SEC. 170. (a) FINDINGS.—The Congress finds the following:

(1) The District of Columbia has recently witnessed a spate of senseless killings of innocent citizens caught in the crossfire of shootings. A Justice Department crime victimization survey found that while the city saw a decline in the homicide rate between 1996 and 1997, the rate was the highest among a dozen cities and more than double the second highest city.

(2) The District of Columbia has not made adequate funding available to fight drug abuse in recent years, and the city has not deployed its resources as effectively as possible. In fiscal year 1998, \$20,900,000 was spent on publicly funded drug treatment in the District compared to \$29,000,000 in fiscal year 1993. The District’s Addiction and Prevention and Recovery Agency currently has only 2,200 treatment slots, a 50 percent drop from 1994, with more than 1,100 people on waiting lists.

(3) The District of Columbia has seen a rash of inmate escapes from halfway houses. According to Department of Corrections records, between October 21, 1998 and January 19, 1999, 376 of the 1,125 inmates assigned to halfway houses walked away. Nearly 280 of the 376 escapees were awaiting trial including two charged with murder.

(4) The District of Columbia public schools system faces serious challenges in correcting chronic problems, particularly long-standing deficiencies in providing special education services to the 1 in 10 District students needing program benefits, including backlogged assessments, and repeated failure to meet a compliance agreement on special education reached with the Department of Education.

(5) Deficiencies in the delivery of basic public services from cleaning streets to waiting time at Department of Motor Vehicles to a rat population estimated earlier this year to exceed the human population have generated considerable public frustration.

(6) Last year, the District of Columbia forfeited millions of dollars in Federal grants after Federal auditors determined that several agencies exceeded grant restrictions and in other instances, failed to spend funds before the grants expired.

(7) Findings of a 1999 report by the Annie E. Casey Foundation that measured the well-being of children reflected that, with one exception, the District ranked worst in the United States in every category from infant mortality to the rate of teenage births to statistics chronicling child poverty.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that in considering the District of Columbia's fiscal year 2001 budget, the Congress will take into consideration progress or lack of progress in addressing the following issues:

(1) Crime, including the homicide rate, implementation of community policing, the number of police officers on local beats, and the closing down of open-air drug markets.

(2) Access to drug abuse treatment, including the number of treatment slots, the number of people served, the number of people on waiting lists, and the effectiveness of treatment programs.

(3) Management of parolees and pretrial violent offenders, including the number of halfway house escapes and steps taken to improve monitoring and supervision of halfway house residents to reduce the number of escapes.

(4) Education, including access to special education services and student achievement.

(5) Improvement in basic city services, including rat control and abatement.

(6) Application for and management of Federal grants.

(7) Indicators of child well-being.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3064) making appropriations for the District of Columbia and other activities chargeable in whole or in part against revenues of said District for the fiscal year ending September 30, 2000, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The composition of this conference agreement includes more than the District of Columbia Appropriations Act for fiscal year 2000. While the House version of H.R. 3064 and the Senate amendment in the nature of a substitute dealt only with District of Columbia appropriations, the conference report was expanded to include Departments of Labor, Health and Human Services, and Education and related agencies appropriations. Appropriations for the District of Columbia are included in Division A. Appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies are included in Division B.

Since the conference agreement is expanded to include the Departments of Labor, Health and Human Services, and Education, and related agencies, the title of the bill is amended to reflect this.

DIVISION A

DISTRICT OF COLUMBIA APPROPRIATIONS

The conferees on H.R. 3064 agree with the matter inserted in this division of this conference agreement and the following description of this matter. This matter was developed through the negotiations on the differences in the House and Senate versions of H.R. 3064, the District of Columbia Appropriations Act, 2000, by members of the appropriations subcommittee of both the House and Senate with jurisdiction over H.R. 3064.

The Division A portion of this joint explanatory statement includes more than a description of the resolution of the differences between the House and Senate versions of H.R. 3064. It also provides a more full description of the matter not in disagreement between the two Houses. Since H.R. 2587, the initial District of Columbia Appropriations Act, 2000, was vetoed, the conferees have expanded this statement to provide an explanation of the additional matter that was not changed in H.R. 3064 as guidance in implementing this conference agreement.

A description of the resolution of the differences between the House and Senate on H.R. 3064 follows next.

DISTRICT OF COLUMBIA FUNDS

GOVERNMENT DIRECTION AND SUPPORT

The conference action inserts a proviso as proposed by the Senate concerning the salary of members of the Council of the District of Columbia.

PUBLIC EDUCATION SYSTEM

The conferees are aware of the Values First program that is designed to bring character education to the District's public elementary schools. The conferees are aware that ten schools now have such a program. The conferees encourage the public school system to continue to expand the Values First program and expend the funds necessary to implement this program on a broader basis.

GENERAL PROVISIONS

The conference action inserts a new subsection (b) in section 129 as proposed by the Senate that allows an increase in payments to attorneys representing special education students if the Mayor, control board, and Superintendent of Public Schools concur in a Memorandum of Understanding setting forth the increase.

The conference action continues the prohibition in section 150 on using Federal or local funds to support needle exchange programs, but without the restriction on privately-funded programs.

The conference action revises section 151 concerning the monitoring of real property leases entered into by the District government.

The conference action revises section 152 concerning new leases and purchases of real property by the District government.

The conference action inserts a new section 173 as proposed by the Senate that allows the DC Corporation Counsel to review and comment on briefs in private lawsuits and to consult with officials of the District government regarding such lawsuits.

The conference action inserts a new section 174 as proposed by the Senate concerning wireless communication and antenna applications. The language recommended by the conferees requires the National Park Service to implement the notice of decision approved by the National Capital Regional Director, dated April 7, 1999, including the issuance of right-of-way permits, within 7 days of the enactment of this Act. Concerning future applications for siting on Federal land, the responsible Federal agency is directed to take final action to approve or deny each application, including action on the issuance of right-of-way permits at market rates, within 120 days of the receipt of such application. This 120-day directive does not change or eliminate the obligation that the responsible Federal agency must comply with existing laws.

The conference action inserts a new section 175 that amends the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2000 (Public Law 106-74), by making certain technical corrections and adding language reflecting the intent of the conferees on that Act.

What follows next is a description of the resolution of selected differences between the House and Senate on the initial District of

Columbia Appropriations Act, 2000, H.R. 2587, that was vetoed. Even though there were differences between the House and Senate versions of H.R. 2587, the resolution of these selected differences was incorporated as identical text in both versions of H.R. 3064. A description of the resolution of these selected differences is included in this conference agreement on H.R. 3064 because an understanding of them is important to the overall implementation of this Act.

The conference agreement on H.R. 3064 incorporates some of the provisions of both the House and Senate versions of H.R. 2587. The language and allocations set forth in House Report 106-249 and Senate Report 106-88 are to be complied with unless specifically addressed in the accompanying bill and statement of the managers to the contrary. The agreement herein, while repeating some report language for emphasis, does not negate the language referenced above unless expressly provided. General provisions which were identical in the House and Senate passed versions of H.R. 2587 and not changed in H.R. 3064 and that are unchanged by this conference agreement are approved unless provided to the contrary herein.

TITLE I—FISCAL YEAR 2000 APPROPRIATIONS

FEDERAL FUNDS

FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

Appropriates \$17,000,000 as proposed by the House and the Senate and makes modifications specifying that the entire \$17,000,000 will be available if the authorized program is a nationwide program and \$11,000,000 will be available if the program is for a limited number of States. The language also allows the District to use local tax revenues for this program.

FEDERAL PAYMENT FOR INCENTIVES FOR ADOPTION OF CHILDREN

Appropriates \$5,000,000 instead of \$8,500,000 as proposed by the House and includes language allowing the funds to be used for local tax credits to offset costs incurred by individuals in adopting children in the District's foster care system and for health care needs of the children in accordance with legislation to be enacted by the District government.

FEDERAL PAYMENT TO THE CITIZEN COMPLAINT REVIEW BOARD

Appropriates \$500,000 instead of \$1,200,000 as proposed by the House. This amount together with \$700,000 in local funds will provide a total of \$1,200,000 for the Board's operations in fiscal year 2000. The conferees recognize the importance of an independent review body to act as a forum for the review and resolution of complaints against officers of the Metropolitan Police Department and special officers employed by the District of Columbia. The conferees also request that the Mayor's office provide a comprehensive plan for the use of the Civilian Complaint Review Board. The plan/report should contain information about the prob-

lems of the previous review board and what will be done to avoid these problems with the new board.

FEDERAL PAYMENT TO THE DEPARTMENT OF HUMAN SERVICES

Appropriates \$250,000 for a mentoring program and for hotline services as proposed by the House.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA CORRECTIONS
TRUSTEE OPERATIONS

Appropriates \$176,000,000 as proposed by the Senate instead of \$183,000,000 as proposed by the House and includes language allowing the Corrections Trustee to use interest earnings of up to \$4,600,000 to assist the Trustee with the sharp, rather unexpected increase in the overall inmate population.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA COURTS

Appropriates \$99,714,000 instead of \$100,714,000 as proposed by the House and \$136,440,000 as proposed by the Senate. The reduction below the House allowance reflects the \$1,000,000 in the capital program as proposed by the Senate.

Courts' budget.—The conferees request that budget information submitted by the Courts with their FY 2001 and future budgets include grants and reimbursements from all other sources so that information on total resources available to the courts will be available.

DEFENDER SERVICES IN THE DISTRICT OF COLUMBIA COURTS

Appropriates \$33,336,000 as proposed by the House and includes language proposed by the Senate requiring monthly financial reports. The conferees have included language allowing the Joint Committee on Judicial Administration to use interest earnings of up to \$1,200,000 to make payments for obligations incurred during fiscal year 1999 for services provided by attorneys for indigents. The availability of this additional amount is contingent on a certification by the Comptroller General. The Courts have reported that they anticipate a shortfall of “approximately \$1,000,000” in fiscal year 1999 for the Criminal Justice Act program.

FEDERAL PAYMENT TO THE COURT SERVICES AND OFFENDER
SUPERVISION AGENCY FOR THE DISTRICT OF COLUMBIA

Appropriates \$93,800,000 instead of \$105,500,000 as proposed by the House and \$80,300,000 as proposed by the Senate. The increase above the Senate allowance includes \$7,000,000 for increased drug testing and treatment and \$6,500,000 for additional parole and probation officers instead of \$13,200,000 and \$10,000,000, respectively, as proposed by the House.

CHILDREN'S NATIONAL MEDICAL CENTER

Appropriates \$2,500,000 for Children's National Medical Center instead of \$3,500,000 as proposed by the House.

FEDERAL PAYMENT FOR METROPOLITAN POLICE DEPARTMENT

Appropriates \$1,000,000 for the Metropolitan Police as proposed by the Senate. The conferees recognize the devastating problems caused by illegal drug use and fully support this program to eliminate open air drug trafficking in all four quadrants of the District of Columbia. The conferees have included language requiring quarterly reports to the Congress on all four quadrants. The reports should include, at a minimum, the amounts expended, the number of personnel involved, and the overall results and effectiveness of the open air drug program in eliminating the drug trafficking problem.

DISTRICT OF COLUMBIA FUNDS

GOVERNMENTAL DIRECTION AND SUPPORT

OFFICE OF THE CHIEF TECHNOLOGY OFFICER

The conferees are concerned that the District's child support system is not Y2K compliant. The conferees have been advised that the Office of Corporation Counsel is responsible for developing, operating, and maintaining this system which is used by the District's courts to collect child support payments from absentee parents, disburse payments to custodial parents, and account for these activities. The conferees urge the District's Chief Technology Officer to provide the Office of Corporation Counsel with the necessary support to ensure that: (1) The system is promptly remediated and tested, and (2) a business continuity and contingency plan that includes a Courts' child support functions is in place. The conferees request a report on this matter by November 1, 1999.

PUBLIC SAFETY AND JUSTICE

Appropriates \$778,770,000 including \$565,511,000 from local funds and \$184,247,000 from other funds instead of \$785,670,000 including \$565,411,000 from local funds and \$191,247,000 from other funds as proposed by the House and \$778,470,000 including \$565,211,000 from local funds and \$184,247,000 from other funds as proposed by the Senate. The increase of \$300,000 above the Senate allowance will provide a total of \$1,200,000 for the Citizen Complaint Review Board consisting of \$500,000 in Federal funds and \$700,000 in local funds instead of a total of \$900,000 in local funds as proposed by the Senate.

The conference action retains the proviso that caps the number of police officers assigned to the Mayor's security detail at 15 as proposed by the House.

The conference action includes a proviso that allows up to \$700,000 in local funds for the Citizen Complaint Review Board instead of \$900,000 in local funds as proposed by the Senate.

FIRE DEPARTMENT

The conferees recommend that the Fire and Emergency Medical Services Department conduct a study about the need for placement of automated external defibrillators in Federal buildings.

PUBLIC EDUCATION SYSTEM

The conference action includes the proviso proposed by the Senate concerning the Weighted Student Formula and the setting aside of five percent of the total budget which is to be apportioned when the current student count for public and charter schools has been completed. The conference action also includes a proviso proposed by the Senate allowing \$500,000 for a Schools Without Violence program.

HUMAN SUPPORT SERVICES

Appropriates \$1,526,361,000 including \$635,373,000 from local funds as proposed by the House instead of \$1,526,111,000 including \$635,123,000 as proposed by the Senate.

Committee of the Board to \$7,500 instead of \$10,000 as proposed by the House.

The conferees believe that this combination of reforms will provide the District with a stable financial situation that will in time reduce the District's debt and lead to an improved bond rating.

The conferees believe it is important to bring new commercial enterprises into neglected areas of the city. The conferees direct the District to review Congressional proposals on this issue in order to use the funds effectively.

DIVISION B

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS

The conferees on H.R. 3064 agree with the matter inserted in this division of this conference agreement and the following description of this matter. This matter was developed through negotiations on the differences in the House reported version of H.R. 3037 and the Senate version of S. 1650, the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2000, by members of the subcommittee of both the House and Senate with jurisdiction over H.R. 3037 and S. 1650.

In implementing this agreement, the Departments and agencies should comply with the language and instructions set forth in House Report 106-370 and Senate Report 106-166.

In the case where the language and instructions specifically address the allocation of funds, the Departments and agencies are to follow the funding levels specified in the Congressional budget justifications accompanying the fiscal year 2000 budget or the underlying authorizing statute and should give full consideration to all items, including items allocating specific funding included in the House and Senate reports. With respect to the provisions in the House and Senate reports that specifically allocate funds, each has been reviewed and those which are jointly concurred in have been included in this joint statement.

The provisions of the House Report (105-205) are endorsed that direct “. . . the Departments of Labor, Health and Human Services, and Education and the Social Security Administration and the Railroad Retirement Board to submit operating plans with respect to discretionary appropriations to the House and Senate Committees on Appropriations. These plans, which are to be submitted within 30 days of the final passage of the bill, must be signed by the respective Departmental Secretaries, the Social Security Commissioner and the Chairman of the Railroad Retirement Board.”

The Departments and agencies covered by this directive are expected to meet with the House and Senate Committees as soon as possible after enactment of the bill to develop a methodology to assure adequate and timely information on the allocation of funds within accounts within this conference report while minimizing the need for unnecessary and duplicative submissions.

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, FY 2000, put

in place by this bill, incorporates the following agreements of the managers:

National Academy of Sciences study of the proposed standard on tuberculosis.

Concerns have been expressed about recommendations of the Metalworking Fluids Standards Advisory Committee, established by the Department, with respect to metalworking fluids exposure levels. It is believed that Federal policy in a number of areas is failing to keep up with the increased use of complementary and alter-

native therapies. Funding was provided in fiscal year 1999 to support the establishment and operation of a White House Commission on Complementary and Alternative Medicine Policy to study and make recommendations to the Congress on appropriate policies regarding consumer information, training, insurance coverage, licensing, and other pressing issues in this area. It is believed that the Commission is not intended to review the work of or set the priorities for the Center. Rather, the Center is expected simply to provide administrative support to the Commission.

The conference agreement concurs with the House and Senate report language regarding the training of physicians in integrative medicine, but urges the Center to also support the training of nurses in integrative medicine through appropriate mechanisms. Investigations into the causes, prevention, treatment, and cure for diabetes are important. The Diabetes Research Working Group report outlines many scientific opportunities and NIH is encouraged to pursue research on all types of diabetes with equal vigor.

NIH is expected to consult closely with the research community, clinicians, patient advocates, and the Congress regarding Parkinson's research and fulfillment of the goals of the Morris K. Udall Parkinson's Research Act. NIH is requested to develop a report to Congress by March 1, 2000 outlining a research agenda for Parkinson's focused research for the next five years, along with professional judgment funding projections. The NIH Director should be prepared to discuss Parkinson's focused research planning and implementation for fiscal year 2000 and fiscal year 2001.

Continued advances in biomedical imaging and engineering, including the development of new techniques and technologies for both clinical applications and medical research and the transfer of new technologies from research projects to the public health sector are important. The disciplines of biomedical imaging and engineering have broad applications to a range of disease processes and organ systems and research in these fields does not fit into the current disease and organ system organizational structure of the NIH. The present organization of the NIH does not accommodate basic scientific research in these fields and encourages unproductive diffusion of imaging and engineering research. Several efforts have

been made in the past to fit imaging into the NIH structure, but these have proved to be inadequate.

For these reasons, NIH is urged to establish an Office of Bioimaging/Bioengineering and to review the feasibility of establishing an Institute of Biomedical Imaging and Engineering. This Office should coordinate imaging and bioengineering research activities, both across the NIH and with other Federal agencies. The NIH shall report to the Appropriations Committees of the House and Senate on the progress achieved by this Office no later than June 30, 2000.

Security at Federal facilities is a growing concern and with the number of visitors to the NIH campus, including both domestic and foreign dignitaries, and the type of research that occurs on campus, adequate security at NIH is critical. The Director is requested to contract with an independent group to study the overall security situation at the Bethesda campus. This study should include, but not be limited to, recommendations regarding the appropriate manpower, training, and equipment needed to provide adequate security for NIH employees and all visitors to the campus as well as any recommended changes to the current security policy.

Infantile autism and autism spectrum disorders are biologically based neurodevelopmental diseases that cause severe impairments in language and communication and generally manifest in young children sometime during the first two years of life. Best estimates indicate that 1 in 500 children born today will be diagnosed with an autism spectrum disorder and that 400,000 Americans have autism or an autism spectrum disorder. NIH is strongly encouraged to dedicate more resources and to expand and intensify these efforts through the NIH Autism Coordinating Committee. More knowledge is needed concerning the underlying causes of autism and autism spectrum disorders, how to treat and prevent these disorders; the epidemiology and risk factors for the disorders; the development of methods for early medical diagnosis; dissemination to medical personnel, particularly pediatricians, to aid in the early diagnosis and treatment of this disease; and the costs incurred in educating and caring for individuals with autism and autism spectrum disorders. NIH is also encouraged to explore mechanisms, including innovative collaborative approaches in autism, supported by the Institutes to conduct basic and clinical research into the cause, diagnosis, early detection, prevention, control, and treatment of autism, including research in the fields of developmental neurobiology, genetics, and psychopharmacology.

NIDDK and NIAID are to be commended for jointly supporting research on foodborne illness. The Institutes are encouraged to enhance research on the reaction of the gut to foodborne pathogens, including research on the pathogenesis of the disease, the reasons for antibiotic resistance, the reaction of the gut to infections, the development of animal models to test therapies, and the invention of vaccines or substances that bind with the toxins to prevent the illness.

BUILDINGS AND FACILITIES

The conference agreement provides \$135,376,000 for buildings and facilities instead of \$108,376,000 as proposed by the House and

\$100,732,000 as proposed by the Senate. In addition, \$40,000,000 was provided in the fiscal year 1999 appropriations bill for the Clinical Center.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The conference agreement provides \$2,549,728,000 for substance abuse and mental health services instead of \$2,413,731,000 as proposed by the House and \$2,799,516,000 as proposed by the Senate. The conference agreement does not provide \$148,816,000 to become available on October 1, 2000 as proposed by the Senate. The House bill contained no similar provisions.

Center for Mental Health Services

The conference agreement provides \$300,000,000 for the mental health block grant as proposed by the House instead of \$358,816,000, of which \$48,816,000 was to become available on October 1, 2000, as proposed by the Senate.

The conference agreement provides \$83,000,000 for children's mental health as proposed by the House instead of \$78,000,000 as proposed by the Senate.

Mental health services for children and adolescents could be strengthened by a comprehensive system that measures the quality and effectiveness of these services. The Center's Committee on Child and Adolescent Outcomes has supported the collaboration between Vanderbilt University and Australia in developing such an evaluation system in the United States. The Department is urged to continue this collaboration.

The National Mental Health Self-Help Clearinghouse, the Consumer Organization and Networking Technical Assistance Center, and the National Empowerment Center provide information and resources to individuals suffering from mental illnesses and their families. Continued funding of these Centers will allow services to be provided uninterrupted.

The conference agreement provides \$31,000,000 for grants to states for the homeless (PATH) as proposed by the Senate instead of \$28,000,000 as proposed by the House.

The conference agreement provides \$25,000,000 for protection and advocacy as proposed by the Senate instead of \$22,957,000 as proposed by the House.

The conference agreement provides \$137,932,000 for knowledge development and application as proposed by the Senate instead of \$85,851,000 as proposed by the House. The conference agreement has doubled funding for mental health services for school-age children, as part of an effort to reduce school violence. It is intended that \$80,000,000 be used for the support and delivery of school-based and school-related mental health services for school-age youth. It is intended that the Department will continue to collaborate its efforts with the Department of Education to develop a coordinated approach.

Within the total provided, \$1,000,000 is for the Northwest Suburban Cook County and Lake County Public Action to Deliver Shel-

ter (PADS) provider organizations to address long-term homelessness through service integration.

Center for Substance Abuse Treatment

The conference agreement provides \$1,585,000,000 for the substance abuse block grant as proposed by the House instead of \$1,715,000,000 as proposed by the Senate. The conference agreement does not include a provision proposed by the Senate to provide \$100,000,000 on October 1, 2000. The House bill contained no similar provision.

The conference agreement provides \$181,741,000 for knowledge development and application instead of \$136,613,000 as proposed by the House and \$226,868,000 as proposed by the Senate. Within the total provided, \$200,000 is for the Center Point Program in Marin County, California, for substance abuse and related services to high-risk individuals and families.

Recent reports by NIH and the Institute of Medicine recommend expansion of effective treatment approaches for adolescent drug abusers. CSAT is to be commended for its work in developing and testing manuals for program interventions through the Cannabis Youth Treatment initiative. CSAT is encouraged to expand this initiative by examining the immediate and long-term outcomes across the developmental period when adolescents are at risk for peak drug use, and by taking steps to replicate and improve such treatment approaches.

The Norton Sound Health Corporation project for substance abuse treatment services should be given full and fair consideration for funding.

Center for Substance Abuse Prevention

The conference agreement provides \$139,955,000 for knowledge development and application instead of \$118,910,000 as proposed by the House and \$161,000,000 as proposed by the Senate. Within the total provided, \$750,000 is for the Rio Arriba and Santa Fe Counties "black tar" heroin program and \$3,000,000 is for a regional consortium of South Dakota, North Dakota, Minnesota, and Montana to provide Fetal Alcohol Syndrome services.

The conference agreement provides \$7,000,000 for high risk youth grants as proposed by the Senate. The House bill contained no similar provision.

Program Management

The conference agreement provides \$59,100,000 for program management instead of \$53,400,000 as proposed by the House and \$58,900,000 as proposed by the Senate. It is intended that \$1,000,000 of the increase over the Administration request is to support the school violence prevention initiative.

It is intended that, from within the funds reserved for rural programs, \$12,000,000 be allocated for CSAT grants and \$8,000,000 be allocated for CSAP grants.

The conference agreement includes \$3,700,000 to initiate and test the effectiveness of Community Assessment and Intervention Centers in providing integrated mental health and substance abuse services to troubled and at-risk children and youth, and their fami-

lies in four Florida communities. Building upon successful juvenile programs, this effort responds directly to nationwide concerns about youth violence, substance abuse, declining levels of service availability and the inability of certain communities to respond to the needs of their youth in a coordinated manner. The total provided includes: \$2,000,000 from mental health knowledge development and application; \$500,000 from substance abuse prevention knowledge development and application; \$1,000,000 from substance abuse treatment knowledge development and application; and \$200,000 from program management.

The Senate recently heard testimony about pathological gambling disorders and the importance of additional federal research in this area as recommended by the National Gambling Impact Study Commission. The Center is urged to conduct demonstration projects to determine effective strategies and best practices for preventing and treating pathological gambling.

AGENCY FOR HEALTH CARE POLICY AND RESEARCH

HEALTH CARE POLICY AND RESEARCH

The conference agreement provides \$111,424,000 in appropriated funds instead of \$104,403,000 as proposed by the House and \$19,504,000 as proposed by the Senate.

The conference agreement designates \$83,576,000 to be available to the Agency under the Public Health Service one percent evaluation set-aside instead of \$70,647,000 as proposed by the House and \$191,751,000 as proposed by the Senate.

In addition, \$5,000,000 previously identified by the Senate report for bioterrorism activities is included in the Public Health and Social Services Emergency Fund for the same purpose.

HEALTH CARE FINANCING ADMINISTRATION

PROGRAM MANAGEMENT

The conference agreement provides \$1,971,648,000 for program management instead of \$1,752,050,000 as proposed by the House and \$1,991,321,000 as proposed by the Senate. The House bill assumed that the Administration's user fee proposal would be enacted prior to conference. An additional appropriation of \$630,000,000 has been provided for this activity in the Health Insurance Portability and Accountability Act of 1996.

The conference agreement provides \$95,000,000 for Medicare+Choice as proposed by the Senate instead of \$15,000,000 as proposed by the House.

The conference agreement does not include language proposed by the Senate that would have allowed Medicaid and CHIP funding to be interchangeable. The House bill contained no similar provision.

The conference agreement repeats language included in last year's bill related to administrative fees collected relative to Medicare overpayment recovery activities.

The conference agreement does not include bill language proposed by the Senate to allow appropriated funds to be used to in-

crease Medicare provider audits. The House bill contained no similar provision.

Research, Demonstration, and Evaluation

The conference agreement provides \$60,000,000 for research, demonstration, and evaluation instead of \$50,000,000 as proposed by the House and \$65,000,000 as proposed by the Senate. The conference agreement includes the following amounts for the following projects and activities:

- \$100,000 for Littleton Regional Hospital in New Hampshire to assist in the development of rural emergency medical services;

- \$250,000 for the University of Missouri-Kansas City to test behavioral interventions of nursing home residents with moderate to severe dementia;

- \$2,000,000 for a nursing home transition initiative;

- \$2,000,000 for a demonstration of residential and outpatient treatment facilities at the AIDS Healthcare Foundation in Los Angeles; and

- \$3,000,000 for the University of Pennsylvania Medical Center, the University of Louisville Sciences Center, and St. Vincent's Hospital in Montana to conduct a demonstration to reduce hospitalizations among high-risk patients with congestive heart failure.

HCFA is urged to conduct a demonstration project to test the potential savings to the Federal government and to the Medicare program by comparing different products used for diabetic wound-care treatment. Such a demonstration should compare the aggregate costs of wound care treatment using different wound-care gel products as well as different gel application regimens.

HCFA is urged to conduct a demonstration project addressing the extraordinary adverse health status of native Hawaiians at the Waimanalo health center exploring the use of preventive and indigenous health care expertise.

HCFA is urged to conduct a demonstration project in Hawaii and Alaska to address the extraordinary adverse health status and limited access to health services of the indigenous people in Hawaii and Alaska natives and others residing in southwest Alaska.

There is strong concern over HCFA's failure to articulate clear guidelines and set expeditious timetables for consideration of new technologies, procedures and products for Medicare coverage. Two particularly troubling examples are HCFA's lengthy delays and failure to articulate clear standards regarding Medicare coverage of positron emission tomography (PET) and lung volume reduction surgery (LVRS). The effect of these delays in instituting Medicare coverage is to deny the benefits of these technologies and products to Medicare patients. There is also concern that HCFA appears to be requiring new technologies to repeat clinical trials and testing already successfully completed by the new products in the process of gaining FDA approval or in NIH clinical trials and which serve as signals to private insurers to cover new technologies. The recent creation of a 120-person advisory committee to review new technologies is also of some concern and it is noted that the Appropriations Committees will be observing the new advisory committee to review its costs and to see whether its use further delays Medicare

coverage of new products. Because of the possible duplication of efforts among HHS agencies and related unnecessary costs to the Medicare program and the Department, it is expected that the Secretary will take a leadership role in resolving this matter expeditiously.

The Secretary is strongly urged to appoint a three-person Medicare-Technology Consumer Advisory Committee. The Committee should be appointed from among knowledgeable patient advocates and members of the medical community with expert knowledge of new technologies and cost-benefit analysis. The new Committee should study the current HCFA process for determining new coverages and should report at least every six months to the Secretary, the Appropriations Committees, and the general public on its findings and recommendations. The Secretary is expected to report prior to fiscal year 2001 appropriations hearings about its recommendations on streamlining HCFA's approval process for Medicare coverage of new technologies.

If the Secretary of the Department of Health and Human Services, under existing demonstration authority, chooses to implement a program to improve health care access for uninsured workers, the Secretary should encourage applications from private, not-for-profit multi-state health systems in urban and rural areas. Such multi-state systems should be given special consideration if they are willing to provide private matching funds to create model public-private partnerships which enhance integrated systems of health care for the working poor.

Medicare contractors

The conference agreement provides \$1,244,000,000 for Medicare contractors as proposed by the Senate instead of \$1,176,950,000 as proposed by the House. The amount provided reflects HCFA's proposal to change its approach for processing managed care encounter data, which will result in estimated savings of \$30,000,000.

State survey and certification

The conference agreement provides \$189,674,000 for State survey and certification instead of \$106,000,000 as proposed by the House and \$204,347,000 as proposed by the Senate.

Federal administration

The conference agreement provides \$480,000,000 for Federal administration as proposed by the Senate instead of \$421,126,000 as proposed by the House.

The conference agreement concurs with House report language regarding its concern that the current performance evaluation and recertification process for Organ Procurement Organizations (OPO) may hinder the goal of increased organ donations. HCFA is urged to work with and support the industry in its effort to develop alternative performance measures. HCFA is also urged to use existing authority to extend the OPO certification period until such time as an alternative process has been adopted.

Hospices in Wichita, Kansas will be adversely affected in their Medicare reimbursement in fiscal year 2000 because of an error in

a faulty hospital cost report in 1995, over which they had no control, and because of a faulty tabulation by HCFA or its fiscal intermediary. HCFA is expected to correct the error in the publication of the hospice wage index for the Wichita, Kansas MSA by using the July 30, 1999 hospital wage index, published in the Federal Register, for the current fiscal year, rather than delaying until the following fiscal year, and by publishing a revised notice to reflect this correction.

Congress enacted the Indian Health Care Improvement Act with the intention of improving access to health care for Native Americans, including access to Medicaid-funded services. Congress intended to cover 100 percent of amounts that States expend for medical assistance received through an Indian Health Service (IHS) facility or a tribally-operated facility, including contractual and referral arrangements made through IHS or tribally-operated health programs. Moreover, medical assistance includes the full array of services for which a State Medicaid program can claim Federal matching funds. Therefore, HCFA is urged to reconsider its interpretation of the Indian Health Care Improvement Act.

ADMINISTRATION FOR CHILDREN AND FAMILIES

PAYMENTS TO STATES FOR CHILD SUPPORT ENFORCEMENT AND FAMILY SUPPORT PROGRAMS

The conference agreement provides no extended availability of funds proposed by the Senate. The House bill proposed no extended availability.

LOW INCOME HOME ENERGY ASSISTANCE

The conference agreement includes language proposed by the House designating that the \$1,100,000,000 appropriated for LIHEAP for FY 2000 in the FY 1999 appropriations act is an emergency under the Budget Act and requiring that such funds be allocated in accordance with the statutory formula. The Senate bill contained no such language. The agreement also includes the House legal citation to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act.

REFUGEE AND ENTRANT ASSISTANCE

The conference agreement appropriates \$426,505,000, instead of \$423,500,000 as proposed by the House and \$430,500,000 as proposed by the Senate. The agreement provides for an annual appropriation as proposed by the House instead of three-year availability of funds proposed by the Senate. In the case of the Torture Victims Relief Act funds, the agreement provides for an annual appropriation as proposed by the House instead of the funds remaining available until expended proposed by the Senate.

In addition, the conference agreement includes language not contained in either bill that designates all funding in this account as an emergency requirement under the Budget Act.

The conference agreement includes \$20,000,000 from carryover funds that are to be used under social services to increase educational support to schools with a significant proportion of refugee children and for the development of alternative cash assistance

programs that involve case management approaches to improve resettlement outcomes. Such support should include intensive English language training and cultural assimilation programs.

The agreement also includes \$26,000,000 for increased support to communities with large concentrations of refugees whose cultural differences make assimilation especially difficult justifying a more intense level and longer duration of Federal assistance.

CHILD CARE AND DEVELOPMENT BLOCK GRANT

The conference agreement appropriates \$1,182,672,000 as an advance appropriation for fiscal year 2001, instead of \$2,000,000,000 as proposed by the Senate. The agreement further provides that \$19,120,000 shall be for child care resource and referral and school-aged child care activities as proposed by the Senate. The House bill had no appropriation for this account.

The conference agreement includes \$500,000 for a toll-free child care services program hotline to be operated by Child Care Aware.

States are encouraged to create or enhance systems of care that support and educate families expecting a baby or with young children, and help them understand that day-to-day interaction with children helps them develop cognitively, socially, physically and emotionally. Many states have already created state and local collaboratives that coordinate early childhood development, and these efforts are to be commended.

In the case of states that have yet to initiate such coordination, they are encouraged to look at best practices from across the country. The National Governors Association has developed goals, model indicators, and measures of performance to help states focus on improving the conditions of young children and their families. The State of Ohio has a successful initiative known as Family and Children First that could serve as a model. All states are encouraged to continue to develop and expand healthy early childhood systems of care.

SOCIAL SERVICES BLOCK GRANT

The conference agreement includes \$1,700,000,000, instead of \$1,909,000,000 as proposed by the House and \$1,050,000,000 as proposed by the Senate. The agreement also includes the provision in the House bill that limits the ability of States to transfer TANF funds to the Social Services Block Grant to 4.25 percent instead of the 5 percent proposed in the Senate bill.

The conference agreement does not include section 216 of the Senate bill which increased the appropriation to \$2,380,000,000 but specified that \$1,330,000,000 of that amount would not become available for obligation until fiscal year 2001 and that the amount available for allocation to States in fiscal year 2001 would be \$3,030,000,000. The House had no similar provision.

CHILDREN AND FAMILIES SERVICES PROGRAMS

(INCLUDING RESCISSIONS)

The conference agreement appropriates \$6,809,733,000, instead of \$6,240,216,000 as proposed by the House and \$6,789,635,000 as

proposed by the Senate. In addition, the agreement rescinds \$21,000,000 from permanent appropriations as proposed by the House.

The agreement includes an advance appropriation of \$1,400,000,000 for Head Start for fiscal year 2001 as proposed by the House instead of \$1,900,000,000 proposed by the Senate.

An amount of \$10,000,000 is included under social services and income maintenance research for establishing Individual Development Accounts. The House proposed to fund this as a separate line item.

The Hull House Association's Neighbor to Neighbor (NTN) program in Chicago and Florida provides specialized placement and family services for sibling groups, keeping such children together, placed within their community, and stabilized in one foster home. Outcomes for this program have been noteworthy, including high rates of family reunification, placement stability and foster parent retention. The conference agreement includes \$500,000 to support the Association's project to provide training, technical assistance and implementation assistance to establishment of NTN programs within public and private foster care agencies in other states and localities.

The conference agreement includes language not contained in either House or Senate bills that requires the Department to establish certain procedures regarding the disposition of intangible property in the community economic development program under the Community Services Block Grant Act.

There is awareness of efforts by the state information technology consortium to identify best practices with regard to implementing Temporary Assistance to Needy Families, including best practices developed by states, the federal government, and the private sector. The next phase of this effort will enable states to discern which best practices are appropriate for their particular needs, then work with the consortium to implement those practices. Continuation of this effort at the current level of support is urged.

It is important that the Congress determine the economic status of former recipients of Temporary Assistance to Needy Families, and the conference agreement provides funds to support such research and evaluation.

Head Start grantees may use their basic grant funds, quality funds, and expansion funds for minor renovations and rehabilitation of existing Head Start facilities. The Secretary is urged to give special attention to Native American communities with particular needs, including the Alaskan communities of Chevak, Napakiak, Haines, Marshall, Noorvik, Selawik, Pilot Station, Hooper Bay, and Dillingham.

Within the funds provided for Runaway Youth—Transitional Living, the conference agreement includes \$500,000 for the House of Mercy in Des Moines, Iowa.

Within the funds provided for state and local innovations/projects of national significance, the conference agreement intends that funds be used for ongoing projects scheduled for refunding in FY 2000.

Nearly one in four American households is currently involved in family caregiving to elderly relatives or friends. The Administration on Aging should give full and fair consideration to a demonstration and evaluation of the Metropolitan Family Services' community-based program that builds on the strengths of families to provide cost-effective and high quality care.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

The conference agreement appropriates \$215,552,000, instead of \$227,787,000 as proposed by the House and \$189,420,000 as proposed by the Senate. To the extent that any staffing reductions are required to implement the conference agreement to freeze the basic salaries and expenses funding in this account at the fiscal year 1999 level, the Secretary should make the reductions in such overhead areas as the immediate office of the Secretary, public affairs, Congressional affairs, and intergovernmental affairs.

The agreement includes \$1,500,000 for the United States-Mexico Border Health Commission. The conference agreement concurs with the Senate Report language concerning the human services transportation technical assistance program. It also concurs with the Senate Report language concerning the amount available for a public education campaign on osteoporosis in the Office on Women's Health. Within the amount allocated to the Office on Women's Health, \$2,000,000 is for the initiation of biological, chemical and botanical studies to assist in the development of the clinical evaluation of phytomedicines in women's health.

The conference agreement includes language proposed by the House that earmarks \$450,000 for a contract with the National Academy of Sciences to conduct a study of OSHA's proposed rule relating to occupational exposure to tuberculosis. The study should address the following questions:

1. Are health care workers at a greater risk of infection, disease, and mortality due to tuberculosis than the general community within which they reside? If so, what is the excess risk due to occupational exposure?

2. Can the occupationally acquired risk be quantified for different work environments, different job classifications, etc., as a result of implementation of the 1994 Centers for Disease Control and Prevention (CDC) guidelines for the prevention of tuberculosis transmission at the worksite or the implementation of specific parts of the CDC guidelines?

3. What effect will the implementation of OSHA's proposed tuberculosis standard have in minimizing or eliminating the risk of infection, disease, and mortality due to tuberculosis?

The agreement includes language as proposed by the Senate setting aside \$10,569,000 under the adolescent family life program for activities specified under §2003(b)(2) of the Public Health Service Act, of which \$9,131,000 shall be for prevention grants under §510(b)(2) of the Social Security Act, without application of the limitation of §2010(c) of the Public Health Service Act. The House bill had no similar provision.

With respect to the advance appropriation of \$20,000,000 for title XX of the Public Health Service Act, it is intended that these funds be used for grants to organizations that clearly and consistently focus on abstinence for preventing STD's and unwanted pregnancy. [Abstinence shall have the same meaning as in Public Law 104-193, title IX, section 912.] Grants to these organizations should focus on training persons as abstinence instructors and on providing actual presentations to youth at vulnerable ages (grades 7 through 12). The Department shall hold competition for these grants during the regular grant cycle in fiscal year 2000 and issue these grants at the beginning of fiscal year 2001.

The conference agreement concurs with the language in the House Report relating to an Institute of Medicine study on ethnic bias in medicine.

Sufficient funds are available to continue the inner city childhood asthma project at the Children's Hospital of Philadelphia.

It is understood that the screening of blood and blood products could be improved through the use of nucleic acid testing (NAT) to better detect known infectious diseases such as Human Immunodeficiency Virus (HIV-1) and Hepatitis C virus (HCV). The National Heart, Lung and Blood Institute in the National Institutes of Health has contracted with private companies to develop fully automated NAT tests for HIV-1 and HCV. In view of NIH's financial commitment to NAT and the approval of NAT in other countries, the Public Health Service Blood Safety Committee, chaired by the Surgeon General/Assistant Secretary for Health, is urged to encourage the adoption of these screening tools for individual donor testing of blood and plasma.

The conference agreement includes language proposed by the Senate modified to earmark \$2,000,000 to be utilized by the Surgeon General to prepare and disseminate the findings of the Surgeon General's report on youth violence and to coordinate with other agencies activities to prevent youth violence. The conference agreement also includes a provision that these funds shall be made available only upon submission of a budget request designating the entire amount as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985 as proposed by the House. The Senate bill did not propose this account as an emergency.

—\$9,600,000 for regional laboratories for measuring biological and chemical agents;

—\$30,000,000 for a national health alert network; and

—\$20,000,000 for a pharmaceutical and vaccine stockpile.

The remaining \$74,000,000 is provided for the following activities: \$5,000,000 for the environmental health laboratory; and \$69,000,000 for a global health initiative, of which \$5,000,000 is for micronutrient malnutrition programs; \$9,000,000 is for malaria programs; \$20,000,000 is for polio eradication activities; and \$35,000,000 is for international HIV/AIDS programs.

GENERAL PROVISIONS

NIH AND SAMHSA SALARY CAP

The conference agreement includes a provision limiting the use of the National Institutes of Health and the Substance Abuse and Mental Health Services Administration funds to pay the salary of an individual, through a grant or other extramural mechanism, at a rate not to exceed Level II of the Executive Schedule instead of Level III as proposed by the Senate. The House bill contained no similar provision.

TRANSFER AUTHORITY

The conference agreement includes a provision proposed by the House to prohibit any appropriation from increasing by more than three percent as a result of use of the Secretary's one percent transfer authority. The Senate bill contained a similar provision except it exempted the Public Health and Social Services Emergency Fund.

ORGAN ALLOCATION FINAL RULE

The conference agreement includes a provision to provide a 60-day comment period on the final rule entitled "Organ Procurement

and Transplantation Network”, promulgated by the Secretary of Health and Human Services on April 2, 1998 together with the amendments to such rule promulgated on October 20, 1999. The comment period begins 3 days after the date of enactment of this Act. Following the comment period, the Department will have 21-days to review submitted comments and to amend the rule, if necessary. The rule shall not become effective before the end of a 90-day period beginning from the date of enactment of this Act. The House bill included a provision to prohibit the rule from becoming effective until October 1, 2000. The Senate bill contained no similar provision.

SUBSTANCE ABUSE BLOCK GRANT FORMULA ALLOCATION

The conference agreement includes a provision proposed by the House to provide each State with the same funding level in fiscal year 2000 as it received in fiscal year 1999. The Senate bill contained a similar provision except it was based on an increased appropriation amount.

EXTENSION OF CERTAIN ADJUDICATION PROVISIONS

The conference agreement includes a provision proposed by the Senate to extend the refugee status for persecuted religious groups. The House bill contained no similar provision.

MEDICARE COMPETITIVE PRICING DEMONSTRATION PROJECT

The conference agreement includes a provision proposed by the Senate to prohibit funding to implement or administer the Medicare Prepaid Competitive Pricing Demonstration Project in Arizona or in Kansas City, Missouri or in the Kansas City, Kansas area. The House bill contained no similar provision.

DELAYED OBLIGATIONS

The conference agreement includes a provision to delay the obligation of \$7,500,000,000 of NIH funds; \$1,120,000,000 of HRSA funds; \$965,000,000 of CDC funds; \$450,000,000 of SAMHSA funds; \$425,000,000 of Social Services Block Grant funds; and \$400,000,000 of Children and Families Services funds until September 29, 2000. The Senate bill contained a provision to delay the obligation of \$3,000,000,000 of NIH funds until September 29, 2000. The House bill contained no similar provision.

SENSE OF THE SENATE REGARDING DIABETES AWARENESS AND FUNDING

The conference agreement deletes without prejudice a sense of the Senate provision regarding diabetes awareness and support for increased diabetes research funding. The House bill contained no similar provision.

STUDY OF THE GEOGRAPHIC ADJUSTMENT FACTORS IN THE MEDICARE PROGRAM

The conference agreement includes a provision proposed by the Senate to require the Secretary of HHS to conduct a study on appropriateness of the geographic adjustment factors used to deter-

mine the amount of payment for physicians' services under the Medicare program in New Mexico, Arizona, Colorado, and Texas and the effect these factors have on recruitment and retention of physicians in small rural States. The House bill contained no similar provision.

DENTAL SEALANT DEMONSTRATION PROGRAM

The conference agreement deletes a provision proposed by the Senate to establish a multi-State dental sealant demonstration program. The House bill contained no similar provision. The agreement includes sufficient funds within the Maternal and Child Health block grant to initiate such a program.

WITHHOLDING OF SUBSTANCE ABUSE FUNDS

The conference agreement includes a provision proposed by the Senate to allow a State to avoid a penalty under section 1926 of the Public Health Service Act (commonly known as the Synar Amendment) if the State agrees to commit new State funding to help ensure compliance with State laws prohibiting youth purchase of tobacco products. It is noted that the provision applies only for fiscal year 2000 and States are expected to continue to try to meet the established Synar Amendment targets for enforcement of their youth tobacco laws. It is also noted that there is increasing sentiment that the Synar Amendment needs to be reexamined and all concerned parties are encouraged to work toward a compromise solution next year with the appropriate authorizing committees. The provision allows the Secretary to exercise discretion in enforcing the timing of the new State expenditures in order to provide flexibility to States that do not immediately have available funds for this purpose. It is expected that within 30 days of accepting an agreement to increase funding for enforcement, the State will provide a report to the Secretary of all State resources spent in fiscal year 1999 on enforcement of the State law by program activity and by May 15, 2000, a report on FY 2000 obligations regarding enforcement unless otherwise negotiated by the Secretary. The Secretary shall deliver the findings of these reports to Congress. The language provides the Secretary authority to permit a State to commit an amount smaller than its formula amount as described in subsection (b) in order to recognize that an individual state may have been granted "delayed applicability" status under the Synar Amendment by the Substance Abuse and Mental Health Services Administration.

MEDICARE INJECTABLE DRUG COVERAGE

The conference agreement includes a provision not proposed by either House or Senate related to Medicare injectable drug coverage. There is concern that an August 13, 1997 memorandum and subsequent interpretations will inappropriately restrict beneficiary access to injectable drugs that are and have been covered by the Medicare program. It is noted that for many years, Medicare policy (as stated in Section 2049.2 of the Medicare Carriers Manual) has allowed coverage of a drug or biological administered incident to a physician's service where the product is one that is not usually self-

administered by the patient. It is intended that HCFA continue to cover such products under Social Security Act section 1861(s)(2) and communicate this policy through a program memorandum to all HCFA regional offices.

NATIONAL CANCER INSTITUTE

The conference agreement includes a provision to allow the Cancer Therapy and Research Center in San Antonio, Texas to continue to use prior year construction grant funding without fiscal year limitation.

CHILDHOOD ASTHMA

The conference agreement deletes a provision proposed by the Senate to provide an earmark of \$8,706,000 for the asthma prevention program on October 1, 2000. The House bill contained no similar provision. The conference agreement includes \$11,294,053 for asthma prevention as part of the Centers for Disease Control and Prevention.

TITLE II CITATION

The conference agreement includes a provision proposed by the House to cite title II as the "Department of Health and Human Services Appropriations Act, 2000". The Senate bill contained no similar provision.

The amounts provided are the same as provided by the Senate. The House provided \$10,000,000 for Community Based Technology Centers and no funding for other programs within this account.

Star Schools

For Star Schools, the conference agreement provides \$50,750,000. The Senate bill provided \$45,000,000. The House bill provided no funding for this program. Within the amount provided for Star Schools, the conference report specifies funding for the following activities:

The conference agreement notes that only \$3,369,913 of the \$25,000,000 appropriated for this program since fiscal year 1997 have been outlaid to date. The conference agreement accordingly directs the Corporation for Public Broadcasting to report to the Appropriations Committees in the House and the Senate during each quarter of fiscal year 2000 the amount of funds obligated and outlaid from each of the fiscal years 1997, 1998, 1999 and 2000 appropriations, the dates on which outlays occur during fiscal year 2000 and the specific uses to which such outlays are put.

EDUCATION FOR THE DISADVANTAGED

The conference agreement includes \$8,547,986,000 for Education for the Disadvantaged instead of the \$8,750,986,000 proposed by the Senate and \$8,417,897,000 as proposed by the House. The agreement includes advance funding for this account of \$6,204,763,000, the same as both the House and the Senate.

For Grants to Local Education Agencies (LEAs) the agreement provides \$7,807,397,000, compared with \$8,052,397,000 provided in the Senate bill and \$7,732,397,000 provided in the House bill. Of the funds made available for basic grants, \$5,046,366,000 becomes available on October 1, 1999 for the academic year 1999–2000.

The agreement includes \$6,649,000,000 for basic state grants and \$1,158,397,000 for concentration grants. Of this total, \$1,158,397,000 for fiscal year 2000 was advance funded in the fiscal year 1999 Departments of Labor, Health and Human Services and Education and Related Agencies Act (P.L. 105–277). The conference agreement funding of \$1,158,397,000 for concentration grants is advanced for fiscal year 2001.

The conference agreement includes \$12,000,000 for capital expenses for private school children, instead of \$15,000,000 proposed by the Senate. The House contained no funding for this program.

The conference agreement provides \$150,000,000 for the Even Start program as proposed by the House. The Senate provided \$145,000,000 for this program.

The conference agreement provides \$42,000,000 for Neglected and Delinquent Youth as proposed by the Senate. The House provided \$40,311,000 for this program.

The conference agreement provides \$8,900,000 for evaluation of title I programs as proposed by the Senate. The House provided \$7,500,000 for this activity.

The conference agreement includes the provision contained in the Senate bill regarding a 100% hold harmless for States and LEAs for both basic and concentration grants. The conference agreement also adopts language included in the Senate bill providing that the Department shall make 100% hold harmless awards to LEAs who were eligible for concentration grants in 1998 but are not eligible to receive grants in fiscal year 2000, ratably reduced if necessary.

The House nevertheless opposes the hold harmless provision because it unfairly penalizes underprivileged and immigrant children in growing states, including Arizona, Arkansas, California,

Connecticut, Florida, Georgia, Hawaii, Montana, Nevada, New Mexico, New York, North Carolina, South Carolina, Texas, Virginia and the District of Columbia. These states represent over half of the U.S. population of underprivileged schoolchildren.

The House also notes that the 100% hold harmless provision is opposed by the House authorizing committee of jurisdiction and the Administration. The House will continue to oppose the inclusion of such a provision in the future.

The conference agreement also adopts language included in the Senate bill providing that the Secretary of Education shall not take into account the 100% hold harmless provision in determining State allocations under any other program.

The conference agreement includes \$160,000,000 for demonstrations of comprehensive school reform; both the House and Senate funded this program at \$120,000,000. The conference agreement directs the Department to follow the directives in the conference report accompanying the fiscal year 1998 bill (House Report 105-390) and in the conference report accompanying the fiscal year 1999 bill (House Report 105-825).

IMPACT AID

The conference agreement provides \$910,500,000 for the Impact Aid programs. The House proposed \$907,200,000. The Senate proposed \$892,000,000. For basic grants the conference agreement includes \$737,200,000, for payments for children with disabilities the agreement includes \$50,000,000, and for payments for heavily impacted districts the agreement includes \$76,000,000. The agreement also includes \$5,000,000 for facilities maintenance, \$10,300,000 for construction, and \$32,000,000 for payments for federal property. The conference agreement provides within the account for construction, \$500,000 for the Ft. Sam Houston ISD, \$800,000 for the Hays Lodgepole School District in MT and \$2,000,000 for the North Chicago Community Unit School District.

The conference agreement also includes the following language provisions: eligibility for the Central Union, Island, and Hueneme School Districts in California and the Hill City, Wall, and Hot Springs School Districts in South Dakota; timely filing of applications by the Brookeland School District in Texas, the Fallbrook High School District in California and Hydaburg School District in Alaska; forgiveness of overpayment for the Hatboro-Horsham and Delaware Valley School Districts in Pennsylvania; and computing payments for Travis School District in California. Neither the House nor Senate bills contained similar provisions.

The conference agreement notes the Administration's proposal to significantly expand the Military Family Housing Privatization Initiative, which has since been scaled back. In some privatization projects, the property itself is privatized, causing serious implications for the affected school districts' ability to receive funding under the Impact Aid program. Thus, the conference agreement strongly urges the Administration to clarify that military family housing privatization proposals will have no effect on Impact Aid payments to local school districts, even if land is privatized.

SCHOOL IMPROVEMENT PROGRAMS

The conference agreement provides \$2,926,134,000 for School Improvement Programs, instead of \$3,115,188,000 as proposed by the House and \$2,961,634,000 as proposed by the Senate. The agreement provides \$1,396,134,000 in fiscal year 2000 and \$1,530,000,000 in fiscal year 2001 funding for this account.

Eisenhower professional development

For the Eisenhower professional development activities, the agreement provides \$335,000,000, the same level as in the Senate bill. The House provided no funding for this activity.

Innovative education program strategies

For innovative education program strategies, title VI of the Elementary and Secondary Education Act of 1965, the conference agreement provides \$380,000,000. The House provided \$385,000,000 and the Senate bill included \$375,000,000.

Class size/Teacher Assistance Initiative

The conference agreement includes \$1,200,000,000 for a class size/teacher assistance initiative. The House bill provided \$1,800,000,000 for the Teacher Empowerment Act, subject to authorization. The Senate bill provided \$1,200,000,000 for teacher assistance activities subject to authorization. The agreement provides \$300,000,000 in fiscal year 2000 and \$900,000,000 in fiscal year 2001 funding for this account.

The conference agreement modifies language contained in the Senate bill regarding a class size/teacher assistance initiative.

The modified provision distributes funds according to the formula developed for the class size reduction initiative in the fiscal year 1999 Departments of Labor, Health and Human Services and Education and Related Agencies Act (P.L. 105-277). The provision allows school districts to use funds for class size reduction activities; however, if the local educational agency determines that it wishes to use the funds for purposes other than class size reduction as part of a local strategy for improving academic achievement, funds may be used for professional development activities, teacher training or any other local need that is designed to improve student performance. Funds must be used to supplement and not supplant state and local funds that would otherwise be spent for activities under this section.

The Senate bill provided funds for the initiative if authorized by July 1, 2000. If the initiative was not authorized by July 1, 2000, funds could be used for any activity authorized by Title VI of the Elementary and Secondary Education Act of 1965 that would improve the academic achievement of all students.

Safe and drug free schools

The conference agreement includes \$605,000,000 for the Safe and Drug Free Schools and Communities Act instead of the \$566,000,000 proposed by the House and \$636,000,000 proposed by the Senate. The agreement provides \$115,000,000 in fiscal year 2000 and \$345,000,000 in fiscal year 2001 funding for this account.

Included within this amount is \$460,000,000 for state grants, instead of \$441,000,000 as proposed by the House and \$476,000,000 as proposed by the Senate.

The conference agreement also includes \$95,000,000 for national programs, instead of \$90,000,000 as proposed by the House and \$100,000,000 as proposed by the Senate.

The conference agreement includes \$850,000 within the safe and drug free schools national programs to continue the National Recognition Awards programs to provide models of alcohol and drug abuse prevention and education at the college level.

The conference agreement includes \$50,000,000 under national programs for the Safe and Drug Free Schools coordinator initiative, instead of \$35,000,000 as proposed by the House and \$60,000,000 as proposed by the Senate.

Reading is Fundamental

For the Reading is Fundamental program, the conference agreement provides \$20,000,000 instead of \$21,500,000 as proposed by the Senate and \$18,000,000 as proposed by the House.

Arts in education

For Arts in Education, the conference agreement provides \$11,500,000, instead of \$10,500,000 as proposed by the House and \$12,500,000 as proposed by the Senate.

Education of Native Hawaiians

The conference agreement includes \$23,000,000 for the Education of Native Hawaiians, the same level as in the Senate. The House included \$20,000,000 for this account. The conference agreement assumes that when allocating these funds, the Secretary of Education will fund the following activities as described in the Report of the Senate Committee (Senate Report No. 106–166).

Alaska Native educational equity

The conference agreement includes \$13,000,000 for the Alaska Native Educational Equity program, the same level as in the Senate. The House included \$10,000,000 for this account.

Charter schools

The conference agreement includes \$145,000,000 for Charter Schools, instead of \$130,000,000 proposed by the House and \$150,000,000 proposed by the Senate.

Comprehensive Regional Assistance Centers

The conference agreement includes \$28,000,000 for Comprehensive Regional Assistance Centers as proposed by the Senate instead of \$27,054,000 as proposed by the House. The conference agreement includes \$750,000 within these funds for an evaluation to collect performance indicator data.

Advanced placement fees

For advanced placement fees, the conference agreement provides \$15,000,000 as proposed by the Senate instead of \$4,000,000 as proposed by the House. The conference agreement notes that less than half of our Nation's high schools offer some form of Advanced Placement (AP) course instruction for junior and senior high school students. The lack of access to this instruction is particularly acute in rural parts of the country. Internet-based AP course instruction is a dynamic and cost-effective way to deliver AP instruction to students living in rural areas and other areas where conventional instructor-led training for AP courses is not available. Accordingly, the conference agreement encourages the Secretary to use some of the Advanced Placement Incentive Program funds to award grants to States or LEAs seeking to establish Internet-based AP pilot programs in rural parts of the country or other underserved districts where students would otherwise not have access to AP instruction.

READING EXCELLENCE

The conference agreement includes \$260,000,000 for activities authorized under the Reading Excellence Act instead of the \$200,000,000 proposed by the House and \$285,000,000 proposed by the Senate. The agreement provides \$65,000,000 in fiscal year 2000 and \$195,000,000 in fiscal year 2001 funding for this account.

INDIAN EDUCATION

The conference agreement includes \$77,000,000 for Indian Education, the same level as in the Senate. The House proposed \$66,000,000 for this account.

BILINGUAL AND IMMIGRANT EDUCATION

The conference agreement includes \$387,000,000 for Bilingual and Immigrant Education programs instead of the \$380,000,000 proposed by the House and \$394,000,000 proposed by the Senate.

For Instructional Services, the agreement includes \$162,500,000 instead of the \$160,000,000 proposed by the House and \$165,000,000 proposed by the Senate. For Support Services, the agreement provides \$14,000,000, the same level as in the House and Senate bills. For Professional Services, the agreement provides \$52,500,000 instead of the \$50,000,000 proposed by the House and \$55,000,000 proposed by the Senate. For immigrant education, the agreement provides \$150,000,000, the same level as in the House and Senate bills. The agreement also provides \$8,000,000 for foreign language assistance instead of the \$6,000,000 proposed by the House and \$10,000,000 proposed by the Senate.

SPECIAL EDUCATION

The conference agreement includes \$6,036,646,000 for Special Education instead of the \$5,833,146,000 proposed by the House and \$6,035,646,000 proposed by the Senate. The agreement provides \$2,294,646,000 in fiscal year 2000 and \$3,742,000,000 in fiscal year 2001 funding for this account.

Included in these funds is \$4,989,685,000 for Grants to the States, the same as the Senate level. The House provided \$4,810,700,000. This funding level provides an additional \$679,000,000 to assist the States in meeting the additional per pupil costs of services to special education students.

The conference agreement provides \$390,000,000 for Preschool Grants as proposed by the Senate instead of \$373,985,000 as proposed by the House.

The conference agreement includes \$375,000,000 for Grants for Infants and Families as proposed by the Senate instead of \$370,000,000 as proposed by the House.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

DOMESTIC VOLUNTEER SERVICE PROGRAMS, OPERATING EXPENSES

The conference agreement provides \$295,645,000 for the Domestic Volunteer Service programs instead of \$293,261,000 as proposed by the Senate and \$274,959,000 as proposed by the House.

Volunteers in Service to America (VISTA)

The conference agreement provides \$81,000,000 for VISTA as proposed by the Senate instead of \$73,000,000 proposed by the House.

National Senior Volunteer Corps

The conference agreement provides \$95,782,000 for the Foster Grandparent Program (FGP), \$39,669,000 for the Senior Companion Program (SCP), and \$46,565,000 for the Retired Senior Volunteer Program (RSVP). The House proposed \$93,256,000 for Foster Grandparents, \$36,573,000 for Senior Companions and \$43,001,000 for Retired Senior Volunteers. The Senate proposed \$95,000,000 for FGP, \$39,031,000 for SCP and \$46,001,000 for RSVP.

One-third of the increases provided for the FGP, SCP, and RSVP programs shall be used to fund Programs of National Significance expansion grants to allow existing FGP, RSVP and SCP programs to expand the number of volunteers serving in areas of critical need as identified by Congress in the Domestic Volunteer Service Act.

Sufficient funding has been included to provide a 2 percent increase for administrative costs realized by all current grantees in the FGP and SCP programs, and a 4 percent increase for administrative costs realized by all current grantees in the RSVP program. Funds remaining above these amounts should be used to begin new FGP, RSVP and SCP programs in geographic areas currently unserved. The conference agreement expects these projects to be awarded via a nationwide competition among potential community-based sponsors.

The Corporation for National and Community Service shall comply with the directive that use of funding increases in the Foster Grandparent Program, Retired and Senior Volunteer Program and VISTA not be restricted to America Reads activities. The

agreement further directs that the Corporation shall not stipulate a minimum or maximum amount for PNS grant augmentations.

The conference agreement also provides \$1,500,000 for senior demonstration activities, instead of \$3,100,000 proposed by the Senate. The House did not propose funding for this activity. Sufficient funds are provided for the third and final year of the Seniors for Schools demonstration. Of the total, \$350,000 is provided to conduct an evaluation of existing demonstration activities and to bring to closure the Seniors for Schools demonstration project.

Funds are also provided to continue other existing senior demonstration activities, except that no funds are provided for the payment of non-taxable, non-income stipends to individuals not meeting income requirements established by Congress. No new demonstration projects may be begun with these funds. None of the increases provided for FGP, SCP, or RSVP in fiscal year 2000 may be used for demonstration activities. The agreement further expects that all future demonstration activities will be funded through allocations made through Part E of the Domestic Volunteer Service Act.

Funds appropriated for Fiscal Year 2000 may not be used to implement or support service collaboration agreements or any other changes in the administration and/or governance of national service programs prior to passage of a bill by the authorizing committees of jurisdiction specifying such changes.

Program administration

The conference agreement includes \$31,129,000 for program administration of DVSA programs at the Corporation, instead of \$29,129,000 that was provided in both House and Senate bills. The additional \$2,000,000 is provided to assist the Corporation in correcting its financial management weaknesses and obtaining a clean opinion on its financial statements. Funding should be used to fully implement the new core financial management system and to make other technology enhancements that will improve customer service and field communications.

CORPORATION FOR PUBLIC BROADCASTING

The conference agreement provides \$350,000,000 in advance funding for fiscal year 2002 for the Corporation for Public Broadcasting as proposed by the Senate instead of \$340,000,000 as proposed by the House.

The conference agreement includes language proposed by the House providing an additional \$10,000,000 for digitalization, if specifically authorized by subsequent legislation by September 30, 2000. The Federal Communications Commission (FCC) has mandated that all public television be converted from analog to digital transmission by May 2003. Because television and radio broadcast infrastructures are closely linked, the conversion of television to digital will create immediate costs not only for television, but also for public radio stations. Public broadcasting stations with limited resources, in particular small rural stations, will be faced with extreme hardship because of the significant cost of converting to digital, therefore, the conference agreement encourages funds provided to be targeted to those stations with the most financial need.

The conference agreement commends the Corporation for adoption of the Listener Access 2000 initiative and other related efforts that recognize the need to enhance service in rural and underserved areas. These steps will expand the number of stations defined as serving rural areas, create a new incentive grant tailored to areas with limited financial resources, while maintaining the public-private nature of public broadcasting.

While this approach is a meaningful initial investment, the conference agreement urges the Corporation to continue to explore additional ways to ensure that its goal of universal service throughout the country is achieved. The conference agreement recognizes that stations serving rural and underserved audiences typically have limited local potential for fundraising because of sparse populations serviced, limited number of local businesses, and low-income levels.

The conference agreement strongly urges the Corporation to consider expanding its Rural Listener Access Incentive Fund, which will support further enhancements to and reliability of service in rural and underserved areas. Furthermore, the conference agreement supports additional actions that will assist stations in serving rural and underserved areas.

FEDERAL MEDIATION AND CONCILIATION SERVICE

DIVISION C

RESCISSIONS AND OFFSETS

SEC. 1001. The conference agreement includes a government-wide across-the-board reduction of 0.97 percent to all discretionary accounts. The managers expect that Federal agencies will, to the maximum extent possible, meet the reduced funding levels by eliminating waste, fraud, abuse, and excessive overhead expenses in Federal programs.

NATIONAL DIRECTORY OF NEW HIRES

SEC. 1002. The conference agreement includes a provision that amends the Social Security Act and the Child Support Performance and Incentive Act of 1998 to allow the Department of Education to access data from the National Directory of New Hires, maintained by the Department of Health and Human Services, to enhance student loan default collection efforts. This provision was not contained in either the House or the Senate bills.
