Letter to Congressional Leaders on United States Military Operations in Yemen
March 28, 2025

Dear Mr. Speaker: (Dear Mr. President:)

I write to apprise you of developments in Yemen and the broader Middle East region.

Houthi militants operating from bases in Yemen have perpetrated piratical aggressions against shipping and have continued to threaten and attack United States forces in the airspace and waters in and around Yemen. I will no longer allow this band of pirates to threaten and attack United States forces and commercial vessels in one of the most important shipping lanes in the world. We will act to keep Americans safe. Consistent with my commitment to defend United States forces and to uphold navigational rights and freedoms, I directed the Department of Defense to take several actions concerning the Houthis in Yemen, described below.

First, I directed the Department of Defense to move additional forces equipped for combat into the Middle East to enhance the defensive capabilities available to United States forces and facilitate necessary military actions. These forces include capabilities for air and missile defense of Israel and of locations hosting United States forces as well as fighter, support, and reconnaissance aircraft to enable strikes on Houthi targets. The additional forces have deployed to countries in the Middle East region as detailed in the attached classified annex.

Second, at my direction, forces under United States Central Command have commenced large-scale strikes in Houthi-controlled areas of Yemen to eliminate the capabilities the Houthis use for attacks on United States forces and commercial ships in the Red Sea and surrounding waters. United States Navy ships and aircraft, along with United States Air Force bombers, fighters, and unmanned aircraft, operating in and around Yemen, have participated in these strikes. Targets have included Houthi leadership and equipment, command and control facilities, and munitions storage facilities. We will continue these decisive military operations until the Houthi threat to United States forces and navigational rights and freedoms in the Red Sea and adjacent waters has abated.

I am providing this report as part of my efforts to keep the Congress fully informed, consistent with the War Powers Resolution (Public Law 93–148). I directed these actions consistent with my responsibility to protect Americans and United States interests abroad and in furtherance of United States national security and foreign policy interests, pursuant to my constitutional authority as Commander in Chief and Chief Executive to conduct United States foreign relations. I appreciate the support of the Congress in this action.

Sincerely,

DONALD J. TRUMP
