

Administration of Donald J. Trump, 2025

Statement on the Tornadoes and Severe Weather in Southern and Midwestern States

March 16, 2025

We are actively monitoring the severe tornadoes and storms that have impacted many States across the South and Midwest; 36 innocent lives have been lost, and many more devastated. The National Guard has been deployed to Arkansas, and my administration is ready to assist State and local officials, as they help their communities to try and recover from the damage. Please join Melania and me in praying for everyone impacted by these terrible storms.
