Statement on Illegal Border Crossings in February

March 1, 2025

The month of February, my first full month in Office, had the lowest number of illegal immigrants trying to enter our country in history by far. There were only 8,326 apprehensions of illegals by Border Patrol at the U.S.-Mexico border, all of whom were quickly ejected from our Nation or, when necessary, prosecuted for crimes against the United States of America. This means that very few people came.

The invasion of our country is over. In comparison, under Joe Biden, there were 300,000 illegals crossing in 1 month, and virtually all of them were released into our country. Thanks to the Trump administration policies, the border is closed to all illegal immigrants. Anyone who tries to illegally enter the U.S.A. will face significant criminal penalties and immediate deportation.
