

MILITARY CONSTRUCTION, VETERANS AFFAIRS, AND
 RELATED AGENCIES APPROPRIATIONS BILL, 2010

JUNE 26, 2009.—Committed to the Committee of the Whole House on the State of
 the Union and ordered to be printed

Mr. EDWARDS of Texas, from the Committee on Appropriations,
 submitted the following

R E P O R T

together with

ADDITIONAL VIEWS

[To accompany H.R. 3082]

The Committee on Appropriations submits the following report in
 explanation of the accompanying bill making appropriations for
 military construction, the Department of Veterans Affairs, and re-
 lated agencies for the fiscal year ending September 30, 2010, and
 for other purposes.

PURPOSE OF THE BILL

The purpose of the bill is to support our military and their families and provide the benefits and medical care that our veterans have earned for their service. This is accomplished through the programs funded in the bill. Programs that provide the facilities and infrastructure needed to house, train, and equip our military personnel to defend this nation; both in the United States and abroad; programs that provide the housing and military community infrastructure that sustains quality of life for them and their families; and programs that allow the military to efficiently and effectively maintain a right-sized base structure. The bill also funds programs to ensure that all of our veterans receive the benefits and medical care that they have earned as a result of the sacrifices they have made in their service to our country. Finally, the bill funds four related agencies that provide support to our nation’s heroes; the American Battle Monuments Commission, Cemeterial Expenses, Army (Arlington Cemetery), the United States Court of Appeals for Veterans Claims, and the Armed Forces Retirement Home.

SUMMARY OF COMMITTEE RECOMMENDATION

The Committee recommends \$133,726,656,000 in new budget authority for the programs and activities funded in the bill. This recommendation is an increase of \$14,120,731,000 above the fiscal year 2009 enacted level and an increase of \$239,146,000 above the President’s request. Included in this amount is \$55,821,672,000 in mandatory authority and \$77,904,984,000 in discretionary authority.

The Committee recommendation highlights the continued commitment to our servicemembers and their families and to our veterans. The total funding level for military construction, including Overseas Contingency Operations, is \$24,577,366,000, a 1.7 percent decrease below the fiscal year 2009 enacted level. This does not include the American Recovery and Reinvestment Act emergency funding. This level of funding supports the servicemen and women and their families who are making the ultimate sacrifice during this time of war. The programs funded in the bill for the Department of Defense (DOD), address the numerous challenges we have

asked our military to accomplish simultaneously. These funds support an increase in troop strength for both the Army and Marine Corps, continue the cleanup of military bases closed during Base Realignment and Closure rounds, resource the military's global re-stationing plan, and ensure that our military personnel and their families' quality of life is preserved within these plans.

The total funding level of \$108,860,775,000 for the Department of Veterans Affairs is a 15.4 percent increase over the fiscal year 2009 enacted level, not including the American Recovery and Reinvestment Act fiscal year 2009 emergency funding. The recommendation provides funding to increase various benefits programs administered by the Department, as authorized by current law, including changes to education benefits which will become effective late in fiscal year 2009. Additionally, the recommendation includes administrative support to carry out these programs, including the budget request for an additional 1,200 claims processors to reduce the claims processing backlog and length of time it takes to process an initial claim. The Committee recommendation supports the budget increases requested by the Department to improve access to care for all veterans, increase services for homeless veterans, and expand medical research. The Committee remains concerned with the backlog in non-recurring maintenance at medical facilities and has provided additional resources to address this issue.

The following table compares amounts recommended in the bill to the President's request and amounts appropriated in fiscal year 2010:

ITEMS OF INTEREST

Advance Appropriations.—The Committee recommendation includes an advance appropriation for the medical services, medical support and compliance, and medical facilities accounts. The goal of this advance appropriation is to provide the Veterans Health Administration (VHA) with reliable and timely funding for their current services so that the delivery of medical care is not disrupted. However, the provision of an advance appropriation should be seen as only the first step in this process. The VHA must also plan and publish the distribution of this funding prior to the beginning of the fiscal year so that medical directors are prepared and funded on October 1st. The Committee directs the Department to include in future budget submissions the budget plan for the advance appropriation provided in the previous year's bill to include the amount of funds that will be allocated in accordance with the Veterans Equitable Resource Allocation (VERA), and the Committee expects funding provided by advance appropriations to be made available to the Veterans Integrated Service Networks on October 1st. The Committee further directs the Department to include an advance appropriations request for current services for the medical services, medical support and compliance, and medical facilities accounts in future budget submissions.

Support for Homeless Veterans.—The Committee is encouraged by the increased support for homeless veterans requested in the fiscal year 2010 budget submission. The Committee notes that the fiscal year 2010 budget request estimates that the Department expects to spend \$2,721,934,000 on medical treatment for homeless veterans and \$500,283,000 on homeless programs, including \$26,000,000 for a Presidential Initiative to combat homelessness and an increase of \$21,204,000 for additional case managers to support the additional 10,000 "Housing Choice" vouchers that are included in the Department of Housing and Urban Development budget request. However, the budget request did not fund the Homeless Grant and Per Diem program and the Supportive Services Low Income Veterans and Family program at their full authorization amounts. The Committee directs the Department to provide the full authorization levels of \$150,000,000 and \$20,000,000 respectively, for these programs.

Collaborative Use of Martin Army Hospital.—The Committee encourages the Departments of Defense and Veterans Affairs to continue ongoing discussions on collaborative use of the new Martin Army Community Hospital facility to be constructed at Fort Benning, Georgia, such as the sharing of resources and potential collocation of VA facilities. The Committee directs the Departments of Defense and Veterans Affairs jointly to submit a report on potential collaboration at Martin Army Hospital no later than January 29, 2010.

Reductions.—In order to invest in the critical priorities identified in this bill, and in an effort to build an economy on a solid foundation for growth and put the Nation on a path toward prosperity, the Committee has proposed herein a number of program reductions from the fiscal year 2009 level totaling over \$3.2 billion. In addition, nearly \$1.5 billion in other program reductions from the budget request are recommended. These adjustments, no matter

their size, are important to setting the right priorities within the spending allocation, for getting the deficit under control, and creating a government that is as efficient as it is effective.

TITLE I

DEPARTMENT OF DEFENSE

MILITARY CONSTRUCTION OVERVIEW

(INCLUDING RESCISSIONS OF FUNDS)

Fiscal year 2009 enacted level (including rescissions) ¹	\$12,117,688,000
Fiscal year 2010 budget request ²	14,093,201,000
Committee recommendation in the bill (including rescissions) ²	14,220,947,000
Comparison with:	
Fiscal year 2009 enacted level	2,103,259,000
Fiscal year 2010 budget request	127,746,000

¹ Does not reflect \$2,190,000,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

² Includes funding for Overseas Contingency Operations.

Military construction accounts provide funds for new construction, construction improvements, planning and design, and host nation support. Projects funded by these accounts include facilities for operations, training, maintenance, research and development, supply, medical care, and force protection, as well as unaccompanied housing, utilities infrastructure, and land acquisition.

The Committee recommends a total appropriation of \$14,306,247,000 and rescissions of \$85,300,000 for Military Construction, an increase of \$2,103,259,000 above the fiscal year 2009 enacted level and an increase of \$127,746,000 above the budget request. The Committee has retained bill language incorporating the military construction projects specified in this report into the text of the bill by reference.

Future Years Defense Plan and Quadrennial Defense Review.—The Committee is concerned by the Department of Defense’s decision not to release a Future Years Defense Plan (FYDP) for military construction and family housing programs, despite the clear requirement to submit one annually under 10 U.S.C. 221. The FYDP provides Congress with a clear statement of the Department’s present and anticipated requirements and priorities across all services, components, and Defense agencies. The difficulty created for the Committee by this decision is compounded by the unanswered questions surrounding major initiatives with significant impacts on military construction, some of which have been incorporated in the Quadrennial Defense Review (QDR) process. These unresolved questions include the stationing of Army units following the Secretary of Defense’s decision to reduce the number of planned brigade combat teams; the force posture of U.S. forces, particularly the Army, in the European Command area of responsibility; the Navy’s intention to establish a second east coast nuclear carrier homeport; the strategy and timetable for the realignment of 8,000 marines and their families from Okinawa to Guam; the training requirements for Marine Corps forces in the Pacific; and the ultimate disposition of the proposed ballistic missile defense system in Europe. The Committee expects the Department to promptly inform the Committee when decisions on future plans are finalized.

Army Trainee Troop Housing Initiative.—The Committee recommends \$450,000,000 for Army trainee troop housing facilities to address the unfunded backlog of modernization requirements. The Army has an estimated need for 115,413 trainee barracks spaces, only 50,329 of which were deemed adequate as of the end of fiscal year 2009. The current Army program projects that the full amount of \$2,200,000,000 in military construction funding needed to complete modernization will not be in place until fiscal year 2015. The Committee therefore recommends these additional funds to accelerate this program, and has included language directing the Army to submit a spending plan for these funds no later than 30 days after the enactment of this Act.

Guard and Reserve Initiative.—The Committee recommends \$200,000,000 for a Guard and Reserve initiative to address urgent unfunded requirements for the Army National Guard, Air National Guard, Army Reserve, Navy and Marine Corps Reserve, and Air Force Reserve. The Committee recognizes the critical contribution made by reserve component personnel to disaster assistance, homeland security, and national defense, including the burdens borne by the Guard and Reserve to support overseas contingency operations. The Committee has included language directing that spending plans be submitted for the funds provided no later than 30 days after the enactment of this Act.

Incremental Funding.—The Committee is concerned by the decision by the Office of Management and Budget to disallow any new incrementally funded military construction projects beginning with the fiscal year 2010 request. The Committee repeatedly has stated that while projects should be fully funded or separated into stand-alone phases where practicable, incremental funding should remain an option when it makes fiscal and programmatic sense. Some of the projects requested by the Administration as “phases” would be more appropriately requested as fully authorized, incrementally funded facilities. In some cases, the phased approach can drive up costs by requiring inefficient designs and separate bids that leave subsequent phases vulnerable to construction price inflation. The Committee will continue to exercise its prerogative to recommend incremental funding in accordance with authorizing legislation. The Committee therefore recommends incremental funding for the following seven projects included in the Administration’s request: Aviation Task Force Complex, Fort Wainwright, Alaska, under Military Construction, Army; North Region Tertiary Treatment Plant, Camp Pendleton, California, under Military Construction, Navy and Marine Corps; Ship Repair Pier Replacement, Portsmouth, Virginia, under Military Construction, Navy and Marine Corps; Apra Harbor Wharves Improvements, Guam, under Military Construction, Navy and Marine Corps; Data Center, Camp Williams, Utah, under Military Construction, Defense-Wide; Hospital Replacement, Fort Bliss, Texas, under Military Construction, Defense-Wide; and Hospital Replacement, Guam, under Military Construction, Defense-Wide.

School Facilities Serving Gaining Installations.—The Committee remains concerned about the ability of installations and surrounding communities that are gaining personnel under either BRAC or Growing the Force to accommodate rapidly growing numbers of military dependent school-age children in adequate edu-

cational facilities. The Committee therefore directs the Department of Defense to submit a report on the steps currently being taken to address this problem with both DOD schools and local educational agencies (LEAs). This report additionally shall provide an assessment of options to address the problem, including existing authorizations and policies for DOD assistance to LEAs for the purpose of school construction and renovation (including schools located on installations but operated by LEAs), the prerequisite enrollment conditions that trigger a requirement for new capacity construction or expansion of DOD schools, and unfunded requirements associated with installation population growth for Department of Defense Education Activity military construction. This report shall be submitted no later than August 31, 2009.

Facilities Sustainment, Restoration and Modernization (FSRM).—The Department is directed to continue describing on form 1390 the backlog of FSRM requirements at installations with future construction projects. For troop housing requests, form 1391 should describe any FSRM conducted in the past two years. Likewise, future requirements for unaccompanied housing at the corresponding installation should be included. Additionally, the forms should include English equivalent measurements for projects presented in metric measurement. Rules for funding repairs of facilities under the Operation and Maintenance accounts are described below:

- (1) components of the facility may be repaired by replacement. Such replacement can be up to current standards or codes;
- (2) interior arrangements and restorations may be included as repair;
- (3) additions, new facilities, and functional conversions must be performed as military construction projects. Such projects may be done concurrently with repair projects as long as the final conjunctively funded project is a complete and usable facility; and
- (4) the appropriate service Secretary shall notify the appropriate committees 21 days prior to carrying out any repair project with an estimated cost in excess of \$7,500,000.

Recapitalization Metric.—The Committee supports the Department of Defense's efforts to transform its facilities recapitalization metric from one focused on obtaining a 67-year recapitalization rate to one focused on improving and maintaining facility quality ratings, which will yield a better enterprise-wide allocation of resources. The Department is encouraged to keep the Committee informed of its implementation of this new policy.

Directed Designs.—The Committee directs the Department of Defense to execute all directed designs within the year of appropriation.

Delivery of Notifications.—The Department of Defense delivers required notifications to the Committee electronically, by email, or by hand delivery. Some notifications are delivered by more than one means, resulting in unnecessary duplication. The Committee directs the Office of the Secretary of Defense (OSD), the services, and the Defense agencies to submit notifications in electronic form only to the greatest extent practicable. The Committee further directs the Department to submit a single quarterly report listing all

notifications that have been submitted by OSD, the services, and the Defense agencies to the Committee during the preceding three-month period.

Transfer of Funds to Foreign Currency Account.—The Committee directs the Department of Defense to submit a report to the Committees on Appropriations of both Houses of Congress no later than December 1, 2009, on the amounts of expired funds transferred from military construction and family housing accounts to the Foreign Currency Fluctuations, Construction, Defense account at the end of fiscal year 2009.

Reprogramming Guidelines.—The following reprogramming guidelines apply for all military construction and family housing projects. A project or account (including the sub-elements of an account) which has been specifically reduced by the Congress in acting on the budget request is considered to be a congressional interest item and as such, prior approval is required. Accordingly, no reprogrammings to an item specifically reduced below the threshold by the Congress are permitted, except that the Department of Defense may seek reprogrammings for appropriated increments.

The reprogramming criteria that apply to military construction projects (25 percent of the funded amount or \$2,000,000, whichever is less) continue to apply to new housing construction projects and to improvements over \$2,000,000. To provide the services the flexibility to proceed with construction contracts without disruption or delay, the costs associated with environmental hazard remediation such as asbestos removal, radon abatement, lead-based paint removal or abatement, and any other legislated environmental hazard remediation may be excluded, provided that such remediation requirements could not be reasonably anticipated at the time of the budget submission. This exclusion applies to projects authorized in this budget year, as well as projects authorized in prior years for which construction has not been completed. Planning and design costs associated with military construction and family housing projects may also be excluded from these guidelines. In instances where prior approval to a reprogramming request for a project or account has been received from the Committees on Appropriations, the adjusted amount approved becomes the new base for any future increase or decrease via below-threshold reprogrammings (provided that the project or account is not a congressional interest item as defined above).

In addition to these guidelines, the services are directed to adhere to the guidance for military construction reprogrammings and notifications, including the pertinent statutory authorities contained in DOD Financial Management Regulation 7000.14-R and relevant updates and policy memoranda. The Committee further directs the Office of the Director of National Intelligence to use a format similar to that used by the Office of the Secretary of Defense to submit reprogramming requests.

MILITARY CONSTRUCTION, ARMY
(INCLUDING RESCISSION OF FUNDS)

Fiscal year 2009 enacted level ¹ (including rescissions)	\$4,641,328,000
Fiscal year 2010 budget request ²	4,584,663,000
Committee recommendation in the bill (including rescission) ²	4,495,406,000
Comparison with:	
Fiscal year 2009 enacted level	(145,922,000)
Fiscal year 2010 budget request	(89,257,000)

¹Does not reflect \$180,000,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

²Includes funding for Overseas Contingency Operations.

The Committee recommends an appropriation of \$4,554,906,000 and a rescission of \$59,500,000 for Military Construction, Army, a decrease of \$145,922,000 below the fiscal year 2009 enacted level and a decrease of \$89,257,000 below the budget request.

The Committee recommends the following rescission due to a project placed on hold by the Department of Defense:

Public Law/location	Project title	Recommended
PL 110-329 (FY 2009):		
Germany: Wiesbaden	Command and Battle Center, Increment I	59,500,000
Total		59,500,000

Of the funds provided for planning and design in this account, the Committee directs that not less than the specified amounts be made available for the design of the following projects:

Alabama—Fort Rucker, Water Survival Training Facility, \$401,000.

Kentucky—Fort Campbell, Physical Fitness Complex, \$900,000

Maryland—Aberdeen Proving Ground, Information Processing Node, Phase 2, \$956,000.

North Carolina—Fort Bragg, Field Support Brigade Headquarters, \$720,000.

Texas—Fort Bliss, Access Control Points, \$6,500,000.

Army Brigade Combat Teams and Quadrennial Defense Review.—On April 6, 2009, the Secretary of Defense announced his decision to halt the growth of Army Brigade Combat Teams (BCTs) at 45, versus the 48 envisioned by the December 2007 Grow the Army stationing plan. On June 2, 2009, the Army announced that it would absorb this reduction by cancelling one planned BCT each at Fort Carson, Fort Stewart, and Fort Bliss. Furthermore, the Department of Defense has incorporated consideration of the shift of Army personnel from Germany to the United States in the Quadrennial Defense Review (QDR), which will have an additional impact on the Army's BCT construction program. The total impact of these three decisions on the military construction program is significant but unclear at this time. Although the Army has indicated that approximately \$2,600,000,000 in fiscal years 2009 and 2010 construction funding is associated with the three cancelled BCTs and other Grow the Army increases, the Committee has not yet received adequate information to make decisions regarding specific projects already appropriated or requested in the fiscal year 2010 budget. The Committee therefore recommends a general reduction of \$500,000,000 from Military Construction, Army pending more

detailed Army analysis of the impact of these decisions, as well as an update of the 2007 Grow the Army Stationing Plan.

The Committee is very concerned by the manner in which major Grow the Army decisions have been made out of step with the programming and budgeting cycle. Construction to accommodate large personnel increases requires considerable lead time for planning, design, resourcing, and execution, yet the Department of Defense has shown a tendency to treat such matters as afterthoughts. The decision to increase the end strength of the Army to 547,000 was formally announced on January 11, 2007, and was followed by large lump sum requests for military construction and family housing in both the fiscal year 2007 emergency supplemental and the fiscal year 2008 base budget. The initial Grow the Army stationing plan, including the six new BCTs, was not released until December 18 of that year. The recent decision to reduce the number of new BCTs was announced just weeks prior to the release of the fiscal year 2010 request and clearly is not reflected in that request. While the Army's overall management of the Grow the Army construction program is commendable, there have been instances of projects being improperly scoped due to the rushed process. Furthermore, the Secretary of Defense's stated concern about the "risk of hollowing the force" through the initial six-BCT increase was not previously communicated to the Committee with regards to the military construction program or the Grow the Army stationing plan. The Committee strongly believes that any further decisions regarding Army force structure and stationing, including those incorporated in the QDR process, should be made in concert with the programming and budgeting process for fiscal years 2011 and beyond.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

Fiscal year 2009 enacted level ¹	\$3,333,369,000
Fiscal year 2010 budget request	3,763,264,000
Committee recommendation in the bill	3,757,330,000
Comparison with:	
Fiscal year 2009 enacted level	423,961,000
Fiscal year 2010 budget request	(5,934,000)

¹Does not reflect \$280,000,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

The Committee recommends an appropriation of \$3,757,330,000 for Military Construction, Navy and Marine Corps, an increase of \$423,961,000 above the fiscal year 2009 enacted level and a decrease of \$5,934,000 below the budget request.

Of the funds provided for planning and design in this account, the Committee directs that not less than the specified amounts be made available for the design of the following projects:

Florida—Panama City NSA, Joint Diver A-School Dormitory, \$520,000.

Hawaii—Pearl Harbor NSY, Drydock 2 Starboard Waterfront Facility, \$850,000.

Indiana—Crane NSWC, Strategic Weapons System Engineering Facility, \$510,000.

Maine—Portsmouth NSY, Consolidation of Structural Shops, \$2,000,000.

F-35 Projects, Eglin AFB.—The Navy and Air Force jointly requested six projects at Eglin Air Force Base, Florida, to support F-

35 requirements, with the funding split between the Military Construction, Navy and Marine Corps, and Military Construction, Air Force accounts. The Committee recommends that the full cost of these projects be funded through the Air Force appropriation.

MILITARY CONSTRUCTION, AIR FORCE

Fiscal year 2009 enacted level (including rescissions) ¹	\$1,096,925,000
Fiscal year 2010 budget request ²	1,619,934,000
Committee recommendation in the bill ²	1,833,671,000
Comparison with:	
Fiscal year 2009 enacted level	736,746,000
Fiscal year 2010 budget request	213,737,000

¹Does not reflect \$180,000,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

²Includes funding for Overseas Contingency Operations.

The Committee recommends an appropriation of \$1,833,671,000 for Military Construction, Air Force, an increase of \$736,746,000 above the fiscal year 2009 enacted level and an increase of \$213,737,000 above the budget request.

Of the funds provided for planning and design in this account, the Committee directs that not less than the specified amounts be made available for the design of the following projects:

Florida—MacDill AFB, Mission Support Facility, \$384,000.

Idaho—Mountain Home AFB, Civil Engineer Maintenance Complex, \$690,000.

Maryland—Andrews AFB, Physical Fitness Center, \$930,000.

New Mexico—Cannon AFB, Dormitory (96 Room), \$450,000.

North Dakota—Minot AFB, Control Tower/Base Operations Facility, \$1,710,000.

F-35 Projects, Eglin AFB.—The Navy and Air Force jointly requested six projects at Eglin Air Force Base, Florida, to support F-35 requirements, with the funding split between the Military Construction, Navy and Marine Corps, and Military Construction, Air Force accounts. The Committee recommends that the full cost of these projects be funded through the Air Force appropriation.

MILITARY CONSTRUCTION, DEFENSE-WIDE

(INCLUDING TRANSFER AND RESCISSION OF FUNDS)

Fiscal year 2009 enacted level (including rescissions) ¹	\$1,691,615,000
Fiscal year 2010 budget request ²	3,104,126,000
Committee recommendation in the bill (including rescission)	2,717,726,000
Comparison with:	
Fiscal year 2009 enacted level	1,026,111,000
Fiscal year 2010 budget request	(386,400,000)

¹Does not reflect \$1,450,000,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

²Includes funding for Overseas Contingency Operations.

The Committee recommends an appropriation of \$2,743,526,000 and a rescission of \$25,800,000 for Military Construction, Defense-Wide, an increase of \$1,026,111,000 above the fiscal year 2009 enacted level and a decrease of \$386,400,000 below the budget request.

The Committee recommends the following rescissions due to bid savings on previously appropriated projects:

Public Law/location	Project title	Recommended
PL 110-329 (FY 2009):		
CA: Tracy Depot	General Purpose Warehouse	- 6,600,000
FL: Eglin AFB	Special Tactics Group Facility	- 2,900,000
FL: Hurlburt Field	Battalion Operations Complex	- 16,300,000
Total	- 25,800,000

New High School, Vicenza, Italy.—The Committee is concerned about the absence of a budget request for a new high school at the Villaggio Housing Area in Vicenza, Italy, to serve the dependent children of soldiers of the consolidating 173rd Airborne Brigade. While funds have been requested and provided for new elementary and middle schools, the Department of Defense has not yet requested funds for a new high school. The lack of a new high school collocated with the elementary and middle schools will lead to a suboptimal educational setting and detract from the quality of life for soldiers and families stationed in Vicenza. The Committee urges the Department to consider including funds for the new high school in the fiscal year 2011 budget request.

Purchase and Generation of Renewable Energy.—The 2007 Defense Installations Strategic Plan (ISP) of the Department of Defense includes the objective of reducing reliance on fossil fuels to meet facility energy requirements. One component of this objective is a goal to increase the purchase and/or generation of renewable energy to 25 percent of all electricity consumed by 2025. The Committee encourages the Department to meet and exceed this goal, and directs the Department to submit a report to the Committee on how military construction and family housing programs are being used to meet the ISP goals for the purchase and generation of renewable energy, including the use of renewable-source lighting at military installations. This report shall be submitted no later than October 1, 2009.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

Fiscal year 2009 enacted level (including rescissions) ¹	\$734,917,000
Fiscal year 2010 budget request	426,491,000
Committee recommendation in the bill	529,129,000
Comparison with:	
Fiscal year 2009 enacted level	(205,788,000)
Fiscal year 2010 budget request	102,638,000

¹Does not reflect \$50,000,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

The Committee recommends an appropriation of \$529,129,000 for Military Construction, Army National Guard, a decrease of \$205,788,000 below the fiscal year 2009 enacted level and an increase of \$102,638,000 above the budget request. The Committee's recommendation includes \$30,000,000 for critical unfunded requirements to support the Guard and Reserve Initiative described earlier in this report.

Of the funds provided for planning and design in this account, the Committee directs that not less than the specified amounts be made available for the design of the following projects:

Arkansas—West Memphis, Readiness Center, \$1,240,000.

Hawaii—Kapolei, Readiness Center (Joint Forces Headquarters), \$5,446,000.

Kentucky—Frankfort, Joint Forces Headquarters, \$334,000.

Michigan—Camp Grayling, Barracks Replacement, Phase 2, \$440,000.

Nevada—Las Vegas, Civil Support Team Ready Building, \$727,000.

Oregon—Camp Rilea, Water Supply System, \$368,000.

Pennsylvania—Luzerne, Readiness Center, \$924,000.

West Virginia—Logan/Mingo County, Readiness Center, \$501,000.

West Virginia—Parkersburg, Readiness Center, \$2,234,000.

West Virginia—Parkersburg, Field Maintenance Shop, \$967,000.

Of the funds provided for minor construction in this account, the Committee directs that not less than the specified amounts be made available for construction of the following projects:

Iowa—Camp Dodge, Motor Vehicle Storage Buildings (Freedom Center Armory), \$1,963,000.

Iowa—Davenport, Army Aviation Support Facility Addition/Alteration, \$2,000,000.

Iowa—Fairfield, Field Maintenance Shop Addition/Alteration, \$2,000,000.

Iowa—Iowa Falls, Addition/Alteration Readiness Center, \$2,000,000.

Kentucky—London, Phase IV Aviation Operations Facility, \$1,805,000.

Montana—Fort Harrison, Addition/Alteration Troop Medical Facility, \$1,750,000.

Ohio—Beightler Armory, Joint Forces Headquarters Addition, \$2,000,000.

Ohio—Ravenna Training Site, Shoot House, \$2,000,000.

Puerto Rico—Camp Santiago, Urban Assault Course, \$1,669,000.

Vermont—Ethan Allen Range, BOQ Addition/Alteration, \$1,996,000.

North Carolina—Morrisville: Army Aviation Support Facility.—The Committee recognizes the importance to the North Carolina National Guard of Army Aviation Support Facility (AASF) #1 located at Morrisville, North Carolina. The current AASF was built in 1988 and requires a fixed wing annex to permit necessary maintenance of assigned aircraft. The Committee urges the Army National Guard to consider including this facility in the next Future Years Defense Plan, and directs the Director of the Army National Guard to submit to the Committee a status report on the design of this facility no later than February 1, 2010.

North Carolina—Murphy: Fire Fighting Team Support Facility.—The Committee recognizes the importance of a new facility to support the relocation of the 430th Engineer Detachment (Firefighting) of the North Carolina National Guard. The Committee urges the Army National Guard to consider including this project in the next Future Years Defense Plan and directs the Director of the Army National Guard to submit a status report on the design of this project no later than February 1, 2010.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

Fiscal year 2009 enacted level ¹	\$242,924,000
Fiscal year 2010 budget request	128,261,000
Committee recommendation in the bill	226,126,000
Comparison with:	
Fiscal year 2009 enacted level	(16,798,000)
Fiscal year 2010 budget request	97,865,000

¹ Does not reflect \$50,000,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

The Committee recommends an appropriation of \$226,126,000 for Military Construction, Air National Guard, a decrease of \$16,798,000 below the fiscal year 2009 enacted level and an increase of \$97,865,000 above the budget request. The Committee's recommendation includes \$30,000,000 for critical unfunded requirements to support the Guard and Reserve Initiative described earlier in this report.

Of the funds provided for planning and design in this account, the Committee directs that not less than the specified amount be made available for the design of the following project:

Kentucky—Standiford Field, Contingency Response Group Facility, \$600,000.

Of the funds provided for minor construction in this account, the Committee directs that not less than the specified amounts be made available for construction of the following projects:

Massachusetts—Hanscom AFB, Joint Forces Operations Center Air National Guard Share, \$1,500,000.

Minnesota—Minneapolis-St.Paul IAP, Addition/Alteration Starbase Facility, \$1,900,000.

New Jersey—Atlantic City IAP, Munitions Administration Facility, \$1,700,000.

Ohio—Toledo Express Airport, Multi-Use Instructional Facility, \$2,000,000.

Ohio—Zanesville ANGS, New Supply Warehouse, \$1,000,000.

South Carolina—McEntire JRB, Joint Use Armed Forces Reserve Center, \$1,300,000.

South Dakota—Joe Foss Field, Add to Munitions Maintenance Complex, \$1,300,000.

MILITARY CONSTRUCTION, ARMY RESERVE

Fiscal year 2009 enacted level	\$282,607,000
Fiscal year 2010 budget request	374,862,000
Committee recommendation in the bill	432,516,000
Comparison with:	
Fiscal year 2009 enacted level	149,909,000
Fiscal year 2010 budget request	57,654,000

The Committee recommends an appropriation of \$432,516,000 for Military Construction, Army Reserve, an increase of \$149,909,000 above the fiscal year 2009 enacted level and an increase of \$57,654,000 above the budget request. The Committee's recommendation includes \$30,000,000 for critical unfunded requirements to support the Guard and Reserve Initiative described earlier in this report.

MILITARY CONSTRUCTION, NAVY RESERVE

Fiscal year 2009 enacted level	\$57,045,000
Fiscal year 2010 budget request	64,124,000
Committee recommendation in the bill	125,874,000
Comparison with:	
Fiscal year 2009 enacted level	68,829,000
Fiscal year 2010 budget request	61,750,000

The Committee recommends an appropriation of \$125,874,000 for Military Construction, Navy Reserve, an increase of \$68,829,000 above the fiscal year 2009 enacted level and an increase of \$61,750,000 above the budget request. The Committee's recommendation includes \$20,000,000 for critical unfunded requirements for the Navy Reserve, and \$35,000,000 for critical unfunded requirements for the Marine Corps Reserve, to support the Guard and Reserve Initiative described earlier in this report.

MILITARY CONSTRUCTION, AIR FORCE RESERVE

Fiscal year 2009 enacted level	\$36,958,000
Fiscal year 2010 budget request	27,476,000
Committee recommendation in the bill	103,169,000
Comparison with:	
Fiscal year 2009 enacted level	66,211,000
Fiscal year 2010 budget request	75,693,000

The Committee recommends an appropriation of \$103,169,000 for Military Construction, Air Force Reserve, an increase of \$66,211,000 above the fiscal year 2009 enacted level and an increase of \$75,693,000 above the budget request. The Committee's recommendation includes \$55,000,000 to support the Guard and Reserve Initiative described earlier in this report.

NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM

Fiscal year 2009 enacted level	\$230,867,000
Fiscal year 2010 budget request	276,314,000
Committee recommendation in the bill	234,914,000
Comparison with:	
Fiscal year 2009 enacted level	4,047,000
Fiscal year 2010 budget request	(41,400,000)

The North Atlantic Treaty Organization Security Investment Program (NSIP) consists of annual contributions by NATO member countries. The program finances the costs of construction needed to support the roles of the major NATO commands. The investments cover facilities such as airfields, fuel pipelines and storage, harbors, communications and information systems, radar and navigational aids, and military headquarters.

The Committee recommends an appropriation of \$234,914,000 for NSIP, an increase of \$4,047,000 above the fiscal year 2009 enacted level and a decrease of \$41,400,000 below the budget request. The reduction from the request is for funds requested by the Department of Defense for its share of the cost of the new NATO headquarters. The new headquarters is not an NSIP project and the Committee therefore recommends providing these funds under Military Construction, Defense-Wide.

Occasionally, the U.S. has been forced to delay temporarily the authorization of projects due to shortfalls in U.S. obligation authority. The Committee directs the Secretary of Defense to notify the

Committee within 14 days of the U.S. taking action to delay temporarily the authorization of projects, or to withhold temporarily funds from previously authorized projects, due to shortfalls in U.S. obligation authority.

FAMILY HOUSING OVERVIEW

Fiscal year 2009 enacted level (including rescissions) ¹	\$3,157,760,000
Fiscal year 2010 budget request	1,958,698,000
Committee recommendation in the bill	1,958,698,000
Comparison with:	
Fiscal year 2009 enacted level	(1,199,062,000)
Fiscal year 2010 budget request	— — —

¹ Does not include \$690,000,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

Family housing construction accounts provide funds for new construction, construction improvements, the Federal government costs for family housing privatization projects, and planning and design. The operation and maintenance accounts provide funds to pay for maintenance and repair, furnishings, management, services, utilities, leasing, interest, mortgage insurance, and miscellaneous expenses.

The Committee recommends a total appropriation of \$1,958,698,000 for the family housing construction and operation and maintenance accounts, a decrease of \$1,199,062,000 below the fiscal year 2009 enacted level and the same as the budget request. The decrease below the 2009 enacted level is due to the Department of Defense's success in implementing the Military Housing Privatization Initiative, leading to a reduced requirement for appropriated construction and operating costs. The Committee has retained bill language incorporating the family housing construction projects specified in this report into the text of the bill by reference.

Family Housing Privatization Progress Reports.—The Committee directs the Department of Defense to continue submitting semi-annual progress reports on the family housing privatization program, including a breakout of military tenant satisfaction rates by project. The Committee notes that the most recent report is overdue, and directs the Department to submit this report no later than July 31, 2009.

Foreign Currency Savings and Sub-Account Transfers.—The Committee directs that savings from foreign currency re-estimates be used to maintain existing family housing units. The Comptroller is directed to report to the Committees on Appropriations of both Houses of Congress on how these savings are allocated by December 1, 2009. In addition, the Committee directs the Services and Defense agencies to notify the Committees on Appropriations of both Houses of Congress within 30 days of a transfer of funds between subaccounts within the family housing construction and family housing operation and maintenance accounts, if such transfer is in excess of 10 percent of the funds appropriated to the sub-account to which the funds are being transferred. Notifications to the Committees shall indicate the sub-accounts and amounts that are being used to source the transfer.

Leasing Reporting Requirements.—The Secretary of Defense is directed to report to the Committees on Appropriations of both Houses of Congress quarterly on the details of all new or renewed domestic leases entered into during the previous quarter that ex-

ceed the cost threshold set by 10 U.S.C. 2828(b)(2), including certification that less expensive housing was not available for lease. For foreign leases, the Department is directed to: (1) perform an economic analysis on all new leases or lease/contract agreements where more than 25 units are involved; (2) report the details of new or renewed lease agreements that exceed the cost threshold set by 10 U.S.C. 2828(e)(1) 21 days prior to entering into such an agreement; and (3) base leasing decisions on the economic analysis.

FAMILY HOUSING CONSTRUCTION, ARMY

Fiscal year 2009 enacted level ¹	\$646,580,000
Fiscal year 2010 budget request	273,236,000
Committee recommendation in the bill	273,236,000
Comparison with:	
Fiscal year 2009 enacted level	(373,344,000)
Fiscal year 2010 budget request	- - -

¹ Does not reflect \$34,507,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

The Committee recommends an appropriation of \$273,236,000 for Family Housing Construction, Army, a decrease of \$373,344,000 below the fiscal year 2009 enacted level and the same as the budget request. The appropriation includes \$50,000,000 to construct new family housing units, \$219,300,000 to improve or privatize existing units, and \$3,936,000 for planning and design.

FAMILY HOUSING OPERATION AND MAINTENANCE, ARMY

Fiscal year 2009 enacted level ¹	\$716,110,000
Fiscal year 2010 budget request	523,418,000
Committee recommendation in the bill	523,418,000
Comparison with:	
Fiscal year 2009 enacted level	(192,692,000)
Fiscal year 2010 budget request	- - -

¹ Does not reflect \$3,932,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

The Committee recommends an appropriation of \$523,418,000 for Family Housing Operation and Maintenance, Army, a decrease of \$192,692,000 below the fiscal year 2009 enacted level and the same as the budget request.

FAMILY HOUSING CONSTRUCTION, NAVY AND MARINE CORPS

Fiscal year 2009 enacted level	\$380,123,000
Fiscal year 2010 budget request	146,569,000
Committee recommendation in the bill	146,569,000
Comparison with:	
Fiscal year 2009 enacted level	(233,554,000)
Fiscal year 2010 budget request	- - -

The Committee recommends an appropriation of \$146,569,000 for Family Housing Construction, Navy and Marine Corps, a decrease of \$233,554,000 below the fiscal year 2009 enacted level and the same as the budget request. The appropriation includes \$25,106,000 to construct new family housing units, \$118,692,000 to improve or privatize existing units, and \$2,771,000 for planning and design.

FAMILY HOUSING OPERATION AND MAINTENANCE, NAVY AND
MARINE CORPS

Fiscal year 2009 enacted level	\$376,062,000
Fiscal year 2010 budget request	368,540,000
Committee recommendation in the bill	368,540,000
Comparison with:	
Fiscal year 2009 enacted level	(7,522,000)
Fiscal year 2010 budget request	- - -

The Committee recommends an appropriation of \$368,540,000 for Family Housing Operation and Maintenance, Navy and Marine Corps, a decrease of \$7,522,000 below the fiscal year 2009 enacted level and the same as the budget request.

FAMILY HOUSING CONSTRUCTION, AIR FORCE

Fiscal year 2009 enacted level ¹	\$395,879,000
Fiscal year 2010 budget request	66,101,000
Committee recommendation in the bill	66,101,000
Comparison with:	
Fiscal year 2009 enacted level	(329,778,000)
Fiscal year 2010 budget request	- - -

¹Does not reflect \$80,100,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

The Committee recommends an appropriation of \$66,101,000 for Family Housing Construction, Air Force, a decrease of \$329,778,000 below the fiscal year 2009 enacted level and the same as the budget request. The appropriation includes \$61,787,000 to improve or privatize existing units and \$4,314,000 for planning and design.

FAMILY HOUSING OPERATION AND MAINTENANCE, AIR FORCE

Fiscal year 2009 enacted level ¹	\$594,465,000
Fiscal year 2010 budget request	502,936,000
Committee recommendation in the bill	502,936,000
Comparison with:	
Fiscal year 2009 enacted level	(91,529,000)
Fiscal year 2010 budget request	- - -

¹Does not reflect \$16,461,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

The Committee recommends an appropriation of \$502,936,000 for Family Housing Operation and Maintenance, Air Force, a decrease of \$91,529,000 below the fiscal year 2009 enacted level and the same as the budget request.

FAMILY HOUSING CONSTRUCTION, DEFENSE-WIDE

Fiscal year 2009 enacted level (including rescissions)	(\$6,040,000)
Fiscal year 2010 budget request	2,859,000
Committee recommendation in the bill	2,859,000
Comparison with:	
Fiscal year 2009 enacted level	8,899,000
Fiscal year 2010 budget request	- - -

The Committee recommends an appropriation of \$2,859,000 for Family Housing Construction, Defense-Wide, an increase of \$8,899,000 above the fiscal year 2009 enacted level and the same as the budget request.

FAMILY HOUSING OPERATION AND MAINTENANCE, DEFENSE-WIDE

Fiscal year 2009 enacted level	\$49,231,000
Fiscal year 2010 budget request	49,214,000
Committee recommendation in the bill	49,214,000
Comparison with:	
Fiscal year 2009 enacted level	(17,000)
Fiscal year 2010 budget request	- - -

The Committee recommends an appropriation of \$49,214,000 for Family Housing Operation and Maintenance, Defense-Wide, a decrease of \$17,000 below the fiscal year 2009 enacted level and the same as the budget request.

DEPARTMENT OF DEFENSE FAMILY HOUSING IMPROVEMENT FUND

Fiscal year 2009 enacted level	\$850,000
Fiscal year 2010 budget request	2,600,000
Committee recommendation in the bill	2,600,000
Comparison with:	
Fiscal year 2009 enacted level	1,750,000
Fiscal year 2010 budget request	- - -

The Family Housing Improvement Fund (FHIF) is authorized by section 2883, title 10, United States Code, and provides the Department of Defense with authority to finance joint ventures with the private sector to revitalize and to manage the Department's housing inventory. The statute authorizes the Department to use limited partnerships, make direct and guaranteed loans, and convey Department-owned property to stimulate the private sector to increase the availability of affordable, quality housing for military personnel.

The FHIF is used to build or renovate family housing by mixing or matching various legal authorities, and by utilizing private capital and expertise to the maximum extent possible. The fund is administered as a single account without fiscal year limitations and contains appropriated and transferred funds from family housing construction accounts.

The Committee recommends an appropriation of \$2,600,000 for the Department of Defense Family Housing Improvement Fund, an increase of \$1,750,000 above the fiscal year 2009 enacted level and the same as the budget request.

DEPARTMENT OF DEFENSE HOMEOWNERS ASSISTANCE FUND

Fiscal year 2009 enacted level ¹	\$4,500,000
Fiscal year 2010 budget request	23,225,000
Committee recommendation in the bill	23,225,000
Comparison with:	
Fiscal year 2009 enacted level	18,725,000
Fiscal year 2010 budget request	- - -

¹Does not reflect \$555,000,000 in emergency appropriations provided in the American Recovery and Reinvestment Act.

The Homeowners Assistance Fund account finances the Homeowners Assistance Program (HAP) which provides assistance to individual military and Federal civilian homeowners who sustain losses on the sales of their primary residences due to declining real estate markets attributable to the closure or realignment of military installations. This non-expiring revolving fund receives funding from several sources, including appropriations, borrowing authority, reimbursable authority, prior fiscal year unobligated bal-

ances, appropriation transfers, revenue from sale of acquired properties, and recovery of prior year obligations.

The Committee recommends an appropriation of \$23,225,000 for the Department of Defense Homeowners Assistance Fund, an increase of \$18,725,000 above the fiscal year 2009 enacted level and the same as the budget request. The fiscal year 2009 enacted level does not include a one-time increase provided in the American Recovery and Reinvestment Act of 2009 for a temporary expansion of benefits.

CHEMICAL DEMILITARIZATION CONSTRUCTION, DEFENSE-WIDE
(INCLUDING TRANSFER OF FUNDS)

Fiscal year 2009 enacted level	\$144,278,000
Fiscal year 2010 budget request	146,541,000
Committee recommendation in the bill	146,541,000
Comparison with:	
Fiscal year 2009 enacted level	2,263,000
Fiscal year 2010 budget request	- - -

The Chemical Demilitarization Construction, Defense-Wide account provides funds for the design and construction of full-scale chemical disposal facilities and associated projects to upgrade installation support facilities and infrastructures required to support the Chemical Demilitarization program.

The Committee recommends an appropriation of \$146,541,000 for Chemical Demilitarization Construction, Defense-Wide, an increase of \$2,263,000 above the fiscal year 2009 enacted level and the same as the budget request. The Committee has retained bill language incorporating the construction projects specified in this report into the text of the bill by reference.

BASE REALIGNMENT AND CLOSURE ACCOUNT 1990

Fiscal year 2009 enacted level	\$458,377,000
Fiscal year 2010 budget request	396,768,000
Committee recommendation in the bill	536,768,000
Comparison with:	
Fiscal year 2009 enacted level	78,391,000
Fiscal year 2010 budget request	140,000,000

The Committee recommends an appropriation of \$536,768,000 for the Base Realignment and Closure Account 1990, an increase of \$78,391,000 above the fiscal year 2009 enacted level and an increase of \$140,000,000 above the budget request. Of the amount provided above the budget request, the Committee directs that \$35,000,000 shall be made available to the Army, \$60,000,000 shall be made available to the Navy, and \$45,000,000 shall be made available to the Air Force. The Committee is concerned about the persisting large backlog of remaining environmental cleanup requirements from the four previous BRAC rounds. The Committee directs the Department of Defense to make funding for this account a higher priority.

BASE REALIGNMENT AND CLOSURE ACCOUNT 2005

Fiscal year 2009 enacted level	\$8,765,613,000
Fiscal year 2010 budget request	7,479,498,000
Committee recommendation in the bill	7,479,498,000
Comparison with:	
Fiscal year 2009 enacted level	(1,286,115,000)
Fiscal year 2010 budget request	— — —

The Committee recommends an appropriation of \$7,479,498,000 for the Base Realignment and Closure Account 2005, a decrease of \$1,286,115,000 below the fiscal year 2009 enacted level and the same as the budget request. This funding supports the most recent base realignment and closure round which affects over 800 locations across the nation through 24 major closures, 24 major realignments, and 765 other actions.

ADMINISTRATIVE PROVISIONS

The bill includes 27 provisions that were included in the fiscal year 2009 enacted appropriations bill. The bill does not include one new provision proposed by the Administration that would provide for new starts under a continuing resolution. The administrative provisions included in the bill are as follows:

Section 101 prohibits the use of funds for payments under a cost-plus-a-fixed-fee contract for construction where cost estimates exceed \$25,000. An exception for Alaska is provided.

Section 102 permits the use of construction funds for the hire of passenger motor vehicles.

Section 103 permits funds to be expended on the construction of defense access roads under certain circumstances.

Section 104 prohibits construction of new installations without a specific appropriation.

Section 105 limits the use of funds for the purchase of land or land easements that exceed 100 percent of value except under certain conditions.

Section 106 prohibits the use of funds to acquire land, prepare sites, or install utilities for family housing except housing for which funds have been appropriated.

Section 107 limits the use of minor construction funds to be transferred or relocated from one installation to another.

Section 108 prohibits the procurement of steel unless American producers, fabricators, and manufacturers have been allowed to compete.

Section 109 prohibits the use of funds to pay real property taxes in foreign nations.

Section 110 establishes a preference for American architectural and engineering services where the services are in Japan, NATO member countries, and countries bordering the Arabian Gulf. The Administration proposed to delete this provision.

Section 111 establishes a preference for American contractors for military construction in the United States territories and possessions in the Pacific and on Kwajalein Atoll, or in countries bordering the Arabian Gulf, except bids by Marshallese contractors for military construction on Kwajalein Atoll.

Section 112 requires the Secretary of Defense to give prior notice to Congress of military exercises where construction costs, either

temporary or permanent, exceed \$100,000. The Administration proposed to delete this provision.

Section 113 limits obligations to no more than 20 percent during the last two months of the fiscal year. The Administration proposed to delete this provision.

Section 114 allows funds appropriated in prior years to be used for new projects authorized during the current session of Congress.

Section 115 allows the use of expired or lapsed funds to pay the cost of supervision for any project being completed with lapsed funds.

Section 116 provides that funds for military construction projects are available until the end of the fourth fiscal year following the fiscal year in which funds are appropriated, subject to certain conditions.

Section 117 requires the Secretary of Defense to report annually on actions taken during the current fiscal year to encourage other member nations of NATO, Japan, Korea, and United States allies bordering the Arabian Gulf to assume a greater share of defense costs. The Administration proposed to delete this provision.

Section 118 allows for the transfer of proceeds from "Base Realignment and Closure Account, Part I" to the continuing Base Realignment and Closure accounts.

Section 119 allows for the transfer of funds from Family Housing, Construction accounts to the Department of Defense Family Housing Improvement Fund and funds from Military Construction accounts to the Department of Defense Military Unaccompanied Housing Improvement Fund.

Section 120 requires the Secretary of Defense to notify Congressional Committees sixty days prior to issuing a solicitation for a contract with the private sector for military family housing. The Administration proposed to delete this provision.

Section 121 provides transfer authority to the Homeowners Assistance Program. The Administration proposed to modify this provision.

Section 122 requires that funds in this title be the sole source of all operation and maintenance for flag and general officer quarter houses, and limits the repair on these quarters to \$35,000 per year without notification. The Administration proposed to modify this provision.

Section 123 makes funds in the Ford Island Improvement Fund available until expended.

Section 124 prohibits the use of funds for military construction, family housing, or land acquisition projects at installations closed or realigned under BRAC, except under certain conditions. The Administration proposed to delete this provision.

Section 125 allows the transfer of expired funds to the "Foreign Currency Fluctuations, Construction, Defense" account. This provision was included in the fiscal year 2007 House passed appropriations bill and is proposed by the Administration in fiscal year 2008.

Section 126 prohibits the use of funds for any action related to the expansion of Pinon Canyon Maneuver Site, Colorado. The Administration proposed to delete this provision.

Section 127 allows for the reprogramming of construction funds among projects and activities.

TITLE II

DEPARTMENT OF VETERANS AFFAIRS

Fiscal year 2009 enacted level ^{1 2}	\$94,349,057,000
Fiscal year 2010 budget request ¹	108,860,775,000
Committee recommendation in the bill ¹	108,860,775,000
Comparison with:	
Fiscal year 2009 enacted level	14,511,718,000
Fiscal year 2010 budget request	— — —

¹All funding cited excludes amounts in the Medical Care Collections Fund.

²Does not reflect American Recovery and Reinvestment Act emergency appropriation of \$1,401,000,000 and Filipino Compensation Fund emergency appropriation of \$198,000,000.

The Department of Veterans Affairs is one of the largest Federal agencies in terms of employment with an average employment of approximately 279,200. The nation has more than 23,400,000 veterans, and 35,800,000 family members of living veterans and survivors of deceased veterans. Thus, close to 59,200,000 people, comprising about 19.4 percent of the total population of the United States, are potential recipients of veterans benefits provided by the Federal government.

The Committee recommends a total of \$108,860,775,000 in new budget authority for programs in fiscal year 2010, an increase of \$14,511,718,000 or 15.4 percent above the fiscal year 2009 enacted level and the same as the budget request.

The funds recommended provide compensation payments to 3,502,552 veterans and survivors of deceased veterans with service-connected disabilities; pension payments to 490,956 non-service-connected disabled veterans, widows and children in need of financial assistance; education training, tuition assistance, and vocational assistance to 679,572 veterans, servicemembers, and reservists, and 84,569 eligible dependents of deceased veterans or seriously disabled veterans; housing credit assistance in the form of 220,000 guaranteed loans to veterans and servicemembers; administration or supervision of life insurance programs with 6,874,471 policies for veterans and active duty servicemembers providing coverage of \$1,089,229,050,000; inpatient care and treatment of beneficiaries in 153 hospitals, 52 domiciliary residential rehabilitation treatment programs (formerly called “domiciliaries”), 135 nursing homes, and 1,140 outpatient clinics, which includes independent, satellite, community-based, and rural outreach clinics involving 74,496,000 visits; and administration of the National Cemetery Administration for burial of eligible veterans, servicemembers and their survivors.

Minority Business Participation in Contracting and Procurement.—The Committee is pleased that the Department of Veterans Affairs is making progress in increasing the percentage of federal contract dollars awarded to women and minority-owned businesses and for other federal contracting programs for small businesses. The increased level of detail that the Department uses to track both its technical assistance and outreach programs that assist small socially and economically disadvantaged firms and other small businesses is encouraging, and should continue as a means of both reaching their aspirational goals and general oversight of federal contracting funds. The Committee directs the Department of Veterans Affairs to provide a report to the Committee detailing the results of their women and minority-owned business technical

assistance and outreach program reviews, report the percentage of federal procurement contracts and subcontracts awarded to women and minority-owned businesses, and identify how the Department of Veterans Affairs plans to increase diversity in federal procurement and contract awards.

VETERANS BENEFITS ADMINISTRATION

COMPENSATION AND PENSIONS

(INCLUDING TRANSFER OF FUNDS)

Fiscal year 2009 enacted level	\$43,111,681,000

Committee recommendation in the bill	47,218,207,000
Comparison with:	
Fiscal year 2009 enacted level	4,106,526,000
Fiscal year 2010 budget request	--

This appropriation provides funds for service-connected compensation payments to an estimated 3,502,552 beneficiaries and pension payments to another 490,956 beneficiaries with non-service-connected disabilities. The average cost per compensation case in 2010 is estimated at \$12,247, and pension payments are projected at a unit cost of \$8,173.

The Committee recommends an appropriation of \$47,218,207,000 for compensation, pension, and burial benefits, an increase of \$4,106,526,000 above the fiscal year 2009 enacted level and the same as the budget request.

The appropriation includes authority to transfer funding not to exceed \$29,283,000, of which \$10,149,000 is for the General Operating Expenses account, \$13,998,000 is for the Medical Support and Compliance account, and \$5,136,000 is for the Information Technology Systems account. These funds are for the administrative expenses of implementing cost saving provisions required by the Omnibus Budget Reconciliation Act of 1990, Public Law 101-508, the Veterans' Benefits Act of 1992, Public Law 102-568, and the Veterans' Benefits Improvements Act of 1994, Public Law 103-446. These cost saving provisions include verifying pension income against Internal Revenue Service (IRS) and Social Security Administration (SSA) data; establishing a match with the SSA to obtain verification of Social Security numbers; and the VA pension cap for Medicaid-eligible single veterans and surviving spouses alone in Medicaid-covered nursing homes. The bill also includes language permitting this appropriation to reimburse such sums as may be earned to the medical care collections fund to help defray the operating expenses of individual medical facilities for nursing home care provided to pensioners.

READJUSTMENT BENEFITS

Fiscal year 2009 enacted level	\$3,832,944,000
Fiscal year 2010 budget request	8,663,624,000
Committee recommendation in the bill	8,663,624,000
Comparison with:	
Fiscal year 2009 enacted level	4,830,680,000
Fiscal year 2010 budget request	--

This appropriation finances the education and training of veterans and servicemembers whose initial entry on active duty took place on or after July 1, 1985. These benefits are included in the

All-Volunteer Force Educational Assistance Program. Eligibility to receive this assistance began in 1987. Basic benefits are funded through appropriations made to the Readjustment Benefits appropriation and transfers from the Department of Defense. Supplemental benefits are also provided to certain veterans through education assistance to certain members of the Selected Reserve and are funded through transfers from the Department of Defense. This account also includes the cost of education benefits for servicemembers whose service took place on or after September 11, 2001. In addition, certain disabled veterans are provided with vocational rehabilitation, specially adapted housing grants, and automobile grants with approved adaptive equipment.

This account also finances educational assistance allowances for eligible dependents of those veterans who died from service-connected causes or have a total and permanent service-connected disability as well as dependents of servicemembers who were captured or missing-in-action.

The Committee recommends an appropriation of \$8,663,624,000 for Readjustment Benefits, an increase of \$4,830,680,000 above the fiscal year 2009 enacted level and the same as the budget request. The significant increase in funding for this account is a result of implementation of the Post 9/11 GI Bill (chapter 33).

VETERANS INSURANCE AND INDEMNITIES

Fiscal year 2009 enacted level	\$42,300,000
Fiscal year 2010 budget request	49,288,000
Committee recommendation in the bill	49,288,000
Comparison with:	
Fiscal year 2009 enacted level	6,988,000
Fiscal year 2010 budget request	--

The Veterans Insurance and Indemnities appropriation is made up of the former appropriations for military and naval insurance, applicable to World War I veterans; national service life insurance (NSLI), applicable to certain World War II veterans; servicemen's indemnities, applicable to Korean conflict veterans; and the veterans mortgage life insurance, applicable to individuals who have received a grant for specially adapted housing.

The Committee recommends an appropriation of \$49,288,000 for Veterans Insurance and Indemnities, an increase of \$6,988,000 above the fiscal year 2009 enacted level and the same as the budget request. The amount provided will enable the Department to transfer funding to the service-disabled veterans insurance fund and transfer additional amounts for payments for policies under the veterans mortgage life insurance program. These policies are identified under the Veterans Insurance and Indemnity appropriation since they provide insurance to service-disabled veterans unable to qualify under basic NSLI.

VETERANS HOUSING BENEFIT PROGRAM FUND PROGRAM ACCOUNT

	Program account	Limitation on direct loans for specially adapted housing loans	Administrative ex- penses
Fiscal year 2009 enacted level	\$2,000,000	\$500,000	\$157,210,000
Fiscal year 2010 budget request	23,553,000	500,000	165,082,000
Committee recommendation in the bill	23,553,000	500,000	165,082,000

	Program account	Limitation on direct loans for specially adapted housing loans	Administrative expenses
Comparison with:			
Fiscal year 2009 enacted level	+21,553,000	---	7,872,000
Fiscal year 2010 budget request	---	---	---

The purpose of the home loan guaranty program is to facilitate the extension of mortgage credit on favorable terms by private lenders to eligible veterans. This appropriation provides for all costs, with the exception of the Native American veterans housing loan program, of the Department's direct and guaranteed loans programs. The Federal Credit Reform Act of 1990 requires budgetary resources to be available prior to incurring a direct loan obligation or a loan guaranty commitment. In addition, the bill requires all administrative expenses of a direct or guaranteed loan program to be funded through a program account. Loan guaranties are made to servicemembers, veterans, reservists, and single surviving spouses for the purchase of homes, condominiums, and manufactured homes and for refinancing loans. The Department guarantees part of the total loan, permitting the purchaser to obtain a mortgage with a competitive interest rate, even without a down payment if the lender agrees. The Department requires that a down payment be made for a manufactured home. With a Department guaranty, the lender is protected against loss, up to the amount of the guaranty, if the borrower fails to repay the loan.

The Committee recommends such sums as may be necessary (currently estimated to total \$23,553,000) for funding subsidy payments, \$500,000 for the limitation on direct loans for specially adapted housing loans, and \$165,082,000 for administrative expenses.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT
(INCLUDING TRANSFER OF FUNDS)

	Program account	Limitation on direct loans	Administrative expenses
Fiscal year 2009 enacted level	\$61,000	\$3,180,000	\$320,000
Fiscal year 2010 budget request	29,000	2,298,000	328,000
Committee recommendation in the bill	29,000	2,298,000	328,000
Comparison with:			
Fiscal year 2009 enacted level	(32,000)	(882,000)	8,000
Fiscal year 2010 budget request	---	---	---

This appropriation covers the funding subsidy cost of direct loans for vocational rehabilitation of eligible veterans and, in addition, it includes administrative expenses necessary to carry out the direct loan program. Loans of up to \$1,041 (based on indexed chapter 31 subsistence allowance rate) are available to service-connected disabled veterans enrolled in vocational rehabilitation programs when the veteran is temporarily in need of additional assistance. Repayment is made in monthly installments, without interest, through deductions from future payments of compensation, pension, subsistence allowance, educational assistance allowance, or retirement pay. Most loans are repaid in full in less than one year. The Federal Credit Reform Act of 1990 requires budgetary resources to be available prior to incurring a direct loan obligation.

The Committee recommends \$29,000 for funding subsidy program costs and \$328,000 for administrative expenses. The administrative expenses may be transferred to and merged with the General Operating Expenses account.

In addition, the Committee includes language limiting direct loans to \$2,298,000. It is estimated that the Department will make 2,509 loans in fiscal year 2010, with an average amount of \$916.

NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM

(INCLUDING TRANSFER OF FUNDS)

Administrative expenses:	
Fiscal year 2009 enacted level	\$646,000
Fiscal year 2010 budget request	664,000
Committee recommendation in the bill	664,000
Comparison with:	
Fiscal year 2009 enacted level	18,000
Fiscal year 2010 budget request	— — —

The Native American Veteran Housing Loan Program, as authorized by title 38 United States Code, chapter 37, subchapter V, provides the Secretary with authority to make direct housing loans to Native American veterans for the purpose of purchasing, constructing, or improving dwellings on trust lands. The Committee recommends the budget request of \$664,000 for administrative expenses of the Native American Veteran Housing Loan Program, which may be transferred to and merged with the General Operating Expenses account.

GUARANTEED TRANSITIONAL HOUSING LOANS FOR HOMELESS
VETERANS PROGRAM ACCOUNT

Public Law 105–368, the Veterans Benefits Enhancement Act of 1998, established this program. All funds authorized for this program were appropriated in fiscal year 2000. Therefore, no appropriation request has been included for fiscal year 2010. Bill language is included allowing the use of up to a total of \$750,000 in Medical Support and Compliance and General Operating Expenses funds to administer this program.

VETERANS HEALTH ADMINISTRATION

The Department operates the largest Federal medical care delivery system in the country, with 153 hospitals, 52 domiciliary residential rehabilitation treatment programs (formerly called ‘domiciliaries’), 135 nursing homes, and 1,140 outpatient clinics which include independent, satellite, community-based, and rural outreach clinics.

The Veterans Health Administration (VHA) is comprised of four accounts: Medical Services, Medical Support and Compliance, Medical Facilities, and Medical and Prosthetic Research. For these accounts, the Administration has requested total resources of \$45,077,500,000 in direct appropriations and \$2,954,000,000 in Medical Care Collections Fund appropriations, to fund the various operating programs of the VHA.

The Committee recommends an appropriation of \$45,077,500,000 for these four accounts for fiscal year 2010. This is an increase of \$4,372,497,000 above the fiscal year 2009 enacted level after trans-

fers, and the same as the budget request. While the Fiscal Year 2010 Budget Resolution provided for an advance appropriation for the medical services, medical support and compliance, and medical facilities accounts, the fiscal year 2010 budget request did not include a request for any fiscal year 2011 amounts. The Secretary of Veterans Affairs testified during budget hearings that he would “work with Congress to develop a specific advance appropriations proposal for the VA Medical Care Program.” The Committee commends the Secretary for his support of advance appropriations and agrees with his proposal. Therefore, the Committee recommends an appropriation of \$48,183,000,000 for the medical services, medical support and compliance, and medical facilities accounts for fiscal year 2011.

Vet Centers.—The Department is urged to evaluate and report on the feasibility of establishing a Vet Center in Chesapeake, VA.

Blue Ribbon Panel on VA-Medical School Affiliations.—The Committee recognizes the efforts made by the Department to provide students at minority health professions schools with opportunities to learn and gain experience through its health care system. The Committee understands that the Department has established a Blue Ribbon Panel on VA Medical School Affiliations to “advise the Secretary of Veterans Affairs and Under Secretary for Health on the formation of a comprehensive framework for guiding VA’s affiliations with medical schools and academic medical centers”. The Committee looks forward to learning the recommendations of this panel and directs the Under Secretary for Health to provide a report to the Appropriations Committees of both Houses of Congress by January 29, 2010 on the panel’s recommendations.

Vet Centers and Family Counseling.—The Committee believes that Vet Centers play an important role in providing community-based readjustment counseling services to veterans and their families. Therefore, the Committee was pleased to note that the budget request includes an additional 28 Vet Centers for fiscal year 2010. The Committee remains concerned, however, that more needs to be done to provide assistance and counseling to the families of our veterans and Public Law 110–387 clarified that the Secretary of Veterans Affairs has the authority to provide these services in such facilities as the Secretary considers necessary. The Committee directs the Department to report to the Committees on Appropriations of both Houses of Congress than March 23, 2010 on the actions taken by the Department to improve access to counseling services for families of veterans.

Rural Health.—While the Committee is pleased that the budget request includes additional funding to support the President’s initiative to improve access to medical care for veterans in rural and highly rural areas, the Committee is disappointed that the Department will spend so little of the rural health funding provided in the fiscal year 2009 appropriation in fiscal year 2009. The Committee expects the Department to accelerate efforts to improve rural health services. The Committee also urges the Department to address areas of the country with critical health needs where VHA services are not currently available through partnership with local health care facilities so that all veterans are able to receive quality, accessible health care.

VHA National Formulary.—While the Committee acknowledges that the Veterans Health Administration is widely recognized for providing veterans with an efficient, high quality drug benefit, the Committee is concerned that the process for adding pharmaceuticals to the VA national formulary may delay veteran access to needed medications. Additionally, the VHA lacks a formal process for obtaining patient input on the formulary. The Committee directs the Government Accountability Office to conduct a review of the VHA formulary process and report findings to the Committees on Appropriations of both Houses of Congress no later than May 25, 2010.

Endoscope Use and Reprocessing.—The Committee directs the Department to provide a report by July 31, 2009, detailing VHA management plans to ensure compliance with relevant directives regarding endoscope reprocessing, to explore ways for improving the reliability of endoscope reprocessing within the VA and with non-VA experts such as the Food and Drug Administration, and to review the organizational structure and make any necessary changes to implement quality controls and ensure compliance with such directives.

PTSD Call Center.—The VA has announced an intention to implement a nationwide toll-free Call Center staffed 24/7 by combat veteran peers to provide support and referral information for veterans suffering from post-traumatic stress disorder (PTSD). The Committee believes the establishment of a national Call Center providing PTSD support is vital to the welfare of our nation's veterans and their families, and that talking to another veteran can be important to getting a caller to accept help. Furthermore, the Committee believes that the Call Center should be available to family members and friends who are seeking assistance for their loved ones. The Committee urges the Department to accelerate implementation of the PTSD Call Center and directs the Under Secretary for Health to submit to the Committees on Appropriations of both Houses of Congress, not later than October 1, 2009, a report on actions taken by the Department to establish the Call Center.

MEDICAL SERVICES

(INCLUDING TRANSFER OF FUNDS)

Fiscal year 2009 enacted level ¹	\$30,716,003,000
Fiscal year 2010 budget request	34,704,500,000
Committee recommendation in the bill	34,704,500,000
Comparison with:	
Fiscal year 2009 enacted level	3,988,497,000
Fiscal year 2010 budget request	— — —
Committee recommendation in the bill	
Fiscal year 2011 advance appropriation	37,136,000,000

¹ Reflects transfer to Information Technology Systems of \$253,900,000 approved by the Committee on January 6, 2009.

This appropriation provides for medical services of eligible veterans and beneficiaries in Department medical centers, outpatient clinic facilities, contract hospitals, State homes, and outpatient programs on a fee basis. Hospital and outpatient care is also provided by the private sector for certain dependents and survivors of veterans under the civilian health and medical programs for the Department of Veterans Affairs.

The Committee recommends an appropriation of \$34,704,500,000 for Medical Services for fiscal year 2010, an increase of \$3,988,497,000 or 13 percent above the fiscal year 2009 current estimate and the same as the budget request. The Committee recommends an advance appropriation for fiscal year 2011 of \$37,136,000,000, which is the same as the Secretary's proposal. The Committee has included bill language to make available through September 30, 2011, up to \$1,015,000,000 of the Medical Services appropriation for fiscal year 2010.

Distribution of Budget Increases to Medical Facilities.—The Committee is concerned that recent VERA allocations may not have included budget increases proportionate to the appropriations increases provided to the medical accounts and expects the VHA to align these increases more closely in future VERA allocations.

Substance Abuse Services.—The fiscal year 2009 budget submission did not include substance abuse services as a Select Program. In communications with the Department, the Committee was informed that the Department estimated that \$583,074,000 would be spent on substance abuse services in fiscal year 2009. The fiscal year 2010 budget submission now estimates that the Department will spend \$487,726,000 in fiscal year 2009 and has projected a spending increase of less than two percent for this patient population for fiscal year 2010. The Committee is concerned that this level of funding is not adequate to allow the facilities to fully implement a uniform addiction and mental health benefit package for all veterans as outlined by the VHA strategic plan for Mental Health Services. The Committee directs the Under Secretary for Health to provide a report to the Committees on Appropriations of both Houses of Congress by August 21, 2009 on the reasons for the dramatic change in the fiscal year 2009 estimate and the justification for a budget increase of less than two percent for fiscal year 2010.

HIV Testing at VA Facilities.—In September 2006, the Centers for Disease Control (CDC) released *Revised Recommendations for HIV Testing of Adults, Adolescents, and Pregnant Women in Health-Care Settings*. These new recommendations advised routine HIV screening of adults, adolescents, and pregnant women and also recommended reducing barriers to HIV testing. Public Law 110–387 repealed the limitation on authority for the Department to conduct wide-spread HIV testing so that the Department could adopt these recommendations. The Committee directs the Department to provide a report to the Committees on Appropriations of both Houses of Congress by January 22, 2010 on its progress to more closely align Department policy with CDC recommendations to include any barriers that prevent full implementation of those recommendations.

Beneficiary Travel.—The Committee is pleased that while Public Law 110–387 sets the minimum reimbursement rate for beneficiary travel as the mileage reimbursement rate prescribed by the Administrator of General Services (currently 28.5 cents per mile), the Secretary implemented Congressional direction to reimburse at the higher rate of 41.5 cents per mile in fiscal year 2009. The Committee also notes that the budget request for fiscal year 2010 supports this rate, even as the deductible has been reduced and frozen to the original rates of \$3 for a one-way trip, \$6 for a round trip, with a calendar month cap of \$18.

MEDICAL SUPPORT AND COMPLIANCE

Fiscal year 2009 enacted level	\$4,450,000,000
Fiscal year 2010 budget request	5,100,000,000
Committee recommendation in the bill	4,900,000,000
Comparison with:	
Fiscal year 2009 enacted level	450,000,000
Fiscal year 2010 budget request	(200,000,000)
Committee recommendation in the bill	
Fiscal Year 2011 advance appropriation	5,307,000,000

The Medical Support and Compliance appropriation funds the expenses of management and administration of the Department's health care system to include financial management, public health and environmental hazard, quality and performance management, medical inspection, human research oversight, training programs and continuing education, security, volunteer operations, and human resources.

The Committee recommends \$4,900,000,000 for Medical Support and Compliance for fiscal year 2010, an increase of \$450,000,000 above the fiscal year 2009 enacted level and a decrease of \$200,000,000 below the budget request. The Committee recommends an advance appropriation for fiscal year 2011 of \$5,307,000,000, which is the same as the Secretary's proposal. The Committee has included bill language to make available through September 30, 2011, up to \$145,000,000 of the Medical Support and Compliance appropriation for fiscal year 2010.

MEDICAL FACILITIES

Fiscal year 2009 enacted level ¹	\$5,029,000,000
Fiscal year 2010 budget request	4,693,000,000
Committee recommendation in the bill	4,893,000,000
Comparison with:	
Fiscal year 2009 enacted level	(136,000,000)
Fiscal year 2010 budget request	200,000,000
Committee recommendation in the bill	
Fiscal year 2011 advance appropriation	5,740,000,000

¹Does not reflect American Recovery and Reinvestment Act emergency appropriation of \$1,000,000,000.

The Medical Facilities appropriation provides funds for the operation and maintenance of the Department's health care system's capital infrastructure. Included under this heading are provisions for costs associated with utilities, engineering, capital planning, leases, laundry, groundskeeping, garbage, housekeeping, facility repair, and property disposition and acquisition.

The Committee recommends an appropriation of \$4,893,000,000 for Medical Facilities for fiscal year 2010, a decrease of \$136,000,000 below the fiscal year 2009 enacted level and an increase of \$200,000,000 above the budget request. The Committee recommends an advance appropriation for fiscal year 2011 of \$5,740,000,000 which is the same as the Secretary's proposal. The Committee has included bill language to make available through September 30, 2011, up to \$145,000,000 of the Medical Facilities appropriation for fiscal year 2010.

The increased fiscal year 2010 funding is to be used to address non-recurring maintenance issues identified in the Department's Facilities Condition Assessment report on conditions at existing facilities. The additional funds, when combined with the budget request and the American Recovery and Reinvestment Act carryover

funding, will result in a total of \$1,172,205,000 for non-recurring maintenance in fiscal year 2010. The additional funding provided is to be distributed in a manner not subject to the Veterans Equitable Resource Allocation model.

Chattanooga Community-Based Outpatient Clinic.—The Committee is aware that patient utilization at the Community-Based Outpatient Clinic in Chattanooga, TN, grew four percent annually between fiscal years 2005 and 2007, and is expected to continue to grow. Patient enrollment is projected to increase by five percent by 2015 in the Chattanooga service area, and there is a clear need to expand primary care, subspecialty care, ambulatory surgery and pain management, and to support OIF/OEF veterans, women’s health, and other special programs. The Department is directed to report to the Committees on Appropriations of both Houses of Congress by February 15, 2010 on its plans for a new outpatient facility in Chattanooga.

Toledo VA Clinic.—The Committee expects, that prior to any approval being given or contract awarded by the Department for construction of a replacement VA clinic facility in Toledo, Ohio, the ongoing needs study mandated by the VA Central Office shall include involvement by community stakeholders across the Northwest Ohio/Toledo, Ohio service region (including Monroe and Lenawee counties in Michigan). Additionally, plans for any new facility being constructed to replace the existing space shall demonstrate how its power requirements will link to green energy and renewable power systems being installed in the vicinity.

Community-Based Outpatient Clinic.—The Department is urged to examine the need for, and report on the feasibility of, a Community-Based Outpatient Clinic in Idabel, OK and Hinesville, GA.

MEDICAL AND PROSTHETIC RESEARCH

Fiscal year 2009 enacted level	\$510,000,000
Fiscal year 2010 budget request	580,000,000
Committee recommendation in the bill	580,000,000
Comparison with:	
Fiscal year 2009 enacted level	70,000,000
Fiscal year 2010 budget request	— — —

This account includes medical, rehabilitative, and health services research. Medical research is an important aspect of the Department’s programs, providing complete medical and hospital services for veterans. The prosthetic research program is also essential in the development and testing of prosthetic, orthopedic, and sensory aids for the purpose of improving the care and rehabilitation of eligible disabled veterans, including amputees, paraplegics, and the blind. The health services research program provides unique opportunities to improve the effectiveness and efficiency of the health care delivery system. In addition, budgetary resources from a number of areas including appropriations from the medical care accounts, reimbursements from the Department of Defense, grants from the National Institutes of Health, private proprietary sources, and voluntary organizations provide support for the Department’s researchers.

The Committee recommends \$580,000,000 for Medical and Prosthetic Research, an increase of \$70,000,000 above the fiscal year 2009 enacted level and the same as the budget request.

Medical Research Items of Interest.—The Committee is encouraged by the substantial budget increase for medical research in the fiscal year 2010 budget submission and the initiatives identified for additional funding. The Committee urges the Department to continue to increase funding for medical research that will inform and improve the delivery of health care for our veterans and further urges the Department to consider the support of additional research into the links between diseases and veteran populations (such as Amyotrophic Lateral Sclerosis and certain cancers). The Committee also notes that the Department has recently raised the funding caps for merit review projects and supports the systemic review of award funding levels. Additionally, the Committee strongly urges the Department to continue to improve its collaboration with other federal research agencies such as the Department of Defense, the National Institute of Disability and Rehabilitation Research of the Department of Education, and the National Institutes of Health.

VA/DOD Reporting and Analysis Data Mart.—Recent studies utilizing the data available in the VA/DOD Reporting and Analysis Data Mart have proven its value in assisting researchers and leaders to understand the distribution of our veteran population and their health care utilization patterns. The Committee directs the Department to report to the Appropriations Committees of both Houses of Congress by January 8, 2010 on progress to fully populate the VA/DOD Reporting and Analysis Data Mart with records of individuals who became veterans starting with the current fiscal year and working backwards to at least fiscal year 2000. The Committee urges the Department to partner with the Department of Defense to assemble and organize the necessary data files that will be shared as well as determine the business rules that govern the assembly and use of the data sets.

MEDICAL CARE COLLECTIONS FUND

The Department of Veterans Affairs Medical Care Collections Fund (MCCF) was established by the Balanced Budget Act of 1997 (Public Law 105–33). The Department deposits first-party and pharmacy co-payments, third-party insurance payments and enhanced-use collections, long-term care co-payments, Compensated Work Therapy Program collections, Compensation and Pension Living Expenses Program collections, and Parking Program fees into the MCCF. The Congressional Budget Office estimate of fees that will be collected in fiscal year 2010 is \$2,954,000,000.

NATIONAL CEMETERY ADMINISTRATION

Fiscal year 2009 enacted level ¹	\$230,000,000
Fiscal year 2010 budget request	242,000,000
Committee recommendation in the bill	250,000,000
Comparison with:	
Fiscal year 2009 enacted level	20,000,000
Fiscal year 2010 budget request	8,000,000

¹ Does not reflect American Recovery and Reinvestment Act emergency appropriation of \$50,000,000.

The National Cemetery Administration was established in accordance with Public Law 93–43, the National Cemeteries Act of 1973. It has a fourfold mission: to provide for the interment of, in any national cemetery with available grave space, the remains of

eligible deceased servicemembers and discharged veterans, together with their spouses and certain dependents, and to permanently maintain their graves; to provide headstones for, and to mark graves of eligible persons in national, State, and private cemeteries; to administer the grant program for aid to States in establishing, expanding, or improving State veterans' cemeteries; and to administer the Presidential Memorial Certificate Program. This appropriation will provide for the operation and maintenance of 164 cemeterial installations in 39 States, the District of Columbia, and Puerto Rico.

The Committee recommends an appropriation of \$250,000,000 for the National Cemetery Administration, an increase of \$20,000,000 above the fiscal year 2009 enacted level and an increase of \$8,000,000 above the budget request. The additional funding is for the National shrine commitment program, an initiative to improve the overall appearance and condition of cemeteries as identified in the study on veterans cemeteries which was submitted to the Congress in 2002.

Chattanooga National Cemetery.—The Committee recognizes the efforts of the Chattanooga National Cemetery to identify additional gravesites within existing boundaries to remain open until 2025, but it will eventually reach capacity. The Committee directs the Department to report by January 29, 2010 on plans to expand the Chattanooga National Cemetery.

DEPARTMENTAL ADMINISTRATION

GENERAL OPERATING EXPENSES

Fiscal year 2009 enacted level ^{1 2}	\$1,797,067,000
Fiscal year 2010 budget request	2,218,500,000
Committee recommendation in the bill	2,083,700,000
Comparison with:	
Fiscal year 2009 enacted level	286,633,000
Fiscal year 2010 budget request	(134,800,000)

¹ Reflects transfer to Information Technology Systems of \$4,800,000 approved by the Committee on January 6, 2009.

² Does not reflect American Recovery and Reinvestment Act emergency appropriation of \$150,000,000.

The General Operating Expenses appropriation provides for the administration of non-medical veterans benefits through the Veterans Benefits Administration and departmental management and support.

The Committee recommends an appropriation of \$2,083,700,000 for General Operating Expenses, an increase of \$286,663,000 above the fiscal year 2009 current estimate and a decrease of \$134,800,000 below the budget request. The amount provided includes \$1,690,200,000 for the Veterans Benefits Administration.

The Committee recommendation reverses the proposal contained in the budget request which would have shifted the cost of disability compensation exams from the Compensation and Pensions account to this account. In order for that shift to occur, existing legislation must be changed and no legislative proposal to accomplish that change has been submitted to the Congress. The Committee's recommendation will result in a continuation of the status quo.

The Committee recommendation endorses the budget proposal to increase the number of disability claims processors by approximately 1200.

The Committee recommendation endorses the Public and Intergovernmental Affairs’ budget request which includes \$6,500,000 to organize, promote, and facilitate adaptive sports and paralympic events for disabled veterans and service members.

INFORMATION TECHNOLOGY SYSTEMS

Fiscal year 2009 enacted level ^{1 2}	\$2,748,091,000
Fiscal year 2010 budget request	3,307,000,000
Committee recommendation in the bill	3,307,000,000
Comparison with:	
Fiscal year 2009 enacted level	558,909,000
Fiscal year 2010 budget request	---

¹ Reflects transfer of \$258,700,000 from Medical Services and General Operating Expenses approved by the Committee on January 6, 2009.
² Does not reflect American Recovery and Reinvestment Act emergency appropriation of \$50,000,000.

The Information Technology Systems account was established in P.L. 109–114. The account previously encompassed the entire non-pay information technology portfolio for the Department of Veterans Affairs, including all automation efforts in all administrations. Starting in fiscal year 2007, and reflected for the first time in the budget request for fiscal year 2008, this account also included pay and associated costs for information technology staff.

The Committee recommends an appropriation of \$3,307,000,000 for Information Technology Systems, an increase of \$558,909,000 above the fiscal year 2009 current estimate, and the same as the budget request.

The Committee has included bill language requiring the Department to submit an expenditure plan for the total amount provided, not later than 30 days after enactment of this Act. In addition, an administrative provision is included in the bill which allows for the reprogramming of funds in this account between projects upon prior notification to, and approval by, the Committee.

The Denver VA Medical Center is the tertiary cardiac care center for veterans for the five rural states in VISN 19 and one of the Department’s cardiac catheterization laboratory data repositories. Because of distance and capacity issues, the Denver VA Medical Center is dependent on the private sector for veterans’ cardiac health care in VISN 19, but there is no mechanism in place for sharing critical clinical data within these rural areas in a secure and timely manner. The Committee urges the Department to consider proposals for pilot projects in VISN 19 that would demonstrate the bidirectional sharing of cardiac data between the Denver VA Medical Center and private sector hospitals.

Automated System for the Electronic Preparation of Veterans Disability Claims.—The processes involved with submitting disability compensation and pension claims with the Department is one of the most challenging obstacles to the timely and accurate receipt of veterans benefits. While the Department has made progress in deploying electronic records for veterans, further advances in technology may enable automation of even the most complicated of claims administration. For instance, commercial products have automated the filing of taxes and receipt of state and federal returns. Such user-friendly technology may be adaptable for the administration of claims processing while also supporting the transition to electronic records. The Committee encourages the Department to explore such technologies and report by January 29, 2010, on the feasibility of using this technology for claims filings.

OFFICE OF THE INSPECTOR GENERAL

Fiscal year 2009 enacted level ¹	\$87,818,000
Fiscal year 2010 budget request	107,000,000
Committee recommendation in the bill	107,000,000
Comparison with:	
Fiscal year 2009 enacted level	19,182,000
Fiscal year 2010 budget request	---

¹Does not reflect American Recovery and Reinvestment Act emergency appropriation of \$1,000,000.

The Office of Inspector General was established by the Inspector General Act of 1978 and is responsible for the audit, investigation, and inspection of all Department of Veterans Affairs programs and operations. The overall operational objective is to focus available resources on areas which would help improve services to veterans and their beneficiaries, assist managers of Department programs to operate economically in accomplishing program goals, and to prevent and deter recurring and potential fraud, waste, and inefficiencies.

The Committee recommends an appropriation of \$107,000,000 for the Office of Inspector General, an increase of \$19,182,000 above the fiscal year 2009 enacted level and the same as the budget request.

The Committee recommendation endorses the oversight efforts the Office of Inspector General proposes in the areas of financial audit as well as oversight of information technology and medical programs.

The VA Office of Inspector General Report *Implementation of the VHA's Uniform Mental Health Services Handbook* states that the VHA's Handbook 1160.01, *Uniform Mental Health Services in VA Medical Centers and Clinics* translates the mental health strategic plan into an "operational, point of service, programmatic package of approximately 400 mental health services provided or available to eligible veterans at VA medical centers and community-based outpatient clinics (CBOCs) of varying size". While the report indicates that implementation of the program is ongoing, more needs to be done to ensure that a uniform mental health benefit package is provided to all veterans. The Committee directs the Office of Inspector General to conduct a review of the Department's continued progress to include an assessment of the metrics developed to ensure implementation of requirements, an assessment of the system developed to track use of evidence-based PTSD therapies, a determination of whether the Department has sufficient inpatient capability available for substance abuse treatment, and identification of any barriers to full implementation.

CONSTRUCTION, MAJOR PROJECTS

Fiscal year 2009 enacted level	\$923,382,000
Fiscal year 2010 budget request	1,194,000,000
Committee recommendation in the bill	1,194,000,000
Comparison with:	
Fiscal year 2009 enacted level	270,618,000
Fiscal year 2010 budget request	---

The Construction, Major Projects appropriation provides for constructing, altering, extending, and improving any of the facilities under the jurisdiction or for the use of the Department of Veterans Affairs, including planning, architectural and engineering services,

assessments, and site acquisition where the estimated cost of a project is \$10,000,000 or more.

The Committee recommends an appropriation of \$1,194,000,000 for Construction, Major Projects, an increase of \$270,618,000 above the fiscal year 2009 enacted level and the same as the budget request. The Committee has retained bill language incorporating the construction, major projects specified in this report into the text of the bill by reference.

Construction Oversight.—The Committee is concerned about the rising cost of major medical facility construction projects as well as the prolonged time it takes to award contracts for design and construction. For example, the original estimate and authorization for the Orlando medical facility was \$377,700,000 while the current estimated cost is \$665,400,000, an increase of 76 percent. And the Denver medical facility was originally estimated at \$646,000,000 while the current estimate is \$800,000,000, a growth of 24 percent in less than two years. While individual project costs skyrocket, the Department is woefully slow in obligating funds that have been appropriated. Between fiscal years 2005 and 2008 the Congress provided the Department with \$4.4 billion for construction and the Department has only obligated \$1.9 billion. Both the increases in individual project costs and the slow rates of obligation indicate that this is an area for urgent management attention. In order to improve oversight of these activities, the Committee directs the Department to report obligations for each project on a quarterly basis, with the first report to the Committees on Appropriations of both Houses of Congress to be submitted no later than January 15, 2010 to reflect obligations incurred through December 31, 2009.

The specific amounts recommended by the Committee are as follows:

[In thousands of dollars]

Location	Description	2010 request	Committee recommendation
Veterans Health Administration (VHA):			
Denver, CO	New Medical Facility	119,000	119,000
Orlando, FL	New Medical Facility	371,300	371,300
San Juan, PR	Seismic Corrections	42,000	42,000
St. Louis, (JB), MO	Med Fac. Improvements & Cemetery Expansion.	19,700	19,700
Bay Pines, FL	Inpatient/Outpatient Improve	96,800	96,800
Livermore, CA	Design and Land Purchase	55,430	55,430
Canandaigua, NY	Construction and Renovation (Design)	36,580	36,580
San Diego, CA	Seismic Corrections (Design)	18,340	18,340
Long Beach, CA	Seismic Corrections (Design)	24,200	24,200
St. Louis, (JC), MO	Replace Bed Tower/Clinic Expansion (Design).	43,340	43,340
Brockton, MA	Long-term Care Spinal Cord Injury Unit (Design).	24,040	24,040
Perry Point, MD	Replacement Community Living Center (Design).	9,000	9,000
Advance Planning Fund		123,560	123,560
Facility Security Projects		42,510	42,510
BRAC Land Acquisition		35,000	35,000
Judgment Fund		16,000	16,000
Total VHA		1,076,800	1,076,800
National Cemetery Administration (NCA):			
Abraham Lincoln National Cemetery.	Gravesite Expansion and Cemetery Improvements.	38,300	38,300

(In thousands of dollars)

Location	Description	2010 request	Committee recommendation
Houston National Cemetery	Gravesite Expansion and Cemetery Improvements.	35,000	35,000
Advance Planning Fund	13,400	13,400
NCA Land Acquisition Fund	25,500	25,500
Total NCA	112,200	112,200
General Administration Staff Offices Advance Planning Fund.	5,000	5,000
Major construction total	1,194,000	1,194,000

CONSTRUCTION, MINOR PROJECTS

Fiscal year 2009 enacted level	\$741,534,000
Fiscal year 2010 budget request	600,000,000
Committee recommendation in the bill	726,800,000
Comparison with:	
Fiscal year 2009 enacted level	(14,734,000)
Fiscal year 2010 budget request	126,800,000

The Construction, Minor Projects appropriation provides for constructing, altering, extending, and improving any of the facilities under the jurisdiction or for the use of the Department, including planning, assessment of needs, architectural and engineering services, and site acquisition, where the estimated cost of a project is less than \$10,000,000.

The Committee recommends an appropriation of \$726,800,000 for Construction, Minor Projects, a decrease of \$14,734,000 below the fiscal year 2009 enacted level and an increase of \$126,800,000 above the budget request.

The Committee recommendation includes \$65,000,000 for the National Cemetery Administration, \$16,907,000 for the Veterans Benefits Administration, \$25,175,000 for General Administration—Staff offices, and \$619,718,000 for Veterans Health Administration. The Committee directs the Department to provide an expenditure plan for the funding within 30 days of enactment of this Act.

GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

Fiscal year 2009 enacted level ¹	\$175,000,000
Fiscal year 2010 budget request	85,000,000
Committee recommendation in the bill	85,000,000
Comparison with:	
Fiscal year 2009 enacted level	(90,000,000)
Fiscal year 2010 budget request	— — —

¹ Does not reflect American Recovery and Reinvestment Act emergency appropriation of \$150,000,000.

This program provides grants to assist States to construct State home facilities, for furnishing domiciliary or nursing home care to veterans, and to expand, remodel or alter existing buildings for furnishing domiciliary, nursing home or hospital care to veterans in State homes. A grant may not exceed 65 percent of the total cost of the project.

The Committee recommends an appropriation of \$85,000,000 for Grants for Construction of State Extended Care Facilities, a decrease of \$90,000,000 below the fiscal year 2009 enacted level and the same as the budget request. The Committee notes that a number of States, which are responsible for matching a portion of the

cost of the grants, have requested deferral of projects due to a lack of State funding. Until this situation improves, increasing allocations of funding to this account would not be the best use of resources.

The Department is urged to examine the need for, and report on the feasibility of, a nursing home to care for veterans in Montgomery County, TN.

GRANTS FOR CONSTRUCTION OF STATE VETERANS CEMETERIES

Fiscal year 2009 enacted level	\$42,000,000
Fiscal year 2010 budget request	42,000,000
Committee recommendation in the bill	42,000,000
Comparison with:	
Fiscal year 2009 enacted level	- - -
Fiscal year 2010 budget request	- - -

This program provides grants to assist States with the establishment, expansion, and improvement of State veterans cemeteries which are operated and permanently maintained by the States. Grants under this program fund up to 100 percent of construction costs and the initial equipment expenses when the cemetery is established. The States remain responsible for providing the land and for paying all costs related to the operation and maintenance of the State cemeteries, including the costs for subsequent equipment purchases.

The Committee recommends an appropriation of \$42,000,000 for Grants for Construction of State Veterans Cemeteries, the same as the fiscal year 2009 enacted level and the same as the budget request.

ADMINISTRATIVE PROVISIONS

The bill includes 22 provisions that were included in the fiscal year 2009 enacted appropriations bill and two new provisions proposed by the Department. The administrative provisions included in the bill are as follows:

Section 201 allows for the transfer of funds among three mandatory appropriations. The Administration proposed to modify this provision.

Section 202 allows the Department to transfer funding among the three medical appropriations accounts in fiscal year 2010. The Administration proposed to modify this provision.

Section 203 allows for salaries and expenses funds to be used for hire of passenger vehicles, lease of facilities or land, and purchase of uniforms.

Section 204 provides that only funding in the "Construction, major projects" and "Construction, minor projects" accounts can be used for the purchase of any site for any new hospital or home or to construct any new hospital or home.

Section 205 requires the Department to be reimbursed for medical services it provides to any person not defined as a beneficiary to ensure the Department is receiving payment for all medical services provided.

Section 206 allows for the use of funds appropriated in fiscal year 2010 for "Compensation and pensions", "Readjustment benefits", and "Veterans insurance and indemnities" for payment of accrued obligations recorded in the last quarter of fiscal year 2009.

Section 207 allows for the use of fiscal year 2010 funds to pay prior year obligations resulting from implementation of sections 3328(a), 3334, and 3712(a) of title 31, United States Code.

Section 208 allows the Department to use surplus earnings from the National service life insurance, U.S. Government life insurance, and veterans special life insurance program to administer these programs.

Section 209 allows the Department to cover the administrative expenses of structuring enhanced-use leasing proposals and provides authority to obligate these reimbursements in the year funds are received.

Section 210 limits the amount of reimbursement the Office of Resolution Management and the Office of Employment Discrimination Complaint Adjudication can charge other offices and accounts of the Department for services provided.

Section 211 requires the Secretary to submit a report to the Committees on Appropriations to approve new leases of real property more than \$1,000,000. The Administration proposed to modify this provision.

Section 212 requires the Department to collect current, accurate third-party reimbursement information for the purposes of third-party insurance collections. If persons receiving care or medical services do not disclose this information, the Department is allowed to bill them reasonable charges for services provided.

Section 213 allows the Department to use enhanced-use leasing funds for construction and alterations for medical facilities.

Section 214 allows the Department to use the "Medical services" appropriation for expenses related to the broader mission of medical care to veterans.

Section 215 allows the Department to transfer Medical Care Collections to the "Medical services" appropriation to be used for veterans medical care.

Section 216 allows veterans who reside in Alaska to obtain medical services from medical facilities supported by the Indian Health Services or tribal organizations, and provides for reimbursement for those services from the Department of Veterans Affairs.

Section 217 allows the Department to transfer the proceeds received from the transfer of real property deposited into the Department of Veterans Affairs Capital Asset Fund (CAF) to the major and minor construction appropriations.

Section 218 prohibits the expenditure of any funds available to the Department for implementation of a national standardized contract for diabetes monitoring systems. The Administration proposed to delete this provision.

Section 219 provides that no funds may be used to prohibit Directors of Veterans Integrated Service Networks (VISN) from conducting outreach or marketing programs. The Administration proposed to delete this provision.

Section 220 requires the Secretary to submit quarterly reports on the financial status of the Veterans Health Administration.

Section 221 requires the Department to notify and receive approval from the Committee of any proposed transfer of funding to or from the "Information technology systems" account. The Administration proposed to modify this provision.

Section 222 requires the Department to notify and receive approval from the Committee of any proposed transfer of funding in excess of \$1,000,000 between information technology system projects. The Administration proposed to modify this provision, including a threshold of \$5,000,000 for such transfers.

Section 223 amends section 1925 of title 38, United States Code to reflect the movement of information technology functions out of the “General operating expenses” account and into the “Information technology systems” account.

Section 224 amends section 1922 of title 38, United States Code to reflect the movement of information technology functions out of the “General operating expenses” account and into the “Information technology systems” account.

TITLE III

RELATED AGENCIES

AMERICAN BATTLE MONUMENTS COMMISSION

SALARIES AND EXPENSES

Fiscal year 2009 enacted level	\$59,470,000
Fiscal year 2010 budget request	60,300,000
Committee recommendation in the bill	61,800,000
Comparison with:	
Fiscal year 2009 enacted level	2,330,000
Fiscal year 2010 budget request	1,500,000

The American Battle Monuments Commission is responsible for the administration, operation and maintenance of cemetery and war memorials to commemorate the achievements and sacrifices of the American Armed Forces where they have served since April 6, 1917. In performing these functions, the Commission maintains 24 permanent American military cemetery memorials and 31 monuments, memorials, markers, and offices in 15 foreign countries, the Commonwealth of the Northern Mariana Islands, and the British dependency of Gibraltar. In addition, six memorials are located in the United States: the East Coast Memorial in New York; the West Coast Memorial, The Presidio in San Francisco; the Honolulu Memorial in the National Memorial Cemetery of the Pacific in Honolulu, Hawaii; and the American Expeditionary Forces Memorial, the World War II, and Korean War Veterans Memorials in Washington, DC.

The Committee recommends an appropriation of \$61,800,000 for the American Battle Monuments Commission’s salaries and expenses account. This is an increase of \$2,330,000 above the fiscal year 2009 enacted level and an increase of \$1,500,000 above the budget request. The increase above the budget request is to be used to accomplish non-recurring projects and equipment replacement.

Language is included allowing up to \$7,500 to be used for official reception and representation expenses.

FOREIGN CURRENCY FLUCTUATIONS ACCOUNT

Fiscal year 2009 enacted level	\$17,100,000
Fiscal year 2010 budget request est.	17,100,000
Committee recommendation in the bill est.	17,100,000
Comparison with:	
Fiscal year 2009 enacted level	---
Fiscal year 2010 budget request	---

The Commission's Foreign Currency Fluctuations Account is authorized pursuant to 36 U.S.C. 2109 to pay the costs of salaries and expenses that exceed the amount appropriated for salaries and expenses because of fluctuations in currency exchange rates of foreign countries occurring after a budget request for the Commission is submitted to the Congress. The account may not be used for any other purpose.

The Committee recommendation includes bill language as proposed which makes "such sums as may be necessary" available to the Commission to cover unanticipated foreign currency fluctuations.

UNITED STATES COURT OF APPEALS FOR VETERANS CLAIMS

SALARIES AND EXPENSES

Fiscal year 2009 enacted level	\$30,975,000
Fiscal year 2010 budget request	27,115,000
Committee recommendation in the bill	27,115,000
Comparison with:	
Fiscal year 2009 enacted level	(3,860,000)
Fiscal year 2010 budget request	---

The Veterans' Judicial Review Act established the U.S. Court of Appeals for Veterans Claims. The Court reviews appeals from claimants seeking review of a benefit denial. The Court has the authority to overturn findings of fact, regulations, and interpretations of law.

The Committee recommends an appropriation of \$27,115,000 for the U.S. Court of Appeals for Veterans Claims, a decrease of \$3,860,000 below the fiscal year 2009 enacted level and the same as the budget request. Of the amount provided, \$1,820,000 is to be used for the pro bono representation program.

The Committee notes that the fiscal year 2009 appropriation included a one-time appropriation of \$7,000,000 for advance planning and design associated with future construction of a Veterans Court-house and Justice Center. Continuation of this expense is not required, resulting in a decrease in appropriations for fiscal year 2010.

DEPARTMENT OF DEFENSE—CIVIL CEMETERIAL EXPENSES, ARMY

SALARIES AND EXPENSES

Fiscal year 2009 enacted level	\$36,730,000
Fiscal year 2010 budget request	37,200,000
Committee recommendation in the bill	42,500,000
Comparison with:	
Fiscal year 2009 enacted level	5,770,000
Fiscal year 2010 budget request	5,300,000

The Secretary of the Army is responsible for the administration, operation and maintenance of Arlington National Cemetery and

the Soldiers' and Airmen's Home National Cemetery. In addition to its principal function as a national cemetery, Arlington is the site of approximately 3,100 non-funeral ceremonies each year and has approximately 4,000,000 visitors annually.

The Committee recommends an appropriation of \$42,500,000 for Cemeterial Expenses, Army, salaries and expenses, an increase of \$5,770,000 above the fiscal year 2009 enacted level and an increase of \$5,300,000 above the budget request. The increase in funding is to be used for relocation of power and telephone lines into duct banks along and under the roadways. This project will provide additional space for approximately eight to ten thousand additional gravesites.

The Committee recommendation includes a provision of bill language which prohibits the use of any funding for the construction of a perimeter wall at Arlington National Cemetery.

ARMED FORCES RETIREMENT HOME
OPERATION AND MAINTENANCE

Fiscal year 2009 enacted level	\$54,985,000
Fiscal year 2010 budget request	62,000,000
Committee recommendation in the bill	62,000,000
Comparison with:	
Fiscal year 2009 enacted level	7,015,000
Fiscal year 2010 budget request	-- --

The Armed Forces Retirement Home (AFRH) consists of two retirement communities, one in Washington, D.C. and the other in Gulfport, Mississippi. The Washington, D.C. facility was established in 1851 as a soldiers' home for elderly and disabled veterans. The original home for Navy officers, sailors, and Marines was established in Philadelphia, Pennsylvania in 1811, and was relocated to Gulfport, Mississippi almost a century and a half later.

The Committee recommendation provides authority to expend \$62,000,000 from the Armed Forces Retirement Home Trust Fund to operate and maintain the Armed Forces Retirement Home—Washington, District of Columbia, and the Armed Forces Retirement Home—Gulfport, Mississippi. The amount recommended is \$7,015,000 above the fiscal year 2009 enacted level and equal to the budget request.

CAPITAL PROGRAM

Fiscal year 2009 enacted level	\$8,025,000
Fiscal year 2010 budget request	72,000,000
Committee recommendation in the bill	72,000,000
Comparison with:	
Fiscal year 2009 enacted level	63,975,000
Fiscal year 2010 budget request	-- --

The Committee recommendation provides authority to expend \$72,000,000 from the Armed Forces Retirement Home Trust Fund for construction and renovations. The amount recommended is \$63,975,000 above the fiscal year 2009 enacted level and equal to the budget request.

TITLE IV

GENERAL PROVISIONS

The bill includes eight provisions that were included in the fiscal year 2009 enacted appropriations bill as follows:

Section 401 prohibits the obligation of funds beyond the current fiscal year unless expressly so provided.

Section 402 requires pay raises to be absorbed within the levels appropriated in the bill.

Section 403 prohibits the use of funds for programs, projects or activities not in compliance with Federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

Section 404 prohibits the use of funds to support or defeat legislation pending before Congress.

Section 405 encourages all departments and agencies funded in this Act to expand the use of E-Commerce technologies and procedures.

Section 406 limits funds from being transferred from this appropriations measure to any instrumentality of the United States Government without authority from an appropriation Act. The Administration proposed to delete this provision.

Section 407 specifies the congressional committees that are to receive all reports and notifications.

Section 408 prohibits any funds in this Act to be used for a project or program named for an individual serving as a Member, Delegate, or Resident Commissioner of the United States Congress.

HOUSE OF REPRESENTATIVES REPORT REQUIREMENTS

The following items are included in accordance with various requirements of the rules of the House of Representatives.

CHANGES IN APPLICATION OF EXISTING LAW

Pursuant to clause 3(f)(1)(A) of rule XIII of the Rules of the House of Representatives, the following statements are submitted describing the effect of provisions in the accompanying bill that directly or indirectly change the application of existing law.

Language is included in various parts of the bill to continue ongoing activities that require annual authorization or additional legislation, which to date have not been enacted.

Language is included in various parts of the bill to place limitations on the use of funds in the bill or change existing limitations and which might, under some circumstances, be construed as changing the application of existing law.

Language is included in various parts of the bill to allow the Secretary of Defense to exceed certain limitations upon notification to the Committee.

Language is included in various parts of the bill to allow funding to be used for official reception and representation expenses.

Language is included in various parts of the bill to enable various appropriations to remain available for more than one year for some programs for which the basic authority legislation does not presently authorize such extended availability.

Language is included in various parts of the bill to permit the transfer of funds to other accounts in the bill.

Language is included in various parts of the bill to allow funds to be used for the hire of passenger motor vehicles.

Language is included under Title I to prohibit payments for cost-plus-a-fixed-fee contract under certain circumstances.

Language is included under Title I to allow advances to the Federal Highway Administration, Department of Transportation under certain circumstances.

Language is included under Title I to prohibit the use of fund to begin construction of new bases without specific appropriations.

Language is included under Title I to prohibit the use of funds for purchase of land or land easements under certain circumstances.

Language is included under Title I to prohibit the use of funds for land acquisition, site preparation, and utility installation unless funds have been made available in annual appropriations Acts.

Language is included under Title I to prohibit the use of minor construction funds to transfer an activity between installations without prior notification.

Language is included under Title I to prohibit the use of funds for the procurement of steel for any activity if American steel producers have been denied the opportunity to compete for such steel procurements.

Language is included under Title I to prohibit the use of funds to pay real property taxes in any foreign nation.

Language is included under Title I to limit the use of funds for architect and engineer contracts under certain circumstances.

Language is included under Title I to limit the use of funds for awarding contracts to foreign contractors under certain circumstances.

Language is included under Title I to require the Department of Defense to notify the appropriate committees of Congress of any proposed military exercises under certain circumstances.

Language is included under Title I to limit funding obligations in the last two months of the fiscal year to 20 percent.

Language is included under Title I to allow prior year construction funding to be available for current year projects.

Language is included under Title I to allow payment for the cost associated with supervision, inspection, overhead, engineering and design on family housing or military construction projects that are being completed with expired or lapsed funds.

Language is included under Title I to allow funds to be expended on military construction projects for four fiscal years after enactment under certain circumstances.

Language is included under Title I to allow for the transfer of BRAC proceeds to the BRAC account.

Language is included under Title I to allow construction funds to be transferred to Housing Improvement Funds.

Language is included under Title I to require the various military departments to submit prior notice to the Committee of solicitation for contracts with the private sector for military family housing under certain circumstances.

Language is included under Title I to allow for the transfer of BRAC funds to the Homeowners Assistance Program.

Language is included under Title I to limit funds for the operation and maintenance of family housing to those provided in this appropriation with exceptions under certain circumstances.

Language is included under Title I to allow funds in the Ford Island Improvement Account to be available until expended for certain purposes.

Language is included under Title I to limit funds for realignment of installations under certain circumstances.

Language is included under Title I to allow for the transfer of expired funding to the Foreign Currency Fluctuation Account under certain circumstances.

Language is included under Title I to prohibit the use of funds to expand Pinon Canyon Maneuver Site.

Language is included under Title I to allow funds to be transferred among projects or activities within the account under certain circumstances.

Language is included under Title II to require that the Secretary of Veterans Affairs establish a priority for treatment of veterans who are service-connected disabled, lower income, or have special needs.

Language is included under Title II to require that the Secretary of Veterans Affairs give priority funding of basic medical benefits to priority groups 1 through 6.

Language is included under Title II to allow the Secretary of Veterans Affairs to dispense prescription drugs from VHA facilities to enrolled veterans with privately written prescriptions.

Language is included under Title II to allocate a portion of non-recurring maintenance funds outside the Veterans Equitable Resource Allocation.

Language is included under Title II providing for the reimbursement to the Department of Defense for the costs of overseas employee mail.

Language is included under Title II to require approval of a transfer between projects of the information technology systems account.

Language is included under Title II establishing time limitations and reporting requirements concerning the obligation of major construction funds, limiting the use of funds, and allowing the use of funds for program costs.

Language is included under Title II to allow minor construction funds to be used to repair non-medical facilities damaged by natural disaster or catastrophe.

Language is included under Title II permitting transfers between mandatory and discretionary accounts, limiting and providing for the use of certain funds, funding administrative expenses associated with life insurance programs from excess program revenues, allowing reimbursement from enhanced-use leases and for certain services, requiring notification of new lease agreements, requiring disclosure of insurance and income information, allowing a recovery audit collection program, prohibiting the use of funds for instituting a new standard for glucose monitoring systems, allowing veterans in the state of Alaska to use Indian Health Service facilities under certain conditions, allowing medical services funds for recreational and funeral expenses, and limiting the obligation of

non-recurring maintenance funds during the last two months of the fiscal year.

Language is included under the Court of Appeals for Veterans Claims, Salaries and Expenses, to permit the use of funds for a pro bono program.

Language is included under Cemeterial Expenses, Army, Salaries and Expenses, to permit the use of funds for parking maintenance and repairs.

Language is included under Title IV to require sums necessary for pay raises to be absorbed within levels appropriated.

Language is included under Title IV to limit the use of funds for federal entities when they are not in compliance with federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

Language is included under Title IV to limit the use of funds for publicity or propaganda designed to support or defeat legislation pending before Congress.

Language is included under Title IV to prohibit the transfer of any funds except pursuant to authority provided in appropriations Acts.

Language is included under Title IV to prohibit the use of funds for a project or program named for a serving Member of the United States Congress.

APPROPRIATIONS NOT AUTHORIZED BY LAW

Pursuant to clause 3(f)(1)(B) of rule XIII of the Rules of the House of Representatives, the following table lists the appropriations in the accompanying bill which are not authorized by law for the period concerned:

[Dollars in thousands]

Agency/program	Last year of authorization	Authorization level	Appropriations in last year of authorization	Appropriations in this bill
Military Construction, Army	2009	5,060,698	4,872,648	4,554,906
Military Construction, Navy	2009	3,340,169	3,613,369	3,757,330
Military Construction, Air Force	2009	1,117,746	1,297,746	1,833,671
Military Construction, Defense-Wide	2009	1,584,469	3,145,204	2,743,526
Military Construction, Army National Guard	2009	736,317	933,317	529,129
Military Construction, Air National Guard	2009	242,924	320,924	226,126
Military Construction, Army Reserve	2009	282,607	282,607	432,516
Military Construction, Navy Reserve	2009	57,045	57,045	125,874
Military Construction, Air Force Reserve	2009	36,958	36,958	103,169
North Atlantic Treaty Organization Security Investment Program	2009	230,867	230,867	234,914
Family Housing Construction, Army	2009	646,580	681,087	273,236
Family Housing Operation and Maintenance, Army	2009	716,110	720,042	523,418
Family Housing Construction, Navy and Marine Corps	2009	380,123	380,123	146,569
Family Housing Operation and Maintenance, Navy and Marine Corps	2009	376,062	376,062	368,540
Family Housing Construction, Air Force	2009	395,879	475,979	66,101
Family Housing Operation and Maintenance, Air Force	2009	594,465	610,926	502,936

Department of Veteran Affairs, Construction, Major Projects	2008	-	22,430	116,500

TRANSFER OF FUNDS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the following statements are submitted describing the transfer of funds provided in the accompanying bill.

Language is included to allow Military Construction, Defense-Wide funds to be transferred to other military construction and family housing appropriations to be merged with and available for the same purpose and same time period.

Language is included to allow BRAC proceeds to be transferred to the BRAC account to be merged with and available for the same purpose and same time period.

Language is included to allow for the transfer of funds from Family Housing, Construction accounts to the Department of Defense Family Housing Improvement Fund and funds from Military Construction accounts to the Department of Defense Military Unaccompanied Housing Improvement Fund.

Language is included to provide transfer authority to the Homeowners Assistance Program.

Language is included to allow the transfer of expired funds to the "Foreign Currency Fluctuations, Construction, Defense" account.

Language is included to transfer not to exceed \$29,283,000 from Compensation and Pensions to General Operating Expenses and Medical Services. These funds are for the administrative costs of implementing cost-savings proposals required by the Omnibus Budget Reconciliation Act of 1990 and the Veterans' Benefits Act of 1992. Language is also included permitting necessary sums to be transferred to the medical facilities revolving fund to augment funding of medical centers for nursing home care provided to pensioners as authorized by the Veterans' Benefits Act of 1992.

Language is included to transfer \$328,000 to the Department of Veterans Affairs General Operating Expenses appropriation pursuant to the Federal Credit Reform Act of 1990 from the Vocational Rehabilitation Loans Program Account.

Language is included under the Department of Veterans affairs that would transfer no less than \$15,000,000 for the DoD/VA Health Care Sharing Incentive Fund as authorized by section 8111(d) of title 38, United States Code.

Language is included to provide authority for the Department of Veterans Affairs for any funds appropriated in 2010 for Compensation and Pensions, Readjustment Benefits, and Veterans Insurance and Indemnities to be transferred among those three accounts.

Language is included to transfer funds among the Medical Services, Medical Support and Compliance, and Medical Facilities accounts.

Language is included to permit the funds from three life insurance funds to be transferred to General Operating Expenses for the costs of administering such programs.

Language is included to permit up to \$38,544,000 to be transferred to General Operating Expenses from any funds appropriated in fiscal year 2010 to reimburse the Office of Resolution Management and the Office of Employment Discrimination Complaint Adjudication for services provided.

Language is included to transfer certain funds derived from enhanced-use leasing activities to the Construction, Major Projects and Construction, Minor Projects accounts.

Language is included to transfer funds from the Medical Care Collections Fund to Medical Services.

Language is included to allow the transfer of funds from the Capital Asset Fund to the Construction, Major Projects and Construction, Minor Projects accounts.

Language is included to allow the transfer of funds from various accounts to the Information Technology Systems account.

RESCISSIONS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the following table lists the rescissions in the accompanying bill:

Department/activity	Amounts recommended for rescission
Department of Defense, Military Construction, Army	59,500,000
Department of Defense, Military Construction, Defense-Wide	25,800,000

CONSTITUTIONAL AUTHORITY

Pursuant to clause 3(d)(1) of rule XIII of the Rules of the House of Representatives, the Committee on Appropriations bases its authority to report this legislation from clause 7 of section 9 of article I of the U.S. Constitution which states:

No money shall be drawn from the Treasury but in consequence of Appropriations made by law * * *

COMPARISON WITH THE BUDGET RESOLUTION

Pursuant to clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a)(1)(A) of the Congressional Budget Act of 1974, the following table compares the levels of new budget authority provided in the bill with the appropriate allocation under section 302(b) of the Budget Act.

[In millions of dollars]

	302(b) allocation		This bill	
	Budget authority	Outlays	Budget authority	Outlays
Discretionary	76,506	77,516	77,905	77,659
Mandatory	50,735	50,533	50,735	50,533

FIVE-YEAR PROJECTION OF OUTLAYS

Pursuant to section 308(a)(1)(B) of the Congressional Budget Act of 1974, the following table contains five-year projections prepared

by the Congressional Budget Office of outlays associated with the budget authority provided in the accompanying bill:

	<i>Millions</i>
Budget Authority	128,640
Outlays:	
2010	101,790
2011	15,879
2012	8,042
2013	3,192
2014	1,879

ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

Pursuant to section 308(a)(1)(C) of the Congressional Budget Act of 1974, the amount of financial assistance to State and local governments is as follows:

	<i>Millions</i>
Budget Authority	880
Fiscal Year 2010 outlays resulting therefrom	658

STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

Pursuant to clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the following is a statement of general performance goals and objectives for which this measure authorizes funding:

The Committee on Appropriations considers program performance, including a program’s success in developing and attaining outcome-related goals and objectives, in developing funding recommendations.

COMPLIANCE WITH RULE XIII, CL. 3(e) (RAMSEYER RULE)

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman):

CHAPTER 19 OF TITLE 38, UNITED STATES CODE

CHAPTER 19—INSURANCE

* * * * *

SUBCHAPTER I—NATIONAL SERVICE LIFE INSURANCE

* * * * *

§ 1922. Service disabled veterans’ insurance

(a) Any person who is released from active military, naval, or air service, under other than dishonorable conditions on or after April 25, 1951, and is found by the Secretary to be suffering from a disability or disabilities for which compensation would be payable if 10 per centum or more in degree and except for which such person would be insurable according to the standards of good health established by the Secretary, shall, upon application in writing made within two years from the date service-connection of such disability is determined by the Secretary and payment of premiums as provided in this subchapter, be granted insurance by the United

States against the death of such person occurring while such insurance is in force. If such a person is shown by evidence satisfactory to the Secretary to have been mentally incompetent during any part of the two-year period, application for insurance under this section may be filed within two years after a guardian is appointed or within two years after the removal of such disability as determined by the Secretary, whichever is the earlier date. If the guardian was appointed or the removal of the disability occurred before January 1, 1959, application for insurance under this section may be made within two years after that date. Insurance granted under this section shall be issued upon the same terms and conditions as are contained in the standard policies of National Service Life Insurance except (1) the premium rates for such insurance shall be based on the Commissioners 1941 Standard Ordinary Table of Mortality and interest at the rate of 2 1/4 per centum per annum; (2) all cash, loan, paid-up, and extended values shall be based upon the Commissioners 1941 Standard Ordinary Table of Mortality and interest at the rate of 2 1/4 per centum per annum; (3) all settlements on policies involving annuities shall be calculated on the basis of The Annuity Table for 1949, and interest at the rate of 2 1/4 per centum per annum; (4) insurance granted under this section shall be on a nonparticipating basis and all premiums and other collections therefor shall be credited directly to a revolving fund in the Treasury of the United States, and any payments on such insurance shall be made directly from such fund; and (5) [administrative costs to the Government for the costs of] *administrative support financed by the appropriations for "General Operating Expenses, Department of Veterans Affairs" and "Information Technology Systems, Department of Veterans Affairs"* for the program of insurance under this section shall be paid from premiums credited to the fund under paragraph (4), and payments for claims against the fund under paragraph (4) for amounts in excess of amounts credited to such fund under that paragraph (after such administrative costs have been paid) shall be paid from appropriations to the fund. Appropriations to such fund are hereby authorized. As to insurance issued under this section, waiver of premiums pursuant to section 602(n) of the National Service Life Insurance Act of 1940 and section 1912 of this title shall not be denied on the ground that the service-connected disability became total before the effective date of such insurance.

* * * * *

§ 1925. Limited period for acquiring insurance

(a) * * *

* * * * *

(d)(1) * * *

* * * * *

(3) Notwithstanding the provisions of section 1982 of this title, the Secretary shall, from time to time, determine the administrative costs to the Government which in the Secretary's judgment are properly allocable to insurance issued under this section and any total disability income provision attached thereto, and shall transfer from the revolving fund, the amount of such cost allocable to

the Department to the [appropriation “General Operating Expenses, Department of Veterans Affairs”] *appropriations for “General Operating Expenses and Information Technology Systems, Department of Veterans Affairs”*, and the remainder of such cost to the general fund receipts in the Treasury. The initial administrative costs of issuing insurance under this section and any total disability income provision attached thereto shall be so transferred over such period of time as the Secretary determines to be reasonable and practicable.

* * * * *

FULL COMMITTEE VOTES

Pursuant to the provisions of clause 3(b) of rule XIII of the House of Representatives, the results of each roll call vote on an amendment or on the motion to report, together with the names of those voting for and those voting against, are required to be included in the Committee report. No roll call votes were ordered on an amendment to, or the motion to report, this bill.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

The following table is submitted in compliance with clause 9 of rule XXI, and lists the congressional earmarks (as defined in paragraph (e) of clause 9) contained in the bill or in this report. Neither the bill nor the report contain any limited tax benefits or limited tariff benefits as defined in paragraphs (f) or (g) of clause 9 of rule XXI.

This bill contains \$852 million in grant funding awarded solely at the discretion of the Administration, and \$13.6 billion in funding requested by the President for specific projects. In addition to placing a one year moratorium on earmarks in appropriations bills enacted in 2007 so that new rules could be put in place, the Committee has subsequently taken unprecedented action to increase transparency. The military construction and family housing construction accounts in this bill are project-based accounts and as such are comprised of a specific list of projects each year. The accounts in this bill fund the construction requirements that support the operational and quality of life needs of our servicemembers and their families on the installations where they train and live. This year earmarked funding is expected to equal less than one percent of the cost of the bill. It should also be noted that under the policies adopted by the Committee the use of member earmarks awarded to for-profit entities as a functional equivalent of no bid contracts has ended. In cases where the Committee funds an earmark designated for a for-profit entity, the Committee includes legislative language requiring the Executive Branch to nonetheless issue a request for proposal that gives other entities an opportunity to apply and requires the agency to evaluate all bids received and make a decision based on merit. This gives the original designee an opportunity to be brought to the attention of the agency, but with the possibility that an alternative entity may be selected.

ADDITIONAL VIEWS OF MR. LEWIS AND MR. WAMP

Funding in the Military Construction, Veterans Affairs and Related Agencies fiscal year 2010 appropriation bill totals \$133.7 billion: \$76.5 billion in discretionary spending and \$55.8 billion in mandatory spending. The discretionary spending in this bill represents a 5 percent increase above fiscal year 2009 while the mandatory spending in the bill is 19 percent higher than last year's level.

The bill provides critical funding needed for military construction and family housing for our troops and their families and other quality of life construction projects, and provides funding for all of the programs that the Department of Veterans Affairs and the Related Agencies in this bill have asked for in the budget request, and more.

The 302(b) allocation to this subcommittee of \$76.5 billion is \$240 million more than the budget request, and \$3.6 billion above fiscal year 2009. Ranking Member Lewis offered a substitute 302(b) allocation at the full committee that would have prioritized funding increases for defense, military construction, and our veterans by providing a six percent increase for these programs, a 4 percent increase for homeland security, and holding all other subcommittees to very reasonable 2 percent increases. Unfortunately, the amendment was defeated.

The programs and projects funded in the bill illustrate the commitment of this subcommittee to those who are serving and to those who have served. We commend the Chairman for the increased funding for critical requirements of the Army and Air Guard, and for the Reserve forces of the Army, Navy, Marine Corps and Air Force. The Guard and Reserve forces have been performing at a high operational tempo since September 2001, and this high activation rate is expected to continue.

We are pleased that the BRAC 2005 program is fully funded at the President's request. We will work with the majority, under a fair and open process, to ensure that this funding is in place by the beginning of the fiscal year so that the Department of Defense can work towards meeting the statutory deadline of September 15, 2011 for this program.

We remain concerned about the ability of the VA to effectively absorb large funding increases provided in this bill. With this bill, the overall spending level for VA, including the FY '09 enacted levels, will be about \$205 billion. Many of these accounts are available for a two-year period, and have significant unobligated balances that are not obligated until the second year. We may need to review these programs to see if it would be more efficient to determine the best way to fund them in the future.

The Committee report itself is critical of the slow rate that the VA is spending many of these dollars. In the case of the multi-bil-

lion dollar major construction account for the VA, the report points out that the spending rate is “woefully slow” having only spent \$1.9 billion out of \$4.4 billion that was appropriated between fiscal year 2005 through fiscal year 2008. When you add the spending amounts for fiscal year 2009 to the amounts in this bill, the amount available for this account grows to \$6.5 billion.

The bill contains \$48.2 billion for advance appropriations for medical services, medical support and compliance, and medical facilities, which is \$3.7 billion (8%) above the amount included for fiscal year 2010 in the bill. Candidate Obama and now President Obama said he supports advance appropriations, and Secretary Shinseki has said that he supports it as well. Working together with the majority, we were able to provide for advance appropriations for VA medical care in this bill. No one knows for sure if any unintended consequences exist with this proposal. The Chairman has given his assurances that we will conduct the necessary oversight to make certain that this mechanism, to ensure that our veterans have full access to their medical care needs regardless of where we stand in the annual appropriations process, is properly managed.

While on the subject of advance appropriations, when Secretary Shinseki testified before the subcommittee, he said that he wanted to work with the Congress on this issue. We believe that it would have been more beneficial to the process had the Secretary communicated the Administration’s advance appropriations proposal to both sides of the aisle simultaneously. It is our hope that this was simply an oversight and not the way that the Administration is going to handle communications on major issues with the Committee.

The bill includes \$3.307 billion for VA Information Technology (IT), which is an increase of \$833 million above the fiscal year 2009 enacted level, or it is an increase of \$559 million above the fiscal year 2009 level when reprogramming action is taken into consideration. Regardless, we are talking about providing huge unchecked spending increases to the one account that the General Accounting Office and VA’s Office of Inspector General have documented the VA’s inability to effectively manage these resources.

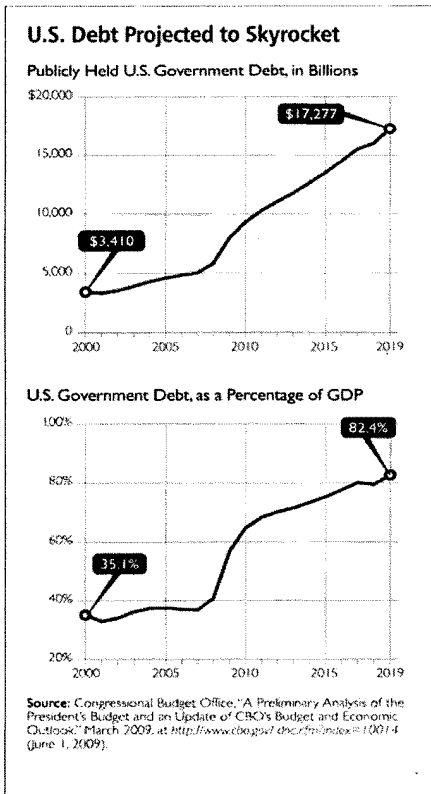

Secretary Shinseki testified that he is going to need IT to be a key part of his plan to transform the VA. With the documented red flags about this account, we could have done more to restrict access to a portion of this funding until the VA–OIG certifies that the Assistant Secretary has taken the necessary steps to put in place the governance boards to ensure that capital investments for IT are properly vetted.

Not to put too fine a point on this, but just last week, less than three hours after the subcommittee markup on this bill, the staff participated in a briefing at the request of VA’s Assistant Secretary for IT. The purpose of the briefing was to provide the Committee an update on a thorough analysis that the VA had undertaken to review their IT portfolio. The Assistant Secretary reported that there are a number of VA IT programs that are more than 13 months behind schedule and more than 50 percent over budget. We asked for the list of these projects along with the FY 09 and FY

10 costs for these projects. More than ten days have passed, and the VA has yet to provide that list.

We also need to view this bill within the larger context of the Nation's rapidly escalating debt and inflationary pressures. We strongly support the Republican proposal to cap domestic discretionary spending at 2 percent above the 2009 enacted level—the level proposed by Ranking Member Lewis as an alternative 302(b) allocation.

According to the Congressional Budget Office (CBO) the Obama Administration is on its way to doubling the national debt in 5 years. In so doing, it will drive the Debt-to-GDP ratio from 41% today to a staggering 71% in 2014. As the charts below show, by 2019 the Debt-to-GDP ratio will exceed 80%:

The United States Treasury is building a mountain of debt and the Federal Reserve has issued another mountain of dollars in its attempt to sustain the credit markets in recent months. The possibility of much higher inflation, which will reduce the value of the payments to the holders of the U.S. debt, is a very real threat, if not the single largest threat against the ability of the economy to recover.

That rapid rise in debt is being fueled by unprecedented increases in the annual deficits. The deficits projected in the Obama Budget Blueprint, and adopted by the Democrats' Congressional

Budget Resolution averages just shy of \$1 trillion (that is \$1,000 billion!) annually for the next ten years—not including revenue shortfalls in Social Security, Medicare and Medicaid, which will add even greater amounts to the annual deficit. In addition, the Democrats' Budget Resolution—at the behest of the Administration and a harbinger of more to come—raises taxes by \$1.5 trillion over the next ten years, effectively withdrawing those funds from private production in the economy as well.

Before the recession, federal spending totaled \$24,000 per U.S. household. President Obama and the budget resolution that incorporates that plan would hike it to \$32,000 per household by 2019—for an inflation-adjusted \$8,000-per-household expansion of government. Even the steep tax increases planned for all taxpayers would not finance all of this spending.

Simply put, the President's budget and the budget resolution that adopted those spending levels would add trillions of dollars in new debt. In fact if enacted, the President's Budget Blueprint would, over time, dump an estimated \$84,352 in new debt on our children and grandchildren.

That debt can only be paid for by borrowing even more. However, the global demand for U.S. debt is not infinite and continued purchases of debt can only be induced by greater interest rates. We are already seeing that occur as treasury rates have soared recently in the face of government borrowing. Just recently mortgage rates have jumped from 4.8% to 5.8% wiping out billions in potential savings for homeowners. To protect credit and keep interest rates low, we must shrink the budget deficit in the near term and rein in entitlement spending, neither of which is occurring in this bill.

As we conclude, we commend the majority for doing an excellent job of setting the funding levels in the bill. We also strongly believe that the total amounts of discretionary funds provided across the 12 appropriations bills could have been reduced by \$35 billion had we kept domestic discretionary spending to a two percent increase above last year except for defense, military construction, homeland security and veterans.
