*“(6) improving and strengthening accountability, teaching, and learning by using State assessment systems designed to ensure that students are meeting challenging State academic achievement and content standards and increasing achievement overall, but especially for the disadvantaged;*

“(8) providing children an enriched and accelerated educational program, including the use of schoolwide programs or additional services that increase the amount and quality of instructional time;

“(9) promoting schoolwide reform and ensuring the access of children to effective, scientifically based instructional strategies and challenging academic content;

“(B) integrated with other funds awarded by the State under this Act; and

“(C) renewable for 2 additional 1-year periods if schools are meeting the goals in their school improvement plans developed under section 1116.

“(6) *PRIORITY.*—The State, in awarding such grants, shall give priority to local educational agencies with the lowest-achieving schools that demonstrate—

“(A) the greatest need for such funds; and

“(B) the strongest commitment to ensuring that such funds are used to provide adequate resources to enable the lowest-achieving schools to meet the goals under school and local educational agency improvement, corrective action, and restructuring plans under section 1116.

“(7) *ALLOCATION.*—A State educational agency that receives a grant under this subsection shall allocate at least 95 percent of the grant funds directly to local educational agencies for schools identified for school improvement, corrective action, or restructuring to carry out activities under section 1116(b), or may, with the approval of the local educational agency, directly provide for these activities or arrange for their provision through other entities such as school support teams or educational service agencies.

“(8) *ADMINISTRATIVE COSTS.*—A State educational agency that receives a grant award under this subsection may reserve not more than 5 percent of such grant funds for administration, evaluation, and technical assistance expenses.

“(9) *LOCAL AWARDS.*—Each local educational agency that applies for assistance under this subsection shall describe how it will provide the lowest-achieving schools the resources necessary to meet goals under school and local educational agency improvement, corrective action, and restructuring plans under section 1116.

**“SEC. 1004. STATE ADMINISTRATION.**

“(a) *IN GENERAL.*—Except as provided in subsection (b), to carry out administrative duties assigned under parts A, C, and D of this title, each State may reserve the greater of—

“(1) 1 percent of the amounts received under such parts; or

“(2) \$400,000 (\$50,000 in the case of each outlying area).

“(b) *EXCEPTION.*—If the sum of the amounts appropriated for parts A, C, and D of this title is equal to or greater than \$14,000,000,000, then the reservation described in subsection (a)(1) shall not exceed 1 percent of the amount the State would receive, if \$14,000,000,000 were allocated among the States for parts A, C, and D of this title.

**“PART A—IMPROVING BASIC PROGRAMS OPERATED BY  
LOCAL EDUCATIONAL AGENCIES**

**“Subpart 1—Basic Program Requirements**

**“SEC. 1111. STATE PLANS.**

**“(a) PLANS REQUIRED.—**

**“(1) IN GENERAL.—**Any State desiring to receive a grant under this part shall submit to the Secretary a plan, developed in consultation with local educational agencies, teachers, principals, pupil services personnel, administrators (including administrators of programs described in other parts of this title), other staff, and parents, that satisfies the requirements of this section and that is coordinated with other programs under this Act, the Individuals with Disabilities Education Act, the Carl D. Perkins Vocational and Technical Education Act of 1998, the Head Start Act, the Adult Education and Family Literacy Act, and the McKinney-Vento Homeless Assistance Act.

**“(2) CONSOLIDATED PLAN.—**A State plan submitted under paragraph (1) may be submitted as part of a consolidated plan under section 9302.

**“(b) ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS, AND ACCOUNTABILITY.—**

**“(1) CHALLENGING ACADEMIC STANDARDS.—**

**“(A) IN GENERAL.—**Each State plan shall demonstrate that the State has adopted challenging academic content standards and challenging student academic achievement standards that will be used by the State, its local educational agencies, and its schools to carry out this part, except that a State shall not be required to submit such standards to the Secretary.

**“(B) SAME STANDARDS.—**The academic standards required by subparagraph (A) shall be the same academic standards that the State applies to all schools and children in the State.

**“(C) SUBJECTS.—**The State shall have such academic standards for all public elementary school and secondary school children, including children served under this part, in subjects determined by the State, but including at least mathematics, reading or language arts, and (beginning in the 2005–2006 school year) science, which shall include the same knowledge, skills, and levels of achievement expected of all children.

**“(D) CHALLENGING ACADEMIC STANDARDS.—**Standards under this paragraph shall include—

**“(i) challenging academic content standards in academic subjects that—**

**“(I) specify what children are expected to know and be able to do;**

**“(II) contain coherent and rigorous content; and**

**“(III) encourage the teaching of advanced skills; and**

**“(ii) challenging student academic achievement standards that—**

“(I) are aligned with the State’s academic content standards;

“(II) describe 2 levels of high achievement (proficient and advanced) that determine how well children are mastering the material in the State academic content standards; and

“(III) describe a third level of achievement (basic) to provide complete information about the progress of the lower-achieving children toward mastering the proficient and advanced levels of achievement.

“(E) INFORMATION.—For the subjects in which students will be served under this part, but for which a State is not required by subparagraphs (A), (B), and (C) to develop, and has not otherwise developed, such academic standards, the State plan shall describe a strategy for ensuring that students are taught the same knowledge and skills in such subjects and held to the same expectations as are all children.

“(F) EXISTING STANDARDS.—Nothing in this part shall prohibit a State from revising, consistent with this section, any standard adopted under this part before or after the date of enactment of the No Child Left Behind Act of 2001.

“(2) ACCOUNTABILITY.—

“(A) IN GENERAL.—Each State plan shall demonstrate that the State has developed and is implementing a single, statewide State accountability system that will be effective in ensuring that all local educational agencies, public elementary schools, and public secondary schools make adequate yearly progress as defined under this paragraph. Each State accountability system shall—

“(i) be based on the academic standards and academic assessments adopted under paragraphs (1) and (3), and other academic indicators consistent with subparagraph (C)(vi) and (vii), and shall take into account the achievement of all public elementary school and secondary school students;

“(ii) be the same accountability system the State uses for all public elementary schools and secondary schools or all local educational agencies in the State, except that public elementary schools, secondary schools, and local educational agencies not participating under this part are not subject to the requirements of section 1116; and

“(iii) include sanctions and rewards, such as bonuses and recognition, the State will use to hold local educational agencies and public elementary schools and secondary schools accountable for student achievement and for ensuring that they make adequate yearly progress in accordance with the State’s definition under subparagraphs (B) and (C).

“(B) ADEQUATE YEARLY PROGRESS.—Each State plan shall demonstrate, based on academic assessments described in paragraph (3), and in accordance with this paragraph, what constitutes adequate yearly progress of the

State, and of all public elementary schools, secondary schools, and local educational agencies in the State, toward enabling all public elementary school and secondary school students to meet the State's student academic achievement standards, while working toward the goal of narrowing the achievement gaps in the State, local educational agencies, and schools.

“(C) *DEFINITION.*—‘Adequate yearly progress’ shall be defined by the State in a manner that—

“(i) applies the same high standards of academic achievement to all public elementary school and secondary school students in the State;

“(ii) is statistically valid and reliable;

“(iii) results in continuous and substantial academic improvement for all students;

“(iv) measures the progress of public elementary schools, secondary schools and local educational agencies and the State based primarily on the academic assessments described in paragraph (3);

“(v) includes separate measurable annual objectives for continuous and substantial improvement for each of the following:

“(I) The achievement of all public elementary school and secondary school students.

“(II) The achievement of—

“(aa) economically disadvantaged students;

“(bb) students from major racial and ethnic groups;

“(cc) students with disabilities; and

“(dd) students with limited English proficiency;

except that disaggregation of data under subclause (II) shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student;

“(vi) in accordance with subparagraph (D), includes graduation rates for public secondary school students and at least 1 other academic indicator, as determined by the State for all public elementary school students; and

“(vii) in accordance with subparagraph (D), at the State's discretion, may also include other academic indicators, as determined by the State for all public school students, measured separately for each group described in clause (v), such as achievement on additional State or locally administered assessments, decreases in grade-to-grade retention rates, attendance rates, and changes in the percentages of students completing gifted and talented, advanced placement, and college preparatory courses.

“(D) *REQUIREMENTS FOR OTHER INDICATORS.*—In carrying out subparagraph (C)(vi) and (vii), the State—

“(i) shall ensure that the indicators described in those provisions are valid and reliable, and are consistent with relevant, nationally recognized professional and technical standards, if any; and

“(ii) except as provided in subparagraph (I)(i), may not use those indicators to reduce the number of, or change, the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 1116 if those additional indicators were not used, but may use them to identify additional schools for school improvement or in need of corrective action or restructuring.

“(E) *STARTING POINT.*—Each State, using data for the 2001–2002 school year, shall establish the starting point for measuring, under subparagraphs (G) and (H), the percentage of students meeting or exceeding the State’s proficient level of academic achievement on the State assessments under paragraph (3) and pursuant to the timeline described in subparagraph (F). The starting point shall be, at a minimum, based on the higher of the percentage of students at the proficient level who are in—

“(i) the State’s lowest achieving group of students described in subparagraph (C)(v)(II); or

“(ii) the school at the 20th percentile in the State, based on enrollment, among all schools ranked by the percentage of students at the proficient level.

“(F) *TIMELINE.*—Each State shall establish a timeline for adequate yearly progress. The timeline shall ensure that not later than 12 years after the end of the 2001–2002 school year, all students in each group described in subparagraph (C)(v) will meet or exceed the State’s proficient level of academic achievement on the State assessments under paragraph (3).

“(G) *MEASURABLE OBJECTIVES.*—Each State shall establish statewide annual measurable objectives, pursuant to subparagraph (C)(v), for meeting the requirements of this paragraph, and which—

“(i) shall be set separately for the assessments of mathematics and reading or language arts under subsection (a)(3);

“(ii) shall be the same for all schools and local educational agencies in the State;

“(iii) shall identify a single minimum percentage of students who are required to meet or exceed the proficient level on the academic assessments that applies separately to each group of students described in subparagraph (C)(v);

“(iv) shall ensure that all students will meet or exceed the State’s proficient level of academic achievement on the State assessments within the State’s timeline under subparagraph (F); and

“(v) may be the same for more than 1 year, subject to the requirements of subparagraph (H).

“(H) *INTERMEDIATE GOALS FOR ANNUAL YEARLY PROGRESS.*—Each State shall establish intermediate goals

for meeting the requirements, including the measurable objectives in subparagraph (G), of this paragraph and that shall—

“(i) increase in equal increments over the period covered by the State’s timeline under subparagraph (F);

“(ii) provide for the first increase to occur in not more than two years; and

“(iii) provide for each following increase to occur in not more than three years.

“(I) ANNUAL IMPROVEMENT FOR SCHOOLS.—Each year, for a school to make adequate yearly progress under this paragraph—

“(i) each group of students described in subparagraph (C)(v) must meet or exceed the objectives set by the State under subparagraph (G), except that if any group described in subparagraph (C)(v) does not meet those objectives in any particular year, the school shall be considered to have made adequate yearly progress if the percentage of students in that group who did not meet or exceed the proficient level of academic achievement on the State assessments under paragraph (3) for that year decreased by 10 percent of that percentage from the preceding school year and that group made progress on one or more of the academic indicators described in subparagraph (C)(vi) or (vii); and

“(ii) not less than 95 percent of each group of students described in subparagraph (C)(v) who are enrolled in the school are required to take the assessments, consistent with paragraph (3)(C)(xi) and with accommodations, guidelines, and alternative assessments provided in the same manner as those provided under section 612(a)(17)(A) of the Individuals with Disabilities Education Act and paragraph (3), on which adequate yearly progress is based (except that the 95 percent requirement described in this clause shall not apply in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student).

“(J) UNIFORM AVERAGING PROCEDURE.—For the purpose of determining whether schools are making adequate yearly progress, the State may establish a uniform procedure for averaging data which includes one or more of the following:

“(i) The State may average data from the school year for which the determination is made with data from one or two school years immediately preceding that school year.

“(ii) Until the assessments described in paragraph (3) are administered in such manner and time to allow for the implementation of the uniform procedure for averaging data described in clause (i), the State may use the academic assessments that were required under paragraph (3) as that paragraph was in effect on the day preceding the date of enactment of the No Child

*Left Behind Act of 2001, provided that nothing in this clause shall be construed to undermine or delay the determination of adequate yearly progress, the requirements of section 1116, or the implementation of assessments under this section.*

*“(iii) The State may use data across grades in a school.*

**“(3) ACADEMIC ASSESSMENTS.—**

*“(A) IN GENERAL.—Each State plan shall demonstrate that the State, in consultation with local educational agencies, has implemented a set of high-quality, yearly student academic assessments that include, at a minimum, academic assessments in mathematics, reading or language arts, and science that will be used as the primary means of determining the yearly performance of the State and of each local educational agency and school in the State in enabling all children to meet the State’s challenging student academic achievement standards, except that no State shall be required to meet the requirements of this part relating to science assessments until the beginning of the 2007–2008 school year.*

*“(B) USE OF ASSESSMENTS.—Each State may incorporate the data from the assessments under this paragraph into a State-developed longitudinal data system that links student test scores, length of enrollment, and graduation records over time.*

*“(C) REQUIREMENTS.—Such assessments shall—*

*“(i) be the same academic assessments used to measure the achievement of all children;*

*“(ii) be aligned with the State’s challenging academic content and student academic achievement standards, and provide coherent information about student attainment of such standards;*

*“(iii) be used for purposes for which such assessments are valid and reliable, and be consistent with relevant, nationally recognized professional and technical standards;*

*“(iv) be used only if the State provides to the Secretary evidence from the test publisher or other relevant sources that the assessments used are of adequate technical quality for each purpose required under this Act and are consistent with the requirements of this section, and such evidence is made public by the Secretary upon request;*

*“(v)(I) except as otherwise provided for grades 3 through 8 under clause vii, measure the proficiency of students in, at a minimum, mathematics and reading or language arts, and be administered not less than once during—*

*“(aa) grades 3 through 5;*

*“(bb) grades 6 through 9; and*

*“(cc) grades 10 through 12;*

*“(II) beginning not later than school year 2007–2008, measure the proficiency of all students in science and be administered not less than one time during—*

*“(aa) grades 3 through 5;*

*“(bb) grades 6 through 9; and*

*“(cc) grades 10 through 12;*

*“(vi) involve multiple up-to-date measures of student academic achievement, including measures that assess higher-order thinking skills and understanding;*

*“(vii) beginning not later than school year 2005–2006, measure the achievement of students against the challenging State academic content and student academic achievement standards in each of grades 3 through 8 in, at a minimum, mathematics, and reading or language arts, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of the academic assessments by that deadline and that the State will complete implementation within the additional 1-year period;*

*“(viii) at the discretion of the State, measure the proficiency of students in academic subjects not described in clauses (v), (vi), (vii) in which the State has adopted challenging academic content and academic achievement standards;*

*“(ix) provide for—*

*“(I) the participation in such assessments of all students;*

*“(II) the reasonable adaptations and accommodations for students with disabilities (as defined under section 602(3) of the Individuals with Disabilities Education Act) necessary to measure the academic achievement of such students relative to State academic content and State student academic achievement standards; and*

*“(III) the inclusion of limited English proficient students, who shall be assessed in a valid and reliable manner and provided reasonable accommodations on assessments administered to such students under this paragraph, including, to the extent practicable, assessments in the language and form most likely to yield accurate data on what such students know and can do in academic content areas, until such students have achieved English language proficiency as determined under paragraph (7);*

*“(x) notwithstanding subclause (III), the academic assessment (using tests written in English) of reading or language arts of any student who has attended school in the United States (not including Puerto Rico) for 3 or more consecutive school years, except that if the local educational agency determines, on a case-by-case individual basis, that academic assessments in another language or form would likely yield more accurate and reliable information on what such student knows and*

can do, the local educational agency may make a determination to assess such student in the appropriate language other than English for a period that does not exceed 2 additional consecutive years, provided that such student has not yet reached a level of English language proficiency sufficient to yield valid and reliable information on what such student knows and can do on tests (written in English) of reading or language arts;

“(xi) include students who have attended schools in a local educational agency for a full academic year but have not attended a single school for a full academic year, except that the performance of students who have attended more than 1 school in the local educational agency in any academic year shall be used only in determining the progress of the local educational agency;

“(xii) produce individual student interpretive, descriptive, and diagnostic reports, consistent with clause (iii) that allow parents, teachers, and principals to understand and address the specific academic needs of students, and include information regarding achievement on academic assessments aligned with State academic achievement standards, and that are provided to parents, teachers, and principals, as soon as is practicably possible after the assessment is given, in an understandable and uniform format, and to the extent practicable, in a language that parents can understand;

“(xiii) enable results to be disaggregated within each State, local educational agency, and school by gender, by each major racial and ethnic group, by English proficiency status, by migrant status, by students with disabilities as compared to nondisabled students, and by economically disadvantaged students as compared to students who are not economically disadvantaged, except that, in the case of a local educational agency or a school, such disaggregation shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student;

“(xiv) be consistent with widely accepted professional testing standards, objectively measure academic achievement, knowledge, and skills, and be tests that do not evaluate or assess personal or family beliefs and attitudes, or publicly disclose personally identifiable information; and

“(xv) enable itemized score analyses to be produced and reported, consistent with clause (iii), to local educational agencies and schools, so that parents, teachers, principals, and administrators can interpret and address the specific academic needs of students as indicated by the students’ achievement on assessment items.

*“(D) DEFERRAL.—A State may defer the commencement, or suspend the administration, but not cease the development, of the assessments described in this paragraph, that were not required prior to the date of enactment of the No Child Left Behind Act of 2001, for 1 year for each year for which the amount appropriated for grants under section 6204(c) is less than—*

*“(i) \$370,000,000 for fiscal year 2002;*

*“(ii) \$380,000,000 for fiscal year 2003;*

*“(iii) \$390,000,000 for fiscal year 2004; and*

*“(iv) \$400,000,000 for fiscal years 2005 through 2007.*

*“(4) SPECIAL RULE.—Academic assessment measures in addition to those in paragraph (3) that do not meet the requirements of such paragraph may be included in the assessment under paragraph (3) as additional measures, but may not be used in lieu of the academic assessments required under paragraph (3). Such additional assessment measures may not be used to reduce the number of or change, the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 1116 if such additional indicators were not used, but may be used to identify additional schools for school improvement or in need of corrective action or restructuring except as provided in paragraph (2)(i)(I).*

*“(5) STATE AUTHORITY.—If a State educational agency provides evidence, which is satisfactory to the Secretary, that neither the State educational agency nor any other State government official, agency, or entity has sufficient authority, under State law, to adopt curriculum content and student academic achievement standards, and academic assessments aligned with such academic standards, which will be applicable to all students enrolled in the State’s public elementary schools and secondary schools, then the State educational agency may meet the requirements of this subsection by—*

*“(A) adopting academic standards and academic assessments that meet the requirements of this subsection, on a statewide basis, and limiting their applicability to students served under this part; or*

*“(B) adopting and implementing policies that ensure that each local educational agency in the State that receives grants under this part will adopt curriculum content and student academic achievement standards, and academic assessments aligned with such standards, which—*

*“(i) meet all of the criteria in this subsection and any regulations regarding such standards and assessments that the Secretary may publish; and*

*“(ii) are applicable to all students served by each such local educational agency.*

*“(6) LANGUAGE ASSESSMENTS.—Each State plan shall identify the languages other than English that are present in the participating student population and indicate the languages for which yearly student academic assessments are not available and are needed. The State shall make every effort to develop such assessments and may request assistance from the Secretary if linguistically accessible academic assessment measures*

are needed. Upon request, the Secretary shall assist with the identification of appropriate academic assessment measures in the needed languages, but shall not mandate a specific academic assessment or mode of instruction.

“(7) **ACADEMIC ASSESSMENTS OF ENGLISH LANGUAGE PROFICIENCY.**—Each State plan shall demonstrate that local educational agencies in the State will, beginning not later than school year 2002–2003, provide for an annual assessment of English proficiency (measuring students’ oral language, reading, and writing skills in English) of all students with limited English proficiency in the schools served by the State, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of this paragraph by that deadline and that the State will complete implementation within the additional 1-year period.

“(8) **REQUIREMENT.**—Each State plan shall describe—

“(A) how the State educational agency will assist each local educational agency and school affected by the State plan to develop the capacity to comply with each of the requirements of sections 1112(c)(1)(D), 1114(b), and 1115(c) that is applicable to such agency or school;

“(B) how the State educational agency will assist each local educational agency and school affected by the State plan to provide additional educational assistance to individual students assessed as needing help to achieve the State’s challenging academic achievement standards;

“(C) the specific steps the State educational agency will take to ensure that both schoolwide programs and targeted assistance schools provide instruction by highly qualified instructional staff as required by sections 1114(b)(1)(C) and 1115(c)(1)(E), including steps that the State educational agency will take to ensure that poor and minority children are not taught at higher rates than other children by inexperienced, unqualified, or out-of-field teachers, and the measures that the State educational agency will use to evaluate and publicly report the progress of the State educational agency with respect to such steps;

“(D) an assurance that the State educational agency will assist local educational agencies in developing or identifying high-quality effective curricula aligned with State academic achievement standards and how the State educational agency will disseminate such curricula to each local educational agency and school within the State; and

“(E) such other factors the State determines appropriate to provide students an opportunity to achieve the knowledge and skills described in the challenging academic content standards adopted by the State.

“(9) **FACTORS AFFECTING STUDENT ACHIEVEMENT.**—Each State plan shall include an assurance that the State will coordinate and collaborate, to the extent feasible and necessary as determined by the State, with agencies providing services to children, youth, and families, with respect to local educational

agencies within the State that are identified under section 1116 and that request assistance with addressing major factors that have significantly affected the academic achievement of students in the local educational agency or schools served by such agency.

“(10) *USE OF ACADEMIC ASSESSMENT RESULTS TO IMPROVE STUDENT ACADEMIC ACHIEVEMENT.*—Each State plan shall describe how the State will ensure that the results of the State assessments described in paragraph (3)—

“(A) will be promptly provided to local educational agencies, schools, and teachers in a manner that is clear and easy to understand, but not later than before the beginning of the next school year; and

“(B) be used by those local educational agencies, schools, and teachers to improve the educational achievement of individual students.

“(c) *OTHER PROVISIONS TO SUPPORT TEACHING AND LEARNING.*—Each State plan shall contain assurances that—

“(1) the State will meet the requirements of subsection (h)(1) and, beginning with the 2002–2003 school year, will produce the annual State report cards described in such subsection, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of this paragraph by that deadline and that the State will complete implementation within the additional 1-year period;

“(2) the State will, beginning in school year 2002–2003, participate in biennial State academic assessments of 4th and 8th grade reading and mathematics under the National Assessment of Educational Progress carried out under section 411(b)(2) of the National Education Statistics Act of 1994 if the Secretary pays the costs of administering such assessments;

“(3) the State educational agency, in consultation with the Governor, will include, as a component of the State plan, a plan to carry out the responsibilities of the State under sections 1116 and 1117, including carrying out the State educational agency’s statewide system of technical assistance and support for local educational agencies;

“(4) the State educational agency will work with other agencies, including educational service agencies or other local consortia, and institutions to provide technical assistance to local educational agencies and schools, including technical assistance in providing professional development under section 1119, technical assistance under section 1117, and technical assistance relating to parental involvement under section 1118;

“(5)(A) where educational service agencies exist, the State educational agency will consider providing professional development and technical assistance through such agencies; and

“(B) where educational service agencies do not exist, the State educational agency will consider providing professional development and technical assistance through other cooperative agreements such as through a consortium of local educational agencies;

“(6) the State educational agency will notify local educational agencies and the public of the content and student academic achievement standards and academic assessments developed under this section, and of the authority to operate schoolwide programs, and will fulfill the State educational agency’s responsibilities regarding local educational agency improvement and school improvement under section 1116, including such corrective actions as are necessary;

“(7) the State educational agency will provide the least restrictive and burdensome regulations for local educational agencies and individual schools participating in a program assisted under this part;

“(8) the State educational agency will inform the Secretary and the public of how Federal laws, if at all, hinder the ability of States to hold local educational agencies and schools accountable for student academic achievement;

“(9) the State educational agency will encourage schools to consolidate funds from other Federal, State, and local sources for schoolwide reform in schoolwide programs under section 1114;

“(10) the State educational agency will modify or eliminate State fiscal and accounting barriers so that schools can easily consolidate funds from other Federal, State, and local sources for schoolwide programs under section 1114;

“(11) the State educational agency has involved the committee of practitioners established under section 1903(b) in developing the plan and monitoring its implementation;

“(12) the State educational agency will inform local educational agencies in the State of the local educational agency’s authority to transfer funds under title VI, to obtain waivers under part D of title IX, and, if the State is an Ed-Flex Partnership State, to obtain waivers under the Education Flexibility Partnership Act of 1999;

“(13) the State will coordinate activities funded under this part with other Federal activities as appropriate; and

“(14) the State educational agency will encourage local educational agencies and individual schools participating in a program assisted under this part to offer family literacy services (using funds under this part), if the agency or school determines that a substantial number of students served under this part by the agency or school have parents who do not have a secondary school diploma or its recognized equivalent or who have low levels of literacy.

“(d) PARENTAL INVOLVEMENT.—Each State plan shall describe how the State will support the collection and dissemination to local educational agencies and schools of effective parental involvement practices. Such practices shall—

“(1) be based on the most current research that meets the highest professional and technical standards, on effective parental involvement that fosters achievement to high standards for all children; and

“(2) be geared toward lowering barriers to greater participation by parents in school planning, review, and improvement experienced.

“(e) PEER REVIEW AND SECRETARIAL APPROVAL.—

*“(1) SECRETARIAL DUTIES.—The Secretary shall—*

*“(A) establish a peer-review process to assist in the review of State plans;*

*“(B) appoint individuals to the peer-review process who are representative of parents, teachers, State educational agencies, and local educational agencies, and who are familiar with educational standards, assessments, accountability, the needs of low-performing schools, and other educational needs of students;*

*“(C) approve a State plan within 120 days of its submission unless the Secretary determines that the plan does not meet the requirements of this section;*

*“(D) if the Secretary determines that the State plan does not meet the requirements of subsection (a), (b), or (c), immediately notify the State of such determination and the reasons for such determination;*

*“(E) not decline to approve a State’s plan before—*

*“(i) offering the State an opportunity to revise its plan;*

*“(ii) providing technical assistance in order to assist the State to meet the requirements of subsections (a), (b), and (c); and*

*“(iii) providing a hearing; and*

*“(F) have the authority to disapprove a State plan for not meeting the requirements of this part, but shall not have the authority to require a State, as a condition of approval of the State plan, to include in, or delete from, such plan one or more specific elements of the State’s academic content standards or to use specific academic assessment instruments or items.*

*“(2) STATE REVISIONS.—A State shall revise its State plan if necessary to satisfy the requirements of this section.*

*“(f) DURATION OF THE PLAN.—*

*“(1) IN GENERAL.—Each State plan shall—*

*“(A) remain in effect for the duration of the State’s participation under this part; and*

*“(B) be periodically reviewed and revised by the State, as necessary, to reflect changes in the State’s strategies and programs under this part.*

*“(2) ADDITIONAL INFORMATION.—If the State makes significant changes to its State plan, such as the adoption of new State academic content standards and State student achievement standards, new academic assessments, or a new definition of adequate yearly progress, the State shall submit such information to the Secretary.*

*“(g) PENALTIES.—*

*“(1) FAILURE TO MEET DEADLINES ENACTED IN 1994.—*

*“(A) IN GENERAL.—If a State fails to meet the deadlines established by the Improving America’s Schools Act of 1994 (or under any waiver granted by the Secretary or under any compliance agreement with the Secretary) for demonstrating that the State has in place challenging academic content standards and student achievement standards, and a system for measuring and monitoring adequate yearly progress, the Secretary shall withhold 25 percent of the*

*funds that would otherwise be available to the State for State administration and activities under this part in each year until the Secretary determines that the State meets those requirements.*

*“(B) NO EXTENSION.—Notwithstanding any other provision of law, 90 days after the date of enactment of the No Child Left Behind Act of 2001 the Secretary shall not grant any additional waivers of, or enter into any additional compliance agreements to extend, the deadlines described in subparagraph (A) for any State.*

*“(2) FAILURE TO MEET REQUIREMENTS ENACTED IN 2001.—If a State fails to meet any of the requirements of this section, other than the requirements described in paragraph (1), then the Secretary may withhold funds for State administration under this part until the Secretary determines that the State has fulfilled those requirements.*

*“(h) REPORTS.—*

*“(1) ANNUAL STATE REPORT CARD.—*

**“(b) ADJUSTMENTS WHERE NECESSITATED BY APPROPRIATIONS.—**

*“(1) IN GENERAL.—If the sums available under this subpart for any fiscal year are insufficient to pay the full amounts that all local educational agencies in States are eligible to receive under sections 1124, 1124A, and 1125 for such year, the Secretary shall ratably reduce the allocations to such local educational agencies, subject to subsections (c) and (d) of this section.*

**“(c) HOLD-HARMLESS AMOUNTS.—**

*“(1) AMOUNTS FOR SECTIONS 1124, 1124A, AND 1125.—For each fiscal year, the amount made available to each local educational agency under each of sections 1124, 1124A, and 1125 shall be—*

eligibility criteria for 4 consecutive years shall no longer be eligible to receive a hold harmless amount referred to in paragraph (1).

“(3) **APPLICABILITY.**—Notwithstanding any other provision of law, the Secretary shall not take into consideration the hold-harmless provisions of this subsection for any fiscal year for purposes of calculating State or local allocations for the fiscal year under any program administered by the Secretary other than a program authorized under this part.

“(4) **POPULATION DATA.**—For any fiscal year for which the Secretary calculates grants on the basis of population data for counties, the Secretary shall apply the hold-harmless percentages in paragraphs (1) and (2) to counties and, if the Secretary’s allocation for a county is not sufficient to meet the hold-harmless requirements of this subsection for every local educational agency within that county, the State educational agency shall reallocate funds proportionately from all other local educational agencies in the State that are receiving funds in excess of the hold-harmless amounts specified in this subsection.

“(d) **RATABLE REDUCTIONS.**—

“(1) **IN GENERAL.**—If the sums made available under this subpart for any fiscal year are insufficient to pay the full amounts that local educational agencies in all States are eligible to receive under subsection (c) for such year, the Secretary shall ratably reduce such amounts for such year.

“(a) **AMOUNT OF GRANTS.**—

“(1) **GRANTS FOR LOCAL EDUCATIONAL AGENCIES AND PUERTO RICO.**—Except as provided in paragraph (4) and in section 1126, the grant that a local educational agency is eligible to receive under this section for a fiscal year is the amount determined by multiplying—

“(A) the number of children counted under subsection (c); and

“(B) 40 percent of the average per-pupil expenditure in the State, except that the amount determined under this subparagraph shall not be less than 32 percent, or more than 48 percent, of the average per-pupil expenditure in the United States.

“(2) **CALCULATION OF GRANTS.**—

“(A) **ALLOCATIONS TO LOCAL EDUCATIONAL AGENCIES.**—The Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) for local educational agencies, unless the Secretary and the Secretary of Commerce determine that some or all of those data are unreliable or that their use would be otherwise inappropriate, in which case—

*“(i) the 2 Secretaries shall publicly disclose the reasons for their determination in detail; and*

*“(ii) paragraph (3) shall apply.*

**“(B) ALLOCATIONS TO LARGE AND SMALL LOCAL EDUCATIONAL AGENCIES.—**

*“(i) For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section for each local educational agency.*

*“(ii) The amount of a grant under this section for each large local educational agency shall be the amount determined under clause (i).*

*“(iii) For small local educational agencies, the State educational agency may either—*

*“(I) distribute grants under this section in amounts determined by the Secretary under clause (i); or*

*“(II) use an alternative method approved by the Secretary to distribute the portion of the State’s total grants under this section that is based on those small agencies.*

*“(iv) An alternative method under clause (iii)(II) shall be based on population data that the State educational agency determines best reflect the current distribution of children in poor families among the State’s small local educational agencies that meet the eligibility criteria of subsection (b).*

*“(v) If a small local educational agency is dissatisfied with the determination of its grant by the State educational agency under clause (iii)(II), it may appeal that determination to the Secretary, who shall respond not later than 45 days after receipt of such appeal.*

*“(vi) As used in this subparagraph—*

*“(I) the term “large local educational agency” means a local educational agency serving an area with a total population of 20,000 or more; and*

**“(3) ALLOCATIONS TO COUNTIES.—**

**“(A) CALCULATION.—***For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations issued by the Secretary.*

**“(B) DIRECT ALLOCATIONS.—***In any State in which a large number of local educational agencies overlap county boundaries, or for which the State believes it has data that would better target funds than allocating them by county, the State educational agency may apply to the Secretary for authority to make the allocations under this subpart for a particular fiscal year directly to local educational agencies without regard to counties.*

*“(C) ALLOCATIONS TO LOCAL EDUCATIONAL AGENCIES.—If the Secretary approves the State educational agency’s application under subparagraph (B), the State educational agency shall provide the Secretary an assurance that such allocations shall be made—*

*“(i) using precisely the same factors for determining a grant as are used under this subpart; or*

*“(ii) using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.*

*“(D) APPEAL.—The State educational agency shall provide the Secretary an assurance that it will establish a procedure through which a local educational agency that is dissatisfied with its determinations under subparagraph (B) may appeal directly to the Secretary for a final determination.*

*“(4) PUERTO RICO.—*

*“(A) IN GENERAL.—For each fiscal year, the grant that the Commonwealth of Puerto Rico shall be eligible to receive under this section shall be the amount determined by multiplying the number of children counted under subsection (c) for the Commonwealth of Puerto Rico by the product of—*

*“(i) subject to subparagraph (B), the percentage that the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and*

*“(ii) 32 percent of the average per-pupil expenditure in the United States.*

*“(B) MINIMUM PERCENTAGE.—The percentage in subparagraph (A)(i) shall not be less than—*

*“(i) for fiscal year 2002, 77.5 percent;*

*“(ii) for fiscal year 2003, 80.0 percent;*

*“(iii) for fiscal year 2004, 82.5 percent;*

*“(iv) for fiscal year 2005, 85.0 percent;*

*“(v) for fiscal year 2006, 92.5 percent; and*

*“(vi) for fiscal year 2007 and succeeding fiscal years, 100.0 percent.*

*“(C) LIMITATION.—If the application of subparagraph (B) would result in any of the 50 States or the District of Columbia receiving less under this subpart than it received under this subpart for the preceding fiscal year, the percentage in subparagraph (A) shall be the greater of—*

*“(i) the percentage in subparagraph (A)(i);*

*“(ii) the percentage specified in subparagraph (B) for the preceding fiscal year; or*

*“(iii) the percentage used for the preceding fiscal year.*

*“(b) MINIMUM NUMBER OF CHILDREN TO QUALIFY.—A local educational agency is eligible for a basic grant under this section for any fiscal year only if the number of children counted under subsection (c) for that agency is both—*

*“(1) 10 or more; and*

*“(2) more than 2 percent of the total school-age population in the agency’s jurisdiction.*

“(c) CHILDREN TO BE COUNTED.—

“(1) CATEGORIES OF CHILDREN.—The number of children to be counted for purposes of this section is the aggregate of—

“(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2);

“(B) the number of children (determined under paragraph (4) for either the preceding year as described in that paragraph, or for the second preceding year, as the Secretary finds appropriate) aged 5 to 17, inclusive, in the school district of such agency in institutions for neglected and delinquent children (other than such institutions operated by the United States), but not counted pursuant to subpart 1 of part D for the purposes of a grant to a State agency, or being supported in foster homes with public funds; and

“(C) the number of children aged 5 to 17, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (4).

“(2) DETERMINATION OF NUMBER OF CHILDREN.—For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data, described in paragraph (3), available from the Department of Commerce. The District of Columbia and the Commonwealth of Puerto Rico shall be treated as individual local educational agencies. If a local educational agency contains 2 or more counties in their entirety, then each county will be treated as if such county were a separate local educational agency for purposes of calculating grants under this part. The total of grants for such counties shall be allocated to such a local educational agency, which local educational agency shall distribute to schools in each county within such agency a share of the local educational agency’s total grant that is no less than the county’s share of the population counts used to calculate the local educational agency’s grant.

“(3) POPULATION UPDATES.—

“(A) IN GENERAL.—In fiscal year 2002 and each subsequent fiscal year, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that the use of the updated population data would be inappropriate or unreliable. If appropriate and reliable data are not available annually, the Secretary shall use data which are updated every 2 years.

“(B) INAPPROPRIATE OR UNRELIABLE DATA.—If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in subparagraph (A) are inappropriate or unreliable, the Secretary and the Secretary of Commerce shall publicly disclose their reasons.

“(C) CRITERIA OF POVERTY.—In determining the families that are below the poverty level, the Secretary shall use

*the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census, as the criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.*

*“(4) OTHER CHILDREN TO BE COUNTED.—*

*“(A) For the purpose of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual income, in excess of the current criteria of poverty, from payments under a State program funded under part A of title IV of the Social Security Act; and in making such determinations, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census for a family of 4 in such form as those criteria have been updated by increases in the Consumer Price Index for all urban consumers, published by the Bureau of Labor Statistics.*

*“(B) The Secretary shall determine the number of such children and the number of children aged 5 through 17 living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary’s determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination.*

*“(C) Except for the data on children living in institutions for neglected or delinquent children, the Secretary of Health and Human Services shall collect and transmit the information required by this subparagraph to the Secretary not later than January 1 of each year.*

*“(D) For the purpose of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.*

*“(5) ESTIMATE.—When requested by the Secretary, the Secretary of Commerce shall make a special updated estimate of the number of children of such ages who are from families below the poverty level (as determined under paragraph (1)(A)) in each school district, and the Secretary is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information.*

*“(d) STATE MINIMUM.—Notwithstanding section 1122, the aggregate amount allotted for all local educational agencies within a State may not be less than the lesser of—*

“(1) 0.25 percent of the total amount allocated to States under this section for fiscal year 2001, plus 0.35 percent of the total amount allocated to States under this section in excess of the amount allocated for fiscal year 2001; or

“(2) the average of—

“(A) the amount calculated in paragraph (1), above; and

“(B) the number of children in such State counted under subsection (c) in the fiscal year multiplied by 150 percent of the national average per-pupil payment made with funds available under this section for that year.

“(ii) 15 percent of the total number of children aged 5 through 17 in the agency.

“(B) Notwithstanding section 1122, no State shall receive less than the lesser of—

“(i) 0.25 percent of the total amount allocated to States under this section for fiscal year 2001, plus 0.35 percent of the total amount allocated to States under this section in excess of the amount allocated for fiscal year 2001; or

“(ii) the average of—

“(I) the amount calculated under clause (i); and

“(II) the greater of—

“(aa) \$340,000; or

“(bb) the number of children in such State counted for purposes of this section in that fiscal year multiplied by 150 percent of the national average per-pupil payment made with funds available under this section for that year.

“(2) **DETERMINATION.—**For each county or local educational agency eligible to receive an additional grant under this section for any fiscal year, the Secretary shall determine the product of—

“(A) the number of children counted under section 1124(c) for that fiscal year; and

“(B) the amount in section 1124(a)(1)(B) for each State except the Commonwealth of Puerto Rico, and the amount in section 1124(a)(4) for the Commonwealth of Puerto Rico.

“(3) **AMOUNT.—**The amount of the additional grant for which an eligible local educational agency or county is eligible under this section for any fiscal year shall be an amount which bears the same ratio to the amount available to carry out this section for that fiscal year as the product determined under paragraph (2) for such local educational agency for that fiscal year bears to the sum of such products for all local educational agencies in the United States for that fiscal year.

“(4) LOCAL ALLOCATIONS.—(A) Grant amounts under this section shall be determined in accordance with section 1124(a)(2), (3) and (4).

“(B) For any fiscal year for which the Secretary allocates funds under this section on the basis of counties, a State may reserve not more than 2 percent of its allocation under this section to make grants to local educational agencies that meet the criteria of paragraph (1)(A)(i) or (ii) and are in ineligible counties that do not meet these criteria.

“(b) SMALL STATES.—In any State for which on the date of enactment of the No Child Left Behind Act of 2001 the number of children counted under Section 1124(c) is less than 0.25 percent of the number of those children counted for all States, the State educational agency shall allocate funds under this section among the local educational agencies in the State either—

“(1) in accordance with paragraphs (2) and (4) of subsection (a); or

“(2) based on their respective concentrations and numbers of children counted under section 1124(c), except that only those local educational agencies with concentrations or numbers of children counted under section 1124(c) that exceed the statewide average percentage of such children or the statewide average number of such children shall receive any funds on the basis of this paragraph.

**“SEC. 1125. TARGETED GRANTS TO LOCAL EDUCATIONAL AGENCIES.**

“(a) ELIGIBILITY OF LOCAL EDUCATIONAL AGENCIES.—

“(1) IN GENERAL.—A local educational agency in a State is eligible to receive a targeted grant under this section for any fiscal year if—

“(A) the number of children in the local educational agency counted under section 1124(c), before application of the weighted child count described in subsection (c), is at least 10; and

“(B) if the number of children counted for grants under section 1124(c), before application of the weighted child count described in subsection (c), is at least 5 percent of the total number of children aged 5 to 17 years, inclusive, in the school district of the local educational agency.

“(2) SPECIAL RULE.—For any fiscal year for which the Secretary allocates funds under this section on the basis of counties, funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

**“SEC. 1125AA. ADEQUACY OF FUNDING OF TARGETED GRANTS TO LOCAL EDUCATIONAL AGENCIES IN FISCAL YEARS AFTER FISCAL YEAR 2001.**

“(a) *FINDINGS.*—Congress makes the following findings:

“(1) The current Basic Grant Formula for the distribution of funds under this part often does not provide funds for the economically disadvantaged students for which such funds are targeted.

“(2) Any school district in which more than 2 percent of the students live below the poverty level qualifies for funding under the Basic Grant Formula. As a result, 9 out of every 10 school districts in the country receive some form of aid under the Formula.

“(3) 58 percent of all schools receive at least some funding under this part, including many suburban schools with predominantly well-off students.

“(4) 1 out of every 5 schools with concentrations of poor students between 50 and 75 percent receive no funding at all under this part.

“(5) In passing the Improving America’s Schools Act in 1994, Congress declared that grants under this part would more sharply target high poverty schools by using the Targeted Grant Formula, but annual appropriation Acts have prevented the use of that Formula.

“(6) The advantage of the Targeted Grant Formula over other funding formulas under this part is that the Targeted Grant Formula provides increased grants per poor child as the percentage of economically disadvantaged children in a school district increases.

“(7) Studies have found that the poverty of a child’s family is much more likely to be associated with educational disadvantage if the family lives in an area with large concentrations of poor families.

“(8) States with large populations of high poverty students would receive significantly more funding if more funds under this part were allocated through the Targeted Grant Formula.

“(9) Congress has an obligation to allocate funds under this part so that such funds will positively affect the largest number of economically disadvantaged students.

“(b) *LIMITATION ON ALLOCATION OF TITLE I FUNDS CONTINGENT ON ADEQUATE FUNDING OF TARGETED GRANTS.*—Pursuant to section 1122, the total amount allocated in any fiscal year after fiscal year 2001 for programs and activities under this part shall not exceed the amount allocated in fiscal year 2001 for such programs and activities unless the amount available for targeted grants to local educational agencies under section 1125 in the applicable fiscal year meets the requirements of section 1122(a).

“(iii) children living in sparsely populated areas.

“(B) REVIEW OF CRITERIA.—The Secretary shall review criteria submitted by a State educational agency for adjusting allocations under paragraph (1) and shall approve such criteria only if the Secretary determines that such criteria are reasonably calculated to produce an adjusted allocation that reflects the relative needs of the State’s local edu-

ational agencies based on the factors set forth in subparagraph (A).

“(d) PAYMENT OF ALLOCATIONS.—

“(1) DISTRIBUTION.—From the funds paid to a State educational agency under this subpart for a fiscal year, the State educational agency shall distribute to each eligible local educational agency that has submitted an application as required by section 5133 the amount of such local educational agency’s allocation, as determined under subsection (a).

“(2) ADDITIONAL FUNDS.—

“(3) Magnet schools offer a wide range of distinctive programs that have served as models for school improvement efforts.

“(4) It is in the best interests of the United States—

“(A) to continue the Federal Government’s support of local educational agencies that are implementing court-ordered desegregation plans and local educational agencies that are voluntarily seeking to foster meaningful interaction among students of different racial and ethnic backgrounds, beginning at the earliest stage of such students’ education;

“(B) to ensure that all students have equitable access to a high quality education that will prepare all students to function well in a technologically oriented and a highly

*competitive economy comprised of people from many different racial and ethnic backgrounds; and*

*“(C) to continue to desegregate and diversify schools by supporting magnet schools, recognizing that segregation exists between minority and nonminority students as well as among students of different minority groups.*

*“(4) courses of instruction within magnet schools that will substantially strengthen the knowledge of academic subjects and the attainment of tangible and marketable vocational, technological, and professional skills of students attending such schools;*

*“(5) improving the capacity of local educational agencies, including through professional development, to continue operating magnet schools at a high performance level after Federal funding for the magnet schools is terminated; and*

**“Subpart 12—Educational, Cultural, Apprenticeship, and Exchange Programs for Alaska Natives, Native Hawaiians, and Their Historical Whaling and Trading Partners in Massachusetts**

**“SEC. 5521. SHORT TITLE.**

“This subpart may be cited as the ‘Alaska Native and Native Hawaiian Education Through Cultural and Historical Organizations Act’.

**“SEC. 5522. FINDINGS AND PURPOSES.**

“(a) *FINDINGS.*—Congress finds the following:

“(1) Alaska Natives and Native Hawaiians have been linked for over 200 years to the coastal towns of Salem, Massachusetts, and New Bedford, Massachusetts, through the China trade from Salem and whaling voyages from New Bedford.

“(2) Nineteenth-century trading ships sailed from Salem, Massachusetts, around Cape Horn of South America, and up the Northwest coast of the United States to Alaska, where their crews traded with Alaska Native people for furs, and then went on to Hawaii to trade for sandalwood with Native Hawaiians before going on to China.

“(3) During the 19th century, over 2,000 whaling voyages sailed out of New Bedford, Massachusetts to the Arctic region of Alaska, and joined Alaska Natives from Barrow, Alaska and other areas in the Arctic region in subsistence whaling activities.

“(4) Many New Bedford whaling voyages continued on to Hawaii, where they joined Native Hawaiians from the neighboring islands.

“(5) From those commercial and whaling voyages, a rich cultural exchange and strong trading relationships developed among the three peoples involved.

“(6) In the past decades, awareness of the historical trading, cultural, and whaling links has faded among Alaska Natives, Native Hawaiians, and the people of the continental United States.

“(7) In 2000, the Alaska Native Heritage Center in Alaska, the Bishop Museum in Hawaii, and the Peabody-Essex Museum in Massachusetts initiated the New Trade Winds project to use 21st-century technology, including the Internet, to educate students and their parents about historic and contemporary cul-

*tural and trading ties that continue to link the diverse cultures of the peoples involved.*

*“(8) The New Bedford Whaling Museum, in partnership with the New Bedford Whaling National Historical Park, has developed a cultural exchange and educational program with the Inupiat Heritage Center in Barrow, Alaska to bring together the children, parents, and elders from the Arctic region of Alaska with children and families of Massachusetts to learn about their historical ties and about each other’s contemporary cultures.*

*“(9) Within the fast-growing cultural sector, meaningful educational and career opportunities based on traditional relationships exist for Alaska Natives, Native Hawaiians, and low-income youth in Massachusetts.*

*“(10) Cultural institutions can provide practical, culturally relevant, education-related internship and apprentice programs, such as the Museum Action Corps at the Peabody-Essex Museum and similar programs at the New Bedford Oceanarium and other institutions, to prepare youths and their families for careers in the cultural sector.*

*“(11) The resources of the institutions described in paragraphs (7) and (8) provide unique opportunities for illustrating and interpreting the contributions of Alaska Natives, Native Hawaiians, the whaling industry, and the China trade to the economic, social, and environmental history of the United States, for educating students and their parents, and for providing opportunities for internships and apprenticeships leading to careers with cultural institutions.*

*“(b) PURPOSES.—The purposes of this subpart are the following:*

*“(1) To authorize and develop innovative culturally-based educational programs and cultural exchanges to assist Alaska Natives, Native Hawaiians, and children and families of Massachusetts linked by history and tradition to Alaska and Hawaii to learn about shared culture and traditions.*

*“(2) To authorize and develop internship and apprentice programs to assist Alaska Natives, Native Hawaiians, and children and families of Massachusetts linked by history and tradition with Alaska and Hawaii to prepare for careers with cultural institutions.*

*“(3) To supplement programs and authorities in the area of education to further the objectives of this subpart.*

*“(6) Other Alaska Native and Native Hawaiian cultural and educational organizations.*

“(7) Cultural and educational organizations with experience in developing or operating programs that illustrate and interpret the contributions of Alaska Natives, Native Hawaiians, the whaling industry, and the China trade to the economic, social, and environmental history of the United States.

“(8) Consortia of the organizations and entities described in this subsection.

“(b) *USES OF FUNDS.*—Activities provided through programs carried out under this subpart may include one or more of the following:

“(1) Development and implementation of educational programs to increase understanding of cultural diversity and multicultural communication among Alaska Natives, Native Hawaiians, and the people of the continental United States, based on historic patterns of trading and commerce.

“(2) Development and implementation of programs using modern technology, including the Internet, to educate students, their parents, and teachers about historic and contemporary cultural and trading ties that continue to link the diverse cultures of Alaska Natives, Native Hawaiians, and the people of Massachusetts.

“(3) Cultural exchanges of elders, students, parents, and teachers among Alaska Natives, Native Hawaiians, and the people of Massachusetts to increase awareness of diverse cultures among each group.

“(A) *IN GENERAL.*—The Secretary may waive the requirement of paragraph (1) for a local educational agency, for not more than 1 year at a time, if the Secretary determines that the failure to comply with such requirement is due to exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the agency’s financial resources.

“(B) *FUTURE DETERMINATIONS.*—The Secretary shall not use the reduced amount of the agency’s expenditures for the fiscal year preceding the fiscal year for which a waiver is granted to determine compliance with paragraph (1) for any succeeding fiscal year, but shall use the amount of expenditures that would have been required to comply with paragraph (1) in the absence of the waiver.

“(d) *REALLOCATIONS.*—The Secretary may reallocate, in a manner that the Secretary determines will best carry out the purpose of this subpart, any amounts that—

**“PART B—NATIVE HAWAIIAN EDUCATION****“SEC. 7201. SHORT TITLE.**

*“This part may be cited as the ‘Native Hawaiian Education Act’.*

**“SEC. 7202. FINDINGS.**

*“Congress finds the following:*

*“(1) Native Hawaiians are a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago, whose society was organized as a nation and internationally recognized as a nation by the United States, Britain, France, and Japan, as evidenced by treaties governing friendship, commerce, and navigation.*

*“(2) At the time of the arrival of the first nonindigenous people in Hawai‘i in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient subsistence social system based on a communal land tenure system with a sophisticated language, culture, and religion.*

*“(3) A unified monarchical government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawai‘i.*

*“(4) From 1826 until 1893, the United States recognized the sovereignty and independence of the Kingdom of Hawai‘i, which was established in 1810 under Kamehameha I, extended full and complete diplomatic recognition to the Kingdom of Hawai‘i, and entered into treaties and conventions with the Kingdom of Hawai‘i to govern friendship, commerce and navigation in 1826, 1842, 1849, 1875, and 1887.*

*“(5) In 1893, the sovereign, independent, internationally recognized, and indigenous government of Hawai‘i, the Kingdom of Hawai‘i, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative, and armed naval forces of the United States. Because of the participation of United States agents and citizens in the overthrow of the Kingdom of Hawai‘i, in 1993 the United States apologized to Native Hawaiians for the overthrow and the deprivation of the rights of Native Hawaiians to self-determination through Public Law 103–150 (107 Stat. 1510).*

*“(6) In 1898, the joint resolution entitled ‘Joint Resolution to provide for annexing the Hawaiian Islands to the United States’, approved July 7, 1898 (30 Stat. 750), ceded absolute title of all lands held by the Republic of Hawai‘i, including the government and crown lands of the former Kingdom of Hawai‘i, to the United States, but mandated that revenue generated from the lands be used ‘solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes’.*

*“(7) By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,600, and in recognition of this severe decline, Congress enacted the Hawaiian Homes Commission Act, 1920 (42 Stat. 108), which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.*

*“(8) Through the enactment of the Hawaiian Homes Commission Act, 1920, Congress affirmed the special relationship between the United States and the Native Hawaiians, which was described by then Secretary of the Interior Franklin K. Lane, who said: ‘One thing that impressed me . . . was the fact that the natives of the island who are our wards, I should say,*

*and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty.’*

*“(9) In 1938, Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781, chapter 530; 16 U.S.C. 391b, 391b-1, 392b, 392c, 396, 396a), a provision to lease lands within the National Parks extension to Native Hawaiians and to permit fishing in the area ‘only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance.’*

*“(10) Under the Act entitled ‘An Act to provide for the admission of the State of Hawai‘i into the Union’, approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawai‘i but reaffirmed the trust relationship between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges and amendments to such Act affecting the rights of beneficiaries under such Act.*

*“(11) In 1959, under the Act entitled ‘An Act to provide for the admission of the State of Hawai‘i into the Union’, the United States also ceded to the State of Hawai‘i title to the public lands formerly held by the United States, but mandated that such lands be held by the State ‘in public trust’ and reaffirmed the special relationship that existed between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawai‘i for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.*

*“(12) The United States has recognized and reaffirmed that—*

*“(A) Native Hawaiians have a cultural, historic, and land-based link to the indigenous people who exercised sovereignty over the Hawaiian Islands, and that group has never relinquished its claims to sovereignty or its sovereign lands;*

*“(B) Congress does not extend services to Native Hawaiians because of their race, but because of their unique status as the indigenous people of a once sovereign nation as to whom the United States has established a trust relationship;*

*“(C) Congress has also delegated broad authority to administer a portion of the Federal trust responsibility to the State of Hawai‘i;*

*“(D) the political status of Native Hawaiians is comparable to that of American Indians and Alaska Natives; and*

*“(E) the aboriginal, indigenous people of the United States have—*

*“(i) a continuing right to autonomy in their internal affairs; and*

*“(ii) an ongoing right of self-determination and self-governance that has never been extinguished.*

*“(13) The political relationship between the United States and the Native Hawaiian people has been recognized and re-*

affirmed by the United States, as evidenced by the inclusion of Native Hawaiians in—

“(A) the Native American Programs Act of 1974 (42 U.S.C. 2991 *et seq.*);

“(B) the American Indian Religious Freedom Act (42 U.S.C. 1996);

“(C) the National Museum of the American Indian Act (20 U.S.C. 80q *et seq.*);

“(D) the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 *et seq.*);

“(E) the National Historic Preservation Act (16 U.S.C. 470 *et seq.*);

“(F) the Native American Languages Act (25 U.S.C. 2901 *et seq.*);

“(G) the American Indian, Alaska Native, and Native Hawaiian Culture and Art Development Act (20 U.S.C. 4401 *et seq.*);

“(H) the Workforce Investment Act of 1998 (29 U.S.C. 2801 *et seq.*); and

“(I) the Older Americans Act of 1965 (42 U.S.C. 3001 *et seq.*).

“(14) In 1981, Congress instructed the Office of Education to submit to Congress a comprehensive report on Native Hawaiian education. The report, entitled the ‘Native Hawaiian Educational Assessment Project’, was released in 1983 and documented that Native Hawaiians scored below parity with regard to national norms on standardized achievement tests, were disproportionately represented in many negative social and physical statistics indicative of special educational needs, and had educational needs that were related to their unique cultural situation, such as different learning styles and low self-image.

“(15) In recognition of the educational needs of Native Hawaiians, in 1988, Congress enacted title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (102 Stat. 130) to authorize and develop supplemental educational programs to address the unique conditions of Native Hawaiians.

“(16) In 1993, the Kamehameha Schools Bishop Estate released a 10-year update of findings of the Native Hawaiian Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still existed for Native Hawaiians. Subsequent reports by the Kamehameha Schools Bishop Estate and other organizations have generally confirmed those findings. For example—

“(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including—

“(i) late or no prenatal care;

“(ii) high rates of births by Native Hawaiian women who are unmarried; and

“(iii) high rates of births to teenage parents;

*“(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;*

*“(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;*

*“(D) both public and private schools continue to show a pattern of lower percentages of Native Hawaiian students in the uppermost achievement levels and in gifted and talented programs;*

*“(E) Native Hawaiian students continue to be over-represented among students qualifying for special education programs provided to students with learning disabilities, mild mental retardation, emotional impairment, and other such disabilities;*

*“(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed 4 or more years of college;*

*“(G) Native Hawaiians continue to be disproportionately represented in many negative social and physical statistics indicative of special educational needs, as demonstrated by the fact that—*

*“(i) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;*

*“(ii) Native Hawaiian students have the highest rates of drug and alcohol use in the State of Hawai‘i; and*

*“(iii) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect; and*

*“(H) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawai‘i Department of Education, and there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.*

*“(17) In the 1998 National Assessment of Educational Progress, Hawaiian fourth-graders ranked 39th among groups of students from 39 States in reading. Given that Hawaiian students rank among the lowest groups of students nationally in reading, and that Native Hawaiian students rank the lowest among Hawaiian students in reading, it is imperative that greater focus be placed on beginning reading and early education and literacy in Hawai‘i.*

*“(18) The findings described in paragraphs (16) and (17) are inconsistent with the high rates of literacy and integration of traditional culture and Western education historically achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.*

*“(19) Following the overthrow of the Kingdom of Hawai‘i in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period of Hawai‘i, and until 1986, use of the Hawaiian language as an instructional medium in education in public schools was de-*

clared unlawful. The declaration caused incalculable harm to a culture that placed a very high value on the power of language, as exemplified in the traditional saying: ‘I ka ‘ōlelo nō ke ola; I ka ‘ōlelo nō ka make. In the language rests life; In the language rests death.’

“(20) Despite the consequences of over 100 years of non-indigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their ancestral territory and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

“(21) The State of Hawai‘i, in the constitution and statutes of the State of Hawai‘i—

“(A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, and language;

“(B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawai‘i, which may be used as the language of instruction for all subjects and grades in the public school system; and

“(C) promotes the study of the Hawaiian culture, language, and history by providing a Hawaiian education program and using community expertise as a suitable and essential means to further the program.

### **“PART C—ALASKA NATIVE EDUCATION**

#### **“SEC. 7301. SHORT TITLE.**

*“This part may be cited as the ‘Alaska Native Educational Equity, Support, and Assistance Act’.*

#### **“SEC. 7302. FINDINGS.**

*“Congress finds and declares the following:*

*“(1) The attainment of educational success is critical to the betterment of the conditions, long-term well-being, and preservation of the culture of Alaska Natives.*

*“(2) It is the policy of the Federal Government to encourage the maximum participation by Alaska Natives in the planning and the management of Alaska Native education programs.*

*“(3) Alaska Native children enter and exit school with serious educational handicaps.*

*“(4) The educational achievement of Alaska Native children is far below national norms. Native performance on standardized tests is low, Native student dropout rates are high, and Natives are significantly underrepresented among holders of baccalaureate degrees in the State of Alaska. As a result, Native students are being denied their opportunity to become full participants in society by grade school and high school educations that are condemning an entire generation to an underclass status and a life of limited choices.*

*“(5) The programs authorized in this part, combined with expanded Head Start, infant learning, and early childhood education programs, and parent education programs, are essential if educational handicaps are to be overcome.*

*“(6) The sheer magnitude of the geographic barriers to be overcome in delivering educational services in rural Alaska and Alaska villages should be addressed through the development*

and implementation of innovative, model programs in a variety of areas.

“(7) Native children should be afforded the opportunity to begin their formal education on a par with their non-Native peers. The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

#### **SEC. 1032. EDUCATION FOR HOMELESS CHILDREN AND YOUTHS.**

Subtitle B of title VII of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11431 et seq.) is amended to read as follows:

### **“Subtitle B—Education for Homeless Children and Youths**

#### **“SEC. 721. STATEMENT OF POLICY.**

“The following is the policy of the Congress:

“(1) Each State educational agency shall ensure that each child of a homeless individual and each homeless youth has equal access to the same free, appropriate public education, in-

cluding a public preschool education, as provided to other children and youths.

“(2) In any State that has a compulsory residency requirement as a component of the State’s compulsory school attendance laws or other laws, regulations, practices, or policies that may act as a barrier to the enrollment, attendance, or success in school of homeless children and youths, the State will review and undertake steps to revise such laws, regulations, practices, or policies to ensure that homeless children and youths are afforded the same free, appropriate public education as provided to other children and youths.

“(3) Homelessness alone is not sufficient reason to separate students from the mainstream school environment.

“(4) Homeless children and youths should have access to the education and other services that such children and youths need to ensure that such children and youths have an opportunity to meet the same challenging State student academic achievement standards to which all students are held.

**“SEC. 722. GRANTS FOR STATE AND LOCAL ACTIVITIES FOR THE EDUCATION OF HOMELESS CHILDREN AND YOUTHS.**

“(a) **GENERAL AUTHORITY.**—The Secretary is authorized to make grants to States in accordance with the provisions of this section to enable such States to carry out the activities described in subsections (d) through (g).

“(i) \$150,000;

“(ii)  $\frac{1}{4}$  of 1 percent of the amount appropriated under section 726 for that year; or

“(iii) the amount such State received under this section for fiscal year 2001.

“(B) If there are insufficient funds in a fiscal year to allot to each State the minimum amount under subparagraph (A), the Secretary shall ratably reduce the allotments to all States based on the proportionate share that each State received under this subsection for the preceding fiscal year.

“(2) **RESERVATIONS.**—(A) The Secretary is authorized to reserve 0.1 percent of the amount appropriated for each fiscal year under section 726 to be allocated by the Secretary among the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, according

“(B)(i) The Secretary shall transfer 1 percent of the amount appropriated for each fiscal year under section 726 to the Department of the Interior for programs for Indian students served by schools funded by the Secretary of the Interior, as determined under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), that are consistent with the purposes of the programs described in this subtitle.

“(ii) the need for special staffing, transportation, or educational programs;

“(iii) food and housing costs;

“(iv) maintenance and repair costs associated with the physical condition of the educational facilities;

“(B) Considers a school with an enrollment of less than 50 eligible Indian students as having an average daily attendance of 50 eligible Indian students for purposes of implementing the adjustment factor for small schools.

“(C) Takes into account the provision of residential services on less than a 9-month basis at a school when the school board and supervisor of the school determine that a less than 9-month basis will be implemented for the school year involved.

“(D) Uses a weighted unit of 2.0 for each eligible Indian student that—

“(i) is gifted and talented; and

“(ii) is enrolled in the school on a full-time basis, in considering the number of eligible Indian students served by the school.

“(E) Uses a weighted unit of 0.25 for each eligible Indian student who is enrolled in a year-long credit course in an Indian or Native language as part of the regular curriculum of a school, in considering the number of eligible Indian students served by such school. The adjustment required under this subparagraph shall be used for such school after—

“(i) the certification of the Indian or Native language curriculum by the school board of such school to the Secretary, together with an estimate of the number of full-time students expected to be enrolled in the curriculum in the second school year for which the certification is made; and

“(C) the student is a dependent of a Bureau, Indian Health Service, or tribal government employee who lives on or near the school site; or

## JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill, (H.R. 1), to close the achievement gap with accountability, flexibility, and choice, so that no child is left behind, submit the following joint statement to the House and the Senate in explanation of the effect to the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck all of the text of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to all of the amendment of the Senate with an amendment that is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clerical changes.

### **Title I, Part A, Subpart 2 (Formula)**

**\*\*Note:** The side-by-sides were numbered wrong, so these notes have been re-numbered. To correlate these notes with your side-by-side, add 15 to the side-by-side note number to get these re-numbered notes.

501. The House bill and the Senate amendment are substantially the same with exception of technical differences.

#### **LC**

502. Both bills provide assistance to the outlying areas. The Senate amendment, but not the House bill, provides assistance to the outlying areas in accordance with such criteria as the Secretary determines will best carry out the purpose of this part.

#### **LC—conform to note 504.**

503. The House bill and the Senate amendment are substantially the same except the Senate amendment clarifies that grants are specifically to local educational agencies.

#### **HR**

504. Both the House bill and the Senate amendment authorize a competition for grants. The House bill authorizes the competition for FY2002 and FY2003, while the Senate amendment authorizes the competition for FY2002 and each of the 6 succeeding fiscal years. The House bill and the Senate amendment have two different ways of referring to the \$5 million reserved for the Freely Associated States. The Senate amendment authorizes the Secretary to reserve \$5 million for the competitive grants from funds under subsection (a)(1), for the Freely Associated States. The House bill, but not the Senate amendment, caps the reservation at the level

reserved for the Freely Associated States in FY1999, which was \$5 million. The House bill directs the Secretary to make competitive grant awards pursuant to the recommendations of the Pacific Region Educational Laboratory while the Senate amendment allows the Secretary to award grants “taking into consideration” the recommendations of the Pacific Region Educational Laboratory. The House bill provides for competitive grants to outlying areas and Freely Associated States while the Senate amendment includes only the Freely Associated States.

**HR with amendment to strike “For fiscal year 2002, and each of the 6 succeeding fiscal years” and insert “Until an agreement for the extension of United States education assistance under the Compact of Free Association for each appropriate outlying area enters into effect after the date of enactment of this Act.**

505. The Senate amendment, but not the House bill, provides that funds may only be used for specified purposes under this paragraph.

**HR with an amendment to insert “that assist all students with meeting challenging State academic content standards” after “to provide direct educational services” in (ii).**

506. The House bill and the Senate amendment both permit the Secretary to provide 5 percent of the amount reserved for grants under this paragraph to the Pacific Region Educational Laboratory for pay for administrative costs. There are minor technical differences in wording.

**SR**

507. The House bill, but not the Senate amendment, includes a special rule whereby, consolidation authority under P.L. 95-134 does not apply with respect to these funds.

**SR**

508. The House bill, but not the Senate amendment, includes definitions of “Freely Associated States” and “Outlying Area” for purposes of subsection (a) and (b). See also note 29 in Title VIII’s General Provisions regarding definitions of these words. See also note 507 following.

**LC—conform and put in Title VIII**

509. The House bill and the Senate amendment are identical, except the House bill uses the word “allotted” while the Senate amendment uses the word “reserved.”

**SR**

510. The House bill and the Senate amendment are identical, except the House bill uses the word “allotted” while the Senate amendment uses the word “reserved.”

**SR**

511. The House bill and the Senate amendment are substantially the same, except the House bill refers to FY2002–FY2006 while the Senate amendment refers to FY2002–FY2008. The House bill refers to amounts “equal to” the amount appropriated to carry out section 1124 while the Senate amendment refers to amounts “less than or equal to” the amount appropriated to carry out section 1124. In effect, the House bill and Senate amendment are the same, as long as appropriations are at or above the FY2001 level.

**SR with an amendment to strike “2006” and insert “2007”.**

512. The Senate amendment refers to amounts appropriated that are not used under paragraph (1) while the House bill does not have a similar clause.

**SR**

513. The House bill allocates funds under section 1125 according to the extent to which the amount appropriated under 1002(a) for the current fiscal year exceeds the amount appropriated for fiscal year 2001. The Senate amendment allocates funds in accordance with section 1125 for which a determination is made that funds are not used to carry out paragraphs (1) and (2). In effect, the House bill and Senate amendment are the same.

**SR**

514. The House bill and Senate amendment have identical provisions on ratable reductions.

**LC**

515. The House bill includes a hold harmless provision for sections 1124 and 1125 together, with a separate provision for section 1124A. The Senate amendment includes a hold harmless for sections 1124, 1124A and 1125 as one provision. The House bill provides for basic and targeted grants a hold harmless of 95 percent, 90 percent and 85 percent based on ranges of percentages of poor children in LEAs, while the Senate amendment provides, for basic, concentration, and targeted grants, a hold harmless based on the greater of 100% of what a district received for 2001 or the amount the district would have received under the statutory formula without applying any hold harmless. Under the House bill, the hold harmless provisions apply separately to each formula, as opposed to being applied to total grants under all three formulas. The Senate amendment applies to the FY2001 grant amount for each year, not to the previous year’s grant amount, as in the House bill.

**SR**

516. The House bill, but not the Senate amendment provides for an 85 percent hold harmless for section 1124A (concentration) grants. Compare to Senate provision above.

**SR with an amendment—apply according to district poverty level a sliding scale hold harmless of 85 percent to 95 percent of previous year’s grant to basic, concentration, and targeted formulas, separately.**

517. The House bill, but not the Senate amendment, provides a special rule regarding ineligible LEAs with respect to grants under section 1124A. See also the “Special Rules” under subsection (c)(2) of the Senate bill for minimum eligibility criteria.

**SR**

518. The Senate amendment, but not the House bill, prohibits the Secretary from taking into account the hold harmless for purposes of calculating State or local allocations for any other program that relies on Part A allocations.

**HR**

519. The House bill, and the Senate amendment contain the same provision (see section 1122(c)(3) of the Senate amendment), which provides a special rule for addressing situations where allocations for counties are insufficient to meet the hold harmless re-

quirements for every local educational agency within that county. Under such circumstances, the State educational agency shall re-allocate funds from all other local educational agencies in the State that are receiving funds in excess of the hold harmless amounts.

**LC**

520. The Senate amendment, but not the House bill, requires the Secretary of Education to use updated population data published by the Department of Commerce for purposes of carrying out grants under section 1124, unless the Secretary of Education and the Secretary of Commerce determine the use of the updated population data would be inappropriate or unreliable. The Senate amendment also includes provisions relating to inappropriate or unreliable data, poverty criteria, authorizations of appropriations, special rules, and calculations based on population data for counties. The Senate amendment provides for the use of population updates annually, rather than every second year, as under the House bill.

**HR with an amendment to insert “annually” between “use” and “updated” in clause (i); Allow for biennial data usage when annually updated data in not available; strike clause (iv) AUTHORIZATION OF APPROPRIATIONS and subclauses (II) and (III) of clause (ii);**

**LC on Senate (3).**

**Report Language:**

**The Conferees strongly urge the Department of Education and the Department of Commerce to work collaboratively to produce annually updated data on the number of poor children as soon as possible, but not later than March 2003. The conferees believe it is imperative that the departments use annually updated data as produced by the Department of Commerce, as provided for in the Conference agreement. The Conferees recognize that additional resources will likely be necessary to produce annually updated data and therefore expect the Departments of Commerce and Education to submit budget requests that reflect the efforts that will be necessary to carry out this new responsibility.**

521. The House bill and the Senate amendment on ratable reductions are identical.

**LC**

522. The Senate amendment includes definitions for “Freely Associated States,” and “Outlying Areas,” for purposes of this subpart. The House bill, in note 493 above, includes definitions of “Freely Associated States” and “Outlying Areas.” See also note 29 in Title VIII (General Provisions) for definition of “Outlying Area.”

**LC**

523. The House bill and the Senate amendment both include definitions of the term “State.” The Senate amendment references the definition for purposes of this subpart while the House bill references applicability to section 1122, 1124, 1124A, and 1125.

**SR**

534. The House bill and Senate amendment have identical provisions relating to the minimum number of children to qualify for a basic grant.

See also section 1123 of the Senate amendment which defines “state” as the 50 states, the District of Columbia and Puerto Rico for purposes of subpart 2. Accordingly, the effect of the House bill and Senate amendment herein is the same.

10. The Senate amendment, but not the House bill, contains a more detailed statement of purpose and references challenging State content and performance standards. Both the House bill and the Senate amendment refer to “all children”. The Senate amendment, but not the House bill, describes the purpose of the title in the following nine paragraphs.

**HR/SR with amendment to insert:**

**“SEC. 1001. STATEMENT OF PURPOSE.**

“The purpose of this title is to ensure all children have a fair, equal and significant opportunity to obtain a high quality education and reach, at a minimum, proficiency on challenging state academic achievement standards and state academic assessments. This purpose can be accomplished by—

“(1) ensuring high quality academic assessments, accountability systems, teacher preparation and training, curriculum, and instructional materials are aligned with challenging State academic standards so that students, teachers, parents, and administrators can measure progress against common expectations for student academic achievement;

“(2) meeting the educational needs of low-achieving children in our Nation’s highest-poverty schools, limited English proficient children, migratory children, disabled children, Indian children, neglected or delinquent children, and young children in need of reading assistance;

“(3) closing the achievement gap between high and low performing children, especially the achievement gaps between minority and non-minority students, and between disadvantaged and their more advantaged peers;

“(4) holding schools, local educational agencies, and States accountable for improving the academic achievement of all students, and identifying and turning around low-performing schools that have failed to provide a high quality education to its students, while providing alternatives to students in such schools to enable them to receive a high quality education;

“(5) distributing and targeting resources sufficiently to make a difference to local educational agencies and schools where needs are greatest;

“(6) improving and strengthening accountability, teaching, and learning by using State assessment systems designed to ensure students are meeting challenging State academic achievement and content standards and increasing achievement overall, but especially for the disadvantaged;

“(7) providing greater decision making authority and flexibility to schools and teachers in exchange for greater responsibility for student performance;

“(8) providing children an enriched and accelerated educational program, including the use of schoolwide programs or additional services that increase the amount and quality of instructional time;

“(9) promoting schoolwide reform and ensuring access of children to effective, scientifically-based instructional strategies and challenging academic content;

“(10) significantly elevating the quality of instruction by providing staff in participating schools with substantial opportunities for professional development;

“(11) coordinating services under all parts of this title with each other, with other educational services, and to the extent feasible, with other agencies providing services to youth, children, and families;

“(12) affording parents substantial and meaningful opportunities to participate in the education of their children;”

11. The House bill, but not the Senate amendment, contains a subsection that describes the recognition of need by Congress. However, see notes 12 and 13.

**HR (see note 10)**

12. The Senate amendment contains a generally similar provision to the House bill regarding accountability in paragraph (8) of section 1001 of the Senate amendment.

**HR (see note 10)**

**HR (see note 10)**

14. The Senate amendment, but not the House bill, provides a short title for the LEA grants subsection.

**HR**

15. The House bill and the Senate amendment are substantially different. The Senate amendment authorizes greater annual appropriations than the House bill and extends the authorization schedule through 2011, while the House bill provides authorization levels through 2006.

**HR/SR with amendment to strike all and insert the following:**

- “(A) \$13,500,000,000 for fiscal year 2002;

**Report Language:**

The Conferees recognize that Title I grants to local educational agencies are essential to provide low-income students with the resources they need to meet challenging State academic achievement standards. The Conferees further recognize that to implement fully the reforms incorporated in the conference agreement, the local educational agencies will require increased Title I resources, for which reason the Conferees have agreed to significant and annual increases in Title I authorizations.

According to the Congressional Research Service, one common interpretation of the “full funding” theory for Title I, part A is based on the maximum payment calculations under the Basic Grant allocation formula, which is one of the four Title I, part A formulas. The Basic Grant formula establishes a maximum payment based on the number of low-income children (and other children that qualify for services under other Title I programs) multiplied by a State expenditure factor. The State expenditure factor for the Basic Grant formula is the State average expenditure per pupil in average daily attendance for public elementary and secondary education, within the range of 80% to 120% of the national average. The 80%–120% range means that if the State average expenditure per pupil is less than 80% of the national average, it is raised to 80%, and if it is above 120%, it is reduced to 120%. Under this theory, for fiscal year 2001, Congress provided local educational agencies with roughly 1/3 of “full funding.”

The Conferees also note there are other theories that might be used to determine “full funding” of Title I, part A, to ensure that the maximum number of low-income, low-achieving children receive direct educational assistance.

The Conferees wish to emphasize that the conference agreement provides for significantly increased and targeted funding for Title I, part A, and strongly encourage Congress to continue to significantly increase funding for Title I, part A. Such funding, in conjunction with the significant reforms in the conference agreement, is critical to helping schools close the achievement gap and low-income students achieve and succeed academically.”

16. The House bill and the Senate amendment authorize the same amount for FY 02 and such sums for the out years. The House bill and Senate amendment refer to the same program but have a technical difference in cross-references. Also, the Senate amendment authorizes such sums for the 6 succeeding fiscal years while the House bill authorizes such sums for the 4 succeeding fiscal years. The technical difference in cross-references and the difference in the number of years for which such sums are authorized beyond FY 02 are consistent throughout the remainder of the provisions authorizing appropriations for the various Title I programs.

**LC**

17. The House bill and the Senate amendment are substantially the same with the differences indicated in note 16 regarding cross-references and the number of years.

**LC**

18. The House bill and the Senate amendment contain different authorization levels for FY 02, but otherwise are substantially the same with the differences indicated in note 16 regarding cross-references and the number of years.

**LC**

19. The House bill authorizes such sums for FY 02 and the 4 succeeding fiscal years. The Senate amendment authorizes \$25 million for FY 02 and such sums for the 6 succeeding fiscal years.

**HR/SR with amendment to move RIF to FIE and to strike paragraph (4) and insert:**

29. The House bill does not contain a similar provision.

**HR with amendment to strike \$500,000,000 and insert \$125,000,000 and to insert as a new subsection:**

(#—LC) “ADVANCED PLACEMENT.—For the purpose of carrying out part H, there are authorized to be appropriated such sums as may be necessary for fiscal year 2002 and for each of the 5 succeeding fiscal years.”

30. The Senate amendment retains the State administration reservation of 1% of programs through a redesignation of Part F of current law, with significant differences between the House bill and the Senate amendment. The House bill limits State administration to 1% of the State’s allocation for FY 01, while the Senate amendment limits it to 1% of each fiscal year’s allocation. In addition, the House bill refers to “administrative duties assigned”, while the Senate amendment refers to “proper and efficient performance of its duties”. Otherwise, the Senate amendment does not contain the House bill provisions in paragraphs (2) and (3).

**SR with amendment to strike paragraphs (1) and (2) and insert:**

(1)(A) To carry out administrative duties assigned under parts A, C, and D of this title, each State may reserve the greater of—

(i) 1 percent of the amounts received under such parts;

or

(ii) \$400,000 (\$50,000 for each outlying area);

(B) If the sum of the amounts appropriated for parts A, C, and D of this title is equal to or greater than \$14,000,000,000, the reservation described in subparagraph (A)(i) shall not exceed 1 percent of the amount the State received, or would receive, if \$14,000,000,000 is allocated among the States for parts A, C, and D of this title.

31. The Senate amendment does not contain a similar provision.

**SR with amendment to insert as new paragraph (7) and renumber the subsequent paragraphs accordingly:**

“(7) A State educational agency that receives a grant award under this subsection shall allocate at least 95 percent of that amount directly to local educational agencies for schools identified for school improvement, corrective action, and restructuring for activities under section 1116(b), or may, with the approval of the local educational agency, directly provide for these activities or arrange for their provision through other entities such as school support teams or educational service agencies.”

32. The House bill requires the State to reserve 1% of the part A, subpart 2 amount for FY 02 and FY 03, and 3% of the part A, subpart 2 amount for FY 04 through FY 06. The Senate amendment requires the State to reserve 3.5% of the part A, subpart 2 amount for FY 02 and FY 03, and 5% of the part A, subpart 2 amount for FY 04 through FY 08. Otherwise the House bill and Senate amendment are similar.

**SR with amendment to strike “1 percent” and insert “2 percent” and to strike “3 percent” and insert “4 percent”.**

33. The House bill requires the State to allocate 95% of the funds reserved to those schools identified pursuant to section 1116(b) that have the greatest need and in sufficient amounts. The Senate amendment requires the State to allocate 50% of the funds reserved to those schools identified pursuant to section 1116(c). The House bill and the Senate amendment differ technically in the cross-references.

**SR with amendment to insert “for activities” after “restructuring” and strike all after “1116(b)” and insert “or may, with the approval of the local educational agency, directly provide for these activities or arrange for their provision through other entities such as school support teams or educational service agencies.”**

63. The Senate amendment contains two more groups than the House bill: “migrant students” and “students by gender”. However, see note 72 regarding the Senate amendment provision in subparagraph (D)(i)(II). In addition, the House bill, but not the Senate amendment, refers to “major” racial and ethnic groups. Also, see note 61 regarding the exception to the disaggregation of data.

However, see the Senate amendment provision in subparagraph (B)(vii) regarding high school completion and the exception regarding the inclusion of such factors not affecting school identification for school improvement or corrective action (under section 1116 of each piece of legislation). In addition, the House allows for these additional indicators to be discretionary, while the Senate amendment requires high school completion / graduation and one other factor as mandatory.

**SR with amendment to strike clause (v) and insert:**

“(v) at the State’s discretion, may also include other academic indicators such as achievement on additional State or local academic assessments, de-

creases in grade-to-grade retention rates, attendance rates, and changes in the percentages of students from the subgroups described in [(C)(v)(ii)] completing gifted and talented, advanced placement, and college preparatory courses, except the use of such indicators may not be used to reduce the number or change which schools would otherwise be subject to school improvement, corrective action, or restructuring under section 1116 if such additional indicators were not used, but may be used to identify additional schools for school improvement or in need of corrective action or restructuring.”

**And with amendment to add a special rule that these indicators and those referenced at note 67 shall be consistent with nationally recognized professional standards.**

However, there are several major differences: (1) The House bill, but not the Senate amendment, establishes a baseline year by which to establish the timeline, which is the first year after enactment; (2) The House bill, but not the Senate amendment, requires a target year to get all groups of students to proficiency that is not to exceed 12 years after the baseline year is established; (3) The Senate amendment, but not the House bill, requires all groups of students to obtain proficiency in 10 years or less after enactment; and (4) See note 50 regarding academic assessments.

69. The House bill does not contain a similar provision.

**SR with amendment to insert a significant progress exemption where the subgroup not meeting adequate yearly progress make a 10% reduction in the percentage of students in that subgroup who are not proficient and progress on one other academic indicator would allow a school to avoid being identified / to have met AYP.**

**HR with an amendment to strike subparagraph (H) and insert the following as a new subparagraph (H):**

“(H) The accountability provisions under this Act shall be overseen for charter schools in accordance with State charter school law.”

**Report Language:**

“Charter schools are public schools and therefore subject to the same accountability requirements of this Act as they apply to other public schools, including Sections 1111 and 1116, as developed in each state. However, there is no intent to replace or duplicate the role of authorized chartering agencies, as established under each state’s charter school law, in overseeing the Act’s accountability requirements for the charter schools that they authorize. Authorized chartering agencies should be held accountable for carrying out their oversight responsibilities as determined by each state through its charter school law and other applicable state laws. This should be done in ways that do not inhibit or discourage the approval or oversight of innovative, high quality charter schools.”

78. The House bill and the Senate amendment are similar with following exceptions: (1) The House bill, but not the Senate amendment, refers to the State implementing a set of assessments; (2) The Senate amendment, but not the House bill, refers to consultation with LEAs in the assessment plan; (3) The Senate amendment, but not the House bill, requires science assessments, but provides an exception that such assessments shall not be required until the 2007–2008 school year; (4) The House bill, but not the Senate amendment, refers to the yearly performance progress of the State; (5) The House bill, but not the Senate amendment, refers to “challenging” standards; and (6) See notes 40 and 50 regarding references to standards and assessments.

Insert before “Such assessments shall—” the following language:

“Each State may incorporate the data from these assessments into a state-developed longitudinal data system that

links student test scores, length of enrollment, and graduation records over time.”

**LC** regarding references to standards and assessments.

**Report Language:**

“The Conferees are aware of, and encouraged by, initiatives undertaken in some States to enable parents and others to compare the progress of students, classrooms and schools on a longitudinal basis. The Conferees wish to make clear that States may incorporate the data from the assessments required under this subsection into a state-developed longitudinal data system that links students’ test scores, length of enrollment, and graduation records over time. Such systems may enable policymakers, educators, and parents to better evaluate the success of schools by reporting on the achievement of students enrolled in the same school for at least three years.”

“The Conferees recognize that a quality science education should prepare students to distinguish the data and testable theories of science from religious or philosophical claims that are made in the name of science. Where topics are taught that may generate controversy (such as biological evolution), the curriculum should help students to understand the full range of scientific views that exist, why such topics may generate controversy, and how scientific discoveries can profoundly affect society.”

(The House bill contains a similar requirement for an assessment at least once in the grade span of 10–12 in at least mathematics and reading or language arts in paragraph (4)(E).) See notes 40 and 50 regarding references to standards and assessments. In addition, the House bill and the Senate amendment allow for a delay in assessment implementation with the following exceptions: (1) The House bill provides for a one-year delay after the 04–05 school year if the assessment will be implemented after that one-year delay, while the Senate amendment provides for the assessments to be delayed from the 05–06 school year to the 06–07 school year if the assessments will be implemented in the 06–07 school year.; and (2) The House bill refers to the financial resources of the State, while the Senate amendment refers to the financial resources of the LEA or school.

91. The House bill and the Senate amendment are similar with the following exceptions: (1) The House bill allows LEAs to determine if students should be assessed in the appropriate language (as opposed to English) and then assess such students in the appropriate language for one additional year; (2) The Senate amendment allows LEAs to demonstrate to the SEA if students should be assessed in the appropriate language (as opposed to English) and the SEA to permit such students to be assessed in the appropriate language for one or more additional years contingent upon the exception described.

**HR/SR with an amendment to strike clause (iv) and insert as a new clause (iv):**

92. The House bill and the Senate amendment are the same.

**LC**

93. The House bill and the Senate amendment are similar with the following exceptions: (1) The Senate amendment, but not the House bill, refers to “interpretive and descriptive reports”; (2) The Senate amendment, but not the House bill, refers to the parents of all students; (3) The House bill refers to assessment scores, while the Senate amendment refers to assessment “performance”; and (4) The Senate amendment, but not the House bill, includes a list of other measures that can be included on the reports.

**Report Language:**

“In providing for itemized score analysis, the Conferees intend for data to be presented in a format which parents, teachers and schools can understand. Providing parents, teachers and schools with clear and technology-viable access to both scores and scoring procedures is one of the best strategies to ensure that mistakes that do occur are both identified and corrected in an expedient manner. In developing their State academic assessment systems, States should also consider and address the issue of sufficient assessment transparency and accessibility in order to protect the ability of students, parents, teachers and school administrators to gain access to test results and testing methodologies.”

plementation of this paragraph by that deadline and that it will complete implementation within the additional 1-year period.”

**Report language:**

**“This Act requires each State to provide for annual English language proficiency assessments (covering speaking, listening, reading and writing skills) by the beginning of the 2002–2003 school year. The Conferees believe that additional scientifically-based research efforts must be made to develop better assessments to measure the progress of limited English proficient children in developing their English language proficiency, including speaking, listening, reading and writing skills. “(E) PERMISSIVE INFORMATION.—The State may include in its annual State report card such other information as the State believes will best provide parents, students, and other members of the public with information regarding the progress of each of the State’s public elemen-

The approach used to calculate graduation rates must also avoid counting drop-outs as transfers. States that have or could have a more accurate longitudinal system that follows individual student progress through high school may use that system if approved by the Secretary as part of the State’s Title I plan.**

(D) not disclose to the public the identity of any student eligible for, or receiving, supplemental services under this subsection without the written permission of the parents of the student.

(E) AGREEMENT.—In the case of the selection of a provider by a parent, the local educational agency shall enter into an agreement with such provider. Such agreement shall—

(i) require the local educational agency to develop, with parents (and the provider they have chosen), a statement of specific performance goals for the student, how the student's progress will be measured, and a timetable for improving achievement that, in the case of a student with disabilities, is consistent with the student's individualized education program under section 614(d) of the Individuals with Disabilities Education Act;

**HR/SR with amendment to strike language (see note 380)**

384. The House bill and the Senate amendment require each LEA required to provide supplemental services (see note 378) to notify parents of the availability of supplemental services, with the exception of some minor wording differences.

**HR/SR with amendment to strike language (see note 380)**

385. The House bill and the Senate amendment require the LEA to notify parents of the eligible supplemental service providers, with the exception that the Senate amendment, but not the House bill, requires notification to parents of those providers within the district or in neighboring districts.

390. The Senate amendment, but not the House bill, requires the child's parents to be informed of the child's progress on a regular basis (however, see House bill subparagraph (6)(A) regarding parental information required) (see note 400) and the supplemental services are consistent with a child's IEP under IDEA. Otherwise see note 381.

**HR/SR with amendment to strike language (see note 380)**

391. The House bill does not contain a similar provision.

**HR/SR with amendment to strike language (see note 380)**

**HR/SR with amendment to strike language (see note 380)**

394. The House bill and Senate amendment are generally similar in terms of requiring the SEA to develop criteria by which to judge the eligibility of supplemental service providers to participate. However, the Senate amendment, but not the House bill, adds the word "objective" before "criteria". In addition, the Senate amendment, but not the House bill, specifically references standards developed pursuant to section 1111 of Title I, while the House bill references these standards in paragraph (d)(1) and generally in subparagraph (d)(6)(B).

**HR/SR with amendment to strike language (see note 380)**

The Senate amendment, but not the House bill, requires the SEA to publicly report on the nature of the services offered by supplemental service providers. In addition, the Senate amendment, but not the House bill, refers to subparagraph (B) regarding standards. See note 394.

The House bill defines “per child allocation” in subparagraph (d)(10)(D). The Senate amendment, but not the House bill, establishes the maximum amount a LEA shall pay for supplemental services for each child receiving services as either the LEA’s Title I, part A, subpart 2 allocation divided by the number of low-income students in the district, or the actual cost of the services received, whichever is less.

(5) ANNUAL REPORT.—On an annual basis, the Secretary of the Interior shall report to the Secretary of Education and to the [House and Senate Committees] regarding any schools funded by the Bureau of Indian Affairs which have been identified for school improvement. Such report shall include—

(A) the identity of each school;

(B) a statement from each affected school board regarding the factors that lead to such identification; and

2. The House bill, but not the Senate amendment, modifies the formula for distributing funds to the States by basing a State's child count on the number of eligible children, aged 3 through 21, residing in the State during the previous year, plus the number of children who received services in summer or intersession programs provided by the State. Only funding above the amount appropriated for fiscal year 2002 will be distributed via the new formula.

To address this situation, the Conferees have amended section 1303 (e) to require the Secretary to develop a procedure to take into account the amount of time a child may spend in a particular program. The Conferees strongly encourage the Secretary to develop such a procedure and utilize it when making allocations to the States.”**

**HR/SR with an amendment to Sec. 124. Coordination of Migrant Education Activities:**

“(a) DURATION.—Section 1308 (a)(2) [20 U.S.C. 6398 (a)(2)] is amended by striking “subpart” and inserting “subsection”.

**HR/SR with an amendment:**

“(2) INFORMATION SYSTEM.—(A) The Secretary, in consultation with the States, shall ensure the linkage of migrant student record systems for the purpose of electronically exchanging, among the States, health and educational information regarding all migrant students. The Secretary shall ensure such linkage in a cost-effective manner, utilizing systems used by the States prior to, or developed after, the date of enactment of [this Act], and shall determine the minimum data elements that each State receiving funds under this part shall collect and maintain. Such elements may include-

“(i) immunization records and other health information;

“(ii) elementary and secondary academic history (including partial credit), credit accrual, and results from State assessments required under this title;

“(iii) other academic information essential to ensuring that migrant children achieve to high standards; and

“(iv) eligibility for services under the Individuals with Disabilities Education Act.

Ensuring the timely exchange of important education and health information for migrant students is critically important. Although some States have developed and implemented their own student records systems, current failures and interruptions in records transfer result in delays in school enrollment and academic services for migrant students, discrepancies in student placement, and repeat immunizations of migrant children. It is the Conferees’ intent to link existing systems of interstate migrant records transfer, and expand their function to enable the electronic transfer of records among all States.

Section 1308(b)(2) provides federal leadership to accomplish this objective by requiring the Secretary to electronically link migrant student records. Such linkage will build upon existing and future systems for records transfer and will facilitate a timely exchange of health and academic information.”

**SR**

17. The House bill does not contain the Senate provisions in subparagraphs (B), (C), (D) regarding the solicitation of comments on the migrant student record transfer system, deadline for operation of the system, and the reservation of funds for the Secretary in establishing the system.

**Report Language:**

Research indicates that many qualified teachers are not presently working as teachers despite the growing shortage of teachers in many communities due to obstacles related to teacher mobility. The bill includes authorization for a Panel on Teacher Mobility to study strategies for increasing mobility and employment opportunities for qualified teachers, especially in States with teacher shortages and States with districts or schools that are difficult to staff. Conferees do not intend pension portability be addressed by the panel.

However, the conferees note that the portability of teacher pensions was extensively addressed in P.L. 107-16, the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGATRRRA). The new provisions will generally be effective on January 1, 2002. Previous law hindered teachers' ability to move their pension benefits with them when they took new jobs. The new provisions break down the barriers thereby enhancing teachers' mobility. Thus, teachers can now take new employment while more fully preserving their pension benefits.

“(i) substantially and directly responds to—

“(I) the failure of a school to achieve accreditation; and

“(II) any underlying staffing, curriculum, or other programmatic problem in the school that contributed to the lack of accreditation; and

“(ii) is designed to increase substantially the likelihood that the school will be accredited.

“(B) CORRECTIVE ACTION INAPPLICABLE.—The Secretary shall grant a waiver to any school that—

(i) is identified in the report described in paragraph (5)(C); and s

(ii) fails to be accredited for reasons that are beyond the control of the school board, as determined by the Secretary. Reasons that are beyond the control of the school board include, but are not limited to, significant decline in financial resources, the poor condition of facilities, vehicles or other property, or a natural disaster. Such a waiver shall exempt such school from any or all of the requirements of this paragraph and paragraph (7), but such school shall be required to comply with the standards contained in part 36 of title 25, Code of Federal Register, as in effect on the date of enactment of the [Native American Education Improvement Act of 2001].

“(C) DUTIES OF SECRETARY.—After providing assistance to a school under paragraph (3), the Secretary shall—

“(i) annually review the progress of the school under the applicable school plan, to determine whether the school is meeting, or making adequate progress towards, achieving the goals described in paragraph (7)(A)(v) with respect to reaccreditation or becoming a candidate for accreditation;

“(ii) except as provided in subparagraph (B), continue to provide assistance while implementing the school’s plan, and, if determined appropriate by the Secretary, take corrective action with respect to the school if it fails to be accredited at the end of the third year of the school’s plan;

“(iii) promptly notify the parents of children enrolled in the school of the option to transfer their child to another public or Bureau funded school;

“(iv) provide all students enrolled in the school with the option to transfer to another public or Bureau funded school, including a public charter school, that is accredited; and

“(v) provide, or pay for the provision of, transportation for each student described in clause (iv) to the school described in clause (iv) to which the student elects to be transferred to the extent funds are available as determined by the tribal governing body.

“(D) FAILURE OF SCHOOL PLAN.—With respect to a Bureau operated school that fails to be accredited at the end of the 3-year period during which the school’s plan is in ef-

fect under paragraph (7), the Secretary may take 1 or more of the following corrective actions:

If the tribe agrees to operate the school as a contract or grant school, the tribe shall prepare a plan, pursuant to paragraph (7), for approval by the Secretary in accordance with paragraph (7), to achieve accreditation.

“(II) If the tribe declines to assume control of the school, the Secretary, in consultation with the tribe, may contract with an outside entity, consistent with applicable law, or appoint a receiver or trustee to operate and administer the affairs of the school until the school is accredited. The outside entity, receiver or trustee shall prepare a plan, pursuant to paragraph (7), for approval by the Secretary in accordance with paragraph (7).

“(III) Upon accreditation of the school, the Secretary shall allow the tribe to continue to operate the school as a grant or contract school, or if being controlled by an outside entity, provide the tribe with the option to assume operation of the school as a contract school, in accordance with the Indian Self Determination Act, or as a grant school in accordance with the Tribally Controlled Schools Act, at the beginning of the school year following the school year in which the school obtains accreditation. If the tribe declines, the Secretary may allow the outside entity, receiver or trustee to continue the operation of the school or re-assume control of the school.

“(E) FAILURE OF SCHOOL PLAN OF CONTRACT OR GRANT SCHOOL.

“(i) CORRECTIVE ACTION.—With respect to a contract or grant school that fails to be accredited at the end of the 3-year period during which the school’s plan is in effect under paragraph (7), the Secretary may take 1 or more of the corrective actions described in (D)(i) through (iii). The Secretary shall implement such corrective action for at least 1 year prior to taking any action described in clause (ii).

“(ii) OUTSIDE ENTITY.—If the corrective action described in clause (i) does not result in accreditation of the school, the Secretary, in conjunction with the tribal governing body, may contract with an outside entity to operate the school in order to achieve accreditation of the school within 2 school years. Prior to any such contract, the Secretary shall develop a proposal for such operation which shall include, at a minimum, the following elements:

“(I) the identification of 1 or more outside entities which has demonstrated to the Secretary its ability to develop a satisfactory plan for achieving accreditation, and which is willing and available to undertake such plan; and

“(iii) PROPOSAL AMENDMENTS.—The tribal governing body shall have 60 days to amend the proposal described in clause (ii), including identifying another outside entity to operate the school. The Secretary shall reach agreement with the tribal governing body on the proposal and any such amendments to such proposal within 30 days of the expiration of the 60 day period described in the preceding sentence. After the approval of such proposal and any such amendments, the Secretary, with continuing consultation with such tribal governing body, shall implement such proposal.

“(iv) ACCREDITATION.—Upon accreditation of the school, the tribe shall have the option to assume the operation and administration of the school as a contract school after complying with the Indian Self-Determination Act, or as a grant school, after complying with the Tribally Controlled Schools Act, at the beginning of the school year following the year in which the school obtains accreditation.

“(v) RETROCEDE.—Nothing in this subparagraph shall limit a tribe’s right to retrocede operation of a school to the Secretary pursuant to Sec. 105(e) of the Indian Self-Determination Act (with respect to a contract school) or Sec. 5204(f) of the Tribally Controlled Schools Act (with respect to a grant school).

(vi) CONSISTENT.—The provisions of this subparagraph shall be construed consistent with the provisions of the Tribally Controlled Schools Act and the Indian Self-Determination Act as in effect on the date of enactment of the Native American Education Improvement Act of 2001, and shall not be construed as expanding the authority of the Secretary under any other law.

“(F) HEARING.—With respect to a school that is operated pursuant to a grant, or a school that is operated

under a contract under the Indian Self Determination Act, prior to implementing any corrective action under this paragraph, the Secretary shall provide notice and an opportunity for a hearing to the affected school pursuant to section 5207 of the Tribally Controlled Schools Act.”

**Report Language:**

It is not the intent of the Conferees to broaden the authority of the Secretary of the Interior provided under the Indian Self Determination Act. However, nothing is intended to prevent this Act from being implemented as set forth in the Conference report. It is also the intent of this Act that prior to revoking an eligibility of determination and ceasing funding of a school, the Secretary shall exhaust all remedies stated in the Act and take any actions necessary to keep the school operational. The Conferees intend that the Secretary work with the affected tribe, consistent with the Federal policies of Indian self-determination, including, if necessary, temporarily assuming the operation and administration of a school that fails to become accredited for reasons that are not beyond the control of the school until the school becomes accredited and to eliminate impediments to achieving accreditation, including addressing underlying staffing, curriculum, or other programmatic problems in the school.

Section 1121(b)(8)(E) authorizes the Secretary to contract with an outside entity in cases where a contract or grant school has not achieved accreditation after the implementation of a school plan and corrective actions. While this section does not require the Secretary to contract with an outside entity, it is the intention of the Conferees to provide the Secretary with the discretion to contract with an outside entity in a case where both the school plan and any corrective action taken have not caused the school to gain accreditation. The Conferees do not intend to require the Secretary to contract with an outside entity if accreditation of the school can be gained through application of corrective actions.

With respect to public school choice:

**The Conferees intend tribal governing bodies or school boards to establish reasonable parameters on the distance the school to which the child wishes to transfer is from the originating school. The Conferees do not intend this public school choice provision to provide an option to transfer to any school irrespective of the distance or costs associated with travel to such school.**

Overall structure—

One pot for all qualifying entities to share;

Emergency projects are funded first in the order of severity with projects in LEAs that have no practical capacity to issue bonds or limited capacity to issue bonds (House definitions) funded first, and expanded definition LEAs (those that don’t meet House definition but meet the definition below) funded second if money remains, and funded only under the same criteria that apply to districts with limited capacity to issue bonds.

Modernization projects are funded if money remains after all emergency applications are funded. The same criteria apply for modernization grant and emergency grants. LEAs with no practical capacity to issue bonds or limited capacity to issue bonds (House definitions) are funded first, and expanded definition LEAs (those that don’t meet House definition but meet definition below) are funded second if money remains.

Expanded definition districts are districts that are at least 40 percent impacted, have used up to at least 75 percent of their bonding capacity, and have an assessed value of taxable property per student in the school district that is in the lowest 50 percent of school districts within the state.

Leg. Counsel to craft above language. May need some sort of a special rule, or it might be better to just insert parts of agreement into suitable sections of the bill.

12. Both the House bill and the Senate amendment list eligibility requirements.

**LC**

13. The House bill but not the Senate amendment lists eligibility requirements for emergency grants. An LEA may be eligible if it receives formula grants under subsection (a), has an emergency condition which threatens the health or safety of students and personnel, and meets one of three conditions: (1) it has no practical capacity to issue bonds; (2) it has a limited capacity to issue bonds with a requirement that the LEA has used at least 75 percent of its bonding capacity; or (3) it is a heavily impacted district.

**SR with amendment LC to craft language reflecting the eligible pool as outlined in the policy above.**

14. The House bill, but not the Senate amendment, requires that for an entity to be eligible for an emergency grant, that it be eligible to receive formula grants for construction under subsection (a).

**HR with amendment LC to craft language reflecting the eligible pool as outlined in the policy above.**

15. Both the House bill and the Senate amendment list eligibility requirements for Modernization Grants.

**LC**

16. The House bill, but not the Senate amendment states that in order to receive a modernization grant, the LEA must meet the same criteria as those eligible for an emergency grant, except for having a school facility emergency, or must qualify as a federal lands district. The Senate amendment lists slightly different criteria with different placement (see note 17).

**SR (per structure outlined in note 11).**

17. The House bill and the Senate amendment have identical eligibility requirements for federal property districts.

**LC**

18. The Senate amendment provides that in order to be eligible for a modernization grant, an LEA and the facility to be modernized must be at least 25 percent impacted by certain types of connected students.

**SR (per structure outlined in note 11).**

19. The House bill, requires that in order to be eligible for a modernization grant, the LEA must have facility needs resulting from actions of the federal government. The Senate amendment requires this as a criteria for consideration by the Secretary (see note 26).

**SR with an amendment to strike “actions of the federal government” and insert in its place “a federal presence”.**

20. The House bill, but not the Senate amendment, defines the terms lack of practical capacity to issue bonds and minimal capacity to issue bonds.

**SR (per structure outlined in note 11).**

**LC—May need to recede with an amendment to define districts that can receive funding only after those with limited or no practical bonding capacity are funded.**

21. Both the House bill and the Senate amendment set forth award criteria. The House bill sets forth criteria for both emer-

agency and modernization grants. The Senate bill requires the Secretary to review applications from federal lands districts, Indian lands districts, and military districts.

**LC**

**Report Language:**

**The Conference Report requires the Secretary to consider the severity of the need for modernization, which may be measured by factors such as overcrowding or the potential for overcrowding. The conferees note that such overcrowding may arise from housing privatization undertaken by the Department of Defense.**

22. The House bill requires the Secretary to take into account the ability of a school district to pay for either a modernization project or an emergency project. The Senate bill requires the Secretary to take into account the districts ability to pay for modernization projects.

**SR**

23. The House bill, but not the Senate amendment, sets forth the following criteria to measure an LEAs ability to carry out a project, including its bonded indebtedness; its assessed value of real property per student, compared to the state average; the LEAs total tax rate for school purposes compared to the state average; and funds available to the LEA from other sources.

**SR**

24. Using different language, both the House bill and the Senate amendment require the Secretary to consider the lack of taxable property due to a federal presence and the impact of federally connected children.

**SR**

25. Using different language, both the House bill and the Senate amendment require the Secretary to consider the threat that a condition poses to health or safety, and overcrowding as evidenced by the use of portable facilities.

**SR with amendment to insert (D)(ii).**

26. The Senate amendment requires the Secretary to take into account facility needs resulting from the federal government. The House bill requires that facility needs result from the federal government in order to be eligible (see note 19).

**SR (per note 19).**

27. The House bill but not the Senate amendment requires the Secretary to consider the LEAs inability to maximize the use of technology or offer curriculum due to physical facility limitations.

**SR**

28. Both the House bill and the Senate amendment require the Secretary to consider the age of the facility to be modernized.

**LC**

29. Using different language, both the House bill and the Senate amendment provide additional award provisions.

**LC**

30. The House bill limits the amount of the cost of a project that may be funded under this subsection to 50 percent for LEAs that have limited bonding capacity or that qualify solely because they are heavily impacted. The Senate amendment limits the federal share to 50 percent for all projects.

**SR**

31. The House bill limits the amount an LEA may receive under this subsection for LEAs having limited bonding capacity or that qualify solely because they are heavily impacted to \$3 million over a 5-year period. The Senate amendment limits the amount any LEA may receive to \$5 million over a 2-year period.

**HR/SR with an amendment to allow these districts to receive up to \$4 million in a 4-year period.**

32. The House bill allows the use of in-kind contributions to meet the match required of LEAs. The Senate amendment has a similar provision with different placement (see note 30).

**SR**

33. Both the House bill and the Senate amendment contain certain prohibitions on the use of funds under this subsection. These provisions are placed differently. The House bill prohibits funds from being used for facilities for which the LEA does not hold the title, or stadiums or other facilities primarily used for events for which admission is charged. The Senate amendment prohibits funds under this subsection from being used for the acquisition of real property, athletic and similar facilities for which admission is charged, and requires that all projects carried out with funds provided under this subsection to comply with relevant environmental law and regulation.

**LC—merge the language from both bills.**

34. Using slightly different language, both the House bill and the Senate amendment prohibit LEAs receiving funds under this subsection from supplanting funds that would otherwise be spent for facilities construction or modernization.

**LC**

35. The House bill but not the Senate amendment prohibits emergency grants under this subsection from being used for the replacement of an existing facility unless such replacement is more cost effective than repair of the existing facility.

**SR**

36. The House bill requires that emergency grants for which funding is not available shall be considered in the following year at the request of the LEA. The Senate amendment requires that an eligible entity that applies for a grant which is not funded shall have its grant application considered for the following fiscal year. The Senate amendment places this provision differently than the House bill.

**HR**

37. The House bill and the Senate amendment require LEAs seeking a grant under this subsection to submit an application to the Secretary.

**LC**

38. The House bill and the Senate amendment require different information to be submitted to the Secretary. The House bill requires applicants to submit information related to the award criteria. In the case of emergency grants, it requires a description of the hazard, and a signed statement certifying the deficiency. In the case of a modernization grant, the House bill requires an explanation for the need for the project and the age of the facility, a de-

scription of the project including a cost estimate, and a description of ownership interest in the facility.

**LC—merge the lists of both bills.**

39. The Senate amendment requires the submission of a listing of the facilities to be modernized and the percentage of federally impacted children, a description of the ownership of the property, a description of how the LEA meets the award criteria, a description of the project, and a cost estimate for the project.

**LC—merge the two.**

40. The Senate amendment requires LEAs applying for an emergency grant to submit a signed statement certifying the deficiency. This is similar to one of the provisions for emergency grants under the House bill (see above).

**SR with an agreement to add report language.**

**Report Language:**

**The Conferees would urge the Department when awarding grants under section 8007(b) of the Impact Aid Program that every effort be made to insure that emergency grant application requests from all eligible categories of school districts are given equal consideration, subject to the requirements of that subsection.**

41. The Senate amendment, but not the House bill, requires the Secretary to make every effort to meet fully the needs of Indian lands and Military Impacted school districts.

**SR**

42. The Senate amendment requires the Secretary to give priority based on severity of emergency if more than one grant application is received from an Indian lands or military district. The priority is based upon severity of the emergency and when the application was received. The house bill contains an absolute priority for emergency situations under subsection (b)(2).

**HR**

43. The House bill, but not the Senate amendment, requires the Secretary to report annually to the appropriate committees of Congress a justification of grants made under this subsection for the previous fiscal year. The House bill further defines the appropriate congressional committees.

**SR**

44. The House bill, but not the Senate amendment, increases the authorization for appropriation for Impact Aid construction to \$150 million for FY 2002, and such sums as necessary for the four succeeding fiscal years.

**SR**

45. Both the House bill and the Senate bill have virtually identical language to clarify that Section 8009 (equalized states) payments are exempt from state equalization. The House bill, but not the Senate amendment, includes a reference to section 8003(b)(2).

**SR**

46. Both the House bill and the Senate bill contain language to authorize the program through 2006.

**SR with amendment to change word “six” to “seven”.**

47. The House bill, but not the Senate bill contains language to transfer and redesignate the program.

**LC**

48. The House bill, but not the Senate bill contains a provision to provide that funds appropriated under the current placement of the Impact Aid program in Title VIII of the ESEA will be available under that program as redesignated as Title VI.

**LC**

**Report Language:**

**Language was included in the FY 2001 National Defense Authorization Act to reauthorize the Impact Aid program. As part of the reauthorization, language was included in Section 8002(j) to authorize Section 8002 (payments relating to federal acquisition of real property) funding for the Centennial School District in Bucks County, Pennsylvania due to their unique situation. The Centennial School District is the only school district in the nation where the only military facility that was located entirely within the boundaries of the school district was realigned as a part of base realignment and closure (BRAC), but the school district continues to educate the children of families who continue to live on that property even though the parent(s) are stationed at a federal facility located outside the boundaries of the school district. The Commander of that federal facility has stated that this current situation will continue for the foreseeable future. By moving the language of Section 8002(j) of the Impact Aid Program to Part D of Title V, the Fund for the Improvement of Education (FIE), it is not the intent of the conferees to in any way affect the authorization for funding Section 8002(j) and in no way minimizes the ability of members to seek funding for the authorization on an annual basis.**

49. The House bill, but not the Senate bill contains language regarding a Sense of Congress that the Impact Aid program should be fully funded.

**HR**

1. The House bill and the Senate amendment locate this part regarding rewards and sanctions pertaining to educational achievement in the States in different parts of each piece of legislation.

**HR**

2. The House bill and the Senate amendment have different section headings regarding financial awards to states.

**HR/SR with amendment to strike all language**

3. The House bill and the Senate amendment use the same name for these awards. However, the House bill requires the Secretary of Education to make the awards, while the Senate amendment allows the Secretary to decide whether to make the awards. In addition, both the Senate amendment and the House bill refer to the use of a peer review process to make awards, although the House provision is located in subsection (f). See note 21. **HR/SR with an amendment to strike all language.**

5. The House bill specifically refers to the two groups listed, while the Senate amendment refers to groups by reference to Title I, part A, which includes, in addition to the groups listed in the House bill, the following: students with disabilities, students with limited English proficiency, migrant students and students by gender.

**HR/SR with an amendment to strike all language.**

6. The House bill, but not the Senate amendment, refers to the assessments under section 1111 of Title I, part A. The Senate amendment, but not the House bill, refers to students reaching the State defined level of proficiency, which, by inference, includes the assessments required under Title I, part A.

**HR/SR with an amendment to strike all language.**

7. Both the House bill and the Senate amendment require the Secretary to examine a State's performance on NAEP 4th and 8th grade assessments in reading and math. However, the House bill refers to a specific school year in which 4th and 8th grade NAEP assessment data must be examined, while the Senate amendment refers to the 2nd year after which assessment data is first available for all States under NAEP in 4th and 8th grade.

**HR/SR with an amendment to strike all language.**

The Senate amendment, but not the House bill, allocates a set amount of \$3 million per State and allocates any remaining funds based on the number of children enrolled in public schools in grades 3 through 8.

**HR with amendment to, out of the \$490 million authorized (at note 48): from amounts equal to or less than the trigger amount described in Title I-A for that fiscal year: (1) reserve ½ of 1 percent for Interior (BIA); (2) reserve ½ of 1 percent for Outlying Areas; (3) provide each State \$3 million; (4) allocate remaining funds, after the application of (1), (2) and (3), to each State based on the State's public school student population in grades 3-8; AND from funds greater than the I-A trigger: (5) allocate funds for approved applications under Enhanced Assessment Instruments (see note 45) according to the quality, needs and scope of the State application. In determining the grant amount, the Secretary shall include any funds the State would have received under (6) of this paragraph; and (6) allocate any remaining funds after funds are allocated in (5) to each State based on population described in (4), except that States which received a grant under (5) receive none of these remaining funds.**

**SR with amendment to insert State flexibility demonstration, State accountability for AYP, and changes to NAEP and NAGB in NESAs:**

(1) State flexibility Demonstration:

The purpose of this part is to allow 7 States additional flexibility in the use of federal funds for State administration and State activity funds. If a State chooses to participate, it does not affect how much money they receive—the same federal formulas apply.

*Eligible Programs:*

Part A of Title I—State administration only (Education for the Disadvantaged);

Part B of Title I (Reading First and Even Start);

Section 2113(a)(3) of Part A of Title II (Teachers);

Section 2412(a)(1) of Part D of Title II (Technology);

Sections 4112(a)(1) (with the agreement of the Governor), 4112(c)(1), and 4112(b)(2) of Part A of Title IV (Safe and Drug Free Schools);

Section 4202(c)(2) and (3) of Part B of Title IV (21st Century Community Learning Centers);

Sections 5112(a) and 5112(b) of Part A of Title V—State administration, State activity and Local activity funds (Innovative Programs Block Grant).

*Title V Block Grant*—If the State educational agency includes the local activity funds, it must ensure 85% of pre-FY 2002 funds are sent locally and 100% of funds above the FY 2002 funds are sent locally.

*Agreement with the Secretary*—The State educational agency would apply to the Secretary to be able to take advantage of this flexibility.

*Use of Funds*—Similar to the schoolwide provision which allows consolidation of federal dollars at the school level, funds could be used for any educational activity authorized under H.R. 1, to meet the general purposes of the program funds included in the waiver, in order to improve academic achievement and close achievement gaps.

*Approval*—The Secretary may approve the application only if the Secretary determines that such application demonstrates substantial promise of carrying out the education reform goals of the State.

*Reporting*—States would annually report to the Secretary on how they are using these funds in accordance with their waiver.

*Termination*—The Secretary will terminate the State flexibility under this part if the State fails to meet adequate yearly progress for 2 consecutive years or for non-compliance with the terms of the application.

*Alignment*—State flexibility demonstration States must have no less than 4, but no more than 10, local flexibility demonstration districts in alignment with the State flexibility demonstration, and that at least half of the districts must be districts with a poverty percentage of 20% or higher. Districts participating in the State flex demo State must align with the State flexibility demonstration for the State to be eligible to participate in State flex. Additional local flex demo districts beyond the minimum 4 districts required under the State flex demo may sign up at any point, up to a total of 10 districts, so long as they are in alignment with the State flex demo.

Districts in a State that is participating in State flex, that are not part of the State flex demo (i.e., not the initial 4 or among the 10 total) may benefit from the State flex demo dollars (which is not inclusive of the local flex demo dollars).

Districts that join the State in the State flex demo (i.e., the initial 4 or among the 10 total) shall submit their performance agreements in conjunction with the State application for State flex. The State shall submit a “consolidated” application including the district information for those districts participating.

States have priority in signing up for the State flex demo over districts wishing to sign up for the local flex demo so as to encourage alignment between the State and districts. If the State has not notified the Secretary of their interest to participate in State flex in [6] months after enactment, the districts in that State may submit performance agreements to the Secretary.

**(2) And State accountability for AYP language:**

**“SEC. . STATE ACCOUNTABILITY FOR ADEQUATE YEARLY PROGRESS.**

**“(a) ACCOUNTABILITY FOR ADEQUATE YEARLY PROGRESS.—**After a State has had its plan approved under Title I and Title III of this Act and such plans have been implemented for 2 years, the Sec-

retary shall review whether the State has met its adequate yearly progress definition under section 1111 [(b)(2)] of this Act for each of the groups of students described in section 1111 [(b)(2)] . . . (the 4 accountability subgroups)] and meet its annual measurable objectives under section [Title III] of this Act.

“(b) DETERMINATION.—The Secretary shall use a peer review process to review, based on data from the State assessments administered pursuant to section 1111 of this Act, whether a State has failed to make its definition of adequate yearly progress for two consecutive years, and to review, based on data from the evaluations in section [Title III] of this Act, whether a State has failed to meet its annual measurable objectives under section [Title III] of this Act for two consecutive years.

“(c) TECHNICAL ASSISTANCE.—(1) Based on the determination described in subsection (b), the Secretary shall provide technical assistance to a State that has not met its definition of adequate yearly progress no later than the beginning of the next school year following the school year in which the determination described in subsection (b) is made.

“(B) provide constructive feedback to help the State meet its annual measurable objectives in section [Title III].”

**Report Language:**

(d) REPORT TO CONGRESS.—Beginning with the 2005–2006 school year, the Secretary shall submit an annual report to the Committee on Education and the Workforce of the House of Representatives and the Committee on Health, Education, Labor and Pensions of the Senate containing—

(1) a list of each State that has not met its definition of adequate yearly progress based on the determination described in subsection (b);

(3) the information reported by the State to the Secretary pursuant to section 1119 [      —teacher accountability]; and

(4) a description of any technical assistance provided pursuant to subsection (c)

**Report Language:**

**Conferees stress that a fundamental purpose of Title I as established under this Act is to hold States, local educational agencies and schools accountable for improving the academic achievement of all students, and for identifying and turning around low-performing schools. As a result, Conferees expect States to meet their definition of adequate yearly progress to the same degree as local school districts and schools. The Conferees further urge Congress and the Secretary to thoroughly examine the data collected from the State assessment systems and factor such information into future discussions on accountability measures for States, which should include consideration of the use of fiscal sanctions to hold those States that continually fail to meet their definition of adequate yearly progress and fail to improve the academic achievement of all students accountable.**

**(3) Sections 411 and 412 of the NESA are amended to read as follows:**

“(B)(i) States participating in State assessments shall enter into an agreement with the Secretary pursuant to subsection (d)(3).

“(ii) Such agreement shall contain information sufficient to give States full information about the process for decision-making (which shall include the consensus process used), on objectives to be tested, and the standards for random sampling, test administration, test security, data collection, validation, and reporting.

“(C)(i) Except as provided in clause (ii), a participating State shall review and give permission for the release of results from any test of its students administered as a part of a State assessment prior to the release of such data. Refusal by a State to release its data shall not restrict the release of data from other States that have approved the release of such data.

“(ii) A State participating in the biennial academic assessments of student achievement in reading and mathematics in grades 4 and 8 shall be deemed to have given its permission to release its data if it has an approved plan under section 1111 of the Elementary and Secondary Education Act of 1965.

“(3) PROHIBITED ACTIVITIES.—

“(A) use widely accepted professional testing standards, objectively measure academic achievement, knowledge, and skills, and ensure that any academic assessment authorized under this section be tests that do not evaluate

[Report language: The Conferees wish to clarify that this provision does not prohibit the use of essay, extended response, or short answer test items, nor does it prohibit the use of test items which require a student to analyze a passage of text, or to express opinions provided that such test items are developed consistent with widely accepted professional assessment standards. Further, it does not preclude the use of non-intrusive, non-cognitive questions, approved by the National Assessment Governing Board, whose direct relationship to academic achievement has been demonstrated and is being studied as part of the National Assessment of Educational Progress for the purposes of improving such achievement.]

“(B) only collect information that is directly related to the appraisal of academic achievement, and to the fair and accurate presentation of such information; and”

**HR with an amendment in (31)(A) to strike “beginning” and insert “especially beginning teachers” after “teachers” and in (31)(A)(ii)(I), to strike “mentor” and insert “exemplary”.**

**Report Language:**

**The Conferees intend that a teacher mentoring program should be available to all teachers who need it, and have emphasized the needs of beginning teachers. This added emphasis should not be read to exclude veteran teachers from mentoring programs, but rather to acknowledge the significant needs of beginning teachers. Data show that half of all beginning teachers in high-poverty schools drop out of teaching within five years, and 20 percent of all new teachers leave teaching within three years. Furthermore, less than half of teachers in low-performing schools, which are**

also likely to be high-poverty schools, are likely to receive any additional professional development. While beginning teachers need the help and support that a high quality mentoring program can provide, the Conferees believe federal support for mentoring programs should not be limited to beginning teachers only. Veteran teachers can also benefit from sustained high quality mentoring and coaching efforts.

A number of recent surveys of teachers demonstrate that veteran teachers want the type of sustained professional development that they get by working with successful teachers. Furthermore, there are a variety of existing professional development models that have demonstrated the benefits of providing mentoring and coaching to experienced teachers, among them the El Paso Collective for Education Excellence, which pairs veteran math and science teachers with experienced teaching coaches.

Rather than single out any one group of teachers for additional support and assistance, the Conferees believe that any teacher, be it a beginning teacher who is struggling to handle a class alone for the first time and is at risk of dropping out of teaching, or one who has taught for multiple years, who has shown difficulty in advancing the knowledge and abilities of his or her students, should receive high quality professional development, which may include being paired with a mentor or coach. Therefore, the Conferees note that mentoring services be provided to, but not be limited to beginning teachers (teachers who have been in the classroom less than 3 years).

The Conferees also note that teacher mentoring programs should be part of an ongoing developmental induction process. Effective induction processes should be a continuous process throughout a teacher's time as a beginning teacher. This is to provide the teacher with the most support possible to enable the teacher to fully adapt to the teaching profession and increase the likelihood the teacher will continue in the teaching profession.
