

**Executive Order 13747—Advancing the Global Health Security Agenda to Achieve a World Safe and Secure From Infectious Disease Threats**  
*November 4, 2016*

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

*Section 1. Policy.* As articulated in the National Strategy for Countering Biological Threats and implemented in Presidential Policy Directive 2 (PPD–2), promoting global health security is a core tenet of our national strategy for countering biological threats. No single nation can be prepared if other nations remain unprepared to counter biological threats; therefore, it is the policy of the United States to advance the Global Health Security Agenda (GHTA), which is a multi-faceted, multi-country initiative intended to accelerate partner countries' measurable capabilities to achieve specific targets to prevent, detect, and respond to infectious disease threats (GHTA targets), whether naturally occurring, deliberate, or accidental. The roles, responsibilities, and activities described in this order will support the goals of the International Health Regulations (IHR) and will be conducted, as appropriate, in coordination with the World Health Organization (WHO), Food and Agriculture Organization of the United Nations (FAO), World Organisation for Animal Health (OIE), Global Partnership Against the Spread of Weapons and Materials of Mass Destruction, the International Criminal Police Organization (INTERPOL), and other relevant organizations and stakeholders. To advance the achievement of the GHTA targets and to support the implementation of the IHR within partner countries, each executive department, agency, and office (agency) shall, as appropriate, partner, consult, and coordinate with other governments, international financial institutions, international organizations, regional organizations, economic communities, and nongovernmental stakeholders, including the private sector.

*Sec. 2. GHTA Interagency Review Council.*

(a) *GHTA Coordination and Policy Development.* In furtherance of the policy described in section 1 of this order, I hereby direct the National Security Council staff, in accordance with the procedures and requirements in Presidential Policy Directive 1 (or any successor directive), to convene a GHTA Interagency Review Council (Council) to perform the responsibilities described in this order. The Assistant to the President for National Security Affairs, in coordination with the Assistant to the President for Homeland Security and Counterterrorism, shall designate a member of the National Security Council staff to serve as Chair for the Council. The Council shall meet not less than four times per year to advance its mission and fulfill its responsibilities.

The report shall be transmitted to the President and, to the extent possible, made publicly available.

The report should also provide recommendations on the future direction of the initiative.
