

Administration of Joseph R. Biden, Jr., 2024

Statement on the Third Anniversary of the Infrastructure Investment and Jobs Act
November 15, 2024

To have the best economy in the world, you have to have the best infrastructure in the world. That's why 3 years ago, I was proud to sign the bipartisan infrastructure law, the largest investment in our Nation's infrastructure in a generation. And when the bill passed, we showed that we can get big things done when we work together.

In just the 3 years since I signed the bipartisan infrastructure law, my administration has launched over 66,000 projects across the country, repairing 196,000 miles of roads and 11,400 bridges, replacing 367,000 lead pipes, and expanding and modernizing ports and airports. And today, we're investing an additional \$1.5 billion in funding for rail investments along the Northeast Corridor, the most heavily trafficked rail corridor in the United States, supporting 800,000 trips per day—five times more passengers than all flights between Washington and New York.

We're doing all this with American workers and products that are made in America. These investments are creating jobs, benefitting our communities, and ushering in an infrastructure decade that is planting the seeds for a better and more prosperous future.
