**Statement on Signing a Memorandum on an Order Under the Defense Production Act of 1950 Regarding the General Motors Company**

*March 27, 2020*

Today I signed a Presidential memorandum directing the Secretary of Health and Human Services to use any and all authority available under the Defense Production Act to require General Motors to accept, perform, and prioritize Federal contracts for ventilators. Our negotiations with GM regarding its ability to supply ventilators have been productive, but our fight against the virus is too urgent to allow the give-and-take of the contracting process to continue to run its normal course. GM was wasting time. Today's action will help ensure the quick production of ventilators that will save American lives.
