TITLE I
NATIONAL SECURITY MATTERS
CHAPTER 1
DEPARTMENT OF JUSTICE
RADIATION EXPOSURE COMPENSATION
PAYMENT TO THE RADIATION EXPOSURE COMPENSATION TRUST FUND

The conference agreement includes language that provides
such sums as may be necessary in fiscal year 2001 to make pay-
ment to the Radiation Exposure Compensation Trust Fund. The
conferes believe that the Federal government must meet its obli-
gations to persons, and their families, who were exposed to radia-
tion and who now suffer from related diseases. The conferes fur-
ther note that the compensation payments are based on claimants
meeting eligibility criteria and therefore should be mandatory in
nature, and such payments are assumed in the fiscal year 2002
congressional budget resolution to be scored as mandatory with en-
actment of appropriate legislation starting in fiscal year 2002. The
conferes are approving these additional funds for fiscal year 2001
with the understanding and expectation that future funding for
this purpose will be mandatory and that further discretionary ap-
propriations will not be necessary and should not be provided in
subsequent appropriations acts.
The supplemental request included $515,000,000 for functions funded in title I, Military Personnel, of the Department of Defense Appropriations Act. The conferees recommend $515,000,000, as detailed in the following table.

The supplemental request included $2,841,700,000 for functions funded in title II, Operation and Maintenance, of the Department of Defense Appropriations Act. The conferees recommend $3,046,650,000, instead of $2,852,300,000 as proposed by the House, and $3,002,450,000 as proposed by the Senate. [In thousands of dollars]
The conferees concur with the Senate’s recommended reporting requirements concerning supplemental funding for consumable and reparable spare parts.

**ARMY RECRUITING AND ADVERTISING**

The conferees recommend $20,900,000, instead of $25,000,000 as proposed by the House to fund the Army’s advertising campaign sufficiently through the end of the fiscal year. The conferees are aware of the Army’s advertising efforts to focus on certain audiences, including Hispanics, and directs that no less than $5,000,000 of the funds provided be used to further increase existing production efforts directed toward Hispanic recruits.

**ARMY REAL PROPERTY MAINTENANCE**

The conferees do not agree with the direction in the Senate report regarding the allocation of Army real property maintenance funding.

**DEPARTMENT OF DEFENSE ENERGY DEMAND REDUCTION**

The conferees include $45,700,000 as proposed by the House instead of $28,700,000 as proposed by the Senate, for Department of Defense energy demand reduction programs. The conferees are greatly concerned about the impact of Department of Defense energy consumption on the Western power grid. The conferees believe strongly that the Secretary of Defense must address this issue with a plan that combines greater energy efficiencies with a determined effort to fully utilize the Department’s significant generating capabilities, as well as the land and other natural resources that are available for lease to private power companies. In order to assist in relieving energy demand during electric power emergencies in the western region during such emergencies, the Secretary should use all electric generating facilities owned or operated by the Department of Defense in that region, other than hydroelectric or facilities required for high priority military readiness, to generate energy for use by facilities of the Department of Defense or to be interconnected to public electric power transmission and distribution systems for use on a reimbursable basis. Of the funds provided, the conferees direct the following are to remain available through fiscal year 2002 and to be used as follows:

- For “Operation and Maintenance, Defense-Wide”, up to $5,500,000, to implement an aggressive energy conservation program which performs energy and sustainability audits of facilities

at Department of Defense installations on the Western power grid to produce specific recommendations for immediate implementation of energy conservation measures. The conferees direct that the program be conducted using as equal partners, Brooks Energy and Sustainability Laboratory and Lawrence Berkeley Laboratory, with the inclusion of other entities with expertise in the field as appropriate.

For “Operation and Maintenance, Defense-Wide”, $1,300,000, to conduct a study of installations within the Western power grid for siting potential energy generating facilities under an environmental stewardship program. The conferees note that the National Defense Authorization Act, 2001, expands the Department of Defense’s authority to lease real property. This authority could be utilized to site energy generating facilities on installations in return for low cost/no cost reliable power. In addition, there is significant opportunity to leverage private sector investment for environmental restoration in such lease agreements. The conferees direct that the study be focused on and coordinated with an organization having particular experience in establishing a public/private sector capital investment environmental stewardship program for siting power generation systems and addressing urgent environmental issues with potential installations, their local communities, and regulatory agencies. The conferees further direct that the Secretary of Defense designate an appropriate entity using existing personnel within the Department of Defense to centralize service activities under this initiative, and report to the congressional defense committees not later than March 31, 2002, on the results of this study and efforts by the Department to lease real property for these purposes.

For “Operation and Maintenance, Navy”, $10,200,000 for geothermal well drilling at China Lake.

The conferees direct that in distributing requested funds for the Energy Demand Reduction program, the Department should prioritize projects based upon available data to include increases in installation utility costs, the rate of savings in energy demand the project will produce, and the availability of service resources to complete the project. The conferees further direct the Secretary to submit a report to the congressional defense committees within 45 days of enactment of this Act that describes the complete criteria to be used and the proposed projects for distribution of these funds.

**PROCUREMENT**

The supplemental request included $550,700,000 for functions funded in title III, Procurement, of the Department of Defense Appropriations Act. The conferees recommend $572,650,000 instead of $488,700,000 as proposed by the House, and $596,150,000 as proposed by the Senate. The following table summarizes the conferees’ recommendations.

**OTHER PROCUREMENT, ARMY**

**SHORTSTOP ELECTRONIC PROTECTION SYSTEM**

The conferees agree to restore $4,000,000 of the $8,000,000 rescinded by the House for the Shortstop Electronic Protection System (SEPS), and to realign these funds from “Procurement, Marine Corps” to “Other Procurement, Army”, only for the purpose of procuring the SEPS countermeasure system to meet the force protection requirements of Army National Guard units deploying to contingency operations areas and for other Army National Guard requirements.

**AIRCRAFT PROCUREMENT, NAVY**

**JOINT PRIMARY AIRCRAFT TRAINING SYSTEM (JPATS)**

The conferees are concerned by the Department of the Navy’s decision to discontinue acquisition of the Joint Primary Aircraft Training System (JPATS) for fiscal years 2002 through 2007. JPATS is currently scheduled to replace all Air Force and Navy primary training aircraft and ground based training systems. The program was designed to provide a training aircraft that offers better performance, increased safety, and greater cost-effectiveness than the existing trainer aircraft fleet. The program was also conceived as a joint program with the Navy and the Air Force to create a common multi-service flight training environment as well as to take advantage of economies of scale during the production run.

The conferees direct that no later than 30 days after the enactment of this Act, the Secretary of the Navy shall submit a report to the House and Senate Appropriations Committees detailing the business case for deferring JPATS acquisition. The report should include a discussion of: (1) all life cycle cost impacts associated with the decision to defer acquisition of JPATS; (2) safety issues related to continued use of the T–34 trainer; and (3) the implications of a non-joint initial flight training curriculum.

**MISSILE PROCUREMENT, AIR FORCE**

**GPS NUCLEAR DETONATION**

The conferees agree to provide $15,500,000 in the “Missile Procurement, Air Force” account for GPS Nuclear Detonation. The con-
ferees direct that these funds shall be executed within the line-item entitled, “NUDET Detection System”. The conferees agree with the Senate direction regarding transfer of funds in the outyears. The conferees expect the Air Force, as executive agent for space, to protect the interests of the diverse stakeholders who rely on enabling space technology to achieve mission success.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The supplemental request included $440,500,000 for functions funded in title IV, Research, Development, Test and Evaluation, of the Department of Defense Appropriations Act. The conferees recommend $492,600,000, instead of $525,600,000 as proposed by the House, and $385,500,000 as proposed by the Senate. The following table summarizes the conferees’ recommendations.

**GLOBAL HAWK UNMANNED AERIAL VEHICLE**

The conferees agree to provide $17,000,000 to accelerate the development of the Global Hawk High Altitude Endurance Unmanned Aerial Vehicle as recommended by the House, instead of $25,000,000 as recommended by the Senate.
The conferees agree the Air Force should use up to $3,000,000 of the funds provided to conduct a competitive fly-off demonstration to evaluate existing sensor systems, particularly electro-optical and infrared sensors and synthetic aperture radars. Prior to the obligation of the funds for the fly-off demonstration, the Air Force should submit a report to the House and Senate Committees on Appropriations that outlines the strategy and milestone decision points for the demonstration.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY
V–22

The conferees agree to retain sufficient fiscal year 2001 funding for the V–22 program to sustain current minimum production rates and support the Blue Ribbon Panel's findings, as well as make prudent reductions to the program in recognition that the aircraft's deficiencies must be corrected. As such, the conferees approve a supplemental appropriation of $80,000,000 for the V–22 development program only for correction of deficiencies, flight test, and flight test support. A reduction of $199,000,000 is approved for the Marine Corps V–22 procurement program, instead of the $235,000,000 reduction proposed by the Defense Department. This adjustment will allow the Marine Corps to purchase 11 aircraft, the minimum production rate required. The conferees also approve a reduction of $327,500,000 from the CV–22 procurement program, delaying initial acquisition of this aircraft until deficiencies can be corrected.

The conferees remain supportive of the goals of the Special Operations Command concerning the CV–22, but believe that all issues with the program restructure need to be resolved before acquisition of CV–22 test articles is warranted.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE
NATIONAL IMAGERY AND MAPPING AGENCY

The conferees agree to two rescissions totaling $7,000,000, from “Research, Development, Test and Evaluation, Defense-Wide” and a reappropriation of these amounts for the National Imagery and Mapping Agency. The conferees agree to provide $4,000,000 for PIPES and $3,000,000 for Blast Visualization-COTS Visualization and Blast Modeling for Force Protection.

CENTER FOR THE COMMERCIAL DEPLOYMENT OF TRANSPORTATION TECHNOLOGIES

The conferees believe that preliminary studies of high speed cargo craft for ocean shipping conducted by the Center for the Commercial Deployment of Transportation Technologies under the guidance of USTRANSCOM and MARAD hold promise for development of safe and profitable high-speed shipping vessels that would have utility for the movement of high priority military cargo. The conferees expect USTRANSCOM to accelerate planning efforts for follow-on CCDoTT development and engineering activities to aid in
the evaluation of current sealift designs, shipbuilding requirements and capabilities, and advanced shipbuilding technology, and examination of market opportunity and economic viability. The USTRANSCOM shall provide to the House and Senate Committees on Appropriations by no later than September 30, 2001 an outyear funding plan including funding requirements and a milestone timetable for continuing the follow-on development and engineering studies for this effort.

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

The supplemental request included $178,400,000 for functions funded in title V, Revolving and Management Funds, of the Department of Defense Appropriations Act. The conferees recommend $178,400,000 as detailed in the following table.

OTHER DEPARTMENT OF DEFENSE PROGRAMS

The supplemental request included $1,453,400,000 for functions funded in title VI, Other Department of Defense Programs, of the Department of Defense Appropriations Act. The conferees recommend $1,603,400,000, instead of $1,653,400,000 as proposed by the House and $1,522,200,000 as proposed by the Senate. SUPPORT TO MILITARY MEDICAL TREATMENT FACILITIES

The conferees have agreed to provide an increase over the President’s budget request of $150,000,000 to initiate an effort to reverse the disinvestments in the military direct care system. This compares to an increase of $200,000,000 proposed by the House and an increase of $68,800,000 proposed by the Senate. The conferees agree that better utilization of direct care military medical treatment facilities must be a principal component of the Department’s future plans to control the explosive cost growth in the Defense Health Program. These funds are to be distributed as follows:
$30,000,000 for Army optimization projects; $30,000,000 for Navy optimization projects; $30,000,000 for Air Force optimization projects; $30,000,000 for advanced medical practices; $30,000,000 for other direct care/MTF requirements.

The conferees agree to the direction provided in the House report outlining the types of optimization projects that are eligible for these funds, guidance on calculating the cost effectiveness proviso in the bill for potential optimization projects, and the requirement for reporting to Congress on the use of these funds. The conferees agree that the $30,000,000 reserved for advanced medical practices shall be used to implement newly developed practices, procedures and techniques such as laser refractive eye surgery, liquid based cytology, positron emission tomography, non-invasive colonoscopy, and rigorous pre-symptomatic screening to augment existing DoD personal wellness and readiness programs.

OUTCOMES MANAGEMENT DEMONSTRATION

The conferees support the outcomes management demonstration at the Walter Reed Army Medical Center (WRAMC). In addition, the conferees have provided an additional $30,000,000, to remain available until expended, to address immediate shortfalls in the direct care system and military medical treatment facilities. From within these funds, the conferees direct that $16,000,000 be made available to continue the outcomes management demonstration at WRAMC.

RECOVERY OF OVERPAYMENTS

The conferees are aware of potentially significant opportunities to recover past capital and direct medical expense (CDME) TRICARE overpayments to civilian hospitals. The conferees urge the Secretary of Defense to act expeditiously to recover such overpayments, and to evaluate the use of existing, innovative methodologies developed in the private sector for this type of recovery auditing.

CLASSIFIED PROGRAMS

The recommendations of the conferees regarding classified programs are summarized in a classified annex accompanying this statement.

GENERAL PROVISIONS—THIS CHAPTER

The conferees agree to delete language as proposed by the House concerning the availability of funds provided in this chapter. The conferees agree to retain section 1201, as proposed by the Senate concerning fuel transferred by the Defense Energy Supply Center to the Department of the Interior. The conferees agree to retain section 1202, as proposed by the House and Senate concerning funds for intelligence related programs.
The conferees agree to retain section 1203, as proposed by the Senate which provides $44,000,000 for the repair of the U.S.S. COLE.

The conferees agree to amend section 1204, which rescinds $1,034,900,000 of prior year appropriations, instead of $834,000,000 as proposed by the House and $792,000,000 as proposed by the Senate. The specific programs and the amounts rescinded are as follows:

The conferees agree to amend section 1205, as proposed by the House which provides $39,900,000 to repair facilities damaged by natural disasters.

The conferees agree to retain section 1206, as proposed by the House which extends the authorities provided in section 816 of the National Defense Authorization Act of 1995, as amended, through January 31, 2002.

The conferees agree to retain section 1207, as proposed by the Senate concerning retaining all or a portion of Fort Greely, Alaska for missile defense requirements.

The conferees agree to retain section 1208, as proposed by the Senate which makes a technical correction to the fiscal year 2001 appropriation for Maritime Fire Training Centers.

The conferees agree to retain section 1209, as proposed by the Senate which earmarks funds to repair storm damage at Fort Sill, Oklahoma and Red River Army Depot, Texas.

The conferees agree to amend section 1210, as proposed by the Senate which allows for the conveyance by the Secretary of the Army of certain firefighting and rescue vehicles to the City of Bayonne, New Jersey.

The conferees agree to retain section 1211, as proposed by the Senate which prohibits obligating or expending any fiscal year 2001 funds for retiring or dismantling any of the current force of 93 B–1B Lancer bomber aircraft in fiscal year 2001. The Department of Defense has proposed to retire 33 B–1B aircraft at three locations and use a portion of the savings to upgrade the remaining 60 aircraft in the fleet. The conferees note that this provision does not preclude any planning activities by the Department of Defense to retire these 33 aircraft in the future, nor does it prohibit implementation of this plan in FY 2002. The intent of this provision is to afford the Congress and the Department a sufficient amount of time to review the full implications of this proposal and to evaluate all alternatives.
As part of this review, the Secretary of Defense is directed to provide the congressional defense committees, within 30 days of enactment of this Act, a detailed justification of its B–1B reduction and realignment proposal that includes: (1) a description of the current operational deficiencies of the B–1B aircraft, the plan and cost for correcting those deficiencies (to include increasing the mission capable rate to a minimum of 75 percent), and an assessment of the operational performance, survivability, and overall viability of the upgraded aircraft; (2) a full explanation of the new proposed B–1B basing plan to include a full analysis of basing alternatives that compares the relative fixed and recurring costs at each base, a comparison of the workforce characteristics of each base in terms of experience, productivity and operational performance, and the variable cost differences for different B–1B aircraft maintenance options; and (3) a detailed assessment of the operational, budgetary, and personnel impacts for the Air National Guard.

CHAPTER 3
DEPARTMENT OF ENERGY
ATOMIC ENERGY DEFENSE ACTIVITIES
NATIONAL NUCLEAR SECURITY ADMINISTRATION
WEAPONS ACTIVITIES

The conference agreement provides $126,625,000 for Weapons Activities instead of $140,000,000 as proposed by the Senate and $116,300,000 as proposed by the House.

Directed stockpile work.—The conference agreement includes $54,000,000 for directed stockpile work to be allocated as follows: $31,100,000 for stockpile research and development; $18,900,000 for stockpile maintenance; and $4,000,000 for stockpile evaluation.

Campaigns.—The conference agreement includes $15,000,000 for campaigns to be allocated as follows: $6,000,000 for enhanced surveillance; $4,000,000 for pit manufacturing readiness; $1,800,000 for secondary readiness; $1,600,000 for high explosives manufacturing and weapons assembly/disassembly readiness; and $1,600,000 for nonnuclear readiness.

The conference agreement also provides funds for construction projects and includes language authorizing two projects to progress from preliminary engineering and design work to construction. Consistent with this direction, available funding in Project 01–D–103, Project Engineering and Design (PE&D), has been reduced by $13,289,000. Project 01–D–108, the Microsystems and Engineering Sciences Applications (MESA) Complex Facility at Sandia National Laboratories, has been provided $9,500,000. Project 01–D–107, Atlas Relocation and Operations at the Nevada Test Site, has been provided $7,689,000 of which an additional $3,900,000 is provided
for Atlas construction in order to complete relocation during fiscal year 2002.

Facilities and infrastructure.—The conference agreement includes $10,000,000, instead of $30,000,000 as proposed by the House and no funding as proposed by the Senate, to establish a new program, Facilities and Infrastructure, to address the serious shortfall in maintenance and repairs throughout the nuclear weapons complex. This funding should be used to reduce the current backlog of maintenance and repairs and dispose of excess facilities. As the first step in this process, the Department is directed to develop current ten-year site plans that demonstrate the reconfiguration of facilities and infrastructure to meet mission requirements and address long-term operational costs and return on investment.

General reduction.—The conference agreement includes a general reduction of $10,375,000 to be allocated among the operating expense funds provided in this supplemental appropriation. However, of the funds provided herein, the National Nuclear Security Administration must provide the appropriate level of funding needed to maintain pit production and certification on schedule.

OTHER DEFENSE RELATED ACTIVITIES

DEFENSE ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT

The conference agreement provides $95,000,000 for Defense Environmental Restoration and Waste Management as proposed by the Senate instead of $100,000,000 as proposed by the House.

This includes $7,000,000 to purchase TRUPACTS shipping containers in support of operations at the Waste Isolation Pilot Plant in New Mexico; $10,000,000 for tank farm operations, $3,300,000 for F-reactor safe storage activities, and $25,000,000 for the Waste Treatment and Immobilization Plant at Hanford, Washington; and $23,200,000 for high-level waste activities and work in the F and H areas at the Savannah River Site.

DEFENSE FACILITIES CLOSURE PROJECTS

The conference agreement provides $21,000,000 for Defense Facilities Closure Projects as proposed by the House and the Senate. Funding of $20,000,000 has been provided for the Fernald, Ohio, project, and $1,000,000 for the Miamisburg, Ohio, project.

DEFENSE ENVIRONMENTAL MANAGEMENT PRIVATIZATION

The conference agreement provides $29,600,000 for Defense Environmental Management Privatization as proposed by the Senate instead of $27,472,000 as proposed by the House. This funding
has been provided for the Advanced Mixed Waste Treatment Facility in Idaho.

OTHER DEFENSE ACTIVITIES

The conference agreement provides $5,000,000 for Other Defense Activities as proposed by the Senate instead of no funding as proposed by the House. This funding is provided for the worker and community transition program to mitigate the impact of the workforce reduction at the Idaho National Engineering and Environmental Laboratory. The Department should report to the House and Senate Committees on Appropriations by October 1, 2001, on the use of this funding to facilitate the proposed reduction of 1,200 employees.

CHAPTER 3
DISTRICT OF COLUMBIA

The conference agreement recommends $750,000 in Federal funds, $250,000 by transfer of Federal funds, and the revised supplemental request of $106,588,000 in District funds instead of $107,427,000 in District funds as proposed by the House and $106,677,000 in District funds as proposed by the Senate.

FEDERAL FUNDS

FEDERAL CONTRIBUTION TO THE CHIEF FINANCIAL OFFICER
(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates $1,000,000 in Federal funds, of which $250,000 is by transfer, as a contribution to the Chief Financial Officer of the District of Columbia for payment to the Excel Institute Adult Education Program. The House had proposed an appropriation under “Public Education System” of $1,000,000 consisting of $250,000 by transfer and $750,000 from local funds. The Excel Institute is an academic/auto technical training school located in Northwest Washington. The Institute offers young men and women in the District the opportunity to train for a career, earn a high school equivalency diploma, and obtain an unsubsidized job in the automotive industry. The conferees direct the District’s Chief Financial Officer to make the above payment to the Institute within 15 days of the enactment of this Act. The conferees do not expect the Chief Financial Officer to administer this program in any way except to ensure that the funds are disbursed promptly and correctly to the Institute.
DISTRICT OF COLUMBIA FUNDS
GOVERNMENTAL DIRECTION AND SUPPORT
(INCLUDING RESCISSION)

The conference agreement rescinds $250,000 as proposed by the House and inserts language clarifying that the rescission applies to fiscal year 2001 funds as proposed by the Senate.

ECONOMIC DEVELOPMENT AND REGULATION

The conference agreement includes language proposed by the Senate modified to place a cap of $60,000 on the amount to be used to implement the provisions of D.C. Bill 13–646 pertaining to historic properties. This amount was provided by District officials at the request of the conferees. The conferees note that there was no supporting justification material for this language and direct District officials to submit detailed justification material for all budget requests. The conferees request an accounting by November 30, 2001, as to how the funds were used and the purposes for which they were used.

PUBLIC SAFETY AND JUSTICE
(INCLUDING RESCISSION)

The conference agreement includes language proposed by the Senate modified to place a cap on the amounts to be used by the Office of the Corporation Counsel from funds deposited in the District of Columbia Antitrust Fund ($52,000), the Antifraud Fund ($5,500), and the District of Columbia Consumer Protection Fund ($43,000). The conferees also limit the use of the funds to fiscal year 2001 instead of fiscal year 2002 as proposed by the Senate and “without fiscal year limitation” as proposed in the request. The conferees note that there was no supporting justification material for this language. This request is similar to the one just discussed under “Economic Development and Regulation”. The conferees direct District officials to submit detailed justification material for all budget requests. The conferees request an accounting by November 30, 2001, as to how the funds were used and the purposes for which they were used.

PUBLIC EDUCATION SYSTEM

The conference agreement appropriates $13,000,000 as proposed by the Senate instead of $14,000,000 of which $250,000 was by transfer and $750,000 was from local funds as proposed by the House. The conference agreement allocates $1,000,000 for a census-type audit of student enrollment and $12,000,000 for the 2001 summer school session as proposed by the Senate instead of $1,000,000 for a census-type audit of student enrollment, $12,000,000 for the 2001 summer school session and $1,000,000 of which $250,000 was by transfer and $750,000 was from local funds for the Excel Institute Adult Education Program as proposed by the House. Federal funds of $1,000,000, including $250,000 by transfer, for the Excel Institute are provided earlier in this chapter.
GENERAL PROVISION—THIS CHAPTER

The conference agreement includes language proposed by the Senate as a new section 2301 modified to require the Mayor to provide to the House and Senate appropriating and authorizing committees a report on the specific authority necessary to carry out the responsibilities transferred to the Chief Financial Officer in a non-control year, outlined in Section 155 of Public Law 106–522, and responsibilities outlined in DC Bill 14–254 passed by the District Council on July 10, 2001 relating to the transition of responsibilities under Public Law 104–8, the District of Columbia Financial Responsibility and Management Assistance Act of 1995. The report is to be submitted within 45 days of enactment of this Act.

In 1995, the Congress enacted the District of Columbia Financial Responsibility and Management Assistance Act, Public Law 104–8, for the purpose of restoring financial solvency and improving effective management of the District of Columbia. The Act created the “Control Board” to oversee the management of the District of Columbia and established an independent Office of the Chief Financial Officer within the District government, responsible for all financial offices of the District (budget, controller, treasurer, finance and revenue) (GAO–01–845T). As the conditions of a “control period” have been met and the Control Board terminates at the end of fiscal year 2001, certain functions performed by the Control Board have been transferred to the responsibility of the Chief Financial Officer. Public Law 106–522, the Fiscal Year 2001 District of Columbia Appropriations Act, outlines twenty-four (24) specific responsibilities for the Chief Financial Officer in a non-control year.

The conferees recognize that the District of Columbia government has enacted legislation promoting the independence, expertise and authority of the Office of the Chief Financial Officer. The conferees are committed to ensuring that the Chief Financial Officer has the necessary tools to insure that reliable, accurate, and objective financial information is available to the Mayor, the Council, the Congress, the financial markets, District citizens an other interested parties. The conferees intend to work closely with the authorizing committees and the District of Columbia on this critical issue as we develop the fiscal year 2002 appropriations bill.

CHAPTER 4
DEPARTMENT OF DEFENSE—CIVIL
DEPARTMENT OF THE ARMY
CORPS OF ENGINEERS—CIVIL

FLOOD CONTROL, MISSISSIPPI RIVER AND TRIBUTARIES, ARKANSAS, ILLINOIS, KENTUCKY, LOUISIANA, MISSISSIPPI, MISSOURI, AND TENNESSEE

The conference agreement includes $9,000,000 for Flood Control, Mississippi River and Tributaries instead of $18,000,000 as proposed by the House. The Senate did not propose funding for this account.
OPERATION AND MAINTENANCE, GENERAL

The conference agreement includes $86,500,000 for Operation and Maintenance, General instead of $139,200,000 as proposed by the House. The Senate did not propose funding for this account. Of the amount provided, $18,000,000 is for the Corps of Engineers to address critical maintenance items at its hydroelectric power facilities. In addition, language has been included in the bill which directs the Corps of Engineers to use $8,000,000 to assist with the recovery efforts resulting from the devastating effects of flooding which occurred in Southern and Central West Virginia in July of this year. The conference agreement also includes language proposed by the House which directs the Corps of Engineers to undertake the project authorized by section 518 of the Water Resources Development Act of 1999.

FLOOD CONTROL AND COASTAL EMERGENCIES

The conference agreement includes $50,000,000 for Flood Control and Coastal Emergencies as proposed by the House and the Senate.

DEPARTMENT OF ENERGY

ENERGY PROGRAMS

NON-DEFENSE ENVIRONMENTAL MANAGEMENT

The conference agreement provides $11,950,000 for Non-Defense Environmental Management as proposed by the House instead of $11,400,000 as proposed by the Senate. Additional funding of $10,000,000 is provided to continue cleanup at the Brookhaven National Laboratory in New York, and $1,950,000 is provided to study remediation options at the former Atlas Corporation’s uranium mill tailings site near Moab, Utah.

URANIUM FACILITIES MAINTENANCE AND REMEDIATION

The conference agreement provides $30,000,000 for Uranium Facilities Maintenance and Remediation instead of $18,000,000 as proposed by the House and the Senate. The conference agreement includes $18,000,000 to accelerate cleanup activities at the gaseous diffusion plant in Paducah, Kentucky, and $12,000,000 to continue decontamination and decommissioning activities at the former gaseous diffusion plant in Oak Ridge, Tennessee.

POWER MARKETING ADMINISTRATION

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN AREA POWER ADMINISTRATION

The conference agreement provides $1,578,000 for Construction, Rehabilitation, Operation and Maintenance, Western Area Power Administration as proposed by the House, instead of no funding as proposed by the Senate. Non-reimbursable funding of $1,328,000 is provided to complete planning and environmental studies for the Path 15 transmission line. Non-reimbursable funding of $250,000 is provided to conduct a planning study of trans-
mission expansion options and projected costs in Western’s Upper Great Plains Region. Existing Western transmission capacity is insufficient to support the development of known energy resources that could support new electric generation capacity in the Upper Great Plains Region. The directed study will require assumptions as to future generation locations. Western is directed to solicit suggestions from interested parties for the sites that should be studied as potential locations for new generation and to consult with such parties before conducting the study. Western is directed to produce an objective evaluation of options that may be used by all interested parties.

**General Provisions—This Chapter**

The conference agreement includes language proposed by the House to provide $500,000 for completion of the feasibility study for Chickamauga Lock, Tennessee.

The conference agreement does not include language proposed by the House to transfer $23,700,000 from the National Nuclear Security Administration to the Corps of Engineers.

The conference agreement modifies language proposed by the Senate which allows the Bureau of Reclamation to accept prepayment of certain obligations.

The conference agreement does not include language proposed by the Senate to provide $250,000 within available funds for the Western Area Power Administration for a study to determine the costs and feasibility of transmission expansion. Funding for this activity has been provided in the Western Area Power Administration appropriation account.

The conference agreement modifies language proposed by the Senate to amend the Energy Employees Occupational Illness Compensation Program Act of 2000 by including renal cancers as a basis for benefits under this program. The conference agreement makes the provision effective on October 1, 2001.

**Chapter 5**

**Bilateral Economic Assistance**

**Agency for International Development**

**Child Survival and Disease Programs Fund**

*(Including Rescission)*

The conference agreement appropriates $100,000,000 for “Child Survival and Disease Programs Fund” as proposed by the Senate. The House bill did not contain a provision on this matter. These funds are available until expended and may be made available, notwithstanding any other provision of law, for a United States contribution to a global trust fund to combat HIV/AIDS, malaria, and tuberculosis.

The conference agreement rescinds $10,000,000 from fiscal year 2001 and prior year balances available under “Child Survival and Disease Programs Fund”. The Senate amendment would have rescinded $10,000,000 from fiscal year 2001 funds that were des-
ignated for an international HIV/AIDS trust fund. The House bill did not contain a provision on this matter.

OTHER BILateral Economic Assistance

ECONOMIC Support Fund

(RESCission)

The conference agreement rescinds $10,000,000 from unobligated balances of funds available under the heading "Economic Support Fund". The managers expect that the Department of State will consult with the Committees on Appropriations prior to any reallocation of any funds pursuant to this rescission.

General Provision—This Chapter

The conference agreement contains Senate language that provides that the final proviso in section 526 of the Foreign Operations, Export Financing and Related Programs Appropriations Act, 2000, as amended, is repealed, and that the funds identified by such proviso shall be made available pursuant to the authority of section 526 of Public Law 106–429. The managers agree with the Senate report language on this provision. The House bill did not address this matter.

The conference agreement does not contain section 3002 of the House bill regarding a report to the Committees on Appropriations on the projected uses of the unobligated balances of funds available under “International Disaster Assistance”, including plans for allocating additional resources to respond to the El Salvador earthquakes. The Senate amendment did not address this matter.

Chapter 6

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The conference agreement provides $3,000,000 for management of lands and resources as proposed by the Senate, instead of no funding as proposed by the House, to expedite the processing of critical energy related permits. The Senate proposal to derive these funds by transfer from unobligated balances in land acquisition accounts is not agreed to.

Within the amount provided, $1,250,000 is to reduce the backlog of oil and gas permits on Federal lands including: $300,000 for activities in New Mexico, $200,000 for activities in California, and $750,000 for activities in Wyoming. In addition, $200,000 is to process power plant applications in New Mexico, $100,000 is for power line rights-of-way in California, $500,000 is to support development of the National Petroleum Reserve Alaska, and $950,000 is for studies in the Powder River Basin in Montana to support coalbed methane development, of which $250,000 is for the continuation of wetlands filtration research with the Department of Energy and Montana State University and of which $200,000 is for
preparation of a hyperspectral assessment of potential concentrations of gas reserves in the Powder River Basin covered by the ongoing Environmental Impact Statement. The Bureau should report to the House and Senate Committees on Appropriations as soon as possible on the use of hyperspectral data to prioritize the processing of applications to drill.

**United States Fish and Wildlife Service**

**Construction**

The conference agreement provides $17,700,000 for construction as proposed by the House, instead of no funding as proposed by the Senate, to repair damages to U.S. Fish and Wildlife Service facilities caused by floods, ice storms, and earthquakes in the States of Washington, Illinois, Iowa, Minnesota, Missouri, Wisconsin, New Mexico, Oklahoma, and Texas. The House proposal to designate this appropriation as an emergency requirement is not agreed to.

**National Park Service**

**United States Park Police**

The conference agreement provides $1,700,000 for United States Park Police, as proposed by the House instead of no funding as proposed by the Senate. The House recommendation was based on information from the National Park Service that U.S. Park Police pension costs for fiscal year 2001 had been underestimated and that, in order to cover the pension shortfall, the National Park Service and the U.S. Park Police had to cancel the summer police recruit class. The managers have subsequently learned that the U.S. Park Police did not use the funds from the canceled recruit class to cover the pension shortfall but, instead, funded various other non-emergency items. Therefore, the funds provided in this Act are needed to cover the pension plan shortfall and the recruit class will not be reinstated. The managers caution the U.S. Park Police that such unapproved diversions of funds will not be tolerated in the future.

**Bureau of Indian Affairs**

**Operation of Indian Programs**

(**Including Transfers of Funds**)

The conference agreement provides $50,000,000 for operation of Indian programs as requested by the Administration and proposed by both the House and the Senate. The agreement includes two changes to the original language. The first change permits these funds to remain available until expended and the second change clarifies that the funds may be used for electric power operations and related activities at the San Carlos Irrigation Project. The House proposal to designate this appropriation as an emergency requirement is not agreed to.
RELATED AGENCY
DEPARTMENT OF AGRICULTURE
Forest Service
Forest and Rangeland Research

The conference agreement provides $1,400,000 for forest and rangeland research as proposed in section 2608 of the Senate bill for research on sudden oak death syndrome, instead of no funding as proposed by the House. The Senate proposal to derive these funds by transfer from unobligated balances in the land acquisition account is not agreed to.

State and Private Forestry

The conference agreement provides $24,500,000 for State and private forestry, instead of $22,000,000 as proposed by the House and $2,500,000 as proposed by the Senate. Included are $10,000,000 to address ice storm damages in the States of Arkansas, Oklahoma and Texas, $12,000,000 for pest suppression in several areas of the country, $1,750,000 for emergency fire fighting in Anchorage, and $750,000 for the Kenai Peninsula Borough Spruce Bark Beetle Task Force in Alaska. The Senate-proposed language dealing with fire fighting in Alaska has been modified by deleting references to equipment purchases. The House proposal to designate this appropriation as an emergency requirement is not agreed to.

National Forest System

The conference agreement provides $12,000,000 for the national forest system as proposed by the House instead of $10,000,000 as proposed by the Senate, of which $10,000,000 is for activities to address ice storm damages in the States of Arkansas and Oklahoma and $2,000,000 is to respond to illegal marijuana cultivation and trafficking in California and Kentucky. The House proposal to designate this appropriation as an emergency requirement is not agreed to.

Wildland Fire Management

The conference agreement provides no funding for wildland fire management as proposed by the Senate, instead of $100,000,000 in emergency funding as proposed by the House.

Capital Improvement and Maintenance

(including rescission of funds)

The conference agreement provides $4,000,000 for capital improvement and maintenance as proposed by both the House and the Senate to repair damage caused by ice storms in Arkansas and Oklahoma. The House proposal to designate this appropriation as an emergency requirement is not agreed to. The conference agreement also provides for the extension of availability of funds previously appropriated for maintenance and snow removal on the Beartooth Highway as proposed by the Senate.
Section 2601 includes language proposed by the House to permit completion of a wilderness study at Apostle Islands National Lakeshore, WI by the National Park Service. The Senate addressed this provision under the National Park Service “Operation of the National Park System” account.

Section 2602 includes language proposed by the House extending the availability of funds provided in fiscal year 2001 for maintenance, protection and preservation of land in the Minuteman Missile National Historic Site, SD. The Senate addressed this provision under the National Park Service “Operation of the National Park System” account.

Section 2603 includes language proposed by the Senate allowing the Bureau of Land Management to use an estimated $168,000 in unobligated balances for land exchanges at Steens Mountain, OR.

Section 2604 includes language proposed by both the House and the Senate to correct a Public Law reference in section 338 of the Interior and Related Agencies Appropriations Act for fiscal year 2001.

Section 2605 includes language proposed by both the House and the Senate modifying a provision in Public Law 106–558 in order to authorize the payment of full overtime rates for fire fighters in fiscal year 2001.

Section 2606 includes language proposed by both the House and the Senate to permit the Forest Service to receive reimbursement for expenditures for projects that otherwise qualify for the use of Federal-aid highways funds.

Section 2607 includes language proposed by the Senate permitting the use of $2,000,000 in fiscal year 2001 funding for a direct payment to Ketchikan Public Utilities in Alaska to clear a right-of-way for the Swan Lake-Lake Tyee Intertie on the Tongass National Forest. Any activity associated with clearing the right-of-way must comply with all applicable Federal and State environmental laws and regulations.

Section 2608 includes language proposed by the Senate making permanent a provision dealing with the distribution of certain Bureau of Indian Affairs funds to small tribes in Alaska.

Section 2609 modifies language proposed by the Senate restricting additional self-determination contracts and self-governance compacts for the provision of health care services to Alaska Natives. The modification extends the current restriction for three additional years rather than making it a permanent restriction.
The conference agreement includes $25,000,000 for the Youth Activities program authorized under the Workforce Investment Act as opposed to $45,000,000 proposed by the Senate. The House bill contained no similar provision. The Secretary of Labor had proposed a reprogramming of fiscal year 2001 funds to increase funding for the Youth Activities program by $45,000,000.

The conference agreement rescinds $65,000,000 from funds appropriated under sections 169 and 171 of the Workforce Investment Act, of which $25,000,000 is rescinded from funds available for Youth Opportunity Grants; $20,000,000 from funds available for Safe Schools/Healthy Students; and $20,000,000 from funds available for the Incumbent Workers program. The Senate bill included a rescission totaling $45,000,000; $25,000,000 from Youth Opportunity Grants and $20,000,000 from Safe Schools/Healthy Students. The House bill contained no similar provision. The Secretary of Labor had proposed reprogramming these funds for other purposes.

The conference agreement rescinds $177,500,000 from funds for Dislocated Worker training activities authorized under the Workforce Investment Act, of which, $110,000,000 is from amounts allotted for formula grants to States and $67,500,000 is from the National Reserve. The Senate bill rescinded $217,500,000 from the Dislocated Worker program. The House bill contained no similar provision.

The conference agreement includes provisions directing the Secretary to allocate the rescission in the Dislocated Worker formula grant funds based upon each State’s share of the unexpended balances in the program as of June 30, 2001. The Senate bill contained provisions directing the Secretary to increase State program year 2001 allotments to States with acceptable program expenditures by re-allotting unexpended balances from States determined by the Secretary to have excess unexpended program balances as of June 30, 2001. The House bill contained no similar provisions.

In addition, the conference agreement modifies language included in the Senate bill to make the rescission effective at the time the Secretary determines, based upon the best information available, the unexpended balances in each of the States. The conferees expect the Secretary of Labor to render her determination by no later than September 30, 2001. The House bill contained no similar provision.

The conferees note that the Governors of each State under the Workforce Investment Act have the authority to re-allocate unobligated funds among local areas. The conferees encourage the Governors to exercise this authority for local areas where there is need.

The conferees are aware of concerns about rescinding Workforce Investment Act training funds during a period of economic
slowdown. However, based on the information available to the conferees, it appears that there is excess funding available in the program and the rescission is necessary to meet other needs in fiscal year 2001.

The conferees understand that the Secretary of Labor requires the Governors to submit State financial data for the three Workforce Investment Act block grants on a quarterly basis. The data for June 30, 2001, the end of the program year, is due on August 15, 2001. The conferees believe that timely and accurate data are critical in order for the Congress to meet its oversight responsibilities for this important program. Therefore the conferees direct the Secretary to submit to the House and Senate Committees on Appropriations an expenditure data report on each of the three Workforce Investment Act block grants at the State level and for the National Reserve funds within not more than 60 days of the end of the quarter beginning with the data from the end of program year 2000 and continuing through program year 2001.

PENSION AND WELFARE BENEFITS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes a provision amending the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2001, to extend the availability of funds included for the National Summit on Retirement Savings to September 30, 2002. The conferees understand the Administration expects to convene the Summit in the first part of fiscal year 2002. Neither the House nor the Senate bills addressed this matter.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The conference agreement includes two technical corrections as proposed by the Senate. The House bill contained no similar provisions.

NATIONAL INSTITUTES OF HEALTH

(INCLUDING TRANSFER OF FUNDS)

The conference understand that bill language is no longer necessary and therefore deletes without prejudice the language proposed by the Senate. The conferees further understand that the National Institutes of Health will use funds appropriated to the Office of the Director to proceed with the planning and start-up activities of the newly authorized National Institute of Biomedical Imaging and Bioengineering. The House bill contained no similar provision.

The conference agreement includes language to provide for the transfer of $7,115,000 from the National Library of Medicine to the Buildings and Facilities account to complete the design phase of a
National Library of Medicine facility. The House and Senate bills contained no similar provision.

**Substance Abuse and Mental Health Services Administration**

**Substance Abuse and Mental Health Services**

The conference agreement provides $6,500,000 for maintenance, repair, preservation, and protection of St. Elizabeths Hospital as proposed by the Senate. The House bill contained no similar provision.

**Administration for Children and Families**

**Low Income Home Energy Assistance**

The conference agreement includes $300,000,000 in contingency funds to provide home energy assistance to low-income households, as authorized under section 2602(e) of the Omnibus Budget Reconciliation Act of 1981 and provides that these funds shall be available until expended, as proposed in the Senate bill. The House bill also included $300,000,000 in contingency funds but did not make the funds available beyond September 30, 2001. The conference agreement provides $150,000,000 above the Administration's request of $150,000,000.

The conferees expect that half of the $300,000,000 will be available for targeted assistance to States with the most critical needs, which may include needs arising from significant energy cost increases, significant increases in arrearages and disconnections, home energy shortages and supply disruptions, weather-related emergencies, natural disasters, or increases in unemployment. The conferees further expect that the remaining half of the funds will be distributed based on the LIHEAP block grant statutory formula so that every State has additional resources to address unmet energy assistance needs resulting from the extraordinary price increases in home heating fuels experienced during this past winter as well as funds to address unanticipated emergencies. The conferees note that the Department has allocated the last three emergency LIHEAP distributions to the States in this manner. The conferees direct the Department to provide notification to the House and Senate Committees on Appropriations of the amount, manner of distribution and justification for the release of funds not less than seven days prior to any allotment or release of funds.

**Children and Families Services Programs**

The conferees concur with language contained in the Senate report regarding a technical correction. The House report contained no similar provision.

**General Departmental Management**

The conferees are displeased with the way in which the Department of Health and Human Services has handled responses to the May 4, 2001 stem cell letter and its refusal to provide to the Committees on Appropriations the report “Stem Cells: Scientific
Progress and Future Research Directions” when requested. The conferees direct that specific information requests from the Chairmen and Ranking Members of the Subcommittee on Labor, Health and Human Services and Education and Related Agencies, on stem cell research or any other matter, shall be transmitted to the Committees on Appropriations, in a prompt professional manner, and within the time frame specified in the request. The conferees further direct that scientific information requested by the Committees on Appropriations and prepared by government researchers and scientists, be transmitted to the Committees on Appropriations, uncensored and without delay.

DEPARTMENT OF EDUCATION

EDUCATION REFORM

The conference agreement includes a technical correction as proposed by both the House and the Senate.

The conferees understand that the Department plans to award only implementation grants, but no planning grants, to school districts under the fiscal year 2001 Smaller Learning Communities program. The conferees are very concerned about this decision and expect the Department to award both types of grants, and to apply the same competitive priorities used in the fiscal year 2000 grant competition in determining which applicants are funded in the fiscal year 2001 grant competition. In addition, the conferees expect that the department will continue outreach and technical assistance activities to help ensure that school districts are aware that smaller schools and smaller learning communities are effective research-based strategies to improve student safety, morale, retention, and academic achievement.

EDUCATION FOR THE DISADVANTAGED

The conference agreement includes a technical correction relating to the amount of funding available for Basic Grants in school year 2001–2002 as proposed by both the House and the Senate.

The conference agreement also includes an additional $161,000,000 for the Title I Grants to LEAs program. It is the intent of the conferees that, when taken together with the technical correction to the basic grants amount, these additional resources will result in a final fiscal year 2001 appropriation of $7,397,971,000 for basic grants and $1,364,750,000 for concentration grants. The conferees further intend that these additional resources will be used to provide each State and local educational agency the greater of either the amount it would receive at levels specified in the conference report to accompany H.R. 4577 under the 100-percent hold harmless or what it would receive using the statutory formulas. These provisions were proposed by both the House and the Senate.

The technical correction made to the appropriation for this program and the additional resources made available by this supplemental appropriations act shall take effect as if included in Public Law 106–554 on the date of its enactment.
IMPACT AID

The conference agreement includes a provision requiring Impact Aid construction funds to be distributed in accordance with the formula outlined in section 8007 of the Impact Aid program as that section existed in fiscal year 2000 as proposed by both the House and the Senate.

SPECIAL EDUCATION

The conference agreement includes a technical correction as proposed by both the House and the Senate.

EDUCATION RESEARCH, STATISTICS, AND IMPROVEMENT

The conference agreement includes technical corrections as proposed by both the House and the Senate.

GENERAL PROVISIONS—THIS CHAPTER

Section 2701. The conference agreement includes a provision clarifying the intent of the Congress with regard to funding provided pursuant to section 117 of the Carl D. Perkins Vocational and Technical Education Act of 1998 as proposed by the Senate. Funding available for this section is intended to be provided only to tribal colleges that do not receive Federal support under the Tribally Controlled Community College or University Assistance Act of 1978 or the Navajo Community College Act and whose primary purpose is to provide full-time technical and vocational educational programs to American Indian students. The House bill contained no similar provision.

Section 2702. The conference agreement includes a provision authorizing the use of fiscal year 2001 funds specifically for transition from the use of analog to digital technology for the provision of public broadcasting services for fiscal year 2001. The Senate bill included language amending the authorizing statute to establish a grant program and included two-year authorization of appropriations for the grant program. The House bill contained no similar provision.

Section 2703. The conference agreement includes a provision proposed by the Senate which makes a permanent change to section 8003 of the Elementary and Secondary Education Act to clarify which small school districts are eligible for special payments authorized within the basic support payments program. The conference agreement also includes a provision proposed by the Senate stating that this change shall apply to funding available in the Department of Education Appropriations Act, 2001. The House bill contained no similar provisions.

These provisions will change the fiscal year 2001 allocations under the basic support payment program of Impact Aid, resulting in some school districts receiving less than they were expecting to receive in fiscal year 2001 funds. The conferees note that the National Association of Federally Impacted Schools supports the adoption of this provision.

The conferees became aware that certain State and district per pupil expenditure data limitations made some of the intended ben-
eficiary districts ineligible for the special payment provisions authorized in the Impact Aid reauthorization bill enacted into law last year. While the appropriation for basic support payments in the Department of Education Appropriations Act, 2001 assumed full funding for these payments, the initial payment calculations made for school districts did not. As a result, approximately $2,900,000 set aside for payments to districts eligible for special payments was included in the calculation for distribution to non-eligible districts. The conferees intend to make an additional $2,900,000 available in the fiscal year 2002 education appropriations bill to offset the effect of this amendment.

This management review should include an overall assessment of the agency’s organizational structure, strategic planning, skills, staffing, systems, accountability reporting, and execution of its statutory and assigned responsibilities. The conferees direct that the General Accounting Office (GAO) lead this review, in consultation and coordination with the Architect of the Capitol, building upon earlier management reviews, and consider best practices in its evaluation and recommendations. The GAO report should include recommendations for enhancing the overall effectiveness and efficiency of the AOC operations along with recommendations as to how to implement such improvements. CHAPTER 9

DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

RENTAL PAYMENTS

(RESCISSION)

The conference agreement includes a rescission of $440,000 in balances for rental payments to the General Service Administration. These funds have remained unobligated for many years, and can be made available at this time for other pressing needs.

COAST GUARD

OPERATING EXPENSES

The conference agreement includes $92,000,000 for Coast Guard operating expenses, as proposed by the House and Senate. The agreement makes such funds available until September 30, 2002, as proposed by the House, instead of September 30, 2001 as proposed by the Senate.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

The conference agreement includes $4,000,000, available until expended, for the repair or relocation of Coast Guard facilities damaged during the Nisqually earthquake in the State of Washington, as proposed by the Senate. The House bill contained no similar appropriation.
ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS
(RESCSSIONS)

The conference agreement includes rescissions of balances in “Acquisition, construction, and improvements” totaling $12,000,000. These rescissions are as shown below:

GRANTS-IN-AID FOR AIRPORTS
(AIRPORT AND AIRWAY TRUST FUND)
(RESCSSION OF CONTRACT AUTHORIZATION)

The conference agreement includes a $30,000,000 rescission of contract authority as proposed by the House and Senate. Because these funds are above the annual limitation on obligations, the rescission will have no effect on current program activities.

FEDERAL HIGHWAY ADMINISTRATION
EMERGENCY HIGHWAY RESTORATION
(HIGHWAY TRUST FUND)

The conference agreement includes an appropriation from the Highway Trust Fund of $27,600,000, to remain available until expended, for emergency highway restoration and related activities. These funds shall be distributed as follows:

<table>
<thead>
<tr>
<th>Project</th>

</table>

The Senate bill included an appropriation from the general fund of $12,800,000, to remain available until expended, for the long-term restoration or replacement of the Alaskan Way Viaduct and Magnolia Bridge in Seattle, Washington, which were recently damaged during the Nisqually earthquake. The House bill contained no similar appropriation.

U.S. 119, Letcher County, KY.—The conference agreement provides $9,100,000 to the Commonwealth of Kentucky for safety im-
Improvements to U.S. 119 in Letcher County, Kentucky. U.S. 119 is a major commercial artery on the National Highway System in eastern Kentucky. A section of this road has been the site of several major accidents in recent years, including an accident involving a school bus six months ago. The Commonwealth of Kentucky recently prohibited use of the roadway by large commercial vehicles, which the state determined cannot safely negotiate several narrow sections of the highway. The state’s action, while necessary, will disrupt commerce in this region, impacting businesses and families. The funds provided will allow the state to immediately implement major safety improvements that must occur before safe commercial use of the road can resume.

Lake Street access, Minneapolis, MN.—The conference agreement provides $4,700,000 for work to proceed to provide access to I-35 West from Lake Street in Minneapolis, Minnesota.

Interstate 55 interchange, MO.—The conference agreement provides $500,000 for work to proceed for a new interchange on Interstate 55, at the point the Interstate passes over Weber Road and the River Des Peres. The new interchange would allow increased access to the neighborhood of LeMay in St. Louis County and is critical to a local revitalization plan.

Highway damage in northwest Wisconsin.—The conference agreement provides $500,000 for necessary repairs due to recent disasters, including the flood, wind, and ice storm of April 29, 2001.

FEDERAL-AID HIGHWAYS
(HIGHWAY TRUST FUND)
(RESCISSIONS)

The conference agreement includes rescissions of appropriations and contract authorizations of $15,918,497 in unobligated balances from completed highway projects in eight previous highway authorization and appropriations acts, instead of $14,000,000 proposed by the Senate. The House bill contained no similar rescissions.

RELATED AGENCY
UNITED STATES—CANADA RAILROAD COMMISSION

The conference agreement includes $2,000,000, proposed by the Senate, for a joint U.S.-Canada commission to study the feasibility of connecting the rail system in Alaska to the North American continental rail system. Funds are made available until expended. The agreement specifies that the funds are to be provided directly to the commission, rather than to the Alaska Railroad as proposed by the Senate. The House bill contained no similar appropriation.

GENERAL PROVISIONS—THIS CHAPTER

The conference agreement includes a provision, proposed by the Senate, making fiscal year 1999 and 2000 funds for Northern New Mexico bus and bus facilities projects also available for State of New Mexico buses and bus-related facilities. The House bill contained no similar provision.
The conference agreement deletes a provision proposed by the Senate which would have made airport development projects in two locations eligible for grants under the Airport Improvement Program by waiving the requirement that such airports be included in FAA’s National Plan of Integrated Airport Systems (NPIAS). The House bill contained no similar provision.

The conference agreement does not include provisions proposed by the Senate which would have prohibited reallocation of funds for the Morgantown, West Virginia fixed guideway modernization project or the Tuscaloosa, Alabama intermodal center. Instead, the conferees direct the Federal Transit Administration not to reallocate funds provided in the fiscal year 1999 Department of Transportation and Related Agencies Appropriations Act (P.L. 105–277) for the Tuscaloosa, Alabama intermodal center and the Morgantown, West Virginia fixed guideway modernization project. Funds are extended only for one additional year, absent further congressional direction. The House bill contained no similar provision.

CHAPTER 10

DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

The conferees agree to provide $59,956,000 to reimburse any agency of the Department of the Treasury or other Federal agency for costs associated with providing operational and perimeter security at the 2002 Winter Olympics, as proposed by the Senate. The conferees expect that this funding will be provided to the following agencies, as shown in the following table. Adjustments to this funding may be made subject to the standard reprogramming and transfer guidelines:

FINANCIAL MANAGEMENT SERVICE
SALARIES AND EXPENSES

The conferees agree to provide $49,576,000 for the Financial Management Service, the same amount as proposed by both the House and the Senate. The conferees direct the Financial Management Service to provide a detailed report on the expenditures made pursuant to this appropriation 120 days after the enactment of this Act.

INTERNAL REVENUE SERVICE
PROCESSING, ASSISTANCE AND MANAGEMENT

The conferees agree to provide $66,200,000 for the Internal Revenue Service, the same amount as proposed by both the House and the Senate. The conferees direct the Internal Revenue Service to provide a detailed report on the expenditures made pursuant to this appropriation 120 days after the enactment of this Act.

INDEPENDENT AGENCIES

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY FOUNDATION

FEDERAL PAYMENT TO MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY FOUNDATION

The conferees agree to include a provision, modified from the Senate position, for the Federal Payment to Morris K. Udall Scholarship and Excellence in National Environmental Policy Foundation account to permit the transfer of up to $1,000,000 for necessary expenses incurred pursuant to section 6(7) of the Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992 (20 U.S.C. 5604(7)). The House had no similar provision.

GENERAL PROVISIONS THIS CHAPTER

Section 21001. The conferees agree to include a provision for designating a building as the Paul Coverdell Building as proposed by the Senate. The House had no similar provision.

Section 21002. The conferees agree to include a provision rescinding $18,000,000 in funds previously made available to the Internal Revenue Service, Processing Assistance and Management, Tax Law Enforcement, and the Earned Income Tax Credit Compliance Initiative.

CHAPTER 11
DEPARTMENT OF VETERANS AFFAIRS

VETERANS BENEFITS ADMINISTRATION
COMPENSATION AND PENSIONS

The conferees recommend an additional $589,413,000 for compensation and pension payments to eligible veterans. Supplemental
funds are needed in fiscal year 2001 in order to meet cost of living adjustments and program enhancements and benefits contained in legislation enacted after passage of the fiscal year 2001 appropriations bill, but the conferees do not identify specific funding levels for each benefit or authorization.

READJUSTMENT BENEFITS

The conferees recommend an additional $347,000,000 to meet Montgomery GI Bill benefit enhancements contained in legislation enacted after passage of the fiscal year 2001 appropriations bill.

VETERANS HEALTH ADMINISTRATION

MEDICAL AND PROSTHETIC RESEARCH

The conferees included House bill language increasing the current fiscal year 2001 travel limitation from $2,500,000 to $3,500,000. The Senate did not include bill language.

DEPARTMENTAL ADMINISTRATION

GENERAL OPERATING EXPENSES

The conferees recommend bill language proposed by the Senate allowing not more than $19,000,000 to be transferred from the Medical Care account to General Operating Expenses by September 30, 2001, for the administrative expenses of processing claims. The House did not include a time limitation for the fund transfer. The new fiscal year 2001 GOE travel limitation remains at $17,500,000.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

PUBLIC AND INDIAN HOUSING

HOUSING CERTIFICATE FUND

(RESCISSION)

The conference agreement includes a rescission of $114,300,000 from amounts made available to the Department as proposed in the House bill, with a technical change in the language. The Senate bill did not address this matter.

NATIVE AMERICAN HOUSING BLOCK GRANTS

The conference agreement includes language authorizing $5,000,000 from within available funds under this heading appropriated in fiscal year 2001 and prior years to be used to address mold problems on the Turtle Mountain Indian Reservation. The Senate bill included an additional appropriation to the Tribe, subject to submission of a plan. Language is also included as proposed in the Senate bill requiring the Federal Emergency Management Agency to provide technical assistance to the Tribe. The House bill did not address this matter.
COMMUNITY PLANNING AND DEVELOPMENT

COMMUNITY DEVELOPMENT FUND

(INCLUDING RESCISSION)

The conference agreement includes language as proposed in the Senate bill making a technical change to extend the availability of funds appropriated under this account in Public Law 106–377. The House bill included similar language as a general provision.

Language is included clarifying Congressional intent with respect to appropriations made to improve cyber-districts in Massachusetts and for wastewater and combined sewer overflow infrastructure improvements in Massachusetts, as recommended in the House bill; and for appropriations made for Rio Arriba County, New Mexico, as recommended in the Senate bill. The conferees have amended language as proposed by the House which clarifies the intent of Congress with respect to a grant made for construction at a New Jersey university center and with respect to a grant made to the City of Syracuse, New York.

HOUSING PROGRAMS

MANUFACTURED HOUSING FEES TRUST FUND

The conference agreement does not include language proposed in the House bill authorizing the expenditure of fees available in the fund. The conferees understand that separate legislation has been enacted to allow for the expenditure of these fees in fiscal year 2001. The Senate bill did not address this matter.

FEDERAL HOUSING ADMINISTRATION

FHA—MUTUAL MORTGAGE INSURANCE PROGRAM ACCOUNT

(TRANSFER OF FUNDS)

The conference agreement includes language authorizing the Department to use $8,000,000 from within existing fiscal year 2001 appropriations for FHA administrative expenses and HUD salaries and expenses to pay the obligation and accrued interest resulting from a probable fiscal year 2000 violation of the Anti-Deficiency Act, as proposed in both the House and Senate bills.

FHA—GENERAL AND SPECIAL RISK INSURANCE

The conference agreement does not include an additional appropriation for this account as proposed in the House bill. Language is not included to remove certain requirements on supplemental funds provided for this account in fiscal year 2000 as proposed in the Senate bill.
INDEPENDENT AGENCIES

DEPARTMENT OF DEFENSE—CIVIL

CEMETERIAL EXPENSES, ARMY

salaries and expenses

The conferees have amended the language included in the House bill providing $243,059 to pay the Cemetery’s disputed water bill with the District of Columbia. Instead, the conferees have included a provision directing the Department of Defense to pay the disputed water bill in excess of the amount already paid by the Cemetery, and reimburse the Cemetery for any draw-down on funds made by the Treasury in excess of the Cemetery’s current payment.

ENVIRONMENTAL PROTECTION AGENCY

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

The conferees have amended language proposed by the House which clarifies the intent of Congress with respect to grants made for work in Cortland County, New York and Central New York watersheds. The language further clarifies the intent of Congress with respect to a grant made in Public Law 106–377 to the Salt Lake Organizing Committee for environmental work related to the 2002 Winter Olympic Games.

STATE AND TRIBAL ASSISTANCE GRANTS

The conferees have included language proposed by the House and the Senate clarifying the intent of Congress with respect to a grant made to the City of Beloit, Wisconsin. The conferees have similarly included language proposed by the House which clarifies the intent of Congress with respect to grants made to Hartselle Utilities in Alabama and to the Southwest Florida Water Management District, and which correctly states the dollar amount provided in fiscal year 2001 for grants under this heading.

The conferees have amended language proposed by the House which clarifies the intent of Congress with respect to grants made to the Limestone County Water and Sewer Authority in Alabama, and to the City of Clinton, Tennessee.

FEDERAL EMERGENCY MANAGEMENT AGENCY

DISASTER RELIEF

The conferees agree to make no changes to the FEMA Disaster Relief account for fiscal year 2001. The House had proposed a rescission of $389,200,000 and the Senate had proposed an increase of $1,000,000 for this account. The conferees agree that recent significant natural disasters, including tropical storm Allison, have severely depleted funds previously provided for disaster relief. The conferees note that the status of the disaster relief fund today is quite different from the status at the time the House originally proposed its rescission. At that time over $2,000,000,000 was available, but today only about $800,000,000 is available. With signifi-
cant costs yet to be covered, it is clear that rescinding funds from this account is not any longer possible. Likewise, it is not clear that an eminent need exists for additional funding and the conferees have agreed to provide no additional funding in fiscal year 2001.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
HUMAN SPACE FLIGHT

The conferees have agreed to changes in language enacted as part of Public Law 106–74 (the Fiscal Year 2000 VA-HUD-Independent Agencies Appropriations Act) as proposed by the Senate instead of the changes proposed by the House. The final proviso under this heading in Public Law 106–74 restricts the use of $40,000,000 to the shuttle research mission, commonly referred to as the R–2 mission, to occur after the STS–107 shuttle research mission. Subsequent events have increased the cost of STS–107 and significantly delayed any future research mission, resulting in a need to modify the original proviso prior to the funds expiring on September 30, 2001. The House had proposed deletion of the final proviso under this heading in Public Law 106–74, thus allowing the funds to be used for other purposes. The House provision also included language restricting a portion of the funds to research associated with the International Space Station. The Senate proposed to modify the proviso to allow the funds to be used for purposes other than originally intended and does not include any reference to the International Space Station research.

The conferees agree that the original direction included in the proviso is no longer valid. The conferees agree that $32,000,000–35,000,000 of the funds provided in the original proviso remain available. The conferees agree that $17,000,000 of the funds shall be to cover cost increases associated with the STS–107 mission which have already been incurred and the funding can be legitimately expended prior to September 30, 2001. The mission’s costs have increased because its launch has been delayed due to the need for extensive repairs to the shuttle Columbia’s wiring and schedule changes associated with the Hubble servicing mission. The remaining funds shall be used prior to September 30, 2001 for any projects or activities NASA deems to be in legitimate need of funding. The conferees further agree that NASA is to take all necessary action to ensure that the STS–107 research mission is accomplished and contractual obligations are met during fiscal years 2001 and 2002. NASA is directed to provide the Committees on Appropriations a full accounting of the use of the fiscal year 2000 funding and the subsequent fiscal year accounting adjustments to reflect full funding of the STS–107 mission prior to its launch currently scheduled for May 2002.

The conferees understand work is already underway and international partners are involved in research scheduled for R2 and therefore expect NASA to continue to pursue options for carrying out this life and microgravity research as well as work to increase research funding and flight opportunities during ISS assembly.
GENERAL PROVISION

The conference agreement does not include section 2901, recommended in the House bill, as this matter has been addressed under the Community development fund account as recommended in the Senate bill.

TITLE III

GENERAL PROVISIONS—THIS ACT

The conference agreement includes a provision as proposed by both the House and Senate that limits the availability of funds provided in this Act.

The conference agreement deletes a provision proposed by the House relating to the Buy American Act. The Senate bill contained no similar provision.

The conference agreement includes an appropriation of $1,700,000 for the United States-China Security Review Commission, as proposed by the Senate. The House bill contained no similar provision.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2001 recommended by the Committee of Conference, with comparisons to the fiscal year 2001 budget estimates, and the House and Senate bills for 2001 follow:

| Budget estimates of new (obligational) authority, fiscal year 2001 | $7,480,187 |
