HIGHLIGHTS OF THE BILL

The Financial Services and General Government Subcommittee has jurisdiction over a diverse group of agencies responsible for regulating the financial and telecommunications industries; collecting taxes and providing taxpayer assistance; supporting the operations of the White House, the Federal Judiciary, and the District of Columbia; managing Federal buildings; and overseeing the Federal workforce. The activities of these agencies impact nearly every American and are integral to the operations of our government.

However, with the Federal debt exceeding \$14 trillion, the Subcommittee is committed to reducing the cost and size of government. The bill provides a total of \$19,895,000,000 in discretionary budget authority which is nine percent less than fiscal year 2011 and 18 percent less than fiscal year 2010. The discretionary budget authority provided is \$5,788,140,000 or 22.5 percent less than the President's request.

The funding priorities in the bill include the Small Business Administration's (SBA) business and disaster loan programs, drug task forces, public safety and education in the District of Columbia, and Treasury's antiterrorism and financial intelligence activities.

In order to assist small business, the bill provides an increase of \$127,795,000 for SBA's business loan program over fiscal year 2011. In addition, the bill requires the Office of Management and Budget and certain regulatory agencies to report to the Committee on their efforts to eliminate duplicative, outdated and burdensome regulations.

For the Office of National Drug Control Policy, the bill provides \$238,522,000 for High Intensity Drug Trafficking Areas which is \$38,522,000 more than the request. In addition, the bill provides \$88,600,000 for the Drug-Free Communities program.

For the District of Columbia, the bill fully funds the request for emergency planning and security. In addition, the bill provides increases above fiscal year 2011 for the operations of the DC Superior Court and the Court Services and Offender Supervision Agency. The bill continues the Committee's commitment to education in the City by providing \$60,000,000 for school improvement, as authorized by the Scholarships for Opportunity and Results Act, and \$30,000,000 for resident tuition support.

For Treasury's Office of Terrorism and Financial Intelligence, the bill provides \$100,000,000 to combat drug lords, terrorists, weapons of mass destruction proliferators, rogue nations and other threats. This amount is \$7,400,000 above the request, and recognizing the importance of these activities, funding for this office is provided in a separate appropriation from other Treasury offices.

In order to pay for these priorities while still significantly reducing overall spending, the Committee has reduced the operating expenses for all non-security related Department of Treasury offices and bureaus, the Executive Office of the President, the Federal courts, and nearly every independent agency funded by this bill. In addition, the Committee has eliminated funding for new construction and major renovations of Federal buildings. The Committee believes before new space is added to the Federal inventory, the Executive Branch should make better use of its existing space.

In addition to reducing the operating costs of nearly every agency in the bill, the Committee has prohibited funding for specific activities that the Committee believes inhibit economic recovery and fiscal sustainability. These funding limitations prohibit funds for im-

plementation of the individual mandate from the healthcare reform act, operating an unverified consumer complaint database, imposing burdensome regulations on the Internet, executing the outdated Presidential Election Campaign Fund, hiring certain unconfirmed Czars, and reinstating the Fairness Doctrine.

The bill also provides for increased transparency and Congressional oversight of recently created agencies such as the Office of Financial Stability, the Office of Financial Research, and the Consumer Financial Protection Bureau. These reforms will allow Congress and the American people to better understand the activities of these organizations which currently have significant authority to spend taxpayer funds without oversight.

OPERATING PLAN AND REPROGRAMMING PROCEDURES

The Committee will continue to evaluate reprogrammings proposed by agencies. Although reprogrammings may not change either the total amount available in an account or any of the purposes for which the appropriation is legally available, they represent a significant departure from budget plans presented to the Committee in an agency's budget justification and supporting documents, which are the basis of this appropriations Act. The Committee expects agencies' reprogramming requests to explain thoroughly the reasons for the reprogramming and to include an assessment of whether the reprogramming will affect budget requirements for the subsequent fiscal year.

Section 608 of this Act requires agencies or entities funded by the Act to notify the Committee and obtain prior approval from the Committee for any reprogramming of funds that: (1) creates a new program; (2) eliminates a program, project, or activity; (3) increases funds or personnel for any program, project, or activity for which funds have been denied or restricted by the Congress; (4) proposes to use funds directed for a specific activity by either the House or Senate Committees on Appropriations for a different purpose; (5) augments existing programs, projects, or activities in excess of \$5,000,000 or 10 percent, whichever is less; (6) reduces existing programs, projects, or activities by \$5,000,000 or 10 percent, whichever is less; or (7) creates or reorganizes offices, programs, or activities.

Additionally, the Committee expects to be promptly notified of all reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of significantly changing an agency's funding requirements in future years, or if programs or projects specifically cited in the Committee's reports are affected by the reprogramming. Reprogrammings meeting these criteria must be approved by the Committee regardless of the amount proposed to be moved.

Section 608 also requires agencies to consult with the Committees on Appropriations prior to any significant reorganization or restructuring of offices, programs, or activities. This provision applies regardless of whether the reorganization or restructuring involves a reprogramming of funds. Agencies are encouraged to consult with the Committees early in the process so that any questions or concerns the Committees may have can be addressed in a timely manner.

Agencies are directed under section 608 to submit operating plans for the Committee's review within 60 days of the bill's enactment. Each operating plan should include: (1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level; (2) a delineation in the table for each appropriation both by object class and program, project, and activity as detailed in the budget appendix for the respective appropriation; and (3) an identification of items of special congressional interest.

TITLE I—DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$306,388,000
Budget request, fiscal year 2012	324,889,000
Recommended in the bill	185,749,000
Bill compared with:	
Appropriation, fiscal year 2011	– 120,639,000
Budget request, fiscal year 2012	– 139,140,000

The Departmental Offices' function in the Treasury Department is to support the Secretary of the Treasury in his capacity as the chief operating executive of the Department and in his role in determining the tax, economic, and financial management policies of the Federal government. The Secretary's responsibilities funded by the Salaries and Expenses appropriation include: recommending and implementing domestic and international economic and tax policy; providing recommendations regarding fiscal policy; governing the fiscal operations of the government; managing the public debt; managing development of financial policy; representing the U.S. on international monetary, trade and investment issues; overseeing Treasury Department overseas operations; directing the administrative operations of the Treasury Department; and providing executive oversight of the bureaus within the Treasury Department.

COMMITTEE RECOMMENDATION

The Committee recommends \$185,749,000 for Departmental Offices, Salaries and Expenses, which is \$120,639,000 less than fiscal year 2011 and \$139,140,000 less than the request. Of the funds provided, \$7,000,000 is available until September 30, 2013, for information technology and the Office of Critical Infrastructure Protection and Compliance Policy and \$6,787,000 is for financial statement audits.

Beginning fiscal year 2012, the Committee provides a separate appropriation for the Department's Office of Terrorism and Financial Intelligence (TFI) from the "Departmental Offices" account.

Operating Plan.—The Committee directs the Department to submit an operating plan for the fiscal year 2012 resources provided to the Department, including all offices and bureaus, not more than 60 days after enactment of this Act. The plan must include information on program changes and major procurements at the Department.

Judgment Fund Transparency.—The Secretary of the Treasury shall submit to the Committee and make available to the public on its website an annual report about payments made under 31 U.S.C. 1304 for the fiscal year. Unless the disclosure of such information is otherwise prohibited by law or court order, the report shall consist of: (1) the name of the plaintiff or claimant, (2) the name of the counsel for the plaintiff or claimant; (3) the name of the agency that submitted the claim; (4) a brief description of the facts that gave rise to the claim; and (5) the amount paid representing principal, attorney fees, and interest, if applicable. The first report is due within 60 days of enactment of this Act.

Volcker Rule.—In Public Law 111–203, subsequent to a study issued by the Financial Stability Oversight Council (FSOC), Congress directed FSOC to coordinate the efforts of the appropriate Federal banking regulators, the U.S. Securities and Exchange Commission, and the U.S. Commodity Futures Trading Commission to promulgate regulations, known as the “Volcker Rule,” that “appropriately accommodate the business of insurance.” The Committee believes that the traditional investment activities of State-regulated insurance companies for their general accounts, including investing in both sponsored and third-party funds, are preserved by the law without constraint.

The Committee is concerned the rule-making process is moving forward without a Senate-confirmed, voting member of the FSOC who can represent the views of the insurance industry. The Committee looks forward to reviewing the proposed regulations to ensure that Congressional intent is fulfilled.

Economic Warfare and Financial Terrorism.—Not later than 150 days after the enactment of this Act, the Committee directs the Secretary to submit a report to the House and Senate Appropriations Committees, the House Financial Services Committee, the Senate Banking Committee and other Committees the Department deems necessary regarding the potential risks to U.S. financial markets and economy posed by economic warfare and financial terrorism. The Secretary shall consider what vulnerabilities currently exist and potentially may arise in the future. In preparing the report, the Secretary shall consult with appropriate agencies, departments, bureaus, and commissions that have expertise in terrorism and complex financial instruments. The report may be submitted in classified and unclassified forms.

OFFICE OF TERRORISM AND FINANCIAL INTELLIGENCE

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$ ---
Budget request, fiscal year 2012	---
Recommended in the bill	100,000,000
Bill compared with:	
Appropriation, fiscal year 2011	+100,000,000
Budget request, fiscal year 2012	+100,000,000

When the Administration was preparing its 2011 budget request during the summer and fall of 2010, it could never have imagined that a desperately discouraged vegetable vendor in Tunisia would give rise to the protests in Tunisia and elsewhere such as Libya, Egypt, Syria, and Yemen. The resulting uncertainty and instability

creates opportunities for organizations and persons who harbor ill-will against America and Americans.

The Arab Spring Uprising warrants both diligence and vigilance. Financial capital has no respect for geographical boundaries; it will flow in the direction of least resistance. Economic and trade sanctions issued and enforced by Office of Terrorism and Financial Intelligence's (TFI) Office of Foreign Assets Control protect the financial system from being polluted with criminal and illicit activities and counteract national security threats from drug lords, terrorists, weapons of mass destruction proliferators, and rogue nations, among others. In addition to the enforcement of sanctions, TFI also produces vital analysis with regards to foreign intelligence and counterintelligence across all elements of the national security community.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$100,000,000 for the Office of Terrorism and Financial Intelligence to carry out TFI's central role in detecting and defeating security threats and separates its appropriation from the "Departmental Offices" account, where it was historically funded. The recommended level is the same as fiscal year 2011 amount provided for these activities within "Departmental Offices" and is \$7,400,000 more than the request also within "Departmental Offices". The Committee is distressed that the Administration would propose reducing financial intelligence activities while proposing increases for other headquarter offices.

The Committee is aware that on January 28, 2011, the Treasury Department's Office of Foreign Asset Control (OFAC) finalized regulations amending the Cuban Assets Control Regulations to implement policy changes announced by the President on January 14, 2011. Among other changes, the new regulations permit OFAC to issue specific licenses on a case-by-case basis authorizing travel related transactions incident to educational exchanges not involving academic study pursuant to a degree program when those exchanges take place under the auspices of an organization that sponsors and organizes such programs to promote people-to-people contacts. The Committee understands that, at present, there is a considerable number of permit applications related to these specific licenses in the queue awaiting a decision on issuance. The Committee directs OFAC to provide the Committee a report on the current number of pending applications seeking specific licenses related to these particular educational exchanges, OFAC's plan for moving through the queue awaiting a decision, the number of these licenses that OFAC has issued to date, and OFAC's plan for expeditiously reviewing these applications in the future.

BUREAU OF CONSUMER FINANCIAL PROTECTION

ADMINISTRATIVE PROVISIONS—BUREAU OF CONSUMER FINANCIAL PROTECTION

To demonstrate its commitment to doing away with the fine print, the Bureau of Consumer Financial Protection (BCFP) provided a scintilla of budget material to Congress, consisting of broad policy objectives and total budgetary resources. Unlike other agen-

cies, the BCFP does not describe or explain the relationship between its policy objectives and the budgetary resources, performance measures or goals, significant proposals that effect obligations in the five to ten year period and their relationship to the current year and budget year, or the budgetary effect of workload, strategic planning, capital planning, or investments in information technology. In the absence of this fine print, the Committee cannot discern what the BCFP plans to do, how it will do it, or how much it will cost.

The Committee is disappointed that an agency dedicated to transparency and accountability was not more forthcoming about how it plans to spend taxpayer money and remedies this informational vacuum with sections 101 and 102.

Section 101. The Committee includes language limiting the transfer from the Federal Reserve to the BCFP to \$200,000,000 for fiscal year 2012. In addition, language is included limiting the BCFP's authority to obligate funding to \$200,000,000 for fiscal year 2012. These reforms will allow Congress and the American people to understand better the activities of the BCFP, which currently has significant authority to spend taxpayer funds without oversight or input from Congress.

The limitation is \$129,045,000, or 39 percent, less than the request for \$329,045,000 and approximately \$500 million, or 71 percent, less than the \$700 million authorized in the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Section 102. The Committee includes language making the BCFP's funding subject to the annual appropriations process beginning in fiscal year 2013. Under the Dodd-Frank Wall Street Reform and Consumer Protection Act, the BCFP can spend more than half a billion dollars without regard to the Congress. The Committee believes this provision will routinize the exchange of information between the BCFP and Congress. The BCFP needs oversight as much as banks and nonbanks do. Applying a budgetary check and balance to the BCFP is the first step toward repairing a relationship with Congress that can best be described as uneven.

Operating Plan.—The Committee directs the BCFP to submit an operating plan within 60 days of enactment of this Act. The plan shall also include how the BCFP plans to allocate resources, both funds and staff, by type of financial institution, financial product and service, and consumer. The plan will also compare the risks of each category with the resources allocated for it.

Responsible Leadership Structure.—The Committee's experience with the Federal Trade Commission, Securities and Exchange Commission, Federal Communications Commission, Consumer Product Safety Commission, and other Federal agencies with powers to protect consumers or investors leads it to conclude that a five-member commission is more suitable for guiding the BCFP than a single director. A commission ensures that multiple disciplines, experiences, and perspectives are brought to bear on the BCFP's rules, policies, and enforcement actions. The appointment and removal process and staggered terms of the commissioners can provide both a check and balance and measure of continuity that single head cannot. The Committee strongly supports H.R. 1121 as ordered to be reported by the House Financial Services authorizing committee,

which replaces the BCFP's director with a five-member commission.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$29,641,000
Budget request, fiscal year 2012	29,855,000
Recommended in the bill	29,641,000
Bill compared with:	
Appropriation, fiscal year 2011	---
Budget request, fiscal year 2012	- 214,000

The Office of Inspector General (OIG) provides agency-wide audit and investigative functions to identify and correct operational and administrative deficiencies that create conditions for fraud, waste, and mismanagement. The audit function provides contract, program, and financial statement audit services. Contract audits provide professional advice to agency contracting officials on accounting and financial matters relative to negotiation, award, administration, repricing, and settlement of contracts. Program audits review and evaluate all facets of agency operations. Financial statement audits assess whether financial statements fairly present the agency's financial condition and results of operations, the adequacy of accounting controls, and compliance with laws and regulations. The investigative function provides for the detection and investigation of improper and illegal activities involving programs, personnel, and operations.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$29,641,000 for the OIG, which is the same as the fiscal year 2011 and \$214,000 less than the request. For the past decade, the OIG has had little time for program audits and investigations because the extraordinary rate of bank failures generated an extraordinary number of material loss reviews. Beginning in 2011, the number of material loss reviews should decline because the Dodd-Frank Wall Street Reform and Consumer Protection Act raised the threshold of a material loss review from \$25 million in losses to \$200 million in 2011, to \$150 million in 2012 and 2013, and \$50 million thereafter. The Committee expects this change in workload to allow the OIG significantly more time for oversight of the Department's programs, expenses, and practices.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$151,696,000
Budget request, fiscal year 2012	157,831,000
Recommended in the bill	151,696,000
Bill compared with:	
Appropriation, fiscal year 2011	---
Budget request, fiscal year 2012	- 6,135,000

The Internal Revenue Service (IRS) Restructuring and Reform Act of 1998 established the Office of Treasury Inspector General for Tax Administration (TIGTA) and abolished the IRS Office of the Chief Inspector. TIGTA conducts audits, investigations, and evaluations to assess the operations and programs of the IRS and its re-

lated entities, the IRS Oversight Board, and the Office of Chief Counsel. The purpose of those audits and investigations is as follows: (1) to promote the economic, efficient, and effective administration of the Nation’s tax laws and to detect and deter fraud and abuse in IRS programs and operations; and (2) to recommend actions to resolve fraud and other serious problems, abuses, and deficiencies in these programs and operations.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$151,696,000 for the TIGTA, the same as fiscal year 2011 and \$6,135,000 less than the request.

The Committee appreciates TIGTA’s previous work on identity theft and encourages TIGTA to continue working on this issue by evaluating (1) whether the policies of the IRS Office of Privacy, Information Protection and Data Security are integrated into IRS’s division operations, (2) whether the IRS is keeping reliable records for quantifying the number of identity thefts, (3) whether the IRS is developing effective tools for detecting and preventing identity theft, and (4) whether the IRS is providing responsive and courteous victim assistance.

Not later than 60 days after enactment of this Act, TIGTA shall submit a report to the House and Senate Committees on Appropriations on the extent to which IRS employees use tax preparation software or hire tax preparation professionals and how those rates compare to the general public.

SPECIAL INSPECTOR GENERAL FOR THE TROUBLED ASSET RELIEF PROGRAM

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$36,227,000
Budget request, fiscal year 2012	47,374,000
Recommended in the bill	41,801,000
Bill compared with:	
Appropriation, fiscal year 2011	+5,574,000
Budget request, fiscal year 2012	–5,573,000

The Office of the Special Inspector General for the Troubled Asset Relief Program (SIGTARP) was established in the Emergency Economic Stabilization Act of 2008 (Public Law 110–343). Its mission is to conduct, supervise, and coordinate audits and investigations of the purchase, management, and sale of assets by the Secretary of the Treasury under programs established pursuant to the Troubled Asset Relief Program (TARP).

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$41,801,000 for operating expenses of the SIGTARP, which is \$5,574,000 more than fiscal year 2011 and \$5,573,000 less than the request.

SIGTARP’s operating expenses were initially funded with mandatory appropriations in the TARP. These funds, however, were provided for a limited amount, decreasing over time. Therefore, in order to continue vigorous oversight of the outstanding TARP amounts, additional discretionary appropriations are provided. As TARP winds down, the Committee expects the request for discre-

tionary appropriations in this account to also wind down in future years.

FINANCIAL CRIMES ENFORCEMENT NETWORK
SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$110,788,000
Budget request, fiscal year 2012	84,297,000
Recommended in the bill	110,788,000
Bill compared with:	
Appropriation, fiscal year 2011	---
Budget request, fiscal year 2012	+26,491,000

The Financial Crimes Enforcement Network (FinCEN) is responsible for implementing Treasury’s anti-money laundering regulations through administration of the Bank Secrecy Act (BSA). It also serves as a U.S. Government source for the systematic collection and analysis of information to assist in the investigation of money laundering and other financial crimes. FinCEN supports law enforcement investigative efforts by Federal, State, local and international agencies, and fosters interagency and global cooperation against domestic and international financial crimes.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$110,788,000 for FinCEN, which is the same as fiscal year 2011 and \$26,491,000 more than the request. Of the amount provided, \$20,000,000 is available until September 30, 2014.

The recommended amount is intended to continue FinCEN’s multi-year effort to modernize its information technology systems and to ensure FinCEN’s information is accessible to the appropriate State and local law enforcement personnel, field representatives, and the intelligence community. The data compiled and analyzed by FinCEN is a critical tool used by law enforcement and the intelligence community for investigating, among other crimes, money laundering, mortgage fraud, drug cartels, and terrorist financing. The Committee is dismayed that the Administration proposed \$3 million in reductions for State and local and intelligence community access to BSA information and rejects these reductions in their entirety. The Committee expects the Department and the Office of Management and Budget to continue to vigorously oversee the information technology modernization effort to ensure its success.

TREASURY FORFEITURE FUND
(RESCISSION)

Appropriation, fiscal year 2011	-\$400,000,000
Budget request, fiscal year 2012	-600,000,000
Recommended in the bill	-630,000,000
Bill compared with:	
Appropriation, fiscal year 2011	-230,000,000
Budget request, fiscal year 2012	-30,000,000

The Committee recommends a rescission of \$630,000,000 of unobligated balances in the Treasury Forfeiture Fund, which is \$230,000,000 more than fiscal year 2011 and \$30,000,000 more than the request.

The Committee appreciates the risks and dangers assumed by Internal Revenue Service and Homeland Security law enforcement agents to disrupt and dismantle criminal enterprises. One outcome of their successes is the exceptionally large forfeitures of property and assets in recent years.

FINANCIAL MANAGEMENT SERVICE

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$232,786,000
Budget request, fiscal year 2012	218,805,000
Recommended in the bill	216,617,000
Bill compared with:	
Appropriation, fiscal year 2011	- 16,169,000
Budget request, fiscal year 2012	- 2,188,000

The Financial Management Service (FMS) is the Federal government's central financial agent, collecting all Federal revenue and disbursing all Federal payments. FMS also develops and implements reliable and efficient financial methods and systems to operate the government's cash management, credit management, and debt collection programs in order to maintain government accounts and report on the status of the government's finances. In addition, the FMS is the primary agency for collecting Federal non-tax debt owed to the government.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$216,617,000 for the FMS, which is \$16,169,000 less than fiscal year 2011 and \$2,188,000 less than the request. Of the funds provided, \$4,120,000 is available until September 30, 2014, for addressing information system modernization and \$2,500 for official reception and representation expenses.

The Committee notes that this funding reduction is attainable through a number of efficiency savings assumed in the request, such as paperless transactions, space and data consolidation, and the revaluation of new systems. The Committee appreciates the FMS's self-discipline and economy.

ALCOHOL AND TOBACCO TAX AND TRADE BUREAU

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$100,798,000
Budget request, fiscal year 2012	97,878,000
Recommended in the bill	96,899,000
Bill compared with:	
Appropriation, fiscal year 2011	- 3,899,000
Budget request, fiscal year 2012	- 979,000

The Alcohol and Tobacco Tax and Trade Bureau (TTB) is responsible for the enforcement of laws designed to eliminate certain illicit activities and to regulate lawful activities relating to distilled spirits, beer, wine and nonbeverage alcohol products, and tobacco. TTB focuses on collecting revenue; reducing taxpayer burden and improving service while preventing diversion; and protecting the public and preventing consumer deception in certain regulated commodities.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$96,899,000 for the TTB, which is \$3,899,000 less than fiscal year 2011 and \$979,000 less than the request. Within the amount provided, the bill includes up to \$6,000 for official reception and representation expenses and up to \$50,000 for cooperative research and development programs, as requested.

The Committee appreciates the Bureau’s restraint and resourcefulness. The recommended reduction is accomplished through the Bureau’s initiatives to simplify reporting requirements and reduce overhead and operations.

UNITED STATES MINT

UNITED STATES MINT PUBLIC ENTERPRISE FUND

The United States Mint manufactures coins, receives deposits of gold and silver bullion, and safeguards the Federal Government’s holdings of monetary metals. In 1997, Congress established the United States Mint Public Enterprise Fund (Public Law 104–52), which authorized the Mint to use proceeds from the sale of coins to finance the costs of its operations and consolidated all existing Mint accounts into a single fund. Public Law 104–52 also provided that, in certain situations, the levels of capital investments for circulating coins and protective services shall factor into the decisions of the Congress.

COMMITTEE RECOMMENDATION

The Committee recommends a spending level for capital investments by the Mint for circulating coinage and protective services of \$20,000,000, which is \$6,700,000 less than the fiscal year 2011 and the same as the request.

BUREAU OF THE PUBLIC DEBT

ADMINISTERING THE PUBLIC DEBT

Appropriation, fiscal year 2011	\$184,635,000
Budget request, fiscal year 2012	173,635,000
Recommended in the bill	171,979,000
Bill compared with:	
Appropriation, fiscal year 2011	– 12,656,000
Budget request, fiscal year 2012	– 1,656,000

The Bureau of the Public Debt is responsible for the conduct of all public debt operations and the promotion of the sale of U.S. securities.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$171,979,000 for Administering the Public Debt, which is \$12,656,000 less than fiscal year 2011 and \$1,656,000 less than the request. Of this amount, the Committee recommends \$2,500 for official reception and representation expenses and \$10,000,000 is available until September 30, 2013. Language is included that reduces the total amount by no more than \$8,000,000 as definitive security issue fees and Treasury Direct Investor Account Maintenance fees are

collected, so as to result in a final fiscal year 2012 appropriation of \$163,979,000.

The Committee notes that the recommendation, which is below the fiscal year 2011 level and the request, is possible due to a number of efficiency savings assumed in the budget submission. The Committee is pleased with the Bureau’s earnest efforts to reduce costs through data center consolidation, paperless transactions, and decommissioning legacy systems.

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND
PROGRAM ACCOUNT

Appropriation fiscal year 2011	\$226,546,000
Budget request, fiscal year 2012	227,259,000
Recommended in the bill	183,000,000
Bill compared with:	
Appropriation, fiscal year 2011	- 43,546,000
Budget request, fiscal year 2012	- 44,259,000

The Community Development Financial Institutions (CDFI) Fund provides grants, loans, equity investments, and technical assistance, on a competitive basis, to new and existing CDFIs such as community development banks, community development credit unions, and housing and microenterprise loan funds. Recipients use the funds to support mortgage, small business and economic development lending in underserved and distressed neighborhoods and to support the availability of financial services in these neighborhoods. The Fund is also responsible for implementation of the New Markets Tax Credits.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$183,000,000 for the CDFI Fund program, which is \$43,546,000 less than fiscal year 2011 and \$44,259,000 less than the request. Of the amounts provided, \$22,965,000 is for the administrative expenses for all programs. The Committee recommends a set-aside of \$12,000,000 for grants, loans, and technical assistance and training programs to benefit Native American, Alaskan Natives, and Native Hawaiian communities in the coordination of development strategies, increased access to equity investments, and loans for development activities. No funds are designated for either the Bank on USA or Healthy Food Financing Initiative programs.

The Committee notes the strong support for the core CDFI financial and technical assistance and New Markets Tax Credits (NMTC) programs. The presence of these programs is especially evident in urban, metropolitan areas. The Committee directs the General Accountability Office to conduct a study on the concentration of CDFIs and NMTCs in urban areas and to comment on the extent that program design, administration, or history contributed to the early establishment of CDFIs in urban areas by April 2012.

The Committee strongly encourages the CDFI Fund to continue to place a heavy emphasis on efforts related to affordable housing, business assistance, and community services such as child care, health care, education, and job training rather than creating specialized programs, initiatives, or other variations of financial and technical assistance. The Committee includes language to require

the Department to demonstrate the effectiveness of any such assistance in meeting the findings in the Riegle Act.

The Committee requires more detailed information on how the Healthy Food Financing Initiative, which was implemented in 2011, was executed and if providing financing for private investment is the best approach to increase the consumption of targeted foods. Therefore, the Department of Treasury is directed to provide the Committee with a report by May 2012 outlining how this program was administered, including the specific criteria and processes that were used to make grant awards. The report shall also address why this is a better approach, both for the taxpayer and the underserved, than other alternative programs such as food assistance programs.

INTERNAL REVENUE SERVICE

TAXPAYER SERVICES

Appropriations, fiscal year 2011	\$2,274,272,000
Budget request, fiscal year 2012	2,345,133,000
Recommended in the bill	2,165,756,000
Bill compared with:	
Appropriation, fiscal year 2011	- 108,516,000
Budget request, fiscal year 2012	- 179,377,000

The Taxpayer Services appropriation provides for taxpayer services, including forms and publications; processing tax returns and related documents; filing and account services; taxpayer advocacy services; and assisting taxpayers to understand their tax obligations, correctly file their returns, and pay taxes due in a timely manner.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$2,165,756,000 for Taxpayer Services, which is \$108,516,000 less than fiscal year 2011 and \$179,377,000 less than the request. The Committee adopts the Administration’s proposed funding request for the taxpayer services grant programs with the exception of Volunteer Income Tax Assistance (VITA) grants and instead recommends an amount \$4,000,000 more than the request. As such, the bill provides not less than \$5,100,000 for Tax Counseling for the Elderly grants, provides not less than \$9,500,000 for low-income taxpayer clinic grants, and not less than \$12,000,000 for VITA grants. In addition, the Committee recommends not less than \$200,000,000 for operating expenses of the Taxpayer Advocate Service.

The Committee recommends moving the Health Insurance Tax Credit Administration (HITCA) appropriation into the Taxpayer Service appropriations and provides not less than \$15,481,000 for expenses necessary to administer the tax credit included in Title II of Division A of Public Law 107–210, the Trade Act of 2002.

Pre-Filled or “Simple” Tax Returns.—The Committee appreciated the Commissioner’s March 2011 testimony and the assurances that the IRS is not developing a pre-filled or “simple” tax return program. The Committee believes that converting a voluntary compliance system to a bill presentment model would represent a significant change in the relationship between taxpayers and their government. The simple return model would also strain IRS resources

and the data retrieval systems required would create new burdens on employers, particularly small businesses. In addition, a fundamental conflict of interest seems to be inherent in the nation's tax collector and compliance enforcer taking on the simultaneous role of tax preparer and financial advisor. The Committee expects that the IRS will not begin work on a simple tax return pilot program or associated systems without first seeking specific authorization and appropriations from Congress, and should instead focus on helping Congress and the Administration achieve real tax simplification and reform.

ENFORCEMENT

Appropriation, fiscal year 2011	\$5,492,992,000
Budget request, fiscal year 2012	5,966,619,000
Recommended in the bill	5,226,603,000
Bill compared with:	
Appropriation, fiscal year 2011	– 266,389,000
Budget request, fiscal year 2012	– 740,016,000

The Enforcement appropriation provides for the examination of tax returns, both domestic and international; the administrative and judicial settlement of taxpayer appeals of examination findings; technical rulings; monitoring employee pension plans; determining qualifications of organizations seeking tax-exempt status; examining tax returns of exempt organizations; enforcing statutes relating to detection and investigation of criminal violations of the internal revenue laws; identifying underreporting of tax obligations; securing unfiled tax returns; and collecting unpaid accounts.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$5,226,603,000 for Enforcement, which is \$266,389,000 less than fiscal year 2011 and \$740,016,000 less than the request. Of the funds provided, the Committee recommends not less than \$60,257,000 to support IRS activities under the Interagency Crime and Drug Enforcement program.

Refundable Tax Credits and Improper Payments.—Refundable tax credits, such as the Earned Income Tax Credit (EITC) (\$56 billion in outlays in fiscal year 2011), Child Tax Credit (\$24 billion in outlays in fiscal year 2011), and upcoming Healthcare Premium Assistance Credit (\$44 billion in outlays in fiscal year 2016), are among the government's largest transfers of wealth. Consequently, these programs tempt many individuals to make fraudulent claims or to invent tax scams, or worse, lead innocent taxpayers to make mistakes due to the complexity of the programs. Regardless, the resulting improper payments add to the government's debt while reducing its credibility.

The recent experience of the multiple homebuyer tax credits and the persistent rate improper payments in the EITC program weigh heavily on the Committee. The Committee supports the multiple efforts within Treasury and IRS to reduce improper payments. The Committee directs the IRS to submit a report within 180 days of enactment of this Act on actions taken to reduce improper payments in the last year and to plans to further reduce improper payments in the future in the area of refundable tax credits.

Healthcare.—The Committee includes two new administrative provisions, Sections 105 and 106, related to implementation of the healthcare reform act. The healthcare reform act represents the largest set of tax law changes in over 20 years with more than 40 provisions that amend the tax code. Most of the tax provisions become effective in 2014, but some provisions went into effect immediately upon enactment, such as the small business health care tax credit, the qualifying therapeutic discovery credit, and the expanded adoption credit. During fiscal years 2010 and 2011, the Department of Health and Human Services allocated an estimated \$60,000,000 to IRS for healthcare implementation without the Committee's knowledge. The Committee prohibits further such transfers.

The Committee also prohibits the IRS from using funds in this Act to verify that individuals have healthcare coverage and impose penalties on those who do not. Legally requiring Americans to buy health insurance violates the basic principles of freedom and individual choice. No American should be forced to buy or purchase health insurance they neither want nor can afford. The Federal government has never made the purchase of a good or service a condition for being a law-abiding citizen.

Regulation of Paid Tax Preparers.—The Committee commends the IRS for its initiative to register, test, and require continuing education credits from paid tax preparers. The vast majority of paid preparers are well-informed and law abiding, and as Government Accountability Office has reported, inaccuracies on preparers' returns are not necessarily the fault of the preparer. Yet, as the IRS Taxpayer Advocate has noted, a growing amount of qualitative research identifies significant preparer misconduct, including misconduct that would potentially trigger the IRS to impose civil or criminal penalties. All preparers are subject to some oversight, but it varies greatly depending on their professional affiliations and the jurisdiction in which they practice. The use of paid preparers has grown steadily in recent decades to approximately 60 percent. The Committee encourages the IRS to keep the Committee updated on the work the IRS is doing in this area.

Historic Preservation Easements.—The Committee has heard complaints from taxpayers about the Internal Revenue Service's (IRS) administration of laws related to the charitable tax deduction for the donation of preservation easements on certified historic structures. The Committee understands that easement donations are difficult to value and the IRS must be vigilant against tax abuse. Nonetheless, the 2009 IRS Advisory Council Report offered six recommendations for a fair and expeditious resolution of these issues. Recognizing the controversy surrounding this issue, the Committee calls upon the IRS to review its policies related to the historical easement deduction and report to the Committee on its process for implementing the Council's recommendations within 90 days of enactment of this Act.

OPERATIONS SUPPORT

Appropriation, fiscal year 2011	\$4,075,716,000
Budget request, fiscal year 2012	4,620,526,000
Recommended in the bill	3,793,379,000
Bill compared with:	
Appropriation, fiscal year 2011	-282,337,000
Budget request, fiscal year 2012	-827,147,000

The Operations Support appropriation provides for overall planning and direction of the IRS, including shared service support related to facilities services, rent payments, printing, postage, and security. Specific activities include headquarters management activities such as strategic planning, communications and liaison, finance, human resources, Equal Employment Opportunity and diversity, research, information technology, and telecommunications.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$3,793,379,000 for Operations Support, which is \$282,337,000 less than fiscal year 2011 and \$827,147,000 less than the request. Of the funds provided, not less than \$2,000,000 is for the IRS Oversight Board and \$25,000 is for official reception and representation expenses.

Information Security.—The Committee has previously expressed concerns about the findings of GAO and TIGTA showing that the IRS continues to have information security vulnerabilities. Since the IRS possesses sensitive taxpayer information for more than 140 million individual taxpayers, the importance of ensuring effective security of information systems at the IRS cannot be overstated. In a matter related to information security, the Committee notes that identity theft is growing with regards to tax fraud. In these cases, taxpayers, who are otherwise complying with their tax obligations, have their refunds delayed and are drawn unwittingly into the IRS examination process. The IRS must report to the Committee within 30 days of enactment of this Act on the number of taxpayers who have had their tax return rejected because their Social Security number was improperly used by another individual to commit tax fraud. The report shall include the average time to resolve the situation and provide innocent taxpayers with their refund, when a refund is due. In addition, the report shall provide the number of these cases which were not resolved within 45 days and discuss the actions the IRS plans to take to expedite resolution for these taxpayers and to prevent similar identity theft issues from taking place in the future.

BUSINESS SYSTEMS MODERNIZATION

Appropriation, fiscal year 2011	\$263,369,000
Budget request, fiscal year 2012	333,600,000
Recommended in the bill	330,000,000
Bill compared with:	
Appropriation, fiscal year 2011	+66,631,000
Budget request, fiscal year 2012	-3,600,000

The Business Systems Modernization (BSM) appropriation provides funding to modernize key business systems of the Internal Revenue Service.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$330,000,000 for BSM, which is \$66,631,000 more than fiscal year 2011 and \$3,600,000 less than the request. Consistent with previous years, the release of the funds, with the exception of funding for labor costs, is subject to the approval by the Committees on Appropriations of a GAO-reviewed expenditure plan.

IRS's information technology is frozen in the 1960's. IRS still relies, in part, on magnetic tapes, uploaded on a weekly basis, to process returns. IRS is keenly aware that overdue notices cross paths with checks in the mail and that IRS's delayed reactions aggrive taxpayers. Currently, IRS systems are written in COBOL, a programming language created in 1958. The customer account data engine (CADE2) will move IRS into a mix of COBOL and C++, which is a language created in 1979. After CADE2 is launched in January 2012, IRS will begin re-writing its applications into Java, which was released in 1995 and is among the most popular programming languages in use today.

The current weekly data uploads mean that IRS staff has seven days, or 168 hours, to take actions or make corrections. By contrast, under CADE2, daily data uploads mean that IRS staff will have 24 hours to take action or make corrections. IRS staff and the offices that support them will have to act faster than they have before. CADE2 will not only accelerate the rate of tax return processing, but will also increase IRS staff productivity and satisfaction. The "green screens" that IRS staff currently work with will eventually migrate into contemporary drop-down menus.

The Committee recognizes that the IRS has made progress in implementing BSM milestones. The IRS is currently working on its CADE2 program, to allow 140 million individual account records to be stored in a modern database that has the capability to update taxpayer account information on a daily basis.

At the same time, the Committee notes that while successes have been achieved, other challenges remain, such as preparing and training staff and revising operating procedures in anticipation of CADE2. The Committee expects strong IRS efforts at improvement in all of these problem areas and looks forward to continued progress in the overall BSM effort.

ADMINISTRATIVE PROVISIONS—INTERNAL REVENUE SERVICE

(INCLUDING TRANSFER OF FUNDS)

Section 103. The Committee continues a provision that allows for the transfer of five percent (three percent in the case of Enforcement) of any appropriation made available to the IRS to any other IRS appropriation, upon the advance approval of the Committees on Appropriations.

Section 104. The Committee continues a provision that requires the IRS to maintain a training program in taxpayer rights, dealing courteously with taxpayers, and cross-cultural relations.

Section 105. The Committee modifies a provision that requires the IRS to institute and enforce policies and procedures that will safeguard the confidentiality of taxpayer information to include protection against identity theft.

Section 106. The Committee continues a provision that makes funds available for improved facilities and increased staffing to provide efficient and effective 1–800 number help line service for taxpayers.

Section 107. The Committee includes a new provision prohibiting funds made available in this Act to implement the individual mandate in the healthcare reform act.

Section 108. The Committee includes a new provision prohibiting funds made available in the healthcare reform act from being transferred to the IRS for implementing the healthcare reform act.

Section 109. The Committee includes a new provision requiring monthly reports from the Secretary about a proposed regulation. The Committee understands the government’s need to increase transparency and to eliminate cross-border tax evasion. However, the Committee is concerned that regulations proposed by the Treasury Department may result in the flight of foreign capital from U.S. banks as well as jeopardize the safety of certain foreign nationals. These regulations would require all banks to file informational returns with the Internal Revenue Service about interest income earned on accounts owned by all foreigners. According to the Commerce Department, foreigners have \$10.6 trillion passively invested in the American economy, including nearly \$3.6 trillion reported by U.S. banks and securities brokers. Banks stand to lose billions of dollars in foreign investment because many of their customers would rather withdraw their funds and close their accounts than be subjected to the possible disclosure of their ownership of their U.S. accounts to their home country. Many of these customers have concerns and fears about crime and security in their home country and either distrust their governments or financial institutions.

ADMINISTRATIVE PROVISIONS—DEPARTMENT OF THE TREASURY

(INCLUDING TRANSFER OF FUNDS)

Section 110. The Committee continues a provision that allows the Department to employ experts and consultants, with or without compensation.

Section 111. The Committee continues a provision that authorizes transfers, up to two percent, between “Departmental Offices—Salaries and Expenses”, “Office of Terrorism and Financial Intelligence”, “Office of Inspector General”, “Financial Management Service”, “Alcohol and Tobacco Tax and Trade Bureau”, “Financial Crimes Enforcement Network”, and the “Bureau of the Public Debt” appropriations under certain circumstances.

Section 112. The Committee continues a provision that authorizes transfers, up to two percent, between the Internal Revenue Service and the Treasury Inspector General for Tax Administration under certain circumstances.

Section 113. The Committee continues a provision limiting funds for the purchase of law enforcement vehicles unless the purchase is consistent with vehicle management principles.

Section 114. The Committee continues a provision that prohibits the Department of the Treasury from undertaking a redesign of the one dollar Federal Reserve note.

Section 115. The Committee continues a provision that provides for transfers from and reimbursements to “Financial Management Service, Salaries and Expenses” for the purposes of debt collection.

Section 116. The Committee continues a provision extending the pay demonstration program.

Section 117. The Committee continues a provision that requires congressional approval for the construction and operation of a museum by the United States Mint.

Section 118. The Committee continues a provision prohibiting funds in this or any other Act from being used to merge the Mint and the Bureau of Engraving and Printing without the approval of the House and Senate Committees of jurisdiction.

Section 119. The Committee includes a provision deeming that funds for the Department of the Treasury’s intelligence-related activities are specifically authorized in fiscal year 2012 until enactment of the Intelligence Authorization Act for fiscal year 2012.

Section 120. The Committee continues a provision permitting the Bureau of Engraving and Printing to use \$5,000 from the Industrial Revolving Fund for reception and representation expenses.

Section 121. The Committee includes a new provision that allows currency paper contracts to exceed a period of four years as requested by the Administration.

Section 122. The Committee includes a new provision as requested by the Administration that requires persons who exchange \$10,000 or more in mutilated cash with the Bureau of Engraving and Printing to also report their taxpayer identification number.

Section 123. The Committee includes a new provision as requested by the Administration that allows the Financial Crimes Enforcement Network to share more information with their foreign counterparts.

Section 124. The Committee includes a new provision as requested by the Administration that subjects additional individuals to disclosure prohibitions with regards to Financial Crimes Enforcement Network activities.

Section 125. The Committee includes a new provision as requested by the Administration that prohibits States from disclosing Financial Crimes Enforcement Network information on State websites.

Section 126. The Dodd-Frank Wall Street Reform and Consumer Protection Act created the Office of Financial Research (OFR) to support the Financial Stability Oversight Council by collecting financial data and analyzing market activities. After receiving start up funding from the Federal Reserve, OFR has the authority to charge assessments to financial institutions to fund its operating costs. The Dodd-Frank legislation does not provide for any Congressional review in the operations or funding level of this Office. The Committee believes that neither OFR nor any other agency should have an unchecked ability to charge fees and obligate funding for administrative expenses. Therefore, the Committee has included language limiting OFR’s obligations to \$64,468,000 during fiscal year 2012.

Section 127. The Office of Financial Stability (OFS) administers the Troubled Assets Relief Program for the Department of Treasury. The Emergency Economic Stabilization Act provides unlimited appropriations for the administrative costs of OFS. The Committee

does not believe that agencies should have unlimited spending authority for administrative expenses. In addition, section 129 terminates the Home Affordable Modification Program which should dramatically reduce OFS costs. Therefore, the Committee has included a new provision that limits the obligations of the OFS to \$200,000,000 for fiscal year 2012.

Section 128. The Committee includes a new provision that gives the Financial Crimes Enforcement Network access to a small number of reports of cash payments over \$10,000 received in a trade or business that currently are only filed with the Internal Revenue Service in instances in which bail is posted in cash.

Section 129. The Committee includes a new provision that terminates the unsuccessful Home Affordable Modification Program (HAMP). The Special Inspector General for TARP testified to the Financial Services Authorizing Committee that HAMP “benefits only a small portion of distressed homeowners, offers others little more than false hope, and in certain cases causes more harm than good.” The Committee believes it is critical to stop wasting taxpayer funding on this program.

TITLE II—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

Funds appropriated in this title provide for the staff and operations of the White House, along with other organizations within the Executive Office of the President (EOP) which formulate and coordinate policy on behalf of the President such as the National Security Council and the Office of Management and Budget. The title also includes the Office of National Drug Control Policy and certain expenses of the Vice President.

The Committee recommends a total appropriation of \$639,553,000 for this title which is \$65,692,000 less than the fiscal year 2011 level and \$99,784,000 less than the request. The Committee is disappointed that the Administration’s request did not propose additional reductions for the EOP. The Committee believes that the chief executive of any organization experiencing a fiscal crisis should share in the funding sacrifice along with the rest of the organization. Therefore, the Committee has reduced the Salaries and Expenses appropriation for each organization under this heading.

ment, and assists in preparation of the annual Economic Report of the President.

The Office of Administration is responsible for providing administrative services to the Executive Office of the President. These services include financial, personnel, procurement, information technology, records management, and general office services.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$109,297,000 for the Office of Administration, which is \$5,752,000 less than fiscal year 2011 and \$6,551,000 less than the request. Of the recommended amount, \$10,670,000 is available until expended for modernization of the information technology infrastructure within the Executive Office of the President.

The Office of Administration is directed to provide an annual report to the Committee at the same time the President's budget is submitted to Congress, detailing its progress on information technology modernization, including the amounts obligated and ex-

OFFICE OF MANAGEMENT AND BUDGET
SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$91,750,000
Budget request, fiscal year 2012	91,660,000
Recommended in the bill	82,575,000

Appropriation, fiscal year 2011	-9,175,000
Budget request, fiscal year 2012	-9,085,000

The Office of Management and Budget (OMB) assists the President in the discharge of budgetary, economic, management, and other executive responsibilities.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$82,575,000 for OMB, which is \$9,175,000 less than fiscal year 2011 and \$9,085,000 less than the request. The recommendation also continues several long-standing provisos, not requested by the President, limiting certain OMB activities.

The Committee believes it is essential for Federal departments and agencies to find and implement efficiencies in their operations in order to be successful in setting and meeting performance goals and reducing wasteful spending. The Committee believes that use of successful business management techniques including but not limited to continuous process improvement methods can improve the utilization of resources. The Committee encourages OMB and Federal agencies to use them.

In light of increased efforts to identify government-wide efficiencies and properly anticipate the cost of major infrastructure projects, the Committee instructs OMB to examine and revise Circular A-94 as necessary and appropriate to improve the guidance provided to agencies in conducting benefit-cost analysis. The Committee expects OMB's review and modernization of Circular A-94 to emphasize the importance of incorporating life-cycle cost analysis. Moreover, this analysis should be as accurate, complete and reflective of the real costs and lifespans of materials as possible, including the use of material-specific discount rates and maintenance scheduled cost. OMB is directed to report to the Committee within 180 days of enactment of this Act on the status of reviewing Circular A-94.

The Committee directs OMB to provide a spend plan for the Office of the Intellectual Property Enforcement Coordinator (IPEC) within 60 days of enactment of this Act. The spend plan shall include details on the budgetary requirements necessary to ensure IPEC can carry out its statutory mission.

The Office of National Drug Control Policy (ONDCP) was established by the Anti-Drug Abuse Act of 1988 and most recently reauthorized in 2006. The Office is the President's primary source of support for counter-drug policy development and program oversight. Its responsibilities include developing and updating a National Drug Control Strategy, developing a National Drug Control Budget, and coordinating and evaluating the implementation of Federal drug control activities.

In addition, ONDCP manages several counter-drug programs which are discussed under the "Federal Drug Control Programs" heading below. These include the High Intensity Drug Trafficking Areas program and Drug-Free Communities grants.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$23,000,000 for ONDCP salaries and expenses, \$4,084,000 less than fiscal year 2011 and \$413,000 less than the request. Of the amount appropriated, \$250,000 is for policy research and evaluation, the same as the budget request.

The recommended level is lower than fiscal year 2011 and the request because ONDCP activities are either reprioritized or eliminated. The combination of these efforts reduces the need for personnel and other resources funded under the salaries and expenses account to manage ONDCP's activities. The Committee expects ONDCP to focus resources on the counter-drug policy development, coordination and evaluation functions which are the primary mission of the Office and the original reason for its existence.

FEDERAL DRUG CONTROL PROGRAMS

The Committee is recommending a significant change in funding levels for several Federal drug control programs managed by ONDCP, based on evaluations and assessments of relative effectiveness. No appropriation is provided for the anti-drug media campaign and related activities. Instead, resources are redirected to restore funding for the High-Intensity Drug Trafficking Areas Program to the fiscal year 2011 level.

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

(INCLUDING TRANSFER OF FUNDS)

Appropriation, fiscal year 2011	\$238,522,000
Budget request, fiscal year 2012	200,000,000
Recommended in the bill	238,522,000
Bill compared with:

Budget request, fiscal year 2012	+38,522,000

The High Intensity Drug Trafficking Areas (HIDTA) Program provides resources to Federal and State, local, and tribal agencies in designated HIDTAs to combat the production, transportation and distribution of illegal drugs; to seize assets derived from drug trafficking; to address violence in drug-plagued communities; and to disrupt the drug marketplace.

Currently, 28 HIDTAs operate in 45 States plus the District of Columbia, Puerto Rico, and the Virgin Islands. Each HIDTA is managed by an Executive Board composed of equal numbers of Federal, State, local or tribal officials. Each HIDTA Executive Board is responsible for designing and implementing initiatives for the specific drug trafficking threats in its region. Intelligence and information sharing are key elements of all HIDTA programs.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$238,522,000 for the HIDTA Program, the same as the fiscal year 2011 level and \$38,522,000 more than the request. The Committee believes that the HIDTA program has demonstrated its effectiveness and can serve as an important tool in combating problems of drug trafficking and drug-related violence.

The Committee includes language requiring that existing HIDTAs receive funding at least equal to the fiscal year 2011 base allocation level unless the Director submits a justification for doing otherwise to the Committees on Appropriations, based on clearly articulated priorities and published performance measures.

The recommendation includes language directing ONDCP to notify the Committees on Appropriations of the initial allocation of HIDTA funds not later than 45 days after enactment, and to notify the Committees of the proposed use of discretionary funds not later than 90 days after enactment. The language directs the ONDCP Director to work in consultation with the HIDTA Directors in determining the uses of that discretionary funding.

Finally, the Committee recommendation specifies that up to \$2,700,000 may be used for auditing services and related activities.

OTHER FEDERAL DRUG CONTROL PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

Appropriation, fiscal year 2011	\$140,618,000
Budget request, fiscal year 2012	143,600,000
Recommended in the bill	101,978,000
Bill compared with:	
Appropriation, fiscal year 2011	- 38,640,000
Budget request, fiscal year 2012	- 41,622,000

This account supports a variety of other drug control activities managed or undertaken by ONDCP.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$101,978,000 for Other Federal Drug Control Programs, which is \$38,640,000 less than fiscal year 2011 and \$41,622,000 less than the request. The recommended level for fiscal year 2012 is distributed among specific programs and activities as follows:

Drug-Free Communities	\$88,600,000
Media and outreach activities	— —
Anti-Doping activities	8,982,000
World Anti-Doping Agency dues	1,896,000
Discretionary grants	2,500,000

Within the total for the account, the Committee recommends \$88,600,000 for the Drug-Free Communities program, \$6,210,000 less than fiscal year 2011 and the same as the request. This program makes grants of up to \$125,000 per year to support local coalitions to develop and implement community-based plans to reduce drug abuse among youth. These coalitions are required to include participants from a wide range of interests, including local government agencies, schools, the media, service organizations, law enforcement, parents, youth, and the business community. Local matching contributions are required. Grants are awarded on a competitive basis, and may be renewed for up to five years, after which time the coalition must compete again for any further funding.

Within this account, the Committee recommends no funding for media and outreach, rather than the \$34,930,000 appropriated in fiscal year 2011 or the \$45,000,000 included in the request for the National Youth Anti-Drug Media Campaign. While the goals of this program are laudable, the Committee's recommendation is guided by the results of evaluations of the media campaign which indicate that its effectiveness has been limited. The Committee directs resources where they are likely to do the most good, and thus recommends an increase above the request for the High-Intensity Drug Trafficking Areas program which the Committee believes is a better use of scarce funds.

Additionally, the Committee includes \$2,500,000 for ONDCP for a competitive discretionary grant program to implement programs authorized by the Office of National Drug Control Policy Reauthorization Act of 2006 (Public Law 109-469).

INTEGRATED, EFFICIENT AND EFFECTIVE USES OF INFORMATION TECHNOLOGY

(INCLUDING TRANSFER OF FUNDS)

Bill compared with:	
Appropriation, fiscal year 2011	+5,000,000
Budget request, fiscal year 2012	-55,000,000

These funds support efforts to improve the Federal Government's investments in information technology (IT).

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$5,000,000 for this new appropriation account managed by the Office of Management and Budget. The recommendation is \$55,000,000 less than the request.

The Committee appreciates the Administration's efforts to improve program and contract management of IT investments as well as the Administration's efforts to utilize cloud computing and consolidate data centers. However, much more needs to be done to improve the management of the Federal government's

\$80,000,000,000 annual investment in IT. The recommendation only provides \$5,000,000 of the amount requested because the Committee is wary that providing additional funding for this program will result in real budget savings. In order to better understand the results of the Administration's IT reform efforts and the savings generated, bill language is included requiring the submission of monthly reports on savings identified by fiscal year, agency and appropriation. This information will not only inform the Committee on the results of OMB's IT reforms but will also inform the Committee's decisions on funding IT projects in agencies across the Federal government.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$307,000 for the Operating Expenses of the Vice President's residence, which is \$19,000 less than fiscal year 2011 and the same as the request.

ADMINISTRATIVE PROVISIONS—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

(INCLUDING TRANSFER OF FUNDS AND RESCISSION)

Section 201. The Committee continues language permitting the transfer of not to exceed ten percent of funds between various ac-

counts within the Executive Office of the President, after notifying the Committees on Appropriations at least 15 days in advance.

Section 202. The Committee includes new language rescinding \$11,328,000 in unobligated prior year balances from the Counterdrug Technology Assessment Center. This rescission was proposed in the budget request.

Section 203. The Committee includes new language prohibiting funds to prepare, sign or approve statements abrogating legislation passed by the House of Representatives and the Senate and signed by the President.

Section 204. The Committee includes new language requiring the Director of the Office of Management and Budget to submit quarterly reports to the Committee on the implementation of Executive Order 13563 relating to improving regulation and regulatory review.

Section 205. The Committee includes new language requiring the Director of the Office of Management and Budget to report on the costs of implementing the Dodd-Frank Wall Street Reform and Consumer Protection Act (Public Law 111-203).

TITLE III—THE JUDICIARY

The funds recommended by the Committee in title III of the accompanying bill are for the operation and maintenance of United States Courts and include the salaries of judges, probation and pre-trial services officers, public defenders, court clerks, law clerks, and other supporting personnel, as well as security costs, information technology, and other expenses of the Federal Judiciary.

The Committee recommends a total of \$6,326,318,000 in discretionary funding for the Judiciary in fiscal year 2012, which is \$151,256,000 less than fiscal year 2011 and \$529,729,000 less than the request. The Committee recognizes that the number of cases filed and the number of persons under supervision is not under the control of the Judiciary. However, the Committee believes the Judiciary needs to continue its cost containment efforts and identify ways to reduce staffing, travel, space and other financial requirements through the use of technology and best practices.

In addition to direct appropriations, the Judiciary collects various fees and has certain multiyear funding authorities. The Judiciary uses these non-appropriated funds to offset its direct appropriation requirements. Consistent with prior year practices and section 608 of this Act, the Committee expects the Judiciary to submit a financial plan, within 60 days of enactment of this Act, allocating all sources of available funds including appropriations, fee collections, and carryover balances. This financial plan will be the baseline for purposes of reprogramming notification. The Committee notes that a bill language section included in prior years requiring a Judiciary financial plan was dropped as it is redundant to the requirement established in section 608.

Bill compared with:	
Appropriation, fiscal year 2011	+898,000
Budget request, fiscal year 2012	- 732,000

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$74,819,000 for fiscal year 2012 for the salaries and expenses of personnel and the cost of operating the Supreme Court, excluding the care of the building and grounds. The recommendation is \$898,000 more than fiscal year 2011 and is \$732,000 less than the request. The increased funding provided above the fiscal year 2011 level is for twelve additional police officers requested by the Court to meet security requirements.

The Committee continues to include bill language making \$2,000,000 available until expended for the purpose of making information technology investments. The Committee requests that the Court include an annual report with its budget justification materials, showing information technology carryover balances and describing expenditures made in the previous fiscal year and planned expenditures in the budget year.

The Architect of the Capitol has responsibility for these functions and supervises the use of this appropriation. The recommendation is equal to fiscal year 2011 and \$345,000 less than the request.

COMMITTEE RECOMMENDATION

The Court of Appeals for the Federal Circuit has exclusive national jurisdiction over a large number of diverse subject areas, in-

cluding government contracts, patents, trademarks, Federal personnel, and veterans' benefits. The Committee recommends an appropriation of \$31,472,000 for fiscal year 2012, which is \$1,039,000 less than fiscal year 2011 and \$3,667,000 less than the request.

Bill compared with:	
Appropriation, fiscal year 2011	- 213,366,000
Budget request, fiscal year 2012	- 445,311,000

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$4,790,855,000 for the operations of the regional courts of appeals, district courts, bankruptcy courts, the Court of Federal Claims, and probation and pretrial services offices. The recommendation is \$213,366,000 less than fiscal year 2011 and \$445,311,000 less than the request.

The Committee understands that the Judiciary's staffing, operations and maintenance, and information technology resources are allocated to the courts according to formulas that are approved by the Judicial Conference of the United States and equitably distribute resources based on the workload of each district. The Committee believes this is the optimal method of making such allocations and expects the Judiciary to continue to allocate its resources using this system. The Committee also expects the Administrative Office to periodically update the formulas to ensure their accuracy.

VACCINE INJURY COMPENSATION TRUST FUND

Bill compared with:	
Appropriation, fiscal year 2011	- - -
Budget request, fiscal year 2012	- 236,000

COMMITTEE RECOMMENDATION

The Committee recommends a reimbursement of \$4,775,000 for fiscal year 2012 from the Vaccine Injury Compensation Trust Fund to cover expenses of the United State Court of Federal Claims associated with processing cases under the National Childhood Vaccine Injury Act of 1986. This amount is the same as fiscal year 2011 and \$236,000 less than the request.

DEFENDER SERVICES

Appropriation, fiscal year 2011	\$1,025,693,000
Budget request, fiscal year 2012	1,098,745,000
Recommended in the bill	1,050,000,000
Bill compared with:	
Appropriation, fiscal year 2011	+24,307,000
Budget request, fiscal year 2012	-48,745,000

COMMITTEE RECOMMENDATION

This account provides funding for the operation of the Federal Public Defender and Community Defender organizations and for compensation and reimbursement of expenses of panel attorneys appointed pursuant to the Criminal Justice Act for representation in criminal cases. The Committee recommends an appropriation of \$1,050,000,000 for fiscal year 2012 which is \$24,307,000 more than fiscal year 2011 and \$48,745,000 less than the request. The recommendation does not provide an increase in the hourly panel attorney pay rate.

The sixth amendment to the Constitution provides for the right to counsel for those who can not afford it. This is a very important Constitutional protection. The Committee understands that the costs associated with this program are driven by: (1) the hourly rate paid to panel attorneys, which has grown substantially in the years prior to fiscal year 2011; (2) the costs of operating Federal defender organizations; and (3) the number of defendants and case complexity. The appropriation for this account has grown from \$709,830,000 in fiscal year 2006 to a request of \$1,098,745,000 in fiscal year 2012, more than a 50 percent increase. While the Committee believes that attorneys must be adequately compensated and defendants must be competently represented, the rapid rate of increase to this program cannot continue indefinitely. The Judiciary has had some success in recent years implementing cost control measures in other Judiciary programs. The Judicial Conference must find ways to substantially reduce the level of resources proposed in future years for the Defender Services program. The Committee expects the fiscal year 2013 budget request to identify significant savings in this program.

FEES OF JURORS AND COMMISSIONERS

Appropriation, fiscal year 2011	\$52,305,000
Budget request, fiscal year 2012	59,727,000
Recommended in the bill	57,305,000
Bill compared with:	
Appropriation, fiscal year 2011	+5,000,000
Budget request, fiscal year 2012	-2,422,000

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$57,305,000 for payments to jurors, which is \$5,000,000 more than fiscal year 2011 and \$2,422,000 less than the request.

COURT SECURITY

(INCLUDING TRANSFERS OF FUNDS)

Appropriation, fiscal year 2011	\$466,672,000
Budget request, fiscal year 2012	513,058,000
Recommended in the bill	500,000,000
Bill compared with:	
Appropriation, fiscal year 2011	+33,328,000
Budget request, fiscal year 2012	- 13,058,000

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$500,000,000 for Court Security in fiscal year 2012 to provide for necessary expenses of security and protective services in courtrooms and adjacent areas. This is \$33,328,000 more than fiscal year 2011 and \$13,058,000 less than the request.

The recommended increase over fiscal year 2011 will provide for additional court security officers and equipment to address the highest priority security needs identified by the courts and the U.S. Marshals Service.

The Committee is aware of significant security deficiencies that exist in many older courthouses which in the past have only been corrected by constructing a new facility. Given the current fiscal climate, the cost of constructing new facilities to address these security concerns is in many cases too expensive. As a more cost effective way to address these security concerns, the Committee has included \$20,000,000 in the General Services Administration's Federal Buildings Fund specifically for security alterations to courthouses. The Committee directs the Judiciary to work collaboratively with the General Services Administration and the U.S. Marshals Service to identify and fund cost effective security solutions to ensure the safety of court staff and the public.

Bill compared with:	
Appropriation, fiscal year 2011	- 2,902,000

COMMITTEE RECOMMENDATION

The Administrative Office of the United States Courts (AO) provides administrative and management support to the United States Courts, including the probation and bankruptcy systems. It also supports the Judicial Conference of the United States in determining Federal Judiciary policies, in developing methods to assist the courts to conduct business efficiently and economically, and in enhancing the use of information technology in the courts. The

Committee recommends an appropriation of \$80,007,000 for the AO, which is \$2,902,000 less than fiscal year 2011 and \$8,448,000 less than the request.

COMMITTEE RECOMMENDATION

The Federal Judicial Center (FJC) improves the management of Federal Judicial dockets and court administration through education for judges and staff, and research, evaluation, and planning assistance for the courts and the Judicial Conference. The Committee recommends an appropriation of \$26,318,000 for the FJC for fiscal year 2012, which is \$955,000 less than fiscal year 2011 and \$2,711,000 less than the request.

UNITED STATES SENTENCING COMMISSION

Bill compared with:	
Appropriation, fiscal year 2011	– 588,000
Budget request, fiscal year 2012	– 1,691,000

COMMITTEE RECOMMENDATION

The purpose of the Commission is to establish, review, and revise sentencing guidelines, policies, and practices for the Federal criminal justice system. The Commission is also required to monitor the operation of the guidelines and to identify and report necessary changes to the Congress. The Committee recommends \$16,215,000 for the Commission for fiscal year 2012, which is \$588,000 less than fiscal year 2011 and \$1,691,000 less than the request.

ADMINISTRATIVE PROVISIONS—THE JUDICIARY

(INCLUDING TRANSFER OF FUNDS AND RESCISSION)

Section 301. The Committee continues language to permit funds for salaries and expenses to be available for employment of experts and consultant services as authorized by 5 U.S.C. 3109.

Section 302. The Committee continues language that permits up to five percent of any appropriation made available for fiscal year 2012 to be transferred between Judiciary appropriations accounts provided that no appropriation shall be decreased by more than five percent or increased by more than ten percent by any such transfer except in certain circumstances. In addition, the language provides that any such transfer shall be treated as a reprogramming of funds under sections 604 and 608 of the accompanying bill

and shall not be available for obligation or expenditure except in compliance with the procedures set forth in those sections.

Section 303. The Committee continues language authorizing not to exceed \$11,000 to be used for official reception and representation expenses incurred by the Judicial Conference of the United States.

Section 304. The Committee continues language enabling the Judiciary to contract for repairs under \$100,000.

Section 305. The Committee continues language to authorize a court security pilot program.

Section 306. The Committee continues language extending a temporary judgeship in Kansas.

Section 307. The Committee includes language rescinding \$100,000 of prior year unobligated balances from the United States Sentencing Commission.

Section 308. The Committee includes new language requiring the President submit to Congress, without change, proposed supplemental appropriations submitted to the President by the legislative branch and the judicial branch.

TITLE IV—DISTRICT OF COLUMBIA

FEDERAL FUNDS

FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

Appropriation, fiscal year 2011	\$35,030,000
Budget request, fiscal year 2012	35,100,000
Recommended in the bill	30,000,000
Bill compared with:	
Appropriation, fiscal year 2011	– 5,030,000
Budget request, fiscal year 2012	– 5,100,000

The Resident Tuition Support program was created by the District of Columbia College Access Act of 1999 to provide District college-bound students the opportunity to expand their higher education choices. The program receives its funding through a Federal appropriation which is deposited into a dedicated account under the control of the District of Columbia Chief Financial Officer. This program awards grants up to \$10,000 annually for undergraduate District students to attend eligible four-year public universities and colleges nationwide at in-state tuition rates. Grants up to \$2,500 per year are available for students to attend private institutions in the D.C. metropolitan area as well as public two-year community colleges.

COMMITTEE RECOMMENDATION

The Committee recommends a Federal payment of \$30,000,000 for the resident tuition support program, which is \$5,030,000 less than fiscal year 2011 and \$5,100,000 less than the request. The funding recommendation, along with unobligated prior year balances, is sufficient to fully fund the program’s proposed expenditure plan.

FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS
IN THE DISTRICT OF COLUMBIA

Appropriation, fiscal year 2011	\$14,970,000
Budget request, fiscal year 2012	14,900,000
Recommended in the bill	14,900,000
Bill compared with:	
Appropriation, fiscal year 2011	- 70,000
Budget request, fiscal year 2012	- - -

As the seat of the national government, the District of Columbia has a unique and significant responsibility for protecting the property and personnel of the Federal government. The Federal Payment for Emergency Planning and Security Costs is provided to help address the impact of the Federal presence on public safety in the District of Columbia.

COMMITTEE RECOMMENDATION

The Committee recommends a Federal payment of \$14,900,000 for emergency planning and security costs, which is \$70,000 less than fiscal year 2011 and the same as the request.

The Committee continues to require a detailed justification be submitted with the budget request each year, as well as a report detailing any deviation from the plan outlined in the justification no later than 60 days after the end of the fiscal year.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA COURTS

Appropriation, fiscal year 2011	\$242,933,000
Budget request, fiscal year 2012	229,068,000
Recommended in the bill	224,394,000
Bill compared with:	
Appropriation, fiscal year 2011	- 18,539,000
Budget request, fiscal year 2012	- 4,674,000

COMMITTEE RECOMMENDATION

The Committee recommends a Federal payment of \$224,394,000 for operation of the District of Columbia Courts, which is \$18,539,000 less than fiscal year 2011 and \$4,674,000 less than the request. This amount includes \$11,998,000 for the Court of Appeals, \$109,307,000 for the Superior Court, \$64,984,000 for the Court System, and \$38,105,000 for capital improvements to courthouse facilities.

The recommended level includes funding at the fiscal year 2011 level for the Court of Appeals and the Court System accounts. For the Superior Court, the Committee recommendation includes a \$1,000,000 increase above fiscal year 2011 levels to meet pressing public safety needs. The recommendation does not continue bill language from prior years requiring the Court to use the General Services Administration for payroll and financial services. Under the Defender Services in the District of Columbia Courts account, new language permits the transfer of funds from the Defender Services to the District of Columbia Courts Capital Improvements account as requested. This will provide up to an additional \$10,000,000 for improvements to courthouse facilities.

The account provides funding for the two judicial commissions. The first is the Judicial Nomination Commission (JNC) which recommends a panel of three candidates to the President for each judicial vacancy in the District of Columbia Court of Appeals and Superior Court. From the panel selected by the JNC, the President nominates a person for each vacancy and submits their name for confirmation to the Senate. The second commission is the Commission on Judicial Disabilities and Tenure (CJDT) which has jurisdiction over all judges of the Court of Appeals and Superior Court to determine whether a judge's conduct warrants disciplinary action and whether involuntary retirement of a judge for health reasons is warranted. In addition, the CJDT conducts evaluations of judges seeking reappointment and judges who retire and wish to continue service as a senior judge.

COMMITTEE RECOMMENDATION

The Committee recommends a Federal payment of \$294,000 for the Commission on Judicial Disabilities and Tenure, and \$205,000 for the Judicial Nomination Commission. This is the same as fiscal year 2011 and \$1,000 less than the request.

TITLE V—INDEPENDENT AGENCIES

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$2,744,000
Budget request, fiscal year 2012	3,200,000
Recommended in the bill	2,608,000
Bill compared with:	
Appropriation, fiscal year 2011	- 136,000
Budget request, fiscal year 2012	- 592,000

The Administrative Conference of the United States (ACUS) is an independent agency and advisory committee which was created

to study administrative processes in order to recommend improvements to Congress and Federal agencies.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$2,608,000 for ACUS, which is \$136,000 less than fiscal year 2011 and \$592,000 less than the request. After a 15-year hiatus, ACUS resumed operations in April 2010 upon the confirmation of the Chairman by the Senate. Funding provided will enable ACUS to fund, supervise, and review a full program of research projects with the aim of improving the fairness and effectiveness of procedures by which Federal agencies administer regulatory, benefit, and other government programs.

CONSUMER PRODUCT SAFETY COMMISSION

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$114,788,000
Budget request, fiscal year 2012	122,000,000
Recommended in the bill	111,288,000
Bill compared with:	
Appropriation, fiscal year 2011	- 3,500,000
Budget request, fiscal year 2012	- 10,712,000

The Consumer Product Safety Act established the Consumer Product Safety Commission (CPSC), an independent Federal regulatory agency, to reduce the risk of injury associated with consumer products.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$111,288,000 for the CPSC for fiscal year 2012, which is \$3,500,000 less than fiscal year 2011 and \$10,712,000 less than the request.

The Committee has strong concerns regarding the consumer product complaint database required by the Consumer Product Safety Improvement Act of 2008. The Committee believes that the construction of this database is flawed and, therefore, is of little value to consumers and manufacturers. While the intent of the database is to protect consumers from harm, the information required to submit an incident report of harm through the database is insufficient. Additional information is needed to improve the accuracy and reliability of the database. The Committee believes the \$3,000,000 annual investment in the database would be more effectively spent elsewhere and has included language in section 622 prohibiting funds from being spent on this database. The fiscal year 2011 year-long continuing resolution requires the Government Accountability Office (GAO) to conduct an analysis of the database. The Committee hopes the CPSC will implement any GAO recommendations and improve the reliability of the information provided. If the CPSC takes sufficient actions to improve the database, the Committee will reconsider the funding prohibition.

The Committee believes that implementation of the Consumer Product Safety Improvement Act of 2008 (CPSIA) law has been both non-risk-based and expensive for the CPSC, and in some cases, onerous and costly to manufacturers. The CPSC should focus its resources where they can make the most impact for consumers,

which are in the areas of risk assessment and enforcement. The Committee includes section 624 requiring GAO to conduct a quantitative and qualitative cost benefit analysis of the CPSIA.

The Committee has included section 630 prohibiting the implementation of Section 101(b) of the CPSIA as it relates to lead in off-highway vehicles. The Committee believes that Section 101(b) calls for non-risk based testing and content requirements. The Committee notes that the Commission currently has a stay on these requirements; however, the Committee remains concerned about the impact this mandate would have on children should the Commission's stay expire at the end of the current year. The Committee believes that should the stay on both lead testing and content expire, children are more likely to be hurt due to use of adult off-highway vehicles than due to lead exposure found in components of these vehicles, such as valve stems and battery cables.

The Committee supports the Import Safety Initiative which positions CPSC investigators at key ports of entry in order to stop defective products from entering the United States. The CPSC's coordination with U.S. Customs and Border Protection (CBP) is a cost efficient way to increase enforcement capabilities at our borders and the Committee believes that resources in this area are being spent in a targeted and effective way. The Committee notes that most of the CPSC's product recalls in recent years have been imported products and once products are in the marketplace, it is often difficult to recall them. By targeting products prior to purchase, the Commission is making an impact in an area that will substantially protect consumers. The Committee urges CPSC to continue its efforts in working with CBP to ensure the safety of imported products.

The Committee is also supportive of the CPSC's efforts in establishing a regional office in China. Many of the consumer products that Americans use every day come from China, and the CPSC's efforts to establish a presence in this region, along with efforts at our ports, suggests increased effectiveness in stemming the flow of defective and harmful products coming in from overseas.

The Committee recommends \$500,000 be available until September 30, 2013, for the pool and spa safety grants program established by the Virginia Graeme Baker Pool and Spa Safety Act. In addition, the Committee directs the CPSC to continue its successful pool and spa safety information campaign.

ELECTION ASSISTANCE COMMISSION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

Appropriation, fiscal year 2011	\$16,267,000
Budget request, fiscal year 2012	13,716,000
Recommended in the bill	6,858,000
Bill compared with:	
Appropriation, fiscal year 2011	-9,409,000
Budget request, fiscal year 2012	-6,858,000

The Election Assistance Commission (EAC) was established by the Help America Vote Act of 2002 (HAVA) and is charged with implementing provisions of that Act relating to the reform of Federal election administration.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$6,858,000 for EAC salaries and expenses, which is \$9,409,000 less than fiscal year 2011 and \$6,858,000 less than the request. The recommendation also provides for the transfer of \$1,625,000 to the National Institute of Standards and Technology for election reform activities, which is \$1,825,000 less than the transfer in fiscal year 2011 and \$1,625,000 less than the request. The Committee also recommends \$1,500,000 for the Office of Inspector General for the Election Assistance Commission.

The Committee believes that while the request is less than fiscal year 2011, it does not go far enough in realizing efficiencies within the EAC. The EAC is close to the end of distributing all of the Section 251 Requirements grant payments under HAVA and no additional election reform grant funding is provided this year that requires administration. The Committee remains concerned that the EAC's operating costs are too high. The Commission's fiscal year 2012 requested amount for management expenses is 40 percent higher than the requested amount for grants programs to be managed. The Committee believes there are efficiencies yet to be realized within the Commission's administrative operations.

The Committee notes that the National Association of Secretaries of State (NASS) has once more adopted a resolution encouraging dissolving the EAC. The Committee finds this especially concerning as NASS is the constituency that the EAC should be serving most. The Committee believes it is possible that the EAC has outgrown its utility in this area. While the Committee strongly supports the successful administration of Federal elections, it has significant concerns about the effectiveness of the EAC in this regard.

FEDERAL COMMUNICATIONS COMMISSION

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$335,794,000
Budget request, fiscal year 2012	358,801,000
Recommended in the bill	319,004,000
Bill compared with:	
Appropriation, fiscal year 2011	- 16,790,000
Budget request, fiscal year 2012	- 39,797,000

The mission of the Federal Communications Commission (FCC) is to implement the Communications Act of 1934 and assure the availability of high quality communications services for all Americans.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$319,004,000 for the salaries and expenses of the FCC for fiscal year 2012, all of which is to be derived from offsetting collections. This level is \$16,790,000 less than fiscal year 2011 and \$39,797,000 less than the request.

The Committee recommendation includes bill language, similar to that included in previous Appropriations Acts, which allows: (1) up to \$4,000 for official reception and representation expenses; (2) purchase and hire of motor vehicles; (3) special counsel fees; (4) collection of \$319,004,000 in section 9 fees; (5) a prohibition on

amounts collected in excess of \$319,004,000 from being available for obligation; (6) a prohibition on remaining offsetting collections from prior years from being available for obligation; and (7) retention of \$85,000,000 of proceeds from the use of a competitive bidding system.

The Committee remains concerned with the Commission's decision to begin regulating the Internet, specifically the precedent that this decision sets and its impact on future innovation. Therefore, the Committee has included section 621 to prohibit funds for implementation of the Commission's net neutrality order.

The Committee is aware of concerns related to possible interference to Global Positioning System (GPS) devices due to terrestrial broadband service. The Committee remains engaged on this issue and awaits the final report by the Technical Working Group.

The Committee believes that FCC involvement in cybersecurity should not result in regulations or activities that duplicate or contradict the multi-agency cybersecurity mitigation and response efforts being lead by the Departments of Defense and Homeland Security.

The Committee understands the FCC is promulgating a rule to address abuses in intercarrier compensation related to the modernization of the Universal Service Fund. The Committee recognizes the important service that local exchange carriers provide to rural America and encourages the Commission to maintain a reasonable intercarrier compensation system for rural local exchange carriers.

The Committee is concerned about the disparity in access to broadband between Puerto Rico and the 50 states. Recent studies have found that only 31–37 percent of residents of Puerto Rico have adopted broadband measured at the lowest speed tracked by the Commission. The Committee encourages the Commission to implement policies that increase broadband accessibility and adoption in Puerto Rico.

The Committee notes that the FCC has not completed its 4-year proceeding to improve the carriage complaint process for independent channels, including expedited review, as mandated by statute. The Committee urges the FCC to promptly complete this proceeding to provide an effective complaint process for independent channels.

The advancement of wireless broadband technology has had a significant and beneficial impact on both consumers and businesses. However, in order for it to reach its full potential, consumers and businesses must be assured that wireless broadband systems are secure and sensitive data are not vulnerable to intentional or unintentional capture. The FCC is directed to report to the Committee within 180 days of enactment of this Act on its activities to deter, prevent and investigate allegations of privacy violations regarding the use of wireless broadband networks. The Committee expects the Commission to vigorously and expeditiously investigate such violations.

Appropriation, fiscal year 2011	\$42,942,000
Budget request, fiscal year 2012	45,261,000
Recommended in the bill	45,261,000
Bill compared with:	
Appropriation, fiscal year 2011	+2,319,000
Budget request, fiscal year 2012	-- --

Funding for the Office of the Inspector General (OIG) at the Federal Deposit Insurance Corporation (FDIC) is provided pursuant to 31 U.S.C. 1105(a)(25), which requires a separate appropriation account for appropriations for each Office of Inspector General established under section 11(2) of the Inspector General Act of 1978.

COMMITTEE RECOMMENDATION

The Committee recommends \$45,261,000 from the Deposit Insurance Fund and the Federal Savings and Loan Insurance Corporation (FSLIC) Resolution Fund to finance the OIG for fiscal year 2012, which is \$2,319,000 more than fiscal year 2011 and the same as the request. The increase is provided to enable the OIG to oversee workload associated with the increase in bank failures, the increase in resolution and receivership activity, and new FDIC programs and activities established in response to the downturn in the economy that impact the Deposit Insurance Fund.

FEDERAL ELECTION COMMISSION

Bill compared with:	
Appropriation, fiscal year 2011	-- --
Budget request, fiscal year 2012	- 647,000

The Federal Election Commission (FEC) administers the disclosure of campaign finance information, enforces limitations on contributions and expenditures, and performs other tasks related to Federal elections.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$66,367,000 for the FEC, the same as fiscal year 2011 and \$647,000 less than the request.

FEDERAL LABOR RELATIONS AUTHORITY
SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$24,723,000
Budget request, fiscal year 2012	26,440,000
Recommended in the bill	24,105,000
Bill compared with:	
Appropriation, fiscal year 2011	- 618,000
Budget request, fiscal year 2012	- 2,335,000

Established by title VII of the Civil Service Reform Act of 1978, the Federal Labor Relations Authority (FLRA) serves as a neutral

arbitrator in the labor activities of non-postal Federal employees, Departments and agencies, and Federal unions on matters outlined in the Act, including collective bargaining and the settlement of disputes. Establishment of the FLRA gives full recognition to the role of the Federal Government as an employer. Under the Foreign Service Act of 1980, the FLRA also addresses similar issues affecting Foreign Service personnel by providing full staff support for the Foreign Service Impasse Disputes Panel and the Foreign Service Labor Relations Board.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$24,105,000 for the FLRA, which is \$618,000 less than fiscal year 2011 and \$2,335,000 less than the request.

FEDERAL TRADE COMMISSION

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$291,363,000
Budget request, fiscal year 2012	326,000,000
Recommended in the bill	284,067,000
Bill compared with:	
Appropriation, fiscal year 2011	- 7,296,000
Budget request, fiscal year 2012	- 41,933,000

The mission of the Federal Trade Commission (FTC) is to enforce a variety of Federal antitrust and consumer protection laws. Appropriations for both the Antitrust Division of the Department of Justice and the Commission are partially financed with Hart-Scott-Rodino Act pre-merger filing fees. The Commission's appropriation is also partially offset by Do-Not-Call registry fees.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$284,067,000 for the salaries and expenses of the FTC for fiscal year 2012, which is \$7,296,000 less than fiscal year 2011 and \$41,933,000 less than the request. The Congressional Budget Office estimates \$108,000,000 of collections from Hart-Scott-Rodino premerger filing fees and \$21,000,000 of collections from Do-Not-Call list fees will partially offset the appropriation requirement for this account.

The Committee understands and appreciates the current and future impact of the increase in childhood obesity in this country and believes that the early adoption of healthy eating habits is critical to the long-term health of our nation. The Committee believes the Federal Trade Commission, either as part of the Interagency Working Group on Food Marketed to Children or acting independently, should not issue principles or guidelines governing food marketed to children unless a peer-reviewed scientific study conclusively demonstrates that regulating food marketing directed to children is the most effective way of changing long-term eating behavior and reducing obesity. Furthermore, the FTC should not rely on any guidance issued by the Interagency Working Group on Food Marketed to Children to engage in enforcement actions under its existing authority.

LIMITATIONS ON AVAILABILITY OF REVENUE

Limitations on Availability of Revenue:	
Limitation on availability, fiscal year 2011	\$7,597,540,000
Limitation on availability, budget estimate, fiscal year 2012	9,508,511,000
Recommended in the bill	7,223,801,000
Bill compared with:	
Availability limitation, fiscal year 2011	- 373,739,000
Availability limitation, fiscal year 2012 request	- 2,284,710,000

The Federal Buildings Fund (FBF) finances the activities of the Public Buildings Service, which provides space and services for Federal agencies in a relationship similar to that of landlord and tenant. The FBF, established in 1975, replaces direct appropriations by using income derived from rent assessments, which approximate commercial rates for comparable space and services. The Committee makes funds available through a process of placing limitations on obligations from the FBF as a way of allocating funds for various FBF activities.

COMMITTEE RECOMMENDATION

The Committee recommends a limitation on the availability of funds of \$7,223,801,000 for the Fund, which is \$373,739,000 less than the fiscal year 2011 and \$2,284,710,000 less than the request.

To carry out the purposes of the Federal Buildings Fund established pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 592), the revenues and collections deposited into the Fund, shall be available for necessary expenses in the aggregate amount of \$7,223,801,000 of which: \$0 is for construction (including funds for sites and expenses and associated design and construction services), \$280,000,000 is for repairs and alterations, \$126,801,000 is for installment acquisition payments (including payments on purchase contracts), \$4,700,000,000 is for rental of space, and \$2,117,000,000 is for building operations.

CONSTRUCTION AND ACQUISITION

Limitations on Availability of Revenue:	
Limitation on availability, fiscal year 2011	\$82,000,000
Limitation on availability, budget estimate, fiscal year 2012	839,642,000
Recommended in the bill	---
Bill compared with:	
Availability limitation, fiscal year 2011	- 82,000,000
Availability limitation, fiscal year 2012 request	- 839,642,000

The construction and acquisition activity funds site, design, construction, and management and inspection costs for construction of new Federal facilities.

COMMITTEE RECOMMENDATION

The Committee recommends a limitation of \$0 for construction and acquisition, which is \$82,000,000 less than fiscal year 2011 and \$839,642,000 less than the request. Adding to the Federal inventory of buildings is not welcomed at a time when the management and use of the current inventory is less than optimal.

Civilian Property BRAC.—The Committee supports the concept of applying a BRAC-like process to disposing unneeded civilian Federal buildings and land. Multiple Administrations have tried to reduce the cost and liability associated with owning vacant, contaminated, excess, or otherwise unusable assets, but without success. The solution is neither quick nor simple because the problem is time-consuming and complicated, involving multiple agencies, Congressional jurisdictions, levels of government, expenses, and stakeholders. Moreover, the revenues and expenses may not coincide with the costs and benefits however much a proposal is put forward as budget-neutral. Nonetheless, the Committee believes a Civilian Property BRAC is a meritorious idea and deserving of serious consideration. Should the Congress move forward with legislation to create a Civilian Property BRAC, the Committee will lend its support as able.

The Committee prohibits any funding appropriated for any courthouse project that has yet to be completed to be used by GSA for any purpose other than to complete the courthouse project. Further, should the land purchased for the courthouse project be sold, the Committee prohibits the GSA from using the proceeds of the sale of the land to be used for any purpose than courthouses.

REPAIRS AND ALTERATIONS

Limitations on Availability of Revenue:	
Limitation on availability, fiscal year 2011	\$280,000,000
Limitation on availability, budget estimate, fiscal year 2012	868,902,000

Bill compared with:	
Availability limitation, fiscal year 2011	---
Availability limitation, fiscal year 2012 request	- 588,902,000

The repairs and alterations activity funds design, construction and management and inspection for the repair, alteration, and modernization of existing real estate assets in addition to various special programs.

COMMITTEE RECOMMENDATION

The Committee recommends a limitation of \$280,000,000 for repairs and alterations, which is the same as fiscal year 2011 and \$588,902,000 less than the request.

Special Emphasis Programs.—The limitation consists of \$15,000,000 for the Fire Prevention program; \$245,000,000 for Basic Repairs and Alterations; and \$20,000,000 for a new U.S. Courthouse Capital Security program. Recent events, such as the 2010 shooting at the Las Vegas courthouse, continue to highlight the security needs of all Federal facilities. Many Federal courthouses do not meet current security standards. Rather than address these risks with the construction of new courthouses, the Committee directs GSA, the Judiciary, and the U.S. Marshals Service to begin improving the security of existing courthouses with a new special emphasis program. GSA and the Judiciary should assess the condition and usage of courthouses and identify cost-efficient and timely alternations. GSA and the Judiciary shall submit a report to the Committee within 90 days of enactment of this Act that outlines its plan to allocate this funding.

Energy Saving Lighting Technologies.—The Committee has been told that GSA discourages the use of LED lights for general office

lighting. The Committee directs the GSA to provide a report about the costs and benefits of using of LED lights for general office lighting within 90 days of enactment of this Act. If benefits exceed costs, then the Committee expects GSA to incorporate LED lights into GSA's building specifications.

The installment acquisition payments are interest payments to the Federal Financing Bank for facilities constructed under the Public Building Amendment of 1972 and lease-purchase agreements since 1987, a total of 80 projects.

COMMITTEE RECOMMENDATION

The Committee recommends a limitation of \$126,801,000 for installation acquisition payments, which is \$8,739,000 less than fiscal year 2011 and the same as the budget request.

RENTAL OF SPACE

Limitations on Availability of Revenue:

Bill compared with:	
Availability limitation, fiscal year 2011	-130,000,000
Availability limitation, fiscal year 2012 request	-585,198,000

The rental of space program funds lease payments made to privately-owned buildings, temporary space for Federal employees during major repair and alteration projects, and relocations from Federal buildings due to forced moves and relocations as a result of health and safety conditions.

COMMITTEE RECOMMENDATION

GENERAL ACTIVITIES

GOVERNMENT-WIDE POLICY

Appropriation, fiscal year 2011	\$66,488,000
Budget request, fiscal year 2012	105,140,000
Recommended in the bill	64,826,000
Bill compared with:	
Appropriation, fiscal year 2011	– 1,662,000
Budget request, fiscal year 2012	– 40,314,000

The Office of Government-Wide Policy provides Federal agencies with guidelines, best practices, and performance measures for complying with all the laws, regulations, and executive orders related to: acquisition and procurement, personal and real property management, travel and transportation management, electronic customer service delivery, and use of Federal advisory committees.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$64,826,000, which is \$1,662,000 less than fiscal year 2011 and \$40,314,000 less than the request.

Federal Vehicles.—The Federal Government manages the largest vehicle fleet in United States consisting of 662,164 motor vehicles that cost taxpayers \$4.6 billion (e.g., depreciation, maintenance, fuel, and indirect costs) in fiscal year 2010. Each Federal agency is responsible for independently managing their fleet in accordance with Federal motor vehicle management regulations. Within the constraints of their budgets, agencies determine the number of vehicles needed to accomplish their missions, what types of vehicles their missions require, and whether it is better to own or lease those vehicles.

The General Services Administration (GSA) is responsible for reporting on the size, composition, and condition of the fleet and providing agencies with guidance on how to achieve the optimal inventory to accomplish their mission, eliminate unnecessary and non-essential vehicles, and operate a cost-effective fleet through its expected lifecycle. A recent report on the increased acquisition of limousines, however, is evidence that GSA's annual Federal Fleet Performance report is unreliable. GSA collects information about limousines, but does not provide a definition for a limousine. Consequently, some agencies reported buses and sedans in this category, when its is traditionally used to report on full-size sedans equipped with armor for the security of officials and dignitaries.

Reducing the size and cost of the Federal fleet begins with a thorough understanding of the size and cost of the Federal fleet. In order to the make the Federal Fleet Performance a reliable and useful document for making informed decisions, the Committee directs the GSA to review how data for the report is collected, compiled, and analyzed, beginning with providing a definition of a limousine and creating a category for armored passenger vehicles. In addition, the Committee directs GSA to require agencies to study

their vehicle usage and management, including vehicles used for home-to-work transportation, starting with light-duty vehicles to be followed by medium and heavy-duty trucks. These studies must be posted on agency websites along with GSA commentary and recommendations no later than June 1, 2012.

Federal Travel.—Travel is an inescapable aspect of some government programs, such as bank examinations, food and safety inspections, and disaster assistance. Other travel related to conferences, meetings, and training is more subjective and intangible. Individual agencies determine for themselves if travel is essential to accomplish their mission. Once the decision to travel has been made, however, it should commence in a cost-efficient and convenient manner. To that end, the Committee directs GSA to create the appropriate interdisciplinary and interagency teams to review Federal travel regulations to revise stale and outdated policies, beginning with rental cars followed by meals, incidentals, lodging, airfare, and other ground transportation. GSA shall provide interim reports to the House and Senate Committees on Appropriations by January 30 and May 30, 2012, and a final report by July 30, 2012. After the review is completed and incorporated into Federal travel regulations, Government Accountability Office is directed to report to the House and Senate Committees on Appropriations on whether the revisions result in measurable reductions in cost.

The audit function provides internal and contract audits. Internal audits review and

INFORMATION AND ENGAGEMENT FOR CITIZENS

Appropriation, fiscal year 2011	\$ ---
Budget request, fiscal year 2012	---
Recommended in the bill	50,000,000
Bill compared with:	
Appropriation, fiscal year 2011	+50,000,000
Budget request, fiscal year 2012	+50,000,000

The Committee shares the Administration’s enthusiasm for sharing Federal information with citizens—information that was collected and stored at taxpayer expense—and making it easier for citizens to conduct transactions with their government, especially for services where the government has a monopoly, such as patents, passports, and tax administration. In these cases, citizens have no alternative but to subject themselves to the hours, locations, and means that the government chooses, however inefficient, inconvenient, or aggravating.

To that end, the bill creates an “Information and Engagement for Citizens” account by combining the “Electronic Government Fund” and “Federal Citizen Services Fund”. While these funds were created at different periods of time and developed different programs, they share a common objective—making it easier for citizens to understand and interact with their government. Whether that means delivering information in the mail or in a tweet, answering questions on the phone or on-line, or tracking grants and business opportunities, the purpose of “Information and Engagement for Citizens” is to provide electronic or other methods of providing access and understanding of Federal information, benefits, and services to citizens, businesses, other governments, and the media.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$50,000,000, which is \$50,000,000 more than fiscal year 2011 and \$50,000,000 more than the request. In fiscal year 2011, the “Electronic Government Fund” was appropriated \$7,984,000 and the “Federal Citizen Services Fund” was appropriated \$34,116,000. The Committee expects the funds provided for these activities, combined with efficiency gains and resource prioritization, will result in increased delivery of information to the public and in the ease of transaction with the government.

All the income collected by the Office of Citizen Services and Innovative Technologies (OCSIT) in the form of reimbursements from

Federal agencies, user fees for publications ordered by the public, payments from private entities for services rendered, and gifts from the public is available to the OCSIT without regard to fiscal year limitations, but is subject to an annual limitation of \$60,000,000. Any revenues accruing in excess of this amount shall remain in the fund and are not available for expenditure except as authorized in appropriation Acts.

The Committee continues to want to review its performance of “e-initiatives” and expects the Office of Management and Budget to submit a detailed expenditure plan prior to obligation of funds under this account. The plan should describe the projects selected, and the budget, timeline, objectives and expected benefits and savings realized for each project.

The Committee recommends \$25,000,000 for the Recovery Accountability and Transparency Board, which is \$25,000,000 more than fiscal year 2011 and \$6,543,000 less than the request.

SECURITIES AND EXCHANGE COMMISSION

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$1,185,000,000
Budget request, fiscal year 2012	1,407,483,000
Recommended in the bill	1,185,000,000
Bill compared with:	
Appropriation, fiscal year 2011	- - -
Budget request, fiscal year 2012	- 222,483,000

The primary mission of the Securities and Exchange Commission (SEC) is to protect investors, maintain the integrity of the securities markets, and assure adequate information on the capital mar-

kets is made available to market participants and policy makers. This includes monitoring the rapid evolution of the capital markets, ensuring full disclosure of all appropriate financial information, regulating the Nation's securities markets, and preventing fraud and malpractice in the securities and financial markets.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$1,185,000,000 for the SEC, which is the same as fiscal year 2011 and \$222,483,000 less than the request. The Committee designates \$6,790,000 as the minimum funding for the SEC Office of Inspector General.

The Committee remains troubled with the SEC's management of its operating budget. The Commission has a troubled past with regard to its information technology procurement, renting of leased space, as well as its ability to produce accurate financial statements. The Committee believes that these lapses demonstrate a concerning lack of ability to manage funds. This Committee is reticent to provide more funding for the Commission until efficiencies outlined in the Boston Consulting Group (BCG) report are enacted.

The Committee concurs with the recommendation put forth in the BCG report stating that the Commission needs to reorganize in order to become more efficient and remains concerned about the number of offices directly reporting to the Chairman. The Committee is encouraged that the SEC consolidated the Office of the Executive Director with the Office of the Chief Operating Officer, as recommended in the BCG study, in order to realize greater efficiencies. However, the Committee believes there are more efficiencies to be realized by providing additional authorities to the Chief Operating Officer (COO). Specifically, the Committee encourages the Commission to establish a coordinating council, chaired by the COO, with the authority to resolve disputes among divisions and offices. Along with a redesign of the Commission's organizational structure, the Committee supports the BCG recommendation that the Commission implement a continuous improvement program in order to systematically reduce costs throughout the Commission.

The Committee supports continued funding for high priority information technology programs within the Commission. However, the Committee is concerned with past technology acquisition decisions which used sole-source contracts and resulted in the waste of taxpayer dollars. This failure in acquisition management was easily avoidable had the Commission used its Capital Planning and Investment Control process. The Committee agrees with the Inspector General's report and urges the Commission's Office of Information Technology to institute appropriate procedures to ensure future technology acquisitions undergo a comprehensive review in order to avoid past mistakes.

The Commission made poor decisions recently with regard to their leasing practices. With the passage of the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Commission was given elevated funding levels that were authorized but never appropriated. The Commission chose to rent over 900,000 square feet of office space at Constitution Center in Southwest Washington, D.C., instead of using its resources to invest in needed IT upgrades

or hire staff with priority skill sets. The Committee has taken note of the Commission's leased space at Constitution Center and remains concerned with the Commission's ability to prioritize and budget its funding resources. While the Commission has responded to the Inspector General's recommendations, the Committee remains interested in seeing tangible changes to the SEC's leasing practices. The Committee bill includes section 629 to begin addressing leasing reforms.

The Committee believes the Commission should target its recruiting toward persons with expertise in capital markets operations and the business operations of the entities that the SEC regulates. Experts in these areas can play a key role in the Commission's work to maintain free, orderly, and properly functioning markets.

The Committee remains concerned with the SEC's track record in dealing with Ponzi schemes. The Committee strongly supports the SEC's determination that certain individuals who invested money through the Stanford Group Company are entitled to the protections of the Securities Investor Protection Act of 1970 (SIPA). Furthermore, the Committee fully supports the SEC's request to the Securities Investor Protection Corporation (SIPC) to initiate a court proceeding under SIPA to liquidate the broker-dealer. The Committee expects the SIPC to proceed accordingly.

The Committee is interested in the Commission's proposed rulemaking to establish a registration program for municipal financial advisors under Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act. The Committee is concerned that the Commission's proposed rule may be overly broad. The Committee expects that the final rule will be consistent with legislative intent and will not duplicate existing regulations. Accordingly, the Committee encourages the Commission to take into consideration comments submitted in response to the temporary rule and consult with bank regulators to ensure that the final rule incorporates the existing bank supervisory and examination system to achieve the goals of Section 975.

The Commission has a number of joint rulemakings with the Commodity Futures Trading Commission as required by the Dodd-Frank Wall Street Reform and Consumer Protection Act. Given the broad scope and depth of rules required to be issued under the Dodd-Frank Act, the Committee directs all regulatory bodies to move in unison and properly address market concerns when issuing all rules, especially with regard to joint rulemakings.

The Committee takes note that the SEC is proceeding to implement Section 417 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, related to studies of short selling, and will continue to monitor its progress.

SELECTIVE SERVICE SYSTEM

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$24,226,000
Budget request, fiscal year 2012	24,500,000
Recommended in the bill	23,620,000
Bill compared with:	
Appropriation, fiscal year 2011	- 606,000
Budget request, fiscal year 2012	- 880,000

The Selective Service System was established by the Selective Service Act of 1948. The mission of the System is to be prepared to supply manpower to the Armed Forces adequate to ensure the security of the United States during a time of national emergency. Since 1973, the Armed Forces have relied on volunteers to fill military manpower requirements, but selective service registration was reinstated in July 1980.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$23,620,000 for the Selective Service System, which is \$606,000 less than fiscal year 2011 and \$880,000 less than the request.

SMALL BUSINESS ADMINISTRATION

The Small Business Administration (SBA) assists small businesses through programs involving loans, grants, and contracting preferences. These programs maintain and strengthen an economy that depends on small businesses for 60 to 80 percent of job creation. SBA programs also serve disadvantaged populations so that their small business enterprises may overcome economic and social obstacles to success.

The recommendation provides a total of \$978,306,000 for the Small Business Administration. This amount is \$7,133,000 less than the budget request and \$248,568,000 more than fiscal year 2011. Detailed guidance for the SBA appropriations accounts is presented below.

SALARIES AND EXPENSES

Appropriation, fiscal year 2011	\$432,571,000
Budget request, fiscal year 2012	427,296,000
Recommended in the bill	422,296,000
Bill compared with:	
Appropriation, fiscal year 2011	- 10,275,000
Budget request, fiscal year 2012	- 5,000,000

COMMITTEE RECOMMENDATION

The Committee recommends \$422,296,000 for the salaries and expenses of the SBA, which is \$10,275,000 less than fiscal year 2011 and \$5,000,000 less than the request. Within the amounts made available under this heading, the Committee recommendation provides \$170,750,000 for the SBA non-credit business assistance programs, which is \$10,500,000 more than the request and \$11,207,000 less than fiscal year 2011.

The Committee recommendations for non-credit business assistance, by program, are displayed in the following table:

NON-CREDIT BUSINESS ASSISTANCE PROGRAMS

[In thousands of dollars]

Small Business Development Centers	\$112,000
Veterans Business Development	2,500
SCORE	7,000
Women's Business Centers	14,000
National Women's Business Council	920
Microloan Technical Assistance	14,480
PRIME	5,000
Native American Outreach	1,250
7(j) Technical Assistance	3,100
HUBZone	2,500
Clusters	8,000
Total, non-credit initiatives	170,750

The SBA shall not reduce these non-credit programs from the amounts specified above and the SBA shall not merge any of the non-credit programs without advance written approval from the Committee. The Committee recommendation includes an increase of \$10,500,000 above the request level for non-credit programs. Funding above the request level was provided for the Small Business Development Center (SBDC) Program, Microloan Technical Assistance and PRIME which are programs that provide critical support to small business, facilitate job creation, and strengthen our economy.

The Committee encourages the SBA to support small business development and entrepreneurship throughout the country by funding non-profit organizations and institutions of higher education that train and educate an entrepreneurial work force and provide business development services designed to accelerate industry sectors that build regional assets.

The Committee strongly supports the SBA's Historically Underutilized Business Zone (HUBZone) program and believes that it is a critical resource for distressed communities, especially during the current economic downturn. The Committee is aware that there are certain rural areas that are underutilized business areas, but are excluded from HUBZone designation based on the current program authorization. The Committee encourages the SBA to continue to examine ways to incorporate underutilized business areas into any future revisions of the Small Business Act.

The Committee recognizes the value of the 8(a) program in assisting small and disadvantaged businesses compete in the marketplace and provides sufficient amount of funding to execute the mission of the 8(a) program.

A recent Government Accountability Office (GAO) report studying duplicative programs in the Federal government identified 80 economic development programs at four agencies, including the SBA, that appeared to overlap with at least one other program in the economic development activities that they are authorized to fund. GAO found that the SBA has taken only limited steps to implement collaborative practices with other Federal agencies. The Committee expects the SBA to seek more opportunities for resource sharing across economic development programs, identify ways to leverage each program's strengths to improve existing collaborative efforts, and provide the greatest benefit to small businesses at the least cost to taxpayers. The Committee directs the SBA to report

to the Committee on its efforts to collaborate with other agencies in the area of economic development within 60 days of enactment of this Act.

COMMITTEE RECOMMENDATION

The Committee recommends \$16,267,000 for the Office of Inspector General of the SBA, which is the same as fiscal year 2011 and \$2,133,000 less than the request. In addition, \$1,000,000 is made available by transfer from the Disaster Loans Program Account.

OFFICE OF ADVOCACY

Recommended in the bill	9,120,000
Bill compared with:	
Appropriation, fiscal year 2011	+9,120,000
Budget request, fiscal year 2012	---

COMMITTEE RECOMMENDATION

The Committee recommends \$9,120,000 for the Office of Advocacy of the SBA. The Small Business Jobs Act of 2010 (Public Law 111-240) requires this office to be funded through a separate appropriation. Funding provided for the Office of Advocacy, which was previously included in the salaries and expenses appropriation, is equal to fiscal year 2011 and the same as the request. In addition, the Committee provides transfer authority allowing funds to be transferred from SBA's operating budget to cover additional costs associated with the administrative and rental expenses of the Office of Advocacy. The Committee does not believe that the cost of this office should be budgeted for in two separate accounts. The Committee supports the Office's mission to reduce regulatory burdens that Federal policies impose on small businesses and maximize the benefits small businesses receive from the government.

BUSINESS LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

Appropriation, fiscal year 2011	\$235,528,000
Budget request, fiscal year 2012	363,323,000
Recommended in the bill	363,323,000
Bill compared with:	
Appropriation, fiscal year 2011	+127,795,000
Budget request, fiscal year 2012	---

The SBA Business Loans Program serves as an important source of capital for America's small businesses. The recommendation supports the 7(a) business loan program, the 504 certified development company program, Small Business Investment Company (SBIC) debentures, and the Secondary Market Guarantee Program.

COMMITTEE RECOMMENDATION

The Committee recommends a total of \$363,323,000 for the Business Loans Program Account, which is \$127,795,000 more than fiscal year 2011 and the same as the request. Of the amount appropriated, \$147,958,000 is for administrative expenses related to business loan programs. The amount provided for administrative expenses may be transferred to and merged with the appropriation for SBA salaries and expenses to cover the common overhead expenses associated with business loans.

The recommendation includes \$211,600,000 for the subsidy cost of the 7(a) business loan guarantee program and the 504 certified development program. This funding will help to stimulate small business investment and will contribute to economic growth. The effect of small businesses on the economy is considerable. Firms employing fewer than 500 employees comprise about 99.7 percent of all businesses in the nation and employ roughly half of all private sector employees. The subsidy funding provided in this account will help to ensure the continued strength of the small business sector.

The recommendation also includes \$3,765,000 in loan subsidy for the Microloan Program. The amount provided is estimated to support \$25,000,000 in microloans.

DISASTER LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

Appropriation, fiscal year 2011	\$45,372,000
Budget request, fiscal year 2012	167,300,000
Recommended in the bill	167,300,000
Bill compared with:	
Appropriation, fiscal year 2011	+121,928,000
Budget request, fiscal year 2012	---

COMMITTEE RECOMMENDATION

As required by the Federal Credit Reform Act of 1990, the Congress is required to appropriate an amount sufficient to cover the subsidy costs associated with all direct loan obligations and loan guarantee commitments made in fiscal year 2012, as well as the administrative expenses of the loan programs. The Committee recommends a total of \$167,300,000 for administrative expenses for fiscal year 2012, which is \$121,928,000 more than fiscal year 2011 and the same as the request. Carryover from prior year supplemental acts previously supported costs associated with administering the Disaster Loan account, however by fiscal year 2012, this funding will be exhausted; therefore, new appropriated dollars are needed. The Committee provides \$1,000,000 for the Office of Inspector General for audits and reviews of the disaster loans program and \$9,000,000 may be transferred to Salaries and Expenses for administrative expenses.

When the budget request was submitted, it assumed sufficient prior year funds would be available to cover estimated subsidy costs. In light of the destructive storms and serious flooding that have occurred this year, the Committee wants to ensure that there are sufficient funds available to meet the lending needs of eligible victims. Therefore, the Committee directs the Small Business Ad-

ministration to continue providing updates on available resources for the disaster loans program on a monthly basis.

ADMINISTRATIVE PROVISIONS—SMALL BUSINESS ADMINISTRATION
(INCLUDING TRANSFER OF FUNDS)

Section 509. The Committee continues a provision for the SBA authorizing transfers of up to five percent of any SBA appropriation to other appropriations, provided that transfers do not increase an appropriation by more than 10 percent. The provision also requires that transfers be treated as reprogrammings of funds.

Section 510. The Committee includes a new provision extending the length of time that a business that can obtain credit elsewhere can repay a disaster loan from three to seven years.

Section 511. The Committee includes a new provision detailing information to be provided in the SBA's annual budget request.

UNITED STATES POSTAL SERVICE
PAYMENT TO THE POSTAL SERVICE FUND

Appropriation, fiscal year 2011	\$86,681,000
Budget request, fiscal year 2012	78,153,000
Recommended in the bill	78,153,000
Bill compared with:	
Appropriation, fiscal year 2011	- 8,528,000
Budget request, fiscal year 2012	- - -

The United States Postal Service (USPS) is funded almost entirely by Postal ratepayers rather than taxpayers. Funds provided to the Postal Service in the Payment to the Postal Service Fund include appropriations for revenue forgone in providing free mail for the blind, people with disabilities, and for overseas absentee voting.

COMMITTEE RECOMMENDATION

The Committee recommends appropriations totaling \$78,153,000 for Payment to the Postal Service Fund, which is \$8,528,000 less than fiscal year 2011 and the same as the request. This is an advance appropriation for fiscal year 2013. The bill includes language specifying that 6-day delivery and rural delivery of mail shall continue at not less than the 1983 level. Language is also included prohibiting funds in this Act from being used to consolidate or close small rural and other small post offices.

The Committee commends the efforts of the USPS to be fiscally responsible. However, when the USPS considers changes in local delivery service, the Committee strongly urges the USPS to hold public meetings, take into consideration the input of residents, and provide fiscal justification before any major changes in delivery service are made. The USPS is one of the few Federal government entities that every American depends on a daily basis and it is important that their service is reflective of the world's premier mail delivery organization. The Committee urges the USPS to continue its efforts at achieving cost reductions without compromising services.

The OIG conducts audits, reviews and investigations, and keeps Congress informed on the efficiency and economy of Postal Service programs and operations.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$237,810,000, which is \$6,098,000 less than fiscal year 2011 and \$6,587,000 less than the request.

The Court also has jurisdiction to determine deficiencies in certain excise taxes to issue declaratory judgments in the areas of qualifications of retirement plans, exemption of charitable organizations, and to decide certain cases involving disclosure of tax information by the Commissioner of the Internal Revenue Service.

COMMITTEE RECOMMENDATION

The Committee recommends \$50,689,000 for the U.S. Tax Court, which is \$1,300,000 less than fiscal year 2011 and \$9,307,000 less than the request.

TITLE VI—GENERAL PROVISIONS, THIS ACT

(RESCISSION)

Section 601. The Committee continues the provision prohibiting pay and other expenses for non-Federal parties in regulatory or adjudicatory proceedings funded in this Act.

Section 602. The Committee continues the provision prohibiting obligations beyond the current fiscal year and prohibits transfers of funds unless expressly so provided herein.

Section 603. The Committee continues the provision limiting procurement contracts for consulting service expenditures to contracts that are matters of public record and available for public inspection.

Section 604. The Committee continues the provision prohibiting transfer of funds in this Act without express authority.

Section 605. The Committee continues the provision prohibiting the use of funds to engage in activities that would prohibit the enforcement of section 307 of the 1930 Tariff Act.

Section 606. The Committee continues the provision concerning compliance with the Buy American Act.

Section 607. The Committee continues the provision prohibiting the use of funds by any person or entity convicted of violating the Buy American Act.

Section 608. The Committee continues the provision specifying reprogramming procedures. The provision requires that agencies or entities funded by the Act notify the Committee and obtain prior approval from the Committee for any reprogramming of funds that: (1) creates a new program; (2) eliminates a program, project, or activity; (3) increases funds or personnel for any program, project, or activity for which funds have been denied or restricted by the Congress; (4) proposes to use funds directed for a specific activity by either the House or Senate Committees on Appropriations for a different purpose; (5) augments existing programs, projects, or activities in excess of \$5,000,000 or 10 percent, whichever is less; (6) reduces existing programs, projects, or activities by \$5,000,000 or 10 percent, whichever is less; or (7) reorganizes offices, programs, or activities. The provision also directs the agencies funded by this Act to submit operating plans for the Committee's review within 60 days of the bill's enactment.

Section 609. The Committee continues the provision providing that fifty percent of unobligated balances may remain available for certain purposes.

Section 610. The Committee continues the provision prohibiting funding for the Executive Office of the President to request a Federal Bureau of Investigation background investigation except with the express consent of the individual involved or in extraordinary circumstances involving national security.

Section 611. The Committee continues the provision regarding cost accounting standards for contracts under the Federal Employee Health Benefits Program.

Section 612. The Committee continues the provision regarding non-foreign area cost of living allowances.

Section 613. The Committee continues the provision prohibiting the expenditure of funds for abortion under the Federal Employees Health Benefits Program.

Section 615. The Committee continues the provision waiving restrictions on the purchase of non-domestic articles, materials, and supplies in the case of acquisition by the Federal government of information technology.

Section 616. The Committee continues the provision prohibiting officers or employees of any regulatory agency or commission fund-

ed by this Act from accepting travel payments or reimbursements from a person or entity regulated by such agency or commission.

Section 617. The Committee rescinds \$998,000 from the Privacy and Civil Liberties Oversight Board. While the Committee is supportive of privacy and civil liberties protections, this board has no members and has not incurred any costs.

Section 618. The Committee continues the provision clarifying that, for purposes of agricultural and medical trade with Cuba, during fiscal year 2012 the term “payment of cash in advance” as specified in section 908(b)(1) of the Trade Sanctions Reform and Export Enhancement Act of 2000 shall be interpreted as payment before the transfer of title to, and control of, the exported items to the Cuban purchaser.

Section 619. The Committee continues the provision permitting the Securities and Exchange Commission and Commodities Future Trading Commission to fund a joint advisory committee to advise on emerging regulatory issues, notwithstanding Section 708 of this Act.

Section 620. The Committee includes language prohibiting funds to carry out chapter 95 (Presidential Election Campaign Fund) or 96 (Presidential Primary Matching Campaign Account) of the Internal Revenue Code of 1986.

Section 621. The Committee includes language prohibiting funding to implement the Federal Communications Commission’s net neutrality order (FCC 10–201, adopted by the Commission on December 21, 2010).

Section 622. The Committee includes language prohibiting funding for the Consumer Product Safety Commission to carry out section 6A of the Consumer Product Safety Act related to an unverifiable public consumer product safety complaint database.

Section 623. The Committee prohibits the obligation of funds in fiscal year 2012 from the Securities and Exchange Commission Reserve Fund established by the Dodd-Frank Wall Street Reform and Consumer Protection Act. The Committee does not support mandatory reserve funds. The Committee believes the Commission should request the level of funding it believes is necessary in any given fiscal year and not have access to reserve funding that is outside of the Congressional review process.

Section 624. The Committee includes a provision directing the Comptroller General to conduct a cost-benefit analysis of the Consumer Product Safety Improvement Act of 2008.

Section 625. The Committee includes new language regarding the Fairness Doctrine. The language states that sections 73.1910, 76.209, 76.1612, and 76.1613 of title 47, Code of Federal Regulations, shall have no force or effect after the date of the enactment of this Act and the Federal Communications Commission (FCC) shall take such action as is necessary to remove such sections from the Code of Federal Regulations. The Committee is pleased the Chairman of the FCC has written the Committee on Energy and Commerce that the FCC intends to delete regulations relating to the Fairness Doctrine. The Committee urges the FCC to do so expeditiously.

Section 626. The Committee includes language requiring certain agencies to provide quarterly reports on unobligated prior year balances.

Section 627. The Committee includes language requiring certain regulatory agencies to provide a report on increasing public participation in rulemaking, improving coordination among Federal agencies, and identifying ineffective or excessively burdensome regulations.

Section 628. The Committee includes language providing for several appropriated mandatory accounts. These are accounts where authorizing language requires the payment of funds. The Congressional Budget Office estimates the following costs for the programs addressed in this provision: \$450,000 for Compensation of the President including \$50,000 for expenses, \$99,000,000 for the Judicial Retirement Funds (Judicial Officers' Retirement Fund, Judicial Survivors' Annuities Fund, and the United States Court of Federal Claims Judges' Retirement Fund), \$10,862,000,000 for the Government Payment for Annuitants, Employee Health Benefits, \$52,000,000 for the Government Payment for Annuitants, Employee Life Insurance, and \$9,979,000,000 for Payment to the Civil Service Retirement and Disability Fund.

Section 629. The Committee includes a new provision that requires certain regulatory agencies to consult with the General Services Administration (GSA) before seeking new office space or making alterations to existing office space. The Securities and Exchange Commission's (SEC) calamitous lease of the Constitutional Center has made the Committee question how independent leasing authority improves the safety and soundness of the financial market. Most Federal agencies are required to obtain office space from the GSA. In accordance with the agency's requirements, GSA finds either GSA-owned or leased space for the agency. Some agencies, such as the SEC and Federal Deposit Insurance Corporation, however, have statutory authority to enter into leases without GSA. The Committee recognizes that not every agency is wholly satisfied with GSA as a landlord, but GSA's expertise and experience as the Federal government's primary property manager should not be underestimated. The mission of the SEC is to protect investors, maintain fair, orderly, and efficient markets, and facilitate capital formation, not to procure and oversee commercial real estate leases. The mission of the GSA is to deliver and maintain productive work space, including furnishings, technology, supplies, and related services. This division of labor should serve the Federal government and taxpayers well if properly exercised.

Section 630. The Committee includes language that excludes youth off-highway vehicles and bicycles from the lead bans included in the Consumer Product Safety Improvement Act. The Committee believes that children are more likely to be hurt due to use of adult off-highway vehicles than due to lead exposure in components such as tire valves and battery cables.

Section 631. The Committee includes new language prohibiting funds for the Federal Trade Commission to complete the draft report entitled "Interagency Working Group on Food Marketed to Children: Preliminary Proposed Nutrition Principles to Guide Industry Self-Regulatory Efforts" unless the Interagency Working Group on Food Marketed to Children complies with Executive Order 13563, including the requirement in Section 1(c) to provide quantified present and future benefits and costs.

Section 632. The Committee includes language prohibiting funding for certain Czars including the White House Director of the Office of Health Reform, the Assistant to the President for Energy and Climate Change, the Senior Advisor to the Secretary of the Treasury assigned to the Presidential Task Force on the Auto Industry and Senior Counselor for Manufacturing Policy, and the White House Director of Urban Affairs.

Section 633. The Committee includes new language regarding commercial terrestrial operations.

Section 707. The Committee continues the provision providing that funds made available to corporations and agencies subject to 31 U.S.C. 91 may pay rent and other service costs in the District of Columbia.

Section 708. The Committee continues the provision prohibiting interagency financing of groups absent prior statutory approval.

Section 709. The Committee continues the provision prohibiting the use of funds for enforcing regulations disapproved in accordance with the applicable law of the U.S.

Section 710. The Committee continues the provision limiting the amount of funds that can be used for redecoration of offices under certain circumstances.

Section 711. The Committee continues the provision to allow for interagency funding of national security and emergency telecommunications initiatives.

Section 712. The Committee continues the provision requiring agencies to certify that a Schedule C appointment was not created solely or primarily to detail the employee to the White House.

Section 713. The Committee continues the provision prohibiting the payment of any employee who prohibits, threatens or prevents another employee from communicating with Congress.

Section 714. The Committee continues the provision prohibiting Federal training not directly related to the performance of official duties.

MINORITY VIEWS OF THE HONORABLE NORM DICKS AND
HONORABLE JOSE E. SERRANO

The Financial Services and General Government bill funds programs that touch the lives of every American, as consumers, as investors, and as taxpayers. The inadequacy of the subcommittee's allocation requires unsustainable cuts. Those cuts will impact all of us by not providing needed resources: (1) for the Securities and Exchange Commission (SEC) and the Consumer Financial Protection Bureau (CFPB) to effectively protect consumers and investors, (2) for enforcement activities by the Internal Revenue Service (IRS) allowing tax cheats to go undiscovered and revenues to remain uncollected, (3) for needed infrastructure investment through the General Services Administration (GSA) and for a number of agencies with budgets almost entirely composed of fixed costs, such as personnel expenses and rent, requiring the furloughing of many thousands of federal and private workers, increasing unemployment, and further weakening the fragile economic recovery.

The subcommittee's allocation of \$19,985,000,000 is \$1,852,730,000, or 9 percent, below the fiscal year 2011 enacted level, which was itself a 10 percent reduction from the fiscal year 2010 level. Further, this allocation is more than \$500,000,000 below the H.R. 1 level and more than \$700,000,000 below the fiscal year 2008 enacted level.

Chairwoman Emerson made every possible effort to ensure a bipartisan process. She has gone above and beyond in terms of cooperation and openness. However, the subcommittee's allocation dictates deep cuts that impact all Americans and we cannot support this bill.

Failing to Keep Financial Markets Honest

The Securities and Exchange Commission will receive \$222,483,000 less than the President's 2012 request. As a consequence, SEC will be unable to carry out its new financial oversight responsibilities under the Dodd-Frank Wall Street Reform and Consumer Protection Act. It will also hinder the SEC's ongoing efforts to prevent financial crimes by effectively decreasing the number of agents able to pursue incoming tips. Under the President's request, the SEC would have hired staff necessary to implement new responsibilities concerning derivatives, hedge funds, and credit rating agencies, which would help mitigate the possibility of another financial crisis. The SEC will not be able to increase enforcement, examinations or disclosure reviews under this funding level, nor will the agency be able to invest in information technology infrastructure that would enhance oversight of the financial markets. Without these important tools, this bill leaves the country vulnerable to another fiscal meltdown even as we struggle to recover from the ongoing crisis.

Further, the bill places constraints on the Consumer Financial Protection Bureau (CFPB) that will severely hamper the agency's ability to protect and inform consumers in the wake of the greatest economic recession since the Great Depression. By limiting the amount of money the CFPB will be able to receive from the Federal Reserve, the bill limits the effectiveness of the agency so consumers will not receive the protections they were promised. Better informed consumers and clearer guidelines for complicated financial transactions, such as mortgages, benefits all taxpayers and is an investment in the future stability of this nation.

Failing to Keep Tax Cheats Honest at the Expense of an Increasing Deficit

This bill reduces funding for the IRS and will significantly compromise the agency's ability to discover and pursue tax cheats, thereby actually increasing the deficit. With a funding level of \$11,515,738,000 for fiscal year 2012, the IRS will be forced to furlough between 4,100 and 5,000 employees, mostly enforcement agents. This will have a significant impact on the ability of the IRS to find tax cheats and will result in an increase in the estimated \$345,000,000,000 tax gap, which is the difference between the amount that taxpayers owe and the amount that is collected. Even more troubling is the fact that this cut to IRS funding will increase the deficit by approximately \$4 billion a year beginning in 2013. Every dollar invested in enforcement resources brings in \$5 in tax revenue. This is exactly the sort of short term cut that will do much greater harm than good in the long term. What is surprising is the complete reversal made by the subcommittee from previous statements about the importance of finding and charging tax cheats. In the additional views submitted to the fiscal year 2008 bill, the then-minority stated "The bill provides important increases for the Internal Revenue Service (IRS) in order to close the nearly \$300 billion tax gap." This is a troubling retreat from attacking the nation's deficit.

Failing to Invest in Infrastructure

The General Services Administration (GSA) Federal Building Fund will see a cut of \$2,284,710,000 from the fiscal year 2012 request, which will result in the elimination of 16,000 private-sector construction jobs and 40,000 janitorial and maintenance jobs in existing buildings. GSA will stop work on several multi-year, on-going construction projects, which will result in costly hold-over leases. This reduction also jeopardizes GSA's ability to meet contractual obligations to pay private sector landlords for office space leased by the government, possibly leading to termination of leases and costly penalties. This short-sighted cut to infrastructure improvements will cost taxpayers more in the long-term than it will save in the short-term.

Again, the majority is displaying a reversal of opinion about funding for the GSA, as the additional views attached to the fiscal year 2008 bill lamented an amendment that:

"cut important funding from the General Services Administration's (GSA) Federal Building Fund repairs and alterations account. GSA's current backlog of repairs and alter-

ations of Federal buildings is estimated at \$6,600,000,000. The fiscal year 2008 request is considered a minimum to operate and maintain GSA's assets. Limiting repairs and alterations funding forces GSA to house Federal workers in more commercial leases rather than continue in government-owned buildings at a net cost to the U.S. taxpayer. Cutting an additional \$31,000,000 from this account just digs the GSA into a deeper hole and only delays much needed repairs for buildings into the next fiscal year."

It is important to note that the FY 2008 cut left the GSA's repairs and alterations account funded at \$722,161,000, which is \$442,161,000 above the level recommended in the fiscal year 2012 bill. The level of \$280,000,000 recommended in this bill surely will not address the concern the then-minority expressed in fiscal year 2008.

Further Troubling Cuts

The bill provides \$6,326,318,000 for the Judiciary, \$529,729,000,000 below the fiscal year 2012 request, and will weaken the equitable and efficient administration of justice in the Federal courts. More than 5,000 support staff will be laid off, which is a staffing loss equal to 25% of the workforce. These layoffs will include probation officers and pre-trial staff, meaning fewer probation officers to monitor sex offenders and felons, perform law enforcement duties, and protect the general public.

The Election Assistance Commission will receive only \$6,858,000 in funding, which will devastate the agency. The agency will no longer be able to help states improve their election practices and equipment to ensure fair and well-run elections in our nation.

There are numerous other cuts as well that will cause an erosion of consumer protections and assistance to disadvantaged communities. The subcommittee's allocation requires deep cuts that will significantly harm America's consumers, investors, taxpayers, workers, businesses, judiciary, the security of our elections, and even our deficit.

Troubling Policy Riders

We are also distressed that this bill includes too many controversial policy riders from preventing the IRS from enforcing the individual mandate of the Affordable Care Act to limiting the FCC from enforcement of its Net Neutrality rule. The bill once again interferes in DC's local affairs by imposing social policy restrictions on how the District can spend its own funds, and provides that no funds may be used for the Consumer Product Safety Commission's public database of consumer incidents. This micromanagement is not the proper role of Congress and these authorizing issues do not belong on an appropriations bill.

We appreciate the efforts the Chairwoman made to adequately fund the Small Business Administration, the High Intensity Drug Trafficking Areas Program (HIDTA), and anti-terrorism programs at the Department of the Treasury. However, the allocation the subcommittee received is simply insufficient to fund all of the important activities in this bill's jurisdiction. We hope to work with the majority to address these issues and look forward to continuing

the open and positive process the Chairwoman has fostered; however, in its current form, we cannot support the bill.
