INTRODUCTION

We live in a land made from ideals, not blood and soil. We are custodians of those ideals at home, and their champion abroad. We have done great good in the world because we believed our ideals are the natural aspiration of all mankind, and that the principles, rules, and alliances of the international order we superintended would improve the security and prosperity of all who joined with us. That leadership has had its costs, but we have become incomparably powerful and wealthy as well. We have a moral obligation to continue in our just cause, and we would bring more than shame on ourselves if we let other powers assume our leadership role, powers that reject our values and resent our influence. We will not thrive in a world where our leadership and ideals are absent. We wouldn't deserve to.

—Senator John McCain, in “The Restless Wave”

The President's fiscal year 2019 discretionary request of \$42,271,025,000 for the International Affairs budget under the Committee's jurisdiction reflects a 21.7 percent decrease from the

prior fiscal year enacted level of \$54,018,000,000, and is 22.3 percent less than the Senate 302(b) allocation of \$54,418,000,000. The Senate 302(b) allocation is \$400,000,000, or 0.7 percent, above the fiscal year 2018 enacted level.

Operations and programs supported by the International Affairs budget address challenges facing the United States and the world. Since its inception, sustained investments in global health through the President's Emergency Plan for AIDS Relief [PEPFAR] have placed 13.3 million people on lifesaving antiretroviral treatment and provided 85.5 million people with HIV testing services. Humanitarian assistance mitigates the catastrophe of displaced populations caused by poor governance and conflict, estimated by the United Nations High Commissioner for Refugees [UNHCR] at a record breaking 65.5 million people around the world. From fiscal years 2008 to 2016, the United States Agency for International Development [USAID] provided 37.3 million people sustainable access to an improved water supply and 24.1 million people access to improved sanitation facilities. Democracy assistance helps stem the continued decline of freedom and rise of authoritarianism around the world, as documented by Freedom House. Finally, security at home is bolstered by military assistance abroad, especially to important allies such as Israel.

Diplomacy, development, and defense have long comprised America's national security framework. The Committee's recommendation for the fiscal year 2019 International Affairs budget holds the line in addressing these unprecedented and historical challenges.

The Committee believes that diplomacy and development remain among the Nation's most cost-effective national security tools. The fiscal year 2019 International Affairs budget recommended by the Committee totals only 1.2 percent of the national budget.

Diplomats and development specialists from the Department of State and USAID are on the fault lines of conflict in the Middle East and Africa, and on the frontlines of ideological change in Europe, Latin America, and Asia. They are America's first line of defense abroad.

The Office of Management and Budget's [OMB] proposed reduction to the International Affairs budget undermines this first line of defense and reinforces the perception that the United States is retreating from its preeminent role as the world's superpower.

For hostile regimes in Russia, the People's Republic of China [PRC], and Iran, perception is reality. These adversaries are undermining America's standing and alliances in the world, as evidenced by Russia's interference in the 2016 U.S. presidential election, the PRC's push for hegemony in the South China Sea, and Iran's destabilizing support for terrorist proxies in the Middle East.

The Intelligence Community Assessment's [ICA] findings in the January 6, 2017 report "Assessing Russian Activities and Intentions in Recent U.S. Elections" (ICA 2017-01D) are sobering:

Russian efforts to influence the 2016 U.S. presidential election represent the most recent expression of Moscow's longstanding desire to undermine the U.S.-led liberal

democratic order, but these activities demonstrated a significant escalation in directness, level of activity, and scope of effort compared to previous operations.... We assess Moscow will apply lessons learned from its Putin-ordered campaign aimed at the U.S. presidential election to future influence efforts worldwide, including against U.S. allies and their election processes.

Whether the administration recognizes it or not, Russia, the PRC, Iran, and other illiberal adversaries are engaged in a cold war against the United States. The strategic objective of this war is to establish respective regional spheres of influence and dominance at the expense of U.S. national interests. This can only be achieved through the destruction of the America-led international order that emerged from the post-World War II rubble of Europe and Asia.

As the ICA report details, a tactical full court press is already underway using covert, overt, and cyber means—in America and against our alliances. The United States has no choice but to respond. The best defense is a strong offense.

While the administration recognizes the challenges certain adversaries pose to the United States in its December 2017 National Security Strategy of the United States, OMB has not adequately resourced the Strategy, particularly its diplomacy and development components. This first line of defense in this cold war requires adequate personnel and robust programs to counter the actions and influence of Moscow, Beijing, and Tehran. Greater security and stability cannot be achieved with cuts to the budget, which are a self-inflicted wound.

In addition to holding foreign leaders accountable for their actions against the United States, the administration must double down on global democracy promotion. Democratic states make the best allies as they provide voice and opportunity to their citizens, and predictability and stability to their neighbors. To win this cold war, the world's democracies must collectively and persistently counter authoritarianism and extremism abroad. The historical precedent exists: Republican and Democratic administrations alike have long stood with people seeking freedom.

The United States must lead the international order as it has since the end of World War II. This task cannot be relinquished to any other nation. Abandoning this order puts the Nation in peril, as a new order established by our adversaries will have dire economic, political, and security consequences for the United States and its allies.

The Committee is doing its part. Section 7067(d) of the act recommends \$300,000,000 for the Countering Russian Influence Fund, an increase of \$50,000,000 above the fiscal year 2019 authorized level in the Countering Russian Influence in Europe and Eurasia Act of 2017 (Public Law 115–44). Section 7043(c) of the act recommends \$160,000,000 as a down payment on the implementation of the Indo-Pacific Strategy, for which no funds were included in the President's budget request. Additionally, section 7032 of the act recommends \$2,400,000,000 for democracy programs, a 43 percent increase above the President's budget request and a 4 percent increase above the prior fiscal year enacted level.

The Committee recommends that the President's fiscal year 2020 budget request include sufficient funding to: (1) fully implement the National Security Strategy; (2) sustain the investments of the act in strengthening the first line of defense abroad, including the operations and programs of the Department of State and USAID; and (3) preserve the U.S.-led international order.

Consistent with Article I, section 9 of the U.S. Constitution, the Committee recommends discretionary appropriations of \$54,418,000,000 for the Department of State, foreign operations, and related programs, details of which are included in the act and this report.

Definitions.—

Appropriate Congressional Committees.—Pursuant to section 7034(r)(1) of the act and unless expressly provided to the contrary, the term “appropriate congressional committees” as used in the act and this report means the Committees on Appropriations and Foreign Relations of the Senate and the Committees on Appropriations and Foreign Affairs of the House of Representatives.

Extremist Organizations.—For purposes of the act and this report, the term “extremist organizations” means the Islamic State of Iraq and Syria [ISIS]; organizations affiliated with ISIS; a foreign organization that is determined to be engaged in terrorist activity, as defined in section 212(a)(3)(B) of the Immigration and Nationality Act (8 U.S.C. 1182); and other entities designated as foreign terrorist organizations [FTO] pursuant to section 219 of such act. The term “extremist” means an individual who knowingly facilitates or participates in an act of violent extremism. The term “extremism” means the advocacy or use of violence by such organizations or individuals to achieve political or religious goals.

Prior Consultation.—For purposes of the act, the term “prior consultation” means a pre-decisional engagement between a relevant Federal agency and the Committee during which the Committee is provided a meaningful opportunity to provide facts and opinions to inform: (1) the use of funds; (2) the development, content, or conduct of a program or activity; or (3) a decision to be taken.

Program, Project, and Activity.—For purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), as amended, with respect to appropriations contained in the act, the term “program, project, and activity” means any item for which a dollar amount is specified in the act or this report. In addition, the definition of “program, project, and activity” in section 7023 of the act shall apply to the accounts listed in that section. In carrying out any Presidential sequestration, Federal agencies funded by the act shall conform to the definition of “program, project, and activity” described above.

Regular Notification Procedures.—Funds in the act that are made available “subject to the regular notification procedures of the Committees on Appropriations” require a separate notification to the Committee 15 days prior to the proposed obligation of funds or other action that is the subject of the notification requirement, regardless of what may be contained in an agency’s congressional budget justification [CBJ] or in the operating and spend plans required by section 7076 of the act. Thus, such CBJs and operating and spend plans do not suffice as justification for purposes of satisfying such notification requirement.

Stabilization Assistance.—Funds in the act that are made available for “stabilization assistance” shall be made available for programs and activities as defined by the Stabilization Assistance Review in “A Framework for Maximizing the Effectiveness of U.S. Government Efforts to Stabilize Conflict-Affected Areas, 2018”.

The Act.—In this report, the term “the act” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2019.

ALLOCATIONS AND REPORTS

Section 7019(a) of the act requires, with certain exceptions, that amounts designated in the respective tables referenced in this report shall be made available in such designated amounts and shall be the basis of the report required by section 653(a) of the Foreign Assistance Act of 1961 [FAA], where applicable.

For purposes of the tables included in this report pursuant to section 7019, the amounts included in such tables that are also designated in the act as minimum or maximum funding requirements (through the description “up to” and “not less than” preceding such amounts) are exempt from the funding requirements and deviation limitations of subsections (a) and (b), respectively, and shall serve as the funding ceiling or floor, as intended in the act.

Section 7019(e) of the act specifies that reporting requirements in this report shall be fulfilled in the manner described.

CONGRESSIONAL BUDGET REQUEST AND JUSTIFICATION

OMB shall ensure that sufficient documentation and justification is provided to the Committee by each relevant Federal agency in subsequent fiscal year CBJs, including a description of the processes by which the budget was formulated.

OMB shall also ensure that CBJ materials for fiscal year 2020 include sufficient justification and funding, and specific plans, for winding down any assistance programs proposed to be significantly reduced or terminated.

Each Federal agency funded by the act shall include in subsequent CBJs detailed information on all available resources, including estimated prior year unobligated balances and recoveries, reimbursable agreements, funds transferred pursuant to sections 632(a) and (b) of the FAA, and significant uses of the Economy Act. Agencies that use a Working Capital Fund [WCF] shall include in CBJs the total budgetary resources for each office that receives funds from a WCF, and include a table on WCF resources that will serve as a baseline for reprogramming and transfer purposes.

Subsequent CBJs shall also include estimated savings from any proposed office or mission closing or reorganization, elimination of special envoys and other senior level special representatives, and actual prior year representation expenses for each department and agency that is authorized such expenses.

CONTINUOUS SUPERVISION AND GENERAL DIRECTION OF ECONOMIC AND MILITARY ASSISTANCE

The clarification of the roles and responsibilities of the Secretary of State, as contained in section 7056 of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2018 (division K of Public Law 115–141), shall apply to the act.

NOTWITHSTANDING AUTHORITY

Notwithstanding authority included in any provision of the act shall not be interpreted to exclude the requirements of such provision.

The Secretary of State and USAID Administrator, as appropriate, shall inform the Committee of the use of notwithstanding authority in the submission of country notifications required by section 7015(f) or any other provision of the act.

OVERSIGHT, MONITORING, AND EVALUATION

Collective Outcomes.—The Secretary of State and USAID Administrator shall jointly coordinate the planning and evaluation of collective outcomes for assistance to address protracted humanitarian crises, including for funds programmed through multilateral organizations, to ensure each agency is pursuing common objectives.

Foreign Assistance Data Review Findings Report.—The Secretary of State shall update the report required under this heading in Senate Report 114–290 accompanying the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2017 (S. 3117, as reported to the Senate on June 29, 2016), and submit such report to the Committee in the manner described.

Public Posting of Reports.—Any agency receiving funds made available by the act shall post on its publicly available website any report required by the act to be submitted to the appropriate congressional committees, upon a determination by the head of the agency that to do so is in the national interest. This directive shall not apply if: (1) the public posting of the report would compromise national security, including the conduct of diplomacy; (2) the report contains proprietary, privileged, or sensitive information; or (3) the agency is already directed to publicly post such report by another provision of law or regulation.

The head of an agency posting such report shall, unless directed otherwise by the act or any other provision of law or regulation, do so only after such report has been made available to the Committee for not less than 45 days. Any report required to be submitted to the Committee shall include information from the submitting agency on whether such report will be publicly posted.

Report on Monitoring and Evaluation of Programs.—The Committee underscores the importance of monitoring and evaluating the effectiveness of foreign assistance programs. Independent evaluations, including impact evaluations when appropriate, of such programs are an important method for improving performance and ensuring that taxpayer resources are spent efficiently and effectively. However, the Committee is concerned that the quality of foreign assistance program evaluations varies widely, and the findings and recommendations of evaluations do not always inform program design, policy decisions, and budget allocations. Moreover, monitoring and evaluation processes often do not incorporate sufficient local data, feedback, and participation of beneficiaries, and comparable standards are not consistently applied across the full range of foreign assistance programs.

Not later than 90 days after enactment of the act, and following consultation with the Committee, the Secretary of State and

USAID Administrator shall jointly initiate a review of the quality of program evaluations, including: (1) the extent to which the sustainability of programs will be periodically evaluated after assistance for such program has ended; (2) the resources required to conduct such evaluations; and (3) the utilization of such evaluations in subsequent program design. Not later than 45 days after such review has been concluded, the findings shall be published on the Department of State and USAID websites. The report shall also address the implementation of section 7034(m) of the act, which shall include a description of how: (1) the Department of State and USAID ensure that implementing partners establish effective procedures for collecting and responding to feedback from beneficiaries; and (2) oversight is regularly conducted to ensure such feedback is collected and used to maximize the impact of U.S. foreign assistance, consistent with the requirements of such section.

Rulemaking.—The Committee again notes the Department of State has, at times, loosely interpreted the Administrative Procedure Act of 1946 (5 U.S.C. 551 et seq.) when using an exception to the publishing of a proposed rulemaking related to a function of foreign affairs. The Committee notes that the exception should only be used if public rulemaking provisions “would clearly provoke definitely undesirable international consequences”.

Sexual Exploitation and Abuse.—Not later than 180 days after enactment of the act, the Secretary of State and USAID Administrator shall jointly submit a report to the appropriate congressional committees detailing allegations of, and steps taken to prevent and respond to, sexual exploitation and abuse committed by implementing partners of foreign assistance programs supported by funds appropriated for the Department of State and USAID in fiscal years 2017 and 2018. The Secretary of State shall also urge the Secretary-General [SG] of the United Nations [U.N.] to publicly disclose, as part of the SG’s initiatives on the Prevention of Sexual Exploitation and Abuse, the names of U.N. implementing partners that have not taken appropriate steps to prevent and respond to such abuse.

REDUCING COSTS AND INCREASING EFFICIENCIES

Consistent with prior fiscal years, the Committee supports Federal agency efforts to reduce costs and increase efficiencies through coherent, deliberative, and inclusive processes that take into consideration the impact of such efforts to U.S. national security requirements.

Burden Sharing Report.—Not later than 45 days after enactment of the act, the Secretary of State, in consultation with the U.S. Permanent Representative to the United Nations, shall submit a report to the Committee detailing efforts made during the prior calendar year to encourage other governments to increase their contributions for international peacekeeping activities, international organizations, and other multilateral and bilateral assistance programs, and the results of such efforts, disaggregated by government, organization, program, and amount.

Contractor Bonuses.—Federal agencies funded by the act shall refrain from providing bonuses to government contractors that

have failed to complete their contract in a satisfactory manner, including as a result of scheduling delays or cost overruns.

Executive Meetings, Ceremonies, and Conferences.—Federal agencies funded by the act shall continue to achieve savings by reducing the costs of executive meetings, ceremonies, and conferences, and curtailing the purchase of commemorative or promotional items.

Federally Funded Research.—The Committee commends USAID for issuing the “Public Access Plan: Increasing Access to the Results of Federally Funded Scientific Research” (November 2016), and encourages USAID to continue to fully implement the plan. Not later than 90 days after enactment of the act, the USAID Administrator shall update the Committee on progress made in this effort.

United States Government Accountability Office Recommendations.—Not later than 45 days after enactment of the act, the Comptroller General of the United States shall submit a report to the appropriate congressional committees, the Secretary of State, and the USAID Administrator detailing all outstanding recommendations included in U.S. Government Accountability Office [GAO] reports issued during calendar year 2017 relating to the Department of State and USAID. Not later than 45 days after the submission of such report, the Secretary and Administrator shall submit a response to the Comptroller General and such committees on actions taken, or intended to be taken, to comply with such recommendations.

The Committee notes that unresolved issues include: (1) the requirement for Federal agencies to participate in International Cooperative Administrative Support Services [ICASS] unless they provide a business model demonstrating services can be obtained outside ICASS at a lower cost; (2) the need for the Department of State and the U.S. Commission on International Religious Freedom to delineate more clearly respective roles and responsibilities; and (3) a review by the Department of State and USAID of data posted on the foreignassistance.gov website.

The USAID Administrator, in consultation with the heads of other relevant Federal agencies, shall clarify respective roles and responsibilities in combating wildlife trafficking in Southeast Asia, as recommended in the “2018 Annual Report: Additional Opportunities to Reduce Fragmentation, Overlap, and Duplication and Achieve Other Financial Benefits” (GAO–18–371SP). The Committee notes that according to this report, USAID has the fewest number of outstanding issues since 2011 of any Federal agency.

NOTIFICATIONS AND SPEND PLANS

Congressional notifications submitted by the Secretary of State and USAID Administrator for funds that are being reallocated prior to initial obligation, reprogrammed, or reobligated after deobligation, should, to the maximum extent practicable, contain detailed information about the sources of funds and why such funds are no longer intended to be used as previously justified.

Spend plans submitted pursuant to section 7076 of the act shall: (1) be submitted in the form of a single, comprehensive spend plan for each program identified; (2) include all intended sources of

funds made available by the act for such program; and (3) conform to the definition of such plan under section 7034(r)(7) of the act.

TRANSFER AND REPROGRAMMING AUTHORITIES

The Committee continues transfer and reprogramming authorities under the DP, EDCS, DCA, ERMA, and PC headings, and in sections 7004(f); 7005; 7009; 7013(d); 7014; 7034(d)(7); 7034(i); 7044(a)(2); 7044(a)(3)(A); 7044(c)(1)(C); 7044(c)(3)(F); 7045(e); 7048(h)(3); 7057(d); 7058(c)(1); 7058(d)(3); 7060(a)(1)(A); 7061(a); 7069(b)(1); 7072(e); 8003(a); and 8003(b) of the act.

In addition, the FAA provides the President with broad transfer and reprogramming authorities in sections 109 (22 U.S.C. 2151g); 492(b) (22 U.S.C. 2292a); 506 (22 U.S.C. 2318); 610 (22 U.S.C. 2360); 614 (22 U.S.C. 2364); 632 (22 U.S.C. 2392); and 634A (22 U.S.C. 2394-1).

Federal agencies funded by the act shall notify the Committee of any reprogramming, as required by section 7015 of the act, at the most detailed level of the CBJ, the act, or this report.

CONGRESSIONAL BUDGET AND IMPOUNDMENT CONTROL ACT OF 1974

The Committee is concerned with the slower than usual obligation and disbursement of funds appropriated by prior acts making appropriations for the Department of State, foreign operations, and related programs and made available to the Department of State and USAID. While some of the delay may be caused by the transition of Secretaries of State, OMB's deliberative processes, and myriad National Security Council policy reviews, the Committee believes the current practice of requiring the review of all congressional notifications totaling \$1,000,000 or more by a single official at the Department of State significantly contributes to the delay and has no appreciable impact on improving oversight and accountability over the use of funds.

Several appropriations accounts in the act include a specific timeframe for the apportionment or disbursement of funds, which is intended to accelerate the use of funds at a more traditional rate without a loss of oversight and accountability.

Not later than 45 days after enactment of the act, the Comptroller General shall consult with the Committee on options for reviewing the obligation and disbursement rates of funds at the Department of State and USAID.

The Committee is mindful of the discretion granted in law to Federal agencies to oversee the execution of budgets. This discretion must be exercised consistent with all legal requirements and the expectations and intent of the Congress as expressed in the act and this report. Supreme Court decisions (especially *Train v. City of New York* (420 U.S. 35)(1975)) and the Congressional Budget and Impoundment Control Act of 1974 (title X of Public Law 93-344) [CBICA] limit the authority of the administration to reduce or withhold funding provided in law by action or inaction. Specifically, CBICA allows funds to be withheld only for a limited time if certain reporting requirements are observed, but any permanent ac-

tion to reduce budget authority or prevent the obligation or expenditure of funds requires passage of legislation to that effect.

The Committee expects the heads of agencies funded by the act to be familiar with the requirements of CBICA in considering the management and expenditure of funds appropriated by the act.

As in the past, the Department of State shall

consult with the Committee prior to obligating funds for such purposes.

The Committee recommends \$1,000,000 for the Cultural Antiquities Task Force, which may be used for grants as authorized in section 7034(d)(3) of the act.

Cultural Property.—The Committee supports implementation of the Convention on Cultural Property Implementation Act (title III of Public Law 97–446) in a manner consistent with prior years, including reviews conducted by the Cultural Property Advisory Committee pursuant to section 303(f) of such act to determine whether each State Party seeking or participating in a memorandum of understanding with the United States is taking measures consistent with the Convention on the means of prohibiting and preventing the illicit import, export, and transfer of ownership of cultural property to protect its cultural patrimony.

Educational and Training Support for the Department of State.—The Committee encourages the Department of State to work with U.S. citizens, foundations, not-for-profit organizations, and other appropriate entities, including the U.S. Diplomatic Studies Foundation, that seek to privately support FSI to expand and enhance Department of State educational and training programs, including the possible establishment of a degree-granting program at FSI, consistent with existing authorities and regulations to accept gifts. Not later than 90 days after enactment of the act, the Secretary of State shall submit a report to the appropriate congressional committees detailing areas where such private support may be most helpful to educational and training programs for the Department. The report should also include recommendations for additional authorities required, if any, to facilitate such support.

The Committee supports current Department of State plans to continue FACT training without disruption by maintaining such training at the Interim Training Facility until the new Foreign Affairs Secu-

The Secretary and Chiefs of Mission shall also encourage allies and partners to adopt and implement legislation similar to the Global Magnitsky Human Rights Accountability Act (22 U.S.C. 2656 note).

Holocaust Era Assets.—The Committee recommends not less than \$750,000 for the Office of the Special Envoy for Holocaust Issues, including to meet the requirements of the Justice for Uncompensated Survivors Today [JUST] Act of 2017 (Public Law 115–171).

Intercountry Adoption.—The Committee directs the Department of State to ensure that the new fee schedule approved for the Intercountry Adoption Accreditation and Maintenance Entity, Incorporated [IAAME] does not impose undue financial burdens on families seeking to adopt internationally, especially low-income families, families seeking to adopt sibling groups, or families seeking to adopt children with disabilities. Additionally, the Committee notes that IAAME is not permitted to profit from fees collected. The Committee directs that the next annual report on intercountry adoptions required by the Intercountry Adoption Act of 2000 (Public Law 106–279) shall include an assessment of the impact of IAAME’s new fee schedule, and identify actions taken by the Bureau of Consular Affairs, Department of State, to create opportunities for intercountry adoption, particularly in countries where American families are in the process of adoption but those adoptions have been slowed or blocked.

Use of Training Facilities in Rural Areas.—Federal agencies and other entities funded by the act are encouraged to assess the suitability of facilities in rural areas for personnel training purposes, as appropriate.

Vessel Crew Visas.—The Committee is concerned that the visa requirements for crews working on foreign flag recreational vessels that cruise in the United States are unclear and contribute to uncertainty for vessel owners in a manner detrimental to the U.S. maritime industry. The Committee urges the Department of State to provide clarifying guidance to U.S. embassies and consulates regarding the issuance of C1/D and B1/B2 visas, including vessel status information and any other documentation required to successfully process visa applications. Not later than 90 days after enactment of the act, the Secretary of State shall submit a report to the appropriate congressional committees on progress in developing and providing such clarifying guidance.

The Committee recommends \$3,000,000 to be administered by ECA for program evaluation and performance measurement. Not later than 90 days after enactment of the act, the Secretary of State shall submit a report to the Committee detailing achievements in exchanges evaluation and performance measurement, and a plan for continuing to conduct and refine ECA's approach regarding such efforts.

The Secretary of State shall include in the operating plan required by section 7076 of the act fees estimated to be collected and available for obligation by ECA in fiscal year 2019 and the uses of such fees, including the number of employees and contractors funded by such fees.

Muskie Fellowships.—The Committee again recognizes that the Muskie Fellowship Program has helped individuals from Eurasia and Central Asia to promote mutual understanding, build democracy, and foster the transition to market economies, and the act continues the requirement that a portion of Fulbright awards for this region are designated as Edmund S. Muskie Fellowships.

Report on Changes to Programs.—Not later than 45 days after enactment of the act, the Secretary of State shall submit a report to the Committee detailing any modifications made to educational and cultural exchange programs in the prior fiscal year, including for special academic and special professional and cultural exchanges.

The Secretary of State shall continue to submit a semiannual report on the number of claims for extraordinary protective services by eligible jurisdiction and certified as meeting program requirements, and the amount of unobligated funds available to pay such claims.

Base funding	2,242,696,000
Overseas contingency operations	71,778,000
Budget estimate, 2019	1,657,543,000
Committee recommendation	1,916,404,000

The Committee recommends \$1,916,404,000 for Embassy Security, Construction, and Maintenance, of which: \$1,126,304,000 is for worldwide security upgrades; and \$790,100,000 is for other construction, operations, and maintenance.

Funds are allocated according to the following table:

EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

[Budget authority in thousands of dollars]

Program/Activity	Committee recommendation
Capital Security Cost Sharing and Maintenance Cost Sharing Programs	1,025,304
Compound Security	101,000
Major Rehabilitations, Repairs, and Improvements	100,000
Operations and Leases	672,100
Domestic Renovations	18,000
Total, Embassy Security, Construction, and Maintenance	1,916,404

Art in Embassies Program.—Not later than 180 days after enactment of the act, the Secretary of State shall update the report required under this heading in Senate Report 114–79 accompanying the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2016 (S. 1725, as reported to the Senate on July 9, 2015), as necessary.

The Secretary of State shall continue to include in diplomatic facility construction project notifications that include funds for a major purchase of art, a determination that such purchase is in the national interest of the United States. For major purchases of art that are not part of a diplomatic facility construction project, such determination shall be made and reported to the Committee prior to the obligation of funds for such purposes.

Contributions to the Capital Security Cost Sharing and Maintenance Cost Sharing Programs.—The act provides a Department of State contribution of \$1,025,304,000 under this heading, and a USAID contribution of \$220,400,000 under the CIF heading, for the respective shares of the Capital Security Cost Sharing and Maintenance Cost Sharing [CSCS/MCS] programs. Such shares are consistent with original intent of the Benghazi ARB of a combined CSCS/MCS funding total of \$2,600,000,000. Other Federal agencies funded by the act that are required to make contributions to the CSCS/MCS programs shall make contributions consistent with such level. The proportional shares of Federal agencies funded by the act shall not be increased to pay the additional amounts from agencies funded in other acts that would otherwise be necessary to reach the \$2,600,000,000 program level.

The Committee does not concur with OMB’s reinterpretation of the Benghazi ARB recommended level of \$2,200,000,000 for the CSCS program to be inclusive of requirements for the MCS program of \$400,000,000. This reinterpretation results in a proposed cut of 15.4 percent for the construction of modern facilities, potentially endangering U.S. diplomats and development specialists by underfunding necessary physical and technical security requirements at U.S. facilities abroad.

New Embassy Compound Jerusalem.—The Committee notes that funds under this heading in the act and prior acts making appropriations for the Department of State, foreign operations, and related programs are available to support the construction of a permanent New Embassy Compound in Jerusalem. The Secretary of State shall regularly inform the Committee on the status of plans for such a facility.

Operating Plans.—Section 7076 of the act requires the Secretary of State to submit an operating plan for funds appropriated under this heading, which should include all resources available to the Department of State in fiscal year 2019 for operations, maintenance, and construction of diplomatic facilities, and an accounting of the actual and anticipated proceeds of sales for all projects in fiscal year 2018.

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

Appropriations, 2018	\$1,467,408,000
Base funding	1,371,168,000
Overseas contingency operations	96,240,000
Budget estimate, 2019	1,095,045,000
Committee recommendation	1,440,375,000
Base funding	1,344,135,000
Overseas contingency operations	96,240,000

The Committee recommends \$1,440,375,000 for Contributions to International Organizations, of which \$96,240,000 is designated for OCO.

The act provides the funding necessary to pay the full fiscal year 2019 U.S. assessment for each respective international organization funded under this heading. The Secretary of State shall consult with the Committee prior to implementing any decision to not fully pay any such assessment.

Food and Agriculture Organization.—The Committee again encourages the Food and Agriculture Organization [FAO] to work with land grant institutions of higher learning in the United States to meet global food security challenges.

International Energy Agency.—The Committee recommends not less than the assessed amount for the International Energy Agency.

United Nations Budget and Voting Practices.—The Secretary of State shall transmit to the Committee concurrent with the submission of the President's budget request for fiscal year 2020 the most recent biennial budget prepared by the United Nations for the operations of the United Nations.

In considering bilateral assistance for a foreign government, the Secretary of State shall review, among other factors, the voting practices of such government at the United Nations in relation to U.S. strategic interests.

United Nations Educational, Scientific, and Cultural Organization.—The Committee notes that the President's budget request did not include a U.S. contribution to the U.N. Educational, Scientific, and Cultural Organization under this or the IO&P heading, which is prohibited by law, and none is provided.

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

Appropriations, 2018	\$1,382,080,000
Base funding	414,624,000
Overseas contingency operations	967,456,000
Budget estimate, 2019	1,196,108,000
Committee recommendation	1,683,881,000
Base funding	716,425,000
Overseas contingency operations	967,456,000

The Committee recommends \$1,683,881,000 for Contributions for International Peacekeeping Activities, of which \$967,456,000 is designated for OCO.

The Committee recommendation provides sufficient funds for contributions under this heading equal to the 25 percent statutory limitation on such contributions rather than the assessed rate of 28.4 percent.

Arrears.—The Committee notes that U.S. arrears for U.N. peacekeeping missions in fiscal years 2017 and 2018 are estimated to exceed \$526,000,000 due to the statutory cap. The Committee encourages the Department of State to closely review each peacekeeping mission for potential cost savings, while ensuring mission effectiveness, and to renegotiate the assessed rate with the United Nations. The Secretary of State shall consult with the appropriate congressional committees on the options for addressing current arrears.

Cost-Effective Alternative.—The Committee notes that U.N. peacekeeping missions are a cost-effective alternative to the unilateral deployment of U.S. peacekeepers abroad, as confirmed in the February 2018 GAO report entitled “UN Peacekeeping: Cost Estimate for Hypothetical U.S. Operation Exceeds Actual Costs for Comparable UN Operation” (GAO-18-243). The report indicates that a unilateral U.S. peacekeeping deployment to the Central African Republic would cost \$5,700,000,000, or almost 8 times the cost of the U.N. Multidimensional Integrated Stabilization Mission in the Central African Republic.

The Committee encourages the Department of State to continue to maximize the cost-effectiveness of U.N. peacekeeping missions, consistent with U.S. interests and the imperative to sustain such missions.

Committee recommendation	48,134,000

The Committee recommends \$48,134,000 for salaries and expenses of the International Boundary and Water Commission, United States and Mexico.

Southwest Border Pollution.—The Committee is concerned that despite millions of dollars of U.S. infrastructure investments on both sides of the U.S.-Mexico border over the past two decades, wastewater, trash, and sediment continue to flow from Tijuana, Mexico into San Diego County, resulting in unsanitary water condi-

tions, pollution, and beach closures in coastal communities. The Secretary of State shall work with the IBWC Commissioner and the Government of Mexico to enhance efforts to mitigate pollution in the Tijuana River Valley, including to implement the recommendations from the IBWC's "Report of Transboundary Bypass Flows into the Tijuana River" (April 2018) and to encourage the Government of Mexico to make additional investments to halt the discharge of waste into the United States.

Transboundary Flows Report.—Not later than 180 days after enactment of the act, the IBWC shall submit a report to the Committee quantifying the total annual volume and composition of transboundary flows that enter the United States from Mexico in the Tijuana watershed, as well as the amount of time between each discharge from Mexico and the notification of the U.S. Government and local communities, as recorded, and to the extent known, by the IBWC. The report shall also include a description of steps taken by the IBWC and other relevant Federal agencies to implement additional mitigation measures to address increased flows in 2017 and 2018, including feasibility studies for sediment basins in the Tijuana River and tributary washes and the installation of additional trash booms in such river. The report shall be posted on the IBWC website concurrently with its submission to the Committee.

Water Deliveries Report.—Not later than 45 days after enactment of the act, the Secretary of State, in consultation with the IBWC Commissioner, shall submit to the Committee an update to the report required in section 7045(g)(3) of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2015 (division J of Public Law 113–325) detailing efforts to establish mechanisms to improve transparency of data on, and predictability of, water deliveries from Mexico to the United States to meet annual water apportionments to the Rio Grande, in accordance with the 1944 Treaty between the United States and Mexico Respecting Utilization of Waters of the Colorado and Tijuana Rivers and of the Rio Grande, and actions taken to minimize or eliminate future water deficits to the United States.

The Committee recommends \$50,651,000 for International Fisheries Commissions, including \$3,685,000 for the Pacific Salmon Commission and \$3,531,000 for Other Marine Conservation Organizations.

The Committee recommendation also includes \$37,290,000 for the Great Lakes Fisheries Commission [GLFC], of which \$7,000,000 is for sea lamprey control, water quality improvements, and fish restoration in the Lake Champlain Basin, and \$250,000 is for the protection and restoration of the habitat and associated species of the Lake Memphremagog fishery. The recommendation also includes \$9,000,000 for additional sea lamprey control and fishery research for the Great Lakes Basin.

The Committee is concerned by aging infrastructure in the Great Lakes Basin which threatens sea lamprey control efforts intended to protect the \$7,000,000,000 economy supported by the region's fisheries. The Secretary of State shall work with the GLFC to develop a multi-year strategy and funding plan to improve such infrastructure as part of the broader sea lamprey control effort, including by leveraging funds from non-U.S. Government sources.

MATERNAL AND CHILD HEALTH

The Committee recommends \$829,500,000 for maternal and child health activities under this heading.

Maternal and Child Survival.—USAID shall continue to support programs aimed at ending preventable child and maternal deaths, including by developing and implementing a multi-year strategy for

contributing to the global goal of ending such deaths. The strategy should include plans for: (1) bringing to scale the highest impact, evidence-based interventions aimed at reducing the prevalence of preventable child and maternal deaths; (2) implementing such interventions in a way that enhances transparency, accountability, country-ownership, and improved outcomes; and (3) supporting research, development, and introduction of innovative tools and approaches. Not later than 45 days after enactment of the act, the USAID Administrator shall submit a report to the Committee detailing plans for developing such a strategy.

In addition, the USAID Administrator shall update the report required under this heading in Senate Report 115–152, which shall be posted on the USAID website not later than December 31, 2019.

Maternal and Neonatal Tetanus.—The Committee recommends not less than \$1,000,000 for public-private partnerships specifically focused on providing low-cost vaccines for women of childbearing age to prevent tetanus in newborn children.

Polio.—The Committee recommends a total of not less than \$59,000,000 in the act for polio eradication efforts, including not less than \$7,500,000 under the ESF heading for programs for Pakistan and Afghanistan.

Vaccines and Immunizations.—The Committee recommends \$290,000,000 for a contribution to the GAVI Alliance. The USAID Administrator shall provide details on the planned uses of funds prior to making such contribution.

Vulnerable Children.—The Committee recognizes that the U.S. Government Action Plan for Children in Adversity’s 5-year framework was completed in December 2017, and notes the necessity for continued implementation of a whole-of-government strategy to coordinate assistance to orphans and vulnerable children, as mandated by Public Law 106–279.

The Committee encourages USAID to increase efforts to better track and coordinate outcomes related to child protection and protection of children outside of family care, including: (1) investment in technology that identifies and protects vulnerable children, facilitates case management, and reports outcomes; and (2) programs that prevent unnecessary parent-child separation and increase the percentage of children living within family care instead of in institutions. The Committee encourages increased engagement with community and faith-based organizations, and USAID should take into account organizations of all sizes that have demonstrated expertise in family-based care.

The Committee recommends support for programs that address autism spectrum disorders, including treatment and the training of healthcare workers to better diagnose such disorders.

The Committee recommends not less than \$3,500,000 for assistance for blind children, in addition to funds otherwise available for such purposes, and USAID shall administer such funds in a manner that delivers the maximum amount of funds to beneficiaries.

NUTRITION

The Committee recommends \$135,000,000 for nutrition programs under this heading, to be made available through USAID.

Biofortification.—The Committee recognizes the importance of biofortification as part of the global food security strategy and urges continued support for such efforts.

Malnutrition Programs in Laos.—The Committee recommends \$3,500,000, in addition to funds otherwise available, to address malnutrition among children in Laos.

Micronutrients.—The Committee again recommends not less than \$33,000,000 for micronutrients, of which not less than \$22,500,000 is to address vitamin A deficiencies. The Committee recommends that nutrition programs, including micronutrients, also be funded by the Department of State and USAID within programs to combat HIV/AIDS. The Committee recommends not less than \$2,500,000 for the USAID/U.N. Children’s Fund [UNICEF] Iodine Deficiency Disorder program to prevent intellectual disability in children.

FAMILY PLANNING/REPRODUCTIVE HEALTH

The Committee recommends a total of not less than \$632,550,000 in the act for family planning and reproductive health programs, including \$544,000,000 under this heading, \$51,050,000 under the ESF heading, and \$37,500,000 for the United Nations Population Fund. The Committee recognizes that information and assistance for families interested in healthy timing and spacing of pregnancies can enhance maternal and child health and improve the chances of survival of women and children.

HIV/AIDS

The Committee recommends a total of \$6,050,000,000 for programs and activities to combat HIV/AIDS, of which \$5,720,000,000 is for the Department of State and \$330,000,000 is for USAID.

Global Fund.—The Committee recommends \$1,350,000,000 for a U.S. contribution to the Global Fund. The Committee continues a provision allowing the contribution to exceed the cap for fiscal year 2019, consistent with the limitation from 2004. The Committee confirms that the U.S. contribution should not exceed 33 percent of the encashment of funds to fulfill replenishment cycles at the Global Fund from 2020 onward.

In advance of the Global Fund Replenishment Conference in 2019, the Committee anticipates that the U.S. will contribute no less than \$1,350,000,000 for each of the 3 fiscal years following the Conference.

President’s Emergency Plan for AIDS Relief.—The Committee recognizes that PEPFAR plays a key role in HIV/AIDS prevention, care, and treatment globally.

The Committee encourages the Office of the U.S. Global Aids Coordinator [OGAC] to increase efforts to align existing programs for orphans and vulnerable children with the goals and objectives of the U.S. Government Action Plan on Children in Adversity.

The Committee recommends that OGAC develop and implement a pediatric treatment plan that includes specific pediatric treatment targets and focuses on building capacity to ensure HIV diagnostics and antiretroviral treatment for children are scaled-up with a focus on increased and improved early infant diagnosis, age-appropriate pediatric formulations of antiretroviral drugs, and new models to improve case-finding and longitudinal adherence support.

The Committee continues to encourage OGAC to prioritize treatment for HIV-positive pregnant women to prevent mother-to-child transmission.

The Committee emphasizes that section 403(b) of the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003 (22 U.S.C. 7673(b)) requires 10 percent of total PEPFAR program funds to be allocated for programs focused on orphans and vulnerable children. The Committee again urges OGAC to seek civil society and government partners to achieve the goal of decreasing the number of children living outside of family care due to HIV/AIDS.

Vaccine.—USAID shall continue to support research and development of a vaccine to combat the AIDS virus.

The Secretary of the Treasury, when evaluating a proposal by an international financial institution [IFI] to finance construction of a large dam, shall apply the Department of the Treasury's due diligence process, including reviewing for full compliance with IFI policies and legislative voting mandates, as well as consider the dam policies of relevant Federal agencies, the Hydropower Sustainability Assessment Protocol, and other sources of hydropower and

environmental expertise. The U.S. executive director of such IFI may vote to support such a project only if the Secretary, after consulting with the Secretary of State, USAID Administrator, and other technical personnel, as appropriate, determines that the IFI is taking the necessary steps to meet the safeguards enumerated under this heading in Senate Report 114–79.

GLOBAL PROGRAMS

Advisor for Indigenous Peoples Issues.—Not later than 90 days after enactment of the act, the USAID Administrator shall post on the USAID website the policy required under the heading “Indigenous Peoples” in the joint explanatory statement accompanying division K of Public Law 115–141.

The Committee recommends not less than \$3,500,000 for grants and other activities administered by the USAID Advisor for Indigenous Peoples Issues.

Clean Cookstoves.—The Committee remains concerned that exposure of billions of people in developing countries to smoke from traditional cookstoves causes premature deaths, primarily of women and young children, and contributes to deforestation, erosion, and drought, and the women and children who collect firewood face daily hardship and security risks. The Committee supports the ongoing work of the Department of State, in partnership with other Federal agencies, to help address this health and safety issue, and recommends funding for cookstoves that sustainably reduce fuel consumption and exposure to harmful smoke.

Faith-Based Organizations.—The Committee recognizes and appreciates the historical contributions of the faith sector in the delivery of assistance, care, and support at the grassroots level. The Secretary of State and USAID Administrator shall continue to use the faith sector, in conjunction with the public and private sectors, for the delivery of assistance in developing countries under this heading and the GHP and ESF headings.

Mapping.—The Committee recognizes that the delivery of foreign assistance can be improved through comprehensive national mapping, including through the use of digital orthoimagery and lidar elevation data acquired through aerial surveys. The Department of

State and USAID should consider developing a strategy for comprehensive national mapping in countries that receive U.S. foreign assistance.

Low Cost Eyeglasses Pilot Program.—The Committee is aware that low cost eyeglasses can dramatically improve the lives of vulnerable people with poor vision in less developed countries, enabling children to succeed in school and adults to become economically productive. Not later than 90 days after enactment of the act, the USAID Administrator shall submit a plan to the Committee to establish a pilot program to support NGOs and local governments, as appropriate, to provide low cost eyeglasses in countries where there is a need, specifying the countries to be targeted, the scale of need, and amounts of funding. The plan should also include investments to help improve the capacity of local entities to provide low cost eyeglasses to needy populations, and should be developed in collaboration with the Global Partnership on Assistive Technology. The Committee recommends not less than \$5,000,000 to implement the pilot program.

The USAID Administrator shall consult with the Committee on the administration of the program for fiscal year 2019.

Orphans, Abandoned, and Displaced Children.—The Committee supports USAID programs to assist foreign governments and NGOs in the poorest countries to increase the percentage of orphans, abandoned, and displaced children living with appropriate, permanent family care; reduce the percentage living in institutions; and improve nutrition, educational opportunities, and protection for such children.

Patrick Leahy War Victims Fund.—The Committee recommends \$13,500,000 for the Leahy War Victims Fund which assists persons severely disabled as a result of armed conflict.

Strategic Transitions.—The Secretary of State and USAID Administrator shall regularly consult with the appropriate congressional committees and development stakeholders on efforts to transition nations from assistance recipients to enduring diplomatic, economic, and security partners. Such consultations shall also include the guiding principles and metrics being developed to support such efforts.

Not later than 180 days after enactment of the act, the Secretary of State and USAID Administrator shall submit to the appropriate congressional committees an updated implementation plan on country transitions from assistance, as required by section 7069(b)(2) of division K of Public Law 115–141.

Not later than 180 days after enactment of the act, the USAID Administrator shall report to the appropriate congressional committees on opportunities for increasing the participation of U.S. engineering firms in USAID-funded infrastructure projects.

Program Prioritization.—Funds appropriated by the act and made available to strengthen government institutions shall be prioritized for those institutions that demonstrate a commitment to democracy and the rule of law, as determined by the Secretary of State or USAID Administrator, as appropriate.

Sec. 7033. International Religious Freedom.

Anti-Semitism Programs.—The Committee recommends not less than \$1,000,000 for programs to combat anti-Semitism abroad.

Countries of Particular Concern.—The Committee recognizes the importance of the proper designations of countries of particular concern [CPC] for religious freedom, and urges the President and Secretary of State to update the CPC list annually. If the situation in a given country calls for such country to be designated as a CPC for religious freedom prior to the annual review, the President shall make the designation and promptly update the CPC list. If the U.S. Commission on International Religious Freedom recommends a country for CPC designation, and such country is not designated as a CPC, the Secretary of State shall provide the rationale for such action to the appropriate congressional committees within 30 days of such decision.

Curriculum Report.—Subsection (a)(2) recommends funds for the development of an international religious freedom curriculum for Foreign Service officers, particularly entry level diplomats, to be incorporated into mandatory orientation training programs. The Secretary of State shall report to the Committee not later than 30 days after enactment of the act on the status of implementation of the training program, and the development of a religious freedom curriculum.

Operations.—Pursuant to subsection (a), the table under the DP heading recommends: \$6,500,000 for the Office of International Religious Freedom and \$2,000,000 for the Special Envoy to Promote Religious Freedom of Religious Minorities in the Near East and South Central Asia, including for support staff. The Special Envoy should be a position with direct access to the Secretary of State and senior Department of State officials, as the Congress intended in the Near East and South Central Asia Religious Freedom Act of 2014 (Public Law 113–161).

Pakistan Blasphemy Laws.—The Committee is concerned with continued democratic backsliding in Pakistan and the ongoing use of archaic blasphemy laws to target religious and ethnic minorities, including the wrongful imprisonment of Asia Bibi.

Sanctions.—The Committee notes that Congress has provided the President with sanction authority in section 212(a)(2)(G) of the Immigration and Nationality Act (8 U.S.C. 1182) and section 1263(a) of the Global Magnitsky Human Rights Accountability Act (22 U.S.C. 2656 note) for use against government officials responsible for particularly severe violations of religious freedom and gross violations of human rights. Not later than 90 days after enactment of the act, the Secretary of State shall submit a report to the Com-

mittee detailing: (1) the use of such sanction authority, including how many times each authority was used in the prior 3 fiscal years; (2) the justification for the use of such authority; and (3) the criteria used for determining when it was appropriate to use such authority.

Contingencies and Evacuations.—Subsection (f)(2) provides authority for the use of up to \$301,200,000 in unobligated balances from amounts made available for Worldwide Security Protection in the Security Assistance Appropriations Act, 2017 (division B of Public Law 114–254) for the development and implementation of emergency evacuation contingency plans. The President’s request proposed rescinding such funds.

Partner Vetting.—Partner vetting includes national security vetting of U.S. Government vendors and other partners, and their sub-awardees, to mitigate the risk of diversion of U.S. Government resources.

The Secretary of State and USAID Administrator should continue to provide a direct vetting option for prime awardees in partner vetting programs referenced in subsection (e).

Protections and Remedies for Employees of Diplomatic Missions and International Organizations.—In addition to the directives in subsection (k), and with respect to the implementation of section 203(a)(2) of the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (Public Law 110–457), the Secretary of State shall consider the following as sufficient to determine that a diplomatic mission “tolerated such actions”: (1) the failure to provide a replacement passport within a reasonable period of time to a T-visa recipient; (2) the existence of multiple concurrent civil suits against members of the diplomatic mission; or (3) the failure to satisfy a civil judgment against an employee of the diplomatic mission.

Sec. 7035. Arab League Boycott of Israel.

Sec. 7036. Palestinian Statehood.

Sec. 7037. Restrictions Concerning the Palestinian Authority.

Sec. 7038. Prohibition on Assistance to the Palestinian Broadcasting Corporation.

Sec. 7039. Assistance for the West Bank and Gaza.

Sec. 7040. Limitation on Assistance for the Palestinian Authority.

Sec. 7041. Middle East and North Africa.

Bahrain.—The Secretary of State shall update the report required under the FMF heading in Senate Report 114–79 in the manner described, and work with the Government of Bahrain on implementation of reforms that provide greater rights and opportunities for the people of Bahrain.

The Committee remains concerned that restrictions on peaceful dissent and free expression in Bahrain may have the unintended consequence of increasing instability in that country.

Egypt.—Subsection (a)(2)(A) of the act recommends not less than \$15,000,000 for Egyptian students with high financial need to attend not-for-profit institutions of higher education that meet standards equivalent to those required for U.S. institutional accreditation by a regional accrediting agency recognized by the U.S. Department of Education. Students should be eligible for scholarships based on need, outstanding academic record, and leadership potential to contribute to the long-term political, economic, and social development of Egypt. The curriculum of such institutions should encourage critical thinking and be taught in the English language. Not later than 45 days after enactment of the act, the USAID Administrator shall consult with the Committee on the uses of such funds.

Not later than 90 days after enactment of the act, the Secretary of State shall submit a report to the appropriate congressional committees detailing the amount of funds appropriated in prior acts making appropriations for the Department of State, foreign operations, and related programs that are made available for development programs in the Sinai. The report shall include an assessment of the Government of Egypt's support for such programs. The Committee believes that security and stability are unattainable in the Sinai absent the implementation of a coherent development strategy.

In making the certification required by subsection (a)(3)(A)(iii), the Secretary of State shall consider the cases of American citizen Mustafa Kasseem and Ola Al-Qaradawi and her husband Hosam Khalaf. The Committee urges that humane treatment and fair trials be afforded these and other prisoners.

Not later than 180 days after enactment of the act, the Secretary of State shall update the report required under this heading in Senate Report 114–79 regarding steps taken to implement section 415 of the Iran Threat Reduction and Syria Human Rights Act of 2012 (Public Law 112–158).

The Secretary of State, in consultation with the heads of other relevant Federal agencies, including BBG, shall coordinate Iran counterinfluence programs funded by the act. Such programs should: (1) counter the false assertions made by the Government of Iran against the United States and other democratic countries; (2) describe the support such Government provides to terrorist proxies; and (3) assess and describe the impact the support to such proxies causes to the people of Syria, Yemen, and other areas where they operate.

Iraq.—The Committee recommends \$987,100,000 for diplomatic operations in Iraq under the DP and ESCM headings.

The Committee remains concerned with the absence of a coherent and comprehensive strategy for stabilization of areas liberated from ISIS in Iraq and Syria.

Funds made available for the Kurdistan Region of Iraq [KRI] under the ESF heading shall be made available for programs to further economic reforms, diversify the economy, develop agricultural opportunities, and support the creation of small and medium-sized enterprises. Additional assistance is available under the IDA and MRA headings to mitigate the impact of internally displaced persons [IDPs] and refugees in the KRI.

The Committee is aware of the absence of legal and economic protections for U.S. contractors operating in Iraq, the limitations of the Iraqi tax system, and opportunities for corruption within that system that puts at risk U.S. taxpayer dollars. The Committee believes greater protections are required, including through the June 2014 agreement governing the U.S. presence in Iraq. Not later than 30 days after enactment of the act, the Secretary of State shall submit a report to the appropriate congressional committees detailing steps taken by the Department of State to enhance such protections for U.S. contractors, and foreign assistance, in Iraq, consistent with the requirements of section 7013 of the act.

Funding made available for the Marla Ruzicka Iraqi War Victims Fund shall be used to assist Iraqis who suffer losses as a result of U.S. military operations in Iraq. Such funds shall be administered by DRL or USAID as a distinct Fund and implemented by a qualified NGO or contractor in Iraq, and shall be in addition to funds otherwise made available for such purposes. Prior to the obligation of such funds, the Secretary of State and USAID Administrator shall consult with the Committee on the management of the Fund.

The Committee recommends not less than \$5,000,000 for scholarships for students in Iraq, including in the KRI, at not-for-profit, American-style educational institutions that meet standards comparable to those required for U.S. accreditation. Such funds shall be awarded on a competitive basis.

Lebanon.—Subsection (e) conditions assistance for Lebanon in a manner similar to the prior fiscal year.

The Committee again notes that sections 620A and 620G of the FAA restrict assistance to any country the Secretary of State determines has repeatedly supported acts of international terrorism and require the withholding of assistance to the government of any country that provides assistance to such country so determined by the Secretary, respectively. Hezbollah has been designated a FTO pursuant to section 219 of the Immigration and Nationality Act (8 U.S.C. 1189), as amended, since 1997. The Committee again expects that no funds made available by the act will directly or indirectly benefit or otherwise legitimize Hezbollah, including within

the Government of Lebanon, or any other FTO operating in Lebanon.

The Committee recommends \$12,000,000 for scholarships for students in Lebanon with high financial need at not-for-profit educational institutions in Lebanon that meet standards comparable to those required for U.S. accreditation, to be awarded on a competitive basis. Yemen.—The Committee encourages USAID to provide sufficient funds under the IDA heading to address urgent humanitarian requirements in Yemen.

The Committee notes that 22 million people are in need of assistance and 8 million people are at risk of starvation. The Committee urges the administration to: (1) work with all parties involved in the conflict to respect their obligations under international humanitarian law and take all feasible precautions to protect civilians and civilian infrastructure from the impact of hostilities; and (2) take steps to ensure that vital humanitarian aid and commercial goods can continue to flow through the port of Hudaydah and other key entry points.

Not later than 30 days after enactment of the act, the Secretary shall consult with the appropriate congressional committees on the status of such investigations and the intended use of funds made available by the act for Cameroon.

Kenya.—The Committee remains concerned with disappearances, torture, and extra-judicial killings of human rights defenders in Kenya, including the lack of accountability for such crimes. The Secretary of State shall support programs to strengthen the oversight of, and accountability for, Kenyan security forces, and consult with the Committee on such efforts.

Lake Chad Basin Countries.—The Committee notes that the gains achieved by the G5 Sahel Joint Force and Multinational Joint Task Force can only be sustained if accompanied by effective

Somalia.—The Committee recommends \$50,000,000 under the ESF heading for programs, including to promote dialogue and reconciliation between the central Government of Somalia and the rest of the country, and for programs to strengthen the rule of law, government institutions, civil society participation in peace-building activities, and education and employment opportunities for the people of Somalia.

Not later than 120 days after enactment of the act, the Secretary of State, in consultation with the heads of other relevant Federal agencies, shall submit a report to the appropriate congressional committees detailing steps taken by the U.S. Government to: (1) improve access for humanitarian organizations throughout Sudan; (2) monitor such access; and (3) verify allegations of ongoing conflict.

Zimbabwe.—Subsection (h) continues the prior year limitations on assistance for the central Government of Zimbabwe, and the Committee notes that the Zimbabwe Democracy and Economic Recovery Act of 2001 (Public Law 107–99) restricts U.S. support for international financing for Zimbabwe. The Secretary of State shall work with other donor governments to advocate for similar limitations on assistance for Zimbabwe until fundamental rights are being respected, including freedoms of expression, association, and assembly, due process, and the holding of free and fair elections.

The Committee recommends not less than the fiscal year 2018 level for programs to promote democracy and protect human rights in Zimbabwe, which should include efforts to build the capacity of democratic political parties.

Burma.—Subsection (a) provides the funding and authorities necessary to implement programs in Burma to help: (1) address the humanitarian crisis arising from the ethnic cleansing of the Rohingya people, including in Bangladesh, and investigate and document this crime against humanity; (2) address violence and gross human rights abuses against other ethnic nationalities in Burma, particularly the Kachin, committed by the Government of Burma, and provide humanitarian and development assistance in affected areas; (3) further economic and political reforms, which are a precondition for both the resolution of Burma’s internal conflict since 1948 and a meaningful democratic transition; and (4) maintain U.S. influence in the country and region, and counter the influence of the PRC.

In considering programs pursuant to subsection (a)(1)(B)(xi) to support the return of Rohingya, Karen, Kachin, Mon, and Chin that have been displaced, the Secretary of State shall ensure that: (1) such returns are verifiably of a voluntary nature; (2) such returnees are guaranteed equal rights with others in Burma, including the restoration or granting of full citizenship, freedom of movement and access to basic services in such locations, and are not placed in internment camps; (3) such locations are free from ethnic violence, and the root causes of unrest are addressed to ensure the sustainability of returns and prevent further displacement; (4) such programs are implemented in a credible and transparent manner; and (5) international and local media organizations, including the UNHCR and the Office of the United Nations High Commissioner for Human Rights, have unimpeded access to monitor all areas of return.

For purposes of this subsection, displaced Rohingya should be considered refugees regardless of their legal status in their current location.

The Committee recommends \$3,000,000 for programs to investigate and document allegations of ethnic cleansing and other gross violations of human rights against the Rohingya people in Burma and Bangladesh, which shall be administered by DRL. An additional \$750,000 is recommended for programs to document allegations of such violations against other ethnic groups in Burma, particularly in conflict areas, which shall also be administered by DRL.

Not later than 90 days after enactment of the act, the Secretary of State and USAID Administrator, as appropriate, shall consult with the Committee regarding funds made available under the ESF heading for democracy, rule of law, and environment programs in the PRC.

Funds made available for the Strategy may only be made available for obligation following the submission of the Strategy, policies, and plans to the appropriate congressional committees. Such funds are in addition to amounts otherwise made available for such purposes.

The implementation of the Strategy shall be coordinated with the similar strategies of allies in the Indo-Pacific region, specifically the governments of Australia, India, Japan, and South Korea.

Laos.—The Committee recommends not less than \$40,000,000 for UXO clearance in Laos, and is aware that the people of Laos continue to suffer the consequences of widespread UXO contamination, mostly of U.S. origin, and that improved survey and clearance methods are creating greater efficiencies.

Mekong River Programs.—The Committee supports assistance for Vietnamese and Laotian communities along the Mekong River to mitigate and adapt to drought, flooding, and dam construction which threatens food production and livelihoods.

People's Republic of China Access Report.—Not later than 90 days after enactment of the act, the Secretary of State shall submit to the appropriate congressional committees a report that includes: (1) an assessment of the level of access PRC officials granted diplomats, journalists, and tourists from the United States to Tibetan areas, including a comparison with the level of access granted to other areas of the PRC, a comparison between the levels of access granted to Tibetan and non-Tibetan areas in relevant provinces, a comparison of the level of access in the reporting year and previous reporting year, and a description of the required permits and other measures that impede freedom of travel in Tibetan areas; and (2) a list of PRC officials determined by the Secretary to be personally and substantially involved in the formulation or execution of policies related to access for foreigners to Tibetan areas. The report shall be posted on the Department of State website not later than 15 days after submission to such committees. For purposes of the report, the term “Tibetan areas” shall have the same meaning as defined in section 3 of S. 821, the Reciprocal Access to Tibet Act of 2017 (introduced in the Senate on April 4, 2017).

Philippines.—The Committee notes that the certification requirement in section 7043(e) of division K of Public Law 115–141 may prohibit fiscal year 2018 assistance for the Philippine National Police, with certain exceptions, given the absence of the adoption and implementation of a counternarcotics strategy that is consistent with international human rights. Therefore, subsection (g) prohibits assistance under the INCLE heading for counternarcotics assistance for the Philippines, with certain exceptions.

The Committee directs that funds under title III of the act be made available to USAID to continue support for the national and community based drug treatment and demand reduction program implemented by the Philippine Department of Health and local entities. Such funds shall be made available on a cost-matching basis, to the maximum extent practicable.

The Committee recognizes the success of the Armed Forces of the Philippines [AFP] in countering and combating terrorism, which poses a threat to the Philippines and the region. However, the AFP must be a legitimate defender of the state and all the people of the Philippines. Therefore, not later than 90 days after enactment of the act, the Secretary of State shall submit a report to the appropriate congressional committees assessing the extent to which the AFP is respecting human rights and the rule of law, particularly regarding involvement in extra-judicial killings, and the investigation and prosecution of military personnel who commit gross human rights violations. The report shall also include a description of the steps taken by the AFP to implement policies and reforms to prevent such abuses.

Taiwan.—The Committee encourages the Department of State to seek opportunities to diversify joint programs with Taiwan beyond the traditional areas of cooperation.

Tibet.—Funds appropriated by the act for assistance for Tibet are intended to continue and expand programs, including those that: (1) improve the economic development, well-being, and resilience of Tibetan culture and the community in exile; (2) enhance the capacity of Tibetan institutions and governance, such as the Tibetan Administration; and (3) strengthen democracy, governance, information and international outreach, and research associated with Tibet and the Tibetan community in South Asia.

For purposes of the report required by section 653(a) of the FAA, spend plans, and notifications, the Department of State and USAID shall differentiate assistance made available by the act for Tibet from any such assistance made available for the PRC.

Thailand.—No assistance for Thailand is recommended under the IMET and FMF headings, as such assistance is prohibited by section 7008 of the act.

Funds made available by the act under the ESF heading for assistance for Thailand shall be made available for democracy programs, and conflict resolution and reconciliation programs in Southern Thailand.

The Committee intends that funds for health/disability programs will be provided, to the maximum extent practicable, through local Vietnamese organizations, including to improve their capacity to deliver services. The Committee recommends \$15,000,000 under the NADR heading for UXO clearance in Vietnam.

The Committee recommends \$5,000,000 under the ECE heading and \$5,000,000 under the ESF heading for Fulbright University Vietnam [FUV], and understands that an additional \$3,700,000 derived from debt forgiveness will be provided for a total of \$13,700,000 for FUV in fiscal year 2019. The Committee supports FUV, and notes that this is a multi-year commitment by the U.S. Government to help establish the first university in Vietnam that meets U.S. standards of academic freedom. The Committee understands that construction-related costs will be financed through private donations.

Sec. 7044. South and Central Asia.

Afghanistan.—The Committee recommends \$971,800,000 for diplomatic operations in Afghanistan under the DP heading.

Subsection (a)(1)(A) provides authority for the use of funds to re-establish and maintain one or more Embassy Branch Offices in Afghanistan, following consultation with the Committee and subject to the regular notification procedures. The Committee recognizes that diplomacy and development requirements for Afghanistan are long term in nature and will transcend the U.S. military presence in that country.

The Secretary of State shall update the report required by section 7044(a)(1)(B) of division J of Public Law 115–31 through fiscal year 2020.

Funding for the Afghan Civilian Assistance Program shall be made available to assist Afghans who suffer losses as a result of United States military operations in Afghanistan. Such funds shall be administered by USAID as a distinct Program and implemented by a qualified NGO or contractor in Afghanistan, and shall be in addition to funds otherwise made available for such purposes. The USAID Administrator shall consult with the Committee prior to the obligation of funds for such Program.

For purposes of subsection (a)(3)(B), the term “individual” means an individual who exercises significant control or influence over the administration of U.S. assistance. While U.S. citizens and lawful permanent residents are not subject to the requirement of the subsection, the Committee strongly encourages the Department of State, USAID, SIGAR, and other inspectors general to continue to work to uncover and address corruption committed by such individuals in Afghanistan, including to pursue prosecution in accordance with applicable law.

Assistance for Afghanistan should be made available to support recovery assistance for conflict-affected communities to help them prosper and reintegrate former combatants, except that no direct payments shall be made to such combatants. The Department of State and USAID must ensure that no U.S. assistance facilitates, or gives the perception of facilitating, impunity or immunity for former combatants who engaged in gross violations of human rights.

The Committee intends that gender-related programs will be a top priority of the Governments of the United States and Afghanistan, particularly activities that prioritize women’s participation in political and security processes and programs, and that address gender-based violence. Funds made available by the act for gender programs in Afghanistan shall be made available as grants to Afghan organizations, to the maximum extent practicable.

The Committee urges implementation of the 2015 National Action Plan on Women, Peace, and Security developed by the Government of Afghanistan, and supports funding to enable civil society to monitor its implementation.

Not later than 90 days after enactment of the act, the Secretary of State, in consultation with the USAID Administrator, shall submit a report to the appropriate congressional committees: (1) describing the monitoring and evaluation procedures for programs funded by the act, by agency, including for programs conducted in areas where project and resource disbursement cannot be performed; and (2) assessing the progress by the Government of Afghanistan in meeting the benchmarks contained in the Afghanistan Compact. The report shall be updated and submitted to such committees within 45 days of the submission to the Congress of the President’s fiscal year 2020 budget request

Not later than 90 days after enactment of the act, the Secretary of State, in consultation with the USAID Administrator, shall submit a report to the appropriate congressional committees assessing progress in the preparation by the Government of Afghanistan and international donors to hold legitimate and competitive parliamentary and presidential elections in Afghanistan, and including recommendations for improving such polls.

Pakistan.—The Committee recommends \$112,718,000 for diplomatic operations in Pakistan under the DP heading.

The Committee does not recommend a specific amount under the FMF heading for assistance for Pakistan, which is subject to prior consultation with the Committee.

In submitting the information required in subsection (c)(1)(B), the Secretary of State shall include a description of the steps taken by the Government of Pakistan to: (1) conduct military operations that significantly disrupt the safe havens, fundraising and recruiting efforts, and freedom of movement of domestic and foreign terrorist organizations, including the Haqqani Network, in Pakistan; (2) demonstrate its commitment to prevent domestic and foreign terrorist organizations, including the Haqqani Network, from using any Pakistan territory as a safe haven and for fundraising and recruiting efforts; (3) coordinate with the Government of Afghanistan to restrict the movement of militants, such as the Haqqani Network, along the Afghanistan-Pakistan border; (4) arrest and prosecute senior leaders and mid-level operatives of domestic and foreign terrorist organizations; and (5) prevent the proliferation of nuclear-related materials and expertise.

Subsection (c)(4) of the act continues to withhold from obligation \$33,000,000 of funds made available for assistance for Pakistan under titles III and IV of the act until the Secretary of State reports to the Committee that Dr. Shakil Afridi has been released from prison and cleared of all charges related to the assistance provided to the United States in locating Osama bin Laden.

Subsection (e)(2) requires that funds shall be made available to enhance the recruitment, professionalism, and retention of women in the judiciary, police, and other security forces in South and Central Asia, and the Committee recommends not less than the fiscal year 2018 level for such purposes in Pakistan.

The USAID Administrator shall consult with the Committee on the proposed uses of funds made available by the act for the Pakistan Civilian Assistance Program. As in prior fiscal years, such funds shall be available for assistance for civilians who suffer losses as a result of military operations.

The Committee recommends an additional \$500,000 under the IMET heading above the President’s budget request for assistance for Pakistan, which partially reverses a decrease in prior fiscal year assistance for such purposes resulting from the January 2018 policy decision of the United States to review security assistance for Pakistan.

Sec. 7045. Latin America and the Caribbean.

Central America.—For purposes of subsection (a), the Secretary of State shall work to establish a cost-matching requirement that leverages from governments in Central America \$5 for every \$1 appropriated by the act for implementation of the U.S. Strategy for Engagement in Central America.

The Committee recognizes the importance of private sector investments in El Salvador, Guatemala, and Honduras to sustain the Northern Triangle of Central America's long-term stability and prosperity, and the need for programs to promote the rule of law, accountability, and transparency in such countries as a prerequisite for such investments.

In order to attract such investment, respective governments must more convincingly combat corruption and impunity within their borders and defend private and indigenous property rights and freedom of commerce throughout the region. Government and private sector efforts must be coordinated on: (1) economic growth, including expanding opportunities for entrepreneurship and developing and implementing good governance reforms; (2) job creation; and (3) the reduction of malnutrition, poverty, and migration. The Secretary of State and USAID Administrator, as appropriate, shall encourage the governments of El Salvador, Guatemala, and Honduras to more aggressively engage respective private sectors, as represented through chambers of commerce and business councils, including the U.S.-Guatemala Business Council, on these efforts.

The Committee also recognizes that independent Attorneys General are essential to combating corruption, and recommends funding to support their offices in such countries.

Not later than 90 days after enactment of the act, the Secretary of State, in consultation with the heads of other relevant Federal agencies, shall submit to the appropriate congressional committees an assessment of the extent of grand corruption in El Salvador, Guatemala, and Honduras, including regarding narcotics trafficking and illicit campaign financing. The report shall also include a description of steps taken, and to be taken, to impose sanctions pursuant to the Global Magnitsky Human Rights Accountability Act (22 U.S.C. 2656 note), and senior officials who are known, or credibly alleged, to have committed or facilitated such corruption. The report shall be submitted in unclassified form, but may include a classified annex.

The Committee encourages the Secretary of State to develop new interventions to address drug-related violence and migration in Central America, with an emphasis on promoting positive outcomes for women and children.

The Committee is aware of widespread sexual and gender-based violence [SGBV] in El Salvador, Guatemala, and Honduras and recommends not less than \$12,000,000 for programs in these countries to: (1) create and expand primary and secondary school-based SGBV prevention programming to de-normalize SGBV; (2) enhance the capacity of police, judicial systems, and child protection systems to identify, investigate, and prosecute cases of SGBV through increased personnel, equipment, geographic coverage, and training; and (3) create and expand locally available medical, mental health, and legal services, and shelters for survivors of SGBV in rural and urban areas.

The Committee emphasizes the importance of the Government of Guatemala fulfilling its commitment under the financing agreement for the Chixoy Reparations Plan in a timely manner.

Assistance made available for Guatemala under the DA heading that exceeds the fiscal year 2017 level should be used to support democracy and anti-corruption programs.

Colombia.—The Committee notes that the peace agreement in Colombia provides an opportunity for an alternative to armed conflict that contributed to a culture of violence and impunity, widespread poverty, displacement, and illicit drug trafficking. The Committee is concerned that the increase in assassinations of civil society activists and demobilized combatants in Colombia undermines prospects for peace, and directs the Secretary of State to engage the appropriate Colombian officials to strengthen justice and the rule of law in areas where such killings are taking place.

The Committee directs USAID to assist the Commission for the Elucidation of Truth, Coexistence and Non-Repetition, and the Special Unit for the Search of Persons Considered Disappeared, which require technical assistance and trained investigative personnel.

The Committee notes that none of the funds appropriated by the act or prior acts making appropriations for the Department of State, foreign operations, and related programs for assistance for Colombia may be made available for the Revolutionary Armed Forces of Colombia [FARC] or the National Liberation Army of Colombia, as such entities are designated as FTOs pursuant to section 219 of the Immigration and Nationality Act (8 U.S.C. 1189).

The Committee supports funding: (1) to reduce violence against women and prevent sexual violence as a weapon of armed conflict, including in areas formerly under FARC control; and (2) for Afro-Colombian and indigenous organizations to document cases of such violence and obtain justice for victims.

Projects are to be determined in consultation with the Chief of Mission.

Cuba.—Not later than 90 days after enactment of the act, the Secretary of State shall submit a report to the appropriate congressional committees detailing: (1) the percentage of individuals in Cuba who are able to access the Internet and the infrastructure that would be needed in Cuba to significantly increase that percentage by 2020; (2) the ability of individuals in Cuba, including foreigners, to access data through the use of cell phones and the infrastructure that would be required to bring the capability to access such data to rural and urban areas in Cuba; (3) the impact that universal access to telecommunications technology would have on the development of increased political and economic opportunities in Cuba; and (4) the impact telecommunications development has on improving human rights in Cuba.

El Salvador.—Not later than 45 days after enactment of the act, the Secretary of State shall submit a report to the Committee describing and assessing cooperation by the Government of El Salvador with investigations and prosecutions of those responsible for the 1981 El Mozote massacre.

Haiti.—The Committee remains concerned with overcrowding and inhumane conditions at Haiti's National Penitentiary and other prisons, where most inmates are in pretrial detention. The Committee recommends not less than \$1,900,000 for improvements at the National Penitentiary, especially to meet basic health care needs, and for such improvements at other prisons in Haiti. The

Secretary of State shall consult with the Committee on the planned uses of funds.

The Committee is aware that large amounts of licit and illicit goods enter Haiti from the Dominican Republic and, because of a lack of border controls, are not subject to taxes, fees, or confiscation. This encourages smuggling, harms legitimate businesses in Haiti, and contributes to corruption. Not later than 90 days after enactment of the act, the Secretary of State shall submit to the Committee a plan to help the Government of Haiti address this problem, including through the use of border control infrastructure, technology, and training for border police and customs officials.

Prior to the initial obligation of funds appropriated by the act for assistance for the Government of Haiti, the Secretary of State shall submit a report to the Committee detailing steps taken by such Government, that are in addition to steps taken during the prior calendar year, to: (1) strengthen the rule of law, including by selecting judges in a transparent manner based on merit, reducing pretrial detention, and respecting the independence of the judiciary; (2) improve governance by increasing transparency and accountability and expenditures on public services; and (3) combat corruption.

Mexico.—In order to ensure the effectiveness of U.S. assistance for Mexico, the Secretary of State, in consultation with the USAID Administrator and Government of Mexico, shall submit a report to the Committee not later than 90 days after enactment of the act detailing a multi-year strategy for assistance for Mexico, including metrics for measuring progress. The report shall: (1) include lessons learned from prior investments in support of the Merida Initiative; (2) identify specific goals with realistic timelines; and (3) describe how U.S. assistance will decrease the flow of illicit drugs into the United States, reduce drug-related violence and corruption in Mexico, improve the professionalism and accountability of Mexico's security forces, and enhance judicial independence.

The Committee is aware of an alarming number of incidents, including injury and death, involving U.S. citizens and potentially tainted alcohol at tourist destinations in Mexico, and the lack of transparency and accountability exhibited by local Mexican law enforcement authorities and businesses. Not later than 90 days after enactment of the act, the Secretary of State shall submit a report to the Committee detailing: (1) the factors contributing to these incidents; (2) the scope and quality of assistance and security provided to U.S. citizens by Mexican authorities; and (3) options for strengthening the Department of State's traveler awareness programs and for improving consular operations to more proactively support U.S. citizens in Mexico.

The Committee remains concerned that overdose deaths in the United States related to cocaine and methamphetamine rose by 43 percent between 2015 and 2016, and that the majority of these illicit drugs enter from Mexico. Not later than 45 days after enactment of the act, the Secretary of State shall submit a report to the Committee describing how the Department of State will ensure that Merida Initiative funds are being used comprehensively to reduce illicit drug flows, including cocaine and methamphetamine, into the United States. Georgia.—The Committee remains concerned with continued Russian aggression toward Georgia and efforts to undermine its democratic development, including through the use of hostile propaganda. The Committee underscores support for Georgia’s sovereignty and territorial integrity.

Funds made available by the act for assistance for Georgia that are above the fiscal year 2018 level shall be made available for programs to build the capacity of the Government of Georgia to enter into a bilateral or multilateral free trade agreement with the United States, and to further Georgia’s efforts toward accession to the North Atlantic Treaty Organization.

The Committee recognizes the important role of the U.S. private sector in furthering energy independence in Georgia, particular in the oil and gas sector. The Committee is concerned with reports of an increasingly hostile environment for foreign investment in Georgia that may be encouraged by Russian interests. Funds made available by the act for democracy programs for Georgia shall be

made available for programs to strengthen the rule of law, accountability, and transparency, particularly within the business sector.

Such programs are comprised of interdependent components, including the provision of tools and techniques that enable individuals to use circumvention technology to access and disseminate information; training for activists on protection and detection avoidance; and coordinated civil society efforts to challenge legislation, regulations, and laws that seek to restrict Internet freedom. The Committee is encouraged by the decision to relax restrictions on hiring of Department of State and USAID personnel, but requires specific information on the announcement and future plans with respect to Department of State and USAID personnel levels. The Committee notes that the hiring freeze implemented in January 2017 and maintained until recently was never justified to the Committee and resulted in a significant personnel reduction below previously justified and funded levels.

The Committee reaffirms the important role of Foreign Service and Civil Service personnel in contributing to the national security of the United States as a first line of defense abroad.
