SUMMARY OF BILL

The bill, as recommended by the Committee, provides appropriations for fiscal year 2013 Legislative Branch operations, which total \$3,332,872,000. Conforming to longstanding practice under which each body of Congress determines its own housekeeping requirements and the other concurs without intervention, funds for the Senate are not included in the bill as reported to the House. Current appropriations estimates for the Senate for fiscal year 2013 including those under the Architect of the Capitol, total \$956,128,000.

A comparative summary of the bill by title and agency follows:

HIGHLIGHTS OF THE BILL

The Committee recommends \$3,332,872,000 in discretionary resources for operations of the Legislative Branch of government, \$189,691,000 below the requested amount and \$34,407,000, or 1 percent, below the fiscal year 2012 enacted level (excluding Senate items). This bill reflects a continued acknowledgment that the Legislative Branch must set itself as an example for fiscal restraint while continuing to serve the Nation. The Committee is committed to getting the nation's fiscal house in order and sharing in the sacrifices that are required. The Committee notes that with the inclusion of this bill, the Legislative Branch, excluding the Senate items, has been reduced by a total of \$322,607,000 or 8.8% since fiscal year 2010. This bill will require strict fiscal discipline on the part of all congressional offices and all agency heads in the Legislative Branch.

LEGISLATIVE BRANCH-WIDE MATTERS

Committee Directives.—The Committee is concerned with the failure of some agencies to follow Committee directives in either the House Committee Report or a joint conference agreement accompanying the annual Legislative Branch appropriations bill. There should be no misunderstanding that report language in either the House or joint conference agreement is to be adhered to, without exception, unless specifically addressed to the contrary in an explanatory statement of a joint conference agreement.

Zero Base Budgeting.—The Committee is very pleased with the results of the zero base budgeting exercise directed to be conducted by all the agencies of the Legislative Branch. The Committee believes that this valuable budgeting process has given agencies the opportunity to take a fresh look at all areas of their operations and make funding reductions and alignments within the current budget base. The Committee believes that there are continued opportunities to realize meaningful savings by carefully reviewing each agency's budget requirements from a zero base and directs all agencies to continue to develop budget request from a zero base.

Reprogramming Guidelines.—It has come to the Committees attention that there is some misunderstanding about the Reprogramming Guidelines for Legislative Branch Agencies contained in House Report 112-331. The term "to notify the Committees on Appropriations of the House and Senate" requires agencies to make a formal request requiring Committee approval before proceeding with the requested action.

Committee Requests, Furloughs and Performance Based Merit Increases.—The Committee directs that adherence to the language carried in House Report 112-148 pertaining to Committee Requests, Furloughs, and Performance Based Merit Increases be continued unless otherwise so directed.

Travel Initiative.—The Committee applauds the Legislative Branch Financial Managers Council (LBFMC) on its efforts to improve Legislative Branch financial operations and, most recently, to seek a common solution for automating travel functionality. The Committee directs all members of the LBFMC to participate in an effort to create a single solution to each agency's travel management needs and consider the feasibility of a centralized travel func-

tion, including the necessary interfaces to the agency's financial management systems. The Committee directs the Government Accountability Office that has already automated their travel system, to serve as a resource to the LBFMC.

The Joint Economic Committee was created by the Employment Act of 1946. The primary tasks of the Committee are to review economic conditions and to recommend improvements in economic policy. The Committee performs research and economic analysis and monitors and analyzes current economic, financial, and employment conditions.

JOINT COMMITTEE ON TAXATION

2012 appropriation	\$10,004,000
2013 budget request	10,004,000
Committee recommendation	10,004,000

The Committee recommends \$10,004,000 for the Joint Committee on Taxation (JCT). This recommendation is the same as the fiscal year 2012 enacted level and the budget request. The Joint Committee on Taxation operates under the Internal Revenue Code of 1986 and its predecessors dating to the Revenue Act of 1926. It has responsibility to (1) investigate the operation and effects of internal revenue taxes and the administration of such taxes; (2) investigate measures and methods for the simplification of such taxes; (3) make reports to the House Committee on Ways and Means and the Senate Committee on Finance (or to the House and the Senate) on the results of such investigations and studies and to make recommendations; and (4) review any proposed refund or credit of income or estate and gift taxes or certain other taxes set forth in Code section 6405 in excess of \$2,000,000. In addition to these functions that are specified in the Internal Revenue Code, the Congressional Budget Act of 1974 requires the Joint Committee to provide revenue estimates for all tax legislation considered by either the House or the Senate.

OFFICE OF THE ATTENDING PHYSICIAN

2012 appropriation	\$3,400,000
2013 budget request	3,433,000
Committee recommendation	3,467,000

Committee recommendation	1,363,000

The Committee recommends \$1,363,000 for the operation of the Office of Congressional Accessibility Services. This amount is the same as the fiscal year 2012 enacted level and is \$4,000 less than the budget request. UNITED STATES CAPITOL POLICE

The Committee recommends a total of \$360,137,000 for the United States Capitol Police (USCP). This amount is \$20,000,000 above the fiscal year 2012 enacted level and is \$13,632,000 below the budget request.

SALARIES

2012 appropriation	\$277,133,000

This amount is \$20,000,000 above the fiscal year 2012 enacted level and is \$5,999,000 below the budget request. Using the latest salary estimates from USCP, the Committee expects this level of funding to support a staffing level of 1,775 of the 1,800 authorized sworn positions and 370 of the authorized 443 civilian positions. Included in the 370 civilian positions are one additional auditor and one additional investigator at the CP 11–12 level for the Inspector General.

The Committee notes that while providing the necessary salaries and general expenses funding for fiscal year 2012 to support USCP personnel and operations, the Department in turn had to absorb several activities within its base funding, such as the conventions and pre-Presidential Inauguration planning. In addition, training activities were greatly reduced in order to meet other mission requirements.

The recommendation for USCP funding is based on only critical requirements necessary to mitigate and address threats and risks. It does not provide for any new initiatives, as requested.

Training.—The Committee recognizes that training has been limited to only those areas that are critical and mandatory as required by law, rule, or regulation; or necessary to meet core mission activities. The funding provided specifically relates to the training needs of sworn staff to give them the time needed to be offline and receive training in a number of key areas, while still providing an appropriate security environment. The Department is to report to the Committee on Appropriations of the House and the Senate by February 15, 2013 on its efforts to enhance training within the USCP.

New Posts.—The Committee continues to direct the USCP to notify the Committee on Appropriations of the House and Senate when new posts are created, including the annualized cost of maintaining the new post, and how the cost will be offset.

GENERAL EXPENSES

2012 appropriation	\$63,004,000
2013 budget request	70,637,000

The Office of Compliance was established to administer and enforce the Congressional Accountability Act (Public Law 104–1). The Act applies various employment and workplace safety laws to Congress and certain Legislative Branch entities.

Committee recommendation	44,280,000

The Committee recommends \$44,280,000 for the Congressional Budget Office (CBO). This is \$493,000 above the fiscal year 2012 enacted level and \$357,000 below the budget request. This increase provides funding of \$160,000 for one additional workday over fiscal 2012 and \$333,000 to purchase commercial data on topics in support of analyses.

ADMINISTRATIVE PROVISION

Section 1201 gives authority for the CBO to accept the services of student volunteers.

ARCHITECT OF THE CAPITOL

2012 appropriation	¹ \$496,381,000
2013 budget request	¹ 588,796,000
Committee recommendation	¹ 444,021,000

¹Does not include Senate office buildings.

The Committee recommends \$444,021,000 for fiscal year 2013 for the activities of the Architect of the Capitol (AOC). Excluded are Senate items which are traditionally left for consideration by that body. This amount is \$52,360,000 below the fiscal year 2012 enacted level, or 10.6 percent, and is \$144,775,000 below the budget request, or almost 25 percent.

Within the recommended level the Committee continues its prioritization of projects that: (1) promote the safety and health of workers and occupants, (2) decrease the deferred maintenance backlog, and (3) invest to achieve future energy savings. In addition, by including \$30,000,000 for the House Historic Buildings Revitalization Trust Fund, the bill continues the Committee’s commitment to advance planning for major capital renewal projects which will be essential to sustaining the performance of historic House buildings.

The Committee has concerns that the cost of Full Time Equivalents (FTE’s) associated with projects is not clearly defined in the budget justification. For fiscal year 2011 the Architect of the Capitol actually utilized 283 FTE’s for projects and estimates for 2012 and 2013 are 318 FTE’s. The Committee fully understands that the

number of FTE's for projects will be determined based on the projects approved by the Committee. The Committee directs that beginning with the 2014 budget request the number of FTE's and associated salary and benefit costs be detailed for each project.

In the continued effort to reduce cost and achieve efficiencies, Legislative Branch wide, the Committee directs the Legislative Branch Financial Managers Council (LBFMC) to continue pursuing financial systems cross servicing. In this regard, the Committee directs the Chief Financial Officers of the Library of Congress (LOC) and the Architect of the Capitol (AOC) to coordinate with each other to conduct the requisite analysis, and provide cost estimates and budget requests with the intention of migrating the AOC's financial data into the Library's financial system environment. There is clear evidence that pursuing this migration will result in significant cost savings, as was achieved with the United States Capitol Police migration, both by centralizing financial system data and operations within the Library's financial system and by consolidating the agencies' annual financial statement and related financial system internal controls audit under the single audit contract serving those agencies whose financial systems are cross serviced by the Library.

The Committee directs the AOC to conduct a GAP analysis, within existing funding, to identify potential functional gaps and issues related to the migrating of its financial data. The Committee notes that such migrations are complex because they require compromises and standardization of multiple agency financial operations with one financial system environment. However, standardization of financial operations and financial systems configurations also represents a well-established best practice and is one of the reasons why significant cost savings are possible with such an effort.

Finally, the Committee directs the Library to complete a cost-benefit analysis supporting the Legislative Branch financial system hosting environment through external cloud computing services, as opposed to continuing to provide support within the Library's Capitol Hill technology infrastructure. This cost-benefit analysis is to take into consideration the completed migration of the AOC financial data into the Library's financial system environment.

The AOC is responsible for the maintenance, operation, development, and preservation of the United States Capitol Complex. This includes mechanical and structural maintenance of the Capitol, Congressional office buildings, the Library of Congress buildings, the Supreme Court building, the U.S. Botanic Garden, the Capitol Power Plant, and other facilities, as well as the upkeep and improvement of the grounds surrounding the Capitol complex. The following table summarizes the allocation of funds by appropriation account:

Architect of the Capitol:	
General Administration	\$90,755,000
Capitol building	28,591,000
Capitol grounds	17,152,000
House of Representatives buildings subtotal	113,964,000
House office buildings	(83,964,000)

GENERAL ADMINISTRATION

2012 appropriation	\$101,340,000
2013 budget request	102,601,000
Committee recommendation	90,755,000

The Committee recommends \$90,755,000 for personnel services, equipment, communications, and other central support activities of the AOC. This amount is \$10,585,000 below the fiscal year 2012 enacted level and is \$11,846,000 below the budget request. The Committee has made a reduction of 32 FTE's and \$4,235,000 in associated salary and benefit costs due to an agency overfunded salary base. Although this over-funding is agency wide, the Committee has chosen to reduce the General Administration account rather than each separate account. The Committee directs the Architect of the Capitol, in all future budget requests, to establish an appropriate lapse rate and apply such rate to the salary and benefit request for each account. The recommendation supports an operating budget of \$89,756,000. The recommended project budget of \$999,000 is composed of the following projects:

<i>Item</i>	<i>Committee recommendation</i>
Energy Savings Performance Contracts (ESPC): Management Program	\$500,000

This amount is \$7,300,000 above the fiscal year 2012 enacted level and is \$1,350,000 below the budget request. The recommendation supports an operating budget of \$9,852,000, which includes four additional unfunded FTE's. The recommended project budget of \$7,300,000 is composed of the following capital projects:

<i>Item</i>	<i>Committee recommendation</i>
Union Square Stabilization	\$7,300,000
Total	\$7,300,000

The Committee is recommending \$7,300,000 for the Union Square Stabilization project, as requested. The Architect of the Capitol is directed to withhold obligation of these funds until a detailed obligation plan is approved by the Committees on Appropriations of the House and the Senate.

ADMINISTRATIVE PROVISION

Section 1301 authorizes payments to the Employees' Compensation Fund from available balances.

LIBRARY OF CONGRESS

The Committee recommends \$592,642,000 for the operations of the Library of Congress. This is \$5,298,000 above the fiscal year 2012 enacted level and \$10,947,000 below the budget request. This represents a reduction of 189 FTE's. In addition to the appropriation, the Committee recommends offsetting collections of \$39,961,000. Established by Congress in 1800, the Library of Congress is one of the largest libraries in the world, with a collection of more than 130,000,000 print, audio, and video items in 460 languages. Among its major programs are acquisitions, preservation, administration of U.S. copyright laws by the Copyright Office, research and analysis of policy issues for the Congress by the Congressional Research Service, and administration of a national program to provide reading material to the blind and physically handicapped. The Library maintains a significant number of collections and provides a range of services to libraries in the United States and abroad.

SALARIES AND EXPENSES

Total available	\$422,024,000

The Committee recommends \$415,674,000, plus authority to spend \$6,350,000 in receipts, for the salaries and expenses appro-

priation. This amount is \$1,931,000 above the fiscal year 2012 enacted level and is \$8,027,000 below the budget request. The Committee expects the Veterans History Project and the Civil Rights History Project will be maintained at least at the fiscal year 2012 levels.

The Committee is very concerned with the findings in a recently issued Office of the Inspector General report concerning the Library Wide Acquisition Function. This report contains many findings, some that were reported either in previous IG audits or memoranda, as far back as ten years ago, that need immediate Library management attention. The Committee believes that any issues associated with any findings that are not addressed, corrected, and eliminated within a ten year period require immediate attention. Therefore, the Committee directs the Librarian of Congress to either hire, contract for, or assign an in-house top level manager, reporting directly to the Chief of Staff, charged with addressing, providing solutions, and bringing to closure all concerns of this report. Further the Committee directs that a report be prepared which outlines all the issues in the report and the corrective action taken regarding each finding. The Committee directs that this report be provided to the Committee on Appropriations of the House and Senate no later than December 31, 2012.

COPYRIGHT OFFICE

2012 appropriation	\$16,137,000

CONGRESSIONAL RESEARCH SERVICE

2012 appropriation	\$106,790,000
2013 budget request	109,205,000
Committee recommendation	107,668,000

The Committee recommends \$107,668,000 for salaries and expenses of the Congressional Research Service (CRS). This amount is \$878,000 above the fiscal year 2012 enacted level and \$1,537,000 below the budget request. However, the fiscal year 2012 enacted level included \$1,000,000, for contract services, for a review of the Government Printing Office. This amount has been retained in the CRS base thus providing an increase to the Congressional Research Service of \$1,878,000, over the fiscal year 2012 enacted level and \$537,000 below the budget request.

CRS works for Members and committees of Congress to support their legislative, oversight, and representational functions by providing nonpartisan and confidential research and policy analysis.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

2012 appropriation	\$50,674,000
2013 budget request	51,522,000
Committee recommendation	50,775,000

The Committee recommends \$50,775,000 for salaries and expenses of the National Library Service for the Blind and Physically Handicapped (NLS). This amount is \$101,000 above the fiscal year 2012 enacted level and \$747,000 below the budget request. The NLS has successfully administered a free national reading program for blind and physically handicapped residents of the United States and U.S. citizens living abroad since 1931. NLS provides direction for the production of books and magazines in Braille and recorded formats and audio playback machines for distribution through a nationwide network of 56 regional and 65 sub-regional libraries.

The Committee notes the continued commitment of the Congress, through the Library of Congress, to serve blind and physically handicapped Americans. The Committee again recognizes the recent completion of the Digital Talking Book Program. New digital talking book players and digital titles, on flash cartridges and via download, are now available nationwide. The Committee recognizes the Library is making an effort to convert analog titles to digital format. The Committee fully understands that a number of analog titles still need to be converted. The Committee encourages the Library to continue this effort converting those titles that are determined to be in the greatest demand. The Committee fully understands that the blind and physically handicapped community might want to see the conversion of all analog titles. However, with continued decreases in funding to almost every element of the Federal Budget, it will be difficult to complete a total conversion. The Committee encourages the Librarian of Congress to work with the appropriate organizations to achieve an appropriate solution to demands, taking into consideration the funding constraints.

ADMINISTRATIVE PROVISIONS

Section 1401 is related to reimbursable and revolving fund obligational authority.

Section 1402 provides permanent transfer authority between categories of appropriations.

GOVERNMENT PRINTING OFFICE

The recommendation provides \$122,456,000 in budget authority for the Government Printing Office (GPO), in addition to any offsetting collections which the GPO may earn under separate authority. This amount is \$3,744,000 below the fiscal year 2012 enacted level and the budget request. GPO provides publishing and dissemination services for Federal government publications to Congress, Federal agencies, Federal depository libraries, and the American public.

During the hearings this year, the Committee heard testimony on the dissemination of congressional information products in Extensible Markup Language (XML) format. XML permits data to be reused and repurposed not only for print output but for conversion into ebooks, mobile web applications, and other forms of content delivery including data mashups and other analytical tools. The Com-

mittee has heard requests for the increased dissemination of congressional information via bulk data download from non-governmental groups supporting openness and transparency in the legislative process. While sharing these goals, the Committee is also concerned that Congress maintains the ability to ensure that its legislative data files remain intact and a trusted source once they are removed from the Government's domain to private sites.

The GPO currently ensures the authenticity of the congressional information it disseminates to the public through its Federal Digital System and the Library Congress's THOMAS system by the use of digital signature technology applied to the Portable Document Format (PDF) version of the document, which matches the printed document. The use of this technology attests that the digital version of the document has not been altered since it was authenticated and disseminated by GPO. At this time, only PDF files can be digitally signed in native format for authentication purposes. There currently is no comparable technology for the application and verification of digital signatures on XML documents. While the GPO currently provides bulk data access to information products of the Office of the Federal Register, the limitations on the authenticity and integrity of those data files are clearly spelled out in the user guide that accompanies those files on GPO's Federal Digital System.

The GPO and Congress are moving toward the use of XML as the data standard for legislative information. The House and Senate are creating bills in XML format and are moving toward creating other congressional documents in XML for input to the GPO. At this point, however, the challenge of authenticating downloads of bulk data legislative data files in XML remains unresolved, and there continues to be a range of associated questions and issues: Which Legislative Branch agency would be the provider of bulk data downloads of legislative information in XML, and how would this service be authorized. How would "House" information be differentiated from "Senate" information for the purposes of bulk data downloads in XML? What would be the impact of bulk downloads of legislative data in XML on the timeliness and authoritativeness of congressional information? What would be the estimated timeline for the development of a system of authentication for bulk data downloads of legislative information in XML? What are the projected budgetary impacts of system development and implementation, including potential costs for support that may be required by third party users of legislative bulk data sets in XML, as well as any indirect costs, such as potential requirements for Congress to confirm or invalidate third party analyses of legislative data based on bulk downloads in XML? Are there other data models or alternative that can enhance congressional openness and transparency without relying on bulk data downloads in XML?

The Committee directs the establishment of a task force composed of staff representatives of the Library of Congress, the Congressional Research Service, the Clerk of the House, the Government Printing Office, and such other congressional offices as may be necessary, to examine these and any additional issues it considers relevant and to report back to the Committee on Appropriations of the House and Senate.

2013 budget request	83,632,000
Committee recommendation	83,632,000

The Committee recommends \$83,632,000 for Congressional Printing and Binding. This amount is \$7,068,000 below the fiscal year 2012 enacted level and is the same as the budget request. The amount is provided as a lump sum to cover various categories of printing. The Committee has deleted the language that allows the Architect of the Capitol to use the Congressional Printing and Binding appropriation.

OFFICE OF SUPERINTENDENT OF DOCUMENTS

2012 appropriation	\$35,000,000
2013 budget request	34,728,000

The Committee recommends \$34,728,000 for the salaries and expenses of the Superintendent of Documents. This amount is \$272,000 below the fiscal year 2012 enacted level and is the same as the budget request. The Office of Superintendent of Documents account funds the mailing of government documents for Members of Congress and Federal agencies, as statutorily authorized; the compilation of catalogs and indexes of government publications; and the cataloging, indexing, and distribution of government publications to the Federal Depository and International Exchange libraries and to other individuals and entities, as authorized by law.

2013 budget request	7,840,000
Committee recommendation	4,096,000

The Committee has provided \$4,096,000 for the Revolving Fund an increase of \$3,596,000 above the fiscal year 2012 enacted level and \$3,744,000 below the budget request. This funding will address Information Technology Projects (\$3,000,000), Facilities (\$460,000) and Federal Digital System Projects (\$536,000).

The bill continues language authorizing the operation of the revolving fund and authority to hire or purchase automobiles, advisory councils, and consultants.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

2012 appropriation	\$511,296,000
2013 budget request	526,233,000
Committee recommendation	519,802,000
Offsetting Collections	24,318,000
Total available	\$544,120,000

The Committee recommends \$519,802,000 in direct appropriations for the Government Accountability Office (GAO), plus \$24,318,000 in offsetting collections derived from reimbursements for conducting financial audits of government corporations and rental of space in the GAO building. This amount is an increase

of \$8,506,000, or 1.66%, above the fiscal year 2012 enacted level, and is \$6,431,000 below the budget request. This increase will allow the GAO to hire up to 3,000 FTE's, an increase of 21 FTE's, which will enable GAO to begin to achieve a staffing level required to address the ever increasing demands from the Congress.

GAO was established by the Budget and Accounting Act of 1921. Formerly known as the General Accounting Office, it was renamed by Public Law 108–271. GAO works for Congress by responding to requests for studies of Federal Government programs and expenditures. GAO may also initiate its own work.

ADMINISTRATIVE PROVISION

Section 1501 authorizes payments to the Employees' Compensation Fund.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

2012 appropriation	\$10,000,000
2013 budget request	10,000,000
Committee recommendation	1,000,000

The Committee again states its concern with the placement of the Open World Leadership Center (OWC) in the Legislative Branch. The Committee also understands the program has some strong champions on the Committee. However, with continued further reductions being made to almost every program within the Legislative Branch, the Committee has provided \$1,000,000 to cover the cost associated with the shutdown of the OWC. The Committee directs the Executive Director of the OWC to retain any necessary prior funds in the Trust to cover any cost in excess of the \$1,000,000 provided in this bill. The Executive Director is further directed that the program termination is to be finalized within one year of enactment of the Legislative Branch fiscal year 2013 appropriations bill.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

2012 appropriation	\$430,000
2013 budget request	430,000
Committee recommendation	

The fiscal year 2012 Conference Agreement (House Report 112–331) directed that future budget requests from the John C. Stennis Center be accompanied by an appropriately detailed budget justification as requested in House Report 112–148. The Committee did not receive such justification and therefore has not provided the requested funding.

TITLE II—GENERAL PROVISIONS

ADDITIONAL VIEWS

The bill funds the Legislative Branch, not including Senate related items, at \$3.3 billion which represents a 1 percent reduction from fiscal year 2012. With the allocation, the subcommittee was able to provide adequate funding to congressional support agencies, including the Congressional Research Service, the Congressional Budget Office, and the Government Accountability Office.

While the levels are adequate for some agencies, the allocation required the subcommittee to propose no funding to continue the rehabilitation of the Capitol dome. The Architect requested \$61.2 million for the first part of phase two of the multi-year project. According to the Architect of the Capitol, if the project is not funded this fiscal year, the total cost of the rehabilitation of the dome will increase due to the rapidly deteriorating conditions. Democrats on the committee prefer the dome remain a monument to our nation's greatness and not become a symbol for short-sighted austerity.

We are extremely disappointed that House Republicans walked away from the bipartisan agreement to establish \$1.047 trillion as the Committee's allocation. A majority of their conference voted for the Budget Control Act agreement less than 9 months ago. By renegeing on the agreement, House Republicans put themselves at odds with House Democrats, the White House, Senate Democrats, and Senate Republicans. Senate Minority Leader McConnell recently voted for allocations at \$1.047 and Ranking Member Cochran stated that it's appropriate "for the Committee to proceed on the basis of the discretionary caps enacted into law." House Republicans introduced uncertainty about the discretionary allocation, and about whether the House majority will threaten to shut down the government. This uncertainty will slow down the appropriations process and the austere House allocation, if it stands, will stall economic growth and impede job creation.

SECURITY

A major initiative of the bill was to fund the increased costs of training and overtime of the Capitol Police. Given the known past threats against the Capitol and office buildings it is appropriate to make security a priority. However, the increased cost of security does not end in Washington DC and Members are being asked to do more to secure their district offices with fewer resources. We appreciate the inclusion of report language directing the House Sergeant at Arms to develop a series of recommendations on security enhancements for House District Offices. However, there are costs associated with enhanced security in district offices and those increased costs will need to be addressed by this subcommittee, sooner rather than later. We will continue to work with our Republican colleagues to find ways to assist Members in protecting their constituents and staffs in the districts.

DEFENSE OF MARRIAGE ACT

Even though the House of Representatives budget has been cut by more than 10 percent in 2 years, House Republicans have reprogrammed \$742,000 from several House offices to the Office of General Counsel for the purpose of defending the constitutionality of the Defense of Marriage Act. The House General Counsel has a contract with outside counsel that commits the House to a maximum payment of \$1.5 million. We are concerned that the scarce resources available to the House of Representatives will continue to be syphoned off in order to defend a law that continues to be found unconstitutional in the courts.
