PURPOSE AND SUMMARY

H.R. 1575, to amend title 38, U.S.C., to make permanent the pilot program on counseling in retreat settings for women veterans newly separated from service in the Armed Forces, was introduced on March 24, 2015, by Representative Corrine Brown of Florida. It was ordered to be favorably reported to the full House on May 21, 2015, by voice vote. H.R. 1575 would require the Department of Veterans Affairs (VA) to make permanent a pilot program on counseling in retreat settings for women veterans newly separated from service in the Armed Forces and to report to Congress biennially on the program.

BACKGROUND AND NEED FOR LEGISLATION

While women have served in the military since the American Revolution and have been officially recognized as permanent members of the Armed Forces since 1948, women have only relatively recently come to represent a significant portion of the veteran population. Today, there are more than 2 million women veterans in the United States, representing 9.2 percent of the total veteran population. By 2020, women are expected to encompass 10.5 percent of the total veteran population.

Women veterans transitioning from active duty experience readjustment issues such as post-traumatic stress disorder (PTSD), military sexual trauma, substance abuse, and homelessness similar to their male counterparts, yet there are indications that military service may affect women differently than men. Research has shown that women exposed to stressful situations like combat or military sexual trauma react differently than their male counterparts, and female veterans commit suicide at nearly six times the rate of other women.¹ In addition, women veterans differ from their male counterparts in that they often lack access to peer support opportunities with fellow women veterans once they have separated from service.

Ensuring that VA is properly addressing the unique needs of women veterans is an essential component of the Committee's oversight efforts. During the 111th Congress, the Caregivers and Veterans Omnibus Health Services Act of 2010 (P.L. 111-163, 124 Stat. 1130) required VA to conduct, through the Readjustment Counseling Service Vet Center Program (RCS), a pilot program to evaluate the feasibility and advisability of providing reintegration and readjustment services in group retreat settings to women veterans recently separated from service in the Armed Forces after a prolonged deployment. To be included in each group retreat were:

- Information and counseling on reintegration into the veteran's family; employment and community;
- Financial counseling;
- Occupational counseling;
- Information and counseling on stress reduction; and
- Information and counseling on conflict resolution.

The pilot program ran for two years. According to the mandated report, VA conducted six retreats in 2011 and 2012. A total of 134

women veterans from 37 states and territories, including Alaska, Hawaii, and Guam, and ranging in age from 21 to 69 years old participated in the six retreats.

Over the course of the pilot program, evaluation data was gathered pre-retreat, immediately post-retreat, and 2-month post-retreat. Written feedback from the veteran participants immediately after the retreats was unanimously positive for both years and RCS received several letters from participants expressing their gratitude for the opportunity. More importantly, the majority of the women veterans who participated in the retreats showed improvements in their psychological well-being, decreased stress symptoms, improved stress coping skills, and a reduction in the severity of their PTSD symptoms immediately both following the retreat and 2-months post retreat.²

Given these positive outcomes, VA agreed in testimony before the Subcommittee on Health, on April 23, 2015, that providing counseling in retreat settings is beneficial for newly-separated women veterans and authorization to provide them should be made permanent. The Committee concurs.

H.R. 1575 would make the pilot program of counseling in retreat settings for women veterans newly separated from service a permanent part of VA's programs for women veterans and would require VA to report to Congress biennially on the retreats.

H.R. 1575—A bill to amend title 38, United States Code, to make permanent the pilot program on counseling in retreat settings for women veterans newly separated from service in the Armed Forces

H.R. 1575 would require the Department of Veterans Affairs (VA) to establish a permanent program that provides counseling in group retreat settings to certain women veterans who have recently separated from military service. The bill also would require the VA to submit a biennial report on the outcomes of the program.

VA is completing the final year of a pilot program that provides similar services to women veterans. According to VA, roughly 130 women participated in the program at six retreats over a two-year period, and three more retreats are planned for 2015. VA reported annual spending for the pilot program of roughly \$66,000 for each retreat. Based on information from VA on their intent to use the authority provided under H.R. 1575 to hold six retreats a year, CBO estimates that implementing this program would cost \$3 million over the 2016–2020 period, assuming appropriation of the necessary amounts.

Enacting H.R. 1575 would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply.

H.R. 1575 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would not affect the budgets of state, local, or tribal governments.

The CBO staff contact for this estimate is Ann E. Futrell. The estimate was approved by H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.

FEDERAL MANDATES STATEMENT

The Committee adopts as its own the estimate of Federal mandates regarding H.R. 1575 prepared by the Director of the Congressional Budget Office pursuant to section 423 of the Unfunded Mandates Reform Act.

ADVISORY COMMITTEE STATEMENT

No advisory committees within the meaning of section 5(b) of the Federal Advisory Committee Act would be created by H.R. 1575.

STATEMENT OF CONSTITUTIONAL AUTHORITY

Pursuant to Article I, section 8 of the United States Constitution, the reported bill is authorized by Congress' power to "provide for the common Defense and general Welfare of the United States."

APPLICABILITY TO LEGISLATIVE BRANCH

The Committee finds that the legislation does not relate to the terms and conditions of employment or access to public services or accommodations within the meaning of section 102(b)(3) of the Congressional Accountability Act.

STATEMENT ON DUPLICATION OF FEDERAL PROGRAMS

Pursuant to section 3(g) of H. Res. 5, 114th Cong. (2015), the Committee finds that no provision of H.R. 1575, establishes or reauthorizes a program of the Federal Government known to be duplicative of another Federal program, a program that was included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111-139, or a program related to a program identified in the most recent Catalog of Federal Domestic Assistance.

DISCLOSURE OF DIRECTED RULEMAKING

Pursuant to section 3(i) of H. Res. 5, 114th Cong. (2015), the Committee estimates that H.R. 1575 does not require directed rule making.

SECTION-BY-SECTION ANALYSIS OF THE LEGISLATION

Section 1. Counseling in retreat settings for women veterans newly separated from service in the Armed Forces

Section 1(a) of the bill would amend chapter 17 of title 38, U.S.C., by inserting a new section 1712C. This section would require VA, beginning on January 1, 2016, to carry out, through the Readjustment Counseling Service (RCS), a program to provide reintegration and readjustment services in group retreat settings to women veterans who are newly separated from service in the Armed Forces after a prolonged deployment. Veteran's participation in the program would be voluntary. Services provided under the program would include: (1) information on reintegration into

the family, employment, and community of the veteran; (2) financial counseling; (3) occupational counseling; (4) information and counseling on stress reduction; (5) information and counseling on conflict resolution; and, (6) such other information and counseling as the Secretary considers appropriate to assist the veteran in reintegrating into her family, job, and community. VA would be required to report to the Committees on Veterans' Affairs of the House of Representatives and the Senate a report on the program by no later than December 31, 2017, and each odd-numbered year thereafter.

Section 1(b) of the bill would amend the table of sections at the beginning of chapter 17 of title 38, U.S.C., by inserting after 1712B the following new item, as added by section 1(a) of the bill: "1712C. Counseling in retreat settings for women veterans newly separated."

Section 1(c) of the bill would, effective December 31, 2015, repeal section 201 of the Caregivers and Veterans Omnibus Health Services Act of 2010 (38 U.S.C. 1712A note).
