SUMMARY OF ESTIMATES

The Committee recommendation for the fiscal year 2012 budget for the activities under the jurisdiction of the Subcommittee on the Department of State, Foreign Operations, and Related Programs is \$44,640,000,000 in new discretionary budget authority for enduring operations, of which \$44,504,000,000 is for security-related activities. This is \$3,521,784,000 below the fiscal year 2011 enacted level and \$6,153,480,000 below the fiscal year 2012 budget request. An additional \$158,900,000 is for mandatory spending and an additional \$8,702,787,000 is for Overseas Contingency Operations.

INTRODUCTION

The Committee notes that government-wide efforts to reduce the Federal deficit require deep cuts in operations and many programs funded by this act. The consequences will be severe for the operations of the Department of State and USAID, U.S. embassies and consulates, contributions to international organizations of which the United States has been a leading member, and bilateral assistance programs, as well as the ability of the United States to project its influence and protect its economic and security interests around the world. The Federal agencies administering funds appropriated by this act should review all costs associated with operations and programs to determine their priority and effectiveness. Programs that are failing to perform or meet sustainability guidelines should be discontinued.

COUNTRIES OF SPECIAL CONCERN

The Committee notes that significant resources have been spent by the Departments of State and Defense and USAID since September 11, 2001 to mitigate security threats to the United States in Afghanistan, Pakistan, Iraq, and Yemen. However, these threats

continue and have spread to other countries. Further, reports of fraud and mismanagement in assistance programs in Iraq and Afghanistan, in particular, by the Commission on Wartime Contracting are deeply troubling and erode support for such activities by the American people.

The Committee remains concerned with the high costs of security for Department of State and USAID personnel in these countries. In the current budget environment, such high security costs are not sustainable and come at a cost to other Department of State and USAID operations. The Committee also questions whether assistance programs which require the presence of heavily armed security contractors can succeed among rural Afghans. The Committee urges the Department of State and USAID to reduce the scale of assistance programs to only what can be effectively managed, monitored, and sustained.

AFGHANISTAN

The Committee recommends \$941,555,000 for ongoing Department of State operations and assistance for Afghanistan. The Committee recommends an additional \$1,801,650,000 for OCO costs. The Committee notes that an additional \$773,000,000 in ESF from fiscal year 2011 and fiscal year 2010 supplemental appropriations, withheld by the administration for contributions to the Afghanistan Reconstruction Trust Fund until the Government of Afghanistan takes certain steps required by the IMF, will be available in fiscal year 2012, bringing the total available for operations and programs in Afghanistan in fiscal year 2012 to \$3,516,205,000. The Committee also notes that third quarter unobligated balances for assistance for Afghanistan from fiscal years 2006 through 2011 total \$4,163,868,340. Funds are allocated in the following table:

PAKISTAN

The Committee does not recommend a total funding amount for assistance for Pakistan, but recommends \$1,000,000,000 for the Pakistan Counter-Insurgency Capability Fund under title VIII of this act. The Committee remains concerned with the state of United States-Pakistan relations, and requests clarification from both the Department of State and the Government of Pakistan on shared security and development priorities. The Committee includes a pre-obligation certification requirement applicable to funds appropriated in titles III and IV and for the Pakistan Counter-Insurgency Capability Fund, with a waiver. The act also requires the Secretary of State to report every 6 months on achieving goals and benchmarks enumerated in the required spend plan for assistance for Pakistan.

IRAQ

The Committee recommends \$681,220,000 for ongoing Department of State operations and assistance for Iraq. The Committee recommends an additional \$4,547,494,000 for OCO costs, including to train and equip civilian police forces. Funds are allocated in the following table:

The Committee recommends \$115,000,000 for assistance for Yemen, and remains concerned with instability and extremism in that country. The Committee notes increasing costs associated with programs in Yemen over the past several fiscal years, and requests the Department of State to coordinate activities with neighboring countries and other international donors to ensure the risks and costs associated with this failed state are not borne by the United States alone. Funds are allocated in the following table:

Of this amount, \$1,636,201,000 is for worldwide security protection, including \$236,201,000 for OCO costs, \$495,302,000 for public diplomacy activities, and \$35,000,000 for Conflict Stabilization Operations non-deployment costs. The Committee recommendation separates the functions funded under this heading to provide transparency in the uses of funds. However, the Department of State may reprogram funds as necessary, subject to consultation with the Committee. The Committee recommendation does not include funding for the 185 new positions requested in fiscal year 2012.

Human Resources.—The Committee recommends \$2,387,854,000 for all American salaries at overseas and domestic United States diplomatic missions. The Committee recommendation includes the requested extension of authority for funding only for phases I and II of the Foreign Service overseas comparability pay.

Overseas Programs.—The Committee recommends \$2,124,646,000 for the operational programs of regional bureaus of the Department of State. Regional bureaus are responsible for managing U.S. foreign policy through bilateral and multilateral relationships. Funds support U.S. Embassies, consulates, and other diplomatic posts worldwide, and provide a myriad of services to millions of American citizens living, working, studying, and serving abroad.

The Committee directs the Department of State to consider increasing its diplomatic presence in Somalia to advance U.S. policy objectives and oversee famine relief efforts, if it can be done in a manner that provides necessary security for U.S. personnel and is cost effective.

Diplomatic Policy and Support.—The Committee recommends \$865,000,000 for the operational programs of the functional bureaus of the Department of State to provide overall policy direction, coordination, and program management among U.S. missions abroad, and includes funds requested for costs related to the APEC 2011 Leaders meeting.

PROGRAM ISSUES

Conflict Stabilization Operations.—The Committee expects the Department of State and USAID to utilize funds from the Complex Crisis Fund and other crisis and disaster response funds to support deployments. The Committee remains concerned with CSO’s limited activities, specifically the minor role it has played in response to the earthquake in Haiti and the revolution in Libya. Given budget restraints, the Committee will assess the performance of the CSO during fiscal year 2012.

The Committee does not support the use of funds for additional active or standby civilian response corps positions. The Committee notes, and supports, the administration’s decision not to request funding for a CRC reserve component.

Consular Affairs Pilot Programs.—Section 7079 of this act directs the Secretary of State to take steps to eliminate the long delays in processing tourist visas in the PRC, Brazil and India, and to report on steps taken to meet the Department’s visa processing standards. The section also authorizes the Secretary to develop and conduct a

pilot program for processing tourist visas using secure remote videoconferencing technology as a method for conducting visa interviews of applicants, if it can be done in a manner consistent with security controls.

Cyber Issues.—The Committee recommends \$2,000,000 for operations and programs under the authority of the Coordinator for Cyber Issues, in addition to funds otherwise made available for such purposes. The Coordinator, in consultation with other relevant Federal agencies, is encouraged to consult on a regular basis, including in bilateral and multilateral fora, with other nations on cyber security issues including but not limited to those of infrastructure protection, standards, and best practices in the field.

The Coordinator, in consultation with other relevant Federal agencies, is encouraged to consult on a regular basis, including in bilateral and multilateral fora, with other nations on cyber security issues including but not limited to those of infrastructure protection, standards and best practices in the field.

Procurement Fee Working Capital Fund.—The Committee directs the Secretary of State to report to the Committee not later than 90 days after enactment of this act on the Acquisitions Management program funded by the 1 percent procurement fee. The report should include the cost categories and number of staff funded from this fee as well as the efficiencies and impacts of this program.

Contracting Reform.—The Committee directs the Secretary of State to provide to the Committee not later than 90 days after enactment of this act the Department of State's response to the recommendations included in the final report of the Commission on Wartime Contracting, including a determination by the Department of which recommendations are applicable to the Department of State, the status of implementation of the applicable recommendations, and a timeline to complete implementation.

Democratic Republic of the Congo.—The Committee directs the Secretary of State to review and report to the Committee on current guidelines prohibiting U.S. Embassy personnel from Rwanda and Uganda from traveling into the Eastern DRC for mission-specific purposes, without first traveling to Kinshasa. The Committee is concerned that such restrictions are cost-prohibitive and prevent U.S. Embassy personnel from addressing issues of regional importance in a timely and effective manner.

Overseas Presence and Staffing Levels.—The Office of Inspector General includes recommendations for potential positions reductions and office closures in its inspection reports of overseas posts. The Committee directs the Secretary of State to provide the Committee with a consolidated list of these recommendations from OIG inspection reports since October 1, 2011, to reduce positions or downsize or close posts, including estimated cost savings, and the Department's response to these recommendations.

Cultural Heritage.—The Committee recommends \$5,750,000 for this program, including \$1,000,000 for the Cultural Antiquities Task Force, and funding for up to five large-scale projects. The Department of State should consult with the Committee prior to the obligation of funds. The Committee recognizes the important public diplomacy role of this program, as well as its contribution in preserving some of the world's irreplaceable cultural antiquities.

Human Rights Vetting.—The Committee supports the Department of State's efforts to monitor U.S. military assistance to foreign security forces, pursuant to section 620M of the FAA, as amended by this act. The vetting process has been widely applied to individuals who are candidates for U.S. training, but it has more often not been applied to those individuals' units, or to units that may receive U.S. equipment. This is contrary to the letter and intent of the law and has limited its effectiveness. The Committee expects the Department to implement the law faithfully and effectively. As in past years, the Committee recommends not less than \$2,000,000 for DRL for personnel, training, and other support to strengthen the vetting process, as well as to implement the procedures specified in section 7032(o) of this act.

Locally Employed Staff.—The Committee recommends \$750,000,000 for LES salaries (excluding those under the Local Guard Program), and authorizes the use of such funds for awards and special benefits, including compensation should LES be killed in the line of duty.

Office of Defense Trade Controls Licensing.—The Department of State proposed funding an additional 11 positions in the Office of Defense Trade Controls Licensing through the expanded use of registration fees, but this expanded use has not yet been authorized. The Committee directs the Department to ensure that the office has the necessary budget and staff to fulfill its responsibilities in a timely and effective manner.

Pakistan.—The Committee recommends \$161,421,000 for Pakistan operations, including \$137,603,000 for OCO costs. This amount also includes \$57,423,000 for WSP costs in Pakistan.

Public Diplomacy.—The Committee recommends a total of \$495,302,000 for public diplomacy programs to be funded through direct appropriations and an additional \$11,000,000 through Department of State fees. The Committee is aware of several innovative "virtual" educational exchange programs and urges the Under Secretary for Public Diplomacy and Public Affairs to assess the potential of these programs to expand the number, diversity, and experience of international exchange participants beyond the traditional study abroad exchange programs.

Representation Funds.—The Committee does not include a provision in prior acts authorizing the Department of State to transfer up to \$1,000,000 from D&CP to Representation Allowances. The Committee recommends \$7,300,000 for official representation activities under the Representation Allowances heading.

Tibet.—The Committee urges the Secretary of State to provide support for the Special Coordinator for Tibetan Issues in carrying out the broad responsibilities detailed in section 621(d) of Public Law 107-228, as well as for convening and coordinating meetings for appropriate U.S. Government agencies, NGOs, and representatives of the Tibetan leadership in exile.

Trafficking in Persons.—The Committee recommends a total of \$40,000,000 in this act for Trafficking in Persons programs. Of this amount, \$6,764,000 is included under the D&CP heading for the Office to Monitor and Combat Trafficking in Persons (\$2,899,000 for programs and \$3,865,000 for salaries).

Compact of Free Association Agreements.—The Committee directs the Secretary of State to follow the guidance detailed in Senate Report 112–74 related to the Compact of Free Association agreements with the governments of the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. The Committee directs the Secretary of State to work within the U.S. Government interagency process to help reduce the financial burden placed on affected jurisdictions while ensuring that the important national security benefits of these agreements are preserved. The Secretary of State is directed to report to the Committee not more than 90 days after enactment of this act on progress made in addressing this issue.

The Committee supports the independent oversight and investigative responsibilities of the Inspectors General of the Department of State, USAID, SIGAR, and SIGIR and directs the Inspectors General to coordinate their activities in Iraq and Afghanistan to minimize unnecessary duplication, ensuring that resources are used effectively. The Committee directs the Office of Inspector General to coordinate with the SIGIR as it draws down its operations, closes, and completes the transition of remaining work to the permanent oversight offices by December 31, 2012.

Committee recommendation	7,300,000

The Committee recommends \$7,300,000 for Representation Allowances, which is \$875,000 below the budget request, for reimbursement to Foreign Service Officers for expenditures incurred in their official capacities abroad in establishing and maintaining relations with officials of foreign governments and members of local communities. Given budget constraints, the Committee directs the Secretary of State to limit representation functions and costs to the maximum extent practicable.

The Committee recommends \$27,744,000 for Protection of Foreign Missions and Officials to reimburse local governments and communities for the extraordinary costs incurred in providing protection for international organizations, foreign missions and officials, and foreign dignitaries under certain circumstances.

The Committee intends that in instances where a local jurisdiction will benefit financially from a visit by a foreign delegation, such circumstances should be taken into account by the Department in assessing the need for reimbursement under this program. The Committee expects the Department to provide reimbursement to local jurisdictions on a timely basis if claims are fully justified.

EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

Appropriations, 2011	\$1,616,760,000
Budget estimate, 2012	1,801,517,000
Committee recommendation	1,570,000,000

The Committee recommends \$1,570,000,000 for Embassy Security, Construction, and Maintenance for the management of real property assets overseas in order to provide diplomatic and consular missions with secure, safe, and functional facilities, of which \$795,000,000 is for maintenance and planning, and \$775,000,000 is for worldwide security upgrades, acquisition, and construction programs, and recommends funding for Compound Security and Maintenance Cost-Sharing at the budget request. The Committee recommendation includes authorization for the Maintenance Cost-Sharing initiative to utilize funding from the Capital Security Cost-Sharing program for the maintenance, repair, and rehabilitation of the new facilities with an inter-agency presence.

The Committee is concerned with the long-term sustainability of the operating, maintenance, and utility costs for new diplomatic and consular facilities and directs the Secretary of State to impose a moratorium on developing new projects until the Department of State provides the following information to the Committee: (1) the additional annual costs for operations and maintenance, including utilities and salaries, and the number of additional facilities and engineering staff that have been hired to operate the new diplomatic and consular facilities that have become operational since the CSCS program began; (2) the estimated additional costs for op-

erations and maintenance, including utilities and salaries, and the number of additional facilities and engineering staff necessary to operate the diplomatic and consular facilities that have been funded and/or are being constructed; and (3) the plan for addressing the \$111,000,000 in deferred maintenance at existing diplomatic and consular facilities reported in the Department's 2010 financial statements.

The Committee does not support the use of funds to demolish the Ambassador's residence in Islamabad, Pakistan and directs the Secretary of State to consult with the Committee prior to any decision to significantly modify the residence.

American Centers.—The Committee continues to support the renovation and construction of American Centers through a strategy that balances the need for publicly accessible facilities, reasonable and sustainable costs, and compliance with the Secure Embassy Construction and Counterterrorism Act of 1999 regulations, and encourages continued coordination by the offices of Overseas Building Operations, Diplomatic Security and Public Diplomacy to achieve this strategy.

The Committee encourages the Department to prioritize expenditures for evacuations and rewards and to minimize the use of this fund for travel and representational expenses.

In addition to the funds appropriated under this heading, the Committee authorizes transfer of up to \$10,000,000 under the D&CP heading for emergency evacuations and rewards, which is equal to the budget request.

Appropriations, 2011	\$21,108,000
Budget estimate, 2012	23,320,000
Committee recommendation	21,108,000

terests, provide consular services, and promote exchange programs in Taiwan. AIT will also receive an estimated \$19,800,000 in visa processing fees and \$21,900,000 in reimbursements from other agency contracts, providing a total of \$62,808,000 in fiscal year 2012. The Committee understands that the Department of State is considering adding Taiwan to the visa waiver program, reducing AIT's visa processing fees by approximately \$15,000,000. The Committee directs AIT and the Department to report on the impact of the visa waiver program on AIT's operations and annual budget, prior to a final decision on the visa waiver program. The Committee also directs AIT to report on the increased costs for maintaining and operating the new AIT facilities.

INTERNATIONAL ORGANIZATIONS

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

Appropriations, 2011	\$1,578,651,000
Budget estimate, 2012	1,619,400,000
Committee recommendation	1,585,000,000

The Committee recommends \$1,585,000,000 for Contributions to International Organizations, for the assessed costs of U.S. membership in international organizations as authorized by conventions, treaties, or specific acts of Congress. The United States has participated in international organizations for decades, many of which serve important U.S. national interests but some may no longer be cost-effective. The Committee directs the Department of State to conduct a review of all such organizations, and for any which no longer merit U.S. contributions to promptly initiate steps to withdraw.

The bill includes a provision directing the Department of State to use credits to United States-assessed contributions to the United Nations Tax Equalization Fund to offset other assessed contributions to the United Nations, subject to the regular notification procedures of the Committees on Appropriations.

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

Appropriations, 2011	\$1,883,931,000
Budget estimate, 2012	1,920,000,000
Committee recommendation	1,917,900,000
Enduring operations	1,900,000,000
Overseas Contingency Operations	¹ 17,900,000

¹ Overseas Contingency Operations is funded under title VIII.

The Committee recommends \$1,917,900,000 for Contributions for International Peacekeeping Activities, including \$17,900,000 for

OCO costs. An additional \$51,000,000 is included under the PKO heading for a contribution for assessed peacekeeping activities in Somalia.

The Committee recognizes the significant contribution to international peace and security provided by United Nations peacekeeping activities, without the participation of United States troops. The Committee notes, however, that U.N. peacekeeping missions have often suffered from deficiencies, including inadequate equipment to effectively protect civilians, troops without proper training or with a history of human rights violations, and troops that have committed sexual abuses while on peacekeeping missions. The United Nations, donor countries, and troop-contributing countries have a shared responsibility to ensure that troops are qualified and properly trained and equipped for the missions for which they are deployed, and that troops who commit abuses are prosecuted and punished. The Committee requires the Secretary of State to work with troop contributing countries and the United Nations to develop effective procedures to vet U.N. peacekeeping troops.

The Committee directs that funds be available for peacekeeping activities unless the Secretary of State determines that United States manufacturers and suppliers are not being given opportunities to provide equipment, services, and material for United Nations peacekeeping activities equal to those being given to foreign manufacturers and suppliers.

The bill includes a provision under this heading directing the Department of State to use credits to United States-assessed contributions to prior missions and the U.N. Tax Equalization Fund to offset other assessed contributions to the United Nations, subject to the regular notification procedures of the Committees on Appropriations.

INTERNATIONAL COMMISSIONS

The Committee recommends funding to meet U.S. treaty obligations to international commissions in fiscal year 2012 and recognizes that funds are requested under the Department of State as a result of international treaties.

Appropriations, 2011	\$12,583,000
Budget estimate, 2012	11,996,000
Committee recommendation	11,687,000

These funds support environmental infrastructure projects along the United States-Mexico border relating to wastewater treatment, drinking water preservation, solid waste management, and air quality improvement.

The Committee notes the historic flooding that occurred earlier this year along the Souris River, which overwhelmed existing bilateral flood control measures and had devastating effects in Minot, North Dakota and the surrounding area. The Committee recommends that the Department of State request that the International Joint Commission, through the International Souris River Board, review “Annex A” of the 1989 bilateral agreement for Water Supply and Flood Control in the Souris River Basin and identify revisions to improve bilateral flood control efforts.

INTERNATIONAL FISHERIES COMMISSIONS

Appropriations, 2011	\$50,399,000
Budget estimate, 2012	31,291,000
Committee recommendation	36,300,000

The Committee recommends \$36,300,000 for the International Fisheries Commissions. Within the amount provided for GLFC, \$3,000,000 is for lamprey control and water quality improvements in the Lake Champlain Basin and \$2,009,000 is for sea lamprey control and fishery research for the Great Lakes Basin.

The Committee supports efforts to strengthen conservation initiatives and healthy fisheries through bilateral and multilateral agreements, especially in the strategically significant Western Pacific. In pursuing such efforts, the Department is encouraged to properly consider the economic costs such agreements may have on demonstrably sustainable U.S. fisheries, especially when weighed against the relative efficacy such agreements have with regard to encouraging similar levels of sustainability in foreign fleets. The Committee requests that the Department of State keep the Committee appropriately informed in the event that negotiations pertaining to any Western Pacific fishery agreement are likely to result in a detrimental impact for U.S. fisheries.

The Committee recommends \$740,039,000 for International Broadcasting Operations, for the operating and engineering costs of VOA, OCB, RFE/RL, RFA, MBN, and the BBG.

Funds are allocated in the following table and subject to the requirements of section 7019 of this act:

Editorial Controls.—The Committee directs the BBG to notify the Committee within 15 days of any determination by the Board that any of its broadcast entities are found to be in violation of relevant journalistic code of ethics.

Congressional Notifications.—The Committee is concerned with the lack of transparency regarding the “optimize BBG transmission” proposal included in the fiscal year 2012 Congressional Budget Justification which states that this proposal includes “various efficiencies and realignments of the BBG’s worldwide transmission network” when the proposal would reduce shortwave and medium wave transmissions to Russia, Iran, North Korea, Vietnam, and Iraq. The Committee directs the BBG to notify the Committee when BBG broadcast hours are reduced or increased and when transmission platforms are changed.

Program Changes.—The Committee does not include the funds requested for program enhancements. However, the BBG may propose reallocations to fund these increases in the fiscal year 2012 spend plan. While the Committee recognizes that VOA English language and cultural programs are reaching audiences, particularly youth, via the Internet in the PRC, the Committee is concerned with the lack of clarity about the impact of the China broadcast restructuring proposal on all VOA radio and television programs broadcast to the PRC and Taiwan, and the lack of transparency of the “optimize BBG transmission” proposal. The Committee does not support either proposal and includes funding for the continuation of these broadcasts and transmissions.

Internet Programs.—The Committee recognizes the BBG’s efforts to expand access to information and communications tools such as collaborative media and social networking to Internet users worldwide, including in closed societies subject to monitoring and censorship, and encourages the BBG to evaluate emerging online broadcasting and communication methods to reach these audiences. The Committee provides \$2,500,000 to support expanded Internet anti-censorship efforts, in addition to funds otherwise available for such purposes. The Committee directs that prior to obligation the BBG submit a report detailing planned expenditures for these funds, and not later than September 30, 2012, the BBG submit a report on the programs supported by these funds and an assessment of the programs.

Tibet.—The Committee includes sufficient funding to continue RFA and VOA Tibetan language services.

The Committee recognizes the unique role of TAF and its long-standing relationship with local communities based on its diverse field presence, and includes funding to maintain offices in PRC, Vietnam and Thailand and to enable TAF to respond to emerging needs in the region. The Committee expects TAF to undertake cost savings and efficiencies in its U.S. offices.

The Committee recommends additional funding to strengthen the capacity of civil society organizations and local leaders who are peacefully advocating for democracy and human rights. USAID and the Department of State are directed to coordinate other democracy programs in those countries with NED to avoid duplication. NED should not be precluded from competitively bidding on other grant solicitations.

NED is directed to submit a financial plan not later than 60 days after enactment of this act detailing the proposed distribution of funds in a manner similar to prior years, to consult with the Com-

mittee on any proposed deviation from the plan, and to apportion core funds in the traditional and customary fashion among core institutes.

¹ Overseas Contingency Operations is funded under title VIII.

The Committee recommends \$1,357,000,000 for USAID Operating Expenses, including \$106,000,000 for OCO costs.

Procurement Reform.—The Committee strongly supports initiatives by the USAID Administrator to reform USAID’s cumbersome procurement process, and other initiatives to increase transparency and provide for independent evaluations of USAID operations and programs. These initiatives are long overdue, as significant institutional changes are needed to enable USAID to become the accessible, transparent, and effective agency the country needs. Equally necessary is a change of culture at USAID to one that encourages staff to challenge conventional assumptions and approaches, and voice concerns about poor management or waste without fear of being thwarted or punished.

The Committee recommends funding for 35 additional civilian service positions to support procurement reform.

The Committee supports a wide representation of minority groups within the USAID workforce and improved diversity of businesses and NGOs that receive USAID contracts and grants, and encourages the USAID Administrator to identify and implement steps to improve minority recruitment and retention of USAID employees, contractors, and grantees in the United States and overseas.

Due to budget constraints, the Committee does not recommend funding for additional Development Leadership Initiative positions or for DLI-related physical space expansion.

Partner Vetting.—The Committee continues the requirements of section 7034(o) of Public Law 111–117 relating to a Partner Vetting System [PVS], and directs the Secretary of State and USAID Administrator to consult on plans to expand PVS beyond a pilot program.

Reprogramming Notification Requirements.—To enhance transparency of the use of funds under this heading, the Committee has added a notification requirement.

MATERNAL AND CHILD HEALTH

The Committee recommends \$595,000,000 for maternal and child health activities under the GHP account. The Committee recognizes the critical role that maternal and child health programs play in overall global health, and that most deaths of children before the age of 5 and of women from pregnancy-related causes could be prevented with low-cost interventions by trained health workers.

GHI Implementation.—Not later than 180 days after enactment of this act, the Executive Director of the GHI, in consultation with the GHI Operations Committee, shall submit a report to the Committee assessing the state of implementation and early impact of the GHI in the eight original GHI Plus countries. The report shall address the initial implementation phases of the GHI to achieve the objectives of increasing the impact of U.S. assistance, achieving efficiencies and improving cost effectiveness, and enhancing the sustainability of U.S. support through greater country ownership.

Micronutrients.—The Committee recommends not less than \$30,000,000 for micronutrients, of which not less than \$20,000,000 is to address Vitamin A deficiencies.

The Committee recommends not less than \$2,000,000 for the USAID/UNICEF IDD program to prevent mental retardation in children.

Midwifery.—The Committee recognizes the efficacy of training local healthcare providers as midwives to assist women in avoiding and addressing pregnancy complications and reducing maternal and child mortality. The Committee urges USAID to continue to invest in training local midwives.

Polio.—The Committee recommends not less than \$39,500,000 for polio eradication efforts, including \$35,000,000 under this heading and an additional \$4,500,000 from the ESF heading to support efforts in Afghanistan and Pakistan. Funds should be used to pro-

vide for the delivery of vaccines and the development of the infrastructure necessary to implement the program.

Vaccines and Immunization.—The Committee recommends \$100,000,000 for the GAVI Alliance. The GAVI Alliance provides vaccines for children in the poorest countries, including new vaccines against pneumococcal disease and rotavirus, and serves important U.S. humanitarian interests in preventing the needless deaths of millions of children.

Vulnerable Children.—The Committee recommends \$17,500,000 for programs and activities that address the needs of vulnerable children, of which not less than \$2,500,000 is for assistance for blind children. USAID should administer the programs in a manner that delivers the maximum amount of funds to the field, and should consider support for cleft lip and cleft palate surgery programs.

In consultation with the Committee, the Office of Displaced Children and Orphans Fund is directed to devise and implement model programs that provide up to \$4,500,000 for technical assistance to partner governments to assess the needs and number of such children living outside of family care and the progress made in placing children in safe and stable families.

The Committee encourages USAID to institutionalize the secretariat established in Public Law 109–95 and notes the important interagency efforts of the Special Advisor on Orphans and Vulnerable Children and Secretariat.

FAMILY PLANNING/REPRODUCTIVE HEALTH

The Committee recommends a total of \$700,000,000 from all accounts in this act for family planning and reproductive health programs, including \$585,000,000 under this heading, \$75,000,000 under the ESF and AEECA headings, and \$40,000,000 for UNFPA.

Clarification.—The Committee does not continue to include language in a general provision regarding funding for abortions and involuntary sterilization (section 7018 of Public Law 111–117) that was simply a restatement of permanent law (section 104(f) of the FAA). Instead, the Committee includes the last sentence of that provision.

HIV/AIDS

The Committee recommends a total of \$5,600,000,000 for programs and activities to combat HIV/AIDS, of which \$5,250,000,000 is for the Department of State and \$350,000,000 is for USAID.

Antiretroviral Treatment.—Despite advances in antiretroviral treatments and other efforts to prevent the spread of HIV/AIDS, the trajectory of people who continue to need ARV treatment continues to increase. Along with other tools to prevent the transmission of HIV, USAID should continue to support research and development of a preventive vaccine to combat the AIDS virus.

The Committee is aware of the findings of the HIV Prevention Trials Network 052 [HPTN 052] for reductions in the transmission of HIV. The U.S. Global AIDS Coordinator is directed to consult with the Committee on the work of S/GAC Scientific Advisory Board on HPTN 052, including how U.S. assistance in a constrained budget environment could most effectively prevent HIV

transmission through ARV treatment and other proven interventions.

Global Fund.—The Committee recommends not less than \$750,000,000 for a U.S. contribution to the Global Fund to Fight AIDS, Tuberculosis and Malaria.

The Committee supports the role of the Office of Inspector General [OIG] of the Global Fund, and encourages both the Fund's Board of Directors and OIG to continue efforts to increase transparency and improve oversight of Fund grants. The Committee supports the action taken by UNDP to grant the Global Fund OIG access to its internal audits and is supportive of the recommendation to grant access to such audits through a secure Web site. The Committee remains concerned with the continued lack of transparency and access to UNDP reports. All recipients of Global Fund implementation funding should be subject to the same standards of investigation and oversight.

Microbicides.—The Committee recommends \$45,000,000 for research on and development of microbicides to prevent HIV.

S/GAC Notifications.—The Committee supports S/GAC's efforts to reform its congressional notification procedures to provide detailed information in a useful format for funding requests, planned expenditures, and reprogrammings, and directs S/GAC to continue to consult with the Committee on these matters. The Committee reminds S/GAC that reprogrammed funds are subject to section 7015 of this act.

UNAIDS.—The Committee provides \$45,000,000 for a U.S. contribution to UNAIDS.

INFECTIOUS DISEASES

Influenza Pandemic Preparedness and Response.—The Committee recommends \$59,000,000 to prevent the spread of avian influenza and the H1N1 virus and other disease pandemics. The Committee includes new authority to use funds appropriated under other accounts in the act to respond to a pandemic outbreak, notwithstanding any provision of law, and subject to prior consultation and notification.

Malaria.—The Committee recommends \$642,000,000 for programs to combat malaria. The Committee recommends additional funding to support diagnosis and treatment of malaria through NGOs in Burma, in a transparent and accountable manner consistent with U.S. policy. The Committee recognizes the role of institutions of higher education in combating the health, economic, and security impacts of malaria, and the continued improvements in Federal Drug Administration-approved drugs for malaria prevention.

The Committee encourages USAID to continue to support the development of a vaccine against malaria.

Neglected Tropical Diseases.—The Committee recommends \$89,000,000 to continue and expand the ongoing USAID integrated response program for NTDs. The Committee requests to be consulted prior to the obligation of funds, including on country-specific allocations.

Appropriations, 2011	\$2,519,950,000
Budget estimate, 2012	2,918,002,000
Committee recommendation	2,550,000,000

The Committee recommends \$2,550,000,000 for Development Assistance.

PROGRAMS

AGRICULTURE AND FOOD SECURITY

The Committee recommends \$1,300,000,000 for the Feed the Future Initiative from all accounts in this act. The Committee supports the administration's efforts to significantly increase the U.S. response to agricultural and food security needs in the poorest countries. The Committee recommends language in section 7025 to help facilitate the local purchase of food in order to speed delivery in emergencies, bolster the incomes of local producers, and reduce the cost to U.S. taxpayers. The Committee also includes language in section 7057(d) to strengthen and expand the integration of women as key recipients of agricultural aid and technical assistance.

The Committee continues to support agricultural research through the CGIAR and urges USAID to expand its investment in wheat and corn research.

Collaborative Research Support Programs.—The Committee recommends not less than \$31,500,000 for CRSPs. The Committee supports efforts to improve agricultural productivity in Iraq and Afghanistan by strengthening higher education institutions in those countries.

Global Crop Diversity Trust.—The Committee recommends a U.S. contribution to the Global Crop Diversity Trust's endowment, which seeks to ensure the viability of agriculture worldwide by conserving and making available collections of crop diversity.

Land Grant Institutions.—The Committee supports the work of land grant institutions of higher learning by using agricultural research to assist developing nations improve systems of value-added food production, strengthen trade linkages with the United States, and improve quality of life and food sustainability globally through programs aimed at increasing human capacity.

ECONOMIC DEVELOPMENT PROGRAMS

Cooperative Development Program.—The Committee has long recognized the important role that U.S. cooperatives and credit unions play in overseas programs as a means to lift low income people out of poverty by mobilizing equity and savings for community-based economic growth. The Committee recommends \$10,000,000 for USAID's Cooperative Development Program within the Office of Private and Voluntary Cooperation.

Development Innovation Ventures.—The Committee recommends funding for DIV to support innovative development initiatives with the potential for scale-up that could have wide impact and lead to cost savings, while leveraging private sector support.

Microenterprise and Microfinance Development Programs.—The Committee recommends \$255,000,000 in this act for microfinance and microenterprise development programs, and directs USAID to continue to target 50 percent of all microfinance and microenterprise funds to the very poor, as required by section 251(c) of the FAA. The Committee recognizes that different approaches are called for to respond to the needs of a range of poor to extremely poor beneficiaries, and directs USAID to track and report to the Committee the amounts and types of assistance and the number of households in this range who receive microenterprise and microfinance loans. The Committee also includes language in section 7056 to strengthen and expand economic opportunities for poor women in developing countries, including increasing the number and capacity of women-owned enterprises, improving property rights, access to financial services and capital, and enhancing the role of women in economic decisionmaking at local, national and international levels.

EDUCATION

Basic Education.—The Committee recommends \$745,000,000 in this act for basic education programs, including programs aimed at improving early childhood development, primary and secondary education, teacher training and basic skills training for adults and out of school youth.

Higher Education.—The Committee recommends \$200,000,000 in this act for higher education programs, including \$25,000,000 for such programs in Africa of which \$15,000,000 is for partnerships between higher education institutions in Africa and the United States. Partnerships should be selected through an open, competitive process, and focus on fields that are key to development such as agriculture, environment and natural resources, engineering, science and technology, health, education and teacher training, public administration, and business.

American Schools and Hospitals Abroad Program.—The Committee recommends \$22,500,000 for the ASHA program, which is equal to the fiscal year 2011 level, with the expectation that USAID will allocate funds under similar terms and conditions as in prior fiscal years. The Committee underscores that such assistance is not for permanent budget support to ASHA recipients, and that proposals shall be considered in full and open competition, and in accordance with all applicable rules and regulations.

CLIMATE CHANGE AND ENVIRONMENT PROGRAMS

The Committee recognizes the Earth's climate is changing and the need to help developing countries reduce greenhouse gas emissions; develop clean energy and increase energy efficiency; adapt to rising temperatures, water and food scarcity, and rising sea levels; protect forests and other biodiversity; and implement policies for the transparent and sustainable use of natural resources. The Committee recommends a total of \$1,250,000,000 in this act for climate change and environment programs funded through USAID, the Department of State, and the Department of the Treasury, including \$200,000,000 for biodiversity conservation programs.

Adaptation.—The Committee supports funding for programs to assist developing countries adapt to climate change hazards, including decreases in agricultural productivity, water scarcity, and rising sea levels.

Biodiversity.—The Committee recommends not less than \$200,000,000 for programs to protect tropical forests and other biodiversity including \$30,000,000 for USAID's conservation programs in the Amazon of which \$20,000,000 is for the Initiative for Conservation in the Andean Amazon and \$10,000,000 is for the Brazilian Amazon, with a priority on strengthening the capacity of indigenous organizations to protect tropical forests and biodiversity. The Committee recommends \$21,000,000 for the CBFP, of which \$9,000,000 is for a direct apportionment to the USFWS to continue and expand its programs in central Africa including to protect great apes.

The Committee remains concerned with continuing rapid rates of deforestation and degradation, particularly due to the expansion of industrial-scale logging and the illegal harvesting of timber in primary tropical forests. The Committee intends that assistance to protect tropical forests should support measures to strengthen forest governance, ensure tenure rights for indigenous peoples and local communities living in and around forests, promote full and effective participation of civil society in land-use planning and other forest policy decisions, and increase community ownership and management of natural forests for multiple values as an alternative to industrial-scale logging. Tropical forest management activities should maintain the natural ecological functions, biodiversity and resilience of tropical forests. The classification of primary tropical forests should be based on the most recent comprehensive assessments, such as the 2010 Global Forest Resources Assessment produced by the United Nations Food and Agriculture Organization.

The Committee recommends continued funding for USAID's programs to protect the habitat of orangutans in Borneo and Sumatra, and for USAID's program to protect wildlife in the Boma Jonglei area of Southern Sudan. Funds may also be used for a U.S. contribution to the Galapagos Invasive Species Fund. The Committee recommends \$2,000,000 for implementation of the Lacey Act.

The Committee also recommends that funding under this heading be used to protect endangered forests, wildlife, and water ecosystems through other international programs administered by the USFS (forest and wildlife conservation) and the USFWS (multilateral species and migratory bird conservation). The Committee also supports funding for international programs of the NPS (national park management) and NOAA (coral reefs and marine-protected areas). These agencies have particular expertise that should be put to greater use in assisting developing countries protect the environment and endangered species.

Clean Energy.—The Committee intends that funds for clean energy programs under title III of this act shall be used only to support programs that promote the sustainable use of renewable energy technologies and energy efficiency technologies, carbon sequestration, and carbon accounting. The primary objective of these pro-

grams should be to reduce, mitigate, and/or sequester emissions of greenhouse gases.

Oceans.—The Committee is aware that CO₂ emissions from fossil fuels and deforestation is changing the acidity of the ocean in ways that pose grave threats to fish and other ocean wildlife. The Committee expects the Departments of State and Treasury to coordinate with NOAA on the uses of funds for climate change programs.

GLOBAL PROGRAMS

Judicial Reform.—The Committee supports judicial reform as an important component of rule of law programs worldwide, particularly in developing and post-conflict countries. The Committee supports the use of funds under this heading and the ESF heading to continue judicial reform programs.

Nongovernmental Organizations.—The Committee recommends in section 7027 making permanent law, through amendment of the FAA, a long-standing waiver authority for activities conducted through NGOs.

Patrick Leahy War Victims Fund.—The Committee recommends \$12,000,000 for the LWVF, administered by USAID, which assists persons who are severely disabled as a result of armed conflict.

Victims of Torture.—The Committee recommends not less than \$11,000,000 for programs and activities that address the needs of victims of torture and victims of trauma resulting from violent conflict. The Committee recommends support for centers for victims of torture that provide services consistent with the goals of Public Law 106–87. An additional \$6,000,000 is recommended for the U.N. Voluntary Fund for Victims of Torture under the IO&P account. In addition, the Committee requires a report on countries receiving U.S. assistance whose security forces use torture, and that funds be used to assist in eliminating torture in such countries.

Water.—The Committee recommends not less than \$315,000,000 in this act for water sanitation and supply projects pursuant to Public Law 109–121. The Committee intends these funds to be used for programs to provide safe drinking water for urban and rural communities where water scarcity or contamination poses serious risks to human health or survival, particularly in sub-Saharan Africa.

The Committee recommends USAID consider supporting efficient and sustainable rain-harvesting, ridge tillage systems in West and sub-Saharan Africa that provide a supply of clean water for household use, irrigation and other purposes.

Women's Leadership.—The Committee recommends \$20,000,000 to support women's leadership capacity building programs.

COUNTRIES

Ecuador.—The Committee is concerned with the extensive oil contamination of land and water in Northeastern Ecuador which poses grave health risks for the local population. The Committee directs that not less than \$500,000 be made available for rainwater collection or other access to potable water for local residents, and to assist the Ministry of Health in providing local diagnosis and treatment for chronic illnesses resulting from such contamination. Technical assistance should also be made available to the Govern-

ment of Ecuador in identifying best practices for the remediation of oil-contaminated land and water and environmentally safe petroleum production.

Guatemala.—The Committee recommends \$1,000,000 for a direct apportionment to the U.S. Department of the Interior for biodiversity and archaeological conservation activities in Guatemala’s Mayan Biosphere Reserve, to include governance and law enforcement.

The Committee is aware of the debilitating problem of uterine prolapse among Nepali women and directs USAID to support efforts to address it.

Philippines.—The Committee recommends \$35,000,000 under this heading for assistance for the Philippines.

Rwanda and Uganda.—The Committee recommends support for local and international NGOs to conduct oversight of the conflict minerals trade flowing out of eastern DRC and to strengthen border controls with the DRC.

Senegal.—The Committee recommends not less than \$50,000,000 for assistance for Senegal under this heading. None of the funds appropriated in this act and prior acts that are available for assistance for the central Government of Senegal should be obligated until the Secretary of State reports to the Committees on Appropriations that Hissène Habré has been extradited to Belgium for prosecution for crimes against humanity.

COUNTRY ISSUES

Afghanistan.—The Committee recognizes that sustainable development is necessary to achieve stability in Afghanistan. The Com-

mittee cautions that smaller projects, with an emphasis on local capacity building, have the best chance of producing cost-effective, sustainable results.

The Committee recommends \$10,000,000 for the Afghan Civilian Assistance Program to assist individuals and communities that suffer losses as a result of military operations, if problems identified by the USAID IG with the implementation of the program are addressed. The Committee directs USAID to consult with the Committee on the use of funds prior to obligation.

The Committee continues conditions on assistance which seek to increase the effectiveness of programs, prioritize the role of women, and improve transparency and accountability to prevent corruption. The Committee directs the USAID Administrator, in consultation with the Department of State's Ambassador-at-Large for Global Women's Issues, to submit a report to the Committee not later than 90 days after enactment of the act on efforts to integrate Afghan women as active participants and beneficiaries of programs in the areas of infrastructure, agricultural and energy capacity, and economic growth.

The Committee recommends not less than \$5,000,000 under this heading for the Office of Global Women's Issues for small grants for capacity building of Afghan women-led NGOs to enhance the participation and leadership of women in the economy and political decisionmaking.

The Committee is concerned that civil service training programs will not be sustained without greater support from the Government of Afghanistan. The Committee directs USAID to report to the Committee on these programs, including an assessment of the number of skilled civilians required to staff the Afghan civil administration and the projected cost to the government of sustaining them.

The Committee endorses the budget request for rule of law and justice programs funded under this and the INCLE headings. The Committee requires that \$75,000,000 of such funds be under the authority of the Rule of Law Coordinator at the U.S. Embassy in Kabul.

Burma.—The Committee requests the U.S. Special Envoy and Policy Coordinator for Burma to regularly consult with the Committee on programs conducted in Burma and along the Thai-Burma border. The Committee encourages the Special Envoy to continue regular consultations with democracy leader Daw Aung San Suu Kyi on U.S. assistance and sanctions matters.

Cambodia.—The Committee remains concerned with allegations of corruption within the Khmer Rouge Tribunal, and continues conditionality on the availability of funds for the KRT on a Secretary of State certification that the U.N. and Government of Cambodia are taking effective steps to address such allegations.

Colombia.—The Committee recommends \$179,000,000 under this heading for alternative development/institution building in Colombia of which \$8,000,000 is transferred to the MRA heading for assistance for Colombian refugees in neighboring countries, \$15,000,000 is for assistance for Afro-Colombian and Indigenous communities including \$500,000 for renewable energy activities, and \$3,000,000 is for biodiversity conservation programs. The Com-

mittee also supports funding for flood recovery, including enabling small-scale farmers to adjust to changing market conditions.

The Committee recommends \$500,000 for community-based programs in Colombia which address the psychological, social, rehabilitative and educational needs of children and adolescents disabled by landmines and other causes related to the armed conflict.

Costa Rica.—The Committee is concerned that many countries, including Costa Rica, are failing to meet their commitments under the Convention on the Civil Aspects of International Child Abductions (the Convention), done at the Hague on October 25, 1980. The Committee includes a provision authorizing the Secretary of State to withhold ESF assistance for the central government of any country that the Secretary determines is not taking appropriate steps to comply with the Convention.

Cuba.—The Committee recommends \$15,000,000 for humanitarian and other assistance for Cuba. The Committee expects that funds will be made available, and programs carried out, in a transparent manner. The USAID Administrator is directed to provide regular updates to the Committee on the number of Cubans who receive assistance and the types of assistance.

Cyprus.—The Committee continues support for scholarships, bicomunal projects, and measures aimed at reunification, reducing tension and promoting peace and cooperation in Cyprus. Consultation with the Government of Cyprus should occur whenever practicable in the interest of transparency in the allocation of funds. The Committee intends that implementing organizations and the specific nature of the assistance shall not be subject to the prior approval of any foreign government.

Democratic Republic of the Congo.—The Committee recommends funding to help demilitarize the mining sector in eastern Congo, support independent monitoring of the mining trade, assist mine laborers, build local oversight and regulatory capacity, help victims of sexual violence, and establish an Independent Mineral Supply Chain Auditor in the Great Lakes Region of Africa (within the Executive Secretariat of the International Conference on the Great Lakes Region) to combat the illicit trade in minerals from the region.

East Asia and the Pacific.—The Committee recognizes the importance of democracy, governance, human rights, development and economic growth programs in the East Asia and Pacific region under this, the DA, ESF and NADR headings. The Committee is concerned that the budget request for such programs totals only one-eighth of the amount requested for programs in Africa and the Near East, respectively, and reflects a 30 percent decrease from the previous fiscal year.

The Committee remains concerned with conflicting claims on territory in the Pacific region, including the Spratly Islands, which may serve as flashpoints for confrontation between regional states. Given the PRC's active and opaque military modernization program, the Committee directs the Secretary of State to submit a report not later than 90 days after enactment of this act assessing the PRC's long-term strategic intentions in the region, including through the use of "soft power" influence, and potential for conflict

between the PRC and regional states. The report may be submitted in classified form, if necessary.

The Committee endorses funding for continued U.S. engagement in multilateral institutions in Asia that contribute to security and stability, including through the APEC forum, the Association for Southeast Asian Nations, and the Lower Mekong Initiative.

Egypt.—The Committee recommends up to \$250,000,000 for assistance for Egypt, including for programs to promote democracy and protect human rights. The Committee restricts assistance to the central Government of Egypt unless the Secretary of State certifies that the government is meeting certain conditions, including its obligations under the 1979 Egypt-Israel Peace Treaty. This requirement also includes a national interest waiver. The Committee also authorizes up to \$500,000,000 of current and prior fiscal year funds to provide debt relief and funds to establish an enterprise fund for Egypt. The Committee is aware that the administration intends to use \$50,000,000 in fiscal year 2012 funding for debt relief, but notes that subject to reprogramming notification requirements use of additional funds could be considered.

The Committee expects that should Egypt be in material breach of its obligations under the 1979 Egypt-Israel Peace Treaty, debt relief and enterprise fund programs, if initiated, should be suspended.

The Committee remains concerned with the deterioration of security in the Sinai, including the use of the territory for attacks against Israel and gas lines by terrorists, and the use of illicit tunnels to smuggle weapons into Gaza. Funds appropriated by this act should be used to support and increase efforts of the Government of Egypt to mitigate these threats. Funds should also be used to increase participation and oversight by civil society in Egyptian elections, including by NGOs.

Haiti.—The Committee recommends the budget request for assistance for Haiti, and is concerned that the post-earthquake recovery effort has fallen well short of what could and should have been achieved so far. The Committee is aware that a culture of dependency on international aid to solve Haiti's problems, coupled with a long history of corruption and neglect on the part of successive Haitian governments, as well as poorly designed and implemented programs, have contributed to Haiti's many challenges. The Committee urges USAID to communicate directly and frequently with the Haitian people about U.S. relief and reconstruction programs and plans, and to solicit their input at every opportunity.

The Committee recognizes the urgent need to build a functioning justice system in Haiti, but notes that prior attempts have too often been poorly designed, costly and produced few tangible results. The Committee supports limited expenditures to address the most egregious problems, such as prolonged pre-trial detention, until important positions such as Minister of Justice and Attorney General have been filled with qualified individuals and the government has a realistic justice reform strategy with achievable and sustainable goals, benchmarks for measuring progress, and expected results. The Committee directs the Secretary of State to submit a report not later than 45 days after enactment of this act detailing the status of investigations and prosecutions of those re-

sponsible for the killings of inmates at the Les Cayes prison in January 2010.

The Committee supports funding for reforestation, efficient cook stove programs, and justice sector reform including improvements in conditions in Haiti's prisons, and public and private sector efforts to increase the availability of reliable, affordable electricity.

The Committee supports continued assistance to develop industrial parks and labor programs which capitalize on U.S. trade preferences consistent with internationally recognized labor rights.

Iran.—The Committee supports the continuation of programs to promote democracy and human rights in Iran.

Iraq.—Certain conditions on assistance for Iraq in prior appropriations acts are continued, including cost-matching requirements and a prohibition on assistance to enter into a permanent basing rights agreement between the United States and Iraq.

The Committee continues to recognize the importance of providing targeted assistance to ethno-religious minorities in Iraq to help ensure their continued survival, especially those living in the Nineveh Plains region. The Committee directs the Department of State to submit a report, not later than 90 days after enactment of this act, detailing U.S. efforts to help these communities, including assistance consistent with Article 125 of the Iraqi Constitution; assistance in building an indigenous community police force in the Nineveh Plains; and efforts to support NGOs in the region.

The Committee continues to support the Marla Ruzicka Iraqi War Victims Fund to assist civilian victims of conflict, and the transition of this program to an Iraqi-run entity.

The Committee recommends the budget request for Economic Growth programs which are aimed at sustaining Iraq's long term stability. However, funding is reduced below the request for Governance Strengthening and Administrative Reform programs, the costs of which the Committee believes the Government of Iraq should assume. The Committee encourages the administration and the Government of Iraq to explore other, more sustainable funding mechanisms for programs under this heading, especially as Iraq's oil revenues continue to increase.

Jordan.—The Committee recommends \$360,000,000 for Jordan and includes authority for the establishment of an enterprise fund.

Lebanon.—The Committee recommends \$12,000,000 for scholarships for students in Lebanon with high financial need to attend not-for-profit educational institutions in Lebanon that meet standards comparable to those required for American accreditation. The institutions, students and their families are encouraged to meet as much of the cost of the education as possible in order to share the commitment to the future of Lebanon, to maximize the number of students who are assisted, and to minimize the cost per student to the American taxpayer. All students should be eligible for scholarships based on need, academic record, and potential to contribute to the long-term political, economic, and social development of Lebanon.

The Committee recommends \$500,000 for continued support for USFS forest and biodiversity conservation programs in Lebanon.

Liberia.—The Committee urges the Department of State and USAID to prioritize good governance and transparency in the Libe-

rian forest sector, including Liberia's performance under the EITI, the independence of the General Auditing Commission, and support for civil society organizations to monitor logging operations and the forestry reform process. The Committee further urges USAID to support the Government of Liberia and civil society in developing a comprehensive natural resource management strategy to include mapping current natural resources and competing land uses, evaluating the best uses of natural resources for the benefit of the country, and applying effective standards of social, environmental, and human rights protections.

Libya.—The Committee recommends \$20,000,000 for democracy, governance, rule of law, transitional justice and human rights activities in Libya, to be provided on a cost-matching basis, as appropriate. The Committee recognizes the need for technical assistance to aid the Transitional National Council in establishing accountable and democratic governance structures in Libya, and recommends that OTI manage these funds.

The Committee expects the Transitional National Council or any successor government to support and assist the continuing investigation into the bombing of Pan Am 103 and any other terrorist attacks attributable to the government of Muammar Qaddafi against U.S. citizens, including by providing access to documents, witnesses and other information.

The Committee requires that any infrastructure rehabilitation or reconstruction assistance for Libya be provided only as a loan, with terms favorable to the United States. However, the Committee does not expect any assistance to be provided for this purpose.

The Committee expects the Transitional National Council or any successor government to support and assist the continuing investigation into the bombing of Pan Am 103 and any other terrorist attacks attributable to the government of Muammar Gaddafi against U.S. citizens, including by providing access to documents, witnesses and other information.

Middle East/North Africa Transition Fund.—The Committee recognizes that dynamic events in the Middle East and North Africa regions create significant programmatic and bureaucratic challenges in responding to unanticipated political crises. The Committee recommends \$50,000,000 for a new transition fund to provide the Department of State and USAID with the flexibility necessary to respond quickly to such events. The Secretary of State and USAID Administrator are directed to consult with the Committee prior to obligating funds.

Pakistan.— The Committee recommends not less than \$5,000,000 for the Pakistan Civilian Assistance Program to assist individuals and communities that suffer losses as a result of military operations, and directs USAID to consult with the Committee on the use of funds prior to obligation.

People's Republic of China.—The Committee recommends \$20,000,000 under this heading to U.S. institutions of higher education and NGOs for democracy, governance, rule of law, and environment programs in the PRC. These programs support training for citizens, lawyers, and businesses on key issues including criminal justice, occupational safety, and environmental protection.

South Sudan.—The Committee supports assistance for the recently independent Republic of South Sudan, which faces numerous challenges, and includes conditions concerning budget transparency and governance.

Tibet.—The Committee recommends \$7,500,000 for activities implemented by NGOs which preserve cultural traditions and promote sustainable development and environmental conservation in Tibetan communities in the Tibetan Autonomous Region and in other Tibetan communities in China. The Committee intends these funds to be awarded competitively to multiple grantees.

Timor-Leste.—The Committee recommends not less than \$1,000,000 for higher education scholarships in Timor-Leste.

Tunisia.—The Committee recommends \$5,000,000 for democracy and governance programs in Tunisia, and to protect human rights. The Committee also recommends funding for the cost of loan guarantees as authorized by section 635 of the FAA.

Uganda.—The Committee supports the goals of the Lord's Resistance Army Disarmament and Northern Uganda Recovery Act (Public Law 111–172), and recommends up to \$10,000,000 to support its implementation.

Vietnam.—The Committee recommends \$15,000,000 under this heading for environmental remediation of dioxin-contamination at the Da Nang and Bien Hoa airports and other severely contaminated sites, and \$5,000,000 under the DA heading for health/disability activities in areas that were targeted with Agent Orange, for a total of \$20,000,000 in this act for these activities. The Committee directs USAID, in consultation with the Committee, the Department of State, the Government of Vietnam, and other interested parties, to develop, within 180 days after enactment of this act, a comprehensive, multiyear plan for Agent Orange-related activities in Vietnam and urges the administration to include funding in future budget requests to support it. USAID is to consult with the Committee prior to the obligation of funds.

West Bank and Gaza.—The Committee continues restrictions in current law on assistance for the West Bank and Gaza, and adds a new limitation, with waiver authority, if Palestine becomes a member or non-member state of the United Nations outside of a negotiated agreement with Israel. The Committee clarifies restrictions on Hamas in section 7038(f). The Committee also recognizes the importance of security sector assistance and requests to be consulted prior to exercising existing notwithstanding authorities.

The Committee directs GAO to submit a report assessing (1) the ability of the Palestinian Authority to assume responsibility for any of the programs and activities conducted by the U.N. Relief and Works Agency in the West Bank; (2) actions required by the Palestinian Authority in order to assume such responsibility; and (3) the opinion of the Department of State and relevant ministries of the Government of Israel, including the Ministry of Defense, on the viability of transitioning such programs and activities from UNRWA to the Palestinian Authority.

GLOBAL PROGRAMS

Classification Societies.—The Secretary of State is directed to consult with the Committee not later than 90 days after enactment

of this act on steps taken by the Department of State to address the inconsistency in United States policy in which foreign-based classification societies act as agents for both the United States Government and the sanctioned Governments of Iran, North Korea, North Sudan, and Syria.

Conflict Diamonds.—The Committee recommends \$3,000,000 to implement the Kimberley Process Certification Scheme, including by strengthening the role and capacity of civil society groups in the Kimberley Process.

Counterterrorism in Africa.—The Committee recognizes the destabilizing impact of violent extremism in Africa, and recommends \$52,800,000 for the Trans Sahara Counterterrorism Partnership and \$21,300,000 for the Partnership for Regional East Africa Counterterrorism programs. In addition, the Committee recommends \$10,000,000 for counterterrorism programs in East Africa to be managed by USAID.

Disability Programs.—The Committee recommends \$5,000,000 for disability programs, of which \$3,000,000 should be made available generally for programs and activities administered by USAID through foreign missions to address the needs and protect and promote the rights of people with disabilities in developing countries; \$1,000,000 for training and technical assistance to disabled persons organizations in developing countries; and up to \$1,000,000 to develop, support, and strengthen sports programs for people with disabilities in developing countries. The Committee recommends continuation of the current practice that at least 25 percent of USAID mission funds for disabilities programs be disbursed in small grants. The Committee supports the continuation of USAID's accessibility requirements for construction projects.

Extractive Industries Transparency Initiative.—The Committee recommends \$5,000,000 to support the EITI, including to strengthen the capacity of civil society organizations to participate in the EITI process.

Forensic Assistance.—The Committee recommends \$1,000,000 to support programs in forensic anthropology in countries of Central and South America where armed conflicts resulted in large numbers of human remains that have yet to be exhumed and/or identified, delaying justice and fostering impunity. These funds are to be administered by DRL.

International Labor Rights.—The Committee recommends funding for DRL and USAID to support international labor rights. DRL should assist emerging or reforming democratic labor unions and labor NGOs to strengthen their operations and promote economic reform policies to create employment opportunities in line with international labor standards, with a focus on countries experiencing urgent needs such as in North Africa and Yemen, and consider programming over a 2-year time period. USAID should support international labor-related programs which contribute to democratic development, good governance, and economic growth.

Internet Freedom.—The Committee recommends up to \$25,000,000 for programs to promote Internet freedom by expanding access to information and communication.

Middle East Partnership Initiative.—The Committee recommends \$70,000,000 for regional programs traditionally managed by MEPI,

including to continue scholarships for students from countries with significant Muslim populations at not-for-profit educational institutions that meet standards comparable to those required for American accreditation in those countries. These funds are to be awarded through an open and competitive process. The Secretary of State is directed to report to the Committee on coordination with other offices in the Department of State responsible for funding similar programs.

Middle East Regional Cooperation Program.—The Committee recommends up to \$5,000,000 for continued support for the MERC.

Reconciliation Programs.—The Committee recommends a total of \$26,000,000 for reconciliation programs and activities which bring together and facilitate direct communication between individuals of different ethnic, religious and political backgrounds in countries affected by civil strife and war, of which \$10,000,000 is for such programs and activities in the Middle East region. Of this amount, \$16,000,000 is provided under this heading and \$10,000,000 is provided under the DA heading. This global program seeks to promote understanding, mutual respect, and reconciliation through the active participation, dialogue and problem solving of members of opposing groups. The Committee intends that responsibility for decisions on the uses of such funds be made at the mission level.

Trafficking in Persons.—The Committee recommends \$33,236,000 under the DA, ESF and INCLE headings, and an additional \$6,764,000 under the D&CP heading, for a total of \$40,000,000 in this act to combat human trafficking and slavery.

Of the total funding for O/TIP, not less than \$250,000 may be used to meet unexpected urgent needs to prevent trafficking in persons or protect victims of trafficking. These funds are intended to enhance the capacity of O/TIP to assist victims and support governments facing urgent protection needs, including risk assessment, shelter, food and other basic necessities, counseling, medical and legal services, travel documentation, safe transport for return and reintegration, or for participation in judicial proceedings, and resettlement. Such funds may be considered for use in a country that is on tier II or below in the Department of State’s most recent Trafficking in Persons report and when a local or national government requests or agrees to such assistance. The Committee directs the Secretary of State to report not later than September 30, 2012, on the use of these funds.

Wheelchairs.—The Committee recommends \$5,000,000 for wheelchair programs in developing countries, which should be allocated through an open and competitive process based on merit. The Committee supports funding that provides quality, low-cost wheelchairs benefiting as many people as possible, and which encourages local initiative, utilizes appropriate technologies, and are sustainable.

ASSISTANCE FOR EUROPE, EURASIA, AND CENTRAL ASIA

Appropriations, 2011	\$695,740,000

The Committee recommends \$626,718,000 for Assistance for Europe, Eurasia, and Central Asia, to be allocated in amounts consistent with the budget request for each country under this heading. As recommended by the administration, the Committee does not retain a provision regarding the use of prior year funds because its inclusion in prior acts remains applicable to such prior funding.

Belarus.—The Committee recommends funding to support democracy efforts in Belarus through civil society organizations, political party development, and independent media.

Nagorno-Karabakh.—The Committee supports humanitarian assistance for victims of the Nagorno-Karabakh conflict and urges a peaceful resolution of the conflict.

North Caucasus.—The Committee recommends \$7,000,000 for USAID programs to address immediate and long-term needs of conflict-affected populations in the North Caucasus, and requests to be consulted on the proposed uses of funds.

The Committee will consider these cases, and respect for human rights and the rule of law in Turkmenistan, when assessing future assistance to Turkmenistan.

Ukraine.—The Committee recommends \$100,000 for USFS forest management programs in Ukraine.

Uzbekistan.—The Committee is concerned with reports of pervasive corruption in Uzbekistan and therefore expects to be informed of public and private entities that receive support, directly or indirectly, from United States Government funds used to pay the costs of Northern Distribution Network supply routes through that country. The Committee requires a report that itemizes those costs to the extent practicable to ensure that no U.S. funds are being diverted in support of corrupt practices.

Overseas Contingency Operations	¹ 100,000,000

¹ Overseas Contingency Operations is funded under title VIII.

The Committee recommends \$1,800,000,000 for Migration and Refugee Assistance, including \$100,000,000 for OCO costs.

Iraq.—The Committee is concerned that Iraqis who are being threatened or targeted for assassination as a result of having worked for the U.S. Government or U.S. contractors are facing long delays in obtaining admission to the United States as refugees. The Committee recognizes that security concerns require thorough screening of these individuals, and expects the administration to make every effort to expedite this process and maximize the use of Special Immigrant Visa processing while maintaining an effective screening process.

Israel.—The Committee recommends \$20,000,000 for refugee resettlement in Israel, to be awarded through an open and competitive process.

Pakistan.—The Committee understands that, according to the Internally Displaced Persons Vulnerability Assessment and Profiling [IVAP] mechanism funded by USAID and supported by the Government of Pakistan and the U.N., nearly 40 percent of families who are displaced as a result of the armed conflict are not registered to receive humanitarian aid. The Committee understands that this is due to flaws in the IDP registration system. The Committee intends that U.S. funding will be used to aid Pakistanis who are most in need, and directs the Department of State and USAID to ensure that conflict affected IDPs receiving aid are those identified by IVAP.

Tibetan Refugees.—The Committee recommends \$2,500,000 for assistance for Tibetan refugees in Nepal and India.

UNITED STATES EMERGENCY REFUGEE AND MIGRATION ASSISTANCE
FUND

Appropriations, 2011	\$49,900,000
Budget estimate, 2012	32,000,000

INDEPENDENT AGENCIES

PEACE CORPS

(INCLUDING TRANSFER OF FUNDS)

Appropriations, 2011	\$374,250,000
Budget estimate, 2012	439,600,000
Committee recommendation	375,000,000

The Committee strongly supports the Peace Corps' mission and recommends \$375,000,000 for the Peace Corps, including \$5,000,000 for the Inspector General.

The Peace Corps Director is directed to consult with the Committee prior to making any decision to open, close, significantly reduce, or suspend a domestic or overseas office or country program.

The Committee supports initial steps taken by the Peace Corps to respond to its prior mishandling of cases of sexual assault and other crimes against volunteers. While the Committee recognizes that no overseas service is devoid of risk particularly in countries where law enforcement is lax and volunteers serve in remote areas, the Committee directs the Peace Corps to take further steps to maximize the safety of its volunteers.

The Committee also directs the Peace Corps to continue to adjust its global placement of volunteers to ensure they are located where they can most effectively serve U.S. interests consistent with the Peace Corps' mission.

Opinions and recommendations from volunteers and former volunteers should be solicited through regular surveys on a confidential basis concerning the placement of volunteers, performance of Peace Corps employees, and other relevant issues.

The Committee is concerned with the transparency and accessibility of information relating to Peace Corps activities and performance, and directs the Peace Corps Director to institute a policy to ensure that rates of early termination, crime statistics, and information that would otherwise be obtainable under the FOIA, is made publicly available in a timely manner on the Peace Corps' Web site.

The Committee further directs the Peace Corps to adopt procedures to ensure that whistleblowers, whether Peace Corps volunteers or employees, can report alleged misconduct by Peace Corps employees or advocate for reforms on a confidential basis and will not be subject to retaliation or early termination.

The Committee is concerned with the capacity of Peace Corps volunteers to effectively use and monitor increasing amounts of PEPFAR funds, and directs the Peace Corps Director to review this issue.

The Peace Corps Director is directed to report to the Committee not later than 90 days after enactment of this act on steps taken to implement the directives specified above.

MILLENNIUM CHALLENGE CORPORATION

(INCLUDING TRANSFER OF FUNDS)

Appropriations, 2011	\$898,200,000
Budget estimate, 2012	1,125,100,000
Committee recommendation	898,200,000

The Committee recommends \$898,200,000 for the Millennium Challenge Corporation, including up to \$105,000,000 for administrative expenses.

The Committee supports the MCC's mission but notes that since its creation in January 2004, several compacts have been necessarily suspended or terminated and others have been implemented in countries where corruption is endemic or whose governments engage in practices that are incompatible with U.S. interests and values. Several compacts have shown positive results, including, according to the MCC, projected increases in income for more than 171 million beneficiaries. The MCC now seeks to enter into concurrent and second compacts with several countries at a time when its budget is shrinking. The Committee directs the MCC to

develop a 5-year plan based on realistic budget projections and identify those countries which have taken demonstrable steps to meet the eligibility criteria for a concurrent or subsequent compact, and to submit the plan to the Committee not later than 90 days after enactment of this act. The plan should include the benefits to U.S. interests based on results achieved in prior compacts.

The Committee provides authority permitting the MCC to support concurrent and subsequent compacts, subject to conditions, and to preserve income classification for certain countries.

COUNTRY ISSUES

Colombia.—The Committee recommends \$150,000,000 under this heading for assistance for Colombia, including \$115,000,000 for

OCO costs. The Committee remains concerned with the slow pace of justice reform in Colombia, the lack of investigative and prosecutorial capacity, and the persistent problem of impunity particularly for human rights violations. The Committee directs the Department of State and the Department of Justice to consult with the Committee prior to the transfer of funds to the Department of Justice for programs in Colombia.

The Committee recommends not less than \$30,000,000 under this heading for rule of law programs, including \$7,000,000 for USAID human rights activities, and \$15,000,000 for the Office of the Colombian Attorney General including \$7,000,000 for the human rights unit.

Guatemala.—The Committee recommends \$5,000,000 for the CICIG to continue investigations and prosecutions of illegal armed groups, clandestine criminal organizations, and official corruption. The Committee does not support assistance for the Government of Guatemala unless it is implementing policies that are consistent with United States interests and values, and it identifies, for each proposed program or activity, achievable and sustainable goals, benchmarks for measuring progress, and expected results.

Honduras.—The Committee is concerned with the escalating conflict between landless peasants and owners of large palm oil plantations in Honduras, including assassinations of peasant leaders and other social activists, and reports that private militias have been aided and abetted by government security forces. The Committee expects Honduran authorities to investigate these crimes and bring those responsible to justice.

Mexico.—The Committee recommends \$220,000,000 under this heading for assistance for Mexico, including \$185,000,000 for OCO costs. The Committee supports an emphasis on strengthening the capacity and improving the transparency and accountability of state and local law enforcement and judicial authorities who have jurisdiction over most violent crimes in Mexico. The Committee directs the Department of State and the Department of Justice to consult with the Committee prior to the transfer of funds to the Department of Justice for programs in Mexico. The Committee notes that its attempts to obtain reliable information from the Mexican Ministry of Defense on the status of investigations or prosecutions of military personnel for human rights violations have been unsuccessful.

The Committee is concerned that since the start of the Merida Initiative more than 36,000 Mexicans have been killed as a result of drug and gang-related violence and there has been a spill-over of drug related crime into Guatemala and Honduras. With no evidence that the violence is abating or that the flow in drugs to the United States from Mexico or guns from the United States to Mexico are being appreciably reduced, the Committee questions whether the current strategy can be sustained.

PROGRAM ISSUES

International Law Enforcement Academies.—The Committee recommends the budget request for the ILEAs.

Multinational Force and Observers.—The Committee recommends \$28,000,000 for the MFO, which is an increase of \$2,000,000 above the budget request. The Committee understands that the MFO will require increases in its operating budget in subsequent fiscal years, and expects the MFO to account for and apply funds in a manner such that the principle of equality of contributions to the basic operating budget between the United States, Egypt, and Israel shall be maintained.

Somalia.—The Committee recommends \$51,000,000 for United Nations assessed peacekeeping costs in Somalia, to be available for 2 years.

COUNTRY ISSUES

Egypt.—The Committee includes language requiring the Secretary of State to certify, prior to the initial obligation of funds under this heading, that the Governments of the United States and Egypt have agreed on the uses of funds and that such funds further the national interests of both countries, and the Government of Egypt has held free and fair elections and is implementing policies to protect due process and freedoms of expression and association. The Committee also includes, in section 7039(a)(1), the au-

thority to transfer funds appropriated under the FMF heading to ESF for assistance for Egypt.

Indonesia.—The Committee notes the progress Indonesia has made in strengthening democracy, combating extremism, and addressing other challenges, although military reform, particularly accountability for past crimes, has lagged behind. The Committee recommends \$20,000,000 for assistance for Indonesia, which is equal to the budget request. Of this amount, \$2,000,000 may not be obligated until the Secretary of State reports in writing to the Committees on Appropriations pursuant to section 7062(d) of this act on—

- Steps taken by the Government of Indonesia in the previous 12 months to revise the Code of Military Justice, Uniform Criminal Code and other relevant statutes, to deny promotion, suspend from active service, and/or prosecute and appropriately punish military officers credibly alleged to have violated human rights, and to refine further the military's mission and develop an appropriate national defense budget to carry out that mission;
- Efforts by the military in the previous 12 months to cooperate with civilian judicial authorities to resolve cases of violations of human rights;
- Efforts by the military in the previous 12 months to implement reforms that increase the transparency and accountability of the military's operations and financial management and concrete steps taken to achieve divestment of all military businesses; and
- Whether the Government of Indonesia is allowing public access to Papua, including foreign diplomats, NGOs, and journalists, and respecting due process and freedoms of expression and association in Papua.

Lebanon.—The Committee recommends \$100,000,000 for assistance for Lebanon and recognizes the need for the Lebanese Armed Forces to contribute to stability in Southern Lebanon in cooperation with the United Nations Interim Force in Lebanon. The funds are subject to certain conditions.

Morocco.—The Committee requires that of the funds made available for Morocco under this heading, \$1,000,000 be withheld from obligation until the Secretary of State submits a report to the Committee detailing steps taken by the Government of Morocco to respect the rights of individuals to peacefully express their opinions regarding the status and future of Western Sahara and to provide unimpeded access to human rights organizations, journalists and others to the Western Sahara.

Nepal.—The Committee continues restrictions on FMF and PKO assistance unless the Secretary of State certifies that the Nepal army is meeting certain conditions. The Committee is concerned with the ongoing problem of impunity for human rights violations and the army's refusal to cooperate with civilian judicial authorities in prosecuting those responsible for the 2004 murder of Maina Sunuwar.

Philippines.—The Committee recommends \$30,000,000 for assistance for the Philippines. Of this amount, \$3,000,000 may not be obligated until the Secretary of State reports in writing to the Com-

mittees on Appropriations pursuant to section 7062(g) of this act that—

—The Government of the Philippines is taking effective steps to prosecute those responsible for extra-judicial executions, sustain the decline in the number of EJE's, and strengthen government institutions working to eliminate EJE's;

—The Government of the Philippines is implementing a policy of promoting military personnel who demonstrate professionalism and respect for internationally recognized human rights, and is investigating, prosecuting, and punishing military personnel and others who have been credibly alleged to have violated such rights; and

—The Philippine military does not have a policy of, and is not engaging in, acts of violence or intimidation against members of legal organizations who advocate for human rights.

Sri Lanka.—The Committee remains concerned with the lack of a credible, thorough investigation of the assassination of Lasantha Wickrematunge.

Inter-American Commission on Human Rights.—The Committee notes the invaluable role of the IACHR in providing justice for victims of human rights violations and protecting fundamental freedoms in the Western Hemisphere, where many local justice systems are antiquated, under-funded, and compromised by corruption. The Committee is concerned with reports of efforts at the OAS to weaken the authority of the IACHR in ways that would limit its autonomy and effectiveness, and recommends \$1,500,000 for a U.S. voluntary contribution to the IACHR in fiscal year 2012.

GLOBAL SECURITY CONTINGENCY FUND

(INCLUDING TRANSFER OF FUNDS)

Appropriations, 2011	
Budget estimate, 2012	¹ \$50,000,000
Committee recommendation	50,000,000

¹ The President's fiscal year 2012 request included funding for this account under enduring base operations.

The Committee recommends \$50,000,000 for the Global Security Contingency Fund, a new account.

The Committee recognizes that current accounts and authorities structures are not always adequate to respond to threats posed by non-state actors. Today's threats may exist either within a state (e.g. Lord's Resistance Army) or without regard to national borders (e.g. Al-Qaeda). Moreover, such threats blur the traditional distinction between the relative roles of the Department of State and Defense, and USAID. The Committee includes language requested by the administration authorizing the transfer of funds from DOD accounts, but maintains the historic role of the Secretary of State as

the chief administration official responsible for foreign policy and assistance programs.

Addressing threats posed by non-state actors also requires an examination of the respective roles of the Departments of State and Defense. While DOD may stand ready to engage on and fund activities relating to non-state actors, the Department of State and USAID maintain the expertise in many of the types of activities to be conducted outside the traditional security operations context. The Committee expects the Departments of State and Defense, as well as USAID, to work closely in the formulation of funded activities with the final approval of activities funded under this heading to be made by the Secretary of State in consultation with the Secretary of Defense.
