Statement on Beginning Construction of the New White House Ballroom

October 20, 2025

I am pleased to announce that ground has been broken on the White House grounds to build the new, big, beautiful White House Ballroom. Completely separate from the White House itself, the East Wing is being fully modernized as part of this process and will be more beautiful than ever when it is complete. For more than 150 years, every President has dreamt about having a ballroom at the White House to accommodate people for grand parties, state visits, etc. I am honored to be the first President to finally get this much-needed project underway, with zero cost to the American taxpayer. The White House Ballroom is being privately funded by many generous patriots, great American companies, and yours truly. This ballroom will be happily used for generations to come!
