SUMMARY OF THE AMENDMENTS MADE IN ORDER

1. Lowenthal (CA): Clarifies that the definition of “Strategic and Critical Minerals” only includes the minerals identified by the National Research Council (NRC) as strategic and critical minerals (and any additional minerals added by the Secretary that meet the NRC’s criteria). Also clarifies that the definition of “Mineral Exploration or Mine Permit” in this underlying legislation only refers to mineral exploration or mine permit for strategic and critical minerals. (10 minutes)

2. Veasey (TX): Designates the Secretary of Interior to publish no later than 60 days after enactment of the bill a list of “Strategic and Critical Minerals” for the purpose of the bill. The Secretary must update the list every 5 years. (10 minutes)

3. Connolly (VA): Requires mineral exploration and mining projects to be subjected to an Environmental Impact Statement review prior to approval. Removes the arbitrary limit on the time frame for such reviews. (10 minutes)

4. Hastings, Alcee (FL): Requires that the cost of cleanup be included in financial assurance and that financial insurance instruments shall be in the form of a surety bond, letter of credit or other instrument that would routinely be accepted in commerce. (10 minutes)

5. Pearce (NM): Clarifies the intention of the bill that it will not impact Secretarial Order 3324, as it relates to oil/gas and potash. (10 minutes)
