COMMITTEE STATEMENT AND VIEWS

PURPOSE AND SUMMARY

The Scholarships for Opportunity and Results (SOAR) Reauthorization Act gives families in the District of Columbia (DC) choice in their children's education. The bill continues the three-sector approach to education in the District of Columbia by authorizing \$60 million in annual funding, equally distributed to District of Columbia public schools, public charter schools, and the Opportunity Scholarship Program (OSP). The OSP gives children of low-income families in the District of Columbia access to a quality education through scholarships to attend private schools.

BACKGROUND AND NEED FOR LEGISLATION

H.R. 4901 reauthorizes the three-sector approach to education in the District of Columbia.¹ Since 2004, students in the District of Columbia have had greater access to a quality education, and the SOAR Reauthorization Act would allow this trend to continue.

Helping the District Maintain Educational Improvements

The District of Columbia's public education system has experienced improvements in recent years, with particularly positive outcomes appearing in the 2015 school year. Specifically, from the 2014 school year to the 2015 school year, the graduation rate for DC public schools increased from 58 percent to 64 percent.² While this gain is welcome, there is still room for further improvement to help ensure children in the District have access to a quality education.

A key pillar of the SOAR Act is the authorization of funds for public education within the District of Columbia. H.R. 4901 reauthorizes the SOAR Act for another five years, providing \$300 million in additional funding to support education in the District of Columbia over this timeframe. The \$300 million authorized by H.R. 4901 is divided equally among DC public schools, DC public charter schools, and the OSP. The OSP does not take any money away from public schools or public charter schools within the District. Rather, DC public schools and DC public charter schools benefit from additional funding that would otherwise not be available to support education within the District of Columbia. These funding streams are dedicated to improving public schools and public charter schools. It has become increasingly clear in recent years that the District of Columbia benefits from a strong network of public charter schools that provide meaningful alternatives to families that would otherwise be assigned to low-performing public schools. H.R. 4901 ensures that DC public charter schools receive funding

¹The three-sector approach was part of the D.C. School Choice Incentive Act in P.L. 108-99 and was later formalized through the enactment of the Scholarship for Opportunity and Results Act of 2011 in P.L. 112-10.

for continued improvement, strengthening educational options for District children.

While much work remains to be done for DC public schools, the most recent graduation rate demonstrates the progress being made. As a March 2016 letter from DC Mayor Muriel Bowser and a majority of the DC Council described, “These [SOAR Act] funds are critical to the gains that the District’s public education system has seen in recent years.”³

In that same letter, the Mayor and Councilmember signees urge congressional leadership to reauthorize the SOAR Act, noting “SOAR Act funding for [DC Public Schools] has been used to support initiatives that reward and increase retention of high performing teachers and principals. The funds also help attract more high quality teachers and principals to DCPS and to improve the efficiency with which schools are run.”⁴

In addition to the importance of the public school funding streams for these improvements, evidence suggests the OSP could have positive impacts on public schools, as the OSP prompted public school principals within the District to implement changes to retain students who might pursue the OSP or private school education. According to a 2010 U.S. Department of Education study of the OSP, 28 percent of public school principals indicated that they made changes to their operations in an effort to keep students from leaving public school for the OSP or a private school.⁵ As the District continues to make gains in and through its public schools, H.R. 4901 further supports those efforts. This legislation is strongly supported within the District government, as evidenced by the letter from the DC Mayor and a majority of Councilmembers requesting Congress reauthorize the SOAR Act.

The Opportunity Scholarship Program is Working and Helping Families

In 2003, when the OSP was developed as part of the DC Parental Choice Incentive Act of 2003, DC public school students had the lowest test scores in the nation.⁶ In the decade since, DC public schools have shown improvement in many areas; however, DC public school students continue to test well below national averages, with scores that remain at or near the bottom of the United States.⁷ While it is important to support the continued progress of

DC public education, families in the District deserve strong educational options, options which are made available through the OSP.

In 2015, DC eighth graders had the lowest average math and reading scores of any state.⁸ In math, 49 percent of students scored below basic, compared to the national average of 30 percent.⁹ In reading, 44 percent of students scored below a basic level, compared to the national average of 25 percent.¹⁰ In 2015, DC fourth graders remain at or near the bottom of scores in the country.¹¹ Among DC fourth graders, 31 percent of students tested below a basic level in math, compared to the national average of 19 percent.¹² In reading, 44 percent of students tested below a basic level, compared to the national average of 32 percent.¹³

Conversely, there is convincing evidence to demonstrate OSP students are seeing improved achievement against non-OSP students in reading. The 2009 U.S. Department of Education evaluation found that after three years, OSP students scored significantly higher in reading achievement, a difference equivalent to three or four months of additional learning.¹⁴ The final evaluation spanning 2004–2009 could not conclusively report on increased reading achievement, because the achievement over four years was only statistically significant at the 94 percent confidence level, and not the 95 percent confidence level included in the report.¹⁵ Dr. Patrick Wolf, the leading researcher on the study, indicated that this was the result of the sample having changed; as students graduated, the researchers had a smaller, different group of students for the fourth-year study.¹⁶

Additionally, the OSP has resulted in a meaningful impact on graduation rates. Despite the recent improvement in graduation rates for DC public schools, OSP students graduate high school at a much higher rate. During the 2014–2015 school year, OSP students had a graduation rate of 90 percent, while DC public school students had a graduation rate of 64 percent.¹⁷ OSP students graduated well above the national average of 82 percent.¹⁸ Students

from low-achieving schools in particular appear to be benefiting from the OSP, as students in low-achieving schools that used an OSP scholarship increased their graduation rate from 66 percent to 79 percent, compared to students in low-achieving schools that applied but did not receive an OSP scholarship.¹⁹ Of the 2014–2015 OSP population, 98.1 percent would have otherwise attended a school formerly designated as in need of improvement without the program.²⁰ Further, in 2014, the OSP saw 98 percent of its graduating students enroll in a two- or four-year college, with an 88 percent enrollment rate in 2015.²¹

The OSP is positioning students in the District of Columbia for academic success that will continue to benefit them for the rest of their lives. According to the Bureau of Labor Statistics, in 2015, high school graduates had a median weekly income that was \$185 higher than those without a diploma.²² This number is even higher for those with some college experience, and for those with a bachelor's degree, their median weekly earnings were more than twice that of those without a high school diploma.²³ Additionally, in 2015, the unemployment rate was 33 percent lower for those with a high school diploma than for those without.²⁴ For those with a bachelor's degree, the unemployment rate was 65 percent lower than for those without a high school diploma.²⁵ A study conducted by Dr. Wolf and Dr. Michael McShane found that for every dollar spent on the program, the OSP produces \$2.62, or a 162 percent return on investment.²⁶ Simply put, OSP is a cost-effective program.

OSP parents report that the schools they are choosing for their children are safer than the alternative public school.²⁷ Parents also exhibited greater satisfaction with their child's school as a result of the OSP.²⁸ According to an April 2016 report published by the Institute of Education Sciences examining the OSP, parents indicated greater satisfaction for private schools than for public schools.²⁹ Parents applying to the OSP were surveyed at the time of application about their satisfaction levels with their child's current school. 93 percent of parents of private-school students gave their current school a grade of an A or B, while only 55 percent of public school parents did the same.³⁰ Put differently, 44 percent of public school parents applying for the OSP gave their child's current school a grade of a C, D, or F; only eight percent of private

school parents rated their child's current school as a C or lower.³¹ The strong satisfaction with private schools helps explain the strong support for the OSP within the District which is further demonstrated by 74 percent of OSP parents and the community supporting the continuation of the program.³²

According to an April 2016 Institute of Education Sciences report, parents of private school students indicated the least amount of dissatisfaction with their child's school across each of the 12 categories measured.³³ In each category, the dissatisfaction with public schools was *at least* 15 percentage points greater than the dissatisfaction with private schools.³⁴ With respect to "academic quality", the top priority for parents choosing a new school, parents of public school students registered dissatisfaction at 42 percent compared to the six percent registered by parents of private school students.³⁵

Positive Changes for the OSP

The OSP is contributing to the success of students in the District and the satisfaction of parents with their child's education. As a result of the demonstrated success of the OSP, H.R. 4901 revises the structure for evaluating the program. Beginning in 2003, the D.C. Parental Choice Incentive Act, and the subsequent SOAR Act, required the OSP to be evaluated using the strongest possible research design. To fulfill this requirement, the U.S. Secretary of Education utilized a randomized control evaluation, creating a lottery system where some student applicants received scholarships, while other student applicants were placed in a "control group" and did not receive a scholarship. The current method of evaluation limits participation in the program, and excludes students from receiving a scholarship to complete the evaluation. Given the documented success of the program, H.R. 4901 shifts the OSP evaluation to a new standard that will still rigorously measure student achievement, but not deny scholarships to certain students through the use of a control group.

To ensure the new evaluation method is rigorous, H.R. 4901 requires the use of a quasi-experimental research design evaluation. This evaluation compares the academic achievement of OSP students to the academic achievement of a comparison group of students with similar backgrounds in District of Columbia public schools. The study is to continue evaluating students who received a scholarship and were previously studied under the former evaluation. The evaluation is not a descriptive analysis, nor does it compare OSP students to their own performance over time, but rather is an evaluation of OSP student achievement compared to DC public school student achievement, comparing students from similar backgrounds. The study should be designed to meet the U.S. Department of Education's *What Works Clearinghouse*TM standards for a "qualified quasi-experimental design" and therefore permit

evaluators to draw causal conclusions about the program, with the reservations typical of such non-experimental analyses.³⁶

The legislation also addresses prior concerns over administration of the OSP. Two previously published Government Accountability Office reports cited concerns with the OSP administrator's internal controls, including policies and procedures for financial management; *The Washington Post* also conducted an investigation in 2012 which highlighted similar concerns.³⁷ These reports also noted that the OSP administrator did not maintain complete information about OSP schools' accreditation, which serves as a means of accountability and oversight.³⁸ H.R. 4901 responds to these recommendations by requiring the OSP Administrator to utilize internal fiscal and quality controls, and also by requiring OSP participating schools to become accredited.

These controls include a requirement that the administrator of the OSP report on how it will ensure the financial viability of OSP participating schools with an OSP population that is 85 percent or greater of the total number of students enrolled at the school. With respect to accreditation, the bill contains accreditation requirements that all schools must be accredited within four years of enactment of the Consolidated Appropriations Act, 2016.³⁹ These changes will address quality control concerns, and help ensure students in the District of Columbia receive the high standard education they deserve.

The legislation also requires that criminal background checks be conducted on school employees who have direct, unsupervised interaction with students, and that at OSP participating schools, teachers of core subject matter (mathematics; science; and English, reading, or language arts) have a baccalaureate or equivalent degree.

H.R. 4901 makes clear that students who are eligible for the OSP may not be prevented from participating in the program based on the type of school the student previously attended, whether a student was previously awarded a scholarship that remains unused, and/or whether the student was a member of the previous control group used in the Institute of Education Sciences study. The U.S. Department of Education has not allowed otherwise eligible students to participate in the OSP for these reasons; the Department claims the SOAR Act's direction to the Department to "target re-

³⁹ The Consolidated Appropriations Act, 2016 contained accreditation provisions requiring OSP participating schools become accredited. However, concerns arose over the way the language was drafted over the possibility that schools could participate in the program without ever becoming fully accredited. Out of an abundance of caution, H.R. 4901 repeals the Consolidated Appropriations Act, 2016 language (Division E, Sec. 817) and replaces it with clearer language ensuring accreditation. Because the original accreditation language (which required OSP participating, unaccredited schools and unaccredited schools who want to participate in the OSP begin seeking accreditation within a year of enactment) took effect upon enactment of the Consolidated Appropriations Act, 2016, the accreditation language in H.R. 4901 is tied to this original enactment date to maintain the five year accreditation timeline originally envisioned and enacted through the Consolidated Appropriations Act, 2016.

sources to students and families that lack the financial resources to take advantage of available educational options” allows it to exclude these eligible students from participating in the program.⁴⁰ This new language prevents the Department from continuing this practice of shutting eligible students out of the program.

This legislation also clarifies that funds which have been appropriated to the OSP but have not been used must be made available to the administrator of the OSP to grant scholarships and execute the administrative functions of the program. Currently, the U.S. Department of Education does not allow the administrator of the OSP access to funds which have been appropriated to the OSP but remain unexpended from previous fiscal years, claiming the Department must maintain those funds to ensure current students can stay in the OSP in the event that Congress does not appropriate funding to the program in the future.⁴¹ Historically, in the one period when Congress did not allow for new enrollment in the OSP, it still appropriated funding to the OSP so currently enrolled students could continue their education on a scholarship, as was done through appropriations for Fiscal Year 2009.⁴² Thus, the Department’s concerns are unfounded and H.R. 4901 ensures the administrator has access to the carryover funds to provide OSP scholarships to as many eligible students as possible.

All of these changes serve to enhance the OSP. H.R. 4901 provides greater oversight and transparency of the program while ensuring students are able to participate in the OSP and the program administrator has access to the resources which Congress has appropriated to it.

Reauthorizing SOAR

In October 2015, the House passed H.R. 10 in an effort to reauthorize the SOAR Act. Subsequently, the text of that legislation was used as the base text for negotiations between the House and the Senate, where a bipartisan, bicameral agreement was reached to make a handful of changes (as highlighted by this report) to the legislation. While these changes were not substantial, but rather served to further the intent of H.R. 10, the importance of this legislation merited its reconsideration before the Committee as a new bill, providing the opportunity for members to comment and vote on the legislation. For that reason, Chairman Jason Chaffetz (R-UT) introduced the revised text as H.R. 4901.

Just as H.R. 10 before it, H.R. 4901 reauthorizes the three-sector approach which means improved educational outcomes for District of Columbia students.

Educational choice is aimed at bringing about improvements across all schools. H.R. 4901 means a continued emphasis on educational quality across District of Columbia schools. Simply put, the SOAR Reauthorization Act brings opportunity to those most in need.

LEGISLATIVE HISTORY

The DC OSP was first created as part of H.R. 2556, the D.C. Parental Choice Incentive Act, sponsored by Rep. Tom Davis (R-VA), which was favorably reported by the Committee on Government Reform by a 22–21 vote on July 10, 2003. The legislation was subsequently incorporated into H.R. 2673, the Consolidated Appropriations Act, 2004 (P.L. 108–199). Appropriations for the program were authorized through FY2008.

The Omnibus Appropriation Act, 2009 (P.L. 111–8) specified that the use of any funds in any act for Opportunity Scholarships after the 2009–2010 school year be available only upon reauthorization of the program and the adoption of legislation by the District of Columbia approving such reauthorization. The Consolidated Appropriations Act, 2010 (P.L. 111–117) eliminated this restriction on funding, allocating \$13.2 million for Opportunity Scholarships to students who received scholarships in the 2009–2010 school year.

During the 112th Congress, Speaker John Boehner (R-OH) introduced H.R. 471, the Scholarships for Opportunity and Results (SOAR) Act, on January 26, 2011 to reauthorize the DC OSP. The bill was referred to the Committee on Oversight and Government Reform. The companion bill, S.206, was introduced on January 26, 2011 by Senator Joseph Lieberman (D-CT). The bill was referred to the Senate Homeland Security and Governmental Affairs Committee, which held a hearing on February 16, 2011.

The Subcommittee on Health Care, D.C., Census, and National Archives of the Committee on Oversight and Government Reform held a hearing on the DC OSP and H.R. 471 on March 1, 2011. The Committee favorably reported the legislation by a 21–14 vote on March 10, 2011. H.R. 471 passed the House on March 30, 2011, by a record vote of 225–195. The legislation was subsequently incorporated into H.R. 1473, the Department of Defense and Full-Year Continuing Appropriations Act, 2011, (P.L. 112–10). Appropriations for the program were authorized through FY 2016.

Representative Trey Gowdy (R-SC) introduced H.R. 3237, the SOAR Technical Corrections Act on October 18, 2011. The bill was referred to the Committee on Oversight and Government Reform, and the Committee then reported the legislation favorably by voice vote on November 3, 2011. H.R. 3237 was signed into law on February 1, 2012 (P.L. 112–92).

On May 14, 2015, the Committee on Oversight and Government Reform held a field hearing at Archbishop Carroll High School, a participating DC OSP school, to examine the reauthorization of DC OSP.

After the field hearing, Speaker John Boehner (R-OH) introduced H.R. 10, the Scholarships for Opportunity and Results (SOAR) Reauthorization Act on October 5, 2015. Representatives Jason Chaffetz (R-UT), John Kline (R-MN), Daniel Lipinski (R-IL), Todd Rokita (R-IN), Rodney Frelinghuysen (R-NJ), and Luke Messer (R-IN) were original co-sponsors.

On October 9, 2015, the Committee on Oversight and Government Reform ordered H.R. 10 favorably reported, as amended, by a recorded vote of 16–14. Representative Rod Blum (R-IA), a co-sponsor of H.R.10, was detained voting in another Committee. Had Representative Blum been present for the vote, he would have

voted in favor of reporting the bill, as amended. H.R. 10 passed the House on October 21, 2015, by a record vote of 240–191.

Representative Jason Chaffetz (R–UT) introduced H.R. 4901, the Scholarships for Opportunity and Results (SOAR) Reauthorization Act on April 12, 2016. The bill was referred to the Committee on Oversight and Government Reform, and the Committee then favorably reported the legislation by voice vote on April 14, 2016.

Section 4. Prohibiting imposition of limits on types of eligible students participating in the program

Amends section 3004(a) (sec. 38–1853.04(a), D.C. Official Code). Makes clear the U.S. Secretary of the Department of Education (Secretary) may not limit an otherwise eligible student from participating in the OSP based on the type of school the student previously attended, whether or not the student previously received a scholarship (including whether an eligible student was previously awarded a scholarship and did not use the scholarship), or whether the student was a member of the evaluation “control group” that previously prohibited them from participating in OSP.

If more students enter the OSP than the program can support, the program administrator must conduct a random selection process that gives weight to priorities in section 3006.

Section 5. Requiring eligible entities to utilize internal fiscal and quality controls

Amends section 3005(b)(1) (sec. 38–1853.05(b)(1), D.C. Official Code). Makes clear that a participating school may not be required to submit to more than one site visit per school year.

Requires the administering entity to ensure the financial viability of participating schools with an OSP population of 85 percent or greater. The entity administering the OSP must have proper fiscal and quality controls in place as a condition to managing the scholarship program.

Section 6. Clarification of priorities for awarding scholarships to eligible students

Amends Section 3006(1) (sec. 38–1853.06(1), D.C. Official Code) to remove the terminology “school identified for improvement, corrective action, or restructuring” and replaces it with “school identified as one of the lowest-performing schools under the District of Columbia’s accountability system”.

Section 7. Modification of requirements for participating schools and eligible entities

Amends section 3007(a)(4) (sec. 38–1853.07(a)(4), D.C. Official Code). Requires a teacher at an OSP participating school who teaches core subject matter to OSP participating students to have a baccalaureate or equivalent degree.

Requires school employees with direct, unsupervised interaction with students to have criminal background checks.

Requires participating schools to comply with requests for data pursuant to the statutory reporting requirements in Sec. 3010 of P.L. 112–10.

Further amends section 3007(a) (sec. 38–1853.07(a), D.C. Official Code). Requires all OSP participating schools to be accredited, or in the process of seeking accreditation. Current OSP participating, unaccredited schools have one year from the date of enactment of the Consolidated Appropriations Act, 2016 (Public Law 114–113) to begin seeking accreditation and five years from the date of enactment of Consolidated Appropriations Act, 2016 (Public Law 114–113) to become accredited. New schools may participate in the OSP if they are accredited before beginning participation. Within five years after the date of enactment of the SOAR Reauthorization Act, all participating schools must provide the OSP administrator with a certificate of full accreditation.

Requires the eligible entity to help parents of an OSP participating student find another participating school in the event that such student attends an OSP participating school that fails to meet the accreditation requirements.

Makes clear students who were previously awarded an opportunity scholarship in any previous year are to be treated as renewal students and not new applicants, regardless of when the scholarship was awarded and whether it was used.

Requires the Secretary to make any remaining available funds appropriated for the OSP available to the entity administering the OSP, including funds appropriated before the enactment of the SOAR Reauthorization Act and any funds appropriated on or after enactment of such act. If the eligible entity chooses to use these funds, the funds shall be used to award new scholarships to students, of which not more than five percent of unexpended funds may be used for administrative costs, parental assistance, and tutoring. The amount made available for administrative costs, parental assistance, and tutoring is in addition to funds already set aside for those purposes pursuant to the SOAR Reauthorization Act.

Section 3007 (sec. 38–1853.07, D.C. Official Code) is further amended by repealing the previous language on administrative expenses and parental assistance and replacing it with an authorization of \$2 million annually in appropriated funds to carry out administrative functions and provide parental education and assist-

ance. These responsibilities include: conducting site visits to the schools; conducting a study on the barriers OSP participating students face in gaining admission to the school of their first choice; providing parents information on supplemental financial aid and funds to assist parents in meeting expenses that would otherwise preclude the student's participation; and streamlining the application.

Amends section 3007(c) (sec. 38–1853.07(c), D.C. Official Code) to conform to the changes made in Section 6 of this Act.

Section 8. Program evaluation

Amends section 3009(a) (sec. 38–1853.09(a), D.C. Official Code). Requires the Mayor of DC and Secretary to have the Institute of Education Sciences (IES), within the Department of Education, annually evaluate the OSP, and agree to monitor and evaluate D.C. public schools and public charter schools' use of funds. These evaluations are to be made public.

Requires the Secretary to ensure that the annual OSP evaluation uses a quasi-experimental research design that does not require a control group that would prohibit eligible students from entering the OSP and to disseminate information on the impact of the program.

Makes clear IES will assess participating students in grades 3 through 8 and one grade in high school and that the evaluation shall measure student achievement of participating students who use an opportunity scholarship. IES will work with eligible entities to ensure parents of participating students agree to participate in the evaluations.

Requires the following issues be evaluated by IES: a comparison of academic achievement of OSP participating students with similar backgrounds in D.C. public schools; the success of expanding choice options for parents and increasing satisfaction of parents and students with their choice; reasons for participating in the program; a comparison of retention, graduation, college admission, college persistence, and college graduation rates of OSP participating students with those in the D.C. public school comparison group (a similar comparison of college enrollment, persistence, and graduation rates for students who participated in the OSP in certain years compared to students who entered the OSP lottery but were not selected); school safety; an assessment of student achievement at OSP participating schools with 85 percent or greater enrollment of OSP participating students; and other issues the Secretary deems appropriate.

The bill provides protections for the personally identifiable information of students.

The evaluation conducted under the previous authorizations of the SOAR Act will be terminated, but the Secretary will continue to monitor and evaluate students who were evaluated under the most recent evaluation prior to the date of enactment of this Act.

Section 9. Funding for District of Columbia public schools and public charter schools

The Secretary may withhold funds from the Mayor if the Mayor fails to comply with any of the requirements, and reasonable notice was given as well as the opportunity for a hearing.

The Secretary may direct funds to the Office of the State Superintendent of Education of the District of Columbia (OSSE), and OSSE may transfer funds to subgrantees that are DC public charter schools, public charter school networks, nonprofits that support DC public charters, or networks of schools.

Requires the Mayor to make all necessary DC public and public charter school information available to IES for the purposes of carrying out the evaluation.

Section 10. Revision of current memorandum of understanding

The Mayor and Secretary will revise their memorandum of understanding to reflect the amendments within this Act, the need to ensure that participating schools meet fire code standards and maintain certificates of occupancy, and to ensure that DC public and public charter schools meet the requirements to provide information necessary to carry out evaluations.

Section 11. Definitions

Defines “core subject matter” and redesignates certain paragraphs.

Section 12. Extension of authorization of appropriations

Amends section 3014 (sec. 38–1853.14, D.C. Official Code) to extend the authorization through September 30, 2021. Makes clear that amounts appropriated, including amounts appropriated before the date of enactment of this Act, are to remain available until expended.

Section 12. Effective date

The amendments in the Act apply beginning the 2017–2018 school year and each succeeding school year.

APRIL 21, 2016.

H.R. 4901—Scholarships for Opportunity and Results Reauthorization Act

Summary: H.R. 4901 would amend and reauthorize the Scholarships for Opportunity and Results Act and would authorize the appropriation of \$60 million for each of fiscal years 2017 through 2021. CBO estimates that enacting H.R. 4901 would cost \$300 million over the 2017–2021 period, assuming appropriation of the authorized amounts.

Enacting H.R. 4901 would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply to this legislation.

CBO estimates that enacting H.R. 4901 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2027.

H.R. 4901 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA). Any costs to the District of Columbia would be incurred voluntarily and would result from complying with conditions of assistance.

Estimated cost to the Federal Government: The estimated budgetary effect of H.R. 4901 is shown in the following table. The costs of this legislation fall within budget function 500 (education, training, employment, and social services).

	By fiscal year, in millions of dollars—					
	2017	2018	2019	2020	2021	2017–2021
CHANGES IN SPENDING SUBJECT TO APPROPRIATION						
Authorization Level	60	60	60	60	60	300
Estimated Outlays	60	60	60	60	60	300

Basis of estimate: H.R. 4901 would authorize the appropriation of \$60 million for each of fiscal years 2017 through 2021. The program is currently authorized through fiscal year 2016 at \$60 million annually. In fiscal year 2016, the Congress appropriated \$45 million for this program.

The bill would direct the funds to be divided equally for the following three purposes:

- To provide scholarships for private-school tuition to parents of students who reside in the District of Columbia and to meet certain criteria under the D.C. Opportunity Scholarship Program;
- To improve public education in the District of Columbia; and
- To improve and expand quality public charter schools in the District of Columbia.

Based on historical spending patterns for this program and assuming appropriation of the authorized amounts, CBO projects that enacting the bill would cost \$300 million over the 2017–2021 period.

Pay-as-you-go considerations: None.

Increase in long-term net direct spending and deficits: CBO estimates that enacting H.R. 4901 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2027.

Intergovernmental and private-sector impact: H.R. 4901 contains no intergovernmental or private-sector mandates as defined in UMRA. An educational entity of the District of Columbia may voluntarily choose to apply to the Department of Education to distribute grants through the School Choice Program, but any associated costs to the District would be incurred voluntarily and would result from complying with conditions of assistance. If low-income students choose to attend private schools, the District of Columbia school system could lose federal grants based on the number of low-income students in the system.

Previous CBO estimates: On October 16, 2015, CBO transmitted an estimate for H.R. 10, the Scholarships for Opportunity and Results Reauthorization Act, as ordered reported by the House Committee on Oversight and Government Reform on October 9, 2015. The two pieces of legislation are similar but CBO's estimate of the budgetary effects of H.R. 4901 includes an additional year.

Estimate prepared by: Federal Costs: Leah Koestner; Impact on State, Local, and Tribal Governments: Jon Sperl; Impact on the Private Sector: Paige Piper/Bach.

Estimate approved by: H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.

Each such eligible entity shall ensure that the amount of any tuition or fees charged by a school participating in such entity's program under this division to an eligible student participating in the program does not exceed the amount of tuition or fees that the school charges to students who do not participate in the program.

(2) PAYMENTS TO PARENTS.—An eligible entity receiving a grant under section 3004(a) shall make scholarship payments under the entity's program under this division to the parent of the eligible student participating in the program, in a manner which ensures that such payments will be used for the payment of tuition, fees, and transportation expenses (if any), in accordance with this division.

(II) \$12,000 for attendance in grades 9 through 12.

(ii) CUMULATIVE INFLATION ADJUSTMENT.—Beginning with school year 2012-2013, the Secretary shall adjust the maximum amounts of assistance described in clause (i) for inflation, as measured by the percentage increase, if any, from the preceding fiscal year in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics of the Department of Labor.

(F) ensures that, with respect to core subject matter, participating students are taught by a teacher who has a baccalaureate degree or equivalent degree, whether such degree was awarded in or outside of the United States;

(5) ACCREDITATION REQUIREMENTS.—

(A) IN GENERAL.—*None of the funds provided under this division for opportunity scholarships may be used by a participating eligible student to enroll in a participating private school unless the school—*

(i) in the case of a school that is a participating school as of the date of enactment of the SOAR Reauthorization Act—

(I) is fully accredited by an accrediting body described in any of subparagraphs (A) through (G) of section 2202(16) of the District of Columbia School Reform Act of 1995 (Public Law 104–134; sec. 38–1802.02(16)(A)–(G), D.C. Official Code); or

MINORITY VIEWS

The Committee's consideration of H.R. 4901 may be unprecedented. In October 2015, the Committee and the House passed H.R. 10, which was substantially similar to H.R. 4901. The Senate has not acted on H.R. 10 or the Senate companion bill, S. 2171. We have never seen the Committee take action a second time in the same Congress on a bill that the House has already passed, but that has received no action in the Senate.

We are particularly perplexed by the Committee's consideration of the bill in light of the Majority's effort to include it in a House fiscal year 2017 appropriations bill.¹ Legislating on an appropriations bill violates House rules and cedes this Committee's authorizing jurisdiction.² We object to this request and urge regular order, which in this case would be to await Senate action, if any, on H.R. 10 or S. 2171.

We oppose H.R. 4901 for the same reasons we opposed H.R. 10: the District of Columbia voucher program has failed to improve academic achievement; D.C. has a robust public school choice system; and the program exempts students from the protection of federal civil rights laws.

According to a Department of Education study mandated by statute, the program has not improved academic achievement, as measured by math and reading test scores, and has had "no significant impacts" on the academic achievement of students from the lowest performing public schools.³

Previous authorizations of the program mandated an evaluation of its effectiveness. The authorizations required "the strongest possible research design for determining the effectiveness of the . . . program," and the evaluation utilized the gold standard of scientific research, a randomized controlled trial.

H.R. 4901 abandons this commitment to rigorous evaluation. It requires that an evaluation be "conducted using an acceptable quasi-experimental research design," and it expressly prohibits a randomized controlled trial. According to evaluators of the program, a randomized controlled trial "is especially important in the context of school choice because families wanting to apply for a choice program may have educational goals and aspirations that differ from the average family."⁴

⁴ Institute of Education Sciences, Department of Education, *Evaluation of the DC Opportunity Scholarship Program: An Early Look at Applicants and Participating Schools Under the SOAR Act* (Oct. 2014).

The District has a robust public school choice system in which 45% of public school students attend charter schools,⁵ and 75% of public school students attends out-of-boundary public schools.⁶

The D.C. voucher program was the first federal elementary and secondary private school voucher program in the country, and it remains the only such program. Congress has repeatedly rejected efforts to create a national voucher program. Last year, both the House and Senate considered several national voucher amendments during reauthorization of the Elementary and Secondary Education Act, but none passed.

The D.C. voucher program has never been authorized through regular order. When Congress first created the program in 2004, and then reauthorized it in 2011, it did so by adding voucher bills as riders to appropriations bills.⁷ The Senate has never passed a stand-alone D.C. voucher bill.

In a letter to Congress on March 7, 2016, D.C. Mayor Muriel Bowser and 8 of 13 D.C. Council Members did not support the voucher program itself, but rather supported the bill because it reauthorizes D.C. public and charter school funding.⁸ These officials recognize that Republicans have conditioned reauthorization of public and charter school funding on reauthorization of the voucher program funding.

We acknowledge the D.C. government's concern about losing public and charter school funding, which has been part of D.C.'s education budget for a decade. During creation of the voucher program, Congresswoman Eleanor Holmes Norton, with the assistance of the Archbishop of Washington, insisted that public and charter school funding be provided in conjunction with voucher program funding.

Finally, the program exempts students from the protection of federal civil rights laws that apply to public schools and federally funded programs, including Title IV and VI of the Civil Rights Act of 1964; Title IX of the Education Amendments Act of 1972; the Equal Educational Opportunities Act of 1974; the Individuals with Disabilities Education Act; and the Rehabilitation Act of 1973. Under the program, the federal funding is considered assistance to the student and not to the school. Students should not have to give up the protection of federal civil rights laws to participate in a federal program.
