

Administration of Donald J. Trump, 2025

Message on Women's Equality Day

August 26, 2025

On this day 105 years ago, the 19th Amendment of the United States Constitution was officially certified, forever changing the course of history and immortalizing these mighty words: "The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex."

This Women's Equality Day, our Nation proudly celebrates the timeless truth that every American citizen is created in the holy image of God and endowed with certain unalienable rights. We recognize the ratification and certification of the 19th Amendment as a defining moment in fulfilling America's founding principle that all humans are created equal. Above all, we recommit to upholding our country's long-cherished principles of liberty, equal justice under the law, and the God-given dignity of the human person.

Today we honor the strong, patriotic American trailblazers who paved the path for women's suffrage. We remember that August 26, 1920, stands as an enduring reminder of America's promise of freedom and equality. Above all, we remain committed to protecting the blessings of liberty for generations to come.
