Mr. WELCH, from the Committee on Rules,  
submitted the following

R E P O R T

[To accompany H. Res. 636]

The Committee on Rules, having had under consideration House Resolution 636, by a record vote of 8 to 4, report the same to the House with the recommendation that the resolution be adopted.

SUMMARY OF PROVISIONS OF THE RESOLUTION

The resolution provides for consideration of H.R. 1908, the “Patent Reform Act of 2007,” under a structured rule. The resolution provides for one hour of general debate equally divided and controlled by the chairman and ranking minority member of the Committee on the Judiciary.

The resolution waives all points of order against consideration of the bill except those arising under clause 9 or 10 of rule XXI. The resolution provides that the amendment in the nature of a substitute recommended by the Committee on the Judiciary, now printed in the bill, shall be considered as an original bill and shall be considered as read. The resolution waives all points of order against the committee amendment in the nature of a substitute except those arising under clause 10 of rule XXI.

The resolution makes in order only those amendments printed in this report. Such amendments may be offered only in the order printed in this report, only offered by the Member designated in this report, shall be considered as read, shall be debatable for the time specified in this report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. The resolution waives all points of order against the amendments printed in this

report except those arising under clause 9 or 10 of rule XXI. The resolution provides one motion to recommit with or without instructions. Finally, the resolution permits the Chair, during consideration of the bill in the House, to postpone further consideration of the bill to a time designated by the Speaker.

#### EXPLANATION OF WAIVERS

Although the rule waives all points of order against the bill and its consideration (except for those arising under clause 9 or 10 of rule XXI), the Committee is not aware of any points of order against the bill or its consideration. The waivers of all points of order against the bill and its consideration (except those arising under clause 9 or 10 of rule XXI) are prophylactic in nature.

#### SUMMARY OF AMENDMENTS MADE IN ORDER

1. Conyers (MI)/Smith (TX)/Berman (CA)/Coble (NC): Manager's amendment. The amendment incorporates a number of revisions. They include revisions to the sections on damages, willful infringement, prior user rights, post-grant review, venue, inequitable conduct, applicant disclosure information, inventor's oath requirements, among others. (20 minutes)

2. Issa (CA): The bill eliminates provisions in the law permitting certain applicants to delay or prevent publication of their applications. (10 minutes)

3. 4. Jackson-Lee (TX): This amendment requires the Director of the United States Patent and Trademark Office to conduct a study of patent damage awards in cases from at least 1990 to the present where such awards have been based on a reasonable royalty under Section 284 of Title 35 of the United States Code. The Director of the PTO would be required to submit the findings to Congress no later than one year after the Act's enactment. (10 minutes)

“(1) DEFENSE.—One or more claims of a patent may be held to be unenforceable, or other remedy imposed under paragraph (4), for inequitable conduct only if it is established, by clear and convincing evidence, that a person with a duty of disclosure to the Office, with the intent to mislead or deceive the patent examiner, misrepresented or failed to disclose material information to the examiner during examination of the patent.

“(2) MATERIALITY.—

“(A) IN GENERAL.—Information is material under this section if—

“(i) a reasonable examiner would have made a prima facie finding of unpatentability, or maintained a finding of unpatentability, of one or more of the patent claims based on the information, and the information is not cumulative to information already of record or previously considered by the Office; or

“(ii) information that is otherwise material refutes or is inconsistent with a position the applicant takes in opposing a rejection of the claim or in asserting an argument of patentability.

“(B) PRIMA FACIE FINDING.—A prima facie finding of unpatentability under this section is shown if a reasonable examiner, based on a preponderance of the evidence, would conclude that the claim is unpatentable based on the information misrepresented or not disclosed, when that information is considered alone or in conjunction with other information or record. In determining whether there is a prima facie finding of unpatentability, each term in the claim shall be given its broadest reasonable construction consistent with the specification, and rebuttal evidence shall not be considered.

“(3) INTENT.—To prove a person with a duty of disclosure to the Office intended to mislead or deceive the examiner under paragraph (1), specific facts beyond materiality of the information misrepresented or not disclosed must be proven that establish the intent of the person to mislead or deceive the examiner by the actions of the person. Facts support an intent to mislead or deceive if they show circumstances that indicate conscious or deliberate behavior on the part of the person to not disclose material information or to submit false material information in order to mislead or deceive the examiner. Circumstantial evidence may be used to prove that a person had the intent to mislead or deceive the examiner under paragraph (1).

“(4) REMEDY.—Upon a finding of inequitable conduct, the court shall balance the equities to determine which of the following remedies to impose:

“(C) Holding the patent unenforceable.

“(D) Holding the claims of a related patent unenforceable.

“(5) ATTORNEY MISCONDUCT.—Upon a finding of inequitable conduct, if there is evidence that the conduct is attributable to a person or persons authorized to practice before the Office, the court shall refer the matter to the Office for appropriate disciplinary action under section 32, and shall order the parties to preserve and make available to the Office any materials that may be relevant to the determination under section 32.”.

4. AN AMENDMENT TO BE OFFERED BY REPRESENTATIVE JACKSON-LEE OF TEXAS, OR HER DESIGNEE, DEBATABLE FOR 10 MINUTES

At the end of the bill insert the following new section:

**SEC. 18. STUDY ON PATENT DAMAGES.**

(a) IN GENERAL.—The Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office (in this section referred to as the “Director”) shall conduct a study of patent damage awards in cases where such awards have been based on a reasonable royalty under section 284 of title 35, United States Code. The study should, at a minimum, consider cases from 1990 to the present.

(b) CONDUCT.—In conducting the study under subsection (a), the Director shall investigate, at a minimum, the following:

(1) Whether the mean or median dollar amount of reasonable-royalty-based patent damages awarded by courts or juries, as the case may be, has significantly increased on a per case basis during the period covered by the study, taking into consideration adjustments for inflation and other relevant economic factors.

(2) Whether there has been a pattern of excessive and inequitable reasonable-royalty-based damages during the period covered by the study and, if so, any contributing factors, including, for example, evidence that Federal courts have routinely and inappropriately broadened the scope of the “entire market value rule”, or that juries have routinely misapplied the entire market value rule to the facts at issue.

(3) To the extent that a pattern of excessive and inequitable damage awards exists, measures that could guard against such inappropriate awards without unduly prejudicing the rights and remedies of patent holders or significantly increasing litigation costs, including legislative reforms or improved model jury instructions.

(4) To the extent that a pattern of excessive and inequitable damage awards exists, whether legislative proposals that would mandate, or create a presumption in favor of, apportionment of reasonable-royalty-based patent damages would effectively guard against such inappropriate awards without unduly prejudicing the rights and remedies of patent holders or significantly increasing litigation costs.
