**Statement on Senate Passage of the One Big Beautiful Bill Act**

*July 1, 2025*

Almost all of our great Republicans in the United States Senate have passed our "One, Big, Beautiful Bill." It is no longer a "House bill" or a "Senate bill". It is everyone's bill. There is so much to be proud of, and everyone got a major policy win, but the biggest winner of them all will be the American people, who will have permanently lower taxes, higher wages and take-home pay, secure borders, and a stronger and more powerful military. Additionally, Medicaid, Medicare, and Social Security benefits are not being cut, but are being strengthened and protected from the radical and destructive Democrats by eliminating waste, fraud, and abuse from those programs.

We can have all of this right now, but only if the House GOP unites, ignores its occasional "grandstanders" (You know who you are!), and does the right thing, which is sending this bill to my desk. We are on schedule. Let's keep it going and be done before you and your family go on a July 4 vacation. The American people need and deserve it. They sent us here to get it done!

Our country is going to explode with massive growth, even more than it already has since I was reelected. Between the growth, this bill, our tariffs, and more, the "One, Big, Beautiful Bill" sets the United States down a fiscal path by greatly reducing our Federal deficit, and setting us on course for enormous prosperity in the new and wonderful golden age of America.

To my GOP friends in the House: Stay united, have fun, and vote "Yay." God bless you all!
