BACKGROUND

PURPOSE OF THE BILL

This bill makes appropriations for the military functions of the Department of Defense for the period October 1, 2006, through September 30, 2007. Functional areas include the pay, allowances, and support of military personnel, operation and maintenance of the forces, procurement of equipment and systems, and research, development, test and evaluation. Appropriations for foreign military assistance, military construction, family housing, nuclear weapons programs, and civil defense are provided in other bills.

HEARINGS

The Appropriations Subcommittee on Defense began hearings on March 7, 2006, and concluded them on May 24, 2006, after 10 separate sessions. The subcommittee heard testimony from representatives of the Department of Defense, other Federal agencies, representatives of organizations, and the public.

SUMMARY OF THE BILL

The Committee recommendation of \$453,483,540,000 includes \$403,483,540,000 in non-contingency spending to develop, maintain, and equip the military forces of the United States and \$50,000,000,000 in additional appropriations for operations related to the Global War on Terror. Contingency operations funding in this bill is made available pursuant to section 402 of H. Con. Res. 376 (109th Congress), as made applicable to the House of Representatives by H. Res. 818 (109th Congress), and are designated as an emergency requirement pursuant to section 402 of S. Con. Res. 83 (109th Congress), the concurrent resolution on the budget for fiscal year 2007, as made applicable in the Senate by section 7035 of Public Law 109-234.

The fiscal year 2007 budget request for activities funded in the Department of Defense Appropriations bill totals \$462,608,474,000 in new budget authority including \$50,000,000,000 in contingency funding. The request also includes \$256,400,000 in mandatory spending.

In fiscal year 2006, the Congress appropriated \$510,941,226,000 for activities funded in this bill. This amount includes \$388,781,064,000 in non-emergency appropriations and \$122,160,162,000 in emergency supplemental appropriations.

Excluding supplemental and additional appropriations, the Committee recommendation in this bill is \$14,702,476,000 above the amount provided in fiscal year 2006 and \$9,124,934,000 below the amount requested for fiscal year 2007.

HOUSE ALLOWANCE

Titles I, II, and VI of the Committee recommendation contains some items funded by the House of Representatives in a different bill, H.R. 5385. The Committee believes that it is appropriate to fund these items in this bill, H.R. 5631. For ease of comparison, the Committee report sets forth in titles I, II, and VI a “House allowance” as if these items had been contained in the House passed bill. These items were contained in H.R. 5385, as passed by the House, but are not contained in the Committee recommendation to the Senate on that bill. The following is a summary of the “House allowance” displayed in the Committee’s recommendation for titles I, II, and VI:

TITLE I
MILITARY PERSONNEL

Funds appropriated under this title provide the resources required for basic pay, retired pay accrual, employers' contribution for Social Security taxes, basic allowance for subsistence, special and incentive pays, permanent change of station travel, and other personnel costs for uniformed members of the Armed Forces.

The President's fiscal year 2007 budget requests a total of \$99,618,715,000 for military personnel appropriations. This request funds an Active component end strength of 1,332,300 and a Reserve component end strength of 842,800.

SUMMARY OF COMMITTEE ACTION

The Committee recommends military personnel appropriations totaling \$99,010,840,000 for fiscal year 2007. This is \$607,875,000 below the budget estimate.

The Committee recommends funding an Active component end strength of 1,367,300 for fiscal year 2007, an increase of 35,000 above the budget estimate. The Committee recommends funding a Reserve component end strength of 842,800 for fiscal year 2007, the same as the budget estimate.

Committee recommended military personnel appropriations for fiscal year 2007 are summarized below:

MILITARY PERSONNEL OVERVIEW

The Department of Defense budget requests \$99,618,715,000 for the military personnel pay accounts for fiscal year 2007; an increase of \$3,591,623,000 or 3.7 percent over the current enacted amount of \$96,027,092,000. Significant features of the budget request include the following:

Active Component End Strength.—The Committee supports the Active Component end strength as recommended in the Senate passed National Defense Authorization Act for Fiscal Year 2007, S. 2766. This includes 30,000 end strength above the Army's request and 5,000 end strength above the Marine Corps' request. The Committee also supports the Navy and Air Force requested manpower reductions of 12,000 and 23,200 respectively, and as recommended by S. 2766.

Reserve and Guard End Strength.—The Committee supports Army National Guard end strength of 350,000 soldiers, as recommended in S. 2766, and notes the budget estimate requests funding for an end strength of 332,900. Thus, the Committee recommends an additional \$164,000,000 for the Army National Guard personnel account. The budget requests 5,000 fewer end strength for the Army Reserve; 200 additional end strength for the Air National Guard; and 900 additional end strength for the Air Force Reserve; and the Committee supports each of these changes.

Pay Raise.—The Committee supports the budget estimate's across-the-board pay raise of 2.2 percent and also the targeted pay raise for warrant officers and select noncommissioned officer grades.

Reduced Out-of-Pocket Housing Costs.—The Committee continues to support the increases in funding requested for Basic Allowance for Housing [BAH] which reflects the Defense Department's initiative to eliminate out-of-pocket housing costs for military personnel and families.

Recruiting and Retention.—The Committee notes the recruiting and retention challenges faced by the Services, especially the Army and Marine Corps. The environment is particularly challenging given continued military operations in support of GWOT, and the relatively strong economy. The Committee supports the budget request for special pays, to include enlistment bonuses and other benefits which enable the military services to provide effective incentives for service to the Nation.

Reserve Component Budget Structure.—In the fiscal year 2006 budget request, the Department of Defense submitted the budgets for the Reserve Component's military personnel appropriations in a single budget activity format. The Congress approved the change as a test during fiscal year 2006, with final approval or disapproval to be made in the fiscal year 2007 appropriation. The Committee recognizes the advantages of the single budget activity format in providing greater flexibility for the Reserve Components to manage Unit and Individual Training with Full Time Support and the other smaller specialty training accounts. The Committee supports the Department's request for the new Reserve Component budget format with the understanding that the Department will submit a semi-annual detailed report of internal reprogramming action simi-

lar to the report provided in fiscal year 2006, and that the Reserve Components will keep the congressional defense committees apprised of any significant financial issues that may develop between reports. Reports will be submitted 30 days following the end of the second quarter and the fiscal year.

Legal Assistance.—The Committee is aware that as military members leave active duty and reserve service, many are not aware of the legal issues which may confront them in the civilian environment. Therefore, the Committee directs the Secretary of Defense to provide a report to the congressional defense committees identifying any requirement for members of the Armed Forces to have legal assistance during and immediately after their demobilization from active duty, discharge, separation, or release from the Armed Forces. The report shall be submitted by March 31, 2007, and shall include any recommendations for legislative or administrative action that the Secretary considers appropriate in light of the results of this study.

UNEXPENDED BALANCES

A review of the past several years of obligations and expenditures for the military personnel appropriations continues to show a trend of under-spending. Therefore, the Committee believes the military personnel budget requests for fiscal year 2007 are overstated and can be reduced. The Committee recommends a reduction of \$543,720,000 to the budget estimate.

RESERVES COST AVOIDANCE

A comparison of the fiscal year 2007 budget estimate’s personnel strength projections for the Reserve Components with current personnel strength projections shows that fewer reservists in three of the Reserve personnel accounts will be available for training in fiscal 2007 than budgeted. Thus, less funding is required for training in these accounts, and the Committee recommends a reduction of \$70,080,000.

TITLE II
OPERATION AND MAINTENANCE

Funds appropriated under this title provide the resources required to prepare for and conduct combat operations and other peace time missions. These funds are used to purchase fuel and spare parts for training operations, pay supporting civilian personnel, and purchase supplies, equipment, and service contracts for the repair of weapons and facilities.

The President's fiscal year 2007 budget requests a total of \$130,088,996,000 for operation and maintenance appropriations.

SUMMARY OF COMMITTEE ACTION

The Committee recommends operation and maintenance appropriations totaling \$126,293,186,000 for fiscal year 2007. This is \$3,795,810,000 below the budget estimate.

Committee recommended operation and maintenance appropriations for fiscal year 2007 are summarized below:

Naval Shipyard Apprentice Program.—The Committee directs that during fiscal year 2007 the Navy shall induct classes of no fewer than 100 apprentices, respectively, at each of the naval shipyards. The Committee further directs the Navy to include the costs of the fiscal year 2008 class of apprentices in the budget request.

Human Resource Call Center.—The Committee urges the Secretary of the Navy to allocate sufficient funding from within the Operation and Maintenance, Navy account to ensure the continuation and successful implementation of the Navy's Human Resource Call Center pilot program in Washington County, Maine.

U.S. Naval Sea Cadet Corps.—The Committee recommends an increase of \$300,000 for the U.S. Naval Sea Cadet Corps. The amount provided is in addition to \$1,700,000 currently budgeted for the program. The Committee commends the Navy for providing funding for this program in the baseline budget and directs that no less than \$2,000,000 be made available for the U.S. Naval Sea Cadet Corps in fiscal year 2007. The Committee further encourages the Navy to fund the program at not less than \$2,000,000 in future budget submissions.

Air Force Personnel Reductions.—The Committee is concerned about the impact of planned Air Force reductions to military personnel, civilian personnel, and contractor support. Thus, the Committee requests the Secretary of the Air Force to provide a report

no later than January 31, 2007 that describes the planned reductions, their rationale, and their impact on Air Force major commands, agencies and activities.

Excess Funding Based on Budget Execution.—The Committee notes that over the past several years the Air Force has executed discretionary projects within the operation and maintenance account far in excess of the amount budgeted for that purpose. This practice is particularly troubling in light of the fiscal pressures placed on the Department by the global war on terror. Therefore, the Committee believes the Air Force budget is overstated and recommends a reduction of \$200,000,000 from the budget request.

International Outreach Programs.—The Committee directs that as the Department of Defense expands its international outreach programs, it should build on (and continue to strongly support) existing, proven international outreach programs conducted by graduate education institutions, such as those in-residence and off-campus outreach programs conducted by the Naval Postgraduate School and the Asia-Pacific Center for Security Studies.

Superior Protective/Environmentally Friendly Magnesium Coating.—The Committee urges the Department of Defense to fully consider upgrading the coating on its magnesium castings to tagnite, which has been proven to provide better protection against corro-

sion, and has the potential to provide savings in maintenance and repair and improve the readiness of the force.

Energy Savings Performance Contracting.—The Committee urges the Department of Defense to utilize Energy Savings Performance Contracting whenever possible to upgrade facilities and retain base operating funding. The Committee further urges the Department to incorporate the highest energy efficiency standards possible into the renovation and construction of DOD Facilities.

California Manufacturing Technology Center.—The Committee encourages the Department to continue its collaboration with the California Manufacturing Technology Center’s California Defense Manufacturing Supply Chain. The Center has expanded the number of California’s small and medium sized manufacturing base to meet the Department’s urgent requirements for parts and equipment shortages at reduced costs.

Legacy Resource Management Program.—The Committee commends the Department of Defense for requesting funds to continue the Legacy Resource Management Program. From within these funds, the Committee encourages the Department to continue naval archaeology programs in the Lake Champlain Basin.

Scott Air Force Base, Illinois.—The Committee continues to support the acquisition of additional C-40 aircraft for Operational Support Aircraft [OSA] missions at the 932nd Air Wing, Scott Air Force Base. The Air Force will continue C-9C usage through 2011, at which time the USAF expects to replace the C-9C with additional C-40 aircraft. The committee has provided \$30,000,000 for continued C-9C and C-40 operations and maintenance. Scott AFB's location and its ability to grow and accept assets make it well-suited for not only expanding the C-40C fleet at Scott but also expanding the capabilities of the aircraft. The Committee directs the Secretary of the Air Force to continue the missions of the 932nd Airlift Wing using both C-9 and C-40 aircraft, including offering all appropriate technical and financial assistance, consistent with current law and agreements.

OVERSEAS CONTINGENCY OPERATIONS TRANSFER ACCOUNT

Appropriations, 2006	
Budget estimate, 2007	\$10,000,000
House allowance	
Committee recommendation	

The Committee recommends no appropriation. This is \$10,000,000 below the budget estimate. The Committee believes that funds recommended in title IX provide sufficient flexibility to meet contingency requirements.

U.S. COURT OF APPEALS FOR THE ARMED FORCES

Appropriations, 2006	\$11,124,000
Budget estimate, 2007	11,721,000
House allowance	11,721,000
Committee recommendation	11,721,000

The Committee recommends an appropriation of \$11,721,000. This is equal to the budget estimate.

ENVIRONMENTAL RESTORATION, ARMY

Appropriations, 2006	\$403,798,000
Budget estimate, 2007	413,794,000
House allowance	413,794,000
Committee recommendation	413,794,000

The Committee recommends an appropriation of \$413,794,000. This is equal to the budget estimate.

ENVIRONMENTAL RESTORATION, NAVY

Appropriations, 2006	\$302,228,000
Budget estimate, 2007	304,409,000
House allowance	304,409,000
Committee recommendation	304,409,000

The Committee recommends an appropriation of \$304,409,000. This is equal to the budget estimate.

ENVIRONMENTAL RESTORATION, AIR FORCE

Appropriations, 2006	\$402,404,000
Budget estimate, 2007	423,871,000
House allowance	423,871,000
Committee recommendation	423,871,000

The Committee recommends an appropriation of \$423,871,000. This is equal to the budget estimate.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

Appropriations, 2006	\$27,887,000
Budget estimate, 2007	18,431,000
House allowance	18,431,000
Committee recommendation	18,431,000

The Committee recommends an appropriation of \$18,431,000. This is equal to the budget estimate.

ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES

Appropriations, 2006	\$254,358,000
Budget estimate, 2007	242,790,000
House allowance	257,790,000
Committee recommendation	282,790,000

The Committee recommends an appropriation of \$282,790,000. This is \$40,000,000 above the budget estimate.

The Committee is disappointed that the Department of Defense's budget estimate for cleanup at Formerly Used Defense Sites [FUDS] continues to be less than the amount appropriated and authorized in the previous fiscal year. There are currently 3,000 FUDS sites, an increase of 900 over fiscal year 2005, and the cost to complete cleanup is more than \$18,000,000,000. To help address these challenges, the Committee has increased funding by \$40,000,000.

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

Appropriations, 2006	\$60,932,000
Budget estimate, 2007	63,204,000
House allowance	63,204,000
Committee recommendation	63,204,000

The Committee recommends an appropriation of \$63,204,000. This is equal to the budget estimate.

FORMER SOVIET UNION THREAT REDUCTION

Appropriations, 2006	\$411,403,000
Budget estimate, 2007	372,128,000
House allowance	372,128,000
Committee recommendation	372,128,000

The Committee recommends an appropriation of \$372,128,000. This is equal to the budget estimate.

The Committee acknowledges the challenges in constructing the facility at Shchuch'ye and in developing the Earned Value Management [EVM] System and recognizes that the Department of Defense agrees with the recommendations offered in the Government Accountability Office [GAO] report. The Committee encourages the Department to take steps to complete the EVM System and directs

the Department to provide a report to the congressional defense committees no later than November 15, 2006, addressing the status of the system and steps taken to improve the quality of the data.

**TITLE III
PROCUREMENT**

Funds appropriated under this title provide the resources required to purchase military equipment and hardware, including aircraft, helicopters, ships, missiles, combat vehicles, ammunition, weapons, electronic sensors and communications equipment, and other procurement items.

The President's fiscal year 2007 budget requests a total of \$82,919,502,000 for procurement appropriations.

SUMMARY OF COMMITTEE ACTION

The Committee recommends procurement appropriations totaling \$80,958,052,000 for fiscal year 2007. This is \$1,961,450,000 below the budget estimate.

Committee recommended procurement appropriations for fiscal year 2007 are summarized below:

COMMITTEE RECOMMENDATIONS

The Committee has displayed recommended adjustments in tables presented under each appropriation account.

These adjustments reflect the following Committee actions: elimination of funds requested for programs which are lower priority, duplicative, or not supported by firm requirements in out year development or procurement appropriations; deletion of excess funds

based on program delays or slow execution; addition of funds to reflect congressional priorities and to rectify shortfalls in the budget estimate; and implementation of recommendations in S. 2766, the National Defense Authorization Act for Fiscal Year 2007.

The Committee directs that the funding increases outlined in these tables shall be provided only for the specific purposes indicated in the table.

PROCUREMENT OVERVIEW

National Guard Procurement.—The Committee is concerned that procurement funding and actual equipment designated for the National Guard could be diverted to other budget areas and non-National Guard units. The Committee notes that substantial shortfalls still exist in National Guard equipment stocks, threatening the force's dual-role mission to supplement active duty forces abroad and respond to emergencies at home. Therefore, the Department of Defense shall report to the Committee no later than 9 months after the passage of this act on how it has obligated funds and provided equipment designated for the National Guard in the budget and accompanying justification materials.

F-35 Joint Strike Fighter.—The fiscal year 2007 budget estimate requests funds to procure the first lot of Low Rate Initial Production [LRIP] aircraft and to fund advance procurement for the second lot of LRIP aircraft. The first lot consists of five Conventional Take Off and Landing [CTOL] aircraft for the Air Force; the fiscal year 2007 budget request is \$869,700,000. The second lot will consist of eight CTOL aircraft for the Air Force and eight Short Take Off and Vertical Landing [STOVL] aircraft for the Marine Corps. The Advance Procurement for lot two is \$145,300,000 for eight Air Force aircraft and \$245,000,000 for eight Marine Corps aircraft.

The Committee strongly supports the F-35 aircraft program and believes that it is a critical acquisition program for the Department of Defense and many partner nations. However, the acquisition strategy is unnecessarily concurrent. Procuring aircraft before the air frame structure and design have been validated through flight testing and before key ground tests have been completed presents high risks in terms of cost increases and schedule delays. "Buying before flying" is a known problem that can be avoided. It should be noted that the test aircraft are behind schedule already and some important tests, such as first flight, have been delayed to fiscal year 2007.

The Committee is also concerned about the use of cost-plus contracts to procure aircraft. Under the cost-plus type of contract, the Government holds all the cost and schedule risk; it is a measure of uncertainty. By the time the Department enters into a production contract, particularly for a sophisticated fighter aircraft, the design and engineering should be sufficiently stable so that the costs are understood. At that point, firm fixed-price contracts can be negotiated with acceptable risk to both the Government and industry. Under the current acquisition strategy, the use of fixed-price contracts will not be assured until full rate production begins in fiscal year 2013, at which point almost 300 aircraft could have been procured at "cost-plus" prices. The Committee urges the Air

Force to move to fixed-price contracting for F-35 procurement earlier in the procurement phase.

To reduce risk, costs, and future schedule instability, the Committee recommends a 1-year delay in production of F-35 JSF aircraft. The budget is adjusted so that Lot 1 procurement and Lot 2 advance procurement funds are deleted from fiscal year 2007.

Conventional Trident Missile.—The budget request includes \$127,000,000 to demonstrate the feasibility of using existing TRIDENT II (D-5) missiles with conventional payloads to provide a prompt global strike capability, including \$50,000,000 for initial procurement. The Committee believes that fundamental issues about the use of this weapon must be addressed prior to investing in this effort. Furthermore, it is not clear that other potentially less provocative alternatives, such as land and air-based options, have been considered. Therefore, the Committee directs the Secretary of Defense to request the National Academy of Sciences to analyze the mission requirement and, where appropriate, recommend alternatives that meet the prompt global strike mission in the near term (1–2 years), the mid-term (3–5 years), and the long-term. The study should include analyses of the military, political and international issues associated with each alternative. The study is due to the congressional defense committees by March 15, 2007. The Committee recommends no funding for the conventional TRIDENT missile program, but has provided \$5,000,000 in the “Research, Development, Test and Evaluation, Defense-Wide” appropriation to conduct the study.

Joint Cargo Aircraft [JCA].—The Army requested \$109,154,000 for the Future Cargo Aircraft, now known as JCA. Consistent with S. 2677, the National Defense Authorization Act for Fiscal Year 2007, the Committee recommendation does not fund this request. The Committee believes it is premature to procure these aircraft until a further analysis of the joint intra-theater airlift mission requirement is completed and the Army and Air Force jointly develop a concept of operations that details how these aircraft will be employed.

Armed Reconnaissance Helicopter [ARH].—The budget request includes \$141,418,000 for the initial procurement lot of ARH aircraft. The Committee is aware the program is currently behind schedule due to a slower than required staff buildup, the late release of drawings and lack of parts to support the aircraft build plan. In an effort to mitigate schedule risk by allowing for a more moderate production ramp, the Committee recommends \$101,818,000 for 12 aircraft, which is \$39,600,000 and 6 aircraft below the request.

Light Utility Helicopter [LUH].—The Committee recommendation includes \$91,177,000 for procurement of 16 LUH aircraft, the first full rate production lot. The recommendation is \$107,500,000 and 23 aircraft below the request. Over the past 2 fiscal years, Congress has appropriated \$94,600,000 for two LUH initial procurement lots totaling 16 airframes. However, the initial production contract, planned for award in January 2005 was not awarded

until June 30, 2006. Due to the delay in program start and concerns over the ability to reasonably execute three production lots in less than 15 months, the Committee recommendation is intended to allow additional time for the program to increase production in a more measured approach and for the Army to demonstrate the reliability of the selected platform.

Army Helicopter Engine Efficiencies.—The Committee is aware the engine utilized in the ARH program could also be utilized to power the LUH. The Committee is strongly supportive of the Department's efforts to increase cost efficiencies in the supply chain and to reduce total life cycle costs through the selection of interchangeable systems, subsystems, and components. Additionally, the Secretary of Defense has commissioned an Energy Efficiency Task Force focused on increasing efficiencies among weapon systems. The Committee believes this effort makes operational and financial sense and is advised the ARH engine can help achieve desired results. Accordingly, the Committee encourages the Department to consider utilizing this engine in the LUH program.

Installation Information Infrastructure Modernization Program.—The budget request includes \$279,579,000 to modernize and upgrade the telecommunications and information infrastructure on Army installations worldwide. The Committee supports the Army's need to upgrade networks and information technology but is concerned about the slow execution of this program. A significant amount of prior year funding remains unobligated, evidence that the Army is budgeting funds ahead of its actual need. Therefore, the Committee recommends \$247,579,000, a reduction of \$32,000,000 for this program.

Warrior Unmanned Aerial Vehicles [UAV] Program.—The budget request includes \$46,030,000 to procure and install weapons on unmanned aerial vehicles. The funding is included in two separate budget lines, "Tactical Unmanned Aerial System" and "Weaponization of Unmanned Aerial Systems." Since the budget was submitted, the Army has increased the scope of the Warrior UAV program, including performance enhancements to reduce attrition and increase safety. At the request of the Army, a total of \$35,000,000 is transferred from the two procurement lines referenced above to the "Research, Development, Test and Evaluation, Army" appropriation to complete development of Warrior.

Radio Frequency Identification Technology [RFID].—The Committee has included an additional \$6,000,000 to continue the Active Data Rich RFID Technology Insertion and Enhancement Initiative. The Committee encourages the Department of Defense to capitalize on the successful, world-wide RFID implementation program by

fully tracking and securing supplies and materiel returning from Southwest Asia with electronic cargo container tags and environmental sensors that are fully compatible with DOD's extensive RF-ITV infrastructure.

General Fund Enterprise Business System.—The budget request includes \$78,403,000 to begin procurement and training on the new automated financial information system. The Army restructured the program after the budget was formulated and no longer requires this level of investment during fiscal year 2007. To align funding with the Army's current program, the budget is reduced by \$76,403,000, providing \$2,000,000 for initial hardware and licenses.

EA-18G and F/A-18 E/F Procurement.—The budget request includes \$865,421,000 for the first low rate initial procurement lot of EA-18G aircraft, which are expected to replace the EA-6B aircraft. The Committee notes the EA-18G development schedule was based on the premise that the EA-6B inventory would not be sufficient beyond 2009. Due to wing upgrades and the Improved Capabilities III program, the EA-6B is now expected to meet Navy needs beyond this timeframe. The Committee is concerned that under cur-

rent plans, the Navy will purchase all EA-18G LRIP aircraft prior to completion of operational test and evaluation. The Committee believes this is an unnecessary risk due to the extended service life of EA-6B aircraft. To mitigate this risk while not allowing for a pause in production, the Committee recommends a transfer of 4 of the 12 requested EA-18G's to F/A-18E/F production.

H-1 Upgrades.—The Department of Defense is in the process of restructuring the H-1 upgrade program, which replaces the current H-1 fleet with 90 newly built UH-1Y's, 10 remanufactured UH-1Y's and 180 remanufactured AH-1Z's. The current restructuring effort, the fourth since program inception, was initiated due to delays in completion of engineering and manufacturing development, unanticipated technical issues, delays in delivery of Low Rate Initial Production [LRIP] aircraft of 5 to 7 months and an increase of \$640,000,000 in total program costs. The proposed restructure would delay Milestone C and the full rate production decision to fiscal year 2008 and converting the planned fiscal year 2007 full rate production lot to a fourth LRIP lot.

Due to the pending restructure, manufacturing delays and technical problems, the Committee recommends \$314,718,000 for H-1 upgrade procurement, which is \$132,000,000 below the request. The recommended level provides the program with a total of 28 aircraft, including those previously appropriated. This amount represents 10 percent of the total production quantity, which is the traditional low rate initial production quantity established by section 2400 of title 10, United States Code. The Committee recommendation also includes \$77,320,000 to support non-recurring efforts planned for verification of corrections and to resolve known technical issues with the Helmet Mounted Sight and Display design and the structural repair manual.

T-45TS Goshawk.—Consistent with S. 2677, the National Defense Authorization Act for Fiscal Year 2007, the Committee recommendation includes \$312,361,000 for procurement of 10 T-45TS Goshawk training aircraft, which is a reduction of \$64,000,000 and two aircraft from the request. The Committee encourages the Navy to continue procurement of its training aircraft inventory objective in fiscal year 2008.

E-6 Series.—The budget request includes \$99,184,000 for modifications to E-6 series aircraft, which is \$87,965,000 above last year's funding level. The increased funding request is primarily due to a new effort to increase the number and bandwidth of communications links supporting command and control operations on-board the E-6B aircraft. The fiscal year 2007 request to initiate this work is \$69,700,000. The Committee is supportive of this effort and the capabilities it will provide. However, the Committee has concerns with the phasing of program execution. The program projects a 12-month non-recurring effort to develop the necessary installation kits for this initiative. As a result, the Committee believes the fiscal year 2007 funding execution strategy is unreasonable. The Committee, therefore, recommends a reduction of \$40,300,000 from the request.

Common Defensive Weapon System.—The budget request includes \$13,656,000 for the Common Defensive Weapon System. Over the past 2 fiscal years, Congress has provided over

\$21,000,000 for the procurement of this system. However, none of these funds have been put on contract due to aircraft integration development delays and a lack of adequate cost information. The Committee, therefore, recommends denying the fiscal year 2007 request.

Spares and Repair Parts.—The Committee recommends \$740,839,000 for Navy and Marine Corps aircraft spares and repair parts, which is \$71,850,000 below the budget request. The Committee recommends a reduction to H-1 spares due to a pending program restructure, delays in manufacturing, and decrease in near-term procurement quantities. The Committee further recommends reductions to spares and repair parts requests for KC-130J and T-45 aircraft. These reductions reflect the Committee’s recommended reductions to the number of production aircraft. Finally, the Committee recommendation includes a reduction to spares and repair parts that reflects the transfer of four EA-18G aircraft to F/A-18 E/F production.

SSN Engineered Refueling Overhaul Program.—The budget request includes \$22,078,000 in advance procurement funding for the SSN Engineered Refueling Overhaul program. In the past, the Committee has expressed concern about program instability and advance procurement funding requests for submarine refuelings that never appear in future budgets due to fiscal constraints. The Committee remains concerned about program instability and understands fiscal year 2008 refueling plans may change due to competing demands. The Committee, therefore, recommends denying the fiscal year 2007 advance procurement funding request.

DDG-1000.—The Senate-passed National Defense Authorization Act, 2007 (S. 2766) provides the Secretary of the Navy authority to enter into a contract for the first two DDG-1000 Zumwalt class destroyers with funding split over fiscal years 2007 and 2008. This special legislative authority is provided to support the Navy's current acquisition strategy of allocating dual lead ships to both of the two shipyards which build surface combatants. Consistent with the Senate-passed authorization bill and the Navy's current acquisition strategy, the Committee recommendation supports the budget request of \$2,568,111,000 for dual lead ships. The Committee reminds the Navy that this is a unique acquisition strategy and should not be used as a precedent for incrementally funding any future DDG-1000 or any other shipbuilding program.

Littoral Combat Ship [LCS].—The LCS is a small surface combatant optimized for littoral warfare and designed as an affordable platform to counter threats in mine, anti-submarine and surface warfare. The Navy's acquisition strategy was to procure four flight 0 ships evenly split between two competing designs and then progress to a single flight 1 design selected while evaluating system performance of the flight 0 ships. In 2005, the Navy proposed expanding the planned purchase of flight 0 ships from four to 15 and to continue production of both designs.

The Defense Appropriations Act, 2006 (Public Law 109-148) appropriated an additional \$440,000,000 in the "Shipbuilding and Conversion, Navy" account to accelerate procurement of the third and fourth LCS flight 0 ships. The additional funding was based

upon the Navy’s estimated \$220,000,000 unit cost. With the fiscal year 2007 budget submission of \$520,670,000 for the fifth and sixth LCS flight 0 ships, the Navy revealed the LCS unit cost estimate used as a basis for last year’s appropriation was exclusive of contract change orders, planning and engineering services, program management support and other costs not included in the ship construction contract. The Congressional Research Service estimates these adjustments would increase the average unit cost of LCS ships about 33 percent, to approximately \$300,000,000. As a result, the Navy is unable to procure both the third and fourth LCS flight 0 ships without the availability of additional funding. The Committee is troubled by this revelation and recommends rescinding the insufficient fiscal year 2006 funds currently allocated to the fourth LCS flight 0 vessel.

The Committee is further troubled by reports that the first two LCS flight 0 ships under construction are exceeding their cost as previously budgeted. In last year’s report, the Committee reminded the Navy that “the appeal of the LCS is its relative simplicity of design and low cost.” The Committee believes cost growth and design changes are jeopardizing the affordability appeal of LCS. As a result, the Committee believes the fiscal year 2007 budget request is insufficient to procure two ships and recommends \$300,670,000 to fully fund procurement of one LCS seaframe, which is a reduction of \$220,000,000 and one seaframe from the request. The Committee notes that this recommendation puts the Navy on its previously established path of procuring four LCS flight 0 ships by the end of fiscal year 2007.

Ship Insulation.—The Committee understands that the insulation material currently under consideration for use in future ships has not been fully evaluated for safety. The Committee believes that any new materials should be at least as safe as those materials currently in use and recommends that insulating materials that do not meet the weight, smoke generation, toxicity and other safety criteria should not be used in ship construction.

OTHER PROCUREMENT, NAVY

Appropriations, 2006	\$5,390,039,000
Budget estimate, 2007	4,967,916,000
House allowance	5,022,005,000
Committee recommendation	4,731,831,000

The Committee recommends an appropriation of \$4,731,831,000. This is \$236,085,000 below the budget estimate.

F-22A.—The fiscal year 2007 budget requests \$1,981,302,000 to begin incrementally funding the next lot of F-22A aircraft. The Committee finds no compelling reason to ignore the full funding policy and incrementally fund this program. Therefore, \$1,400,000,000 was added to the budget estimate to fully fund the proposed multiyear procurement of aircraft consistent with the guidance in S. 2766, the National Defense Authorization Act for Fiscal Year 2007.

F-117.—The budget request includes \$24,422,000 for modifications to the F-117 aircraft. While the Committee understands the Department's desire to modernize its fleet of aircraft and supports the request to retire 10 F-117s in fiscal year 2007, the Committee is concerned about sustaining adequate fighter capability. The Committee suggests that the Department consider whether the proposal to retire 42 F-117s in fiscal year 2008 is the most appropriate course of action.

Given the prospective retirement of the fleet, the Committee reduces the request by \$22,400,000, eliminating modifications for the aircraft except for safety and service bulletin requirements. The Committee is open to revisiting this issue with the fiscal year 2008 budget request.

F-15.—The budget request includes \$92,901,000 for modifications to the F-15 aircraft. In consideration of the key role that this fighter will continue to play in national defense in the future, the Committee added \$87,000,000 to procure Active Electronically Scanned Array radars for the Air National Guard F-15C fleet. The Committee encourages the Air Force to develop a plan for keeping the F-15 inventory updated with current technologies for its expected active service life.

C-17.—The C-17 airlift aircraft has proved invaluable in meeting the worldwide transport and cargo requirements of our armed forces. The Committee is concerned that shutting down the production line after the fiscal year 2007 buy, leaving an inventory of only 183 aircraft, is premature and ill-advised. The costs to reopen the line later could be prohibitively expensive. The Committee directs the Department of Defense to continue funding C-17 production in the fiscal year 2008 budget.

MC-130 H Combat Talon.—The MC-130 H Combat Talon “Plus 10” program contract has been terminated and the program is in the process of being restructured. Therefore, the Committee recommends a decrease of \$158,824,000. The appropriated fiscal year 2006 funding remains available to support the program once a new acquisition strategy has been approved and USSOCOM is prepared to enter a new contract.

Multi-Band Inter/Intra Team Radio [MBITR].—The Committee understands that the Special Operations Command [SOCOM] has adjusted its acquisition strategy for the MBITR tactical radio program to defer procurement in fiscal year 2007 to allow additional development and software upgrades. These upgrades should be completed in fiscal year 2007, and the Committee looks forward to the command’s fiscal year 2008 budget request to procure the enhanced MBITR.

NATIONAL GUARD AND RESERVE EQUIPMENT

Appropriations, 2006	\$178,206,000
Budget estimate, 2007
House allowance	500,000,000
Committee recommendation	340,000,000

The Committee recommends an appropriation of \$340,000,000. This is \$340,000,000 above the budget estimate.

The appropriation includes direction for each Reserve and National Guard component commander to submit to the congressional defense committees a detailed assessment of that component's modernization priorities.

The Committee maintains that the Reserve and National Guard component commanders should exercise control of funds provided for their modernization in this account. The separate submission of these assessments, directly from the Reserve component commanders and the National Guard Directors to the committees will ensure that Reserve and National Guard priorities are addressed in the allocation of this appropriation.

COMMITTEE RECOMMENDED ADJUSTMENTS

ARMY RESERVE

Miscellaneous Equipment.—The Committee recommends \$35,000,000 for the procurement of unspecified miscellaneous equipment to improve the readiness ratings of Army Reserve units.

NAVY RESERVE

Miscellaneous Equipment.—The Committee recommends \$35,000,000 for the procurement of unspecified miscellaneous equipment to improve the readiness ratings of Navy Reserve units.

MARINE CORPS RESERVE

Miscellaneous Equipment.—The Committee recommends \$35,000,000 for the procurement of unspecified miscellaneous equipment to improve the readiness ratings of Marine Corps Reserve units.

AIR FORCE RESERVE

Miscellaneous Equipment.—The Committee recommends \$35,000,000 for the procurement of unspecified miscellaneous equipment to improve the readiness ratings of Air Force Reserve units.

ARMY NATIONAL GUARD

Miscellaneous Equipment.—The Committee recommends \$100,000,000 for the procurement of unspecified miscellaneous equipment to improve the readiness ratings of Army National Guard units.

AIR NATIONAL GUARD

Miscellaneous Equipment.—The Committee recommends \$100,000,000 for the procurement of unspecified miscellaneous equipment to improve the readiness ratings of Air National Guard units.

ITEMS OF SPECIAL INTEREST

The Committee directs that the National Guard and Reserve equipment program shall be executed by the heads of the Guard and Reserve components with priority consideration for miscellaneous equipment appropriations given to the following items:

Mobile Approach Control System, Virtual Warrior Interactive Program, Block 42 F-16 Upgrades, Flex Train Combat Training, Battlefield Mobility Enhancers [MGators], M777A1 Lightweight 155 mm Howitzers, Joint Threat Emitters, Line Haul Trucks, Thunder Radar Pod, Virtual Door Gunners, and Communications Equipment.

TITLE IV

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

Funds appropriated under this title provide the resources required to conduct a program of research, development, test and evaluation, including research in basic science, applied research, advanced technology development, demonstration and validation, engineering and manufacturing development, and operational systems development.

The President's fiscal year 2007 budget requests a total of \$73,156,008,000 for research, development, test and evaluation appropriations.

SUMMARY OF COMMITTEE ACTION

The Committee recommends research, development, test and evaluation appropriations totaling \$72,998,272,000 for fiscal year 2007. This is \$157,736,000 below the budget estimate.

Committee recommended research, development, test and evaluation appropriations for fiscal year 2007 are summarized below:

SUMMARY OF RESEARCH, DEVELOPMENT, TEST AND EVALUATION APPROPRIATIONS

[In thousands of dollars]

Total	73,156,008	72,998,272	- 157,736

COMMITTEE RECOMMENDATIONS

The Committee has displayed recommended adjustments in tables presented under each appropriation account.

These adjustments reflect the following Committee actions: elimination of funds requested for programs which are lower priority, duplicative, or not supported by firm requirements in out-year development or procurement appropriations; deletion of excess funds based on program delays or slow execution; addition of funds to reflect congressional priorities and to rectify shortfalls in the budget estimate; and implementation of recommendations in S. 2677, the National Defense Authorization Act for Fiscal Year 2007.

The Committee directs that the funding increases outlined in these tables shall be provided only for the specific purposes indicated in the table.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION OVERVIEW

F-35 Joint Strike Fighter.—The Committee is disappointed that the Department of Defense did not include funding for the F-35 Joint Strike Fighter 2nd Engine Source in the fiscal year 2007 budget request. Although the Committee recognizes that the Department of Defense faces difficult budget challenges, the Committee also believes it is premature to cancel the second engine source. Experience with the F-16 Fighter program engine competition led to a more reliable, better performing and lower cost engine. The Committee believes that competition for the F-35 engine is critical to procuring the best value engine at the lowest price and that competition will likely lead to an overall savings across the life cycle of the fighter program. Therefore, the Committee recommends an additional \$170,000,000 to each of the Navy and Air Force Research, Development, Test and Evaluation accounts. The Committee also directs the Department of Defense to fund the continued development of both engines in future budget submissions.

Alternative Diesel Fuel.—The Committee notes the recent developments relating to the conversion of coal to liquid fuels. Demonstration projects in the United States have produced high-quality, ultra clean synthetic diesel fuels that provide improved efficiency and improved emissions compared to traditionally produced diesel fuel. The Committee encourages the Department of Defense to continue to explore the use of Fischer—Tropsch fuels as alternative sources for DOD’s fuel requirements. Further, the Committee requests that the Under Secretary for Acquisition, Technology, and Logistics prepare a report for the congressional defense committees on the Defense Department’s assessment, use, and plans to continue to explore the potential of synthetic fuels, to include fuels produced through the Fischer—Tropsch process.

Robotic Mobility Platforms.—The Committee is encouraged by developments in the area of self-balancing electronic transportation systems and electronic robotic detection and response platforms, both in two-wheeled and four-wheeled versions. These devices may serve as viable options to augment or supplement specific manpower applications to include detection, security, assessment, and payload movement. In addition, these devices consume zero combustible fuels and emit no discernable infrared signature or audio sound. In an effort to better understand the possible benefits of robotic mobility platforms, the Committee encourages the Department to acquire and evaluate these platforms and their potential use in high-risk areas such as Afghanistan and Iraq. Evaluation should include the impacts of these platforms to enhance or replace underutilized vehicles and devices, reductions in costs attributable to these replacement technologies, the impact on explosive detection and detonation, and the ability to provide low cost manpower alternatives as they pertain to detection, investigation, and mitigation.

COMMITTEE RECOMMENDED ADJUSTMENTS

The following table details the adjustments recommended by the Committee:

[In thousands of dollars]

Line	Item	2007 budget estimate	Committee recommendation	Change from budget estimate
2	DEFENSE RESEARCH SCIENCES	137,568	162,168	+ 24,600
	Sci Prob with Military Applications/Network Behavior Research ..			- 2,000
	Advanced Carbon Nanotechnology Program			+ 4,000
	Advanced Research and Technology Initiative			+ 5,500
	Army Landscape Dynamics Support Program			+ 1,000
	Biological Raman and Optical Imaging			+ 1,000
	Document Exploitation			+ 1,000
	Flexible Electronics Research Initiative			+ 1,000
	Fuel Logistics Reduction through Enhanced Engine Performance			+ 1,000
	Illicit Narcotics Lab Detection System			+ 3,000
	Integrated Nanosensor Technologies for NBC Detection Applications			+ 2,000
	Nanomaterials for ISR			+ 1,000
	Optical Technologies Research			+ 2,000
	Organic Semiconductor Modeling and Simulation Research			+ 2,100
	Terrain Atmosphere Research to Optimize Battlefield Operations			+ 2,000
3	UNIVERSITY RESEARCH INITIATIVES	68,545	72,545	+ 4,000
	Advanced Precision Supply Parts Manufacturing			+ 2,000
	Low Temperature Vehicle Performance Research			+ 1,000
	Nanocrystal Therapeutic Agents and Screening Tools			+ 1,000
4	UNIVERSITY AND INDUSTRY RESEARCH CENTERS	86,416	105,166	+ 18,750
	Automotive Research			+ 2,000
	Army Corrosion Control: Inhibition and Detection			+ 1,500
	Center for Education in Nanoscience and Nanotechnology			+ 2,000
	Center for Ferroelectric Electronic-Photonic Nanodevices			+ 3,000
	Center for Information Assurance and Cyberwarfare			+ 1,000

	Transparent Nanocomposite Armor			+ 250
	Visualization for Training and Simulation in Urban Terrains			+ 1,000
6	MATERIALS TECHNOLOGY	18,822	70,022	+ 51,200
	Airfield Matting System Replacement			+ 2,900
	Composite Materials Technology for Future Combat System			+ 2,000
	Control System for Laser Powder Deposition			+ 300
	Erosion Resistant Surface Engineering for Helicopter Compressor Blades			+ 4,000
	Future Affordable Multi-Utility Materials for Future Combat System			+ 2,000
	Improvised Explosive Device Simulation in Different Soils			+ 500
	LASSO Ground Mobility Vehicle Testing			+ 3,000
	Materials Joining for Army Weapons Systems			+ 3,000
	MEMS Sensors for Rolling Element Bearings			+ 3,000
	Multifunctional Nanostructured Materials for Future Combat System			+ 4,000
	Munitions Shape Charge Control Research			+ 6,000
	Nanomanufacturing of Multifunctional Sensors			+ 2,000
	Precision Polishing of Large Optics			+ 2,000
	Spinel Tactical Armor Manufacturing Technology			+ 5,000
	Structural Reliability of Smart Munitions and Lightweight Structures			+ 2,000
	Thermal Sprays for Polymeric-Based Ballistic Mitigation Materials			+ 4,000
	Ultrasonic Consolidation for Advanced Materials Fabrication			+ 3,500

Army Hypersonics Advanced Technology.—The budget request includes \$8,833,000 to initiate Army Hypersonics Advanced Technology Development [ATD]. Subsequent to the budget submission, the Committee was informed that any potential start of this initiative will be delayed a year due to a restructuring of the Army Hypersonics applied research efforts. Therefore, the Committee recommendation does not include the ATD funding request.

Joint Common Missile [JCM].—The Department of Defense Appropriations Act, 2006 (Public Law 109–148) provided \$26,000,000 in the “Research, Development, Test and Evaluation, Army” account for continued development of JCM, which the Defense Department proposed for termination in December 2004. The Committee continues to support the program and noted in last year’s Committee report (Senate Report 109–141) that “JCM is the only air-to-ground missile in development with the potential to fulfill critical capability gaps identified during the Joint Capabilities Integration and Development System [JCIDS] process”. While the fiscal year 2006 funds remain unobligated, the Committee is aware the Joint Requirements Oversight Council has met to discuss the future development of JCM. The Committee expects the Department to finance potential fiscal year 2007 development requirements for JCM with those funds previously made available and if necessary, the budget executing flexibilities provided to the Department.

Future Combat System.—The Committee recommendation includes \$3,502,794,000 for the Army’s Future Combat System [FCS], which includes \$3,064,677,000 for Armored Systems Modernization, \$325,800,000 for Non-Line-of-Sight Launch System and \$112,237,000 for Non-Line-of-Sight Cannon. The recommended level is \$379,598,000, or 12 percent, above the fiscal year 2006 estimate. The Committee continues to support efforts to modernize the Army’s future force while at the same time allowing early spin out of technologies to the current force. The Committee, however, is becoming concerned about the long-term affordability of FCS. In response to a congressional mandate, the Defense Department submitted an independent cost estimate for FCS to the Committee on June 22, 2006. The estimate prepared by the Cost Analysis Improvement Group [CAIG] projects FCS life cycle costs of approximately \$300,000,000,000 in fiscal year 2003 constant dollars. The estimate is 75 percent higher than an estimate prepared by the CAIG just 3 years ago. Increasing software complexity, unstable requirements and technological delays in complimentary programs essential to the FCS concept add significant upside cost and schedule risk to the program. The Committee commends the Army’s efforts to date in managing this risk. The Committee also appreciates the Army’s difficult task of balancing resources to meet today’s many competing demands. Nonetheless, the Committee strongly encourages the Army to manage FCS requirements to achieve overall program affordability.

Armored System Modernization.—Consistent with prior fiscal years, the Committee directs that each project within the Armored System Modernization program element be designated as a congressional special interest item subject to prior approval reprogramming procedures.

Advanced Precision Kill Weapon System [APKWS].—The APKWS is a precision weapon designed to complement the Hellfire missile. In January 2005, the Army curtailed the APKWS program citing an underperforming development team, technical challenges related to integration of the program's semi-active laser technology and a product that would not have met the defined user requirement. After curtailment, the Army restructured the program under the same set of Key Performance Parameters and awarded APKWS II to the original program participants. Given the laser seeker and guidance technology are the same as those used in the initial program, the Committee does not understand how the follow-on APKWS program will overcome the difficulties identified by the Army in January 2005. Further, the Committee is aware of an internal Army analysis that determined APKWS will provide limited utility to the force. At a time when the Army is facing increasing fiscal pressures both short term and long term, the Committee is hesitant to allocate funding to a complimentary system that provides limited utility to the force and may not meet the defined user requirement. The Committee, therefore, recommends denying the fiscal year 2007 budget request for APKWS.

Landmine Alternatives.—The Committee supports non-self-destruct landmine alternatives. However, the Committee notes that the intent in initiating these programs was to develop technologies to replace the types of anti-personnel landmine that cannot distinguish between an innocent civilian and enemy combatant. For this reason, the Committee believes it is essential that these systems be designed to utilize a man-in-the-loop, discriminating capability.

Intelligent Munitions System [IMS].—The IMS is an unattended munitions system being pursued to meet National Landmine Policy and is intended to be fielded as part of the first FCS technology spin-out to the current force in fiscal year 2008. The Committee notes the program incurred an 8-month delay in award of a system development and demonstration contract during the current fiscal year. As a result, the program is severely behind in meeting its fiscal year 2006 obligation and expenditure benchmarks. Due to the delay in development and slow expenditure rate, the Committee recommends \$53,960,000 for IMS, which is \$13,302,000 more than the fiscal year 2006 estimate and \$28,000,000 less than the request for fiscal year 2007.

In addition to the delay in IMS development, the Committee is concerned about the program's ability to meet FCS program milestones given its operational dependence on the Joint Tactical Radio System program, which is experiencing significant schedule delays due to technological challenges and a program restructuring. The Committee fully expects the Army to keep the congressional defense committees informed about the program's ability to meet FCS spin-out one milestones as well as any changes to IMS cost and development schedule.

General Fund Enterprise Business System [GFEB].—The fiscal year 2007 budget submission includes \$61,194,000 for continued development of the GFEB program. The Committee is aware the program is significantly behind previously established milestones and is concerned the program's slow expenditure rate may be an indicator of other difficulties in the program. Of the \$128,469,000

made available for program development over the past 2 fiscal years, over \$106,483,000, or 83 percent, remained unexpended as of May 31, 2006. The Committee believes sufficient prior year funds are available to meet fiscal year 2007 development requirements and recommends denying the budget request.

4	Power Projection Applied Research	84,914	97,914	+ 13,000
	Program Growth			- 4,500
	Thermal Management Systems for High Density Electronics			+ 6,000
	Combustion Light Gas Gun Projectile			+ 5,000
	Multi-Sensor Hyperspectral System for Day/Night Reconnaissance			+ 4,500
	HALOH Engine			+ 2,000
5	Force Protection Applied Research	123,443	172,943	+ 49,500
	Program Growth			- 18,400
	Nanostructured Composite Marine Coatings			+ 3,000
	Small Watercraft Propulsion Demonstrator			+ 6,000
	Magnetic Refrigeration Technology for Naval Applications			+ 3,000
	Undersea Perimeter Security Integrated Defense Environment			+ 2,000
	Shipboard Production of Synthetic Logistics and Aviation Fuel			+ 1,000
	Mark V Patrol Boat Replacement Craft Prototype			+ 5,000
	Advanced Receive-While-Transmit Sonar for UUVs			+ 4,000
	Aperstructures			+ 27,900
	Advanced Simulation Tools for Aircraft Structures			+ 3,000
	Nano-Magnetic Materials for Propulsion/Energy Systems			+ 1,000
	ADPICAS			+ 2,000
	PMRF Force Protection Lab			+ 4,000
	High Frequency Acoustic Signal Processor System			+ 6,000
6	Marine Corps Landing Force Technology	37,741	45,741	+ 8,000
	High Power Lightweight Zinc-Air Battery			+ 3,000
	Warfighter Rapid Awareness Processing Technology for Distributed Operations			+ 4,000
	Integrated Asymmetric Urban Warfare			+ 1,000

Ballistics Trajectory Extended Range Munition.—The Committee recommends an increase of \$15,000,000 to continue development of the Ballistics Trajectory Extended Range Munition and encourages the Navy to ensure that competition is maintained through the completion of the Extended Range Munition system design and development.

Directed Energy Research.—The emergence of new threats and opportunities in the area of maritime weapons systems is clearly demonstrated by on going work in directed energy and electric weapons systems, including radio frequency devices, rail guns, and high energy lasers. The Committee supports this research and has included an increase of \$30,000,000 to accelerate development in this field, including outfitting the Electromagnetic Research and Engineering Facility at the Navy Surface Warfare Center, Dahlgren, support for the free electron laser, rail gun research, counter Improvised Explosive Device efforts and other critical and innovative radio frequency research projects.

VH-71 Executive Helicopter.—The budget request included \$682,597,000 for the Presidential helicopters program. The program is in the System Development and Demonstration [SDD] phase with the critical design review planned for the last quarter of fiscal year 2006. This schedule change reflects a 10 month slip in the program in the last year. Due to the importance of upgrading the Presidential helicopter fleet, the program's schedule has been very compressed from initiation and the program office is still planning to meet the planned initial operating capability on time. However, slow execution and schedule slips for a variety of reasons have led to the situation where the program office will have significant funding available from prior years to apply to the fiscal year 2007 effort. Recognizing the forward financing, the budget request is reduced by \$125,000,000.

Unmanned Combat Air Vehicle.—The budget request includes \$239,163,000 for the Navy's program to mature and demonstrate the technologies for an aircraft carrier-based unmanned combat air vehicle [UCAV]. This program is the Navy's follow-on to the former Joint Unmanned Combat Air System project. The Committee supports this effort and understands that the Navy is still defining what technologies are needed and what the requirements for the UCAV will be. The program is currently operating with the funding from fiscal year 2006 and prior years. Due to the restructuring of the program, execution has been slow and sufficient funds are available from the fiscal year 2006 appropriation to finance the UCAV program through fiscal year 2007. Therefore, the Committee recommends no additional funds for UCAV in fiscal year 2007.

E-2C/Advanced Hawkeye Transmitter Technologies.—The Committee recognizes that the APS-145 transmitter replacement pro-

gram provides a significant increase in the readiness levels of the E-2C aircraft and extends its useful service life. The Committee encourages the Navy to include funding for this program as part of its annual budget. In addition, the Committee notes that technology used in the APS-145 transmitter replacement program could provide significant improvements to the technologies employed in the baseline transmitter for the E-2D Advanced Hawkeye. The Committee encourages the Navy to compare the technologies of an evolved APS-145 replacement transmitter to those of the baseline E-2D transmitter in terms of cost, weight, volume, reliability, and overall specification compliance.

Micromanufacturing Processes.—The Committee is aware of the growing need for microdevices and the limited micromanufacturing processes that can enhance the Department’s continuing investment in smart micromachines. The Committee believes that a streamlined micromanufacturing process will enhance the Department’s development and use of embedded biochemical sensors for munitions monitoring, miniature safe-and-arm devices, and actuator arrays for steerable projectiles. Microfabrication technologies will also greatly enhance the ability of the military to provide information on troop movement and location and enable the localization and recovery of injured soldiers.

The Department is instructed to work with universities with demonstrated expertise in novel micromanufacturing processes and equipment that have demonstrated success (1) in creating micromachines and the manufacturing processes underlying them, and (2) in working on these technologies with the Office of Naval Research and other service research entities.

Rucksack Portable Receiver Suite [RPRS].—The Committee is aware that the U.S. Air Force Research Laboratory has sponsored, under the SBIR program, the development of a Rucksack Portable Receiver Suite for the Global Broadcast System. The Committee believes that RPRS offers a promising new tactical capability to forward deployed troops in the global war on terror. The Air Force Global Broadcast System Joint Program Office is encouraged to evaluate this new capability with the intent for rapid production and fielding given successful validation of performance criteria.

Maui Space Surveillance System [MSSS]/AMOS.—The Committee recommends an increase of \$25,000,000 over the President's budget request for sustainment, investment in new technologies and initiatives, and research and development activities at MSSS. The Committee is concerned that the Air Force will apply taxes to MSSS programs at excessive rates for lab overhead, and directs the Air Force to base its overhead charges only on the amount requested. None of the increases provided here shall be subject to Air Force taxes or withholds. Furthermore, research funds should be allocated by Air Force officials on-site to local programs that offer the greatest potential return and merit.

Transformational Satellite Communications [TSAT].—TSAT will provide significant military value to the Department of Defense. The Committee is encouraged by the changes that have been made to the program's acquisition strategy, which include adopting an evolved or block approach and funding the program at the 80 per-

cent confidence level. It is the Committee’s experience though, that excessive program growth across a short time span facilitates inefficiencies and can create problems for the Government and industry management teams to effectively supervise their program, which can lead to performance and cost overrun problems in the future. Thus, the Committee recommends a program funded at \$637,102,000 and notes this funding level allows for a significant program increase of \$207,858,000 over amounts appropriated in fiscal year 2006.

Space Radar.—Due to the uncertainty of the Space Radar program, the Committee recommends the program continue its concept definition and technology development activities with a moderate increase in program funding from fiscal year 2006. The Committee recommends program funding of \$166,401,000, an increase of \$68,148,000 over current year funding. Further, the Committee emphasizes the findings and report requirements as expressed in Senate Report 109–254 for this program.

KC-135 Tanker Replacement.—The Committee supports the requirement for the KC-135 Tanker and the resumption of acquisition activities. The Committee believes the available funding provided in fiscal year 2005 and fiscal year 2006 Defense appropriations for Tanker Replacement is sufficient to support the initiation of System Development and Demonstration [SDD] activities by the end of the fiscal year. Thus, the Committee recommends a decrease of \$203,932,000 for fiscal year 2007. The Committee notes that S. 2766, the National Defense Authorization Act for Fiscal Year 2007 includes a similar reduction for program schedule slip and contract delay.

Nano-material Advanced Prototyping.—Advancements in nano-materials hold the promise of better, lighter, and more capable defensive systems to improve the force protection of our military forces. These funds will provide equipment and material for the development of a defense nano-material advanced prototyping capability. This new capability will allow for quick and cost effective prototyping of trimetasheres and other nano-material prototypes to meet critical defense needs; to include material for advanced body armor, and coatings for reduced IR signatures and EMI shielding.

Transformational Medical Technology Initiative [TMTI].—The Committee recommends \$100,000,000 for TMTI, a reduction of \$125,100,000 to the request. The Committee notes that its recommendation provides an increase of \$25,400,000 over amounts made available for TMTI in fiscal year 2006, the program's year of inception.

The Committee believes it is premature to seek a funding increase of over 200 percent, as the fiscal year 2007 budget request does. Given the TMTI's novel approach to combatting the bio-defense threat, the Committee furthermore believes that performance metrics and benchmarks should be included in the program, and execution experience gathered before a program expansion can be considered.

The Committee directs the Special Assistant for Chemical and Biological Defense to provide to the congressional defense committees with the budget submission for fiscal year 2008 a list of programs funded under TMTI in fiscal years 2006 and 2007, performance metrics and benchmarks, and the results of the programs' quarterly reviews.

Advanced Concept Technology Demonstrations [ACTDs].—The ACTD program was designed to rapidly field emergent mature technologies to joint warfighters. To more accurately address the Combatant Commanders' requirements and joint needs, and to increase technology transitions to the Services, the Joint Capability Technology Demonstration [JCTD] program was established in fiscal year 2006. The goal is to ultimately support more programs through the JCTD program and to reduce the ACTD program accordingly. Therefore, the Committee was surprised to see that the ACTD funding profile increases across the Future Years Defense Plan, while the JCTD funding profile remains constant. Additionally, almost one-half of new start projects planned for fiscal year 2007 as either ACTDs or JCTDs are budgeted for in the ACTD program. Since ACTD programs don't reach their final demonstration until 3 to 4 years after initiation, the Committee believes that initiating new start projects as ACTDs at this point undermines the transition process to the JCTD program. Therefore, the Committee recommends a reduction of \$10,000,000 to ACTD new start projects.

Defense Integrated Military Human Resources System [DIMHRS].—The Committee directs the Secretary of Defense and the individual services to maintain DIMHRS application development and implementation and DIMHRS performance development effort and emergent requirement efforts at the Space and Naval Warfare [SPAWAR] Systems Center [SSC] in New Orleans.

New Starts in the Year of Execution.—The fiscal year 2007 budget request includes no less than \$229,428,000 for programs that will be selected and initiated in the year of execution, including \$25,000,000 for Joint Capability Technology Demonstrations [JCTDs], \$20,180,000 for Advanced Concept Technology Demonstrations [ACTDs], \$28,728,000 for the Quick Reaction Fund, \$50,326,000 for the Rapid Reaction Fund, \$8,618,000 for the Technology Transition Initiative, \$21,493,000 for Foreign Comparative Testing, \$65,768,000 for Combatting Terrorism Technology Support, and \$9,315,000 for the Defense Acquisition Challenge.

The Committee remains supportive of the Department's ability to conduct rapid research projects in support of urgent warfighter requirements, but—as previously expressed in Senate Report 108–284, accompanying the Department of Defense Appropriations bill, 2005, and in Senate Report 109–141, accompanying the Department of Defense Appropriations bill, 2006—reminds the Department that timely congressional notification of the execution of these funds for new start programs remains critical to the Committee's ability to conduct appropriate oversight. Therefore, the Committee directs the Department to submit to the congressional defense committees no later than 30 days after the end of each fiscal quarter a written report detailing the obligation and expenditure of funds provided for the above-mentioned programs by project, to include schedules and funding requirements for each initiated project. Furthermore, the Committee directs the Department to submit with the fiscal year 2008 budget submission a list of programs funded under these initiatives in fiscal years 2005 and 2006 that have transitioned to the Services as programs of record.

MISSILE DEFENSE PROGRAMS

The Committee recommends a total of \$9,371,710,000 for the Missile Defense Agency [MDA]. The Committee notes that this amount is \$1,689,742,000 above the fiscal year 2006 appropriation.

The Committee recognizes MDA's concern over expanding and evolving threats. However, the Committee is concerned that MDA is investing too much funding in future systems and technology in advance of adequate testing and fielding of currently available technology. Therefore, the Committee's budget recommendations reflect a continuing emphasis on improving, testing and fielding the current missile defense components, in particular: Ground Based Midcourse Defense, AEGIS Ballistic Missile Defense, Theater Based High Altitude Area Defense and Airborne Laser.

The Committee commends MDA for successful testing of both the Theater High-Altitude Area Defense and AEGIS systems over the fiscal year 2006 period. In addition, the Committee was encouraged by MDA's ability to quickly transition between development and test to provide immediate operational capability during the recent North Korean missile launches. The Committee understands that

periods of immediate operational need will continue to arise in parallel with the development efforts; and therefore supports MDA's efforts to expand concurrent test and operations. To address these issues, the Committee provides an increase of \$225,000,000 for additional test infrastructure enhancements, operational support, and interceptors.

High Altitude Airship.—The Committee recommendation reduces funding for the High Altitude Airship and instructs MDA to focus on its immediate mission of testing and fielding an interim missile defense capability.

Kinetic Energy Interceptor [KEI].—The Committee is concerned about the affordability of KEI and investing heavily in a new technology when the core missile defense programs have yet to be fully tested and fielded. Therefore, the Committee reduces funding for KEI by \$200,000,000, consistent with S. 2677, the Senate passed National Defense Authorization Act for Fiscal Year 2007.

Space Tracking and Surveillance System.—The Committee supports efforts to collect tracking and characterization data from the two development and demonstration satellites. The Committee believes that MDA lacks critical knowledge that can be derived from the existing demonstration satellites, and therefore the decision to fund the full constellation is premature.

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

Appropriations, 2006	\$1,143,391,000
Budget estimate, 2007	1,345,998,000
House allowance	1,345,998,000
Committee recommendation	1,345,998,000

The Committee recommends an appropriation of \$1,345,998,000. This is equal to the budget estimate.

NATIONAL DEFENSE SEALIFT FUND

Appropriations, 2006	\$1,078,165,000
Budget estimate, 2007	1,071,932,000
House allowance	1,071,932,000
Committee recommendation	616,932,000

The Committee recommends an appropriation of \$616,932,000. This is \$455,000,000 below the budget estimate.

T-AKE.—The Committee remains concerned about the construction status of T-AKE Class ships. While construction of the fiscal year 2003 appropriated ship commenced in February of this year, the Navy has yet to commence construction on the five previously appropriated ships. In fact, over \$2,400,000,000 of funds previously appropriated for construction of these ships remained unexpended as of April 2006. Thus, the Committee views the fiscal year 2007 budget request for the 10th ship of the class as funding ahead of need. The Committee, therefore, recommends withholding funding for an additional T-AKE until further progress is made on those ships previously appropriated.

PENTAGON RESERVATION MAINTENANCE REVOLVING FUND

Committee recommendation	18,500,000

The Committee recommends an appropriation of \$18,500,000. This is equal to the budget estimate.

TITLE VI
OTHER DEPARTMENT OF DEFENSE APPROPRIATIONS
DEFENSE HEALTH PROGRAM

Appropriations, 2006	\$20,018,978,000
Budget estimate, 2007	21,025,121,000
House allowance	21,065,163,000
Committee recommendation	21,409,863,000

The Committee recommends an appropriation of \$21,409,863,000. This is \$384,742,000 above the budget estimate.

The Committee is concerned by the Department’s efforts to fund shortfalls in the contractor provided private sector care account from direct care funding for Military Treatment Facilities [MTFs]. The Committee believes that such actions will adversely impact the ability of the MTFs to provide quality healthcare to military beneficiaries. Therefore, the Committee recommends that not more than \$10,887,784,000 may be available for contractor provided medical services within TRICARE, and directs the Department to follow established prior approval reprogramming procedures before transferring funds from the direct care account to the private sector account. This language should not be interpreted by the Department as limiting the amount of funds that may be transferred to the direct care system from other budget activities within the Defense Health Program.

MTF Efficiency Wedge.—The Committee recognizes that with healthcare costs on the rise, the Department must find cost saving measures within the Defense Health Program without harming healthcare for our service members and their families. However, the Committee is very concerned over the Department’s use of an “efficiency wedge” that decrements the operation and maintenance accounts of the Military Treatment Facilities [MTF] to cover these costs. In fiscal year 2007 the total efficiency wedge charged to the MTFs is more than double the level of fiscal year 2006. All three services have admitted challenges in implementing the fiscal year 2006 efficiencies and have not indicated a plan for those proposed in fiscal year 2007.

The Committee is concerned that the increasing amount of the efficiency wedge for the MTFs will have an adverse impact on the quality of medical care, as well as the ability to provide such care to military personnel through the direct care system. Therefore, the Committee directs that a total of \$120,000,000 from fiscal year 2006 carryover funds be divided up equally between the Services to alleviate any shortfalls that MTF’s have sustained, or may sustain in the future. The Committee further directs the Department to provide a report to the congressional defense committees by February 6, 2007 providing a detailed plan for the MTF’s absorption

of the fiscal year 2007 efficiency wedge along with a detailed plan for any proposed fiscal year 2008 efficiency wedge.

Peer Reviewed Medical Research Program.—The Committee has provided \$45,000,000 for a Peer Reviewed Medical Research Program. The Committee directs the Secretary of Defense, in conjunction with the Service Surgeons General, to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to: advanced proteomics, alcoholism, amyotrophic lateral sclerosis [ALS], autoimmune diseases, autism, childhood asthma, chronic pain and fatigue research, combat related trauma, Dengue drug research, epilepsy, fibromyalgia, interstitial cystitis, inflammatory bowel disease [IBD], kidney cancer research, mental health and PTSD, mesothelioma, multiple pathogen vaccines, osteoporosis and related bone diseases, Paget's Disease, polycystic kidney disease [PKD], pulmonary hypertension, regenerative medicine, tuberous sclerosis complex [TSC], traumatic brain and head injury research, scleroderma, smoking cessation program, social work research, epidemiologic health studies at DOD sites, and VET-HEAL.

Over the past few years, the Department of Defense has identified medical research gaps and has utilized this program to finance those objectives. The Committee notes that many of these research areas are relevant to the military and should fall within the Department's responsibility. Therefore, the Committee believes that the Department should request sufficient science and technology funds to address these areas and other emergent medical research requirements. The Committee reiterates that the additional funding provided under the Peer Review Medical Research Program shall be devoted only to the purposes listed above.

ADDITIONAL ITEMS OF INTEREST

Impact of the Nursing Shortage on the Military Healthcare Delivery System.—The Committee recognizes that the national nursing shortage threatens the quality and safety of our health care. The Committee also notes that this greatly impacts the recruitment and retention of nurses in the military health care system. Therefore, the Committee directs the Assistant Secretary of Defense Health Affairs, in conjunction with the Service Surgeons General and the Chiefs of the Nurse Corps, to provide a report to the congressional defense committees, by March 1, 2007, that outlines options to alleviate the shortage of nurses and cultivate nurses for the military workforce. The report should address recruitment and retention issues for the military, evaluate the medical enlisted commissioning programs for sufficiency and adequacy of funding and billets, and investigate the "Troops-to-Nurse Teachers" program based upon the Department of Defense's Troops-to-Teachers program, which will look at potential assignment of military nurse educators

for duty at accredited baccalaureate schools of nursing and capitalize on the expertise and skills of military nurse veterans.

Health Professions Loan Repayment Program.—The Committee is pleased with the impact that loan repayment has had on recruitment and retention, across the spectrum of health professions. Dentists, nurses, pharmacists, psychologists and optometrists have all indicated that greater targeting of funds for loan repayment has enhanced recruitment as well as retention efforts. The Committee strongly encourages the Department to continue to utilize programs for loan repayment that are separate from the Health Professions Scholarship and the Financial Assistance Programs.

Post-Doctoral Education.—The Committee continues to be supportive of post-doctoral training in health psychology and applauds the successes and progress being made at Tripler Army Medical Center. The Committee encourages the Department of Defense to consolidate post-doctoral training efforts for psychologists in those military treatment facilities where independent departments of psychology exist and to lengthen it to a 2-year program, where appropriate. The Committee directs the Service Surgeons General to provide a report to the congressional defense committees, by March 1, 2007, which details the challenges faced in filling these training positions.

Graduate Professional Education.—The Committee strongly supports continuation of equitable distribution of Department of Defense funds for graduate professional education to all health professions, including nursing.

Nurse Accession Bonus.—The Committee commends the Department for the continuation of the nurse accession bonus of \$15,000 used as a recruiting incentive. The Committee urges the Department to monitor trends in the Department of Veterans Affairs and civilian organizations' financial incentives to ensure accession bonuses remain competitive during the worsening national shortage of registered nurses.

Certified Registered Nurse Anesthetists.—The Committee reiterates its strong support of the current scope of practice of military Certified Registered Nurse Anesthetists [CRNAs] to practice as licensed independent providers of anesthesia care. The Committee also recognizes the invaluable role that CRNAs have played in caring for our war-fighters in forward deployed settings.

Pediatric Emergency Medical Services.—The Committee reiterates its support for pediatric-specific emergency medical services training and equipment availability throughout Military Treatment Facilities [MTFs]. The Committee appreciates the MTFs attention and continued adherence to these initiatives.

Smoking Cessation.—Tobacco use costs the Department of Defense hundreds of millions of dollars every year in medical costs and lost productivity. While the Department has established ambitious goals to decrease the use of tobacco products, it has not provided adequate resources to meet these goals. The Committee is disappointed that the Department has not yet incorporated smoking cessation in TRICARE Prime benefits even though such preventative care saves money, and has not aggressively pursued suggested pilot programs. The Committee urges the Department to ex-

pedite the availability of tobacco use prevention and cessation programs to all personnel.

Alcoholism Research.—The Committee remains concerned about excessive alcohol consumption among service members. Alcoholism is a significant factor in suicide and accidental deaths, as well as lost productivity and health problems. The Committee directs the Department of Defense to conduct a study and report to the congressional defense committees not later than March 1, 2007 on the current organizational structure of alcohol and drug programs and related policies within the Department of Defense.

Behavioral Research in the Military Service Laboratories.—The Committee recognizes that psychological scientists respond to a myriad of issues vital to national security through their work in military research laboratories. The multiple demands on our military personnel, psychological research on leadership, decision-making under stress, cognitive readiness, training, and human-technology interactions have become even more mission-critical.

Combat Traumatic Brain Injury Treatment.—The Committee is concerned about the increasing numbers of brain trauma injuries being diagnosed as a result of the conflicts in Iraq and Afghanistan. The Committee is aware of technologies that have been developed which will significantly improve the ability to evaluate, diagnosis, monitor and treat these brain injuries. The Committee encourages the Department to work with institutions specializing in traumatic brain injury to aid in the diagnosis and treatment of our wounded service members.

Post Traumatic Stress Disorder.—The Committee is advised that the Army Behavioral Health Technology Office, located at Madigan Army Medical Center [MAMC] is the executive agent of the Army Suicide Event Report Database. The Committee understands that MAMC has been charged with developing, integrating, and evaluating new and emerging technologies for the Army to provide early diagnosis and treatment of Post Traumatic Stress Disorder [PTSD]. The Committee is supportive of the work being done at MAMC to improve soldier safety and welfare by reducing the number of PTSD-related incidents. Therefore, the Committee encourages the Department to initiate a pilot project that utilizes data contained within the Army Suicide Event Report Database that may help identify patterns and trends that could better predict personnel at greater risk for mental health problems and mitigate the effects through proactive treatment.

CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, ARMY

Appropriations, 2006	\$1,386,819,000
Budget estimate, 2007	1,277,304,000
House allowance	1,277,304,000
Committee recommendation	1,277,304,000

The Committee recommends an appropriation of \$1,277,304,000. This is equal to the budget estimate and includes \$1,046,290,000 for Operation and Maintenance and \$231,014,000 for Research, Development, Test and Evaluation.

Chemical Stockpile Emergency Preparedness Program.—The Committee understands that the Army is constrained by the annual execution requirement for the funding appropriated for sup-

port to State and local governments due to differences in fiscal years. To provide more time to work out requirements with State and local governments, the Committee recommends the Chemical Stockpile Emergency Preparedness Program funding for the off-post mission be appropriated for a 2-year duration. The Committee directs the Army to include in its annual budget justification materials the status, by quarter, of obligations and disbursements for this program.

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

Appropriations, 2006	\$908,474,000
Budget estimate, 2007	926,890,000
House allowance	936,990,000
Committee recommendation	978,212,000

The Committee recommends an appropriation of \$978,212,000. This is \$51,322,000 above the budget estimate.

The Committee understands that the Department's fiscal year 2007 budget request includes \$3,429,000 for Operation Bahamas and Turks & Caicos. On June 22, 2006, the Senate unanimously adopted an amendment to S. 2766, the National Defense Authorization Act for Fiscal Year 2007, requiring the Department of Defense to report to Congress on the future of this program as a Department of Defense mission. If this review results in another Federal agency assuming responsibility for this mission during fiscal year 2007, the Committee directs that funds made available for the operation be transferred to the National Guard Counter-Drug State Plans.

COMMITTEE RECOMMENDED ADJUSTMENTS

The following table details the adjustments recommended by the Committee:

[In thousands of dollars]

PC 9493 SOUTHCOM OPS Support	- 2,500
PC 9494 Support for Bolivia	- 328
Total adjustments	+ 51,332

The Committee is concerned that the Department initiated PC 9492 Strategic ISR without first notifying the congressional defense committees. Therefore, the Committee directs the Department to

provide the congressional defense committees with written notification of any new start program.

GENERAL PROVISIONS

The following lists general provisions proposed by the Committee. The Committee recommends inclusion of several proposals which have been incorporated in previous appropriations acts, provisions requested for inclusion by the Defense Department, and new provisions. The Committee recommendations are as follows:

SEC. 8001. *Publicity/Propaganda Limitation.*—Retains a provision carried in previous years.

TITLE IX
 ADDITIONAL APPROPRIATIONS
 DEPARTMENT OF DEFENSE—MILITARY

The Committee recommends an appropriation of \$50,000,000,000 for operations related to the global war on terror.

COMMITTEE RECOMMENDED PROGRAM

The following table summarizes the Committee recommendation:

(In thousands of dollars)

Item	Committee recommendation
Military personnel	5,760,752
Operation and maintenance	36,293,248
Procurement	7,255,053
Research, development, test and evaluation	298,208
Revolving and management funds	373,474
Related Agencies	19,265
 Total, Title IX	 50,000,000,000

OVERVIEW

COMMITTEE RECOMMENDATION

The Committee recommends \$50,000,000,000 of additional appropriations for operations related to the global war on terror to fund the initial months of military operations in fiscal year 2007. This funding will ensure that resources, equipment, and supplies are available for our servicemembers without interruption, and will enable the Department to avoid absorbing incremental operational costs from within baseline programs that are critical to future readiness and home-station activities. The Committee commends the Department for providing supplemental justification materials to assist the Committee in compiling its recommendation. The Committee encourages the Department to continue this practice in the future, while noting that a timely submission of supplemental justification materials is critical to the Committee's ability to conduct appropriate oversight.

The amounts appropriated or otherwise made available in this title which are designated as making appropriations for contingency operations directly related to the global war on terror, and other unanticipated defense-related operations, are made available pursuant to section 402 of H. Con. Res. 376 (109th Congress), as made applicable to the House of Representatives by H. Res. 818 (109th Congress) and are designated as an emergency requirement pursuant to section 402 of S. Con. Res. 83 (109th Congress), the

concurrent resolution on the budget for fiscal year 2007, as made applicable in the Senate by section 7035 of Public Law 109–234.

REPORTING REQUIREMENTS

The Committee directs that the reporting requirements of section 9010 of Public Law 109–148, the Department of Defense Appropriations Act, 2006, and repeated in section 9010 of this bill regarding military operations and stability in Iraq shall apply to the funds appropriated in this act.

The Committee further directs the Secretary of Defense to provide a report to the congressional defense committees within 30 days after the date of enactment of this legislation on the allocation of the funds within the accounts listed in this title. The Secretary shall submit updated reports 30 days after the end of each fiscal quarter until funds listed in this title are no longer available for obligation. The Committee further directs that these reports shall include: a detailed accounting of obligations and expenditures of appropriations provided in this chapter by program and subactivity group for the continuation of the war in Iraq and Afghanistan; and a listing of equipment procured using funds provided in this title.

The Committee is disappointed by the responsiveness of the Defense Department in reports required under Public Law 109–148 and Public Law 109–234. While recent reporting has substantially improved the level of detail provided to the Committee, the reports arrive significantly later than required. Reports such as the quarterly reports on obligations for the global war on terror and quarterly reports for the Commander’s Emergency Response Program have been submitted 6 months late. The Committee expects that these reports will be completed and delivered to the Committee by the proposed due dates and will include the required detail.

The Committee expects that in order to meet unanticipated requirements, the Department of Defense may need to transfer funds within these appropriations accounts for purposes other than those specified in this report. The Committee directs the Department of Defense to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this title.

CHAPTER 1

MILITARY PERSONNEL

The Committee recommends a total of \$5,760,752,000 for the military service’s active duty, Reserve, and Guard military personnel accounts. These funds are available to support Pay and Allowances, Basic Allowance for Housing, Subsistence, Special Pays, enhanced levels for Death Gratuity and insurance, Unit and Individual Training, and Other Training and Support personnel costs.

The following table provides details of the recommendation for the military personnel accounts:

CHAPTER 2

OPERATION AND MAINTENANCE

The Committee recommends \$36,293,248,000 for the operation and maintenance accounts. These funds are available to fund military operations by the services and Special Operations Forces to include financing flying hours, ship steaming days, ground operations, special airlift missions, increased ship and aircraft maintenance, logistics support, fuel purchases, base support, civilian personnel, personnel support costs, overseas transportation, communications support, facility management and other operation and maintenance requirements.

The following table provides details of the recommendation for the operation and maintenance accounts:

Total, Operation and Maintenance	36,293,248

Commander's Emergency Response Program.—The Committee recommends \$500,000,000 to continue the Commander's Emergency Response Program [CERP]. The Committee directs the Department to submit quarterly reports on CERP not later than 15 days after the end of each fiscal quarter to the congressional defense committees. The quarterly reports should include detailed information on the source of funds for the program, the allocation and use of funds during that quarter, the recipient of the funds, and the specific purposes for which the funds were used.

Pre-Deployment and Post-Deployment Training.—The Committee recommends \$30,745,206,000 in title IX for operation and maintenance activities of the military components and special operations forces to support ongoing contingency operations related to the global war on terror. The Committee understands that substantial funding will be needed in support of unit mobilization, specialized pre-deployment training, transportation to and from the areas of operation, home station recovery and reset, and post-deployment training to ensure recovery to established readiness levels. The Committee believes that costs accrued at home station for the aforementioned activities are allowable costs for the use of title IX funding. To the extent that such training, maintenance and reset activities displace normal peacetime training events, the amounts provided to the Department in title IX operation and maintenance

accounts should be used to ensure full support of pre-deployment and post-deployment operations, as well as for continuing combat and security operations in support of the global war on terror.

Iraq Freedom Fund.—The Committee recommends \$50,000,000 for the Iraq Freedom Fund only to support the Joint Rapid Acquisition Cell for the Global War on Terror. These funds provide the Combatant Commanders resources to support rapid material response to unforeseen, joint urgent operational needs for greater force protection and to ensure mission success.

Afghanistan and Iraq Security Forces Funds.—The Committee recommends \$1,200,000,000 for the Afghanistan Security Forces Fund and \$1,400,000,000 for the Iraq Security Forces Fund. These funds are in addition to \$4,915,133,000 provided to the security forces funds in the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109–234). These funds will continue the training of indigenous security forces and provide equipment and infrastructure essential to developing capable security forces in Afghanistan and Iraq. The Committee directs the Department to continue to provide comprehensive financial plans for the security forces funds as directed in the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109–234).

Joint Improvised Explosive Device [IED] Defeat Organization.—The Committee recognizes the serious threat IEDs pose to American servicemen and women, contractors and allies. Over the past 2 years, the Committee has supported the Department of Defense, the Joint IED Defeat Task Force [JIEDDTF] and the expanded Joint IED Defeat Organization's [JIEDDO] funding requests to address the IED threat. For fiscal year 2006, Congress appropriated over \$3,000,000,000, and while the Department's requirement for fiscal year 2007 has not been officially transmitted to Congress, the Committee understands a similar funding level will be required.

The Committee commends the JIEDDO for its focus on this issue and cannot overstate its strong support for addressing this threat which is responsible for the majority of casualties in the war on terror. Given the importance of this effort, the Committee expects the JIEDDO to leverage the private sector, other agencies and to use all available resources within the Department of Defense to address the IED threat.

The Committee is conscious of the JIEDDO's rapid growth in structure, scope, and funding over a short period of time and believes a review of its efforts would be beneficial. Therefore, the Committee directs the Government Accountability Office [GAO] to conduct a comprehensive review of the JIEDDO's efforts to address IEDs to include (1) organizational structure and the duties and responsibilities of JIEDDO personnel and associated contractors; (2) the extent to which JIEDDO is making use of existing intelligence analysts and explosive ordnance expertise within the Department of Defense and other government agencies; (3) IED defeat technology policy, procedures, evaluation, testing and acquisition; (4) strategy and metrics used to measure effectiveness; (5) an assessment of quantifiable success to date; and (6) a detailed accounting of financial activity.

This review shall be submitted to the congressional defense committees not later than February 15, 2007. The Committee intends to work with GAO to define the scope, design and focus of the review.

Child Care, Family Assistance and Counseling.—The Committee recommends \$50,000,000 for the Department of Defense Education Activity [DODEA] account to fund respite child care for both Active and Reserve Component personnel, transition assistance, and non-medical counseling for military service members and their families. The Committee urges the Secretary of Defense to make up to \$5,000,000 of the funds provided available for the Joint Family Support Assistance Program.

National Guard Transition.—The Committee understands that National Guard troops returning from deployment overseas are faced with numerous challenges. The Committee is also aware of a pilot program to address needs that extend beyond the initial return home and encourages the Department of Defense to develop a reintegration program for the 1st Brigade, 34th ID. The program should help soldiers more easily “reintegrate” back home from family to work and also assist in identifying any signs and symptoms of combat stress. Such a program should begin immediately after the return from deployment, and include subsequent visits 30 days post-deployment, 60 and finally 90 days post-redeployment.

CHAPTER 3

PROCUREMENT

The Committee recommends \$7,255,053,000 for the procurement accounts. Of this amount, the Committee recommends \$3,421,807,000 to fund the Army’s most urgently required procurement needs, including improving force protection, replacing combat losses, and procuring essential equipment and munitions. In addition, the Committee recommends \$1,380,998,000 to fund the Marine Corps’ most urgently required procurement needs, including improving force protection, replacing combat losses and procuring essential equipment and munitions.

The following table provides details of the recommendation for the procurement accounts:

[In thousands of dollars]

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

The Committee recommends an appropriation of \$19,265,000 for the Intelligence Community Management Account.

GENERAL PROVISIONS, TITLE IX

Sec. 9001. *Obligational Authorities*.—The Committee includes a provision establishing the obligation rate of the appropriations provided.

Sec. 9002. *Funding Distinction*.—The Committee includes a provision establishing that funds made available in this title are in addition to those provided elsewhere.

Sec. 9003. *Transfer Authority*.—Retains a provision carried in previous years.

Sec. 9004. *Intelligence Authorization*.—Retains a provision carried in previous years.

Sec. 9005. *New Starts*.—Retains a provision carried in previous years.

Sec. 9006. *Commander's Emergency Response Program*.—Retains and modifies a provision carried in previous years.

Sec. 9007. *Force Protection Vehicles*.—Retains a provision carried in previous years.

Sec. 9008. *Funds for Support of Coalition Forces*.—Retains a provision carried in previous years.

Sec. 9009. *Construction Project Costs*.—Retains a provision carried in previous years.

Sec. 9010. *Reporting Requirements*.—Retains and modifies a provision carried in previous years.

Sec. 9011. *Emergency Designation*.—Retains and modifies a provision carried in previous years.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI OF THE
STANDING RULES OF THE SENATE

Paragraph 7 of rule XVI requires that Committee reports on general appropriations bills identify each Committee amendment to the House bill “which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session.”

None of the funds appropriated in this bill are authorized. At the point when the Committee reports this measure, the Congress has not completed action on the Fiscal Year 2007 Defense Authorization Act. As a consequence, the Committee has acted in good faith in its attempt to comply fully with requirements stipulated under paragraph 7, rule XVI.

The Committee anticipates that Congress will authorize the amounts appropriated in this act.

COMPLIANCE WITH PARAGRAPH 7(C), RULE XXVI OF THE
STANDING RULES OF THE SENATE

Pursuant to paragraph 7(c) of rule XXVI, on July 20, 2006, the Committee ordered reported, en bloc: H.R. 5631, making appropriations for the Department of Defense for the fiscal year ending September 30, 2007, and for other purposes, with an amendment in the nature of a substitute; S. 3708, an original bill making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 2007, and for other purposes; H.R. 5576, making appropriations for the Departments of Transportation, Treasury, and Housing and Urban Development, the Judiciary, District of Columbia, and independent agencies for the fiscal year ending September 30, 2007, and for other purposes, with an amendment in the nature of a substitute; and H.R. 5385, making appropriations for Military Construction and Veterans Affairs, and related agencies for the fiscal year ending September 30, 2007, and for other purposes, with an amendment in the nature of a substitute and an amendment to the title; with each bill subject to further amendment and each subject to the budget allocation, by a recorded vote of 28–0, a quorum being present. The vote was as follows:

COMPLIANCE WITH PARAGRAPH 12, RULE XXVI OF THE
STANDING RULES OF THE SENATE

Paragraph 12 of rule XXVI requires that Committee reports on a bill or joint resolution repealing or amending any statute or part of any statute include “(a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the Committee.”

There are no such changes in the bill.
