## **TITLE V—SENSE OF CONGRESS REGARDING FUNDING**

**SEC. 5001. SENSE OF CONGRESS REGARDING FUNDING.**

It is the sense of Congress that the Federal Government should not fund a national heritage area in perpetuity.

## PURPOSE OF THE BILL

The purpose of H.R. 1483, as ordered reported, is to amend the Omnibus Parks and Public Lands Management Act of 1996 to extend the funding authorization for certain national heritage areas, designate six new national heritage areas, provide for the study of a potential new area, and make other changes in the administration of certain national heritage areas.

## BACKGROUND AND NEED FOR LEGISLATION

National Heritage Areas are locally-driven projects which conserve and interpret historic and cultural resources through coordinated efforts by federal, state and local governmental entities as well as private parties. The Department of the Interior, acting through the National Park Service, provides limited matching funds and technical assistance to a designated local entity responsible for coordinating management of the area. Heritage areas are not units of the National Park System, but require Congressional authorization and must have a completed study, acceptable to the Secretary of the Interior, supporting designation. To date, Congress has approved 37 national heritage areas.

As reported, H.R. 1483 would establish six new national heritage areas: Journey through Hallowed Ground NHA in Pennsylvania, Maryland, West Virginia and Virginia; Niagara Falls NHA in New York, Muscle Shoals NHA in Alabama, Freedom's Way NHA in Massachusetts and New Hampshire, Abraham Lincoln NHA in Illinois; and Santa Cruz Valley NHA in Arizona.

Each of these areas have been studied and meet the standards set forth for suitability and feasibility of such areas, including having an assemblage of natural, historic, and cultural resources that together represent distinctive aspects of American heritage worthy of recognition, conservation, interpretation, and continuing use; and which would be best managed through partnerships among public and private entities so as to combine their diverse and sometimes noncontiguous resources and active communities.

The areas also reflect traditions, customs, beliefs, and folklife that are a valuable part of the national story; provide outstanding opportunities to conserve natural, historic, cultural, or scenic features; provide outstanding recreational and educational opportunities; and contain resources important to the identified theme or themes of the area that retain a degree of integrity capable of supporting interpretation.

Supporters of each area include residents, business interests, nonprofit organizations, and local and state governments who are all involved in the planning. Each proposed heritage area has developed a conceptual financial plan that outlines the roles of all participants (including the Federal Government), and has demonstrated support for the concept of a national heritage area. Each proposed heritage area has also identified a potential management entity and developed a conceptual boundary map that is supported by the public.

As reported, H.R. 1483 would also authorize additional funding for nine existing national heritage areas: America's Agricultural Heritage Partnership (Silos and Smokestacks) (IA), Augusta Canal (GA), Essex (MA), Hudson River Valley (NY), Coal (WV), Ohio and

Erie Canal (OH), Rivers of Steel (PA), South Carolina (SC), and Tennessee Civil War (TN), and requires the Secretary of the Interior to evaluate the long-term viability of each area.

H.R. 1483 as reported also would require a study of Virginia's Northern Neck as a possible heritage area; make technical changes to the management language governing the Ohio and Erie Canal National Heritage Corridor, the National Coal Heritage Area, and Erie Canalway National Heritage Corridor (NY); would add counties to the South Carolina and Rivers of Steel NHAs; and would extend the authorization of the New Jersey Coastal Heritage Trail Route.

#### COMMITTEE ACTION

H.R. 1483 was introduced on March 12, 2007, by Rep. Ralph Regula (R-OH). The bill was referred to the Committee on Natural Resources, and within the Committee to the Subcommittee on National Parks, Forests and Public Lands.

H.R. 1483 was the subject of a hearing before the Subcommittee on National Parks, Forests and Public Lands on May 15, 2007. Free standing bills establishing the Journey through Hallowed Ground NHA and the Niagara Falls NHA were approved by the Natural Resources Committee on March 7, 2007, and May 2, 2007, respectively.

Hearings on the other four new national heritage areas were held on June 14, 2007, for the Abraham Lincoln NHA (H.R. 1625) and on July 12, 2007, for Muscle Shoals (H.R. 1145), Freedom's Way (H.R. 1297) and Santa Cruz Valley (H.R. 1885).

The July 12 hearing also featured H.R. 105, which would mandate the Northern Neck study; H.R. 1083, which would add a county to the Rivers of Steel NHA; and H.R. 1815, which would grant a short extension to the authorization of the New Jersey Coastal Heritage Trail Route.

On September 26, 2007, the Full Natural Resources Committee met to consider H.R. 1483.

Rep. Raul Grijalva (D-AZ) offered an amendment in the nature of a substitute to raise the appropriations ceiling for each of the nine national heritage areas identified in the original bill from the current \$10 million to \$15 million, rather than \$20 million as specified in the bill as introduced. The substitute does not provide any extension of the current sunset dates for these areas. The substitute would also require an evaluation and report procedure as requested by the National Park Service, would designate six new national heritage areas and set out management, evaluation, sunset and other requirements for each area; direct the National Park Service to study the suitability and feasibility of designating a national heritage area in the Northern Neck of Virginia; make technical corrections in the establishing legislation of three existing national heritage areas, incorporate additional counties within the boundaries of two existing areas, and extend the authorization of the New Jersey Coastal Heritage Trail Route for four years and make other technical changes relating to a report required by Public Law 109-338.

An amendment offered by Rep. Jeff Flake (R-AZ) to express the sense of Congress that the federal government should not fund a national heritage area in perpetuity was agreed to by voice vote.

An amendment offered by Rep. Dean Heller (R–NV) to delete the sixth congressional district of Maryland and the fifth congressional district of Virginia from the Journey through Hallowed Ground National Heritage Area was rejected on a voice vote.

An amendment offered by Rep. Doug Lamborn (R–CO) to insert a savings clause relating to the development and management of energy, water and water-related infrastructure was offered then withdrawn.

Subsequently, an amendment offered by Chairman Nick Rahall (D–WV) to specify that development and management of energy, water and water-related infrastructure are included in the regulatory activities that are not altered by new heritage area designations was agreed to by voice vote.

An amendment offered by Rep. Rob Bishop (R–UT) to require notification of each private property owner whose land would be preserved, conserved or promoted by the management plan, and to require that any property owner be allowed to withdraw their property from the heritage area by written request, was rejected on a voice vote.

The Grijalva amendment in the nature of a substitute, as amended, was agreed to by voice vote.

The bill, as amended, was then ordered favorably reported to the House of Representatives by a roll call vote of 23 to 12, as follows:

## SECTION-BY-SECTION ANALYSIS

*Section 1. Short title*

Section 1 states that the bill may be cited as the “Celebrating America’s Heritage Act.”

*Section 2. Table of contents*

Section 2 lays out the bill’s table of contents.

## TITLE I: AUTHORIZATION EXTENSIONS AND VIABILITY STUDIES

Title I would increase the total funding authorization from \$10 million to \$15 million for nine existing national heritage areas (NHAs): America’s Agricultural Heritage Partnership (Silos and Smokestacks) (IA), Augusta Canal (GA), Essex (MA), Hudson River Valley (NY), Coal (WV), Ohio and Erie Canal (OH), Rivers of Steel (PA), South Carolina (SC), and Tennessee Civil War (TN).

Title I would also require the National Park Service to evaluate the accomplishments of each of those areas, report to Congress on those accomplishments, as well as on government and private investment in the area and make recommendations on the future role, if any, of the National Park Service in that heritage area. The evaluation would begin not later than three years before the sunset date for the area.

## TITLE II: ESTABLISHMENT OF NATIONAL HERITAGE AREAS

The six subtitles of Title II would each establish a new national heritage area: Journey through Hallowed Ground NHA in Virginia, West Virginia, Maryland, and Pennsylvania (Subtitle A), Niagara Falls NHA in New York (Subtitle B), Muscle Shoals NHA in Alabama (Subtitle C), Freedom’s Way NHA in Massachusetts and New Hampshire (Subtitle D), Abraham Lincoln NHA in Illinois (Subtitle E); and Santa Cruz Valley NHA in Arizona (Subtitle F).

Each subtitle sets forth the definitions and purposes of the particular NHA, specifies the states and counties involved, cites a National Park Service map describing the boundaries, identifies the local coordinating entity responsible for the area, sets out requirements for development and implementation of a management plan, establishes an evaluation requirement identical to that contained in Title I, describes the duties and authorities of the local coordinating entity, outlines the area’s relationship to other federal agencies, sets forth protections for private property owners and makes clear that the designation does not alter existing regulations or land use plans, authorizes up to \$1 million annually for 15 years for a total of up to \$15 million, and terminates the authority of the National Park Service to provide assistance under each subtitle 15 years after the date of enactment.

Each subtitle includes property rights language identical to that which has already been approved several times by this committee, the Senate Energy and Natural Resources Committee and the full Senate. That language includes provisions making clear that nothing in each subtitle abridges any property right “including the right to refrain from participating in any plan, project, program of activity conducted within the National Heritage Area,” and that property owners may not be required under this act to grant access to or through their property.

Additionally, each subtitle includes language that would prohibit the local coordinating entity from using Federal funds authorized under this act to acquire any interest in real property.

Each subtitle also makes clear that duly adopted land use regulations and plans as well as any other Federal, state, local or tribal regulatory authority are unaffected by the legislation, including development and management of infrastructure related to energy and water projects.

Each subtitle also expressly states that no water rights are authorized or implied, and that states' authority to manage fish and wildlife (including hunting within the National Heritage Area) are unaffected.

#### TITLE III: STUDY

Title III would direct the National Park Service to study the suitability and feasibility of designating certain portions of the Commonwealth of Virginia as the Northern Neck National Heritage Area.

#### TITLE IV: TECHNICAL CORRECTIONS AND ADDITIONS

Title IV would make technical corrections in the establishing legislation of the National Coal Heritage Area, the Ohio & Erie Canal National Heritage Corridor, and the Erie Canalway National Heritage Corridor.

Specifically, the changes for the National Coal Heritage Area would authorize the transition of the management entity to a new organization, the National Coal Heritage Area Authority, and make other technical changes. The technical corrections for the Ohio & Erie Canal are mostly related to a name change for the area and the deauthorization of the Ohio & Erie Canal National Heritage Corridor Committee, whose duties have already been assumed by a non-profit management entity.

Title IV would also make a series of technical changes in the legislation (PL 106-554) authorizing the Erie Canalway National Heritage Corridor. The changes relate to the makeup and operation of the commission established in the original law to develop a management plan; the amendments would also allow appropriated funds to remain available until spent.

Title IV would also add Butler County, PA, to the Rivers of Steel NHA; and Berkeley, Saluda and part of Georgetown County to the South Carolina National Heritage Corridor.

Title IV would also extend the authorization of the New Jersey Coastal Heritage Trail Route by three years to allow completion of a strategic plan ordered by the 109th Congress (PL 109-338) and authorize the use of federal funding to complete the plan.

#### COMMITTEE OVERSIGHT FINDINGS AND RECOMMENDATIONS

Regarding clause 2(b)(1) of rule X and clause 3(c)(1) of rule XIII of the Rules of the House of Representatives, the Committee on Natural Resources' oversight findings and recommendations are reflected in the body of this report.

## CONSTITUTIONAL AUTHORITY STATEMENT

Article I, section 8 of the Constitution of the United States grants Congress the authority to enact this bill.

## COMPLIANCE WITH HOUSE RULE XIII

1. **Cost of Legislation.** Clause 3(d)(2) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison by the Committee of the costs which would be incurred in carrying out this bill. However, clause 3(d)(3)(B) of that rule provides that this requirement does not apply when the Committee has included in its report a timely submitted cost estimate of the bill prepared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act of 1974.

2. **Congressional Budget Act.** As required by clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974, this bill does not contain any new budget authority, spending authority, credit authority, or an increase or decrease in revenues or tax expenditures.

3. **General Performance Goals and Objectives.** As required by clause 3(c)(4) of rule XIII, the general performance goal or objective of this bill is to amend the Omnibus Parks and Public Lands Management Act of 1996 to extend the authorization for certain national heritage areas, and for other purposes.

4. **Congressional Budget Office Cost Estimate.** Under clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 403 of the Congressional Budget Act of 1974, the Committee has received the following cost estimate for this bill from the Director of the Congressional Budget Office:

*H.R. 1483—Celebrating America’s Heritage Act*

Summary: H.R. 1483 would establish six national heritage areas (NHAs), which are nonfederal lands and communities managed privately in conjunction with the National Park System. For each of the new areas, the bill would authorize the appropriation of \$1 million annually, up to \$15 million over 15 years. In addition, the bill would increase the ceiling on authorizations of appropriations for nine existing NHAs.

Assuming appropriation of the authorized amounts, CBO estimates that the National Park Service (NPS) would spend \$6 million in 2008 and \$46 million over the 2008–2012 period to implement H.R. 1483. An additional \$60 million would be spent after 2012. Enacting H.R. 1483 would have no significant effect on revenues or direct spending.

The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would impose no costs on state, local, or tribal governments.

Estimated cost to the federal government: The estimated budgetary impact of H.R. 1483 is shown in the following table. The costs of this legislation fall within budget function 300 (natural resources and environment).

	By fiscal year, in millions of dollars—				
	2008	2009	2010	2011	2012
CHANGES IN SPENDING SUBJECT TO APPROPRIATION					
Spending for Proposed NHAs:					
Estimated Authorization Level .....	6	6	6	6	6
Estimated Outlays .....	6	6	6	6	6
Spending for Existing NHAs:					
Estimated Authorization Level .....	0	3	4	4	5
Estimated Outlays .....	0	3	4	4	5
Total Spending Under H.R. 1483:					
Estimated Authorization Level .....	6	9	10	10	11
Estimated Outlays .....	6	9	10	10	11

Basis of estimate: For this estimate, CBO assumes that H.R. 1483 will be enacted early in fiscal year 2008 and that the authorized amounts will be appropriated for each year. The NPS would use such appropriations to provide technical and financial assistance to the managing entities of the NHAs, which are usually local nonprofit organizations. Historically, the NPS has received appropriations of between \$8 million and \$14 million a year for that purpose.

#### *Spending for proposed NHAs*

The authorization levels in the table include \$1 million annually for each of the six NHAs that would be established by the bill:

- Journey Through Hallowed Ground NHA in Maryland and Virginia;
- Niagara Falls NHA in New York;
- Muscle Shoals NHA in Alabama;
- Freedom's Way NHA in Massachusetts and New Hampshire;

ABRAHAM LINCOLN NHA IN ILLINOIS; AND SANTA CRUZ VALLEY  
NHA IN ARIZONA.

Assuming appropriation of the authorized amounts, CBO estimates that the NPS would spend \$6 million in 2008 and \$30 million over the 2008–2012 period to assist the NHAs with planning and development. We estimate that \$60 million would be spent for this purpose after 2012.

#### *Spending for existing NHAs*

The bill would raise, from \$10 million to \$15 million, the authorization ceiling for nine NHAs that were established in 1996. Under this provision, the nine NHAs would be eligible to receive additional payments of up to \$1 million annually after they have reached the existing ceiling. The affected areas, and their aggregate appropriations to date, include:

- America's Agricultural Heritage Partnership (\$5.1 million);
  - Augusta Canal NHA (\$4.7 million);
  - Essex NHA (\$9.3 million);
  - Hudson River Valley NHA (\$6 million);
  - National Coal Heritage Area (\$1.9 million);
  - Ohio and Erie Canal National Heritage Canalway (\$9.4 million);
  - Rivers of Steel NHA (\$9.4 million);
  - South Carolina National Heritage Corridor (\$7.9 million);
- and

- Tennessee Civil War Heritage Area (\$2.1 million)

Based on appropriations to date and assuming appropriation of the additional amounts authorized by the bill for each area after it reaches the existing ceiling, CBO estimates that implementing this aspect of H.R. 1483 would cost \$16 million over the 2008–2012 period. We expect that three of the NHAs would begin receiving the additional funding in 2009. That number would increase to five by 2012. As under existing law, authority for funding for those nine areas would expire after fiscal year 2012; therefore, no additional amounts would be spent after that period under the legislation.

Intergovernmental and private-sector impact: H.R. 1483 contains no intergovernmental or private-sector mandates as defined in UMRA and would impose no costs on state, local, or tribal governments.

Previous CBO estimates: CBO has transmitted cost estimates during the 110th Congress for several bills that would establish the Journey Through Hallowed Ground NHA (see S. 289 and H.R. 319), the Niagara Falls NHA (see S. 800 and H.R. 713), and the Abraham Lincoln NHA (see S. 955). The estimated costs of those bills were the same as those for the similar provisions in H.R. 1483.

Estimate prepared by: Federal costs: Deborah Reis; Impact on state, local, and tribal governments: Leo Lex; Impact on the private sector: Amy Petz.

Estimate approved by: Theresa Gullo, Deputy Assistant Director for Budget Analysis.

This bill is not intended to preempt any State, local or tribal law.

## DISSENTING VIEWS ON H.R. 1483

We oppose H.R. 1483 because it is an irresponsible bill further marred by Committee Democrats in markup on September 26, 2007. While the intent of H.R. 1483 was evident—extending the authorization and funding for nine heritage areas that have nearly hit their authorized funding cap—it is not clear why the Democrats chose to take this bill and turn it into a vehicle for more spending. The Grijalva amendment in the nature of a substitute (ANS) passed by the Democrats is a thumb in the eye to private property rights advocates and fiscal responsibility. Inexplicably the Democrats gave the six new heritage areas included in the ANS a \$5 million raise over what was requested in their respective bills as introduced. Each heritage area will now receive \$15 million in federal money and remain eligible for additional federal funds. The total cost of the bill with the Democrat ANS is over \$135 million. While one committee member described this as a “small paltry pittance,” it should be recorded that \$135 million is equal to the total annual federal income taxes paid by 33,276 middle-class taxpayers.

Taxpayer advocates testified against H.R. 1483 in subcommittee. Heritage areas must become self-sufficient. Even former National Parks Subcommittee Chairman, the late Bruce Vento, agreed with this principle. On October 5, 1994, during floor debate on the heritage areas that will be reauthorized in H.R. 1483 he explained, “there is a limit to the length of time or the amount of money the Federal Government can be in a heritage area. In 10 years, we are out of there. Then they are on their own and we get the benefit of that conservation.” We ought to heed the counsel of Chairman Vento, a known advocate of heritage areas, and block these second and third bites of the apple.

The Democrats made a supposed gesture of responsibility by cutting the original H.R. 1483 request for additional funds from \$10 million to \$5 million per reauthorized heritage area. That would have been a \$45 million dollar savings over the bill as introduced. Unfortunately for taxpayers, the Democrats seized on the opportunity to pile on six new heritage areas and rename the monster the “Celebrating America’s Heritage Act.” This bill is indeed a celebration for those who will receive new heritage areas and the federal funds that accompany it. Those who will not celebrate are private property owners who may have an empowered, enriched, and Congressionally-blessed heritage area management entity to spar with. Congressman Rob Bishop offered a common sense amendment to allow property owners the opportunity to remove their land from the heritage area boundaries and require the management entity of a heritage area to obtain written consent from an owner before their property is conserved, preserved, or promoted. Democrats contend that the bill language offers protection because owners are not required to participate. They fail to mention that

property owners remain under the sphere of influence of the management entity because they are in the Congressionally designated boundaries. Predictably, Democrats turned their back on property rights and rejected the Bishop amendment.

Of the six new heritage areas in H.R. 1483 as reported, two have been shuttled through Committee by the Democrats. The Journey Through Hallowed Ground Heritage Area, was marked up on March 7, 2007, following a contentious meeting with the hope that concerns of Members whose districts will be in the proposed heritage area would be worked out. While efforts were made, agreements were not reached, but the Democrats pressed forward despite appeals from Congressman Roscoe Bartlett (MD-6) and Congressman Virgil Goode (VA-5) to remove their districts from the designation. This is a simple request and it is astonishing that such a request was belittled by the Democrats. At Mr. Goode and Mr. Bartlett's request, Congressman Dean Heller (NV-2) offered an amendment to remove those districts, but democrats rebuffed it, claiming that Mr. Goode and Bartlett should be satisfied with the language Democrats have written. Subcommittee Chairman Grijalva explained, "I think the protections are there for the constituents of my colleagues for them to opt in or opt out, and I think those protections suffice." We agree that those protections would suffice, but unfortunately they are not included in the Grijalva amendment, and as stated earlier democrats rejected opt out authority included in the Bishop amendment. Why would private property owners believe they will be able to "opt out" when two Members of Congress could not have their districts removed? We believe a Member's wish to be included in a Federal designation is an essential qualification to its creation. It is distressing that a federal designation, especially a controversial Heritage Area, which is typically billed as "voluntary," is being forced on two Congressional districts.

Title II, Subtitle B of the Grijalva ANS previously passed the Natural Resources Committee as H.R. 713. This Heritage Area is being quickly advanced while lacking the same private property rights protection that was provided to the previous twelve established heritage areas. Additionally, this heritage area lacks local support in the form of a management entity responsible for its operation. In its place, the Secretary of the Interior will establish a top down commission and control the Heritage Area. We understand the proponents of this legislation hope this Heritage Area will play a role in the economic redevelopment of the Niagara Falls region. A casino is at the heart of the economic redevelopment plan that this bill is designed to promote. This raises the question: What role will the National Heritage Area play in the promotion of the casino? We believe advocacy of gaming should never be part of legislation to establish heritage areas. If the heritage area is to play an integral role in the redevelopment plans of the Niagara Falls region, and the center of that plan is the casino, Congress must create a firewall between the heritage area and gaming. Congressman Rob Bishop offered an amendment to delineate those interests and to our astonishment, the Majority voted in a straight party line that such separation was unnecessary. We hope the Majority ex-

tends the courtesy of investigating these issues before further rail-roading this bill.

Some of these troubling issues may have been resolved had regular order been followed. Despite Chairman Rahall's insistence on February 7, 2007, in a full Committee meeting, that regular order would be followed, only one of the ANS subtitles has gone through regular order with a hearing and subcommittee markup. We are perplexed as to why National Parks, Recreation, Forests and Public Lands Chairman Grijalva's subcommittee is consistently bypassed despite the other subcommittees' work to follow regular order. We have found that this rush to move legislation results in an inferior work product. For example, the Grijalva ANS establishes the Muscle Shoals National Heritage Area. The feasibility study for this potential heritage area has yet to be completed. Clearly, it would be shortsighted and irresponsible to establish this heritage area and write it a \$15 million check when the necessary preparation has not been completed. How often have we heard the Democrats and their allies in the environmental movement complain that land use decisions are sometimes made before lengthy studies are completed to their satisfaction? Evidently, if a federal designation is something Democrats and environmentalists favor, no serious study is needed. When it is something they oppose, no study can be long enough, expensive enough, onerous enough, or litigated enough to satisfy them. It is far beyond the time to "let the subcommittees do their work" as Chairman Rahall asserted.

In conclusion, while this bill is flawed, we look forward to finding reasonable compromises on the Floor of the House under an open rule where a fair and open debate may occur.
