

Administration of Joseph R. Biden, Jr., 2024

Statement on the Republican Study Committee Federal Budget Proposal
March 21, 2024

My dad had an expression: "Don't tell me what you value. Show me your budget, and I'll tell you what you value." The Republican Study Committee budget shows what Republicans value. This extreme budget will cut Medicare, Social Security, and the Affordable Care Act. It endorses a national abortion ban. The Republican budget will raise housing costs and prescription drugs costs for families. And it will shower giveaways on the wealthy and biggest corporations. Let me be clear: I will stop them.

My budget represents a different future. One where the days of trickle-down economics are over and the wealthy and biggest corporations no longer get all the breaks. A future where we restore the right to choose and protect other freedoms, not take them away. A future where the middle class finally has a fair shot and we protect Social Security so the working people who built this country can retire with dignity. I see a future for all Americans, and I will never stop fighting for that future.
