APRIL 18, 2007.—Referred to the House Calendar and ordered to be printed

Mr. CARDOZA, from the Committee on Rules,
submitted the following

R E P O R T

[To accompany H. Res. 318]

The Committee on Rules, having had under consideration House Resolution 318, by a nonrecord vote, report the same to the House with the recommendation that the resolution be adopted.

SUMMARY OF PROVISIONS OF THE RESOLUTION

The resolution provides for consideration of H.R. 363, which authorizes appropriations for basic research and research infrastructure in science and engineering, and for support of graduate fellowships. The resolution provides for one hour of general debate equally divided and controlled by the Chairman and Ranking Minority Member of the Committee on Science and Technology.

The resolution waives all points of order against consideration of the bill except those arising under clause 9 or 10 of rule XXI. The resolution makes in order the amendment in the nature of a substitute recommended by the Committee on Science and Technology as the original bill for the purpose of further amendment. The committee amendment in the nature of a substitute shall be considered as an original bill and shall be considered as read. All points of order against the committee amendment are waived except those arising under clauses 9 or 10 of rule XXI.

The resolution makes in order those amendments printed in this report and waives all points of order against such amendments except those arising under clauses 9 or 10 of rule XXI. The resolution provides one motion to recommit with or without instructions. Finally, notwithstanding the operation of the previous question, during consideration of the bill the Chair may postpone further consideration to a time designated by the Speaker.

EXPLANATION OF WAIVERS

Although the rule waives all points of order against the bill's consideration (except for those arising under clauses 9 or 10 of rule XXI), the Committee is not aware of any specific points of order. The waiver of all points of order against the bill and against its consideration is prophylactic in nature.

(Summaries derived from information provided by sponsors.)

1. (20 minutes)

2. Tauscher (CA): Under the NSF awards guidelines, the amendment recommends that the Director "shall give special consideration to eligible early-career researchers who have followed alternative career paths such as working part-time or in non-academic settings, or who have taken a significant career break or other leave of absence." The amendment would also add to the Presidential Award section that an additional purpose of the award is that it helps foster innovation that enhances American competitiveness. (10 minutes)

3. Gillibrand (NY): The National Science Foundation shall institute a program to award scholarships in science, technology, engineering, or mathematics to undergraduate scholars.
