The resolution provides four hours of general debate with three hours confined to the congressional budget equally divided and controlled by the chair and ranking minority member of the Committee on the Budget and one hour on the subject of economic goals and policies equally divided and controlled by Rep. Tiberi of Ohio and Rep. Carolyn Maloney of New York or their respective designees. The resolution waives all points of order against consideration of the concurrent resolution and provides that the concurrent resolution shall be considered as read. The resolution makes in order only those amendments printed in this report. Each such amendment may be offered only in the order printed in this report, may be offered only by a Member designated in this report, shall be considered as read, shall be debatable for the time specified in this report equally divided and controlled by the proponent and an opponent, and shall not be subject to amendment. The resolution waives all points of order against the amendments printed in this report except that the adoption of an amendment in the nature of a substitute shall constitute the conclusion of consideration of the concurrent resolution for amendment. The resolution provides,

upon the conclusion of consideration of the concurrent resolution for amendment, a final period of general debate, which shall not exceed 10 minutes equally divided and controlled by the chair and ranking minority member of the Committee on the Budget. The resolution permits the Chair of the Budget Committee to offer amendments in the House pursuant to section 305(a)(5) of the Congressional Budget Act of 1974 to achieve mathematical consistency. TITLE II—ESTIMATES OF DIRECT SPENDING

SEC. 1. DIRECT SPENDING.

(a) MEANS-TESTED DIRECT SPENDING.—

(1) For means-tested direct spending, the average rate of growth in the total level of outlays during the 10-year period preceding fiscal year 2018 is 6.8 percent.

(2) For means-tested direct spending, the estimated average rate of growth in the total level of outlays during the 11-year period beginning with fiscal year 2017 is 4.3 percent under current law.

(3) The following reforms are proposed in this concurrent resolution for means-tested direct spending:

(A) The People's Budget adopts former President Obama's Earned Income Tax Credit (EITC) to expand eligibility, including for childless workers. Continues enhanced credits originally implemented under the American Recovery and Reinvestment Act to target those most in need. This includes extending the Child and Dependent Care Credit and the American Opportunity Tax Credit through 2027.

(B) The People's Budget includes former President Obama's proposal to boost the Child Tax Credit maximum deduction to \$3,000. It makes key expansions permanent to protect 50 million Americans who would otherwise be at jeopardy for losing part or all of their EITC and CTC.

(C) The People's Budget creates a debt free college that provides Federal matching program to support state efforts to expand investment in higher education, bring down costs for students, and increase aid to students to help them cover the total cost of college attendance without taking on debt. The program would encourage innovation by states and colleges to improve efficiency and enable speedy and less-costly degree completion. By treating higher education as a public good worth investing in, we can once again make higher education accessible to all.

(D) The People's Budget allows students to refinance their student loans at low rates and allows private borrowers to shift to more affordable government loans. Allowing student borrowers to reduce the value of their debt will free up income for purchases and will create a job-creating ripple effect throughout the entire economy.

(E) The People's Budget restores cuts made to the Supplemental Nutrition Assistance Program (SNAP) and permanently adopts the enhanced levels established in the American Recovery and Reinvestment Act. The vast majority of SNAP recipients are households with children, seniors and individuals with disabilities, but recent cuts lowered average benefits by \$216 in 2014. Providing families with basic food security through SNAP is one of the most effective ways the Federal Government can stimulate the economy.

(F) The People's Budget provides an additional \$10.8 billion for child nutrition programs including program expansion and improvements for summer meals; essential improvements and expansion funding for preschool nutrition including increases in meal reimbursements to fulfill the new meal pattern, an additional meal or snack for children in long-term care, and expanded program eligibility; and investments in school meals and school kitchens.

(G) The People's Budget replaces the 40 percent excise tax with a public option to allow the Secretary of Health

and Human Services to offer a public insurance option within the health insurance marketplaces. This ensures choice, competition, and stability in coverage. The Congressional Budget Office (CBO) estimates the premium costs for Americans under the public option will be 7 to 8 percent lower than costs in private exchange plans. The repeal of the excise tax costs \$132 billion while savings from the public option are \$176 billion.

(H) The People's Budget continues funding for the entire CHIP program until 2020.

(I) The People's Budget protects States programs by fully retaining maintenance of effort requirements and eliminating any States ability to arbitrarily implement enrollment caps. Without action, Federal funding for CHIP will expire jeopardizing the health care coverage of more than 10 million children and pregnant women.

(J) The People's Budget permits the Secretary of Health and Human Services (HHS) to negotiate prescription drug prices with pharmaceutical manufacturers. Giving HHS the ability to negotiate prices, as the Department of Veterans Affairs currently does, will save Medicare \$429 billion and will reduce costs for seniors.

(b) NONMEANS-TESTED DIRECT SPENDING.—

(1) For nonmeans-tested direct spending, the average rate of growth in the total level of outlays during the 10-year period preceding fiscal year 2018 is 4.8 percent.

(2) For nonmeans-tested direct spending, the estimated average rate of growth in the total level of outlays during the 11-year period beginning with fiscal year 2017 is 5.6 percent under current law.

(3) The following reforms are proposed in this concurrent resolution for nonmeans-tested direct spending:

(A) The People's Budget allows those who have lost a job through no fault of their own to claim up to 99 weeks of unemployment benefits in high-unemployment states for up to two years.

(B) The People's Budget also adopts former President Obama's reforms to improve solvencies and incentivize job training.

(C) The People's Budget improves the Affordable Care Act by repealing the excise tax on high-priced health plans. Proponents of the provision hoped that this tax would slow the rate of growth of health costs, while raising revenue. However, in an effort to avoid the tax, employers who traditionally offer excellent benefits have started offering less generous plans. This is an ineffective tool to bend the cost curve. Since the tax is attached to premiums instead of coverage it has the potential to hit plans it wasn't intended to impact.

(D) The People's Budget establishes a representative democracy that truly reflects the diversity and values of our nation by providing funding for the public financing of campaigns. This gives a voice to small donors that have been drowned out by dark money. Public financing keeps politicians accountable to the voters that elect them in-

stead of to special interest money. In the era of the devastating Citizens United decision, big money has taken the reins of our election process. It is now more important than ever to provide candidates with effective alternatives to finance their campaigns.

(E) The People’s Budget uses the Experimental Price Index for the Elderly (CPI-E) to calculate Cost of Living Adjustments (COLA) for Federal retirement programs other than Social Security. Affected programs include civil service retirement, military retirement, Supplemental Security Income, veteran’s pensions and compensations. CPI-E is the most sensible and accurate measure of the real costs that seniors face in retirement, current underpricing of costs amount to cutting benefits for those on fixed incomes.

(G) The People’s Budget makes a down payment of \$1.9 trillion to help close the nation’s infrastructure deficit while protecting against climate change and creating millions of living wage jobs. The budget also helps boost private financing for critical state and local projects by creating a public-private infrastructure bank. The American Society of Civil Engineers (ASCE) estimates that the United States will need to invest upwards of \$2 trillion above current levels over the next decade just to make required repairs to roads, bridges, water, and energy systems.

(2) a utility energy service contract, as described in the Office of Management and Budget Memorandum on Federal use of energy savings performance contracting, dated July 25, 1998 (M-98-13), and the Office of Management and Budget Memorandum on the Federal use of energy saving performance contracts and utility energy service contracts, dated September 28, 2012 (M-12-21), or any successor to either memorandum.

(3) if requested by the chair of the Committee on the Budget, any information provided by the Bureau of Land Management or other applicable Federal agency, including the source and date of such information, that supports the estimate of any change in revenue, offsetting receipts, or offsetting collections;

TITLE V—POLICY STATEMENTS

SEC. 501. POLICY STATEMENT ON OBAMACARE REPEAL.

It is the policy of this resolution that the Patient Protection and Affordable Care Act (Public Law 111–148), and the Health Care and Education Reconciliation Act of 2010 (Public Law 111–152) should be repealed.

SEC. 502. POLICY STATEMENT ON REPLACING OBAMACARE.

(a) **FINDINGS.**—The House finds the following:

(1) Obamacare put Washington’s priorities before those of patients’. The Affordable Care Act (ACA) has failed to reduce health care premiums as promised. Instead, the law mandated benefits and coverage levels, denying patients the opportunity to choose the type of coverage that best suits their health needs and driving up health coverage costs. A typical family’s health care premiums were supposed to decline by \$2,500; instead, average premiums have increased 105 percent. A study conducted by the nonpartisan Congressional Budget Office (CBO) estimated premiums to continue rising over the next decade, projecting an average increase of 8 percent per year between 2016 and 2018, and increasing by nearly 60 percent by 2026.

(2) President Obama pledged, “If you like your health care plan, you can keep your health care plan.” Instead, CBO now estimated 7 million Americans will lose employment-based health coverage due to the health care law, further limiting patient choice.

(3) Then-Speaker of the House Pelosi stated that the President’s health care law would create 4 million jobs over the life of the law and almost 400,000 jobs immediately. Instead, CBO estimated that by 2025 Obamacare will reduce the number of hours worked by approximately 2 million full-time equivalent workers, compared with what would have occurred in the absence of the law. Additionally, a study by the Mercatus Center at George Mason University estimated that Obamacare will reduce employment by up to 3 percent, or about 4 million full-time equivalent workers.

(4) Since the ACA was signed into law, the Obama administration repeatedly failed to implement it as written. President Obama’s unilateral actions resulted in numerous changes, delays, and exemptions. President Obama signed into law another 24 changes made by Congress. The Supreme Court struck down the forced expansion of Medicaid; ruled the individual “mandate” could only be characterized as a tax to remain constitutional; and rejected the requirement that closely held companies provide health insurance to their employees even if it violates the companies’ religious beliefs. More than 7 years after enactment, the courts continue to evaluate the legality of how President Obama’s administration implemented the law. All of these changes prove the folly of the underlying

law; health care in the United States cannot be run from a centralized bureaucracy.

(5) Obamacare is unaffordable, intrusive, overreaching, destructive, and unworkable. Its complex structure of subsidies, mandates, and penalties perversely impact individuals, married couples, and families. Those who previously had insurance along with those who did not have been funneled into a new system that is providing less access to doctors and treatments. Millions of Americans have been added to a broken Medicaid system that is incapable of providing the care promised. Cuts made to Medicare to fund a new entitlement are undermining the health security of seniors. Taxes and mandates are distorting the insurance market and harming the broader economy, resulting in fewer jobs and less opportunity. By design, Obamacare put Washington at the center of our health care system, at the expense of patients, families, physicians, and businesses. The ACA should be fully repealed, allowing for real patient-centered health care reform that puts patients first, not Washington.

(b) **POLICY ON REPLACING OBAMACARE.**—It is the policy of this resolution that Obamacare must not only be repealed, but also replaced by enacting the American Health Care Reform Act.

SEC. 503. POLICY STATEMENT ON MEDICARE.

(a) **FINDINGS.**—The House finds the following:

(1) More than 50 million Americans depend on Medicare for their health security.

(2) The Medicare Trustees Report has repeatedly recommended that Medicare's long-term financial challenges be addressed soon. Each year without reform, the financial condition of Medicare becomes more precarious and the threat to those in or near retirement becomes more pronounced. According to the Medicare Trustees Report—

(A) the Hospital Insurance Trust Fund will be exhausted in 2028 and unable to pay scheduled benefits;

(B) Medicare enrollment is expected to increase by over 50 percent in the next two decades, as 10,000 baby boomers reach retirement age each day;

(C) current workers' payroll contributions pay for current beneficiaries; and

(D) most Medicare beneficiaries receive about three dollars in Medicare benefits for every one dollar paid into the program.

(3) Failing to address this problem will leave millions of American seniors without adequate health security and younger generations burdened with enormous debt to pay for spending levels that cannot be sustained.

(b) **POLICY ON MEDICARE REFORM.**—It is the policy of this resolution to protect those in or near retirement from any disruptions to their Medicare benefits due to the program's impending bankruptcy, and instead offer beneficiaries more options, better care, with reduced costs for both beneficiaries and the Federal Government, by modernizing Medicare.

(c) **ASSUMPTIONS.**—This resolution assumes reform of the Medicare program such that:

(1) Medicare is preserved for current and future beneficiaries.

(2) Medicare is reformed to provide a premium support payment and a selection of guaranteed health coverage options from which recipients can choose a plan that best suits their needs.

(3) Medicare will maintain traditional fee-for-service as an option.

(4) Medicare will provide additional assistance for lower-income beneficiaries and those with greater health risks.

(5) Medicare spending is put on a sustainable path and the Medicare program becomes solvent over the long-term.

(6) The Medicare eligibility age is gradually increased to keep pace with increases in longevity.

(7) Medicare is simplified by combining parts A and B and reforms to Medigap plans are implemented.

SEC. 504. POLICY STATEMENT ON MEDICAID STATE FLEXIBILITY BLOCK GRANTS.

It is the policy of this resolution that Medicaid and the Children's Health Insurance Program (CHIP) should be block granted to the States in a manner prescribed by the State Health Flexibility Act.

SEC. 505. POLICY STATEMENT ON SOCIAL SECURITY.

(a) FINDINGS.—The House finds the following:

(1) More than 55 million retirees, individuals with disabilities, and survivors depend on Social Security. Since enactment, Social Security has served as a vital leg on the “three-legged stool” of retirement security, which includes employer provided benefits as well as personal savings.

(2) The Social Security Trustees Report has repeatedly recommended that Social Security's long-term financial challenges be addressed soon. Each year without reform, the financial condition of Social Security becomes more precarious and the threat to seniors and those receiving Social Security disability benefits becomes more pronounced:

(A) In 2022, the Disability Insurance Trust Fund will be exhausted and program revenues will be unable to pay scheduled benefits.

(B) In 2034, the combined Old-Age and Survivors and Disability Trust Funds will be exhausted, and program revenues will be unable to pay scheduled benefits.

(C) With the exhaustion of the Trust Funds in 2034, benefits will be cut nearly 25 percent across the board, devastating those currently in or near retirement and those who rely on Social Security the most.

(3) The Disability Insurance program provides an income safety net for those with disabilities and their families. However, the program is in serious financial trouble. The number of beneficiaries has skyrocketed from 2.7 million in 1970 to 10.6 million in 2016. At the same time, the labor force participation rate has now fallen to the lowest levels since the 1970s. As a result, the Social Security Actuary now projects that the Disability Insurance Trust Fund will be depleted in 2023.

(4) If this program is not reformed, families who rely on the lifeline that disability benefits provide will face benefit cuts of up to 11 percent in 2023, devastating individuals who need assistance the most.

(5) Americans deserve action by the President, the House, and the Senate to preserve and strengthen Social Security. It is critical that action be taken to address the looming insolvency of Social Security.

(b) **POLICY ON SOCIAL SECURITY.**—It is the policy of this resolution that Congress should work to make Social Security sustainably solvent. This resolution assumes these reforms will include the following policies, based upon the Social Security Reform Act:

(1) Adoption of a more accurate measure for calculating cost of living adjustments.

(2) Adoption of adjustments to the full retirement age to reflect longevity.

(3) Makes Social Security benefits more progressive over the long term, providing those most in need with a safety net in retirement.

(c) **POLICY ON DISABILITY INSURANCE.**—It is the policy of this resolution that Congress and the President should enact legislation on a bipartisan basis to reform the Disability Insurance program prior to its insolvency in 2016 and should not raid the Social Security retirement system without reforms to the Disability Insurance system. This resolution assumes that reforms to the Disability Insurance program will include—

(1) encouraging work;

(2) updates of the eligibility rules;

(3) reducing fraud and abuse;

(4) enactment of H.R. 2031, the Social Security Disability Insurance and Unemployment Benefits Double Dip Elimination Act, to prohibit individuals from drawing benefits from both programs at the same time; and

(5) enactment of H.R. 1540, the Social Security Disability Insurance Return to Work Act, to allow the award of time-limited benefits for applicants whose medical recovery is anticipated in order to create new opportunities for beneficiaries.

SEC. 506. POLICY STATEMENT ON MEANS-TESTED WELFARE PROGRAMS.

(a) **FINDINGS.**—The House finds that:

(1) Too many people are trapped at the bottom rungs of the economic ladder, and every citizen should have the opportunity to rise, escape from poverty, and achieve their own potential.

(2) In 1996, President Bill Clinton and congressional Republicans enacted reforms that have moved families off of Federal programs and enabled them to provide for themselves.

(3) Today, there are approximately 92 Federal programs on which Government at the Federal and State level spend more than \$1 trillion annually that provide benefits specifically to poor and low-income Americans.

(4) It should be the goal of welfare programs to encourage work and put people on a path to self-reliance.

(b) **POLICY ON MEANS-TESTED WELFARE PROGRAMS.**—It is the policy of this resolution that—

(1) the welfare system should be reformed to give states flexibility to implement and improve safety net programs and that to be eligible for benefits, able bodied adults without dependents should be required to work or be preparing for work, including enrolling in educational or job training programs, contributing community service, or participating in a supervised job search; and

(2) the President's budget should disclose, in a clear and transparent manner, the aggregate amount of Federal welfare expenditures, as well as an estimate of State and local spending for this purpose, over the next ten years.

SEC. 507. POLICY STATEMENT ON REFORM OF THE SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM.

(a) SNAP.—It is the policy of the resolution that the Supplemental Nutrition Assistance Program be reformed so that:

(1) Nutrition assistance funds should be distributed to the states as a block grant with funding subject to the annual discretionary appropriations process.

(2) Funds from the grant must be used by the states to establish and maintain a work activation program for able-bodied adults without dependents.

(3) It is the goal of this proposal to move those in need off of the assistance rolls and back into the workforce and towards self-sufficiency.

(b) ASSUMPTIONS.—This resolution assumes that, pending the enactment of reforms described in (a), the conversion of the Supplemental Nutrition Assistance Program into a flexible State allotment tailored to meet each State's needs.

SEC. 508. POLICY STATEMENT ON WORK REQUIREMENTS.

It is the policy of this resolution that all means-tested welfare programs should include work activation requirements for able-bodied adults.

SEC. 509. POLICY STATEMENT ON A CARBON TAX.

It is the policy of this resolution that a carbon tax would be detrimental to American families and businesses, and is not in the best interest of the United States.

SEC. 510. POLICY STATEMENT ON ECONOMIC GROWTH AND JOB CREATION.

(a) FINDINGS.—The House finds the following:

(1) Across the Nation, too many Americans are struggling to make ends meet. The slowly falling unemployment rate has masked an underlying crisis as millions of Americans have abandoned the work force and wages have stagnated. The labor force participation rate has plummeted to levels not seen since the Carter presidency.

(2) Looking ahead, CBO expects the economy to grow by an average of just 1.9 percent over the next 10 years. That level of economic growth is simply unacceptable and insufficient to expand opportunities and the incomes of millions of middle-income Americans.

(3) Sluggish economic growth has also contributed to the country's fiscal woes. Subpar growth means that revenue levels are lower than they would otherwise be while government spending (e.g. welfare and income-support programs) is higher.

(4) The unsustainable fiscal trajectory has cast a shadow on the country's economic outlook. Investors and businesses make decisions on a forward-looking basis. They know that today's large debt levels are simply tomorrow's tax hikes, interest rate increases, or inflation and they act accordingly. This debt overhang, and the uncertainty it generates, can weigh on growth, investment, and job creation.

(5) Nearly all economists, including those at the CBO, conclude that reducing budget deficits (thereby bending the curve on debt levels) is a net positive for economic growth over time.

(6) If the Government remains on the current fiscal path, future generations will face ever-higher debt service costs, a decline in national savings, and a "crowding out" of private investment. This dynamic will eventually lead to a decline in economic output and a diminution in our country's standard of living.

(7) The key economic challenge is determining how to expand the economic pie, not how best to divide up and re-distribute a shrinking pie.

(8) A stronger economy is vital to lowering deficit levels and eventually balancing the budget. According to CBO, if annual real GDP growth is just 0.1 percentage point higher over the budget window, deficits would be reduced by \$273 billion.

(9) This budget resolution therefore embraces pro-growth policies, such as fundamental tax reform, that will help foster a stronger economy, greater opportunities and more job creation.

(b) **POLICY ON ECONOMIC GROWTH AND JOB CREATION.**—It is the policy of this resolution to promote faster economic growth and job creation. By putting the budget on a sustainable path, this resolution ends the debt-fueled uncertainty holding back job creators. Reforms to the tax code will put American businesses and workers in a better position to compete and thrive in the 21st century global economy. This resolution targets the regulatory red tape and cronyism that stack the deck in favor of special interests. All of the reforms in this resolution serve as means to the larger end of helping the economy grow and expanding opportunity for all Americans.

SEC. 511. POLICY STATEMENT ON TAX REFORM.

(a) **FINDINGS.**—The House finds the following:

(1) A reformed tax code should be simple, fair, and promote (rather than impede) economic growth. The United States tax code fails on all 3 counts: it is complex, unfair, and inefficient. The tax code's complexity distorts decisions to work, save, and invest, which leads to slower economic growth, lower wages, and less job creation.

(2) High marginal tax rates lessen the incentives to work, save, and invest, which reduces economic output and job creation.

(3) The United States corporate income tax rate is the highest rate in the industrialized world. Tax rates this high suppress wages, discourage investment and job creation, distort business activity, and put American businesses at a competitive disadvantage with foreign competitors.

(4) The “world-wide” structure of United States international taxation essentially taxes earnings of United States firms twice, putting them at a significant competitive disadvantage with competitors that have more competitive international tax systems.

(5) The tax code imposes costs on American workers through lower wages, consumers in higher prices, and investors in diminished returns.

(6) Closing tax loopholes to finance higher spending does not constitute fundamental tax reform.

(7) Tax reform should curb or eliminate loopholes and use those savings to lower tax rates across the board, not to fund more wasteful Government spending. Washington has a spending problem, not a revenue problem.

(8) Many economists believe that fundamental tax reform, including a broader tax base and lower tax rates, would lead to greater labor supply and increased investment, which would have a positive impact on total national output.

(b) **POLICY ON TAX REFORM.**—It is the policy of this resolution that Congress should enact legislation that provides for a comprehensive reform of the United States tax code to promote economic growth, create American jobs, increase wages, and benefit American consumers, investors, and workers through fundamental tax reform that is revenue-neutral on a dynamic basis that provides for the following:

(1) Targets revenue neutrality based on a dynamic score that takes into account the macroeconomic effects of reform.

(2) Collapses the current seven brackets for individuals into just three, with a top rate of no more than 33 percent.

(3) Simplifies the tax code to ensure that fewer Americans will be required to itemize deductions.

(4) Gives equal tax treatment to individual and employer healthcare expenditures modeled on the American Health Care Reform Act.

(5) Encourages charitable giving.

(6) Repeals the Death Tax.

(7) Eliminates marriage penalties.

(8) Provides tax-free universal savings accounts to reward saving.

(9) Repeals the alternative minimum tax.

(10) Reduces double taxation by lowering the top corporate rate to no more than 20 percent.

(11) Reduces the rate for capital gains and dividends.

(12) Encourages net investment, savings, and entrepreneurial activity, including full expensing.

(13) Moves to a competitive territorial system of international taxation.

(14) Ends distortionary special interest giveaways, such as the Wind Production Tax Credit.

SEC. 512. POLICY STATEMENT ON TRADE.

(a) **FINDINGS.**—The House finds the following:

(1) Opening foreign markets to American exports is vital to the United States economy and beneficial to American workers and consumers.

(2) The United States can increase economic opportunities for American workers and businesses through the elimination of foreign trade barriers to United States goods and services.

(3) American businesses and workers have shown that, on a level playing field, they can excel and surpass international competition.

(b) **POLICY ON TRADE.**—It is the policy of this concurrent resolution—

(1) to pursue international trade, global commerce, and a modern and competitive tax system to promote domestic job creation;

(2) that the United States should continue to seek increased economic opportunities for American workers and businesses through high-standard trade agreements that satisfy negotiating objectives, including—

(A) the expansion of trade opportunities;

(B) adherence to trade agreements and rules by the United States and its trading partners, and

(C) the elimination of foreign trade barriers to United States goods and services by opening new markets and enforcing United States rights; and

(3) that any trade agreement entered into on behalf of the United States should reflect the negotiating objectives and adhere to the provisions requiring improved consultation with Congress.

SEC. 513. POLICY STATEMENT ON ENERGY PRODUCTION.

It is the policy of this resolution that the Arctic National Wildlife Refuge (ANWR) and currently unavailable areas of the Outer Continental Shelf (OCS) should be open for energy exploration and production.

SEC. 514. POLICY STATEMENT ON FEDERAL REGULATORY BUDGETING AND REFORM.

(a) **FINDINGS.**—The House finds the following:

(1) Excessive Federal regulation—

(A) has hurt job creation, investment, wages, competition, and economic growth, slowing the Nation's recovery from the economic recession and harming American households;

(B) operates as a regressive tax on poor and lower-income households;

(C) displaces workers into long-term unemployment or lower-paying jobs;

(D) adversely affects small businesses, the primary source of new jobs; and

(E) impedes economic growth.

(2) Federal agencies routinely fail to identify and eliminate, minimize, or mitigate excess regulatory costs through post-implementation assessments of their regulations.

(3) The United States Code of Federal Regulations now contains over 185,000 pages of regulations in 242 volumes.

(4) Notwithstanding the size and growth of Federal regulations, Congress lacks an effective mechanism to manage the level of new Federal regulatory costs imposed each year. Other nations, meanwhile, have successfully implemented the use of

regulatory budgeting to control excess regulation and regulatory costs.

(5) Implementation of the Affordable Care Act has resulted in more than 177.9 million annual hours of regulatory compliance paperwork, \$37.1 billion of regulatory compliance costs on the private sector, and \$13 billion in regulatory compliance costs on the States.

(6) Agencies impose costly regulations without relying on sound science through the use of judicial consent decrees and settlement agreements and the abuse of interim compliance costs imposed on regulated entities that bring legal challenges against newly promulgated regulations.

(b) **POLICY ON FEDERAL REGULATORY BUDGETING AND REFORM.**— It is the policy of this concurrent resolution that the House should, in consultation with the public, consider legislation that—

(1) promotes—

(A) economic growth, job creation, higher wages, and increased investment by eliminating unnecessary red tape and streamlining, simplifying and lowering the costs of Federal regulations; and

(B) the adoption of least-cost regulatory alternatives to meet the objectives of Federal regulatory statutes;

(2) protects—

(A) the poor and lower-income households from the regressive effects of excessive regulation; and

(B) workers against the unnecessary elimination of jobs and loss or reduction of wages;

(3) requires—

(A) an annual, congressional regulatory budget that establishes annual costs of regulations and allocates these costs amongst Federal regulatory agencies;

(B) cost-benefit and regulatory impact analysis for new regulations proposed and promulgated by all Federal regulatory agencies;

(C) advance notice of proposed rulemaking and makes evidentiary hearings available for critical disputed issues in the development of new major regulations; and

(D) congressional approval of all new major regulations before the regulations can become effective, ensuring that Congress can better prevent the imposition of unsound costly new regulations;

(4) reduces—

(A) regulatory barriers to entry into markets and other regulatory impediments to competition and innovation; and

(B) the imposition of new Federal regulation that duplicates, overlaps or conflicts with State, local, and Tribal regulation or that impose unfunded mandates on State, local, and Tribal governments; and

(5) eliminates the abuse of guidance to evade legal requirements applicable to the development and promulgation of new regulations.

SEC. 515. POLICY STATEMENT ON FEDERAL FUNDING OF ABORTION.

It is the policy of this resolution that no taxpayer dollars shall go to any entity that provides abortion services.

SEC. 516. POLICY STATEMENT ON TRANSPORTATION REFORM.

It is the policy of this resolution that State and local officials are in a much better position to understand the needs of local commuters, not bureaucrats in Washington. Federal funding for transportation should be phased down and limited to core Federal duties, including the interstate highway system, transportation infrastructure on Federal land, responding to emergencies, and research. As the level of Federal responsibility for transportation is reduced, Congress should also concurrently reduce the Federal gas tax.

SEC. 517. POLICY STATEMENT ON THE DEPARTMENT OF VETERANS AFFAIRS.

(a) FINDINGS.—The House finds the following:

(1) For years, there has been serious concern regarding the Department of Veterans Affairs (VA) bureaucratic mismanagement and continuous failure to provide veterans timely access to health care.

(2) In 2015, for the first time, VA health care was added to Government Accountability Office's (GAO) "high-risk" list, due to mismanagement and oversight failures, which have resulted in untimely and inefficient health care. According to GAO, "the absence of care and delays in providing care have harmed veterans."

(3) The VA's failure to provide timely and accessible health care to our veterans is unacceptable. While Congress has done its part for more than a decade by providing sufficient funding for the VA, the administration has mismanaged these resources, resulting in proven adverse effects on veterans and their families.

(b) POLICY ON THE DEPARTMENT OF VETERANS AFFAIRS.—It is the policy of this concurrent resolution that—

(1) the House Committee on Veterans' Affairs continue its oversight efforts to ensure the VA reassesses its core mission, including—

(A) reducing the number of bureaucratic layers;

(B) reducing the number of senior and middle managers;

(C) improving performance measure metrics;

(D) strengthening the administration and oversight of contractors; and

(E) supporting opportunities for veterans to pursue other viable options for their health care needs; and

(2) the House Committee on Veterans' Affairs and the Committee on the Budget should continue to closely monitor the VA's progress to ensure VA resources are sufficient and efficiently provided to veterans.

SEC. 518. POLICY STATEMENT ON REDUCING UNNECESSARY, WASTEFUL, AND UNAUTHORIZED SPENDING.

(a) FINDINGS.—The House finds the following:

(1) The Government Accountability Office (GAO) is required by law to identify examples of waste, duplication, and overlap in Federal programs, and has so identified dozens of such examples.

(2) In its report to Congress on Government Efficiency and Effectiveness, the Comptroller General has stated that addressing the identified waste, duplication, and overlap in Fed-

eral programs could “lead to tens of billions of dollars of additional savings.”

(3) In 2011, 2012, 2013, 2014, 2015, 2016, and 2017, the GAO issued reports showing excessive duplication and redundancy in Federal programs.

(4) Federal agencies reported an estimated \$137 billion in improper payments in fiscal year 2015.

(5) Under clause 2 of rule XI of the Rules of the House of Representatives, each standing committee must hold at least one hearing during each 120-day period following its establishment on waste, fraud, abuse, or mismanagement in Government programs.

(6) Clause 2(a)(1) of rule XXI of the House of Representatives prohibits an appropriation for an expenditure not previously authorized by law. Despite this longstanding prohibition, more than \$310 billion has been appropriated for unauthorized programs in fiscal year 2016, spanning 256 separate laws.

(7) The findings resulting from congressional oversight of Federal Government programs should result in programmatic changes in both authorizing statutes and program funding levels.

(b) POLICY ON REDUCING UNNECESSARY, WASTEFUL, AND UNAUTHORIZED SPENDING.—

(1) Each authorizing committee annually should include in its Views and Estimates letter required under section 301(d) of the Congressional Budget Act of 1974 recommendations to the Committee on the Budget of programs within the jurisdiction of such committee whose funding should be reduced or eliminated.

(2) Committees of jurisdiction should review all unauthorized programs funded through annual appropriations to determine if the programs are operating efficiently and effectively.

(3) Committees should reauthorize those programs that in the committees’ judgment should continue to receive funding.

(4) For those programs not reauthorized by committees, the House of Representatives should enforce the limitations on funding such unauthorized programs in the House rules.

SEC. 519. POLICY STATEMENT ON A BALANCED BUDGET AMENDMENT.

(a) FINDINGS.—The House finds the following:

(1) The Government will collect approximately \$3.4 trillion in taxes, but spend nearly \$4 trillion to maintain its operations, borrowing 14 cents of every Federal dollar spent.

(2) As of March 16, 2017, the national debt of the United States was nearly \$20 trillion.

(3) A majority of States have petitioned the Government to hold a constitutional convention to adopt a balanced budget amendment to the Constitution.

(4) Forty nine States have fiscal limitations in their State constitutions, including the requirement to annually balance the budget.

(5) Five States, including Arizona, Georgia, Alaska, Mississippi, and North Dakota, have agreed to the Compact for a Balanced Budget, which is seeking to amend the Constitution to require a balanced budget through an Article V convention by April 12, 2021.

(b) **POLICY ON A BALANCED BUDGET CONSTITUTIONAL AMENDMENT.**—It is the policy of this concurrent resolution that Congress should propose a balanced budget constitutional amendment for ratification by the States.

SEC. 520. POLICY STATEMENT ON DEFICIT REDUCTION THROUGH THE CANCELLATION OF UNOBLIGATED BALANCES.

(a) **FINDINGS.**—The House finds the following:

(1) According to the most recent estimate from the Office of Management and Budget, Federal agencies held \$921 billion in unobligated balances at the end of fiscal year 2017.

(2) These funds comprise both discretionary appropriations and authorizations of mandatory spending that remain available for expenditure.

(3) In many cases, agencies are provided appropriations that remain indefinitely available for obligation.

(4) The Congressional Budget Act of 1974 requires the Office of Management and Budget to make funds available to agencies for obligation and prohibits the administration from withholding or cancelling unobligated funds unless approved by an Act of Congress.

(b) **POLICY ON DEFICIT REDUCTION THROUGH THE CANCELLATION OF UNOBLIGATED BALANCES.**—It is the policy of this concurrent resolution that—

(1) greater congressional oversight is required to review and identify potential savings from canceling unobligated balances of funds that are no longer needed;

(2) the appropriate committees in the House should identify and review accounts with unobligated balances and rescind such balances that would not impede or disrupt the fulfillment of important Federal commitments;

(3) the House, with the assistance of the Government Accountability Office, the Inspectors General, and appropriate agencies, should continue to review unobligated balances and identify savings for deficit reduction; and

(4) unobligated balances in dormant accounts should not be used to finance increases in spending.

SEC. 521. POLICY STATEMENT ON REFORMING THE CONGRESSIONAL BUDGET PROCESS.

(a) **FINDINGS.**—The House finds the following:

(1) Enactment of the Congressional Budget and Impoundment Control Act of 1974 was the first step toward restoring constitutionally endowed legislative responsibility over fundamental budget decision making.

(2) However, the congressional budget process has neither constrained spending nor inhibited the expansion of Government. The growth of the Government, primarily through a multiplicity of mandatory programs and other forms of direct spending, has largely been financed through borrowing and high tax rates.

(3) The enforcement of the current budget process, including congressional points of order and statutory spending limits, have been too often waived or circumvented. This contributes to a lack of accountability, which has led to broad agreement that reforming the system is a high necessity.

(b) **POLICY ON REFORMING THE CONGRESSIONAL BUDGET PROCESS.**—It is the policy of this concurrent resolution that Congress should—

(1) restructure the fundamental procedures of budget decision making;

(2) reassert congressional power over spending and revenue, restore the balance of power between Congress and the President as the Congressional Budget Act of 1974 intended, and attain the maximum level of accountability for budget decisions through efficient and rigorous enforcement of budget rules;

(3) improve incentives for lawmakers to budget as intended by the Congressional Budget Act of 1974, especially by adopting an annual budget resolution;

(4) encourage more effective control over spending, especially currently uncontrolled direct spending;

(5) revise the methodology used in developing the baseline, which is intended to reflect an objective projection of the budgetary effects of current laws and policies for future fiscal years, by removing any tendency toward assuming higher spending levels;

(6) promote efficient and timely budget actions to ensure lawmakers complete their budget actions before the start of the new fiscal year;

(7) provide access to the best analysis of economic conditions available and increase awareness of how fiscal policy directly impacts economic growth and job creation; and

(8) eliminate the complexity of the budget process and the biases that favor higher spending.

(c) **LEGISLATION.**—The Committee on the Budget of the House should draft legislation during the 115th Congress that rewrites the Congressional Budget and Impoundment Control Act of 1974 to fulfill the goals of making the congressional budget process more effective in ensuring taxpayers' dollars are spent wisely and efficiently. Such legislation shall—

(1) attain greater simplicity without sacrificing the rigor required to address—

(A) the complex issues of the domestic and world economy;

(B) national security responsibilities; and

(C) the appropriate roles of rulemaking and statutory enforcement mechanisms;

(2) establish a new structure that assures the congressional role in the budget process is applied consistently without reliance on reactive legislating;

(3) improve the elements of the current budget process that have fulfilled the original purposes of the Congressional Budget Act of 1974; and

(4) rebuild the foundation of the budget process to provide a solid basis from which additional reforms may be developed.

SEC. 522. POLICY STATEMENT ON FEDERAL ACCOUNTING.

(a) **FINDINGS.**—The House finds the following:

(1) Current accounting methods fail to capture and present in a compelling manner the full scope of the Government and its fiscal situation.

(2) Most fiscal analyses produced by the Congressional Budget Office (CBO) are conducted over a 10-year time horizon. The use of generational accounting or a longer time horizon would provide a more complete picture of the Government's fiscal situation.

(3) The Federal budget currently accounts for most programs on a cash accounting basis, which records revenue and expenses when cash is actually paid or received. However, it accounts for loan and loan guarantee programs on an accrual basis, which records revenue when earned and expenses when incurred.

(4) The Government Accountability Office has advised that accrual accounting may provide a more accurate estimate of the Government's liabilities than cash accounting for some programs, specifically insurance programs.

(5) Accrual accounting under the Federal Credit Reform Act of 1990 (FCRA) understates the risk and thus the true cost of some Federal programs, including loans and loan guarantees.

(6) Fair value accounting better reflects the risk associated with Federal loan and loan guarantee programs by using a market based discount rate. CBO, for example, uses fair value accounting to measure the cost of Fannie Mae and Freddie Mac.

(7) In comparing fair value accounting to FCRA, CBO has concluded that "adopting a fair-value approach would provide a more comprehensive way to measure the costs of Federal credit programs and would permit more level comparisons between those costs and the costs of other forms of Federal assistance".

(8) This concurrent resolution directs CBO to estimate the costs of credit programs on a fair value basis to fully capture the risk associated with Federal credit programs.

(b) **POLICY ON FEDERAL ACCOUNTING METHODOLOGIES.**—It is the policy of this concurrent resolution that the House should, in consultation with CBO and other appropriate stakeholders, reform government-wide budget and accounting practices so Members and the public can better understand the fiscal situation of the United States and the options best suited to improving it.

SEC. 523. POLICY STATEMENT ON AGENCY FEES AND SPENDING.

(a) **FINDINGS.**—Congress finds the following:

(1) A number of Federal agencies and organizations have permanent authority to collect fees and other offsetting collections and to spend these collected funds.

(2) The total amount of offsetting fees and offsetting collections is estimated by the Office of Management and Budget to be \$513 billion in fiscal year 2017.

(3) Agency budget justifications are, in some cases, not fully transparent about the amount of program activity funded through offsetting collections or fees. This lack of transparency prevents effective and accountable government.

(b) **POLICY ON AGENCY FEES AND SPENDING.**—It is the policy of this resolution that Congress must reassert its constitutional prerogative to control spending and conduct oversight. To do so, Congress should enact legislation requiring programs that are funded through fees, offsetting receipts, or offsetting collections to be allo-

cated new budget authority annually. Such allocation may arise from—

- (1) legislation originating from the authorizing committee of jurisdiction for the agency or program; or
- (2) fee and account specific allocations included in annual appropriation Acts.

(e) PROCEDURE FOR ADJUSTMENTS.—In the House, prior to consideration of any bill, joint resolution, amendment, or conference report, the Chair of the House Committee on the Budget shall make the adjustments set forth in subsections (b), (c), and (d) for the incremental new budget authority in that measure and the outlays resulting from that budget authority if that measure meets the requirements set forth in this section.

SEC. 304. BUDGETARY TREATMENT OF CERTAIN DISCRETIONARY ADMINISTRATIVE EXPENSES.

(a) IN GENERAL.—In the House, notwithstanding section 302(a)(1) of the Congressional Budget Act of 1974, section 13301 of the Budget Enforcement Act of 1990, and section 4001 of the Omnibus Budget Reconciliation Act of 1989, the joint explanatory statement accompanying the conference report on any concurrent resolution on the budget shall include in its allocation under section 302(a) of the Congressional Budget Act of 1974 to the House Committee on Appropriations amounts for the discretionary administrative expenses of the Social Security Administration and of the Postal Service.

(b) SPECIAL RULE.—For purposes of applying section 302(f) of the Congressional Budget Act of 1974, estimates of the level of total new budget authority and total outlays provided by a measure shall include any off-budget discretionary amounts.

SEC. 305. APPLICATION AND EFFECT OF CHANGES IN ALLOCATIONS AND AGGREGATES.

(a) APPLICATION.—In the House, any adjustments of allocations and aggregates made pursuant to this resolution shall—

- (1) apply while that measure is under consideration;
- (2) take effect upon the enactment of that measure; and
- (3) be published in the Congressional Record as soon as practicable.

(b) EFFECT OF CHANGED ALLOCATIONS AND AGGREGATES.—Revised allocations and aggregates resulting from these adjustments shall be considered for the purposes of the Congressional Budget Act of 1974 as allocations and aggregates included in this resolution.

(c) ADJUSTMENTS.—The Chair of the House Committee on the Budget may adjust the aggregates, allocations, and other levels in this resolution for legislation which has received final congressional approval in the same form by the House of Representatives and the Senate, but has yet to be presented to or signed by the President at the time of final consideration of this resolution.

SEC. 306. ADJUSTMENTS FOR CHANGES IN THE BASELINE.

The Chair of the House Committee on the Budget may adjust the allocations, aggregates, reconciliation targets, and other appropriate budgetary levels in this concurrent resolution to reflect changes resulting from the Congressional Budget Office's update to its baseline for fiscal years 2018 through 2027.

SEC. 307. REINSTATEMENT OF PAY-AS-YOU-GO.

In the House, and pursuant to section 301(b)(8) of the Congressional Budget Act of 1974, for the remainder of the 115th Congress, the following shall apply in lieu of "CUTGO" rules and principles:

(1)(A) Except as provided in paragraphs (2) and (3), it shall not be in order to consider any bill, joint resolution, amendment, or conference report if the provisions of such measure affecting direct spending and revenues have the net effect of increasing the on-budget deficit or reducing the on-budget surplus for the period comprising either—

(i) the current year, the budget year, and the four years following that budget year; or

(ii) the current year, the budget year, and the nine years following that budget year.

(B) The effect of such measure on the deficit or surplus shall be determined on the basis of estimates made by the Committee on the Budget.

(C) For the purpose of this section, the terms "budget year", "current year", and "direct spending" have the meanings specified in section 250 of the Balanced Budget and Emergency Deficit Control Act of 1985, except that the term "direct spending" shall also include provisions in appropriation Acts that make outyear modifications to substantive law as described in section 3(4)(C) of the Statutory Pay-As-You-Go Act of 2010.

(2) If a bill, joint resolution, or amendment is considered pursuant to a special order of the House directing the Clerk to add as a new matter at the end of such measure the provisions of a separate measure as passed by the House, the provisions of such separate measure as passed by the House shall be included in the evaluation under paragraph (1) of the bill, joint resolution, or amendment.

(3)(A) Except as provided in subparagraph (B), the evaluation under paragraph (1) shall exclude a provision expressly designated as an emergency for purposes of pay-as-you-go principles in the case of a point of order under this clause against consideration of—

(i) bill or joint resolution;

(ii) an amendment made in order as original text by a special order of business;

(iii) a conference report; or

(iv) an amendment between the Houses.

(B) In the case of an amendment (other than one specified in subparagraph (A)) to a bill or joint resolution, the evaluation under paragraph (1) shall give no cognizance to any designation of emergency.

(C) If a bill, a joint resolution, an amendment made in order as original text by a special order of business, a conference report, or an amendment between the Houses includes a provision expressly designated as an emergency for purposes of pay-as-you-go principles, the Chair shall put the question of consideration with respect thereto.

SEC. 308. EXERCISE OF RULEMAKING POWERS.

The House adopts the provisions of this title—

(1) as an exercise of the rulemaking power of the House of Representatives and as such they shall be considered as part of the rules of the House, and these rules shall supersede other rules only to the extent that they are inconsistent with other such rules; and

(2) with full recognition of the constitutional right of the House of Representatives to change those rules at any time, in the same manner, and to the same extent as in the case of any other rule of the House of Representatives.

TITLE IV—POLICY STATEMENTS

SEC. 401. POLICY OF THE HOUSE ON AFFORDABLE HEALTH CARE COVERAGE FOR WORKING FAMILIES.

(a) FINDINGS.—The House finds the following:

(1) Making health care coverage affordable and accessible for all American families will improve their health and financial security, which will make the economy stronger.

(2) Medicaid is the Nation's largest health insurance program, providing quality, comprehensive, and affordable coverage to more than 70 million vulnerable Americans, including more than one in three children.

(3) Millions of low-income seniors and people with disabilities rely on Medicaid to pay for nursing home care and home- and community-based services that provide help with activities of daily living.

(4) Medicaid coverage provides financial stability to families struggling to escape poverty and to parents of children with disabilities and special health care needs.

(5) The existing financing structure of Medicaid ensures that Federal contributions keep pace with costs and enables States to respond to changing needs, such as increased enrollment in coverage during economic downturns or an aging population that requires extensive long-term care services.

(6) Under the Affordable Care Act, 31 States and the District of Columbia have expanded Medicaid eligibility to low-income adults, including working parents who do not receive coverage through their employers.

(7) Roughly 20 million previously uninsured people have gained health care coverage under the Affordable Care Act, reducing the Nation's uninsured rate for working-age adults to one of the lowest levels on record.

(8) The law provides premium tax credits that vary by income and the local cost of coverage and cost-sharing assistance to help low- and middle-income families afford quality insurance and pay their out-of-pocket costs.

(9) The law prohibits insurers from denying coverage or charging higher premiums based on pre-existing conditions, requires coverage of essential health benefits like maternity care and prescription drugs, limits out-of-pocket costs, and prohibits lifetime and annual limits on coverage.

(10) The law put in place significant cost-saving reforms to Federal health programs that have played a part in slowing the rate of healthcare spending growth in recent years, with 2011, 2012, and 2013 experiencing the slowest growth rates in real per capita national health expenditures on record.

(11) On May 4, 2017, the House of Representatives passed H.R.1628, the American Health Care Act of 2017, legislation that would repeal provisions of the Affordable Care Act, make deep cuts in Medicaid, and—

(A) result in 23 million Americans losing health insurance in 2026, including 14 million people losing Medicaid;

(B) dramatically increase costs for older adults, low-income families, and people with pre-existing conditions;

(C) reduce Medicaid spending by \$834 billion over ten years;

(D) jeopardize care for seniors in nursing homes, children with disabilities, and families receiving Medicaid benefits as States look to reduce coverage and services;

(E) severely undermine access to substance abuse treatment during the nationwide opioid epidemic;

(F) shorten the life of the Medicare Hospital Insurance Trust Fund; and

(G) provide nearly \$1 trillion in tax cuts that mostly benefit millionaires, billionaires, and wealthy corporations.

(b) **POLICY.**—It is the policy of the House that—

(1) Congress should build upon the progress of the Affordable Care Act to make health care coverage more affordable and accessible to all American families, and reject any measures to repeal or undermine the law;

(2) the Administration and Congress should fully implement, enforce, and fund the Affordable Care Act, and stop any efforts to sabotage the health insurance marketplaces; and

(3) Congress should preserve Medicaid and not dismantle it by converting Medicaid into a block grant, per capita cap, or other financing arrangement that would limit Federal contributions and render the program incapable of responding to increased need that may result from trends in demographics or health care costs or from economic conditions.

SEC. 402. POLICY OF THE HOUSE ON TAX REFORM THAT PROVIDES SUPPORT AND RELIEF TO HARDWORKING AMERICAN FAMILIES.

(a) **FINDINGS.**—The House finds the following:

(1) Tax plans from House Republicans and President Trump prioritize tax cuts for millionaires, billionaires, and wealthy corporations, while shifting more of the burden onto everyone else. Their plans fail to close special interest loopholes in the

tax code, and even add trillions of dollars of new loopholes for the wealthy. These plans reflect the failed theory of “trickle-down” economics, which creates few jobs and instead leads to massive deficits. A return to these policies would—

(A) fail to create good paying middle-class jobs;

(B) do nothing to help low-income or middle-class households with the rising costs of health care, education, housing, child care, or retirement; and

(C) widen the income gap between millionaires and billionaires and the middle class.

(2) Americans today are working harder than ever, but continue to struggle to find good jobs, get ahead, and stay ahead. This is part of a four-decade trend of stagnant wages for middle-class and low-income households, even as millionaires and billionaires become richer and corporations reap massive profits.

(3) The Obama Administration ended with 83 consecutive months of private-sector job growth, but challenges still remain to create more good-paying jobs and broadly shared prosperity. The number of long-term unemployed remains elevated, and unemployment for people of color continues to be higher than the rest of the population. Many areas remain in need of well-paying jobs.

(4) By almost any metric, the middle class has seen little to no improvements in their incomes. Real median household income in 2013 was only \$7,000 higher than it was in 1979. Median weekly real earnings for workers increased less than 1 percent from 1979 to 2014. Poorer workers have done even worse. For workers in the lower half of the income scale, real annual wages from 1979 to 2014 grew only \$76. And the entire lower 50 percent of the United States population holds a mere 1 percent of total national wealth.

(5) All the while, millionaires and billionaires have seen their incomes and wealth skyrocket. Incomes for the top one percent of households grew five times as fast as for middle-income workers, and now average over \$1 million a year. CEOs make nearly 300 times what the typical worker does. Ten percent of the population owns 76 percent of the Nation’s total wealth, and the average net assets of the top one percent now exceed \$10 million per person.

(6) The top one percent of households receives a disproportionate share—17 percent—of the benefit of major tax expenditures. This uneven distribution of major tax expenditures has exacerbated income and wealth inequality. The tax code treats income from wealth more favorably than income from work by giving preferential tax rates on unearned income, and it contains numerous, wasteful tax breaks for special interests.

(b) **POLICY.**—It is the policy of the House to responsibly reform the tax code to provide support and relief to low- and middle-income families, create good-paying jobs, and drive broadly-shared prosperity, while closing special-interest loopholes and making sure the wealthiest Americans pay their fair share.

SEC. 403. POLICY OF THE HOUSE ON DEFENSE AND NONDEFENSE FUNDING INCREASES.

(a) **FINDINGS.**—The House finds the following:

(1) The current spending limits set by the Budget Control Act of 2011 are too low, for both defense and nondefense funding. Defense and nondefense investments must be at appropriate levels to protect both national security and economic security. The nondefense discretionary spending limit for 2018 is \$2 billion less than it was in 2016, in nominal terms, representing a significant cut to purchasing power. If the inflation rate is what the Congressional Budget Office projects, the 2018 cap represents a reduction of nearly \$30 billion compared with 2016. Defense spending faces similar reductions.

(2) The Budget Control Act of 2011 is based on parity for defense and nondefense spending, setting up separate caps for both and instituting a “firewall” to prevent reductions in one category because of increases in the other.

(3) Bipartisan agreement has provided a solution to the austerity-level caps before, and can be used again to change these arbitrary spending caps to prevent the harsh impact of massive, irresponsible cuts to important Federal programs.

(4) Congress must begin discussions and negotiations immediately, to raise the caps to appropriate levels, and maintain parity between defense and nondefense.

(b) **POLICY ON DEFENSE AND NONDEFENSE FUNDING INCREASES.**—It is the policy of the House that Congress should enact increases to the current defense and nondefense spending limits, in equal amounts, without using reductions in one category to pay for increases in the other.

SEC. 404. POLICY OF THE HOUSE ON IMMIGRATION REFORM.

(a) **FINDINGS.**—The House finds the following:

(1) Fixing the country’s broken immigration system will mean safer communities, a stronger economy and lower budget deficits.

(2) The Congressional Budget Office estimated that enacting the Border Security, Economic Opportunity, and Immigration Modernization Act, as introduced by House Democrats in the 113th Congress, would have reduced the deficit by \$900 billion over the next 2 decades, boosting the economy by 5.4 percent, and increasing productivity by 1.0 percent.

(3) The Social Security Actuary estimated that immigration reform will reduce the Social Security shortfall by 8 percent and will extend the life of the Social Security Trust Fund by 2 years.

(4) The United States is a Nation founded, built and sustained by immigrants, and the Congress has a responsibility to harness the power of that tradition by implementing an effective and fair immigration policy.

(5) The current immigration system is broken because it keeps families of legal immigrants and United States citizens separated for decades, it allows for the exploitation of undocumented workers to the detriment of all workers, it does not meet the needs of our economy and discourages legal immigration, and it keeps millions of hard-working, law-abiding families who have lived in our communities for decades hiding in the shadows, including many thousands who came to the United States as infants or young children.

(6) Overly aggressive immigration enforcement that focuses on individuals with deep ties to the United States hurts State and local law enforcement efforts to establish and maintain trust with immigrant communities. The number of Latinos reporting crimes in big cities across the country is lower than past years, particularly among domestic violence and sexual assault victims.

(7) The vast majority of individuals in U.S. Immigration and Customs Enforcement (ICE) custody have not been convicted of a serious crime. ICE's own statistics demonstrate that arrests of people with no criminal record increased 157 percent in the first 100 days of the Trump Administration, and only 6.5 percent of those arrested were convicted of violent crimes.

(8) The number of detained asylum seekers continues to rise dramatically and detaining asylum seekers, other vulnerable populations, and those who do not pose risks to public safety is unnecessary and wasteful.

(9) Increasing the use of alternatives to detention rather than expanding immigration detention would be more humane and cost-effective.

(10) It has been nearly four years since the Senate passed, on a bipartisan basis, its comprehensive immigration reform bill.

(11) Immigration reform is needed to secure the sovereignty of the United States of America and to establish a coherent and just system for integrating those who seek to join American society.

(12) A successful immigration system cannot rely on border security alone. The country needs a system that promotes the reunification of families, protects workers and is responsive to the needs of employers, and implements an inclusive legalization program for those who are currently here.

(b) **POLICY.**—It is the policy of the House that Congress enact comprehensive immigration reform – such as the Border Security, Economic Opportunity, and Immigration Modernization Act, introduced by House Democrats in the 113th Congress – to boost our economy, lower deficits, establish clear and just rules for citizenship, and make our communities safer.

SEC. 405. POLICY OF THE HOUSE ON SOCIAL SECURITY.

(a) **FINDINGS.**—The House finds the following:

(1) Most of the 61 million Americans who currently receive earned Social Security benefits rely on these benefits for the majority of their income, with nearly a quarter of them relying on Social Security for at least 90 percent of their income.

(2) In the past, Social Security benefits were part of a 3-legged stool where retirees relied on a combination of Social Security, a private pension, and personal savings to finance retirement.

(3) Social Security benefits will be more important to future retirees as few workers will receive traditional pensions, and many workers cannot afford to adequately fund their retirement through employer-sponsored savings plans or IRAs.

(4) Social Security's Disability Insurance (DI) and Old Age and Survivors Insurance (OASI) systems are intertwined both in their benefit structure and in their revenues – DI recipients

who reach retirement age receive OASI benefits and beneficiaries in each category have helped finance the other category even if they will never receive those benefits.

(5) Social Security benefits are already being cut as Social Security's normal retirement age is increasing from 66 years for workers retiring now to 67 years for those born in 1960 and later. This cut disproportionately impacts low-earners because life expectancy continues to increase among higher-earners but not low-earners. Thus, high-earners will generally receive benefits for a longer time than low-earners.

(b) **POLICY.**—It is the policy of the House that the House of Representatives will not adopt changes to Social Security that involve reductions in earned Social Security benefits.

SEC. 406. POLICY OF THE HOUSE ON PROTECTING THE MEDICARE GUARANTEE FOR SENIORS AND PERSONS WITH DISABILITIES.

(a) **FINDINGS.**—The House finds the following:

(1) Senior citizens and persons with disabilities highly value the Medicare program and rely on Medicare to guarantee their health and financial security.

(2) In 2018, 60,000,000 people will rely on Medicare for coverage of hospital stays, physician visits, prescription drugs, and other necessary medical goods and services.

(3) The Medicare program has lower administrative costs than private insurance, and Medicare costs per enrollee have grown at a slower rate than private insurance for a given level of benefits.

(4) People with Medicare already have the ability to choose a private insurance plan within Medicare through the Medicare Advantage option, yet two-thirds of Medicare beneficiaries chose the traditional fee-for-service program instead of a private plan in 2016.

(5) Rising health care costs are not unique to Medicare or other Federal health programs, they are endemic to the entire health care system.

(6) Converting Medicare into a voucher for the purchase of health insurance will merely force seniors and individuals with disabilities to pay much higher premiums if they want to use their voucher to purchase traditional Medicare coverage.

(7) A voucher system in which the voucher payment fails to keep pace with growth in health costs would expose seniors and persons with disabilities on fixed incomes to unacceptable financial risks.

(8) Shifting more health care costs onto Medicare beneficiaries would not reduce overall health care costs, instead it would mean beneficiaries would face higher premiums, eroding coverage, or both.

(9) Versions of voucher policies that do not immediately end the traditional Medicare program will merely set it up for a death spiral as private plans siphon off healthier and less expensive beneficiaries, leaving the sickest beneficiaries in a program that will wither away.

(b) **POLICY.**—It is the policy of the House that the Medicare guarantee for seniors and persons with disabilities should be preserved and strengthened, and that any legislation to end the Medicare

guarantee, financially penalize people for choosing traditional Medicare, or shift rising health care costs onto seniors by replacing Medicare with vouchers or premium support for the purchase of health insurance, should be rejected.

SEC. 407. POLICY OF THE HOUSE ON FINANCIAL STABILITY AND CONSUMER PROTECTION.

(a) **FINDINGS.**—The House finds the following:

(1) The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 is an important component of the country’s response to the financial crisis and recession. It took a number of steps to protect consumers of financial products and services as well as protect taxpayers from the costs of another financial crisis.

(2) These steps included the creation of an orderly liquidation process to allow regulators to close failing institutions that some argue are “too big to fail,” as well as a new Financial Stability Oversight Council (FSOC), an Office of Financial Research to monitor the stability of our financial system, and the Consumer Financial Protection Bureau (the Consumer Bureau).

(3) The Consumer Bureau plays a critical role in protecting older Americans, military service members, student loan borrowers, and other consumers, especially in minority and low-income communities. It has implemented new rules for mortgage markets and prepaid cards, and also successfully recovered nearly \$12 billion on behalf of more than 29 million consumers and service members.

(4) The Consumer Bureau’s funding from the Federal Reserve’s operations help give it important independence from efforts to interfere with its vital mission and activities, independence on par with every other banking regulator.

(5) The Consumer Bureau has already faced and overcome efforts to obstruct its operations.

(b) **POLICY.**—It is the policy of the House that Congress should continue to support the vital work of the Consumer Financial Protection Bureau as well as its governing and financing structures and other key components of the Dodd-Frank legislation such as orderly liquidation authority, FSOC, and the Office of Financial Research.

SEC. 408. POLICY OF THE HOUSE ON WOMEN’S ECONOMIC EMPOWERMENT.

(a) **FINDINGS.**—The House finds the following:

(1) Women’s contributions are critical to the economic success of hard-working families.

(2) Not only do women play a key role in maintaining healthy families, they also have unique health care needs and face issues that require special focus.

(3) Every hard-working American deserves to feel safe and supported during retirement. Yet women are more likely to face financial risk during retirement because of their lower lifetime earnings and disproportionate role as family caregivers.

(b) **POLICY.**—It is the policy of the House that Congress should economically empower women and protect their health and safety. Congress must enact policies that would accomplish the following:

(1) Help families attain better jobs, fight pay inequity, raise the minimum wage, and enable women entrepreneurs and small businesses to achieve their goals.

(2) Give American families control of their own lives, and help them balance the demands of work and family. These policies include paid and expanded family and medical leave, paid sick days, and quality, affordable child care.

(3) Strengthen the retirement security of women and their families by protecting Social Security, Medicare and Medicaid.

(4) Support caregivers, many of whom sacrifice their own careers to provide for family members.

(5) Maintain health insurance protections for women, increase funding for the prevention and treatment of women's health issues such as breast cancer and heart disease, and support access to full reproductive care.

(6) Prevent and protect women from domestic violence and sexual abuse.

SEC. 409. POLICY OF THE HOUSE ON NATIONAL SECURITY.

(a) FINDINGS.—The House finds the following:

(1) The country faces many national security challenges and we must continue to support a strong military that is second to none.

(2) Those who serve in uniform are our most important security resource and the Administration and Congress shall continue to provide the support they need to successfully carry out the missions the country gives them.

(3) A growing economy is the foundation of our security and enables the country to provide the resources for a strong military, sound homeland security agencies, and effective diplomacy and international development.

(4) Austerity-level spending caps threaten adequate investment in activities critical to our economy and national security, which include activities funded by both the defense and non-defense portions of the discretionary budget.

(5) Diplomacy and foreign aid are essential components of our security and the President's proposal to cut these activities by 32 percent below current levels prompted more than 120 retired admirals and generals who have first-hand knowledge of their effectiveness in securing our Nation to forcefully object.

(6) The Nation's projected long-term debt could have serious consequences for our economy and security, and that more efficient military spending has to be part of an overall plan that effectively deals with this problem.

(7) Reining in wasteful spending at the Nation's security agencies, including the Department of Defense—the last department still unable to pass an audit—such as the elimination of duplicative programs and better controlling delays and cost overruns on weapon systems that have been identified by the Government Accountability Office (GAO) needs to continue as a priority.

(8) The Department of Defense should continue to review defense plans and requirements to ensure that weapons developed to counter Cold War-era threats are not redundant, are affordable, and are applicable to 21st century threats; and such review should include, with the participation of the National

Nuclear Security Administration, examination of requirements for, and cost of, the nuclear weapons stockpile, nuclear weapons delivery systems, and nuclear weapons and infrastructure modernization.

(9) Nonwar operation and maintenance costs per active-duty service member have grown at a rate well above inflation for decades—from \$59,000 per service member in 1980 to \$157,000 per service member in 2015 (measured in constant 2017 dollars), and it is imperative that unsustainable cost growth be controlled in this area.

(10) Cooperative threat reduction and other nonproliferation programs (securing “loose nukes” and other materials used in weapons of mass destruction), which were highlighted as high priorities by the 9/11 Commission, need to be funded at a level that is commensurate with the evolving threat.

(b) **POLICY.**—It is the policy of the House that—

(1) the austerity-level spending caps required by the Budget Control Act of 2011 for fiscal years 2018 through 2021 should be rescinded and replaced by a fiscal plan that is balanced and takes into account a comprehensive national security strategy that includes careful consideration of international, defense, homeland security, and law enforcement programs; and

(2) efficiencies can be achieved in the national defense budget without compromising our security through greater emphasis on eliminating duplicative and wasteful programs, reforming the acquisition process, identifying and constraining unsustainable operating costs, and through careful analysis of our national security needs.

SEC. 410. POLICY OF THE HOUSE ON VETERANS AFFAIRS.

(a) **FINDINGS.**—The House finds the following:

(1) The Department of Veterans Affairs (VA) continues to face challenges meeting the needs of the next generation of returning veterans, including sufficient funding to provide critical services and benefits.

(2) Access to quality health care and veterans’ benefits has been an ongoing challenge for the VA, highlighted most recently in the ongoing claims backlog and veterans waiting months for health care appointments.

(3) Providing health care where veterans live and ensuring a sufficient number of health care professionals, especially in the area of mental health treatment, have also been challenges.

(4) The VA has made progress in reducing the number of initial benefit claims, dropping the claims backlog to less than 94,000 from a peak of 611,000 claims just a few years ago, but that statistic leaves out the many veterans who are still waiting many months or even years to have their appeals decided.

(5) The President’s budget includes a 6 percent increase over current-year funding but shifts funding away from critical programs that veterans rely on in favor of expanded funding that pays for certain veterans to get private health care at the expense of care provided at VA hospitals and clinics.

(6) The President’s budget also cuts funding from other Federal agencies that provide lifesaving programs and services for veterans, including deep cuts to Medicaid benefits veterans

rely on, the elimination of the Interagency Council on Homelessness, steep cuts at the Department of Housing and Urban Development, elimination of the Legal Services Corporation, and severe cuts to entrepreneurship outreach programs targeted to veterans through the Small Business Administration.

(7) The VA currently has advance appropriations for approximately 85 percent of its discretionary budget. The residual 15 percent, which includes funding for the day-to-day operations at the Veterans Benefits Administration, remains vulnerable to a Government shutdown.

(b) **POLICY.**—It is the policy of the House that—

(1) Congress should support a funding level no less than the President’s request for veterans’ discretionary programs so that the VA has the resources it needs to ensure veterans get the health care and benefits they earned in a timely fashion;

(2) Congress should lift the austerity-level funding cap on nondefense programs for 2018 and beyond to ensure adequate funding for veterans’ programs;

(3) advance appropriations be expanded to cover all of VA’s discretionary budget to prevent delays in veterans’ benefits and services during a Government shutdown;

(4) the VA submit along with its annual budget a “Future-Years Veterans Program” that projects its needs over five years to help facilitate the appropriations and oversight processes;

(5) Congress should provide sufficient resources for the VA’s Office of the Inspector General to guarantee veterans are properly served and that resources are spent efficiently;

(6) no changes be made to the Individual Unemployability benefit to ensure that disabled veterans, many of them severely disabled, who are deemed unable to engage in substantial work as a result of their service to our country, continue to receive the full disability and social security benefits they earned and were promised; and

(7) Congress shall provide sufficient funding and staff resources for VA hospitals and clinics, and that any increased funding for private and community care not provided directly by the VA should not come at the expense of necessary resources for VA hospitals and clinics.

SEC. 411. POLICY OF THE HOUSE ON DISASTER RESPONSE FUNDING.

(a) **FINDINGS.**—The House find the following:

(1) Natural disasters such as hurricanes Harvey, Irma, and Maria require swift congressional action to help storm survivors get their lives back on track, rebuild disaster-stricken communities, and prevent further damage to the economy.

(2) The Budget Control Act of 2001 provides procedural tools specifically to respond to natural disasters, by allowing adjustments to the spending caps for disaster and emergency spending.

(3) Mitigation and prevention is an important part of disaster recovery and response, providing investments that make future disasters less costly in terms of both dollars and lives.

(b) **POLICY ON FUNDING FOR DISASTER RESPONSE AND RECOVERY.**—It is the policy of the House that Congress should act swiftly to assist with recovery from hurricanes and other natural disasters. Such funding should be provided using the budgetary provisions in

place for this purpose: providing adjustments to the spending caps for disaster and emergency response, recovery, and mitigation. Congress must also support efforts to address future disaster damage and loss, by appropriately funding mitigation and prevention efforts.

SEC. 412. POLICY OF THE HOUSE ON THE FEDERAL WORKFORCE.

(a) FINDINGS.—The House finds the following:

(1) The Federal workforce provides vital services to our Nation on a daily basis. It includes those who patrol and secure our borders, protect us from terrorists, take care of our veterans, help run our airports, counter cyber-attacks, find cures for deadly diseases, and keep our food supply safe.

(2) Veterans make up 31 percent of the Federal workforce.

(3) Many Federal workers are paid at a rate that is far below their private sector counterparts.

(4) The Federal workforce is older than in past decades and older than the private sector workforce. Nearly one third of the Federal workforce is eligible to retire.

(5) Federal employee pay and benefits are not the cause of the country's deficits and debt. The Federal workforce has already contributed more than \$180 billion toward reducing the country's deficits in the form of pay freezes, pay raises insufficient to keep pace with inflation, furloughs, and increased retirement contributions. The President's budget for 2018 continues to unfairly target the Federal workforce by proposing an additional \$149 billion in compensation and retirement benefit cuts.

(6) Since 1975, the Federal workforce has declined 35 percent relative to the size of the population of the United States.

(7) Nearly all of the increase in the Federal civilian workforce from 2001 to 2016 is due to increases at security-related agencies, including the Department of Defense, Department of Homeland Security, and Department of Veterans Affairs.

(8) Proposals to reduce the size of the workforce at nonsecurity agencies by 10 percent have excluded an assessment of their impact on government services.

(b) POLICY.—It is the policy of the House that Congress should not target Federal employees to achieve further reductions in the deficit as they have already contributed more than their fair share, that Federal workers should be compensated with pay and benefits at a level that enables the government to attract high quality people—which is especially important during this period when more workers will be retiring—and that no proposal to reduce the size of the workforce should be considered without an assessment of its impact on government services.

SEC. 413. POLICY OF THE HOUSE ON CLIMATE CHANGE SCIENCE.

(a) FINDINGS.—The House finds the following:

(1) Global climate change is a threat to national security, public health, and economic growth.

(2) The United Nations' Intergovernmental Panel on Climate Change concluded that the effects of climate change are occurring worldwide, stating: "The impacts of climate change have already been felt in recent decades on all continents and across the oceans".

(3) The United States Government Accountability Office described climate change as, “a complex, crosscutting issue that poses risks to many environmental and economic systems—including agriculture, infrastructure, ecosystems, and human health—and presents a significant financial risk to the Federal Government”.

(4) In March 2017, Secretary of Defense James Mattis, in written testimony to the Senate Armed Services Committee, stated that “climate change can be a driver of instability and the Department of Defense must pay attention to potential adverse impacts generated by this phenomenon”.

(5) The National Aeronautics and Space Administration and National Oceanic and Atmospheric Administration reported that 2016 was the warmest year on record, setting a new record for global average surface temperatures for the third year in a row. Furthermore, 16 of the 17 warmest years on record have occurred since 2001.

(6) The United States National Research Council’s National Climate Assessment and Development Advisory Committee found climate change affects “human health, water supply, agriculture, transportation, energy, coastal areas, and many other sectors of society, with increasingly adverse impacts on the American economy and quality of life”.

(7) The most vulnerable among us, including children, the elderly, low-income individuals, and those with underlying health conditions, face even greater health risks as a result of climate change.

(b) **POLICY.**—It is the policy of the House that climate change presents a significant public health, environmental, and financial risk to the United States. The United States must continue to play a leadership role on climate change policy and should not retreat from global commitments on climate change. Congress must provide robust funding for climate change science, which provides critical information for protecting human health, defending the United States, and preserving economic and environmental systems throughout the world.

SEC. 414. POLICY OF THE HOUSE ON INCREASED EFFICIENCY AND ELIMINATING WASTE.

(a) **FINDINGS.**—The House finds the following:

(1) The Government Accountability Office (“GAO”) identifies examples of waste, duplication, and overlap in Federal programs, and makes regular recommendations regarding ways to reduce costs and increase revenue.

(2) The Comptroller General has stated that addressing the identified waste, duplication, and overlap in Federal programs “could lead to tens of billions of dollars of additional savings, with significant opportunities for improved efficiencies, cost savings, or revenue enhancements in the areas of defense, information technology, education and training, health care, energy, and tax enforcement.”

(3) The tax gap, the difference between taxes owed and taxes paid, now averages \$458 billion annually. Even modest improvements in enforcing existing law could yield a boost in revenue without any changes to the tax code.

(4) Tax expenditures, or spending through the tax code, total \$1.5 trillion per year and represent the largest category of spending in the budget — exceeding Medicare, Medicaid, and Social Security. However, unlike other types of spending, tax expenditures are not reviewed in any systematic way in the annual budget process.

(5) Improper payments, payments that should not have been made or that were made in an incorrect amount, totaled \$144 billion for 2016. While some improper payments are the result of fraud, the vast majority are due to unintentional errors, such as payments to eligible beneficiaries that were not properly verified, or overpayments or underpayments because of a data entry mistake.

(6) Shutting down the government, arbitrarily cutting agency budgets, and funding large portions of the government through stop-gap appropriations do not lead to efficient and effective government.

(b) **POLICY.**—It is the policy of the House that Congress must continue to root out wasteful spending, make government operations more efficient, pass appropriations bills on time, and avoid costly government shutdowns. Congress must task agencies with shrinking the error rate in government programs and provide adequate budgetary resources for agencies to develop new processes, review expenditures, and improve information technology systems.

SEC. 415. POLICY OF THE HOUSE ON THE INVESTIGATION OF RUSSIAN INTERFERENCE IN THE 2016 U.S. PRESIDENTIAL ELECTION.

(a) **FINDINGS.**—The House finds the following:

(1) Free and fair elections are the cornerstone of our democracy, and foreign interference in them undermines the public trust and casts doubt on the legitimacy of our government.

(2) The country's intelligence agencies all agree that Russia launched a campaign to undermine the 2016 U.S. presidential election, which included cyber-attacks, dissemination of false information, and other intelligence operations to malign Secretary Hillary Clinton and increase the odds of a Donald Trump presidency.

(3) Members of the Trump campaign had repeated contact with Russian government officials and oligarchs and then failed to report this contact in testimony to Congress and in security clearance applications. One such meeting reportedly included a request for a back-channel line of communications with the Russian government using Russian facilities, which would preclude U.S. Government oversight. Another involved a Kremlin-linked Russian lawyer and a former Soviet counter-intelligence officer under the assumption that they would provide politically damaging information about Secretary Hillary Clinton as part of the Russian government's effort to support the Trump campaign.

(4) Under the direction of Federal Bureau of Investigation Director James Comey, the FBI was investigating whether members of President Trump's campaign colluded with Russia to influence the election.

(5) On May 9, 2017, President Trump fired FBI Director Comey and then made statements suggesting his dismissal was to stop the investigation of collusion.

(6) On May 17, 2017, the Department of Justice announced the appointment of former FBI Director Robert S. Mueller III to serve as Special Counsel to investigate Russian interference into the 2016 presidential election and any coordination between the Russian government and individuals associated with the Trump campaign.

(b) POLICY ON THE INVESTIGATION OF RUSSIAN INTERFERENCE IN THE 2016 U.S. PRESIDENTIAL ELECTION.—It is the policy of this concurrent resolution that to restore confidence in our government and to preserve the sanctity of our electoral process, Congress must ensure adequate funding for the Special Counsel appointed by the Department of Justice so that he can perform a thorough and non-partisan investigation of Russia's campaign to affect the 2016 U.S. presidential election and any individuals in the United States that may have colluded in those efforts.
