SUMMARY OF ESTIMATES

The Committee recommendation for the fiscal year 2011 budget for the activities under the jurisdiction of the Subcommittee on the Department of State, Foreign Operations, and Related Programs is \$54,056,000,000 in new discretionary budget authority, which is \$5,292,000,000 above the fiscal year 2010 enacted level and \$2,590,643,000 below the fiscal year 2011 budget request. An additional \$158,900,000 is for mandatory spending.

INTRODUCTION

The Committee believes that in a time of large budget deficits the Department of State, USAID, and other Federal departments and agencies administering funds appropriated in this act should ensure that funds are used to the greatest effect to protect U.S. security interests and strengthen democratic institutions, civil society, and market economies in foreign countries. The design, implementation, and oversight of foreign assistance programs should be conducted with the full participation and support of national or local governments and/or civil society organizations. The Department of State and USAID should review all bilateral and multilateral programs to determine the cost effectiveness of ongoing activities. The Committee is concerned that too often programs are not well coordinated and the measure of “success” is the amount of funds expended, rather than the results achieved. Programs which fail to meet clear and achievable goals and objectives should be terminated.

The Committee is aware that due to severe budget constraints, funding for new initiatives in global health, agriculture and food security, climate change, and other areas are invariably forced to

compete for funds with ongoing assistance programs. The Committee notes that USAID, the Department of State, and the Broadcasting Board of Governors have authority to reprogram prior-year unobligated balances to address priority needs.

COUNTRIES OF SPECIAL CONCERN

The Committee notes that a significant portion of total United States foreign assistance is being provided to three countries in support of United States efforts to combat international terrorism: Afghanistan, Pakistan, and Iraq. The Committee is aware that these countries currently have pipelines of unobligated prior-year funds, and that the rate of disbursement of funds is affected by security threats, corruption, ethnic and tribal rivalries, and limited absorptive capacity.

The Committee recognizes that the difficult social, economic, political, and security challenges these countries face will take many years to address. Substantial investments of U.S. taxpayer funds have been made, but the results have too often fallen short, and in some instances far short, of expectations. The Committee expects the administration to define clear, achievable goals, benchmarks for measuring progress, and to disburse funds in an accountable manner. Priority should be given to strengthening the capacity of government institutions and civil society to achieve sustainable results, and ensuring that programs are carried out in ways that promote respect for democratic values and human rights.

AFGHANISTAN

The Committee recommends \$660,623,000 for Department of State operations in Afghanistan, including \$247,345,000 to increase diplomatic presence through additional Foreign Service Officers and locally employed staff.

The Committee recommends a total of \$2,631,500,000 for assistance for Afghanistan, including \$2,100,000,000 under the ESF heading, \$400,000,000 under the INCLE heading, \$65,000,000 under the GHCS heading, \$65,000,000 under the NADR heading, and \$1,500,000 under the IMET heading. The Committee recommends not less than \$20,000,000 for the Afghan Civilian Assistance Program under the ESF heading to assist individuals and communities that suffer losses as a result of military operations, and directs USAID to consult with the Committee on the use of funds prior to obligation.

The Committee continues conditions on assistance which seek to increase the effectiveness of aid provided, prioritize the role of women, and strengthen transparency and accountability. No funds appropriated by this act may be made available for a permanent basing rights agreement between the United States and Afghanistan.

The Committee recognizes that security and sustainable development are necessary to achieve stability in Afghanistan. Unfortunately, widespread insecurity is hampering development efforts, and USAID and other U.S. Government civilians and implementing contractors and NGOs are limited in their ability to carry out and oversee programs. Recognizing that the current circumstances require taking risks and that not all programs will succeed, the Com-

mittee cautions that smaller projects, with an emphasis on local capacity building, have the best chance of producing cost-effective, sustainable results.

The Committee remains concerned with the impact of corruption on security and sustainable development in Afghanistan, and conditions budget support on a Secretary of State certification that the Government of Afghanistan is taking credible steps to combat corruption, including arresting and prosecuting individuals alleged to be involved in corrupt practices.

PAKISTAN

The Committee recommends \$92,574,000 for Department of State operations in Pakistan, including \$38,623,000 to increase diplomatic presence through additional Foreign Service Officers and locally employed staff. This amount also includes \$11,450,000 for public diplomacy initiatives, including expanded English language teaching and enhanced communications and journalism programs to counter violent extremism.

The Committee recommends a total of \$2,477,100,000 for assistance for Pakistan, including \$1,100,000,000 under the ESF heading, \$900,000,000 under the PCCF heading, \$271,000,000 under the FMF heading, \$125,000,000 under the INCLE heading, \$55,000,000 under the GHCS heading, \$22,000,000 under the NADR heading, and \$4,100,000 under the IMET heading. The Committee recommends not less than \$10,000,000 for the Pakistan Civilian Assistance Program under the ESF heading to assist individuals and communities that suffer losses as a result of military operations, and directs USAID to consult with the Committee on the use of funds prior to obligation.

The Committee continues current conditions on assistance including for budget support for the Government of Pakistan.

The Committee recommends continuing and expanding programs and activities that support the development of independent media, including radio and television, in Pakistan and Afghanistan. The Committee encourages the Department of State to more aggressively work with Pakistani entities to promote democracy and human rights in that country.

IRAQ

The Committee recommends \$1,615,600,000 for Department of State operations in Iraq to support the planned transition from a military to a civilian United States presence. This includes \$639,663,000 to transition security support responsibilities to the Department of State from the Department of Defense.

The Committee recommends a total of \$529,000,000 for assistance for Iraq, including \$200,000,000 under the ESF heading, \$300,000,000 under the INCLE heading, \$27,000,000 under the NADR heading, and \$2,000,000 under the IMET heading.

Funds appropriated by this act for security programs in Iraq may only be made available if the Secretary of State certifies that the Government of Iraq has committed to contributing to, and sustaining, such programs. Conditions in prior appropriations acts are continued, including cost-matching requirements and restrictions

on assistance to enter into a permanent basing rights agreement between the United States and Iraq.

The Committee notes that since 2003, the United States has provided more than \$53,000,000,000 for Iraq relief and reconstruction, and that today the Government of Iraq is responsible for the social, economic, and political development of the country. Iraq has made notable progress since the removal of Saddam Hussein, and the Committee expects future budget requests to reflect a significant phase down of Department of State operations and United States assistance for Iraq, excluding democracy and rule of law activities. The Committee continues to support the Marla Ruzicka Iraqi War Victims Fund to assist civilian victims of conflict, and the transition of this program to an Iraqi-run entity.

TITLE I
DEPARTMENT OF STATE AND RELATED AGENCY
DEPARTMENT OF STATE

The Committee recommends a total of \$17,456,011,000 for the Department of State and the Broadcasting Board of Governors.

ADMINISTRATION OF FOREIGN AFFAIRS
DIPLOMATIC AND CONSULAR PROGRAMS
(INCLUDING TRANSFER OF FUNDS)

Appropriations, 2010	\$8,227,000,000
Budget estimate, 2011	¹ 9,545,221,000
Committee recommendation	9,600,000,000

¹Includes \$3,021,000 requested for Agency Acquisition Workforces under the General Provisions heading.

The Committee recommends \$9,600,000,000 for Diplomatic and Consular Programs, which is \$54,779,000 above the budget request and \$1,373,000,000 above the fiscal year 2010 level. Of this amount, \$1,681,000,000 is for worldwide security protection and \$561,971,000 is for public diplomacy activities. The Committee recommendation separates the functions funded under this heading to provide more transparency in the uses of funds. However, the Department of State may reprogram funds as necessary, subject to consultation with the Committee.

Consular Fee Retention.—The Committee notes that the absence of authorizing language to expand the Department of State’s authority to retain consular fees for its operations results in an immediate reduction of \$634,000,000 from the budget request. The Committee provides \$460,000,000 under the D&CP heading to support overseas staffing and operations costs that were proposed to be funded by these consular fees to mitigate the impact of this reduction, and strongly recommends that the administration refrain from assuming the retention of these consular fees in the fiscal year 2012 budget request.

Human Resources.—The Committee recommends \$2,597,472,000 for all American salaries at overseas and domestic United States diplomatic missions. While the Committee is not able to fund the additional new positions and associated training requested under the Human Resources Initiatives except in the bureaus of Near Eastern Affairs and South Central Asian Affairs, the Committee will consider reallocation of funds under the D&CP heading to support additional positions.

Overseas Programs.—The Committee recommends \$3,504,493,000 for the operational programs of regional bureaus of the Department of State. Regional bureaus are responsible for

managing U.S. foreign policy through bilateral and multilateral relationships. Funds support U.S. Embassies, consulates, and other diplomatic posts worldwide.

Diplomatic Policy and Support.—The Committee recommends \$896,028,000 for the operational programs of the functional bureaus of the Department of State to provide overall policy direction, coordination, and program management among U.S. missions abroad. The Committee does not provide funding for Blair House renovations. However, the Committee will consider a proposal from the Department to fund this project through a reprioritization of existing domestic facilities projects and reprogramming of funds.

Security Programs.—The Committee recommends \$2,602,007,000 for the operation of security programs, including \$1,431,685,000 for worldwide security protection to protect diplomatic personnel, overseas diplomatic missions, residences, and domestic facilities and information. An additional \$249,315,000 is included within the Human Resources function for salaries to make up the total amount in this act for Worldwide Security Protection, \$1,681,000,000.

Funds are allocated in the following table and subject to the requirements of section 7019 of this act:

PROGRAM ISSUES

Airwing.—The Committee expects the Department of State and USAID to continue to follow the Afghanistan airwing directives, including inter-agency coordination and communications interoperability, contained in Public Law 111–32.

Acquisition Improvement Initiative.—The Committee recommends \$2,000,000 under this heading for the administration's

acquisition workforce improvement, which is \$1,020,745 below the budget request.

Cultural Heritage.—The Committee recommends \$10,250,000 for this program, including \$1,000,000 for the Cultural Antiquities Task Force. This also includes \$3,500,000 requested under the ESF heading for the GE initiative to support up to six large-scale projects to preserve cultural heritage sites. In addition, the Committee recommends \$5,750,000 to continue this program worldwide and includes funds for up to five large-scale projects. The Department of State should consult with the Committee prior to the obligation of funds.

Diplomatic Security.—The Committee does not recommend \$17,000,000 for the continued expansion of the Foreign Affairs Security Training Center. While initially funded in Public Law 111–5, the Department has been unable to initiate this project in a timely manner and is still considering possible locations for the facility. Until a location is selected and the Department has finalized plans for the initial phase of the facility, the Committee does not believe the Department can adequately justify an additional \$17,000,000 for this purpose in fiscal year 2011.

Human Rights Vetting.—The Committee supports the Department of State’s efforts to monitor U.S. military training and equipment provided to foreign security forces, but is concerned that the vetting process is uneven among U.S. Embassies and falls short in some countries where the military or police have a history of violating human rights with impunity. The Committee recommends not less than \$2,000,000 for DRL for personnel, training, and other support to strengthen the vetting process. This includes developing the procedures specified in section 7034(s) of this act.

Information Technology.—The Committee provides \$289,591,000 for IT salaries and programs, including for cybersecurity, and encourages the Department of State to coordinate such activities with USAID and other Federal agencies, as appropriate. Given the inherent international functions of diplomacy and development, the Committee believes the Department of State and USAID to be particularly vulnerable to cyber attacks.

International Cooperative Administrative Support Services.—The Committee directs the Comptroller General of the United States to conduct a review of the ICASS system, to include: (1) a determination of the impact of the implementation of the recommendations in Report GAO–04–511 “Embassy Management: Actions Are Needed to Increase Efficiency and Improve Delivery of Administrative Support Services”, including an evaluation of whether ICASS is cost-efficient and reduces administrative redundancies; (2) an evaluation of the Department of State and USAID’s efforts to consolidate overseas administrative services through ICASS; (3) a review of the impact of the increased operating and maintenance costs of new Embassy compounds on ICASS service costs, and an evaluation of the sustainability of these costs for ICASS customer agencies; and (4) an evaluation of ICASS customer satisfaction, including the validity and reliability of the annual ICASS customer satisfaction survey.

Labor Officers.—The Committee is concerned that many Labor Officer positions at U.S. Embassies have been downgraded and

some are not used for their designated function. Labor Officers play a critical role in reporting on worker rights, including the worst forms of child labor, human trafficking, freedom of association, and working conditions among key trading partners. The Committee supports additional personnel and funding to strengthen diplomacy on labor issues.

Mid-career Pilot Program.—The Committee is aware of the dearth of mid-career Foreign Service Officers at the Department of State, and directs the Secretary of State, in consultation with the Committee, to implement a pilot program to recruit, hire, and train mid-career professionals for the Foreign Service.

Locally Employed Staff.—The Committee recommends \$773,479,000 for LES salaries (excluding those under the Local Guard Program), and authorizes the use of such funds for awards and special benefits, including compensation should LES be killed in the line of duty.

Office of Global Women's Issues.—The Committee recommends \$2,500,000 for the Office of Global Women's Issues in fiscal year 2011.

Property Inventory.—The Committee directs that prior to purchasing equipment including vehicles and cell phones, the Secretary of State report to the Committee that the Department has taken effective steps to improve its property inventory procedure, and rescinds \$5,000,000 from unobligated prior-year balances under this heading. The Committee believes that the Department can save at least \$5,000,000 through improved property inventory controls and management of its prior-year unliquidated obligations based on findings from two OIG reports, "MERO-A-10-07, Audit of Property Accountability at Embassy Baghdad" and "ISP-I-10-05, The Bureau of Administration's Office of Real Property Management and Office of Facilities Management Services" and the independent auditors' fiscal year 2009 report. The findings indicate widespread, persistent problems with accurately tracking and managing Department property and equipment as well as poor management of unliquidated obligations that has potentially resulted in unnecessary expenditures and inefficient use of funds. The OIG audit of the Embassy Baghdad found a number of unliquidated obligations that could be cancelled and reused and the independent auditors stated that in fiscal year 2009 approximately \$171,000,000 in unliquidated obligations should have been deobligated.

Office of Defense Trade Controls Licensing.—The Department proposed funding an additional 12 positions in the Office of Defense Trade Controls Licensing through the expanded use of registration fees, but this expanded use has not yet been authorized. The Committee directs the Department to ensure that the office has the necessary budget and staff to fulfill its responsibilities in a timely and effective manner.

Public Diplomacy.—The Committee recommends a total of \$561,971,000 for public diplomacy programs, to be funded through direct appropriations and an additional \$763,436,000 through Department of State fees. The Committee provides \$14,356,000 to establish up to 10 new American Centers at locations around the world and to develop several American Center models to meet different local interests, preferences, and security conditions. The

Committee supports continued funding by the Office of Public Diplomacy and Public Affairs for new media programming for targeted Arabic language television programs, to foster cultural, educational, and professional dialogues through indigenous Arabic language satellite media.

Tibet.—The Committee continues to recognize the important role played by the Special Coordinator for Tibetan Issues in implementing Tibet programs and policies, and urges the Secretary of State to provide support for the Coordinator in carrying out the broad responsibilities detailed in section 621(d) of Public Law 107–228, as well as for convening coordinating meetings for appropriate U.S. Government agencies, NGOs, and representatives of the Tibetan leadership.

Videoconference Interviews.—Section 7034(z) of this act directs the Secretary of State to develop and conduct a pilot program for processing tourist visas using secure remote videoconferencing technology as a method for conducting visa interviews of applicants. The Secretary is also directed to submit the report requested in the joint statement accompanying Public Law 111–8 on the implementation of a program to expand access to consular services through the use of alternative interview techniques including videoconferencing. The Committee directs the Department to allocate sufficient funds to implement section 7034(z) of this act.

Trafficking in Persons.—The Committee recommends a total of \$51,692,000 in this act for Trafficking in Persons programs. Of this amount, \$6,410,000 is included under the D&CP heading for the Office to Monitor and Combat Trafficking in Persons (\$3,149,000 for programs and \$3,261,000 for salaries), which is \$396,000 below the budget request.

Of the total provided to the O/TIP, not less than \$100,000 should be used to meet unexpected urgent needs to prevent trafficking in persons or protect victims of trafficking. These funds are intended to enhance the capacity of the O/TIP to assist victims and support governments facing urgent protection needs, including risk assessment, shelter, food and other basic necessities, counseling, medical services, legal services, travel documentation, safe transport arrangements for return and reintegration, or for participation in judicial proceedings, and reception and resettlement arrangements. Emergency trafficking assistance may be considered for use in a country that is on tier II or below in the Department of State's most recent Trafficking in Persons report and when a local or national government requests or agrees to such assistance and demonstrates the will to participate in the emergency response. The Department is directed to report to the Committee no later than September 30, 2011 on the use of these funds.

REPORT

Security Contractors.—The Committee directs the Secretary of State, in consultation with the Secretary of Defense, to submit a report not later than 180 days after enactment of this act on private security contractors serving at U.S. missions in war zones where the U.S. Armed Forces are engaged in combat operations. The report shall describe the number, cost, and duties of such contractors; the number of personnel assigned to oversee them; the

cost of filling those positions with military or other U.S. Government personnel; the estimated length of time it would take to replace such contractors with Government personnel; and the advantages and disadvantages of replacing the contractors with Government personnel. The Committee further directs that not later than 180 days after the date of enactment of this act, the Director of the Congressional Budget Office shall submit a report estimating the cost of replacing such contractors with Government personnel.

CIVILIAN STABILIZATION INITIATIVE
(INCLUDING TRANSFER OF FUNDS)

Appropriations, 2010	¹ \$120,000,000
Budget estimate, 2011	184,000,000
Committee recommendation	50,000,000

¹ An additional \$30,000,000 was provided for CSI in title II in fiscal year 2010.

The Committee recommends \$50,000,000 for the Civilian Stabilization Initiative, which is \$134,000,000 below the budget request and \$70,000,000 below the fiscal year 2010 level.

The Committee recommends hiring not more than 200 active CSI personnel in fiscal year 2011, and is concerned with the plan to hire 2,243 standby CSI personnel. The Committee questions the Department's ability to effectively deploy such a large number of personnel and urges the Department to reconsider its plan to ensure that it is realistic and affordable.

The Committee continues to believe that the success of CSI can best be achieved through a gradual stand up and implementation and is concerned that CSI has not been adequately integrated into the overall United States response to crises and disasters, including in Haiti and Kyrgyzstan. The Committee is also concerned that the timelines for hiring, training, and deployment of its civilian corps have been overly ambitious and unrealistic. The Committee does not include funding for deployments and encourages the Department of State and USAID to utilize funds from the Complex Crisis Fund and other crisis and disaster response funds for this purpose. The Committee does not support the request for the acquisition of new space or the additional 14 positions to support an expanded Reconstruction and Stabilization coordination and management function. The Committee includes \$1,100,000 for the Civilian Deployment Center which the Committee understands is the updated estimate for the cost of operating the center.

Funds appropriated under this heading may not be made available for obligation until the Secretary of State submits a report to the Committee clarifying the role of CSI in international crisis response, providing lessons learned since CSI's inception, and detailing how CSI efforts are coordinated with those of other U.S. Government agencies, particularly USAID and the Department of Defense.

The Committee notes, and supports, the administration's decision to not request funding for a CRC reserve component. The Committee will consider such funding only after the CSI has established a record of effective operations and can demonstrate programmatic accomplishments.

The Committee supports the independent oversight and investigative responsibilities of the Inspectors General of the Department of State, USAID, SIGAR, and SIGIR and directs the Inspectors General to coordinate their activities in Iraq and Afghanistan to minimize unnecessary duplication, ensuring that resources are used effectively.

REPORT

Implementation of Recommendations.—The Committee is concerned with persistent reports that SIGAR is not meeting quality standards for investigations and audits, and directs SIGAR to report to the Committee within 45 days of enactment of this act on the implementation of the recommendations included in the July 14, 2010 Council of the Inspectors General on Integrity and Efficiency review of SIGAR and on the proposed uses of funds provided in this act.

Every program for which the Committee recommends funding in the previous table is established pursuant to an act of Congress, or is a program for which funding is authorized by an act of Congress, or was included in the President's budget request for fiscal year 2011.

Youth Exchange.—The Committee supports the goals of the Kennedy-Lugar Youth Exchange and Study Program, which enables secondary school students from countries with significant Muslim populations to live with American families and study in the United States, and American students to live and study in such countries. The Committee recommends \$25,500,000 for this program in fiscal year 2011.

Global Engagement.—The Committee recommends \$13,500,000, of which up to \$1,250,000 may be used for program support, for exchange programs requested under the ESF heading for the GE initiative. The Committee understands that these funds will be used to expand exchanges and English language programs in Muslim-majority countries and Muslim communities worldwide. The Committee does not support the request to reallocate \$15,519,000 from exchange programs in other regions worldwide to support exchanges with Pakistan (\$8,000,000) and other Muslim-majority countries (\$7,519,000). The Committee directs the Department to submit a spend plan by country prior to obligating the funds under this heading.

One-time International Exchange Grant Program.—The Committee recommends \$8,500,000 to provide one-time competitive grants for international exchanges that address issues of mutual interest to the United States and other countries, consistent with the criteria established in fiscal year 2008. This program shall be only for the actual exchange of people and should benefit a population that is not being addressed through existing exchanges. The Secretary of State shall submit a report to the Committee of those organizations that are eligible for a grant and, not later than September 1, 2011, a report describing the grant recipients and intended uses of funds.

The Committee encourages the Department to utilize this program to expand international exchanges in areas that are not predominantly served by other U.S. Government exchange programs, such as exchange with developing countries; community leaders who would not traditionally have an opportunity to participate in an exchange; students and youth with high financial need; and indigenous and other minority ethnic groups. Exchange programs eligible for consideration for a one-time grant in fiscal year 2011 include, but are not limited to, Sister Cities International; University of Iowa; Lower Manhattan Arts Leaders; Middlebury College; University of Montana; Northeast Asia Economic Forum; Tufts University; and Morehouse College. The Committee notes that an exchange program that received a one-time grant in a previous year is ineligible for additional one-time funding, but the Committee encourages the Department to consider new proposals from previously funded grantees within discretionary funding if they meet appropriate guidelines.

REPRESENTATION ALLOWANCES

Appropriations, 2010	\$8,175,000
Budget estimate, 2011	8,175,000
Committee recommendation	8,175,000

The Committee recommends \$8,175,000 for Representation Allowances, which is equal to the budget request, for reimbursement to Foreign Service Officers for expenditures incurred in their official capacities abroad in establishing and maintaining relations with officials of foreign governments and members of local communities. The Committee recommends that not more than \$500,000 of the funds made available under this account and under the Emergencies in the Diplomatic and Consular Service heading may be made available for official representation funds for the Office of the Chief of Protocol.

PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

Appropriations, 2010	\$28,000,000
Budget estimate, 2011	27,200,000
Committee recommendation	31,500,000

The Committee recommends \$31,500,000 for Protection of Foreign Missions and Officials, which is \$4,300,000 above the budget request, to reimburse local governments and communities for the extraordinary costs incurred in providing protection for international organizations, foreign missions and officials, and foreign dignitaries under certain circumstances.

Of this amount, the Committee provides \$4,300,000 for security-related costs associated with the APEC 2011 meetings hosted by the United States. The funds may be used to reimburse State and local police agencies for providing security for visiting foreign officials and their delegations attending APEC meetings.

The Committee intends that in instances where a local jurisdiction will benefit financially from a visit by a foreign delegation, such circumstances should be taken into account by the Department in assessing the need for reimbursement under this program. The Committee expects the Department to provide reimbursement to local jurisdictions on a timely basis if claims are fully justified.

EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

Appropriations, 2010	\$1,815,050,000
Budget estimate, 2011	1,681,500,000
Committee recommendation	1,848,164,000

The Committee recommends \$1,848,164,000 for Embassy Security, Construction, and Maintenance for the management of real property assets overseas in order to provide diplomatic and consular missions with secure, safe, and functional facilities, of which \$914,082,000 is for maintenance and planning for Department of State facilities and \$934,082,000 is for worldwide security upgrades, acquisition, and construction program.

Consular Fees.—The Committee includes \$174,000,000 to support ESCM and worldwide security upgrade program costs proposed to be funded by the expanded retention of consular fees.

American Centers.—The Committee continues to support the renovation and construction of American Centers through a strategy

that balances the need for publicly accessible facilities, reasonable and sustainable costs, and compliance with the Secure Embassy Construction and Counterterrorism Act of 1999 regulations, and encourages continued coordination by the offices of Overseas Building Operations, Diplomatic Security and Public Diplomacy to achieve this strategy. The Committee supports funding construction and renovation costs for American Centers within the OBO budget and will consider a transfer from the \$14,356,000 provided under the D&CP heading for this purpose, and expects the administration to request adequate funds within the OBO budget for such purposes in the fiscal year 2012 request.

Soft Targets.—The Committee recommends \$6,500,000 for security enhancement to soft targets such as overseas schools and residential compounds, which is equal to the budget request.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

(INCLUDING TRANSFER OF FUNDS)

Appropriations, 2010	\$10,000,000
Budget estimate, 2011	11,000,000

The Committee recommends \$11,000,000 for Emergencies in the Diplomatic and Consular Service, which is equal to the budget request, to meet unforeseen emergency requirements as authorized by section 4 of the State Department Basic Authorities Act. The Committee encourages the Department to prioritize expenditures for evacuations and rewards and to minimize the use of this fund for travel and representational expenses.

In addition to the funds appropriated under this heading, the Committee authorizes transfer of up to \$15,000,000 under the D&CP heading for emergency evacuations and rewards, including for information leading to the apprehension of Mexican narcotics traffickers, which is \$5,000,000 above the budget request.

REPATRIATION LOANS PROGRAM ACCOUNT

PAYMENT TO THE AMERICAN INSTITUTE IN TAIWAN

Appropriations, 2010	\$21,174,000
Budget estimate, 2011	21,420,000
Committee recommendation	21,420,000

The Committee recommends \$21,420,000 for the American Institute in Taiwan, which is equal to the budget request, to support United States political and security interests, provide consular services, and promote exchange programs in Taiwan.

PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY

INTERNATIONAL ORGANIZATIONS

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

Budget estimate, 2011	1,595,430,000
Committee recommendation	1,575,430,000

The Committee recommends \$1,575,430,000 for Contributions to International Organizations, which is \$20,000,000 below the budget request due to exchange rate savings, for the assessed costs of U.S. membership in international organizations as authorized by conventions, treaties, or specific acts of Congress. The Committee notes that the United States has participated in many international organizations for decades, many of which serve important U.S. national interests but some may no longer be cost-effective. The Committee directs the Department of State to conduct a rigorous review of all such organizations, and for any which no longer merit U.S. contributions to promptly initiate steps to withdraw.

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

Appropriations, 2010	\$2,125,000,000
Budget estimate, 2011	2,182,300,000
Committee recommendation	2,126,382,000

The Committee recommends \$2,126,382,000 for Contributions for International Peacekeeping Activities. An additional \$55,918,000 is included under the PKO heading for a contribution for assessed peacekeeping activities in Somalia.

The Committee recognizes the indispensable contribution to international peace and stability provided by U.N. peacekeeping activities, without the participation of U.S. troops. The Committee also notes, however, that U.N. peacekeeping missions have often suffered from deficiencies, including inadequate equipment to effectively protect civilians, troops without proper training or with a history of human rights violations, and troops that have sexually abused women and girls while on peacekeeping missions. The United Nations, donor countries, and troop-contributing countries have a shared responsibility to ensure that troops are qualified and properly trained and equipped for the missions for which they are deployed. The Committee requires the Secretary of State to certify that effective procedures exist to vet prospective U.N. peacekeeping troops.

The Committee directs that funds shall be available for peacekeeping activities unless the Secretary of State determines that American manufacturers and suppliers are not being given oppor-

tunities to provide equipment, services, and material for U.N. peacekeeping activities equal to those being given to foreign manufacturers and suppliers.

Cyprus.—The Committee recommends support for U.N. peacekeeping at the assessed level for the current year in Cyprus.

INTERNATIONAL COMMISSIONS

The Committee recommends funding to fully meet U.S. treaty obligations to international commissions in fiscal year 2011 and recognizes that funds are requested under the Department of State as a result of international treaties.

These funds support environmental infrastructure projects along the United States-Mexico border relating to wastewater

treatment, drinking water preservation, solid waste management, and air quality improvement.

Flathead River Basin.—The Committee supports efforts to protect the North Fork of the Flathead River from the effects of oil, gas, and other mining development. The Committee expects the Department of State to work with the Department of the Interior to negotiate with the Government of Canada to establish an agreement that permanently protects the Flathead River Watershed and the adjacent area of Glacier-Waterton National Park as soon as possible. The Committee also supports the International Joint Commission's recommendation that Canada and the United States continue to collect ecological data concerning this area.

Within the amount provided for GLFC, \$3,500,000 is for lamprey control and water quality improvements in the Lake Champlain Basin and \$4,400,000 is for sea lamprey control and fishery research for the Great Lakes Basin.

Appropriations, 2010	\$733,788,000

The Committee recommends \$743,925,000 for International Broadcasting Operations, which is \$11,218,000 below the request, for the operating and engineering costs of VOA, OCB, RFE/RL, RFA, MBN, and the BBG.

Funds are allocated in the following table and subject to the requirements of section 7019 of this act:

Afghanistan and Pakistan.—The Committee recommends up to \$24,815,000 for Pashto and Dari broadcasts targeted toward Afghanistan and northwest Pakistan.

Broadcast Transmission and Distribution.—The Committee does not support closing the Greenville Transmitting Station in North Carolina, or the request for expanded FM (including six additional FMs for Radio Sawa), digital, and new media efforts. While the Committee does support the BBG's efforts to expand into new technologies, the Committee is concerned that closing Greenville may be premature given the continued viability of shortwave in Africa, the use of shortwave for broadcasts to Cuba and Latin America, including surge broadcasts to Haiti, as well as Greenville's capacity to provide contingency and backup capabilities to the BBG network worldwide. The Committee recommends \$650,000 within Engineering and Technical Services to support the upgrade of the Network Control Center.

Internet Programs.—The Committee recognizes the BBG's efforts to expand access to information and communications tools such as collaborative media and social networking to Internet users worldwide, including in closed societies subject to monitoring and censor-

ship, and encourages the BBG to evaluate emerging online broadcasting and communication methods to reach these audiences. The Committee provides \$1,000,000 to support expanded Internet anti-censorship efforts, in addition to funds otherwise made available for such purposes.

North Korea.—The Committee recommends not less than \$8,000,000 for broadcasting into North Korea through RFA Korea Service and VOA Korea Service, which is equal to the fiscal year 2010 level.

Tibet.—The Committee recommends sufficient funding to continue RFA and VOA Tibetan language services.

Cuba.—The Committee notes that the joint statement accompanying Public Law 111–117 directed the BBG to submit to the Committees on Appropriations within 90 days of enactment of that act a multi-year strategic plan for broadcasting to Cuba to include an analysis of options for disseminating news and information to Cuba and a report on the cost effectiveness of each, and an analysis of the program efficiencies and effectiveness that can be achieved through shared resources and cost-saving opportunities between Radio and TV Marti and the Voice of America. The Committee has not received this report and does not support closing the Greenville Station, expanding TV Marti’s transmission on DirecTV, or the request included under the Broadcasting Capital Improvements heading to expand and renovate the TV Marti studio until a strategy is submitted to the Committee, and the Comptroller General has conducted an assessment of the strategic plan.

Middle East Broadcasting Networks.—The Committee provides \$114,614,000 for the Middle East Broadcasting Networks, \$2,848,000 below the request. The Committee is concerned with the steadily increasing costs of MBN operations and the sustainability of this program.

REPORT

Revenue from Privatization and Commercial Efforts.—The Committee understands that the BBG is utilizing the authority in current law to collect receipts from advertising and revenue from business ventures and cooperating international organizations. The Committee directs the BBG to submit a report within 90 days of enactment of this act describing the BBG’s past, current, and planned uses of this authority, the revenue generated and receipts collected by fiscal year, and the uses of such revenue.

BROADCASTING CAPITAL IMPROVEMENTS

Appropriations, 2010	\$12,622,000
Budget estimate, 2011	13,635,000
Committee recommendation	6,875,000

The Committee recommends \$6,875,000 for Broadcasting Capital Improvements, which is \$6,760,000 below the budget request. The Committee recommends \$3,005,000 for the upgrade of the Network Control Center supporting satellite transmission of 85 percent of all BBG broadcasts. The Committee understands that this upgrade will reduce the risk of broadcast outages and will bring NCC conditions to Occupational Safety and Health Administration standards.

The Committee does not support the East-West Center’s proposal to establish satellite offices in the Asia-Pacific region.

NATIONAL ENDOWMENT FOR DEMOCRACY

Appropriations, 2010	\$118,000,000
Budget estimate, 2011	105,000,000
Committee recommendation	125,000,000

The Committee recommends \$125,000,000 for the National Endowment for Democracy, which is \$20,000,000 above the budget request.

The Committee recognizes the experience of NED in promoting democracy and human rights abroad since the Cold War, and believes that NED should play a larger role in such activities. The Committee recommends that additional funding be used to strengthen the capacity of civil society organizations that are peacefully advocating for democracy and human rights. USAID and the Department of State are to coordinate other democracy programs in those countries with NED to avoid duplication of activities. NED should not be precluded from competitively bidding on other grant solicitations.

NED is directed to submit a financial plan not later than 60 days after enactment of this act detailing the proposed distribution of funds in a manner similar to prior years, to consult with the Committee on any proposed deviation from the plan, and to apportion core funds in the traditional and customary fashion among core institutes.

This grant to the Department of State is a pass-through directly to NED, and funds under this heading shall not be subject to prior approval by the Department of State and USAID, or to administrative or management surcharges. Minimal expenses, if any, should be charged to general Department of State operating expenses.

The Committee recognizes the limitation of the Department of State and USAID to conduct effective democracy promotion programs in challenging political environments, and notes the complications in bilateral relations that often arise from such activities. Therefore, the Committee transfers democracy funds made available under the ESF heading to this heading in the following manner: \$2,000,000 for Egypt; \$2,500,000 for Pakistan; \$2,000,000 for Cuba; \$2,500,000 for North Korea; and \$3,500,000 for the DRC. The Department of State and USAID are directed to reduce democracy programs in those countries by an equal amount. The Committee recommends that the fiscal year 2012 budget request in-

clude greater utilization of NED for democracy promotion activities abroad.

The Committee recommends \$250,000 for programs and activities in Tibet.

GLOBAL HEALTH INITIATIVE

The Committee supports the goals of the GHI to coordinate and enhance the U.S. Government's response to global health challenges, particularly in the areas of maternal and child health, nutrition, vulnerable children, family planning and reproductive health, HIV/AIDS, malaria, tuberculosis, global pandemics, and other infectious diseases, including neglected tropical diseases. The Committee is concerned that the inter-agency cooperation and coordination needed to effectively implement this initiative does not yet exist, and directs USAID to work in partnership with other Federal agencies, particularly the Department of Health and Human Services and the Centers for Disease Control and Prevention, as well as with the WHO and other international bodies, to develop effective implementation strategies.

GHI Strategic Reserve Fund.—The Committee recommends not more than \$50,000,000 for USAID and \$50,000,000 for the Department of State for the GHI Fund, which is \$100,000,000 below the request. The Committee supports the scale-up of proven and cost-effective activities, including enhanced monitoring and evaluation, in GHI Plus countries.

Recruitment of Health Workers.—The Committee is concerned with the unethical recruitment of health workers in countries that do not have sustainable public health systems. The Committee encourages USAID and the Department of State to support a code of conduct for the recruitment of health workers from poorer to wealthier countries as part of the GHI, and the WHO Voluntary Code of Conduct for the Recruitment of Health Personnel.

Funds are allocated in the following table and subject to the requirements of section 7019 of this act:

CHILD SURVIVAL AND MATERNAL HEALTH

The Committee recommends \$641,000,000 for child and maternal health activities under the GHCS account. The Committee recognizes the critical role that child survival and maternal health programs play in overall global health, and that most deaths of children before the age of 5 and of women from pregnancy-related causes could be prevented with low-cost interventions by trained health workers.

Polio.—The Committee recommends \$33,100,000 for programs to eradicate polio.

Vaccines and Immunization.—The Committee recommends \$105,000,000 for a contribution to the GAVI Alliance. The GAVI Alliance provides vaccines for children in the poorest countries, including new vaccines against pneumococcal disease and rotavirus.

Vulnerable Children.—The Committee recommends \$15,000,000 for programs and activities that address the needs of vulnerable children, of which not less than \$2,000,000 is for assistance for blind children. USAID should administer the programs in a manner that delivers the maximum amount of funds to the field, and should consider support for cleft lip and cleft palate surgery programs.

Orphans.—Despite significant investments of U.S. funds the number of orphans worldwide continues to rise. The Committee is concerned that this increase is due in part to a lack of focus on family preservation, family reunification, kinship, guardianship, and domestic and international adoption for reducing the number of children living outside of parental care. The Committee directs the Special Advisor for Orphans and Vulnerable Children and the Special Advisor to the Office of Children's Issues to submit a report within 90 days of enactment of this act detailing how the Department of State and USAID plan to increase efforts to assist developing countries in providing family-based care to orphan children, including: (1) a description of the work to date in identifying and replicating best practices in providing family based care; (2) current and planned efforts to develop research-based, family-based care pilot programs; and (3) a description of the work to date to develop data on the number of children living outside of parental care.

FAMILY PLANNING/REPRODUCTIVE HEALTH

The Committee recommends a total of \$700,000,000 from all accounts in this act for family planning and reproductive health programs, including \$595,000,000 under the GHCS heading, \$50,000,000 under the ESF and AEECA headings, and \$55,000,000 for UNFPA.

Assistance for Voluntary Family Planning.—The Committee directs that funds made available for voluntary family planning shall offer a broad range of family planning methods and services.

Clarification.—The Committee does not continue to carry a general provision specifically regarding funding for abortions and involuntary sterilization (section 7018 of Public Law 111–117), as all but the last sentence of that provision was restatement of permanent law (section 104(f) of the FAA). Instead, the Committee includes the last sentence of that provision in section 7034(n) of this act.

HIV/AIDS

The Committee recommends a total of \$5,850,000,000 for programs and activities to combat HIV/AIDS, of which \$5,500,000,000 is for the Department of State and \$350,000,000 is for USAID. This combined total is \$141,000,000 above the fiscal year 2010 level.

Antiretroviral Treatment.—The Committee notes the increasing number of patients who qualify for antiretroviral treatment due to the November 2009 WHO recommended standards for treatment,

and directs the U.S. Global AIDS Coordinator to re-evaluate implementation costs, including overhead, to achieve the most cost-effective and efficient programs. The Committee recognizes the significant treatment gap in many PEPFAR focus countries and recommends that efficiencies achieved from reduced treatment costs be used to provide services to new enrollees seeking access to antiretroviral treatment.

Global Fund.—The Committee recommends not less than \$800,000,000 for a U.S. contribution to the Global Fund to Fight AIDS, Tuberculosis and Malaria, which is \$50,000,000 above the fiscal year 2010 level.

Mother-to-child Transmission.—The Committee continues to support expansion of access to programs that prevent mother-to-child transmission of HIV.

PEPFAR Partnership Frameworks.—The Committee welcomes the emphasis in PEPFAR's 5-year strategy on addressing stigma and discrimination against most-at-risk populations and violations of the rights of women, and directs OGAC to address the needs for legal and policy reform and the enforcement of such policies in Partnership Frameworks, Partnership Framework Implementation Plans, and Country Operational Plans.

The Committee also directs OGAC to ensure civil society is fully engaged in developing these frameworks and plans, including most-at-risk populations and women's organizations. The Committee directs OGAC to consult with the Committee on these efforts.

Reimbursements.—The Committee understands OGAC has agreed to provide USAID reimbursements to cover direct and indirect PEPFAR implementation costs incurred both at headquarters and in the field, and expects OGAC and USAID to consult with the Committee regarding fiscal year 2011 reimbursement levels in a timely manner.

UNAIDS.—The Committee provides \$45,100,000 for a U.S. contribution to UNAIDS.

INFECTIOUS DISEASES

Influenza Pandemic Preparedness and Response.—The Committee recommends \$67,500,000 to prevent the spread of Avian Influenza and the H1N1 virus.

Malaria.—The Committee recommends \$635,500,000 for programs to combat malaria. The Committee directs that these funds be made available in accordance with country strategic plans incorporating best public health practices including insecticide-treated bed nets, artemisinin combination therapies, and indoor residual spraying, and with significant support for purchase of commodities and equipment. USAID is encouraged to increase its investment in public-private partnerships involved in research, development, access, and delivery of anti-malarial medications.

The Committee is aware of the widespread prevalence of malaria in Burma, and the lack of access to quality and affordable diagnosis and treatment due to the failure of the SPDC to meet the basic needs of the Burmese people. Consistent with U.S. policy objectives, the Committee directs USAID to provide not less than \$500,000, in addition to other funds made available for Burma under the GHCS heading, for anti-malaria programs through inter-

national NGOs in Burma with expertise in diagnosis and treatment, and to consult with the Committee on the proposed use of funds.

Neglected Tropical Diseases.—The Committee recommends \$100,000,000 for programs and activities to continue and expand support for the ongoing USAID integrated response program for NTDs, including intestinal parasites, schistosomiasis, lymphatic filariasis, onchocerciasis, trachoma, soil transmitted helminthes, and leprosy. The Committee recognizes the burden NTDs have on mainly poor and rural populations, and continues to support public-private partnerships that promote research and development. The Committee requests to be consulted prior to the obligation of funds, including country-specific allocations.

Other Infectious Diseases.—The Committee recommends not less than \$5,000,000 to support programs in infectious disease surveillance and response and to combat anti-microbial resistance.

Tuberculosis.—The Committee recommends a total of \$230,000,000 for programs to combat TB. The Committee supports the development of a new, safe, effective and affordable vaccine to protect against all strains of TB, including MDR or XDR. USAID should consider supporting clinical trials for TB vaccines in developing countries.

NUTRITION

The Committee recommends \$100,000,000 for nutrition programs, of which not less than \$33,000,000 is provided for micro-nutrients. Funding for nutrition should include not less than \$23,000,000 for Vitamin A.

HIV/AIDS and Nutrition.—The Committee notes that nutrition plays an important part in maintaining the quality of life for people affected by HIV/AIDS and intends that funds under this account be used for programs that address the development and implementation of nutrition support, guidelines, and care services for people living with HIV/AIDS as well as the promotion of optimal infant feeding practices to prevent maternal to child transmission.

Iodine Deficiency Disorder.—The Committee recommends not less than \$2,000,000 for the USAID/UNICEF IDD program. Funds provided through the USAID partnership are preventing the mental retardation of millions of children through programs to iodize salt.

RESEARCH AND DEVELOPMENT

Microbicides.—The Committee is encouraged by recent progress in the development of microbicides to prevent HIV, and recommends \$51,000,000 for research on and development of microbicides to prevent HIV/AIDS. The Committee encourages USAID to increase investment in microbicide research, including “next generation” ARV-based microbicides.

REPORT

Health Research and Development.—The Committee directs USAID to submit a report not later than 45 days after enactment of this act on health-related research and development within the GHI.

PROPOSALS

The Committee is aware of proposals from the following organizations, which shall be considered in full and open competition, and in accordance with all applicable rules and regulations:

Albert Schweitzer Hospital, Beth Israel Deaconess Medical Center.—To support the hospital's work on HIV/AIDS, TB, malaria, and maternal and child health.

PROGRAMS

AGRICULTURE AND FOOD SECURITY

The Committee recommends \$1,300,000,000 for the Global Hunger and Food Security initiative (Feed the Future) from all accounts in this act, which is \$344,023,000 below the budget request. The Committee supports the administration's efforts to significantly increase the U.S. response to agricultural and food security needs in the poorest countries.

The Committee is concerned with the delay in naming a coordinator for global food security to lead the Feed the Future initiative and recommends that the coordinator be located at USAID as the lead agency in implementing the initiative.

Biotechnology Research.—The Committee recommends \$35,000,000 for plant biotechnology research and development to harness global expertise to improve food security and incomes in Africa and Asia.

Collaborative Research Support Programs.—The Committee recommends not less than \$35,000,000 for CRSPs.

Global Crop Diversity Trust.—The Committee recommends \$12,000,000 for a U.S. contribution to the Global Crop Diversity Trust's endowment, which seeks to ensure the viability of agriculture worldwide by conserving and making available collections of crop diversity.

Land Grant Institutions.—The Committee supports the role of land grant institutions in agriculture research to assist developing countries in improving agricultural productivity and strengthening trade links with the United States, and to enhance food sustainability globally.

Nutrition.—The Committee recognizes the importance of nutrition programs as part of the Feed the Future initiative, and notes that not less than \$100,000,000 was provided under the GHCS heading for nutrition activities as part of the Global Health and Feed the Future initiatives.

PVOs and Cooperatives.—The Committee directs the USAID Administrator to make grants and cooperative agreements available for PVOs and cooperatives to carry out food security, agriculture,

and rural development programs that meet the objectives of section 103(a)(1) of the FAA.

The Committee directs USAID to focus more of its agriculture and rural development resources on programs that improve infrastructure, employment opportunities and access to services in poor, rural communities and increase the productivity and incomes of agricultural and livestock producers in those areas.

ECONOMIC DEVELOPMENT PROGRAMS

Cooperative Development Program.—The Committee has long recognized the important role that U.S. cooperatives and credit unions play in overseas programs as a means to lift low income people out of poverty by mobilizing equity and savings for community-based economic growth. The Committee provides \$12,000,000 for USAID's Cooperative Development Program within the Office of Private and Voluntary Cooperation.

Microenterprise and Microfinance Development Programs.—The Committee recommends \$265,000,000 in this act for microfinance and microenterprise development programs for the poor, especially women. The Committee directs USAID to target half of all microfinance and microenterprise funds to the very poor, and increase outreach to women who are currently without financial services.

The Committee is concerned with the decline in microfinance assistance in Africa and directs USAID to increase its support.

The Committee encourages increased coordination between the activities of USAID's Office of Microenterprise Development and other USAID and Department of State programs that include microfinance and microenterprise activities.

EDUCATION

Basic Education.—The Committee recommends \$845,000,000 in this act for basic education programs, including programs aimed at improving early childhood development, primary and secondary education, teacher training and basic skills training for adults and out of school youth.

The Committee recommends up to \$20,000,000 for the Education for All Fast Track Initiative at the World Bank, subject to prior consultation by USAID and the Department of State with the Committee.

The Committee is aware that many children in Haiti do not attend school and that the earthquake destroyed or damaged many schools. The Committee recommends additional funding for school construction and equipment and other assistance for children's education in Haiti.

Higher Education.—The Committee recommends \$245,000,000 in this act for higher education programs, including not less than \$25,000,000 for such programs in Africa of which \$15,000,000 is for partnerships between higher education institutions in Africa and the United States. Higher education partnerships provide training for faculty and staff, and strengthened institutional management such as revised administrative procedures, new degree programs,

expanded curricula, and research opportunities. Partnerships should be funded on an open, competitive basis, and should focus on such fields as agriculture, environment and natural resources, engineering, science and technology, health, education and teacher training, public administration, and business management and economics.

American Schools and Hospitals Abroad Program.—The Committee continues to recognize the contributions to U.S. foreign policy by institutions funded by the ASHA program. The Committee expects USAID to allocate sufficient sums to administer the ASHA program from funds provided for operating expenses, so it will not be necessary to expend program funds for administrative purposes.

The Committee recommends \$23,500,000 for the ASHA program in fiscal year 2011, with the expectation that USAID will allocate funds under similar terms and conditions as in prior fiscal years. The Committee underscores that such assistance is not for permanent budget support to ASHA recipients, and that proposals shall be considered in full and open competition, and in accordance with all applicable rules and regulations.

The Committee recommends that priority be given to institutions which demonstrate a need and commitment to private fundraising to match Government support, and to newer applicants that demonstrate the best of American ideas and practices in the regions they serve. The Committee recommends USAID consider proposals from the following organizations, among others: American University of Beirut; American Community School, Beirut; American University in Kosovo; EARTH University in Costa Rica; Feinberg Graduate School of the Weizmann Institute of Science; Hadassah Medical Organization; Israel Center for Excellence through Education; Johns Hopkins University's Centers in Nanjing, China and Bologna, Italy; Lebanese American University; Robert College; the American University of Armenia; and Uganda Cancer Institute.

CLIMATE CHANGE AND ENVIRONMENT PROGRAMS

The Committee recognizes the challenges posed by global warming and the urgent need to help developing countries reduce carbon emissions; develop clean energy and increase energy efficiency; adapt to rising temperatures, water and food scarcity, and rising sea levels; protect forests and other biodiversity; and implement policies for the transparent and sustainable use of natural resources. The Committee recommends a total of \$1,450,500,000 in this act for climate change and environment programs funded through USAID, the Department of State, and the Department of the Treasury, of which \$286,500,000 is for adaptation programs, \$656,800,000 is for clean energy, and \$507,200,000 is for sustainable landscapes and biodiversity programs.

Funds are allocated in the following table and subject to the requirements of section 7019 of this act:

Adaptation.—The Committee provides funding to support programs and activities to assist developing countries adapt to climate change hazards, including decreases in agricultural productivity, water scarcity, and rising sea levels.

Clean Energy.—The Committee intends that funds for clean energy programs under title III of this act shall be used only to support programs that promote the sustainable use of renewable energy technologies and energy efficiency technologies, carbon sequestration, and carbon accounting. The primary objective of these programs should be to reduce, mitigate, and/or sequester emissions of greenhouse gases.

Sustainable Landscapes and Biodiversity.—The Committee recommends not less than \$150,000,000 for USAID's sustainable landscapes programs to support REDD. The Committee also supports programs to protect tropical forests and other biodiversity, and recommends not less than \$215,200,000 including \$35,000,000 for USAID's conservation programs in the Amazon of which \$20,000,000 is for the Initiative for Conservation in the Andean Amazon and \$15,000,000 is for the Brazilian Amazon. Of this amount, the Committee intends that \$10,000,000 be used to strengthen the capacity of indigenous organizations which play a key role in protecting tropical forests and biodiversity. The Committee provides \$19,000,000 for the CBFP, of which \$9,000,000 is for the USFWS's programs in central Africa including to protect great apes.

The Committee is concerned with the continuing rapid rates of deforestation and degradation, particularly due to industrial-scale logging and the illegal harvesting of timber in tropical forests, and includes language in this act specifying the uses of funds for tropical forest programs. The Committee supports continued funding for USAID's programs to protect the habitat of orangutans in Borneo and Sumatra, and for USAID's program to protect wildlife in the Boma Jonglei area of Southern Sudan. Funds may also be used for a U.S. contribution to the Galapagos Invasive Species Fund.

The Committee is aware that Indonesia is among the world's largest contributors of carbon emissions due to the destruction of peat forests, particularly for palm oil plantations. The Committee directs USAID to consult with the Committee within 45 days after enactment of this act on the use of REDD funding to help reduce deforestation in Indonesia.

The Committee also recommends that funding under this heading be used to protect endangered forests, wildlife, and water ecosystems through other international programs administered by the USFS (forest and wildlife conservation) and the USFWS (multilateral species and migratory bird conservation). The Committee also supports funding for international programs of the NPS (national park management) and NOAA (coral reefs and marine-protected areas).

Oceans.—The Committee is aware that CO₂ emissions from burning fossil fuels and deforestation is changing the acidity of the ocean in ways that pose grave threats to fish and other ocean wildlife. The Committee expects the Departments of State and Treasury to coordinate with NOAA on the uses of funds for climate change programs.

GLOBAL PROGRAMS

Child Marriage.—The Committee recognizes that child marriage undermines investments in programs that seek to improve education, health, and the economic and legal status for girls and women in developing countries. The Committee directs USAID to consider the prevalence of child marriage when developing its country plans, and recommends that the Department of State include information regarding child marriage, as appropriate, in its annual Country Reports on Human Rights Practices.

Human Trafficking.—The Committee urges the Secretary of State and the USAID Administrator to continue efforts to combat human trafficking and slavery, particularly through social, educational, and economic development programs. The Committee recommends \$12,000,000 for these activities under the ESF heading. An additional \$20,400,000 is provided under the INCLE heading, and \$6,500,000 under the DA heading.

The Committee is aware that Haiti's most common manifestation of modern slavery is child domestic servitude, known as *restaveks*, of which there were an estimated 225,000 before the earthquake. The Committee recommends that USAID, the Department of State, and the Department of Labor, work with the Government of Haiti to develop a strategy to address the plight of current and former *restaveks*, including the development of modern anti-trafficking laws and enforcement capability, and programs to achieve the elimination of the worst forms of child labor.

Natural Resource Transparency.—The Committee is concerned with corrupt practices in the allocation of natural resource extraction licenses and contracts and in the uses of revenues from such extraction, particularly in Angola, Cambodia, Liberia, Nigeria, Sierra Leone, and Zimbabwe. Funds should be used to strengthen the capacity of civil society organizations and to improve public oversight. The Committee directs USAID to include benchmarks for effective natural resource management, transparency, and accountability in resource-rich countries receiving USAID assistance. These benchmarks should be publicly available on the USAID Web site for each country.

Patrick Leahy War Victims Fund.—The Committee provides \$14,000,000 for the LWVF, administered by USAID, which assists persons who are severely disabled as a result of armed conflict.

Trade Capacity Building.—The Committee recommends not less than \$10,000,000 under the DA heading and not less than \$10,000,000 under the ESF heading for labor and environmental capacity building activities relating to the free trade agreements with countries of Central America, Peru, and the Dominican Republic.

University Programs.—The Committee recommends the Department of State and USAID consider proposals from the following institutions, among others, through a transparent and competitive process: University of Iowa; University of South Carolina; Temple University School of Law; Texas A&M University, College Station; and University of Montana.

Victims of Torture.—The Committee recommends \$13,000,000 for programs and activities that address the needs of victims of torture

and victims of trauma resulting from violent conflict. The Committee recommends support for centers for victims of torture that provide services consistent with the goals of Public Law 106–87. An additional \$7,100,000 is recommended for the U.N. Voluntary Fund for Victims of Torture under the IO&P account.

Water.—The Committee recommends not less than \$315,000,000 in this act for water sanitation and supply projects pursuant to Public Law 109–121. The Committee again directs relevant USAID offices and bureaus involved in water-related programs to coordinate on a regular basis.

The Committee recommends that USAID expand its programs to improve access to clean drinking water through household water treatment and hygiene programs in an effort to reduce the high percentage of child morbidity and mortality due to waterborne illnesses. The Committee also recommends funding for clean water technology programs that offer safe, affordable drinking water to vulnerable populations around the world.

Women's Programs.—The Committee supports programs which directly enhance economic opportunities for very poor, poor and low-income women in developing countries, including to increase women-owned business development; property rights for women; women's access to financial services; women's ability to benefit from global trade; and improve women's employment benefits and conditions. Funds should also be used to provide technical assistance and capacity building for women's organizations.

COUNTRIES

Angola.—The Committee recommends that funds be made available to support civil society organizations and independent media in Angola.

Cambodia.—The Committee directs that assistance for the Government of Cambodia prioritize institutional capacity-building to promote good governance, transparency, and accountability in the management of natural resources. USAID should support an independent review of existing natural resource concessions in Cambodia, and technical assistance to help establish effective procedures to ensure transparency in the allocation and ownership of future concessions.

Ecuador.—The Committee is concerned with the extensive oil contamination of land and water in northeastern Ecuador which poses grave health risks for the local population. The Committee directs that not less than \$500,000 be made available for rainwater collection or other access to potable water for local residents, and to assist the Ministry of Health in providing local diagnosis and treatment for chronic illnesses resulting from such contamination. Funds should also be made available to assist the Government of Ecuador in identifying best practices for the remediation of oil-contaminated land and water and environmentally safe petroleum production.

El Salvador.—The Committee is aware of the courageous efforts of the Salvadoran National Police Inspector General's Office to combat corruption, and recommends not less than \$200,000 to improve the capacity of that office.

Guatemala.—The Committee provides \$1,500,000 for conservation and related programs, including governance and law enforcement, of the Department of the Interior for continued support of a biodiversity and archaeological conservation strategy for Guatemala's Maya Biosphere Reserve. The Committee intends these activities to be carried out in coordination with USAID and other U.S. Embassy activities and with natural resource conservation and border control efforts in Mexico and Belize.

Indonesia.—The Committee recommends \$142,886,000 for assistance for Indonesia, which is equal to the budget request, of which not less than \$250,000 should be made available for grants for capacity building of Indonesian human rights organizations, including in Papua, and not less than \$500,000 should be made available for USFS REDD-related programs.

Nepal.—The Committee notes the increasing environmental degradation of the Himalayan watersheds and recommends \$200,000 to support Nepalese environmental organizations working on these issues.

PRC.—The Committee recommends \$25,000,000 for development cooperation, environment, governance, rule of law, and disaster preparedness programs in the PRC, and continues restrictions relating to the export of satellites and prohibitions on assistance to the People's Liberation Army.

Senegal.—The Committee is aware that former Chadian President Hissene Habre is awaiting trial in Senegal for crimes against humanity and torture. The Committee recommends a U.S. contribution of \$2,000,000 for the tribunal, if a reasonable budget is agreed to and the Government of Senegal demonstrates a commitment to move forward with the investigation and prosecution.

South Africa.—The Committee recommends not less than \$5,000,000 for teacher training programs in South Africa.

Thailand.—The Committee recommends \$6,151,000 for assistance for Thailand, which is equal to the budget request.

Uganda.—The Committee remains concerned with the prospects for free and fair elections in Uganda in 2011. The Committee directs the Secretary of State to include in the election monitoring reports required by the joint statement accompanying division F of Public Law 111-117, an evaluation of the preparations for and conduct and results of the elections, including a determination of whether the elections were free and fair. Such a determination should consider the findings of international election monitoring observation missions, such as those conducted by the National Democratic Institute and the International Republican Institute, the European Union, and credible nonpartisan Ugandan election observation organizations.

The Committee is concerned that despite reconstruction and development efforts in northern Uganda, there has been little progress in addressing political grievances and promoting reconciliation. The Committee recommends that of the funds provided under this heading, up to \$10,000,000 should be used to support efforts by the people of northern Uganda and the Government of Uganda to advance efforts to promote transitional justice and reconciliation on national and local levels.

Zimbabwe.—The Committee remains concerned with the political and economic situation in Zimbabwe that hampers growth, education, democracy, and development. The Committee notes that school closings and teacher layoffs have resulted in an increase in out-of-school children, and recommends \$5,000,000 for basic education programs in Zimbabwe, including through the Ministry of Education.

REPORTS

Central America.—The Committee remains concerned with the lack of due process and a transparent judiciary in Nicaragua and Honduras. The Secretary of State is directed to continue to consult with the Committee on the Department of State's efforts to effectuate due process with respect to claims against American companies in these countries.

Gender-based Violence.—The Committee directs the Secretary of State and the USAID Administrator to submit a report to the Committee within 90 days of enactment of this act, detailing funds provided in the previous 12 months under the IDA, MRA, INCLE, and PKO headings for programs and activities related to the prevention of and response to gender-based violence.

COUNTRY ISSUES

Burma.—The Committee notes with concern continued reports of Burma's efforts to establish a nuclear program and cooperate with North Korea. The Committee condemns ongoing human rights violations committed by the SPDC against the people of Burma, including ethnic groups, democracy leader Aung San Suu Kyi, and all prisoners of conscience. The Committee regrets that conditions for credible and competitive elections do not exist in Burma today.

The Committee expects that funds appropriated for assistance for Burma shall be made available for humanitarian, income generation, agriculture, and other programs to improve the lives of the Burmese people, and should be consistent with the principles and goals of the National League for Democracy in Burma including the promotion of human rights and freedom and improving the welfare of the people of Burma.

The Committee recommends that funds provided for Burma for programs along the Thai-Burma border include the continuation of journalism and other media activities.

Cambodia.—The Committee remains concerned with corruption and human rights violations in Cambodia, and continues to recognize the vital role civil society and the democratic opposition play in furthering that country's democratic development. The Committee continues the certification requirement for a United States contribution to the Khmer Rouge tribunal on credible steps being

taken by the United Nations and Government of Cambodia to address corruption and mismanagement issues.

The Committee remains concerned with the professionalism of the Royal Cambodian Armed Forces, and expects the administration to conduct effective vetting prior to initiating any programs. Patronage by Cambodian businesses of RCAF units serves to further undermine the legitimacy of Cambodia's leadership, particularly within the RCAF itself.

Cyprus.—The Committee recognizes the many challenges in resolving the crisis in Cyprus, and continues support for scholarships, bicomunal projects, and measures aimed at reunification, reducing tension and promoting peace and cooperation. The Committee is aware of concerns that some projects on Cyprus may have been funded without advance consultation with the Government of Cyprus and recommends that such consultation occur whenever practicable in the interest of transparency in the allocation of funds. The Committee recommends \$11,000,000 for assistance for Cyprus, and intends to review the effectiveness of programs, absent meaningful progress in negotiations between the parties. The Committee intends that implementing organizations and the specific nature of such assistance shall not be subject to the prior approval of any foreign government.

Democratic Republic of the Congo.—The Committee recommends \$10,000,000 to help demilitarize the mining sector in eastern DRC and to build local capacity for oversight and regulation. Assistance should focus on removing military units to barracks away from mining areas; strengthening the system of military tribunals; transparency in the disbursement of salaries to soldiers; and the introduction of military mobile units to investigate alleged violations of human rights. Funds should also be used to support joint inspections of mineral consignments by police and customs in coordination with the United Nations; increased capacity of customs authorities to control the export of minerals (including columbite-tantalite, cassiterite, wolframite, and gold); and increased capacity of the mining police to provide security and enforce the law in mining areas, along transportation routes and at trading sites. The Committee also urges the Department of State to support efforts by the Government of the DRC to prosecute those involved in financing warring parties in eastern DRC through the mineral trade, and to work with other relevant U.S. agencies to ensure that American businesses are informed of the connection between the mineral trade in the DRC and armed conflict, including sexual and gender-based violence.

Egypt.—The Committee provides \$100,000 under USAID's Middle East Regional Program for USFS activities in Egypt.

Haiti.—The Committee recommends \$139,000,000 under this heading for assistance for Haiti. The Committee notes that pledges of many billions of dollars in assistance for Haiti were made by the United States and other donor countries after the January 2010 earthquake, and many lives were saved in the emergency relief response including by many American volunteers. However, the situation remains dire, hundreds of thousands of people languish in makeshift camps where violence, particularly attacks against women and girls, is increasingly common. Immense amounts of

rubble continues to choke streets and prevent rebuilding, yet far too little is being done to remove it. Progress in moving displaced people to more secure housing has also been slow, and the Government of Haiti has been indecisive. The Committee is aware that a culture of dependency, coupled with a long history of corruption and neglect on the part of successive Haitian governments, as well as poorly designed and implemented donor assistance programs, have contributed to Haiti's plight. The Committee hopes that greater progress can be made in the coming months so Haiti can overcome this catastrophe and its people can have hope for a better future. The Committee discussed its views on the post-earthquake situation in greater detail in Senate report 111-188.

The Committee recommends up to \$2,000,000 for technical assistance to improve the production and distribution of electricity in Haiti, and to strengthen the institutional capacity to manage the electricity sector. The Committee encourages the Department of State to collaborate with the U.S. Department of Energy's Office of Electricity Delivery and Energy Reliability on energy-related work in Haiti.

The Committee directs that the surge in attacks against women and girls in IDP camps be addressed as an urgent priority. The Committee further directs that gender issues, and the participation of women, be incorporated into the design, implementation, and oversight of all assistance programs in Haiti.

The Committee further directs the Department of State and the Department of Justice to consult with the Committee prior to the transfer of funds to the Department of Justice for programs in Mexico.

The Committee directs that assistance for Mexico may be used for the procurement of law enforcement communications equipment if, where appropriate, such equipment utilizes encryption technology, open standards, and is compatible with and capable of operating with radio communications systems and related equipment utilized by relevant law enforcement agencies in the United States, to enhance border security and cooperation in law enforcement efforts between Mexico and the United States. COUNTRY ISSUES

Azerbaijan.—The Committee recognizes and appreciates the Government of Azerbaijan's cooperation on security matters of interest to the United States.

Bahrain.—The Committee recommends \$19,500,000 for assistance for Bahrain, which is equal to the budget request. The Committee is concerned with reports that units of the Bahraini Ministry of Interior's Criminal Investigations Directorate and the Bahrain National Security Agency regularly torture criminal suspects. The bill includes a provision restricting assistance to units of any foreign security force that uses torture, subject to a Secretary of State certification.

Guatemala.—The Committee recognizes the challenges facing Guatemala from narcotics trafficking, organized crime, and clandestine groups that target social and political activists. The Committee does not restrict assistance for the Guatemalan Navy and Air Force, and permits assistance for the Army Corps of Engineers for limited purposes. With the exception of the Army Corps of Engineers, no assistance is provided to the Army under the IMET or FMF headings. The Committee will consider such assistance when the Army, the Ministry of Defense, and related security agencies are supporting and cooperating fully with civilian judicial investigations, prosecutions, and other proceedings involving current and retired military personnel who have been credibly alleged to have violated human rights; protecting and publicly disclosing all military archives pertaining to the internal armed conflict, including fully disclosing plan Firmeza 83, Plan Sofia 82 and Operation Ixil; and cooperating with the CICIG by granting access to CICIG personnel, providing evidence to CICIG, and allowing witness testimony.

Military reform, particularly accountability for past abuses, has lagged behind. The Committee recommends \$22,000,000 for assistance for Indonesia, which is \$2,000,000 above the fiscal year 2010 level and equal to the budget request. Of this amount, \$2,000,000 may not be obligated until the Secretary of State reports in writing to the Committees on Appropriations pursuant to section 7040(d) of this act on—

- Steps taken by the Government of Indonesia in the previous 12 months to revise the Code of Military Justice, Uniform Criminal Code and other relevant statutes, to deny promotion, suspend from active service, and/or prosecute military officers credibly alleged to have violated human rights, and to refine further the military's mission and develop an appropriate national defense budget to carry out that mission;
- Efforts by the military in the previous 12 months to cooperate with civilian judicial authorities to resolve cases of violations of internationally recognized human rights;
- Efforts by the military in the previous 12 months to implement reforms that increase the transparency and accountability of the military's operations and financial management and con-

Philippines.—The Committee welcomes the expressed support by the new Government of the Philippines for accountability for extra-judicial executions and other human rights crimes by the military, and the appointment of a new Secretary of Justice is a positive sign. However, it remains to be seen whether this will translate into prosecutions of those responsible or the dismantling of the paramilitary forces that have been linked to abuses.

The Committee recommends \$33,000,000 for assistance for the Philippines, which is \$1,000,000 above the fiscal year 2010 level and \$18,000,000 above the budget request. Of this amount, \$3,000,000 may not be obligated until the Secretary of State reports in writing to the Committees on Appropriations pursuant to section 7040(g) of this act that—

—The Government of the Philippines is continuing to take effective steps to implement the recommendations of the United Nations Special Rapporteur on Extra-judicial, Summary or Arbitrary Executions, to include prosecutions and convictions for extra-judicial executions, sustaining the decline in the number of extra-judicial executions, and strengthening government institutions working to eliminate extra-judicial executions;

—The Government of the Philippines is implementing a policy of promoting military personnel who demonstrate professionalism and respect for internationally recognized human rights, and is investigating, prosecuting, and punishing military personnel and others who have been credibly alleged to have violated such rights; and

—The Philippine military does not have a policy of, and are not engaging in, acts of violence or intimidation against members of legal organizations who advocate for human rights.

Tunisia.—The Committee recommends \$15,000,000 for assistance for Tunisia, which is \$10,100,000 above the budget request. Of this amount, \$1,000,000 is subject to a Secretary of State certification. The Committee urges the Government of Tunisia to permit independent media, human rights organizations, and other civil society organizations to operate without interference, and its citizens to freely access the Internet.

Ukraine.—The Committee recommends \$11,000,000 for assistance for Ukraine, which is \$4,000,000 below the budget request, and encourages that country's renewed engagement and support for NATO priorities.

Morocco.—The Committee directs the Secretary of State to submit a report not later than 45 days after enactment of this act, detailing steps taken by the Government of Morocco in the previous 12 months on human rights, including deportation of U.S. citizens in Morocco without due process of law, and whether it is allowing all persons to advocate freely their views regarding the status and future of the Western Sahara through the exercise of their rights to peaceful expression and association, and to document violations of human rights in the territory without harassment.

Sri Lanka.—The Committee directs the Secretary of State to submit a report not later than 90 days after enactment of this act on crimes against humanity in Sri Lanka, with a focus on the final months of the conflict, updating the Secretary's previous report on this matter and including an assessment of the extent to which the Government of Sri Lanka, the United Nations, or any other international body has conducted a thorough, credible, and transparent investigation of such crimes, and whether the individuals responsible have been appropriately punished. The report shall also discuss the situation of persons who remain in detention for reasons related to the conflict, and whether they have been provided access to a credible judicial process.

The Committee supports a long-term partnership with Pakistan to address issues of international terrorism, poverty and development. The Committee is concerned with reports that Pakistani security forces have denied access to humanitarian organizations to IDPs and other vulnerable populations and detainees, and have engaged in a pattern of gross violations of human rights. The Committee intends section 620J of the FAA to be applied in Pakistan to ensure that U.S. assistance is not misused and that individuals responsible for abuses are appropriately punished.

The Committee recommends \$3,500,000 for the Inspector General, \$90,100,000 for subsidy appropriation, and \$100,000,000 for administrative expenses for the Export-Import Bank. The Committee recommendation includes \$7,900,000 to support the Export-Import Bank's effort to expand U.S. small business usage of the Bank's financial export assistance.

The Committee is concerned that, according to the GAO, the Export-Import Bank has fallen far short of the congressional directive to allocate 10 percent of its annual financing to renewable energy or energy efficiency technologies, and that financing for fossil fuel projects continues to far exceed that for clean energy. The Committee directs the Bank to submit a report to the Committee not later than 45 days after enactment of this act, detailing plans to address the GAO's findings.

DISCLOSURE OF CONGRESSIONALLY DIRECTED SPENDING ITEMS

The Constitution vests in the Congress the power of the purse. The Committee believes strongly that Congress should make the decisions on how to allocate the people's money.

As defined in Rule XLIV of the Standing Rules of the Senate, the term "congressionally directed spending item" means a provision or report language included primarily at the request of a Senator, providing, authorizing, or recommending a specific amount of discretionary budget authority, credit authority, or other spending authority for a contract, loan, loan guarantee, grant, loan authority, or other expenditure with or to an entity, or targeted to a specific State, locality or congressional district, other than through a statutory or administrative, formula-driven, or competitive award process.

For each item, a Member is required to provide a certification that neither the Member nor the Senator's immediate family has a pecuniary interest in such congressionally directed spending item. Such certifications are available to the public on the website of the Senate Committee on Appropriations (www.appropriations.senate.gov/senators.cfm).

Neither the Committee recommendation nor this report contains any congressionally directed spending items, limited tax benefits, nor limited tariff benefits as defined in rule XLIV.
