MARCH 26, 2019.—Referred to the House Calendar and ordered to be printed

Ms. LOFGREN, from the Committee on House Administration, submitted the following

R E P O R T

[To accompany H. Res. 245]

The Committee on House Administration, to whom was referred the resolution (H. Res. 245) providing for the expenses of certain committees of the House of Representatives in the One Hundred Sixteenth Congress, having considered the same, report favorably thereon without amendment and recommend that the resolution be agreed to.

BACKGROUND AND NEED FOR THE RESOLUTION

Pursuant to House rule X, clause 6, the Committee on House Administration (hereinafter referred to as the “Committee”) reports an omnibus, biennial “primary expense resolution” to cover the expenses of each standing, permanent select and select committee of the House, except the Committee on Appropriations. H. Res. 245 is the primary expense resolution reported by the Committee on House Administration for the 116th Congress.

On March 25, 2019, by voice vote, the Committee agreed to a motion to report H. Res. 245 favorably to the House without amendment.

The resolution authorizes the aggregate amount of funding for standing, permanent select, and select committees for the 116th Congress, and also includes a provision to require a review of the use of committee funds at the beginning of the second session of the 116th Congress.

To gather the information necessary to create the omnibus primary expense resolution, the Committee required the standing, permanent select, and select committees to submit estimates for their expected expenses for both sessions of the 116th Congress.

The Committee asked that committees provide line item estimates for the following expenses: personnel compensation (including salaries and lump sum payments), overtime, travel, communications, and printing and reproduction costs.

The Committee also requested that committees estimate their expenses for other services, including consultant contracts, detailees from executive and other agencies, training, representational expenses, and other services. Finally, the Committee requested budget estimates for the costs of supplies, materials, and equipment.

After the hearing, the Committee used the budget submissions and Member testimony to create an omnibus expense resolution, introduced by Chairperson Lofgren, to authorize funding for all of the committees. The resolution includes a provision to require the Chairs and Ranking Members to return to the Committee after one year for an additional oversight hearing to review the use of funds from the first session, unless waived by the Committee. These proceedings will be open to the public and will provide an opportunity to discover how effectively and efficiently funding allocations are being used. The provision is intended to promote accountability, transparency, and oversight of each committee's resources.

Since the 104th Congress, House majority leadership and the Chair and Ranking Member of the Committee have encouraged the Chairs of the standing and permanent select committees to provide the minority with one-third of committee staff and/or resources authorized in the primary expense resolutions. Chairs were asked to specify in their budget request submissions how resources are allocated between the majority and minority within their committee. Based on the responses from the Chairs, all the standing and permanent select committees where appropriate are in compliance with the traditional "two-third/one-third" distribution of funds among majority and minority.

In reporting out this resolution, the committee is recommending to the House an authorization to expend approximately \$138,575,734 in the first session, and \$143,463,234 in the second session. The resolution also includes a reserve fund for unanticipated expenses of \$1,500,000 in the first session and \$6,500,000 in the second session.
