(1) The Elementary and Secondary Education Act prohibits the Federal Government from mandating, directing, or controlling a State, local educational agency, or school's curriculum, program of instruction, or allocation of State and local resources, and from mandating a State or any subdivision thereof to spend any funds or incur any costs not paid for under such Act.

(2) The Elementary and Secondary Education Act prohibits the Federal Government from funding the development, pilot testing, field testing, implementation, administration, or distribution of any federally sponsored national test in reading, mathematics, or any other subject, unless specifically and explicitly authorized by law.

(3) The Secretary of Education, through 3 separate initiatives, has created a system of waivers and grants that influence, incentivize, and coerce State educational agencies into implementing common national elementary and secondary standards and assessments endorsed by the Secretary.

(4) The Race to the Top Fund encouraged and incentivized States to adopt Common Core State Standards developed by the National Governor's Association Center for Best Practices and the Council of Chief State School Officers.

(5) The Race to the Top Assessment grants awarded to the Partnership for the Assessment of Readiness for College and Careers (PARCC) and SMARTER Balanced Assessment Consortium (SMARTER Balance) initiated the development of Common Core State Standards aligned assessments that will, in turn, inform and ultimately influence kindergarten through 12th-grade curriculum and instructional materials.

(6) The conditional Elementary and Secondary Education Act flexibility waiver authority employed by the Department of Education coerced States into accepting Common Core State Standards and aligned assessments.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that States and local educational agencies retain the rights and responsibilities of determining educational curriculum, programs of instruction, and assessments for elementary and secondary education.

“(a) GENERAL REQUIREMENT.—

“(1) IN GENERAL.—To the extent consistent with the number of eligible children identified under section 1115(b) in the school district served by a local educational agency who are enrolled in private elementary schools and secondary schools, a local educational agency shall—

“(A) after timely and meaningful consultation with appropriate private school officials or representatives, provide such service, on an equitable basis and individually or in combination, as requested by the officials or representatives to best meet the needs of such children, special educational services, instructional services (including evaluations to determine students’ progress in their academic needs), counseling, mentoring, one-on-one tutoring, or other benefits under this subpart (such as dual enrollment, educational radio and television, computer equipment and materials, other technology, and mobile educational services and equipment) that address their needs; and

“(B) ensure that teachers and families of the children participate, on an equitable basis, in services and activities developed pursuant to this subpart.

“(2) SECULAR, NEUTRAL, NONIDEOLOGICAL.—Such educational services or other benefits, including materials and equipment, shall be secular, neutral, and non-ideological.

“(3) EQUITY.—

“(A) IN GENERAL.—Educational services and other benefits for such private school children shall be equitable in comparison to services and other benefits for public school children participating under this subpart, and shall be provided in a timely manner.

“(B) OMBUDSMAN.—To help ensure such equity for such private school children, teachers, and other educational personnel, the State educational agency involved shall designate an ombudsman to monitor and enforce the requirements of this subpart.

“(4) EXPENDITURES.—

“(A) IN GENERAL.—Expenditures for educational services and other benefits to eligible private school children shall be equal to the expenditures for participating public school children, taking into account the number, and educational needs, of the children to be served. The share of funds shall be determined based on the total allocation received by the local educational agency prior to any allowable expenditures authorized under this title.

“(B) OBLIGATION OF FUNDS.—Funds allocated to a local educational agency for educational services and other benefits to eligible private school children shall—

“(i) be obligated in the fiscal year for which the funds are received by the agency; and

“(ii) with respect to any such funds that cannot be so obligated, be used to serve such children in the following fiscal year.

“(i) determine, in a timely manner, the proportion of funds to be allocated to each local educational agency in the State for educational services and other benefits under this subpart to eligible private school children; and

“(ii) provide notice, simultaneously, to each such local educational agency and the appropriate private school officials or their representatives in the State of such allocation of funds.

“(5) PROVISION OF SERVICES.—The local educational agency or, in a case described in subsection (b)(6)(C), the State educational agency involved, may provide services under this section directly or through contracts with public or private agencies, organizations, and institutions.

“(b) CONSULTATION.—

“(1) IN GENERAL.—To ensure timely and meaningful consultation, a local educational agency shall consult with appropriate private school officials or representatives during the design and development of such agency’s programs under this subpart in order to reach an agreement between the agency and the officials or representatives about equitable and effective programs for eligible private school children, the results of which shall be transmitted to the designated ombudsmen under section 1120(a)(3)(B). Such process shall include consultation on issues such as—

“(A) how the children’s needs will be identified;

“(E) the size and scope of the equitable services to be provided to the eligible private school children, and the proportion of funds that is allocated under subsection (a)(4)(A) for such services, how that proportion of funds is determined under such subsection, and an itemization of the costs of the services to be provided;

“(F) the method or sources of data that are used under subsection (c) and section 1113(c)(1) to determine the number of children from low-income families in participating school attendance areas who attend private schools;

“(G) how and when the agency will make decisions about the delivery of services to such children, including a thorough consideration and analysis of the views of the private school officials or representatives on the provision of services through a contract with potential third-party providers;

“(H) how, if the agency disagrees with the views of the private school officials or representatives on the provision of services through a contract, the local educational agency will provide in writing to such private school offi-

cials an analysis of the reasons why the local educational agency has chosen not to use a contractor;

“(J) whether to provide equitable services to eligible private school children—

“(i) by creating a pool or pools of funds with all of the funds allocated under subsection (a)(4) based on all the children from low-income families who attend private schools in a participating school attendance area of the agency from which the local educational agency will provide such services to all such children; or

“(K) at what time and where services will be provided so such students can receive such services without interrupting their other school or coursework; and

“(L) whether to consolidate and use funds under this subpart to provide schoolwide programs for a private school.

“(2) DISAGREEMENT.—If a local educational agency disagrees with the views of private school officials or representatives with respect to an issue described in paragraph (1), the local educational agency shall provide in writing to such private school officials an analysis of the reasons why the local educational agency has chosen not to adopt the course of action requested by such officials.

“(3) TIMING.—Such consultation shall include meetings of agency and private school officials or representatives and shall occur before the local educational agency makes any decision that affects the opportunities of eligible private school children to participate in programs under this subpart. Such meetings shall continue throughout implementation and assessment of services provided under this section.

“(4) DISCUSSION.—Such consultation shall include a discussion of service delivery mechanisms a local educational agency can use to provide equitable services to eligible private school children.

“(5) DOCUMENTATION.—Each local educational agency shall maintain in the agency’s records and provide to the State educational agency involved a written affirmation signed by officials or representatives of each participating private school that the meaningful consultation required by this section has occurred. The written affirmation shall provide the option for private school officials or representatives to indicate that timely and meaningful consultation has not occurred or that the program design is not equitable with respect to eligible private school children. If such officials or representatives do not provide such affirmation within a reasonable period of time, the local educational agency shall forward the documentation that such consultation has, or attempts at such consultation have, taken place to the State educational agency.

“(6) COMPLIANCE.—

“(A) IN GENERAL.—A private school official shall have the right to file a complaint with the State educational agency that the local educational agency did not engage in consultation that was meaningful and timely, did not give due consideration to the views of the private school official, or did not treat the private school or its students equitably as required by this section.

“(B) PROCEDURE.—If the private school official wishes to file a complaint, the official shall provide the basis of the noncompliance with this section by the local educational agency to the State educational agency, and the local educational agency shall forward the appropriate documentation to the State educational agency.

“(II) demonstrated that the local educational agency involved has not met the requirements of this section; or

“(ii) in a case in which—

“(I) a local educational agency has more than 10,000 children from low-income families who attend private elementary schools or secondary schools in a participating school attendance area of the agency that are not being served by the agency’s program under this section; or

“(c) ALLOCATION FOR EQUITABLE SERVICE TO PRIVATE SCHOOL STUDENTS.—

“(1) CALCULATION.—A local educational agency shall have the final authority, consistent with this section, to calculate the number of children, ages 5 through 17, who are from low-income families and attend private schools by—

“(A) using the same measure of low income used to count public school children;

“(B) using the results of a survey that, to the extent possible, protects the identity of families of private school students, and allowing such survey results to be extrapolated if complete actual data are unavailable;

“(C) applying the low-income percentage of each participating public school attendance area, determined pursuant to this section, to the number of private school children who reside in that school attendance area; or

“(D) using an equated measure of low income correlated with the measure of low income used to count public school children.

“(2) COMPLAINT PROCESS.—Any dispute regarding low-income data for private school students shall be subject to the complaint process authorized in section 6503.

“(e) STANDARDS FOR A BYPASS.—If a local educational agency is prohibited by law from providing for the participation in programs on an equitable basis of eligible children enrolled in private elementary schools and secondary schools, or if the Secretary determines that a local educational agency has substantially failed or is unwilling to provide for such participation, as required by this section, the Secretary shall—

“(1) waive the requirements of this section for such local educational agency;

“(2) arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section and sections 6503 and 6504; and

**SEC. 127. ADEQUACY OF FUNDING TO LOCAL EDUCATIONAL AGENCIES IN FISCAL YEARS AFTER FISCAL YEAR 2001.**

Section 1125AA (20 U.S.C. 6336) is amended to read as follows:

**“SEC. 1125AA. ADEQUACY OF FUNDING TO LOCAL EDUCATIONAL AGENCIES IN FISCAL YEARS AFTER FISCAL YEAR 2001.**

“(a) LIMITATION OF ALLOCATION.—Pursuant to section 1122, the total amount allocated in any fiscal year after fiscal year 2001 for programs and activities under this subpart shall not exceed the amount allocated in fiscal year 2001 for such programs and activities unless the amount available for targeted grants to local educational agencies under section 1125 in the applicable fiscal year meets the requirements of section 1122(a).

“(b) FINDINGS.—Congress makes the following findings:

“(1) The formulas for distributing Targeted and Education Finance Incentive grants use two weighting systems, one based on the percentage of the aged 5-17 population in a local educational agency that is eligible to receive funds under this title (percentage weighting), and another based on the absolute number of such students (number weighting). Whichever of these weighting systems results in the highest total weighted formula student count for a local educational agency is the weighting system used for that agency in the final allocation of Targeted and Education Finance Incentive Grant funds.

“(2) The Congressional Research Service has said the number weighting alternative is generally more favorable to large local educational agencies with much larger counts of eligible children, but not necessarily higher concentrations, weighted at the highest point in the scale than smaller local educational agencies with smaller counts, but higher concentrations, of eligible children.

“(3) The current percentage and number weighting scales are based on the most current data available in 2001 on the distribution of eligible children across local educational agencies.

“(4) Prior to the date of the enactment of the Student Success Act, Congress expects updated data to be available, which will provide Congress an opportunity to update these scales based on such data.

“(b) ELIGIBLE CHILD.—

“(1) DEFINITION.—In this section, the term ‘eligible child’ means a child aged 5 to 17, inclusive, from a family with an income below the poverty level on the basis of the most recent satisfactory data published by the Department of Commerce.

“(2) CRITERIA OF POVERTY.—In determining the families with incomes below the poverty level for the purposes of this section, a State educational agency shall use the criteria of poverty used by the Census Bureau in compiling the most recent decennial census, as the criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.

“(4) To help such children overcome educational disruption, cultural and language barriers, social isolation, various health-related problems, and other factors that inhibit the ability of such children to succeed in school.

“(5) To help such children benefit from State and local systemic reforms.

“(B) **REALLOCATION.**—If additional funds become available for making such payments for any fiscal year, the Secretary shall allocate such funds to States in amounts that the Secretary determines will best carry out the purpose of this subpart.

“(2) **SPECIAL RULE.**—

“(A) **FURTHER REDUCTIONS.**—The Secretary shall further reduce the amount of any grant to a State under this subpart for any fiscal year if the Secretary determines, based on available information on the numbers and needs of migratory children in the State and the program proposed by the State to address such needs, that such amount exceeds the amount required under section 1134.

“(B) **REALLOCATION.**—The Secretary shall reallocate such excess funds to other States whose grants under this subpart would otherwise be insufficient to provide an appropriate level of services to migratory children, in such amounts as the Secretary determines are appropriate.

“(e) **CONSORTIUM ARRANGEMENTS.**—

“(1) **IN GENERAL.**—In the case of a State that receives a grant of \$1,000,000 or less under this section, the Secretary shall consult with the State educational agency to determine whether consortium arrangements with another State or other appropriate entity would result in delivery of services in a more effective and efficient manner.

“(5) conduct an analysis of the options for adjusting the formula so as to better direct services to migratory children, including the most at-risk migratory children.

“(g) NONPARTICIPATING STATES.—In the case of a State desiring to receive an allocation under this subpart for a fiscal year that did not receive an allocation for the previous fiscal year or that has been participating for less than 3 consecutive years, the Secretary shall calculate the State’s number of identified migratory children aged 3 through 21 for purposes of subsection (a)(1)(A) by using the most recent data available that identifies the migratory children residing in the State until data is available to calculate the 3-year average number of such children in accordance with such subsection.

**“PART B—ALASKA NATIVE EDUCATION**

**“SEC. 5201. SHORT TITLE.**

“This part may be cited as the ‘Alaska Native Educational Equity, Support, and Assistance Act’.

**“SEC. 5202. FINDINGS.**

“Congress finds and declares the following:

“(1) It is the policy of the Federal Government to maximize the leadership of and participation by Alaska Natives in the planning and the management of Alaska Native education programs and to support efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

“(2) Many Alaska Native children enter and exit school with serious educational disadvantages.

“(3) Overcoming the magnitude of the geographic challenges, historical inequities, and other barriers to successfully improving educational outcomes for Alaska Native students in rural, village, and urban settings is challenging. Significant disparities between academic achievement of Alaska Native students and non-Native students continues, including lower graduation rates, increased school dropout rates, and lower achievement scores on standardized tests.

“(4) The preservation of Alaska Native cultures and languages and the integration of Alaska Native cultures and languages into education, positive identity development for Alaska Native students, and local, place-based, and culture-based programming are critical to the attainment of educational success and the long-term well-being of Alaska Native students.

“(5) Improving educational outcomes for Alaska Native students increases access to employment opportunities.

“(6) The programs and activities authorized under this part give priority to Alaska Native organizations as a means of increasing Alaska Native parents’ and community involvement in the promotion of academic success of Alaska Native students.

“(7) The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for Alaska Native students. In 1983, pursuant to Public Law 98–63, Alaska ceased to receive educational funding from the Bureau of Indian Affairs. The Bureau of Indian Education does not operate any schools in Alaska, nor operate or fund Alaska Native education programs. The program under this part supports the Federal trust responsibility of the United States to Alaska Natives.

“(4) To authorize the development, management, and expansion of effective supplemental educational programs to benefit Alaska Natives.

“(5) To provide direction and guidance to appropriate Federal, State, and local agencies to focus resources, including resources made available under this part, on meeting the educational needs of Alaska Natives.

“(6) To ensure the maximum participation by Alaska Native educators and leaders in the planning, development, management, and evaluation of programs designed to serve Alaska Native students, and to ensure Alaska Native organizations play a meaningful role in supplemental educational services provided to Alaska Native students.

#### SUMMARY

ESEA, currently known as the No Child Left Behind Act (NCLB), is in need of significant reform. When it was enacted more than 13 years ago, NCLB was heralded as groundbreaking, and in some ways it was. The expanded use of data helped superintendents, school leaders, and teachers identify students most in need of additional instruction and offered parents access to important information about the quality of their schools.

However, weaknesses in the law have been clearly identified. One-size-fits-all accountability metrics restrict the ability of states and school districts to appropriately gauge student learning and tailor curriculum to enable students to graduate high school prepared for postsecondary education or the workforce. Federally-prescribed interventions and turnaround strategies have not worked

as intended and are not producing the desired results in low-performing schools. More than 80 programs tied to K–12 schools, which impose tremendous paperwork and regulatory burdens on states and school districts, have had limited success in improving student achievement and offer states and communities little flexibility in how they use federal dollars to meet their own unique needs.

House and Senate inaction to reauthorize the law for over eight years has allowed the Obama administration to circumvent Congress and impose its own vision of education reform on the nation, subjecting America's classrooms to unprecedented oversight by the U.S. Department of Education.

The Student Success Act offers a better way forward for the nation's classrooms by:

- Returning responsibility for student achievement to states, school districts, and parents, while maintaining high expectations;
- Eliminating ineffective federal programs and investing limited taxpayer dollars wisely;
- Strengthening programs for schools and targeted populations;
- Supporting local efforts to measure teacher effectiveness;
- Engaging parents in their child's education;
- Supporting Impact Aid;
- Maintaining and strengthening long-standing protections for state and local autonomy; and
- Providing services for homeless students.

*Returning Responsibility for Student Achievement to States, School Districts, and Parents, While Maintaining High Expectations*

The Student Success Act dramatically reduces the federal role in education by returning authority for measuring student performance and turning around low-performing schools to states and local officials. Across the country, states and school districts are leading efforts to reform the nation's troubled education system. As these bold reformers step up, the federal government can step back, limiting its role to ensuring parents have the information they need to judge the quality of their children's schools. The bill includes a number of key revisions to the current Title I program to increase state and local flexibility and restore local control of education.

- *Academic Standards:* Consistent with current law, the bill requires states to establish academic standards that apply to all students and schools in the state in reading, math, and science, while allowing states to develop standards for other subjects at their discretion. Achievement standards used for judging student and school performance must align with content standards, but the bill removes federal requirements mandating basic, proficient, and advanced levels of achievement. States also are allowed to establish alternate achievement standards aligned to content standards for students with the most significant cognitive disabilities. Finally, the bill incorporates the requirements for English proficiency standards from Title III into the main Title I program.

- *Academic Assessments:* Consistent with current law, the bill requires states to develop and implement a set of assessments for all students in the state in reading and math in each of grades

three through eight and once in high school, and in science once in each of the grade spans for grades three through five, six through nine, and 10 through 12. States retain the option to develop assessments in other subjects at their discretion and have the flexibility to use multiple measures of student achievement. States must ensure their assessments include reasonable accommodations for students with disabilities and are allowed to adopt alternate assessments for students with the most significant cognitive disabilities and computer adaptive assessments. The bill maintains requirements on disaggregating subgroup data, assessing the English proficiency of English learners and ensuring 95 percent participation rates for all students and each subgroup.

- *Accountability:* The bill eliminates the federal “Adequate Yearly Progress” (AYP) metric and the requirement that all students reach proficiency in reading and math by the end of the next school year. In their place, states are allowed to develop their own accountability systems that must comply with three broad parameters:

- Annually measure the academic achievement of all public school students against the state’s academic standards (including, at the state’s discretion, growth toward the standards) using the statewide assessments in reading and math and other academic indicators;

- Annually evaluate and identify the academic performance of each public school in the state based on student academic achievement, including the achievement of all students and achievement gaps between student subgroups, and other measures of school success; and

- Include a school improvement system implemented by school districts that includes interventions in poor performing Title I schools.

- *School Improvement:* The bill requires states to include, as part of their statewide accountability structure, a system of school improvement interventions to be implemented at the local level for Title I schools the state determines to be poorly performing. The bill repeals the federally mandated school improvement, corrective action, and restructuring labels and interventions included in current law, giving states and districts maximum flexibility to develop appropriate turnaround strategies and rewards for their schools. The bill increases the state set-aside for school improvement to 7 percent (up from 4 percent) and eliminates existing local set-asides, meaning more Title I money will flow directly to school districts. Finally, the bill eliminates the School Improvement Grants (SIG) program the Secretary of Education used to create four unworkable turnaround models, instead dedicating those funds for the Title I program.

- *Parent Information:* The bill maintains the current requirement for school districts and states to produce annual report cards outlining academic achievement but streamlines data reporting to ensure meaningful information is easily available to parents and communities. States and districts must report disaggregated student achievement data on the state assessment and other academic indicators used in the statewide accountability system, participation rates on those assessments, the adjusted cohort graduation rate, each school’s evaluation under the statewide accountability

system, English language proficiency, and National Assessment of Educational Progress results on fourth and eighth grade reading and mathematics. The bill maintains parents' right to know their students' achievement levels and moves the right to know teacher qualifications from Title I to Title II of ESEA.

- *State Laws on Parent Authority:* The bill includes a provision stating that nothing in the law should be interpreted to impact state laws on parent exercise of authority over low-performing schools.

- *Funding Flexibility:* The bill allows states and school districts to use federal funds for certain special population programs for any activity authorized under those programs. Instead of having to comply with a host of federal program requirements each dictating exactly how funds may be spent, state and local officials will be able to use federal funds to meet their own unique needs. While school districts will not be allowed to use Title I funds outside of those schools, they can move additional funding to low-income schools. The bill maintains separate funding streams for the Migratory Education, Neglected and Delinquent, and English Language Acquisition programs but merges them into Title I.

- *Schoolwide Programs:* The bill eliminates the 40 percent poverty threshold for schoolwide programs, allowing all Title I schools to operate whole school reform efforts. This change will allow low-income schools greater flexibility to consolidate programs and focus their efforts on raising the achievement of all students.

#### *Eliminating Ineffective Federal Programs and Investing Limited Taxpayer Dollars Wisely*

The Student Success Act restores fiscal discipline and allows taxpayer dollars to be put toward more effective uses such as funding programs with a proven track record of putting the needs of students first. This will streamline and simplify the federal role in public education, so states, school districts, teachers, and parents are empowered to pursue innovative reforms that meet the needs of their students and children. The federal government operates more than 80 separate programs under current elementary and secondary education law. Despite the tripling of overall per pupil funding since 1964, national academic performance has not improved. The bill includes a number of important reforms across various titles to ensure every taxpayer dollar is spent effectively and efficiently.

- *Authorization Levels:* The bill updates overall authorization levels for each of the fiscal years 2016–2021 to reflect the funding amounts provided by Congress for ESEA programs in FY 2015, while maintaining Title I Aid for the Disadvantaged and targeted population programs (Migrant Education, Neglected & Delinquent, English Language Acquisition, Rural Education, Indian Education, Alaska Native Education, and Native Hawaiian Education) at or above the FY 2012 levels. The amount authorized for all ESEA programs under the bill is lower than the Title I authorization for the last year it was authorized under current law.

- *Spending Reduction Reports:* H.R. 5 requires the Secretary of Education, through the Institute of Education Sciences, to contract with an economist with expertise in workforce and government efficiency issues to produce an annual report examining the reduced

need for federal spending commensurate with the reduced mandates in the Student Success Act. The report would include recommendations for those spending reductions and would be submitted to the House and Senate Budget and Appropriations Committees, the House Education and the Workforce Committee, and the Senate Health, Education, Labor, and Pensions Committee.

- *Eliminated Programs:* The bill eliminates more than 65 existing elementary and secondary education programs, many of which have been deemed ineffective by the federal government, are too small to meaningfully improve student achievement, or have never been funded. This promotes a more focused, streamlined, transparent, and appropriate federal role in the nation's education system.

- *State and Local Innovation:* The bill creates a new Local Academic Flexible Grant to provide funds to states and school districts to support initiatives based on their unique priorities. While ensuring federal funds are spent to increase student achievement as part of in-school or after-school activities, states and school districts will have maximum flexibility to spend their resources on activities authorized under state law, including efforts to protect student safety. Instead of federal bureaucrats making funding decisions for superintendents, school leaders, and teachers, local officials will be able to make these decisions based on what they know will help improve student learning.

- *Private Sector Initiatives:* The bill requires states to reserve 10 percent of their Local Academic Flexible Grant to support state and local programs that operate outside of traditional public school systems. This infusion of private sector innovation will support states and districts in improving student achievement.

- *State and Local Spending Decisions:* The bill removes all "Maintenance of Effort" (MOE) requirements, allowing states and school districts to set their own funding levels for elementary and secondary education. The requirements are removed for four reasons:

- Dictating how states and school districts spend their tax revenues as a condition of receiving federal funds is not an appropriate federal role;
- MOE requirements assume increased education spending improves educational outcomes. Decades of data prove this argument false;
- MOE requirements provide disincentives for states and school districts to innovate and deliver better educational services more efficiently; and
- Data from the U.S. Department of Education show that since enactment of NCLB more than 70 percent of MOE waiver requests have been granted. This bill acknowledges this reality and eliminates the burden up front for school districts.

At the same time, the legislation maintains the existing "supplement, not supplant" requirements, which ensure federal dollars are used on top of state and local resources, protecting the traditional federal role in education.

- *Department Bureaucracy:* The bill requires the Secretary of Education to identify the number of full time equivalent employee positions associated with the eliminated or consolidated programs under the bill and to reduce the department's workforce by that number within approximately a year of the bill's enactment.

- *Program Evaluations:* The bill directs the Secretary of Education to work through the Institute of Education Sciences (IES), the department's main research arm, if the Secretary chooses to exercise existing authority to reserve program funds for program evaluations. The bill requires the Secretary to engage IES and relevant officials from the U.S. Department of Education in the development of a multi-year, comprehensive plan for carrying out evaluations and submit that plan to Congress and the public for review and comment. This will help ensure program evaluations are coordinated, objective, and provide useful information regarding the effectiveness of federal education initiatives.

- *Earmarks:* The bill eliminates all of the current programs targeted to specific national organizations to comply with the House earmark ban.

#### *Strengthening Programs for Schools and Targeted Populations*

The Student Success Act maintains separate funding streams for the Migratory Education, Neglected and Delinquent, English Language Acquisition, and Rural Education programs and strengthens each targeted population program to improve its performance. The bill also reauthorizes the American Indian, Alaska Native Education, and Native Hawaiian Education programs under a separate title.

- *Education of Migratory Children:* The bill provides a reservation of funds to continue the current program, which assists states in supporting high-quality educational programs and services to address the unique educational needs of migratory children, including during summer or intersession time periods. The legislation strengthens how migrant student counts are determined in each state, basing state allocations on the average number of eligible migratory children from the previous three years and a count of the number of migratory children who receive services under summer or intersession programs. The bill also allows states, school districts, and other public and private entities to improve intrastate and interstate coordination and information exchanges regarding migratory children.

- *Prevention and Intervention Programs for Children and Youth who are Neglected, Delinquent, or At-Risk:* The bill provides a reservation of funds to continue the current program, which improves educational services for students in state and local correctional institutions or for those children who are transferring out of institutionalization. The legislation emphasizes receipt of a regular high school diploma to the extent feasible and makes minor technical and clarifying changes to improve operation of the program.

- *English Language Acquisition, Language Enhancement, and Academic Achievement:* The bill includes a reservation of funds to continue the current program, which provides services to help non-English speaking students learn English and meet state academic standards. The legislation incorporates accountability and reporting requirements for English learners into the Title I program to encourage greater alignment, while maintaining student achievement expectations for these students and public reporting of progress. The bill changes how the Secretary of Education determines immigrant student and English learner counts, to ensure states and school districts receive accurate and reliable data and

stable funding. The bill eliminates the Improving Language Instruction Educational Programs, which have never been funded and are duplicative of the main program.

- *Rural Education:* The bill reserves funds for rural school districts and schools in both the Small Rural School Achievement (SRSA) program and the Rural and Low-Income School (RLIS) program. The legislation updates current locale codes that determine eligibility of rural districts and schools under both programs and includes a sliding scale hold-harmless formula for districts that become ineligible under the SRSA program because of the new codes. The bill allows school districts eligible for both the SRSA and RLIS programs to apply for funding under the program of their choice.

- *American Indian, Alaska Native, and Native Hawaiian Education:* The bill reauthorizes the American Indian, Alaska Native, and Native Hawaiian education programs under a redesigned Title V of the law. The American Indian education program makes Indian and Alaska Native organizations and Indian and Alaska Native community-based organizations—under certain circumstances—eligible for grants. The program also includes a focus on Native American languages and allows tribes, tribal organizations, and Alaska Native organizations to apply for formula grants in consortia if an eligible local educational agency chooses not to apply. The American Indian special programs include new Tribal Education Agencies Cooperative Agreements. The American Indian national activities section includes a new Improvement of Academic Success for Students through Native American Language program and eliminates the In-Service Training for Teachers of Indian Children and the Gifted and Talented Indian Students programs. Under the Alaska Native Education program, the bill mandates grantees develop a strategy for improving the education of Alaska Native children and collect data to that effect, and it makes other, minor changes to the program. The Native Hawaiian program includes new allowable activities, including to support public charter schools serving high concentrations of Native Hawaiian students. The Native Hawaiian program also increases the role of the Native Hawaiian Education Council in providing technical assistance to grantees.

#### *Supporting Local Efforts to Measure Teacher Effectiveness*

The Student Success Act updates federal teacher policy to reflect current state and local efforts to emphasize an educator's ability to effectively motivate students and improve their academic achievement. Parents know that the best teachers are those who keep their students motivated and challenged in the classroom. Instead of relying on bureaucratic and outdated provisions such as teacher credentials or tenure, states and school districts should have the tools to measure an educator's ability to help students excel in the classroom. The bill makes a number of important changes to current law to improve teacher quality.

- *Highly Qualified Teachers (HQT):* The bill repeals the federal government's onerous and meaningless "Highly Qualified Teachers" requirements, enabling federal, state, and local policies to move toward strategies that will reassure parents their students' teachers are effective in the classroom.

- *Teacher Evaluations:* The main teacher quality program within the bill is amended to allow for the development and implementation of state or locally driven teacher evaluation systems. Unlike the U.S. Department of Education's Race to the Top plan or waiver package, which mandate specific requirements for school districts to follow, the bill sets five broad parameters that states or school districts may include in any teacher evaluation system. This approach gives greater flexibility to school districts or states to develop teacher evaluation systems that best meet the specific needs of their teachers and students. Those optional parameters include:

- Making student achievement data, derived from a variety of sources, a significant part of the evaluation;
- Using multiple measures of evaluation in assessing teacher performance;
- Having more than two rating categories for the performance of teachers;
- Making personnel decisions based on the evaluations, as determined by the district; and
- Seeking input from parents, teachers, school leaders, and other staff in the school in developing the evaluation system.

- *Uses of Funds:* The bill allows states that have already developed statewide teacher evaluation systems to use teacher quality funds to work with their school districts to implement the system. Funds may also be used to train school leaders in how to evaluate teachers under the system; develop and implement school leader evaluation systems; provide evidence-based, job-embedded, and continuous professional development for teachers and school leaders focused on academic subjects or specific student populations; professional development for teachers to teach dual credit or dual enrollment courses; and provide support to teachers identified as in need of additional assistance. States and school districts can use teacher funds for class size reduction, but the bill caps this use at 10 percent. A substantial amount of teacher quality funds under current law are used to reduce class size, which evidence shows has little to no effect on student learning.

- *Teacher and School Leader Innovation:* The bill consolidates the remaining teacher quality programs, including the Teacher Quality Partnership Grant program authorized under the Higher Education Act, into a new Teacher and School Leader Flexible Grant. The program will award grants to states and school districts to increase student achievement through evidence-based innovative initiatives. School districts, solely or in partnership with institutions of higher education, can receive funding to:

- Increase access to or develop alternative certification or licensure routes;
- Recruit, hire, and retain effective teachers and school leaders;
- Improve teacher preparation programs within the state;
- Implement performance-based pay systems and differential incentive pay;
- Create teacher or school leader advancement and multiple career paths;
- Establish new teacher or school leader induction and residency programs; and

- Provide additional professional development activities or other evidence-based initiatives likely to increase teacher and school leader effectiveness.
- *Teacher and School Leader Academies*: The bill allows states to reserve up to 3 percent of their flexible grant to award funds to eligible entities for the establishment or expansion of teacher or school leader preparation academies.
- *Teacher Liability*: The bill maintains liability protections included in current law that protect school employees (including teachers, administrators, and school board members) acting to control, discipline, expel, or suspend a student as well as to maintain order in the classroom or school through reasonable actions.

#### *Engaging Parents in their Child's Education*

The Student Success Act recognizes that parents must play an active role in their child's education. The federal government currently supports a number of vital initiatives aimed at providing additional educational options for parents and students looking to escape low-performing schools and providing assistance to those students in need of extra instructional support to be able to excel academically. The legislation drives these federal reform efforts down to the state and local level and moves many of these programs from Title V of current law to a redesigned Title III.

- *Title I Portability*: The bill gives states the option of allowing Title I money to follow low-income students to the traditional public or charter school of the parent's choice. Under current law, school districts choose which schools receive Title I funds within some parameters. This legislation, however, ensures all low-income students receive their fair share of federal dollars, rather than allowing the bureaucracy to choose winners and losers.

- *Charter Schools*: The bill reauthorizes the Charter School Program, which supports the start-up, replication, and expansion of high-quality charter schools. The bill incorporates the provisions of H.R. 10, the Success and Opportunity Through Quality Charter Schools Act, which passed the House in the 113th Congress. The legislation expands the entities eligible for funding to include additional statewide entities (charter school boards, governors, and charter support organizations) to foster greater charter school growth; encourages greater expansion and replication of proven, high-quality charter school models; requires states to fund efforts to increase charter school authorizer quality; allows the use of weighted admission lotteries to better serve disadvantaged students; clarifies a student can continue in a charter school program at another school in the same network without returning to the lottery; and adds a set-aside in the national activities funding to support high-quality charter management organizations in opening and expanding high-quality charter schools.

- *Direct Student Services*: The bill requires states to set aside 3 percent of Title I money to provide competitive grants to school districts that wish to offer tutoring or public school choice to their students, including those in poor performing schools.

- *Magnet Schools*: The bill continues the current program, which provides funds to support the development and implementation of innovative education methods and practices that increase choices in

public education. The legislation includes changes to improve program operation.

- *Family Engagement Centers:* The bill renames and makes improvements to the existing Parental Information and Resource Centers (PIRC) program, which helps implement family engagement policies, programs, and activities that lead to improvements in student academic achievement. The legislation strengthens partnerships among parents, teachers, school leaders, administrators, and other school personnel designed to meet the educational needs of children. The bill promotes the better sharing of effective strategies and increases coordination between states, family engagement centers, and parents.

- *Background Checks:* The bill requires states and school districts to conduct background checks on employees and prospective employees who have direct unsupervised access to children. Parents entrust their children to schools during the day and should have the comfort of knowing that any adult working around their child at school has undergone a background check.

#### *Supporting Impact Aid*

The Student Success Act strengthens the five existing Impact Aid programs, which reimburse school districts located near, or serving students from, military bases, federal lands, and Indian reservations, for the loss of property taxes due to the presence of the federal government. Many of the bill's provisions were included in the FY 2013 National Defense Authorization Act and expire in early 2018. The legislation makes such language permanent and moves Impact Aid programs from Title VIII of current law to a new Title IV.

- *Payments for Federal Property:* The bill updates the formula by which school district allotments are determined for a district with federal property located within its boundaries that cannot be taxed. The new formula includes two parts. First, an eligible school district will get a foundation or base payment of either 90 percent of the payment most recently received (FY 2009) or 90 percent of the average payment received from FY 2006–2009, whichever is higher. Second, the district will receive an additional payment using a calculated per acre value.

- *Payments for Federally-Connected Children:* The bill streamlines provisions for Heavily Impacted school districts, which are districts with high percentages of military, Native American, or other federally-connected children. The legislation standardizes eligibility criteria for these districts at 45 percent enrollment of federally-connected children; bases per pupil expenditure eligibility requirements on state averages rather than national averages; and allows federally-connected children to be counted in enrollment numbers in the case of open enrollment policies in a state. The bill also amends the Basic Support Payments formula to provide equal prorated payments greater than 100 percent of the Learning Opportunity Threshold for eligible districts. Finally, the language allows school districts to continue to count children who have been relocated off-base due to renovation, rebuilding, or demolition after three years if the district continues to serve such children because of project delays and simplifies the annual process for counting these children.

- *Timely Payments:* The bill requires the Secretary of Education to provide Impact Aid payments within three years. This addresses long-standing school district concerns regarding the lack of on-time payments from the U.S. Department of Education, as Impact Aid accounts for a substantial portion of the operating budgets for many of these districts.

*Maintaining and Strengthening Long-Standing Protections for State and Local Autonomy*

The Student Success Act restores and protects state and local autonomy over public education. Since taking office in 2009, the Obama administration has pushed the largest expansion of the federal role in education in the nation's history. The Secretary of Education has usurped Congressional authority to rewrite NCLB, coercing states into adopting common standards and assessments in exchange for temporary relief of the law's burdensome requirements. The legislation strengthens the important protections for students, parents, communities, states, and school districts found in the General Provisions of ESEA. It also moves them from Title IX of current law to a redesigned Title VI.

- *Secretary's Authority:* The bill limits the authority of the Secretary of Education over decisions in the classroom. The legislation: (1) prohibits the Secretary from imposing conditions on states and school districts, including the adoption of the Common Core State Standards, in exchange for a waiver of federal elementary and secondary education law or federal grant funds; (2) prevents the Secretary from creating additional burdens on states and districts through the regulatory process, particularly in the areas of standards, assessments, and state accountability plans; (3) prohibits the Secretary from demanding changes to state standards and influencing and coercing states to enter into partnerships with other states; and (4) outlines specific procedures the Secretary must follow when issuing federal regulations and conducting peer review processes for grant applications, including publicly releasing the identity of peer reviewers, which will bring greater transparency.

- *Private School Students:* The bill strengthens provisions to ensure the participation of private school students and teachers in the programs funded under the Act. The legislation improves the consultation and negotiation processes to provide clearer procedures and faster notice for private school officials. These changes will better protect access for private school students.

- *Military Recruiters:* The bill improves the military recruiting provisions in current law by ensuring recruiters have the same access to high schools as colleges and universities.

*Providing Services for Homeless Students*

The Student Success Act reauthorizes the Education for Homeless Children and Youths program within the McKinney-Vento Homeless Assistance Act, the primary federal program that provides funding to states and school districts to educate homeless children.

- *Improved Collaboration:* The bill places a greater emphasis on improved identification of homeless children and youth and provides better collaboration and information sharing among federal and state agencies to provide services for homeless students.

- *School Stability*: The legislation strengthens provisions in current law to provide greater school stability and protections for homeless youth and parents.

## COMMITTEE VIEWS

### *Introduction*

In 1965, Congress passed ESEA with the limited goal of providing states and local school districts with additional resources to ensure disadvantaged students have access to a quality education. The importance of helping students gain the skills necessary to graduate high school prepared for postsecondary education and the workforce is clear. A well-educated workforce is directly tied to the nation's ability to create jobs and maintain our competitive edge in a global economy.

The latest iteration of the ESEA—NCLB—was heralded as groundbreaking when it was signed into law, and in some ways it was. The expanded use of data helped superintendents, school leaders, and teachers identify students most in need of additional instruction and offered parents access to important information about the quality of their schools.

However, the law's weaknesses are now clearly identified. One-size-fits-all accountability metrics restrict states' and school districts' ability to appropriately gauge student learning and tailor curriculum to enable students to graduate high school prepared for postsecondary education or the workforce. Federally prescribed interventions and turnaround strategies have not worked as intended and are not producing the desired results in low-performing schools. More than 80 federal elementary and secondary education programs impose tremendous paperwork and regulatory burdens on states and school districts, demonstrate limited success in improving student achievement, and offer states and communities little flexibility in how they use federal dollars to meet their own unique needs. Federal teacher policy creates onerous mandates that emphasize credentials over an educator's ability to effectively motivate students and improve achievement levels.

In addition, the failure to enact a new law has allowed the Obama administration to circumvent Congress and impose its own vision of education reform on the nation.

The House Committee on Education and the Workforce is moving forward with education reform. For too long, states and school districts have been inundated with federal intervention and bureaucratic red tape that has done little to improve student performance. The Student Success Act (H.R. 5) will return responsibility for student achievement to states and school districts by reducing the federal footprint, restoring local control, and empowering parents and education leaders to hold schools accountable for providing students an excellent education.

### *Funding Authorizations*

In the more than four decades since passage of ESEA, federal control of public education has steadily increased and spending has exploded. According to the National Center for Education Statistics' Digest of Education Statistics, in 2010–11 the United States spent more than \$12,000 per pupil per year, nearly triple what was spent

in 1965.<sup>1</sup> Despite this record investment in public education by federal, state, and local governments, national academic performance has not improved.

The last 30 years have seen particularly dramatic increases in federal spending. U.S. Department of Education K–12 funding increased from less than \$7 billion in 1980 to over \$37 billion in 2015.<sup>2</sup> These increases have made the United States a world leader in education spending. The Organization for Economic Cooperation and Development (OECD) reported in 2012 the United States spent 7.3 percent of its Gross Domestic Product on education, well above the international average and more than all but four other OECD countries (Denmark, Iceland, Korea, and New Zealand).<sup>3</sup>

Despite these record investments, student achievement has not improved. At a February 10, 2011, Committee on Education and the Workforce hearing titled “Education in the Nation: Examining the Challenges and Opportunities Facing America’s Classrooms,” Mr. Andrew Coulson, from the non-profit, nonpartisan CATO Institute, stated math and reading scores for graduating high school seniors have remained unchanged over the last 40 years, while science scores have declined. International comparisons reflect these trends. The OECD’s latest Programme for International Student Assessment results showed for the 2012 assessment, the United States ranked 17th in reading, 27th in math, and 20th in science among developed nations. The report also explains that while the U.S. spends more than most countries per student, this does not translate into better performance.<sup>4</sup> Mr. Coulson went on to say:

To sum up, we have little to show for the \$2 trillion in federal education spending of the past half century. In the face of concerted and unflagging efforts by Congress and the states . . . it now costs three times as much to provide essentially the same education as we provided in 1970. . . . The only thing [spending] appears to have accomplished is to apply the brakes to the nation’s economic growth, by taxing trillions of dollars out of the productive sector of the economy and spending it on ineffective programs.

At the same time, our country faces a fiscal crisis. Our national debt now exceeds the total size of the U.S. economy. The federal government must be a better steward of taxpayer dollars, and H.R. 5 takes an important step in the right direction. Even within these limits, the bill authorizes at least as much funds, and in most cases more, in FY 2015 for disadvantaged students than was appropriated in FY 2012. The Committee believes the nation’s funding priorities must reflect the need to support our most disadvantaged.

*Aid to Local Educational Agencies*

Title I of the Student Success Act restructures and amends Title I of ESEA and addresses the following major issues:

*Academic Standards*

H.R. 5 maintains current requirements for states to establish academic standards that apply to all students and schools in the state in at least reading, science, and mathematics, while allowing states to develop standards in other subjects at their discretion. Achievement standards used for judging student and school performance must align with the content standards, but the bill removes federal requirements for basic, proficient, and advanced levels of achievement. States are also allowed to establish alternate achievement standards aligned to the content standards for students with the most significant disabilities. In addition, the bill consolidates the requirements for English proficiency standards into the main Title I program.

H.R. 5 also continues and strengthens language allowing states to enter into voluntary partnerships with each other to fulfill the law's requirements around academic standards and assessments. It is the Committee's intent to allow states to enter into voluntary partnerships with other states and to use federal funds to do so. However, such decisions must be entirely at the discretion of the state, free from interference by the Secretary of Education. The bill further clarifies that the Secretary is not authorized to require states to enter into any such partnerships as a condition of receiving federal funds, nor is the Secretary authorized to offer such partnerships as a way to meet any other condition the Secretary may place upon a state.

*Academic Assessments*

H.R. 5 maintains current requirements for states to develop and implement assessments in reading, mathematics, and science.

As under current law, states are required to give the same grade level reading and mathematics assessment to all students in the state in each of grades three through eight and once in high school. Science assessments must be administered at least once in each grade span for grades three through five, six through nine, and 10 through 12. Assessments still must include reasonable accommodations for students with disabilities, and states are allowed to adopt alternate assessments for students with the most significant cognitive disabilities. States are allowed to develop and administer computer adaptive assessments so educators can receive more meaningful feedback on classroom instruction and have the flexibility to use multiple measures of student achievement. The bill maintains requirements on disaggregating subgroup data, assessing the English proficiency of English learners, and ensuring 95 percent participation rates for all students and each subgroup.

Much criticism has been leveled at NCLB for promoting excessive testing and forcing teachers to teach to the test. While the Committee views these charges as exaggerated, the reauthorized law must balance the need for assessments with the recognition that classroom instruction should be the primary engine for meaningful improvements in performance. Assessments should be used as a tool to tailor instruction and to inform students, teachers, and fam-

ilies about academic performance and to inform the community about the quality of its schools. They should not, however, be the only tool. The Student Success Act specifically states that state accountability systems should include multiple measures of student achievement and other measures of school success. The Committee believes the bill properly divorces assessments designed to promote transparency from one-size-fits-all high-stakes accountability and state accountability systems that are broader than students' performance on high-stakes tests will address the excessive focus on assessments.

#### *School Accountability and Improvement*

H.R. 5 eliminates the federal accountability system known as AYP and rejects calls to replace it with a similar one-size-fits-all metric by a different name. In its place, the bill requires states to develop and implement a statewide accountability system that will result in students graduating from high school prepared for post-secondary education and the workforce. The system must include the following elements:

- Annually measure the academic achievement of all public school students against the state's academic standards (including growth toward the standards) using the statewide assessment and other academic indicators determined by the state;
- Annually evaluate and identify the academic performance of each public school in the state based on student academic achievement, including the achievement of all students and achievement gaps between student subgroups, and other measures of school success determined by the state; and
- Include a school improvement system implemented by school districts that includes interventions in poor performing Title I schools.

As noted above, the Student Success Act requires states to include a system of school improvement interventions as part of their statewide accountability structure. The bill repeals the federally mandated interventions included in Sections 1116 and 1117 of current law, giving states and districts maximum flexibility to develop appropriate school improvement strategies and rewards for their schools. The bill also increases the state set-aside for school improvement to 7 percent (up from 4 percent) but eliminates the local set-asides, meaning more Title I money will flow directly to school districts. The bill eliminates the SIG program through which the Secretary of Education created four unworkable turnaround models, and it instead uses those funds to increase the authorization level for the Title I program.

While much of the nation has embraced the need to return control over how schools are evaluated and improved to states and school districts, some persistently fail to recognize the damage done when federal mandates replace the judgment of states, communities, and families. The Committee supports standards-based education reform, but removing decisions about school quality from those closest to our nation's students is delegitimizing such reforms and placing the reform movement at risk. In a January 30, 2015, Education Week blog post titled "The Problem with NCLB-Style 'Political Cover'," Rick Hess observed,

. . . school improvement is invariably better off, in the long run, when ambitious reforms have local political backers and meaningful local support. . . . The irony is that the very act of providing federal ‘cover’ can also serve to undermine local backing, or cause it to atrophy, by making it seem less necessary or urgent.

The U.S. Department of Education’s waiver scheme also is not the right answer. The department’s waivers have undoubtedly offered more flexibility than NCLB, but flexibility tied to the whims of the Secretary of Education is unsustainable. States need the freedom to develop effective strategies without having the Secretary looking over their shoulders. As Michael McShane observed in a June 19, 2013, blog post on the American Enterprise Institute website entitled “Rethinking NCLB Does Not Mean Admitting Defeat,”

When states develop their own plans, the architects on the state board, in [the] state legislature, and at the governor’s mansion are much more likely to be held to account by voters and taxpayers than the Secretary of Education or distant bureaucrats in the Department of Education charged with ensuring compliance.

The Student Success Act offers a better way forward. McShane concluded his piece with an observation about the Student Success Act as it was progressing through the 113th Congress, saying, “Maybe the [Student Success Act] reflects the lessons we’ve learned after all—accountability is important, but the federal government might not be the best people to have in the driver’s seat.”

H.R. 5 also includes a provision to ensure the new law does not impede or undermine state efforts to empower parents to assume authority over their students’ schools. For example, in California the parent trigger law is directly tied to requirements under Section 1116 of current law. It is not the intent of the Committee to weaken the purposes of that California law or other similar state laws. The Committee encourages states to maintain the authority granted to parents under state law as they develop and implement new accountability systems as required under this Act.

#### *Title I Formula*

H.R. 5 updates the findings in section 1125AA with respect to the distribution of Title I funds under the Targeted and Education Finance Incentive Grants formulas. The Committee acknowledges that number weighting in those two formulas generally results in higher allocations to school districts with very large numbers, but not necessarily higher concentrations, of Title I-eligible students. The Committee also acknowledges that the current scales used to calculate the number and percentage weights were established based on data available in 2001. The Committee believes these scales should be updated with the most recent possible data prior to enactment of the Student Success Act. The Congressional Research Service has told the Committee updated data will be available in a few months. The Committee believes that updated weighting scales should be established by a Conference Committee between the House and the Senate. The Committee further believes that as the Conference Committee updates those scales, the

Conference Committee should evaluate the use of those scales to ensure the most equitable distribution of Targeted and Education Finance Incentive Grant funds to school districts with the greatest concentrations of poverty.

#### *Title I Portability*

H.R. 5 gives states the option of allowing Title I money to follow low-income students to the traditional public or charter school the student attends. Under current law, school districts choose which schools receive Title I funds within some parameters. This legislation, however, helps low-income students receive their fair share of federal assistance by allowing federal funds to follow children to the traditional public or charter school of the parent's choice. The Committee believes any effort to incentivize good schools to attract low-income students is deserving of Congress' support.

#### *Direct Student Services*

H.R. 5 requires states to set aside 3 percent of their Title I allocation to award grants to local school districts to support Direct Student Services. The Committee believes students should have access to important options that will help improve academic achievement. For example, students should have the option to immediately attend high-performing public schools to ensure they are not trapped in the education system as school officials work to turn-around poor performing schools. Students should also have the ability to access high-quality academic tutoring programs for additional help to succeed academically.

Unlike the current requirement to provide supplemental educational services, repealed under the Student Success Act, state educational agencies will approve providers, including both for-profit and non-profit academic tutors, and school districts will select a wide variety of approved providers, including both for-profits and non-profits, to ensure parents and students have a diverse group of entities from which to choose to meet unique student needs. The Committee urges states to award grants only to those eligible school districts that provide meaningful tutoring providers to parents and believes this can only happen if school districts select a number of providers that offer small group tutoring through a variety of methods, including online and on campus offerings. As the new leading partner of the Direct Student Services program, school districts must take ownership of this important program geared toward providing choice options to all students, which means offering ample space in high performing schools and quality tutoring options for students.

#### *Data Transparency*

NCLB has been roundly praised for shining a light on achievement gaps that exist among a school's students. The Committee believes this important feature of NCLB must be continued—no longer can schools hide behind schoolwide averages, while disadvantaged students struggle in the shadows.

H.R. 5 maintains the current requirement that states and school districts distribute annual report cards, while streamlining the data reporting to ensure meaningful information is easily available to parents and communities. States and districts must continue to

report disaggregated data on student achievement on the state assessments and other academic indicators used in the statewide accountability system, participation rates on those assessments, the adjusted cohort graduation rate, each school's evaluation under the statewide accountability system, and English language proficiency. States and districts will also continue to participate in the fourth and eighth grade reading and mathematics NAEP and publicly report their results so the public can compare data across states to ensure their state's standards and achievement results are sufficiently rigorous and meaningful. Ultimately, schools must be accountable to parents and communities. The Student Success Act ensures parents and education leaders have the information they need to adequately evaluate the quality of their schools.

#### *Local capacity building*

H.R. 5 directs states to provide technical assistance to school districts in implementing the requirements of this Act, similar to current law. It is the Committee's intent for states to provide technical assistance in areas of need identified by districts, which could include implementation of standards assessments; new systems for accountability and school improvement; and identification of appropriate instructional materials.

#### *Schoolwide Program Authority*

H.R. 5 eliminates the 40 percent poverty threshold for schoolwide programs, allowing all Title I schools to operate whole school reform efforts. Under current law, only eligible schools with a poverty level of at least 40 percent are able to use Title I funds for schoolwide programs that benefit all students. This poverty threshold was lowered from 75 percent to 50 percent in the 1994 Improving America's Schools Act, and it was reduced to the current threshold in NCLB. There is a long-standing, bipartisan recognition that the best way to address the needs of the most at-risk students is to enable and encourage schoolwide solutions.

#### *Highly Qualified Teachers*

H.R. 5 repeals the definition of "highly qualified teacher" (HQT) and related provisions currently included in Section 1119 of NCLB. Under current law, school districts receiving Title I funds are required to ensure all teachers of core academic subjects are "highly qualified," defined as a teacher who has earned a bachelor's degree, holds a state certification or license, and can demonstrate knowledge of the subject matter in question. These federal requirements place too much emphasis on a teacher's credentials, degrees, and licensing; as a result, schools have come to value a teacher's resume over his or her ability to increase student achievement. These undue burdens placed on teachers to meet input requirements are meaningless and have nothing to do with teacher effectiveness in the classroom. Additionally, the Committee notes members of the educational establishment have used the HQT definition to shutter alternative certification programs and innovative teaching approaches at many charter schools, which often recruit energetic and talented young teachers who inspire students to succeed.

According to a 2011 study by the Education Development Center, a majority of teachers in 140 schools surveyed did not think the

“highly qualified” status was linked to a teacher’s effectiveness, and they identified other aspects of teaching that were equally, if not more, important to effective teaching.<sup>5</sup> Additionally, a 2012 study by McREL International, a private nonprofit, nonpartisan education research corporation, found there is “little to no relationship between teacher qualifications and instructional quality . . . hiring highly qualified teachers is simply a regulatory necessity—it does not automatically guarantee high-quality instruction.”

At a July 24, 2012, Early Childhood, Elementary, and Secondary Education Subcommittee hearing titled “Education Reforms: Discussing the Value of Alternative Teacher Certification Programs,” Seth Andrew, Founder and Superintendent of Democracy Prep Public Schools in Harlem, NY, shared his thoughts on the HQT provision:

The HQT standard places the illogical restriction on the talent pool that my principals are permitted to access and unnecessarily hampers our search for the amazing teachers that our students need. Under current policy concerning HQT, it is a remarkable indicator that I could not hire any of the members of this committee to teach history or civics at Democracy Prep even with the benefit of the exemption in New York State Charter Law.

Furthermore, additional burdens from the federal level can be especially harmful to rural school districts, which often face unique challenges, including those related to hiring and retaining effective teachers. The federal government does not need to place additional requirements on school districts regarding the qualifications teachers must meet before entering the classroom, especially in light of existing state teacher licensing requirements. The Committee believes it is time to reduce the size and scope of the U.S. Department of Education and roll back federal bureaucratic requirements and regulations.

#### *Equitable Participation of Private School Students*

The equitable participation of private school students has been a part of ESEA since its creation in 1965. These provisions are intended to help disadvantaged students who attend private schools and are included in the calculation of federal funds allocated to public school districts. The Committee believes the current process, which set out to ensure access for private school students to these important services guaranteed to them for more than 45 years, is often an arduous and contentious process for private school and school district officials. Current law lacks clarity regarding the goals and topics of consultation, the timely expenditure of funds, the types of services to be provided, and the allowable means for delivering them to private school students.

H.R. 5 includes provisions in Title I and Title VI (General Provisions) to establish clearer requirements under the consultation provisions for equitable participation. Under the proposed changes, participants in the consultation process will have clear and con-

sistent goals, topics, and procedures to ensure disadvantaged students are receiving the services to which they are entitled in a timely manner. The provisions will also allow private schools to consult with school districts and request services be provided on a schoolwide basis, as long as providing the services would be permitted constitutionally. Additionally, the purpose of the addition of Section 1120(b)(1)(K) is to ensure that private school students are able to receive services at the location and time that is most suitable for the student and the student's coursework. Nothing in this section should be construed to imply that services are required to be provided at times other than during their regular school or coursework. Finally, the bill provides for an official ombudsman at the state educational agency. This designated employee will serve as the primary point of contact for all interested parties for questions on equitable participation of private school students and will be responsible for maintaining the record of the required consultation. The Committee notes state educational agencies could designate an existing employee to fulfill this important requirement.

#### *Maintenance of Effort*

H.R. 5 removes all "maintenance of effort" (MOE) requirements, allowing states and school districts to set their own funding levels for elementary and secondary education. These requirements are removed for four primary reasons:

- The Committee does not believe dictating how states and school districts spend their tax revenues as a condition of receiving federal funds is an appropriate federal role;
- MOE requirements assume increased education spending will improve educational outcomes, though decades of data prove this argument false;
- MOE requirements provide disincentives for states and school districts to innovate and deliver better educational services more efficiently; and
- Data from the U.S. Department of Education show that since enactment of NCLB more than 70 percent of MOE waiver requests have been granted. This bill acknowledges this reality and eliminates the burden up front for school districts.

At the same time, the Student Success Act maintains the law's "supplement, not supplant" requirements, which ensure federal dollars are used as an addition to state and local resources, protecting the limited federal role in education. Maintaining these provisions ensure states and districts will not be able to cut education spending dramatically and fill in the gaps with federal dollars.

#### *Targeted Populations and Funding Flexibility*

H.R. 5 consolidates programs for migratory children, neglected and delinquent children, English learners, and rural school districts into Part A of Title I of ESEA, while maintaining separate reservations of funds for each of the vulnerable populations. The bill also enables states and school districts to rededicate funds across these programs to address the areas of greatest need for their students.

The Committee does not intend for states and school districts to neglect the needs of their most vulnerable students. But too often, school districts receive funds for specific purposes in amounts too

small to have a meaningful benefit. H.R. 5 allows states and districts to consolidate funding streams to develop innovative programs that will better meet the needs of their students. The bill's requirement for disaggregation of student achievement data by subgroup will continue to ensure transparency around the progress of particular subgroups in meeting state academic standards. Overall, the Student Success Act maintains a focus on special populations, while providing states and districts the flexibility to address their unique student needs.

Additionally, H.R. 5 makes minor changes to these targeted population programs to improve their performance. The bill allows for greater coordination across states and school districts regarding the exchange of migratory children's health and academic records, improves the manner by which student counts for migrant and immigrant students, in addition to English learners, are determined, and provides new opportunities for Indian tribes and Bureau of Indian Education schools to improve student achievement by removing existing regulatory barriers and allowing tribes to apply for funds in consortia.

#### *Teacher Preparation and Effectiveness*

Title II of the Student Success Act restructures and amends Title II of current law and addresses the following major issues:

##### *Supporting Effective Instruction*

H.R. 5 rewrites the existing Teacher and Principal Training and Recruiting Fund included in Part A of Title II to support state and local efforts to improve teaching, including through the development and implementation of teacher evaluation systems. The legislation replaces Title II Part A with a new Supporting Effective Instruction program. The program allows for, but does not require, the development and implementation of state or locally driven teacher evaluation systems that measure an educator's success in increasing student achievement. The bill suggests, but does not require, general guidelines around the evaluation components, leaving the details of any evaluation system up to local school districts. The Committee takes this approach for two reasons. First, independent research demonstrates the need for a mix of metrics for measuring teacher performance. In an Early Childhood, Elementary, and Secondary Education Subcommittee hearing on February 28, 2013, titled "Raising the Bar: How are Schools Measuring Teacher Performance?" chief research officer at the Bill & Melinda Gates Foundation, Dr. Steve Cantrell, shared his research on this issue, stating,

Preliminary MET findings demonstrated that three measures—student assessments, classroom observations, and student surveys—helped predict whether teachers would raise the performance of future groups of students. Indeed, the combination of these measures does a far better job predicting which teachers will succeed in raising student performance than master's degrees and years of teaching experience . . . Final MET findings literally proved that effective teachers cause their students to learn more.

There is consensus that many current teacher evaluation systems fail to measure teacher effectiveness properly and should be retooled to include measurements of student achievement. However, school districts need the flexibility to determine and define which actual metrics meet the specific needs of their teachers and students, especially those educators who teach non-tested subjects. The Committee believes school districts, and states choosing to implement statewide systems, should include student achievement metrics from a number of sources in their teacher evaluations. These options include end-of-course exams, student coursework, formative assessments, and other objective measurements of student achievement that cannot be easily manipulated.

Second, past practice of dictating specific and prescriptive requirements at the federal level, such as defining what constitutes a highly qualified teacher and mandating only educators who meet these standards can teach in the classroom, has been a dismal failure. The federal government should play an important, although limited, role in education policy decisions. Federal policy should include broad parameters and goals for success to ensure taxpayer dollars are spent effectively and efficiently. But federal law must allow local school districts to determine how best to get there and must refrain from imposing overly prescriptive requirements that restrict innovation and undermine local control.

Under H.R. 5, Title II, Part A funds may also be used to: (1) train school leaders in how to effectively evaluate teachers; (2) develop and implement school leader evaluation systems; (3) provide evidence-based, job-embedded, and continuous professional development for teachers and schools leaders focused on subject-based academic courses (including civics, geography, literacy, computer science and other STEM subjects), specific student populations such as students with disabilities or gifted and talented students, or specific student needs; (4) provide professional development for teachers to teach dual credit or dual enrollment courses; (5) provide support to teachers identified by the evaluation system as in need of additional assistance; and (6) support any other initiatives that will assist teachers and school leaders in increasing student achievement. The Committee also notes the bill caps the funds that can be used for class size reduction at 10 percent. A substantial amount of teacher quality funds under current law are used for this purpose, which research indicates has little to no effect on student learning. The Committee believes encouraging states and school districts to use these funds to improve teaching in the classroom will ultimately improve student outcomes.

#### *Teacher and School Leader Flexible Grant*

H.R. 5 consolidates the remaining teacher quality programs, including the Teacher Quality Partnership Grant program authorized under the Higher Education Act, into a new Teacher and School Leader Flexible Grant. Under the new construct, states are provided funds to award grants to eligible entities, including school districts, for-profit and non-profit organizations, institutions of higher education, or a consortium of such entities, to pursue evidence-based, innovative initiatives focused on teachers and school leaders. If an eligible entity other than a local educational agency is awarded a grant, the entity must partner with a school district

to ensure funds are being used to support increased student achievement.

The Committee believes a single consolidated program that provides greater flexibility to states, school districts, and other eligible entities in the use of federal teacher quality funds is preferable to the existing system of small programs that cater to certain constituencies and have very limited benefit for classroom instruction. For example, a 2011 Government Accountability Office (GAO) report entitled “Opportunities to Reduce Potential Duplication in Federal Teacher Quality Programs” revealed more than 80 distinct federal programs designed to help improve teacher quality. Not only does this jumble of programs add to the confusion and red tape already facing educators, it is also a costly burden for taxpayers. According to GAO Comptroller General Gene Dodaro, the federal government spent more than \$4 billion on these programs in FY 2009, yet little is known about whether they are or were actually successful.

The Teacher and School Leader Flexible Grant program retains many of the same uses of funds for the consolidated programs. For example, states and eligible entities can support creative approaches to:

- Increase access to or develop alternative certification or licensure routes;
- Recruit, hire, and retain effective teachers and school leaders;
- Improve teacher preparation programs within the state;
- Implement performance-based pay systems and differential incentive pay;
- Create teacher or school leader advancement and multiple career paths;
- Establish new teacher or school leader induction and residency programs; and
- Provide additional professional development activities or other evidence-based initiatives likely to increase teacher and school leader effectiveness.

The legislation provides flexibility to eligible entities to fund initiatives that have evidence of working within particular schools. It engages the private sector, including the for- and non-profit communities, to partner with school districts to drive improvements and innovation in the teaching profession. The Committee anticipates organizations with a track record of success, such as Teach for America and the National Writing Project, will partner effectively with states and school districts to improve the teaching profession and student achievement.

#### *Teacher Preparation Academies*

H.R. 5 contains an optional 3 percent set-aside within the Teacher and School Leader Flexible Grant for states to create and fund teacher and school leader preparation academies. These funds allow for a state-based approach to create a competitive market for teacher and school leader training. This is particularly important as work by the National Council on Teacher Quality highlights the majority of traditional teacher preparation programs do not adequately prepare potential educators for the classroom, even as they produce well over twice the number of elementary teachers needed. In the “Teacher Prep Review 2014 Report,” fewer than 10 percent

of teacher-education programs earned a “top-ranked” distinction. Only 26 elementary programs and 81 secondary programs of the more than 1,600 programs ranked earned the highest level. More than 50 percent of the programs, 848 in all, were given the lowest ranking.

States taking advantage of this new funding source can use funds to reform educator preparation practices and free academies from meeting antiquated, input-based requirements. States will be required to ensure candidates recruited for the academies will be high-achieving, receive clinical training in the classroom from an accomplished mentor, and complete the academy only after they demonstrate they are an effective educator. The program’s emphasis on flexibility, combined with accountability, will enable these academies to innovate and transform the practice of teacher and school leader training.

#### *Teacher Liability Protections*

H.R. 5 maintains liability protections included in current law that protect school employees (including teachers, administrators, and school board members) when acting to control, discipline, expel, or suspend a student or maintain order in the classroom or school through reasonable actions. The Committee believes educators must be protected when acting to maintain a safe school environment for all students.

#### *Parental Engagement and Local Flexibility*

Title III of H.R. 5 focuses on parental engagement and local flexibility. This title includes important changes to the Charter School Program, a continuation of the magnet school program, and a critical redesign of the parent information resource centers under current law. The charter school provisions reflect H.R. 10, the Success and Opportunity through Quality Charter Schools Act, which passed the House of Representatives with overwhelming bipartisan support in the 113th Congress.

#### *Charter Schools*

H.R. 5 modernizes and streamlines the charter school provisions under ESEA. The bill makes improvements to the Charter School Program to emphasize quality, accountability, and equity and to better support high-quality charter schools. The bill consolidates the current funding streams for charter schools under one authorization at \$300 million to increase efficiencies within the operation of the program and better leverage federal funds.

A public charter school is a publicly-funded elementary or secondary school operated according to the terms of a charter or contract granted by a public chartering agency. The terms of a charter typically provide the charter school operator with increased autonomy in how to operate the school in exchange for greater accountability for results or student outcomes. Charters are usually granted for a limited time period, typically ranging from fewer than five years to as many as 15 years. In order to retain or renew its charter, a school must adhere to the accountability requirements written into its charter and attract enough students to continue functioning as a viable school.

Charter schools are a state education reform initiative that began in Minnesota in 1991. The Improving America's Schools Act of 1994 included support for starting charter schools. The Credit Enhancement Program, which began in 2001 through the appropriations process, provides grants to eligible entities to help charter schools leverage other funds through credit enhancement initiatives to acquire, construct, renovate, or lease academic facilities.

The first charter school opened in 1992. Today, 6,400 charter schools in 42 states and the District of Columbia serve more than 2.5 million students. Forty-two states have enacted charter school laws, giving parents and students an education alternative to traditional public schools. However, this growth is not enough to meet the demand. Over 1,000,000 student names are on waitlists to enter charter schools. The demand is understandable. Since 2010, 15 of 16 "gold standard" research studies conducted on public charter school student achievement have found public charter school students are outperforming their traditional school peers. In 2013, the Center for Research on Educational Outcomes released a study that found a charter school education had a positive impact for many subgroups, including African American students, students in poverty, English learners, and students in special education. For English learner students who are Hispanic, attending a charter school resulted in 50 additional days of learning in reading and 43 additional days of learning in math.<sup>7</sup> Yet, charter schools continue to face challenges in serving certain populations of students, in particular students with disabilities—including those with lower incidence disabilities—and English learners.

H.R. 5 improves access for traditionally underserved populations, supports the creation, replication and expansion of high-quality charter schools, and strengthens accountability for developers who receive federal funding to open, replicate, or expand charter schools. Consolidating the two charter school provisions into one program better focuses support for all elements important to creating high-quality charter schools.

The charter school movement has seen robust growth over the past decade. There are now many high-quality charter schools eligible to receive federal and state support to expand and replicate their successes. The Committee on Appropriations supported this effort through a reservation within the Charter School Program appropriation, and the Committee on Education and the Workforce believes it is important to update the authorizing legislation to ensure states support these schools. The Student Success Act adds an expansion and replication use of funds under each State Quality Charter School Grant to support the start-up of new, innovative charter school models, as well as the expansion and replication of high-quality charter schools. The Committee believes successful replication and expansion of high-quality charter schools is dependent on state support and community buy-in. This belief is reflected in the allowance of state entity subgranting for these purposes and a decreased reliance on funds awarded directly to developers from the Secretary of Education.

Charter schools receiving funds under this program must admit their students through a lottery system if the demand for attend-

<sup>7</sup><http://credo.stanford.edu/documents/NCSS%202013%20Executive%20Summary.pdf>.

ance exceeds the available slots in the schools. It is important to assist these schools in reaching all students who may benefit from the opening or expansion of charter schools. However, the focus must be on increasing the number of quality education options, not just increasing the number of charter schools available. In order to expand access to quality public charter schools, the legislation includes provisions to help state grantees reach out to charter school developers and school leaders to (1) recruit traditionally underserved students, including students with disabilities and English learners; (2) promote inclusion and retention; and (3) meet the needs of those students. Further, the state grantees must award grants to urban, suburban, and rural areas (including Indian reservations) to ensure quality charter school options reach as many students as possible, including American Indian and Alaska Native students.

H.R. 5 supports charter schools in serving students with disabilities, including students with lower incidence disabilities, English learners, and other traditionally underserved students. The legislation recognizes charter schools need support in recruiting, enrolling, and retaining these students and includes provisions to help charter schools address those challenges. The Committee believes the technical assistance required of grantees will help charter schools with these goals. The Student Success Act will allow weighted lotteries that help ensure educationally disadvantaged students have a better chance to attend a charter school. A weighted lottery is a mechanism used to create diverse student populations. The Act permits the weighting of specific student attributes to give a statistical advantage to disadvantaged students, or a subset of those students. The lottery should remain a fair process to ensure all students have the opportunity to attend these sought-after schools. In addition, this provision clarifies charter schools in receipt of Charter School Program funds may use a weighted lottery for educationally disadvantaged students, provided the weighted lottery is not prohibited by state law and is not used to create a school made exclusively of one student subgroup.

Ensuring grantees award funds for the creation, replication, and expansion of high-quality charter school remains paramount. When awarding subgrants, state entities should ensure charter school developers open a school that meets the intent and requirements of the law, and in particular, the definition of a charter school. When subgrantees are applying to expand or replicate already existing charter school models, the state entity must ensure the models meet the definition of a high-quality charter school. In particular, the state entity should ensure the charter school is exempt from significant state and local requirements that inhibit the operation of a school and has a high degree of autonomy over budget and all operations.

When recruiting students, charter schools should ensure parents have the information they need to make the best decisions possible for their children. This includes encouraging parents to examine the academic success of the school, the teaching philosophy of the school, and the ability of the school to meet the education needs of any student admitted to the school. The legislation encourages state entities to monitor charter schools to ensure compliance with all federal civil rights statutes and there are no barriers to enroll-

ment that could prevent the enrollment of students based on socioeconomic status, language proficiency, academic performance, disability, or parental involvement. The legislation supports charter schools that promote an inclusive environment. High-quality charter schools, as defined in the legislation, raise the achievement of all students, including students with disabilities, English learners, and other traditionally underserved populations.

In modernizing the Charter School Program, H.R. 5 includes a new provision that reserves 7 percent of each state grant to support initiatives to improve charter school authorizing. This initiative will help charter school authorizers identify key indicators of quality, including how to ensure the school and the authorizer clearly articulate the goals and expectations of each party. It will also help charter schools meet their obligations under existing laws and this Act. The funds will also be used to increase the number of high-quality charter schools available to students by opening new charter schools and by helping charter schools recruit, enroll, and meet the needs of students with disabilities, including students with low-incidence disabilities, and English learners.

The bill requires eligible applicants to describe the quality controls agreed to in the authorizing contract and the terms of contracts with other organizations. In their applications, charter schools must describe how their authorizers evaluate the success of the schools primarily on the academic achievement of all of their students, as well as through other performance measures determined by state law, the authorizer, and the school, as outlined in a legally binding performance contract.

The legislation requires charter schools to have transparent contractual relationships with management organizations. As stipulated in the U.S. Department of Education non-regulatory guidance for the current Charter School Program, charter schools receiving grants under this program should avoid conflicts of interest. In promoting quality authorizing practices, state grantees should support authorizers that make annual, independent financial audits publicly available and easily accessible, such as through posting on the school or authorizer website. In addition, state grantees must describe how they will provide oversight of authorizing activity in their application.

The Committee intends the requirement to describe such a system will not inhibit participation or competition by states with legal, constitutional, or structural barriers that constrain the state's authority over the authorized public chartering agency or the type or number of authorized public chartering agencies. Further, as the purpose of the Charter School Program is to expand the number of high-quality charter schools available to students across the nation, it is the Committee's intent that oversight of authorizing activity must not abolish all public chartering agencies or all authorizing activity in any given geographic area, as this would prevent the expansion of high-quality charter schools and would be contrary to the purpose of this Act. The Committee believes it is important authorizers and charter schools have as much flexibility in complying with these provisions as possible to ensure charter schools meet the expectations of their respective authorizers and still operate in an autonomous manner to meet the goals of the school.

The Act allows new eligible entities to compete for funding under State Quality Charter School Grants and provides increased flexibility in the operation of the state grant competition for start-up of charter schools. The bill expands the eligible entities for state grants to include state charter school boards, governors, and charter school support organizations, in addition to the state educational agency (SEA) allowed under current law. This expansion of eligible grantees will ensure charter schools have an opportunity to open and expand with the support of a grantee that believes in the benefit of charter schools and offers the greatest assistance to those schools that win subgrants. To ensure grantees are able to meet the requirements of the program, the legislation allows states to partner with an entity that can help it operate a quality program that adequately supports the thoughtful growth of charter schools in the state. While there may be multiple eligible grantees for each state, the Committee supports limiting each state to one grant to avoid duplication in the state, ensure funds are used to build a cohesive statewide network of support, and ensure funds reach as many states, and therefore schools, as possible across the nation.

The newly eligible grantees are also required to collaborate with the SEA, where appropriate. While this provision does not give the SEA any authority over the grantee or program the grantee is running, it will ensure the SEA and charter school operators are working together in a cohesive, statewide system, rather than creating parallel systems. The SEA may help distribute grants to schools, help the entity run the grant competition, or provide guidance to support the peer review requirement in the law. In addition, should a charter school support organization administer the grant, nothing in this bill shall be interpreted to grant the charter school support organization any authority over authorized public chartering agencies.

H.R. 5 includes a clear listing of assurances, priorities, and selection criteria for awarding charter school grants, which will improve charter schools, improve access to high-quality charter schools, and expand the availability of high-quality charter schools as an integral component of state public school systems. For example, grantees will ensure charter schools actively participate in decisions about the public school system, providing charter schools as public schools the same voice in decisions affecting the schools and their students as traditional public schools. The Committee believes this important change is an opportunity to share best practices between all public schools and ensure all schools have an equal voice in the public school system. An assurance each charter school has a high level of autonomy, particularly over budgets and all operations (including personnel) will also ensure the schools can be innovative in responding to the needs of the community. Additionally, the bill includes a selection priority for state entities in states that maximize the flexibility of their charter school statute to foster innovation and support quality charter schools.

The legislation incentivizes states to support more high-quality charter schools that meet the needs of the local community. Provisions supporting the elimination of caps on students or schools will help get funds to states that can open new schools. The bill includes a priority for those states that have more than one state-

wide authorizer, or an appeals process if the only local authorizer is the local educational agency. The Committee believes this will ensure charter schools are not held hostage to the traditional public school system that sees charter schools as competition, rather than an enhancement to the public school system. The Committee believes these provisions will help charter schools better serve students, including students with disabilities and English learners.

The Student Success Act removes language in current law that impedes the effective use of subgrants for start-up costs, and instead permits funds to be used for appropriate activity related to opening and preparing to operate a new charter school. The Committee believes this language will ensure charter schools can use funds for any non-sustained costs, including costs not permitted under current law. For example, transportation outlays such as a school bus, initial personnel costs, and building renovations and improvements to meet code would be permitted under this language. H.R. 5 also requires all subgrantees submit planned expenditures for the life of the grant and demonstrate the financial sustainability of each charter school receiving program funds following the grant period.

The Committee believes responsible reporting requirements are an important tool for evaluating the success of grantees in fulfilling the purpose of the program. The Act requires grantees to report to the Secretary of Education at the end of the third year of the five-year grant period. The information submitted to the Secretary on the number of students served during each year of the grant period should be reported by subgrant, but this stipulation is not intended to create any increased burdens for the schools participating in the program.

The legislation consolidates the existing credit enhancement program and the state facilities aid program to streamline the law. The requirement to reserve 12.5 percent of the total appropriated funds ensures there are funds sufficient to award more than one grant each year under the credit enhancement program. This program helps charter schools access credit to obtain or renovate facilities to open the school. The legislative changes made to this provision increase the administrative reservation to 2.5 percent of each grant to ensure the grantee can reach out to, serve, and properly monitor charter schools assisted under the grant. The bill also increases the flexibility in awarding grants under the credit enhancement program to ensure the best grantees are receiving federal funds.

The Student Success Act updates the national activities provisions to allow the Secretary of Education to run a competition for charter schools wanting to open in states that did not win or compete for a state grant. Additionally, the legislation authorizes the Secretary to run a competition for Charter Management Organizations (CMOs), targeted to those having a proven record of success increasing academic achievement for students, operating and managing a network of schools, and partnering with states and districts to turn around chronically low-performing schools, and not simply to open new schools. These competitions will ensure students are not left behind in states that have not demonstrated the leadership to support charter schools. Successful CMOs can thoughtfully rep-

licate and expand high-quality charter school models, approved by individual states in accordance with state laws.

It is the Committee's expectation the Secretary will assess the quality of applicants in the same manner as in the state competition and will consider their demonstrated track record of opening high quality schools serving a high percentage of economically disadvantaged students, and the application requirements will reflect this purpose of the program. The Secretary will also be required to offer technical assistance to maximize the impact of the funds. The Secretary will disseminate best practices to help all public schools benefit from the success of charter schools. Finally, the Secretary will be required to conduct an evaluation measuring the effectiveness of the program on charter schools, including student achievement. A rigorous evaluation is critical to determining whether the program has been successful in meeting its purpose of supporting high-quality charter schools.

#### *Family Engagement Centers*

The Student Success Act authorizes Statewide Family Engagement Centers as a replacement for the existing Parental Information Resource Centers. This revised program is intended to help strengthen family engagement through assistance to states, school districts, teachers, and families. The changes to the program will strengthen outcomes and continue critical direct services to families to help them support their children's education, while sharing best practices with schools. This will ensure states and school districts are equipped with the proper tools to partner with parents to increase student learning. The Committee believes sharing proven models amongst practitioners and providing effective direct services will support parents in helping their children find success in the classroom.

#### *Local Academic Flexible Grant*

In hearings, roundtables, and meetings around the country, Committee members have heard from countless state and local school officials asking Congress to remove barriers to spending and let local officials spend federal funds on problems they know exist, rather than spending money on Washington priorities that do not benefit their schools or districts. At a March 1, 2011, hearing entitled "Education Regulations: Weighing the Burden on Schools and Students," Edgar Hatrick, Loudon County (VA) Public Schools Superintendent, stated navigating the burdensome rules and reporting requirements of the more than 80 federal programs often results in "resources being diverted from the mission of teaching and learning." In a letter sent in support of a program elimination bill (H.R. 1891, the Setting New Priorities in Education Spending Act, the Committee passed in the 112th Congress, Michael Casserly, Executive Director of the Council of Great City Schools, wrote, "[A]n array of small grant programs contributes little to the academic attainment necessary for national competitiveness nor helps overcome the achievement gaps that serve as a persistent barrier to educational and economic opportunity."

H.R. 5 consolidates most federal elementary and secondary education programs—many of which have conflicting eligibility and other requirements—into a new Local Academic Flexible Grant

that will provide unprecedented flexibility to states and school districts in using federal funds. Instead of determining the priorities for states and school districts, the legislation allows school officials to decide what funding is needed to support programs and projects they believe will increase student academic achievement, including those programs focused on 21st century skills.

The Committee strongly believes the new Local Academic Flexible Grant will provide states and school districts with true flexibility to support innovative approaches to reforming public education. Rather than funding programs like Race to the Top, which awards funds to the few states willing to adopt numerous federal requirements, or Investing in Innovation (i3), which artificially limits participation to only non-profit entities, this new grant will provide a certain funding stream to states and school districts in need of additional assistance to support initiatives that will help improve student learning.

Under the new program, states will receive funding through a formula and offer competitive grants to school districts, in partnership with nongovernmental entities, to support programs or projects that provide supplemental student support activities (e.g., tutoring or after-school programs) or student-focused activities (e.g., extended learning time programs, parent engagement, or specific academic subject initiatives). The funds can also be used to improve student safety, which is an important part of improving academic achievement. The Committee also expects many school districts will use funds to support various STEM initiatives, including expanding the availability of computer science. The Committee recognizes the importance of STEM education, including computer science education, to the future competitiveness of the American workforce. Unlike most federal programs concerned solely with compliance with federal requirements, the Local Academic Flexible Grant is focused solely on student outcomes. The only requirements for the use of funds are that the program or project will increase student academic achievement and is allowed under state law.

#### *Private Sector Engagement*

H.R. 5 requires states to reserve 10 percent of their Local Academic Flexible Grant to award grants to nongovernmental entities, including businesses and community-based organizations, to support important and innovative programs outside of the public school system that will benefit students in public schools. These grants could be awarded to museums that offer interesting science programs or companies that provide students with real-world applications of classroom material. Under the program, nongovernmental entities will be required to provide a 50 percent match and the project must help increase academic achievement. The intent of this program is to acknowledge the public school system does not have a monopoly on student learning and outside entities can bring great value to students' academic success.

#### *Statewide Activities*

H.R. 5 authorizes states to reserve 15 percent of funds from the Local Academic Flexible Grant, before grants are awarded to school districts or nongovernmental entities, for statewide activities. Through these funds, states can support the development and im-

plementation of academic assessments required under Title I. The remaining funds set aside at the state level can be used to administer the program, support statewide activities to increase academic achievement, and share among school districts best practices of programs and projects that have proven successful for students.

### *Afterschool Programs*

Afterschool programs are important to keep young people safe, engage children in enriching activities, and help parents during the hours when they are at work. According to the results of the 2014 America After 3PM national research survey of over 30,000 households which asked families how their children spend their hours after school, more than 800,000 elementary school students and 2.2 million middle school students spend time alone and unsupervised during the after school hours. In all, 11.3 million school age children—one in five—are unsupervised in the afternoons. Participation in afterschool programs spans income levels, ethnicity and gender, but unmet demand for afterschool is much higher among children from low-income households compared to higher-income households, and higher among African American and Hispanic children than white children. Afterschool programs not only keep young people safe, they also help improve students' academic performance, school attendance and behavior and health. Given the evidence base for afterschool and summer learning programs, the Committee recognizes that afterschool and summer learning programs are valuable to help ensure the success of young people in both academics and life.

### *Impact Aid*

Title IV of H.R. 5 reauthorizes and strengthens the existing Impact Aid program, which provides direct funding to school districts impacted by the presence of the federal government. The program reimburses districts located near, or serving students from, military bases, federal lands, and Indian reservations for the loss of property taxes. The Committee believes the federal government has a fundamental responsibility to compensate school districts impacted by the presence of the federal government to ensure they have adequate resources to provide their students with a quality education. Many of the bill's provisions were included in the FY 2013 National Defense Authorization Act and expire in early 2018. The legislation makes such provisions permanent.

The legislation updates the formula by which school district allotments are determined for a district with federal property located within its boundaries that cannot be taxed. The new formula includes two parts. First, an eligible school district will receive a foundation, or base payment, based on either 90 percent of the payment most recently received (FY 2009) or 90 percent of the average payment received from FY 2006–2009, whichever is higher. Second, the district will get an additional payment using a calculated per acre value. The Committee notes the Student Success Act reauthorizes Payments for Federal Property and rejects the Obama administration's budget request to eliminate this important program which provides critical resources to school districts that lack revenue due to federal ownership of land.

H.R. 5 streamlines provisions for heavily impacted school districts, which are districts with high percentages of military, Native American, or other federally-connected children. The legislation standardizes eligibility criteria for these districts at 45 percent enrollment of federally connected children, bases per pupil expenditure eligibility requirements on state average expenditures rather than national average expenditures, and maintains the tax rate requirement for eligible districts of at least 95 percent of the average tax rate for general fund purposes of comparable districts in the state. The bill also allows federally-connected children to be counted in enrollment numbers in the case of open enrollment policies in a state but does not allow children to be counted if they are enrolled in a distance education program located outside the boundaries of the district.

H.R. 5 also provides equal prorated payments greater than 100 percent of the “learning opportunity threshold” for eligible districts. The language allows school districts to continue to count children who have been relocated off-base due to renovation, rebuilding, or demolition after three years if the district continues to serve such children because of project delays, and the language simplifies the annual process for counting these children.

Finally, the bill requires the Secretary to provide Impact Aid payments within three years. The Committee has included the timely payment language to address long-standing school district concerns regarding the lack of on-time payments from the U.S. Department of Education. The Committee expects the proposed changes to payments for federal property to significantly reduce the delays school districts are currently experiencing and urges the department to set a goal of providing timely payments more quickly than called for under this legislation.

#### *General Provisions*

H.R. 5 amends Title IX of current law and moves those provisions to Title VI of the Act. The bill addresses the following significant issues:

#### *Definitions*

*Graduation Rate:* In 2005, all 50 of the nation’s governors agreed to a common definition for calculating high school graduation rates. The rate is determined by the number of entering ninth graders divided by the number of graduating twelfth graders four years later. States are also allowed to report on an extended year rate, encompassing those students that need an additional one or two years to graduate high school. In 2010, Mr. John Thomasian, Director of the National Governors Association Center for Best Practices, stated, “Governors agreed to use a more consistent and accurate graduation rate formula because they understand that better information on student outcomes is critical for ensuring that all students graduate from high school prepared for college, work, and life.” States have been using this common definition since the 2010–2011 school year.

H.R. 5 codifies this approach by defining the terms “four-year adjusted cohort graduation rate” and “extended-year adjusted cohort graduation rate.” States will be required to report the four year rate and will be allowed to report the extended year rate to the

public. The Committee believes the new definition will allow students, school leaders, parents, and lawmakers to have accurate and reliable information about high school and student performance.

*Technology:* H.R. 5 redefines the term “technology” to include the use of the Internet, computer devices, software applications, and data systems, among other modern information tools, in order to reflect technology’s role in a 21st century economy. Throughout the Student Success Act, states and school districts are given flexibility to use technology in delivering academic assessments, professional development, distance education, and curriculum. The infusion of technology provides timely results to educators and parents, coursework that is dynamic and engaging, and personalized instruction to meet individual students’ needs. The definition should reflect its modern uses.

#### *Waiver Authority*

H.R. 5 clarifies and limits the Secretary of Education’s authority to issue waivers of the statutory and regulatory requirements of the ESEA. Unlike current law, the Student Success Act is clear the Secretary may not add, impose, or require any condition outside of complying with the law in exchange for granting a waiver.

In a September 23, 2011, letter to chief state school officers, the Secretary announced the department would grant waivers from certain requirements of NCLB. He stated, “This voluntary opportunity will provide educators and state and local leaders with flexibility regarding specific requirements of NCLB in exchange for rigorous and comprehensive state-developed plans designed to improve educational outcomes for all students, close achievement gaps, increase equity, and improve the quality of instruction” (emphasis added).

Since February 2012, the Secretary has granted 45 states and the District of Columbia conditional waivers in exchange for adopting the department’s preferred mandates, including in most cases the adoption of the Common Core State Standards. The state of Washington has seen its waiver revoked. The legality of this approach to conditional waivers has been questioned by outside legal experts, including former Department of Education General Counsel Kent Talbert and former Deputy General Counsel Robert Eitel, in a February 2012 report from the Pioneer Institute entitled “The Road to A National Curriculum: The Legal Aspects of the Common Core Standards, Race to the Top, and Conditional Waivers.” Additionally, in a February 2012 report entitled “Educational Accountability and Secretarial Waiver Authority Under the ESEA,” the nonpartisan Congressional Research Service cited the broad nature of the conditions the Secretary imposed on states and school districts as a reason the proposed waivers may not survive a court challenge.

The Committee believes the Secretary should have the authority to provide waivers of certain statutory and regulatory requirements to states and school districts affected by unexpected and unforeseen circumstances or to implement important reforms to improve student achievement. In continuing this waiver authority, it is not the intent of the Committee to prohibit the Secretary from waiving provisions of law when necessary. The Student Success Act maintains important provisions authorizing the Secretary to provide flexibility

to states and districts, but it properly prohibits the Secretary from using the waiver authority to place new mandates or requirements on states and school districts in exchange for that flexibility, including an explicit prohibition against the Secretary encouraging adoption of the Common Core State Standards.

#### *Prohibitions on Federal Control*

H.R. 5 consolidates various prohibitions included in current law to restrict the authority of the U.S. Department of Education, and it strengthens and clarifies the prohibitions to ensure the limits of the Secretary of Education and federal government are clear. The bill specifically prohibits the Secretary from establishing a national curriculum, supporting a national test for students, or requiring particular academic standards, whether directly or indirectly through grants or other means.

The Committee believes it is clear the role of the federal government is and should be limited in nature. Prohibitions included in the General Education Provisions Act, the Department of Education Organization Act, and ESEA restrict the Secretary and other federal employees from mandating, directing, or controlling a state, school district, or school's curriculum or instructional programs. ESEA also includes prohibitions on federal approval or certification of academic standards and on developing and testing, implementing, administering, or distributing national tests in any subject. Despite these provisions, the Secretary has taken unprecedented steps to coerce states into adopting the Common Core State Standards in exchange for a state waiver from unruly accountability requirements or in order to apply for competitive funding through Race to the Top.

As stated previously, to rein in the Secretary and restore state and local control, H.R. 5 explicitly prohibits the Secretary from requiring adoption of particular standards, "including the Common Core State Standards as developed by the Common Core State Standards Initiative." Such prohibitions extend to the Secretary's involvement in what partnerships a state forms and what assessments a state chooses to use. Unfortunately, this administration has created holes in the federal law that do not exist. Accordingly, explicitly clarifying these prohibitions is critical to ensuring the Secretary and U.S. Department of Education bureaucrats cannot willfully misinterpret the intent of the bill. The Secretary shall not involve himself in state and local decisions.

#### *Protections for State and Local Autonomy*

H.R. 5 redesignates other important sections of current law to fit within the new configuration of Title VI. The redesignated sections include: By-Pass Determination Process; Prohibition Against Funds for Religious Worship or Instruction; Private, Religious, and Home Schools; Prohibition Regarding State Aid; Privacy of Assessment Results; School Prayer; Equal Access to Public School Facilities; Prohibition on Nationwide Database; Prohibition on Discrimination; and Civil Rights. The Committee strongly supports these protections and requirements, believes they should remain a strong part of the law, and urges the U.S. Department of Education to fully implement and enforce such provisions.

*Curtailling Excessive Regulations*

The proliferation of federal regulations with which states and school districts must comply has grown over the last three decades, placing an overwhelming burden on schools that takes away their focus on educating our nation's students. The Committee has held numerous hearings to examine the issue in greater detail. One witness, Dr. Robert P. Grimesey, Jr., the Superintendent of Orange County Public Schools in Virginia, explained the problem in testimony at a March 15, 2011, hearing on "Education Regulations: Burying Schools in Paperwork," stating:

The vast majority of rural school superintendents and school board members understand and respect the need for reasonable accountability and transparency as we receive and invest federal dollars. However we believe that there is much that is *not* reasonable about the ever-expanding nature of many federal obligations. We also see a need for streamlined collaboration between [the U.S. Department of Education] and the [state educational agencies] in the articulation of data reporting requirements. Ultimately, many well-intended federal regulations are creating a 'culture of compliance' that leads to a local fear of failure. Such a context makes federal compliance an end in itself. For localities at the end of this regulatory food chain, it becomes very difficult to maintain our focus on the achievement and welfare of our children.

H.R. 5 begins to address this over-regulation of the education system. The bill rewrites the regulatory process the Secretary of Education must follow in issuing new regulations, including providing for longer review periods for public comment, implementing a new review period for Congress, requiring the Secretary calculate the proposed regulatory burden prior to the regulation being made final, and requiring old and duplicative regulations be repealed. This new process will help reduce excessive federal regulation on states, school districts, principals, and teachers; prevent the Secretary from compounding the burden of federal regulations already on the books; and ensure stakeholders have ample time to raise concerns with proposed regulations and to request they be addressed accordingly before the regulations are finalized.

*Military Recruiters*

School districts receiving funds under the ESEA are required to provide military recruiters the same access to high schools as well as basic student contact information that is provided to colleges, universities, and other recruiters. These provisions are in place so the nation's military recruiters are able to work with students to make sure they are aware of the benefits of joining the military upon graduation and are able to weigh that career option.

Unfortunately, some school districts have tried to limit access to military recruiters and/or establish additional barriers that do not exist for colleges and universities or other prospective employers. The Student Success Act includes new language in this long-standing section clarifying that parents (or students once they have turned 18) can opt-out of having student information shared with military recruiters, but the school district cannot implement an

opt-in provision. The Committee strongly urges all school districts in the country to institute policies that will provide prospective graduates with all of their postsecondary options, including the ability to enroll in the Armed Forces. States and school districts should understand it is against federal law to place military recruiting at a disadvantage to other prospective post-high school opportunities.

#### *Reducing Federal Bureaucracy*

H.R. 5 requires the Secretary of Education to eliminate those staff positions associated with programs eliminated or consolidated under the bill. Under the provision, the Secretary will have two months to identify the number of full time equivalent employees who work on or administer the eliminated programs, and the Secretary will have one year to reduce the department's workforce by that number.

#### *Spending Reduction Reports*

H.R. 5 requires the Secretary of Education, through the Institute of Education Sciences, to contract with an economist with expertise in workforce and government efficiency issues to produce an annual report examining the reduced need for federal spending commensurate with the reduced mandates in the Student Success Act. The report would include recommendations for those spending reductions and would be submitted to the House and Senate Budget and Appropriations Committees, the House Education and the Workforce Committee, and the Senate Health, Education, Labor, and Pensions Committee.

#### *Providing Services for Homeless Students*

H.R. 5 reauthorizes the Education for Homeless Children and Youths program of the McKinney-Vento Homeless Assistance Act, the primary federal law that provides funding to states and school districts to educate homeless children and youth. The bill places a greater emphasis on improved identification of homeless children and youth and provides better collaboration and information sharing among federal and state agencies to provide services for homeless students. The legislation strengthens provisions in current law to provide greater school stability and protections for homeless youth and parents, ensuring designated homeless liaisons in the school district inform parents of all rights available to them under the law and have the opportunity to receive professional development around the specific needs of homeless youth.

#### *Conclusion*

Every child in every school deserves an excellent education. Unfortunately, our nation continues to fall far short of reaching that goal. The Committee is pursuing a new approach to education by reforming the federal role in elementary and secondary education. The federal government is too involved in our nation's classrooms, and states and school districts should bear the primary responsibility for public education. The Committee aims to rein in the U.S. Department of Education, which has shown in the last six years an unprecedented appetite for expanding the federal government's reach. The Student Success Act rolls back federal bureaucratic re-

quirements and regulations, and the bill eliminates and consolidates ineffective and duplicative federal education programs to help get the federal deficit and debt under control. The Committee's efforts will empower parents and education leaders to address unacceptable achievement gaps, provide additional educational options to parents and students, and successfully prepare students for a lifetime of opportunity and success.

Provides funding allotments and grants to support charter schools, along with objectives and requirements of schools receiving such funds.

*Subpart 2—Magnet School Assistance:* Explains the general requirements for magnet school assistance with the purpose of assisting in the desegregation of schools, with a priority being given to those schools (1) demonstrating the greatest need, (2) proposing new programs, (3) selecting students by means other than academic selection (such as by lottery), and (4) proposing to serve the entire student population.

*Subpart 3—Family Engagement in Academic Programs:* Outlines the purposes of the subpart in line with the Act and authorizes Statewide Family Engagement Center grants to carry out parent education and family engagement programs.

*Part B—Local Academic Flexible Grant*

Replaces Title V with Title VII renamed, “Federal Government’s Trust responsibility to American Indian, Alaska Native, and Native Hawaiian Education.” Specifically, updates the purpose of the title to reflect language found elsewhere in the Act and removes a main purpose of providing direct assistance for research, evaluation, data collection, and technical assistance.

Updates Formula Grants to Local Educational Agencies and Tribes, organizations, and consortia. States minimum grant awards should be no less than \$3,000, or no more than \$4,000 if the Secretary determines an increase is necessary to ensure quality of the funded programs, and each awardee is based upon a successful application. Outlines authorized services and activities for which the funds shall be used for and explains payments and times of when children shall be counted for funding and eligibility purposes. Allows for other special grant awards for a variety of services, professional development for teachers and education professionals, administrative planning and development, and funds to be used for national research activities.

Includes the Alaska Native Educational Equity, Support, and Assistance Act, which authorizes grants and contracts with Alaska Native organizations, educational agencies, and entities with experience in developing educational programs geared toward Alaska Natives, in order to serve those children.

*Section 702—Grants for State and Local Activities for the Education of Homeless Children and Youths*

## CORRESPONDENCE

Exchange of letters with the Committee on Financial Services.

U.S. HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FINANCIAL SERVICES,  
*Washington, DC, February 19, 2015.*

Hon. JOHN KLINE,  
*Chairman, Committee on Education and the Workforce,*  
*Washington, DC.*

DEAR CHAIRMAN KLINE: On February 11, 2015, the Committee on Education and the Workforce ordered H.R. 5, the Student Success Act, as amended, to be reported favorably to the House. As a result of your having consulted with the Committee on Financial Services concerning provisions of the bill that fall within our Rule X jurisdiction, I agree to discharge our committee from further consideration of the bill so that it may proceed expeditiously to the House Floor.

The Committee on Financial Services takes this action with our mutual understanding that, by foregoing consideration of H.R. 5, as amended, at this time, we do not waive any jurisdiction over the subject matter contained in this or similar legislation, and that our committee will be appropriately consulted and involved as the bill or similar legislation moves forward so that we may address any remaining issues that fall within our Rule X jurisdiction. Our committee also reserves the right to seek appointment of an appropriate number of conferees to any House-Senate conference involving this or similar legislation, and requests your support for any such request.

Finally, I would appreciate your response to this letter confirming this understanding with respect to H.R. 5, as amended, and would ask that a copy of our exchange of letters on this matter be included in your committee's report to accompany the legislation and/or in the Congressional Record during floor consideration thereof.

Sincerely,

JEB HENSARLING,  
*Chairman.*

---

U.S. HOUSE OF REPRESENTATIVES,  
COMMITTEE ON EDUCATION AND THE WORKFORCE,  
*Washington, DC, February 19, 2015.*

Hon. JEB HENSARLING,  
*Chairman, Committee on Financial Services,*  
*U.S. House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: Thank you for your letter regarding the Committee on Financial Services jurisdictional interest in H.R. 5, Student Success Act, as amended. I appreciate your willingness to forgo further consideration of H.R. 5 by your committee.

I agree the Committee on Financial Services has a valid jurisdictional interest in certain provisions of H.R. 5 and the committee's jurisdiction will not be adversely affected by your decision to forgo further consideration of the bill. Your committee will be appropriately consulted and involved as this or similar legislation moves

forward. As you have requested, I will include a copy of your letter and this response in the committee report for H.R. 5 and in the Congressional Record during the Floor consideration of this bill. As always, thank you for our cooperation.

Sincerely,

JOHN KLINE,  
*Chairman.*

#### STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

In accordance with clause (3)(c) of House rule XIII, the goals of H.R. 5 are to reduce the federal footprint and restore local control of education, while empowering parents and education leaders to hold schools accountable for effectively teaching students.

#### DUPLICATION OF FEDERAL PROGRAMS

No provision of H.R. 5 establishes or reauthorizes a program of the Federal Government known to be duplicative of another Federal program, a program that was included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111–139, or a program related to a program identified in the most recent Catalog of Federal Domestic Assistance.

#### DISCLOSURE OF DIRECTED RULE MAKINGS

The committee estimates that enacting H.R. 5 does not specifically direct the completion of any specific rule makings within the meaning of 5 U.S.C. 551.

#### STATEMENT OF OVERSIGHT FINDINGS AND RECOMMENDATIONS OF THE COMMITTEE

In compliance with clause 3(c)(1) of rule XIII and clause 2(b)(1) of rule X of the Rules of the House of Representatives, the committee's oversight findings and recommendations are reflected in the body of this report.

#### NEW BUDGET AUTHORITY AND CBO COST ESTIMATE

With respect to the requirements of clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974 and with respect to requirements of clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 402 of the Congressional Budget Act of 1974, the committee has received the following estimate for H.R. 5 from the Director of the Congressional Budget Office:

U.S. CONGRESS,  
CONGRESSIONAL BUDGET OFFICE,  
*Washington, DC, February 18, 2015.*

Hon. JOHN KLINE,  
*Chairman, Committee on Education and the Workforce,*  
*U.S. House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 5, the Student Success Act.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Justin Humphrey.

Sincerely,

DOUGLAS W. ELMENDORF

Enclosure.

*H.R. 5—Student Success Act*

Summary: H.R. 5 would amend and reauthorize the Elementary and Secondary Education Act of 1965 (the ESEA, commonly referred to, in its most recently reauthorized form, as No Child Left Behind). The underlying authorizations for those programs have expired, although most have continued to receive appropriations since their authorizations have expired.

This bill would authorize funding through fiscal year 2021 for various grant programs; those authorizations would automatically be extended one year, through 2022, under the General Education Provisions Act. The bill also would amend and reauthorize the McKinney-Vento Homeless Assistance Act, which authorizes grants to assist in the education of homeless children,

CBO estimates that H.R. 5 would authorize the appropriation of \$23.3 billion in 2016 and \$116.5 billion over the 2016–2020 period. Implementing the bill would have discretionary costs of \$87.7 billion over the 2016–2020 period, assuming appropriation of the specified and estimated amounts.

Enacting the bill would have no effect on direct spending or revenues; therefore, pay-as-you-go procedures do not apply.

H.R. 5 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA).

Estimated Cost to the Federal Government: The estimated budgetary impact of the bill is shown in the following table. The costs of this legislation fall within budget function 500 (education, training, employment, and social services).

Notes: Some programs have received advance appropriations for fiscal year 2016; those amounts are not reflected in the table. Instead, the table shows the additional funding that would be authorized for 2016.

Components may not sum to totals because of rounding.

**Basis of Estimate:** For this estimate, CBO assumes that the bill will be enacted before the start of fiscal year 2016, that the specified and estimated amounts will be appropriated each year, and that spending will follow historical patterns for the affected programs.

CBO estimates that H.R. 5 would authorize the appropriation of \$23.3 billion in fiscal year 2016 and \$116.5 billion over the 2016–2020 period. Implementing the provisions in the bill would cost about \$87.7 billion over the 2016–2020 period and an additional \$52 billion after 2020, assuming appropriation of the specified and estimated amounts. The Congress appropriated about \$23 billion in fiscal year 2015 for activities similar to those that would be authorized in this bill.

#### *Title I of ESEA—Aid to local educational agencies*

Title I of H.R. 5 would replace title I of the current ESEA. The bill would authorize the appropriation of \$16.2 billion for each of fiscal years 2016 through 2021 for activities in part A such as grants for rural school districts and those with high proportions of low-income students, as well as funding for the children of migrant workers and other at-risk children and students learning English. Part B would authorize the appropriation of less than \$1 million each year for studies to assess the effectiveness of title I. CBO estimates that implementing title I would cost about \$61 billion over the 2016–2020 period, subject to appropriation of the authorized amounts.

Specifically, the funding authorized by H.R. 5 would support programs in five new subparts in part A and the assessments under part B:

- **Improving Basic Programs Operated by Local Educational Agencies.** The bill would amend provisions governing grants to local educational agencies, reauthorize funding for those grants, and reserve 91.4 percent of all the funding provided for part A for those grants (approximately \$14.9 billion in each fiscal year). CBO estimates that implementing this provision would cost \$55.9 billion over the 2016–2020 period. The Congress appropriated \$14.4 billion for similar activities in fiscal year 2015.

- **Education of Migratory Children.** H.R. 5 would make changes to programs that support the education of children of migrant workers. The bill would reserve about 2.5 percent of the funding for all of part A for those programs (approximately \$400 million per fiscal year). CBO estimates that implementing this provision would

cost \$1.5 billion over the 2016–2020 period. The Congress appropriated \$375 million for similar activities in fiscal year 2015.

- **Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk.** The bill would reauthorize programs that support the education of delinquent and at-risk children and reserve 0.3 percent (about \$50 million) of funding for part A for those activities. CBO estimates that implementing this provision would cost almost \$200 million over the 2016–2020 period. Available funding totaled almost \$50 million for at-risk children for fiscal year 2015.

- **English Language Acquisition, Language Enhancement, and Academic Achievement.** The bill would modify the programs that provide support for teaching the English language to recent immigrants and other nonnative speakers under title III of the ESEA. The bill would reserve 4.6 percent of funding for part A for these activities for each fiscal year (about \$750 million). CBO estimates that implementing this provision would cost about \$2.8 billion over the 2016–2020 period. The Congress appropriated roughly \$740 million for similar activities in fiscal year 2015.

- **Rural Education Achievement Program.** H.R. 5 would modify and reauthorize the rural education achievement programs, which provide grants to assist rural school districts in improving teaching and learning outcomes. The bill would reserve 1.2 percent (almost \$200 million each fiscal year) of the total amount provided for part A for those programs. CBO estimates that implementing this provision would cost more than \$700 million over the 2016–2020 period. The Congress appropriated about \$170 million for similar activities in fiscal year 2015.

- **National Assessments.** H.R. 5 would modify and reauthorize the programs designed to assess the effectiveness of title I, under part E of title I in the ESEA. The bill would transfer those programs to part B and authorize the appropriation of less than \$1 million for each of fiscal years 2016 through 2020. CBO estimates that implementing this provision would cost \$3 million over the 2016–2020 period, assuming the appropriation of the authorized amounts. Available funding for evaluations under title I totaled less than \$1 million in fiscal year 2015.

#### *Title II of ESEA—Teacher preparation and effectiveness*

H.R. 5 would modify the grant programs designed to support teacher training and improvement under title II of the ESEA and authorize the appropriation of \$2.8 billion for such programs for each of fiscal years 2016 through 2021. The bill would reserve 75 percent of this total each year (about \$2.1 billion) for state grants. H.R. 5 also would replace the current Math and Science Partnership program with the Teacher and School Leader Flexible Grant program and reserve 25 percent of the funding for this title each year for those activities (about \$700 million). CBO estimates that implementing this title would cost about \$9.8 billion over the 2016–2020 period. In fiscal year 2015, the Congress appropriated about \$2.3 billion for state grants and about \$150 million for math and science partnerships.

*Title III of ESEA—Parental Engagement and Local Flexibility*

H.R. 5 would modify the charter and magnet school programs under title V of the ESEA and transfer them to title III of the ESEA. It also would authorize two grant programs designed to encourage parental engagement in their children's education and authorize additional funding to support supplemental learning activities for students. The bill would authorize the appropriation of about \$2.7 billion for each of fiscal years 2016 through 2021. Assuming the appropriation of the specified amounts, CBO estimates that implementing those provisions would cost \$9.6 billion over the 2016–2020 period.

Specifically, the title would authorize the following activities:

- **Charter School Program.** H.R. 5 would modify the Charter School Program and the Credit Enhancement for Charter School Initiatives and would authorize the appropriation of \$300 million for each of fiscal years 2016 through 2021. CBO estimates that implementing this provision would cost \$1.1 billion over the 2016–2020 period. In 2015, the Congress appropriated about \$250 million for the Charter School Program (no funding was provided for Credit Enhancement for Charter School Initiatives).

- **Magnet School Assistance.** H.R. 5 would modify the Magnet School Program and would authorize the appropriation of more than \$90 million for each of fiscal years 2016 through 2021. CBO estimates that implementing this provision would cost about \$320 million over the 2016–2020 period, assuming appropriation of the specified amounts. The Congress appropriated \$90 million for magnet schools in 2015.

- **Family Engagement in Education Programs.** The bill also would authorize the appropriation of \$25 million in each of fiscal years 2016 through 2021 for the Family Engagement in Education Programs, which would be similar to the Parental Assistance and Local Family Information Centers in title V of ESEA. CBO estimates that implementing this provision would cost about \$90 million over the 2016–2020 period. No funding was provided for Parental Assistance and Local Family Information Centers in fiscal year 2015.

- **Local Academic Flexible Grant.** Finally, H.R. 5 would authorize a new grant program that would provide funds to school districts to develop supplemental student activities, such as before- or after-school learning, and additional activities that support students, such as adjunct teacher programs and academic-subject-specific programs. The bill would authorize the appropriation of \$2.3 billion for each of fiscal years 2016 through 2021. CBO estimates that implementing this program would cost \$8.1 billion over the 2016–2020 period, assuming appropriation of the specified amounts.

*Title IV of ESEA—Impact Aid*

Title IV of the bill would amend the impact aid programs that provide funding to assist local education agencies (LEAs) affected by the activities of the federal government, such as those on a military base or Indian reservation. The bill would authorize the appropriation of \$1.3 billion in each of fiscal years 2016 through 2021. CBO estimates that implementing this title would result in discretionary costs of \$6.2 billion over the 2016–2020 period, assuming the appropriation of the authorized amounts. The bulk of that

spending (about \$5.8 billion), would be for basic support payments to LEAs to assist in the education of children in areas affected by federal activities. The other \$400 million would be used to construct and maintain schools that educate children in such areas. The Congress appropriated almost \$1.3 billion for impact aid in 2015.

*Title V of ESEA—The Federal Government's Trust Responsibility to American Indian, Alaska Native, and Native Hawaiian Education*

The bill would reauthorize and modify grant programs for American Indians, Alaska Natives, and Native Hawaiians. The bill would authorize the appropriation of about \$200 million for fiscal years 2016 through 2021 for those programs. CBO estimates that implementing this provision would cost almost \$760 million over the 2016–2020 period; of that total, about \$500 million would be spent on education programs for American Indians and about \$130 million would be spent for each of the programs for Alaska Natives and Native Hawaiians. The Congress appropriated about \$190 million for those programs in fiscal year 2015.

*Title VI of ESEA—General provisions*

Title VI would amend the general provisions specified under current law in title IX of the ESEA. The bill would require that, within one year of enactment, the Department of Education reduce its workforce by the number of full-time-equivalent (FTE) employees who work in or administer programs that would be eliminated by this bill. CBO estimates that implementing title VI would reduce the numbers of FTE employees by between 15 and 25 each year and would reduce discretionary spending by \$10 million over the 2016–2020 period, assuming appropriation actions consistent with the bill.

*Title VII—Homeless Education*

Title VII would reauthorize the McKinney-Vento Homeless Assistance Act, which authorizes grants to states to assist in the education of homeless children. The bill would authorize the appropriation of \$65 million for each of fiscal years 2016 through 2021. CBO estimates that implementing this title would cost about \$250 million over the 2016–2020 period, assuming the appropriation of the specified amounts. The Congress appropriated \$65 million for the education of homeless children in fiscal year 2015.

Pay-As-You-Go Considerations: None.

Intergovernmental and Private-Sector Impact: H.R. 5 contains no intergovernmental or private-sector mandates as defined in UMRA and would impose no costs on state, local, or tribal governments. Those governments would benefit from grants authorized in the bill for elementary and secondary education. Any costs associated with the grants would be incurred voluntarily as a result of complying with conditions of federal assistance.

Estimate Prepared by: Federal Costs: Justin Humphrey; Impact on State, Local, and Tribal Governments: J'neil Blanco Suchy; Impact on the Private Sector: Amy Petz.

Estimate Approved by: Peter H. Fontaine, Assistant Director for Budget Analysis.

## COMMITTEE COST ESTIMATE

Clause 3(d)(1) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison of the costs that would be incurred in carrying out H.R. 5. However, clause 3(d)(2)(B) of that rule provides that this requirement does not apply when the committee has included in its report a timely submitted cost estimate of the bill prepared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act.

**SEC. 1003A. DIRECT STUDENT SERVICES.**

(a) *STATE RESERVATION.*—Each State shall reserve 3 percent of the amount the State receives under chapter B of subpart 1 of part A for each fiscal year to carry out this section. Of such reserved funds, the State educational agency may use up to 1 percent to administer direct student services.

(c) *AWARDS.*—The State educational agency shall award grants to geographically diverse local educational agencies including suburban, rural, and urban local educational agencies. If there are not enough funds to award all applicants in a sufficient size and scope to run an effective direct student services program, the State shall prioritize awards to local educational agencies with the greatest number of students with disabilities, neglected, delinquent, migrant students, English learners, at-risk students, and Native Americans, to increase academic achievement of such students.

(d) *LOCAL USE OF FUNDS.*—A local educational agency receiving an award under this section—

(1) shall use up to 1 percent of each award for outreach and communication to parents about their options and to register students for direct student services;

(2) may use not more than 2 percent of each award for administrative costs related to direct student services; and

(3) shall use the remainder of the award to pay the transportation required to provide public school choice or the hourly rate for high-quality academic tutoring services, as determined by a provider on the State-approved list required under subsection (f)(2).

(e) *APPLICATION.*—A local educational agency desiring to receive an award under subsection (b) shall submit an application describing how the local educational agency will—

(4) determine the requirements or criteria for student eligibility for direct student services;

(5) select a variety of providers of high-quality academic tutoring from the State-approved list required under subsection (f)(2) and ensure fair negotiations in selecting such providers of high-quality academic tutoring, including online, on campus, and other models of tutoring which provide meaningful choices to parents to find the best service for their child; and

(6) develop an estimated per pupil expenditure available for eligible students to use toward high-quality academic tutoring which shall allow for an adequate level of services to increase academic achievement from a variety of high-quality academic tutoring providers.

(f) PROVIDERS AND SCHOOLS.—The State—

(1) shall ensure that each local educational agency receiving an award to provide public school choice can provide a sufficient number of options to provide a meaningful choice for parents;

(2) shall compile a list of State-approved high-quality academic tutoring providers that includes online, on campus, and other models of tutoring; and

***PART A—IMPROVING THE ACADEMIC ACHIEVEMENT OF THE DISADVANTAGED***

**Subpart 1—[Basic Program Requirements] *Improving Basic Programs Operated by Local Educational Agencies***

***CHAPTER A—BASIC PROGRAM REQUIREMENTS***

**[SEC. 1111. STATE PLANS.**

**[(a) PLANS REQUIRED.—**

**[(1) IN GENERAL.—**For any State desiring to receive a grant under this part, the State educational agency shall submit to the Secretary a plan, developed by the State educational agency, in consultation with local educational agencies, teachers, principals, pupil services personnel, administrators (including administrators of programs described in other parts of this title), other staff, and parents, that satisfies the requirements of this section and that is coordinated with other programs under this Act, the Individuals with Disabilities Education Act, the Carl D. Perkins Career and Technical Education Act of 2006, the Head Start Act, the Adult Education and Family Literacy Act, and the McKinney-Vento Homeless Assistance Act.

**[(2) CONSOLIDATED PLAN.—**A State plan submitted under paragraph (1) may be submitted as part of a consolidated plan under section 9302.

**[(b) ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS, AND ACCOUNTABILITY.—**

**[(1) CHALLENGING ACADEMIC STANDARDS.—**

**[(A) IN GENERAL.—**Each State plan shall demonstrate that the State has adopted challenging academic content standards and challenging student academic achievement standards that will be used by the State, its local educational agencies, and its schools to carry out this part, except that a State shall not be required to submit such standards to the Secretary.

**[(B) SAME STANDARDS.—**The academic standards required by subparagraph (A) shall be the same academic standards that the State applies to all schools and children in the State.

**[(C) SUBJECTS.—**The State shall have such academic standards for all public elementary school and secondary school children, including children served under this part, in subjects determined by the State, but including at least mathematics, reading or language arts, and (beginning in the 2005–2006 school year) science, which shall include the

same knowledge, skills, and levels of achievement expected of all children.

[(D) CHALLENGING ACADEMIC STANDARDS.—Standards under this paragraph shall include—

[(i) challenging academic content standards in academic subjects that—

[(I) specify what children are expected to know and be able to do;

[(II) contain coherent and rigorous content; and

[(III) encourage the teaching of advanced skills; and

[(ii) challenging student academic achievement standards that—

[(I) are aligned with the State's academic content standards;

[(II) describe two levels of high achievement (proficient and advanced) that determine how well children are mastering the material in the State academic content standards; and

[(III) describe a third level of achievement (basic) to provide complete information about the progress of the lower-achieving children toward mastering the proficient and advanced levels of achievement.

[(E) INFORMATION.—For the subjects in which students will be served under this part, but for which a State is not required by subparagraphs (A), (B), and (C) to develop, and has not otherwise developed, such academic standards, the State plan shall describe a strategy for ensuring that students are taught the same knowledge and skills in such subjects and held to the same expectations as are all children.

[(F) EXISTING STANDARDS.—Nothing in this part shall prohibit a State from revising, consistent with this section, any standard adopted under this part before or after the date of enactment of the No Child Left Behind Act of 2001.

[(2) ACCOUNTABILITY.—

[(A) IN GENERAL.—Each State plan shall demonstrate that the State has developed and is implementing a single, statewide State accountability system that will be effective in ensuring that all local educational agencies, public elementary schools, and public secondary schools make adequate yearly progress as defined under this paragraph. Each State accountability system shall—

[(i) be based on the academic standards and academic assessments adopted under paragraphs (1) and (3), and other academic indicators consistent with subparagraph (C)(vi) and (vii), and shall take into account the achievement of all public elementary school and secondary school students;

[(ii) be the same accountability system the State uses for all public elementary schools and secondary schools or all local educational agencies in the State, except that public elementary schools, secondary schools, and local educational agencies not partici-

pating under this part are not subject to the requirements of section 1116; and

[(iii) include sanctions and rewards, such as bonuses and recognition, the State will use to hold local educational agencies and public elementary schools and secondary schools accountable for student achievement and for ensuring that they make adequate yearly progress in accordance with the State's definition under subparagraphs (B) and (C).

[(B) ADEQUATE YEARLY PROGRESS.—Each State plan shall demonstrate, based on academic assessments described in paragraph (3), and in accordance with this paragraph, what constitutes adequate yearly progress of the State, and of all public elementary schools, secondary schools, and local educational agencies in the State, toward enabling all public elementary school and secondary school students to meet the State's student academic achievement standards, while working toward the goal of narrowing the achievement gaps in the State, local educational agencies, and schools.

[(C) DEFINITION.— “Adequate yearly progress” shall be defined by the State in a manner that—

[(i) applies the same high standards of academic achievement to all public elementary school and secondary school students in the State;

[(ii) is statistically valid and reliable;

[(iii) results in continuous and substantial academic improvement for all students;

[(iv) measures the progress of public elementary schools, secondary schools and local educational agencies and the State based primarily on the academic assessments described in paragraph (3);

[(v) includes separate measurable annual objectives for continuous and substantial improvement for each of the following:

[(I) The achievement of all public elementary school and secondary school students.

[(II) The achievement of—

[(aa) economically disadvantaged students;

[(bb) students from major racial and ethnic groups;

[(cc) students with disabilities; and

[(dd) students with limited English proficiency;

except that disaggregation of data under subclause (II) shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student;

[(vi) in accordance with subparagraph (D), includes graduation rates for public secondary school students (defined as the percentage of students who graduate from secondary school with a regular diploma in the standard number of years) and at least one other aca-

demic indicator, as determined by the State for all public elementary school students; and

[(vii) in accordance with subparagraph (D), at the State's discretion, may also include other academic indicators, as determined by the State for all public school students, measured separately for each group described in clause (v), such as achievement on additional State or locally administered assessments, decreases in grade-to-grade retention rates, attendance rates, and changes in the percentages of students completing gifted and talented, advanced placement, and college preparatory courses.

[(D) REQUIREMENTS FOR OTHER INDICATORS.—In carrying out subparagraph (C)(vi) and (vii), the State—

[(i) shall ensure that the indicators described in those provisions are valid and reliable, and are consistent with relevant, nationally recognized professional and technical standards, if any; and

[(ii) except as provided in subparagraph (I)(i), may not use those indicators to reduce the number of, or change, the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 1116 if those additional indicators were not used, but may use them to identify additional schools for school improvement or in need of corrective action or restructuring.

[(E) STARTING POINT.—Each State, using data for the 2001–2002 school year, shall establish the starting point for measuring, under subparagraphs (G) and (H), the percentage of students meeting or exceeding the State's proficient level of academic achievement on the State assessments under paragraph (3) and pursuant to the timeline described in subparagraph (F). The starting point shall be, at a minimum, based on the higher of the percentage of students at the proficient level who are in—

[(i) the State's lowest achieving group of students described in subparagraph (C)(v)(II); or

[(ii) the school at the 20th percentile in the State, based on enrollment, among all schools ranked by the percentage of students at the proficient level.

[(F) TIMELINE.—Each State shall establish a timeline for adequate yearly progress. The timeline shall ensure that not later than 12 years after the end of the 2001–2002 school year, all students in each group described in subparagraph (C)(v) will meet or exceed the State's proficient level of academic achievement on the State assessments under paragraph (3).

[(G) MEASURABLE OBJECTIVES.—Each State shall establish statewide annual measurable objectives, pursuant to subparagraph (C)(v), for meeting the requirements of this paragraph, and which—

[(i) shall be set separately for the assessments of mathematics and reading or language arts under subsection (a)(3);

[(ii) shall be the same for all schools and local educational agencies in the State;

[(iii) shall identify a single minimum percentage of students who are required to meet or exceed the proficient level on the academic assessments that applies separately to each group of students described in subparagraph (C)(v);

[(iv) shall ensure that all students will meet or exceed the State's proficient level of academic achievement on the State assessments within the State's timeline under subparagraph (F); and

[(v) may be the same for more than 1 year, subject to the requirements of subparagraph (H).

[(H) INTERMEDIATE GOALS FOR ANNUAL YEARLY PROGRESS.—Each State shall establish intermediate goals for meeting the requirements, including the measurable objectives in subparagraph (G), of this paragraph and that shall—

[(i) increase in equal increments over the period covered by the State's timeline under subparagraph (F);

[(ii) provide for the first increase to occur in not more than 2 years; and

[(iii) provide for each following increase to occur in not more than 3 years.

[(I) ANNUAL IMPROVEMENT FOR SCHOOLS.—Each year, for a school to make adequate yearly progress under this paragraph—

[(i) each group of students described in subparagraph (C)(v) must meet or exceed the objectives set by the State under subparagraph (G), except that if any group described in subparagraph (C)(v) does not meet those objectives in any particular year, the school shall be considered to have made adequate yearly progress if the percentage of students in that group who did not meet or exceed the proficient level of academic achievement on the State assessments under paragraph (3) for that year decreased by 10 percent of that percentage from the preceding school year and that group made progress on one or more of the academic indicators described in subparagraph (C)(vi) or (vii); and

[(ii) not less than 95 percent of each group of students described in subparagraph (C)(v) who are enrolled in the school are required to take the assessments, consistent with paragraph (3)(C)(xi) and with accommodations, guidelines, and alternative assessments provided in the same manner as those provided under section 612(a)(16)(A) of the Individuals with Disabilities Education Act and paragraph (3), on which adequate yearly progress is based (except that the 95 percent requirement described in this clause shall not apply in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal per-

sonally identifiable information about an individual student).

[(J) UNIFORM AVERAGING PROCEDURE.—For the purpose of determining whether schools are making adequate yearly progress, the State may establish a uniform procedure for averaging data which includes one or more of the following:

[(i) The State may average data from the school year for which the determination is made with data from one or two school years immediately preceding that school year.

[(ii) Until the assessments described in paragraph (3) are administered in such manner and time to allow for the implementation of the uniform procedure for averaging data described in clause (i), the State may use the academic assessments that were required under paragraph (3) as that paragraph was in effect on the day preceding the date of enactment of the No Child Left Behind Act of 2001, provided that nothing in this clause shall be construed to undermine or delay the determination of adequate yearly progress, the requirements of section 1116, or the implementation of assessments under this section.

[(iii) The State may use data across grades in a school.

[(K) ACCOUNTABILITY FOR CHARTER SCHOOLS.—The accountability provisions under this Act shall be overseen for charter schools in accordance with State charter school law.

[(3) ACADEMIC ASSESSMENTS.—

[(A) IN GENERAL.—Each State plan shall demonstrate that the State educational agency, in consultation with local educational agencies, has implemented a set of high-quality, yearly student academic assessments that include, at a minimum, academic assessments in mathematics, reading or language arts, and science that will be used as the primary means of determining the yearly performance of the State and of each local educational agency and school in the State in enabling all children to meet the State's challenging student academic achievement standards, except that no State shall be required to meet the requirements of this part relating to science assessments until the beginning of the 2007–2008 school year.

[(B) USE OF ASSESSMENTS.—Each State educational agency may incorporate the data from the assessments under this paragraph into a State-developed longitudinal data system that links student test scores, length of enrollment, and graduation records over time.

[(C) REQUIREMENTS.—Such assessments shall—

[(i) be the same academic assessments used to measure the achievement of all children;

[(ii) be aligned with the State's challenging academic content and student academic achievement standards, and provide coherent information about student attainment of such standards;

[(iii) be used for purposes for which such assessments are valid and reliable, and be consistent with relevant, nationally recognized professional and technical standards;

[(iv) be used only if the State educational agency provides to the Secretary evidence from the test publisher or other relevant sources that the assessments used are of adequate technical quality for each purpose required under this Act and are consistent with the requirements of this section, and such evidence is made public by the Secretary upon request;

[(v)(I) except as otherwise provided for grades 3 through 8 under clause vii, measure the proficiency of students in, at a minimum, mathematics and reading or language arts, and be administered not less than once during—

[(aa) grades 3 through 5;

[(bb) grades 6 through 9; and

[(cc) grades 10 through 12;

[(II) beginning not later than school year 2007–2008, measure the proficiency of all students in science and be administered not less than one time during—

[(aa) grades 3 through 5;

[(bb) grades 6 through 9; and

[(cc) grades 10 through 12;

[(vi) involve multiple up-to-date measures of student academic achievement, including measures that assess higher-order thinking skills and understanding;

[(vii) beginning not later than school year 2005–2006, measure the achievement of students against the challenging State academic content and student academic achievement standards in each of grades 3 through 8 in, at a minimum, mathematics, and reading or language arts, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of the academic assessments by that deadline and that the State will complete implementation within the additional 1-year period;

[(viii) at the discretion of the State, measure the proficiency of students in academic subjects not described in clauses (v), (vi), (vii) in which the State has adopted challenging academic content and academic achievement standards;

[(ix) provide for—

[(I) the participation in such assessments of all students;

[(II) the reasonable adaptations and accommodations for students with disabilities (as defined under section 602(3) of the Individuals with Disabilities Education Act) necessary to measure

the academic achievement of such students relative to State academic content and State student academic achievement standards; and

[(III) the inclusion of limited English proficient students, who shall be assessed in a valid and reliable manner and provided reasonable accommodations on assessments administered to such students under this paragraph, including, to the extent practicable, assessments in the language and form most likely to yield accurate data on what such students know and can do in academic content areas, until such students have achieved English language proficiency as determined under paragraph (7);

[(x) notwithstanding subclause (III), the academic assessment (using tests written in English) of reading or language arts of any student who has attended school in the United States (not including Puerto Rico) for three or more consecutive school years, except that if the local educational agency determines, on a case-by-case individual basis, that academic assessments in another language or form would likely yield more accurate and reliable information on what such student knows and can do, the local educational agency may make a determination to assess such student in the appropriate language other than English for a period that does not exceed two additional consecutive years, provided that such student has not yet reached a level of English language proficiency sufficient to yield valid and reliable information on what such student knows and can do on tests (written in English) of reading or language arts;

[(xi) include students who have attended schools in a local educational agency for a full academic year but have not attended a single school for a full academic year, except that the performance of students who have attended more than 1 school in the local educational agency in any academic year shall be used only in determining the progress of the local educational agency;

[(xii) produce individual student interpretive, descriptive, and diagnostic reports, consistent with clause (iii) that allow parents, teachers, and principals to understand and address the specific academic needs of students, and include information regarding achievement on academic assessments aligned with State academic achievement standards, and that are provided to parents, teachers, and principals, as soon as is practicably possible after the assessment is given, in an understandable and uniform format, and to the extent practicable, in a language that parents can understand;

[(xiii) enable results to be disaggregated within each State, local educational agency, and school by gender, by each major racial and ethnic group, by English pro-

iciency status, by migrant status, by students with disabilities as compared to nondisabled students, and by economically disadvantaged students as compared to students who are not economically disadvantaged, except that, in the case of a local educational agency or a school, such disaggregation shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student;

[(xiv) be consistent with widely accepted professional testing standards, objectively measure academic achievement, knowledge, and skills, and be tests that do not evaluate or assess personal or family beliefs and attitudes, or publicly disclose personally identifiable information; and

[(xv) enable itemized score analyses to be produced and reported, consistent with clause (iii), to local educational agencies and schools, so that parents, teachers, principals, and administrators can interpret and address the specific academic needs of students as indicated by the students' achievement on assessment items.

[(D) DEFERRAL.—A State may defer the commencement, or suspend the administration, but not cease the development, of the assessments described in this paragraph, that were not required prior to the date of enactment of the No Child Left Behind Act of 2001, for 1 year for each year for which the amount appropriated for grants under section 6113(a)(2) is less than—

[(i) \$370,000,000 for fiscal year 2002;

[(ii) \$380,000,000 for fiscal year 2003;

[(iii) \$390,000,000 for fiscal year 2004; and

[(iv) \$400,000,000 for fiscal years 2005 through 2007.

[(4) SPECIAL RULE.—Academic assessment measures in addition to those in paragraph (3) that do not meet the requirements of such paragraph may be included in the assessment under paragraph (3) as additional measures, but may not be used in lieu of the academic assessments required under paragraph (3). Such additional assessment measures may not be used to reduce the number of or change, the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 1116 if such additional indicators were not used, but may be used to identify additional schools for school improvement or in need of corrective action or restructuring except as provided in paragraph (2)(I)(i).

[(5) STATE AUTHORITY.—If a State educational agency provides evidence, which is satisfactory to the Secretary, that neither the State educational agency nor any other State government official, agency, or entity has sufficient authority, under State law, to adopt curriculum content and student academic achievement standards, and academic assessments aligned with such academic standards, which will be applicable to all students enrolled in the State's public elementary schools and

secondary schools, then the State educational agency may meet the requirements of this subsection by—

[(A) adopting academic standards and academic assessments that meet the requirements of this subsection, on a statewide basis, and limiting their applicability to students served under this part; or

[(B) adopting and implementing policies that ensure that each local educational agency in the State that receives grants under this part will adopt curriculum content and student academic achievement standards, and academic assessments aligned with such standards, which—

[(i) meet all of the criteria in this subsection and any regulations regarding such standards and assessments that the Secretary may publish; and

[(ii) are applicable to all students served by each such local educational agency.

[(6) LANGUAGE ASSESSMENTS.—Each State plan shall identify the languages other than English that are present in the participating student population and indicate the languages for which yearly student academic assessments are not available and are needed. The State shall make every effort to develop such assessments and may request assistance from the Secretary if linguistically accessible academic assessment measures are needed. Upon request, the Secretary shall assist with the identification of appropriate academic assessment measures in the needed languages, but shall not mandate a specific academic assessment or mode of instruction.

[(7) ACADEMIC ASSESSMENTS OF ENGLISH LANGUAGE PROFICIENCY.—Each State plan shall demonstrate that local educational agencies in the State will, beginning not later than school year 2002–2003, provide for an annual assessment of English proficiency (measuring students’ oral language, reading, and writing skills in English) of all students with limited English proficiency in the schools served by the State educational agency, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of this paragraph by that deadline and that the State will complete implementation within the additional 1-year period.

[(8) REQUIREMENT.—Each State plan shall describe—

[(A) how the State educational agency will assist each local educational agency and school affected by the State plan to develop the capacity to comply with each of the requirements of sections 1112(c)(1)(D), 1114(b), and 1115(c) that is applicable to such agency or school;

[(B) how the State educational agency will assist each local educational agency and school affected by the State plan to provide additional educational assistance to individual students assessed as needing help to achieve the State’s challenging academic achievement standards;

[(C) the specific steps the State educational agency will take to ensure that both schoolwide programs and targeted assistance schools provide instruction by highly qualified

instructional staff as required by sections 1114(b)(1)(C) and 1115(c)(1)(E), including steps that the State educational agency will take to ensure that poor and minority children are not taught at higher rates than other children by inexperienced, unqualified, or out-of-field teachers, and the measures that the State educational agency will use to evaluate and publicly report the progress of the State educational agency with respect to such steps;

[(D) an assurance that the State educational agency will assist local educational agencies in developing or identifying high-quality effective curricula aligned with State academic achievement standards and how the State educational agency will disseminate such curricula to each local educational agency and school within the State; and

[(E) such other factors the State educational agency determines appropriate to provide students an opportunity to achieve the knowledge and skills described in the challenging academic content standards adopted by the State.

[(9) FACTORS AFFECTING STUDENT ACHIEVEMENT.—Each State plan shall include an assurance that the State educational agency will coordinate and collaborate, to the extent feasible and necessary as determined by the State educational agency, with agencies providing services to children, youth, and families, with respect to local educational agencies within the State that are identified under section 1116 and that request assistance with addressing major factors that have significantly affected the academic achievement of students in the local educational agency or schools served by such agency.

[(10) USE OF ACADEMIC ASSESSMENT RESULTS TO IMPROVE STUDENT ACADEMIC ACHIEVEMENT.—Each State plan shall describe how the State educational agency will ensure that the results of the State assessments described in paragraph (3)—

[(A) will be promptly provided to local educational agencies, schools, and teachers in a manner that is clear and easy to understand, but not later than before the beginning of the next school year; and

[(B) be used by those local educational agencies, schools, and teachers to improve the educational achievement of individual students.

[(c) OTHER PROVISIONS TO SUPPORT TEACHING AND LEARNING.—Each State plan shall contain assurances that—

[(1) the State educational agency will meet the requirements of subsection (h)(1) and, beginning with the 2002–2003 school year, will produce the annual State report cards described in such subsection, except that the Secretary may provide the State educational agency 1 additional year if the State educational agency demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of this paragraph by that deadline and that the State will complete implementation within the additional 1-year period;

[(2) the State will, beginning in school year 2002–2003, participate in biennial State academic assessments of 4th and 8th grade reading and mathematics under the National Assess-

ment of Educational Progress carried out under section 303(b)(2) of the National Assessment of Educational Progress Authorization Act if the Secretary pays the costs of administering such assessments;

[(3) the State educational agency, in consultation with the Governor, will include, as a component of the State plan, a plan to carry out the responsibilities of the State under sections 1116 and 1117, including carrying out the State educational agency's statewide system of technical assistance and support for local educational agencies;

[(4) the State educational agency will work with other agencies, including educational service agencies or other local consortia, and institutions to provide technical assistance to local educational agencies and schools, including technical assistance in providing professional development under section 1119, technical assistance under section 1117, and technical assistance relating to parental involvement under section 1118;

[(5)(A) where educational service agencies exist, the State educational agency will consider providing professional development and technical assistance through such agencies; and

[(B) where educational service agencies do not exist, the State educational agency will consider providing professional development and technical assistance through other cooperative agreements such as through a consortium of local educational agencies;

[(6) the State educational agency will notify local educational agencies and the public of the content and student academic achievement standards and academic assessments developed under this section, and of the authority to operate schoolwide programs, and will fulfill the State educational agency's responsibilities regarding local educational agency improvement and school improvement under section 1116, including such corrective actions as are necessary;

[(7) the State educational agency will provide the least restrictive and burdensome regulations for local educational agencies and individual schools participating in a program assisted under this part;

[(8) the State educational agency will inform the Secretary and the public of how Federal laws, if at all, hinder the ability of States to hold local educational agencies and schools accountable for student academic achievement;

[(9) the State educational agency will encourage schools to consolidate funds from other Federal, State, and local sources for schoolwide reform in schoolwide programs under section 1114;

[(10) the State educational agency will modify or eliminate State fiscal and accounting barriers so that schools can easily consolidate funds from other Federal, State, and local sources for schoolwide programs under section 1114;

[(11) the State educational agency has involved the committee of practitioners established under section 1903(b) in developing the plan and monitoring its implementation;

[(12) the State educational agency will inform local educational agencies in the State of the local educational agency's authority to transfer funds under title VI, to obtain waivers

under part D of title IX, and, if the State is an Ed-Flex Partnership State, to obtain waivers under the Education Flexibility Partnership Act of 1999;

[(13) the State educational agency will coordinate activities funded under this part with other Federal activities as appropriate; and

[(14) the State educational agency will encourage local educational agencies and individual schools participating in a program assisted under this part to offer family literacy services (using funds under this part), if the agency or school determines that a substantial number of students served under this part by the agency or school have parents who do not have a secondary school diploma or its recognized equivalent or who have low levels of literacy.

[(d) PARENTAL INVOLVEMENT.—Each State plan shall describe how the State educational agency will support the collection and dissemination to local educational agencies and schools of effective parental involvement practices. Such practices shall—

[(1) be based on the most current research that meets the highest professional and technical standards, on effective parental involvement that fosters achievement to high standards for all children; and

[(2) be geared toward lowering barriers to greater participation by parents in school planning, review, and improvement experienced.

[(e) PEER REVIEW AND SECRETARIAL APPROVAL.—

[(1) SECRETARIAL DUTIES.—The Secretary shall—

[(A) establish a peer-review process to assist in the review of State plans;

[(B) appoint individuals to the peer-review process who are representative of parents, teachers, State educational agencies, and local educational agencies, and who are familiar with educational standards, assessments, accountability, the needs of low-performing schools, and other educational needs of students;

[(C) approve a State plan within 120 days of its submission unless the Secretary determines that the plan does not meet the requirements of this section;

[(D) if the Secretary determines that the State plan does not meet the requirements of subsection (a), (b), or (c), immediately notify the State of such determination and the reasons for such determination;

[(E) not decline to approve a State's plan before—

[(i) offering the State an opportunity to revise its plan;

[(ii) providing technical assistance in order to assist the State to meet the requirements of subsections (a), (b), and (c); and

[(iii) providing a hearing; and

[(F) have the authority to disapprove a State plan for not meeting the requirements of this part, but shall not have the authority to require a State, as a condition of approval of the State plan, to include in, or delete from, such plan one or more specific elements of the State's academic

content standards or to use specific academic assessment instruments or items.

[(2) STATE REVISIONS.—A State plan shall be revised by the State educational agency if it is necessary to satisfy the requirements of this section.

[(f) DURATION OF THE PLAN.—

[(1) IN GENERAL.—Each State plan shall—

[(A) remain in effect for the duration of the State's participation under this part; and

[(B) be periodically reviewed and revised as necessary by the State educational agency to reflect changes in the State's strategies and programs under this part.

[(7) CORRECTIVE ACTION.—

[(A) IN GENERAL.—In this subsection, the term “corrective action” means action, consistent with State law, that—

[(i) substantially and directly responds to—

[(I) the consistent academic failure of a school that caused the local educational agency to take such action; and

[(D) DELAY.—Notwithstanding any other provision of this paragraph, the local educational agency may delay, for a period not to exceed 1 year, implementation of the requirements under paragraph (5), corrective action under this paragraph, or restructuring under paragraph (8) if the school makes adequate yearly progress for 1 year or if its failure to make adequate yearly progress is due to exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the local educational agency or school.

No such period shall be taken into account in determining the number of consecutive years of failure to make adequate yearly progress.

[(E) PUBLICATION AND DISSEMINATION.—The local educational agency shall publish and disseminate information regarding any corrective action the local educational agency takes under this paragraph at a school—

In the case of a rural local educational agency with a total of less than 600 students in aver-

age daily attendance at the schools that are served by the agency and all of whose schools have a School Locale Code of 7 or 8, as determined by the Secretary, the Secretary shall, at such agency's request, provide technical assistance to such agency for the purpose of implementing this clause.

[(D) PROHIBITION.—A local educational agency shall not, as a result of the application of this paragraph, reduce by more than 15 percent the total amount made available

[(11) COOPERATIVE AGREEMENT.—In any case described in paragraph (1)(E), (5)(A), (7)(C)(i), or (8)(A)(i), or subsection (c)(10)(C)(vii) if all public schools served by the local educational agency to which a child may transfer are identified for school improvement, corrective action or restructuring, the agency shall, to the extent practicable, establish a cooperative agreement with other local educational agencies in the area for a transfer.

[(12) DURATION.—If any school identified for school improvement, corrective action, or restructuring makes adequate yearly progress for two consecutive school years, the local educational agency shall no longer subject the school to the requirements of school improvement, corrective action, or restructuring or identify the school for school improvement for the succeeding school year.

[(13) SPECIAL RULE.—A local educational agency shall permit a child who transferred to another school under this subsection to remain in that school until the child has completed the highest grade in that school. The obligation of the local educational agency to provide, or to provide for, transportation for the child ends at the end of a school year if the local educational agency determines that the school from which the child transferred is no longer identified for school improvement or subject to corrective action or restructuring.

[(14) STATE EDUCATIONAL AGENCY RESPONSIBILITIES.—The State educational agency shall—

[(A) make technical assistance under section 1117 available to schools identified for school improvement, corrective action, or restructuring under this subsection consistent with section 1117(a)(2);

[(iv) include specific measurable achievement goals and targets for each of the groups of students identified in the disaggregated data pursuant to section 1111(b)(2)(C)(v), consistent with adequate yearly progress as defined under section 1111(b)(2);

[(v) address the fundamental teaching and learning needs in the schools of that agency, and the specific academic problems of low-achieving students, including a determination of why the local educational agency's prior plan failed to bring about increased student academic achievement;

(3) ALLOCATIONS TO COUNTIES.—

(A) CALCULATION.—For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations issued by the Secretary.

(B) DIRECT ALLOCATIONS.—In any State in which a large number of local educational agencies overlap county boundaries, or for which the State believes it has data that would better target funds than allocating them by county, the State educational agency may apply to the Secretary for authority to make the allocations under this [subpart] *chapter* for a particular fiscal year directly to local educational agencies without regard to counties.

(C) ALLOCATIONS TO LOCAL EDUCATIONAL AGENCIES.—If the Secretary approves the State educational agency's application under subparagraph (B), the State educational agency shall provide the Secretary an assurance that such allocations shall be made—

- (i) using precisely the same factors for determining a grant as are used under this [subpart] *chapter*; or
- (ii) using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

(D) APPEAL.—The State educational agency shall provide the Secretary an assurance that it will establish a procedure through which a local educational agency that is dissatisfied with its determinations under subparagraph (B) may appeal directly to the Secretary for a final determination.

(4) PUERTO RICO.—

(A) IN GENERAL.—For each fiscal year, the grant that the Commonwealth of Puerto Rico shall be eligible to receive under this section shall be the amount determined by multiplying the number of children counted under subsection (c) for the Commonwealth of Puerto Rico by the product of—

- (i) subject to subparagraph (B), the percentage that the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and
- (ii) 32 percent of the average per-pupil expenditure in the United States.

(B) MINIMUM PERCENTAGE.—The percentage in subparagraph (A)(i) shall not be less than—

- (i) for fiscal year 2002, 77.5 percent;
- (ii) for fiscal year 2003, 80.0 percent;
- (iii) for fiscal year 2004, 82.5 percent;
- (iv) for fiscal year 2005, 85.0 percent;
- (v) for fiscal year 2006, 92.5 percent; and
- (vi) for fiscal year 2007 and succeeding fiscal years, 100.0 percent.

(C) LIMITATION.—If the application of subparagraph (B) would result in any of the 50 States or the District of Co-

lumbia receiving less under this [subpart] *chapter* than it received under this [subpart] *chapter* for the preceding fiscal year, the percentage in subparagraph (A) shall be the greater of—

- (i) the percentage in subparagraph (A)(i);
- (ii) the percentage specified in subparagraph (B) for the preceding fiscal year; or
- (iii) the percentage used for the preceding fiscal year.

(b) **MINIMUM NUMBER OF CHILDREN TO QUALIFY.**—A local educational agency is eligible for a basic grant under this section for any fiscal year only if the number of children counted under subsection (c) for that agency is both—

- (1) 10 or more; and
- (2) more than 2 percent of the total school-age population in the agency's jurisdiction.

(c) **CHILDREN TO BE COUNTED.**—

(1) **CATEGORIES OF CHILDREN.**—The number of children to be counted for purposes of this section is the aggregate of—

(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2);

(B) the number of children (determined under paragraph (4) for either the preceding year as described in that paragraph, or for the second preceding year, as the Secretary finds appropriate) aged 5 to 17, inclusive, in the school district of such agency in institutions for neglected and delinquent children (other than such institutions operated by the United States), but not counted pursuant to [subpart 1 of part D] *chapter A of subpart 3* for the purposes of a grant to a State agency, or being supported in foster homes with public funds; and

(C) the number of children aged 5 to 17, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (4).

(2) **DETERMINATION OF NUMBER OF CHILDREN.**—For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data, described in paragraph (3), available from the Department of Commerce. The District of Columbia and the Commonwealth of Puerto Rico shall be treated as individual local educational agencies. If a local educational agency contains two or more counties in their entirety, then each county will be treated as if such county were a separate local educational agency for purposes of calculating grants under this [part] *subpart*. The total of grants for such counties shall be allocated to such a local educational agency, which local educational agency shall distribute to schools in each county within such agency a share of the local educational agency's total grant that is no less than the county's share of the population counts used to calculate the local educational agency's grant.

(3) **POPULATION UPDATES.**—

(A) IN GENERAL.—In fiscal year 2002 and each subsequent fiscal year, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that the use of the updated population data would be inappropriate or unreliable. If appropriate and reliable data are not available annually, the Secretary shall use data which are updated every 2 years.

(B) INAPPROPRIATE OR UNRELIABLE DATA.—If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in subparagraph (A) are inappropriate or unreliable, the Secretary and the Secretary of Commerce shall publicly disclose their reasons.

(C) CRITERIA OF POVERTY.—In determining the families that are below the poverty level, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census, as the criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.

(4) OTHER CHILDREN TO BE COUNTED.—

(A) For the purpose of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual income, in excess of the current criteria of poverty, from payments under a State program funded under part A of title IV of the Social Security Act; and in making such determinations, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census for a family of four in such form as those criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.

(B) The Secretary shall determine the number of such children and the number of children aged 5 through 17 living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination.

(C) Except for the data on children living in institutions for neglected or delinquent children, the Secretary of Health and Human Services shall collect and transmit the

information required by this subparagraph to the Secretary not later than January 1 of each year.

(D) For the purpose of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

(5) ESTIMATE.—When requested by the Secretary, the Secretary of Commerce shall make a special updated estimate of the number of children of such ages who are from families below the poverty level (as determined under paragraph (1)(A)) in each school district, and the Secretary is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information.

(d) STATE MINIMUM.—Notwithstanding section 1122, the aggregate amount allotted for all local educational agencies within a State may not be less than the lesser of—

(1) 0.25 percent of the total amount allocated to States under this section for fiscal year 2001, plus 0.35 percent of the total amount allocated to States under this section in excess of the amount allocated for fiscal year 2001; or

(2) the average of—

(A) the amount calculated in paragraph (1), above; and

(B) the number of children in such State counted under subsection (c) in the fiscal year multiplied by 150 percent of the national average per-pupil payment made with funds available under this section for that year.

(IV) the number of such children who constitute more than **[30.16]** 30.17 percent, but not more than **[38.24]** 38.25 percent, of such population, multiplied by 4.5; and

(V) the number of such children who constitute more than ~~【38.24】~~ 38.25 percent of such population, multiplied by 6.0.

(iii) BY NUMBER OF CHILDREN.—The amount referred to in clause (i) is determined by adding—

(I) the number of children determined under section 1124(c) who constitute not more than ~~【691】~~ 692, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children between ~~【692】~~ 693 and ~~【2,262】~~ 2,263, inclusive, in such population, multiplied by 1.5;

(III) the number of such children between ~~【2,263】~~ 2,264 and ~~【7,851】~~ 7,852, inclusive, in such population, multiplied by 2.25;

(IV) the number of such children between ~~【7,852】~~ 7,853 and ~~【35,514】~~ 35,515, inclusive, in such population, multiplied by 3.375; and

(V) the number of such children in excess of ~~【35,514】~~ 35,515 in such population, multiplied by 4.5.

(3) STATES WITH AN EQUITY FACTOR GREATER THAN OR EQUAL TO .20.—In States with an equity factor greater than or equal to .20, the weighted child counts referred to in subsection (d) shall be calculated as follows:

(A) WEIGHTS FOR ALLOCATIONS TO COUNTIES.—

(i) IN GENERAL.—For each fiscal year for which the Secretary uses county population data to calculate grants, the weighted child count used to determine a county's allocation under this section is the larger of the two amounts determined under clauses (ii) and (iii).

(ii) BY PERCENTAGE OF CHILDREN.—The amount referred to in clause (i) is determined by adding—

(I) the number of children determined under section 1124(c) for that county who constitute not more than 15.00 percent, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children who constitute more than 15.00 percent, but not more than 19.00 percent, of such population, multiplied by 2.0;

(III) the number of such children who constitute more than 19.00 percent, but not more than 24.20 percent, of such population, multiplied by 4.0;

(IV) the number of such children who constitute more than 24.20 percent, but not more than 29.20 percent, of such population, multiplied by 6.0; and

(V) the number of such children who constitute more than 29.20 percent of such population, multiplied by 8.0.

(iii) BY NUMBER OF CHILDREN.—The amount referred to in clause (i) is determined by adding—

(I) the number of children determined under section 1124(c) who constitute not more than

2,311, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children between 2,312 and 7,913, inclusive, in such population, multiplied by 2.0;

(III) the number of such children between 7,914 and 23,917, inclusive, in such population, multiplied by 3.0;

(IV) the number of such children between 23,918 and 93,810, inclusive, in such population, multiplied by 4.5; and

(V) the number of such children in excess of 93,811 in such population, multiplied by 6.0.

(B) WEIGHTS FOR ALLOCATIONS TO LOCAL EDUCATIONAL AGENCIES.—

(i) IN GENERAL.—For each fiscal year for which the Secretary uses local educational agency data, the weighted child count used to determine a local educational agency's grant under this section is the larger of the two amounts determined under clauses (ii) and (iii).

(ii) BY PERCENTAGE OF CHILDREN.—The amount referred to in clause (i) is determined by adding—

(I) the number of children determined under section 1124(c) for that local educational agency who constitute not more than ~~15.58~~ 15.59 percent, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children who constitute more than ~~15.58~~ 15.59 percent, but not more than ~~22.11~~ 22.12 percent, of such population, multiplied by 2.0;

(III) the number of such children who constitute more than ~~22.11~~ 22.12 percent, but not more than ~~30.16~~ 30.17 percent, of such population, multiplied by 4.0;

(IV) the number of such children who constitute more than ~~30.16~~ 30.17 percent, but not more than ~~38.24~~ 38.25 percent, of such population, multiplied by 6.0; and

(V) the number of such children who constitute more than ~~38.24~~ 38.25 percent of such population, multiplied by 8.0.

(iii) BY NUMBER OF CHILDREN.—The amount referred to in clause (i) is determined by adding—

(I) the number of children determined under section 1124(c) who constitute not more than ~~691~~ 692, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children between ~~692~~ 693 and ~~2,262~~ 2,263, inclusive, in such population, multiplied by 2.0;

(III) the number of such children between ~~2,263~~ 2,264 and ~~7,851~~ 7,852, inclusive, in such population, multiplied by 3.0;

(IV) the number of such children between ~~7,852~~ 7,853 and ~~35,514~~ 35,515, inclusive, in such population, multiplied by 4.5; and

(V) the number of such children in excess of ~~35,514~~ 35,515 in such population, multiplied by 6.0.

**[(e) MAINTENANCE OF EFFORT.—**

**[(1) IN GENERAL.—**Except as provided in paragraph (2), a State is entitled to receive its full allotment of funds under this section for any fiscal year if the Secretary finds that either the combined fiscal effort per student or the aggregate expenditures within the State with respect to the provision of free public education for the fiscal year preceding the fiscal year for which the determination is made was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second fiscal year preceding the fiscal year for which the determination is made.

**[(2) REDUCTION OF FUNDS.—**The Secretary shall reduce the amount of funds awarded to any State under this section in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 percent of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

**[(3) WAIVERS.—**The Secretary may waive, for 1 fiscal year only, the requirements of this subsection if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State.

**[(f) AUTHORIZATION OF APPROPRIATIONS.—**There are authorized to be appropriated to carry out this section such sums as may be necessary for fiscal year 2002 and for each of the 5 succeeding fiscal years.]

**[(g)] (d) ADJUSTMENTS WHERE NECESSITATED BY APPROPRIATIONS.—**

**(1) IN GENERAL.—**If the sums available under this section for any fiscal year are insufficient to pay the full amounts that all local educational agencies in States are eligible to receive under this section for such year, the Secretary shall ratably reduce the allocations to such local educational agencies, subject to paragraphs (2) and (3).

**(2) ADDITIONAL FUNDS.—**If additional funds become available for making payments under this section for such fiscal year, allocations that were reduced under paragraph (1) shall be increased on the same basis as they were reduced.

**(3) HOLD-HARMLESS AMOUNTS.—**For each fiscal year, if sufficient funds are available, the amount made available to each local educational agency under this section shall be

(A) not less than 95 percent of the amount made available for the preceding fiscal year if the number of children counted for grants under section 1124 is not less than 30 percent of the total number of children aged 5 to 17 years, inclusive, in the local educational agency;

(B) not less than 90 percent of the amount made available for the preceding fiscal year if the percentage described in subparagraph (A) is between 15 percent and 30 percent; and

(C) not less than 85 percent of the amount made available for the preceding fiscal year if the percentage described in subparagraph (A) is below 15 percent.

(4) **APPLICABILITY.**—Notwithstanding any other provision of law, the Secretary shall not take into consideration the hold-harmless provisions of this subsection for any fiscal year for purposes of calculating State or local allocations for the fiscal year under any program administered by the Secretary other than a program authorized under this [part] subpart.

(e) **APPLICATION.**—

(1) *IN GENERAL.*—The percentage and number ranges described in clauses (ii) and (iii) of paragraph (1)(B), clauses (ii) and (iii) of paragraph (2)(B), and clauses (ii) and (iii) of paragraph (3)(B) shall be applied with respect to fiscal years 2016, 2017, 2018, 2019, 2020, and 2021 as such percentages and numbers were in effect on the day before the date of the enactment of the Student Success Act.

(2) *SECRETARY'S CERTIFICATION.*—For fiscal year 2022 and each subsequent fiscal year, the percentage and number ranges described in clauses (ii) and (iii) of paragraph (1)(B), clauses (ii) and (iii) of paragraph (2)(B), and clauses (ii) and (iii) of paragraph (3)(B) shall be applied as such percentages and numbers were in effect on the day before the date of the enactment of the Student Success Act unless the Secretary certifies that amendments made to such percentages and numbers by the Student Success Act will not result in harm to any school district.

**[SEC. 1125AA. ADEQUACY OF FUNDING OF TARGETED GRANTS TO LOCAL EDUCATIONAL AGENCIES IN FISCAL YEARS AFTER FISCAL YEAR 2001.**

**[(a) FINDINGS.**—Congress makes the following findings:

**[(1)** The current Basic Grant Formula for the distribution of funds under this part often does not provide funds for the economically disadvantaged students for which such funds are targeted.

**[(2)** Any school district in which more than 2 percent of the students live below the poverty level qualifies for funding under the Basic Grant Formula. As a result, 9 out of every 10 school districts in the country receive some form of aid under the Formula.

**[(3)** Fifty-eight percent of all schools receive at least some funding under this part, including many suburban schools with predominantly well-off students.

**[(4)** One out of every 5 schools with concentrations of poor students between 50 and 75 percent receive no funding at all under this part.

**[(5)** In passing the Improving America's Schools Act in 1994, Congress declared that grants under this part would more sharply target high poverty schools by using the Targeted Grant Formula, but annual appropriation Acts have prevented the use of that Formula.

[(6) The advantage of the Targeted Grant Formula over other funding formulas under this part is that the Targeted Grant Formula provides increased grants per poor child as the percentage of economically disadvantaged children in a school district increases.

[(7) Studies have found that the poverty of a child's family is much more likely to be associated with educational disadvantage if the family lives in an area with large concentrations of poor families.

[(8) States with large populations of high poverty students would receive significantly more funding if more funds under this part were allocated through the Targeted Grant Formula.

[(9) Congress has an obligation to allocate funds under this part so that such funds will positively affect the largest number of economically disadvantaged students.

[(b) LIMITATION ON ALLOCATION OF TITLE I FUNDS CONTINGENT ON ADEQUATE FUNDING OF TARGETED GRANTS.—Pursuant to section 1122, the total amount allocated in any fiscal year after fiscal year 2001 for programs and activities under this part shall not exceed the amount allocated in fiscal year 2001 for such programs and activities unless the amount available for targeted grants to local educational agencies under section 1125 in the applicable fiscal year meets the requirements of section 1122(a).]

**SEC. 1125AA. ADEQUACY OF FUNDING TO LOCAL EDUCATIONAL AGENCIES IN FISCAL YEARS AFTER FISCAL YEAR 2001.**

(a) *LIMITATION OF ALLOCATION.*—Pursuant to section 1122, the total amount allocated in any fiscal year after fiscal year 2001 for programs and activities under this subpart shall not exceed the amount allocated in fiscal year 2001 for such programs and activities unless the amount available for targeted grants to local educational agencies under section 1125 in the applicable fiscal year meets the requirements of section 1122(a).

(b) *FINDINGS.*—Congress makes the following findings:

(1) *The formulas for distributing Targeted and Education Finance Incentive grants use two weighting systems, one based on the percentage of the aged 5-17 population in a local educational agency that is eligible to receive funds under this title (percentage weighting), and another based on the absolute number of such students (number weighting). Whichever of these weighting systems results in the highest total weighted formula student count for a local educational agency is the weighting system used for that agency in the final allocation of Targeted and Education Finance Incentive Grant funds.*

(2) *The Congressional Research Service has said the number weighting alternative is generally more favorable to large local educational agencies with much larger counts of eligible children, but not necessarily higher concentrations, weighted at the highest point in the scale than smaller local educational agencies with smaller counts, but higher concentrations, of eligible children.*

(3) *The current percentage and number weighting scales are based on the most current data available in 2001 on the distribution of eligible children across local educational agencies.*

(4) *Prior to the date of the enactment of the Student Success Act, Congress expects updated data to be available, which will*

*provide Congress an opportunity to update these scales based on such data.*

*(5) When these scales are updated, Congress has a further obligation to evaluate the use of percentage and number weighting to ensure the most equitable distribution of Targeted and Education Finance Incentive Grant funds to local educational agencies.*

**SEC. 1127. CARRYOVER AND WAIVER.**

(a) **LIMITATION ON CARRYOVER.**—Notwithstanding section 421(b) of the General Education Provisions Act or any other provision of law, not more than 15 percent of the funds allocated to a local educational agency for any fiscal year under this [subpart] chapter (but not including funds received through any reallocation under this [subpart] chapter) may remain available for obligation by such agency for one additional fiscal year.

(b) **WAIVER.**—A State educational agency may, once every 3 years, waive the percentage limitation in subsection (a) if—

(1) the agency determines that the request of a local educational agency is reasonable and necessary; or

(2) supplemental appropriations for this [subpart] chapter become available.

(c) **EXCLUSION.**—The percentage limitation under subsection (a) shall not apply to any local educational agency that receives less than \$50,000 under this [subpart] chapter for any fiscal year.

**SEC. 1128. TITLE I FUNDS FOLLOW THE LOW-INCOME CHILD STATE OPTION.**

(a) **IN GENERAL.**—Notwithstanding any other provision of law and to the extent permitted under State law, a State educational agency may allocate grant funds under this chapter among the local educational agencies in the State based on the number of eligible children enrolled in the public schools served by each local educational agency.

(b) **ELIGIBLE CHILD.**—

(1) **DEFINITION.**—In this section, the term “eligible child” means a child aged 5 to 17, inclusive, from a family with an income below the poverty level on the basis of the most recent satisfactory data published by the Department of Commerce.

(2) **CRITERIA OF POVERTY.**—In determining the families with incomes below the poverty level for the purposes of this section, a State educational agency shall use the criteria of poverty used by the Census Bureau in compiling the most recent decennial census, as the criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.

(c) **STUDENT ENROLLMENT IN PUBLIC SCHOOLS.**—

(1) **IDENTIFICATION OF ELIGIBLE CHILDREN.**—On an annual basis, on a date to be determined by the State educational agency, each local educational agency that receives grant funding in accordance with subsection (a) shall inform the State educational agency of the number of eligible children enrolled in public schools served by the local educational agency.

(2) **ALLOCATION TO LOCAL EDUCATIONAL AGENCIES.**—Based on the identification of eligible children in paragraph (1), the State

educational agency shall provide to a local educational agency an amount equal to the sum of the amount available for each eligible child in the State multiplied by the number of eligible children identified by the local educational agency under paragraph (1).

(3) *DISTRIBUTION TO SCHOOLS.*—Each local educational agency that receives funds under paragraph (2) shall distribute such funds to the public schools served by the local educational agency—

(A) based on the number of eligible children enrolled in such schools; and

(B) in a manner that would, in the absence of such Federal funds, supplement the funds made available from non-Federal resources for the education of pupils participating in programs under this subpart, and not to supplant such funds.

## **Subpart 2—Education of Migratory Children**

### **SEC. 1131. PROGRAM PURPOSES.**

The purposes of this subpart are as follows:

(1) To assist States in supporting high-quality and comprehensive educational programs and services during the school year, and as applicable, during summer or intercession periods, that address the unique educational needs of migratory children.

(2) To ensure that migratory children who move among the States, not be penalized in any manner by disparities among the States in curriculum, graduation requirements, and State academic standards.

(3) To help such children succeed in school, meet the State academic standards that all children are expected to meet, and graduate from high school prepared for postsecondary education and the workforce without the need for remediation.

(4) To help such children overcome educational disruption, cultural and language barriers, social isolation, various health-related problems, and other factors that inhibit the ability of such children to succeed in school.

(5) To help such children benefit from State and local systemic reforms.

### **SEC. 1132. PROGRAM AUTHORIZED.**

(a) *IN GENERAL.*—From the amounts appropriated under section 3(a)(1), the Secretary shall reserve 2.45 percent to carry out this subpart.

(b) *GRANTS AWARDED.*—From the amounts reserved under subsection (a) and not reserved under section 1138(c), the Secretary shall make allotments for the fiscal year to State educational agencies, or consortia of such agencies, to establish or improve, directly or through local operating agencies, programs of education for migratory children in accordance with this subpart.

### **SEC. 1133. STATE ALLOCATIONS.**

(a) *STATE ALLOCATIONS.*—Except as provided in subsection (c), each State (other than the Commonwealth of Puerto Rico) is entitled to receive under this subpart an amount equal to the product of—

(1) *the sum of—*

(A) *the average number of identified eligible full-time equivalent migratory children aged 3 through 21 residing in the State, based on data for the preceding 3 years; and*

(B) *the number of identified eligible migratory children, aged 3 through 21, who received services under this subpart in summer or intersession programs provided by the State during the previous year; multiplied by*

(2) *40 percent of the average per-pupil expenditure in the State, except that the amount determined under this paragraph shall not be less than 32 percent, nor more than 48 percent, of the average per-pupil expenditure in the United States.*

(b) *HOLD HARMLESS.—Notwithstanding subsection (a), for each of fiscal years 2016 through 2018, no State shall receive less than 90 percent of the State's allocation under this section for the previous year.*

(c) *ALLOCATION TO PUERTO RICO.—For each fiscal year, the grant which the Commonwealth of Puerto Rico shall be eligible to receive under this subpart shall be the amount determined by multiplying the number of children who would be counted under subsection (a)(1) if such subsection applied to the Commonwealth of Puerto Rico by the product of—*

(1) *the percentage that the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States, except that the percentage calculated under this subparagraph shall not be less than 85 percent; and*

(2) *32 percent of the average per-pupil expenditure in the United States.*

(d) *RATABLE REDUCTIONS; REALLOCATIONS.—*

(1) *IN GENERAL.—*

(A) *RATABLE REDUCTIONS.—If, after the Secretary reserves funds under section 1138(c), the amount appropriated to carry out this subpart for any fiscal year is insufficient to pay in full the amounts for which all States are eligible, the Secretary shall ratably reduce each such amount.*

(B) *REALLOCATION.—If additional funds become available for making such payments for any fiscal year, the Secretary shall allocate such funds to States in amounts that the Secretary determines will best carry out the purpose of this subpart.*

(2) *SPECIAL RULE.—*

(A) *FURTHER REDUCTIONS.—The Secretary shall further reduce the amount of any grant to a State under this subpart for any fiscal year if the Secretary determines, based on available information on the numbers and needs of migratory children in the State and the program proposed by the State to address such needs, that such amount exceeds the amount required under section 1134.*

(B) *REALLOCATION.—The Secretary shall reallocate such excess funds to other States whose grants under this subpart would otherwise be insufficient to provide an appropriate level of services to migratory children, in such amounts as the Secretary determines are appropriate.*

*(e) CONSORTIUM ARRANGEMENTS.—*

*(1) IN GENERAL.—In the case of a State that receives a grant of \$1,000,000 or less under this section, the Secretary shall consult with the State educational agency to determine whether consortium arrangements with another State or other appropriate entity would result in delivery of services in a more effective and efficient manner.*

*(2) PROPOSALS.—Any State, regardless of the amount of such State's allocation, may submit a consortium arrangement to the Secretary for approval.*

*(3) APPROVAL.—The Secretary shall approve a consortium arrangement under paragraph (1) or (2) if the proposal demonstrates that the arrangement will—*

*(A) reduce administrative costs or program function costs for State programs; and*

*(B) make more funds available for direct services to add substantially to the educational achievement of children to be served under this subpart.*

*(f) DETERMINING NUMBERS OF ELIGIBLE CHILDREN.—In order to determine the identified number of migratory children residing in each State for purposes of this section, the Secretary shall—*

*(1) use the most recent information that most accurately reflects the actual number of migratory children;*

*(2) develop and implement a procedure for monitoring the accuracy of such information;*

*(3) develop and implement a procedure for more accurately reflecting cost factors for different types of summer and intersession program designs;*

*(4) adjust the full-time equivalent number of migratory children who reside in each State to take into account—*

*(A) the unique needs of those children participating in evidence-based or other effective special programs provided under this subpart that operate during the summer and intersession periods; and*

*(B) the additional costs of operating such programs; and*

*(5) conduct an analysis of the options for adjusting the formula so as to better direct services to migratory children, including the most at-risk migratory children.*

*(g) NONPARTICIPATING STATES.—In the case of a State desiring to receive an allocation under this subpart for a fiscal year that did not receive an allocation for the previous fiscal year or that has been participating for less than 3 consecutive years, the Secretary shall calculate the State's number of identified migratory children aged 3 through 21 for purposes of subsection (a)(1)(A) by using the most recent data available that identifies the migratory children residing in the State until data is available to calculate the 3-year average number of such children in accordance with such subsection.*

**SEC. 1134. STATE APPLICATIONS; SERVICES.**

*(a) APPLICATION REQUIRED.—Any State desiring to receive a grant under this subpart for any fiscal year shall submit an application to the Secretary at such time and in such manner as the Secretary may require.*

*(b) PROGRAM INFORMATION.—Each such application shall include—*

(1) a description of how, in planning, implementing, and evaluating programs and projects assisted under this subpart, the State and its local operating agencies will ensure that the unique educational needs of migratory children, including pre-school migratory children, are identified and addressed through—

(A) the full range of services that are available for migratory children from appropriate local, State, and Federal educational programs;

(B) joint planning among local, State, and Federal educational programs serving migratory children, including language instruction educational programs under chapter A of subpart 4; and

(C) the integration of services available under this subpart with services provided by those other programs;

(2) a description of the steps the State is taking to provide all migratory students with the opportunity to meet the same State academic standards that all children are expected to meet;

(3) a description of how the State will use funds received under this subpart to promote interstate and intrastate coordination of services for migratory children, including how the State will provide for educational continuity through the timely transfer of pertinent school records, including information on health, when children move from one school to another, whether or not such a move occurs during the regular school year;

(4) a description of the State's priorities for the use of funds received under this subpart, and how such priorities relate to the State's assessment of needs for services in the State;

(5) a description of how the State will determine the amount of any subgrants the State will award to local operating agencies, taking into account the numbers and needs of migratory children, the requirements of subsection (d), and the availability of funds from other Federal, State, and local programs; and

(6) a description of how the State will encourage programs and projects assisted under this subpart to offer family literacy services if the programs and projects serve a substantial number of migratory children whose parents do not have a regular high school diploma or its recognized equivalent or who have low levels of literacy.

(c) ASSURANCES.—Each such application shall also include assurances that—

(1) funds received under this subpart will be used only—

(A) for programs and projects, including the acquisition of equipment, in accordance with section 1136; and

(B) to coordinate such programs and projects with similar programs and projects within the State and in other States, as well as with other Federal programs that can benefit migratory children and their families;

(2) such programs and projects will be carried out in a manner consistent with the objectives of section 1114, subsections (b) and (d) of section 1115, subsections (b) and (c) of section 1120A, and part C;

(3) in the planning and operation of programs and projects at both the State and local agency operating level, there is con-

sultation with parents of migratory children for programs of not less than one school year in duration, and that all such programs and projects are carried out—

(A) in a manner that provides for the same parental involvement as is required for programs and projects under section 1118, unless extraordinary circumstances make such provision impractical; and

(B) in a format and language understandable to the parents;

(4) in planning and carrying out such programs and projects, there has been, and will be, adequate provision for addressing the unmet education needs of preschool migratory children;

(5) the effectiveness of such programs and projects will be determined, where feasible, using the same approaches and standards that will be used to assess the performance of students, schools, and local educational agencies under subpart 1;

(6) to the extent feasible, such programs and projects will provide for—

(A) advocacy and outreach activities for migratory children and their families, including informing such children and families of, or helping such children and families gain access to, other education, health, nutrition, and social services;

(B) professional development programs, including mentoring, for teachers and other program personnel;

(C) high-quality, evidence-based family literacy programs;

(D) the integration of information technology into educational and related programs; and

(E) programs to facilitate the transition of secondary school students to postsecondary education or employment without the need for remediation; and

(7) the State will assist the Secretary in determining the number of migratory children under paragraph (1) of section 1133(a).

(d) **PRIORITY FOR SERVICES.**—In providing services with funds received under this subpart, each recipient of such funds shall give priority to migratory children who are failing, or most at risk of failing, to meet the State's academic standards under section 1111(b)(1).

(e) **CONTINUATION OF SERVICES.**—Notwithstanding any other provision of this subpart—

(1) a child who ceases to be a migratory child during a school term shall be eligible for services until the end of such term;

(2) a child who is no longer a migratory child may continue to receive services for one additional school year, but only if comparable services are not available through other programs; and

(3) secondary school students who were eligible for services in secondary school may continue to be served through credit accrual programs until graduation.

**SEC. 1135. SECRETARIAL APPROVAL; PEER REVIEW.**

The Secretary shall approve each State application that meets the requirements of this subpart, and may review any such application using a peer review process.

**SEC. 1136. COMPREHENSIVE NEEDS ASSESSMENT AND SERVICE-DELIVERY PLAN; AUTHORIZED ACTIVITIES.**

**(a) COMPREHENSIVE PLAN.—**

**(1) IN GENERAL.**—Each State that receives assistance under this subpart shall ensure that the State and its local operating agencies identify and address the unique educational needs of migratory children in accordance with a comprehensive State plan that—

(A) is integrated with other programs under this Act or other Acts, as appropriate;

(B) may be submitted as a part of a consolidated application under section 6302, if—

(i) the unique needs of migratory children are specifically addressed in the comprehensive State plan;

(ii) the comprehensive State plan is developed in collaboration with parents of migratory children; and

(iii) the comprehensive State plan is not used to supplant State efforts regarding, or administrative funding for, this subpart;

(C) provides that migratory children will have an opportunity to meet the same State academic standards under section 1111(b)(1) that all children are expected to meet;

(D) specifies measurable program goals and outcomes;

(E) encompasses the full range of services that are available for migratory children from appropriate local, State, and Federal educational programs;

(F) is the product of joint planning among such local, State, and Federal programs, including programs under subpart 1, early childhood programs, and language instruction educational programs under chapter A of subpart 4; and

(G) provides for the integration of services available under this subpart with services provided by such other programs.

**(2) DURATION OF THE PLAN.**—Each such comprehensive State plan shall—

(A) remain in effect for the duration of the State's participation under this subpart; and

(B) be periodically reviewed and revised by the State, as necessary, to reflect changes in the State's strategies and programs under this subpart.

**(b) AUTHORIZED ACTIVITIES.—**

**(1) FLEXIBILITY.**—In implementing the comprehensive plan described in subsection (a), each State educational agency, where applicable through its local educational agencies, retains the flexibility to determine the activities to be provided with funds made available under this subpart, except that such funds first shall be used to meet the identified needs of migratory children that result from their migratory lifestyle, and to permit these children to participate effectively in school.

**(2) UNADDRESSED NEEDS.**—Funds provided under this subpart shall be used to address the needs of migratory children that are not addressed by services available from other Federal or non-Federal programs, except that migratory children who are eligible to receive services under subpart 1 may receive those

services through funds provided under that subpart, or through funds under this subpart that remain after the agency addresses the needs described in paragraph (1).

(3) *CONSTRUCTION.*—Nothing in this subpart shall be construed to prohibit a local educational agency from serving migratory children simultaneously with students with similar educational needs in the same educational settings, where appropriate.

**SEC. 1137. BYPASS.**

The Secretary may use all or part of any State's allocation under this subpart to make arrangements with any public or private agency to carry out the purpose of this subpart in such State if the Secretary determines that—

- (1) the State is unable or unwilling to conduct educational programs for migratory children;
- (2) such arrangements would result in more efficient and economic administration of such programs; or
- (3) such arrangements would add substantially to the educational achievement of such children.

**SEC. 1138. COORDINATION OF MIGRATORY EDUCATION ACTIVITIES.**

(a) *IMPROVEMENT OF COORDINATION.*—

(1) *IN GENERAL.*—The Secretary, in consultation with the States, may make grants to, or enter into contracts with, State educational agencies, local educational agencies, institutions of higher education, and other public and private entities to improve the interstate and intrastate coordination among such agencies' educational programs, including through the establishment or improvement of programs for credit accrual and exchange, available to migratory students.

[(I) the amount that such State would have received under this part for fiscal year 2002 if its application under section 1304 for the year had been approved; plus

[(II) the amount allocated to the State under subparagraph (B).

[(B) ALLOCATION OF ADDITIONAL AMOUNT.—For fiscal year 2003 and succeeding fiscal years, the amount (if any) by which the funds appropriated to carry out this part for the year exceed such funds for fiscal year 2002 shall be allocated to a State (other than the Commonwealth of Puerto Rico) so that the State receives an amount equal to—

[(i) the sum of—

[(I) the number of identified eligible migratory children, aged 3 through 21, residing in the State during the previous year; and

[(b) ALLOCATION TO PUERTO RICO.—

[(1) IN GENERAL.—For each fiscal year, the grant which the Commonwealth of Puerto Rico shall be eligible to receive under this part shall be the amount determined by multiplying the number of children who would be counted under subsection (a)(1)(A) if such subsection applied to the Commonwealth of Puerto Rico by the product of—

[(A) the percentage which the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and

[(3) LIMITATION.—If the application of paragraph (2) for any fiscal year would result in any of the 50 States or the District of Columbia receiving less under this part than it received under this part for the preceding fiscal year, then the percentage described in paragraph (1)(A) that is used for the Commonwealth of Puerto Rico for the fiscal year for which the determination is made shall be the greater of the percentage in paragraph (1)(A) for such fiscal year or the percentage used for the preceding fiscal year.

[(c) RATABLE REDUCTIONS; REALLOCATIONS.—

[(1) IN GENERAL.—(A) If, after the Secretary reserves funds under section 1308(c), the amount appropriated to carry out this part for any fiscal year is insufficient to pay in full the amounts for which all States are eligible, the Secretary shall ratably reduce each such amount.

[(B) If additional funds become available for making such payments for any fiscal year, the Secretary shall allocate such funds to States in amounts that the Secretary determines will best carry out the purpose of this part.

[(2) SPECIAL RULE.—(A) The Secretary shall further reduce the amount of any grant to a State under this part for any fiscal year if the Secretary determines, based on available information on the numbers and needs of migratory children in the State and the program proposed by the State to address such needs, that such amount exceeds the amount required under section 1304.

[(B) The Secretary shall reallocate such excess funds to other States whose grants under this part would otherwise be insufficient to provide an appropriate level of services to migratory children, in such amounts as the Secretary determines are appropriate.

[(1) IN GENERAL.—In the case of a State that receives a grant of \$1,000,000 or less under this section, the Secretary shall consult with the State educational agency to determine whether consortium arrangements with another State or other appropriate entity would result in delivery of services in a more effective and efficient manner.

[(2) PROPOSALS.—Any State, regardless of the amount of such State's allocation, may submit a consortium arrangement to the Secretary for approval.

[(3) APPROVAL.—The Secretary shall approve a consortium arrangement under paragraph (1) or (2) if the proposal demonstrates that the arrangement will—

[(B) make more funds available for direct services to add substantially to the welfare or educational attainment of children to be served under this part.

[(e) DETERMINING NUMBERS OF ELIGIBLE CHILDREN.—In order to determine the estimated number of migratory children residing in each State for purposes of this section, the Secretary shall—

[(1) use such information as the Secretary finds most accurately reflects the actual number of migratory children;

[(2) develop and implement a procedure for more accurately reflecting cost factors for different types of summer and intersession program designs;

[(3) adjust the full-time equivalent number of migratory children who reside in each State to take into account—

[(A) the special needs of those children participating in special programs provided under this part that operate during the summer and intersession periods; and

[(A) any portion of such facility that is used for inpatient hospital treatment of individuals dependent on, or addicted to, drugs or alcohol; and

[(B) any private residence.

[(c) FEDERAL AGENCIES.—

[(1) KINDERGARTEN, ELEMENTARY, OR SECONDARY EDUCATION OR LIBRARY SERVICES.—After the date of enactment of the No Child Left Behind Act of 2001, no Federal agency shall permit smoking within any indoor facility in the United States operated by such agency, directly or by contract, to provide routine or regular kindergarten, elementary, or secondary education or library services to children.

[(2) HEALTH OR DAY CARE OR EARLY CHILDHOOD DEVELOPMENT SERVICES.—

[(A) IN GENERAL.—After the date of enactment of the No Child Left Behind Act of 2001, no Federal agency shall permit smoking within any indoor facility (or portion of such facility) operated by such agency, directly or by contract, to provide routine or regular health or day care or early childhood development (Head Start) services to children.

[(B) EXCEPTION.—Subparagraph (A) shall not apply to—

[(i) any portion of such facility that is used for inpatient hospital treatment of individuals dependent on, or addicted to, drugs or alcohol; and

[(ii) any private residence.

[(3) APPLICATION OF PROVISIONS.—The provisions of paragraph (2) shall also apply to the provision of such routine or regular kindergarten, elementary or secondary education or library services in the facilities described in paragraph (2) not subject to paragraph (1).

[(d) NOTICE.—The prohibitions in subsections (a) through (c) shall be published in a notice in the Federal Register by the Secretary (in consultation with the heads of other affected agencies) and by such agency heads in funding arrangements involving the provision of children's services administered by such heads. Such prohibitions shall be effective 90 days after such notice is published, or 270 days after the date of enactment of the No Child Left Behind Act of 2001, whichever occurs first.

[(e) CIVIL PENALTIES.—

[(1) IN GENERAL.—Any failure to comply with a prohibition in this section shall be considered to be a violation of this section and any person subject to such prohibition who commits such violation may be liable to the United States for a civil penalty in an amount not to exceed \$1,000 for each violation, or may be subject to an administrative compliance order, or both, as determined by the Secretary. Each day a violation continues shall constitute a separate violation. In the case of any civil penalty assessed under this section, the total amount shall not exceed 50 percent of the amount of Federal funds received under any title of this Act by such person for the fiscal year in which the continuing violation occurred. For the purpose of the prohibition in subsection (c), the term "person", as used in this paragraph, shall mean the head of the applicable Federal agency or the contractor of such agency providing the services to children.

[(2) ADMINISTRATIVE PROCEEDING.—A civil penalty may be assessed in a written notice, or an administrative compliance order may be issued under paragraph (1), by the Secretary only after an opportunity for a hearing in accordance with section 554 of title 5, United States Code. Before making such assessment or issuing such order, or both, the Secretary shall give written notice of the assessment or order to such person by certified mail with return receipt and provide information in the notice of an opportunity to request in writing, not later than 30 days after the date of receipt of such notice, such hearing. The notice shall reasonably describe the violation and be accompanied with the procedures for such hearing and a simple form that may be used to request such hearing if such person desires to use such form. If a hearing is requested, the Secretary shall establish by such certified notice the time and place for such hearing, which shall be located, to the greatest extent possible, at a location convenient to such person. The Secretary (or the Secretary's designee) and such person may consult to arrange a suitable date and location where appropriate.

[(3) CIRCUMSTANCES AFFECTING PENALTY OR ORDER.—In determining the amount of the civil penalty or the nature of the administrative compliance order, the Secretary shall take into account, as appropriate—

[(A) the nature, circumstances, extent, and gravity of the violation;

[(B) with respect to the violator, any good faith efforts to comply, the importance of achieving early and permanent compliance, the ability to pay or comply, the effect of the penalty or order on the ability to continue operation, any prior history of the same kind of violation, the degree of culpability, and any demonstration of willingness to comply with the prohibitions of this section in a timely manner; and

[(4) MODIFICATION.—The Secretary may, as appropriate, compromise, modify, or remit, with or without conditions, any civil penalty or administrative compliance order. In the case of a civil penalty, the amount, as finally determined by the Secretary or agreed upon in compromise, may be deducted from any sums that the United States or the agencies or instrumentalities of the United States owe to the person against whom the penalty is assessed.

[(5) PETITION FOR REVIEW.—Any person aggrieved by a penalty assessed or an order issued, or both, by the Secretary under this section may file a petition for judicial review of the order with the United States Court of Appeals for the District of Columbia Circuit or for any other circuit in which the person resides or transacts business. Such person shall provide a copy of the petition to the Secretary or the Secretary's designee. The petition shall be filed within 30 days after the Secretary's assessment or order, or both, are final and have been provided to such person by certified mail. The Secretary shall promptly provide to the court a certified copy of the transcript of any hearing held under this section and a copy of the notice or order.

[(6) FAILURE TO COMPLY.—If a person fails to pay an assessment of a civil penalty or comply with an order, after the assessment or order, or both, are final under this section, or after a court has entered a final judgment under paragraph (5) in favor of the Secretary, the Attorney General, at the request of the Secretary, shall recover the amount of the civil penalty (plus interest at prevailing rates from the day the assessment or order, or both, are final) or enforce the order in an action brought in the appropriate district court of the United States. In such action, the validity and appropriateness of the penalty or order or the amount of the penalty shall not be subject to review.

## **[TITLE V—PROMOTING INFORMED PARENTAL CHOICE AND INNOVATIVE PROGRAMS**

### **[PART A—INNOVATIVE PROGRAMS**

#### **[SEC. 5101. PURPOSES, STATE AND LOCAL RESPONSIBILITY.**

[(a) PURPOSES.—The purposes of this part are the following:

[(1) To support local education reform efforts that are consistent with and support statewide education reform efforts.

[(2) To provide funding to enable State educational agencies and local educational agencies to implement promising educational reform programs and school improvement programs based on scientifically based research.

[(3) To provide a continuing source of innovation and educational improvement, including support programs to provide library services and instructional and media materials.

[(4) To meet the educational needs of all students, including at-risk youth.

[(5) To develop and implement education programs to improve school, student, and teacher performance, including professional development activities and class size reduction programs.

[(b) STATE AND LOCAL RESPONSIBILITY.—The State educational agency shall bear the basic responsibility for the administration of funds made available under this part, but it is the intent of Congress that the responsibility be carried out with a minimum of paperwork and that the responsibility for the design and implementation of programs assisted under this part be mainly that of local educational agencies, school superintendents and principals, and classroom teachers and supporting personnel, because local educational agencies and individuals have the most direct contact with students and are most likely to be able to design programs to meet the educational needs of students in their own school districts.

### **[Subpart 1—State and Local Programs**

#### **[SEC. 5111. ALLOTMENT TO STATES.**

[(a) IN GENERAL.—From the sums appropriated to carry out this part for each fiscal year and not reserved under subsection (b), the Secretary shall allot, and make available in accordance with this part, to each State educational agency an amount that bears the same ratio to such sums as the school-age population of the State bears to the school-age population of all States, except that no State shall receive less than an amount equal to one-half of 1 percent of such sums.

[(b) RESERVATION.—From the sums appropriated to carry out this part for each fiscal year, the Secretary shall reserve not more than 1 percent for payments to the outlying areas, to be allotted in accordance with their respective needs for assistance under this part.

#### **[SEC. 5112. ALLOCATION TO LOCAL EDUCATIONAL AGENCIES.**

[(a) DISTRIBUTION RULE.—

[(1) ALLOCATION OF BASE AMOUNTS.—From the amount made available to a State educational agency under this part for a fiscal year, the State educational agency shall distribute, to local educational agencies within the State, an amount that is not less than 85 percent of the amount made available to the State educational agency under this part for fiscal year 2002, according to the relative enrollments in public and in private nonprofit schools within the jurisdictions of such local educational agencies, adjusted, in accordance with criteria approved by the Secretary, to provide higher per-pupil allocations to local educational agencies that have the greatest numbers or percentages of children whose education imposes a higher-than-average cost per child, such as—

[(A) children living in areas with high concentrations of economically disadvantaged families;

[(B) children from economically disadvantaged families; and

[(C) children living in sparsely populated areas.

[(2) ALLOCATION OF INCREASED AMOUNTS.—From the amount made available to a State educational agency under this part for a fiscal year that exceeds the amount made available to the agency under this part for fiscal year 2002, the State educational agency shall distribute 100 percent (or, in the case of a State educational agency receiving a minimum allotment under section 5111(a), not less than 50 percent, notwithstanding subsection (b)) to local educational agencies within the State, on the same basis as the State educational agency distributes amounts under paragraph (1).

[(b) LIMITATIONS AND REQUIREMENTS.—Not more than 15 percent of funds made available under section 5111 for State programs under this part for any fiscal year may be used for State administration under section 5121.

[(A) the number of children enrolled in public schools; and

[(B) the number of children enrolled in private nonprofit schools that participated in programs assisted under this part, for the fiscal year preceding the fiscal year for which the determination is made.

[(2) RULE OF CONSTRUCTION.—Nothing in this subsection shall diminish the responsibility of each local educational agency to contact, on an annual basis, appropriate officials from private nonprofit schools within the areas served by such agencies in order to determine whether such schools desire that their children participate in programs assisted under this part.

[(3) ADJUSTMENTS.—

[(A) STATE CRITERIA.—Relative enrollments calculated under subsection (a)(1) shall be adjusted, in accordance with criteria approved by the Secretary under subparagraph (B), to provide higher per-pupil allocations only to local educational agencies that serve the greatest numbers or percentages of—

[(i) children living in areas with high concentrations of economically disadvantaged families;

[(ii) children from economically disadvantaged families; or

[(iii) children living in sparsely populated areas.

[(B) REVIEW OF CRITERIA.—The Secretary shall review criteria submitted by a State educational agency for adjusting allocations under paragraph (1) and shall approve such criteria only if the Secretary determines that such criteria are reasonably calculated to produce an adjusted allocation that reflects the relative needs of the State's local educational agencies based on the factors set forth in subparagraph (A).

[(d) PAYMENT OF ALLOCATIONS.—

[(1) DISTRIBUTION.—From the funds paid to a State educational agency under this subpart for a fiscal year, the State educational agency shall distribute to each eligible local educational agency that has submitted an application as required by section 5133 the amount of such local educational agency's allocation, as determined under subsection (a).

[(2) ADDITIONAL FUNDS.—

[(A) USE.—Additional funds resulting from higher per-pupil allocations provided to a local educational agency on the basis of adjusted enrollments of children described in subsection (a)(1) may, in the discretion of the local educational agency, be allocated for expenditures to provide services for children enrolled in public schools and private nonprofit schools in direct proportion to the number of children described in subsection (a)(1) and enrolled in such schools within the area served by the local educational agency.

[(B) ALLOCATION.—In any fiscal year, any local educational agency that elects to allocate such additional funds in the manner described in subparagraph (A) shall allocate all additional funds to schools within the area served by the local educational agency in such manner.

[(C) RULE OF CONSTRUCTION.—Subparagraphs (A) and (B) may not be construed to require any school to limit the use of the additional funds described in subparagraph (A) to the provision of services to specific students or categories of students.

[(b) REDUCTION OF FUNDS.—The Secretary shall reduce the amount of the allotment of funds under this part in any fiscal year in the exact proportion by which the State educational agency fails to meet the requirements of subsection (a) by falling below 90 percent of the fiscal effort per student or aggregate expenditures (using the measure most favorable to the State educational agency), and no such lesser amount shall be used for computing the effort or expenditures required under paragraph (1) for subsequent years.

[(c) WAIVER.—The Secretary may waive, for 1 fiscal year only, the requirements of this section, if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State educational agency.

**[SEC. 5142. PARTICIPATION OF CHILDREN ENROLLED IN PRIVATE SCHOOLS.**

[(a) PARTICIPATION ON EQUITABLE BASIS.—

[(1) IN GENERAL.—To the extent consistent with the number of children in the school district of a local educational agency that is eligible to receive funds under this part, or that serves the area in which a program assisted under this part is located, who are enrolled in private nonprofit elementary schools and secondary schools, or, with respect to instructional or personnel training programs funded by the State educational agency from funds made available for State educational agency use, the local educational agency, after consultation with appropriate private school officials—

[(2) OTHER PROVISIONS FOR SERVICES.—If no program is carried out under paragraph (1) in the school district of a local educational agency, the State educational agency shall make arrangements, such as through contracts with nonprofit agencies or organizations, under which children in private schools in the district are provided with services and materials to the same extent as would have occurred if the local educational agency had received funds under this part.

[(3) APPLICATION OF REQUIREMENTS.—The requirements of this section relating to the participation of children, teachers, and other personnel serving such children shall apply to pro-

grams carried out under this part by a State educational agency or local educational agency, whether directly or through grants to, or contracts with, other public or private agencies, institutions, or organizations.

[(b) EQUAL EXPENDITURES.—

[(1) IN GENERAL.—Expenditures for programs under subsection (a) shall be equal (consistent with the number of children to be served) to expenditures for programs under this part for children enrolled in the public schools of the local educational agency.

[(2) CONCENTRATED PROGRAMS.—Taking into account the needs of the individual children and other factors that relate to the expenditures referred to in paragraph (1), and when funds available to a local educational agency under this part are used to concentrate programs on a particular group, attendance area, or grade or age level, children enrolled in private schools who are included within the group, attendance area, or grade or age level selected for such concentration shall, after consultation with the appropriate private school officials, be assured equitable participation in the purposes and benefits of such programs.

[(c) ADMINISTRATIVE REQUIREMENTS.—

[(1) FUNDS AND PROPERTY.—The control of funds provided under this part, and title to materials, equipment, and property repaired, remodeled, or constructed with such funds, shall be in a public agency for the uses and purposes provided in this part, and a public agency shall administer such funds and property.

[(2) PROVISION OF SERVICES.—Services provided under this part shall be provided by employees of a public agency or through contract by such a public agency with a person, association, agency, or corporation that, in the provision of such services, is independent of the private school and of any religious organizations, and such employment or contract shall be under the control and supervision of such a public agency. The funds provided under this part shall not be commingled with State or local funds.

[(d) WAIVER.—

[(1) STATE PROHIBITION.—If a State educational agency or local educational agency is prohibited, by reason of any provision of law, from providing for the participation in programs of children enrolled in private elementary schools and secondary schools as required by subsections (a) through (c), the Secretary shall waive such requirements for the agency involved and shall arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section.

[(2) FAILURE TO COMPLY.—If the Secretary determines that a State educational agency or a local educational agency has substantially failed, or is unwilling, to provide for the participation on an equitable basis of children enrolled in private elementary schools and secondary schools as required by subsections (a) through (c), the Secretary may waive such requirements and shall arrange for the provision of services to such

children through arrangements that shall be subject to the requirements of this section.

[(e) WITHHOLDING OF ALLOTMENT OR ALLOCATION.—Pending final resolution of any investigation or complaint that could result in a waiver under subsection (d)(1) or (d)(2), the Secretary may withhold from the allotment or allocation of the affected State educational agency or local educational agency the amount estimated by the Secretary to be necessary to pay the cost of services to be provided by the Secretary under such subsection.

[(f) DURATION OF DETERMINATION.—Any determination by the Secretary under this section shall continue in effect until the Secretary determines that there will no longer be any failure or inability on the part of the State educational agency or local educational agency to meet the requirements of subsections (a) through (c).

[(g) PAYMENT FROM STATE ALLOTMENT.—When the Secretary arranges for services under subsection (d), the Secretary shall, after consultation with the appropriate public school and private school officials, pay the cost of such services, including the administrative costs of arranging for those services, from the appropriate allotment of the State educational agency under this part.

[(h) REVIEW OF DETERMINATION.—

[(1) WRITTEN OBJECTIONS.—The Secretary shall not take any final action under this section until the State educational agency and the local educational agency affected by such action have had an opportunity, for not less than 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or the Secretary's designee to show cause why that action should not be taken.

[(2) COURT ACTION.—If a State educational agency or local educational agency is dissatisfied with the Secretary's final action after a proceeding under paragraph (1), such agency may, not later than 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which the Secretary based the action, as provided in section 2112 of title 28, United States Code.

[(3) REMAND TO SECRETARY.—The findings of fact by the Secretary with respect to a proceeding under paragraph (1), if supported by substantial evidence, shall be conclusive. The court, for good cause shown, may remand the case to the Secretary to take further evidence and the Secretary may make new or modified findings of fact and may modify the Secretary's previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive, if supported by substantial evidence.

[(4) COURT REVIEW.—Upon the filing of a petition under paragraph (2), the court shall have jurisdiction to affirm the action of the Secretary or to set such action aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court upon certiorari or certification, as provided in section 1254 of title 28, United States Code.

[(i) PRIOR DETERMINATION.—Any bypass determination by the Secretary under title VI (as such title was in effect on the day preceding the date of enactment of the No Child Left Behind Act of 2001) shall, to the extent consistent with the purposes of this part, apply to programs under this part.

**[SEC. 5143. FEDERAL ADMINISTRATION.]**

[(a) TECHNICAL ASSISTANCE.—The Secretary, upon request, shall provide technical assistance to State educational agencies and local educational agencies under this part.

[(b) RULEMAKING.—The Secretary shall issue regulations under this part only to the extent that such regulations are necessary to ensure that there is compliance with the specific requirements and assurances required by this part.

[(c) AVAILABILITY OF APPROPRIATIONS.—Notwithstanding any other provision of law, unless expressly in limitation of this subsection, funds appropriated in any fiscal year to carry out programs under this part shall become available for obligation on July 1 of such fiscal year and shall remain available for obligation until the end of the subsequent fiscal year.

**[SEC. 5144. SUPPLEMENT, NOT SUPPLANT.]**

## **[PART C—MAGNET SCHOOLS ASSISTANCE**

**[SEC. 5301. FINDINGS AND PURPOSE.**

[(a) FINDINGS.—Congress makes the following findings:

[(1) Magnet schools are a significant part of the Nation's effort to achieve voluntary desegregation in our Nation's schools.

[(2) The use of magnet schools has increased dramatically since the inception of the magnet schools assistance program under this Act, with approximately 2,000,000 students nationwide attending such schools, of whom more than 65 percent are non-white.

[(3) Magnet schools offer a wide range of distinctive programs that have served as models for school improvement efforts.

[(4) It is in the best interests of the United States—

[(A) to continue the Federal Government's support of local educational agencies that are implementing court-ordered desegregation plans and local educational agencies that are voluntarily seeking to foster meaningful interaction among students of different racial and ethnic backgrounds, beginning at the earliest stage of such students' education;

[(B) to ensure that all students have equitable access to a high quality education that will prepare all students to function well in a technologically oriented and a highly competitive economy comprised of people from many different racial and ethnic backgrounds; and

[(C) to continue to desegregate and diversify schools by supporting magnet schools, recognizing that segregation exists between minority and nonminority students as well as among students of different minority groups.

[(5) Desegregation efforts through magnet school programs are a significant part of our Nation's effort to achieve voluntary desegregation in schools and help to ensure equal educational opportunities for all students.

[(b) PURPOSE.—The purpose of this part is to assist in the desegregation of schools served by local educational agencies by providing financial assistance to eligible local educational agencies for—

[(1) the elimination, reduction, or prevention of minority group isolation in elementary schools and secondary schools with substantial proportions of minority students, which shall include assisting in the efforts of the United States to achieve voluntary desegregation in public schools;

[(2) the development and implementation of magnet school programs that will assist local educational agencies in achieving systemic reforms and providing all students the opportunity to meet challenging State academic content standards and student academic achievement standards;

[(3) the development and design of innovative educational methods and practices that promote diversity and increase choices in public elementary schools and public secondary schools and public educational programs;

[(4) courses of instruction within magnet schools that will substantially strengthen the knowledge of academic subjects and the attainment of tangible and marketable vocational, technological, and professional skills of students attending such schools;

[(5) improving the capacity of local educational agencies, including through professional development, to continue operating magnet schools at a high performance level after Federal funding for the magnet schools is terminated; and

[(6) ensuring that all students enrolled in the magnet school programs have equitable access to high quality education that will enable the students to succeed academically and continue with postsecondary education or productive employment.

**[SEC. 5302. DEFINITION.**

## **[Subpart 12—Educational, Cultural, Apprenticeship, and Exchange Programs for Alaska Natives, Native Hawaiians, and Their Historical Whaling and Trading Partners in Massachusetts]**

### **[SEC. 5521. SHORT TITLE.]**

[This subpart may be cited as the “Alaska Native and Native Hawaiian Education Through Cultural and Historical Organizations Act”.

### **[SEC. 5522. FINDINGS AND PURPOSES.]**

[(a) FINDINGS.—Congress finds the following:

[(1) Alaska Natives and Native Hawaiians have been linked for over 200 years to the coastal towns of Salem, Massachusetts, and New Bedford, Massachusetts, through the China trade from Salem and whaling voyages from New Bedford.

[(2) Nineteenth-century trading ships sailed from Salem, Massachusetts, around Cape Horn of South America, and up the Northwest coast of the United States to Alaska, where their crews traded with Alaska Native people for furs, and then went on to Hawaii to trade for sandalwood with Native Hawaiians before going on to China.

[(3) During the 19th century, over 2,000 whaling voyages sailed out of New Bedford, Massachusetts to the Arctic region of Alaska, and joined Alaska Natives from Barrow, Alaska and other areas in the Arctic region in subsistence whaling activities.

[(4) Many New Bedford whaling voyages continued on to Hawaii, where they joined Native Hawaiians from the neighboring islands.

[(5) From those commercial and whaling voyages, a rich cultural exchange and strong trading relationships developed among the three peoples involved.

[(6) In the past decades, awareness of the historical trading, cultural, and whaling links has faded among Alaska Natives, Native Hawaiians, and the people of the continental United States.

[(7) In 2000, the Alaska Native Heritage Center in Alaska, the Bishop Museum in Hawaii, and the Peabody-Essex Museum in Massachusetts initiated the New Trade Winds project to use 21st-century technology, including the Internet, to educate students and their parents about historic and contemporary cultural and trading ties that continue to link the diverse cultures of the peoples involved.

[(8) The New Bedford Whaling Museum, in partnership with the New Bedford Whaling National Historical Park, has developed a cultural exchange and educational program with the Inupiat Heritage Center in Barrow, Alaska to bring together the children, parents, and elders from the Arctic region of Alaska with children and families of Massachusetts to learn about their historical ties and about each other's contemporary cultures.

[(9) Within the fast-growing cultural sector, meaningful educational and career opportunities based on traditional relationships exist for Alaska Natives, Native Hawaiians, and low-income youth in Massachusetts.

[(10) Cultural institutions can provide practical, culturally relevant, education-related internship and apprentice programs, such as the Museum Action Corps at the Peabody-Essex Museum and similar programs at the New Bedford Oceanarium and other institutions, to prepare youths and their families for careers in the cultural sector.

[(11) The resources of the institutions described in paragraphs (7) and (8) provide unique opportunities for illustrating and interpreting the contributions of Alaska Natives, Native Hawaiians, the whaling industry, and the China trade to the economic, social, and environmental history of the United States, for educating students and their parents, and for providing opportunities for internships and apprenticeships leading to careers with cultural institutions.

[(b) PURPOSES.—The purposes of this subpart are the following:

[(1) To authorize and develop innovative culturally-based educational programs and cultural exchanges to assist Alaska Natives, Native Hawaiians, and children and families of Massachusetts linked by history and tradition to Alaska and Hawaii to learn about shared culture and traditions.

[(2) To authorize and develop internship and apprentice programs to assist Alaska Natives, Native Hawaiians, and children and families of Massachusetts linked by history and tradition with Alaska and Hawaii to prepare for careers with cultural institutions.

[(3) To supplement programs and authorities in the area of education to further the objectives of this subpart.

[(8) Cultural and educational organizations with experience in developing or operating programs that illustrate and interpret the contributions of Alaska Natives, Native Hawaiians, the whaling industry, and the China trade to the economic, social, and environmental history of the United States.

[(9) Consortia of the organizations and entities described in this subsection.

[(b) USES OF FUNDS.—Activities provided through programs carried out under this subpart may include one or more of the following:

[(3) Cultural exchanges of elders, students, parents, and teachers among Alaska Natives, Native Hawaiians, and the people of Massachusetts to increase awareness of diverse cultures among each group.

[(4) Sharing of collections among cultural institutions designed to increase awareness of diverse cultures and links among them.

Nothing in subsection (b) shall be construed to require the furnishing of an enrollment number.

[(f) MONITORING AND EVALUATION REVIEW.—

[(1) IN GENERAL.—

[(A) REVIEW.—For each fiscal year, in order to provide such information as is necessary to carry out the responsibility of the Secretary to provide technical assistance under this subpart, the Secretary shall conduct a monitoring and evaluation review of a sampling of the recipients of grants under this subpart. [(2) A count of the number of students for whom the school has eligibility forms that comply with this section.

[(h) TIMING OF CHILD COUNTS.—For purposes of determining the number of children to be counted in calculating the amount of a local educational agency's grant under this subpart (other than in the case described in subsection (g)(1)), the local educational agency shall—

[(2) FAILURE TO MAINTAIN EFFORT.—If, for the preceding fiscal year, the Secretary determines that a local educational agency and State failed to maintain the combined fiscal effort for such agency at the level specified in paragraph (1), the Secretary shall—

[(A) reduce the amount of the grant that would otherwise be made to such agency under this subpart in the exact proportion of the failure to maintain the fiscal effort at such level; and

[(3) WAIVER.—

[(A) IN GENERAL.—The Secretary may waive the requirement of paragraph (1) for a local educational agency, for not more than 1 year at a time, if the Secretary determines that the failure to comply with such requirement is due to exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the agency's financial resources.

[(B) FUTURE DETERMINATIONS.—The Secretary shall not use the reduced amount of the agency's expenditures for the fiscal year preceding the fiscal year for which a waiver is granted to determine compliance with paragraph (1) for any succeeding fiscal year, but shall use the amount of expenditures that would have been required to comply with paragraph (1) in the absence of the waiver.

[(d) REALLOCATIONS.—The Secretary may reallocate, in a manner that the Secretary determines will best carry out the purpose of this subpart, any amounts that—

**[PART B—NATIVE HAWAIIAN EDUCATION****[SEC. 7201. SHORT TITLE.**

[This part may be cited as the “Native Hawaiian Education Act”.

**[SEC. 7202. FINDINGS.**

[Congress finds the following:

[(1) Native Hawaiians are a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago, whose society was organized as a nation and internationally recognized as a nation by the United States, Britain, France, and Japan, as evidenced by treaties governing friendship, commerce, and navigation.

[(2) At the time of the arrival of the first nonindigenous people in Hawaii in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient subsistence social system based on a communal land tenure system with a sophisticated language, culture, and religion.

[(3) A unified monarchal government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawaii.

[(4) From 1826 until 1893, the United States recognized the sovereignty and independence of the Kingdom of Hawaii, which was established in 1810 under Kamehameha I, extended full and complete diplomatic recognition to the Kingdom of Hawaii, and entered into treaties and conventions with the Kingdom of Hawaii to govern friendship, commerce and navigation in 1826, 1842, 1849, 1875, and 1887.

[(5) In 1893, the sovereign, independent, internationally recognized, and indigenous government of Hawaii, the Kingdom of Hawaii, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative, and armed naval forces of the United States. Because of the participation of United States agents and citizens in the overthrow of the Kingdom of Hawaii, in 1993 the United States apologized to Native Hawaiians for the overthrow and the deprivation of the rights of Native Hawaiians to self-determination through Public Law 103–150 (107 Stat. 1510).

[(6) In 1898, the joint resolution entitled “Joint Resolution to provide for annexing the Hawaiian Islands to the United States”, approved July 7, 1898 (30 Stat. 750), ceded absolute title of all lands held by the Republic of Hawaii, including the government and crown lands of the former Kingdom of Hawaii, to the United States, but mandated that revenue generated

from the lands be used “solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes”.

[(7) By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,600, and in recognition of this severe decline, Congress enacted the Hawaiian Homes Commission Act, 1920 (42 Stat. 108), which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.

[(8) Through the enactment of the Hawaiian Homes Commission Act, 1920, Congress affirmed the special relationship between the United States and the Native Hawaiians, which was described by then Secretary of the Interior Franklin K. Lane, who said: “One thing that impressed me... was the fact that the natives of the island who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty.”.

[(9) In 1938, Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781, chapter 530; 16 U.S.C. 391b, 391b-1, 392b, 392c, 396, 396a), a provision to lease lands within the National Parks extension to Native Hawaiians and to permit fishing in the area “only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance.”.

[(10) Under the Act entitled “An Act to provide for the admission of the State of Hawaii into the Union”, approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawaii but reaffirmed the trust relationship between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges and amendments to such Act affecting the rights of beneficiaries under such Act.

[(11) In 1959, under the Act entitled “An Act to provide for the admission of the State of Hawaii into the Union”, the United States also ceded to the State of Hawaii title to the public lands formerly held by the United States, but mandated that such lands be held by the State “in public trust” and reaffirmed the special relationship that existed between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawaii for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.

[(12) The United States has recognized and reaffirmed that—

[(A) Native Hawaiians have a cultural, historic, and land-based link to the indigenous people who exercised sovereignty over the Hawaiian Islands, and that group has never relinquished its claims to sovereignty or its sovereign lands;

[(B) Congress does not extend services to Native Hawaiians because of their race, but because of their unique status as the indigenous people of a once sovereign nation as

to whom the United States has established a trust relationship;

[(C) Congress has also delegated broad authority to administer a portion of the Federal trust responsibility to the State of Hawaii;

[(D) the political status of Native Hawaiians is comparable to that of American Indians and Alaska Natives; and

[(E) the aboriginal, indigenous people of the United States have—

[(i) a continuing right to autonomy in their internal affairs; and

[(ii) an ongoing right of self-determination and self-governance that has never been extinguished.

[(13) The political relationship between the United States and the Native Hawaiian people has been recognized and reaffirmed by the United States, as evidenced by the inclusion of Native Hawaiians in—

[(A) the Native American Programs Act of 1974 (42 U.S.C. 2991 et seq.);

[(B) the American Indian Religious Freedom Act (42 U.S.C. 1996);

[(C) the National Museum of the American Indian Act (20 U.S.C. 80q et seq.);

[(D) the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 et seq.);

[(E) division A of subtitle III of title 54, United States Code;

[(F) the Native American Languages Act (25 U.S.C. 2901 et seq.);

[(G) the American Indian, Alaska Native, and Native Hawaiian Culture and Art Development Act (20 U.S.C. 4401 et seq.);

[(H) the Workforce Investment Act of 1998 (29 U.S.C. 2801 et seq.); and

[(I) the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.).

[(14) In 1981, Congress instructed the Office of Education to submit to Congress a comprehensive report on Native Hawaiian education. The report, entitled the “Native Hawaiian Educational Assessment Project”, was released in 1983 and documented that Native Hawaiians scored below parity with regard to national norms on standardized achievement tests, were disproportionately represented in many negative social and physical statistics indicative of special educational needs, and had educational needs that were related to their unique cultural situation, such as different learning styles and low self-image.

[(15) In recognition of the educational needs of Native Hawaiians, in 1988, Congress enacted title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (102 Stat. 130) to authorize and develop supplemental educational programs to address the unique conditions of Native Hawaiians.

[(16) In 1993, the Kamehameha Schools Bishop Estate released a 10-year update of findings of the Native Hawaiian

Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still existed for Native Hawaiians. Subsequent reports by the Kamehameha Schools Bishop Estate and other organizations have generally confirmed those findings. For example—

[(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including—

[(i) late or no prenatal care;

[(ii) high rates of births by Native Hawaiian women who are unmarried; and

[(iii) high rates of births to teenage parents;

[(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;

[(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;

[(D) both public and private schools continue to show a pattern of lower percentages of Native Hawaiian students in the uppermost achievement levels and in gifted and talented programs;

[(E) Native Hawaiian students continue to be overrepresented among students qualifying for special education programs provided to students with learning disabilities, mild intellectual disabilities, emotional impairment, and other such disabilities;

[(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed four or more years of college;

[(G) Native Hawaiians continue to be disproportionately represented in many negative social and physical statistics indicative of special educational needs, as demonstrated by the fact that—

[(i) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;

[(ii) Native Hawaiian students have the highest rates of drug and alcohol use in the State of Hawaii; and

[(iii) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect; and

[(H) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawaii Department of Education, and there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.

[(17) In the 1998 National Assessment of Educational Progress, Hawaiian fourth-graders ranked 39th among groups of students from 39 States in reading. Given that Hawaiian students rank among the lowest groups of students nationally in reading, and that Native Hawaiian students rank the lowest

among Hawaiian students in reading, it is imperative that greater focus be placed on beginning reading and early education and literacy in Hawaii.

[(18) The findings described in paragraphs (16) and (17) are inconsistent with the high rates of literacy and integration of traditional culture and Western education historically achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.

[(19) Following the overthrow of the Kingdom of Hawaii in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period of Hawaii, and until 1986, use of the Hawaiian language as an instructional medium in education in public schools was declared unlawful. The declaration caused incalculable harm to a culture that placed a very high value on the power of language, as exemplified in the traditional saying: “I ka ‘olelo no ke ola; I ka ‘olelo no ka make. In the language rests life; In the language rests death.”.

[(20) Despite the consequences of over 100 years of non-indigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their ancestral territory and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

[(21) The State of Hawaii, in the constitution and statutes of the State of Hawaii—

[(A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, and language;

[(B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawaii, which may be used as the language of instruction for all subjects and grades in the public school system; and

[(C) promotes the study of the Hawaiian culture, language, and history by providing a Hawaiian education program and using community expertise as a suitable and essential means to further the program.

## **[PART C—ALASKA NATIVE EDUCATION]**

### **[SEC. 7301. SHORT TITLE.]**

[(This part may be cited as the “Alaska Native Educational Equity, Support, and Assistance Act”).

### **[SEC. 7302. FINDINGS.]**

[(Congress finds and declares the following:

[(1) The attainment of educational success is critical to the betterment of the conditions, long-term well-being, and preservation of the culture of Alaska Natives.

[(2) It is the policy of the Federal Government to encourage the maximum participation by Alaska Natives in the planning and the management of Alaska Native education programs.

[(3) Alaska Native children enter and exit school with serious educational handicaps.

[(4) The educational achievement of Alaska Native children is far below national norms. Native performance on standardized tests is low, Native student dropout rates are high, and Natives are significantly underrepresented among holders of baccalaureate degrees in the State of Alaska. As a result, Native students are being denied their opportunity to become full participants in society by grade school and high school educations that are condemning an entire generation to an underclass status and a life of limited choices.

[(5) The programs authorized in this part, combined with expanded Head Start, infant learning, and early childhood education programs, and parent education programs, are essential if educational handicaps are to be overcome.

[(6) The sheer magnitude of the geographic barriers to be overcome in delivering educational services in rural Alaska and Alaska villages should be addressed through the development and implementation of innovative, model programs in a variety of areas.

[(7) Native children should be afforded the opportunity to begin their formal education on a par with their non-Native peers. The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

**[SEC. 7303. PURPOSES.**

[(The purposes of this part are as follows:

## TITLE [VIII] IV—IMPACT AID

### SEC. [8001.] 4001. PURPOSE.

In order to fulfill the Federal responsibility to assist with the provision of educational services to federally connected children in a manner that promotes control by local educational agencies with little or no Federal or State involvement, because certain activities of the Federal Government, such as activities to fulfill the responsibilities of the Federal Government with respect to Indian tribes and activities under section 511 of the Servicemembers Civil Relief Act, place a financial burden on the local educational agencies serving areas where such activities are carried out, and to help such children meet [challenging State standards] *State academic standards*, it is the purpose of this title to provide financial assistance to local educational agencies that—

- (1) experience a substantial and continuing financial burden due to the acquisition of real property by the United States;
- (2) educate children who reside on Federal property and whose parents are employed on Federal property;
- (3) educate children of parents who are in the military services and children who live in low-rent housing;
- (4) educate heavy concentrations of children whose parents are civilian employees of the Federal Government and do not reside on Federal property; or
- (5) need special assistance with capital expenditures for construction activities because of the enrollments of substantial numbers of children who reside on Federal lands and because of the difficulty of raising local revenue through bond referendums for capital projects due to the inability to tax Federal property.

### SEC. [8002.] 4002. PAYMENTS RELATING TO FEDERAL ACQUISITION OF REAL PROPERTY.

(a) IN GENERAL.—Where the Secretary, after consultation with any local educational agency and with the appropriate State educational agency, determines—

- (1) that the United States owns Federal property in the local educational agency, and that such property—
  - (A) has been acquired by the United States since 1938;
  - (B) was not acquired by exchange for other Federal property in the local educational agency which the United States owned before 1939; and
  - (C) [had an assessed value (determined as of the time or times when so acquired) aggregating 10 percent or more of the assessed value of—] *had an assessed value according to original records (including facsimiles or other reproductions of those records) documenting the assessed value of such property (determined as of the time or times when so acquired) prepared by the local officials referred to in subsection (b)(3) or, when such original records are not available due to unintentional destruction (such as natural disaster, fire, flooding, pest infestation, or deterioration due to age), other records, including Federal agency records, local historical records, or other records that the Secretary*

*determines to be appropriate and reliable, aggregating 10 percent or more of the assessed value of—*

(i) all real property in the local educational agency (similarly determined as of the time or times when such Federal property was so acquired); or

(ii) all real property in the local educational agency as assessed in the first year preceding or succeeding acquisition, whichever is greater, only if—

(I) the assessment of all real property in the local educational agency is not made at the same time or times that such Federal property was so acquired and assessed; and

(II) State law requires an assessment be made of property so acquired; and

(2) that such agency is not being substantially compensated for the loss in revenue resulting from such ownership by increases in revenue accruing to the agency from the conduct of Federal activities with respect to such Federal property, then such agency shall be eligible to receive the amount described in subsection (b) or (h).

(b) AMOUNT.—

(1) IN GENERAL.—(A)(i)(I) Subject to subclauses (II) and (III), the amount that a local educational agency shall be paid under subsection (a) for a fiscal year shall be calculated in accordance with paragraph (2).

(II) Except as provided in subclause (III), the Secretary may not reduce the amount of a payment under this section to a local educational agency for a fiscal year by (aa) the amount equal to the amount of revenue, if any, the agency received during the previous fiscal year from activities conducted on Federal property eligible under this section and located in a school district served by the agency, including amounts received from any Federal department or agency (other than the Department of Education) from such activities, by reason of receipt of such revenue, or (bb) any other amount by reason of receipt of such revenue.

(III) If the amount equal to the sum of (aa) the proposed payment under this section to a local educational agency for a fiscal year and (bb) the amount of revenue described in subclause (II)(aa) received by the agency during the previous fiscal year, exceeds the maximum amount the agency is eligible to receive under this section for the fiscal year involved, then the Secretary shall reduce the amount of the proposed payment under this section by an amount equal to such excess amount.

(ii) For purposes of clause (i), the amount of revenue that a local educational agency receives during the previous fiscal year from activities conducted on Federal property shall not include payments received by the agency from the Secretary of Defense to support—

(I) the operation of a domestic dependent elementary or secondary school; or

(II) the provision of a free public education to dependents of members of the Armed Forces residing on or near a military installation.

(B) If funds appropriated under [section 8014(a)] *section 3(d)(1)* are insufficient to pay the amount determined under subparagraph (A), the Secretary shall calculate the payment for each eligible local educational agency in accordance with subsection (h).

(C) Notwithstanding any other provision of this subsection, a local educational agency may not be paid an amount under this section that, when added to the amount such agency receives under [section 8003(b)] *section 4003(b)*, exceeds the maximum amount that such agency is eligible to receive for such fiscal year under [section 8003(b)(1)(C)] *section 4003(b)(1)(C)*, or the maximum amount that such agency is eligible to receive for such fiscal year under this section, whichever is greater.

(2) APPLICATION OF CURRENT LEVIED REAL PROPERTY TAX RATE.—In calculating the amount that a local educational agency is eligible to receive for a fiscal year, the Secretary shall apply the current levied real property tax rate for current expenditures levied by fiscally independent local educational agencies, or imputed for fiscally dependent local educational agencies, to the current annually determined estimated taxable value of such acquired Federal property.

(3) DETERMINATION OF TAXABLE VALUE FOR ELIGIBLE FEDERAL PROPERTY.—

(A) IN GENERAL.—In determining the estimated taxable value of such acquired Federal property for fiscal year 2010 and each succeeding fiscal year, the Secretary shall—

(i) first determine the total taxable value for the purpose of levying property tax for school purposes for current expenditures of real property located within the boundaries of such local educational agency;

(ii) then determine the per acre value of the eligible Federal property by dividing the total taxable value as determined in clause (i) by the difference between the total acres located within the boundaries of the local educational agency and the number of Federal acres eligible under this section; and

(iii) then determine the total taxable value of the eligible Federal property by multiplying the per acre value as calculated under clause (ii) by the number of Federal acres eligible under this section.

(B) SPECIAL RULE.—In the case of Federal property eligible under this section that is within the boundaries of 2 or more local educational agencies, such a local educational agency may ask the Secretary to calculate the per acre value of each such local educational agency as provided under subparagraph (A) and apply the average of these per acre values to the acres of the Federal property in such agency.

(c) APPLICABILITY TO TENNESSEE VALLEY AUTHORITY ACT.—For the purpose of this section, any real property with respect to which payments are being made under section 13 of the Tennessee Valley Authority Act of 1933 shall not be regarded as Federal property.

(2) the United States transfers a portion of the property referred to in paragraph (1) to another nontaxable entity, and the United States—

(A) restricts some or any construction on such property;

(B) requires that the property be used in perpetuity for the public purposes for which the property was conveyed;

(C) requires the grantee of the property to report to the Federal Government (or its agent) regarding information on the use of the property;

(D) except with the approval of the Federal Government (or its agent), prohibits the sale, lease, assignment, or other disposal of the property unless such sale, lease, assignment, or other disposal is to another eligible government agency; and

(E) reserves to the Federal Government a right of reversion at any time the Federal Government (or its agent) deems it necessary for the national defense.

(e) **LOCAL EDUCATIONAL AGENCY CONTAINING FOREST SERVICE LAND AND SERVING CERTAIN COUNTIES.**—Beginning with fiscal year 1995, a local educational agency shall be deemed to meet the requirements of subsection (a)(1)(C) if such local educational agency meets the following requirements:

(1) **ACREAGE AND ACQUISITION BY THE FOREST SERVICE.**—The local educational agency serves a school district that contains between 20,000 and 60,000 acres of land that has been acquired by the Forest Service of the Department of Agriculture between 1915 and 1990, as demonstrated by written evidence from the Forest Service satisfactory to the Secretary.

(2) **COUNTY CHARTER.**—The local educational agency serves a county chartered under State law in 1875 or 1890.

[(g) FORMER DISTRICTS.—

[(1) IN GENERAL.—Where the school district of any local educational agency described in paragraph (2) is formed at any time after 1938 by the consolidation of two or more former school districts, such agency may elect (at any time such agency files an application under section 8005) for any fiscal year after fiscal year 1994 to have (A) the eligibility of such local educational agency, and (B) the amount which such agency shall be eligible to receive, determined under this section only with respect to such of the former school districts comprising such consolidated school districts as such agency shall designate in such election.]

[(2) ELIGIBLE LOCAL EDUCATIONAL AGENCIES.—A local educational agency referred to in paragraph (1) is any local educational agency that, for fiscal year 1994 or any preceding fiscal year, applied for and was determined eligible under section 2(c) of the Act of September 30, 1950 (Public Law 874, 81st Congress) as such section was in effect for such fiscal year.]

**(1) FOUNDATION PAYMENTS FOR PRE-2010 RECIPIENTS.—**

**(A) IN GENERAL.—**The Secretary shall first make a foundation payment to each local educational agency that is determined by the Secretary to be eligible to receive a payment under this section for the fiscal year involved and that filed a timely application, and met, or has been determined by statute to meet, the eligibility requirements of subsection (a) for fiscal year 2009.

## (2) FOUNDATION PAYMENTS FOR NEW APPLICANTS.—

(A) FIRST YEAR.—From any amounts remaining after making payments under paragraph (1) and subsection (i)(1) for the fiscal year involved, the Secretary shall make a payment, in an amount determined in accordance with subparagraph (C), to each local educational agency that the Secretary determines eligible for a payment under this section for a fiscal year after fiscal year 2009 and that did not receive a payment under paragraph (1) for the fiscal year for which such agency was determined eligible for such payment.

(E) resided in low-rent housing;

(F) resided on Federal property and is not described in subparagraph (A) or (B); or

(G) resided with a parent employed on Federal property situated—

(i) in whole or in part in the county in which such agency is located, or in whole or in part in such agency if such agency is located in more than one county; or

(ii) if not in such county, in whole or in part in the same State as such agency.

(2) DETERMINATION OF WEIGHTED STUDENT UNITS.—For the purpose of computing the basic support payment under subsection (b), the Secretary shall calculate the total number of weighted student units for a local educational agency by adding together the results obtained by the following computations:

(A) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of 1.0.

(B) Multiply the number of children described in paragraph (1)(C) by a factor of 1.25.

(C) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of .35 if the local educational agency has—

(i) a number of such children described in such subparagraphs which exceeds 5,000; and

(ii) an average daily attendance for all children which exceeds 100,000.

(D) Multiply the number of children described in subparagraph (D) of paragraph (1) by a factor of .20.

(E) Multiply the number of children described in subparagraph (E) of paragraph (1) by a factor of .10.

(F) Multiply the number of children described in subparagraphs (F) and (G) of paragraph (1) by a factor of .05.

(3) SPECIAL RULE.—The Secretary shall only compute a payment for a local educational agency for children described in subparagraph (F) or (G) of paragraph (1) if the number of such children equals or exceeds 1,000 or such number equals or exceeds 10 percent of the total number of students in average daily attendance in the schools of such agency.

(4) MILITARY INSTALLATION AND INDIAN HOUSING UNDERGOING RENOVATION OR REBUILDING.—

(A) MILITARY INSTALLATION HOUSING.—Beginning in fiscal year 2014, in determining the amount of a payment for a local educational agency for children described in paragraph (1)(D)(i), the Secretary shall consider those children as if they were children described in paragraph (1)(B) if the Secretary determines, on the basis of a certification provided to the Secretary by a designated representative of the Secretary of Defense, that those children would have resided in housing on Federal property if the housing was not undergoing renovation or rebuilding. The total number of children treated as children described in paragraph (1)(B) shall not exceed the lesser of—

(i) the total number of children eligible under paragraph (1)(B) for the year prior to the initiation of the housing project on Federal property undergoing renovation or rebuilding; or

(ii) the total number of Federally connected children enrolled at the local educational agency as stated in the application filed for the payment for the year for which the determination is made.

(B) INDIAN LANDS.—Beginning in fiscal year 2014, in determining the amount of a payment for a local educational agency that received a payment for children that resided on Indian lands in accordance with paragraph (1)(C) for the fiscal year prior to the fiscal year for which the local educational agency is making an application, the Secretary shall consider those children to be children described in paragraph (1)(C) if the Secretary determines on the basis of a certification provided to the Secretary by a designated representative of the Secretary of the Interior or the Secretary of Housing and Urban Development that those children would have resided in housing on Indian lands if the housing was not undergoing renovation or rebuilding. The

total number of children treated as children described in paragraph (1)(C) shall not exceed the lesser of—

(i) the total number of children eligible under paragraph (1)(C) for the year prior to the initiation of the housing project on Indian lands undergoing renovation or rebuilding; or

(ii) the total number of Federally connected children enrolled at the local educational agency as stated in the application filed for the payment for the year for which the determination is made.

(C) ELIGIBLE HOUSING.—Renovation or rebuilding shall be defined as projects considered as capitalization, modernization, or restoration, as defined by the Secretary of Defense or the Secretary of the Interior (as the case may be) and are projects that last more than 30 days, but do not include “sustainment projects” such as painting, carpeting, or minor repairs.

(5) MILITARY “BUILD TO LEASE” PROGRAM HOUSING.—

(A) IN GENERAL.—For purposes of computing the amount of payment for a local educational agency for children identified under paragraph (1), the Secretary shall consider children residing in housing initially acquired or constructed under the former section 2828(g) of title 10, United States Code (commonly known as the “Build to Lease” program), as added by section 801 of the Military Construction Authorization Act, [1984, to be children described under paragraph (1)(B) if the property described is within the fenced security perimeter of the military facility upon which such housing is situated] 1984, *or under lease of off-base property under subchapter IV of chapter 169 of title 10, United States Code, to be children described under paragraph (1)(B) if the property described is within the fenced security perimeter of the military facility or attached to and under any type of force protection agreement with the military installation upon which such housing is situated.*

(B) ADDITIONAL REQUIREMENTS.—If the property described in subparagraph (A) is not owned by the Federal Government, is subject to taxation by a State or political subdivision of a State, and thereby generates revenues for a local educational agency that is applying to receive a payment under this section, then the Secretary—

(i) shall require the local educational agency to provide certification from an appropriate official of the Department of Defense that the property is being used to provide military housing; and

(ii) shall reduce the amount of the payment under this section by an amount equal to the amount of revenue from such taxation received in the second preceding fiscal year by such local educational agency, unless the amount of such revenue was taken into account by the State for such second preceding fiscal year and already resulted in a reduction in the amount of State aid paid to such local educational agency.

(b) BASIC SUPPORT PAYMENTS AND PAYMENTS WITH RESPECT TO FISCAL YEARS IN WHICH INSUFFICIENT FUNDS ARE APPROPRIATED.—

(1) BASIC SUPPORT PAYMENTS.—

(A) IN GENERAL.—From the amount appropriated under [section 8014(b)] *section 3(d)(2)* for a fiscal year, the Secretary is authorized to make basic support payments to eligible local educational agencies with children described in subsection (a).

(B) ELIGIBILITY.—A local educational agency is eligible to receive a basic support payment under subparagraph (A) for a fiscal year with respect to a number of children determined under subsection (a)(1) only if the number of children so determined with respect to such agency amounts to the lesser of—

- (i) at least 400 such children; or
- (ii) a number of such children which equals at least 3 percent of the total number of children who were in average daily attendance, during such year, at the schools of such agency and for whom such agency provided free public education.

(C) MAXIMUM AMOUNT.—The maximum amount that a local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2), multiplied by the greater of—

- (i) one-half of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made;
- (ii) one-half of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made;
- (iii) the comparable local contribution rate certified by the State, as determined under regulations prescribed to carry out the Act of September 30, 1950 (Public Law 874, 81st Congress), as such regulations were in effect on January 1, 1994; or
- (iv) the average per-pupil expenditure of the State in which the local educational agency is located, multiplied by the local contribution percentage.

(D) DATA.—If satisfactory data from the third preceding fiscal year are not available for any of the expenditures described in clause (i) or (ii) of subparagraph (C), the Secretary shall use data from the most recent fiscal year for which data that are satisfactory to the Secretary are available.

[(E) SPECIAL RULE.—For purposes of determining the comparable local contribution rate under subparagraph (C)(iii) for a local educational agency described in section 222.39(c)(3) of title 34, Code of Federal Regulations, that had its comparable local contribution rate for fiscal year 1998 calculated pursuant to section 222.39 of title 34, Code of Federal Regulations, the Secretary shall determine such comparable local contribution rate as the rate upon which

payments under this subsection for fiscal year 2000 were made to the local educational agency adjusted by the percentage increase or decrease in the per pupil expenditure in the State serving the local educational agency calculated on the basis of the second most recent preceding school year compared to the third most recent preceding school year for which school year data are available.】

(F) INCREASE IN LOCAL CONTRIBUTION RATE DUE TO UNUSUAL GEOGRAPHIC FACTORS.—If the current expenditures in those local educational agencies which the Secretary has determined to be generally comparable to the local educational agency for which a computation is made under subparagraph (C) are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in such agency, a level of education equivalent to that maintained in such other agencies, then the Secretary shall increase the local contribution rate for such agency under subparagraph (C)(iii) by such an amount which the Secretary determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors. The amount of any such supplementary payment may not exceed the per-pupil share (computed with regard to all children in average daily attendance), as determined by the Secretary, of the increased current expenditures necessitated by such unusual geographic factors.

(G) Beginning with fiscal year 2002, for the purpose of calculating a payment under this paragraph for a local educational agency whose local contribution rate was computed under subparagraph (C)(iii) for the previous year, the Secretary shall use a local contribution rate that is not less than 95 percent of the rate that the LEA received for the preceding year.

(2) BASIC SUPPORT PAYMENTS FOR HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES.—

(A) IN GENERAL.—(i) From the amount appropriated under 【section 8014(b)】 *section 3(d)(2)* for a fiscal year, the Secretary is authorized to make basic support payments to eligible heavily impacted local educational agencies with children described in subsection (a).

(ii) A local educational agency that receives a basic support payment under this paragraph for a fiscal year shall not be eligible to receive a basic support payment under paragraph (1) for that fiscal year.

(B) ELIGIBILITY FOR 【CONTINUING】 HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES.—

【(i) IN GENERAL.—A heavily impacted local educational agency is eligible to receive a basic support payment under subparagraph (A) with respect to a number of children determined under subsection (a)(1) if the agency—

[(bb) has an enrollment of children described in subsection (a)(1) that constitutes a percentage of the total student enrollment of the agency which is not less than 35 percent, has a per-pupil expenditure that is less than the average per-pupil expenditure of the State in which the agency is located or the average per-pupil expenditure of all States (whichever average per-pupil expenditure is greater), except that a local educational agency with a total student enrollment of less than 350 students shall be deemed to have satisfied such per-pupil expenditure requirement, and has a tax rate for general fund purposes which is not less than 95 percent of the average tax rate for general fund purposes of local educational agencies in the State;

[(cc) has an enrollment of children described in subsection (a)(1) that constitutes a percentage of the total student enrollment of the agency which is not less than 30 percent, and has a tax rate for general fund purposes which is not less than 125 percent of the average tax rate for general fund purposes for comparable local educational agencies in the State;

(ii) **LOSS OF ELIGIBILITY.**— **[A heavily]**

*(I) IN GENERAL.*—*Subject to subclause (II), a heavily impacted local educational agency that met the requirements of clause (i) for a fiscal year shall be ineligible to receive a basic support payment under subparagraph (A) if the agency fails to meet the requirements of clause (i) for a subsequent fiscal year, except that such agency shall continue to receive a basic support payment under this paragraph for the fiscal year for which the ineligibility determination is made.*

*(II) LOSS OF ELIGIBILITY DUE TO FALLING BELOW 95 PERCENT OF THE AVERAGE TAX RATE FOR GENERAL FUND PURPOSES.*—*In a case of a heavily impacted local educational agency that is eligible to receive a basic support payment under subparagraph (A), but that has had, for 2 consecutive fiscal years, a tax rate for general fund purposes that falls below 95 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State, such agency shall be determined to be ineligible under clause (i) and ineligible to receive a basic support payment under subparagraph (A) for each fiscal year succeeding such 2 consecutive fiscal years for which the agency has such a tax rate for general fund purposes, and until the fiscal year for which the agency resumes such eligibility in accordance with clause (iii).*

(iii) **RESUMPTION OF ELIGIBILITY.**—*A heavily impacted local educational agency described in clause (i) that becomes ineligible under such clause for 1 or more fiscal years may resume eligibility for a basic support payment under this paragraph for a subsequent fiscal year only if the agency meets the requirements of clause (i) for that subsequent fiscal year, except that such agency shall not receive a basic support payment under this paragraph until the fiscal year succeeding the fiscal year for which the eligibility determination is made.*

**[(C) ELIGIBILITY FOR NEW HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES.**—

**[(i) IN GENERAL.**—*A heavily impacted local educational agency that did not receive an additional assistance payment under subsection (f) (as such subsection was in effect on the day before the date of the enactment of the Impact Aid Reauthorization Act of 2000) for fiscal year 2000 is eligible to receive a basic support payment under subparagraph (A) for fiscal year 2002 and any subsequent fiscal year with respect to a number of children determined under subsection*

(a)(1) only if the agency is a local educational agency whose boundaries are the same as a Federal military installation (or if the agency is a qualified local educational agency as described in clause (iv)), or the agency—

    【(I) has an enrollment of children described in subsection (a)(1) that constitutes a percentage of the total student enrollment of the agency that—

[(III) The agency received a payment under paragraph (1) for fiscal year 2001.

[(D)] (C) MAXIMUM AMOUNT FOR [REGULAR] HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES.—(i) Except as provided in subparagraph [(E)] (D), the maximum amount that a heavily impacted local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) and subject to clause (ii), multiplied by the greater of—

(I) four-fifths of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made; or

(II) four-fifths of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made.

**[(G)]** (F) DETERMINATION OF AVERAGE TAX RATES FOR GENERAL FUND PURPOSES.—For the purpose of determining average tax rates for general fund purposes for local educational agencies in a State under this paragraph (except under **[subparagraph (C)(i)(II)(bb)]** *subparagraph (B)(i)(II)(bb)(BB)*), the Secretary shall use either—

(i) the average tax rate for general fund purposes for comparable local educational agencies, as determined by the Secretary in regulations; or

(ii) the average tax rate of all the local educational agencies in the State.

[(H)] (G) ELIGIBILITY FOR HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES AFFECTED BY PRIVATIZATION OF MILITARY HOUSING.—

(i) ELIGIBILITY.—For any fiscal year, a heavily impacted local educational agency that received a basic support payment under this paragraph for the prior fiscal year, but is ineligible for such payment for the current fiscal year under [subparagraph (B), (C), (D), or (E)] *subparagraph (B), (C), or (D)*, as the case may be, [by reason of] *due to the conversion of military housing units to private housing described in clause (iii), or as the direct result of base realignment and closure or modularization as determined by the Secretary of Defense and force structure change or force relocation*, shall be deemed to meet the eligibility requirements under subparagraph (B) or (C), as the case may be, for the period during which the housing units are undergoing such conversion *or during such time as activities associated with base closure and realignment, modularization, force structure change, or force relocation are ongoing*.

(ii) AMOUNT OF PAYMENT.—The amount of a payment to a heavily impacted local educational agency for a fiscal year by reason of the application of clause (i), and calculated in accordance with subparagraph [(D) or (E)] *(C) or (D)*, as the case may be, shall be based on the number of children in average daily attendance in the schools of such agency for the fiscal year and under the same provisions of subparagraph [(D) or (E)] *(C) or (D)* under which the agency was paid during the prior fiscal year.

(iii) CONVERSION OF MILITARY HOUSING UNITS TO PRIVATE HOUSING DESCRIBED.—For purposes of clause (i), “conversion of military housing units to private housing” means the conversion of military housing units to private housing units pursuant to subchapter IV of chapter 169 of title 10, United States Code, or pursuant to any other related provision of law.

(3) PAYMENTS WITH RESPECT TO FISCAL YEARS IN WHICH INSUFFICIENT FUNDS ARE APPROPRIATED.—

(A) IN GENERAL.—For any fiscal year in which the sums appropriated under [section 8014(b)] *section 3(d)(2)* are insufficient to pay to each local educational agency the full amount computed under paragraphs (1) and (2), the Secretary shall make payments in accordance with this paragraph.

(B) LEARNING OPPORTUNITY THRESHOLD PAYMENTS IN LIEU OF PAYMENTS UNDER PARAGRAPH (1).—(i) For fiscal years described in subparagraph (A), the Secretary shall compute a learning opportunity threshold payment (hereafter in this title referred to as the “threshold payment”) in lieu of basic support payments under paragraph (1) by multiplying the amount obtained under paragraph (1)(C) by the total percentage obtained by adding—

(I) the percentage of federally connected children for each local educational agency determined by calculating the fraction, the numerator of which is the total number of children described under subsection (a)(1) and the denominator of which is the total number of children in average daily attendance at the schools served by such agency; and

(II) the percentage that funds under paragraph (1)(C) represent of the total budget of the local educational agency, determined by calculating the fraction, the numerator of which is the total amount of funds calculated for each local educational agency under this paragraph, and the denominator of which is the total current expenditures for such agency in the second preceding fiscal year for which the determination is made.

(ii) Such total percentage used to calculate threshold payments under paragraph (1) shall not exceed 100.

[(iii) For the purpose of determining the percentages described in subclauses (I) and (II) of clause (i) that are applicable to the local educational agency providing free public education to students in grades 9 through 12 residing on Hanscom Air Force Base, Massachusetts, the Secretary shall consider only that portion of such agency's total enrollment of students in grades 9 through 12 when calculating the percentage under such subclause (I) and only that portion of the total current expenditures attributed to the operation of grades 9 through 12 in such agency when calculating the percentage under subclause (II).]

*(iii) In the case of a local educational agency providing a free public education to students enrolled in kindergarten through grade 12, but which enrolls students described in subparagraphs (A), (B), and (D) of subsection (a)(1) only in grades 9 through 12, and which received a final payment in fiscal year 2009 calculated under this paragraph (as this paragraph was in effect on the day before the date of the enactment of the Student Success Act) for students in grades 9 through 12, the Secretary shall, in calculating the agency's payment, consider only that portion of such agency's total enrollment of students in grades 9 through 12 when calculating the percentage under clause (i)(I) and only that portion of the total current expenditures attributed to the operation of grades 9 through 12 in such agency when calculating the percentage under clause (i)(II).*

(iv) In the case of a local educational agency that has a total student enrollment of fewer than 1,000 students and that has a per-pupil expenditure that is less than the average per-pupil expenditure of the State in which the agency is located or less than the average per-pupil expenditure of all the States, the total percentage used to calculate threshold payments under clause (i) shall not be less than 40 percent.

*(v) In the case of a local educational agency that is providing a program of distance education to children not re-*

siding within the geographic boundaries of the agency, the Secretary shall—

(I) for purposes of the calculation under clause (i)(I), disregard such children from the total number of children in average daily attendance at the schools served by such agency; and

(II) for purposes of the calculation under clause (i)(II), disregard any funds received for such children from the total current expenditures for such agency.

(C) LEARNING OPPORTUNITY THRESHOLD PAYMENTS IN LIEU OF PAYMENTS UNDER PARAGRAPH (2).—For fiscal years described in subparagraph (A), the learning opportunity threshold payment in lieu of basic support payments under paragraph (2) shall be equal to the amount obtained under [subparagraph (D) or (E) of paragraph (2), as the case may be] paragraph (2)(D).

[(D) RATABLE DISTRIBUTION.—For fiscal years described in subparagraph (A), the Secretary shall make payments as a ratable distribution based upon the computations made under subparagraphs (B) and (C).]

(D) RATABLE DISTRIBUTION.—For any fiscal year described in subparagraph (A) for which the sums available exceed the amount required to pay each local educational agency 100 percent of its threshold payment, the Secretary shall distribute the excess sums to each eligible local educational agency that has not received its full amount computed under paragraph (1) or (2) (as the case may be) by multiplying—

(i) a percentage, the denominator of which is the difference between the full amount computed under paragraph (1) or (2) (as the case may be) for all local educational agencies and the amount of the threshold payment (as calculated under subparagraphs (B) and (C)) of all local educational agencies, and the numerator of which is the aggregate of the excess sums, by

(ii) the difference between the full amount computed under paragraph (1) or (2) (as the case may be) for the agency and the amount of the threshold payment as calculated under subparagraphs (B) and (C) of the agency.

(E) INSUFFICIENT PAYMENTS.—For each fiscal year described in subparagraph (A) for which the sums appropriated under section 3(d)(2) are insufficient to pay each local educational agency all of the local educational agency's threshold payment described in subparagraph (D), the Secretary shall ratably reduce the payment to each local educational agency under this paragraph.

(F) INCREASES.—If the sums appropriated under section 3(d)(2) are sufficient to increase the threshold payment above the 100 percent threshold payment described in subparagraph (D), then the Secretary shall increase payments on the same basis as such payments were reduced, except no local educational agency may receive a payment amount greater than 100 percent of the maximum payment calculated under this subsection.

## (4) STATES WITH ONLY ONE LOCAL EDUCATIONAL AGENCY.—

(A) IN GENERAL.—In any of the 50 States of the United States in which there is only one local educational agency, the Secretary shall, for purposes of subparagraphs (B) and (C) of paragraph (1) or subparagraphs (B) ~~through (D)~~ and (C) of paragraph (2), as the case may be, paragraph (3) of this subsection, and subsection (e), consider each administrative school district in the State to be a separate local educational agency.

(2) **OTHER REQUIREMENTS.**—Any such transfer shall be without charge to such agency or entity, and prior to such transfer, the transfer shall be consented to by the local educational

agency or other appropriate entity, and may be made on such terms and conditions as the Secretary deems appropriate to carry out the purposes of this title.

**SEC. [8009.] 4009. STATE CONSIDERATION OF PAYMENTS IN PROVIDING STATE AID.**

(a) GENERAL PROHIBITION.—Except as provided in subsection (b), a State may not—

(1) consider payments under this title in determining for any fiscal year—

(A) the eligibility of a local educational agency for State aid for free public education; or

(B) the amount of such aid; or

(2) make such aid available to local educational agencies in a manner that results in less State aid to any local educational agency that is eligible for such payment than such agency would receive if such agency were not so eligible.

(b) STATE EQUALIZATION PLANS.—

(1) IN GENERAL.—A State may reduce State aid to a local educational agency that receives a payment under [section 8002] *section 4002* [or 8003(b)] *or 4003(b)* (except the amount calculated in excess of 1.0 under [section 8003(a)(2)(B)] *section 4003(a)(2)(B)* and, with respect to a local educational agency that receives a payment under [section 8003(b)(2)] *section 4003(b)(2)*, the amount in excess of the amount that the agency would receive if the agency were deemed to be an agency eligible to receive a payment under [section 8003(b)] *section 4003(b)(1)* and not [section 8003(b)(2)] *section 4003(b)(2)*) for any fiscal year if the Secretary determines, and certifies under subsection (c)(3)(A), that the State has in effect a program of State aid that equalizes expenditures for free public education among local educational agencies in the State.

(2) COMPUTATION.—

(A) IN GENERAL.—For purposes of paragraph (1), a program of State aid equalizes expenditures among local educational agencies if, in the second fiscal year preceding the fiscal year for which the determination is made, the amount of per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the highest such per-pupil expenditures or revenues did not exceed the amount of such per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the lowest such expenditures or revenues by more than 25 percent.

(B) OTHER FACTORS.—In making a determination under this subsection, the Secretary shall—

(i) disregard local educational agencies with per-pupil expenditures or revenues above the 95th percentile or below the 5th percentile of such expenditures or revenues in the State; and

(ii) take into account the extent to which a program of State aid reflects the additional cost of providing free public education in particular types of local educational agencies, such as those that are geographically isolated, or to particular types of students, such as children with disabilities.

(3) EXCEPTION.—Notwithstanding paragraph (2), if the Secretary determines that the State has substantially revised its program of State aid, the Secretary may certify such program for any fiscal year only if—

(A) the Secretary determines, on the basis of projected data, that the State's program will meet the disparity standard described in paragraph (2) for the fiscal year for which the determination is made; and

(B) the State provides an assurance to the Secretary that, if final data do not demonstrate that the State's program met such standard for the fiscal year for which the determination is made, the State will pay to each affected local educational agency the amount by which the State reduced State aid to the local educational agency.

(c) PROCEDURES FOR REVIEW OF STATE EQUALIZATION PLANS.—

(1) WRITTEN NOTICE.—

(A) IN GENERAL.—Any State that wishes to consider payments described in subsection (b)(1) in providing State aid to local educational agencies shall submit to the Secretary, not later than 120 days before the beginning of the State's fiscal year, a written notice of such State's intention to do so.

(B) CONTENTS.—Such notice shall be in the form [and contain the information] the Secretary requires, including evidence that the State has notified each local educational agency in the State of such State's intention to consider such payments in providing State aid.

(2) OPPORTUNITY TO PRESENT VIEWS.—Before making a determination under subsection (b), the Secretary shall afford the State, and local educational agencies in the State, an opportunity to present their views.

(3) QUALIFICATION PROCEDURES.—If the Secretary determines that a program of State aid qualifies under subsection (b), the Secretary shall—

(A) certify the program and so notify the State; and

(B) afford an opportunity for a hearing, in accordance with [section 8011(a)] *section 4011(a)*, to any local educational agency adversely affected by such certification.

(4) NON-QUALIFICATION PROCEDURES.—If the Secretary determines that a program of State aid does not qualify under subsection (b), the Secretary shall—

(A) so notify the State; and

(B) afford an opportunity for a hearing, in accordance with [section 8011(a)] *section 4011(a)*, to the State, and to any local educational agency adversely affected by such determination.

(d) TREATMENT OF STATE AID.—

(1) IN GENERAL.—If a State has in effect a program of State aid for free public education for any fiscal year, which is designed to equalize expenditures for free public education among the local educational agencies of that State, payments under this title for any fiscal year may be taken into consideration by such State in determining the relative—

(A) financial resources available to local educational agencies in that State; and

(B) financial need of such agencies for the provision of free public education for children served by such agency, except that a State may consider as local resources funds received under this title only in proportion to the share that local tax revenues covered under a State equalization program are of total local tax revenues.

(2) PROHIBITION.—A State may not take into consideration payments under this title before such State's program of State aid has been certified by the Secretary under subsection (c)(3).

(e) REMEDIES FOR STATE VIOLATIONS.—

(1) IN GENERAL.—The Secretary or any aggrieved local educational agency may, not earlier than 150 days after an adverse determination by the Secretary against a State for violation of subsections (a) or (d)(2) or for failure to carry out an assurance under subsection (b)(3)(B), and if an administrative proceeding has not been concluded within such time, bring an action in a United States district court against such State for such violations or failure.

(2) IMMUNITY.—A State shall not be immune under the 11th amendment to the Constitution of the United States from an action described in paragraph (1).

(3) RELIEF.—The court shall grant such relief as the court determines is appropriate.

(B) The Secretary shall treat as eligible under subparagraph (G) of [section 8003(a)] *section 4003(a)(1)* any child who would be eligible under such subparagraph except that such child does not meet the requirements of clause (ii) of such subparagraph, if such child meets the requirements of paragraph (2).

(A) such child resides—

(i) in a State adjacent to the State in which the local educational agency serving the school such child attends is located; or

(ii) with a parent employed on Federal property in a State adjacent to the State in which such agency is located;

(B) the schools of such agency are within a more reasonable commuting distance of such child's home than the schools of the local educational agency that serves the school attendance area where such child resides;

(C) attending the schools of the local educational agency that serves the school attendance area where such child resides will impose a substantial hardship on such child;

(D) the State in which such child attends school provides funds for the education of such child on the same basis as all other public school children in the State, unless otherwise permitted under [section 8009(b)] *section 4009(b)* of this title; and

(E) such agency received a payment for fiscal year 1999 under [section 8003(b)] *section 4003(b)* on behalf of children described in paragraph (1).

(d) **TIMELY PAYMENTS.**—

(1) **IN GENERAL.**—Subject to paragraph (2), the Secretary shall pay a local educational agency the full amount that the agency is eligible to receive under this title for a fiscal year not later than September 30 of the second fiscal year following the fiscal year for which such amount has been appropriated if, not later than 1 calendar year following the fiscal year in which such amount has been appropriated, such local educational agency submits to the Secretary all the data and information necessary for the Secretary to pay the full amount that the agency is eligible to receive under this title for such fiscal year.

(2) **PAYMENTS WITH RESPECT OF FISCAL YEARS IN WHICH INSUFFICIENT FUNDS ARE APPROPRIATED.**—For a fiscal year in which the amount appropriated under [section 8014] *section 3(d)* is insufficient to pay the full amount a local educational agency is eligible to receive under this title, paragraph (1) shall be applied by substituting “is available to pay the agency” for “the agency is eligible to receive” each place the term appears.

**SEC. [8011.] 4011. ADMINISTRATIVE HEARINGS AND JUDICIAL REVIEW.**

(a) **ADMINISTRATIVE HEARINGS.**—A local educational agency and a State that is adversely affected by any action of the Secretary under this title [or under the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994)] shall be entitled to a hearing on such action in the same manner as if such agency were a person under chapter 5 of title 5, United States Code if the local educational agency or State, as the case may be, submits to the Secretary a request for the hearing not later than 60 days after the date of the action of the Secretary under this title.

(1) **IN GENERAL.**—A local educational agency or a State aggrieved by the Secretary's final decision following an agency proceeding under subsection (a) may, within 30 working days (as determined by the local educational agency or State) after receiving notice of such decision, file with the United States court of appeals for the circuit in which such agency or State

is located a petition for review of that action. The clerk of the court shall promptly transmit a copy of the petition to the Secretary. The Secretary shall then file in the court the record of the proceedings on which the Secretary's action was based, as provided in section 2112 of title 28, United States Code.

(2) FINDINGS OF FACT.—The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Secretary to take further evidence. The Secretary may thereupon make new or modified findings of fact and may modify the Secretary's previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

Notwithstanding any other provision of law, the Secretary may forgive the obligation of a local educational agency to repay, in whole or in part, the amount of any overpayment received under this title, or under this title's predecessor authorities, if the Secretary determines that the overpayment was made as a result of an error made by—

**SEC. 5201. SHORT TITLE.**

This part may be cited as the “Alaska Native Educational Equity, Support, and Assistance Act”.

**SEC. 5202. FINDINGS.**

Congress finds and declares the following:

(1) It is the policy of the Federal Government to maximize the leadership of and participation by Alaska Natives in the planning and the management of Alaska Native education programs and to support efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

(2) Many Alaska Native children enter and exit school with serious educational disadvantages.

(3) Overcoming the magnitude of the geographic challenges, historical inequities, and other barriers to successfully improving educational outcomes for Alaska Native students in rural, village, and urban settings is challenging. Significant disparities between academic achievement of Alaska Native students and non-Native students continues, including lower graduation

rates, increased school dropout rates, and lower achievement scores on standardized tests.

(4) *The preservation of Alaska Native cultures and languages and the integration of Alaska Native cultures and languages into education, positive identity development for Alaska Native students, and local, place-based, and culture-based programming are critical to the attainment of educational success and the long-term well-being of Alaska Native students.*

(7) *The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for Alaska Native students. In 1983, pursuant to Public Law 98-63, Alaska ceased to receive educational funding from the Bureau of Indian Affairs. The Bureau of Indian Education does not operate any schools in Alaska, nor operate or fund Alaska Native education programs. The program under this part supports the Federal trust responsibility of the United States to Alaska Natives.*

(1) in section 8002 (20 U.S.C. 7702)—

(A) in subsection (a)—

(ii) by inserting “or (h)” after “subsection (b)”;

(B) in subsection (b)—

“(3) **DETERMINATION OF TAXABLE VALUE FOR ELIGIBLE FEDERAL PROPERTY.**

“(A) **IN GENERAL.**—In determining the estimated taxable value of such acquired Federal property for fiscal year 2010 and each succeeding fiscal year, the Secretary shall—

“(i) first determine the total taxable value for the purpose of levying property tax for school purposes for current expenditures of real property located within the boundaries of such local educational agency;

“(ii) then determine the per acre value of the eligible Federal property by dividing the total taxable value as determined in clause (i) by the difference between the total acres located within the boundaries of the local educational agency and the number of Federal acres eligible under this section; and

“(iii) then determine the total taxable value of the eligible Federal property by multiplying the per acre value as calculated under clause (ii) by the number of Federal acres eligible under this section.

“(B) **SPECIAL RULE.**—In the case of Federal property eligible under this section that is within the boundaries of 2

or more local educational agencies, such a local educational agency may ask the Secretary to calculate the per acre value of each such local educational agency as provided under subparagraph (A) and apply the average of these per acre values to the acres of the Federal property in such agency.”; and

(C) in subsection (h)—

(i) in paragraph (1)—

(I) in the paragraph heading, by striking “for pre-1995 recipients” and inserting “for pre-2010 recipients”; and

(II) by striking subparagraphs (A) and (B) and inserting the following:

“(A) IN GENERAL. —The Secretary shall first make a foundation payment to each local educational agency that is determined by the Secretary to be eligible to receive a payment under this section for the fiscal year involved and that filed a timely application, and met, or has been determined by statute to meet, the eligibility requirements of subsection (a) for fiscal year 2009.

“(B) AMOUNT.—

“(i) IN GENERAL. —The amount of a payment under subparagraph (A) for a local educational agency shall be equal to the greater of 90 percent of the payment the local educational agency received from dollars appropriated for fiscal year 2009 or 90 percent of the average payment that the local educational agency received from dollars appropriated for fiscal years 2006, 2007, 2008, and 2009, and shall be calculated without regard to the maximum payment provisions in subsection (b)(1)(C).

“(ii) EXCEPTION.—In calculating such average payment for a local educational agency that did not receive a payment under subsection (b) for 1 or more of the fiscal years between fiscal year 2006 and 2009, inclusive, the lowest such payment made to the agency for fiscal year 2006, 2007, 2008, or 2009, shall be treated as the payment that the agency received under subsection (b) for each fiscal year for which the agency did not receive such a payment.”; and

(ii) by striking paragraphs (2) through (4) and inserting the following:

“(2) FOUNDATION PAYMENTS FOR NEW APPLICANTS.—

“(A) FIRST YEAR. —From any amounts remaining after making payments under paragraph (1) and subsection (i)(1) for the fiscal year involved, the Secretary shall make a payment, in an amount determined in accordance with subparagraph (C), to each local educational agency that the Secretary determines eligible for a payment under this section for a fiscal year after fiscal year 2009 and that did not receive a payment under paragraph (1) for the fiscal year for which such agency was determined eligible for such payment.

“(B) SECOND AND SUCCEEDING YEARS. —For any succeeding fiscal year after the first fiscal year that a local

educational agency receives a foundation payment under subparagraph (A), the amount of the local educational agency's foundation payment under this paragraph for such succeeding fiscal year shall be equal to the local educational agency's foundation payment under this paragraph for the first fiscal year.

“(C) AMOUNTS. —The amount of a payment under subparagraph (A) for a local educational agency shall be determined as follows:

“(i) Calculate the local educational agency's maximum payment under subsection (b).

“(ii) Calculate the percentage that the amount appropriated under section 8014(a) for the most recent fiscal year for which the Secretary has completed making payments under this section is of the total maximum payments for such fiscal year for all local educational agencies eligible for a payment under subsection (b) and multiply the agency's maximum payment by such percentage.

“(iii) Multiply the amount determined under clause (ii) by 90 percent.

“(D) INSUFFICIENT FUNDS.—If the amount appropriated under section 8014(a) of this title is insufficient to pay the full amount determined under this paragraph for all eligible local educational agencies for the fiscal year, then the Secretary shall ratably reduce the payment to each local educational agency under this paragraph.

“(3) REMAINING FUNDS. —From any funds remaining after making payments under paragraphs (1) and (2) for the fiscal year involved, the Secretary shall make a payment to each local educational agency that received a foundation payment under paragraph (1) or (2) or subsection (i)(1), for the fiscal year involved in an amount that bears the same relation to the remainder as a percentage share determined for the local educational agency (by dividing the maximum amount that the agency is eligible to receive under subsection (b) by the total of the maximum amounts for all such agencies) bears to the percentage share determined (in the same manner) for all local educational agencies eligible to receive a payment under this section for the fiscal year involved, except that, for the purpose of calculating a local educational agency's maximum amount under subsection (b), data from the most current fiscal year shall be used.

“(4) DATA. —For each local educational agency that received a payment under this section for fiscal year 2010 through the fiscal year in which the Impact Aid Improvement Act of 2012 is enacted, the Secretary shall not make a payment under paragraph (3) to a local educational agency that fails to submit, within 60 days of the date the Secretary notifies the agency that the information is needed, the data necessary to calculate the maximum amount of a payment under subsection (b) for that local educational agency.”;

“(A) **MILITARY INSTALLATION HOUSING.**—Beginning in fiscal year 2014, in determining the amount of a payment for a local educational agency for children described in paragraph (1)(D)(i), the Secretary shall consider those children as if they were children described in paragraph (1)(B) if the Secretary determines, on the basis of a certification provided to the Secretary by a designated representative of the Secretary of Defense, that those children would have resided in housing on Federal property if the housing was not undergoing renovation or rebuilding. The total number of children treated as children described in paragraph (1)(B) shall not exceed the lessor of—

## MINORITY VIEWS

Committee Democrats adamantly and unanimously oppose H.R. 5, the Student Success Act. All Democratic members voted in opposition to the legislation during its consideration in Committee on February 11, 2015. We believe the No Child Left Behind Act (NCLB) is long-overdue for reauthorization, but H.R. 5 does not set forth a reauthorization to improve student outcomes or provide support to the vulnerable student populations the law is intended to serve. Instead, H.R. 5 would turn the clock back on equity and accountability in American public education while diverting scarce federal dollars away from communities plagued by high concentrations of poverty and toward low-poverty schools and districts. Additionally, the partisan path chosen by Committee Republicans lacks not only a deliberative process informed by research and evidence, but also the consensus necessary to achieve a comprehensive reauthorization worthy of enactment and reflective of 50 years of bipartisanship.

Committee Democrats oppose H.R. 5 because it shortchanges students, weakens accountability for improved student outcomes for all students, and fails to update current law to take the public education system into the 21st century. This opposition is shared by the majority of the education, civil rights and business community. The Republican bill eliminates critical supports and accountability to provide a balanced and effective education to every child. H.R. 5 locks in low funding levels without allowing appropriators to adjust annual appropriations for inflation, despite a projected 14 percent decrease in purchasing power and 3.2 million student increase in public school enrollment by 2021.<sup>1</sup> H.R. 5 drastically shifts much-needed federal resources away from the poorest students, undermining the statutory intent of the Elementary and Secondary Education Act.<sup>2</sup> H.R. 5 fails to provide adequate support for professional development to improve teaching and learning, and fails to provide dedicated support for implementation of evidence-based programs and supports to improve access to comprehensive literacy, STEM, or other subjects that provide students a well-rounded education. The bill eliminates wrap-around services, support for before-, after, and summer school, and support for expanded learning time, all of which have been proven by extensive research to be critical to student learning.<sup>3</sup>

Given the urgent need to reauthorize current law and to address the fatal flaws of H.R. 5, Democrats offered at mark-up a series of

amendments, culminating in the introduction of a comprehensive substitute amendment to the Republican bill that demonstrates a positive vision for the reauthorization and a path forward to improve student outcomes, promote equity of opportunity, and ensure states and districts are held accountable for supporting and improving public education through effective implementation of limited federal funds. All Democrats voted unanimously in support of the comprehensive substitute amendment, offered by Ranking Member Scott. The Democrats' proposal garnered support from the civil rights, education, and business communities.

Committee Democrats believe that the reauthorization of NCLB must build upon what we have learned over the last 10 years and take advantage of and support the advancements that have been made. The most recent long-term trend study by the National Assessment of Educational Progress, released in June 2013, showed that American students have improved their reading and math achievement since 1973. Notably, the biggest gains were made among African-American and Hispanic students. For example, African-American 4th graders improved 36 points in both reading and math.<sup>4</sup> However, progress has stalled since 2008. Therefore, now is the time to press ahead, and not scale back, federal investment and involvement in education.

We believe the reauthorization should support college and career-ready standards, modern assessments, an accountability system that includes meaningful goals and targets for improving student achievement while taking into account measures of resource equity, and a school improvement system that gives schools and districts flexibility in how they achieve those goals. Committee Democrats also believe reauthorization should support states in ensuring the placement of an effective teacher in every classroom and an effective school leader in every school across the country. Federal policy should encourage and support important professional development opportunities for teachers and school leaders. It should protect collective bargaining and teacher privacy. Federal policy should also support states, districts, and schools in their efforts to provide a well-rounded education to students, and in addressing non-academic factors, such as mental health and counseling needs, that create barriers to student learning.

#### H.R. 5 UNDERMINES THE FEDERAL ROLE IN EDUCATION TO PROMOTE EQUAL OPPORTUNITY

With the passage of the first Elementary and Secondary Education Act (ESEA) in 1965, in response to the *Brown vs. Board of Education* decision, the federal role in education focused on promoting equal opportunity in education by targeting resources and services to communities plagued with high concentrations of poverty and suffering under inequitable state and local education financing systems. The arbiter of equity in an unequal and often unjust educational delivery system operated largely by states and school districts, the federal government, through implementation of ESEA, seeks to ensure that our nation's public schools provide

every student, regardless of race, income level, English language proficiency, or disability status, the opportunity to fulfill his or her academic potential, graduate from high school ready to succeed in college or career, and pursue a future of his or her choosing. Access to educational quality is a driver of economic mobility, and although diminished due to failed Republican economic policies of recent decades,<sup>5</sup> economic mobility remains a hallmark measure of equal opportunity in our nation.—Providing all students access to a free, high quality, public education is the only sure path to improve economic mobility and promote an educated and productive citizenry.

The federal interest in a strong public education system is grounded in civil rights, economic, and national security concerns. All three areas are threatened by an elementary and secondary educational system that is not held accountable for supporting the potential of *all* our nation's students. Unfortunately, H.R. 5 both undermines the promise of the *Brown* decision, and the federal role in supporting a strong public education system that promotes civil rights, that feeds a strong economy, and that builds our national security.

#### STANDARDS AND ASSESSMENTS

H.R. 5 does not support the national consensus for college and career ready standards to ensure students graduate ready to succeed and, despite the advances in technology, it fails to modernize assessments to measure progress towards those standards. The bill does not contain requirements that states set high standards to graduate students who are college and career-ready and who are able to enroll in postsecondary education without the need for remediation. Current law requires states to establish standards, but does not assess the rigor of those standards. NCLB did not have a check on the rigor of assessments, allowing some states to lower academic standards in favor of better accountability outcomes, leading to tens of thousands of students progressing along an academic pathway to nowhere. In fact, according to a 2009 NAEP State Mapping Analysis, 15 states lowered their proficiency standards in fourth- or eighth-grade reading or math from 2005 to 2007,<sup>6</sup> resulting in large discrepancies between high levels of proficiency on state standards and low levels of proficiency as measured by NAEP. As a result, stakeholders from civil rights groups, business groups, and educators believe that reauthorization must ensure that academic standards help students graduate prepared for college and careers.

Refusing to hear these concerns, H.R. 5 weakens current law by not establishing parameters on quality standards, and it even goes as far as to eliminate use of the word “challenging” with regard to standards. Committee Democrats believe that states should maintain control over development and adoption of academic standards,

but that content standards should be validated by state institutions of higher education to ensure proficiency upon high school graduation is meaningful and allows enrollment in postsecondary education without the need for remediation.

High-quality assessments are essential to measure our progress as a nation and to ensure we have reliable data to improve student achievement, instruction, and schools. While assessment represents one tool in promoting educational equity and improving student outcomes, too many states and districts are plagued by an overreliance on redundant, low-quality assessments that are not valid or reliable for the purposes for which they are used and fail to improve teaching and learning.<sup>7</sup> Committee Democrats believe that ESEA reauthorization presents a unique opportunity to support states in streamlining assessment systems, aligning limited assessments to rigorous standards to ensure college- and career-readiness, and eliminating duplicative and low-quality state and local assessments that are not required by federal law. This is why the Democratic substitute amendment fully incorporates provisions of the Support Making Assessments Reliable and Timely (SMART) Act (H.R. 408), bipartisan legislation championed by Representative Suzanne Bonamici, a member of the Committee.

H.R. 5 does not support the development and implementation of high-quality assessments that accurately measure growth and higher order skills. The bill, similar to current law, requires annual English and math assessments in grades 3–8 and once in high school, and allows, but does not require, assessments to measure student growth in addition to proficiency. Unfortunately, the legislation does not ensure assessments are high-quality, fails to reflect the advancements in assessments over the past decade, and fails to require that states differentiate achievement levels of students, a critical tool for parents and communities in judging how well schools and districts are meeting the academic needs of all students.

H.R. 5 eliminates the Grants for State Assessments program which supports state development of high-quality assessments. High-quality assessment systems are expensive to develop but critical to effectively measuring student achievement and to supporting improvements in teaching and learning. This assessment program provides critical support to states as they work to implement next generation assessments that measure higher order thinking, improve teaching and learning, and measure both proficiency and student growth. Lastly, H.R. 5 fails to promote innovation and flexibility in design of competency education assessment systems that utilizes local and performance-based assessments to garner student achievement data, but also maintains vital equity protections to ensure data is meaningful for improving outcomes for all students. Committee Democrats believe this reauthorization must begin to responsibly chart a new path, in partnership with states, toward high quality and meaningful assessment systems that work for all students and promote educational equity.

<sup>7</sup>Lazarin, M., (2014). "Testing Overload in America's Schools". Retrieved from <https://cdn.americanprogress.org/wp-content/uploads/2014/10/LazarinOvertestingReport.pdf>.

H.R. 5 also fails to ensure all children are held to high expectations by permitting states to develop alternate achievement standards for students with the most significant cognitive disabilities but does not establish any parameters to determine which students should be assessed in this category. Additionally, the bill would eliminate the current regulation that caps at one percent the number of students scoring proficient for accountability purposes who are assessed alternatively. This regulation ensures schools are still held accountable for the achievement of students with disabilities. H.R. 5 also fails to prohibit states from establishing modified or other achievement standards, despite recent federal regulatory activity to eliminate use of modified achievement standards after documentation of widespread abuse of the standards.<sup>8</sup> Representative Jeffries offered an amendment to improve H.R. 5's accountability provisions to extend college- and career-ready standards to all students, including students with significant cognitive disabilities, which was defeated despite unanimous support from Committee Democrats.

By failing to codify this current regulatory cap and failing to prohibit additional standards, H.R. 5 permits all students with disabilities to be held to lower standards and given different assessments, effectively allowing those students to be educated in a parallel but lesser system. As a result, large numbers of students with disabilities could be prevented from receiving a regular high school diploma. Taken in concert, provisions allowing for the alternate assessment of students with significant cognitive disabilities without codification of the regulatory one percent cap or prohibition on the establishment of modified achievement standards, H.R. 5 would create a perverse incentive to over-identify children for special education to include them in the lower standard. Low-income and minority students are already over-represented in special education, and this legislation could exacerbate that problem.

#### ACCOUNTABILITY AND SCHOOL IMPROVEMENT

One of the most critical aspects of NCLB was that, for the first time, schools were held accountable for the performance of all students, including student subgroups, and they were required to take action when student achievement failed to improve. Over the last ten years, NCLB's accountability system has received both more praise and criticism than any other aspect of the law. Accordingly, Democrats firmly believe that the accountability and school improvement system must be updated to reflect what we have learned over the last ten years, while maintaining a strong focus on improving student achievement and increased focus on resource equity for under-supported schools. Committee Democrats believe that this reauthorization must set guardrails to ensure states and districts target resources and interventions to boost student achievement for subgroups of students farthest from achieving college- and career-readiness, while promoting the implementation of locally-driven, evidence-based interventions and supports tailored to unique community needs and school challenges.

<sup>8</sup> Advocacy Institute, (2015). "Assessment & Accountability for Students with Disabilities: A Look Back at the Alternate Assessment on Modified Academic Achievement Standards". Retrieved from <http://www.advocacyinstitute.org/ESEA/AA-MAS.Look.Back.Jan2015.pdf>.

Unfortunately, H.R. 5 would allow states to establish weak accountability systems that would not require performance targets for student achievement, would not require schools take specific action to better support schools that need improvement, and would not ensure all students have access to high-quality schools. H.R. 5 provides no federal guardrails on accountability for student achievement and does not support the expectation that all students should graduate high school ready for college or career. The lack of quality and consistency in the state systems combined with weak standards and low-quality assessments would provide little transparency for how schools are evaluated, little consistency from district to district or state to state, and lack of clarity for parents and communities when the academic and resource needs of students aren't being met.

H.R. 5 does not require states to establish overall goals for student achievement or to establish performance targets to measure progress toward state-established goals, allowing states to obfuscate responsibility for measurably improving outcomes for historically underserved students that the law is intended to serve. In addition, H.R. 5 does not include high school graduation rates as a component of the state-developed accountability system, despite clear consensus on the need for graduation rate accountability to be paired with accountability for student achievement to ensure low-performing students do not get pushed out of school thanks to a perverse incentive created by counting grade-level proficiency but not on-time graduation. Further, the bill dismantles current regulations requiring states have and utilize meaningful graduation rate accountability.

Committee Democrats believe that high school graduation rates must play a critical role in school identification and targeted interventions within a state-developed accountability system. This is why the comprehensive Democratic substitute amendment would support school districts in dropout prevention efforts, including the development and implementation of evidence-based early intervention warning systems that target supports to students who demonstrate warning signs of dropping out before entering high school. Committee Democrats believe that grade-level proficiency must be used in combination with student growth and high school graduation rates within accountability systems to ensure systems are working to improve student outcomes without creating or furthering incentives to push out students in need of targeted interventions. In-line with research-based approaches to improving student outcomes, Representative Wilson offered an amendment to reinstate and improve dropout prevention programming within ESEA that was defeated despite unanimous support from Committee Democrats.

Additionally, while H.R. 5 requires school improvement systems be established, it does not establish any parameters for identifying schools for improvement. Therefore, there is no assurance that schools that are failing to improve student achievement or address resource inequities will be required to take action to improve. Specifically, H.R. 5 does not define categories of schools denoting needed academic interventions or supports, nor does it establish any parameters on interventions in such schools that may be identified.

The bill does not establish timelines for improvement, expectations for local or state educational agency support for improvement, or consequences if schools do not improve. Committee Democrats believe that the expectation of support for all public schools to improve academic achievement, through locally-driven evidence-based interventions to address unique school and community needs must be clearly articulated in federal law. Once schools are identified for supports or improvement, it is incumbent on all stakeholders to work diligently, in partnership, to ensure that no student languishes in schools incapable or unwilling to meet students' needs. Mr. Polis offered an amendment to reinstate and improve provisions setting federal guardrails for school improvement activities. Unfortunately this amendment was defeated by a partisan voice vote.

H.R. 5 also fails to recognize the critical role of the U.S. Department of Education in implementing the law and providing oversight of federal funds by prohibiting the Secretary of Education from providing guidance on any of the bill's standards, assessments, or accountability provisions. This short-sighted and highly partisan legislative approach assumes both a perfect bill in need of no future clarification or guidance and a stagnant education system, incapable of adapting to the changing needs of an increasingly global economy. Under H.R. 5, the Secretary would be prohibited from simply assisting states with guidance when implementation on the ground may be unclear or challenging. Additionally, this provision would ensure that regulations, including those establishing requirements on graduation rates or the one percent cap on the number of students taking alternate assessments, could not be upheld. Committee Democrats unanimously opposed an amendment offered by Mr. Russell under the guise of data privacy that would have far-reaching consequences in hindering Secretarial authority.

H.R. 5 also removes current law protections on collective bargaining rights that ensure teachers are included in the school improvement process, rather than being silenced or sidelined. The removal of this provision ignores both the rights of teachers to collectively bargain and their important role in turning around struggling schools and improving student achievement.

#### STUDENTS WITH DISABILITIES

H.R. 5 dismantles equity protections for many groups of students; however, the failures of H.R. 5 will be especially detrimental for students with disabilities. Over the course of the past decade, students with disabilities have significantly benefited from the accountability and reporting requirements under current law which mandate that schools not only measure and report the academic achievement of every child, but are also held accountable for each student's progress.<sup>9</sup> As a result, thousands more students with disabilities have been afforded the opportunity to learn—and master—

<sup>9</sup>Statement of Katy Beh Neas, Executive Vice President for Public Affairs, Easter Seals, before H. Comm. on Educ. & the Workforce Minority Forum on the Elementary and Secondary Education Act, February 5, 2015.

grade-level academic content and graduate from high school college- and career-ready.

Students with disabilities have made considerable gains thanks to current law's focus on all schools and all student subgroups, including not only improved participation rates, but also improved academic achievement on grade-level reading and math assessments. Students with disabilities have benefited greatly from increased access to the general curriculum and from higher expectations for student achievement due, in large part, to the requirement that participation and proficiency of all subgroups be measured, reported, and used for the planning and implementation of interventions. Simply put, by removing subgroup accountability, H.R. 5 will undoubtedly hinder, and almost certainly eliminate the gains made by students with disabilities.

The Republican bill seeks to radically reduce expectations for students with disabilities, allowing states to teach and assess this population of students to an alternate and less-challenging set of content and achievement standards, only intended for students with the most significant cognitive disabilities. Furthermore, H.R. 5 would remove current restrictions on the use of student scores on such assessments for local and state educational agency accountability purposes, allowing states to administer and report on a lower standard for as many students with disabilities as the state sees fit, despite consistent research demonstrating the incidence of students with the most significant cognitive disabilities to be less than one percent of the student population.<sup>10</sup> To ignore this data by eliminating any federal limitation on the use of lower standards and less challenging assessments will result in lack of access to general curriculum and lower expectations for students with disabilities, turning back the clock on equity protections for this vulnerable group of students.

H.R. 5 lacks any requirements that all schools be held accountable for student achievement at the subgroup level or that schools receive extra resources and support if and when they fail to produce progress for all students. When coupled with provisions to allow states to establish alternate standards and alternate assessments with no assurances for quality or alignment, as well as the repeal of any limitation on usage of lower standards, H.R. 5 will place millions of students with disabilities at acute risk of receiving a subpar education and rob them of the ability to access postsecondary education or competitive integrated employment.

This irresponsible approach to educational equity for students with disabilities is why leading disability rights coalitions and groups stand unified in firm opposition to H.R. 5 including the National Center for Learning Disabilities, National Disability Rights Network, Council for Exceptional Children, Disability Rights Education & Defense Fund, the Collaboration to Promote Self Determination, the Council of Parent Attorneys and Advocates, and the Consortium for Citizens with Disabilities.

## FISCAL RESPONSIBILITY, “FLEXIBILITY,” AND UNDERMINING CIVIL RIGHTS

H.R. 5 undermines fiscal responsibility for special populations of students, reduces fiscal transparency, and cuts education funding.

*Special Populations*

Under the guise of flexibility, H.R. 5 attacks the rights of special populations of students. H.R. 5 consolidates the following programs as percentage set-asides under Title I, Part A: English Language Learners (currently Title III); Education of Migratory Children (currently Title I–C); Neglected and Delinquent Students (currently Title I–D); and Rural Education Initiative (currently Title VI–B) repealing long-standing provisions establishing separate authorizations for these critical programs. The bill also allows for funds traditionally to be shared across what would be the new Title I, Part A, permitting states and districts to siphon funds away from the very populations that drive certain ESEA funding allocations and that the law intended to serve.

The Republicans claim these current law funding streams are inflexible, but the reality is states and districts have few, if any, restrictions on how the funding can be used. The only restriction is on whom the funding supports. The Republicans additionally claim that they maintain the funding streams for these populations, but they merely make them a percentage set-aside of Title I and then allow complete flexibility in how districts utilize those funds.

Current law establishes separate funding streams to help ensure the needs of English language learners, migrant students, and neglected and delinquent students are being met. Title III, part A of the Elementary and Secondary Education Act was created, after the *Lau vs Nichols* Supreme Court ruling, to help ensure that English learners attain English proficiency, develop high levels of academic attainment in English, and meet the same state academic content and student academic achievement standards that all students are expected to meet. This program supports 4.6 million English learners in the United States. Over the last ten years, the English learners population has increased over 7.1% yet appropriation levels have not kept pace with the growing need.<sup>11</sup> The educational needs of migrant children go well beyond those traditionally supported by state and local budgets and, due to their high mobility, no single state or district is responsible for their education. In turn, the schools that serve high concentrations of migrant students are among the Nation’s highest-need schools. Title I, Part C was created to provide additional funding to support migrant students. This program currently serves about 500,000 students. Authorized over 40 years ago, Title I, Part D creates both a state and local program intended to improve educational services for students who are neglected, delinquent, or at risk of dropping out of school. This program currently serves over 100,000 students.

Democrats believe funding allocated based on the number of children in need of services—from the number of migrant students, the

<sup>11</sup>“Statement of Delia Pompa, Senior Vice President Programs, National Council of La Raza, before H. Comm. on Educ. & the Workforce Minority Forum on the Elementary and Secondary Education Act, February 5, 2015.

number of neglected or delinquent students, or the number of English Language Learners—should be used for services to improve educational outcomes for those students. In addition to an amendment offered by Representative Hinojosa to restore Title III as a separate program, the comprehensive Democratic substitute amendment maintained dedicated funding for each of these vulnerable student populations and increased program authorization levels to be reflective of current need. Increasing flexibility is needed in this reauthorization, but it must be grounded in increasing equity and improving student achievement. This flexibility can be accomplished by aligning data and allowing flexibility in school improvement. Arbitrary flexibility policies, as put forth by H.R. 5, undermine equality of opportunity and hinder our economic competitiveness.

*Fiscal Accountability and “Portability”*

H.R. 5 also eliminates fiscal accountability by striking the current law “maintenance of effort” provisions (MOE). Under the Republican bill, states and districts will be able to reduce their non-federal education spending without any penalty. This provision will allow states and districts to use education funds for tax relief or other initiatives unrelated to education, rather than efforts to support students. Federal investment in public education is limited and intended to supplement state and local resources. Numerous federal court cases contesting states’ attempts to utilize federal ESEA Title I funds to supplant existing state funds have produced court rulings upholding the federal government’s right and interest in requiring maintenance of effort.

Under current law, MOE requires states and districts receiving Title I funds to spend at least 90 percent of what they spent in the previous year from nonfederal sources. This helps to prevent big decreases in education investment, whether driven by tough budget times or genuine desire to reduce education funding. There is evidence that absent MOE provisions in federal law, states cut education spending, effectively redirecting federal funds to non-education related expenditures at the cost of the state’s most vulnerable students and in-need communities where funding from public sources is already low. Data suggests that MOE provisions included in the American Recovery and Reinvestment Act (ARRA) requiring states to maintain fiscal effort at FY2006 level influenced a critical mass of state governments to reduce state education spending. Analysis of data from Phase II ARRA applications reveals that MOE, not state formulaic priorities was the overriding factor in many states’ spending decisions; nine states reduced their funding for higher education in FY2010 to within one percent of their FY2006 federal MOE threshold, and three states set their higher education budgets exactly at the minimum MOE threshold required by ARRA. Additionally, the Department of Education Office of the Inspector General report found that while many states were planning on level funding K–12 education programs, they ul-

timately submitted applications to decrease funding to FY2006 levels after learning of lower maintenance of effort requirement.<sup>12</sup>

The Republicans claim the MOE provision amounts to “federal overreach.” However, maintenance of effort makes requirements about the levels of state and local spending, not about how money should be spent.

In fact many local educators recognize the importance of maintenance of effort. In a forum on ESEA reauthorization hosted by Ranking Member Scott, we heard from the President of the Council of the Great City Schools, who described ESEA’s MOE provisions as, “among the most critical provisions and successful components of federal education law—and among the most effective things the federal government does.”<sup>13</sup>

Committee Republicans claim that because they maintain the “supplement, not supplant” provision they maintain fiscal accountability. However, eliminating the maintenance of effort requirement and providing complete flexibility in how districts spend their federal dollars, means there is no requirement under H.R. 5 to actually measure whether districts are using federal money to supplement not supplant local money. “Supplement, not supplant” will become meaningless, and education spending across the country will decrease. Democrats believe the maintenance of effort provision must be maintained to ensure tax dollars are being spent responsibly.

In addition to eliminating MOE requirements, H.R. 5 will allow school districts to remove Title I funding from the neediest schools and divert it to more affluent schools under the innocently titled “portability” proposal. Portability has been marketed based on the slogan that Title I dollars should be placed in a “backpack” and follow a child to the school of his or her choice. As appealing as this may sound, the net effect of portability would be a billion dollar redistribution of Title I money away from poor schools towards more affluent ones. In a recent report, the Center for American Progress suggested that Title I portability could result in America’s poorest school districts losing more than \$675 million in Title I funding, while districts with the low levels of poverty could gain \$440 million.<sup>14</sup>

In a final blow to fiscal accountability, H.R. 5 also removes the 40% cap required for schools to use Title I funds for school-wide programming. Under current law, schools can reserve a portion of Title I funding at the school level to run school-wide programs if at least 40% of their students qualify for Title I funds. The rationale is that in schools with such high proportions of Title I students; school-wide program will invariably benefit them. In removing the cap, a school will now be able to retain some Title I funding to run a school-wide program even if only a handful of children receive Title I funds. Removing the cap is yet another policy choice where

where H.R. 5 tips the scales away from the children most in need of resources. Representative Fudge offered an amendment that was cosponsored by Representative Pocan to restore the intent of ESEA by targeting limited funds to concentrations of poverty by repealing these harmful proposals. This amendment was defeated despite unanimous support from Committee Democrats.

### *Funding*

H.R. 5 caps funding at FY15 appropriations levels and caps annual increases based on the inflation rate. Democrats believe education funding should not be held to arbitrary caps and that funding should reflect national need and priority if our nation is to remain globally competitive.

According to the Committee for Education Funding, a coalition of 115 national education associations and institutions representing birth to postgraduate education, the impact of H.R. 5 would be devastating on our nation's students and schools—

H.R. 5 sets the aggregate ESEA authorization level for FY2016 and for each of the succeeding years at the aggregate FY2015 funding level of \$23.30 billion. Doing so locks in over \$800 million in cuts to these programs. Should this bill become law, locking in the sequester levels as the authorization levels through FY2021 would prevent the Congress from increasing funding for ESEA programs even if the sequester were replaced or revised at any time in the next six years.

ESEA programs have already been cut multiple times in the past two and a half years. The FY 2011 continuing resolution cut ESEA programs by an aggregate \$1.43 billion. The FY 2012 omnibus appropriations bill cut ESEA funding by another \$99 million. The final FY 2013 level, after both a 0.2 percent across-the board cut and then the 5 percent sequester cuts, slashed another \$1.26 billion from ESEA programs. These waves of cuts have come at a time when enrollments have increased, more children are living in poverty, and schools and students have endured deep state and local budget cuts.

Democrats believe H.R. 5 would put the nation on the wrong path. Such low funding levels would make it more difficult for schools to accomplish the mission of improving student achievement and graduation rates, despite supposedly greater flexibility offered to states and districts. More flexibility but with far less funding is hardly a beneficial bargain.

Public polls show the American public agrees—

- According to a national survey by the Pew Research Center for the People & the Press, only a mere 10 percent of the public supports decreasing funding for education programs, while 60 percent wants to increase spending.
- A Bloomberg News poll found that 67 percent of the public believes education funding should not be cut at all by the sequester.

Now is the time to increase, not decrease, federal investment in education. As states transition to new standards, assessments, and

accountability and school improvement systems, they need the federal government to be a partner in supporting their work. As U.S. students compete globally for high-wage, high-growth jobs, Congress must invest in their education, not gut funding as H.R. 5 does.

#### WAIVER AUTHORITY

H.R. 5 limits the waiver authority of the Secretary of Education, apparently in response to the voluntary flexibility offered by the Department of Education to certain provisions of current law. As of December 2015, 42 states and a consortium of districts in California have received waivers from the most restrictive provisions of No Child Left Behind and are operating under state-developed accountability systems. Currently one state is awaiting approval of a pending application for ESEA Flexibility.

While Committee Republicans have questioned the legal authority of the Department of Education to grant conditional waivers, Sec. 9401 of current law clearly provides the Secretary of Education broad waiver authority. The waiver authority currently used by the Secretary of Education mirrors authority used by Secretary Margaret Spellings to administer the Differentiated Accountability Pilot in 2008 and the Growth Model Pilot in 2005.

Additionally, the nonpartisan Congressional Research Service (CRS) in their February 2012 report entitled *Educational Accountability and Secretarial Waiver Authority Under the ESEA* and in a June 2011 memo to the Committee on Education and the Workforce Majority Committee Staff has explained the legal authority of the Department of Education to provide this flexibility. In the February report, CRS states:

- Based on the plain language of the statute, the scope of ED's waiver authority appears to be quite broad, suggesting that ED may indeed have the authority to waive the various requirements of the ESEA specified in its flexibility proposal. This interpretation is bolstered by the fact that, although the ESEA previously contained similar waiver authority, Congress expressly enacted the current waiver provisions as part of the No Child Left Behind Act amendments to the ESEA, signaling that Congress clearly understood and intended for ED to waive the requirements of that act when appropriate.

The report further states:

- . . . the courts will generally uphold an agency's exercise of its statutory waiver authority so long as the agency develops an adequate record regarding its decision to grant a waiver and ensures that the waiver is granted consistent with the statutory purposes and procedures set forth in the section authorizing such waivers. As a result, it appears that ED does have the authority to waive ESEA statutory requirements related to issues such as academic standards and assessments; accountability requirements, including the timeline by which all students are to be proficient in reading/language arts and mathematics; school improvement, corrective action, and restructuring require-

ments; and public school choice and supplemental educational services, as long as ED develops the aforementioned adequate record and ensures that the waiver is granted consistent with the statutory purposes and procedures set forth in Section 9401.

CRS also highlights the voluntary nature of the waivers currently offered by the Department of Education.

#### H.R. 5 FAILS TO SUPPORT TEACHERS AND SCHOOL LEADERS

Federal policy must ensure that every student graduates from high school prepared for college and the workforce. In order to achieve that goal, every student must have access to an effective teacher. Unfortunately, H.R. 5 does not increase access to effective teachers. The bill fails to provide support to teachers to ensure that they are successful. In addition, H.R. 5 also fails to ensure that we have the most effective school leaders in every school.

H.R. 5 does not support collective bargaining rights of teachers, and it does not require states and districts to ensure that teachers' voices are involved in the creation and implementation of the educator effectiveness system. H.R. 5 also does not take into consideration the working conditions of teachers and leaders, including those related to school safety. In addition, the bill does not support access to effective or qualified teachers for all students, particularly minorities and students from low-income families. Research has shown the need for such equitable distribution policies because, for decades, low-income and minority students have been taught by teachers and are assigned to schools with less qualified and effective teachers and principals, respectively.<sup>15</sup> This policy is a critical component of the federal responsibility to ensure equal access to a quality public education and omitting it from federal law abandons this responsibility.

The Democratic substitute put the needs of students first by requiring states and districts to address the equitable distribution of effective and qualified teachers and school leaders to ensure they reach the students that need them the most. Committee Democrats believe states and districts should be required to develop and implement a plan to ensure students are taught and schools are led by qualified and effective teachers and school leaders at equal rates across a district. Congressman Grijalva offered an amendment to address inequitable distribution of teachers, but this amendment was defeated despite unanimous support from Committee Democrats.

H.R. 5 establishes an arbitrary cap on class size funding. This provision ignores very clear research that class size reduction in early grades is effective in improving student achievement. The first large-scale experiment on small class size was the Tennessee Student/Teacher Achievement Ratio (STAR) program. Several studies on the STAR program and other similar class reduction pro-

grams confirm substantial academic gains for K–3 students in smaller classes compared to students in larger classes.

H.R. 5 eliminates the current law minimum threshold for teacher quality by striking the Highly Qualified Teacher definition. Current law contains many provisions related to improving teacher quality, including the requirement that all students be taught by highly qualified teachers. In order to become a highly qualified teacher, NCLB requires that teachers possess a baccalaureate degree and a state teaching certificate. Teachers are also required to demonstrate content knowledge for the subjects and grades they teach. Over the past ten years, research has shown that teacher quality is one of the most important factors in student achievement. Current law's provisions requiring minimum standards for teachers prior to entering the classroom were an important step forward in improving education for both teachers and students. H.R. 5 undermines this advancement by not only eliminating current law requirements, but also by failing to set any new minimum standards for teachers before they enter the classroom.

H.R. 5 also arbitrarily eliminates Title II of Higher Education Program, which provides federal support for high quality teacher training. Though improvements must be made to that system, stripping funds from the programs that train and educate 95 percent of teachers is not an effective strategy to achieve that goal. Along with removing this essential component of successful public education, the bill excludes state authority to connect their teacher preparation programs to information about those programs' graduates, which may include data on student outcomes, workplace conditions, and educator diversity. This data link can help policy-makers better understand what is working in preparing effective teachers and leaders and how to best support such approaches.

The Democratic substitute amendment would restore Title II of the Higher Education Act. Committee Democrats would update the program to ensure that teachers are prepared to teach students to new college and career ready standards and allow states to establish a data system link between districts and pre-service programs to improve program quality. These provisions were offered by Representative Davis as an amendment to H.R. 5 which was defeated along a party line vote.

#### H.R. 5 IS FISCALLY IRRESPONSIBLE

H.R. 5 creates a block grant that is yet another example of the Republican failure to learn from the lessons of the past ten years and improve upon current law. The bill provides limited funding to states and districts to address the needs of students ranging from STEM to literacy to the arts to after school activities. Block grants are the first step to eliminating programs under the guise of increased flexibility for administrators. In addition, block grants fail taxpayers because there is no accountability for how funds are spent. Block grants make it difficult to collect standardized data and monitor interventions to determine effectiveness. Additionally, under the Republican proposals to eliminate maintenance of effort requirements it is likely that block grant funds will only be used to fill the holes left after states re-direct public education dollars to other areas.

Moreover, block grants spread funding too thin. When there is no concentration of resources on a specific area or population, there is no observable change. Block grants reduce the ability to demonstrate what programs work and at what funding levels they work best. While funding is only a part of the education policy equation, spreading money out over multiple education programs disrupts the ability to determine how much is the right amount to have an effect and under which conditions.

Block grants have been tried in ESEA before, and they failed. During the Reagan Administration portions of Title I funding were block granted to states with little federal oversight as to how the funds were distributed. Consequently, many politically connected suburban districts received larger Title I allocations than they had in the past. Poorer districts, whose high numbers of children in poverty were responsible for bringing the majority of Title I dollars to states, often received less money than they had before block granting.<sup>16</sup>

Block grants are also the first step towards the defunding of programs. During a recent forum on ESEA reauthorization hosted by Ranking Member Scott and held due to Republicans' refusal to hold a single ESEA hearing, the President of the Council of the Great City Schools drew from the history of block grants in federal education funding:

- When those initiatives [aimed at the needs of poor and low-achieving students] were at risk, the threat often came under the banner of budget cuts, program consolidation, and regulatory simplification. The mechanism for implementing those priorities was typically block grants. But, once consolidated or “block granted”, the remaining funding was often diluted and then eroded until it lost its purpose and effect . . . We are not concerned about block grants and program consolidation for philosophical or ideological reasons; we are concerned for historic reasons. Where we have seen these consolidations, we eventually also see the erosion of priorities for our neediest children.<sup>17</sup>

Based on this history, block grants, especially when combined with other H.R. 5 fiscal policies (relaxation of MOE requirements, lifting of the school-wide program cap, “portability”) would dismantle one of the core tenets of ESEA—targeting federal funding at concentrations of poverty as a means of bringing equity to our nation’s educational system. Committee Democrats support keeping the focus of ESEA on our children most in-need, and not turning the program into an educational slush fund.

H.R. 5 FAILS TO SUPPORT 21ST CENTURY COMMUNITY LEARNING  
CENTERS

H.R. 5 eliminates all dedicated support for additional learning time (including before-, after- and summer school programs, and expanded learning time). After-school programs, supported by current federal 21st CCLC funding have proved successful in developing the academic, social, emotional and physical needs and interests of students that results in improved student achievement.

For example, in a 20-year UCLA longitudinal study, researchers found that LA's BEST—a program funded in part by 21st CCLC—elementary school students in after school who participated for three or more years were nearly 20 percent less likely to drop out years later than similar students who did not attend LA's BEST.<sup>18</sup> A 2011 UCLA study confirmed the lasting impact of high-quality after school programs, showing that students who participated in LA's BEST in their elementary school years demonstrated academic gains in math, science and history.<sup>19</sup> After-school programs also provide safe learning environments for many low-income students who would otherwise be unsupervised and whose families cannot afford needed enrichment opportunities.

In recent studies of public schools where low-income students were shown to excel, more instructional time than conventional schools or expanded learning time was an essential factor. The Mid-continent Research for Education and Learning (McREL) found that experienced teachers believed that they needed at least 20 percent more hours to teach the four core academic subjects—English language arts, mathematics, social studies, and science—than are available in a standard school year.<sup>20</sup>

Despite a lack of hearings on ESEA reauthorization this Congress, we have heard from experts regarding the importance of student supports. At a 2011 hearing entitled, "Education in the Nation: Examining the Challenges and Opportunities Facing America's Classrooms", when asked about the importance of non-academic supports for students and additional learning time, witness Ted Mitchell, CEO and President of the NewSchools Venture Fund, said "In the schools where we work, it is no surprise that extending the school day and providing some of those kinds of supports, but also the extended safe period for kids, has become one of the trends that no one prescribed, but it has just grown up over time. And the research on extended learning time that is growing, first out of Massachusetts and now in other states, is quite compelling, that extended learning time can go a long way to addressing many of those needs."

In addition, the National Center on Time & Learning found that 9 in 10 schools considered their longer day and year to be essential to meeting their educational goals in a survey of nearly 250 schools that feature an expanded schedule.<sup>21</sup> H.R. 5 ignores the research. Instead of improving on current law, the bill moves our educational system backwards and fails to meet the needs of students, jeopardizing their future success by removing effective federal policy.

Committee Democrats believe in maintaining the 21st Century Community Learning Centers program and the Democratic substitute amendment continues support for before-, after-, and summer school programs, as well as expanded learning time opportunities. The need to engage and support more students is urgent. Now more than ever, we need to be providing students with additional learning time to achieve a high-quality education and skills that meet the needs of the 21st Century. Representative DeSaulnier offered an amendment to reinstate this vital program that was defeated along a party line vote, despite earlier comments from Representative Barletta supporting maintenance of dedicated funding for afterschool programming.

#### H.R. 5 FAILS TO SUPPORT THE SOCIAL AND EMOTIONAL NEEDS OF STUDENTS

H.R. 5 eliminates all dedicated support for wrap-around services essential to increasing student achievement. A student's mental, social, or emotional health, including problems such as depression, bullying, or alcohol and substance abuse, can create barriers to learning. Such barriers exist for an increasingly large number of students. Research clearly shows that students suffering from these problems suffer declining test scores and diminished academic functioning. An estimated 20 percent of school-age students will experience a significant mental health problem during their school years.<sup>22</sup> Further, some research suggests that up to 71 percent of youth experience at least one victimization event each year (for example, assault, theft, criminal victimization, or child maltreatment), with many exposed to multiple victimizations.<sup>23</sup>

In the hearing, "Education in the Nation: Examining the Challenges and Opportunities Facing America's Classrooms," on February 10, 2011, when asked if it was important to provide wrap around services in schools, Republican witness and Indiana Superintendent of Public Instruction Tony Bennett said, "So, you know, we have to make tough decisions. This goes to that statement about marrying fiscal policy and education policy. We have to put our money into the things that are going to drive results. And these school corporations that have done this around the state of Indiana have had to make tough fiscal decisions to provide these services for children, but they have made a difference in the lives

of those children.” H.R. 5 fails to invest in the services that are successful and drive results.

Students show improved outcomes when they have access to school-based mental health services. Research shows that students who have access to and receive social, emotional, and behavioral health support demonstrate better grades and standardized test scores.<sup>24</sup> In addition, school mental health programs have been shown to decrease absences and discipline referrals.

Unfortunately, H.R. 5 again ignores the research. By failing to provide dedicated support for wrap-around service, the bill fails to recognize the very real needs of students, fails to acknowledge and support what is actually working on the ground, and undermines the ability of schools to meet the needs of their students.

Students have to feel safe in school in order to learn and succeed in school. For too many poor and low-performing students, their school and its surroundings are not places where they feel safe. In some communities, the school itself can be a contributor to delinquent behavior and gang activity. Fortunately there are established proven practices that can intervene in the lives of students at risk of becoming involved in these activities, and prevent others from heading down that path. These programs are an alternative to zero-tolerance discipline policies in place in many schools, which many suggest are partially responsible for the creation of the School to Prison Pipeline.

Committee Democrats dedicate funding for grants to support student safety, health, and success. Under these grants, schools can establish comprehensive continuums of evidence-based prevention and intervention programs designed to reduce delinquent behavior and gang activity in and around schools. Based on their need, schools can use these funds on a variety of programs, from providing safe passage to students to and from school, to professional development for teachers and other education professionals to recognize early warning signs of bullying and harassment. By requiring an evidence base and prohibiting the use of funds for zero-tolerance policies, Committee Democrats hope to foster positive learning environments in all our schools, while using limited federal resources in a cost-effective manner.

#### H.R. 5 FAILS TO SUPPORT A WELL-ROUNDED EDUCATION FOR STUDENTS

One of the criticisms commonly heard about No Child Left Behind is that it forced schools to narrow their curriculum. Despite these criticisms, H.R. 5 eliminates all dedicated support for critical programs addressing STEM, literacy, and other subject matter that provide for a well-rounded education. A number of interventions and practices have been shown to increase student literacy skills; school districts just need the support to scale up best practices and implement them in the classroom. With federal support, 46 states are already working to implement comprehensive literacy strategies to strengthen our students’ ability to compete in the 21st century economy. Unfortunately, H.R. 5 eliminates support for literacy

and once again fails to acknowledge actual need and what is working in schools.

STEM occupations are projected to grow by 17 percent from 2008 to 2018, compared to 9.8 percent growth for non-STEM occupations.<sup>25</sup> Committee Democrats believe that federal policy must keep pace with the increased demand for STEM occupations. Dedicated resources to STEM education have already led to increases in student achievement. From 1990 to 2007, average mathematics scores increased by 27 points for fourth graders.<sup>26</sup> However, when compared to other nations, the math and science achievement of U.S. pupils and the rate of STEM degree attainment appear inconsistent with a nation considered the world leader in scientific innovation. According to the 2009 Program for International Student Assessment, out of 65 countries, the U.S. ranked 20th in reading, 23rd in science and 30th in math.<sup>27</sup> H.R. 5 does nothing to increase student achievement in STEM subjects. It ignores the very real need to support STEM learning in order to graduate students who will be competitive in STEM careers. Instead of taking steps forward to support innovative and effective reform, H.R. 5 once again undermines the needs of America's students, fails to improve on current law, and fails to provide support for literacy, STEM, and other subjects such as art, history, economics, and much more.

Committee Democrats support providing a well-rounded education for students, ensuring that students have access to high-quality literacy and STEM curriculum, including a STEAM curriculum, as well as highly skilled teachers to implement that curriculum. Committee Democrats believe it is unacceptable that American fifteen-year-olds rank fourteenth among developed nations in reading, lagging behind such countries as Poland, Iceland, and Estonia.<sup>28</sup> The Democratic substitute recognizes that reading and writing are absolutely critical to a student's education, and to the nation's economy. The substitute provides funds to implement state literacy plans and provides support for professional development, curriculum, assessments and other academic supports for districts and schools.

By providing continued support, the Democratic substitute also recognizes the Ready to Learn program as a highly cost-effective and efficient manner of providing all American families with access to educational media that has been proven to help children learn. Since 2005, more than 80 research and evaluation studies have demonstrated that public media's multimedia literacy and math content engages children, enhances their early learning skills and allows them to make significant academic gains helping to close the achievement gap.<sup>29</sup> The program uses public media's research-

based educational content to build the math and reading skills of children between the ages of two and eight, especially those from low-income families. For the 54 percent of American children ages three to four who are not in preschool, Ready-to-Learn content provides an essential “school readiness” experience.

The Democratic substitute provides support beyond literacy and STEM so that students have access to diverse subject areas including American History, Civics, Geography, Economics, Entrepreneurship, Financial Literacy, Foreign Languages, Arts education, and Javits Gifted and Talented programs. In addition to ensuring a broad curriculum, the Democratic substitute supports investment in the identification and dissemination of innovative new programs and instructional strategies to increase student achievement and improve graduation rates. Representative Courtney offered an amendment to require dedicated funding for STEM education and education technology that was defeated despite unanimous support from Committee Democrats. Representative Adams offered an amendment to require dedicated funding for access to a well-rounded education that was also defeated despite unanimous support from Committee Democrats.

#### H.R. 5 FAILS TO SUPPORT SCHOOL READINESS OF STUDENTS

Decades of research have found that high-quality early childhood education programs lead to better student achievement in school, higher graduation rates, lower special education placements and grade repetition, while increasing postsecondary participation, job earnings and reducing reliance on social services and involvement in the criminal justice system. These outcomes translate into massive public cost savings, calculated at a \$7–8 return for a \$1 investment.<sup>30</sup> H.R. 5 does not support quality preschool, despite strong research showing its positive impact on life outcomes and the reality that less than half of low-income children have access to early learning programs. The Democratic substitute, by contrast, recognized the evidence-based concept that learning occurs before Kindergarten and provided significant resources to support states’ efforts to provide high-quality preschool to children from low-income families so they are prepared to succeed in school. The Democratic substitute also would have strengthened existing coordinating provisions by requiring school districts to form agreements with Head Start and other early education programs in key areas, such as enrollment, recruitment and professional development. Representative Clark offered an amendment to authorize a dedicated funding stream to support state partnerships for early childhood education. Despite bipartisan support at the state and federal level and broad recognition of the return on investment on early learning programming, this amendment was defeated along a party line vote.

H.R. 5 FAILS TO PROTECT THE RIGHTS AND WELL-BEING OF  
VULNERABLE STUDENTS

While H.R. 5 makes “school safety” a delineated allowable use of funds under the large, catch-all block grant, the measure does nothing to meaningfully address known safety risks facing students and school personnel. H.R. 5 lacks any mention of, or protections against the overreliance on use of seclusion and restraint as disciplinary tactics and makes no effort to encourage or incentivize the implementation of school-wide positive behavioral supports. In establishing school employee criminal background check policies, H.R. 5 lacks key protections for both children and school personnel. The bill has no federal minimum timelines for updating background checks and excludes an appeals process for employees whose records are incomplete or inaccurate. The Democratic substitute would include a fair and timely appeal process and required school employees to update their checks at least every five years. Additionally, H.R. 5 is silent on protecting the rights of lesbian, gay, bisexual, and transgender students, including against devastating bullying and harassment, despite the prevalence of harmful actions against this population of students. H.R. 5 also lacks systemic mechanisms for ensuring that students in foster care or who are homeless have access to quality education. The Democratic substitute included provisions requiring school districts and child welfare agencies to coordinate records sharing, point of contact and transportation to school for children in foster care.

BROAD OPPOSITION TO H.R. 5

H.R. 5 was opposed by a broad array of education, civil rights and business organizations. Groups, representing students, teachers, school leaders, parents, and business wrote letters in opposition to H.R. 5. Some of the groups in opposition include: the U.S. Chamber of Commerce, the Education Trust, the Leadership Conference on Civil and Human Rights, the Consortium for Citizens with Disabilities, the National Center for Learning Disabilities, NAACP Legal Defense Fund, National Council of La Raza, the National Education Association, the American Federation of Teachers, Democrats for Education Reform, the Council of the Great City Schools, American, Council of Parent Attorneys and Advocates, Easter Seals, National Down Syndrome Congress, National Down Syndrome Society, National Association of School Psychologists, Afterschool Alliance, American University Centers on Disabilities, Autism National Committee, Committee for Education Funding, First Focus Campaign for Children, National Coalition for Public Education, National Urban League and the National Women’s Law Center.

Additionally, the Congressional Black Caucus, the Congressional Hispanic Caucus, and the Congressional Asian Pacific American Caucus wrote a letter in opposition to H.R. 5 citing “the potentially grave consequences” of this bill on students and communities.
