MARITIME ADMINISTRATION IMPROVEMENT ACT OF 2006

SEPTEMBER 6, 2006.—Ordered to be printed

Mr. STEVENS, from the Committee on Commerce, Science, and
Transportation, submitted the following

REPORT

[To accompany S. 3852]

The Committee on Commerce, Science, and Transportation reports favorably an original bill to enhance certain maritime programs of the Department of Transportation, and for other purposes, and recommends that the bill do pass.

PURPOSE OF THE BILL

The bill includes several provisions designed to clarify what is expected of cadets and graduates of the USMMA, as well as some of the functions and programs overseen by MARAD. Several provisions of the bill would authorize MARAD to retain a portion of the fees it charges and collects for certain duties the agency performs. In addition, the bill includes technical corrections which would restore vessel transfer authority to the Secretary of Transportation, and would clarify the use of funds in excess of those necessary for merchant marine vessel war risk insurance.

BACKGROUND AND NEEDS

The mission of MARAD is to promote the development and maintenance of an adequate, well-balanced U.S. merchant marine, sufficient to carry the Nation's domestic waterborne commerce and a substantial portion of its waterborne foreign commerce, and capable of serving as a naval and military auxiliary in time of war or national emergency. MARAD also works to ensure that the United States enjoys adequate shipbuilding and repair service, efficient ports, effective intermodal water and land transportation systems, and adequate reserve shipping capacity in times of national emergency.

To meet its mission, MARAD administers various U.S. merchant marine support programs within the Department of Transportation (DOT). These programs include the Maritime Security Program (MSP), title XI maritime loan guarantee program, a small shipyard and maritime community assistance program, various cargo preference programs, maintenance of the Ready Reserve Force (RRF)—often used in domestic disaster relief efforts—and the National Defense Reserve Force (NDRF), and operation of the USMMA at Kings Point, NY. MARAD has approximately 825 employees, including the RRF and the USMMA staff.

The MSP is an element of the U.S. maritime transportation system, which provides funded operating agreements to privately owned, U.S.-flagged, and U.S.-crewed vessels in international trade. This fleet also is available to support the Department of Defense (DOD) sustainment in a contingency. Currently, the MSP is authorized through fiscal year 2015 and subject to a separate annual appropriation.

MARAD's operations and training account funds the administration and staffing of MARAD programs (other than the title XI guaranteed loan program and RRF costs), the USMMA, State maritime school costs associated with Federal training ships, training courses for merchant mariners, various operating programs, and research and development. The USMMA educates young men and women to become officers in the U.S. merchant marine.

The Global Maritime and Transportation School (GMATS) is a private, tuition-funded graduate school housed at the USMMA, which offers advanced mariner training, and logistics and supply chain management courses. The primary mission of GMATS is to offer leading edge education and training programs that will benefit maritime and transportation professionals from government agencies, the military, and private industry. Funds to operate GMATS are generated through tuition, meal, and lodging fees. It is not an appropriated instrumentality of the DOT. The current process through which some applicants are accepted is cumbersome and this legislation would reduce that burden and clarify GMATS's role.

SUMMARY OF PROVISIONS

Several provisions of the bill are designed to clarify what is expected of cadets at the USMMA, and provide greater choice for its graduates. The bill would require students entering the USMMA to meet the same physical and mental standards required by the DOD to ensure that students admitted to the Academy are capable of fulfilling the requirements of their service commitment agreement upon graduation. The bill also would require DOD, the U.S. Coast Guard, and the National Oceanic and Atmospheric Administration (NOAA) to certify annually to MARAD which Academy graduates have remained on active duty or in ready reserve status, thus confirming the fulfillment of a graduate's service commitment agreement. This would provide MARAD a mechanism to recover tuition from graduates who fail to perform their duties or are found in noncompliance with their commitment agreement.

The bill would exempt Academy graduates who choose to serve on active duty in the Armed Forces from certain requirements otherwise required of graduates who do not serve on active duty.

Those cadets who chose to serve on active duty instead would be obligated to the terms of service of the branch under which they serve. Individuals attending a State maritime academy would be required to enlist in either the U.S. Naval Reserve (including the Merchant Marine Reserve), or the U.S. Coast Guard Reserve as a prerequisite for receiving student incentive payments. An additional provision clarifies that GMATS is a non-appropriated fund instrumentality which is operated under the jurisdiction of DOT.

The bill would authorize MARAD to retain fees collected to process applications for deepwater port licenses, as well as those collected on its administrative process for coastwise trade law waivers, subject to certain limits.

The bill would authorize MARAD to use a portion of the fees collected for the operation of the NDRF vessels and proceeds recovered from vessel accident litigation and arbitration to cover the costs of vessel maintenance, repairs, and replacements. The bill also would provide an alternative approach for operators of the MSP product tankers to meet U.S.-built replacement vessel requirements. The alternative approach would include the construction and operation of equivalent domestic trade tank vessels. Certain non-resident alien visa holders also would be authorized for temporary employment on U.S.-flag large passenger vessels.

In addition, the bill would include several technical corrections, including a provision to restore vessel transfer authority to the DOT, which was inadvertently stripped when the Coast Guard was transferred to the Department of Homeland Security (DHS) with enactment of the Homeland Security Act of 2002, P.L. 107-296, and reinserts an improperly deleted sentence which would clarify the Secretary of Transportation's role in the investment of funds in excess of that necessary for war risk insurance for merchant marine vessels.

LEGISLATIVE HISTORY

The original Committee bill was ordered reported to the Senate by voice vote on July 19, 2006, in the presence of a quorum.

ESTIMATED COSTS

In accordance with paragraph 11(a) of rule XXVI of the Standing Rules of the Senate and section 403 of the Congressional Budget Act of 1974, the Committee provides the following cost estimate, prepared by the Congressional Budget Office:

AUGUST 17, 2006.

Hon. TED STEVENS,
Chairman, Committee on Commerce, Science, and Transportation
U.S. Senate, Washington, DC

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for the Maritime Administration Enhancement Act of 2005.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Deborah Reis.

Sincerely,

DONALD B. MARRON,
Acting Director.

Enclosure.

Maritime Administration Improvement Act of 2006

Summary: The Maritime Administration Improvement Act would amend various laws governing the activities of the Maritime Administration (MARAD). Several provisions of the bill would allow MARAD to spend, without further appropriation actions, certain collections from regulatory fees and legal damages. CBO estimates that enacting these provisions would increase direct spending by \$5 million over the 2007–2011 period and by \$10 million over the 2007–2016 period. We estimate that implementing other provisions would have no significant impact on the federal budget because they would not change MARAD’s responsibilities under maritime laws.

The legislation contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would impose no costs on state, local, or tribal governments.

Estimated cost to the Federal Government: The estimated budgetary effects of the legislation are shown in the following table. The costs of this legislation fall within budget function 400 (transportation).

	By fiscal year, in millions of dollars—									
	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
CHANGES IN DIRECT SPENDING										
Estimated budget authority	1	1	1	1	1	1	1	1	1	1
Estimated outlays	1	1	1	1	1	1	1	1	1	1

Note: Enacting the bill also would change the classification of about \$1 million a year in revenues by directing that those collections be recorded in the budget as an offset to spending. Following scorekeeping rule 13, such reclassifications in legislation are not counted for purposes of Congressional scorekeeping.

Basis of estimate: Several provisions of the legislation would provide a total of about \$1 million of new budget authority for MARAD each year by allowing the agency to spend, without further appropriation, certain amounts it currently collects and deposits in the U.S. Treasury as revenues.

Section 11 would allow MARAD to spend payments for damages received for accidents that involve vessels that it owns or manages. Based on recent judgments and settlements for damages collected as a result of such incidents, CBO estimates that this new authority would increase direct spending by an average of \$500,000 a year.

Sections 9 and 10 would authorize the agency to spend, without further appropriations action, certain administrative and regulatory fees. Amounts collected each year from such fees, including up to \$400,000 annually from licences on deepwater port applications and up to \$50,000 annually on waivers of coastwise trade restrictions, would be spent by MARAD on related regulatory programs. Based on the level of historical collections, CBO estimates that enacting these provisions would increase annual direct spending by less than \$500,000 a year.

The bill also would change the budgetary classification of those administrative and regulatory fees. Such collections are currently considered revenues but under the legislation would become offsetting receipts (an offset to direct spending). The resulting decrease in revenues and corresponding decrease in outlays are not counted for purposes of Congressional consideration, however, pursuant to scorekeeping rule 13, which states that reclassifications are not counted for purposes of enforcing the budget resolution (see House Report 105-217, the conference report on the Balanced Budget Act of 1997, page 1011).

Intergovernmental and private-sector impact: The legislation contains no intergovernmental or private-sector mandates as defined in UMRA. Section 14 would provide Hawaii with additional flexibility in spending federal funds. Other provisions of the bill would not affect the budgets of state, local, or tribal governments.

Previous CBO Estimate: On November 15, 2005, CBO transmitted a cost estimate for the Maritime Administration Enhancement Act of 2005, as ordered reported by the Senate Committee on Commerce, Science, and Transportation on July 21, 2006. The 2005 bill would authorize appropriations for MARAD programs for 2006; the 2006 bill contains no authorizations. Also, the 2005 bill would exempt MARAD from paying ad valorem taxes on certain materials and repairs for vessels that it operates, while the 2006 bill would not. Other provisions of the two bills are similar, as are the CBO cost estimates.

Estimate prepared by: Federal spending: Deborah Reis; Impact on state, local, and tribal governments: Sarah Puro; Impact on the private sector: Craig Cammarata.

Estimate approved by: Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.

REGULATORY IMPACT STATEMENT

Because S. 3852 does not create any new programs, the legislation will have no additional regulatory impact, and will result in no additional reporting requirements. The legislation will have no

further effect on the number or types of individuals and businesses regulated, the economic impact of such regulation, the personal privacy of affected individuals, or the paperwork required from such individuals and businesses.

SECTION-BY-SECTION ANALYSIS

Section 1. Short title; table of contents

Section 1 states the short title of the legislation, the “Maritime Administration Improvement Act of 2006”.

Section 2. Vessel transfer authority

This section would restore vessel transfer authority to DOT that was inadvertently lost when the Coast Guard was transferred to DHS.

Section 3. War risk insurance for merchant marine vessels

This is a technical correction to section 3502(b) of P.L. 108–375, the National Defense Authorization Act for Fiscal Year 2005.

Section 4. Requirements for admission to the USMMA

This section would require students entering the USMMA to meet the same physical and mental standards required by DOD. Any cadet not meeting such standards could be expelled. This change is necessary to ensure that students admitted to the Academy are capable of fulfilling the requirements of their commitment agreements upon graduation. If students do not meet these DOD standards, they would not be eligible to obtain a Merchant Marine license or to accept an appointment in a reserve unit of the Armed Forces of the United States, two key commitment agreement service requirements.

Section 5. Reserve training compliance and Armed Forces performance reporting requirements for graduates

Current law requires Academy graduates to become commissioned officers on active duty in an armed force of the United States or to become commissioned officers in the reserves of the Armed Forces for at least 6 years following graduation. The Privacy Act impedes MARAD from readily verifying with DOD, the Coast Guard, and NOAA that graduates are serving their commitment to the Armed Forces. This section would require DOD, the U.S. Coast Guard, and NOAA to certify annually to MARAD that Academy graduates have remained on active duty or in ready reserve status, thus confirming the fulfillment of a graduate’s service commitment agreement. In addition, this provision would provide a mechanism for MARAD to recover tuition from graduates who fail to perform their duties and that are found in noncompliance with their commitment agreement.

Section 6. Service in the Armed Forces and alternate service requirements

This section would require Academy graduates who serve on active duty in the Armed Forces to abide by the obligations of service of the branch under which they serve, and exempts them from having to maintain a U.S. Coast Guard-issued merchant mariner li-

cense and from having to fulfill an armed service reserve service requirement. This provision is intended to exempt graduates from the reserve requirement of the commitment agreement they sign as a condition to admission to the Academy. It would not exempt graduates from any reserve obligation imposed on them by the Armed Forces branch in which they serve on active duty. Finally, this section would provide the Secretary with waiver and alternate service requirement authority for individuals who may be unable to perform their service requirements.

Section 7. Qualifying reserve duty for receipt of student incentive payments

This provision would require individuals attending a State Maritime Academy to accept enlisted reserve status in either the U.S. Naval Reserve, including the Merchant Marine Reserve, or the U.S. Coast Guard Reserve as a prerequisite for receiving student incentive payments.

Section 8. GMATS

This section would clarify the role of GMATS located on the campus at Kings Point as a non-appropriated fund instrumentality operating under the jurisdiction of DOT.

Section 9. Availability of funds from application fees for deepwater port licenses

This section would allow MARAD to retain fees assessed pursuant to applications for licenses for ownership, construction, and operation of deepwater ports, up to \$400,000 per fiscal year.

Section 10. Availability of funds from administrative waivers of coastwise trade restrictions

This section would authorize MARAD to retain funds routinely collected through the agency's program for the Administrative Waiver of Coastwise Trade Laws for Eligible Vessels, up to \$50,000 per fiscal year.

Section 11. Amendments to the Vessel Operations Revolving Fund (VORF)

The VORF was created in 1951 to carry out vessel operating functions under the jurisdiction of the Secretary of Transportation, including the charter, operation, maintenance, repair, reconditioning, and betterment of merchant vessels. At present, such functions come at the expense of the operating repairs and maintenance budgeted for other NDRF vessels. In addition, all recoveries from litigation are deposited into the Treasury after payment to the Department of Justice for the costs of litigation. This section would allow MARAD to use a portion of the fee paid for the operation of the NDRF vessels and proceeds recovered from vessel accident litigation and arbitration. Funds would be placed in a reserve fund to cover the costs of vessel maintenance, repairs, and replacements.

Section 12. Right to use MARAD decoration

Current law allows for the Secretary to sanction the use, manufacture, sale, possession, or display of a decoration or medal, such as the merchant marine seal. This provision would permit the Sec-

retary, through the Maritime Administrator, to authorize the use of maritime emblems for purposes and events he deems meritorious, such as commemorative ceremonies or events. This section would make a technical correction to current law (46 U.S.C. App 2007) to clarify the Secretary means the Secretary of Transportation.

Section 13. MSP tank vessels

This section would provide an alternative approach for operators of the MSP product tankers to meet U.S.-built replacement vessel requirements. The alternative approach would include the construction and operation of equivalent domestic trade tank vessels.

Section 14. Intermodal centers

This provision would authorize funding provided under section 5833 (m)(6)(B) from Public Law 109–59 to be used for projects. Public Law 109–59 also authorizes MARAD to set the requirements for the Hawaii Port Intermodal Expansion Pilot Project.

Section 15. Large passenger ship crew requirements

This section would expand the pool of non-citizens that can be employed on U.S.-flag large passenger vessels to include certain non-resident alien visa holders.

CHANGES IN EXISTING LAW

In compliance with paragraph 12 of rule XXVI of the Standing Rules of the Senate, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new material is printed in italic, existing law in which no change is proposed is shown in roman):

(2) Not more than 25 percent of the unlicensed seamen on a vessel subject to paragraph (1) of this subsection may be aliens referred to in clause (C) of that paragraph.

(3) This subsection does not apply to a fishing vessel fishing exclusively for highly migratory species (as that term is defined in section 3 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802)).

(j) Riding gang member. This section does not apply to an individual who is a riding gang member.

(k)(1) Each unlicensed seaman on a passenger vessel of more than 70,000 gross tons as measured under section 14302 of this title, with capacity for at least 2,000 passengers and documented with a coastwise endorsement under chapter 121 of this title, shall be—

(A) a citizen of the United States;

(B) an alien lawfully admitted to the United States for permanent residence,

(C) an alien allowed to be employed under the Immigration and Nationality Act (8 U.S.C. 1101 et. seq.), including an alien crewman under Section 1101 (15)(D) (i) of that Act; or
