Rules Committee record vote No. 169

Motion by Ms. Slaughter to make in order and provide the necessary waivers for amendment #4, offered by Rep. Eshoo, which would require that if the EPA Administrator and the Clean Air Scientific Advisory Committee find that the exemption in this bill would increase the incidence of asthma attacks, respiratory disease, cardiovascular disease, or premature mortality, then the bill’s exemption from the Clean Air Act for particulate pollution has no effect. Defeated: 4–7.

SUMMARY OF AMENDMENTS MADE IN ORDER

1. Rush (IL): Would clarify that nothing in the bill precludes the EPA Administrator from enforcing National Ambient Air Quality Standards (NAAQS) for PM\textsubscript{2.5} and would delete section 3, which allows the EPA to regulate “nuisance dust” in areas where states and localities do not do so if it substantially hurts public health and if the benefits of applying standards would outweigh the costs. (10 minutes)

2. Christensen (VI): Would allow the EPA the authority under the Clean Air Act to step in and take action to reduce dangerous particle pollution if state, local, or tribal laws are not sufficient to protect public health. (10 minutes)

3. Crawford (AR): Would direct the Environmental Protection Agency Administrator to consult with the Secretary of Agriculture when modifying National Ambient Air Quality Standards with respect to ‘nuisance dust’ under exceptions provided in Sec. 132(b) of the Farm Dust Regulation Prevention Act of 2011. (10 minutes)

4. Markey, Edward (MA): Would ensure that particulate matter containing arsenic and other heavy metals that are hazardous to human health is not nuisance dust and remains subject to the Clean Air Act. (10 minutes)

5. Waxman (CA): Would require that particulate pollution produced from mining activities is not defined as “nuisance dust” and thus remains subject to the Clean Air Act. (10 minutes)

6. Flake, Jeff (AZ): Would add sense of Congress language regarding an approach to excluding so-called “exceptional events” (like massive dust storms that are not controllable or preventable) from determinations of whether an area is in compliance with the coarse particulate matter standard. (10 minutes)

7. Schock (IL), Capito (WV): Would require the EPA to take agriculture jobs and the economic impact on the agriculture industry into account before they issue any new regulations relating to agriculture. If a proposed regulation was found to cause the loss of more than 100 agriculturally related jobs or a decrease in more than $1,000,000 in agriculturally related economic activity then EPA would have to give notice to the State's Congressional Delegation, Governor, and Legislature, and also hold a public hearing in the impacted State. (10 minutes)

8. Green, Al (TX): Would require EPA to provide a report of the increase or decrease in the number of jobs as a result of enactment of the bill. (10 minutes)

It is the sense of the Congress that the Administrator of the Environmental Protection Agency should implement an approach to excluding so-called “exceptional events”, or events that are not reasonably controllable or preventable, from determinations of whether an area is in compliance with any national ambient air quality standard (NAAQS) applicable to coarse particulate matter that—
(1) maximizes transparency and predictability for States, tribes, and local governments; and 
(2) minimizes the regulatory and cost burdens States, tribes, and local governments bear in excluding such events.

7. AN AMENDMENT TO BE OFFERED BY REPRESENTATIVE SCHOCK OF ILLINOIS OR HIS DESIGNEE, DEBATABLE FOR 10 MINUTES

At the end of the bill, add the following:

SEC. 4. IMPACTS OF EPA REGULATORY ACTIVITY ON EMPLOYMENT AND ECONOMIC ACTIVITY IN THE AGRICULTURE COMMUNITY.

(a) ANALYSIS OF IMPACTS OF ACTIONS ON EMPLOYMENT AND ECONOMIC ACTIVITY IN THE AGRICULTURE COMMUNITY.—

(1) ANALYSIS.—Before taking a covered action, the Administrator shall analyze the impact, disaggregated by State, of the covered action on—

(A) employment levels in the agriculture industry; and

(B) agricultural economic activity, including estimated job losses and decreased economic activity related to agriculture.

(2) ECONOMIC MODELS.—

(A) IN GENERAL.—In carrying out paragraph (1), the Administrator shall utilize the best available economic models.

(B) ANNUAL GAO REPORT.—Not later than December 31 of each year, the Comptroller General of the United States shall submit to Congress a report on the economic models used by the Administrator to carry out this subsection.

(B) request the Secretary of Agriculture to post the analysis under paragraph (1) as a link on the main page of the public Internet Web site of the Department of Agriculture; and

(C) request that the Governor of any State experiencing more than a de minimis negative impact post such analysis in the Capitol of such State.

(b) PUBLIC HEARINGS.—

(1) IN GENERAL.—If the Administrator concludes under subsection (a)(1) that a covered action will have more than a de minimis negative impact on agricultural employment levels or agricultural economic activity in a State, the Administrator shall hold a public hearing in each such State at least 30 days prior to the effective date of the covered action.

(2) TIME, LOCATION, AND SELECTION.—A public hearing required under paragraph (1) shall be held at a convenient time and location for impacted residents. In selecting a location for such a public hearing, the Administrator shall give priority to locations in the State that will experience the greatest number of job losses.
(c) NOTIFICATION.—If the Administrator concludes under subsection (a)(1) that a covered action will have more than a de minimis negative impact on agricultural employment levels or agricultural economic activity in any State, the Administrator shall give notice of such impact to the State's Congressional delegation, Governor, and Legislature at least 45 days before the effective date of the covered action.

(B) With respect to economic activity, a decrease in agricultural economic activity of more than $1,000,000 over any calendar year. Any offsetting economic activity that results from the hypothetical creation of new economic activity through new technologies or government employment may not be used in the economic activity calculation.
