

PROVIDING FOR THE EXPENSES OF CERTAIN COMMITTEES OF THE HOUSE OF REPRESENTATIVES IN THE ONE HUNDRED FIFTEENTH CONGRESS

MARCH 15, 2017.—Referred to the House Calendar and ordered to be printed

Mr. HARPER, from the Committee on House Administration,  
submitted the following

## REPORT

[To accompany H. Res. 173]

The Committee on House Administration, to whom was referred the resolution (H. Res. 173) providing for the expenses of certain committees of the House of Representatives in the One Hundred Fifteenth Congress, having considered the same, report favorably thereon without amendment and recommend that the resolution be agreed to.

## BACKGROUND AND NEED FOR THE RESOLUTION

Pursuant to House Rule X, clause 6, the Committee on House Administration (hereinafter referred to as the "Committee") reports an omnibus, biennial "primary expense resolution" to cover the expenses of each standing and select committee of the House, except the Committee on Appropriations. H. Res. 173 is the primary expense resolution reported by the Committee on House Administration for the 115th Congress.

On March 8, 2017, by voice vote, the Committee agreed to a motion to report H. Res. 173 favorably to the House without amendment. The resolution authorizes the aggregate amount of funding for standing and permanent select committees for the 115th Congress, and also includes a provision to require a review of the use of committee funds at the beginning of the second session of the 115th Congress.

## GENERAL DISCUSSION

During the first three months of each new Congress, House Rule X, clause 7, authorizes House committees to continue operations based on their funding authorizations from the preceding session.

This continuing authorization allows committees to organize, adopt legislative and oversight agendas, and seek spending authority through the adoption of a primary expense resolution by the House.

The funding process begins after a House standing or permanent select committee determines its biennial funding needs, and introduces a House resolution seeking those funds. Under House Rule X, clause 6, all funding resolutions, which are referred to as primary expense resolutions, are referred to the Committee on House Administration. Since this funding process merely authorizes the expenditure of funds already provided (or to be provided) in appropriations acts, the funding measure takes the form of a simple House resolution, which does not require Senate or presidential approval. After requesting and reviewing committee budget submissions, the Committee recommends an appropriate allocation of funds.

#### *115th Congress proceedings*

To gather the information necessary to create the omnibus primary expense resolution, the Committee required the standing and permanent select committees to submit estimates for their expected expenses for both sessions of the 115th Congress. The Committee asked that committees provide line item estimates for the following expenses: personnel compensation (including salaries and lump sum payments), overtime, travel, communications, and printing and reproduction costs.

The Committee also requested that committees estimate their expenses for other services, including consultant contracts, detailees from executive and other agencies, training, representational expenses, and other services. Finally, the Committee requested budget estimates for the costs of supplies, materials, and equipment.

To further gather the information necessary to create the omnibus primary expense resolution, the Committee convened a hearing to provide the Chairs and Ranking Members of the standing and permanent select committees an opportunity to present and share their views on their respective budget requests for the 115th Congress.

During the hearing, Members of the Committee asked the Chairs and Ranking Members about how their budget requests would impact their ability to conduct effective oversight or pursue their legislative goals.

Members of the Committee also asked the Chairs and Ranking Members how they were managing and will manage their resources with equity and prudence. Since the 104th Congress, House majority leadership and the Chair and Ranking Member of the Committee have encouraged the Chairs of the standing and permanent select committees to provide the minority with one-third of committee staff and/or resources authorized in the primary expense resolutions. During the hearings, the Committee sought to ensure that the minority in each committee was treated equitably in the funding process. Each Ranking Member was asked if he or she was allocated the traditional one-third share of committee staff positions and/or committee resources, as determined by each committee. These exchanges indicated that all of the committees appear to be in compliance with the traditional “two-thirds/one-third” distribution of funds among the majority and minority.

After the hearing, the Committee used the budget submissions and Member testimony to create an omnibus expense resolution, introduced by Chairman Harper, to authorize funding for all of the committees. The resolution includes a provision to require the Chairs and Ranking Members to return to the Committee after one year for an additional oversight hearing to review the use of funds from the first session, unless waived by the Committee. These proceedings will be open to the public, and will provide an opportunity to discover how effectively and efficiently funding allocations are being used. The provision is intended to promote accountability, transparency, and oversight of each committee's resources.

In reporting out this resolution, the committee is recommending to the House an authorization to expend approximately \$131,415,404 in the first session, and \$132,365,176 in the second session. The resolution also includes a reserve fund for unanticipated expenses of \$1,250,000 in the first session and the same amount in the second session.

#### *Hearing room upgrades*

The Committee on House Administration has determined that funds requested for hearing room upgrades by the committees should be removed from the committee funding process and be allocated separately. The Committee believes this is necessary so that the omnibus resolution accurately reflects the true base funding levels for each committee. Since much of the work performed in upgrading hearing rooms arises from costs related to infrastructure modifications of House buildings and other services usually performed by the Architect of the Capitol and Chief Administrative Officer under their own or other budget authority, it is not appropriate to account for these costs within committee's budgets.

The House Administration Committee believes that these upgrade requests are indicative of the need for a responsive and organized committee hearing room upgrade process. It should be noted that audio and video technology in several committee rooms are very dated and urgently need to be replaced and or upgraded to ensure the continued public broadcast of congressional proceedings.

The Committee on House Administration directs the Chief Administrative Officer to implement a Committee Hearing Broadcast Program to manage hearing room upgrades. The Hearing Broadcast Program will include (1) technology standards for hearing rooms and supporting components in the House Recording Studio, (2) a management plan for a standard upgrade process and ongoing sustainment, and (3) recommendations to the Committee for hearing room upgrade priorities. Committees that want to fund hearing room technology upgrades outside of the Hearing Broadcast Program must obtain approval from the Committee on House Administration.

The Chief Administrative Officer is also directed to provide support staff to operate the broadcasting functions for each committee room. Committee staffs are not authorized to operate broadcasting functions for official committee events, unless the committee receives authorization from the Committee on House Administration.

*Authorization and oversight plans*

The Committee expects the funding allocated for each committee to be appropriately assigned by each committee to its subcommittees to ensure that the committees are able to accomplish their goals, as outlined by each committee's authorization and oversight plan as required by House Rule X, clause 3(d)(5).

*Allocations for the Committee on Rules and Committee on Ethics*

The Committee has reported a resolution with funding higher than the requests for the Committee on Rules and Committee on Ethics. The additional funding provided for the Committee on Rules is intended to provide appropriate funding for the new House Rule concerning comparative prints of bills reported by committees. The additional funding provided for the Committee on Ethics is intended to provide additional resources for the Advice and Education Office of the Ethics Committee and to provide resources for an update to the House Ethics Manual.
