NOVEMBER 28, 2016.—Ordered to be printed

Mr. THUNE, from the Committee on Commerce, Science, and
Transportation, submitted the following

R E P O R T

[To accompany S. 2206]

The Committee on Commerce, Science, and Transportation, to which was referred the bill (S. 2206) to reduce the incidence of sexual harassment and assault at the National Oceanic and Atmospheric Administration, to reauthorize the National Oceanic and Atmospheric Administration Commissioned Officer Corps Act of 2002, and to reauthorize the Hydrographic Services Improvement Act of 1998, and for other purposes, having considered the same, reports favorably thereon with an amendment (in the nature of a substitute) and recommends that the bill (as amended) do pass.

PURPOSE OF THE BILL

The purpose of S. 2206, the National Oceanic and Atmospheric Administration Sexual Harassment and Assault Prevention Act, is to reduce the incidence of sexual harassment and assault at the National Oceanic and Atmospheric Administration (NOAA), to reauthorize the National Oceanic and Atmospheric Administration Commissioned Officer Corps Act of 2002 (33 U.S.C. 3001 et seq.), to reauthorize the Hydrographic Services Improvements Act of 1998 (33 U.S.C. 892 et seq.), and to make a number of improvements, clarifications, and refinements to the statutory authorities of NOAA.

BACKGROUND AND NEEDS

Sexual Harassment and Assault Prevention

In November 2014, the Committee received whistleblower allegations of sexual harassment and assault involving individuals conducting work on behalf of NOAA. Upon further investigation of NOAA's practices and policies, it became apparent that NOAA lacked the necessary framework to effectively address these concerns. The unique makeup of individuals working on the NOAA assets (officers, wage mariners, volunteers, scientists, interns, etc.) and the difficulty that individuals deployed on ships and aircraft face in accessing the conventional support structure, warrant uniform and clear procedures to respond to, and protect individuals from, sexual harassment and assault.

The NOAA Civil Rights Office provides integration and execution of NOAA's Equal Employment Opportunity (EEO)¹ functions. Within the EEO program, victims of discrimination and/or harassment may file a formal complaint with an EEO counselor. The EEO counselor is not an advocate for either the aggrieved person or NOAA but acts strictly as a neutral party in the EEO process. The NOAA Civil Rights Office and EEO counselors deal with civil rights, diversity, and equal employment matters. Many of these issues is unrelated to sexual harassment, and none are likely related to the crime of sexual assault.

The current structure that funnels sexual harassment issues through the EEO process leaves many gaps. For example, all of the EEO counselors are co-located on the East Coast,² creating challenges for personnel in Hawaii or Alaska, common locations for NOAA vessels. Further, the current operating structure does not provide for advocacy and/or support to the victims. In fact, upon an initial web-based inquiry into NOAA's policy, the relevant website was found to be "under construction" with no content or information to assist someone in need. After this concern was raised with NOAA, an individual is now directed to the Department of Commerce and that department's Administrative Order that provides guidance for managers and supervisors in taking action on allegations of harassment. This information still leaves gaps for a victim looking for support, information, or next steps. In addition, NOAA lacks a specific policy that addresses sexual assault. The gaps in support for an individual dealing with this situation and the lack of specific procedures make it a priority for Congress to require NOAA to establish uniform and clear procedures to prevent and respond to sexual harassment and assault.

NOAA Commissioned Officer Corps

The NOAA Commissioned Officer Corps (NOAA Corps) is one of the seven uniformed services of the United States.³ The 321 officers of the NOAA Corps make up only about 3 percent of NOAA's personnel, but as the operators of NOAA's ship and aircraft fleet, they are critical to NOAA's mission. Their combination of scientific

³The United States has seven uniformed services, of which five are 'armed services' (Army, Navy, Air Force, Marines and the Coast Guard) and two which are not armed (the US Public Health Service and the NOAA Corps).

and operational expertise, coupled with a high degree of flexibility and deployability, allow them to serve throughout NOAA's line and staff offices and support nearly all of NOAA's programs and missions.

Like other uniformed services, NOAA Corps officers often spend much of their careers away from family and friends, operating NOAA ships and aircraft that are frequently deployed up to nine months a year. NOAA Corps officers also regularly work with other uniformed services, commanding Navy underwater unmanned vehicle platoons, training with Navy scientific aircraft squadrons, and deploying on U.S. Coast Guard (USCG) cutters. The NOAA Corps and the USCG now have joint Officer Candidate School classes.

Hydrographic Services

The National Ocean Service (NOS) is one of six line offices within NOAA. There are multiple programs within NOS, but the main areas of focus are: navigation; observations and positioning; coastal science and assessment; and ocean and coastal management services. The navigation, observations, and positioning sector of NOS is tasked with geodetic and hydrographic surveys, shoreline mapping, and building and maintaining the Nation's nautical charts. The hydrographic survey data are used to support a variety of maritime functions, including safe navigation, port and harbor maintenance, coastal engineering, offshore resource development, managing sensitive marine habitats, selecting alternative energy sites, identifying geological hazards, and supporting inundation studies to understand the risks of coastal erosion, hurricanes, and tsunamis.

Some of the hydrographic survey data collection is done by the hydrographic survey vessels within NOAA's fleet. However, NOS also procures and oversees hydrographic surveying and related support services from the private sector.

Congress enacted the Hydrographic Services Improvement Act of 1998 to establish a framework for NOAA to implement new state-of-the-art technologies to modernize the United States' hydrographic services program. The law also encouraged NOAA to use outside contractors for certain hydrographic services. The law has been amended twice. In the most recent amendment,⁴ the program was reauthorized and deadlines were set for NOAA to establish a quality assurance program for privately produced hydrographic products. NOAA now produces NOS Hydrographic Surveys Specifications and Deliverables that detail the requirements for hydrographic surveys undertaken either by NOAA field units or by organizations under contract to the Director, Office of Coast Survey.⁵ In addition, Senators Thune and Sullivan have submitted a request to the Government Accountability Office to conduct a study comparing the unit costs of survey data collected by NOAA and the unit costs of procuring such data in the private sector. The study will also examine the establishment of a plan to increase private sector involvement and the quality assurance program to oversee these acquisitions.

Based on the continuous pressure of hydrographic survey needs, particularly in the Arctic, there is concern with NOAA's ability to meet current, let alone, increasing demands.

SUMMARY OF PROVISIONS

S. 2206, the National Oceanic and Atmospheric Administration Sexual Harassment and Assault Prevention Act, would address prevention and response to sexual assault and harassment within NOAA. This bill extends protection to all employees of NOAA and those individuals who work with, or conduct business on behalf of, NOAA. The proposed changes largely track what the Department of Defense (DOD) and the Department of Homeland Security have done, with modifications to adjust for the size of NOAA and differences in enforcement (i.e., DOD is subject to the Uniform Code of Military Justice, while civilians, including the NOAA Corps, are not).

This bill would require the following:

- The establishment of a policy to address sexual harassment, and direct the Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere, to place EEO personnel in all regions of operation to include the marine and aviation centers. Additionally, the Director of the Civil Rights Office would be required to submit quarterly reports to the Under Secretary that describe the number of harassment cases and any trends or region-specific issues.
- The Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere, to establish a policy to address sexual assault, modeled after the Sexual Assault Response and Prevention Program created by the USCG. The policy would require the establishment of:
 - A victim advocate program.
 - A 24-hour hotline for reporting.
 - A list of support resources an individual may use in the occurrence of sexual assault.
 - A prohibition and consequences for retaliatory actions against someone who reports a sexual assault.
 - Clear rights of the victim to be protected from the accused.
 - A process for a request of unit transfer for a victim of sexual assault.
- An annual report from NOAA on the number of sexual assaults; a synopsis of each case and any disciplinary actions; and the policies, procedures, and processes implemented.

Many provisions from previously Senate-passed NOAA Corps re-authorizations are also included in S. 2206, such as those that would do the following:

- Give the NOAA Corps new tools to improve recruiting and retention to improve diversity in the NOAA Corps and allow for retention of highly-skilled NOAA Corps officers, especially female officers, including:

- A pre-commissioning educational assistance program for students who agree to serve in the NOAA Corps (similar to a USCG pre-commissioning program).
- Authority for an education loan repayment program for students with critical skills.
- An education loan interest repayment program for officers in the first three years of active duty.
- Authorization for a “sabbatical” program modeled on a successful USCG program to allow officers to leave the service (and receive no pay or benefits) for a few years for personal reasons, such as starting a family.
- More closely align the NOAA Corps with other uniformed services, improving the ability to both support NOAA missions and be a useful national asset, including the following:
 - Creation of a new “Officer Candidate” rank for officers entering duty for a period of initial training.
 - A requirement for officers to meet USCG physical fitness standards.
 - The authority to require a period of obligated service after initial training.

LEGISLATIVE HISTORY

S. 2206 was introduced by Senator Sullivan on October 26, 2015, with Senators Cantwell, Grassley, Nelson, Schatz, and Thune as cosponsors. Senators Ayotte, Murkowski, and Wicker have also been added as cosponsors. On November 18, 2015, the Committee met in open Executive Session and, by a voice vote, ordered S. 2206 to be reported favorably with an amendment in the nature of a substitute. Changes made in the substitute amendment incorporated technical feedback received from victims’ advocacy organizations.

Bills reauthorizing the NOAA Corps and aligning both the officers’ obligations and benefits with officers in other uniformed services have been passed by the Senate in both the 112th and 113th Congresses. Specifically, the NOAA Corps Amendments Act of 2012 passed the Senate by unanimous consent in the 112th Congress (S. 2388) and the NOAA Corps Amendments Act of 2013 (S. 1068) passed the Senate by unanimous consent in the 113th Congress.

The Hydrographic Services Improvement Act of 2015 (H.R. 2743) was introduced in the House of Representatives on June 11, 2015, and was referred to the Subcommittee on Water, Power and Oceans of the Committee on Natural Resources of the House of Representatives.

ESTIMATED COSTS

In accordance with paragraph 11(a) of rule XXVI of the Standing Rules of the Senate and section 403 of the Congressional Budget Act of 1974, the Committee provides the following cost estimate, prepared by the Congressional Budget Office:

S. 2206—National Oceanic and Atmospheric Administration Sexual Harassment and Assault Prevention Act

Summary: S. 2206 would authorize the appropriation of \$183 million a year through 2020 for the National Oceanic and Atmospheric Administration (NOAA) to conduct certain hydrographic activities (the measurement and description of features that affect maritime navigation). The bill also would require NOAA to take actions aimed at reducing sexual harassment within the agency. Finally, the bill would modify personnel policies for the agency’s commissioned officer corps.

Based on information provided by NOAA and assuming appropriation of the authorized and necessary amounts, CBO estimates that implementing S. 2206 would cost \$728 million over the 2017–2021 period and \$32 million after 2021.

Because enacting the legislation would affect direct spending and revenues, pay-as-you-go procedures apply, however, CBO estimates that any such effects would be insignificant. CBO estimates that enacting the legislation would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2027.

The bill would impose intergovernmental and private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA). CBO estimates that the aggregate cost of complying with the mandates would fall below the annual thresholds established in UMRA for intergovernmental and private-sector mandates (\$77 million and \$154 million in 2016, respectively, adjusted annually for inflation).

Estimated cost to the Federal Government: The estimated budgetary effect of S. 2206 is shown in the following table. The costs of this legislation fall within budget function 300 (natural resources and environment).

	By fiscal year, in millions of dollars—					
	2017	2018	2019	2020	2021	2017–2021

Total Increases:						
Authorization Level	189	189	189	189	6	762
Estimated Outlays	123	162	184	189	70	728

Basis of estimate: For this estimate, CBO assumes that the legislation will be enacted in 2016 and that the authorized and necessary amounts will be appropriated for each fiscal year.

Spending subject to appropriation

CBO estimates that implementing S. 2206 would cost \$728 million over the 2017–2021 period, assuming appropriation of the authorized and necessary amounts, mostly for hydrographic activities authorized under the bill.

Hydrographic Activities. Title III would authorize the appropriation of \$183 million a year over the 2017–2021 period to carry

out hydrographic activities, including nautical mapping and charting, collecting hydrographic data, maintaining a geodetic reference system, and measuring tides and currents. In 2015, NOAA allocated \$183 million to carry out similar activities. Assuming appropriation of the authorized amounts, CBO estimates that implementing title III would cost \$700 million over the 2017–2021 period.

Personnel Policies. Implementing the personnel policies in the bill would increase discretionary costs by a little less than \$30 million over the 2017–2021 period, CBO estimates.

Sexual Harassment Policy. Title I would require NOAA to develop a policy to prevent and respond to sexual harassment within the agency, and would require NOAA to designate people in 11 locations throughout the country to handle matters related to equal employment opportunities and sexual harassment. The bill also would require the agency to place victims’ advocates at each of those locations. CBO expects that the agency would fill up to 44 positions through a combination of training existing staff and hiring new employees. Based on information from NOAA about the level of expertise required and incorporating the related overhead costs, CBO estimates that each new hire for this work would cost about \$160,000 a year. Finally, the bill would require NOAA to staff a 24-hour hotline for victims of sexual assault, which CBO expects would require eight new employees. Based on information provided by NOAA regarding salary and training costs, CBO estimates that implementing title I would cost about \$25 million over the 2017–2021 period.

Recruiting. Title II would authorize NOAA to spend appropriated funds to recruit members for the commissioned officer corps. On average, the corps admits about 30 new members each year. Based on the cost of recruiting for the other uniformed services, CBO estimates that implementing this provision would cost less than \$500,000 a year.

Title II also would authorize NOAA to pay certain expenses related to higher education for people serving in the commissioned officer corps or those who commit to serve in the corps after completing a college degree. Based on information provided by the agency about the number of officers who would receive such assistance, CBO estimates that implementing this provision would cost less than \$200,000 a year.

Direct spending and revenues

Title II would establish service requirements for people enlisting in NOAA’s commissioned officer corps. Under the bill, any officer who fails to meet those requirements would be obligated to repay NOAA an amount equal to the costs incurred to train that officer. Based on information provided by NOAA regarding the cost of such training, CBO estimates that the total amount of payments to NOAA from officers who fail to meet their service obligations would be insignificant (such payments would be offsetting receipts, which are credits against direct spending).

Title II also would make it illegal for anyone to wear the uniform of NOAA’s commissioned officer corps without proper authorization. Violators would be subject to criminal penalties, which are treated as revenues; however, CBO estimates that any amounts collected

would be insignificant. Furthermore, those revenues would be available to be spent under current law so that the net effect on the deficit would be negligible.

Pay-As-You-Go considerations: The Statutory Pay-As-You-Go Act of 2010 establishes budget reporting and enforcement procedures for legislation affecting direct spending or revenues. CBO estimates that enacting S. 2206 would increase revenues by an insignificant amount and would have an insignificant effect on direct spending.

Increase in long-term direct spending and deficits: CBO estimates that enacting S. 2206 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2027.

Intergovernmental and private-sector impact: The bill would impose intergovernmental and private-sector mandates as defined in UMRA, but CBO estimates that the aggregate cost of complying with the mandates would fall below the annual thresholds established in UMRA (\$77 million and \$154 million in 2016, respectively, adjusted annually for inflation).

Mandates that apply to public and private entities

The bill could increase the costs of complying with existing mandates by making personnel in the NOAA commissioned officer corps eligible for protections under the Uniformed Services Employment and Reemployment Rights Act (USERRA). Protections under that act require public and private employers to grant various allowances to members of the uniformed services. Because the increase in the number of servicemembers covered by USERRA would be so small (fewer than 400), CBO expects that the incremental cost of compliance also would be small.

Mandates that apply to public entities only

The bill would exempt NOAA officers from an obligation to serve on juries if the service unreasonably conflicts with official duties or would adversely affect the readiness of a unit, command, or activity. By expanding this exemption to NOAA officers, the bill would preempt some state and local laws governing jury duty; however, that preemption would impose no duty on state or local governments that would result in additional spending or a loss of revenues.

Mandates that apply to private entities only

The bill would prohibit individuals from wearing the uniform of the NOAA commissioned officer corps without authorization. CBO expects that the prohibition would affect few individuals. Consequently, the cost of the mandate would be minimal.

Estimate prepared by: Federal costs: Jeff LaFave; Impact on state, local, and tribal governments: Jon Sperl; Impact on the private sector: Amy Petz.

Estimate approved by: H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.

REGULATORY IMPACT

In accordance with paragraph 11(b) of rule XXVI of the Standing Rules of the Senate, the Committee provides the following evaluation of the regulatory impact of the legislation, as reported:

NUMBER OF PERSONS COVERED

The reported bill would require the Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere, to develop policies on the prevention of and response to sexual harassment and assault. These policies would be applicable to employees of NOAA, members of the NOAA Corps, and individuals who work with or conduct business on behalf of NOAA. In addition, the reported bill would require that contracts into which the Under Secretary enters for the use of a vessel by NOAA include, as a condition of the contract, a provision that subjects the crew of such vessel to the sexual harassment and assault prevention policies developed by NOAA.

The reported bill also would require the Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere, to develop and implement a charter vessel safety policy applicable to the acquisition by NOAA of charter vessel services.

ECONOMIC IMPACT

S. 2206 would reauthorize the Hydrographic Services Improvement Act of 1998 and authorize appropriations of \$183 million for the program for each of the fiscal years 2016 through 2020. These appropriations would be used for the functions of nautical mapping and charting, contracting for hydrographic surveys, operating hydrographic survey vessels, and conducting geodetic, tide, and current measurements, all of which may aid commerce and support economic activity. The components of this legislation are not expected to have any significant adverse impacts on the Nation's economy.

PRIVACY

S. 2206 would not impact the personal privacy of individuals.

PAPERWORK

The reported bill would not increase paperwork requirements for the private sector. The bill would require a number of reports and policies from the Federal Government. No later than one year after the date of enactment, it would require the Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere, to develop a policy on the prevention of and response to sexual harassment. Additionally, no later than one year after the date of enactment, the Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere, should develop a policy on the prevention of and response to sexual assault. No later than January 15th of each year, the Secretary of Commerce would submit a report to Congress on the sexual assaults involving employees of NOAA, members of the NOAA Corps, and individuals who work with or conduct business on behalf of NOAA, with respect to the previous calendar year. The bill would require, not later than one year after the date of enactment, the development and implementation of a charter vessel safety policy applicable to the acquisition of charter vessel services by NOAA.

CONGRESSIONALLY DIRECTED SPENDING

In compliance with paragraph 4(b) of rule XLIV of the Standing Rules of the Senate, the Committee provides that no provisions contained in the bill, as reported, meet the definition of congressionally directed spending items under the rule.

SECTION-BY-SECTION ANALYSIS

Section 1. Short title.

This section would designate the short title of this bill as the “National Oceanic and Atmospheric Administration Sexual Harassment and Assault Prevention Act.”

TITLE I—SEXUAL HARASSMENT AND ASSAULT PREVENTION

Section 101. Actions to address sexual harassment at National Oceanic and Atmospheric Administration.

This section would require the Secretary of Commerce, within one year of enactment, to develop a policy on the prevention of and response to sexual harassment involving NOAA employees, NOAA Corps members, and all individuals who work with, or conduct business on behalf of, NOAA (wage mariners, scientists, students, interns, volunteers, etc.). The policy should include clear procedures an individual should follow, a program to promote awareness, a process for after-hours reporting, and ensure that EEO personnel are distributed in each region of operations and at the marine and aviation centers. In developing the policy, consultation and assistance may be received from such State, local, and national organization and subject matter experts as the Secretary considers appropriate.

Not less frequently than four times each year, the Director of the Civil Rights Office of NOAA would be required to submit to the Under Secretary a report on sexual harassment in NOAA.

Section 102. Actions to address sexual assault at National Oceanic and Atmospheric Administration.

This section would require the Secretary of Commerce, within one year of enactment, to develop a comprehensive policy on the prevention of and response to sexual assault involving NOAA employees, NOAA Corps members, and all individuals who work with or conduct business on behalf of NOAA (wage mariners, scientists, students, interns, volunteers, etc.). In developing the policy, consultation and assistance may be received from such State, local, and national organization and subject matter experts as the Secretary considers appropriate.

The Secretary of Commerce would be required to establish victim advocates trained in matters relating to sexual assault who would act on behalf of the victim, helping to navigate the investigative, medical, and recovery processes. A victim advocate would be located in each region NOAA conducts operations and at each marine and aviation center, and NOAA would be required to create a process for 24-hour reporting.

These requirements would be closely aligned with the DOD policy and procedure on prevention and response to sexual assault within the armed forces.

Section 103. Rights of the victim of sexual assault.

This section would provide the victim of a sexual assault the right to be reasonably protected from the accused.

Section 104. Change of station.

This section would require timely consideration of a unit transfer or work location change to accommodate the victim of a sexual assault. The Secretary of Commerce also would need to develop a policy for the unit transfer or work location change of the alleged perpetrator in lieu of the victim. This policy would include due process for the victim and alleged perpetrator. When practicable, the Secretary of Commerce would be required to establish regulations consistent with similar regulations promulgated by the Secretary of Defense.

Section 105. Applicability of policies to crews of vessels secured by National Oceanic and Atmospheric Administration under contract.

The section would require any contract into which NOAA enters for use of a vessel (ship, small boat, aircraft) to include a clause requiring that personnel attached to the vessel be subject to the policies developed under sections 101(a) and 102(a).

Section 106. Annual report on sexual assault in the National Oceanic and Atmospheric Administration.

The Secretary of Commerce would be required to submit a report to Congress, no later than January 15th of each year, which includes the number of sexual assaults, a synopsis of each case, and the disciplinary actions taken.

Section 107. Definition.

The term “sexual assault” would have the definition in section 40002(a) of the Violence Against Women Act of 1994 (42 U.S.C. 13925(a)).

TITLE II—COMMISSIONED OFFICER CORPS OF THE NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Section 201. References to the National Oceanic and Atmospheric Administration Commissioned Officer Corps Act of 2002.

References for amendments or repeal would be considered to be made to a section or other provision of the National Oceanic and Atmospheric Administration Commissioned Officer Corps Act of 2002 (Act of 2002; 33 U.S.C. 3001 et seq.).

SUBTITLE A—GENERAL PROVISIONS

Section 211. Strength and distribution in grade.

This section would amend section 214 of the Act of 2002 (33 U.S.C. 3004) to establish the commissioned grades for officers in the NOAA Corps, and authorize the Secretary of Commerce to determine the proportion of officers assigned to each rank. The amendment made by this section would require the Secretary of Commerce to annually determine the number of officers authorized for service in each grade, but would protect officers from demotion,

pay cuts, or separation from the service as a result of the Secretary of Commerce's determination.

Section 212. Recalled officers.

Occasionally, the NOAA Corps needs to recall officers from retired status for temporary duty such as for disaster response (e.g., Hurricane Katrina, Deepwater Horizon) or to serve on personnel boards. It cannot do so if it is at authorized strength, reducing its ability to have a "surge" capacity.

This section would amend section 215 of the Act of 2002 (33 U.S.C. 3005) to require that, in determining the number of officers in each grade, officers serving in positions of importance and responsibility (33 U.S.C. 3028) and officers recalled from retirement for temporary duty (for example, during a disaster response) would not be counted in, or against, the total number of authorized officers in the NOAA Corps.

Section 213. Obligated service requirement.

The NOAA Corps currently does not have any legislatively conferred authority to bind officers to service by contract or obligation. Theoretically, an officer could receive training (costing up to \$100,000, depending on type of training) and resign from the NOAA Corps shortly thereafter. The armed services require an obligated service for appointment, training, promotion, etc. of officers to ensure they receive an adequate return on investment in these categories.

This section would amend the Act of 2002 to authorize the Secretary of Commerce to bind NOAA Corps officers to an obligation of service. It would also authorize the Secretary of Commerce to seek reimbursement from officers who do not meet their obligated service requirements, and would characterize that as a debt owed to the United States. The amendment made by this section would allow the Secretary of Commerce to waive an obligation of service requirement for an officer that is not qualified for service.

Section 214. Training and physical fitness.

This section would amend the Act of 2002 to authorize the Secretary of Commerce to carry out training programs and to require officers to maintain a state of physical fitness substantially equivalent to that required for officers in the USCG.

Section 215. Recruiting materials.

This section would amend the Act of 2002 to authorize the Secretary of Commerce the use of products created as recruiting and advertising materials (such as videos or pamphlets).

Section 216. Charter vessel safety policy.

This section would require the Secretary of Commerce to develop and implement a charter vessel safety policy within one year of the date of enactment. The policy would need to address vessel safety, operational safety, and basic personnel safety requirements applicable to the vessel size, type, and intended use. The policy would not exceed the vessel safety requirements promulgated by the USCG.

Section 217. Technical correction.

This section would amend section 101(21)(C) of title 38, United States Code, to correct a definition of active-duty NOAA Corps officers.

SUBTITLE B—PARITY AND RECRUITMENT

Section 221. Education loans.

The NOAA Corps does not have the same educational loan repayment recruiting incentives as the other uniformed services. This is particularly an issue when trying to increase NOAA Corps diversity; many other organizations use these types of incentives to recruit minority students with science and engineering backgrounds.

This section would amend the Act of 2002 to authorize the Secretary of Commerce to create an educational loan repayment program for certain qualified NOAA Corps officers.

Section 222. Interest payments.

This section would amend the Act of 2002 to authorize the Secretary of Commerce to create an interest payment program for student loans of certain active-duty NOAA Corps officers.

Section 223. Student pre-commissioning program.

This section would amend the Act of 2002 to authorize the Secretary of Commerce to provide financial assistance to support tuition and other education-related costs of a currently-enrolled student if the student agrees to serve for a certain number of years as a NOAA Corps officer upon completion of his or her educational program.

Section 224. Limitation on educational assistance.

This section would limit the total amount expended by the Secretary of Commerce for educational assistance programs under sections 267, 268, and 269 of the Act of 2002, as added by this Act, for NOAA Corps officers to the amount saved by the creation of the Officer Candidate rank under 203(f)(1) of title 37, United States Code.

Section 225. Applicability of certain provisions of title 10, United States Code, and extension of certain authorities applicable to members of the armed forces to commissioned officer corps.

This section would amend section 261 of the Act of 2002 (33 U.S.C. 3071) to extend the following additional authorities under title 10, United States Code, to the NOAA Corps: prohibition on unauthorized wearing of a uniform; rules regarding wearing religious apparel in uniform; exemption for serving on certain juries; administration of the oath; benefits and services for separated members; family programs; notary service; and educational assistance.

It would also allow the Secretary of Commerce to accept certain voluntary services, such as the implementation of an Ombudsman program. Ombudsman programs are intended to improve communication between the command and the family members of service members within the command.

Section 226. Applicability of certain provisions of title 37, United States Code.

This section would amend the Act of 2002 to extend the following additional authorities under title 37, United States Code, to the NOAA Corps: accession bonuses for officers with critical skills; housing allowances while on field or sea duty and housing allowances for dependents of deceased members; personal spending allowances; recruiting expenses; and funeral honors duty allowances.

Section 227. Legion of merit award.

This section would amend section 1121 of title 10, United States Code, to allow the officers of the NOAA Corps to receive the Legion of Merit Award.

Section 228. Prohibition of retaliatory personnel actions.

This section would amend section 261 of the Act of 2002 (33 U.S.C. 3071) so that section 1034 of title 10, United States Code, relating to protected communications and prohibition of retaliatory personnel actions also applies to NOAA Corps officers.

Section 229. Penalties for wearing uniform without authority.

This section would amend section 702 of title 18, United States Code, to include NOAA Corps officers in a provision that makes it criminal to wear a uniform without authority.

Section 230. Application of certain provisions of competitive service law.

This section would amend section 3304(f) of title 5, United States Code, to allow former NOAA Corps officers to be eligible for consideration to competitive service positions.

Section 231. Employment and reemployment rights.

This section would amend section 4303(16) of title 38, United States Code, to extend the definition of uniformed services to include NOAA Corps officers for the purposes of employment and reemployment rights granted by chapter 43 of title 38, United States Code.

Section 232. Treatment of commission in commissioned officer corps for purposes of certain hiring decisions.

This section would amend the Act of 2002 to define that an officer who has served in the commissioned officer corps for at least three years be deemed in a career or career-conditional position. An officer will therefore be qualified to apply for positions limited to individuals currently employed within NOAA.

Section 233. Direct hire authority.

This section would allow for the direct hire of a NOAA Corps officer, up to five years after leaving the service, into the Federal workforce. To be considered, the officer would have had to meet the service obligation defined in section 216 of the Act of 2002 and have been discharged under conditions other than from disciplinary action.

SUBTITLE C—APPOINTMENTS AND PROMOTION OF OFFICERS

Section 241. Appointments.

The NOAA Corps would like to implement a new retention tool to allow officers to temporarily separate and pursue personal goals (like starting a family) or other opportunities outside the service, while providing a mechanism for their return to active duty. This section would amend the Act of 2002 to allow for officers to be reappointed at the same grade they held when they separated from the NOAA Corps.

The amendment made by this section would authorize officers to be commissioned from the following sources: officer training school; military service academies; and licensed officers of the merchant marine with at least two years of service on a U.S. vessel.

Finally, the amendment made by this section would require the Secretary of Commerce to coordinate with the Secretary of Defense and the Secretary of the department in which the Coast Guard is operating to promote inter-service transfers of officers and would give preference to inter-service transfers in recruiting new NOAA Corps officers, as appropriate.

Section 242. Personnel boards.

This section would amend section 222 of the Act of 2002 (33 U.S.C. 3022) to specify that the membership of personnel boards may include officers serving in or above the grade of the officers under consideration by the board, and may include recalled, retired officers.

The current law does not allow retired or active officers below the pay grade of commander to serve on personnel boards, and makes it very difficult to form personnel boards, due to the NOAA Corps' inherent small size. This would help to ensure the diversity of the boards.

Section 243. Delegation of authority.

This section would amend section 226 of the Act of 2002 (33 U.S.C. 3026) to require the President to delegate authority for appointments and promotions to the Deputy Secretary of Commerce or NOAA Administrator for periods when the position of Secretary of Commerce is vacant.

Section 244. Assistant Administrator of the office of the marine and aviation operations.

This section would amend section 228 of the Act of 2002 (33 U.S.C. 3028) to modify that the position of the Director for the Office of Marine and Aviation Operations shall carry the title of Assistant Administrator to be consistent with the other NOAA line offices. The Office of Marine and Aviation Operations is responsible for the oversight of the vessel and aircraft fleets and for the administration of the commissioned officer corps.

Section 245. Temporary appointments.

This section would amend section 229 of the Act of 2002 (33 U.S.C. 3029) to establish a mechanism for junior officers to be temporarily appointed by the President alone.

Section 246. Officer candidates.

This section would amend the Act of 2002 to authorize the Secretary of Commerce to create an officer candidate rank for individuals who are in training before receiving their commission.

Currently, officers entering the NOAA Corps for initial training are directly commissioned as officers (Ensigns) on their first day. All armed services have a period where the individual is an “officer candidate” before receiving a commission. The amendment made by this section would give NOAA the authority to create an “officer candidate” rank, with reduced pay. This would result in savings of approximately \$115,000 annually, which could be used to pay for officer precommissioning and education programs established elsewhere in this bill.

Section 247. Procurement of personnel.

This section would amend the Act of 2002 to authorize the Secretary of Commerce to make expenditures in order to recruit NOAA Corps officers.

SUBTITLE D—SEPARATION AND RETIREMENT OF OFFICERS

Section 251. Involuntary retirement or separation.

This section would amend section 241 of the Act of 2002 (33 U.S.C. 3041) to enable deferral of involuntary retirement or separation due to medical conditions for officers of any rank. Currently, the NOAA Corps can defer involuntary separation of lieutenant commanders and below but it cannot for commanders and captains.

Section 252. Separation pay.

This section would amend section 242 of the Act of 2002 (33 U.S.C. 3042) to clarify that separation pay may not be paid to an officer discharged after two missed promotion opportunities if he or she is not genuinely seeking a promotion.

TITLE III—HYDROGRAPHIC SERVICES

Section 301. Reauthorization of hydrographic services improvement Act of 1998.

The amendment made by this section would reauthorize the Hydrographic Services Improvement Act of 1998 through fiscal year 2020. The bill would specify \$5 million and \$2 million of the authorized appropriations be used for Arctic hydrographic surveys and continental shelf delineation, respectively. It would limit administrative expenses associated with contract management to not more than five percent.
