The bill directed the Secretary to select institutions or consortia of institutions for voluntary participation in competency-based education demonstration projects. The demonstration projects would have provided participating entities with the ability to offer competency-based education programs that do not meet certain statutory and regulatory requirements which would otherwise prevent them from participating in federal student aid programs.

The amendment failed by a vote of 13 to 21.

SUMMARY

The *Simplifying the Application for Student Aid Act* provides for continued earlier notification of federal student aid awards and for better utilization of technology to simplify the FAFSA, and it makes the FAFSA more accessible to students and families.

The legislation ensures students will be able to apply for federal student aid using income data from the tax return filed one year prior to the current application cycle. Since a family’s tax return uses income data from the prior year, the process of using a previous return is often referred to as “prior-prior year.” The legislation also changes the Pell Grant inflationary increase calculation from the end of the calendar year to the end of the fiscal year, thereby allowing aid administrators to package accurate aid packages earlier.

The legislation makes the FAFSA more easily accessible by requiring the Secretary to make the application available on a mobile device. The Secretary is required to consumer test the mobile and online versions of the FAFSA with students in various income situations and with other experts in student financial assistance to ensure the applications are easy to understand and use. The legisla-

tion also requires the Secretary to periodically report on FAFSA simplification efforts and the needs of limited-English proficient students using the FAFSA.

Additionally, the legislation simplifies the FAFSA by requiring the Secretary to make every effort to allow students and families to easily import their Internal Revenue Service (IRS) income data.

COMMITTEE VIEWS

Introduction

Federal, state, and institutional aid is vitally important to many potential and current postsecondary students. However, the federal financial aid system is so complex that it has left many confused about the best options available to pay for their higher education. This is especially true for students whose parents or family members did not attend college.

For many students, this confusion begins when they attempt to fill out the FAFSA, the form that helps financial aid officers determine students' eligibility for financial aid, including the Pell Grant, student loans, work-study opportunities, and state and institutional aid. The FAFSA form—with the paper version running 10 pages and over 100 questions long—is too complex for many students and families to easily understand and complete. Additionally, the traditional aid application timeline has not served the best interest of students, families, and taxpayers.

The timing of the aid application process and the application itself must be improved so students and families can more easily apply and make informed decisions about their postsecondary education options.

Earlier notification of federal student aid

To help streamline and improve the federal student aid process, Reps. Joe Heck (R-NV), David “Phil” Roe (R-TN), Jared Polis (D-CO), and Mark Pocan (D-WI) introduced H.R. 5528, the *Simplifying the Application for Student Aid Act*, to ensure continued allowance for earlier notification of federal student aid.

Historically, the FAFSA was available on January 1 for the upcoming year, well after many college application deadlines, and required applicants to provide income from the tax return due a few months later in April. In order for students to take advantage of the ability to easily transfer their IRS income data onto the FAFSA, they had to wait until after they filed their tax returns. These timing inconsistencies may have caused delays in the submission of FAFSA forms, leaving financial aid administrators little time to put together aid packages for incoming students. According to a 2013 report published by the National Association of Student Financial Aid Administrators:

Under the current structure, delays can cause an unfavorable chain reaction: a delay in completing the income tax return can mean a delay in submitting the FAFSA, which can result in a delay in financial aid notification—and potentially a reduced amount of financial aid. This occurs because some forms of financial aid have a limited pot of funds, which is distributed on a first-come, first-served basis. Every college student needs to know where they

stand sooner rather than later, so the student can adjust and prepare for the costs of college.¹

In order to provide students with earlier aid notifications and assist administrators with more time to package and award aid, stakeholders have long called for a change to allow borrowers to apply for aid using prior-prior year data. At a 2015 hearing of the Committee on Education and the Workforce Subcommittee on Higher Education and Workforce Training hearing, the Honorable Mitch Daniels, former Governor of Indiana and current President of Purdue University, testified about the benefits of changing to prior-prior year:

Basing decisions on a prior-prior year (PPY) basis would enable better alignment of the application process with existing IRS data. The current system, which uses the previous year's financial records, is prone to delays and complications that result from the routine tax process. Switching to PPY would allow time for tax forms to be processed, corrected and analyzed before admissions decisions are made and FAFSA applications are due. It would be advantageous both in terms of financial planning and connecting the application to existing data.²

In the 2008 *Higher Education Opportunity Act*, Congress provided the Secretary the authority to allow the use of prior-prior year income. However, the Secretary is only now utilizing that authority. Starting this year, applicants can complete the FAFSA using prior-prior year income. In addition, the Secretary will make the application available in October 2016, three months earlier than usual. The Committee recognizes the benefits of using prior-prior year data to students, institutions, and taxpayers, and is committed to ensuring this commonsense policy remains in place in future academic years.

The earlier aid process timeline provided by prior-prior year allows other aspects of the aid process to occur sooner as well. H.R. 5528 takes steps to make sure other aspects of the federal student aid system align with an earlier timeline by changing the Pell Grant inflationary increase calculation from occurring at the end of the calendar year to the end of the fiscal year. This will allow aid administrators to offer accurate aid packages to prospective students earlier, giving them more time to weigh options and make the most informed decisions about where to attend and how to finance a higher education. However, the Committee does not intend the move to prior-prior year to complicate income eligibility determinations for TRIO program participants and believes TRIO program administrators should continue to be allowed to use financial aid data from the FAFSA to verify a student's eligibility to be served by TRIO.

Simplifying the FAFSA for students and families

Questions on the FAFSA form range from the net worth of investments to complicated tax questions and are often difficult for students and families to understand. This confusion can deter ap-

plicants from completing the form, preventing students from receiving financial aid for which they may otherwise have been eligible. While steps have been taken to simplify the FAFSA through the use of skip logic and reducing the number of questions families must answer, the Committee believes more can be done.

The move to prior-prior year and the use of IRS data retrieval tool (DRT) will strengthen the integrity of federal financial aid and reduce verification burdens on institutions of higher education. Before prior-prior year, student aid administrators had limited time to verify the accuracy of students' income data. As Michael Bennett, Associate Vice President of Financial Aid Services at St. Petersburg College in Florida, discussed at the March 2015 hearing entitled "Strengthening America's Higher Education System":

With more completed, and therefore accurate, tax information, verification burden for both students and institutions would be dramatically reduced through an increased use of the IRS Data Retrieval Tool. This reduced burden will free up more time for financial aid administrators to spend on counseling students.

The Committee believes the DRT has significantly reduced the burden of filling out the FAFSA by allowing families to import their tax information from the IRS, which eliminates many of the questions students and families struggle to answer. The implementation of prior-prior year allows more families to immediately utilize the DRT by eliminating the delay between filing taxes and the DRT becoming available. The *Simplifying the Application for Student Aid Act* directs the Secretary to allow married taxpayers filing separately to use the DRT as single taxpayers and married taxpayers filing jointly can currently. The legislation also directs the Secretary of Education to make every effort to utilize technology to strengthen the DRT and eliminate the need for students and families to answer questions that are not relevant to them.

H.R. 5528 requires the Secretary to continue examining ways to simplify the FAFSA through the DRT and report to Congress biennially on the U.S. Department of Education's efforts. The Committee encourages the Secretary to consider any redistribution of federal, state, and institutional aid that may occur through such simplification efforts as well as any potential limitations of using IRS data sufficient to calculate need for the determination of state aid. The Committee additionally encourages the Secretary to consider any other means of simplification made possible through the use of prior-prior year data.

The *Simplifying the Application for Student Aid Act* requires the Secretary to conduct consumer testing to ensure the electronic versions of the FAFSA are easily understandable by students and families. The Committee appreciates the work done to make the FAFSA more user-friendly but believes more can be done to make sure the FAFSA is as understandable as possible. By requiring the Secretary to conduct consumer testing with current and prospective college students, family members of such students, financial aid application experts, and students who do and do not qualify for the automatic zero expected family contribution calculation or the Simplified Needs Test, the electronic versions of the FAFSA can be strengthened for efficiency and design.

Promoting FAFSA access

One of the main purposes of FAFSA simplification is to make the form more accessible to students, thereby making a higher education more attainable. Since the creation of the online FAFSA in 1997, FAFSA completion time has decreased. However, this online application is not always easily accessible. A recent report found two million students who would have been eligible for the Pell Grant did not fill out the FAFSA. Roughly 23 percent of these students cited the difficulty of the financial aid form or lack of information about how to apply as a reason for not completing the FAFSA.³ Another report found 40 percent of all families with incomes below \$25,000 and with school-age children lack a high speed internet connection at home.⁴ Students with families in this income bracket are likely eligible for a Pell Grant and the most likely to receive state and institutional aid, both of which often rely on FAFSA data.

The Committee believes barriers to access should be removed and students should not be precluded from applying for aid because their families do not have ready access to computers or Internet. For this reason, the *Simplifying the Application for Student Aid Act* requires the Secretary to make the FAFSA available on mobile phones, through a mobile application or another technology tool.

Additionally, a student's access to federal financial aid should not be hampered by the limited English proficiency of their parents. Complicated financial questions are sometimes best understood when asked in one's native language, similar to how the IRS offers assistance to taxpayers in multiple languages.

The FAFSA relies in large part on IRS data, and there is evidence that parents whose native languages are other than English are relying on costly translation services to enter their information and help their children apply for federal financial aid. The Committee believes the FAFSA should be free for all American citizens and additional expenses for translators should be avoided. The Committee directs the Secretary to take special efforts to make the FAFSA more accessible to families with limited English proficiency, in multiple languages similar to IRS practices cited above. In addition to simplifying the FAFSA completion process for whole populations of students and their families, this legislation also requires the Secretary to periodically report on the needs of limited-English proficient students using the FAFSA.

Conclusion

For many students and families, federal financial aid makes a postsecondary education possible. Confusion surrounding the student aid system, however, can act as a barrier to students attempting to access this assistance. The *Simplifying the Application for Student Aid Act* takes an important step toward simplifying the financial aid process by ensuring students and families can apply more easily and at a time that enables them to make the most informed decisions about their education.

SECTION-BY-SECTION ANALYSIS

Section 1. Short title

States the short title is the *Simplifying the Application for Student Aid Act*.

Section 2. Using data from second preceding year

Amends section 480(a) of the *Higher Education Act* to require the Secretary to allow for the use of income from the second preceding tax year when applicants fill out the FAFSA.

Section 3. Calculation of annual adjustment percentage for Federal Pell Grants

Amends section 401(b) of the *Higher Education Act* to allow the adjustment percentage for Federal Pell Grants to be calculated at the end of each fiscal year instead of the end of each calendar year.

Section 4. FAFSA simplification

Amends section 483(a) of the *Higher Education Act* to require the Secretary to make the FAFSA available through a technology tool for mobile devices. Requires the Secretary to conduct consumer testing for the mobile and online versions of the FAFSA to ensure they are easily usable and understandable to students and families.

Amends section 483(f) of the *Higher Education Act* to require the Secretary to make every effort to use data available from the IRS to reduce the amount of original data entry by applicants and allow more taxpayers to utilize the data retrieval tool. Requires the Secretary to report to Congress every other year on its FAFSA simplification efforts and no less than once every 10 years on the needs of limited-English proficient students using the FAFSA.

Reserves \$3 million from funding authorized to be appropriated for maintaining the FAFSA to be available to carry out this legislation and specifies no additional funds are authorized to be appropriated by this legislation.

EXPLANATION OF AMENDMENTS

The amendments, including the amendment in the nature of a substitute, are explained in the body of this report.

APPLICATION OF LAW TO THE LEGISLATIVE BRANCH

Section 102(b)(3) of Public Law 104–1 requires a description of the application of this bill to the legislative branch. H.R. 5528, the *Simplifying the Application for Student Aid Act*, streamlines and improves the student aid process by providing for earlier award notification and making the Free Application for Federal Student Aid (FAFSA) simpler and more accessible.

UNFUNDED MANDATE STATEMENT

Section 423 of the Congressional Budget and Impoundment Control Act (as amended by Section 101(a)(2) of the Unfunded Mandates Reform Act, P.L. 104–4) requires a statement of whether the provisions of the reported bill include unfunded mandates. This issue is addressed in the CBO letter.

EARMARK STATEMENT

H.R. 5528 does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of House Rule XXI.

STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

In accordance with clause (3)(c) of House rule XIII, the goals of H.R. 5528 are to streamline and improve the student aid process by providing for earlier award notification and making the Free Application for Federal Student Aid (FAFSA) simpler and more accessible.

DUPLICATION OF FEDERAL PROGRAMS

No provision of H.R. 5528 establishes or reauthorizes a program of the Federal Government known to be duplicative of another Federal program, a program that was included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111–139, or a program related to a program identified in the most recent Catalog of Federal Domestic Assistance.

DISCLOSURE OF DIRECTED RULE MAKINGS

The committee estimates that enacting H.R. 5528 does not specifically direct the completion of any specific rule makings within the meaning of 5 U.S.C. 551.

STATEMENT OF OVERSIGHT FINDINGS AND RECOMMENDATIONS OF THE COMMITTEE

In compliance with clause 3(c)(1) of rule XIII and clause 2(b)(1) of rule X of the Rules of the House of Representatives, the committee's oversight findings and recommendations are reflected in the body of this report.

NEW BUDGET AUTHORITY AND CBO COST ESTIMATE

With respect to the requirements of clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974 and with respect to requirements of clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 402 of the Congressional Budget Act of 1974, the committee has received the following estimate for H.R. 5528 from the Director of the Congressional Budget Office:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, July 5, 2016.

Hon. JOHN KLINE, *Chairman,*
Committee on Education and the Workforce,
House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 5528, the Simplifying the Application for Student Aid Act.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Justin Humphrey.

Sincerely,

KEITH HALL.

Enclosure.

H.R. 5528—Simplifying the Application for Student Aid Act

H.R. 5528 would reserve \$3 million from funding for the Department of Education to implement changes to the application process for federal student aid. Those changes would include developing and testing a version of the application for mobile devices and continuing to develop the data retrieval system that allows students to pre-populate the online application with data from the Internal Revenue Service.

CBO estimates that implementing the additional administrative requirements in H.R. 5528 would cost \$3 million over the 2017–2021 period; such spending would be subject to the availability of appropriated funds.

Enacting the bill could increase applications for federal student aid, which would increase discretionary spending for Pell grants and direct spending for student loans and Pell grants; therefore, pay-as-you-go procedures apply. However, CBO estimates that those effects would be insignificant for each year and over the 2017–2026 period. Enacting H.R. 5528 would not affect revenues.

CBO estimates that enacting H.R. 5528 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2027.

H.R. 5528 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Justin Humphrey. The estimate was approved by H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.

COMMITTEE COST ESTIMATE

Clause 3(d)(1) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison of the costs that would be incurred in carrying out H.R. 5528. However, clause 3(d)(2)(B) of that rule provides that this requirement does not apply when the committee has included in its report a timely submitted cost estimate of the bill prepared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act.

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, and existing law in which no change is proposed is shown in roman):

TITLE IV—STUDENT ASSISTANCE**PART A—GRANTS TO STUDENTS IN ATTENDANCE AT INSTITUTIONS OF
HIGHER EDUCATION**

* * * * *

Subpart 1—Federal Pell Grants**SEC. 401. FEDERAL PELL GRANTS: AMOUNT AND DETERMINATIONS;
APPLICATIONS.**

(a) PROGRAM AUTHORITY AND METHOD OF DISTRIBUTION.—(1) For each fiscal year through fiscal year 2017, the Secretary shall pay to each eligible institution such sums as may be necessary to pay to each eligible student (defined in accordance with section 484) for each academic year during which that student is in attendance at an institution of higher education, as an undergraduate, a Federal Pell Grant in the amount for which that student is eligible, as determined pursuant to subsection (b). Not less than 85 percent of such sums shall be advanced to eligible institutions prior to the start of each payment period and shall be based upon an amount requested by the institution as needed to pay eligible students until such time as the Secretary determines and publishes in the Federal Register with an opportunity for comment, an alternative payment system that provides payments to institutions in an accurate and timely manner, except that this sentence shall not be construed to limit the authority of the Secretary to place an institution on a reimbursement system of payment.

(2) Nothing in this section shall be interpreted to prohibit the Secretary from paying directly to students, in advance of the beginning of the academic term, an amount for which they are eligible, in cases where the eligible institution elects not to participate in the disbursement system required by paragraph (1).

(3) Grants made under this subpart shall be known as “Federal Pell Grants”.

(b) PURPOSE AND AMOUNT OF GRANTS.—(1) The purpose of this subpart is to provide a Federal Pell Grant that in combination with reasonable family and student contribution and supplemented by the programs authorized under subparts 3 and 4 of this part, will meet at least 75 percent of a student’s cost of attendance (as defined in section 472), unless the institution determines that a greater amount of assistance would better serve the purposes of this section.

(2)

(A) The amount of the Federal Pell Grant for a student eligible under this part shall be—

(i) the maximum Federal Pell Grant, as specified in the last enacted appropriation Act applicable to that award year, plus

(ii) the amount of the increase calculated under paragraph (7)(B) for that year, less

(iii) an amount equal to the amount determined to be the expected family contribution with respect to that student for that year.

(B) In any case where a student attends an institution of higher education on less than a full-time basis (including a student who attends an institution of higher education on less than a half-time basis) during any academic year, the amount of the Federal Pell Grant to which that student is entitled shall be reduced in proportion to the degree to which that student is not so attending on a full-time basis, in accordance with a schedule of reductions established by the Secretary for the purposes of this division, computed in accordance with this subpart. Such schedule of reductions shall be established by regulation and published in the Federal Register in accordance with section 482 of this Act.

(3) No Federal Pell Grant under this subpart shall exceed the difference between the expected family contribution for a student and the cost of attendance (as defined in section 472) at the institution at which that student is in attendance. If, with respect to any student, it is determined that the amount of a Federal Pell Grant plus the amount of the expected family contribution for that student exceeds the cost of attendance for that year, the amount of the Federal Pell Grant shall be reduced until the combination of expected family contribution and the amount of the Federal Pell Grant does not exceed the cost of attendance at such institution.

(4) No Federal Pell Grant shall be awarded to a student under this subpart if the amount of that grant for that student as determined under this subsection for any academic year is less than ten percent of the maximum amount of a Federal Pell Grant award determined under paragraph (2)(A) for such academic year.

(5) Notwithstanding any other provision of this subpart, the Secretary shall allow the amount of the Federal Pell Grant to be exceeded for students participating in a program of study abroad approved for credit by the institution at which the student is enrolled when the reasonable costs of such program are greater than the cost of attendance at the student's home institution, except that the amount of such Federal Pell Grant in any fiscal year shall not exceed the maximum amount of a Federal Pell Grant award determined under paragraph (2)(A), for which a student is eligible during such award year. If the preceding sentence applies, the financial aid administrator at the home institution may use the cost of the study abroad program, rather than the home institution's cost, to determine the cost of attendance of the student.

(6) No Federal Pell Grant shall be awarded under this subpart to any individual who is incarcerated in any Federal or State penal institution or who is subject to an involuntary civil commitment upon completion of a period of incarceration for a forcible or non-forcible sexual offense (as determined in accordance with the Federal Bureau of Investigation's Uniform Crime Reporting Program).

(7) ADDITIONAL FUNDS.—

(A) IN GENERAL.—There are authorized to be appropriated, and there are appropriated (in addition to any other amounts appropriated to carry out this section and out of any money in the Treasury not otherwise appropriated) the following amounts—

(B) INCREASE IN FEDERAL PELL GRANTS.—The amounts made available pursuant to clauses (i) through (iii) of subparagraph (A) of this paragraph shall be used to increase the amount of the maximum Federal Pell Grant for which a student shall be eligible during an award year, as specified in the last enacted appropriation Act applicable to that award year, by—

(C) ADJUSTMENT AMOUNTS.—

(i) AWARD YEAR 2013–2014.—For award year 2013–2014, the amount determined under this subparagraph for purposes of subparagraph (B)(iii) shall be equal to—

(I) \$5,550 or the total maximum Federal Pell Grant for the preceding award year (as determined under clause (iv)(II)), whichever is greater, increased by a percentage equal to the annual adjustment percentage for award year 2013–2014, reduced by

(III) rounded to the nearest \$5.

(iii) SUBSEQUENT AWARD YEARS.—For award year 2018–2019 and each subsequent award year, the amount determined under this subparagraph for purposes of subparagraph (B)(iii) shall be equal to the amount determined under clause (ii) for award year 2017–2018.

(iv) DEFINITIONS.—For purposes of this subparagraph—

(I) the term “annual adjustment percentage” as applied to an award year, is equal to the estimated percentage change in the Consumer Price Index (as determined by the Secretary, using the definition in section 478(f) for the most recent [calendar year] *fiscal year* ending prior to the beginning of that award year; and

(II) the term “total maximum Federal Pell Grant” as applied to a preceding award year, is equal to the sum of—

(aa) the maximum Federal Pell Grant for which a student is eligible during an award year, as specified in the last enacted appropriation Act applicable to that preceding award year; and

(bb) the amount of the increase in the maximum Federal Pell Grant required by this paragraph for that preceding award year.

(D) PROGRAM REQUIREMENTS AND OPERATIONS OTHERWISE UNAFFECTED.—Except as provided in subparagraphs (B) and (C), nothing in this paragraph shall be construed to alter the requirements and operations of the Federal Pell Grant Program as authorized under this section, or authorize the imposition of additional requirements or operations for the determination and allocation of Federal Pell Grants under this section.

(E) RATABLE INCREASES AND DECREASES.—The amounts specified in subparagraph (B) shall be ratably increased or decreased to the extent that funds available under subparagraph (A) exceed or are less than (respectively) the amount required to provide the amounts specified in subparagraph (B).

(F) AVAILABILITY OF FUNDS.—The amounts made available by subparagraph (A) for any fiscal year shall be available beginning on October 1 of that fiscal year, and shall

remain available through September 30 of the succeeding fiscal year.

(c) PERIOD OF ELIGIBILITY FOR GRANTS.—(1) The period during which a student may receive Federal Pell Grants shall be the period required for the completion of the first undergraduate baccalaureate course of study being pursued by that student at the institution at which the student is in attendance except that any period during which the student is enrolled in a noncredit or remedial course of study as defined in paragraph (2) shall not be counted for the purpose of this paragraph.

(2) Nothing in this section shall exclude from eligibility courses of study which are noncredit or remedial in nature (including courses in English language instruction) which are determined by the institution to be necessary to help the student be prepared for the pursuit of a first undergraduate baccalaureate degree or certificate or, in the case of courses in English language instruction, to be necessary to enable the student to utilize already existing knowledge, training, or skills. Nothing in this section shall exclude from eligibility programs of study abroad that are approved for credit by the home institution at which the student is enrolled.

(3) No student is entitled to receive Pell Grant payments concurrently from more than one institution or from the Secretary and an institution.

(4) Notwithstanding paragraph (1), the Secretary may allow, on a case-by-case basis, a student to receive a basic grant if the student—

(A) is carrying at least one-half the normal full-time work load for the course of study the student is pursuing, as determined by the institution of higher education; and

(B) is enrolled or accepted for enrollment in a postbaccalaureate program that does not lead to a graduate degree, and in courses required by a State in order for the student to receive a professional certification or licensing credential that is required for employment as a teacher in an elementary school or secondary school in that State,

except that this paragraph shall not apply to a student who is enrolled in an institution of higher education that offers a baccalaureate degree in education.

(5) The period during which a student may receive Federal Pell Grants shall not exceed 12 semesters, or the equivalent of 12 semesters, as determined by the Secretary by regulation. Such regulations shall provide, with respect to a student who received a Federal Pell Grant for a term but was enrolled at a fraction of full-time, that only that same fraction of such semester or equivalent shall count towards such duration limits.

(d) APPLICATIONS FOR GRANTS.—(1) The Secretary shall from time to time set dates by which students shall file applications for Federal Pell Grants under this subpart.

(2) Each student desiring a Federal Pell Grant for any year shall file an application therefor containing such information and assurances as the Secretary may deem necessary to enable the Secretary to carry out the functions and responsibilities of this subpart.

(e) DISTRIBUTION OF GRANTS TO STUDENTS.—Payments under this section shall be made in accordance with regulations promulgated by the Secretary for such purpose, in such manner as will

best accomplish the purpose of this section. Any disbursement allowed to be made by crediting the student's account shall be limited to tuition and fees and, in the case of institutionally owned housing, room and board. The student may elect to have the institution provide other such goods and services by crediting the student's account.

(f) CALCULATION OF ELIGIBILITY.—(1) Each contractor processing applications for awards under this subpart (including a central processor, if any, designated by the Secretary) shall, in a timely manner, furnish to the student financial aid administrator (at each institution of higher education which a student awarded a Federal Pell Grant under this subpart is attending), as a part of its regular output document, the expected family contribution for each such student. Each such student financial aid administrator shall—

(A) examine and assess the data used to calculate the expected family contribution of the student furnished pursuant to this subsection;

(B) recalculate the expected family contribution of the student if there has been a change in circumstances of the student or in the data submitted;

(C) make the award to the student in the correct amount; and

(D) after making such award report the corrected data to such contractor and to a central processor (if any) designated by the Secretary for a confirmation of the correct computation of amount of the expected family contribution for each such student.

(2) Whenever a student receives an award under this subpart that, due to recalculation errors by the institution of higher education, is in excess of the amount which the student is entitled to receive under this subpart, such institution of higher education shall pay to the Secretary the amount of such excess unless such excess can be resolved in a subsequent disbursement to the institution.

(3) Each contractor processing applications for awards under this subpart shall for each academic year after academic year 1986–1987 prepare and submit a report to the Secretary on the correctness of the computations of amount of the expected family contribution, and on the accuracy of the questions on the application form under this subpart for the previous academic year for which the contractor is responsible. The Secretary shall transmit the report, together with the comments and recommendations of the Secretary, to the Committee on Appropriations of the Senate, the Committee on Appropriations of the House of Representatives, and the authorizing committees.

(g) INSUFFICIENT APPROPRIATIONS.—If, for any fiscal year, the funds appropriated for payments under this subpart are insufficient to satisfy fully all entitlements, as calculated under subsection (b) (but at the maximum grant level specified in such appropriation), the Secretary shall promptly transmit a notice of such insufficiency to each House of the Congress, and identify in such notice the additional amount that would be required to be appropriated to satisfy fully all entitlements (as so calculated at such maximum grant level).

(h) USE OF EXCESS FUNDS.—(1) If, at the end of a fiscal year, the funds available for making payments under this subpart exceed the amount necessary to make the payments required under this subpart to eligible students by 15 percent or less, then all of the excess funds shall remain available for making payments under this subpart during the next succeeding fiscal year.

(2) If, at the end of a fiscal year, the funds available for making payments under this subpart exceed the amount necessary to make the payments required under this subpart to eligible students by more than 15 percent, then all of such funds shall remain available for making such payments but payments may be made under this paragraph only with respect to entitlements for that fiscal year.

(i) TREATMENT OF INSTITUTIONS AND STUDENTS UNDER OTHER LAWS.—Any institution of higher education which enters into an agreement with the Secretary to disburse to students attending that institution the amounts those students are eligible to receive under this subpart shall not be deemed, by virtue of such agreement, a contractor maintaining a system of records to accomplish a function of the Secretary. Recipients of Pell Grants shall not be considered to be individual grantees for purposes of subtitle D of title V of Public Law 100–690.

(j) INSTITUTIONAL INELIGIBILITY BASED ON DEFAULT RATES.—

(1) IN GENERAL.—No institution of higher education shall be an eligible institution for purposes of this subpart if such institution of higher education is ineligible to participate in a loan program under part B or D as a result of a final default rate determination made by the Secretary under part B or D after the final publication of cohort default rates for fiscal year 1996 or a succeeding fiscal year.

(2) SANCTIONS SUBJECT TO APPEAL OPPORTUNITY.—No institution may be subject to the terms of this subsection unless the institution has had the opportunity to appeal the institution's default rate determination under regulations issued by the Secretary for the loan program authorized under part B or D, as applicable. This subsection shall not apply to an institution that was not participating in the loan program authorized under part B or D on the date of enactment of the Higher Education Amendments of 1998, unless the institution subsequently participates in the loan programs.

(D) identify any changes to Federal law that are necessary to implement the program on a permanent basis;

(E) identify the benefits and adverse effects of providing early estimates on program costs, program operations, program integrity, award amounts, distribution, and delivery of aid; and

(F) examine the extent to which estimated awards differ from actual awards made to students participating in the program.

(9) **CONSULTATION.**—The Secretary shall consult, as appropriate, with the Advisory Committee on Student Financial Assistance established under section 491 on the design, implementation, and evaluation of the demonstration program.

[(f) REDUCTION OF INCOME AND ASSET INFORMATION TO DETERMINE ELIGIBILITY FOR STUDENT FINANCIAL AID.—

[(1) CONTINUATION OF CURRENT FAFSA SIMPLIFICATION EFFORTS.—The Secretary shall continue to examine—

[(A) how the Internal Revenue Service can provide to the Secretary income and other data needed to compute an expected family contribution for taxpayers and dependents of taxpayers, and when in the application cycle the data can be made available;

[(B) whether data provided by the Internal Revenue Service can be used to—

[(i) prepopulate the electronic version of the FAFSA with student and parent taxpayer data; or

[(ii) generate an expected family contribution without additional action on the part of the student and taxpayer; and

[(C) whether the data elements collected on the FAFSA that are needed to determine eligibility for student aid, or to administer the Federal student financial aid programs under this title, but are not needed to compute an expected family contribution, such as information regarding the student's citizenship or permanent residency status, registration for selective service, or driver's license number, can be reduced without adverse effects.

[(2) REPORT ON FAFSA SIMPLIFICATION EFFORTS TO DATE.— Not later than 90 days after the date of enactment of the Higher Education Opportunity Act, the Secretary shall provide a written report to the authorizing committees on the work the Department has done with the Secretary of the Treasury regarding—

[(A) how the expected family contribution of a student can be calculated using substantially less income and asset information than was used on March 31, 2008;

[(B) the extent to which the reduced income and asset information will result in a redistribution of Federal grants and subsidized loans under this title, State aid, or institutional aid, or in a change in the composition of the group of recipients of such aid, and the amount of such redistribution;

[(C) how the alternative approaches for calculating the expected family contribution will—

[(i) rely mainly, in the case of students and parents who file income tax returns, on information available on the 1040, 1040EZ, and 1040A; and

[(ii) include formulas for adjusting income or asset information to produce similar results to the existing approach with less data;

[(D) how the Internal Revenue Service can provide to the Secretary of Education income and other data needed to compute an expected family contribution for taxpayers and dependents of taxpayers, and when in the application cycle the data can be made available;

[(E) whether data provided by the Internal Revenue Service can be used to—

[(i) prepopulate the electronic version of the FAFSA with student and parent taxpayer data; or

[(ii) generate an expected family contribution without additional action on the part of the student and taxpayer;

[(F) the extent to which the use of income data from two years prior to a student's planned enrollment date will change the expected family contribution computed in accordance with part F, and potential adjustments to the need analysis formula that will minimize the change; and

[(G) the extent to which the data elements collected on the FAFSA on March 31, 2008, that are needed to determine eligibility for student aid or to administer the Federal student financial aid programs, but are not needed to

compute an expected family contribution, such as information regarding the student's citizenship or permanent residency status, registration for selective service, or driver's license number, can be reduced without adverse effects.

[(3) STUDY.—

[(A) FORMATION OF STUDY GROUP.—Not later than 90 days after the date of enactment of the Higher Education Opportunity Act, the Comptroller General shall convene a study group the membership of which shall include the Secretary of Education, the Secretary of the Treasury, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, representatives of institutions of higher education with expertise in Federal and State financial aid assistance, State chief executive officers of higher education with a demonstrated commitment to simplifying the FAFSA, and such other individuals as the Comptroller General and the Secretary of Education may designate.

[(B) STUDY REQUIRED.—The Comptroller General, in consultation with the study group convened under subparagraph (A) shall—

[(i) review and build on the work of the Secretary of Education and the Secretary of the Treasury, and individuals with expertise in analysis of financial need, to assess alternative approaches for calculating the expected family contribution under the statutory need analysis formula in effect on the day before the date of enactment of the Higher Education Opportunity Act and under a new calculation that will use substantially less income and asset information than was used for the 2008–2009 FAFSA;

[(ii) conduct an additional analysis if necessary; and

[(iii) make recommendations to the authorizing committees.

[(C) OBJECTIVES OF STUDY.—The objectives of the study required under subparagraph (B) are—

[(i) to determine methods to shorten the FAFSA and make the FAFSA easier and less time-consuming to complete, thereby increasing higher education access for low-income students;

[(ii) to identify changes to the statutory need analysis formula that will be necessary to reduce the amount of financial information students and families need to provide to receive a determination of eligibility for student financial aid without causing significant redistribution of Federal grants and subsidized loans under this title; and

[(iii) to review State and institutional needs and uses for data collected on the FAFSA, and to determine the best means of addressing such needs in the case of modification of the FAFSA as described in clause (i), or modification of the need analysis formula as described in clause (ii).

[(D) REQUIRED SUBJECTS OF STUDY.—The study required under subparagraph (B) shall examine—

[(i) with respect to simplification of the financial aid application process using the statutory requirements for need analysis—

[(I) additional steps that can be taken to simplify the financial aid application process for students who (or, in the case of dependent students, whose parents) are not required to file a Federal income tax return for the prior taxable year;

[(II) information on State use of information provided on the FAFSA, including—

[(aa) whether a State uses, as of the time of the study, or can use, a student's expected family contribution based on data from two years prior to the student's planned enrollment date;

[(bb) the extent to which States and institutions will accept the data provided by the Internal Revenue Service to prepopulate the electronic version of the FAFSA to determine the distribution of State and institutional student financial aid funds;

[(cc) what data are used by States, as of the time of the study, to determine eligibility for State student financial aid, and whether the data are used for merit- or need-based aid;

[(dd) whether State data are required by State law, State regulations, or policy directives; and

[(ee) the extent to which any State-specific information requirements can be met by completion of a State application linked to the electronic version of the FAFSA; and

[(III) information on institutional needs, including the extent to which institutions of higher education are already using supplemental forms to collect additional data from students and their families to determine eligibility for institutional funds; and

[(ii) ways to reduce the amount of financial information students and families need to provide to receive a determination of eligibility for student financial aid, taking into account—

[(I) the amount of redistribution of Federal grants and subsidized loans under this title caused by such a reduction, and the benefits to be gained by having an application process that will be easier for students and their families;

[(II) students and families who do not file income tax returns;

[(III) the extent to which the full array of income and asset information collected on the FAFSA, as of the time of the study, plays an important role in the awarding of need-based State financial aid, and whether the State can use an expected family contribution generated by the

FAFSA, instead of income and asset information or a calculation with reduced data elements, to support determinations of eligibility for such State aid programs and, if not, what additional information will be needed or what changes to the FAFSA will be required; and

[(IV) information on institutional needs, including the extent to which institutions of higher education are already using supplemental forms to collect additional data from students and their families to determine eligibility for institutional funds; and

[(V) changes to this Act or other laws that will be required to implement a modified need analysis system.

[(4) CONSULTATION.—The Secretary shall consult with the Advisory Committee on Student Financial Assistance established under section 491 as appropriate in carrying out this subsection.

[(5) REPORTS.—

[(A) REPORTS ON STUDY.—The Secretary shall prepare and submit to the authorizing committees—

[(i) not later than one year after the date of enactment of the Higher Education Opportunity Act, an interim report on the progress of the study required under paragraph (3) that includes any preliminary recommendations by the study group established under such paragraph; and

[(ii) not later than two years after the date of enactment of the Higher Education Opportunity Act, a final report on the results of the study required under paragraph (3) that includes recommendations by the study group established under such paragraph.

[(B) REPORTS ON FAFSA SIMPLIFICATION EFFORTS.—The Secretary shall report to the authorizing committees, from time to time, on the progress of the simplification efforts under this subsection.]

(f) USE OF INTERNAL REVENUE SERVICE DATA RETRIEVAL TOOL TO POPULATE FAFSA.—

(1) SIMPLIFICATION EFFORTS.—The Secretary shall—

(A) make every effort to use data available from the Internal Revenue Service to reduce the amount of original data entry by applicants and strengthen the reliability of data used to calculate expected family contributions, including through the use of technology to—

(i) automatically populate the electronic version of the forms under this paragraph with data available from the Internal Revenue Service; and

(ii) direct an applicant to appropriate questions on such forms based on the applicant's answers to previous questions; and

(B) allow single taxpayers, married taxpayers filing jointly, and married taxpayers filing separately to utilize the data retrieval tool to its full capacity.

(2) *USE OF TAX RETURN IN APPLICATION PROCESS.*—The Secretary shall continue to examine whether data provided by the Internal Revenue Service can be used to generate an expected family contribution without additional action on the part of the student and taxpayer.

(3) *REPORTS ON FAFSA SIMPLIFICATION EFFORTS.*—Not less than once every other year, the Secretary shall report to the authorizing committees on the progress of the simplification efforts under this subsection.

(4) *REPORTS ON FAFSA ACCESS.*—Not less than once every 10 years, the Secretary shall report to the authorizing committees on the needs of limited English proficient students using the FAFSA.

(g) *ADDRESSING THE DIGITAL DIVIDE.*—The Secretary shall utilize savings accrued by moving more applicants to the electronic version of the forms described in subsection (a)(3) to improve access to the electronic version of the forms described in such subsection for applicants meeting the requirements of subsection (b) or (c) of section 479.

(h) *ADJUSTMENTS.*—The Secretary shall disclose, on the form notifying a student of the student’s expected family contribution, that the student may, on a case-by-case basis, qualify for an adjustment under section 479A to the cost of attendance or the values of the data items required to calculate the expected contribution for the student or parent. Such disclosure shall specify—

(1) the special circumstances under which a student or family member may qualify for such adjustment; and

(2) additional information regarding the steps a student or family member may take in order to seek an adjustment under section 479A.
