The firearms selected do not constitute a random sample and should not be considered representative of the larger universe of all firearms used by criminals, or any subset of that universe. SEC. 314. Notwithstanding any other provision of law, for fiscal year 2005 the Secretaries of Agriculture and the Interior are authorized to limit competition for watershed restoration project contracts as part of the “Jobs in the Woods” Program established in Region 10 of the Forest Service to individuals and entities in historically timber-dependent areas in the States of Washington, Oregon, northern California, Idaho, Montana, and Alaska that have been affected by reduced timber harvesting on Federal lands. The Secretaries shall consider the benefits to the local economy in evaluating bids and designing procurements which create economic opportunities for local contractors.

SEC. 315. Amounts deposited during fiscal year 2004 in the roads and trails fund provided for in the 14th paragraph under the heading “FOREST SERVICE” of the Act of March 4, 1913 (37 Stat. 843; 16 U.S.C. 501), shall be used by the Secretary of Agriculture, without regard to the State in which the amounts were derived, to repair or reconstruct roads, bridges, and trails on National Forest System lands or to carry out and administer projects to improve forest health conditions, which may include the repair or reconstruction of roads, bridges, and trails on National Forest System lands in the wildland-community interface where there is an abnormally high risk of fire. The projects shall emphasize reducing risks to human safety and public health and property and enhancing ecological functions, long-term forest productivity, and biological integrity. SEC. 317. No timber sale in Region 10 shall be advertised if the indicated rate is deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar. Program accomplishments shall be based on volume sold. Should Region 10 sell, in the current fiscal year, the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, all of the western redcedar timber from those sales which is surplus to the needs of domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States at prevailing domestic prices. Should Region 10 sell, in the current fiscal year, less than the annual average portion of the decadal allowable sale quantity called for in the Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, the volume of western redcedar timber available to domestic processors at prevailing domestic prices in the contiguous 48 United States shall be that volume: (i) which is surplus to the needs of domestic processors in Alaska; and (ii) is that percent of the surplus western redcedar volume determined by calculating the ratio of the total timber volume which has been sold on the Tongass to the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan. The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a "rolling basis" shall mean that the determination of how much western redcedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western redcedar shall be deemed "surplus to the needs of domestic processors in Alaska" when the timber sale holder has presented to the Forest Service documentation of the inability to sell western redcedar logs from a given sale to domestic Alaska processors at a price equal to or greater than the log selling value stated in the contract. All additional western redcedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yellow cedar may be sold at prevailing export prices at the election of the timber sale holder.

“(1) the excess amounts will not be needed for emergency wildfire suppression during the fiscal year in which the transfer would be made; and

“(2) the amount to be transferred to miscellaneous receipts, National Forest Fund, exceeds the outstanding balance of unreimbursed funds transferred from the special fund in prior fiscal years for wildfire suppression.”.

SEC. 319. A project undertaken by the Forest Service under the Recreation Fee Demonstration Program as authorized by section 315 of the Department of the Interior and Related Agencies Appropriations Act for Fiscal Year 1996, as amended, shall not result in—

(1) displacement of the holder of an authorization to provide commercial recreation services on Federal lands. Prior to initiating any project, the Secretary shall consult with potentially affected holders to determine what impacts the project may have on the holders. Any modifications to the authorization shall be made within the terms and conditions of the authorization and authorities of the impacted agency; and

(2) the return of a commercial recreation service to the Secretary for operation when such services have been provided in the past by a private sector provider, except when—

(A) the private sector provider fails to bid on such opportunities;

(B) the private sector provider terminates its relationship with the agency; or

(C) the agency revokes the permit for non-compliance with the terms and conditions of the authorization.

In such cases, the agency may use the Recreation Fee Demonstration Program to provide for operations until a subsequent operator can be found through the offering of a new prospectus.

Nothing in this section exempts the Secretary from any other requirement of the Forest and Rangeland Renewable Resources Planning Act (16 U.S.C. 1600 et seq.) or any other law: Provided, That if the Secretary is not acting expeditiously and in good faith, within the funding available, to revise a plan for a unit of the National Forest System, this section shall be void with respect to such plan and a court of proper jurisdiction may order completion of the plan on an accelerated basis.

SEC. 321. No funds provided in this Act may be expended to conduct preleasing, leasing and related activities under either the Mineral Leasing Act (30 U.S.C. 181 et seq.) or the Outer Conti-

mental Shelf Lands Act (43 U.S.C. 1331 et seq.) within the boundaries of a National Monument established pursuant to the Act of June 8, 1906 (16 U.S.C. 431 et seq.) as such boundary existed on January 20, 2001, except where such activities are allowed under the Presidential proclamation establishing such monument.

SEC. 342. (a) FINDINGS.—

(1) In 1953, Public Land Order 899 (PLO 899) eliminated approximately 80 acres from the Tongass National Forest, for the Community of Elfin Cove, Alaska. From 1953 until 2001, the USDA Forest Service believed two small islets within the Elfin Cove Harbor (Lots 1 and 2 of U.S. Survey 13150, approximately 0.29 acres) were included as part of PLO 899. However, due to a Bureau of Land Management rule in effect when PLO 899 was issued, ownership of unsurveyed, unmapped islets remained with the original landowner, in this case the United States.

(2) These two islets are needed by the Community of Elfin Cove to resolve public health and safety problems.

(3) The two islets serve no national forest purposes, but the Forest Service has no authority to transfer ownership of them to the Community of Elfin Cove, without receiving fair market value for the land interests.

(4) Neither the Bureau of Land Management nor the Forest Service intended to retain federal ownership of these two islets, and they remained in ownership of the United States only through an inadvertent error.

(5) Conveyance of these two islets from the United States to the Community of Elfin Cove, Alaska, without consideration, is in the public interest.

(b) Based on the findings in subsection (a) and notwithstanding any other provision of law, Congress hereby authorizes and directs the Secretary of Agriculture to convey in fee simple without compensation, Lots 1 and 2 of U.S. Survey 13150, comprising approximately 0.29 acres, to the Community of Elfin Cove, Alaska.

SEC. 343. (a) Notwithstanding any other provision of law, and until October 1, 2007, the Indian Health Service may not disburse funds for the provision of health care services pursuant to Public Law 93–638 (25 U.S.C. 450 et seq.) to any Alaska Native village or

Alaska Native village corporation that is located within the area served by an Alaska Native regional health entity.

(b) Nothing in this section shall be construed to prohibit the disbursement of funds to any Alaska Native village or Alaska Native village corporation under any contract or compact entered into prior to May 1, 2004, or to prohibit the renewal of any such agreement.

(c) For the purpose of this section, Eastern Aleutian Tribes, Inc. shall be treated as an Alaska Native regional health entity to whom funds may be disbursed under this section.

SEC. 344. Notwithstanding any other provision of law and using funds previously appropriated for such purpose under Public Law 106-291 (\$1,630,000) and Public Law 108-199 (\$2,300,000), the National Park Service shall (1) not later than 60 days after enactment of this section purchase the seven parcels of real property in Seward, Alaska identified by Kenai Peninsula tax identification numbers 14910001, 14910002, 14911033, 14913005, 14913020, 14913007, and 14913008 that have been selected for the administrative complex, visitor facility, plaza and related parking for the Kenai Fjords National Park and Chugach National Forest which shall hereafter be known as the Mary Lowell Center; and (2) transfer to the City of Seward any remaining balance of previously appropriated funds not necessary for property acquisition and design upon the vacation by the City of Seward of Washington Street between 4th Avenue and 5th Avenue and transfer of title of the appropriate portions thereof to the federal government, provided that the City of Seward uses any such funds for the related waterfront planning, pavilions, boardwalks, trails, or related purposes that complement the new federal facility.

SEC. 345. Section 331, of Public Law 106-113, is amended—

- (1) in part (a) by striking “2004” and inserting “2005”; and
- (2) in part (b) by striking “2004” and inserting “2005.”

The notice shall be provided in such a manner, and shall contain sufficient detail, to permit the employer to respond to the allegations before an investigation is commenced. There shall be no judicial review of a determination by the Secretary of Labor under this clause.

“(viii) An investigation under clauses (i) or (ii) may be conducted for a period of up to 60 days. TITLE V—NATIONAL AVIATION HERITAGE AREA

SEC. 1. SHORT TITLE.

This title may be cited as the “National Aviation Heritage Area Act”.

SEC. 2. FINDINGS AND PURPOSE.

(a) *FINDINGS.*—Congress finds the following:

(1) Few technological advances have transformed the world or our Nation’s economy, society, culture, and national character as the development of powered flight.

(2) The industrial, cultural, and natural heritage legacies of the aviation and aerospace industry in the State of Ohio are nationally significant.

(3) Dayton, Ohio, and other defined areas where the development of the airplane and aerospace technology established our Nation’s leadership in both civil and military aeronautics and astronautics set the foundation for the 20th Century to be an American Century.

(4) Wright-Patterson Air Force Base in Dayton, Ohio, is the birthplace, the home, and an integral part of the future of aerospace.

(5) The economic strength of our Nation is connected integrally to the vitality of the aviation and aerospace industry, which is responsible for an estimated 11,200,000 American jobs.

(6) The industrial and cultural heritage of the aviation and aerospace industry in the State of Ohio includes the social history and living cultural traditions of several generations.

(7) The Department of the Interior is responsible for protecting and interpreting the Nation’s cultural and historic resources, and there are significant examples of these resources within Ohio to merit the involvement of the Federal Government to develop programs and projects in cooperation with the Aviation Heritage Foundation, Incorporated, the State of Ohio, and other local and governmental entities to adequately conserve, protect, and interpret this heritage for the educational and recreational benefit of this and future generations of Americans, while providing opportunities for education and revitalization.

(8) Since the enactment of the Dayton Aviation Heritage Preservation Act of 1992 (Public Law 102-419), partnerships

among the Federal, State, and local governments and the private sector have greatly assisted the development and preservation of the historic aviation resources in the Miami Valley.

(9) An aviation heritage area centered in Southwest Ohio is a suitable and feasible management option to increase collaboration, promote heritage tourism, and build on the established partnerships among Ohio's historic aviation resources and related sites.

(10) A critical level of collaboration among the historic aviation resources in Southwest Ohio cannot be achieved without a congressionally established national heritage area and the support of the National Park Service and other Federal agencies which own significant historic aviation-related sites in Ohio.

(11) The Aviation Heritage Foundation, Incorporated, would be an appropriate management entity to oversee the development of the National Aviation Heritage Area.

(12) Five National Park Service and Dayton Aviation Heritage Commission studies and planning documents: "Study of Alternatives: Dayton's Aviation Heritage", "Dayton Aviation Heritage National Historical Park Suitability/Feasibility Study", "Dayton Aviation Heritage General Management Plan", "Dayton Historic Resources Preservation and Development Plan", and Heritage Area Concept Study, demonstrated that sufficient historical resources exist to establish the National Aviation Heritage Area.

(13) With the advent of the 100th anniversary of the first powered flight in 2003, it is recognized that the preservation of properties nationally significant in the history of aviation is an important goal for the future education of Americans.

(14) Local governments, the State of Ohio, and private sector interests have embraced the heritage area concept and desire to enter into a partnership with the Federal government to preserve, protect, and develop the Heritage Area for public benefit.

(15) The National Aviation Heritage Area would complement and enhance the aviation-related resources within the National Park Service, especially the Dayton Aviation Heritage National Historical Park, Ohio.

(b) PURPOSE.—The purpose of this title is to establish the Heritage Area to—

(1) encourage and facilitate collaboration among the facilities, sites, organizations, governmental entities, and educational institutions within the Heritage Area to promote heritage tourism and to develop educational and cultural programs for the public;

(2) preserve and interpret for the educational and inspirational benefit of present and future generations the unique and significant contributions to our national heritage of certain historic and cultural lands, structures, facilities, and sites within the National Aviation Heritage Area;

(3) encourage within the National Aviation Heritage Area a broad range of economic opportunities enhancing the quality of life for present and future generations;

(4) provide a management framework to assist the State of Ohio, its political subdivisions, other areas, and private organi-

zations, or combinations thereof, in preparing and implementing an integrated Management Plan to conserve their aviation heritage and in developing policies and programs that will preserve, enhance, and interpret the cultural, historical, natural, recreation, and scenic resources of the Heritage Area; and

SEC. 109. STUDY.

No later than June 30, 2008, the Register of Copyrights shall report to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate the Register’s findings and recommendations on the operation and revision of the statutory licenses under sections 111, 119, and 122 of title 17, United States Code. The report shall include, but not be limited to, the following:

(1) A comparison of the royalties paid by licensees under such sections, including historical rates of increases in these royalties, a comparison between the royalties under each such section and the prices paid in the marketplace for comparable programming.

(2) An analysis of the differences in the terms and conditions of the licenses under such sections, an analysis of whether these differences are required or justified by historical, technological, or regulatory differences that affect the satellite and cable industries, and an analysis of whether the cable or satellite industry is placed in a competitive disadvantage due to these terms and conditions.

(3) An analysis of whether the licenses under such sections are still justified by the bases upon which they were originally created.

(4) An analysis of the correlation, if any, between the royalties, or lack thereof, under such sections and the fees charged to cable and satellite subscribers, addressing whether cable and satellite companies have passed to subscribers any savings realized as a result of the royalty structure and amounts under such sections.

(5) An analysis of issues that may arise with respect to the application of the licenses under such sections to the secondary transmissions of the primary transmissions of network stations and superstations that originate as digital signals, including issues that relate to the application of the unserved household limitations under section 119 of title 17, United States Code, and to the determination of royalties of cable systems and satellite carriers.

SEC. 110. ADDITIONAL STUDY.

No later than December 31, 2005, the Register of Copyrights shall report to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate the Register’s findings and recommendations on the following:

(1) The extent to which the unserved household limitation for network stations contained in section 119 of title 17, United States Code, has operated efficiently and effectively and has forwarded the goal of title 17, United States Code, to protect copyright owners of over-the-air television programming, including what amendments, if any, are necessary to effectively identify the application of the limitation to individual households to receive secondary transmissions of primary digital transmissions of network stations.

(2) *The extent to which secondary transmissions of primary transmissions of network stations and superstations under section 119 of title 17, United States Code, harm copyright owners of broadcast programming throughout the United States and the effect, if any, of the statutory license under section 122 of title 17, United States Code, in reducing such harm.*

“SEC. 340. SIGNIFICANTLY VIEWED SIGNALS PERMITTED TO BE CARRIED.

“(a) SIGNIFICANTLY VIEWED STATIONS.—In addition to the broadcast signals that subscribers may receive under section 338 and 339, a satellite carrier is also authorized to retransmit to a subscriber located in a community the signal of any station located outside the local market in which such subscriber is located, to the extent such signal—

“(1) has, before the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, been determined by the Federal Communications Commission to be a signal a cable operator may carry as significantly viewed in such community, except to the extent that such signal is prevented from being carried by a cable system in such community under the Commission’s network nonduplication and syndicated exclusivity rules; or

“(2) is, after such date of enactment, determined by the Commission to be significantly viewed in such community in accordance with the same standards and procedures concerning shares of viewing hours and audience surveys as are applicable under the rules, regulations, and authorizations of the Commission to determining with respect to a cable system whether signals are significantly viewed in a community.

“(b) LIMITATIONS.—

“(1) ANALOG SERVICE LIMITED TO SUBSCRIBERS TAKING LOCAL-INTO-LOCAL SERVICE.—With respect to a signal that originates as an analog signal of a network station, this section shall apply only to retransmissions to subscribers of a satellite carrier who receive retransmissions of a signal that originates as an analog signal of a local network station from that satellite carrier pursuant to section 338.

“(2) DIGITAL SERVICE LIMITATIONS.—With respect to a signal that originates as a digital signal of a network station, this section shall apply only if—

“(A) the subscriber receives from the satellite carrier pursuant to section 338 the retransmission of the digital signal of a network station in the subscriber’s local market that is affiliated with the same television network; and

“(B) either—

“(i) the retransmission of the local network station occupies at least the equivalent bandwidth as the digital signal retransmitted pursuant to this section; or

“(ii) the retransmission of the local network station is comprised of the entire bandwidth of the digital signal broadcast by such local network station.

“(3) *LIMITATION NOT APPLICABLE WHERE NO NETWORK AFFILIATES.*—The limitations in paragraphs (1) and (2) shall not prohibit a retransmission under this section to a subscriber located in a local market in which there are no network stations affiliated with the same television network as the station whose signal is being retransmitted pursuant to this section.

“(4) *AUTHORITY TO GRANT STATION-SPECIFIC WAIVERS.*—Paragraphs (1) and (2) shall not prohibit a retransmission of a network station to a subscriber if and to the extent that the network station in the local market in which the subscriber is located, and that is affiliated with the same television network, has privately negotiated and affirmatively granted a waiver from the requirements of paragraph (1) and (2) to such satellite carrier with respect to retransmission of the significantly viewed station to such subscriber.

“(c) *PUBLICATION AND MODIFICATIONS OF LISTS; REGULATIONS.*—

“(d) *EFFECT ON OTHER OBLIGATIONS AND RIGHTS.*—

“(1) *NO EFFECT ON CARRIAGE OBLIGATIONS.*—Carriage of a signal under this section is not mandatory, and any right of a

station licensee to have the signal of such station carried under section 338 is not affected by the eligibility of such station to be carried under this section.

“(2) *RETRANSMISSION CONSENT RIGHTS NOT AFFECTED.*—The eligibility of the signal of a station to be carried under this section does not affect any right of the licensee of such station to grant (or withhold) retransmission consent under section 325(b)(1).

“(e) *NETWORK NONDUPLICATION AND SYNDICATED EXCLUSIVITY.*—

“(1) *NOT APPLICABLE EXCEPT AS PROVIDED BY COMMISSION REGULATIONS.*—Signals eligible to be carried under this section are not subject to the Commission’s regulations concerning network nonduplication or syndicated exclusivity unless, pursuant to regulations adopted by the Commission, the Commission determines to permit network nonduplication or syndicated exclusivity to apply within the appropriate zone of protection.

“(2) *LIMITATION.*—Nothing in this subsection or Commission regulations shall permit the application of network nonduplication or syndicated exclusivity regulations to the retransmission of distant signals of network stations that are carried by a satellite carrier pursuant to a statutory license under section 119(a)(2)(A) or (B) of title 17, United States Code, with respect to persons who reside in unserved households, under 119(a)(4)(A), or under section 119(a)(12), of such title.

“(f) *ENFORCEMENT.*—

“(1) *ORDERS AND DAMAGES.*—Upon complaint, the Commission shall issue a cease and desist order to any satellite carrier found to have violated this section in carrying any television broadcast station. Such order may, if a complaining station requests damages—

“(A) provide for the award of damages to a complaining station that establishes that the violation was committed in bad faith, in an amount up to \$50 per subscriber, per station, per day of the violation; and

“(B) provide for the award of damages to a prevailing satellite carrier if the Commission determines that the complaint was frivolous, in an amount up to \$50 per subscriber alleged to be in violation, per station alleged, per day of the alleged violation.

“(2) *COMMISSION DECISION.*—The Commission shall issue a final determination resolving a complaint brought under this subsection not later than 180 days after the submission of a complaint under this subsection. The Commission may hear witnesses if it clearly appears, based on written filings by the parties, that there is a genuine dispute about material facts. Except as provided in the preceding sentence, the Commission may issue a final ruling based on written filings by the parties.

“(3) *REMEDIES IN ADDITION.*—The remedies under this subsection are in addition to any remedies available under title 17, United States Code.

“(4) *NO EFFECT ON COPYRIGHT PROCEEDINGS.*—Any determination, action, or failure to act of the Commission under this subsection shall have no effect on any proceeding under title 17, United States Code, and shall not be introduced in evidence in

any proceeding under that title. In no instance shall a Commission enforcement proceeding under this subsection be required as a predicate to the pursuit of a remedy available under title 17.

“(g) NOTICES CONCERNING SIGNIFICANTLY VIEWED STATIONS.—Each satellite carrier that proposes to commence the retransmission of a station pursuant to this section in any local market shall—

“(1) not less than 60 days before commencing such retransmission, provide a written notice to any television broadcast station in such local market of such proposal; and

“(2) designate on such carrier’s website all significantly viewed signals carried pursuant to section 340 and the communities in which the signals are carried.

“(1) COMMUNITY-BY-COMMUNITY ELECTIONS.—The Commission shall, no later than October 30, 2005, revise section 76.66 of its regulations (47 CFR 76.66), concerning satellite broadcast signal carriage, to permit (at the next cycle of elections under section 325) a television broadcast station that is located in a local market into which a satellite carrier retransmits a television broadcast station pursuant to section 338, to elect, with respect to such satellite carrier, between retransmission consent pursuant to such section 325 and mandatory carriage pursuant to section 338 separately for each county within such station’s local market, if—

“(A) the satellite carrier has notified the station, pursuant to paragraph (3), that it intends to carry another affiliate of the same network pursuant to this section during the relevant election period in the station’s local market; or

“(B) on the date notification under paragraph (3) was due, the satellite carrier was retransmitting into the station’s local market pursuant to this section an affiliate of the same television network.

“(A) **RULES FOR GRANDFATHERED SUBSCRIBERS TO ANALOG SIGNALS.**—

“(i) **FOR THOSE RECEIVING DISTANT ANALOG SIGNALS.**—In the case of a subscriber of a satellite carrier who is eligible to receive the analog signal of a network station solely by reason of section 119(e) of title 17, *United States Code* (in this subparagraph referred to as a ‘distant analog signal’), and who, as of October 1, 2004, is receiving the distant analog signal of that network station, the following shall apply:

“(I) In a case in which the satellite carrier makes available to the subscriber the analog signal of a local network station affiliated with the same television network pursuant to section 338, the carrier may only provide the secondary transmissions of the distant analog signal of a station affiliated with the same network to that subscriber—

“(aa) if, within 60 days after receiving the notice of the satellite carrier under section 338(h)(1) of this Act, the subscriber elects to retain the distant analog signal; but

“(bb) only until such time as the subscriber elects to receive such local analog signal.

“(II) Notwithstanding subclause (I), the carrier may not retransmit the distant analog signal to any subscriber who is eligible to receive the analog signal of a network station solely by reason of section 119(e) of title 17, *United States Code*, unless such carrier, within 60 days after the date of the enactment of the *Satellite Home Viewer Extension and Reauthorization Act of 2004*, submits to that television network the list and statement required by subparagraph (F)(i).

“(ii) **FOR THOSE NOT RECEIVING DISTANT ANALOG SIGNALS.**—In the case of any subscriber of a satellite carrier who is eligible to receive the distant analog signal of a network station solely by reason of section 119(e) of title 17, *United States Code*, and who did not receive a distant analog signal of a station affiliated with the same network on October 1, 2004, the carrier may not provide the secondary transmissions of the distant analog signal of a station affiliated with the same network to that subscriber.

“(B) **RULES FOR OTHER SUBSCRIBERS TO ANALOG SIGNALS.**—In the case of a subscriber of a satellite carrier who is eligible to receive the analog signal of a network station under this section (in this subparagraph referred to as a

'distant analog signal'), other than subscribers to whom subparagraph (A) applies, the following shall apply:

“(i) In a case in which the satellite carrier makes available to that subscriber, on January 1, 2005, the analog signal of a local network station affiliated with the same television network pursuant to section 338, the carrier may only provide the secondary transmissions of the distant analog signal of a station affiliate with the same network to that subscriber if the subscriber’s satellite carrier, not later than March 1, 2005, submits to that television network the list and statement required by subparagraph (F)(i).

“(ii) In a case in which the satellite carrier does not make available to that subscriber, on January 1, 2005, the analog signal of a local network station pursuant to section 338, the carrier may only provide the secondary transmissions of the distant analog signal of a station affiliated with the same network to that subscriber if—

“(I) that subscriber seeks to subscribe to such distant analog signal before the date on which such carrier commences to carry pursuant to section 338 the analog signals of stations from the local market of such local network station; and

“(II) the satellite carrier, within 60 days after such date, submits to each television network the list and statement required by subparagraph (F)(ii).

“(C) FUTURE APPLICABILITY.—A satellite carrier may not provide a distant analog signal (within the meaning of subparagraph (A) or (B)) to a person who—

“(i) is not a subscriber lawfully receiving such secondary transmission as of the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004; and

“(ii) at the time such person seeks to subscribe to receive such secondary transmission, resides in a local market where the satellite carrier makes available to that person the analog signal of a local network station affiliated with the same television network pursuant to section 338, and the retransmission of such signal by such carrier can reach such subscriber.

“(D) SPECIAL RULES FOR DISTANT DIGITAL SIGNALS.—

“(i) ELIGIBILITY.—In the case of a subscriber of a satellite carrier who, with respect to a local network station—

“(I) is a subscriber whose household is located outside the coverage area of the analog signal of such station as predicted by the model specified in subsection (c)(3) of this section for the signal intensity required under section 73.683(a) of title 47 of the Code of Federal Regulations, or a successor regulation;

“(II) is in an unserved household as determined under section 119(d)(1)(A) of title 17, United States Code; or

“(III) is, after the date on which the conditions required by clause (vii) are met with respect to such station, determined under clause (vi) of this subparagraph to be unable to receive a digital signal of such local network station that exceeds the signal intensity standard specified in such clause; such subscriber is eligible to receive the digital signal of a distant network station affiliated with the same network under this section (in this subparagraph referred to as a ‘distant digital signal’) subject to the provisions of this subparagraph.

“(ii) **PRE-ENACTMENT DISTANT DIGITAL SIGNAL SUBSCRIBERS.**—Any eligible subscriber under this subparagraph who is a lawful subscriber to such a distant digital signal as of the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004 may continue to receive such distant digital signal, whether or not such subscriber elects to subscribe to local digital signals.

“(iii) **LOCAL-TO-LOCAL ANALOG MARKETS.**—In a case in which the satellite carrier makes available to an eligible subscriber under this subparagraph the analog signal of a local network station pursuant to section 338, the carrier may only provide the distant digital signal of a station affiliated with the same network to that subscriber if—

“(I) in the case of any local market in the 48 contiguous States of the United States, the distant digital signal is the secondary transmission of a station whose prime time network programming is generally broadcast simultaneously with, or later than, the prime time network programming of the affiliate of the same network in the local market;

“(II) in any local market, the retransmission of the distant digital signal of the distant station occupies at least the equivalent bandwidth (as such term is defined by the Commission under section 340(h)(4)) as the digital signal broadcast by such station; and

“(III) the subscriber subscribes to the analog signal of such local network station within 60 days after such signal is made available by the satellite carrier, and adds to or replaces such analog signal with the digital signal from such local network station within 60 days after such signal is made available by the satellite carrier, except that such distant digital signal may continue to be provided to a subscriber who cannot be reached by the satellite transmission of the local digital signal.

“(iv) **LOCAL-TO-LOCAL DIGITAL MARKETS.**—After the date on which a satellite carrier makes available the digital signal of a local network station, the carrier

may not offer the distant digital signal of a network station affiliated with the same television network to any new subscriber to such distant digital signal after such date, except that such distant digital signal may be provided to a new subscriber who cannot be reached by the satellite transmission of the local digital signal.

“(v) *NON-LOCAL-TO-LOCAL MARKETS.*—After the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, if the satellite carrier does not make available the digital signal of a local network station in a local market, the satellite carrier may offer a new subscriber after such date who is eligible under this subparagraph a distant digital signal from a station affiliated with the same network and, in the case of any local market in the 48 contiguous States of the United States, whose prime time network programming is generally broadcast simultaneously with, or later than, the prime time network programming of the affiliate of the same network in the local market, except that—

“(I) such carrier may continue to provide such distant digital signal to such a subscriber after the date on which the carrier makes available the digital signal of a local network station affiliated with such network only if such subscriber subscribes to the digital signal from such local network station; and

“(II) the limitation contained in subclause (I) of this clause shall not apply to a subscriber that cannot be reached by the satellite transmission of the local digital signal.

“(vi) *SIGNAL TESTING FOR DIGITAL SIGNALS.*—

“(I) A subscriber shall be eligible for a distant digital signal under clause (i)(III) if such subscriber is determined, based on a test conducted in accordance with section 73.686(d) of title 47, Code of Federal Regulations, or any successor regulation, not to be able to receive a signal that exceeds the signal intensity standard in section 73.622(e)(1) of title 47, Code of Federal Regulations, as in effect on the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004.

“(II) Such test shall be conducted, upon written request for a digital signal strength test by the subscriber to the satellite carrier, within 30 days after the date the subscriber submits such request for the test. Such test shall be conducted by a qualified and independent person selected by the satellite carrier and the network station or stations, or who has been previously approved by the satellite carrier and by each affected network station but not previously disapproved. A tester may not be so disapproved for a test after the tester has commenced such test.

“(III) Unless the satellite carrier and the network station or stations otherwise agree, the costs of conducting the test shall be borne as follows:

“(aa) If the subscriber is not eligible for a distant digital signal under clause (i)(I) of this subparagraph (by reason of being outside of the coverage area of the analog signal), the satellite carrier may request the station licensee for a waiver.

“(bb) If the licensee agrees to a waiver, or fails to respond to a waiver request within 30 days, the subscriber may receive such distant digital signal.

“(cc) If the licensee refuses to grant a waiver, the subscriber may request the satellite carrier to conduct the test.

“(dd) If the satellite carrier requests the test and—

“(AA) the station’s signal is determined to exceed such signal intensity standard, the costs of the test shall be borne by the satellite carrier;

“(BB) the station’s signal is determined to not exceed such signal intensity standard, the costs of the test shall be borne by the licensee.

“(ee) If the satellite carrier does not request the test, or fails to respond within 30 days, the subscriber may request the test be conducted under the supervision of the carrier, and the costs of the test shall be borne by the subscriber in accordance with regulations prescribed by the Commission. Such regulations shall also require the carrier to notify the subscriber of the typical costs of such test.

“(vii) TRIGGER EVENTS FOR USE OF TESTING.—A subscriber shall not be eligible for a distant digital signal under clause (i)(III) pursuant to a test conducted under clause (vii) until—

“(I) in the case of a subscriber whose household is located within the area predicted to be served (by the predictive model for analog signals under subsection (b)(3) of this section) by the signal of a local network station and who is seeking a distant digital signal of a station affiliated with the same network as that local network station—

“(aa) April 30, 2006, if such local network station is within the top 100 television markets and—

“(AA) has received a tentative digital television service channel designation that is the same as such station’s current digital television service channel; or

“(BB) has been found by the Commission to have lost interference protection; or

“(bb) July 15, 2007, for any other local network stations, other than translator stations licensed to broadcast on the date of en-

actment of the Satellite Home Viewer Extension and Reauthorization Act of 2004; or

“(II) in the case of a translator station, one year after the date on which the Commission completes all actions necessary for the allocation and assignment of digital television licenses to television translator stations.

“(viii) TESTING WAIVERS.—Upon request by a local network station, the Commission may grant a waiver with respect to such station to the beginning of testing under clause (vii), and prohibit subscribers from receiving digital signal strength testing with respect to such station. Such a request shall be filed not less than 5 months prior to the implementation deadline specified in such clause, and the Commission shall act on such request by such implementation deadline. Such a waiver shall expire at the end of not more than 6 months, except that a waiver may be renewed upon a proper showing. The Commission may only grant such a request upon submission of clear and convincing evidence that the station’s digital signal coverage is limited due to the unremediable presence of one or more of the following:

“(I) the need for international coordination or approvals;

“(II) clear zoning or environmental legal impediments;

“(III) force majeure;

“(IV) the station experiences a substantial decrease in its digital signal coverage area due to necessity of using side-mounted antenna;

“(V) substantial technical problems that result in a station experiencing a substantial decrease in its coverage area solely due to actions to avoid interference with emergency response providers; or

“(VI) no satellite carrier is providing the retransmission of the analog signals of local network stations under section 338 in the local market.

Under no circumstances may such a waiver be based upon financial exigency.

“(ix) SPECIAL WAIVER PROVISION FOR TRANSLATORS.—Upon request by a television translator station, the Commission may grant, for not more than 3 years, a waiver with respect to such station to the beginning of testing under clause (vii), and prohibit subscribers from receiving digital signal strength testing with respect to such station, if the Commission determines that the translator station is not broadcasting a digital signal due to one or more of the following:

“(I) frequent occurrence of inclement weather;

or

“(II) mountainous terrain at the transmitter tower location.

“(x) SAVINGS PROVISION.—Nothing in this subparagraph shall be construed to affect a satellite carrier’s obligations under section 338.

“(xi) DEFINITION.—For purposes of clause (viii), the term ‘emergency response providers’ means Federal, State, or local governmental and nongovernmental emergency public safety, law enforcement, fire, emergency response, emergency medical (including hospital emergency facilities), and related personnel, organizations, agencies, or authorities.

“(E) AUTHORITY TO GRANT STATION-SPECIFIC WAIVERS.—This paragraph shall not prohibit a retransmission of a distant analog signal or distant digital signal (within the meaning of subparagraph (A), (B), or (D)) of any distant network station to any subscriber to whom the signal of a local network station affiliated with the same network is available, if and to the extent that such local network station has affirmatively granted a waiver from the requirements of this paragraph to such satellite carrier with respect to retransmission of such distant network station to such subscriber.

“(F) NOTICES TO NETWORKS OF DISTANT SIGNAL SUBSCRIBERS.—

“(i) Within 60 days after the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, each satellite carrier that provides a distant signal of a network station to a subscriber pursuant to subparagraph (A) or (B)(i) of this paragraph shall submit to each network—

“(I) a list, aggregated by designated market area, identifying each subscriber provided such a signal by—

“(aa) name;

“(bb) address (street or rural route number, city, State, and zip code); and

“(cc) the distant network signal or signals received; and

“(II) a statement that, to the best of the carrier’s knowledge and belief after having made diligent and good faith inquiries, the subscriber is qualified under the existing law to receive the distant network signal or signals pursuant to subparagraph (A) or (B)(i) of this paragraph.

“(ii) Within 60 days after the date a satellite carrier commences to carry pursuant to section 338 the signals of stations from a local market, such a satellite carrier that provides a distant signal of a network station to a subscriber pursuant to subparagraph (B)(ii) of this paragraph shall submit to each network—

“(I) a list identifying each subscriber in that local market provided such a signal by—

“(aa) name;

“(bb) address (street or rural route number, city, State, and zip code); and

“(cc) the distant network signal or signals received; and

“(II) a statement that, to the best of the carrier’s knowledge and belief after having made diligent and good faith inquiries, the subscriber is qualified under the existing law to receive the distant network signal or signals pursuant to subparagraph (B)(ii) of this paragraph.

“(G) OTHER PROVISIONS NOT AFFECTED.—This paragraph shall not affect the eligibility of a subscriber to receive secondary transmissions under section 340 of this Act or as an unserved household included under section 119(a)(12) of title 17, United States Code.

“(H) AVAILABLE DEFINED.—For purposes of this paragraph, a satellite carrier makes available a local signal to a subscriber or person if the satellite carrier offers that local signal to other subscribers who reside in the same zip code as that subscriber or person.”; and

(4) in paragraph (3) (as redesignated by paragraph (2) of this subsection), by adding at the end the following: “, except that paragraph (2)(D) of this subsection, relating to the provision of distant digital signals, shall be enforceable under the provisions of section 340(f)”.

(b) STUDY OF DIGITAL STRENGTH TESTING PROCEDURES.—Section 339(c) of such Act (47 U.S.C. 339(c)) is amended by striking paragraph (1) and inserting the following:

“(1) STUDY OF DIGITAL STRENGTH TESTING PROCEDURES.—

“(A) STUDY REQUIRED.—Not later than one year after the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, the Federal Communications Commission shall complete an inquiry regarding whether, for purposes of identifying if a household is unserved by an adequate digital signal under section 119(d)(10) of title 17, United States Code, the digital signal strength standard in section 73.622(e)(1) of title 47, Code of Federal Regulations, or the testing procedures in section 73.686(d) of title 47, Code of Federal Regulations, such statutes or regulations should be revised to take into account the types of antennas that are available to consumers.

“(B) STUDY CONSIDERATIONS.—In conducting the study under this paragraph, the Commission shall consider whether—

“(i) to account for the fact that an antenna can be mounted on a roof or placed in a home and can be fixed or capable of rotating;

“(ii) section 73.686(d) of title 47, Code of Federal Regulations, should be amended to create different procedures for determining if the requisite digital signal strength is present than for determining if the requisite analog signal strength is present;

“(iii) a standard should be used other than the presence of a signal of a certain strength to ensure that a household can receive a high-quality picture using antennas of reasonable cost and ease of installation;

“(iv) to develop a predictive methodology for determining whether a household is unserved by an adequate digital signal under section 119(d)(10) of title 17, United States Code;

“(v) there is a wide variation in the ability of reasonably priced consumer digital television sets to receive over-the-air signals, such that at a given signal strength some may be able to display high-quality pictures while others cannot, whether such variation is related to the price of the television set, and whether such variation should be factored into setting a standard for determining whether a household is unserved by an adequate digital signal; and

“(vi) to account for factors such as building loss, external interference sources, or undesired signals from both digital television and analog television stations using either the same or adjacent channels in nearby markets, foliage, and man-made clutter.

“(C) REPORT.—Not later than one year after the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, the Federal Communications Commission shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report containing—

“(i) the results of the study under this paragraph; and

“(ii) recommendations, if any, as to what changes should be made to Federal statutes or regulations.”.

“(i) offering to substitute the local network signal for the duplicating distant network signal; and

“(ii) informing the subscriber that, if the subscriber fails to respond in 60 days, the subscriber will lose the distant network signal but will be permitted to subscribe to the local network signal; and

“(B) if the subscriber—

“(i) elects to substitute such local network signal within such 60 days, switch such subscriber to such

local network signal within 10 days after the end of such 60-day period; or

“(iii) that such licensee has 30 days from the date of the receipt of such notice to make such election; and

“(iv) that failure to make such election will result in the loss of the right to demand carriage under this section for the remainder of the 3-year cycle of carriage under section 325.

“(C) TRANSMISSION OF NOTICES.—Such regulations shall require that each satellite carrier shall transmit the notices required by such regulation via certified mail to the address for such television station licensee listed in the consolidated database system maintained by the Commission.”.

Such hearing shall be conducted pursuant to the provisions of sections 554, 556, and 557 of title 5, United States Code. If after hearing, or a waiver thereof, the Administrator determines that an order revoking or suspending the authority or a cease and desist order should be issued, the Administrator shall promptly issue such order, which shall include a statement of the findings of the Administrator and the grounds and reasons therefor and specify the effective date of the order, and shall cause the order to be served on the small business lending company, non-Federally regulated lender, or other person involved.*

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4818) making appropriations for foreign operations, export financing, and related programs for the fiscal year ending September 30, 2005, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

This conference agreement includes the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2005; the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2005; the Energy and Water Development Appropriations Act, 2005; the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 2005; the Interior and Related Agencies Appropriations Act, 2005; the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2005; the Legislative Branch Appropriations Act, 2005; the Transportation, Treasury, and Independent Agencies Appropriations Act, 2005; the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2005; and other matters included in division J.

DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2005

CONGRESSIONAL DIRECTIVES

The statement of the managers remains silent on provisions that were in both the House and Senate bills that remain unchanged by this conference agreement, except as noted in this statement of the managers.

The conferees agree that executive branch wishes cannot substitute for Congress' own statements as to the best evidence of congressional intentions—that is, the official reports of the Congress. The conferees further point out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law."

The House and Senate report language that is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

TITLE I—AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING, AND MARKETING

OFFICE OF THE SECRETARY

The conference agreement provides \$5,124,000 for the Office of the Secretary as proposed by the Senate instead of \$4,185,000 as proposed by the House.

The conference agreement provides the fiscal year 2004 funding level for cross-cutting trade negotiations and biotechnology resources in the following accounts: Office of the Secretary; Animal and Plant Health Inspection Service; Grain Inspection, Packers and Stockyards Administration; and the Foreign Agricultural Service.

The conferees appreciate receiving the detailed information provided in the Explanatory Notes prepared by the Department and rely heavily on this information when considering budget proposals. These materials have traditionally been prepared for the sole use of the Committees on Appropriations in a format consistent with the organization and operation of the programs and the structure of the Appropriations Act. At the direction of the Office of Management and Budget, the Department has changed the format and content of these materials to focus on broader goals and objectives rather than the major program structure followed in the Act, and in the actual conduct of the programs. The new organization and content does not present budget information in a format useful to the deliberations of the Committees. For fiscal year 2006 and future years, the Department is directed to present Explanatory Notes in a format consistent with the presentation used for the fiscal year 2002 Budget. Any deviations from that format are to be approved in advance by the Committees.

The Homeland Security Act of 2002 transferred a number of functions previously under the direct jurisdiction of USDA to the newly created Department of Homeland Security [DHS]. Among these functions were research and diagnostic activities located at Plum Island, New York, and Agricultural Quarantine Inspection [AQI] activities located along our nation's borders and at select transportation centers. The conferees are aware of ongoing concerns within the agriculture sector that the transfer of these responsibilities may shift the focus away from agriculture to other priority areas of DHS. In order to ensure that the interests of U.S. agriculture are protected and that the intent of the Homeland Security Act of 2002 is being fully met, including the proper allocation of AQI and other funds, the conferees request the Government Accountability Office to provide a report, no later than March 1, 2005, on the coordination between USDA and DHS in protecting the U.S. agriculture sector, including a description of the long-term objectives of joint activities at Plum Island and the effectiveness of AQI and other inspection activities.

On previous occasions, both Committees have made clear that they expect the administration to abide by the statutory set-aside

for non-emergency food aid programs. The Bill Emerson Humanitarian Trust (BEHT) exists so that the United States can provide emergency food aid above the appropriated level and not have to reduce funding for non-emergency programs. The conferees are concerned that the administration has continued to use non-emergency funds for emergency purposes. The conferees urge the administration to use the trust for its intended purpose. If the administration continues to waive the non-emergency set-aside for emergencies that could be funded from the BEHT, the Committees may consider taking action to ensure this does not continue.

Despite numerous communications from the Congress over the past year urging USDA to improve the utilization and budget of the U.S. National Arboretum, operated by the Agricultural Research Service, the Department continues to neglect the management of this important public resource. The Department has failed to conclude longstanding discussions to enter into effective fundraising initiatives through the not-for-profit association, Friends of the National Arboretum, which would offer the prospects of enhanced financial resources beyond federal taxpayers' dollars. At the same time, the Department has failed to manage the budget of the Arboretum in a manner that adequately provides for its current and future needs, including appropriate security and public access measures. The conferees are disturbed by the inadequacy of the Department's actions to date, and direct the Secretary to take immediate steps to address and resolve these inadequacies. The conferees direct the Secretary to submit a written report, within 30 days of enactment of this Act, to the Committees on Appropriations on the steps taken as well as plans for any additional steps to address such concerns. The report shall include a timetable for implementation and monitoring of results.

EXECUTIVE OPERATIONS

CHIEF ECONOMIST

The conference agreement provides \$10,317,000 for the Office of the Chief Economist instead of \$10,810,000 as proposed by the House and \$9,817,000 as proposed by the Senate.

The conference agreement provides an increase of \$1,500,000 for a preferred procurement system and a labeling system for bio-based products.

The conference agreement provides \$14,331,000 for the National Appeals Division instead of \$14,526,000 as proposed by the House and \$14,154,000 as proposed by the Senate. The conferees provide an increase of \$477,000 to be applied to the highest priority needs for which additional funding was requested.

The conference agreement provides \$8,228,000 for the Office of Budget and Program Analysis instead of \$8,246,000 as proposed by the House and \$8,128,000 as proposed by the Senate.

HOMELAND SECURITY STAFF

The conference agreement provides \$775,000 for Homeland Security Staff instead of \$508,000 as proposed by the House and \$1,000,000 as proposed by the Senate. Of the amount provided, \$270,000 is to continue operations originally funded by counterterrorism/homeland security supplemental funds.

OFFICE OF THE CHIEF INFORMATION OFFICER

The conference agreement provides \$16,595,000 for the Office of the Chief Information Officer instead of \$15,608,000 as proposed by the House and \$17,595,000 as proposed by the Senate. The conferees provide an increase of \$1,000,000 to be applied to the highest priority needs for which additional funding was requested.

The conferees have learned that the Department transferred more than \$16,000,000 in agency funds to the Office of the Chief Information Officer in fiscal years 2003 and 2004 to help finance several Presidential eGovernment initiatives. The Department testified that, in addition, it collected fiscal years 2003 and 2004 funds in unspecified amounts from USDA agencies for its own eGovernment initiatives. The conferees are extremely disturbed that the Department has failed to comply with Section 718 of Public Law 108-199 that plainly states that no funds may be transferred to the Office of the Chief Information Officer without the prior approval of the Committees on Appropriations of both Houses of Congress. The USDA General Counsel's office advised the USDA Chief Information Officer in a memorandum dated April 20, 2004, that the Department notify the Committees of its intention to transfer funds to the Office of the Chief Information Officer and await a response. Yet, in spite of the clear legislative language and the General Counsel's advice, the Department proceeded to transfer these funds without the notification and approval of Congress. The Department further testified that the cost of these eGovernment initiatives will exceed \$40,000,000 in fiscal year 2005, and about its plans to use the Greenbook mechanism to manage agency contributions towards funding these initiatives. The conferees again direct that no funds be transferred, contributed, pooled or otherwise made available from the agencies to the Office of the Chief Information Officer without the prior approval of the Committees on Appropriations of both Houses of Congress. The conferees further direct that the Department provide, no later than February 1, 2005, a report on the fiscal years 2003, 2004, and estimated 2005 funds, transferred to the Office of the Chief Information Officer through interagency agreements, the Greenbook mechanism, or any other means. The report should identify the amounts transferred or otherwise made available, by Agency, how those funds were or are to be used and the impact of the transfers on agency program activities.

COMMON COMPUTING ENVIRONMENT

The conference agreement provides \$125,585,000 for common computing environment as proposed by the Senate. The House proposed funding these activities within the affected mission areas.

The conferees are aware that the acquisition of geospatial data and Geographic Information System technologies is critical to the Department of Agriculture's plans to modernize its County Service Centers and install a common computing environment that optimizes information sharing, customer service, and staff efficiencies, and improves the Department's ability to track and react to natural and/or man-made disasters. Within the funds provided in this Act, the conferees encourage the Department to provide the appropriate level of support to the National Agricultural Imagery Program for the acquisition of geospatial data and Geographic Information System technologies.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The conferees provide an increase of \$1,458,000 to be applied to the highest priority needs for which additional funding was requested.

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

The conference agreement provides \$669,000 for the Office of the Assistant Secretary for Administration as proposed by the House instead of \$682,000 as proposed by the Senate.

The conferees provide an increase of \$625,000 to be applied to the highest priority needs for which additional funding was requested.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION AND
ECONOMICS

The conference agreement provides \$592,000 for the Office of the Under Secretary for Research, Education and Economics as proposed by the House instead of \$605,000 as proposed by the Senate.

The conference agreement provides \$74,768,000 for the Economic Research Service instead of \$76,575,000 as proposed by the House and \$75,268,000 as proposed by the Senate. The conferees provide an increase of \$3,500,000 to be applied to the highest priority needs for which additional funding was requested.

The conference agreement does not adopt House report language for a comprehensive study of WIC-only stores.

NATIONAL AGRICULTURAL STATISTICS SERVICE

The conference agreement provides \$129,480,000 for the National Agricultural Statistics Service instead of \$128,661,000 as proposed by the House and \$130,299,000 as proposed by the Senate. The conferees provide an increase of \$2,681,000 for requested program initiatives for agricultural estimates. Also included in this amount is \$22,405,000 for the Census of Agriculture as proposed by the Senate, instead of \$22,520,000 as proposed by the House.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The conference agreement provides \$1,110,887,000 for the Agricultural Research Service, Salaries and Expenses, instead of \$1,057,029,000 as proposed by the House and \$1,090,261,000 as proposed by the Senate.

The conference agreement continues the fiscal year 2004 level of funding for all research projects proposed to be terminated in the President's budget as provided in House Report 108-584 and Senate Report 108-340 accompanying the fiscal year 2005 Agriculture Appropriations bills, including the following at all locations: Aqua-

culture Density Research (Stuttgart, AR); Water Resources Management (Tifton, GA); Water Use Management Technology (Tifton, GA); Great Basins Rangeland (Boise, ID); Source Water Protection (West Lafayette, IN); Great Basins Rangeland (Reno, NV); Western Grazinglands (Reno, NV); and, Pasture Systems and Watershed Management (University Park, PA).

The conference agreement provides an increase of \$125,000 for the Children's Nutrition Research Center at Houston, TX, for a cooperative research project with Baylor College of Medicine and the Peanut Institute to examine ways to prevent the onset of chronic diseases and the growing problem of overweight children.

The conferees direct that a portion of the funding for grape rootstock should be allocated to support the ongoing grape industry research strategic planning process.

The conference agreement provides an increase of \$75,000 above the fiscal year 2004 level for the Grand Forks Human Nutrition Laboratory for a cooperative agreement with the Northern Great Plains Research Laboratory, Mandan, ND, the University of North Dakota, and North Dakota State University on a healthy beef initiative.

The conferees note the growing concern raised by the soybean industry due to the threat of soybean rust. The conferees also note the recent announcement by the Department of Agriculture that soybean rust has now been confirmed in the United States. Soybean rust is a fungus that appears on the leaves of the plant and eventually causes premature defoliation which brings about substantial yield loss. The conferees encourage the Department to accelerate research on plant varieties that improve tolerance to soybean rust pathogens.

The conferees do not include funding for the development of a wine grape foundation block of certified "clean" rootstock in ARS. The conference agreement provides funding for this vital research in the Cooperative State Research, Education, and Extension Service account.

BUILDINGS AND FACILITIES

The conference agreement provides \$187,838,000 for the Agricultural Research Service, Buildings and Facilities, instead of \$202,000,000 as proposed by the House and \$172,838,000 as proposed by the Senate.

The following items reflect the conference agreement: National Center for Animal Health (Ames, Iowa), \$122,000,000; Grape Genomics Research Center (Davis, California), \$3,000,000; U.S. Agricultural Research Station (Salinas, California), \$3,000,000; U.S. Pacific Basin Agricultural Research Center (Hilo, Hawaii), \$3,000,000; Aquaculture Facility (Aberdeen/Billingsley Creek, Idaho) \$1,000,000; National Center for Agricultural Utilization Research (Peoria, Illinois), \$3,000,000; Animal Waste Management Research Laboratory (Bowling Green, Kentucky), \$2,300,000; Forage-Animal Research Laboratory (Lexington, Kentucky) \$3,000,000; ARS Sugarcane Research Laboratory (Houma, Louisiana), \$3,000,000; Northeast Marine Cold Water Aquaculture Research Center (Orono/Franklin, Maine), \$3,000,000; Beltsville Agricultural Research Center (Beltsville, Maryland), \$3,000,000; Jamie Whitten

Delta States Research Center (Stoneville, Mississippi), \$3,000,000; Poultry Science Research Facility (Starkville, Mississippi), \$3,000,000; National Plant and Genetics Security Center (Columbia, Missouri), \$5,000,000; Animal Bioscience Facility (Bozeman, Montana), \$2,000,000; Center for Grape Genetics (Geneva, New York), \$3,000,000; Center for Crop-based Health Genomics (Ithaca, New York), \$3,000,000; University of Toledo (Toledo, Ohio), \$2,000,000; Southern Plains Research Station (Woodward, Oklahoma), \$3,000,000; U.S. Vegetable Laboratory (Charleston, South Carolina), \$3,000,000; ARS Research Laboratory (Pullman, Washington), \$3,000,000; Appalachian Fruit Laboratory (Kearneysville, West Virginia), \$3,638,000; and, Nutrient Management Laboratory (Marshfield, Wisconsin), \$4,900,000.

The conferees note that there is widespread interest in additional construction and renovation of ARS facilities throughout the country. This is not surprising when considering the fact that many of the existing facilities are decades old. The conferees continue to believe that the ARS needs a master plan for addressing these needs. Until such a master plan can be developed, however, the Committees will not consider funding requests for projects for which a prospectus has not been completed and submitted to the Committees by March 1 of each year. Each prospectus shall, at a minimum, include the following information: the feasibility, requirements, and scope of the proposed project; details on building size, cost, associated facilities, scientific capacity, and other requirements; and details on existing and planned program and resource requirements. Further, the conferees strongly encourage the ARS to determine the merits and priority for these projects.

The purpose and intent of the ARS Buildings and Facilities account is to provide new, replacement, and modernized Federal laboratories and facilities needed to carry out and strengthen ARS research and to protect the Government's significant investment in these Federal assets. As noted in House Report 108-584 and Senate Report 108-340, there has been widespread interest in additional construction and renovation of the Department's research facilities throughout the country. The conferees encourage ARS to consider the development of a master plan that deals with ARS programs and related buildings priorities. This will be useful to the Committees in assessing and determining ARS in-house laboratory requirements.

COOPERATIVE STATE RESEARCH, EDUCATION, AND EXTENSION SERVICE

RESEARCH AND EDUCATION ACTIVITIES

The conference agreement provides \$660,781,000 for research and education activities instead of \$628,607,000 as proposed by the House and \$628,492,000 as proposed by the Senate.

The conference agreement includes bill language for the following items: West Virginia State University as proposed by the Senate instead of West Virginia State College as proposed by the House; and, \$500,000 for resident instruction grants for insular areas as proposed by the House.
