**Statement on North Korea's Intercontinental Ballistic Missile Test**

*July 28, 2017*

North Korea's test launch today of another intercontinental ballistic missile—the second such test in less than a month—is only the latest reckless and dangerous action by the North Korean regime. The United States condemns this test and rejects the regime's claim that these tests and these weapons ensure North Korea's security. In reality, they have the opposite effect. By threatening the world, these weapons and tests further isolate North Korea, weaken its economy, and deprive its people. The United States will take all necessary steps to ensure the security of the American homeland and protect our allies in the region.
