DEPARTMENT OF DEFENSE APPROPRIATIONS BILL, 2020

---

MAY 23, 2019.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

---

Mr. VISCLOSKY of Indiana, from the Committee on Appropriations, submitted the following

R E P O R T

together with

MINORITY VIEWS

[To accompany H.R. 2968]

The Committee on Appropriations submits the following report in explanation of the accompanying bill making appropriations for the Department of Defense, and for other purposes, for the fiscal year ending September 30, 2020.

BILL TOTALS

Appropriations for most military functions of the Department of Defense are provided for in the accompanying bill for fiscal year 2020. This bill does not provide appropriations for military construction, military family housing, civil defense, and military nuclear warheads, for which requirements are considered in connection with other appropriations Acts.

The President's fiscal year 2020 budget request for activities funded in the Department of Defense Appropriations Act totals \$698,212,379,000 in new budget obligational authority.

=====					

## COMMITTEE BUDGET REVIEW PROCESS

During its review of the fiscal year 2020 budget request and execution of appropriations for fiscal year 2019, the Subcommittee on Defense held a total of 16 hearings and one formal briefing during the period of February 2019 to May 2019. Hearings were held in open session, except when the security classification of the material to be discussed presented no alternative but to conduct those hearings in executive or closed session.

## INTRODUCTION

The Committee recommendation for total fiscal year 2020 Department of Defense discretionary funding is \$690,161,000,000, which is an increase of \$15,778,000,000 above the fiscal year 2019 enacted level and a decrease of \$8,051,379,000 below the budget request. The recommendation includes \$622,082,000,000 in base funding and \$68,079,000,000 for overseas contingency operations/global war on terrorism funding in title IX.

With this bill, the Committee has carried out its constitutional responsibility to recommend the appropriations necessary to provide for the common defense of the Nation. The Committee did this in a collegial and bipartisan fashion consistent with its long-standing traditions.

Oversight of the management and expenditure of the \$690,161,000,000 provided to the Department of Defense and the Intelligence Community is a core function of the Defense Subcommittee. The Subcommittee performed this core function with a reinvigorated hearing schedule and a review of the budget in detail. Seventeen hearings and briefings were held as defense and intelligence agency witnesses testified before the Subcommittee to defend the fiscal year 2020 budget request, with some agencies testifying after an absence of several years.

As in years past, the Subcommittee has thoroughly reviewed the budget request and identified programs where reductions are possible without adversely affecting the safety and effectiveness of military personnel. Examples of such reductions include programs that have been restructured since the budget was submitted, savings from favorable contract pricing adjustments, contract or schedule delays resulting in savings, unjustified new programs and cost increases, funds requested ahead of need for the year of budget execution, projected or historical underexecution, and rescissions of unneeded prior year funds.

The Committee recommendation continues to support the Department's effort to align its resources with the National Defense Strategy. This strategy reorients the Department's primary focus toward the challenges posed by great powers such as China and Russia, and their efforts to counter and overcome the technological and operational superiority long enjoyed by the United States military. The Committee agrees with the Department that this technological overmatch can no longer be assumed and recommends robust funding to develop and field new weapon systems and capabilities to address these new challenges. The Committee recommendation balances this forward-looking posture with continuing investments in the restoration of readiness and the quality of life for troops and their families.

In this recommendation, the Committee provides funding for the requested pay raise of 3.1 percent, but also recognizes the unique challenges military service poses to family life. Unconventional work hours and long-term deployments pose challenges for all servicemembers but are particularly difficult for those with children in need of childcare. The recommendation provides additional funding to increase capacity for childcare to aid in improving quality of life for servicemembers and directs the military Services to provide more information about the needs of childcare in future budget submissions. The Committee believes that access to affordable and quality childcare is one of the lynchpins to retention in the all-volunteer force, particularly for mid-career enlisted and officers.

The fiscal year 2020 budget request proposes numerous changes, new programs, and a new military force. The Committee acknowledges the need for change to address persistent problems and emerging threats. However, without detailed budget justification submitted in a timely manner, the Committee cannot recommend full funding for these initiatives. For example, an organization's budget request was submitted with one page of justification; funding requests for programs with one paragraph of explanation; and requests for additional information unfulfilled.

The Committee recommendation reasserts the congressional power of the purse against the administration's abuse of the transfer authority and reprogramming privileges provided in this Act. The Committee strongly opposes the Department's use of funds appropriated for military requirements to subsidize border wall construction. This action flouts a long-standing tradition of comity and cooperation between the executive and legislative branches that exists to meet unforeseen requirements and higher military priorities that inevitably arise between the submission of the budget request and the execution of those funds pursuant to congressional appropriations legislation. The Committee recommendation includes provisions to prevent and deter the further misuse of funds recommended by the Committee, and still allows for the meeting of urgent and emerging military requirements.

The Committee notes its disappointment of the administration's unwillingness to confront the reality of the Budget Control Act in the budget request presented for fiscal year 2020. While the initial impact of the Budget Control Act on the Department of Defense was severe, the Department received a total of \$264,000,000,000 in base budget relief since fiscal year 2012. Much of that budget relief occurred in fiscal years 2017 to 2019 when the Department's budget increased nominally by 13 percent. The fiscal year 2020 budget request proposes another increase of approximately \$33,000,000,000, or 4.9 percent. Rather than addressing the need to raise the Budget Control Act caps to support its defense budget, the choice was made instead to submit a request for nearly \$100,000,000,000 in overseas contingency operations (OCO) funds to fulfill base budget requirements to circumvent the caps. These "OCO for base" funds are in addition to OCO for direct and enduring costs associated with current operations. The Committee recommendation rejects the request to use OCO for entire appropriations within the bill and restores the proper balance of base and OCO funds.

While the Committee recommendation continues to support, through the overseas contingency operations appropriation, ongoing combat operations in Afghanistan, the Committee believes after almost eighteen years all efforts should be made to transition these enduring requirements into the base budget, especially if the United States military will serve there for the foreseeable future.

The Committee also notes the fiscal year 2020 budget submission recognizes the large increases for the Department of Defense are unsustainable and slows the rate of growth through the future years defense program. This contradicts the fact that the Department submitted a fiscal year 2020 budget request that is larger than it anticipated at this time a year ago, and the Services and combatant commands have submitted lists of unfunded requirements and priorities for fiscal year 2020 totaling approximately \$11,000,000,000. The Department claims it will be able to continue to prioritize modernization by relying on savings, reforms, and efficiencies that have been difficult to achieve. Further, the Committee notes that while the administration requests an exaggerated OCO request for fiscal year 2020, it also assumes traditional OCO expenditures will somehow dwindle to \$20,000,000,000 in fiscal year 2022, post-Budget Control Act. The Committee recommendation provides the Department with sufficient resources without resorting to gimmicks and wishful thinking.

#### DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119), and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2020, the related classified annexes and Committee reports, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action.

The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget request for fiscal year 2021, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the M-1 and O-1, which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2021.

#### REPROGRAMMING GUIDANCE

The Committee directs the Secretary of Defense to submit a prior approval reprogramming to the congressional defense committees for any reprogramming of funding above a threshold of \$10,000,000

for a military personnel; operation and maintenance; procurement; or research, development, test and evaluation line.

The Committee directs the Under Secretary of Defense (Comptroller) to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a military personnel (M-1), an operation and maintenance (O-1), a procurement (P-1), or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

#### FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

#### CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or items for which funding is specifically reduced as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the Committee report.

#### CLASSIFIED ANNEX

Adjustments to the classified programs are addressed in the classified annex accompanying this report.

#### COMMITTEE RECOMMENDATIONS BY MAJOR CATEGORY

##### ACTIVE, RESERVE AND NATIONAL GUARD MILITARY PERSONNEL

In title I of the bill, the Committee recommends a total of \$149,438,464,000 for active, reserve, and National Guard military personnel, a decrease of \$1,854,854,000 below the budget request, and an increase of \$3,368,333,000 above the fiscal year 2019 enacted level. The Committee recommendation provides full funding necessary to increase basic pay for all military personnel by 3.1 percent, as authorized by current law, effective January 1, 2020.

## OPERATION AND MAINTENANCE

In title II of the bill, the Committee recommends a total of \$206,673,518,000 for operation and maintenance support to the military Services and other Department of Defense entities, an increase of \$82,728,904,000 above the budget request, and an increase of \$12,990,643,000 above the fiscal year 2019 enacted level. The recommended levels will fund robust operational training, readiness, and facilities needs in fiscal year 2020.

## PROCUREMENT

In title III of the bill, the Committee recommends a total of \$130,544,776,000 for procurement.

Major initiatives and modifications include:

\$1,411,540,000 for the procurement of 73 UH-60 Blackhawk helicopters;

\$798,785,000 for the procurement of 48 remanufactured AH-64 Apache helicopters;

\$1,746,007,000 for the upgrade of 165 Abrams tanks to the M1A2 system enhancement package configuration;

\$1,730,360,000 for the procurement of 24 F/A-18E/F Super Hornet aircraft;

\$1,676,057,000 for the procurement of nine P-8A Poseidon multi-mission aircraft; an increase of three aircraft and \$469,356,000 above the President's request;

\$1,070,294,000 for the procurement of six E-2D Advanced Hawkeye aircraft, an increase of two aircraft and \$325,810,000 above the President's request;

\$1,214,759,000 for the procurement of 14 V-22 aircraft, an increase of four aircraft and \$248,093,000 above the President's request;

\$793,899,000 for the procurement of six CH-53K helicopters;

\$647,351,000 for the procurement of six VH-92 executive helicopters;

\$8,672,531,000 for the procurement of 90 F-35 aircraft, an increase of \$783,836,000 and 12 aircraft above the President's request: 10 short take-off and vertical landing variants for the Marine Corps, 20 carrier variants for the Navy and Marine Corps, and 60 conventional variants for the Air Force;

\$21,699,556,000 for the procurement of 11 Navy ships, including three DDG-51 guided missile destroyers, two SSN-774 attack submarines, one Frigate, one Ford class aircraft carrier, two Towing, Salvage, and Rescue Ships, two TAO fleet oilers, the continued procurement of the Columbia Class submarine, and advance procurement for a third SSN-774 attack submarine;

\$985,500,000 for the procurement of eight F-15EX aircraft;

\$1,431,267,000 for the procurement of 16 C/MC/KC-130J aircraft, an increase of \$307,064,000 and four C-130J aircraft above the President's request;

\$413,245,000 for the procurement of 15 MQ-9 Reaper unmanned aerial vehicles, including three for the Marine Corps and 12 for the Air Force;

\$2,189,529,000 for the procurement of 12 KC-46 tanker aircraft;

\$876,035,000 for the procurement of 12 combat rescue helicopters;

\$1,237,635,000 for the procurement of four space launch services;  
and  
\$200,000,000 for the Israeli Cooperative Programs under the  
Missile Defense Agency.

#### RESEARCH, DEVELOPMENT, TEST AND EVALUATION

In title IV of the bill, the Committee recommends a total of  
\$100,455,412,000 for research, development, test and evaluation.

Major initiatives and modifications include:

\$419,051,000 for the continued development of the Columbia  
class ballistic missile submarine;

\$590,425,000 for the continued development of the unmanned  
carrier aviation program;

\$516,955,000 for the continued development of the CH-53K heli-  
copter;

\$1,613,848,000 for the continued development of the F-35 Light-  
ning Joint Strike Fighter aircraft;

\$3,003,899,000 for the continued development of the B-21 bomb-  
er;

\$757,923,000 for the development of a Presidential Aircraft Re-  
placement;

\$427,300,000 for the design, build, and test of the Army's Future  
Attack Reconnaissance Aircraft;

\$378,400,000 for the Army's Next Generation Combat Vehicle;

\$428,395,000 for Long Range Precision Fires;

\$432,009,000 for space launch services;

\$452,875,000 for the Global Positioning System IIIF;

\$445,302,000 for the Global Positioning System III Operational  
Control Segment;

\$1,193,688,000 for the Next-Generation Overhead Persistent In-  
frared system;

\$3,527,921,000 for the Defense Advanced Research Projects  
Agency; and \$300,000,000 for the Israeli Cooperative Programs  
under the Missile Defense Agency.

#### DEFENSE HEALTH PROGRAM

In title VI of the bill, the Committee recommends a total of  
\$33,476,039,000 for the Defense Health Program to support world-  
wide medical and dental services for active forces and other eligible  
beneficiaries.

#### OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON TERRORISM REQUIREMENTS

In title IX of the bill, the Committee recommends a total of  
\$68,079,000,000 for overseas contingency operations/global war on  
terrorism (OCO/GWOT) requirements.

Military Personnel: The Committee recommends a total of  
\$4,485,808,000 for military personnel OCO/GWOT requirements in  
title IX of the bill.

Operation and Maintenance: The Committee recommends a total  
of \$49,772,124,000 for operation and maintenance OCO/GWOT re-  
quirements in title IX of the bill.

**Procurement:** The Committee recommends a total of \$11,748,074,000 for procurement OCO/GWOT requirements in title IX of the bill.

**Research, Development, Test and Evaluation:** The Committee recommends a total of \$844,368,000 for research, development, test and evaluation OCO/GWOT requirements in title IX of the bill.

#### SPECIAL OPERATIONS COMMAND OBLIGATION AND EXPENDITURE PLANS

The Committee seeks additional transparency regarding the obligation and expenditure of funds for the Special Operations Command procurement and research and development accounts. The existing budget justification and quarterly execution data lack certain details that enable the Committee to analyze trends and program office performance. To facilitate appropriate oversight, the Committee directs the Commander of the United States Special Operations Command to provide the House and Senate Appropriations Committees detailed spend plans at the project level for the procurement and research and development appropriations accounts. The spend plans shall include all active fiscal years, with monthly obligation and target benchmarks. The first spend plan should be provided not later than 45 days after the enactment of this Act, and subsequent spend plans should be provided annually with the submission of the budget request.

#### SUPPORTING “THE AIR FORCE WE NEED”

The Committee has considered the Air Force budget request in conjunction with the analysis produced by the Air Force in response to section 1064 of the National Defense Authorization Act for Fiscal Year 2018. This analysis, publicly referred to by Air Force leadership as “The Air Force We Need,” indicates that the Service is too small to fulfill the demands of the 2018 National Defense Strategy at a “low-moderate” level of risk. To fill this gap, the Air Force indicates a need to grow to 386 operational squadrons from the current 312 squadrons, including the addition of seven fighter squadrons. Based on this notional growth in fighter squadrons, the Air Force has identified the need to annually procure 72 new fighter aircraft.

The Committee notes that the resources to initiate and sustain such growth simply do not exist within the fiscal year 2020 budget request or future years defense program, nor does the Air Force’s five-year plan for fighter procurement achieve 72 new aircraft within any year. The plan that has been submitted to the Committee requests 48 F-35A aircraft in fiscal year 2020 and every year thereafter through 2024, a reduction of 30 aircraft compared to the 2017 Selected Acquisition Report profile for the F-35 program. In addition, the request includes funding for the procurement of eight new F-15 aircraft to begin recapitalization of the F-15C/D fleet. In this plan, F-15 procurement would grow to 18 aircraft in fiscal years 2021–2024, achieving a total fighter aircraft procurement rate of 66 during the same period.

The Committee does not view the “Air Force We Need” analysis as a definitive solution to the Air Force’s requirements under the National Defense Strategy, or as a firm goal to guide immediate resourcing decisions, but rather as the first step of an iterative an-

alytical, programming, and budgeting process to be undertaken in dialogue with the congressional defense committees. The Committee believes that the demands of the National Defense Strategy must be met with a balance of increased capacity in existing systems and the development and fielding of new capabilities, subject to fiscal constraints—which the Air Force was not required to consider in response to the section 1064 mandate.

To address concerns about capacity, including the fighter fleet that has been emphasized by Air Force leadership, the Committee recommendation includes a total of 68 new fighter aircraft. This includes the eight new-build F-15 aircraft requested and 60 F-35A aircraft, an increase of 12 aircraft above the request. The F-35A quantity of 60 is an increase of four aircraft above the fiscal year 2019 enacted level. The Committee notes that this recommendation procures more than seven “fifth generation” fighters for every single new “fourth generation” fighter. The Committee recommends this as a reasonable balance between advanced capability and near-term capacity concerns.

The Committee finds that the Air Force’s requested investments in the development of future capability generally are consistent with the requirements identified in the “Air Force We Need” analysis and considerations of affordability. The Committee’s recommendations with respect to the Air Force’s request include: full funding of the request for the F-35 continuous capability development and delivery program, also known as Block 4; full funding of the request for the B-21 bomber program; full funding of the request for the Stand-in Attack Weapon program; full funding of the request for hypersonic weapons (including the Air-launched Rapid Response Weapon and Hypersonic Conventional Strike Weapon prototyping efforts); an additional \$20,000,000 above the request for directed energy prototyping; full funding of the request for advanced engine development (which has the potential to provide increased capability and lower fuel consumption costs for the F-35 and potential future aircraft); an additional \$75,000,000 to accelerate active electronically scanned array radar upgrades for the F-16; an additional \$50,000,000 for the Low Cost Attritable Aircraft Technology program; and \$500,000,000 for the Next Generation Air Dominance program.

#### POSITIONING THE F-35 PROGRAM FOR CONTINUED SUCCESS

The Committee continues to recommend strong support for the F-35 program. The Committee recognizes that the F-35 is critical to the ability of the Department of Defense to meet the demands of the National Defense Strategy and its emphasis on great power competition, a component of which is the rapid advances made by adversaries in anti-air and basing access denial capabilities designed to negate United States advantages in technology and operational expertise.

The Committee observes that the Department of Defense, and the Air Force in particular, have sent conflicting and confusing signals with respect to the F-35 program. The fiscal year 2020 request repeats a pattern of shifting aircraft quantities to future years, reducing the planned procurement from 84 to 78. Further, the Air Force submitted a fiscal year 2020 budget request that flattens F-35A procurement at 48 aircraft per year through the future

years defense program despite the F-35A program of record remaining stable at 1,763 aircraft. The Committee also observes that departmental and Service leaders consistently have expressed concern about F-35 operation and sustainment costs. At the same time, the Chief of Naval Operations, the Commandant of the Marine Corps, and the Chief of Staff of the Air Force submitted unfunded requirements lists that included twelve additional F-35As, two additional F-35Bs, and four additional F-35Cs. The Committee recommendation includes \$1,042,800,000 for 12 additional F-35A aircraft, fully funds the Block 4 development program, and fully funds the requested increases for spares and depot activation.

The Committee acknowledges the Department's justified concerns regarding F-35 sustainment. The global F-35 fleet is projected to more than triple in size by 2023. As detailed in a recent report by the Government Accountability Office (GAO), the F-35 is failing to meet warfighter targets for availability and mission capable rates, even for later production aircraft. GAO identified spare parts as a major driver of this problem. Currently the F-35 enterprise is unable to comprehensively and accurately inventory parts, efficiently move parts between locations, accurately match deployable spares packages to deploying units, or capture cost information for all the parts that are procured. The Committee strongly supports the Department's plans to strengthen organic F-35 sustainment capability. The Committee understands the Department has requested, but as of May 2019 has not received, a proposal from the prime contractor for the data necessary to provision an organic supply chain and catalogue all F-35 parts in the Department's supply inventory. While the Committee fully funds the \$728,671,000 requested for additional spares in the Navy and Air Force's procurement budgets, the Committee lacks full confidence that such funding or the spare parts to be acquired will be used efficiently and believes that acquiring the cost and technical data for spare parts is a necessary step toward solving this problem. The Committee therefore directs that no more than 50 percent of these funds may be obligated or expended until 15 days after the Director of the F-35 Joint Program Office submits a certification to the congressional defense committees that the Department of Defense has received an adequate cost proposal for such data. The Committee further directs the Secretary of Defense to include the costs of acquiring these data, and the accounts in which such costs are to be funded, in future budget exhibits (beginning with fiscal year 2021) and briefing materials for the congressional defense committees.

#### JOINT ENTERPRISE DEFENSE INFRASTRUCTURE

The Committee is aware that the Department of Defense continues to pursue a single vendor contract strategy for procurement of its Joint Enterprise Defense Infrastructure (JEDI) cloud computing services. The Committee continues to be concerned with this approach given the rapid pace of innovation in the industry and that this approach may lock the Department of Defense into a single provider for potentially as long as ten years.

Since the Department of Defense adopted its single vendor strategy in 2017, other federal agencies have decided to pursue a multiple vendor cloud strategy as recommended by the Office of Man-

agement and Budget (OMB) “Cloud Smart” strategy. The Committee notes that the Central Intelligence Agency (CIA), on behalf of the intelligence community, is now pursuing a multi-vendor, multi-cloud approach in its new Commercial Cloud Enterprise procurement, a follow-on to its single vendor Commercial Cloud Services contract awarded in 2013. Specifically mentioned in the CIA market survey materials is a statement that, “[t]he Government is pursuing a multiple cloud strategy to increase access to cloud innovation and reduce the disadvantages associated with using a single cloud service provider.” The Committee encourages the Department of Defense to adopt lessons learned from the CIA’s experience implementing cloud computing over the past five years. Further, the Committee believes that the Department of Defense is deviating from established OMB policy and industry best practices, and may be failing to implement a strategy that lowers costs and fully supports data innovation for the warfighter.

Therefore, the Committee directs that no funds may be obligated or expended to migrate data and applications to the JEDI cloud until the Chief Information Officer of the Department of Defense provides a report to the congressional defense committees on how the Department plans to eventually transition to a multi-cloud environment, as described in its January 2019 Cloud Initiative Report to Congress. The Chief Information Officer shall provide a list of specific contracting opportunities for commercial cloud services the Department is contemplating over the next two years; a description of each contract opportunity; whether it will be structured as a full and open competition or sole source contract; the Department’s planned use for the cloud service; the estimated fiscal year and quarter for the release of each solicitation; planned contract type and structure; and estimated maximum contract value and period of performance, including each option.

Further, the Chief Information Officer of the Department of Defense is directed to submit quarterly reports on the implementation of its “Cloud Strategy and Cloud Initiative” to the House and Senate Appropriations Committees beginning not later than 30 days after the enactment of this Act.

#### ORGANIZATION AND MANAGEMENT OF SPACE PROGRAMS

The Committee recognizes that unfettered access to and freedom to operate in space is vital to national security. Space provides the nation with critical information and global situational awareness to anticipate threats, respond to crises, project power across the globe, and conduct military operations. Therefore, the Committee is very concerned with the rapid advances potential adversaries are making to develop capabilities that threaten United States space assets on orbit. The Committee commends the Department of Defense for its increased focus on addressing these threats and developing capabilities to improve the resilience of United States space systems. Further, the Committee understands that this is an urgent problem that will require the Department to reorient its strategies, organizational constructs, and program priorities to meet the reality of these threats.

The Department proposed a three-pronged approach to address these challenges: (1) establishment of a Unified Combatant Command for space, the United States Space Command; (2) stand up

of a new military service, the United States Space Force; and (3) creation of a Space Development Agency, separate from the Space Force, and under the management of the Under Secretary of Defense for Research and Engineering.

The Committee supports the establishment of a Unified Combatant Command for space and believes the command is an important step in strengthening the operational focus and emphasis on protecting and defending national space capabilities. The Committee recommendation fully funds the United States Space Command at the requested level.

The Department has also proposed legislation to establish the Space Force as a separate service within the Department of the Air Force, with an Under Secretary for Space and a Chief of Staff for Space. While the Committee appreciates the intent of the proposal, the plan leaves many unanswered questions and lacks important details and supporting analysis to justify the proposed size, scope, cost, roles, and authorities for the new military service. Further, the Committee notes that it is fully within the Department's current authority to make space a higher priority without creating a new military service and is not persuaded that the specific plan proposed justifies the additional overhead cost and disruption across the Department. Therefore, the Committee recommendation does not fully fund the request to establish the proposed Space Force. The Committee makes this decision without prejudice and includes funds for the Department to examine and refine alternative organizational options that will streamline the management and decision-making process and minimize overhead cost and bureaucracy.

The fiscal year 2020 budget request also includes funds to create a new Space Development Agency within the Office of the Under Secretary of Defense for Research and Engineering. The Committee recognizes the need for rapid development and fielding of space assets to meet the current threat environment as outlined by the National Defense Strategy. However, while the Committee is generally supportive of the concept of the Space Development Agency, the Committee is concerned that this effort may create a parallel space program that will overlap and duplicate existing programs and missions in the Air Force. Therefore, the Committee recommendation includes a legislative provision requiring the Space Development Agency and the Air Force to work together to define a unified and integrated space architecture and to clarify roles and responsibilities.

#### COMPLIANCE WITH CONTRACT SERVICES LAW

The Committee notes that 10 U.S.C. 2329 requires the Secretary of Defense to ensure that appropriate and sufficiently detailed data are collected and analyzed to support the validation of requirements for services contracts and inform the planning, programming, budgeting and execution process of the Department of Defense. Appropriated funds should not be used to fund service contracts that have not complied with the planning, programming, budgeting and total force management requirements of 10 U.S.C. sections 2329 and 2330a.

According to several findings by the Government Accountability Office, spending on service contracts has increased significantly

over the past few years. Service contracts are a more expensive substitute for hiring the authorized civilian workforce for the intended functions. The Committee reiterates that enacted legislative provisions must be fully implemented by the Department of Defense.

#### CIVILIAN CYBER WORKFORCE

The Committee recognizes that the Department of Defense has challenges hiring individuals with the necessary security clearances to work in the cyber environment and encourages the Secretary of Defense to find innovative solutions to increase the civilian cyber workforce. The Committee believes that the Department of Defense should collaborate with colleges and universities to recruit cyber-focused college students during their junior or senior years, with the intent that upon graduation the student will have a completed security clearance.

The Committee directs the Secretary of Defense to submit a report to the House and Senate Appropriations Committees not later than 60 days after the enactment of this Act on Department-wide efforts to increase recruitment of cyber-focused individuals and to increase the throughput of security clearances to grow the number of approved requisite applicants.

#### INSIDER THREAT DETECTION AND USER ACTIVITY MONITORING

The Committee remains concerned that the Department of Defense may not be in compliance with long-standing national directives aimed at preventing insider threats. The Committee is aware that the Department has established a task force to develop an approach to user activity monitoring throughout the Department. The Committee directs the Chief Information Officer of the Department of Defense, in coordination with the Undersecretary of Defense for Intelligence, to submit a report to the House and Senate Appropriations Committees not later than December 1, 2019 regarding user activity monitoring. The report shall include an update on the work of the task force; the feasibility of comprehensive user activity monitoring coverage across the Department; any obstacles to establishing such a program, to include legal, financial, contractual, or cultural issues; identification of the resources required to implement the program; and an explanation of how the program would comply with all relevant national directives aimed at preventing insider threats.

#### SPECTRUM FOR ADVANCED WIRELESS SERVICES

The Committee remains concerned by the pace with which the Department of Defense is reviewing its spectrum requirements. The Committee directs the Secretary of Defense, in coordination with the Administrator of the National Information Technology Agency, to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act which details the Department's plans to submit a proposal under the Spectrum Pipeline Act to study the potential for introducing advanced wireless services in the 3450–3550 MHz band on a shared basis, the potential for spectrum sharing within the 3450–3550 MHz band to spur commercial wireless innovation, the potential for spec-

trum sharing within the 3.1–3.45 GHz band to introduce advanced wireless services, and timelines for the introduction of such advanced wireless services.

#### CYBERSPACE ACTIVITIES BUDGET JUSTIFICATION SUBMISSIONS

The Committee directs the Secretary of Defense to ensure that future cyberspace budget justification materials be delivered to the congressional defense committees not later than five days after the release of the annual budget request. Late arrival of the justification material presents an insurmountable hurdle to conducting a thorough budget review and providing proper congressional oversight.

## TITLE I

### MILITARY PERSONNEL

The fiscal year 2020 Department of Defense military personnel budget request totals \$151,293,318,000. The Committee recommendation provides \$149,438,464,000 for the military personnel accounts. The table below summarizes the Committee recommendations:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST
-----			
RECAPITULATION			
MILITARY PERSONNEL, ARMY.....	43,347,472	42,314,762	-1,032,710
MILITARY PERSONNEL, NAVY.....	31,831,199	31,679,229	-151,970
MILITARY PERSONNEL, MARINE CORPS.....	14,175,211	14,064,751	-110,460
MILITARY PERSONNEL, AIR FORCE.....	31,284,959	31,082,769	-202,190
RESERVE PERSONNEL, ARMY.....	4,964,671	4,847,321	-117,350

GRAND TOTAL, MILITARY PERSONNEL.....	151,293,318	149,438,464	-1,854,854
	=====	=====	=====

## MILITARY PERSONNEL OVERVIEW

The Committee recommendation provides \$149,438,464,000 for the military personnel accounts, which funds military pay and allowances, recruitment and retention initiatives, and overall quality of life programs for active duty, National Guard, and reserve personnel. The recommendation provides increased basic pay for all military personnel by 3.1 percent as authorized by current law, effective January 1, 2020. The Committee continues to encourage constructive evaluations of recruitment and retention programs, bonus and special pay incentives, and personnel benefit programs for fiscal year 2020. The Committee remains supportive of programs intended to enhance the morale and quality of life of military personnel and their families.

## SUMMARY OF END STRENGTH

The fiscal year 2020 budget request includes an increase of 1,400 in total end strength for the active forces and a decrease of 16,900 in total end strength for the Selected Reserve as compared to the fiscal year 2019 authorized levels. The following tables summarize the Committee recommendations for end strength levels, both in the aggregate and for each active and Selected Reserve component.

## OVERALL ACTIVE END STRENGTH

Fiscal year 2019 authorized .....	1,338,100
Fiscal year 2020 budget request .....	1,339,500
Fiscal year 2020 recommendation .....	1,337,500
Compared with fiscal year 2019 .....	– 600
Compared with fiscal year 2020 budget request .....	– 2,000

## OVERALL SELECTED RESERVE END STRENGTH

Fiscal year 2019 authorized .....	817,700
Fiscal year 2020 budget request .....	800,800
Fiscal year 2020 recommendation .....	800,800
Compared with fiscal year 2019 .....	– 16,900
Compared with fiscal year 2020 budget request .....	– – –

## SUMMARY OF MILITARY PERSONNEL END STRENGTH

	Fiscal year 2020				
	Fiscal year 2019 authorized	Budget Request	Committee Recommended	Change from request	Change from fiscal year 2019
<b>Active Forces (End Strength)</b>					
Army .....	487,500	480,000	478,000	- 2,000	- 9,500
Navy .....	335,400	340,500	340,500	- - -	5,100
Marine Corps .....	186,100	186,200	186,200	- - -	100
Air Force .....	329,100	332,800	332,800	- - -	3,700
Total, Active Forces .....	1,338,100	1,339,500	1,337,500	- 2,000	- 600
<b>Guard and Reserve Forces (End Strength)</b>					
Army Reserve .....	199,500	189,500	189,500	- - -	- 10,000
Navy Reserve .....	59,100	59,000	59,000	- - -	- 100
Marine Corps Reserve .....	38,500	38,500	38,500	- - -	0
Air Force Reserve .....	70,000	70,100	70,100	- - -	100
Army National Guard .....	343,500	336,000	336,000	- - -	- 7,500
Air National Guard .....	107,100	107,700	107,700	- - -	600
Total, Selected Reserve .....	817,700	800,800	800,800	- - -	- 16,900
Total, Military Personnel .....	2,155,800	2,140,300	2,138,300	- 2,000	- 17,500

## REPROGRAMMING GUIDANCE FOR MILITARY PERSONNEL ACCOUNTS

The Committee directs the Secretary of Defense to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2020 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Committee directs the Secretary of Defense to use the normal prior approval reprogramming procedures to transfer funds in the Services' military personnel accounts between budget activities in excess of \$10,000,000.

## MILITARY PERSONNEL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the Committee report. Below threshold reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

## MINORITY OUTREACH AND OFFICER ACCESSIONS

Minorities remain underrepresented in the general officer ranks across the Services. To build a more diverse organization, the Committee supports efforts to conduct effective outreach and recruiting programs focused on increasing officer accessions in minority communities and encourages the Secretary of Defense and the Service

Secretaries to support efforts, with both personnel and resources, to improve diversity in the military.

#### CULTURAL SENSITIVITY TRAINING

The Committee recognizes the Department of Defense and the Services have multiple cultural sensitivity training programs for military personnel. The Committee also believes in the importance of protecting servicemembers' rights regarding religious exercise and ethnic heritage. As such, the Committee supports efforts to identify resource and personnel gaps that may exist in the Office of Diversity Management and Equal Opportunity of the Department of Defense as well as efforts to identify existing gaps in protections for new and prospective servicemembers.

#### TRAUMA TRAINING PROGRAM

The Committee recognizes the valuable support that universities, hospitals, and other military partners provide by offering civilian based emergency response trauma and critical care training including public health, bio-environmental, and biomedical instruction to sustain capabilities of the National Guard Enhanced Response Forces Packages, National Guard Homeland Response Forces, and Army Reserve Consequence Management Response Forces. The Committee encourages the Director of the National Guard Bureau and the Chiefs of the reserve components to continue pursuing advanced trauma and public health training with these civilian partners in order to maintain unit readiness. The Committee also encourages the development of enhanced medical and critical care preparedness programs.

#### SEXUAL ASSAULT PREVENTION AND RESPONSE

The Committee is troubled by the ongoing epidemic of sexual assault in the military and at the Service academies and believes that this will persist until a change in culture occurs across all Services at every level. The Department of Defense provides an annual report to Congress which provides details on sexual assaults involving servicemembers. However, the most recent report's findings make it clear that more action by the Department is necessary to combat this widespread problem. In addition to the annual report, the Committee directs the Director of the Department of Defense Sexual Assault Prevention and Response Office to brief the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act on the initiatives the Department is implementing to reform how the military prevents, responds to, and adjudicates sexual assault cases, as well as the efforts underway to develop robust research, evaluation, and analytics to assess the effectiveness of its prevention efforts.

The Committee fully funds the budget request of \$259,222,000 for Sexual Assault Prevention and Response programs at the Service level and provides an additional \$35,000,000 for the Department of Defense Sexual Assault Prevention and Response Program Office for transfer to the Services, including the National Guard and reserve components.

## SUICIDE PREVENTION AND OUTREACH

The Committee is concerned by the number of suicides among servicemembers. The Committee recognizes that programs like the National Guard Bureau's national counseling and suicide prevention peer-to-peer outreach programs are vital to reducing the number of suicides among guardsmen. The Committee encourages the Chief of the National Guard Bureau to continue supporting such programs.

## BASIC ALLOWANCE FOR HOUSING

The Committee recognizes the importance of Basic Allowance for Housing (BAH) for servicemembers seeking to secure housing in the local economy and for veteran students receiving BAH through the Post 9/11 GI Bill. As housing and rental markets near duty stations continue to fluctuate, the Committee notes the importance of acquiring up-to-date data and stakeholder input in assessing BAH rates. The Committee encourages the Secretary of Defense to prioritize active duty servicemember survey data and input in making BAH determinations.

## MID-CAREER RETENTION OF FEMALES IN THE MILITARY

The Committee is concerned by reports that the attrition level of females in the military is higher than for males at various mid-career points. The Committee urges the Secretary of Defense to develop and adopt a survey for servicemembers as they leave the military to assess the underlying reasons for mid-career attrition.

## MILITARY PERSONNEL, ARMY

Fiscal year 2019 appropriation .....	\$42,690,042,000
Fiscal year 2020 budget request .....	43,347,472,000
Committee recommendation .....	42,314,762,000
Change from budget request .....	-1,032,710,000

The Committee recommends an appropriation of \$42,314,762,000 for Military Personnel, Army which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST
50 MILITARY PERSONNEL, ARMY			
100 ACTIVITY 1: PAY AND ALLOWANCES OF OFFICERS			
150 BASIC PAY.....	7,521,813	7,521,813	---
200 RETIRED PAY ACCRUAL.....	2,327,136	2,327,136	---
220 THRIFT SAVINGS PLAN MATCHING CONTRIBUTIONS.....	75,832	75,832	---
250 BASIC ALLOWANCE FOR HOUSING.....	2,173,982	2,173,982	---

<b>BA-6: OTHER MILITARY PERSONNEL COSTS</b>			
<b>JUNIOR ROTC</b>	<b>29,746</b>	<b>30,246</b>	<b>500</b>
Program increase		500	
<b>UNDISTRIBUTED ADJUSTMENTS</b>		<b>-1,033,210</b>	<b>-1,033,210</b>
Historical unobligated balances		-406,210	
Projected overestimation of end strength		-627,000	

## END STRENGTH

The fiscal year 2020 budget request includes revised end strength levels for fiscal year 2019 for each Army military personnel account. The revision reflects an overall reduction of 27,800 in end strength from the fiscal year 2019 authorized levels for the active and the reserve components to the Army's currently projected levels. The Committee notes that the Army's failure to achieve the fiscal year 2019 authorized end strength resulted in an asset of over \$1,000,000,000 in fiscal year 2019. This is the second consecutive year that the Army's overestimation of end strength resulted in a sizeable asset in the military personnel accounts. The Committee does not believe this is efficient budgeting and is discouraged by this trend.

The Committee supports the Army's effort to grow its forces to align with the National Defense Strategy and rebuild warfighting readiness, but the Committee lacks confidence in the Army's ability to accurately forecast end strength and in the Army's subsequent budget projections. As a result, the Committee recommends funding to support an Army active force end strength of 478,000 for fiscal year 2020, which is equal to the Army's revised fiscal year 2019 end strength level. The Committee remains willing to review future reprogramming requests for the Army's military personnel accounts should the Army achieve major personnel growth.

## MILITARY PERSONNEL, NAVY

Fiscal year 2019 appropriation .....	\$30,164,481,000
Fiscal year 2020 budget request .....	31,831,199,000
Committee recommendation .....	31,679,229,000
Change from budget request .....	- 151,970,000

The Committee recommends an appropriation of \$31,679,229,000 for Military Personnel, Navy which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

## CYBERSECURITY PROFESSIONALS

The Committee notes the importance of cybersecurity programs for the advancement of cybersecurity professionals in the Department of Defense. The Committee encourages the Secretary of the Navy to work with higher education institutions, including Historically Black Colleges and Universities, Hispanic Serving Institutions, and other Minority Serving Institutions, to develop programs for Navy ROTC midshipmen to prepare more students in critical cybersecurity skillsets.

## MILITARY PERSONNEL, MARINE CORPS

Fiscal year 2019 appropriation .....	\$13,779,038,000
Fiscal year 2020 budget request .....	14,175,211,000
Committee recommendation .....	14,064,751,000
Change from budget request .....	- 110,460,000

The Committee recommends an appropriation of \$14,064,751,000 for Military Personnel, Marine Corps which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

REPROGRAMMING GUIDANCE FOR OPERATION AND MAINTENANCE  
ACCOUNTS

The Committee directs the Secretary of Defense to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2020 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Committee directs the Secretary of Defense to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities or between sub-activity groups in the case of Operation and Maintenance, Defense-Wide, in excess of \$10,000,000.

In addition, the Secretary shall follow prior approval reprogramming procedures in excess of \$10,000,000 out of the following readiness sub-activity groups:

*Army:*

- Maneuver units
- Modular support brigades
- Aviation assets
- Land forces operations support
- Force readiness operations support
- Land forces depot maintenance
- Base operations support
- Facilities sustainment, restoration, and modernization
- Specialized skill training

*Navy:*

- Mission and other flight operations
- Fleet air training
- Aircraft depot maintenance
- Mission and other ship operations
- Ship depot maintenance
- Facilities sustainment, restoration, and modernization
- Base operating support

*Marine Corps:*

- Operational forces
- Field logistics
- Depot maintenance
- Facilities sustainment, restoration, and modernization
- Base operating support

*Air Force:*

- Primary combat forces
- Combat enhancement forces
- Depot maintenance
- Operating forces depot maintenance
- Facilities sustainment, restoration, and modernization
- Contractor logistics support and system support
- Flying hour program
- Base support
- Mobilization depot maintenance
- Training and recruiting depot maintenance

Administration and service-wide depot maintenance

*Air Force Reserve:*

Depot maintenance

*Air National Guard:*

Depot maintenance

Additionally, the Secretary of Defense is directed to use normal prior approval reprogramming procedures when implementing transfers in excess of \$10,000,000 into the following budget sub-activities:

*Operation and Maintenance, Army:*

Other personnel support/recruiting and advertising

*Operation and Maintenance, Army National Guard:*

Other personnel support/recruiting and advertising

#### REPROGRAMMING GUIDANCE FOR SPECIAL OPERATIONS COMMAND

The Committee directs the Secretary of Defense to submit a baseline report that shows the Special Operations Command's operation and maintenance funding by sub-activity group for the fiscal year 2020 appropriation not later than 60 days after the enactment of this Act. The Secretary of Defense is further directed to submit quarterly execution reports to the congressional defense committees not later than 45 days after the end of each fiscal quarter that addresses the rationale for the realignment of any funds within and between budget sub-activities and the movement of any base funds used to support overseas contingency operations. Finally, the Secretary of Defense is directed to notify the congressional defense committees 30 days prior to the realignment of funds in excess of \$5,000,000 between sub-activity groups.

#### OPERATION AND MAINTENANCE SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the Committee report. Below threshold reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

#### OPERATION AND MAINTENANCE QUARTERLY UPDATES

Regular interaction with each of the Service's financial management offices enhances the ability of the Committee to perform its essential oversight responsibilities. Through these interactions, the Committee is able to gain a better understanding of the challenges each of the Services face with the obligation and execution of their programs and contracts. The Committee notes the successful quarterly meetings this year with each of the Services and directs the Director of each of the Service's Operations Divisions (Financial Management and Budget) to continue to provide quarterly briefings

to the House and Senate Appropriations Committees on their respective operation and maintenance execution rates in fiscal year 2020.

#### DEFENSE LANGUAGE PROGRAM

The Committee appreciates the continued emphasis the Department of Defense places on advanced foreign language and cultural training and recognizes its necessity for mission success and readiness. The Committee fully supports the Defense Language Institute Foreign Language Center and its efforts to ensure that necessary requirements for advanced foreign language and cultural training and materials are being met. Members of the military and intelligence communities must be able to communicate and interact directly with local populations, guides, foreign allies, and contractors to fully understand and respect their cultures. The Committee encourages the Secretary of Defense to continue efforts to improve existing capabilities and to ensure that requirements for authentic advanced foreign language training and cultural materials are being fully met.

#### RESTORING READINESS

The Committee recommendation includes additional readiness funds for each of the Services within the operation and maintenance accounts which shall only be used to improve military readiness, including providing for increased training and depot maintenance activities. None of the funding provided may be used for recruiting, marketing, or advertising programs. The additional funding is a congressional special interest item. The Committee directs the Secretary of Defense and the Service Secretaries to submit a detailed spend plan by sub-activity group to the congressional defense committees not less than 30 days prior to the obligation of these funds.

#### 90/10 RULE

For-profit colleges often target servicemembers and veterans with aggressive marketing and recruiting because of a loophole that allows for-profit colleges to exclude any federal aid and educational benefits received from sources other than the Department of Education from the cap on federally derived institutional revenue. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that provides an analysis of all for-profit institutions that would exceed the 90/10 federal funding limits if revenue from the Department of Veterans Affairs and Department of Defense were included in the 90/10 calculation the same way that Title IV of the Higher Education Act funds are included for the most recent academic year. The report shall also include a list of schools that receive between 85 percent or more of their revenue from Title IV of the Higher Education Act, the Department of Veterans Affairs, and the Department of Defense sources for the most recent academic year.

## CHILDCARE

The Committee recommendation includes additional funds for the Services to address the ongoing challenges that the lack of available childcare presents to servicemembers and their families. The Committee is concerned that in some geographical locations, the delays in providing affordable and acceptable childcare are negatively impacting the quality of life for servicemembers and their families. Given the demanding jobs that servicemembers must execute, creating unique solutions is required.

The Committee notes that each of the Services' budget requests increases funding for the sustainment, repair, and base operation budget lines. The Services should use these additional funds to make childcare development centers a priority by addressing mold remediation and other urgent repairs.

The Committee directs the Service Secretaries to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that details their plans to address the obstacles to childcare, whether it be additional childcare development centers, additional staff, or acceptable alternatives for fiscal year 2020 and the future year defense program to ensure that these challenges are expeditiously met. The report shall include associated funding requirements for each identified course of action. Further, the Committee directs that the Service Secretaries include the number of children on childcare waiting lists in their fiscal year 2021 budget justification materials.

## MILITARY FOOD TRANSFORMATION

The Committee remains concerned about the growing obesity crisis in the Department of Defense and its impact on military recruitment, readiness, and retention. The Committee is concerned that the Department's current food system may be overly complex and inefficient, which may result in higher costs per meal at dining facilities, unnecessary internal competition between on-base food service providers, and poor food service planning. Emphasis should be placed on providing nutritious food options at dining facilities and modernizing the on-base food system by using best practices from universities and industry partners.

The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act on ongoing food transformation efforts. The report should include details of the Department's ongoing efforts, costs associated with each effort, and an outline for a potential demonstration pilot program at multiple military installations.

The Committee also directs the Comptroller General to audit a sample size of the Services' dining facilities to determine whether the Services are accurately measuring meal card holder utilization rates, costs per meal, and all input costs such as food, operating, capital expenditures, facility sustainment, and military labor. The audit report shall be submitted to the congressional defense committees not later than 180 days after the enactment of this Act.

## VIEQUES AND CULEBRA

The Committee remains concerned with the pace and scope of environmental restoration on the island municipalities of Culebra and Vieques in Puerto Rico. The Committee encourages the Secretary of the Army and the Secretary of the Navy to work closely with the Environmental Protection Agency, the Fish and Wildlife Service, and the Puerto Rico Environmental Quality Board to maximize public participation and transparency in the decontamination process in order to achieve a thorough decontamination result on both islands.

The Committee also is concerned about public safety on the northwest peninsula of Culebra due to unexploded ordnance identified there by the Army. The Committee encourages the Secretary of the Army to exercise available authorities, including the authority clarified through the National Defense Authorization Act for Fiscal Year 2015, to decontaminate the northwest peninsula. Additionally, the Committee directs the Secretary of the Army and the Secretary of the Navy each to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act detailing all respective decontamination authorities and plans applicable to Culebra and Vieques, to include particular emphasis on the decontamination of the northwest peninsula of Culebra.

The Committee also notes that there are gaps in information about types and amounts of ordnance used on Vieques and Culebra, as well as about potential links between the ordnance used and present threats to public health. The Committee directs the Secretary of the Army and the Secretary of the Navy to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act on previously released information related to the ordnance on the two islands. The Committee also urges the Secretaries to publish the relevant documents on the internet in a single location and in a user-friendly format.

## PILOT SHORTAGES

The Committee supports efforts throughout the Department of Defense to address the shortage of pilots across the Services. The Committee encourages the Secretary of Defense to work with higher education institutions, including Historically Black Colleges and Universities, Hispanic Serving Institutions, and other Minority Serving Institutions, to develop programs that will prepare more students to meet the eligibility requirements for pilot training. In addition, the Committee encourages the Secretary of the Air Force to examine university-based training for Air Force ROTC cadets and civilian aviation students as pilots and sensor operators for remotely piloted aircraft.

## CIVILIAN PAY

The Committee is disappointed that the budget request did not include funding for a pay raise for civilian federal employees. Civilian federal employees most clearly represent civilian control of the military and the intelligence community, a basic principle necessary for a democratic government to thrive. The Committee sup-

ports a civilian pay increase of 3.1 percent and directs the Secretary of Defense and the Director of National Intelligence to provide an official estimated cost for a 3.1 percent increase to the House and Senate Appropriations Committees not later than July 1, 2019.

#### RECLAIMED REFRIGERANTS

Reclaiming refrigerant aids in the prevention of creating new refrigerants and ensures the safe disposal of chemicals. Considering the large number of Department of Defense facilities and the widespread use of refrigerants, the Committee urges the Under Secretary of Defense for Acquisition and Sustainment to give preference to the use of reclaimed refrigerants to service existing equipment in Department of Defense facilities.

#### MOVEMENT OF PERSONNEL EFFECTS

The Department of Defense, through the United States Transportation Command (TRANSCOM), administers approximately 500,000 military household moves and related services annually through the Defense Personal Property Program (DP3). Approximately 900 American companies meet TRANSCOM qualifications and provide moving and related services under the program.

In response to congressional inquiries about customer satisfaction issues, TRANSCOM notified the relocation industry that the program may be outsourced to a single move management entity. The Committee has concerns about such an abrupt change to this policy, and before any such transition may begin, the Committee requires a better understanding of the possible outcomes such a decision could have on the lives of military families.

The Committee directs the Comptroller General to provide the congressional defense committees, not later than 120 days after the enactment of this Act, a comprehensive study of the impact the outsourcing of management and oversight of the movement of household goods to a private entity or entities would have on servicemembers and their families, including a comprehensive cost-benefit analysis and recommendations for changes to the Department's strategy for DP3. The Committee directs the Secretary of Defense not to issue a request for proposal or obligate funds for DP3 until 90 days after the Secretary of Defense certifies that the Department has received a draft of the Government Accountability Office study and provided the GAO with a written response.

#### UNITED STATES—REPUBLIC OF KOREA MILITARY EXERCISES

The Committee recognizes that there have been recent changes to the long-established exercises scheduled between the United States and the Republic of Korea militaries. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 180 days after the enactment of this Act that details the changes to the exercises between the two militaries and assesses the readiness issues that may have resulted or could still result from the modification of such exercises. This report may include a classified annex, if necessary.

## MEALS READY-TO-EAT WAR RESERVE

The Committee recommendation fully supports the fiscal year 2020 request for the Defense Logistics Agency to maintain 2,500,000 cases of meals ready-to-eat and reaffirms support for the War Reserve stock objective of 5,000,000 cases.

## REDUCING WASTE, FRAUD, AND ABUSE

The Committee is encouraged by the initial Department-wide audit efforts of the Department of Defense. However, the Committee notes that the audit revealed organizational deficiencies that could continue to hamper efforts to obtain a clean audit in the future. The Committee expects the Secretary of Defense to comply with Section 1005 of the National Defense Authorization Act for Fiscal Year 2019 and Section 1002 of the National Defense Authorization Act for Fiscal Year 2018.

## ADVERTISING

The Committee understands that, as the largest advertiser in the United States, the federal government should work to ensure fair access to its advertising contracts for small disadvantaged businesses and businesses owned by minorities and women. The Committee directs the Secretary of Defense to include with the fiscal year 2021 budget submission the total level of expenditures for fiscal years 2019 and 2020 and the requested level of funding for fiscal year 2021 for all contracts for advertising services; contracts for advertising services by women or minority owned businesses; and contracts for advertising services by socially and economically disadvantaged small businesses (as defined in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4))).

## INDIAN FINANCING ACT

The Committee recommendation includes funds for activities authorized in the Indian Financing Act of 1974. The Committee directs the Secretary of Defense to obligate funds for these activities not later than 90 days after the enactment of this Act.

The Committee directs the Secretary of Defense to comply with section 8122 of this Act which requires the Department of Defense to conduct regular and meaningful consultations and coordination between the Department and Indian Tribal Governments on issues of mutual interest.

## NATIVE PLANT MATERIALS

The Committee encourages the Secretary of Defense to give preference to the use of locally adapted native plant materials to the extent practicable while carrying out a land management activity on land under the jurisdiction of the Department of Defense.

## SEXUAL ASSAULT AND JUVENILE JUSTICE

The Committee is concerned by reports of sexual assault and harassment among students at schools managed by the Department of Defense Education Activity. Local government officials do not have uniformly established jurisdiction when dealing with

criminal offenses of juvenile members of the military community on domestic military installations. The Committee encourages the Secretary of Defense, in coordination with the Department of Justice, to explore opportunities to establish memorandums of understanding with state and local prosecutors to adjudicate juvenile criminal cases when the alleged offenses occur within the boundaries of a military installation.

The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act which details efforts to establish memorandums of understanding; successes and challenges with implementation; whether additional authorities are necessary to address this problem; actions that each Department is taking to address, respond to, and prevent sexual assault cases; and each Department's strategy related to misconduct by such juveniles.

#### JOINT REGIONAL SECURITY STACKS

The Committee recognizes the ongoing efforts of the Defense Information Systems Agency (DISA) to protect sensitive government data from unauthorized access and disclosure. Deployment of DISA's Joint Regional Security Stacks is expected to improve the security, effectiveness, and efficiency of the Department of Defense Information Network. The Committee encourages the Director of DISA to assess whether a center stack architecture could improve how network traffic is delivered to components of cybersecurity tools.

#### DIGITAL ASSET MANAGEMENT SOLUTION

The Committee supports the ongoing efforts of the Defense Information Systems Agency (DISA) to modernize the Department of Defense's internal and external digital services consistent with the goals of the Department of Defense Information Network Systems Engineering and Support project. The Committee believes that cybersecurity and cloud computing present critical near-term challenges and recognizes the need to securely leverage commercial cloud service offerings. The Committee encourages the Director of DISA to develop an industry standard, interoperable, extensible digital asset management solution to improve digital service delivery for warfighters and internal department workflows.

#### CLIMATE CHANGE

The Committee notes the Department's January 2019 report, "Report on Effects of a Changing Climate to the Department of Defense," found more than two-thirds of the military's operationally critical installations are threatened by climate change. The Committee is disappointed that the report failed to provide installation-specific resilience plans or cost estimates for mitigation activities as required by Section 335 of Public Law 115-91. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act which contains a list of the top ten most climate-vulnerable bases within each Service and provides a cost estimate to mitigate the risks at each of these bases.

## WIND ENERGY

The Committee is aware of the ongoing development of offshore wind energy arrays on the United States Outer Continental Shelf as well as the ongoing leasing of wind energy areas. The Committee recognizes that wind turbine structures, particularly when arranged in large arrays, may cause interference to radars and that vibrations generated by the operation of turbines may cause sonic interference to underwater sonar. As such, the Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 365 days after the enactment of this Act that addresses any potential national security concerns with respect to the construction of offshore wind arrays, to include an examination of legacy and new turbines, and any appropriate mitigation measures that should be implemented to address these concerns.

## OPERATION AND MAINTENANCE, ARMY

Fiscal year 2019 appropriation .....	\$40,145,482,000
Fiscal year 2020 budget request .....	22,797,873,000
Committee recommendation .....	41,449,293,000
Change from budget request .....	+18,651,420,000

The Committee recommends an appropriation of \$41,449,293,000 for Operation and Maintenance, Army which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

## SHIP DEPOT MAINTENANCE

The Committee is disappointed that the Chief of Naval Operations requested an additional \$814,000,000 on the Navy's fiscal year 2020 unfunded priority list for the Ship Depot Maintenance account. The fiscal year 2020 budget request for this activity is \$10,426,913,000, an increase of \$652,740,000 above the fiscal year 2019 enacted level of \$9,774,173,000.

The Committee is concerned by the maintenance delays that persistently occur under this account and finds these delays completely unacceptable. A Government Accountability Office study noted delays for different vessels range from 1,000 to almost 19,000 days. These delays increase the costs of repairs as ships and submarines wait for their respective slots at the various public and private shipyards. It is imperative the Navy improve its scheduling and budgeting for these activities to reduce the length of time that ships and submarines remain unable to deploy and to reduce the costs associated with lengthy delays in the maintenance process.

The Committee recommendation includes a transfer of \$653,000,000 from Shipbuilding and Conversion, Navy to Operation and Maintenance, Navy to address the urgent maintenance requirements for the USS *Boise*, the USS *Hartford*, and the USS *Columbus*. The Committee appreciates and supports the need for new attack submarines, but believes that the Navy must also address repairs of its current fleet, with these three submarines receiving priority attention. In particular, the Committee believes the USS *Boise* must receive immediate attention and resources, given that it lost its dive certification in 2017 and has been effectively out of operation for two years.

To provide more transparency and accountability, the Committee directs the Secretary of the Navy to provide with the submission of the fiscal year 2021 budget request the names and estimated costs of the ships and submarines scheduled for maintenance that correspond to the fiscal year 2021 budget request for ship depot maintenance, for both base and overseas contingency operations funding requests.

## JET NOISE

The Committee is aware of the negative effects that jet noise may have on communities near installations with airfields. The Committee directs the Secretary of the Navy to measure the level of jet noise generated by Navy aviation assets and to make that noise measurement data available to the public. The Committee also encourages the Secretary of the Navy to collaborate with the Director of the Office of Economic Adjustment to identify communities impacted by Navy aviation jet noise and to mitigate any economic impacts from noise caused by persistent and ongoing Navy aviation activities.

## SHIPYARD INFRASTRUCTURE

The Committee recognizes the critical role public shipyards play in national security and notes that public shipyards require significant maintenance and upgrades. The Navy's Shipyard Infrastructure Optimization Plan included recommendations and future year

projects that would help restore public shipyards to better serve the Navy's requirements. The Committee encourages the Secretary of the Navy to prioritize projects listed in the future years defense program that are necessary for national security requirements.

#### OPERATION AND MAINTENANCE, MARINE CORPS

Fiscal year 2019 appropriation .....	\$6,540,049,000
Fiscal year 2020 budget request .....	3,928,045,000
Committee recommendation .....	7,945,854,000
Change from budget request .....	+4,017,809,000

The Committee recommends an appropriation of \$7,945,854,000 for Operation and Maintenance, Marine Corps which will provide the following program in fiscal year 2020:

## PILOT SHORTAGES AND TRAINING CAPACITY

The Committee remains concerned by continued pilot shortages in the Air Force. The scope of the crisis is even more pronounced when considering undergraduate pilot training throughput must grow thirty percent by fiscal year 2022 to meet stated Air Force “Grow the Force” objectives. While the Committee supports previous innovations of Air Force test programs, syllabus changes, and related funding increases, to begin to mitigate the crisis, existing training base capacity remains a limiting factor in fully addressing pilot training demands. The Committee recommendation includes an additional \$8,000,000 for the Air Force to address this critical pilot shortage.

## DEFENSE MEDIA ACTIVITY

The Committee understands that the Air Force is reviewing its media facilities and notes the importance of having a national presence for the Air Force Network’s production facilities. During the review, the Secretary of the Air Force should remain aware of each geographic region’s assets, such as beneficial weather conditions and telecommunication infrastructure. The Committee encourages the Secretary of the Air Force to inform the congressional defense committees prior to implementing any changes to the current structure.

## AIRCRAFT DAMAGE

The Committee recognizes the adverse impact that sunlight and hail can have on the readiness and service life of aircraft. Unprotected aircraft can sustain significant damage during hail storms and long-term damage because of extensive sun exposure, creating additional, yet preventable, maintenance costs. The Committee urges the Secretary of the Air Force to prioritize maintenance projects that may provide protection for aircraft to prevent damage caused by weather.

## OPERATION AND MAINTENANCE, SPACE FORCE

Fiscal year 2019 appropriation .....	\$— — —
Fiscal year 2020 budget request .....	72,436,000
Committee recommendation .....	15,000,000
Change from budget request .....	— 57,436,000

The Committee recommends an appropriation of \$15,000,000 for Operation and Maintenance, Space Force which will provide the following program in fiscal year 2020:

## SECURITY ASSISTANCE PROGRAMS

The Committee recommendation provides \$623,073,000 for base programs administered by the Defense Security Cooperation Agency (DSCA) and an additional \$1,614,178,000 in title IX for overseas contingency operations. Prior to the initial obligation of funds, the Committee directs the Director of DSCA to submit a spend plan by budget activity and sub-activity to the House and Senate Appropriations Committees. For funds planned for the Security Cooperation Account, the Director shall, in coordination with the geographic combatant commanders, identify amounts planned for each combatant command and country, and a comparison to such amounts provided in the previous five fiscal years.

The Committee recommendation includes funding at levels consistent with prior years for Jordan.

The Committee recommendation provides \$250,000,000 for the Ukraine Security Assistance Initiative, the same as the fiscal year 2019 enacted level. The Committee urges the new Government of Ukraine to implement additional reforms, including measures to combat corruption. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on the status of reforms in the security sector and efforts to reduce corruption in the security services, including through assistance programs provided in this Act.

The Committee recommendation includes funding for the Maritime Security Initiative for countries in the Indo-Pacific Command area of responsibility. The Committee notes that 10 U.S.C. 333 provides the Secretary of Defense with the authority to carry out security assistance programs in a number of areas, including for maritime and border security operations. The Committee directs the Secretary of Defense to submit a copy of the Indo-Pacific Strategic Framework and the Indo-Pacific Implementation Plan to the congressional defense committees not later than 30 days after the enactment of this Act and prior to the initial obligation of funds for security assistance programs in the Indo-Pacific Command area of responsibility.

The Committee recommendation provides funding for certain border security programs under the Counter-ISIS Train and Equip Fund instead of under the security assistance programs.

The Committee directs the Secretary of Defense to provide information and documents, as appropriate, to the appropriate judicial authorities in El Salvador investigating the December 1981 massacre in El Mozote.

## INVENTORY MANAGEMENT

The Committee is concerned by the lack of accurate inventory management controls in place at the Department of Defense which often result in lost material, parts, and funding. The Committee directs the Secretary of Defense, in coordination with the Directors of the Defense Logistics Agency, the Defense Contract Management Agency, and the Defense Contract Audit Agency, to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act that describes how the Department

can better track its inventory. The report should include possible ways to hold contractors liable for lost or unaccounted parts and material, especially when contractors are on contract to provide inventory management.

#### OFFICE OF ECONOMIC ADJUSTMENT—COMMUNITY ACTIVITIES

The Committee recommendation includes an additional \$30,400,000 for the Office of Economic Adjustment whose mission is to provide support to communities and states that support the readiness of military installations, ranges, and military supply chains. The Committee understands that the responsibilities of the Office of Economic Adjustment have been expanded and believes that these additional funds, with the addition of two full time equivalents, will enhance its ability to support both community and military missions.

#### DEFENSE COMMISSARY AGENCY

In 2018, the Department of Defense began to sell beer and wine in defense commissaries. However, the Committee notes that the sale of distilled spirits is still not included in the policy. Since military commissary stores are intended to be similar to commercial grocery stores and roughly half of States legally sell distilled spirits in grocery stores, the Committee believes that the Department should have explored this option to further improve customer convenience at all military commissaries. The Committee directs the Undersecretary of Defense (Personnel and Readiness) to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act not on why the decision was made, but whether the decision to restrict the sale of distilled spirits in military commissaries will be reconsidered in the near future.

#### DEFENSE COUNTERINTELLIGENCE AND SECURITY AGENCY

The primary responsibility for conducting background investigations for the federal government officially shifted from the Office of Personnel Management to the Department of Defense, Defense Counterintelligence and Security Agency, formerly known as the Defense Security Service, on April 24, 2019. The Committee is closely monitoring the transition and notes the increases in both budget and number of civilian personnel that are tied to the transfer. Further, the Committee remains interested in fully understanding the Department's cost recovery/service charge model, which is a key feature of the recently established background investigation working capital fund.

The Committee directs the Director of the Defense Counterintelligence and Security Agency to provide quarterly progress reports to the House and Senate Appropriations Committees that include budgetary updates on related activities funded with direct appropriations and funds received from other departments, agencies, or organizations on a reimbursable basis. The first quarterly report should be provided not later than 60 days after the enactment of this Act and should continue through the end of fiscal year 2020.

## SUSTAINABLE ENERGY INITIATIVES

The Committee recognizes the advances the Department of Defense has made in increasing sustainable and renewable energy supply to its facilities. Expanding the installation of energy use reduction technologies and renewable, sustainable energy sources on defense installations provides protection against threats to the commercial grid, reduces energy costs, and provides environmental benefits to the community. The Committee encourages the Secretary of Defense to continue to expand the use of sustainable and renewable energy sources.

## PFOS/PFOA EXPOSURE ASSESSMENT

The National Defense Authorization Act for Fiscal Year 2019 authorized a study and assessment of the health implications of perfluorooctane sulfonate (PFOS) and perfluorooctanoic acid (PFOA) contamination on military installations. The Committee recommendation includes \$13,000,000 for the study and assessment, which shall be limited to current or former domestic military installations known to have PFOS/PFOA contamination in drinking water, ground water, and any other sources of water and relevant exposure pathways. The Committee also directs the Assistant Secretary of Defense (Energy, Installations, and Environment) to submit a report to the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act on the Department's strategy to execute this funding.

The Committee remains deeply concerned about PFOS/PFOA contamination on current and former domestic military installations. As the Department conducts its exposure assessment on all installations known to have PFOS/PFOA drinking water contamination, the Committee directs the Assistant Secretary of Defense (Energy, Installations, and Environment) to publicly release the measured levels of contamination found at each installation. For all remediation activities, the Department is directed to achieve a drinking water cleanup standard no higher than the threshold of the Environmental Protection Agency (EPA) health advisory level (currently 70 parts per trillion) for federally controlled sites and surrounding communities whose water sources were contaminated as a result of Department activities.

## OPERATION AND MAINTENANCE, ARMY RESERVE

Fiscal year 2019 appropriation .....	\$2,781,402,000
Fiscal year 2020 budget request .....	1,080,103,000
Committee recommendation .....	3,009,594,000
Change from budget request .....	+1,929,491,000

The Committee recommends an appropriation of \$3,009,594,000 for Operation and Maintenance, Army Reserve which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

### UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

Fiscal year 2019 appropriation .....	\$14,662,000
Fiscal year 2020 budget request .....	14,771,000
Committee recommendation .....	14,771,000
Change from budget request .....	---

The Committee recommends an appropriation of \$14,771,000 for the United States Court of Appeals for the Armed Forces.

### ENVIRONMENTAL RESTORATION, ARMY

Fiscal year 2019 appropriation .....	\$235,809,000
Fiscal year 2020 budget request .....	207,518,000
Committee recommendation .....	235,809,000
Change from budget request .....	+28,291,000

The Committee recommends an appropriation of \$235,809,000 for Environmental Restoration, Army.

### ENVIRONMENTAL RESTORATION, NAVY

Fiscal year 2019 appropriation .....	\$365,883,000
Fiscal year 2020 budget request .....	335,932,000
Committee recommendation .....	365,883,000
Change from budget request .....	+29,951,000

The Committee recommends an appropriation of \$365,883,000 for Environmental Restoration, Navy.

### ENVIRONMENTAL RESTORATION, AIR FORCE

Fiscal year 2019 appropriation .....	\$365,808,000
Fiscal year 2020 budget request .....	302,744,000
Committee recommendation .....	365,808,000
Change from budget request .....	+63,064,000

The Committee recommends an appropriation of \$365,808,000 for Environmental Restoration, Air Force.

### GRANULAR ACTIVATED CARBON

The Committee is concerned by actual and potential incidents of contaminated drinking water on and around military bases. The Committee understands that in more than one instance, the Services' use of firefighting foam during training exercises may have caused perfluorinated chemicals (PFCs) to enter the ground and drinking water supply. The Committee recognizes that using granular activated carbon is an effective way of removing PFCs from ground water and drinking water and encourages the Secretary of the Air Force to explore the use of additional remediation technologies, including plasma generation, for the removal of PFCs that impact environmental and human health standards at all Air Force bases.

### ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

Fiscal year 2019 appropriation .....	\$19,002,000
Fiscal year 2020 budget request .....	9,105,000
Committee recommendation .....	19,002,000
Change from budget request .....	+9,897,000

The Committee recommends an appropriation of \$19,002,000 for Environmental Restoration, Defense-Wide.

**ENVIRONMENTAL RESTORATION, FORMERLY USED  
DEFENSE SITES**

Fiscal year 2019 appropriation .....	\$248,673,000
Fiscal year 2020 budget request .....	216,499,000
Committee recommendation .....	260,499,000
Change from budget request .....	+44,000,000

The Committee recommends an appropriation of \$260,499,000 for Environmental Restoration, Formerly Used Defense Sites.

**OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID**

Fiscal year 2019 appropriation .....	\$117,663,000
Fiscal year 2020 budget request .....	108,600,000
Committee recommendation .....	117,663,000
Change from budget request .....	+9,063,000

The Committee recommends an appropriation of \$117,663,000 for Overseas Humanitarian, Disaster, and Civic Aid, which will provide the following program in fiscal year 2020:

**EXPLANATION OF PROJECT LEVEL ADJUSTMENTS**

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
FOREIGN DISASTER RELIEF .....	21,277	28,099	6,822

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Committee directs the Under Secretary of Defense (Comptroller) to submit a prior approval reprogramming to the congressional defense committees for any reprogramming of funding above a threshold of \$10,000,000 for either a procurement or a research, development, test and evaluation line.

Also, the Committee directs the Under Secretary of Defense (Comptroller) to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

## FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

## PROCUREMENT SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the Committee report. These items remain special interest items whether or not they are repeated in a subsequent explanatory statement.

## AIRCRAFT PROCUREMENT, ARMY

Fiscal year 2019 appropriation .....	\$4,299,566,000
Fiscal year 2020 budget request .....	3,696,429,000
Committee recommendation .....	3,689,720,000
Change from budget request .....	- 6,709,000

The Committee recommends an appropriation of \$3,689,720,000 for Aircraft Procurement, Army which will provide the following program in fiscal year 2020:

## CH-47F CHINOOK BLOCK II

The Committee continues to support Army efforts to deliver capability to the warfighter through the development and delivery of advanced aviation platforms and technology. The Committee previously appropriated CH-47 Block II funding based on the Chief of Staff of the Army's written certification of the program of record. The Committee is concerned that the Army is now reducing its support for the CH-47 Block II program which was determined to be necessary less than two years ago. This lack of acquisition discipline is of great concern to the Committee, and in this case, will have significant negative repercussions across multiple domains. The Committee directs the Secretary of the Army to restore funding for the CH-47F Block II program across the next future years defense program when the fiscal year 2021 budget request is submitted.

## MISSILE PROCUREMENT, ARMY

Fiscal year 2019 appropriation .....	\$3,145,256,000
Fiscal year 2020 budget request .....	— — —
Committee recommendation .....	3,218,272,000
Change from budget request .....	+3,218,272,000

The Committee recommends an appropriation of \$3,218,272,000 for Missile Procurement, Army which will provide the following program in fiscal year 2020:

## INDIRECT FIRE PROTECTION CAPABILITY AND IRON DOME

In October 2018, the Army provided a report to the congressional defense committees confirming that the Iron Dome system meets Army requirements, and specifically that the Iron Dome system provides the best value to the Army based on its schedule, cost per kill, magazine depth, and capability against specified threats. The Department of Defense subsequently requested a reprogramming and realignment of funds to procure two Iron Dome batteries, an additional quantity of Tamir missiles, and integration and interoperability efforts between Iron Dome and the Integrated Air and Missile Defense Battle Command System. The Committee supports the efforts to procure Iron Dome but remains concerned with funding of research for largely duplicative capabilities. Therefore, the Committee directs the Secretary of the Army to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act on the development and acquisition plan for the program. The report shall identify the enduring solution for the Indirect Fire Protection Capability and the required development and procurement funding profile required to remain in compliance with the National Defense Authorization Act for Fiscal Year 2019.

## PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

Fiscal year 2019 appropriation .....	\$4,486,402,000
Fiscal year 2020 budget request .....	4,715,566,000
Committee recommendation .....	4,849,373,000
Change from budget request .....	+133,807,000

The Committee recommends an appropriation of \$4,849,373,000 for Procurement of Weapons and Tracked Combat Vehicles, Army which will provide the following program in fiscal year 2020:

## MACHINE GUN MOUNT UPGRADES

The Committee supports the MK93 machine gun mount upgrade program and encourages the Secretary of the Army to include additional detail in its budget request for fiscal year 2021 regarding its plans to develop and deploy the softmount upgrade.

## PROCUREMENT OF AMMUNITION, ARMY

Fiscal year 2019 appropriation .....	\$2,276,330,000
Fiscal year 2020 budget request .....	— — —
Committee recommendation .....	2,583,895,000
Change from budget request .....	+2,583,895,000

The Committee recommends an appropriation of \$2,583,895,000 for Procurement of Ammunition, Army which will provide the following program in fiscal year 2020:

999 CLASSIFIED PROGRAMS	3,710	11,910	8,200
Transfer from title IX		8,200	

## PHYSICAL SECURITY AND ARTIFICIAL INTELLIGENCE

The Committee supports ongoing efforts to improve installation security while also addressing the efficiency of installation entry points. To maximize these initiatives, future investment should incorporate technological advancements that leverage artificial intelligence technology. The integration of these technologies can benefit installation operations by improving security and traffic management, while reducing manpower requirements committed to security operations. The Committee encourages the Secretary of the Army to incorporate lessons learned from existing pilot programs and expand technology deployments to the largest Army installations that could benefit from these operational improvements.

## HIGH MOBILITY MULTIPURPOSE WHEELED VEHICLE MODERNIZATION AND RECAPITALIZATION

The Committee recommendation includes \$25,000,000 for High Mobility Multipurpose Wheeled Vehicle (HMMWV) Modernization or HMMWV Recapitalization to obtain new HMMWVs or “like-new” HMMWVs fully restored to zero-hours, zero-miles condition by the installation of a new powered chassis. This approach leverages a low-risk, highly effective, and cost-efficient model created for the Army National Guard HMMWV Modernization Program. Modernizing or recapitalizing HMMWVs with a new, up-to-date chassis of a more consistent configuration will enable future technology insertions and capability upgrades to the HMMWV fleet and will reduce sustainment costs and logistics challenges otherwise created by obsolete, inefficient, and less-capable parts.

## ENHANCED LIGHTWEIGHT ARMOR

The Committee is committed to providing soldiers with the most advanced body armor technology. By using advanced lightweight materials and technologies, advanced hard armor has been developed under the soldier protection system program which provides the same level of ballistic protection for soldiers at a significantly lower weight. The Committee encourages the Secretary of the Army to ensure soldiers are issued the best possible body armor for combat deployments and to ensure the body armor manufacturing base remains viable.

## AIRCRAFT PROCUREMENT, NAVY

Fiscal year 2019 appropriation .....	\$20,092,199,000
Fiscal year 2020 budget request .....	18,522,204,000
Committee recommendation .....	18,971,913,000
Change from budget request .....	+449,709,000

The Committee recommends an appropriation of \$18,971,913,000 for Aircraft Procurement, Navy which will provide the following program in fiscal year 2020:

## P-8A POSEIDON

The Committee is concerned with the disconnect between the Navy's stated warfighting requirements and its annual budget requests. In fiscal year 2020, the Navy increased its warfighting requirement for the P-8A Poseidon to 138 from the previous total of 117 aircraft; however, the budget request only includes funding for six aircraft, which would achieve a total program of 117 aircraft. After fiscal year 2020, the Navy intends to curtail production of the P-8A Poseidon and remain 21 aircraft below the stated warfighting requirement.

The new warfighting requirement also includes twelve aircraft to recapitalize the two Marine Patrol and Reconnaissance squadrons assigned to the Naval Reserve. These squadrons currently operate legacy P-3C Orion aircraft. Without new aircraft, the Chief of the Naval Reserve estimates the units will decommission by 2023. The Committee appreciates that the Navy recognized the Naval Reserve squadrons as part of its increased requirement of P-8A aircraft but believes that dedicated funding for the aircraft should have been budgeted in fiscal year 2020 and in the future years defense program.

The Committee recommendation includes an additional \$541,200,000 for three additional aircraft for the Navy Reserve. The Committee also directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that outlines a plan to recapitalize the two Naval Reserve squadrons with P-8A aircraft prior to fiscal year 2023, when the current aircraft will reach the end of their service lives. The report should include estimated acquisition costs, acquisition timelines, aircraft fielding schedules, and manpower impacts to the Naval Reserve.

## WEAPONS PROCUREMENT, NAVY

Fiscal year 2019 appropriation .....	\$3,711,576,000
Fiscal year 2020 budget request .....	— —
Committee recommendation .....	4,061,797,000
Change from budget request .....	+4,061,797,000

The Committee recommends an appropriation of \$4,061,797,000 for Weapons Procurement, Navy which will provide the following program in fiscal year 2020:

## EXPEDITIONARY SEA BASE

The Expeditionary Sea Base is a mature, affordable shipbuilding program that provides combatant commanders with the flexibility to respond to immediate threats around the world. The fiscal year 2020 budget request projects procurement funding for the next Expeditionary Sea Base in fiscal years 2022 and 2023, three years later than the fiscal year 2019 budget request and shipbuilding plan had projected. The Committee encourages the Secretary of the Navy to accelerate the procurement of the next Expeditionary Sea Base to achieve the required capability, while allowing for greater affordability and stability for the industrial base.

## OTHER PROCUREMENT, NAVY

Fiscal year 2019 appropriation .....	\$9,097,138,000
Fiscal year 2020 budget request .....	9,652,956,000
Committee recommendation .....	9,123,068,000
Change from budget request .....	– 529,888,000

The Committee recommends an appropriation of \$9,123,068,000 for Other Procurement, Navy which will provide the following program in fiscal year 2020:

## AIRCRAFT PROCUREMENT, AIR FORCE

Fiscal year 2019 appropriation .....	\$17,112,337,000
Fiscal year 2020 budget request .....	16,784,279,000
Committee recommendation .....	18,082,933,000
Change from budget request .....	+1,298,654,000

The Committee recommends an appropriation of \$18,082,933,000 for Aircraft Procurement, Air Force which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

## RECAPITALIZING THE F-15C/D FLEET

The Committee recommendation includes \$985,500,000 to procure the first eight new-build F-15EX aircraft. The Committee finds that the F-15EX request, while unanticipated, must be considered within the context of the aging F-15C/D fleet. The Committee views the F-15EX as the fastest and most cost-effective path to preserving the F-15C/D fleet, including Air National Guard units stationed in California, Florida, Louisiana, Massachusetts, and Oregon. According to the Air Force, the F-15C/D fleet has consumed 83 percent of its service life on average, with twelve aircraft currently over 100 percent.

Additionally, the Committee is concerned by the growing number of aircraft that are failing longeron inspections. The Committee notes that prior to the fiscal year 2020 request, the Air Force had planned on longeron and wing service life extension programs designed to keep the F-15C/Ds flying past 2040. The Committee has not seen any analysis, including the “Air Force We Need” analysis, that denies the need to continue operating the F-15C/D fleet and other “fourth generation” fighter aircraft such as the F-15E, A-10, and F-16 well past 2030, or disputes that such aircraft will continue to make critical contributions to the implementation of the National Defense Strategy. The F-15EX program will begin recapitalizing this fleet with a new aircraft with an estimated service life of 20,000 hours and possessing upgrades that the Air Force has been pursuing as modifications to the F-15C/D fleet. The Committee further finds that considerations of parts commonality, low conversion cost, and operator familiarity make the F-15EX procurement a sensible if regrettably necessary investment.

At the same time, the Committee notes that the F-15EX request has been submitted with key questions unanswered, such as the specific acquisition strategy and timeline. The Committee directs the Secretary of the Air Force to submit a report to the congressional defense committees, not later than 30 days prior to issuing a final request for proposal or executing a contract action for the procurement of F-15EX aircraft, which details an approved acquisition strategy along with updates to the fielding timeline and cost estimates (if applicable), an explanation of the scope and schedule for the testing plan, and options for accelerating fielding in comparison to the budget exhibits submitted with the fiscal year 2020 request.

## MISSILE PROCUREMENT, AIR FORCE

Fiscal year 2019 appropriation .....	\$2,585,004,000
Fiscal year 2020 budget request .....	2,889,187,000
Committee recommendation .....	2,789,287,000
Change from budget request .....	- 99,900,000

The Committee recommends an appropriation of \$2,789,287,000 for Missile Procurement, Air Force which will provide the following program in fiscal year 2020:

## RECYCLED CONTENT PRODUCTS

The Committee commends the Department of Defense on its most recent update to Department of Defense Instruction 4105.72 regarding sustainable procurement. The Committee supports efforts to procure sustainable goods and recycled content products, including clothing items with these materials. The Committee encourages the Secretary of Defense to consider the use and applicability of recycled items in procurement decisions.

## DEFENSE PRODUCTION ACT PURCHASES

Fiscal year 2019 appropriation .....	\$53,578,000
Fiscal year 2020 budget request .....	34,393,000
Committee recommendation .....	64,393,000
Change from budget request .....	+30,000,000

The Committee recommends an appropriation of \$64,393,000 for the Defense Production Act Purchases which will provide the following program in fiscal year 2020:

## EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
DEFENSE PRODUCTION ACT PURCHASES .....	34,393	64,393	30,000
Program increase .....		30,000	
TOTAL, DEFENSE PRODUCTION ACT PURCHASES .....	34,393	64,393	30,000

## RARE EARTH MATERIALS

A critical national security vulnerability exists because of continued dependence on Chinese rare earth materials for the military sector supply chain. Due to China's willingness to restrict the rare earth material market, coupled with the risk to the national security supply chain, it is critical to reduce reliance on China's rare earth materials. The Committee encourages the Secretary of Defense to invest in the development of a domestic source of rare earth materials.

## RADIATION HARDENED MICROELECTRONICS

The Committee notes the important initiatives pertaining to radiation hardened microelectronics and encourages the Secretary of Defense to prioritize these initiatives, particularly those concerning radiation hardened memory devices. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on the status of the various microelectronic initiatives, as well as the subsequent funding profiles for each initiative.

## JOINT URGENT OPERATIONAL NEEDS FUND

Fiscal year 2019 appropriation .....	---
Fiscal year 2020 budget request .....	\$99,200,000
Committee recommendation .....	---
Change from budget request .....	- 99,200,000

The Committee recommends no funding for the Joint Urgent Operational Needs Fund.

## TITLE IV

### RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The fiscal year 2020 Department of Defense research, development, test and evaluation budget request totals \$102,647,545,000. The Committee recommendation provides \$100,455,412,000 for the research, development, test and evaluation accounts. The table below summarizes the Committee recommendations:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST
-----			
RECAPITULATION			
RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY.....	12,192,771	12,046,783	-145,988

OPERATIONAL TEST AND EVALUATION, DEFENSE.....	221,200	221,200	---
-----			
GRAND TOTAL, RDT&E.....	102,647,545	100,455,412	-2,192,133
	=====	=====	=====

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Committee directs the Under Secretary of Defense (Comptroller) to submit a prior approval reprogramming to the congressional defense committees for any reprogramming of funding above a threshold of \$10,000,000 for either a procurement or a research, development, test and evaluation line.

The Committee directs the Under Secretary of Defense (Comptroller) to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

## FUNDING INCREASES

The Committee directs that the funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount specifically addressed in the Committee report. These items remain special interest items whether or not they are repeated in a subsequent explanatory statement.

## CONGRESSIONAL NOTIFICATIONS

The Committee supports the use of Other Transactional Authority (OTA) by the Department of Defense as an important tool to provide flexibility for new or expanded use of rapid development and prototyping. While not governed by the Federal Acquisition Regulations, OTAs result in major contract decisions which require congressional oversight. The Committee directs the Under Secretary of Defense for Acquisition and Sustainment to notify the congressional defense committees regarding major contract actions, including those using OTA authorities.

## ADVANCED MANUFACTURING CENTER OF EXCELLENCE

The Committee is encouraged that the Secretary of the Army established a Center of Excellence for Advanced Manufacturing. The National Defense Authorization Act for Fiscal Year 2019 required the Under Secretary of Defense for Acquisition and Sustainment and the Under Secretary of Defense for Research and Engineering to work with each of the Service Secretaries to establish activities that demonstrate advanced manufacturing techniques and capabilities at depot-level activities or military arsenal facilities. The Committee is supportive of this effort and directs the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act providing further detail on the activities that have been identified by each Service.

## SATELLITE COMMUNICATIONS

The current military satellite communications architecture comprises independently designed, purpose-built spacecraft; ground systems; and user terminals intended to meet differing mission requirements for strategic, wideband, and narrowband communications. In fiscal year 2019, the Secretaries of the Army, Navy, and Air Force were tasked with developing an integrated architecture and acquisition strategy for wideband and narrowband communications, and were directed to consider both government and commercial systems, user terminals, and network capabilities. The Committee notes that acquisition of narrowband satellite communications systems traditionally has been the responsibility of the Navy, while the Air Force has had responsibility for wideband and strategic satellite communications. The Committee encourages the Secretaries of the Navy and the Air Force to consider whether transferring responsibility for future narrowband satellite communications systems from the Navy to the Air Force will facilitate the development and implementation of an integrated communications architecture.

## HYPERSONICS CAPABILITY DEVELOPMENT

Hypersonic weapons pose a dangerous new class of threat to national security. They operate at exceptionally high speeds and have the ability to maneuver unpredictably, making them challenging to track and difficult to intercept. Potential adversaries, such as Russia and China, have recognized the value of hypersonic weapons to offset United States military capabilities and hold United States forces at risk. Adversaries have made alarming progress in developing and demonstrating such weapons, far outstripping the pace of United States advancements. The Committee supports efforts aimed at developing capabilities to hold adversaries at risk, as well as capabilities to defend against growing hypersonic threats. Therefore, the Committee strongly supports increased emphasis on research, development, testing, and demonstration of hypersonics technologies and systems. However, the Committee is concerned that the rapid growth in hypersonic research has the potential to result in stove-piped, proprietary systems that duplicate capabilities and increase costs.

The Committee recommendation includes \$85,000,000 for Hypersonics Capability Development to develop and implement an integrated science and technology roadmap for hypersonics and to establish a university consortium for hypersonics research and workforce development to support Department efforts to expedite testing, evaluation, and acquisition of hypersonic weapons systems, and to coordinate current and future research, development, test, and evaluation programs across the Department of Defense.

The Committee directs the Under Secretary of Defense for Research and Engineering to submit a report to the congressional defense committees not later than 90 days after the date of enactment of this Act, and quarterly updates thereafter, on its integrated science and technology roadmap describing the short-term, mid-term, and long-term goals of the Department; progress toward achieving the goals; associated investment needed to achieve the goals; and the plans for a university consortium.

#### HUMAN PERFORMANCE OPTIMIZATION RESEARCH

The Committee believes that developmental programs aimed at human performance optimization in the physical, cognitive, organizational, and social domains could improve military readiness. The Committee encourages the Service Secretaries to prioritize human performance optimization research efforts that will benefit service-members.

#### F-35 JOINT STRIKE FIGHTER DEVELOPMENTAL TEST FLEET

The Committee recommendation includes a legislative provision, similar to the provision included in the Department of Defense Appropriations Act, 2019, that would allow the Secretary of Defense to use funds made available for F-35 procurement and research, development, test and evaluation to modify up to six aircraft in total, including two aircraft of each variant, to a test configuration. The Committee directs the Secretary of Defense to follow the same guidelines for the use of this authority contained in House Report 115-952.

#### RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

Fiscal year 2019 appropriation .....	\$11,083,824,000
Fiscal year 2020 budget request .....	12,192,771,000
Committee recommendation .....	12,046,783,000
Change from budget request .....	-145,988,000

The Committee recommends an appropriation of \$12,046,783,000 for Research, Development, Test and Evaluation, Army which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST
RESEARCH, DEVELOPMENT, TEST & EVAL, ARMY			
BASIC RESEARCH

	Program increase - additive manufacturing technology insertion		5,000	

## ADVANCED PROJECTILE SYSTEMS

The Committee is aware of ongoing Army efforts to develop enhanced lethality and accuracy for dismounted soldiers. The Committee believes that emerging manufacturing technologies play a critical role in these efforts by enabling rapid flexible munitions production and cost savings for advanced projectile systems. The Committee encourages the Secretary of the Army to continue development, fabrication, and testing of extended range hybrid and affordable precision gun-launched projectiles.

## COLD SPRAY ADDITIVE MANUFACTURING

The Committee supports the advancement of cold spray additive manufacturing that can be utilized to produce high performance materials. These capabilities will enable increased performance, readiness, and sustainability by the transition of the advanced additive manufacturing processes into the Army.

## ASSET PROTECTION TECHNOLOGIES

The Committee recognizes the Army's advancement in developing successful technologies that support warfighter survivability and lethality. Recent innovative technologies include thermal indicating paints, active sensor systems, novel power solutions, printed and embedded sensors for Army weapons systems, and flexible electronics. The Committee encourages the Secretary of the Army to develop, demonstrate, manufacture, and deploy advanced multi-functional materials and technologies that can be combined for customizable asset protection systems and increased weapon system capabilities.

## CYBER AND ELECTRONIC WARFARE FOR THE DISMOUNTED SOLDIER

The Committee remains concerned about cyber and electronic warfare vulnerabilities of the dismounted soldier at the tactical edge. The Committee encourages the Secretary of the Army to continue to develop sensors and prototyping efforts for a lightweight, low-power device that can perform cyber and electronic warfare for situational awareness and force protection for dismounted soldiers.

## AGILE MANUFACTURING MATERIALS PROCESSING

The Center for Agile Materials Manufacturing Science at the Army Research Laboratory provides essential tool and material process development and accelerates the ability of the Army to enhance industrial base capabilities for improving weapon system performance, speed, fuel efficiency, and force protection. The Committee supports these innovations to reduce part assemblies and lifecycle costs, as well as to enable point-of-need part production.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

Fiscal year 2019 appropriation .....	\$18,510,564,000
Fiscal year 2020 budget request .....	20,270,499,000
Committee recommendation .....	19,140,865,000
Change from budget request .....	- 1,129,634,000

The Committee recommends an appropriation of \$19,140,865,000 for Research, Development, Test and Evaluation, Navy which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST
RESEARCH, DEVELOPMENT, TEST & EVAL, NAVY			
BASIC RESEARCH			
1 UNIVERSITY RESEARCH INITIATIVES.....	116,850	151,850	+35,000
2 IN-HOUSE LABORATORY INDEPENDENT RESEARCH.....	19,121	19,121	---
3 DEFENSE RESEARCH SCIENCES.....	470,007	458,329	-11,678
TOTAL, BASIC RESEARCH.....	605,978	629,300	+23,322
APPLIED RESEARCH

## NUCLEAR SEA-LAUNCHED CRUISE MISSILE

The Committee understands that the Navy budget request includes \$5,000,000 to begin an analysis of alternatives for a new Nuclear Sea-launched Cruise Missile (SLCM-N) pursuant to the 2018 Nuclear Posture Review's call for the "rapid development of a modern SLCM." The recommendation includes full funding for this request, but the Committee is concerned with the potential costs and operational impacts of this potential additive acquisition program. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that provides the estimated cost of a SLCM-N acquisition program, an estimate of the increased operational and security costs that would be imposed on the fleet by a SLCM-N, an assessment of whether possession of a SLCM-N by Navy submarines would affect access to overseas ports and facilities, and a description of the validated military requirement. This report may be submitted with a classified annex if necessary.

## SMALL BUSINESS INNOVATION RESEARCH PROGRAM

The Committee recognizes that the Small Business Innovation Research (SBIR) program is a valuable tool to engage small business and provide a pathway for innovators to conduct business with the Department of Defense. The program is designed to attract and engage small businesses to perform research and development activities and to assist those businesses in commercializing their technologies for future use by the Department of Defense. According to SBIR law, agencies are to use the SBIR awardee to the greatest extent practicable, thus giving that awardee the opportunity to perfect and scale their innovations. The Department of Defense has special acquisition flexibility in order to promote and coordinate with small businesses.

The Committee remains concerned that the Department of Defense continues to fail small businesses by not adhering to SBIR law and curtailing the innovative growth that small businesses could provide to fill critical needs in the defense industrial base. The Committee believes that the Department's resistance to permitting SBIR awardees to commercialize their technologies neglects the vital importance of entrepreneurial innovation.

This failure of the Department to capitalize on SBIR entrepreneurial innovation is demonstrated by the repeated failure of the Navy to properly resource the Automated Test and Re-test (ATRT) program, which has produced some of the Navy's most transformative technology, including the AEGIS/ATRT Virtual Twin. As such, the Committee recommendation includes \$37,653,000 for the ATRT program, an increase of \$30,000,000 above the fiscal year 2020 budget request, and rejects the renaming of the program to Automated Test and Analysis. The Committee expects the Secretary of the Navy to fully adhere to SBIR law and the recent directive from the Small Business Administration on the continuation of SBIR-derived research and development and commercialization of SBIR-related technologies.

## BLAST INJURY

The Committee recognizes the need for additional research on what occurs inside the brain after experiencing a blast event. The Committee encourages the Secretary of the Navy, through the Office of Naval Research, to continue to leverage partnerships with academia and the national laboratories to acquire a better understanding of the human cellular response and the interface between humans and their protective equipment during blast impulses. These research efforts may lead to predicting injury following a blast event using future wearable sensor systems and may inform the design of advanced protective equipment to reduce blast injuries.

## MUSCULOSKELETAL INJURIES IN FEMALE SERVICEMEMBERS

The Committee supports efforts to strengthen the resiliency, lethality, and readiness of the military and acknowledges that servicemembers involved in ground-based training and tactical missions are at risk for sustaining high rates of musculoskeletal injuries. The Committee notes that not enough research has been conducted on injury mitigation and performance needs of females who serve in these roles. The Committee urges the Commandant of the Marine Corps to support research into the musculoskeletal issues faced by female Marines serving in infantry and other combat roles.

## COASTAL ENVIRONMENTAL RESEARCH

The Committee understands the importance of the littoral region to Navy operations worldwide and believes that training must replicate the operational and threat environments that submarines and unmanned systems are likely to encounter in these areas. The Committee believes that additional research of the magnetic, electric, and acoustic ambient fields in the littoral regions and the development of predictive techniques to distinguish ships and submarines from naturally occurring background features would be beneficial for littoral operations. The Committee encourages the Secretary of the Navy to conduct additional research in this area.

## ENERGY RESILIENCY

The Committee recognizes the need for additional research to advance Navy efforts to create a more robust energy infrastructure and urges the Secretary of the Navy to collaborate with universities to conduct research on electrical power intermittency, integrating renewable energy sources into the grid, energy storage, improved micro-grids, grid security, local generation of zero-carbon fuels, and the inspection and structural health monitoring of critical energy infrastructure.

## ADVANCED ENERGETICS RESEARCH

The Committee recognizes the requirement for continued investment in advanced energetics research and development to increase the lethality, range, and speed of weapons; develop new capabilities; and expand the domestic energetics workforce. The Committee encourages the Secretary of the Navy to support advanced

energetics research and development efforts and to incorporate successful technologies into advanced weapons systems.

#### LETHALITY AND SURVIVABILITY OF LITTORAL COMBAT SHIPS

The Committee supports Navy efforts to increase both the lethality and the survivability of Littoral Combat Ships but is concerned by the slow pace of improvements. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on the specific lethality and survivability upgrades to be incorporated on Littoral Combat Ships, the timeline of installation of the upgrades, and any resources required.

#### RESEARCH AND WORKFORCE PARTNERSHIPS FOR SUBMARINE AND UNDERSEA VEHICLE PROGRAMS

The Committee recognizes the need for greater partnerships between Navy research labs, academia, and industry. The Committee encourages the Secretary of the Navy to coordinate efforts with its industrial base partners to ensure that funded research projects are relevant to specific engineering and manufacturing needs, as well as defined systems capabilities. Partnerships with academia should focus on specific, well-defined short- and long-term submarine and autonomous undersea vehicle research needs, accelerated technology transition, and should also include a strong workforce development component to help ensure a sustainable industrial base.

#### DIGITAL SECURITY OF ADDITIVE MANUFACTURING

The Committee supports the development of digital protection of additive manufacturing equipment which is critical to securing future additive manufacturing capabilities for operational requirements. Protecting and securing these essential capabilities will ensure future capabilities.

#### RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

Fiscal year 2019 appropriation .....	\$41,229,475,000
Fiscal year 2020 budget request .....	45,616,122,000
Committee recommendation .....	44,554,256,000
Change from budget request .....	-1,061,866,000

The Committee recommends an appropriation of \$44,554,256,000 for Research, Development, Test and Evaluation, Air Force which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

		BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

## HYPERSONIC WEAPON PROTOTYPING

The Committee recommendation fully funds the Air Force request for hypersonic weapon system research and development, including the \$576,000,000 requested for two major prototyping efforts, the Air-Launched Rapid Response Weapon (ARRW) and the Hypersonic Conventional Strike Weapon (HCSW). However, the Committee is concerned by the continuing budget gap for both efforts, particularly the HCSW. The fiscal year 2020 budget request shows a significant funding shortfall for HCSW compared to the cost estimates that have been communicated to the Committee, and there is no funding programmed to continue HCSW in fiscal year 2021 and thereafter despite the Air Force goal of reaching an early operational capability within fiscal year 2022. The Committee finds that since an updated non-advocate cost assessment was adopted as the internal baseline funding requirement in March 2018, and both the ARRW and HCSW efforts were designated as Section 804 rapid prototyping programs in May 2018, ample time has allowed the Air Force to fully fund both efforts within its budget plans. The Committee is disappointed that the Air Force has failed to do so and believes that this budgetary disconnect communicates uncertainty about the Air Force's intention to see both efforts through to completion.

The Committee also believes that the Air Force needs to provide better information to the Committee about its efforts to transition each effort, assuming that prototyping is successful, to production and fielding. The Committee directs the Secretary of the Air Force to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that includes the following: an updated funding baseline for both the ARRW and HCSW rapid prototyping programs along with a plan to correct any budget shortfalls; an estimate of costs to field an early operating capability for both systems that are not included within the rapid prototyping effort; a notional schedule and cost estimate for the first five production lots; an assessment of current manufacturing readiness levels for both efforts and cost estimates to achieve the levels necessary to support initial production; and a comparative analysis of the justifications for producing and fielding multiple air-launched hypersonic weapons of comparable operational range versus down-selecting to a single type of weapon. This report may be submitted with a classified annex.

## MANUFACTURING TECHNOLOGY FOR HYPERSONIC AND SPACE SYSTEMS

The Committee understands that the application of thermal protection systems is critical to hypersonic and space systems. As the Air Force continues to invest in the development of these essential capabilities, it must also develop the production processes required to manufacture thermal protection systems. The Committee encourages the Secretary of the Air Force to continue the development and transition of this technology to industry to support the future production of hypersonic and space systems.

## PROPULSION FOR REUSABLE HYPERSONIC SYSTEMS

The Committee understands that the Air Force continues to research technology to support the development of reusable hypersonic systems. As this technology continues to mature, the Committee encourages the Secretary of the Air Force to conduct research into reusable hypersonic propulsion technologies including high mach turbines.

## REMOTELY CONTROLLED AIRCRAFT POSITIONING SYSTEMS

The Committee understands that the Air Force is conducting research, development, testing and evaluation of remotely controlled aircraft positioning systems, including systems powered by alternative energy. The Committee supports this research and encourages the Secretary of the Air Force to continue efforts to prototype and test such systems.

## REFRACTORY METAL ALLOY RESEARCH

The Committee understands that refractory metal alloys have the potential to support development of a new generation of jet engines. The Committee encourages the Secretary of the Air Force to continue research into refractory metal alloys with higher stress and temperature tolerances, as well as self-healing properties.

## COATINGS FOR CORROSION CONTROL

The Committee understands that improved coating technologies have the potential to minimize corrosion, decrease aerodynamic drag, and reduce environmental and occupational hazards. In addition, improved coatings potentially can reduce life-cycle costs and improve aircraft availability. The Committee encourages the Secretary of the Air Force to continue research into coating technologies that will reduce aircraft ownership costs and increase readiness.

## LOW COST ATTRITABLE AIRCRAFT TECHNOLOGY

The Committee recommendation includes an additional \$50,000,000 to further develop Low Cost Attritable Aircraft Technology (LCAAT). The Committee understands that the Air Force is undergoing flight tests with a demonstrator air vehicle, the XQ-58A, to evaluate system functionality, aerodynamic performance, and launch and recovery systems. The Committee believes that LCAAT has the potential for game-changing capability and capacity across both permissive and contested environments while avoiding the high cost, long development timelines, and inflexible production lines of traditional aircraft programs. The Committee provides the additional funding for the further development, demonstration, prototyping, and integration of LCAAT air vehicles, payloads, launch and recovery concepts, datalinks, human-machine interface enhancements, manned-unmanned teaming, sustainment systems, and other LCAAT-related efforts. The Committee directs the Secretary of the Air Force to submit a spend plan to the congressional defense committees for the LCAAT funding in the budget request and the additional funding provided by the Committee not later than 90 days after the enactment of this Act.

## THIN FILM PHOTOVOLTAIC MATERIALS

The Committee is aware of advancements in materials research for photovoltaic solar cells and therefore the recommendation includes an additional \$7,000,000 for thin-film photovoltaic technologies. The Committee encourages the Commander of the Air Force Research Laboratory to pursue research areas suitable for space, autonomous vehicles, and soldier power applications that will deliver improved specific power, resistance to thermal cycling and mechanical reliability. The Air Force Research Laboratory should consider expanding its relationships through a competitive process to broaden the types of materials and devices under investigation while leveraging existing expertise in terrestrial thin film photovoltaic development.

## NEXT GENERATION OVERHEAD PERSISTENT INFRARED PROGRAM

The fiscal year 2020 budget request for the Next Generation Overhead Persistent Infrared (OPIR) program is \$1,395,278,000, an increase of \$752,152,000 above the fiscal year 2019 enacted level. The Committee appreciates the importance of the OPIR mission to national security, and the urgent need to field a more resilient capability against growing space threats. However, the Committee is concerned with the rapid budget growth and the Air Force strategy of relying on significant reprogramming requests to keep the program on schedule. Further, the Committee questions whether the use of authorities for middle tier acquisition for rapid prototyping and rapid fielding under Section 804 of the National Defense Authorization Act for Fiscal Year 2016 is appropriate for this program, and whether the Department of Defense's oversight and management controls are adequate given the use of the middle tier acquisition authority. Therefore, the Committee recommendation includes \$1,193,688,000 for the Next Generation Overhead Persistent Infrared program, a reduction of \$201,590,000.

Further, the Committee notes that the Department of Defense lacks a comprehensive long-term architecture for overhead persistent infrared which integrates the requirements and capabilities across the military user community, to include integration of missile defense and hypersonic defense capabilities. The Committee views the current Next Generation Overhead Persistent Infrared Block 0 program as an important interim step to a currently undefined, but much needed, future comprehensive OPIR architecture. Therefore, the bill includes a legislative provision requiring the Space Development Agency and the Air Force to define the process by which the organizations will coordinate to develop a unified and integrated space architecture, to clarify roles and responsibilities in developing and demonstrating prototype capabilities and to transition the future comprehensive OPIR architectures to programs of record.

## SPACE COMMON OPERATING PICTURE

The National Space Defense Center, and its predecessor organizations, have been struggling for over a decade to develop a system to provide a common operating picture that integrates the space situational awareness sensors across the intelligence community

and the Department of Defense. The Committee understands that there are commercial solutions available that could potentially provide a capability to meet some of these requirements in the near term. Therefore, the Committee provides an increase of \$5,000,000 within the Joint Space Operations Center Mission System budget request for commercial capability to evaluate potential commercial solutions to provide a common operating picture.

#### NATIONAL SECURITY SPACE LAUNCH

Assured access to space is the foundation of a strong national security space program. The Committee commends the Air Force for its impressive track record of successful launches over the past 15 years and reliably delivering critical capabilities to orbit. While the Air Force initially resisted introducing competition for national security launch, the Committee commends the Air Force for now embracing competition and facilitating progress toward eliminating its reliance on Russian engines. The Committee notes that the national security space launch program is going through a critical transition as it phases out legacy launch systems and considers a variety of new and upgraded rockets to meet the full slate of national security mission requirements.

However, the Committee is concerned with the significant level of technical and programmatic risk this transition entails, including risk of a potential gap if any of the new, unproven rockets develop problems or experience setbacks. Therefore, the Committee recommendation fully funds the request for the National Security Space Launch program and urges the Secretary of the Air Force to proceed expeditiously with its strategy in order to minimize the risk of a gap in assured access to space.

#### PERSISTENT CYBER ENGAGEMENT

The Committee recognizes U.S. Cyber Command's emphasis on persistent engagement as part of the evolving strategy to secure the cyber domain. The Committee understands that efforts currently are underway at the Air Force Research Laboratory to establish a center for persistent cyber engagement to provide training and skills development for cyber security. The Committee understands that there is a continuing need for investment in technical platforms, manpower, access to networks and software, and acquisition of technology, and that such a center could aid the integration of investment across these areas. The Committee encourages the Secretary of the Air Force and the Commander of U.S. Cyber Command to continue and enhance efforts to support persistent cyber engagement.

#### DATA TRANSMISSION IN CONTESTED ENVIRONMENTS

The Committee is aware of increasing data transmission challenges in the multi-domain battlespace with the rising demand for high-definition full motion video, voice, geolocation, and intelligence data requests. Data transmission is particularly difficult in contested environments where shared information may be susceptible to capture, corruption, or disruption. The Committee encourages the Secretary of the Air Force to develop and mature data trans-

mission technologies including next generation multi-beam arrays, encrypted data transmission waveforms, high data capacity, and the ability to pass both tactical data link and common data link full motion imagery. The Committee directs the Secretary of the Air Force to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on encrypted data transmission technology advancements and plans for demonstration and acquisition.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,  
DEFENSE-WIDE

Fiscal year 2019 appropriation .....	\$23,691,836,000
Fiscal year 2020 budget request .....	24,346,953,000
Committee recommendation .....	24,492,308,000
Change from budget request .....	+145,355,000

The Committee recommends an appropriation of \$24,492,308,000 for Research, Development, Test and Evaluation, Defense-Wide which will provide the following program in fiscal year 2020:

(DOLLARS IN THOUSANDS)

## RENEWABLE ENERGY FOR MILITARY INSTALLATIONS

The Committee notes that ensuring a reliable and resilient electrical power supply to military installations is critical to national security. The Committee further notes that renewable sources of energy can provide electricity while reducing long-term base operating costs. The Committee encourages the Secretary of Defense to support the research and development of renewable energy technology, such as solar arrays, that are resilient against extreme environmental and seismic conditions, electromagnetic pulse, and intentional disruption.

## TRUSTED FOUNDRY

The Committee recognizes the importance of obtaining microelectronics from trusted suppliers. The Committee continues to urge the Secretary of Defense to facilitate and encourage competition in the fabrication of microelectronic devices when two or more participants in the Trusted Foundry Program can provide such devices and to expand opportunities for participation in the Trusted Foundry program. Participants in the Trusted Foundry Program should have the opportunity to compete under full, open, and merit-based competition, to the extent practicable, for all Trusted Foundry contracts.

## COOPERATIVE RESEARCH

The Committee is pleased with efforts by the Service Secretaries to increase communication and cooperation among the military Services on science and technology investments. Coordination of the respective research agendas and investment plans will help reduce duplication, better leverage investments in areas of mutual interest, and reduce gaps in promising areas of technology. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act which identifies the strategy and goals for each specific area of ongoing cooperative research, a five-year plan of prospective areas of cooperative research, and an estimate of amounts and sources of funding to carry out such research.

## WOMEN AND MINORITIES IN STEM PIPELINE

The Department of Defense faces challenges recruiting and retaining a workforce skilled in science, technology, engineering, and mathematics (STEM). While this is a nationwide concern, the Committee supports Department of Defense efforts to grow the STEM workforce pipeline, particularly for women and minorities. The Committee encourages the Under Secretary of Defense for Research and Engineering to continue these efforts by partnering with Hispanic Serving Institutions, Historically Black Colleges and Universities, and other Minority Serving Institutions on research, fellowships, internships, and cooperative work experiences at defense laboratories.

Additionally, the Committee encourages the Under Secretary of Defense for Research and Engineering to collaborate with Hispanic Serving Institutions, Historically Black Colleges and Universities, and other Minority Serving Institutions to build a pipeline for sci-

entists and engineers to enter the cyber workforce upon graduation. The Committee directs the Under Secretary of Defense for Research and Engineering to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act on departmental efforts to collaborate with these institutions in science and engineering fields.

#### LEAD-FREE ELECTRONICS

The current commercial trend toward lead-free electronics may result in supply chain and procurement issues that will impact the Department of Defense. The Committee encourages the Under Secretary of Defense for Research and Engineering to establish and maintain partnerships with industry and academia to close technical gaps and increase the capacity of the defense industry to produce lead-free electronics that meet military requirements.

#### PROTECTING TROOPS FROM BIOLOGICAL WEAPONS

The Committee recognizes the complexity of protecting warfighters from a full spectrum of biological threats. The Committee encourages the Director of the Defense Threat Reduction Agency to collaborate with institutions of higher learning on efforts to fully protect warfighters from biological threats.

#### FORENSIC SCIENCE WORKFORCE

The Committee understands that the Department of Defense has a requirement to grow its forensics workforce. The Committee encourages the Under Secretary of Defense for Research and Engineering to evaluate the Department's need for forensic scientists and collaborate with colleges and universities with programs that the Department may be able to leverage.

#### MILITARY LANGUAGE FLAGSHIP PROGRAM

The Committee recognizes that the National Security Education Program provides training for servicemembers and civilians in languages and cultures critical to national security. The Committee encourages the Secretary of Defense to continue supporting programs that ensure warfighters receive the language and culture training needed to effectively complete missions. Additionally, the Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act which provides the percentage of strategic language billets filled with level three foreign language speakers and identifies additional resources that may be required to address existing shortfalls in this skillset.

#### INTEGRATED POWER AND THERMAL SYSTEMS

The Committee recognizes the importance of emergent capabilities in the field of directed energy weapons and acknowledges that a modular and scalable integrated power and thermal system capable of powering a directed energy weapon system of 100 or more kilowatts would provide an enhanced capability. The Committee encourages the Under Secretary of Defense for Research and Engi-

neering to review requirements for an integrated power and thermal system.

#### DISTRIBUTED LEDGER TECHNOLOGY RESEARCH AND DEVELOPMENT

The Committee is aware that distributed ledger technologies, such as blockchain, may have potentially useful applications for the Department of Defense, which include but are not limited to distributed computing, cyber security, logistics, and auditing. Therefore, the Committee encourages the Under Secretary of Defense for Research and Engineering to consider research and development to explore the use of distributed ledger technologies for defense applications.

#### NATIONAL SECURITY INNOVATION BASE

The Committee supports the contributions by the Department of Defense Basic Research Office to the national security innovation base. The Committee encourages the Under Secretary of Defense for Research and Engineering to continue these efforts, and expand connections between the Department of Defense, industry, and academia to provide a strong base for research of warfighting technologies.

#### ADVANCED STRUCTURAL MANUFACTURING TECHNOLOGIES

The Committee supports additional development on advanced additive manufacturing technologies utilizing cold spray to accelerate the delivery of technical capabilities to warfighters and expeditiously advance technologies. The Committee encourages the Under Secretary of Defense for Research and Engineering to consider the potential benefits of cold spray in operational and modernization efforts.

#### AUTONOMOUS DISTRIBUTION FOR CRITICAL SUPPLIES

The Committee is aware that the 2015 Joint Concept for Logistics 2.0 noted that the tension between increasingly demanding logistics requirements and constrained and degraded logistics resources within the context of globally integrated operations creates a dilemma that will be the essential challenge joint logistics will have to overcome for the foreseeable future. The Committee also is aware that the Defense Innovation Unit, through the Army Contracting Command, has been prototyping commercial, autonomous drone services to deliver critical supplies, such as life-saving blood and medical products, to military members in combat. The Committee supports the continued development and expansion of autonomous distribution systems for these efforts in real-world operations to move faster, reduce costs, and ultimately save lives.

#### OPERATIONAL TEST AND EVALUATION, DEFENSE

Fiscal year 2019 appropriation .....	\$381,009,000
Fiscal year 2020 budget request .....	221,200,000
Committee recommendation .....	221,200,000
Change from budget request .....	- - -

The Committee recommends an appropriation of \$221,200,000 for Operational Test and Evaluation, Defense which will provide the following program in fiscal year 2020:

## EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

## REPROGRAMMING GUIDANCE FOR THE DEFENSE HEALTH PROGRAM

The Committee includes a provision which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The provision and accompanying report language should not be interpreted as limiting the amount of funds that may be transferred to the In-House Care budget sub-activity from other budget sub-activities within the Defense Health Program. In addition, funding for the In-House Care budget sub-activity continues to be designated as a congressional special interest item. Any transfer of funds from the In-House Care budget sub-activity into the Private Sector Care budget sub-activity or any other budget sub-activity requires the Secretary of Defense to follow prior approval reprogramming procedures for operation and maintenance funds.

The Committee directs the Secretary of Defense to provide written notification to the congressional defense committees of cumulative transfers in excess of \$10,000,000 out of the Private Sector Care budget sub-activity not later than fifteen days after such a transfer. Furthermore, the Committee directs the Secretary of Defense to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act that delineates transfers of funds, and the dates any transfers occurred, from the Private Sector Care budget sub-activity to any other budget sub-activity.

The Committee further directs the Assistant Secretary of Defense for Health Affairs to provide quarterly reports to the congressional defense committees on budget execution data for all of the Defense Health Program budget activities and to adequately reflect changes to the budget activities requested by the Services in future budget submissions. These reports should also be provided to the Government Accountability Office.

## CARRYOVER

For fiscal year 2020, the Committee recommends one percent carryover authority for the operation and maintenance account of the Defense Health Program. The Committee directs the Assistant Secretary of Defense for Health Affairs to submit a detailed spending plan for any fiscal year 2019 designated carryover funds to the congressional defense committees not less than 30 days prior to executing the carryover funds.

## PEER-REVIEWED CANCER RESEARCH PROGRAMS

The Committee recommends \$150,000,000 for the peer-reviewed breast cancer research program, \$110,000,000 for the peer-reviewed prostate cancer research program, \$35,000,000 for the peer-reviewed ovarian cancer research program, \$30,000,000 for the peer-reviewed kidney cancer research program, \$14,000,000 for the peer-reviewed lung cancer research program, \$10,000,000 for the peer-reviewed melanoma cancer research program, \$4,000,000 for the peer-reviewed pancreatic cancer research program, and \$100,000,000 for the peer-reviewed cancer research program that would research cancers not addressed in the aforementioned programs currently executed by the Department of Defense.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: bladder cancer, blood cancers, brain cancer, colorectal cancer, esophageal cancer, liver cancer, lymphoma, skin cancers, mesothelioma, rare cancers, stomach cancer, and cancer in children, adolescents, and young adults.

The funds provided under the peer-reviewed cancer research program shall be used only for the purposes listed above. The Committee directs the Assistant Secretary of Defense for Health Affairs to provide a report not later than 180 days after the enactment of this Act to the congressional defense committees on the status of the peer-reviewed cancer research program. For each research area, the report shall include the funding amount awarded, the progress of the research, and the relevance of the research to servicemembers and their families.

The Committee commends the Department of Defense for ensuring that projects funded through the various peer-reviewed cancer research programs maintain a focus on issues of significance to military populations and the warfighter. This includes promoting collaborative research proposals between Department of Defense researchers and non-military research institutions. These collaborations leverage the knowledge, infrastructure and access to clinical populations that the partners bring to the research effort. Additionally, promoting these collaborations provides a valuable recruitment and retention incentive for military medical and research personnel. The Committee encourages the Assistant Secretary of Defense for Health Affairs to continue to emphasize the importance of these collaborations between military and non-military researchers throughout the peer review process.

#### JOINT WARFIGHTER MEDICAL RESEARCH PROGRAM

The Committee recommendation includes \$40,000,000 for the continuation of the joint warfighter medical research program. The funding shall be used to augment and accelerate high priority Department of Defense and Service medical requirements and to continue prior year initiatives that are close to achieving their objectives and yielding a benefit to military medicine. The funding shall not be used for new projects nor for basic research, and it shall be awarded at the discretion of the Secretary of Defense following a review of medical research and development gaps as well as unfinanced medical requirements of the Services. Further, the Committee directs the Assistant Secretary of Defense for Health Affairs to submit a report not later than 180 days after the enactment of this Act to the congressional defense committees that lists the projects that receive funding. The report should include the funding amount awarded to each project, a thorough description of each project's research, and the benefit the research will provide to the Department of Defense.

#### COMBAT READINESS MEDICAL RESEARCH PROGRAM

The Committee recommendation includes \$10,000,000 for the Combat Readiness Medical Research program. The program should focus on medical needs of the warfighter on the battlefield. Research should address the "golden hour" for servicemembers with

life threatening injuries, battlefield diagnostics, and medical threats and treatments for warfighters deployed around the world.

The Committee expects the Assistant Secretary of Defense for Health Affairs to identify current gaps in medical planning and resources, consider medical capabilities that may mitigate fatalities, enhance battlefield diagnostics, and find solutions for life threatening complications after battlefield injury.

The funding in the Combat Readiness Medical Research program should be used for research and development of freeze-dried plasma and platelets; rapidly deployable, all-in-one acute and chronic wound care therapy engineered to address complex trauma and start tissue regeneration; repairing or restoring damaged or missing genitourinary organs and tissue; portable neurological devices in support of mild traumatic brain injury assessment; prevention of Enterotoxigenic *Escherichia coli* diarrheal disease; inflammatory bowel disease; myalgic encephalomyelitis/chronic fatigue syndrome; sleep disorders; telemedicine; and infectious diseases.

#### ELECTRONIC HEALTH RECORDS

The Committee continues to support the efforts that the Department of Defense and the Department of Veterans Affairs are undertaking with regard to electronic health records and the health record system. It is the Committee's ongoing expectation that the Departments' electronic health record systems must be completely and meaningfully interoperable with seamless compatibility. The Committee is encouraged that the Department of Veterans Affairs has decided to adopt the same electronic health record system as the Department of Defense; however, the Committee remains frustrated over the amount of time it will take before both Departments' systems are fully deployed to all military treatment facilities and Department of Veterans Affairs medical facilities.

The Committee directs the Secretary of Defense to expeditiously implement the Electronic Health Record Modernization Joint Commitment, which includes the prompt establishment of an accountable and coordinated decision making and oversight entity. The Committee understands that the Department, in coordination with the Department of Veterans Affairs, continues its organizational process for the Interagency Program Office (IPO). The Committee is concerned that the Director of the IPO is currently planned to be subordinate to both the Deputy Secretary of Defense and the Deputy Secretary of Veterans Affairs and does not have a singular supervisory entity. The Committee is concerned that the proposed structure could present challenges with decision making and accountability. Therefore, the Committee directs the Secretary of Defense to work with the Secretary of Veterans Affairs to develop a reporting structure that ensures the Director of the IPO has a single supervisory entity.

The Committee also acknowledges that one of the determining factors in the timeline for the deployment of the electronic health record is the need to improve informational technology and related infrastructure at military medical treatment facilities. Therefore, the Committee directs the Secretary of Defense to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act on the total cost of the in-

stallation of all remaining information technology and related infrastructure required to complete the deployment of the electronic health record, and the timeline to complete this installation.

Lastly, it should be noted that the Committee recommendation includes legislative language directing the Secretary of Defense to provide quarterly reports to the House and Senate Appropriations Committees on the status of the deployment of the electronic health record. These reports shall include the cost and schedule of the program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation reports. It is expected that the House and Senate Appropriations Committees continue to receive briefings on a quarterly basis, coinciding with the report submission. Also, the recommendation includes legislative language requiring the Secretary to notify the House and Senate Appropriations Committees on any delays to the proposed timeline for deployment. Finally, legislative language is included directing the Comptroller General to continue quarterly performance reviews of the deployment of MHS GENESIS so that the Committee can further monitor implementation of the system and whether it is meeting predicted cost assumptions.

#### MILITARY HEALTH SYSTEM TRANSFORMATION

The Committee is concerned with the implementation of medical reforms mandated by the National Defense Authorization Act for Fiscal Year 2017. The reforms represent the most significant changes to the Military Health System in decades, and the Committee believes it is critical to implement the reforms in such a way that minimizes risk for servicemembers and beneficiaries.

Prior to implementation, both medical readiness and healthcare benefits were intertwined, managed by the Service Surgeons General. Under that model, there was no separation between benefits and readiness and the Services had a holistic picture in treating servicemembers and their families. Additionally, funding for both efforts was intertwined. As reforms are now implemented, the medical readiness of the servicemember will be split from the healthcare benefit. The Services will be responsible for medical readiness while the Defense Health Agency (DHA) will manage the healthcare benefit. Ultimately, military treatment facilities in some locations may be downsized, closed, or healthcare services reduced; remaining military treatment facilities will be administered by the Director of DHA; and fewer military medical providers in non-combat critical specialties will be required. Important questions remain about each aspect of the implementation, and the Committee has been unsatisfied with the Department's inadequate responses.

The impact of these changes on servicemembers and their families is extremely important. It is unclear whether readiness levels or benefits will be negatively affected. For example, access to mental health care is crucial for both servicemembers and their families. The Committee recognizes that there is a nationwide shortage of mental health care professionals and yet the Committee has not seen a plan from DHA on how this field or others will be categorized and accounted for in the Services, the DHA, or both, leaving the Committee with doubts that these critical health care services will be satisfactorily available.

To start accounting for the funding and details related to medical readiness and healthcare benefits, the Committee directs the Secretary of Defense, in coordination with the Service Secretaries and Assistant Secretary of Defense for Health Affairs, to submit separate annual budget justification materials for readiness related care and healthcare benefits beginning with the fiscal year 2021 budget submission.

#### DESCOPING MILITARY TREATMENT FACILITIES

The Committee understands that the Department of Defense expects to submit the “Section 703 Report to Congress” in the summer of 2019. It is anticipated that this report will detail changes to military treatment facilities, and in some cases may recommend closure or elimination of certain healthcare services. Prior to the obligation of funds in fiscal year 2020 to close or descope any military treatment facilities, the Committee directs the Assistant Secretary of Defense for Health Affairs, in coordination with the Director of the Defense Health Agency and the Service Surgeons General, to brief the congressional defense committees on how all decisions were informed. The briefing should include a detailed description of the market analysis conducted, cost implications, timeline, impact on providers, and benefits or risks to the served population.

#### REDUCTION OF MILITARY BILLETS

The fiscal year 2020 budget request represents the most significant review of military medical end strength since fiscal year 2003. The request includes a proposal to realign or eliminate almost 18,000 military medical billets in fiscal year 2020. While the eliminated medical billets would transfer back to the Services for lethality purposes in fiscal year 2020, actual implementation of the strength reductions will be accomplished through attrition in subsequent years.

The Committee is dissatisfied that the reductions were not appropriately captured in the budget request materials by showing all billets being reduced in fiscal year 2020 as opposed to a phased reduction. The Committee is displeased that medical readiness appears to have been the only consideration when such decisions were made, that key leaders across the Department are either unable or unprepared to articulate a comprehensive plan, and that these reductions will have major ramifications throughout the Military Health System. The Department has not adequately justified this request or provided a detailed mitigation plan that would not result in lowered availability of care for beneficiaries.

While the Committee is concerned with the number of medical positions being eliminated and the premise of the analysis used to justify the reductions, the Committee also acknowledges that there are thousands of currently unfilled medical billets, which will be first reduced in fiscal year 2020. The fiscal year 2020 budget request includes an increase of \$250,000,000 in In-House Care to mitigate potential access to care issues caused by the reduction of military providers. Responses to Committee questions on risk and access issues have failed to explain the impact of these reductions. In fact, the Department’s analysis on impacts to readiness, patient safety, access to care, and cost will not be completed until late sum-

mer or early fall 2019. This, coupled with the number of currently unfilled billets that can be shed with no cost, has led to the Committee recommendation to deny the requested increase of \$250,000,000. The Committee remains willing to continue the dialogue on required funding once analysis has been completed. As the fiscal year 2020 request for funding is expected to be the first increment of larger budget requests over the future years defense program to allay potential problems, the Committee fully expects the fiscal year 2021 budget justification will provide details required for proper congressional oversight.

#### TRANSITIONING MILITARY TREATMENT FACILITIES TO THE DEFENSE HEALTH AGENCY

In October 2018, the first group of military treatment facilities transitioned control from the Services to the Defense Health Agency (DHA). As additional treatment facilities are scheduled to transition in October 2019, the Committee encourages the Assistant Secretary of Defense for Health Affairs, in coordination with the Director of DHA and the Service Surgeons General, to ensure that the DHA is prepared to assume management and administration responsibilities of the treatment facilities prior to the next transition. The Committee directs the Comptroller General to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on the transition of the military treatment facilities to the DHA. The report should include a review of functions at facilities that have already transitioned, including DHA's role, management or administration support that the Services are providing and a timeline for that support to cease; cost implications of the transition; the current and planned DHA staffing model; and how the DHA will ensure that the Services' medical requirements are accounted for.

#### METASTATIC CANCER RESEARCH

Metastatic cancer is cancer that has spread from its original location to another place in the body, representing what is known as stage III and stage IV cancer diagnoses. While recent research has revealed that there is a genetic basis for susceptibility or resistance to metastasis, more research is needed to develop a comprehensive understanding of this complex process. The Committee encourages the Assistant Secretary of Defense for Health Affairs to implement the recommendations provided by the Department of Defense task force on metastatic cancer to make significant progress fighting cancer and saving lives.

#### COLLABORATION WITH MINORITY SERVING HEALTH INSTITUTIONS

The Committee encourages the Assistant Secretary of Defense for Health Affairs to work collaboratively in the health research field with Hispanic Serving Institutions, Historically Black Colleges and Universities, and other Minority Serving Institutions. The Committee directs the Assistant Secretary of Defense for Health Affairs to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act on

the Department's efforts to collaborate with these institutions in the health research field.

#### CREATIVE ARTS THERAPIES

The Committee recognizes that the use of creative arts therapies shows potential in treating servicemembers with traumatic brain injuries and psychological health conditions. The Committee supports Department of Defense efforts to include creative arts therapies as part of an interdisciplinary treatment model. The Committee encourages the Assistant Secretary of Defense for Health Affairs to continue creative arts therapies programs at the National Intrepid Centers, and to continue collaborations with the National Endowment for the Arts Creative Forces.

The Committee further directs the Assistant Secretary of Defense for Health Affairs to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act on the funding provided by the Department of Defense for creative arts therapies at the National Intrepid Centers and the available options, along with associated funding requirements, for expanding the use of such therapies.

#### DIET AND FORCE READINESS

The diet of military personnel can impact their health and physical readiness and can contribute to how quickly they are able to return to service after an injury. The Committee encourages the Assistant Secretary of Defense for Health Affairs to conduct research on diet and dietary restrictions as it relates to force readiness and the physical capabilities and rehabilitation of servicemembers.

#### UNIVERSITY AFFILIATED RESEARCH CENTERS

The Committee notes the important relationship between the Department of Defense and Department-sponsored University Affiliated Research Center (UARC) laboratories in providing critical science, technology, and engineering research that supports the warfighter. The Committee encourages the Assistant Secretary of Defense for Health Affairs to establish a UARC to focus on the unique challenges wounded servicemembers experience. Emphasis should be placed on research that reduces dependency on opioids, develops novel pain management and mental health strategies, and leverages partnerships with industry and medical device manufacturers to advance promising technologies for wounded servicemembers.

#### ADVANCED ORTHOPEDIC SURGICAL TRAINING

The Committee understands that servicemembers and their families regularly undergo orthopedic procedures and that these types of musculoskeletal injuries account for a significant amount of medical separations or retirements from military service. Delivery of direct training based on best practices related to orthopedic procedures for injuries to the knee, shoulder, and other extremities has become an increasingly important readiness issue.

The Committee directs the Assistant Secretary of Defense for Health Affairs to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act on the Department's efforts to ensure that military orthopedic health professionals are provided with opportunities for advanced surgical training in arthroscopic techniques. The Committee encourages the Assistant Secretary of Defense for Health Affairs to explore partnerships with medical professional societies that maintain best practices related to arthroscopic surgery and techniques.

#### VALLEY FEVER

Coccidioidomycosis, also known as Valley Fever, is a fungal disease that is contracted by inhaling the spores of a fungus found in the soil endemic to the American southwest and other parts of the world. The Committee is concerned about the impacts on readiness that Valley Fever poses to servicemembers stationed at military installations in the southwest. Therefore, the Committee encourages the Assistant Secretary of Defense for Health Affairs to research coccidioidomycosis, its effects on military personnel, and ways the Department of Defense can limit exposure for servicemembers.

#### TRAUMATIC BRAIN INJURY

The Committee recognizes recent efforts by the Department of Defense to leverage partnerships with academia and the private sector to understand and improve prevention and treatment of traumatic brain injuries to servicemembers. The Committee encourages the Assistant Secretary of Defense for Health Affairs to continue to leverage partnerships with academia and the private sector to support further studies of traumatic brain injuries to gain a deeper understanding of concussive injuries including how they impact the brain, how and to what extent the brain recovers, and how prevention and treatment methods may be improved.

#### MENTAL HEALTH PROVIDERS

The Committee supports the Department's continuing efforts to ensure that servicemembers have access to high quality mental health services and providers. In order to ensure that the Department continues to have full access to qualified clinical psychologists, the Committee encourages the Assistant Secretary of Defense for Health Affairs to review regulations regarding employment of clinical psychologists who graduate from schools accredited by the Psychological Clinical Science Accreditation System.

#### THE CANCER CENTER AT WALTER REED NATIONAL MILITARY MEDICAL CENTER

The Committee recognizes that close cooperation between The John P. Murtha Cancer Center at Walter Reed National Military Medical Center and the Assistant Secretary of Defense for Health Affairs has fostered the partnership between the Murtha Cancer Center and the Oncology Research Information Exchange Network. The Murtha Cancer Center is the only center of excellence for cancer care in the military health system. This partnership allows the

Murtha Cancer Center to collaborate in cancer research with several academic cancer centers that all use a single protocol for long-term health surveillance of cancer patients to correlate patterns in cancer incidence, treatment response, and survivorship with genetic information, demographic data, and other factors. The Committee commends the Assistant Secretary of Defense for Health Affairs for assisting the Murtha Cancer Center in this partnership and encourages increased support to allow for continued expansion of this effort to deliver enhanced cancer treatment for all servicemembers and their families.

#### SEXUAL ASSAULT AND POST-TRAUMATIC STRESS DISORDER

The Committee believes that providing servicemembers access to outpatient programs designed to treat individuals suffering from post-traumatic stress disorder (PTSD) resulting from sexual assault trauma could improve outcomes received for military sexual assault survivors experiencing PTSD. The Committee encourages the Assistant Secretary of Defense for Health Affairs to collaborate with research institutions currently investigating treatment strategies for PTSD resulting from sexual trauma.

#### HEARING CENTER OF EXCELLENCE

The Committee is concerned that the current formatting of records in the Department of Defense's Hearing Center of Excellence Joint Hearing Loss and Auditory System Injury Registry (JHASIR) hinders partnerships with the Department of Veterans Affairs, institutions of higher education, and other public and private entities. The Committee directs the Assistant Secretary of Defense for Health Affairs to review the feasibility of the digital transformation of audiograms, legacy records, and other data maintained in the JHASIR, and to submit a report on the review to the congressional defense committees not later than 90 days after the enactment of this Act.

#### CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

Fiscal year 2019 appropriation .....	\$993,816,000
Fiscal year 2020 budget request .....	985,499,000
Committee recommendation .....	985,499,000
Change from budget request .....	---

The Committee recommends an appropriation of \$985,499,000 for Chemical Agents and Munitions Destruction, Defense which will provide the following program in fiscal year 2020:

#### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
OPERATION AND MAINTENANCE .....	107,351	107,351	0
PROCUREMENT .....	2,218	2,218	0
RESEARCH, DEVELOPMENT, TEST AND EVALUATION .....	875,930	875,930	0
TOTAL, CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE ..	985,499	985,499	0

### DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

Fiscal year 2019 appropriation .....	\$881,525,000
Fiscal year 2020 budget request .....	799,402,000
Committee recommendation .....	816,755,000
Change from budget request .....	+17,353,000

The Committee recommends an appropriation of \$816,755,000 for Drug Interdiction and Counter-Drug Activities, Defense which will provide the following program in fiscal year 2020:

#### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
COUNTER-NARCOTICS SUPPORT .....	581,739	517,171	- 64,568
Transfer to National Guard Counter-Drug Program .....		- 30,921	
Program decrease .....		- 33,647	
DRUG DEMAND REDUCTION PROGRAM .....	120,922	121,922	1,000
Program increase—young Marines drug demand reduction .....		1,000	
NATIONAL GUARD COUNTER-DRUG PROGRAM .....	91,370	172,291	80,921
Transfer from Counter-narcotics Support .....		30,921	
Program increase .....		50,000	
NATIONAL GUARD COUNTER-DRUG SCHOOLS .....	5,371	5,371	0
TOTAL, DRUG INTERDICTION AND COUNTER DRUG ACTIVITIES, DE- FENSE .....	799,402	816,755	17,353

#### DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES

The Committee recommendation includes \$517,171,000 for Counter-Narcotics Support, the same as the fiscal year 2019 enacted level.

The Committee recommendation includes \$121,922,000 for the Drug Demand Reduction Program, including requested funding to add fentanyl to the list of drugs tested under this program.

The Committee recognizes the important role of the National Guard Counter-Drug program in assisting local and state agencies in addressing national drug-related challenges. The Committee encourages the administrators of the National Guard Counter-Drug program to continue their close coordination with communities, regions, and other organizations to help alleviate the national drug crisis.

The fiscal year 2020 request includes no funding, and the Committee recommendation includes no funding, to construct a border wall or fence (or any portion thereof) along the southern land border of the United States.

#### OFFICE OF THE INSPECTOR GENERAL

Fiscal year 2019 appropriation .....	\$329,273,000
Fiscal year 2020 budget request .....	363,499,000
Committee recommendation .....	363,499,000
Change from budget request .....	---

The Committee recommends an appropriation of \$363,499,000 for the Office of the Inspector General which will provide the following program in fiscal year 2020:

## EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
OPERATION AND MAINTENANCE .....	360,201	360,201	0
PROCUREMENT .....	333	333	0
RESEARCH, DEVELOPMENT, TEST AND EVALUATION .....	2,965	2,965	0
TOTAL, OFFICE OF THE INSPECTOR GENERAL .....	363,499	363,499	0

TITLE VII  
RELATED AGENCIES

NATIONAL AND MILITARY INTELLIGENCE PROGRAMS

The National Intelligence Program and the Military Intelligence Program budgets funded in the Department of Defense Appropriations Act consist primarily of resources for the Director of National Intelligence, including the Intelligence Community Management staff, the Central Intelligence Agency (CIA), the Defense Intelligence Agency, the National Reconnaissance Office, the National Security Agency, the National Geospatial-Intelligence Agency, the intelligence services of the Departments of the Army, Navy, and Air Force, and the CIA Retirement and Disability fund.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in a separate, detailed, and comprehensive classified annex. The Intelligence Community, the Department of Defense, and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2020.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND  
DISABILITY SYSTEM FUND

Fiscal year 2019 appropriation .....	\$514,000,000
Fiscal year 2020 budget request .....	514,000,000
Committee recommendation .....	514,000,000
Change from budget request .....	---

This appropriation provides payments of benefits to qualified beneficiaries in accordance with the Central Intelligence Agency Retirement Act of 1964 for Certain Employees (P.L. 88-643), as amended by Public Law 94-522. This statute authorized the establishment of the CIA Retirement and Disability System for certain employees and authorized the establishment and maintenance of a fund from which benefits would be paid to those beneficiaries.

The Committee recommends an appropriation of \$514,000,000 for the Central Intelligence Agency Retirement and Disability System Fund. This is a mandatory account.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

Fiscal year 2019 appropriation .....	\$522,424,000
Fiscal year 2020 budget request .....	558,000,000
Committee recommendation .....	558,000,000
Change from budget request .....	---

The Committee recommends an appropriation of \$558,000,000 for the Intelligence Community Management Account.

## CREDIBILITY ASSESSMENT

The Committee remains concerned about the costs, complexity, and timeliness of the current security clearance process across the federal government. The National Center for Credibility Assessment (NCCA) has been exploring less expensive technologies and methods that may help target which individuals require a polygraph. These technologies require rigorous testing to evaluate their relative utility compared to the polygraph. In fiscal year 2019, the Committee directed the Director of National Intelligence (DNI), acting as the federal government's Security Executive Agent, and the NCCA, to provide a report to the congressional defense committees not later than 90 days after the enactment of the Act on the effectiveness of alternative technologies to the polygraph credibility. The Committee is disappointed that the report remains outstanding and directs the DNI, in coordination with the Under Secretary of Defense for Intelligence, to submit it as soon as practicable.

## TITLE VIII

### GENERAL PROVISIONS

Title VIII of the accompanying bill includes 127 general provisions. A brief description of each provision follows.

Section 8001 provides that no funds made available in this Act may be used for publicity or propaganda purposes not authorized by Congress.

Section 8002 provides for conditions and limitations on the payment of compensation to, or employment of, foreign nationals.

Section 8003 provides that no funds made available in this Act may be obligated beyond the end of the fiscal year unless expressly provided for a greater period of availability elsewhere in the Act.

Section 8004 limits the obligation of certain funds provided in this Act during the last two months of the fiscal year.

Section 8005 has been amended and provides for the general transfer authority of funds to other military functions.

Section 8006 provides that the tables titled "Explanation of Project Level Adjustments" in the Committee report and classified annex shall be carried out in the manner provided by the tables to the same extent as if the tables were included in the text of this Act.

Section 8007 has been amended and provides for the establishment of a baseline for application of reprogramming and transfer authorities for the current fiscal year.

Section 8008 provides for limitations on the use of transfer authority of working capital fund cash balances.

Section 8009 provides that none of the funds appropriated in this Act may be used to initiate a special access program without prior notification to the congressional defense committees.

Section 8010 has been amended and provides limitations and conditions on the use of funds made available in this Act to initiate multiyear procurement contracts.

Section 8011 provides for the use and obligation of funds for humanitarian and civic assistance costs.

Section 8012 has been amended and provides that civilian personnel of the Department of Defense may not be managed on the basis of end strength or be subject to end strength limitations.

Section 8013 prohibits funding from being used to influence congressional action on any matters pending before the Congress.

Section 8014 prohibits compensation from being paid to any member of the Army who is participating as a full-time student and who receives benefits from the Education Benefits Fund when time spent as a full-time student is counted toward that member's service commitment.

Section 8015 provides for the transfer of funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program.

Section 8016 provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States.

Section 8017 provides that no funds made available in this Act shall be used for the support of any nonappropriated funds activity of the Department of Defense that procures malt beverages and wine.

Section 8018 prohibits funds made available to the Department of Defense from being used to demilitarize or dispose of certain surplus firearms and small arms ammunition or ammunition components.

Section 8019 provides a limitation on funds being used for the relocation of any Department of Defense entity into or within the National Capital Region.

Section 8020 provides for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544).

Section 8021 provides that no funding for the Defense Media Activity may be used for national or international political or psychological activities.

Section 8022 provides for the obligation of funds for purposes specified in section 2350j(c) of title 10, United States Code, in anticipation of receipt of contributions from the Government of Kuwait.

Section 8023 has been amended and provides funding for the Civil Air Patrol Corporation.

Section 8024 has been amended and prohibits funding from being used to establish new Department of Defense Federally Funded Research and Development Centers (FFRDC), with certain limitations and increases funding provided for FFRDCs.

Section 8025 provides for the Department of Defense to procure carbon, alloy, or armor steel plate melted and rolled only in the United States and Canada.

Section 8026 defines the congressional defense committees as the Armed Services Committees of the House and Senate and the Subcommittees on Defense of the Committees on Appropriations of the House and Senate.

Section 8027 provides for competitions between private firms and Department of Defense depot maintenance activities.

Section 8028 has been amended and provides for the revocation of blanket waivers of the Buy American Act.

Section 8029 provides for the availability of funds contained in the Department of Defense Overseas Military Facility Investment Recovery Account.

Section 8030 provides for the conveyance, without consideration, of relocatable housing units that are excess to the needs of the Air Force.

Section 8031 provides authority to use operation and maintenance appropriations to purchase items having an investment item unit cost of not more than \$250,000.

Section 8032 prohibits the use of funds to disestablish, close, downgrade from host to extension center, or place on probation a Senior Reserve Officers' Training Corps.

Section 8033 has been amended and provides authority to use operation and maintenance appropriations for the Asia Pacific Regional Initiative Program.

Section 8034 prohibits the sale of tobacco products in military resale outlets below the most competitive price in the local community.

Section 8035 has been amended and prohibits the use of Working Capital Funds to purchase specified investment items.

Section 8036 has been amended and provides that none of the funds appropriated for the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year except for funds appropriated for the Reserve for Contingencies, the Working Capital Fund, or other programs as specified.

Section 8037 provides for the availability of funds for the mitigation of environmental impacts on Indian lands resulting from Department of Defense activities.

Section 8038 requires the Department of Defense to comply with the Buy American Act, chapter 83 of title 41, United States Code.

Section 8039 places certain limitations on the use of funds made available in this Act to establish field operating agencies.

Section 8040 places restrictions on converting to contractor performance an activity or function of the Department of Defense unless it meets certain guidelines provided.

(RESCISSIONS)

Section 8041 has been amended and provides for the rescission of \$3,043,973,000 from the following programs:

2012 Appropriations:		
Shipbuilding and Conversion, Navy:		
DDG-51 Destroyer .....	\$86,000,000	
2013 Appropriations:		
Shipbuilding and Conversion, Navy:		
LCAC SLEP .....	2,000,000	
2018 Appropriations:		
Missile Procurement, Army:		
Indirect fire protection capability .....	14,056,000	
Procurement of Weapons and Tracked Combat Vehicles,		
Army:		
Paladin integrated management .....	97,000,000	
Other Procurement, Army:		
Area mine detection system .....	5,000,000	
Tractor Yard .....	5,685,000	
Aircraft Procurement, Navy:		
F/A-18 E/F .....	92,000,000	
C-40 .....	34,079,000	
Other Procurement, Navy:		
LCS class support equipment .....	24,977,000	
LPD class support equipment .....	9,110,000	
Procurement, Marine Corps:		
AAV7A1 PIP .....	9,046,000	
Aircraft Procurement, Air Force:		
KC-46A tanker .....	76,000,000	
KC-46 modifications .....	1,200,000	
C-130J modifications .....	83,000,000	
Other Procurement, Air Force:		
AFNET (ARAD) .....	26,000,000	

2019 Appropriations:	
Operation and Maintenance, Defense-Wide:	
Defense Security Cooperation Account .....	21,314,000
Aircraft Procurement, Army:	
Apache new build .....	58,600,000
Procurement of Weapons and Tracked Combat Vehicles, Army:	
Bradley program .....	87,567,000
Other Procurement, Army:	
Embedded crypto mod .....	3,520,000
Area mine detection system .....	5,797,000
Tractor Yard .....	4,956,000
Joint effects training system .....	60,900,000
Aircraft Procurement, Navy:	
F/A-18 E/F .....	236,000,000
Joint Strike Fighter STOVL AP .....	114,246,000
CH-53K (Heavy Lift) AP .....	53,693,000
F-18 series .....	36,974,000
H-1 series .....	9,250,000
T-45 series .....	10,520,000
V-22 (tilt/rotor acft) Osprey .....	24,314,000
MQ-4 series .....	16,619,000
Weapons Procurement, Navy:	
5/54" ammunition .....	22,000,000
Other Procurement, Navy:	
LCS class support equipment .....	10,351,000
CANES .....	23,313,000
Unmanned carrier aviation mission control station .....	11,300,000
Procurement, Marine Corps:	
AAV7A1 PIP .....	74,456,000
Aircraft Procurement, Air Force:	
KC-46A tanker .....	52,000,000
KC-46 modifications .....	8,500,000
Initial spares (KC-135) .....	2,200,000
C-17 (RHUD) .....	30,000,000
F-15C EPAWSS .....	67,200,000
F-15 modifications .....	124,000,000
F-16 modifications (AIFF mode 5) .....	36,000,000
A-10 .....	4,800,000
F-22 depot activation .....	30,000,000
MQ-9 spares .....	89,000,000
B-52 modifications .....	40,700,000
MC-130J AP .....	56,000,000
Other aircraft (BACN) .....	15,000,000
Aerial targets .....	48,000,000
Other aircraft (EW pod) .....	25,900,000
Missile Procurement, Air Force:	
MMIII modifications .....	39,100,000
MMIII support equipment .....	13,900,000
Hellfire .....	23,000,000
Space Procurement, Air Force:	
Evolved expendable launch vehicle (SPACE) .....	169,000,000
Evolved expendable launch capability .....	45,509,000
Procurement of Ammunition, Air Force:	
Massive ordnance penetrator .....	3,400,000
General purpose bombs (BLU-137) .....	71,800,000
JDAM .....	149,000,000
B61-12 TKA .....	11,900,000
Research, Development, Test and Evaluation, Army:	
Assured PNT .....	17,998,000
Missile warning system modernization .....	6,776,000
AMF joint tactical radio system .....	15,964,000
Other missile product improvement programs .....	4,450,000
Information systems security program .....	20,745,000

MEECN (NC3 dem/val) .....	5,000,000
ARM/ORD .....	10,000,000
Classified program .....	61,000,000
Classified program .....	2,000,000

Section 8042 prohibits funds made available in this Act from being used to reduce authorized positions for military technicians (dual status) of the Army National Guard, Air National Guard, Army Reserve, and Air Force Reserve unless such reductions are a direct result of a reduction in military force structure.

Section 8043 prohibits funding from being obligated or expended for assistance to the Democratic People's Republic of Korea unless specifically appropriated for that purpose.

Section 8044 provides for reimbursement to the National Guard and reserve when members of the National Guard and reserve provide intelligence or counterintelligence support to the combatant commands, defense agencies, and joint intelligence activities.

Section 8045 has been amended and prohibits the transfer of Department of Defense and Central Intelligence Agencies drug interdiction and counter-drug activity funds to other agencies.

Section 8046 prohibits funding from being used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

Section 8047 provides funding for Red Cross and United Services Organization grants.

Section 8048 prohibits funding from being used to purchase supercomputers which are not manufactured in the United States.

Section 8049 provides funds for the Small Business Innovation Research program and the Small Business Technology Transfer program.

Section 8050 prohibits funding from being used for contractor bonuses being paid due to business restructuring.

Section 8051 provides transfer authority for the pay of military personnel in connection with support and services for eligible organizations and activities outside the Department of Defense.

Section 8052 provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts.

Section 8053 provides conditions for the use of equipment of the National Guard Distance Learning Project on a space-available, reimbursable basis.

Section 8054 provides funding for Sexual Assault Prevention and Response Programs.

Section 8055 provides for the limitation on the use of funds appropriated in title IV to procure end-items for delivery to military forces for operational training, operational use or inventory requirements.

Section 8056 provides for a waiver of "Buy American" provisions for certain cooperative programs.

Section 8057 prohibits funding in this Act from being used for repairs or maintenance to military family housing units.

Section 8058 has been amended and provides obligation authority for new starts for advanced concept technology demonstration projects only after notification to the congressional defense committees.

Section 8059 provides that the Secretary of Defense shall provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act.

Section 8060 provides for the use of National Guard personnel to support ground-based elements of the National Ballistic Missile Defense System.

Section 8061 prohibits the use of funds made available in this Act to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and is designated as "armor piercing" except for demilitarization purposes.

Section 8062 provides for a waiver by the Chief of the National Guard Bureau or his designee for all or part of consideration in cases of personal property leases of less than one year.

Section 8063 has been amended and provides for the transfer of funds made available in this Act under Operation and Maintenance, Army to other activities of the federal government for classified purposes.

Section 8064 prohibits funding to separate, or to consolidate from within, the National Intelligence Program budget from the Department of Defense budget.

Section 8065 has been amended and provides grant authority for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

Section 8066 has been amended and prohibits the modification of command and control relationships to give Fleet Forces Command operational and administrative control of United States Navy forces assigned to the Pacific fleet.

Section 8067 requires that rapid acquisition authority notifications be provided to the Subcommittees on Defense of the Committees on Appropriations of the Senate and the House of Representatives concurrently with the Committees on Appropriations of the Senate and the House of Representatives as required under section 806(c)(4) of the Bob Stump National Defense Authorization Act for Fiscal Year 2003.

Section 8068 has been amended and provides funding and transfer authority for the Israeli Cooperative Programs.

Section 8069 has been amended and provides for the funding of prior year shipbuilding cost increases.

Section 8070 has been amended and provides that funds made available in this Act for intelligence activities are deemed to be specifically authorized by Congress for purposes of section 504 of the National Security Act of 1947 until the enactment of the Intelligence Authorization Act for the current fiscal year.

Section 8071 has been amended and prohibits funding from being used to initiate a new start program without prior written notification.

Section 8072 has been amended and provides that the budget of the President for the subsequent fiscal year shall include separate budget justification documents for costs of the United States Armed Forces' participation in contingency operations.

Section 8073 prohibits funding from being used for the research, development, test, evaluation, procurement, or deployment of nuclear armed interceptors of a missile defense system.

Section 8074 has been amended and makes funds available for transfer for the purposes of rapid acquisition and deployment of supplies and associated support services pursuant to section 806 of the Bob Stump National Defense Authorization Act for Fiscal Year 2003.

Section 8075 prohibits funding from being used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve.

Section 8076 prohibits funding from being used for the integration of foreign intelligence information unless the information has been lawfully collected and processed during conduct of authorized foreign intelligence activities.

Section 8077 prohibits funding from being used to transfer program authority relating to current tactical unmanned aerial vehicles from the Army and requires the Army to retain responsibility for and operational control of the MQ-1C Unmanned Aerial Vehicle.

Section 8078 has been amended and limits the availability of funding provided for the Office of the Director of National Intelligence beyond the current fiscal year, except for funds appropriated for research and technology, which shall remain available for the current and the following fiscal years.

Section 8079 provides limitations on the Shipbuilding and Conversion, Navy appropriation.

Section 8080 has been amended and provides for the establishment of a baseline for application of reprogramming and transfer authorities for the Office of the Director of National Intelligence for the current fiscal year.

Section 8081 places restrictions on the transfer of funds for support to friendly foreign countries in connection with the conduct of operations in which the United States is not participating.

Section 8082 has been amended and places limitations on the reprogramming of funds from the Defense Acquisition Workforce Development Fund.

Section 8083 prohibits funding from being used to violate the Child Soldiers Prevention Act of 2008.

Section 8084 provides for limitations on funding provided for the National Intelligence Program to be available for obligation or expenditure through a reprogramming or transfer of funds in accordance with section 102A(d) of the National Security Act of 1947 (50 U.S.C. 403-1(d)).

Section 8085 directs the Director of National Intelligence to submit a future-years intelligence program reflecting estimated expenditures and proposed appropriations.

Section 8086 defines the congressional intelligence committees as being the Permanent Select Committee on Intelligence of the House, the Select Committee on Intelligence of the Senate, and the

Subcommittees on Defense of the Committees on Appropriations of the House and Senate.

Section 8087 provides the authority to transfer funding from operation and maintenance accounts for the Army, Navy, and Air Force to the central fund for Fisher Houses and Suites.

Section 8088 prohibits the use of funds for the purpose of making remittances to the Defense Acquisition Workforce Development Fund.

Section 8089 provides that any agency receiving funds made available in this Act shall post on a public website any report required to be submitted to Congress with certain exceptions.

Section 8090 prohibits the use of funds for federal contracts in excess of \$1,000,000 unless the contractor agrees not to require, as a condition of employment, that employees or independent contractors agree to resolve through arbitration any claim or tort related to, or arising out of, sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention, and to certify that each covered subcontractor agrees to do the same.

Section 8091 has been amended and provides funds for transfer to the Joint Department of Defense—Department of Veterans Affairs Medical Facility Demonstration Fund.

Section 8092 prohibits the use of funds providing certain missile defense information to certain entities.

Section 8093 provides for the purchase of heavy and light armed vehicles for the physical security of personnel or for force protection purposes up to a limit of \$450,000 per vehicle.

Section 8094 has been amended and provides the Director of National Intelligence with general transfer authority with certain limitations.

Section 8095 prohibits funding to transfer, release, or assist in the transfer or release to or within the United States of certain detainees. This language is identical to language enacted in Public Law 112–74.

Section 8096 prohibits funding to transfer any individual detained at Guantanamo Bay, Cuba to a country of origin or other foreign country or entity unless the Secretary of Defense makes certain certifications. This language is similar to language enacted in Public Law 112–239.

Section 8097 prohibits funding from being used to violate the War Powers Resolution Act.

Section 8098 prohibits funds from being used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to Rosoboronexport, except under certain conditions.

Section 8099 prohibits the use of funds for the purchase or manufacture of a United States flag unless such flags are treated as covered items under section 2533a(b) of title 10, United States Code.

Section 8100 has been amended and provides that funds may be used to provide ex gratia payments to local military commanders for damage, personal injury, or death that is incident to combat operations in a foreign country.

Section 8101 directs the Secretary of Defense to post grant awards on a public Web site in a searchable format.

Section 8102 places restrictions on transfer amounts available in the Rapid Prototyping Fund.

Section 8103 prohibits the use of funds by the National Security Agency targeting United States persons under authorities granted in the Foreign Intelligence Surveillance Act.

Section 8104 prohibits the transfer of administrative or budgetary resources to the jurisdiction of another Federal agency not financed by this Act without the express authorization of Congress.

Section 8105 has been amended and provides that Operation and Maintenance Funds may be used for any purposes related to the National Defense Reserve Fleet.

Section 8106 prohibits the use of funds to provide counterterrorism support to foreign partners unless the congressional defense committees are notified accordingly.

Section 8107 prohibits the use of funds to contravene the War Powers Resolution with respect to Iraq.

Section 8108 has been amended and prohibits the use of funds to award a new TAO Fleet Oiler or FFG-Frigate program contract for the acquisition of certain components unless those components are manufactured in the United States.

Section 8109 prohibits certain transfers from the Department of Defense Acquisition Workforce Development Fund.

Section 8110 prohibits the use of funds for gaming or entertainment that involves nude entertainers.

Section 8111 is amended and prohibits funds to deliver F-35 aircraft to the Republic of Turkey.

Section 8112 has been amended and grants the Secretary of Defense the authority to use funds for Office of Personnel and Management background investigations.

Section 8113 prohibits the use of funding for information technology systems that do not have pornographic content filters.

Section 8114 places certain limitations on the transfer of funds for the Global Engagement Center.

Section 8115 makes funds available through the Office of Economic Adjustment for transfer to the Secretary of Education, to make grants to construct, renovate, repair, or expand elementary and secondary public schools on military installations.

Section 8116 provides guidance on the implementation of the Policy for Assisted Reproductive Services for the Benefit of Seriously or Severely Ill/Injured Active Duty Service Members.

Section 8117 prohibits the use of funds to provide arms, training, or other assistance to the Azov Battalion.

Section 8118 places restrictions on the use of funding for military parades.

Section 8119 is amended and provides for the use of funds to modify two F-35 Joint Strike Fighters per variant to a test configuration.

Section 8120 is amended and makes funds available in the Defense Health Program for death gratuity payments.

Section 8121 prohibits funds in the Act from being used to enter into a contract or provide a loan to any corporation that has any unpaid Federal tax liability.

Section 8122 prohibits funds in the Act from being used in contravention of Executive Order 13175 or section 1501.2(d)(2) of title 40, Code of Federal Regulations.

Section 8123 is new and provides for the availability of funds for certain programs through fiscal year 2024.

Section 8124 is new and provides that any advance billing for background investigation services and related services purchased from activities financed using the Defense Working Capital Fund shall be excluded from the calculation of cumulative advance billings.

Section 8125 is new and prohibits funds for the Space Development Agency and limits not more than 50 percent of funds for the Next Generation Overhead Persistent Infrared program unless certain conditions are met.

Section 8126 is new and prohibits funds from being used to transfer any element of the Intelligence Community to the Space Force.

Section 8127 is new and prohibits funds to construct a wall, fence, border barriers, or border security infrastructure along the southern land border of the United States.

TITLE IX  
OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON  
TERRORISM

COMMITTEE RECOMMENDATION

In title IX, the Committee recommends total new appropriations of \$68,079,000,000. A detailed review of the Committee recommendation for programs funded in this title is provided in the following pages.

REPORTING REQUIREMENTS

The Committee recommendation includes a number of reporting requirements related to contingency operations and building capacity efforts. The Committee directs the Secretary of Defense to continue to report incremental costs for all named operations in the Central Command area of responsibility on a quarterly basis and to submit, also on a quarterly basis, commitment, obligation, and expenditure data for the Afghanistan Security Forces Fund, the Counter-Islamic State of Iraq and Syria Train and Equip Fund, and for all security cooperation programs funded under the Defense Security Cooperation Agency in the Operation and Maintenance, Defense-Wide account.

The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on military actions being conducted pursuant to Public Law 107-40.

The Committee expects the Secretary of Defense to comply with section 1090 of Public Law 114-328 regarding the cost of wars in Afghanistan, Iraq, and Syria, and to post this information on the Department's public website in a timely manner.

MILITARY PERSONNEL

The Committee recommends an additional appropriation of \$4,485,808,000 for Military Personnel. The Committee recommendation for each military personnel account is as follows:

## AFGHANISTAN SECURITY FORCES FUND

The Committee recommends an appropriation of \$4,503,978,000 for the Afghanistan Security Forces Fund.

The Committee recognizes the sacrifices made by the members of the Afghanistan Security Forces. The Committee is concerned, however, that measures designed to reduce corruption and fraud in the pay system have not been fully implemented. The Committee recommendation fully funds the request for the Afghan Personnel and Pay System and includes language under this heading prohibiting funds to support personnel who have not enrolled. The recommendation also supports the use of identification cards and biometrics to prevent fraud.

The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on efforts to reduce corruption in the Afghanistan Security Forces, including through the use of programs and technologies funded under this heading.

The Committee recommendation does not include the authority or requested funding to provide certain types of support for reconciliation activities, and section 9022 prohibits funds from being used to pay the expenses of any member of the Taliban to participate in any meeting that does not include the participation of members of the Government of Afghanistan or that restricts the participation of women. Additionally, no funds in this Act for assistance for Afghanistan should be made available for any member of the Taliban unless a peace agreement is reached that promotes United States national security interests, includes the democratically elected Afghan government, and protects the rights of Afghan women.

## COUNTER-ISLAMIC STATE OF IRAQ AND SYRIA TRAIN AND EQUIP FUND

The Committee recommends an appropriation of \$1,295,000,000 for the Counter-Islamic State of Iraq and Syria (ISIS) Train and Equip Fund.

The Committee recognizes the gains made by the Global Coalition to Defeat ISIS, including operations by the Iraqi Security Forces and the Kurdish Peshmerga to liberate territory once controlled by ISIS. Nevertheless, the Committee is concerned by the continued threat of ISIS and the potential for ISIS to regenerate. In support of continued counter-ISIS operations and in conjunction with the central government of Iraq, the Department of Defense should continue to provide the Ministry of Peshmerga forces with the security capabilities necessary to help secure territory liberated from ISIS and to counter ISIS threats. Such support should include training, equipment, and operational support tailored to conditions on the ground. The Committee also notes that continued insecurity in northern Iraq has hindered the return of religious minorities and other groups and encourages a focus on programs that will increase security in these areas.

The Committee recommends enhanced notification and reporting requirements for the Counter-ISIS Train and Equip Fund. The Committee directs the Secretary of Defense to submit a spend plan to the congressional defense committees not later than 45 days after the enactment of this Act and prior to the initial obligation

of funds provided under this heading. The spend plan shall include a description of assistance made available for Iraq and Syria, by category, as well as an explanation of how such funds will build security force capabilities, professionalize partner security forces, provide wide-area security, and promote the long-term stability of the region.

The Committee recommendation continues the requirement for the Secretary of Defense to notify the congressional defense committees not fewer than 15 days prior to obligating funds under this heading, in writing, of the details of any such obligation. The Committee directs that such notifications include a description of the amount, type, and purpose of assistance to be funded and the recipient of the assistance; the budget and implementation timeline, with milestones and anticipated delivery schedule for such assistance; and a description of any material misuse of assistance by any appropriately vetted recipient since the last notification was submitted, along with a description of any remedies taken by the Department of Defense.

The Committee recommendation continues quarterly reporting requirements for funds made available under this heading. The Committee notes that the Department of Defense has not complied with similar requirements from prior years and includes language under Operation and Maintenance, Defense-Wide withholding funds until these reports are submitted.

#### YEMEN

The Committee directs the Secretary of Defense to update the report required by House Report 115–769 under the heading “Report on U.S. Defense Assistance to Saudi Arabia and United Arab Emirates Coalition in Yemen” not later than 90 days after the enactment of this Act.

The Committee is concerned about reports regarding allegations of torture by members of the United Arab Emirates security forces in Yemen and urges the Secretary of Defense to consider such reporting when making a determination on whether to prohibit assistance to units of foreign security forces that have committed gross violations of human rights.

#### PROCUREMENT

The Committee recommends an additional appropriation of \$11,748,074,000 for Procurement. The Committee recommendation for each procurement account is as follows:

## NATIONAL GUARD AND RESERVE EQUIPMENT ACCOUNT

The Committee recommends \$1,300,000,000 for the National Guard and Reserve Equipment Account. Of that amount, \$375,000,000 is for the Army National Guard; \$375,000,000 is for the Air National Guard; \$215,000,000 is for the Army Reserve; \$80,000,000 is for the Navy Reserve; \$40,000,000 is for the Marine Corps Reserve; and \$215,000,000 is for the Air Force Reserve to meet urgent equipment needs in the coming fiscal year.

This funding will allow the National Guard and reserve components to procure high priority equipment used by these components for both their military missions and missions in support of State governors. The funding within this account is not to be used to procure equipment designated as high-density critical equipment, major weapon systems, aircraft, and other equipment central to a unit's ability to perform its doctrinal mission. The funding within this account is not to be used to procure equipment purchased by the senior Service, to expand or accelerate current Service procurement plans, to purchase expendable items, or to purchase facilities or equipment for any requirement able to be satisfied elsewhere.

The Committee directs the Secretary of Defense to ensure that the National Guard and Reserve Equipment Account is executed by the Chiefs of the National Guard and reserve components with priority consideration given to the following items: acoustic hailing devices; crash-worthy, ballistically tolerant auxiliary fuel systems; counter-UAS systems; detect and avoid systems; modular small arms range simulators; MQ-9 deployable launch and recovery element mission support kits; radiological screening portals; and training systems and simulators.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The Committee recommends an additional appropriation of \$844,368,000 for Research, Development, Test and Evaluation. The Committee recommendation for each research, development, test and evaluation account is as follows:

## REVOLVING AND MANAGEMENT FUNDS

### DEFENSE WORKING CAPITAL FUNDS

The Committee recommends an additional appropriation of \$20,100,000 for the Defense Working Capital Funds accounts.

### OTHER DEPARTMENT OF DEFENSE PROGRAMS

#### DEFENSE HEALTH PROGRAM

The Committee recommends an additional appropriation of \$347,746,000 for the Defense Health Program. The Committee recommendation is as follows:

#### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
IN-HOUSE CARE .....	57,459	57,459	0
PRIVATE SECTOR CARE .....	287,487	287,487	0
CONSOLIDATED HEALTH SUPPORT .....	2,800	2,800	0
TOTAL, OPERATION AND MAINTENANCE .....	347,746	347,746	0

### DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

The Committee recommends an additional appropriation of \$153,100,000 for Drug Interdiction and Counter-Drug Activities Defense.

### OFFICE OF THE INSPECTOR GENERAL

The Committee recommends an additional appropriation of \$24,254,000 for the Office of the Inspector General.

### GENERAL PROVISIONS

Title IX of the accompanying bill includes 24 general provisions, many of which extend or modify war-related authorities included in previous Acts. A brief description of each provision follows:

Section 9001 has been amended and provides that funds made available in this title are in addition to funds appropriated or otherwise made available for the Department of Defense for fiscal year 2020.

Section 9002 has been amended and provides for general transfer authority within title IX.

Section 9003 provides that supervision and administration costs associated with a construction project funded with appropriations available for operation and maintenance or the Afghanistan Security Forces Fund, may be obligated at the time a construction contract is awarded.

Section 9004 provides for the procurement of passenger motor vehicles and heavy and light armored vehicles for use by military and civilian employees of the Department of Defense in the United States Central Command area.

Section 9005 has been amended and provides funding for the Commanders' Emergency Response Program, with certain limitations.

Section 9006 provides lift and sustainment to coalition forces supporting military and stability operations in Iraq and Afghanistan.

Section 9007 prohibits the establishment of permanent bases in Iraq or Afghanistan or United States control over Iraq oil resources.

Section 9008 prohibits the use of funding in contravention of the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment.

Section 9009 limits the obligation of funding for the Afghanistan Security Forces Fund until certain conditions have been met.

Section 9010 provides for the purchase of items of a particular investment unit cost from funding made available for operation and maintenance.

Section 9011 provides security assistance to the Government of Jordan.

Section 9012 prohibits the use of funding under the Counter-ISIS Train and Equip Fund to procure or transfer man-portable air defense systems.

Section 9013 has been amended and provides assistance to the military and national security forces of Ukraine.

Section 9014 provides replacement funds for items provided to the Government of Ukraine from the inventory of the United States.

Section 9015 prohibits the use of funds to procure or transfer man-portable air defense systems to Ukraine.

Section 9016 provides for the transfer of excess equipment to foreign forces receiving equipment through the Counter-ISIS Train and Equip Fund.

Section 9017 restricts funds provided in Operation and Maintenance, Defense-Wide for payments under Coalition Support Funds for reimbursement to the Government of Pakistan until certain conditions are met.

Section 9018 is amended and provides funds to the Department of Defense to improve near-term intelligence, surveillance, and reconnaissance capabilities.

Section 9019 prohibits the use of funds with respect to Syria in contravention of the War Powers Resolution.

Section 9020 places restrictions on the transfer of additional C-130 cargo aircraft to the Afghanistan National Security Forces or Afghanistan Air Force.

Section 9021 requires the Secretary of Defense to certify the use of funds in the Afghanistan Security Forces Fund under certain conditions.

Section 9022 is new and restricts funds provided in this Act for expenses of any member of the Taliban.

#### (RESCISSIONS)

Section 9023 has been amended and provides for the rescission of \$66,574,000 from the following programs:

## 2019 Appropriations:

Operation and Maintenance, Defense-Wide:	
Defense Security Cooperation Account .....	\$7,000,000
Afghanistan Security Forces Fund:	
Afghanistan Security Forces Fund .....	30,000,000
Counter-ISIS Train and Equip Fund:	
Counter-ISIS Train and Equip Fund .....	13,000,000
Procurement of Ammunition, Navy and Marine Corps:	
JT direct attack munition .....	16,574,000

Section 9024 requires the President to designate Overseas Contingency Operation/Global War on Terrorism funds.

Section 9025 is new and repeals the Authorization for the Use of Military Force.

Section 9026 is new and provides that nothing in the Act may be construed as authorizing the use of force against Iran.

## TITLE X

### GENERAL PROVISIONS

Title X of the accompanying bill includes seven general provisions. A brief description of each provision follows.

Section 10001 is new and provides findings regarding the use of the United States Armed Forces in the Republic of Yemen.

Section 10002 is new and directs the removal of the United States Armed Forces from hostilities in the Republic of Yemen that have not been authorized by Congress.

Section 10003 is new and provides for continued military operations and cooperation with Israel.

Section 10004 is new and provides for intelligence sharing with regards to threats in or emanating from the Republic of Yemen.

Section 10005 is new and directs a report on the risks posed by ceasing support of operations in the conflict between the Saudi-led coalition and the Houthis in Yemen.

Section 10006 is new and directs a report on the increased risk of terrorist attacks if Saudi Arabia ceases Yemen-Related Intelligence sharing with the United States.

Section 10007 is new and provides that nothing in the Act may be construed as authorizing the use of military force, consistent with the War Powers Resolution.

### HOUSE OF REPRESENTATIVES REPORTING REQUIREMENTS

The following items are included in accordance with various requirements of the Rules of the House of Representatives:

#### STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

Pursuant to clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the following is a statement of general performance goals and objectives for which this measure authorizes funding:

The Committee on Appropriations considers program performance, including a program's success in developing and attaining outcome-related goals and objectives, in developing funding recommendations.

#### RESCISSIONS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the following table is submitted describing the rescissions recommended in the accompanying bill:

Shipbuilding and Conversion, Navy: DDG-51 Destroyer, 2012/2020 .....	\$86,000,000
Shipbuilding and Conversion, Navy: LCAC SLEP, 2013/2020 .....	2,000,000

Missile Procurement, Army, 2018/2020 .....	14,056,000
Procurement of Weapons and Tracked Combat Vehicles, Army, 2018/2020 .....	97,000,000
Other Procurement, Army, 2018/2020 .....	10,685,000
Aircraft Procurement, Navy, 2018/2020 .....	126,079,000

Research, Development, Test and Evaluation, Navy, 2019/2020 .....	240,088,000
Research, Development, Test and Evaluation, Air Force, 2019/2020 .....	131,200,000
Overseas Contingency Operations/Global War on Terrorism:	
Operation and Maintenance, Defense-Wide: Defense Security Cooperation Account, 2019/2020 .....	7,000,000
Afghanistan Security Forces Fund, 2019/2020 .....	30,000,000
Counter-ISIS Train and Equip Fund, 2019/2020 .....	13,000,000
Procurement of Ammunition, Navy and Marine Corps, 2019/2021 .....	16,574,000

#### TRANSFER OF FUNDS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the following is submitted describing the transfer of funds provided in the accompanying bill.

Language has been included under “Operation and Maintenance, Defense-Wide” which provides for the transfer of funds for certain classified activities.

Language has been included under “Environmental Restoration, Army” which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under “Environmental Restoration, Navy” which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under “Environmental Restoration, Air Force” which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under “Environmental Restoration, Defense-Wide” which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under “Environmental Restoration, Formerly Used Defense Sites” which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under “Drug Interdiction and Counter-Drug Activities, Defense” which provides for the transfer

of funds to appropriations available to the Department of Defense for military personnel of the reserve components; for operation and maintenance; for procurement; and for research, development, test and evaluation for drug interdiction and counter-drug activities of the Department of Defense.

Language has been included under "General Provisions, Sec. 8005" which provides for the transfer of working capital funds to other appropriations accounts of the Department of Defense for military functions.

Language has been included under "General Provisions, Sec. 8008" which provides for the transfer of funds between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation and the operation and maintenance appropriation accounts.

Language has been included under "General Provisions, Sec. 8015" which provides for the transfer of funds from the Department of Defense Pilot Mentor-Protégé Program to any other appropriation for the purposes of implementing a Mentor-Protégé Program development assistance agreement.

Language has been included under "General Provisions, Sec. 8051" which provides for the transfer of funds from "Operation and Maintenance, Defense-Wide" to appropriations available for the pay of military personnel in connection with support and services of eligible organizations and activities outside the Department of Defense.

Language has been included under "General Provisions, Sec. 8054" which provides for the transfer of funds from "Operation and Maintenance, Defense-Wide" to the Department of the Army, the Department of the Navy, and the Department of the Air Force to support the Sexual Assault Special Victims' Counsel Program.

Language has been included under "General Provisions, Sec. 8063" which provides for the transfer of funds from "Operation and Maintenance, Army" to other activities of the federal government.

Language has been included under "General Provisions, Sec. 8068" which provides for the transfer of funds from "Procurement, Defense-Wide" and "Research, Development, Test and Evaluation, Defense-Wide" for the Israeli Cooperative Programs.

Language has been included under "General Provisions, Sec. 8069" which provides for the transfer of funds from "Shipbuilding and Conversion, Navy" to fund prior year shipbuilding cost increases.

Language has been included under "General Provisions, Sec. 8087" which provides for the transfer of funds from "Operation and Maintenance, Army", "Operation and Maintenance, Navy", and "Operation and Maintenance, Air Force" to the central fund established for Fisher Houses and Suites.

Language has been included under "General Provisions, Sec. 8091" which provides for the transfer of funds appropriated for operation and maintenance for the Defense Health Program to the Joint Department of Defense—Department of Veterans Affairs Medical Facility Demonstration Fund.

Language has been included under "General Provisions, Sec. 8094" which provides for the transfer of funds for the National Intelligence Program.

Language has been included under “General Provisions, Sec. 8112” which provides for the transfer of funds from “Operation and Maintenance, Defense-Wide” and “Research, Development, Test and Evaluation, Defense-Wide” for background investigation information technology systems of the Office of Personnel Management or other federal agency responsible for background investigations.

Language has been included under “General Provisions, Sec. 8115” which provides for the transfer of funds from “Operation and Maintenance, Defense-Wide” for elementary and secondary public schools on military installations.

Language has been included under title IX “Operation and Maintenance, Navy” for the transfer of funds to the Coast Guard “Operating Expenses” account.

Language has been included under title IX “General Provisions, Sec. 9002” which provides for the authority to transfer funds between the appropriations or funds made available to the Department of Defense in title IX, subject to certain conditions.

Language has been included under title IX “General Provisions, Sec. 9018” which provides for the transfer of funds to the operation and maintenance, military personnel, and procurement accounts, to improve the intelligence, surveillance, and reconnaissance capabilities of the Department of Defense.

#### EARMARK DISCLOSURE STATEMENT

Neither the bill nor the report contains any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in Clause 9 of rule XXI.

#### COMPLIANCE WITH RULE XIII, CL. 3(e) (RAMSEYER RULE)

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, the Committee notes that the accompanying bill does not propose to repeal or amend a statute or part thereof.

#### CHANGES IN THE APPLICATION OF EXISTING LAW

Pursuant to clause 30)(1)(A) of rule XIII of the Rules of the House of Representatives, the following statements are submitted describing the effect of provisions in the accompanying bill which directly or indirectly change the application of existing law.

Language is included in various parts of the bill to continue ongoing activities which require annual authorization or additional legislation, which to date has not been enacted.

The bill includes a number of provisions which place limitations on the use of funds in the bill or change existing limitations and which might, under some circumstances, be construed as changing the application of law.

The bill includes a number of provisions which provide for the transfer of funds and which might, under some circumstances, be construed as changing the application of law.

The bill includes a number of provisions, which have been virtually unchanged for many years that are technically considered legislation.

The bill provides that appropriations shall remain available for more than one year for some programs for which the basic authorizing legislation does not presently authorize each extended availability.

In various places in the bill, the Committee has allocated funds within appropriation accounts in order to fund specific programs.

Language is included in various accounts placing a limitation on funds for emergencies and extraordinary expenses.

Language is included that provides not more than \$6,859,000 for the Combatant Commander Initiative Fund.

Language is included that provides not less than \$44,500,000 for the Procurement Technical Assistance Cooperative Agreement Program, of which not less than \$4,500,000 shall be available for centers.

Language is included that prohibits the consolidation of certain legislative affairs or liaison offices.

Language is included that makes available \$17,732,000 for certain classified activities, allows such funds to be transferred between certain accounts, and exempts such funds from the investment item unit cost ceiling.

Language is included that makes funds available to provide support to foreign security forces and other groups, and makes a portion of the funds available for two years.

Language is included that limits the use of funds for official representation purposes under the heading "United States Court of Appeals for the Armed Forces".

Language is included that limits funds credited or transferred to the Department of Defense Acquisition Workforce Development Fund.

Language is included that provides for specific construction, acquisition, or conversion of vessels under the heading "Shipbuilding and Conversion, Navy".

Language is included that provides for the incurring of additional obligations for certain activities under the heading "Shipbuilding and Conversion, Navy".

Language is included that prohibits the use of funds provided under the heading "Shipbuilding and Conversion, Navy" for the construction of any naval vessel, or the construction of major components for the construction or conversion of any naval vessel, in foreign facilities or shipyards.

Language is included under the heading "Shipbuilding and Conversion, Navy" that allows funds to be available for multiyear procurement of critical components to support the common missile compartment of nuclear-powered vessels.

Language is included under the heading "National Guard and Reserve Equipment Account" providing for the procurement of certain items and the submission of modernization priority assessments.

Language is included under the heading "Research, Development, Test and Evaluation, Navy" that provides funds for certain activities related to the V-22.

Language is included that specifies the use of certain funds provided under the heading "Defense Health Program".

Language is included that provides that not less than \$8,000,000 of funds provided under the heading “Defense Health Program” shall be available for HIV/AIDS prevention educational activities.

Language is included that provides for the carry-over of no more than one percent of operation and maintenance funds provided under the heading “Defense Health Program”.

Language is included under the heading “Defense Health Program” that provides that not less than \$930,000,000 shall be made available to the U.S. Army Medical Research and Materiel Command to carry out congressionally directed medical research programs.

Language is included that specifies the use of certain funds provided under the heading “Chemical Agents and Munitions Destruction, Defense”.

Language is included that specifies the use of certain funds provided under the heading “Drug-Interdiction and Counter-Drug Activities, Defense”.

Language is included that provides that no funds made available in this Act may be used for publicity or propaganda purposes not authorized by Congress.

Language is included that provides for conditions and limitations on the payment of compensation to, or employment of, foreign nationals.

Language is included that provides that no funds made available in this Act may be obligated beyond the end of the fiscal year unless expressly provided for a greater period of availability elsewhere in this Act.

Language is included that limits the obligation of certain funds provided in this Act during the last two months of the fiscal year.

Language is included that provides for the general transfer authority of funds to other military functions.

Language is included that the tables titled “Explanation of Project Level Adjustments” in this report and classified annex shall be carried out in the manner provided by the tables to the same extent as if the tables were included in the text of this Act.

Language is included that provides for the establishment of a baseline for application of reprogramming and transfer authorities for fiscal year 2020.

Language is included that provides for limitations on the use and transfer of working capital fund cash balances.

Language is included that prohibits the use of funds appropriated by this Act to initiate a special access program without prior notification to the congressional defense committees.

Language is included that provides limitations and conditions on the use of funds provided in this Act to initiate multi-year procurement contracts.

Language is included that provides for the use and obligation of funds for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code.

Language is included that provides that civilian personnel of the Department of Defense may not be managed on the basis of end strength or be subject to end strength limitations, sets forth certain requirements related to end strength for the budget submission,

and requires that Department of Army Science and Technology Re-invention Laboratories be managed based on the available budget.

Language is included that prohibits funds made available in this Act from being used to influence congressional action on matters pending before the Congress.

Language is included that prohibits the use of funds to pay compensation to any member of the Army participating as a full-time student and receiving benefits from the Education Benefits Fund when time spent as a full-time student is counted toward that member's service commitment, with certain exceptions.

Language is included that provides for the transfer of funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protégé Program.

Language is included that provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States.

Language is included that provides that no funds made available in this Act shall be used for the support of any nonappropriated funds activity of the Department of Defense that procures malt beverages and wine.

Language is included that prohibits the use of funds made available to the Department of Defense to demilitarize or destroy surplus firearms or small arms ammunition except under certain circumstances.

Language is included that provides a limitation on the use of funds for the relocation of any Department of Defense entity into or within the National Capital Region.

Language is included that provides for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544).

Language is included that provides that no funds made available by this Act for the Defense Media Activity may be used for national or international political or psychological activities.

Language is included that provides for the obligation of funds for purposes specified in section 2350j(c) of title 10, United States Code.

Language is included that provides funding for the Civil Air Patrol Corporation.

Language is included that prohibits the use of funds appropriated in this Act to establish a new federally funded research and development center (FFRDC), pay compensation to certain individuals associated with an FFRDC, construct certain new buildings not located on military installations, or increase the number of staff years for defense FFRDCs beyond a specified amount.

Language is included that provides for the Department of Defense to procure carbon, alloy, or armor steel plate melted and rolled only in the United States or Canada.

Language is included that defines congressional defense committees for the purposes of this Act.

Language is included that provides for competitions between private firms and Department of Defense Depot Maintenance Activities for modification, depot maintenance, and repair of aircraft, vehicles, and vessels, as well as the production of components and other Defense-related articles.

Language is included that provides for revocation of blanket waivers of the Buy America Act upon a finding that a country has violated a reciprocal trade agreement by discriminating against products produced in the United States that are covered by the agreement.

Language is included that provides for the availability of funds for the Department of Defense Overseas Military Facility Investment Recovery Account established by section 2921(c)(1) of the 1991 National Defense Authorization Act.

Language is included that provides for the conveyance, without consideration, of excess relocatable housing units located at Grand Forks, Malmstrom, Mountain Home, Ellsworth, and Minot Air Force Bases to Indian tribes.

Language is included that provides for the availability of operation and maintenance appropriations to purchase items having an investment item unit cost of not more than \$250,000.

Language is included that prohibits funds from being used to disestablish, close, downgrade, or place on probation a Senior Reserve Officers' Training Corps program.

Language is included that provides authority to use operation and maintenance appropriations for the Asia Pacific Regional Initiative Program.

Language is included that provides for the issuance of regulations placing certain limitations on the sale of tobacco products in military resale outlets.

Language is included that limits the purchase of specified investment items with Working Capital Funds.

Language is included that provides that none of the funds appropriated for the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year except for funds appropriated for the Reserve for Contingencies, the Central Services Working Capital Fund, or other certain programs authorized under section 503 of the National Security Act of 1947.

Language is included that provides that not less than \$12,000,000 appropriated under the heading "Operation and Maintenance, Defense-Wide" shall be for mitigation of environmental impacts on Indian lands resulting from Department of Defense activities.

Language is included that provides for the Department of Defense to comply with the Buy American Act (chapter 83 of title 41, United States Code).

Language is included that limits the use of funds made available in this Act to establish or support field operating agencies.

Language is included that limits the use of funds appropriated by this Act for the conversion of an activity or function of the Department of Defense to contractor performance.

Language is included in title VIII and title IX that provides for the rescission of previously appropriated funds.

Language is included that prohibits the use of funds made available in this Act from being used to reduce authorized positions for military technicians (dual status) of the Army National Guard, Air National Guard, Army Reserve, and Air Force Reserve unless such reductions are a direct result of a reduction in military force structure.

Language is included that prohibits the use of funds made available in this Act for assistance to the Democratic People's Republic of Korea unless specifically appropriated for that purpose.

Language is included that provides for the use of operation and maintenance funds appropriated in this Act for reimbursement to the National Guard and reserve when members of the National Guard and reserve provide intelligence or counterintelligence support to the Combatant Commands, Defense Agencies, and Joint Intelligence Activities.

Language is included that provides that funds made available to the Department of Defense and Central Intelligence Agency for drug interdiction and counter-drug activities may not be transferred to other agencies.

Language is included that prohibits the use of funds appropriated by this Act for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

Language is included to provide funding to make grants to specified entities upon determination by the Secretary of Defense that such grants serve the national interest.

Language is included that provides for the Department of Defense to purchase supercomputers manufactured only in the United States with an exception for certain circumstances.

Language is included to allow for Small Business Innovation Research program and Small Business Technology Transfer program set-asides.

Language is included that prohibits the use of funds made available in this Act to pay contractor bonuses arising from a business restructuring.

Language is included that provides for the transfer of funds to be used in support of personnel supporting approved organizations and activities outside the Department of Defense.

Language is included that provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts.

Language is included that provides conditions for the use of equipment of the National Guard Distance Learning Project on a space-available, reimbursable basis.

Language is included that provides for the use of funds made available under the heading "Operation and Maintenance, Defense-Wide" for high priority Sexual Assault Prevention and Response program requirements, including the transfer of funds.

Language is included that provides a limitation on the use of funds appropriated in title IV to procure end-items for delivery to military forces for operational training, operational use, or inventory requirements.

Language is included that provides for a waiver by the Secretary of Defense of "Buy America" provisions for certain cooperative programs.

Language is included that prohibits the use of funds made available in this Act for repairs or maintenance to military family housing units, for which funds are provided in other appropriations acts.

Language is included that provides that funds for new starts for advanced concept technology demonstration projects may be obligated or expended only after notification to the congressional defense committees.

Language is included that provides that the Secretary of Defense shall continue to provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act.

Language is included that provides for the use of National Guard personnel to support ground-based elements of the National Ballistic Missile Defense System.

Language is included that prohibits the use of funds provided in this Act to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and is designated as “armor piercing” except for demilitarization purposes.

Language is included that provides for a waiver by the Chief of the National Guard Bureau or his designee for all or part of consideration in cases of personal property leases of one year or less to certain organizations specified by section 508(d) of title 32, United States Code.

Language is included that provides for the transfer of funds made available in this Act under the heading “Operation and Maintenance, Army” to other activities of the Federal Government for certain purposes.

Language is included that prohibits the modification of the appropriations account structure or presentation of the budget request for the National Intelligence Program, or modification of the process by which National Intelligence Program appropriations are apportioned, allotted, obligated, and disbursed.

Language is included that provides grant authority for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

Language is included that prohibits the modification of command and control relationships to give Fleet Forces Command operational and administrative control of United States Navy forces assigned to the Pacific fleet.

Language is included that provides for certain notifications to be submitted to congressional defense committees.

Language is included that provides funding and transfer authority for the Israeli Cooperative missile defense programs.

Language is included that provides for the availability and transfer of funds to properly complete prior year shipbuilding programs.

Language is included that provides that funds made available by this Act are deemed to be specifically authorized by Congress for purposes of section 504 of the National Security Act of 1947 until enactment of the Intelligence Authorization Act.

Language is included that prohibits the use of funds provided in this Act to initiate a new start program without prior written notification.

Language is included that provides that the budget of the President for fiscal year 2021 shall include separate budget justification documents for costs of the United States Armed Forces’ participation in contingency operations that contain certain budget exhibits

as defined in the Department of Defense Financial Management Regulation.

Language is included that prohibits the use of funds made available in this Act for the research, development, test, evaluation, procurement, or deployment of nuclear armed interceptors of a missile defense system.

Language is included that provides for prompt notification of the use of funds for rapid acquisition and deployment of supplies and support services.

Language is included that prohibits the use of funds made available in this Act to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve.

Language is included that prohibits the use of funds made available in this Act for the integration of foreign intelligence information unless the information has been lawfully collected and processed during conduct of authorized foreign intelligence activities.

Language is included that prohibits the transfer of program authorities related to tactical unmanned aerial vehicles from the Army.

Language is included that limits the obligation authority of funds provided for the Office of the Director of National Intelligence to the current fiscal year except for research and technology which shall remain available for the current and the following fiscal years.

Language is included that provides for the adjustment of obligations within the "Shipbuilding and Conversion, Navy" appropriation.

Language is included that prohibits the reprogramming or transfer of funds provided in this Act for the National Intelligence Program until the Director of National Intelligence submits a baseline for application of reprogramming and transfer authorities.

Language is included that requires notification to the congressional defense committees prior to the use of funds for support to foreign countries in connection with the conduct of certain operations.

Language is included that requires certain transfers of funds from the Defense Acquisition Workforce Development Fund be made in accordance with reprogramming and transfer procedures.

Language is included that prohibits the use of funds made available by this Act for excess defense articles, assistance, or peacekeeping operations for countries designated to be in violation of the standards of the Child Soldiers Prevention Act of 2008.

Language is included that sets forth reprogramming and transfer procedures for the National Intelligence Program.

Language is included that provides that the Director of National Intelligence shall submit budget exhibits identifying the future-years intelligence program.

Language is included that defines the congressional intelligence committees for the purposes of this Act.

Language is included that provides that funds from certain operation and maintenance accounts may be transferred to a central fund established for Fisher Houses and Suites pursuant to section 2493(d) of title 10, United States Code.

Language is included that prohibits funds appropriated by this Act from being used to make remittances to the Defense Acquisition Workforce Development Fund.

Language is included that provides that agencies post congressionally directed reports on a public website.

Language is included that provides limitations on the award of contracts to contractors that require mandatory arbitration for certain claims as a condition of employment or a contractual relationship. The Secretary of Defense is authorized to waive the applicability of these limitations for national security interests.

Language is included that provides for the availability and transfer of funds for the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund.

Language is included that prohibits the use of funds in contravention of section 130h of title 10, United States Code.

Language is included that provides for the purchase of heavy and light armored vehicles for physical security or force protection purposes.

Language is included that provides transfer authority for the Director of National Intelligence for the National Intelligence Program subject to certain limitations.

Language is included that prohibits funds to transfer or release certain individuals detained at Guantanamo Bay, Cuba into the United States, its territories, or possessions.

Language is included that prohibits the use of funds to transfer any individual detained at Guantanamo Bay, Cuba to the custody or control of the individual's country of origin, any other foreign country, or any other foreign entity except in accordance with sections 1034 of the National Defense Authorization Act for Fiscal Year 2016 and 1035 of the National Defense Authorization Act for Fiscal Year 2019.

Language is included that prohibits the use of funds in contravention of the War Powers Resolution (50 U.S.C. 1541).

Language is included that prohibits the Department of Defense from entering into certain agreements with Rosoboronexport with certain waiver authorities.

Language is included that prohibits the use of funds for the purchase or manufacture of a United States flag unless such flag is treated as a covered item under section 2533a(b) of title 10, United States Code.

Language is included that provides for the availability of funds for ex gratia payments in certain circumstances subject to certain conditions.

Language is included that requires grant awards to be posted on a public website in a searchable format.

Language is included regarding the allocation of certain of certain reductions among programs, projects and activities, and requires notifications regarding certain transfers.

Language is included that prohibits the use of funds by the National Security Agency for certain activities.

Language is included that prohibits the use of funds made available in this or any other Act to pay the salary of any officer or employee who approves or implements the transfer of certain adminis-

trative responsibilities or budgetary resources unless expressly provided for in Defense Appropriations Acts.

Language is included that makes available certain funds provided under the heading “Operation and Maintenance, Navy” may be used for any purposes related to the National Defense Reserve Fleet.

Language is included that requires certain notification on the use of funds for activities authorized under section 1208 of the National Defense Authorization Act for Fiscal Year 2005, with a waiver for exigent circumstances.

Language is included that prohibits the use of funds with respect to Iraq in contravention of the War Powers Resolution (50 U.S.C. 1541).

Language is included that prohibits the use of funds to award a new contract for the TAO Fleet Oiler program except under certain circumstances.

Language is included that prohibits certain transfers from the Department of Defense Acquisition Workforce Development Fund.

Language is included that prohibits the use of funds made available by this Act to pay Government Travel Charge Card expenses for gaming or certain entertainment activities.

Language is included that prohibits funds to deliver F-35 aircraft to the Republic of Turkey.

Language is included that makes available funds provided under the headings “Operation and Maintenance, Defense-Wide”, “Research, Development, Test and Evaluation, Defense-Wide”, and “Procurement, Defense-Wide” for purposes related to Federal Government security and suitability background investigations.

Language is included that prohibits funding for computer networks that do not block pornography, subject to certain law enforcement and national defense exceptions.

Language is included that prohibits the transfer of Department of Defense funds for certain purposes except in accordance with re-programming and transfer procedures.

Language is included that provides additional funds for purposes of repairing schools on military installations subject to certain requirements.

Language is included that changes certain time limitations on embryo cryopreservation and storage.

Language is included that prohibits the use of funds to provide arms, training, or other assistance to the Azov Battalion.

Language is included that prohibits funds to provide certain equipment for customary ceremonial honors if the Secretary determines that the provision of such equipment would undermine readiness.

Language is included that makes available funds to modify certain F-35 aircraft to a test configuration, subject to certain notification requirements.

Language is included that allows certain funds to be obligated to make death gratuity payments if appropriations for “Military Personnel” are not available for obligation of such payments.

Language is included that prohibits funds in the Act from being used to enter into a contract or provide a loan to any corporation that has any unpaid Federal tax liability.

Language is included that prohibits funds from being used in contravention of Executive Order 13175 or section 1501.2(d)(2) of title 40, Code of Federal Regulations.

Language is included that provides for the availability of funds for certain programs through fiscal year 2024.

Language is included that provides that any advance billing for background investigation services and related services purchased from activities financed using the Defense Working Capital Fund shall be excluded from the calculation of cumulative advance billings.

Language is included that prohibits funds for the Space Development Agency and not more than 50 percent of funds for the Next Generation Overhead Persistent Infrared program unless certain conditions are met.

Language is included that prohibits funds from being used to transfer any element of the Intelligence Community to the Space Force.

Language is included that prohibits funds to construct a wall, fence, border barriers, or border security infrastructure along the southern land border of the United States.

Language is included under the heading “Operation and Maintenance, Defense-Wide” that provides for the use of funds for certain purposes subject to certain requirements, and requires the submission of certain reports.

Language is included under the heading “Afghanistan Security Forces Fund” that provides for the use of funds for certain purposes and the management of contributions and returned items.

Language is included under the heading “Counter-ISIS Train and Equip Fund” that provides for the use of funds for certain purposes, compliance with vetting standards, management of contributions, and the submission of certain reports.

Language is included that provides that funds made available in title IX are in addition to amounts appropriated or otherwise made available for the Department of Defense for the current fiscal year.

Language is included that provides for supervision and administration costs for construction projects associated with overseas contingency operations.

Language is included that provides for the availability of funds to purchase passenger, heavy, and light armored vehicles notwithstanding price or other limitations on the purchase of passenger carrying vehicles for use in the U.S. Central Command area of responsibility.

Language is included that provides funds and authority for the Commanders’ Emergency Response Program and establishes certain reporting requirements.

Language is included that authorizes the use of funds to provide certain assistance to coalition forces supporting military and stability operations in Afghanistan and to counter the Islamic State of Iraq and the Syria, and establishes certain reporting requirements.

Language is included that prohibits the use of funds to establish permanent bases in Iraq or Afghanistan.

Language is included that prohibits the use of funds in contravention of certain laws or regulations promulgated to implement

the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment.

Language is included that places limitations on the use of Afghanistan Security Forces Funds and requires certain certifications.

Language is included that provides for the availability of funds appropriated in title IX of this Act for the purchase of items having an investment unit cost of up to \$500,000, subject to certain conditions.

Language is included that provides for up to \$500,000,000 of funds appropriated by this Act under the heading "Operation and Maintenance, Defense-Wide" to be used for assistance to the Government of Jordan for certain purposes.

Language is included prohibiting the use of funds made available by this Act under the heading "Counter-ISIS Train and Equip Fund" to procure or transfer man-portable air defense systems.

Language is included that provides for \$250,000,000 for assistance to the military and national security forces of Ukraine for certain purposes and under certain conditions.

Language is included providing for the availability of funds appropriated in title IX for replacement of items provided to the Government of Ukraine from the inventory of the United States to the extent provided for in this Act.

Language is included that prohibits the use of funds made available by this Act for assistance to Ukraine to procure or transfer man-portable air defense systems.

Language is included that provides for the transfer of excess equipment to foreign forces receiving equipment through the Counter-ISIS Train and Equip Fund.

Language is included that places limitations on the use of Coalition Support Funds under the heading "Operation and Maintenance, Defense-Wide" in title IX for the Government of Pakistan.

Language is included that provides for additional funds and transfer authority to improve the intelligence, surveillance, and reconnaissance capabilities of the Department of Defense, subject to reporting requirements.

Language is included that prohibits the use of funds with respect to Syria in contravention of the War Powers Resolution (50 U.S.C. 1541).

Language is included that provides a limitation on the transfer of certain aircraft to the Afghanistan National Security Forces until submission of a report.

Language is included that places certain conditions and reporting requirements on the use of the Afghanistan Security Forces Fund.

Language is included that restricts funds provided in this Act for expenses of any member of the Taliban.

Language is included that rescinds certain funds made available in prior years in title IX.

Language is included that provides that amounts designed in this Act as Overseas Contingency Operations/Global War on Terrorism shall be available only if the President subsequently so designates all such amounts and transmits such designations to the Congress.

Language is included that repeals the Authorization for the Use of Military Force.

Language is included that provides that nothing in the Act may be construed as authorizing the use of force against Iran.

Language is included that provides findings regarding the use of the United States Armed Forces in the Republic of Yemen.

Language is included that directs the removal of the United States Armed Forces from hostilities in the Republic of Yemen that have not been authorized by Congress.

Language is included that provides for continued military operations and cooperation with Israel.

Language is included that provides for intelligence sharing with regards to threats in or emanating from the Republic of Yemen.

Language is included that directs a report on the risks posed by ceasing support of operations in the conflict between the Saudi-led coalition and the Houthis in Yemen.

Language is included that directs a report on the increased risk of terrorist attacks if Saudi Arabia ceases Yemen-Related Intelligence sharing with the United States.

Language is included that provides that nothing in the Act may be construed as authorizing the use of military force, consistent with the War Powers Resolution.

## APPROPRIATIONS NOT AUTHORIZED BY LAW

Pursuant to clause 3(f)(1) to rule XIII of the Rules of the House of Representatives, the following table lists the appropriations in the accompanying bill which are not authorized by law.

[In thousands of dollars]

Agency/Program	Last year of authorization	Authorization Level	Appropriations in last year of authorization	Appropriations in this bill 2020	2020 compared to 2019	2020 compared to 2019
DEPARTMENT OF DEFENSE						
Military Personnel, Army	2019	(1)	43,093,752	42,314,762	887,708	-778,990
Military Personnel, Navy	2019	(1)	30,254,211	31,679,229	2,971,311	1,425,018
Military Personnel, Marine Corps	2019	(1)	13,770,968	14,064,751	899,037	293,783
Military Personnel, Air Force	2019	(1)	30,357,311	31,082,769	2,344,449	725,458
Reserve Personnel, Army	2019	(1)	4,848,947	4,847,321	126,193	-1,626
Reserve Personnel, Navy	2019	(1)	2,055,221	2,113,357	125,695	58,136
Reserve Personnel, Marine Corps	2019	(1)	777,390	829,124	66,331	51,734
Reserve Personnel, Air Force	2019	(1)	1,853,526	1,993,280	184,846	139,754
National Guard Personnel, Army	2019	(1)	8,589,785	8,664,535	412,109	74,750
National Guard Personnel, Air Force	2019	(1)	3,707,240	4,032,521	626,384	325,281
Operation and Maintenance, Army	2019	41,076,094	41,334,782	41,449,293	2,965,447	114,511
Operation and Maintenance, Navy	2019	49,014,244	48,963,337	51,417,389	5,437,256	2,454,052
Operation and Maintenance, Marine Corps	2019	6,867,715	6,824,269	7,945,854	1,059,970	1,121,585
Operation and Maintenance, Air Force	2019	42,098,599	41,465,107	44,662,729	6,069,984	3,197,622

1/ The FY 2019 National Defense Authorization Act authorizes \$139,524,021,000 for military personnel

Note: The bill includes several transfers of funds which may or may not be specifically authorized in law.

## COMPARISON WITH THE BUDGET RESOLUTION

Section 308(a)(1)(A) of the Congressional Budget Act requires the report accompanying a bill providing new budget authority to contain a statement comparing the levels in the bill to the suballocations submitted under section 302(b) of the Act for the most recently agreed to concurrent resolution on the budget for the applicable fiscal year.

[In millions of dollars]

	302(b) Allocation		This Bill	
	Budget Authority	Outlays	Budget Authority	Outlays
Comparison of amounts in the bill with Committee allocations to its subcommittees: Subcommittee on Defense				
Discretionary .....	622,082	625,175	<sup>1</sup> 690,161	662,293
Mandatory .....	514	514	<sup>2</sup> 514	514

<sup>1</sup> Includes outlays from prior-year budget authority.

<sup>2</sup> NOTE—Consistent with the funding recommended in the bill for overseas contingency operations/global war on terrorism, in accordance with section 251(b)(2) of the Balanced Budget and Emergency Deficit Control Act of 1985, and after the bill is reported to the House, the Chairman of the Committee on the Budget will provide a revised section 302(a) allocation reflecting an additional \$68,079,000,000 in discretionary budget authority and \$38,227,000,000 in associated outlays. That new allocation will eliminate the technical difference prior to floor consideration.

## FIVE-YEAR OUTLAY PROJECTIONS

In compliance with section 308(a)(1)(B) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93–344), as amended, the following table contains five-year projections associated with the budget authority provided in the accompanying bill.

[In millions of dollars]

	Outlays
Projection of outlays associated with the recommendation:	
2020 .....	<sup>1</sup> 403,952
2021 .....	166,859
2022 .....	57,264
2023 .....	28,684
2024 and future years .....	22,491

<sup>1</sup> Excludes outlays from prior-year budget authority.

## FINANCIAL ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

In accordance with section 308(a)(1)(C) of the Congressional Budget and Impoundment Act of 1974 (Public Law 93–344), as amended, no new budget or outlays are provided by the accompanying bill for financial assistance to State and local governments.

## PROGRAM DUPLICATION

No provision of this bill establishes or reauthorizes a program of the Federal Government known to be duplicative of another Federal program, a program that was included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111–139, or a program related to a program identified in the most recent Catalog of Federal Domestic Assistance.

## COMMITTEE HEARINGS

For the purposes of section 103(i) of H. Res. 6 of the 116th Congress—

The following hearings were used to develop or consider the Department of Defense Appropriations Act, 2020:

The Subcommittee on Defense held a closed oversight hearing on February 6, 2019, entitled “Worldwide Threat Assessment and Intelligence Community Posture Hearing.” The Subcommittee received testimony from:

Daniel Coats, Director, Office of the Director of National Intelligence

Joseph D. Kernan, Under Secretary of Defense for Intelligence, Department of Defense

The Subcommittee on Defense held an oversight hearing on February 13, 2019, entitled “U.S. Military Service Academies Overview.” The Subcommittee received testimony from:

Lieutenant General Darryl A. Williams, Superintendent, United States Military Academy

Vice Admiral Walter E. “Ted” Carter Jr., Superintendent, United States Naval Academy

Lieutenant General Jay B. Silveria, Superintendent, United States Air Force Academy

The Subcommittee on Defense held a closed oversight hearing on March 6, 2019, entitled “U.S. Central Command.” The Subcommittee received testimony from:

General Joseph L. Votel, Commander, U.S. Central Command

The Subcommittee on Defense held a closed oversight hearing on March 7, 2019, entitled “U.S. European Command.” The Subcommittee received testimony from:

General Curtis M. Scaparrotti, Commander, European Command and NATO Supreme Allied Commander Europe

The Subcommittee on Defense held an oversight hearing on March 26, 2019, entitled “Reserve Components.” The Subcommittee received testimony from:

General Joseph Lengyel, Chief, National Guard Bureau

Lieutenant General Charles Luckey, Chief, Army Reserve

Vice Admiral Luke McCollum, Chief, Navy Reserve

Major General Bradley James, Commander, Marine Forces Reserve

Lieutenant General Richard W. Scobee, Chief, Air Force Reserve

The Subcommittee on Defense held a closed oversight hearing on March 26, 2019, entitled “INDO-PACOM.” The Subcommittee received testimony from:

Admiral Phil Davidson, Commander, U.S. Indo-Pacific Command

General Robert Abrams, Commander, U.S. Forces Korea, United Nations Command, Combined Forces Command

The Subcommittee on Defense held a closed oversight hearing on March 27, 2019, entitled “National Security Agency/Cyber Command.” The Subcommittee received testimony from:

General Paul M. Nakasone, Director, Commander, National Security Agency/Commander, Cyber Command

The Subcommittee on Defense held a closed oversight hearing on March 27, 2019, entitled “National Reconnaissance Office.” The Subcommittee received testimony from:

Frank Calvelli, Principal Deputy Director, National Reconnaissance Office

The Subcommittee on Defense held a closed oversight hearing on April 2, 2019, entitled “Defense Intelligence Agency and National Geospatial Agency.” The Subcommittee received testimony from:

Lieutenant General Robert P. Ashley, Jr., Director, Defense Intelligence Agency

Vice Admiral Robert D. Sharp, Director, National Geospatial-Intelligence Agency

The Subcommittee on Defense held an oversight hearing on April 2, 2019, entitled “U.S. Air Force Budget Request for FY 2020.” The Subcommittee received testimony from:

Dr. Heather Wilson, Secretary, U.S. Air Force

General David L. Goldfein, Chief of Staff, U.S. Air Force

The Subcommittee on Defense held an oversight hearing on April 3, 2019, entitled “Defense Health Programs.” The Subcommittee received testimony from:

Lieutenant General Nadja Y. West, Surgeon General, U.S. Army

Vice Admiral Forrest C. Faison III, Surgeon General, U.S. Navy

Lieutenant General Dorothy A. Hogg, Surgeon General, U.S. Air Force

Vice Admiral Raquel Bono, Director, Defense Health Agency

Mr. Thomas McCaffery, Principal Deputy, Assistant Secretary of Defense Health Affairs, U.S. Department of Defense

Ms. Stacy Cummings, Program Executive Officer, Defense Healthcare Management Systems

The Subcommittee on Defense held a closed oversight hearing on April 9, 2019, entitled “U.S. Special Operations Command Budget Request for FY2020.” The Subcommittee received testimony from:

General Richard D. Clarke, Commander, U.S. Special Operations Command

The Subcommittee on Defense held an oversight hearing on April 9, 2019, entitled “U.S. Army Budget Request for FY2020.” The Subcommittee received testimony from:

Mark T. Esper, Secretary of the Army

General Mark A. Milley, Chief of Staff, U.S. Army

The Subcommittee on Defense held an oversight hearing on April 10, 2019, entitled “Member Day Hearing.” The Subcommittee received testimony from:

The Honorable Veronica Escobar, Member of Congress

The Honorable Earl L. “Buddy” Carter, Member of Congress

The Honorable James McGovern, Member of Congress

The Honorable Harley Rouda, Member of Congress

The Honorable Mary Gay Scanlon, Member of Congress

The Honorable Mike Johnson, Member of Congress

The Honorable Ro Khanna, Member of Congress

The Honorable Roger Williams, Member of Congress

The Subcommittee on Defense held a closed oversight hearing on April 29, 2019, entitled “Central Intelligence Agency—FY2020 Budget Hearing.” The Subcommittee received testimony from:

Gina Haspel, Director, Central Intelligence Agency

The Subcommittee on Defense held an oversight hearing on April 30, 2019, entitled “Navy and Marine Corps—FY2020 Budget Hearing.” The Subcommittee received testimony from:

Richard V. Spencer, Secretary of the Navy

Admiral John M. Richardson, Chief of Navy Operations

General Robert B. Neller, Commandant of the Marine Corps

The Subcommittee on Defense held an oversight hearing on May 1, 2019, entitled “Department of Defense—FY2020 Budget Hearing.” The Subcommittee received testimony from:

Patrick M. Shanahan, Acting Secretary of Defense

General Joseph F. Dunford, Chairman of the Joint Chiefs of Staff

David L. Norquist, Performing the Duties of Deputy Secretary of Defense

## FULL COMMITTEE VOTES

Pursuant to the provisions of clause 3(b) of rule XIII of the House of Representatives, the results of each roll call vote on an amendment or on the motion to report, together with the names of those voting for and those voting against, are printed below:

## Roll Call 1

Date: May 21, 2019

Measure: Defense Appropriations Bill, FY20

Motion by: Ms. Granger

Description of Motion: Amends the Sec. 8111 prohibition on delivering the F-35 to Turkey by releasing the prohibition, upon certification by the Secretaries of Defense and State, that Turkey is not purchasing Russian S-400 missile defense systems and will not accept delivery of such systems.

Results: Defeated 22 yeas to 30 nays

(Sec. 725, P.L. 108-375)

## MINORITY VIEWS

We thank Chairwoman Lowey and Chairman Visclosky for the collegial manner in which they drafted the fiscal year 2020 Defense Appropriations bill. We appreciate the Chair for including many Republican priorities in the Manager's Amendment and we acknowledge that the bill addresses many bipartisan priorities. Funding our Nation's defense is one of the most fundamental and important responsibilities of Congress. This is especially true as we continue to face a range of threats around the world.

Rightly, the bill recognizes the need for the Department to better organize and manage its space capabilities and tries to strike a balance between supporting new initiatives while requiring rigorous analysis on the costs and tradeoffs of current proposals. Our ability to maintain assured access to space, and to protect our on-orbit assets, is critical to both national security and economic security.

We also appreciate that the Chairman has prioritized healthcare and the quality of life of our service members. These issues can have a significant impact on our military's readiness. We are also pleased to see strong and steady support for our partners and allies, including Israel and Jordan. While there are items in the bill that we support as the Department refocuses on near-peer threats, we are concerned about a number of provisions that we believe would restrict the Department and are detrimental to national security.

We are extremely disappointed that an amendment to repeal the Authorization for the Use of Military Force (AUMF) was adopted by the Committee. This amendment would automatically repeal the 2001 AUMF just 240 days after this bill is signed into law and provides no replacement authority for ongoing operations. This is a dangerous and ill-conceived provision that eliminates the Department's authority to prosecute the war on terrorism and to continue efforts to eliminate safe havens for terrorists in Afghanistan or elsewhere who threaten our homeland. U.S. military forces are conducting campaigns against al-Qaeda, the Taliban, and associated forces worldwide using this authority. This amendment is a poison pill that eliminates a critical authority that the U.S. military needs to keep us safe and keep terrorists from striking the homeland.

We are also disappointed with the Yemen and Iran amendments adopted in Committee. The situation in Yemen is extremely complex and poses both national security and humanitarian challenges. Contrary to the amendment adopted in Committee, the United States is not engaged in "hostilities" in Yemen under the plain meaning of that term under the War Powers Act. The amendment defines traditional security cooperation and security assistance activities of the Departments of Defense and State as engagement in hostilities. This is an interpretation that is inconsistent with the War Powers Act, which could harm U.S. security cooperation with

more than 100 countries around the world. Placing restrictions on the Department could harm bilateral relationships in the region and negatively affect our ability to prevent the spread of terrorism. Our continued cooperation with regional partners allows the United States to support diplomatic negotiations to end the conflict, promote humanitarian access, mitigate civilian casualties and defeat terrorists who seek to harm the United States. Likewise, the U.S. government sanctions policy is designed to force significant changes in Iran's regional and foreign policies. In particular, the Administration is seeking to address Iran's threats to the State of Israel, its attempts to destabilize neighboring states through non-state militants and sectarian armed groups and its efforts to export its revolutionary ideology. If this language remains in the bill, the President would likely veto it.

We are also concerned with the language included in the base bill that modifies current U.S. policy toward Turkey with respect to the sale of F-35 aircraft. An amendment offered by Ranking Member Granger, which largely mirrors language included in the fiscal year 2020 State Foreign Operations appropriations bill, would have stated that Turkey's continued participation in the F-35 program is contingent on Turkey not acquiring the Russian S-400 missile system. The linkage between Turkey purchasing the S-400 system and the transfer of the F-35 has been long established. The bill language included by the Majority establishes a new policy that is incongruent with language included in the State-Foreign Operations bill and other prior legislation on this subject and sends mixed messages to Turkey from the Congress.

We were also disappointed that an amendment by Dr. Harris failed. His amendment would have removed language in the underlying bill that states, none of the funds appropriated or otherwise made available by this Act or any prior appropriations Acts may be used to construct a wall, fence, border barriers, or border security infrastructure along the southern land border of the United States. This language is very broad and would certainly have unintended consequences that reach beyond the Defense bill. The restrictions this bill places on the Department's ability to support other Federal agencies is unacceptable. The Defense Department has the authority to address threats in drug smuggling corridors and has used this authority to assist the Department of Homeland Security along the Southern border where drugs are being brought into this country. The situation at the border is a crisis and we must not take away this important tool, not only from the Department of Defense but possibly other Federal agencies enforcing our laws at the Southern border.

Finally, while the Chairman has done a tremendous job under difficult circumstances, the Subcommittee's allocation is insufficient to meet the threats we face around the world. That is why we were disappointed to see Mr. Womack's amendment fail. His amendment would have increased funding in the bill by \$8 billion to \$698 billion, the amount requested by the President. The funding levels in this bill do not allow us to sustain efforts we have made over the last two years to rebuild our military. When Ranking Member Granger became Chair of the Defense Subcommittee, she committed to a multiyear plan to rebuild our military, working closely

with Chairman Visclosky to provide our service members with badly needed equipment and training. The funding in this bill is insufficient and adversely impacts that commitment.

We need a top line funding level agreed to by the House, the Senate, and the White House so that our national security priorities can be addressed. Without an agreement that can be supported by the President, we risk the devastating consequences of sequestration. This means Defense spending could be cut by more than \$70 billion from the current levels, and that is unacceptable to us. We must continue rebuilding the military; now is not the time to retreat from these sustained investments.

We must work together to develop a path forward for fiscal year 2020. For the reasons noted above, we regret that we cannot support this bill at this time, but we have a history of working together to find common ground and this year is no different. We remain concerned that this bill has been developed without a sustainable and widely supported budget agreement and includes partisan, controversial riders that will jeopardize enactment of any final legislation. We look forward to working with the Majority as we proceed through the legislative process so that the bipartisan issues in the bill will receive the support they deserve, and a bill can be enacted that continues our strong support for the men and women of the armed forces.

KAY GRANGER.  
KEN CALVERT.
