MINORITY VIEWS

INTRODUCTION

In January 2018, Representative Robert C. “Bobby” Scott (VA), the new Chair of the House Committee on Education and Labor (Committee), promised to work towards an America where everyone can succeed, not just the wealthy few.

During the 116th Congress, the Committee—with the leadership of Early Childhood, Elementary, and Secondary Education Subcommittee Chair Gregorio Kilili Camacho Sablan (Northern Mariana Islands), Higher Education and Workforce Investment Subcommittee Chair Susan A. Davis (CA), Health, Employment, Labor, and Pensions Subcommittee Chair Frederica S. Wilson (FL), Workforce Protections Subcommittee Chair Alma S. Adams (NC), and Civil Rights and Human Services Subcommittee Chair Suzanne Bonamici (OR)—delivered on that promise by restoring regular order and following research and evidence to improve the lives of children, students, workers, and retirees.

In total, the Committee held 62 hearings and 14 virtual briefings and passed 41 evidence-based bills—through regular order, on the suspension calendar, or by unanimous consent—to realize equity in education, achieve safe and inclusive workplaces where workers can earn a livable wage and collectively bargain, and expand access to affordable health care.

Equity in Education

After eight years of Republican leadership, the Committee re-dedicated itself to addressing equity in public education. The Committee held its first hearing on school desegregation in nearly three decades and passed legislation to confront the racial and economic resegregation of public schools. The Committee also reported out legislation to ensure every student has access to a college degree or certificate.

The Reopen and Rebuild America's Schools Act of 2020 (H.R. 2) invests in repairing crumbling school infrastructure at high-poverty public schools and creates 1.9 million jobs. Today, the average school building is 44 years old. The legislation addresses dangerous building systems—such as outdated heating, ventilation, and air conditioning systems—so that classrooms can safely reopen during the COVID-19 pandemic. [Reported out of Committee on February 26, 2019, and passed by the House on July 1, 2020, as part of the *Moving Forward Act*]

The School Shooting Safety and Preparedness Act (H.R. 4301) creates federal definitions for mass shootings and school shootings and authorizes the collection of data to better understand and prevent school shootings. [Reported out of Committee on September 18, 2019]

The College Affordability Act (H.R. 4674) reauthorizes the *Higher Education Act* and overhauls our higher education system based on findings from the Committee's series of five bipartisan hearings on the state of higher education. The legislation lowers the cost of college and workforce development programs, holds institutions and programs accountable for students' success, and expands opportunities for students of all backgrounds. [Reported out of Committee on October 31, 2019]

The FUTURE Act (H.R. 5363) preserves critical funding for Historically Black Colleges and Universities, Tribally Controlled Colleges or Universities, and Minority Serving Institutions to ensure that these critical institutions can continue their legacy of expanding access to higher education for underserved students. [Enacted on December 19, 2019]

The Strength in Diversity Act (H.R. 2639) reestablishes the Obama Administration's *Opening Doors, Expanding Opportunities* grant program by providing funding for communities that voluntarily implement strategies to address segregation in their schools. The bill also helps shape best practices for developing plans to promote school diversity that can withstand constitutional challenges. [Passed by the House on September 15, 2020]

The Equity and Inclusion Enforcement Act (H.R. 2574) restores the private right of action for students and parents to bring *Title VI* discrimination claims against policies and practices that have a racially disparate impact. The legislation will help community members hold school districts and states accountable for discriminatory education policies. [Passed by the House on September 16, 2020]

Safe and Inclusive Workplaces

In the 116th Congress, the Committee made significant progress towards building an economy that works for our nation's workers, not just wealthy corporations. The Committee passed and reported

out legislation to increase wages, promote the right to collectively bargain, protect workers from injury and discrimination, and strengthen workplace protections.

The Raise the Wage Act (H.R. 582) gradually increases the federal minimum wage over a five-year period and eliminates sub-minimum wages for tipped workers, youth, and persons with disabilities. *[Passed by the House on July 18, 2019]*

The Paycheck Fairness Act (H.R. 7) addresses pay inequity by holding companies accountable for gender-based wage disparities, strengthening the *Equal Pay Act* of 1963, and protecting the rights of workers to challenge systemic pay discrimination. *[Passed by the House on March 27, 2019]*

The Rehabilitation for Multiemployer Pensions (Butch Lewis) Act (H.R. 397) prevents the imminent collapse of the multiemployer pension system while protecting retirees' benefits and saving taxpayers billions of dollars. The legislation addresses the multiemployer pension crisis now to avoid more than one million retirees and workers losing their hard-earned pensions. *[Passed by the House on July 24, 2019]*

The National Apprenticeship Act of 2020 (H.R. 8294) comprehensively reauthorizes the *National Apprenticeship Act* for the first time since 1937 and strengthens our Registered Apprenticeship system. The legislation draws from the Committee's multiple bipartisan hearings and roundtable on apprenticeships. *[Passed by the House on November 20, 2020]*

The Protecting the Right to Organize (PRO) Act (H.R. 2474) creates civil penalties for companies that violate their workers' collective bargaining rights and ensures that workers can decide whether to form a union without employer interference. The legislation is the most comprehensive proposal in recent history to strengthen workers' right to organize and negotiate for higher pay, better benefits, and safer workplaces. *[Passed by the House on February 6, 2020]*

The Workplace Violence Prevention for Health Care and Social Service Workers Act (H.R. 1309) compels the Occupational Safety and Health Administration (OSHA) to expedite a standard requiring employers to protect health care and social services workers from workplace violence. These workers, particularly those in the public sector, are more likely to face workplace violence compared to other workers. *[Passed by the House on November 21, 2019]*

The Pregnant Workers Fairness Act (H.R. 2694) guarantees all pregnant workers the right to reasonable workplace accommodations such as water breaks and seating. The legislation will help ensure that pregnant workers can have healthy pregnancies without risking their financial security. *[Passed by the House on September 17, 2020]*

The Protecting Older Workers Against Discrimination Act (H.R. 1230) restores workplace protections for older workers by re-establishing a consistent burden of proof for discrimination claims. *[Passed by the House on January 15, 2020]*

Access to Affordable Healthcare

The Committee's first hearing in the 116th Congress examined threats to the *Affordable Care Act* (ACA) and workers with pre-existing conditions. This hearing kicked off the Committee's work to

report out and pass legislation that protects and expands access to affordable health care.

The Undo the “Short-Term, Limited Duration Insurance” Rule (H.R. 1010) protects consumers from junk health plans by undoing the Trump Administration’s “Short-Term, Limited Duration Insurance” rule. These junk plans pull healthy consumers out of the risk pool, raising costs for those without insurance, and then abandon consumers when they actually need care. *[Reported out of Committee on April 24, 2019]*

The Stronger Child Abuse Prevention and Treatment Act (CAPTA) (H.R. 2480) strengthens federal tools to address child abuse and neglect by investing in prevention strategies, improving the quality of child protective services, and streamlining communication between agencies nationwide. The bipartisan legislation responds to the rising rates of child abuse and neglect across the country. *[Passed by the House on May 20, 2019]*

The Elijah E. Cummings Lower Drug Costs Now Act (H.R. 3) allows Medicare to negotiate for lower prescription drug prices for individual and employer-sponsored health plans. The legislation responds to skyrocketing drug prices that can be up to ten times higher than prices for the same drugs in other countries. *[Passed by the House on December 12, 2019]*

The Dignity in Aging Act (H.R. 4334) reauthorizes the *Older Americans Act* (OAA) to help older Americans live independently and with dignity. The bipartisan legislation increases funding for all OAA programs, strengthens services to support caregivers, combats social isolation, and improves data collection. *[Enacted on March 25, 2020]*

The Patient Protection and Affordable Care Enhancement Act (H.R. 1425) builds on the ACA by incentivizing states to expand Medicaid, strengthening protections for patients with pre-existing conditions, and shielding consumers from short-term health care plans. The legislation also includes the *Elijah E. Cummings Lower Drug Costs Now Act* (H.R. 3) to lower the cost of prescription drugs. *[Passed by the House on June 29, 2020]*

Oversight and Accountability

The Committee rigorously exercised its Article I oversight authority over the Trump Administration through dozens of letters, meetings, public hearings, and even subpoenas.

Education

Inspector General at the U.S. Department of Education

In February 2019, the Committee successfully pressured the U.S. Department of Education (ED) to reinstate its acting inspector general after attempting to replace the independent watchdog with a senior official from within ED.

Defrauded Student Loan Borrowers

In December 2019, the Committee held Secretary of Education Betsy DeVos accountable for ED’s failure to properly implement the Borrower Defense rule and provide debt relief for students who were defrauded by for-profit colleges.

Equitable Services Rule

In May 2020, the Committee called on ED to rescind its equitable services rule, which would improperly distribute COVID-19 relief funding intended for high-poverty public schools under the CARES Act toward services for students in private schools. Three federal courts also found the rule unlawful. Eventually, ED conceded and withdrew the rule.

Restrictions on COVID-19 Relief for Higher Education

In July 2020, the Committee pushed back on ED's attempts to limit eligibility for higher education students to access *CARES Act* funding under *Title I*, which would have excluded some of our most vulnerable students from accessing the aid they need. A federal court also found this rule unlawful and issued an injunction.

Misleading Students and Taxpayers

In July 2020, the Committee released a report outlining how an ED official aided Dream Center Holdings, a for-profit higher education company, in misleading thousands of students.

*Labor***Job Corps Civilian Conservation Centers**

In June 2019, the Committee successfully pressured the U.S. Department of Labor (DOL) to abandon its plan to arbitrarily close 25 Job Corps Civilian Conservation Centers in rural communities.

Beryllium Standard

In September 2019, the Committee successfully pressured DOL to reverse its plans to rollback safety standards that protect construction and shipyard workers from exposure to beryllium, a toxic, carcinogenic element.

Child Labor Protections

In November 2019, the Committee successfully pressured DOL to rescind a proposal that would have allowed 16- and 17-year-olds to operate dangerous patient lifts in health care settings.

Joint Employer Rule

In January 2020, the Committee opposed DOL's interpretative rule narrowing joint employment liability under the *Fair Labor Standards Act*, which holds employers accountable for basic labor standards. In September 2020, a federal judge invalidated the rule.

Emergency Temporary Standard

Since January 2020, the Committee has repeatedly pressed OSHA to establish an Emergency Temporary Standard that would require employers to protect workers from COVID-19 while on the job.

Protecting Meatpacking Workers

In September 2020, the Committee demanded answers from White House political appointees who watered down CDC-issued workplace safety guidance for a South Dakota meatpacking plant

that experienced one of the largest COVID–19 outbreaks in the country.

Health and Human Services

Access to Free School Meals

In October 2019, the Committee persuaded the U.S. Department of Agriculture (USDA) to publicly admit that its proposal to cut SNAP benefits for low-income families would jeopardize access to free school meals for nearly 1 million children.

Special Enrollment Period during COVID–19 Pandemic

Since April 2020, the Committee has repeatedly called on the U.S. Department of Health and Human Services (HHS) to reverse its refusal to establish a Special Enrollment Period so that people affected by the COVID–19 pandemic can sign up for health coverage through HealthCare.gov.

School Meals during COVID–19 Pandemic

In August 2020, the Committee pressured USDA to extend critical waivers in response to the COVID–19 pandemic to ensure kids maintain access to school meals during the 2020–2021 school year.

In the 117th Congress, the Committee will continue to deliver on its promise to the American people. The Committee will work with the Biden Administration to execute a robust agenda that addresses longstanding inequities and achievement gaps in education, promotes safe and inclusionary workplaces where workers can earn a livable wage and engage in collective bargaining, and expands access to affordable health care. The Committee will also continue to use its oversight authority to ensure that the federal government and its partners are delivering for the people.

HEARINGS HELD BY THE FULL COMMITTEE

February 6, 2019—Hearing titled “Examining Threats to Workers with Preexisting Conditions.”

Purpose: To examine executive, judicial, and legislative threats to Americans with preexisting medical conditions, including the Administration’s expansion of short-term limited duration insurance through the final rule of the U.S. Departments of Treasury, Labor, and Health and Human Services.

- S. 760, the *Support for Veterans in Effective Apprenticeships Act of 2019*, sponsored by Sen. Gary Peters (MI), was enacted into law on March 26, 2020 (Public Law 116-134).
- S. 1790, the *National Defense Authorization Act for Fiscal Year 2020*, sponsored by Sen. James Inhofe (OK), was enacted into law on December 20, 2019 (Public Law 116-92).

OVERSIGHT PLAN SUMMARY AND ACTIVITY

OVERSIGHT PLAN SUMMARY

The Committee adopted its oversight plan for the 116th Congress at its organizational meeting on January 29, 2019. The Committee outlined several priority areas for oversight in the plan including, but not limited to:

- Implementation of the Every Student Succeeds Act
- Recommendations on School Safety
- Education in the Wake of Natural Disasters
- Students and Workers with Disabilities

- Student and Taxpayer Protections
- Federal Student Aid
- Department of Labor’s Training and Enforcement Programs
 - Guestworker Programs
 - Collective Bargaining Rights
 - Retirement Security and Multiemployer Pensions
 - Opioid Prescribing Policies
 - Black Lung Benefits Program
 - International Labor Rights
 - Affordable Care Act
 - Short-Term, Limited Duration Health Plans
 - Association Health Plans
 - Civil Rights
 - Juvenile Justice
 - Unaccompanied Minors
 - Child Nutrition

ACTIONS TAKEN BASED ON OVERSIGHT PLAN

Implementation of the Every Student Succeeds Act (ESSA)

- *Unlawful Exemptions for Religious Charters*—Whistleblower reports to the Committee indicated that politically appointed officials at the U.S. Department of Education (ED) provided improper waivers of certain religious restrictions to a school participating in the Department’s Charter Schools Program. The Committee requested additional information regarding these waivers, but ED refused to fully respond. The Committee recommends the next administration adhere to the clear requirements in federal law regarding religious use restrictions in the Charter Schools Program.

- *Refusal to Implement the ESSA One Percent Cap*—ESSA requires states to test students annually in several subjects. However, ESSA allows states to administer alternative assessments aligned with alternate academic achievement standards for students with the most significant cognitive disabilities, capping participation in alternative assessments at one percent of tested students. The Trump Administration has failed to implement or enforce this requirement and the Committee requested information regarding ED’s efforts to monitor state implementation of alternate assessments for students with the most significant cognitive disabilities. ED failed to respond to this request and, as part of its response to the global coronavirus pandemic (COVID), suspended all state assessments. The Committee recommends ED implement the one percent cap on alternative assessments as soon as practicable.

Recommendations on School Safety

- *Arming Teachers with Federal Dollars*—At the April 10, 2019, Full Committee hearing titled “Examining the Policies and Priorities of the Department of Education,” Rep. Jahana Hayes (CT) questioned U.S. Secretary of Education Betsy DeVos on an ED memo outlining whether states could legally use funds appropriated under Title IV of ESSA to arm teachers. The memo stated the Secretary had discretion to disallow

arming of teachers as a use of such funds, contradicting prior statements from the Secretary that decisions to arm teachers ultimately rested with the states. This hearing satisfied the requirement under Rule XI, clause 2(n) of the Rules of the U.S. House of Representatives that each committee hold, within 120 days of its establishment, a hearing “on the topic of waste, fraud, abuse, or mismanagement in Government programs” authorized by the committee.

- *Evidence-Based School Safety Policy*—In response to ongoing outbreaks of violence in schools, in particular the mass shooting at Stoneman Douglas High School in February 2018, President Trump created the Federal Commission on School Safety in March 2018. The Commission’s final report, issued in December 2018, was neither a serious nor good-faith effort to make schools safer for students and educators. The report’s recommendations ignore both the research consensus and the demands of students and parents for tougher gun laws. Instead, the report promotes a longstanding, conservative agenda to undermine policies that protect students’ civil rights. In an effort to enact evidence-based federal policy on school shootings, the Committee worked with Rep. Tulsi Gabbard (HI) on H.R. 4301, the *School Shooting Safety and Preparedness Act*, which creates federal definitions for mass shootings and school shootings and authorizes the collection of data to better understand and prevent school shootings. The bill was reported out of Committee on September 18, 2019.

- *U.S. Government Accountability Office (GAO) Work*—The Committee commissioned a GAO report to examine the characteristics of school shootings. The report debunked false links made in the Federal Commission on School Safety’s Report between joint guidance issued in 2014 by the U.S. Department of Justice and ED, designed to help schools remedy discipline disparities without jeopardizing school safety, and school shootings. These links were cited by the Departments when they rescinded the guidance in December 2018. After the release of GAO’s report, on September 23, 2020, the Committee called on ED to reinstate this important guidance.

Education in the Wake of Natural Disasters

- *Hearing*—The Committee held a hearing on June 5, 2019, titled “This is Not a Drill: Education-Related Response and Recovery in the Wake of Natural Disasters.” The purpose of the hearing was to examine ED’s disaster response and the recovery needs of impacted state, territorial, and local educational agencies in an era of increasingly extreme weather patterns due to manmade climate change.

- *Congressional Delegation Trip*—Committee staff participated in a congressional delegation trip led by the House Committee on Natural Resources in July–August 2019 to Guam and the Commonwealth of the Northern Mariana Islands. The trip included briefings to gain better insight into the impact of Super Typhoon Yutu on the education system.

Students and Workers with Disabilities

- *Individuals with Disabilities in Education Act (IDEA) Child Find in Office of Refugee Resettlement Detention Camps*—The Trump Administration held thousands of migrant children in detention camps under deplorable conditions. As part of the mistreatment of these children, ED misinterpreted IDEA’s “child find” requirement, depriving detained children with disabilities of services to which they are entitled and in fact—required to receive under federal law. The Committee repeatedly requested information from ED regarding its interpretation of the law, but ED refused to change its position and enforce the requirements as written. The Committee will engage the next administration on these and related issues to ensure the appropriate and legal treatment of migrant children, especially those with disabilities. This work also encompassed the Committee’s oversight work on unaccompanied minors, another priority area for oversight in the Committee’s plan.
- *Hearing*—The Committee held a hearing on May 21, 2019, titled “Eliminating Barriers to Employment: Opening Doors to Opportunity.” The hearing explored, in part, how federal policy can reduce barriers to employment for workers with disabilities.

Student and Taxpayer Protections

- *Unlawful and Improper Rulemaking on Title IX*—The Committee sent several letters to Secretary DeVos regarding rulemaking under Title IX of the Education Amendments of 1972 (Title IX). This culminated in a Civil Rights and Human Services Subcommittee Hearing titled “On the Basis of Sex: Examining the Administration’s Attacks on Gender-Based Protections,” which in part focused on irregularities in the Title IX rulemaking process. The Committee will encourage the next administration to amend the 2020 Title IX regulations that create unnecessary barriers for victims to report and obtain meaningful relief from sexual harassment, assault, and abuse.
- *Scholarships for Opportunity and Results (SOAR) Vouchers*—The Committee requested information from both ED and the grantee responsible for administering the SOAR Voucher program. The Committee sought information on the program’s performance and compliance with federal civil rights laws. Though ED provided no responsive information, the SOAR grantee provided information sufficient to understand its implementation. The Committee will consider additional options in the new Congress.
- *Dream Center Education Holdings*—Dream Center purchased more than 60 for-profit colleges in 2018, planning to convert them into non-profit institutions. However, due to management failures and reports of fraud, Dream Center closed most of these institutions within 18 months of its purchase and sold the remainder. Allegations that high-ranking ED officials improperly aided Dream Center led the Committee to open an investigation into the conduct of Dream Center as well as ED. In the course of the Committee’s investigation, the Committee demonstrated that though two of Dream Center’s colleges lost accreditation, Dream Center executives knowingly

misrepresented these institutions' accreditation status to students and prospective students for months, claiming to be "fully accredited" when they were not. Documents also reveal that multiple high-ranking ED officials aided Dream Center executives, first by releasing federal funds to the unaccredited schools in violation of ED regulations, then by attempting to convince the accreditor to back-date accreditation for the institutions in violation of ED regulations and the accreditor's policy. Although ED refused to fully cooperate with the Committee's investigation, the Committee used its investigative tools to obtain documents critical to demonstrating these improprieties and released a report detailing all related findings. The Committee will continue to pursue its long-standing document request with the incoming administration.

- *For-Profit College Misconduct*—The Committee investigated a number of for-profit colleges following allegations and evidence indicating that certain for-profits engaged in improper conversions to non-profits to evade regulations, misleadingly advertised, and violated the *Higher Education Act's* requirement that for-profit institutions obtain at least 10 percent of their tuition from non-Title IV sources. The Committee continues to collect information and documents from these institutions in order to best inform legislation.

Federal Student Aid

- *Unlawful and Improper Rulemaking on Borrower Defense*—Borrower defense to repayment (Borrower Defense) allows federal student loan borrowers to have their loans forgiven if they can demonstrate that their college engaged in certain forms of misconduct. However, the Trump Administration systematically undermined the promise of relief for defrauded borrowers by stalling decisions, adopting inconsistent policies, and rewriting federal regulations, making it more difficult for borrowers to apply for relief in the future. To examine this, the Committee requested documents and data related to ED's implementation of borrower defense, held a hearing with Secretary DeVos, and published a report with its findings. The Committee's recommendations for the incoming administration are captured in its report and the Committee will continue to pursue outstanding document requests related to ED's partial relief formula in order to unpack ED's failure to appropriately implement this program.

- *Public Service Loan Forgiveness (PSLF)*—The Committee continued to investigate the management of the PSLF program. Since 2017, when the first borrowers became eligible to receive forgiveness under PSLF, ED has rejected the overwhelming majority of applicants for forgiveness. The Committee held a hearing on September 19, 2019, titled "Broken Promises: Examining the Failed Implementation of the Public Service Loan Forgiveness Program" to examine ED's implementation of PSLF and determine how the Administration and Congress can better support the thousands of public servants relying on this program.

Department of Labor's (DOL's) Training and Enforcement Programs

- *Industry Recognized Apprenticeship Programs (IRAPs)*—The Committee sent document requests to DOL and DOL contractors who worked on the IRAP program to ensure that no congressionally-appropriated funds are being used on the program. The Committee also worked closely with appropriators to ensure that no funds were appropriated for IRAPs. After the Committee uncovered that DOL had illegally used over \$1 million of Registered Apprenticeship funds on IRAPs, DOL was forced to stop doing so and therefore has been unable to get the IRAP program off the ground.

- *Job Corps*—The Committee wrote several letters and held several briefings regarding DOL's attempts to destabilize the Job Corps program. These attempts included: leaving it at risk of having its funds impounded due to lack of use; taking back all 25 Job Corps Civilian Conservation Centers from the U.S. Department of Agriculture (USDA); and permanently closing nine of those sites. In the face of bipartisan congressional opposition and the announcement of an oversight hearing with Administration officials, USDA and DOL could not justify closing the centers based on performance, attendance, or any other measure, despite their earlier claims of those reasons, and they reversed course.

Guestworker Programs

- *Labor Protections*—On September 24, 2019, the Committee wrote to the Honorable Patrick Pizzella, Acting Secretary, U.S. Department of Labor, expressing concern about proposals to undermine labor protections in the H-2A visa program.

Collective Bargaining Rights

- *National Labor Relations Board's (NLRB's) Proposed Changes to the Contract Bar Rule*—The Committee sent a request to the NLRB requesting information and documents that justify its proposed change to the contract bar rule, which ensures stability in labor relations by barring election petitions for three years during a valid collective bargaining agreement. The NLRB failed to provide the information and documents requested in its response to the Committee. The Committee plans to continue its oversight of this issue. The Committee is also currently awaiting the NLRB's official decision of whether to change the contract bar rule.

- *NLRB Suspension of Elections During the Early Days of the COVID-19 Pandemic*—The Committee wrote to the NLRB requesting information justifying its decision to pause union elections during the early days of the pandemic, especially since mail ballot elections are a valid and preexisting option. The NLRB has not been responsive to the Committee's requests, mostly citing the unprecedented nature of the pandemic as its reason. Unsafe in-person elections have since resumed. The Committee plans to continue oversight of the NLRB's response to the pandemic.

- *NLRB Reorganization of Regional Officers*—The Committee, House Committee on Appropriations' Subcommittee on Labor, Health and Human Services, and Senate Committee on

Health, Education, Labor, and Pensions (Senate HELP) have sent several requests to the NLRB requesting a pause on plans to reorganize seven Regional Offices and requesting information and briefings on the reorganization plans. The NLRB promised Congress that the reorganization was still being discussed and that no actions would be taken without notification to Congress first. However, the Committee recently received information that the reorganization was being implemented despite these assurances. Furthermore, the NLRB refused to produce relevant requested information and briefings. The Committee plans to continue its oversight of this issue.

Retirement Security and Multiemployer Pensions

- *Hearing on General Accountability Office (GAO) Report*—On March 7, 2019, the Committee held a Hearing titled “The Cost of Inaction: Why Congress Must Address the Multiemployer Pension Crisis.” The hearing explored the costs and consequences to retirees, active workers, participating employers, and the federal government if Congress does not resolve the multiemployer pension crisis. The hearing also discussed legislative solutions to the crisis. This hearing satisfied the requirement under Rule XI, clause 2(p) of the Rules of the U.S. House of Representatives that the Committee “hold at least one hearing on issues raised by reports issued by the Comptroller General” indicating federal programs authorized by the Committee “at high risk for waste, fraud, and mismanagement.”

- *Work requests to GAO*—The Committee sent several letters to the Comptroller General of GAO requesting the office conduct investigations into different aspects of the retirement system, including cybersecurity, plans authorized under the *Employee Retirement Income Security Act* (ERISA), church and church affiliated retirement plans, and other retirement plans exempt from ERISA.

Black Lung Benefits Program

- *Oversight Hearings and GAO Work*—The Committee has conducted extensive oversight into the Trump Administration’s management of the Black Lung Disability Trust Fund. This includes two oversight hearings. The Committee has also reached out to GAO to request a review of DOL’s implementation of its revised black lung liability self-insurance process and expects to continue this work into the next Congress.

International Labor Rights

- *Efforts by the U.S. Agency for International Development (USAID) to Undermine the Global Labor Program*—The Committee sent a letter making document and information requests to USAID regarding their intention to replace the Global Labor Program, the primary USAID program that works directly with trade unions and non-governmental organizations devoted to workers’ rights across multiple countries. USAID responded two months later than requested, and even then it failed to fully respond to the requests. This was a joint letter with House Committee on Appropriations Chair Nita Lowey,

House Committee on Foreign Affairs Chair Eliot Engel, and House Committee on Ways and Means Chair Richard Neal.

Affordable Care Act (ACA)

- *Efforts to Dismantle the ACA*—The Committee sent multiple document requests to U.S. Secretary of Health and Human Services Alex Azar II, Centers for Medicare and Medicaid Services Administrator Seema Verma, the White House, and U.S. Attorney General William Barr regarding justifications for their efforts to dismantle the ACA. The Committee also sent document requests to former U.S. Secretary of Labor Alexander Acosta during his time as Secretary regarding DOL’s failure to implement ACA provisions. The U.S. Department of Health and Human Services (HHS) produced some but not all of the requested documents and the U.S. Department of Justice, the White House, and DOL failed to provide responsive documents.

- *Roll Back of Nondiscrimination Protections in the ACA*—The Committee sent multiple document requests to HHS Secretary Azar regarding HHS’s decision to erode protections for LGBTQIA+ patients and other marginalized communities established by Section 1557 of the ACA. HHS provided some non-substantive responses.

- *Establishing a General Special Enrollment Period Under the ACA*—The Committee, along with the House Committee on Energy and Commerce, House Committee on Ways and Means, and Senate HELP, sent requests to HHS Secretary Azar, U.S. Secretary of the Treasury Steven Mnuchin, and U.S. Secretary of Labor Eugene Scalia regarding the need to facilitate health insurance enrollment during the COVID–19 pandemic. The Trump Administration refused to establish a Special Enrollment Period despite the urging of Congress and over 200 advocacy organizations.

Short-Term, Limited Duration Health Plans

- *Oversight Letters*—The Committee sent multiple letters to the Trump Administration requesting more information on their administration of short term, limited duration health plans. These requests included information regarding recent reports that self-insured group health plans are not in compliance with recently enacted provisions of federal law that require coverage of testing for COVID–19 during the ongoing public health emergency and concerns regarding new proposed rules to allow for certain group health plans to be “grandfathered.”

Civil Rights

- *EEO–1 Data Analysis*—After a court ordered the U.S. Equal Employment Opportunity Commission (EEOC) to continue collecting Component 2 data (which details employees’ pay by race, gender, and ethnicity) on the EEO–1 form, the EEOC simply collected the data without making it available or conducting any analysis on it. The Committee wrote to the EEOC to urge it to either analyze the data or allow a third party to do so. The EEOC announced this summer, after pres-

sure from Congress and advocacy groups, that it would fund a statistical study with the National Academies of Sciences, Engineering, and Medicine’s Committee on National Statistics to analyze the data collected.

- *EEOC Case Backlog*—The Committee wrote to request information from the EEOC on its current practice and procedure for intakes, investigating, mediating, and adjudicating charges and claims. The EEOC backlog is long, and the Committee continues to hear reports from complainants that their cases are not being adequately investigated as well as reports from investigators that one of the ways the EEOC is attempting to address the backlog is by simply closing cases without adequate investigation. The EEOC has provided some data but fails to have a sufficient plan in place to address the backlog in a manner that gives all cases due consideration. The EEOC has refused to hire more case investigators. The Committee will continue its oversight on this matter.

- *EEOC Official Time*—The Committee, along with the House Committee on Oversight and Reform, wrote to the EEOC requesting documents and information about the change it proposed to longstanding federal rules ensuring that federal employees who bring complaints for illegal employment discrimination may be accompanied by the representative of their choice using official time. The EEOC has, on a rolling basis, provided information that is responsive to the Committee’s requests, but it also claims that it does not track many of the data points requested. Overall, the EEOC has failed to provide any evidence that justifies such a rule change. To date, this rule has not been finalized.

- *EEOC Conciliation Pilot*—In June 2020, the EEOC Chair instituted a pilot program that changed the longstanding conciliation process and imposed additional hurdles on field investigators and attorneys in order to ease an alleged burden on employers during the process. The pilot was shrouded in secrecy so scant details were available. The Committee, along with Senate HELP, requested documents as to the justification of the pilot as well as additional details of the program. The EEOC provided a non-responsive response to the Committee’s requests that mainly cited the Chair’s authority to conduct such changes to the conciliation program. The pilot program ended and there is currently a pending proposed rule to make permanent certain changes to the conciliation program. The Committee plans to continue its oversight of this issue.

- *Religious Freedom Restoration Act (RFRA) Discrimination in Foster Care*—The Committee sent several requests to HHS regarding reports that HHS is using RFRA to allow a taxpayer-funded child welfare provider to discriminate against potential foster parents based solely on religious preference. HHS claimed in its responses that it would be a substantial burden on religious freedom to require the provider to abandon its religious criteria and did not otherwise provide substantive responses.

- *Conscience Rule in Health Care*—The Committee, along with the House Committee on Energy and Commerce, wrote several letters to HHS and requested documents and informa-

tion about the justification for its new “conscience rule” that drastically expanded the circumstances under which health care providers could refuse to provide care on the basis of their religious beliefs or conscience. HHS provided marginally responsive documents that do not provide adequate justification for the rule.

Juvenile Justice

- *Implementation of the Juvenile Justice Reform Act of 2018*—At the end of 115th Congress, the Committee was able to work in a bipartisan manner to pass the *Juvenile Justice Reform Act of 2018*, the first reauthorization of the *Juvenile Justice and Delinquency Prevention Act of 1974* (JJDPA) since 2002. Building on that bipartisan success, on December 17, 2019, the Committee received a joint staff briefing from Ms. Caren Harp, Administrator, Office of Juvenile Justice and Delinquency Prevention (OJJDP), U.S. Department of Justice. The Committee has concerns regarding actions OJJDP may have taken to influence states to become non-participating states under JJDPA. The Committee plans to engage with OJJDP in the next Congress to ensure congressional intent is adhered to in the implementation of the *Juvenile Justice Reform Act of 2018*.

Child Nutrition

- *Child Nutrition Standards*—USDA proposed several changes to nutrition standards and school meals in the past two years that are not in line with good nutritional guidelines for children. The Committee wrote letters to USDA in each instance requiring justifications for doing so. A court struck down USDA’s general child nutrition standards so that rule was vacated. However, USDA recently issued a new proposed rule that is nearly identical. To date, the draft rule regarding school meals has not been finalized.
- *Categorical Eligibility for SNAP*—USDA issued a proposed rule to change SNAP eligibility and negatively impact children’s eligibility for school meal programs without a formal analysis how many children would be impacted. The Committee pushed informally and formally via multiple letters for an analysis and called for a hearing. USDA was forced to admit that \$1 million students would be impacted and had to reopen the comment period for its proposed rule. To date, the rule has not been finalized.

Additional Oversight Activities of the Committee

Inappropriate Nomination of ED Inspector General—The Chair wrote a series of letters requesting documents regarding President Trump’s nomination of former U.S. Acting Education Secretary Philip Rosenfelt as ED Inspector General. Mr. Rosenfelt’s long tenure defending agency actions in ED’s Office of the General Counsel as well as his brief tenure as Acting Education Secretary categorically disqualified him from the post of ED Inspector General. The Administration ultimately withdrew Mr. Rosenfelt’s nomination.

Institute of Education Sciences (IES)—Federal law requires the Director of IES to propose priorities to the National Board of Edu-

cation Statistics, transmit those priorities to the appropriate Committees, and make those priorities open to public comment. After the Director of IES failed to fulfil this statutory mandate, the Committee raised questions and requested information from IES. IES ultimately provided this information to the Committee and published its priorities in the Federal Register.

American Federation of Government Employees (AFGE)—Secretary DeVos refused to bargain in good faith with AFGE, the union representing a substantial number of ED civil servants, and unilaterally imposed a contract on those employees. This is one factor among many that drove ED’s civil servants to rank it as one of the worst government agencies at which to work in the Trump Administration. The Committee requested information on ED’s hiring and management practices, but ED did not respond to many of the Committee’s requests. The Committee remains committed to ensuring that ED negotiates fairly with its employees and will ensure that the incoming administration adheres to norms and rules governing this process.

Accrediting Council for Independent Colleges and Schools (ACICS)—While the Obama Administration revoked the recognition of ACICS as an accreditor due to its lax institutional oversight, the Trump Administration reversed that decision. However, the Committee continued to investigate ACICS and, after multiple document requests, found troubling information related to ongoing ED compliance reviews. The Committee detailed these findings in a letter to ED that recommended it again revoke ACICS’s accreditation given its insufficient oversight of member institutions.

Obstruction of Loan Servicer Oversight—Due to repeated and serious allegations of consumer abuses by loan servicers, some states developed consumer protection laws and offices to hold servicers accountable. However, this Administration developed a series of policies adding obstacles to state oversight of servicers and undermining the efficacy of state consumer protection laws. The Committee requested documents and information regarding these policies from ED, the Consumer Financial Protection Bureau (CFPB), and directly from loan servicers. Loan servicers were generally responsive to the Committee’s requests, CFPB partially responded, and ED refused to substantively respond. The Committee will recommend ED reverse the policies undermining state oversight of loan servicers.

Princeton Investigation—On September 2, 2020, Princeton University President Christopher Eisgruber wrote an open letter to the Princeton community describing the next steps Princeton would take to address systemic racism at Princeton. This letter outlined planned policy initiatives to create and foster a more inclusive and diverse environment at Princeton. However, ED claimed this letter was an admission that Princeton had violated assurances of non-discrimination and equal opportunity. ED’s investigation is a dangerous infringement on freedoms of speech and expression, and the Committee has requested documents to better understand ED’s purpose in initiating this investigation. Although ED has not provided documents responsive to this request, the Committee will continue to seek answers about this politically motivated assault on free speech.

Implementation of the Coronavirus Aid, Relief, and Economic Security (CARES) Act

- *Unlawful and Improper Rulemakings under the CARES Act*—The Committee conducted extensive oversight of ED rulemakings on several rules promulgated to implement the CARES Act. Although ED largely did not cooperate and refused to provide documents responsive to these requests, outside lawsuits filed independent of the Committee and after the Committee’s investigations overturned a number of ED’s unlawful regulations.

- *CARES Act Voucher Program*—The CARES Act appropriated more than \$300 million in federal funds for ED to grant to states with the highest coronavirus burden. Instead, ED treated this as a slush-fund to create a voucher program directed at states with existing school choice initiatives. The Committee requested information regarding ED’s development of this program and prioritization methodology. ED refused to provide responsive information, but the Committee intends to follow up with the new administration to better understand ED’s deviation from statutory direction.

- *Puerto Rico CARES Funds*—The CARES Act appropriated more than \$400 million to Puerto Rico to support its education activities; however, ED refused to provide 97.5% of these funds, creating unnecessary hurdles for Puerto Rico’s response to the COVID–19 crisis. The Committee requested information and documents regarding ED’s delayed distribution of emergency grant aid to Puerto Rico, but ED refused to respond to this request. The Committee will continue to pursue this issue in the next Congress to ensure Puerto Rico obtains emergency relief funds as quickly as possible.

- *Illegal Wage and Tax Refund Garnishing*—The CARES Act suspended all student loan payments from March 27, 2020, to September 30, 2020, and halted all debt collection activities, including wage garnishment. However, during this six-month period, ED did not cease collections on all borrowers and has failed to refund payments improperly collected from borrowers. The Committee requested information on ED’s continued garnishment of wages and tax refunds, but ED has refused to provide documents responsive to these requests. The Committee recommends ED immediately take the necessary steps to ensure it refunds borrowers subject to its unlawful collections.

- *Higher Education Emergency Relief (HEER) Fund Limitations*—The CARES Act provided billions in higher education assistance to institutions and students; however, the Administration attempted to unlawfully limit student loan eligibility to Title IV eligible students. This prevented undocumented students from accessing these funds and created unnecessary bureaucratic obstacles to institutions’ distribution of these funds. The Committee requested information and documents on ED’s iterative and inconsistent rollout of guidance for institutions to use and disburse HEER funds.

- *Waste and Mismanagement of Emergency Relief Funds*—The CARES Act directed ED to set aside \$321.7 million from the HEER fund to support Institutions of Higher Education (IHEs) with “the greatest unmet needs related to the

coronavirus.” Instead, ED allocated 92% of these funds to IHEs that received less than \$500,000 in CARES Act formula funding without making a determination of need. This allocation would have primarily benefitted extremely small, private schools that received little or no formula funds under the CARES Act but would be able to obtain tens of thousands of dollars per student in attendance under ED’s allocation. The Committee requested documents to show how this action met the statutory mandate. Though ED did not respond to this request, ED ultimately abandoned its wasteful plan.

Ethics Issues with DOL Assistant Deputy Secretary—The Committee wrote to DOL regarding the outside employment of U.S. Associate Deputy Secretary of Labor Michael Avakian during his tenure and potential conflicts of interest with his private law practice and the private cases he continued representing while he was at DOL. Mr. Avakian resigned his position after press attention to this issue. Subsequently, DOL provided a response to the Committee describing its internal investigation that revealed yet another conflict of interest that was previously unknown.

Affinity Mine Pattern of Violations Notice—The Committee continued to follow up on oversight started in the 115th Congress regarding why DOL’s Mine Safety and Health Administration (MSHA) decided to terminate the Pattern of Violations Notice for Affinity Mine without the mine having met the statutory requirements for being released from the notice. MSHA initially refused to cooperate with the Committee’s document requests. Eventually, MSHA showed the Committee documents *in camera* that discussed the decision to terminate the Pattern of Violations Notice.

Occupational Safety and Health Administration’s (OSHA) Beryllium Standard—The Committee wrote letters and pushed OSHA to justify its attempted roll back of health protections for construction and shipyard workers from exposure to beryllium and beryllium-related substances. OSHA initially claimed that its roll back attempt was because workers were already protected from exposure by other existing standards, but under pressure, OSHA admitted that these provisions were, in fact, not adequately covered by other regulations. OSHA then reversed its position and did not roll back those protections.

Rulemaking Irregularities at DOL—The Committee wrote several letters to DOL about proposed rules it issued without the legally required analysis to illustrate how they would impact workers, specifically the 2017 and 2019 tip rules. The 2017 rule is currently the subject of an audit by the DOL Office of Investigator General despite having been withdrawn. To date, DOL continues to obstruct the Committee’s oversight on both the 2017 and 2019 proposed rules.

U.S. Office of Management and Budget (OMB) Lapse in Budgetary Authority—During the 2019 government shutdown, OMB was without budgetary authority, but it continued rulemaking activities on behalf of agencies that did have budgetary authority, including DOL. The Committee questioned the legality of this and requested a formal investigation from GAO, the body that adjudicates appropriations actions. GAO found that OMB (and the National Archives and Records Administration for publishing the rules in the Federal Register) violated the *Antideficiency Act* and therefore needed to

notify Congress so that Congress could count the funds that were illegally spent against future appropriations. OMB refused to follow the remedies that GAO laid out and therefore, GAO notified Congress of the breach so that Congress could deduct the amount from the agencies' future appropriations.

Wage and Hour Administrator Revoking All Delegation of Authority—The Committee sent a request to DOL requesting justification for DOL's Wage and Hour Administrator Cheryl Stanton issuing a blanket revocation of the Administrator's authority in any form. As delegated authorities are used to conducting investigations and holding employers accountable for violations, this essentially stopped all of those actions from being taken while Administrator Stanton reviewed each authority. The Committee also requested a detailed plan for when the revocations would be reversed. DOL responded that it was within the Administrator's right to take such action and that Administrator Stanton would proceed with the review, but it failed to provide a roadmap for how the review would proceed.

Occupational Safety and Health Review Commission (OSHRC) Conflict of Interest—Former OSHRC Chair Heather MacDougall vacated two OSHA citations against A.H. Sturgill Roofing for heat-related violations while she was engaged in discussions to accept employment from Amazon.com, which is also the subject of a number of investigations and citations by OSHA and state workplace safety agencies for heat-related violations. The Committee sent a formal request to Mr. James Sullivan, current OSHRC Chair, requesting that OSHRC engage the services of an Inspector General to investigate this issue and whether those decisions should be vacated due to the conflict of interest. OSHRC responded that it did not believe there was a conflict of interest. Because OSHRC does not have an assigned Inspector General, the Committee was unable to pursue this further.

OFCCP Exemption From Affirmative Action Programs for Coronavirus-Related Contracts—OFCCP issued a National Interest Exemption that allows new service, supply, and construction contracts entered into between March 17, 2020, and June 17, 2020, in response to COVID-19, to avoid certain affirmative action requirements. The Committee had a briefing with OFCCP and followed up with a letter requesting information on its oversight procedures to ensure that contractors did not take advantage of the waivers to willfully discriminate or otherwise violate non-discrimination requirements. OFCCP responded with a description of its normal audit process and confirmed that they did not have the ability to audit the contractors who received this exemption as they are not tracking who does not have affirmative action requirements. The Committee plans to follow up with OFCCP to receive data on the number of new government contractors who entered into contracts during this time period.

Ammonium Nitrate Storage—Following the Beirut ammonium nitrate explosion, the Committee wrote to DOL about updating OSHA processes and standards for fertilizer ammonium nitrate to meet the requirements of the latest National Fire Protection Association Code. OSHA provided a response that did not answer any of the questions posed by the Committee nor did OSHA reveal any

plans to further regulate in this area. The Committee plans to continue its oversight of this issue.

Failure to Enforce Paid Leave Provisions in the Families First Coronavirus Response Act (FFCRA)—The Committee wrote to DOL regarding the Wage and Hour Division’s failure to adequately enforce the paid leave provisions in FFCRA, specifically the delay in implementing the law and in notifying the public of the new rights available to workers. DOL responded after it finally implemented these provisions and stated that all was well. The Committee is following up to ensure that DOL has received the deliverables for the contracts it entered into for its public awareness campaign.

EEOC Public Meeting Agenda Procedure Change—The Committee and Senate HELP wrote to the EEOC about the EEOC Chair’s unilateral decision to eliminate the longstanding procedure allowing any commissioner to request an item be added to the agenda of public meeting for further deliberation prior to an EEOC vote. The EEOC responded simply with an explanation of the Chair’s authority to make this change. The Committee plans to continue to ensure that public meetings are actually conducted transparently.

New Faith-Based Guidance—The Committee wrote to DOL requesting information about its new guidance regarding the participation of faith-based organizations in DOL’s programs and DOL’s implementation of policies in this area. The guidance appears to significantly expand exemptions provided to faith-based organizations. DOL provided a cursory response that did not address the specific questions and document requests posed by the Committee. The Committee plans to continue its oversight of this issue.

Independent Contractor Rule—The Committee wrote multiple letters to DOL requesting clarity and information about its recently proposed independent contractor rule to ensure there was no undue political influence in drafting the proposed rule. DOL has refused to provide the documents and communications the Committee has asked for. The Committee continues to follow up with DOL on its request. To date, this rule has not been finalized.

COVID-19 Outbreaks in the Meatpacking Industry—The Committee has made several document requests to HHS, DOL, and USDA about their responses to COVID-19 outbreaks in the meatpacking industry, including their failure to prevent such outbreaks and force employers to remedy working conditions that led to such outbreaks. There was much media coverage about the Centers for Disease Control and Prevention’s (CDC) actions in watering down an investigation report in the case of the Smithfield Food’s Sioux Falls Pork Plant after the Committee uncovered a prior version of the report. USDA has been responsive and is in the process of document production in response to our requests. HHS and DOL, however, have been mainly unresponsive. The Committee plans to continue its oversight of this issue.

NLRB Rulemaking Comment Categories—The Committee wrote several letters with document requests regarding the NLRB’s decision to outsource to a private contractor the task of reviewing public comments submitted in response to its joint employer rulemaking. The NLRB repeatedly refused to respond to the Committee’s document requests, which resulted in the Committee issuing a subpoena for the information. The NLRB continues to defy the

Committee's subpoena. The subpoena will expire at the end of the 116th Congress. The Committee plans to continue its oversight of this issue.

NLRB Conflicts of Interest—The Committee wrote several letters with document requests inquiring how the NLRB implements its ethics and conflicts of interest policies with regard to the Members of the Board, particularly as several Members of the Board appear to have engaged in ethically questionable actions during their tenures in several NLRB cases. The NLRB repeatedly refused to respond to the Committee's document requests, which resulted in the Committee issuing a subpoena for the information. After the subpoena was issued, the NLRB allowed Committee staff to view the relevant documents *in camera*. The Committee is in the process of having transcribed copies of the relevant documents reviewed by an outside ethics expert before deciding how to proceed. The Committee plans to continue oversight of this matter.

Mental Health Parity—The Committee wrote to DOL's Employee Benefits Security Administration (EBSA) with requests about its efforts to ensure compliance with federal mental health parity law. DOL provided a partial response making it clear that its enforcement is still lacking and that it has also not devoted the necessary resources to enforcement. The Committee plans to continue its oversight of this issue.

COBRA and Medicare Eligibility and Enrollment—The Committee sent a request to HHS and DOL for data and information regarding the Departments' work to streamline the enrollment process for those who are eligible for both COBRA and Medicare. The letter also requested recommendations from the Departments regarding any additional authority that may be needed in order to improve that process. HHS responded that it did not believe it needed additional statutory authority to address these concerns and that efforts to improve messaging to beneficiaries are ongoing. However, the response did not provide the requested data and information. DOL did not provide any response but updated COBRA model notices to include information regarding Medicare eligibility. The Committee plans to continue its oversight of this issue.

Food Access During the Coronavirus Pandemic—The Committee sent multiple requests to USDA to ensure that the various programs authorized in FFCRA and CARES to ensure food access for those in need were being properly implemented. This includes ensuring the appropriate meal waivers were being utilized to provide school meals to children while schools were shut down. This also includes oversight on food boxes that are being sent out with religious messages. USDA gave the Committee much pushback but ultimately agreed to extend all waivers necessary to keep up flexible food service for students who are not attending school in person. Regarding the food boxes, however, USDA has been unresponsive to Committee requests.

Oversight of Long-Term Care Facilities During the Coronavirus Pandemic—The Committee sent a request to the Centers for Medicare & Medicaid Services (CMS) within HHS regarding its guidance that limit the Long-Term Care Ombudsman Program's access to facilities during the COVID-19 pandemic, which was contrary to law. CMS clarified its guidance to state that ombudsman access is still permitted during the COVID-19 pandemic.

COVID-19 Testing Coverage During the Pandemic—The Committee sent several requests to HHS and DOL requesting details about how they are ensuring that health plans, including less common health plans such as university-based health plans and self-insured group health plans, are complying with COVID-19 testing coverage required by new federal law. The agencies responded with assurances that they were monitoring these plans and that there have been few complaints received that health plans were not covering COVID-19 testing. The Committee will continue to request data on complaints received to ensure that the agencies are adequately monitoring that plans comply with the testing coverage required by law.

MINORITY VIEWS

Introduction

Committee Republicans in the 116th Congress stood firm in their efforts to oppose the destructive policies that defined the majority of the Committee Democrats' legislative agenda. In stark contrast to the hopeful words of bipartisanship the Chairman offered when the 116th Congress began, the Committee Democrats pushed through radical, one-size-fits-all legislation benefiting left-wing special interests, including Big Labor and trial lawyers. These Democrat-led efforts resulted in policies that would stifle the American economy, reduce opportunities for workers, punish small businesses, and hurt students. In stark contrast, Committee Republicans' offered pro-growth, pro-worker, and pro-student reforms so that all Americans have the opportunity to succeed.

Policy Goals

EDUCATION

Committee Republicans worked to promote access to high-quality education and lifelong learning in order to prepare students to compete in the 21st century economy.

Fighting for K–12 Students

In the 116th Congress, Democrats launched an all-out attack on private and charter schools and consistently put the interests of teacher unions above students. During Committee hearings on K–12 issues, Republicans highlighted the benefits of allowing parents to select the best school for their children. A high-quality education is the path out of poverty for millions and provides students with the tools and skills they need to build a successful life. Every child should have access to an excellent education. No child should be limited by circumstances out of their control like where they live.

On July 23, 2020, the Committee held a hearing titled "Examining How to Overcome Obstacles to Safely Reopen Public Schools." The Democrats' distaste for school choice was obvious from the title of the hearing, and their rhetoric during the hearing doubled down on the narrative that they believe money for public schools is the only way to help families and without that money schools should stay closed. Understanding that all school circumstances are unique, Committee Republicans took a more balanced approach, and emphasized that medical experts, like the American Academy of Pediatrics, were telling the nation that schools can reopen if proper safety precautions are taken.

Fighting for Better Postsecondary Education

The nation's postsecondary education system is in desperate need of complete reform. Unfortunately, the Democrats' legislation doubles down on policies that hurt students. Republicans have sought to advance innovative practices that help students transition from the classroom to a career. In contrast, Democrats have advanced a radical higher education agenda that cements the failed status and does nothing to help set up the next generation of Americans for career success.

During a three-day markup of the Democrats' bill, H.R. 4674, the *College Affordability Act*, Republicans highlighted the Democrats' dangerous bill to reauthorize the *Higher Education Act*, a bill that costs hundreds of billions of dollars, limits educational freedom, increases the cost of postsecondary education, and does nothing to close the skills gap. In opposing this bill, Committee Republicans focused on the excessive bureaucracy reinforced in the bill and the lack of support to help students in all programs—and this was before addressing the significant concerns with the astronomical cost borne by hardworking taxpayers as a result of the legislation. The Republicans' concerns were supported by the countless educational stakeholders who publicly opposed the legislation.

Fighting for a Better Workforce Development System

Building a more resilient workforce development system has long been a priority for Committee Republicans. Fortunately, there is bipartisan support behind creating a strong workforce through earn-and-learn programs like apprenticeships. Unfortunately, Democrats destroyed any meaningful reform with their demands to include kickbacks to unions in their apprenticeship bill.

On September 24, 2020, the Committee held a markup for H.R. 8294, the *National Apprenticeship Act of 2020*. The Democrats' bill will force job creators to deal with overly prescriptive requirements and will close pathways to new innovative apprenticeship models. Committee Republicans offered an amendment that would create more pathways to work for students and job seekers, by giving job creators the flexibility to innovate and develop high-quality earn-and-learn programs without overreach from Washington. Democrats claimed the bill expanded apprenticeship opportunities while maintaining a check on quality. However, giving the unions what they want is not quality; their bill limits opportunities and stifles innovation in the field. Alternatively, Republicans offered a complete substitute bill that could have been signed into law and would have actually delivered on the promise of expanding apprenticeship opportunities.

WORKFORCE

Committee Republicans are committed to providing the best outcomes for workers, small businesses, and job creators through policies that will allow the workforce to flourish without overly burdensome government intrusion.

Fighting to Protect Small Businesses

Democrats consistently pander to union bosses and other special interests at the expense of American workers. This was most apparent in their bill, H.R. 2474, the *Protecting the Right to Organize Act*, a sweeping and socialist backwards-looking bill that would harm the economy and provide a political gift to self-interested labor-union leaders, while diminishing or extinguishing the rights of workers and employers alike. This bill included a far-reaching wish list of radical labor policy changes which benefit union bosses and punish job creators, including a card-check style union election voting scheme, provisions undermining the privacy rights of employees, nationwide adoption of California's unworkable and discredited "ABC" worker classification test, a repeal of 27 states' right-to-work laws, and reinstatement of discredited, punitive Obama-era regulations. To counter the harmful provisions included in this bill, Committee Republicans offered 31 amendments during the markup of H.R. 2474 that would keep power hungry and corrupt union bosses, such as those at the United Auto Workers (UAW), in check.

Ahead of House consideration of H.R. 2474, Republican Leader Foxx and Rep. Tim Walberg (R-MI), Republican Leader of the Subcommittee on Health, Employment, Labor and Pensions, sent a letter to Chairman Scott requesting a public hearing to examine the growing corruption scandal within the UAW. This letter followed two earlier letters asking that the Chairman and the Committee take action to examine UAW corruption. The Republican requests came after press reports that federal investigators had uncovered more than a decade of rampant corruption among the senior ranks of the UAW, which included money laundering, tax fraud, bribery, and embezzling workers' hard-earned union dues for lavish personal expenses. Committee Democrats have refused to call out UAW's widespread illegal activity, and Chairman Scott never responded to Committee Republicans' requests to examine this troubling behavior.

Committee Republicans also strongly opposed H.R. 582, the *Raise the Wage Act*, which increases the federal minimum wage from \$7.25 to \$15 per hour over a five-year period and indexes it to the median hourly wage of all employees thereafter. When opposing this bill, Republicans emphasized that raising the federal minimum wage to \$15 would cause disruptive job losses and harm entry-level workers in many regions around the country. In a comprehensive study issued in July 2019, the nonpartisan Congressional Budget Office estimated that up to 3.7 million jobs would be lost from a minimum wage increase to \$15, with a median impact of 1.3 million workers losing their jobs because of the mandated wage hike.

Fighting to Protect Religious Organizations

On September 16, 2019, Republican Leader Foxx and Rep. James Comer (R-KY), then-Republican Leader of the Subcommittee on Civil Rights and Human Services, submitted a comment letter in strong support of the Department of Labor's (DOL) proposed rule protecting the religious liberty of federal contractors. DOL published the final rule in the Federal Register on December 9, 2020.

On June 25, 2019, Committee Democrats convened a full Committee hearing on H.R. 1450, the *Do No Harm Act*, a radical bill that substantially limits the application of the *Religious Freedom Restoration Act of 1993* (RFRA). During the hearing, Committee Republicans and the Republican-invited witnesses defended the First Amendment and religious freedoms guaranteed to Americans under the U.S. Constitution, and offered numerous reasons why H.R. 1450 guts RFRA's protections of religious liberty.

On December 17, 2020, Republican Leader Foxx and Rep. Ben Cline (R-VA), Republican Leader of the Subcommittee on Civil Rights and Human Services, submitted a comment letter commending the U.S. Equal Employment Opportunity Commission (EEOC) for taking steps to update its guidance on religious discrimination. Title VII of the *Civil Rights Act of 1964* prohibits employment discrimination based on religion and protects the freedom of religious organizations to make religiously-based employment decisions. EEOC's proposed updates to the compliance manual on religious discrimination addresses protections for employees and religious organizations and incorporates U.S. Supreme Court and lower court decisions since 2008, which is the last time the manual was updated.

Fighting to Empower Patients, Families, and the Employer-Based Health Care System

Committee Republicans support affordable, employer-sponsored health care options which cover 155 million Americans and have rallied behind the Trump administration's actions to expand access to association health plans.

Committee Republicans are further committed to preserving patient access and promoting innovation through bipartisan drug pricing reforms included in H.R. 19, the *Lower Costs, More Cures Act of 2019*, and rejecting Democrats' radical drug pricing scheme, H.R. 3, the *Elijah E. Cummings Lower Drug Costs Now Act*. The Democrats' health care proposal would impose a socialist mandate on our health care industry and lead to fewer lifesaving cures. Committee Republicans also fought against attempts by Democrats on and off the Committee to create and expand government-run health care through bills like H.R. 1010, H.R. 987, the *Strengthening Health Care and Lowering Prescription Drug Costs Act*, and H.R. 1425, the Patient Protection and Affordable Care Enhancement Act.

During the 116th Congress, Republicans also worked in a bipartisan fashion to advance legislation (H.R. 5800, the *Ban Surprise Billing Act*) to protect consumers from the financially crippling practice of surprise billing.

Committee Procedures

When the country is hurting its elected leaders need to step up, not shrink from hard work and tough decisions. Following the passage of H. Res. 95, a partisan resolution which radically altered the rules of the House of Representatives by upending more than 200 years of precedent and jeopardizing the deliberative process of the "People's House," Republican Leader Foxx took to the House floor and said, "Today is a dark day in the history of our country . . ."

Committee Republicans stood firm in their belief that in order to carry out the important job of serving as the people's representatives, all Members should be physically present just as America's Founders intended. That is why Committee Republicans traveled to Washington to participate in person from the Committee's hearing room.

Committee Democrats remained at home while hardworking Americans on the front lines stepped up and continued to work during this difficult time in America's history. Democrats' virtual roundtables, briefings, and hearings let Members check a box without truly working together and collaborating as the American people have hired them to do.

In addition, dysfunction persisted throughout the Democrat-run virtual hearings and hybrid markups and valuable time was wasted as Committee Democrats struggled to resolve several technical difficulties.

Furthermore, Committee Democrats trampled on the rights of the minority during the 116th Congress. During markup of H.R. 397, the *Rehabilitation for Multiemployer Pensions Act*, Democrats shut down debate on the bill and prevented Committee Republicans from offering any amendments to the bill. This nearly unprecedented action prevented Committee Republicans from offering any constructive and meaningful proposals to help workers and retirees in multiemployer pension plans that are in desperate need of a responsible, bipartisan solution. It was shameful and hypocritical coming from a majority who had previously proclaimed an interest in working together in "good faith."

Conclusion

Committee Democrats' priorities during the 116th Congress included dangerous, socialist policies that amounted to little more than a government endorsed power grab.

While Committee Democrats continue to pursue Washington-knows-best policies that limit choice, opportunity, and freedom, Committee Republicans will continue to offer policies that give students the choice to learn in a classroom that fits their needs, empower workers with the tools they need to succeed, and give job creators the flexibility they need to thrive.
