

TRIBAL SELF-GOVERNANCE AMENDMENTS OF 1999

NOVEMBER 17, 1999.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Mr. YOUNG of Alaska, from the Committee on Resources,
submitted the following

REPORT

together with

ADDITIONAL VIEWS

[To accompany H.R. 1167]

[Including cost estimate of the Congressional Budget Office]

The Committee on Resources, to whom was referred the bill (H.R. 1167) to amend the Indian Self-Determination and Education Assistance Act to provide for further self-governance by Indian tribes, and for other purposes, having considered the same, report favorably thereon with an amendment and recommend that the bill as amended do pass.

The amendment is as follows:

Strike out all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Tribal Self-Governance Amendments of 1999".

SEC. 2. FINDINGS.

Congress finds that—

(1) the tribal right of self-government flows from the inherent sovereignty of Indian tribes and nations;

(2) the United States recognizes a special government-to-government relationship with Indian tribes, including the right of the Indian tribes to self-governance, as reflected in the Constitution, treaties, Federal statutes, and the course of dealings of the United States with Indian tribes;

(3) although progress has been made, the Federal bureaucracy, with its centralized rules and regulations, has eroded tribal self-governance and dominates tribal affairs;

(4) the Tribal Self-Governance Demonstration Project, established under title III of the Indian Self-Determination and Education Assistance Act (25 U.S.C.

450f note) was designed to improve and perpetuate the government-to-government relationship between Indian tribes and the United States and to strengthen tribal control over Federal funding and program management;

(5) although the Federal Government has made considerable strides in improving Indian health care, it has failed to fully meet its trust responsibilities and to satisfy its obligations to the Indian tribes under treaties and other laws; and

(6) Congress has reviewed the results of the Tribal Self-Governance Demonstration Project and finds that transferring full control and funding to tribal governments, upon tribal request, over decision making for Federal programs, services, functions, and activities (or portions thereof)—

(A) is an appropriate and effective means of implementing the Federal policy of government-to-government relations with Indian tribes; and

(B) strengthens the Federal policy of Indian self-determination.

SEC. 3. DECLARATION OF POLICY.

It is the policy of Congress to—

(1) permanently establish and implement tribal self-governance within the Department of Health and Human Services;

(2) call for full cooperation from the Department of Health and Human Services and its constituent agencies in the implementation of tribal self-governance—

(A) to enable the United States to maintain and improve its unique and continuing relationship with, and responsibility to, Indian tribes;

(B) to permit each Indian tribe to choose the extent of its participation in self-governance in accordance with the provisions of the Indian Self-Determination and Education Assistance Act relating to the provision of Federal services to Indian tribes;

(C) to ensure the continuation of the trust responsibility of the United States to Indian tribes and Indian individuals;

(D) to affirm and enable the United States to fulfill its obligations to the Indian tribes under treaties and other laws;

(E) to strengthen the government-to-government relationship between the United States and Indian tribes through direct and meaningful consultation with all tribes;

(F) to permit an orderly transition from Federal domination of programs and services to provide Indian tribes with meaningful authority, control, funding, and discretion to plan, conduct, redesign, and administer programs, services, functions, and activities (or portions thereof) that meet the needs of the individual tribal communities;

(G) to provide for a measurable parallel reduction in the Federal bureaucracy as programs, services, functions, and activities (or portions thereof) are assumed by Indian tribes;

(H) to encourage the Secretary to identify all programs, services, functions, and activities (or portions thereof) of the Department of Health and Human Services that may be managed by an Indian tribe under this Act and to assist Indian tribes in assuming responsibility for such programs, services, functions, and activities (or portions thereof); and

(I) to provide Indian tribes with the earliest opportunity to administer programs, services, functions, and activities (or portions thereof) from throughout the Department of Health and Human Services.

SEC. 4. TRIBAL SELF-GOVERNANCE.

The Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) is amended by adding at the end the following new titles:

“(e) REDESIGN AND CONSOLIDATION.—An Indian tribe may redesign or consolidate programs, services, functions, and activities (or portions thereof) included in a funding agreement under section 505 and reallocate or redirect funds for such programs, services, functions, and activities (or portions thereof) in any manner which the Indian tribe deems to be in the best interest of the health and welfare of the Indian community being served, only if the redesign or consolidation does not have the effect of denying eligibility for services to population groups otherwise eligible to be served under Federal law.

“(f) RETROCESSION.—An Indian tribe may retrocede, fully or partially, to the Secretary programs, services, functions, or activities (or portions thereof) included in the compact or funding agreement. Unless the Indian tribe rescinds the request for retrocession, such retrocession will become effective within the time frame specified by the parties in the compact or funding agreement. In the absence of such a specification, such retrocession shall become effective on—

In the absence of a specific time frame set forth in the resolution, such withdrawal shall become effective on—

“(A) the earlier of—

“(i) one year from the date of submission of such request; or

“(ii) the date on which the funding agreement expires; or

“(B) such date as may be mutually agreed upon by the Secretary, the withdrawing Indian tribe, and the participating tribal organization or inter-tribal consortium that has signed the compact or funding agreement on behalf of the withdrawing Indian tribe, inter-tribal consortium, or tribal organization.

“(2) DISTRIBUTION OF FUNDS.—When an Indian tribe or tribal organization eligible to enter into a self-determination contract under title I or a compact or funding agreement under this title fully or partially withdraws from a participating inter-tribal consortium or tribal organization, the withdrawing Indian tribe or tribal organization shall be entitled to its tribal share of funds supporting those programs, services, functions, or activities (or portions thereof) which it will be carrying out under its own self-determination contract or compact and funding agreement (calculated on the same basis as the funds were initially allocated in the funding agreement of the inter-tribal consortium or tribal organization), and such funds shall be transferred from the funding agreement of the inter-tribal consortium or tribal organization, provided that the provisions of sections 102 and 105(i), as appropriate, shall apply to such withdrawing Indian tribe.

“(3) REGAINING MATURE CONTRACT STATUS.—If an Indian tribe elects to operate all or some programs, services, functions, or activities (or portions thereof) carried out under a compact or funding agreement under this title through a self-determination contract under title I, at the option of the Indian tribe, the resulting self-determination contract shall be a mature self-determination contract.

“(h) NONDUPLICATION.—For the period for which, and to the extent to which, funding is provided under this title or under the compact or funding agreement, the Indian tribe shall not be entitled to contract with the Secretary for such funds under section 102, except that such Indian tribe shall be eligible for new programs on the same basis as other Indian tribes.

“SEC. 507. PROVISIONS RELATING TO THE SECRETARY.

“(a) MANDATORY PROVISIONS.—

“(1) HEALTH STATUS REPORTS.—Compacts or funding agreements negotiated between the Secretary and an Indian tribe shall include a provision that requires the Indian tribe to report on health status and service delivery—

“(A) to the extent such data is not otherwise available to the Secretary and specific funds for this purpose are provided by the Secretary under the funding agreement; and

“(B) if such reporting shall impose minimal burdens on the participating Indian tribe and such requirements are promulgated under section 517.

“(2) REASSUMPTION—(A) Compacts and funding agreements negotiated between the Secretary and an Indian tribe shall include a provision authorizing the Secretary to reassume operation of a program, service, function, or activity (or portions thereof) and associated funding if there is a specific finding relative to that program, service, function, or activity (or portion thereof) of—

“(i) imminent endangerment of the public health caused by an act or omission of the Indian tribe, and the imminent endangerment arises out of a failure to carry out the compact or funding agreement; or

“(ii) gross mismanagement with respect to funds transferred to a tribe by a compact or funding agreement, as determined by the Secretary in consultation with the Inspector General, as appropriate.

“(B) The Secretary shall not reassume operation of a program, service, function, or activity (or portions thereof) unless (i) the Secretary has first provided written notice and a hearing on the record to the Indian tribe; and (ii) the Indian tribe has not taken corrective action to remedy the imminent endangerment to public health or gross mismanagement.

“(C) Notwithstanding subparagraph (B), the Secretary may, upon written notification to the tribe, immediately reassume operation of a program, service, function, or activity (or portion thereof) and associated funding if (i) the Secretary makes a finding of imminent substantial and irreparable endangerment of the public health caused by an act or omission of the Indian tribe; and (ii) the endangerment arises out of a failure to carry out the compact or funding agreement. If the Secretary reassumes operation of a program, service, function, or activity (or portion thereof) under this subparagraph, the Secretary shall provide the tribe with a hearing on the record not later than 10 days after such reassumption.

“(D) In any hearing or appeal involving a decision to reassume operation of a program, service, function, or activity (or portion thereof), the Secretary shall have the burden of proof of demonstrating by clear and convincing evidence the validity of the grounds for the reassumption.

“(b) FINAL OFFER.—In the event the Secretary and a participating Indian tribe are unable to agree, in whole or in part, on the terms of a compact or funding agreement (including funding levels), the Indian tribe may submit a final offer to the Secretary. Not more than 45 days after such submission, or within a longer time agreed upon by the Indian tribe, the Secretary shall review and make a determination with respect to such offer. In the absence of a timely rejection of the offer, in whole or in part, made in compliance with subsection (c), the offer shall be deemed agreed to by the Secretary.

“(c) REJECTION OF FINAL OFFERS.—If the Secretary rejects an offer made under subsection (b) (or one or more provisions or funding levels in such offer), the Secretary shall provide—

“(1) a timely written notification to the Indian tribe that contains a specific finding that clearly demonstrates, or that is supported by a controlling legal authority, that—

“(A) the amount of funds proposed in the final offer exceeds the applicable funding level to which the Indian tribe is entitled under this title;

“(B) the program, function, service, or activity (or portion thereof) that is the subject of the final offer is an inherent Federal function that cannot legally be delegated to an Indian tribe;

“(C) the Indian tribe cannot carry out the program, function, service, or activity (or portion thereof) in a manner that would not result in significant danger or risk to the public health; or

“(D) the tribe is not eligible to participate in self-governance under section 503;

“(2) technical assistance to overcome the objections stated in the notification required by paragraph (1);

“(3) the Indian tribe with a hearing on the record with the right to engage in full discovery relevant to any issue raised in the matter and the opportunity for appeal on the objections raised, provided that the Indian tribe may, in lieu of filing such appeal, directly proceed to initiate an action in a Federal district court pursuant to section 110(a); and

“(4) the Indian tribe with the option of entering into the severable portions of a final proposed compact or funding agreement, or provision thereof, (including lesser funding amount, if any), that the Secretary did not reject, subject to any additional alterations necessary to conform the compact or funding agreement to the severed provisions. If an Indian tribe exercises the option specified herein, it shall retain the right to appeal the Secretary’s rejection under this section, and paragraphs (1), (2), and (3) shall only apply to that portion of the proposed final compact, funding agreement or provision thereof that was rejected by the Secretary.

“(d) BURDEN OF PROOF.—With respect to any hearing or appeal or civil action conducted pursuant to this section, the Secretary shall have the burden of demonstrating by clear and convincing evidence the validity of the grounds for rejecting the offer (or a provision thereof) made under subsection (b).

“(e) GOOD FAITH.—In the negotiation of compacts and funding agreements the Secretary shall at all times negotiate in good faith to maximize implementation of the self-governance policy. The Secretary shall carry out this title in a manner that maximizes the policy of tribal self-governance, consistent with section 3.

“(f) SAVINGS.—To the extent that programs, functions, services, or activities (or portions thereof) carried out by Indian tribes under this title reduce the administrative or other responsibilities of the Secretary with respect to the operation of Indian programs and result in savings that have not otherwise been included in the amount of tribal shares and other funds determined under section 508(c), the Secretary shall make such savings available to the Indian tribes, inter-tribal consortia, or tribal organizations for the provision of additional services to program beneficiaries in a manner equitable to directly served, contracted, and compacted programs.

“(g) TRUST RESPONSIBILITY.—The Secretary is prohibited from waiving, modifying, or diminishing in any way the trust responsibility of the United States with respect to Indian tribes and individual Indians that exists under treaties, Executive orders, other laws, or court decisions.

“(h) DECISIONMAKER.—A decision that constitutes final agency action and relates to an appeal within the Department of Health and Human Services conducted under subsection (c) shall be made either—

“(1) by an official of the Department who holds a position at a higher organizational level within the Department than the level of the departmental agency in which the decision that is the subject of the appeal was made; or

“(2) by an administrative judge.

“SEC. 508. TRANSFER OF FUNDS.

“(a) IN GENERAL.—Pursuant to the terms of any compact or funding agreement entered into under this title, the Secretary shall transfer to the Indian tribe all funds provided for in the funding agreement, pursuant to subsection (c), and provide funding for periods covered by joint resolution adopted by Congress making continuing appropriations, to the extent permitted by such resolutions. In any instance where a funding agreement requires an annual transfer of funding to be made at the beginning of a fiscal year, or requires semiannual or other periodic transfers of funding to be made commencing at the beginning of a fiscal year, the first such transfer shall be made not later than 10 days after the apportionment of such funds by the Office of Management and Budget to the Department, unless the funding agreement provides otherwise.

“(b) MULTIYEAR FUNDING.—The Secretary is hereby authorized to employ, upon tribal request, multiyear funding agreements, and references in this title to funding agreements shall include such multiyear agreements.

“(c) AMOUNT OF FUNDING.—The Secretary shall provide funds under a funding agreement under this title in an amount equal to the amount that the Indian tribe would have been entitled to receive under self-determination contracts under this Act, including amounts for direct program costs specified under section 106(a)(1) and amounts for contract support costs specified under sections 106(a)(2), (a)(3), (a)(5), and (a)(6), including any funds that are specifically or functionally related to

the provision by the Secretary of services and benefits to the Indian tribe or its members, all without regard to the organizational level within the Department where such functions are carried out.

“(d) PROHIBITIONS.—The Secretary is expressly prohibited from—

“(1) failing or refusing to transfer to an Indian tribe its full share of any central, headquarters, regional, area, or service unit office or other funds due under this Act, except as required by Federal law;

“(2) withholding portions of such funds for transfer over a period of years; and

“(3) reducing the amount of funds required herein—

“(A) to make funding available for self-governance monitoring or administration by the Secretary;

“(B) in subsequent years, except pursuant to—

“(i) a reduction in appropriations from the previous fiscal year for the program or function to be included in a compact or funding agreement;

“(ii) a congressional directive in legislation or accompanying report;

“(iii) a tribal authorization;

“(iv) a change in the amount of pass-through funds subject to the terms of the funding agreement; or

“(v) completion of a project, activity, or program for which such funds were provided;

“(C) to pay for Federal functions, including Federal pay costs, Federal employee retirement benefits, automated data processing, technical assistance, and monitoring of activities under this Act; or

“(D) to pay for costs of Federal personnel displaced by self-determination contracts under this Act or self-governance;

except that such funds may be increased by the Secretary if necessary to carry out this Act or as provided in section 105(c)(2).

“(e) OTHER RESOURCES.—In the event an Indian tribe elects to carry out a compact or funding agreement with the use of Federal personnel, Federal supplies (including supplies available from Federal warehouse facilities), Federal supply sources (including lodging, airline transportation, and other means of transportation including the use of interagency motor pool vehicles) or other Federal resources (including supplies, services, and resources available to the Secretary under any procurement contracts in which the Department is eligible to participate), the Secretary is authorized to transfer such personnel, supplies, or resources to the Indian tribe.

“(f) REIMBURSEMENT TO INDIAN HEALTH SERVICE.—With respect to functions transferred by the Indian Health Service to an Indian tribe, the Indian Health Service is authorized to provide goods and services to the Indian tribe, on a reimbursable basis, including payment in advance with subsequent adjustment, and the reimbursements received therefrom, along with the funds received from the Indian tribe pursuant to this title, may be credited to the same or subsequent appropriation account which provided the funding, such amounts to remain available until expended.

“(g) PROMPT PAYMENT ACT.—Chapter 39 of title 31, United States Code, shall apply to the transfer of funds due under a compact or funding agreement authorized under this title.

“(h) INTEREST OR OTHER INCOME ON TRANSFERS.—An Indian tribe is entitled to retain interest earned on any funds paid under a compact or funding agreement to carry out governmental or health purposes and such interest shall not diminish the amount of funds the Indian tribe is authorized to receive under its funding agreement in the year the interest is earned or in any subsequent fiscal year. Funds transferred under this Act shall be managed using the prudent investment standard.

“(i) CARRYOVER OF FUNDS.—All funds paid to an Indian tribe in accordance with a compact or funding agreement shall remain available until expended. In the event that an Indian tribe elects to carry over funding from one year to the next, such carryover shall not diminish the amount of funds the Indian tribe is authorized to receive under its funding agreement in that or any subsequent fiscal year.

“(j) PROGRAM INCOME.—All medicare, medicaid, or other program income earned by an Indian tribe shall be treated as supplemental funding to that negotiated in the funding agreement and the Indian tribe may retain all such income and expend such funds in the current year or in future years except to the extent that the Indian Health Care Improvement Act (25 U.S.C. 1601 et seq.) provides otherwise for medicare and medicaid receipts, and such funds shall not result in any offset or reduction in the amount of funds the Indian tribe is authorized to receive under its funding agreement in the year the program income is received or for any subsequent fiscal year.

“(k) **LIMITATION OF COSTS.**—An Indian tribe shall not be obligated to continue performance that requires an expenditure of funds in excess of the amount of funds transferred under a compact or funding agreement. If at any time the Indian tribe has reason to believe that the total amount provided for a specific activity in the compact or funding agreement is insufficient the Indian tribe shall provide reasonable notice of such insufficiency to the Secretary. If the Secretary does not increase the amount of funds transferred under the funding agreement, the Indian tribe may suspend performance of the activity until such time as additional funds are transferred.

“SEC. 509. CONSTRUCTION PROJECTS.

“(a) **IN GENERAL.**—Indian tribes participating in tribal self-governance may carry out construction projects under this title if they elect to assume all Federal responsibilities under the National Environmental Policy Act of 1969, the Historic Preservation Act, and related provisions of law that would apply if the Secretary were to undertake a construction project, by adopting a resolution (1) designating a certifying officer to represent the Indian tribe and to assume the status of a responsible Federal official under such laws, and (2) accepting the jurisdiction of the Federal court for the purpose of enforcement of the responsibilities of the responsible Federal official under such environmental laws.

“(b) **NEGOTIATIONS.**—Construction project proposals shall be negotiated pursuant to the statutory process in section 105(m) and resulting construction project agreements shall be incorporated into funding agreements as addenda.

“(c) **CODES AND STANDARDS.**—The Indian tribe and the Secretary shall agree upon and specify appropriate buildings codes and architectural/engineering standards (including health and safety) which shall be in conformity with nationally recognized standards for comparable projects.

A denial may be made only upon a specific finding by the Secretary that identified language in the regulation may not be waived because such waiver is prohibited by Federal law. SEC. 10. EFFECTIVE DATE.

Except as otherwise provided, the provisions of this Act shall take effect on the date of the enactment of this Act.

PURPOSE OF THE BILL

The purpose of H.R. 1167 is to amend the Indian Self-Determination and Education Assistance Act to provide for further self-governance by Indian tribes, and for other purposes.

BACKGROUND AND NEED FOR LEGISLATION

H.R. 1167 would create a new title in the 1975 Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.). The 1975 Act allows Indian tribes to contract for or take over the administration and operation of certain federal programs which provide services to Indian tribes. Title III of the Act establishes a Self-Governance Demonstration Project that allows for large-scale tribal self-governance compacts and funding agreements on a “demonstration” basis. To date, 42 separate compacts, representing 57 individual funding agreements with tribes, have already been negotiated.

The new title created by H.R. 1167 would make this authority permanent for programs contracted for within the Indian Health Service (IHS). Under H.R. 1167, Indian and Alaska Native tribes would be able to contract for the operation, control, and redesign of various IHS activities on a permanent basis. In short, what was a demonstration project would become a permanent IHS Self-Governance program. Pursuant to H.R. 1167, tribes which have already contracted for IHS activities would continue under the provisions of their contracts while an additional 50 new tribes would be selected each year to enter into contracts.

H.R. 1167 also allows for a feasibility study regarding the execution of tribal Self-Governance compacts and funding agreements for Indian-related programs outside the IHS but within the Department of Health and Human Services on a demonstration project basis.

COMMITTEE ACTION

H.R. 1167 was introduced on March 17, 1999, by Congressman George Miller (D-CA) and was cosponsored by Congressman Don Young (R-AK). The bill was referred to the Committee on Resources. On June 9, 1999, the Full Committee on Resources met to consider H.R. 1833. Mr. Miller offered an amendment in the nature of a substitute. The amendment inserted the phrase “regulations relating to procurement issued by the Secretary” into Section 510 to clarify that the section is only referring to procurement regulations. The amendment also clarified that Indian tribes administering their own health programs are eligible to receive reduced rate pharmaceuticals and that patient records are not subject to the Freedom of Information Act. The amendment was adopted by voice vote. The bill as amended was then ordered favorably reported to the House of Representative by voice vote.

SECTION-BY-SECTION ANALYSIS

Section 1. Short title

This provision sets forth the short title, the Tribal Self-Governance Act Amendments of 1999.

Section 2. Findings

This provision sets forth the findings of Congress which, among other things, reaffirm the sovereignty of Indian tribes and the unique government-to-government relationship between the United States and Indian tribes. The findings make clear that the federal government has failed to fully meet its trust responsibility and to satisfy its obligations under treaties and other laws. The findings also explain that Congress has concluded that self-governance is an effective mechanism to implement and strengthen the federal policy of government-to-government relations with Indian tribes by transferring to Indian tribes full control and funding for federal programs, functions, services, or activities, or portions thereof.

Throughout this bill, but particularly in the Findings and Declaration of Policy sections, the phrase “under treaties” is used in describing the United States’ trust obligation to Indian tribes and individuals. This provision is intended to explain that much of the federal-Indian relationship is predicated on a government-to-government relationship as reflected in the treaties, which are contractual relationships between governments. Treaties are a significant part of the legal relationship between Indian tribes and the United States. Self-governance, by its use of compacts, another traditional contracting device used between governments, is designed to honor the government-to-government relationship and remind the parties to these agreements of the historical basis for their relationship.

Section 3. Declaration of policy

This section states Congress’ policy to permanently establish and implement Tribal self-governance within the Department of Health and Human Services with the full cooperation of its agencies. Among the key policy objectives Congress seeks to achieve through the self-governance program are to: (1) maintain and continue the United States’ unique relationship with Indian tribes; (2) allow Indian tribes the flexibility to choose whether they wish to participate in self-governance; (3) ensure the continuation and fulfillment of the United States’ trust responsibility and other responsibilities towards Indian tribes that are contained in treaties and other laws; (4) permit a transition to tribal control and authority over programs, functions, services, or activities (or portions thereof); and (5) provide a corresponding parallel reduction in the federal bureaucracy.

Section 4. Tribal self governance

This section sets out the substantive provisions of the Self-Governance program in the Indian Health Service (HHS), added as a new Title V of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.). The following description refers to the new sections of Title V:

Section 501. Establishment

This provision directs the Secretary of HHS to establish a permanent Tribal Self-Governance Program in the Indian Health Service.

Section 502. Definitions

Subsection (a)(1) defines “construction project” as an undertaking described in a “construction project agreement.”

Subsection (a)(2) defines “construction project agreement” as a negotiated agreement which includes at a minimum: start and completion of dates; scope of work; party responsibilities; environmental considerations; identifies owner and operations/maintenance entity; a budget; payment process; and duration of the agreement.

Subsection (a)(3) defines “inherent federal functions”. Inherent federal functions are functions which the Executive Branch cannot by law delegate to other branches of governments, or to non-governmental entities. This definition is consistent with the Department of the Interior Solicitor’s Memorandum of May 17, 1996, entitled “Inherently Federal Functions under the Tribal Self-Governance Act of 1994.” It is the Committee’s understanding that this definition recognizes that there are differences between departmental and agency functions and those may be analyzed on a case-by-case basis. It is important to note that, in the tribal procurement context, there is another factor the Committee has considered—when the federal government is returning tribal governmental powers and functions that are inherent in tribal governmental status (such as those possessed by tribes before the establishment of the federal Indian bureaucracy), the scope of allowable transfers is broader than in the transfer of federal governmental powers to private or other governmental entities.

Subsection (a)(4) defines “inter-tribal consortium”. The Committee notes that during the Title III Demonstration Project, the IHS authorized intertribal consortia, such as the co-signers to the Alaska Tribal Health Compact, to participate in the Project and that participation has had great success. The definition of “inter-tribal consortium” is intended to include “tribal organizations” as that term is defined in Section 4(1) of the Indian Self-Determination Act, Public Law 93-638. This would include consortia such as those involved in the Alaska Tribal Health Consortium. It is the Committee’s intent that inter-tribal consortia and tribal organizations shall count as one tribe for purposes of the 50 tribe per year limitation contained in new Section 503(a).

Subsection (a)(5) provides a definition of “gross mismanagement.” The Committee has added this definition pursuant to the Department’s request and tribal agreement. The inclusion of this term is to govern one of the criteria that the Secretary is to consider in the reassumption of a tribally-operated program. The Secretary will be given the authority to reassume programs that imminently endanger the public health where the danger arises out of a compact or funding agreement violation. The Committee believes that the inclusion of a performance standard, in this case gross mismanagement, is also an appropriate grounds for reassumption. Gross mismanagement is defined as a significant, clear, and convincing violation of compact, funding agreement, regulatory or statutory requirements related to the transfer of self-governance funds to the tribe that results in a significant reduction of funds to the tribe’s self-governance program. The Committee’s definition of gross mismanagement is narrowly tailored and will require a high degree of

proof by the Secretary. The Committee is well aware of tribal concerns and agrees that the inclusion of this performance standard must not be utilized by the Secretary in such a manner as to needlessly impose monitoring and auditing requirements that hinder the efficient operation of tribal programs. Intrusive and overburdensome monitoring and auditing activities are antithetical to the goals of self-governance.

Subsection (a)(6) defines “tribal shares”. This definition is consistent with the Title IV rule-making committee’s determination that residual funds are those “necessary to carry out the inherently federal functions that must be performed by federal officials if all tribes assume responsibilities for all BIA programs.” 63 Fed. Reg. 7235, (Feb. 12, 1998) (Proposed Rule, 25 CFR 1000.91). All funds appropriated under the Indian Self-Determination and Education Assistance Act are either tribal shares or agency residual.

Subsection (a)(7) defines “Secretary” as the Secretary of Health and Human Services.

Subsection (a)(8) defines “self-governance” as the program established under this title.

Section (b) defines “Indian tribe”. This definition enables an Indian tribe to authorize another Indian tribe, inter-tribal consortium or tribal organization to participate in self-governance on its behalf. The authorized Indian tribe, inter-tribal consortium or tribal organization may exercise the authorizing Indian tribe’s rights as specified by tribal resolution.

Section 503. Selection of participating indian tribes

This section describes the eligibility criteria that must be satisfied by any Indian tribe interested in participating in the self-governance program.

(a) Continuing Participation. All tribes presently participating in the Tribal Self-Governance Demonstration Project under Title III of the Indian Self-Determination and Education Assistance Act may elect to participate in the permanent self-governance program. Tribes must do so through tribal resolution.

(b) Additional Participants. (1) This section allows an additional 50 tribes a year to participate in self-governance. (2) This section allows an Indian tribe that chooses to withdraw from an inter-tribal consortium or tribal organization to participate in self-governance provided it independently meets the eligibility criteria in new Title V. Tribes and tribal organizations that withdraw from tribal organizations and inter-tribal consortia under this section shall be entitled to participate in the permanent program under Section 503 (b)(2) and such participation shall not be counted against the 50 tribe a year limitation contained in Section 503(a).

(c) Applicant Pool. The eligibility criteria for self-governance tribes are the same as those that applied under Title IV, the permanent Department of the Interior Self-Governance Program. To participate, an Indian tribe must successfully complete a planning phase, must request participation in the program through a resolution or official action of the governing body, and must have demonstrated financial stability and financial management capability for the past three years. Proof of no material audit exceptions in the tribe’s self determination contracts or self-governance funding

agreements is conclusive proof of such qualification. The Committee notes that the financial examination addressed in Subsection 503(c)(3) refers solely to funds managed by the tribe under Title I and Title IV of the Indian Self-Determination and Education Assistance Act. The bill has been deliberately crafted to make clear that a tribe's activities in other economic endeavors are not subject of the Section 503(c) examination. Similarly, the "budgetary research" referred to in Section 503(d)(1) of the bill requires a tribe to research only budgetary issues related to the administration of the programs the tribe anticipates transferring to tribal operation under self-governance.

(d) Planning Phase. Every Indian tribe interested in participating in self-governance shall complete a planning phase prior to participating in the program. The planning phase is to include legal and budgetary research and internal tribal government planning and organizational preparation. The planning phase is to be completed to the satisfaction of the tribe.

(e) Grants. Subject to available appropriations, any Indian tribe interested in participating in self-governance is eligible to receive a grant to plan for participation in the program or to negotiate the terms of a Compact and funding agreement.

(f) Receipt of Grant not Required. This section provides that receipt of a grant from HHS is not required to participate in the permanent program.

Section 504. Compacts

This section authorizes Indian tribes to negotiate Compacts with the Secretary and identifies generally the contents of Compacts. While the Compact process was not specifically part of prior legislative enactment, the Committee understands that Compacts have developed as an integral part of self-governance. The Committee believes that Compacts serve an important and necessary function in establishing government-to-government relations, which as noted earlier, is the keystone of modern federal Indian policy.

(a) Compact Required. The Secretary is required to negotiate and enter into a written Compact consistent with the trust responsibility, treaty obligations and the government-to-government relationship between the United States and each participating tribe.

(b) Contents. This subsection requires that Compacts state the terms of the government-to-government relationship between the Indian tribe and the United States. Compacts may only be amended by agreement of both parties.

(c) Existing Compacts. On enactment of Title V, Indian tribes have the option of retaining their existing Compacts, or any portion of the Compacts that do not contradict the provisions of Title V.

(d) Term and Effective Date. The date of approval and execution by the Indian tribe is generally the effective date of a Compact, unless otherwise agreed to by the parties. A Compact will remain in effect as long as permitted by federal law or until terminated by written agreement of the parties, or by retrocession or reassumption.

Section 505. Funding agreements

This section authorizes Indian tribes to negotiate funding agreements with the Secretary and generally identifies the contents of those agreements.

(a) **Funding Agreement Required.** The Secretary is required to negotiate and enter into a written funding agreement consistent with the trust responsibility, treaty obligations and the government-to-government relationship between the United States and each participating tribe.

(b) **Contents.** An Indian tribe may include in an funding agreement all programs, functions, services, or activities, (or portions thereof) that it is authorized to carry out under Title I of the Indian Self-Determination and Education Assistance Act. Funding agreements may, at the option of the Indian tribe, authorize the tribe to plan and carry-out all programs, functions, services, or activities, (or portion thereof) administered by the Indian Health Service (IHS) that are carried out for the benefit of Indians because of their status as Indians or where Indian tribes or Indian beneficiaries are the primary or significant beneficiaries, as set forth in statutes. For each program, function, service, or activity (or portion thereof) included in a funding agreement, an Indian tribe is entitled to receive its full tribal share of funding, including funding for all local, field, service unit, area, regional, and central/headquarters or national office locations. Available funding includes the Indian tribe's share of discretionary IHS competitive grants but not statutorily mandated competitive grants.

The Committee is concerned with the reluctance of the IHS to include all available federal health funding in self governance funding agreements. We note, as an example, the refusal of the IHS to so include the Diabetes Prevention Initiative funding. As a result, funding was delayed and undue administrative requirements diverted resources from direct services. This section is intended to directly remedy this situation.

The Committee has received ample testimony showing the benefits of self governance. In 1998, the National Indian Health Board recently released its' "National Study on Self-Determination and Self-Governance," providing empirical evidence that self-governance leads to more efficient management of tribal health service delivery, especially preventive services. This study consistently observed an overall improvement in quality of care when tribes operate their own health care systems. Less than full funding agreements will result in less than maximum use of federal resources to address the health care in Indian country. Accordingly, this section is to be interpreted broadly by affording a presumption in favor of including in a tribe's self-governance funding agreement any federal funding administered by that agency.

(c) **Inclusion in Compact or Funding Agreement.** Indians do not need to be specifically identified in authorizing legislation for a program to be eligible for inclusion in a Compact or funding agreement.

(d) **Funding Agreement Terms.** Each funding agreement should generally set out the programs, functions, services, or activities, (or portions thereof) to be performed by the Indian tribe, the general budget category assigned to each program, function, service, or ac-

tivity (or portion thereof), the funds to be transferred, the time and method of payment and other provisions that the parties agree to.

(e) Subsequent Funding Agreements. Each funding agreement remains in full force and effect unless the Secretary receives notice from the Indian tribe that it will no longer operate one or more of the programs, functions, services, or activities, (or portions thereof) included in the funding agreement or until a new funding agreement is executed by the parties.

The Committee is concerned with reports that the IHS has been able to use the annual negotiations provisions of Section 303(a) of the Indian Self-Determination and Education Assistance Act to obtain an unfair bargaining advantage during negotiations by threatening to suspend application of the Act to a tribe if it does not sign an annual funding agreement. This subsection is meant to facilitate negotiation between the tribes and the IHS on a true government-to-government basis. The Committee believes the provision is fair because this assures that no act or omission of the federal government endangers the health and welfare of tribal members.

(f) Existing Funding Agreements. Upon enactment of Title V, tribes may either retain their existing annual funding agreements, or any portion thereof, that do not conflict with provisions of Title V, or negotiate new funding agreements that conform to Title V.

(g) Stable Base Funding. An Indian tribe may include a stable base budget in its funding agreement. A stable base budget contains the tribe's recurring funding amounts and provides for transfer of the funds in a predictable and consistent manner over a specific period of time. Adjustments are made annually only if there are changes in the level of funds appropriated by Congress. Non-recurring funds are not included and must be negotiated on an annual basis. The Committee intends this section to codify the existing agency policy guidance on stable base funding.

Section 506. General provisions.

(a) Applicability. The provisions in this section may, at the tribe's option, be included in a Compact or funding agreement.

(b) Conflicts of Interest. Indian tribes are to assure that internal measures are in place to address conflicts of interest in the administration of programs, functions, services, or activities (or portions thereof).

(c) Audits. The Single Agency Audit Act applies to Title V funding agreements. Indian tribes are required to apply cost principles set out in applicable Office of Management and Budget (OMB) Circulars, as modified by Section 106 of the Indian Self-Determination and Education Assistance Act or by any exemptions that may be applicable to future OMB Circulars. No other audit or accounting standards are required. Claims against Indian tribes by the federal government based on any audit of funds received under a Title V funding agreement are subject to the provisions of Section 106(f) of the Act.

(d) Records. An Indian tribe's records are not considered federal records for purposes of the Federal Privacy Act, unless otherwise stated in the Compact or funding agreement. Indian tribes are required to maintain a record keeping system and, upon reasonable advance request, provide the Secretary with reasonable access to

records to enable HHS to meet its minimum legal record keeping requirements under the Federal Records Act.

(e) Redesign and Consolidation. An Indian tribe may redesign or consolidate programs, functions, services, or activities, (or portions thereof) and reallocate or redirect funds in any way the Indian tribe considers to be in the best interest of the Indian community being served.

(f) Retrocession. An Indian tribe may retrocede fully or partially back to the Secretary any program, function, service, or activity (or portion thereof) included in a Compact or funding agreement. A retrocession request becomes effective within the time frame specified in the Compact or funding agreement, one year from the date the request was made, the date the funding agreement expires, or any date mutually agreed to by the parties, whichever occurs first.

(g) Withdrawal. An Indian tribe that participates in self-governance through an inter-tribal consortium or tribal organization can withdraw from the consortium or organization. The withdrawal becomes effective within the timeframe set out in the tribe's authorizing resolution. If a timeframe is not specified, withdrawal becomes effective one year from the submission of the request or on the date the funding agreement expires, whichever occurs first. An alternative date can be agreed to by the parties, including the Secretary.

When an Indian tribe withdraws from an inter-tribal consortium or tribal organization and wishes to enter into a Title I contract or Title V agreement on its own, it is entitled to receive its share of funds supporting the program, function, service, or activity, (or portion thereof) that it will carry out under its new status. The funds must be removed from the funding agreement of the participating organization or inter-tribal consortium and included in the withdrawing tribe's agreement or contract. If the withdrawing tribe is to receive services directly from the Secretary, the tribe's share of funds must be removed from the funding agreement of the participating organization or inter-tribal consortium and retained by the Secretary to provide services. Finally, an Indian tribe that chooses to terminate its participation in the self-governance program may, at its option, carry out programs, functions, services, or activities, (or portions thereof) in a Title I contractor agreement or self-governance funding agreement and retain its mature contractor status.

(h) Nonduplication. This section provides that a tribe operating under a self-governance Compact may not contract under Title I agreement (a "638 contract") for the same programs.

Section 507. Provisions relating to the Secretary

This section sets out mandatory and non-mandatory provisions relating to the Secretary's obligations.

(a) Mandatory Provisions.

(1) Health Status Reports. To the extent that the data is not otherwise available to the Secretary, Compacts and funding agreements must include a provision requiring the Indian tribe to report data on health status and service delivery. The Secretary is to use this data in her annual reports to Congress. The Secretary is required to provide funding to the Indian tribe to compile such data. Reporting requirements can only impose minimal burdens on the

Indian tribe and may only be imposed if they are contained in regulations developed under negotiated rulemaking.

(2) Reassumption. Compacts and funding agreements must include a provision authorizing the Secretary to reassume a program, function, service, or activity, (or portion thereof) if the Secretary makes a finding of imminent endangerment of the public health caused by the Indian tribe's failure to carry out the Compact or funding agreement of gross mismanagement that causes a significant reduction in available funding. The Secretary is required to provide the Indian tribe with notice of a finding. The Indian tribe may take action to correct the problem identified in the notice. The Secretary has the burden at the hearing of demonstrating by clear and convincing evidence the validity of the grounds for reassumption. In cases where the Secretary finds imminent substantial and irreparable endangerment of the public health caused by the tribe's failure to carry out the Compact or funding agreement, the Secretary may immediately reassume the program but is required to provide the tribe with a hearing on the record within ten days after reassumption.

(b) Final Offer. If the parties cannot agree on the terms of a Compact or funding agreement, the Indian tribe may submit a final offer to the Secretary. The Secretary has 45 days to determine if the offer will be accepted or rejected. The 45 days can be extended by the Indian tribe. If the Secretary takes no action the offer is deemed accepted by the Secretary.

(c) Rejection of Final Offers. This provision describes the only circumstances under which the Secretary may reject an Indian tribe's final offer. A rejection requires written notice to the Indian tribe within 45 days of receipt with specific findings that clearly demonstrate or are supported by controlling legal authority that: (1) the amount of funds proposed exceeds the funding level that the Indian tribe is entitled to; (2) the program, function, service, or activity (or portion thereof) that is the subject of the offer is an inherent federal function that only can be carried out by the Secretary; (3) the applicant is not eligible to participate in self-governance; or (4) the Indian tribe cannot carry out the program, function, service or activity, (or portion thereof) without a significant danger or risk to the public health. The Committee believes the fourth provision appropriately balances the Secretary's trust responsibility to assure the delivery of health care services to Indian beneficiaries, with the equally important goal of fostering maximum tribal self-determination in the administration of health care programs transferred under Title V. The Committee has included the requirement of a "specific finding" is included to avoid rejections which merely state conclusory statements that offer no analysis and determination of facts supporting the rejection.

The Secretary must also offer assistance to the Indian tribe to overcome the stated objections, and must provide the Indian tribe with an opportunity to appeal the rejection and have a hearing on the record. In any hearing the Indian tribe has the right to engage in full discovery. The Indian tribe also has the option to proceed directly to federal district court under Section 110 the Indian Self-Determination and Education Assistance Act.

The Secretary may only reject those portions of a “final offer” that are supported by the findings and must agree to all severable portions of a “final offer” which do not justify a rejection. By entering into a partial Compact or funding agreement the Indian tribe does not waive its right to appeal the Secretary’s decision for the rejected portions of the offer.

(d) Burden of Proof. The Secretary has the burden of demonstrating by clear and convincing evidence the validity of a rejection of a final offer in any hearing, appeal or civil action. A decision relating to an appeal within HHS is considered a final agency action if it was made by an administrative judge or by an official of HHS whose position is at a higher level than the level of the departmental agency in which the decision that is the subject of the appeal was made.

(e) Good Faith. The Secretary is required to negotiate in good faith and carry out his discretion under Title V in a manner that maximizes the implementation of self-governance.

(f) Savings. Any savings in the Department’s administrative costs that result from the transfer of programs, functions, services, or activities, (or portions thereof) to Indian tribes in self-governance agreements that are not otherwise transferred to Indian tribes under Title V must be made available to Indian tribes for inclusion in their Compacts or funding agreements. We have consistently indicated that self governance should achieve reductions in federal bureaucracy and create resultant cost savings. This subsection makes clear that such savings are for the benefit of the Indian tribes. Savings are not to be utilized for other agency purposes, but rather are to be provided as additional funds or services to all tribes, inter-tribal consortia, and tribal organizations in a fair and equitable manner.

(g) Trust Responsibility. The Secretary is prohibited from waiving, modifying or diminishing the trust responsibilities or other responsibilities as reflected in treaties, executive orders or other laws and court decisions of the United States to Indian tribes and individual Indians. The Committee reaffirms that the protection of the federal trust responsibility to Indian tribes and individuals is a key element of self-governance. The ultimate and legal responsibility for the management and preservation of trust resources resides with the United States as Trustee. The Committee believes that health care is a trust resource consistent with federal court decisions. This subsection continues the practice of permitting substantial tribal management of its trust resources provided that tribal activities do not replace the trustee’s specific legal responsibilities. Section 506(a)(2) (reassumption) with its concept of imminent endangerment of the public health provides guidance in defining the Secretary’s trust obligation in the health context.

(h) Decisionmaker. Final agency action is a decision by either an official from the Department at any higher organizational level than the initial decision maker or an administrative law judge. Subparagraph (h)(2) is included to assure that the persons deciding an administrative appeal are not the same individuals who made the initial decision to reject a tribe’s “final offer.”

Section 508. Transfer of funds

(a) In General. The Secretary is required to transfer all funds provided for in a funding agreement, pursuant to Section 508(c) below. Funds are also required to be provided for periods covered by continuing resolutions adopted by Congress, to the extent permitted by such resolutions. When a funding agreement requires that funds be transferred at the beginning of the fiscal year, the transfer are to be made within 10 days after the Office of Management and Budget apportions the funds, unless the funding agreement states otherwise.

(b) Multi-Year Funding. The Secretary is authorized to negotiate multi-year funding agreements.

(c) Amount of Funding. The Secretary is required to provide an Indian tribe the same funding for a program, function, service, or activity, (or portion thereof) under self-governance that the tribe would have received under Title I. This includes all Secretarial resources that support the transferred program, and all contract support costs (including indirect costs) that are not available from the Secretary but are reasonably necessary to operate the program. The bill requires that the transfer of funds occur along with the transfer of the program. Thus the bill states that "the Secretary shall provide" the funds specified, and the Secretary is not authorized to phase-in funds in any manner that is not voluntarily agreed to by self-governance tribe.

(d) Prohibition. The Secretary is specifically prohibited from withholding, refusing to transfer or reducing any portion of an Indian tribe's full share of funds during a Compact or funding agreement year, or for a period of years. The Committee is aware that for the first 21 years of administration of the Indian Self-Determination and Education Assistance Act, the Department had never taken the position that it has the discretion to delay funding for any program transferred under the Act absent tribal consent. However, a 1996 IHS circular purported to do just that. Since this circular was issued, several area offices have refused to turn over substantial program funds to tribal operation. In one instance both an area office and headquarters refused to transfer portions of programs for several years, and with respect to several headquarters functions the IHS refused to transfer the functions altogether. A recent Oregon federal district court decision declared IHS's actions in these instances illegal and the Committee agrees.

Additionally, funds that an Indian tribe is entitled to receive may not be reduced to make funds available to the Secretary for monitoring or administration; may not be used to pay for federal functions (such as pay costs or retirement benefits), and may not be used to pay costs associated with federal personnel displaced by self-governance or Title I contracting.

In subsequent years, funds may only be reduced in very limited circumstances: if Congress reduces the amount available from the prior year's appropriation; if there is a directive in the statement of managers which accompanies an appropriation; if the Indian tribe agrees; if there is a change in the amount of pass-through funds; or if the project contained in the funding agreement has been completed.

(e) Other Resources. If an Indian tribe elects to carry out a Compact or funding agreement using federal personnel, supplies, supply sources or other resources that the Secretary has available under procurement contracts, the Secretary is required to acquire and transfer the personnel, supplies or resources to the Indian tribe.

(f) Reimbursement to Indian Health Service. The IHS is authorized on a reimbursable basis to provide goods and services to tribes. Reimbursements are to be credited to the same or subsequent appropriation account which provided the initial funding. The Secretary is authorized to receive and retain the reimbursed amounts until expended without remitting them to the Treasury.

(g) Prompt Payment Act. This section makes the Prompt Payment Act (31 U.S.C. Chapter 39) applicable to the transfer of all funds due to a tribe under a Compact or funding agreement. The first annual or semi-annual transfer due under a funding agreement must be made within 10 calendar days of the date the Office of Management and Budget apportions the appropriations for that fiscal year. Under this section, the Secretary is obligated to pay to a self-governance tribe interest, as calculated under the Prompt Payment Act, for any late payment under a funding agreement.

(h) Interest or Other Income on Transfers. An Indian tribe may retain interest earned or other income on funds transferred under a Compact or funding agreement. Interest earned must not reduce the amount of funds the tribe is entitled to receive during the year the interest was earned or in subsequent years. An Indian tribe may invest funds received in a funding agreement as it wishes, provided it follows the "prudent investment standard."

(i) Carryover of Funds. All funds paid to an Indian tribe under a Compact or funding agreement are "no year" funds and may be spent in the year they are received or in any future fiscal year. Carryover funds are not to reduce the amount of funds that the tribe may receive in subsequent years.

(j) Program Income. All program income (including Medicare/Medicaid) earned by an Indian tribe is supplemental to the funding that is included in its funding agreement. The Secretary may not reduce the amount of funds that the Indian tribe may receive under its funding agreement for future fiscal years. The Indian tribe may retain such income and spend it either in the current or future years.

(k) Limitation of Costs. An Indian tribe is not required to continue performance of a program, function, service, or activity (or portion thereof) included in a funding agreement if doing so requires more funds than were provided under the funding agreement. If an Indian tribe believes that the amount of funds transferred is not enough to carry out a program, function, service, or activity (or portion thereof) for the full year, the Indian tribe may so notify the Secretary. If the Secretary does not supply additional funds the tribe may suspend performance of the program, function, service, or activity (or portion thereof) until additional funds are provided.

Section 509. Construction projects

(a) In General. Indian tribes are authorized to conduct construction projects authorized under this section. The tribes are to as-

sume full responsibility for the projects, including responsibility for enforcement and compliance with all relevant federal laws, including the National Historic Preservation Act of 1966 and the National Environmental Policy Act of 1969.

The Committee intends to allow tribes to include the maximum available project responsibilities, including environmental compliance responsibilities and associated funding in their construction project agreements. However, the Committee recognizes that due to individual circumstances, this may not always be possible. The Committee intends that tribes may “buy back” project related services in their construction project agreement, including design and construction engineering and environmental compliance services from the IHS in accordance with Section 508(f), subject to the availability of the IHS’ capacity to conduct the work.

(b) Negotiations. Negotiation of construction projects are negotiated pursuant to Section 105(m) of the Indian Self-Determination and Education Assistance Act and construction project agreements included in the funding agreement as an addendum.

(c) Codes and Standards. Tribes and the IHS will agree to standards and codes for the construction project. The agreement will be in conformity with nationally accepted standards for comparable projects.

(d) Responsibility for Completion. Payments for construction projects will be on an annual or semi-annual basis, at the option of the tribe. Flexibility in payment schedules will be maintained by the IHS through contingency funds to take account of exigent circumstances such as weather and supply.

(e) Funding. The reporting requirements in this section are not to be read as requiring any more than the tribe sharing with the Secretary such information as is otherwise required to be compiled under the normal and customary course of a construction project under the standards prescribed in Section 509(c). Further, this section does not provide for nor contemplate any additional administrative or financial reporting or record-keeping requirements on a tribe beyond the standards otherwise applicable under this Title.

(f) Approval. This section provides the Secretary at least one opportunity to approve project planning and design documents prepared by an Indian tribe. The tribe shall also provide the Secretary with project progress and financial reports as specified. The Secretary may conduct on-site project oversight visits as specified.

(g) Wages. This section sets forth the standards for wages paid in connection with the projects funded under this section.

(h) Application of Other Laws. This section clarifies the application of certain other federal laws and regulations to Indian tribes under Title V.

Section 510. Federal procurement laws and program regulations.

Unless otherwise agreed to by the parties, Compacts and funding agreements are not subject to federal contracting or cooperative agreement laws and regulations (including executive orders) unless those laws expressly apply to Indian tribes. Compacts and funding agreements are also not subject to program regulations that apply to the Secretary’s operations.

Section 511. Civil actions

The Committee intends that Section 110 the Indian Self-Determination and Education Assistance Act, which provides tribes access to Federal District Court to challenge a decision by the Secretary, shall apply to compacts and funding agreements in this Title.

Section 512. Facilitation

(a) Secretarial Interpretation. This section requires the Secretary to interpret all executive orders, regulations and federal laws in a manner that will facilitate the inclusion of programs, functions, services, or activities (or portions thereof) and funds associated therewith under Title V, implementation of Title V Compacts and funding agreements, and the achievement of tribal health goals and objectives where they are not inconsistent with federal law. This section reinforces the Secretary's obligation not merely to provide health care services to Native American tribes, but to facilitate the efforts of tribes to manage those programs for the maximum benefit of their communities.

(b) Regulation Waiver. An Indian tribe may seek a waiver of any applicable federal regulation issued under the Indian Self-Determination and Education Assistance Act, as amended, by submitting a written waiver request to the Secretary. The Secretary has 90 days to respond and a failure to act within that period is deemed an approval of the request by operation of law. Action on a waiver request is final for the Department. Denials may only be made on a specific finding that the waiver is prohibited by federal law. No action within the 90 day period by the Secretary is deemed an approval. Although the waiver procedures do not apply to other departmental regulations, this section makes clear that tribes are not subject to departmental program regulations that govern how the Department administers a particular program. Rather, tribes are expected to carry out transferred health care programs pursuant to tribal rules and regulations. The only exception is where a particular program requirement is set forth in statute, in which case a tribe must comply with the statutory limitation or mandate.

(c) Access to Federal Property. This subsection addresses tribal use of federal buildings, hospitals and other facilities, as well as the transfer to tribes of title to excess personal or real property. At the request of an Indian tribe the Secretary is required to permit the Indian tribe to use government-owned real or personal property under the Secretary's jurisdiction under such terms as the parties may agree to.

The Secretary is required to donate title to personal or real property that is excess to the needs of any agency or the General Services Administration as long as the Secretary has determined that the property is appropriate for any purpose for which a compact is authorized, irrespective of whether a tribe is in fact administering a particular program that matches that purpose. For instance, if a tribe is not administering a mental health program under its IHS compact or funding agreement, the Secretary may nonetheless acquire excess or surplus property and donate such property to the tribe so long as the Secretary determines that the tribe will be using the property to administer mental health services.

Title to property furnished by the government or purchased with funds received under a Compact or funding agreement vests in the Indian tribe if it so chooses. Such property also remains eligible for replacement, maintenance or improvement on the same terms as if the United States had title to it. Any property that is worth \$5,000 or more at the time of a retrocession, withdrawal or reassumption may revert back to the United States at the option of the Secretary.

(d) Matching or Cost-Participation Requirement. Funds transferred under Compacts and funding agreements are to be considered non-federal funds for purposes of meeting matching or cost participation requirements under federal or non-federal programs.

(e) State Facilitation. This section encourages and authorizes States to enter agreements with tribes supplementing and facilitating Title V and other federal laws that benefit Indians and Indian tribes, e.g., Welfare Reform. It is designed to provide federal authority so as to remove potential equal protection objections where states enter into special arrangements with tribes.

The Committee wants to foster enlightened and productive partnerships between State and local governments, on the one hand, and Indian tribes on the other; and, the Committee wants to be sure that States are authorized by the federal government to undertake such initiatives, as part of the federal government's constitutional authority to deal with Indian tribes as political entities, irrespective of any limitations which have from time to time been argued might otherwise exist with respect to State action under either State constitutional provisions or other provisions of the Constitution. Many State and tribal governments have undertaken positive initiatives both in health care issues and in natural resource management, and it is the Committee's strong desire to fully support, authorize and encourage such cooperative efforts.

(f) Rules of Construction. Provisions in this Title and in Compacts and funding agreements shall be liberally construed and ambiguities decided for the benefit of the Indian tribe participating in the program.

Section 513. Budget request

(a) In General. The President is required to annually identify in his/her budget all funds needed to fully fund all Title V Compacts and funding agreements. These funds are to be apportioned to the IHS Office of Tribal Self-Governance. The IHS may not thereafter reduce the funds a tribe is otherwise entitled to receive whether or not such funds have been apportioned to the Office of Tribal Self-Governance.

The Committee has been made aware that the current system for payment and approval of funding and amendments for annual funding agreements for self-governance demonstration tribes is inefficient and time consuming. In addition, by leaving authority and responsibility for distributions to area offices, there have been reported instances of excessive and unwarranted assertion of authority by area offices over self governance tribes. This includes area offices retaining shares of funds not authorized to be retained by the tribe's annual funding agreement. The Committee concludes that by requiring a report on self-governance expenditures, and by

moving all self-governance funding onto a single line, the Congress will be able to achieve the following ends: more accurately gauge the amount of funding flowing directly to tribes through participation in self governance; generate savings through decreasing the bureaucratic burden on the payment and approval process in the IHS; expedite the transferal of funding to tribal operating units; and aid in the implementation of true government to government relations and tribal self determination.

(b) Present Funding; Shortfalls. The budget must identify the present level of need and any shortfalls in funding for every Indian tribe in the United States that receives services directly from the Secretary, through a Title I contract or in a Title V Compact and funding agreement.

Section 514. Reports

(a) Annual Report. The Secretary is required to submit to Congress on January 1 of every year a written report on the Self-Governance program. The report is to include the level of need presently funded or unfunded for every Indian tribe in the United States that receives services directly from the Secretary, through a Title I contract or in a Title V Compact and funding agreement.

(b) Contents. The Secretary's report must identify: the costs and benefits of self-governance; all funds related to the Secretary's provision of services and benefits to self-governance tribes and their members; all funds transferred to self-governance tribes and the corresponding reduction in the federal bureaucracy; the funding formula for individual tribal shares; and the amount expended by the Secretary during the preceding fiscal year to carry out inherent federal functions.

The Secretary's report must, at the request of any Indian tribe, include comments from the tribe. The report must be distributed to all Indian tribes for comment no less than 30 days prior to its submission to Congress. Finally, the Secretary may not impose reporting requirements on Indian tribes unless specified in Title V.

(c) Report on Fund Distribution Method. This section requires the Secretary to consult with Indian tribes and report, within 180 days after Title V is enacted, on funding formulae used to determine tribal shares of funds controlled by IHS. The formulae are to become a part of the annual report to Congress discussed above in Section 514(a). This provision is not intended to relieve HHS from its obligation under Title V to make all funds controlled by the central office, national, headquarters or regional offices available to Indian tribes. This provision is also not intended to require reopening funding formulae that are already being used by HHS to distribute funds to Indian tribes. Any new formulae or revision of existing formulae should be determined only after significant regional and national tribal consultation.

Section 515. Disclaimers

(a) No Funding Reduction. This provision states that nothing in Title V shall be interpreted to limit or reduce the funding for any program, project or activity that any other Indian tribe may receive under Title I or other applicable federal laws. A tribe that alleges that a Compact or funding agreement violates this section may rely

on Section 110 of the Indian Self-Determination and Education Assistance Act to seek judicial review of the allegation.

(b) Federal Trust and Treaty Responsibilities. This section clarifies that the trust responsibility of the United States to Indian tribes and individual Indians which exists under treaties, Executive Orders, laws and court decisions shall not be reduced by any provision of Title V.

(c) Tribal Employment. This provision excludes Indian tribes carrying out responsibilities under a Compact or funding agreement from falling under the definition of “employer” as that term is used in the National Labor Regulations Act.

(d) Obligations of the United States. The IHS is prohibited from billing, or requiring Indian tribes from billing, individual Indians who have the economic means to pay for services. For many years the Interior and Related Agencies Appropriations Bills included language that prohibited the IHS, without explicit direction from Congress, from billing or charging Indians who have the economic means to pay. In 1997 the language was removed from the appropriation laws and it has not been included since. This section reflects the Committee’s intent that the IHS is prohibited from billing Indians for services, and is further prohibited from requiring any Indian tribe to do so.

Section 516. Application of other sections of the act

(a) Mandatory Application. This section incorporates a number of sections from Title I of the Indian Self-Determination and Education Assistance Act and makes them applicable to Title V. These sections include: 6 (setting out penalties that apply if an individual embezzles or otherwise misappropriates funds under Title V); 7 (Davis-Bacon wage and labor standards and Indian preference requirements); 102(c)–(d) (relating to Federal Tort Claims Act coverage); 104 (relating to the right to use federal personnel to carry out responsibilities in a Compact or funding agreement); 105(k) (access to federal supplies); 111 (clarifying that Title V shall have no impact on existing sovereign immunity and the United States’ trust responsibility); and section 314 from Public Law 101–512, as amended (relating to Federal Tort Claims Act coverage).

(b) Discretionary Application. At the request of an Indian tribe, other provisions of Title I of the Indian Self-Determination and Education Assistance Act which do not conflict with provisions in Title V may be incorporated into a Compact or funding agreement. If incorporation is requested during negotiations it will be considered effective immediately.

Section 517. Regulations

This section gives the Secretary limited authority to promulgate regulations implementing Title V.

(a) In General. The Secretary is required to initiate procedures to negotiate and promulgate regulations necessary to carry out Title V within 90 days of enactment of Title V. The procedures must be developed under the Federal Advisory Committee Act. The Secretary is required to publish proposed regulations no later than one year after the date of enactment of Title V. The authority to promulgate final regulations under Title V expires 21 months after

enactment. The Committee is aware of the success of the Title I negotiated rulemaking and believes that one reason for its success is a similar limitation of rulemaking authority contained in section 1070(a) of the Indian Self-Determination Act, which this section is modeled after.

(b) Committee. This provision requires that a negotiated rulemaking committee made up of federal and tribal government members be formed in accordance with the Negotiated Rulemaking Act. A majority of the tribal committee members must be representatives of and must have been nominated by Indian tribes with Title V Compacts and funding agreements. The committee will confer with and allow representatives of Indian tribes, inter-tribal consortiums, tribal organizations and individual tribal members to actively participate in the rulemaking process.

(c) Adaptation of Procedures. The negotiated rulemaking procedures may be modified by the Secretary to ensure that the unique context of self-governance and the government-to-government relationship between the United States and Indian tribes is accommodated.

(d) Effect. The effect of Title V shall not be limited if regulations are not published.

(e) Effect of Circulars, Policies, Manuals, Guidances and Rules. Unless an Indian tribe agrees otherwise in a Compact or funding agreement, no agency circulars, policies, manuals, guidances or rules adopted by the IHS apply to the tribe, except as specified.

Section 518. Appeals

In any appeal (including civil actions) involving a decision by the Secretary under Title V, the Secretary carries the burden of proof. To satisfy this burden the Secretary must establish by clear and convincing evidence the validity of the grounds for the decision made and that the decision is fully consistent with provisions and policies of Title V.

Section 519. Authorization of appropriations

This section authorizes Congress to appropriate such funds as are necessary to carry out Title V.

TITLE VI—TRIBAL SELF-GOVERNANCE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

This new Title to sets out the requirements of a feasibility study in the Department of Health and Human Services.

Section 601. Demonstration project feasibility

This section requires the Secretary to conduct a feasibility study to determine whether non-IHS programs in HHS are appropriate for a tribal self-governance demonstration project. The Secretary shall consider the probable effects on specific programs and beneficiaries; statutory or other impediments; costs and/or savings; assurance of quality in such a demonstration project; and other issues. The Secretary's report is required no later than 18 months from the enactment of this Act.

Section 602. Consultation

This section requires the Secretary to consult with Indian tribes to develop a consultation protocol. The government-to-government relationship between the tribes and the federal government will be an important part of the protocol. Consultation will be conducted jointly by the Secretary and the tribes. States, counties, municipalities, program beneficiaries and Indian tribes will be part of the consultation process.

Section 603. Definitions

This section provides definitions used under this new Title which are to be the same as those under Title V, except the definition of “agency” which means a unit of HHS other than IHS.

Section 604. Authorization of appropriations

This section authorizes such sums as may be necessary to carry out the feasibility study.

Section 5. Amendments clarifying civil proceedings

(a) Burden of Proof to District Court Actions. This provision amends Section 102(e)(1) of the Indian Self-Determination and Education Assistance Act to clarify that the Secretary has the burden of proof in any civil action pursuant to Section 110(a).

Earlier versions of this legislation stated a confirmation that the district courts were able to conduct a de novo review of claims arising under section 110 of the Indian Self-Determination and Education Assistance Act. Section 110 provides tribes and tribal contractors with the right to pursue civil claims over tribal contracts, compacts, and funding agreements in the federal district courts. Congress provided tribes with this relief to assure that tribes had a strong, effective, and immediate means to obtain agency compliance with the Act’s requirements. The federal courts, however, have given opposing interpretations over whether this section vests courts with de novo review authority. Legislative history arising under the 1994 Indian Self-Determination Act Amendments indicates that this section gave district courts original jurisdiction over any civil action or claim against the appropriate Secretary, without prior exhaustion of an administrative remedy. As noted at the time, this direct access to the district court was required to assure a strong, effective, and immediate means to obtain agency compliance with the Act’s contracting requirements. Since the amendment, at least two district court have declined to afford tribal contractors the intended de novo review and full discovery on their claims, effectively requiring tribal plaintiffs to go through an administrative appeal first to obtain discovery from the agency. This result is contrary to the clear purpose of the 1994 amendments, and defeats the broad self-determination and contracting policies underlying the Act. To cure confirmed agency inclinations to block, delay, or minimize tribal contracting and funding, it is essential for the district courts to actively adjudicate de novo contracting and funding issues based on full discovery regarding agency budget and accounting practices, program and staffing decisions, and assertions of non-contractibility. Because the Act requires the agencies to divest themselves of programs, staff, and funding at tribal re-

quest, the courts should not give Administrative Procedure Act-type deference to agency decisionmaking.

The Committee's elimination of the de novo clarifying provision from this bill is not intended in any way to send a signal to the courts or the Administration that de novo review was not intended in the first place. Rather, elimination of this provision is simply intended to let litigation between the tribes and the Administration continue on, and for the courts to ultimately decide this matter against the background of the clear legislative history of the 1994 amendments.

(b) Effective Date. The provisions of subsection (a) shall apply to any proceeding commenced after October 25, 1994.

Section 6. Speedy acquisition of goods and services

This section requires the Secretary to enter into agreements for acquisition of goods and services for tribes, including pharmaceuticals at the best price and in as fast a manner as is possible, similar to those obtained by agreement by the Veterans Administration.

Section 7. Patent records

Patent records may be deemed to be federal records for storage purposes by the Federal Records Center.

Section 8. Repeal

This section repeals Title III of the Indian Self-Determination and Education Assistance Act effective on the date of enactment.

Section 9. Savings provisions

Funds appropriated under Title III shall be available for use under Title V.

Section 10. Effective date

This section provides that the provisions of H.R. 1167 shall take effect on the date of the enactment, except as otherwise provided.

COMMITTEE OVERSIGHT FINDINGS AND RECOMMENDATIONS

Regarding clause 2(b)(1) of rule X and clause 3(c)(1) of rule XIII of the Rules of the House of Representatives, the Committee on Resources' oversight findings and recommendations are reflected in the body of this report.

CONSTITUTIONAL AUTHORITY STATEMENT

Article I, section 8 of the Constitution of the United States grants Congress the authority to enact H.R. 1167.

COMPLIANCE WITH HOUSE RULE XIII

1. Cost of Legislation. Clause 3(d)(2) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison by the Committee of the costs which would be incurred in carrying out this bill. However, clause 3(d)(3)(B) of that rule provides that this requirement does not apply when the Committee has included in its report a timely submitted cost estimate of the bill pre-

pared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act of 1974.

2. Congressional Budget Act. As required by clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974, this bill does not contain any new budget authority, spending authority, credit authority, or an increase or decrease in revenues or tax expenditures.

3. Government Reform Oversight Findings. Under clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the Committee has received no report of oversight findings and recommendations from the Committee on Government Reform on this bill.

4. Congressional Budget Office Cost Estimate. Under clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 403 of the Congressional Budget Act of 1974, the Committee has received the following cost estimate for this bill from the Director of the Congressional Budget Office:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, August 27, 1999.

Hon. DON YOUNG,
*Chairman, Committee on Resources,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 1167, the Tribal Self-Governance Amendments of 1999.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Dorothy Rosenbaum.

Sincerely,

BARRY B. ANDERSON
(For Dan L. Crippen, Director).

Enclosure.

H.R. 1167—Tribal Self-Governance Amendments of 1999

CBO estimates that H.R. 1167 would increase authorizations of appropriations by less than \$500,000 in each of fiscal years 2000 through 2004. Because enacting the bill would not affect direct spending or receipts, pay-as-you-go procedures would not apply. The legislation contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

H.R. 1167 would amend the Indian Self-Determination and Education Assistance Act to establish a permanent tribal self-governance program with the Indian Health Service (IHS). Under existing demonstration authority, the IHS and tribes enter into funding agreements whereby a tribe assumes administrative and programmatic duties that were previously performed by the federal government. Because the current demonstration authority does not end until 2006, and because the provisions of the new permanent program would not be significantly different from current law, CBO estimates that establishing a permanent program would have no federal budgetary impact over fiscal years 1999 to 2004. Under the existing demonstration program, IHS may select 30 new tribes

each year to participate. Under the bill, the number would be raised to 50. Because in recent years fewer than 10 new tribes each year have become eligible to participate, CBO assumes that this change in law would have no effect.

H.R. 1167 would authorize appropriations for fiscal years 2000 and 2001 for the IHS to conduct a study and report to Congress on the feasibility of a demonstration project that would expand self-governance compacts to include programs operated by agencies of the Department of Health and Human Services other than the IHS. CBO estimates that this study would cost less than \$250,000.

H.R. 1167 would allow Indian tribes to store their patient records at Federal Records Centers. CBO assumes that very few tribes would take advantage of this option and that increased costs to the Federal Records Centers would be less than \$500,000 in each of fiscal years 2000 through 2004.

The CBO staff contact for this estimate is Dorothy Rosenbaum. This estimate was approved by Paul N. Van de Water, Assistant Director for Budget Analysis.

COMPLIANCE WITH PUBLIC LAW 104-4

This bill contains no unfunded mandates.

PREEMPTION OF STATE, LOCAL OR TRIBAL LAW

This bill is not intended to preempt any State, local or tribal law.

SEC. 506. GENERAL PROVISIONS.

(a) **APPLICABILITY.**—The provisions of this section shall apply to compacts and funding agreements negotiated under this title and an Indian tribe may, at its option, include provisions that reflect such requirements in a compact or funding agreement.

(b) **CONFLICTS OF INTEREST.**—Indian tribes participating in self-governance under this title shall ensure that internal measures are in place to address conflicts of interest in the administration of self-governance programs, services, functions, or activities (or portions thereof).

(c) **AUDITS.**—

(1) **SINGLE AGENCY AUDIT ACT.**—The provisions of chapter 75 of title 31, United States Code, requiring a single agency audit report shall apply to funding agreements under this title.

(2) **COST PRINCIPLES.**—An Indian tribe shall apply cost principles under the applicable Office of Management and Budget Circular, except as modified by section 106 or other provisions of law, or by any exemptions to applicable Office of Management and Budget Circulars subsequently granted by Office of Management and Budget. No other audit or accounting standards shall be required by the Secretary. Any claim by the Federal Government against the Indian tribe relating to funds received under a funding agreement based on any audit under this subsection shall be subject to the provisions of section 106(f).

(d) **RECORDS.**—

(1) **IN GENERAL.**—Unless an Indian tribe specifies otherwise in the compact or funding agreement, records of the Indian tribe shall not be considered Federal records for purposes of chapter 5 of title 5, United States Code.

(2) **RECORDKEEPING SYSTEM.**—The Indian tribe shall maintain a recordkeeping system, and, after 30 days advance notice, provide the Secretary with reasonable access to such records to enable the Department of Health and Human Services to meet its minimum legal recordkeeping system requirements under sections 3101 through 3106 of title 44, United States Code.

(e) **REDESIGN AND CONSOLIDATION.**—An Indian tribe may redesign or consolidate programs, services, functions, and activities (or portions thereof) included in a funding agreement under section 505 and reallocate or redirect funds for such programs, services, functions, and activities (or portions thereof) in any manner which the Indian tribe deems to be in the best interest of the health and welfare of the Indian community being served, only if the redesign or consolidation does not have the effect of denying eligibility for services to population groups otherwise eligible to be served under Federal law.

(f) **RETROCESSION.**—An Indian tribe may retrocede, fully or partially, to the Secretary programs, services, functions, or activities (or portions thereof) included in the compact or funding agreement. Unless the Indian tribe rescinds the request for retrocession, such ret-

Such withdrawal shall become effective within the time frame specified in the resolution which authorizes transfer to the participating tribal organization or inter-tribal consortium. In the absence of a specific time frame set forth in the resolution, such withdrawal shall become effective on—

(A) the earlier of—

(i) one year from the date of submission of such request; or

(ii) the date on which the funding agreement expires;

or

(2) DISTRIBUTION OF FUNDS.—When an Indian tribe or tribal organization eligible to enter into a self-determination contract under title I or a compact or funding agreement under this title fully or partially withdraws from a participating inter-tribal consortium or tribal organization, the withdrawing Indian tribe or tribal organization shall be entitled to its tribal share of funds supporting those programs, services, functions, or activities (or portions thereof) which it will be carrying out under its own self-determination contract or compact and funding agreement (calculated on the same basis as the funds were initially allocated in the funding agreement of the inter-tribal consortium or tribal organization), and such funds shall be transferred from the funding agreement of the inter-tribal consortium or tribal organization, provided that the provisions of sections 102 and 105(i), as appropriate, shall apply to such withdrawing Indian tribe.

(3) REGAINING MATURE CONTRACT STATUS.—If an Indian tribe elects to operate all or some programs, services, functions, or activities (or portions thereof) carried out under a compact or funding agreement under this title through a self-determination contract under title I, at the option of the Indian tribe, the resulting self-determination contract shall be a mature self-determination contract.

(h) *NONDUPLICATION.*—For the period for which, and to the extent to which, funding is provided under this title or under the compact or funding agreement, the Indian tribe shall not be entitled to contract with the Secretary for such funds under section 102, except that such Indian tribe shall be eligible for new programs on the same basis as other Indian tribes.

SEC. 507. PROVISIONS RELATING TO THE SECRETARY.

(a) *MANDATORY PROVISIONS.*—

(1) *HEALTH STATUS REPORTS.*—Compacts or funding agreements negotiated between the Secretary and an Indian tribe shall include a provision that requires the Indian tribe to report on health status and service delivery—

(A) to the extent such data is not otherwise available to the Secretary and specific funds for this purpose are provided by the Secretary under the funding agreement; and

(B) if such reporting shall impose minimal burdens on the participating Indian tribe and such requirements are promulgated under section 517.

(2) *REASSUMPTION*—(A) Compacts and funding agreements negotiated between the Secretary and an Indian tribe shall include a provision authorizing the Secretary to reassume operation of a program, service, function, or activity (or portions thereof) and associated funding if there is a specific finding relative to that program, service, function, or activity (or portion thereof) of—

(i) imminent endangerment of the public health caused by an act or omission of the Indian tribe, and the imminent endangerment arises out of a failure to carry out the compact or funding agreement; or

(ii) gross mismanagement with respect to funds transferred to a tribe by a compact or funding agreement, as determined by the Secretary in consultation with the Inspector General, as appropriate.

(B) The Secretary shall not reassume operation of a program, service, function, or activity (or portions thereof) unless (i) the Secretary has first provided written notice and a hearing on the record to the Indian tribe; and (ii) the Indian tribe has not taken corrective action to remedy the imminent endangerment to public health or gross mismanagement.

(C) Notwithstanding subparagraph (B), the Secretary may, upon written notification to the tribe, immediately reassume operation of a program, service, function, or activity (or portion thereof) and associated funding if (i) the Secretary makes a finding of imminent substantial and irreparable endangerment of the public health caused by an act or omission of the Indian tribe; and (ii) the endangerment arises out of a failure to carry out the compact or funding agreement. If the Secretary reassumes operation of a program, service, function, or activity (or portion thereof) under this subparagraph, the Secretary shall provide the tribe with a hearing on the record not later than 10 days after such reassumption.

(D) In any hearing or appeal involving a decision to reassume operation of a program, service, function, or activity (or portion thereof), the Secretary shall have the burden of proof of dem-

onstrating by clear and convincing evidence the validity of the grounds for the reassumption.

(b) *FINAL OFFER.*—In the event the Secretary and a participating Indian tribe are unable to agree, in whole or in part, on the terms of a compact or funding agreement (including funding levels), the Indian tribe may submit a final offer to the Secretary. Not more than 45 days after such submission, or within a longer time agreed upon by the Indian tribe, the Secretary shall review and make a determination with respect to such offer. In the absence of a timely rejection of the offer, in whole or in part, made in compliance with subsection (c), the offer shall be deemed agreed to by the Secretary.

(c) *REJECTION OF FINAL OFFERS.*—If the Secretary rejects an offer made under subsection (b) (or one or more provisions or funding levels in such offer), the Secretary shall provide—

(1) a timely written notification to the Indian tribe that contains a specific finding that clearly demonstrates, or that is supported by a controlling legal authority, that—

(A) the amount of funds proposed in the final offer exceeds the applicable funding level to which the Indian tribe is entitled under this title;

(B) the program, function, service, or activity (or portion thereof) that is the subject of the final offer is an inherent Federal function that cannot legally be delegated to an Indian tribe;

(C) the Indian tribe cannot carry out the program, function, service, or activity (or portion thereof) in a manner that would not result in significant danger or risk to the public health; or

(D) the tribe is not eligible to participate in self-governance under section 503;

(2) technical assistance to overcome the objections stated in the notification required by paragraph (1);

(3) the Indian tribe with a hearing on the record with the right to engage in full discovery relevant to any issue raised in the matter and the opportunity for appeal on the objections raised, provided that the Indian tribe may, in lieu of filing such appeal, directly proceed to initiate an action in a Federal district court pursuant to section 110(a); and

(4) the Indian tribe with the option of entering into the severable portions of a final proposed compact or funding agreement, or provision thereof, (including lesser funding amount, if any), that the Secretary did not reject, subject to any additional alterations necessary to conform the compact or funding agreement to the severed provisions. If an Indian tribe exercises the option specified herein, it shall retain the right to appeal the Secretary's rejection under this section, and paragraphs (1), (2), and (3) shall only apply to that portion of the proposed final compact, funding agreement or provision thereof that was rejected by the Secretary.

(d) *BURDEN OF PROOF.*—With respect to any hearing or appeal or civil action conducted pursuant to this section, the Secretary shall have the burden of demonstrating by clear and convincing evidence the validity of the grounds for rejecting the offer (or a provision thereof) made under subsection (b).

(e) *GOOD FAITH.*—*In the negotiation of compacts and funding agreements the Secretary shall at all times negotiate in good faith to maximize implementation of the self-governance policy. The Secretary shall carry out this title in a manner that maximizes the policy of tribal self-governance, consistent with section 3.*

(f) *SAVINGS.*—*To the extent that programs, functions, services, or activities (or portions thereof) carried out by Indian tribes under this title reduce the administrative or other responsibilities of the Secretary with respect to the operation of Indian programs and result in savings that have not otherwise been included in the amount of tribal shares and other funds determined under section 508(c), the Secretary shall make such savings available to the Indian tribes, inter-tribal consortia, or tribal organizations for the provision of additional services to program beneficiaries in a manner equitable to directly served, contracted, and compacted programs.*

(g) *TRUST RESPONSIBILITY.*—*The Secretary is prohibited from waiving, modifying, or diminishing in any way the trust responsibility of the United States with respect to Indian tribes and individual Indians that exists under treaties, Executive orders, other laws, or court decisions.*

(h) *DECISIONMAKER.*—*A decision that constitutes final agency action and relates to an appeal within the Department of Health and Human Services conducted under subsection (c) shall be made either—*

(1) *by an official of the Department who holds a position at a higher organizational level within the Department than the level of the departmental agency in which the decision that is the subject of the appeal was made; or*

(2) *by an administrative judge.*

SEC. 508. TRANSFER OF FUNDS.

(a) *IN GENERAL.*—*Pursuant to the terms of any compact or funding agreement entered into under this title, the Secretary shall transfer to the Indian tribe all funds provided for in the funding agreement, pursuant to subsection (c), and provide funding for periods covered by joint resolution adopted by Congress making continuing appropriations, to the extent permitted by such resolutions. In any instance where a funding agreement requires an annual transfer of funding to be made at the beginning of a fiscal year, or requires semiannual or other periodic transfers of funding to be made commencing at the beginning of a fiscal year, the first such transfer shall be made not later than 10 days after the apportionment of such funds by the Office of Management and Budget to the Department, unless the funding agreement provides otherwise.*

(b) *MULTIYEAR FUNDING.*—*The Secretary is hereby authorized to employ, upon tribal request, multiyear funding agreements, and references in this title to funding agreements shall include such multiyear agreements.*

(c) *AMOUNT OF FUNDING.*—*The Secretary shall provide funds under a funding agreement under this title in an amount equal to the amount that the Indian tribe would have been entitled to receive under self-determination contracts under this Act, including amounts for direct program costs specified under section 106(a)(1) and amounts for contract support costs specified under sections 106(a)(2), (a)(3), (a)(5), and (a)(6), including any funds that are spe-*

cifically or functionally related to the provision by the Secretary of services and benefits to the Indian tribe or its members, all without regard to the organizational level within the Department where such functions are carried out.

(d) *PROHIBITIONS.—The Secretary is expressly prohibited from—*

(1) *failing or refusing to transfer to an Indian tribe its full share of any central, headquarters, regional, area, or service unit office or other funds due under this Act, except as required by Federal law;*

(2) *withholding portions of such funds for transfer over a period of years; and*

(3) *reducing the amount of funds required herein—*

(A) *to make funding available for self-governance monitoring or administration by the Secretary;*

(B) *in subsequent years, except pursuant to—*

(i) *a reduction in appropriations from the previous fiscal year for the program or function to be included in a compact or funding agreement;*

(ii) *a congressional directive in legislation or accompanying report;*

(iii) *a tribal authorization;*

(iv) *a change in the amount of pass-through funds subject to the terms of the funding agreement; or*

(v) *completion of a project, activity, or program for which such funds were provided;*

(C) *to pay for Federal functions, including Federal pay costs, Federal employee retirement benefits, automated data processing, technical assistance, and monitoring of activities under this Act; or*

(D) *to pay for costs of Federal personnel displaced by self-determination contracts under this Act or self-governance; except that such funds may be increased by the Secretary if necessary to carry out this Act or as provided in section 105(c)(2).*

(e) *OTHER RESOURCES.—In the event an Indian tribe elects to carry out a compact or funding agreement with the use of Federal personnel, Federal supplies (including supplies available from Federal warehouse facilities), Federal supply sources (including lodging, airline transportation, and other means of transportation including the use of interagency motor pool vehicles) or other Federal resources (including supplies, services, and resources available to the Secretary under any procurement contracts in which the Department is eligible to participate), the Secretary is authorized to transfer such personnel, supplies, or resources to the Indian tribe.*

(f) *REIMBURSEMENT TO INDIAN HEALTH SERVICE.—With respect to functions transferred by the Indian Health Service to an Indian tribe, the Indian Health Service is authorized to provide goods and services to the Indian tribe, on a reimbursable basis, including payments in advance with subsequent adjustment, and the reimbursements received therefrom, along with the funds received from the Indian tribe pursuant to this title, may be credited to the same or subsequent appropriation account which provided the funding, such amounts to remain available until expended.*

(g) *PROMPT PAYMENT ACT.*—Chapter 39 of title 31, United States Code, shall apply to the transfer of funds due under a compact or funding agreement authorized under this title.

(h) *INTEREST OR OTHER INCOME ON TRANSFERS.*—An Indian tribe is entitled to retain interest earned on any funds paid under a compact or funding agreement to carry out governmental or health purposes and such interest shall not diminish the amount of funds the Indian tribe is authorized to receive under its funding agreement in the year the interest is earned or in any subsequent fiscal year. Funds transferred under this Act shall be managed using the prudent investment standard.

(i) *CARRYOVER OF FUNDS.*—All funds paid to an Indian tribe in accordance with a compact or funding agreement shall remain available until expended. In the event that an Indian tribe elects to carry over funding from one year to the next, such carryover shall not diminish the amount of funds the Indian tribe is authorized to receive under its funding agreement in that or any subsequent fiscal year.

(j) *PROGRAM INCOME.*—All medicare, medicaid, or other program income earned by an Indian tribe shall be treated as supplemental funding to that negotiated in the funding agreement and the Indian tribe may retain all such income and expend such funds in the current year or in future years except to the extent that the Indian Health Care Improvement Act (25 U.S.C. 1601 et seq.) provides otherwise for medicare and medicaid receipts, and such funds shall not result in any offset or reduction in the amount of funds the Indian tribe is authorized to receive under its funding agreement in the year the program income is received or for any subsequent fiscal year.

(k) *LIMITATION OF COSTS.*—An Indian tribe shall not be obligated to continue performance that requires an expenditure of funds in excess of the amount of funds transferred under a compact or funding agreement. If at any time the Indian tribe has reason to believe that the total amount provided for a specific activity in the compact or funding agreement is insufficient the Indian tribe shall provide reasonable notice of such insufficiency to the Secretary. If the Secretary does not increase the amount of funds transferred under the funding agreement, the Indian tribe may suspend performance of the activity until such time as additional funds are transferred.

SEC. 509. CONSTRUCTION PROJECTS.

(a) *IN GENERAL.*—Indian tribes participating in tribal self-governance may carry out construction projects under this title if they elect to assume all Federal responsibilities under the National Environmental Policy Act of 1969, the Historic Preservation Act, and related provisions of law that would apply if the Secretary were to undertake a construction project, by adopting a resolution (1) designating a certifying officer to represent the Indian tribe and to assume the status of a responsible Federal official under such laws, and (2) accepting the jurisdiction of the Federal court for the purpose of enforcement of the responsibilities of the responsible Federal official under such environmental laws.

Annual advance and semiannual payment amounts shall be determined based on mutually agreeable project schedules reflecting work to be accomplished within the advance payment period, work accomplished and funds expended in previous payment periods, and the total prior payments. The Secretary shall include associated project contingency funds with each advance payment installment. The Indian tribe shall be responsible for the management of the contingency funds included in funding agreements.*

(f) **APPROVAL.**—*The Secretary shall have at least one opportunity to approve project planning and design documents prepared by the Indian tribe in advance of construction of the facilities specified in the scope of work for each negotiated construction project agreement or amendment thereof which results in a significant change in the original scope of work. With respect to construction, alteration, or repair work to which the Act of March 3, 1921, is applicable under the terms of this section, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14, of 1950, and section 2 of the Act of June 13, 1934 (48 Stat. 948).*

SEC. 510. FEDERAL PROCUREMENT LAWS AND REGULATIONS.

Notwithstanding any other provision of law, unless expressly agreed to by the participating Indian tribe, the compacts and fund-

- (3) the achievement of tribal health goals and objectives.

(b) **REGULATION WAIVER.**—

(1) An Indian tribe may submit a written request to waive application of a regulation promulgated under this Act for a compact or funding agreement entered into with the Indian Health Service under this title, to the Secretary identifying the applicable Federal regulation under this Act sought to be waived and the basis for the request.

(2) Not later than 90 days after receipt by the Secretary of a written request by an Indian tribe to waive application of a regulation under this Act for a compact or funding agreement entered into under this title, the Secretary shall either approve or deny the requested waiver in writing. A denial may be made only upon a specific finding by the Secretary that identified language in the regulation may not be waived because such waiver is prohibited by Federal law. A failure to approve or deny a waiver request not later than 90 days after receipt shall be deemed an approval of such request. The Secretary’s decision shall be final for the Department.

The Secretary is obligated to include such provision at the option of the participating Indian tribe or tribes. If such provision is incorporated it shall have the same force and effect as if it were set out in full in this title. In the event an Indian tribe requests such incorporation at the negotiation stage of a compact or funding agreement, such incorporation shall be deemed effective immediately and shall control the negotiation and resulting compact and funding agreement.

ADDITIONAL VIEWS BY HON. GEORGE MILLER

The nature of Self-Governance is rooted in the inherent sovereignty of American Indian and Alaska Native tribes. From the founding of this nation, Indian tribes and Alaska Native villages have been recognized as “distinct, independent, political communities” exercising powers of self-government, not by virtue of any delegation of powers from the federal government, but rather by virtue of their own innate sovereignty. See *Worcester v. Georgia*, 31 U.S. (6 Pet.) 515, 559 (1832). See also *Santa Clara Pueblo v. Martinez*, 436 U.S. 49, 55 (1978). The tribes’ sovereignty predates the founding of the United States and its Constitution and forms the backdrop against which the United States has continually entered into relations with Indian tribes and Native villages.

The present model of tribal Self-Governance arose out of the federal policy of Indian Self-Determination. The modern Self-Determination era began as Congress and contemporary Administrations ended the dubious experiment of Termination which was intended to end the federal trust responsibility to Native Americans.

The centerpiece of the Termination policy, House Concurrent Resolution 108, stated that “Indian Tribes and individual members thereof, should be freed from Federal supervision and control and from all disabilities and limitations specially applicable to Indians.” H. Con. Res. 108, 83rd Cong., 1st Sess. (1953). While the intent of this legislation was to free the Indians from federal rule, it also destroyed all protection and benefits they received from the government. The same year, Congress enacted Public Law 280 which further eroded tribal sovereignty by transferring criminal jurisdiction from the federal government and the tribes to the state governments.

As a policy, Termination was a disaster. Recognizing this, President Kennedy campaigned in 1960 promising the Indian tribes that:

There would be no change in treaty or contractual relationships without the consent of the tribes concerned. There would be protection of the Indian land base, credit assistance, and encouragement of tribal planning for economic development.

Francis Paul Prucha, *The Great Father*, 1087 (1984). Reservations were also included in many of the “Great Society” programs of the late 1960s, bringing a much-needed infusion of federal dollars onto many reservations. In 1968, President Lyndon B. Johnson delivered a message to Congress that stressed:

[A] policy of maximum choice for the American Indian: a policy expressed programs of self-help, self-development, self-determination. * * * The greatest hope for Indian progress lies in the emergence of Indian leadership and

initiative in solving Indian problems. Indians must have a voice in making the plans and decisions in programs which are important to their daily life.

Message from the President, March 6, 1968, Weekly Compilation of Presidential Documents, vol. IV, No. 10, Wash. D.C., U.S. Gov. Printing Office.

President Richard Nixon's 1970 "Special Message on Indian Affairs" also called for increased tribal self-determination.

This, then, must be the goal of any new national policy toward the Indian people: to strengthen the Indian's sense of autonomy without threatening his sense of community. We must assure the Indian that he can assume control of his own life without being separated involuntarily from the tribal group. And we must make it clear that Indians can become independent of Federal control without being cut off from Federal concern and Federal support. * * *

Special Message to the Congress, Pub. Papers, 564, 567 (1970). Together, these messages sparked Congress to work on legislation that laid the foundation for modern federal Indian policy for the remainder of this century. And so, five years later, Congress enacted one of the most profound and powerful pieces of Indian legislation in this Nation's history.

In 1975, Congress passed the Indian Self-Determination and Education Assistance Act, Pub. L. No. 93-638. This legislation gave Indian tribes and Alaska Native villages the right to assume responsibility for the administration of federal programs which benefited Indians. In addition to assuming the authority to make operating and administrative decisions regarding the way these federal programs would be run, tribe that chose to enter into Indian Self-Determination Act (or "638") contracts were given the right to receive the federal funds that the agencies—generally the Bureau of Indian Affairs (BIA) and the Indian Health Service (IHS)—would have ordinarily received for those programs. Unlike former policy, the Indian Self-Determination Act did not relieve the government of their trust responsibilities to the tribes.

Congress enacted the Indian Self-Determination Act believing it that (1) Indian tribes, having greater knowledge about and a greater stake in the outcome of these federal programs, would run BIA and IHS programs better and thus provide better services to their members, (2) the direct responsibility for running these programs would enhance and strengthen tribal governments, and (3) Indian tribes could make more efficient use of federal dollars than the existing federal bureaucracy, thus delivering more services than in the past.

However, Indian Self-Determination Act or "638" contracts required volumes of paperwork to be filed as a means to supervise the tribes' activities. If a tribe wanted to operate more than one program, it would have to exercise an additional 638 contract which required a separate approval process. Though the Act was intended to decrease Federal involvement in the daily lives of reservation Indians, its specific performance and reporting requirements allowed BIA to remain a pervasive force in Indian affairs.

At the time of its enactment, the 638 contract program did not allow tribes to move funds between programs to adapt to changing and unforeseen circumstances during a funding period. Thus, the tribes' powers to design or adapt programs according to tribal needs remained restricted.

The inflexibility of 638 contracts also created problems with cash flow. Payments were made to tribes on a cost-reimbursement basis, often many months after the tribe might have incurred major expenses. The tribes' main complaint, however, was that the 638 contract process made tribal staff primarily accountable to and measured by, not their own tribal councils but BIA employees at the Agency, Area and Central Offices. They had to follow strict federal laws, rules and regulations that were often of little relevance to day-to-day existence on an Indian reservation. If trust assets were involved, the BIA had to concur in any decisions made.

Thus, while the Indian Self-Determination Act was, and is, still acknowledged as a watershed moment in the history of tribal self-governance, by the mid-1980's many tribal leaders agreed that it was time for even greater change. The federal bureaucracy devoted to 638 program oversight had simply grown out of control and the percentage of federal dollars allocated for Indian programs actually spent on the reservation was still far too small.

To address these concerns, the Indian tribes asked Congress to consider amendments to the Self-Determination Act. During the fall of 1987, a series of articles appeared in the Arizona Republic entitled "Fraud in Indian Country," that detailed a egregious history of waste and mismanagement within the BIA. These articles spurred House Appropriations Subcommittee on Interior and Related Agencies Chairman Sidney Yates (D-IL) to conduct an oversight hearing on these alleged abuses.

At the hearing, Department of Interior officials proposed that funds appropriated to the Bureau of Indian Affairs be turned over to the tribes to let them manage their own affairs in an attempt to address these charges. But, the officials testified, by accepting the federal funds, the tribes would release the federal government from its trust responsibility. Many disagreed with this quid pro quo, but supported the concept of removing BIA middlemen from the funding process. With Chairman Yates' encouragement, tribal representatives met with the Secretary of the Interior and other Department officials the very next day to further hash out this concept. By mid-December of 1987, ten tribes had agreed to test the Department's proposal. Out of this proposal that the Tribal Self-Governance Demonstration Project was born.

In 1988 Congress enacted Pub. L. No. 100-472 which created Title III of the Indian Self-Determination Act which authorized the Secretary of Interior to negotiate Self-Governance compacts with up to twenty tribes. These tribes, for the first time, would be able to "plan, conduct, consolidate, and administer programs, services, and functions" heretofore performed by Interior officials. The Act required that these programs be "otherwise available to Indian tribes or Indians," but within these parameters the tribes were authorized to redesign programs and reallocated funding according to terms negotiated in the compacts. Tribes would be able to prioritize spending on a systemic level, dramatically reducing the Federal

role in the tribal decision-making process. But perhaps the biggest difference between the “638” contract process and the Self-Governance program is that instead of funds coming from multiple contracts there would be one grant with a single Annual Funding Agreement.

The original ten tribes that agreed to participate in the demonstration project were the Confederated Salish and Kootenai Tribes, Hoopa Tribe, Jamestown S’Klallam Tribe, Lummi Nation, Mescalero Apache Tribe, Mille Lacs Band of Ojibwe, Quinault Indian Nation, Red Lake Chippewa Tribe, Rosebud Sioux Tribe, and Tlingit and Haida Central Council.

In 1991 Congress passed Pub. L. No. 102-184, “The Tribal Self-Governance Demonstration Project Act”, which extended the Project for three more years and increased the number of Tribes participating to thirty. The bill required the new tribes participating to complete a one-year planning period before they could negotiate a Compact and Annual Funding Agreement. In 1991, the Interior Department established the Office of Self-Governance within the Office of the Assistant Secretary, Indian Affairs.

The 1991 law also directed the IHS to conduct a feasibility study to examine the expansion of the Self-Governance project to IHS programs and services. The law also authorized the Secretary of Health and Human Services to establish an Office of Self-Governance in the IHS.

In 1992, Congress amended section 314 of the Indian Health Care Improvement Act to allow the Secretary of Health and Human Services to negotiate Self-Governance compacts and annual funding agreements under Title III of the Indian Self-Determination Act with Indian tribes. Pub. L. No. 102-573, sec. 814. The Self-Governance Demonstration Project proved to be a success both in the Interior Department and the Department of Health and Human Services.

In 1994, Congress responded by passing the “Tribal Self-Governance Act of 1994” as part of the Indian Self-Determination Act Amendments, Pub. L. No. 103-413. The Tribal Self-Governance Act, contained in Title IV of the Indian Self-Determination Act, permanently established the Self-Governance program within the Department of Interior and thus solidifying the Federal government goals of negotiating with Indian Tribes and Alaska Native villages on a government-to-government basis while retaining the federal trust relationship. The Tribal Self-Governance Act allowed Self-Governance tribes to compact all programs and services that tribes could contract under Title I of the Indian Self-Determination Act. The Act required an “orderly transition from Federal domination of programs and services to provide Indian tribes with meaningful authority to plan, conduct, redesign, and administer programs, services, functions, and activities that meet the needs of the individual tribal communities.” The Act also clarified the requirements and obligations of tribes entering the Self-Governance process.

Tribes entering the Self-Governance program had to meet four eligibility requirements. First, the tribe (or tribes in the case of a consortium) must be federally recognized. Second, the tribe must document, with an official action of the tribal governing body, a for-

mal request to enter negotiations with the Department of Interior. In the case of a consortium of tribes, the governing body of each participating tribe must authorize participation by an official action of the tribal governing body. Third, the tribe must demonstrate financial stability and financial management capability as evidenced by the tribe having no material audit exceptions in the required annual audit of the tribe's 638 contracts. Fourth, the tribe must have successfully completed a planning phase, requiring the submission of a final planning report which demonstrates that the tribe has conducted legal and budgetary research and internal tribal government and organizational planning.

The 1994 Act then authorized the Secretary of Interior to negotiate annual funding agreements with eligible tribes in a manner consistent with the federal trust responsibility. The agreements authorize a tribe to:

* * * plan, conduct, consolidate, and administer programs, services, functions, and activities, or portions thereof, administered by the Department of Interior through the Bureau of Indian Affairs, without regard to the agency or office of the Bureau of Indian Affairs within which the program, service, function, and activity, or portion thereof, is performed, including funding for agency, area, and central office functions. * * *

The 1994 Act's inclusion of "agency, area, and central office functions," on contrast to Title III, means that with each new Self-Governance tribe, the resources of the various branches of the BIA delivering services to that tribe will shrink. To facilitate this transfer, the Act specifically lists all applicable activities for which tribes and the BIA receive corresponding funding.

Under the 1994 Act, annual funding agreements include what the tribe would have received if the sum total of its 638 contracts were added up, in addition to Area and Central Office funds and other Interior Programs. The process for review and award of Self-Governance compacts and annual funding agreements is streamlined when compared to 638 contracts. Once an agreement is negotiated, the Secretary submits it to the other Indian tribes served by the BIA and the two Congressional Committees of jurisdiction. Tribes may obtain their funding in either annual or semi-annual installments.

The Indian tribes and the Administration agree that it is now time to take the next logical step forward in the Self-Governance process and make the Self-Governance program permanent within the Department of Health and Human Services.

The Tribal Self-Governance Amendments of 1999 establish a permanent Self-Governance Program within the Department of Health and Human Services under which American Indian and Alaska Native tribes may enter into compacts with the Secretary for the direct operation, control, and redesign of Indian Health Service (IHS) activities. A limited number of Indian tribes have had a similar right on a demonstration project basis since 1992 under Title III of the Indian Self-Determination and Education Assistance Act. All Indian tribes have enjoyed a similar but lesser right to contract and operate individual IHS programs and functions under Title I

of the Indian Self-Determination Act since 1975 (so-called “638 contracting”).

In brief, the legislation would expand the number of tribes eligible to participate in Self-Governance, make it a permanent within the IHS and authorize the Secretary of Health and Human Services to conduct a feasibility study for the execution of Self-Governance compacts with Indian tribes for programs outside of the IHS. The 1998 amendments incorporate a number of federal contracting laws and regulations that have worked well for Indian tribes and the Department in the past.

The legislation is modeled on the existing permanent Self-Governance legislation for Interior Department programs contained in Title IV of the Indian Self-Determination Act. The legislation reflects years of negotiations among Indian tribes, Alaska Native villages, the Indian Health Service, and the Department of Health and Human Services.

The 1999 amendments give Indian tribes who meet certain criteria the right to take over the operation of IHS functions, including the funds necessary to run them. The 1999 amendments continue the principle focus of the Self-Governance program: to remove needless and sometimes harmful layers of federal bureaucracy that dictate Indian affairs. By giving tribes direct control over federal programs run for their benefit and making them directly accountable to their members, Congress has enabled Indian tribes to run programs more efficiently and more innovatively than federal officials have in the past. And, allowing tribes to run these programs furthers the Congressional policy of strengthening and promoting tribal governments.

Self-Governance recognizes that Indian tribes care for the health, safety, and welfare of their own members as well as that of non-Indians who either live on their reservations or conduct business with the tribes and are thus committed to safe and fair working conditions and practices.

Sometimes we need to look to the past in order to understand our proper relationship with Indian tribes. More than two centuries ago, Congress set forth what should be our guiding principles. In 1789, Congress passed the Northwest Ordinance, a set of seven articles intended to govern the addition of new states to the Union. These articles served as a compact between the people and the States, and were “to forever remain unalterable, unless by common consent.” Act of Aug. 7, 1789, ch. 13, 1 Stat. 50, 52. Article Three set forth the Nation’s policy towards Indian tribes:

The utmost good faith shall always be observed towards the Indians; their land and property shall never be taken away from them without their consent * * * but laws founded in justice and humanity shall from time to time be made, for preventing wrongs being done to them. * * *

The Founders carefully and wisely chose these principles to govern the conduct of this Nation in its dealing with American Indian tribes. Over the years, these principles have often been forgotten. Self-Government is but one of many ways to honor these principles.

Two hundred years later, Justice Thurgood Marshall delivered a unanimous Supreme Court decision in 1983 stating that,

Moreover, both the tribes and the Federal Government are firmly committed to the goal of promoting tribal self-government, a goal embodied in numerous federal statutes. We have stressed that Congress' objective of furthering tribal self-government encompasses far more than encouraging tribal management of disputes between members, but includes Congress' overriding goal of encouraging "tribal self-sufficiency and economic development".

New Mexico v. Mescalero Apache Tribe, 462 U.S. 324, 334–35, quoting *White Mountain Apache Tribe v. Bracker*, 448 U.S. 136, 143 (1980). See also *National Farmers Union Insurance Co. v. Crow Tribe of Indians*, 471 U.S. 845, 856 (1985) (concluding that "[o]ur cases have often recognized that Congress is committed to a policy of supporting tribal self-government and self-determination.").

If we are to adhere and remain faithful to the principles that our Founders set forth—the principles of good faith, consent, justice and humanity—then we must continue to promote tribal self-government.

GEORGE MILLER.
