PURPOSE AND SUMMARY
The purpose of H.R. 1365 is to amend the Homeland Security Act of 2002 to require certain acquisition innovation.
BACKGROUND AND NEED FOR LEGISLATION

The Government Accountability Office (GAO) and the DHS Office of Inspector General (OIG) have consistently reported on the long-standing challenges DHS faces in managing its major acquisition programs, which cost the Department over $7 billion each year. Every 2 years, the Government Accountability Office (GAO) identifies areas in the Federal Government that are “high risk” due to their vulnerabilities to fraud, waste, abuse, and mismanagement. Since 2003, GAO has identified DHS’s transformation of 22 agencies into one department, and the Department’s subsequent challenges with its management functions, as high risk. In GAO’s 2017 high risk update, GAO noted that DHS has made progress in addressing its management challenges, but has not yet completed all the necessary actions to fully address acquisition management. Additionally, the DHS Office of Inspector General (OIG) reports annually on major management challenges facing the Department. In November 2016, the OIG identified challenges in DHS’s management of acquisition programs. Although DHS has taken steps to improve acquisition management, DHS struggles to ensure that the cost of major acquisition programs are in line with original estimates, are delivered on schedule, and provide the capabilities originally intended.

H.R. 1365 allows the Under Secretary for Management (USM) to designate an official to manage acquisition innovation activities in the Department. It also allows the USM to test emerging acquisition best practices, develop and distribute best practices and lessons learned, engage with private industry, and establish performance metrics to assess the effectiveness of acquisition innovation efforts. Additionally, H.R. 1365 requires the Secretary to provide a report to the House and Senate homeland security committees on the USM’s implementation of acquisition innovation activities.

SECTION-BY-SECTION ANALYSIS OF THE LEGISLATION

Section 1. Short Title.

This section provides that this bill may be cited as the “Department of Homeland Security Acquisition Innovation Act”.

Sec. 2. Acquisition Innovation.

Section 2 amends Title VII of the Homeland Security Act of 2002 (Pub. L. 107-296) and allows for the Under Secretary for Management (USM) to designate an individual within the Department to manage acquisition innovation efforts; test, develop, and distribute acquisition best practices throughout the Department; and estab-
lish performance metrics to evaluate the effectiveness of those efforts. Section 2 also allows for the USM to obtain feedback from the private sector on acquisition innovation efforts and incorporate such feedback into future activities. Further, this section effectively codifies innovation activities executed by the current Chief Procurement Officer of the Department, such as the Procurement Innovation Lab.

Section 2 also requires the Department to provide a report to the House and Senate homeland security committees each year on acquisition innovation activities executed in the prior year. This will assist Congress in determining whether the Department is effectively executing its acquisition innovation efforts. The report must include information on (1) tested acquisition best practices, (2) efforts to distribute related best practices in the Department, (3) utilization of best practices by components, (4) results of performance metrics, (5) outcomes of efforts to distribute best practices throughout the Department, (6) any impacts of acquisition innovation activities on the private sector and small businesses, (7) the criteria used to identify specific acquisition programs or activities to be included in efforts and their associated outcomes, and (8) any recommendations that could improve acquisition practices in the Department.

The private sector is a vital element of the homeland security enterprise and it is essential that the Department proactively engage with industry partners, particularly as the Department’s acquisition innovation efforts directly impact them. As a result, it is vital that DHS reach out to industry to identify areas for improvement as it relates to acquisition innovation efforts and incorporate its feedback as necessary. The Committee would like to emphasize the importance of engaging with the private sector, and in particular small businesses, when attempting to improve the very acquisition and procurement processes that affect them.
