

*Administration of Donald J. Trump, 2017*

**Statement on Health Care Reform Legislation**

*September 13, 2017*

I applaud the Senate for continuing to work toward a solution to relieve the disastrous Obamacare burden on the American people. My administration has consistently worked to enact legislation that repeals and replaces Obamacare and that can pass the Senate and make it to my desk. Obamacare has been a complete nightmare for the many Americans who have been devastated by its skyrocketing health care premiums and deductibles and canceled or shrinking plans. As I have continued to say, inaction is not an option, and I sincerely hope that Senators Graham and Cassidy have found a way to address the Obamacare crisis.
