PURPOSE AND SUMMARY

H.R. 4334, the “Improving Oversight of Women Veterans’ Care Act of 2017,” would (1) require the Department of Veterans Affairs to submit to Congress an annual report on the accessibility of covered gender-specific medical care furnished to female veterans under contracts with non-VA providers, (2) require VA Medical Centers (VAMC) to submit quarterly reports on compliance with environment of care standards for women veterans and (3) report to Congress, no later than 180 days after enactment, on the Department’s plan to strengthen such care standards for women veterans at VA facilities. Representative Louis Correa of California introduced H.R. 4334 on November 9, 2017.

BACKGROUND AND NEED FOR LEGISLATION

The Veterans Health Care Act of 1992 (P.L. 102–585) authorized VA to provide gender-specific services for eligible women veterans. That authority has become increasingly important in recent years as the number of women veterans continues to rise and reach critical levels. VA has responded to the growing number of women veterans by targeting programs and facilities to meet their unique health care needs.1

However, while significant gains have also been made at VA medical facilities to ensure privacy and safety for women veterans and to ensure timely access to gender-specific care in the community when it is not available at VA medical facilities, the provision of care to women veterans continues to be an area of concern for veteran advocates, who call for increased oversight and attention to these issues.2

Section 2 of the bill would require VA to submit an annual report to congress on access to (1) mammograms, (2) maternity care, and (3) gynecological care for women veterans under community care networks, to include data and performance measures for wait times, drive times, and reasons why appointments could not be scheduled.

Section 3 of the bill would require each VA Medical Center to submit quarterly reports on compliance with environment of care standards and report to Congress with a plan to strengthen such standards, to include (1) a description of the process established to verify noncompliance, and (2) a description of the method by which VA will ensure that all patient care areas are inspected as required and expand the list of items that facility staff inspect for compliance to align with VA’s women’s health handbook.3

H.R. 4334—Improving Oversight of Women Veterans’ Care Act of 2017

H.R. 4334 would require the Department of Veterans Affairs (VA) to submit annual reports to the Congress about the access of women veterans to gender-specific health care. The bill also would require VA medical facilities to submit quarterly reports on health care standards for women veterans. On the basis of information from VA, CBO estimates that preparing such reports would cost about $300,000 a year (or the equivalent of three full-time employees). CBO estimates that implementing this bill would cost $2 million over the 2019–2023 period, assuming availability of appropriated amounts.
Enacting H.R. 4334 would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply.
CBO estimates that enacting H.R. 4334 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2029.
H.R. 4334 contains no intergovernmental or private-sector mandates as define in the Unfunded Mandates Reform Act.
The CBO staff contact for this estimate is Ann E. Futrell. The estimate was reviewed by Leo Lex, Deputy Assistant Director for Budget Analysis.

FEDERAL MANDATES STATEMENT

The Committee adopts as its own the estimate of Federal mandates regarding H.R. 4334 prepared by the Congressional Budget Office pursuant to section 423 of the Unfunded Mandates Reform Act.

ADVISORY COMMITTEE STATEMENT

No advisory committees within the meaning of section 5(b) of the Federal Advisory Committee Act would be created by H.R. 4334.

STATEMENT OF CONSTITUTIONAL AUTHORITY

Pursuant to Article I, section 8 of the United States Constitution, H.R. 4334 is authorized by Congress’ power to “provide for the common Defense and general Welfare of the United States.”

APPLICABILITY TO LEGISLATIVE BRANCH

The Committee finds that H.R. 4334 does not relate to the terms and conditions of employment or access to public services or accommodations within the meaning of section 102(b)(3) of the Congressional Accountability Act of 1995.

STATEMENT ON DUPLICATION OF FEDERAL PROGRAMS

Pursuant to clause 3(c)(5) of rule XIII of the Rules of the House of Representatives, the Committee finds that no provision of H.R. 4334 establishes or reauthorizes a program of the Federal Government known to be duplicative of another Federal program, a program that was included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111–139, or a program related to a program identified in the most recent Catalog of Federal Domestic Assistance.

DISCLOSURE OF DIRECTED RULEMAKING

Pursuant to section 3(i) of H. Res. 5, 115th Cong. (2017), the Committee estimates that H.R. 4334 contains no directed rulemaking that would require the Secretary to prescribe regulations.

Section 1 of the bill would provide the short title for H.R. 4334 as the, “Improving Oversight of Women Veterans’ Care Act of 2017.”

Section 3(b) would require the Secretary of Veterans Affairs, by no later than 180 days after enactment, to submit a report to Congress detailing plans to strengthen the environment of care standards for women veterans, including: (1) a description of the process established to verify that noncompliance information reported under section 3(a) is accurate and complete; and, (2) a description of the method by which the Secretary will (A) ensure that all patient care areas of each facility are inspected, as required; and, (B) expand the list of items that facility staff inspect for compliance with VA’s women’s health handbook.
