SEC. 1283. GUIDANCE RELATING TO THE MINING SECTOR OF BURMA.

- (a) FINDINGS.—Congress finds the following:
- (1) In 2015, the nongovernmental organization Global Witness estimated that the value of total production of jade in Burma in 2014 was \$31,000,000,000, almost 48 percent of the official gross domestic product of Burma. As much as 80 percent of that jade sold is smuggled out of Burma.
- (2) Burma’s military and associated entities, including companies owned or controlled by Myanmar Economic Corporation and Myanmar Economic Holding Limited, their affiliated companies, and companies owned or controlled by current and former senior military officers or their family members, are linked to the mining sector, including the gemstone industry, and benefit financially from widespread illegal smuggling of jade and rubies from Burma.
- (3) Illegal trafficking in precious and semiprecious stones from Burma, including the trade in high-value jade and rubies, deprives the people of Burma and the civilian government of critical revenue and instead benefits military-linked entities, non-state armed groups, and transnational organized criminal networks.

(4) In 2016, the Government of Burma began to take steps to reform aspects of the mining sector, but the Gemstone Law adopted in January 2019 does not adequately address corruption and tax avoidance, conflicts of interest, or the factors fueling conflict in Kachin State and other gemstone mining areas.

(5) The lifting in October 2016 of United States sanctions on the importation of jade and jadeite and rubies from Burma allowed such gemstones to legally enter the United States market, but some retailers have refrained from sourcing gemstones of Burmese origin due to governance and reputational concerns.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) notwithstanding Burma’s “Trafficking in Persons” ranking, the President should continue to provide assistance to Burma, pursuant to the waiver authority under section 110(d)(4) of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7107(d)(4)), in order to re-engage with the Government of Burma with respect to the mining sector and should make available technical, capacity-building and other assistance through the Department of State or the United States Agency for International Development to support the Government of Burma in efforts to reform the gemstone industry; and

(2) companies that seek to import to the United States gemstones or minerals that may be of Burmese origin or articles of jewelry containing such gemstones should—

(A) obtain such materials exclusively from entities that satisfy the transparency criteria described in subsection (d)(2) or from third parties that can demonstrate that they sourced the materials from entities that meet such criteria; and

(B) undertake robust due diligence procedures in line with the “Due Diligence Guidance for Responsible Business Conduct” and “Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas” promulgated by the Organization for Economic Cooperation and Development.

(c) LIST OF PARTICIPATING WHITE-LIST ENTITIES.—Not later than 120 days after the date of the enactment of this subtitle, and annually thereafter until the date described in subsection (e), the Secretary of State shall submit to the appropriate congressional committees, and publish on a publicly available website, a list of each entity described in subsection (d)(1) that—

(1) participates in Burma’s mining sector;

(2) publicly discloses beneficial ownership, as such term is defined for purposes of the Myanmar Extractive Industry Transparency Initiative (“Myanmar EITI”);

(3) is not owned or controlled, either directly or indirectly, by the Burmese military or security forces, any current or former senior Burmese military officer, or any person sanctioned by the United States pursuant to any relevant sanctions authority; and

(4) is making significant progress toward meeting the criteria described in subsection (d)(2).

(d) ENTITIES AND CRITERIA DESCRIBED.—

(1) ENTITIES DESCRIBED.—The entities described in this subsection are the following:

(A) Entities that produce or process precious and semiprecious gemstones.

(B) Entities that sell or export precious and semiprecious gemstones from Burma or articles of jewelry containing such gemstones.

(2) CRITERIA DESCRIBED.—The criteria described in this subsection are the following:

(A) The entity publicly discloses any politically exposed persons, officers, directors or beneficial owners, as defined under the Myanmar EITI.

(B) The entity publicly discloses valid authorization, license, or permit to produce, process, sell, or export minerals or gemstones, as applicable.

(C) The entity publicly discloses payments to the Government of Burma, including tax and non-tax, license, or royalty payments, and other payments or contract terms as may be required under Myanmar EITI standards.

(D) The entity undertakes due diligence, in line with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, including public reporting.

(e) PERIODIC UPDATING.—The Secretary shall periodically update the publicly available version of the list described in subsection (c) as appropriate.

(f) GUIDANCE AND WHITE-LIST ENTITIES.—The Secretary shall issue guidance for entities in the United States private sector with respect to the best practices for supply-chain due diligence that are applicable to importation of gemstones or minerals that may be of Burmese origin or articles of jewelry containing such gemstones, including with respect to transactions with entities approved for inclusion in the list published pursuant subsection (c), in order to mitigate potential risks and legal liabilities associated with the importation of such items.

(g) TERMINATION.—The date described in this section is the date on which the President certifies to the appropriate congressional committees that the Government of Burma has taken substantial measures to reform the mining sector in Burma, including the following:

(1) Require the mandatory disclosure of payments, permit and license allocations, project revenues, contracts, and beneficial ownership, including the identification any politically exposed persons who are beneficial owners, consistent with the approach agreed under the Myanmar EITI and with due regard for civil society participation.

(2) Separate the commercial, regulatory, and revenue collection responsibilities within the Myanmar Gems Enterprise and other key state-owned enterprises to remove existing conflicts of interest.

(3) Monitor and undertake enforcement actions, as warranted, to ensure that entities—

(A) adhere to environmental and social impact assessment and management standards in accordance with international responsible mining practices, the country's envi-

ronmental conservation law, and other applicable laws and regulations; and

(B) uphold occupational health and safety standards and codes of conduct that are aligned with the core labor standards of the International Labour Organisation and with domestic law.

(4) Address the transparent and fair distribution of benefits from natural resources, including through local benefit-sharing.

(5) Reform the process for valuation of gemstones at the mine-site, including developing an independent valuation system to prevent undervaluation and tax evasion.

(6) Require companies bidding for jade and ruby mining, finishing, or export permits to be independently audited upon the request of the Government of Burma and making the results of all such audits public.

(7) Establish credible and transparent procedures for permit allocations that are independent from external influence, including scrutiny of applicants that prevents unscrupulous entities from gaining access to concessions or the right to trade in minerals or gemstones.

(8) Establish effective oversight of state-owned enterprises operating in such sector, including through parliamentary oversight or requirements for independent financial auditing.

SEC. __. PROHIBITION ON USE OF FUNDS FOR SHORTER- OR INTERMEDIATE-RANGE GROUND LAUNCHED BALLISTIC OR CRUISE MISSILE SYSTEMS.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) Secretary of State Mike Pompeo’s February 1, 2019, announcement of the decision of the United States to withdraw from the INF Treaty, without proper consultation with Congress, is a serious breach of Congress’s proper constitutional role as a co-equal branch of government;

(2) United States withdrawal from the INF Treaty will free Russia to deploy greater quantities of the SSC–8 missile to the detriment of United States national security and that of our allies in Europe and the Indo-Pacific region;

(3) the North Atlantic Treaty Organization (NATO) alliance makes critical contributions to United States national security, and the failure to weigh the concerns of NATO allies risks weakening the joint resolve necessary to counter Russia’s aggressive behavior;

(4) as opposed to withdrawing from the INF Treaty, the United States should continue to advance other diplomatic, economic, and military measures outlined in the “Trump Ad-

ministration INF Treaty Integrated Strategy” to resolve the concerns related to Russia’s violation of the INF Treaty and to reach agreement on measures to ensure the INF Treaty’s future viability; and

(5) further, in lieu of withdrawing from the INF Treaty, the United States should look at options to expand arms control treaties to include China in an effort to limit its short- and intermediate-range missiles.

(b) PROHIBITION.—None of the funds authorized to be appropriated by this Act or otherwise made available for the Department of Defense for fiscal year 2020 may be made available for the research, development, testing, evaluation, procurement, or deployment of a United States shorter- or intermediate-range ground launched ballistic or cruise missile system with a range between 500 and 5,500 kilometers until the following has been submitted to the appropriate committees of Congress:

46. AN AMENDMENT TO BE OFFERED BY REPRESENTATIVE HUFFMAN OF CALIFORNIA OR HIS DESIGNEE, DEBATABLE FOR 10 MINUTES

At the end of subtitle H of title X, insert the following:

SEC. ____ . LANDS TO BE TAKEN INTO TRUST AS PART OF THE RESERVATION OF THE LYTTON RANCHERIA.

(a) FINDINGS.—Congress finds the following:

(1) The Lytton Rancheria of California is a federally recognized Indian tribe that lost its homeland after its relationship to the United States was unjustly and unlawfully terminated in 1958. The Tribe was restored to Federal recognition in 1991, but the conditions of its restoration have prevented it from regaining a homeland on its original lands.

(2) Congress needs to take action to reverse historic injustices that befell the Tribe and that have prevented it from regaining a viable homeland for its people.

(3) Prior to European contact there were as many as 350,000 Indians living in what is now the State of California. By the turn of the 19th century, that number had been reduced to approximately 15,000 individuals, many of them homeless and living in scattered bands and communities.

(4) The Lytton Rancheria's original homeland was purchased by the United States in 1926 pursuant to congressional authority designed to remedy the unique tragedy that befell the Indians of California and provide them with reservations called Rancherias to be held in trust by the United States.

(5) After the Lytton Rancheria lands were purchased by the United States, the Tribe settled on the land and sustained itself for several decades by farming and ranching.

(6) By the mid-1950s, Federal Indian policy had shifted back towards a policy of terminating the Federal relationship with Indian tribes. In 1958, Congress enacted the Rancheria Act of 1958 (72 Stat. 619), which slated 41 Rancherias in California, including the Lytton Rancheria, for termination after certain conditions were met.

(7) On August 1, 1961, the Federal Government terminated its relationship with the Lytton Rancheria. This termination was illegal because the conditions for termination under the Rancheria Act had never been met. After termination was implemented, the Tribe lost its lands and was left without any means of supporting itself.

(8) In 1987, the Tribe joined three other tribes in a lawsuit against the United States challenging the illegal termination of their Rancherias. A Stipulated Judgment in the case, *Scotts Valley Band of Pomo Indians of the Sugar Bowl Rancheria v. United States*, No. C-86-3660 (N.D.Cal. March 22, 1991), restored the Lytton Rancheria to its status as a federally recognized Indian tribe.

(9) The Stipulated Judgment provides that the Lytton Rancheria would have the “individual and collective status and rights” which it had prior to its termination and expressly contemplated the acquisition of trust lands for the Lytton Rancheria.

(10) The Stipulated Judgment contains provisions, included at the request of the local county governments and neighboring landowners, that prohibit the Lytton Rancheria from exercising its full Federal rights on its original homeland in the Alexander Valley.

(11) In 2000, approximately 9.5 acres of land in San Pablo, California, was placed in trust status for the Lytton Rancheria for economic development purposes.

(12) The Tribe has since acquired, from willing sellers at fair market value, property in Sonoma County near the Tribe’s historic Rancheria. This property, which the Tribe holds in fee status, is suitable for a new homeland for the Tribe.

(13) On a portion of the land to be taken into trust, which portion totals approximately 124.12 acres, the Tribe plans to build housing for its members and governmental and community facilities.

(14) A portion of the land to be taken into trust is being used for viniculture, and the Tribe intends to develop more of the lands to be taken into trust for viniculture. The Tribe’s investment in the ongoing viniculture operation has reinvigorated the vineyards, which are producing high-quality wines. The Tribe is operating its vineyards on a sustainable basis and is working toward certification of sustainability.

(15) No gaming shall be conducted on the lands to be taken into trust by this section.

(16) No gaming shall be conducted on any lands taken into trust on behalf of the Tribe in Sonoma County after the date of the enactment of this Act.

(17) By directing that these lands be taken into trust, the United States will ensure that the Lytton Rancheria will finally have a permanently protected homeland on which the Tribe can once again live communally and plan for future generations. This action is necessary to fully restore the Tribe to the status it had before it was wrongfully terminated in 1961.

(18) The Tribe and County of Sonoma have entered into a Memorandum of Agreement as amended in 2018 in which the County agrees to the lands in the County being taken into trust for the benefit of the Tribe in consideration for commitments made by the Tribe.

(b) DEFINITIONS.—For the purpose of this section, the following definitions apply:

(2) LANDS TO BE MADE PART OF THE RESERVATION.—Lands taken into trust under paragraph (1) shall be part of the Tribe’s reservation and shall be administered in accordance with the laws and regulations generally applicable to property held in trust by the United States for an Indian tribe.

At the end of subtitle C of title XII, insert the following:

SEC. 12 ____ . SENSE OF CONGRESS ON SUPPORTING THE RETURN AND REPATRIATION OF RELIGIOUS AND ETHNIC MINORITIES IN IRAQ TO THEIR ANCESTRAL HOMELANDS.

(a) FINDINGS.—Congress finds that—

- (1) the Nineveh Plain and the wider region have been the ancestral homeland of Assyrian Chaldean Syriac Christians, Yazidis, Shabak, and other religious and ethnic minorities, where they lived for centuries until the Islamic State of Iraq and Syria (ISIS) overran and occupied the area in 2014;
- (2) in 2016, then-Secretary of State John Kerry announced, “In my judgment Daesh is responsible for genocide against groups in areas under its control, including Yezidis, Christians, and Shia Muslims. Daesh is genocidal by self-proclamation, by ideology, and by actions—in what it says, what it believes, and what it does. Daesh is also responsible for crimes against humanity and ethnic cleansing directed at these same groups and in some cases also against Sunni Muslims, Kurds, and other minorities.”;
- (3) these atrocities were undertaken with the specific intent to bring about the eradication and displacement of Christians, Yazidis, and other communities and the destruction of their cultural heritage, in violation of the United Nations Convention on the Prevention and Punishment of the Crime of Genocide signed by the United States on December 11, 1948;
- (4) in 2016, the House of Representatives passed H. Con. Res. 75 expressing the sense of the House of Representatives that the atrocities perpetrated by ISIS against religious and ethnic minorities in Iraq and Syria include war crimes, crimes against humanity, and genocide;
- (5) through joint efforts of the United States and 79 allies and partners, ISIS has been territorially defeated in Iraq and Syria;
- (6) in July 2018, under the direction of Vice President Pence, the Genocide Recovery and Persecution Response Program partnered with the Department of State, the United States Agency for International Development, and local faith and community leaders to rapidly and directly deliver aid to persecuted communities, beginning with Iraq;
- (7) Christians in Iraq once numbered over 1.5 million in 2003 and have dwindled to less than 200,000 today;

(8) armed militia groups linked to Iran, operating systematically in Sinjar and the Nineveh Plains, have harassed and intimidated religious and ethnic minorities thereby destabilizing northern Iraq and preventing local and indigenous minorities to return to their homelands;

(9) Iraqi religious minorities have faced challenges in integrating into the Iraqi Security Forces and Kurdish Peshmerga;

(10) over 500 acres of productive agricultural lands in eastern Ninevah Governate have been burned in cases of arson in May 2019 alone, destroying significant wheat and barley cultivation areas;

(11) these agricultural resources are critical to northern Iraq's livelihood, especially that of minority populations, and continued crop arson prevents safe and prosperous return of minority populations as well as complicates stabilization efforts; and

(12) facilitating the success of communities in Sinjar and the Nineveh Plains requires a commitment from international, Iraqi, Kurdish, and local authorities, in partnership with local faith leaders, to promote the safety and security of all people, especially religious and ethnic minorities.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) it should remain a policy priority of the United States, working with international partners, the Government of Iraq, the Kurdistan Regional Government, and local populations, to support the safe return of displaced indigenous people of the Nineveh Plain and Sinjar to their ancestral homeland;

(2) it should be a policy priority of the Government of Iraq, the Kurdistan Regional Government, the United States, and the international community to guarantee the restoration of fundamental human rights, including property rights, to genocide victims, and to see that ethnic and religious pluralism survives in Iraq;

(3) Iraqi Security Forces and the Kurdish Peshmerga should work to more fully integrate all communities, including religious minority communities, to counter current and future terrorist threats; and

(4) the United States, working with international allies and partners, should continue to lead coordination of efforts to provide for the safe return and future security of religious minorities in the Nineveh Plain and Sinjar.

Page 733, after line 15, insert the following new section:

SEC. 1092. SENSE OF CONGRESS REGARDING MILITARY WORKING DOGS AND SOLDIER HANDLERS.

(a) CONGRESSIONAL FINDINGS.—The Congress finds that—

(1) the 341st Training Squadron, 37th Training Wing at Lackland Air Force Base provides highly trained military working dogs to the Department of Defense and other government agencies;

(2) in 2010, the operational needs of the Army for military working dogs increased without an increase in resources to train a sufficient number of dogs for the detection of improvised explosive devices at the 341st Training Squadron;

(3) the Army initiated the tactical explosive detection dog program in August 2010 as a nontraditional military working dog program to train and field improvised explosive device detection dogs for use in Afghanistan as part of Operation Enduring Freedom;

(4) the tactical explosive detection dog program was created to reduce casualties from improvised explosive devices in response to an increase in the use of asymmetric weapons by the enemy;

(5) the tactical explosive detection dogs were a unique subset of military working dogs because the Army selected and trained soldiers from deploying units to serve as temporary handlers for only the duration of deployment to Operation Enduring Freedom;

(6) the tactical explosive detection dogs and their soldier handlers, like other military working dog and handler teams, formed strong bonds while training for combat and performing extremely dangerous improvised explosive device detection missions in service to the United States;

(7) the tactical explosive detection dog program was a nontraditional military working dog program that terminated in February 2014;

(8) at the termination of the tactical explosive detection dog program in February 2014, neither United States law nor Department of Defense policy established an adoption order priority, and Department of Defense policy only provided that military working dogs be adopted by former handlers, law enforcement agencies, and other persons capable of humanely caring for the animals;

(9) an August 2016 report to Congress by the Air Force entitled “Tactical Explosive Detector Dog (TEDD) Adoption Report” concluded that the Army had a limited transition window for the disposition of tactical explosive detection dogs and the lack of a formal comprehensive plan contributed to the disorganized disposition process for the tactical explosive detection dogs;

(10) the August 2016 report stated that, in 2014, the Army disposed of 229 tactical explosive detection dogs;

(11) 40 tactical explosive detection dogs were adopted by handlers, 47 dogs were adopted by private individuals, 70 dogs

were transferred to Army units, 17 dogs were transferred to other government agencies, 46 dogs were transferred to law enforcement agencies, and 9 dogs were deceased;

(12) the disposition of tactical explosive detection dogs was poorly executed, proper procedures outlined in Department of Defense policy were ignored, and, as a result, the former soldier handlers were not provided the opportunity to adopt their tactical explosive detection dogs;

(13) the Army should have deliberately planned for the disposition of the tactical explosive detection dogs and provided appropriate time to review and consider adoption applications to mitigate handler and civilian adoption issues;

(14) section 342(b) of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114-92; 129 Stat. 793) amended section 2583(c) of title 10, United States Code, to modify the list of persons authorized to adopt a military animal and prioritize the list with preference, respectively, to former handlers, other persons capable of humanely caring for the animal, and law enforcement agencies;

(15) since 2000, Congress has passed legislation that protects military working dogs, promotes their welfare, and recognizes the needs of their veteran handlers;

(16) Congress continues to provide oversight of military working dogs to prevent a reoccurrence of the disposition issues that affected tactical explosive detection dogs;

(17) former soldier handlers should be reunited with their tactical explosive detection dogs;

(18) congressional recognition of the military service of tactical explosive detection dogs and their former soldier handlers is a small measure of gratitude this legislative body can convey;

(19) over 4 years have passed since the termination of the tactical explosive detection dog program;

(20) Congressman Walter B. Jones has been a long-time advocate for military working dogs and their handlers;

(21) Congressman Walter B. Jones has worked to ensure that handlers are given priority when their military working dogs reach retirement;

(22) Congressman Walter B. Jones was a strong proponent of the Wounded Warrior Service Dog program, which is a valuable program that helps wounded members of the Armed Forces manage and recover from post-traumatic stress;

(23) the advocacy of Congressman Walter B. Jones for military working dogs is well known throughout the nonprofit community that supports military working dogs;

(24) Congressman Walter B. Jones worked with the Department of Defense and the Senate to update the language in the Air Force Manual on Military Working Dogs to clarify that military working dogs are not equipment and to indicate the true level of appreciation and respect the Department of Defense has for these valuable members of the military team;

(25) Congressman Walter B. Jones was the chief legislative sponsor of the Military Working Dog Teams Monument, which was built with no taxpayer dollars but through corporate and private donations; and

(26) with the support of Congressman Walter B. Jones, the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–181) authorized the Burnam Foundation to design, fund, build, and maintain the Military Working Dog Teams National Monument.

(b) SENSE OF CONGRESS.—It is the sense of Congress to—

(1) recognize the efforts of Congressman Walter B. Jones to promote military working dogs as unsung heroes on the battlefield and in helping wounded warriors recover from physical and mental injuries;

(2) recognize the service of military working dogs and soldier handlers from the tactical explosive detection dog program;

(3) acknowledge that not all tactical explosive detection dogs were adopted by their former soldier handlers;

(4) encourage the Army and other government agencies, including law enforcement agencies, with former tactical explosive detection dogs to prioritize adoption to former tactical explosive detection dog handlers; and

(5) honor the sacrifices made by tactical explosive detection dogs and their soldier handlers in combat.

At the end of subtitle G of title X, insert the following:

SEC. 10 ____ . PLAN TO INCREASE AND EXPAND COLD WEATHER TRAINING.

(a) FINDINGS.—Congress makes the following findings:

(1) The strategic importance of the Arctic continues to increase as the United States and other countries recognize the military and economic importance of the region. However, the operational capabilities of the United States Armed Forces in extreme cold weather or Arctic environments have atrophied when compared to regional adversaries.

(2) The 2018 national defense strategy stated “The central challenge to U.S. prosperity and security is the reemergence of

long-term, strategic competition by what the National Security Strategy classifies as revisionist powers.”

(3) The Government of the Russian Federation—

(A) has made significant military investments in the Arctic, including the creation of an Arctic Command, the Northern Fleet Joint Strategic Command;

(B) has emplaced an Air Defense Missile Regiment throughout the Arctic;

(C) has invested in the construction or refurbishment of 16 deepwater ports and 14 airfields in the region and has conducted significant military exercises.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Arctic is a region of strategic importance to the national security interests of the United States and the Department of the Army must increase and expand its cold weather training capabilities to ensure that United States Armed Forces can operate in Arctic conditions necessary to compete against a near peer adversary and to execute the national defense strategy of the United States.

(c) ASSESSMENT REQUIRED.—The Secretary of the Army shall—

(1) conduct an assessment of cold weather training requirements in light of increased operations and vulnerability to great power competition in the Arctic; and

(2) develop a plan to increase and expand cold weather training opportunities.

(d) ELEMENTS.—In conducting the assessment and developing the plan as required under subsection (c), the Secretary shall—

(1) assess all existing cold weather training requirements to include requirements for extreme cold, or Arctic conditions;

(2) identify capability gaps in confronting adversaries in the Arctic that can be addressed by increased and improved training;

(3) make recommendations for strengthening and improving those training requirements and mitigation measures needed to address the capabilities gaps necessary to confront adversaries;

(4) assess existing cold weather training sites;

(5) consider steps necessary to increase student capacity at such sites;

(6) consider manpower and supply requirements, including cadre needed to support increased student capacity; and

(7) address any other matters the Secretary of the Army considers relevant.

(e) SUBMITTAL TO CONGRESS.—Not later than 180 days after the date of the enactment of this Act, the Secretary of the Army shall submit to the Committees on Armed Services of the Senate and the House of Representatives the plan required by subsection (c).

407. AN AMENDMENT TO BE OFFERED BY REPRESENTATIVE YOUNG OF ALASKA OR HIS DESIGNEE, DEBATABLE FOR 10 MINUTES

At the end of subtitle E of title XII, add the following:

SEC. __. CHINESE FOREIGN DIRECT INVESTMENT IN COUNTRIES OF THE ARCTIC REGION.

(a) FINDINGS.—Congress finds the following:

(1) China is projecting a physical presence in the Arctic through upgrading to advanced icebreakers, utilizing the Arctic Ocean more regularly through subsidizing arctic shipping, deploying unmanned ice stations, and engaging in large and sophisticated data collection efforts in countries of the Arctic region, including Iceland, Greenland, and Canada.

(2) The 2017 Center for Naval Analysis (CNA) report “Unconstrained Foreign Direct Investment: An Emerging Challenge to Arctic Security” concluded that China has been actively engaged in economies of countries of the Arctic region.

(3) The CNA report documented a pattern of strategic investment by China in the economies of countries of the Arctic region, including the United States, Canada, Greenland, Iceland, Norway, and Russia, in areas such as raw land, oil and gas, minerals, and infrastructure.

(4) Chinese investments in countries of the Arctic region are significant. For instance, Chinese foreign direct investment constituted nearly 12 percent of Greenland’s gross domestic product for the period from 2012 to 2017.

(5) China’s 2018 Arctic Policy White Paper documented the Chinese intent to create a “Polar Silk Road” in the Arctic.

(6) China’s “Polar Silk Road” is an extension of China’s Belt and Road Initiative (BRI).

(7) China is increasingly using the BRI as the impetus for increasing People’s Liberation Army deployments to regions where China has significant investments, primarily through BRI.

(8) China has demonstrated an interest in using BRI to gain military access to strategic regions.

(9) Understanding how China’s foreign direct investment in countries of the Arctic region affects such countries is critical to understanding the degree to which China is able to access the region.

(b) INDEPENDENT STUDY.—

(1) IN GENERAL.—Not later than 45 days after the date of enactment of this Act, the Secretary of Defense shall seek to enter into a contract with a federally-funded research and development center described in paragraph (2) to complete an independent study of Chinese foreign direct investment in countries of the Arctic region, with a focus on the effects of such foreign direct investment on United States national security and near-peer competition in the Arctic region.

 - (B) an assessment of the degree to which there is transparency in Chinese foreign direct investment in countries of the Arctic region;
 - (C) an assessment of the criteria used to assess potential Chinese foreign direct investment in countries of the Arctic region;
 - (D) an assessment of the efficacy of methods for monitoring approved Chinese foreign direct investment in countries of the Arctic region; and
 - (E) an assessment of public reporting of the decision to approve such Chinese foreign direct investment.
- (3) A comparison of Chinese foreign direct investment in countries of the Arctic region to other countries with major investments in such countries, including India, Japan, South Korea, the Netherlands, and France.
- (4) An assessment of the environmental impact of past Chinese investments in oil and gas, mineral, and infrastructure projects in the Arctic region, including the degree to which Chinese investors are required to comply with local environmental laws and post bonds to assure remediation if a project becomes bankrupt.
- (5) A review of the 2018 Chinese Arctic Policy and other relevant public and nonpublic Chinese policy documents to determine the following:
- (A) China's strategic objectives in the Arctic region from a military, economic, territorial, and political perspective.
 - (B) China's goals in the Arctic region with respect to its relations with the United States and Russia, including the degree to which activities of China in the region are an extension of China's strategic competition with the United States.
 - (C) Whether any active or planned infrastructure investments are likely to result in a regular presence of Chinese military vessels or the establishment of military bases in the Arctic region.
 - (D) The extent to which Chinese research activities in the Arctic region are a front for economic activities, includ-

ing illegal economic espionage, intelligence gathering, and support for future Chinese military activities in the region.

(E) The degree to which Arctic littoral states are susceptible to the political and economic risks of unregulated foreign direct investment.

(F) The vulnerability of semi-autonomous regions, such as tribal lands, to Chinese foreign direct investment, including the influence of legal controls and political or economic manipulation with respect to such vulnerability.

(G) The implications of China's Arctic development and participation model with respect to forecasting China's military, economy, territorial, and political activities.

(6) Policy and legislative recommendations to enhance the position of the United States in affairs of the Arctic region, including—

(A) recommendations for how the United States would best interact with nongovernmental organizations such as the World Bank, Arctic Council, United Nations General Assembly, and International Maritime Organization;

(B) recommendation to pursue or not pursue the formation of an Arctic Development Bank and, if pursued, how to organize, fund, and operate the bank;

(C) measures the United States can take to promote regional governance and eliminate the soft-power influence from Chinese foreign direct investment, in particular, steps where the United States and Russia should cooperate; and

(D) the possibility of negotiating a regional arrangement to regulate foreign direct investment in countries of the Arctic region.

(d) REPORT TO DEPARTMENT OF DEFENSE.—Not later than 720 days after the date of the enactment of this Act, the federally-funded research and development center with respect to which the Secretary of Defense has entered into a contract under subsection (b) shall submit to the Secretary a report containing the study under subsections (b) and (c).

TITLE XVII—SANCTIONS WITH RESPECT TO FOREIGN TRAFFICKERS OF ILLICIT SYNTHETIC OPIOIDS

SEC. 1701. SHORT TITLE.

This title may be cited as the “Fentanyl Sanctions Act”.

SEC. 1702. FINDINGS.

Congress makes the following findings:

(1) The Centers for Disease Control and Prevention estimate that from September 2017 through September 2018 more than 48,200 people in the United States died from an opioid overdose, with synthetic opioids (excluding methadone), contributing to a record 31,900 overdose deaths. While drug overdose death estimates from methadone, semi-synthetic opioids, and heroin have decreased in recent months, overdose deaths from synthetic opioids have continued to increase.

(2) Congress and the President have taken a number of actions to combat the demand for illicit opioids in the United States, including enacting into law the SUPPORT for Patients and Communities Act (Public Law 115–271; 132 Stat. 3894). While new statutes and regulations have reduced the rate of opioid prescriptions in recent years, fully addressing the United States opioid crisis will involve dramatically restricting the foreign supply of illicit opioids.

(3) The People’s Republic of China is the world’s largest producer of illicit fentanyl, fentanyl analogues, and their imme-

ciate precursors. From the People's Republic of China, those substances are shipped primarily through express consignment carriers or international mail directly to the United States, or, alternatively, shipped directly to transnational criminal organizations in Mexico, Canada, and the Caribbean.

(4) The United States and the People's Republic of China, Mexico, and Canada have made important strides in combating the illicit flow of opioids through bilateral efforts of their respective law enforcement agencies.

(5) The objective of preventing the proliferation of illicit opioids through existing multilateral and bilateral initiatives requires additional efforts to deny illicit actors the financial means to sustain their markets and distribution networks.

(6) The implementation on May 1, 2019, of the regulations of the People's Republic of China to schedule all fentanyl analogues as controlled substances is a major step in combating global opioid trafficking and represents a major achievement in United States-China law enforcement dialogues. However, that step will effectively fulfill the commitment that President Xi Jinping of the People's Republic of China made to President Donald Trump at the Group of Twenty meeting in December 2018 only if the Government of the People's Republic of China devotes sufficient resources to full implementation and strict enforcement of the new regulations. The effective enforcement of the new regulations should result in diminished trafficking of illicit fentanyl originating from the People's Republic of China into the United States.

(7) While the Department of the Treasury used the Foreign Narcotics Kingpin Designation Act (21 U.S.C. 1901 et seq.) to sanction the first synthetic opioid trafficking entity in April 2018, additional economic and financial sanctions policy tools are needed to help combat the flow of synthetic opioids into the United States.

SEC. 1703. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States should apply economic and other financial sanctions to foreign traffickers of illicit opioids to protect the national security, foreign policy, and economy of the United States and the health of the people of the United States;

(2) it is imperative that the People's Republic of China follow through on full implementation of the new regulations, adopted May 1, 2019, to treat all fentanyl analogues as controlled substances under the laws of the People's Republic of China, including by devoting sufficient resources for implementation and strict enforcement of the new regulations; and

(3) the effective enforcement of the new regulations should result in diminished trafficking of illicit fentanyl originating from the People's Republic of China into the United States.

Subtitle I—North Korea Nuclear Sanctions

SEC. 1092. SHORT TITLE.

This subtitle may be cited as the “Otto Warmbier North Korea Nuclear Sanctions Act of 2019”.

SEC. 1093. FINDINGS.

The Congress finds the following:

- (1) On June 1, 2016, the Department of the Treasury’s Financial Crimes Enforcement Network announced a Notice of Finding that the Democratic People’s Republic of Korea is a jurisdiction of primary money laundering concern due to its use of state-controlled financial institutions and front companies to support the proliferation and development of weapons of mass destruction (WMD) and ballistic missiles.
- (2) The Financial Action Task Force (FATF) has expressed serious concerns with the threat posed by North Korea’s proliferation and financing of WMD, and has called on FATF members to apply effective counter-measures to protect their financial sectors from North Korean money laundering, WMD proliferation financing, and the financing of terrorism.
- (3) In its February 2017 report, the U.N. Panel of Experts concluded that—
 - (A) North Korea continued to access the international financial system in support of illicit activities despite sanctions imposed by U.N. Security Council Resolutions 2270 (2016) and 2321 (2016);
 - (B) during the reporting period, no member state had reported taking actions to freeze North Korean assets; and
 - (C) sanctions evasion by North Korea, combined with inadequate compliance by member states, had significantly negated the impact of U.N. Security Council resolutions.
- (4) In its September 2017 report, the U.N. Panel of Experts found that—
 - (A) North Korea continued to violate financial sanctions by using agents acting abroad on the country’s behalf;
 - (B) foreign financial institutions provided correspondent banking services to North Korean persons and front companies for illicit purposes;
 - (C) foreign companies violated sanctions by maintaining links with North Korean financial institutions; and

(D) North Korea generated at least \$270 million during the reporting period through the violation of sectoral sanctions.

(5) North Korean entities engage in significant financial transactions through foreign bank accounts that are maintained by non-North Korean nationals, thereby masking account users' identity in order to access financial services.

(6) North Korea's sixth nuclear test on September 3, 2017, demonstrated an estimated explosive power more than 100 times greater than that generated by its first nuclear test in 2006.

(7) On February 23, 2018 the Department of the Treasury announced its largest-ever set of North Korea-related sanctions, with a particular focus on shipping and trading companies, and issued a maritime advisory to highlight North Korea's sanctions evasion tactics. On May 9, 2019, the United States seized a North Korean ship, the *Wise Honest*, which had previously been detained by Indonesia for carrying coal in violation of United Nations sanctions.

(8) According to the March 2019 Final Report of the U.N. Panel of Experts, "The nuclear and ballistic missile programmes of the Democratic People's Republic of Korea remain intact and the country continues to defy Security Council resolutions through a massive increase in illegal ship-to-ship transfers of petroleum products and coal. These violations render the latest United Nations sanctions ineffective by flouting the caps on the import of petroleum products and crude oil by the Democratic People's Republic of Korea as well as the coal ban, imposed in 2017 by the Security Council in response to the country's unprecedented nuclear and ballistic missile testing."

(9) The U.N. Panel of Experts further concluded: "Financial sanctions remain some of the most poorly implemented and actively evaded measures of the sanctions regime. Individuals empowered to act as extensions of financial institutions of the Democratic People's Republic of Korea operate in at least five countries with seeming impunity."

(10) North Korea has successfully tested short-range, submarine-launched, and intercontinental ballistic missiles, and is rapidly progressing in its development of a nuclear-armed missile that is capable of reaching United States territory.

(1) The Authorization for Use of Military Force (referred to in this section as the “2001 AUMF”) (Public Law 107-40; 50 U.S.C. 1541 note) was passed by Congress in 2001 after the terrorist attacks of September 11, 2001, to authorize the use of force against those responsible for the attacks of September 11, 2001.

(2) The 2001 AUMF is one of the only modern authorizations for the use of force in the history of the United States that included no limitation in time, geography, operations, or a named enemy.

(4) Article 1, Section 8 of the Constitution provides Congress with the sole authority to “declare war”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the use of the 2001 AUMF has been well beyond the scope that Congress initially intended when it was passed on September 14, 2001;

(2) nearly 18 years after the passage of the 2001 AUMF, it has served as a blank check for any President to wage war at any time and at any place; and

(3) any new authorization for the use of military force that replaces the 2001 AUMF should include—

(A) a sunset clause and timeframe within which Congress should revisit the authority provided in the new authorization for use of military force;
