleum products in this country is lower today than it was 10 years ago. According to the EIA, the supply of petroleum products is higher than it was in 1982. So we wonder why. If this isn't being caused by supply and demand, which it isn't, but gas prices keep going up, what is happening?

There is going to be an amendment on this bill offered by Senator SANDERS. I ask unanimous consent to be added as a cosponsor of amendment No. 1330.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. NELSON of Florida. That amendment is identical to legislation passed in the House of Representatives by a whopping vote of 402 to 19. It will put the brakes on excessive speculation in the oil markets. The bill directs the Commodities Futures Trading Commission to use its existing authority, including its emergency powers, to immediately curb the role of excessive speculation in any market it regulates and to eliminate excessive speculation, price distortion, sudden or unreasonable fluctuations, or unwarranted changes in prices.

We wonder how does this occur. It occurs because as people get into the marketplace wanting to protect against the future rise of the price of a barrel of oil, they buy a contract to lock in a certain price for that oil to be delivered in the future. Naturally, a business that would want to do that would be, for example, the airlines. If they think the price of oil is going up, they want to get in and buy a supply of that petroleum at the price now before it goes up. What happens is, when these commodities exchanges were unregulated by the Enron loophole in December of 2000, there is no regulatory authority by these exchanges.

So, for example, they could not require a certain amount to pay down, if you are going to buy that futures contract. And if you don't have to pay anything down, then there is no skin in the game of just continuing to buy and bid up the price. Or, for example, they could require that you had to buy those contracts because you had a reasonable expectation you were going to use that in the future, like an airline company. But, no, what happens is, if you don't have to have that reasonable expectation, the people who want to get in and ride that price up—in other words, the speculators, such as the condo flippers who buy a condo because the rise in price is going to occur and will flip the contract for the purchase of the condominium without ever having to close. It is the same concept of speculation.

We should note this does not apply only to the markets the Commodities Futures Trading Commission does regulate. There are still dark markets beyond the regulators' control. There is respectful debate amongst some in the Senate over the reach of the provision we passed in the farm bill last year that gave the Commodities Futures Trading Commission the oversight over unregulated trading of large oil contracts.

We have to go further. I recently learned that the commission, the CFTC, is now utilizing its new authority for the first time. I believe what we have to do is to give them additional tools to go further than just discretionary oversight and that they should be able to regulate all energy trades.

In addition to the Sanders amendment, ultimately, I wish the Senate would consider a bill I have filed that would simply turn the clock back to December of 2000 when the Enron loophole was passed, before these sweeping changes were made that allowed rampant and excessive speculation in the energy markets.

LEADERSHIP AT THE CPSC

Mr. NELSON of Florida. Madam President, I wish to speak to the nomination of Inez Tenenbaum to be Chair of the Consumer Product Safety Commission. Over the past few years, the Consumer Product Safety Commission has faced a number of serious challenges: inadequate staffing, insufficient funding, a product testing facility that was a joke. As a matter of fact, we saw a picture of it—it was a couple of cardboard tables with all of the imported toys dumped on it—when we were having that trouble with the defective imported Chinese toys. Most significantly, it lacked leadership at the top.

We took action last year, and we gave the CPSC new authority, new funding, and a new lab facility. Today we have to deal with the final issue, and that is leadership. I commend to the Senate that I think Inez Tenenbaum is going to be that leader. She had her nomination hearing earlier this week in the Commerce Committee. Throughout her career in the South Carolina Legislature, Inez Tenenbaum showed compassion and leadership on environmental and children's issues. Then she was South Carolina's superintendent of education. It was an elected position. She took charge and reinvigorated an agency with over 1,000 employees. By the time she stepped down from that post in 2007, she was recognized for her efforts to improve the accountability, standards, and performance in South Carolina's public schools. I think this is exactly the kind of leadership the CPSC needs at this time. I met with her personally, and I know her personally, and I strongly support her nomination.

So my concluding comment is, we are not only having problems in Florida with Chinese drywall—Chinese drywall that is completely ruining the lives of people in their homes because of the smell and the corrosion and the sickness that it is bringing on to people—lo and behold, they are finding that Chinese drywall now in daycare centers, in commercial buildings, and it is even reported in Virginia that they are finding it in a hospital.

This is going to be a big issue in front of the Consumer Product Safety Commission. They have the authority under the law to do something about it. They have lacked the leadership. Now, with Inez Tenenbaum, they ought to be able to start doing the regulatory oversight that the U.S. Government should have been doing in the first place with these defective imported products into our country.

That is why I think we need to go ahead and get Ms. Tenenbaum confirmed as quickly as possible.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Georgia.

ORDER OF PROCEDURE

Mr. ISAKSON. Madam President, how much time remains on our side in morning business?

The ACTING PRESIDENT pro tempore. Eighteen and a half minutes.

Mr. ISAKSON. Madam President, I ask unanimous consent that the time be divided between myself and Senator MCCAIN.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. ISAKSON. Thank you, Madam President.

TRAVEL PROMOTION ACT

Mr. ISAKSON. Madam President, to the Senator from Florida, who left quickly—I am sorry he left—I want to associate myself with the first part of his remarks with regard to the tourism bill. He is a Floridian. Florida is a tourism destination, and it is the No. 1 business in Florida, but you have to go through Georgia to get there. So I have to chime in and say, he is exactly right. Given the economic conditions our country is experiencing right now, tourism is one business we can be a catalyst for that will pay back both in terms of revenues and tax dollars, but, more importantly, in terms of jobs. So I want to associate myself with his support of the tourism bill in that portion of his speech.

HEALTH CARE

Mr. ISAKSON. Madam President, for just a minute, I want to talk about health care. I am a member of the Health, Education, Labor and Pensions Committee. We began yesterday the opening statements on the bill that is pervasive in its coverage around the country as to the future of health care in America.

I rise as one not to be a critic but to lay out the challenge this legislation portends for all of us and maybe to raise some points that thoughtfully will be considered before we make a serious mistake on the funding side, the expense side, and the borrowing side.

A few weeks ago, in Georgia, at a Rotary speech, I referred to ''a trillion-dollars in debt.'' A gentleman stood up in the Q and A section of that time, and he said: Senator ISAKSON, I only got a high school education. Can you explain to me what a trillion is?

I do not know how many of you have thought about that, but if you had to do it right now, could you explain what it is? I could not. So I decided to go home that night and figure out some easy way to demonstrate how much a trillion is. I thought maybe it would be good to determine how many seconds it takes for a trillion seconds to go by. So I did the math on the calculator. I thought I made a mistake and did it again. I had it checked.

It takes 317,097 years, 11 months, and 2 days for a trillion seconds to go by. That is almost incomprehensible, but it does give you some idea of the issues we have to be concerned about in terms of spending and cost and savings.

The CBO has scored the parts of the health bill that have actually been drafted—which is about two-thirds of it—at a potential cost of $1 trillion over 10 years. Obviously, we are going to have to pay for that. There have been some discussions in the last few days of suggested pay-fors. But I want to discuss for a minute how we have to be very careful not to use words such as ''a pay-for'' that in fact only move obligations around.

For example, President Obama, for whom I have great respect, said to the medical association on Monday that one of the pay-fors, by having public coverage for everybody, would mean there would be no indigent patients; therefore, everybody would be getting paid for their services and that would save us $11 billion a year in DSH payments, which is the disproportionate share of treatments which charity hospitals in New York and Atlanta get through Medicaid because they take a disproportionate number of indigent patients.

There is only one flaw in that analysis. Yes, we might not appropriate $11 billion a year for disproportionate share anymore, but we are not doing it because we are raising Medicaid coverage to 150 percent of poverty and providing health insurance through a public plan. So the cost remains the same. It just moves from a cost to pay charity hospitals for disproportionate share to a cost of providing the coverage through Medicaid or through the private plan.

The unintended consequence of removing disproportionate share would be taking the economic model through which charity hospitals are financed and turning it upside down. Because in my city of Atlanta, for example, where Grady Hospital exists—and Grady has gone through a reformation; we have created a foundation, and we have done everything we can to save the hospital—it gets a tremendous part of the DSH payment from Medicaid for disproportionate share because it takes a disproportionate number of the indigent patients because private for-profit hospitals will not. But if private for-profit hospitals have indigent patients who now have coverage, and they are closer to the patient than Grady is, the patient will then go to the private hospital, so the DSH payment goes down or evaporates for the public hospital, and so does the funding mechanism upon which their public bonds and their public debt were financed. So we have to be careful about the unintended consequences.

Secondly, on Medicaid, I am a product of the Georgia State legislature, and I know the distinguished Acting President pro tempore today is a product of the New York Assembly. We all dealt with Medicaid. Medicaid is a program where the Federal Government pays about two-thirds of it. The States pay about a third of it. And the States run it.

When we got into this business of expanding Medicaid under this legislation to 150 percent of poverty—which is a 50-percent increase in eligibility—I thought back to my days in the legislature about how much money that was that my State then was going to have to come up with under the one-third match.

In Georgia, in 1968—the first year we had Medicaid—the State's share of Medicaid for the year was $7,791,000. In 2008, the State's share was $2,468,376,258, which would go up by $1 billion if we raised the eligibility to 150 percent.

I know the President has said that for 4 years the Federal Government will take over the entire obligation of that increase to 150 percent. But that is only putting off the inevitable for the States, which will be a percent of their budget they cannot afford.

Medicaid, in Georgia, in 40 years has gone from 1 percent of our budget to 12 percent of our budget. With this proposal, it would go to 18 percent.

We must remember, in the economic stimulus bill, a significant amount of that money was Medicaid money to go to the States to fund what is already an existing shortfall.

So I come to the floor to say this: I am for every goal of the preamble of the health care bill that has been introduced in the HELP Committee. I want to make policies more affordable, coverage more pervasive, access easier, and I want to lower costs. But as Acting Chairman DODD said yesterday in the committee, history will not look favorably on you if you do not do something because it is hard. He is right. But neither will history look favorably upon you if you do something easy when it is hard. This is hard work, and we cannot take the easy way out to pile debt on the people of the United States of America.

Hopefully we will thoughtfully consider these ramifications I have discussed and others and move forward with a health proposal we can pay for and that accomplishes its goals rather than an easy answer that puts us in a desperate situation as a country and ultimately takes us to an economic demise in this country.

Madam President, I appreciate the time and I yield to my colleague from the great State of Arizona.

The ACTING PRESIDENT pro tempore. The Senator from Arizona.

Mr. MCCAIN. Madam President, I appreciate very much the wise words of the Senator from Georgia, who has been heavily involved in health care issues dating back to his time in the Georgia legislature and brings a unique perspective to the issue, that of a person who has had to, as an elected representative, wrestle with these issues

from not only the Federal level but also the State. So I appreciate his words.

As the Senator from Georgia pointed out, this is probably the single most important domestic issue that will be taken up by the Congress of the United States, at least this year, and maybe in the next couple years, and maybe in a long time when you look at the fact that we are addressing an issue that basically consumes one-fifth of our gross national product, not to mention the fact that the system is broken, that the inflationary pressures are unsustainable, and there are millions of Americans who do not have access to quality, affordable health care.

So where are we now in the Senate? I think it is time for a little status report.

The Finance Committee—remember, there are two committees that are on parallel tracks taking up this health care legislation, the Finance Committee and the Health, Education, Labor and Pensions Committee—the Finance Committee yesterday announced they will delay their consideration until after the Fourth of July recess.

The day before, the Congressional Budget Office came out with a report that was nothing less than stunning. It indicated that the proposal the Senate Health, Education, Labor and Pensions Committee is considering would have a cost of $1 trillion and only insure approximately one-third of the 47 million who are uninsured, which would lead one to the conclusion—doing the most elementary math—that if we were able to insure all of the uninsured in America, that would be a cost of $3 trillion. And we still have no proposal as to how we would pay for this dramatic expansion of the role of government in America's health care system.

Never before in the years I have been here have I seen a ''markup,'' which means we begin the amending process of a bill through the legislature, as we teach our children in school, and yet three major policy pages are still completely blank—completely blank.

We are told we will see these new policies at some point tomorrow. That is after we were told we would see them today. And then the majority, the Democrats, who are coming up with this language themselves—without any consultation with this side of the aisle—will give us a chance to review it. Those three areas are the most difficult aspects of reforming health care in America.

Those policies, as we all know, concern the way we pay for the new language on employer mandates, the government plan, and the biologic drug regulation.

There is a government option that will be part of this legislation, i.e., a government takeover eventually, in my view, of the health care system in America, something a majority of Americans have voiced their deep concern about—employer mandates, and biologic drug regulation.

So here we are supposedly moving forward, and the administration spokesperson in the last couple of days said the bill that is being considered by the HELP Committee is not, ''the administration's bill.'' What is the administration's bill? Where is the administration's bill? We have no idea what the provisions I just mentioned will cost or whether they will create jobs and whether the American people will be called upon to pay an increase in taxes and, if so, who will pay them. I do not know how you move forward with legislation that, frankly, you do not know how you are going to pay for.

How can the President and the majority expect the American people to take them seriously when they talk of wanting a bipartisan product that addresses their needs when, at the same time, majority members and their staff have written the entire bill without any input from this side of the aisle? I assure you, the American people would have much more confidence in this effort if both Republicans and Democrats were working together on health care reform. Instead of changing Washington, it sounds an awful lot like a one-sided effort to jam a bill through before the American people understand what is in it.

This morning, there is some very interesting data. According to a CBS/New York Times survey, the President holds a 57-percent approval rating, which is very good. On health care, his approval rating is 44 percent. That is way down, and it is down because the American people are beginning to figure out that we are going to have a proposal that will end in government control of American's health care, it will squeeze out competition, and it will be incredibly expensive. As I mentioned, the CBO preliminary estimate is $1 trillion, but insures only one-third of the American people, and it leaves 32 million people without health insurance.

So we hear that the Finance Committee, as I mentioned, is in such disarray over the costs and policies in their bill that they have postponed their consideration until after the Fourth of July break. They obviously don't have their policies together enough to move forward. It appears to me, from my service on the Health Committee, that it does not either.

I think the only reasonable thing to do is to go back to the drawing board. Let's go back to the beginning. Let's sit down together and work out a reasonable proposal that we can go to the American people with that says we will provide them with affordable and available health care. Every American knows the costs are out of control, everybody knows it needs to be reformed. But we will do so without a government takeover of America's health care system.

Madam President, I yield the floor.

Mr. HARKIN. Madam President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HARKIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

Mr. HARKIN. Madam President, on behalf of the majority leader, I yield back whatever time remains in morning business for this side.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Is the Republican time also yielded back?

Mr. BROWNBACK. Madam President, on behalf of the Republican leader, I yield back the time on our side.

The ACTING PRESIDENT pro tempore. Morning business is closed.

APOLOGIZING FOR THE ENSLAVEMENT AND RACIAL SEGREGATION OF AFRICAN AMERICANS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to the consideration of S. Con. Res. 26, which the clerk will report.

Mr. HARKIN. Madam President, I ask unanimous consent that the clerk read the entire text of the resolution.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 26), apologizing for the enslavement and racial segregation of African Americans.

Whereas, during the history of the Nation, the United States has grown into a symbol of democracy and freedom around the world;

Whereas the legacy of African Americans is interwoven with the very fabric of the democracy and freedom of the United States;

Whereas millions of Africans and their descendants were enslaved in the United States and the 13 American colonies from 1619 through 1865;

Whereas Africans forced into slavery were brutalized, humiliated, dehumanized, and subjected to the indignity of being stripped of their names and heritage;

Whereas many enslaved families were torn apart after family members were sold separately;

Whereas the system of slavery and the visceral racism against people of African descent upon which it depended became enmeshed in the social fabric of the United States;

Whereas slavery was not officially abolished until the ratification of the 13th

amendment to the Constitution of the United States in 1865, after the end of the Civil War;

Whereas after emancipation from 246 years of slavery, African Americans soon saw the fleeting political, social, and economic gains they made during Reconstruction eviscerated by virulent racism, lynchings, disenfranchisement, Black Codes, and racial segregation laws that imposed a rigid system of officially sanctioned racial segregation in virtually all areas of life;

Whereas the system of de jure racial segregation known as ''Jim Crow'', which arose in certain parts of the United States after the Civil War to create separate and unequal societies for Whites and African Americans, was a direct result of the racism against people of African descent that was engendered by slavery;

Whereas the system of Jim Crow laws officially existed until the 1960's—a century after the official end of slavery in the United States—until Congress took action to end it, but the vestiges of Jim Crow continue to this day;

Whereas African Americans continue to suffer from the consequences of slavery and Jim Crow laws—long after both systems were formally abolished—through enormous damage and loss, both tangible and intangible, including the loss of human dignity and liberty;

Whereas the story of the enslavement and de jure segregation of African Americans and the dehumanizing atrocities committed against them should not be purged from or minimized in the telling of the history of the United States;

Whereas those African Americans who suffered under slavery and Jim Crow laws, and their descendants, exemplify the strength of the human character and provide a model of courage, commitment, and perseverance;

Whereas, on July 8, 2003, during a trip to Goree Island, Senegal, a former slave port, President George W. Bush acknowledged the continuing legacy of slavery in life in the United States and the need to confront that legacy, when he stated that slavery ''was . . . one of the greatest crimes of history . . . The racial bigotry fed by slavery did not end with slavery or with segregation. And many of the issues that still trouble America have roots in the bitter experience of other times. But however long the journey, our destiny is set: liberty and justice for all.'';

Whereas President Bill Clinton also acknowledged the deep-seated problems caused by the continuing legacy of racism against African Americans that began with slavery, when he initiated a national dialogue about race;

Whereas an apology for centuries of brutal dehumanization and injustices cannot erase the past, but confession of the wrongs committed and a formal apology to African Americans will help bind the wounds of the Nation that are rooted in slavery and can speed racial healing and reconciliation and help the people of the United States understand the past and honor the history of all people of the United States;

Whereas the legislatures of the Commonwealth of Virginia and the States of Alabama, Florida, Maryland, and North Carolina have taken the lead in adopting resolutions officially expressing appropriate remorse for slavery, and other State legislatures are considering similar resolutions; and

Whereas it is important for the people of the United States, who legally recognized slavery through the Constitution and the laws of the United States, to make a formal apology for slavery and for its successor, Jim Crow, so they can move forward and seek reconciliation, justice, and harmony for all people of the United States: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That the sense of the Congress is the following:

(1) APOLOGY FOR THE ENSLAVEMENT AND SEGREGATION OF AFRICAN-AMERICANS.—The Congress—

(A) acknowledges the fundamental injustice, cruelty, brutality, and inhumanity of slavery and Jim Crow laws;

(B) apologizes to African Americans on behalf of the people of the United States, for the wrongs committed against them and their ancestors who suffered under slavery and Jim Crow laws; and

(C) expresses its recommitment to the principle that all people are created equal and endowed with inalienable rights to life, liberty, and the pursuit of happiness, and calls on all people of the United States to work toward eliminating racial prejudices, injustices, and discrimination from our society.

(2) DISCLAIMER.—Nothing in this resolution—

(A) authorizes or supports any claim against the United States; or

(B) serves as a settlement of any claim against the United States.

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be 60 minutes of debate with respect to the concurrent resolution, with the time equally divided and controlled between the two leaders or their designees.

The Senator from Iowa is recognized.

Mr. HARKIN. Madam President, the clerk read, for the first time ever in this body, what we should have done a long time ago: an apology for slavery and the Jim Crow laws which, for a century after emancipation, deprived millions of Americans their basic human rights, equal justice under law, and equal opportunities. Today, in the Senate, we unanimously make that apology.

First of all, I wish to thank my friend, Senator SAM BROWNBACK, for all his hard work over the last couple years working together to get this finally to this point. I can't thank him enough. He wouldn't give up, and he stuck in there with us all the time, working to make sure that this day would come. I thank him profusely for his help in this effort.

I also wish to publicly thank Congressman STEVE COHEN, on the House side, who is the leader of this resolution that they will pass soon over there.

John Quincy Adams once remarked that:

> Our country began its existence by the universal emancipation of man from the thralldom of man.

Indeed, America's purpose and enduring ideal can be summed up in one simple, but powerful, sentence:

> We hold these truths to be self evident that all men are created equal, endowed by their Creator with certain inalienable rights, that among these are life, liberty, and the pursuit of happiness.

Yet, as we all know, for too long, many in this country were not free. Many lived in bondage. Many Americans were denied their basic human rights and liberty. From 1619 to 1865, over 4 million Africans and their descendants were enslaved in the United States. Millions were kidnapped from their homeland and suffered unimaginable hardships, including death, during the Middle Passage voyage to America—a crime against humanity. In Elmina Castle, on the coast of Ghana, a place I recently visited, there is a chillingly named ''Door of No Return''—an infamous open portal which, as one looks over the horizon across the Atlantic, makes all too clear the excruciating inhumanity and horror faced by the men and women shackled inside this Castle as they were led through that door and put on the slave ships bound for America; led through that door, enslaved, never to return to their families, their tribe or their native land.

On American soil, these individuals were treated as property. These human beings were denied basic rights, including the right to their own name and heritage; any rights to education; even the right to maintain a family were denied to them. As Chief Justice Taney sadly made all too clear in the infamous Dred Scott case, he said of African Americans—and I quote from his decision—African Americans:

> [Were] not included, and were not intended to be included, under the word ''citizens'' in the Constitution, and [could] therefore claim none of the rights and privileges which that instrument provides for and secures to the citizens of the United States. On the contrary, they were at that time considered as a subordinate and inferior class of beings, who had been subjugated by the dominant race, and, whether emancipated or not, yet remained subject to their authority, and had no rights or privileges but such as those who held the power and the Government might choose to grant them.

That is one of the saddest decisions ever made by the Supreme Court of the United States.

While the Reconstruction amendments—the 13th amendment banning slavery, the 14th amendment granting full citizenship to all Americans, and the 15th amendment guaranteeing the right to vote—espoused the principles of equality for all, widespread oppression continued. Under slavery's harsh replacement, Jim Crow, African Americans were denied voting rights, denied employment opportunities, denied access to public accommodations, denied entry into military service, denied criminal justice protections, denied housing, education, police protection, and due process. In short, they were denied their very humanity. Not until passage of the Civil Rights Act of 1964, the Voting Rights Act of 1965, and other Federal protections, did legal

segregation officially cease in this country.

The destructive effects of both slavery and Jim Crow remain, however. As President Bush noted, ''The racial bigotry fed by slavery did not end with slavery or with segregation.'' President Clinton likewise stated that the racial divide is ''America's constant curse.'' Today, many African Americans remain mired in poverty, and average incomes remain below that of White Americans. There remains an achievement gap in education, and for many health conditions, African Americans bear a disproportionate burden of disease, injury, death, and disability. African Americans are, moreover, disproportionately involved with the criminal justice system.

Recently, States—Alabama, Connecticut, Maryland, Florida, New Jersey, North Carolina, and Virginia—enacted resolutions apologizing for the role their States played in sanctioning and promoting slavery and segregation.

Corporations such as J.P. Morgan, Aetna, and Wachovia have also acknowledged and apologized for their role in, and profit from, slavery.

Slavery, Jim Crow laws, and their lasting consequences, however, are an enduring national shame. It was the United States that enshrined slavery in the Constitution and protected it for nearly a century. It is Congress that passed the shameful laws, such as the Missouri Compromise of 1820 and Fugitive Slave Law of 1850, which protected and furthered slavery. It was our Nation's Supreme Court which bolstered slavery and legally sanctioned segregation, as I said, in the Dred Scott case of 1857, and Plessy v. Ferguson in 1896. The Court said we could be separate but equal. It was the Federal Government which was officially segregated. By 1913, all Federal departments were segregated. It was the United States which kept African Americans who wanted nothing more than to serve their country segregated in the military. It was not until 1948 that President Truman issued the executive order desegregating the military.

Presidents as far back as John Adams have acknowledged the injustice of slavery. In 1998, President Clinton spoke of the evils of slavery and expressed regret for America's role in the slave trade. In 2004, President Bush visited Goree Island, a holding place for captured slaves in Africa, and spoke of the wrongs and injustices of slavery, calling it ''one of the great crimes of history.''

Moreover, in 1988, Congress rightly apologized for the internment of Japanese Americans held during World War II. In 1993, Congress justly apologized to native Hawaiians for overthrowing their king. The Senate has correctly apologized for its failure to enact antilynching legislation. Last year, as part of the Indian health bill, the Senate passed an amendment apologizing, rightfully, to Native Americans.

Yet this Congress has never offered a formal apology for slavery and Jim Crow, and it is long past due. A national apology by the representative body of the people is a necessary, collective response to a past collective injustice. It is both appropriate and imperative that Congress fulfill its moral obligations and officially apologize for slavery and Jim Crow laws.

As we acknowledge and apologize for this great injustice, we would be remiss, however, to fail to recognize those Americans who, with great courage, fought to ensure that this country lived up to its founding ideals. Hundreds of thousands served their country and risked their lives so others could be free, and many gave, in the words of Abraham Lincoln, ''the last full measure of their devotion.''

From the beginning of the Republic to the present, individuals of all races, nationalities, genders, creeds, and religions have risked much, including their lives, striving for a better and more just America. It is these often nameless individuals who registered voters in the Mississippi Delta, marched over the bridge at Selma, fought for better jobs and housing in northern cities, and desegregated lunch counters.

I point to people such as Edna Griffen, John Bibbs, and Leonard Hudson. In 1948, they entered Katz Drugstore in Des Moines, IA, on a hot summer day and ordered Cokes and ice cream at a segregated lunch counter. When the manager refused to serve them because the store did not ''serve coloreds,'' Ms. Griffen refused to leave, and outraged Iowans responded with sit-ins and picketed Katz and other restaurants that refused to serve people because of their race. And they won. The lunch counters were desegregated. Who but a handful knows of Edna Griffen, John Bibbs, or Leonard Hudson? It is only because of the extraordinary acts of bravery by ordinary Americans like these in all corners of this country that the mighty walls of oppression have been torn down. As this Nation formally apologizes and acknowledges slavery and Jim Crow, we must also recognize that this Nation owes these individuals, most known only to their friends and families, an enormous debt of gratitude.

As we make this formal apology, moreover, we must acknowledge and celebrate the deep, lasting contributions that slaves, former slaves, and their descendents have made to this country in every field of human endeavor—law, literature, science, medicine, art, business, education, sports, and politics. Indeed, the list goes on and on. Six months ago, an African American took the oath of office as President of the United States for the first time in our Nation's history.

In conclusion, I want to read from the resolution, so all those in the gallery and the American people hear the long overdue words emanating from this body:

> Congress acknowledges the fundamental injustice, cruelty, brutality, and inhumanity of slavery and Jim Crow law; apologizes to African Americans on behalf of the people of the United States, for the wrongs committed against them and their ancestors who suffered under slavery and Jim Crow law; and expresses its recommitment to the principle that all people are created equal and endowed with inalienable rights to life, liberty and the pursuit of happiness, and calls on all people of the United States to work toward eliminating racial prejudices, injustices and discrimination from our society.

In closing, I think it is important to note that this resolution will soon pass by unanimous consent, which means every Senator supports it without objection.

Finally, let us make no mistake, this resolution will not fix lingering injustices. While we are proud of this resolution and believe it is long overdue, the real work lies ahead. Let us continue to work together to create better opportunities for all Americans. That is truly the best way to address the lasting legacy of slavery and Jim Crow.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Kansas is recognized.

Mr. BROWNBACK. Madam President, first, I start with acknowledging a couple of individuals. First and foremost, the Senator from Iowa, Senator HARKIN, has orchestrated and navigated this matter to bring it forward. I think everybody owes a deep debt of gratitude to him and his staff for getting this done.

This is a significant day and a significant event. It doesn't happen without a lot of effort. It is going to be one of those days and places and times that goes down in history in this body. It is important. It is important to us. It is important to the Nation, and it is important that it be clearly acknowledged, and it is going to get done. I thank my colleague from Iowa for getting this organized and moving it forward. I also thank, obviously, the majority leader for setting this time up, the Republican leader, and our colleagues, particularly Senator LEVIN, who is a sponsor, and on our side, Senator COCHRAN, Senator BOND, and many others.

I ask unanimous consent at this time that Senator CORKER be added as a cosponsor to the resolution.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BROWNBACK. Also, our staffs worked very hard on this. I have to thank LaRochelle Young on my staff, who has worked hard on this issue. She has been dedicated to get this through and forward. I thank her for her great work.

It is my experience that apologies are tough to do. They are tough as individuals, tough as groups, and tough as nations. When this issue would come up, a lot of people would say: Yes, I acknowledge that happened, but I didn't do it or that happened a long time ago, so can't we move past it? Yet my experience has been that until you actually acknowledge the wrong that has been done and say, ''I did this and it was wrong and I apologize,'' there remains a barrier there—something you cannot get over, no matter how many words you put around it, no matter how much feeling may be there, until you actually say it. That is why apologies are tough, because they are hard to do when they get right at the core of the issue. They get at the core that a wrong was done. What we are saying in the Senate today is that a wrong was done—a wrong of slavery was done by the Federal Government of the United States, a wrong of segregation was done by the Federal Government of the United States. We acknowledge that. We say it was wrong and we ask for forgiveness for that.

It doesn't fix everything, as Senator HARKIN pointed out but it does go a long way toward acknowledging it and it gives us the ability to move to the next step in building a more perfect union, and do the things that Martin Luther King would talk about, where you can have a colorblind society. It is significant and important that we do it.

I think in my own personal experiences in this category, learning about William Wilberforce, from the British Parliament, who worked on ending the slave trade in Great Britain. It was a key issue for them to get over that hurdle. It took years and they got it done. I also acknowledge friends of mine, in current iterations, who traveled across America with a kettle. This kettle was a kettle that former slaves used to cook in. They would do the evening cooking for their meals in it. This was kind of the gathering place for the slaves—this gentleman's ancestors' kettle. He took it around the country and he would talk about them getting together and using it for a meal. After the meal was done, they would clean the kettle, and it was big enough that they would actually huddle under the kettle and pray. They would pray for their freedom. That was the kettle tour. Their aspiration and hope for so many years was to be free. They were taking the kettle around the country as a physical symbol of the yearning for freedom that the people had. The slaveowners would get mad about it, but they could not hear them as they would mutter their silent and soft prayers under the kettle. I have seen many different physical representations of what has taken place.

I grew up in eastern Kansas, where the fight started about whether my State would be a free State or a slave State. In the Nebraska-Kansas compromise that this body crafted, Nebraska was supposed to be a free State and Kansas a slave State because Iowans would come across to Nebraska and populate that. Missourians were closer to Kansas and they would populate Kansas and be a slave State and maintain that balance of power. That is also something we should apologize for. John Quincy Adams called slavery the ''original sin of the United States,'' for which we are asking forgiveness today. And in that situation developed my part of eastern Kansas—known as Bleeding Kansas because while people did come across who were proslavery, other individuals organized from the Northeast to populate Kansas, and they were abolitionists and they came with a desire to fight for freedom. There were many irregular battles that took place, guerilla warfare, the Battle of Osawatomie, where my mother grew up, the burning and sacking of Lawrence, and all this back and forth about slavery taking place.

Just before the Battle of Osawatomie, John Brown said—and he was in that fight, and one of his sons was killed in it—there will not be peace in this land until the issue of slavery is resolved. He was right. Less than 10 years later, the Civil War broke out over the issue of slavery.

Today in the Senate, we pledge to move beyond this shameful period, and we officially acknowledge and apologize for the institution of slavery in this country—what many refer to as the original sin of America—which was once woven into the fabric of our Nation, and for the Federal laws we passed in this Chamber and upheld by the highest Court in our land, the Supreme Court. My colleague has already referred to some of those laws, but I want to refer passingly to several as well, laws such as the Fugitive Slave Law, first approved on February 12, 1793, and subsequently amended in 1850 and 1864, which sought to punish those persons who dared to escape the brutality of slavery and those who helped to free individuals in bondage. Not only would a suspected runaway slave be dragged into court, but they would be unable to say a word on his or her behalf, not one word. They weren't allowed to say a single word.

My colleague mentioned the Missouri Compromise of 1820, which was crafted as a solution to the ever-increasing and volatile dispute over the question of slavery in the United States. In 1819, when Missouri sought statehood, the question was whether Missouri would be admitted to the Union as a slave State or a free State. This set off an intense debate between northern and southern legislators. Missouri's ratification would upset this delicate balance between slave States and free States in the Senate.

In order to keep the already tenuous balance, Henry Clay worked out a compromise consisting of three parts: Maine would separate from Massachusetts and be admitted as a free State, Missouri would enter the Union as a slave State, and the remaining territories of the Louisiana Purchase would be closed off to slavery.

However, unrest around the brutal practice of slavery continued until further compromises came forward. Additionally, a compromise to outlaw the slave trade, but not slavery, in the District of Columbia—where we are today—was enacted to facilitate the retrieval of slaves who had run away to the North. While this compromise did little to satisfy the antislavery movement, it did temporarily preserve the Union, and many historians refer to this period as the ''calm before the storm.'' And then my State enters—Bleeding Kansas.

As the United States continued to expand, the very fabric of our Nation was about to be torn in two regarding a people's right to be free. In the midst of this debate was my great State of Kansas.

On May 30, 1854, the Kansas-Nebraska Act became law. Frederick Douglass deemed the new law ''an open invitation to a fierce and bitter strife,'' and those words proved to be very prophetic. Shortly after the Kansas-Nebraska Act became law, there was a rush to settle Kansas. As I mentioned, both proslavery and abolitionists alike were determined to settle Kansas for their cause. The turmoil continued. We had bloody balloting, we had stolen elections taking place, until we did finally enter the Union as a free State.

There were passions surrounding that which ignited even on the Senate floor, passions that abolitionist Senator Charles Sumner delivered a rousing speech on the Senate floor called ''The Crime Against Kansas,'' accusing proslavery Senators of siding with slavery. In apparent retaliation, Congressman Preston S. Brooks attacked and beat Charles Sumner senseless with a cane—an issue of some high memory on this floor even today.

Following on June 2, 1856, there was retaliation. The Battle of Black Jack, in my State, ensued, which is widely believed to be the first conflict between free State supporters led by John Brown and the proslavery supporters, as well as one of the first battles of the Civil War.

These things continued until my State came into the Union.

I do wish to conclude at this point in time with noting just the importance of apologies. As I mentioned at the outset, they are difficult and they are important and they are hard to do and they are significant. Today, we right that wrong of not offering an apology previously. Today, we move forward in

a spirit of unity. Today, we move toward a true cleansing of our Nation's past sins rooted in racism.

There may be those who consider an apology insignificant or purely for symbolic means. I completely disagree. In 1988, Congress apologized for the internment of Japanese Americans held during World War II. When asked in an interview 20 years after the apology was signed to give thoughts on the matter, Aiko Yamamoto, who at the time of the interview was 72, said: ''It was the apology that mattered.'' Similarly, Norman Mineta, former Congressman and U.S. Secretary of Commerce and of Transportation, who was also interned during World War II, said of the apology: ''It will always mean more to me than I can ever adequately express.''

However, the cleansing effects of an apology are not only limited to those who are owed an apology but to those giving the apology as well. It is the acknowledgment that a terrible wrong was committed—never to be committed again—and a willingness to now, through the process of reconciliation, work toward a brighter future for all people unburdened by the difficulties of the past but uplifted by the promises of the future—a future where our destinies are inextricably linked together.

Although this anthem is correctly titled ''The Negro National Anthem,'' the final stanza of its words so eloquently written by James Weldon Johnson not only rings true for the African-American community but for all America.

God of our weary years, God of our silent tears, thou who hast brought us thus far on the way; thou who hast by thy might, led us into the light, keep us forever in the path, we pray. Lest our feet stray from the places, our God where we meet thee, lest our hearts, drunk with the wine of the world, we forget thee; shadowed beneath thy hand may we forever stand, true to our God, true to our native land.

May we, with this apology, move forward into the light of unity, united under a common purpose, linked together in a singular humanity. I am delighted that we are doing this today.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Michigan.

Mr. LEVIN. Madam President, first, at this point, I wish to thank Senators HARKIN and BROWNBACK for the initiative they have taken, for their leadership in bringing before the Senate this healing resolution, this formal apology for slavery and racial segregation.

The resolution before us presents us with the opportunity to address face-to-face the unconscionable and the abhorrent acts of slavery and its aftermath perpetrated against fellow human beings. The apology resolution describes some of the gravest injustices of slavery: families enslaved, then torn further apart after family members were sold separately, stripped of their names and heritage; a system of forced labor that persisted for 250 years; brutal and unspeakable acts of violence against slaves. The injustices continued well after the 13th amendment to the Constitution ended slavery in our Nation because Jim Crow laws disenfranchised former slaves and subjugated them as second-class citizens.

After presenting detailed findings regarding slavery and the system of de jure segregation known as Jim Crow, the resolution reads, in part, that the Senate:

Acknowledges the fundamental injustice, cruelty, brutality, and inhumanity of slavery and Jim Crow laws; Apologizes to African Americans on behalf of the people of the United States for the wrongs committed against them and their ancestors who suffered under slavery and Jim Crow laws; and, Expresses its recommitment to the principle that all people are created equal and endowed with inalienable rights to life, liberty and the pursuit of happiness, and calls on all people of the United States to work toward eliminating racial prejudices, injustices and discrimination from our society.

In 2005, the Senate passed a resolution formally apologizing for another tragic legacy of historic racial inequalities in our Nation: lynching. From 1880 to as recently as the 1960s, an estimated 5,000 Americans, predominantly African Americans, were killed by public hangings, burnings, and mutilation. Members of the Armed Forces were lynched in the country they had defended. Following both World War I and World War II, returning soldiers were lynched, many while still wearing their military uniforms. There would be no new respect for these brave African Americans who had fought for our country, only the old order of injustice.

The Senate passed the resolution apologizing for lynching in an attempt to acknowledge the Senate's past failure to address the prevalence of those despicable acts and to allow for some national healing. It is my hope that the slavery apology resolution before us can serve a similar purpose.

We are fortunate to live in a time that is not blighted by slavery in this country or segregation under the law. But we live with the legacy of the practice of slavery, and it is our responsibility and our duty to continue to examine that history in order to improve the present and the future.

This apology is part of carrying out that responsibility. And doing so in the presence of visitors who are descendants of slaves adds to the meaning of our action.

Madam President, I again thank the cosponsors of the resolution.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. BURRIS. Madam President, more than 200 years ago at the height of a humid summer in Philadelphia, 56 men affixed their signatures to a document that contained these words:

We hold these truths to be self-evident, that all men are created equal.

These words expressed a sentiment that could not be realized for all Americans until more than a century later. At that moment, when the United States of America was born and the Declaration signed, a great injustice was woven into the fabric of our Nation. Slavery and the racial segregation that followed have left a tragic legacy that divided this country in the bloodiest war we have yet known. It is a legacy that still affects each and every one of us this day.

My colleagues, Senators HARKIN and BROWNBACK, have introduced a resolution apologizing for slavery, Jim Crow laws, and policies of segregation and hate. This is often an uncomfortable subject so I applaud my colleagues for their willingness to confront the difficult history we all share. I thank them for their leadership on the issue and rise in support of the resolution which just passed.

Several State governments have issued similar apologies. But the fact that the plight of slavery was a national concern demands a national response.

Some in the Black community will dismiss this resolution. Some will say that words don't matter, that the actions of our forefathers cannot be undone. It is true that those who toiled in the fields, those who were deprived of their freedom, will gain no peace from this resolution. Their story is inescapably in our history. It is a story we must confront and try to overcome on a daily basis. But words do matter; they matter a great deal—the words in the Declaration of Independence acknowledging the equality of all men, even if the flawed policies of the time failed to embrace it; the words of a President who held the Union together and promised ''a new birth of freedom,'' even if his words required the forces of an army to achieve liberty for all; the words of a Supreme Court opinion which declared ''separate but equal'' was not justice, even if the Nation was not quite ready to listen; the words of a King who dared to dream of a promised land, even if he knew he might not live long enough to see it; the words of a troubled nation searching for hope in time of fear, which seized upon the rallying cry of a young Black man from Illinois whose words inspired a people to cry ''yes, we can'' with one voice—all of these words reinforced the fundamental truth we have uttered to ourselves and our children since the birth of this Nation: In America, anything is possible.

As I look around this Senate floor today, I think of my parents who never saw this Chamber. I think of my grandparents who never saw this city. I think of my ancestors who could dream only of their freedom. I think of my great-great-grandfather who was given

that freedom. Freed from bondage as a slave in 1865, near Columbus, GA, without a name of his own, he adopted the Army rank as his first name, Major, and he adopted the name of his county, Green, as his last name. He named himself Major Green. In a span of those few generations, I stand here in the Senate Chamber as the great-great-grandson of Major Green on that uniquely American arc of history that has taken my family from slavery to the Senate.

As a nation, we have come a long way. But we cannot turn our backs on the shame of slavery, just as we cannot turn our backs on the rest of the Constitution that at one time embraced it. The greatness of this Nation comes from our ability to chart a new course, to shape and reshape the destiny that we share, choosing to reject injustice and cruelty, choosing to overcome the tragic legacy of past mistakes and look ahead to a bright future. This resolution cannot erase the terrible legacy, but it can help to heal the wounds of centuries gone by. It can pave the way for future progress.

This journey, however, is far from over. We have not yet reached the equality promised in our founding documents—equality that transcends race, gender, sexual orientation, and religion, equality upon which our ever perfecting Union is founded. This story is still being written. As we confront the enduring legacy of slavery and Jim Crow, this resolution is an important part of moving forward.

I would like the RECORD to show that this resolution has a different ending from a resolution passed by the 110th Congress. This resolution carries a disclaimer. I want to go on record making sure that that disclaimer in no way would eliminate future actions that may be brought before this body that may deal with reparations.

I thank Senator HARKIN and Senator BROWNBACK for their leadership on this issue. I urge my colleagues to join us as we seek to write the next chapter in our history, to move forward, not only saying we apologize for slavery but moving forward to make sure all remnants of discrimination of any kind are removed from this great Nation of ours.

Mr. DURBIN. Madam President, 4 years ago the Senate took an important step in recognizing and apologizing for Congress's historic failure to pass an antilynching law. Today, we are considering a resolution to apologize for America's original sin—the sin of slavery.

By apologizing for the enslavement and racial segregation of African Americans, we take another important step toward racial healing and reconciliation. This measure follows similar apologies issued by the States of Alabama, Florida, Maryland, North Carolina, and Virginia, which have all recognized their role in sanctioning the evils of slavery and Jim Crow. While we cannot correct the brutality and dehumanization caused by these evils, we can acknowledge the vestiges of harm caused by that dark chapter in our history. We can accept responsibility.

I am proud that when my home State of Illinois entered the Union in 1818, the Illinois State Constitution contained the following provision: ''Neither slavery nor involuntary servitude shall hereafter be introduced into this state otherwise than for the punishment of crimes.''

Soon after the granting of statehood, proponents of slavery in Illinois moved for a constitutional convention to amend the Illinois Constitution to allow slavery. The citizens of Illinois went to the polls in 1824 and voted against the convention by a margin of 57 percent to 43 percent and chose to keep Illinois a free State.

A few years later, in 1856, a little known former Congressman from Springfield, IL, named Abraham Lincoln delivered a speech in Bloomington, IL, and said: ''Those who deny freedom to others deserve it not themselves, and under the rule of a just God cannot long retain it.''

But it took a Civil War, and the death of over 600,000 Americans, before slavery was finally abolished in this Nation.

Another American hero who put his life on the line for civil rights is JOHN LEWIS, who was nearly beaten to death while marching for the right to vote in Selma, AL, during the 1960s. Today he is a member of Congress. Last year, after the U.S. House of Representatives passed a resolution apologizing for slavery, JOHN LEWIS said the following:

> The systematic dehumanization of African Americans for hundreds of years was a horrible crime, and the legacy of these atrocities still lingers with us today. For centuries, African Americans were denied wages, decent housing, food, clothing, and all the basic necessities of life. They were disenfranchised in the Constitution, barred from voting, from gaining an education, and any protection or right a citizen should expect in a civilized society. Our culture was destroyed, our lives were always in jeopardy, and our very humanity was in question. Any nation which perpetrates these kinds of atrocities on any of its citizens should at least apologize for its actions. And an apology is a very important step toward laying down the legacy of this tragedy once and for all.

I commend Senator HARKIN and Senator BROWNBACK for introducing this important resolution in the Senate, and I urge its immediate passage.

Mr. CARDIN. Madam President, I rise today in strong support for S. Con. Res. 26, apologizing for the enslavement and racial segregation of African Americans. I thank Senators HARKIN and BROWNBACK for introducing this resolution and note that the Senate's approval of this resolution will occur on the eve of Juneteenth. Also known as Freedom or Emancipation Day, Juneteenth commemorates the announcement of the abolition of slavery in Texas and marks the day when Union troops started to enforce the Emancipation Proclamation throughout the United States.

In 2007, Maryland became the second State after Virginia to adopt a resolution officially expressing profound regret for its role in instituting and maintaining slavery and for the insidious discrimination that followed, which became slavery's legacy. I am proud that my home State's elected officials publicly acknowledged and showed remorse for its part in that sad and enduring chapter in our Nation's history. And now we have an opportunity to do the same as an entire country.

From 1700 to 1770, thousands of West Africans who survived the middle passage slave trade route ended up in the Chesapeake Bay region. Annapolis, our capital, was the main port of entry for slaves in the mid-Atlantic region. Millions of Africans were forcibly uprooted from their families in their native lands and shipped across the Atlantic in chains. Most died. Only one in four African-born slaves survived his or her first year in the Chesapeake area. By 1790, more than 100,000 slaves, a third of the State's total population, lived in Maryland.

True patriots with Maryland roots fought to end the institution of slavery, and they merit our gratitude and honor. Frederick Douglass, born into slavery in 1818 on Maryland's Eastern Shore, escaped in 1836 and became a free man in Massachusetts. Upon gaining his freedom he made it his life's work to advocate for the abolition of slavery and for racial equality. Harriet Ross Tubman spent nearly 30 years as slave in Maryland's Dorchester County, also on the Eastern Shore. She escaped in 1849, and returned many times over the next decade to Dorchester and Caroline counties to lead hundreds of slaves north to freedom. Known as ''Moses'' by abolitionists, she reportedly never lost a ''passenger'' on the Underground Railroad.

The abolitionists eventually succeeded, but only after a monumental struggle that culminated in the Civil War and the executive orders President Abraham Lincoln issued which comprised the Emancipation Proclamation. In 1864, with the adoption of a new State Constitution, slavery officially ended in Maryland. A year later, in 1865, the 13th Amendment to the United States Constitution was ratified, officially abolishing slavery throughout the United States. Yet following Reconstruction, the period in which newly freed men and women made significant social, economic and political gains, a new era of ''Jim Crow,'' the pernicious system of de jure racial segregation, dawned.

Maryland was among the border and southern States that perpetuated segregation, passing 15 Jim Crow laws between 1870 and 1957. It was during these years that numerous organizations were founded to be catalysts for change. One such organization, the National Association for the Advancement of Colored People—NAACP—was founded on February 12, 1909, in response to the horrific practice of lynching. I am a lifetime member of the NAACP and am proud that its tradition continues to this day, and that my city of Baltimore is home to its national headquarters.

Maryland might be considered a microcosm of the Nation as a whole. While Maryland instituted and perpetuated the institutions of slavery and ''Jim Crow,'' there arose some truly inspiring heroes who courageously fought against the system and succeeded. Baltimore's own Thurgood Marshall, for instance, developed into one of the most influential and inspiring legal minds of the 20th Century. He was a true leader of the civil rights revolution in the 1950s and 1960s, working through the courts to eradicate the legacy of slavery and destroy the racist segregation system of Jim Crow. And he succeeded. He won multiple Supreme Court rulings, including the landmark Brown v. the Board of Education of Topeka case, effectively ending legal segregation in schooling, housing, public transportation, and voting. He went on to become the Nation's first African-American Supreme Court Justice.

We have made substantial progress but it has been shamefully slow. As Dr. Martin Luther King, Jr., remarked, ''Change does not roll in on the wheels of inevitability, but comes through continuous struggle.'' At long last, we have elected an African-American President. We still have more to do. The harmful legacies of slavery and ''Jim Crow'' persist in America today, with glaring racial disparities in our criminal justice system, health care, home-ownership rates, and wealth. We need to do more as a Nation to confront and eliminate these gaps. And although we have truly come a long way since those days, America must acknowledge the atrocities of our past, so that we can fulfill the ideals on which our nation was founded. This resolution is that acknowledgement.

Mr. KOHL. Madam President, Harriet Ann Jacobs, a writer, abolitionist, and former slave wrote, ''No pen can give an adequate description of the all-pervading corruption produced by slavery.'' Just as no pen can describe how horrible the effects of slavery are, no words will be able to express adequately our apology. But it is long past time we tried the impossible task of apologizing for this terrible period in our history.

Slavery was a deeply shameful period in our history, and the effects on our country and our people can still be seen today. African Americans still suffer from the years of slavery and institutional racism of the Jim Crow years. This resolution will not erase the damage of those years, but it is a necessary step if we are ever to heal the wounds that remain.

The early growth of our country—including the building of this very Capitol Building—would have been impossible without the labor and skills of African-American slaves. Our success as a nation was built on their backs, and at an awful price. Today, finally, with the passage of S. Con. Res. 26, we recognize their sacrifice and apologize for what they suffered.

I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HARKIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. HARKIN. Madam President, I know other speakers are coming down to speak on this resolution. Before the time runs out and since no one is here right now to speak, I wish to acknowledge several people who have been very instrumental in getting us to this point.

First, I thank the Leadership Conference on Civil Rights for all they have done to not only bring us to this point—to this apology—but for all they have done to enhance and promote civil rights for Americans. I also recognize the longtime president, Wade Henderson, who has devoted his entire life to the cause of racial injustice and ensuring this Nation lives up to its founding ideals.

Second, I acknowledge and thank the NAACP. February marked the end of the NAACP's 100th birthday, founded on the 100th birthday of Abraham Lincoln by a multiracial group of men and women committed to equality. For 100 years, the NAACP has fought for justice for all Americans, and I thank their president, Benjamin Todd Jealous, and through him all the members of the NAACP.

Third, I wish to acknowledge several staff members whose assistance made this resolution possible. Senator BROWNBACK already recognized LaRochelle Young, but I also thank her for helping to shepherd this through and working to get us to this point. Jackie Parker, a senior adviser to Senator LEVIN and cofounder of the Senate Black Legislative Staff Caucus, has been instrumental in planning the upcoming ceremony with civil rights leaders and other luminaries to recognize the apology and injustices of slavery and Jim Crow.

Finally, I would like to recognize the tireless work that my counsel, Daniel Goldberg, has dedicated to seeing this historic resolution become a reality. The countless hours he has committed to make this occasion happen are almost uncountable. I thank him publicly for making this possible.

Last, I would like to add Senators LEAHY, DODD, MURRAY, and KERRY as cosponsors of the resolution.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Kansas is recognized.

Mr. BROWNBACK. Madam President, I, too, wish to acknowledge some individuals who have really helped to make this historic day take place. One for me is Congressman JOHN LEWIS, with whom I have been working for some period of time to get the Museum of African American History and Culture to be a reality on The Mall. The design has now been picked and the location has been picked. It is going to be at the base area of the Washington Monument. It is going to be a fabulous entity. What I like about it is it is going to show the difficulty, the tragedy, and is also going to show the promise in the future. It moves through the whole piece of it, and this resolution will be a part of it, of how a nation deals with such an enormous problem as this.

JOHN has been a very courageous, longstanding advocate in the mode of what John Quincy Adams was for years in fighting against slavery. He has been dedicated to this. I remember first going over to his office and him showing me a book of pictures that were of lynchings that had taken place, such a tragic set of pictures that you look at that happened in the early part of the 1900s in my State and many other States around the country. I am very appreciative of him.

There are people who recently passed away, like Rosa Parks, who gave us these defining moments of the ending of segregation or in my State, like Cheryl Brown Henderson of the Brown family, Brown v. Board of Education, the landmark desegregation case where we said even if a school is equal, segregation is inherently wrong, and they stood for it, and stood tall, to bring us to a better point in time.

It has not been all that long ago. I started out in a professional period in broadcasting. One of the guys next to me was a sports broadcaster, and he would tell the story about—and this is even in the Big 8, where Senator HARKIN and I shared some territory—he talked about African Americans coming on the basketball court, being cheered wildly by everybody at the school but then not able to eat at the lunch counter in the community. While everybody is cheering for them on the basketball court, they cannot eat at the lunch counter. The sportscaster was talking to me about that.

My old friend Jack Kemp, who recently passed away, was a strong advocate for African Americans and for doing things like this—what he saw in the sports field, for years, people in the Negro Baseball League Hall of Fame in Kansas City. We have a wonderful museum showing what it took to break through the racial barriers in sports and how positive that was but also how difficult that was during that period of time.

All of these I am mentioning simply because it is part of how difficult it is to get to the point we get to today as a society. These things do take time, they are difficult, and there is a lot of pain and suffering that goes along the way.

What Senator HARKIN and I and all the cosponsors hope—it will be unanimously approved on this Senate floor—is that for all those individuals who have had these personal experiences themselves and felt it themselves, they will be able to see in this some acknowledgment of what happened to them, an acknowledgment that it was wrong and an apology for it. It doesn't fix it, but hopefully it does address it and starts to dig out the wound. There is a great book on this, ''Healing America's Wounds.'' The last name of the author is Dawson. He pointed out that these are very significant for society to be able to pull together around and that they have to be done for a society to be able to move forward. There is just no way around it, you have to actually address the problem and the topic.

For those reasons and for the many millions of people who have suffered the legacies of slavery and segregation or suffered personally themselves under segregation in this country, we apologize as a United States Senate.

I read the final words because they express it so well, that there is a sense of Congress of the following:

Apology for the enslavement and segregation of African-Americans—The Congress—

acknowledges the fundamental injustice, cruelty, brutality, and inhumanity of slavery and Jim Crow laws;

apologizes to African-Americans on behalf of the people of the United States, for the wrongs committed against them and their ancestors who suffered under slavery and Jim Crow laws; and . . .

Nothing in this resolution:

authorizes or supports any claim against the United States; or

serves as a settlement of any claim against the United States

expresses its recommitment to the principle that all people are created equal and endowed with inalienable rights to life, liberty, and the pursuit of happiness, and calls on all people of the United States to work toward eliminating racial prejudices, injustices, and discrimination from our society.

It specifically does the apology but deals with nothing else. It says, ''Nothing in this resolution authorizes or supports any claim against the United States; or serves as a settlement of any claim against the United States,'' to leave that issue aside.

I am very appreciative that a number of States have led the way moving forward with the apology. Virginia, Alabama, Florida, Maryland, North Carolina led in adopting resolutions officially expressing that remorse for slavery and for Jim Crow laws.

I look forward to this unanimous consent. I am glad we are doing it now. We will have a recognition of this in a Rotunda ceremony. I think that will be important. I hope many Members will join us at that, and I think it will be a historic point in time.

Madam President, I believe we are ready to call for the passage of the resolution? I yield to the Senator from Iowa.

Mr. HARKIN. If the Senator will just yield, I thank my friend for his wonderful statement this morning and, again, for the many months and years we have worked together on this to get here, I thank him very much.

In closing, Madam President, again I say a fitting ceremony is being planned for sometime early in July that will take place in the main Rotunda of the Capitol to mark this occasion. As I understand, we don't have a firm date yet, but that date will be coming about shortly in consultation with the Speaker and the minority leader in the House and the majority leader and minority leader here in the Senate. We are looking forward to that occasion, and I think it is one that will be poignant and one that will again bring home to all of us and to the American people the enormity of what we have done in terms of finally acknowledging the official role of the U.S. Government in promoting and sanctioning slavery and Jim Crow laws.

I say to my friend from Kansas, we look forward to that ceremony, and I am sure the American people are looking forward to it also.

I might ask, how much time remains?

The ACTING PRESIDENT pro tempore. On the majority side, almost 8 minutes, and on the Republican side, just over 9 minutes.

Mr. HARKIN. Madam President, I ask unanimous consent that Senators MENENDEZ, FEINGOLD, and BENNET be added as cosponsors.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. HARKIN. Madam President, on behalf of the majority leader, I yield the remainder of our time.

Mr. BROWNBACK. On behalf of the Republicans, I yield the remainder of our time.

The ACTING PRESIDENT pro tempore. The question is on the adoption of the resolution.

The concurrent resolution (S. Cons. Res. 26) was agreed to.

The preamble was agreed to.

MORNING BUSINESS

Mr. HARKIN. Madam President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Texas is recognized.

NOMINATION OF JUDGE SOTOMAYOR

Mr. CORNYN. Madam President, I would like to turn to another important topic; that is, the pending confirmation of Judge Sotomayor to be Associate Justice of the U.S. Supreme Court. Like many Senators, I have had the opportunity to visit with Judge Sotomayor in my office and, of course, congratulated her on this great honor. I further pledged to her that she would receive a fair and dignified confirmation proceeding. Unfortunately, that has not always been the case in the Senate, but I did tell her that as far as I was concerned, I would do everything I could to make sure she was treated with respect.

Over the last few weeks, my colleagues on the Judiciary Committee and I have begun a thorough review of her record. Judge Sotomayor comes with one of the longest tenures of any judge nominated to the U.S. Supreme Court on the Federal bench—for about 17 years, so there is a rather lengthy record to review. In addition, she has given, as you might expect, many speeches and written law review articles and made other statements that deserve our attention. She has responded to the questionnaire sent by the Senate Judiciary Committee, and there are other followup questions which I anticipate she will be answering in the coming weeks.

So our review is ongoing in anticipation of a confirmation hearing beginning July 13 in the Senate Judiciary Committee.

But so far it is fair to say that there are a number of issues that have come up which I would like to talk about briefly that I anticipate she will have an opportunity to clarify or otherwise respond to and make her position clear for the American people and for the Senate as we perform our constitutional obligation under article II, section 2 of the Constitution.

Most of the focus, during a judicial confirmation hearing, is on the President's authority under the Constitution to nominate individuals to serve as judges. But, in fact, the very same provision of the Constitution, the very same section of the Constitution, section 2 of article II, also imposes an obligation on the Senate. In other words,

we have a constitutional duty ourselves in the Senate to provide advice and consent and then to vote on the nomination once voted out of the committee.

The concerns I wish to raise at this point do not suggest that these are disqualifying, by any means, for Judge Sotomayor. I believe that, as I have indicated, she deserves the opportunity to explain her approach to these issues and particularly her judicial philosophy more clearly and to put the opinions and statements we have come across during our review in proper context.

I believe it is not appropriate for any of us to prejudge or to preconfirm Judge Sotomayor. Our job as Senators is to ask how she would approach the duties of an Associate Justice of the United States Supreme Court. And the areas, as I said, I would like to focus on are numbered three.

The first issue has to do with her approach to the second amendment. Of course, the second amendment to the U.S. Constitution, part of our Bill of Rights, incorporates the right to keep and bear arms.

The second amendment says:

A well regulated militia being necessary to the security of a free State, the right of the People to keep and bear arms shall not be infringed.

The American people understand that the second amendment limits government and protects individual liberty. As Justice Joseph Story wrote nearly 200 years ago, the second amendment acts as a ''strong moral check against the usurpation and arbitrary power of rulers.''

As the U.S. Supreme Court itself held last year in the District of Columbia v. Heller: ''There seems to us no doubt, on the basis of both text and history, that the Second Amendment conferred an individual right to keep and bear arms.''

I agree strongly with the Supreme Court's reasoning in the Heller decision, and I think most Americans accept that as the law of the land. Judge Sotomayor, on the other hand, as a member of the Second Circuit Court of Appeals, was one of the judges that first was given an opportunity to apply that Supreme Court precedent in Heller to the States.

She concluded in that decision that the right to keep and bear arms was not a fundamental right, and, therefore, was not enforceable against the States via the due process clause of the Fourteenth Amendment. Her decision in that case was troubling in light of the Heller decision, especially because her opinion included very little significant legal analysis.

I would expect and hope Judge Sotomayor would elaborate on her thinking about this case, as well as the scope of the second amendment, during the course of the confirmation hearings. Americans need to know whether we can count on Judge Sotomayor to uphold all of the Bill of Rights, including the second amendment.

The next subject that I think will bear some discussion during the confirmation hearings is Judge Sotomayor's views of private property rights, another fundamental right protected by our Bill of Rights, that is simply stated in the fifth amendment of the U.S. Constitution, the right not to have property taken for public use without just compensation.

The fifth amendment provides an absolute guarantee of liberty against the power of eminent domain, by permitting government to seize private property only for public use.

Our colleagues will recall the controversial decision of the U.S. Supreme Court in 2005 in Kelo v. City of New London, a decision where the Supreme Court greatly broadened the definition of public use and, thereby doing, greatly limited the property rights protected by the Bill of Rights for more than two centuries.

The Court held that government can take property from one person and give it to another person if the government decided that by so doing it would promote economic development. The Kelo decision represents a vast expansion of government power of eminent domain. And that is why I introduced legislation that same year to limit that power and to restore the basic protections of our homes, small businesses, and other private property rights that the Founders intended in the fifth amendment to the Constitution.

I believe the Kelo decision went too far. Yet by her decision in the case of Didden v. Village of Port Chester, it appears Judge Sotomayor did not feel like it went far enough. Judge Sotomayor was part of a panel that upheld an even more egregious overreach by government when it came to private property rights.

In that case, two private property owners wanted to build a pharmacy on their land but in an area the government had essentially handed over to another private developer. The developer offered the owners a choice: Give me a piece of the action or we will proceed to condemn your property. The property owners, as you would think would be their right, refused. Yet the government, the local government, delivered on the developer's threat the very next day.

I believe this decision represents an outrageous abuse of the power of eminent domain for a nonpublic purpose and a tremendous extension of an already flawed decision in the Kelo case by the U.S. Supreme Court. So I think it is only fair and right that we ask Judge Sotomayor how she can square that decision in the Didden case with the plain meaning of the fifth amendment to the Constitution and, indeed, even the Kelo case itself.

The third area we need to understand Judge Sotomayor's approach to deciding cases involving employment discrimination. We need to understand how Judge Sotomayor interprets and applies the Equal Protection Clause of the fourteenth amendment, which reads in part:

No State shall . . . deny to any person within its jurisdiction the equal protection of the laws.

For most Americans, the ''equal protection of the laws'' means just what it says. It means that government cannot treat you differently based on your race or your sex or your ethnicity. It simply means that government cannot legally practice discrimination, including reverse discrimination.

But in a case recently argued to the U.S. Supreme Court called Ricci v. DiStefano, Judge Sotomayor participated in a Court of Appeal's decision which raises legitimate questions about her commitment to the provisions of equal protection of the laws in the Constitution. At least I think it raises questions that we need to ask her to respond to and to hopefully clarify her views on whether government can lawfully discriminate based on skin color.

The facts of that case—the case involves firefighters in New Haven, CT. The fire department established a testing program to ensure a fair process in deciding who would be promoted to captain and lieutenant. The testing was rigorous, and it was not racially biased. It was racially neutral to give everyone a fair chance to succeed in taking the test.

But the government, as it turned out, did not get the results it wanted. The mayor and five commissioners of New Haven felt that not enough African Americans had passed the test, so they threw out the test and refused to promote anyone.

This was unfair to the firefighters who had qualified for promotion. Many of the firefighters were of Italian or Hispanic descent and felt they themselves had fallen victim to racial discrimination by the city government.

In fact, one of the fire commissioners was quoted as saying the department should stop hiring people with too many vowels in their name.

So the firefighters sued in Federal court. The case came before a three-judge panel, including Judge Sotomayor. Judge Sotomayor voted to dismiss the case even before these firefighters had a chance to go to trial. The panel of three judges that she participated in issued a one-page opinion that was unpublished and did not even address these claims for the merits of the case or the constitutional issues brought by these petitioners.

Madam President, I ask unanimous consent to speak for an additional 3 minutes.

The PRESIDING OFFICER (Mrs. HAGAN.) Without objection, it is so ordered.

Mr. CORNYN. The firefighters were disappointed in Judge Sotomayor's decision, and, indeed, some of her colleagues on the bench were shocked by the refusal to even acknowledge, much less address, the claims by these firefighters.

One colleague, Judge Jose Cabranes, appointed by President Clinton, worked to get the case reconsidered by the entire Second Circuit. He wrote that the case might involve ''an unconstitutional racial quota or setaside.'' He said, ''At its core, this case presents a straightforward question: May a municipal employer disregard the results of a qualifying examination which was carefully constructed to ensure raceneutrality, on the ground that the results of the examination yielded too many qualified applicants of one race and not enough of another?''

Judge Sotomayor apparently was not persuaded to answer that question. But thankfully the U.S. Supreme Court will. In a matter of days, we will know the U.S. Supreme Court's decision, which will help the American people understand whether Judge Sotomayor's philosophy is within the judicial mainframe or well outside it.

There are other statements that the judge has made in the course of her long career, including one at Berkeley in 2001, which has received quite a bit of press coverage where she said:

> I would hope that a wise Latina woman with the richness of her experiences would more often than not reach a better conclusion than a white male who hasn't lived that life.

President Obama has said she misspoke. But it is clear that is not the case. Congressional Quarterly reported that she used this language, or something very similar to it, in multiple speeches in 1994 to 2003.

It would be one thing if Judge Sotomayor was simply celebrating her own journey as a successful Latino woman in our country. Every American would understand that, every American would embrace that, because her story is an American success story. And all of us can justly take pride that someone of a humble origin who worked hard and sacrificed has achieved so much in this country.

In particular, the Hispanic community is justly proud of her achievements. She is, indeed, a role model for young people and is a symbol of success.

All Americans can be proud that Hispanics are assuming more and more positions of authority in our society. Indeed, the Bush administration nominated more Hispanic Federal judges than any previous administration. Unfortunately, they have not always received the sort of fair and dignified consideration that Judge Sotomayor will.

Miguel Estrada, who was nominated for the Second Circuit, was not treated respectfully during his confirmation proceedings. He was filibustered seven times, and denied an up-or-down vote on his confirmation.

So I wish to make clear that there is no problem if Judge Sotomayor was simply showing pride in her heritage as we all should as a nation of immigrants. But if it suggests a judicial philosophy that says that because of sex or race or ethnicity, a judge is better qualified and more likely to reach correct legal decisions, I simply do not understand that contention, and I would like the opportunity to ask her about it.

One of her fellow judges contrasted their views by saying:

> . . . judges must transcend their personal sympathies and prejudices and aspire to achieve a greater degree of fairness and integrity based on the reason of law.

I think that is exactly right. So we need to know whether Judge Sotomayor embraces this notion of colorblind justice that most Americans expect from the highest Court in the land. I hope she will be given an opportunity—indeed she will be given an opportunity—to clarify her comments and let us know whether she intends to be a Supreme Court Justice for all of us or just for some of us.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Hampshire.

ORDER OF PROCEDURE

Mrs. SHAHEEN. I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. BOXER. Madam President, if the Senator will yield for a unanimous consent request, I am here to speak on the same subject as she. I wonder if she could expand her request to say that upon finishing, I could have about 5 minutes.

Mrs. SHAHEEN. I am delighted to do so for my colleague from California.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. BOXER. I thank the Senator.

Mr. CARPER. Would the Senator restate her request.

The PRESIDING OFFICER. The Senator from California has requested 5 minutes.

Mr. CARPER. I have been waiting for a while.

Mrs. BOXER. Madam President, I apologize to my colleague. We are here to quickly speak about a very important issue, the murder of a doctor. I didn't want it to be interrupted. I ask unanimous consent that following my remarks, the Senator from Delaware be recognized.

Mr. GREGG. Reserving the right to object, as I understand it, we are supposed to be moving to the supplemental. There is a unanimous consent agreement which has been reached. Hopefully, that will be placed in order.

The PRESIDING OFFICER. The Senate is in a period of morning business.

Mr. GREGG. I object to any more unanimous consents.

Mrs. BOXER. They already passed.

Mr. GREGG. I am objecting to the one the Senator from California just propounded.

Mrs. BOXER. For Senator CARPER? Is there any way we can assuage the Senator? Does he want to take the floor before Senator CARPER?

Mrs. SHAHEEN. Madam President, I believe I still have the floor.

The PRESIDING OFFICER. The Senator has the floor.

CONDEMNING THE USE OF VIOLENCE

Mrs. SHAHEEN. Madam President, yesterday, along with Senators BOXER, KLOBUCHAR, and 43 other Senators, I submitted S. Res. 187, a resolution condemning the use of violence against providers of reproductive health care services to women and expressing sympathy for the family, friends, and patients of Dr. George Tiller.

Unfortunately, the murder of Dr. Tiller was not an isolated incident. Our country has a history of violence against reproductive health care providers. Since 1993, eight clinic workers have been murdered, and there have been hundreds of additional attempted murders, bombings, death threats, and kidnappings. Since 1977, there have been more than 5,800 reported acts of violence against providers and clinics.

My own State has been touched by such acts of violence. In December 1994, a man from New Hampshire killed two workers at clinics in Massachusetts, including a nurse from Salem, NH. Almost 9 years ago, the Feminist Health Center in Concord, NH was burned in an arson attack. These acts of violence are not acceptable. Not only do they violate our laws and lead to human tragedy, but they dissuade medical professionals from entering a field of medicine that is critically important to women across the country.

I realize that the issue of reproductive choice is divisive. I know there are many heartfelt feelings on both sides of this issue and on both sides of the aisle, even within my own caucus. However, I was hopeful that regardless of our differences of opinion on this sensitive issue, the Senate could come together and quickly pass a resolution that rejects the use of violence against reproductive health care providers. Sadly, this is not the case.

My cosponsors and I have tried to pass this resolution by unanimous consent. Unfortunately, some on the other side of the aisle have objected. How disappointing it is that in this country

and in this body, we can't come together to unanimously condemn the use of violence. My cosponsors and I were urged to eliminate references to women's reproductive health care to get this resolution passed through the Senate. We are not going to back down. This country should be able to come together to condemn violence against reproductive health care providers. It is a very sad day when the elected leaders of the greatest democracy on Earth cannot agree to protect those exercising their constitutional rights.

I am pleased to be joined by 45 of my colleagues on this important resolution. We are saddened that we are not able to pass it without objection.

I wish to now read this simple resolution, a resolution condemning the use of violence against providers of health care services to women.

Whereas Dr. George Tiller of Wichita, Kansas was shot to death at church on Sunday, May 31;

Whereas there is a history of violence against providers of reproductive health care, as health care employees have suffered threats, hostility, and attacks in order to provide crucial services to patients;

Whereas the threat or use of force or physical obstruction has been used to injure, intimidate, or interfere with individuals seeking to obtain or provide health care services; and

Whereas acts of violence are never an acceptable means of expression and always shall be condemned. Now, therefore, be it Resolved, That the Senate expresses great sympathy for the family, friends, and patients of Dr. George Tiller; recognizes that acts of violence should never be used to prevent women from receiving reproductive health care; and condemns the use of violence as a means of resolving differences of opinion.

I find it hard to believe that this language condemning the murder of a health care provider and expressing sympathy to a family in mourning could be objectionable.

I yield the floor.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Thank you very much.

Madam President, I want to say to my friend, Senator SHAHEEN, that her words were eloquent here today and that her voice adds so much texture to the Senate. In a very plainspoken way, as is her way, Senator SHAHEEN has told us that regardless of where we stand on this issue, this contentious issue of a woman's right to choose, we should be able to come together when there is violence of any sort from any quarter, right, left, or center. There is no place for violence in any of our debates. That is what makes this such a great country. We debate here. We have had difficult debates here on the issue of a woman's right to choose. Yes, we have. But we decide those issues in this Chamber, in the House, at the White House, and across the street at the Supreme Court. And the Supreme Court has ruled very clearly, in 1973, in Roe v. Wade, that it is legal—legal—for a woman in the early stages of her pregnancy to make this tough choice and get the health care she needs. And, yes, later in the pregnancy, if her health is threatened, if her life is threatened, yes, a doctor can help her in that type of a circumstance.

Here we have many cases where violence is being used, where Web sites are being put up with pictures of doctors and nurses, trying to incite trouble, trying to incite violence, and that is not what the law allows.

With the case of Dr. Tiller, he was a doctor. After this tragedy where he was shot and killed in church—and before that, he had his arm shot, but he continued his work—many, many women came forward to attest to how kind he was to them in their great need.

Dr. Tiller operated within the law. There were those who tried to run him out of town with lawsuits, and he won all of those.

So when a procedure is legal and a doctor is following the rules, to have a murder of a doctor in that circumstance is a tragedy to his family, to his friends, to his patients, and, yes, frankly, to America because it diminishes us as a society.

I want to tell it like it is around here. Every Democrat cleared this resolution and said, yes, we ought to have a chance to bring it to the floor and be voted upon. That is all my colleague wants. She wrote a simple resolution. She read it to you. She wants a vote. Every Democrat said, yes, let's bring it to the floor. If you do not like it, you do not have to vote for it. If you want to change it, make an amendment to change it.

But the Republicans will not clear this resolution. Now, I have to say to the people who may be listening to this debate, hear what I am saying. The Republicans will not allow a vote, will not clear a resolution that simply says, in the resolve clause—and I quote from it—we express ''great sympathy for the family, friends and patients of Dr. George Tiller.'' We recognize ''that acts of violence should never be used to prevent women from receiving reproductive health care,'' and we condemn ''the use of violence as a means of resolving differences of opinion.''

I think my colleague, in her eloquence here, has said it all. I urge those people who are anonymously holding up this resolution, come to the floor, have the courage and the guts to look out at this Chamber and explain why you do not believe we should condemn acts of violence to prevent women from receiving their health care, and come to the floor and explain why you are not ready to condemn the use of violence as a means of resolving differences.

This is the greatest democracy in the world. We will not be the greatest democracy in the world if we decide we are going to take the law into our own hands and kill people with whom we disagree.

So I beg my colleagues on the other side of the aisle to rethink their position because, I can tell you, anyone who does not know Senator SHAHEEN—she was the Governor of a State, she is a great Senator already—she is not going to give up on this. We are going to be here day after day. We are going to ask that this be brought before the body. And we are going to make those who are stopping us from voting on this come to the floor and explain why they cannot join with us.

We know abortion is a contentious issue. We appreciate that. We respect our colleagues' views. Frankly, I totally respect their views on the issue. But I do not respect someone who is anonymously holding up a resolution that condemns violence.

So I am going to work with my colleague. I am very proud of her work on this. I am proud of Senator KLOBUCHAR's work on this. And I want to thank every Democrat in this Senate who said, yes, this resolution is worthy of debate and worthy of a vote.

Madam President, I thank you very much and yield the floor.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. CARPER. Madam President, thank you very much.

75TH ANNIVERSARY OF THE NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Mr. CARPER. Madam President, I take the floor for a few minutes to draw the attention of my colleagues to the fact that there is a birthday this year, a 75th birthday—not the birthday of a Member of the Senate, not a birthday of a Member of the House, but actually it is the 75th birthday of the National Archives and Records Administration. It is 75 years old this year.

My colleague who is presiding today may recall the reception that was held at the National Archives during our orientation for new Senators and their spouses back in November. As it turns out, it was a small group of people who were able to witness and to visually see and read some of the most famous short documents in our Nation's history.

But as it turns out, millions of Americans come every year and visitors from all over the world come each year to visit the National Archives. The National Archives serves as the custodian of some of our county's most precious and historic records and documents, and they have been doing this for something like three-quarters of a century.

I wish to take a moment on behalf of all of my colleagues, Democratic and Republican, and an Independent or two, to thank the men and women who work at the National Archives now—and who

have done that for the last three-quarters of a century—who work diligently to preserve our Nation's history, not just for us but for future generations of Americans and others who will come to our shores to visit here.

Established by Congress to be our Nation's record keeper, the National Archives has the critical mission of storing and protecting our most valuable and our most important documents. In fact, the main Archives facility, which is located not far from where we are gathered here today, is the permanent home of—get this—the Declaration of Independence, our Constitution, and the Bill of Rights.

Thomas Jefferson once said that an educated citizenry will ensure a free society. He was right then. That is right now. Unhindered access to information about our government and leaders is truly critical to the continued health and vibrancy of our democracy.

That is why I am pleased to hear that more than 1 million visitors travel to the National Archives each year to see thousands of documents—the ones I mentioned and others as well—records, and special exhibits. It is no stretch to say the National Archives is one of the most popular agencies in the U.S. Government. That probably comes as a surprise to a lot of us.

But the Archives is not just a tourist attraction. Over the years, the Archives has become an international leader in developing an electrical records archiving system that will preserve digital information in any format—not just for a few years but forever.

Information technology has forever altered our ability to create, access, and search information from any location in the world. Every year, billions—not millions, billions—of documents that shape and inform government decisions are never written down with pen and paper. Instead, these records are ''born digital.'' That means they are created electronically and stored not in a filing cabinet but on computers and on the Internet.

Each year, the Archives preserves more and more information that is essential to understanding our democracy, our history, and our culture. To put it into some kind of perspective, it took eight C–5 military cargo planes to transport all of the paper materials created by the Clinton administration. Imagine that: eight C–5 military cargo aircraft. Following the most recent Presidential transition, it took 20 tractor trailers, 2 Boeing 747s, and a DC–8 aircraft to transport all of President George W. Bush's records. At the same time, the National Archives continues to maintain records from 1775, including the military record of every single veteran in the 20th and 21st centuries. That is no small task.

So I stand here today to give my thanks—really, to give our thanks—to the hard-working folks who work and volunteer their time at our National Archives.

Winston Churchill once said:

A nation that forgets its past is doomed to repeat it.

I think that quote truly sums up the important role of the Archives, not just for our history but for our future.

Madam President, tomorrow I will submit, with a number of my colleagues, a resolution to commend the National Archives and its employees for excellent service over the past 75 years and to wish them many years of additional service.

HEALTH CARE

Mr. CARPER. Madam President, I know my colleague from Wisconsin is standing to speak, so I will be very brief. I just want to take a moment.

While Senator SHAHEEN and Senator BOXER were speaking, I went over and chatted a little bit with one of our colleagues from Texas who was on the floor. We talked a little bit about the debate on health care. As we approach, in a week or two, marking up a health care reform bill in the Finance Committee, he mentioned to me something I very much agree with, the 80–20 rule.

MIKE ENZI, the Senator from Wyoming, likes to talk about the 80–20 rule and why he has been so productive over the years with Senator TED KENNEDY. Senator KENNEDY, obviously, is a liberal Member of the Senate. Senator ENZI is a very conservative Member of the Senate. They get a lot done in the Health, Education, Labor, and Pensions Committee. It is because they follow what Senator ENZI calls the 80–20 rule. They focus on the 80 percent of the stuff they agree on. They set aside the 20 percent they do not agree on, and they really focus on where the most agreement is.

We need to do a similar kind of approach as we prepare to mark up in the Finance Committee the health reform bill, to go along with the areas of work going on in the HELP Committee.

I strongly agree with Senator BAUCUS and Senator GRASSLEY. We need a bipartisan bill. I know many Democrats and Republicans feel we need a bipartisan bill. My fear is, if we do not have a bipartisan bill, we will not be successful ultimately.

While most of the media coverage of the health care debate focuses on the conflict—should we have a public plan or not; tax exclusions; what portion of our benefits should be excluded from taxation; should there be an employer mandate or individual mandate or should there not be—setting all of those things aside, not that they are unimportant, there is huge agreement on a bunch of things that are important that are going to save money, save lives, reduce costs, and provide better health care for people. Part of it is in information technology; make it possible for businesses—large and small but especially small businesses—to get into a purchasing pool to be able to take advantage of much lower rates and have better choices of benefits for their folks; moving toward chronic care to make sure for people who have diabetes that we do not just wait until they get really sick and they have to have arms and legs and feet amputated, but make sure we take care of them early on as we go along.

As to these purchasing pools we are going to create under health care reform, if people have a preexisting condition, they do not get excluded. They can participate as well. We are going to be covering more people for pharmaceuticals. We are going to do a much better job of making sure people who will benefit from a particular pharmaceutical—whether it is a large molecule or a small molecule—will have access to something that is going to help them. We will be smart enough to figure out the pharmaceuticals out there that will not help somebody, so then they will not be taking those.

We are going to be focusing more on primary care, less on fee for service, which drives up the cost of health care. We are going to do a better job of coordinating care and providing medical homes for people as we go forward.

We are going to take examples like that in the neighboring State represented by Senator FEINGOLD. Over in Minnesota, they have this Mayo Clinic, and they figured out how to make the Mayo Clinic provide better health care, with better outcomes, at lower cost than most other places in this country. They took their model and they went down to Florida, where costs were very high for health care. They took the Mayo model to Florida, and they ended up with better outcomes and lower costs in Florida compared to other folks who had been doing business in Florida providing health care for years.

But it is not just the Mayos, it is the Intermountain folks, a nonprofit out in Utah, the Geisinger operation in Pennsylvania. There are a number of good examples out there. Part of what we are going to do through this debate, as we move toward health care reform, is to learn from those examples, go to school on those examples, and be able to put them to work for all of us.

With that having been said, my friend said some people say we are not going to get health care reform done. We have to get it done. We spend more money for health care in this country than any other developed nation on Earth. We do not get better results. If we spend more money, we don't get better results. We can do better than this. Democrats working together with Republicans, we can get there, and let's just not give up.

Thank you, Madam President. I thank my colleague for his patience.

UNANIMOUS-CONSENT AGREEMENTS—H.R. 2346

Mr. INOUYE. Madam President, I ask unanimous consent that with respect to the conference report to accompany H.R. 2346, a motion to waive all applicable rule XLIV points of order be considered as having been made by the majority leader.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. INOUYE. Madam President, I ask unanimous consent that the vote on the motion to waive rule XLIV occur at 2:50 p.m., and that the time until then be equally divided and controlled between the majority leader and Senator GREGG or their designees.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GREGG. Madam President, we are now, then, on the conference report?

The PRESIDING OFFICER. Not at this point in time. Not yet. A request has to be made to go to the conference report.

MAKING SUPPLEMENTAL APPROPRIATIONS FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2009—CONFERENCE REPORT

Mr. INOUYE. Madam President, I ask unanimous consent that the Senate now resume consideration of the conference report to accompany H.R. 2346.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senate will resume consideration of the conference report to accompany H.R. 2346, which the clerk will report.

The legislative clerk read as follows:

Conference report to accompany H.R. 2346, an act making supplemental appropriations for the fiscal year ending September 30, 2009, and for other purposes.

The PRESIDING OFFICER. Under the previous order, a motion to waive all applicable points of order under rule XLIV is considered as having been made by the majority leader.

Mr. FEINGOLD. Madam President, if it is appropriate, I ask unanimous consent to speak for 10 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. FEINGOLD. Madam President, every year I hold a constituent listening session, or townhall meeting, in every county in Wisconsin. After 1,188 of those sessions, I have heard a lot from my constituents on pretty much every issue you can imagine. But one issue in particular stands out, as it has consistently been one of the top issues raised throughout the past 17 years. That issue is, of course, health care.

Again and again—not just in listening sessions but in conversations and phone calls and letters and e-mails—Wisconsinites have talked to me about their struggles to obtain and afford health insurance coverage. Their stories have stayed with me and have been the foundation of my work to push for comprehensive health reform throughout my career in the Senate.

As a freshman Senator, I worked to increase access to long-term care and home and community-based services in the Wisconsin tradition during the 1994 attempt at health reform because I knew how valuable these programs were to my constituents. I continued to fight for real and fair access to affordable prescription drugs by speaking up for seniors during the debate on creating Medicare Part D. I ended up not voting for Part D because I knew it would help pharmaceutical companies before it helped seniors. For years I have tried to get the Senate to address the issue that was foremost in the minds of my constituents.

Frustrated by the inaction, I teamed up with Senator LINDSEY GRAHAM to introduce legislation that sought to break the logjam blocking health care reform legislation. While Senator GRAHAM and I have had very different ideas about how reform should look, we agreed further delay was unacceptable. I know some of my colleagues are now arguing that health care is being rushed through the Senate.

Well, that is not my experience, and I think the Wisconsinites who have been talking about the need for reform for years would agree. That is why I am so excited that the Senate is preparing to consider health reform legislation, and I look forward to reviewing the bills the HELP and Finance Committees are expected to report shortly.

As this debate goes forward, I remain committed to reforming our health care system so every single American is guaranteed good, affordable health care coverage.

Today, I wish to talk about one of the most important elements of any reform, and that is a strong public health insurance option. Frankly, I am disappointed this has become a topic of so much controversy because it is such a fundamental part of making sure we provide the reform my constituents and all Americans deserve. Some have even suggested scrapping a public option in the interests of passing a bill with bipartisan support. Well, I want to pass health care reform, and I hope very much we can do it with bipartisan support, but I am not that interested in passing health care reform in name only. I am not interested in a bill that allows us to somehow tell our constituents we have done something but doesn't address their concerns they have had for so very long. We need real reform, and real reform means a strong public option.

Americans want a health insurance option. According to a recent poll by NBC and the Wall Street Journal, over three-fourths of those polled said they would like the ability to choose between public and private health insurance plans. Providing a public health insurance option does not discriminate against those with preexisting conditions and illnesses, and it will significantly improve the ability of people to access health care.

There are millions of Americans who will tell us their current so-called ''competitive'' market didn't work so well for them because they were denied coverage from the outset, or they were given a benefit plan that covers everything but the diseases they actually have. Health insurance should not be a privilege, but in today's insurance market that is actually what it is. Those who are healthy enough to be approved for coverage, or wealthy enough to afford it, are too often the privileged ones who receive health care. We must shift the competition back to where it should be—on the health insurers competing to provide better coverage at a more affordable rate.

A public health insurance option, if done right, will help shift the insurance market so plans focus on what is best for the patient to thrive instead of plans simply focused on the bottom line.

Just a few weeks ago, Geri Weitzel from Durand, WI, shared her story with me. Geri's husband suffers from renal failure. His medicine costs hundreds of dollars each month, and the family has thousands in medical debt. Geri is doing her best to make ends meet for her family but sometimes has to choose between paying the mortgage on their home or her husband's medical care, without which he will die. Geri told me she came to Washington to share her story because her husband ''is choosing death over debt.'' She worries that they will lose their home, and they have already lost their savings, but above all, she worries she will lose her husband.

With a strong public health insurance option, we can help ensure that Geri and her husband can afford policies that cover their medical bills and can focus instead on getting well.

A strong public health insurance option is one the public can depend on to be available, regardless of preexisting conditions, place of residence, income, age, sex, health status, or job status. It is an insurance option that will be focused on helping the sick get the treatment they need instead of just turning the biggest profit for shareholders. It is also an insurance option that will help the public invest in wellness, disease prevention, primary care, and chronic disease management. A public option will help ensure no matter what, people have access to a health insurance plan that actually meets their needs.

One of my priorities in the health care reform debate—and one of my priorities throughout my whole time in

the Senate—has been fiscal responsibility. It is not enough to pass a bill that expands coverage; we need to do so in a way that reins in runaway health care spending and ensures taxpayer dollars are not wasted. That is another reason we need a strong public health insurance option: because it will help keep costs down for individuals, for employers, and for the government.

Citizen Action Wisconsin estimates that a strong public health insurance option operating in a health exchange could save Wisconsin employers—both private and government—over $1.1 billion each year. For the average Wisconsin family, currently paying around $13,500 a year in health care premiums, this translates to a 33-percent savings, lowering their premiums to just over $9,000 a year.

Now this is real savings. It would have made a big difference to Danine Spencer of Rhinelander, WI. Danine has had a tough 4 years, recovering from multiple conditions which doctors expected to leave her a quadriplegic for life. Danine credits the medical professionals at Froedert Hospital in Milwaukee with helping her reclaim her mobility and, in many ways, her life. While Danine has already made incredible progress, she still has a long way to go.

Fortunately, Danine qualified for disability and Medicaid benefits to cover her medical costs, but she wants to be independent. She wrote me a letter in which she said she ''wants to get off disability very, very badly. I am horribly ashamed that I collect a government check every month. But as it stands, I simply cannot afford private health insurance.''

Danine writes that she has ''heard a public option health insurance plan would sharply lower costs for people like me. Please put everything you have into making sure it is part of the health care reform bill.''

Danine has already overcome incredible challenges. She wants to purchase health insurance but is denied that benefit by the existing system. So a public health insurance option would help ensure that Danine is guaranteed—guaranteed—affordable, high quality health care.

Too often Americans are at the mercy of the insurance companies when it comes to paying premiums and out-of-pocket costs and deductibles. While I commend the growing efforts of select insurers to increase transparency, for the most part consumers have little idea how much procedures cost, where premium dollars go, and whether they are truly getting the best value for their dollar. A public health insurance option would serve as a benchmark competitor for premiums, administrative costs, and benefits packages.

A strong public health insurance option is consistent with a healthy private market and effective private insurance plans. We have several insurers that operate in my home State of Wisconsin that provide great health coverage for their beneficiaries. Responsible insurers should have no trouble competing with a public insurance option on the merits of their plans, but a strong public health insurance option will provide a powerful incentive for less responsible insurers to reevaluate their own cost sharing and benefit plans to ensure that they are actually an attractive option for consumers.

There is another benefit of a public health insurance option which hits particularly close to home. My hometown of Janesville, WI, has one of the highest unemployment rates in the State. Recently, our GM assembly plant ceased production, and other related businesses throughout the community are struggling to stay afloat during these tough economic times. Of course, these challenges are shared by many other communities across the State of Wisconsin. A public health insurance option would be invaluable to families in Janesville and other parts of the State who have recently been laid off because it is a guaranteed, affordable option that can travel with an individual from job to job.

A public health insurance option would also make a tremendous difference to our small business owners who face crippling health care costs while trying to keep their business open.

Health care reform cannot wait. The President has said he wants a health reform bill on his desk by this fall, and I will work hard with my colleagues to make sure we send him a good bill that guarantees every American high-quality, affordable health insurance, and that includes a strong public health insurance option. After so many years of delay and inaction, now is the time to act.

Madam President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. Will the Senator withhold his request?

Mr. FEINGOLD. I withhold.

Mr. GREGG. Madam President, I rise to speak on the supplemental. Did the chairman wish to speak?

Mr. INOUYE. No, go ahead.

Mr. GREGG. I am happy to yield to the chairman if he wishes.

Mr. INOUYE. Please proceed.

Mr. GREGG. Madam President, first off, this is a very important piece of legislation. I congratulate the chairman and the ranking member, Senator COCHRAN and Senator INOUYE, for bringing it forward. It is critical that we adequately fund our troops in the field. This is our first responsibility as a government when we have troops in the field in harm's way—to give them the resources they need in order to protect themselves and defend our liberties. So this is a very important piece of legislation, and it must pass. It simply must pass.

However, ironically, as occasionally occurs around here—but in a piece of legislation that is this important to our troops shouldn't occur—this legislation had air dropped into it by the House of Representatives something that has nothing to do with our troops fighting in the field, and that is a bill called the cash for clunker bill.

I have no personal or philosophical disagreement with the concept of purchasing automobiles that are high-mileage vehicles, and they use a lot less gas, and exchanging them for lower mileage vehicles as an attempt to revive the economy and the auto industry and at the same time, hopefully, accomplish some environmental protections. I would simply note, however, that this bill that was air dropped into this legislation doesn't accomplish that.

Basically, this is a bill that was drafted in the House without the input of the Senate. There was a much better bill in the Senate—Senator FEINSTEIN and Senator COLLINS had it—which would have actually meant some mileage differential would have occurred, but it was not allowed to be put in because the bill, as it was put into the conference report, was unamendable.

So the bill itself is flawed because it basically only allows—it allows you to exchange your car and get money for your car, but the increased mileage on the new car you buy only has to be a mile or two a gallon, which is virtually nothing. It has virtually no impact.

So the philosophy of the bill itself is flawed. But the real problem with this bill, besides the fact it is in a piece of legislation it shouldn't be in, is the fact that it is totally unpaid for. It is $1 billion of new costs put on our children's shoulders. It is $1 billion of new spending put on the Federal debt. We already know the Federal debt isn't sustainable. Almost every day we are hearing international purchasers of our debt—whether it be China or whether it be Russia or whether it be international economists or economists in the United States—saying the American debt situation has gotten out of control, and that we are at risk as a nation of having a situation where the cost of our debt will go up dramatically because we are putting so much debt on the books.

Under the President's budget, the deficit of the government will be a trillion dollars a year, on average, for the next 10 years. We will be running deficits of 4 to 5 percent of gross national product. The deficits will equal 80 percent, and we will have a debt that will equal 80 percent of the GDP. Just within the next 3 years, it will be 60 percent of the GDP. At the end of 10 years, it will be 80 percent.

What does that mean? It means we will have a debt and a deficit situation

that will lead us down the road to having a government we cannot afford and our children cannot afford. Ironically, as I said before, our debt is getting so out of control and our deficits are getting so high and out of control that if we as a nation tried to enter the European Union, which is a group of industrialized countries that has rules as to what a country can do in the area of debt and deficit for solvency reasons, we could not get in because their rules say you cannot have a debt or deficit of more than 3 percent, and your debt-to-GDP ratio cannot exceed 60 percent. Latvia or Lithuania or some other nation might be able to get into the European Union, but we could not.

Our debt is an incredibly serious problem for us as a nation and for our children. The irony is, the bill that was airdropped into the defense bill, designed to pay for the troops in the field, came on the exact same day that the President of the United States and the Democratic leadership of the Congress met down at the White House to announce they were going to reinstitute the pay-go rules. What are the pay-go rules? The pay-go rules require that when you spend a dollar, you pay for it; when you create a new program, you pay for it. The President, with great fanfare, said the Democratic leadership of this government—the President and leadership of the Congress are going to put into place the pay-go rules. All future spending will be subject to pay-go rules, with a few exceptions he listed, which were pretty big exceptions.

He didn't list this bill, which spends a billion dollars and is not paid for.

After that press conference, which occurred around 12:30 in the afternoon, the House of Representatives passed the cash for clunkers bill, which spent $4 billion dollars, and it wasn't paid for. That bill added $4 billion of new debt to our national debt—debt which will be paid by these young people up here, who are pages today, when they get jobs. What excuse do we have as a government for passing a bill to purchase cars today and sending that bill to our children and grandchildren as part of the debt we are passing onto them? It is inexcusable. It would be easy enough to pay for this bill. There are innumerable places in the government, which is spending trillions of dollars a year, to find a billion dollars to pay for this bill if it was a priority.

Clearly, if the President and the Democratic leadership are going to call on us to follow pay-go rules, we should follow them—at least for a day. They couldn't even get through a day without violating the rules they said they were going to follow—a billion dollars of new spending, which is unpaid for. Whether you agree with the policy of the bill or not—this cash for clunkers bill—the issue is it spends a billion dollars and doesn't pay for it and adds it to the national debt, which is out of control. The American people know it is out of control, and it is inexcusable that this Congress cannot discipline itself.

I have made a point of order that doesn't bring down the bill and doesn't harm our ability to fund the troops in the field. I made a point of order under a new point of order that was put into place at the beginning of this Congress by the Democratic leadership of this Congress in the Democratic body. This was a good rule. It was put into place by a bill entitled the ''Honest Leadership and Open Government Act.'' Again, it is the Honest Leadership and Open Government Act. Its primary sponsor was Senator REID, and its second sponsor was Senator DURBIN, along with Senator SCHUMER and Senator STABENOW.

The bill was structured for the purpose of not allowing what happened with this defense bill, which is that people airdropped it into special interest legislation—unpaid for in this case. It is called rule XLIV, and I believe it is section 8. It says, essentially, that in a conference you cannot put in new language that was not part of that conference and which is targeting direct spending for the purpose of benefitting some defined group—in this case, for the purpose of passing the cash for clunkers bill. You cannot put it in. The rule says that. Why was it created? Because too often around here, this type of mismanagement of our finances occurs. People go into a conference and they know they have a train that is going to leave the station and, in this case, everybody wants to support the troops in the field and we are going to fund them. So they put in the conference all sorts of extraneous things that are inappropriate to that bill. It has become a pandemic. The Democratic leadership, much to their credit, passed the Honest Leadership and Open Government Act. They put in rule XLIV, section 8, which says that exactly what happened with this language should not happen.

I congratulate the chairman of the committee, Senator INOUYE, because he has resisted, aggressively, allowing this type of action to occur. But in this case, the House of Representatives gave him no option. They put the language in over, I presume, some debate.

So this motion will knock out this language. It doesn't defeat the bill. The bill can be sent back to the House and it can pass. It would take another couple hours, at the most, to pass it. If people want to bring back the cash for clunkers bill, they can do it as a free-standing bill and, hopefully, they can do it by paying for it. That is the way it should be done. It violates another rule, which is the pay-go rule.

So this motion to waive is going to be the first test of this Congress on three critical issues. First, are we going to do something about the debt of this Nation? Are we going to start paying for new programs that we know are politically attractive? Every auto dealer in America wants this language included in the bill. Are we going to pay for it? Second, are we going to live by the rules that were put into place by the Democratic leadership in the Honest Leadership and Open Government Act? Third, are we going to live by the statement made by the President, surrounded by the Democratic leadership of the Congress, that pay-go would be the new way we will enforce fiscal discipline? Those are three major issues that will be addressed by this vote.

Members who vote to waive this rule will be voting to pass a billion dollars of debt on to our children, on top of the trillions we are already putting on their backs. They will be voting to waive a rule that was put in by the Democratic leadership for the purpose of avoiding this type of action—this exact type of action. They will be voting to override the pay-go rules, which many Members have so wrapped themselves in as the way they are going to fiscally discipline this place.

I hope people will not vote to waive this point of order, sustain this point of order, move forward on the supplemental, fund the troops; and let's not add a billion dollars of unnecessary debt on an extraneous program to the troop funding.

I yield the floor, and at the appropriate time, I will yield to Senator GRASSLEY such time as he may desire.

The PRESIDING OFFICER. The Senator from Hawaii is recognized.

Mr. INOUYE. Madam President, I rise in support of the conference agreement on H.R. 2346, the supplemental appropriations bill.

The compromise agreement, which has been worked out in a full and open conference between the two Houses, represents the hard work of our conferees.

As has long been the tradition of the Appropriations Committee the compromise package before the Senate reflects the deliberations of our twelve subcommittees. Each subcommittee has items in this measure and I am pleased to note that all of our subcommittees were able to reach agreement with their House counterparts.

As such, the bill before us represents a balanced compromise between the issues and funding recommended by the House and by the Senate.

As in any compromise neither body, nor individual Member, received everything he or she sought.

The House has agreed to support funding for the International Monetary Fund and the Senate has agreed to compromise language on how we deal with the detainees at Guantanamo. But, it is a fair compromise which I believe all Members should support.

At $105.9 billion, the conference agreement is $14.6 billion above the

amount recommended by the Senate. However, it is important to point out to my Senate colleagues that nearly half of this increase represents additional funding for swine flu. This funding was included in response to a budget amendment submitted by the administration following Senate passage of this bill.

The managers of our Labor HHS subcommittees have responded to the potential need for additional swine flu resources by providing more than $7 billion in funding, of which nearly $6 billion is contingent upon the administration submitting additional requests for funds. We have been advised that funding may be required this summer to prepare for an outbreak next fall in the United States if the virus mutates over the next few months.

If that occurs, the American public can be assured that we will be ready. I can also promise my colleagues that our Labor-HHS subcommittee will be monitoring the flu virus and closely watching the administration's efforts to respond to this potential crisis.

Regarding the remaining increase above the Senate bill, the conference agreement funding levels are between the amounts recommended by the two bodies.

The bill includes the funding level sought by the House for the Department of State and ''splits the difference'' in the amount recommended by both bodies for defense and military construction.

One provision of note that was deleted from the measure relates to the public release of photographs of detainees. The Senate agreed to drop this provision only after the President sent a letter to Chairman OBEY and myself assuring us that he would not release the photographs in question.

While many of us support the intent of this amendment, it was clear that including the amendment would jeopardize passage of the bill in the House. That result would not have been an acceptable outcome.

Mr. President, this is a fair compromise and one which is worthy of the support of every Member of the Senate.

I understand that there may be one or two items that not all Members agree with, but I would remind my colleagues that this is a must pass bill. The funding in this bill is critical to the Defense Department in continuing to support our servicemen and women fighting in Iraq and Afghanistan.

I would point out that if we cannot pass this bill, we will shortly run out of funds to pay our service members and to ensure funds are available to support the readiness of all our forces, not just those serving in Southwest Asia.

I want to thank my vice chairman for his counsel and support as we have worked through several difficult issues.

We have forged this agreement together. I would note that there were 30 Senate conferees on this measure and 27 signed the conference agreement.

Finally, I wish to thank all of our subcommittee chairmen and ranking members and their staffs for their hard work. This conference agreement would not have been possible without their efforts.

I yield the floor.

The PRESIDING OFFICER (Mr. UDALL of Colorado). The Senator from Iowa.

Mr. GRASSLEY. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

TREATMENT OF COMMITTEE WITNESSES

Mr. GRASSLEY. Mr. President, last week, there was a disturbing occurrence on the other side of the Capitol that I believe needs to be brought to the attention of my colleagues in the Senate.

On Tuesday, June 9, the Subcommittee on Energy and the Environment of the House Energy and Commerce Committee held a hearing on allowance allocations policies in the Waxman-Markey climate change bill. One of the witnesses who volunteered to testify before the subcommittee was David Sokol, chairman of MidAmerican Energy Holdings Company, based in my State of Iowa, in the capital city of Des Moines.

We are all very well aware there are very divergent opinions on the so-called cap-and-trade program advocated by Chairman WAXMAN and Subcommittee Chairman MARKEY. Hearing witnesses are typically invited to share different positions and offer different perspectives on prospective policies. That was the case with the MidAmerican CEO. His company supports the cap on emission reductions in the bill but strongly opposes the trading component.

In Mr. Sokol's testimony, he made clear his position that the trading mechanism in the Waxman-Markey bill will impose huge costs on customers. The costs will come in two ways: First, to pay for emission allowances, which will not reduce greenhouse gas emissions; and then for the construction of new, low, and zero carbon powerplants that will actually reduce emissions. So in those two ways, customers pay. He indicated MidAmerican's customers would see an increase in electricity rates of somewhere between 12 percent at the low end and 28 percent at the high end under the climate bill now before the other body.

It appears that Chairman MARKEY did not appreciate the criticism leveled at his bill by Mr. Sokol. During the hearing, a letter was sent by Chairman MARKEY's office to the Federal Energy Regulatory Commission requesting information about MidAmerican's investment and other activities since the 2005 repeal of the Public Utility Holding Company Act—the short term around here, or acronym, is PUHCA.

The six-page letter also requested a reply from FERC within 2 days, ''in order to better inform the Subcommittee's deliberations on this matter.''

However, the 2005 repeal of PUHCA has absolutely nothing to do with Chairman MARKEY's climate change bill. It appears it is more than a coincidence that Chairman MARKEY was firing off a six-page letter concerning MidAmerican while the CEO was making critical comments on his bill before his committee. This appears to be a blatant use of power to intimidate a witness whose opinions differ from the chairman.

It has recently been reported that Chairman MARKEY was unaware that the letter was being sent at the time, and I would accept his position on that. Once the letter was brought to his attention, Chairman MARKEY realized how inappropriate it was and subsequently sent another letter to FERC clarifying his inquiry. This seems to indicate that there are unnamed committee staff who are trying to intimidate and prevent detractors from speaking against their climate bill. These types of strong-arm tactics should not be tolerated.

What lengths are proponents willing to go to if they are willing to intimidate people who disagree with them? Are they so unsure of their own position that they have resorted to apparent retribution to silence their critics? Quite frankly, those in the Senate should be skeptical of legislation that is advanced with such zeal that witnesses are being threatened with intimidation if they oppose it, whether that is by staff writing a letter or any other way.

Policymaking is a very complicated process. It is one that depends on the honest and forthright input of outside experts and stakeholders to give information; obviously, not to twist arms. After this incident, it seems the process going on in the House of Representatives is not open and fair to those who are critical of the Waxman-Markey bill. We owe it to the American public to restore this process to a more dignified level and assure all witnesses before Congress that they will be treated fairly and with respect, regardless of whether they agree or disagree with the chairman and/or staff.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. INOUYE. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. INOUYE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUYE. Mr. President, I ask unanimous consent that the time during the quorum call be equally divided between the two parties.

The PRESIDING OFFICER. Is there objection?

Hearing no objection, it is so ordered.

Mr. INOUYE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEVIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEVIN. Mr. President, what is the time agreement?

The PRESIDING OFFICER. The majority has 36 minutes remaining.

Mr. LEVIN. I ask unanimous consent that I be yielded 4 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

CASH FOR CLUNKERS

Mr. LEVIN. Mr. President, one way to stimulate a key part of our economy—auto sales—is to establish a so-called fleet modernization or cash for clunkers program that would provide a voucher for purchase of new vehicles to those turning in their older less fuel efficient vehicles. This program will encourage people to purchase new more fuel efficient vehicles and will both stimulate the sale of new vehicles and reduce overall fuel consumption and greenhouse gas emissions. By providing incentives for the purchase of new more fuel efficient vehicles, this program will provide a much-needed boost to the struggling auto industry, including manufacturers, dealers, suppliers and other related industries.

New vehicle sales of all auto companies in the world continue to suffer as we weather this unprecedented downturn in the U.S. economy. Since the end of last year, we have seen a decrease in sales of 30 to 40 percent over the same period a year ago. Therefore, it is imperative that we turn around this sales decline, and one way to help is with incentive programs such as the cash for clunkers program. Legislation to implement such a program was first passed by the House of Representatives as a stand-alone measure and has now been included as part of the Supplemental Appropriations Act before the Senate. Including this measure in this critical legislation will allow this program to be implemented quickly and begin to have a positive effect on the economy.

There is strong evidence that this type of program will work. Nearly every major industrialized country in the world with an auto industry has now some kind of vehicle scrappage program in place and there is documented evidence of increased sales. Germany has seen an increase in new vehicle sales of 25 to 40 percent since its program was implemented earlier this year. China saw an increase in new vehicle sales of 15 percent in March after its program was implemented. France has seen an increase in vehicle sales of 8 percent since its program was implemented at the end of 2008. Other countries—such as Japan and Korea—have more recently followed suit and implemented programs like this. It is too early to have sales data for these countries, but they are expected to show similar positive increases in sales of new vehicles.

Under the legislation passed by the House and included in the supplemental, an individual would be able to bring in an eligible older and less fuel efficient vehicle and receive a voucher for a new more fuel efficient vehicle. To be eligible to be turned in, the old vehicle would need to have a fuel economy value of 18 miles per gallon or less, or in the case of a work truck, be older than a 2002 model. The individual turning in the old vehicle would then receive a voucher for a new vehicle. The minimum threshold for the new vehicle purchased would be 22 miles per gallon fuel economy for new passenger cars, 18 miles per gallon fuel economy for new light duty trucks, and 15 miles per gallon fuel economy for new large trucks.

The amount of the voucher received for a new purchase would depend upon the incremental improvement in fuel economy of the new vehicle over the old vehicle. Individuals would receive a voucher of no less than $3,500 toward purchase of the new vehicle, but could receive as much as $4,500 based upon the fuel economy value of the new vehicle. Higher fuel economy, therefore, would bring higher savings—thereby creating a positive incentive for individuals to buy the most fuel efficient vehicles available. To ensure that the older less fuel efficient vehicle would not be used on the road again, the old vehicle would be taken to a registered disposal facility where it would be destroyed by dismantling the drive train and engine block. Any value of other used car parts would be protected, however, as these parts could be sold separately by the disposal facility.

The compromise before the Senate provides a well-crafted and balanced fleet modernization program. It will accelerate national economic recovery by stimulating up to an estimated 1 million new vehicle sales while at the same time pushing consumers toward purchase of more fuel efficient vehicles. This legislation is based upon months of work to develop a compromise among the administration, the auto companies, environmental organizations, and auto dealers. It provides a reasonable compromise and establishes a solid program that will give consumers with older vehicles an immediate cash incentive to purchase new more fuel efficient cars and trucks. By including a hierarchy of cash vouchers for purchase of new vehicles that increases the amount available for the most fuel-efficient new vehicles, this legislation will both stimulate the economy and encourage consumers to purchase more fuel-efficient vehicles. This legislation strikes the appropriate balance between economic stimulus and fuel efficiency.

The proposal before us today keeps the focus on the primary purpose of this effort—to stimulate the U.S. economy by providing an incentive for individuals to turn in their older less fuel efficient vehicles and purchase a new more fuel efficient vehicle. It provides the proper balance—it encourages consumers to purchase more fuel efficient vehicles by including a hierarchy of incentives that offer a greater amount for a more fuel efficient vehicle. Stimulating vehicle sales while also getting older less fuel efficient vehicles off the road is surely an important national goal.

I yield the floor.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. INOUYE. I wish to associate myself with the remarks of the senior Senator from Michigan.

I suggest the absence of a quorum, and I ask that the time be charged equally.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CONRAD. Mr. President, I rise to offer for the Record the Budget Committee's official scoring of the conference report to accompany H.R. 2346, the Supplemental Appropriations Act, 2009.

The conference report includes $105.9 billion in discretionary budget authority for fiscal year 2009, which will result in outlays in 2009 of $30.5 billion. Of this budget authority, $90.7 billion is designated as being for overseas deployments and other activities pursuant to S. Con. Res. 13, the concurrent resolution on the budget for fiscal year 2010. This results in new outlays of $27 billion in 2009. The conference report also includes $16.2 billion in emergency discretionary budget authority, which results in outlays of $3.5 billion in 2009. Finally, the conference report includes rescissions of existing budget authority and other changes that result in −$1 billion in regular budget authority and −$37 million in 2009 outlays.

The conference report includes several emergency designations each of which is subject to a point of order established by section 403 of the 2010 budget resolution. In addition, the conference report includes language relating to credit scoring that is within the jurisdiction of the Budget Committee and as a result is subject to a point of

order under section 306 of the Congressional Budget Act. Finally, the conference report includes several provisions that make changes in a mandatory program—CHIMPS—that result in an increase in direct spending over the 9-year period, 2011–2019. Each of these provisions is subject to a point of order established by section 314 of the 2009 budget resolution.

I ask unanimous consent that the table displaying the Budget Committee scoring of the conference report be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

H.R. 2346, SUPPLEMENTAL APPROPRIATIONS ACT, 2009 CONFERENCE REPORT

[In millions of dollars]

	Overseas deployment and other activities	Regular	Emergency	Total funding
Conference Report:				
Budget Authority	90,730	−1,048	16,169	105,851
Outlays	27,029	−37	3,530	30,522

Mrs. LINCOLN. Mr. President, I rise to thank my colleagues for their support of my amendment to the Federal Deposit Insurance Act with respect to the preemption of certain interest rate limitations that are applicable to the State of Arkansas. The adoption of this provision in the 2009 Supplemental Appropriations Act will aid in the economic recovery of Arkansas as demonstrated in the various letters from Governor Beebe, the Arkansas congressional delegation and the related data and communications that are to be printed in the record after my remarks.

With regard to the amendment itself, it is the intention of the drafters and the Senate, that despite the ordering of its paragraphs, the language concerning the uniform accessibility of provisions of the American Recovery and Reinvestment Act of 2009 are to apply to all bonds and obligations issued under that act for all purposes for which bonds under the act may be issued and are not limited to matters associated with housing. Without this amendment, Arkansas may not have ready access to the same Federal programs to which our sister States have access. Again, thanks to my colleagues for recognizing that the economy of and commerce in Arkansas affects and is affected by every other State and their respective commerce.

I ask unanimous consent that the following documents be printed in the RECORD as supporting documentation of the intent and reasoning behind this important provision: (1) a letter from Arkansas Governor Mike Beebe dated May 14, 2009, (2) a letter from Arkansas Governor Mike Beebe dated March 14, 2008, (3) a letter from the Arkansas Congressional Delegation dated May 14, 2009, (4) a letter from the Council of Development Finance Agencies dated May 29, 2009, and (5) Presentation to the Arkansas House Committee on State Agencies and Governmental Affairs regarding a proposed State constitutional amendment to deal with this issue. The inclusion of these documents serves to make clear our intent regarding this important provision.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MAY 14, 2009.

Hon. BLANCHE LINCOLN,
Dirksen Senate Office Building,
Washington, DC.

DEAR SENATOR: The American Recovery and Reinvestment Act of 2009 (ARRA) provides the first significant improvements to the federal public-finance legislation in decades. The municipal finance industry, cities, counties, and state finance agencies will have until 2011 to utilize the new authority given by Congress.

Unfortunately, governmental entities in Arkansas are still subject to provisions in the Constitution of Arkansas that impose interest-rate limits and restrict our use of the ARRA funds. The State is currently taking steps to amend our Constitution with respect to interest-rate controls, but such changes, if approved, will not become effective in time for the State to be able to fully participate in the National Recovery by utilizing these new financing tools,

In light of the negative impact of the current restrictions in the Arkansas Constitution, we respectfully request a temporary federal preemption of State interest-rate limits until January of 2011 for those federal programs that deal with public-finance matters addressed in ARRA.

The amendments and modifications in ARRA provide for more participation from investors, from private industry, and from governmental entities. We need temporary relief from the controls in Arkansas so that our State may participate fully in the development activities and the improved finance capacities enjoyed by the rest of the country. Thank you for your attention to this critical matter.

Sincerely,

MIKE BEEBE.

MARCH 14, 2008.

Senator BLANCHE LINCOLN,
Dirksen Senate Office Building,
Washington, DC.
Senator MARK PRYOR,
Dirksen Senate Office Building,
Washington, DC.
Representative MARION BERRY,
Rayburn House Office Building,
Washington, DC.
Representative MIKE ROSS,
Cannon House Office Building,
Washington, DC.
Representative JOHN BOOZMAN,
Longworth House Office Building,
Washington, DC.
Representative VIC SNYDER,
Longworth House Office Building,
Washington, DC.

DEAR FRIENDS AND COLLEAGUES: As you know, Arkansas is the only state that has a prescriptive usury provision in its constitution. With regard to some commercial transactions, this usury provision poses a problem for those entities that are not removed from its authority via federal preemption.

In recent years, Congress has enacted several laws preempting the Arkansas usury provision for Arkansas banking institutions, auto finance companies, and other similar entities, However, the usury provision is still applicable to certain transactions involving governmental entities, as a federal preemption has not been granted in their favor.

The recent reduction of the primary credit discount rate by the Federal Reserve Bank in its efforts to stimulate the economy has exposed the negative effects that the Arkansas usury provision can have on particular governmental entities. While the rate reduction may benefit the overall economy, it also has resulted in the reduction of the Arkansas usury limitation to 8.5 percent currently, with a likely decrease to 8 percent in the near future. This low usury limitation makes it exceedingly difficult for transactions that are mandated by the federal government or that are for the purpose of implementing federally established programs to take place.

Specifically, due to the Arkansas usury limitation, the Arkansas Student Loan Authority (ASLA) is finding it more and more difficult to finance activities that allow it to make student loans available for Arkansas students. Current distresses in the financial markets and the recent changes to the federal student loan program have greatly impacted the student loan industry. The credit market situation is predicted to worsen before experiencing improvement. Although ASLA has financial stability, it will need additional capital to fund loans when they reach the point that they are unable to continue recycling loan funds. The Arkansas usury provision is currently acting as a barrier to additional capital, as banks are not willing to accept bonds that may be limited by the current low usury rate. This is a problem that not only plagues ASLA, hut also affects the manner in which the Arkansas Development Finance Authority (ADFA) implements its single-family mortgage program and its multi-family programs, as well.

Accordingly, I am asking you to consider enacting legislation that would grant a usury preemption provision in those instances when either a governmental or a private entity, such as ASLA or ADFA, is responsible for carrying out federally mandated programs or implementing federally established programs. We believe that when so expressed, the Congress's ability to preempt state usury laws under the commerce clause is broad enough to cover the federal preemption suggested. Representatives of both ASLA and ADFA have been working on a draft usury-preemption provision, and they, along with a representative from my office, will be contacting your office regarding this issue. I am hopeful that this can be

accomplished in a manner similar to the preemption granted to Arkansas banking institutions through the Gramm-Leach-Biley Act.

This is a developing matter of some urgency, and I very much appreciate your cooperation and consideration with regard to this issue.

Cordially,

MIKE BEEBE.

CONGRESS OF THE UNITED STATES,
Washington, DC, May 14, 2009.

Hon. HARRY REID,
Senate Majority Leader, U.S. Senate, Washington, DC.

Hon. MITCH MCCONNELL,
Senate Minority Leader, U.S. Senate, Washington, DC.

DEAR LEADERS REID AND MCCONNELL: As members of the Arkansas delegation, we are requesting your support for an amendment we will be offering to the Credit Cardholders' Bill of Rights Act of 2009 (H.R. 627) during Senate consideration. This is a critical legislative proposal that will provide temporary relief for an Arkansas-specific interest rate problem that is having a severe impact on Arkansas students, consumers, and businesses, as well as our municipalities and state government.

Arkansas is the only state in the nation with a constitutionally-defined, artificially low interest rate limit that is tied to the Federal Discount Rate. Under current law, the interest rate on special-revenue bonds and non-bank consumer loans may not exceed five percent above the Federal Discount Rate, currently set at .50 percent. Other bonds are capped even lower, at 2 percent above the Federal Discount Rate. As a result, Arkansas' state and local governments, public universities, and utilities in search of financing for construction and improvement projects are severely hampered by the current limit; as are Arkansas consumers, who are facing a lack of credit availability.

Practically speaking, the current interest rate limit in Arkansas on all non-bank lending is no higher than 5.50 percent. Not surprisingly, this low rate of interest has contributed to bond investors looking to other states across the country where their yields will be much higher, as well as credit rationing by non-bank lenders that have been forced to restrict funds to consumers, particularly now when capital is hard to come by.

Although we understand the Federal Reserve's actions in recent months to continue lowering the Federal Discount Rate were intended to combat the economic crisis and stave off a further decline in our financial markets, their actions have only exacerbated the economic challenges faced in our state. Additionally, many of the tools put in place in the American Recovery and Reinvestment Act earlier this year to jumpstart our economy, such as the Recovery Zone Bonds and the Build America Bonds, are not available in our state because of our lack of competitiveness in the bond market. As stated in a recent Arkansas Democrat-Gazette article on this issue:

''The bond market has responded to the Build America program. Since its introduction, investors have purchased $8 billion in offerings, providing the bulk of activity in the taxable-bond sector. Arkansas is not in position to take part.''

This is an issue that impacts Arkansas alone and Arkansas does indeed intend to fix the problem. However, we can't do so immediately because this archaic clause in Arkansas law must be rectified through a statewide ballot initiative. Therefore, a proposal to permanently modify this outdated law will be voted on by the people of Arkansas, but not until the next statewide ballot in 2010. Unfortunately, the economic challenges our nation now faces are magnified in our state because of this problem and immediate, emergency intervention is essential.

There is precedent for Federal action on this issue, as the U.S. Congress enacted an Arkansas-specific provision to exclude Arkansas bank lenders from this exact interest rate limit in 1999, The amendment we are offering today is more limited in scope, allowing only a temporary relaxation of the current interest rate limit to a more reasonable level, not to exceed 17 percent; and it would only be in effect until the state ballot initiative is considered. This is merely a bridge to get us through the immediate crisis and to a point when our state can permanently address the problem next year.

This is a matter of great urgency for our state. We hope we can count on your support and look forward to discussing further if you have any questions or concerns.

Sincerely,

BLANCHE L. LINCOLN,
U.S. Senate.
MARK PRYOR,
U.S. Senate.
MARION BERRY,
Member of Congress.
VIC SNYDER,
Member of Congress.
JOHN BOOZMAN,
Member of Congress.
MIKE ROSS,
Member of Congress.

COUNCIL OF
DEVELOPMENT FINANCE AGENCIES,
Cleveland, OH, May 29, 2009.

Hon. BLANCHE LINCOLN,
U.S. Senate, Dirksen Senate Office Building, Washington, DC.

DEAR SENATOR LINCOLN: The Council of Development Finance Agencies (CDFA) respectfully urges support and passage of the temporary federal preemption on municipal interest rates until December 31 of 2010 for those federal programs dealing with public finance matters addressed in the American Recovery and Reinvestment Act (ARRA). This preemption was proposed by Senator Lincoln as an amendment to H.R. 2346, a supplemental spending bill. It is a measure that would provide significant benefits to the State of Arkansas.

Most of the ARRA provisions only have a two-year window. Unfortunately, the governmental entities in Arkansas; state agencies, state bond authorities, cities and counties are still governed by the provisions in the Constitution of Arkansas that control interest rate limits. The State of Arkansas is taking steps to amend their Constitution with respect to interest rate controls. HJR 1004 has been referred by the State Legislature to the Arkansas voters during the 2009 legislative session. HJR 1004 is a proposed constitutional amendment that will remove the ceiling on interest rates for governmental units. That vote will be decided at the general election in November of 2010, which would essentially prevent Arkansas from utilizing the two-year provisions, including Build America Bonds.

CDFA is a national association dedicated to the advancement of development finance concerns and interests. We have a long history of working with Arkansas agencies that would be positively impacted by this amendment, including the Arkansas Development Finance Authority (ADFA). They have been a longtime member and active on our Board of Directors. ADFA is one of the leading development finance agencies in the country and was recognized as having the best industrial development bond program in 2006 by CDFA. ADFA is also one of 10 organizations highlighted as case studies in CDFA's recently published book, the Practitioner's Guide to Economic Development Finance.

In light of the negative impact of the restrictions embedded in the Arkansas Constitution, CDFA respectfully requests a temporary federal preemption on interest rates until December 31 of 2010 for those federal programs dealing with public finance matters addressed in ARRA. This exemption would allow ADFA and other Arkansas agencies access to financing tools that would allow them to issue debt and finance new projects at significant cost savings to Arkansas taxpayers.

Sincerely,

TOBY RITTNER,
President & CEO.

PROPOSING A CONSTITUTIONAL AMENDMENT TO REMOVE FROM THE CONSTITUTION INTEREST RATE LIMITS ON BONDS ISSUED BY AND LOANS MADE BY OR TO GOVERNMENTAL UNITS

LEGAL HIGHLIGHTS

The proposed amendment eliminates constitutional interest rate limits currently applicable to governmental units.

The proposed amendment provides that the General Assembly shall have the power to establish interest rate limits.

The proposed amendment removes the interest rate limit on city and county bonds backed by taxes (such as sales, property, and hotel/restaurant taxes) which must be voter approved. Amendment No. 62 sets the limit at 2.00% above the Federal Discount Rate on the date of the election approving the bonds. The Federal Discount Rate is currently .50% which produces an interest rate limit of 2.50%.

The proposed amendment removes the interest rate limit on revenue bonds. Amendment No. 65 that authorizes revenue bonds to be issued without an election states that Amendment No. 60's interest rate limit is to apply to revenue bonds. That limit is 5.00% above the Federal Discount Rate when the contract or bond purchase agreement is signed. The Federal Discount Rate is currently .50% which produces an interest rate limit of 5.50%.

Any agreement that provides for an interest rate that is variable over its term is currently controlled by the initial limit established when a contract is signed, without regard to market changes over the term of the agreement.

The proposed amendment removes the interest rate limit on loans made by governmental units, including State Agencies that have project loan programs such as the Arkansas Development Finance Authority and the Arkansas Natural Resources Commission. The Amendment No. 60 limit mentioned above applies to such programs (5.00% above the Federal Discount Rate on the date any program loan agreement is signed, currently 5.50%).

The proposed amendment removes the interest rate limit on short term financing for cities and counties. Amendment No. 78 that authorizes short term financings sets a limit based upon one year U.S. treasury obligations. The limit changes quarterly.

Examples of Planned or Pending Bond Issues Impacted by Arkansas' Interest Rate Limitation

Issuer	Type of Issue	Project	Status	Approximate Par Amount
Arkansas Methodist	Revenue	Hospital Improvements	Restricted by Interest Rate Limit	$ 10,000,000
Arkansas Student Loan Authority	Revenue	Funding Student Loans	Restricted by Interest Rate Limit	800,000,000
Bradley County	Sales Tax	Hospital Improvements	Restricted by Interest Rate Limit	4,500,000
Children's Hospital	Revenue	Various Improvements Including: New Patient Tower and Utility Upgrades	Restricted by Interest Rate Limit	100,000,000
Conway Regional Medical	Revenue	Hospital Improvements	Restricted by Interest Rate Limit	30,000,000
City of DeWitt	Sales Tax	Street Improvements	Restricted by Interest Rate Limit	10,000,000
City of Farmington	Sales Tax	Recreational Facilities	Restricted by Interest Rate Limit	2,000,000
Garland County	Sales Tax	Jail Expansion	Restricted by Interest Rate Limit	34,000,000
City of Greenwood	Sales Tax	Street, Parks, and Fire Protection Improvements	Restricted by Interest Rate Limit	3,000,000
Ouachita Baptist University	Revenue	Campus Improvements	Restricted by Interest Rate Limit	10,000,000
City of Rogers	Sales Tax	Street Improvements	Restricted by Interest Rate Limit	100,000,000
City of Star City	Sales Tax	Water, Sewer, and Street Improvements	Restricted by Interest Rate Limit	3,500,000
City of Waldron	Sales Tax	Street Improvements	Restricted by Interest Rate Limit	2,000,000

Examples of Previous Bond Issues that would be Unmarketable Today Due to Arkansas' Interest Rate Limitation

Dated Date	Amount	Final Maturity	Issue	Purpose
10/1/00 & 1/15/01	$11,950,000	2020	City of Crossett, Arkansas Sales and Use Tax Bonds, Series 2000 and 2001	Construct and Equip Public City Library, Public Sports Complex; and Street Improvements
11/1/00 – 6/1/01	18,135,000	2013-2023	City of Blytheville, Arkansas Sales and Use Tax Improvement Bonds, Series 2000 and 2001	Sewer improvements, golf course, recreation facilities, streets. drainage and other
7/1/01	39,800,000	2012	City of Hot Springs, Arkansas Sales and Use Tax Refunding and Improvement Bonds, Series 2001	Construct and Improve Hot Springs Civic Center; and to Advance Refund a Prior Bond Issue
6/1/03	9,800,000	2026	Chicot County, Arkansas Sales and Use Tax Improvement Bonds, Series 2003	New Hospital Construction
8/1/03	7,400,000	2014	City of Malvern, Arkansas Sales and Use Tax Improvement Bonds, Series 2003	Sports Complex
9/1/03	10,900,000	2012	Jefferson County Sales and Use Tax Improvement Bonds, Series 2003	New Jail Construction
4/1/05	2,565,000	2025	City of Truman, Arkansas Sales and Use Tax Improvement Bonds, Series 2005	Various Municipal Improvements
6/1/05	10,000,000	2021	City of Rogers, Arkansas Sales and Use Tax Bonds, Series 2005	Street Improvements
9/1/05	6,365,000	2023	City of Mountain View, Arkansas Sales and Use Tax Refunding and Improvement Bonds, Series 2005	Sewer System Improvements and to Refund four Prior Bond Issues
10/1/05	18,690,000	2031	City of Stuttgart, Arkansas Sales and Use Tax Refunding and Improvement Bonds, Series 2005	Water, Sewer, Street, Fire, Police, Park, and Old Post Office Improvements; and to Refund two Prior Bond Issues
11/1/05	2,255,000	2030	City of Nashville, Arkansas Sales and Use Tax Refunding and Improvement Bonds, Series 2005	Water and Sewer System Improvements; and to Refund a Prior Bond Issue
12/1/05	30,150,000	2031	City of Cabot, Arkansas Sales and Use Tax Refunding and Improvement Bonds, Series 2005	Sewer, Street, Overpass, Community Center, and Animal Shelter Improvements; and to Refund two Prior Bond Issues
12/1/05	985,000	2030	City of Vilonia, Arkansas Sales and Use Tax Bonds, Series 2005	Construct and Equip a Municipal Complex
1/1/06	1,725,000	2035	Yell County, Arkansas Sales and Use Tax Bonds, Series 2005	Improvements to County Courthouses in Dardanelle and Danville
4/1/06	2,600,000	2025	City of Bentonville, Arkansas Combined Electric, Water and Sewer System Revenue Bonds, Series 2006 B (Federally Taxable)	Improvements to the Water Facilities of the City's combined Electric, Water and Sewer System
5/1/06	16,000,000	2030	City of Heber Springs, Arkansas Sales and Use Tax Improvement Bonds, Series 2006	Park and Recreational Improvements

Examples of Previous Bond Issues that would be Unmarketable Today Due to Arkansas' Interest Rate Limitation (continued)

Dated Date	Amount	Final Maturity	Issue	Purpose
9/1/06 & 4/1/07	16,990,000	2031 & 2022	City of Bryant, Arkansas Sales and Use Tax Bonds, Series 2006 and 2007	Construct and Equip Park and Recreational Improvements
11/1/06	865,000	2017	City of Camden, Arkansas Sales and Use Tax Refunding and Improvement Bonds, Series 2006	Fire Department Improvements and to Refund two Prior Bond Issues
11/1/06 & 10/1/07	64,340,000	2021 & 2026	City of Fayetteville, Arkansas Sales and Use Tax Capital Improvement Bonds, Series 2006A and 2007	Wastewater, Street, and Trail System Improvements
12/1/06	9,165,000	2031	Sebastian County, Arkansas (Sparks Regional Medical Center) Public Health Facilities Board Hospital Revenue (Junior Lien) Bonds, Series 2006	Construct and Equip certain Emergency Room, Imaging, Intensive Care and Surgical Facilities
3/1/07	1,130,000	2029	City of Dumas, Arkansas Sales and Use Tax Bonds, Series 2007	Street and Park & Recreational Improvements
4/18/07	3,400,000	2022	City of Little Rock, Arkansas Waste Disposal Revenue Bonds, Taxable Series 2007	Improvements to the City's Waste Collection and Disposal System

7/1/07	$ 3,910,000	2028	City of Farmington, Arkansas Sales and Use Tax Refunding and Improvement Bonds, Series 2007 A & B	Sewer System Improvements and to Refund a Prior Bond Issue
7/31/07	590,000	2013	St. Francis County, Arkansas Sales and Use Tax Refunding and Improvement Bonds, Series 2007	County Courthouse and Jail Improvements; and to Refund a Prior Bond Issue
8/1/07	37,080,000	2037	City of Magnolia, Arkansas Sales and Use Tax Bonds, Series 2007	Construct and Equip a Hospital Facility
8/1/07	2,995,000	2035	City of McGehee, Arkansas Sales and Use Tax Bonds, Series 2007	Justice Facility Acquisition and Early Warning System Improvements
9/1/07	4,335,000	2037	City of Atkins, Arkansas Sales and Use Tax Bonds, Series 2007	Water System Improvements
2/1/08	1,195,000	2023	Perry County, Arkansas Sales and Use Tax Bonds, Series 2008	Construct and Equip County Jail and Criminal Justice Facilities
9/1/08	3,920,000	2019	City of Brinkley, Arkansas Sales and Use Tax Bonds, Series 2008	Street, Water, Sewer, and Fire Department Improvements

ARKANSAS'S INTEREST RATE RESTRICTIONS IMPACT ON STATE AGENCIES

EFFECT ON ARKANSAS STUDENT LOAN AUTHORITY

The Arkansas Student Loan Authority (''ASLA'') provides student loans to Arkansas residents and students at Arkansas's universities and colleges. ASLA also provides liquidity for Arkansas banks participating in the Federal Family Education Loan Program. ASLA raises the money from which it makes and purchases student loans by issuing bonds in the capital markets.

The maximum amount of interest that ASLA may pay a bond investor under the Arkansas interest rate restriction is determined at the time bonds are issued, and this rate cannot change even if the market changes over the 25–30 year life of the bonds. The current maximum interest rate under Arkansas law is 5.50%. The interest rate limit is determined by adding 5 percentage points to the Federal Discount Rate. The current Discount Rate is 0.50%.

ASLA was forced to redeem approximately $80 million in bonds in 2008 due to the bond interest rates exceeding limits established at the time bonds were initially sold to investors. These funds would have normally been used to make or purchase student loans.

Previously, ASLA and other student loan issuers accessed funds in the capital markets primarily by issuing Auction Rate Bonds. The interest rate limit was a nuisance when issuing Auction Rate Bonds but was not an impenetrable barrier. The Auction Rate Bond market has collapsed and is not expected to return.

The most likely vehicle through which ASLA will access the capital markets is through Variable Rate Demand Bonds, which require a ''liquidity bank''. The banks who typically act as liquidity providers are unwilling to do business in Arkansas due to the artificial interest rate ceiling placed on bonds issued by governmental agencies in the state.

The interest rate restriction affects much more than student loans; it is having a negative effect on Arkansas cities, counties, nonprofits and State governmental agencies that depend on the issuance of revenue bonds to gain access to funding. Such agencies use revenue bonds to finance facilities for water, sewer, industrial development, education, recreation and other important projects that serve the needs of the citizens of Arkansas.

EFFECT ON OTHER ARKANSAS STATE AGENCIES

The inability of State of Arkansas bond issuers to lock in long-term interest rates for governmental, student loan, housing, economic development and 501(c) 3 projects puts Arkansas at a competitive disadvantage with the rest of the world. Arkansas borrowers who need fixed rate financing for their long-term assets are being subjected to interest rate risk and higher transaction costs due to refinancing, because the bonds are only able to be sold with shorter term maturities, if they can be sold at all.

Following this page is information on two example transactions completed to support economic development that were impacted by the existing constitutional interest rate limit. The bond issues were for the Hewlett Packard facilities in Conway and Sage Foods in Little Rock. Fortunately, these issues were completed before the Federal Discount Rate was lowered to its current level of .50%. Otherwise, the negative impact could have been greater.

Lenders located outside the borders of Arkansas that provide liquidity and credit enhancement to bond issues will not be extending credit if interest rates in Arkansas do not float up and down with the market. These out-of-state lenders do not want to take interest rate risk on bond issues for their manufacturing clients that are located in Arkansas.

Arkansas governmental agencies that make loans and manage revolving loan funds need proper compensation for lending risks, making it easier to build sustainable pools of lending capital for the State of Arkansas.

Taskforce on the 21st Century Economy: (Web site—http://taskforce21.arkansas.gov/)

One charge of the 21st Century Taskforce: Define the programs and services needed for the state and its communities to be globally competitive within the role and scope of 21st Century economic development.

THE AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009—BUILD AMERICA BONDS

With rates currently capped at 5.5%, Arkansas will not be able to participate in this taxable bond financing program in a very meaningful way. Current federal law limits these new bond issues to years 2009 and 2010. Many other substantive changes were also made to federal tax law. Arkansas issuers will not be able to take full advantage of these changes.

CITY OF LITTLE ROCK, AR—TAXABLE INDUSTRIAL DEVELOPMENT REVENUE BONDS

[Sage V Foods, LLC Project]

$4,455,000	$1,545,000	$5,000,000
Series 2008 A	Series 2008 A–2	Series 2008 B
Dated: November 1, 2008	Dated: December 1, 2008	Dated: December 1, 2008
S&P: A	S&P: A	S&P: A
ADFA Guaranty	ADFA Guaranty	ADED Guaranty

Sage Foods, LLC (the ''Company'') is in the business of producing rice-based ingredients for the food industry. The Company operates a rice flour mill and a rice cooking facility in Freeport, Texas. The Company recently built a new flour mill and extrusion plant in Stuttgart, Arkansas. The Company needed $11,000,000 to build a 90,000 square foot industrial facility for the production of instant rice and frozen rice in the Little Rock Port Industrial Park. The Bonds were originally structured to have $6,000,000 issued with an Arkansas Development Finance Authority (''ADFA'') Guaranty and $5,000,000 with an Arkansas Department of Economic Development (''ADED'') Guaranty, with level debt service and a final maturity of 2023.

Because of Arkansas interest rate limits, the true interest cost (TIC) on the Bonds is limited to 5% over the federal discount rate the day the bond purchase agreement is signed. The discount rate was lowered to 1.75% on October 8th, which meant the TIC couldn't exceed 6.75% on the Bonds. With this limitation, $4,455,000 of the ADFA Guaranteed Bonds were sold on October 28th with a final maturity of 2023. The Borrower needed the final series of bonds issued by year end. With the change in the discount rate to 1.25% on October 29th, the structure of the remaining Bonds had to be shortened to 2014 with the bulk of the bonds maturing in the final year. These bonds were sold in early December, a week before the discount rate was lowered to .50%.

Mr. FEINGOLD. Mr. President, just about 1 month ago I voted against the emergency supplemental spending bill and stated my reasons for doing so at some length. I will not repeat what I said then, but my concerns also apply to the conference report we are considering. While the President has provided a timeline for redeployment of our troops from Iraq, I remain concerned that we may see upwards of 50,000 U.S. troops remain in that country. Leaving such a substantial number of troops in Iraq could undercut the benefits of redeployment, and might result in a significant uptick in violence against U.S. troops.

I am also concerned that this supplemental pads the defense budget with items not needed for the war and outside the normal appropriations cycle.

Finally, and even though President Obama has a plan to focus the government's attention and resources where they are most needed—on Afghanistan and Pakistan—I am worried that the current strategy does not adequately address, and may even exacerbate, the serious national security problems we face in that part of the world. Those problems could be made worse, not better, by sending 21,000 more U.S. troops to Afghanistan and they may be further aggravated if there is not an adequate response to the nearly 3 million Pakistanis who have recently been displaced.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. UDALL of New Mexico). Without objection, it is so ordered.

Mr. REID. Mr. President, we will soon vote on a motion to waive a point of order. In the last Congress, we heard our colleagues say things such as:

I cannot understand how we can claim to support our troops and yet put them in increased jeopardy as a result of our failure to act.

Here is another:

It is so irresponsible to tell these young men and women who are serving in uniform with the orders of their Commander in Chief that you're not going to give them the necessary ability to defend themselves. In my view it's terribly misplaced priorities.

And another:

It is time to put politics behind us and support our troops with the funds they need.

Each of these quotes were spoken by Republicans when a Republican was in the White House. Today, with a Democrat in the White House, some Republicans threaten to stand in the way of our efforts to support our troops. Our soldiers, sailors, airmen, marines have done everything we have asked of them and more. As always, our troops and commanders have gone above and beyond. The least we can do is give them the basics they need to fight this war against terrorists. This bill does that. It gives our brave troops, including more than 1,000 men and women from the State of Nevada, the resources they need to do their jobs and to return home safely. It provides $80 billion for the wars in Iraq and Afghanistan.

In this important piece of legislation, we are also dedicating billions of dollars to make sure we are prepared for and to respond to a potential flu pandemic. We must be ready. There is no other opportunity than this legislation to be ready by this fall. We are also dedicating billions of dollars in this legislation to strengthen the security along our borders, and we are also dedicating billions of dollars to support counterterrorism programs both at home and abroad. This is very important.

But in this bill are not merely numbers. This legislation also contains our commitment to strengthen our military, rebuilding our relationships with key allies around the world and reducing key security threats.

Rather than restoring our standing in the world, some Republicans are standing in the way, period. I repeat, rather than restoring our standing in the world, some Republicans are standing in the way. They are threatening to block this entire bill and the good it does because of one small but significant part of it. That small but significant part is actually a tremendously important and good program. It is called cash for clunkers.

This is a program that has been tested in other places. In Germany, it has been tremendous for their economy. It helps our economy and our environment. Here is how it works. If you trade in your car over the next 4 months, we will give you up to $4,500 toward a new car that is more fuel efficient. That sounds pretty good. Everybody benefits, the environment and the economy. Those who oppose this may not think it is a worthy goal, but they should not hold hostage the equipment and training our troops need because of this small provision in the bill. They should not let less than 1 percent of this entire important bill sink the whole thing, but that is exactly what some of our colleagues are planning to do.

Are they doing it to embarrass the President? Are they doing it because they don't think the troops need the resources to fight those two wars? Why are they doing this?

Because everyone should understand, if this point of order is not waived, this bill is finished. The House had a difficult time passing this legislation because the House got no support from Republicans. The question is whether these Senators still agree we must never walk away from our troops or if they only believe it when their party is in the White House. I sincerely hope Senate Republicans do not follow the lead of the House Republicans. Out of 435 Members of the House of Representatives, 5 Republicans voted to support our troops. They had a different excuse in the House. What they said was: We are not going to do this because there is a small amount of money in there for the International Monetary Fund. There hasn't been a word raised in this body over that because it is so important. It is supported by Democrats and Republicans over here, that particular provision in the supplemental.

In the Senate, they have raised another issue, cash for clunkers. Some are saying: Well, cash for clunkers isn't bad, but I don't like this version of it. I think we could do a version that would be more environmentally friendly and so, as a result, I am voting against it.

Everyone should understand, especially those who care about our armed services—and I know the American people support them 100 percent—all the American people should understand, if there is not a waiver of this point of order, the troops will not get their money. Secretary Gates has been very good. He has not sent out any blue slips telling them they are going to lose their jobs, to civilian employees first, and then the pink slips to others that they will lose their jobs permanently. But that time is fast approaching. We cannot simply revitalize this bill in a matter of a few minutes. We have to do it today. There are provisions in this bill that are important to our standing in the world. We have to support our troops.

I, personally, with 5 children and 16 grandchildren, am a little concerned about the flu pandemic that all scientists, with rare exception, are telling us is going to hit in the fall. We are spending this money at this time so we can be ready for that and have shots that people can get to stop them from getting sick or not getting as sick.

Our troops, each and every one of whom volunteered for duty, are the last people who should be caught in the crossfire of political gamesmanship.

I hope the point of order will be waived and that the money for the troops will be on its way in a matter of hours.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. Mr. President, I thank the majority leader for his statement. I know there is controversy involved in this so-called cash for clunkers, which is a humorous name for a very serious proposal. Let's be real honest about where we are in America today. We have seen the largest decline in automobile sales in 50 years. Sales are down 29 percent. Automobile production is down 46 percent from where it was just 17 months ago. Plummeting auto sales have reduced production, and it has had a ripple effect across the economy, forcing dealerships and factories to close. We have lost 280,000 American jobs in the automobile industry. That is what this is about, 280,000 American jobs that are lost and more that will be lost if we do nothing.

Some would have us do nothing. While the automobile industry is roiling from job losses and declining production, many consumers in the market for new cars are waiting. They are holding back. The purpose of this legislation is to put some movement into the purchasing of new automobiles. It is a targeted way to give incentives to Americans to buy cars, get them back in the showrooms, back on the lots buying the cars that start moving the inventory, creating demand, and creating a more positive feeling about the automobile industry. Are there better ways to have written this? Yes. I think I could have sat down with others and spent more time. But that is the case in almost every bill that comes before us.

Some have argued: Listen, this just came up in the conference committee. It passed the House of Representatives before it was brought up in the conference committee. I will concede that I wish that bill would have been debated and passed here, but we didn't have the opportunity to do it. We literally did not. This is a matter of seizing an opportunity that could make a profound difference.

Has this concept of giving cash incentives to customers to buy cars ever been tried? It turns out it has. It was tried in January of this year in Germany, where they offered $3,300 to consumers to replace old cars with new ones. At the end of the program's first month, car sales in Germany dramatically increased by 21 percent. The bad news? That same month automobile sales in the United States went down by 41 percent. Germany knew how to create a surge in purchasing by consumers with similar legislation to what is being brought to the floor.

Let's be honest about the automobile industry. Next to the housing industry, it is at the base of our economic pyramid. We need to make sure a strong auto industry is available to America so we can rebuild out of this recession and start creating jobs. Those who want to kill this provision are walking away from incentives to put people back to work in dealerships selling cars, servicing cars, and producing cars across America.

I beg those who oppose this to understand what we will face if we do nothing, which is what they want to do, nothing. I think that is a terrible outcome. If we want to stand behind recovering from this recession and restoring consumer confidence, if we want to move old cars off the road, the so-called clunkers, and bring new cars on the road with higher gas mileage, this is our opportunity. Let's not get caught up in some procedural tanglement. Keep our eye on 280,000 Americans out of work in this industry, more to follow if we do nothing. This is going to be an important measure for us in the long run. We need to build on it. First, we need to pass this today.

As Senator REID has said, it is an important provision in the House of Representatives. Without it, we are not sure we can pass this supplemental bill, which has so many other important provisions, not the least of which is providing for our troops in the field. It is a delicate balance that brings this to the floor. I hope those who oppose it don't want to stand back and do nothing as this recession continues, understand the gravity of this automobile industry being flat on its back at this point in time, and realize that we owe President Obama passage of this supplemental legislation. President Obama did not want to ask for this bill to pay for the wars in Iraq and Afghanistan. But, unfortunately, the previous President made us fund these wars on an emergency basis. So we had to come in with a supplemental appropriations bill to pay for the war. That will not happen again.

Next year, President Obama is putting it in the regular budget. This is one of the last things we have to do to clean up a situation left for this President by President Bush. This bill for automobiles—this one that has a broad cross section of bipartisan support—includes support of business and labor: the United Auto Workers, the National Association of Manufacturers, the U.S. Chamber of Commerce, and the National Automobile Dealers Association, as well as more than a dozen Governors.

It is important we defeat this procedural objection to this program, that we put this money into our economy, give people a chance to buy a new car that is more fuel efficient, and put people back to work across America, so we can start digging ourselves out of this recession hole.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. GREGG. Mr. President, first off, I appreciate the assistant majority leader clarifying the situation unalterably; that this waiver issue is solely about the issue of cash for clunkers—a piece of legislation which has absolutely nothing to do—nothing to do—with funding our troops in the field and was airdropped into a conference without being paid for, adding $1 billion of new debt to our children's backs. That is what this waiver is about.

The majority leader has said this waiver will, in some way, harm the ability to fund the troops. I believe that to be totally inaccurate. This motion comes out of a piece of legislation which the majority leader and the assistant majority leader authored. They wrote the bill called the Honest Leadership and Open Government Act. That bill created this point of order specifically to address this type of situation, where in a conference one or the other of the two bodies sticks into a bill that is a must-pass bill language which has nothing to do with that bill and which is not paid for.

In this case, it is $1 billion of spending not paid for which has nothing to do with the troops in the field. The reason they structured the rule this way was so it would not harm the underlying bill, so that if this point of order is successful, this bill goes back to the House and they can vote for it and send it to the President and fund the troops.

Is it the position of the assistant leader that this cash for clunkers bill is so important that the House of Representatives would not fund the troops if the language was not in the bill? Is he saying the Democratic leadership of the House is holding the funding of the troops hostage to spending $1 billion on an extraneous program, which creates virtually no environmental improvement in our fleet and which is simply part of the economic effort to revive the auto industry—which we have already spent $83 billion on, by the way. Is that what he is saying?

That seemed to be the implication of his language: that the House will not pass the funding for the troops if we take it out of it—under a rule created for the purpose of disciplining ourselves this way, a rule created by the majority leader and by the assistant majority leader; authored by them and designed specifically to address this type of situation, where a conference is truly abused relative to funding and spending money which we do not have.

I do not believe that is realistic. I do not believe the Democratic membership of the House is going to vote against this bill if the cash for clunkers language is taken out on a surgical strike under a procedural right which was created by the Democratic leader and the Democratic assistant leader.

In addition, of course, there is the fact that pay-go is being violated. There is the great irony that the President of the United States, surrounded by the Democratic leadership of the Senate and the House, held a very dramatic press conference at the White House, at 12:30 in the afternoon, saying they were going to reestablish the pay-go rules for future spending, that new programs would have to be paid for. And then that House leadership went back up to Capitol Hill, and on the same day, passed this cash for clunkers bill, which was not paid for and violated the pay-go rules. The hypocrisy of it is so extraordinary that it cannot even be described. But that is what happened.

And then, in order to protect this bill, which was an unpaid-for violation of the pay-go rules, they stuck it into the conference report to fund the troops. How outrageous is that? So a pay-go point of order, which might take down this whole bill, is not appropriate to make. But it is appropriate to make this very targeted point of order, which will only eliminate the cash for clunkers language.

The policy of cash for clunkers is debatable. Maybe it makes sense; maybe it does not make sense. But it certainly should not have been put into this Defense bill, which is necessary for funding our troops. If it is a strong idea, let it stand on its own two feet on the floor of the Senate. Let it be debated. Let it, hopefully, be paid for. But at least let it be amended so those of us who think it should be paid for can propose ideas for paying for it.

Under the bill as it is being handled now, there are no amendments allowed. We have to take this $1 billion of new debt, like it or not, whether we support the program or not. We have to pass a bill which is going to add this $1 billion of additional debt on our children's backs. It is a totally inappropriate way to legislate.

My effort is not to slow down or to stop or to marginalize in any way the funding for our troops—I voted for every troop funding bill that has come through this Congress, and I intend to continue to vote for them—but it is to take out this language, which is inappropriate, to live by the rules the majority leader passed, the assistant majority leader put in place—rule XLIV—to live by the pay-go rules, to not, in the name of addressing a special interest group, spend $1 billion for which we will pass the bill on to our kids and our grandchildren.

Why should our grandchildren have to pay for cars we are going to buy today? Does that make any sense, that for the next 20 years we are going to end up paying these bills? Of course, it does not make sense.

So we should take this language out. It is not going to slow this bill down, not at all. This bill will go back to the House. It will be passed, and it will be sent to the President. It will be an act of fiscal responsibility, and we will be limiting the amount of debt we will be putting on our children's backs, which is the way we should be approaching legislation.

Mr. President, I reserve the remainder of my time.

How much time is there available?

The PRESIDING OFFICER. Sixteen minutes on the Republican side; 10 minutes on the majority side.

Mr. GREGG. Mr. President, how much time does the Senator from Oklahoma wish to have?

Mr. INHOFE. Twelve minutes.

Mr. GREGG. Well, Mr. President, I will reserve the remainder of my time. I see the Senator from Michigan on the floor.

The PRESIDING OFFICER. Who yields time?

The Senator from Michigan.

Ms. STABENOW. Mr. President, let me communicate that we are talking about a motion to waive less than 1 percent of this bill. It is an emergency

bill. It is a supplemental. It is less than 1 percent. In terms of the overall scope of what is before us, it is small. But I can tell you, in small towns and cities all across America, this is a big deal.

We have up to 3 million people who, in some way, work with our automobile industry. We have small businesses all across this country that are looking at this vote. We have had colleagues come to the floor. We have had hearings held, letters, and press releases about helping dealers at this time. This is the moment. This is the moment and the vote as to whether we will do that.

I am very grateful for the chairman of the committee and his graciousness in working with us on this issue and to our leadership.

We know that while this has not come through the regular process in the Senate, in the House it went through the committee. It was reported out of committee. It was passed on the House floor, with 298 votes from Republicans and Democrats. Over two-thirds voted for this.

The reason it has been moved into this emergency supplemental is because it is an emergency, because we are seeing dealers that have been told they are going to have to phase out who have inventory to sell. We are seeing dealers all across America that are seeing sales go down and down and down; and the question is, How long are they going to be able to hold on?

The average dealer hires 53 people in their dealership. These are small businesses. I grew up on a car lot. My dad and my grandfather had a car dealership. I know what this is about for a small town.

When we look at the fact that from January to May every automobile company—for GM, it has been a 41.8-percent reduction in sales; for Toyota, it has been a 39-percent reduction in sales; and there are the reductions in sales for Ford, Chrysler, and Honda. All across the board, these sales are down.

This may not seem like an emergency to people here, but I can tell you, this is an emergency for families and small businesses, for an industry that has been the backbone of our economy for a generation, with up to 3 million people working in this industry. This, in fact, is an emergency and worth our time to put this into this bill as less than 1 percent—less than 1 percent—of the emergency spending that is in front of us.

Every other country with an automobile presence has, in fact, done something to help their industry. Germany found that in the first month, in January, when they put a similar kind of incentive plan in place, they raised sales 21 percent—21 percent at the same time our sales were falling 40 percent.

We have seen similar plans in China, Japan, Korea, Brazil, Great Britain, Spain, France, Italy, Austria, Portugal, Romania, and Slovakia—Mr. President, Slovakia. But the United States has not yet acted on a program that has been effective around the world, when we have so many small businesses right now, literally, whose futures are hanging in the balance.

This is something supported by business and labor, by the U.S. Chamber of Commerce and the National Association of Manufacturers, and, of course, the auto dealers.

I am also very pleased it is now supported by the Sierra Club. We know that, from an environmental standpoint, there is always more we can do. But we know this moves us in the right direction. In terms of the environment, this is a win with every single new car that is sold. Every car or truck sold under this program will be more fuel efficient, will be cleaner than the car or truck it replaces. That is a fact.

This bill will save 133 gallons of gasoline per vehicle per year and reduce greenhouse gas emissions by 1.45 million metric tons.

In 2010, vehicles from model year 1998 or earlier will account for 25 percent of the miles driven but 75 percent of all the tailpipe emissions.

So if we are able to get older vehicles, vehicles that are worth $4,500 or less, off the road—they are scrapped when they are turned in, so they can no longer pollute—and people buy a vehicle that gets 22 miles a gallon or more, or if it is 10 miles per gallon better than their old car, they get a $4,500 voucher. That seems to me to be a step in the right direction.

Is it all it could be? No. It never is here. We work hard. We take one step. We take two steps. We take three steps. But this is certainly a step forward.

This bill is about jobs. This is a bill about jobs. It is about small business. It is about the environment as well. We will see immediate reductions in fuel use, carbon emissions, and air pollution. Our constituents, from the major business organizations to labor and the Sierra Club, are supporting this effort. Not only are carmakers interested in this, as I have said already, but the people who work in the offices, the engineers, the designers, the clerks, the office managers, the salespeople, the mechanics, the car washers, the printers, the advertisers, local newspapers, television, and radio, who all depend on their local dealer. This is a program that has been successful around the world. There has been a tremendous amount of effort that has gone into this.

I thank the bill's sponsor in the House, Congresswoman SUTTON, who introduced the first bill and worked so hard and introduced the bill that was finally passed. I thank all of those who worked together on both sides of the aisle to put together something that passed overwhelmingly in the House. It comes to us now in a bill labeled ''emergency spending.''

This bill goes way beyond just helping the automakers. It would particularly benefit dealers, auto suppliers, State governments, workers, communities, and consumers in every State in the country. I wanted to clarify for the record that this legislation is meant to include dealers in every State in the country. Although, the term ''State'' is used in several definitions of title XIII, I would like to clarify that the CARS legislation is intended to have the same meaning as the term ''State'' defined in 49 USC 32304(a)(14) to ensure coverage of the program in the District of Columbia, Puerto Rico and other U.S. territories, just as it applies to the 50 States.

On behalf of the auto dealers, large and small, across this country, the people who depend upon these businesses, depend upon the making of these automobiles, the selling of these automobiles, I would ask my colleagues to please give us the opportunity for a short-term stimulus. This is a matter of a few months. It is less than 1 percent of this entire bill, which is an important bill for our country and our defense and for our troops. This is a small piece of what is in front of us, but for small businesspeople and Americans working hard every day across this country, it is a big deal and it is a chance to help. I hope we will.

Thank you. I yield the floor.

Mr. GREGG. Mr. President, how much time remains?

The PRESIDING OFFICER. There is 13 minutes 30 seconds.

Mr. GREGG. And on the other side?

The PRESIDING OFFICER. Two minutes.

Mr. GREGG. Mr. President, I am going to yield to the Senator from Oklahoma, but before I do, I wish to take just 30 seconds to respond quickly to the Senator from Michigan.

The idea that we haven't done anything for the automobile industry is really hard to accept, $83 billion having been spent on the automobile industry. The idea that $1 billion is just a small amount of money is also very hard to accept; $1 billion of new debt is $1 billion that our children are going to have to pay, and it is not a small amount of money, and it compounds. We fly in the face of the procedures which the Democratic leader set up around here to have pay-go and to have the Open and Honest Leadership Act, we fly in the face of that by putting in this bill this special interest piece of legislation, unpaid for, and it is totally inexcusable.

This has nothing to do with funding the troops—nothing. The fact that $1 billion is being spent and not paid for is totally irresponsible. It is debt our children do not need to receive.

At this point, I yield 10 minutes to the Senator from Oklahoma.

Mr. INHOFE. Mr. President, I ask to be made aware when I have 1 minute remaining.

The PRESIDING OFFICER. The Senator will be so notified.

Mr. INHOFE. Mr. President, on June 16, the House passed the bill we have been talking about here. I have concerns that have not been discussed in the last few minutes.

Although the Senate voted 90 to 6 on a bipartisan amendment to prohibit funding for the transfer of Gitmo detainees to the United States, the supplemental appropriations conference report deleted that language. That language came from an amendment that was authored by myself and my good friend from Hawaii, Senator INOUYE, but they stripped that language. The Senate's bipartisan amendment would have effectively prevented the closing of the terrorist detention facility at Gitmo. Since President Obama announced that he intended to close Gitmo, it has become widely circulated that these detainees could be transferred to American prisons for prosecution in U.S. criminal courts and potentially released in the United States.

In February of this year, I led a delegation—I have been there several times—a delegation that had never been down to Gitmo, and they saw the fine treatment the detainees get down there and saw the rooms where torturing supposedly is going on. Not one incident of torture has ever been documented.

After I returned, I introduced S. 370 to prevent the detainees at Gitmo from being relocated anywhere on American soil. Since that time, it has been called to our attention that the administration is talking about maybe 17 locations in the United States to put these terrorists. One of those locations was Fort Sill in my State of Oklahoma. I went down there, and I found out that would not be at all workable. In fact, Sergeant Major Carter, who is in charge of the prison at Fort Sill, said: Why in the world would they close a place like Gitmo? It is the ideal place to keep these people.

Currently, even though they are talking about putting them in supermax prisons, the only supermax facility is located in Florence, CO. According to the Bureau of Prisons, as of May 21, only one bed has not been filled at supermax. Obviously, this isn't going to work. The rated capacity of BOP facilities at the beginning of this month was 13,648 inmates, while the total prison population of those facilities was far more than that—exceeding 20,000.

Despite claims by Senator DURBIN that supermax prisons in the United States are ready to receive detainees, the supermax prisons in the United States are at or above their maximum capacity.

Additionally, the civilian prisons do not meet the same standard as currently exists at Gitmo. In 2002, an entire wing of a jail in Alexandria, VA, was cleared out for the 9/11 ''20th hijacker,'' Zacarias Moussaoui, to be housed in the jail. That was just one detainee. For one detainee, they are talking about clearing out the entire wing. So moving detainees to the United States would not be reasonable.

It would also place America and its citizens at risk in inevitably creating a new set of targets. This is the problem we have. We have 17 places in the United States where we would be putting these people. We have 17 magnets to draw in terrorists located around the country.

Three weeks after I called for President Obama and my Senate colleagues to go see firsthand the facility at Gitmo, Attorney General Eric Holder—he is our new Attorney General appointed by President Obama—went down there, and he came back with a glowing report that the facility is well run by its current military officers. This affirms what I have been saying all along; that is, Gitmo is a state-of-the-art facility that provides humane treatment for all detainees and is fully compliant with the Geneva Conventions.

When the war supplemental came to the floor in the Senate, I was extremely pleased that Democrats and Republicans in the Senate joined together and announced they would not include the $80 million in the war supplemental to close Gitmo. Sadly, this bipartisan initiative has fallen victim to partisan politics without any regard for our national security or the wishes of the American people.

Senator REID, HARRY REID, declared—and I agreed with him—in a press conference after my bipartisan Senate amendment was passed that, ''We will never allow terrorists to be released into the United States.'' I think that is a good statement. I agree with it. He went on to say, ''We don't want them around the United States. I can't make it any clearer than the statement I have given you. We will never allow terrorists to be released in the United States.'' Well, that sounds real good, and I agree with him and I hope he is right. However, the problem is, if you try to try these people in our Federal court system where the rules of evidence are different in terms of admissibility of evidence, many times we would not be able to get a prosecution and they would be turned loose.

Finally, Senator DURBIN said the feeling was at this point that we were defending the unknown, we were being asked to defend a plan that hasn't been announced. Well, I have to say it still hasn't been announced.

Two weeks ago, the Obama administration again went against the will of Congress and the American people by transferring the first Gitmo detainee to the United States for his trial in New York City. This was Ahmed Khalfan Ghailani. This is a guy, if you remember, who is the terrorist responsible for the bombing at the American Embassies in Tanzania and in Kenya. He was later captured in Pakistan in 2004 while working for al-Qaida preparing false documents and facilitating a transport of arms to insurgents across the Afghan and Pakistan border. Intelligence shows that Ghailani met both bin Laden and Khalid Shaikh Mohammed in Afghanistan and remained in close association with al-Qaida until his capture in 2004. Now this bona fide terrorist will have the privilege of a U.S. civilian court trial in the United States. Ahmed Ghailani was just 1 of 239 detainees housed in the state-of-the-art facility at Gitmo.

According to the Wall Street Journal today, a government official has said that well over 50 detainees have been approved for transfer to other countries and that negotiations were continuing with Saudi Arabia to take a large group of Yemen detainees. Attorney General Eric Holder estimated yesterday that more than 50 detainees may end up in trial by U.S. authorities. This news comes as more and more Americans are growing opposed to the closure of Gitmo. In fact, I would have to say this: Recently, we have had more and more polls taken, and it is now about a 3-to-1 ratio that people don't want these people tried in the United States, they don't want to have them housed in the United States.

So we have a very serious problem. Not only are we talking about detainees down there, we are also talking about an increase in the surge in Afghanistan, and even though Afghanistan does have two prisons, they won't take any detainees unless they are Afghans. So if they are from Yemen or from Djibouti, they won't take them. So this is the problem we have right now.

The views of Congress haven't changed. In 2007, the Senate voted 94 to 3 to a nonbinding resolution to block detainees from being transferred to the United States, declaring:

> Detainees housed at Guantanamo should not be released into American society nor should they be transferred stateside into facilities in American communities and neighborhoods.

In 2009, the Senate voted 90 to 6 to again keep detainees out of America.

The views of the American people have not changed. I mentioned the polls. The polls are all conclusive that the American people do not want to have these people turned loose into the United States, which is exactly what could happen.

While the quality of the facility of Gitmo has not changed, it is the only facility of its kind that is currently—it has six levels of security from the different levels of security. It has one doctor for each two detainees, and, as everyone agrees, it is the ideal place.

I might add that this is one of the few good deals we have in government in that it only costs us $4,000 a year. We have had this place since 1903, and it is something we can't get rid of. The only reason I mention this now is because I have the bill that is filed, which is S. 370, that meets the will of the American people.

The PRESIDING OFFICER. The Senator from Oklahoma has 1 minute remaining.

Mr. INHOFE. I thank the Chair.

So this bill I have, S. 370, will give people in this Chamber an opportunity to vote to keep the detainees—to keep the terrorists—out of the United States of America.

I would say this: If there are some people who would be voting for the supplemental as it is right now, at least they would have another opportunity to express their will, as they have expressed on two other occasions, that we don't want the detainees, we don't want the terrorists tried in America or to be detained within the United States of America.

So with this, it is my hope the majority will allow an immediate vote on the bill I have filed, S. 370.

I yield the remainder of my time.

Mr. MCCONNELL. Mr. President, as the Senate takes up legislation today on emergency funding for combat operations in Iraq and Afghanistan, U.S. forces overseas can be reassured by this: unlike some of our previous recent debates, broad bipartisan agreement now exists in support of the proposition that the efforts of our service men and women should be funded and supported.

The supplemental agreement we are considering today includes nearly $80 billion for the Defense Department. This funding will allow General Odierno and our uniformed men and women in Iraq to preserve the security gains they achieved during the surge, continue the transition to greater Iraqi control and capability, and deny refuge to al-Qaida in Iraq.

These funds will also be used to support a surge of forces in Afghanistan. And to those of us who ignored previous calls for arbitrary withdrawal dates in Iraq, it is particularly encouraging to see that President Obama has accepted the recommendations of General Petraeus for sending additional forces into Afghanistan. Success there isn't assured. Looking ahead, we can expect continued challenges associated with the upcoming Afghan national elections, the need to continue the expansion of the Afghan National Army and Police, and the need to combat corruption within the Afghan ministries. But the President was right to direct a surge of forces, appoint a new commander, and refocus our efforts on a broad counterinsurgency strategy to combat the Taliban.

Republicans support this surge and understand that broad security gains in Afghanistan cannot be achieved without the sustained improvement of the Afghanistan National Army and police forces. But this strategy will also require a sustained effort on the part of the government, the people, and the military forces of Pakistan to deny the Taliban, al-Qaida, and associated groups sanctuary in the tribal areas of Pakistan.

Just 2 months ago, the situation in Pakistan appeared to be so dire that the Secretary of State openly voiced concern that ''the Pakistani government is basically abdicating to the Taliban and to extremists.'' Since that time, the Pakistani military has moved in force into the Swat Valley to combat this threat. Our commitment to helping Pakistan prevail in this fight, which must be conducted as a counterinsurgency if it is to succeed, must be sustained. Fortunately, the supplemental contains funds to allow it.

Another important issue that must be addressed is the effort by some to force the release of photos depicting the alleged mistreatment or mistreatment of detainees in Iraq and Afghanistan. I am afraid that those encouraging the release of these photos fail to appreciate the potential consequences of such a release. The United States has painfully come to learn that al-Qaida and the Taliban are sophisticated communicators who exploit the airwaves and the internet. That is why the concerns expressed by our military commanders over the release of additional photos depicting the alleged mistreatment of detainees were of equal concern to our allies and friends. Iraq, Afghanistan, Pakistan, Egypt, Jordan, Saudi Arabia, and other countries deal each day with the threat of militant radicals. They know how these images can be exploited by terrorist groups, and the bitter consequences that could follow. Senators LIEBERMAN, GRAHAM, and MCCAIN should be commended for making these concerns their own and carrying them to the American people.

Senator GRAHAM noted on the floor yesterday that he believes the President shares the Senate's concerns about the potential dangers of releasing these photos. Last evening we passed legislation that would prevent any additional strategic harm from the release of photographs like these. Now the House must act.

Although Republicans support the President's support in the supplemental for our operations and overall objectives in Iraq and Afghanistan, a bipartisan majority disagree with the President in one important respect—and that is the administration's request for $80 million from Congress for the purpose of closing the detention facility at Guantanamo Bay before the administration even has a place to put the detainees who are housed there, any plan for military commissions, or any articulated plan for indefinite detention or for transferring detainees in a manner that ensures the safety of the American people.

During January of this year, by Executive order, the President established an arbitrary date for closing the detention facility at Guantanamo Bay. In April, the administration submitted its funding request to close Guantanamo as part of this supplemental bill, and the Senate voted 90–6 against including that funding. But it is worth reminding the Senate that the defense budget request for fiscal year 2010 includes a similar funding request, so the Senate will consider this matter again in the near future.

Bipartisan majorities of both Houses and the American people oppose closing Guantanamo without a plan, and several important questions remain unanswered: why was it necessary to bring detainees to the United States for prosecution, rather than using the courtroom at Guantanamo? If these terrorists are found to be not guilty by a civilian court, will they be returned to detention or released? What threat assessments were conducted prior to the recent transfers of detainees to Iraq, Chad, and Saudi Arabia?

The task force established by the President to review the closure of Guantanamo is scheduled to conclude its work in July, so Congress may learn of the administration's plans later this year. But this conference report requires the President to report to the Congress concerning the threat any further detainees who are released or transferred pose to the American people and our service members overseas. This will be of increasing importance as the task force decides the fate of detainees from Yemen.

As I said, Republicans supported the President when he reconsidered his plan to withdraw forces from Iraq. It is our hope that he will show similar openness when it comes to his arbitrary deadline for closing Guantanamo. The Senate has spoken clearly on this issue repeatedly. It is our hope that the administration heeds the wishes of the American people as expressed through their elected representatives when it comes to releasing and transferring dangerous terrorists.

As the arbitrary closure date approaches, we will continue to press this issue forward.

The wars in Iraq and Afghanistan have placed a great strain on our combat forces, the weapons and equipment that they need to succeed and on the training base that helps to keep the force ready. This bill continues the Senate's support for this force, and for the dangerous missions that they undertake on our behalf, and therefore it deserves our support. It is not perfect, but it meets the needs of our commanders in the field. America remains

a nation at war. Our forces fighting these wars deserve our support, and the funding in this bill.

Mr. GREGG. Mr. President, I understand the chairman wishes to close, so I will just speak and then yield back the remainder of our time, and so the chairman can make his closing comments.

I just have to reemphasize how much of an afront it is to the process which we set up at the beginning of this Congress to try to have fiscal discipline if we do not support this point of order. This point of order was specifically put in to address this type of situation, where there is an extraneous piece of legislation airdropped into a conference report by one House or the other House, and in this case, it is $1 billion of spending which will go directly to the debt of this country.

We have heard from the Chinese that they are getting worried about buying our debt. They are the ones who are financing us. We have heard from our own experts and economists that the American debt rating, which is AAA-plus, may be at risk. We know we are running up debt at such an extraordinary rate right now—$2 trillion this year, over $1 trillion next year, $1 trillion a year on average for the next 10 years—that our debt is going to double in 5 years and triple in 10 years.

Where do we start to discipline ourselves? Well, one would hope we would start to discipline ourselves with something that so obviously violates the rules we set up here for fiscal discipline. It violates pay-go. It is not paid for, even though the President calls for pay-go.

This is a new program, unpaid for, and it violates the new rule put in under the Openness in Government and Honesty in Leadership Act, authored by Senators REID and DURBIN, and Senator STABENOW was a cosponsor. It said don't put into a conference report things that are extraneous and aren't paid for. Yet this does exactly that. Will it affect the troops in the field? No. This bill will pass now. If this point of order is sustained, this bill will pass this House and fully fund the troops. Then it will go back to the House of Representatives.

I cannot believe, under any scenario, that the House of Representatives is not going to vote to fund the troops, that they are going to hold the funding of the troops in the field hostage to spending $1 billion and adding new debt on an extraneous program that has to do with buying old cars. Nobody is going to do that. That doesn't even pass the smell test as being credible.

The bill will pass the House and be sent to the President probably before the day is out. That is the way it should be. That is why this point of order was put into place. That is why the Senator from Illinois, working with the Senator from Nevada, the leaders on the other side of the aisle, created this very good and appropriate rule, so things like this could be addressed in a surgical way, so they would not lead to adding $1 billion—in this case—which is a lot of money.

A couple of Members have said it is just a little bit. In New Hampshire, $1 billion will run our State government for a considerable period of time. That is a lot of money. I have never seen it. It is a lot of money.

There is no reason to pass on to these young pages that debt. If we think the cash for clunkers idea is a good one, let's pay for it. There are a lot of places we can find $1 billion in a $2 trillion-plus budget. So let's pay for this. Let's budget effectively. Remember the words of the chairman of the Budget Committee because they are prophetic: The debt is a threat. It is a threat to this Nation.

We have a chance to do a little bit—$1 billion worth, which is a significant amount—to try to address the debt problem by supporting this point of order.

The PRESIDING OFFICER. The Senator's time has expired.

The Senator from Hawaii is recognized.

Mr. INOUYE. Mr. President, I find it very difficult to be on the opposing side of my dear friend from New Hampshire. There has been a lot of discussion on the premise that conferees did not pay for the cash for clunkers bill.

Technically, that is correct. But I believe my colleague should be advised that under the Congressional Budget Office scoring, the conferees are scored with a savings of $1.47 billion in discretionary spending in this bill.

In title 14 of the bill, the conferees included a provision which mandates that more than $1 billion in discretionary spending in rescissions shall be allocated as savings in the bill not used as an offset.

While the conferees were required to designate the Cash for Clunkers title as an emergency for technical reasons, it is also true that we included a $1 billion offset in discretionary spending which for all practical purposes offsets the spending for Cash for Clunkers.

So while much of the debate about this matter has involved the fact that the conferees didn't pay for this provision, that is not completely accurate.

I ask unanimous consent to have printed in the RECORD the last page from the scorekeeping document of the appropriations committee on the supplemental which shows $1 billion $47 million in savings.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FISCAL YEAR 2009 SUPPLEMENTAL CONFERENCE AGREEMENT

[Amounts in thousands]

	Budget Authority			
	Request	House	Senate	Conference
CONGRESSIONAL BUDGET RECAP				
Scorekeeping adjustments:				
O&M, Navy transfer to Coast Guard:

Mr. INOUYE. Mr. President, I submit pursuant to Senate rules a report, and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Disclosure of Congressionally Directed Spending Items

I certify that the information required by rule XLIV of the Standing Rules of the Senate related to congressionally directed spending items has been identified in the statement of managers which accompanies the conference report on H.R. 2346 and that the required information has been available on a publicly accessible congressional website at least 48 hours before a vote on the pending bill.

Mr. GREGG. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

Under the previous order, the question is on agreeing to the motion to waive all points of order under rule XLIV.

The yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) and the Senator from Massachusetts (Mr. KENNEDY) are necessarily absent.

Mr. KYL. The following Senator is necessarily absent: the Senator from Nevada (Mr. ENSIGN).

The PRESIDING OFFICER (Mr. UDALL of Colorado). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 60, nays 36, as follows:

[Rollcall Vote No. 209 Leg.]

YEAS—60

Akaka	Dorgan	Lincoln
Baucus	Durbin	McCaskill
Bayh	Feingold	Menendez
Begich	Feinstein	Merkley
Bennet	Gillibrand	Mikulski
Bingaman	Hagan	Murray
Bond	Harkin	Nelson (FL)
Boxer	Inouye	Pryor
Brown	Johnson	Reed
Burris	Kaufman	Reid
Cantwell	Kerry	Rockefeller
Cardin	Klobuchar	Sanders
Carper	Kohl	Schumer
Casey	Landrieu	Shaheen
Cochran	Lautenberg	Specter
Collins	Leahy	Stabenow
Conrad	Levin	Tester
Dodd	Lieberman	Udall (CO)
Udall (NM)	Warner	Whitehouse
Voinovich	Webb	Wyden

NAYS—36

Alexander	Enzi	McCain
Barrasso	Graham	McConnell
Bennett	Grassley	Murkowski
Brownback	Gregg	Nelson (NE)
Bunning	Hatch	Risch
Burr	Hutchison	Roberts
Chambliss	Inhofe	Sessions
Coburn	Isakson	Shelby
Corker	Johanns	Snowe
Cornyn	Kyl	Thune
Crapo	Lugar	Vitter
DeMint	Martinez	Wicker

NOT VOTING—3

Byrd	Ensign	Kennedy

The PRESIDING OFFICER. On this vote, the yeas are 60, the nays are 36. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

Mr. COCHRAN. Mr. President, I move to reconsider the vote.

Mr. DURBIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. LEAHY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, we have had a long conversation with the Republican leader. Senator MCCAIN is going to speak for a while. After that, it is my understanding we will have a vote on passage of the supplemental conference report. The matter to follow that is the tourism bill, which is so important to every State. The managers of this bill are Senators DORGAN and MARTINEZ. What we will do is start with five amendments—Republicans can have three, and we will have two—see if we can work through this bill before we have to do anything procedurally.

This is a heavily bipartisan bill. I don't know if there has been a bill this whole Congress that is more bipartisan. The reason it is bipartisan is tourism is so important.

The Presiding Officer's State ia a beautiful State to go to—Aspen, to Vail, all the many things they have in the national parks. Nevada, people think it is the bright lights of Las Vegas and Reno, and it is, but it is a lot more. People don't realize Nevada is the most mountainous State in the Union, 314 mountain ranges. We have 32 mountains over 11,000 feet high, one 14,000 feet high. Every Senator here could boast about why people should visit their State. I have been to virtually every State in the Union. They are all beautiful. All work promoting tourism.

In our country, we do not promote tourism. We are the only industrialized Nation that does not. Some nonindustrialized nations promote their countries; we don't. We need to have people come here. Since 9/11, the number of people coming to the United States has dropped significantly because of 9/11. They haven't been told it is the safest place in the world to come. People should come here. So this public-private partnership that is in this legislation will have programs set up.

Frankly, it is comparable to what happens in Las Vegas with the Las Vegas business authority. They have done such a remarkable job of bringing people to Las Vegas. This should be done nationwide. I didn't draft the bill, but they did copy a lot that has made Nevada successful.

I hope we can work our way through the amendments and, in the process, do something good for the country. I don't believe there is anyone who wants to deep-six this bill. But I hope people who are offering amendments will offer amendments that are relative and germane. If they don't, they have a right to do that, and we will be happy to take a look at them. I have no concern whether the legal jargon of germaneness may not apply. I would rather not have to file cloture on this bill. Because of the supplemental, I guess there has been a lot of concern by the Republicans, but that should be gone now. I think we have satisfied all their demands on the supplemental. Hopefully, we can move forward with this and a number of nominations.

There will be more votes tonight. Maybe it will only be one more vote, but we will have one vote on passage of the supplemental. Then we will see what we set up for tomorrow and next week.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Mr. President, here we have a supplemental appropriations conference report, supposedly, ostensibly to fund the wars in Afghanistan and Iraq and to make sure the men and women who are serving have the necessary equipment and wherewithal to pursue those conflicts with the utmost efficiency. It is business as usual in our Nation's Capital. It is business as usual in the Congress of the United States. Instead of legislation to fund our troops and efforts in Iraq and Afghanistan, we have a bill that includes such things as $2 million for freeze-dried platelet and plasma development, $35 million for the FBI to investigate mortgage fraud, predatory lending, financial fraud and market manipulation, $13.2 million for payments to air carriers for participation in the essential air service program.

Of course, one of the most remarkable feats of legerdemain I have seen in my many years here, cash for clunkers. Someone should at least attempt to explain how cash for clunkers has any relation whatsoever to the wars in Afghanistan and Iraq. It bribes Americans to trade in less fuel-efficient vehicles, considered clunkers, despite the fact that the car could have been bought yesterday, for a voucher worth up to $4,500 toward the purchase of a new car that must get at least 18 miles per gallon, at least 18 miles per gallon—18 not 38? It is estimated to cost about $1 billion, but some economists have declared the real cost will be between $3 and $4 billion. I predict it will be a lot closer to $3 to $4 billion than it will be to $1 billion.

A giveaway of this nature will be obviously something that will be irresistible to many.

Here we are considering a supplemental appropriations conference report totaling $105.9 billion, $13 billion less than the President's request, $9 billion more than the House-passed bill, and $14.6 billion above the Senate-passed bill. So what we have done is, we pass a bill over here, they pass a bill over there, and we add to the sum of both. The conference report provides crucial funding for ongoing military, diplomatic, and intelligence operations. It provides emergency funding to strengthen response to the H1N1 influenza outbreak and the borrowing authority for the International Monetary Fund and, as I mentioned, vouchers for consumers to trade in old cars for new, ''old'' meaning as short a time as 1 year.

The majority of the conference report contains urgently needed funding for our troops in Iraq and Afghanistan. In Afghanistan, our military is engaged in an effort that can and must succeed. It also contains important assistance for the Government of Pakistan, including funding for the Pakistan counterinsurgency fund. The provision of this funding should send a message to the people of Pakistan that the United States has made a long-term commitment to stand by their side in the region and at home as they battle domestic insurgents and extremists. However, the conference report also contains billions of dollars in unrequested spending that is largely unjustified and certainly nonemergency.

President Obama's message to the Congress was to keep funding focused on the needs of our troops and not to use the supplemental to pursue unnecessary spending and to keep earmarks and other extraneous spending out of the legislation. Despite the President's insistence not to include unnecessary spending in the supplemental, the conference report contains a number of earmarks and unrequested congressional program additions.

I am disappointed the majority chose to use the supplemental as a vehicle to add billions in unrequested funding and policy proposals which should have been fully vetted and considered on their own merits, while at the same time stripping out the Senate-passed detainee photo provision offered by Senators LIEBERMAN and GRAHAM. The conference report is also being used by the appropriators as a back door for funding fiscal year 2010 ''base'' requirements.

The House allocations for 2010—commonly referred to as 302(b) allocations—cut defense spending by $3.5 billion and reduced international affairs funding by $3.2 billion. In other words, the sleight of hand of adding nonemergency program funding to supplemental appropriations is becoming all too familiar as a way of skirting fiscal discipline by increasing discretionary spending above congressional discretionary caps outlined in the budget resolution. In other words, we are continuing what was, unfortunately, common in the previous administration. Again, about cash for clunkers, it is remarkable.

On June 16, 2009, Citizens Against Government Waste wrote a letter to all Members of the Senate stating that this provision ''is really another bailout for the auto industry. American taxpayers have already spent $85 billion.''

We now own two automotive companies, we and the unions. Why do we need another bailout for the auto industry?

The ''Cash for Clunkers'' provision has no place in a bill that provides emergency war funds.

I couldn't agree with Citizens Against Government Waste more.

The Wall Street Journal wrote in a June 11, 2009, editorial:

Congress wants to pay you to destroy your car . . . as economic policy, this is dotty. It encourages Americans to needlessly destroy still useful cars and then misallocates scarce resources from another, perhaps more productive, use in order to subsidize replacement. By the same logic, we could revive the housing market by paying everyone to burn down their houses, to collect the insurance money and build new ones . . . The proposal is really intended to help Detroit out of a recession by subsidizing new car purchases . . .

Maybe that is why the president and CEO of the Alliance of Automobile Manufacturers wrote asking all Senators to support this program, as well as the United Auto Workers legislative director, who called this provision ''the single most important step Congress can take right now to assist the auto industry.''

Hasn't Congress done enough for the auto industry? When is $85 billion not enough for the auto industry?

Lastly, this provision is a lemon, according to a June 13, 2009, article from the LA Times that stated:

Critics say the improvements required in the trade—as little as 1 mile per gallon for certain light trucks—

In other words, you trade in your old light truck and buy another one that is 1-mile-per-gallon more fuel efficient. So you can swap one gas guzzler for another.

So for $1 billion, this provision doesn't achieve the environmental goals its authors set forth either. My colleagues, Senators FEINSTEIN and COLLINS, argued such in an opinion piece published in the Wall Street Journal on June 11, 2009, and also wrote that this provision ''being pushed by the auto industry is simply bad policy,'' that it is ''designed to provide Detroit one last windfall in selling off gas guzzlers currently sitting on dealers lots because they're not a smart buy.''

This unrelated provision is an unwise use of taxpayers' hard-earned money and bad environmental policy. It doesn't belong in this bill, and I strongly disagree with its inclusion.

There are a few more earmarks I would like to highlight: $2.2 billion in unrequested funding for eight C–17 Globemaster cargo aircraft. Currently, we have either bought or ordered 30 more C–17 cargo aircraft than is the military requirement. This is not a jobs program, as the backlog of C–17s is so great that Boeing will not begin building these eight aircraft for another 3 to 5 years. While Secretary Gates called the C–17 ''a terrific aircraft,'' he stressed that the military users ''have more than necessary capacity'' for airlift over the next 10 years. These are, again, testimonies to the power of the military industrial congressional complex in Washington, DC.

An unholy alliance between manufacturers, Members of Congress, and lobbyists brings these things about. There is $504 million in unrequested funding for seven C–130 Hercules cargo aircraft. In testimony on May 14, 2009, Secretary Gates said:

We have over 200 C–130s in the Air National Guard that are uncommitted and available for use for any kind of domestic need.

All I know is that I have a great deal of unused capacity in the C–130 fleet.

That is what the Secretary of Defense says. So we are going to spend $504 million more for seven C–130 Hercules cargo aircraft.

There is $3.1 billion in unrequested funding for international affairs operations and programs. The additional funding added by the House majority and agreed to in conference is to offset the $3.2 billion reduction recently made by the Congress to the base budget request.

There is $49 million in unrequested funding for hurricane damage repairs to the Mississippi Army Ammunition Plant. This funding was added even though the Army advised the managers of this bill there are no storm-related repairs required at the plant—so we are going to spend $49 million to repair a plant that does not need to be repaired—and that no valid military requirement exists for the funding.

Mr. President, $186 million is provided above the President's request for lightweight howitzers built in Mississippi for the Marine Corps. The additional funding is not requested in the Future Year Defense Plan, nor was it on the fiscal year 2009 or fiscal year 2010 Marine Corps Unfunded Requirements Lists. In other words, the Marine Corps does not need it. The Department of Defense says it is not needed, but we are going to spend $186 million additionally for howitzers built in the State of Mississippi.

Mr. President, $150 million is included for Air Force A–10 Warthog aircraft wing kits and installations. While Davis Montham Air Force Base is in my State of Arizona and additional wing kits would be welcomed, the additional funds were not requested by the administration, and I oppose this $150 million.

It end runs the Defense Base Realignment and Closure, BRAC, process by prohibiting the Secretary of Defense from carrying out a 2005 BRAC decision to discontinue the Armed Forces Institute of Pathology.

I was very disappointed the House Democrats succeeded in their efforts to strip from the supplemental spending bill the detainee photo provision offered by Senators LIEBERMAN and GRAHAM. This provision, which would support the President's efforts to bar the release of photos of past detainee abuse, would help protect our troops from the inevitable recriminations that these photos would incite. Releasing the photos would not supply new information about the issue of detainee abuse, but, rather, expose evidence of alleged past wrongdoing and put our fighting men and women in greater danger.

That is not my view. It is that of our leading military commanders, including GENs David Petraeus and Ray Odierno. Both of these distinguished military leaders have stated that the release of these images could endanger the lives of U.S. soldiers and make our counterinsurgency efforts in Iraq and Afghanistan more difficult.

That is why I commend the leadership demonstrated by Senators LIEBERMAN and GRAHAM, both of whom have steadfastly demanded that this crucial provision be addressed now by the Congress. Their efforts culminated in the passage, by unanimous consent, of stand-alone legislation that will help prevent the release of these damaging images.

So there are other troubling aspects of detainee policy included in this supplemental bill. Provisions in this bill attempt to address detainee policy in a piecemeal way that fails to constitute a comprehensive plan for what to do with detainees at Guantanamo and those terrorist suspects captured off the battlefield in Afghanistan.

It does not include the $80 million requested by President Obama to close Guantanamo. This is a serious rebuke by Congress and reflects a bipartisan backlash against the idea of announcing a date for the closure of Guantanamo while failing to provide a plan for what comes next.

Mr. President, I ask unanimous consent that the fiscal year 2009 supplemental earmarks and unrequested congressional add-ons be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FY 2009 SUPPLEMENTAL EARMARKS AND UNREQUESTED CONGRESSIONAL ADDS

$2.2 billion not requested by the President for 8 Air Force C–17 aircraft.

$1 billion not requested by the President nor included in the Senate or House-passed bills for vouchers of $3,500 or $4,500 to be applied toward the purchase or lease of a new fuel efficient automobile or truck.

$504 million not requested by the President for 7 Air Force C–130 aircraft.

$439 million not requested by the President for barrier island restoration in Mississippi.

$150 million not requested by the President for Air Force A–10 aircraft wing kits and installations.

$150 million not requested by the President for Army Stryker vehicles.

$117 million above the President's request for Lightweight Howitzers built in Mississippi.

$100 million above the President's request for UH–1Y and AH–1Z helicopters.

$94 million above the President's request for Defense Education Agency programs.

$61 million not requested by the President for Link 16 aircraft communications equipment.

$49 million not requested by the President for an Army ammunition plant in Mississippi.

$26.7 million not requested by the President for the Navy's Saber Focus program.

$20 million not requested by the President for additional Air Force Reserve flying hours.

$20 million above the President's request for Navy expenses related to countering piracy.

$17.9 million above the President's request for Marine Corps Manned Reconnaissance Systems.

$15.9 million not requested by the President for Army tethered surveillance balloons.

$15.5 million not requested by the President for the Air Force's Project Liberty program.

$4 million not requested by the President for a Vision Center of Excellence in Maryland.

$2.2 million not requested by the President for Afghan intelligence and surveillance infrastructure.

$1.2 billion in Foreign Military Financing (FMF) not requested by the President to offset the $3.2 billion reduction made by the Congress to the President's FY 2010 base budget request. The increase is to pre-fund 2010 base budget requirements for Israel, Egypt, Jordan, Mexico and Lebanon.

$404 million in Diplomatic and Consular program funding not requested by the President to offset the $3.2 billion reduction made by the Congress to the President's FY 2010 base budget request.

$135 million in Peacekeeping Operations (PKO) funding not requested by the President to offset the $3.2 billion reduction made by the Congress to the President's FY 2010 base budget request.

$150 million in Global Health and Child Survival funding not requested by the President.

$700 million for a new Pakistan Counterinsurgency Capability Fund not requested by the President. Funds are not needed in 2009 because the conference report provides the DoD $400 million for the same purposes in 2009. Funding is intended to pre-fund FY 2010 programs.

$400 million in international food assistance not requested by the President.

$98 million in International Narcotics and Law Enforcement funding not requested by the President to offset the $3.2 billion reduction made by the Congress to the President's FY 2010 base budget request.

$57 million in Migration and Refugee assistance funding not requested by the President.

$23 million in Embassy Security, Construction and Maintenance funding not requested by the President.

$40 million in Disaster Assistance funding not requested by the President.

$2 million not requested by the President for Freeze Dried Platelet and Plasma Development.

$40 million not requested by the Administration for the Economic Development Administration to provide grants under Trade Adjustment Assistance to communities and firms adversely impacted by trade.

$60 million not requested by the Administration for the Department of Justice for detention costs due to increased enforcement activities along the US-Mexico border.

$10 million not requested by the Administration for the U.S. Marshals Service for enhanced judicial security in districts along the southwest border, the apprehension of criminals who have fled to Mexico, and to upgrade surveillance equipment used to monitor drug cartels and violent gang members.

$35 million not requested by the Administration for the FBI to investigate mortgage fraud, predatory lending, financial fraud and market manipulation.

$20 million not requested by the Administration for the DEA to expand its Sensitive Investigation Unit program in Mexico.

$10 million above Administration's request for the ATF for upgrade technology for ballistics evidence sharing with Mexico and Project Gunrunner firearms trafficking activities along the Southwest border.

$10 million not requested by the Administration to meet increased workloads resulting from immigration cases and other law enforcement initiatives.

$8 million not requested by the Administration for the necessary expenses of the Financial Crisis Inquiry Commission established in the Fraud Enforcement and Recovery Act of 2009.

$10 million not requested by the Administration for necessary expenses for investigations of securities fraud.

$46.2 million not requested by the Administration for salaries and expenses, including the care, treatment and transportation of unaccompanied alien children and border security issues on the Southwest border of the U.S.

$5 million not requested by the Administration to respond to border security issues on the Southwest border of the United States.

$66.8 million not requested by the Administration for the care, treatment and transportation of unaccompanied alien children and border security issues on the Southwest border.

$139.5 million not requested by the Administration for expenses to support Operation Iraqi Freedom and Operation Enduring Freedom for the operation and maintenance of vessels, law enforcement detachments, port security units and salaries for the Coast Guard Reserve on active duty.

$30 million not requested by the Administration for Operation Stonegarden to assist State and local law enforcement agencies which may be impacted by the increased violence in Mexico and to help prevent its spillover into the U.S.

$2 million for the Congressional Budget Office not requested by the Administration for salaries and expenses.

$13.2 million not requested by the Administration for payments to air carriers for participation in the essential air service program.

Mr. MCCAIN. So in what the American people believed was a time of change, the American people now should know that it is business as usual. A combination of lobbyists, industry campaign contributions, unnecessary spending continues completely out of control. This was a piece of legislation that was supposed to fund the wars in Iraq and Afghanistan. So now we add billions of dollars for things such as cash for clunkers, unneeded and unnecessary and unwanted military equipment that is made in the home States of certain powerful Members of Congress.

It is not good. Sooner or later, the American people will demand that it comes to an end.

I yield the floor.

The PRESIDING OFFICER (Mrs. SHAHEEN). The Senator from California.

Mrs. BOXER. Madam President, I wish to be heard briefly.

We heard Senator MCCAIN attack this bill that is before us that primarily funds two wars, takes care of our wounded warriors, invests in new hospitals for them to be treated for their brain injuries, helps them with their childcare, and essentially starts us on the path of bringing our troops home from Iraq—something President Obama promised to do—and changes our focus in Afghanistan, which has been very scattered, and focuses us on routing out the Taliban, who make it possible for al-Qaida to thrive. So this bill protects the American people.

I have been very clear, I have said I want to see our Afghanistan policy work. I said I am going to give it this year for that to happen, and I hope it does happen. Because we were attacked by al-Qaida. We were attacked by Osama bin Laden. We were attacked because al-Qaida had sanctuary in Afghanistan. And instead of going into Afghanistan, the way we should have, we shortchanged that mission that I voted for and turned around and went into Iraq. We had President Bush, with his constant focus on Iraq, lead us to a very dark period—very dark period—in our history, where we lost thousands of our soldiers, thousands more were wounded—and you all know the story of the torture and all the rest that accompanied this—and led us to a place where America has lost its standing in the world.

This President inherited two wars. Yes, he is trying to end one and refocus another. He inherited the worst recession since the Great Depression. I call it the ''Great Recession.'' And he also had to cope with threats from North Korea, Iran, from pirates on the open seas, instability in Pakistan. And then, on top of it all, he is facing, and we are facing, a health threat from the swine flu, the H1N1 virus. So he comes to us with an emergency spending bill.

Do I like everything in this bill? I do not. This is about a compromise. I do not like everything in this bill. But to tear down the attempt of what we are trying to do here, which is to begin moving our troops out of Iraq, refocus our effort in Afghanistan, focus on the wounded warriors, focus on global AIDS reduction, focus on the world recession—that is another thing we are doing. I think it has to be done. I would much rather do it all in the normal budget process. That is why President Obama has said this is the last war supplemental we will have. I compliment him on that. President Bush sent supplemental requests to Congress year after year after year. This President says this is the last time, and I take him at his word.

I think it is important, instead of being so terribly negative, to at least give a balanced overview. Many of the funds in the bill for Afghanistan will go to help the women and the children of Afghanistan. It is very hard for me to understand how anyone could oppose that. We have women who have acid thrown in their face if they do not obey their husband or they take off a face covering. We have children being stoned—girls—on their way to school. It seems to me that we ought to give it a chance before we leave these women high and dry. I, for one, cannot do that.

Again, I have said we have to do this right, and we have to do it quickly. Because I am not going to give my vote to an open checkbook for another war. But I believe this administration gets it and I believe they are training the troops in Afghanistan and I believe they are working to build a civil society there. Because, at the end of the day, we cannot be the policemen of the world. We have to make sure the people we are helping want to be helped and want to run their own societies. That is our hope in Iraq, finally. That is our hope in Afghanistan.

As I look around and I look around the world and I look around this country and I see the pain and suffering in this country—this recession—we have to understand we are in a global economy. That is why the President wanted those IMF funds: So we can avert a depression out there in the world.

There are peacekeeping funds in this bill. Anyone who is following what is happening in Africa—whether it is Darfur or the Democratic Republic of Congo or other places—understands the brutality that is going on. We need to help end the brutality, particularly—and I know my colleague in the chair knows this—the brutality against the women, where in these countries rape is used as a tool of war and rape is used as a tool of ethnic cleansing. We cannot allow that to happen. It is an obligation we have as the leader of the free world.

I guess I wish to say to my colleague from Arizona, I totally understand his frustration with spending. I have to tell him, this Democratic Congress is going to wrap its arms around spending. We did it before under President Clinton. We had horrible deficits that President Clinton inherited from the other George Bush, and we got our act in order. We had pay as you go. We are going to do that with this President.

But let me tell you, this President has been in office for five months, January through June, and we have averted economic disaster and we have a foreign policy on the right track. There was an election in Lebanon where the Lebanese people elected a pro-Western government. We have other things happening around the world today that indicate people hear now. In very high-tech ways, they are learning that freedom is valuable. But it does not come to us free.

Yes, I do not like everything in this bill. I could go through my list too. Because each one of us would write a different bill. But I will tell you what I like less, the loss of jobs, the threat of the swine flu, the threat of AIDS, the threat of world instability, the spread of weapons.

So I say, we should vote for this bill, as flawed as it is, sending a clear message to our President that we agree with him, but that this should be the last war supplemental. Let's do these things on budget. Let's go back to pay-go. Let's wrap our arms around fiscal responsibility, the way we did in the 1990s.

Let me remind my colleagues on the other side of the aisle, who are ranting and raving about deficits, under their President we had the most outrageous deficits, the most outrageous debt. We Democrats, under Bill Clinton, got a balanced budget in place, and we had a surplus—not a deficit, we had a surplus—and we had the debt going down. It was going to be eliminated. Then George Bush came in. He started this war in Iraq—a war with an open checkbook, no end in sight, no checks and balances on it, and tax breaks to the people who earn $1 million or more. It drove us into the ground. That is what brought us to this January, when our new President took all this on his shoulders and shared the burden with the Democratic Congress. I think we have averted the worst of it. We have a long way to go. I think this supplemental will help us get the rest of the way. Coming at us is pay as you go. Coming at us is fiscal responsibility. Coming at us is a challenge. We are going to have to make those difficult choices. That is one of the reasons we want to take care of health care and energy because, at the end of the day, those will help our economy.

The challenges are great. There is plenty of stuff in this bill I don't like, but I think, overall, this bill moves us in the right direction, in terms of helping our men and women in uniform, helping our national security, helping our public health, helping the global recession, and moving us toward a better day.

So I will support this bill. I thank you very much, Madam Chair.

I yield the floor and I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BURRIS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURRIS. Madam President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

JUNETEENTH INDEPENDENCE DAY

Mr. BURRIS. Madam President, next month, the Fourth of July, this Nation will pause to remember the moment when we asserted our independence and declared ourselves free from tyranny. It is a day all Americans hold dear, and rightly so.

But on the 19th of this month, which will be tomorrow, many in this country observe another independence day. It echoes the ideals laid down in that first declaration. It celebrates liberation from a more oppressive tyranny. It marks a ''new birth of freedom'' for the slaves who had been excluded from the promise of the American dream.

That is why I have submitted this Senate resolution observing the historical significance of that day—Juneteenth Independence Day.

Slavery officially ended in the Confederate States of America when President Lincoln signed the Emancipation Proclamation on January 1, 1863. But many slaves did not learn of their freedom until much later.

Finally, on June 19, 1865, more than 2 years after the Emancipation Proclamation, Union soldiers led by Major General Gordon Granger arrived in Galveston, TX. They brought news that must have been almost unbelievable to all who heard it—especially those who had known no existence outside of bondage. The Civil War was over, they announced, and all slaves were free.

From that day on, former slaves in the Southwest celebrated June 19 as the anniversary of their emancipation.

Over the past 144 years, Juneteenth Independence Day celebrations have been held to honor African-American freedom. But this date has come to hold even greater significance. Throughout the world, Juneteenth celebrations lift up the spirit of freedom and rail against the forces of oppression.

At long last, Juneteenth is beginning to be recognized as both a national event and a global celebration. The end of slavery marked a major step towards achieving equal rights for every American, regardless of race, creed or color.

Just as the Fourth of July marks the beginning of a journey that continues even today, we must not forget that the long march to freedom that started on June 19 is far from over.

Our progress along this path and our progress as a Nation can be measured in many ways, but none so dramatic as the popular election of an African American to the Presidency of the United States.

America has come a long way since that first Juneteenth, and yet we have a long way still to go.

Juneteenth should be a day of reflection—a day to remember those who came before, who fought and suffered and died. But it should also be a day of action; a day for all of us to stand together and hold up the liberties we hold so dear; a day to look ahead to the future, to continue the fight for freedom and equality; a day to think of our children as much as our forefathers.

Together, we must ensure that our sons and daughters know an America that is even more free, more fair, and more equal than the America we live in today.

When we leave this place, let us share in the joy of those who greeted General Granger's arrival into Galveston on that fine June day more than 140 years ago. And let us stand with our forefathers to continue this journey in our own lives.

Madam President, I urge my colleagues to join with me in supporting this resolution observing the historical significance of Juneteenth Independence Day.

The PRESIDING OFFICER. The Senator from Pennsylvania is recognized.

Mr. SPECTER. Madam President, I ask unanimous consent, on behalf of the leader, that no further points of order be in order during the pendency of the conference report to accompany H.R. 2346, and that at 4:40 p.m. the Senate proceed to vote on adoption of the conference report, with the time until then equally divided and controlled in the usual form. That is the consent request, which would have been offered earlier but a Senator had the floor so it was not. The hour of 4:40 having arrived, it is now the time specified for commencement of the vote.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. SPECTER. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to the conference report.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) and the Senator from Massachusetts (Mr. KENNEDY) are necessarily absent.

Mr. KYL. The following Senator is necessarily absent: the Senator from Nevada (Mr. ENSIGN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 91, nays 5, as follows:

[Rollcall Vote No. 210 Leg.]

YEAS—91

Akaka	Corker	Kyl
Alexander	Cornyn	Landrieu
Barrasso	Crapo	Lautenberg
Baucus	Dodd	Leahy
Bayh	Dorgan	Levin
Begich	Durbin	Lieberman
Bennet	Feinstein	Lincoln
Bennett	Gillibrand	Lugar
Bingaman	Graham	Martinez
Bond	Grassley	McCain
Boxer	Gregg	McCaskill
Brown	Hagan	McConnell
Brownback	Harkin	Menendez
Bunning	Hatch	Merkley
Burr	Hutchison	Mikulski
Burris	Inhofe	Murkowski
Cantwell	Inouye	Murray
Cardin	Isakson	Nelson (NE)
Carper	Johanns	Nelson (FL)
Casey	Johnson	Pryor
Chambliss	Kaufman	Reed
Cochran	Kerry	Reid
Collins	Klobuchar	Risch
Conrad	Kohl	Roberts

Rockefeller	Stabenow	Warner
Schumer	Tester	Webb
Sessions	Thune	Whitehouse
Shaheen	Udall (CO)	Wicker
Shelby	Udall (NM)	Wyden
Snowe	Vitter	
Specter	Voinovich	

NAYS—5

Coburn	Enzi	Sanders
DeMint	Feingold	

NOT VOTING—3

Byrd	Ensign	Kennedy

The conference report was agreed to.

Mrs. LINCOLN. Madam President, I move to reconsider the vote.

Mr. UDALL of Colorado. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mrs. LINCOLN. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BROWN. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. Madam President, I ask unanimous consent to speak in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. BROWN. Madam President, as Members of the Senate and the House tackle health reform, two overriding objectives have become apparent. We must bring down cost and we must expand access, while allowing people who are happy with their health care to stay in the plan they are in now. Fix what is broken; preserve what works. Perhaps nowhere are these needs more obvious than the area of biopharmaceuticals or so-called biologics. Biologics are the fastest growing segment of prescription drug spending. With costs to biologics ranging anywhere from $10,000 to $200,000 per patient per year, biologic treatments pose a significant financial challenge for patients, for insurance companies, for employers who are paying the bills, and for Federal and State governments that are also paying the bills. Let me give examples.

If you suffer from an inflammatory condition such as rheumatoid arthritis or psoriasis or Crohn's disease, you probably would be prescribed Enbrel or Humira or Remicade. These biologics cost about $14,000 a year, more than $1,000 a month. Do you know what that does to an individual's pocketbook, an insurer or taxpayer? If you are diagnosed with multiple sclerosis—as 200 Americans are per week, some 30 Americans every day—you would probably be prescribed an interferon like Avonex, Betaseron, or Rebif, at a cost of $19,000 per year. If you need Zevalin to treat lymphoma, which strikes nearly 75,000 Americans every year, it costs up to $30,000 for a full round of treatment.

When other prescription drugs go off patent, after they have had patent protections for many years, there is a process at the Food and Drug Administration for approving lower cost generic versions. So you will see, when you go to a drugstore, many drugs which now are off patent. They have provided good profits for the developer, the drug company, but they are now off patent. So there could be generic competition in many of the drugs we use. That has worked to keep the price down and to bring competition to the industry. But no such process for biologics exists, no allowance of a generic substitute to compete with the biologic.

As it stands, biologic manufacturers are in the envious position of having a permanent monopoly. No one can compete with them. Even after their patent has expired, FDA, under law, cannot legally approve competing products because of a gap in FDA law. At this point the only thing that stands in the way of establishing a generic approval process for biologics is the political muscle of the biologics industry. Here is what the industry tells us. They don't want any kind of approval process for generic biologics. They don't want competition. They want to continue to charge $14,000 if you have Crohn's disease, $19,000 if you have MS, and $30,000 per round of treatment for the 75,000 Americans who have lymphoma.

If we do establish such a process, they want to render it useless by granting biologics the equivalent of a permanent patent extension. Maybe you give them 12 years. After 12 years, you allow a generic, unless they slightly change a molecule or a process and you get another 12 years and another 12 years and another 12 years. So in addition to 20 years worth of patent protection, they want 12 years of market exclusivity which has the exact same effect as patent protection. When FDA grants a drug market exclusivity, it means that FDA will not approve any generic version of that drug, period.

After the first 12 years of market exclusivity is over, the biologics industry wants to slightly modify their product, and they get another 12 years of market exclusivity. And if they slightly modify the product again, they want another 12 years and another. In other words, they want no generic competition.

We have generic competition in all kinds of drugs that are very well known, but there is no provision for any kind of generic competition for these biologics. The Federal Trade Commission, the government agency with no skin in the game, with no belief that one product is better than another, with no ties to the drug industry, with no ties to anybody, issued a report asserting that the biologics industry gets plenty of marketplace protection through patents and they should not be afforded even 1 day of market exclusivity, much less 12 or 24 or 36 years.

AARP recently reported that the top 10 biologics recoup their R&D investment after 2 years of sales. The industry claims they need decades sometimes to recoup their investment. But the AARP doesn't make this stuff up. Biologics manufacturers, even though AARP said they only need 2 years of sales to recoup their investment, are given more time than that so they can make a healthy profit. Yet biologics manufacturers are asking for 20 years of patent protection, coupled with 12 more years of market exclusivity; again, renewed over and over. That is the way they like it. The biologics industry wants us to go home and tell constituents with arthritis or respiratory illness, hemophilia, cancer, or multiple sclerosis, numerous other conditions now treated by biologics, if they are lucky, in 24 or 36 years they will have access to treatments that are more affordable.

If we care about patients and fiscal responsibility, we will not allow the biologics industry to bully us into giving them more marketplace protection than any other industry. But it will take the personal will of Members from both sides of the aisle to overcome the biologic industry's clout.

Some Members of this body have already taken a stand. I was proud to join Senator SCHUMER, Senator COLLINS, Senator VITTER, and Senator BINGAMAN—Democrats and Republicans—to introduce legislation that would close the gap on FDA law that prevents generic versions of biologics from being approved. This legislation is a compromise. It would provide 5 years of market exclusivity—remember, they already have patent protection—the same as that provided to other prescription drugs. Then they would be eligible for an additional 3 years of market exclusivity for beneficial changes to their products and even more exclusivity if they conduct pediatric tests on their product. This tiered approach, which I hope to include as part of the health care reform bill moving through the HELP Committee, would provide needed competition, long-term savings, and an opportunity for consumers to have safe, effective, and affordable medical treatments.

I credit the manufacturers and the scientists and thank them, the medical researchers, for this. They provide great promise and hope to those suffering from devastating diseases and chronic illness. But absent price competition, countless Americans will be

unable to benefit from these medicines because they are too expensive. We are talking about tens of thousands of dollars a year just for this drug treatment, this biologic treatment, let alone all the other doctors' bills and medicine they would need.

I hope when my colleagues are lobbied by the biologics industry—and they are spending millions of dollars on this because it means hundreds of millions of dollars in more profits for them—I hope when my colleagues are lobbied by the biologics industry, they will remember 12 plus 12 plus 12. It simply does not work for us. The American patients, American businesses, and American taxpayers cannot afford to wait 12 or 24 or 36 years for affordable biologics. Frankly, we should not make them wait.

I yield the floor.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. KAUFMAN. Madam President, I ask unanimous consent to speak as in morning business for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

IN HONOR OF JOE CONNAUGHTON

Mr. KAUFMAN. Madam President, I have spoken here a few times already about Federal employees and the great work they perform. I am honored to be in a position to come here and do it again. I enjoy sharing stories in this Chamber about excellent public servants.

These stories are only but a few pieces in the vivid mosaic of our Federal workforce. The stories are exemplary, not exceptional. These are regular people doing a great job.

The real story of our Federal employees—that of their dedication, their talents, and their important contributions—needs to be told.

Service in government is characterized by sacrifice. Many of our Federal employees wear a uniform and sacrifice on the battlefield. Others work in civilian jobs but still make great sacrifices by working long hours and foregoing opportunities in the private sector, such as substantially better pay and bonuses. Their bonus, as I have said before, is the satisfaction of having served their country.

Today I wish to speak about a man who risked his life during wartime and then spent nearly three decades working as a civilian engineer for the U.S. Army Missile Command.

Joe Connaughton, a native of Tuscaloosa, AL, had already distinguished himself during the Second World War. He served as a navigator and bombardier on 47 missions in both the European and Pacific theaters. Joe was decorated with three air medals and four battle stars, and his unit received the Croix de Guerre for support provided to the French Expeditionary Force during the Allied offensive in Italy.

After returning home, Joe took advantage of the GI bill to pursue a bachelor of science degree in chemical engineering from the University of Alabama. He began working for the U.S. Army Missile Command near Huntsville in the late 1950s.

For 27 years, Joe worked for the Army Missile Command's Research, Development, and Engineering Division at Redstone Arsenal. He and his engineering team helped develop and perfect weapons systems critical to maintaining our military edge during the Cold War. This included the Lance, Hellfire, and THAAD missile propulsion systems.

When Joe and his colleagues were working on the Hellfire missile, which is carried primarily by the Apache attack helicopter, there was a problem when the TV-based guidance system encountered difficulties in smoke and bad weather. A missile whose own propulsion method gives off a smoke plume cannot be accurately directed if the smoke hinders its guidance system. The engineering team on which Joe worked developed a smokeless propellant, which greatly enhanced the missile's accuracy.

For this achievement, Joe and his team earned the Army Missile Command's Scientific and Engineering Award in 1980.

When the Hellfire entered service in 1984, it was intended for use against Soviet tanks in a future Cold War conflict. But with the collapse of communism in Europe just a few years later, some began to doubt whether its development—and that of similar systems—was worth the cost.

However, with the laser guidance and missile propulsion system developed by the civilian engineers at Redstone Arsenal, the Hellfire proved its worth during Operation Desert Storm in 1991.

In that conflict, the Army and Marine Corps used the Hellfire to disable the Iraqi air defenses in its initial strike, quickly gaining air supremacy. Apache helicopters launched Hellfire missiles against a myriad of targets, demonstrating the usefulness and effectiveness of this new weapon.

This guided missile system, perfected in Alabama by Joe and other Federal employees, helped spare civilian lives in Iraq and ensured a rapid coalition victory. They continue to play a major role today, as Predator drones carry Hellfire missiles on missions over Afghanistan.

Our military depends on countless civilian engineers just like Joe. Without their hard work and important contributions, we could not maintain the military strength we have today. They are all—every one of them—Government workers, and they work on bases and in research facilities throughout the country, including at Redstone Arsenal in Huntsville.

These men and women wake up each day and go to work knowing that they directly participate in keeping America safe. The technologies they develop remain at the forefront of our fight against al-Qaida and other extremist groups.

We must never forget that they, along with the rest of our civilian government employees, enable the military to do its job.

Some give their lives for our country. Others give their lives to it. All of them demonstrate this greatest hallmark of patriotism; which is sacrifice.

Joe could have made more money in the private sector. Doubtless, he could have moved from the Army Missile Command to work for a private military contractor, the same people he worked with on a daily basis in developing these systems. But he didn't. His priority was making a contribution, not making money.

In some ways, we have lost sight of this sense of purpose, which is the engine of our American spirit. I am greatly encouraged that President Obama has called for a new generation to take up the torch of public service through careers in government. He has called on us, once again, to make sacrifices in order to ensure the future safety and prosperity of this country we all love so dearly.

Our Federal employees, like Joe, feel a sense of duty to serve this great Nation. It is what sustained him—a 20-year-old airman from Alabama—over Italy, France, Yugoslavia, China and Japan. It is what sustained him as an engineer when he returned home to Alabama and worked to build America's defenses. It is love of country. It is service above self.

Joe embodies this spirit, and I know he has passed it on to the next generation. I can see it firsthand, because his son, Jeff, is my chief of staff—a great Federal employee and a great person.

Families across America will gather this Sunday to mark Father's Day and to celebrate the important bond between fathers and their children. On this occasion I am reminded of my own father—who spent most of his career as a government employee—and the important lessons he taught me about the value of public service.

I also think about fathers throughout America who have chosen—along with so many mothers—to dedicate their careers to serving the public. They are powerful role models, not only for their own daughters and sons, but for all young Americans who want a chance to shape this country's future.

I hope all my colleagues will join me in honoring the sacrifices and the achievements of all our Federal employees.

I want to wish Joe a happy Father's Day, and I extend the same well wishes to fathers across the country, and especially to those serving overseas or with a loved one serving overseas.

Madam President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KAUFMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BEGICH). Without objection, it is so ordered.

Mr. KAUFMAN. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

IRAN

Mr. KAUFMAN. Mr. President, Senator KYL and I will join in introducing a resolution concerning freedom of the press, freedom of speech, and freedom of expression in Iran.

In the past week, the flow of information in and out of Iran has been suppressed. Voices in Iran have been silenced, and the international right to freedom of expression has been restricted, especially in the press.

I support Iran's sovereignty and deeply respect the will of the Iranian people. While Iran has enthusiastically embraced elections, the long road to democracy does not end there. It also includes fundamental freedoms, such as freedom of expression, which is protected under the International Covenant on Civil and Political Rights.

In 1976, Iran was one of the first countries to ratify this U.N. treaty which also protects the right to hold opinions without interference and the right to receive and impart information in writing, print, or through any other media.

Our resolution supports the Iranian people as they take steps to peacefully express their opinions and aspirations and seek access to means of communication and the news. It expresses respect for the sovereignty, proud history, and rich culture of the Iranian people, and recognizes the universal values of freedom of speech and freedom of the press.

As President Obama said earlier this week:

> The democratic process—free speech [and] the ability of people to peacefully dissent . . . are universal values and need to be respected.

This is the case not just in Iran but anywhere in the world.

Since the Iranian presidential election on June 12, there have been increased restrictions on freedom of the press in Iran and limitations on the free flow of information. Newspapers and news services have been censored, access for journalists has been restricted, and specific media outlets have been blocked. Foreign journalists have had their press credentials canceled and videos confiscated. They have been confined to their hotels and told their visas would not be renewed. Bureaus of foreign press agencies in Tehran have been closed, and others have been instructed to suspend all their Farsi-language news.

For Iranian journalists, the stakes have been even higher. Numerous Iranian journalists have been detained, imprisoned, assaulted, and intimidated since the elections on June 12. Journalists have been instructed to file stories solely from their offices, which has limited their ability to provide timely and accurate news. There has also been interference with international broadcasting in Iran, whether through the jamming of radio transmissions or blockage of satellite signals.

Shortwave and medium-wave transmissions from the Farsi-language Radio Free Europe/Radio Liberty's Radio Farda have been partially jammed, and satellite broadcasts, including those of the Voice of America's Persian News Network and the British Broadcasting Corporation, have also been intermittently blocked as well. These services are widely popular in Iran, serving as a vital source of communication and entertainment, and attempts to thwart such broadcasts are shameful.

Efforts to suppress the free flow of information have not focused on the media alone. Blogs and social networking sites have been targeted as well, including popular Web sites such as Facebook and Twitter. Short message service in Iran has been blocked—preventing text message communications and jamming Internet sites that utilize such services—and cell phone service has been partially shut down.

These restrictions have prevented the free flow of information and precluded Iranian citizens from communicating with each other. Some Iranians have circumvented these restrictions through proxy Web sites and third-party carriers, and the Internet has served, at times, as the only outlet for communication within Iran and with the rest of the world.

This resolution reinforces the universal values of freedom of speech and freedom of the press. It supports the Iranian people as they take steps to peacefully express their voices, opinions, and aspirations. It condemns the detainment, the imprisonment, and the intimidation of all journalists in Iran and throughout the world.

As President Obama said Tuesday:

> To those people who put so much hope and energy and optimism into the political process, I would say to them that the world is watching and inspired by their participation, regardless of what the ultimate outcome of the election was.

This resolution is not about the election in Iran. Rather, it is about the fundamental right to free speech, free press, and free expression of the Iranian people.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I ask unanimous consent to speak as in morning business for as much time as I may consume.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRAVEL PROMOTION ACT

Mr. DORGAN. Mr. President, the business of the Senate, now that we have had the final vote on the supplemental here in the Senate, will be the Travel Promotion Act. That is a piece of legislation that is widely bipartisan. We have passed it by unanimous consent through the Senate Commerce Committee and brought it to the floor of the Senate with very substantial Republican and Democratic support. I am an original author of the legislation called the Travel Promotion Act, but a good many Republicans are cosponsors and colleagues on the Democratic side are as well. It should not be controversial. Yet getting that bill to the floor of the Senate required the filing of a cloture motion, which means, just on the motion to proceed, we had to wait 2 days and then have a vote on whether we could actually proceed to the motion to proceed to the legislation itself. That passed, I believe, 90 to 6. Then we had 30 hours postcloture.

We have been in a waiting position to try to determine can we get to this bill. Let me make the point that this is a piece of legislation that is almost unique, in the sense that, No. 1, it is very bipartisan and, No. 2, the Congressional Budget Office says it is going to reduce the Federal budget deficit.

Let me say that again. The Congressional Budget Office says this legislation will actually reduce the Federal budget deficit by very close to $500 million over 10 years. There ought not be substantial controversy about this legislation.

What we are working on and have been working on for some hours is to try to determine how we get, now, on the bill and agree on amendments. We have had lists back and forth of what amendments might or might not be offered. We have not been able at this point to agree on the list. We are not asking for a finite list, just a list on how to begin. There have been so many amendments that have been proposed that have nothing at all to do with the legislation, so we are working back and forth. It appears we are not going to be able to reach agreement on a list of

how we begin with these amendments this evening, but my hope remains that perhaps tomorrow we will be able to have some kind of agreement on a list that would allow us to proceed to the Travel Promotion Act.

Let me mention briefly that this legislation is not controversial. Travel promotion means that our country would begin to address a problem. What is that problem? The fact is, we have many fewer visitors from abroad to this country, in terms of international tourism, which is very job creating, strongly supportive of economic growth because international tourists spend a lot of money. On average I believe they spend somewhere around $4,500 per trip when they come to this country, for hotels and car rentals and airplanes and tourist attractions and so on. It is very job creating.

The fact is, we have far fewer tourists coming to this country from abroad than we had in the year 2000. That is a very serious problem; we have fallen substantially behind other countries that are aggressively marketing their countries for destination by international travelers. Italy, France, Great Britain, Spain, Australia—the list goes on and on of countries that say come to our country, travel here, visit here, be part of the experience in our country. Our country is not involved in that. It is as if there is a competition and we are not competing.

We put together a piece of legislation that would create and promote international destination travel to our country because it will surely create jobs and certainly be beneficial to our economy. As I said, it has wide support throughout the industry, throughout this Chamber, with Republicans and Democrats, and it actually reduces the Federal budget deficit. It is pretty hard to find a piece of legislation such as that.

Despite all that broad support and the fact it passed out of the Commerce Committee unanimously, we are having trouble getting it to the floor in a way that has amendments offered and in the regular order we consider this legislation.

As of tonight we are not able to reach an agreement on a list, but I remain hopeful. As we continue to exchange and have discussions about beginning this process and agreeing to amendments that can be debated, my hope remains that perhaps tomorrow we will be able to agree to such a list.

I believe others will have additional comments tomorrow as these discussions continue. My hope is we will be successful.

I have a number of unanimous consent requests I wish to offer.

MORNING BUSINESS

Mr. DORGAN. I ask unanimous consent the Senate proceed to a period of morning business, with Senators permitted to speak up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

PARLIAMENTARY ELECTIONS IN ALBANIA

Mr. CARDIN. Mr. President, I am proud to cosponsor S. Res. 182, recognizing the democratic accomplishments of the people of Albania and expressing the hope that the parliamentary elections on June 28 maintain and improve the transparency and fairness of democracy in Albania. I urge my colleagues to join me in supporting this resolution.

As Chairman of the Helsinki Commission, I am aware of what Albania has accomplished since its first multiparty elections in 1991, but I also know what a struggle it has been. Albania was under a ruthless and isolationist communist regime for decades. While not part of the former Yugoslavia, it was also impacted by the conflicts in neighboring and nearby Balkan countries in the 1990s, which was a setback for the entire region.

The promise of NATO membership did much to encourage progress in Albania in recent years. While problems relating to the rule of law and fight against corruption persisted, we supported Albania's NATO membership with the understanding that reforms will continue. The State Department in particular emphasized that other NATO members continued the reform process after joining the Alliance. That is our hope for Albania as well.

This resolution more actively expresses our hope as well as expectation that Albania live up to international standards it has accepted, in particular as they relate to the holding of elections. There are concerns about these elections, especially in regard to new voter identification cards and their distribution in time to allow citizens to vote. Even if Election Day does go smoothly, it is unfortunate that there was a delay in preparations—which causes confusion, frustration and suspicion among the Albanian electorate.

Albania is a good friend of the United States, and by passing this resolution we are investing in that relationship to make it grow. We want Albania to succeed, and this resolution will hopefully encourage Albania to hold successful elections on June 28. I believe the resolution is balanced, raising concern while noting progress and clearly favoring no particular political party. While those currently in power may have the additional responsibilities that come with governance, all parties have a role to play in order to make these elections meet international standards.

HONORING OUR ARMED FORCES

STAFF SERGEANT EDMOND LO

Mr. GREGG. Mr. President, I rise today to pay special tribute to U.S. Army SSG Edmond Lo of Salem, NH.

Tragically, on June 13, 2009, this brave 23-year-old gave his life for this Nation when an improvised explosive device detonated while his explosive ordnance disposal team courageously worked to neutralize the threat near Samarra City, Iraq. At the time of this hostile action, Sergeant Lo, a member of the 797th Ordnance Company based at Fort Hood, TX, was serving his second tour in Iraq in support of Operation Iraqi Freedom.

Edmond demonstrated a willingness and dedication to serve his country from an early age. A 2004 graduate of Salem High School, Edmond was a member of the Air Force Junior ROTC Program and commander of the drill team, color guard, and operations squadron. He was well known and liked by his teachers and fellow students and earned himself a full scholarship to a top engineering school upon graduation. However, sensing a call to duty, and because of his desire to protect his country, Edmond instead chose to join the Army.

Just as many of America's heroes have taken up arms in the face of dire threats, Edmond dedicated himself to the defense of our ideals, values, freedoms, and way of life. His valor and service cost him his life, but his sacrifice will live on forever among the many dedicated heroes this Nation has sent abroad to defend our Nation's freedom.

A beloved member of the Salem community, Edmond was respected and admired by all those around him. As a loyal member of the U.S. Army, he continually performed above and beyond all expectations. Because of Edmond's efforts, our liberty is more secure.

Kathy's and my thoughts, condolences, and prayers go out to Edmond's parents, David and Rosa Lo, his brothers and sisters, and his other family members and many friends who have suffered this most grievous loss. All will sorely miss Edmond Lo, a true patriot who was proud of his family, proud of where he lived, and proud of what he did. In the words of Daniel Webster—may his remembrance be as long lasting as the land he honored. God bless Edmond Lo.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.

CELEBRATING WEST VIRGINIA DAY

• Mr. ROCKEFELLER. Mr. President, I rise to recognize that 146 years ago today, West Virginia became the 35th State to join the Union. The only State

to have seceded from a Confederate State, West Virginia's birthday shines as an anniversary which commemorates the spirit, perseverance, optimism, and hard work of its people.

West Virginia is unique in countless ways; and her history is just the beginning. For almost 200 years, West Virginians have played a significant role in the development and advancement of our nation. From the Battle of Philippi in Barbour County, which was the first organized land battle of the Civil War, to John Brown's historic raid on the Arsenal in Harpers Ferry, we recognize the role our State has played in the making of America's history.

The only State to lie entirely within the borders of Appalachia, we remain incredibly diverse; our geography, population, and heritage are what have lead to our identity as the ''Wild and Wonderful'' State. From the renowned Greenbrier Hotel and Resort in White Sulphur Springs, to the New River Gorge in Fayetteville, which houses the longest steel-arch bridge in the United States, it is no wonder that we draw tourists here from all over the globe.

But it is not the many historical sites or beautiful landscapes that capture the fortitude of West Virginia, but rather, her people—people who continue to inspire with pride and honor, and overcome challenges with a resolve like no other.

Early last month, flash flooding devastated families throughout southern West Virginia, damaging at least 1,500 homes with the worst flooding the area has seen for quite some time. The humanitarian response within the State has been profoundly moving; with people traveling hours to donate their time and energy to assist their fellow West Virginians, and some 300 National Guard troops posted in the area—proving that goodwill is alive and well in West Virginia. Seeing this outpouring, I was reminded of serious flooding in our State when I was Governor. I opened National Guard armories to house displaced families but none showed up—because their neighbors had taken them in. That is a shining example of our Mountaineer spirit.

In addition to serving the people of our State, the West Virginia National Guard is committed to global security, with 38 active units serving around the world, including in Afghanistan and Kosovo. Our State motto, ''Mountaineers are always free,'' can be found resonating not only in all corners of the Mountain State but across the globe. And it is a motto that West Virginians have stood up for time and again—as our State's veterans are among the bravest, most selfless, and most devoted in the entire Nation.

West Virginians have the amazing ability to make sure our culture—which we are so proud of—is also part of our future. Ours is a State wrapped in age-old traditions, but also a State with a readiness to adapt to its younger generations; a veritable melting pot of both old and new world. The Ramp Eating Capitol of the World is found in Richwood, where international crowds gathered in April for the annual Ramp Eating Contest to delight in this West Virginia favorite. And artists across our State are finding more innovative ways to market our cultural heritage, from Blenko Glass and amazing woodwork, to folk-art, quilts and Appalachian music.

Our schools, colleges and universities have inspired some of the best and brightest young leaders. West Virginia University and Marshall University have produced some of the greatest minds in some of the toughest fields worldwide, and have played an integral role in supporting the communities they inhabit. The Promise Scholarship, which pays instate collegiate tuition fees for those high school graduates with qualifying academic records, has helped thousands of students afford college since its inception. Thanks to this measure, admission to institutions of higher education in West Virginia has steadily increased, drawing students from across the Nation to study subjects such as biometrics, forensics, and defense.

Native West Virginians often joke that telephone calls placed to God are local, as our State is ''almost'' heaven. We love and are so proud of our awe-inspiring scenery and our towering mountains, and we can't wait to show them off to anyone who visits. And what those visitors also find when they come to our beautiful State is a population well-versed in humility and good-nature. It is indeed the people who pay the greatest tribute to our Mountain State, and it is my honor and privilege today to wish you on their behalf, the happiest of birthdays, West Virginia.●

INDIRECT LAND USE

Mr. JOHANNS. Mr. President, I rise today to discuss a lingering issue that could have serious detrimental effects on our nation's ethanol industry.

The Energy Independence and Security Act of 2007 increased the renewable fuels standard—commonly known as the RFS—to 36 billion gallons annually of ethanol and other biofuels by 2022.

I support the RFS . . . Always have. The RFS simply means more domestic energy production, less imported oil from unfriendly nations, and more jobs in rural America—both on and off the farm.

The 2007 law requires EPA to come up with new rules to determine greenhouse gas emissions throughout the lifecycle of renewable fuels. Simply put, EPA must calculate how much greenhouse gas is emitted from the time the seed is produced to the time drivers use the fuel in their cars, with every step in between. These steps include production, transportation, distribution, and blending, just to name a few.

Under the 2007 law, renewable fuels must emit anywhere from 20–60 percent fewer greenhouse gases than petroleum.

Unfortunately, when calculating lifecycle greenhouse gas emissions, EPA has included theoretical indirect land use changes.

As the theory goes, increased production of biofuels leads to more grain being used for biofuels and less being exported to foreign markets. Allegedly, this decrease in exports means additional grain production is required in other parts of the world, creating increased cultivation in those areas. Proponents of this way of thinking say forests in other parts of the world are being converted to crops to substitute for the missing U.S. grain.

However, that is all it is, an unsubstantiated theory, an argument that just doesn't hold water. Pure bunk.

As an example, in 2004, over 10,000 square miles of the Amazon was deforested. In 2008—the peak year for ethanol production to date—that number dropped to under 5,000 square miles. How is that possible?

Due to significant technological advances and ever-increasing efficiency, the American farmer continues to meet the demand for food, feed, and biofuel. For instance, in 1980, the average corn yield per acre in this country was 91 bushels. Last year, it was 153.9 bushels—a 70-percent increase in productivity.

In fact, this spring, American farmers will use almost exactly the same amount of acres for corn production as they did 30 years ago—about 85 million acres. Yet the productivity advances mean we will likely harvest roughly 6 billion bushels more corn on the exact same amount of land.

The soybean industry can tell a similar story. In 1980, American farmers produced just under 1.8 billion total bushels of soybeans on 69.5 million acres. In 2007—almost 30 years later—they produced almost 2.7 billion bushels on 64.7 million acres. That is a production increase of nearly a billion bushels, on 5 million fewer acres.

So the facts seem clear. Even as the production of biofuels increases, deforestation rates have been cut in half just in the last 5 years.

Clearly, no reliable or accepted model for measuring indirect land use change exists. Projection models for indirect land use are based on assumptions about how landowners made choices about what to do with their land. And unless the EPA has recently hired mind-readers, they might as well be playing pin the tail on the donkey.

Calculating emissions from indirect land use changes is such an inexact

science; it is really no science at all. There is literally no way to know if what you come up with is accurate.

Our farmers and ethanol producers should not be held responsible for land use decisions made half way around the world, especially when they are based on untested and unreliable assumptions.

Just last year, the President's own Interior Secretary, Ken Salazar—then a sitting U.S. Senator—signed a letter to EPA stating that EPA's calculations pertaining to indirect land use are based on ''incomplete science and inaccurate assumptions.''

For all these reasons, today I sent a letter to EPA Administrator Lisa Jackson requesting a 120-day extension of the deadline for the public comment period on the RFS. EPA needs adequate time to hear from impacted industries and organizations about the potentially devastating effects of these untested, unreliable indirect land use calculations. I hope the EPA will give serious consideration to my request.

Additionally, I am cosponsoring S. 943 and S. 1148, both bills that would remove indirect land use assumptions from the renewable fuel standard. Doing so does not in any way impact emissions reductions requirements. The requirements remain intact and the same goals can be reached. These bills will simply remove a very untested, incomplete, assumption-based factor from the equation.

And while the environmental benefits of ethanol have been well-documented, the RFS was enacted to increase our energy security and decrease our dependence on foreign oil. Right now, over 60 percent of our oil is imported from other countries. Much of it comes from countries that, put very simply, don't like us very much. We have to take steps to become less reliant on these nations for our energy needs and more reliant on ourselves, and the RFS does that.

For example, the production and use of 9 billion gallons of ethanol in 2008 displaced the need for over 320 million barrels of oil. This is the equivalent of eliminating oil imports from Venezuela for 10 months. Put another way, it represents the equivalent of 33 days' worth of oil imports. Those are not insignificant numbers.

An expanded ethanol industry has yielded another very important result: rural economic development. Using my home state of Nebraska as an example, ethanol has clearly benefitted many rural communities.

Almost 10 years ago, as Governor of Nebraska, I supported several initiatives to incentivize what was then a relatively small ethanol industry. Well, today Nebraska is the Nation's second largest ethanol producer.

Nebraska currently has 20 operational ethanol plants, with a combined production capacity of over 1.3 billion gallons of ethanol each year. These plants represent more than $1.4 billion in capital investment and provide direct employment for roughly 1,000 Nebraskans.

Energy security, economic development, environmental improvement, these issues are all connected. And ethanol and our Nation's farmers have contributed to each in a positive way.

As elected officials we should support the biofuels industry, not undermine it. Basing our energy policy on some unsubstantiated theory regarding indirect land use is the wrong approach.

With the passage of the RFS, Congress asked farmers and biofuel producers to significantly expand and increase their production levels. Let's not pull the rug out from under them with unwise policies.

I am proud to cosponsor S. 943 and S. 1148 and encourage my colleagues to do the same.

ADDITIONAL STATEMENTS

COMMENDING SALVATORE ''TORRE'' M. MERINGOLO

● Mr. CARDIN. Mr. President, today I pay special tribute to the outstanding accomplishments of Salvatore M. Meringolo, vice president for development at St. Mary's College since 1997.

Mr. Meringolo leaves a remarkable record of accomplishment at St. Mary's College. He was hired 15 years ago as director of the library and information services and directed a comprehensive modernization effort that encompassed library partnerships with the University of Maryland System and raised $2 million for the library's endowment.

During his tenure as vice president for development, St. Mary's endowment has grown from less than $5 million to more than $24 million. Moreover, Mr. Meringolo pursued Federal funding strategies that have yielded more than $6 million for programs such as St. Mary's River Project and campus IT networking infrastructure.

For the past 3 years, Mr. Meringolo has served as secretary to the Board of Trustees. I had the honor of serving on the board from 1988–1999. He has provided staff support to the board's development, governance, and executive committees.

Mr. Meringolo often represents the college in the local community, having served as vice president of the Patuxent Partnership, as a member of the Navy Alliance, and the college's representative to the Economic Development Commission of St. Mary's County.

When the college and Historic St. Mary's City joined forces to create the $65 million Maryland Heritage Project, Mr. Meringolo worked to ensure a compelling and timely application. The facilities of St. Mary's College were reshaped over the last decade as a result of the Maryland Heritage Project.

The challenge presented by St. Mary's small-scale and modest resources was largely overcome by the talents of this very thoughtful and experienced individual. The college has experienced enormous growth in the last 15 years and much of that growth can be attributed to Mr. Meringolo's leadership.

I ask my colleagues to join me in applauding the many accomplishments of Torre Meringolo and in wishing him success in his future endeavors.●

COMMENDING JANE MARGARET O'BRIEN

● Mr. CARDIN. Mr. President, today I pay special tribute to the outstanding accomplishments of Jane Margaret O'Brien, Ph.D. president of St. Mary's College since 1996. I was a member of the St. Mary's Board of Trustees and have known Maggie for many years. I have the utmost respect for her and what she has been able to accomplish at St. Mary's during her tenure.

During her 13 years as president, the College has distinguished itself as a premier honors college that excels at scholarship, research, creative thinking, community engagement, and an appreciation and commitment to world issues, cultures, and communities.

Dr. O'Brien provided critical guidance to the development of the college's external relations and fundraising efforts during its transition to the Honors College Curriculum. Fundraising during Dr. O'Brien's tenure has profoundly reshaped the college's scholarships, professorships, lecture and learning series, arts, athletic, and community programs.

I will provide two examples of Dr. O'Brien's wonderful legacy. The Center for the Study of Democracy, an advisory board on which I have had the pleasure of serving since 2002, was established with a $2 million National Endowment for the Humanities—NEH—grant and challenge matches. The center is a leading programmatic initiative between the college and neighboring Historic St. Mary's City. This relationship continues to flourish with the opportunity for students to serve as Maryland Heritage Scholars and for faculty from the college and the city to serve as Maryland Heritage Fellows.

The Centre for Medieval and Renaissance Studies, where Dr. O'Brien will continue her work for St. Mary's, was founded in 1975 for two purposes: to establish in Oxford a permanent institute for the interdisciplinary study of the Middle Ages and Renaissance, and to provide academic training for overseas students who wish to study at Oxford.

I ask my colleagues to join me in applauding Maggie O'Brien for her stellar leadership at St. Mary's College and in

wishing her success in her continuing work on behalf of this unique institution.●

125TH ANNIVERSARY OF PARK RIVER, NORTH DAKOTA

● Mr. CONRAD. Mr. President, I wish today to recognize a community in North Dakota that will be celebrating its 125th anniversary. On July 2–5, 2009, the residents of Park River will gather to celebrate their community's history and founding.

The town of Park River was founded in 1884. It was named for its location on the Park River. The river itself was named by pioneer fur trader Alexander Henry, to note the corrals or parks that the Assiniboine Indians had built by the river to herd wild animals.

Park River's town motto, ''Park River, The Town with a Heart,'' truly captures the essence of the community where people are always willing to lend a helping hand. The town's all volunteer ambulance service, the Walsh County EMS, operates 24 hours a day and demonstrates the town's willingness to help each other out.

Today, the town's economy is mostly agricultural based, but also does focus on incorporating businesses in the technology and health care sector. Park River's health care industry is epitomized by its state-of-the-art hospital, First Care Health Center. This center has been providing quality medical care for the past 55 years to the residents of Park River and those in surrounding communities.

To celebrate their 125th anniversary, the people of Park River have planned a number of events including a polka fest, talent show, fireworks, road rally, an all class reunion, an American Legion baseball reunion game, and a parade that will be held on July 4th.

Mr. President, I ask the Senate to join me in congratulating Park River, ND, and its residents on their first 125 years and in wishing them well through the next century. By honoring Park River and all the other historic small towns of North Dakota, we keep the great pioneering frontier spirit alive for future generations. It is places such as Park River that have helped to shape this country into what it is today, which is why this fine community is deserving of our recognition.

Park River has a proud past and a bright future.●

125TH ANNIVERSARY OF CANDO, NORTH DAKOTA

● Mr. CONRAD. Mr. President, I am pleased today to recognize a community in North Dakota that is celebrating its 125th anniversary. On July 2–5, the residents of Cando will gather to celebrate their community's history and founding.

Founded in 1884, Cando was designated the county seat for Towner County and named for the ''Can Do'' spirit of the pioneers. That spirit is still visible in this active community, where hunting, fishing, camping, and bird-watching are all popular activities. In fact, ducks are so common to the area that Cando is known as the duck capital of North Dakota.

This active community, located in north-central North Dakota, is home to two museums, a golf course, bowling alley, and many thriving businesses.

In honor of Cando's 125th anniversary, town officials have organized activities including a golf tournament, street dance, folk dance, parade, potluck, tractor pull, and variety show.

Mr. President, I ask the Senate to join me in congratulating Cando, ND, and its residents on their first 125 years and in wishing them well in the future. By honoring Cando and all other historic small towns of North Dakota, we keep the great pioneering frontier spirit alive for future generations. It is places such as Cando that have helped shape this country into what it is today, which is why this fine community is deserving of our recognition.

Cando has a proud past and a bright future.●

COMMENDING LARRY G. ROBERTSON

● Mr. PRYOR. Mr. President, today, I honor the service of a great Arkansan. Captain Larry G. Robertson will retire at the end of this month after proudly serving in the Arkansas State Police for 32 years, providing protection and assistance to Arkansans across the State.

Captain Robertson's record of accomplishment spans three decades. He began his law enforcement career in 1973 as Star City, AR, chief of police before he was commissioned on January 17, 1977, as a state trooper assigned to the highway patrol division, troop E headquartered in Dumas, AR. Robertson distinguished himself in the line of duty and worked his way up the promotion ladder quickly from the rank of sergeant, to lieutenant, and finally, in 1999, to the rank of captain, highway patrol commander, troop F, the largest geographical troop in the State covering nine counties in southeast Arkansas.

Under Captain Robertson's leadership as troop F commander, his troopers consistently led the State in DWI arrests and other activities despite having fewer personnel than most other troops. His dedication to keeping his fellow Arkansans safe extended beyond the highway patrol division. During his 30 years of service, he led the Arkansas motor vehicle inspection team and served as a sniper and later commander of troop E special response team.

Captain Robertson retires from the Arkansas State Police on June 30, 2009. His commitment to excellence sets an example for not only his fellow law enforcement officers, for whom he is a mentor and friend, but also for those in the civilian community he worked diligently to protect. Although he will be missed in the line of duty, I wish him continued success in his retirement and thank him for his service to our great State of Arkansas.●

100TH ANNIVERSARY OF McLAUGHLIN, SOUTH DAKOTA

● Mr. THUNE. Mr. President, today I wish to recognize McLaughlin, SD. Founded in 1909, the city of McLaughlin will celebrate its 100th anniversary this year.

Named after MAJ James McLaughlin, the city of McLaughlin is located in Corson County. McLaughlin possesses the strong sense of community that makes South Dakota a great place to work and live. Throughout its rich history, McLaughlin has continued to be a strong reflection of South Dakota's greatest values and traditions. The city of McLaughlin has much to be proud of and I am confident that McLaughlin's success will continue well into the future.

I would like to offer my congratulations to the citizens of McLaughlin on this milestone anniversary and wish them continued prosperity in the years to come.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Williams, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

REPORT OF THE CONTINUATION OF THE NATIONAL EMERGENCY THAT WAS DECLARED IN EXECUTIVE ORDER 13159 OF JUNE 21, 2000, WITH RESPECT TO THE RISK OF NUCLEAR PROLIFERATION CREATED BY THE ACCUMULATION OF WEAPONS-USABLE FISSILE MATERIAL IN THE TERRITORY OF THE RUSSIAN FEDERATION—PM 24

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the emergency declared in Executive Order 13159 of June 21, 2000, with respect to the risk of nuclear proliferation created by the accumulation of a large volume of weapons-usable fissile material in the territory of the Russian Federation, is to continue beyond June 21, 2009.

It remains a major national security goal of the United States to ensure that fissile material removed from Russian nuclear weapons pursuant to various arms control and disarmament agreements is dedicated to peaceful uses, subject to transparency measures, and protected from diversion to activities of proliferation concern. The accumulation of a large volume of weapons-usable fissile material in the territory of the Russian Federation continues to pose an unusual and extraordinary threat to the national security and foreign policy of the United States. For this reason, I have determined that it is necessary to continue the national emergency declared with respect to the risk of nuclear proliferation created by the accumulation of a large volume of weapons-usable fissile material in the territory of the Russian Federation and maintain in force these emergency authorities to respond to this threat.

BARACK OBAMA.

THE WHITE HOUSE, *June 18, 2009.*

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–2043. A communication from the Secretary of the Navy, transmitting, pursuant to law, a report relative to the Average Procurement Unit Cost for the E-2D Advanced Hawkeye Program; to the Committee on Armed Services.

EC–2044. A communication from the Senior Counsel for Regulatory Affairs, Office of Domestic Finance, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''TARP Standards for Compensation and Corporate Governance; Interim Final Rule'' (RIN1505-AC09) received in the Office of the President of the Senate on June 16, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC–2045. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled ''Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Missile Launch Activities at San Nicolas Island, California'' received in the Office of the President of the Senate on June 16, 2009; to the Committee on Commerce, Science, and Transportation.

EC–2046. A communication from the Inspector General of the Federal Trade Commission, transmitting, pursuant to law, a report relative to the audit of the financial statements of the Federal Trade Commission (FTC) for fiscal year 2009; to the Committee on Commerce, Science, and Transportation.

EC–2047. A communication from the Office Director of the Office of Congressional Affairs, Office of Nuclear Reactor Regulations, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled ''Consideration of Aircraft Impacts for New Nuclear Power Reactors'' (RIN3150-AI19) received in the Office of the President of the Senate on June 16, 2009; to the Committee on Energy and Natural Resources.

EC–2048. A communication from the Director of Regulatory Management, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Oil Pollution Prevention; Non-Transportation Related Onshore and Offshore Facilities'' (RIN2050-AG49) received in the Office of the President of the Senate on June 16, 2009; to the Committee on Environment and Public Works.

EC–2049. A communication from the Director of Congressional Affairs, Office of the Chief Financial Officer, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled ''Revision of Fee Schedules; Fee Recovery for Fiscal Year 2009'' (RIN3150-AI52) received in the Office of the President of the Senate on June 16, 2009; to the Committee on Environment and Public Works.

EC–2050. A communication from the Chief of Publications and Regulations, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Qualified Plug-in Electric Vehicle Credit'' (Notice 2009-54) received in the Office of the President of the Senate on June 16, 2009; to the Committee on Finance.

EC–2051. A communication from the Chief of Publications and Regulations, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Recovery Zone Economic Development Bonds and Recovery Zone Facility Bonds'' (Notice 2009-50) received in the Office of the President of the Senate on June 16, 2009; to the Committee on Finance.

EC–2052. A communication from the Railroad Retirement Board, transmitting, pursuant to law, the Board's Annual Railroad Unemployment Insurance System Report; to the Committee on Health, Education, Labor, and Pensions.

EC–2053. A communication from the Chairman of the Federal Trade Commission, transmitting, pursuant to law, the Semi-Annual Report of the Inspector General for the period from October 1, 2008 through March 31, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC–2054. A communication from the Chairman and President of the Export-Import Bank, transmitting, pursuant to law, the Semi-Annual Report of the Inspector General for the period from October 1, 2008 through March 31, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC–2055. A communication from the Acting Senior Procurement Executive, General Services Administration, Department of Defense, and National Aeronautics and Space Administration, transmitting, pursuant to law, the report of a rule entitled ''Federal Acquisition Regulation; Federal Acquisition Circular 2005-33; Introduction'' (FAR Case 2009-0001, Sequence 4) received in the Office of the President of the Senate on June 16, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC–2056. A communication from the President of the United States, informing the Senate of the removal of the Inspector General of the Corporation for National and Community Service, effective 30 days from June 11, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC–2057. A communication from the Director, Office of National Drug Control Policy, Executive Office of the President, transmitting, pursuant to law, a report relative to the best practices in reducing the use of illicit drugs by chronic hardcore drug users; to the Committee on the Judiciary.

EC–2058. A communication from the Associate Special Counsel for Legal Counsel and Policy, Office of Special Counsel, transmitting, pursuant to law, the report of a vacancy in the position of Special Counsel in the Office of the Special Counsel; to the Committee on the Judiciary.

EC–2059. A communication from the Staff Director, U.S. Commission on Civil Rights, transmitting, pursuant to law, a report relative to the Commission's recent appointment of members to the New Hampshire Advisory Committee; to the Committee on the Judiciary.

EC–2060. A communication from the Staff Director, U.S. Commission on Civil Rights, transmitting, pursuant to law, a report relative to the Commission's recent appointment of members to the District of Columbia Advisory Committee; to the Committee on the Judiciary.

EC–2061. A communication from the Chief Counsel of the Fiscal Service, Bureau of Public Debt, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Offering of United States Savings Bonds, Series I'' (31 CFR Part 359) received in the Office of the President of the Senate on June 17, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC–2062. A communication from the General Counsel of the National Credit Union Administration, transmitting, pursuant to law, the report of a rule entitled ''Civil Monetary Penalty Inflation Adjustment'' (12 CFR Part 747) received in the Office of the Senate on June 17, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC–2063. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Procedures for Treating Intercompany Transactions on a Separate Entity Basis Under Treas. Reg. Section 1.1502-13(E)(3)'' (Rev. Proc. 2009–31) received in the Office of the President of the Senate on June 17, 2009; to the Committee on Finance.

EC–2064. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Update of Weighted Average Interest Rates, Yield Curves, and Segment Rates'' (Notice No. 2009–56) received in the Office of the President of the Senate on June 16, 2009; to the Committee on Finance.

EC–2065. A communication from the Acting Administrator, General Services Administration, Department of Defense and National Aeronautics and Space Administration, transmitting, pursuant to law, the Semi-Annual Report of the Inspector General for the period from October 1, 2008 through March 31, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC–2066. A communication from the District of Columbia Auditor, transmitting, pursuant to law, a report entitled ''Letter Report: Comparative Analysis of Actual Cash Collections to the Revised Revenue Estimate Through the 4th Quarter of the Fiscal Year 2008''; to the Committee on Homeland Security and Governmental Affairs.

EC–2067. A communication from the District of Columbia Auditor, transmitting, pursuant to law, a report entitled ''Letter Report: Audit of Advisory Neighborhood Commission 6C for Fiscal Years 2005 through 2008, as of March 31, 2008''; to the Committee on Homeland Security and Governmental Affairs.

EC–2068. A communication from the Secretary of Veterans Affairs, transmitting proposed legislation relative to the Department of Veterans Affairs major facility construction projects and major facility leases for Fiscal Year 2010; to the Committee on Veterans' Affairs.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM–49. A joint resolution adopted by the Legislature of the State of Maine urging the President, the Secretary of Energy, and Congress to review national policy on used nuclear fuel; to the Committee on Energy and Natural Resources.

JOINT RESOLUTION

Whereas, nuclear utility ratepayers have committed more than $31,000,000,000 in fees and interest, as mandated under the federal Nuclear Waste Policy Act of 1982, for the purpose of establishing a permanent repository for storage of used nuclear fuel from commercial reactors and defense-related high-level radioactive waste; and

Whereas, the ratepayers of Maine Yankee, Maine's former nuclear power facility, now decommissioned, paid $65,500,000 into the federal Nuclear Waste Fund for nuclear fuel used after the Nuclear Waste Policy Act was enacted in 1982 and are continuing to make payments into the Spent Nuclear Fuel Disposal Trust Fund to fund a $185,000,000 obligation for the disposal of spent nuclear fuel used prior to 1983; and

Whereas, the United States Government failed to begin accepting commercial used fuel by 1998 as required by the Nuclear Waste Policy Act of 1982 and by contracts with used fuel owners, and only in 2008 did the United States Department of Energy finally submit an application to the federal Nuclear Regulatory Commission to construct a permanent used fuel repository; and

Whereas, the expected funding levels for the permanent fuel disposal program in the fiscal year 2009 federal budgets and statements by the Federal Government concerning the fiscal year 2010 federal budgets point to continuing chronic delays for the Yucca Mountain repository, if not the outright termination of the project; and

Whereas, the Federal Government's failure to meet its 1998 statutory and legal obligations to accept used fuel has led to the Federal Government's being found in partial breach of the contracts with nuclear utility owners, leading to federal taxpayer payments to the utilities of about $1,000,000,000 thus far; and

Whereas, in light of the Federal Government's failure to meet its responsibility, the commercial nuclear industry has embraced an integrated nuclear fuel management program incorporating:

1. Continued safe and secure storage of used fuel at commercial plant sites;

2. Development of 2 Nuclear Regulatory Commission-licensed private or government-owned centralized interim storage facilities in communities that would host such facilities voluntarily;

3. Continued public and private sector efforts on research, development and deployment of technologies to recycle used fuel in a safe, environmentally responsible, proliferation-resistant and commercially viable way; and

4. Continued review of the permanent repository license application by the Nuclear Regulatory Commission and continued policymaker engagement to ensure the safety and security of whatever facilities or sites ultimately are chosen for permanent disposal of the by-products of the once-through or close nuclear fuel cycle; and

Whereas, several prominent national state officials' organizations, the National Conference of State Legislatures, the National Association of Regulatory Utility Commissioners and the American Legislative Exchange Council, have all endorsed immediate establishment of centralized Nuclear Regulatory Commission-licensed interim fuel storage facilities in voluntary host communities and continued research on the recycling of fuel and other advanced fuel management technologies: Now, therefore, be it

Resolved, That We, your Memorialists, respectfully urge and request the United States Government to protect nuclear utility ratepayers by immediately reducing the fee that sustains and overfunds the Nuclear Waste Fund to a level that will cover only the costs incurred by the Department of Energy, Nuclear Regulatory Commission and local Nevada government units that provide oversight of the permanent used fuel repository program; and be it further

Resolved, That We, your Memorialists, also respectfully urge the United States Government to immediately enact legislation expediting the establishment of 2 Nuclear Regulatory Commission-licensed, private or government-owned interim storage facilities for used commercial nuclear fuel, with community incentives funded by the Nuclear Waste Fund, and requiring the Department of Energy to take possession of, safely transport and store used fuel at these facilities by leasing space at these facilities, and giving first priority to moving fuel from decommissioned plants; and be it further

Resolved, That We, your Memorialists, also respectfully urge the United States Government to enact legislation creating an independent panel of esteemed public policy, scientific, environmental, engineering and affected community leaders that would be charged with conducting a long-term strategic assessment of the Nation's used fuel and defense waste management practices and developing specific recommendations on how to proceed in the future while interim storage facilities are being developed; and be it further

Resolved, That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the Honorable Barack H. Obama, President of the United States, to the United States Secretary of Energy, to the President of the United States Senate, to the Speaker of the United States House of Representatives and to each Member of the Maine Congressional Delegation.

POM–50. A resolution adopted by the Senate of the General Assembly of the State of Tennessee urging the President and Congress to oppose legislation relative to the Employee Free Choice Act; to the Committee on Health, Education, Labor, and Pensions.

SENATE RESOLUTION NO. 26

Whereas, the right to private elections is the cornerstone of American democracy; and

Whereas, private ballot elections are the most democratic way to determine employees' wishes and guarantee an outcome unaffected by outside pressures; and

Whereas, federally supervised elections conducted by the National Labor Relations Board have been the accepted law governing union recognition campaigns for sixty years, providing detailed procedures that ensure a fair election, free of fraud, where employees may cast their vote confidentially without peer pressure or coercion from unions or employers; and

Whereas, limiting union recognition to signing authorization cards (''card check'') in the presence of union officials, coworkers, and employers does not reflect the unbiased will of employees; and

Whereas, in recent years, the vast majority of businesses targeted by union organizing campaigns have been small businesses with fifty or fewer employees; and

Whereas, small businesses are more likely to be held captive at the will of union organizing efforts, as they have less resources for the lengthy legal process of union recognition campaigns; and

Whereas, efforts to eliminate private elections are an attack on the free speech rights of business and workers' individual rights; and

Whereas, compulsory binding arbitration, which would force employers to accept the terms of a first contract if the employer and the union cannot agree, is fundamentally unconstitutional, and will dramatically undermine the ability of any employer to negotiate; and

Whereas, compulsory arbitration discourages the parties from offering compromises in bargaining for fear that they may prejudice their position in arbitration: Now, therefore, be it

Resolved by the Senate of the One Hundred Sixth General Assembly of the State of Tennessee, That the General Assembly and the people of the State of Tennessee oppose proposals seeking to eliminate the private election phase of union recognition campaigns and implement compulsory binding arbitration on employers. Be it further

Resolved, that the Senate and the people of the State of Tennessee support democracy in the workplace by maintaining every worker's right to privately decide whether or not to allow a particular union to represent their interests. Be it further

Resolved, that the Senate urges the President of the United States and the United States Congress to oppose legislation that is detrimental to the rights of workers and is an offense against democratic principles by opposing the Employee Free Choice Act and any of its components in 2009 and in future years.

POM–51. A resolution adopted by the City Council of Port Townsend, Washington urging state and federal elected officials to suspend expanded Border Patrol activity until the utility, legality, and constitutionality of the expansion can be determined by Congress; to the Committee on the Judiciary.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. NELSON, of Nebraska, from the Committee on Appropriations, without amendment:

S. 1294. An original bill making appropriations for the legislative branch for the fiscal year ending September 30, 2010, and for other purposes (Rept. No. 111–29).

By Mr. INOUYE, from the Committee on Appropriations:

Special Report entitled ''Allocation to Subcommittees of Budget Totals From the Concurrent Resolution, Fiscal Year 2010'' (Rept. No. 111–30).

By Mr. REID (for Mr. BYRD), from the Committee on Appropriations, without amendment:

S. 1298. An original bill making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes (Rept. No. 111–31).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mr. LEVIN for the Committee on Armed Services.

Gordon S. Heddell, of the District of Columbia, to be Inspector General, Department of Defense.

*Zachary J. Lemnios, of Massachusetts, to be Director of Defense Research and Engineering.

*Jamie Michael Morin, of Michigan, to be an Assistant Secretary of the Air Force.

Air Force nomination of Col. James J. Carroll, to be Brigadier General.

Air Force nomination of Maj. Gen. William T. Lord, to be Lieutenant General.

Air Force nomination of Gen. Carrol H. Chandler, to be General.

Air Force nominations beginning with Colonel Steven J. Arquiette and ending with Colonel Kenneth S. Wilsbach, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009. (minus 2 nominees: Colonel Howard B. Baker; Colonel Kenneth J. Moran)

Air Force nomination of Maj. Gen. Gilmary M. Hostage III, to be Lieutenant General.

Air Force nomination of Lt. Gen. Glenn F. Spears, to be Lieutenant General.

Air Force nomination of Brig. Gen. Douglas J. Robb, to be Major General.

Army nomination of Maj. Gen. Dennis L. Via, to be Lieutenant General.

Army nominations beginning with Brigadier General Harold G. Bunch and ending with Colonel James T. Williams, which nominations were received by the Senate and appeared in the Congressional Record on May 12, 2009.

Army nomination of Lt. Gen. David M. Rodriguez, to be Lieutenant General.

Army nomination of Maj. Gen. Robert W. Cone, to be Lieutenant General.

Navy nominations beginning with Rear Adm. (lh) Kathleen M. Dussault and ending with Rear Adm. (lh) Mark F. Heinrich, which nominations were received by the Senate and appeared in the Congressional Record on February 9, 2009.

Navy nomination of Rear Adm. (lh) Janice M. Hamby, to be Rear Admiral.

Navy nomination of Rear Adm. (lh) Steven R. Eastburg, to be Rear Admiral.

Navy nomination of Rear Adm. (lh) Thomas P. Meek, to be Rear Admiral.

Navy nominations beginning with Rear Adm. (lh) Joseph F. Campbell and ending with Rear Adm. (lh) John C. Orzalli, which nominations were received by the Senate and appeared in the Congressional Record on February 11, 2009.

Navy nominations beginning with Rear Adm. (lh) Townsend G. Alexander and ending with Rear Adm. (lh) Edward G. Winters III, which nominations were received by the Senate and appeared in the Congressional Record on February 11, 2009.

Navy nomination of Rear Adm. (lh) Michael W. Broadway, to be Rear Admiral.

Navy nomination of Rear Adm. (lh) Sean F. Crean, to be Rear Admiral.

Navy nominations beginning with Rear Adm. (lh) Patrick E. McGrath and ending with Rear Adm. (lh) Michael M. Shatynski, which nominations were received by the Senate and appeared in the Congressional Record on March 11, 2009.

Navy nomination of Capt. Ron J. MacLaren, to be Rear Admiral (lower half).

Navy nomination of Capt. Robin L. Graf, to be Rear Admiral (lower half).

Navy nomination of Capt. David G. Russell, to be Rear Admiral (lower half).

Navy nominations beginning with Capt. Kurt L. Kunkel and ending with Capt. Jonathan A. Yuen, which nominations were received by the Senate and appeared in the Congressional Record on April 23, 2009.

Navy nominations beginning with Capt. Katherine L. Gregory and ending with Capt. Kevin R. Slates, which nominations were received by the Senate and appeared in the Congressional Record on April 23, 2009.

Navy nomination of Vice Adm. Ann E. Rondeau, to be Vice Admiral.

Navy nomination of Rear Adm. Joseph D. Kernan, to be Vice Admiral.

Marine Corps nomination of Lt. Gen. Richard C. Zilmer, to be Lieutenant General.

Mr. LEVIN. Mr. President, for the Committee on Armed Services I report favorably the following nomination lists which were printed in the RECORD on the dates indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar, that these nominations lie at the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

Air Force nominations beginning with Stephen R. Dasuta and ending with Beth M. Dittmer, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Air Force nomination of Thomas J. Sobieski, to be Colonel.

Air Force nominations beginning with John E. Blair and ending with Peter T. Tran, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Air Force nomination of Joshua D. Rosen, to be Major.

Air Force nominations beginning with Mark W. Anderson and ending with Steven W. Wright, which nominations were received by the Senate and appeared in the Congressional Record on June 1, 2009.

Air Force nomination of Jeffrey A. Lewis, to be Colonel.

Army nominations beginning with Christopher L. Arnheiter and ending with James W. Turonis, which nominations were received by the Senate and appeared in the Congressional Record on February 23, 2009.

Army nominations beginning with Bret T. Ackermann and ending with D060652, which nominations were received by the Senate and appeared in the Congressional Record on February 23, 2009.

Army nominations beginning with Kindall L. Jones and ending with William J. Novak, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Sharon E. Blondeau and ending with Karen D. Chambers, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Rebecca D. Lange and ending with Robert Santiago, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Walter A. Behnert and ending with Zachariah P. Wheeler, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Arthur R. Baker and ending with Anita M. Yearley, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Dennis C. Ayer and ending with Jeffrey O. Young, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Michael C. Oguinn and ending with Tracy L. Smith, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Larry D. Bartholomew and ending with Kenneth A. Wade, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Dawn B. Barrowman and ending with Reba J. Mueller, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Lauren J. Alukonis and ending with Lucy D. Walker, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Peter H. Guevara and ending with Matthew A. Williams, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Richard Caner and ending with Charles W. White, Jr., which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

Army nominations beginning with Michael J. Beaulieu and ending with James A. Young, which nominations were received by

the Senate and appeared in the Congressional Record on May 18, 2009.

Army nomination of Stuart W. Smythe, Jr., to be Colonel.

Navy nominations beginning with Joseph R. Brenner, Jr. and ending with Greg A. Ulses, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with John G. Bischeri and ending with Todd J. Squire, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Jeffrey A. Bender and ending with David H. Waterman, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Robert J. Allen and ending with Edward B. Zellem, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Mickey S. Batson and ending with Frank A. Shaul, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Angela D. Albergottie and ending with Michael L. Thrall, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Michael E. Beaulieu and ending with Gregory A. Munning, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Scott F. Adley and ending with Patrick W. Smith, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Michael A. Ballou and ending with Stephen F. Williamson, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Ann M. Burkhardt and ending with Jacklyn D. Webb, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Heidi C. Agle and ending with Thomas A. Zwolfer, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nomination of James F. Elizares, to be Captain.

Navy nomination of Stacy R. Stewart, to be Captain.

Navy nominations beginning with Stephen E. Maronick and ending with Tamara A.L. Shelton, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Daniel T. Bates and ending with Gary P. Kirchner, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Gary R. Barron and ending with Michael M. Normile, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Joseph R. Davila and ending with John M. Tarpey, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Marcia R. Flatau and ending with Linnea J. Sommerweddington, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Steven W. Harris and ending with George L. Snider, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Paul C. Burnette and ending with Stephen S. Joyce, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Matthew B. Aaron and ending with David M. Silldorff, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Dale E. Christenson and ending with Frank Vaccarino, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Therese D. Craddock and ending with Leith S. Wimmer, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Robert A. Bennett and ending with Kenneth S. Wright, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Donald T. Allerton and ending with Todd A. Zvorak, which nominations were received by the Senate and appeared in the Congressional Record on May 14, 2009.

Navy nominations beginning with Scott K. Rineer and ending with Mary P. Colvin, which nominations were received by the Senate and appeared in the Congressional Record on May 21, 2009.

Navy nominations beginning with Judi C. Herring and ending with Luis M. Tumialan, which nominations were received by the Senate and appeared in the Congressional Record on June 1, 2009.

Navy nominations beginning with Vincent G. Auth and ending with Martha P. Villalobos, which nominations were received by the Senate and appeared in the Congressional Record on June 4, 2009.

Navy nominations beginning with Salvador Aguilera and ending with Dennis W. Young, which nominations were received by the Senate and appeared in the Congressional Record on June 4, 2009.

Navy nominations beginning with Michael M. Bates and ending with David G. Wilson, which nominations were received by the Senate and appeared in the Congressional Record on June 4, 2009.

Navy nominations beginning with John J. Adametz and ending with Richard L. Whipple, which nominations were received by the Senate and appeared in the Congressional Record on June 4, 2009.

Navy nominations beginning with Kristen Atterbury and ending with Constance L. Worline, which nominations were received by the Senate and appeared in the Congressional Record on June 4, 2009.

Navy nominations beginning with Daniel L. Allen and ending with Donald J. Williams, which nominations were received by the Senate and appeared in the Congressional Record on June 4, 2009.

Navy nominations beginning with Luis A. Benevides and ending with Timothy H. Weber, which nominations were received by the Senate and appeared in the Congressional Record on June 4, 2009.

Navy nominations beginning with Brian A. Alexander and ending with Peter G. Woodson, which nominations were received by the Senate and appeared in the Congressional Record on June 4, 2009.

Navy nominations beginning with Vincent P. Clifton and ending with Patrick J. Cook, which nominations were received by the Senate and appeared in the Congressional Record on June 9, 2009.

Navy nominations beginning with David J. Butler and ending with Jon E. Cutler, which nominations were received by the Senate and appeared in the Congressional Record on June 9, 2009.

Navy nominations beginning with Barry C. Duncan and ending with James E. Parkhill, which nominations were received by the Senate and appeared in the Congressional Record on June 9, 2009.

Navy nominations beginning with David A. Bianchi and ending with Sarah Walton, which nominations were received by the Senate and appeared in the Congressional Record on June 9, 2009.

Navy nominations beginning with Lisa M. Bauer and ending with Joseph E. Strickland, which nominations were received by the Senate and appeared in the Congressional Record on June 9, 2009.

Navy nominations beginning with Dwain Alexander II and ending with Thomas E. Wallace, which nominations were received by the Senate and appeared in the Congressional Record on June 9, 2009.

Navy nominations beginning with James F. Armstrong and ending with Julie A. Zappone, which nominations were received by the Senate and appeared in the Congressional Record on June 9, 2009.

Navy nominations beginning with William E. Butler and ending with Jonathan D.

Wallner, which nominations were received by the Senate and appeared in the Congressional Record on June 9, 2009.

Navy nominations beginning with Robert J. Carey and ending with Brian S. Vincent, which nominations were received by the Senate and appeared in the Congressional Record on June 9, 2009.

By Mr. ROCKEFELLER for the Committee on Commerce, Science, and Transportation.

*Julius Genachowski, of the District of Columbia, to be a Member of the Federal Communications Commission for a term of five years from July 1, 2008.

*Robert Malcolm McDowell, of Virginia, to be a Member of the Federal Communications Commission for a term of five years from July 1, 2009.

*Inez Moore Tenenbaum, of South Carolina, to be Chairman of the Consumer Product Safety Commission.

*Inez Moore Tenenbaum, of South Carolina, to be a Commissioner of the Consumer Product Safety Commission for a term of seven years from October 27, 2006.

Mr. ROCKEFELLER. Mr. President, for the Committee on Commerce, Science, and Transportation I report favorably the following nomination lists which were printed in the RECORDS on the dates indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that these nominations lie at the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

*Coast Guard nominations beginning with Scott W. Crawley and ending with James T. Zawrotny, which nominations were received by the Senate and appeared in the Congressional Record on May 18, 2009.

*Coast Guard nomination of Michael J. Capelli, to be Lieutenant Commander.

*Coast Guard nomination of Michael J. Hauschen, to be Lieutenant Commander.

*Coast Guard nomination of Christopher G. Buckley, to be Lieutenant.

By Mr. LEAHY for the Committee on the Judiciary.

Tristram J. Coffin, of Vermont, to be United States Attorney for the District of Vermont for the term of four years.

Joyce White Vance, of Alabama, to be United States Attorney for the Northern District of Alabama for the term of four years.

Preet Bharara, of New York, to be United States Attorney for the Southern District of New York for the term of four years.

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. ROCKEFELLER:

S. 1286. A bill to amend part E of title IV of the Social Security Act to allow children in foster care to be placed with their parents in residential family treatment centers that provide safe environments for treating addiction and promoting healthy parenting; to the Committee on Finance.

By Mr. MCCAIN (for himself, Mr. COBURN, and Mr. GRASSLEY):

S. 1287. A bill to provide for the audit of financial statements of the Department of Defense for fiscal year 2017 and fiscal years thereafter, and for other purposes; to the Committee on Armed Services.

By Mr. PRYOR (for himself, Ms. COLLINS, Ms. LANDRIEU, and Mr. BURRIS):

S. 1288. A bill to authorize appropriations for grants to the States participating in the Emergency Management Assistance Compact, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

By Mr. WHITEHOUSE (for himself, Mr. SESSIONS, and Mr. LEAHY):

S. 1289. A bill to improve title 18 of the United States Code; to the Committee on the Judiciary.

By Mrs. GILLIBRAND:

S. 1290. A bill to amend the Internal Revenue Code of 1986 to expand the income tax deduction for dependent care to include part-time students for purposes of calculating earned income under the credit; to the Committee on Finance.

By Mrs. GILLIBRAND:

S. 1291. A bill to amend the Internal Revenue Code of 1986 to allow employers a credit against income tax for the cost of teleworking equipment and expenses; to the Committee on Finance.

By Ms. KLOBUCHAR (for herself, Mr. GRASSLEY, and Mrs. FEINSTEIN):

S. 1292. A bill to amend the Controlled Substances Act to provide for take-back disposal of controlled substances in certain instances, and for other purposes; to the Committee on the Judiciary.

By Mr. BENNET (for himself, Mr. BROWN, and Mr. CASEY):

S. 1293. A bill to amend the Richard B. Russell National School Lunch Act to improve automatic enrollment procedures for the national school lunch and school breakfast programs, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. NELSON of Nebraska:

S. 1294. An original bill making appropriations for the legislative branch for the fiscal year ending September 30, 2010, and for other purposes; from the Committee on Appropriations; placed on the calendar.

By Mrs. SHAHEEN (for herself, Ms. COLLINS, and Mrs. LINCOLN):

S. 1295. A bill to amend title XVIII of the Social Security Act to cover transitional care services to improve the quality and cost effectiveness of care under the Medicare program; to the Committee on Finance.

By Mr. PRYOR:

S. 1296. A bill to increase the number of non-dual status technicians employable by the National Guards; to the Committee on Armed Services.

By Mr. CONRAD (for himself and Mr. ROBERTS):

S. 1297. A bill to amend the Internal Revenue Code of 1986 to encourage guaranteed lifetime income payments from annuities and similar payments of life insurance proceeds at dates later than death by excluding from income a portion of such payments; to the Committee on Finance.

By Mr. REID (for Mr. BYRD):

S. 1298. An original bill making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes; from the Committee on Appropriations; placed on the calendar.

By Mr. MENENDEZ (for himself and Mr. KENNEDY):

S. 1299. A bill to protect health care workers and first responders, including police, firefighters, emergency medical personnel, and other workers at risk of workplace exposure to infectious agents and drug resistant infections, such as MRSA; to the Committee on Health, Education, Labor, and Pensions.

By Ms. SNOWE (for herself, Mr. DORGAN, and Ms. COLLINS):

S. 1300. A bill to amend title XVIII of the Social Security Act to clarify intent regarding the counting of residents in a nonhospital setting under the Medicare program; to the Committee on Finance.

By Mr. MENENDEZ (for himself, Mr. HATCH, Mr. KENNEDY, Mr. DURBIN, Mr. LAUTENBERG, Mr. KERRY, Mr. MARTINEZ, Mr. JOHNSON, Mr. CRAPO, Mr. BAYH, Mr. BURRIS, Ms. KLOBUCHAR, Ms. STABENOW, Mr. VITTER, Mr. MERKLEY, Mrs. GILLIBRAND, and Mr. NELSON of Florida):

S. 1301. A bill to direct the Attorney General to make an annual grant to the A Child Is Missing Alert and Recovery Center to assist law enforcement agencies in the rapid recovery of missing children, and for other purposes; to the Committee on the Judiciary.

By Mr. MCCONNELL:

S. 1302. A bill to provide for the introduction of pay-for-performance compensation mechanisms into contracts of the Department of Veterans Affairs with community-based outpatient clinics for the provisions of health care services, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. MENENDEZ:

S. 1303. A bill to authorize the Secretary of Health and Human Services to establish a women's medical home demonstration project; to the Committee on Finance.

By Mr. GRASSLEY:

S. 1304. A bill to restore the economic rights of automobile dealers, and for other purposes; to the Committee on the Judiciary.

By Mr. MENENDEZ:

S. 1305. A bill to prevent health care facility-acquired infections; to the Committee on Health, Education, Labor, and Pensions.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. WICKER (for himself and Mr. CARDIN):

S. Res. 189. A resolution expressing the sense of the Senate that the trial by the Russian Government of businessmen Mikhail Khodorkovsky and Platon Lebedev constitutes a politically-motivated case of selective arrest and prosecution that serves as a test of the rule of law and independence of the judicial system of Russia; to the Committee on Foreign Relations.

By Mr. CRAPO (for himself and Mr. LUGAR):

S. Res. 190. A resolution supporting National Men's Health Week; to the Committee on Health, Education, Labor, and Pensions.

By Mr. KERRY (for himself, Mr. CARDIN, Mr. BURRIS, Ms. LANDRIEU, and Mrs. BOXER):

S. Res. 191. A resolution recognizing that the occurrence of prostate cancer in African-American men has reached epidemic proportions and urging Federal agencies to address that health crisis by designating funds for education, awareness outreach, and research specifically focused on how prostate cancer affects African-American men; to the Committee on Health, Education, Labor, and Pensions.

By Mr. KERRY (for himself, Mr. LUGAR, Mr. WEBB, and Ms. MURKOWSKI):

S. Res. 192. A resolution expressing the sense of the Senate regarding supporting democracy and economic development in Mongolia and expanding relations between the United States and Mongolia; considered and agreed to.

ADDITIONAL COSPONSORS

S. 132

At the request of Mrs. FEINSTEIN, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 132, a bill to increase and enhance law enforcement resources committed to investigation and prosecution of violent gangs, to deter and punish violent gang crime, to protect law-abiding citizens and communities from violent criminals, to revise and enhance criminal penalties for violent crimes, to expand and improve gang prevention programs, and for other purposes.

S. 213

At the request of Mrs. BOXER, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S. 213, a bill to amend title 49, United States Code, to ensure air passengers have access to necessary services while on a grounded air carrier, and for other purposes.

S. 332

At the request of Mrs. FEINSTEIN, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 332, a bill to establish a comprehensive interagency response to reduce lung cancer mortality in a timely manner.

S. 435

At the request of Mr. CASEY, the names of the Senator from Virginia (Mr. WARNER) and the Senator from Pennsylvania (Mr. SPECTER) were added as cosponsors of S. 435, a bill to provide for evidence-based and promising practices related to juvenile delinquency and criminal street gang activity prevention and intervention to help build individual, family, and community strength and resiliency to ensure that youth lead productive, safe, health, gang-free, and law-abiding lives.

S. 451

At the request of Ms. COLLINS, the names of the Senator from Mississippi (Mr. WICKER) and the Senator from Wyoming (Mr. ENZI) were added as cosponsors of S. 451, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

S. 473

At the request of Mr. DURBIN, the name of the Senator from Delaware (Mr. KAUFMAN) was added as a cosponsor of S. 473, a bill to establish the Senator Paul Simon Study Abroad Foundation.

S. 628

At the request of Mr. CONRAD, the name of the Senator from Wisconsin (Mr. KOHL) was added as a cosponsor of S. 628, a bill to provide incentives to physicians to practice in rural and medically underserved communities.

S. 653

At the request of Mr. CARDIN, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 653, a bill to require the Secretary of the Treasury to mint coins in commemoration of the bicentennial of the writing of the Star-Spangled Banner, and for other purposes.

S. 663

At the request of Mr. NELSON of Nebraska, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. 663, a bill to amend title 38, United States Code, to direct the Secretary of Veterans Affairs to establish the Merchant Mariner Equity Compensation Fund to provide benefits to certain individuals who served in the United States merchant marine (including the Army Transport Service and the Naval Transport Service) during World War II.

S. 683

At the request of Mr. HARKIN, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 683, a bill to amend title XIX of the Social Security Act to provide individuals with disabilities and older Americans with equal access to community-based attendant services and supports, and for other purposes.

S. 685

At the request of Mr. ROCKEFELLER, the name of the Senator from Louisiana (Mr. VITTER) was added as a cosponsor of S. 685, a bill to require new vessels for carrying oil fuel to have double hulls, and for other purposes.

S. 711

At the request of Mr. BAUCUS, the names of the Senator from Maryland (Mr. CARDIN) and the Senator from Louisiana (Ms. LANDRIEU) were added as cosponsors of S. 711, a bill to require mental health screenings for members of the Armed Forces who are deployed in connection with a contingency operation, and for other purposes.

S. 775

At the request of Mr. VOINOVICH, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. 775, a bill to amend title 10, United States Code, to authorize the availability of appropriated funds for international partnership contact activities conducted by the National Guard, and for other purposes.

S. 797

At the request of Mr. DORGAN, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 797, a bill to amend the Indian Law Enforcement Reform Act, the Indian Tribal Justice Act, the Indian Tribal Justice Technical and Legal Assistance Act of 2000, and the Omnibus Crime Control and Safe Streets Act of 1968 to improve the prosecution of, and response to, crimes in Indian country, and for other purposes.

S. 801

At the request of Mr. AKAKA, the name of the Senator from Nebraska (Mr. JOHANNS) was added as a cosponsor of S. 801, a bill to amend title 38, United States Code, to waive charges for humanitarian care provided by the Department of Veterans Affairs to family members accompanying veterans severely injured after September 11, 2001, as they receive medical care from the Department and to provide assistance to family caregivers, and for other purposes.

S. 838

At the request of Mr. LUGAR, the name of the Senator from Delaware (Mr. KAUFMAN) was added as a cosponsor of S. 838, a bill to provide for the appointment of United States Science Envoys.

S. 883

At the request of Mr. KERRY, the names of the Senator from Hawaii (Mr. INOUYE), the Senator from Massachusetts (Mr. KENNEDY), the Senator from New Hampshire (Mrs. SHAHEEN), the Senator from Hawaii (Mr. AKAKA), the Senator from Michigan (Mr. LEVIN), the Senator from Connecticut (Mr. LIEBERMAN), the Senator from New Mexico (Mr. BINGAMAN), the Senator from New York (Mr. SCHUMER) and the Senator from Oregon (Mr. WYDEN) were added as cosponsors of S. 883, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the establishment of the Medal of Honor in 1861, America's highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Services of the United States, to honor the American military men and women who have been recipients of the Medal of Honor, and to promote awareness of what the Medal of Honor represents and how ordinary Americans, through courage, sacrifice, selfless service and patriotism, can challenge fate and change the course of history.

S. 962

At the request of Mr. DODD, his name was added as a cosponsor of S. 962, a bill to authorize appropriations for fiscal years 2009 through 2013 to promote an enhanced strategic partnership with Pakistan and its people, and for other purposes.

S. 1009

At the request of Mr. BENNET, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 1009, a bill to amend title XVIII of the Social Security Act to establish a Care Transitions Program in order to improve quality and cost-effectiveness of care for Medicare beneficiaries.

S. 1034

At the request of Ms. STABENOW, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 1034, a bill to amend titles XIX and XXI of the Social Security Act to ensure payment under Medicaid and the State Children's Health Insurance Program for covered items and services furnished by school-based health clinics.

S. 1058

At the request of Mr. UDALL of Colorado, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of S. 1058, a bill to amend the Internal Revenue Code of 1986 to reduce the tax on beer to its pre-1991 level, and for other purposes.

S. 1065

At the request of Mr. BROWNBACK, the name of the Senator from Kansas (Mr. ROBERTS) was added as a cosponsor of S. 1065, a bill to authorize State and local governments to direct divestiture from, and prevent investment in, companies with investments of $20,000,000 or more in Iran's energy sector, and for other purposes.

S. 1067

At the request of Mr. FEINGOLD, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 1067, a bill to support stabilization and lasting peace in northern Uganda and areas affected by the Lord's Resistance Army through development of a regional strategy to support multilateral efforts to successfully protect civilians and eliminate the threat posed by the Lord's Resistance Army and to authorize funds for humanitarian relief and reconstruction, reconciliation, and transitional justice, and for other purposes.

S. 1097

At the request of Mr. WYDEN, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 1097, a bill to require the Secretary of Energy, in coordination with the Secretary of Labor, to establish a program to provide for workforce training and education, at community colleges, in sustainable energy.

S. 1221

At the request of Mr. SPECTER, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 1221, a bill to amend title XVIII of the Social Security Act to ensure more appropriate payment amounts for drugs and biologicals under part B of the Medicare Program by excluding customary prompt pay discounts extended to wholesalers from the manufacturer's average sales price.

S. 1249

At the request of Ms. KLOBUCHAR, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 1249, a bill to amend title XVIII of the Social Security Act to create a value indexing mechanism for the physician work component of the Medicare physician fee schedule.

S. 1253

At the request of Mr. CORKER, the names of the Senator from Nebraska (Mr. NELSON) and the Senator from Colorado (Mr. UDALL) were added as cosponsors of S. 1253, a bill to address reimbursement of certain costs to automobile dealers.

S. 1259

At the request of Mr. KYL, the names of the Senator from Florida (Mr. MARTINEZ), the Senator from Texas (Mr. CORNYN) and the Senator from Wyoming (Mr. BARRASSO) were added as cosponsors of S. 1259, a bill to protect all patients by prohibiting the use of data obtained from comparative effectiveness research to deny coverage of items or services under Federal health care programs and to ensure that comparative effectiveness research accounts for advancements in personalized medicine and differences in patient treatment response.

S. 1279

At the request of Mr. NELSON of Nebraska, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 1279, a bill to amend the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 to extend the Rural Community Hospital Demonstration Program.

S.J. RES. 17

At the request of Mr. MCCONNELL, the names of the Senator from Kentucky (Mr. BUNNING), the Senator from Oklahoma (Mr. COBURN), the Senator from Oklahoma (Mr. INHOFE) and the Senator from Idaho (Mr. RISCH) were added as cosponsors of S.J. Res. 17, a joint resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes.

At the request of Mrs. FEINSTEIN, the names of the Senator from Wisconsin (Mr. FEINGOLD) and the Senator from Washington (Mrs. MURRAY) were added as cosponsors of S.J. Res. 17, supra.

S. CON. RES. 11

At the request of Ms. COLLINS, the names of the Senator from Illinois (Mr. BURRIS), the Senator from Arkansas (Mrs. LINCOLN) and the Senator from Texas (Mrs. HUTCHISON) were added as cosponsors of S. Con. Res. 11, a concurrent resolution condemning all forms of anti-Semitism and reaffirming the support of Congress for the mandate of the Special Envoy to Monitor and Combat Anti-Semitism, and for other purposes.

S. CON. RES. 25

At the request of Mr. MENENDEZ, the names of the Senator from Alaska (Mr. BEGICH), the Senator from Massachusetts (Mr. KERRY) and the Senator from Illinois (Mr. DURBIN) were added as cosponsors of S. Con. Res. 25, a concurrent resolution recognizing the value and benefits that community health centers provide as health care homes for over 18,000,000 individuals, and the importance of enabling health centers and other safety net providers to continue to offer accessible, affordable, and continuous care to their current patients and to every American who lacks access to preventive and primary care services.

S. CON. RES. 26

At the request of Mr. BROWNBACK, the names of the Senator from Tennessee (Mr. CORKER), the Senator from Wisconsin (Mr. FEINGOLD), the Senator from Colorado (Mr. BENNET), the Senator from New Jersey (Mr. MENENDEZ) and the Senator from New York (Mrs. GILLIBRAND) were added as cosponsors of S. Con. Res. 26, a concurrent resolution apologizing for the enslavement and racial segregation of African Americans.

At the request of Mr. HARKIN, the names of the Senator from Vermont (Mr. LEAHY), the Senator from Vermont (Mr. SANDERS), the Senator from New Mexico (Mr. UDALL), the Senator from New Mexico (Mr. BINGAMAN), the Senator from California (Mrs. BOXER), the Senator from Maryland (Ms. MIKULSKI), the Senator from Ohio (Mr. BROWN), the Senator from Colorado (Mr. UDALL), the Senator from Arkansas (Mr. PRYOR), the Senator from Nebraska (Mr. NELSON), the Senator from Connecticut (Mr. DODD), the Senator from Washington (Mrs. MURRAY) and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of S. Con. Res. 26, supra.

At the request of Mrs. MCCASKILL, her name was added as a cosponsor of S. Con. Res. 26, supra.

At the request of Mr. REID, the name of the Senator from Virginia (Mr. WARNER) was added as a cosponsor of S. Con. Res. 26, supra.

At the request of Mr. SPECTER, his name was added as a cosponsor of S. Con. Res. 26, supra.

At the request of Mr. REED, his name was added as a cosponsor of S. Con. Res. 26, supra.

S. CON. RES. 28

At the request of Mr. NELSON of Nebraska, the name of the Senator from Colorado (Mr. UDALL) was added as a cosponsor of S. Con. Res. 28, a concurrent resolution supporting the goals of Smart Irrigation Month, which recognizes the advances in irrigation technology and practices that help raise healthy plants and increase crop yields while using water resources more efficiently and encourages the adoption of smart irrigation practices throughout

the United States to further improve water-use efficiency in agricultural, residential, and commercial activities.

S. RES. 182

At the request of Mr. KERRY, the name of the Senator from Delaware (Mr. KAUFMAN) was added as a cosponsor of S. Res. 182, a resolution recognizing the democratic accomplishments of the people of Albania and expressing the hope that the parliamentary elections on June 28, 2009, maintain and improve the transparency and fairness of democracy in Albania.

AMENDMENT NO. 1330

At the request of Mr. NELSON of Florida, his name was added as a cosponsor of amendment No. 1330 intended to be proposed to S. 1023, a bill to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States.

At the request of Mr. SANDERS, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of amendment No. 1330 intended to be proposed to S. 1023, supra.

AMENDMENT NO. 1337

At the request of Ms. SNOWE, the name of the Senator from Maryland (Mr. CARDIN) was added as a cosponsor of amendment No. 1337 intended to be proposed to S. 1023, a bill to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. ROCKEFELLER:

S. 1286. A bill to amend part E of title IV of the Social Security Act to allow children in foster care to be placed with their parents in residential family treatment centers that provide safe environments for treating addiction and promoting healthy parenting; to the Committee on Finance.

Mr. ROCKEFELLER. Mr. President, I rise today to introduce the Keeping Families Safe Act of 2009 which seeks to keep families together when a parent is in a comprehensive residential family treatment program. Comprehensive residential family treatment is a unique program that serves parents and children together in a safe residential environment as the parent undergoes treatment for substance abuse.

Such programs tend to be small, but their results are impressive. One study found that 60 percent of mothers who participated in the Pregnant and Postpartum Women and Their Infants program were completely clean and sober six months after their discharge. This same study found that 88 percent of these children were still with their mothers six months after the mother was discharged. However, only 5 percent of all substance abuse treatment facilities are able to accommodate children. The goal of this legislation is to offer support and flexibility to such promising programs by allowing children who are in foster care be placed with their parent in the comprehensive residential family treatment center, and bring their foster care payment with them as their placement is transferred. By allowing these funds to follow the child to the residential facility, the chances for that family's success are much greater.

Family based substance abuse treatment centers have proven to be an effective means of treating substance abuse and reuniting families, but most facilities are struggling to make ends meet. Many of the parents in treatment are motivated by the hope of overcoming their addiction and reuniting with their children. This bill is designed to give them that chance, and it will hopefully inspire them by allowing their children to be part of the recovery, in a completely safe environment. I urge my colleagues to support this important legislation to help keep families together and provide another funding source for these promising programs for children and parents.

By Mr. MCCAIN (for himself, Mr. COBURN, and Mr. GRASSLEY):

S. 1287. A bill to provide for the audit of financial statements of the Department of Defense for fiscal year 2017 and fiscal years thereafter, and for other purposes; to the Committee on Armed Services.

Mr. MCCAIN. Mr. President, today Senators COBURN, GRASSLEY, and I are introducing the Department of Defense Financial Accountability Act of 2009, which imposes hard legislative deadlines on the Department of Defense to finally fix its broken bookkeeping system. This legislation is not only necessary, it is long overdue.

The bill establishes a series of deadlines, beginning next year and running through 2017, for DoD and the Services to become audit ready. In particular, it compels the Services to account for military equipment, real property, inventory, operating materials and supplies, environmental liabilities, and fund balances with Treasury. Thereafter, DOD must undergo a full, independent audit of its financial statements. If DoD fails to meet any deadline set forth in the bill, it must timely document and explain its failure to Congress.

The Department of Defense is the most massive and complex of any organization, public or private. It is entrusted with more taxpayer dollars than any other federal department or agency. For fiscal year 2009 alone, Congress appropriated over $513 billion for DoD's base budget. It added an additional $7.4 billion for DoD in this year's so-called stimulus bill.

To support its business functions, DoD has thousands of separate business systems that it has layered upon one another for decades. They are archaic, overly complex, and error-prone. They are sometimes redundant and often lack standardization. It is no wonder that since 1995, GAO has classified the Pentagon's financial management as high-risk, which makes it vulnerable to fraud and waste. Indeed, according to GAO, DoD's accounting problems cost the American taxpayer $13 billion in 2005—that's $35 million a day.

This has been a problem for decades. In 1975, the Army disclosed that it had spent $225 million over its budget because of a serious breakdown in its accounting and financial management reporting system. For fiscal year 1986, the Navy failed to disclose $58 million in real property, $1.7 billion in guaranteed loans, and data on operating leases on ships. According to the Government Accountability Office, between 1970 and 1980, the Air Force incurred numerous over obligations in amounts up to $210 million of its industrial funds. This would never be tolerated in the private sector.

This is not only about numbers and audits—this is also about the security of our troops and our nation. These broken systems affect operations and endanger our troops. Over the years, the GAO has reported that the Pentagon's poor financial management has caused pay problems for National Guard and reservists; impeded delivery of food and other essential supplies to U.S. troops; and had the Pentagon scrambling to identify and locate 250,000 defective chem-bio suits, some of which were being sold over the Internet.

Let me read into the record one account of how this impacted ongoing operations in Iraq. According to a February 5, 2006 Star Tribune news article: ''When Perry Jeffries was serving in Iraq, the computers showed that his 4th Infantry Division troops had access to drinking water, a place to shower and working wheels on their vehicles. As the first sergeant came to understand when scrounging for water, towing immobilized tanks and driving to other posts or to Kuwait to pick up needed parts, the Pentagon's bookkeeping doesn't always match reality. Jefferies saw the real-life results of what has been a visible 'accounting' problem in Washington—the Pentagon's inability to keep accurate track of transactions and assets.''

Congress has already enacted several laws mandating financial management reform and the Office of Management and Budget has issued circulars on internal controls over financial reporting and financial management systems. Notably, none contain hard deadlines for an audit.

Meanwhile, DoD has repeatedly promised Congress that it would fix the

problem. In 1999 and 2000, then-DoD Comptroller William Lynn testified before Congress that financial management reform was his highest priority. In fact, Mr. Lynn's successor, Dov Zakheim, set a deadline to have the Department of Defense audit ready by 2007. Under DoD's latest Financial Improvement and Audit Readiness Plan, that deadline is now 2017.

I want to recognize that the Department has tried, with varying degrees of effort, to improve financial management, but DoD auditors and GAO continue to report significant weaknesses.

I appreciate that our military is engaged in ongoing operations in Iraq and Afghanistan. That is why Senators COBURN, GRASSLEY and I have sought to be reasonable and realistic with the deadlines. They are the same deadlines in DoD's current Financial Improvement and Audit Readiness Plan.

It has been 19 years since the CFO Act was passed requiring DoD and other departments to have an audit. It will be 2019—nearly 30 years after the passage of the CFO Act—before the Department of Defense is able to get an audit opinion, if we hold them to their current timeline. If we do not, this may never happen.

The ultimate outcome of this legislation will be the implementation of effective financial management processes, efficient business systems and strong internal controls that are essential to producing timely, reliable and useful financial information. Quality information will allow DoD to make informed business decisions and ensure accountability on an ongoing basis.

Every dollar we save through improved financial management is another dollar for our troops—for body armor, for medical supplies, for veterans care. Improved financial systems will ensure that troops in the future do not find themselves in the same straits as the 4th Infantry Division, searching for supplies that a computer says they already have.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1287

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Department of Defense Financial Accountability Act of 2009''.

SEC. 2. AUDIT OF FINANCIAL STATEMENTS OF THE DEPARTMENT OF DEFENSE.

(a) FINANCIAL STATEMENTS OF DEPARTMENT OF DEFENSE.—

(1) VALIDATION AS READY FOR AUDIT.—The financial statements of the Department of Defense for a fiscal year shall be validated as ready for audit by not later than September 30, 2017.

(2) AUDIT.—The financial statements of the Department of Defense for a fiscal year shall be audited, and an opinion shall be rendered pursuant to such audit, for the first fiscal year for which the financial statements are ready for audit, but not later than fiscal year 2017, and for each fiscal year thereafter.

(3) DEADLINE FOR AUDIT.—The audit of the financial statements of the Department of Defense shall be completed as follows:

(A) In the event the financial statements for a fiscal year before fiscal year 2017 are ready for audit, by not later than two years after the last day of such fiscal year.

(B) In the case of the financial statement fiscal year 2017, by not later than September 30, 2019.

(C) In the case of the financial statement for any fiscal year after fiscal year 2017, by not later than one year after the last day of such fiscal year.

(b) FINANCIAL STATEMENTS OF THE MILITARY DEPARTMENTS AND DLA.—In furtherance of compliance with the requirements in subsection (a), the following requirements shall apply:

(1) DEPARTMENT OF THE ARMY.—

(A) VALIDATION AS READY FOR AUDIT.—The financial statements of the Department of the Army for a fiscal year shall be validated as ready for audit by not later than March 31, 2017.

(B) AUDIT.—The financial statements of the Department of the Army for a fiscal year shall be audited, and an opinion shall be rendered pursuant to such audit, for the first fiscal year for which the financial statements are ready for audit, but not later than fiscal year 2017, and for each fiscal year thereafter.

(C) DEADLINE FOR AUDIT.—The audit of the financial statements of the Department of Army shall be completed as follows:

(i) In the event the financial statements for a fiscal year before fiscal year 2017 are ready for audit, by not later than two years after the last day of such fiscal year.

(ii) In the case of the financial statement fiscal year 2017, by not later than September 30, 2019.

(iii) In the case of the financial statement for any fiscal year after fiscal year 2017, by not later than one year after the last day of such fiscal year.

(2) DEPARTMENT OF THE NAVY.—

(A) VALIDATION AS READY FOR AUDIT.—The financial statements of the Department of the Navy for a fiscal year shall be validated as ready for audit by not later than March 31, 2016.

(B) AUDIT.—The financial statements of the Department of the Navy for a fiscal year shall be audited, and an opinion shall be rendered pursuant to such audit, for the first fiscal year for which the financial statements are ready for audit, but not later than fiscal year 2016, and for each fiscal year thereafter.

(C) DEADLINE FOR AUDIT.—The audit of the financial statements of the Department of Navy shall be completed as follows:

(i) In the event the financial statements for a fiscal year before fiscal year 2016 are ready for audit, by not later than two years after the last day of such fiscal year.

(ii) In the case of the financial statement fiscal year 2016, by not later than September 30, 2018.

(iii) In the case of the financial statement for any fiscal year after fiscal year 2016, by not later than one year after the last day of such fiscal year.

(3) DEPARTMENT OF THE AIR FORCE.—

(A) VALIDATION AS READY FOR AUDIT.—The financial statements of the Department of the Air Force for a fiscal year shall be validated as ready for audit by not later than September 30, 2016.

(B) AUDIT.—The financial statements of the Department of the Air Force for a fiscal year shall be audited, and an opinion shall be rendered pursuant to such audit, for the first fiscal year for which the financial statements are ready for audit, but not later than fiscal year 2016, and for each fiscal year thereafter.

(C) DEADLINE FOR AUDIT.—The audit of the financial statements of the Department of the Air Force shall be completed as follows:

(i) In the event the financial statements for a fiscal year before fiscal year 2016 are ready for audit, by not later than two years after the last day of such fiscal year.

(ii) In the case of the financial statement fiscal year 2016, by not later than September 30, 2018.

(iii) In the case of the financial statement for any fiscal year after fiscal year 2016, by not later than one year after the last day of such fiscal year.

(4) DEFENSE LOGISTICS AGENCY.—

(A) VALIDATION AS READY FOR AUDIT.—The financial statements of the Defense Logistics Agency for a fiscal year shall be validated as ready for audit by not later than September 30, 2017.

(B) AUDIT.—The financial statements of the Defense Logistics Agency for a fiscal year shall be audited, and an opinion shall be rendered pursuant to such audit, for the first fiscal year for which the financial statements are ready for audit, but not later than fiscal year 2017, and for each fiscal year thereafter.

(C) DEADLINE FOR AUDIT.—The audit of the financial statements of the Defense Logistics Agency shall be completed as follows:

(i) In the event the financial statements for a fiscal year before fiscal year 2017 are ready for audit, by not later than two years after the last day of such fiscal year.

(ii) In the case of the financial statement fiscal year 2017, by not later than September 30, 2019.

(iii) In the case of the financial statement for any fiscal year after fiscal year 2017, by not later than one year after the last day of such fiscal year.

(c) VALIDATION AS READY FOR AUDIT OF FINANCIAL STATEMENTS REGARDING PARTICULAR MATTERS.—In furtherance of compliance with the requirements in subsections (a) and (b), the following requirements shall apply:

(1) MILITARY EQUIPMENT.—

(A) DEPARTMENT OF THE ARMY.—The financial statements of the Department of the Army with respect to military equipment shall be validated as ready for audit by not later than December 31, 2013.

(B) DEPARTMENT OF THE NAVY.—The financial statements of the Department of the Navy with respect to military equipment shall be validated as ready for audit by not later than September 30, 2014.

(C) DEPARTMENT OF THE AIR FORCE.—The financial statements of the Department of the Air Force with respect to military equipment shall be validated as ready for audit by not later than March 31, 2016.

(2) REAL PROPERTY.—

(A) DEPARTMENT OF THE ARMY.—The financial statements of the Department of the Army with respect to real property shall be validated as ready for audit by not later than December 31, 2013.

(B) DEPARTMENT OF THE NAVY.—The financial statements of the Department of the Navy with respect to real property shall be validated as ready for audit by not later than March 31, 2014.

(C) DEPARTMENT OF THE AIR FORCE.—The financial statements of the Department of the Air Force with respect to real property shall be validated as ready for audit by not later than September 30, 2014.

(D) DEFENSE LOGISTICS AGENCY.—The financial statements of the Defense Logistics Agency with respect to real property shall be validated as ready for audit by not later than March 31, 2015.

(3) INVENTORY.—

(A) DEPARTMENT OF THE ARMY.—The financial statements of the Department of the Army with respect to inventory shall be validated as ready for audit by not later than March 31, 2017.

(B) DEPARTMENT OF THE NAVY.—The financial statements of the Department of the Navy with respect to inventory shall be validated as ready for audit by not later than December 31, 2013.

(C) DEPARTMENT OF THE AIR FORCE.—The financial statements of the Department of the Air Force with respect to inventory shall be validated as ready for audit by not later than September 30, 2016.

(D) DEFENSE LOGISTICS AGENCY.—The financial statements of the Defense Logistics Agency with respect to inventory shall be validated as ready for audit by not later than September 30, 2015.

(4) OPERATING MATERIAL AND SUPPLIES.—

(A) DEPARTMENT OF THE ARMY.—The financial statements of the Department of the Army with respect to operating material and supplies shall be validated as ready for audit by not later than March 31, 2017.

(B) DEPARTMENT OF THE NAVY.—The financial statements of the Department of the Navy with respect to operating material and supplies shall be validated as ready for audit by not later than March 31, 2016.

(C) DEPARTMENT OF THE AIR FORCE.—The financial statements of the Department of the Air Force with respect to operating materials and supplies shall be validated as ready for audit by not later than September 30, 2016.

(5) ENVIRONMENTAL LIABILITIES.—

(A) DEPARTMENT OF THE ARMY.—The financial statements of the Department of the Army with respect to environmental liabilities shall be validated as ready for audit by not later than December 31, 2013.

(B) DEPARTMENT OF THE NAVY.—The financial statements of the Department of the Navy with respect to environmental liabilities shall be validated as ready for audit by not later than March 31, 2010.

(C) DEPARTMENT OF THE AIR FORCE.—The financial statements of the Department of the Air Force with respect to environmental liabilities shall be validated as ready for audit by not later than December 31, 2011.

(D) DEFENSE LOGISTICS AGENCY.—The financial statements of the Defense Logistics Agency with respect to environmental liabilities shall be validated as ready for audit by not later than September 30, 2017.

(6) FUND BALANCE WITH THE TREASURY.—

(A) DEPARTMENT OF THE ARMY.—The financial statements of the Department of the Army with respect to the fund balance with the Treasury shall be validated as ready for audit by not later than September 30, 2010.

(B) DEPARTMENT OF THE NAVY.—The financial statements of the Department of the Navy with respect to the fund balance with the Treasury shall be validated as ready for audit by not later than December 31, 2010.

(C) DEPARTMENT OF THE AIR FORCE.—The financial statements of the Department of the Air Force with respect to the fund balance with the Treasury shall be validated as ready for audit by not later than December 31, 2011.

(D) DEFENSE LOGISTICS AGENCY.—The financial statements of the Defense Logistics Agency with respect to the fund balance with the Treasury shall be validated as ready for audit by not later than September 30, 2011.

(d) PERFORMANCE OF AUDITS AND VALIDATIONS.—Any audit or validation as ready for audit of a financial statement required under subsections (a) through (c) may be performed by an independent auditor qualified for the performance of such audit or validation, as the case may be.

(e) ACTION IF COMPLIANCE NOT ACHIEVED.—

(1) IN GENERAL.—In the event the Department of Defense or a component of the Department of Defense is unable to achieve compliance with a requirement in subsection (a), (b), or (c) by the completion date for such requirement otherwise specified in the applicable provision of such subsection, the Secretary of Defense or the head of the component, as applicable, shall submit to the appropriate committees of Congress, not later than 30 days after the completion date otherwise so specified, a report setting forth the following:

(A) A statement of the reasons why compliance with the requirement was not achieved by the completion date for the requirement.

(B) A description of the actions to be taken to achieve compliance with the requirement.

(C) A proposed completion date for achievement of compliance with the requirement.

(2) CONSTRUCTION.—Nothing in this subsection shall be construed to waive any deadline for the completion of a requirement under subsections (a) through (c).

(f) SEMIANNUAL REPORTS ON FINANCIAL IMPROVEMENT AUDIT READINESS PLAN.—

(1) IN GENERAL.—Not later than May 15 and November 15 each year, the Under Secretary of Defense (Comptroller) shall submit to the appropriate committees of Congress a report on progress under the financial improvement audit readiness (FIAR) plan during two calendar year quarters ending March 31 and September 30, respectively, of such year.

(2) ELEMENTS.—Each report under paragraph (1) shall include, for the two calendar year quarters covered by such report, the following with respect to the portion of such report relating to priority segments:

(A) A detailed description of any deficiencies identified during discovery.

(B) A description of the actions to be taken to remedy any deficiency so identified.

(C) A deadline for the completion of any actions set forth under subparagraph (B).

(g) DEFINITIONS.—In this section:

(1) APPROPRIATE COMMITTEES OF CONGRESS.—The term ''appropriate committees of Congress'' means—

(A) the Committee on Armed Services and the Committee on Homeland Security and Governmental Affairs of the Senate; and

(B) the Committee on Armed Services and the Committee on Oversight and Government Reform of the House of Representatives.

(2) VALIDATION.—The term ''validation'', with respect to the auditability of financial statements, means a determination following an examination engagement that the financial statements comply with generally accepted accounting principles and applicable laws and regulations and reflect reliable internal controls.

By Mr. WHITEHOUSE (for himself, Mr. SESSIONS, and Mr. LEAHY):

S. 1289. A bill to improve title 18 of the United States Code; to the Committee on the Judiciary.

Mr. WHITEHOUSE. Mr. President, I rise to urge my colleagues to support the Foreign Evidence Request Efficiency Act, which I have introduced on behalf of myself and the Chairman and Ranking Members of the Judiciary Committee, Senators LEAHY and SESSIONS. It has been a pleasure to work with them on this truly bipartisan effort, and I am grateful for their support.

Chairman LEAHY, Ranking Member SESSIONS, and I have all served as prosecutors. I can say with no exaggeration that few responsibilities are more important to the rule of law, to the security of our communities, and to the rights and freedoms that we enjoy as Americans. I served as the U.S. Attorney for Rhode Island—Senator SESSIONS served in that capacity in Alabama—and I know we both will always remember the feeling of standing up in court to say: ''Your Honor, may it please the Court, I represent the United States of America.'' It was the honor of a lifetime.

As my colleagues know, the United States routinely helps foreign law enforcement agencies as they pursue criminal conduct involving activity outside their borders, including inside the United States, and they do the same for us. This is exactly as it should be. As the world grows more interconnected and crime becomes increasingly global, it becomes all the more important for law enforcement agencies in the United States and around the world to work together to bring criminals to justice. Otherwise, it would be very hard to build cases against international organized crime organizations, drug cartels, purveyors of child pornography on the internet, and other criminal threats from outside our borders.

One way that a law enforcement agency provides assistance to another is by gathering evidence from within its borders that a foreign law enforcement agency needs to prosecute a case. The United States routinely completes requests submitted to it by foreign law enforcement agencies just as it receives comparable assistance when it makes evidence requests in foreign countries. For example, let's assume that Spanish authorities are investigating a complicated financial fraud that is being conducted over the internet, apparently from a base in the United States. After conducting their investigation in Spain, the Spanish authorities submit a request to the United States for financial records, internet records, and various other kinds of evidence. U.S. Attorneys review the requests and then seek warrants for the evidence as appropriate. When the evidence is collected, the United States transmits it to Spanish

authorities, leading to prosecution in Spanish courts.

This process sounds quite simple, but unfortunately in practice it is extremely cumbersome. This is because under the existing rules, any foreign evidence request must be split up and sent to each district where the evidence exists. So take the Spanish example I just gave, and imagine that the financial records sought are in banks in six different federal judicial districts, that the internet records are in another five federal judicial districts, and that other documentary evidence is spread over another five districts. Under existing law, sixteen different U.S. Attorneys' Offices would have to work on the evidence request. This is incredibly inefficient and burdensome for U.S. Attorneys across the country.

The Foreign Evidence Request Efficiency Act would end this problem by allowing such foreign evidence requests to be handled centrally, by a single or more limited number of U.S. Attorneys offices as appropriate. Why, as in my example, should sixteen U.S. Attorneys' Offices have to deal with an evidence request that one office can coordinate? Simply put, this reform would make life easier for our U.S. Attorneys. We owe them no less.

Of course, respect for civil liberties demands that we not suddenly change the types of evidence that foreign governments may receive from the United States or reduce the role of courts as gatekeepers for searches. The Foreign Evidence Request Efficiency Act would leave those important protections in place, while simultaneously reducing the paperwork that the cumbersome existing process imposes on our U.S. Attorneys.

Two points merit emphasis. First, by making it easier for U.S. Attorneys to collect evidence, the United States can respond more quickly to foreign requests for evidence. Setting a high standard of responsiveness will allow the United States to urge that foreign authorities respond to our requests for evidence with comparable speed. The United States will benefit if foreign governments cannot use our own delay to justify responding slowly to our requests. Second, the Foreign Evidence Request Efficiency Act would not change the United States' obligations to foreign nations. It would only make it easier for the United States to respond to these requests by allowing them to be centralized and by putting the process for handling them within a clear statutory system.

I urge my colleagues to act promptly on this bipartisan legislation. I would like to thank the excellent attorneys in the Department of Justice who have worked with me on this legislation, and would like to request unanimous consent to insert their letter of support into the CONGRESSIONAL RECORD. I again thank Chairman LEAHY and Ranking Member SESSIONS for their support.

Mr. President, I ask unanimous consent that a letter of support be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF JUSTICE,
OFFICE OF LEGISLATIVE AFFAIRS,
Washington, D.C., March 27, 2009.

Hon. SHELDON WHITEHOUSE,
U.S. Senate,
Washington, DC.

DEAR SENATOR WHITEHOUSE: Per your request, the Department of Justice (the Department) has examined the draft bill entitled ''To improve Title 18 of the United States Code''. The Department strongly supports early introduction and consideration of the proposed legislation ''[t]o improve title 18 of the United States Code'' which clarifies procedures for executing and fulfilling foreign requests for evidence. We firmly believe this legislation will facilitate the ability of the United States to assist foreign investigations, prosecutions and related proceedings involving organized crime, trafficking in child pornography, intellectual property violations, identity theft, and all other serious crimes. The ability of the United States to assist foreign authorities to obtain evidence and other assistance in an effective and timely manner will improve reciprocal treatment when we seek assistance in foreign countries in all types of U.S. criminal investigations. Thus, facilitating our ability to provide assistance to foreign investigators has a direct impact on the safety and security of Americans.

The proposed legislation will complement the existing authority in current statutes and self-executing Mutual Legal Assistance Treaties and multilateral conventions. It will greatly facilitate the ability of the U.S. government to meet its obligations under these valuable international instruments and will ensure that we can provide, at our discretion, similar assistance to our non-treaty foreign law enforcement partners. In addition, the filing provision of the new section 3512 will permit the U.S. government to execute foreign assistance requests with greater efficiency than at present, thereby contributing to the effective administration of the federal courts and the Offices of the United States Attorneys.

The statutes that currently govern the obtaining of electronic and other evidence based upon a foreign request for evidence have two limitations. First, existing law does not make it clear which district court can participate in fulfilling legitimate foreign requests for assistance in criminal and terrorism investigations. The sole statute regarding international requests for evidence is 28 U.S.C. §1782, which was designed essentially to accommodate the execution of letters rogatory in civil cases via the issuance of subpoenas. Under the statute, the Department is largely relegated to civil practice rules that require prosecutors to file in every district in which evidence or a witness may be found. In complex cases, this inefficiency means involving several U.S. Attorneys' Offices and District Courts in a single case. Even in less complex cases, referring the requests out to the field wastes scarce attorney resources and creates delays.

Second, in 2001, Congress changed the wording of 18 U.S.C. §2703 in a way that inadvertently introduced confusion in routine mutual legal assistance cases. For example, section 2703(a) requires that the court issuing a search warrant for stored electronic evidence have ''jurisdiction over the offense''. As a U.S. court often has no jurisdiction to try a foreign offender, the wording of 2703(a) needlessly complicates the use of this sort of court process.

The proposed legislation addresses both of these difficulties by clarifying which courts have jurisdiction and can respond to appropriate foreign requests for evidence in criminal investigations. Under this proposal, a legitimate request for assistance can be filed in the District of Columbia, in any of the districts in which any of several records or witnesses are located, or in any district in which there is a related federal criminal case. The proposal would clarify the ambiguity in section 2703 by re-articulating the bases for courts to act without changing any of the procedural safeguards present in U.S. law.

We note that the proposed legislation would not in any way change the existing standards that the government must meet in order to obtain evidence, nor would it alter any existing safeguards on the proper exercise of such authority. Moreover, it would not expand the nature or kind of assistance the Department provides to foreign law enforcement agencies. Indeed, the proposed legislation would not alter U.S. obligations or authorities under existing bilateral and multilateral law enforcement treaties. Instead, by streamlining procedures, the amendment would eliminate needless confusion and wasted time in the government's response to those requests.

The proposed legislation references ''provider of electronic communication service''. The current reference, however, fails to address the presence of wire services, though 18 U.S.C. 3124(a), (b) references ''provider of wire or electronic service''. To provide consistency throughout Title 18, United States Code, and to cover more fully the providers involved, the Department recommends adding ''wire or'' before ''electronic communication service'' each place it appears.

Thank you for the opportunity to comment on this proposed legislation. The Office of Management and Budget has advised that there is no objection from the standpoint of the Administration's program to the submission of this letter.

Sincerely,

M. FAITH BURTON,
Acting Assistant Attorney General.

By Ms. KLOBUCHAR (for herself, Mr. GRASSLEY, and Mrs. FEINSTEIN):

S. 1292. A bill to amend the Controlled Substances Act to provide for take-back disposal of controlled substances in certain instances, and for other purposes; to the Committee on the Judiciary.

Mr. GRASSLEY. Mr. President, I am pleased to join my colleagues, Senator KLOBUCHAR, and Senator FEINSTEIN, in introducing the Secure and Responsible Drug Disposal Act of 2009. The abuse of prescription narcotics such as pain relievers, tranquilizers, stimulants, and sedatives is currently the fastest growing drug abuse trend in the country. According to the most recent National Survey of Drug Use and Health, NSDUH, nearly 7 million people have admitted to using controlled substances without a doctor's prescription. People between the ages of 12 and

25 are the most common group to abuse these drugs. However, more and more people are dying because of this abuse. The Centers for Disease Control and Prevention report that the unintentional deaths involving prescription narcotics increased 117 percent from the years 2001 to 2005. These are statistics that can no longer be ignored.

Millions of Americans are prescribed controlled substances every year to treat a variety of symptoms due to injury, depression, insomnia, and other conditions. Many legitimate users of these drugs often do not finish their prescriptions. As a result, these drugs remain in the family medicine cabinet for months or years because people forget about them or do not know how to properly dispose of them. However, these drugs, when not properly used or administered, are just as addictive and deadly as street drugs like methamphetamine or cocaine.

According to the NSDUH, more than half of the people who abuse prescription narcotics reported that they obtained controlled substances from a friend or relative or from the family medicine cabinet. As a result, most community anti-drug coalitions, public health officials, and law enforcement officials have been encouraging people within their communities to dispose of old or unused medications in an effort to combat this growing trend.

Despite these ongoing efforts across the country to eliminate a primary source of prescription narcotics from within their communities, many people are finding the Controlled Substances Act, CSA, is making these efforts difficult. When the CSA was passed in the early 1970's many people did not anticipate the large amount of prescription narcotics that would be used today or the high potential for these drugs to be diverted and abused. Under the CSA, most people who legally possess controlled substances cannot legally transfer them to anyone for any purpose, including for the purpose of disposal. Because the legal method for disposal is unclear, communities interested in providing citizens with an easy process of disposal hesitate to do so or risk violation of the CSA to offer the service. We need to change the CSA so that unused controlled substances do not get diverted in to the stream of illicit drug use and to prevent potential environmental harms, as many people dispose of controlled substances by flushing them down the toilet or dumping them in unlined landfills.

Accordingly, Senator KLOBUCHAR, Senator FEINSTEIN and I are introducing the Secure and Responsible Drug Disposal Act of 2009 to fix the CSA so these efforts to eradicate abuse are not impeded by federal law. This legislation will amend the CSA to allow a user to transfer unused controlled substances to a DEA sanctioned entity for disposal without mandating any specific method of disposal upon communities. This will enable communities to develop methods of disposal best suited for their areas while minimizing the pollution of water supplies or increasing the chances that these drugs will be diverted for abuse. Since most long-term care facilities store large amounts of prescription narcotics for their tenants but are unable to legally dispose of them the bill also enables these facilities to dispose of old medication on behalf of their past and current patients.

This legislation will not cost the government any money to implement and would not place any financial burden on states or industries. It simp ives local communities the option to safely dispose of unused controlled substances. I am pleased that the Department of Justice has endorsed this legislation. They and many others out there know how serious the abuse of prescription narcotics has become in this country. Now is the time to act, and I urge my colleagues to join us in supporting the Safe and Responsible Drug Disposal Act of 2009.

By Mr. BENNET (for himself, Mr. BROWN, and Mr. CASEY):

S. 1293. A bill to amend the Richard B. Russell National School Lunch Act to improve automatic enrollment procedures for the national school lunch and school breakfast programs, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. BENNET. Mr. President, I rise today to introduce a bill with Senators BROWN of Ohio and CASEY of Pennsylvania called the Enhancing Child Health with Automatic Enrollment for School Meals Act. We wrote this legislation because too many kids across this country are not getting the free school meals their families are qualified to receive. As members of the Agriculture Committee's subcommittee on Nutrition, Senators BROWN, CASEY and I share an interest in eradicating childhood hunger and increasing the efficiency of the National School Lunch and Breakfast programs.

Our bill builds on the foundation laid during the 2004 child nutrition reauthorization which included a mandatory phase-in of an automatic enrollment process called 'direct certification.' Our bill stipulates that schools, districts, and states must directly certify at least 95 percent of children who can be enrolled in the national school lunch and breakfast programs using this method. The intent of this provision is to modernize the enrollment process by reducing reliance on paper applications and to improve access to school meal programs by ensuring kids who should be receiving free school meals actually receive them.

Because we want to reward achievement and encourage improvements to the school meal enrollment process, our bill includes performance awards for the five states which make the best use of direct certification and for the five states which show the most improvement from one school year to the next. Additionally, our bill requires states which are unable to meet the 95 percent standard to submit a report to Congress and the U.S. Department of Agriculture that identifies the challenges prohibiting effective use of direct certification and maps out a plan for improvement.

As former Superintendent of Denver Public Schools I cannot stress enough the importance of reducing red tape and administrative costs in schools. We cannot expect our children to focus on fractions when their stomachs are growling nor can we expect teachers, principals and school administrators to prepare our children to be tomorrow's leaders if they are spending their time filling out paperwork. That's why modernizing the National School Lunch and Breakfast programs is one of my top priorities for the child nutrition reauthorization this Fall and that is why I am introducing this bill today.

Two additional provisions in the bill would eliminate paperwork and improve the existing system of determining whether or not kids qualify for free meals. The first is a clarification that sending a letter in the mail to a child's household letting them know they are eligible for free school meals is not an acceptable means of direct certification. A child who can be enrolled for free school meals automatically should be enrolled without any action on behalf of the child's household. We make this clarification because a vast number of paper notifications sent to families are not returned and, therefore, kids miss out on meals they should receive.

The second is a request for a study from the U.S. Department of Education that would help determine how data the Department of Education is currently collecting is being used currently and could be used in the future to ensure all kids who should receive free school meals are provided those meals.

Initially, Senators BROWN, CASEY and I were working on ways to expand access to free school meals independently, but now we are working collaboratively. Meeting President Obama's goal of ending childhood hunger by 2015 will require all hands on deck. Last week Senator CASEY, along with Senator SPECTER and myself, introduced the Paperless Enrollment for School Meals Act to make it easier for schools and districts to serve free meals to all children. The bill we are introducing today is yet another installment in the ongoing dialog with Chairman HARKIN, members of the Agriculture Committee and the USDA in preparation for reauthorizing child nutrition and WIC programs in the coming months.

In Colorado and around the nation there is a renewed call for common sense measures to improve existing programs and provide assistance to those who need them most during these tough economic times. I encourage all Senators to do right by our children and support this legislation and the principles of the National School Lunch and Breakfast Programs Senators BROWN, CASEY and I have outlined.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1293

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Enhancing Child Health with Automatic School Meal Enrollment Act of 2009''.

SEC. 2. IMPROVING DIRECT CERTIFICATION.

(a) PERFORMANCE AWARDS.—Section 9(b)(4) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(b)(4)) is amended—

(1) in the paragraph heading, by striking ''FOOD STAMP'' and inserting ''SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM''; and

(2) by adding at the end the following:

''(E) PERFORMANCE AWARDS.—

''(i) IN GENERAL.—Effective for each of the schools years beginning July 1, 2010, July 1, 2011, and July 1, 2012, the Secretary shall offer performance awards to States to encourage the States to ensure that all children eligible for direct certification under this paragraph are certified in accordance with this paragraph.

''(ii) REQUIREMENTS.—For each school year described in clause (i), the Secretary shall—

''(I) consider State data from the prior school year, including estimates contained in the report required under section 4301 of the Food, Conservation, and Energy Act of 2008 (42 U.S.C. 1758a); and

''(II) make performance awards to, as determined by the Secretary—

''(aa) 5 States that demonstrate outstanding performance; and

''(bb) 5 States that demonstrate substantial improvement.

''(iii) FUNDING.—

''(I) IN GENERAL.—On October 1, 2009, and on each October 1 thereafter through October 1, 2011, out of any funds in the Treasury not otherwise appropriated, the Secretary of the Treasury shall transfer to the Secretary, to remain available until expended—

''(aa) $2,000,000 to carry out clause (ii)(I); and

''(bb) $2,000,000 to carry out clause (ii)(II).

''(II) RECEIPT AND ACCEPTANCE.—The Secretary shall be entitled to receive, shall accept, and shall use to carry out this clause the funds transferred under subclause (I), without further appropriation.''.

(b) CORRECTIVE ACTION PLANS.—Section 9(b)(4) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(b)(4)) (as amended by subsection (a)) is amended by adding at the end the following:

''(F) CORRECTIVE ACTION PLANS.—

''(i) IN GENERAL.—Each school year, the Secretary shall—

''(I) identify, using estimates contained in the report required under section 4301 of the Food, Conservation, and Energy Act of 2008 (42 U.S.C. 1758a), States that directly certify less than 95 percent of the total number of children in the State who are eligible for direct certification under this paragraph; and

''(II) require the States identified under subclause (I) to implement a corrective action plan to fully meet the requirements of this paragraph.

''(ii) IMPROVING PERFORMANCE.—A State may include in a corrective action plan under clause (i)(II) methods to improve direct certification required under this paragraph or paragraph (15) and discretionary certification under paragraph (5).

''(iii) FAILURE TO MEET PERFORMANCE STANDARD.—

''(I) IN GENERAL.—A State that is required to implement a corrective action plan under clause (i)(II) shall be required to submit to the Secretary, for the approval of the Secretary, a direct certification improvement plan for the following school year.

''(II) REQUIREMENTS.—A direct certification improvement plan under subclause (I) shall include—

''(aa) specific measures that the State will use to identify more children who are eligible for direct certification;

''(bb) a timeline for the State to implement those measures; and

''(cc) goals for the State to improve direct certification results.''.

(c) WITHOUT FURTHER APPLICATION.—Section 9(b)(4) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(b)(4)) (as amended by subsection (b)) is amended by adding at the end the following:

''(G) WITHOUT FURTHER APPLICATION.—

''(i) IN GENERAL.—In this paragraph, the term 'without further application' means that no action is required by the household of the child.

''(ii) CLARIFICATION.—A requirement that a household return a letter notifying the household of eligibility for direct certification or eligibility for free school meals does not meet the requirements of clause (i).''.

SEC. 3. REPORT ON USING STATEWIDE EDUCATION DATABASES FOR DIRECT CERTIFICATION.

(a) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary of Education shall prepare and submit to Congress a report regarding how statewide databases developed by States to track compliance with the requirements of part A of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311 et seq.) can be used for purposes of direct certification under section 9(b) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(b)).

(b) CONTENTS.—The report described in subsection (a) shall—

(1) identify the States that have, as of the time of the report, developed statewide databases to track compliance with the requirements of part A of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311 et seq.);

(2) describe best practices regarding how such statewide databases can be used for purposes of direct certification under section 9(b) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(b));

(3) include case studies of States that have expanded such statewide databases so that such statewide databases can be used for direct certification purposes; and

(4) identify States with such statewide databases that would be appropriate for expansion for direct certification purposes.

(c) FUNDING.—

(1) IN GENERAL.—On October 1, 2009, out of any funds in the Treasury not otherwise appropriated, the Secretary of the Treasury shall transfer to the Secretary to carry out this section $500,000, to remain available through September 30, 2012.

(2) RECEIPT AND ACCEPTANCE.—The Secretary shall be entitled to receive, shall accept, and shall use to carry out this section the funds transferred under paragraph (1), without further appropriation.

By Mrs. SHAHEEN (for herself, Ms. COLLINS, and Mrs. LINCOLN):

S. 1295. A bill to amend title XVIII of the Social Security Act to cover transitional care services to improve the quality and cost effectiveness of care under the Medicare program; to the Committee on Finance.

Mrs. SHAHEEN. Mr. President, I rise today to introduce the Medicare Transitional Care Act of 2009. Time and again, we have heard that our health care system is not working. Costs are too high, outcomes too poor and access too limited. I agree with so many of my colleagues that we need to work together to ensure that all Americans have access to quality and affordable health care.

Everyone deserves stable health care coverage that they can count on, regardless of the job they hold or the curveballs life may throw. All Americans should be able to count on insurance premiums and deductibles that will not continue to rise and eat away more and more of our paychecks. Finally, all Americans deserve stable care that lets you keep your doctor, and your health care plan, that you trust and with whom you have built a relationship.

Let me be clear: health care costs are too high. Every day in New Hampshire and across our country, families are struggling with the crushing cost of health care that threatens their financial stability, leaving them exposed to higher premiums and deductibles, and putting them at risk for a possible loss of health insurance coverage and even bankruptcy. In 2007 our Nation spent $2.2 trillion—or 16.2 percent of the GDP on health care. This is twice the average of other developed nations. As a Nation, our health outcomes are no better. We still lag behind other countries when it comes to efficiency, access, patient safety and adoption of information technology.

It is essential that we cut our Nation's health care costs and improve the quality of care our patients receive.

I rise today to offer a solution that can help address this crisis. I rise to introduce the Medicare Transitional Care Act of 2009—legislation that will reduce costly hospital readmissions, improve Medicare patients' care and cut Medicare costs. I thank Representative BLUMENAUER and Representative BOUSTANY for their leadership on this issue in the House and I am pleased to be joined by

colleagues, Senator COLLINS, and Senator LINCOLN, in introducing this legislation.

This bill is about reducing costs and offering better support and coordination of care to Medicare patients. It will help keep seniors who are discharged from the hospital from going back. Simply put, it will improve the health care we offer our seniors while saving money.

According to a report from the New England Journal of Medicine, almost one third of Medicare beneficiaries discharged from the hospital were re-hospitalized within 90 days. One half of the individuals re-hospitalized had not visited a physician since their discharge, indicating a lack of follow-up care. The study also estimated that in 2004 Medicare spent $17.4 billion on unplanned re-hospitalizations. This problem is costly for our government and troublesome for our seniors. But the good news is that this problem is avoidable.

Research shows that the transition from the hospital to the patient's next place of care—be it home, or a nursing facility or rehabilitation center—can be complicated and risky. This is especially true for older individuals with multiple chronic illnesses. These patients talk about the difficulty remembering instructions, confusion over correct use of medications, and general uncertainty about their own conditions.

For example, take Michael, a 71-year-old patient who lives with his 73-year-old wife, and has diabetes. Michael had a knee replacement that required two surgical revisions. He uses a walker and has been hospitalized four times. He says ''they would discharge me and the same day I'd be back in the ER. The wound would burst apart.'' Under this legislation, a transitional care clinician could be there to help make sure that Michael and his wife do not need to go back to the hospital.

Let me also tell you about Bill. Over time, Bill has endured a heart attack that required open heart surgery, angioplasty with stent placement, stroke, kidney disease, HIV and depression. He has been hospitalized three times, underwent rehabilitation therapy in an inpatient facility once and lives alone. He says ''there was no help at home [after surgery]. My mother came and took care of household stuff. I was flat on my back for two weeks. The hospital called to make sure I was okay—'Hey how are you doing?'—but what could they do?'' Bill also notes the difficulty he had with discharge instructions: ''By the time I'm home,'' he says, ''I don't remember what the doctor said. Sometimes they write it down, but I have comprehension problems.''

Stories like Bill's and Michael's demonstrate that patients need support and assistance to manage their health needs along with their caregivers. This legislation provides that opportunity.

Under the Medicare Transitional Care Act, a transitional care clinician would help ensure that appropriate follow-up care is provided to patients during the vulnerable time after discharge from a hospital—and help ensure that they are not re-hospitalized unnecessarily.

The benefit would be phased-in and provided first for the most at-risk individuals. It will be tailored to their needs. It may be as simple as making sure each patient understands how and when to take their medication; or helping to make sure they schedule and are able to get to follow-up appointments with the doctors, or it may be helping patients and caregivers coordinate support services, such as medical equipment, meal delivery, transportation or assistance with other daily activities.

I am pleased that the legislation has the strong support of the AARP.

Proper transitional care is important not only to reduce hospital readmissions, but also to improve patient outcomes and satisfaction. Experts estimate that this legislation could save as much as $5,000 per Medicare beneficiary.

I look forward to working with my colleagues in the Senate to pass comprehensive health care reform to fix our broken system. I urge them to join me in supporting a transitional care benefit that will support patients during the very vulnerable time after discharge from the hospital. The evidence is clear. We can implement a transitional care option that will save money by reducing hospital re-admisssions while improving the quality of care we deliver to patients in New Hampshire and all across this country.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1295

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Medicare Transitional Care Act of 2009''.

SEC. 2. FINDINGS.

Congress finds the following:

(1) More than 20 percent of older Americans suffer from five or more chronic conditions and these older adults typically require health care services from numerous providers across several care settings each year.

(2) Insufficient communication among older adults, family caregivers, and health care providers contributes to poor continuity of care, inadequate management of complex health care needs, and preventable hospital admissions.

(3) Research suggests that family caregivers often lack the knowledge, skills, and resources to effectively address the complex needs of older adults coping with multiple coexisting conditions.

(4) In 2005, health care services for Medicare beneficiaries with five or more chronic conditions accounted for 75 percent of total Medicare spending. The vast majority of these costs were due to high rates of hospital admission and readmission.

(5) According to Medicare claims data from 2003–2004, almost one fifth (19.6 percent) of the 11,855,702 Medicare beneficiaries who had been discharged from a hospital were re-hospitalized within 30 days, and 34.0 percent were rehospitalized within 90 days.

(6) A New England Journal of Medicine study estimates that the cost to Medicare of unplanned rehospitalizations in 2004 was $17.4 billion.

(7) The MetLife Caregiving Cost Study demonstrates that American businesses lose an estimated $34 billion each year due to employees' need to care for loved ones.

(8) The Transitional Care Model, developed by the University of Pennsylvania, is a care management strategy that identifies patients' health goals, coordinates care throughout acute episodes of illness, develops a streamlined plan of care to prevent future hospitalizations, and prepares the beneficiary and family caregivers to implement this care plan.

(9) The major goal of the Transitional Care Model is to interrupt cycles of avoidable hospitalizations and promote longer-term positive health outcomes.

(10) The Transitional Care Model has shown through multiple randomized clinical trials to produce significant health outcome improvements, reductions in health care costs among at-risk and chronically ill older adults, and increased patient satisfaction.

(11) Preliminary results from a clinical trial of the Guided Care Model (based on a Medical Home which includes transitional care) demonstrated reductions in hospital days, skilled nursing facility days, and home health episodes, as well as preliminary findings of net savings.

(12) A clinical trial of the Care Transitions Intervention demonstrated lower re-hospitalization rates and lower hospital costs per patient.

SEC. 3. MEDICARE COVERAGE OF TRANSITIONAL CARE.

Title XVIII of the Social Security Act is amended by adding at the end the following new section:

''COVERAGE OF TRANSITIONAL CARE SERVICES FOR QUALIFIED INDIVIDUALS

''SEC. 1899. (a) COVERAGE UNDER PART B.—

''(1) IN GENERAL.—In the case of a qualified individual (as defined in subsection (b)), the Secretary shall provide under part B for benefits for transitional care services (as defined in subsection (c)) furnished by a transitional care clinician (as defined in subsection (d)) acting as an employee of (or pursuant to a contract with) a qualified transitional care entity (as defined in paragraph (3)(A)) in accordance with this section during the transitional care period (as defined in paragraph (3)(B)) for the qualified individual.

''(2) INITIAL IMPLEMENTATION.—The Secretary shall first implement this section for services furnished on or after January 1, 2010.

''(3) GENERAL DEFINITIONS.—In this section:

''(A) QUALIFIED TRANSITIONAL CARE ENTITY.—The term 'qualified transitional care entity' means—

''(i) a hospital or a critical care hospital;

''(ii) a home health agency;

''(iii) a primary care practice;

''(iv) a Federally qualified health center; or

''(v) another entity approved by the Secretary for purposes of this section.

''(B) TRANSITIONAL CARE PERIOD.—The term 'transitional care period' means, with respect to a qualified individual, the period—

''(i) beginning on the date the individual is admitted to a subsection (d) hospital (as defined for purposes of section 1886) for inpatient hospital services, or is admitted to a critical care hospital for inpatient critical access hospital services, for which payment may be made under this title; and

''(ii) ending on the last day of the 90-day period beginning on the date of the individual's discharge from such hospital or critical care hospital.

''(b) QUALIFIED INDIVIDUALS.—

''(1) LIMITING FIRST PHASE OF IMPLEMENTATION TO HIGH-RISK INDIVIDUALS.—Except as provided in this subsection, qualified individuals are limited to individuals who—

''(A) have been admitted to a subsection (d) hospital (as defined for purposes of section 1886) for inpatient hospital services or to a critical care hospital for inpatient critical access hospital services; and

''(B) are identified by the Secretary as being at highest risk for readmission or for a poor transition from such a hospital to a post-hospital site of care.

The identification under subparagraph (B) shall be based on achieving a minimum hierarchical condition category score (specified by the Secretary) in order to target eligibility for benefits under this section to individuals with multiple chronic conditions and other risk factors, such as cognitive impairment, depression, or a history of multiple hospitalizations.

''(2) SECOND PHASE OF IMPLEMENTATION.—After submitting to Congress the evaluation under subsection (i)(2) and considering any cost-savings and quality improvements from the prior implementation of this section, the Secretary may expand eligibility of qualified individuals to include moderate-risk and lower-risk individuals, as determined in accordance with eligibility criteria specified by the Secretary. In expanding eligibility, the Secretary may modify or scale transitional care services to meet the specific needs of moderate- and lower-risk individuals.

''(3) AVOIDING DUPLICATION OF SERVICES.—The Secretary shall ensure that qualified individuals receiving transitional care services are not receiving duplicative services under this title.

''(c) TRANSITIONAL CARE SERVICES DEFINED.—In this section, the term 'transitional care services' means services that support a qualified individual during the transitional care period and includes the following:

''(1) A comprehensive assessment prior to discharge including an assessment of the individual's physical and mental condition, cognitive and functional capacities, medication regimen and adherence, social and environmental needs, and primary caregiver needs and resources.

''(2) Development of a comprehensive, evidenced-based plan of transitional care for the individual developed with the individual and the individual's primary caregiver and other health team members, identifying potential health risks, treatment goals, current therapies, and future services for both the individual and any primary caregiver.

''(3) A visit at the care setting within 24 hours after discharge from the hospital or critical access hospital.

''(4) Home visits to implement the plan of care.

''(5) Implementation of the plan of care, including—

''(A) addressing symptoms;

''(B) teaching and promoting self-management skills for the individual and any primary caregiver;

''(C) teaching and counseling the individual and the individual's primary caregiver (as appropriate) to assure adherence to medications and other therapies and avoid adverse events;

''(D) promoting individual access to primary care and community-based services;

''(E) coordinating services provided by other health team members and community caregivers; and

''(F) facilitating transitions to palliative or hospice care, where appropriate.

''(6) Accompanying the individual to follow-up physician visits, as appropriate.

''(7) Providing information and resources about conditions and care.

''(8) Educating and assisting the individual and the individual's primary caregiver to arrange and coordinate clinician visits and health care services.

''(9) Informing providers of services and suppliers of those items and services that have been ordered for and received by the individual from other providers.

''(10) Working with providers of services and suppliers to assure appropriate referrals to specialists, tests, and other services.

''(11) Educating and assisting the individual and the individual's primary caregiver with arranging and coordinating community resources and support services (such as medical equipment, meals, homemaker services, assistance with daily activities, shopping, and transportation).

''(12) Providing to the qualified individual, primary caregiver, and appropriate clinicians and qualified transitional care entity providing ongoing care at the conclusion of the transitional care period a written summary that includes the goals established in the plan of care described in paragraph (2), progress in achieving such goals, and remaining treatment needs.

''(13) Other services that the Secretary determines are appropriate.

The Secretary shall determine and update the services to be included in transitional care services as appropriate, based on the evidence of their effectiveness in reducing hospital readmissions and improving health outcomes.

''(d) TRANSITIONAL CARE CLINICIANS.—

''(1) IN GENERAL.—In this section, the term 'transitional care clinician' means, with respect to a qualified individual, a nurse or other health professional who—

''(A) has received specialized training in the clinical care of people with multiple chronic conditions (including medication management) and communication and coordination with multiple providers of services, suppliers, patients, and their primary caregivers;

''(B) is supported by an interdisciplinary team in a manner that assures continuity of care throughout a transitional care period and across care settings (including the residences of qualified individuals);

''(C) is employed by (or has a contract with) with a qualified transitional care entity for the furnishing of transitional care services; and

''(D) meets such participation criteria as the Secretary may specify consistent with this subsection.

''(2) PARTICIPATION CRITERIA.—In establishing participation criteria under paragraph (1)(C), the Secretary shall assure that transitional care clinicians meet relevant experience and training requirements and have the ability to meet the individual needs of qualified individuals.

''(3) ENCOURAGEMENT OF HIT.—The Secretary may provide for an additional payment to encourage transitional care clinicians and qualified transitional care entities to use health information technology in the provision of transitional care services.

''(e) PAYMENT.—

''(1) IN GENERAL.—The Secretary shall determine the method of payment for transitional care services under this section, including appropriate risk adjustment that reflects the differences in resources needed to provide transitional care services to individuals with differing characteristics and circumstances and, when applicable, the performance measures under subsection (f). The payment amount shall be sufficient to ensure the provision of necessary transitional care services throughout the transitional care period. The payment shall be structured in a manner to explicitly recognize transitional care as an episode of services that crosses multiple care settings, providers of services, and suppliers. The payment with respect to transitional care services furnished by a transitional care clinician shall be made, notwithstanding any other provision of this title, to the qualified transitional care entity which employs, or has a contract with, the clinician for the furnishing of such services.

''(2) NO COST-SHARING.—Notwithstanding section 1833, there shall be no deductible or cost-sharing applicable to payment under this section for transitional care services.

''(f) PERFORMANCE MEASURES.—

''(1) ACCOUNTABILITY.—

''(A) IN GENERAL.—The Secretary shall establish a method whereby qualified transitional care entities responsible for furnishing transitional care services would be held accountable for process and outcome performance measures specified by the Secretary from those that have been endorsed by the National Quality Forum.

''(B) DEVELOPMENT AND ENDORSEMENT OF PERFORMANCE MEASURE SET.—For purposes of carrying out subparagraph (A), the Secretary shall enter into an arrangement—

''(i) with the National Quality Forum for the evaluation, endorsement, and recommendation of an appropriate set of performance measures for transitional care services and for the identification of gaps in available measures; and

''(ii) with the Agency for Healthcare Research and Quality to support measure development, to fill gaps in available measures, and to provide for the ongoing maintenance of the set of performance measures for transitional care services.

''(2) PAY FOR PERFORMANCE.—As soon as practicable after reliable process and outcome performance measures have been endorsed and specified under subparagraph (A), the Secretary shall provide that the payment amounts under subsection (e) for transitional care services shall be linked to performance on such measures.

''(3) PUBLIC REPORTING.—The Secretary shall establish a mechanism to publicly report on a qualifying entity's transitional care performance on such measures, including providing benchmarks to identify high performers and those practices that contribute to lower hospital readmission rates.

''(4) DISSEMINATION OF INFORMATION ON BEST PRACTICES.—The Secretary shall disseminate information on best practices used by transitional care clinicians and qualifying transitional care entities in furnishing transitional care services for purposes of application in other settings, such as in conditions of participation under this title, under

the Quality Improvement Organization (QIO) Program under part B of title XI, and public-private quality alliances, such as the Hospital Quality Alliance.

''(g) NOTIFICATION OF ELIGIBILITY AND COORDINATION WITH HOSPITAL DISCHARGE PLANNING.—In establishing standards for discharge planning under section 1861(ee)(1), the Secretary shall require each subsection (d) hospital and each critical care hospital—

''(1) to identify, as soon as practicable after admission, those patients who are qualified individuals under this section; and

''(2) to provide to such patients and their primary caregivers a list of qualified transitional care entities available to arrange for the provision of transitional care services, a list of transitional services provided under this section, and a notice that the transitional care service benefit is provided to qualified individuals with no deductible or cost-sharing.

Nothing in this section shall be construed as preventing such a hospital from entering into an agreement with a qualified transitional care entity or a transitional care clinician for the furnishing of transitional care services to the hospital's patients.

''(h) PREVENTION OF INAPPROPRIATE STEERING.—The Secretary shall promulgate such regulations as the Secretary deems necessary to address any protections needed, beyond those otherwise provided under law and regulations, to prevent inappropriate steering of qualified individuals to providers of services, suppliers, qualified transitional care entities, or transitional care clinicians, under this section or inappropriate limitations on access to needed transitional care services under this section.

''(i) EVALUATION OF BENEFIT.—

''(1) IN GENERAL.—The Secretary shall evaluate the performance of the transitional care benefit under this section by measuring the following (for those receiving transitional care services and those not receiving such services):

''(A) Admission rates to health care facilities.

''(B) Hospital readmission rates.

''(C) Cost of transitional care and all other health care services.

''(D) Quality of transitional care experiences.

''(E) Measures of quality and efficiency.

''(F) Beneficiary, primary caregiver, and provider experience.

''(G) Health outcomes.

''(H) Reductions in expenditures under this title over time.

''(2) REPORT.—The Secretary shall submit a report to Congress no later than April 1, 2013, on the performance measures achieved by the transitional care benefit in the first 2 years of implementation. After submitting such report, the Secretary may expand the benefit to moderate-risk and lower-risk individuals in accordance with subsection (b)(2).''.

By Mr. CONRAD (for himself and Mr. ROBERTS):

S. 1297. A bill to amend the Internal Revenue Code of 1986 to encourage guaranteed lifetime income payments from annuities and similar payments of life insurance proceeds at dates later than death by excluding from income a portion of such payments; to the Committee on Finance.

Mr. CONRAD. Mr. President, I am pleased to be joined by my friend and Finance Committee colleague, Senator PAT ROBERTS from Kansas, in introducing legislation that can help Americans enjoy a more secure retirement. In these economically challenging times, financial security—especially during retirement—can be a frustrating and elusive goal. In retirement, the chief anxiety for most people is protecting the savings they have accumulated while working and deciding how best to manage those assets.

In 21st century America, there is another crucial challenge for retirees. The good news is that Americans are living longer, but it also means that people have to plan for a longer period of retirement. A successful long-term retirement income plan is difficult even in a bullish market. How much more difficult is this task in today's market—particularly for the millions of Americans with limited investment experience?

We believe in encouraging people to save for retirement. Through the tax code, we encourage asset-building through home ownership. We provide significant tax incentives for employer-based pension plans and for retirement savings programs by individuals, such as IRAs and 401(k) plans.

One of the biggest threats to retirement income security for baby boomers is their own longevity. It will not be easy to manage their accumulated assets so that they will last a lifetime. Unprecedented numbers of Americans are now living into their 90s and even past 100. Consequently, people are going to spend more time in retirement than previous generations.

Now our society is witnessing the beginning of the retirement wave we knew was already building. Before it recedes, 77 million baby boomers will have entered their retirement years. Many of them will not have the guaranteed monthly retirement checks that many of their parents enjoyed as a result of employer-based pension plans. Traditional defined benefit pension plans have given way to defined contribution plans, which have shifted the retirement income security risk from the employer to the individual.

Of course, there are still many Americans who have no access at all to employer-provided pension plans. Some have never been in the traditional workforce; others work in seasonal jobs or part time. In my state of North Dakota, as well as in rural and farming communities across America, there is an acute need for retirement vehicles that will provide a secure lifetime payout. Others who could face difficulty in securing retirement income are widowed individuals—both men and women—who suddenly find themselves having to make a life insurance benefit or proceeds from the sale of a business or family home last a lifetime.

The proposal we are introducing today will provide a valuable tool for helping people avoid the risk of outliving their assets. Specifically, we are proposing a tax incentive to encourage Americans to annuitize a portion of their assets available for retirement. If they annuitize—in other words, elect to receive their money from an annuity in a series of payments for the rest of their lives, no matter how long that may be—they would be able to exclude from income 50 percent of the annuity benefit that represents the accumulation in the annuity above and beyond the original investment. The exclusion would be capped at $20,000, indexed, to ensure that tax sheltering activity is not encouraged and that the incentive will be effective for people who would benefit most from securing a lifetime income stream.

This proposal we offer today would apply only to life-contingent, non-qualified annuities. A life-contingent annuity that is subsequently modified to a fixed-term payout would be subject to a recapture tax.

Baby boomers represent an unprecedented challenge to our retirement security policies. They should have a wide range of options available for responsible retirement planning. Our proposal focuses on non-qualified annuities because it is important to have this option considered as part of the larger retirement income security debate that Congress should have before baby boomers begin retiring in large numbers. Options for making qualified plans more secure should be part of that debate as well.

I hope that Congress will tackle this matter promptly because over the last few years too many people have seen their retirement savings severely eroded. This legislation will provide an important incentive to help them preserve what they have.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1297

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Retirement Security for Life Act of 2009''.

SEC. 2. EXCLUSION FOR LIFETIME ANNUITY PAYMENTS.

(a) LIFETIME ANNUITY PAYMENTS UNDER ANNUITY CONTRACTS.—Section 72(b) of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

''(5) EXCLUSION FOR LIFETIME ANNUITY PAYMENTS.—

''(A) IN GENERAL.—In the case of lifetime annuity payments received under one or more annuity contracts in any taxable year, gross income shall not include 50 percent of the portion of lifetime annuity payments otherwise includible (without regard to this paragraph) in gross income under this section. For purposes of the preceding sentence, the amount excludible from gross income in any taxable year shall not exceed $20,000.

''(B) COST-OF-LIVING ADJUSTMENT.—In the case of taxable years beginning after December 31, 2010, the $20,000 amount in subparagraph (A) shall be increased by an amount equal to—

''(i) such dollar amount, multiplied by

''(ii) the cost-of-living adjustment determined under section 1(f)(3) for the calendar year in which the taxable year begins, determined by substituting 'calendar year 2009' for 'calendar year 1992' in subparagraph (B) thereof.

If any amount as increased under the preceding sentence is not a multiple of $500, such amount shall be rounded to the next lower multiple of $500.

''(C) APPLICATION OF PARAGRAPH.—Subparagraph (A) shall not apply to—

''(i) any amount received under an eligible deferred compensation plan (as defined in section 457(b)) or under a qualified retirement plan (as defined in section 4974(c)),

''(ii) any amount paid under an annuity contract that is received by the beneficiary under the contract—

''(I) after the death of the annuitant in the case of payments described in subsection (c)(5)(A)(ii)(III), unless the beneficiary is the surviving spouse of the annuitant, or

''(II) after the death of the annuitant and joint annuitant in the case of payments described in subsection (c)(5)(A)(ii)(IV), unless the beneficiary is the surviving spouse of the last to die of the annuitant and the joint annuitant, or

''(iii) any annuity contract that is a qualified funding asset (as defined in section 130(d)), but without regard to whether there is a qualified assignment.

''(D) INVESTMENT IN THE CONTRACT.—For purposes of this section, the investment in the contract shall be determined without regard to this paragraph.''.

(b) DEFINITIONS.—Subsection (c) of section 72 of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

''(5) LIFETIME ANNUITY PAYMENT.—

''(A) IN GENERAL.—For purposes of subsection (b)(5), the term 'lifetime annuity payment' means any amount received as an annuity under any portion of an annuity contract, but only if—

''(i) the only person (or persons in the case of payments described in subclause (II) or (IV) of clause (ii)) legally entitled (by operation of the contract, a trust, or other legally enforceable means) to receive such amount during the life of the annuitant or joint annuitant is such annuitant or joint annuitant, and

''(ii) such amount is part of a series of substantially equal periodic payments made not less frequently than annually over—

''(I) the life of the annuitant,

''(II) the lives of the annuitant and a joint annuitant, but only if the annuitant is the spouse of the joint annuitant as of the annuity starting date or the difference in age between the annuitant and joint annuitant is 15 years or less,

''(III) the life of the annuitant with a minimum period of payments or with a minimum amount that must be paid in any event, or

''(IV) the lives of the annuitant and a joint annuitant with a minimum period of payments or with a minimum amount that must be paid in any event, but only if the annuitant is the spouse of the joint annuitant as of the annuity starting date or the difference in age between the annuitant and joint annuitant is 15 years or less.

''(iii) EXCEPTIONS.—For purposes of clause (ii), annuity payments shall not fail to be treated as part of a series of substantially equal periodic payments—

''(I) because the amount of the periodic payments may vary in accordance with investment experience, reallocations among investment options, actuarial gains or losses, cost of living indices, a constant percentage applied not less frequently than annually, or similar fluctuating criteria,

''(II) due to the existence of, or modification of the duration of, a provision in the contract permitting a lump sum withdrawal after the annuity starting date,

''(III) because the period between each such payment is lengthened or shortened, but only if at all times such period is no longer than one calendar year, or

''(IV) because, in the case of an annuity payable over the life of an annuitant and a joint annuitant, the amounts paid to the surviving annuitant after the death of the first annuitant are less than the amounts payable during the joint lives of the two annuitants.

''(B) ANNUITY CONTRACT.—For purposes of subparagraph (A) and subsections (b)(5) and (x), the term 'annuity contract' means a commercial annuity (as defined by section 3405(e)(6)), other than an endowment or life insurance contract.

''(C) MINIMUM PERIOD OF PAYMENTS.—For purposes of subparagraph (A), the term 'minimum period of payments' means a guaranteed term of payments that does not exceed the greater of 10 years or—

''(i) the life expectancy of the annuitant as of the annuity starting date, in the case of lifetime annuity payments described in subparagraph (A)(ii)(III), or

''(ii) the life expectancy of the annuitant and joint annuitant as of the annuity starting date, in the case of lifetime annuity payments described in subparagraph (A)(ii)(IV).

For purposes of this subparagraph, life expectancy shall be computed with reference to the tables prescribed by the Secretary under paragraph (3). For purposes of subsection (x)(1)(C)(ii), the permissible minimum period of payments shall be determined as of the annuity starting date and reduced by one for each subsequent year.

''(D) MINIMUM AMOUNT THAT MUST BE PAID IN ANY EVENT.—For purposes of subparagraph (A), the term 'minimum amount that must be paid in any event' means an amount payable to the designated beneficiary under an annuity contract that is in the nature of a refund and does not exceed the greater of the amount applied to produce the lifetime annuity payments under the contract or the amount, if any, available for withdrawal under the contract on the date of death.''.

(c) RECAPTURE TAX FOR LIFETIME ANNUITY PAYMENTS.—Section 72 of the Internal Revenue Code of 1986 is amended by redesignating subsection (x) as subsection (y) and by inserting after subsection (w) the following new subsection:

''(x) RECAPTURE TAX FOR MODIFICATIONS TO OR REDUCTIONS IN LIFETIME ANNUITY PAYMENTS.—

''(1) IN GENERAL.—If any amount received under an annuity contract is excluded from income by reason of subsection (b)(5), and—

''(A) the series of payments under such contract is subsequently modified so that any future payments are not lifetime annuity payments,

''(B) after the date of receipt of the first lifetime annuity payment under the contract an annuitant receives a lump sum and thereafter is to receive annuity payments in a reduced amount under the contract, or

''(C) after the date of receipt of the first lifetime annuity payment under the contract the dollar amount of any subsequent annuity payment is reduced and a lump sum is not paid in connection with the reduction, unless such reduction is—

''(i) due to an event described in subsection (c)(5)(A)(iii), or

''(ii) due to the addition of, or increase in, a minimum period of payments within the meaning of subsection (c)(5)(C) or a minimum amount that must be paid in any event (within the meaning of subsection (c)(5)(D)),

then gross income for the first taxable year in which such modification or reduction occurs shall be increased by the recapture amount.

''(2) RECAPTURE AMOUNT.—

''(A) IN GENERAL.—For purposes of this subsection, the recapture amount shall be the amount, determined under rules prescribed by the Secretary, equal to the sum of—

''(i) the excess of—

''(I) the amount that was excluded from the taxpayer's gross income under subsection (b)(5) for all taxable years prior to the modification or reduction described in paragraph (1), over

''(II) the amount that would have been excludible under such subsection for such taxable years had such modifications or reductions been in effect at all times, plus

''(ii) interest for the deferral period at the underpayment rate established by section 6621.

''(B) DEFERRAL PERIOD.—For purposes of this subsection, the term 'deferral period' means the period beginning with the taxable year in which (without regard to subsection (b)(5)) the payment would have been includible in gross income and ending with the taxable year in which the modification described in paragraph (1) occurs.

''(3) EXCEPTIONS TO RECAPTURE TAX.—Paragraph (1) shall not apply in the case of any modification or reduction that occurs because an annuitant—

''(A) dies or becomes disabled (within the meaning of subsection (m)(7)),

''(B) becomes a chronically ill individual (within the meaning of section 7702B(c)(2)), or

''(C) encounters hardship.''.

(d) LIFETIME DISTRIBUTIONS OF LIFE INSURANCE DEATH BENEFITS.—

(1) IN GENERAL.—Section 101(d) of the Internal Revenue Code of 1986 (relating to payment of life insurance proceeds at a date later than death) is amended by adding at the end the following new paragraph:

''(4) EXCLUSION FOR LIFETIME ANNUITY PAYMENTS.—

''(A) IN GENERAL.—In the case of amounts to which this subsection applies, gross income shall not include the lesser of—

''(i) 50 percent of the portion of lifetime annuity payments otherwise includible in gross income under this section (determined without regard to this paragraph), or

''(ii) the amount determined under section 72(b)(5).

''(B) RULES OF SECTION 72(b)(5) TO APPLY.—For purposes of this paragraph, rules similar to the rules of section 72(b)(5) and section 72(x) shall apply, substituting the term 'beneficiary of the life insurance contract' for the term 'annuitant' wherever it appears, and substituting the term 'life insurance contract' for the term 'annuity contract' wherever it appears.''.

(2) CONFORMING AMENDMENT.—Section 101(d)(1) of such Code is amended by inserting ''or paragraph (4)'' after ''to the extent not excluded by the preceding sentence''.

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to amounts received in calendar years beginning after the date of the enactment of this Act.

(2) SPECIAL RULE FOR EXISTING CONTRACTS.—In the case of a contract in force on the date of the enactment of this Act that does not satisfy the requirements of section 72(c)(5)(A) of the Internal Revenue Code of 1986 (as added by this section), or requirements similar to such section in the case of a life insurance contract, any modification to such contract (including a change in ownership) or to the payments thereunder that is made to satisfy the requirements of such section (or similar requirements) shall not result in the recognition of any gain or loss, any amount being included in gross income, or any addition to tax that otherwise might result from such modification, but only if the modification is completed prior to the date that is 2 years after the date of the enactment of this Act.

By Mr. MCCONNELL:

S. 1302. A bill to provide for the introduction of pay-for-performance compensation mechanisms into contracts of the Department of Veterans Affairs with community-based outpatient clinics for the provisions of health care services, and for other purposes; to the Committee on Veterans' Affairs.

Mr. MCCONNELL. Mr. President, I rise today to introduce the Veterans Health Care Improvement Act of 2009.

As we all know, the Department of Veterans Affairs strives to provide the best possible health care for our nation's heroes. However, it has come to my attention that the quality of care provided to our nation's veterans has been inconsistent among community-based outpatient clinics. Some of these clinics, including two in my home state of Kentucky, are operated by private health care providers under VA contracts. These VA-contracted health care providers are compensated for their work at community-based outpatient clinics on a capitated basis, which means they are essentially paid based on how many new veterans they see during a pay period. These firms are therefore rewarded for the number of veterans they sign up, not for the quality of treatment provided to our veterans. I am concerned this provides contractors with the wrong incentives. Contracted health care providers should have the incentive to provide the best possible care for veterans, not simply get as many veterans as possible through the door once.

As a result of the capitated system, it has been reported that too many of our nation's heroes have faced difficulties at these clinics in scheduling appointments, have suffered from neglect or have received substandard health care. This occurred under the last administration and I am concerned it may be continuing in the current one.

As such, I am introducing the Veterans Health Care Improvement Act of 2009, which attempts to fix the way VA-contracted health care providers are compensated at clinics. This bill would require the VA to begin to introduce a pay-for-performance compensation plan for contractors, thereby gradually incentivizing a higher quality of care for veterans seen at privately-administered community-based outpatient clinics.

This bill gives the VA the flexibility to begin to implement such a system through a pilot program and leaves the VA the discretion as to how to adopt and best implement the pay-for-performance standards. In this respect, the bill defers to the VA on how to execute these changes. It is my hope that my colleagues will support this measure.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1302

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Veterans Health Care Improvement Act of 2009''.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Veterans of the Armed Forces have made tremendous sacrifices in the defense of freedom and liberty.

(2) Congress recognizes these great sacrifices and reaffirms America's strong commitment to its veterans.

(3) As part of the on-going congressional effort to recognize the sacrifices made by America's veterans, Congress has dramatically increased funding for the Department of Veterans Affairs for veterans health care in the years since September 11, 2001.

(4) Part of the funding for the Department of Veterans Affairs for veterans health care is allocated toward community-based outpatient clinics (CBOCs).

(5) Many CBOCs are administered by private contractors.

(6) CBOCs administered by private contractors operate on a capitated basis.

(7) Some current contracts for CBOCs may create an incentive for contractors to sign up as many veterans as possible, without ensuring timely access to high quality health care for such veterans.

(8) The top priorities for CBOCs should be to provide quality health care and patient satisfaction for America's veterans.

(9) The Department of Veterans Affairs currently tracks the quality of patient care through its Computerized Patient Record System. However, fees paid to contractors are not currently adjusted automatically to reflect the quality of care provided to patients.

(10) A pay-for-performance payment model offers a promising approach to health care delivery by aligning the payment of fees to contractors with the achievement of better health outcomes for patients.

(11) The Department of Veterans Affairs should begin to emphasize pay-for-performance in its contracts with CBOCs.

SEC. 3. PAY-FOR-PERFORMANCE UNDER DEPARTMENT OF VETERANS AFFAIRS CONTRACTS WITH COMMUNITY-BASED OUTPATIENT HEALTH CARE CLINICS.

(a) PLAN REQUIRED.—Not later than one year after the date of the enactment of this Act, the Secretary of Veterans Affairs shall submit to Congress a plan to introduce pay-for-performance measures into contracts which compensate contractors of the Department of Veterans Affairs for the provision of health care services through community-based outpatient clinics (CBOCs).

(b) ELEMENTS.—The plan required by subsection (a) shall include the following:

(1) Measures to ensure that contracts of the Department for the provision of health care services through CBOCs begin to utilize pay-for-performance compensation mechanisms for compensating contractors for the provision of such services through such clinics, including mechanisms as follows:

(A) To provide incentives for clinics that provide high-quality health care.

(B) To provide incentives to better assure patient satisfaction.

(C) To impose penalties (including termination of contract) for clinics that provide substandard care.

(2) Mechanisms to collect and evaluate data on the outcomes of the services generally provided by CBOCs in order to provide for an assessment of the quality of health care provided by such clinics.

(3) Mechanisms to eliminate abuses in the provision of health care services by CBOCs under contracts that continue to utilize capitated-basis compensation mechanisms for compensating contractors.

(4) Mechanisms to ensure that veterans are not denied care or face undue delays in receiving care.

(c) IMPLEMENTATION.—The Secretary shall commence the implementation of the plan required by subsection (a) unless Congress enacts an Act, not later than 60 days after the date of the submittal of the plan, prohibiting or modifying implementation of the plan. In implementing the plan, the Secretary may initially carry out one or more pilot programs to assess the feasability and advisability of mechanisms under the plan.

(d) REPORTS.—Not later than 180 days after the date of the enactment of this Act and every 180 days thereafter, the Secretary shall submit to Congress a report setting forth the recommendations of the Secretary as to the feasability and advisability of utilizing pay-for-performance compensation mechanisms in the provision of health care services by the Department by means in addition to CBOCs.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 189—EXPRESSING THE SENSE OF THE SENATE THAT THE TRIAL BY THE RUSSIAN GOVERNMENT OF BUSINESSMEN MIKHAIL KHODORKOVSKY AND PLATON LEBEDEV CONSTITUTES A POLITICALLY-MOTIVATED CASE OF SELECTIVE ARREST AND PROSECUTION THAT SERVES AS A TEST OF THE RULE OF LAW AND INDEPENDENCE OF THE JUDICIAL SYSTEM OF RUSSIA

Mr. WICKER (for himself and Mr. CARDIN) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 189

Whereas on April 1, 2009, President Barack Obama and President Dmitry Medvedev issued a joint statement affirming that ''[i]n our relations with each other, we also seek to be guided by the rule of law, respect for fundamental freedoms and human rights, and tolerance for different views'';

Whereas the United States and Russia, in a spirit of cooperation, will continue the dialogue on the issues affirmed in such joint statement at an upcoming summit to be held in June 2009;

Whereas it has been the long-held position of the United States to support the development of democracy, rule of law, judicial independence, freedom, and respect for human rights in the Russian Federation;

Whereas Russian President Medvedev has called Russia a country of ''legal nihilism'' and issued a new foreign policy doctrine citing ''the supremacy of law in international relations'' as one of the top priorities of Russia;

Whereas 2 prominent cases involve the Yukos Oil Company and its president, Mikhail Khodorkovsky and his partner, Platon Lebedev, who were convicted and sentenced in May 2005 to serve 9 years in a remote penal camp;

Whereas Russian authorities confiscated Yukos assets and assigned ownership to a state company that is chaired by an official in the Kremlin; harassed, exiled, persecuted, and imprisoned many Yukos officers and legal representatives; and issued a series of court rulings against Mr. Khodorkovsky and Mr. Lebedev that violate international legal norms;

Whereas at a press conference in May 2005, President George Bush stated, ''it appeared to . . . people in my Administration, that . . . [Mikhail Khodorkovsky] had been judged guilty prior to having a fair trial. In other words, he was put in prison, and then was tried'';

Whereas on October 25, 2005, Congressmen Roger Wicker and Tom Lantos introduced H. Res. 525, which noted the actions that the Russian government had taken with respect to Yukos, Mr. Khodorkovsky, and Mr. Lebedev, and called upon Russian authorities to prove that the cases were not politically motivated, that the Russian judicial system is truly independent and not simply an instrument of the Kremlin, and that the state was not engaged in a campaign to selectively reclaim or re-nationalize private enterprises;

Whereas on November 18, 2005, Senators Joe Biden, Barack Obama, and John McCain introduced S. Res. 322, which called the cases against Mr. Khodorkovsky and Mr. Lebedev ''politically motivated'', noted that Mr. Khodorkovsky and Mr. Lebedev had not been accorded fair, transparent, and impartial treatment, and deplored their transfer to remote prison camps;

Whereas Amnesty International, Freedom House, and other prominent international human rights organizations have cited the conviction and imprisonment of Mikhail Khodorkovsky as evidence of the arbitrary and political use of the legal system and the lack of a truly independent judiciary in the Russian Federation;

Whereas governments, courts, journalists, and human rights organizations around the world have expressed concern about the prosecution, trial, imprisonment, and treatment of the individuals in the Yukos case, and have called on President Medvedev to honor his pledge to end ''legal nihilism'' in Russia;

Whereas on February 5, 2007, on the eve of their eligibility for parole, Russian prosecutors brought new charges against Mr. Khodorkovsky and Mr. Lebedev, accusing them of embezzling $20,000,000,000 in Yukos oil revenues;

Whereas in May 2007 the Prosecutor General in Moscow attempted to disbar Karinna Moskalenko, one of Russia's most distinguished and renown human rights lawyers and defense counsel to Mikhail Khodorkovsky, in apparent reprisal for actions she had taken on behalf of her client;

Whereas in August 2007 the highest court of Switzerland denied Russian authorities access to Yukos documents on the basis that the case against Yukos and its principal executives and core shareholders, specifically Mikhail Khodorkovsky and Platon Lebedev, had a ''political and discriminatory character. . .undermined by the infringement of human rights and the right to defense'';

Whereas courts in Great Britain, the Netherlands, Cyprus, Liechtenstein, Lithuania, and Switzerland have described the Yukos proceeding as politically motivated and have rejected motions from Russian prosecutors seeking the extradition of Yukos officials or materials for use in trials in Russia;

Whereas on October 25, 2007, the European Court of Human Rights ruled that Platon Lebedev's rights to liberty and security were violated during his arrest and subsequent pretrial detention;

Whereas the 2008 Department of State Human Rights Report stated: ''The arrest and conviction of Khodorkovsky raised concerns about the right to due process and the rule of law, including the independence of courts and the lack of a predictable tax regime.'';

Whereas on March 13, 2008, the European Parliament issued a resolution calling on the Russian President to ''review the treatment of imprisoned public figures (among them Mikhail Khodorkovsky and Platon Lebedev), whose imprisonment has been assessed by most observers as having been politically motivated'';

Whereas in July 2008, President Dmitry Medvedev said it was essential that Russia ''take all necessary means to strengthen the independence of judges'' since ''it goes without saying that pressure is applied, influence is exerted, and direct bribery is often used'';

Whereas on August 22, 2008, Mikhail Khodorkovsky was denied parole on the grounds that he refused to take part in vocational training in sewing and that he allegedly failed to keep his hands behind his back during a jail walk;

Whereas on October 25, 2008, the State Department issued a statement marking the fifth anniversary of Mikhail Khodorkovsky's arrest, stating ''the conduct of the cases against Khodorkovsky and his associates has eroded Russia's reputation and public confidence in Russian legal and judicial institutions'';

Whereas on December 22, 2008, the European Court of Human Rights ordered the release of the terminally ill former Yukos oil executive Vasily Aleksanyan, who had been held in detention since April 6, 2006, despite repeated orders by the European Court that Mr. Aleksanyan be treated in a humane fashion for cancer and AIDS;

Whereas in February 2009, Andrei Illarianov, former chief economic advisor to President Vladimir Putin, stated that ''[o]ne of the best known political prisoners is Mikhail Khodorkovsky who has been sentenced to 9 years in the Siberian camp Krasnokamensk on the basis of purely fabricated case against him and his oil company Yukos'';

Whereas on February 24, 2009, human rights lawyer Karinna Moskalenko, said that ''[a]ll verdicts are possible in this country. But for people like Khodorkovsky, everything is already planned out and decided as long as the political will does not change'';

Whereas on February 25, 2009, Olga Kudeshkina, former Moscow court judge who was dismissed from her duties in 2004, stated that Moscow City Court ''has turned into an institution of settling political, commercial and other scores'' and that ''nobody can be sure that the case will be resolved in accordance with the law'';

Whereas on April 2, 2009, Senator Ben Cardin, chair of the Helsinki Commission, issued a statement in the Senate in which he noted that ''the Council of Europe, Freedom House and Amnesty International, among others, have concluded that Mr. Khodorkovsky was charged and imprisoned in a process that did not follow the rule of law and was politically influenced. . .'' and that ''the current charges. . .amount to legal hooliganism and highlight the petty meanness of the senior government officials behind this travesty of justice. . .should be dropped and the new trial should be abandoned'';

Whereas on April 10, 2009, the New York Times published an editorial noting that the new charges and trial against Mikhail Khodorkovsky ''are for show, intended only to keep [him] and his colleague in prison forever'';

Whereas on April 11, 2009, the Washington Post wrote: ''If Mr. Medvedev allows [the Khodorkovsky trial] to go forward to its scripted conclusion—a lengthy extension of Mr. Khodorkovsky's sentence to a Siberian prison camp—the point will be proved that Russia still has no rule of law but only a ruler'';

Whereas on April 21, 2009, Freedom House, Amnesty International, Human Rights First, Human Rights Watch, the International League for Human Rights, the Lantos Foundation for Human Rights and Justice, and the Jacob Blaustein Institute for the Advancement of Human Rights joined in a letter to President Medvedev in which they note ''the serious human rights concerns raised by the case so far'' and call on the Russian Government to ''ensure that international observers are allowed unhindered access to the courtroom'' to monitor the trial, to ''ensure that the rule of law is upheld'' and that it ''meets the standards of the Russian Constitution and international law'';

Whereas the selective disregard for the rule of law by Russian officials undermines

the standing and status of the Russian Federation among the democratic nations of the world; and

Whereas both Russia and the United States have recently elected new presidents that provide the opportunity to review past policies and pursue a new era of mutual cooperation: Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) Mikhail Khodorkovsky and Platon Lebedev are prisoners who have been denied basic due process rights under international law for political reasons;

(2) in light of the record of selective prosecution, politicization, and abuse of process involved in their cases, and as a demonstration of Russia's commitment to democracy, human rights, and the rule of law, the new criminal charges brought by Russian authorities against Mr. Khodorkovsky and Mr. Lebedev should be withdrawn;

(3) the standing of the Russian Federation as a nation supporting democracy, freedom of expression, an independent judiciary, human rights, and the rule of law would move closer to validation by paroling Mr. Khodorkovsky and Mr. Lebedev, both of whom have served more than half their sentences; and

(4) the Russian Federation is encouraged to take these actions to support democratic principles and human rights in furtherance of a new and more positive relationship between the United States and Russia and a new era of mutual cooperation.

SENATE RESOLUTION 190—SUPPORTING NATIONAL MEN'S HEALTH WEEK

Mr. CRAPO (for himself and Mr. LUGAR) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 190

Whereas, according to the National Cancer Institute—

(1) despite advances in medical technology and research, men continue to live an average of more than 5 years less than women, and African-American men have the lowest life expectancy;

(2) 9 of the 10 leading causes of death, as defined by the Centers for Disease Control and Prevention, affect men at a higher percentage than women;

(3) between ages 45 and 54, men are 3 times more likely than women to die of heart attacks;

(4) men die of heart disease at 1½ times the rate of women;

(5) men die of cancer at almost 1½ times the rate of women;

(6) testicular cancer is 1 of the most common cancers in men aged 15 to 34, and when detected early, has a 96 percent survival rate;

(7) the number of cases of colon cancer among men will reach almost 75,590 in 2009, and almost ½ of those men will die from the disease;

(8) the likelihood that a man will develop prostate cancer is 1 in 6;

(9) the number of men developing prostate cancer in 2009 will reach more than 192,280, and an estimated 27,360 of them will die from the disease;

(10) African-American men in the United States have the highest incidence in the world of prostate cancer;

(11) significant numbers of health problems that affect men, such as prostate cancer, testicular cancer, colon cancer, and infertility, could be detected and treated if men's awareness of such problems was more pervasive;

(12) more than ½ of the elderly widows now living in poverty were not poor before the death of their husbands, and by age 100, women outnumber men 8 to 1;

(13) educating both the public and health care providers about the importance of early detection of male health problems will result in reducing rates of mortality for these diseases;

(14) appropriate use of tests such as prostate specific antigen exams, blood pressure screenings, and cholesterol screenings, in conjunction with clinical examination and self-testing for problems such as testicular cancer, can result in the detection of many problems in their early stages and increase the survival rates to nearly 100 percent;

(15) women are twice as likely as men to visit the doctor for annual examinations and preventive services; and

(16) men are less likely than women to visit their health center or physician for regular screening examinations of male-related problems for a variety of reasons, including fear, lack of health insurance, lack of information, and cost factors;

Whereas National Men's Health Week was established by Congress in 1994 and urges men and their families to engage in appropriate health behaviors, and the resulting increased awareness has improved health-related education and helped prevent illness;

Whereas the governors of more than 45 States issue proclamations annually declaring Men's Health Week in their States;

Whereas since 1994, National Men's Health Week has been celebrated each June by dozens of States, cities, localities, public health departments, health care entities, churches, and community organizations throughout the Nation that promote health awareness events focused on men and family;

Whereas the National Men's Health Week Internet website has been established at www.menshealthweek.org and features governors' proclamations and National Men's Health Week events;

Whereas men who are educated about the value that preventive health can play in prolonging their lifespan and their role as productive family members will be more likely to participate in health screenings;

Whereas men and their families are encouraged to increase their awareness of the importance of a healthy lifestyle, regular exercise, and medical checkups; and

Whereas June 15 through June 21, 2009, is National Men's Health Week, which has the purpose of heightening the awareness of preventable health problems and encouraging early detection and treatment of disease among men and boys: Now, therefore, be it

Resolved, That the Senate—

(1) supports the annual National Men's Health Week in 2009; and

(2) calls upon the people of the United States and interested groups to observe National Men's Health Week with appropriate ceremonies and activities.

SENATE RESOLUTION 191—RECOGNIZING THAT THE OCCURRENCE OF PROSTATE CANCER IN AFRICAN-AMERICAN MEN HAS REACHED EPIDEMIC PROPORTIONS AND URGING FEDERAL AGENCIES TO ADDRESS THAT HEALTH CRISIS BY DESIGNATING FUNDS FOR EDUCATION, AWARENESS OUTREACH, AND RESEARCH SPECIFICALLY FOCUSED ON HOW PROSTATE CANCER AFFECTS AFRICAN-AMERICAN MEN

Mr. KERRY (for himself, Mr. CARDIN, Mr. BURRIS, Ms. LANDRIEU, and Mrs. BOXER) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 191

Whereas the incidence of prostate cancer in African-American men is 60 percent higher than in any other racial or ethnic group in the United States;

Whereas African-American men have the highest mortality rate of any ethnic and racial group in the United States, dying at a rate that is 140 percent higher than other ethnic and racial groups;

Whereas that rate of mortality represents the largest disparity of mortality rates in any of the major cancers;

Whereas prostate cancer can be cured with early detection and the proper treatment, regardless of the ethnic or racial group of the cancer patient;

Whereas African Americans are more likely to be diagnosed at an earlier age and at a later stage of cancer progression than all other ethnic and racial groups, thereby leading to lower cure rates and lower chances of survival; and

Whereas according to a paper published in the Proceedings of the National Academy of Sciences, researchers from the Dana Farber Cancer Institute and Harvard Medical School have discovered a variant of a small segment of the human genome that accounts for the higher risk of prostate cancer in African-American men: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes that prostate cancer has created a health crisis for African-American men; and

(2) urges Federal agencies to designate additional funds for—

(A) research to address and attempt to end the health crisis created by prostate cancer; and

(B) efforts relating to education, awareness, and early detection at the grassroots level to end that health crisis.

Mr. KERRY. Mr. President, I invite my colleagues to celebrate Father's Day by cosponsoring a Senate resolution supporting men's health by recognizing that the occurrence of prostate cancer in African American men has reached epidemic proportions. The resolution also urges Federal agencies to address the health crisis by designating funds for education, awareness outreach, and research specifically focused on how prostate cancer affects African-American men.

Prostate cancer affects thousands of American men each year and is currently the second leading cause of cancer related deaths. This cancer strikes 1 in every 6 men, making it even more prevalent than breast cancer, which strikes 1 in every 7 women. Last year alone more than 186,000 men were diagnosed with prostate cancer and more than 28,000 men died from the disease.

The incidence rate or African-Americans is 60 percent higher than any other racial or ethnic group in the U.S. African-Americans are more likely to be diagnosed at an advanced stage and thus have higher mortality rates than any other group.

That is why the Resolution recognizes prostate cancer's prevalence and debilitative impact within all communities, but especially for African-Americans, and urges Federal agencies to direct funds toward efforts to address this particular population.

Senators CARDIN, BURRIS, LANDRIEU and BOXER join me in introducing this resolution. Congress must take the lead in fighting prostate cancer. I hope all of my colleagues can support this resolution, as it calls for better education and research that will ensure the health of our Nation's fathers, brothers, and sons.

SENATE RESOLUTION 192—EXPRESSING THE SENSE OF THE SENATE REGARDING SUPPORTING DEMOCRACY AND ECONOMIC DEVELOPMENT IN MONGOLIA AND EXPANDING RELATIONS BETWEEN THE UNITED STATES AND MONGOLIA

Mr. KERRY (for himself, Mr. LUGAR, Mr. WEBB, and Ms. MURKOWSKI) submitted the following resolution; which was considered and agreed to:

S. RES. 192

Whereas the United States Government established diplomatic relations with the Government of Mongolia in January 1987;

Whereas the Government of Mongolia declared an end to one-party Communist rule in 1990 and initiated democratic and free market reforms;

Whereas the United States Government has a continued commitment to ongoing economic and political reforms in Mongolia and has made sizeable contributions for that purpose since 1991;

Whereas, in 1991, the United States established Normal Trade Relations (NTR) status with Mongolia and began a Peace Corps program that now boasts over 100 volunteers and over 725 volunteers since its creation, and is one of the largest per capita Peace Corps programs worldwide;

Whereas the United States extended permanent NTR status effective July 1, 1999;

Whereas the United States has strongly supported the participation of Mongolia in the International Monetary Fund, the World Bank, the Asian Development Bank, and the European Bank for Reconstruction and Development, among other international organizations;

Whereas the United States and Mongolia enhanced their trade relationship through the signing of a Trade and Investment Framework Agreement in 2004 to boost bilateral commercial ties and amicably resolve disagreements over trade;

Whereas the Government of Mongolia continues to work with the United States Government to combat global terrorism and, from April 2003 to October 2008, sent 10 consecutive deployments to Operation Iraqi Freedom and 7 indirect fire technical training teams to Afghanistan;

Whereas the Government of Mongolia continues to demonstrate a growing desire to join the United States in global peacekeeping activities by providing an ongoing deployment of soldiers to protect the Special Court for Sierra Leone, as well as providing deployments in support of the North Atlantic Treaty Organization mission in Kosovo and United Nations missions in a number of countries in Africa;

Whereas the Government of Mongolia signed denuclearization agreements in 1991 and 1992, making Mongolia a nuclear weapons-free zone;

Whereas Mongolia was deemed eligible for Millennium Challenge Compact assistance on May 6, 2004, submitted its official proposal on October 13, 2005, received approval for its proposal from the Millennium Challenge Corporation on September 12, 2007, and signed a Millennium Challenge Corporation Compact Agreement on October 22, 2007, during a visit to the United States by then-Mongolian President Nambaryn Enkhbayar;

Whereas President George W. Bush became the first-ever sitting United States President to travel to Mongolia on November 21, 2005;

Whereas the House Democracy Assistance Commission began a program to provide parliamentary assistance to the State Great Hural, the parliament of Mongolia, in 2007;

Whereas Senate Resolution 352, 110th Congress, agreed to October 18, 2007, expressed the sense of the Senate on ''the strength and endurance'' of the partnership between the United States and Mongolia during the 20th anniversary of relations between the two countries;

Whereas the United States and Mongolia signed an agreement to increase cooperation in preventing trafficking in nuclear technology on October 23, 2007;

Whereas, during the October 2007 visit by then-President Enkhbayar to Washington, DC, the United States and Mongolia agreed to a Declaration of Principles for further cooperation between both countries, including a commitment to expanded development and long-term cooperation in political, economic, trade, investment, educational, cultural, arts, scientific and technological, defense, security, humanitarian, and other areas;

Whereas the people of Mongolia completed a free, fair, and peaceful democratic election on May 24, 2009, which resulted in the election of opposition Democratic Party candidate Tsakhiagiin Elbegdorj;

Whereas Secretary of State Hillary Clinton announced on June 9, 2009, with the Minister for Foreign Affairs and Trade of Mongolia, S. Batbold, that the United States is ''committed to supporting the government and people of Mongolia as they seek assistance to develop, as they continue their democratization, and as they reach out to the rest of the world''; and

Whereas the United States Government and the Government of Mongolia share a common interest in promoting peaceful cooperation in Northeast Asia and Central Asia: Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) the growing partnership between the democratic governments and peoples of the United States and Mongolia deserves acknowledgment and celebration;

(2) the democratic election and peaceful transition of power in Mongolia is an important demonstration of the continuing commitment in that country to democratic reform and represents a significant achievement for that young democracy;

(3) the United States Government encourages further economic cooperation with the Government of Mongolia, including, as appropriate, enhanced trade and investment to promote prosperity for both of our economies;

(4) the United States Government should continue to work with the International Monetary Fund, the World Bank, the Asian Development Bank, and the European Bank for Reconstruction and Development to assist the Government of Mongolia in improving its economic system and accelerating development;

(5) the United States Government should continue to provide Mongolia assistance under the Millennium Challenge Compact and encourage further effective and accountable governance; and

(6) the United States Government should expand upon existing academic, cultural, and other people-to-people exchanges with Mongolia.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1338. Mr. COBURN submitted an amendment intended to be proposed by him to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table.

SA 1339. Mr. WEBB submitted an amendment intended to be proposed by him to the bill S. 1023, supra; which was ordered to lie on the table.

SA 1340. Mrs. SHAHEEN submitted an amendment intended to be proposed by her to the bill S. 1023, supra; which was ordered to lie on the table.

SA 1341. Ms. MURKOWSKI (for herself and Mr. BEGICH) submitted an amendment intended to be proposed by her to the bill S. 1023, supra; which was ordered to lie on the table.

SA 1342. Ms. MURKOWSKI (for herself and Mr. BEGICH) submitted an amendment intended to be proposed by her to the bill S. 1023, supra; which was ordered to lie on the table.

SA 1343. Mr. THUNE submitted an amendment intended to be proposed by him to the bill S. 1023, supra; which was ordered to lie on the table.

SA 1344. Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 1023, supra; which was ordered to lie on the table.

SA 1345. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill S. 1023, supra; which was ordered to lie on the table.

SA 1346. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill S. 1023, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 1338. Mr. COBURN submitted an amendment intended to be proposed by

him to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table; as follows:

At the appropriate place, add the following:

SEC. __. LIMITATIONS ON EFFECT.

If imposing a government fee on an individual traveling to the United States, as required by this Act or any amendment made by this Act, would violate the established national tourism policy set out in section 1(b)(8) of the International Travel Act of 1961 (22 U.S.C. 2121(b)(8)) which states that it is a national tourism policy to ''encourage the free and welcome entry of individuals traveling to the United States, in order to enhance international understanding and goodwill, consistent with immigration laws, the laws protecting the public health, and laws governing the importation of goods into the United States'' by increasing the cost, in any way, for such individual, then this Act and the amendments made by this Act shall have no effect.

SA 1339. Mr. WEBB submitted an amendment intended to be proposed by him to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table; as follows:

On page 3, line 20, insert '', including expertise and experience with national historic and geographic landmarks'' after ''sector''.

SA 1340. Mrs. SHAHEEN submitted an amendment intended to be proposed by her to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table; as follows:

On page 23, strike line 1 and all that follows through page 25, line 10, and insert the following:

SEC. 7. OFFICE OF TRAVEL PROMOTION.

(a) ESTABLISHMENT.—Title II of the International Travel Act of 1961 (22 U.S.C. 2121 et seq.) is amended by inserting after section 201 the following:

''SEC. 202. OFFICE OF TRAVEL PROMOTION.

''(a) OFFICE ESTABLISHED.—There is established within the Department of Commerce an office to be known as the Office of Travel Promotion (referred to in this section as the 'Office').

''(b) UNDER SECRETARY FOR TRAVEL PROMOTION.—

''(1) IN GENERAL.—The head of the Office shall be the Under Secretary of Commerce for Travel Promotion, who shall be appointed by the President, by and with the advice and consent of the Senate.

''(2) QUALIFICATIONS.—The Under Secretary shall be a citizen of the United States and have experience in a field directly related to the promotion of travel in the United States.

''(3) LIMITATION ON INVESTMENTS.—The Under Secretary may not own stock in, or have a direct or indirect beneficial interest in, a corporation or other enterprise that—

''(A) is engaged in the travel, transportation, or hospitality business; or

''(B) owns or operates a theme park or other entertainment facility.

''(c) FUNCTION.—The Under Secretary shall—

''(1) serve as liaison to the Corporation for Travel Promotion, established under section 2 of the Travel Promotion Act of 2009;

''(2) support and encourage the development of programs to increase the number of international visitors to the United States for business, leisure, educational, medical, exchange, and other purposes;

''(3) work with the Corporation, the Secretary of State, and the Secretary of Homeland Security—

''(A) to disseminate information more effectively to potential international visitors about documentation and procedures required for admission to the United States as a visitor; and

''(B) to ensure that arriving international visitors are processed efficiently and in a welcoming and respectful manner;

''(4) support State, regional, and private sector initiatives to promote travel to and within the United States;

''(5) supervise the operations of the Office of Travel and Tourism Industries; and

''(6) enhance the entry and departure experience for international visitors.

''(d) ADVISORY ROLE.—The Under Secretary shall perform a purely advisory role relating to any functions described in paragraphs (3) and (6) of subsection (c).

''(e) RULE OF CONSTRUCTION.—Nothing in this section may be construed to override the preeminent roles of the Secretary of Homeland Security in setting policies relating to—

''(1) the Nation's ports of entry; and

''(2) the processes through which individuals are admitted into the United States.

''(f) REPORTS TO CONGRESS.—Not later than 1 year after the date of the enactment of the Travel Promotion Act of 2009, and periodically thereafter as appropriate, the Under Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing the Under Secretary's work with the Corporation, the Secretary of State, and the Secretary of Homeland Security to carry out this section.''.

(b) CONFORMING AMENDMENT.—Section 5314 of title 5, United States Code, is amended by inserting ''Under Secretary of Commerce for Travel Promotion,'' after ''Under Secretary of Commerce for Export Administration,''.

SA 1341. Ms. MURKOWSKI (for herself and Mr. BEGICH) submitted an amendment intended to be proposed by her to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table; as follows:

On page 9, lines 23 and 24, strike ''State, and Federal agencies'' and insert ''State and Federal agencies, Indian tribes (as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b)),''.

SA 1342. Ms. MURKOWSKI (for herself and Mr. BEGICH) submitted an amendment intended to be proposed by her to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table; as follows:

On page 9, line 12, insert '', Indian tribes (as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b)),'' after ''States''.

SA 1343. Mr. THUNE submitted an amendment intended to be proposed by him to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table; as follows:

At the end of the bill, add the following:

SECTION 9. GOVERNMENT OWNERSHIP EXIT PLAN.

(a) DEFINITION.—In this section—

(1) the term ''ownership interest'' means an interest in a troubled asset described in section 3(9)(B) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5202(a)(1)), as in effect on the day before the date of enactment of this section, that was purchased by the Secretary under section 101(a)(1) of such Act (12 U.S.C. 5211(a)(1)); and

(2) the term ''Secretary'' means the Secretary of the Treasury.

(b) RE-PRIVATIZATION OF PRIVATE ENTITIES.—

(1) PROHIBITION ON FEDERAL GOVERNMENT HOLDING OWNERSHIP INTERESTS.—

(A) IN GENERAL.—Beginning on the date of enactment of this section, the Federal Government may not acquire, directly or indirectly, any ownership interest.

(B) DIVESTITURE.—Except as provided in paragraph (2), the Secretary shall divest the Federal Government of any ownership interest not later than July 1, 2010.

(2) LIMITED AUTHORITY.—

(A) IN GENERAL.—Beginning on July 1, 2010, the Secretary may hold an ownership interest with respect to a particular entity for a period of not more than 6 months if, not later than July 1, 2010, the Secretary submits a report to Congress with respect to that entity stating that—

(i) compliance with paragraph (1)(B) with respect to such entity would have a significant adverse impact on the taxpayers of the United States; and

(ii) there is a reasonable expectation that a waiver of paragraph (1)(B) would allow the Secretary to recover the cost to the Federal Government of acquiring such ownership interest.

(B) SINGLE RENEWAL.—The Secretary may renew an extension under subparagraph (A) for a single period of not more than 6 months, if the Secretary submits to Congress a report stating that the conditions described in clauses (i) and (ii) of subparagraph (A) still exist with respect to the subject ownership interest.

(3) CONFORMING AMENDMENT.—Section 3(9) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5202(9)) is amended—

(A) in subparagraph (A), by striking ''; and'' at the end and inserting a period;

(B) by striking ''means—'' and all that follows through ''residential'' in subparagraph (A) and inserting ''means residential''; and

(C) by striking subparagraph (B).

(4) DEPOSIT OF FUNDS.—

(A) IN GENERAL.—Section 115(a)(3) of the Emergency Economic Stabilization Act of

2008 (12 U.S.C. 5225(a)(3)) is amended by striking ''outstanding at any one time''.

(B) DEPOSIT OF FUNDS INTO TREASURY.—

(i) IN GENERAL.—On and after the date of enactment of this section, all repayments of obligations arising under the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5201 et seq.), and all proceeds from the sale of assets acquired by the Federal Government under that Act, shall be paid into the general fund of the Treasury for reduction of the public debt, in accordance with section 106(d) of that Act (12 U.S.C. 5216(d)), as amended by this subsection.

(ii) CONFORMING AMENDMENT.—Section 106(d) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5216(d)) is amended by inserting '', and repayments of obligations arising under this Act,'' after ''section 113''.

(5) INFLUENCE OF MANAGEMENT DECISIONS.—Title I of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5211 et seq.) is amended by adding at the end the following:

''SEC. 137. INFLUENCE OF MANAGEMENT DECISIONS.

''(a) DEFINITIONS.—For purposes of this section—

''(1) the term 'covered person' means any person who is an officer or employee (including a special Government employee (as defined in section 202(a) of title 18, United States Code)) of the executive branch of the United States (including any independent agency of the United States); and

''(2) the term 'significant management decision' includes the appointment of senior executives or board members, business strategies relating to production and manufacturing, plant closings, the relocation of the headquarters of an entity, the modification of labor contracts, and other financial decisions.

''(b) INFLUENCE PROHIBITED.—

''(1) IN GENERAL.—It shall be unlawful for any covered person to knowingly make, with the intent to influence, a communication regarding a significant management decision of a recipient of assistance under this title to any officer or employee of the recipient.

''(2) CRIMINAL PENALTY.—Any covered person who violates paragraph (1) shall be fined under title 18, United States Code, imprisoned for not more than 1 year, or both.

''(c) CIVIL ACTIONS.—

''(1) IN GENERAL.—The Attorney General of the United States may bring a civil action in an appropriate United States district court against any covered person to enforce subsection (b).

''(2) CIVIL PENALTY.—Any covered person who, upon proof by a preponderance of the evidence, violates subsection (b) shall be subject to a civil penalty of not more than $50,000 for each violation. The imposition of a civil penalty under this paragraph shall not preclude any other criminal or civil statutory, common law, or administrative remedy, which is available by law to the United States or any other person.

''(3) ORDERS.—If the Attorney General of the United States has reason to believe that a covered person is engaging in conduct that violates subsection (b), the Attorney General may petition an appropriate United States district court for an order prohibiting the covered person from engaging in the conduct. The court may issue an order prohibiting the covered person from engaging in the conduct if the court finds that the conduct constitutes a violation of subsection (b). The filing of a petition under this paragraph shall not preclude any other remedy which is available by law to the United States or any other person.''.

(6) FEDERAL DEPOSIT INSURANCE CORPORATION.—Nothing in this section may be construed to impede the ability of the Federal Deposit Insurance Corporation to maintain the stability of the banking system.

(c) OVERSIGHT BY FINANCIAL STABILITY OVERSIGHT BOARD.—Section 104(a) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5214(a)) is amended—

(1) in paragraph (2), by striking ''and'' at the end;

(2) in paragraph (3), by striking the semicolon at the end and inserting ''; and''; and

(3) by adding at the end the following:

''(4) reviewing the implementation of section 3 of the Government Ownership Exit Plan Act of 2009.''.

(d) REPORTS REQUIRED.—

(1) REPORT ON FEDERAL GOVERNMENT OWNERSHIP.—

(A) REPORTS REQUIRED.—The Secretary shall make (and shall publicly disclose) periodic reports detailing any ownership interest held by the Federal Government, including any loan or loan guarantee made by the Board of Governors of the Federal Reserve System.

(B) TIMING OF REPORTS.—The Secretary shall submit the reports under subparagraph (A)—

(i) not later than October 1, 2009; and

(ii) each quarter of the fiscal year thereafter.

(2) REPORTS ON WINDING DOWN OR DIVESTMENT.—

(A) REPORTS REQUIRED.—The Secretary shall submit to Congress periodic reports on the plans of the Secretary for compliance with this section, including any plans to wind down or divest an ownership interest.

(B) TIMING OF REPORTS.—The Secretary shall submit the reports under subparagraph (A)—

(i) not later than April 1, 2010; and

(ii) each month thereafter until all ownership interests are divested under subsection (b)(1)(B).

(e) PLAN FOR GOVERNMENT SPONSORED ENTERPRISES.—Not later than 90 days after the date of enactment of this section, the Secretary shall submit to Congress a report describing a plan of the Secretary—

(1) to end the conservatorship by the Federal Government of the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation; and

(2) to eliminate any form of direct ownership by the Federal Government of the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation.

SA 1344. Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table; as follows:

At the end of the bill, insert the following:

TITLE ____—STAR-SPANGLED BANNER AND WAR OF 1812 BICENTENNIAL COMMISSION ACT

SEC. __01. SHORT TITLE.

This title may be cited as the ''Star-Spangled Banner and War of 1812 Bicentennial Commission Act''.

SEC. __02. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) the War of 1812 served as a crucial test for the United States Constitution and the newly established democratic Government;

(2) vast regions of the new multi-party democracy, including the Chesapeake Bay, the Gulf of Mexico and the Niagara Frontier, were affected by the War of 1812 including the States of Alabama, Connecticut, Delaware, Florida, Georgia, Iowa, Illinois, Indiana, Kentucky, Louisiana, Massachusetts, Maryland, Maine, Michigan, Missouri, Mississippi, New Jersey, North Carolina, New Hampshire, New York, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, Vermont, Wisconsin, West Virginia, and the District of Columbia;

(3) the British occupation of American territory along the Great Lakes and in other regions, the burning of Washington, DC, the American victories at Fort McHenry, New Orleans, and Plattsburgh, among other battles, had far reaching effects on American society;

(4) at the Battle of Baltimore, Francis Scott Key wrote the poem that celebrated the flag and later was titled ''the Star-Spangled Banner'';

(5) the poem led to the establishment of the flag as an American icon and became the words of the national anthem of the United States in 1932; and

(6) it is in the national interest to provide for appropriate commemorative activities to maximize public understanding of the meaning of the War of 1812 in the history of the United States.

(b) PURPOSES.—The purposes of this title are to—

(1) establish the Star-Spangled Banner and War of 1812 Commemoration Commission;

(2) ensure a suitable national observance of the War of 1812 by complementing, cooperating with, and providing assistance to the programs and activities of the various States involved in the commemoration;

(3) encourage War of 1812 observances that provide an excellent visitor experience and beneficial interaction between visitors and the natural and cultural resources of the various War of 1812 sites;

(4) facilitate international involvement in the War of 1812 observances;

(5) support and facilitate marketing efforts for a commemorative coin, stamp, and related activities for the War of 1812 observances; and

(6) promote the protection of War of 1812 resources and assist in the appropriate development of heritage tourism and economic benefits to the United States.

SEC. __03. DEFINITIONS.

In this title:

(1) COMMEMORATION.—The term ''commemoration'' means the commemoration of the War of 1812.

(2) COMMISSION.—The term ''Commission'' means the Star-Spangled Banner and War of 1812 Bicentennial Commission established in section __04(a).

(3) QUALIFIED CITIZEN.—The term ''qualified citizen'' means a citizen of the United States with an interest in, support for, and expertise appropriate to the commemoration.

(4) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

(5) STATES.—The term ''States''—

(A) means the States of Alabama, Kentucky, Indiana, Louisiana, Maryland, Vermont, Virginia, New York, Maine, Michigan, Ohio, Pennsylvania, and Rhode Island; and

(B) includes agencies and entities of each State.

SEC. _04. STAR-SPANGLED BANNER AND WAR OF 1812 COMMEMORATION COMMISSION.

(a) IN GENERAL.—There is established a commission to be known as the ''Star-Spangled Banner and War of 1812 Bicentennial Commission''.

(b) MEMBERSHIP.—

(1) IN GENERAL.—The Commission shall be composed of 24 members, of whom—

(A) 13 members shall be qualified citizens appointed by the Secretary after consideration of nominations submitted by the Governors of Alabama, Kentucky, Indiana, Louisiana, Maine, Maryland, Michigan, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and Virginia;

(B) 3 members shall be qualified citizens appointed by the Secretary after consideration of nominations submitted by the Mayors of the District of Columbia, the City of Baltimore, and the City of New Orleans;

(C) 2 members shall be employees of the National Park Service, of whom—

(i) 1 shall be the Director of the National Park Service (or a designee); and

(ii) 1 shall be an employee of the National Park Service having experience relevant to the commemoration;

(D) 4 members shall be qualified citizens appointed by the Secretary with consideration of recommendations—

(i) 1 of which are submitted by the majority leader of the Senate;

(ii) 1 of which are submitted by the minority leader of the Senate;

(iii) 1 of which are submitted by the majority leader of the House of Representatives;

(iv) 1 of which are submitted by the minority leader of the House of Representatives; and

(E) 2 members shall be appointed by the Secretary from among individuals with expertise in the history of the War of 1812.

(2) DATE OF APPOINTMENTS.—The appointment of a member of the Commission shall be made not later than 120 days after the date of enactment of this Act.

(c) TERM; VACANCIES.—

(1) TERM.—A member shall be appointed for the life of the Commission.

(2) VACANCIES.—A vacancy on the Commission—

(A) shall not affect the powers of the Commission; and

(B) shall be filled in the same manner as the original appointment was made.

(d) VOTING.—

(1) IN GENERAL.—The Commission shall act only on an affirmative vote of a majority of the members of the Commission.

(2) QUORUM.—A majority of the members of the Commission shall constitute a quorum.

(e) CHAIRPERSON AND VICE CHAIRPERSON.—

(1) SELECTION.—The Commission shall select a chairperson and a vice chairperson from among the members of the Commission.

(2) ABSENCE OF CHAIRPERSON.—The vice chairperson shall act as chairperson in the absence of the chairperson.

(f) INITIAL MEETING.—Not later than 60 days after the date on which all members of the Commission have been appointed and funds have been provided, the Commission shall hold the initial meeting of the Commission.

(g) MEETINGS.—Not less than twice a year, the Commission shall meet at the call of the chairperson or a majority of the members of the Commission.

(h) REMOVAL.—Any member who fails to attend 3 successive meetings of the Commission or who otherwise fails to participate substantively in the work of the Commission may be removed by the Secretary and the vacancy shall be filled in the same manner as the original appointment was made. Members serve at the discretion of the Secretary.

SEC. _05. DUTIES.

(a) IN GENERAL.—The Commission shall—

(1) plan, encourage, develop, execute, and coordinate programs, observances, and activities commemorating the historic events that preceded and are associated with the War of 1812;

(2) facilitate the commemoration throughout the United States and internationally;

(3) coordinate the activities of the Commission with State commemoration commissions, the National Park Service, the Department of Defense, and other appropriate Federal agencies;

(4) encourage civic, patriotic, historical, educational, religious, economic, tourism, and other organizations throughout the United States to organize and participate in the commemoration to expand the understanding and appreciation of the significance of the War of 1812;

(5) provide technical assistance to States, localities, units of the National Park System, and nonprofit organizations to further the commemoration and commemorative events;

(6) coordinate and facilitate scholarly research on, publication about, and interpretation of the people and events associated with the War of 1812;

(7) design, develop, and provide for the maintenance of an exhibit that will travel throughout the United States during the commemoration period to interpret events of the War of 1812 for the educational benefit of the citizens of the United States;

(8) ensure that War of 1812 commemorations provide a lasting legacy and long-term public benefit leading to protection of the natural and cultural resources associated with the War of 1812; and

(9) examine and review essential facilities and infrastructure at War of 1812 sites and identify possible improvements that could be made to enhance and maximize visitor experience at the sites.

(b) STRATEGIC PLAN; ANNUAL PERFORMANCE PLANS.—The Commission shall prepare a strategic plan and annual performance plans for any activity carried out by the Commission under this Act.

(c) REPORTS.—

(1) ANNUAL REPORT.—The Commission shall submit to Congress an annual report that contains a list of each gift, bequest, or devise to the Commission with a value of more than $250, together with the identity of the donor of each gift, bequest, or devise.

(2) FINAL REPORT.—Not later than September 30, 2015, the Commission shall submit to the Secretary and Congress a final report that includes—

(A) a summary of the activities of the Commission;

(B) a final accounting of any funds received or expended by the Commission; and

(C) the final disposition of any historically significant items acquired by the Commission and other properties not previously reported.

SEC. _06. POWERS.

(a) IN GENERAL.—The Commission may—

(1) solicit, accept, use, and dispose of gifts or donations of money, services, and real and personal property related to the commemoration in accordance with Department of the Interior and National Park Service written standards for accepting gifts from outside sources;

(2) appoint such advisory committees as the Commission determines to be necessary to carry out this Act;

(3) authorize any member or employee of the Commission to take any action the Commission is authorized to take under this Act;

(4) use the United States mails in the same manner and under the same conditions as other agencies of the Federal Government; and

(5) make grants to communities, nonprofit, commemorative commissions or organizations, and research and scholarly organizations to develop programs and products to assist in researching, publishing, marketing, and distributing information relating to the commemoration.

(b) LEGAL AGREEMENTS.—

(1) IN GENERAL.—In carrying out this Act, the Commission may—

(A) procure supplies, services, and property; and

(B) make or enter into contracts, leases, or other legal agreements.

(2) LENGTH.—Any contract, lease, or other legal agreement made or entered into by the Commission shall not extend beyond the date of termination of the Commission.

(c) INFORMATION FROM FEDERAL AGENCIES.—

(1) IN GENERAL.—The Commission may secure directly from a Federal agency such information as the Commission considers necessary to carry out this Act.

(2) PROVISION OF INFORMATION.—On request of the Chairperson of the Commission, the head of the agency shall provide the information to the Commission in accordance with applicable laws.

(d) FACA NONAPPLICABILITY.—Section 14(b) of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Commission.

(e) NO EFFECT ON AUTHORITY.—Nothing in this title supersedes the authority of the States or the National Park Service concerning the commemoration.

SEC. _07. PERSONNEL MATTERS.

(a) MEMBERS OF THE COMMISSION.—

(1) IN GENERAL.—Except as provided in subsection (c)(1)(A), a member of the Commission shall serve without compensation.

(2) TRAVEL EXPENSES.—A member of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the Commission.

(3) STATUS.—A member of the Commission, who is not otherwise a Federal employee, shall be considered a Federal employee only for purposes of the provisions of law related to ethics, conflicts of interest, corruption, and any other criminal or civil statute or regulation governing the conduct of Federal employees.

(b) EXECUTIVE DIRECTOR AND OTHER STAFF.—

(1) IN GENERAL.—The Chairperson of the Commission may, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service and termination of employees (including regulations), appoint and terminate an executive director, subject to confirmation by the Commission, and appoint and terminate such other additional personnel as are necessary to enable the Commission to perform the duties of the Commission.

(2) STATUS.—The Executive Director and other staff appointed under this subsection

shall be considered Federal employees under section 2105 of title 5, United States Code, notwithstanding the requirements of such section.

(3) CONFIRMATION OF EXECUTIVE DIRECTOR.—The employment of an executive director shall be subject to confirmation by the Commission.

(4) COMPENSATION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the Chairperson of the Commission may fix the compensation of the executive director and other personnel without regard to the provisions of chapter 51 and subchapter III of chapter 53 of title 5, United States Code, relating to classification of positions and General Schedule pay rates.

(B) MAXIMUM RATE OF PAY.—The rate of basic pay for the executive director and other personnel shall not exceed the rate payable for level V of the Executive Schedule under section 5316 of title 5, United States Code.

(c) GOVERNMENT EMPLOYEES.—

(1) FEDERAL EMPLOYEES.—

(A) SERVICE ON COMMISSION.—A member of the Commission who is an officer or employee of the Federal Government shall serve without compensation in addition to the compensation received for the services of the member as an officer or employee of the Federal Government.

(B) DETAIL.—At the request of the Commission, the head of any Federal agency may detail, on a reimbursable or nonreimbursable basis, any of the personnel of the agency to the Commission to assist the Commission in carrying out the duties of the Commission under this Act.

(C) CIVIL SERVICE STATUS.—Notwithstanding any other provisions in this section, Federal employees who serve on the Commission, are detailed to the Commission, or otherwise provide services under the Act, shall continue to be Federal employees for the purpose of any law specific to Federal employees, without interruption or loss of civil service status or privilege.

(2) STATE EMPLOYEES.—The Commission may—

(A) accept the services of personnel detailed from States (including subdivisions of States) under subchapter VI of chapter 33 of title 5, United States Code; and

(B) reimburse States for services of detailed personnel.

(d) MEMBERS OF ADVISORY COMMITTEES.—Members of advisory committees appointed under section __06(a)(2)—

(1) shall not be considered employees of the Federal Government by reason of service on the committees for the purpose of any law specific to Federal employees, except for the purposes of chapter 11 of title 18, United States Code, relating to conflicts of interest; and

(2) may be paid travel expenses, including per diem in lieu of subsistence, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the committee.

(e) VOLUNTEER AND UNCOMPENSATED SERVICES.—Notwithstanding section 1342 of title 31, United States Code, the Commission may accept and use such voluntary and uncompensated services as the Commission determines necessary.

(f) SUPPORT SERVICES.—The Director of the National Park Service shall provide to the Commission, on a reimbursable basis, such administrative support services as the Commission may request.

(g) PROCUREMENT OF TEMPORARY AND INTERMITTENT SERVICES.—The Chairperson of the Commission may employ experts and consultants on a temporary or intermittent basis in accordance with section 3109(b) of title 5, United States Code, at rates for individuals that do not exceed the daily equivalent of the annual rate of basic pay prescribed for level V of the Executive Schedule under section 5316 of that title. Such personnel shall be considered Federal employees under section 2105 of title 5, United States Code, notwithstanding the requirements of such section.

SEC. __08. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to carry out this title not to exceed $500,000 for each of fiscal years 2010 through 2015.

(b) AVAILABILITY OF FUNDS.—Amounts appropriated under this section for any fiscal year shall remain available until December 31, 2015.

SEC. __09. TERMINATION OF COMMISSION.

(a) IN GENERAL.—The Commission shall terminate on December 31, 2015.

(b) TRANSFER OF MATERIALS.—Not later than the date of termination, the Commission shall transfer any documents, materials, books, manuscripts, miscellaneous printed matter, memorabilia, relics, exhibits, and any materials donated to the Commission that relate to the War of 1812, to Fort McHenry National Monument and Historic Shrine.

(c) DISPOSITION OF FUNDS.—Any funds held by the Commission on the date of termination shall be deposited in the general fund of the Treasury.

SA 1345. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table; as follows:

On page 26, after line 20, add the following:

SEC. 9. AUTOMOBILE DEALER ECONOMIC RIGHTS RESTORATION.

(a) FINDINGS.—Congress finds the following:

(1) Automobile dealers are an asset to automobile manufacturers that make it possible to serve communities and sell automobiles nationally.

(2) Forcing the closure of automobile dealers would have an especially devastating economic impact in rural communities, where dealers play an integral role in the community, provide essential services, and serve as a critical economic engine.

(3) The automobile manufacturers obtain the benefits from having a national dealer network at no material cost to the manufacturers.

(4) Historically, automobile dealers have had franchise agreement protections under State law.

(b) RESTORATION OF ECONOMIC RIGHTS.—

(1) IN GENERAL.—In order to protect assets of the Federal Government and better assure the viability of automobile manufacturers in which the Federal Government has an ownership interest, or to which it is a lender, an automobile manufacturer in which the Federal Government has an ownership interest, or which receives loans from the Federal Government, may not deprive an automobile dealer of its economic rights and shall honor those rights as they existed, for Chrysler LLC dealers, prior to the commencement of the bankruptcy case by Chrysler LLC on April 30, 2009, and for General Motors Corp. dealers, prior to the commencement of the bankruptcy case by General Motors Corp. on June 1, 2009, including the dealer's rights to recourse under State law.

(2) RESTORATION OF FRANCHISE AGREEMENTS.—In order to preserve economic rights pursuant to paragraph (1), at the request of an automobile dealer, an automobile manufacturer covered under this section shall restore the franchise agreement between that automobile dealer and Chrysler LLC or General Motors Corp. that was in effect prior to the commencement of their respective bankruptcy cases and take assignment of such agreements.

(3) CONSTRUCTION.—Except as set forth herein, nothing in this section shall be construed to make null and void—

(A) the court approved transfer of substantially all the assets of Chrysler LLC to New CarCo Acquisition LLC; or

(B) a transfer of substantially all the assets of General Motors Corp. that could be approved by a court after June 8, 2009.

SA 1346. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; which was ordered to lie on the table; as follows:

At the end of the bill, add the following:

SEC. 9. REQUIRED PARTICIPATION BY UNITED STATES CONTRACTORS.

Section 402(e) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (Public Law 104–208; 8 U.S.C. 1324a note) is amended—

(1) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(2) by inserting after paragraph (1) the following:

''(2) UNITED STATES CONTRACTORS.—Any person, employer, or other entity that enters into a contract with the Federal Government shall participate in the E-Verify Program and shall comply with the terms and conditions of such election.''.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. HARKIN. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on June 18, 2009 at 9:30 a.m., to conduct a hearing entitled ''The Administration's Proposal to Modernize the Financial Regulatory System.''

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE AND TRANSPORTATION

Mr. HARKIN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Thursday, June 18, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. HARKIN. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on Thursday, June 18, 2009 at 9:30 am in room 406 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. HARKIN. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet during the session of the Senate on Thursday, June 18, 2009, at 10 a.m., in room 325 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

Mr. HARKIN. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on Thursday, June 18, 2009, at 2:30 p.m., to conduct a hearing entitled ''Examining State Business Incorporation Practices: A Discussion of the Incorporation Transparency and Law Enforcement Assistance Act,'' S. 569.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. HARKIN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate, on Thursday, June 18, 2009, at 10 a.m., in SD–226 of the Dirksen Senate Office Building, to conduct an executive business meeting.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON SMALL BUSINESS AND ENTREPRENEURSHIP

Mr. HARKIN. Mr. President, I ask unanimous consent that the Committee on Small Business and Entrepreneurship be authorized to meet during the session of the Senate on Thursday, June 18, 2009, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. HARKIN. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on Thursday, June 18, 2009, at 2 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SURFACE TRANSPORTATION AND MERCHANT MARINE INFRASTRUCTURE, SAFETY, AND SECURITY

Mr. HARKIN. Mr. President, I ask unanimous consent that the Subcommittee on Surface Transportation and Merchant Marine Infrastructure, Safety, and Security of the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Thursday, June 18, 2009, at 2:30 p.m., in room 253 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

EMERGING THREATS AND CAPABILITIES SUBCOMMITTEE

Mr. HARKIN. Mr. President, I ask unanimous consent that the Emerging Threats and Capabilities Subcommittee of the Committee on Armed Services be authorized to meet during the session of the Senate on Thursday, June 18, 2009, at 2:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. HARKIN. Madam President, I ask unanimous consent that Caitlin Miller and Edwina Hambridge of my staff be granted floor privileges for the duration of today's session.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. INOUYE. Mr. President, I ask unanimous consent that Henry Williams and Jessica Martinez of Senator BINGAMAN's office be granted privileges of the floor during the debate of the travel promotion bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

RESTITUTION OF OR COMPENSATION FOR PROPERTY SEIZED DURING NAZI AND COMMUNIST ERAS

Mr. DORGAN. Mr. President, I ask unanimous consent the Senate proceed to the immediate consideration of Calendar No. 79, S. Res. 153.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 153) expressing the sense of the Senate on the restitution of or compensation for property seized during the Nazi and Communist eras.

There being no objection, the Senate proceeded to consider the resolution.

Mr. DORGAN. I ask the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid on the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 153) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 153

Whereas many Eastern European countries were dominated for parts of the last century by Nazi or Communist regimes, without the consent of their people;

Whereas victims under the Nazi regime included individuals persecuted or targeted for persecution by the Nazi or Nazi-allied governments based on their religious, ethnic, or cultural identity, as well as their political beliefs, sexual orientation, or disability;

Whereas the Nazi regime and the authoritarian and totalitarian regimes that emerged in Eastern Europe after World War II perpetuated the wrongful and unjust confiscation of property belonging to the victims of Nazi persecution, including real property, personal property, and financial assets;

Whereas communal and religious property was an early target of the Nazi regime and, by expropriating churches, synagogues and other community-controlled property, the Nazis denied religious communities the temporal facilities that held those communities together;

Whereas after World War II, Communist regimes expanded the systematic expropriation of communal and religious property in an effort to eliminate the influence of religion;

Whereas many insurance companies that issued policies in pre-World War II Eastern Europe were nationalized or had their subsidiary assets nationalized by Communist regimes;

Whereas such nationalized companies and those with nationalized subsidiaries have generally not paid the proceeds or compensation due on pre-war policies, because control of those companies or their Eastern European subsidiaries had passed to their respective governments;

Whereas Eastern European countries involved in these nationalizations have not participated in a compensation process for Holocaust-era insurance policies for victims of Nazi persecution;

Whereas the protection of and respect for private property rights is a basic principle for all democratic governments that operate according to the rule of law;

Whereas the rule of law and democratic norms require that the activity of governments and their administrative agencies be exercised in accordance with the laws passed by their parliaments or legislatures, and such laws themselves must be consistent with international human rights standards;

Whereas in July 2001, the Paris Declaration of the Organization for Security and Cooperation in Europe (OSCE) Parliamentary Assembly noted that the process of restitution, compensation, and material reparation of victims of Nazi persecution has not been pursued with the same degree of comprehensiveness by all of the OSCE participating states;

Whereas the OSCE participating states have agreed to achieve or maintain full recognition and protection of all types of property, including private property and the right to prompt, just, and effective compensation for private property that is taken for public use;

Whereas the OSCE Parliamentary Assembly has called on the participating states to ensure that they implement appropriate legislation to secure the restitution of or compensation for property losses of victims of Nazi persecution, including communal organizations and institutions, irrespective of the current citizenship or place of residence of the victims, their heirs, or the relevant successors to communal property;

Whereas Congress passed resolutions in the 104th and 105th Congresses that emphasized the longstanding support of the United

States for the restitution of or compensation for property wrongly confiscated during the Nazi and Communist eras;

Whereas certain post-Communist countries in Europe have taken steps toward compensating victims of Nazi persecution whose property was confiscated by the Nazis or their allies and collaborators during World War II or subsequently seized by Communist governments;

Whereas at the 1998 Washington Conference on Holocaust-Era Assets, 44 countries adopted the Principles on Nazi-Confiscated Art to guide the restitution of looted artwork and cultural property;

Whereas the Government of Lithuania has promised to adopt an effective legal framework to provide for the restitution of or compensation for wrongly confiscated communal property, but so far has not done so;

Whereas successive governments in Poland have promised to adopt an effective general property compensation law, but the current government has yet to adopt one;

Whereas the legislation providing for the restitution of or compensation for wrongly confiscated property in Europe has, in various instances, not always been implemented in an effective, transparent, and timely manner;

Whereas such legislation is of the utmost importance in returning or compensating property wrongfully seized by totalitarian or authoritarian governments to its rightful owners;

Whereas compensation and restitution programs can never bring back to Holocaust survivors what was taken from them, or in any way make up for their suffering; and

Whereas there are Holocaust survivors, now in the twilight of their lives, who are impoverished and in urgent need of assistance, lacking the resources to support basic needs, including adequate shelter, food, or medical care: Now, therefore, be it

Resolved, That the Senate—

(1) appreciates the efforts of those European countries that have enacted legislation for the restitution of or compensation for private, communal, and religious property wrongly confiscated during the Nazi or Communist eras, and urges each of those countries to ensure that the legislation is effectively and justly implemented;

(2) welcomes the efforts of many post-Communist countries to address the complex and difficult question of the status of confiscated properties, and urges those countries to ensure that their restitution or compensation programs are implemented in a timely, nondiscriminatory manner;

(3) urges the Government of Poland and the governments of other countries in Europe that have not already done so to immediately enact fair, comprehensive, non-discriminatory, and just legislation so that victims of Nazi persecution (or the heirs or successors of such persons) who had their private property looted and wrongly confiscated by the Nazis during World War II and subsequently seized by a Communist government are able to obtain either restitution of their property or, where restitution is not possible, fair compensation;

(4) urges the Government of Lithuania and the governments of other countries in Europe that have not already done so to immediately enact fair, comprehensive, non-discriminatory, and just legislation so that communities that had communal and religious property looted and wrongly confiscated by the Nazis during World War II and subsequently seized by a Communist government (or the relevant successors to such property or the relevant foundations) are able to obtain either restitution of their property or, where restitution is not possible, fair compensation;

(5) urges the countries of Europe which have not already done so to ensure that all such restitution and compensation legislation is established in accordance with principles of justice and provides a simple, transparent, and prompt process, so that it results in a tangible benefit to those surviving victims of Nazi persecution who suffered from the unjust confiscation of their property, many of whom are well into their senior years;

(6) calls on the President and the Secretary of State to engage in an open dialogue with leaders of those countries that have not already enacted such legislation to support the adoption of legislation requiring the fair, comprehensive, and nondiscriminatory restitution of or compensation for private, communal, and religious property that was seized and confiscated during the Nazi and Communist eras; and

(7) welcomes the decision by the Government of the Czech Republic to host in June 2009 an international conference for governments and non-governmental organizations to continue the work done at the 1998 Washington Conference on Holocaust-Era Assets, which will—

(A) address the issues of restitution of or compensation for real property, personal property (including art and cultural property), and financial assets wrongfully confiscated by the Nazis or their allies and collaborators and subsequently wrongfully confiscated by Communist regimes;

(B) review issues related to the opening of archives and the work of historical commissions, review progress made, and focus on the next steps required on these issues; and

(C) examine social welfare issues related to the needs of Holocaust survivors, and identify methods and resources to meet to such needs.

SUPPORTING GOALS AND OBJECTIVES OF PRAGUE CONFERENCE ON HOLOCAUST ERA ASSETS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 81, S. Con. Res. 23.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 23) supporting the goals and objectives of the Prague Conference on Holocaust Era Assets.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. DORGAN. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, with no intervening action or debate, and that any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (S. Con. Res. 23) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. CON. RES. 23

Whereas the Government of the Czech Republic will host the Conference on Holocaust Era Assets in Prague from June 26, 2009, through June 30, 2009 (in this preamble referred to as the ''Prague Conference'');

Whereas the Prague Conference will facilitate a review of the progress made since the 1998 Washington Conference on Holocaust Era Assets, in which 44 countries, 13 non-governmental organizations, and numerous scholars and Holocaust survivors participated;

Whereas a high-level United States delegation participated in the Washington Conference, led by then-Under Secretary of State for Economic, Business and Agricultural Affairs Stuart Eizenstat, Nobel Peace Laureate Elie Wiesel, Federal Judge Abner Mikva, senior diplomats, and a bipartisan group of Members of Congress;

Whereas then-Secretary of State Madeleine Albright delivered the keynote address at the Washington Conference, articulating the commitment of the United States to Holocaust survivors and urging conference participants to ''chart a course for finishing the job of returning or providing compensation for stolen Holocaust assets to survivors and the families of Holocaust victims'';

Whereas the Prague Conference is expected to review the issues agreed on at the Washington Conference, including issues relating to financial assets, bank accounts, insurance, and other financial properties;

Whereas the Prague Conference is expected to include a special session on social programs for Holocaust survivors and other victims of Nazi atrocities;

Whereas at the Prague Conference, working groups are expected to convene to discuss Holocaust education, remembrance and research, looted art, Judaica and Jewish cultural property, and immovable property, including both private, religious, and communal property;

Whereas the participation and leadership of the United States at the highest level is critically important to ensure a successful outcome of the Prague Conference;

Whereas Congress supports further inclusion of Holocaust survivors and their advocates in the planning and proceedings of the Prague Conference;

Whereas the United States strongly supports the immediate return of, or just compensation for, property that was illegally confiscated by Nazi and Communist regimes;

Whereas many Holocaust survivors lack the means for even the most basic necessities, including proper housing and health care;

Whereas the United States and the international community have a moral obligation to uphold and defend the dignity of Holocaust survivors and to ensure their well-being;

Whereas the Prague Conference is a critical forum for effectively addressing the increasing economic, social, housing, and health care needs of Holocaust survivors in their waning years;

Whereas then-Senator Barack Obama, during his visit in July 2008 to the Yad Vashem Holocaust Memorial in Israel, stated, ''Let our children come here and know this history so they can add their voices to proclaim 'never again.' And may we remember those who perished, not only as victims but also as individuals who hoped and loved and dreamed like us and who have become symbols of the human spirit.''; and

Whereas the Prague Conference may represent the last opportunity for the international community to address outstanding Holocaust-era issues: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) supports the goals and objectives of the 2009 Prague Conference on Holocaust Era Assets;

(2) applauds the Government of the Czech Republic for hosting the Prague Conference and for its unwavering commitment to addressing outstanding Holocaust-era issues;

(3) applauds the countries participating in the Prague Conference for the decision to seek justice for Holocaust survivors and to promote Holocaust remembrance and education;

(4) expresses strong support for the decision by those countries to make the economic, social, housing, and health care needs of Holocaust survivors a major focus of the Prague Conference, especially in light of the advanced age of the survivors, whose needs must be urgently addressed;

(5) urges countries in Central and Eastern Europe that have not already done so—

(A) to return to the rightful owner any property that was wrongfully confiscated or transferred to a non-Jewish individual; or

(B) if return of such property is no longer possible, to pay equitable compensation to the rightful owner in accordance with principles of justice and through an expeditious claims-driven administrative process that is just, transparent, and fair;

(6) urges all countries to make a priority of returning to Jewish communities any religious or communal property that was stolen as a result of the Holocaust;

(7) calls on all countries to facilitate the use of the Washington Conference Principles on Nazi-Confiscated Art, agreed to December 3, 1998, in settling all claims involving publically and privately held objects;

(8) calls on the President to send a high-level official, such as the Secretary of State or an appropriate designee, to represent the United States at the Prague Conference; and

(9) urges other invited countries to participate at a similarly high level.

SUPPORTING DEMOCRACY AND ECONOMIC DEVELOPMENT WITH MONGOLIA

Mr. DORGAN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 192, which was introduced earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 192) expressing the sense of the Senate regarding supporting democracy and economic development in Mongolia and expanding relations between the United States and Mongolia.

There being no objection, the Senate proceeded to consider the resolution.

Mr. DORGAN. I further ask that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, with no intervening action or debate, and that any statements relating to the measure be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 192) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 192

Whereas the United States Government established diplomatic relations with the Government of Mongolia in January 1987;

Whereas the Government of Mongolia declared an end to one-party Communist rule in 1990 and initiated democratic and free market reforms;

Whereas the United States Government has a continued commitment to ongoing economic and political reforms in Mongolia and has made sizeable contributions for that purpose since 1991;

Whereas, in 1991, the United States established Normal Trade Relations (NTR) status with Mongolia and began a Peace Corps program that now boasts over 100 volunteers and over 725 volunteers since its creation, and is one of the largest per capita Peace Corps programs worldwide;

Whereas the United States extended permanent NTR status effective July 1, 1999;

Whereas the United States has strongly supported the participation of Mongolia in the International Monetary Fund, the World Bank, the Asian Development Bank, and the European Bank for Reconstruction and Development, among other international organizations;

Whereas the United States and Mongolia enhanced their trade relationship through the signing of a Trade and Investment Framework Agreement in 2004 to boost bilateral commercial ties and amicably resolve disagreements over trade;

Whereas the Government of Mongolia continues to work with the United States Government to combat global terrorism and, from April 2003 to October 2008, sent 10 consecutive deployments to Operation Iraqi Freedom and 7 indirect fire technical training teams to Afghanistan;

Whereas the Government of Mongolia continues to demonstrate a growing desire to join the United States in global peacekeeping activities by providing an ongoing deployment of soldiers to protect the Special Court for Sierra Leone, as well as providing deployments in support of the North Atlantic Treaty Organization mission in Kosovo and United Nations missions in a number of countries in Africa;

Whereas the Government of Mongolia signed denuclearization agreements in 1991 and 1992, making Mongolia a nuclear weapons-free zone;

Whereas Mongolia was deemed eligible for Millennium Challenge Compact assistance on May 6, 2004, submitted its official proposal on October 13, 2005, received approval for its proposal from the Millennium Challenge Corporation on September 12, 2007, and signed a Millennium Challenge Corporation Compact Agreement on October 22, 2007, during a visit to the United States by then-Mongolian President Nambaryn Enkhbayar;

Whereas President George W. Bush became the first-ever sitting United States President to travel to Mongolia on November 21, 2005;

Whereas the House Democracy Assistance Commission began a program to provide parliamentary assistance to the State Great Hural, the parliament of Mongolia, in 2007;

Whereas Senate Resolution 352, 110th Congress, agreed to October 18, 2007, expressed the sense of the Senate on ''the strength and endurance'' of the partnership between the United States and Mongolia during the 20th anniversary of relations between the two countries;

Whereas the United States and Mongolia signed an agreement to increase cooperation in preventing trafficking in nuclear technology on October 23, 2007;

Whereas, during the October 2007 visit by then-President Enkhbayar to Washington, DC, the United States and Mongolia agreed to a Declaration of Principles for further cooperation between both countries, including a commitment to expanded development and long-term cooperation in political, economic, trade, investment, educational, cultural, arts, scientific and technological, defense, security, humanitarian, and other areas;

Whereas the people of Mongolia completed a free, fair, and peaceful democratic election on May 24, 2009, which resulted in the election of opposition Democratic Party candidate Tsakhiagiin Elbegdorj;

Whereas Secretary of State Hillary Clinton announced on June 9, 2009, with the Minister for Foreign Affairs and Trade of Mongolia, S. Batbold, that the United States is ''committed to supporting the government and people of Mongolia as they seek assistance to develop, as they continue their democratization, and as they reach out to the rest of the world''; and

Whereas the United States Government and the Government of Mongolia share a common interest in promoting peaceful cooperation in Northeast Asia and Central Asia: Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) the growing partnership between the democratic governments and peoples of the United States and Mongolia deserves acknowledgment and celebration;

(2) the democratic election and peaceful transition of power in Mongolia is an important demonstration of the continuing commitment in that country to democratic reform and represents a significant achievement for that young democracy;

(3) the United States Government encourages further economic cooperation with the Government of Mongolia, including, as appropriate, enhanced trade and investment to promote prosperity for both of our economies;

(4) the United States Government should continue to work with the International Monetary Fund, the World Bank, the Asian Development Bank, and the European Bank for Reconstruction and Development to assist the Government of Mongolia in improving its economic system and accelerating development;

(5) the United States Government should continue to provide Mongolia assistance under the Millennium Challenge Compact and encourage further effective and accountable governance; and

(6) the United States Government should expand upon existing academic, cultural, and other people-to-people exchanges with Mongolia.

ORDERS FOR FRIDAY, JUNE 19, 2009

Mr. DORGAN. I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. tomorrow, Friday, June 19; that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, and the time for the two leaders be reserved for their use later in

the day, and there be a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. DORGAN. Mr. President, there will be no rollcall votes during tomorrow's session of the Senate.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. DORGAN. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 6:53 p.m., adjourned until Friday, June 19, 2009, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate:

DEPARTMENT OF AGRICULTURE

EDWARD M. AVALOS, OF NEW MEXICO, TO BE UNDER SECRETARY OF AGRICULTURE FOR MARKETING AND REGULATORY PROGRAMS, VICE BRUCE I. KNIGHT, RESIGNED.

JUAN M. GARCIA III, OF TEXAS, TO BE AN ASSISTANT SECRETARY OF THE NAVY, VICE WILLIAM A. NAVAS, JR., RESIGNED.

IN THE AIR FORCE

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES AIR FORCE TO THE GRADE INDICATED WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, U.S.C., SECTION 601:

To be lieutenant general

LT. GEN. PHILIP M. BREEDLOVE

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES AIR FORCE TO THE GRADE INDICATED UNDER TITLE 10, U.S.C., SECTION 624:

To be major general

BRIG. GEN. RONNIE D. HAWKINS, JR.

IN THE ARMY

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES ARMY TO THE GRADE INDICATED WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, U.S.C., SECTION 601:

To be lieutenant general

MAJ. GEN. MICHAEL D. BARBERO

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES ARMY TO THE GRADE INDICATED WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, U.S.C., SECTION 601:

To be lieutenant general

LT. GEN. RICKY LYNCH

HOUSE OF REPRESENTATIVES—*Thursday, June 18, 2009*

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. ALTMIRE).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
June 18, 2009.

I hereby appoint the Honorable JASON ALTMIRE to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

PRAYER

Rabbi Solomon Schiff, Greater Miami Jewish Federation, Miami Beach, Florida, offered the following prayer:

Heavenly Creator, bestow Thy blessings upon those assembled here, who have accepted the sacred responsibility to legislate within these hallowed Halls, to preserve and foster the noble ideals of our sanctified democracy.

Grant that these deliberations will be ruled by wisdom, purpose, and dedication. The Prophet Malachai said, ''Have we not all one Father? Hath not one God created us all? Why do we deal treacherously, every man against his brother?''

Help us, O God, to eradicate anger, hunger and bigotry from our human family. Imbue us with the commitment to sow the seeds that will turn selfishness into civility, hatred into harmony, loathing into love, and bigotry into blessing. Help us always to work for the lost, the least, the last and the lonely.

May we remain committed to work with renewed energy to elevate the status and dignity of all of Thy children, so that all can enjoy the blessings and benefits of our bountiful society. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. The Pledge of Allegiance will be led by the gentleman from Texas (Mr. POE).

Mr. POE of Texas led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

HONORING RABBI SOLOMON SCHIFF

The SPEAKER pro tempore. Without objection, the gentlewoman from Florida (Ms. ROS-LEHTINEN) is recognized for 1 minute.

There was no objection.

Ms. ROS-LEHTINEN. Mr. Speaker, I rise to commend my good friend, Rabbi Solomon Schiff, for the uplifting prayer that he delivered for all of us today, as well as for his tireless effort to strengthen our religious communities in my home district of south Florida.

Rabbi Schiff serves as the Director of Chaplaincy Emeritus for the Greater Miami Jewish Federation. In this role, Rabbi Schiff offers educational support and comfort to those in the Jewish communities in the United States, in Israel, and indeed throughout the world.

I have long been aware of Rabbi Schiff's commitment and contributions to academia, to the Jewish community, and to the social welfare of all residents of south Florida.

The spirit of optimism and determination that Rabbi Schiff possesses can be seen in this week's Torah portion. After returning from the Land of Israel, Caleb reports to the Jewish people that ''we should surely go up, and inherit the land; for we are certainly able.''

Rabbi Schiff's hard work on behalf of the Jewish community has been tireless and always with contagious optimism. No task is too large and no cause is without merit.

But his greatest achievement is his family, including his lovely wife, Shirley, and his three adult sons: Elliott, his wife, Alisa, and their children, Michael and Brooke; Jeffrey, his wife, Risa, and their children, Chananya, Moshe and Noah; and Steven, his wife, Jacqueline, and their children, Jennifer and Jeremy.

The opening prayer Rabbi Schiff presented today reflects his intellectual fiber, as well as his determination to improve our community and our country.

I thank Rabbi Schiff for his invocation and look forward to working with him in the years ahead.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 10 further requests for 1-minute speeches on each side of the aisle.

PROVIDING STATUTORY PAYGO RULES

(Ms. TSONGAS asked and was given permission to address the House for 1 minute.)

Ms. TSONGAS. Mr. Speaker, no one was more passionate about the dangers of an exploding national debt than my late husband, Senator Paul Tsongas, who made it a central focus of his 1992 campaign for President.

During the years of the Clinton administration, fiscal responsibility prevailed and the debt clock started to roll back. But we have seen a stark reversal of that success, with spending on two wars, tax cuts for the wealthy and a massive new entitlement program, none of it paid for.

As a member of the Budget Committee, I was proud to cosponsor legislation this week that would re-institute statutory pay-as-you-go rules. PAYGO is not an untested theory, but a commonsense tool with a proven track record that requires us in Washington to make tough choices. Throughout the 1990s, it paved the way for balanced budgets and responsible government, and it can do it again.

As we tackle two of the most important issues of our time, energy and health care reform, it is critical that we enact PAYGO rules that signal to our creditors that we are finally serious. We have a responsibility to pay for what we do.

EXPAND CHOICE AND OPPORTUNITY IN HEALTH CARE

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, Democrats tell the American people that only government can save America's health care system. I am not sure what gives them assurances that big government is uniquely qualified to raise the level of health care in this Nation, or any nation for that matter.

Nevertheless, Republicans are not giving up on the American people's right and ability to decide for themselves what level of quality they desire. We believe in a commonsense set of

health care reforms that ensures accessibility, protects the doctor-patient relationship, and promotes healthy lifestyles.

The American people do not need big government. They need more freedom and opportunity to make the choices that will promote their health and well-being. Our set of reforms will expand that freedom to Americans who have not had affordable health care, while preserving the quality of health care millions of Americans currently enjoy.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

GEOGRAPHIC DISPARITIES

(Mr. WALZ asked and was given permission to address the House for 1 minute.)

Mr. WALZ. Mr. Speaker, reforming Medicare payment formulas that pay for quality and value is one of the changes that must be part of any discussion on health care reform.

The Congressional Budget Office recognizes the problem with Medicare paying physicians on a simple fee-for-service schedule, regardless of the quality of care they provide. This means that we pay doctors for doing more tests and more treatments, instead of paying for the right tests and right treatments.

In my home district, the Mayo Clinic is a model practice of providing high-quality care at low prices. But because of the way Medicare payments are figured today, the Mayo Clinic and others like them are penalized.

If we are to truly reform our health care system, we must reward those that save money and, at the same time, provide the highest quality care. This can be done by creating a value index within the formula in computing Medicare physician fees.

I urge my colleagues to support it.

GOVERNMENT CLOSES HISTORIC TEXAS DEALERSHIPS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, when government, without the consent of the people, takes control over independent businesses, it is an oppressive regime. The unelected, unaccountable auto task force gang continues to pick winners and losers in car dealership closings. And they aren't telling why they are closing some dealers and not others. They don't have to. They are the government.

In Houston, Todd and Bob Archer of Archer Chrysler have been ordered by these Supremes to close all three of their Chrysler dealerships. Archer has been in business for over 50 years. This historic motor company has a payroll of $9 million a year and pays annual taxes of $6 million a year.

Now, how does shutting down this business help anyone? Certainly not the 250 workers who now join the over 150,000 summarily fired by the administration. These profitable dealerships are not the reason Chrysler of Detroit is a failed state.

These auto task force bureaucrats need to be given the pink slip. This country is great for two reasons: Personal liberty and economic liberty. We did not become great because of government control over our lives and our businesses. Yet the oppression continues.

And that's just the way it is.

SUPPORT FULL FUNDING FOR THE STATE CRIMINAL ALIEN ASSISTANCE PROGRAM

(Mr. HALL of New York asked and was given permission to address the House for 1 minute.)

Mr. HALL of New York. Mr. Speaker, I rise today in strong support of full funding for the State Criminal Alien Assistance Program, or SCAAP. I am pleased that the House has rejected calls to eliminate this program. I hope the Senate will do the same because in these difficult economic times it is more important than ever for the Federal Government, not local taxpayers, to pay when illegal immigrants are detained.

Last year, the five counties I represent in New York's Hudson Valley received more than $1.2 million in Federal reimbursement for costs associated with detaining undocumented aliens, funding that is essential for local law enforcement to keep our communities safe.

SCAAP requires the Federal Government to step up to its responsibilities and foot the bill for its failure to enforce our immigration laws. We must continue to support this vital public safety and taxpayer protection program.

WE SHOULD SUPPORT THE IRANIAN PEOPLE'S RIGHT TO PROTEST

(Mr. FLEMING asked and was given permission to address the House for 1 minute.)

Mr. FLEMING. Mr. Speaker, recently elections were held in Iran with the Iranian Government declaring Ahmadinejad the landslide winner over pro-reform challenger Mr. Mousavi.

Mousavi is claiming the results of these elections should be voided because of fraud and other irregularities as people went to vote. He is calling upon his supporters to remain vocal and protest the results of this election, and they are turning out in the tens of thousands, but many have been killed. In response, President Ahmadinejad has tried to minimize anyone with an opposing viewpoint, physically threatening any form of dissent and shutting out the media and communications.

The accusations of voter irregularities must be investigated, a fact supported by Vice President BIDEN. But until this election is certified, the people of Iran should be supported in their pursuit of peaceful protests, if they so choose. Also, dissidents should be allowed to protest without violence against them.

More importantly, I call upon our President to not be timid, but to speak out firmly on this subject. Either it is a democracy with a legitimate government, or it is a tyrannical dictatorship.

COMPREHENSIVE HEALTH CARE REFORM NEEDED

(Ms. EDWARDS of Maryland asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. EDWARDS of Maryland. Mr. Speaker, I rise today to speak about the urgent need for health care reform. Comprehensive health care reform is about addressing what I call the three C's; care, cost and continuity.

Americans deserve affordable, high-quality and portable care. Some of our parents may have worked one job and had the same insurance plan for 40 years, but that is not how we lead our lives now. We may have 7 to 10 jobs over the course of our lifetime, and health care reform has to reflect the way that people lead their lives.

People shouldn't feel trapped in a job because they are afraid to lose health care coverage for themselves or their child, and no life decision should hinge on whether you have health insurance.

Health care reform is about expanding coverage, creating competition and meaningful choice. And right here in Congress we are working to create a uniquely American system of health care that provides for affordable, high-quality care to all Americans.

You have seen firsthand why we need reform of the health care system, and you know that we have to lower costs and cover all Americans. The cost of this Congress doing nothing to reform the current health care system is catastrophic, and the status quo is unsustainable. I cannot stress enough the urgent need for health care reform.

□ 1015

VIETNAM CONTINUES TO EGREGIOUSLY VIOLATE HUMAN RIGHTS

(Mr. CAO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CAO. Mr. Speaker, the U.S. Ambassador to Vietnam recently held that

the Socialist Republic of Vietnam need not be put back onto the CPC because, based on his views, Vietnam has made sufficient improvement to its human rights policies to warrant exclusion. But recent developments show how wrong the Ambassador is.

Not to mention Vietnam's other numerous human rights violations, just days ago the Vietnam Government arrested Mr. Le Cong Dinh, a prominent lawyer in Vietnam, for openly defending human rights. Vietnam's arrest of Mr. Dinh contradicts its own alleged commitment to internationally accepted criteria on human rights.

Today I call upon the Members of this body to urge Vietnam to release Mr. Dinh immediately and unconditionally, as well as all prisoners in detention, for peacefully expressing their views. His immediate release will be a significant step in affirming Vietnam's intention to respect the rule of law.

HEALTH CARE REFORM

(Mr. COURTNEY asked and was given permission to address the House for 1 minute.)

Mr. COURTNEY. Mr. Speaker, as our country embarks on a great national debate about health care, we are already seeing the fear-mongering beginning, that people are going to lose their health insurance.

Let us be very clear. As President Obama says, if you have health insurance and a doctor, if you like your health insurance and your doctor, you will keep your health insurance and your doctor. And there is no group for which that is more true than our military personnel and our veterans.

Recently, at the Groton Navy base, I was at the PX being approached by individuals asking if President Obama was going to take away their TRICARE and their veterans benefits. Nothing could be further from the truth. In fact, we are going to be strengthening veterans benefits and TRICARE under the great leadership of the VA Secretary, Eric Shinseki.

So let the message be clear. Before all the fear-mongering, and before all the misleading information begins, if you are serving our country, if you are wearing the uniform of our Nation, your health care will be protected and strengthened under President Obama's health care reform effort.

REAL HEALTH CARE REFORM GIVES THE PATIENT THE POWER

(Mr. CASSIDY asked and was given permission to address the House for 1 minute.)

Mr. CASSIDY. Mr. Speaker, critical to health care reform is who has the power. Currently, the payer has the power. Ask a Medicaid recipient if she has the power or the government agency which pays. Ask a patient denied a procedure if he has the power or the insurance company which pays.

Reform must fix what's broken. What's broken is who has the power. Real reform gives the patient the power.

Government already controls 50 percent of health care spending. By controlling dollars, bureaucrats control care.

The President's plan doubles down on government control. It doubles down what is broken. It invests in government, not in patients. How can we trust bureaucracies that broke health care to fix health care? Trust government that always overpromised and underfunded?

Until reform transfers power from payer to patient, there is no reform. Give the power to the patient.

NOW IS THE TIME TO ACT ON HEALTH CARE REFORM

(Mr. SIRES asked and was given permission to address the House for 1 minute.)

Mr. SIRES. Mr. Speaker, every day my constituents share with me their personal stories. I often hear about their passport or mortgage troubles. But perhaps more than any other concern, they tell me of their family's struggle to stay healthy or to get treatment when they become sick without health insurance.

They tell me how they have worked all their lives, only to lose their retirement savings when they need serious medical treatment.

These stories are unacceptable, just as it is unacceptable that one in five Americans are uninsured. Now is the time to act. For each day we delay, an additional 14,000 Americans lose coverage.

There are four items that must be included in the final legislation to fix our health care system. First, we must ensure coverage so that everyone has access to health insurance. Second, we must improve the quality of care. Third, we must contain costs while investing in preventative care. And finally, individuals must be guaranteed their choice of health insurance plans and doctors. If we can pass a bill that incorporates these four principles, we will have made a real and lasting impact on the lives of people.

A DRACONIAN CUT

(Mr. ROE of Tennessee asked and was given permission to address the House for 1 minute.)

Mr. ROE of Tennessee. Mr. Speaker, yesterday on the House floor, I offered an amendment to fully fund President Obama's budget request for the Federal prison system, and it was called a ''draconian cut.'' I'm sure President Obama would be surprised to learn his recommended level would be greeted by such hostility by his own party, considering he proposed spending $384 million more in fiscal year 2009, an increase of 6.8 percent.

Only in Washington, DC, is a 6.8 percent increase called a ''draconian cut.''

Back in Johnson City, where I was mayor, we had a very simple philosophy. We spent less than we took in.

When I arrived in Washington, DC, I learned the President's philosophy was to borrow more than you take in and then spend all of that. Apparently, congressional Democratic philosophy is borrow even more than the President and then spend that.

I hope it's apparent that we are addicted to spending. I hope we adopt my amendment today and send a message, a small message, that this Congress is not entirely tone deaf to the fact that we have record deficits and runaway spending.

THE RECOVERY ACT IS WORKING

(Mr. PERLMUTTER asked and was given permission to address the House for 1 minute.)

Mr. PERLMUTTER. Mr. Speaker, in just over 100 days, the Recovery Act is already at work providing immediate relief for hard-hit communities and families, creating and saving jobs, and jump-starting thousands of shovel-ready projects all across America.

Our economic problems were not created in 100 days and they will not be saved in 100 days. But thanks to the Recovery Act, we are meeting the greatest economic challenges in at least a generation.

There are early signs of progress across the country. For instance, the $8,000 first time home buyer tax credit has helped get the housing industry back in shape.

There will be work on 1,129 health centers in all 50 States. We'll begin work on 107 national parks. We're going to start rehabilitation and improvement projects at 98 airports, and over 1,500 transportation projects. There will be 135,000 education jobs, improvements on 90 veterans hospitals and medical centers. Throughout the country, the Recovery Act is working.

2010 CENSUS

(Mr. SMITH of Nebraska asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Nebraska. Mr. Speaker, the 2010 census will mark the 23rd census in our Nation's history. Although the manner in which the data is collected has evolved over time, an accurate count of our country's residents remains essential to the future of rural communities.

As competition increases for both government and private resources, it is imperative every rural American be

counted during the 2010 census. In rural communities especially, door-to-door counting often proves difficult and time-consuming and can result in undercounting, which, in turn, means rural areas get left out.

It is important census funds are used as effectively as possible to ensure outreach into rural areas. This isn't a case of rural versus urban, but it's a chance for those of us in rural America to stand up and be counted.

THE CIA SHOULD RIGHT THE WRONGS OF THE PAST

(Mr. MORAN of Virginia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MORAN of Virginia. Mr. Speaker, this week, The New Yorker's Jane Mayer, reported on the CIA's abduction, rendition and torturing of an innocent man.

A businessman named Khaled al-Masri, was abducted in one country, renditioned to another, where he was stripped naked and chained and given putrid water to drink.

A number of CIA officials believed from the beginning that he was innocent, but his CIA supervisor, who has since been promoted twice, overruled them. Finally, 149 days later, they went over the supervisor's head, insisting that his innocence be acknowledged, and got him released.

Another CIA captive froze to death, chained to a concrete floor and was buried in an unmarked grave.

Mr. Speaker, as Director Panetta tries to restore the agency's reputation, it is necessary that he not only acknowledge the wrongs of the past, but that he not promote those who committed them.

THE MOST FISCALLY WASTEFUL CONGRESS EVER

(Mr. DUNCAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DUNCAN. Mr. Speaker, in a few minutes we will begin voting on 26 amendments to the Commerce-Justice-Science Appropriations bill, but the overriding problem is that this bill is a 12 percent increase to $65 billion.

At a time when families and small businesses all over this country have been tightening their spending, at a time when foreclosures and bankruptcies are still at record levels, the Federal Government keeps going on its merry way, spending like we have just boocous of cash.

All this comes after the $787 billion stimulus bill which the Washington Post said was a ''massive financial windfall'' for Federal agencies. A 12 percent increase in times of 3 percent inflation, when our national debt is now over $13 trillion, is just ridiculous.

We would not be having all these problems if we'd had fiscally conservative Congresses for the last 45 years. Now we seem to have the most fiscally wasteful Congress we have ever had.

SPECULATORS ARE DRIVING UP THE PRICE OF OIL

(Mr. PERRIELLO asked and was given permission to address the House for 1 minute.)

Mr. PERRIELLO. Mr. Speaker, I rise on behalf of consumers facing rising prices at the pump. How is it that demand for oil can drop, supply can rise, and yet costs can increase? This defies the rules of the free market.

And the answer is the speculators who continue to drive up the price of oil.

We hear talk here about protecting consumers, but I'm sick of seeing crocodile tears shed for consumers that are filling up the swimming pools of our speculators.

We hear an energy plan, particularly from the other side of the aisle, that has no long game, no short game, and no medium game. It's like taking our country into the U.S. Open with no short game on the greens, no long game for the tees, and trying to get out of the rough with a putter.

It's time that we have the courage to protect consumers immediately by going after the speculators and developing a real energy policy that is in keeping with the courage of this country, the innovation of our private sector, and the desire to step up as each generation to the challenge at hand.

HEALTH CARE REFORM AND THE ROLE OF CONGRESS

(Mr. TIM MURPHY of Pennsylvania asked and was given permission to address the House for 1 minute.)

Mr. TIM MURPHY of Pennsylvania. Mr. Speaker, think if the government runs all health care it will be easy for your doctor to make decisions to get you the right care at the best price? Well, Congress doesn't think so.

In the 110th Congress, 452 separate bills were introduced to fix problems of Medicaid and Medicare.

What if your doctor prescribes home care rather than send you to a nursing home at three times the cost? It takes an act of Congress to change the rules.

Screening for glaucoma? Well, it depends on who you are. Otherwise, ask Congress to change the law.

Maybe you have multiple sclerosis that prevents you from working and you cannot afford the medication. You have to wait 2 years to qualify for help, unless Congress changes the law.

When less than one in four Americans think Congress is doing a great job, should Congress really be in charge of your health insurance?

Let's fix the problems. Focus on value not volume, quality not quantity, and stop wasting hundreds of billions of health care dollars.

There should be no bureaucracy between you and your doctor. Reform, yes. Oversight, yes. Accountability, transparency, absolutely. But becoming an insurance company, let's think about it.

SOMETHING IS HAPPENING IN IRAN

(Mrs. MALONEY asked and was given permission to address the House for 1 minute.)

Mrs. MALONEY. Mr. Speaker, I would like to echo what President Obama said the other day. Something is happening in Iran, and it is something remarkable and inspiring.

Thanks to Iranian citizen journalists and technological innovations and communications, the entire world has seen the pictures from Iran of those who are giving their lives in the cause of freedom and democracy. The pictures show hundreds of thousands of people, men in green, women in chadors, young and old, rich and poor, taking to the streets in unity in peaceful protest. They have used the universal human right to peacefully assemble and to seek redress of grievances in the full knowledge it may cost them their lives.

They go out today in mourning for the scores of victims of shameful acts of repression. Their determination and bravery have the whole world watching, waiting and inspired, and hoping that Iranian authorities, with the support of the ayatollahs, will do the right thing.

□ 1030

ABC SHOULD AIR BOTH SIDES OF HEALTH CARE DEBATE

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, next Wednesday, those tuning in to ABC for news coverage instead will see an extended commercial for President Obama and for his government-run health care system.

According to ABC, the network will feature the President's health care agenda during its morning, evening and prime time news programs, as well as on its Web site. The finale will be a health care townhall meeting with President Obama that will be broadcast directly from the White House.

ABC should present both sides of the health care debate, not just the administration's side. Unfortunately, ABC has announced no plans to devote time to an opposing viewpoint. In fact, they have refused to air ads critical of the administration's health care plan. It is this kind of biased news programming

that has caused Americans to lose faith in the national media.

COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

The SPEAKER pro tempore (Mr. PERLMUTTER). Pursuant to House Resolution 552 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the further consideration of the bill, H.R. 2847.

□ 1031

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 2847) making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes, with Mr. ALTMIRE in the chair.

The Clerk read the title of the bill.

The CHAIR. When the Committee of the Whole House rose on Wednesday, June 17, 2009, a request for a recorded vote on amendment No. 84, offered by the gentleman from Arizona (Mr. FLAKE) had been postponed, and the bill had been read through page 101, line 20.

Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments on which further proceedings were postponed, in the following order:

Amendment No. 25 by Mr. ROE of Tennessee.

Amendment No. 31 by Mr. NADLER of New York.

Amendment No. 35 by Ms. EDDIE BERNICE JOHNSON of Texas.

Amendment No. 6 by Mr. HENSARLING of Texas.

Amendment No. 118 by Mr. LEWIS of California.

Amendment No. 69 by Mr. TIAHRT of Kansas.

Amendment No. 102 by Mr. CUELLAR of Texas.

Amendment No. 96 by Mr. PRICE of Georgia.

Amendment No. 98 by Mr. HODES of New Hampshire.

Amendment No. 63 by Mr. NUNES of California.

Amendment No. 111 by Mrs. BLACKBURN of Tennessee.

Amendment No. 71 by Mr. BURTON of Indiana.

Amendment No. 97 by Mr. PRICE of Georgia.

Amendment No. 100 by Mr. JORDAN of Ohio.

Amendment No. 114 by Mr. REICHERT of Washington.

Amendment No. 59 by Mr. BROUN of Georgia.

Amendment No. 79 by Mr. HENSARLING of Texas.

Amendment No. 76 by Mr. HENSARLING of Texas.

Amendment No. 105 by Mr. CAMPBELL of California.

Amendment No. 104 by Mr. CAMPBELL of California.

Amendment No. 107 by Mr. CAMPBELL of California.

Amendment No. 87 by Mr. FLAKE of Arizona.

Amendment No. 86 by Mr. FLAKE of Arizona.

Amendment No. 85 by Mr. FLAKE of Arizona.

Amendment No. 91 by Mr. FLAKE of Arizona.

Amendment No. 84 by Mr. FLAKE of Arizona.

The Chair will reduce to 5 minutes the time for any electronic vote after the first vote in this series.

AMENDMENT NO. 25 OFFERED BY MR. ROE OF TENNESSEE

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Tennessee (Mr. ROE) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 25 offered by Mr. ROE of Tennessee:

Page 38, line 13, after the dollar amount, insert ''(reduced by $97,400,000)''.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 140, noes 283, not voting 16, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There are 2 minutes remaining in the vote.

□ 1101

Ms. FUDGE, Messrs. HOLDEN, SHUSTER, Ms. RICHARDSON, Messrs. LUCAS, BRADY of Pennsylvania, Ms. CLARKE, Messrs. BOCCIERI, ORTIZ, FARR, HALL of New York, SCHAUER, BECERRA, CARDOZA, Ms. WASSERMAN SCHULTZ, Ms. KILROY, Mr. FORBES, Ms. WOOLSEY, Mr. MARSHALL, Ms. KOSMAS, Mr. DOGGETT, Ms. SPEIER, Mr. REICHERT, Mrs. MYRICK, Mr. SHULER, Ms. FALLIN, Mrs. BONO MACK, Messrs. CLAY and TURNER changed their vote from ''aye'' to ''no.''

Messrs. GARRETT of New Jersey, BARRETT of South Carolina, BILIRAKIS, Ms. GINNY BROWN-WAITE of Florida, Messrs. WHITFIELD, POE of Texas, SCALISE, and LATTA changed their vote from ''no'' to ''aye.''

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENT NO. 31 OFFERED BY MR. NADLER OF NEW YORK

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from New York (Mr. NADLER) on which further proceedings were postponed and on which the ayes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 31 offered by Mr. NADLER of New York:

Page 45, line 1, after the dollar amount, insert ''(reduced by $5,000,000)''.

Page 45, line 4, after the dollar amount, insert ''(reduced by $5,000,000)''.

Page 45, line 13, after the dollar amount, insert ''(reduced by $5,000,000)''.

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There is 1 minute remaining on this vote.

□ 1114

So the amendment was agreed to.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Ms. SLAUGHTER. Mr. Chair, I was unavoidably detained because I was meeting with the South Korean Ambassador and missed rollcall votes 357 and 358. Had I been present, I would have voted ''aye'' on rollcall No. 357 and ''aye'' on rollcall No. 358.

AMENDMENT NO. 6 OFFERED BY MR. HENSARLING

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Texas (Mr. HENSARLING) on which further proceedings were postponed and on which the ayes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 6 offered by Mr. HENSARLING:

In title IV, strike the heading ''Legal Services Corporation'' and both paragraphs under that heading including their subheadings.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 105, noes 323, not voting 11, as follows:

[Roll No. 359]

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There are 2 minutes remaining in the vote.

□ 1130

Ms. WASSERMAN SCHULTZ changed her vote from ''aye'' to ''no.''

So the amendment was rejected.

The result of the vote was announced as above recorded.

□ 1130

The CHAIR. Pursuant to clause 6(h) of rule XVIII, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. HOLDEN) having assumed the chair, Mr. ALTMIRE, Chair of the Committee of the Whole House on the State of the Union, reported to the House that during consideration of the bill (H.R. 2847) making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes, pursuant to House Resolution 552, the votes cast by the Delegates and the Resident Commissioner were decisive on a recorded vote on the amendment offered by the gentleman from California (Mr. LEWIS).

PARLIAMENTARY INQUIRY

Mr. PRICE of Georgia. Parliamentary inquiry, Mr. Speaker.

The SPEAKER pro tempore. The gentleman will state his inquiry.

Mr. PRICE of Georgia. Mr. Speaker, my understanding is that because the vote in the Committee of the Whole was within the margin of the number of Delegates that there are in the House, the Committee has now risen and we're in the Whole House and the vote that we are about to have will be the same amendment; is that correct?

The SPEAKER pro tempore. The gentleman is correct.

Mr. PRICE of Georgia. I thank the Speaker.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The Clerk designated the amendment.

The SPEAKER pro tempore. Pursuant to clause 6(h) of rule XVIII, the Chair will put the question to the House de novo.

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. PRICE of Georgia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 212, nays 213, not voting 9, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Two minutes remain in this vote.

□ 1148

So the amendment was rejected.

The result of the vote was an announced as above recorded.

The SPEAKER pro tempore. Pursuant to clause 6(h) of rule XVIII, the Committee will resume its sitting.

□ 1148

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole

House on the state of the Union for the further consideration of the bill (H.R. 2847) making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes, with Mr. ALTMIRE in the chair.

The Clerk read the title of the bill.

The CHAIR. When the Committee of the Whole rose earlier today, the amendment offered by the gentleman from California (Mr. LEWIS) had been rejected on a recorded vote on which the votes cast by the Delegates and the Resident Commissioner were decisive.

That result has since been affirmed by the House.

AMENDMENT NO. 69 OFFERED BY MR. TIAHRT

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Kansas (Mr. TIAHRT) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 69 offered by Mr. TIAHRT:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act may be used to obligate, or pay the salary or expenses of personnel who obligate, funds made available under the following headings in title II of division A of Public Law 111–5:

(1) ''Economic Development Administration—Economic Development Assistance Programs''.

(2) ''National Telecommunications and Information Administration—Digital-to-Analog Converter Box Program''.

(3) ''National Institute of Standards and Technology—Construction of Research Facilities''.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This will be a 15-minute vote, followed by resumption of 5-minute votes for the remaining votes in this sequence.

The vote was taken by electronic device, and there were—ayes 161, noes 270, not voting 8, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There are 2 minutes remaining in the vote.

□ 1209

Mr. MCMAHON changed his vote from ''aye'' to ''no.''

Mrs. MCMORRIS RODGERS changed her vote from ''no'' to ''aye.''

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENT NO. 102 OFFERED BY MR. CUELLAR

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Texas (Mr. CUELLAR) on which further proceedings were postponed and on which the ayes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 102 offered by Mr. CUELLAR:

At the end of the bill, before the short title, insert the following new section:

SEC. 535. None of the funds made available in this Act may be used to purchase light bulbs unless the light bulbs have the ''Energy Star'' or ''Federal Energy Management Program'' designation.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 343, noes 87, not voting 9, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There is 1 minute remaining in the vote.

□ 1222

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENT NO. 98 OFFERED BY MR. HODES

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from New Hampshire (Mr. HODES) on which further proceedings were postponed and on which the ayes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 98 offered by Mr. HODES:

At the end of the bill (before the short title), insert the following:

SEC. ____. The Director of the Office of Management and Budget shall instruct any department, agency, or instrumentality of the United States Government receiving funds appropriated under this Act to track undisbursed balances in expired grant accounts and include in its annual performance plan and performance and accountability reports the following:

(1) Details on future action the department, agency, or instrumentality will take to resolve undisbursed balances in expired grant accounts.

(2) The method that the department, agency, or instrumentality uses to track undisbursed balances in expired grant accounts.

(3) Identification of undisbursed balances in expired grant accounts that may be returned to the Treasury of the United States.

(4) In the preceding 3 fiscal years, details on the total number of expired grant accounts with undisbursed balances (on the first day of each fiscal year) for the department, agency, or instrumentality and the total finances that have not been obligated to a specific project remaining in the accounts.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 422, noes 0, not voting 17, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There is 1 minute remaining in this vote.

□ 1250

Ms. MARKEY of Colorado changed her vote from ''aye'' to ''no.''

Mr. BARROW changed his vote from ''no'' to ''aye.''

So the amendment was agreed to.

The result of the vote was announced as above recorded.

(By unanimous consent, Mr. DOYLE was allowed to speak out of order.)

CONGRESSIONAL BASEBALL GAME

Mr. DOYLE. Mr. Chairman, as you know, last night was the 48th annual Roll Call congressional baseball game. The real winners last night were the Washington Boys & Girls Club and the Washington Literacy Council, as we were able to raise over $100,000 for those charities.

Mr. Chairman, it's been 9 long years since the coveted Roll Call trophy was able to sit on this desk. And I want to, first of all, offer my congratulations to our Republican teammates. JOHN SHIMKUS pitched a fantastic game. He's a real gamer. They fought long and hard, but this year was our year.

I'm happy to announce that the Democrats won the game 15–10. JOE BACA, at the age of 62, pitched a complete game, gave up just eight hits, and BART STUPAK was tremendous in the field, and TIM BISHOP was tremendous at the bat. I want to congratulate and thank all of the players on the Democratic team for their hard work and this accomplishment.

And I want to yield the floor to my good friend, JOE BARTON.

Mr. BARTON of Texas. Mr. Chairman, I was slow to get on my feet. I was going to object to this breach of the rules of the House allowing Mr. DOYLE to speak out of order, but I was too slow.

It is a very disappointing sight, Mr. Chairman, to see that trophy in an unaccustomed place. But last night at National Stadium, the Democrats—very uncharacteristically—played like Republicans: They played very well; they played as a team; they even played by the rules, Mr. Chairman. And as a result, they won the game fair and square 15–10.

I want to commend Mr. DOYLE for his excellent managerial skills, Mr. BACA, Mr. STUPAK, and Mr. BISHOP who were the tri-MVPs. I want to commend on our side our MVP, GRESHAM BARRETT; JOHN SHIMKUS, who pitched and did well, and SAM GRAVES who made several highlight catches in the outfield.

It was a good game. The Democrats did deserve to win—but don't get accustomed to it because we will be back, in the spirit of good competition. And as Mr. DOYLE said, it was for the Washington Literacy Council and the Washington area Boys & Girls Club.

I do want to thank the Nationals for letting us use their field, and my guess is they will be calling up some of the Democrats to play on their team since you have a better winning record now than they do.

Mr. DOYLE. If we get two more players, we're going to play the Nationals next year.

Mr. BARTON of Texas. But congratulations to MIKE DOYLE. We should give him a big round of applause because he deserves it.

Mr. DOYLE. Thank you, Mr. Chairman.

ANNOUNCEMENT BY THE CHAIR

The CHAIR. Without objection, 5-minute voting will continue.

There was no objection.

AMENDMENT NO. 97 OFFERED BY MR. PRICE OF GEORGIA

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Georgia (Mr. PRICE) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 97 offered by Mr. PRICE of Georgia:

At the end of the bill (before the short title), insert the following:

SEC. ____ Appropriations made in this Act are hereby reduced in the amount of $644,150,000.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 188, noes 236, not voting 15, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There is 1 minute remaining in the vote.

□ 1401

Mr. POE of Texas changed his vote from ''aye'' to ''no.''

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENT NO. 86 OFFERED BY MR. FLAKE

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Arizona (Mr. FLAKE) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 86 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds provided in this Act under the heading ''National Aeronautics and Space Administration—Cross Agency Support'' shall be available for the Innovative Science Learning Center of ScienceSouth, Florence, South Carolina, and the amount otherwise provided under such heading (and the portion of such amount specified for Congressionally-designated items) are hereby reduced by $500,000.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 107, noes 320, not voting 12, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There are 2 minutes remaining in this vote.

□ 1407

So the amendment was rejected.

The result of the vote was announced as above recorded.

Stated for:

Mr. STEARNS. Mr. Chair, on rollcall No. 379, I was unavoidably detained. Had I been present, I would have voted "aye."

PERSONAL EXPLANATION

Mr. LARSON of Connecticut. Mr. Chair, on rollcall Nos. 377, 378, and 379 I was in the physician's office. Had I been present, I would have voted "no."

AMENDMENT NO. 85 OFFERED BY MR. FLAKE

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Arizona (Mr. FLAKE) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 85 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds provided in this Act under the heading ''National Aeronautics and Space Administration—Cross Agency Support'' shall be available for the Drew University Environmental Science Initiative of Drew University, Madison, New Jersey, and the amount otherwise provided under such heading (and the portion of such amount specified for Congressionally-designated items) are hereby reduced by $1,000,000.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 100, noes 318, not voting 21, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There are 2 minutes remaining in this vote.

□ 1413

So the amendment was rejected.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Mr. LARSON of Connecticut. Mr. Chair, on June 18, 2009, I missed rollcall votes 377, 378, 379, and 380. Had I been present, I would have voted "no" on all.

AMENDMENT NO. 91 OFFERED BY MR. FLAKE

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Arizona (Mr. FLAKE) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 91 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

SEC. ___. None of the funds provided in this Act under the heading ''National Oceanic and Atmospheric Administration—Operations, Research, and Facilities'' shall be available for the Science Education Through Exploration project of the JASON Project, Ashburn, Virginia, and the amount otherwise provided under such heading (and the portion of such amount specified for Congressionally-designated items) are hereby reduced by $4,000,000.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 119, noes 306, not voting 14, as follows:

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There are 2 minutes remaining in this vote.

□ 1420

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENT NO. 84 OFFERED BY MR. FLAKE

The CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Arizona (Mr. FLAKE) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 84 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

SEC. ___. None of the funds provided in this Act under the heading ''National Oceanic and Atmospheric Administration—Operations, Research, and Facilities'' shall be available for the Institute for Seafood Studies project of the Nicholls State University Department of Biological Sciences, Thibodaux, Louisiana, and the amount otherwise provided under such heading (and the portion of such amount specified for Congressionally-designated items) are hereby reduced by $325,000.

RECORDED VOTE

The CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIR. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 124, noes 303, not voting 12, as follows:

[Roll No. 382]

ANNOUNCEMENT BY THE CHAIR

The CHAIR (during the vote). There are 2 minutes remaining in this vote.

□ 1427

Mr. GOHMERT changed his vote from ''aye'' to ''no.''

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIR. The Clerk will read.

The Clerk read as follows:

This Act may be cited as the ''Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010''.

The CHAIR. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. HOLDEN) having assumed the chair, Mr. ALTMIRE, Chair of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2847) making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes, pursuant to House Resolution 552, he reported the bill back to the House with sundry amendments adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment reported from the Committee of the Whole?

Mr. WESTMORELAND. Mr. Speaker, I demand separate votes in the House on the following amendments: Mollohan No. 11; Schock No. 8; Bordallo No. 19; Moore No. 3; Boswell No. 41; Nadler No. 31; Bernice Johnson No. 35; Cuellar No. 102; Hodes No. 98; and Reichert No. 114.

The SPEAKER pro tempore. The Chair will put the question on the remaining amendment.

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. WESTMORELAND. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for electronic voting on the succeeding separate votes.

The vote was taken by electronic device, and there were—yeas 251, nays 168, not voting 14, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1447

Messrs. VISCLOSKY, INSLEE, HODES and DOGGETT changed their vote from ''no'' to ''aye.''

So the amendment was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

AMENDMENT NO. 11 OFFERED BY MR. MOLLOHAN

The SPEAKER pro tempore. The Clerk will redesignate the first amendment on which a separate vote is demanded.

The text of the amendment is as follows:

Amendment No. 11 offered by Mr. MOLLOHAN:

Page 3, line 4, after the dollar amount, insert ''(reduced by $100,000)''.

Page 23, lines 18 and 19, after each dollar amount, insert ''(reduced by $21,132,000)''.

Page 45, lines 1, 4, and 13, after each dollar amount, insert ''(reduced by $78,768,000)''.

Page 47, line 22, after the dollar amount, insert ''(increased by $100,000,000)''.

Page 48, line 17, after the dollar amount, insert ''(increased by $100,000,000)''.

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from West Virginia (Mr. MOLLOHAN).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. PRICE of Georgia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 405, nays 1, not voting 27, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1454

So the amendment was agreed to.

The result of the vote was announced as above recorded.

Stated for:

Mr. MICA. Mr. Chair, on rollcall No. 384, I was unavoidably detained on Transportation and Infrastructure Committee business. Had I been present, I would have voted "aye."

Mr. STEARNS. Mr. Chair, on rollcall No. 384, I was unavoidably detained. Had I been present, I would have voted "aye."

MOTION TO RECONSIDER

Mr. PRICE of Georgia. Mr. Speaker, I move that we reconsider the vote just held.

The SPEAKER pro tempore. The question is on the motion to reconsider.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. PRICE of Georgia. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 172, noes 245, not voting 16, as follows:

[Roll No. 385]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There is a problem with the display board. The House is currently voting on the motion to reconsider.

□ 1501

Mr. COHEN changed his vote from ''aye'' to ''no.''

Mr. GARRETT of New Jersey changed his vote from ''no'' to ''aye.''

So the motion to reconsider was rejected.

The result of the vote was announced as above recorded.

AMENDMENT NO. 8 OFFERED BY MR. SCHOCK

The SPEAKER pro tempore. The Clerk will redesignate the next amendment on which a separate vote is demanded.

The text of the amendment is as follows:

Amendment No. 8 offered by Mr. SCHOCK:

Page 3, line 4, after the dollar amount, insert ''(increased by $500,000)''.

Page 7, line 5, after the dollar amount, insert ''(reduced by $500,000)''.

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from Illinois (Mr SCHOCK).

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. SCHOCK. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 179, noes 236, not voting 18, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Two minutes remain in this vote.

□ 1527

So the motion to reconsider was rejected.

The result of the vote was announced as above recorded.

AMENDMENT NO. 3 OFFERED BY MS. MOORE OF WISCONSIN

The SPEAKER pro tempore. The Clerk will redesignate the next amendment on which a separate vote is demanded.

The text of the amendment is as follows:

Amendment No. 3 offered by Ms. MOORE of Wisconsin:

In title I, in the paragraph entitled ''Salaries and Expenses'' immediately following the heading ''Departmental Management'' insert ''(reduced by $4,000,000'') after ''$60,000,000''.

Page 42, line 7, after ''$400,000,000'' insert ''(increased by $4,000,000,000)''.

In title II, in the paragraph entitled ''Violence Against Women Prevention and Prosecution Programs'' under the heading ''State and Local Law Enforcement Activities Office on Violence Against Women'' in the numbered item in the second proviso relating to legal assistance for victims as authorized by section 1201 of the 2000 Act, insert ''(increased by $4,000,000)'' after ''$37,000,000''.

The SPEAKER pro tempore. The question is on the amendment offered by the gentlewoman from Wisconsin (Ms. MOORE).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. KING of Iowa. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 414, noes 0, not voting 19, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1649

So the motion to reconsider was rejected.

The result of the vote was announced as above recorded.

Stated against:

Ms. HIRONO. Mr. Speaker, during rollcall vote No. 399 on Motion to Reconsider, I was unavoidably detained. Had I been present, I would have voted "no."

AMENDMENT NO. 98 OFFERED BY MR. HODES

The SPEAKER pro tempore. The Clerk will redesignate the next amendment on which a separate vote is demanded.

The Clerk redesignated the amendment.

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from New Hampshire (Mr. HODES).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. KING of Iowa. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 413, noes 0, not voting 20, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Two minutes remain in this vote.

□ 1700

So the motion to reconsider was rejected.

The result of the vote was an announced as above recorded.

AMENDMENT NO. 114 OFFERED BY MR. REICHERT

The SPEAKER pro tempore. The Clerk will redesignate the next amendment on which a separate vote is demanded.

The Clerk redesignated the amendment.

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from Washington (Mr. REICHERT).

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT

Mr. LEWIS of California. Mr. Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. LEWIS of California. I am, in its present form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

At the end of the bill (before the short title), insert the following:

''SEC. . None of the funds available in this Act may be used to provide rights under Miranda v. Arizona, 384 U.S.436 (1966) by the Department of Justice, including all component agencies, to detainees in the custody of the armed forces of the United States in Afghanistan.''

POINT OF ORDER

Mr. OBEY. Mr. Speaker, I make a point of order against the motion to recommit with instructions. The gentleman's motion to instruct includes a limitation not specifically contained or authorized in existing law and not considered in the Committee of the Whole pursuant to clause 2(d) of rule XXI. I ask for a ruling of the Chair.

The SPEAKER pro tempore. Does any Member wish to be heard on the point of order?

Mr. ROGERS of Michigan. Mr. Speaker, I wish to be heard on the point of order.

The SPEAKER pro tempore. The gentleman may proceed.

Mr. ROGERS of Michigan. Mr. Speaker, the motion to recommit contains language that I placed into the June 15, 2009, CONGRESSIONAL RECORD to prohibit any funds in this bill from being used by the Department of Justice to provide Miranda Rights to detainees in the custody of the United States military in Afghanistan.

House Resolution 544, the original rule for consideration of this bill, limited amendments to those received for printing in the portion of the CONGRESSIONAL RECORD of June 15, 2009, or earlier, designated for that purpose in clause 8 of rule XVIII. Therefore, under the terms of House Resolution 544, the original rule adopted for consideration of this bill, my amendment was in order to be considered during the amendment process in the Committee of the Whole.

Mr. Speaker, it is my understanding that clause 2 of rule XXI of the rules of the House prohibits a limitation from being offered on an appropriations bill if it contains legislation. Since my amendment did not constitute legislating on an appropriations bill, my amendment would have been in order as a valid amendment during consideration of the Committee of the Whole.

However, the highly restrictive second rule that we operated under for consideration of amendments in the Committee of the Whole prohibited me from offering my amendment, an amendment that would have been in order under the rules of the House, despite the fact that I testified at the Rules Committee asking that I be allowed to offer it. Had my amendment been allowed to be offered during this consideration of amendments to this bill, this motion to recommit would

not be subject to any parliamentary challenge.

Therefore, I ask the Chair to find this motion to recommit in order so that Members can consider this very important amendment to prohibit the extension of Miranda Rights to expected terrorists, non-U.S. citizens, captured on the battlefield in Afghanistan.

The SPEAKER pro tempore. The gentleman from Wisconsin makes the point of order that the motion to recommit violates clause 2(c) of rule XXI. Clause 2(c) operates as a general prohibition against amendments proposing limitations not specifically contained or authorized in existing law.

A general appropriation bill remains ''under consideration'' even after the Committee of the Whole has risen and reported the bill back to the House. As such, a motion to recommit a general appropriation bill remains subject to clause 2(c) of rule XXI.

Because it is not in order to propose as instructions in a motion to recommit amendatory language that would not be in order if offered as a direct amendment, a motion to recommit that proposes a limitation amendment is not in order unless such limitation amendment was actually offered and considered in the Committee of the Whole. This proposition is elucidated in rulings of August 1, 1989, and August 3, 1989.

The Chair finds the amendment proposed in the motion to recommit violates clause 2(c) of rule XXI.

The point of order is sustained.

Mr. ROGERS of Michigan. Mr. Speaker, I appeal the ruling of the Chair.

The SPEAKER pro tempore. The question is, Shall the decision of the Chair stand as the judgment of the House?

MOTION TO TABLE

Mr. OBEY. Mr. Speaker, I move to table the appeal of the ruling of the Chair.

The SPEAKER pro tempore. The question is on the motion to table.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. ROGERS of Michigan. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 246, noes 171, not voting 16, as follows:

[Roll No. 402]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. WATT) (during the vote). There are 2 minutes remaining in this vote.

□ 1722

Mr. CHILDERS changed his vote from ''aye'' to ''no.''

Mrs. KIRKPATRICK of Arizona and Mr. DAVIS of Illinois changed their vote from ''no'' to ''aye.''

So the motion to table was agreed to.

The result of the vote was announced as above recorded.

Stated against:

Mr. TIM MURPHY of Pennsylvania. Mr. Speaker, on rollcall No. 402, I was unavoidably detained. Had I been present, I would have voted ''no.''

MOTION TO RECONSIDER

Mr. ROGERS of Michigan. Mr. Speaker, I move that we reconsider the vote.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. ROGERS of Michigan. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore (Mr. HOLDEN). This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 168, noes 243, not voting 22, as follows:

[Roll No. 403]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1731

Mr. BURGESS changed his vote from ''no'' to ''aye.''

So the motion to reconsider was rejected.

The result of the vote was announced as above recorded.

MOTION TO RECOMMIT

Mr. LEWIS of California. Mr. Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. LEWIS of California. Yes, in its present form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

On page 22, line 8, insert ''(increased by $1,000,000)(decreased by $1,000,000)''.

On page 22, line 14, insert ''(increased by $1,000,000)(decreased by $1,000,000)''.

On page 32, line 21, insert ''(increased by $1,000,000)(decreased by $1,000,000)''.

On page 32, line 22, insert ''(increased by $1,000,000)(decreased by $1,000,000)''.

Mr. LEWIS of California (during the reading). Mr. Speaker, I ask unanimous consent to dispense with the reading.

Mr. OBEY. Mr. Speaker, I object.

The SPEAKER pro tempore. The Clerk will continue to read.

The Clerk continued to read.

Mr. OBEY. Mr. Speaker, I claim the time in opposition.

The SPEAKER pro tempore. The gentleman will be recognized.

The gentleman from California is recognized for 5 minutes.

Mr. LEWIS of California. Mr. Speaker, I yield to the gentleman from Michigan (Mr. ROGERS).

Mr. ROGERS of Michigan. Mr. Speaker, we have, I think, the most important decision we're going to make in the years ahead on how we look at the war on terror. Prior to 9/11, look at the events. The 1993 Twin Tower bombings, the USS Cole, the East African bombings. And after the 1993 bombings, we decided to continue our effort to treat the war on terror as a law enforcement exercise, and it led all the way through to 9/11. And this body, collectively, said we have a very important decision to make now after the 9/11 attacks.

We said it's either going to be a crime or it's going to be an act of war. This body, in overwhelming numbers, decided it was an act of war, and we aggressively pursued our counterterrorism efforts around the world, and we pursued those who attacked us with absolute vigilance, and it has been successful. No one can argue it has not been successful.

Think of what happened right after that. We policed up Khalid Sheikh Mohammed, and because he had been schooled in the United States, the very first thing he told those who grabbed him was, I want a lawyer. Thank goodness, thank the good Lord above, they said, Sorry, pal. You're not a United States citizen. Have a seat.

As for those interrogations between KSM and the other two very senior members of al Qaeda, our intelligence services tell us that 60 to 70 percent of what we know about al Qaeda and how it functions came from just those interrogations—60 to 70 percent. That's by the understanding of our intelligence community. From there, we pursued globally the effort to aggressively pursue those who attacked us and the network of al Qaeda.

After the President said he would not propose reading Miranda rights as if they were shoplifters, imagine our shock when we found they had sat down with the Justice Department and with others and had cooked up a plan called the Global Justice Initiative to change the priority from intelligence-gathering on the field to law enforcement on the field. What does that mean?

It means, when they were picking up somebody on the battlefield in Afghanistan, after attacking, say, the 82nd Airborne or after putting out IEDs to kill civilians or Afghans or U.S. soldiers, he was brought back to a detention facility, and they said, We might want to prosecute that person in the future. Sir, you have the right to remain silent.

I cannot tell you how dangerous that is to our national security. It is not a law enforcement event. It is an enemy combatant event. The information that that individual has is perishable. Maybe they're making those IEDs. Maybe they're financing the networks that make those IEDs. Maybe they're the ones who are planning the very next attack on U.S. soldiers. We need them to talk. We don't need to treat them like United States citizens. As a matter of fact, for those on whom they have been doing this, the individuals aren't even Afghan citizens. They're from around the world, directly and intentionally coming to Afghanistan to kill U.S. soldiers.

This is a serious shift in policy on how we pursue our counterterrorism efforts—the most important, I think, we will debate here. This is our chance to send a message, a very clear message.

As the senior FBI official told us, the reason they're going to do this and are doing this is that they want to err on the side of prosecution. I say, Mr. Speaker, that we err on the side of the safety of the men and women in our United States military and of the people right here at home.

If you don't think it's happening, it is.

A letter dated June 12 from the FBI Director says that the proposal would also ensure, when possible, that the intelligence is gathered in a manner that best preserves future options vis-a-vis the individual terrorists at issue, including gathering evidence in a manner that ensures its integrity in the event a prosecution becomes the most desirable approach, which is FBI legalese speak for saying, Listen, we're going to treat them all like we're going to prosecute them.

Imagine the tension between the CIA and the DIA and the other law enforcement community efforts when these enemy combatants come in, when somebody reads them their rights, when the CIA knows they have information that may save the life of a soldier. The confusion that we interject onto the battlefield is wrong, and it is dangerous.

Mr. Speaker, this is our chance. This is our chance together, in a unified way—in the same way that we stood up after 9/11 and said, It is not a crime; it is an act of war; enough is enough. Don't give them the rights of a United States citizen. Give them the rights of an enemy combatant and all that comes with it, and we help the 101st Airborne Division.

The SPEAKER pro tempore. The gentleman from Wisconsin is recognized for 5 minutes.

Mr. OBEY. Mr. Speaker, that's a very interesting speech. I wish it had something to do with anything in this amendment. Let me simply read the amendment.

On page 22, line 8 and on page 22, line 14 and on page 32, line 21 and on page 32, line 22, it says, Insert: Increased by $1 million. Decreased by $1 million.

That's all the amendment says. So what does it do? Do you know what it does? It don't do nothing. All it does is give one of our friends on that side of the aisle a chance to talk about an issue.

I want to congratulate him. That's the least destructive thing they've done today. I simply want to say that, if this amendment passes, there is no way it can be interpreted by the implementing agency to have anything whatsoever to do with the issue that the gentleman just talked about, because the amendment has no effect on it.

Mr. Speaker, we've sat here for 8 hours and have gone through this elaborate charade today. Other committees have brought veterans to town to talk about the problems of veterans. They've brought little kids to town to talk about the problems of children's hospitals.

That comment says more about you than it says about anything I say.

We've brought American citizens to town to appear at hearing after hearing today about their real life, human problems. Instead, we've watched the other side of the aisle walk around in circles in this well, changing their votes on paper ballots, pretending that they're doing something useful for the country.

I am going to accept this amendment because, as I said, it don't do nothing to nobody or for nobody. As I said, that's the least destructive thing you've managed to do today. Congratulations. Maybe there's hope for you yet.

I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. LEWIS of California. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of passage.

The vote was taken by electronic device, and there were—ayes 312, noes 103, not voting 18, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. There is 1 minute remaining in this vote.

□ 1805

Mr. PAULSEN changed his vote from ''aye'' to ''no.''

So the motion to reconsider was rejected.

The result of the vote was announced as above recorded.

Mr. OBEY. Mr. Speaker, pursuant to the instructions of the House in the motion to recommit, I report the bill, H.R. 2847, back to the House with an amendment.

The SPEAKER pro tempore. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. OBEY:

On page 22, line 8, insert ''(increased by $1,000,000) (decreased by $1,000,000)''.

On page 22, line 14, insert ''(increased by $1,000,000) (decreased by $1,000,000)''.

On page 32, line 21, insert ''(increased by $1,000,000) (decreased by $1,000,000)''.

On page 32, line 22, insert ''(increased by $1,000,000) (decreased by $1,000,000)''.

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from Wisconsin (Mr. OBEY).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. BROUN of Georgia. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 402, noes 13, not voting 18, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1825

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated against:

Mr. BILIRAKIS. Mr. Speaker, on rollcall No. 408, I was unavoidably detained. Had I been present, I would have voted "nay."

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Sherman Williams, one of his secretaries.

MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed without amendment bills of the House of the following titles:

H.R. 813. An act to designate the Federal building and United States courthouse located at 306 East Main Street in Elizabeth City, North Carolina, as the ''J. Herbert W. Small Federal Building and United States Courthouse''.

H.R. 837. An act to designate the Federal building located at 799 United Nations Plaza in New York, New York, as the ''Ronald H. Brown United States Mission to the United Nations Building''.

H.R. 2344. An act to amend section 114 of title 17, United States Code, to provide for agreements for the reproduction and performance of sound recordings by webcasters.

H.R. 2675. An act to amend title II of the Antitrust Criminal Penalty Enhancement and Reform Act of 2004 to extend the operation of such title for a 1-year period ending June 22, 2010.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2346) ''An Act making supplemental appropriations for the fiscal year ending September 30, 2009, and for other purposes.''.

The message also announced that the Senate has passed a bill and a concurrent resolution of the following titles in which the concurrence of the House is requested:

S. 1285. An act to provide that certain photographic records relating to the treatment of any individual engaged, captured, or detained after September 11, 2001, by the Armed Forces of the United States in operations outside the United States shall not be subject to disclosure under section 552 of title 5, United States Code (commonly referred to as the Freedom of Information Act), to amend section 552(b)(3) of title 5, United States Code (commonly referred to as the Freedom of Information Act) to provide that statutory exemptions to the disclosure requirements of that Act shall specifically cite to the provision of that Act authorizing such exemptions, to ensure an open and deliberative process in Congress by providing for related legislative proposals to explicitly state such required citations, and for other purposes.

S. Con. Res. 26. Concurrent resolution apologizing for the enslavement and racial segregation of African-Americans.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 6 o'clock and 26 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 2048

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. CARDOZA) at 8 o'clock and 48 minutes p.m.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2918, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

Mr. ARCURI, from the Committee on Rules, submitted a privileged report (Rept. No. 111–161) on the resolution (H. Res. 559) providing for consideration of the bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes, which was referred to the House Calendar and ordered to be printed.

CONTINUATION OF THE NATIONAL EMERGENCY WITH RESPECT TO THE RISK OF NUCLEAR PROLIFERATION CREATED BY THE ACCUMULATION OF WEAPONS-USABLE FISSILE MATERIAL IN THE TERRITORY OF THE RUSSIAN FEDERATION—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 111–50)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred to the Committee on Foreign Affairs and ordered to be printed:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the emergency declared in Executive Order 13159 of June 21, 2000, with respect to the risk of nuclear proliferation created by the accumulation of a large volume of weapons-usable fissile material in the territory of the Russian Federation, is to continue beyond June 21, 2009.

It remains a major national security goal of the United States to ensure that fissile material removed from Russian nuclear weapons pursuant to various arms control and disarmament agreements is dedicated to peaceful uses, subject to transparency measures, and protected from diversion to activities of proliferation concern. The accumulation of a large volume of weapons-usable fissile material in the territory of the Russian Federation continues to pose an unusual and extraordinary threat to the national security and foreign policy of the United States. For this reason, I have determined that it is necessary to continue the national emergency declared with respect to the risk of nuclear proliferation created by the accumulation of a large volume of weapons-usable fissile material in the territory of the Russian Federation and maintain in force these emergency authorities to respond to this threat.

BARACK OBAMA.

THE WHITE HOUSE, *June 18, 2009*.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Ms. VELÁZQUEZ (at the request of Mr. HOYER) for today after 6 p.m. and the balance of the week on account of a family emergency.

Mrs. TAUSCHER (at the request of Mr. HOYER) for today on account of attending a memorial service.

Mrs. SCHMIDT (at the request of Mr. BOEHNER) for today until 1:50 p.m. on account of attending to important official business in her district.

SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 1285. An act to provide that certain photographic records relating to the treatment of any individual engaged, captured, or detained after September 11, 2001, by the Armed Forces of the United States in operations outside the United States shall not be subject to disclosure under section 552 of title 5, United States code (commonly referred to as the Freedom of Information Act), to amend section 552(b)(3) of title 5, United States Code (commonly referred to as the Freedom of Information Act) to provide that statutory exemptions to the disclosure requirements of that Act shall specifically cite to the provision of that Act authorizing such exemptions, to ensure an open and deliberative process in Congress by providing for related legislative proposals to explicitly state such required citations, and for other purposes; to the Committee on Oversight and Government Reform; in addition to the Committee on Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

S. Con. Res. 26. Concurrent resolution apologizing for the enslavement and racial segregation of African-Americans; to the Committee on the Judiciary.

ADJOURNMENT

Mr. ARCURI. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 8 o'clock and 51 minutes p.m.), the House adjourned until tomorrow, Friday, June 19, 2009, at 9 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2285. A letter from the Congressional Review Coordinator, Department of Agriculture, transmitting the Department's final rule — Karnal Bunt; Regulated Areas [Docket No.: APHIS-2009-0036] received June 4, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

2286. A letter from the President, European Security and Defence Assembly Assembly of Western European Union, transmitting notification that the Assembly will be holding its 56th Session in Paris from Tuesday June 2 to Thursday June 4; to the Committee on Foreign Affairs.

2287. EXTENSIONS OF REMARKS

EARMARK DECLARATION

HON. TODD TIAHRT

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. TIAHRT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2487—the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

H.R. 2487 includes $650,000 in the COPS Tech account for the Kansas Regional Community Policing Institute. The entity to receive funding for this project is Wichita State University, 1845 Fairmont St., Wichita, KS 67260.

The funds will be used to continue the operation of the Kansas Regional Community Policing Institute (KsRCPI) to provide training and technical assistance to state, local and tribal law enforcement agencies throughout the State of Kansas.

EARMARK DECLARATION

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. CARTER. Madam Speaker, pursuant to the Republican Leadership standards on congressionally directed spending, I am submitting the following information regarding congressionally directed spending I received as part of the Commerce, Justice, Science, and Related Agencies Appropriations Act of 2010.

Project Name: Tarleton State University Rural Law Enforcement

Account: DOJ OJP—Byrne

Project Recipient and Address: Tarleton State University, 1333 W. Washington Ave., Stephenville, TX 76402.

Amount Provided: $1,500,000

Project Description: Small cities and rural jurisdictions are often manpower and budget limited to accomplish all the duties necessary to their missions. While the insertion of modern information technology and associated criminal justice technology is intended to make local law enforcement operations more efficient and informed, the initial integration of computer technology can be manpower intensive and, overwhelming. The objective of this initiative is to establish a rural law enforcement information technology and anti-terrorism service at Tarleton State University. Its focus will be to provide information technology assistance and anti-terrorism training to small city and county law enforcement operations in coordination with other State and Federal chartered information and assistance resources.

Benefit to Taxpayers: The objective of this initiative is to establish a technology assessment capability to contribute to the U.S. Department of Justice's National Resources Center for evaluation of information technology products for use in information sharing for criminal justice matters of interest to local and concurrent jurisdictions. In addition, small and rural jurisdictions have very limited access to anti-terrorism training. The Texas Department of Public Safety and Texas Department of Homeland Security are cooperators with Tarleton in this initiative. In addition, anti-terrorism technology and training will be conducted as endorsed by the Federal Emergency Management Administration (FEMA) and the Department of Defense (DoD). Standardized DHS/FEMA/DoD curricula have been and will be delivered to small and rural jurisdictions. Emergency preparedness training and anti-terrorist response teams training will be included.

Spending Plan:

Salaries (25%): 375,000

Travel (2%): 30,000

Records Management & Database (73%): 1,125,000

Total: 1,500,000

Project Name: Belton, Texas First Responder Equipment, Technology and Interoperability Upgrades

Account: DOJ OJP—Byrne

Project Recipient and Address: The City of Belton, TX 333 Water Street, Belton, TX 76513.

Amount Provided: $700,000

Project Description: Federal funds will be used to acquire equipment, technology and communications apparatus that will enable first responders in Belton, TX to address crime that occurs due to the City's location at the intersection of I–35 and I–190. In addition to upgrading antiquated equipment, this funding will assist in the identification, prosecution and cleanup of drug-related crimes, including methamphetamines. As the county seat, enhanced equipment will benefit Bell County by resuming Belton's participation in the Central Texas Narcotics Task Force; bringing Belton current with state of the art communications equipment; improving emergency response due to updated emergency sirens; and by standardizing department weapons.

Benefit to District: Funds will address four goals: Interoperability; Public Safety and Emergency Operations Enhancement; Drug Interdiction; and Training and Technology Enhancements. As the county seat, funds will benefit Bell County by Belton's participation in the Central Texas Narcotics Task Force; modernizing communications equipment; improving emergency response; and by standardizing department weapons.

Spending Plan:

I. Communications Interoperability, $303,200; Handheld Radios—38 @ $3,650; Mobile Data Terminals—Police/Fire—18 @ $7,750; Police Negotiator "Throw" Phone—1 @ $25,000.

II. Emergency Operations Enhancement, $121,100; Outdoor Emergency Sirens—2 @ $15,000; Defibrillators for buildings/vehicles—29 @ $2,100; Standardized Police Department Weapons.

III. Drug Interdiction $350,000; Central Texas Narcotics Task Force; K–9 Unit.

IV. Police Technology and Training, $115,370; Police "Shoot/Don't Shoot" Simulator; Automatic Ticket Writers—12 @ $4,785; Dry Safe Cabinet for Evidence Handling.

Training Mannequin

Total Project Cost, $889,670

Federal Appropriations Request, $700,000

Private Contribution, $189,670

Project Name: Law Enforcement Technology and Equipment

Account: DOJ OJP—Byrne

Project Recipient and Address: City of Round Rock, TX, 221 E. Main Street, Round Rock, TX 78664.

Amount Provided: $300,000

Project Description: The city of Round Rock's Police Department has a critical need for criminal investigation funding, life-saving SWAT equipment, and key Individual officer equipment and facilities. The equipment provided by this funding would be used by officers to fight and prevent crime in many areas, including gang and drug-related activities, routine criminal investigations, security surveillance, and large-scale emergency response.

Benefit to District: The Round Rock Police Department, a subset of the city of Round Rock, Texas government, is responsible for the safety of the citizens of Round Rock, Texas and those who visit it.

Spending Plan:

Criminal Investigations: $120,000; Forensic software, Trackers, Kell Kit, Light/pole surveillance cameras, MCT's, IR Camera.

SWAT: $60,000; Scout/robot, CINT-negotiations management.

Individual Officer Equipment: $120,000; Tasers, Vehicles, Cameras, Recording devices.

EARMARK DECLARATION

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. POE of Texas. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman TED POE

Bill Number: H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010

Account: Department of Justice, Office of Justice Programs, Byrne Discretionary Grants

Legal Name of Requesting Entity: Houston Police Department

Address of Requesting Entity: 1200 Travis Street, Houston, TX 77002

Description of Request: I, and Rep. JOHN CULBERSON, have secured $350,000 for the Houston Police Department to be used towards enforcement of illegal possession and distribution of Methamphetamine/ICE, Heroin, Cocaine and Marijuana throughout the Houston region. The Houston Police Department intends to use the funds for classified overtime for Narcotics Personnel, for the purchase of covert equipment, for the purchase of evidence/information, for the purchase of block overtime expenses for general personnel, and for investigative travel. The Targeted Narcotics Enforcement Team (TNET) is an enforcement group whose mission is to carry out investigations addressing the broad spectrum of drug trafficking in and through the Houston region. The goal is to identify, target, and disrupt or dismantle major drug trafficking organizations operating on a regional scale. However, TNET is unique in its efforts by focusing on the full organization. With investigators continuously developing confidential sources (CS) along the Texas-Mexico border, the group is able to target major Drug Trafficking Organizations (DTOs). TNET also works through its coalition of investigators, attorneys, inspectors, and citizen groups to target the dealers and end users that make the DTOs' work profitable. Over the past several years, Mexican DTOs have taken over the production of Methamphetamine and the more crystallized meth known as ''ICE.'' Once dominated by domestic labs, Mexican DTOs now produce the bulk of methamphetamine powder and ICE. These DTOs have utilized the same smuggling routes and techniques that have been used in the past. TNET has quickly adapted to this new threat and has successfully targeted these Methamphetamine DTOs. Additional resources will enhance our ability to combat these sophisticated DTOs.

Requesting Member: Congressman TED POE

Bill Number: H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010

Account: Department of Justice, Office of Justice Programs, Byrne Discretionary Grants

Legal Name of Requesting Entity: Harris County, TX Constable Precinct #4

Address of Requesting Entity: 16000 Stuebner Airline Road, Suite 520, Spring, TX 77379

Description of Request: I have secured $90,000 in funding to be used to provide a uniform manner of handling violent crimes against woman within this precinct by supporting an investigating deputy for the precinct. This way cases will be worked on 24 hours a day and have a faster completion time. The investigating deputy shall make the scene when a incident is reported and interview all victim(s), suspect(s), and witness(es) while at the scene. Collect all evidence at the scene and provide the victim(s) with a written notification of their ''Victim Rights'' found in the departmental issued Victim Assistance pamphlet. The investigator shall initiate a case report and post the case on the office information board so that all patrol deputies may be informed of the case.

Requesting Member: Congressman TED POE

Bill Number: H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010

Account: Department of Justice, Office of Justice Programs, Byrne Discretionary Grants

Legal Name of Requesting Entity: Houston Police Department

Address of Requesting Entity: 1200 Travis Street, Houston, TX 77002

Description of Request: I have secured $910,000 for the Houston Police Department to purchase more LiveScan equipment, enabling them to capture electronic fingerprints and be part of the IAFIS (Integrated Automated Fingerprint Identification System) program which enables them to determine in seconds as opposed to days the alienage and criminal history of those they apprehend through the federal Law Enforcement Support Center. They still need 9 more machines to be fully electronic under IAFIS city wide. Additionally, funding will be used to purchase additional handheld devices that would be given to police officers to quickly capture biometric information of suspects and quickly determine their criminal histories, outstanding warrants, whether they have an order of removal or bench warrant for a failure to appear for an immigration proceeding from Immigration and Customs Enforcement's Office of Detention and Removal's deportable felon database.

RECOGNIZING 60 YEARS OF SERVICE FROM THE COLES DISTRICT VOLUNTEER FIRE DEPARTMENT AND RESCUE SQUAD

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize the Coles District Volunteer Fire Department and Rescue Squad. On June 27, 2009 the department will hold its 60th Annual Installation of Officers Banquet, marking its 60th year of service to the residents of Prince William County.

Prince William County has changed drastically since the Coles Department was established in 1949 as the Independent Hill Volunteer Fire Department. At that time, the early fire notification system consisted of a 110 foot fire tower that looked out over Prince William County's largely wooded landscape. Just six community volunteers handled the department's workload in those early years.

After years of expansion and the construction of a new fire station in 1979, the Coles District Volunteer Fire Department and Rescue Squad continues to be an invaluable resource for the Prince William community. The membership has grown to 45 life, active, junior and associate members. These members are business executives, police officers, professional firefighters, information technology professionals, tradesmen and other civil servants in local and federal government. Each year, they dedicate tens of thousands of volunteer hours to promoting and protecting the safety of their friends and neighbors.

Madam Speaker, I ask that my colleagues join me in honoring the members, past and present, of the Coles District Volunteer Fire Department and Rescue Squad. The dedication of these community volunteers has ensured that the Coles Department will remain a vibrant and robust organization, delivering vital services to residents during an emergency.

And to every member of the Coles District Volunteer Fire Department, I say, ''Stay Safe.''

A SPECIAL TRIBUTE TO PAUL NAVARRO

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. RANGEL. Madam Speaker, I rise today in special tribute to an outstanding public servant and community leader, Paul Navarro. Today it is my honor to join the Members of the East Harlem Asthma Working Group, Inc. (EHAWG) and the public service sector of the City of New York to pay tribute to a courageous New Yorker and exceptional human being, for his commitment, and tireless efforts, in improving the lives of so many affordable homeowners and renters throughout my Congressional District and beyond.

Born and raised in the South Bronx, where he still lives, Paul graduated from Lehman College in 1980 with a degree in Public and Group Communications. Troubled by the poverty and urban blight that plagued his neighborhood, Paul got involved in community activism by becoming an active member of his Community Planning Board; he also served as President of his Homeowner's Association for 15 years; created a green thumb garden; and helped to identify buildings which required renovation and repair and improved the quality of the life of the surrounding neighborhoods. He later became an executive board member and treasurer of the Diego-Beekman houses, a thirty-one building development housing over 1200 families in the South Bronx.

Paul joined Mayor Koch's Division of Labor Services in 1980, responsible for monitoring equal employment opportunities and prevailing wage rates in the construction industry. His career continued with the New York City Department of Housing Preservation and Development (HPD) as a Property Manager in East and Central Harlem, helping tenants with rent and repair issues. In 1987, Paul was named Director of the Crisis Management Unit in East Harlem.

During the 1990's, while living through kidney failure, dialysis treatments and receiving a kidney transplant, Paul served as HPD's Director of Anti-Abandonment Program for the Borough of Manhattan. In 1999, late and former New York City Council Member Philip Reed presented Paul a special Citation for Outstanding Service to the Community for all of his positive efforts in the Anti-Abandonment Program.

In 2001, as a member of the East Harlem Asthma Working Group (EHAWG) Paul shared

a City Council Proclamation from former City Council Speaker A. Gifford Miller. In 2006, New York City Police Commissioner Raymond Kelly presented Paul with the prestigious Isaac Lieberman Award for Outstanding Performance by a Civil Service Employee. Paul continues to stand up for fair and decent housing today as Director of the Green Point-Williamsburg Tenant Assistance Center in Brooklyn, and his team have assisted over 1300 families with landlord/tenant disputes and submitted an amazing 983 Section 8 applications.

Paul has two daughters, Elaine and Nancy, six grandchildren, four great grandchildren and despite his own health issues, along with his brother Rick, they take care of their 85 year old mother, Maria, who suffers from dementia. Let us all salute a great New Yorker, Paul Navarro.

RECOGNIZING THE CONTRIBUTIONS OF RICHARD BAUMGARTNER

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize the distinguished career of Richard J. Baumgartner. Mr. Baumgartner has served the children of Northern Virginia as an educator for thirty-seven years. Mr. Baumgartner has consistently been a strong advocate of quality education for all children and appropriate compensation for teachers.

As an educator, Mr. Baumgartner witnessed first-hand the expansive growth of Fairfax County and its public school system. Mr. Baumgartner's career has led him to excel in a variety of capacities within Fairfax County Public Schools. In fact, during his tenure, Mr. Baumgartner had the unique opportunity to serve on the initial opening faculty at three different elementary schools. He was a valuable asset to these schools and their principals during the difficult process of establishing a new school.

Mr. Baumgartner was a strong advocate on behalf of teachers in Fairfax County while serving as President of the Fairfax Education Association from 2000–2002 and 2004–2007. During his first term, Mr. Baumgartner worked with the school administration to examine the effectiveness of National Board Certification. Mr. Baumgartner also succeeded in helping change policy with regards to the Virginia Retirement System. Significant highlights of Mr. Baumgartner's second term include getting salary credit for instructional assistants who become teachers and implementing a nationally recognized teacher working conditions survey.

Madam Speaker, I ask that my colleagues join me in expressing our gratitude to Richard J. Baumgartner for his thirty-seven years of service to the students and staff of the Fairfax County Public School system and in wishing him the very best in his retirement.

EARMARK DECLARATION

HON. FRANK A. LoBIONDO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. LoBIONDO. Madam Speaker, as per the requirements of the Republican Conference Rules on earmarks, I secured the following earmarks in H.R. 2847.

Requesting Member: Congressman FRANK LoBIONDO (NJ–02) (along with Reps. BISHOP (NY), PALLONE and KING (NY)

Bill Number: H.R. 2847

Account: NOAA, NMFS Fisheries

Legal Name of Requesting Entity: Partnership for Mid-Atlantic Fisheries Science

Address of Requesting Entity: 501 Trenton Avenue, Pt. Pleasant Beach, NJ 08742

Description of Request: Provide an earmark of $600,000 for the collection and provision of data on summer flounder and black sea bass to the NMFS, regional councils, and state regulatory bodies and participate in the assessment process carried out by these groups.

Requesting Member: Congressman FRANK LoBIONDO (NJ–02) (along with Reps. PAYNE, PALLONE and SIRES)

Bill Number: HR 2847

Account: Department of Justice, Juvenile Justice Programs

Legal Name of Requesting Entity: Big Brothers Big Sisters Foundation of New Jersey

Address of Requesting Entity: 1259 Route 46 East, Building 3, Parsippany, NJ 07054

Description of Request: Provide an earmark of $400,000 to be distributed to ten local Big Brothers Big Sisters agencies serving 19 counties to strengthen and expand one-to-one mentoring programs for At-Risk Youth.

Requesting Member: Congressman FRANK LoBIONDO (NJ–02) (along with Reps. SMITH (NJ), PASCRELL and PAYNE)

Bill Number: H.R. 2847

Account: Department of Justice, Juvenile Justice Programs

Legal Name of Requesting Entity: DARE, New Jersey, Inc.

Address of Requesting Entity: 292 Prospect Plains Road, Cranbury, NJ 08512

Description of Request: Provide an earmark of $350,000 to be used for the Middle School Drug and Safety Prevention Project for DARE, New Jersey, Inc. The project will implement the new D.A.R.E. Middle School/Junior High School Program, ''Keepin' It Real''. This is a model substance abuse prevention education program on the SAMSHA National Registry of Evidence-based Programs and Practices (NREPP).

EARMARK DECLARATION

HON. AARON SCHOCK

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. SCHOCK. Madam Speaker, in accordance with the Republican adopted standards on earmarks, I submit the below detailed explanation of the Illinois Meth Project, Springfield, Illinois.

Bill Number: H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Provisions/Account: Department of Justice, COPS Methamphetamine.

Name and Address of Requesting Entity: The entity to receive funding for this project is the Illinois Meth Project, 937 S. 2nd St., Springfield, IL 62704.

Description of Request: This funding will be used to prevent teen methamphetamine use in Illinois through community outreach and strategic advertising campaign. The state of Illinois has a critical methamphetamine problem and the Illinois Meth Project aims to combat such through large scale media campaign initiatives targeting teens and first time Meth use. A survey of central Illinois teens shows substantial, positive changes in attitudes towards Meth after the first wave of Illinois Meth project advertising.

Also, the Sangamon County Sheriff Technology Upgrades for the Sangamon County Sheriff's Office, Springfield, Illinois.

Bill Number: H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Provisions/Account: Department of Justice, COPS Law Enforcement Technology.

Name and Address of Requesting Entity: The entity to receive funding for this project is the Sangamon County Sheriff's Office, 1 Sheriff's Plaza, Springfield, IL 62701.

Description of Request: This funding will assist in the purchase of new equipment for a violent crime investigation initiative, court facility security cameras, video visitation monitoring system, computers, supportive technology and an X-Ray machine. Recent economic downturns have constrained the county's ability to support new or expanded projects.

And, the Schuyler County Sheriff Technology Upgrades for the Schuyler County Sheriff's Office, Rushville, Illinois

Bill Number: H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Provisions/Account: Department of Justice, COPS Law Enforcement Technology.

Name and Address of Requesting Entity: The entity to receive funding for this project is the Schuyler County Sheriff's Department, 216 E. Lafayette, Rushville, IL 62681.

Description of Request: Funding in this request would be used to assist in technology upgrades for the county Sheriff's Department. This includes radio tower equipment, new console-control center in the main office, new in-car radios and cameras as well as hand held radios. Existing control panel is 25 years old. These upgrades will greatly enhance both officer and public safety.

The Springfield Police Department Technology Upgrade for the Springfield Police Department, Springfield, Illinois.

Bill Number: H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Provisions/Account: Department of Justice, COPS Law Enforcement Technology.

Name and Address of Requesting Entity: The entity to receive funding for this project is the Springfield Police Department, 800 East Monroe Street, Room 300, Springfield, IL 62701.

Description of Request: This funding will be used to upgrade radio consoles, install video camera system at police firearms range/weapons facility, purchase wireless headsets, software upgrades, purchase mobile data computers. These advancements will strengthen several technological deficiencies to increase law enforcement in the city of Springfield and help officers to make state and national inquiries about suspected law violators.

The Interoperable Law Enforcement Communications for the Tazewell County Sheriff's Office, Pekin, Illinois.

Bill Number: H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Provisions/Account: Department of Justice, COPS Law Enforcement Technology.

Name and Address of Requesting Entity: The entity to receive funding for this project is Tazewell County Sheriff's Office, 101 S. Capitol St., Tazewell County, Pekin, IL 61554.

Description of Request: This funding will be used to assist in purchase of communications equipment and radio frequencies to provide for complete coverage within the county's jurisdiction. This will provide better communications coverage in the county's jurisdiction as well as better communications with other Police Agencies with better dependability.

The Illinois Height Modernization for the Illinois State Geological Survey, Champaign, Illinois.

Bill Number: H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Provisions/Account: Department of Commerce, NOAA, Operations, Research and Facilities.

Name and Address of Requesting Entity: The entity to receive funding for this project is the Office of Sponsored Programs & Research Programs at the University of Illinois, located at 615 E. Peabody Drive, Champaign, IL 61820.

Description of Request: For the Illinois State Geological Survey to continue their Height Modernization project. This project will establish a datum-consistent vertical and horizontal statewide network of survey benchmarks and a statewide high-resolution digital elevation model (DEM) of the earth's surface based upon the updated network of survey benchmarks (approximately half can no longer be located), the project would also provide a digital elevation (LiDAR) model for the state. This will establish accurate, reliable heights using GPS technology in conjunction with traditional leveling, gravity, and modern remote sensing. The necessity of this is to get accurate mapping of the state for urban and rural development.

IN HONOR OF THE RETIREMENT OF MAUD ROBINSON

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to congratulate Maud Robinson on her retirement and to recognize the significant contributions she has made to the community as a member of the Vienna Town Council and throughout her years of civic involvement.

Maud Robinson has lived a life of commitment to her community and her country. During World War II, she proudly served with the United States WAVES. A few years after the war, she moved to Vienna, Va., where she has lived for nearly 60 years. Throughout this time, Maud has been an active community supporter, donating her time and energies to The Ayr Hill Garden Club, the Vienna Rotary Club, Historic Vienna, Inc. and many other civic organizations.

In 2000, Maud was appointed to the Vienna Town Council. Her late husband, Charles A. Robinson Jr., died earlier that year after serving 38 years on the Council, the last 24 as Mayor. Maud Robinson won re-election in 2001 and again in 2005. During her term she has been known for her historic preservation efforts, fiscal conservatism and the maintenance of the "small town" atmosphere that makes Vienna a very special place. Always acting to improve the quality of life for the residents of Vienna, Maud has been a constant presence at Fairfax County Board of Supervisor meetings, revitalization meetings and everywhere else where her dedication to her community would have a positive impact on fellow Vienna residents.

After serving on the Vienna Town Council for the last nine years, Maud has decided to not seek reelection and enjoy some well deserved leisure time. The community will be eternally grateful for her many contributions, and her strength and determination will be missed.

Madam Speaker, I ask my colleagues to join me in congratulating Maud Robinson on the occasion of her retirement and in thanking her for her years of service to the community and our country.

30TH ANNIVERSARY OF KOINONIA WORSHIP CENTER

HON. KENDRICK B. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. MEEK of Florida. Madam Speaker, today I rise to honor the 30th anniversary of Koinonia Worship Center in Pembroke Park, Florida. Since its inception, the Church has stood in the community as a symbol of perseverance and inspiration. This anniversary of Koinonia Worship Center marks a time of remembrance of a storied past and renewal for a bright future.

In January 1980, three families—the Jones', the Albury's and the Harvey's, of Carol City, Florida decided that they needed a closer walk with God and a deeper commitment to Jesus Christ. They began to meet on Monday nights for a Spirit filled Bible study at the home of Eric H. Jones, Jr. As the months passed, the study group increased in number and eventually outgrew the pastor's home. Under the leadership of Pastor Jones a ministry was established. A meeting was held with a Bible study group of West Hollywood, Florida, headed by Brother Irving Seymour and another Christian body from Hallandale, Florida. On June 1, 1982, Pastor Jones was asked to be the pastor and Irving Seymour was asked to be the evangelist.

The name Koinonia was suggested by Evangelist Irving Seymour. It was presented to the group and accepted. The membership also decided that the church would be a non-denominational worship center. and would be supported by tithes and offerings. The first services were held on June 13, 1982, at the Ramada Inn in Hallandale, Florida. On June 16, 1982, the business meeting was held at the home of Deacon Albury in Miami, Florida. The decisions on the Articles of Faith, the Church's constitution, bylaws, covenant and officers were made at the meeting.

The church's officers were: Pastor, Eric H. Jones, Jr.; Chairman of Deacons, Arnold Albury; Secretary, Elois Seymour; Clerk, Beverly Parks; Sunday School Superintendent, Irving Seymour; Minister of Education, Rosita Albury; Assistant Minister of Education, Bloneva Jones; Treasurer, Sonja Harvey; and Usher, Tyrone Pitts.

Koinonia began with 18 charter members, has moved from various locations, has grown to a membership of over 6,000, operates seven days a week, and has 27 ministries. Some of the ministries include: Prison, More Than Conquerors, Christian Men of Destiny, Women of Vision, Reaching Hands, and Economic Empowerment. Koinonia is known for reaching out to the oppressed, developing programs for the socially and economically outcast and presents a unique and clear methodology for salvation.

Madam Speaker, please join me in applauding and honoring Koinonia Worship Center as it celebrates 30 years of dedicated fellowship. Throughout the past 30 years, the clergy and members have dedicated themselves to providing spirituality, service and guidance to the Church and greater community of South Florida. Koinonia is a model for our community and our Nation. Koinonia has never wavered from the ministry of saving lost souls, preaching the gospel, feeding the hungry, helping the homeless, and reaching out and renewing the spirit of neighbors in need. It is my hope Koinonia continues to stand as a beacon of resolve, inspiration and worship for many years to come.

IN HONOR OF THE LAKE CITIES FIRE DEPARTMENT'S 50TH ANNIVERSARY

HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. BURGESS. Madam Speaker, I rise today to commend the Lake Cities Fire Department for 50 years of volunteer service to the cities of Corinth, Lake Dallas, Hickory Creek, and Shady Shores.

The Lake Cities Volunteer Fire Department started in 1959 with several concerned citizens getting together a volunteer service to provide safety and fire protection for their cities.

Over the past 50 years the department has undergone numerous changes, culminating in the city of Corinth taking control of the department in 2008 and contracting with the other cities for service. Today the department staffs trained first responders, 2 fire engines and 2 ambulances. Each day the department strives to deliver the highest level of professional service to its residents.

It is with great honor that I recognize the 50th anniversary of the Lake Cities Fire Department. The service and dedication of both the volunteer and paid firemen have kept these cities safe for 50 years. I am proud to represent the department and the brave men and women who serve there.

REMEMBERING SANDRA OTAKA, THE FIRST ASIAN-AMERICAN ELECTED COOK COUNTY JUDGE

HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Ms. SCHAKOWSKY. Madam Speaker, it is with deep sadness that I rise today to recognize the extraordinary life and contributions of Judge Sandra Otaka, a constituent of mine and a dear friend, who died on June 6. Judge Otaka is remembered not just for her brilliant legal career but for a life committed to fighting for equality and justice for all. She died too soon and she will be greatly missed.

Judge Otaka was appointed to the bench of the Illinois Supreme Court in 2000. In 2002, she was elected as the first Asian-American to be Cook County Judge, serving in the children protection court. While that accomplishment was extraordinary, it was just one of many exemplary moments in her career.

Born the daughter and granddaughter of Japanese Americans who were imprisoned in U.S. internment camps during World War II, Sandra Otaka dedicated her life to fighting for justice. As a child, she campaigned against the Vietnam War. During college, she worked at a law firm that successfully overturned the conviction of Fred Korematsu, a Japanese-American imprisoned in 1944 for failing to report to an internment camp. Throughout her adult life, she worked tirelessly to represent those who too often had no voice.

Judge Otaka was an inspiration not only to Asian-Americans in Chicago, but to legions of others, including me. I loved and respected her deeply not only for her brilliant mind, but for her tremendous heart. The outpouring of sorrow and the sense of loss are a testament to Sandra's gift for befriending people and touching their lives in ways big and small. While all of us who were Sandra's friends will miss her terribly, we can find some comfort in our memories of that beautiful, vibrant and vital woman whom we were so fortunate to have in our lives, albeit for too brief a time.

My heart goes out today to her beloved son Jeffrey. Jeffrey was the center of Sandra's life and she was absolutely devoted to him. She talked about him and his accomplishments often, and Sandra always had a photo ready to share. I also extend my condolences to her sister Susan, and all of Sandra's family and friends whom she loved dearly and who loved her in return. Judge Otaka made our community and our nation a better place. I and so many people in Chicago are indeed fortunate to have had her in our lives.

IN HONOR OF THE 2009 LITERACY COUNCIL OF NORTHERN VIRGINIA AWARD RECIPIENTS

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to congratulate the recipients of the 2009 Literary Council of Northern Virginia Awards.

Founded in 1962, The Literary Council of Northern Virginia is a non-profit educational organization that recruits and trains volunteers to teach adults who need help reading, writing, speaking and understanding the English language.

The Literacy Council provides a wide range of programs including programs for English speaking adults who need help with reading and writing, ESOL programs for those in our community for whom English is not their native language and Family Learning Programs to teach English proficiency to parents and their children who are between the ages of two and 12.

Each year, The Literacy Council of Northern Virginia recognizes a few of its outstanding adult learners, volunteers and/or community partners. This year, a special award will be given to student essay contest winners, the theme of which was ''Hope for the Future''. It is my great honor to recognize the following recipients of the 2009 Literacy Council of Northern Virginia Awards:

Recipients of the Community Partners Awards are: Alexandria Community Trust, The Wish You Well Foundation, and the Richard Byrd Library (Fairfax County).

Recipients of the Volunteer of the Year Awards are: Kay Habeger, Michael Wolff and Monica Simone.

Recipients of the Student Essay Contest Awards are: Jieun Jang, Albert Costanzo, Wei Yang Tsai, Gloria Cruz, Hala Elnoby, and Deepa Kulkarni.

Madam Speaker, I ask that my colleagues join me in recognizing the contributions of The Literacy Council of Northern Virginia and congratulating each of the 2009 Award recipients. Their dedication, hard work and commitment improves the quality of life for the students as well as the community by providing the program participants with the life skills that are necessary to become an active and productive member of society.

RECOGNIZING THE MAYOR J. ROBERT HUNSICKER

HON. PATRICK J. MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. PATRICK J. MURPHY of Pennsylvania. Madam Speaker, I rise today to honor J. Robert Hunsicker. He has served the town of Perkasie, Pennsylvania as Mayor for the past decade.

A lifelong resident of Perkasie, Mayor Hunsicker has been active in his community for years. He grew up working for his father's butter and egg business in town, and graduated from Sell-Perk High school in 1945. He served as a Justice of the Peace from 1955 to 1969, and then as a district justice from 1970 until his retirement to a senior judge position in 1993. In this role, the Mayor had the opportunity to serve on most courts in Bucks County.

Described by colleagues as Perkasie's biggest fan and loudest cheerleader, the Mayor has been a champion for the many programs that represent his hometown. This includes the Perkasie Park System, where free arts and cultural events are held weekly during the summer months. One of Mayor Hunsicker's dreams has been the construction of a new band shell in which to house these community events. During his time in office, the Mayor has also partnered with the neighboring town of Sellersville to oversee the successful merging of the towns' two police departments.

Mayor Hunsicker will retire later this month in order to enjoy some well-deserved time with his six children and six grandchildren, and will of course remain involved in the Perkasie community. Madam Speaker, I ask that you join me in recognizing Mayor J. Robert Hunsicker for his admirable lifelong service. I am honored to serve as his Congressman. Congratulations on the dedication of their headquarters today.

EARMARK DECLARATION

HON. ZACH WAMP

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. WAMP. Madam Speaker, as a leader on earmark reform, I am committed to protecting taxpayers' money and providing greater transparency and a fully accountable process. H.R. 2847, The Fiscal Year 2010 Commerce, Justice, Science, and Related Agencies Appropriations Act contains the following funding that I requested:

Requesting Member: Rep. ZACH WAMP

Account: COPS-Methamphetamine Enforcement and Clean-up Grants

Legal Name Requesting Entity: Tennessee Bureau of Investigation-Tennessee Methamphetamine Task Force

Address: 901 R.S. Gass Blvd.—Nashville, TN 37216–2369, c/o 1110 Market Street, Suite 332, Chattanooga, TN 37402

Description of Request: The Tennessee Bureau of Investigation and the Tennessee Methamphetamine Task Force requested funding to train and equip local law enforcement officers throughout the State of Tennessee in a cooperative effort to combat the manufacture, distribution and use of methamphetamine, both domestic and foreign, in Tennessee. Twenty-four hour response will be provided to state and local law enforcement agencies fighting the epidemic. The Tennessee Bureau of Investigations and the Tennessee Meth Task

Force received $2 million to supplement the lack of funding for preventing illegal methamphetamine use.

Distribution of funding:

Personnel—8%

Benefits—3%

Travel—8%

Equipment—16%

Supplies—25%

Contract law enforcement officers—31%

Training—9%

Requesting Member: Rep. ZACH WAMP

Account: Department of Justice Byrne Discretionary Grant Program

Legal Name Requesting Entity: City of Chattanooga

Address: 101 East 11th Street, Chattanooga, TN 37402

Description of Request: The Mayor and City Council of Chattanooga have requested funding to move and equip a law enforcement firing range. In 2003, President Bush signed legislation establishing the Moccasin Bend National Archeological District at the location where the current range has been used for police training for decades. The formation of the national park and the planned visitor center requires that the firing range be moved to another site. The Mayor and City of Chattanooga received $500,000 to offset part of the expense associated with the relocation.

Distribution of funding:

Facility renovation—30%

Equipment—50%

Technology—20%

TRIBUTE TO HOWARD NICHOLS

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Ms. ESHOO. Madam Speaker, I rise today to pay tribute to Howard Nichols, an Army veteran, a distinguished teacher, and the Headmaster at The Harker School in San Jose, California. Mr. Nichols passed away from esophageal cancer on December 31, 2008.

During his 32 years as Headmaster of The Harker School, Howard Nichols played a critical role in helping so many young people and his presence is greatly missed today. The following obituary was published in the San Jose Mercury News on January 1, 2009:

''To describe Howard Nichols as the heart and soul of Harker School barely captures the magnitude of the role that the retired headmaster played at the San Jose private school.

''Mr. Nichols also was the visionary, architect, recruiter and administrator who built Harker into a prestigious academic powerhouse. He got to know each child and family, helped teachers find housing and seldom saw a piece of litter on campus he didn't pick up. A product of Harker's predecessor, the Palo Alto Military Academy, Mr. Nichols was a passionate educator who, without a teaching credential, created the largest K–12 independent school in California.

''Mr. Nichols died Dec. 31 of esophageal cancer. He was 68.

''His door at Harker always was open to staff, parents and students and visitors—who, while stopping by to talk, often could help themselves to a chocolate chip cookie, perhaps still warm from the school kitchen, said his wife, Diana Nichols.

'' 'Howard was one of the most compassionate people I've ever met,' said John Near, a Harker history teacher whom Mr. Nichols hired 30 years ago. Mr. Nichols considered Harker a family, and instilled that sense of caring in students, Near said.

''Mr. Nichols was born in Bremerton, Washington, and moved to the Oakland area as an infant. In second grade he moved to the Peninsula when his father, Major Donald Nichols, took over the Palo Alto Military Academy. The young Mr. Nichols was a boarder at the Parkinson Street campus, and went home to Los Altos on the weekends. His mother, Jean Fisher, ran a restaurant in Los Altos.

''Mr. Nichols attended Palo Alto High School and Stanford University, graduating with a bachelor's degree in economics. He served two years in the Army, then joined the staff at his father's school. But in the Vietnam era, the military and military schools were falling out of favor. The Palo Alto Military Academy merged with neighboring Miss Harker's School for Girls and moved to San Jose. Mr. Nichols became headmaster in 1973.

''In 1981, Mr. Nichols married Diana Olsen, then a principal at Harker.

''The school expanded to three campuses, one for each level, and eliminated its dormitories to accommodate the high school expansion. Today, it has about 1,750 students in grades K–12.

''Mr. Nichols' skill as a listener, understanding parents' needs, informed his vision for the school, Diana Nichols said. With more dual-worker families, Harker offered afterschool programs in sports, art and music, then uncommon among private schools. 'The complaint that people have about private schools in general was that it wasn't a neighborhood school. This created the neighborhood,' Diana Nichols said.

''Mr. Nichols also believed that the heart of a good school lies in good teachers, and he recruited nationwide for Harker staff.

'' 'He really made everybody feel valued. He used to put his hand on your shoulder and say, 'We're lucky to have you,' ' said Chris Nikoloff who took over from Mr. Nichols as head of school. The Nicholses retired in 2005, but continued to consult for the school and serve on the board.

''Mr. Nichols also believed in having fun. He'd challenge students to a contest, such as raising funds for a charity, and if students won, teachers and administrators would pay off by, for example, jumping fully clothed into the school swimming pool. He also created a culture of respect and caring at school, staff recalled.

'' 'He was a generous and kind man,' said graduate Sehba Ali Zhumkhawala, founder and principal of KIPP Heartwood charter school in San Jose. 'Certainly he was one of the inspirational folks who made me want to go into education.'

''Mr. Nichols also was an athlete, who did 100 push-ups a day until he became too ill three months ago.

'' 'He was a really noble man,' Diana Nichols said. 'He's irreplaceable.' ''

Madam Speaker, I ask that the entire House of Representatives join me in extending our sympathy to The Harker School and the Nichols family. The work of Howard Nichols at The Harker School will never be forgotten and will continue on in the lives of the many students he inspired as a teacher and Headmaster.

PERSONAL EXPLANATION

HON. ALLEN BOYD

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. BOYD. Madam Speaker, due to personal reasons, I was unable to attend a vote. Had I been present, my vote would have been ''yea'' on final passage of H.R. 626, the Federal Employees Paid Parental Leave Act.

SALUTING SERVICE ACADEMY BOUND STUDENTS

HON. SAM JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. SAM JOHNSON of Texas. Madam Speaker, it is a tremendous honor to salute our soldiers, sailors, marines and airmen of tomorrow—the service academy bound students of the Third District of the Texas. This district of Texas is home to some of the best and the brightest young people. I'm truly confident that they are ready to join the premier military force of the world. It is a privilege to send such fine young people on to our nation's prestigious service academies.

We lift these young leaders and their families up in prayer for their future service and sacrifices. I am so very proud of them. God bless them and God bless America. I salute them. The appointees and their schools follow.

THIRD CONGRESSIONAL DISTRICT SERVICE ACADEMY APPOINTMENTS

UNITED STATES AIR FORCE ACADEMY

Matthew Burnham (Plano West Senior High School), Darrell Dancy (USAFA Prep School—From McKinney), Stephen Hunter (Allen High School), Zachary Matthews (Frisco High School), Christine Molina (Ursuline Academy of Dallas—From Dallas), Chad Moore (Home School—From Plano), and Spencer Wood (Frisco High School).

UNITED STATES MILITARY ACADEMY

Richard Hansen (Jesuit College Preparatory School of Dallas—From Richardson), Joshua Koeppe (Prince of Peace Christian School—From Plano), Joseph Ramos (Sachse High School), Jan Redmond (Plano East Senior High School), Zachary Ricketts (St. Benedict at Auburndale—From Parker), Jeff Yao (Plano Senior High School), and Jacek Zapendowski (St. Mark's School of Texas—From Richardson).

UNITED STATES MERCHANT MARINE ACADEMY

Jonathan Espinoza (North Garland High School), Tyler LeCocq (Frisco Centennial High School), and Brian Nichols (Plano Senior High School).

UNITED STATES NAVAL ACADEMY

Jonathan Alston (Plano Senior High School), John Aselton (Plano Senior High

School), Lauren Carpenter (Plano East Senior High School), Jacob Coffey (McKnney Boyd High School), Tyler Mapes (Newman Smith High School—From Plano), Christopher Martinez (Cistercian Preparatory School—From Plano), and Michael Schmeck (John Paul II High School—From Plano).

INTRODUCTION OF THE GYNECOLOGIC CANCER EDUCATION AND AWARENESS ACT OF 2009

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Ms. DELAURO. Madam Speaker, I rise today to introduce the Gynecologic Cancer Education and Awareness Act of 2009: a lifesaving, bipartisan bill to reauthorize Johanna's Law, a national awareness program to educate women about the symptoms, risk factors, and prevention of gynecologic cancers such as ovarian, uterine, and cervical cancers.

Every hour, approximately 10 women in the U.S. are diagnosed with a gynecologic cancer such as ovarian, cervical, and uterine cancers. Each year, we lose over 26,000 of our mothers, sisters, daughters and friends to one of these terrible cancers. This is a tragedy. Research shows that many of those deaths could be prevented if more women knew the risk factors and recognized the early symptoms of gynecologic cancers so that they could discuss them with their doctors. Ovarian cancer has a 90 percent survival rate if detected in Stage One and only a 20 percent survival rate if detected in Stage Three or Four.

That is why, in December 2006, Congress passed the Gynecologic Cancer Education and Awareness Act—also known as Johanna's Law, named for Johanna Silver Gordon, a dynamic and dedicated public school teacher, a loving and beloved mother, daughter, sister, aunt and friend. Despite being a health conscious woman who visited the gynecologist regularly for pelvic exams and PAP smears, Johanna was blindsided by a late stage diagnosis of ovarian cancer—learning only after her diagnosis that the symptoms she had been experiencing were common symptoms of ovarian cancer, not those of a minor gastrointestinal problem, as she'd assumed. Sadly, despite multiple surgeries and aggressive chemotherapy, 3½ years after her diagnosis, Johanna lost her life to ovarian cancer. Determined not to allow Johanna's death to be in vain, Johanna's sister Sheryl Silver proposed Johanna's Law.

This bill provides for an education campaign led by the Centers for Disease Control and Prevention to increase the awareness and knowledge of health care providers and women with respect to gynecological cancers. The program has been funded for the past two years, allowing the Centers for Disease Control and Prevention to begin a national awareness campaign about the signs and symptoms of gynecologic cancers.

In order to continue and build on these important efforts, the Gynecologic Cancer Education and Awareness Act of 2009 will reauthorize the CDC's awareness campaign and create a new grant program to support nonprofit organizations in carrying out complementary education and awareness campaigns that extend the reach of the CDC's work. The bill enjoys the support of the Ovarian Cancer National Alliance (OCNA), the National Ovarian Cancer Coalition (NOCC), the Society of Gynecologic Oncologists (SGO), the Alliance for Women's Cancer Awareness, Society of Gynecologic Nurse Oncologists (SGNO), Gynecologic Cancer Foundation, Facing Our Risk of Cancer Empowered (FORCE), CONVERSATIONS: The International Ovarian Cancer Connection, the Cancer Awareness Team for Ovarian Cancer (Ohio), CanSurvive Support Group, UAB Gyn-Oncology (Alabama), Capitol Ovarian Cancer Coalition (COCO) (Kentucky), Colorado Ovarian Cancer Alliance, Minnesota Ovarian Cancer Alliance, Nine Girls Ask (California), OASIS of Southern California, Ovacome United States (Florida), Ovarian and Breast Cancer Alliance of Washington State, Ovarian Cancer Alliance of Arizona, Ovarian Cancer Coalition of Greater California, Ovarian Cancer Alliance of Oregon and Southwest Washington, Ovarian Cancer Orange County Alliance, Ovar'Coming Together (Indiana), Ovarian Awareness of Kentucky, Sandy Rollman Ovarian Cancer Foundation (Pennsylvania), Space Coast Ovarian/Gynecologic Cancer Alliance (Florida), and the Women's Cancer Awareness Group (California).

I urge my colleagues to support this bill and to move swiftly to ensure that women have the lifesaving information they need about gynecologic cancers.–

PERSONAL EXPLANATION

HON. RUBÉN HINOJOSA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. HINOJOSA. Madam Speaker, on rollcall No. 354, had I been present, I would have voted "yea".

RECOGNIZING THE SIGNIFICANCE OF NATIONAL CARIBBEAN-AMERICAN HERITAGE MONTH

HON. MAXINE WATERS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Ms. WATERS. Madam Speaker, it is with great enthusiasm and reverence that I acknowledge Caribbean-American Heritage Month. Caribbean-Americans have made so many invaluable contributions to our nation's culture and historical development. With an indomitable spirit, resolve, and determination, Caribbean-Americans have maintained their unique cultural and social identity and made incredible strides in carving out their respective place within the American Dream. I want to commend my colleague BARBARA LEE for bringing this measure before the floor.

Numerous Caribbean-Americans have left an indelible mark on American history and culture. For example, Sidney Poitier, who spent his youth on Cat Island in the Bahamas, went on to become the first Black American actor to win an Academy Award. Sidney Poitier was a pioneer and where it once was an unobtainable goal, many Black actors and actresses now have the opportunity to enter an elite group of acclaimed Oscar winners. I also think of the incomparable Harry Belafonte. At his peak, Harry Belafonte was a gifted musician, talented actor, and fierce social activist. Although Harry Belafonte was not born in the Caribbean, he spent a lot of time in his mother's native country, Jamaica.

And lastly, as a Member of Congress, I cannot discount the contributions and achievements of Congresswoman Shirley Chisholm. Congresswoman Chisholm frequently credited her success to the education she received while attending school in Barbados. As the first Black woman elected to the House of Representatives, she was a dedicated public servant and a trailblazer. It is often repeated, that we stand on the shoulders of great men and women who, through diligence and determination, paved the way for African-Americans today to achieve greatness. And as many of those shoulders belonged to Caribbean-Americans, it is truly fitting that we take this month to celebrate their heritage.

Madam Speaker, I am pleased to support H. Con. Res. 127. And as a vocal advocate for the Caribbean, I will continue to do my part and work with my colleagues to help the region face its challenges in hopes of propelling it into a great and prosperous future. So as we take this month to honor Caribbean-American heritage and history, it is my sincere hope that in time, we will be able to celebrate even greater achievements and developments in both the lives of Caribbean-Americans in the United States as well as the nations of the Caribbean.

OBAMA MEDICARE CUTS

HON. GINNY BROWN-WAITE

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Ms. GINNY BROWN-WAITE of Florida. Madam Speaker, President Obama used his weekly radio address last Saturday to outline new cuts to Medicare and Medicaid benefits, totaling over 300 billion dollars.

My continuous fear throughout the health care reform process has been that Democrats will opt to pay for changes to the system on the backs of seniors.

This is unfair to my district, where more Medicare beneficiaries reside than anywhere else in the country.

Among the cuts the President has proposed are reducing payments to hospitals that care for large numbers of the uninsured by $106 billion.

President Obama asserts that because so many people will have health insurance after his reforms, these hospitals will no longer need the money.

But that doesn't account for illegal immigrants, who use the emergency room since they cannot obtain care elsewhere.

Emergency rooms visits are a major driver of health care costs, and if hospitals cannot receive aid from the federal government, they may be forced to eliminate valuable resources you or I may desperately need in the future.

The President also proposed taking $75 billion from the Medicare Part D prescription drug program.

As someone who worked diligently on the bill to provide prescription drug coverage for seniors for the first time in history, I am adamantly opposed to taking money from this program.

The logical assumption is that if the program is cut, Part D plans will be forced to raise seniors' premiums in order to cover their costs.

President Obama is also determined to cut $177 billion from Medicare Advantage plans, which I know my constituents value greatly.

Our nation's 44 million elderly who have worked hard all their lives cannot be ignored in favor of trying to provide coverage to a few million people.

I urge my Democrat colleagues in Congress to make more of an effort to address quality and reform payment systems, instead of taking benefits directly from seniors.

EARMARK DECLARATION

HON. CONNIE MACK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. MACK. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2847—the Commerce, Justice, Science and Related Agency Appropriations Act, FY 2010

Project Name: Emergency Services Technology, Collier County, Florida

Requesting Member: Congressman CONNIE MACK

Bill Number: H.R. 2847—the Commerce, Justice, Science and Related Agency Appropriations Act, FY 2010

Account: DOJ/COPS

Legal Name of Requesting Entity: Collier County, FL

Address of Requesting Entity: 3301 East Tamiami Trail, Naples, Florida 34112

Description of Request/Justification of Federal Funding: $800,000 will be utilized for the acquisition of public safety technology equipment for the Collier County Emergency Services Center. The funding is important because it will help to better equip Collier County's emergency service providers to respond to events that could engender the safety and citizens of Collier County, Florida.

Project Name: FGCU Law Enforcement and Public Safety

Requesting Member: Congressman CONNIE MACK

Bill Number: H.R. 2847—the Commerce, Justice, Science and Related Agency Appropriations Act, FY 2010

Account: DOJ/OJP-Byrne Discretionary Grants

Legal Name of Requesting Entity: Florida Gulf Coast University

Address of Requesting Entity: 10501 FGCU Blvd, S., Fort Myers, Florida 33965

Description of Request/Justification of Federal Funding: $200,000 will be utilized for the development of tools for training and processing crime scenes for use by law enforcement and public safety officials. This work will be done at the Florida Gulf Coast University in its Law Enforcement and Public Safety Department.

PERSONAL EXPLANATION

HON. RUSH D. HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. HOLT. Madam Speaker, on Friday, June 12, 2009, I was in New Jersey welcoming home the soldiers of the New Jersey Army National Guard's 50th Infantry Brigade Combat Team after their tour in Iraq and missed one vote.

Had I been present I would have voted "yes" on H. Res. 532 providing for further consideration of H.R. 1256, the Family Smoking Prevention and Tobacco Control Act; and "yes" to concur in the Senate amendments to H.R. 1256, the Family Smoking Prevention and Tobacco Control Act (rollcall 335).

RECOGNIZING THE SERVICE AND ACHIEVEMENTS OF CAPTAIN THOMAS R. CARNEY, JR., UNITED STATES NAVY

HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. MURTHA. Madam Speaker, I rise today to pay tribute to an outstanding Naval Officer, Captain Tom Carney and to recognize his dedicated service to our Nation. It is a great honor for me to thank Captain Carney and his family for their distinguished service. Captain Carney has proudly and selflessly served our nation for 28 years.

It was during his last assignment as Director of the Secretary of the Navy's Appropriations Matters office that I first came to know Captain Carney. In this capacity, he has proved to be an invaluable link between the Navy and me, my staff, and the Appropriations Committee. Captain Carney has escorted me and other Members of Congress on several occasions as we traveled both home and abroad to review military operations and to confirm the health and welfare of our troops.

On every occasion, Captain Carney performed his duties in an exacting and precise manner. But far more important to me and the members of the Appropriations Committee was the insight he shared with us concerning matters of national security and the Department of the Navy. He clearly understands the role of the Navy in providing for our Nation's security and stability, as well as serving as an ambassador for American values throughout the world.

We have always been able to count on Captain Carney's candor, judgment, and steadfast devotion to duty mixed in with a flair of humor. He was an invaluable asset to me in Congressional deliberations in all matters regarding our Armed Forces, and his perspective on the needs of the Nation with respect to our sea services will be sorely missed.

Madam Speaker, we all know that behind every servicemember there stands a strong and supportive family, so I also want to recognize the Carney family: his lovely wife Nancy, and his son Ryan. They have been stalwart partners in his service to the United States. We can ill afford to forget that it is the strength of family, and indeed their love and support, that make it possible to honorably serve in uniform.

In closing, on behalf of my colleagues on the Appropriations Committee, I want to express my thanks and appreciation for the special contribution Captain Carney has made during his tenure. I am especially pleased to note that Captain Carney was recently selected for promotion to Rear Admiral. We wish Tom Carney and his family continued success and the traditional naval wish of "fair winds and following seas."

RECOGNIZING WILLIAM VEGH

HON. TIM RYAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. RYAN of Ohio. Madam Speaker, I rise this evening in recognition of Holocaust survivor and longtime Mahoning Valley resident Mr. William Vegh of Youngstown, Ohio, who passed away Friday, June 5, 2009. Mr. Vegh was born in Aspa, Czechoslovakia on November 21, 1928. Mr. Vegh and his wife Lucille, married on June 29, 1952, have three children, seven grandchildren, and one great grandchild. He came to the United States in 1948, and worked in the Mahoning Valley for 38 years. He was an active member of the El Emeth Synagogue where he attended services daily.

Mr. Vegh lived through one of the worst horrors visited upon our modern era: The Holocaust. Held in Auschwitz and various other concentration camps, he lost his mother, sister and four of his brothers. After being liberated by the allied forces and settling in Ohio, he dedicated his life after retirement to speaking and educating those around him about the Holocaust and the concentration camps in which he was kept. His utter dedication to this goal helped to ensure that the people of the Valley would never forget both him and the events he endured.

And his ability to inspire did not stop at the borders of Mahoning Valley. His story was documented by the Steven Spielberg Shoah Foundation, a non-profit organization based out of California dedicated to "overcoming prejudice, intolerance and bigotry". He also received many awards and recognitions including the Marvin and Sarah Itts Award for Distinguished Community Service, B'Nai Brith Guardian of the Menorah, J.C. Penney Golden Rule Award, Heroes of Mahoning Valley/American Red Cross, the Janusz Korczak Humanitarian Award, the 2000 Triumphant Spirit

Award and was an Honoree of the Youngstown Area Fraternal Brotherhood. These awards recognize his notable ability to connect with people and inspire them through education.

I would like to commend Mr. William Vegh for inspiring us all with his incredible story and all he has done for the community. I am very proud to have represented him and I wish all the best for his family.

EARMARK DECLARATION

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. MICA. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act. This legislation appropriates $200,000 in the Commerce, Justice, Science and Related Agencies Appropriations bill, Department of Justice Juvenile Justice Account for KidsPeace Florida Therapeutic Foster Care Program in my district. The entity to receive this funding is KidsPeace Florida located at St. 711 Ballard Street, Altamonte Springs, FL 32701.

The funds from this request will (1) provide community-based placement to children involved with or at risk for involvement with the juvenile justice system; (2) address the mental health needs of children in the social service system; and (3) provide safe and supportive homes to children.

This legislation appropriates $250,000 in the Department of Justice COPS Law Enforcement Technology Account for St. Johns County in my district. The entity to receive this funding is St. Johns County located at 2740 Industry Center Road, St. Augustine, FL 32084.

The funds from this request will be used to improve the communications equipment that allows the cities and County to communicate during an emergency.

This legislation appropriates $400,000 in the Commerce, Justice, Science and Related Agencies Appropriations bill, Department of Justice COPS Law Enforcement Technology Account for the City of Maitland, Florida in my district. The entity to receive this funding is the City of Maitland, Florida located at 1 776 Independence Avenue, Maitland, Florida 32751.

Funding will be used for the critical Public Safety Radio System technology upgrades and Mobile Data Terminals for the Maitland Police Department.

This legislation appropriates $150,000 in the Commerce, Justice, Science and Related Agencies Appropriations bill, Department of Justice COPS Law Enforcement Technology Account for Volusia County, Florida in my district. The entity to receive this funding is Volusia County, Florida located at 123 West Indiana Avenue, DeLand, FL.

The Volusia County Sheriffs Office will use these funds for information technology systems upgrades to support a new evidence photo management system. The new system will provide for secure storage of evidentiary images to assist in the identification, apprehension, and prosecution of suspects.

INTERNATIONAL WHALING COMMISSION

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. RAHALL. Madam Speaker, today I am introducing legislation to amend the Whaling Convention Act of 1949 (Act) to require that the United States Commissioner to the International Whaling Commission (IWC) be a Federal employee.

The Act sets out conditions for the appointment of the U.S. Commissioner to the IWC. It provides that the U.S. Commissioner shall be appointed by the President on the concurrent recommendations of the Secretaries of State and Commerce, and establishes that the Commissioner shall serve at the pleasure of the President.

My legislation would add a requirement that any such individual must also be an employee of the Federal Government to ensure that the positions of the Administration are represented by the Commissioner. It would apply to any individual who is appointed, or reappointed, as U.S. Commissioner to the IWC on or after the date of enactment.

This amendment would bring the International Whaling Commission into line with other international fora, such as the Inter-American Tropical Tuna Commission.

It also would signal a shift in our approach to ending commercial whaling in all its forms at the IWC. Under the last Administration the U.S. Commissioner sought to negotiate an agreement that would legitimize commercial whaling and allow the continuation of so-called scientific whaling. This policy direction was very clearly at odds with the wishes of the American people, past Administrations, and numerous Members of Congress. Further, while we all want to reduce the number of whales killed, unfortunately the proposed agreement would not have achieved this goal.

Last year at this time, the House of Representatives passed House Concurrent Resolution 350, which, among other things, urged U.S. leadership to use all appropriate measures to put an end to all forms of commercial whaling around the globe.

In the first days of the Obama Presidency, I urged him to ensure that the Bush Administration's flawed policies and negotiation tactics become a thing of the past. Just last month, 34 of my colleagues joined me in calling upon the Obama Administration to modernize the IWC and bring it in line with other international conservation treaties.

This bill is the first step in that direction. It is time to set new goals for protecting whales with an explicit commitment to the accountability and transparency that were lost during the last eight years.

In her public statement issued prior to this year's Intersessional Meeting of the IWC, Council on Environmental Quality Chair Nancy Sutley confirmed that the Obama Administration views the commercial whaling moratorium as a necessary conservation measure and believes that lethal scientific whaling is unnecessary for modern whale conservation management.

In that spirit, it's time for a new direction for the IWC, with a new policy and a new agreement to end commercial and so-called scientific whaling. I look forward to working with the Obama Administration, and this bill will ensure that the next U.S. Commissioner, who will be appointed this year, will be an employee of their Administration, fully in step with their new approach and commitment to opposing the resumption of commercial whaling.

As the 61st Annual Meeting of the IWC convenes next week in Madeira, Portugal, I again urge the Obama Administration to take the necessary steps to repair the damage done in recent years and to reestablish our nation's longstanding commitment to protecting whales.

As a symbol of that new day, I ask my colleagues to support this legislation.

HONORING SARAH YANG, MINNESOTA'S NATIONAL HISTORY DAY REPRESENTATIVE

HON. MICHELE BACHMANN

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mrs. BACHMANN. Madam Speaker, I rise today to honor Ms. Sarah Yang of Ramsey, Minnesota. Sarah is serving as the Minnesota representative for the National History Day competition and it is my honor to call attention to the hard work and dedicated effort she has put into her project.

Since October, Sarah has been researching information on Xang Vang, a Hmong community advocate in Minnesota, in concert with the competition theme of, ''The Individual in History: Action and Legacies.'' She was first selected as a winner from Anoka High School and then selected among 30,000 students from Minnesota. Her project, ''Restoring Roots: Xang Vang & the Regeneration of Minnesota's Hmong Economy'' has culminated in a website that chronicles the life and work of Vang.

Madam Speaker, I rise today to honor Sarah Yang and all the students who have participated in National History Day. We're often told, ''We can't know where we're going until we know where we've been.'' Sarah is just one representative of thousands of students who have taken ambitious strides to learn the history that will guide them to a bright and successful future. Congratulations to Sarah for making it this far and I hope we will continue to see more students taking part in National History Day every year.

PERSONAL EXPLANATION

HON. SHELLEY BERKLEY

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Ms. BERKLEY. Mr. Speaker, I was unable to vote on rollcall Nos. 340 through 350. Had

I been present, I would have voted "aye" on each. Thank you.

HONORING THE RETIREMENT OF JUDY BARNES AS CEO OF THE HOME BUILDING ASSOCIATION OF GREATER GRAND RAPIDS

HON. VERNON J. EHLERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. EHLERS. Madam Speaker, I rise today with mixed emotions to honor my good friend, Judy Barnes, who retires as Chief Executive Officer of the Grand Rapids Home and Building Association, HBA, of Grand Rapids on June 30, 2009. Judy has been energetic and optimistic in her duties at the Association, where she has served as CEO for 25 years.

Judy's great attitude and outlook on life helped her successfully lead the homebuilding industry in Grand Rapids through good times and bad. When she took over as CEO in 1984, she helped grow the relatively small group to one of the largest HBAs in the nation through her solid work ethic and passion. Her professionalism and leadership skills garnered the respect of her constituency and the community, as she spoke on behalf of the HBA throughout the years.

The Parade of Homes is an annual tradition for the Grand Rapids area, and for Judy Barnes. She played a key role in planning this fantastic event each year, and helped expand the number of homes in the event to over 250 at its peak. While the downturn in the homebuilding industry has reduced the number of homes in the Parade recently, it is still a great event that visitors have thoroughly enjoyed, thanks to Judy's hard work.

Even as the housing industry fell upon difficult times, Judy never lost her optimism, and showed compassion as people lost homes to foreclosure, and as builders had difficulty staying in business. In an interview with the Grand Rapids Press, Judy said, "The [homebuilding] industry will rebound. . . . I know it will be great again."

I wish Judy, and her husband Stan, the best of everything as they enter a new chapter in their lives. Judy has the wishes and blessings of many, many people who are grateful for her hard work and dedication, and also appreciate her contagious laughter and smile. Her hard work and personality will be greatly missed.

TRIBUTE TO JUDGE PAUL A. FINO

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. ENGEL. Madam Speaker:

Judge Paul A. Fino, on June 16th, 2009, at the age of 95. Devoted husband of 70 years to Esther C. Fino. Beloved and dedicated father of Lucille A. DiMuro (Peter DiMuro) of Menlo Park, California and Paul A. Fino, Jr. (Kathleen Fino) of Bronxville, New York. Judge Fino was the proud grandfather of 3 grandchildren and 8 great grandchildren.

Judge Fino dedicated the majority of his life to public service. From 1943–1944 Assistant Attorney General of the State of New York (Bureau Chief of the Criminal Division of the Education Bureau); 1945–1950 New York State Senator (Chairman of the Senate Committee on the Affairs of the City of New York); 1950–1952 Commissioner for the Municipal Civil Service Commission; 1953–1968 United States Congressman (Member of the House Committee on Veterans' Affairs, Member of the House Banking & Currency Committee, Member of the Joint Committee on Defense Production; 1961–1968 Chairman of the Bronx Republican County Committee (County Leader), 1969–1972 Justice of the Supreme Court of the State of New York (First Department), 1973–1975 member of the law firm of Fino & Fino, PC.

During his lifetime Judge Fino was a member of The Knights of Columbus (Wakefield Council 2922), BPO Elks, USA (New Rochelle Lodge 756), U.S. Assoc. of Former Members of Congress (Life Member), Locust Point Yacht Club, Bronx County Bar Association, Royal Arcanum (Claremont Council), The American Justinian Society of Jurists, Association of Justices of the State Supreme Court, National Association of Retired Federal Employees, PEF Retirees, American Association of Retired Persons. Supreme Court Justices of the City of New York, Civil Service Employees Association, Order of Ahepa (Bronx Chapter No. 175), Retired Public Employees Association. Judge Fino was also the author of "My Life in Politics and Public Service," published in 1986.

CELEBRATING THE 20TH ANNIVERSARY OF THE ANNUAL FATHER'S DAY "REAL MEN COOK"

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. RANGEL. Madam Speaker, I rise today to celebrate the 20th anniversary of Father's Day Real Men Cook, which takes place simultaneously in 10 leading cities throughout the nation, in the Bahamas, on the continent of Africa, in London and Paris, and of course in my Congressional District in Harlem, New York.

Founded by Kofi and Yvette Jackson Moyo in 1990, Real Men Cook has become the largest family celebration in the country, presented annually on Father's Day. Real Men Cook includes average dads and father figures, leading celebrities and elected officials, like Eddie and Gerald Levert, and Marc Morial, President of the National Urban League, and I have cooked, served and hosted Real Men Cook events. President Barack Obama as a United States Senator is among the thousands of men who have rolled up their sleeves and donned a Real Men Cook bandana, apron or chef's hat to make a difference and change the way Father's Day is celebrated for the benefit of others.

Today, Real Men Cook is the leading urban Father's Day experience. It is a food tasting family celebration featuring men volunteering to cook for and serve in their communities. Proceeds from ticket sales are enjoyed by partnering non-profit organizations throughout the ten cities. I am pleased to announce that the Real Men Cook event in my Congressional District will take place in the plaza of our historic Adam Clayton Powell, Jr. Harlem State Office Building, featuring Iron Chef Dizzar and other renowned Harlem culinary artists. The proceeds raised from this event will benefit Harlem Congregations for Community Improvement, Inc.'s Computer Clubhouse for children ages 10 to 18, the New York City Mission Society and Real Men Cook Charities.

Madam Speaker, let me also thank and recognize our sponsors Mr. Willie Walker and the New York State Office of General Services; Lucile McEwen, President and CEO, HCCI; Affinity Health Plus; TD Bank; MACY's; and WBLS for continuing to make a difference for all of my constituents, especially our children and families struggling during these tough economic times.

Happy Father's Day to all of the participating fathers for giving up Father's Day pampering to make a difference, not only in my district, but throughout this nation and the world.

DIRECTING THE ARCHITECT OF THE CAPITOL TO PLACE A MARKER IN EMANCIPATION HALL IN THE CAPITOL VISITOR CENTER WHICH ACKNOWLEDGES THE ROLE THAT SLAVE LABOR PLAYED IN THE CONSTRUCTION OF THE UNITED STATES CAPITOL

HON. MAXINE WATERS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Ms. WATERS. Madam Speaker, I rise in support of House Concurrent Resolution 135, directing the Architect of the Capitol to place a marker in Emancipation Hall in the Capitol Visitor Center which acknowledges the role that slave labor played in the construction of the United States Capitol. I commend my colleague, and fellow Congressional Black Caucus member JOHN LEWIS, for acknowledging the importance of this measure and presenting it before the House.

I feel strongly that the history of the African-American struggle must be taught and celebrated, even as we plan for our future. African-Americans performed the backbreaking work of quarrying the marble which surrounds us. Until recently, the history books failed to recognize that slaves provided many of the laborious construction tasks, such as masonry, carting, roofing, plastering, glazing, and sawing—which involved slaves stationed in pits from where, with a partner above ground, they would use a whipsaw to cut logs rolled over the pit. Labor wasn't solely for the adult males—slave women and children were used to mold clay in kilns.

In an article from the Associated Press, Sarah Jean Davidson, founder of the Association for the Preservation of North Little Rock, Arkansas African American History mentioned an important connection that this new marker affords. "We can say our ancestors helped build the Capitol so when we look at it, it's not 'your building, the majority', it's our building . . . It will be a connection not just for African-

Americans, but for immigrants who come from all around the country. . . . Once they start feeling connected, then we are one,'' she said. In addition, the great hall of the Capitol Visitor Center was named Emancipation Hall specifically to acknowledge the work of the slave laborers who built the Capitol and this marker provides a source for interested parties to learn about our history.

Madam Speaker, this measure is particularly important as it commemorates an under-appreciated aspect of America's history and I'm pleased to add my voice in support for this resolution. I will work diligently with my colleagues to ensure that this marker is created and maintains the ability to educate those who come in contact with it. This is a significant step in raising the profile and awareness of how African-American history is intertwined with the federal legislative body and I hope that this measure passes unanimously.

TRIBUTE TO BISHOP EUSTACE S. CLARKE AND MIAMI RIDGEWAY CHURCH OF GOD OF PROPHECY

HON. KENDRICK B. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. MEEK of Florida. Madam Speaker, today I rise to congratulate Bishop Eustace S. Clarke and the members of Miami Ridgeway Church of God of Prophecy on their new sanctuary. Bishop Clarke led his congregation in celebrating the achievement of this beloved church, which has become a citadel of faith in the Miami-Dade County community.

In 1922, Miami Ridgeway Church of God of Prophecy began in a small community called Nazarene in the Northeast area of Miami, Florida. Their first pastor was the late Evangelist Andrew Bullard. He was then succeeded by the late Bishop J.R. Smith who served as pastor until 1930. During the mid-1930s, Brother Ed Rolle served as pastor until the late Bishop J.R. Smith returned and served again until 1939. Other pastors throughout the history of Miami Ridgeway Church of God of Prophecy include: the late Brother Hermis Ferguson, late Bishop Henry Curtis, late Bishop Theophilus Hunter, late Bishop J.D. Williams, Bishop R.B. Davis, and Bishop George H. Knowles.

In 1983, Bishop Eustace S. Clarke, the present pastor, joined the Church's family. A Jamaican native, Bishop Clarke came to the United States as a migrant worker for the Belle Glade, Florida Sugar Cane Corporation. Bishop Clarke married his wife, Mrs. Emily Clarke on March 25, 1962. After nearly 47 years of marital bliss, Bishop Clarke and his wife are blessed with 14 children. Bishop Clarke has remained the pastor for the past 26 years.

While serving at Miami Ridgeway Church of God of Prophecy, in 1999 Bishop Clarke began to follow through with his vision for a larger sanctuary. Groundbreaking for this endeavor began in 2000. Though there were many obstacles and unforeseen delays, the Church will now dedicate their completed ''House for God'' on June 28, 2009.

Madam Speaker, please join me in applauding and congratulating Bishop Eustace S. Clarke and the members of Miami Ridgeway Church of God of Prophecy on their new sanctuary. Miami Ridgeway Church of God of Prophecy has been dedicated to providing spirituality, service and guidance to the Church and greater community of South Florida. It is my hope that Miami Ridgeway Church of God of Prophecy continues to stand as a beacon of resolve, inspiration and worship for many years to come.

HONORING THE MEMORY OF FRANK EIKENBURG, FORMER LEGISLATOR

HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. HALL of Texas. Madam Speaker, I am honored to pay tribute to Frank Eikenburg of Dallas, TX, devoted member of the Republican Party and my good friend, who passed away June 4th at the age of 64.

Mr. Eikenburg was a respected member of the Texas House of Representatives from 1980 until he chose not to seek re-election in 1984. He was a respected leader in the Republican Party, and his contributions to the State were generous. He was known as a kind and honest man, unafraid to stand up for his beliefs. He was always able to find the humor in life.

Along with his service to the State of Texas in the Texas House of Representatives, Mr. Eikenburg was appointed by Governor Bill Clements to serve on the Texas Board of Pardons and Paroles from 1989 until 1991. He spent the later years of his life as a political consultant, striving to uphold the conservative values he believed would make the country a better place.

Born July 7, 1944 in Wellington, TX, the son of Frank and Margaret Eikenburg, Mr. Eikenburg was a true Texan born and bred. He grew up in Dallas where he graduated in 1962 from Woodrow Wilson High School and obtained his Bachelor's degree from what is now Texas Tech University in 1966. His passion to serve his country, along with his leadership ability, was shown in his early years through his service in the U.S. Air Force during the Vietnam War. He was honorably discharged as a staff sergeant in 1967.

He is survived by his daughter Constance Emily Eikenburg of Dallas, two sisters Madelyn Brooks of Dallas and Livonia Gay Glaves of Houston, sisters-in-law Elizabeth Eikenburg and Beth Eikenburg, and many nieces and nephews.

He leaves behind a legacy of service and commitment to conservative principles, and I ask those here today to join me in remembering this outstanding American, Mr. Frank Eikenburg.

EARMARK DECLARATION

HON. HOWARD COBLE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. COBLE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I am requesting as part of H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act of 2010.

Requesting Member: Congressman HOWARD COBLE

Bill Number: H.R. 2847

Account: Department of Justice Byrne Discretionary Grants account

Legal Name of Requesting Entity: New Man Community Development Corporation

Address of Requesting Entity: New Man Development Community Corporation, P.O. Box 98, Rehrersburg, PA 19550. Funds will then be distributed to each partner center, including Sandhills Teen Challenge, P.O. Box 1701, Southern Pines, NC 28388

Description of Request: $25,000 is provided for the New Man Community Development Corporation, a community-based, private, nonprofit corporation, partnered with Teen Challenge Training Center to provide vocational training to individuals seeking addiction treatment at one of 10 residential addiction treatment programs, one located in my district in Carthage, North Carolina. The Employment Preparation Project will provide year-round, pre-employment preparation training five days per week for four weeks to individuals in the last month of a four-month addiction recovery program.

Requesting Member: Congressman HOWARD COBLE

Bill Number: H.R. 2847

Account: COPS Law Enforcement Technology account

Legal Name of Requesting Entity: City of Kannapolis, North Carolina

Address of Requesting Entity: 932 Floyd Street, Kannapolis, NC 28083

Description of Request: $575,000 is provided for this project, called the Kannapolis Regional Radio Upgrade, to maintain emergency service interoperability with the surrounding region through the conversion of the emergency communication system from analog to digital. Moreover, funds would be used to upgrade the regional radio system with a fully digital network which operates in a frequency range compatible with other state and federal law enforcement agencies.

Requesting Member: Congressman HOWARD COBLE

Bill Number: H.R. 2847

Account: Department of Commerce International Trade Administration account

Legal Name of Requesting Entity: Textile/Clothing Technology Corporation [TC]2

Address of Requesting Entity: 5651 Dillard Drive, Cary, NC 27518

Description of Request: $965,000 is provided for [TC]2, a consortium of fiber, fabric and apparel producers, organized labor groups, retailers, academic institutions and

government agencies focused mainly on improving textile and apparel production techniques. This is an on-going project of research, discovery and dissemination of appropriate technologies for use in the apparel, sewn products, and soft goods industry. [TC]2 provides seminars, short courses, consulting, and demonstrations to industry leaders. It also provides leadership and visions for an industry that has sustained serious job losses in the past decade.

Requesting Member: Congressman HOWARD COBLE

Bill Number: H.R. 2847

Account: Department of Commerce International Trade Administration account

Legal Name of Requesting Entity: National Textile Center

Address of Requesting Entity: Campus Box 7214, Administrative Services III, Raleigh, NC 27695–7214

Description of Request: $1,800,000 is provided for the National Textile Center (NTC), a research consortium that serves the USA Fiber/Textile/Fiber Products/Retail Complex. NTC was established to achieve three primary goals: (1) Research: To discover, design and develop new materials, innovative and improved manufacturing, and integrated systems essential to the success of a modern U.S. textile enterprise; (2) Education: To train personnel, establish industrial partnerships and create transfer mechanisms to ensure the utilization of technologies developed; (3) Partnership: To strengthen the nation's textile research and educational efforts by uniting diverse experts and resources in unique collaborative projects.

THE WOMEN'S OBSTETRICIAN AND GYNECOLOGIST MEDICAL ACCESS NOW ACT (THE WOMAN ACT)

HON. SUSAN A. DAVIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mrs. DAVIS of California. Madam Speaker, today, I am reintroducing the Women's Obstetrician and Gynecologist Medical Access Now Act, the WOMAN Act. This bill will ensure that every woman has direct access to her ob-gyn.

I believe women should not need a permission slip to receive ob-gyn care. Unfortunately, that is the reality faced by many women when they need to see their doctor. Numerous managed care plans require women to visit their primary care physicians before seeking the health care services they need from the providers they want. Denying direct access or forcing women to jump through numerous bureaucratic hoops to see their ob-gyn is not acceptable treatment.

The WOMAN Act recognizes women have different medical needs than men and the significant role ob-gyns play in women's health. Women who see an ob-gyn on a regular basis are more likely to receive important screening services, such as pelvic exams, as well as counseling on critical reproductive health issues. My legislation removes the barriers complicating women's access to their doctors. Women will no longer have to contend with the gatekeeper system that can prevent or delay appropriate care.

It is easy to understand what a difference direct ob-gyn access makes in women's health care. Imagine, for a moment, a woman in San Diego who works 45 hours a week and has limited sick and vacation time. Now, imagine she has an urgent medical problem requiring an ob-gyn visit. On Monday, she calls from work to make an appointment with her primary care physician. If she is lucky, she gets an appointment for the following morning. She takes time off Tuesday to go see her doctor. Her primary care doctor agrees she should be seen by her ob-gyn and gives her a referral. Tuesday afternoon she returns to work and calls her ob-gyn for an appointment. The doctor is in surgery on Wednesday, but they offer her an appointment on Friday morning. On Friday she takes another morning off from work and finally, after almost a week, gets the care she needs. The unnecessary referral process resulted' in her taking an extra morning off work and delayed her proper medical care by 5 days. The patient, employer, primary care physician, and health plan provider would have saved money and time if the patient had been able to go directly to her ob-gyn.

While serving in the California State Assembly, I heard from many women who experienced the same problems I have outlined. After meeting with women, obstetricians and gynecologists, health plan representatives, and providers in the State of California, I wrote the state law allowing women direct access to their ob-gyn. That law was a good first step; however, it still does not cover women enrolled in self-insured, federally regulated health plans. This means that even if a woman lives in a state with direct access protections, like California, she may not be able to see her ob-gyn without a referral if she is covered by a federally regulated ERISA health plan. In addition, there are still states which still do not provide women with direct access to ob-gyns!

Women save time and money with better access to ob-gyn care. I believe the time has come to make direct access to an ob-gyn a national standard.

I urge you, Madam Speaker, and all of my colleagues to pass this critical legislation into law.

CONGRATULATING STEVE LEBLANC, CITY MANAGER OF GALVESTON, TEXAS

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. PAUL. Madam Speaker, I am pleased to congratulate Mr. Steve LeBlanc, City Manager of Galveston Texas, on being named Administrator of the Year by the Texas City Management Association (TCMA). Steve received this award because of the leadership he provided to Galveston in the aftermath of Hurricane Ike. Since my congressional district includes Galveston, my office has had the opportunity to work closely with Steve. I have always been impressed with his dedication to the people of Galveston, a dedication best exemplified by his tireless efforts to help Galveston rebuild, following the devastation of Hurricane Ike.

A longtime resident of Galveston Island, Steve has a Bachelor of Science in Coastal Engineering from Texas A&M and a Master of Business Administration from the University of Houston. He has served as Galveston's city manager since March 1997. Before being named city manager, Steve held several positions with the city including Director of Utilities, Director of Public Works, and Assistant City Manager.

In conclusion, Madam Speaker, I once again extend my congratulations to Galveston City Manager Steve LeBlanc on being named Administrator of the Year. I also thank him for all he does for the people of Galveston. It is my sincere hope that Galveston benefits from Mr. LeBlanc's services for years to come.

IN HONOR OF MAJOR GENERAL THOMAS F. DEPPE VICE COMMANDER, AIR FORCE SPACE COMMAND

HON. DENNY REHBERG

OF MONTANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. REHBERG. Madam Speaker, let me take this opportunity to pay tribute to retiring Major General Thomas F. Deppe. General Deppe became Vice Commander of Air Force Space Command in August, 2007. As Vice Commander, he provides leadership to the world's greatest space and missile force.

General Deppe began his Air Force career in 1967 when he graduated from Basic Military Training. His distinguished career is characterized by his Master Missileer Badge, Command Space Badge, Space Professional Level III certification, operational space experience in nuclear operations and spacelift, weapon systems expertise in the Minuteman II, Minuteman III and Peacekeeper ICBMs, Hound Dog and Quail Air-Launched Cruise Missiles, the Ground-Launched Cruise Missile and the Atlas III, Titan IV, Delta II and Delta III boosters. General Deppe's exemplary career is marked by command, operational and leadership positions in a variety of Air Force and Joint assignments.

General Deppe began his illustrious Air Force career as a Missile Instrumentation Electronics Technician. He had a series of aircraft munition assignments and rounded out his enlisted service with an Air Force recruiting position, achieving the rank of Technical Sergeant. In 1977, General Deppe received his commission through the Officer Training School. This led him to his first assignment in Montana at Malmstrom Air Force Base. General Deppe's Air Force journey as an officer would take Eileen and him through a series of Wing, Air Staff and Joint assignments relating to strategic and tactical missile and space systems. He operated the Ground-Launched Cruise Missile in Europe and later served as the Commander of the 351st Organizational Missile Maintenance Squadron in Missouri at Whiteman Air Force Base. Additionally, he commanded the 90th Logistics Group at

Francis E. Warren Air Force Base, Wyoming and the 341st Space Wing in Montana. While assigned to the National Military Command Center, he directed actions during the early days of Operation IRAQI FREEDOM and the Space Shuttle Columbia recovery effort. General Deppe went on to command the Air Force's land-based strategic deterrent force at 20th Air Force in Wyoming before his present assignment as the Vice Commander of Air Force Space Command.

During General Deppe's tenure as Vice Commander, Air Force Space Command, he provided inspirational leadership to over 39,000 personnel responsible for a global network of satellite command and control, communications, missile warning and space launch facilities, and ensured the combat readiness of America's ICBM force. Exploiting his unique blend of operational experience and staffing acumen, General Deppe championed the implementation of a new Management Headquarters construct through Air Force Space Command's ''Lanes-In-The Road'' initiative. The results clearly aligned the Command's headquarters organizations with its own functional concepts as well as the operational mission areas outlined in the United States Air Force Concept of Operations. In addition, he guaranteed the future viability of the Air Force Nuclear Enterprise by driving major system revitalization initiatives, to include the Air Force Chief of Staff-approved creation of an ICBM Weapons Instructor Course at the United States Air Force Weapons School. He was instrumental in successfully implementing visionary space mission area initiatives with wide-ranging national and international implications, to include the Launch and Range Enterprise Transformation effort, the Commercial and Foreign Entities Support Pilot Program and the operational expansion of on-orbit Global Positioning System and Wideband Global Satellite communications capabilities. Finally, General Deppe oversaw the command's lead role to stand-up the 24th Air Force to execute the Air Force's cyberspace mission.

Madam Speaker, the American people have been fortunate to have General Deppe serving as the Vice Commander of Air Force Space Command for the past two years. General Deppe's leadership was an essential element in winning the Cold War and vital to Air Force Space Command's support of combat operations around the world to include Operations ENDURING FREEDOM, IRAQI FREEDOM, the Global War on Terrorism and Overseas Contingency Operations. His exemplary character and dedication to service have resulted in a career of which he, his wife Eileen, and their three children, Lisa, Tom and Ken, can be very proud. I know my fellow Members of the House of Representatives will join me in thanking him for his commitment to his Nation and in wishing him all the best in the years ahead.

EARMARK DECLARATION

HON. MARY BONO MACK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mrs. BONO MACK. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2847, Commerce and Justice, and Science, and Related Agencies Appropriations Act:

Requesting Member: MARY BONO MACK

Bill Number: H.R. 2847

Account: Department of Justice, OJP—Juvenile Justice

Entity Requesting: Olive Crest, 2130 E. 4th St., Ste. 200, Santa Ana, CA 92705, 714–543–5437; Coachella Valley Location, Olive Crest, 47350 Washington, Ste. 101 B, La Quinta, CA 92253

Description of Earmark: $100,000 is provided for Olive Crest Independent Living Skills (ILS) Program. Since 1973, Olive Crest Homes and Services for Abused Children—a 501(c)(3)—has been a leader in providing care for abused, abandoned and severely neglected children. Olive Crest is dedicated to preventing child abuse, to Treating and Educating at-risk children and to Preserving the family... ''One Life at a Time.'' Olive Crest offers a wide variety of services and resources to meet the needs of every child and family in its care. Olive Crest, which serves the individuals in my district throughout the Coachella Valley through its facility in La Quinta, California. This includes the following five divisions: Family Preservation; Foster-Adoption; Education; Residential; Community Involvement.

Olive Crest's Independent Living Skills (ILS) Program. The federal nexus of this program is to assist in the development of better citizens who are able to be productive members of society.

This project would fund Olive Crest's Independent Living Skills (ILS) program that provides a variety of services that work to break the multi-generational cycle of crime, drug abuse and child abuse.

Olive Crest's Independent Living Skills (ILS) program is designed to prepare youth for successful independent living. It is a three phase program for at-risk youth ages 15 to 24. The program assists at-risk youth in developing tools that will enable them to foster relationships and become responsible for themselves.

The ILS program is implemented in 3 phases:

1. Support Groups
2. Contracts (ILS Workbooks)
3. The Future Plan

At-risk youth can be involved in all three phases concurrently.

During Phase 1, the at-risk youth attend a group meeting for 10 consecutive weeks that focus on the emotional aspects of emancipating. Living skills training components include interpersonal relationships, conflict resolution and responsibility, parenting, sex education, personal safety and hygiene, health issues, alcohol, drugs and tobacco, anger management, budget management, banking, nutrition and cooking, shopping and other topics as they are identified.

During Phase 2, youth complete a series of 10 contracts related to the skills they will need when they emancipate. The contracts include banking, career, housing, transportation, education and other need topics. Higher education such as trade school certificates program, and colleges are other options for the youth. Staff will help youths with the college applications process.

During Phase 3—Each youth in the program will work on a Future Plan immediately upon entrance into the program. The ILS Coordinator will work with the youth to create the plan. The youth will meet weekly with the ILS Coordinator to review progress/goals of the plan for the first six months and monthly thereafter.

Spending Plan: Project Expenditures—Olive Crest currently invests $2,650,000 in the Inland Empire (California) to provide services to more than 100 Olive Crest at-risk youth. Olive Crest invests $525,000.00 to support Independent Living Support (ILS) program. For the last 20 years, Olive Crest has provided an ongoing private match of dollars and in-kind services of at least 10%. Last year, the match was $260,000. The $100,000 appropriation will be used to fund Olive Crest Independent Living Skills program.

2) Requesting Member: MARY BONO MACK

Bill Number: H.R. 2847

Account: Department of Justice, COPS Law Enforcement Technology

Entity Requesting: Eastern Riverside County Interoperability Communication Authority, 46800 Jackson Street, Indio, California 92201

Description of Earmark: $500,000 is provided for Eastern Riverside County Interoperability Communication Authority (ERICA). The ERICA involves a regional collaboration among the cities of Cathedral City, Desert Hot Springs, Indio, Palm Springs, La Quinta, and Coachella. Recent Federal mandates highlight the urgency to upgrade radio communication to digital, interoperable 800 MHz frequency and be Project 25 compliant for agencies in Congressional Districts 41 and 45. The Federal funding for ERICA would be used to purchase equipment, hardware, software, facilities, engineering and labor to build an 800 MHz, trunked, P–25 compliant, digital, regional radio system. It should also be noted that in total, the cities, county, and tribal governments participating in ERICA have agreed to invest $23,000,000 in this initiative.

The federal nexus of this project is to develop a communications system that can assist law enforcement and federal personal in protecting life and property, which includes federal lands, in eastern Riverside County.

Spending Plan: Project Expenditures—The dollars appropriated for Eastern Riverside County Interoperability Communication Authority in CJS, under the project title of Eastern Riverside County Interoperability Communications Authority (ERICA), will be used for equipment costs to support the ERICA system.

Requesting Member: MARY BONO MACK

Bill Number: H.R. 2847

Account: Department of Justice, Byrne

Entity Requesting: City of Moreno Valley, 14177 Frederick Street, Moreno Valley, CA 88005

Description of Earmark: $500,000 will continue and enhance the City's gang intervention strategies including enforcement, community awareness, education, and the integration of local organizations such as school districts and private entities. It is critical that the City of Moreno Valley have the resources to develop more strategic, coordinated, and collaborative efforts between local enforcement agencies, social service providers, and the general public. The objective of the City's gang prevention program is to significantly curtail gang involvement, and its negative impact, in the Moreno Valley community.

In addition to the Administrative, Patrol, and Detective services they provide to the community, the Moreno Valley Police Department has implemented a number of crime prevention services and programs to specifically intervene in and prevent crime and gang involvement. The 2008/09 Fiscal Year police budget for crime prevention and special enforcement programs, including gang-related crimes, is nearly $7 million. The requested funds will be utilized throughout the 2010/11 Fiscal Year to enhance existing gang prevention efforts.

The federal nexus is to assist crime fighting efforts. Gangs are often involved in the violation of federal crimes and this funding seeks to contribute to that crime fighting effort.

Spending Plan: Project Expenditures—One unsupported Gang Task Force Officer (one year)—$120,245

One fully supported Special Enforcement Team Gang Officer (One year)—$220,275

1,916 hours of G.I.F.T. program overtime—$104,766

1,000 hours of SET Gang officer overtime—$54,680

This overtime would be used to prepare gang enhancements, participate in community meetings to address gang issues, investigate gang-related crime, and conduct other gang-specific enforcement.

Total: $499,966.

A TRIBUTE TO STEPHEN T. JOHNS

HON. CAROLYN C. KILPATRICK

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Ms. KILPATRICK of Michigan. Madam Speaker, I submit the following poem for submission into the CONGRESSIONAL RECORD. It was written by Mr. Albert Carey Caswell, in memory of a fallen servicemember, a great father and a fine human being, Mr. Stephen T. Johns. It is also for his son who will carry his memory for the rest of his life, Stephen T. Johns, II. It is entitled, "Hate is Hard."

HATE IS HARD

Hate is Hard...
Oh how it makes me cry...
When, I see all of those tears in your young child's eyes...
Hate is Hard...
As it takes all we have!
To fight that battle, to so win that war... so all in time to all hearts grab...
Hate is Hard!
As why was built, this temple... this shrine...
To all hearts, to so remind...
To remind us all, hate is hard... and what hope can find...
To somehow, somewhere... so very deep down inside...
To win this battle, to bring that light...
Hate is Hard...
Just look at those tears now in your child's eyes...
This precious son, just like all those other ones...
Who's beloved parents, who too have so died...
All in this battle! All in this fight!
'Oh, how it makes me cry!
Hate is Hard...
As it takes all of your might! To win that battle, that fight!
As why!
In this place of remembrance, our Lord so placed Big John...
With your warm heart so right...
To so bring your light...
For on that day you died...
Was but shown, your last final act of love so inside...
To this dark evil, not knowing it would so take your fine life...
And leave all of your love ones, in such heartache so far behind...
And leave his young son, so all alone...
'Oh hate is hard... oh how it makes me moan!
'Oh now the tears I find...
As why throughout all these years...
So many children, women, and men... have so died here!
But, there is Hope! And there is Light!
All in your image John, that you so left behind...
And all in your son now so in time...
As he will to grown up to be, just like you... his wonderful Dad we'll find...
As on each new day he will so us remind...
Reminds us all, that hate is hard... but no match for the light
The kind that burned deep inside your father's most heroic heart so bright!
Goodness... Evil... Darkness... Light...
As this battle rages on this night!
Hate is Hard!
But, only we can! So win this war! So win this fight!
With such hearts of love, as big John's this night...
Remember, on this Father's Day...
As you bow down your head and pray...
A little boy has lost his hero, his joy... all because of evil's hate...
As why, in this fine shrine of courage and faith...
Our Lord God Big John so placed...
Grow up now my fine son, just like your fine Dad...
For your father's heard, inside of you... that you so have!
For you were the greatest thing, he ever knew... ever had!
And on this day, the Angel's up and heaven... they too cry...
As they see those tears run down your eyes...
As comes their gentle rain, to give you strength... to wash away all of your pain...
For on this day, up to heaven a new Angel does rise...
And Angel's are much stronger, to fight through all those lies...
So my little boy, daddy's little man... now wipe away all of those tears from your eyes...
For your Father is up in heaven, watching over you day and night...
But Hate is Hard... and our journey long!
And so, as this new day dawns...
We must be strong!
With hearts of faith, courage and love songs...
Can we so right all of these wrongs!
For Hate, is Hard!
But, love and light... far more brighter burn.

IN SUPPORT OF HOMES FOR HEROES ACT OF 2009

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. COSTA. Mr. Speaker, one of the most important duties we have as a nation is the commitment to taking care of the men and women who have served their country in the Armed Forces. I am proud to cosponsor H.R. 403, The Homes for Heroes Act of 2009 to help aid homeless veterans.

This legislation will unlock important tools to combat the ongoing challenges of homelessness within the ranks of our poorest veterans. The VA estimates that 154,000 veterans are homeless on any given night, accounting for about a quarter of the total number of homeless individuals.

My district, Fresno in particular, has a large homeless population. Many are veterans who would benefit from the implementation of the programs in this legislation. This bill will unlock important tools to combat the ongoing challenges of homelessness within the ranks of our poorest veterans. At-risk veterans live with lingering effects of Post Traumatic Stress Disorder and substance abuse, compounded by a lack of family and social support networks.

No matter how many urgent problems face our Nation, we must never forget those who put their lives on the line to defend the United States. Their uniformed service is a testament to the common values of sacrifice, honor, and patriotism we all share.

It is my hope that this legislation will find swift passage in the Senate, and be signed into law by President Obama in an expedient manner. I urge an "aye" vote.

CONGRATULATING THE SYCAMORE HIGH SCHOOL WOMEN'S VARSITY LACROSSE TEAM

HON. JEAN SCHMIDT

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mrs. SCHMIDT. Madam Speaker, I rise today to congratulate the Sycamore High School women's varsity lacrosse team on winning the Division I Ohio Schoolgirls Lacrosse Association State Championship. The Lady Aves finished their remarkable season with an undefeated record, a total of 22 victories. This was their second state championship in four years.

Led by Head Coach Ed Clark, the Sycamore Lady Aves have become one of the most recognized high school programs in the Midwest. This year's team was top ranked in Ohio for the entire season and finished 44th in national rankings. Sycamore was the highest ranked team in the Midwest based on strength of schedule and an overall won-loss record.

The Lady Aves beat their rivals, Upper Arlington to win the championship by a score of 7–6, avenging a loss to them in last year's title game. Sycamore was led by the tournament's Most Outstanding Offensive Player Lily Ricci and the Most Outstanding Defensive Player Adrian Amrine. The Aviators talented roster includes two first team All-Americans and two second team All-Americans. Three senior players will continue their careers at the collegiate level next season, including Ricci at Brown University, Emile Hunter at Virginia Tech, and Kelsey Beck at American University. The most impressive statistic for these young women is that 85 percent of the team earned honors in the classroom and were recognized for their leadership on and off the field.

Madam Speaker, please join me in recognizing these highly talented women in their historic lacrosse season and in wishing them the best of luck in all their future endeavors.

TRIBUTE TO JERRY W. MARTY

HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. SENSENBRENNER. Madam Speaker, I rise today to recognize Jerry W. Marty for a career of service to our country. For 40 years, Mr. Marty toiled to advance his dream of exploring the Arctic. Having worked after college for a civilian contractor under the U.S. Antarctic Research Program and as an infantry Imjin Scout in the U.S. Army, Mr. Marty is most known for his research at the South Pole. Later this month, Jerry will retire from the National Science Foundation (NSF). After 15 consecutive seasons at the South Pole, on June 30, 2009, Mr. Marty will begin a new chapter in his life.

From 1998 until his retirement Jerry served as the NSF Representative, South Pole Station and as Facilities Construction and Maintenance Manager for the South Pole Station Modernization Project, building a new elevated station, and the home of cutting edge research in topics ranging from astrophysics and origins of the universe, to climate change. It is a 65,000 square foot elevated research station that sits atop a moving ice sheet on stilts to protect it from snow drifts. The official dedication of the new station took place on January 12, 2008.

Jerry was involved in the Nation's Antarctic research program from 1969 until his retirement. He is one of the few people on Earth who can say he was involved, in some aspect, with every South Pole station. He was Assistant Construction Manager for completion of the second South Pole Station, including the iconic Dome enclosure for the station's buildings and was present for the dedication in 1975, helping to transition from the original station built in 1957. During 1994–1998 he served as Construction Manager associated with planning for modernization of South Pole Station, and oversaw the construction of the current station. Since October of 1994 he has not missed a single season at the South Pole, sacrificing holidays and birthdays with his family. In all, his service at the South Pole totals almost 5 years of his life.

His vision of traveling the world started with a pulldown map in his one-room school house in Monroe, Wisconsin, where he grew up as the son of a dairy farmer. He went on to graduate from the University of Wisconsin, Platteville with a B.S. from the School of Industry, with an emphasis in Construction Management. He also served for 2 years starting in 1970 with the U.S. Army in South Korea, where he spent time in the demilitarized zone as an Imjin Scout (2nd Infantry Division).

To honor his dedicated years of service to building state of the art research facilities in the highest, driest, coldest, windiest place on Earth, Jerry was honored by the United States Board on Geographic Names by having the Marty Nunataks named after him. The Marty Nunataks are a group comprising about six nunataks in the western part of the Britannia Range in Antarctica.

In 1997, as Chairman of the Science Committee, I had the privilege of meeting Jerry during a visit I made to our research facilities in Antarctica to witness firsthand the research and construction that Americans were conducting at the South Pole and to evaluate the working and living conditions for our personnel stationed there. I was impressed with the dedication and expertise of the individuals on site. It was evident then, as it is now, that Jerry was admired by his colleagues.

Having worked diligently to ensure that the South Pole Station Modernization Project was authorized and funded, I am especially proud to honor Jerry on this occasion of his retirement for his dedication to the Nation's Antarctic Program since 1969. His unending commitment to the support of science will be remembered by all who know him.

CELEBRATING THE LIFE OF DALE LEON VINCENT, JR.

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. ACKERMAN. Madam Speaker, I rise today to celebrate the life of Dale Leon Vincent, Jr., an outstanding father, brother, husband, and a friend to many. Regrettably, Dale passed away earlier this year and left us too soon.

Dale's life was devoted to his family, his country, and his community. These values were instilled in him at an early age. His father, Dale L. Vincent, Sr., was a career officer in the Chemical Corps of the U.S. Army, serving in the European theater during World War II, and assisting U.S. humanitarian efforts after the liberation of Nazi concentration camps. Despite constantly moving from school to school each time his father's orders changed, Dale was a model student who devoted himself to his studies and to serving others. Dale reached the highest level of the Boy Scouts, becoming an Eagle Scout and earning the God and Country award. After graduating with honors from Washington-Lee High School in Arlington, Virginia, where he was a highly ranked member of the wrestling team, Dale attended Duke University and became a member of the Delta Sigma Phi fraternity. At Duke, Dale would meet the love of his life, Kathy Sarah Farmer.

Following his father's example of service, Dale volunteered for service in the U.S. Army and served honorably in Vietnam. Although, like many veterans, Dale did not like to discuss his experiences in Vietnam, he was greatly admired by his family and friends for volunteering to serve his country despite the great risks. Dale was a first lieutenant in the Signal Corps, received an Army Commendation Medal for service as an instructor at Fort Benning, and, later, a Bronze Star for service in Vietnam. Upon returning home, Dale earned an MBA at American University in Washington, DC, and married his college sweetheart, Kathy.

Dale became a successful businessman and entrepreneur in New York City, where he formed a number of companies and displayed a talent for innovation. Over the years, Dale created and ran two successful retail chains, Clubmart and Dress to the Nines. He owned a restaurant in New Hope, Pennsylvania, called "The Raven," managed technology investing at Associated Capital, and was CEO of Mangosoft, a leading software company.

Despite Dale's tremendous success as a businessman, his family was his greatest pride. Dale and Kathy raised and were devoted parents to three children, James, Paul, and David. Dale's younger brothers both so looked up to him that they each became Eagle Scouts, went to Duke University, joined Delta Sigma Phi, and served in the U.S. Armed Forces, as well.

Dale Vincent's impact on those he shared his life with is truly immeasurable, but is apparent in the family and friends that love him so dearly. For his outstanding devotion to family, friends, and country, I ask all my colleagues in the House of Representatives to please join me in honoring Dale Leon Vincent, Jr.

INTRODUCING EVACUEES TAX RELIEF ACT OF 2009

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. PAUL. Madam Speaker, I rise to introduce the Evacuees Tax Relief Act of 2009, legislation providing tax relief to those forced to abandon their homes because of a natural disaster. This legislation provides a tax credit or a tax deduction, depending on the wishes of the taxpayer, of up to $5,000 for costs incurred because of a government-ordered mandatory or voluntary evacuation. Evacuees could use the credit to cover travel and lodging expenses associated with the evacuation, lost wages, property damages not otherwise compensated, and any other evacuation-related expenses. The tax credit is refundable up to the amount of income and payroll taxes a person would otherwise pay, thus ensuring working people who pay more in payroll than in income taxes are able to benefit from this tax relief. The credit is available retroactive to

December of 2007, so it is available to Hurricane Ike evacuees, as well as those who evacuated because of Hurricanes Gustav and Dolly.

Just last year, the majority of my district, including my home county, was subject to mandatory evacuation because of Hurricane Ike. Therefore, I have firsthand experience with the burdens faced by those forced to uproot themselves and their families because of a natural disaster. Evacuees incur great costs in getting to safety, as well as loss from the storm damage. It can take many months, and even years, to fully recover from the devastation of a natural disaster. Given the unpredictable nature of natural disasters such as hurricanes and tornados, it is difficult for most families to adequately budget for these costs. The Evacuees Tax Relief Act helps Americans manage the fiscal costs of a natural disaster.

Madam Speaker, with the 2009 hurricane season now upon us, it is hard to think of a more timely and more compassionate tax relief proposal than one aimed at helping families cope with the costs associated with being uprooted from their homes, jobs, and communities by a natural disaster. I hope all my colleagues will show compassion for those forced to flee their homes by cosponsoring the Evacuees Tax Relief Act.

SENATE—*Friday, June 19, 2009*

The Senate met at 9:30 a.m. and was called to order by the Honorable EDWARD E. KAUFMAN, a Senator from the State of Delaware.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

O God, Lord of all, give us the things that will enable us to make life worthwhile. Give to the Members of this body a sense of proportion to seek the things that matter. Help them to appreciate the long view that they may refuse to sell what is precious for temporary short-term gain. Lord, remind them that laudable goals often require perseverance. Impart to our Senators a teachable spirit that is willing to learn and a humble spirit that accepts advice and will not resent rebuke. Give them also a diligence that whatever their hands find to do, they may do it with all their might. We pray in Your mighty Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable EDWARD E. KAUFMAN led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, June 19, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable EDWARD E. KAUFMAN, a Senator from the State of Delaware, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. KAUFMAN thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, following leader remarks, the Senate will be in a period of morning business, with Senators permitted to speak for up to 10 minutes each. There will be no rollcall votes today.

Senators DORGAN and MARTINEZ, the managers of the travel bill that is before the Senate, have indicated they are ready to move forward on amendments being laid down. We will have a series of votes Monday night and move toward completing that legislation as quickly as possible. It is important legislation, and we look forward to the completion of it.

HEALTH CARE

Mr. REID. Mr. President, as the debate escalates over the best way to ease the crushing burden of health care, it is easy to become sidetracked by misrepresentations, distracted by minor details or tempted to point fingers. When we do those things, we lose sight of what is at the heart of this effort, this debate, and this reform.

I wish to take a moment at the end of this week to remind all of us what this is all about—the health care debate. It is about hardworking Americans because they are too often the casualties of our broken health care system. They deserve better than to be also casualties of misleading politics.

To the millions of Americans without health care, this is a concrete and critical crisis that affects children, families, small businesses, and big businesses every single day. It is about the parent who can't take a child to the doctor because insurance is prohibitively expensive. It is about the family who lives one accident or one illness away from financial ruin. It is about a small business that had to lay off employees because it couldn't afford the skyrocketing cost of health care premiums or that small business that had to cancel health insurance for its employees because it couldn't afford it. It is about the three-in-five families who put off health care because it simply costs too much.

As Democrats in the Senate, we are committed to lowering the high price of health care, ensuring every American has access to that quality, affordable care and, finally, letting people choose their own doctors, hospitals, and health plans. We are committed to protecting the existing coverage when it is good, improving it when it is not, and guaranteeing health care for the millions—including 9 million children—who have none. We are committed to preventing disease, reducing health disparities, and encouraging early detection and effective treatments that save lives.

No matter what Republicans claim, the government has no intention of choosing for you any of these things or meddling in any of your medical relationships. If you like the coverage you have, you can choose to keep it.

Health care is not a luxury. It shouldn't be a luxury. We can't afford another year in which 46 million people have to choose between basic necessities and lining the pockets of big insurance companies just to stay healthy.

I hear every day from Nevadans—through e-mails, phone calls, letters, and other means of communication—that people are turned down for health coverage by insurance providers who care more about profits than people. I hear about people who lost their health coverage when they lost their jobs and now have no means of getting it back. I hear of people from Nevada who play by the rules and rightly demand that our health care system be guided by common sense.

That is what this debate is all about—nothing more, nothing less. These people—and nothing else—should be the focus of the open and honest debate they deserve—the people of America.

Mr. President, has the Chair yet announced that we are in a period of morning business?

The ACTING PRESIDENT pro tempore. It has not.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for morning business, with Senators permitted to speak for up to 10 minutes each.

The majority leader.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MCCAIN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Arizona is recognized.

Mr. MCCAIN. I thank the Chair.

(The remarks of Mr. MCCAIN pertaining to the submission of S. Res. 193

are located in today's RECORD under ''Submission of Concurrent and Senate Resolutions.'')

HEALTH CARE

Mr. MCCAIN. Mr. President, I wish to say a few words about health care. Obviously, according to most media reports, and my experience as a member of the HELP Committee, we are basically at gridlock. The Congressional Budget Office stated on Monday, in relation to the legislation being considered in the HELP Committee, that

> Once the proposal is fully implemented . . . the number of people who had coverage through an employer would decline by about 15 million.

The Lewin Group, a health care consulting firm, estimates this number to be much higher. They estimate that up to 70 percent of all Americans who have private insurance today—120 million Americans—will lose their health insurance and be forced onto the government rolls.

That stands in stark contrast to the President's repeated assertions that if you like your health care, you can keep it. Further analysis by HSI Network, a health care economics firm, found that to get all Americans covered under the Democrats' bill, it would cost a staggering $4 trillion and result in 79 million Americans who currently have private insurance having to obtain coverage from the government plan.

What I have described is what is known as the ''crowdout'' phenomenon. It is the substitution effect that occurs when a massive government insurance plan ''crowds out'' private insurance as the expansion of publicly subsidized programs encourage or force people from private arrangements to public ones. This is a real issue and one we must pay attention to.

On Monday the President said:

> I know that there are millions of Americans who are content with their health care coverage. . . . And that means that no matter how we reform health care, we will keep this promise: If you like your doctor, you will be able to keep your doctor. Period. If you like your health care plan, you will be able to keep your health care plan. Period. No one will take it away. No matter what.

If the bill we are considering is enacted, I do not believe this is a promise the President will be able to keep. The President's hometown newspaper, the Chicago Tribune, stated in an editorial on Tuesday:

> [The President] promises that anyone who wants to keep their private coverage will be able to do so . . . But we do know a few things about government-run health plans . . . the Federal Government isn't competition. It is the health care equivalent of Bigfoot . . . It sets low prices, to be sure, lower than many insurers are able to match. But that just means those doctors and hospitals recoup the losses by shifting costs onto those with private insurance . . . [which] could easily crowd out private plans. A lot of Americans think the health care system isn't really all that broken. They get good care. They pay for it via insurance . . . But a government-run health plan? Experience says that the cure would be worse than the illness.

The Chicago Tribune has it exactly right. The fact is, a lot of Americans are pleased with their health care options. In fact, 70 percent of Americans with health insurance rated their coverage good or excellent, according to a Rasmussen Reports poll dated May 14, 2009. Those 70 percent might be the precise group of Americans who will lose their health insurance and be forced into government-run programs if the legislation is enacted.

It is a fact that premiums continue rising, eating into family budgets and preventing the uninsured from getting covered. This is the problem we need to be addressing. We need to bring down the cost of health care and thus the cost of health insurance coverage. This will lead to more coverage of the uninsured and ensure that those who like their health care coverage can keep their coverage and their doctor as the President promises. Yet the majority bill contains not a single reform that will save money. Instead, as I have pointed out, it will cost up to $4 trillion and displace up to 79 million Americans from their current coverage.

This is not reform. This is why we should start over. I continue to believe that the Democrats and the White House should scrap this incomplete bill and start over. Democrats and Republicans must come together and draft a bill that allows the President to uphold his promise that Americans will be able to keep their current doctor or health care plan.

We spent a lot of time in the HELP Committee going over an incomplete proposal. Supposedly by tonight the three major issues, including the so-called government option, will be revealed to us by the majority side. I hope it is soon. I hope we will be able to view it so we could have for the first time a meaningful discussion and negotiation in the HELP Committee. So far, three major components are still blank spaces.

I have been in this body for a long time. I have never seen a process such as we are going through right now. It is basically fundamentally a charade so the Democrats can come to the floor and say we consulted with the Republicans, we had hours and hours of debate and discussion and markup—when we were not presented with the key elements of the legislation we were supposed to be considering. If the key elements are there and we get to examine it over the weekend, then perhaps we will be able to sit down together and negotiate some kind of reasonable approach to this bill.

It is not an accident that the Finance Committee, the other committee that is supposed to be tracking the health reform bill along with the HELP Committee, has decided not to present their proposal until after the Fourth of July recess because they simply do not have a way to pay for it.

The CBO analysis and other outside analysis has revealed something very important, that the plan as proposed and propounded by the administration and by the Democrats is unsustainably expensive and one that they do not have a way of paying for. It will be very interesting to see how they tailor their plan to the expenses and how they address the issue of how to pay for it. Clearly, raising taxes is an option they are considering. I don't think raising anybody's taxes in the present day economy is something that would be beneficial to all Americans.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

HEALTH CARE

Mr. MCCONNELL. Mr. President, one thing Republicans and Democrats can all agree on is the need for serious health care reform. On Monday, President Obama spoke to the American Medical Association to discuss the issue. I applaud the President for his commitment to health care reform and agree with him that we need to make health care more affordable and accessible to all Americans.

While the American people want reform, they want us to fix what is wrong with the system without taking away the freedom, choices, and quality of care they now enjoy. During a speech to the AMA, the President acknowledged these concerns and articulated some principles on health care reform that many Republicans share. But it seems to me that many of my friends on the other side of the aisle should have listened more closely to what the President said to the AMA.

One thing the President said that Republicans agree with is that Americans should not be forced to give up the insurance they currently have and like and be forced into a government plan. The President promised the American people that:

> If you like your doctor, you will be able to keep your doctor. If you like your health care plan, you will be able to keep your health care plan. No one will take it away no matter what.

Republicans agree with the President. Yet Democrats in Congress are making last-minute edits to a bill in the HELP Committee that the nonpartisan Congressional Budget Office

says will cost 10 million people with employer-sponsored insurance to lose the coverage they currently have. And that is the number of people who would lose their current insurance under just one section of the bill. This legislation is still missing significant sections that could force tens of millions of additional Americans to lose their current coverage. Republicans share the President's belief that those who like their health insurance should be able to keep it, but the bill currently being considered by the HELP Committee would force Americans off of the health care plans they now enjoy.

Another issue the President and Republicans agree on is the need to invest more in preventative care and wellness programs, which is an important way to cut costs and improve care. President Obama mentioned the successful wellness and prevention program Safeway created, which has dramatically cut the company's health care costs and employees' health care premiums. He said he would be open to doing more to help businesses across the country adopt and expand programs like the one created by Safeway. Yet the bill the Democrats are now pushing through the Senate would actually ban this successful program from being copied and implemented by other companies.

Republicans also agree with the President on the need to reform our Nation's medical liability laws. Frivolous malpractice lawsuits are a major cause of our increasing health care costs. These lawsuits cause insurance premiums for doctors to skyrocket, and doctors then pass those higher costs on, of course, to patients.

Doctors also often order expensive and unnecessary tests just to protect themselves against these lawsuits, and some doctors just close their practices or stop offering services as a result of all these pressures.

And patients are the ones who lose out. According to a report by the Kentucky Institute of Medicine, Kentucky is nearly 2,300 doctors short of the national average—a shortage that could be reduced, in part, by reforming medical malpractice laws.

President Obama has not advocated the kind of medical liability reform most Republicans would like to see, but he has at least opened the door to fixing the system. But none of the bills introduced in the Congress even acknowledge the need for malpractice reform or propose any solutions to deal with the problem.

Finally, Republicans share the President's concerns about how much health care reform is going to cost and how we will pay for it. President Obama said that he set down a rule that ''health care reform must be, and will be, deficit-neutral in the next decade.''

But the preliminary estimates from the bill before the HELP Committee show that just one—just one—section of the bill spends $1.3 trillion. And even more outrageous is the fact that the bill doesn't even have any proposals to pay for its enormous pricetag—other than to borrow it from the taxpayers. Americans want reform. But they don't want a blind rush to spend trillions of dollars that they and their grandchildren will have to pay for through higher taxes and even more debt.

When it comes to making sure Americans can keep the coverage they have, strengthening wellness and prevention programs, reforming our medical malpractice laws, and paying for health care reform, Republicans share common ground with the President. I just wish that congressional Democrats did too.

AUNG SAN SUU KYI

Mr. MCCONNELL. Mr. President, Nobel Peace Prize laureate Aung San Suu Kyi turns 64 today. Unfortunately, she will spend her birthday not in the company of family and friends but in Burma's notorious Insein Prison where 31 political prisoners have died since 1988.

Despite her apparently poor health, Suu Kyi is being housed in Insein because she is standing trial for the dubious charge of permitting a misguided American to enter her home. Sadly, Suu Kyi has already spent 13 of her last 19 birthdays under house arrest, and if convicted of these trumped-up charges by the Burmese regime, she could spend the next 5 birthdays in this foul prison.

The best gift Suu Kyi can receive for her birthday is for the regime to display some uncommon good sense and free her and other Burmese prisoners of conscience. My colleagues and I are committed to standing with her and the people of Burma for as long as it takes for that to occur.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SESSIONS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

E-VERIFY

Mr. SESSIONS. Mr. President, I wish to share a few thoughts about the E-Verify system. That is the system businesses are voluntarily using today in large numbers provided by the U.S. Government that allows a company to check the Social Security number of an applicant for a job to make sure they are lawfully eligible for employment. This system is growing and working very well. We have had some problems, I think, with Congress, and I attempted to offer an amendment to fix some of those problems on the tourism bill that is before us but was not able to do that. So I wish to share a few thoughts about it. I have been trying to get this situation fixed for some time.

E-Verify is an online system that gives very rapid identification of an individual through the Social Security Administration and Homeland Security to determine whether they are eligible for a job. A business just checks those numbers, and if they come back as clear and they hire the individual, it provides them protection from a charge that they may have knowingly hired someone who was illegally in the country or otherwise not able to be employed.

So it is a good system. As I said, as of June 13, this month, 130,000 employers are enrolled in the program. They have, among them, 501,000 hiring sites. It is free and voluntary, and it is the best means available to determine the eligibility of those who apply.

According to the Department of Homeland Security, 96 percent of the employees are cleared automatically, and growth continues at over 1,000 new users and participants each week as more and more businesses are using it. An employer, as I said, gets protection if they use it.

In 2009, this year, 5.6 million inquiries were run. In 2008, through the whole 12 months, more than 6.6 million inquiries were run, and they continue to grow.

In Alabama alone, there are 1,000 employers who use the E-Verify system. It has been proven effective, and I think it should be made permanent and mandatory for everybody who does business with the U.S. Government. As a matter of fact, that was what the law was supposed to be in January, but it is not. So the program is to expire in September unless it is extended.

Now, I am told the Homeland Security legislation the House passed—or will pass—will extend the E-Verify Program for 2 years. I am told the Senate Homeland Security bill may well report language that will extend it for 3 years. Why we don't make it permanent is beyond me. It is a cornerstone of the enforcement system of business and employers to ensure that they are attempting to comply with the law, and if they are not, to be able to identify them.

I was extremely disappointed when the economic stimulus package was up earlier this year and passed, where we spent $800 billion to stimulate the economy and create jobs, it was passed without any requirement that E-Verify be a part of the stimulus package. So a contractor who gets a job with the U.S. Government, with money paid from the stimulus package, legislation that was designed to create jobs for American

citizens, could actually go out and hire people illegally in the country. That is not what the American people have a right to expect. That is not good policy. It should not be done.

We have surging unemployment, unfortunately. All of us hoped it would come in less than it is now. I know the President's budget, offered earlier this year, projected that unemployment would top at 8.4 percent. It is now 9.4 percent, the highest in over 20 years. It is continuing to go up, from what it appears. So we have an obligation to try to use what resources we are expending in a way that helps the American worker find work. Some of these stimulus jobs are good jobs. So the House has supported the extension of E-Verify. It passed in the House last July, 407 to 2. Yet it still hasn't become law to extend it past September.

One of the main purposes of the stimulus bill was to see that people got work. I think if we don't extend E-Verify, people have a right to question how serious we are about using that money—that huge amount—wisely to create jobs for American citizens.

An amendment offered and accepted in the House on the stimulus bill was by Congressman Jack Kingston. It said that funds made available under the stimulus package could not be made available to any business that did not use E-Verify. They apparently accepted that without a single dissenting vote. It was in the House legislation. I offered it in the Senate stimulus bill and did everything I could to see that we could make that a part of the law and make it permanent. It was blocked in the Senate by the Democratic leadership.

I am worried that we talk a good game about doing something about this, but so far, we have been very ineffective in taking real action that will work.

Let me share one more thing about Executive order 12989. President Bush issued an Executive order, and that order called for the implementation of the E-Verify system for government contractors in January of this year. It mandates the use of E-Verify for all Federal contractors and subcontractors. It was supposed to take effect in January. I believed President Bush should have been stronger about that than he was, but they went into it carefully, and that is what they decided to do.

When President Obama came in, immediately he extended that and put it off and blocked its enforcement. So it is still not in the law. Now it is being delayed until September 8—that rule that a government contractor at least ought to check his employees to see if they are legally entitled to be employed. How simple is that? It takes a few minutes, and thousands of businesses are voluntarily doing it today. This decision, again, to delay it now until September 8 is the fourth delay this year by President Obama. I believe it signals the fact that this administration is not yet serious about their stated goal of making sure that employers comply with the law and not hire people illegally.

On January 28, it was pushed back to February 20. A few weeks later, the implementation was pushed back to May 21. Prior to that, it was pushed back to June 30, and now it is further delayed until September 8. This system is up and working. It has been up for years now. It is nothing unusual. I cannot imagine that if this Senate is allowed to vote up or down on whether to make this the law that we would not pass it. I am going to offer an amendment that will do just that. That is the right thing to do. It makes common sense.

What I am afraid may happen is that we will have, through maneuvering and chicanery, actions taken to block that vote. If the Democratic leadership in the Senate blocks a vote on this question, that can only be interpreted as their position is that we should not extend E-Verify and that we should not make it apply to government contractors.

It cannot be interpreted any other way because we have been talking about this for years. Everybody knows what the issue is.

I am concerned. I hope the President, who has had his staff on board now for 5 or 6 months—it is time for them to get their act together and let us know where they stand. Just delaying this is an indication to me they are not serious about it. It should not have taken 5 minutes to know that a government contractor should not be hiring people illegally in the workforce. How long does it take to do that? This is not a new issue. But they are studying it, they say. OK, let's study it. But sooner or later, it is time to act.

To me, there are no two ways about it. There is one logical answer to this question. If we want to make sure the government money that is going out—money taken from American taxpayers—provides jobs for American workers, we need to pass legislation to mandate that. I hope we will. I hope the President will be able to get this study complete, which they claim they are doing, and get on with doing the right thing. We have waited long enough.

I thank the Chair, yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CASEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. MERKLEY). Without objection, it is so ordered.

CONGRATULATING THE PITTSBURGH PENGUINS ON WINNING THE 2009 STANLEY CUP CHAMPIONSHIP

Mr. CASEY. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 194, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 194) congratulating the Pittsburgh Penguins on winning the 2009 Stanley Cup Championship.

There being no objection, the Senate proceeded to consider the resolution.

Mr. CASEY. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements related to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 194) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 194

Whereas, on June 12, 2009, the Pittsburgh Penguins defeated the Detroit Red Wings 2-to-1 in Game 7 of the National Hockey League Stanley Cup Finals;

Whereas the victory marks the Penguins' third Stanley Cup Championship in franchise history and capped off a historic playoff series;

Whereas the Penguins are just the second team in league history to win the seventh game of a Stanley Cup Championship series on the road after the home team won the first 6 games of the series;

Whereas the Penguins beat the Washington Capitals in the Eastern Conference Semifinals and the Detroit Red Wings in the Stanley Cup Championship after losing the first 2 games in both series, making the Penguins the only team in league history to rally from 2-to-0 series deficits twice in the same year;

Whereas Mario Lemieux is to be honored for his commitment to keeping the Penguins in Pittsburgh and passing along his legacy to a new generation of players and fans;

Whereas, in February 2009, the Penguins hired Head Coach Dan Bylsma from the Penguins' minor league franchise in Wilkes-Barre, Pennsylvania, making Bylsma the first coach in the history of the National Hockey League to begin a season coaching in the American Hockey League and finish a Stanley Cup champion;

Whereas Sidney Crosby, the youngest team captain to ever win the Stanley Cup, was third in scoring during the regular season, had a league-leading 15 playoff goals, and demonstrated leadership by taking the Penguins to the Stanley Cup Finals in 2 consecutive seasons;

Whereas, over the course of the playoffs, Evgeni Malkin led all players in scoring with 36 points, including 14 goals and 22 assists, and won the Conn Smythe trophy for most valuable player in the playoffs;

Whereas Max Talbot is to be commended for scoring the only 2 Penguins goals in the Game 7 victory over the Detroit Red Wings;

Whereas thousands of Penguins fans supported the team throughout the postseason, donning white t-shirts to create a ''whiteout'' effect at home games or gathering to watch the game on a big screen television outside Mellon Arena;

Whereas the Red Wings are to be commended for a terrific season, committment to sportsmanship, and excellence on and off the ice; and

Whereas nearly 400,000 fans packed the streets of Pittsburgh, Pennsylvania, on June 15, 2009, to honor the Penguins in a parade along Grant Street and the Boulevard of the Allies: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates—

(A) the Pittsburgh Penguins for winning the 2009 Stanley Cup Championship;

(B) Mario Lemieux and the coaching staff of the Penguins and support staff and recognizes their commitment to keeping the team in Pittsburgh;

(C) all Penguins fans who supported the team throughout the season; and

(D) the Detroit Red Wings on an outstanding season; and

(2) directs the Secretary of the Senate to transmit an enrolled copy of this resolution to—

(A) co-owners Mario Lemieux and Ron Burkle;

(B) vice president and general manager Ray Shero; and

(C) head coach Dan Bylsma.

Mr. CASEY. Mr. President, I wish to say, first, how much I appreciate the action on that resolution. I could spend a lot of time talking about our Penguins; we are so grateful they were successful in a very hard-fought series against the Detroit Red Wings, who have a strong organization and were difficult to defeat.

As a Pennsylvanian, I was especially proud that it now marks three champions in the last year: the Philadelphia Phillies in baseball, the Pittsburgh Steelers in football, and now the Pittsburgh Penguins in hockey.

We are very fortunate in our State to have three champions this year. We let the Lakers have basketball for this year. We will try to get that next year.

HEALTH CARE

Mr. CASEY. Mr. President, I rise this afternoon, at the end of a week where—and the Presiding Officer knows this in his work representing the State of Oregon and in his work as a member of our Health, Education, Labor, and Pensions Committee—we have spent a lot of time on health care, as we did the week before and several weeks leading up to this time. But now we are at the point where in our committee we are actually voting—voting on amendments.

We know this is a challenge that has faced America for decades: the challenge of covering people in our country who do not have coverage and making sure those who do have coverage have quality health care coverage that is affordable. So all these challenges are presented to us now.

We have a situation in the country today—and Chairman DODD mentioned this this morning in a hearing—that about 14,000 people a day lose their health care coverage. It is hard to comprehend that every single day that number of Americans are losing their health care coverage. Candidly, if the number was half that, it would be unacceptable—or even less than that—but that is, in a very real way, the status quo, where we are now. Thousands and thousands of people losing coverage every day, 14,000 by one count; people who might have coverage but it is hard for them to afford it or to continue to afford it, and sometimes people have coverage and it is not of the kind of quality that would ensure the best health care for them and for their families.

We are at a point now where we are beginning to see a basic choice that the Congress has to make and the American people have to make. It is the status quo or change. It is the status quo—where we are now—which, in my judgment, is unacceptable—or reform. It is coming down to a basic, fundamental choice.

The status quo right now is the enemy of change. The status quo is the impediment in front of us, the tree across the road or whatever image you want to illustrate. So we have to get to work making sure that the status quo doesn't stay in place.

There are so many ways to tell this story. Every Member of the Senate and every Member of the House and, frankly, virtually every American could tell a story about someone they know or someone they have read about and the challenges they face. In Pennsylvania, we have a lot of examples about people who are living the reality of a lack of coverage or bad quality coverage or coverage they cannot afford. One letter I got stood out for me, among many. It was written back in February of this year by Trisha Urban from Berks County, PA, the eastern side of Pennsylvania. I will read portions of her letter which I think tell the story about as well as anyone could; unfortunately, in this case, in a tragic circumstance. She wrote, talking about her husband Andrew, that he had to leave his job for 1 year to complete an internship requirement that he had to get his doctorate in psychology. The internship was unpaid and they could not afford COBRA coverage—extended health care coverage. Now I am quoting from the middle of the letter. Trisha Urban says:

Because of the preexisting conditions, neither my husband's health issues——

He had some heart trouble——

neither my husband's health issues nor my pregnancy would be covered under private insurance.

Now I am quoting again:

I worked 4 part-time jobs and was not eligible for any health care benefits. We ended up with a second rate health insurance plan through my husband's university. When medical bills started to add up, the insurance company decided to drop our coverage, stating that the internship did not qualify us for the benefits. We were left with close to $100,000 worth of medical bills. Concerned with the upcoming financial responsibility of the birth of our daughter and the burden of current medical expenses, my husband missed his last doctor's appointment less than one month ago.

Trisha Urban's letter goes on. She talks about what happened at one particular moment after summarizing their health care situation. She says, describing her pregnancy:

My water had broke the night before. We were anxiously awaiting the birth of our first child. A half-hour later, two ambulances were in my driveway. As the paramedics were assessing the health of my baby and me, the paramedic from the other ambulance told me that my husband could not be revived.

She concludes her letter this way. Again, I am quoting Trisha Urban from Berks County, PA:

I am a working class American and do not have the money or the insight to legally fight the health insurance company. We had no life insurance. I will probably lose my home and my car. Everything we worked so hard to accumulate in our life will be gone in an instant. If my story is heard, if legislation can be changed to help other uninsured Americans in a similar situation, I am willing to pay the price of losing everything.

Trisha Urban is telling us through that poignant but tragic story about her own circumstances and the circumstances surrounding the birth of her daughter and the death of her husband, all we need to know about this debate.

Then, posing that question—or that challenge, I should say—to all of us, especially those of us who have a vote in the Senate:

I am willing to pay the price of losing everything if my story can be told and legislation can be enacted to deal with health care.

That is the basic challenge that Trisha Urban has put before the Senate and the Congress and the administration. It is the challenge we must respond to. We cannot pretend it is not there. We cannot pretend that the status quo I talked about a moment ago—14,000 people losing their health insurance every day; so many other people worried about the coverage they have—we cannot pretend that is not there. We cannot say to Trisha Urban that we are sorry about the circumstances of your story, but Congress can't get it done this year.

We have to get it done. We have to pass a bill in our committee. We have to get a bill through the Finance Committee, and we have to make sure the Senate votes on this legislation this year—frankly, this summer; not late in the fall, not in the winter, not in 2010. Right now is the time for action.

President Obama has led us in this effort. He has attached the same sense

of urgency to this issue that I know the American people feel.

What is it about? Well, it is about an act that a lot of Americans are just hearing about, which goes by a very simple name: the Affordable Health Choices Act. That is the act that is presently before our committee. It does a couple of things. It focuses on some fundamentals to get at that change that should come to the status quo. First, it reduces costs by way of prevention. It is very important. We know that can reduce costs substantially. It also reduces costs by better quality and information technology. It is still hard to believe that when other industries such as banking and insurance and other parts of our economy have moved into the new era of technology that our health care system isn't anywhere near where it has to be to reduce medical errors and to provide better quality. So by focusing on information technology, we can reduce costs. That is in the bill.

Also, the bill contemplates rooting out waste, fraud, and abuse—another area of cost reduction. We know that the big questions on costs will be dealt with in the other committee—the Finance Committee—but there are elements in this bill that, in fact, reduce costs.

Secondly, the bill preserves choice, that if you like what you have in your insurance plan and the coverage you have, you can keep it. There is no reason why that should change, and it won't change under this bill. But if you don't like the coverage you have, we want to give you options and we also want to give you an option in coverage if you obviously don't have any health insurance at all. So it does reduce costs, it does preserve choice, and, thirdly, it will ensure quality and affordable care for the American people.

I believe, and I think most people in the Senate believe, that one ought to have the option of not just any health care but quality care that is affordable, that you can actually make work in your own budget. So we are going to build on the system we have. We are not going to throw the old system out; we are going to build on the system we have and make it better.

We are also going to make sure that in this legislation, we protect the patient-doctor relationship. There is no reason why anyone should get in between those two, and this bill will not do that.

Finally—this is a quick summary, I know—we are going to make sure that at long last, a preexisting condition does not prevent you from getting the kind of quality health care you have a right to expect in America today.

As we move forward on this legislation, I want to make sure we highlight the fundamental obligation we have, not just in the bill—but especially in the bill—but even beyond this legislation, and that is the obligation we have to get this right for the American people, and to get it right especially for our children. The Presiding Officer knows of the great progress we made this year on children's health insurance. Thank goodness we got that done. Instead of having 6 million kids in America covered by the children's health insurance program, by way of the legislation we passed this year we are going to extend that to almost 11 million kids. That was wonderful. That is a big success and we should all be proud, but it is not enough. We should make sure that the other 5 million children out there who don't have coverage today will get it but especially a child who happens to be in a poor family, a low-income family, or a child with special needs.

Here is what the rule ought to be. This is what should happen throughout this process while enacting health care reform, but certainly at the end of the road, so to speak, ideally this fall when we will have a bill the President can sign: The rule ought to be no child worse off, and especially no child who is poor or who has special needs or is disabled. The great line from the Scriptures that talks about a faithful friend—we have heard this over many years in the context of friendship, in the context of sometimes a reading at weddings, but I would like for us today to think about it in the context of our children. This is what the Scripture said: ''A faithful friend is a sturdy shelter''—a great image about what friendship means. There are a lot of us day in and day out, year in and year out, who talk about how important children are to us, that we are advocates for children—and we should be—that we have solidarity with our children, we are going to do everything we can to protect them. In essence, we are saying we are their friend, that those of us who are elected to public office have an obligation to be a friend of and an advocate for our children. Going back to that line from the Scriptures, if we are going to be a faithful friend to children, we better make sure that we provide a sturdy shelter; not just in the context of the obvious in health care. What is more fundamental than that, other than making sure that a child has enough to eat and making sure that child has an opportunity to learn? Other than those two, health care is essential in the life of a child, especially a vulnerable child, whether they are poor or have special needs or both. So if we are faithful friends in the Senate to our children, we better provide that sturdy shelter. We better make sure that at the end of the day, these children are not worse off because of our legislation.

I wish to conclude with a thought from an expert—not someone who is just interested in children but someone who has an area of expertise which is probably unmatched. I am speaking of someone who testified last week—a week ago today, it was—in front of our committee. Her name is Dr. Judith Palfrey. She is a pediatrician, a child advocate, and happens to be president-elect of the American Academy of Pediatrics. She provided compelling testimony. I won't go through all of her testimony, but here is something she said which I think has relevance and resonance for the debate we are having on health care. She says—and I quote Dr. Palfrey's testimony:

> Sometimes we as childhood advocates find it hard to understand why children's needs are such an afterthought; and why, because children are little. Because children are little, policymakers and insurers think that it should take less effort and resources to provide them health care.

Because children are little, we think that somehow less effort is required or less resources, less in the way of hard work. Well, none of us believes that, do we? We don't believe that. The health care we provide to our children, the protection, the shelter we provide them should be every bit as significant, every bit as fully resourced as the protection we give to adults. We might disagree about a lot of the details in the health care bill, but I think we all in this Chamber believe that children may be little but in God's eyes they are 7 feet tall and we must treat them accordingly, especially on legislation so significant as legislation on health care reform.

So the rule ought to be no child worse off. It is that simple. I believe we can get it right. I believe we can enact health care reform that preserves choice, reduces costs, and enhances quality and affordable coverage for the American people, and that we can make sure every child is no worse off.

This is a great challenge. We understand the difficulty of it. This is a great challenge, but it is a challenge worthy of a great nation. It is a challenge that will help us in our continuing struggle, our journey to make this a more perfect Union.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio is recognized.

Mr. BROWN. Mr. President, I will make a couple of comments on Senator CASEY's comments. We sit next to each other in the HELP Committee, and Senator CASEY reminds us almost every day, as we work on this health care bill, that ''no child should be worse off.'' That is something that, frankly, we all need to hear and every Member of this body and in the House of Representatives needs to hear. I appreciate Senator CASEY's work. It is really our mission to do this right and to see that no child is left worse off.

We spend more than $2 trillion a year on health care in this country, which is more than double any other industrial nation. Americans account for more

than 35 million hospital visits and more than 900 million office visits every year. More than 64 million surgical procedures are performed and more than 3.5 billion prescriptions are written. Health care is, in dollar terms, one-sixth of our national economy, and it is growing. Think about that—one-sixth of our economy and hundreds of billions of dollars. Yet millions of Americans are one illness away from bankruptcy.

What we cannot forget as we debate health care reform are the millions of Americans who are depending on us to do the right thing. We cannot forget their stories. Chairman DODD, in the HELP Committee today, reminded us that 14,000 Americans lose their health insurance every single day. So as our committee meets—and some people seem to be slowing this down a little, and they certainly have the right to offer amendments, but they get carried away and talk some of these amendments to death. Every day that we don't pass this health care bill, 14,000 Americans are losing their insurance. I will tell you some of the stories I hear.

Christopher, from Cincinnati, tells us that he and his wife are retired but are not yet 65, not yet Medicare-eligible. Without health care reform, they cannot afford health care insurance because of preexisting health conditions. Their 401(k)—their retirement—is bleeding. Their small pensions don't keep up with rising premiums. Chris puts off going to the doctor to save money. The annual premium increases will raise their out-of-pocket expenses by 45 percent.

Our Nation spends in excess of $2 trillion annually in health care. Yet too many people are only a hospital visit away from financial disaster. We cannot afford to squander this opportunity for reform, nor settle for marginal improvements. Instead, we must fight for substantial reforms that will significantly improve our health care system.

First of all, whatever plan you are in, if you are happy with it, you can keep your insurance. We want to fix what is broken and protect what works. That is why I am making a case for giving Americans a public health insurance option, not controlled by the health insurance industry.

So many of us have had fights—even the President, when he was talking about his mother as she was dying of cancer during the campaign last year, about how while she was sick she had to fight insurance companies to be reimbursed and get payment for her illness. The public health insurance option is important, in part, because it is not controlled by the health insurance industry. It is a competitor. It can compete with private insurance plans. We must preserve access, but that is clearly not enough for what we do in health care. Giving Americans a choice to go with a private or public health insurance plan is good policy and good common sense.

A public insurance option will make health care available and affordable for Americans like Michelle of Willoughby, OH, east of Cleveland. When she was first diagnosed with breast cancer, she had excellent coverage through her husband's insurance. But when her husband lost his job, she lost her insurance. Not yet eligible for Medicare, she started a consulting business and found an insurance plan—exorbitant as it was. With the economic downturn, Michelle writes that the ''sum of her work is to pay for insurance.''

At a time when too many Americans struggle to pay health care costs, the public health insurance option will make health insurance more affordable.

A public health insurance option would make insurance affordable for Americans like Gary from Toledo. Gary was laid off last year and couldn't afford the more than $800 a month COBRA costs. After obtaining health insurance from a company that promised equivalent payments of Medicare for surgeries, Gary's wife underwent surgery. After a week of recovery, they received a hospital bill of $210,000, with a hospital letter saying they lacked insurance. Gary talked to his provider, who agreed to pay only $400 out of $210,000. Fortunately for his family, the hospital absorbed the remaining costs. But that should not happen, either, because of what that means to the local hospital. With Gary and his wife still 3 years away from age 65, they deserve health reform that works for them now.

A public health insurance option will also expand access to affordable health care in rural areas that are often ignored by a private insurance market that tends to target big cities with a more dense population and more consumers.

Too often, as Randall of West Liberty, OH—a small town in our State—can explain, rural communities have a difficult time attracting even basic care. Randall oversees Ohio's only rural training track in family medicine. While his program has received awards for training excellence, he struggles to attract enough doctors for their rural residents. He wrote to me explaining the disincentives and misperceptions he has to overcome to attract the care needed to serve rural Ohio.

A public health insurance option will not neglect rural areas. Insurance companies bail out in rural areas or the insurance companies that stay are so small in number that there is no real competition and they can charge rates that are too high. Instead, the public option would be consistently available in all markets, including rural eastern Oregon and rural western and southeastern Ohio.

I stand ready to work with my colleagues to design a public insurance option as part of overall health care reform. The stories of millions of Americans behind spiraling costs of health care will no longer go unheard. The stories of Chris, Gary, Michelle, and Randall will guide this administration, this Congress, and this Nation to protect and provide health care for all Americans.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WHITEHOUSE. Mr. President, we are now embarked in the Senate on one of the most important challenges that our country faces—we will begin to reform our tragically flawed and broken health care system to bring down its skyrocketing costs, to cover its tens of millions of Americans left uninsured, and to improve its way-below-average results so that high-quality health care comes within reach for every American family. The stakes are high.

This week, in a speech before the American Medical Association, President Obama said:

> The cost of our health care is a threat to our economy. It is an escalating burden on our families and businesses. It is a ticking time bomb for the Federal budget. And it is unsustainable for the United States of America.

The President said:

> Health care reform is the single most important thing we can do for America's long-term fiscal health.

Savings in waste, confusion, unnecessary or defective care, and illness prevention could eventually well exceed $700 billion a year. It is not going to happen instantly, but it is a goal we can shoot for.

I applaud President Obama's commitment and leadership, and I commend my Senate colleagues for their tireless efforts in the pursuit of meaningful, comprehensive reform. The new energy and focus we have seen in this debate isn't limited to us here in Washington. In recent months, doctors and hospitals, patients and insurance companies, labor unions and drug companies have all come together in support of the need for a restructure of our system.

Amidst all this, it has been my great honor to join the Presiding Officer, the Senator from Oregon, on the HELP Committee, where he serves with such distinction and where much of the legislation to repair our broken health care system is being debated, written, and refined. In that capacity, I was recently invited to the White House to

meet with President Obama, his health care team, and all of our colleagues on the HELP and Finance Committees. We discussed our priorities for reform, and we reported on the progress each committee has made in the past several weeks.

In the coming weeks, we will hear a lot about the details of health care reform legislation, and those details are very important. But even more important are the hundreds of millions of American families in each of our States all over the country who have experienced real anguish—coverage lost or denied, hospital stays extended due to complications or errors, prescription drug bills rising and rising, with no end in sight, even losing everything because a loved one fell ill.

A few months ago, I launched a page on my Web site for Rhode Islanders to share their personal experiences with our broken health care system, and hundreds of people have written in from all over the State.

Anita is a social worker and mental health professional in Providence. She shared what she describes as the ''sad and rude awakening'' she experienced after opening her own practice last year. As a provider, like all providers, she takes great pride in the quality of care and attention she gives to her patients. Yet she often found herself burdened with an endless trail of paperwork and the time-consuming task of battling insurance companies and tracking down claims. Like so many of her colleagues, Anita is frustrated that she must spend so much time fighting administrative hurdles and navigating bureaucratic red tape. After years of training to become a health professional, Anita wishes she had more time to do just that—provide care to her patients. She writes:

I would much rather spend the time seeing clients than negotiating automated telephone systems and waiting to speak to a person several hours per week. It is a total waste of human time and talent.

I heard from Melissa, a self-employed writer from Newport, whose unpredictable income leaves her unable to afford health insurance. Without coverage, Melissa knows that she risks being one serious illness away from what she calls the ''brink of disaster.'' Through the stress and fear of not having insurance—through that brink of disaster that she lives on—Melissa waits and hopes that she doesn't get sick because that is the only option she has in this, our great country.

Rhonda is a mother in Coventry. She told me about her struggle to get health care coverage for her family. As if raising her two sons wasn't enough work, this single mother works two jobs to make ends meet. Although her employer offered health coverage at an affordable price, Rhonda's limited income could not be stretched to cover the additional cost of coverage for her children. So her sons went without insurance for 3 years. Rhonda, like so many hard-working Americans, was caught between a rock and a hard place—making slightly more than the eligible income to qualify for health coverage through State assistance plans, but not making enough money to afford health care coverage on her own. She prayed every day her children would be spared from sickness or injury.

I also received a story from Richard, in Providence, who told me about his father—a hard-working man who left work for 6 months to concentrate on fighting a battle against cancer. Sadly, just when Richard's father needed the support the most, his company dropped him from their health plan. Without coverage and unable to pay the costs out of pocket, his father was forced off his chemotherapy treatment. Richard's father was very lucky. The doctors cleared him of cancer. However, the medical bills were so high that Richard's parents lost their home. Remarkably, after all his family has been through, Richard feels fortunate that at least his father was covered for part of his treatment, but he urged us to fix ''this old and broken system.''

For these Rhode Islanders and for millions of more Americans silently suffering through their own personal catastrophes all over the country, we now have to be a voice. We must improve the quality of our health care, we must develop our Nation's health information infrastructure, and we must invest in preventing disease.

We must protect existing coverage where it is good and improve it when it is not. As the President said, if you like your health plan, you get to keep it. We must dial down the paperwork wars, and dial up better information for American health care consumers. We must speak for the 46 million Americans, 9 million of whom are children, who right now as I stand here on the Senate floor have no health insurance at all.

As Families USA reports, 47 million actually understates the problem because during the course of this year nearly 90 million Americans will, at one point or another, go without health insurance.

We look around at dark and tumultuous economic times. Yet looking beyond the immediate economic perils we face, a $35 trillion unfunded liability for Medicare—not a penny set against it—is bearing down on us. As the President told the AMA earlier this week:

. . . if we fail to act, Federal spending on Medicaid and Medicare will grow, over the coming decades, by an amount almost equal to the amount our government currently spends on our Nation's defense. In fact, it will eventually grow larger than what our government spends on anything else today. It's a scenario that will swamp our Federal and State budgets and impose a vicious choice of either unprecedented tax hikes, overwhelming deficits, or drastic cuts in our Federal and State budgets.

We can only avoid that vicious choice by reforming the health care system. We are committed to making sure every American has health insurance coverage, but meaningful reform will take more than that. Think of it this way. If you had a boat out in the ocean and people overboard around it in danger of drowning, surely you would try to bring them all into the boat. But if the boat itself was sinking, if the boat itself was on fire, you would have to do more than just bring them on board. You have to repair the boat. You have to get it floating and moving forward.

That is what we have to do with our health care system. It is not enough just to provide coverage for all Americans, we also have to right this ship. This means improving the quality of health care and investing in prevention, especially in those areas where improved quality of care and investment in prevention means lower cost so that, for instance, 100,000 Americans will no longer die each and every year because of entirely avoidable medical errors. This also means reforming how we pay for health care so what we pay for is what we want from health care.

Government must act. At last, government must act. The problems of health care in America are rooted in market failures. We cannot wait for the market to cure a problem rooted in market failure. It is nonsense. We have to change the rules of the game.

We also can't pay for one thing and expect another. We have to change the incentives. We do not expect Americans to go out and build our highway infrastructure for us. We do that through government. We can't sit around and wait for our health information infrastructure to build itself either. We cannot expect quality improvement and prevention of illness to flourish when we make it a money-losing proposition for the people who have to make it work. We have to change those incentives too.

Opponents of reform are arguing that this process is going too quickly, that we need to slow down, wait, pause. They are loading down this bill with hundreds of amendments—170 amendments alone on the section that deals with preventive care. But haven't we waited long enough? Slow is what we have done for years, even decades. When I hear from Rhode Islanders with the stories I reported here, such as Richard and Rhonda and Melissa and Anita, I think not that we are going too fast, I think we are irresponsibly, even frighteningly late in getting after this problem and taking up this charge.

If we wait much longer, we may be too late to avoid that tidal wave of costs that threatens to swamp our ship of state. To those who say slow down, I say keep up.

Opponents of reform want people to believe that a system that costs too

much, that lets insurance company bureaucrats make decisions about our health care; that is riddled with error, duplication, and waste; that leaves nearly 50 million Americans without any health insurance, is acceptable. Everyone says they want reform, but unless we get moving, all we will end up with is more of the same. As President Obama said this week: The status quo is unsustainable.

Some opponents want to slow this down because they know if they slow it down they can kill it. We cannot let that happen. The stakes are way too high.

The anguish out there, as you know in Oregon, as I see in Rhode Island, as all our colleagues see across the country, is real and it is everywhere. At last we can do something about it. Now is the time. This is the moment. Let us make this work. Let us, together, find a way to make this work.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. ROBERTS. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ROBERTS. I ask unanimous consent I may proceed as if in morning business for approximately 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ROBERTS. Mr. President, and to all present in terms of staff, this is Friday, and here we are at 1:25. I apologize to the doorkeepers, I apologize to the elevator operators, I don't want to keep you here for a long time, so I will quit apologizing, but there have been some things happening with regard to health care.

The distinguished Senator from Rhode Island indicated the need to move forward on health care. Everybody agrees to that. The pace of it, what is going on, is a real concern, so I do have some remarks to make. I will try to make this as quickly and succinctly as possible so everybody can go about their business. I see smiles from the pages, in regards if I can just hurry up and get through my comments.

Yesterday, in the HELP Committee's markup of the Kennedy-Dodd health care reform bill, we had a very good discussion about the proper use and the objectives of something called government-conducted comparative effectiveness research.

I know that is getting into the weeds in regard to health care language and health care acronyms. It is called CER; remember that term, ''CER.'' It is going to be around for a long time because it has become quite controversial in regard to our health care discussion and what eventually passes. CER is research that compares the relative outcomes of two medical treatments for the same condition to determine which one is better. That is a good thing. It is a good thing to disseminate and to inform doctors and everybody in the health care delivery system—nurses, health care providers, pharmacists, et cetera—it is a good thing. But the first problem with CER is that not every patient is the same. What is better for one patient may not be better, or could actually be worse, for another. For this reason doctors and patients must be able to deviate from the results of something called CER, or a master plan or a master evaluation that could come out of Washington from an outfit called CMS, under the Department of Health and Human Services.

The situation is patients must be able to deviate from the results and make treatment decisions on a case-by-case individualized basis. That is what we all want in terms of our treatment with our doctors.

The other major problem, I submit, is that CER has been used by other governments, such as the United Kingdom, to base treatment decisions not just on relative effectiveness but on relative cost. There is the rub. If CER is going to inform doctors and everybody in the medical community that this kind of treatment or this kind of best practice is the arena in which you should operate or pasture you should operate in, that is OK. But if it is used to control costs as opposed to care, then we have a problem.

By giving priority to the relative costs of the treatments being compared, the government can deny access to health care based on what I would call pseudoscience, under the guise of CER. That brings me back to yesterday's discussion on CER on the health care markup. The Kennedy-Dodd bill includes a section that establishes a new Center for Health Outcomes Research and Evaluation. This outfit is to conduct and support comparative effectiveness research.

Section 219(h)(1)—if that isn't getting into the weeds, I don't know what is—includes the following language relating to the practical effect of CER, or comparative effectiveness research. That would, again, be conducted by the center.

Center reports and recommendations shall not be construed as mandates for payment, coverage and treatment.

That language was in there to get at this problem for those of us who worry that CER will be used by CMS—that is another acronym. That is the outfit that runs Medicaid and Medicare, in terms of services. These are the people who count the beans, these are the people who want to turn the red beans into black beans. These are the people into cost containment. These are the people who many times drive board members in small hospitals crazy.

At any rate, to take away the worry, that language was put in there: Senate reports and recommendations shall not be construed as mandates for payments, coverage and treatment. They thought that was enough to protect us in regard to CER dictating medical care and stepping in between you and your doctor.

Let's go back to those words ''shall not be construed as mandates.'' What does that mean? ''Mandate'' means to force, compel, bind. This language says the CER shall not be interpreted as forcing CMS, Veterans' Administration or the Department of Defense to restrict payments to doctors based on its results.

Senator MIKULSKI and I and Dr. COBURN as well had a very lively discussion about the intent of this language. Senator MIKULSKI said the intent of the language was to keep the right to make treatment decisions with the doctor and the patient, not with the government. I certainly agree with that.

Senator MIKULSKI has worked long and hard on this bill, and I respect her for that. She is a good colleague and a good friend. I agree with this intent.

But as I pointed out to the Senator, the language in the Kennedy-Dodd bill does not accomplish our common intent of saying the government is not mandated or forced to use the results of this comparative effectiveness research to make payment decisions. Whether you are paid or not in regard to Medicare or, for that matter, Medicaid is not the same thing as prohibiting or preventing CMS from doing so.

In order to vigorously protect the rights of patients and doctors to make treatment decisions against the danger that the government will interfere in that process, I believe the bill must prohibit the government from using the results of CER in making payment, coverage, or treatment decisions. Sorry, you cannot have that, you have got to have this treatment, because it is a best medicine practice, regardless of the fact that maybe you and your doctor have had that treatment before and the doctor thinks that treatment is the best treatment for you.

I offered new language, and the new language would have placed a clear, bright-line firewall between the conduct of CER—which, by the way, I think is essential to advancing medical science; it is a good thing—and the use of its results to restrict your doctor from using his or her best judgment when treating you.

My language, which I further modified at the suggestion of Senator MIKULSKI, read: ''Center reports and recommendations are prohibited from being used by any government entity for payment, coverage, or treatment decisions.''

Senator MIKULSKI agreed to consider my suggestion over last night, along

with Senator DODD. I appreciate that. But today when the HELP Committee reconvened in our markup, Senator MIKULSKI and the majority refused to accept my language and offered counterlanguage that would basically put us back to square one and, in my view, would do nothing to protect patients and doctors from CMS or any other government agency interfering in their treatment decisions.

When I asked why my language was unacceptable, which I thought was acceptable for everybody when we left yesterday, I was told that the decision to say my language was not acceptable was based on concerns by ''Washington policy experts.''

I said: Who is that? Which Washington policy expert said my language was not acceptable?

When pressed on which policy experts, we learned that the directive came straight down from the White House. Why would the White House be so concerned about prohibiting the Federal Government from using CER to restrict payments to doctors or to direct doctors to follow specific treatment orders? Why would the White House do this on this in-the-weeds proposal, which is not an in-the-weeds proposal at all, it is about what the government is going to do or tell doctors and patients what they can expect.

It is clear from statements made by this administration that they see CER as the golden ring for cost containment. The President said when asked, how on Earth are you going to pay for the health care bill, We are going to cut Medicare payments.

How are you going to do that?

Well, if you have a CER golden ring that comes down from CMS or the National Institutes of Health for cost containment, you can see: This research says that you should follow these practices, not those practices and those practices, or, these practices would certainly cost less.

I do not think that is a good thing. From OMB Director Peter Orszag, to the NIH Director, going on to the National Economic Council Director, Larry Summers, and indications from our new Secretary of Health and Human Services, Kathleen Sebelius, a good friend, former Governor of Kansas, all have pointed to the huge potential of CER to be used to contain costs, not to recommend procedures best for patients and the doctors as determined by the patient and the doctor, but by CER to control costs.

That is why the White House does not want to prohibit CMS or any government agency from using the results of CER to deny you and your doctor the right to choose the treatment that is best for you.

After all of that was said and done, and a lot was said and not much done, I got quite a lecture this morning in regard to my use of the word ''rationing'' to describe what this could lead to. This lecture was referred to as a scare tactic. They indicated that I was using the word ''rationing'' out there as a scare tactic to scare people to say we do not want health care reform.

I find that rather condescending. I find that demeaning. And it is certainly not accurate. You tell me, when Medicare refuses to pay your doctor if he or she decides you need a particular course of treatment that deviates from the government standard, what would you call it? I would call it rationing.

That is the danger. It is not a scare tactic. Health care rationing is happening right now in this country. We may not have explicit rationing such as in the United Kingdom where the government refuses to give elderly people drugs to treat their macular degeneration until they have already gone blind in one eye—not making that up—or refuses kidney cancer drugs for terminal patients because it is not worth the money to extend their life by 6 months. That is rationing.

But we do have de facto rationing, because Medicare and Medicaid refuse to pay doctors anything close to what their costs are. By the way, it's the same thing for pharmacists, the same thing for home health care, and for all of the providers who provide our health care treatment. This means those doctors cannot afford to take Medicare and Medicaid patients—they make the decision then—and it means that those individuals do not have access to care. That is rationing I am talking about.

I am talking about a doctor who makes a decision: I am only getting paid about 70 cents in terms of the dollar in regard to my cost in regard to Medicare patients. I have to hire extra people to keep up with paperwork and regulations. Those people do not exist in the rural health care system. We have to try to find them. So it is a lot easier if I drop the Medicare Program.

That comes as a sudden jolt and a sudden decision that is not fair in regard to the patients who were being treated by that doctor in terms of Medicare. That is what we call rationing right now in regard to the United States of America.

We know the administration wants to use CER to contain costs. We know CMS has a history of denying full payment based on cost. I am not going to take the time on the Senate floor right now to go into all of the problems that CMS has posed for the health care delivery system. Again, these are folks who have a difficult task. They are trying to change the red beans into black beans so that health care does not cost so much. But in terms of their decisions here in Washington in regard to what care is going to be paid for and what is not, they are an absolute nightmare to every hospital administrator, every hospital board member in the 350 or so hospitals I have in Kansas, and the 83 critical access hospitals I have in Kansas.

We do not have a very good relationship with CMS. What we have is a meaningful dialog, most of the time, when yet another regulation comes down the pike to contain cost, most of which the doctors have never heard of, not to mention everybody else in the health care delivery system. I can go into quite a rant, as you can expect from my comments in regard to CMS and what they do and what they do not do.

Why is the majority, why are the Democrats, resisting any language to protect patients and their doctors, you and your doctor, and your right to make the right treatment decision for you? Why are they trying to muzzle my warnings that this could lead to the rationing of health care? It boils down to the fact that they do not want the American people to know what their true plans could actually be. That is why they are shoving this massive health care reform bill through Congress at warp speed, having markups before we even have complete language or cost estimates.

We heard from the distinguished Senator from Rhode Island about the need for health care reform, and the fact that he was complaining about over 100 amendments in the HELP Committee. My goodness. Almost every major bill I have been associated with, you have literally hundreds of amendments. Many fall by the wayside, many are withdrawn. We have dealt with 17, 18 of them as of today.

Senator MIKULSKI and Senator DODD did a very good job in that respect, along with our ranking member, Senator ENZI from Wyoming. But it would be helpful, if we are going to move forward with the health care reform, if we had the bill. We do not have the bill in the HELP Committee. We have one section of the bill, and then we have a Congressional Budget Office score on one-sixth of the bill that is $1 trillion. And, boy, did that shock everybody. Say $1 trillion for one-sixth of the bill. What is the whole bill going to cost? That estimate is somewhere in the neighborhood of $4 trillion. How on Earth are you going to pay, in the Finance Committee, the pay-for committee, $4 trillion for health care reform, and take it out of the health care delivery system?

I do not think you can do it. But we do not know, because we have not seen the legislation. We are being asked to go on a deadline schedule to produce amendments on things such as CER that worry people in regard to possible rationing by a date certain or a time certain, and we have not even seen the bill we are amending.

I have never been through a situation like that. Not to mention the specific cost estimates by CBO. This is not right. That is why Chairman BAUCUS in

the Finance Committee had at least the good sense to postpone the markup of his bill until we could work this out. That is why slowing down does not necessarily mean that everybody is opposed to health care reform. It means we ought to get it right.

We at least ought to have a bill to read, to know what we are dealing with. I think it is because they know that if Americans knew what they were doing, they would never stand for it. I think we need to get this out to the public, and the public will hopefully fully understand it. I am not going to allow this. Personally, I am going to continue to shout it from the rooftops and beware of what lurks under the banner of ''reform'' to tell every doctor, every hospital administrator, every hospital board member, anybody who has anything to do with the health care delivery system, watch out in regard to CER.

It could be the golden ring of cost containment, and it could put you out of business. It could put you out of business. We have examples of CMS doing exactly that. So do not wake up one day and realize that the government has taken over your health care the same way they have taken over the banks and the auto industry. Do not let them ration your health care. Rationing is not what we need. It can be terribly counterproductive, and I hope we can do a better job in the future.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

The PRESIDING OFFICER. In my capacity as a Senator from the State of Oregon, I ask unanimous consent that the order for the quorum call be rescinded.

Without objection, it is so ordered.

RECESS SUBJECT TO THE CALL OF THE CHAIR

The PRESIDING OFFICER. In my capacity as a Senator from the State of Oregon, I move that the Senate stand in recess subject to the call of the Chair.

The motion was agreed to, and at 2:30 p.m. the Senate recessed subject to the call of the Chair and reassembled at 2:34 p.m., when called to order by the Presiding Officer (Mr. MERKLEY).

The PRESIDING OFFICER. In my capacity as a Senator from the State of Oregon, I suggest the absence of a quorum.

The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRAVEL PROMOTION ACT OF 2009

Mr. REID. Mr. President, we have worked several days this week trying to move forward on the tourism bill. It is an extremely important piece of legislation. It is important to every State in the Union. That is why it is so heavily bipartisan.

We have almost 50 cosponsors of this legislation. Lots of Republicans cosponsored this legislation—BOND, BROWNBACK, ENZI, GRAHAM, MARTINEZ, THUNE, WICKER, ALEXANDER, COCHRAN, ENSIGN, VITTER—and I am sure there are others. It is a bipartisan bill.

We have already wasted so much time. We had to file cloture on a motion to proceed to this heavily bipartisan bill. Once we were on the bill, I spoke to the Republican leader. We thought we had a pathway to having civility here, so the Republicans would try to help us. But, of course, we learned yesterday the GOP is still saying no; Democrats need to know when they bring bills up, we are going to extend debate as long as we can, even if we cannot win.

We said: OK. You offer—you, the Republicans—four amendments. And they did. They picked all the amendments they wanted to offer—not germane to this bill.

I said: OK. They were all involving TARP or the money that we all know about by now. So I said, and I told the Senator from Vermont, Mr. SANDERS: If the Republicans want to offer nongermane amendments, I will be happy to have you offer your amendment.

His is a fairly simple amendment. We see what is happening in the world today as it relates to oil. Again, we are seeing speculation. We know it was there before, we are seeing it again. We have a large inventory, with no reason for the price to spike. But we have those people, these commodity traders, who are rolling the dice as if they were coming to Las Vegas to roll the dice on the oil because they think the price is going to go up.

What Sanders wanted to do is basically nothing unique. He wanted to make sure the entity that is responsible for making sure there are no shenanigans being conducted by these traders, that we pass some legislation saying: You have to do better than what you have done, in effect. I am paraphrasing the picture of that legislation. It was fairly noncontroversial. But the Republicans said no. Whom are they trying to protect?

So we were generous in our offer. What was the other amendment they wanted to offer? They still had another amendment. I said: Fine, go ahead. The Senate should take hard votes. I am not concerned about my folks having to take difficult votes.

The Presiding officer knows, in the short time he has been here, that we have taken some hard votes. That is what we are elected to do. We are not elected to run from issues. To be clear, some of the amendments which my Republican colleagues wanted to include would have been votes that have nothing to do with this bill. I said: Let's do it anyway.

But the standard for a Democrat offering an amendment that is not germane, I guess, is different. You can have four. I said: We do not even need the same number of amendments. I guess what is good for us is not good for them.

I am disappointed this has not been worked out. I was going to propound an agreement which was agreed upon that would permit the process of legislating on this most important tourism bill, but I am not able to do so because we do not have a Republican here to object. I certainly am not going to take advantage of anyone because no one is here to object.

But I do want the RECORD to reflect that the majority is ready to move forward with amendments now or Monday. I hope that on Monday, when our managers are here, Senators DORGAN and MARTINEZ, we may still be able to reach an agreement to begin the process of working through this legislation. If we cannot, we are going to vote at 5:30 on Monday on cloture on this bill.

A decision is going to have to be made. I have not tried to jam anybody. We have not tried to jam anybody. We have been as reasonable as anybody can be. But we are going to have to make a decision on this legislation.

The State of Oregon, the home of the Presiding Officer, a couple years ago I took my family to Oregon. Every summer we take all 5 children and all 16 grandchildren and try to go someplace. We went to Oregon. We rented a home on the beautiful coast that was stark. For 8 days the Sun did not shine. But I loved it. Being from the desert, I loved that rain a little bit. It was wonderful.

I would love to go back. There were so many things to do around there. We drove 20 miles to see a waterfall. The water fell some 300 or 400 feet. It was not a lot of falling, but it dropped a long way.

The only point I am making is there is so much for people to see. Years ago, UNLV had a great basketball team. Yours was good, but theirs was great—the Tarkanian years. So I flew into Portland with my wife. We drove over to the coast, down the coast, and went to—I think it was called Salem, the University of Oregon, I think, or Oregon State, whatever university it was where they had this tournament.

I watched UNLV play. The reason I mention it, driving down that coast was so beautiful. But every State, every State I have ever been to—I have been to most of them. I think I have been to all of them—have beautiful things for people to come and see. That is what this legislation is all about.

The No. 1, 2 or 3 most important driver of the economy in every State is tourism, every State. It is the same in Oregon, where unemployment now is over 12 percent. We can get more people to come to Oregon or Nevada. It would be tremendous for those economies. That is what this legislation does. It sets up a public-private partnership in the model, frankly, of what the Las Vegas Convention Center did, which has been so successful. That is what this legislation is all about.

It is bipartisan legislation. Because we could not work anything on amendments, I hope we will get cloture on this bill. But whether we do or not, I am happy to work with my Republican colleagues to move forward on this.

CONCLUSION OF MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that we close morning business.

The PRESIDING OFFICER. Without objection, it is so ordered. Morning business is closed.

TRAVEL PROMOTION ACT OF 2009

Mr. REID. Mr. President, it is my understanding that bill is now going to be reported.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 1023) to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States.

Mr. REID. Mr. President, the majority on the Commerce Committee has provided authority to the Chairman, Senator ROCKEFELLER, to withdraw the committee amendments and the chairman has now provided me with that authority.

Therefore, on the authority granted by Senator ROCKEFELLER of the Commerce Committee, I now withdraw the Committee amendments.

The PRESIDING OFFICER. The committee amendments are withdrawn.

AMENDMENT NO. 1347

(Purpose: To provide a perfecting amendment)

Mr. REID. On behalf of Senators DORGAN and ROCKEFELLER, I offer a perfecting amendment.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID], for Mr. DORGAN and Mr. ROCKEFELLER, proposes an amendment numbered 1347.

Mr. REID. I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The amendment is printed in today's RECORD under ''Text of Amendments.'')

CLOTURE MOTION

Mr. REID. It is my understanding that there is a cloture motion at the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close the debate on the Dorgan amendment, No. 1347, to S. 1023, the Travel Promotion Act of 2009.

Harry Reid, Byron L. Dorgan, Barbara Boxer, Ron Wyden, Michael Begich, Evan Bayh, Charles Schumer, Max Baucus, Jon Tester, Patty Murray, Jack Reed, Amy Klobuchar, Patrick Leahy, Barbara Mikulski, Robert Menendez, Jeff Bingaman, Joseph Lieberman.

Mr. REID. Mr. President, I ask for the yeas and nays on the amendment.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be a sufficient second.

The yeas and nays were ordered.

AMENDMENT NO. 1348 TO AMENDMENT NO. 1347

Mr. REID. I have a second-degree amendment at the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 1348 to amendment No. 1347.

Mr. REID. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the amendment, add the following:

This section shall take effect 5 days after enactment.

AMENDMENT NO. 1349

Mr. REID. I now call up my amendment to the language proposed to be stricken and ask for its consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 1349 to the language proposed to be stricken by amendment No. 1347.

The amendment is as follows:

At the end of the language proposed to be stricken, insert the following:

This section shall take effect 4 days after the date of enactment.

Mr. REID. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

AMENDMENT NO. 1350 TO AMENDMENT NO. 1349

Mr. REID. I have a second-degree amendment at the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 1350 to amendment No. 1349.

The amendment is as follows:

In the amendment, strike ''4'' and insert ''3''.

CLOTURE MOTION

Mr. REID. I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with this provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close the debate on S. 1023, the Travel Promotion Act of 2009.

Harry Reid, Byron L. Dorgan, Barbara Boxer, Ron Wyden, Michael Begich, Evan Bayh, Charles Schumer, Max Baucus, Jon Tester, Patty Murray, Jack Reed, Amy Klobuchar, Patrick Leahy, Barbara Mikulski, Robert Menendez, Jeff Bingaman, Joseph Lieberman.

MOTION TO RECOMMIT WITH AMENDMENT NO. 1351

Mr. REID. I now have a motion to recommit with instructions. That motion is at the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID] moves to recommit the bill to the Committee on Commerce, Science, and Transportation with instructions to report back forthwith with the following amendment numbered 1351.

The amendment is as follows:

At the end insert the following: This section shall become effective 2 days after enactment of the bill.

Mr. REID. I ask for the yeas and nays on the motion.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

AMENDMENT NO. 1352 TO AMENDMENT NO. 1351

Mr. REID. I have a first-degree amendment to the instructions at the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 1352 to amendment No. 1351.

The amendment is as follows:

Strike ''2'' and insert ''1''.

Mr. REID. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The yeas and nays were ordered.

AMENDMENT NO. 1353 TO AMENDMENT NO. 1352

Mr. REID. I have a second-degree amendment to the instructions at the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 1353 to amendment No. 1352.

The amendment is as follows:

Strike ''1'' and insert ''immediately''

Mr. REID. I ask unanimous consent that the mandatory quorum required under rule XXII be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar Nos. 187, 189, 190, 191, 198, 199, 200, 201, 202, 210, 211, 212, 213, 216, 220, 221, 222 to and including 250, 253, 254 and all nominations on the Secretary's desk in the Air Force, Army, Coast Guard, Foreign Service, and Navy; that the nominations be confirmed en bloc; the motions to reconsider be laid on the table en bloc; that no further motions be in order, that any statements relating to any of these matters be printed in the RECORD, the President be immediately notified of the Senate's action, and the Senate then resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that the Senate now proceed to a period of morning business, with Senators allowed to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUPPLEMENTAL APPROPRIATIONS

Mr. MCCAIN. Mr. President, I wanted to go into a bit more detail about the cash for clunkers provision the Senate passed yesterday as part of the $105 billion war supplemental. I continue to believe that the American people would be appalled to learn the specifics of this lemon legislation. Here is a quick summary:

Any person who trades in a car he or she has owned and insured for at least 1 year that has a combined fuel economy value of 18 miles or less per gallon is eligible for: $3,500 toward the purchase of a new car if it has a fuel economy value at least 4 miles per gallon higher than the trade-in, or a new truck if it has a fuel economy value at least 2 miles per gallon higher than the trade-in; or $4,500 toward the purchase of a new car if it has a fuel economy value at least 10 miles per gallon higher than the trade-in, or a new truck if it has a fuel economy value at least 5 miles per gallon higher than the trade-in.

The auto dealer that sells the new car, must accept the trade-in and crush it, then submit paperwork to the Department of Transportation, DOT, and the money is directly wired to the auto dealer. This is ripe for fraud and abuse and the bill provides a penalty of a mere $15,000 fine for each abuse.

Only cars costing less than $45,000 and purchased between July 1, 2009, and November 1, 2009, are eligible.

Lastly, I want to talk about how this clunker was salvaged by the Democrats placing it in a war supplemental bill. On January 14, 2009, several Senators introduced a cash for clunkers bill that would provide between $2,500 and $4,500 toward the purchase of a new or used car as long as the trade-in had a fuel economy rating of less than 18 miles a gallon and the new or used car had a fuel economy rating exceeding target for that class of vehicles by at least 25 percent, as determined by DOT.

Then on May 21, 2009, a new cash for clunkers bill was introduced by a different group of Senators who limited the benefit to only the purchase of a new car, and removed the requirement that the new car must have a fuel economy rating exceeding the target by at least 25 percent and replaced it with a more lax requirement that a new car merely had to be 2 miles per gallon more fuel efficient.

Senators COLLINS and FEINSTEIN wrote an op-ed in The Wall Street Journal on June 11, 2009, stating:

> It's amazing how quickly a good idea can go bad in Washington . . . Our ''Cash for Clunkers'' proposal was a win-win for the environment and the economy. Then Detroit auto industry lobbyists got involved. Soon a rival bill emerged . . . tailored perfectly to the auto industry's specifications. They claim their bill would have resulted in 32 percent more oil savings and reduce greenhouse gas emissions. And then Detroit's bill was placed into the war supplemental and will likely be signed into law without ever having been reviewed by the committee that has jurisdiction over such legislation or being available for amendment by the full Senate.

WORLD REFUGEE DAY

Mr. FEINGOLD. Mr. President, tomorrow is World Refugee Day, a day to pause and recognize the millions of people who have been forced from their homes by natural disaster, conflict, or in some cases persecution. They often only carry with them the clothes on their backs and the new burdens and trauma that accompany the title of ''refugee.'' Yet as we acknowledge the tragedy of their loss, we can also celebrate their enduring resilience. Even after years of suffering and hopelessness, many refugees never give up hope that they will return to their homes to be allowed to live peaceful and full lives. They continue to struggle to ensure that their basic rights are protected and basic needs met.

Today, the overall number of refugees and internally displaced people is estimated at 42 million. The refugee experience cuts across borders and countries, but the circumstances that give rise to displacement are often unique. There are so many crises to talk about—in Colombia, Sri Lanka, Thailand, and Zimbabwe, for example—but I want to briefly highlight three in particular.

First, in Pakistan's North West Frontier Province, a humanitarian crisis continues to unfold as more than 2 million Pakistanis have been displaced from their homes due to fighting between militants and the Pakistani Government. The Pakistani people have borne additional hardship as friends, families, and strangers—already strained by the global economic crisis—have opened their homes and lives to many of the displaced. We must do more to encourage this generosity through creative means as well as providing traditional aid to the hundreds of thousands in camps.

I also wish to highlight the eastern Democratic Republic of the Congo.

Hundreds of thousands of people have been displaced by the fighting between the Congolese military and armed groups in eastern Congo, forcing people into squalid camps where children are subject to forced recruitment and women suffer unspeakable levels of sexual violence. In eastern Congo and so many other conflict zones, rape and other forms of gender-based violence have become not just outgrowths of war and its brutality—they are used as weapons of war. We must do more to stop this horrifying practice, to provide protection to these vulnerable refugee populations, and to address the underlying causes of eastern Congo's conflicts.

Third, there continue to be more than 250,000 refugees from the Darfur region of Sudan in eastern Chad in addition to some 190,000 internally displaced people—Chadians—in the area. Moreover, millions of people remain internally displaced in Darfur. These people do not have access to many basic humanitarian needs such as water, health care, and education, and they continue to be subject to attacks by government forces and armed rebel groups. We need to address their needs and enhance civilian protection, while working to stand up a viable peace process for Darfur and the wider region.

Finally, World Refugee Day is also an occasion to celebrate the work of donor governments including our own, private individuals, nongovernmental organizations, and agencies like the United Nations High Commissioner for Refugees that are working to meet the needs of the displaced. To those who have given generously, to those who have lived among the displaced, and to those who report their stories and refuse to allow them to be forgotten, I say, thank you.

Nonetheless, we must do more to bring attention to the plight of the tens of millions of refugees around the world and to ensure their fundamental right to be safe. The theme of this year's World Refugee Day is ''Real People, Real Needs''—a reminder of the human face of refugee crises around the world. Today, let us see that face and commit ourselves to meeting the real needs of refugees and IDPs around the world.

ADDITIONAL STATEMENTS

CONGRATULATING THE ORLANDO MAGIC

● Mr. MARTINEZ. Mr. President, it gives me great pleasure to recognize the Orlando Magic on a tremendous 2008–09 season; which ended on Sunday as the Los Angeles Lakers won a hard fought victory to win the NBA Finals. Although the Magic didn't end up taking home the championship trophy, they still turned in an inspiring performance throughout their improbable postseason run.

Four years ago, few would have imagined the Orlando Magic would be the 2008–2009 Eastern Conference Champions. During the 2003–2004 season, the Magic finished last in the league with a record of 21 wins and 61 losses. Since that time, the Magic organization has assembled a team that has made the Orlando community and now all of Florida proud.

I commend coach Stan Van Gundy for leading his team to their third consecutive postseason and the team's second NBA Finals appearance. Whether it was overcoming long odds to beat the defending champion Boston Celtics or defeating LeBron James and the Cleveland Cavaliers, the team proved that when ''Blue and White Ignite,'' it is tough to beat the Orlando Magic.

For their hard work and sportsmanship, I would like to recognize Dwight Howard, Hedo Türkoğlu, Rashard Lewis, rookie Courtney Lee and the rest of the team for setting a tremendous example.

Today, all Floridians are proud of the Orlando Magic for having such a memorable season. I congratulate the Magic organization and their fans on a great season and look forward to the next season as the team builds on this year's success.●

COMMENDING MAIKI AIU LAKE

● Mr. INOUYE. Mr. President, today marks the 25th anniversary of the passing of a most beloved and remarkable hula master and instructor, Maiki Aiu Lake. Her skills in the art of hula and love of teaching have made her a legendary figure in the State of Hawaii.

Affectionately known as ''Aunty Maiki,'' Maiki Aiu Lake has played a pivotal role in the preservation and continuation of Native Hawaiian culture. Her unwavering dedication to her students and art has proved hula more than a dance; the elegance and beauty exhibited in hula enriches its audience, and instills a deeper understanding and appreciation for Hawaii's artistic heritage. Her Halau Hula is renowned among many for its attention to detail and profound respect for the traditions of the Native Hawaiian people. Through her passion as both an artist and teacher, Aunty Maiki has touched countless lives. She remains an enduring influence whose legacy continues through the work of her many students and devoted friends.

Mr. President, I ask my colleagues to join me in acknowledging the great accomplishments of Maiki Aiu Lake.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

ENROLLED BILLS SIGNED

At 10:45 a.m., a message from the House of Representatives, delivered by Mrs. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

H.R. 813. An act to designate the Federal building and United States courthouse located at 306 East Main Street in Elizabeth City, North Carolina, as the ''J. Herbert W. Small Federal Building and United States Courthouse''.

H.R. 837. An act to designate the Federal building located at 799 United Nations Plaza in New York, New York, as the ''Ronald H. Brown United States Mission to the United Nations Building''.

H.R. 2344. An act to amend section 114 of title 17, United States Code, to provide for agreements for the reproduction and performance of sound recordings by webcasters.

H.R. 2346. An act making supplemental appropriations for the fiscal year ending September 30, 2009, and for other purposes.

H.R. 2675. An act to amend title II of the Antitrust Criminal Penalty Enhancement and Reform Act of 2004 to extend the operation of such title for a 1-year period ending June 22, 2010.

The enrolled bills were subsequently signed by the President pro tempore (Mr. BYRD).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mr. DODD for the Committee on Health, Education, Labor, and Pensions.

Kathleen Martinez, of California, to be an Assistant Secretary of Labor.

Kathy J. Greenlee, of Kansas, to be Assistant Secretary for Aging, Department of Health and Human Services.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. BUNNING (for himself and Mr. ALEXANDER):

S. 1306. A bill to provide for payment to the survivor or surviving family members of compensation otherwise payable to a contractor employee of the Department of Energy who dies after application for compensation under the Energy Employees Occupational Illness Compensation Program Act

of 2000, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. FEINGOLD (for himself and Ms. KLOBUCHAR):

S. 1307. A bill to amend part C of title XVIII of the Social Security Act with respect to Medicare special needs plans and the alignment of Medicare and Medicaid for dually eligible individuals, and for other purposes; to the Committee on Finance.

By Mr. LAUTENBERG:

S. 1308. A bill to reauthorize the Maritime Administration, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. BAYH (for himself, Mrs. LINCOLN, and Mr. BURRIS):

S. 1309. A bill to amend title IV of the Social Security Act to ensure funding for grants to promote responsible fatherhood and strengthen low-income families, and for other purposes; to the Committee on Finance.

By Mr. AKAKA:

S. 1310. A bill to authorize major medical facility projects for the Department of Veterans Affairs for fiscal year 2010, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. WICKER (for himself, Ms. LANDRIEU, and Mr. COCHRAN):

S. 1311. A bill to amend the Federal Water Pollution Control Act to expand and strengthen cooperative efforts to monitor, restore, and protect the resource productivity, water quality, and marine ecosystems of the Gulf of Mexico; to the Committee on Environment and Public Works.

By Mr. ISAKSON:

S. 1312. A bill to amend title XVIII of the Social Security Act to provide for coverage, as supplies associated with the injection of insulin, of containment, removal, decontamination and disposal of home-generated needles, syringes, and other sharps through a sharps container, decontamination/destruction device, or sharps-by-mail program or similar program under part D of the Medicare program; to the Committee on Finance.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. MCCAIN (for himself, Mr. LIEBERMAN, Mr. GRAHAM, Mr. BROWNBACK, Mr. KYL, Mr. BUNNING, and Mr. CORNYN):

S. Res. 193. A resolution expressing support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties, and rule of law, and for other purposes; considered and agreed to.

By Mr. CASEY (for himself and Mr. SPECTER):

S. Res. 194. A resolution congratulating the Pittsburgh Penguins on winning the 2009 Stanley Cup Championship; considered and agreed to.

By Mr. INOUYE:

S. Res. 195. A resolution recognizing Bishop Museum, the Nation's premier showcase for Hawaiian culture and history, on the occasions of its 120th anniversary and the restoration and renovation of its Historic Hall; to the Committee on the Judiciary.

By Mr. KAUFMAN (for himself, Mr. KYL, and Mr. BUNNING):

S. Res. 196. A resolution expressing the sense of the Senate on freedom of the press, freedom of speech, and freedom of expression in Iran; considered and agreed to.

By Mr. CARPER (for himself, Ms. COLLINS, Mr. LIEBERMAN, Mr. ALEXANDER, Mr. VOINOVICH, Mr. BURRIS, Mr. LEVIN, Mr. WEBB, Mr. WARNER, Mr. CORNYN, and Mr. AKAKA):

S. Res. 197. A resolution congratulating the men and women of the National Archives and Records Administration on the occasion of its 75th anniversary; considered and agreed to.

By Mr. BURRIS (for himself, Mr. BROWNBACK, Mr. LEVIN, Mrs. HUTCHISON, and Mrs. GILLIBRAND):

S. Res. 198. A resolution observing the historical significance of Juneteenth Independence Day; considered and agreed to.

ADDITIONAL COSPONSORS

S. 535

At the request of Mr. NELSON of Florida, the name of the Senator from Nebraska (Mr. JOHANNS) was added as a cosponsor of S. 535, a bill to amend title 10, United States Code, to repeal requirement for reduction of survivor annuities under the Survivor Benefit Plan by veterans' dependency and indemnity compensation, and for other purposes.

S. 540

At the request of Mr. BURRIS, his name was added as a cosponsor of S. 540, a bill to amend the Federal Food, Drug, and Cosmetic Act with respect to liability under State and local requirements respecting devices.

S. 632

At the request of Mr. BAUCUS, the name of the Senator from South Dakota (Mr. THUNE) was added as a cosponsor of S. 632, a bill to amend the Internal Revenue Code of 1986 to require that the payment of the manufacturers' excise tax on recreational equipment be paid quarterly.

S. 883

At the request of Mr. KERRY, the name of the Senator from Delaware (Mr. KAUFMAN) was added as a cosponsor of S. 883, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the establishment of the Medal of Honor in 1861, America's highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Services of the United States, to honor the American military men and women who have been recipients of the Medal of Honor, and to promote awareness of what the Medal of Honor represents and how ordinary Americans, through courage, sacrifice, selfless service and patriotism, can challenge fate and change the course of history.

S. 908

At the request of Mr. BAYH, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 908, a bill to amend the Iran Sanctions Act of 1996 to enhance United States diplomatic efforts with respect to Iran by expanding economic sanctions against Iran.

At the request of Ms. MURKOWSKI, her name was added as a cosponsor of S. 908, supra.

S. 973

At the request of Mr. NELSON of Florida, the name of the Senator from Montana (Mr. TESTER) was added as a cosponsor of S. 973, a bill to amend title XVIII of the Social Security Act to provide for the distribution of additional residency positions, and for other purposes.

S. 987

At the request of Mr. DURBIN, the name of the Senator from Mississippi (Mr. WICKER) was added as a cosponsor of S. 987, a bill to protect girls in developing countries through the prevention of child marriage, and for other purposes.

S. 1066

At the request of Mr. SCHUMER, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. 1066, a bill to amend title XVIII of the Social Security Act to preserve access to ambulance services under the Medicare program.

S. 1106

At the request of Mrs. LINCOLN, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 1106, a bill to amend title 10, United States Code, to require the provision of medical and dental readiness services to certain members of the Selected Reserve and Individual Ready Reserve based on medical need, and for other purposes.

S. 1121

At the request of Mr. HARKIN, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 1121, a bill to amend part D of title V of the Elementary and Secondary Education Act of 1965 to provide grants for the repair, renovation, and construction of elementary and secondary schools, including early learning facilities at the elementary schools.

S. 1284

At the request of Ms. SNOWE, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 1284, a bill to require the implementation of certain recommendations of the National Transportation Safety Board, to require the establishment of national standards with respect to flight requirements for pilots, to require the development of fatigue management plans, and for other purposes.

S.J. RES. 17

At the request of Mr. MCCONNELL, the names of the Senator from Maryland (Ms. MIKULSKI) and the Senator from Oregon (Mr. WYDEN) were added as cosponsors of S.J. Res. 17, a joint

resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes.

S. CON. RES. 11

At the request of Ms. COLLINS, the names of the Senator from Wyoming (Mr. ENZI) and the Senator from New Jersey (Mr. LAUTENBERG) were added as cosponsors of S. Con. Res. 11, a concurrent resolution condemning all forms of anti-Semitism and reaffirming the support of Congress for the mandate of the Special Envoy to Monitor and Combat Anti-Semitism, and for other purposes.

AMENDMENT NO. 1253

At the request of Mrs. HAGAN, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of amendment No. 1253 intended to be proposed to H.R. 1256, to protect the public health by providing the Food and Drug Administration with certain authority to regulate tobacco products, to amend title 5, United States Code, to make certain modifications in the Thrift Savings Plan, the Civil Service Retirement System, and the Federal Employees' Retirement System, and for other purposes.

AMENDMENT NO. 1320

At the request of Mr. CARDIN, the names of the Senator from Louisiana (Ms. LANDRIEU) and the Senator from Maine (Ms. SNOWE) were added as cosponsors of amendment No. 1320 intended to be proposed to S. 1023, a bill to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BUNNING (for himself and Mr. ALEXANDER):

S. 1306. A bill to provide for payment to the survivor or surviving family members of compensation otherwise payable to a contractor employee of the Department of Energy who dies after application for compensation under the Energy Employees Occupational Illness Compensation Program Act of 2000, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. BUNNING. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1306

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Energy Employees Occupational Illness Compensation Program Improvement Act of 2009''.

SEC. 2. PAYMENT OF COMPENSATION TO SURVIVORS OF DEPARTMENT OF ENERGY CONTRACTOR EMPLOYEES.

(a) IN GENERAL.—Section 3672 of the Energy Employees Occupational Illness Compensation Program Act of 2000 (42 U.S.C. 7385s–1) is amended to read as follows:

''SEC. 3672. COMPENSATION TO BE PROVIDED.

''Subject to the other provisions of this subtitle:

''(1) CONTRACTOR EMPLOYEES.—

''(A) IN GENERAL.—A covered DOE contractor employee shall receive contractor employee compensation under this subtitle in accordance with section 3673.

''(B) COMPENSATION AFTER DEATH OF CONTRACTOR EMPLOYEE.—

''(i) IN GENERAL.—Except as provided paragraph (2)(B), if the death of a contractor employee occurs after the employee applies for compensation under this subtitle but before such compensation is paid, the amount of compensation described in clause (ii) shall be paid to a survivor (as that term is used in section 3674) of the employee or, if the employee has no such survivors, to the surviving family members of the employee in accordance with the procedures set forth in section 3628(e)(1).

''(ii) AMOUNT OF COMPENSATION.—The amount of compensation described in this clause is the amount of compensation the contractor employee would have received pursuant to section 3673(a), except that if the Secretary cannot determine the minimum impairment rating of the employee under paragraph (1) of such section as a result of the death of the employee, such compensation shall not include compensation pursuant to such paragraph.

''(2) SURVIVORS.—

''(A) IN GENERAL.—Except as provided in subparagraph (B) or paragraph (1)(B), a survivor of a covered DOE contractor employee shall receive contractor employee compensation under this subtitle in accordance with section 3674.

''(B) ELECTION OF CONTRACTOR EMPLOYEE COMPENSATION OR SURVIVOR COMPENSATION.—A survivor who is otherwise eligible to receive compensation pursuant to both subparagraph (A) and paragraph (1)(B) shall not receive compensation pursuant to both subparagraph (A) and paragraph (1)(B), but shall receive compensation pursuant to subparagraph (A) or paragraph (1)(B), as elected by the survivor.

''(C) COMPENSATION AFTER DEATH OF SURVIVOR.—If the death of a survivor occurs after the survivor applies for compensation under this subtitle but before such compensation is paid and, in the case of compensation pursuant to paragraph (1)(B), there are no other survivors (as that term is used in section 3674) of the employee, the amount of compensation the survivor would have received under this section shall be paid to the surviving family members of the employee in accordance with the procedures set forth in section 3628(e)(1).''.

(b) APPLICABILITY.—The provisions of section 3672 of the Energy Employees Occupational Illness Compensation Program Act of 2000 (42 U.S.C. 7385s–1), as amended by subsection (a), shall apply to applications for compensation under subtitle E of such Act filed before, on, or after the date of the enactment of this Act.

By Mr. AKAKA:

S. 1310. A bill to authorize major medical facility projects for the Department of Veterans Affairs for fiscal year 2010, and for other purposes; to the Committee on Veterans' Affairs.

Mr. AKAKA. Mr. President, today I introduce legislation requested by the Secretary of Veterans Affairs, as a courtesy to the Secretary and the Department of Veterans Affairs. Except in unusual circumstances, it is my practice to introduce legislation requested by the administration so that such measures will be available for review and consideration.

This ''by-request'' bill consists of several provisions addressing major facility construction projects and major facility leases for fiscal year 2010. It would authorize five major medical facility construction projects and fifteen major facility leases. The bill would authorize $1,196,230,000 for the major facility construction projects and $196,227,000 for the major facility leases.

I am introducing this bill for the review and consideration of my colleagues at the request of the administration. As Chairman of the Committee on Veterans' Affairs, I have not taken a position on this legislation.

Mr. President, I ask unanimous consent that the text of the bill and a letter of support be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1310

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SEC. 1. AUTHORIZATION OF FISCAL YEAR 2010 MAJOR MEDICAL FACILITY PROJECTS.

The Secretary of Veterans Affairs may carry out the following major medical facility projects in fiscal year 2010, with each project to be carried out in the amount specified for each project:

(1) Construction (including acquisition of land) for the realignment of services and closure projects at the Department of Veterans Affairs Medical Center In Livermore, California, in an amount not to exceed $55,430,000.

(2) Construction of a Multi-Specialty Care Facility in Walla Walla, Washington, in an amount not to exceed $71,400,000.

(3) Construction (including acquisition of land) for a new medical facility at the Department of Veterans Affairs Medical Center in Louisville, Kentucky, in an amount not to exceed $75,000,000.

SEC. 2. ADDITIONAL AUTHORIZATION FOR FISCAL YEAR 2010 MAJOR MEDICAL FACILITY CONSTRUCTION PROJECTS PREVIOUSLY AUTHORIZED.

The Secretary of Veterans Affairs may carry out the following major medical facility projects in fiscal year 2010:

(1) Replacement of the existing Department of Veterans Affairs Medical Center in Denver, Colorado, in an amount not to exceed $800,000,000.

(2) Construction of Outpatient and Inpatient Improvements in Bay Pines, Florida, in an amount not to exceed $194,400,000.

SEC. 3. AUTHORIZATION OF FISCAL YEAR 2010 MAJOR MEDICAL FACILITY LEASES.

The Secretary of Veterans Affairs may carry out the following fiscal year 2010 major medical facility leases at the locations specified, in an amount not to exceed the amount shown for that location:

(1) Anderson, South Carolina, Outpatient Clinic, in an amount not to exceed $4,774,000.
(2) Atlanta, Georgia, Specialty Care Clinic, in an amount not to exceed $5,172,000.
(3) Bakersfield, California, Community Based Outpatient Clinic, in an amount not to exceed $3,464,000.
(4) Birmingham, Alabama, Annex Clinic and Parking Garage, in an amount not to exceed $6,279,000.
(5) Butler, Pennsylvania, Health Care Center, in an amount not to exceed $16,482,000.
(6) Charlotte, North Carolina, Health Care Center, in an amount not to exceed $30,457,000.
(7) Fayetteville, North Carolina, Health Care Center, in an amount not to exceed $23,487,000.
(8) Huntsville, Alabama, Outpatient Clinic Expansion, in an amount not to exceed $4,374,000.
(9) Kansas City, Kansas, Community Based Outpatient Clinic, in an amount not to exceed $4,418,000.
(10) Loma Unda, California, Health Care Center, in an amount not to exceed $31,154,000.
(11) McAllen, Texas, Outpatient Clinic, in an amount not to exceed $4,444,000.
(12) Monterey, California, Health Care Center, in an amount not to exceed $11,628,000.
(13) Montgomery, Alabama, Health Care Center, in an amount not to exceed $9,943,000.
(14) Tallahassee, Florida, Outpatient Clinic, in an amount not to exceed $13,165,000.
(15) Winston-Salem, North Carolina, Health Care Center, in an amount not to exceed $26,986,000.

SEC. 4. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION OF APPROPRIATIONS FOR CONSTRUCTION.—There is authorized to be appropriated to the Secretary of Veterans Affairs for fiscal year 2010 or the year in which funds are appropriated for the Construction, Major Projects, Account—
(1) $201,830,000 for the projects authorized in section 1; and
(2) $994,400,000 for the projects authorized in section 2.
(b) AUTHORIZATION OF APPROPRIATIONS FOR MEDICAL FACILITY LEASES.—There is authorized to be appropriated to the Secretary of Veterans Affairs for fiscal year 2010 or the year in which funds are appropriated for the Medical Facilities account $196,227,000 for the leases authorized in section 3.
(c) LIMITATION.—The projects authorized in sections 1 and 2 may only be carried out using—
(1) funds appropriated for fiscal year 2010 pursuant to the authorization of appropriations in subsection (a) of this section;
(2) funds available for Construction, Major Projects, for a fiscal year before fiscal year 2010 that remain available for obligation;
(3) funds available for Construction, Major Projects, for a fiscal year after fiscal year 2010 that remain available for obligation;
(4) funds appropriated for Construction, Major Projects, for fiscal year 2010 for a category of activity not specific to a project;
(5) funds appropriated for Construction, Major Projects, for a fiscal year before 2010 for a category of activity not specific to a project; and
(6) funds appropriated for Construction, Major Projects, for a fiscal year after 2010 for a category of activity not specific to a project.

THE SECRETARY OF VETERANS AFFAIRS,
Washington, DC, June 10, 2009.

Hon. JOSEPH R. BIDEN, Jr.,
President of the Senate,
Washington, DC.

DEAR MR. PRESIDENT: I am pleased to submit the enclosed draft bill to authorize $1,196,230,000 for Department of Veterans Affairs (VA) major facility construction projects for Fiscal Year 2010 and $196,227,000 for major facility leases for Fiscal Year 2010.

Title 38 U.S.C. section 8104(a) (2) requires statutory authorization for all VA major medical facility construction projects and all major medical facility leases prior to the appropriation of funds. In accordance with title 38, the draft bill authorizes five major medical facility construction projects and fifteen major facility leases. The five major medical facility construction projects are located in: Livermore, California; Walla Walla, Washington; Louisville, Kentucky; Denver, Colorado; and Bay Pines, Florida. Previously, Congress authorized funds for Denver and Bay Pines. This proposed bill would authorize additional funds necessary to continue with these projects.

The proposed project in Livermore is for construction, including the acquisition of land, necessary for the realignment of services and closure projects. The proposed project in Walla Walla is for construction of a Multi-Specialty Care Facility. The proposed project in Louisville is for the construction, including the acquisition of land, for a new medical facility.

The proposed project in Denver will provide for the replacement of the existing medical center. Additional authorization is required to complete this project. The proposed project in Bay Pines is for construction of both outpatient and inpatient improvements. Additional authorization is required to complete this project.

The Office of Management and Budget advises that there is no objection to the submission of this legislative proposal to the Congress and that its enactment would be in accord with the program of the President.

Sincerely,

ERIC K. SHINSEKI.

Enclosures.

SECTION-BY-SECTION ANALYSIS

Section 1 authorizes the Secretary of the Department of Veterans Affairs (VA) to carry out three major medical facility projects. Authorization is requested for the construction, including acquisition of land, for realignment of services and closure projects in Livermore, California, in an amount not to exceed $55,430,000. Authorization is requested for the construction of a Multi-Specialty Care Facility in Walla Walla, Washington, in an amount not to exceed $71,400,000. Authorization is requested for the construction, including acquisition of land, for a new medical facility in Louisville, Kentucky, in an amount not to exceed $75,000,000.

Section 2 authorizes the Secretary of VA to carry out two major medical facility projects. Previously, these campuses received authorization, but additional authorization is required to complete the construction projects on these campuses. In this regard, authorization is requested for replacement of the VAMC in Denver, Colorado, in an amount not to exceed $800,000,000. Authorization is also requested for the construction of outpatient and inpatient improvements in Bay Pines, Florida, in an amount not to exceed $194,400,000.

Section 3 authorizes the Secretary of VA to carry out major medical facility leases for an Outpatient Clinic in Anderson, South Carolina, in an amount not to exceed $4,774,000; a Specialty Care Clinic in Atlanta, Georgia, in an amount not to exceed $5,172,000; a Community Based Outpatient Clinic in Bakersfield, California, in an amount not to exceed $3,464,000; an Annex Clinic and Parking Garage in Birmingham, Alabama, in an amount not to exceed $6,279,000; a Health Care Center in Butler, Pennsylvania, in an amount not to exceed $16,482,000; a Health Care Center in Charlotte, North Carolina, in an amount not to exceed $30,457,000; a Health Care Center in Fayetteville, North Carolina, in an amount not to exceed $23,487,000; an Outpatient Clinic Expansion in Huntsville, Alabama, in an amount not to exceed $4,374,000; a Community Based Outpatient Clinic in Kansas City, Kansas, in an amount not to exceed $4,418,000; a Health Care Center in Loma Linda, California, in an amount not to exceed $31,154,000; an Outpatient Clinic in McAllen, Texas, in an amount not to exceed $4,444,000; a Health Care Center in Monterey, California, in an amount not to exceed $11,628,000; a Health Care Center in Montgomery, Alabama, in an amount not to exceed $9,943,000; an Outpatient Clinic in Tallahassee, Florida, in an amount not to exceed $13,165,000; and, a Health Care Center in Winston-Salem, North Carolina, in an amount not to exceed $26,986,000.

Section 4 authorizes for appropriation for Fiscal Year 2010, $201,830,000 from the Major Construction Projects account for the projects authorized in Section 1 and $994,400,000 for the projects authorized in Section 2. Section 4 also authorizes for appropriation for Fiscal Year 2010, $196,227,000 from the Medical Facilities account for the leases authorized in Section 3. Section 4 allows the projects authorized in Sections 1 and 2 to be carried out by using only 1) funds appropriated for fiscal year 2010 pursuant to the authorization of appropriations in subsection a; 2) funds available for Construction, Major Projects, for a fiscal year before fiscal year 2010 that remain available for obligation; 3) funds available for Construction, Major Projects, for a fiscal year after fiscal year 2010 that remain available for obligation; and 4) funds appropriated for Construction, Major Projects, for fiscal year 2010 for a category of activity not specific to a project.

By Mr. WICKER (for himself, Ms. LANDRIEU, and Mr. COCHRAN):

S. 1311. A bill to amend the Federal Water Pollution Control Act to expand and strengthen cooperative efforts to monitor, restore, and protect the resource productivity, water quality, and marine ecosystems of the Gulf of Mexico; to the Committee on Environment and Public Works.

Mr. WICKER. Mr. President, today I introduce an important piece of legislation that will help protect and preserve the health and productivity of one of our Nation's most important bodies of water—the Gulf of Mexico.

The Gulf of Mexico Restoration and Protection Act will serve as a national and international model for the collaborative management of large marine ecosystems. Specific provisions of this Act will be administered by the Gulf of Mexico Program, formed in 1988 by the Environmental Protection Agency as a non-regulatory, inclusive partnership that collaborates with federal offices, state, and local governments and the private sector in each of 5 Gulf States—all committed to helping preserve and protect the Gulf.

Collectively, the fertile waters and seabed of the Gulf of Mexico represent

the 6th largest economy in the world with a total economic trade value of almost $6 trillion. These waters are now threatened by excessive nutrient loads and invasive species as well as the significant deterioration of many coastal wetlands as a result of hurricane and tropical storm damage.

The future of the Gulf's environmental stability is vital to America's economy and security. This legislation authorizes much needed additional funds to the Gulf of Mexico Program and finally puts it on a path toward more equal footing with other national great water body programs. Members of the Gulf of Mexico program are working together to secure the Gulf's future. It is time for this critical region to be recognized for its strategic importance. This legislation is an important step toward ensuring the Gulf receives the kind of support it deserves.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 193—EXPRESSING SUPPORT FOR ALL IRANIAN CITIZENS WHO EMBRACE THE VALUES OF FREEDOM, HUMAN RIGHTS, CIVIL LIBERTIES, AND RULE OF LAW, AND FOR OTHER PURPOSES

Mr. MCCAIN (for himself, Mr. LIEBERMAN, Mr. GRAHAM, Mr. BROWNBACK, Mr. KYL, Mr. BUNNING, and Mr. CORNYN) submitted the following resolution; which was considered and agreed to:

S. RES. 193

Resolved, That the Senate—

(1) expresses its support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties, and rule of law;

(2) condemns the ongoing violence against demonstrators by the Government of Iran and pro-government militias, as well as the ongoing government suppression of independent electronic communication through interference with the Internet and cellphones; and

(3) affirms the universality of individual rights and the importance of democratic and fair elections.

SENATE RESOLUTION 194—CONGRATULATING THE PITTSBURGH PENGUINS ON WINNING THE 2009 STANLEY CUP CHAMPIONSHIP

Mr. CASEY (for himself and Mr. SPECTER) submitted the following resolution; which was considered and agreed to:

S. RES. 194

Whereas, on June 12, 2009, the Pittsburgh Penguins defeated the Detroit Red Wings 2-to-1 in Game 7 of the National Hockey League Stanley Cup Finals;

Whereas the victory marks the Penguins' third Stanley Cup Championship in franchise history and capped off a historic playoff series;

Whereas the Penguins are just the second team in league history to win the seventh game of a Stanley Cup Championship series on the road after the home team won the first 6 games of the series;

Whereas the Penguins beat the Washington Capitals in the Eastern Conference Semifinals and the Detroit Red Wings in the Stanley Cup Championship after losing the first 2 games in both series, making the Penguins the only team in league history to rally from 2-to-0 series deficits twice in the same year;

Whereas Mario Lemieux is to be honored for his commitment to keeping the Penguins in Pittsburgh and passing along his legacy to a new generation of players and fans;

Whereas, in February 2009, the Penguins hired Head Coach Dan Bylsma from the Penguins' minor league franchise in Wilkes-Barre, Pennsylvania, making Bylsma the first coach in the history of the National Hockey League to begin a season coaching in the American Hockey League and finish a Stanley Cup champion;

Whereas Sidney Crosby, the youngest team captain to ever win the Stanley Cup, was third in scoring during the regular season, had a league-leading 15 playoff goals, and demonstrated leadership by taking the Penguins to the Stanley Cup Finals in 2 consecutive seasons;

Whereas, over the course of the playoffs, Evgeni Malkin led all players in scoring with 36 points, including 14 goals and 22 assists, and won the Conn Smythe trophy for most valuable player in the playoffs;

Whereas Max Talbot is to be commended for scoring the only 2 Penguins goals in the Game 7 victory over the Detroit Red Wings;

Whereas thousands of Penguins fans supported the team throughout the postseason, donning white t-shirts to create a ''whiteout'' effect at home games or gathering to watch the game on a big screen television outside Mellon Arena;

Whereas the Red Wings are to be commended for a terrific season, committment to sportsmanship, and excellence on and off the ice; and

Whereas nearly 400,000 fans packed the streets of Pittsburgh, Pennsylvania, on June 15, 2009, to honor the Penguins in a parade along Grant Street and the Boulevard of the Allies: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates—

(A) the Pittsburgh Penguins for winning the 2009 Stanley Cup Championship;

(B) Mario Lemieux and the coaching staff of the Penguins and support staff and recognizes their commitment to keeping the team in Pittsburgh;

(C) all Penguins fans who supported the team throughout the season; and

(D) the Detroit Red Wings on an outstanding season; and

(2) directs the Secretary of the Senate to transmit an enrolled copy of this resolution to—

(A) co-owners Mario Lemieux and Ron Burkle;

(B) vice president and general manager Ray Shero; and

(C) head coach Dan Bylsma.

SENATE RESOLUTION 195—RECOGNIZING BISHOP MUSEUM, THE NATION'S PREMIER SHOWCASE FOR HAWAIIAN CULTURE AND HISTORY, ON THE OCCASIONS OF ITS 120TH ANNIVERSARY AND THE RESTORATION AND RENOVATION OF ITS HISTORIC HALL

Mr. INOUYE submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 195

Whereas Bishop Museum was founded in 1889 in Honolulu, Hawai'i by Charles Reed Bishop in memory of his beloved wife, Princess Bernice Pauahi Bishop, the great granddaughter of Kamehameha I, to house the personal legacies and bequests of the royal Kamehameha and Kalākaua families;

Whereas the mission of Bishop Museum since its inception has been to study, preserve, and tell the stories of the cultures and natural history of Hawai'i and the Pacific;

Whereas the collections of Bishop Museum include more than 24,000,000 objects, collectively the largest Hawai'i and Pacific area collection in the world, which includes more than 1,200,000 cultural objects representing Native Hawaiian, Pacific Island, and Hawai'i immigrant life, more than 125,000 historical publications (including many in the Hawaiian language), more than 1,000,000 historical photographs, films, works of art, audio recordings, and manuscripts, and more than 22,000,000 plant and animal specimens;

Whereas a primary goal of Bishop Museum is to serve and represent the interests of Native Hawaiians by advancing Native Hawaiian culture and education, protecting the collections and increasing access to them, and strengthening the museum's connections with the schools of Hawai'i;

Whereas the national significance of Bishop Museum's cultural collection lies in the Native Hawaiian collection, which collectively represents the largest public resource in the world documenting a way of life, and has been a source of knowledge and inspiration for numerous visitors, researchers, students, native craftsmen, teachers, and community and spiritual leaders over the years, especially since the cultural revival, which has been steadily growing and gaining in popularity;

Whereas more than 【300,000】 people visit Bishop Museum each year to learn about Hawaiian culture and experience Hawaiian Hall;

Whereas the desire to see Hawaiian Hall and to learn about Hawaiian culture is the primary reason 【400,000】 visitors each year give for visiting Bishop Museum;

Whereas Hawaiian Hall is the Nation's only showcase of its size, proportion, design, and historic context that is devoted to the magnificent legacy of Hawai'i's kings and queens, and the legacies of its Native Hawaiian people of all walks of life and ages;

Whereas Hawaiian Hall, constructed between 1889 and 1903 and 1 of 3 interconnected structures known as the Hawaiian Hall Complex, is considered a masterpiece of late Victorian museum design with its Kamehameha blue stone exterior quarried on site and extensive use of native koa wood, and is one of the few examples of Romanesque Richardsonian style museum buildings to have survived essentially unchanged;

Whereas Hawaiian Hall, designed by noted Hawai'i architects C.B. Ripley and C.W. Dickey in 1898, was placed on the National Register of Historic Places in 1982, based on

its unique combination of architectural, cultural, scientific, educational, and historical significance;

Whereas the restoration and renovation of Hawaiian Hall and its exhibits by noted Hawai'i architect Glenn Mason and noted national and international museum exhibit designer Ralph Appelbaum are integral to the museum's ability to fulfill its mission and achieve its primary goal of serving and representing the interests of Native Hawaiians;

Whereas the restoration and renovation of Hawaiian Hall, begun in 2005, included the building of a new gathering place in an enclosed, glass walled atrium, improved access to the hall through the installation of an elevator in the new atrium to all 3 floors of the hall and other buildings in the Hawaiian Hall Complex, improved collection preservation through the installation of new, state-of-the-art environmental controls, lighting, security, and fire suppression systems, and restored original woodwork and metalwork;

Whereas the restoration and renovation of the hall's exhibits bring multiple voices and a Native Hawaiian perspective to bear on Bishop Museum's treasures, by conveying the essential values, beliefs, complexity, and achievements of Hawaiian culture through exquisite and fragile artifacts in a setting that emphasizes their ''mana'' (power and essence) and the place in which they were created;

Whereas the new exhibit incorporates contemporary Native Hawaiian artwork illustrating traditional stories, legends, and practices, and contemporary Native Hawaiian voices interpreting the practices and traditions through multiple video presentations;

Whereas the new exhibit features more than 2,000 objects and images from the museum's collections on the open floor, mezzanines, and the center space, conceptually organized to represent 3 traditional realms or ''wao'' of the Hawaiian world—Kai Ākea, the expansive sea from which gods and people came, Wao Kānaka, the realm of people, and Wao Lani, the realm of gods and the ''ali'i'' (chiefs) who descended from them;

Whereas the new exhibit's ending display celebrates the strength, glory, and achievements of Native Hawaiians with a large 40-panel mural titled ''Ho'ohuli, To Cause An Overturning, A Change'', made by students of Native Hawaiian charter schools in collaboration with Native Hawaiian artists and other students, and interpreted by Native Hawaiian artists and teachers in a video presentation; and

Whereas the people of the United States wish to convey their sincerest appreciation to Bishop Museum for its service and devotion: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes the reopening of historic Hawaiian Hall on the 120th anniversary of the founding of Bishop Museum in Honolulu, Hawai'i; and

(2) on the occasions of the reopening and anniversary of the museum, honors and praises Bishop Museum for its work to ensure the preservation, study, education, and appreciation of Native Hawaiian culture and history.

Mr. INOUYE. Mr. President, I rise to introduce a resolution that recognizes the Bishop Museum on its 120th Anniversary and celebrates the reopening of its historic Hawaiian Hall.

The Bishop Museum was founded in 1889 by Charles Reed Bishop in honor of his late wife, Princess Bernice Pauahi Bishop, the last descendant of the royal Kamehameha family. The museum was established to house the extensive collection of Hawaiian artifacts and royal family heirlooms of the Princess, and has expanded to include millions of artifacts, documents and photographs about Hawaii and other Pacific island cultures.

Today, the Bishop Museum is the largest museum in the State of Hawaii and the premier natural and cultural history institution in the Pacific, recognized throughout the world for its cultural collections, research projects, consulting services and public educational programs. It also has one of the largest natural history specimen collections in the world. The museum provides a great service to the State of Hawaii and I commend them for their long time commitment of serving and representing the interests of native Hawaiians.

SENATE RESOLUTION 196—EXPRESSING THE SENSE OF THE SENATE ON FREEDOM OF THE PRESS, FREEDOM OF SPEECH, AND FREEDOM OF EXPRESSION IN IRAN

Mr. KAUFMAN (for himself, Mr. KYL, and Mr. BUNNING) submitted the following resolution; which was considered and agreed to:

S. RES. 196

Whereas since the June 12 Iranian presidential elections, there have been increased restrictions on freedom of the press in Iran and limitations on the free flow of information among the Iranian people;

Whereas newspapers and news services have been restricted by the Government of Iran, preventing the publication of specific articles, blocking the transmission of some news broadcasts, and cancelling of foreign press credentials;

Whereas websites and blogs have been blocked in Iran, including social networking sites such as Facebook and Twitter;

Whereas numerous Iranian journalists have been arrested, detained, imprisoned, or assaulted since June 12;

Whereas foreign journalists have been prevented from covering street demonstrations, confined to their hotels, and told their visas would not be renewed;

Whereas non-Iranian government news services, including the Associated Press, have been told they may not distribute Farsi-language reports;

Whereas Iranian journalists were instructed by the Government of Iran to report solely from their offices;

Whereas on June 13, the leading mobile phone operator in Iran, the government-owned Telecommunication Company of Iran, was suspended for over 24 hours;

Whereas short message service (SMS) in Iran has been blocked, preventing text message communications and blocking internet sites that utilize such services;

Whereas on June 14, an Al–Arabiya correspondent was instructed by the Iranian Ministry of Information to change a story and its Tehran bureau was subsequently closed;

Whereas shortwave and medium wave transmissions of the Farsi-language Radio Free Europe/Radio Liberty's (RFE/RL) Radio Farda have been partially jammed since June 12; and

Whereas satellite broadcasts, including those of the Voice of America's Persian News Networkand the British Broadcasting Corporation (BBC), have been intermittently jammed since late May: Now, therefore, be it

Resolved, That the Senate—

(1) respects the sovereignty, proud history, and rich culture of the Iranian people;

(2) respects the universal values of freedom of speech and freedom of the press in Iran and throughout the world;

(3) supports the Iranian people as they take steps to peacefully express their voices, opinions, and aspirations;

(4) supports the Iranian people seeking access to news and other forms of information;

(5) condemns the detainment, imprisonment, and intimidation of all journalists, in Iran and elsewhere throughout the world;

(6) supports journalists who take great risk to report on political events in Iran, including those surrounding the presidential election;

(7) supports the efforts of the Broadcasting Board of Governors (BBG) to provide credible news and information within Iran through the Voice of America's (VOA) 24-hour television station Persian News Network, and Radio Free Europe/Radio Liberty's (RFE/RL) Radio Farda 24-hour radio station; and

(8) condemns acts of censorship, intimidation, and other restrictions on freedom of the press, freedom of speech, and freedom of expression in Iran and throughout the world.

SENATE RESOLUTION 197—CONGRATULATING THE MEN AND WOMEN OF THE NATIONAL ARCHIVES AND RECORDS ADMINISTRATION ON THE OCCASION OF ITS 75TH ANNIVERSARY

Mr. CARPER (for himself, Ms. COLLINS, Mr. LIEBERMAN, Mr. ALEXANDER, Mr. VOINOVICH, Mr. BURRIS, Mr. LEVIN, Mr. WEBB, Mr. WARNER, Mr. CORNYN, and Mr. AKAKA) submitted the following resolution; which was considered and agreed to:

S. RES. 197

Whereas the National Archives was established by Congress in 1934 to centralize Federal recordkeeping;

Whereas the National Archives, now called the National Archives and Records Administration (in this resolution referred to as ''NARA''), serves democracy in the United States by ensuring that United States citizens can discover, use, and trust the records of the United States Government;

Whereas NARA has grown from one building along the National Mall to 38 facilities nationwide, from Atlanta to Anchorage;

Whereas NARA administers regional archives, Federal records centers, Presidential libraries, the Federal Register, and the National Historical Publications and Records Commission;

Whereas the Rotunda for the Charters of Freedom serves as the permanent home of the Declaration of Independence, the Constitution, and the Bill of Rights and makes these founding documents available to more than 1,000,000 visitors each year;

Whereas the first issue of the Federal Register was published on March 16, 1936, and the Federal Register has not missed a publication date since, providing orderly publication of the official actions of the Federal Government;

Whereas the Electronic Records Archives is laying the foundation for preserving and providing public access to historically valuable electronic records, ranging from vast, complex databases to documents that detail the making of foreign and domestic policies;

Whereas the Presidential libraries are great treasures of the United States, serving as repositories and preserving and making accessible the papers, records, and other historical materials of Presidents of the United States;

Whereas the National Personnel Records Center serves as the official repository for records of military personnel, responding to 2,000,000 requests a year by veterans and their families for documents to verify military service;

Whereas the Information Security and Oversight Office is responsible to the President for policy and oversight of the Government-wide security classification system and the National Industrial Security Program;

Whereas the National Historical Publications and Records Commission promotes the preservation and use of the documentary heritage of the United States, which is essential to understanding the democracy, history, and culture of the United States, by providing grants in support of the archives of the United States and for projects to edit and publish non-Federal historical records of national importance;

Whereas NARA holds records, in the National Archives Building and its regional facilities across the country, that allow naturalized citizens to claim their rights of citizenship;

Whereas NARA works with Federal agencies, researchers, genealogists, lawyers, scholars, and authors to respond to their evolving needs, requirements, and methods;

Whereas NARA provides records management training, enhances reference services, works with partners to digitize its holdings, and improves access to the records of the United States;

Whereas NARA provides, through its Internet site, easy and convenient public access to many of the most important and most requested historic documents and valuable databases of the United States; and

Whereas inscribed on the facade of the National Archives Building are Shakespeare's words, ''What is past is prologue'', which aptly describe the records of the past preserved by NARA as the groundwork for the future: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the men and women of the National Archives and Records Administration on the occasion of its 75th anniversary;

(2) understands the vital role that records play in a democracy;

(3) recognizes the service that NARA has given to the democracy of the United States by protecting and preserving the records of the United States Government; and

(4) commends the efforts by NARA to support democracy, promote civic education, and facilitate historical understanding of the national experience.

SENATE RESOLUTION 198—OBSERVING THE HISTORICAL SIGNIFICANCE OF JUNETEENTH INDEPENDENCE DAY

Mr. BURRIS (for himself, Mr. BROWNBACK, Mr. LEVIN, Mrs. HUTCHISON, and Mrs. GILLIBRAND) submitted the following resolution; which was considered and agreed to:

S. RES. 198

Whereas news of the end of slavery did not reach frontier areas of the United States, and in particular the southwestern States, for more than 2½ years after President Lincoln's Emancipation Proclamation, which was issued on January 1, 1863, and months after the conclusion of the Civil War;

Whereas, on June 19, 1865, Union soldiers led by Major General Gordon Granger arrived in Galveston, Texas with news that the Civil War had ended and that the enslaved were free;

Whereas African-Americans who had been slaves in the Southwest celebrated June 19, commonly known as ''Juneteenth Independence Day'', as the anniversary of their emancipation;

Whereas African-Americans from the Southwest continue the tradition of celebrating Juneteenth Independence Day as inspiration and encouragement for future generations;

Whereas for more than 140 years, Juneteenth Independence Day celebrations have been held to honor African-American freedom while encouraging self-development and respect for all cultures;

Whereas although Juneteenth Independence Day is beginning to be recognized as a national, and even global, event, the history behind the celebration should not be forgotten; and

Whereas the faith and strength of character demonstrated by former slaves remains an example for all people of the United States, regardless of background, religion, or race: Now, therefore, be it

Resolved, That—

(1) the Senate—

(A) recognizes the historical significance of Juneteenth Independence Day to the Nation;

(B) supports the continued celebration of Juneteenth Independence Day to provide an opportunity for the people of the United States to learn more about the past and to understand better the experiences that have shaped the Nation; and

(C) encourages the people of the United States to observe Juneteenth Independence Day with appropriate ceremonies, activities, and programs; and

(2) it is the sense of the Senate that—

(A) the celebration of the end of slavery is an important and enriching part of the history and heritage of the United States; and

(B) history should be regarded as a means for understanding the past and solving the challenges of the future.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1347. Mr. DORGAN (for himself and Mr. ROCKEFELLER) proposed an amendment to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States.

SA 1348. Mr. REID proposed an amendment to amendment SA 1347 proposed by Mr. DORGAN (for himself and Mr. ROCKEFELLER) to the bill S. 1023, supra.

SA 1349. Mr. REID proposed an amendment to the bill S. 1023, supra.

SA 1350. Mr. REID proposed an amendment to amendment SA 1349 proposed by Mr. REID to the bill S. 1023, supra.

SA 1351. Mr. REID proposed an amendment to the bill S. 1023, supra.

SA 1352. Mr. REID proposed an amendment to amendment SA 1351 proposed by Mr. REID to the bill S. 1023, supra.

SA 1353. Mr. REID proposed an amendment to amendment SA 1352 proposed by Mr. REID to the amendment SA 1351 proposed by Mr. REID to the bill S. 1023, supra.

TEXT OF AMENDMENTS

SA 1347. Mr. DORGAN (for himself and Mr. ROCKEFELLER) proposed an amendment to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; as follows:

Strike out all after the first word and insert the following:

1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Travel Promotion Act of 2009''.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

SEC. 2. THE CORPORATION FOR TRAVEL PROMOTION.

(a) ESTABLISHMENT.—The Corporation for Travel Promotion is established as a nonprofit corporation. The Corporation shall not be an agency or establishment of the United States Government. The Corporation shall be subject to the provisions of the District of Columbia Nonprofit Corporation Act (D.C. Code, section 29–1001 et seq.), to the extent that such provisions are consistent with this section, and shall have the powers conferred upon a nonprofit corporation by that Act to carry out its purposes and activities.

(b) BOARD OF DIRECTORS.—

(1) IN GENERAL.—The Corporation shall have a board of directors of 11 members with knowledge of international travel promotion and marketing, broadly representing various regions of the United States, who are United States citizens. Members of the board shall be appointed by the Secretary of Commerce (after consultation with the Secretary of Homeland Security and the Secretary of State), as follows:

(A) 1 shall have appropriate expertise and experience in the hotel accommodations sector;

(B) 1 shall have appropriate expertise and experience in the restaurant sector;

(C) 1 shall have appropriate expertise and experience in the small business or retail sector or in associations representing that sector;

(D) 1 shall have appropriate expertise and experience in the travel distribution services sector;

(E) 1 shall have appropriate expertise and experience in the attractions or recreations sector;

(F) 1 shall have appropriate expertise and experience as officials of a city convention and visitors' bureau;

(G) 2 shall have appropriate expertise and experience as officials of a State tourism office;

(H) 1 shall have appropriate expertise and experience in the passenger air sector;

(I) 1 shall have appropriate expertise and experience in immigration law and policy, including visa requirements and United States entry procedures; and

(J) 1 shall have appropriate expertise in the intercity passenger railroad business.

(2) INCORPORATION.—The members of the initial board of directors shall serve as incorporators and shall take whatever actions are necessary to establish the Corporation under the District of Columbia Nonprofit Corporation Act (D.C. Code, section 29–301.01 et seq.).

(3) TERM OF OFFICE.—The term of office of each member of the board appointed by the Secretary shall be 3 years, except that, of the members first appointed—

(A) 3 shall be appointed for terms of 1 year;

(B) 4 shall be appointed for terms of 2 years; and

(C) 4 shall be appointed for terms of 3 years.

(4) REMOVAL FOR CAUSE.—The Secretary of Commerce may remove any member of the board for good cause.

(5) VACANCIES.—Any vacancy in the board shall not affect its power, but shall be filled in the manner required by this section. Any member whose term has expired may serve until the member's successor has taken office, or until the end of the calendar year in which the member's term has expired, whichever is earlier. Any member appointed to fill a vacancy occurring prior to the expiration of the term for which that member's predecessor was appointed shall be appointed for the remainder of the predecessor's term. No member of the board shall be eligible to serve more than 2 consecutive full 3-year terms.

(6) ELECTION OF CHAIRMAN AND VICE CHAIRMAN.—Members of the board shall annually elect one of the members to be Chairman and elect 1 or 2 of the members as Vice Chairman or Vice Chairmen.

(7) STATUS AS FEDERAL EMPLOYEES.—Notwithstanding any provision of law to the contrary, no member of the board may be considered to be a Federal employee of the United States by virtue of his or her service as a member of the board.

(8) COMPENSATION; EXPENSES.—No member shall receive any compensation from the Federal government for serving on the Board. Each member of the Board shall be paid actual travel expenses and per diem in lieu of subsistence expenses when away from his or her usual place of residence, in accordance with section 5703 of title 5, United States Code.

(c) OFFICERS AND EMPLOYEES.—

(1) IN GENERAL.—The Corporation shall have an executive director and such other officers as may be named and appointed by the board for terms and at rates of compensation fixed by the board. No individual other than a citizen of the United States may be an officer of the Corporation. The Corporation may hire and fix the compensation of such employees as may be necessary to carry out its purposes. No officer or employee of the Corporation may receive any salary or other compensation (except for compensation for services on boards of directors of other organizations that do not receive funds from the Corporation, on committees of such boards, and in similar activities for such organizations) from any sources other than the Corporation for services rendered during the period of his or her employment by the Corporation. Service by any officer on boards of directors of other organizations, on committees of such boards, and in similar activities for such organizations shall be subject to annual advance approval by the board and subject to the provisions of the Corporation's Statement of Ethical Conduct. All officers and employees shall serve at the pleasure of the board.

(2) NONPOLITICAL NATURE OF APPOINTMENT.—No political test or qualification shall be used in selecting, appointing, promoting, or taking other personnel actions with respect to officers, agents, or employees of the Corporation.

(d) NONPROFIT AND NONPOLITICAL NATURE OF CORPORATION.—

(1) STOCK.—The Corporation shall have no power to issue any shares of stock, or to declare or pay any dividends.

(2) PROFIT.—No part of the income or assets of the Corporation shall inure to the benefit of any director, officer, employee, or any other individual except as salary or reasonable compensation for services.

(3) POLITICS.—The Corporation may not contribute to or otherwise support any political party or candidate for elective public office.

(4) SENSE OF CONGRESS REGARDING LOBBYING ACTIVITIES.—It is the sense of Congress that the Corporation should not engage in lobbying activities (as defined in section 3(7) of the Lobbying Disclosure Act of 1995 (5 U.S.C. 1602(7)).

(e) DUTIES AND POWERS.—

(1) IN GENERAL.—The Corporation shall develop and execute a plan—

(A) to provide useful information to foreign tourists, business people, students, scholars, scientists, and others interested in traveling to the United States, including the distribution of material provided by the Federal government concerning entry requirements, required documentation, fees, processes, and information concerning declared public health emergencies, to prospective travelers, travel agents, tour operators, meeting planners, foreign governments, travel media and other international stakeholders;

(B) to identify, counter, and correct misperceptions regarding United States entry policies around the world;

(C) to maximize the economic and diplomatic benefits of travel to the United States by promoting the United States of America to world travelers through the use of, but not limited to, all forms of advertising, outreach to trade shows, and other appropriate promotional activities;

(D) to ensure that international travel benefits all States and the District of Columbia and to identify opportunities and strategies to promote tourism to rural and urban areas equally, including areas not traditionally visited by international travelers; and

(E) to give priority to the Corporation's efforts with respect to countries and populations most likely to travel to the United States.

(2) SPECIFIC POWERS.—In order to carry out the purposes of this section, the Corporation may—

(A) obtain grants from and make contracts with individuals and private companies, State, and Federal agencies, organizations, and institutions;

(B) hire or accept the voluntary services of consultants, experts, advisory boards, and panels to aid the Corporation in carrying out its purposes; and

(C) take such other actions as may be necessary to accomplish the purposes set forth in this section.

(3) PUBLIC OUTREACH AND INFORMATION.—The Corporation shall develop and maintain a publicly accessible website.

(f) OPEN MEETINGS.—Meetings of the board of directors of the Corporation, including any committee of the board, shall be open to the public. The board may, by majority vote, close any such meeting only for the time necessary to preserve the confidentiality of commercial or financial information that is privileged or confidential, to discuss personnel matters, or to discuss legal matters affecting the Corporation, including pending or potential litigation.

(g) MAJOR CAMPAIGNS.—The board may not authorize the Corporation to obligate or expend more than $25,000,000 on any advertising campaign, promotion, or related effort unless—

(1) the obligation or expenditure is approved by an affirmative vote of at least ⅔ of the members of the board present at the meeting;

(2) at least 6 members of the board are present at the meeting at which it is approved; and

(3) each member of the board has been given at least 3 days advance notice of the meeting at which the vote is to be taken and the matters to be voted upon at that meeting.

(h) FISCAL ACCOUNTABILITY.—

(1) FISCAL YEAR.—The Corporation shall establish as its fiscal year the 12-month period beginning on October 1.

(2) BUDGET.—The Corporation shall adopt a budget for each fiscal year.

(3) ANNUAL AUDITS.—The Corporation shall engage an independent accounting firm to conduct an annual financial audit of the Corporation's operations and shall publish the results of the audit. The Comptroller General of the United States may review any audit of a financial statement conducted under this subsection by an independent accounting firm and may audit the Corporation's operations at the discretion of the Comptroller General. The Comptroller General and the Congress shall have full and complete access to the books and records of the Corporation.

(4) PROGRAM AUDITS.—Not later than 2 years after the date of enactment of this Act, the Comptroller General shall conduct a review of the programmatic activities of the Corporation for Travel Promotion. This report shall be provided to appropriate congressional committees.

SEC. 3. ACCOUNTABILITY MEASURES.

(a) OBJECTIVES.—The Board shall establish annual objectives for the Corporation for each fiscal year subject to approval by the Secretary of Commerce (after consultation with the Secretary of Homeland Security and the Secretary of State). The Corporation shall establish a marketing plan for each fiscal year not less than 60 days before the beginning of that year and provide a copy of the plan, and any revisions thereof, to the Secretary.

(b) BUDGET.—The board shall transmit a copy of the Corporation's budget for the forthcoming fiscal year to the Secretary not less than 60 days before the beginning of each fiscal year, together with an explanation of any expenditure provided for by the budget in excess of $5,000,000 for the fiscal year. The Corporation shall make a copy of the budget and the explanation available to the public and shall provide public access to the budget and explanation on the Corporation's website.

(c) ANNUAL REPORT TO CONGRESS.—The Corporation shall submit an annual report for the preceding fiscal year to the Secretary of Commerce for transmittal to the Congress on or before the 15th day of May of each year. The report shall include—

(1) a comprehensive and detailed report of the Corporation's operations, activities, financial condition, and accomplishments under this Act;

(2) a comprehensive and detailed inventory of amounts obligated or expended by the Corporation during the preceding fiscal year;

(3) a detailed description of each in-kind contribution, its fair market value, the individual or organization responsible for contributing, its specific use, and a justification for its use within the context of the Corporation's mission;

(4) an objective and quantifiable measurement of its progress, on an objective-by-objective basis, in meeting the objectives established by the board;

(5) an explanation of the reason for any failure to achieve an objective established by the board and any revisions or alterations to the Corporation's objectives under subsection (a);

(6) a comprehensive and detailed report of the Corporation's operations and activities to promote tourism in rural and urban areas; and

(7) such recommendations as the Corporation deems appropriate.

(d) LIMITATION ON USE OF FUNDS.—Amounts deposited in the Fund may not be used for any purpose inconsistent with carrying out the objectives, budget, and report described in this section.

SEC. 4. MATCHING PUBLIC AND PRIVATE FUNDING.

(a) ESTABLISHMENT OF TRAVEL PROMOTION FUND.—There is hereby established in the Treasury a fund which shall be known as the Travel Promotion Fund.

(b) FUNDING.—

(1) START-UP EXPENSES.—For fiscal year 2010, the Secretary of the Treasury shall make available to the Corporation such sums as may be necessary, but not to exceed $10,000,000, from amounts deposited in the general fund of the Treasury from fees under section 217(h)(3)(B)(i)(I) of the Immigration and Nationality Act (8 U.S.C. 1187(h)(3)(B)(i)(I)) to cover the Corporation's initial expenses and activities under this Act. Transfers shall be made at least quarterly, beginning on October 1, 2009, on the basis of estimates by the Secretary, and proper adjustments shall be made in amounts subsequently transferred to the extent prior estimates were in excess or less than the amounts required to be transferred.

(2) SUBSEQUENT YEARS.—For each of fiscal years 2011 through 2014, from amounts deposited in the general fund of the Treasury during the preceding fiscal year from fees under section 217(h)(3)(B)(i)(I) of the Immigration and Nationality Act (8 U.S.C. 1187(h)(B)(i)(I)), the Secretary of the Treasury shall transfer not more than $100,000,000 to the Fund, which shall be made available to the Corporation, subject to subsection (c) of this section, to carry out its functions under this Act. Transfers shall be made at least quarterly on the basis of estimates by the Secretary, and proper adjustments shall be made in amounts subsequently transferred to the extent prior estimates were in excess or less than the amounts required to be transferred.

(c) MATCHING REQUIREMENT.—

(1) IN GENERAL.—No amounts may be made available to the Corporation under this section after fiscal year 2010, except to the extent that—

(A) for fiscal year 2011, the Corporation provides matching amounts from non-Federal sources equal in the aggregate to 50 percent or more of the amount transferred to the Fund under subsection (b); and

(B) for any fiscal year after fiscal year 2011, the Corporation provides matching amounts from non-Federal sources equal in the aggregate to 100 percent of the amount transferred to the Fund under subsection (b) for the fiscal year.

(2) GOODS AND SERVICES.—For the purpose of determining the amount received from non-Federal sources by the Corporation, other than money—

(A) the fair market value of goods and services (including advertising) contributed to the Corporation for use under this Act may be included in the determination; but

(B) the fair market value of such goods and services may not account for more than 80 percent of the matching requirement under paragraph (1) for the Corporation in any fiscal year.

(3) RIGHT OF REFUSAL.—The Corporation may decline to accept any contribution in-kind that it determines to be inappropriate, not useful, or commercially worthless.

(4) LIMITATION.—The Corporation may not obligate or expend funds in excess of the total amount received by the Corporation for a fiscal year from Federal and non-Federal sources.

(d) CARRYFORWARD.—

(1) FEDERAL FUNDS.—Amounts transferred to the Fund under subsection (b)(2) shall remain available until expended.

(2) MATCHING FUNDS.—Any amount received by the Corporation from non-Federal sources in fiscal year 2010, 2011, 2012, 2013, or 2014 that cannot be used to meet the matching requirement under subsection (c)(1) for the fiscal year in which amount was collected may be carried forward and treated as having been received in the succeeding fiscal year for purposes of meeting the matching requirement of subsection (c)(1) in such succeeding fiscal year.

SEC. 5. TRAVEL PROMOTION FUND FEES.

Section 217(h)(3)(B) of the Immigration and Nationality Act (8 U.S.C. 1187(h)(3)(B)) is amended to read as follows:

''(B) FEES.—

''(i) IN GENERAL.—No later than September 30, 2009, the Secretary of Homeland Security shall establish a fee for the use of the System and begin assessment and collection of that fee. The initial fee shall be the sum of—

''(I) $10 per travel authorization; and

''(II) an amount that will at least ensure recovery of the full costs of providing and administering the System, as determined by the Secretary.

''(ii) DISPOSITION OF AMOUNTS COLLECTED.—Amounts collected under clause (i)(I) shall be credited to the Travel Promotion Fund established by section 4 of the Travel Promotion Act of 2009. Amounts collected under clause (i)(II) shall be transferred to the general fund of the Treasury and made available to pay the costs incurred to administer the System.

''(iii) SUNSET OF TRAVEL PROMOTION FUND FEE.—The Secretary may not collect the fee authorized by clause (i)(I) for fiscal years beginning after September 30, 2014.''.

SEC. 6. ASSESSMENT AUTHORITY.

(a) IN GENERAL.—Except as otherwise provided in this section, the Corporation may impose an annual assessment on United States members of the international travel and tourism industry (other than those described in section 2(b)(1)(C) or (H)) represented on the Board in proportion to their share of the aggregate international travel and tourism revenue of the industry. The Corporation shall be responsible for verifying, implementing, and collecting the assessment authorized by this section.

(b) INITIAL ASSESSMENT LIMITED.—The Corporation may establish the initial assessment after the date of enactment of the Travel and Tourism Promotion Act at no greater, in the aggregate, than $20,000,000.

(c) REFERENDA.—

(1) IN GENERAL.—The Corporation may not impose an annual assessment unless—

(A) the Corporation submits the proposed annual assessment to members of the industry in a referendum; and

(B) the assessment is approved by a majority of those voting in the referendum.

(2) PROCEDURAL REQUIREMENTS.—In conducting a referendum under this subsection, the Corporation shall—

(A) provide written or electronic notice not less than 60 days before the date of the referendum;

(B) describe the proposed assessment or increase and explain the reasons for the referendum in the notice; and

(C) determine the results of the referendum on the basis of weighted voting apportioned according to each business entity's relative share of the aggregate annual United States international travel and tourism revenue for the industry per business entity, treating all related entities as a single entity.

(d) COLLECTION.—

(1) IN GENERAL.—The Corporation shall establish a means of collecting the assessment that it finds to be efficient and effective. The Corporation may establish a late payment charge and rate of interest to be imposed on any person who fails to remit or pay to the Corporation any amount assessed by the Corporation under this Act.

(2) ENFORCEMENT.—The Corporation may bring suit in Federal court to compel compliance with an assessment levied by the Corporation under this Act.

(e) INVESTMENT OF FUNDS.—Pending disbursement pursuant to a program, plan, or project, the Corporation may invest funds collected through assessments, and any other funds received by the Corporation, only in obligations of the United States or any agency thereof, in general obligations of any State or any political subdivision thereof, in any interest-bearing account or certificate of deposit of a bank that is a member of the Federal Reserve System, or in obligations fully guaranteed as to principal and interest by the United States.

SEC. 7. OFFICE OF TRAVEL PROMOTION.

Title II of the International Travel Act of 1961 (22 U.S.C. 2121 et seq.) is amended by inserting after section 201 the following:

''SEC. 202. OFFICE OF TRAVEL PROMOTION.

''(a) OFFICE ESTABLISHED.—There is established within the Department of Commerce an office to be known as the Office of Travel Promotion.

''(b) DIRECTOR.—

''(1) APPOINTMENT.—The Office shall be headed by a Director who shall be appointed by the Secretary.

''(2) QUALIFICATIONS.—The Director shall be a citizen of the United States and have experience in a field directly related to the promotion of travel to and within the United States.

''(3) DUTIES.—The Director shall be responsible for ensuring the office is carrying out its functions effectively and shall report to the Secretary.

''(c) FUNCTIONS.—The Office shall—

''(1) serve as liaison to the Corporation for Travel Promotion established by section 2 of the Travel Promotion Act of 2009 and support and encourage the development of programs to increase the number of international visitors to the United States for business, leisure, educational, medical, exchange, and other purposes;

''(2) work with the Corporation, the Secretary of State and the Secretary of Homeland Security—

''(A) to disseminate information more effectively to potential international visitors about documentation and procedures required for admission to the United States as a visitor;

''(B) to ensure that arriving international visitors are generally welcomed with accurate information and in an inviting manner;

''(C) to collect accurate data on the total number of international visitors that visit each State; and

''(D) enhance the entry and departure experience for international visitors through the use of advertising, signage, and customer service; and

''(3) support State, regional, and private sector initiatives to promote travel to and within the United States.

''(d) REPORTS TO CONGRESS.—Within a year after the date of enactment of the Travel Promotion Act of 2009, and periodically thereafter as appropriate, the Secretary shall transmit a report to the Senate Committee on Commerce, Science, and Transportation, the Senate Committee on Homeland Security and Governmental Affairs, the Senate Committee on Foreign Relations, the House of Representatives Committee on Energy and Commerce, the House of Representatives Committee on Homeland Security, and the House of Representatives Committee on Foreign Affairs describing the Office's work with the Corporation, the Secretary of State and the Secretary of Homeland Security to carry out subsection (c)(2).''.

SEC. 8. RESEARCH PROGRAM.

Title II of the International Travel Act of 1961 (22 U.S.C. 2121 et seq.), as amended by section 7, is further amended by inserting after section 202 the following:

''SEC. 203. RESEARCH PROGRAM.

''(a) IN GENERAL.—The Office of Travel and Tourism Industries shall expand and continue its research and development activities in connection with the promotion of international travel to the United States, including—

''(1) expanding access to the official Mexican travel surveys data to provide the States with traveler characteristics and visitation estimates for targeted marketing programs;

''(2) expanding the number of inbound air travelers sampled by the Commerce Department's Survey of International Travelers to reach a 1 percent sample size and revising the design and format of questionnaires to accommodate a new survey instrument, improve response rates to at least double the number of States and cities with reliable international visitor estimates and improve market coverage;

''(3) developing estimates of international travel exports (expenditures) on a State-by-State basis to enable each State to compare its comparative position to national totals and other States;

''(4) evaluate the success of the Corporation in achieving its objectives and carrying out the purposes of the Travel Promotion Act of 2009; and

''(5) research to support the annual reports required by section 202(d) of this Act.

''(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Commerce for fiscal years 2010 through 2014 such sums as may be necessary to carry out this section.''.

SA 1348. Mr. REID proposed an amendment to amendment SA 1347 proposed by Mr. DORGAN (for himself and Mr. ROCKEFELLER) to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; as follows:

At the end of the amendment, add the following:

This section shall take effect 5 days after enactment.

SA 1349. Mr. REID proposed an amendment to amendment S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; as follows:

At the end of the language proposed to be stricken, insert the following:

This section shall take effect 4 days after the date of enactment.

SA 1350. Mr. REID proposed an amendment to amendment S. 1349, proposed by Mr. REID to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; as follows:

In the amendment, strike ''4'' and insert ''3''.

SA 1351. Mr. REID proposed an amendment to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; as follows:

At the end insert the following: This section shall become effective 2 days after enactment of the bill.

SA 1352. Mr. REID proposed an amendment to amendment SA 1351 proposed by Mr. REID to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; as follows:

Strike ''2'' and insert ''1''

SA 1353. Mr. REID proposed an amendment to amendment SA 1352 proposed by Mr. REID to the amendment SA 1351 proposed by Mr. REID to the bill S. 1023, to establish a non-profit corporation to communicate United States entry policies and otherwise promote leisure, business, and scholarly travel to the United States; as follows:

Strike ''1'' and insert ''immediately''

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. CASEY. Mr. President, I ask unanimous consent that the Commitee on Health, Education, Labor, and Pensions be authorized to meet during the session of the Senate on June 19, 2009, at 10:30 a.m. in room 325 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

MIAMI DADE COLLEGE LAND CONVEYANCE ACT

Mr. REID. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of S. 814 and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 814) to provide for the conveyance of a parcel of land held by the Bureau of Prisons of the Department of Justice in Miami Dade County, Florida, to facilitate the construction of a new educational facility that includes a secure parking area for the Bureau of Prisons, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. REID. Mr. President, I ask unanimous consent that the bill be read a third time and passed, the motion to reconsider be laid upon the table, with no intervening action or debate, and any statements related to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 814) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 814

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Miami Dade College Land Conveyance Act''.

SEC. 2. CONVEYANCE OF BUREAU OF PRISONS LAND TO MIAMI DADE COUNTY, FLORIDA.

(a) CONVEYANCE REQUIRED.—The Attorney General shall convey, without consideration, to Miami Dade College of Miami Dade County, Florida (in this section referred to as the ''College''), all right, title, and interest of the United States in and to a parcel of land held by the Bureau of Prisons of the Department of Justice in Miami Dade County, Florida, consisting of a parking lot approximately 47,500 square feet and located at 35 NE 2 Street, for the purpose of permitting the College to use the parcel as a site for a new educational building that includes a parking area, of which not less than 118 secure parking spaces shall be designated for use by the Bureau of Prisons of the Department of Justice.

(b) REVERSIONARY INTEREST.—If the Attorney General determines at any time that the real property conveyed under subsection (a) is not being used in accordance with the purpose of the conveyance specified in such subsection, all right, title, and interest in and to the property shall revert, at the option of the Attorney General, to the United States, and the United States shall have the right of immediate entry onto the property. Any determination of the Attorney General under

this subsection shall be made on the record after an opportunity for a hearing.

(c) SURVEY.—If the Attorney General considers it necessary, the Attorney General may have the exact acreage or square footage and legal description of the land to be conveyed under subsection (a) determined by a survey satisfactory to the Attorney General. The College shall bear the cost of the survey.

(d) EXEMPTION.—Section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) shall not apply to the conveyance of land under subsection (a).

RECOGNIZING THE DEMOCRATIC ACCOMPLISHMENTS OF THE PEOPLE OF ALBANIA

Mr. REID. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of Calendar No. 80, S. Res. 182.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 182) recognizing the democratic accomplishments of the people of Albania and expressing the hope that the parliamentary elections on June 28, 2009, maintain and improve the transparency and fairness of democracy in Albania.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and that any statements relating to this measure be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 182) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 182

Whereas the people of Albania have made extraordinary progress from authoritarian government and a closed market to a democratic government and market economy in less than two decades;

Whereas the Republic of Albania, with the advice and consent of this Senate and the governments of the other member countries, was officially admitted to full membership in the North Atlantic Treaty Organization on April 2, 2009;

Whereas the Thessaloniki Declaration of 2003 confirmed that the countries of the Western Balkans are eligible for accession to the European Union once they have fulfilled the requirements for membership; and

Whereas the Government of Albania has accepted numerous specific commitments governing the conduct of elections as a participating state in the Organization for Security and Cooperation in Europe (OSCE): Now, therefore, be it

Resolved, That the Senate—

(1) urges the Government of Albania to fulfill the commitments it has made to the OSCE with respect to the conduct of its upcoming elections, and to ensure that those elections are free and fair;

(2) urges the Government of Albania to expedite the implementation of its voter identification card program to minimize the possibility of disenfranchisement and provide as many cards as possible to eligible voters prior to the election;

(3) commends the positive step taken by the Government of Albania to reduce the cost of the voter ID card significantly and avoid charges of a poll tax; and

(4) expresses its hope that credible democratic elections in Albania will contribute to a strong and stable government responsive to the wishes of the people of Albania and strengthen Albania's standing within NATO and European institutions.

EXPRESSING SUPPORT FOR ALL IRANIAN CITIZENS WHO EMBRACE THE VALUES OF FREEDOM, HUMAN RIGHTS, CIVIL LIBERTIES, AND RULE OF LAW

Mr. REID. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of S. Res. 193, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 193) expressing support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties, and rule of law, and for other purposes.

There being no objection, the Senate proceeded to consider the resolution.

Mr. MCCAIN. Mr. President, the resolution I submitted, on behalf of myself, Senator LIEBERMAN and others, is exactly the same as has been introduced by Congressmen BERMAN and PENCE in the House of Representatives. It is the exact same resolution. It expresses support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties, rule of law, and for other purposes.

The resolution expresses its support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties, and the rule of law, and for other purposes. It condemns the ongoing violence against demonstrators by the Government of Iran and progovernment militias as well as the ongoing government suppression of independent electronic communication through interference with the Internet and cell phones and affirms the universality of individual rights and the importance of democratic and fair elections.

Basically, what this is is a resolution that has been introduced in both Houses, which affirms America's fundamental respect and commitment to human rights, to people no matter where they reside in the world.

It is unfortunate, in a way, that this resolution is required since the administration does not want to ''meddle,'' and the President has refused to speak out in support of these brave Iranian citizens, most of them young, who are risking their very lives to protest what was clearly an unfair and corrupt election.

What we are seeing in Iran today is sort of a sequence of events that should worry all of us who have watched this before. The demonstrators, some beaten, some killed, the Ayatollah Ali Khamenei calls together the participants in the election and then says there should be no more demonstrations and strong action will be taken. That is coupled with ejecting the world's media from Iran—first restricting it and then forcing them out so as not to record events. Unfortunately for the Iranian mullahs, Twitter has become an incredible means of communication, as well as cameras in cell phones. The word is still coming out as to the degree of oppression that is being practiced by the Iranian Government.

There is a lot I wish to say today about what is going on in Iran; the fact that we, the United States of America, have a long history of speaking out on behalf of people who are oppressed, who are victims of a corrupt election. We stood tall, America did, for the workers in Gdansk, in solidarity with Lech Walesa. We stood tall for the people of Prague during the Prague Spring, and we were not afraid, as Ronald Reagan was not, to go to the Berlin Wall and say ''Take down this wall,'' and call an evil empire what it was, an evil empire.

One of the ironies of this situation that I wish to address very briefly is that President Mahmoud Ahmadinejad's political adviser said Thursday that the United States will regret its interference in Iran's disputed election. In other words, our President says he does not want to go meddle and at the same time, of course, they are accusing us of doing exactly that.

He, the adviser, said:

I hope in the case of the elections they realize their interference is a mistake and that they don't repeat this mistake. They will certainly regret this. They will have problems reestablishing relations with Iran.

In the history of this country, since July 4, 1776, we affirmed the fundamental rights of all people throughout the world, and that is the inalienable rights granted by our Creator to life, liberty and the pursuit of happiness. That commitment to human rights was there then and it is there today. The United States of America must, and this body must, affirm our support for fundamental human rights of the Iranian people who are being beaten and killed in the streets of Tehran and other cities around Iran. We are with them.

It is not an accident that the signs ''Where is my vote?'' are in English. They are waiting for an expression of support from the Government and the people of the United States of America. I think this resolution is an important way to do so.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 193) was agreed to, as follows:

S. RES. 193

Resolved, That the Senate—

(1) expresses its support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties, and rule of law;

(2) condemns the ongoing violence against demonstrators by the Government of Iran and pro-government militias, as well as the ongoing government suppression of independent electronic communication through interference with the Internet and cellphones; and

(3) affirms the universality of individual rights and the importance of democratic and fair elections.

FREEDOM OF THE PRESS, FREEDOM OF SPEECH, AND FREEDOM OF EXPRESSION IN IRAN

Mr. REID. Mr. President, I ask unanimous consent that we now proceed to S. Res. 196.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 196), expressing the sense of the Senate on freedom of the press, freedom of speech, and freedom of expression in Iran.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, that there be no intervening action or debate, and any statements relating to this matter be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 196) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 196

Whereas since the June 12 Iranian presidential elections, there have been increased restrictions on freedom of the press in Iran and limitations on the free flow of information among the Iranian people;

Whereas newspapers and news services have been restricted by the Government of Iran, preventing the publication of specific articles, blocking the transmission of some news broadcasts, and cancelling of foreign press credentials;

Whereas websites and blogs have been blocked in Iran, including social networking sites such as Facebook and Twitter;

Whereas numerous Iranian journalists have been arrested, detained, imprisoned, or assaulted since June 12;

Whereas foreign journalists have been prevented from covering street demonstrations, confined to their hotels, and told their visas would not be renewed;

Whereas non-Iranian government news services, including the Associated Press, have been told they may not distribute Farsi-language reports;

Whereas Iranian journalists were instructed by the Government of Iran to report solely from their offices;

Whereas on June 13, the leading mobile phone operator in Iran, the government-owned Telecommunication Company of Iran, was suspended for over 24 hours;

Whereas short message service (SMS) in Iran has been blocked, preventing text message communications and blocking internet sites that utilize such services;

Whereas on June 14, an Al-Arabiya correspondent was instructed by the Iranian Ministry of Information to change a story and its Tehran bureau was subsequently closed;

Whereas shortwave and medium wave transmissions of the Farsi-language Radio Free Europe/Radio Liberty's (RFE/RL) Radio Farda have been partially jammed since June 12; and

Whereas satellite broadcasts, including those of the Voice of America's Persian News Networkand the British Broadcasting Corporation (BBC), have been intermittently jammed since late May: Now, therefore, be it

Resolved, That the Senate—

(1) respects the sovereignty, proud history, and rich culture of the Iranian people;

(2) respects the universal values of freedom of speech and freedom of the press in Iran and throughout the world;

(3) supports the Iranian people as they take steps to peacefully express their voices, opinions, and aspirations;

(4) supports the Iranian people seeking access to news and other forms of information;

(5) condemns the detainment, imprisonment, and intimidation of all journalists, in Iran and elsewhere throughout the world;

(6) supports journalists who take great risk to report on political events in Iran, including those surrounding the presidential election;

(7) supports the efforts of the Broadcasting Board of Governors (BBG) to provide credible news and information within Iran through the Voice of America's (VOA) 24-hour television station Persian News Network, and Radio Free Europe/Radio Liberty's (RFE/RL) Radio Farda 24-hour radio station; and

(8) condemns acts of censorship, intimidation, and other restrictions on freedom of the press, freedom of speech, and freedom of expression in Iran and throughout the world.

CONGRATULATING THE MEN AND WOMEN OF THE NATIONAL ARCHIVES AND RECORDS ADMINISTRATION ON THE OCCASION OF ITS 75TH ANNIVERSARY

Mr. REID. Mr. President, I ask unanimous consent that we now proceed to S. Res. 197.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 197), congratulating the men and women of the National Archives and Records Administration on the occasion of its 75th anniversary.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, that there be no intervening action or debate, and any statements relating to this matter be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 197) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 197

Whereas the National Archives was established by Congress in 1934 to centralize Federal recordkeeping;

Whereas the National Archives, now called the National Archives and Records Administration (in this resolution referred to as ''NARA''), serves democracy in the United States by ensuring that United States citizens can discover, use, and trust the records of the United States Government;

Whereas NARA has grown from one building along the National Mall to 38 facilities nationwide, from Atlanta to Anchorage;

Whereas NARA administers regional archives, Federal records centers, Presidential libraries, the Federal Register, and the National Historical Publications and Records Commission;

Whereas the Rotunda for the Charters of Freedom serves as the permanent home of the Declaration of Independence, the Constitution, and the Bill of Rights and makes these founding documents available to more than 1,000,000 visitors each year;

Whereas the first issue of the Federal Register was published on March 16, 1936, and the Federal Register has not missed a publication date since, providing orderly publication of the official actions of the Federal Government;

Whereas the Electronic Records Archives is laying the foundation for preserving and providing public access to historically valuable electronic records, ranging from vast, complex databases to documents that detail the making of foreign and domestic policies;

Whereas the Presidential libraries are great treasures of the United States, serving as repositories and preserving and making accessible the papers, records, and other historical materials of Presidents of the United States;

Whereas the National Personnel Records Center serves as the official repository for records of military personnel, responding to 2,000,000 requests a year by veterans and their families for documents to verify military service;

Whereas the Information Security and Oversight Office is responsible to the President for policy and oversight of the Government-wide security classification system and the National Industrial Security Program;

Whereas the National Historical Publications and Records Commission promotes the preservation and use of the documentary heritage of the United States, which is essential to understanding the democracy, history, and culture of the United States, by providing grants in support of the archives of the United States and for projects to edit and publish non-Federal historical records of national importance;

Whereas NARA holds records, in the National Archives Building and its regional facilities across the country, that allow naturalized citizens to claim their rights of citizenship;

Whereas NARA works with Federal agencies, researchers, genealogists, lawyers, scholars, and authors to respond to their evolving needs, requirements, and methods;

Whereas NARA provides records management training, enhances reference services, works with partners to digitize its holdings, and improves access to the records of the United States;

Whereas NARA provides, through its Internet site, easy and convenient public access to many of the most important and most requested historic documents and valuable databases of the United States; and

Whereas inscribed on the facade of the National Archives Building are Shakespeare's words, ''What is past is prologue'', which aptly describe the records of the past preserved by NARA as the groundwork for the future: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the men and women of the National Archives and Records Administration on the occasion of its 75th anniversary;

(2) understands the vital role that records play in a democracy;

(3) recognizes the service that NARA has given to the democracy of the United States by protecting and preserving the records of the United States Government; and

(4) commends the efforts by NARA to support democracy, promote civic education, and facilitate historical understanding of the national experience.

OBSERVING THE HISTORICAL SIGNIFICANCE OF JUNETEENTH INDEPENDENCE DAY

Mr. REID. Mr. President, I ask unanimous consent to proceed to S. Res. 198.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 198), observing the historical significance of Juneteenth Independence Day.

There being no objection, the Senate proceeded to consider the resolution.

Mr. LEVIN. Mr. President, this week people all across the Nation are engaging in the oldest known celebration of the ending of slavery. It was in June of 1865, that the Union soldiers landed in Galveston, TX, with the news that the war had ended and that slavery finally had come to an end in the United States. This was 21½ years after the Emancipation Proclamation, which had become official January 1, 1863. This week and specifically on June 19, we celebrate what is known as ''Juneteenth Independence Day.'' It was on this date, June 19, that slaves in the Southwest finally learned of the end of slavery. Although passage of the thirteenth amendment in January 1863, legally abolished slavery, many African Americans remained in servitude due to the delayed dissemination of this news across the country.

Since that time, over 145 years ago, the descendants of slaves have observed this anniversary of emancipation as a remembrance of one of the most tragic periods of our Nation's history. The suffering, degradation and brutality of slavery cannot be repaired, but the memory can serve to ensure that no such inhumanity is ever perpetrated again on American soil.

All across America we also celebrate the many important achievements of former slaves and their descendants. We do so because in 1926, Dr. Carter G. Woodson, son of former slaves, proposed such a recognition as a way of preserving the history of African Americans and recognizing the enormous contributions of a people of great strength, dignity, faith, and conviction—a people who rendered their achievements for the betterment and advancement of a nation once lacking in humanity towards them. Every February, nationwide, we celebrate African American History Month. And, every year on June 19, we celebrate ''Juneteenth Independence Day.''

Lerone Bennett, editor, writer and lecturer has reflected on the life and times of Dr. Woodson. Bennett tells us that one of the most inspiring and instructive stories in African American history is the story of Woodson's struggle and rise from the coal mines of West Virginia to the summit of academic achievement:

> At 17, the young man who was called by history to reveal Black history was an untutored coal miner. At 19, after teaching himself the fundamentals of English and arithmetic, he entered high school and mastered the four-year curriculum in less than two years. At 22, after two-thirds of a year at Berea College [in Kentucky], he returned to the coal mines and studied Latin and Greek between trips to the mine shafts. He then went on to the University of Chicago, where he received bachelor's and master's degrees, and Harvard University, where he became the second Black to receive a doctorate in history. The rest is history—Black history.

In keeping with the spirit and the vision of Dr. Carter G. Woodson, I would like to pay tribute to two courageous women, claimed by my home State of Michigan, who played significant roles in addressing American injustice and inequality. These are two women of different times who would change the course of history.

The contributions of Sojourner Truth, who helped lead our country out of the dark days of slavery, and Rosa Parks whose dignified leadership sparked the Montgomery Bus Boycott and the start of the civil rights movement are indelibly etched in the chronicle of the history of this nation. Moreover, they are viewed with distinction and admiration throughout the world.

Sojourner Truth, though unable to read or write, was considered one of the most eloquent and noted spokespersons of her day on the inhumanity and immorality of slavery. She was a leader in the abolitionist movement, and a ground breaking speaker on behalf of equality for women. Michigan recently honored her with the dedication of the Sojourner Truth Memorial Monument, which was unveiled in Battle Creek, MI, on September 25, 1999. In April 2009, Sojourner Truth became the first African American woman to be memorialized with a bust in the U.S. Capitol. The ceremony to unveil Truth's likeness was appropriately held in Emancipation Hall at the Capitol Visitor Center. I was pleased to cosponsor the legislation to make this fitting tribute possible. Sojourner Truth lived in Washington, DC for several years, helping slaves who had fled from the South and appearing at women's suffrage gatherings. She returned to Battle Creek in 1875, and remained there until her death in 1883. Sojourner Truth spoke from her heart about the most troubling issues of her time. A testament to Truth's convictions is that her words continue to speak to us today.

On May 4, 1999, legislation was enacted which authorized the President of the United States to award the Congressional Gold Medal to Rosa Parks. I was pleased to coauthor this tribute to Rosa Parks—the gentle warrior who decided that she would no longer tolerate the humiliation and demoralization of racial segregation on a bus. I was also pleased to coauthor legislation directing the Architect of the Capitol to commission a statue of Rosa Parks, which will be placed in the U.S. Capitol, making her the second African American woman to receive such an honor.

Her personal bravery and self-sacrifice are remembered with reverence and respect by us all. Over 55 years ago, in Montgomery, AL, the modern civil rights movement began when Rosa Parks refused to give up her seat and move to the back of the bus. The strength and spirit of this courageous woman captured the consciousness of not only the American people, but the entire world. The boycott which Rosa Parks began was the beginning of an American revolution that elevated the status of African Americans nationwide and introduced to the world a young leader who would one day have a national holiday declared in his honor, the Reverend Martin Luther King, Jr.

Mr. President, we have come a long way toward achieving justice and equality for all. We still however have work to do. In the names of Rosa Parks, Sojourner Truth, Dr. Carter G. Woodson, Dr. Martin Luther King, Jr., and many others, let us rededicate ourselves to continuing the struggle and the struggle for human rights.

In closing, I would like to pay tribute to the Juneteenth directors and event coordinators throughout my State of Michigan. They have worked tirelessly in the planning of intergenerational activities in celebration of Juneteenth. Ms. Marilyn Plumber is heading up three events in Lansing, MI, this week and coordinators in Flint, Detroit, Saginaw, and other areas around the State are observing Juneteenth through a wide range of programs over several days.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, that there be no intervening action or debate, and any statements related to this resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 198) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 198

Whereas news of the end of slavery did not reach frontier areas of the United States, and in particular the southwestern States, for more than 2½ years after President Lincoln's Emancipation Proclamation, which was issued on January 1, 1863, and months after the conclusion of the Civil War;

Whereas, on June 19, 1865, Union soldiers led by Major General Gordon Granger arrived in Galveston, Texas with news that the Civil War had ended and that the enslaved were free;

Whereas African-Americans who had been slaves in the Southwest celebrated June 19, commonly known as ''Juneteenth Independence Day'', as the anniversary of their emancipation;

Whereas African-Americans from the Southwest continue the tradition of celebrating Juneteenth Independence Day as inspiration and encouragement for future generations;

Whereas for more than 140 years, Juneteenth Independence Day celebrations have been held to honor African-American freedom while encouraging self-development and respect for all cultures;

Whereas although Juneteenth Independence Day is beginning to be recognized as a national, and even global, event, the history behind the celebration should not be forgotten; and

Whereas the faith and strength of character demonstrated by former slaves remains an example for all people of the United States, regardless of background, religion, or race: Now, therefore, be it

Resolved, That—

(1) the Senate—

(A) recognizes the historical significance of Juneteenth Independence Day to the Nation;

(B) supports the continued celebration of Juneteenth Independence Day to provide an opportunity for the people of the United States to learn more about the past and to understand better the experiences that have shaped the Nation; and

(C) encourages the people of the United States to observe Juneteenth Independence Day with appropriate ceremonies, activities, and programs; and

(2) it is the sense of the Senate that—

(A) the celebration of the end of slavery is an important and enriching part of the history and heritage of the United States; and

(B) history should be regarded as a means for understanding the past and solving the challenges of the future.

ORDERS FOR MONDAY, JUNE 22, 2009

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 2 p.m. on Monday, June 22; that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed to have expired, the time for the two leaders be reserved for their use later in the day, and there then be a period of morning business for 1 hour, with the time equally divided and controlled between the two leaders or their designees, with Senators permitted to speak therein for up to 10 minutes each; that following morning business, the Senate resume consideration of Calendar No. 71, S. 1023, the Travel Promotion Act of 2009. Further, I ask that the time between 4:30 and 5:30 be equally divided and controlled between the two leaders or their designees, and that the cloture vote on the Dorgan amendment occur at 5:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I ask unanimous consent that the filing deadline for first-degree amendments be 3:30 p.m. on Monday.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. REID. Mr. President, because we were unable to reach agreement to begin the amendment process on the travel legislation, I filed cloture on the Dorgan amendment, as I have just announced, and the underlying bill in order to move along the process. We hope to be able to reach agreement on amendments prior to the cloture vote on Monday.

COMMENDING SENATOR MERKLEY

Mr. REID. Mr. President, it is now approaching 4 o'clock. The Presiding Officer has been in that chair since noon. That is a long time. I have sat there for a while but never as long as the Senator has—3 hours 40 minutes.

I have commented in recent days about the brilliance of the Senator from Oregon and the speech he gave on health care. There have been a lot of good speeches, but no one has given a better, more informative speech than the Senator from Oregon. I say that without any qualification.

The people from Oregon are fortunate to have the Senator from Oregon, JEFF MERKLEY. He is a wonderful human being, I say to everybody in Oregon—so well prepared, and he has extremely difficult committee assignments, which he handles with such confidence and grace. I appreciate very much the work he does for the State of Oregon and for our country.

ADJOURNMENT UNTIL MONDAY, JUNE 22, AT 2 P.M.

Mr. REID. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate adjourn under the previous order.

There being no objection, the Senate, at 3:40 p.m., adjourned until Monday, June 22, 2009, at 2 p.m.

NOMINATIONS

Executive nominations received by the Senate:

THE JUDICIARY

JOSEPH A. GREENAWAY, JR., OF NEW JERSEY, TO BE UNITED STATES CIRCUIT JUDGE FOR THE THIRD CIRCUIT, VICE SAMUEL A. ALITO, JR., ELEVATED.

NAVY NOMINATIONS BEGINNING WITH GARY R. BARRON AND ENDING WITH MICHAEL M. NORMILE, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON MAY 14, 2009.

NAVY NOMINATIONS BEGINNING WITH JOSEPH R. DAVILA AND ENDING WITH JOHN M. TARPEY, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON MAY 14, 2009.

NAVY NOMINATIONS BEGINNING WITH MARCIA R. FLATAU AND ENDING WITH LINNEA J. SOMMERWEDDINGTON, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON MAY 14, 2009.

NAVY NOMINATIONS BEGINNING WITH STEVEN W. HARRIS AND ENDING WITH GEORGE L. SNIDER, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON MAY 14, 2009.

NAVY NOMINATIONS BEGINNING WITH PAUL C. BURNETTE AND ENDING WITH STEPHEN S. JOYCE, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON MAY 14, 2009.

NAVY NOMINATIONS BEGINNING WITH DWAIN ALEXANDER II AND ENDING WITH THOMAS E. WALLACE, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JUNE 9, 2009.

NAVY NOMINATIONS BEGINNING WITH JAMES F. ARMSTRONG AND ENDING WITH JULIE A. ZAPPONE, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JUNE 9, 2009.

NAVY NOMINATIONS BEGINNING WITH WILLIAM E. BUTLER AND ENDING WITH JONATHAN D. WALLNER, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JUNE 9, 2009.

NAVY NOMINATIONS BEGINNING WITH ROBERT J. CAREY AND ENDING WITH BRIAN S. VINCENT, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JUNE 9, 2009.

HOUSE OF REPRESENTATIVES—*Friday, June 19, 2009*

The House met at 9 a.m. and was called to order by the SPEAKER pro tempore (Mr. WEINER).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The Speaker pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC.
June 19, 2009.

I hereby appoint the Honorable ANTHONY D. WEINER to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Eternal God, Father of all, as we approach the weekend, we praise You and we bless You, for our fathers, both living and dead.

Their very presence or their memory may endow us with strength wrapped in gentleness, forbearance revealed in practicality, and a self-giving love which is a reflection of Your creative life and goodness.

May the fathers of this Nation be the first and best teachers of their children to find satisfaction in hard work, greatness in moral character, and faith in powerful ways.

May all fathers be blessed in their work, in their games and sports, and in the joys of family life.

This we ask of You, Heavenly Father. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Ms. FOXX. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER pro tempore. The question is on the Speaker's approval of the Journal.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Ms. FOXX. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentlewoman from Illinois (Mrs. HALVORSON) come forward and lead the House in the Pledge of Allegiance.

Mrs. HALVORSON led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to five requests for 1-minute speeches on each side of the aisle.

FIX COVERAGE GAP IN MEDICARE PART D COVERAGE

(Mrs. HALVORSON asked and was given permission to address the House for 1 minute.)

Mrs. HALVORSON. Mr. Speaker, I rise today to express the urgent need to fix the coverage gap in Medicare part D's prescription benefit plan, especially as we take up health care reform legislation this year.

The coverage gap, better known as the ''doughnut hole,'' is getting worse each year. This gap is tied to health care costs, which are increasing at a rate much faster than inflation. In fact, the costs for people that fall into the doughnut hole are expected to more than double by 2016. In my State of Illinois, 32 percent of Medicare part D beneficiaries fall into this gap, and only a small fraction ever make it out.

Mr. Speaker, in America, no senior should have to choose between their meals and their medication. If we don't solve this issue, this situation will only continue to get worse. We must take the time to address this serious gap in coverage for our seniors.

I look forward to working with my colleagues on this issue as we continue the health care reform debate.

TRIBUTE TO FULLER KIMBRELL

(Mr. ADERHOLT asked and was given permission to address the House for 1 minute.)

Mr. ADERHOLT. Mr. Speaker, today I rise to congratulate, pay tribute and honor a great Alabamian on the occasion of his 100th birthday, which will be this Saturday, a milestone that very few individuals get to reach.

Fuller Kimbrell was born on June 20, 1909, in Berry, Alabama, and was one of 10 boys. As a young man, he was quarterback and captain of his local football team, as well as helping his family on the farm. He traveled across the country during the Great Depression and returned home to Berry, Alabama, and then on to Fayette, Alabama. Today he resides in Tuscaloosa.

Mr. Kimbrell entered politics and served in the Alabama State Senate for the 12th District of Alabama, and he also managed Big Jim Folsom's gubernatorial campaign in 1954. Additionally, he went on to serve as an adviser to several successive governors in the great State of Alabama.

Until his retirement in 1984, he owned and operated Fayco, which was located in Fayette, Alabama, which is in the district I am privileged to represent.

Mr. Fuller Kimbrell has served on various civic and committee organizations such as the Lions Club, the Fayette Chamber of Commerce and the Alabama Farm Equipment Association, as well as the Alabama Road Builders Association, just to name a few.

Mr. Kimbrell has made so many great contributions to Alabama and our Nation. It is an honor to pay tribute to this great Alabamian and this great American. I am thankful to know Mr. Fuller Kimbrell, who is an inspiring example to all of us. I look forward to having the benefit of his wise counsel for many years to come, and I wish him a very happy birthday this Saturday.

A SORRY DAY IN THE HISTORY OF THE HOUSE

(Mr. DINGELL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DINGELL. Mr. Speaker, yesterday was a sorry day in the history of the House. Repetitious, unnecessary, unwise votes set about to obfuscate the business of this body was the order of the day. We set a record for the number of votes cast in a single day, but we also set a record for irresponsible, mischievous and obfuscatory behavior. It was a sorry use of the time of this institution.

The time of this institution is a public resource during which we are supposed to do the Nation's business. We

are supposed to conduct that business on the floor, in the committees and in our offices. No opportunity was made available for the Members of this body to do that. The institution has not been helped by that behavior, nor has its reputation been helped.

I say that if this kind of behavior persists, we will fall lower in the respect of the American people, as very well we should.

Yesterday was a sorry event. The business of the Nation was obfuscated. The necessary actions that need to be taken on important concerns of the Nation, like health care, like the economy, like the budget, like some 12 or 13 appropriations bills that need to be addressed, were not done.

There are hundreds of items upon which the committee and the Congress could well be using its time. Yesterday we could not because of willful, obfuscatory and mischievous behavior by Members of this institution. It is time to bring that to a stop.

MIRANDA RIGHTS FOR ENEMY COMBATANTS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, the Justice Department has ordered Miranda rights to be read to terrorists captured on the battlefield. The administration is confusing constitutional rights of arrested criminal defendants in the United States with acts of war by terrorists against the United States in foreign lands.

Miranda rights ordered to be given by the Supreme Court do not apply to a group of people who have a worldwide mission to murder in the name of religion who are captured by our military in Afghanistan.

Never mind, sayeth the administration. Enemy war combatants must be told: ''You have the right to remain silent. You have the right to a lawyer. If you cannot afford a lawyer, we will provide one for you. And anything you say may be used against you.''

This new policy is misguided. Never in history have captured war combatants overseas been treated with such an overflow of privileges. They have been dealt with by our military, especially regarding interrogations.

But now I guess we are changing all that. But that ought not to be. I guess next we will have a whole battalion of lawyers going into the battlefield to tell our troops if and when they can shoot back. Have we gone a bit too far?

And that's just the way it is.

URGENT NEED TO FIX HEALTH CARE

(Mr. HASTINGS of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HASTINGS of Florida. We urgently need to fix health care. Every day Americans worry not simply about getting well, but whether they can afford to get well. Millions more wonder if they can afford routine care to stay well.

Premiums have doubled over the last 9 years, three times faster than wages, and the average American family already pays an extra $1,000 in premiums every year for a broken system that supports 46 million or more uninsured Americans.

We have the most expensive health care system in the world. We spend almost 50 percent more per person on health care than the next most costly nation, but we are no healthier for it.

We need a uniquely American solution that builds on the best of what works—to foster competition among private plans and provide patients with quality care, ensure that every American child is covered, invest in prevention and wellness to help every American live longer and healthier lives, and ensure that doctors and nurses get the information they need to provide you with the best individualized care.

Never again will coverage be denied if you allow that we go forward with this plan. Never again will one have to make a life or job decision based on coverage. Never will anyone have to let your family suffer financial catastrophe or bankruptcy.

''No'' is not the answer.

LET'S USE OIL SHALE

(Mr. LAMBORN asked and was given permission to address the House for 1 minute.)

Mr. LAMBORN. Mr. Speaker, energy prices are a vital concern to all Americans. As gasoline prices are edging up and as the economy is in a recession, we all need a policy of making energy affordable and available.

Oil shale is a promising source of energy for America's future. I am holding in my hand a piece of oil shale from western Colorado. My State, along with Wyoming and Utah, have an estimated quantity of 1 trillion, with a ''T,'' barrels of oil products within our oil shale.

Unfortunately, this administration put oil shale development on hold almost as soon as it took office. This is unfortunate, because we should not be importing oil products from the Middle East if we have it here at home. On top of that, the cap-and-tax policy that this administration is pushing will also drive up the cost of energy.

Mr. Speaker, let's have an energy plan that uses American energy without needless taxes and costs piled on.

CREATING COMPREHENSIVE HEALTH CARE REFORM FOR ALL AMERICANS

(Ms. WASSERMAN SCHULTZ asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. WASSERMAN SCHULTZ. 47 million. 47 million is an absolutely unacceptable number of Americans who go every single day without health insurance, who when they are sick can't afford to go to the doctor, which means that when they do have an ability to access the health care system, they have to wait until they are so sick that they use the emergency room as their primary access point, which makes health care astronomically more expensive.

When a child in America is 5 years old, American families don't have to wring their hands every day wondering how they are going to pay for a child's education, because it is universal. You go to kindergarten starting on the first day that you are 5 years old.

That doesn't happen in America when you turn 5 years old and it comes to health care. Parents all over America have to worry when their child gets sick whether they are going to be able to take their child to the doctor, is their problem going to get worse.

Parents and families in America have to worry about whether they are going to continue to have their coverage if they don't have a job. They have to worry about being able to get coverage when they are sick. Those are worries that are unacceptable in the most prosperous, most democratic nation in the world. We must find a solution and create comprehensive health care reform for all Americans.

□ 0915

TAX-AS-THEY-SPEND

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, Democrats have announced they plan to actually use pay-as-you-go budgetary rules. You may remember how House Democrats have often cited PAYGO, while simultaneously finding any and every opportunity to disregard it. The zeal to spend taxpayer dollars is just too much. This would account for the fact that since Democrats have assumed control of Congress, the annual budgets deficits have ballooned over 11 times, from $160 billion to $1.8 trillion.

It is clear that PAYGO, as proposed by our Democrat colleagues, is not so much about limiting the size of government as it is paying for a larger and more intrusive big government. This is entirely against the fiscal spirit of responsibility because it means Congress can continue to spend recklessly, as long as they find new and burdensome ways to tax more American families. Under this administration and their allies in Congress, pay-as-you-go should be more correctly called tax-as-they-spend.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

HEALTH CARE REFORM

(Mr. PALLONE asked and was given permission to address the House for 1 minute.)

Mr. PALLONE. Mr. Speaker, today, the House leadership will unveil a uniquely American solution for health care reform. It will build upon existing programs like Medicare and Medicaid that will be improved significantly. It will say to employers that if you like the health insurance you're providing your employees, we want you to keep it, and we will certainly encourage more employers to provide health insurance for their employees.

But for those Americans who have no health insurance, or those Americans who have difficulty affording health insurance because they have to go out on the individual market, or have a small group plan that becomes very expensive, those individuals will be able to buy cheaper health insurance, much more low-cost health insurance through what the Federal Government would provide. There will be competition between public and private plans, and that will be our way of reducing costs. Because what this plan will do primarily is to reduce costs for most Americans and, at the same time, make sure that every American has health insurance.

I can't tell you how important that is. It is so important that every American know that they can have quality and affordable health insurance. It basically allows them to have peace of mind to not have to worry about whether they have one job or another, and this is what we're doing because we believe it's important for the average American.

INCREASED SPENDING FOR CONGRESS

(Mr. JORDAN of Ohio asked and was given permission to address the House for 1 minute.)

Mr. JORDAN of Ohio. Mr. Speaker, last night the Democrat-controlled Congress decided to prohibit any amendment that would have reduced spending for today's legislation that funds Congress.

That's right. At a time when the American taxpayer, the American families, American small business owners are tightening their belts, the Democrat-controlled Congress would not allow any reduction in what it spends on itself.

This is an outrage. Families are tightening their belts; small business owners are tightening their belts; American taxpayers are tightening their belts. And this Congress wouldn't even allow an amendment to be made in order which would say, let's live on what we lived on last year. Let's not increase spending for the Congress of the United States.

Mr. Speaker, this is an outrage, and should not be tolerated.

PROVIDING FOR CONSIDERATION OF H.R. 2918, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

Mr. HASTINGS of Florida. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution H. Res. 559 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 559

Resolved, That upon the adoption of this resolution it shall be in order to consider in the House the bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. The bill shall be considered as read. All points of order against provisions in the bill for failure to comply with clause 2 of rule XXI are waived. The previous question shall be considered as ordered on the bill and any amendment thereto to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations; (2) the amendment printed in the report of the Committee on Rules accompanying this resolution, if offered by Representative McCarthy of New York or her designee, which shall be in order without intervention of any point of order except those arising under clause 9 or 10 of rule XXI, shall be considered as read, shall be separately debatable for 10 minutes equally divided and controlled by the proponent and an opponent, and shall not be subject to a demand for a division of the question; and (3) one motion to recommit with or without instructions.

SEC. 2. It shall be in order, any rule of the House to the contrary notwithstanding, to consider concurrent resolutions providing for the adjournment of the House and Senate during the month of July.

The SPEAKER pro tempore. The gentleman from Florida is recognized for 1 hour.

Mr. HASTINGS of Florida. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to my friend, the gentlelady from North Carolina, Dr. Foxx. All time yielded during consideration of the rule is for debate only.

GENERAL LEAVE

Mr. HASTINGS of Florida. I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and insert extraneous materials into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the resolution provides for consideration of H.R. 2918, the Legislative Branch Appropriations Act for 2010, under a structured rule.

Mr. Speaker, the Legislative Branch Appropriations Act provides $3.7 billion for key investments in the legislative branch, not including Senate-related items for fiscal year 2010, including funding for the Architect of the Capitol, the Congressional Budget Office, the Government Printing Office, the Capitol Police, and the Open World Program.

This bill provides a pragmatic and fiscally responsible approach to funding our legislative branch. Actually, spending is increased only by 7 percent, less than half of the 15 percent increase requested.

The funding provided in this legislation will help us do our jobs better and faster. It increases funding for the Congressional Budget Office by $1 million, making it easier for Members to obtain PAYGO analysis of their proposals, a vital service, given our need for responsible government spending.

This bill also allocates funds for a complete overhaul of the House of Representatives' antiquated voting system, which, after 33 years of good use, has become increasingly unreliable.

Further, this measure increases the Members Representational Allowance to ensure that we're able to adequately serve our districts, and increases our funding of standing and select committees by 3 percent to accommodate the increased legislative and oversight workload typically seen in the second session.

These funds will provide us with the resources necessary to carry out the sweeping legislative initiatives of President Obama and Democrats in Congress and to better retain our most experienced and talented staff.

In addition, this bill will also help protect and preserve the Capitol complex, both from physical decay, and from the security risks it obviously faces in this post-9/11 world.

It includes $60 million to establish a Historic Buildings Revitalization Trust Fund in order to more evenly spread out the cost of large-scale historic building projects within the Capitol complex, including the repair of the iconic Capitol dome and the revitalization of the 100-year-old Cannon House Building.

It also provides an increase in funding of 6 percent for the Capitol Police—and if I had my way, that would be more—who work day and night to ensure that the U.S. Capitol complex is secure for not only Members of Congress, but for our staffs and the millions of visitors that come through each year.

Finally, this appropriations bill helps make the work of the legislative branch more accessible to people throughout our Nation and across the globe.

I'm encouraged through this bill. The Appropriations Committee has helped to ensure that all visitors touring the U.S. Capitol have equal and adequate access, whether they be part of a tour led by our talented CVC tour guides or by our hardworking staff and interns.

Additionally, this bill increases funding by $40 million for the Library of Congress, an institution which not only provides a vital resource to Congress, but also preserves a universal collection of knowledge, history, and creativity for current and future generations.

$15 million of these funds will help modernize the Library's information technology infrastructure to make the library and its unique resources more widely available to Congress and the broader public.

Mr. Speaker, this Legislative Branch Appropriations bill strikes a pragmatic balance between the growing demands upon this Congress and the legislative branch, and the economic realities this Nation is facing.

I reserve the balance of my time.

Ms. FOXX. Mr. Speaker, I thank my colleague from Florida for yielding time for us to discuss the rule.

I yield myself such time as I may consume.

We have a situation here that partly was demonstrated yesterday in terms of the Republican concern on how we are going to do business in the House. Yesterday the Democrats made in order only one amendment which had been offered to this rule. Twenty total amendments were submitted, 14 by Republicans, four by Democrats, and two that were bipartisan. Two years ago, they made three of 23 amendments in order, which is three times as many as now.

Last year we didn't even consider appropriations bills on the floor, so maybe an argument could be made that that was even worse. And even though the Democrats were in charge last year, they blame Republicans for the fact that we couldn't deal with the appropriations bills on the floor and the fact that there was a Republican President.

But, in 2006, the last year Republicans were in the majority, we made all seven amendments submitted to the Rules Committee in order. That's the way it should be. We should be debating these bills on the floor.

Earlier, our colleague from Michigan implied that requiring debate and voting on issues before the House is dysfunctional. It is exactly what the people of this country have sent us here for. They want us to take positions on these issues and not hide behind them.

We keep wondering what the Democrats are afraid of. Why do they not want amendments on the floor? They have a majority, a fairly large majority, but they refuse to debate these issues.

I would now like to yield such time as he may consume to my colleague from Nevada, Mr. HELLER.

Mr. HELLER. Mr. Speaker, I rise in opposition to this rule and the underlying bill, which proposes a $300 million increase over last year for the operations of this House. That's a 6.3 increase at a time most Americans' budgets are shrinking. $51 million of this increase goes to Members Representational Allowances, or the MRA, which we all use for operating our offices and keeping in touch with our constituents.

Now, I'll be the first to tell you that my office could use an MRA increase. My district is 105,000 square miles. I fly several hundred thousand miles every year, I probably drive another 50,000 miles in my district. Traveling my largely rural district and staying in touch with thousands of Nevadans takes a significant amount of MRA funds. But I am always mindful of the fact that MRA funds are simply taxpayer dollars by another name, and I have a responsibility to use those funds wisely.

□ 0930

Many of my constituents and many of yours are making due with less than they had last year. As public servants, we have a responsibility to make similar sacrifices. Some counties in my district are facing 15 percent unemployment. Statewide unemployment is hovering around 11 percent, well above the national average of 9 percent. Nevada's current unemployment level is at the highest rate of joblessness since they began keeping track, or keeping record, in 1976. Our State budget crisis led the Nevada legislature to cut back services some 20 percent. Meanwhile, Nevada has been hit the hardest by the wave of foreclosures sweeping the United States.

Those lucky enough to have jobs are also making tough decisions. Moms and dads across the country are sitting around their kitchen tables, deciding what must be cut from their family budgets to ensure they can pay their bills and feed their children as the cost of living continues to skyrocket. Meanwhile, as a whole, our Nation faces an $11 trillion debt.

Last night, in spite of irresponsible journalism this morning by the Politico to the contrary, I offered an amendment to the Rules Committee that would simply retain the fiscal year 2009 funding level for the MRA. This amendment is simple. I believe it shows the Americans, who are figuring out their family budgets at their kitchen tables this morning, that they are not alone and that someone in Congress understands that these difficult times call for shared sacrifice.

We who have been given the honor of serving in this body must be part of the sacrifice, and that should start here in our offices, and it should start now. Unfortunately, my amendment was rejected by the Rules Committee.

I urge this body to reject this restrictive rule so that my amendment can come to the House floor. Give this Congress a chance to lead by example with commonsense fiscal responsibility.

Mr. HASTINGS of Florida. Mr. Speaker, I am very pleased to yield 5 minutes to the distinguished gentleman from New Jersey (Mr. HOLT), with whom I serve on the Select Committee on Intelligence.

Mr. HOLT. I thank the gentleman from Florida.

Mr. Speaker, I am pleased this morning to speak about technology assessment as a tool for our legislative work. This bill funds the tools that allow us to do our best on behalf of the 300 million Americans.

Every issue that comes before us, virtually every issue, has some aspect of science and technology. Yet this Congress has not brought great credit to ourselves for our ability to deal with science and technology issues or to recognize emerging trends or the implications of technology. Fortunately, we do not have to reinvent a tool to help us in this.

Four decades ago, Congress created the Office of Technology Assessment, a congressional support agency with a professional staff. It produced reports that were noteworthy for their factual bases, for their balanced and impartial presentations, for their nonpartisan framing, and for their forward-looking perspectives. The OTA, as it was known, functioned well for 25 years.

It produced reports on such topics as retiring old cars, a program to save gasoline and to reduce emissions. That was in 1992. There were reports about bringing health care online, about electronic surveillance in the digital age, about impacts of antibiotic-resistant bacteria, and on and on. The OTA study of Alzheimer's, ''Losing a Million Minds,'' became the bible for Alzheimer's policy in America. The OTA study on Social Security computer systems resulted in changes, saving hundreds of millions of dollars. The OTA study on synfuels resulted in policy changes, saving far more money than was ever spent on the Office of Technology Assessment, itself. The OTA study on the use of genetic testing in the workplace, as a tool of discrimination and bias, laid the groundwork for the excellent legislation that Representative SLAUGHTER, the Chair of the Rules Committee, developed in the Genetic Nondiscrimination Act. An OTA report on the electronic delivery of Federal services led to the Food Stamp Fraud Reduction Act, and on and on.

In a fit of budget cutting, OTA's work was stopped 14 years ago with the

explanation that the work could be obtained elsewhere—from other government agencies, from other congressional agencies, from interest groups, from universities, from our friends back home, from some other sources. Well, we've done the experiment. It didn't work. We have not gotten what OTA provided in the 14 years since OTA stopped operations.

Stopping OTA's functioning was a stupendous act of false economy. We have not gotten the equivalent, useful, relevant work—not from think tanks, not from interest groups, not from our universities, and not from our friends back home. A former Member of Congress described stopping the funding for OTA as a congressional self-imposed lobotomy.

Mr. Speaker, we have the opportunity to provide ourselves this useful tool. Yet the rule before us today does not allow the funding of this agency. It could have been done. It could have been done for a pittance. When OTA was fully functioning, it was far less than a percent of the budget of the legislative branch.

Ms. WASSERMAN SCHULTZ. Will the gentleman yield?

Mr. HOLT. If I may finish a point here.

So what are we missing?

Well, let me postulate that, if OTA had been functioning in recent years, we could have expected helpful, relevant reports on preparing for global pandemics. Congress might well have required that there be communications in mines, such as in the Sago Mine.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. HASTINGS of Florida. I yield the gentleman an additional minute in the hopes that he will yield to the gentlewoman from Florida at some point.

Mr. HOLT. We might have had communications in the mines, such as the Sago Mine, that would have allowed the miners to get out alive. I expect that we would have had better legislation dealing with corn-based ethanol. Through OTA studies, I believe that we would have recognized the overdependence of the financial sector on mathematical models.

We are missing out on a lot, Mr. Speaker. In my exasperation, I wonder why in the world Congress would deprive itself of this useful tool. I've decided that the very reason we need OTA—our discomfort with matters scientific and technological. Our inability to deal with such things is exactly what makes it difficult for us to recognize that we need it. I regret I have no time renaming to yield to the gentlelady for Florida.

Ms. FOXX. Mr. Speaker, we do need to fund adequately our offices; the Capitol Police, for whom I have the greatest respect; and the Library of Congress, a real jewel for our country. As my colleague from Nevada said, American families are hurting, and we have been increasing spending by 16 percent in this area over the past 2 years. Here are the problems that we are facing in this country right now, which the American people are beginning to truly understand.

We will have a $2 trillion deficit for fiscal year 2009. The second tranche of the TARP was allowed to be spent, which was $350 billion. The stimulus package, which was H.R. 1, was $787 billion, which was really over $1 trillion with the debt cost. There was the omnibus bill, which was $409 billion. That was the bill that funded appropriations for this year, which the Democrats said they couldn't pass last year in individual appropriations bills even though they were in charge of the Congress. The budget increased total spending to $4 trillion in 2009, or 28 percent of the GDP, the highest Federal spending as a percentage of the GDP since World War II. Now we have this additional increase which they're asking for.

Federal spending is out of control. We have got to put a stop to this somewhere. The day before yesterday, Republicans offered 94 amendments in the Rules Committee, which were designed to cut Federal spending, but we couldn't deal with that. The Democrats cut off debate because they said it was going to take too much time to deal with this. Apparently, Democrats can't spend the American people's money fast enough. Republicans think it's time that Congress started practicing fiscal discipline. This is a good place to start.

I would now like to yield such time as he may consume to my colleague from Iowa, Mr. KING.

Mr. KING of Iowa. Mr. Speaker, I thank the gentlewoman from North Carolina for yielding to me and for her stalwart representation on the Rules Committee of her constituents and of all Americans.

It is a difficult place to serve when you find yourself outvoted almost 2–1 and when you're back in a corner of a room, up on the third floor, where the press seldom goes, where the cameras almost never are, where behaviors that are not consistent with the balance of the committees on this Hill are common, and where the rights and the franchises of the elected Members of this Congress are diminished significantly by the most recent behaviors, over the last 2½ years, of the Rules Committee. This is where this Congress is controlled.

I rise in opposition to this rule. I rise in opposition to rule after rule that comes out of that little room up there on the third floor. For example, there was the previous bill, Justice appropriations, the one that the gentlelady mentioned. Out of all of the amendments that were offered, Republicans, I believe, were offering 94 amendments. I recall that the Rules Committee wrote a rule. It was unprecedented. It wasn't an open rule for appropriations the way we thought we might get back to.

Even though Democrats were afraid to have appropriations votes in 2008, we did have some in 2007. We have always fought this through. We'll stay late at night if we need to. Leadership can get together if it gets too long and if we can't get our business done, and we can negotiate unanimous consent agreements. That didn't happen. I've been what I thought was a victim of negotiated unanimous consent agreements that were struck quickly, where the bargain was met before we really got a chance to catch up with what it all was, but that was at least leadership coming together, compromising, negotiating and agreeing.

This was the Rules Committee, I suspect directed from above, that had written a modified open rule that required us all to print our amendments into the RECORD. Once those amendments were printed, then, of course, the other side of the aisle had the opportunity to read through all of the amendments and to understand the strategy of the Republicans. Then, having written the rule to produce a certain result, they decided it probably would not produce the result that they'd intended, so they shut down debate after the very first Republican amendment, 20-some minutes into that debate, and they went back to the Rules Committee.

I sat there until nearly 1 o'clock in the morning with a number of my colleagues who had offered constructive amendments, amendments that were designed to perfect this legislation. I saw Member after Member have to ask the Rules Committee, Will you please make my amendment in order so that my constituents can be heard? They didn't say it, but it was also so that the American people could understand the shenanigans that had been going on here. We were afraid to say that because they were afraid that their amendments wouldn't be made in order. I watched that parade in front of the Rules Committee, and I will tell you it's unprecedented that Members of Congress are reduced to having to beg, in a little room on the third floor, to be heard.

Each of us has a franchise: 1/435 of the United States of America is embodied in each one of us. Speaker PELOSI said—I believe the date was June 14, 2006—that every Member has a right to be heard and, on a different date, that this would be the most open Congress in history.

□ 0945

Well, it's anything but that. It's becoming more and more closed—even to the point where we lose the right to offer a motion to rise or adjourn, the right to offer an amendment on an appropriations bill.

And so I had offered six amendments up there. I didn't ask the Rules Committee to make my amendments in order; they had already made my amendments in order. Every single one of them complied with the rule that was written and had been made in order. But when the majority understood that they were going to have to take some votes, some tougher votes on some subject matter that they had been ducking from, then they changed the rules.

I just said, Keep your word. You set the standards to begin with. We all met those standards. And then you made our amendments in order. We shouldn't have had to do that. It should have been an open rule to allow any Member to offer an amendment down here at the well unless that title of the bill had passed. That's the standard that's here. That's what the Founding Fathers imagined and envisioned. But we get anything but that.

And so, this Congress doesn't get to debate on important topics. We have to have a motion to recommit in order to discuss the issue of giving Miranda rights to enemy combatants in foreign continents. That's what it takes. And that little window will be closed, too, if it makes the majority uncomfortable.

We don't get to debate on the very critical national security issue, Mr. Speaker, of the Speaker of the House declaring the CIA to be a group of felonious liars and having lied to the Congress of the United States of America and then stated that she's going up to receive briefings after this.

The United States of America's national security has got to be put at risk when the person third in line for the Presidency declares our intelligence community to be lying to Congress. Decisions get made, on this floor, in committee, behind the scenes—sometimes by staff—based upon the allegations made by the Speaker. The staff wants to please the Speaker. The Speaker is ducking this issue. We need to have a vote, and I offered an amendment to get a vote on the CIA. We aren't going to get that vote because the Rules Committee shut it down.

I offered an amendment that would also clean up some of this—amendment No. 2 increases and decreases standing committee by $1 million—so that we can broadcast the activities in the Rules Committee. When you go into a committee and you realize that you're sitting in front of a camera, it causes people to have a little better demeanor, and the decisions are there accountable to the public and some of that actually ends up on YouTube. But the Rules Committee doesn't have that. The room is too small and it's too secret what goes on up there.

We need a big room for the Rules Committee because that's where the decisions are made in the United States Congress today, Mr. Speaker. So I offered an amendment to do that.

As I moved through this process—and by the way, not only the criticism of the intelligence community came from the Speaker but now she's taken on the Congressional Budget Office and said, Well, no, they're the most pessimistic group that there are. We always overestimate things that work against us.

Well, if you challenge the integrity of the Congressional Budget Office, it isn't long before you have intimidation of the Congressional Budget Office. When you challenge the CIA and you control their purse strings, it isn't long before you have intimidation of the CIA. You don't get the same information if you have a trust relationship going on.

And by the way, the legislation, the appropriation that passed last night was managed by an appropriations subcommittee chair that by all the news reports is under investigation, and he received the gavel from the Speaker of the House. She knew he was under investigation, and 2 years ago he recused himself from the discussions. But we've not heard any announcement as to that investigation being lifted or any of the subpoenas that may have been served have been withdrawn or that had been shut down. There was no announcement whatsoever.

How can we have confidence in this Congress if the Speaker declares the intelligence community to be lying to Congress, if the Rules Committee shuts down the debate, if this House is recessed in the middle of important business, if an impeachment of a judge is shut down so you can go raise money, or if the chairman of the subcommittee who is managing the funding for the FBI, is being investigated by the FBI? This Congress has a long way to go to get where they're going.

I would just conclude with this, Mr. Speaker. I'm going to paraphrase Joe Welch, Let us not assassinate this process further. You've done enough. Have you no sense of decency at long last? Have you no sense of decency left?

Mr. HASTINGS of Florida. Mr. Speaker, after that speaker, I find it necessary to correct him with regard to a portion of his screed.

Please know that in the process that he referenced one of our Members, who is a subcommittee Chair of Appropriations, the committee Chair, Mr. OBEY, handled the matter, when the Member referred to by the previous speaker recused himself. And on the floor, when the matter was brought here, the committee Chair handled that matter.

Now, I heard that gentleman talk about shenanigans. Let me tell you something, Mr. Speaker. What happened in the House of Representatives yesterday—and I've only been here 17 years—but the dean of the House of Representatives, Mr. DINGELL, was down here this morning for a 1-minute and spoke of the disgrace that took place yesterday. And someone would come in here and talk about shenanigans? What was that yesterday? How could we possibly have gotten about the business of dealing with the Nation's business when repeatedly what we saw was people coming in here delaying the process?

I have been here 17 years. We cast 54 votes yesterday. We spent more time casting votes on nonsense than we did on any substance that was being sought.

Now enough already. People have a right to their views. They have a right to their political shots. But the Rules Committee operates this body. And if they want the business of the American people done, then they wouldn't conduct the kind of shenanigans that they conducted yesterday.

I'm very pleased to yield 2 minutes to the distinguished gentlewoman from Florida (Ms. WASSERMAN SCHULTZ), the chairwoman of the Legislative Branch Subcommittee, which I thought was what we were here to talk about.

Ms. WASSERMAN SCHULTZ. Thank you to the gentleman from Florida, my good friend, Mr. HASTINGS. I appreciate that.

It is important that we get back to the business at hand, and I simply wanted to address the gentleman from New Jersey's remark about the Office of Technology Assessment, which is an important agency of the legislative branch that remains authorized in the U.S. statutes, but that currently does not receive funding. Especially given the age of technology and the advent of scientific progress that we are in the 21st century, I think it is incredibly important that we begin to reestablish or explore reestablishing that legislative branch agency, and I look forward to working with the gentleman and with my colleague, Mr. ADERHOLT, the ranking member, and Mr. WAMP and a number of other bipartisan members that are interested in doing that over the course of the next year.

Mr. HOLT. Would the gentlelady yield?

Ms. WASSERMAN SCHULTZ. I'd be happy to yield.

Mr. HOLT. I appreciate the gentlelady's use of the word ''bipartisan.'' In fact, the amendment that we had hoped would be made in order today was brought forward by three Republicans and me, a Democrat.

This is an agency that would benefit all in Congress. It has the support of many on both sides of the aisle.

I thank the gentlelady.

Ms. WASSERMAN SCHULTZ. Reclaiming my time, just to point out for the Members, we do have $2.5 million that we have carried in the legislative branch bills for the last 2 fiscal years. It is there in the GAO for technology assessments. But we do recognize that

the gentleman and many other Members on both sides of the aisle believe that it would be far better and more effective if we conduct those assessments with a staffed agency of experts and bring in the expertise that the Congress currently lacks.

Ms. FOXX. Mr. Speaker, I now yield 4 minutes to our colleague from Arizona, Mr. FLAKE.

Mr. FLAKE. I thank the gentlelady for yielding.

I, too, went to the Rules Committee to testify last night to try to have an amendment ruled in order, an amendment that was germane; there was no problem with its relevance to the bill. It was not dilatory, it wasn't seeking to delay anything. It was to address a very real problem that we have.

The problem that we have, Mr. Speaker, is that we have, that we know of, a number of investigations from the Justice Department going on right now examining the relationship between earmarks and campaign contributions. They're looking at the process of circular fundraising where Members of Congress will secure earmarks, or in other words, no-bid contracts for their campaign contributors. The money goes out, taxpayer money, campaign money comes back in.

Now, whether we want to admit it or not, the Justice Department is looking at this. We can talk until we're blue in the face, say there is no quid pro quo here. We're giving earmarks to those that we think need them. These no-bid contracts are going to companies that really need them. And whether or not they turned around and individuals from that organization or the lobbyists that represent them, if they contribute tens of thousands or hundreds of thousands of dollars back to my campaign committee, that's okay because it's not a quid pro quo. Whether we say that until we're blue in the face doesn't change the fact that the Justice Department seems to feel differently, and they're conducting investigations.

Now I think we do feel differently because just a few weeks ago, we authorized or instructed our own Ethics Committee to reveal whether or not they were conducting an investigation that essentially looks into the relationship between earmarks and campaign contributions. They have since indicated that they are.

So now we have the Justice Department looking into the relationship between earmarks and campaign contributions. We have our own Ethics Committee looking into that relationship, and yet we have, Mr. Speaker, our own Ethics Committee still issuing guidance to the Members of this body that campaign contributions do not constitute financial interest. In other words, whether or not you can contribute or give an earmark to a company, that company's executives and their lobbyists can turn around and give you campaign contributions the next day or the day before. That's okay according to guidance coming from our own Ethics Committee—the same Ethics Committee that is investigating the relationship between earmarks and campaign contributions.

The purpose of the Ethics Committee, Mr. Speaker, is to ensure that the dignity of this House is maintained, that we rise above it all, that we have a standard that is perhaps higher than perhaps others have. We should have a standard that's higher than whether or not Members can be indicted or convicted over behavior that takes place here. Yet, we're allowing the Ethics Committee to issue guidance that says, It's okay. That, Mr. Speaker, is wrong.

What this amendment would have done is said that no money could be spent in the bill to implement that guidance. I can't think of many more pressing issues in this House than that. It's germane. There is no reason that it couldn't be brought up and be part of the amendments that were offered today, but the Rules Committee said ''no'' for no other reason than they didn't want to stop the practice.

We have come to rely on earmarking to raise money around here. That's the bottom line. And we can't continue it if we're going to uphold the dignity of this body.

Mr. Speaker, at some point we will decouple the relationship between earmarks and campaign contributions. We have to. I just hope that we do it sooner rather than later and not have to wait to uphold the dignity of this body.

Mr. HASTINGS of Florida. Mr. Speaker, I would inquire of my friend from North Carolina if she has any additional speakers. I will be our last speaker.

Ms. FOXX. We do have additional speakers.

Mr. HASTINGS of Florida. I reserve the balance of my time.

Ms. FOXX. I now would like to yield 5 minutes to the distinguished ranking member of the Rules Committee, Mr. DREIER from California.

Mr. DREIER. Mr. Speaker, I thank my friend from Grandfather Community, North Carolina, for yielding me the time, and I appreciate her service on the House Rules Committee.

It is absolutely true. We could move the appropriations process through the House of Representatives much more easily if the minority party didn't exist. If we weren't here creating what my friend from Fort Lauderdale has called ''shenanigans'' or using terms like that, we could move this process along very easily.

□ 1000

Unfortunately, the minority party, the group that represents almost half the American people, is being treated as if they don't exist. And this rule is a perfect example of just that, Mr. Speaker.

I know that people are saying that yesterday was a history-making day because there were more recorded votes on the floor of the House than have ever been held in modern history. But the real history that was made yesterday was the fact that we saw the volume that was put forward in the 108th Congress by the now-Chair of the Committee on Rules, Ms. SLAUGHTER, described as the ''death of deliberative democracy,'' actually implemented here for the first time in the 220-year history of the United States of America. For the first time ever we saw a process begun which is in fact creating a scenario where the majority is ignoring the minority and doing what the American people do not want.

I do not believe that the American people want us to continue down the road towards a dramatic increase in Federal spending. People want to get the economy back on track, people want to make sure that their jobs aren't lost, but they're really wondering whether or not the way to do that is to have a huge increase in Federal spending, and yet that's exactly what is happening. And this rule is a perfect example of that.

Now, I was harshly criticized by Members of the now-majority when I had the privilege of chairing the House Rules Committee. But I will tell you the last time that I chaired the House Rules Committee there were seven amendments to the Legislative Branch Appropriations bills submitted to the Rules Committee, and I was pleased that I could make every single one of those in order. Every single amendment that was submitted was made in order. And as has been pointed out, 20 amendments were submitted to the Rules Committee for the Legislative Branch Appropriations bill, and only one amendment was made in order. And guess what, Mr. Speaker? Not one single amendment was made in order that would do what the American people want us to do and, that is, to reduce the size, scope, and reach of the Federal Government.

A 16 percent increase in the level of spending under this Legislative Branch Appropriations bill—and we all recognize that the need for Capitol Police and staff and oversight of the executive branch are all critically important things—but our colleague from Georgia (Mr. BROUN) offered an amendment that would simply provide a one-half of 1 percent reduction—one-half of 1 percent reduction—and yet the majority chose not to make even that amendment in order. Yes, there were larger proposals for cuts. And we know there is a tendency on this bill—that's why we've had a bipartisan agreement that this is the one of the 12 appropriations bills that we do have a structured rule on—but with a 16 percent increase in

the bill, to not allow the House to work its will and have a chance for even a one-half of 1 percent reduction in that rate of growth, that's not what the American people want. That's not what the American people want.

And so the death of deliberative democracy was the history that was made yesterday, Mr. Speaker, because this is, in fact, the first time that this kind action has been taken and, unfortunately, it has begun a pattern. It's begun a pattern.

As I listened to my friend from Iowa (Mr. KING) refer to the fact that he was victimized by the bipartisan leadership when we in fact had said to him that we wanted to come to a time agreement on consideration of appropriations bills, it is evidence that we can at the leadership level—maybe not every rank-and-file Member—but that the leadership level worked together.

That is why I am very happy to see my very good friend from Wisconsin, the distinguished Chair of the Committee on Appropriations, here. And I would ask my friend, the distinguished Chair of the Committee on Appropriations, Mr. OBEY, whether or not he believes that we could in fact come to some kind of agreement if we were to proceed with the appropriations process under an open rule. And I would be happy to yield to the distinguished Chair of the Committee on Appropriations, Mr. OBEY, if he would engage with me on this.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. HASTINGS of Florida. The gentleman's time has expired, but I can answer what he asked, and I can also tell him I don't have time to yield.

We began in the Rules Committee with me asking the previous speaker whether or not his side had offered a time agreement. He looked at me as if I was talking about something that was foreign.

What I knew, and what I believe the leadership knew on both sides of the aisle, was that for a protracted period of time the distinguished chairman of the Appropriations Committee and the majority leader have been meeting with their counterparts in the minority with reference to time agreements.

Now, I sat here when that bill began its debate and the first question out of Mr. OBEY's mouth to Mr. LEWIS, the distinguished ranking member of the committee, the first question out of his mouth was whether or not they were going to be able to get a time agreement, and Mr. LEWIS' reply was that he could not give that assurance. So for somebody to come down here and talk about whether or not the Democrats tried to get a time agreement and then to spend time yesterday agreeing on nothing and accepting no more than foolishness on the House of Representatives, whether it was history making or not, is just plain absurdity.

Mr. Speaker, I reserve the balance of my time.

Ms. FOXX. Mr. Speaker, I would yield 1 minute to the distinguished ranking member from California, Mr. DREIER.

Mr. DREIER. I thank the gentlewoman for yielding.

I would like to yield to my friend from Florida to say to him that what I was proposing that bill-by-bill we begin with a process, as has been done for the decades that I've been privileged to serve here, and make an attempt to work together to bring about some kind of agreement. No attempt was made to do that. The request was unprecedented in that it was a sweeping request made at the beginning of the appropriations process before we had even come to the floor and started working on this.

I would be happy to yield to my friend to respond to that.

Mr. HASTINGS of Florida. Most assuredly.

I would ask that you and I look at the RECORD when these proceedings conclude. And I can assure you that what Mr. OBEY asked Mr. LEWIS was whether or not they could get a time agreement. I was sitting here——

Mr. DREIER. If I could reclaim my time, Mr. Speaker, let me just say, having participated in this process in the past, agreements are worked out, as Mr. KING said, between the two leaderships. And if we begin with the work of an appropriations bill and Members are in fact offering dilatory amendments, there is an effort made at the leadership level to bring about an agreement at that time. The notion of trying to impose that constraint before the process has even begun is wrong and it is unprecedented and it has been part of what has killed deliberative democracy under the leadership of this majority.

Ms. FOXX. Mr. Speaker, I want to point out that I have been told that when he was ranking member, Mr. OBEY would never agree to a time agreement before a consideration of a bill.

Now, Mr. Speaker, we are nearing the end of the time of debate on this rule. I think we have had some very important issues brought forward by my distinguished colleagues who have come to share this debate this morning.

This is a bad rule because it does not allow for amendments to be offered on the floor for people to work their will here.

I do want to correct a couple of things that were said earlier this morning by my colleagues in terms of uninsured Americans. I think we have to do this every single time it's brought up.

My distinguished colleague from Florida said this earlier: there are 47 million uninsured Americans. There are not. Despite those claims—and I am quoting from ''Crisis of the Uninsured: 2008'' by the National Center for Policy Analysis—we have 12 million illegal aliens here. We have 14 million uninsured adults and children who are qualified for programs but have not enrolled. We have 18 million people who are uninsured who live in households with annual incomes above $50,000 who could afford it. We have 18 million who are uninsured, but most of them are healthy and don't need it. Eighty-five percent of U.S. residents are privately insured and enrolled in a government health program. Therefore, 95 percent of U.S. residents have health coverage or access to it, and the remaining 5 percent live in households that earn less than $50,000 annually. That is about 7 million people.

I am getting so tired of hearing these misstatements made all the time. It's day after day after day that we keep getting these figures put out that are wrong.

But let's go back to this bill and to what's in this bill that we find really egregious. I am going to urge my colleagues to vote ''no'' on the rule and ''no'' on the bill because we have in here $9 million for the Open World Leadership Center Trust Fund. That's just one of the items that's in here that we don't need to be funding. It would be great to be able to have better relations with young people in other countries who come here; but, again, the American people are hurting.

The Republicans are on the side of the American people who are hurting here. We want to slow down the spending. There is a statement that came out yesterday about the difficulty we're having in selling bonds and the amount that we're selling. We are going into debt greater and greater in this country, and yet the Democrats seem to see no end to spending. They can't spend the American people's money fast enough.

There is money in here to do studies on demonstration projects to save energy. You know what? I look around this place every night; we can save lots of money on energy by just turning out the lights. The lights are left on all over the Capitol complex. We don't need to spend millions of dollars on studying what we can do to save energy. Just use common sense and cut down on the use of the energy that we have now. We're going to be wasting a huge amount of money.

Yesterday, the Treasury announced a record $104 billion worth of bond auctions for next week, part of its Herculean efforts to finance the rescue of the world's largest economy. This was in the news today. It will exceed the previous record of $101 billion set in auctions that took place in the last week of April.

We are spending our country more and more into debt. And why are we pushing things through? Why are we

not allowing amendments? Because the chairman of the Appropriations Committee says we have to stick to his timetable. And yet, since the beginning of May, what have we dealt with here? We've had over 101 suspension bills, things like recognizing the Winston Churchill Memorial Library in Fulton, Missouri, as American's National Churchill Museum. Really important work——

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. FOXX. Mr. Speaker, I urge my colleagues to vote ''no.''

Mr. HASTINGS of Florida. Mr. Speaker, how much time do I have remaining?

The SPEAKER pro tempore. The gentleman has 13¾ minutes remaining.

Mr. HASTINGS of Florida. I shall not use all that time, but I do yield myself such time as I may require.

Mr. Speaker, I've heard so much revisionist history put forward here, not the least of which just came from the distinguished colleague of mine from North Carolina, with reference to previous periods having to do with whether or not the minority requested time agreements.

One thing I've done since I've been in the House of Representatives is spend a lot of time on the floor of the House of Representatives. And that isn't looking to cause any praise to be directed to me. It became, over time, a part of my responsibilities that I assigned to myself to kind of know what was going on in this institution.

During that same period of time when Mr. OBEY was the ranking member of the Appropriations Committee, I have been on this floor when Mr. OBEY has requested time agreements when a bill is in progress and have participated in the discussions regarding it when the majority said no. So to come here and say that you always allowed for time agreements is just simply not the case.

The other thing that is ignored is the fact that the majority and the minority meet with regularity. I rather suspect that what's going on here, with nobody having said a word to me about it, is that there has been a little bit of a strategy by my friends on the other side to ensure, among other things, that they will slow down the process and that we will not be able to get the business of the people done. The greatest evidence of that was the transpiration of events here yesterday.

Now, another gentleman here spoke, my friend from Iowa, with reference to the Rules Committee being upstairs in a small place. That's where it was when I got here, that's where it is now, and I rather suspect when he and I leave, that's where it will be. But to suggest that the media does not cover the Rules Committee evidently ignores the fact that everything that we say is transcribed by these people that are reporters, who we overwork and abuse well on into nights when we could have been saving taxpayers money by letting them get about their business and all of the staff related around here that this legislative branch is about. All of what we do is recorded.

□ 1015

In addition to that, no reporter is refused to be there, and C–SPAN often chooses to cover the Rules Committee dependent upon whether or not there is a matter of substance that they would want to cover.

Now, my friends on the other side have had 12 years of rulemaking. I served on the Rules Committee in the minority a lot of that time. During that period of time, you didn't regulate financial services. You didn't provide a sensible health care plan. You didn't give our children what was needed. You said what you were going to do is leave no child behind. And you did not only leave children behind; in certain places in this country you lost them and couldn't find them. Our parks, our environment deteriorated and were plundered and abused and used in a way that was beyond the pale, and yet we come in here and talk about spending.

What would you say to all of the people that work in a bank that got saved? They're Americans. What would you say to all of the people in the financial services and on Wall Street that found themselves employed? They're Americans. What would you say to the automobile industry employees and their directors that have their limited jobs saved and too many gone because of mistakes that were made by government and industry? What would you say to those working people? They're Americans.

You're telling me that when we spend money, we are not spending that money in a way that's helping America. What do you say to your communities like mine that are finding themselves in the position of having to cut services with regularity and it usually starts with the poor and the disabled? They're Americans.

And somewhere along the line, I would ask you the question, what would you have this President that's been in office now nearly 5 months not do? Would you have him not do health care? Would you have him not do anything about climate change? Would you have him not do anything about the fact that you didn't regulate the industries that needed to be regulated appropriately during the time that you were in the majority?

Mr. Speaker, the resolution that we are here on provides for consideration of the legislative branch appropriations. We've heard the measures, and all will be able to see that this bill provides a pragmatic and fiscally responsible approach to funding this legislative branch.

Footnote right there: the fine young people that work with us. When I came here I was permitted, as every Member, to have 18 full-time staffers, and I haven't always had 18 full-time staffers. But from 1992 until now, it's been that many staffers with an increase in the workload. Now, some of you all don't pay these young people well enough and you know it, and you need to pay attention to that. And if you do get an increase, give it to the children that work with you and you might have a better-run office.

The funding provided in this legislation will help us do our jobs better, faster, and it increases funding for the Congressional Budget Office that we continue to use, rightly so. Particularly, the pay-goers need their analysis done.

Mr. Speaker, I will stop now by saying that this appropriations bill helps make the work of the legislative branch more accessible to people throughout our Nation and the globe. I'm encouraged that through the bill, the Appropriations Committee has helped to ensure that all visitors touring this Capitol have equal and adequate access to this facility.

With that in mind, I just urge my friends to remember that while they are making up their history, there are some of us that remember it well, and I can assure you that the things that I have said can be documented from that record.

I would hope that we would know that this bill honors our history and prepares us for the future. It invests in the preservation and protection of the Capitol complex and makes more efficient, more accessible the opportunities for the people that we serve.

With that, Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Members are reminded that remarks in debate are properly directed to the Chair and not to others in the second person.

The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Ms. FOXX. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, and the Chair's prior announcement, further proceedings on this question will be postponed.

AUTHORIZING SPEAKER TO ENTERTAIN MOTION TO SUSPEND THE RULES ON TODAY

Mr. BERMAN. Mr. Speaker, I ask unanimous consent that it may be in order today for the Speaker to entertain a motion that the House suspend

the rules and adopt House Resolution 560.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

EXPRESSING SUPPORT FOR IRANIANS WHO EMBRACE DEMOCRACY

Mr. BERMAN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 560) expressing support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties, and rule of law, and for other purposes.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 560

Resolved, That the House of Representatives—

(1) expresses its support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties, and rule of law;

(2) condemns the ongoing violence against demonstrators by the Government of Iran and pro-government militias, as well as the ongoing government suppression of independent electronic communication through interference with the Internet and cellphones; and

(3) affirms the universality of individual rights and the importance of democratic and fair elections.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. BERMAN) and the gentlewoman from Florida (Ms. ROS-LEHTINEN) each will control 20 minutes.

The Chair recognizes the gentleman from California.

Mr. BERMAN. Mr. Speaker, I yield myself such time as I may consume.

Every day since Iran's election, the streets of Tehran have been filled with demonstrators, and each day this past week the number seems to be growing. Even state-run media in Iran has put the number of demonstrators in Tehran at ''hundreds of thousands.'' One British newspaper reports that there were a million demonstrators in Tehran yesterday.

What do these demonstrators want? Are they simply in favor of the candidate Mir Hossein Mousavi? Or are they making a more profound statement about the Iranian regime?

Nobody knows exactly. We do know one thing, though: The demonstrators feel their intelligence was insulted and their dignity assaulted by the high-handed manner in which the results of the June 12 election were handled. They want justice. This morning the Supreme Leader offered none.

It is not for us to decide who should run Iran, much less determine the real winner of the June 12 election, but we must reaffirm our strong belief that the Iranian people have a fundamental right to express their views about the future of their country freely and without intimidation.

The Iranian regime is clearly embarrassed by the demonstrations and has not shrunk from using violence to stop them. At least eight demonstrators, and quite likely a number more, have been killed, and hundreds have been injured. The regime has also tried to ban media coverage of the demonstrations. Foreign journalists are consigned to their homes and offices. Several have been expelled from the country. Cell phone coverage has been frequently blocked in order to limit communication among the protesters, and the regime has interfered with the Internet and taken down many opposition Web sites.

We cannot stand silent in the face of this assault on human freedom and dignity. I repeat that we have no interest in interfering in Iran's internal affairs. That era has ended. This resolution affirms the ''universality of individual rights'' as well as ''the importance of democratic and fair elections.'' Beyond that, it simply expresses its solidarity with ''Iranian citizens who embrace the values of freedom, human rights, civil liberties, and the rule of law.'' I don't know how many of the demonstrators fall into that category, but I do know that many of them do.

This resolution also condemns the bloody suppression of freedom. It is not a judgment on who won the Iranian elections; it is an acknowledgment that we cannot remain silent when cherished universal principles are under attack.

Mr. Speaker, I want to just offer my appreciation to our ranking member and to the gentleman from Indiana for working together on a resolution which puts the House of Representatives on the side of the people of Iran, and with that, I ask my colleagues to join me in supporting this resolution.

Mr. Speaker, I reserve the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to start out thanking our esteemed and distinguished chairman of our Foreign Affairs Committee, Mr. BERMAN, for working with us in a bipartisan manner, reaching out to our side to bring this timely resolution to the floor. I especially want to thank our Republican Conference Chair and a great member of our Foreign Affairs Committee, Mr. PENCE, who authored this legislation.

I rise in strong support of the fundamental, universal human rights and civil liberties to which the Iranian people are entitled. For 30 years, these rights and freedoms have been denied again and again by an oppressive Iranian regime which uses a sham process with candidates handpicked by the ruling apparatus to create the illusion of political participation.

There was no election in Iran this year. There has been no election, no democracy in Iran for decades. The candidates and the winners were again picked in advance by the regime. Real reform, real democracy were never an option. This repressive regime relies on so-called elections to provide a veneer of legitimacy, but that facade has been shattered by the protests taking place in Iran this week. The brutal nature of the Iranian regime is well-documented.

On Tuesday, I had the honor of attending, with Secretary of State Hillary Clinton, the release of the State Department's annual Trafficking in Persons Report, which again cited Iran as a Tier 3 country, among the worst, as the regime that does little, if anything, to prevent men, women, and children from being trafficked for sexual exploitation and involuntary servitude, slavery. Likewise, as the State Department's human rights report for 2008 noted: ''Iran's poor human rights record worsened and it continued to commit numerous serious abuses. The government severely limited citizens' right to change their government peacefully through free and fair elections. Authorities held political prisoners and intensified a crackdown against women's rights reformers, ethnic minority rights activists, student activists, and religious minorities.''

It is a pattern for decades. So we must look beyond the past week, which was only the most recent demonstration of the regime's brutality and authoritarianism.

But the Iranian regime is not just a threat to its own people. We cannot afford to lose sight of the threat that it presents to our own national security interests and, indeed, to global peace and security. Iran draws even closer to crossing that nuclear point of no return. Admiral Mike Mullen, the Chairman of our Joint Chiefs of Staff, has stated that Iran has likely enriched enough uranium to make an atomic bomb. International inspectors also report that Iran has enough low-enriched uranium to achieve nuclear weapons breakout capabilities and that issues about possible military dimensions to Iran's nuclear program remain unresolved. Yet Iran is allowed to continue its nuclear pursuit virtually unchallenged.

Additionally, Iran continues to develop chemical and biological weapons

and ballistic missiles while arming and bankrolling violent Islamic extremists worldwide. We must bear this in mind when we determine what is the appropriate response to the Iranian regime's policies and actions.

But today, Mr. Speaker, we must focus on the hopes of the individual Iranians who have been robbed of a better future for almost 30 years by a regime which only promises nothing but misery and malaise. Now is the time for all responsible nations to stand foresquare with the people of Iran as they seek freedom, as they seek true self-governance at home, as well as to live at peace with the world.

□ 1030

We must send a clear signal today to the Iranian regime and all of its proxies and affiliates that free nations will not tolerate further efforts to silence the voice of the Iranian people through violence and coercion.

With that, Mr. Speaker, I would like to reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I yield myself 1 minute.

My friend, the ranking member, correctly cited a whole series of very important issues that we and the United States has with the Government of Iran; and she is correct. Just this quick note about what the gentlelady from Florida pointed out at the end of her comments. The reason I worked to bring this resolution up—this resolution is not about a recitation of all those issues. It's about an affirmation of something that this House of Representatives has done in places all over the world, whether it is in Tibet or in Cuba or in Eastern Europe or in the Middle East or any other region, to reaffirm our commitment to stand for certain fundamental universal principles involving human rights, participatory democracy and the affirmation of the rights of the people of any country. Today it's about the people of Iran.

With that, I reserve the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, we have an impressive lineup of speakers on our side. I would like to start by yielding 5 minutes to the gentleman from Indiana (Mr. PENCE), the author of the bill, Republican Conference Chair and an esteemed member of our Committee on Foreign Affairs.

Mr. PENCE. I thank the gentlelady for yielding.

I rise with a great sense of humility and a great sense of moment before this body but also a great sense of gratitude to the ranking member for her extraordinary leadership in bringing this resolution to the floor, a resolution which, as the chairman of the committee just stated quite eloquently, will give the American people, through their elected representatives, a clear opportunity on this day, after a week of violence and tumult in the nation of Iran, to express the American people's support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties and the rule of law.

I am especially grateful for the leadership and the spirit brought to this legislation by Chairman HOWARD BERMAN, with whom I don't agree on very much; but I am grateful that he demonstrates today a public mindedness that I think is in keeping with the best traditions of this institution.

Ronald Reagan would say in 1964, ''You and I are told increasingly that we have to choose between a left or right, but I would like to suggest that there is no such thing as a left or right. There is only an up or down: up to a man's age-old dream, the ultimate in individual freedom consistent with law and order or down to the ant heap of totalitarianism.''

Today the leadership of Chairman HOWARD BERMAN demonstrates that on the issue of speaking a word of encouragement to those who would stand with extraordinary valor for their own liberty, there is no left or right in this body. It has been, as has been stated before, an extraordinary week in the life of the nation of Iran. On 12 June, just one week ago, from the very moment that the presidential election results were announced, the international community and the international press called the results into question. Chief among the reasons for that was that even before the extraordinary demonstrations had begun, millions of paper ballots had apparently been tallied and counted within a matter of hours. The official government results of the election were met with public consternation among the people of Iran; and while the defeated candidate launched a legal appeal, as the western media has reported, what has ensued on the streets of Iran has been the biggest demonstration in the Islamic Republic's 30-year history. And most sad, following that election day, the actions by the government and militias that support the government have turned to violence. Pro-government forces have attacked demonstrators over the past week, causing fatalities, resulting in the arrest of dissidents. We have heard of foreign reporters prevented from making their way into the public. We've heard of the jamming of electronic communications. For all the world, we may well be witnessing a Tiananmen in Teheran.

It seems to me that in this moment, the people of the United States of America long to be heard; and by dint of House Resolution 560 today through their elected representatives, the American people will have had that opportunity. This resolution simply states that it is resolved that the House of Representatives expresses its support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties and rule of law. It also condemns the ongoing violence against demonstrators by the Government of Iran and pro-government militias, as well as the ongoing suppression of independent electronic communication through interference with the Internet and cell phones. And lastly, it affirms the universality of individual rights and the importance of democratic and fair elections.

I have said many times this week, and it has been echoed by my colleagues, like the Republican Whip ERIC CANTOR, that the cause of America is freedom; and in this cause, the American people will not be silent. There is no intention here to pick sides in the Iranian election. There is an intention here, in a true spirit of bipartisanship, to allow the American people to be on the side of liberty and to be on the side of freedom. I urge my colleagues to join us in supporting this legislation because the voice of the American people has before and, I believe in my heart of hearts, will again make a difference in the advancement of human liberty in the world. I urge its support.

Mr. BERMAN. Mr. Speaker, I am pleased to yield 2 minutes to my dear friend, a member of the Foreign Affairs Committee, the gentlelady from Nevada (Ms. BERKLEY).

Ms. BERKLEY. I thank the gentleman from California for yielding and for his steady leadership on this and so many other issues, the ranking member ILEANA ROS-LEHTINEN, and I thank the gentleman from Indiana (Mr. PENCE) for his leadership on this and so many other Middle East-related issues as well.

Mr. Speaker, I rise in strong support of this resolution and in support of the people of Iran whose voices deserve to be heard in a free, open and democratic way. We are not here today to discuss the outcome of this election or involve the United States in the internal politics of Iran. The American people, through their elected representatives, are here today to stand with the people of Iran and people all over the world who yearn to express their opinions and to exercise their right to free speech and fair elections.

It takes an enormous amount of courage to stand up to your government in a repressive society, and the American people applaud those heroes who face intimidation and oppression for expressing their views. I am personally in awe of the Iranian people and hope others will learn by their example. I also support President Obama, who I believe has steered an excellent course for dealing with this situation. While some have called upon him to condemn the Iranian government more forcefully, I believe it is essential that the United States not interfere in this remarkable debate and public demonstration. What the world is watching

unfold in Iran is condemnation enough of what is happening in that country. We should, however, encourage free speech, free elections and nonviolence for all the parties involved. It's a wise course, and I believe it is one we would have benefited from in years past.

I thank the gentleman from California once again. I encourage all of my colleagues to support this legislation. I support it totally.

Ms. ROS-LEHTINEN. Mr. Speaker, I am proud to yield 2 minutes to the gentleman from Virginia (Mr. CANTOR), our esteemed Republican Whip, a member of the Committee on Ways and Means, and a leader on issues related to Iran.

Mr. CANTOR. I thank the gentlelady.

Mr. Speaker, the Iranian regime's brutalities are on full display for the whole world to behold. I rise today in sympathy with the victims of Iranian political oppression who have been injured or killed, protesting the outcome of their election. I salute the leadership of the gentlelady from Florida and the gentleman from California for bringing this resolution forward, as well as the gentleman from Indiana for his leadership on this and so many issues, and the way that the gentlelady from Nevada spoke.

It is America's moral responsibility to speak out on behalf of the protection of human rights wherever they are violated. And regardless of the outcome of the Iranian election, make no mistake where the power in Iran lies. It lies with a clerical regime who conducts its most egregious activities in the dark, hidden from the world's eyes and, thus, escaping media attention. The Iranian Revolutionary Guard Corps quietly funnels weapons and funding into terrorist groups from Iraq to Afghanistan, from Lebanon to Gaza. Iranian centrifuges enrich uranium at nuclear plants often hidden from weapons inspectors. And terrorist groups make voyages to Iran to receive training at unspecified locations. This is the regime we are talking about, and this week the true colors of that regime are on broad display. We must rally the world around the cause of the Iranian people. I urge the administration, I urge President Obama to follow the lead of this House, to speak out on behalf of the Iranian people and their quest for freedom and human rights.

Mr. BERMAN. Mr. Speaker, I yield myself 30 seconds.

The gentleman for whom I have great respect, the minority whip, spoke about America's moral commitment to speak out on behalf of people yearning for freedom. We have an even higher moral commitment, and that is to do the things that help expand the extent of human freedom around the world. And it is in that context that I know that this House and this administration are pursuing this mission, that higher authority to do the things that produce the greatest likelihood of the expansion of human freedom.

I now yield 2 minutes to a member of the committee, a great Member from the State of Georgia (Mr. SCOTT).

□ 1045

Mr. SCOTT of Georgia. Thank you very much, Chairman BERMAN, and to Mr. PENCE, for this very timely resolution.

This is a time of great thought and deliberation and concern of what the United States must do and say. Our words have got to be carefully calculated to make sure that they are seen as not meddling, as not trying to tell the Iranian people what to do, because, quite honestly, Mr. Speaker, the Iranian people have already spoken. They have decided, and I believe that is our responsibility, if we hold true to the principles of our Founding Fathers.

As I was coming over on the floor, I was thinking what I could say, and the words of one of our great founders and patriots beams very deep in my heart as I think and I watch the news reports of what is happening in the streets of Tehran, when that great patriot said, Give me liberty or give me death. That is why the United States of America cannot be silent. It is our foundation.

I was reminded of the words of Thomas Jefferson when he wrote that, All men are created equal, and are endowed by their creator with certain inalienable rights, and among those life, liberty, and the pursuit of happiness.

That is what we stand for. So it is important that we put this resolution forward, and it is important that the world understand that America is indeed that shining light of liberty and of freedom that Patrick Henry and Thomas Jefferson spoke so eloquently about.

We are proud to support the Iranian people, and we condemn the violence.

Ms. ROS-LEHTINEN. Mr. Speaker, I am so pleased to yield 2 minutes to my good friend from California, Mr. ROHRABACHER, the ranking member on the Subcommittee on International Organizations, Human Rights and Oversight on our Committee on Foreign Affairs.

Mr. ROHRABACHER. Today, I rise in strong support of this resolution which ratchets up, to a degree, America's willingness to express its heartfelt support for the Iranian people and their struggle against the mullah dictatorship that oppresses them.

Now, it has been said that you cannot champion the oppressed unless you are willing to take on the oppressor. America should not intervene in every struggle taking place, but we should be unapologetically on the side of those who are in desperate battle for their own freedom.

Tempered rhetoric can be interpreted by tyrants as weakness. We need to send a strong message to those tyrants and a strong message to the people who are willing to risk their lives on the streets of Tehran that we are on the side of the people and the side of democracy and freedom. Any other message would be a betrayal of our fundamental principles, the principles of liberty and democracy that so many Americans have sacrificed to give us and to pass on to other generations.

Yes, we should not intervene, but it is up to us to make sure those people struggling throughout the world know we are on their side. We must be bold in our words of support.

I was honored to be one of five speech writers serving Ronald Reagan. He too was told to tone down his rhetoric. He too was told that strong words would be interpreted as belligerence. But with his strong words, he ended the Cold War, without the conflagration that hung over our heads for decades. He made it a better, a more peaceful and a freer world with a strong message and no apologies.

We should follow the lead of Ronald Reagan. It will make this a better world if we side with the people in Tehran who oppose their mullah dictatorship.

Ms. ROS-LEHTINEN. Mr. Speaker, I am so pleased to yield 2 minutes to my legislative brother, the gentleman from Florida (Mr. LINCOLN DIAZ-BALART), a member of the powerful Committee on Rules.

Mr. LINCOLN DIAZ-BALART of Florida. The Ayatollah Ali Khamenei, the so-called ''supreme leader,'' is the ruthless dictator of Iran. Ahmadinejad is his puppet. In this farcical election, Khamenei overstepped blatantly. The others in the dictatorship who aspired to the puppet presidency are upset.

The Iranian people are utilizing this moment of division in the dictatorship to heroically express their opposition to the dictatorship. The issue is not one of who is entitled to be the puppet president in the Iranian dictatorship. The issue is the Iranian people are entitled to an end of the dictatorship and to live in self-determination and freedom and democracy.

The President of the United States has been silent and confused. The Congress of the United States clearly stands with the Iranian people, and they will prevail.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 2 minutes to my friend from Florida, a member of the House Foreign Affairs Committee, Mr. KLEIN.

Mr. KLEIN of Florida. Mr. Speaker, I rise to support H. Res. 560 and would like to thank our chairman Mr. BERMAN and my colleague Mr. PENCE for bringing this bipartisan statement forward which supports our American view of the events in Iran.

The Iranian people deserve a democracy that counts every vote and treats its citizens with the utmost dignity. They deserve to trust their own government. However, these are not free

and fair elections by any stretch of the imagination, and it is our imperative to speak out whenever and wherever freedom is suppressed, whether by our allies or by our foes.

Frankly, we have honest differences with the Iranian government, no matter who is elected. Any Iranian government that seeks a nuclear weapon and spreads state-sponsored terrorism is a threat to the United States and our allies. That is why the United States has not taken either side in this conflict. It is for the Iranians to choose who leads them. Indeed, this struggle belongs to them.

However, the message we send today is the world is watching. I urge my colleagues to support this resolution.

Ms. ROS-LEHTINEN. Mr. Speaker, I am pleased to yield 1 minute to the gentleman from California (Mr. CAMPBELL), a member of the Budget and the Financial Services Committees.

Mr. CAMPBELL. I thank the gentlelady from Florida.

This country has always stood with those around the world yearning for freedom, a voice and a better future. Whether those people were in Nazi Germany, Communist Eastern Europe, apartheid South Africa, or any other number of places around the world, we have stood with the freedom fighters. It is now time for us to stand with those in Iran who seek freedom from one of the world's most oppressive, most dangerous and most dictatorial regimes.

I hope this resolution is not the end, but is just the beginning of the support that this government, both in Congress and the White House, gives to those people.

Mr. BERMAN. Mr. Speaker, could I get an assessment or calculation of the remaining time on both sides?

The SPEAKER pro tempore. I can give you that with precision. The gentleman has 9½ minutes remaining; the gentlewoman has 4¼ minutes remaining.

Mr. BERMAN. I am very pleased to yield 1 minute to the gentlelady from New York (Mrs. MALONEY).

Mrs. MALONEY. Mr. Speaker, today I stand with my colleagues in this Congress, I stand with President Obama and Vice President BIDEN, in support of the Iranian people, their right to express themselves, their right to have peaceful demonstrations, and I stand in support of this resolution.

I hope that the ayatollahs understand that these demonstrations are about the future of Iran and the right of their people to have a voice in their government. Young and old, liberal or conservative, all ages, all economic groups are part of these demonstrations.

As President Obama has said, the entire world is watching, and the world is inspired. We applaud your efforts to move your country toward a more democratic, peaceful country.

Ms. ROS-LEHTINEN. Mr. Speaker, I reserve my time.

Mr. BERMAN. Mr. Speaker, I am pleased to yield 1 minute to the gentleman from Illinois (Mr. JACKSON).

Mr. JACKSON of Illinois. Mr. Speaker, I rise today in support of the nonviolent movement for social change in Iran. I have always maintained that the Middle East is in need of a nonviolent movement for social change, not only in Iran but also in the Gaza Strip, a nonviolent movement in Syria, a nonviolent movement for social change.

Martin Luther King, Jr. once said, ''Nonviolence is the answer to the crucial political and moral questions of our time; the need for mankind to overcome oppression and violence without resorting to oppression and violence. Mankind must evolve for all human conflict a method which rejects revenge, aggression, and retaliation.''

Today we are not only supporting democracy in Iran, we are also supporting the nonviolent thrust for democracy in Iran, so the conflicts may be settled, Mr. Speaker, without resulting to weapons, to violence and conflict, not only within that country, but among nations.

So, today, Mr. Speaker, we rise today to support the proponents of the nonviolent movement.

Ms. ROS-LEHTINEN. Mr. Speaker, we just have one additional speaker, and I would like to call on the author of the resolution, a great member of our House Foreign Affairs Committee and our conference chair on the Republican side, the gentleman from Indiana (Mr. PENCE) for the remainder of the time.

The SPEAKER pro tempore. The gentleman is recognized for 4¼ minutes.

Mr. PENCE. Mr. Speaker, I thank the gentlelady for yielding, and again reiterate my gratitude for her expeditious work in bringing this important resolution to the floor on a timely basis, and commend again Chairman HOWARD BERMAN for the spirit and thoughtfulness with which he brought this resolution to the floor.

Today, in the wake of a week of extraordinary public demonstrations, violence, and tumult across the nation of Iran, the American people through this Congress will condemn that violence and the suppression of the free and independent press in Iran, and, as the American people have done throughout our history, we will proclaim liberty by supporting all Iranian citizens who embrace the values of freedom, human rights, civil liberties, and the rule of law in this measure.

I urge my colleagues to support this measure and join us, and, if reports are correct, our colleagues in the Senate who may well come together and give voice on the world stage of the character and compassion and commitment to freedom that is at the heart of every American.

Now, some observers say that America should remain silent in the wake of this violence and the suppression of free speech and the intimidation and suppression of a free and independent press in Iran. But let me say from my heart, the American cause is freedom, and in that cause we must never be silent.

The Iranian regime would do well to note the words of President Ronald Reagan from his first inaugural address 20 January, 1981, where he said, No arsenal or no weapon in the arsenals of the world is so formidable as the will and moral courage of free men and women.

Today this Congress, in a true spirit of bipartisanship, will come together on behalf of the moral courage of the men and women of Iran who have tasted freedom and have been willing to risk their liberty and their lives to advance it.

□ 1100

It is my hope and it is my prayer that this word of encouragement from the American people to the Iranian people will be to good effect for that nation and for freedom in the world.

I urge support of this resolution.

Mr. BERMAN. Mr. Speaker, I'm pleased to yield 2 minutes to an excellent member of the House Foreign Affairs Committee, the gentleman from Minnesota (Mr. ELLISON).

Mr. ELLISON. Mr. Speaker, I want to commend the drafters of the resolution. I think it is carefully drafted, and I think it is clear that the universal values of freedom that are expressed in the resolution are done with a great amount of prudence, and I think that's right.

I think it is also important to understand that when the Congress of the United States speaks a lot of people listen, and so it's important to not allow the Congress to be used as a tool in what was essentially an internal fight in Iran. And so I would urge caution and urge the United States Congress to stand up and speak about the universal values that we care about: Democracy, freedom, due process of law, lack of violence in terms of solving political disputes, and not allow ourselves to be used as a weapon against the people who we are, in fact, trying to help, which is the people of Iran.

Ms. ROS-LEHTINEN. I'm proud to yield 30 seconds to the gentleman from California (Mr. ISSA), a member of the Committee on the Judiciary and the ranking member of the Oversight and Government Reform Committee.

Mr. ISSA. I thank the gentlelady.

Mr. Speaker, it is clear today that some would have us be silent as to the aspiration of the people risking life and limb on the streets of Iran today. We cannot and should not be that way. Yes, it's an internal matter, but it's an internal matter in a country which has

been ruled by theocrats for so very long who have denied real free elections, and even when the will of the people was obvious, in fact, want to overturn the will of the people for a President who could be a reformer and give opportunity, particularly to women in this country.

So I urge support for this resolution because it sends the message that we are, in fact, with the people who want freedom.

Mr. BERMAN. Mr. Speaker, should I by yielding 1 minute of my time to the gentleman from South Carolina at this point?

Ms. ROS-LEHTINEN. Yes.

Mr. BERMAN. And then if you yield time, he'll have all his time.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield 30 seconds to the gentleman from South Carolina (Mr. INGLIS), and anytime you would like to.

Mr. BERMAN. Mr. Speaker, I yield 1½ minutes to the gentleman from South Carolina (Mr. INGLIS).

The SPEAKER pro tempore. The gentleman is recognized for 2 minutes.

Mr. INGLIS. I thank the gentlelady and the gentleman for yielding that time, and I saw this morning that the Supreme Leader of Iran said that street challenge is not acceptable. This is challenging democracy after the elections.

Well, we beg to differ and the people of Iran are begging to differ. When you can count paper ballots, millions of them, within a couple of hours, something's funny. And when you declare the results of the election is fine but say there is going to be some investigation, what's the value of the investigation if you've already certified the election?

And so what we're begging to differ with the Supreme Leader of Iran is that it is not challenging democracy after elections. It's saying that the elections were rigged, and rigged elections don't produce outcomes that people can believe in.

Furthermore, what's happening here is we're seeing the real disastrous consequence of having a theocracy, where somebody at the top gets to say—I don't know where he derives his authority—but he gets to say what's what about elections.

We're very thankful, Madam Speaker, to live in a country where that's not the case, where we have elected officials who choose Supreme Court members, who are then confirmed by the Senate and who serve with good behavior. And that is a system that produces confidence among the people, and a free people get to govern themselves.

That's our hope, that's our aspiration for the Iranian people; and we, the people of the United States, should stand boldly with the people in Tehran and elsewhere in Iran who are saying we yearn to breathe free, we want to govern ourselves. This is their moment. We stand in support of them.

Mr. BERMAN. Madam Speaker, I have no further requests for time, and I would just yield myself such time as I may consume to once again thank the minority for working with us, my ranking member, as well as Mr. PENCE, particularly to say that my fondest hope is that on these critical kinds of issues we can establish a bipartisan basis for working together.

And then simply to say that there are many American interests in U.S.-Iranian relationships. This resolution is not about American interests. It's about American values, which I believe are universal values: the values of the rule of law, of participatory democracy, about individual liberty, and about justice. And it is on behalf of those universal values, not American interests, that I urge this body to support this resolution.

GENERAL LEAVE

Mr. BERMAN. I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore (Mrs. TAUSCHER). Is there objection to the request of the gentleman from California?

There was no objection.

Mr. ACKERMAN. Madam Speaker, I want to express my appreciation to the Chairman and to Mr. PENCE for the resolution before us. I think it is critical for the House to address the remarkable events that are taking place in Iran.

We are seeing a nation—an entire nation—rise up. What is happening in Iran is an inspiration to all of us who believe that there is such a thing as universal human rights.

We do not want—and we are not attempting—to choose Iran's rulers. Who rules Iran is a question for the people of Iran. And as we expect all nations to respect our sovereignty, so too must we respect the sovereignty of other nations.

But we are not blind. And we must not be mute.

We have seen gunfire and truncheons deployed against peaceful protesters and marches. We have followed the wave of repression against activists, reporters, and all forms of communication. We know about the crackdown and arrests of Iranians who call for freedom and reform. We have watched mobs of thuggish enforcers terrorizing students and citizens in their dorms and homes.

But we have also watched the unbelievable, quiet courage of millions of Iranians marching, and we have watched their numbers growing every day. We have seen them insist on nonviolence in the face of provocation and assault. And we have heard their impatient but persistent call for justice.

And this nation knows what that call for justice sounds like. The Rev. Martin Luther King, Jr. wrote from the Birmingham jail that "Injustice anywhere is a threat to justice everywhere. We are caught in an inescapable network of mutuality, tied in a single garment of destiny. Whatever affects one directly, affects all indirectly."

Bound up in the revolutionary documents of our founding, and in our Nation's unique role in the struggle for human freedom, is a special responsibility. We have an obligation that the resolution before us answers. We are all witnesses. And we are bound to support the courageous and decent people in Iran who are struggling for their rights and their freedom.

This resolution is measured and careful, but meaningful. And it deserves the strong support of every Member.

Mr. PAUL. Madam Speaker, I rise in reluctant opposition to H. Res 560, which condemns the Iranian government for its recent actions during the unrest in that country. While I never condone violence, much less the violence that governments are only too willing to mete out to their own citizens, I am always very cautious about "condemning" the actions of governments overseas. As an elected member of the United States House of Representatives, I have always questioned our constitutional authority to sit in judgment of the actions of foreign governments of which we are not representatives. I have always hesitated when my colleagues rush to pronounce final judgment on events thousands of miles away about which we know very little. And we know very little beyond limited press reports about what is happening in Iran.

Of course I do not support attempts by foreign governments to suppress the democratic aspirations of their people, but when is the last time we condemned Saudi Arabia or Egypt or the many other countries where unlike in Iran there is no opportunity to exercise any substantial vote on political leadership? It seems our criticism is selective and applied when there are political points to be made. I have admired President Obama's cautious approach to the situation in Iran and I would have preferred that we in the House had acted similarly.

I adhere to the foreign policy of our Founders, who advised that we not interfere in the internal affairs of countries overseas. I believe that is the best policy for the United States, for our national security and for our prosperity. I urge my colleagues to reject this and all similar meddling resolutions.

Madam Speaker, I urge you to support H.R. 560, expressing support for all Iranian citizens who embrace the values of freedom, human rights, civil liberties, and rule of law and for other purposes. The only effective way to achieve lasting peace and prosperity in the region, along with bringing about reforms in Iran's polity, is to assist the Iranian people in their quest to achieve political, social, and religious liberty. Every government can be judged with the way in which it treats its ethnic and religious minorities, and the current Iranian government gets a failing grade for its treatment of its many and diverse minorities. It is not our position as the United States to determine the outcome of the recent Iranian elections, but as a leader in the international community, we have a responsibility to ensure that the people of Iran have the opportunity to have fair and free elections.

Yet with the results of the recent election, there was no chance for Iranian citizens to participate in democracy. On June 12, 2009 Mahmoud Ahmadinejad was ostensibly re-elected to his second term as President, as a

result of the tenth Presidential elections in Iran, held and calculated on June 13, 2009. Subject to official results released by Iran's election headquarters, out of a total of 39,165,191 ballots cast in the presidential election, Ahmadinejad allegedly won 24,527,516 votes, which accounts for approximately 62.6 percent of the votes, while his opponent and former Prime Minister of Iran Mir-Hossein Mousavi purportedly secured only 13,216,411 (37.4 percent) of the votes. Supreme Leader Ali Khamenei announced that he envisions Ahmadinejad as president in the next five years, a comment interpreted as indicating support for Ahmadinejad's reelection.

Just 48 hours after Iranian officials announced incumbent President Mahmoud Ahmadinejad's landslide 62.6% victory, the situation in Tehran and in regions throughout the country broke out in a wave of violent protests in response to what the people of Iran knew to be a rigged poll.

Yet despite the large-scale civil unrest in response to the rigged elections, the outstretched arm of the Ayatollah extends beyond Tehran. Whereas the size of the crowds protesting reached to more than 1 million people united in outrage at the absence of a fair and free electoral process. Despite the government ban that has been placed on all public gatherings with the purpose of voicing opposition to the outcome of the Iranian presidential elections, the people of Iran have publicly expressed their dissent. Iranians throughout the country have defied Interior Ministry warnings broadcast. Violence has spilled on to the streets of Tehran. To date, 7 Iranians have been killed in violent political unrest. Beyond Tehran, Iranians living in the rural regions are feeling the Ayatollah's pressures to cease all public expression of their discontent with the outcome of the elections. The Iranian people living in the region of Mashad are currently confined to their homes in order to prevent them protesting in the streets. All foreign journalists have now been quarantined and/or made to leave the country.

Following the results of the June l2th Iranian election, President Obama released a statement in reaction to then elections in Iran, stating ''I am deeply troubled by the violence that I've been seeing on television,'' Obama said in Washington. ''I can't state definitively one way or another what happened with respect to the election. But what I can say is that there appears to be a sense on the part of people who were so hopeful and so engaged and so committed to democracy who now feel betrayed.''

Given the absence of fair and free elections, coupled with the government's poor record for transparency and accountability, we have deep cause for concern about the opportunity for free choices and democratic participation for the people of Iran. Despite intensified inspections since 2002, the International Atomic Energy Agency's (IAEA) inability, to verify that Iran's nuclear program is not designed to develop a nuclear weapon is cause for great concern. While Iran states that the intention of its nuclear program is for electricity generation which it feels is vital to its energy security, U.S. officials challenge this justification by stating that ''Iran's vast gas resources make a nuclear energy program unnecessary.''

Establishing a diplomatic dialogue with the Government of Iran and deepening relationships with the Iranian people will only help foster greater understanding between the people of Iran and the people of the United States and would enhance the stability the security of the Persian Gulf region. Furthering President Obama's approach toward continued engagement will reduce the increased threat of the proliferation or use of nuclear weapons in the region, while advancing other U.S. foreign policy objectives in the region. The significance of establishing and sustaining diplomatic relations with Iran cannot be over-emphasized. Avoidance and military intervention cannot be the means through which we resolve this looming crisis.

In conclusion, we must condemn Iran for the absence of fair and free Presidential elections and urge Iran to provide its people with the opportunity to engage in a Democratic election process, by demanding new elections, and ensure that all votes are fairly counted. I look forward to further meaningful discussion and a new foreign policy strategy with regard to Iran when the people of Iran are able to participate in a fair and democratic electoral process.

Ms. FOXX. Madam Speaker, this week the world heard the cry of millions of Iranians who seek the right to a free and fair election. In response, Americans from all walks of life have taken up the cause of liberty for Iranians who crave real freedom and not sham elections.

''I am proud to join the United States Congress to stand with freedom-loving people everywhere in support of the people of Iran and to call for an end to the brutal and violent suppression of peaceful protesters. We will not stand by in silence and watch the forces of radicalism attempt to squelch the public outcry in Iran against last week's election irregularities.

''The Middle East is ready for another real democracy, a nation where the voices of every citizen are heard and where the government works for the people and not against the people. Over the past few years the bellicose regime in Tehran has spewed an endless line of anti-Western vitriol and insists on threatening the existence of the state of Israel—one of the few beacons of real freedom in the Middle East. It is now obvious that the average Iranian has grown weary with their authoritarian leadership.

''The ongoing crackdown on free expression and the rights of journalists along with the censoring of communication with the outside world has simply shown the true colors of the dark Iranian regime desperately trying to hold its grip on power. The people of Iran deserve better. They deserve freedom. And today the House of Representatives has given voice to their historic plea in the hallowed halls of Congress.''

Mr. BERMAN. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. BERMAN) that the House suspend the rules and agree to the resolution, H. Res. 560.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BERMAN. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on questions previously postponed.

Votes will be taken in the following order:

Ordering the previous question on H. Res. 559, by the yeas and nays;

Adopting H. Res. 559, if ordered;

Suspending the rules and adopting H. Res. 560, by the yeas and nays.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

PROVIDING FOR CONSIDERATION OF H.R. 2918, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

The SPEAKER pro tempore. The unfinished business is the vote on ordering the previous question on House Resolution 559, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The vote was taken by electronic device, and there were—yeas 230, nays 177, not voting 26, as follows:

Messrs. BOOZMAN, EHLERS and CARTER changed their vote from ''yea'' to ''nay.''

Ms. WATERS changed her vote from ''nay'' to ''yea.''

So the previous question was ordered.

The result of the vote was announced as above recorded.

Stated against:

Mr. HELLER. Mr. Speaker, on rollcall No. 409, the previous question on the Rule for the Legislative Branch Appropriations Act for fiscal year 2010, I was unavoidably detained. Had I been present, I would have voted ''nay.''

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Ms. FOXX. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 226, nays 179, not voting 28, as follows:

□ 1146

So (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. CROWLEY. Madam Speaker, on June 19, 2009, I was absent for one rollcall vote. If I had been here, I would like the RECORD to reflect that I would have voted: ''yea'' on rollcall vote 411.

PRIVILEGED REPORT ON RESOLUTION OF INQUIRY TO SECRETARY OF DEFENSE REGARDING SHIPBUILDING

Mr. SNYDER, from the Committee on Armed Services, submitted a privileged report (Rept. No. 111–167) to accompany the resolution (H. Res. 477) directing the Secretary of Defense to transmit to the House of Representatives the fiscal year 2010 30-year shipbuilding plan relating to the long-term shipbuilding strategy of the Department of Defense, as required by section 231 of title 10, United States Code, which was referred to the House Calendar and ordered to be printed.

PRIVILEGED REPORT ON RESOLUTION OF INQUIRY TO SECRETARY OF DEFENSE REGARDING AVIATION

Mr. SNYDER, from the Committee on Armed Services, submitted a privileged report (Rept. No. 111–168) to accompany the resolution (H. Res. 478), directing the Secretary of Defense to transmit to the House of Representatives the fiscal year 2010 30-year aviation plan relating to the long-term

aviation plans of the Department of Defense, as required by section 231a of title 10, United States Code, which was referred to the House Calendar and ordered to be printed.

LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

Ms. WASSERMAN SCHULTZ. Madam Speaker, pursuant to House Resolution 559, I call up the bill (H.R. 2918), making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Ms. BALDWIN). Pursuant to House Resolution 559, the bill is considered read.

The text of the bill is as follows:

H.R. 2918

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes, namely:

TITLE I—LEGISLATIVE BRANCH

HOUSE OF REPRESENTATIVES

SALARIES AND EXPENSES

For salaries and expenses of the House of Representatives, $1,375,300,000, as follows:

HOUSE LEADERSHIP OFFICES

For salaries and expenses, as authorized by law, $25,881,000, including: Office of the Speaker, $5,077,000, including $25,000 for official expenses of the Speaker; Office of the Majority Floor Leader, $2,530,000, including $10,000 for official expenses of the Majority Leader; Office of the Minority Floor Leader, $4,565,000, including $10,000 for official expenses of the Minority Leader; Office of the Majority Whip, including the Chief Deputy Majority Whip, $2,194,000, including $5,000 for official expenses of the Majority Whip; Office of the Minority Whip, including the Chief Deputy Minority Whip, $1,690,000, including $5,000 for official expenses of the Minority Whip; Speaker's Office for Legislative Floor Activities, $517,000; Republican Steering Committee, $981,000; Republican Conference, $1,748,000; Republican Policy Committee, $362,000; Democratic Steering and Policy Committee, $1,366,000; Democratic Caucus, $1,725,000; nine minority employees, $1,552,000; training and program development—majority, $290,000; training and program development—minority, $290,000; Cloakroom Personnel—majority, $497,000; and Cloakroom Personnel—minority, $497,000.

MEMBERS' REPRESENTATIONAL ALLOWANCES

INCLUDING MEMBERS' CLERK HIRE, OFFICIAL EXPENSES OF MEMBERS, AND OFFICIAL MAIL

For Members' representational allowances, including Members' clerk hire, official expenses, and official mail, $660,000,000.

COMMITTEE EMPLOYEES

STANDING COMMITTEES, SPECIAL AND SELECT

For salaries and expenses of standing committees, special and select, authorized by House resolutions, $139,878,000: *Provided*, That such amount shall remain available for such salaries and expenses until December 31, 2010, except that $1,000,000 of such amount shall remain available until expended for committee room upgrading.

COMMITTEE ON APPROPRIATIONS

For salaries and expenses of the Committee on Appropriations, $31,300,000, including studies and examinations of executive agencies and temporary personal services for such committee, to be expended in accordance with section 202(b) of the Legislative Reorganization Act of 1946 and to be available for reimbursement to agencies for services performed: *Provided*, That such amount shall remain available for such salaries and expenses until December 31, 2010.

SALARIES, OFFICERS AND EMPLOYEES

For compensation and expenses of officers and employees, as authorized by law, $200,301,000, including: for salaries and expenses of the Office of the Clerk, including not more than $23,000, of which not more than $20,000 is for the Family Room, for official representation and reception expenses, $32,089,000 of which $4,600,000 shall remain available until expended; for salaries and expenses of the Office of the Sergeant at Arms, including the position of Superintendent of Garages, and including not more than $3,000 for official representation and reception expenses, $9,509,000; for salaries and expenses of the Office of the Chief Administrative Officer including not more than $3,000 for official representation and reception expenses, $130,782,000, of which $3,937,000 shall remain available until expended; for salaries and expenses of the Office of the Inspector General, $5,045,000; for salaries and expenses of the Office of Emergency Planning, Preparedness and Operations, $4,445,000, to remain available until expended; for salaries and expenses of the Office of General Counsel, $1,415,000; for the Office of the Chaplain, $179,000; for salaries and expenses of the Office of the Parliamentarian, including the Parliamentarian, $2,000 for preparing the Digest of Rules, and not more than $1,000 for official representation and reception expenses, $2,060,000; for salaries and expenses of the Office of the Law Revision Counsel of the House, $3,258,000; for salaries and expenses of the Office of the Legislative Counsel of the House, $8,814,000; for salaries and expenses of the Office of Interparliamentary Affairs, $859,000; for other authorized employees, $1,249,000; and for salaries and expenses of the Office of the Historian, including the cost of the House Fellows Program (including lodging and related expenses for visiting Program participants), $597,000.

ALLOWANCES AND EXPENSES

For allowances and expenses as authorized by House resolution or law, $317,940,000, including: supplies, materials, administrative costs and Federal tort claims, $3,948,000; official mail for committees, leadership offices, and administrative offices of the House, $201,000; Government contributions for health, retirement, Social Security, and other applicable employee benefits, $278,378,000, including employee tuition assistance benefit payments, $3,500,000, if authorized, and employee child care benefit payments, $1,000,000, if authorized; Business Continuity and Disaster Recovery, $27,698,000, of which $9,000,000 shall remain available until expended; transition activities for new members and staff, $2,907,000; Wounded Warrior Program, $2,500,000, to be derived from funding provided for this purpose in Division G of Public Law 111–8; Office of Congressional Ethics, $1,548,000; Energy Demonstration Projects, $2,500,000, if authorized, to remain available until expended; and miscellaneous items including purchase, exchange, maintenance, repair and operation of House motor vehicles, interparliamentary receptions, and gratuities to heirs of deceased employees of the House, $760,000.

CHILD CARE CENTER

For salaries and expenses of the House of Representatives Child Care Center, such amounts as are deposited in the account established by section 312(d)(1) of the Legislative Branch Appropriations Act, 1992 (2 U.S.C. 2062), subject to the level specified in the budget of the Center, as submitted to the Committee on Appropriations of the House of Representatives.

ADMINISTRATIVE PROVISIONS

SEC. 101. (a) REQUIRING AMOUNTS REMAINING IN MEMBERS' REPRESENTATIONAL ALLOWANCES TO BE USED FOR DEFICIT REDUCTION OR TO REDUCE THE FEDERAL DEBT.—Notwithstanding any other provision of law, any amounts appropriated under this Act for ''HOUSE OF REPRESENTATIVES—SALARIES AND EXPENSES—MEMBERS' REPRESENTATIONAL ALLOWANCES'' shall be available only for fiscal year 2010. Any amount remaining after all payments are made under such allowances for fiscal year 2010 shall be deposited in the Treasury and used for deficit reduction (or, if there is no Federal budget deficit after all such payments have been made, for reducing the Federal debt, in such manner as the Secretary of the Treasury considers appropriate).

(b) REGULATIONS.—The Committee on House Administration of the House of Representatives shall have authority to prescribe regulations to carry out this section.

(c) DEFINITION.—As used in this section, the term ''Member of the House of Representatives'' means a Representative in, or a Delegate or Resident Commissioner to, the Congress.

SEC. 102. Effective with respect to fiscal year 2010 and each succeeding fiscal year, the aggregate amount otherwise authorized to be appropriated for a fiscal year for the lumpsum allowance for each of the following offices is increased as follows:

(1) The allowance for the office of the Majority Whip is increased by $96,000.

(2) The allowance for the office of the Minority Whip is increased by $96,000.

JOINT ITEMS

For Joint Committees, as follows:

JOINT ECONOMIC COMMITTEE

For salaries and expenses of the Joint Economic Committee, $4,814,000, to be disbursed by the Secretary of the Senate.

JOINT COMMITTEE ON TAXATION

For salaries and expenses of the Joint Committee on Taxation, $11,451,000, to be disbursed by the Chief Administrative Officer of the House of Representatives.

For other joint items, as follows:

OFFICE OF THE ATTENDING PHYSICIAN

For medical supplies, equipment, and contingent expenses of the emergency rooms, and for the Attending Physician and his assistants, including: (1) an allowance of $2,175 per month to the Attending Physician; (2) an allowance of $1,300 per month to the Senior Medical Officer; (3) an allowance of $725 per month each to three medical officers while on duty in the Office of the Attending Physician; (4) an allowance of $725 per month to two assistants and $580 per month each not to exceed 11 assistants on the basis heretofore provided for such assistants; and (5) $2,366,000 for reimbursement to the Department of the Navy for expenses incurred for staff and equipment assigned to the Office of

the Attending Physician, which shall be advanced and credited to the applicable appropriation or appropriations from which such salaries, allowances, and other expenses are payable and shall be available for all the purposes thereof, $3,805,000, to be disbursed by the Chief Administrative Officer of the House of Representatives.

OFFICE OF CONGRESSIONAL ACCESSIBILITY SERVICES

SALARIES AND EXPENSES

For salaries and expenses of the Office of Congressional Accessibility Services, $1,314,000, to be disbursed by the Secretary of the Senate.

STATEMENTS OF APPROPRIATIONS

For the preparation, under the direction of the Committees on Appropriations of the Senate and the House of Representatives, of the statements for the first session of the 111th Congress, showing appropriations made, indefinite appropriations, and contracts authorized, together with a chronological history of the regular appropriations bills as required by law, $30,000, to be paid to the persons designated by the chairmen of such committees to supervise the work.

CAPITOL POLICE

SALARIES

For salaries of employees of the Capitol Police, including overtime, hazardous duty pay differential, and Government contributions for health, retirement, social security, professional liability insurance, and other applicable employee benefits, $263,198,000, to be disbursed by the Chief of the Capitol Police or his designee.

GENERAL EXPENSES

For necessary expenses of the Capitol Police, including motor vehicles, communications and other equipment, security equipment and installation, uniforms, weapons, supplies, materials, training, medical services, forensic services, stenographic services, personal and professional services, the employee assistance program, the awards program, postage, communication services, travel advances, relocation of instructor and liaison personnel for the Federal Law Enforcement Training Center, and not more than $5,000 to be expended on the certification of the Chief of the Capitol Police in connection with official representation and reception expenses, $61,914,000, to be disbursed by the Chief of the Capitol Police or his designee: *Provided*, That, notwithstanding any other provision of law, the cost of basic training for the Capitol Police at the Federal Law Enforcement Training Center for fiscal year 2010 shall be paid by the Secretary of Homeland Security from funds available to the Department of Homeland Security.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

SEC. 1001. TRANSFER AUTHORITY.—Amounts appropriated for fiscal year 2010 for the Capitol Police may be transferred between the headings ''SALARIES'' and ''GENERAL EXPENSES'' upon the approval of the Committees on Appropriations of the House of Representatives and the Senate.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

For salaries and expenses of the Office of Compliance, as authorized by section 305 of the Congressional Accountability Act of 1995 (2 U.S.C. 1385), $4,335,000, of which $884,000 shall remain available until September 30, 2011: *Provided*, That the Executive Director of the Office of Compliance may, within the limits of available appropriations, dispose of surplus or obsolete personal property by interagency transfer, donation, or discarding: *Provided further*, That not more than $500 may be expended on the certification of the Executive Director of the Office of Compliance in connection with official representation and reception expenses.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

For salaries and expenses necessary for operation of the Congressional Budget Office, including not more than $6,000 to be expended on the certification of the Director of the Congressional Budget Office in connection with official representation and reception expenses, $45,165,000.

ADMINISTRATIVE PROVISIONS

SEC. 1101.—MODIFICATIONS TO EXECUTIVE EXCHANGE PROGRAM.—(a) EXPANSION OF NUMBER OF PARTICIPANTS.—Section 1201(b) of the Legislative Branch Apropriations Act, 2008 (2 U.S.C. 611 note) is amended by striking ''3'' each place it appears and inserting ''5''.

(b) PERMANENT EXTENSION OF PROGRAM.—Section 1201 of such Act (2 U.S.C. 611 note) is amended—

(1) by striking subsection (d) and redesignating subsection (e) as subsection (d); and

(2) in subsection (d), as so redesignated, by strking ''Subject to subsection (d), this section'' and inserting ''This section''.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect as if included in the enactment of the Legislatve Branch Appropriations Act, 2008.

ARCHITECT OF THE CAPITOL

GENERAL ADMINISTRATION

For salaries for the Architect of the Capitol, and other personal services, at rates of pay provided by law; for surveys and studies in connection with activities under the care of the Architect of the Capitol; for all necessary expenses for the general and administrative support of the operations under the Architect of the Capitol including the Botanic Garden; electrical substations of the Capitol, Senate and House office buildings, and other facilities under the jurisdiction of the Architect of the Capitol; including furnishings and office equipment; including not more than $5,000 for official reception and representation expenses, to be expended as the Architect of the Capitol may approve; for purchase or exchange, maintenance, and operation of a passenger motor vehicle, $109,392,000, of which $8,950,000 shall remain available until September 30, 2014.

HISTORIC BUILDINGS REVITALIZATION TRUST FUND

For a payment to the Historic Buildings Revitalization Trust Fund established under section 1201, $60,000,000, to remain available until expended.

CAPITOL BUILDING

For necessary expenses for the maintenance, care and operation of the Capitol, $32,800,000, of which $6,241,000 shall remain available until September 30, 2014.

CAPITOL GROUNDS

For all necessary expenses for care and improvement of grounds surrounding the Capitol, the Senate and House office buildings, and the Capitol Power Plant, $10,920,000, of which $1,410,000 shall remain available until September 30, 2014.

HOUSE OFFICE BUILDINGS

For all necessary expenses for the maintenance, care and operation of the House office buildings, $100,466,000, of which $53,360,000 shall remain available until September 30, 2014.

CAPITOL POWER PLANT

For all necessary expenses for the maintenance, care and operation of the Capitol Power Plant; lighting, heating, power (including the purchase of electrical energy) and water and sewer services for the Capitol, Senate and House office buildings, Library of Congress buildings, and the grounds about the same, Botanic Garden, Senate garage, and air conditioning refrigeration not supplied from plants in any of such buildings; heating the Government Printing Office and Washington City Post Office, and heating and chilled water for air conditioning for the Supreme Court Building, the Union Station complex, the Thurgood Marshall Federal Judiciary Building and the Folger Shakespeare Library, expenses for which shall be advanced or reimbursed upon request of the Architect of the Capitol and amounts so received shall be deposited into the Treasury to the credit of this appropriation, $125,083,000, of which $31,560,000 shall remain available until September 30, 2014: *Provided*, That not more than $8,000,000 of the funds credited or to be reimbursed to this appropriation as herein provided shall be available for obligation during fiscal year 2010.

LIBRARY BUILDINGS AND GROUNDS

For all necessary expenses for the mechanical and structural maintenance, care and operation of the Library buildings and grounds, $41,937,000, of which $15,750,000 shall remain available until September 30, 2014.

CAPITOL POLICE BUILDINGS, GROUNDS AND SECURITY

For all necessary expenses for the maintenance, care and operation of buildings, grounds and security enhancements of the United States Capitol Police, wherever located, the Alternate Computer Facility, and AOC security operations, $26,364,000, of which $7,750,000 shall remain available until September 30, 2014.

BOTANIC GARDEN

For all necessary expenses for the maintenance, care and operation of the Botanic Garden and the nurseries, buildings, grounds, and collections; and purchase and exchange, maintenance, repair, and operation of a passenger motor vehicle; all under the direction of the Joint Committee on the Library, $11,263,000, of which $900,000 shall remain available until September 30, 2014: *Provided*, That of the amount made available under this heading, the Architect may obligate and expend such sums as may be necessary for the maintenance, care and operation of the National Garden established under section 307E of the Legislative Branch Appropriations Act, 1989 (2 U.S.C. 2146), upon vouchers approved by the Architect or a duly authorized designee.

CAPITOL VISITOR CENTER

For necessary expenses for Capitol Visitor Center operations costs, $23,166,000.

ADMINISTRATIVE PROVISIONS

SEC. 1201. HISTORIC BUILDINGS REVITALIZATION TRUST FUND.—(a) ESTABLISHMENT.—There is hereby established in the Treasury of the United States, as an account for the Architect of the Capitol, the Historic Buildings Revitalization Trust Fund (hereafter in this section referred to as the ''Fund'').

(b) USE OF AMOUNTS.—Amounts in the Fund shall be used by the Architect of the Capitol for the revitalization of the major historical buildings and assets which the Architect is responsible for maintaining and

preserving, except that the Architect may not obligate any amounts in the Fund without the approval of the Committees on Appropriations of the House of Representatives and Senate.

(c) EFFECTIVE DATE.—This section shall apply with respect to fiscal year 2010 and each succeeding fiscal year.

SEC. 1202.—Any individual who is appointed as the Architect of the Capitol after the date of the enactment of this Act shall be appointed in accordance with the applicable laws in effect at the time of appointment, taking into account any amendments which may be made to such applicable laws during the One Hundred Eleventh Congress.

SEC. 1203. SUPPORT AND MAINTENANCE DURING EMERGENCIES.—(a) During an emergency involving the safety of human life or the protection of property, as determined or declared by the Capitol Police Board, the Architect of the Capitol—

(1) may accept contributions of comfort and other incidental items and services to support employees of the Office of the Architect of the Capitol while such employees are on duty in response to the emergency; and

(2) may incur obligations and make expenditures out of available appropriations for meals, refreshments, and other support and maintenance for the Office of the Architect of the Capitol if, in the judgment of the Architect, such obligations and expenditures are necessary to respond to the emergency.

(b) This section shall apply with respect to fiscal year 2010 and each succeeding fiscal year.

SEC. 1204. FLEXIBLE AND COMPRESSED WORK SCHEDULES.—(a) Section 6121(1) of title 5, United States Code is amended by inserting after ''military department,'' the following: ''the Architect of the Capitol,''.

(b) Section 6133(c) of such title is amended by adding at the end the following new paragraph:

''(3) With respect to employees of the Architect of the Capitol (including employees of the Botanic Garden), the authority granted to the Office of Personnel Management under this subchapter shall be exercised by the Architect of the Capitol.''

(c) The amendments made by this section shall apply with respect to pay periods beginning or after the later of October 1, 2009, or the date of the enactment of this Act.

SEC. 1205. ACCEPTANCE OF VOLUNTARY STUDENT SERVICES.—Section 3111 of title 5, United States Code, is amended by adding the following new subsection:

''(e) In this section, the term 'agency' includes the Architect of the Capitol, except that in the case of the Architect of the Capitol, the authority granted to the Office of Personnel Management under this section shall be exercised by the Architect of the Capitol.''.

(b) The amendment made by subsection (a) shall apply with respect to fiscal year 2010 and each such succeeding fiscal year.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

For necessary expenses of the Library of Congress not otherwise provided for, including development and maintenance of the Library's catalogs; custody and custodial care of the Library buildings; special clothing; cleaning, laundering and repair of uniforms; preservation of motion pictures in the custody of the Library; operation and maintenance of the American Folklife Center in the Library; activities under the Civil Rights History Project Act of 2009; preparation and distribution of catalog records and other publications of the Library; hire or purchase of one passenger motor vehicle; and expenses of the Library of Congress Trust Fund Board not properly chargeable to the income of any trust fund held by the Board, $450,211,000, of which not more than $6,000,000 shall be derived from collections credited to this appropriation during fiscal year 2010, and shall remain available until expended, under the Act of June 28, 1902 (chapter 1301; 32 Stat. 480; 2 U.S.C. 150) and not more than $350,000 shall be derived from collections during fiscal year 2010 and shall remain available until expended for the development and maintenance of an international legal information database and activities related thereto: *Provided*, That the Library of Congress may not obligate or expend any funds derived from collections under the Act of June 28, 1902, in excess of the amount authorized for obligation or expenditure in appropriations Acts: *Provided further*, That the total amount available for obligation shall be reduced by the amount by which collections are less than $6,350,000: *Provided further*, That of the total amount appropriated, not more than $12,000 may be expended, on the certification of the Librarian of Congress, in connection with official representation and reception expenses for the Overseas Field Offices: *Provided further*, That of the total amount appropriated, $7,315,000 shall remain available until expended for the digital collections and educational curricula program: *Provided further*, That of the total amount appropriated, $750,000 shall be transferred to the Abraham Lincoln Bicentennial Commission for carrying out the purposes of Public Law 106–173, of which $10,000 may be used for official representation and reception expenses of the Abraham Lincoln Bicentennial Commission.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

For necessary expenses of the Copyright Office, $55,476,000, of which not more than $28,751,000, to remain available until expended, shall be derived from collections credited to this appropriation during fiscal year 2010 under section 708(d) of title 17, United States Code: *Provided*, That the Copyright Office may not obligate or expend any funds derived from collections under such section, in excess of the amount authorized for obligation or expenditure in appropriations Acts: *Provided further*, That not more than $5,861,000 shall be derived from collections during fiscal year 2010 under sections 111(d)(2), 119(b)(2), 803(e), 1005, and 1316 of such title: *Provided further*, That the total amount available for obligation shall be reduced by the amount by which collections are less than $34,612,000: *Provided further*, That not more than $100,000 of the amount appropriated is available for the maintenance of an ''International Copyright Institute'' in the Copyright Office of the Library of Congress for the purpose of training nationals of developing countries in intellectual property laws and policies: *Provided further*, That not more than $4,250 may be expended, on the certification of the Librarian of Congress, in connection with official representation and reception expenses for activities of the International Copyright Institute and for copyright delegations, visitors, and seminars: *Provided further*, That notwithstanding any provision of chapter 8 of title 17, United States Code, any amounts made available under this heading which are attributable to royalty fees and payments received by the Copyright Office pursuant to sections 111, 119, and chapter 10 of such title may be used for the costs incurred in the administration of the Copyright Royalty Judges program, with the exception of the costs of salaries and benefits for the Copyright Royalty Judges and staff under section 802(e).

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

For necessary expenses to carry out the provisions of section 203 of the Legislative Reorganization Act of 1946 (2 U.S.C. 166) and to revise and extend the Annotated Constitution of the United States of America, $112,490,000: *Provided*, That no part of such amount may be used to pay any salary or expense in connection with any publication, or preparation of material therefor (except the Digest of Public General Bills), to be issued by the Library of Congress unless such publication has obtained prior approval of either the Committee on House Administration of the House of Representatives or the Committee on Rules and Administration of the Senate.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

For salaries and expenses to carry out the Act of March 3, 1931 (chapter 400; 46 Stat. 1487; 2 U.S.C. 135a), $70,182,000, of which $30,577,000 shall remain available until expended: *Provided*, That of the total amount appropriated $650,000 shall be available to contract to provide newspapers to blind and physically handicapped residents at no cost to the individual.

ADMINISTRATIVE PROVISIONS

SEC. 1301. INCENTIVE AWARDS PROGRAM.—Of the amounts appropriated to the Library of Congress in this Act, not more than $5,000 may be expended, on the certification of the Librarian of Congress, in connection with official representation and reception expenses for the incentive awards program.

SEC. 1302. REIMBURSABLE AND REVOLVING FUND ACTIVITIES.—

(a) IN GENERAL.—For fiscal year 2010, the obligational authority of the Library of Congress for the activities described in subsection (b) may not exceed $123,328,000.

(b) ACTIVITIES.—The activities referred to in subsection (a) are reimbursable and revolving fund activities that are funded from sources other than appropriations to the Library in appropriations Acts for the legislative branch.

(c) TRANSFER OF FUNDS.—During fiscal year 2010, the Librarian of Congress may temporarily transfer funds appropriated in this Act, under the heading ''LIBRARY OF CONGRESS'', under the subheading ''SALARIES AND EXPENSES'', to the revolving fund for the FEDLINK Program and the Federal Research Program established under section 103 of the Library of Congress Fiscal Operations Improvement Act of 2000 (Public Law 106–481; 2 U.S.C. 182c): *Provided*, That the total amount of such transfers may not exceed $1,900,000: *Provided further*, That the appropriate revolving fund account shall reimburse the Library for any amounts transferred to it before the period of availability of the Library appropriation expires.

SEC. 1303. TRANSFER AUTHORITY.—

(a) IN GENERAL.—Amounts appropriated for fiscal year 2010 for the Library of Congress may be transferred during fiscal year 2010 between any of the headings under the heading ''LIBRARY OF CONGRESS'' upon the approval of the Committees on Appropriations of the Senate and the House of Representatives.

(b) LIMITATION.—Not more than 10 percent of the total amount of funds appropriated to the account under any heading under the

heading ''LIBRARY OF CONGRESS'' for fiscal year 2010 may be transferred from that account by all transfers made under subsection (a).

SEC. 1304. CLASSIFICATION OF LIBRARY OF CONGRESS POSITIONS ABOVE GS–15.—Section 5108 of title 5, United States Code, is amended by adding at the end the following new subsection:

''(c) The Librarian of Congress may classify positions in the Library of Congress above GS–15 pursuant to standards established by the Office in subsection (a)(2).''.

SEC. 1305. LEAVE CARRYOVER FOR CERTAIN LIBRARY OF CONGRESS EXECUTIVE POSITIONS.—(a) Section 6304(f)(1) of title 5, United States Code, is amended—

(1) in subparagraph (F), by striking ''or'' at the end;

(2) in subparagraph (G), by striking the period at the end and inserting ''; or''; and

(3) by adding at the end the following new subparagraph:

''(H) a position in the Library of Congress the compensation for which is set at a rate equal to the annual rate of basic pay payable for positions at level III of the Executive Schedule under section 5314.''.

(b) The amendments made by subsection (a) shall apply with respect to annual leave accrued during pay periods beginning after the date of the enactment of this Act.

SEC. 1306. (a) Section 4(a) of the American Folklife Preservation Act (20 U.S.C. 2103(a)) is amended by striking ''an American Folklife Center'' and inserting ''the Archie Green American Folklife Center''.

(b) Any reference to the American Folklife Center in any law, rule, regulation, or document shall be deemed to be a reference to the Archie Green American Folklife Center.

GOVERNMENT PRINTING OFFICE

CONGRESSIONAL PRINTING AND BINDING

(INCLUDING TRANSFER OF FUNDS)

For authorized printing and binding for the Congress and the distribution of Congressional information in any format; printing and binding for the Architect of the Capitol; expenses necessary for preparing the semimonthly and session index to the Congressional Record, as authorized by law (section 902 of title 44, United States Code); printing and binding of Government publications authorized by law to be distributed to Members of Congress; and printing, binding, and distribution of Government publications authorized by law to be distributed without charge to the recipient, $93,296,000: *Provided*, That this appropriation shall not be available for paper copies of the permanent edition of the Congressional Record for individual Representatives, Resident Commissioners or Delegates authorized under section 906 of title 44, United States Code: *Provided further*, That this appropriation shall be available for the payment of obligations incurred under the appropriations for similar purposes for preceding fiscal years: *Provided further*, That notwithstanding the 2-year limitation under section 718 of title 44, United States Code, none of the funds appropriated or made available under this Act or any other Act for printing and binding and related services provided to Congress under chapter 7 of title 44, United States Code, may be expended to print a document, report, or publication after the 27-month period beginning on the date that such document, report, or publication is authorized by Congress to be printed, unless Congress reauthorizes such printing in accordance with section 718 of title 44, United States Code: *Provided further*, That any unobligated or unexpended balances in this account or accounts for similar purposes for preceding fiscal years may be transferred to the Government Printing Office revolving fund for carrying out the purposes of this heading, subject to the approval of the Committees on Appropriations of the House of Representatives and Senate.

OFFICE OF SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

For expenses of the Office of Superintendent of Documents necessary to provide for the cataloging and indexing of Government publications and their distribution to the public, Members of Congress, other Government agencies, and designated depository and international exchange libraries as authorized by law, $40,911,000: *Provided*, That amounts of not more than $2,000,000 from current year appropriations are authorized for producing and disseminating Congressional serial sets and other related publications for fiscal years 2008 and 2009 to depository and other designated libraries: *Provided further*, That any unobligated or unexpended balances in this account or accounts for similar purposes for preceding fiscal years may be transferred to the Government Printing Office revolving fund for carrying out the purposes of this heading, subject to the approval of the Committees on Appropriations of the House of Representatives and Senate.

GOVERNMENT PRINTING OFFICE REVOLVING FUND

For payment to the Government Printing Office Revolving Fund, $12,000,000 for information technology development and facilities repair: *Provided*, That the Government Printing Office is hereby authorized to make such expenditures, within the limits of funds available and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 9104 of title 31, United States Code, as may be necessary in carrying out the programs and purposes set forth in the budget for the current fiscal year for the Government Printing Office revolving fund: *Provided further*, That not more than $7,500 may be expended on the certification of the Public Printer in connection with official representation and reception expenses: *Provided further*, That the revolving fund shall be available for the hire or purchase of not more than 12 passenger motor vehicles: *Provided further*, That expenditures in connection with travel expenses of the advisory councils to the Public Printer shall be deemed necessary to carry out the provisions of title 44, United States Code: *Provided further*, That the revolving fund shall be available for temporary or intermittent services under section 3109(b) of title 5, United States Code, but at rates for individuals not more than the daily equivalent of the annual rate of basic pay for level V of the Executive Schedule under section 5316 of such title: *Provided further*, That activities financed through the revolving fund may provide information in any format: *Provided further*, That the revolving fund and the funds provided under the headings ''Office of Superintendent of Documents'' and ''Salaries and Expenses'' may not be used for contracted security services at GPO's passport facility in the District of Columbia.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

For necessary expenses of the Government Accountability Office, including not more than $12,500 to be expended on the certification of the Comptroller General of the United States in connection with official representation and reception expenses; temporary or intermittent services under section 3109(b) of title 5, United States Code, but at rates for individuals not more than the daily equivalent of the annual rate of basic pay for level IV of the Executive Schedule under section 5315 of such title; hire of one passenger motor vehicle; advance payments in foreign countries in accordance with section 3324 of title 31, United States Code; benefits comparable to those payable under sections 901(5), (6), and (8) of the Foreign Service Act of 1980 (22 U.S.C. 4081(5), (6), and (8)); and under regulations prescribed by the Comptroller General of the United States, rental of living quarters in foreign countries, $558,849,000: *Provided*, That not more than $5,449,000 of payments received under section 782 of title 31, United States Code, shall be available for use in fiscal year 2010: *Provided further*, That not more than $2,350,000 of reimbursements received under section 9105 of title 31, United States Code, shall be available for use in fiscal year 2010: *Provided further*, That not more than $7,423,000 of reimbursements received under section 3521 of title 31, United States Code, shall be available for use in fiscal year 2010: *Provided further*, That this appropriation and appropriations for administrative expenses of any other department or agency which is a member of the National Intergovernmental Audit Forum or a Regional Intergovernmental Audit Forum shall be available to finance an appropriate share of either Forum's costs as determined by the respective Forum, including necessary travel expenses of non-Federal participants: *Provided further*, That payments hereunder to the Forum may be credited as reimbursements to any appropriation from which costs involved are initially financed.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

For a payment to the Open World Leadership Center Trust Fund for financing activities of the Open World Leadership Center under section 313 of the Legislative Branch Appropriations Act, 2001 (2 U.S.C. 1151), $9,000,000.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

For payment to the John C. Stennis Center for Public Service Development Trust Fund established under section 116 of the John C. Stennis Center for Public Service Training and Development Act (2 U.S.C. 1105), $430,000.

TITLE II—GENERAL PROVISIONS

SEC. 201. MAINTENANCE AND CARE OF PRIVATE VEHICLES.—No part of the funds appropriated in this Act shall be used for the maintenance or care of private vehicles, except for emergency assistance and cleaning as may be provided under regulations relating to parking facilities for the House of Representatives issued by the Committee on House Administration and for the Senate issued by the Committee on Rules and Administration.

SEC. 202. FISCAL YEAR LIMITATION.—No part of the funds appropriated in this Act shall remain available for obligation beyond fiscal year 2010 unless expressly so provided in this Act.

SEC. 203. RATES OF COMPENSATION AND DESIGNATION.—Whenever in this Act any office or position not specifically established by the Legislative Pay Act of 1929 (46 Stat. 32 et seq.) is appropriated for or the rate of compensation or designation of any office or position appropriated for is different from that specifically established by such Act, the rate

of compensation and the designation in this Act shall be the permanent law with respect thereto: *Provided*, That the provisions in this Act for the various items of official expenses of Members, officers, and committees of the Senate and House of Representatives, and clerk hire for Senators and Members of the House of Representatives shall be the permanent law with respect thereto.

SEC. 204. CONSULTING SERVICES.—The expenditure of any appropriation under this Act for any consulting service through procurement contract, under section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued under existing law.

SEC. 205. AWARDS AND SETTLEMENTS.—Such sums as may be necessary are appropriated to the account described in subsection (a) of section 415 of the Congressional Accountability Act of 1995 (2 U.S.C. 1415(a)) to pay awards and settlements as authorized under such subsection.

SEC. 206. COSTS OF LBFMC.—Amounts available for administrative expenses of any legislative branch entity which participates in the Legislative Branch Financial Managers Council (LBFMC) established by charter on March 26, 1996, shall be available to finance an appropriate share of LBFMC costs as determined by the LBFMC, except that the total LBFMC costs to be shared among all participating legislative branch entities (in such allocations among the entities as the entities may determine) may not exceed $2,000.

SEC. 207. LANDSCAPE MAINTENANCE.—The Architect of the Capitol, in consultation with the District of Columbia, is authorized to maintain and improve the landscape features, excluding streets, in the irregular shaped grassy areas bounded by Washington Avenue, SW on the northeast, Second Street SW on the west, Square 582 on the south, and the beginning of the I–395 tunnel on the southeast.

SEC. 208. LIMITATION ON TRANSFERS.—None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or transfer authority provided in, this Act or any other appropriation Act.

SEC. 209. GUIDED TOURS OF THE CAPITOL.—

(a) Except as provided in subsection (b), none of the funds made available to the Architect of the Capitol in this Act may be used to eliminate or restrict guided tours of the United States Capitol which are led by employees and interns of offices of Members of Congress and other offices of the House of Representatives and Senate.

(b) At the direction of the Capitol Police Board, or at the direction of the Architect of the Capitol with the approval of the Capitol Police Board, guided tours of the United States Capitol which are led by employees and interns described in subsection (a) may be suspended temporarily or otherwise subject to restriction for security or related reasons to the same extent as guided tours of the United States Capitol which are led by the Architect of the Capitol.

This division may be cited as the ''Legislative Branch Appropriations Act, 2010''.

The SPEAKER pro tempore. After 1 hour of debate on the bill, it shall be in order to consider the amendment printed in House Report 111–161 if offered by the gentlewoman from New York (Mrs. MCCARTHY) or her designee, which shall be in order without intervention of any point of order or demand for division of the question, shall be considered read, and shall be debatable for 10 minutes, equally divided and controlled by the proponent and an opponent.

The gentlewoman from Florida (Ms. WASSERMAN SCHULTZ) and the gentleman from Alabama (Mr. ADERHOLT) each will control 30 minutes.

The Chair recognizes the gentlewoman from Florida.

GENERAL LEAVE

Ms. WASSERMAN SCHULTZ. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and include tabular and extraneous material on H.R. 2918.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Florida?

There was no objection.

Ms. WASSERMAN SCHULTZ. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker and Members, I am very proud to present the fiscal year 2010 Legislative Branch Appropriations bill to the House.

The jurisdiction of this bill is incredibly important. We, as Members, have responsibility not just for the institution, but for the staff that work for this institution, and to preserve the facilities that help support this institution. We have endeavored to do that responsibly, and I believe we have accomplished that goal.

It has been an incredible privilege and pleasure to work with my colleague, the gentleman from Alabama (Mr. ADERHOLT). We have crafted a bipartisan bill and worked together every step of the way. And I just wanted to acknowledge him at the very outset to thank him for all of his good work and tell him what a pleasure he has been to work with.

Madam Speaker, I also want to thank, on behalf of, if I may, the House of Representatives, all of the staff that work not just for the House of Representatives, but for every legislative branch agency because this bill is designed to support them. This bill is designed to make sure that they can do the work they need to do in order for us to be able to serve our constituents in the most effective way possible. So on behalf of the House of Representatives, if I may, both myself and Mr. ADERHOLT, we owe a tremendous debt to the true public servants that work here every single day on our behalf.

We, as Members of the House of Representatives, get quite a bit of the glory and the attention and the focus, but it is our staff, both the ones that work for us in our own Member offices, but also throughout this Chamber and across every legislative branch agency, that are toiling in the wilderness, so to speak, and are the unsung heroes that make the wheels of the legislative process turn, and we just can't thank them enough.

This is a bill that attempts to fulfill our responsibilities at two different levels. We really focused on two main tasks in the legislative branch bill. First, we have tried to provide the right balance of funding in a prudent way for each existing office, agency, and program so that we can support the day-to-day operations of the Congress.

The bill provides a total of $3.68 billion, which is an increase of $37 million, 6.8 percent above 2009 levels. A majority of those funds go to two of our greatest priorities within the bill: life safety issues, because, quite frankly, if we don't address the backlog of life safety and deferred maintenance that exist in all of our facilities, at some point we are not going to have the facilities to be able to work in. And the treasures of the facilities that we work in every single day is what our role is in the legislative branch. We must preserve them through the generations as they have been preserved for us to be able to work in today.

In addition, the bill, as is tradition, reserves funds, $1.025 million, for later action by the Senate on their issues to operate the Senate, and that is customary.

We have been able to provide for all mandatory cost increases and a limited number of program enhancements as well. In spite of the fact that we were able to do that, there were a number of things that we were unable to do because our focus during the markup of this bill was to fund the ''gotta haves,'' not the ''nice to haves.'' There are so many ''nice to haves'' that we could fund and that make sense and that would be appropriate, but we wanted to make sure that we crafted a frugal and fiscally responsible piece of legislation, which is why the bill, as written, is $281 million below the amount requested, which is a source of pride for all of the members of the committee.

Let me just summarize a few of the key amounts in the bill, Madam Speaker. The bill includes $1.4 billion for the operations of the House. This is an increase of $75 million, or 5.8 percent, over the 2009 enacted level, but $120 million below the amount requested. We have appropriated $660 million of this amount for the MRA.

Of interest to Members, and as was discussed during the rule, we also include within the budget an allocation for the Clerk of the House of $4.6 million to finally replace the antiquated 33-year-old voting system that we use here electronically in the Chamber so that we no longer have to have it held together by the duck tape that its inner workings are actually held together by.

$325.1 million is provided for the Capitol Police. That is sufficient to maintain their current officer strength. There was a request that we did not fund to increase the number of officers, the number or FTEs that they carry. It was felt that although the Capitol Police is working diligently towards getting their fiscal house in order—and Chief Morse is to be commended for that—they are not quite there yet. And adding to the strength of their force did not make sense, we felt, until they can make sure that they can get a handle on their overtime and get a handle on who is where in the Capitol Police structure.

$647.4 million is included for the Library of Congress. That is a 6.6 percent increase over the fiscal year 2009 enacted level. The amount provided includes $22 million for the Library to fund their high-priority initiatives, which also includes $15 million for technology upgrades.

It also includes the full amount, Members will be interested to know, that was requested for the Copyright Office. There is a tremendous backlog in the Copyright Office, which the committee has added report language to address. We are very concerned about that backlog and are going to be pushing the Copyright Office to get a handle on it, as well as full funding for the Books for the Blind program.

The bill also includes $146.2 million for the Government Printing Office, which is a 4 percent increase.

Finally, the bill includes $558.8 million for the GAO. Obviously, they have some tremendously increased responsibilities. That is a 5.2 percent increase. We need to make sure that GAO has the ability to conduct the accountability responsibilities that they have and that they do such a good job doing.

Beyond the core funding for the day-to-day operations, Madam Speaker, of the Congress, we have largely focused on two long-term priorities as well. We are first taking a more aggressive approach to dealing with the backlog of deferred maintenance needs of our aging Capitol complex. As we have said, and I risk saying this on the House floor, this is not the sexiest of committees of the 12 Appropriations Committees, but it is one that is incredibly important in order for us to be able to preserve the institution and the facilities in the institution that we serve in. The bill includes funding for 23 high-priority projects that are requested by the Architect of the Capitol.

Beyond these immediate needs, however, the bill includes—and this is something that is a great source of pride for the members of the committee, and we want to thank Chairman OBEY for his leadership on this—$60 million to establish a new Historic Buildings Revitalization Trust Fund. We have a number of major facilities projects coming up over the next few years, including the renewable of the Cannon House Office Building, which is 100 years old, as well as the restoration of the Capitol dome, which will cost in the range of $100 million. And that is not a hit that this budget can take on a year-to-year basis, so we are going to begin to bank funds that are in that trust fund and only allow the appropriation for those projects out of that trust fund.

In addition, we have tried to deal, most importantly, I think, with the challenge of retaining the best and brightest that have come to work for us in the House of Representatives. We are so fortunate to have young people who are brilliant and who put aside a lot of other opportunities to devote themselves to public service and come to work for us. But what happens is that, inevitably, because we are often not competitive in the benefits that we provide or the pay that we give them, we end up losing them. We train them, we get them ready, and we end up losing them down the road to other career alternatives.

We are committed to dealing with this retention problem in the Legislative Branch Appropriations bill, and we did several different things in order to be able to do that. We increased funding for the MRA accounts so that we can grow salaries. It is important that we be able to pay, not astronomical sums to our staff, but an appropriate amount of salary so that we can make sure we can hold on to the best and brightest that we are already able to attract.

It includes two additional benefits that are not currently provided that we felt were very important. We have been trying to get a sense from our employees what their needs are, and this bill anticipates two of those needs. We fund $3.5 million for a tuition reimbursement program for all House employees, and $1 million in child care benefits for our lower-income employees because making sure that we can take away the angst of not having quality child care or being able to afford quality child care is an important thing for us to be able to do for our valuable staff.

Again, I want to thank Mr. ADERHOLT, and Mr. LEWIS, the ranking member of the full committee, for your incredible cooperation. It has been an absolute pleasure to work with them. And I also want to thank both of our staffs, who really work so hard every day to make us look good. These bills are not crafted over night, Madam Speaker, and there is painstaking effort and detail that goes into them, and so I want to thank Mike Stephens, the majority clerk, Dave Marroni, Matt Glassman, Liz Dawson, the minority clerk, Jenny Kisiah, Megan Medley, and Ian Rayder on my personal staff, each of whom have put in very long hours in support of this bill.

I urge all Members to support this fiscally responsible bill, which I again will remind you is millions of dollars below the request.

Madam Speaker, I reserve the balance of my time.

□ 1200

Mr. ADERHOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, this is my first appropriation bill to help manage on the floor, and I have very much enjoyed the process and consider it a real privilege to have this honor to do it.

I do want to commend the Chair, Ms. WASSERMAN SCHULTZ, for her professional and her courteous manner in the way that she has conducted the process over the last several months for producing the fiscal year 2010 Legislative Branch Appropriations bill. We have worked closely and very much in the spirit of bipartisanship to meet the funding needs of the legislative branch agencies. In addition, the Chair operated under an open process and was responsive to the concerns and input of all the members of this committee.

Madam Speaker, I will say it is unfortunate that the bipartisan approach taken by our committee stopped at the doors of the Rules Committee. I understand that the rule accompanying this bill, the Legislative Branch Appropriation bill, has historically been a structured rule. Traditionally, while not all amendments filed with the Rules Committee have been made in order, a much more balanced approach has been taken than what we are seeing today. Twenty amendments were filed with the Rules Committee and only one was made in order. While I may not have personally supported some of the amendments, I do feel strongly that Members should be permitted to debate the issues of concern to them. Members have once again been denied the right to offer amendments to an appropriation bill, a trend that's happening more often than not.

That being said, the Legislative Branch Appropriations Subcommittee, did its work and we addressed the many competing priorities and individual agency challenges.

The committee has reduced the fiscal year 2010 requested increase of 15 percent down to 6.8 percent, a reduction of $282 million. However, it is important to distinguish that nearly one-quarter of this increase, or $60 million, is for the establishment of the Historical Buildings Revitalization Trust Fund. When you take this into account, the agencies will be operating on an average of a 5.2 increase over the last year. This funding allows the committee to continue to focus on critical life safety issues surrounding the Capitol complex and to maintain adequate funding of current staff operations.

Among the highlights of the bill is $1.375 billion for the expenses of the

House of Representatives. This provides an appropriate level of funding for the Members' representational allowances, the ability to address the much-needed new voting system, additional benefits for House employees, and a new House I.D. badge system. For the United States Capitol Police, $325 million will be included. This amount supports the current sworn strength at 1,799 positions and fully funds the implementation costs of the merger with the Library of Congress Police. The Architect of the Capitol, excluding Senate items, is funded at $541 million and supports the top 20 construction projects. All life safety projects, significant investment in energy and saving efforts, and almost $70 million worth of deferred maintenance projects have been funded in this bill.

And we have started a very needed new initiative, the Historic Buildings Revitalization Trust Fund, to begin to address the Capitol complex's deteriorating infrastructure. For the Library of Congress, $647 million is included, and it includes $15 million for the beginning of needed new technology investments. The Government Printing Office is to continue the development of the Federal digital system and is included at $7 million, and in order to meet the congressional demands, additional workforce is provided for the Congressional Budget Office and the Government Accountability Office.

In conclusion, H.R. 2918 is a well-rounded bill and adequately addresses the needs of the legislative branch.

Again, I would like to express my thanks to the Chair for her bipartisanship and how she has conducted this subcommittee over the last several months that we've had the hearings and as we have worked together on this bill. I also do want to thank the majority staff, Mike Stephens, David Marroni, Matt Glassman, and Ian Rayder, for their help with this bill; and, of course, on my side of the aisle, on the minority's side, Liz Dawson, Jennifer Kisiah, and Megan Medley with my office to make sure that this bill goes through as it has successfully over the last several months. So, again, I thank all the people who were involved.

Madam Speaker, I reserve the balance of my time.

Ms. WASSERMAN SCHULTZ. Madam Speaker, at this time I yield 3 minutes to the distinguished gentleman from Illinois.

Mr. JACKSON of Illinois. Madam Speaker, I rise with my friend from Tennessee (Mr. WAMP) to engage in a colloquy with the distinguished chairwoman of the Legislative Branch Appropriations Subcommittee.

Madam Chairwoman, as you know, Mr. WAMP and I worked with you to name the main hall in the Capitol Visitor Center Emancipation Hall. However, we feel the naming of Emancipation Hall needs context and want to work with you, the House Administration Committee, and the Senate Rules Committee to do this.

I yield to Mr. WAMP.

Mr. WAMP. Madam Speaker, ''emancipation'' means free or equal. There's no greater duty bestowed upon the Congress than to advance the principle of freedom. The process of emancipation liberated all Americans from the bondage of slavery, and Emancipation Hall will tell freedom's story to millions of visitors each year.

But there is a missing element in the hall to educate visitors about the process of emancipation that this great hall was named to honor. We would like to design and construct an educational display in the Capitol Visitor Center that recognizes the naming of Emancipation Hall and provides an historical narrative of President Lincoln's emancipation of the slaves.

Madam Chair, can you work with us to make this happen?

Ms. WASSERMAN SCHULTZ. I would not only be happy to work with you, I could not agree with either of you more on this very worthwhile endeavor. You are both to be commended for your effort to recognize that slave labor and their hands constructed the great building that we work in every single day, and subject to the authorization of the House Administration Committee, I look forward to working with you towards this goal.

Mr. JACKSON of Illinois. I thank the chairwoman, and while this may not necessarily be part of a colloquy, I would like the gentlewoman to yield me an additional 30 seconds, if she wouldn't mind.

Ms. WASSERMAN SCHULTZ. I would be happy to yield an additional 30 seconds.

Mr. JACKSON of Illinois. I just wanted to say that on behalf of every Member of this institution, we owe a debt of gratitude to the distinguished chairwoman and the ranking member for their extraordinary efforts in wrapping their arms around the Capital Visitor Center, which, since the inauguration of the President and since its opening, has served as a beaming moment of pride for every Member that brings their constituents through that enormous visitor center.

And while it started out, Madam Speaker, as somewhat of a controversial project, the chairwoman and the ranking member have done an extraordinary job on behalf of this institution and all Members are grateful.

I thank the gentlewoman for yielding.

Mr. WAMP. Will the gentlewoman yield?

Ms. WASSERMAN SCHULTZ. I would be happy to yield.

Mr. WAMP. Just to add a note of thanks to you and the ranking member for extraordinary work protecting the interests of the legislative branch. You have been remarkable in your diligence both in finishing the CVC and properly managing the affairs of the House. And I'd also like to thank Representative JOHN LEWIS of Atlanta for chairing the Slave Labor Task Force and working with us all along the way to try to use both the CVC and Emancipation Hall to properly honor the slave labor that did contribute mightily to this great temple of freedom. Also, Chairman BRADY of House Administration and Ranking Member LUNGREN have met with us and agreed to this in principle. We're just working with the Senate trying to dot the ''I's'' and cross the ''T's'' so that we can join up the authorization and the appropriation at the proper time and before it's too late.

Ms. WASSERMAN SCHULTZ. Thank you very much.

Madam Speaker, I reserve the balance of my time.

Mr. ADERHOLT. Madam Speaker, I yield 2 minutes to the distinguished gentleman, the ranking member of the full committee, from California (Mr. LEWIS).

Mr. LEWIS of California. I appreciate very much my colleague's yielding.

Madam Speaker, I rise to say just a few things about the way these two people are working together. DEBBIE WASSERMAN SCHULTZ and my friend ROBERT ADERHOLT have done a fabulous job on this bill. Not the most expensive bill of the 12 that are around but probably one of the very most important bills, for it decides whether the legislative branch works effectively or does not work effectively. I want the Members and our public to know that these two people have done a fabulous job in putting us on a course that I think makes sense.

I especially want to express my appreciation for concern about the buildings that are the places where we must work and operate the legislative branch. Those are institutions in the place that are in serious difficulty because of lack of repair, et cetera. They are on a course that will make sure that we extend their life and their service to all of our people in an effective way.

Further, the Capitol Visitor Center has been mentioned by several, but let me suggest that it's a fabulous new addition to the Capitol, but there is an institution developing there as well. We do have a way in Washington to create new bureaucracies almost no matter what, and there are those who believe that they're the only ones that know how to show off the CVC and the Capitol to our public. The long history of Members' staffs developing expertise as well and representing us well by taking our constituents through these facilities is a very important part of our process.

I want to congratulate the ranking member, but especially the gentlewoman, for language in the bill that

very specifically tells those who run the CVC that this is a people's institution and the people's elected representatives ought to play the most significant role in the way it is run.

Ms. WASSERMAN SCHULTZ. Madam Speaker, I reserve the balance of my time.

Mr. ADERHOLT. Madam Speaker, I yield 2 minutes to the distinguished gentleman from Ohio (Mr. LATOURETTE), who is a member of the subcommittee.

Mr. LATOURETTE. I thank the gentleman for yielding.

I want to add I'm new to the Appropriations Committee, new to this subcommittee, and I have to tell you it's one of the most pleasant experiences I have had in 15 years in the United States Congress. I would commend the chairwoman for her diligence and oversight and commend the ranking member for being her partner.

This product truly is a bipartisan result, and unlike some of the things that go on around here, the gentlewoman from Florida did, in fact, include the minority in every decision that was made in the crafting of this bill. And I want to highlight just a couple of things that I'm really pleased with.

One is the increase in the Members' representational account, not that Members of Congress will make more money but that so we can attract and retain, and retention really is the key, quality staff folks in our personal offices. I'm also appreciative to the gentlewoman for including some report language dealing with the Congressional Research Service as a result of the oversight hearing. As was mentioned before by Mr. LEWIS and others, the icon fund, the anticipated repairs to the United States Capitol and the Cannon building are going to be astronomical. Rather than sort of waiting for disaster to strike, squirreling money away now so that we can do it in an orderly fashion, I think, is a great idea.

The only concern I have, and I want to thank the gentlewoman for her willingness to work with us during the full committee markup of this bill, is we did have an oversight hearing and folks are aware that at the historic inauguration of President Obama, a crush of people arrived here. Some people in the purple haze or purple zone were stuck in a tunnel and never got the opportunity to see the inauguration. And the report as currently written correctly indicates that some of the problem was with the planning with the police, the Secret Service, and others. However, in that oversight hearing and why I am grateful to the gentlewoman for indicating she'll work with us, the police and the Secret Service indicated that they were turning away hundreds and thousands of people who had received this very fancy invitation. And the invitation, Madam Speaker, says the honor of your presence is requested at the ceremonies for the inauguration of the President on January 20. And people were coming to the barricades and basically saying, I've been invited.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. ADERHOLT. I yield the gentleman 1 additional minute.

Mr. LATOURETTE. I thank you very much, and I won't take a minute.

But thousands of people were coming up to the barricades and basically indicating, Hey, look, I've been invited by Senator FEINSTEIN, Senator REID, Senator BENNETT, Speaker PELOSI, Majority Leader HOYER, and Minority Leader BOEHNER to attend the inauguration; so what do you mean I can't get in? And, of course, these aren't invitations.

So I appreciate the gentlewoman's willingness to also look at the Joint Committee on Inaugural Ceremonies and perhaps we all can do better and have a more peaceful inauguration in 2013.

□ 1215

Ms. WASSERMAN SCHULTZ. Madam Speaker, at this time I yield 3 minutes to my colleague and friend, the gentleman from Florida (Mr. HASTINGS).

Mr. HASTINGS of Florida. I thank my good friend from Florida.

In my capacity as the cochairman of the Commission on Security and Cooperation in Europe, I would like to engage in a colloquy with the gentlewoman from Florida regarding a chronic problem faced by the commission, and that is, access to appropriate space for public hearings, briefings and other events.

Ms. WASSERMAN SCHULTZ. Will the gentleman yield?

Mr. HASTINGS of Florida. I yield to the gentlewoman from Florida.

Ms. WASSERMAN SCHULTZ. I'm very familiar with the outstanding human rights work undertaken by the gentleman from Florida (Mr. HASTINGS) and his colleagues on the commission. Last year I had the opportunity to participate in a commission hearing on combating sexual exploitation of children and strengthening international law enforcement cooperation. The commission is providing important leadership on this and many other issues at home and abroad, including among parliamentarians, through engagement by Mr. HASTINGS, a past president of the OSCE Parliamentary Assembly, and Senator CARDIN, a vice president of the assembly and current Chair of the commission.

Mr. HASTINGS of Florida. Fulfillment of the commission's congressional mandate requires the convening of public hearings and briefings as well as sustained engagement with visiting delegations of senior foreign government officials, including parliamentarians and representatives of nongovernmental organizations. When Congress established the commission, there were 35 countries that were part of the Helsinki Process. Today that number has grown to 56. Additionally, the commission has paid increasing attention to developments in OSCE partner countries, including Afghanistan, Egypt, Jordan, and Israel, among others. The commission's increased workload has led to an increased number of public events as well as meetings with foreign dignitaries.

Ms. WASSERMAN SCHULTZ. I can appreciate the dilemma faced by my colleagues on the commission and the difficulty of securing suitable space for such events and meetings. I am committed to working with the gentleman from Florida in finding a durable solution to this persistent problem. My understanding is that he has identified space in the CVC that might meet the commission's needs.

Mr. HASTINGS of Florida. That is correct. I appreciate the Chair's support and look forward to working with her and others to fix this problem.

Mr. ADERHOLT. Madam Speaker, I would like to yield 3 minutes to the distinguished gentleman from Illinois (Mr. KIRK) who is a member of the full committee and has worked very diligently on a lot of these issues that involve the legislative branch, even though he is not on the subcommittee. He has worked very diligently, especially regarding the Visitor Center and making sure that Members have the opportunity to bring their guests throughout the Capitol and get a quality tour from the State's perspective from where they're from.

Mr. KIRK. I thank my colleague and rise in very strong support for this bipartisan legislation. I particularly want to thank Mr. ADERHOLT and our Chair, DEBBIE WASSERMAN SCHULTZ, for putting together this legislation. I have worked on this legislation in the past, particularly to build a staff gym, which is now one of the great successes of this institution. But lately was particularly concerned with the decision quietly made that gave the Architect of the Capitol Red Coats apparently the exclusive power to control Capitol tours in the Capitol. It's clear now that they abused this power. They blocked staff-led tours of the Capitol and on Facebook set a record for poor customer service in condemning congressional staffs—politically naively enough majority and minority staffs—and saying what a bad piece of work that they did.

Many Members came together under the leadership of Chairman Wasserman Schultz, concerned about this power grab in the people's House. While the CVC attempted changes, they maintained that they still wanted to control access to the Capitol, turning away one of our Members who had four mayors

visiting here, but they only had three tickets.

What this legislation now does, as written by the chairwoman, is that we have fired the Red Coats' ability to control access to the Capitol by Members of Congress and their staff, that if constituents come in from whatever district, that Members should now know that your staff can get your constituents into the Capitol to see it. We have also removed the restraints so that you can see all provisions of the Capitol, especially, for example, my constituents and many others who have seen this institution on C–SPAN and want to look at it. Now we can get them in here.

I particularly want to thank the leadership for this legislation because we have returned a sense of order and control in making sure that the people who were elected to represent them actually can bring them into the Capitol. As I said in full committee, this institution can be quite frustrating—like yesterday; and the one thing that we can guarantee that was under our control is that we could guarantee that our constituents have a good experience in the Capitol. That had been denied by the Red Coats. This legislation returns that control.

I want to particularly thank Jenny Desia and Liz Dawson on our side; and Ian Rader in Congresswoman WASSERMAN SCHULTZ's staff for helping out; and Brette Davis of my staff who helped bring this together. I also want to thank Congressmen DAVE LOEBSACK and JIM MORAN who helped me out so much.

We see ourselves as institutionalists here. I started working here as a staffer in 1984. And while the CVC is quite impressive, its restrictions were beginning to deny a number of Members of Congress the opportunity to show it to their constituents. This legislation restores that access.

Ms. WASSERMAN SCHULTZ. Madam Speaker, I yield myself 2 minutes just to agree wholeheartedly with the gentleman from Illinois. I am so glad that he raised the issue of staff-led tours during debate on this legislation. It is incredibly important, and it was an incredible source of frustration for me as we moved towards opening the CVC to note that it was possible that constituents of ours could come to the Capitol, take a tour, walk through this whole building, watch our proceedings in the gallery, and leave to go home, never having known or been able to identify who it is that represents them in the United States Congress.

Preserving staff-led tours is an incredibly important way for us to be able to do that. And quite frankly, just to promote staff-led tours to anyone who is interested in getting one, you can get a more unique and less homogenized tour. As good as the guide-led tours are, you can get a more tailored-to-your-State oriented tour from your Member of Congress. And I would encourage people who are interested in doing that to go through their own Member of Congress to book their reservation and get a tour of the Capitol from the person that represents you in Washington.

I reserve the balance of my time.

Mr. ADERHOLT. At this time I would like to yield 2 minutes to the distinguished gentleman from Louisiana (Mr. SCALISE).

Mr. SCALISE. I thank my colleague from Alabama for yielding me time to speak.

I rise in opposition to this legislative appropriations bill. While I appreciate the work that's been done in putting this bill together, I think it's been a disservice to the American people that the amendments that were filed by so many Members on our side to actually cut the growth of spending in this bill were not allowed to come to the floor, were, in essence, ruled out of order. I think it's a sad day when someone attempts to cut spending in a bill that grows government by the size of 7 percent, in this case, and it is ruled out of order. It's not allowed to be debated on this House floor. I think what's happening right now—and we saw this yesterday—there was a $64 billion piece of legislation that was brought before Congress yesterday, which represented a 12 percent growth—the CJS budget that was brought before Congress yesterday—a 12 percent growth in government at a time when Americans all across the country are cutting their spending because we're living in tough economic times.

I think there's some people in this leadership in Congress that just don't get the fact that people want us to cut spending here in Washington, not spend at record levels.

I think it was very sad when just on this House floor yesterday we had a record—8 hours was spent on a bill where $64 billion of taxpayer money was being spent, and we were trying to bring up amendments to cut that rapid growth in spending. People just last night and today in the leadership on this floor actually used the comments that ''delaying tactics''—they called our amendments to cut spending delaying tactics. Some of their Members actually used the term ''nonsense'' and ''foolishness'' when describing our amendments to cut spending. So now some people on the other side want to spend money so fast that if we put up an amendment to cut spending, to cut growth in spending, they call that a delaying tactic.

Well, I think Americans all across this country want more of those types of delaying tactics to slow down this runaway train of massive Federal spending, money we don't have. Every dollar we spend in Congress from today all the way through the end of this year is borrowed money. We don't have that money. We need to control what we're spending. I would urge opposition to this bill.

Mr. BRADY of Pennsylvania. Madam Speaker, I rise today in support of the Legislative Branch Appropriations bill for Fiscal Year 2010. I want to thank Chairwoman WASSERMAN SCHULTZ and all of the members of the subcommittee for their hard work. It is no secret that we are in the middle of the most trying economic times that we have seen in decades. This has made a hard job even harder for the Appropriations Committee, as difficult decisions had to be made. I commend the Subcommittee for finding a balance that supports the necessities of running the Legislative branch while restraining spending.

A year ago at this time we were still anticipating the opening of the new Capitol Visitor Center. Today we are seeing it flourish, as it has already welcomed more than one million visitors to the Capitol. I want to commend Chairwoman WASSERMAN SCHULTZ for her part in opening the doors to the CVC, and for her work on this bill that supports its continued success and growth.

I am very pleased to see that this bill includes funds to renovate the east underground garage and for design work necessary to renovate the Cannon House Office Building. The garage renovation is a must-fund project for the safety of anyone who uses the facility. Maintenance projects have been deferred for too long and parts of the structure are literally beginning to crumble. Furthermore, the Cannon building has historic significance and we owe it to the institution to preserve the structure. These are just the first elements of long-deferred maintenance of the Capitol complex, and I am pleased to see the initiation of a capital fund to address these multi-year expenses.

I am sure that many members here share in my excitement for this bill's inclusion of funds to modernize the Electronic Voting Display in the House Chamber. The EVS has not been upgraded significantly since it was first installed more than 30 years ago. The proposed changes to the display will not just reduce malfunctions, but also make it easier for Members to read at a glance. It will also remove any confusion about what is being voted on. This upgrade is long overdue and will ensure the system's ability to adapt to advancing technologies.

Additionally, I'd like to voice my support for funding a number of initiatives from the Office of the Chief Administrative Officer. I'm glad to see the continued support for the CAO's greening efforts. These efforts have greatly improved the House's energy efficiency, lowered our carbon footprint, and reduced our costs. In this bill, funds have been specifically set aside for energy demonstration projects. This appropriation will make the House a showcase for the possibilities of a greener, and more responsible, tomorrow.

Another CAO initiative that I am happy to see funded in this bill is the Wounded Warrior program. Wounded veterans face innumerable challenges when they return home. This program is a small way that we can ease that burden for some, and hopefully set an example for other employers to follow.

Finally, I'm pleased to see the inclusion of staff benefits aimed to create parity between

the executive and legislative branches. In particular, I am glad to see funds for a tuition reimbursement program and extended childcare benefits. All of the benefits the CAO has recommended already exist in executive agencies, and the Committee on House Administration will soon consider extending them to House employees to retain and recruit the best staff.

Before closing, I just wanted to mention the importance of the funds incorporated in the supplemental for the Capitol Police to upgrade their radio system. Their antiquated radio system has been an ongoing problem that affects the safety of everyone who works in or visits the Capitol. We have increasing security concerns and an expanding campus, making effective communication more important than ever. Including that money in the supplemental accelerated the installation of the new system; otherwise, funding would have had to be included in this bill.

I urge all of my colleagues to support this bill. It represents a wise and careful use of taxpayer dollars in a difficult economic time. Meanwhile, it effectively addresses the necessities of running the legislative branch. These appropriations make it possible for all of us to do our jobs effectively for the American people.

Mr. KUCINICH. Madam Speaker, I rise today in support of the H.R. 2918, and I commend Chairwoman WASSERMAN SCHULTZ for crafting a bill that acknowledges the importance of a well-funded legislative branch while at the same time considers the challenging economic environment.

The bill provides a modest increase for the Government Accountability Office, which I would like to see increased, possibly in conference with the Senate. A robust and healthy GAO is vital if Congress is going to be able to execute our mandate of rigorous oversight.

I am also glad that the bill addresses the issue of staff-led tours. I, with my staff, take great pride in hosting constituents when they visit Washington, D.C. In years past constituents have told me and my staff that their staff-led tour of the Capitol was the highlight of their trip to the city. I make sure that staff-led tours are relevant to my constituents, something that Capitol Tour Guides, while very knowledgeable, simply cannot do when conducting tours with people from all over the country.

I am disappointed, however, in the success of the motion to recommit, which would eliminate funding for the Wheels 4 Wellness program. Wheels 4 Wellness was created to give House staff an alternate mode of transportation around the Hill campus during the business day. As we also prepare to debate climate change legislation, programs that lessen our carbon footprint should be encouraged and supported, not eliminated. I agree with the Committee Report and with the Chairwoman's comments, and I hope to see the shortcomings of the program addressed so that staff will have access to a stronger and more viable Wheels 4 Wellness program.

Ms. WASSERMAN SCHULTZ. Madam Speaker, at this time I have no additional speakers, but I continue to reserve the balance of my time.

Mr. ADERHOLT. Madam Speaker, I have no more requests for time and yield back the balance of my time.

Ms. WASSERMAN SCHULTZ. Madam Speaker, again, it was a great privilege to work with the gentleman from Alabama and his staff. I look forward to continuing to work as we move the legislative branch appropriations bill through the conference process.

I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate on the bill has expired.

AMENDMENT NO. 1 OFFERED BY MRS. MCCARTHY OF NEW YORK

Mrs. MCCARTHY of New York. I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 1 offered by Mrs. MCCARTHY of New York:

In the item relating to ''Library of Congress, Salaries and Expenses'', strike the period at the end and insert the following: ''*Provided further*, That of the amount made available under this heading, $250,000 shall be used to carry out activities under the Civil Rights History Project Act of 2009.''.

The SPEAKER pro tempore. Pursuant to House Resolution 559, the gentlewoman from New York (Mrs. MCCARTHY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from New York.

Mrs. MCCARTHY of New York. I thank you, Madam Speaker.

I certainly want to thank Chairwoman WASSERMAN SCHULTZ and Ranking Member ADERHOLT for letting this amendment come through today. I appreciate all the work that has been done, and I am not going to speak long on this to save time.

I want to thank my lead cosponsor of the Civil Rights Oral History Project, Congressman JOHN LEWIS of Georgia, himself a civil rights hero, for all of his help in developing and generating support for this program.

All I'm going to say is that I thank everyone for working together to make sure that this amendment comes through. What has happened was—it has passed in the House before. Money had been appropriated for it. But unfortunately by a technical change, there was a delay until the year 2011. We have so many people around this country that are advancing in age who have the history of the civil rights movement, and obviously in the last few years, we have seen some of the great civil rights leaders, unfortunately, die; but it's also those that were the housewives, just the ordinary citizens that really also made a difference.

I would like to thank Chairwoman WASSERMAN SCHULTZ and Ranking Member ADERHOLT for their help in moving this amendmendment forward and congratulate them for their hard work on crafting the Legislative Branch Appropriations bill.

I also want to thank my lead cosponsor of the Civil Rights Oral History Project, Congressman JOHN LEWIS of Georgia, himself a civil rights hero, for all of his help in developing and generating support for this program.

Mr. LEWIS was at the forefront of the battle to end segregation and his contribution to ensuring equality in our country cannot be overstated.

I know I speak for all of my colleagues when I say that we are honored to serve with him and grateful for all that he has done and continues to do for all Americans as a steward of justice and equal rights.

We are fortunate to serve in Congress with several other influential civil rights leaders and I would like to extend a heartfelt ''thank you'' for their sacrifices and commitment to the cause of freedom.

The fight for civil rights was one of the most significant social and cultural movements in our nation's history.

H.R. 586, the Civil Rights Oral History Project Act of 2009, was passed by Congress and signed into law by President Obama on May 12th.

It would permit the Library of Congress and the Smithsonian Museum to jointly create a comprehensive compilation of audio and video recordings of personal histories and testimonials of individuals who participated in the Civil Rights movement.

It is important that we begin to fund this project now, so we can document the stories of those brave men and women who fought in so many ways to ensure equal rights to all Americans.

Another year is too long to wait.

Unfortunately, with each passing year, our nation loses more and more of the people that played major roles in the American Civil Rights Movement.

Over the last few years, we lost Mrs. Coretta Scott King and Mrs. Rosa Parks, and we will continue to lose more courageous Civil Rights pioneers.

Thankfully, their stories have been well documented in the historic record, but there are many others who have already passed or whose memories are fading.

While we know so much about the lives of the leaders of the Civil Rights Movement, such as Dr. Martin Luther King, our colleague, Congressman JOHN LEWIS, and Thurgood Marshall, it is important that we learn about the everyday people of all races who took a stand during a pivotal time in our nation's history.

Many leaders from all walks of life put their lives on the line to make it possible for all people to live freely and have the same fundamental rights.

The workers in Memphis that went on strike and marched in protest with Dr. King, the students that held sit-ins at lunch counters in the south, the thousands of people that marched on Washington and witnessed the ''I Have a Dream Speech'' and the millions of Americans that stood up and worked in their own ways to make our country a better place for all people.

In my Congressional District, there are many important leaders who fought to ensure equal rights for all Long Islanders.

Brave Americans like Irving C. McKnight from Roosevelt, Mr. McNeil from Hempstead, Mrs. Iris Johnson from Freeport, Fred Brewington from Malverne and so many others.

These people are the heroes of the civil rights movement and we need to make sure that their stories are woven into the fabric of the American story.

Without their efforts many of the freedoms we take for granted everyday would not have come to pass.

It is vital that future generations know and understand the struggles and challenges of those that paved the way for us to live in a free nation.

This legislation stresses the importance of capturing the memories and deeds of the Civil Rights generation and will give us a unique insight into the experiences of the people that were really on the frontlines of the civil rights movement.

This bill is based on the successful Veterans History Project and will create a joint effort between the future National Museum of African American History and Culture and the Library of Congress to collect oral histories of the people that were involved in the civil rights movement and preserve their stories for future generations.

The legislation authorized $500,000 for fiscal year 2010, for the purpose of carrying out the project, jointly between the two agencies.

I know that the bill was signed into law late and I appreciate the Legislative Branch Appropriations Subcommittee including language in the bill indicating funding can be used for ''activities for the Civil Rights Oral History Project.'' However, it does not appropriate an actual amount.

My amendment simply specifies that $250,000 would be directed from the salaries and expenses account to begin implementing the project in fiscal year 2010.

The amendment would guarantee a specified amount be used by the Library of Congress for this project.

I urge my colleagues to support this amendment and take the time to acknowledge the contributions of those great Americans who fought to make our nation a more fair and just place.

With that, I yield to the gentlelady from Florida.

Ms. WASSERMAN SCHULTZ. I thank the gentlelady from New York for yielding and for her very appropriate amendment.

It is really wonderful to see the progress that has been made on the Civil Rights Oral History Project. We did have language in our bill, preserving the possibility for providing the funding. I'm glad that we've been able to fast forward that opportunity. I look forward to continuing to work with her. I'm happy to accept the amendment.

Mrs. MCCARTHY of New York. Thank you.

Mr. ADERHOLT. Will the gentlelady yield?

Mrs. MCCARTHY of New York. I yield to the gentleman from Alabama.

Mr. ADERHOLT. Let me just say on the minority side, the Republican side, we accept the amendment as well. We look forward to working with you on that.

Mrs. MCCARTHY of New York. Thank you.

I yield back the balance of my time.

The SPEAKER pro tempore. Does any Member claim time in opposition to the amendment?

All time for debate on the amendment has expired.

Pursuant to House Resolution 559, the previous question is ordered on the bill and on the amendment by the gentlewoman from New York (Mrs. MCCARTHY).

The question is on the amendment offered by the gentlewoman from New York.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT

Mr. KINGSTON. Madam Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. KINGSTON. I am.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Kingston of Georgia moves to recommit the bill H.R. 2918 to the Committee on Appropriations with instructions to report the same back to the house forthwith with the following amendment:

Page 2, line 9, strike ''$1,375,300,000'' and insert ''$1,375,200,000''.

Page 5, line 19, strike ''$317,940,000'' and insert ''$317,840,000''.

Page 5, line 25, strike ''$278,378,000'' and insert ''$278,278,000''.

Mr. KINGSTON (during the reading). Madam Speaker, I ask unanimous consent that the motion be considered as read.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

□ 1230

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Georgia is recognized for 5 minutes in support of his motion.

Mr. KINGSTON. Madam Speaker, what this motion to recommit does is it moves to strike the congressional bicycle program.

When I came to Congress 17 years ago, we actually had a congressional ice program. I want you to imagine, every day 435 offices would get a bucket of ice delivered to them, even though we had ice machines in our refrigerator. It was a long-standing tradition and we couldn't get rid of it. It cost $375,000 a year. Finally we got rid of it.

Not to be outdone, it seems this Congress has started a bicycle program so our staff could have an opportunity to ride a beautiful bike like this. I want to tell you, these are beautiful bikes, not just because they are a pleasant blue color. But I am a bike rider. I ride a bike to work. I take this carbon footprint stuff seriously. I also don't like to pay $2.70 a gallon. So I ride my bike, but I pay for mine with my own money.

Now, these bikes, you don't have to pay for them. You just have to sign up. The problem is, last year $200,000, this year—the chairman would like me to show my colors here. I am a bike rider, and I take it seriously. Mr. JACKSON and Mr. LEWIS, we would love to have you in our caucus.

To get 30 bikes, we have spent $200,000. But only a small number of people have signed up for this, and last year they were only used 186 times. That calculates to $330 a ride.

Now, it is important to give staff employees benefits, and that is why this bill increases the salary allowance. We give them Metro cards. They have a health care plan and a fitness center. They have Federal holidays. They have nurses on the premises. They have a Thrift Savings Plan. There are a lot of good things we do and should continue doing for employees. But the bike program is so silly.

Why is it silly? It is not available, except for on weekdays from 8 to 5. So when I have an employee come to work, I expect them to be working, not riding bikes provided for by hard-working taxpayers.

These bikes are deluxe bikes. You can't quite see them. There is a nice seat, a very nice cushiony seat. They have lights. They have speedometers. I can tell you these bikes don't have any speed to them at all. I ride a road bike. I know. I could take one of these easily. But they have a speedometer, in case they do get up to five miles per hour. Nice thick tires. And you can't quite see them, but they have a mud flap. Now, you know you can't be serious with a bike unless you have a mud flap on it.

I want people to be riding bicycles, but I don't think it is fair for taxpayers in this economy to be spending $300,000 for a silly congressional bike program that is not used.

And, by the way, how bad is it? I would challenge you to do this: Check the Web page out and ask them how to get a bike, and it can't even accurately tell you where to go. It tells you to go to the Fitness Center. You call the Fitness Center, and they say, no, you have to go to First Call. You call First Call and you wait in line. That is where you get your sandwiches and meeting rooms and everything else. You have to be in line for that.

I went over, by the way, to see those bikes. Lots of dust is on them. They are sitting all by themselves in the corner of the parking lot, Ride me, ride me, please, somebody. No, you don't get that opportunity, because you can't sign up for it.

But, again, I want my employees to be working between 8 and 5, and on the

weekend, if they want to ride a bike, they ought to pay for it with their own money. Again, if this program was practical, it would be available to them on the weekends, but it is not.

It is a silly program and it revisits the days of the congressional ice-delivery program. Like the congressional ice-delivery program, it was a good idea, a good intention gone bad.

We need to strike this, put it to rest and say, you know what? We tried it. Let's don't be stupid and continue trying it. Let's accept this language and move the bill and get rid of the congressional bike program.

I would like all of you folks to sign up for a bike program, but not this one. Bring your own bike at your own expense.

Ms. WASSERMAN SCHULTZ. Madam Speaker, I rise to claim the time in opposition to the motion to recommit; although I am not opposed to it.

The SPEAKER pro tempore. Without objection, the gentlewoman from Florida is recognized for 5 minutes.

There was no objection.

Ms. WASSERMAN SCHULTZ. Madam Speaker, I do first think it is important to point out that technically the language in the motion to recommit does not specifically reduce the funding for any program at all. It simply reduces funding by $100,000 in this section of the bill. So I do think it is important to point out that the Wheels for Wellness program has not been specifically named in the motion to recommit for reduction.

That having been said, it is also important to point out that included in the report that accompanies the Legislative Branch Appropriations bill, we did express our concern about the effectiveness of the program as it is currently constructed. There are very few bikes that have been checked out, and we do believe that there needs to be a more effective plan brought forward by the CAO to ensure that if the program is going to continue to exist into the future, that more bikes be checked out and that they have an effective plan for doing that.

We are looking forward to getting that report language back and to working towards the possibility of reestablishing the funds in this section of the bill, which is all that has occurred.

But with that understanding and in anticipation of receiving that report, and recognizing the good work of our colleague, the gentleman from Oregon (Mr. BLUMENAUER) and his passionate commitment to ensuring that we get out of our cars and on to our bikes, because obviously that would reduce our carbon footprint and the carbon emissions, that is a worthwhile goal that the American people would greatly benefit from, with that, I would be glad to accept the motion to recommit.

The SPEAKER pro tempore. All time for debate on the motion to recommit having expired, without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. KINGSTON. Madam Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on the motion to recommit will be followed by 5-minute votes on passage of the bill, and approval of the Journal, if ordered.

The vote was taken by electronic device, and there were—yeas 374, nays 34, not voting 25, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members have 2 minutes remaining in this vote.

□ 1301

Messrs. MCGOVERN, HOLT, CONYERS, Ms. CLARKE, Ms. EDWARDS of Maryland, Mrs. NAPOLITANO, Ms. WOOLSEY, Mr. SERRANO, Ms. FUDGE, and Mr. ELLISON changed their vote from ''yea'' to ''nay.''

Mr. REYES, Ms. CASTOR of Florida, and Messrs. HALL of New York, LUJÁN and SMITH of Washington changed their vote from ''nay'' to ''yea.''

So the motion to recommit was agreed to.

The result of the vote was announced as above recorded.

Ms. WASSERMAN SCHULTZ. Madam Speaker, pursuant to the instructions of the House in the motion to recommit, I report the bill, H.R. 2918, back to the House with an amendment.

The SPEAKER pro tempore. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Ms. WASSERMAN SCHULTZ:

Page 2, line 9, strike ''$1,375,300,000'' and insert ''$1,375,200,000''.

Page 5, line 19, strike ''$317,940,000'' and insert ''$317,840,000''.

Page 5, line 25, strike ''$278,378,000'' and insert ''$278,278,000''.

The SPEAKER pro tempore. The question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

Pursuant to clause 10 of rule XX, the yeas and nays are ordered.

This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 232, nays 178, not voting 23, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members have 2 minutes remaining in the vote.

□ 1309

Ms. CORRINE BROWN of Florida changed her vote from ''nay'' to ''yea.''

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated against:

Mr. MILLER of Florida. Madam Speaker, on rollcall No. 413, I was detained in a meeting. Had I been present, I would have voted ''nay.''

PERSONAL EXPLANATION

Ms. KILPATRICK of Michigan. I was unable to attend to several votes today. Had I been present, I would have voted ''yea'' on the Motion to Recommit H.R. 2918, Legislative Branch Appropriations Act for FY 2010, and ''yea'' on Final Passage of H.R. 2918, Legislative Branch Appropriations Act for 2010.

THE JOURNAL

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the question on agreeing to the Speaker's approval of the Journal, which the Chair will put de novo.

The question is on the Speaker's approval of the Journal.

Pursuant to clause 1, rule I, the Journal stands approved.

IMPEACHING JUDGE SAMUEL B. KENT

Mr. CONYERS. Mr. Speaker, by direction of the Committee on Judiciary, I call up House Resolution 520 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 520

Resolved, That Samuel B. Kent, a judge of the United States District Court for the Southern District of Texas, is impeached for high crimes and misdemeanors, and that the following articles of impeachment be exhibited to the Senate:

Articles of impeachment exhibited by the House of Representatives of the United States of America in the name of itself and all of the people of the United States of America, against Samuel B. Kent, a judge of the United States District Court for the Southern District of Texas, in maintenance and support of its impeachment against him for high crimes and misdemeanors.

ARTICLE I

Incident to his position as a United States district court judge, Samuel B. Kent has engaged in conduct with respect to employees associated with the court that is incompatible with the trust and confidence placed in him as a judge, as follows:

(1) Judge Kent is a United States District Judge in the Southern District of Texas. From 1990 to 2008, he was assigned to the Galveston Division of the Southern District, and his chambers and courtroom were located in the United States Post Office and Courthouse in Galveston, Texas.

(2) Cathy McBroom was an employee of the Office of the Clerk of Court for the Southern District of Texas, and served as a Deputy Clerk in the Galveston Division assigned to Judge Kent's courtroom.

(3) On one or more occasions between 2003 and 2007, Judge Kent sexually assaulted Cathy McBroom, by touching her private areas directly and through her clothing against her will and by attempting to cause her to engage in a sexual act with him.

Wherefore, Judge Samuel B. Kent is guilty of high crimes and misdemeanors and should be removed from office.

ARTICLE II

Incident to his position as a United States district court judge, Samuel B. Kent has engaged in conduct with respect to employees associated with the court that is incompatible with the trust and confidence placed in him as a judge, as follows:

(1) Judge Kent is a United States District Judge in the Southern District of Texas. From 1990 to 2008, he was assigned to the Galveston Division of the Southern District, and his chambers and courtroom were located in the United States Post Office and Courthouse in Galveston, Texas.

(2) Donna Wilkerson was an employee of the United States District Court for the Southern District of Texas.

(3) On one or more occasions between 2001 and 2007, Judge Kent sexually assaulted Donna Wilkerson, by touching her in her private areas against her will and by attempting to cause her to engage in a sexual act with him.

Wherefore, Judge Samuel B. Kent is guilty of high crimes and misdemeanors and should be removed from office.

ARTICLE III

Samuel B. Kent corruptly obstructed, influenced, or impeded an official proceeding as follows:

(1) On or about May 21, 2007, Cathy McBroom filed a judicial misconduct complaint with the United States Court of Appeals for the Fifth Circuit. In response, the Fifth Circuit appointed a Special Investigative Committee (hereinafter in this article referred to as ''the Committee'') to investigate Cathy McBroom's complaint.

(2) On or about June 8, 2007, at Judge Kent's request and upon notice from the Committee, Judge Kent appeared before the Committee.

(3) As part of its investigation, the Committee sought to learn from Judge Kent and others whether he had engaged in unwanted sexual contact with Cathy McBroom and individuals other than Cathy McBroom.

(4) On or about June 8, 2007, Judge Kent made false statements to the Committee regarding his unwanted sexual contact with Donna Wilkerson as follows:

(A) Judge Kent falsely stated to the Committee that the extent of his unwanted sexual contact with Donna Wilkerson was one kiss, when in fact and as he knew he had engaged in repeated sexual contact with Donna Wilkerson without her permission.

(B) Judge Kent falsely stated to the Committee that when told by Donna Wilkerson his advances were unwelcome no further contact occurred, when in fact and as he knew, Judge Kent continued such advances even after she asked him to stop.

(5) Judge Kent was indicted and pled guilty and was sentenced to imprisonment for the felony of obstruction of justice in violation of section 1512(c)(2) of title 18, United States Code, on the basis of false statements made to the Committee. The sentencing judge described his conduct as ''a stain on the justice system itself''.

Wherefore, Judge Samuel B. Kent is guilty of high crimes and misdemeanors and should be removed from office.

ARTICLE IV

Judge Samuel B. Kent made material false and misleading statements about the nature and extent of his nonconsensual sexual contact with Cathy McBroom and Donna Wilkerson to agents of the Federal Bureau of Investigation on or about November 30, 2007, and to agents of the Federal Bureau of Investigation and representatives of the Department of Justice on or about August 11, 2008.

Wherefore, Judge Samuel B. Kent is guilty of high crimes and misdemeanors and should be removed from office.

□ 1315

CALL OF THE HOUSE

Mr. SENSENBRENNER. Mr. Speaker, under clause 7 of rule XX, I move a call of the House.

A call of the House was ordered.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. JACKSON of Illinois) (during the vote). There are 2 minutes remaining in the call of the House.

□ 1333

The SPEAKER pro tempore. 395 Members have recorded their presence. A quorum is present.

IMPEACHING JUDGE SAMUEL B. KENT

The SPEAKER pro tempore. The gentleman from Michigan (Mr. CONYERS) is recognized for 1 hour.

GENERAL LEAVE

Mr. CONYERS. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. CONYERS. I yield 30 minutes to the distinguished ranking member of the Judiciary Committee, LAMAR SMITH of Texas, and ask unanimous consent that he be allowed to control the time on his side for purposes of debate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. CONYERS. I yield myself as much time as I may consume.

Mr. Speaker and my colleagues, we are here today to perform one of the most solemn duties under the Constitution, which is to consider the impeachment of a sitting member of the judiciary, a Federal judge, who, but for the congressional power of impeachment, holds a life tenure on his office.

The judge in question, Samuel B. Kent of the United States District Court for the Southern District of Texas, has already pled guilty to obstruction of justice and has entered into and is residing in a Federal prison at this moment.

The Judiciary Committee's independent investigation, conducted admirably by a special task force established for that purpose and led by the gentleman from California (Mr. SCHIFF), has concluded that the charge underlying that guilty plea is overwhelmingly borne out by the evidence, as are the related charges of repeated sexual assault against various court employees under his supervision.

Judge Kent's conduct is described in greater detail in the report filed by our committee, which voted unanimously 29–0 to recommend four articles of impeachment to the House. The court documents and other materials are available on the committee's Web site.

Of the three branches of government devised by the framers of our Constitution, only the judicial branch is insulated from the accountability of standing for election. This is by design. The other two branches, the legislative and the executive, are designed to be democratically responsible to the people, but the judicial branch is designed to be independent, to interpret the laws passed by the Congress without favor and without fear of political reprisal.

And so, article III, section 1 provides that Federal judges hold their offices during ''good behavior.'' And when a judge abuses his power, when by his conduct he proves himself unfit to hold his office, he cannot be turned out by the voters; instead, it falls to the Congress to ensure that the public trust of that office is protected through the power of impeachment.

Congress has used this power sparingly. In our Nation's history, only 13 Federal judges have been impeached, and even fewer convicted. Needless to say, the conduct at issue here is both shocking and shameful. In due course, many of the disturbing details of Judge Kent's appalling conduct will more than likely be revealed, but now I want to emphasize for the Members the following points:

The committee is recommending impeachment not merely on the fact that the judge has pleaded guilty and has been sentenced to prison; rather, it is his conduct—making false statements to his fellow judges in an official inquiry and sexually assaulting courthouse personnel—that the committee has independently determined to constitute high crimes and misdemeanors warranting his impeachment and removal from office.

The Judiciary Committee has determined overwhelmingly and unanimously, after most careful examination, that the judge's conduct plainly renders him unfit to remain a Federal judge.

Entrusted to use the power of his office to dispatch justice impartially, this judge abused his power blatantly, with partiality and favor, for his own personal gain. Entrusted to render justice, he has instead sought to evade it. Only Congress can remove Judge Kent from office. Until we do so, he will continue to draw a salary as a sitting Federal judge, even from his prison cell.

While the executive can prosecute him and the judiciary can impose punishment for his criminal conviction, only the Congress of the United States has the power to remove him from office, and that is our constitutional duty here today.

I bring this resolution to the floor with heavy regret that we are even called upon to take such action. But let it be clear, I have no doubt that this member of the judiciary must be removed from the office that he has so blatantly abused. The evidence is overwhelming and the grounds for impeachment perfectly clear. I therefore urge my colleagues to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are here today to consider and vote on Articles of Impeachment following U.S. District Judge Samuel Kent's guilty plea and sentencing.

Judge Kent is a convicted felon who pleaded guilty to obstruction of justice and lying to a panel of his Federal judges who were investigating allegations that he sexually assaulted two women on his staff.

Following Judge Kent's guilty plea and sentencing, the House authorized the Judiciary Committee to undertake an inquiry into whether the House should impeach Judge Kent. Recently, the Impeachment Task Force of the Judiciary Committee heard testimony from two women whom Judge Kent sexually assaulted. Their testimony about Judge Kent's conduct was troubling, especially because Judge Kent abused his authority as a Federal judge to intimidate his staff into silence. Judge Kent has refused to appear before the committee. Judge Kent continues to abuse his position of authority by refusing to resign immediately. Instead, he sent a letter to President Obama tendering his resignation effective June 1, 2010.

Last Monday, Judge Kent reported to Federal prison to serve a 33-month prison sentence. By resigning effective June 1, 2010, Judge Kent is attempting to collect his full judicial salary for another year, even while he sits in prison. That's why we are here today, to take the next step to putting an end to Judge Kent's abusive authority and exploitation of American taxpayers.

On Wednesday, June 10, the Judiciary Committee unanimously approved four Articles of Impeachment against Judge Kent. Two of the articles relate to his sexual misconduct, and two of the articles relate to Judge Kent's lying about his conduct.

I am not unsympathetic to the claims that Judge Kent endured difficult personal tragedies and may suffer from mental illness; however, he

does not have the right to continue to serve as a Federal judge and collect a taxpayer-funded salary while sitting in prison for felony obstruction of justice.

Judge Kent has remained on the bench long after he sexually assaulted two women and lied to law enforcement officials. It is now time for justice; justice for the American people who have been exploited by a judge who violated his oath of office and obstructed justice by lying, and justice for the victims who were subjected to abuse and humiliation.

Although his attorney claims that Congress has ''better things to do,'' ensuring that a Federal judge convicted of a felony does not receive a taxpayer-funded salary while sitting in jail is important to our system of justice and a priority of this Congress. Every day that Judge Kent remains on the bench is one day too long.

I urge my colleagues to vote in favor of these Articles of Impeachment to restore integrity to the Federal bench. And I hope the Senate will act quickly to ensure swift justice for Judge Kent, his victims, and the American people.

Mr. Speaker, I reserve the balance of my time.

Mr. CONYERS. Mr. Speaker, I am pleased now to recognize one of our most distinguished members of the Judiciary Committee who headed the task force for impeachment in our committee. ADAM SCHIFF has performed remarkably well. It is a bipartisan committee. And his former experience himself as an assistant U.S. attorney held him in very good stead.

I recognize the distinguished gentleman from California for 10 minutes.

□ 1345

Mr. SCHIFF. I thank the gentleman and appreciate the great leadership of the chairman of the Judiciary Committee.

Today we find ourselves in the regrettable circumstance where we must act to remove a Federal judge from the bench. The task before us is not one we welcome, but it is an important responsibility that has been entrusted to us by the Founders and one which we must not shrink from.

Throughout our Nation's history, we have been fortunate to have a distinguished judiciary that has served as an essential and coequal branch of our government. We owe a great deal to the success of our representative democracy to the positive, thoughtful, and vital role played by the Nation's judges. To insulate members of the bench from political and other pressures, to ensure that judges are free to determine the justice of the cases before them on the basis of the law alone and no outside influence, Federal judges are appointed for life.

Unlike elected officials, who may be removed periodically by the voters or serve a term that comes to an end, the Founding Fathers provided only one extraordinary method of removing a Federal judge, that of impeachment. The President cannot remove a judge he has appointed or any other, and the courts cannot. Conviction of a Federal or State offense is also powerless to remove a judge from office. Only the Congress may remove a judge and only then upon impeachment of the House under article I, section 2 of the Constitution and conviction in the Senate for treason, bribery, or other high crimes and misdemeanors justifying their removal.

Because we have been blessed by an extraordinarily professional judiciary and because the bar for removal is high, the extraordinary remedy of impeachment of a Federal judge has been used only 13 times in the Nation's history. But the matter before us today warrants its use once again.

Last month, the House Judiciary Task Force on Judicial Impeachment was directed to inquire whether Judge Kent should be impeached. As the chairman of the task force, I would like to report on our work and provide the Members of the House with a procedural history of the matter as well as an overview of the relevant facts. As a task force, we were extremely well-served by the very capable ranking member from Virginia, BOB GOODLATTE, and have worked to proceed in a fair, open, and deliberate manner, and we have done so on a bipartisan, really nonpartisan, basis.

Samuel Kent was appointed to the Federal bench in 1990 and served in the Galveston courthouse in the Southern District of Texas. During that time, he was generally the sole judicial officer in the courthouse, an imposing figure who exercised a substantial degree of influence and control both inside and outside of the courtroom.

At some point in 2001, Judge Kent began sexually assaulting at least two women employees who served in the courthouse. These repeated assaults occurred through at least May of 2007, when one of the victims, Cathy McBroom, filed a judicial misconduct complaint with the U.S. Court of Appeals for the Fifth Circuit alleging sexual misconduct on the part of Judge Kent. In response, the Judicial Council of that circuit appointed a Special Investigative Committee to investigate the complaint.

On June 8, 2007, Judge Kent, pursuant to his own request, was interviewed by the Special Investigative Committee of that circuit. They sought to learn from Judge Kent whether he had engaged in unwanted sexual contact with Ms. McBroom or others. During the interview, Judge Kent made material false statements about the extent of his nonconsensual contact with Ms. McBroom. He was also questioned about another female employee in the courthouse, his secretary Donna Wilkerson, and told the investigative committee that once Ms. Wilkerson informed him that his advances were unwelcome, no further sexual contact had occurred, when, in fact, he continued his nonconsensual sexual contacts with both Ms. McBroom and Ms. Wilkerson.

The Department of Justice commenced a criminal investigation relating to Judge Kent's conduct as well. In November 2007, Judge Kent asked for and was granted an interview with the FBI. During the voluntary interview that he had requested, he was asked about his alleged conduct and repeated the same material false statements he had made to the Fifth Circuit.

In August of 2008, Judge Kent, through his attorney, asked for a meeting at the Department of Justice. And at this meeting he sat down with his attorney, an FBI agent, and representatives of the Department of Justice, and again Judge Kent made material false statements about the nature and extent of his nonconsensual sexual contact with Ms. McBroom and Ms. Wilkerson.

Intimidated by Judge Kent and worried about losing her job, Ms. Wilkerson was not initially candid with investigators and law enforcement when questioned about Judge Kent's conduct towards her. In fact, it was not until her third grand jury appearance that Ms. Wilkerson was willing to reveal the full extent of sexual assault she endured from Judge Kent.

On August 28, a Federal grand jury returned a multi-count indictment against Judge Kent, and on January 6 the grand jury issued a superseding indictment against Judge Kent alleging counts of aggravated sexual abuse as well as obstruction of justice and abusive sexual contact.

On February 23, the day his criminal trial was set to begin, Judge Kent pled guilty to obstruction of justice. Pursuant to the plea agreement, Judge Kent knowingly, voluntarily, and truthfully admitted having nonconsensual sexual contact with both women and obstructing justice in his testimony before the Fifth Circuit investigative committee.

On May 11, Judge Kent was sentenced to a term of 33 months in prison and ordered to pay fines and restitution. Judge Kent began his term of incarceration on June 15, this past Monday.

The day after sentencing, the House of Representatives directed the Judiciary Committee Impeachment Task Force to inquire whether Judge Kent should be impeached, and the task force held an evidentiary hearing on June 3, receiving testimony from Ms. McBroom and Ms. Wilkerson as well as Professor Arthur Hellman, a judicial impeachment scholar. Professor Hellman provided expert testimony that concluded that making false statements to fellow judges, as well as abusing his power as a Federal judge to sexually assault women, were independent grounds that would justify and

warrant Judge Kent's impeachment and removal from office.

The task force invited Judge Kent to testify, but he declined our offer. The task force received correspondence from Judge Kent that was made available to all Members and was entered into the RECORD. The task force also invited Judge Kent's counsel to participate in the hearing and present arguments on behalf of his client as well as to provide the opportunity to question any of the witnesses, and Judge Kent's counsel also declined to appear or participate.

Subsequently, Judge Kent's counsel sent a letter to the committee questioning the veracity of the women and making an extraordinary admission that their testimony was unnecessary because, quoting from the letter: Judge Kent's guilty plea to the felony of obstruction presents sufficient grounds for impeachment.

The task force also received a letter from Judge Kent to the White House, dated June 2, stating his intention to resign June 1 a year from now. But neither his surrender to custody nor his stated intention to resign a year from now affect his current status as a Federal judge or a constitutional obligation to determine whether impeachment is warranted.

Our proceeding today does not constitute a trial, as the constitutional power to try impeachment resides in the Senate; rather, the House's role is to inquire whether Judge Kent's conduct provides a sufficient basis for impeachment. According to leading commentators and historical precedent on the issue, there are two broad categories of conduct that have been recognized as justifying impeachment: serious abuse of power and conduct that demonstrates an official is unworthy to fill the office that he or she holds.

Earlier this month, the Judicial Conference of the United States transmitted a certificate to the House certifying its determination that consideration of impeachment of Judge Kent may be warranted. After concluding that the full record establishes Judge Kent should be impeached for high crimes and misdemeanors, the House Judiciary Task Force met on June 9 and voted unanimously in favor of recommending four Articles of Impeachment, which have been read before the House today. On June 10, the House Judiciary Committee ordered H. Res. 520 favorably reported by a rollcall of 29–0.

Judge Kent, incident to his position as a U.S. district judge, engaged in deplorable conduct with respect to employees associated with the court. Such conduct is incompatible with the trust and confidence placed in him as a judge. In particular, the record demonstrates that Judge Kent sexually assaulted two women who were both employees of the court. Furthermore, Judge Kent corruptly obstructed, influenced, or impeded an official proceeding by making false statements to the Special Investigative Committee of the Fifth Circuit and again by making false material statements to agents of the FBI and Department of Justice.

These acts of sexual assault and obstruction of justice are, as the judge who sentenced Mr. Kent to incarceration stated, ''a stain on the justice system itself.'' Were the House of Representatives to sit idly by and allow Mr. Kent to continue to hold the office of U.S. district judge while sitting in prison, and after committing such high crimes and misdemeanors, it would be a stain on the Congress as well.

Judge Kent's conduct was a disgrace to the bench. That he would still cling to the bench from the confines of his prison cell and ask the public, whose trust he has already betrayed, to continue paying his salary demonstrates how little regard he has for the institution he was supposed to serve.

I urge the House to approve each of the four Articles of Impeachment set out in House Resolution 520.

Today, we find ourselves in the regrettable circumstance where we must act to remove a federal judge from the bench. The task before us is not one that we welcome, however, it is an important responsibility that has been entrusted to us by the Founders and one which we must not shrink from.

Throughout our nation's history, we have been fortunate to have a distinguished judiciary that has served as an essential and coequal branch of our government. We owe a great deal of the success of our representative democracy to the positive, thoughtful and vital role played by the nation's judges. To insulate members of the bench from political and other pressures, to insure that judges are free to determine the justice of the cases before them on the basis of the law alone and no outside influence, federal judges are appointed for life.

Unlike elected officials who may be removed periodically by the voters, or serve a term that comes to an end, the Founding Fathers provided only one extraordinary method of removing a federal judge—that of impeachment. The President cannot remove a judge he has appointed or any other, and the courts cannot—conviction of a federal or state offense is also powerless to remove a judge from his office. Only the Congress may remove a judge, and only then upon impeachment in the House under Article I, Section 2 of the Constitution, and conviction in the Senate for treason, bribery, or other high crimes and misdemeanors justifying their removal.

Because we have been blessed by an extraordinarily professional judiciary, and because the bar for removal is high, the extraordinary remedy of impeachment of a federal judge has been used only 13 times in our nation's history. But the matter before us today warrants its use once again.

Last month, the House Judiciary Committee Task Force on Judicial Impeachment was directed by the House to inquire whether Judge Kent should be impeached. As Chairman of the Task Force, I'd like to report on our work and provide the Members of the House with the procedural history of this matter as well as an overview of the relevant facts. As a Task Force, we were extremely well served by the very capable Ranking Member from Virginia, BOB GOODLATTE, and have worked to proceed in a fair, open and deliberate manner, and we have done so on a bipartisan, really, nonpartisan basis.

Samuel B. Kent was appointed to the federal bench in 1990 and has served in the Galveston courthouse in the Southern District of Texas for most of his career. During that time, he was generally the sole judicial officer in the courthouse, an imposing figure who exercised a substantial degree of influence and control both inside and outside of his courtroom.

At some point in 2001, Judge Kent began sexually assaulting at least two women employees who served in his courthouse. These repeated sexual assaults occurred through at least May of 2007, when one of the victims, Cathy McBroom, filed a judicial misconduct complaint with the U.S. Court of Appeals for the Fifth Circuit, alleging sexual misconduct on the part of Judge Kent. In response, the Judicial Council of the Fifth Circuit appointed a Special Investigative Committee to investigate Ms. McBroom's complaint.

On June 8, 2007, Judge Kent, pursuant to his own request, was interviewed by the Special Investigative Committee of that Circuit. The Investigative Committee sought to learn from Judge Kent whether he had engaged in unwanted sexual contact with Ms. McBroom or with others.

During the interview, Judge Kent made material and false statements about the extent of his non-consensual contact with Ms. McBroom; in fact, he had engaged in repeated non-consensual sexual contact with her. Judge Kent was also questioned about another female employee in the courthouse, his secretary Donna Wilkerson. He told the investigative committee that once Ms. Wilkerson informed him that his advances were unwelcome, no further sexual contact with her occurred, when in fact he continued his non-consensual contacts with Ms. Wilkerson as well.

On September 28, 2007, in an ''Order of Reprimand and Reasons'' signed by Chief Judge Edith Jones, the Judicial Council for the Fifth Circuit suspended Judge Kent with pay for four months and transferred him to Houston. The Order did not disclose the underlying findings of fact or conclusions by the Special Investigative Committee.

The Department of Justice then commenced a criminal investigation relating to Judge Kent's conduct. In November 2007, Judge Kent asked for and was granted an interview with Federal Bureau of Investigation law enforcement agents. During the voluntary interview that he had requested, he was asked about his alleged conduct and repeated the same material false statements that he made to the Fifth Circuit.

In August 2008, Judge Kent through his attorney asked for a meeting at the Department of Justice Headquarters in Washington, D.C. At this meeting, he sat down with his attorney, an FBI agent, and representatives from the Department of Justice. Judge Kent again made material false and misleading statements about the nature and extent of his nonconsensual sexual contact with Ms. McBroom and Ms. Wilkerson.

Intimidated by Judge Kent and worried about losing her job, Ms. Wilkerson was not initially candid with investigators and law enforcement when questioned about Judge Kent's conduct towards her. In fact, it was not until her third grand jury appearance, that Ms. Wilkerson was willing to reveal the full extent of sexual assaults she endured from Judge Kent.

On August 28, 2008, a federal grand jury returned a three-count indictment charging Judge Kent with two counts of abusive sexual contact against Ms. McBroom, in violation of 18 U.S.C. §2244(b), and one count of attempted aggravated sexual abuse against Ms. McBroom, in violation of 18 U.S.C. §2241(a)(1).

On January 6, 2009, the grand jury issued a superseding indictment that re-alleged the three counts involving Ms. McBroom and added three additional counts. Count four charged aggravated sexual abuse against Ms. Wilkerson in violation of 18 U.S.C. §2241(a)(1), a crime punishable by up to life in prison. Count five charged abusive sexual contact against Ms. McBroom in violation of 18 U.S.C. §2244(b).

Finally, the superseding indictment charged Judge Kent with Obstruction of Justice for corruptly obstructing, influencing, and impeding an official proceeding by making false statements to the Special Investigative Committee of the U.S. Court of Appeals for the Fifth Circuit regarding his unwanted sexual contact with Ms. Wilkerson.

On February 23, 2009, the day his criminal trial was set to begin, Judge Kent pled guilty to Obstruction of Justice. Pursuant to the plea agreement, Judge Kent knowingly, voluntarily, and truthfully admitted having nonconsensual sexual contact with both women, and obstructing justice by testifying otherwise before the Fifth Circuit Investigative Committee.

On May 11, 2009, Judge Kent was sentenced to a term of 33 months in prison and ordered to pay fines and restitution to Ms. McBroom and Ms. Wilkerson. Judge Kent began his term of incarceration on June 15th, this past Monday.

The day after his sentencing, the House of Representatives directed the House Judiciary Committee Impeachment Task Force to inquire whether Judge Kent should be impeached. On June 3, 2009, the Task Force on Judicial Impeachment held an evidentiary hearing to determine whether Judge Kent's conduct provides a sufficient basis for impeachment and to develop a record upon which to recommend Articles of Impeachment to the House Judiciary Committee.

The Task Force received testimony from Ms. McBroom, Ms. Wilkerson, and Professor Arthur Hellman, a judicial impeachment scholar from the University of Pittsburgh School of Law. Ms. McBroom and Ms. Wilkerson both testified that they were sexually assaulted by Judge Kent on a number of occasions, and detailed several of these incidents for the Task Force.

Professor Hellman provided expert testimony that concluded that making false statements to fellow judges, as well as abusing his power as a federal judge to sexually assault women, were independent grounds that would justify and warrant Judge Kent's impeachment and removal from office.

The Task Force invited Judge Kent to testify, but he declined our offer. The Task Force received correspondence from Judge Kent that was made available to all Members and entered into the record. The Task Force also invited Judge Kent's counsel to participate in the hearing and present arguments on behalf of his client, as well as to provide the opportunity to question any of the witnesses. Judge Kent's counsel also declined to appear or participate in the hearing.

Subsequently, Judge Kent's counsel sent a letter to the Committee. The letter questioned the veracity of the two women, citing an anonymous caller at length and claiming there are other witnesses who contradict the two women. The letter also made the extraordinary admission that their testimony was unnecessary because, quoting from the letter, ''Judge Kent's guilty plea to the felony of Obstruction presents sufficient grounds for impeachment.''

The Task Force also received a letter from Judge Kent to the White House, dated June 2, 2009, stating his intention to resign effective June 1, 2010, a year from now. Neither his surrender to custody, nor his stated intention to resign a year from now, affect his current status as a federal judge or our constitutional obligation to determine whether impeachment is warranted.

Article III, Section 1 provides that ''The Judges, both of the supreme and inferior Courts, shall hold their Offices during good Behaviour, and shall, at stated Times, receive for their Services, a Compensation, which shall not be diminished during their Continuance in Office.''

Article II, Section 4 of the Constitution provides that ''all civil Officers of the United States, shall be removed from Office on Impeachment for and Conviction of Treason, Bribery, or other high Crimes and Misdemeanors.''

Our proceeding today does not constitute a trial, as the constitutional power to try impeachment resides in the Senate. Rather, the House's role is to inquire whether Judge Kent's conduct provides a sufficient basis for impeachment.

According to leading commentators and historical precedent on this issue, there are two broad categories of conduct that have been recognized as justifying impeachment: serious abuse of power, and conduct that demonstrates that an official is ''unworthy to fill'' the office that he or she holds.

The House Report accompanying the 1989 Resolution to Impeach Judge Walter Nixon summarized historical precedents that inform the meaning of the term ''high crimes and misdemeanors'' stating that, ''Congress has repeatedly defined 'other high crimes and misdemeanors' to be serious violations of the public trust, not necessarily indictable offenses under criminal laws. Of course, in some circumstances the conduct at issue . . . constituted conduct warranting both punishment under the criminal laws and impeachment.'' The Report concluded, ''When a judge's conduct calls into question his or her integrity or impartiality, Congress must consider whether impeachment and removal of the judge from office is necessary to protect the integrity of the judicial branch and uphold the public trust.''

Earlier this month, the Judicial Conference of the United States unanimously transmitted a Certificate to the House of Representatives, certifying to the House its determination that consideration of impeachment of Judge Kent may be warranted. The certificate concludes that ''Judge Kent's conduct and felony conviction . . . have brought disrepute to the Judiciary.''

After concluding that the full record establishes that Judge Kent should be impeached for high crimes and misdemeanors, the House Judiciary Impeachment Task Force met on June 9th and unanimously voted in favor of recommending four Articles of Impeachment for consideration by the House Judiciary Committee.

These four Articles were subsequently introduced in the House in the form of House Resolution 520. Article I focuses on Judge Kent's sexual assault of Ms. McBroom. Article II Article focuses on Judge Kent's sexual assault of Ms. Wilkerson.

Article III focuses on Judge Kent's obstruction of justice by making false statements during an official proceeding of the Fifth Circuit Court of Appeals regarding his unwanted sexual contact with Donna Wilkerson.

Article IV focuses on Judge Kent's material false and misleading statements about the nature and extent of his non-consensual sexual contact with both women to agents of the Federal Bureau of Investigation and to representatives of the Department of Justice on two separate occasions.

On June 10th, the House Judiciary Committee ordered H. Res. 520 favorably reported by a roll call vote of 29–0.

Judge Kent, incident to his position as a U.S. district court judge, engaged in deplorable conduct with respect to employees associated with the court. Such conduct is incompatible with the trust and confidence placed in him as a judge. In particular, the record demonstrates that Judge Kent sexually assaulted two women who were both employees of the court. Furthermore, Judge Kent corruptly obstructed, influenced, or impeded an official proceeding when he made false statements to the Special Investigative Committee of the U.S. Court of Appeals for the Fifth Circuit.

Finally, the record demonstrates that Judge Kent made material false and misleading statements about the nature and extent of his non-consensual sexual contact with Ms. McBroom and Ms. Wilkerson to agents of the Federal Bureau of Investigation and to representatives of the Department of Justice.

These acts of sexual assault and obstruction of justice are, as the judge who sentenced Mr. Kent to incarceration stated, ''a stain on the justice system itself.'' Were the House of Representatives to sit idly by and allow Mr. Kent to continue to hold the office of U.S. District Judge while sitting in prison, and after committing such high crimes and misdemeanors, it would be a stain on the Congress as well.

Judge Kent's conduct was a disgrace to the bench. That he would still cling to the bench from the confines of his prison cell, and ask the public whose trust he has already betrayed to continue paying his salary, demonstrates how little regard he has for the institution he was to supposed serve. I urge the

House to approve each of the four Articles of Impeachment set out in House Resolution 520.

Mr. SMITH of Texas. Mr. Speaker, I yield 5 minutes to the gentleman from Virginia (Mr. GOODLATTE), who is the ranking member of the Impeachment Task Force.

Mr. GOODLATTE. I thank the gentleman for yielding.

Mr. Speaker, it's a rare occasion when the House of Representatives must vote on Articles of Impeachment against a Federal judge. Indeed, the last time this occurred was 20 years ago. However, when evidence emerges that an individual is abusing his judicial office for his own advantage, the integrity of the judicial system becomes compromised, and the House of Representatives has the duty to investigate the matter and take the appropriate actions to end the abuse and restore confidence in the judicial system.

It is also rare for the members of the House Judiciary Committee to agree on anything. However, the committee voted unanimously last week to report out House Resolution 520, which contains the four Articles of Impeachment against Judge Kent. This vote came after a thorough investigation and much work by the Task Force on Judicial Impeachment. Specifically, the task force conducted an investigation of Judge Kent's conduct, which included working with the FBI, the Department of Justice, and the Fifth Judicial Circuit. The task force also conducted an investigatory hearing on the matter, at which two court employees who were victimized by Judge Kent testified about the extent of his sexual abuse. At that same hearing, we heard from a constitutional scholar who testified that Judge Kent's misconduct rises to the level of impeachable offenses. It is important to note that Judge Kent was invited to testify at the hearing. His attorney was also invited to testify and participate in the hearing. Both declined to attend.

As you have already heard in statements today and as you have already seen in the Judiciary Committee report, Judge Samuel Kent's misconduct merits the serious step of issuing Articles of Impeachment. The evidence also shows that he lied to the FBI and the Department of Justice about the nature of his sexual misconduct with court employees. In addition, he pled guilty to felony obstruction of justice and to committing repeated acts of nonconsensual sexual contact with court employees. He was sentenced to 33 months in prison for committing felony obstruction of justice, and this past Monday he reported to prison and began his prison term.

However, because the Constitution provides that Federal judges are appointed for life, Samuel Kent, despite the fact that he is sitting in prison, continues to collect his taxpayer-funded salary of approximately $174,000 per year, continues to collect his taxpayer-funded health insurance benefits, and continues to accrue his taxpayer-funded pension.

This is the first time that a Federal judge has pled guilty to a felony, has reported to prison, and has still not resigned from his office. This shows how deep Judge Kent's audacity truly runs. In fact, Judge Kent even took the step of sending a letter to the President explaining that he intends to resign 1 year from now. However, this purported resignation is not worth the paper it is written on because nothing would prevent Judge Kent from withdrawing his resignation at any time before the expiration of the year. What it really amounts to is an attempt to extort hundreds of thousands of dollars from the American people.

It is not a pleasant task to impeach a Federal judge; yet when a judge so clearly abuses his office, it becomes necessary to take the appropriate action in order to restore the confidence of the American people in their judicial system. The Constitution gives the House of Representatives the power and responsibility to impeach Federal judges. It is my strong recommendation that the Members of the House adopt these Articles of Impeachment against Judge Kent. It is my hope that the United States Senate will then act to swiftly bring this matter to trial and quick disposition.

I would also like to take this opportunity to thank ADAM SCHIFF, the chairman of the Task Force on Judicial Impeachment, for his leadership in this effort, along with all the members of the task force on both sides of the aisle. As ranking member of the task force, I appreciate the fact that this effort has been undertaken in an extremely nonpartisan fashion. And I would also like to thank Chairman CONYERS and Ranking Member SMITH for their comprehensive yet expeditious and bipartisan consideration of these Articles of Impeachment in the full Judiciary Committee.

□ 1400

Mr. CONYERS. I am pleased now to recognize for 5 minutes the distinguished member of the Judiciary Committee who served on the task force with great skill, SHEILA JACKSON-LEE from Houston, Texas, who has been an anchor in the proceedings that have brought us to this stage. I also want to commend BOB GOODLATTE for his services during that period of time.

Ms. JACKSON-LEE of Texas. I think it is important for all of us to recognize the solemnity of this day, and I thank the managers and the task force members that I believe worked in that spirit.

As I come from Texas and Houston, I think it is important to note that the judge, as all people may have in America, has his defenders; and he will have an opportunity for those defenders to continue to raise their voice and to continue to emphasize their beliefs. As my colleague from Texas indicated, he had debilitating conditions, and he had faced tragedy. And so that should be recognized.

But I believe what I've come to acknowledge on the floor of the House and, in fact, I am coming to acknowledge is that there is the responsibility constitutionally to follow the law. So article II, section 4, in fact, says that we are to proceed with impeachment specifically if civil officers have engaged in partly or been convicted of treason, bribery or other high crimes and misdemeanors. Specifically in count six of the plea agreement, we find language that says that this judge willingly agreed that he had obstructed justice. He admitted to falsely stating to the Special Investigative Committee of the United States Court of Appeals for the Fifth Circuit, lying to an official judicial body that the extent of his unwanted sexual contact with person B was one kiss, and that when told by person B his advances were unwelcomed, he then further said they were consensual; and that is to block person A from coming forward or having any veracity or anyone to back up what that person has said. I use A and B because I want to, again, respect that these are more than troubling comments and actions against two women who deserve to have a safe and secure workplace.

Then article III indicates that judges must hold their position and they must, in essence, be persons of good behavior. To create a workplace that does not allow the safety and security of your employee and, in particular, witness A and B, that poses a serious problem. So I am interested in making sure that we track the constitutional roadmap that we are now in and that we are aware of the fact that we can track the constitutional provisions and, in essence, say that this judge is not of good behavior. He now sits incarcerated. He has been convicted of a felony. The felony is obstruction of justice, and he did it knowingly.

I would like a moment to just say that in the proceedings where he had to proceed with his plea, the court specifically said, ''You have the right to persist in the prior plea of not guilty that you have entered in this case. And in that event, the burden is entirely upon this government to prove your guilt''—you don't have to go forward with this—''to a jury's satisfaction with proof beyond a reasonable doubt, which is a very high standard of proof.

''And under the law and the Constitution''—to the judge who was standing there—''you are presumed innocent,'' which means you do not have to prove your innocence or prove anything at

all, meaning that the judge was questioned on his plea that involved the obstruction of justice, misrepresenting and denying witness A, who has alleged of his activities with her and person B, that everything was consensual and that person A is not telling the truth. He did not have to proceed.

And so the court says, ''However, if I accept your guilty plea this morning, each of those rights will be denied.''

And after the defendant said, ''Yes, sir,'' the court proceeded and said, ''And knowing that, is it your intent to enter a plea of guilty this morning to this charge?'' The defendant answered, ''Yes, sir.'' That was, in essence, a plea to the felony of obstructing justice.

Sad as it may be, as we proceed to the constitutional procedure of the voting here and then a trial in the Senate, it lays down the framework that we must act. We have no inability to ignore it. We must act. High crimes and misdemeanors, worthy behavior, all of them have been counted by a willing expression of this individual, this judge, that he has committed this offense.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. JACKSON-LEE of Texas. It is crucial that we proceed in moving on the articles of impeachment.

Mr. Speaker, as a Member of the Impeachment Task Force of the House Judiciary Committee, I rise today in support of a recommendation for impeachment of Judge Samuel B. Kent. First and foremost it is necessary to establish the legal authority of Congress to make impeachment determinations. The Constitution clearly places many of the operations of the Judiciary under the oversight of Congress—a power not granted reciprocally to the Judiciary. This is made clear in the Federalist Papers (described by James Madison as ''the most authentic exposition of the heart of the federal Constitution''), which confirm that subjugating the Judiciary to Congress was deliberate and intentional. Federalist #51 declares: ''the legislative authority necessarily predominates.''

Furthermore, Federalist #49 declares that Congress—not the Court—is ''the confidential guardians of [the people's] rights and liberties.'' Why? Because the Legislature—not the unelected judiciary—is closest to the people and most responsive to them. When the Court did claim that it is the only body capable of interpreting the Constitution—that Congress is incapable of determining constitutionality, the Founding Fathers vehemently disagreed. For example, James Madison declared: ''[T]he meaning of the Constitution may as well be ascertained by the Legislative as by the Judicial authority.''

After establishing that the Congress has jurisdiction to preside over impeachment proceedings, it is imperative to outline the legal standard for impeachment. Article II, Section 4 of the U.S. Constitution delineates the standard for removal from office of all civil officers by stating that: ''The President, Vice President and all civil Officers of the United States, shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other high Crimes and Misdemeanors.''

The Constitutional Standard is further buttressed by the intent behind Article II, Section 4. The Founders' intent for impeachment was to protect the fundamental principle of ''the consent of the governed.'' The Constitution carries no title but ''We the People,'' and impeachment removes from office those officials who ignore that standard of adhering to the values of the people—that sexual abuse and pleading to a felony is not good behavior. It is important to note that the Constitution does not guarantee a federal judge his position for life, but only for the duration of ''good behavior'' (Art. III, Sec. 1).

For this reason impeachment was used whenever judges disregarded public interests, affronted the will of the people, or introduced arbitrary power by seizing the role of policymaker. Previous generations used this tool far more frequently than today's generation; and because the grounds for impeachment were deliberately kept broad, articles of impeachment have described everything from drunkenness and profanity to judicial high-handedness and bribery as reasons for removal from the bench. Historically speaking, sixty-one federal judges or Supreme Court Justices have been investigated for impeachment; of whom thirteen have been impeached and seven convicted. The noted legal scholar from Yale University Professor Charles Black writes in his Impeachment Handbook that, ''In the English practice from which the Framers borrowed the phrase, 'High Crimes and Misdemeanors' denoted political offenses, the critical element of which was injury to the state. Impeachment was intended to redress public offenses committed by public officials in violation of the public trust and duties, offenses against the Constitution itself. In short, only 'serious assaults on the integrity of the processes of government,' constitute impeachable offenses.''

One of our Founding Fathers, Alexander Hamilton, wrote in the Federalist Papers No. 65 that, ''Those [impeachable] offences which proceed from the misconduct of public men, or, [in] other words, from the abuse or violation of some public trust. They are of a nature which . . . relate chiefly to injuries done immediately to society itself.''

As Hamilton makes clear, criminal conduct alone was and is not enough. The conduct also should involve public office. That should be the standard here as we proceed. Given the context of the Constitutional standard for impeachment coupled with the intent of the Framers, the issue at hand is whether Judge Kent's conduct constitutes high Crimes and Misdemeanors, within the framework of the Constitution. On review of the facts, we find that Judge Kent's obstruction of justice charge based on providing testimony to the FBI and the DOJ on the nature and extent of his relationships with his former employees while the Judge was in office, does in fact meet the standard of high Crimes and Misdemeanors.

Furthermore, Judge Kent's felony conviction for obstruction of justice raises issues of fitness to the bench. While Judge Kent's felony conviction on its face satisfies the Constitutional standard of impeachment, the numerous allegations of sexual misconduct on behalf of the Judge made by former employees continue to call into question Judge Kent's fitness for Office.

Pursuant to witness testimony the Impeachment Task Force heard from Cathy McBroom, Former Case Manager for Judge Kent, Ms. McBroom recounted over ten episodes of sexual misconduct she experienced while working for Judge Kent. Ms. McBroom noted that Judge Kent's physical presence was imposing at 6′4″, 260 pounds, and coupled with his frequent self-references to his power, this made it difficult for her to believe that she would be able to prove the Judge's misconduct and successfully pursue outside employment in the Galveston legal community.

Donna Wilkerson, Judge Kent's former Legal Secretary also testified before the Task Force. Wilkerson stated that during her tenure as Kent's legal secretary, she suffered seven years of psychological abuse and sexual misconduct. Wilkerson noted that each episode of sexual misconduct always took place in the office, and seemed to follow lengthy lunches where the Judge returned to work intoxicated.

While the issue of Judge Kent's possible alcohol dependency and the condition of his mental health may be mitigating factors in this Committee's impeachment determination, the real issue is whether Judge Kent is fit for the position he holds. Accordingly, the conduct of Judge Kent while in office as 5th Circuit Court Judge of Galveston, Texas yields him unfit for office under constitutional standards.

Kent did submit a letter to President Obama and to our Task Force requesting permission for withdrawal from the bench one calendar year from now. Pursuant to Judge Kent's felony charge, it would not be appropriate for him to collect a salary and pension over the course of the next year. Additionally, under the guidelines of Judge Kent's proposal, his withdrawal from office would not go into effect until the day of the withdrawal, which means that Kent's decision to remove himself from office would be revocable at any time up until the final date of withdrawal.

Mr. Speaker, it pains me to take action against a member of the bench from my own state, but the Constitution imposes upon us a duty that we must uphold. As such, on the issue of whether Judge Kent's conduct constitutes high Crimes and Misdemeanors, I believe that all of us should agree that he has. Given our Constitutional duty, I urge my colleagues to support this extremely important and difficult decision of impeachment.

Mr. SMITH of Texas. Mr. Speaker, I yield 5 minutes to the gentleman from Wisconsin (Mr. SENSENBRENNER), a member of the Impeachment Task Force and also a former chairman of the Judiciary Committee.

Mr. SENSENBRENNER. Mr. Speaker, first I would like to demand a division of the question so as to result in a separate vote on each of the four articles of impeachment.

The SPEAKER pro tempore. The question is divisible and will be divided for the vote by article.

Mr. SENSENBRENNER. Thank you.

Mr. Speaker, both the Impeachment Task Force and the Judiciary Committee unanimously adopted and reported out House Resolution 520. The

overwhelming support for this resolution is indicative of the weight of the evidence supporting the four articles of impeachment against Judge Samuel B. Kent. A Federal grand jury indicted Judge Kent on five counts of sexual assault involving two of his female court employees and one count of obstruction of justice.

In February of this year Judge Kent pleaded guilty to count six of the superseding indictment, obstruction of justice, pursuant to a plea agreement. As a part of the plea agreement, the government agreed to dismiss the remaining five counts at sentencing. At that time I called on Judge Kent to resign and stated that I would introduce articles of impeachment upon his sentencing in May if he did not resign. On May 11, 2009, Judge Kent was sentenced to 33 months in prison. On May 12 I introduced the first resolution calling for Judge Kent's impeachment.

Judge Kent tried to use his knowledge to work the system by requesting a waiver for disability retirement. In February I wrote the court, asking it to carefully consider all of the particulars concerning Judge Kent's request. On May 27, Fifth Circuit Chief Judge Edith Hollan Jones denied Judge Kent's request. The Impeachment Task Force held an evidentiary hearing where both victims of Judge Kent testified as witnesses. In addition to the two victims, Alan Baron, the lead task force attorney, provided an overview of the investigation. As a part of his statement, he identified and introduced into the record a number of documents. University of Pittsburgh Professor Arthur Hellman provided expert testimony that concluded that Judge Kent's conduct in making false statements to fellow judges, and thereby obstructing justice, as well as abusing his power as a Federal judge to sexually assault women employees, constituted independent grounds to justify his impeachment and removal from office. The task force afforded Judge Kent and his counsel unlimited opportunity to participate exhaustively in the hearing. However, both Judge Kent and his counsel declined our invitation. After this objective and definitive review of the facts, the weight of the evidence against Judge Kent was substantial enough that it became quite obvious that he should not remain a Federal judge.

Articles I and II of the articles of impeachment reflect the improper conduct made by Judge Kent toward two of his court employees. On numerous occasions he sexually assaulted the two female court employees by touching their private areas and attempting to engage each woman in a sexual act with him. Article III is an article that incorporates some of the false or misleading statements made by Judge Kent to investigators and the grand jury. It notes that he corruptly obstructed, influenced, or impeded an official proceeding. Our hearing and the record we have compiled produces clear and convincing evidence that Judge Kent lied to law enforcement authorities during the investigation as well as to the Federal grand jury. Article IV alleges that Judge Kent made material false and misleading statements about the nature and extent of his nonconsensual sexual contact with the victims to FBI agents and representatives of the Department of Justice.

Our purpose for being here today is not to punish Judge Kent. Our purpose is to ensure the integrity of the Federal judiciary. Impeachment is invoked only when the conduct erodes the public's confidence in government. Judge Kent has clearly violated the public's trust and dishonored his role. Judge Samuel B. Kent, who by his own admission obstructed justice to cover his own misdeeds, cannot remain a Federal judge. He is the first judge in the history of our Republic to plead guilty to a felony and refuse to promptly resign his seat on the bench. Other judges have been convicted of crimes and refused to resign, but never has one pled guilty and attempted to stay on the bench. To permit him to retain his position would inflict grievous and, indeed, irreparable damage to the Federal judiciary and, I submit, to the Congress as well.

There are two basic questions in connection with this impeachment. First, does the conduct alleged in the four articles of impeachment state an impeachable offense? Absolutely and without question, it does. The articles allege misconduct that is criminal and wholly inconsistent with judicial integrity and the judicial oath. Clearly, everyone would agree that a judge who lies to a judicial body investigating his conduct or who deceives Federal investigators by lying in an interview is not fit to remain on the bench.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. SMITH of Texas. I yield the gentleman an additional 30 seconds.

Mr. SENSENBRENNER. The second question is, did the conduct occur? The simple fact that Judge Kent pled guilty confirms that the conduct did, in fact, occur. Today he is sitting in Federal prison, collecting a paycheck from the taxpayers. He is not fit to sit upon the Federal judiciary, and we must perform our constitutional duty to impeach him.

Support House Resolution 520. Send the judge to the Senate for a trial.

Mr. CONYERS. Mr. Speaker, I am pleased now to recognize for 3 minutes a former magistrate himself, HANK JOHNSON of Georgia, who is Chair of the Courts Subcommittee and an important member of the task force that was headed by Chairman ADAM SCHIFF.

Mr. JOHNSON of Georgia. Thank you, Mr. Chairman. This is not a happy day anytime we have to take this type of solemn action.

I first want to thank my chairman, the Honorable JOHN CONYERS from Michigan, who is the Chair of the Judiciary Committee, for his promptness and his diligence in bringing this matter to us as soon as humanly possible. And we're at this point now because of the chairman. I also want to recognize our colleague Mr. ADAM SCHIFF who, having been entrusted by the leadership to bring this to the floor, has performed admirably. And I lastly want to thank Ms. Cathy McBroom and Ms. Donna Wilkerson. These are the two ladies that took the covers off of this egregious behavior by Judge Kent. The integrity of our judiciary is fundamental to the functioning of our legal system. Judge Samuel Kent's egregious behavior leaves no doubt that he is not fit to remain a judge.

□ 1415

Can you imagine having to go to work every day, having to go back to your job after a weekend, and you know that at any time or any day that you could be subjected to sexual misconduct by your boss? And you have a great Federal job, you need your job for your family, so you just endure it for year after year after year, until it gets to a point where you have to file a complaint and subject all of your personal affairs to the Nation. It took a lot of courage for them to do that, and I appreciate that. I want to apologize on behalf of all males for them having to go through that.

Mr. Speaker, what we have here is a situation where the judge has committed sexual abuse repeatedly. He has lied about it. He has pleaded guilty to the felony charge of obstruction.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. CONYERS. I yield the gentleman an additional 30 seconds.

Mr. JOHNSON of Georgia. He lied about it, and he admitted that he was in fact guilty of the sexual abuse.

So this is what we call a slam dunk. There is no reason for this judge to remain on the bench. He should have resigned, but he didn't have the decency to do that, so now we must do what we must do.

I urge all Members to vote ''yes'' on the impeachment.

Mr. SMITH of Texas. Mr. Speaker, I yield 4 minutes to the gentleman from California (Mr. DANIEL E. LUNGREN), a member of the Impeachment Task Force and a former attorney general of the State of California.

Mr. DANIEL E. LUNGREN of California. I thank the gentleman for yielding.

Mr. Speaker, article III, section 1 of the Constitution, in describing lifetime tenure of Federal judges, uses these words: ''The judges shall hold their offices during good behavior.'' That is

the starting point of our inquiry here in this impeachment.

When you look at article II, section 4, talking about impeachment, it says, ''The President, Vice President and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors.''

Some people mistakenly believe that you need a criminal conviction as a condition precedent to us acting. That is not true and has never been true. In this particular case we do have a criminal conviction. But the Articles of Impeachment go beyond that to some of the underlying facts, specifically with respect to the sexual assault performed by this judge, Judge Kent.

The question before us is whether or not he is fit for office. The answer seems to be obvious. One who would use their office in this way to commit sexual assault is unfit for any office, but particularly that of a Federal judge. Why do I say that? Because they are given lifetime tenure, and in this circumstance he was the sole judicial officer in this courthouse.

Interestingly, now he says to us we should have some sympathy for him and extend him some mercy because he had no peers to speak with, anybody he could talk with about the serious problems in his life.

The very fact that he was the only judicial officer in that courthouse gave him enormous power, which he repeated to his victims on more than one occasion, saying he was the law, he was the judge. In other words, he had what I refer to as a reign of judicial terror or tyranny over these individuals, utilizing his power as a Federal judge to misuse that power in such a way to put these women in a situation where they thought they had nowhere to turn. Just based on that, he ought to be removed from office.

I should say to our colleagues who are watching in their offices right now, a simple review of the report presented by this committee will show sufficient evidence to justify every single article. We will vote on every single article in this House, as we have always done, and it is important for us to do that so that when we go to the Senate, they have the opportunity to review each single article of impeachment.

This is extremely important, not just for Judge Kent, not just for his employees, who have suffered unnecessarily, but for the entire judicial system.

For us to tarry a single day is to do injustice. This judge is now receiving, as has been said, his salary as a sitting judge while he sits incarcerated in a Federal institution of confinement. What arrogance. And if we do not act, we are letting the word go out that we, the only branch of government that is enabled by the Constitution to act in these circumstances, do not take our constitutional obligation seriously.

We cannot resist acting here and we cannot resist asking the Senate to act as expeditiously as possible. This Federal judge has demeaned his office, has demeaned this country, has demeaned his oath of office and the Constitution itself, and we need now to act. We have sufficient evidence presented on this record for all Members to vote in favor of each and every article of impeachment.

Mr. CONYERS. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Tennessee (Mr. COHEN), a member of the task force and also the Chair of the Commercial and Administrative Law Subcommittee.

Mr. COHEN. Mr. Speaker, I want to thank the chairman, the chairman of the task force, the ranking member of the committee, and Mr. SENSENBRENNER.

This unquestionably has the facts that are obvious for this House to vote for impeachment. This judge has abused his office and justice by pleading guilty to obstruction of justice, committing obstruction of justice and lying to an official panel, and has taken an action upon his employees and his position, women, that is an affront to all women in this country. And these are actions that are high crimes and misdemeanors worthy of the vote of impeachment. That is unquestioned.

But what is particularly impressive to me is the procedure that this House has acted in and the speed to make sure that the public Treasury and the public trust are protected.

This man does not deserve his pay. He does not deserve his position. He does not deserve his pension. For he has shamed the country, the Judiciary, and been offensive toward people and good conduct, and for those reasons it is important that this House act, that the Senate have the opportunity to try this man, and to protect the public Treasury and the public good.

Mr. SMITH of Texas. Mr. Speaker, I yield 4 minutes to the gentleman from Texas (Mr. GOHMERT), a member of the Impeachment Task Force and a former district judge from Texas.

Mr. GOHMERT. Mr. Speaker, I also want to thank the leadership and the very responsible conduct of the chairman of the task force, ADAM SCHIFF, for having done an exemplary job in moving this along and bringing it to a head as quickly as could have humanly been done, and to Chairman CONYERS and Ranking Member SMITH. We have worked together on this because it is a very serious matter when our Federal courts are held in less than high esteem.

We have a Federal judge, as has already been mentioned, who pled guilty to obstruction of justice. He admitted to nonconsensual sexual acts. We have the transcript from the Federal court hearings in which there is actual specificity of misrepresentations. We also can take judicial notice of his orders and opinions that he wrote himself.

It is very clear that, as some of the witnesses testified, he was arrogant, he was a bully. That is not enough to impeach someone or remove them from office, but certainly obstruction of justice would be under the circumstances here.

What I found particularly offensive beyond the obstruction were the games that were played by this judge with this body. Here the day before we were having our hearing of the task force, we get a resignation letter dated June 2, 2009, addressed to the President, saying, ''I hereby resign from my position as United States district judge for the Southern District of Texas effective June 1, 2010,'' a year away, a resignation that could be withdrawn at any time before it became effective.

Now, we heard testimony from the witnesses that this judge was particularly manipulative, and that is how he was able to continue the nonconsensual sexual assaults over and over, because he was so manipulative. They were afraid of losing their jobs, and it was clear that he had said, I am the king, and it is good to be king.

It is good to be king, unless you are committing crimes and misusing the office to which you were entrusted.

But the resignation letter would just be a resignation, if it were sincere. But then we got another letter before our final hearing before the committee asking that it be taken into consideration that he had these problems and he needed his salary and his medical and he was trying to pay medical bills of his late wife. Ironically, he wasn't quite as concerned for his late wife when he was groping and manipulating and bullying people within his trust and care as a Federal judge.

We heard testimony that if someone had come before his court and used the same reasons that he gave as to why he ought to keep getting his salary, that he would not only have not been moved to sympathy, he would have been moved to anger and would have taken it out on the defendant.

So even at this late date, there is no evidence of contriteness. There is no evidence of remorse, other than being caught. There is more manipulation, which makes clear all the more that he should not have his request granted that he be paid as a Federal judge while he is sitting in prison for committing crimes while he was getting paid to be a Federal judge.

Let's bring this to an end and vote for the impeachment.

Mr. CONYERS. Mr. Speaker, I reserve my time.

Mr. SMITH of Texas. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. POE), the deputy ranking member of the Crime Subcommittee of

the Judiciary Committee and also a former district judge from Texas.

Mr. POE of Texas. Mr. Speaker, I think a little history is in order here, because only Congress can remove a Federal judge. It is part of the checks and balances in our Constitution. It prevents the executive who doesn't like what a judge is doing from taking that person out of office. It prevents other judges in the United States in the judicial branch from removing a judge when they don't like that judge's opinion. That is our duty today, to resolve this issue.

Over my career, I have been somewhat critical of Federal judges, but the reason is because of a philosophical difference sometimes with interpretation of the Constitution and constitutional law.

□ 1430

For the most part, most of our judges, the hundreds that serve all over the United States in the third branch of government, have the utmost integrity and demeanor. In our judicial branch, I would hope we would always have the best legal minds on the bench, not the best legal minds that appear before the bench as attorneys. Unfortunately, that's not universally true, because our Federal judges are underpaid. The lawyers that appear before them, for the most part, make more than the Federal judges. But they serve, not because of money. They serve because of their pride and belief in our Constitution and public service.

Judge Kent is the exception to this rule. We are past the stage of allegations because he made admissions against his own interest in a court of law sufficient to convict him of a felony to the degree it is an abuse of office, abuse of duty, while serving on the bench in a courtroom. That basically is the end of the story. It is a felony. It is a high crime and misdemeanor. He's in prison, and his actions since his conviction show a haughty spirit and a total disregard for his conduct.

Mr. Speaker, in the United States, we don't pay Federal judges to go to the penitentiary. He should be impeached today by this body.

Mr. SMITH of Texas. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa (Mr. KING), who is also a member of the Judiciary Committee.

Mr. KING of Iowa. Mr. Speaker, first I want to thank all of those who volunteered on this task force for impeachment. And I especially want to thank Chairman CONYERS and Ranking Member SMITH for pulling this together in their professional fashion and the people on our side of the aisle and Mr. SCHIFF from California who has taken to conduct himself, I think, with a solid degree of professionalism throughout these proceedings.

And I'm very well aware, Mr. Speaker, that this is a rare and extraordinary step that this Congress is taking, and that this is a serious moment. And when I read through this report that's been produced by the task force that pulled together the data in a compressed fashion, it is appalling to me that this could have gone on as long as it did.

But I will say, when the conviction came down and the sentence was made, the 33 months in the Federal penitentiary to Judge Kent, this Congress acted immediately and quickly and did so in a bipartisan fashion to do our constitutional duty, and brought this through the hearing and committee action to this floor and, with urgency, is ready to send it over to the United States Senate, whom I believe will act also immediately with dispatch.

And as I look at this, I see this as an abuse, as arbitrary power. The high crime and misdemeanor that we're talking about is sexual abuse of subordinates, and the arbitrary power of using the official oppression of the power of his office and the threat of removing them from their jobs if they raised a voice, and also the threat that no one would believe them because he had manipulated the others around him and, to some degree, I believe that is true.

So it's essential that we take this extraordinary step, Mr. Speaker, and I am gratified that this Congress has acted immediately, pulled themselves together to take this action in a bipartisan fashion in a solidly constitutional fashion. We have, I think, added to today and will continue to add to the definition of high crimes and misdemeanors, and further put into the RECORD a solid foundation, and send a warning out to other judges that might think they could abuse this power.

So I urge adoption of this language that's here, and I commend my colleagues.

Mr. SMITH of Texas. Mr. Speaker, I yield 1½ minutes to the gentleman from Georgia, Dr. BROUN, who is also a member of the Homeland Security Committee.

(Mr. BROUN of Georgia asked and was given permission to revise and extend his remarks.)

Mr. BROUN of Georgia. Mr. Speaker, I rise today in support of this resolution. This judge should be, and I think will be, impeached with this resolution. And it's about time for this body to do its constitutional authority, to be a check on judges. Unfortunately, this Congress has not fulfilled its constitutional authority in many instances.

Article I, section 1, sentence 1 says, all legislative powers therein granted shall be vested in the Congress of the United States, which shall consist of a Senate and House of Representatives.

We have had a perversion of the Constitution by both administrations of both parties in the Presidency, as well as by Congress. The Constitution has been perverted. We all swear to uphold the Constitution against enemies, both foreign and domestic. We've got a lot of domestic enemies of the constitution, and I think enough is enough.

Under the Constitution, in the writings of our Founding Fathers in the Federalist Papers, including the first U.S. Supreme Court Chief Justice, they very clearly delineated what they meant for the Constitution to mean. And it's time that we, as Congress, took our rightful places, being the strongest power of the Federal Government, to stop this spending, to stop the destruction of our children's and grandchildren's future.

I rise in support of the resolution.

This afternoon . . . the House of Representatives will exercise one of the great checks and balances built into the United States Constitution . . . the power to impeach.

Article I, Section 2 of the Constitution gives the House of Representatives the sole power of impeachment.

Article 2, Section 4 of the Constitution lays out the criteria for who can be impeached and for what offenses . . . It specifies that—"the President, Vice President and all civil officers of the United States, shall be removed from office on impeachment for . . . and conviction of . . . treason, bribery, or other high crimes and misdemeanors."

These "civil officers" include federal judges and cabinet members.

The serious nature of impeachment is evident as the House of Representatives has only moved to impeach 18 officials in more than two centuries . . . This includes two presidents . . . one cabinet member . . . one senator . . . and 13 judges—not including today's proceedings.

Judge Samuel B. Kent . . . of the United States District Court for the Southern District of Texas . . . has pled guilty to unwanted, non-consensual sexual contact with two employees . . . testifying falsely before a special investigative committee of the federal judiciary . . . and making false statements to the Department of Justice.

His crimes certainly fit the high standard for impeachment that our Founding Fathers intended . . . I applaud the members of the Judiciary Committee on both sides of the aisle for exercising their Constitutional duty and moving this to the full House for a vote.

When thinking about today's historic action . . . I also think about how far Congress and the Federal Government have strayed from what our Founding Fathers intended.

One only needs to read the historic Federalists Papers . . . written by three of the most prominent authors of our U.S. Constitution including the very first U.S. Supreme Court Chief Justice . . . to understand that our Founding Fathers intended Congress to be the strongest and most powerful of the three branches of government.

Yet, too often in this modern era . . . we the Congress . . . have abdicated our power to legislate . . . allowing the Judicial and Executive branches to greatly expand their roles far beyond what the framers of our Constitution ever intended . . . all while taking liberty away from the American people.

Today, the Executive and Judicial Branches are sadly doing the job of the Legislative Branch . . . regardless of which party sits in the White House or in the Speaker's chair.

President George W. Bush went forward with the auto bailout despite Congress's clear opposition . . . President Barack Obama has created numerous unconstitutional ''Czars'' with massive power once reserved for Senate-confirmed officials.

Executive Orders were once rarely used . . . but today they have become the norm for Presidents to bypass Congress and judicial review.

And today, our federal benches are filled with judicial activists who are hell-bent on legislating from the bench.

When is this madness going to end?

When is this body . . . the United States Congress . . . going to reclaim the power the Constitution has given this institution . . . intended to protect the liberties of the American people?

Today we are exercising our Constitutional authority to remove a judge who clearly is not fit to serve. But this should also serve as a wake-up call to this legislative body that our work should not stop with just this one vote.

We must continue to bring accountability to those who violate their constitutionally-permitted responsibilities. . . . Those who legislate from the bench . . . without regard to the will of the people . . . Those who by-pass the Congress to institute policy.

As our Nation's first President once said: ''Government is not reason, nor eloquence . . . It is force . . . And like fire, it is a dangerous servant and a fearsome master.''

Today, we may use force to impeach . . . But we should constantly remind ourselves that this Nation sits on the precipice . . . looking to us for direction.

I urge my colleagues to not only support this resolution to impeach Judge Kent . . . I also urge them to take this opportunity to reflect on where we are headed as a legislative body . . . to stand up and take back the authority granted by the U.S. Constitution on behalf of the American people we represent.

Mr. SMITH of Texas. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, never before has a Federal judge pled guilty to a felony, gone to jail, and refused to resign immediately from the bench.

In a clear attempt to get every penny possible from American taxpayers, Judge Kent, who pled guilty to obstruction of justice and is currently in prison serving a 33-month sentence, submitted a letter to the President resigning effective June 1, 2010.

The law does not require Judge Kent to step aside from the bench, even though he is a convicted felon. Every day he remains in office he receives his taxpayer-funded salary.

Congress has taken up this impeachment inquiry and moved quickly to ensure that Judge Kent is removed from the bench. His continued attempts to game the judicial system are just another example of how Judge Kent has abused his position of authority.

Earlier this month, the House Impeachment Task Force heard testimony from Judge Kent's two victims. His victims described the living nightmare they experienced while working for him. They were subjected to physical and verbal sexual abuse for years, ranging from lewd comments to forced physical sexual conduct. Neither woman felt that she could file a complaint without losing her job. Judge Kent warned all of his staff that disloyalty was grounds for removal. It was his ability to intimidate his staff into silence that perpetuated his abuse of authority.

Today's vote is necessary to ensure that justice prevails. When a judge is given a lifetime appointment, it is a tremendous honor and responsibility. But when a judge takes advantage of his authority, he must be held accountable for any violation of those principles of justice.

Congress must put an end to Judge Kent's abuse of authority and exploitation of American taxpayers.

I urge my colleagues to vote in favor of the four articles of impeachment.

I yield back the balance of my time.

Mr. CONYERS. Mr. Speaker, we would like to close on this side by calling a senior member of the Judiciary Committee, JERRY NADLER of New York, who, in addition, is the serving member of the Chair of the Constitution Subcommittee, the remaining time on our side.

The SPEAKER pro tempore. The gentleman from New York is recognized for 3¼ minutes.

Mr. NADLER of New York. Mr. Speaker, it is always a sad day when the House has to impeach a Federal judge. Yet, today that is our constitutional duty.

Impeachment is a power that Congress rarely uses; both because it is rare that a Federal judge will so abuse his position that impeachment is required, and because it could affect the independence of the Judiciary. The Constitution reserves this extraordinary remedy for extreme cases. This, regrettably, is one of those cases.

The task force that was established by this House to inquire into whether Judge Kent should be impeached has recommended the articles of impeachment that we are considering today.

We want to commend the members of the Task Force and the Chairman, Mr. SCHIFF, for their independent, diligent and thorough investigation. The evidence they've assembled is copious and sobering. They've made a strong case that impeachment is both appropriate and necessary.

First, Judge Kent has pleaded guilty to obstruction of justice and has been sentenced on his conviction to 33 months in prison.

As part of the plea proceedings, Judge Kent signed a statement in which he admitted and described the conduct that constituted the obstructive conduct. He adopted this signed statement under oath before the court at the time of the plea.

In this signed statement, Judge Kent admitted making false statements to a Special Investigatory Committee of the Fifth Circuit about allegations of sexually assaulting court employee. In that same document, he also admitted having ''nonconsensual sexual contact'' with two subordinate court employees.

Two of the articles of impeachment allege that Judge Kent sexually assaulted these two women. His admissions that he had nonconsensual sexual contacts with the women is, indeed, a powerful one. Any unwanted sexual touching can be considered a sexual assault, so Judge Kent, by his own words, has come close to admitting that he assaulted the women, the only remaining question being the extent of the assault, and that question has been addressed by the sworn testimony of the women before the Task Force detailing Judge Kent's repeated abuse of his authority by coercing nonconsensual sex at the price of retaining their jobs.

In short, the executive branch may prosecute a Federal judge for violation of the criminal laws, and the judicial branch may punish that Federal judge upon his conviction, but only the Congress can remove a Federal judge if it determines that his behavior renders him unfit to hold his office.

In circumstances such as these, where Judge Kent misused the power of his office to undermine, rather than to uphold, the law, and where he abused his power as a Federal judge by sexually assaulting subordinates and lying to the Fifth Circuit Investigatory Committee about that, our duty to impeach is clear.

For these reasons, I intend to vote in favor of each of the articles of impeachment now before the House. I urge all the Members of this House to do likewise.

Ms. WATERS. Mr. Speaker, I rise in strong support of H. Res. 520, to impeach Judge Samuel B. Kent of the U.S. District Court for the Southern District of Texas. Judge Kent has disgraced the bench, the Bar, and the entire American public. Throughout his legal proceedings he behaved with hubris and gross disregard for justice. Even after his conviction for obstruction of justice, he has continued to exert a manipulative demeanor and arrogance, thinking himself to be above the law. There appears to be no end to his impudent demands, as even now, he continues to draw his judicial salary while imprisoned. This is unconscionable, and it was incumbent upon the House Judiciary Committee and the entire House of Representatives to take decisive action. Therefore, I applaud and commend Chairman CONYERS and Ranking Member SMITH for their bipartisan efforts to bring this measure before the floor so quickly.

The stability of any form of government rests on the rule of law. Accordingly, our system, though imperfect, rests on the American public's fundamental trust in our legal institutions and the rights the Constitution bestows

upon all U.S. citizens. Most important to any justice system is broad legitimacy and acceptance of those who act within the legal framework. People must believe they have access to a fair trial, an impartial jury, and a neutral judge. Judges have the duty to render well-reasoned and sound legal opinions, without bias and personal prejudice. We expect individuals who hold a lifetime appointment as a federal judge to act honestly out of respect for the law.

Judge Kent's sexual assault of two female employees and his subsequent efforts to lie about his actions to other federal judges were reprehensible acts. This conduct is totally inconsistent with the dignity and respect we expect from all federal judges.

Even though Judge Kent pleaded guilty to obstruction of justice, he continues to receive a salary for a job he is no longer suitable to perform. And he will continue to collect federal wages unless we act today and pass these articles of impeachment.

Every day Kent continues to draw his judicial salary is an affront to our legal system and to the American taxpayers. This resolution signals to Kent and others that no one is above the law—not even a federal judge. That is a testament to the rule of law and goes to the very essence of our justice system. The law must be blind, and everyone must be subject to its consequences and punishments as well as to its benefits and protections.

Mr. Speaker, I am so disappointed that Judge Kent has refused to resign from office and that we are forced to take this action to remove him from office. However, impeachment is provided for in the Constitution for circumstances such as this. Therefore, I add my voice of support for H. Res. 520 to impeach the disgraced Judge Samuel Kent, and I urge my colleagues to vote yes on the resolution. I also hope our colleagues in the other body will act with all deliberate speed to remove this disgraced judge from the federal bench.

Mr. PAUL. Mr. Speaker, as the House of Representatives Member for Galveston, Texas, I have followed the case of Judge Samuel Kent with great interest. My study of the facts of this case has convinced me that the House Committee on the Judiciary made the correct decision in recommending that Judge Kent be impeached. Unfortunately, because of a commitment in my congressional district, I was only able to be on the House floor for the vote on the first count. Had I been on the House floor for the vote, I would have voted for all four counts of impeachment. I hope the Senate expeditiously acts on this matter.

The SPEAKER pro tempore. All time having been yielded back, the Chair will divide the question for voting among the four articles of impeachment.

The question is on resolving the first article of impeachment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. SENSENBRENNER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, this 15-minute vote on resolving the first article of impeachment will be followed by 5-minute votes, if ordered, on resolving each of the three succeeding articles.

The vote was taken by electronic device, and there were—yeas 389, nays 0, not voting 44, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Two minutes remain in this vote.

□ 1516

So the third article of impeachment was adopted.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. ROONEY. Mr. Speaker, on rollcall No. 417, I was unavoidably detained. Had I been present, I would have voted "aye."

The SPEAKER pro tempore. The question is on resolving the fourth article of impeachment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. SENSENBRENNER. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 372, noes 0, answered "present" 1, not voting 60, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Two minutes remain in this vote.

□ 1521

So the fourth article of impeachment was adopted.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Ms. KILPATRICK of Michigan. I was unable to attend to several votes today. Had I been present, I would have voted "aye" on Articles I, II, III, and IV.

PERSONAL EXPLANATION

Ms. ESHOO. Mr. Speaker. I was not present during the rollcall vote Nos. 415 to 418 on June 19, 2009. Had I been present, I would have voted:

on rollcall vote No. 415 I would have voted "yea;"

on rollcall vote No. 416 I would have voted "aye;"

on rollcall vote No. 417 I would have voted "aye;"

on rollcall vote No. 418 I would have voted "aye."

PERSONAL EXPLANATION

Mr. RODRIGUEZ. Mr. Speaker, during rollcall vote No. 417 and 418 on H. Res. 520, I was unavoidably detained. Had I been present, I would have voted "aye."

PERSONAL EXPLANATION

Mr. GENE GREEN of Texas. Mr. Speaker, during rollcall vote Nos. 417 and 418 on H. Res. 520, I was unavoidably detained. Had I been present, I would have voted "aye."

PERSONAL EXPLANATION

Mr. BACA. Mr. Speaker, during rollcall vote Nos. 417 and 418 on H. Res. 520, I was unavoidably detained. Had I been present, I would have voted "aye."

PERSONAL EXPLANATION

Mr. TIAHRT. Mr. Speaker, on rollcall vote Nos. 415, 416, 417, and 418, had I been present, I would have voted "aye" on all 4 articles of impeachment.

PERSONAL EXPLANATION

Mr. STEARNS. Mr. Speaker, on rollcall Nos. 415, 416, 417 and 418, had I been present, I would have voted "aye" on all 4 articles of impeachment.

Mr. TIM MURPHY of Pennsylvania. Mr. Speaker, on rollcall Nos. 416, 417, and 418, I was unavoidably detained. Had I been present, I would have voted "aye."

APPOINTING AND AUTHORIZING MANAGERS FOR THE IMPEACHMENT OF SAMUEL B. KENT, A JUDGE OF THE UNITED STATES DISTRICT COURT FOR THE SOUTHERN DISTRICT OF TEXAS

Mr. CONYERS. Mr. Speaker, I send to the desk a resolution and ask unanimous consent for its immediate consideration.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

The text of the resolution is as follows:

H. RES. 565

Resolved, That Mr. Schiff, Ms. Zoe Lofgren of California, Mr. Johnson of Georgia, Mr. Goodlatte, and Mr. Sensenbrenner are appointed managers on the part of the House to conduct the trial of the impeachment of Samuel B. Kent, a judge of the United States District Court for the Southern District of Texas, that a message be sent to the Senate to inform the Senate of these appointments, and that the managers on the part of the House may exhibit the articles of impeachment to the Senate and take all other actions necessary in connection with preparation for, and conduct of, the trial, which may include the following:

(1) Employing legal, clerical, and other necessary assistants and incurring such other expenses as may be necessary, to be paid from amounts available to the Committee on the Judiciary under House Resolution 279, One Hundred Eleventh Congress, agreed to March 31, 2009, or any other applicable expense resolution on vouchers approved by the Chairman of the Committee on the Judiciary.

(2) Sending for persons and papers, and filing with the Secretary of the Senate, on the part of the House of Representatives, any subsequent pleadings which they consider necessary.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

The resolution was agreed to.

A motion to reconsider was laid on the table.

LEGISLATIVE PROGRAM

(Mr. MCCARTHY of California asked and was given permission to address the House for 1 minute.)

Mr. MCCARTHY of California. Mr. Speaker, I yield to the gentleman from Maryland, the majority leader, for the purpose of announcing next week's schedule.

Mr. HOYER. I thank the gentleman for yielding.

Mr. Speaker, on Monday, the House is not in session.

On Tuesday, the House will meet at 10:30 a.m. for morning-hour debate and noon for legislative business.

On Wednesday and Thursday, the House will meet at 10 a.m. for legislative business.

On Friday, the House will meet at 9 a.m. for legislative business.

We will consider several bills under suspension of the rules. The complete list of suspension bills will be announced by the close of business today.

In addition, Mr. Speaker, we will consider H.R. 2892, the 2010 Homeland Security Appropriations Act, and the 2010 Interior and Environment Appropriations Act. We will also consider the National Defense Authorization Act for fiscal year 2010.

Mr. MCCARTHY of California. I thank the gentleman.

And I would just like to ask: he noticed two appropriations bills for next week, the Homeland Security and the Interior. I was just wondering if the gentleman could tell us what he believes next week's process will be in terms of amendments.

And I yield.

Mr. HOYER. I thank the gentleman for yielding.

The two appropriations bills are two of the 12 appropriation bills that it is my intention to see us send to the Senate by the end of next month. Obviously, as the gentleman knows, the fiscal year ends on September 30; therefore, in order for us to get these bills completed and do them individually rather than bundled in an omnibus, which I think is a far preferable process, it's necessary for us to move these bills in a timely fashion. The rules, therefore, will try to accommodate both the Members and the time frame and the time constraints that we confront.

I would say to the gentleman that we tried to reach, over the last 2½ months, some agreement on time constraints. Indeed, I offered to have a choice of amendments by your side after we reached a time agreement. We were, as the gentleman knows, unable to reach such agreement. In fact, I was told by your leadership that no such agreement was possible.

In 2004, on the bill that we did yesterday, when the majority was then your side of the aisle there were 16 amendments in total offered to the bill we did yesterday, 10 by Republicans—of course it was your bill and you were in charge—and six amendments offered by Democrats. We asked for preprinting of amendments so we would have some idea of what amendments would be pending, and your side filed 102 amendments. That is more amendments total than were filed by either party in 2004, 2005 and 2006, so it was clear that if we had had a rule that provided for the 5-minute rule, with 434 Members having the right to 5 minutes on each amendment, that it would have been impossible to finish that bill, much less 12 bills, by the end of July, very frankly, so that ultimately we had to do a structured rule to accommodate doing the people's business in a timely fashion.

I'm sorry that we couldn't reach agreement. There have been no further discussions, although I did talk to Mr. CANTOR, who is not here today—or at least not here this afternoon—I did talk to him on a number of occasions about this as recently as the night that we went to the Rules Committee to get the structured rule. I have not heard from him or from Mr. BOEHNER with respect to any option available to us for time constraints.

In fact, Mr. OBEY, as you know, had a colloquy with Mr. LEWIS on the floor on the rule that was essentially an open rule. And the colloquy essentially asked by Mr. OBEY, Can we reach time agreements? And Mr. LEWIS responded, I'm afraid my conference might very well have a revolution on its hands and you might have a new ranking member, in which he indicated that time constraints were not possible. Therefore, I say to my friend from California that we are considering a rule which, as I said, will allow us to consider amendments on substance, but allow us

to do so in a time frame that may well be shorter than has been the case in the past.

Let me say to you that when we last considered the Commerce-Justice-Science bill in 2006 when your side was in charge, you got a unanimous agreement from Mr. OBEY on time constraints. Those time constraints provided for consideration of approximately 17 hours on the bill.

In 2007, we got—not time constraints, but about the same amount of time. Now, unfortunately, after we thought in 2007 we were going to have agreement to do about the same time that we gave to you when you were in the majority, notwithstanding that, we went 50 hours over. Now, 50 hours, in terms of legislative time, is at least 2 weeks of time, unless of course you have a day like yesterday. But in terms of a normal day, that's 2 weeks. We simply cannot complete and do our business in that context.

So I tell my friend that we are considering a structured rule because we believe that if we are going to get our work done, that's necessary. We believe it has been amply shown—amply shown—in 2007, and because we were unable to reach, over 2½ months, an agreement on time constraints, that the only way you are going to allow us to get our work done is if we limit the time frame in which we can act.

□ 1530

Mr. MCCARTHY of California. I thank my friend for expressing the desire to get the work done in this House, and I will tell you from this side of the aisle, that is our desire as well.

Knowing when we talk about time, we believe we can get our work done on time as well. But having only been in this House 2½ years and seeing bills come to the floor and knowing, even when we brought the stimulus, the whole idea about time, that soon we found out, because somebody rushed the bill to the floor, that there were AIG bonuses in the bill at the time. I always think the American people believe it's okay to have some checks and balances; it's okay to have debate on the floor; it's okay to have some amendments asked upon the bill process.

And I ask my good friend who brought up the number of amendments, the thing that I would recall, though, this is in a world of preprinting, and when you deal with preprinting of amendments, that you have to submit them earlier, there are numerous ones you submit but they will not come to the floor. Much like when we started the debate this week, we did not enter the first Republican one until six of them had already been denied. So even though a quote will be named of a hundred and some amendments, that's not the number that we'll take up.

And when we talked about the ability of having an agreement on time, that came to pass after the bill had started. And I would think in the idea of making sure that the best products come out of this floor that a time idea would not be until you start the bill. Look to where the process is, and how would it be wrong to have a debate?

When I just watched the legislative branch today, we only had one amendment that we all agreed to. We had one chance of a motion to recommit, which we were able to save the taxpayers $100,000, where 374 people came together and said, yes, we could do better, that we don't have to settle for good; we could settle for great. But how much more money could we have saved had we had that opportunity to offer it?

And one thing I would say to the gentleman is if we did have an open rule, as it was before, and we talked about maybe taking away the preprinting, maybe we could be a little faster in the process. And I think looking at the history of what happened this week, we could have gotten it through faster in an open rule.

So I ask the gentleman, as he talks about having a closed structure in the process, is there any assurance that we know you're going to agree to that plan or maybe even have an open rule as we progress?

Mr. HOYER. I'm sorry. Would you repeat the question.

Mr. MCCARTHY of California. You had said earlier that you were looking to——

Mr. HOYER. I know what I talked about, but at the end you asked a question, and I'm not sure I got exactly what the question was.

Mr. MCCARTHY of California. Well, the assurance, will you stay with that, or is there any ability to open it up, to have an open rule?

Mr. HOYER. Let me respond to the gentleman's observation with respect to starting the bill without agreements on time. We did that in 2007. We went 50 hours over what we agreed to in time constraints the year before when you were in the majority. My belief is, and I tell my friend this very sincerely, and I think my friend knows my reputation about working across the aisle and working in an honest, open fashion, is that the agreement was that we would do exactly, not to the minute, but within the framework of the agreement that we gave to you to consider the bills that you brought to the floor in 2006. We expected the same consideration. Notwithstanding that, notwithstanding that, we went 50 hours over what I thought the agreement was.

Now, 50 hours, as I told the gentleman, is 2 weeks. And 2 weeks is a long time in terms of the weeks we have available to do our bills. In fact, at this current time, we have approximately 7 weeks left to complete the appropriations process, House, Senate, and sending it to the President, if we do it in a timely fashion. Now, usually we do not do that, and I think that's unfortunate. Both sides don't do that. But I'm very hopeful that we will do it.

Let me make one additional comment. You mentioned the AIG bonuses. Clearly, the AIG bonuses weren't in that bill to which you referred. That bill, of course, came from the administration of your party and the Secretary of the Treasury from your party. And as you know, when they originally submitted the bill, it was a 3-page bill for $700 billion.

Now, the gentleman is correct that we didn't have appropriate constraints in there to preclude AIG's doing that, but they certainly weren't in the bill. And to represent that as the case, I'm sure the gentleman did not mean to imply that they were in the bill. They clearly were not.

So I say to my friend we've had experience on this. It's not as if you would like to believe or represent that we have a clean slate, that we're coming at this just brand new, clean, and everybody wants to be fair and balanced. The fact of the matter is that did not occur in the last year. Unfortunately, we didn't do the appropriations process very well last year. Both parties point the finger at each other for the blame. Irrespective of whom was to blame last year, we didn't do it. I don't like that. I want to see the regular process pursued, and I intend to provide for timeframes in which to do that. And as I say, for 2½ months I pursued an effort to see if we could reach time agreements, as we gave to you in 2006. We have been unable to do that. I think that's unfortunate. But having failed to do that, I, frankly, want to tell the gentleman that I will not advise Mr. OBEY nor the Rules Committee nor the Speaker to proceed for an hour or 2 hours or 5 hours or 10 hours before we get an agreement on time constraints, which was the practice, frankly, in 2007, and I don't intend to go down that road again.

Mr. MCCARTHY of California. Just to clarify to my good friend that on the other side of the aisle in the other house, they had passed an amendment to deny the right for those AIG bonuses. And if I recall when I was sitting on this floor, those lights were all green saying ''yes'' to the resolution, that they would have 48 hours, the American people, to see that bill. But in the short timeframe, within the next day, that was not to be true. That was not the agreement that transpired on this floor that, yes, it was handed out after midnight and, yes, we voted on it the next day.

Mr. HOYER. Would my friend yield on that point?

Mr. MCCARTHY of California. I will gladly yield to my friend.

Mr. HOYER. For what purpose was the 48 hours asked for?

Mr. MCCARTHY of California. It was the motion to instruct. And one thing I would say——

Mr. HOYER. For what purpose was the 48 hours asked for?

Mr. MCCARTHY of California. If I may just finish, the one thing I was asking for was really for the American people to be able to see it, be able to read it and be able to understand it.

Mr. HOYER. Will the gentleman yield again?

Mr. MCCARTHY of California. Gladly, to my friend.

Mr. HOYER. Isn't that what preprinting of amendments attempts to do? I yield back.

Mr. MCCARTHY of California. I thank the gentleman.

One thing I would say as we continue forward, if I could just finish with this discussion, if it is your intention to close down and continue to have a preprinting, is there a number in the gentleman's mind that he could tell this side of the aisle that the Republicans would be able to have a number of amendments just to have a check and balance for the American people when we talk about the billions of dollars that will be spent in these appropriation bills, even though we're being denied the amount of time that we can debate it?

I yield to my friend.

Mr. HOYER. I thank my friend for yielding because that's a good question. That's exactly what I offered your leadership.

Mr. MCCARTHY of California. Do you have a number in mind?

Mr. HOYER. No. I offered it to your leadership. I didn't mention a particular number, but I offered that to your leadership for over 2½ months. Your leadership concluded that they could not make or would not make such an agreement. I tell my friend that it's difficult to put a number on the amendments because, as the gentleman says and as I told you, we asked for six amendments. We offered six amendments in 2004 to that bill that was considered yesterday, six. Now you may say you would have winnowed 102 down to a lesser number. I don't know what the lesser number would have been, whether it would have been 70 or whether it would have been 50 or whether it would have been 40. But as you know, without a structured rule, with 5 minutes for each Member of the House to speak, you can do the math. Five times 400, obviously, is 2,000 minutes. Divide that by 60, you have a lot of days to consider that bill.

I think the gentleman is probably correct, it would not have been 102 amendments, but I don't know what number there would have been, and it's impossible to put a number on it unless we know how many amendments are requested. If as was the case in 2004 and we only asked for six, giving us 10 would not have seemed to make much sense. On the other hand, if we asked for 20, maybe a higher number certainly would be in order.

So I say to my friend, we will have to see how many amendments are sought, but we are not going to go down the road we went down in 2007. And I say to the gentleman, in my opinion, the problem with his party is they're hoisted on the petard of their performance in 2007 in trying to argue that somehow we don't have reason to be concerned by filibuster by debate. Yesterday was filibuster by vote, and we wasted a lot of time yesterday, unfortunately. Many hearings were cancelled on health, on safety, on statutory PAYGO and other matters that we couldn't have hearings on because we were voting four times on an issue with essentially the same result each time.

Mr. MCCARTHY of California. I do appreciate the decades of service you have provided, and, again, I say I have only been here 2½ years. But as I always studied and watched Congress and understood the idea of a filibuster, never did I think a filibuster was 20 minutes. Never did I think when you came to the floor, on the very first amendment a Republican took up, that in 20 minutes somehow it got called a filibuster.

And from one perspective on this side of the aisle, please understand, you set the rules. Nowhere did we not abide by the rules. You asked for preprinting; we provided our amendments preprinted. You said to go along with the debate; we got into the debate. We were into 20 minutes. And I think the American people like the idea of debating on this floor.

But if I may move on, there is just one final question on this. The reason I asked you about the number of amendments on the Republican side, you've got to understand the questioning of why I would. We just took up a legislative branch, and you said you weren't sure about how many Republican amendments there could be in the future, but to my good friend, there were none. There wasn't one Republican amendment. So our ability within the rules as they're constructed, we have one motion to recommit, and you know what happened? 374 people in this Chamber joined hands together. That doesn't come around very often to save the taxpayers $100,000.

So think for one moment what the American people would save in a time of crisis, and you look in my district where it's 15.9 percent unemployment, if they see a few more dollars saved, it helps them a great deal.

But if I may move on, to my good friend from Maryland, I would like to ask him about cap-and-trade. The Speaker has announced and I have read a lot of what she has said about if you don't finish this bill in Agriculture and Ways and Means by a certain date, you lose the right of authority. And the Speaker had a goal of considering the cap-and-trade bill on the floor prior to the July 4th process. Does my friend believe that time will still be the case, that we will see the bill before July the 4th?

Mr. HOYER. The energy independence and climate bill to which the gentleman refers, as you know, was marked up in committee and passed out of committee prior to the May break. Since that time, there have been a lot of discussions, and the Speaker did, in fact, say that committees with concurrent jurisdiction ought to act by the 19th, today, to try to bring this matter to conclusion. As the gentleman knows, I did not announce that bill for next week. I don't want to say it's not possible, but I have, for the last 3 months, been telling people, particularly the press that asked me the schedule, that I thought the energy independence and climate bill would be on the floor either the last week in June or the first week we get back in July. So that was the timeframe from my expectations. At this point in time, I have no reason to believe that it's going to be on the floor next week, but I want to make it clear to the Members that work is being done as we speak on this bill. The Agriculture Committee and Ways and Means in particular are working on this bill. We believe this is a very critical and important bill. This is one of the President's priorities. So I say to the gentleman that I have not announced it on the schedule. My present expectation is that it will not be on for next week, but if agreement was reached today or tomorrow and it was possible to move forward, it is possible. And if we have the time to do that, it is possible that we would consider it next week.

Mr. MCCARTHY of California. If I just may follow up on that, should I believe what I read in the paper, that even though this bill has three different committees of jurisdiction with the Agriculture and the Ways and Means bill, if it was not taken up by a certain date, would they lose the jurisdiction right to take up the bill before it came to the floor, or will we expect it to come out of those committees before the floor?

□ 1545

Mr. HOYER. I think that, obviously, is going to be up to the Speaker and committee Chairs as they discuss this. But I think, again, we deal with time constraints, and we want to do things right. But we know that if you simply do not set targets to get things done, the legislative process, which I have been at for over 40 years, sometimes can delay, and you don't get things done. So you set target dates to get things done, and this is what she has done. I don't think it's so much a question of losing jurisdiction as it is a sense of trying to get something done

by a date so that you can then move on to final passage on the floor of the House.

Mr. MCCARTHY of California. I thank the gentleman.

And if I may move on to another subject. During the debate of the war supplemental, one major issue was dropped from the bill. The bipartisan provision to prevent release of detainee photos was removed from the final version, knowing the release of these photos could create greater tension in the very region that our troops are now fighting. As the gentleman knows, the Senate unanimously passed the Lieberman bill yesterday, preventing the release of detainee photos. I am just wondering why the bill didn't come to the floor today to protect our troops.

Would you consider that to be brought up next week?

Mr. HOYER. I appreciate the gentleman's question. I think many of us share the view that the present action was well advised as it relates to the safety and security of our troops. On June 11, as the gentleman may know, just a few days ago, the President wrote to the Chairs of the House and Senate Appropriations Committees and said as follows:

''I deeply appreciate all you have done to help in the efforts to secure funding for the troops. I assure you that I will continue to take every legal and administrative remedy available to me to ensure that DOD and detainee photographs are not released.''

In light of that—and of course, the court has put a stay on the release, as I'm sure the gentleman knows. So there is no present intention by the administration to release these photos. So while the Senate acted yesterday, obviously there's no need for us to act immediately on this. I am sure that the committee will consider it in due course.

Mr. MCCARTHY of California. I thank the gentleman. And knowing that and with the Senators knowing that as well, they still passed it yesterday unanimously.

Do you believe we could take it up next week?

Mr. HOYER. I think we could do a lot of things next week.

Mr. MCCARTHY of California. I look forward to that. I appreciate that.

Mr. HOYER. Well, I didn't say that we would do that next week. You asked me, could we. We could.

Mr. MCCARTHY of California. Well, I would never bet against you. I appreciate the opportunity to bring that up.

And to my good friend from Maryland, knowing that this is the last colloquy before the Fourth of July break, as we look forward to when we come back, there are a lot of big topics coming before this House. I will tell you from a personal level, it was a little disturbing on some of the items I'm reading about. Because in this House on this side of the aisle, I participated really for the first time coming back this year of inviting our President to our conference, inviting President Obama to the conference because we wanted to work in a bipartisan manner. We worked on the idea of the stimulus bill where we got together and we created ideas that he asked for, and we gave it to him. We could create twice as many jobs with half as much money, scored by his own administration. And when I look forward, one thing that we did early on was, this leadership on this side of the House signed a letter to the President, talking about, we want to work together on health care. We want to find common ground. We want to make sure that all Americans have access to health care. We want to make sure that we solve this problem. And in doing that, we even put together our own working group. We set out our principles, and we continue to put them forward. And one of the concerns I had when I tried to find information from the other side of the aisle—I would go to the President's Web page. First there were eight items; and as we got closer, it would get down to three items. They were actually taking things off the Web site. But then when I read in the newspaper Politico where people are being directed on your side of the aisle not to talk to Republicans on the health care issue—I don't know if you read that quote, but I can provide it to you. And then when I hear of other people that are outside of these Chambers working on it, being told not to talk to Republicans or they would not be put in the room, I'm just wondering if there's a chance that that behavior will change and that we will have the opportunity to work together, that we will have the opportunity for our ideas to be presented. That is something the American people would want, that we could work in a bipartisan—much like earlier when a Republican produced the motion to recommit, and 374 people came together to save the taxpayers $100,000.

I yield to my friend from Maryland.

Mr. HOYER. I thank the gentleman for yielding.

I'm not sure what quote and who was instructed not to speak to Republicans because I have had a number of discussions with my good friend ROY BLUNT. So I didn't follow that direction, I haven't give that direction, and I want to make it clear that from the Speaker's perspective and mine, anybody on our side of the aisle who wants to sit down with anybody on your side of the aisle at any time to discuss health care issues, either in committee or in subcommittee, they are more than free to do so; and I would encourage them to do so. In fact, as I think the gentleman may know, all of the three committee Chairs of Energy and Commerce, Education and Labor and Ways and Means have been sitting down with their ranking members.

Now there was a change in ranking members, as you know, on the Education and Labor Committee. Frankly, I'm not sure that you've made the change on Education and Labor. Maybe you have.

Mr. MCCARTHY of California. Yes, we have.

Mr. HOYER. In any event, so I'm not exactly sure about Mr. MILLER. But I know that Mr. RANGEL has had discussions with Mr. CAMP; and I know that Mr. WAXMAN has sought and indicates to me—and I wasn't there—but he's had discussions with his ranking member as well, Mr. BARTON.

So let me assure the gentleman that we welcome bipartisan participation. I told that to Mr. BLUNT. Mr. BLUNT and I, I think as you know, have a history of working together successfully on behalf of legislation in this body, and I have great respect for him. He heads up your health task force. We have had discussions; and I've asked him to provide me with any suggestions that his task force has that he believes would be useful for us to discuss further; and I'm very hopeful that he will do so. As you know, we put a discussion draft on the table today for discussion. Our side has put some principles out as well. I'm hopeful. I know the President's hopeful that we can discuss those. We did have an unfortunate experience, as the gentleman recalls, when the President said he wanted to sit down and talk about the stimulus, and he was coming down to meet with your caucus, and a half-hour before he got there, your leadership instructed all of your Members to vote ''no'' on the bill before talking to the President. I thought that was unfortunate. But notwithstanding that, it's our intention to continue to try to seek bipartisan input and agreement where that can be possible.

Mr. MCCARTHY of California. Well, I thank the gentleman. The only thing I would say, having been in that caucus, the President came to the caucus that we had invited him to prior to our retreat because we wanted to speak to this President before. And I will tell you, knowing that these are closed-door sessions, but this is probably one of the best caucuses I had been to. I thought it was very honest, open, talked about the issue, discussed the issue. There were times when the President disagreed with us. He said, I philosophically disagree. But other times he said, You know what, that's a good idea. Let's work on that. But as the President left that caucus, the other side introduced the bill, so in essence in part we felt crushed with the opportunity to even work in a bipartisan manner. But we continued along the trail where we put the working group together, and we didn't go out and score the bill our way. We took the President's scoring, which will tell you how many jobs and how much money it would cost; and our focus was on small

business and job creation. It created twice as many jobs with half the amount of money. Our whip, Mr. ERIC CANTOR, personally handed it to the President; and the President said, This isn't crazy at all.

So we, on this side of the aisle, really look forward to working in a bipartisan manner and especially after seeing the scoring on the latest health care bill from the Democratic side, where it would only help 15 million of those uninsured but costs more than $1 trillion, knowing that that does not solve the problem, but continues to cost taxpayers tremendous amounts of money. I appreciate your assurance that maybe the attitude has changed, that the quote from Congressman JIM COOPER to the Politico where he was told not to work with Republicans, that that will change. I appreciate your work on that and the words you have said today.

Mr. HOYER. Will the gentleman yield?

Mr. MCCARTHY of California. Gladly.

Mr. HOYER. Because I know the gentleman doesn't want to mischaracterize my remarks.

I have never said we have changed our opinion. That has been our opinion expressed by our President, expressed by me and expressed by others, that we desire to work in a bipartisan mode. But the gentleman surely understands that there were, I can tell you, people on your side of the aisle who indicated to me that they wanted to vote for a number of the pieces of legislation that dealt with the stimulus; but the party pressure was so great to vote ''no'' that they didn't feel comfortable doing it. I may in private give you those names so you can check on the veracity of my representation.

Mr. MCCARTHY of California. Well, I appreciate the gentleman because when I was sitting here on the floor, and I saw 17 of your Members join with everyone voting ''no,'' the bipartisan support, that there was a better way, that there was an opportunity. That kind of goes back to the whole debate about amendments. I always thought, coming to this floor, that maybe the power of the idea should win, and no one should be afraid of an idea or an amendment, that we would actually be better. But I think the opportunity to spend time with the gentleman—and I appreciate it if some Members on your side thought differently in the past, that we can get the message out. I appreciate the work that you have done.

Mr. Speaker, I thank the gentleman, and I yield back the balance of my time.

ADJOURNMENT TO TUESDAY, JUNE 23, 2009

Mr. HOYER. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 10:30 a.m. on Tuesday next for morning-hour debate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

PROTESTS RESULTING FROM IRANIAN PRESIDENTIAL ELECTION

(Mr. GARRETT of New Jersey asked and was given permission to address the House for 1 minute.)

Mr. GARRETT of New Jersey. It has now been 1 week since the Iranian people went to the polls to elect their new political leader. And in the last 7 days, the results of the election have been questioned, the media in Iran has been suppressed, thousands of demonstrators have protested, and some of these demonstrators have been injured and killed. Yet this very morning the supreme leader of Iran compared the election to a family disagreement. He offered no apologies for the deaths of the civilian protesters and, instead, simply blamed the Western media for being Zionist-controlled.

As a Member of Congress, I am appalled at this response and the apparent mockery of a fundamental democratic freedom, the freedom to protest and report on one's own government. We know the demonstrators were harassed rather than defended, and we know that Internet connections were cut and cell phone services disabled. Even foreign radio and television satellites were jammed.

So I ask, is this the behavior indicative of a country that recognizes liberties? I was proud earlier today to vote for H. Res. 560 and express my support for the Iranian citizens who recognize the need for their voices to be heard.

CONGRATULATING THE LADY GOLDEN TIDE SOFTBALL TEAM

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute.)

Mr. THOMPSON of Pennsylvania. Madam Speaker, I rise today to congratulate the Lady Golden Tide softball team of Curwensville, Pennsylvania, for capturing the State softball championship in their division.

This is the team's second Pennsylvania Interscholastic Athletic Association Class A title in 3 years. They won on June 12 by a single run against a powerhouse team from Old Forge, the Lady Blue Devils, who had a record of 18 wins and 3 losses.

Tide Coach Allen Leigey said in an interview, ''This group of girls has been great, and we're really going to miss the seniors. They've done everything we've asked, and their winning attitude is just tremendous.''

Winning Lady Tide pitcher Holly Lansberry also hit the winning run for the team in a 1–0 game. The Lady Blue Devils were on a 17-game winning streak, but the momentum was with the Tide. After the Curwensville run scored, the Lady Blue Devils were shut out by a double play in the sixth inning.

All these women deserve praise for their competitive spirit and their team effort. Coach Leigey can be justifiably proud of these young women who worked hard to get to the finals and to come home champions.

Congratulations to the Lady Golden Tide.

MORE NUCLEAR ENERGY IN THE UNITED STATES

(Mr. WAMP asked and was given permission to address the House for 1 minute.)

Mr. WAMP. Madam Speaker, as the House and the Senate continue to look for solutions to a problem of climate change and global warming, as the chairman of the Nuclear Energy Working Group here in the House, I just would remind everyone that we built our first 100 nuclear reactors in this country in less than 20 years; and we could build another 100 in the next 20 years if we really wanted to take a global leadership role on climate change, carbon reduction, pro-America, 5,000 jobs per plant. We can reprocess the spent fuel and turn it back into energy as they do in other countries, like Japan and France. All around the world they're looking back at us saying, Why does the United States not move towards nuclear power and nuclear energy? We need it from a competitiveness standpoint, from a jobs and economic standpoint, and to lead the world towards cleaner air. Nuclear is the way to go.

□ 1600

SPECIAL ORDERS

The SPEAKER pro tempore (Mrs. KIRKPATRICK of Arizona). Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

ENSURING A SOUND CREDIT SYSTEM

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Ohio (Ms. KAPTUR) is recognized for 5 minutes.

Ms. KAPTUR. Madam Speaker, last Sunday, Treasury Secretary Geithner and the President's economic adviser, Larry Summers, both Wall Street men, wrote an editorial laying out their case for financial regulatory reform, or at least that is what they called it. It fell far short of the mark.

They stated the basis of their proposal is the theory ''the financial system failed to perform its function as a

reducer and redistributor of risk.'' Let me repeat that. Their fundamental principle is ''the financial system failed to perform its function as a reducer and redistributor of risk.'' They then advised the President to use that idea as the basis of what he proposes.

I beg to disagree. The purpose our financial system should be to assure sound credit. A financial system should be structured to promote responsible lending and responsible savings practices. We have seen the result of a financial system that lost its way and traveled down the road of high risk-taking with other people's money, a system with no boundaries, no accountability and inherently unstable.

Securitization and risk were at the heart of that failed system. Have we learned nothing? Securitization may spread out risk, but it does not spread out damage when it fails. We see that clearly enough today.

Who on Wall Street who led the charge on high risk-taking is suffering today? They are getting bonuses. I cannot say that for those Americans who are losing their jobs, their homes and their businesses.

Enshrining securitization and risk at the heart of their proposal is absolutely the wrong end of the road to be starting at. Securitization has nothing to do with sound credit. Securitization removes the connection between the lender and the borrower. It does nothing to assure sound credit, nor encourage savings and prudent lending. The lender sells the loan, and they are done. What does the lender care if the profit has been made? They don't.

We don't need more securitization, more credit default swaps, more derivatives and more obligations that are hedged so many times that no one can even find them.

The financial regulatory reforms the administration released this week do not restore prudent financial behavior. That is what is necessary to lead us out of this economic darkness. America needs a credit system that is safe and sound, not risky and not overleveraged.

Yesterday in The New York Times, and I will place this article in the RECORD, Joe Nocera said that if President Obama wants to create regulatory reform that will last for decades, he needs to do what Roosevelt did. ''He is going to have to make some bankers,'' and I would add security dealers, ''mad.''

But why are Mr. Geithner and Mr. Summers protecting Wall Street? To date, the executive branch has been barking about the too-big-to-fail institutions. But the best they have done is nip at the edges of real reform and fixing what is wrong. Did AIG teach us nothing? An institution that is too big to fail is too big to exist.

Wall Street's bailout taught banks exactly the wrong lesson. It taught them, be reckless. The U.S. Government will make sure you do not take a hit. Just keep your campaign contributions rolling our way.

Take a look at derivatives in their proposal. Why only regulate normal boring derivatives when the derivatives that got us here are the exotic ones that are being protected from regulation? Do we need yet another credit default swap debacle to teach us that every derivative needs to be regulated in a transparent way and over the counter? Didn't the President campaign on transparency? Isn't the best disinfectant sunshine? Let the sun shine too on the Federal Reserve.

Do you know that the Federal Reserve is responsible for regulating mortgage lending? But did the Federal Reserve act when the FBI warned in 2004 that the subprime mortgage fraud could become an epidemic? No. So if the FBI warned an epidemic was ahead on something that the Federal Reserve regulated and the Federal Reserve failed to act, what makes us think that they can actually regulate anything, and why should we give them more power, which the administration proposal does?

Many more questions need to be asked about financial regulatory reform. We should not rubber-stamp the administration's first idea. Our people want a sound credit system. We should ask for no less.

The first goal of our banking system, as opposed to a securities system, should be to create a safe and sound credit system, one that promotes responsible savings and lending practices. Prudent financial behavior by individuals and institutions should be its primary purpose. The administration's priorities tell me they plan a much larger role for higher-risk securities in whatever system they are envisioning, which to me threatens higher-risk behavior.

Banks traditionally have served as intermediaries between people who have money—depositors—and those who need money—borrowers. The banks' value-added was their ability to loan money sensibly and manage and collect the loans. Securitization broke down that system. The banks didn't much care about making sensible loans as long as they could sell them. The regulators didn't stay on top of it because they foolishly thought the banks had gotten the loans off their balance sheets and the chickens would not come home to roost.

[From The Washington Post, June 15, 2009]

A NEW FINANCIAL FOUNDATION

(By Timothy Geithner and Lawrence Summers)

Over the past two years, we have faced the most severe financial crisis since the Great Depression. The financial system failed to perform its function as a reducer and distributor of risk. Instead, it magnified risks, precipitating an economic contraction that has hurt families and businesses around the world.

We have taken extraordinary measures to help put America on a path to recovery. But it is not enough to simply repair the damage. The economic pain felt by ordinary Americans is a daily reminder that, even as we labor toward recovery, we must begin today to build the foundation for a stronger and safer system.

This current financial crisis had many causes. It had its roots in the global imbalance in saving and consumption, in the widespread use of poorly understood financial instruments, in shortsightedness and excessive leverage at financial institutions. But it was also the product of basic failures in financial supervision and regulation.

Our framework for financial regulation is riddled with gaps, weaknesses and jurisdictional overlaps, and suffers from an outdated conception of financial risk. In recent years, the pace of innovation in the financial sector has outstripped the pace of regulatory modernization, leaving entire markets and market participants largely unregulated.

That is why, this week—at the president's direction, and after months of consultation with Congress, regulators, business and consumer groups, academics and experts—the administration will put forward a plan to modernize financial regulation and supervision. The goal is to create a more stable regulatory regime that is flexible and effective; that is able to secure the benefits of financial innovation while guarding the system against its own excess.

In developing its proposals, the administration has focused on five key problems in our existing regulatory regime—problems that, we believe, played a direct role in producing or magnifying the current crisis.

First, existing regulation focuses on the safety and soundness of individual institutions but not the stability of the system as a whole. As a result, institutions were not required to maintain sufficient capital or liquidity to keep them safe in times of system-wide stress. In a world in which the troubles of a few large firms can put the entire system at risk, that approach is insufficient.

The administration's proposal will address that problem by raising capital and liquidity requirements for all institutions, with more stringent requirements for the largest and most interconnected firms. In addition, all large, interconnected firms whose failure could threaten the stability of the system will be subject to consolidated supervision by the Federal Reserve, and we will establish a council of regulators with broader coordinating responsibility across the financial system.

Second, the structure of the financial system has shifted, with dramatic growth in financial activity outside the traditional banking system, such as in the market for asset-backed securities. In theory, securitization should serve to reduce credit risk by spreading it more widely. But by breaking the direct link between borrowers and lenders, securitization led to an erosion of lending standards, resulting in a market failure that fed the housing boom and deepened the housing bust.

The administration's plan will impose robust reporting requirements on the issuers of asset-backed securities; reduce investors' and regulators' reliance on credit-rating agencies; and, perhaps most significant, require the originator, sponsor or broker of a securitization to retain a financial interest in its performance.

The plan also calls for harmonizing the regulation of futures and securities, and for

more robust safeguards of payment and settlement systems and strong oversight of ''over the counter'' derivatives. All derivatives contracts will be subject to regulation, all derivatives dealers subject to supervision, and regulators will be empowered to enforce rules against manipulation and abuse.

Third, our current regulatory regime does not offer adequate protections to consumers and investors. Weak consumer protections against subprime mortgage lending bear significant responsibility for the financial crisis. The crisis, in turn, revealed the inadequacy of consumer protections across a wide range of financial products—from credit cards to annuities.

Building on the recent measures taken to fight predatory lending and unfair practices in the credit card industry, the administration will offer a stronger framework for consumer and investor protection across the board.

Fourth, the federal government does not have the tools it needs to contain and manage financial crises. Relying on the Federal Reserve's lending authority to avert the disorderly failure of nonbank financial firms, while essential in this crisis, is not an appropriate or effective solution in the long term.

To address this problem, we will establish a resolution mechanism that allows for the orderly resolution of any financial holding company whose failure might threaten the stability of the financial system. This authority will be available only in extraordinary circumstances, but it will help ensure that the government is no longer forced to choose between bailouts and financial collapse.

Fifth, and finally, we live in a globalized world, and the actions we take here at home—no matter how smart and sound—will have little effect if we fail to raise international standards along with our own. We will lead the effort to improve regulation and supervision around the world.

The discussion here presents only a brief preview of the administration's forthcoming proposals. Some people will say that this is not the time to debate the future of financial regulation, that this debate should wait until the crisis is fully behind us. Such critics misunderstand the nature of the challenges we face. Like all financial crises, the current crisis is a crisis of confidence and trust. Reassuring the American people that our financial system will be better controlled is critical to our economic recovery.

By restoring the public's trust in our financial system, the administration's reforms will allow the financial system to play its most important function: transforming the earnings and savings of workers into the loans that help families buy homes and cars, help parents send kids to college, and help entrepreneurs build their businesses. Now is the time to act.

[From the New York Times, June 18, 2009]

TALKING BUSINESS—ONLY A HINT OF ROOSEVELT IN FINANCIAL OVERHAUL

(By Joe Nocera)

Three quarters of a century ago, President Franklin Roosevelt earned the undying enmity of Wall Street when he used his enormous popularity to push through a series of radical regulatory reforms that completely changed the norms of the financial industry.

Wall Street hated the reforms, of course, but Roosevelt didn't care. Wall Street and the financial industry had engaged in practices they shouldn't have, and had helped lead the country into the Great Depression. Those practices had to be stopped. To the president, that's all that mattered.

On Wednesday, President Obama unveiled what he described as ''a sweeping overhaul of the financial regulatory system, a transformation on a scale not seen since the reforms that followed the Great Depression.''

In terms of the sheer number of proposals, outlined in an 88-page document the administration released on Tuesday, that is undoubtedly true. But in terms of the scope and breadth of the Obama plan—and more important, in terms of its overall effect on Wall Street's modus operandi—it's not even close to what Roosevelt accomplished during the Great Depression.

Rather, the Obama plan is little more than an attempt to stick some new regulatory fingers into a very leaky financial rather than rebuild the dam itself. Without question, the latter would be more difficult, more contentious and probably more expensive. But it would also have more lasting value.

On the surface, there was no area of the financial industry the plan didn't touch. ''I was impressed by the real estate it covered,'' said Daniel Alpert, the managing partner of Westwood Capital. The president's proposal addresses derivatives, mortgages, capital, and even, in the wake of the American International Group fiasco, insurance companies. Among other things, it would give new regulatory powers to the Federal Reserve, create a new agency to help protect consumers of financial products, and make derivative-trading more transparent. It would give the government the power to take over large bank holding companies or troubled investment banks—powers it doesn't have now—and would force banks to hold onto some of the mortgage-backed securities they create and sell to investors.

But it's what the plan doesn't do that is most notable.

Take, for instance, the handful of banks that are ''too big to fail''—and which, in some cases, the government has had to spend tens of billions of dollars propping up. In a recent speech in China, the former Federal Reserve chairman—and current Obama adviser—Paul Volcker called on the government to limit the functions of any financial institution, like the big banks, that will always be reliant on the taxpayer should they get into trouble. Why, for instance, should they be allowed to trade for their own account—reaping huge profits and bonuses if they succeed—if the government has to bail them out if they make big mistakes, Mr. Volcker asked.

Many experts, even at the Federal Reserve, think that the country should not allow banks to become too big to fail. Some of them suggest specific economic disincentives to prevent growing too big and requirements that would break them up before reaching that point.

Yet the Obama plan accepts the notion of ''too big to fail''—in the plan those institutions are labeled ''Tier 1 Financial Holding Companies''—and proposes to regulate them more ''robustly.'' The idea of creating either market incentives or regulation that would effectively make banking safe and boring—and push risk-taking to institutions that are not too big to fail—isn't even broached.

Or take derivatives. The Obama plan calls for plain vanilla derivatives to be traded on an exchange. But standard, plain vanilla derivatives are not what caused so much trouble for the world's financial system. Rather it was the so-called bespoke derivatives—customized, one-of-a-kind products that generated enormous profits for institutions like A.I.G. that created them, and, in the end, generated enormous damage to the financial system. For these derivatives, the Treasury Department merely wants to set up a clearinghouse so that their price and trading activity can be more readily seen. But it doesn't attempt to diminish the use of these bespoke derivatives.

''Derivatives should have to trade on an exchange in order to have lower capital requirements,'' said Ari Bergmann, a managing principal with Penso Capital Markets. Mr. Bergmann also thought that another way to restrict the bespoke derivatives would be to strip them of their exemption from the antigambling statutes. In a recent article in The Financial Times, George Soros, the financier, wrote that ''regulators ought to insist that derivatives be homogeneous, standardized and transparent.'' Under the Obama plan, however, customized derivatives will remain an important part of the financial system.

Everywhere you look in the plan, you see the same thing: additional regulation on the margin, but nothing that amounts to a true overhaul. The new bank supervisor, for instance, is really nothing more than two smaller agencies combined into one. The plans calls for new regulations aimed at the ratings agencies, but offers nothing that would suggest radical revamping.

The plan places enormous trust in the judgment of the Federal Reserve—trust that critics say has not really been borne out by its actions during the Internet and housing bubbles. Firms will have to put up a little more capital, and deal with a little more oversight, but once the financial crisis is over, it will, in all likelihood, be back to business as usual.

The regulatory structure erected by Roosevelt during the Great Depression—including the creation of the Securities and Exchange Commission, the establishment of serious banking oversight, the guaranteeing of bank deposits and the passage of the Glass-Steagall Act, which separated banking from investment banking—lasted six decades before they started to crumble in the 1990s. In retrospect, it would be hard to envision even the best-constructed regulation lasting more than that. If Mr. Obama hopes to create a regulatory environment that stands for another six decades, he is going to have to do what Roosevelt did once upon a time. He is going to have make some bankers mad.

TRIBUTE TO U.S. ARMY SPECIALIST JARRETT GRIEMEL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Madam Speaker, the State of Texas lost a warrior this month in the Forward Operating Base Gardez in Afghanistan, a remote and desolate place in the middle of the badlands in this war zone. Army Specialist Jarrett Griemel died on Wednesday, June 9, 2009, from injuries he suffered in Afghanistan. He was just 20 years of age.

This is a photograph right here, Madam Speaker, of Specialist Griemel. Specialist Griemel is the 28th warrior to have died in Iraq or Afghanistan with connections to my Second Congressional District in Texas.

Jarrett was a young man who personified the best qualities of the young people in America today. Born in San Angelo, Texas, and raised in La Porte, Texas, Jarrett was living the life he had always made plans to live, that being a life filled with the achievement and adventure that he desired.

Jarrett was a patriot. He joined the Army his junior year in high school, and he had already completed basic training before graduating with honors from La Porte High School.

He was a member of the swim team and the surf club, and he loved the outdoors and especially the beach and water sports. Jarrett spent his spare time parachuting and cliff diving. Jarrett lived his life to the fullest.

In February of last year, Jarrett married his high school sweetheart, Candice, at a small ceremony in front of a justice of the peace. She joined him in Alaska, where he was deployed by the Army, to begin their young married lives together. Jarrett had a lifetime goal of eventually becoming a surgeon.

Jarrett was an athletic young man with bright red hair and an infectious smile. His brother Chase says he and Jarrett were typical adventurous boys growing up. They spent time in the woods catching snakes and bugs. He wanted to travel, see the world and live a life of excitement and adventure. And Jarrett did just that.

Jarrett was a petroleum supply specialist assigned to the 425th Brigade Special Troops Battalion, 4th Brigade combat Team (Airborne) of the 25th Infantry Division Battalion at Fort Richardson Alaska, home of the Arctic Warriors. The 3,500-soldier brigade is still in the midst of deploying in support of Operation Enduring Freedom in Afghanistan.

Madam Speaker, our American warriors live under the most grueling of conditions in Afghanistan. Jarrett's experience in the outdoors growing up would come in handy in the rugged and cursed terrain.

Having been to Afghanistan myself, I have witnessed how the hot desert sun is unrelenting as our soldiers patrol the dusty, rocky mountains and deserts. The only real relief from the heat is the freezing cold night in the desert, one harsh extreme to another.

Even in the ''desert of the sun and the valley of the gun,'' our troops are not deterred. The elements do not stop the best-trained, best-prepared, most-lethal military in the history of the world. The United States Army is on patrol in the mountains and cursed land of Afghanistan.

Our brave men and women in uniform are unequaled anywhere in the world. They are an all-volunteer force. They are educated, motivated, but they are tenacious. They bleed red, white, and blue. They meet and exceed any task our country sends them to accomplish with great skill and with great pride. They are America's backbone. Our heroes. The best of our Nation. Our amazing examples of the youth of this country.

Jarrett was a proud and accomplished soldier, and at just 20 years of age he was only 1 day from becoming a sergeant when he died in Afghanistan.

Texas is proud to have called him a soldier, a son, and a hero. He will always be remembered by his family, his friends, and a grateful Nation for his service. His love of country, excellence in achievement, and love of his family will be forever engraved on the hearts of every life he touched.

Jarrett's wife, Candice; his mother, Trena Dorsett, and her husband, Donnie, of La Porte, Texas; his father, Michael Griemel; his brothers, Chase, Jason, and Brandon; and his sister, Brianna, are all a living testimony to the memory of this one brave soldier's love of life, love of his country, and love of fellow citizens.

Madam Speaker, it has been said without the brave efforts of all the soldiers, sailors, airmen and marines and their families, this Nation would not stand so boldly, shine so brightly, or live so freely.

Madam Speaker, Jarrett Griemel was one of those soldiers. He was an American soldier, the rare breed who take care of the rest of us, and we will forever be indebted to him, his life, and his service to our Nation.

And that's just the way it is.

DIFFERENCES BETWEEN DEMOCRAT AND REPUBLICAN ENERGY PLANS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. OLSON) is recognized for 5 minutes.

Mr. OLSON. Madam Speaker, I rise today to discuss the differences between the Democrat and Republican energy plans.

As we move into summer, energy prices are creeping up, as they do each year, placing higher costs on those in our country who can least afford them. We need an energy plan that ensures a reliable, safe and affordable energy supply.

Democratic leaders in Washington have proposed a plan that would replace our present energy supply with unreliable and costly energy alternatives. The cornerstone of this plan would reduce carbon emissions through an aggressive cap-and-trade program. This program would set nationwide limits on greenhouse gas emissions and create a market-based trading program for companies to meet the cap. The goal of this plan is to force reductions in carbon emissions through government rationing of carbon credits for energy producers.

The nonpartisan Congressional Budget Office analysis of this plan concluded that the potential job loss in my home State of Texas alone by the year 2020 could go as high as 311,600. Let me say that again. Over 300,000 jobs lost in my State by 2020, resulting in a staggering loss in personal income of up to $22.8 billion. That cost is simply too high. It is not cap-and-trade; it is cap-and-tax.

My Republican colleagues and I believe we can still achieve an energy plan that keeps costs affordable, lowers emissions and grows energy jobs right here in America.

□ 1615

I'm opposed to a plan that dramatically little increases the cost of energy for American consumers. That is why my Republican colleagues and I have crafted a comprehensive energy bill that not only increases energy production here in America, but ensures that all forms of energy have the ability to compete to provide clean, reliable, and affordable energy for all Americans.

The American Energy Act is a blueprint of solutions for American energy problems. We must create an environment where all producers have the opportunity to compete to provide safe, reliable energy, instead of the current stranglehold of bureaucratic red tape and regulatory obstacles producers face.

We have an important opportunity to reduce carbon emissions sought by Democrats through increased use of nuclear energy. The American Energy Act would allow nuclear energy to compete with other energy sources based on its merits, such as being affordable, domestic, and, most importantly, emissions-free.

The U.S. Department of Energy is now in the process of awarding financing for four American power companies to build new nuclear power reactors to allow more nuclear power to come online between 2015 and 2020. And we can bring more energy onto the grid if we streamline the application process, as the American Energy Act does.

The goal of this plan is not to promote one form of energy over the other, but to allow the market system to determine which producers can achieve the goal of providing a safe and reliable energy supply to meet our Nation's needs.

Americans need safe, reliable and affordable energy, not government-mandated emission programs that increase consumer costs and kill American jobs. We need a plan that promotes all forms of energy to meet that goal.

Madam Speaker, the Republican energy plan is a commonsense approach to increasing domestic energy sources, creating American energy jobs, and promoting a clean environment without dipping in the pockets of American families.

FEDERAL AIR MARSHAL SERVICE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Tennessee (Mr. DUNCAN) is recognized for 5 minutes.

Mr. DUNCAN. Madam Speaker, probably the most needless, useless agency in the entire Federal Government is the Air Marshal Service.

In the Homeland Security Appropriations bill we will take up next week, we will appropriate $860 million for this needless, useless agency. This money is a total waste: $860 million for people to sit on airplanes and simply fly back and forth, back and forth. What a cushy, easy job.

And listen to this paragraph from a front-page story in the USA Today last November: ''Since 9/11, more than three dozen Federal air marshals have been charged with crimes, and hundreds more have been accused of misconduct. Cases range from drunken driving and domestic violence to aiding a human-trafficking ring and trying to smuggle explosives from Afghanistan.''

Actually, there have been many more arrests of Federal air marshals than that story reported, quite a few for felony offenses. In fact, more air marshals have been arrested than the number of people arrested by air marshals.

We now have approximately 4,000 in the Federal Air Marshals Service, yet they have made an average of just 4.2 arrests a year since 2001. This comes out to an average of about one arrest a year per 1,000 employees.

Now, let me make that clear. Their thousands of employees are not making one arrest per year each. They are averaging slightly over four arrests each year by the entire agency. In other words, we are spending approximately $200 million per arrest. Let me repeat that: we are spending approximately $200 million per arrest.

Professor Ian Lustick of the University of Pennsylvania wrote last year about the money feeding frenzy of the war on terror. And he wrote this: ''Nearly 7 years after September 11, 2001,'' he wrote this last year, ''what accounts for the vast discrepancy between the terrorist threat facing America and the scale of our response? Why, absent any evidence of a serious terror threat, is a war to on terror so enormous, so all-encompassing, and still expanding?

''The fundamental answer is that al Qaeda's most important accomplishment was not to hijack our planes but to hijack our political system.

''For a multitude of politicians, interest groups and professional associations, corporations, media organizations, universities, local and State governments and Federal agency officials, the war on terror is now a major profit center, a funding bonanza, and a set of slogans and sound bites to be inserted into budget project grant and contract proposals.''

And finally, Professor Lustick wrote: ''For the country as a whole, however, it has become maelstrom of waste.'' And there is no agency for which those words are more applicable than the Federal Air Marshal Service.

In case anyone is wondering, the Air Marshal Service has done nothing to me, and I know none of its employees. But I do know with absolute certainty that this $860 million we are about to give them could be better spent on thousands of other things.

As far as I'm concerned, it is just money going down a drain for the little good it will do. When we are so many trillions of dollars in debt, a national debt of over $13 trillion, we simply cannot afford to waste money in this way.

MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed a bill and a concurrent resolution of the following titles in which the concurrence of the House is requested:

S. 814. An act to provide for the conveyance of a parcel of land held by the Bureau of Prisons of the Department of Justice in Miami Dade County, Florida, to facilitate the construction of a new educational facility that includes a secure parking area for the Bureau of Prisons, and for other purposes.

S. Con. Res. 23. Concurrent resolution supporting the goals and objectives of the Prague Conference on Holocaust Era Assets.

EVENTS OF THE WEEK

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Iowa (Mr. KING) is recognized for 60 minutes as the designee of the minority leader.

Mr. KING of Iowa. Madam Speaker, I appreciate the honor to be recognized to address you this evening on the floor of the House of Representatives, and at the conclusion of what some considered to be a long week here in Congress. And I'd like to go back and reflect upon some of the events that took place this week and perhaps look into the future.

And always our deliberation here on the floor of the world's greatest deliberative body should be about perfecting legislation and moving America forward in the right direction.

Looking back upon some of the things that have taken place this week that are unprecedented, some would say that yesterday, and it was unprecedented, more votes on the floor of the House of Representatives than ever in the history of the United States of America. After all of these years, from 1789 until 2009, we had more votes on the floor, almost a third more votes on the floor than ever before. The previous record was 40 votes. I think yesterday, 54.

One would ask, why is that? And the answer to that is, because the majority decided they were going to shut down the deliberation and the debate here in the House.

And I take all of us back to think about the continuum of events, the Constitution that underpins us, the directive in the Constitution that all spending has to start in the House of Representatives, not in the Senate, Madam Speaker, but in the House of Representatives.

In fact, if we shut this operation down here, no new spending could be initiated in the United States Government, at least constitutionally, because it all has to start in the House. That is our duty. It's one of our most important duties, not our only duty by any means.

And we've had a tradition of going through a number of appropriations bills, 13 in number, as I recall, and it gets changed a little bit from year to year as the configuration of the Appropriations Committee gets changed. But we've run through those appropriation bills in the years that I've been here under Republican leadership, starting, by my recollection, at least, every one out with an open rule that allowed every Member of Congress to introduce an unlimited number of amendments, and offer and debate those amendments on the floor of the House, ask for a recorded vote if they chose to do so, ask for a re-vote if they chose to do so. In fact, there could be a movement for reconsideration if we chose to do so.

If every Member offered amendments, of course this place would slow down dramatically and it would come actually to a halt. But for all of these years of the United States Congress, we got our work done under open rules because we found ways to come together and come to a conclusion so this government's business could be done in a legitimate fashion, with debate on both sides, with amendments that are offered that seek to perfect the legislation that's there, with fiscal responsibility on our part of the aisle, at least, and sometimes on the part of the Blue Dogs who used to come up and try to slow the growth of the government of their own party.

But that has not been the case this week, Madam Speaker, and that is the reason for the unprecedented number of votes that took place here on the floor. And that's because the majority party decided to shut down the process and disallow amendments and disallow debate in order to shield their spending, in order to protect them from, let me say, an alternative view. Some would call it criticism.

But addressing you tonight, Speaker pro tem, Speaker PELOSI received the gavel that you hold this evening in January of 2007. The first woman Speaker in the history of the United States. I've been here to witness the swearing in of that historic event, as well as the swearing in of the first African American President of the United

States. Historical moments. And both of those moments were coupled with a degree of optimism that flowed on both sides of the aisle, Democrats and Republicans, although I will stipulate that there had to have been more euphoria on the Democrat side of the aisle than there was on the Republican side of the aisle. But just the same, a level of euphoria on each side, a sense of optimism, a sense of we have reached some historical milestones.

But, Madam Speaker, when we reach that moment, that is no time to rest on our laurels. That's no time to come to a conclusion that the people who have been honored so in such a historically unprecedented fashion should be exempt from criticism or exempt from dissent, nor should they be handed all the power of the government of the United States, whether they're the President or the Speaker of the House. But it seems as though that's the attitude of significant numbers of Members here in the House of Representatives.

And so if I take you back to the 12 years that Republicans were in the majority here in the House, from 1994 until 2006, those were elections, sworn in '95 and until January of 2007 were actually the times that our span served, we offered appropriations bills under an open rule that allowed amendments, an unlimited number of amendments, to be filed. They didn't have to be filed into the CONGRESSIONAL RECORD. Nobody had to come here with their play book and open it up and say, here's the play I'm going to run, do you think you can play defense on that. We just said, offer your amendments into the RECORD, and we'll deal with them when they come up. And as long as we haven't passed that title of the bill in our deliberations, the amendment will be in order. And if you have amendments that you'd like to offer at the end of the bill, we're going to allow for an unlimited number of amendments to be filed at the end of the bill as well.

And so Democrats and Republicans were able to record their dissent from each of the appropriations bills by filing amendments, seek to perfect the legislation that was there, and either expand the spending or reduce the spending as their conscience and their constituents dictated. That went on through the 12 years of Republican leadership.

And I will also make a point that there were times when we had too many amendments and there were times when leadership came together and negotiated a unanimous consent agreement. And there were times when some people didn't all agree, but didn't really have much opportunity to object. And I have been one of those people that saw unanimous consent agreement reached and didn't have an opportunity to object.

But at least the leadership was talking about how to perfect legislation, how to bring the most important amendments to the floor for debate and for vote so we could bring the will of the American people and the wisdom of the American people together and move this country forward.

That's how it was here in this Congress from 1995 until the beginning of 2007, when Speaker PELOSI took the gavel, named a whole group of new committee Chairs, a new appropriations Chair, a new Ways and Means Chair, a new Financial Services Chair, the list goes on. And as the appropriations bills were brought to the floor, Republicans and Democrats offered amendments to those bills, and there were—and that debate, although it was extended more than it was this year, was shut down by unanimous consent agreement.

□ 1630

Okay. I can accept that. I don't like it, but I can accept it. That was the last time we had a legitimate process, Madam Speaker, because the 2007 appropriations cycle didn't even have an appropriations bill come to the floor, not 1 of 10, not 1 of 13—zero—because Democrats didn't want to take a vote on bills to spend money, and they didn't want to take a vote on the amendments that would be seeking to slow this massive growth in government, so they stacked it all up and put it into one continuing resolution that kicked the can down the road until after the last election when they brought up an omnibus spending bill that put everything into one bill. Then that bill appeared on the Internet. It was after 11 o'clock at night. The following morning, there were 3,600 pages, as I recall, and around $450 billion in spending all wrapped up and stacked into one bill. Actually, it may not have been 3,600, but it was a lot of pages of legislation. We had overnight to read it, and we are held accountable for everything that we vote for or against in this Congress. We have to have an opportunity to read the legislation no matter how good our staff is. We can't even delegate that we break the bill up into pieces and tell each one of our staff to read 100 pages. It's impossible.

Furthermore, there was no opportunity to tell what was in the bill. Even more difficult was to figure out what wasn't in the bill, and that all has to be evaluated if we are going to be operating and running the finest country that has ever had the privilege of being sovereign on the face of this Earth.

Yet our process is broken. Our process has been usurped. Because of the sense that power can dictate, then it has dictated. So, for 2 years, we haven't had a legitimate appropriations process here in the United States Congress, not until this week, not until the Justice Appropriations bill was offered. Even then, it wasn't a legitimate process. It was offered under a rule that I had never seen before, and I believe it was historically unprecedented, which was: print all of your amendments into the RECORD and then we'll make them all in order. Now, they can announce this in advance. They can tell us what the Rules Committee is going to decide in advance. We filed all of our amendments into the RECORD, 127 of them or some number near that, and that allowed the majority to read our entire playbook. It allowed the majority to evaluate the political implications and the economic implications of every amendment, and it allowed the majority to plan their strategy. What was their strategy?

The strategy was: well, we dare not let them debate this because they're going to bring up things that are embarrassing. We dare not allow votes because the Members will be held accountable. Who will hold them accountable? The voters. So, in order to protect the vulnerable Members of the United States Congress, the constitutional duty and the deep traditions of this Congress have been suspended by the majority party, and they were suspended with the structured rule that allowed for these 127 amendments, of which I had some; but even that, Madam Speaker, wasn't good enough. Twenty-some minutes into the debate on the first amendment, the majority party moved to recess to the call of the gavel, and they decided to go up to the Rules Committee and change the rules again.

Now, it is a very bad deal when you change the rules from the Constitution and from the tradition of this body, from these 200-and-some years of this constitutional Republic that we are. That is a very serious thing, but those changed rules are the ones we started out with. Once we got 20 minutes into the debate on the first Republican amendment, they then decided to change the rules again, Madam Speaker, and went up to the Rules Committee, which, by the way, is the heart of the power of this Congress. The people who decide what debate will take place here on the floor are up there on the third floor—that way. It's a tiny, little room, and it doesn't have television cameras in it, and you can't tune into it on C–SPAN, and there is no live feed that goes out of there.

I brought an amendment up a couple of years ago to present it when the Chair of the Rules Committee said, Well, we're going to make sure that we report every vote out and that we put it into the RECORD. I simply brought an amendment up there that would require the Rules Committee to print every vote into the RECORD. The Chair became—let me just say to understate it—unreasonable and emotional in that I would seek to codify a promise that she had made. Didn't I trust her?

Well, the answer to that, I think, is obvious, because the rules got changed

twice in the middle of the game. The second time, they decided they would only allow amendments to come to the floor of the House that they thought were good for them politically. So these 127 amendments got chopped down to 23 amendments. Of the 23 amendments, 20 of them were about spending.

You know, it surprises me, but the Democrats didn't mind voting for more spending and voting against reducing spending with the exception of this $100,000 on capital bicycles today. Trillions of dollars have been spent, but they did get mobilized, some of them, about the spending on the capital bicycles.

So the rules were changed from tradition. Then they were changed in the middle of the game. This Justice Appropriations bill came to the floor, and it was set up so that there wouldn't be embarrassing votes.

For example, the Speaker of the House has declared the CIA to be willfully lying to the Congress of the United States of America and to her, and this issue is unanswered and unspoken to, and the security of the United States of America is hinged upon our ability to have a working and trusting relationship to fund the CIA and the 14 other members of the intelligence community and our Department of Defense, I might add, and our domestic law enforcement, I might add. Well, now there is no relationship between the Speaker of the House and the intelligence community other than one of being directly at odds against each other, with the Speaker's declaring the CIA up here in the secure room in the Capitol to be lying to the person who is third in line for the Presidency—the Speaker of the House of Representatives.

Yes, they lied to me. They did it all the time. They misled the Congress of the United States of America.

That's the statement—not retracted, not clarified, no evidence given. Just an allegation.

Now, when someone accuses someone else of lying outside of these doors and on the street, in the family, at the workplace or in private society, they had better have the evidence before they accuse somebody of being a liar. That is the standard in America. If you think somebody is not telling you the truth, you don't call him a liar unless you have the facts. We have worse than that here in the Congress because there is a statute that has been passed that directly prohibits anyone from lying to Congress, especially about domestic or international terrorism, and that's what these briefings were about. They were about enhanced interrogations that most of America, Madam Speaker, thinks took place down at Gitmo, waterboarding among them. The truth is that no waterboarding took place at Gitmo. None of it took place in this hemisphere, and I can't verify that there were any enhanced interrogation techniques that took place even in this hemisphere, let alone at Gitmo by United States forces.

So that's a long subject, and I won't go into that, Madam Speaker, except to say, to the extent when that declaration was made by the Speaker of the House, that declaration of the CIA's lying, it was an allegation of willfully committing repeated felonies against the Congress of the United States.

This is an untenable position. We cannot have a situation where the most powerful Member of the House of Representatives, the person third in line for the Presidency, can declare our intelligence community to be willful liars, to be lying to us here in this Congress and to be in violation of Federal statute. We cannot just simply decide, because the Speaker doesn't want to talk about it anymore, we aren't going to talk about it either.

I am bringing this up because this is the only arena that exists. This is the only forum that exists right now. We could not force a vote on it. We could not shut off funds. We could not direct the Speaker. We could not bring any language, because it was shut down in the Rules Committee. I will submit that the security clearance for the Speaker of the House of Representatives must be suspended until this matter is cleared up. It is her responsibility to clear it up, not mine. It is not the part of some outside working group or of some factfinding force. It is for the person who made the allegation.

Madam Speaker, I would ask you to reflect. When Jesus stood in front of the high priest, Caiaphas, Caiaphas asked him, Jesus, did you really say these things? Did you really preach in this fashion?

Christ said to Caiaphas, It's you who say I did. Ask them. They heard me. I was open.

The guard struck Jesus, and Jesus said again to Caiaphas, If I have spoken wrongly, then you must prove the wrong, but if I have spoken rightly, why do you strike me?

That's the standard. When someone speaks rightly, you can't attack him. You can't strike him. You can't challenge him. You can't beat him. You can't call him a liar; but if he speaks wrongly, the one who makes the allegation of speaking wrongly must prove the wrong. That's the standard in the Book of John. That's the standard in this American culture. That needs to be the standard here in the United States Congress. We need to hold the Speaker accountable for this for the very sake of the integrity of this institution and for the very sake of the security of the United States of America, which, surely, is put at risk when you think about the majority party, the majority party that is all trying to work together, to get along and to follow the direction of the Speaker, all of the staffs of all of the committees—the committee Chairs, the subcommittee Chairs, the rank-and-file members, the Armed Services people, the Select Committee on Intelligence, which just had their markup in secret. That won't hit the press. You won't know what went on in there in the Select Committee on Intelligence. You won't know what kind of debates took place, because that's in secret. You won't understand how partisan the Select Committee on Intelligence is today because the committee has been stacked with people who will support the Speaker.

Madam Speaker, the American people don't have any insight into what goes on within the intelligence zones here in this Congress nor do they have an opportunity to view it, because a lot of it is classified. I can tell you, when you have a partisan committee, partisan votes, partisan debates in secret in the Committee on Intelligence, and when you have all of the intelligence agencies that are now colored with the allegation from the Speaker of the House that they willfully lied to the Congress of the United States, let me ask:

Does that produce more funding for on-the-ground intel? for more devices? for more technology? Is America safer because of this tension, this conflict? Are we less safe? Are there more of our resources put to bear to gather this intelligence that we need so that we can direct our military to protect us from attacks from terrorists, both foreign and domestic, or is it less resources?

When you send a brother and a sister out to the kitchen to clean up the table after dinner at night and they're fighting, does the job get done better or worse? Does it get done quicker or sooner? When people are at odds with each other, that lack of cooperation ultimately leads to less efficiency and to a poorer product.

One of the problems that we had that left us vulnerable for September 11 were the silos of intelligence when we didn't have our members of the intelligence community sharing intelligence. They weren't communicating as well as they should have. That is the foundation for the reason of establishing the Director of National Intelligence and for putting it under at least one command. I have concerns about the results of that as well, but that was the reason, and now we have a silo of politics here under the Speaker of the House, who declares Intelligence to be lying to Congress. She continues to go up to the fourth floor to receive intelligence briefings from an intelligence community that is probably walking on egg shells.

The CIA, itself, directed by Leon Panetta, has laid out that they have the documents and that they have the proof, and their notes show that the

Speaker was briefed in line with what had been taking place with the enhanced interrogation techniques of three individuals and that it had already taken place prior to the briefing that she received on September 4 of 2002.

This is an untenable position. It must be rectified, and it can't go on. This Congress has been shut down partly so we don't have a debate on this issue.

Another reason this Congress has been shut down—and I'm talking about the open amendment process to appropriations bills—is there is a partisan interest in protecting ACORN. It can't be anything else. Most everybody in America at this point has heard of ACORN, the Association of Community Organizations for Reform Now. ACORN was in the news constantly throughout the election cycle last fall. I've been watching ACORN for 4 to 5 years. ACORN has been involved from the beginning, and here is a series of things, and I'll just lay them out and then talk about them to the depth that I can at this point, Madam Speaker.

□ 1645

ACORN's involvement early on way back in the Community Reinvestment Act. This Congress passed the Community Reinvestment Act in 1977 and then refreshed it under Bill Clinton in the 1990s. The Community Reinvestment Act recognized something that was wrong, and that was that we had lenders who looked at neighborhoods and concluded that the real estate value in those neighborhoods was declining because of violence, because of activities going on in those neighborhoods.

And so they drew what they called—they did what they call redlining. They drew a red line around those neighborhoods and concluded they weren't going to loan money for homes for real estate in those neighborhoods because the value of the real estate was going down.

If you looked at the racial makeup of the residents of those redlined areas, often it was African Americans in those inner-city parts. Some of them contributed to the decline in the value of the real estate. Some of them were victims of the decline in value of the real estate. The Community Reinvestment Act was passed to encourage lenders to—let me just say in simplistic terms—make bad loans in bad neighborhoods, to loan into the redline neighborhoods so they could improve the percentage of home ownership, get more people into their own homes, and the theory is they will take care of them: They'll have a nest egg to work with, and they will be more stable with everything they do. The families will be more stable, too.

I don't disagree with the philosophy of the Community Reinvestment Act. I disagree with the result of what came about. And what came about was ACORN seizing on the Community Reinvestment Act and learning that they could go in and, essentially, intimidate lenders. If lenders wanted to expand or open up a branch office, they had to meet the standards of the Community Reinvestment Act. Vaguely written. But those standards were easier to prove if you had the approval of ACORN. If you had the disapproval, it was hard to get them approved because ACORN established political connections, and supported political candidates, and became a get-out-the-vote machine for Democrats.

Now, think in terms of Chicago politics. I think Chicago is a city in America that best illustrates the foundation that is ACORN.

And so ACORN intimidated lenders. They got groups together—some would say gangs; I'm calling them groups. And they went into lenders' offices and sometimes shoved the banker's desk over to the wall and surrounded him and hollered at him and screamed at him, intimidated the lender into making bad loans in bad neighborhoods. They intimidated lenders and banking institutions to write nice big checks to ACORN, and ACORN used that money to operate, and if they wrote a big enough check, ACORN wouldn't be in there demonstrating or jamming the entryways to the banks and shutting down their commerce. These were intimidation shakedown tactics. ACORN is just one of the entities that did that. We know of a few others, and I think the name Jesse Jackson comes to mind for most people when I raise this subject matter. There were other entities out there that did the same thing.

But ACORN was in the center of this. And not only that, but ACORN found themselves in a situation where they could go out and identify and broker the people who would qualify for these low-interest loans, subprime loans—a lot of subprime loans were promoted by ACORN. The lending institutions made those loans because then ACORN would be off of their back and allow their doors to stay open, and they kept this relationship going.

ACORN also found themselves in a position to be brokering these subprime loans through into the secondary market of Fannie Mae and Freddie Mac. So I think already, Madam Speaker, you see the pattern here.

The Community Reinvestment Act was a foundation that allowed ACORN to go in and intimidate lenders and set themselves up where they became the broker for home mortgage loans that many times were subprime loans that were sold in the secondary market to Fannie Mae and Freddie Mac And on up through the line to the investment banks, where these loans were sliced, diced, sorted, shuffled, cut, stacked, and tranched.

And all of that went on to the point where you couldn't trace where all of the loans had gone anymore, but the collateral still was attached to the mortgage loans. And this became part of the core of the financial meltdown that we've experienced in the last several months.

That's transgression number one for ACORN.

Transgression number two is ACORN's pledge to go out and register—I think their goal was 1.3 million new voters for the 2008 election cycle. So they put their minions out into the streets across the streets of America. Interesting. They've been active doing this before. There were investigations that came up in 2006. In the 2006 election in the State of Washington, ACORN turned in in one sample 1,800 voter registration forms, and the number of legitimate registration forms out of 1,800 was six. Only six were real. The rest were phony. I didn't do the percentage on that, but I can tell you it's not very good.

And so they brought about a prosecution there and got some kind of settlement. But that was 2006. There were other incidents scattered across the country. The focus of these incidents seemed to show up in swing States, swing States like Ohio, States that they wanted to affect the result of the election. Of about five or six important swing States, ACORN was the most active in them.

Now, this is also an organization that has received, as a matter of fact, more than $53 million of our tax dollars to fund them. To do what? Well, in part, facilitate bad loans in bad neighborhoods sold up through Fannie Mae and Freddie Mac—which have since been nationalized, by the way, because of the insolvency in part created by some of those transactions—and a get-out-the-vote Democrat drive that took place in many of the cities, Chicago for example, and registered hundreds of thousands of fraudulent voter registrations. And in fact by ACORN's own admission, over 400,000 fraudulent registrations were filed by ACORN in that cycle leading up to the 2008 election.

And I asked for investigations. I asked for congressional inquiries. I asked for the Justice Department to look into ACORN. And I had no sympathy on this side of the aisle. I temporarily had some sympathy from the chairman of the Judiciary Committee, Mr. CONYERS, who for about 3 weeks was on record as believing there was evidence there that may warrant that we take it up and investigate ACORN. But 3 weeks after he expressed the sentiment, he concluded there wasn't enough evidence there.

There is a lawsuit against ACORN that has been won and a settlement that's been achieved. We have put hundreds of pages of data into the records here in this Congress, and still they

conclude that there is not enough evidence there to bear looking into it. We've named hundreds of—I don't know if it's hundreds—we've named dozens of post offices this year. We debate these on the floor under suspension. We vote and name post offices. We've got time to name post offices, but we don't have time to look into ACORN, which is corrupting our election process and has undermined the financial integrity of the United States of America?

And furthermore, we have to suspect that there is a real lack of enthusiasm on the part of the administration, as well as the Democrats in the Congress and the House and in the Senate, because when we look back through the history of the President of the United States, we find a consistent association with ACORN on the part of Barack Obama. Barack Obama, who was a lawyer for ACORN and argued for them in a voter registration case, albeit pro bono, but still their employee, still representing ACORN in court.

And when someone does that pro bono, does that tell you they agree with them or disagree with the agenda of ACORN? I think we all can agree that if you're going to take a case for free and argue in court that surely you must agree with the principles and the people that you're working for. You're not going to see me go represent Planned Parenthood in court for free or for a check, for that matter, because I disagree with the agenda of Planned Parenthood.

Barack Obama clearly agreed with the agenda of ACORN. When he worked for them for free and represented them in court, that makes him their employee as their attorney.

Now, if that's not compelling enough, Madam Speaker, we'll take another component of this. Barack Obama headed up Project Vote. Project Vote is a subsidiary of ACORN. That's not disputed. They're the get-out-the-vote machine in Chicago. That's not disputed. The head of ACORN in Chicago hired President—well, at that time Barack Obama—to train the people that were going to work under Project Get-Out-the-Vote and also those that would go into the bankers' offices and encourage them to make bad loans in bad neighborhoods.

Part of this enterprise that has all of the trappings of a criminal enterprise headed up in Chicago by—I will check the name—- but I believe it's Margaret Talmage, who hired Barack Obama to head up Project Vote, and he got paid. The canceled checks exist. He worked for Project Vote as an employee, hired by the head of ACORN in Chicago to work for their subsidiary to get out the vote and to train people in community-organizing activities and postures himself as if community-organizing is a highly virtuous endeavor.

Well, hardly anybody knows what a community organizer does. And I suspect that it's different from community-to-community, county-to-county, State-to-State, and nation-to-nation.

But when it comes to community organizing in Chicago, clearly there are those who adhere to the mission of Saul Alinsky, the great community organizer, Rules for Radicals Saul Alinsky—whom also Hillary Clinton studied under, by the way directly, and whom Barack Obama seems to be a philosophical protégé.

But the ''Rules for Radicals'' clearly applied to ACORN. They were activists. They did intimidate. It was part of their M.O. ACORN, Project Vote, and dozens and dozens of other subsidiaries of ACORN scattered across this country. And ACORN central headquarters is down in New Orleans. It's been moved from downtown New Orleans out to the outskirts of New Orleans at 2609 Canal Street. A $2.5 million building, roughly relatively new and modern, that houses many of the subsidiary corporations that one can connect.

And I've filed a list that is incomplete but is a list of 174 of the more than 250 corporations that are affiliated with ACORN. I filed them into the CONGRESSIONAL RECORD as part of the amendments that were to go on the justice appropriation's bill that was managed by Mr. MOLLOHAN and concluded yesterday. But of course, those amendments were denied not quite in secret, but up here where you can't hardly get six reporters in the room if there are going to be a dozen Members of Congress, if they're pleading to be heard here on the floor.

So that's the record. That's the standard. 2609 Canal Street, ACORN's building. One should go on Google Earth and take a look at that and zero in on it and see what it looks like, Madam Speaker, and the corporations that are involved as subsidiaries, the inner-connecting spider web of corporations.

By the way, Louisiana is one of the easiest States in the union to incorporate in. I don't think it's a coincidence that ACORN is there with their central headquarters. But they have headquarters scattered across this country in 50 cities, at least that they announce—and I don't know how many States—and activities going on, and also they say over 100,000 members—that number actually is higher than that, around 175,000 families.

Annual dues for an individual, whether you're poverty stricken or aren't, I understand is around $120. So they raised some of that money from dues from people that may or may not be able to afford that. Fifty-three million dollars from our tax dollars, and now—actually, we don't know the whole picture because it takes a lot of work to unravel this spider web of corporations that exist that are affiliated and part and parcel of ACORN that have interconnecting boards of directors and sometimes copy-and-paste boards of directors where if the board of—let's just say Project Vote or one of the other subsidiaries happened to meet and then walk into another room and you would sit down with ACORN and that board met, you might look around and not find any faces that are different. They might all be the same. Some of these interconnecting corporations, subsidiaries of ACORN, have identical boards of directors and identical addresses and identical corporate filings with the exception of the name and the date that they're filed.

This is a copy-and-paste reproductive method that allows them to go out and take all kinds of money in from every avenue, pour that through, commingle those fungible funds and spend them however they like, including getting out the vote for Democrats, registering hundreds of thousands of fraudulent votes.

And when ACORN's asked about this, Madam Speaker—and that question came up in a little debate with the head of ACORN last night—they say, Well, ACORN's not under investigation or indictment. Not true. They clearly are. Absolutely in Nevada they are. But they are alleging that there were only investigations or indictments of their employees that were just a few, not very well managed, maybe rogue employees that were out there registering.

Well, it turns out to be a fact that ACORN's policy in print was, in some of the States, to pay commissions for people to sign up voter registrations. Clearly against the law in a number of the States across the country and many of the States across the country, including Nevada. We will see more of these investigations and convictions unfold.

□ 1700

Now, why am I concerned about this, Madam Speaker? The answer is, first, it is essential that we maintain a legitimate, reliable and honorable election process in America. If first you corrupt the voter registration rolls, the next thing that happens is the votes themselves are corrupted. And ACORN's position is, well, maybe we gave you 400,000 or more fraudulent voter registration forms, but never fear, there were no fraudulent votes that came from that. In fact, the Attorney General of Nevada, who happens to be a Democrat and is involved in the prosecution of ACORN, and I applaud him for that, says that he's certain that there were no fraudulent votes that came from this. I don't know how anybody can be certain that there were no fraudulent votes that came from 400,000 or more fraudulent registrations. That defies my ability to imagine. 400,000 fraudulent voter registrations and no fraudulent votes? That is a leap of faith that I can't take.

It's logical to me that the more fraudulent registrations you have, the more fraudulent votes you have. It's not logical that every fraudulent registration would be a fraudulent vote, but it's clearly logical that with over 400,000 fraudulent registrations, you're going to get fraudulent votes. How many, is the question. Who were they? We don't know because a fraudulent vote is almost the perfect crime. If you can walk into a polling place and the poll worker says, Who are you, and you answer, my name is Joe Schmo and I live at—let's just use a previously used address, 2609 Canal Street, New Orleans, and if there's someone registered under that name, they hand you a ballot and you go vote, no ID required, no picture ID required. In fact, in New Mexico—and this is part of the CONGRESSIONAL RECORD where the Secretary of State of New Mexico testified before the Judiciary Committee about 3 years ago—it comes down to this: if I am working as a poll worker in New Mexico registered to vote in New Mexico and someone walks into that polling place and says, I'm Steve King and I live at—names the address that I live at, even if they say they are me and I'm working the polls, by law in New Mexico I can't challenge that fraudulent voter. It's against the law to challenge voters in New Mexico and many other States because the liberals have so corrupted the process.

First, they passed Motor Voter, so that when people get a driver's license they ask them, Do you want to be registered to vote? Well, who says no? Also, there is a little spot on there that attests that you are a citizen of the United States. Well, who says no? What if you don't understand the language, are you really going to read that as a legal document and know that if you attest that you're a citizen of the United States, that you're guilty of perjury?

By the way, out of 306-or-so million Americans, does anybody know anybody that has been prosecuted for falsely attesting that they are a citizen on a voter registration form? No. That's an unprosecuted crime; a crime of perjury, which exists as a felony in every State that I know of, unprosecuted. So our voter registration rolls were corrupted by the low standard of Motor Voter.

And then we had the Florida fiasco in 2000. And there, if we looked across what was going on in Florida, there were allegations of voter fraud on both sides. I don't know that there wasn't some on both sides. But what I saw was indicators that there could have been significant votes shifted. And I think all the scrutiny that came into those counties in Florida helped. I think it was a good thing that a lot of people went down and watched the hanging chad count.

But I also have seen film of the director of the Miami-Dade County Election Board, Michael—last name starts with an L, and I actually can't remember it, it's been 9 years. In a previous election, there is videotape of the hanging chads that would come in. How did they deal with the hanging chads in Miami-Dade County? And I've seen this videotape; I don't think it could be reconstructed in any way. They had 70 volunteers from the League of Women Voters—now, they haven't been on my side very much, they really don't seem to be very bipartisan to me—long table, 70 volunteers from the League of Women Voters. They were set down at a table, and they would bring in these punch-card ballots and set them on one side of each of the ladies that were there working, issue them two or three nice sharp No. 2 lead pencils—like you take your Iowa basic skills with where I come from—and they would pick up these hanging chad ballots, these punch-card ballots, and clean them up. If any chad is hanging and it's still dangling there, they would punch the pencil through the hole, break it off, and stack these cleaned-up ballots over on this other side where, once they got done cleaning up the hanging chads, these 70 volunteers from the League of Women Voters, then the process ballots would go through the vote counting machine. Now, does that give you a lot of confidence if you put somebody there at a table to decide your vote for you by where they poke the pencil and which chad is hanging? Not me it doesn't. That process should have never happened.

The Collier brothers did investigative research on election fraud down in Florida. Neither one of these gentlemen are alive today—and I don't have any sign of foul play and I don't allege such a thing, I just haven't been able to track what brought about their demise.

But I read a fair amount of material. And they did a movie in investigative journalism where they went into the previous election board director of Miami-Dade County that took care of the voting machines, sitting in a warehouse out along the edge of the swamp. And they walked in and said, What do you do? Well, I fix these vote-counting machines and I keep them up in shape. Well, how do you make this all work? And they got to talking about how the elections got rigged. And he said, Here's how it is—and the video exists. He pulled some plastic gears out of a drawer and he showed, here it is, we grind one of these teeth off on this plastic gear, we put it in the vote-counting machine, and then where we put that gear makes a difference in which side gets an extra vote for every 10 that comes through. Openly in the videotape.

And they went up into the loft in the attic and filmed a bunch more of that before they got suspicious and they had to skedaddle out of there with their cameras. I saw those things while I was doing this research back then.

I bring this out, Madam Speaker, because, just because this wasn't a particularly close election in November of 2008 doesn't mean that we shouldn't be alarmed about the corruption of our election process; 537 votes made the difference in Florida, and Florida made the difference on who would be the next leader in the Free World, Madam Speaker.

And those 537 votes could easily be blended through the more than 400,000 fraudulent registration forms that ACORN has admitted to turning in that corrupted voter registration rolls and opened the door for the corruption of our election process.

Now, I have discussed the Community Reinvestment Act, and now I have discussed the voter registration fraud process. And these are the ''get out the vote'' people for Democrats, please don't forget. And if we do forget—I should put another fact out.

President Obama, as a candidate for President, then-Senator Obama, hired ACORN to get out the vote and wrote the check to one of their subsidiary corporations for over $800,000. There's three ways the President is tied—more than three ways the President is tied to ACORN. One is as their attorney, one is as an employee of Project Vote, heading up Project Vote in Chicago, receiving paychecks, ACORN through Project Vote into President Obama. The third one is hiring ACORN to get out the vote.

There are rumors that donor lists got circulated back and forth; I haven't been able to chase that down. The fourth component is the White House has hired ACORN to participate in the census.

Now, over 400,000 fraudulent registrations turned in, admitted by ACORN—I suspect significantly more. I have never met someone who admitted to such wrongdoing and admitted to it in the full magnitude of their wrongdoing. They always try to minimize. So at least 400,000. And now the President, who has worked for ACORN in two capacities, hired ACORN in at least one capacity, now hires ACORN in another capacity as President of the United States to help with the census, to help count the people of the United States.

Now, if you want to direct what goes on in America, if you want the power of this country, there are two ways: through the ballot box and influence the elections so you get your people in these seats here and in the seats in the Senate and in the White House, where there is tremendous power. That's one component. Another component is through the United States Census.

What does it do? Well, the Constitution requires us to count the people every 10 years, count the people—not by formula, not by some magic formula, but actually count the people. It

costs a lot of money, and it takes a lot of people out there to do it to actually count them.

But once the people are counted, it affects two big things: one is the redistricting process, where new lines get drawn on the maps of all the States of the Union. And those maps are drawn and approved by the State legislatures. And some of them it's very, very partisan, and they decide how they expand the number of Democrat or Republican seats, whoever happens to be in charge. In my State I am really fortunate because it's far less partisan than it is in any other State that I know of. But that determines, in a large way, who will be in the majorities in the State legislatures after the next elections. Some seats will be lost and some seats will be won because of the lines that are drawn that are the result of the census that is taking place in 2010.

Not only does it make a difference in who is in the majority in the State legislatures—and every State is bicameral, with the exception of Nebraska, which is unicameral—but also it makes a difference in the congressional districts, these 435 districts that are seated here in this Congress, Madam Speaker. And when those lines are changed, it makes a difference on sometimes who comes to this Congress. It makes a difference on whether a few more Republicans get elected or a few more Democrats get elected. And if you can stack the count in certain areas, you can expand the number of seats and make a difference on who holds the gavel here behind me, Madam Speaker.

If we just look at the count of illegals in America, there is a study done by a reputable organization, Dr. Steve Camerata, as I recall, that comes to a conclusion that there are between nine and 11 congressional seats in America. This is an election or two ago, so the analysis probably shifts down. But it was between nine and 11 seats in America that are shifted because we count illegals along with legals for purposes of apportionment. It takes, in my opinion, a constitutional amendment to fix that. But someone like MAXINE WATERS in California, it will require perhaps 50,000 votes to get reelected to Congress because I suspect she doesn't have as many legal Americans there and a lower percentage of citizens, and certainly a lower incidence of people voting. My particular seat, it will take about 120,000 votes to be elected or reelected to the Fifth District of Iowa because we have a high percentage of citizens and a low percentage of illegals.

The census makes a difference. And if the census is an accurate count, then we can draw better lines. If the census is an inaccurate count, then the lines will be drawn to favor the partisan interests of the people that produce the inaccurate count.

Now, if I were going to look across the entire United States of America and try to come up with entities that have the wherewithal to significantly provide the manpower for this census and who had the most ability to corrupt the process, number one on my list of alarm would be ACORN and all of their affiliates for all these reasons that I've said. Now, how can anyone expect to get a legitimate count on the census from the very people that have produced the illegitimate voter registration forms? And yet President Obama, his administration has contracted with ACORN to assist with the census.

Madam Speaker, the question came up—actually, it came up last night in national media—about do I have any proof of this because ACORN denies it. And Madam Speaker, I have in my hand the documents that do determine—these are documents that come from the U.S. Census Bureau, and they read that, let's see, they were looking for some entities that could help with the census. Their goal was to work with national organizations and corporations that could help us reach the hard-to-count populations. And as I look down through this information that includes an agreement with ACORN, it says, Our overall goal was to work with organizations that could reach the hard-to-count populations.

And here's what they did to identify who to partner with. They went to a list of national organizations, they added advisory committees, they have used a cluster segmentation approach. They looked at the economically disadvantaged, the unattached mobile singles—that's a term I had not seen before—in high-density areas with ethnic enclaves. Okay. These are legitimate places where we would have difficulty with the census, and I recognize and agree with that. But then they had criteria for not partnering with a group. One is if they didn't meet the criteria above that I mentioned. The second one is if they're hate groups. Now, I would like to see that list of hate groups that's filed under the United States Census Bureau.

□ 1715

It seems as though the Department of Homeland Security had identified conservatives as hate groups. It seems as though the FBI had the resources to send investigators out to mill through the crowds on TEA Bag Day, April 15, Tax Day. The FBI was looking at the people that came to the courthouse square to voice their objection to the oppressive taxes that have been imposed upon this country and the irresponsible spending, and they're identified as hate groups. Conservative groups, hate groups. I don't know of a liberal group that would be on that, but I hope that we are able to make that request and get a list in the CONGRESSIONAL RECORD of who are the hate groups. I suspect I'm probably alleged to be on some of them.

Then other groups that were not considered were law enforcement groups, anti-immigrant groups. I don't know what an anti-immigrant group is. I know there are some anti-illegal immigrant groups. I don't know of a single anti-immigrant group, but that gives you a sense of the biased ideology that lays this out. Also, any groups that might make people fearful of participating in the census. I don't know who that might be, but it gives them a way out. Or maybe any groups that did not serve the hard-to-count population.

So it looks to me like they have written some regs here that will qualify ACORN. I have in my hand a document from the U.S. Census Bureau, National Partnership, and it is a document that says the Association of Community Organizations for Reform Now, ACORN, their tasks check-marked and dated January 13, 2009, 3:02 p.m.: ''Dear sir or madam, I am writing to inform you that on behalf of the 2010 census partnership program, we would like to invite you to become a national partner with the Census Bureau for the 2010 census.''

ACORN is already in. It's not a matter of conjecture. ACORN is involved in the census. And if we don't suspend that here in this Congress, the result will be, I fear, a corruption of the census process that is nearly as serious as the corruption of the election process.

Why would you go to the people that have exactly the wrong track record and put them in control? Why did the President ask to move the Census within the White House and out of the Department of Commerce? Why is Rahm Emanuel involved in directing this, the man from Chicago, the Chicago politics visits and arrives at the White House with the President?

And, by the way, if one goes back also and even begins to think that President Obama wasn't involved with ACORN and this is just a random hiring process that took place because it made sense, I would point out also that President Obama chaired for a time and sat on the board for a longer time of the Woods Foundation in Chicago, which distributed funds to community organizing groups and directed funds to ACORN. As chairing the Woods Foundation, he sent money to ACORN. He also sat on the board of the Chicago Annenberg Challenge. This is a liberal education initiative, the brainchild of the unrepentant terrorist William Ayers. William Ayers recruited President Obama, at that time State Senator Obama, to sit on the board of the Chicago Annenberg Challenge, which what did they do? Raised money and distributed it to places including ACORN.

So I think I have given you enough threads, Madam Speaker, to understand that President Obama is tied in with ACORN, part and parcel. He's been their attorney. He's been an employee under the Project Vote. He's

hired them and written them a check out of his campaign for over $800,000, sat on the board of the Woods Foundation and the Chicago Annenberg Challenge. Both of them sent other money to ACORN. William Ayers, the unrepentant terrorist, was the founder of the Chicago Annenberg Challenge. And by these documents here, Madam Speaker, ACORN is working on the census and at a minimum providing temporary employees to work on the census to count the people. And we know what's happened to our election process. It's been corrupted. And, by the way, there are news reports of fraudulent votes and prosecutions on fraudulent votes and people that voted multiple times that were enabled by the registrations of ACORN. Some of that, Madam Speaker, is in the news today.

So I revere this election process, and I would rather lose elections than I would lose the integrity of the election process. And I'm happy enough to accept the results of a legitimate census no matter what it is. If it draws a district out of Iowa, I will lament that. I want to have the most representation possible from Iowa. But we have got to have a real count and we have got to deal with integrity. And when we have corrupt organizations that have all the trappings of a criminal enterprise, this Congress should shut off funding to that criminal enterprise.

But, instead, we don't get a vote and we don't get a debate because the rules are unprecedentedly changed and corrupted up there on the third floor in the Rules Committee where nobody goes, and if many did, they couldn't get in. We need cameras there. We need the press there, and we need open rules here on the floor. And we need people that are willing to engage in this debate and take come whatever may. If you believe in yourself, stand up and say so. I will be happy to yield to you. But I see it never happens. You sit on your hands, and you accept this power that you happen to have right now.

But the American people are going to take it back, and they are going to give it to the people that they trust.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. CAPUANO (at the request of Mr. HOYER) for today on account of family reasons.

Mr. DEFAZIO (at the request of Mr. HOYER) for today on account of official business in district.

Mr. FATTAH (at the request of Mr. HOYER) for today after 1 p.m.

Mr. KANJORSKI (at the request of Mr. HOYER) for today after noon on account of official business in district.

Mr. WELCH (at the request of Mr. HOYER) for today after 2 p.m. on account of son's graduation.

Mr. SHADEGG (at the request of Mr. BOEHNER) for today on account of prior family commitments.

By Mrs. CAPITO (for herself, Mr. BARRETT of South Carolina, Mr. CAMPBELL, Mr. COHEN, Mr. GONZALEZ, Mr. SHUSTER, Mr. SESTAK, and Mr. WOLF):

H. Res. 568. A resolution recognizing the 150th anniversary of John Brown's raid in Harpers Ferry, West Virginia; to the Committee on Oversight and Government Reform.

By Mr. MORAN of Virginia (for himself, Mrs. MYRICK, Mr. LATHAM, Ms. DELAURO, Mr. MITCHELL, Mr. LOEBSACK, Mr. BRALEY of Iowa, Mr. HINCHEY, and Mr. MCGOVERN):

H. Res. 569. A resolution supporting the work of citizen diplomacy organizations and encouraging the convening of a Presidential Summit on Global Citizen Diplomacy; to the Committee on Foreign Affairs.

By Mr. ROGERS of Michigan (for himself, Mr. CULBERSON, Mr. GARRETT of New Jersey, and Mr. ROYCE):

H. Res. 570. A resolution directing the Secretary of Homeland Security to transmit to the House of Representatives all information in the possession of the Department of Homeland Security relating to the immigration status of any detainees and foreign persons suspected of terrorism; to the Committee on the Judiciary.

By Mr. WALZ (for himself, Mr. ELLSWORTH, and Mr. WILSON of South Carolina):

H. Res. 571. A resolution expressing the sense of the House of Representatives that the Federal Government should relinquish its temporary ownership interests in the General Motors Corporation and Chrysler Group, LLC, as soon as possible and should not micromanage or unduly intercede in management decisions of such companies; to the Committee on Financial Services.

PRIVATE BILLS AND RESOLUTIONS

Under clause 3 of rule XII,

Mr. FILNER introduced A bill (H.R. 2988) for the relief of Fernando Javier Cervantes; which was referred to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

The following Member added his name to the following discharge petition:

Petition 3, by Mr. LATOURETTE on House Resolution 359: Elton Gallegly, Steve Buyer, Gregg Harper, Rodney P. Frelinghuysen, Thomas E. Petri, Ron Paul, Roscoe G. Bartlett, John Linder, and C. W. Bill Young.

AMENDMENTS

Under clause 8 of rule XVIII, proposed amendments were submitted as follows:

H.R. 2892

OFFERED BY: MR. OLSON

AMENDMENT NO. 1: Page 24, line 23, after the dollar amount insert ''(reduced by $36,000,000)''.

Page 39, line 21, after the dollar amount insert ''(increased by $36,000,000)''.

Page 41, line 9, after the dollar amount insert ''(increased by $36,000,000)''.

EXTENSIONS OF REMARKS

COMMEMORATING MS. ARLENA CHRISTIAN-BROWN ON THE OCCASION OF HER 92ND BIRTHDAY

HON. RODNEY ALEXANDER

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. ALEXANDER. Madam Speaker, I rise today to commemorate Ms. Arlena Christian-Brown on the occasion of her 92nd birthday.

Ms. Christian-Brown was born on July 11, 1917, in Bonita, LA, to West and Classie Christian. She is the second of 19 children, and the oldest daughter living today.

Currently, Ms. Christian-Brown is a resident of Jones, Louisiana and together with her late beloved husband, Ross Brown, raised eight children.

Ms. Christian-Brown has been an active member of her community, attending and participating in church throughout her life. Over the years, Ms. Christian has served as an usher, choir member and a mother on the motherboard.

As her friends and family prepare to join together on July 11 to celebrate this exciting birthday, Ms. Christian-Brown continues to exemplify how dedication, hard-work, patience and a strong faith can make a difference in her community. She has instilled fairness, honesty and religious conviction in her children and grandchildren.

Today, Ms. Christian-Brown is the proud grandmother of 19 grandchildren, 13 great-grandchildren (one deceased) and one great-great-grandchild.

I ask my colleagues to join me in wishing Ms. Christian-Brown a very happy 92nd birthday.

EARMARK DECLARATION

HON. J. GRESHAM BARRETT

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. BARRETT of South Carolina. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of the House passed version of H.R. 2847.

Requesting Member: Congressman J. GRESHAM BARRETT

Bill Number: H.R. 2847

Provision: Title I, International Trade Administration

Legal Name of Requesting Entity: Clemson University

Address of Requesting Entity: 201 Sikes Hall, Clemson, SC 29634

Description of Request: The purpose of this appropriation is to provide $350,000 to the National Textile Center at Clemson University. These funds will be used to support research and development, undergraduate and graduate education, and technology transfer at Clemson University in the area of polymers, fibers, and textiles research. Activities carried out with these funds will include research projects with direct military implications, as well as training of students, both of which support industry in the United States. I certify that neither I nor my spouse has any financial interest in this project.

RECOGNIZING THE 50TH WEDDING ANNIVERSARY OF BLUFORD AND BETTY WARD

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. MILLER of Florida. Madam Speaker, on behalf of the United States Congress, it is an honor for me to rise today in recognition of Bluford and Betty Ward on the occasion of their 50th wedding anniversary.

Bluford Ward and Betty Crutchfield met growing up in the small farming community of Allentown, Florida. The two met while in school at Allentown School, now known as Central High School, and their friendship grew into something more over the years. Bluford and Mrs. Betty married on June 20, 1959 at Calvary Baptist Church, right down the road from where they grew up.

Bluford and Betty Ward live the American dream. They began their life together in Allentown where they live to this day. Bluford and Betty are the proud parents of three children—Sherry, Terry, and Jennifer—and four grandchildren. I am honored to call Bluford and Mrs. Betty my friends.

Madam Speaker, on behalf of the United States Congress, I am proud to recognize Mr. and Mrs. Ward on their 50th wedding anniversary. They are truly an outstanding family from the First District of Florida.

ONE RIOT, ONE RANGER

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 18, 2009

Mr. POE of Texas. Madam Speaker, about 100 years ago, there was a fight brewing in Dallas. Back then there was a different type of 9–1–1. When you needed to bring in the big guns, you knew who to call. So the Dallas mayor made his urgent plea for help and was waiting anxiously for the Calvary to ride into town, so to speak. As Captain Bill McDonald stepped off the train, the mayor was elated, but wondered out loud where the rest of 'em were? "Hell! ain't I enough? There's only one prize-fight!" Those words have become synonymous with the Texas Rangers: One Riot, One Ranger.

This past weekend I had the honor and privilege to speak to over 300 Texas Rangers in Waco, Texas. I was like a kid in a candy shop! Some were not active Rangers anymore, but don't think that made any real difference in their appearance or demeanor. Just like a Marine; once a Ranger, always a Ranger. There is no "ex-Ranger."

As I mingled through the sea of starched shirts, jeans and cowboy hats, I thought I had died and gone to Heaven. You can always spot a Ranger. Long, lean and mean with a silver star made out of a Mexican sliver dollar and six guns. It was like I was talking to Gus McCray and Woodrow Call of Lonesome Dove. The legends of the greatest law enforcement agency ever known were alive and well. And me, a mere U.S. Congressman, was getting to hang out with them!

The Texas Rangers can be traced back to the earliest days of Texas history, technically long before we were Texas. They are the oldest law enforcement organization on the North American continent with statewide jurisdiction. Stephen F. Austin got a few men together to protect the early settlers from Indians in the early 1800s. They got their name from their primary duty—patrol the range and keep the peace. For over 200 years, their purpose hasn't really changed.

In 1835, at the beginning of the Texas Revolution, the Corps of Rangers was established; and in 1847, they officially became known as the Texas Rangers. Twenty-five men under the command of Silas M. Parker were designated to protect the frontier between the Brazos and the Trinity; ten men under Garrison Greenwood were assigned to the east side of the Trinity; and 25 men under D.B. Frazier to patrol between the Brazos and the Colorado. They did what even the U.S. Army could not do—protect the settlers from the Indians.

Through the years the Texas Rangers have increased and decreased in numbers and their charges have varied, but their duty has never waivered. During the Texas Revolution, while the Texians' focus was on defeating Santa Anna's army, the Rangers focused on protecting the settlements from Indians. During the Mexican-American War, they became know as the "Los Diablos Tejanos"—the Texas Devils, for their fierce protection of the frontier.

Their storied history can fill pages and pages; their duties and contributions are just too long to list. But, the famous words of Captain Bill McDonald have evolved into the Ranger creed and pretty much say it all: "No man in the wrong can stand up against a fellow that's in the right and keeps on a-comin."

They have been the focus of legend, lore, radio shows, Hollywood movies and television

dramas. One Ranger, and the outlaw who wronged him, even made their way to my courtroom. Back in 1988, the Lone Ranger flew into Houston Intercontinental Airport to speak at a charity for disabled kids. When he left town a baggage handler stole his luggage. (Yes, the real Lone Ranger; some people know him as the actor Clayton Moore, but believers know he is actually the Lone Ranger.) Inside this bag were his twin ivory handled Colt .45s—might as well have been the Hope Diamond itself.

Well, when it came to sentencing I really had no choice in the matter. This was the Lone Ranger after all and he had been wronged. It was my duty as a Texan and a man of the law to punish this outlaw in the name of everything holy and sacred—600 hours shoveling manure at the Houston Police Department Mounted Patrol stables.

And through it all, I refused to reveal the true identity of the Lone Ranger. I allowed him to remain ''masked'' and wear his white hat in the court—even over the loud objections of the defense attorney. I was not about to go down in history as the man who un-masked the Lone Ranger!

These lawmen have always had a certain swagger; a certain something about them that made them Rangers. Another legendary Ranger, who lived up to his nickname, ''Rip'' (Rest in Peace) Ford said this about the men that served under him: ''A large proportion . . . were unmarried. A few of them drank intoxicating liquors. Still, it was a company of sober and brave men. They knew their duty and they did it. While in a town they made no braggadocio demonstration. They did not gallop through the streets, shoot, and yell. They had a specie of moral discipline which developed moral courage. They did right because it was right.''

Whether they be fact or fiction, Texas Rangers are a special breed. But, would we really expect anything less from Texas? Nowadays they mainly work alone. They are the finest law enforcement agency in the world.

By the way, Ranger Captain Bill McDonald successfully stopped the Dallas Prize Fight Riot—by himself.

And that's just the way it is.

HONORING THE ACHIEVEMENTS OF DR. RITA S. JONES

HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. GERLACH. Madam Speaker, I rise today to honor Dr. Rita S. Jones who is retiring as superintendent of Great Valley School District in Chester County, Pennsylvania after faithfully serving more than 39 years as a dedicated teacher and outstanding administrator.

Dr. Jones started her distinguished career in a third-grade classroom in Johnstown, Ohio in 1971. She came to Pennsylvania in 1978 as assistant superintendent/director of special projects in the Downingtown School District and then became superintendent in the Daniel Boone School District in 1986. For the last 16 years, Dr. Jones has served as superintendent at Great Valley.

Dr. Jones has earned the respect of parents, teachers and staff for her excellent leadership and contagious optimism while challenging teachers and students to work hard and maximize their potential. Fellow educators throughout the state recognized Dr. Jones' commitment to a high standard of educational excellence in 1998 when she was named Pennsylvania Superintendent of the Year.

After the school day ended, Dr. Jones continued serving her community by giving her time and talents to the Brandywine Branch of the American Red Cross, The March of Dimes, Chester County Futures and several other professional and civic organizations.

Colleagues and friends will celebrate her wonderful career on Monday, June 22, 2009 during a dinner at The Desmond Hotel and Conference Center in Malvern.

Madam Speaker, I ask that my colleagues join me today in honoring Dr. Rita S. Jones for her 39 years of distinguished service as a teacher and administrator and recognizing her unwavering commitment to educational excellence.

EARMARK DECLARATION

HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. HALL of Texas. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2847, FY2010 Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010:

Requesting Member: Congressman RALPH M. HALL

Bill Number: H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010.

Account: National Aeronautics and Space Administration

Legal Name of Requesting Entity: Texas Tech University

Address of Requesting Entity: 19th and University Avenue, Mail Stop 2131, Lubbock, TX –79404

Description of Request: I have secured $1,000,000 for the Engineering Support For Extended Human and Robotic Space Flight Missions with Texas Tech University at Abilene. Funding for this project will contribute directly to NASA's initiative of returning to the moon and further exploring Mars. For human and robotic missions, the center for Space Sciences is addressing the need for a decrease reliance on mission control due to the communication delays that occur in long distance missions. For human missions the center is also addressing the need for greater autonomy in dealing with the physical needs of the astronauts, including long term water recycling, which currently limits the habitation period possible without re-supply, and the ergonomics and human factors aspect of human performance in zero and reduced gravity environments. The major research areas will include recyclable/renewable water resources, autonomous/renewable control systems and ergonomics/human factors crew support. This project supports the space flight industry and related programs throughout Texas. I certify that neither I nor my spouse has any financial interest in this project.

HONORING THE ACHIEVEMENTS OF DR. MURIEL A. HOWARD

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. HIGGINS. Madam Speaker, I rise today to congratulate and honor Dr. Muriel A. Howard of Western New York. After serving as president of Buffalo State College for 13 years, Dr. Howard will leave to become the president of the American Association of State Colleges and Universities in Washington, D.C. It is my privilege to highlight Dr. Muriel A. Howard as a woman whose extraordinary efforts as president of Buffalo State College have forever shaped and enhanced this fine institution in the 27th Congressional District.

Born in North Carolina, Dr. Howard was raised on a farm in Wilmington along with her five siblings. Dr. Howard learned at an early age the importance of hard work and social responsibility. Her parents and grandparents instilled the importance of education in their children. Dr. Howard always sat in the front row, excited and eager to learn. When her parents chose to move the family to Queens, education remained the top priority. Her mother drove her children to the best school in Queens.

Dr. Howard continued her education at City University of New York's Richmond College where she received a degree in sociology and a minor in education. Dr. Howard also has a master's degree in education from the University at Buffalo, and a doctorate of philosophy, in educational organization, administration, and policy from the University at Buffalo. At Harvard University, she earned a certificate in the Institute for Educational Management.

Accordingly, University at Buffalo presented Dr. Howard with leadership opportunities. She served as vice president of public service and urban affairs for 23 years, becoming the first woman to serve as vice president at SUNY Buffalo. Dr. Howard's distinction as one of Western New York's finest leaders led to the honor of being named the seventh president of Buffalo State College—the first woman president at the institution.

At Buffalo State College, Dr. Howard challenged the status quo and transformed it into a diversified college. The college is now known for its leadership in arts and culture because of the new $30 million Burchfield Penney Art Center that would not have been possible without her efforts.

Nationally, Dr. Howard has been a leader in education. She has been involved on a number of boards including: the American Council of Education; the Division III President's Council of the National Collegiate Athletics Association; the American Association of State Colleges and Universities, Merchants Insurance

Company, Farm Credit Services of Western New York, and the Fleet Bank Community Relations Advisory Board.

Dr. Howard also has served the great state of New York through many organizations such as the New York State Department of Education Commissioner's Council on Higher Education, the New York State Blue Ribbon Commission on Youth Leadership and the State University of New York Advisory Council on Teacher Education to name a few.

Her unrelenting devotion and selfless service will be missed at Buffalo State College and in the Western New York community. On behalf of the Western New York Community, I thank Dr. Muriel A. Howard for her friendship, and for her service to Western New York and Buffalo State College. I congratulate Dr. Howard on this most recent achievement and wish her the best of success as she assumes the role of president of the American Association of State Colleges and Universities in Washington, D.C. I look forward to continuing the partnership we've formed and with gratitude and admiration, I ask all Members of Congress to join me in honoring an extraordinary woman of New York's 27th Congressional District, Dr. Muriel A. Howard.

IN RECOGNITION OF VEGAN EARTH DAY 2009 AT PIERCE COLLEGE

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. KUCINICH. Madam Speaker, I rise today in honor and recognition of Vegan Earth Day 2009. On June 21, 2009 members of the community will promote and celebrate the healthy and environmentally sound, vegan lifestyle, abstaining from the consumption or use of animals or any animal bi-products.

Studies show that a vegan saves a ton and a half of carbon emissions per year. Vegans also require much less water in the production of their food. With the effects of climate change becoming more evident and water becoming more of a precious commodity, these individuals are leading the way to a cleaner and greener future by promoting the consumption of fruits, vegetables, nuts, grains and other organic foods. I also stand in recognition of the event's organizer, Bob Linden, as he continues to demonstrate outstanding leadership on conservation, humane treatment of animals, and healthy eating habits. This year's Vegan Earth Day will feature environmental and health experts, live music, animal adoptions and activities for kids that set the stage for other organizations across the country to follow in their footsteps.

Madam Speaker and colleagues, please join me in honor of the program coordinator, Bob Linden, Pierce College, and the event volunteers as they celebrate Vegan Earth Day. I stand in recognition of the important contributions such an event will add to the promotion of living environmentally-conscious lifestyles across the country.

PERSONAL EXPLANATION

HON. ALLYSON Y. SCHWARTZ

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Ms. SCHWARTZ. Madam Speaker, during an absence yesterday, I regrettably missed rollcall votes No. 365, No. 378, No. 388, and No. 395. Had I been present, I would have voted in the following manner:

Rollcall No. 365: ''no''; rollcall No. 378: ''no''; rollcall No. 388: ''yes''; rollcall No. 395: ''no.''

PERSONAL EXPLANATION

HON. CAROLYN McCARTHY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mrs. MCCARTHY of New York. Madam Speaker, yesterday, I missed one vote. I would have voted as follows:

Rollcall No. 365, on agreeing to the Hodes of New Hampshire Amendment to H.R. 2847, I would have voted ''yea.''

HONORING EFFORTS TO END HOMELESSNESS IN HUDSON COUNTY

HON. ALBIO SIRES

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. SIRES. Madam Speaker, today I rise to honor efforts in my district to end homelessness. County and municipal governments, non-profit organizations, and business leaders, with guidance from the federal government, have joined together to end chronic homelessness. For nearly three years, the Alliance to End Homelessness in Hudson County has worked collaboratively to develop the ten-year plan with input from government officials, non-profit organizations, and those agencies working closely with Hudson County's homeless population. The Alliance's ten-year plan consists of 45 action steps to end homelessness that includes building 650 units of housing and providing health care and support services to homeless individuals and homeless families dealing with temporary dislocation due to fire, job loss, domestic abuse and other crisis. This collaboration is important because wide support is needed to solve this problem. Recognizing that, United Way of Hudson County is honoring TD Bank for their work to end homelessness; Governor Jon Corzine for his leadership in the state on this issue; and Dr. Philip Mangano the former Executive Director of the U.S. Interagency Council to End Homelessness for his guidance and advice in establishing Hudson County's Alliance. So I rise today to offer my support to the United Way of Hudson County and the Alliance to End Homelessness in Hudson County and I wish them continued success in their fight against homelessness.

A SPECIAL TRIBUTE TO GOLDEN HERITAGE FOODS

HON. ROBERT E. LATTA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. LATTA. Madam Speaker, it is with a great deal of pride that I rise to pay a very special tribute to an exceptional company located in Ohio's Fifth Congressional District. Golden Heritage Foods, a successful honey processing and distribution company, was named the 2009 ''Enterprise of the Year.''

Madam Speaker, there is no question that local businesses serve as one of the key building blocks of our state. Golden Heritage Foods was established in 2002 through the joining of Barkman Honey Company located in Hillsboro, Kansas, and Stoller's Honey in Latty, Ohio. Since that time, the company has grown to become the second leading producer of branded retail honey sales and the top provider of honey in the United States to the food service industry.

While the company itself is relatively young, their legacy was well established prior to its founding due to over 40 years of hard work and dedication exhibited by both the Barkman and Stoller families. Not only has Golden Heritage Foods provided quality products since their opening, they have also created over 100 jobs for the citizens of Kansas and Ohio.

Madam Speaker, I ask my colleagues to join me in paying special tribute to Golden Heritage Foods and its founders, Brent Barkman and Dwight Stoller. Our communities are well served by having dedicated entrepreneurs who assist in the growth and prosperity of our great nation. On behalf of the people of the Fifth District of Ohio, I am proud to recognize this great company on being named Van Wert, Ohio's 2009 ''Enterprise of the Year'' and wish them success in all future endeavors.

WE STAND UNITED FOR FREEDOM

HON. CANDICE S. MILLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mrs. MILLER of Michigan. Madam Speaker, I come to the floor today to show support for those in Iran who are standing up for their rights and for those who seek freedom across the globe.

Tyrants who use violence and fear to suppress the voices of their citizens who seek freedom lose their legitimacy to govern.

Those who seek freedom and liberty across this globe must know that the American people stand with you.

We stand with you because we have a supreme desire to live up to the belief espoused in the founding document of our nation—

We hold these truths to be self evident—that all men are created equal, that they are endowed by their creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness.

And to secure these rights governments are instituted among men, deriving their just powers from the consent of the governed.

That is why we stand consistently with nations who conduct free, fair, and open elections.

That is why we stand with citizens of nations who are brave enough to stand up and demand their freedom.

America does not seek to impose any individual on the Iranian government or the Iranian people.

But America will always stand with those who peacefully demand their voices are heard.

IN HONOR OF GEORGE L. FORBES

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. KUCINICH. Madam Speaker, I rise today in honor of George L. Forbes and in recognition of his deep commitment to country and community. George L. Forbes is being honored today with a Lifetime Achievement Award from the National Association for the Advancement of Colored People (NAACP). For 17 years, Mr. Forbes has served as President of the NAACP, and helped support their mission of ''ensuring the political, educational, social, and economic equality of rights of all persons'' and eliminating racial discrimination in our country.

George Forbes has committed his life to serving and helping others. He served in the United States Marine Corps from 1951 to 1953. He taught social studies in the Cleveland public school system while completing his own education. In 1964, George was elected to the Cleveland City Council and his impressive career in public service included being Majority Leader of Cleveland City Council, Co-Chairman of the Cuyahoga County Democratic Party, and the longest serving City Council President in the city's history. In 1971 George co-founded Cleveland's first black-owned law firm, Forbes, Fields, & Associates Co. L.P.A.

The NAACP is not the first to bestow high honors on this remarkable man. His vocation for bettering the lives of those around him has earned him recognition from the Black Affairs Council, Cleveland State University Maxine Goodman Levin College of Urban Affairs, the National Association of Securities Professionals, the National Action Network Inc., and Baldwin Wallace College where he taught courses in Political Science. With this outstanding record of service, it's no wonder that the Cleveland Plain Dealer named Mr. Forbes as one of the 50 most influential people in Cleveland's history.

Madam Speaker and colleagues, please join me in honor and recognition of George L. Forbes as he receives the Lifetime Achievement Award from the NAACP. Mr. Forbes is the prime candidate for this prestigious recognition. His legacy and unwavering commitment to public service will serve as inspiration to others for decades to come.

EARMARK DECLARATION

HON. PETER T. KING

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. KING of New York. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892—the Department of Homeland Security Appropriations Act, 2010.

Requesting Member: Congressman PETER T. KING

Bill Number: H.R. 2892

Account: Science & Technology/Research, Development, Acquisition, & Operations

Legal Name of Requesting Entity: Long Island Forum for Technology

Address of Requesting Entity: 111 West Main Street, Babylon, NY 11706

Description of Request: $1,000,000 will be used to continue a pilot program to identify and transition advanced technologies and manufacturing processes that will achieve significant productivity and efficiency gains in the homeland security industrial base. It is an appropriate use of taxpayer funds because this project will increase quality while reducing the costs of products delivered to first responders.

HONORING THE MEMORY OF JOSEPH WILLIAM MCCRAY, JR.

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. BONNER. Madam Speaker, the city of Mobile and indeed the entire state of Alabama recently lost a dear friend, and I rise today to honor him and pay tribute to his memory. Joseph William McCray Jr. was a devoted family man and an outstanding community leader.

A native of Pensacola, Mr. McCray was raised in the Carver's Court neighborhood in north Mobile. He was a graduate of Central High School and attended Tennessee State University.

A veteran of the U.S. Army, Mr. McCray dedicated over three decades to the South Alabama Regional Planning Commission Area Agency on Aging serving as the nutrition coordinator. He was instrumental in the development and operation of nutrition centers for the elderly in Mobile, Baldwin and Escambia counties. Following his retirement, he served as the director of the U.J. Robinson Memorial Adult Day Care Center. He had also served as the District 2 commissioner for Mobile's Human Relations Commission.

Mr. McCray joined the Mobile Area Mardi Gras Association (MAMGA) in the early 1970s and quickly became involved in all of the association's committees, including serving as financial secretary. He was instrumental in organizing MAMGA's joint functions with the Mobile Carnival Association. In 1992, Mr. McCray was elected as the third president of MAMGA and served until 1996. He is one of only a few men widely known as ''Mr. Mardi Gras.''

Mr. McCray was a past president of 100 Black Men of Greater Mobile, and he recently received their coveted Achievement Award. He was also a 3rd Degree Knights of St. Peter Claver and was a past president of the Comrades Social Club. An active member of his church, Prince of Peace Catholic Church, Mr. McCray served on the Parish Council, the Building and Grounds Committee, and many other affiliations within the parish.

Madam Speaker, I ask my colleagues to join me in remembering a man who dedicated his life to south Alabama. Mr. McCray will be dearly missed by his family—his wife of 44 years, Faye C. McCray; his son, Joseph McCray III; his sisters, Jolita Dorsett and Severia Norton; and his grandchildren, Julian Christopher and Reagan Michelle McCray—as well as the countless friends he leaves behind.

Our thoughts and prayers are with them during this difficult time.

INCREASING THE LEVEL OF EXPERTISE AND CULTURAL AWARENESS IN AFGHANISTAN

HON. MARK STEVEN KIRK

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. KIRK. Madam Speaker, today I introduced legislation along with my colleague from Washington, Mr. LARSEN, to enhance the ability of General McChrystal to bring our mission in Afghanistan to a successful completion.

One of the key problems facing our mission in Afghanistan is the limitation on service for nearly all military and most civilians deployed there. Nearly all Americans serve no longer than 12 months, costing the overall U.S. effort critical military, language and personal relationship experience needed to sustain momentum in the war effort.

General McChrystal intends to implement a ''classic counterinsurgency campaign'' designed to win the support of the Afghan people and drive a wedge between them and the Taliban. In a tribal culture like Afghanistan, it will be essential for General McChrystal to have people with established, personal relationships with local leaders in order for his strategy to succeed.

Our legislation authorizes a $250,000 incentive bonus for servicemembers to agree to serve in Afghanistan for the duration of the mission, up to six years. This bonus would be paid at the end of their service in Afghanistan. The bill authorizes an additional $250,000 incentive bonus for a servicemember who volunteers for the duration who scores a 4.0 on the Foreign Service Institute test for the dominant languages of Pashto and Dari. These soldiers would receive a payment of $500,000 at the completion of their service in Afghanistan.

These ''for the duration'' volunteers would quickly become the elite of our effort, bringing the most skills to bear for senior commanders and troops in contact with the enemy. The knowledge they would bring cannot be taught in the U.S., it can only be gained through experience in the field. Just a handful of these soldiers in each Afghan province will make a world of difference.

HONORING THE 90TH ANNIVERSARY OF A&W RESTAURANT

HON. JERRY McNERNEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. MCNERNEY. Madam Speaker, I ask my colleagues to join me in celebrating the 90th anniversary of A&W, a famous and treasured American company.

Founded in Lodi, California, a city I am honored to represent, meals and root beer floats at A&W are a tradition for many families.

A&W started as a root beer stand owned by Roy Allen, who sold root beer for a nickel a mug on a downtown corner. The soda proved so popular that the company quickly expanded to four sites, and the concession evolved into what is thought to be the country's first ''drive-in.''

Later, Mr. Allen asked Frank Wright, one of his employees, to join him in business and the two formed the partnership that became A&W.

There are more than 675 A&W All American Food outlets in 15 countries and territories around the world, and A&W produces the world's number one selling root beer.

I ask my colleagues to join me in commemorating A&W's 90 years of exceptional service.

HONORING FRED H. SWANSON

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. COSTA. Madam Speaker, I rise today to pay special tribute to Mr. Fred H. Swanson. On June 29, 2009, after 26 years, Fred is retiring from his position as Director of the University of California Kearney Research and Extension Center near Parlier, California, a tenure that saw the transformation of a quiet UC field station into a world-class agricultural research facility.

Mr. Swanson's journey began only five miles from Kearney on the family farm. Upon graduating from high school, Fred left for college to the University of California, Davis. In 1965, upon receiving his Bachelor of Science Degree in Viticulture, the adventurous side of Fred led him to take a position growing food for thousands of workers who were tasked with constructing dams in West Pakistan. Three years later, the job finished with West Pakistan's electricity capacity successfully doubled and the 35-acre farm effectively turned over to the Pakistan army. With the completion of this project, Mr. Swanson returned to California where he took a post managing a vineyard in the McDowell Valley of Mendocino County.

Mr. Swanson was then hired as a UC Cooperative Extension viticulture farm advisor for Fresno County, a position he held for 10 years. Fred then returned to expand his own farming operation while helping others with their farms. During this time, Fred met the legendary viticulture specialist Fred Jenson which led Mr. Swanson to apply for the open directorship at the Kearney Ag Station.

Since 1983, Fred has made outstanding contributions to the Kearney Ag Station. One of his early additions was the purchase of 75 acres of farmland across the street from the original parcel. With this purchase, the total amount of land available for research grew to 330 acres with 45 different varieties of agricultural crops including stone fruit, nut crops, raisins, wine and table grapes, specialty vegetables, blueberries and kiwifruit being grown on this acreage.

In 1989, Swanson made one of his most visible improvements with the construction of a two-story state of the art laboratory, office and meeting complex. This laboratory and office complex provided UC scientists, recognized worldwide for their pioneering agricultural research, the facilities needed to further their research. Additionally, under Fred's direction, a 20,000 square foot greenhouse complex was completed in 2003. This complex continues to give Valley agricultural scientists access to 24 high quality greenhouse modules with computer controlled heating, cooling and lighting systems. Among his many awards, Fred's accomplishments have been recognized by the University of California, Davis through the Award of Distinction from the College of Ag & Environmental Sciences and the Citation for Excellence by the Cal Aggie Alumni Association.

Madam Speaker, it goes without saying that Mr. Swanson's dedication and accomplishments to the San Joaquin Valley's agriculture community have gained him respect and appreciation from all who have worked with him and know him. With retirement now a reality, Fred is preparing to spend more time with his wife Cheryl, as well as enjoying fishing and hunting trips. We owe Fred a magnificent collective thank you. I honor Fred Swanson, before you my colleagues, for his productive years of service to agriculture and the nation.

IN HONOR OF ELLEN PSENICKA

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. KUCINICH. Madam Speaker, I rise today in honor and recognition of Ellen Psenicka, whose forty-year tenure as reporter, editor and publisher of the award-winning Neighborhood News, continues to enlighten, entertain and unite Cleveland's southeast community every Wednesday, highlighting current events along our city streets—from the neighborhoods of Slavic Village, to the streets of Garfield Heights, to the steps of Cleveland City Hall.

Ellen grew up in Sandusky, Ohio and went on to attend Ohio University, where she earned a Bachelor's degree in Journalism. Shortly following graduation, in June, 1969, Ellen was hired as a reporter by Jim Psenicka, publisher of the Neighborhood News. A few years later, Jim and Ellen were married, and they worked in dedication to each other, to the newspaper and to the community until Jim's passing in 2001. At that time, Ellen accepted the torch of leadership passed to her by Jim, and she continues to carry on his legacy of excellence in journalism, and his commitment to the Greater Cleveland Community.

Ellen's spirit of volunteerism and focus on the betterment of the community is evident throughout Southeast Cleveland and its suburbs. Her kind and humble nature draws people to her, and she has garnered the admiration and respect of everyone she knows. She is a longtime member of the Garfield Heights Historical Society and serves as a board member for Cleveland Central Catholic High School. She is currently serving her second term as President of the Kiwanis of Southeast Cleveland. As a member and leader in Kiwanis, Ellen has been instrumental in leading several fundraising efforts aimed at local student scholarship awards, and recently, a fundraiser and recognition dinner honoring Dr. Javier Lopez which raised greatly-needed funds for his medical missions to Central America. Ellen has always reached out with a generous heart wherever and whenever needed. Her efforts in volunteerism also include her tireless dedication in her efforts to save St. Michael's hospital.

Madam Speaker and colleagues, please join me in honor and recognition of Ellen Psenicka, as she celebrates her 40th Anniversary with the Neighborhood News. The Neighborhood News is read by tens of thousands of people weekly, and continues to inform and unite us all. Ellen's commitment to bringing us the news of the neighborhood and her generosity as a community leader and volunteer serves to brighten and strengthen our entire community.

HONORING THE MEMORY OF SHERIFF EDWARD JACKSON ''JACK'' DAY

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. BONNER. Madam Speaker, Thomasville and indeed all of Clarke County recently lost a dear friend, and I rise today to honor him and pay tribute to his memory.

Edward Jackson Day, known to his friends and family as ''Jack,'' served the people of Clarke County as a law enforcement officer for nearly four decades—as a sheriff's deputy, chief deputy, and eventually as sheriff of Clarke County. He devoted his 71 years to his family, his faith, and to keeping the residents of Thomasville and surrounding communities safe.

Jack began his law enforcement career as an auxiliary state trooper in 1967, and was promoted to a full-time deputy three years later. In 1978, he became chief deputy under Sheriff Roy Sheffield. When Sheriff Sheffield retired in 1993, Jack was appointed sheriff of Clarke County and served in that capacity until his retirement in January of 2007. He was a past president of the Alabama Sheriff's Association and a member of the National Sheriff's Association, the Fraternal Order of Police and the Democratic Executive Committee. In addition, Sheriff Day was an avid hunter and a member of Oliver Lodge No. 334 F&AM.

Sheriff Day was also an active member of his church, Pineview Baptist Church, where he

served as a deacon. He served on the board of the Southwest Alabama Children's Advocacy Center, as well as the advisory boards of the Department of Youth Services and Life Tech community. He was also a former board member and chairman of the Boys and Girls Club.

As he prepared to retire as sheriff, Jack noted, ''You learn to take the bad times with the good times. We've had some tragedies, but we've had a lot more good times and I'm glad for that. You always remember you're there to protect and serve the people.''

Madam Speaker, I ask my colleagues to join me in remembering a dedicated community leader, a friend to many throughout south Alabama, as well as a wonderful husband, loving father, grandfather, and great-grandfather. Jack Day will be dearly missed by his family—his wife, Wilma Gates Day; his son, Mayor Sheldon Allison Day; his daughter, Daphne Elaine Day; his two sisters, Mary Ellen Day Parten and Jerry Ann Day Little; his five grandchildren, Jeffrey Devin Deas, Brittney Elaine Deas, Leslie Allison Dellinger, and Kaitlin Elizabeth Day and Thomas Zachary Day; and his three great-grandchildren, Carrigan Elizabeth Day, and Malya Elizabeth Deas and Devin Baine Deas—as well as the countless friends he leaves behind.

Our thoughts and prayers are with them all during this difficult time.

LESSONS TO BE LEARNED FROM MAYOR SCARCELLA OF STAFFORD, TEXAS

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. PAUL. Madam Speaker, public officials looking for ways to increase economic growth and attract new residents and businesses to their cities, counties, or states could learn a lot from the city of Stafford, Texas, and Mayor Leonard Scarcella. Stafford has flourished since 1995 when, under Mayor Scarcella's leadership, the city eliminated the property tax.

Thanks to the absence of property taxes, Stafford residents enjoy cheaper mortgages and have more disposable income than similarly situated residents of towns with property taxes. The extra income as a result of the freedom from property taxes is particularly beneficial during today's tough economic times.

The loss of property tax revenue has not deprived Stafford residents of quality city services; in fact, Stafford resident Alice Rolston told the Houston Chronicle that the police check on her home when she is on vacation, many homeowners living in towns with high property taxes can't count on that type of service.

Entrepreneurs looking to start up businesses are attracted to Stafford because of the lack of property taxes, Fortune magazine ranks Stafford the 36th best American city to start and run a small business.

While Stafford sales, franchise, and permit fees account for some of its ability to operate without a property tax, the major factor in the city's success is the city's fiscally prudent management. Stafford Councilman Cecil Willis says the mayor watches every penny in the city's budget. City employees often perform two or more functions and the city council even debates whether to authorize the purchase of light bulbs and pencils.

Madam Speaker, Mayor Scarcella is also a good argument against term limits, as he is one of the few elected officials who remains as committed to low taxes today as when he led the fight to eliminate the property tax. Mayor Scarcella should serve as a role model to us all in how to effectively govern without burdening the people with excessive taxes.

HONORING DR. TONY STEWART

HON. G. K. BUTTERFIELD

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. BUTTERFIELD. Madam Speaker, I rise to express great sadness about the untimely passing of Elizabeth City-Pasquotank Public Schools Superintendent Dr. Tony Stewart.

Dr. Stewart has served as superintendent for the past nine years, and he had earned the respect of the community as a talented and dedicated educator who worked tirelessly to ensure every student received the best possible education. I will remember him for always stressing the responsibility and importance of working to make a difference in the lives of others.

He started his career in 1963 as a teacher, assistant principal and athletic director at Spotsylvania High School in Virginia before serving as a principal for several other schools in Virginia. Dr. Stewart's first job as a superintendent was at Culpeper County Schools in Virginia, where he served for 13 years starting in 1981. He became superintendent of North Carolina's Burke County Schools in 1994, where he served until coming to Elizabeth City-Pasquotank in 2000.

Dr. Stewart received his bachelor's and master's degrees from Appalachian State University and completed postgraduate work at the University of Virginia and Virginia Tech University. He received his doctorate in education from Nova Southeastern University in 1995 and also completed the Principal's Executive Program at the University of North Carolina that same year.

Madam Speaker, I ask that everyone join me in offering our deepest condolences to his family, friends, loved ones, community and colleagues. Dr. Stewart has been a tremendous asset to the community and he will be greatly missed.

NATIONAL CAPITAL REGION LAND CONSERVATION ACT

HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. MORAN of Virginia. Madam Speaker, I am pleased to be joined today with Representatives ELEANOR HOLMES NORTON, GERALD CONNOLLY, ROB WITTMAN, DONNA EDWARDS, CHRIS VAN HOLLEN, FRANK WOLF and STENY HOYER to introduce legislation National Capital Region Land Conservation Act of 2009. The legislation amends the Capper-Cramton Act of 1930, authorizing appropriations of up to $50 million per year for cost share grants to State, regional and local governments to acquire land in the greater Washington Metropolitan area (as defined by the U.S. Census) for a variety of conservation, environmental and recreational purposes. The program would be administered by the U.S. National Park Service.

Few cannot help but notice the green spaces that make up the central core of our nation's capital. Were it not for some visionaries at the turn of the 19th Century, however, our nation's capital would be a different place today. There would be no Mall, monument core, Rock Creek Parkway, Union Station, Lincoln Memorial or Tidal Basin. These icons that define the city today were part of the 1902 McMillan plan, named after Senator James McMillan of Michigan, who chaired the Senate Committee on the District of Columbia. The commission Senator McMillan established to draft the master plan included some of the greatest American architects, landscape architects and urban planners of the day including such luminaries as Daniel Burnham, Frederick Law Olmsted, Jr. and Charles McKim and sculptor August Saint-Gaudens. The commission's plan, in many respects, was an early form of urban renewal that removed many of the slums that surrounded the Capitol, replacing them with new public monuments, open spaces and government buildings.

As visionary as the plan was, it also took some vision and political muscle to make it a reality. That credit falls largely to two Members of Congress: Senator Arthur Capper of Kansas and Rep. Louis Cramton of Michigan. Both Members embraced the vision and worked over a period of years to enact legislation to advance the McMillan plan. Best known among these laws is the Capper-Cramton law of 1930 authorizing land purchases and creating today's the National Capital Park and Planning Commission.

Today, more than a century since the McMillan plan and more than 70 years since the enactment of Capper-Cramton, the time is now for a new plan, one that is responsive to the development patterns and demographics that were never envisioned at the turn of the last century. In 1902, the population of the District of Columbia was 278,000. Outside a few dirt roads and a few railroad junctions that ran into Northern Virginia and Maryland, the suburbs didn't exist. Dairies and farming hamlets populated Northern Virginia and Montgomery and Prince Georges County, Maryland.

Today, the District is home to 600,000 residents and swells to more than 1,000,000 during the workday. A network of roads and heavy rail radiate out from the city, like spokes on a wheel, linking more than 5,300,000 people who are spread out into the suburbs and fringe communities that consider themselves part of the greater metropolitan Washington, D.C. region. Today, we need a program for the greater metropolitan region.

We also need a program that helps lead the way in public investments to preserve the

green infrastructure of parklands, fresh drinking water sources, steep slopes, stream valleys, forests, wetlands, wildlife corridors, scenic view sheds, historic sites and land buffering national monuments, battlefields that surround the national capital region and are endangered of being lost to development. Safeguarding these green assets is critical to this region's economy, quality of life, and environmental protection. Green infrastructure have been long recognized as essential elements of urban design and critical to safeguarding our region's drinking water supplies and restoration of the nationally important Chesapeake Bay and the Potomac River, truly our ''Nation's River.''

Unless we act now to protect the remaining green infrastructure around our Nation's Capital, we run the risk of permanently degrading the environment in and around Washington, D.C. Between 1990 and now, the region's population grew by about 10 percent but the amount of impermeable surface grew about 40 percent. Forecasts predict that by the year 2030, the Greater Washington, D.C. region will grow by an additional 2 million persons.

I believe Congress can and should help the nation's capital address this growing need to preserve this region's green infrastructure by amending the time honored and visionary CapperCramton Act. The original Act gave life to many of the elements that we appreciate and consider invaluable today. It is time once again to act and preserve our source of fresh drinking water, connect this region's network of nonmotorized trails, provide buffers to protect scenic vistas along the Potomac particularly above Great Falls, and in Charles and Saint Mary's Counties in Maryland, and pocket parks in the more urbanized parts of the region.

I encourage you to support this act.

PERSONAL EXPLANATION

HON. DAVID G. REICHERT

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. REICHERT. Madam Speaker, along with 136 of my colleagues, I was unable to return to the House floor in time for an unexpected recorded vote on a motion to rise late in the evening of June 16, 2009. Had I been present for the vote, I would have voted ''no'' so that the House would consider an amendment to assess the economic impact of the delay in enacting the Colombia Free Trade Agreement.

IN TRIBUTE OF DR. RANDOLPH E. BROOKS

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. LANCE. Madam Speaker, later this month, doctors of optometry from around the country will assemble at the Gaylord Resort at National Harbor for Optometry's Meeting®, the American Optometric Association's 111th annual convention. On Saturday, June 27th, Dr. Randolph E. Brooks of Saccasunna, New Jersey will be elected as the association's 88th president. Randy's enthusiasm and many contributions to his profession earned him this prestigious recognition.

Doctors of optometry are the nation's largest eye care profession serving patients in nearly 6,500 communities nationwide, and in more than 3,500 of these communities they are the only eye doctors. Dr. Brooks has dedicated his life to serving the public both as an optometrist and a community leader.

Dr. Brooks' dedication and motivation will propel him to a most successful term as he leads the American Optometric Association in its mission to improve eye care in the United States.

Dr. Brooks has compiled an impressive record in his profession and his community. After graduating from the State University of New York at Albany, Dr. Brooks enrolled at the New England College of Optometry and later established Advanced Eyecare Associates, a three doctor practice in New Jersey with specialty interests in ocular disease, contact lenses, pediatric eye care and vision therapy. Starting out in 1977 in Budd Lake, New Jersey and later moving to Ledgewood, Dr. Brooks has grown his practice to a staff of fifteen at the Ledgewood facility.

Dr. Brooks was first elected to the American Optometric Association's Board of Trustees in 2000. Prior to the election to the AOA Board, Dr. Brooks was twice named the New Jersey Society of Optometric Physicians' Optometrist of the Year. He also is a past president of the New Jersey Society of Optometric Physicians. Randy's leadership record extends to his community service as a Paul Harris Fellow of the Roxbury Rotary Club, past president of the Mount Olive Lions Club, and as a Board of Directors member of Temple Shalom.

Dr. Randolph Brooks has distinguished himself in the Northwestern New Jersey community through his unique vision and spirit. I wish to convey heartfelt congratulations to Randy and his family on the occasion of his installation as the 88th president of the American Optometric Association, as well as many thanks for working to enrich the lives of those around him.

I ask my colleagues to join me in commending Dr. Randolph E. Brooks.

HONORING THE MEMORY OF MR. CHRIS C. DE LANEY

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. BONNER. Madam Speaker, south Alabama and indeed the entire state recently lost a dear friend, and I rise today to honor him and pay tribute to his memory.

Chris C. De Laney, a devoted family man, lawyer, and philanthropist was dedicated to the continued growth and prosperity of Mobile. A 1948 graduate of the University of Alabama Law School, Mr. De Laney was the first attorney for the University of South Alabama (USA) and was instrumental in the school's negotiations to obtain the old Mobile General Hospital.

He also helped found The University of South Alabama foundation as well as USA Hospital, Southland and Doctor's hospitals, the Historic Blakely Foundation, The Southland Foundation, The Dauphin Island Foundation, and First Small Business Investment Company of Alabama.

Mr. De Laney was appointed as Mobile's acting district attorney in 1979. He also served as chairman of the Alabama Consumer Protection Council, chief executive officer and chairman of Altus Bank, as well as many other business, civic, and religious organizations including Boy Scouts of America and the Isle Dauphine Club.

Madam Speaker, I ask my colleagues to join me in remembering a dedicated community leader and friend to many throughout Alabama. Mr. Chris De Laney will be deeply missed by his family—his loving wife of 64 years, Cleo J. De Laney; his four sons, David C. De Laney, Bryan C. De Laney, Michael C. De Laney, and Robin C. De Laney; his nine grandchildren; and his four great grandchildren—as well as the countless friends he leaves behind. Our thoughts and prayers are with them all at this difficult time.

HONORING A LOCAL MUSICIAN'S CAREER

HON. ADAM H. PUTNAM

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 19, 2009

Mr. PUTNAM. Madam Speaker, a great education is a well-rounded education. This means students should not only be exposed to technical subjects such as math and the sciences, but the humanities and arts as well. Today I wish to honor the life and career of a woman who made great contributions to Florida's music culture as well as inspiring many young students, Mrs. Billye-Mullins Smith.
