The Committee recommends new budget (obligational authority) of \$2,464,589,000 for the legislative branch, for fiscal year 2005. This total is \$331,865,000 below the budget request and \$8,053,000 above the fiscal year 2004 level. The bill excludes House items pursuant to the normal protocol.

The bill includes \$226,925,000 for the U.S. Capitol Police; \$308,042,000 for the Architect of the Capitol to maintain, improve, and construct buildings and facilities of the Congress; \$470,000,000 for the Government Accountability Office; \$544,092,000 for the Library of Congress; and \$725,067,000 for operations of the Senate.

The Committee expects all agencies to notify the Committee of any significant departures from budget plans presented to the Committee in any agency's budget justifications. In particular, agencies funded through this bill are required to notify the Committee prior to each reprogramming of funds in excess of the lesser of 10 percent or \$500,000 between programs, projects or activities, or in excess of \$500,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$500,000 from or to a particular program, activity, or object classification as well as reprogramming of FTE's or funds to create new organizational entities within the Agency or to restructure entities which already exist. The Committee desires to be notified of reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committee's reports are affected.

The Committee also expects all agencies to submit operating plans for the Committee's approval within 30 days of the bill's enactment.

Budget estimate, 2005	136,066,000
Committee recommendation	127,182,000

The Committee recommends the appropriation of \$127,182,000 for expenses of the Sergeant at Arms, a reduction of \$8,061,000 below the enacted level and \$8,884,000 below the request, due to the deferral of funds related to operations of the Capitol Visitor Center and funding certain expense items through a fiscal year 2004 reprogramming.

The amount recommended includes \$20,045,000 to remain available for obligation until September 30, 2007. This includes \$10,315,000 for the purchase of computer equipment and software for Member offices and Committees. In addition, \$4,255,000 for procurement and maintenance of members' constituent mail systems is made available for obligation until September 30, 2009.

The Sergeant at Arms structure reflects seven major divisions: Capitol Division, Operations Division, Technology Development Services Division, IT Support Services Division, Office Support Services Division, Staff Offices Division, and the SMI Project Division. The Capitol Division consists of the Executive Office of the Sergeant at Arms and the Office of Security and Emergency Preparedness. These Offices provide the executive management and leadership of the Sergeant at Arms for day to day operations; for

security of the Senate side of the Capitol complex; and for liaison with the United States Capitol Police. The Operations Division provides printing, mailing, photographic and recording studio services and also furnishes and maintains the Senate side of the Capitol Building. The Technology Development Services Division supports enterprise information technology systems, applications development, Internet/intranet services, information security, and network engineering. The IT Support Services Division provides desktop computer support; correspondence management system acquisition, maintenance and support; telecommunications equipment and services; general office equipment; and new technology assessment. The Office Support Division includes desktop computer acquisition, state office liaison, and customer support. The Staff Offices Division includes Financial Management, Human Resources, The Joint Office of Education and Training, Administrative Services, and Information Technology Advisor.

The following table compares the component categories within this account for fiscal year 2004 and 2005 Committee recommendation.

SENATORS’ OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

Appropriations, 2004	\$305,719,000
Budget estimate, 2005	340,972,000
Committee recommendation	326,000,000

The Committee recommends an appropriation for fiscal year 2005 of \$326,000,000 for the Senators’ Official Personnel and Office Expense Account.

This account funds salaries and benefits of Senators’ staffs as well as the office expense allowance for Senators’ offices. The Senators’ official personnel and office expense allowance [SOPOEA] is comprised of three components. Two of these are for salaries of personnel in Senators’ offices. The allowance for administrative and clerical assistance is based on the population of States, beginning with States with a population of fewer than 5 million people to States with a population of 28 million or more. The table illustrates the allowances per population category and the States which fall into those categories.

The second component of the salaries allowance is for legislative assistance to Senators, as authorized by Public Law 95–94. This allowance provides funding for three positions in each Senator’s office at an annual rate of \$153,599 for a total of \$460,677 per office, or \$46,067,700 for all 100 Senators.

The third component of the SOPOEA is for office expenses. Each Senator’s office is allocated an amount for office expenses, as displayed in the following table, including the Committee on Rules and Administration’s reallocations of the official mail. In addition, an amount of \$20,328,942 is provided to cover additional expenses that may be incurred in the event of the death or resignation of a Senator, and to provide for transitional expenses during election years subject to regulations set by the Committee on Rules and Administration with respect to official mail.

It should be noted that the amounts provided for the various components of the SOPOEA are interchangeable. Amounts provided for salaries may be used for expenses, and vice versa, subject to regulations set by the Committee on Rules and Administration with respect to official mail. It should also be noted that the figures in the following table are preliminary, and that official notification of member budgets is issued by the Financial Clerk of the Senate after final passage of this bill.

The following table illustrates the several components of the SOPOEA.

According to the most recent employment data compiled by the Secretary of the Senate, as of April 30, 2004, there were 4,246 individuals employed in Senators' offices throughout the United States and covered by this appropriation.

U.S. SENATORS' STAFF AS OF SEPTEMBER 30, 1994–2003 AND APRIL 30, 2004

Year	Number of staff
1994	4,142
1995	4,112
1996	3,959

2001	3,964
2002	4,121
2003	4,148
2004	4,246

In addition to providing funds for compensation of employees within Senators' offices, this appropriation also provides for agency contributions for those employees; that is, the Senate's share, as an employer, of the various employee benefit programs for which Senate employees are eligible. These payments are mandatory, and fluctuate according to the programs in which employees are enrolled, the level of compensation, and the degree of participation. Budget requests for this account prepared by the Financial Clerk must be based on both experience and evaluation of trends. The fiscal year 2005 request for this account anticipates \$77,732,000 in agency contribution costs.

The amount recommended by the Committee for the SOPOEA is less than would be required to cover all obligations that could be incurred under the authorized allowances for all Senators. The Committee is able to recommend an appropriation of a lesser amount than potentially necessary because Senators typically do not obligate funds up to the absolute ceiling of their respective allowances. Evidence of this can be found in the semiannual report of the Secretary of the Senate.

The volumes are compiled jointly by the Senate and House Committees on Appropriations pursuant to a directive in the Legislative Appropriations Act of June 7, 1924.

CAPITOL POLICE

	<i>Recommended</i>
Salaries	\$198,000,000
Expenses	28,925,000
Total, Capitol Police	226,925,000

The Committee recommends \$226,925,000 for the U.S. Capitol Police. This is an increase of \$7,130,000 over fiscal year 2004. In addition to the amount recommended, another \$12,815,000 will be available from prior-year funds, for a total of \$239,740,000 in operational resources.

The Committee directs that no organizational changes be implemented prior to notification of the Committees on Appropriations.

SALARIES

Appropriations, 2004	\$196,434,000
Budget estimate, 2005 ¹	231,777,000
Committee recommendation	198,000,000

¹The USC requested a single "salaries and expenses" appropriation. The amount displayed reflects the salaries estimate only.

The Committee recommendation totals \$198,000,000 for salaries. In addition, the Committee directs that \$12,815,000 of prior-year funds be made available to support personnel requirements. A total of \$210,815,000 would support 1,602 sworn officers and 451 civilian FTEs. This represents an increase of 50 administrative personnel over the fiscal year 2004 level. The amount recommended will enable USCP to continue to enhance security for the Capitol complex and strengthen administrative functions.

The amount provided covers salaries, benefits, and overtime costs. Capitol Police personnel are also eligible for hazardous duty pay and comparability pay similar to locality pay adjustments granted other Federal law enforcement personnel in the Washington, DC, area.

The Committee believes key staff must be hired for financial management and other critical administrative activities. According to the Government Accountability Office, without additional staffing USCP will likely encounter future difficulties in ensuring accountability for the organization's assets and resources. The Committee expects USCP will act expeditiously to hire critical administrative personnel.

The Committee supports GAO's recommendation that the Chief Administrative Officer action plan must be updated to address goals and timetables for a dual track approach of improving the controls of current management processes and implementing the strategic initiatives necessary to make long-term progress that will assist USCP in determining and targeting the highest priorities across its management functions.

GENERAL EXPENSES

Appropriations, 2004	\$23,361,000
Budget estimate, 2005	32,859,000
Committee recommendation	28,925,000

The Committee recommends \$28,925,000 for general expenses of the Capitol Police, an increase of \$5,564,000 over fiscal year 2004. The Committee has included funds for all critical expense items. The Committee notes that almost \$7,000,000 in items requested in the fiscal year 2005 budget will be funded through a fiscal year 2004 reprogramming.

The Committee strongly supports the new mounted patrol and expects the new unit will be a great asset in helping the Capitol

Police become a world-class law enforcement agency. According to experts, a mounted patrol in a crowd provides the protection of at least 15 foot patrol officers. The Committee directs the USCP and AOC to coordinate the purchase, site selection, grading, access issues and utility and installation requirements of prefabricated stables and support sheds at the D.C. Village facility. Funds necessary to purchase and install this unit have been included in the Committee's recommendation. The AOC and USCP are directed to submit, not later than 30 days from the date of this report, a plan of action that addresses the concept of operations, funding and scheduling issues to the Committees on Appropriations of the Senate and House of Representatives. Upon completion of the plan, the AOC and USCP are directed to initiate expeditiously actions outlined in the plan of action to effect the completion of the stabling facility.

Expenses include office supplies and equipment, laundry and dry-cleaning, communications, motor vehicles, uniforms and equipment, investigations, training, and miscellaneous items.

ADMINISTRATIVE PROVISIONS

SEC. 1001. The Committee has included a routine provision which allows for funds to be transferred between the "Salaries" and "General expenses" accounts.

SEC. 1002. This provision makes technical changes to Public Law 108-83, section 1006, regarding detailing of Capitol Police officers for protection of the Library of Congress. The Committee fully expects USCP officers detailed to the Library of Congress will be fully trained, experienced officers capable of handling diverse security situations, the unique requirements and sensitivities of the Library's collections as well as transitional situations that will lead to a seamless, unified police organization.

SEC. 1003. This provision authorizes USCP to retain compensation for damaged or lost property.

SEC. 1004. This provision authorizes voluntary transfer of leave with other agencies, subject to requirements of section 6334(c) of title 5.

SEC. 1005. This provision authorizes Capitol Police to carry a weapon that is different from the weapon furnished by the Department during periods when the member or officer is not on duty. Such weapons would be specifically authorized by the USCP but would not be purchased with appropriated funds.

SEC. 1006. This provision relates to the protection of information that is sensitive to the policing, protection, physical security, counterterrorism, emergency response, and preparedness of the Congress and the Capitol buildings and grounds.

SEC. 1007. This provision authorizes the acceptance of donations of animals to be used in the Department's canine or equine units.

SEC. 1008. This provision authorizes the Chief of Police to settle and pay administrative claims under the Federal Torts Claims Act [FTCA] and the Military Personnel and Civilian Employees' Claims Act [MPCECA].

SEC. 1009. This provision authorizes, subject to the approval of the Capitol Police Board, the Capitol Police to travel in a non-law enforcement capacity to assist overseas congressional delegations in

a security advisory and liaison role, including advance security liaison preparations for such congressional foreign travel.

Appropriations, 2004	\$2,242,000
Budget estimate, 2005	2,950,000

Funding is not recommended for two additional FTE or new initiatives.

SALARIES AND EXPENSES

Appropriations, 2004	\$33,620,000
Budget estimate, 2005	35,455,000
Committee recommendation	34,790,000

The Committee recommends an appropriation of \$34,790,000 for the Congressional Budget Office. The amount recommended represents an increase of \$1,170,000 over the enacted level to cover anticipated pay and price level increases.

ARCHITECT OF THE CAPITOL

The Committee has recommended a funding level of \$308,042,000 and an FTE level of 1,489 for all activities of the Architect of the Capitol. Excluded are House items which are traditionally left for consideration by that body.

The following table shows the request and the Committee recommendation:

GENERAL ADMINISTRATION

Appropriations, 2004	\$76,598,000
Budget estimate, 2005	89,245,000
Committee recommendation	74,558,000

The Committee recommends an appropriation of \$74,558,000 for general administration. This will accommodate an FTE level of

322. A total of \$720,000 is made available until September 30, 2009.

The reduction of \$14,687,000 below the request is due to the elimination of lower priority projects, the rejection of new staffing requests, and the denial of funds for projects against which unobligated balances currently exist. The Committee strongly urges the Architect to take necessary steps to reduce unobligated prior-year balances. In addition, the Committee expects that completion of the Capitol Visitor Center project in a timely way within current funds will be the highest priority for the Architect of the Capitol.

The General Administration appropriation provides funding for salaries and related benefits of the Architect, officers, administrative and support staff, including engineering and architecture employees. This account also provides for administrative items such as agency-wide contractual services; surveys and studies; information technology; and safety engineering operations.

Chief Operating Officer Function.—The Committee is concerned that little has been accomplished through the new Chief Operating Officer [COO] function which this Committee created in fiscal year 2003. This function was intended to improve management, streamline day-to-day AOC operations, and effectuate team-building.

Specifically, Public Law 108–7 required that the COO prepare an action plan describing “the policies, procedures, and actions” to be implemented “and timeframes for carrying out the responsibilities under this section.” The Committee notes that the action plan submitted to Congress did not adequately describe how the COO will carry out the assigned responsibilities detailed in the legislation. Because the action plan is outlined at such a general level, it fails

to convey how the listed items link together to move the agency forward and address the Agency's longstanding and well-known weaknesses—the reason the Chief Operating Officer position was created. In addition, the plan lacks details of the steps necessary for completing the listed items, nor does it explain how individual items will be measured in order to monitor AOC's performance. Further, the plan does not specify how the items listed in the action plan relate to and link with the Agency's strategic plan, released on December 15, 2003, even though the legislation required that the action plan be “developed concurrently and consistent with the development of a strategic plan.”

In addition, this action plan was to be submitted not later than 90 days after the appointment of the Chief Operating Officer on July 28, 2003, but the plan was not submitted until December 22, 2003—almost 2 months late and with no evidence of having benefited from additional work over that period. The Committee notes that the action plan was delivered without briefing or discussion, which could have provided the relevant Committees with better understanding regarding the details of the implementation of the plan.

Based on ongoing monitoring efforts conducted by the Government Accountability Office [GAO], it appears that there have been no substantive improvements made to overall AOC operations by the new COO. In fact, the Committee is concerned that efforts by the COO to direct changes without the context of strategic objectives and a transparent, well-organized change management process are having a negative impact on morale, productivity, and effectiveness of the AOC as an institution. It is apparent that the intended results of this law have not been seriously addressed by the COO and that he has either misunderstood or intentionally ignored the purpose for which his position was created.

The Committee expects that substantive action will be taken by the Architect of the Capitol and his Chief Operating Officer to address management deficiencies by implementing changes and practices that will reflect the full intent of the law which established the COO position, and communicate regularly the status of these efforts to this Committee.

Personnel Realignment.—The Committee recognizes and supports the responsibility of the Architect of the Capitol to make organizational changes and decisions that will enhance the ability of the AOC to achieve its mission and result in the most effective and efficient use of resources. As such, the Committee approves the realignment of the electronic engineering, electrical power and energy related maintenance functions from General Administration to other jurisdictions in order to bring common responsibilities, functions and processes under direct, mission related (line) functions. These realignments assist in better capturing the true cost of the daily operations in a jurisdiction and reduce the size of overhead in the General Administration appropriation. The Committee expects to be kept informed regarding any potential impacts on current services and project delivery in the jurisdictions as a result of these realignments.

Slave Laborers and Capitol Construction.—The Committee directs the Architect, working with the Historians of the Senate and

House and the Librarian of Congress, to study the history and contributions of slave laborers in construction of the U.S. Capitol, and provide a report within 180 days of enactment of this Act.

CAPITOL POWER PLANT

Appropriations, 2004	\$81,062,000
Budget estimate, 2005	63,376,000
Committee recommendation	60,928,000

The Committee recommends an appropriation of \$60,928,000 for the operations of the Capitol Power Plant. This is supplemented by \$4,400,000 in reimbursements. Of the amount provided, \$2,190,000 shall remain available until September 30, 2009.

The FTE authorized level will be 116.

The Committee has reduced funding by \$2,448,000 below the request owing to the elimination of lower priority projects. Due to the significant increase anticipated in utility costs, the Committee has increased by \$1,500,000 funds recommended for such costs based on the most current estimates.

The reduction of \$20,108,000 below the enacted level reflects the fact that \$22,021,000 was provided in fiscal year 2004 for the last installment of funding for the West Refrigeration Plant expansion project. While the project has been delayed owing to weather-related problems, unforeseen site conditions, and other factors, it is the Committee's expectation that this project will be completed within budget and in a timeframe necessary to support new requirements associated with the Capitol Visitor Center. The Committee recognizes the positive steps AOC has taken to ensure this goal is met.

The Power Plant provides heat, light, power, and air-conditioning for the Capitol, Senate and House office buildings, and the Library of Congress buildings; heat, light, and power for the Botanic Garden and the Senate and House Garages; light for the Capitol Grounds' street, park, and floodlighting system; steam heat for the

Government Printing Office and Washington City Post Office, also known as Postal Square; and steam heat and air-conditioning for the Union Station complex, Folger Shakespeare Library, the Thurgood Marshall Federal Judiciary Building, and the U.S. Supreme Court Building on a reimbursable basis.

Within the operating budget, 76 percent of the recommended amount is for the purchase of electricity from the local private utility, payment to the government of the District of Columbia for the provision of water and sewer services, and the procurement of boiler fuel, as displayed in the following table.

FISCAL YEAR 2005 ESTIMATED UTILITY COSTS

Purchase of electrical energy	\$24,340,000
Purchase of natural gas	7,620,000
Purchase of steam	521,000
Purchase of chilled water	576,000
Purchase of coal	3,320,000
Purchase of oil	2,450,000
Water and sewer payments	3,710,000
Total	42,537,000

The balance of this appropriation supports a work force to operate and maintain the Power Plant.

The recommendation is \$26,217,000 above the enacted amount for fiscal year 2004. The FTE ceiling is 156.

The Committee notes that the amount provided represents an increase of 67 percent over the current year, and includes such major projects as additional storage modules at Fort Meade, and sprinkler upgrades in the Thomas Jefferson building. Owing to budget constraints, the Committee was unable to recommend funds for a number of LOC projects.

Appropriations, 2004	\$3,289,000
Budget estimate, 2005	40,292,000
Committee recommendation	7,090,000

The Committee recommends \$7,090,000 for Capitol Police Buildings and Grounds, an increase of \$3,801,000 over the current level. A total of \$1,500,000 shall remain available until September 30, 2009. The FTE authorized level will be 3.

The increase over the enacted level is due primarily to new lease costs at the Fairchild and GPO buildings. The Committee has not funded a new firing range as this requirement will be met at the Federal Law Enforcement Training Center Cheltenham facility. The Committee has not recommended funds for an off-site delivery facility as no suitable site has been identified to date. Fairchild and GPO build-out requirements will be accommodated through the re-programming of prior year funds.

LIBRARY OF CONGRESS

The Committee recommends a total of \$544,092,000 for the Library of Congress, an increase of \$21,291,000 over the fiscal year 2004 level. Increases are provided to accommodate all mandatory pay and price level increases, as well as to increase programs in selected areas such as the Veterans History Project and the National Audio-Visual Conservation Center. In addition to the appropriation, the Library estimates receipts and reimbursements of \$41,563,000, funds from gifts and trusts totaling \$21,504,000, and revolving funds totaling \$105,921,000. Total funds available to support Library operations, including the Architect of the Capitol ac-

count, are expected to be \$778,225,000 in fiscal year 2005 under the Committee recommendation.

The following table displays the Committee recommendation for the Libray of Congress appropriations compared to the budget request and the fiscal year 2004 level.

The Committee recommends an appropriation of \$373,298,000 for salaries and expenses of the Library of Congress and approves authority to spend receipts of \$6,350,000 in fiscal year 2005. This is \$14,283,000 below the request and \$11,399,000 above the enacted level.

The Committee has funded all costs for current staffing levels, as well as inflationary increases. The Committee has funded program increases in the following areas only: National Audio-Visual Conservation Center (\$4,744,000), Veterans History (\$1,000,000), security equipment maintenance (\$930,000), information technology system maintenance (\$1,000,000), and ITS XML capability (\$750,000). The Committee has increased to \$500,000 the budget for the Abraham Lincoln Bicentennial Commission, the same level as fiscal year 2003, and has included \$1,175,000 for the Adventure of the American Mind program. Owing to budget constraints, no other program increases are recommended, and a general reduction of \$710,000 has been taken.

THOMAS Website.—The Committee urges the Library to continue to improve the accessibility and comprehensiveness of the THOMAS website so that the public has easy electronic access to publicly available legislative information, including the ability for users to search across multiple Congresses at one time.

Collections Security.—The Librarian has continued to express concern about collections security and the impact of many post-9/11 changes to security policies and procedures. In addition, while noting considerable effort and progress in safeguarding the collections since 1996, the Library's reporting on safeguarding controls does not provide the Committee with a comprehensive picture of where the Library is in its efforts to establish appropriate safeguarding controls and does not link its ongoing safeguarding efforts to its strategic plan.

The Committee shares the Librarian's concerns regarding collection security and is therefore directing the LOC to provide an update to the Committee on its efforts to deal with security-related issues previously reported on by the General Accounting Office in March 2003; identify major security-related gaps and vulnerabilities and the LOC's efforts to address them; and identify

other apparent security-related gaps, vulnerabilities, and issues warranting the LOC's attention.

The Committee is also directing the Library to provide the Committee with a comprehensive report on the status of the Library's efforts to establish appropriate safeguarding controls over the collections. The report should address: the Library's current goals/objectives in establishing appropriate safeguarding controls over the different collection categories and how those goals/objectives relate to the Library's entity-wide strategic plan, the Library's current strategy or plan for establishing and maintaining appropriate safeguarding controls, and the significant actions taken to date and those that still need to be taken (including expected completion timeframes) to establish appropriate safeguarding controls over the collections. The report should clearly distinguish the types of controls that are appropriate for each category of the Library's collections and indicate, for each category of collection, whether or not the applicable types of controls have been established. In preparing the report, the Committee further directs the Library to consult with the Library's external auditor and the Office of Inspector General, which is responsible for overseeing the external auditor's annual work related to safeguarding controls.

Amistad Incident.—The Committee encourages the Library within available resources to create a digital archive of historic documents currently held by the Library related to the Amistad Incident of 1839.

Middle Eastern Text Initiative.—The Committee is aware of the important work of fostering greater understanding between the Islamic and American cultures through the Middle Eastern Text Initiative [METI] which for several years has published several of the important scientific, philosophic and medical writers of the Golden Age of Islam. The Committee directs that the LOC make available, through a grant, \$500,000 to METI for the purpose of furthering this important translation and publishing effort.

Brademas Center.—The Committee is aware of efforts to create a John Brademas Center for the Study of Congress at New York University. This initiative would facilitate a better understanding of Federal policymaking in one of our Nation's major financial and media centers. The Committee believes that there would exist opportunities for the Center to collaborate with the Library of Congress through activities in Washington, DC, and in New York City.

Lewis and Clark Exhibit.—The Committee commends the Library for its outstanding Lewis & Clark exhibit entitled, "Rivers, Edens, Empires", and directs the Library to support the traveling portion of the schedule, which includes the Museum of Art at Grand Forks, North Dakota.

This is the same as the revised budget request and provides for all pay and price level increases, and includes \$3,660,000 for information technology reengineering.

SALARIES AND EXPENSES

Appropriations, 2004	\$91,185,000
Budget estimate, 2005	100,734,000
Committee recommendation	96,678,000

The Committee recommends an appropriation of \$96,678,000 for the Congressional Research Service. The amount recommended is an increase of \$5,493,000 over the fiscal year 2004 level and is sufficient to cover all pay and price level increases for the current staffing level. In addition, the Committee has funded the request of \$622,000 for security requirements at the Alternate Computing Facility and \$549,000 for XML capability. Owing to budget constraints, the Committee is unable to recommend additional increases.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

Appropriations, 2004	\$51,401,000
Budget estimate, 2005	53,937,000
Committee recommendation	53,937,000

The Committee recommends an appropriation of \$53,937,000 for salaries and expenses for Books for the Blind and Physically Handicapped. This is an increase of \$2,536,000 over the fiscal year 2004 level needed to accommodate mandatory pay and price level increases, and \$1,500,000 for continued design of a digital talking book player and sound reproductions.

This appropriation supports a National Reading Program for blind and physically handicapped citizens. Books and magazines in braille and various recorded formats are produced by the National Library Services for the Blind and Physically Handicapped for distribution through a network of State and locally supported libraries. At present, 57 regional libraries in 49 States, the District of Columbia, the Virgin Islands, Puerto Rico, and Guam house and circulate books and magazines to eligible readers. Seventy-eight subregional libraries in 17 States assist at the local public library level; 53 libraries and 4 cooperating agencies distribute sound reproducers. Two multistate centers, under contract to the National Library Service, store and distribute books and other materials in their geographical regions. The program supports a readership of approximately 700,000.

ADMINISTRATIVE PROVISIONS

SECS. 1101–1102. The Committee has included two routine administrative provisions carried in prior years.

SEC. 1103. Extends the availability of funds for the National Digital Information Infrastructure and Preservation Program.

SEC. 1104. Prohibits funds in this Act from being used for constructing U.S. diplomatic facilities. The Committee notes that the Government Accountability Office is reviewing the State Department’s capital cost-sharing proposal for overseas facilities and anticipates GAO will make recommendations for a more equitable approach that relates the services provided to charging agencies for the cost of utilizing space owned and operated by the Department of State.

SEC. 1105. Extends through fiscal year 2005 authorization for the National Film Preservation program.

The Committee recommends an appropriation of \$88,800,000, a decrease of \$1,773,000 below the enacted level. Funding is sufficient to cover all estimated printing requirements for fiscal year 2005.

The following table compares the component categories within this account for fiscal year 2004. The Committee has not recommended separate amounts for each activity in order to give the GPO the flexibility to meet changing requirements.

SALARIES AND EXPENSES

Appropriations, 2004	\$34,253,000
Budget estimate, 2005	33,033,000
Committee recommendation	31,935,000

The Committee recommends an appropriation of \$31,935,000. This provides for anticipated pay and price level increases and no additional employees for the Federal Depository Library program owing to budget constraints.

This appropriation provides for salaries and expenses associated with the distribution of Government documents to depository and international exchange libraries, the cataloging and indexing of Government publications, and the distribution of publications authorized by law at the request of Members of Congress and other Government agencies.

REVOLVING FUND

Appropriations, 2004	\$9,941,000
Budget estimate, 2005	25,000,000
Committee recommendation	

The Committee recommends no funds for the revolving fund. While the Committee supports the Government Printing Office's restructuring efforts, GPO has yet to submit a comprehensive plan, including a spending blueprint, for restructuring. This should include a plan for dramatically reducing building-related expenses. The Committee looks forward to receiving such a plan and reviewing associated cost requirements as part of the fiscal year 2006 budget process.

ADMINISTRATIVE PROVISION

The Committee has included an administrative provision authorizing the Superintendent of Documents to discount sales copies of GPO publications below the current limitation.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

Appropriations, 2004	\$457,606,000
Budget estimate, 2005	480,535,000
Committee recommendation	470,000,000

The Committee recommends funding of \$470,000,000 for salaries and expenses of the Government Accountability Office. Additionally, \$7,419,000 is authorized in offsetting collections derived from rent receipts and reimbursements for conducting financial audits of Government corporations, for a total of \$477,419,000. This is a reduction of \$9,235,000 from the request level. This level of funding should not require reductions-in-force; reductions from the request level can be taken from travel, awards, and other non-essential increases. The reduction is taken without prejudice, owing to the constraints imposed by the budget.

The Committee has not made a specific appropriation for technology assessment.

Technology Assessment.—In fiscal year 2002, the Congress directed GAO to conduct a pilot technology assessment program. This Committee gave GAO further direction for this program in fiscal year 2003 and 2004 appropriations. To date, GAO has completed reviews of technological and policy issues involved in the use of biometric technologies for border security and the use of cyber-security technologies for critical infrastructure protection. GAO is currently beginning reviews of the role of technology in protecting structures from wildfires and the use of non-intrusive technologies to provide port and container security. Each of these studies has been undertaken on the basis of bi-partisan bicameral requests from members of Congress. Also at the direction of the Congress, GAO undertook an independent review of the pilot program, and more recently reported on the impact a technology assessment role would have on its mission and resources. On the basis of the Committee's review of GAO's technology assessment work to date, the Committee's view is that the performance of technology assessments can enhance the ability of Congress to address the technical and policy implications of emerging technologies. In order, however, to ensure efficient and effective use of GAO's resources, the Committee's view is that GAO should only undertake future technology assessments that are supported by the leadership of both Houses of Congress and are intended to address significant issues of national scope and concern. Further, the Committee directs the Comptroller General to consult with the Committee concerning the development of definitions and procedures to be used for technology assessments by GAO.

Mail Screening Technology.—The Committee is aware that certain x-ray technology manufactured by a company in the United Kingdom is being used in the United Kingdom to screen mail addressed to high-ranking government officials. The Committee is interested in learning whether such technology would have application to the screening procedures for mail addressed to legislative branch officials in a cost-effective way. Therefore, the Committee directs the Government Accountability Office to work with appropriate entities to obtain the necessary equipment for testing and evaluation to determine its ability to detect current and future threats from chemical, biological, or explosive agents. The testing should be conducted at a facility capable of using live chemical, biological, and explosive agents for testing, and the evaluation would include efforts to decontaminate the machines after the tests are conducted. The GAO will provide the results of this testing and

evaluation within 9 months of the enactment of the Legislative Branch Appropriations bill for 2005.

ADMINISTRATIVE PROVISION

The Committee has included a provision which amends the Antideficiency Act to require the heads of executive agencies and the Mayor of the District of Columbia to transmit to the Comptroller General copies of reports of violations at the same time violations are reported to the Congress and the President, and authorizing the Comptroller General to establish a central repository of Antideficiency Act reports. The Comptroller General will track all Antideficiency Act reports, including responses to Comptroller General legal decisions and opinions and findings in audit reports and financial statement reviews.

PAYMENT TO THE OPEN WORLD LEADERSHIP CENTER TRUST FUND

Appropriations, 2004	\$13,420,000
Budget estimate, 2005	15,000,000
Committee recommendation	13,500,000

The Committee recommends \$13,500,000 as a payment to the Open World Leadership Center Trust Fund. The Center for Russian Leadership Development was established on December 21, 2000 (Public Law 106-554) as a legislative branch entity. The fiscal year 2003 Consolidated Appropriation Resolution (Public Law 108-7) carried legislation (section 1401) changing the name to the Open World Leadership Center and expanding the mission of the program to include Newly Independent States of the former Soviet Union including the Baltic States. The mission of the Center is to enable emerging political leaders of Russia and Newly Independent States at all levels of government to gain significant, first-hand exposure to the American free market economic system and the operation of American democratic institutions through visits to comparable governments and communities in the United States.

TITLE II—GENERAL PROVISIONS

Included are several routine general provisions carried annually in the bill (secs. 301–309), as follows:

Section 201 bans the use of appropriated funds for service and maintenance of private vehicles, except under such regulations as may be promulgated by the House Administration Committee and the Senate Rules and Administration Committee, respectively.

Section 202 limits the availability for obligation of appropriation to the fiscal year for which it is expressly provided in the bill accompanying this report.

Section 203 provides that any pay rate and title designation for a staff position created in this Act, and not specifically established by the Legislative Pay Act of 1929, is to be made permanent law by this Act. Further, any pay rate and title change for a position provided for in the 1929 Act is to be made permanent law by this act and any changes in the official expenses of Members, officers, and committees, and in the clerk hire of the House and Senate are to be made permanent law by this Act.

Section 204 bans the use of funds for contracts unless such contracts are matters of public record and are available for public inspection.

Section 205 appropriates such sums as may be necessary for the payment of settlements and awards pursuant to Public Law 104–1.

Section 206 authorizes legislative branch entities participating in the Legislative Branch Financial Managers Council [LBFMC] to finance the costs of the LBFMC.

Section 207 prohibits unauthorized transfers of funds to other agencies.

Section 208 addresses a proposed government-wide requirement in the General Services Administration's eTravel program. The administration plans to use eTravel to collect travel data for various analyses. The Congress is concerned that the legislative branch would be required to share with the executive branch confidential and sensitive details of specific trips of its officers and employees. The Committee has added language to allow legislative branch agencies, at the discretion of the agency head, to voluntarily comply with the General Services Administration's final rule requiring use of its eTravel Services.

Section 209 is a technical correction to the Congressional Recognition for Excellence in Arts Education Act.

Section 210. Authorizes the transfer of parcels of property to Capitol Grounds near the Japanese American Patriotism Memorial.

Congressional Award Program.—The Committee notes that the Congressional Award program was established by Congress in 1979 to recognize initiative, achievement and service in young Americans and encourage volunteer and community service. While the

program has been funded entirely by the private sector, a decrease in donations and income has forced cutbacks in the program. The Congressional Award Board is due to be reauthorized later this year. The Committee will consider funding for this program in the future based on reauthorization legislation, but anticipates any such funding will not supplant private donations.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI, OF THE
STANDING RULES OF THE SENATE

Paragraph 7 of rule XVI requires that Committee reports on general appropriations bills identify, with particularity, each Committee amendment to the House bill “which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session.”

The Committee has recommended no such funding.

COMPLIANCE WITH PARAGRAPH 7(C), RULE XXVI OF THE
STANDING RULES OF THE SENATE

Pursuant to paragraph 7(c) of rule XXVI, on July 15, 2004, the Committee ordered reported en bloc S. 2666, an original bill making appropriations for the Legislative Branch for the fiscal year ending September 30, 2005, and S. 2674, an original bill making appropriations for Military Construction of the Department of Defense for the fiscal year ending September 30, 2005, with each subject to amendment, by a recorded vote of 29–0, a quorum being present. The vote was as follows:

COMPLIANCE WITH PARAGRAPH 12, RULE XXVI, OF THE
 STANDING RULES OF THE SENATE

Paragraph 12 of rule XXVI requires that Committee reports on a bill or joint resolution repealing or amending any statute or part of any statute include “(a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the Committee.”

In compliance with this rule, the following changes in existing law proposed to be made by the bill are shown as follows: existing law to be omitted is enclosed in black brackets; new matter is printed in italic; and existing law in which no change is proposed is shown in roman.

With respect to this bill, it is the opinion of the Committee that it is necessary to dispense with these requirements in order to expedite the business of the Senate.
