PURPOSES

The purposes of S. 1017 are to modify the boundaries of the Cane River National Heritage Area in Louisiana, to expand the membership of the Cane River National Heritage Area Commission, and to extend the authorization for the commission through 2015.

BACKGROUND AND NEED

The Cane River Creole National Historical Park and the surrounding Cane River National Heritage Area are located near Natchitoches, Louisiana. Both were established in 1994. The heritage area was established to complement the designation of the historical park and to assist in the preservation and enhancement of the region’s unique cultural landscape without the need for federal management.

The central corridor of the heritage area begins just south of Natchitoches, the oldest permanent settlement in the Louisiana Purchase, and extends along both sides of Cane River Lake for approximately 35 miles. The heritage area includes Cane River Creole National Historical Park, seven National Historic Landmarks, three State Historic Sites, and a dense area of historic plantations, homes, and churches. While much of the roughly 116,000 acres are privately owned, many sites are open to the public. The region includes historic resources related to the many cultures that have settled in the area, including American Indians, Spanish and French colonial settlements, military and westward expansion sites, and plantation agriculture communities.
The Cane River National Heritage Area is administered by a 19-member commission consisting primarily of local residents appointed by the Secretary of the Interior. The commission includes members representing private landowners; city, parish, and state government; and tourism, economic, cultural and historic preservation, recreational, and economic interests.

Under the terms of the 1994 authorizing legislation, the commission will terminate ten years after the date of its first meeting. The law also authorized a five-year extension of the commission, if approved by the Secretary of the Interior, after consultation with the Governor of Louisiana. The extension was approved in 2005, so the Commission’s authority will expire later this year, if not reauthorized.

S. 1017 would extend the commission’s authority until September 2015 to allow it to complete its work in implementing the management plan for the Cane River National Heritage Area.

LEGISLATIVE HISTORY

S. 1017 was introduced by Senator Landrieu on May 11, 2009. The Subcommittee on National Parks held a hearing on the bill on March 17, 2010. The Committee on Energy and Natural Resources considered the bill and adopted amendments at its business meeting on June 16, 2010. The Committee ordered S. 1017 favorably reported, as amended, at its business meeting on June 21, 2010.

COMMITTEE RECOMMENDATION

The Committee on Energy and Natural Resources, in open business session on June 21, 2010, by a voice vote of a quorum present, recommends that the Senate pass S. 1017, if amended as described herein.

COMMITTEE AMENDMENTS

During its consideration of S. 1017, the Committee adopted several amendments. The first five amendments make technical changes. The sixth amendment extends the Commission’s termination date from August 5, 2025 to September 30, 2015. The seventh amendment adds a new subsection requiring the Secretary of the Interior to conduct an evaluation of the accomplishments of the heritage area and to submit a report describing the results of the evaluation. Similar provisions have been included in legislation extending the funding authorization for other national heritage areas.

SECTION-BY-SECTION ANALYSIS

Section 1 provides the short title, the “Cane River National Heritage Area Reauthorization Act of 2010.”

Section 2(a) amends the purposes section (section 401 of Public Law 103–449) of the Cane River Creole National Historical Park and National Heritage Area Act, by making several technical corrections, updating a map reference, and changing what sites and properties are specifically included in the heritage area.

Subsection (b) makes several technical and conforming corrections to section 402 of the Act (16 U.S.C. 410ccc–22), which addresses the membership of the Cane River National Heritage Area.
Commission. The membership of the Commission is expanded from 19 to 23, to include members who represent recreational and environmental organizations, African-American culture, Cane River Creole culture, and tourism.

Subsection (c) amends section 403 of the Act (16 U.S.C. 410ccc–23) to require the Secretary of the Interior (Secretary) to review amendments to the management plan that substantially alter the purposes of the heritage area, and to prohibit the local coordinating entity from using Federal funds made available pursuant to the Act to implement the amendments until the Secretary approves them.

Subsection (d) amends section 404 of the Act (16 U.S.C. 410ccc–24) to extend the heritage area commission until September 30, 2015, and requires the Secretary to conduct an evaluation of the accomplishments of the heritage area not later than three years before the date Federal funding authority terminates. The evaluation will assess the progress of the management entity with respect to accomplishing the purposes of the heritage area and whether the management entity achieved the goals and objectives of the approved management plan for the heritage area. The evaluation is also required to analyze governmental investments in the heritage area to determine the leverage and impact of the investments.

Paragraph (2) requires the Secretary to prepare a report based on the evaluation that includes recommendations for the future role of the National Park Service, if any, for the heritage area. The report is to be submitted to the House and Senate authorizing committees.

COST AND BUDGETARY CONSIDERATIONS

The following estimate of costs of this measure has been provided by the Congressional Budget Office:

S. 1017—Cane River National Heritage Area Reauthorization Act of 2010

S. 1017 would expand the boundaries of the Cane River National Heritage Area and extend the life of the Cane River National Heritage Area Commission through fiscal year 2015. Under current law, authority for the commission will expire on August 5, 2010. Because appropriations for the national heritage area do not depend on the existence of the commission and are authorized without expiration, CBO estimates that implementing the bill would have no effect on the federal budget. The heritage area currently receives appropriations of less than $1 million annually. Expanding the size of the area, which is not a unit of the National Park System but rather an affiliated area, would not affect the annual cost of operations.

Enacting S. 1017 would not affect revenues or direct spending; therefore, pay-as-you-go procedures would not apply.

The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Deborah Reis. The estimate was approved by Theresa Gullo, Deputy Assistant Director for Budget Analysis.
REGULATORY IMPACT EVALUATION

In compliance with paragraph 11(b) of rule XXVI of the Standing Rules of the Senate, the Committee makes the following evaluation of the regulatory impact which would be incurred in carrying out S. 1017.

The bill is not a regulatory measure in the sense of imposing Government-established standards or significant economic responsibilities on private individuals and businesses.

No personal information would be collected in administering the program. Therefore, there would be no impact on personal privacy.

Little, if any, additional paperwork would result from the enactment of S. 1017, as ordered reported.

CONGRESSIONALLY DIRECTED SPENDING

S. 1017, as ordered reported, does not contain any congressionally directed spending items, limited tax benefits, or limited tariff benefits as defined in rule XLIV of the Standing Rules of the Senate.

EXECUTIVE COMMUNICATIONS

The testimony provided by the National Park Service at the March 17, 2010 Subcommittee hearing on S. 1017 follows:

STATEMENT OF DANIEL N. WENK, DEPUTY DIRECTOR, NATIONAL PARK SERVICE, DEPARTMENT OF THE INTERIOR

Mr. Chairman and members of the subcommittee, thank you for the opportunity to present the views of the Department of the Interior on S. 1017, a bill to reauthorize the Cane River National Heritage Area Commission and expand the boundaries of Cane River National Heritage Area in the State of Louisiana.

The Department recommends that the committee defer action on S. 1017 until program legislation is enacted that establishes guidelines and a process for the designation and administration of national heritage areas. The Administration anticipates submitting such a legislative proposal to you in the near future and we recommend that Congress enact national heritage area program legislation this Congress. The Administration’s FY 2011 Budget proposes to reduce funding for national heritage areas to focus resources on those park activities that most closely align with its core mission and encourage areas to become self-sufficient, consistent with a FY 2010 Congressional directive.

Cane River National Heritage Area in northwestern Louisiana was established in 1994 as a complementary designation to the Cane River Creole National Historical Park, which was established at the same time. The national heritage area was intended to assist in preservation, ensure cultural sensitivity, and minimize the need for federal land acquisition. The heritage area is known for its historic plantations, Creole architecture, and complex multi-cultural legacy. The area is home to a unique blend
of French, Spanish, African, American Indian, Creole, and other cultures. It is an extraordinarily significant area because the cultures that shaped the Cane River region in the 1700s remain there today, which is rare in the United States.

S. 1017 would reauthorize the Cane River National Heritage Area Commission through 2025. Under current law, the commission, which serves as the local coordinating entity for the Cane River National Heritage Area, is scheduled to terminate on August 5, 2010. The commission operates in accordance with the heritage area management plan that was completed in 2003 and approved by both the Governor of Louisiana and the Secretary of the Interior. It is currently overseeing numerous projects and programs including a successful signage and wayfinding program, preservation of National Historic Landmarks and national register properties, development of a military heritage assessment and tour focusing on Civil War sites in preparation for the Civil War sesquicentennial, and teacher workshops on Creole history and culture.

Under S. 1017, the composition of the Cane River National Heritage Area Commission would be modified to reflect current conditions. The heritage area’s 1994 enabling legislation identified specific entities for representation on the commission. In some cases, those entities have evolved into other organizations. In addition, in order to allow commission representation of the entire range of cultural and landowner interests, as intended in the original legislation, the number of members would be increased from 19 to 23.

S. 1017 would also expand the boundaries of the Cane River National Heritage Area to include all of Natchitoches Parish west of the Red River. This change would add significant cultural and natural resources, including Spanish Colonial, Native American, U.S. military and westward expansion sites. Among the resources that would be included are original trail ruts of El Camino Real de los Tejas, the Spanish Colonial trade route stretching from Natchitoches to Mexico City that is now a designated national historic trail.

If the committee decides to take further action on S. 1017, there are two issues we would like to call to your attention. One is the length of the existence of the commission. The 1994 authorizing legislation for the heritage area envisioned the transition of management from a Secretary-appointed commission to another entity within 10–15 years. S. 1017 would allow that transition to be postponed for as long as 15 years, until 2025. Consistent with the idea that national heritage areas should be locally driven, nearly all other national heritage areas that were first established with a federal commission as the managing or coordinating entity have transitioned to a non-federal coordinating entity, usually a non-profit organization. That process is underway at Cane River where a non-
profit organization that could serve as the local coordinating entity is currently being developed.

The other issue is the authorization of appropriations. The 1994 enabling legislation authorized unlimited appropriations with no sunset date and no matching fund requirement, for the Cane River National Heritage Area. Congress has held most other national heritage areas to authorized funding of $10 million over 15 years in the initial heritage area designation, and required matching funds from other sources.

Mr. Chairman, this concludes my prepared remarks. I would be pleased to answer any questions you or any members of the subcommittee may have.

CHANGES IN EXISTING LAW

In compliance with paragraph 12 of rule XXVI of the Standing Rules of the Senate, changes in existing law made by the bill S. 1017, as ordered reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman):
