¹ The term "family" refers to a group of two or more persons related by birth, marriage, or adoption and residing together. Every family must include a reference person.

² Adjusted by consumer price index research series (CPI-U-RS).

³ Data for American Indians and Alaska natives, native Hawaiians and other Pacific Islanders, and those reporting two or more races are included in the total but not shown separately.

⁴ For 2004, figures are revised to reflect a correction to the weights in the 2005 Annual Social and Economic Supplement.

⁵ Beginning with data for 2009, the upper income interval used to calculate median incomes was expanded to \$250,000 or more.

⁶ Reflects implementation of Census 2010-based population controls comparable to succeeding years.

⁷ The Current Population Survey allows respondents to choose more than one race. Data shown are for "white alone, non-Hispanic," "black alone," and "Asian alone" race categories. ("Black" is also "black or African American.") Family race and Hispanic origin are based on the reference person.

Note: Poverty thresholds are updated each year to reflect changes in the consumer price index (CPI-U).

For details see publication Series P–60 on the Current Population Survey and Annual Social and Economic Supplements.
