Economic Report of the President 1

The Annual Report of the Council of Economic Advisers 7

Letter of Transmittal 9

Chapter 1: The Economic and Fiscal Benefits of the One Big Beautiful Bill Act. 23

- The Successful Legacy of the 2017 Tax Cuts and Jobs Act 23
  - *The One Big Beautiful Bill Act: Avoiding the Largest Tax Increase Ever* 26
- Benefits of the OBBBA for Blue-Collar Workers 27
  - *Pillar One of the OBBBA: Business Tax Provisions to Unleash American Investment* 28
  - *Low Tax Rates for Main Street Businesses* 29
  - *Expensing Provisions to Incentivize Investment* 30
- Pillar Two of the OBBBA: Individual Tax Relief. 34
  - *Making Permanent and Strengthening the TCJA's Individual Tax Relief* 34
  - *No Tax on Tips, No Tax on Overtime, and Tax Relief for Seniors* 34
  - *A Deeper Exploration of the Effects of the OBBBA on Seniors* 35
  - *Making Permanent and Enhancing Opportunity Zone Incentives*. 37
  - *Summarizing the Economic Impact of All the OBBBA's Tax Provisions* 38
- The Fiscal Impact of the Trump Administration's Economic Policies Anchored by the OBBBA 39
  - *The Impact of the OBBBA and Related Trump Administration Economic Policies on Deficits and Debt* 39
- Conclusion 44

Chapter 2: Promoting Prosperity through Regulatory Reform 45

- The Empirical Costs of Regulation 46
- Potential Savings from Regulatory Reform 47
- The Economic Challenges of Applying Regulations 48
  - *Market Power* 49
  - *Externalities* 50
  - *Assymetric Information* 51
  - *Public Goods* 52

AUTHENTICATED U.S. GOVERNMENT INFORMATION GPO

Bounded Rationality and Behavioral Regulation 52
A Framework for Improving Regulation 53
Current Reform Efforts 55
Strengthening American Leadership in Technology 59
Unleashing American Energy 60
Conclusion 62

Chapter 3: Rebuilding America's International Trade Policy 63

Balancing Trade 64
Aligning Policy with Sovereignty, National Security, and Industrial Resilience 67
Trade Agreements Designed to Deliver Results 69
The United States–European Union Economic Framework 69
The United States–Japan Strategic Trade and Investment Partnership 70
The United States–United Kingdom Economic Prosperity Deal 70
Modernizing the United States' Trade and Investment Ties with Taiwan 71
Deepening the United States' Partnership with South Korea 71
Advancing the United States–India Economic Partnership 72
Delivering Export Growth and Supply Chain Resilience Through Additional Agreements 72
Trade as a Driver of Investment and Industrial Renewal 74
Closing Loopholes and Reasserting the Rule of Law in Trade 74
The End of De Minimis 75
Conclusion 77

Chapter 4: Achieving Energy Dominance to Power American Prosperity 79

A New Era of Energy Growth 80
The Shortcomings of Previous Policy 83
The Cost of the Energy Transition 84
Market and Regulatory Challenges and Solutions 86
Project Approvals Are Cumbersome and Slow 86
The Nuclear Energy Industry Needs a Reboot 88
Connecting a New Generation to the Grid Is Slow 88
Domestic Production Capacity of Critical Equipment Is Insufficient to Meet Demand 90
State Policies Often Conflict with Federal Priorities 90
Conclusion 91

Chapter 5: The Revolution of Artificial Intelligence 97
The Future Outlook 98
Background on Artificial Intelligence 98
The Impact of Artificial Intelligence on GDP 99
International Economic Growth Before AI 101
The Impact of AI on Labor, and Jevons' Paradox 102
Key Metrics to Track 103
Total Factor Productivity 104
Investment 104
Performance 106
Adoption and Usage 108
Cross-Country Comparisons 109
Investment 111
Performance 113
Adoption and Usage 114
The Trump Revolution 115
Investment 115
Performance 116
Adoption and Usage 117
Conclusion 117
Chapter 6: Protecting and Rebuilding the American Dream of Homeownership 119
The Trump Administration's Commitment to Current and Future Generations of Homeowners 119
Chronicling the Deterioration in Housing Affordability 121
Homeownership and Other Spillover Effects of the Housing Affordability Crunch 124
The First Culprit: Adverse Sources of Demand Competing with American Families 126
The Second Culprit: The Government Bureaucrat Tax on Supply Inflating Building and Renovation Costs 127
Not Just a State/Local Issue: The Biden Administration's Coercive Green Energy Mandates 129
Quantifying the Bureaucrat Tax from State and Local Housing Supply Barriers 132
Methodological Overview of the CEA's Estimate of the Bureaucrat Tax 134
Data and Estimation 136

Boosting Ownership, Protecting Home Values, and Limiting Monthly Payments in a Trump Boom . . . 138
Rapid House Price Appreciation and Monthly Liquidity . . . 138
Ensuring Balanced Supply Growth to Guard Against Rising Prices . . . 139
The Impact of Cutting the Bureaucrat Tax on Homebuilding, Economic Activity, and Affordability . . . 142
The 2000s Texas Miracle . . . 145
State and Local Best Practices to Tackle the Government Bureaucrat Tax . . . 145
Conclusion . . . 146
Mathematical Appendix . . . 147
Appendix of Best Practices to Tackle the Government Bureaucrat Tax on Housing Supply . . . 149
Unleashing Manufacturing Innovation . . . 150
Streamlining the Stages of Homebuilding . . . 150
Protecting Consumer Choice and Private Property Rights . . . 151
Chapter 7: Strengthening America's Industrial Supply Chains . . . 155
The Problem: Supply Chain Risks . . . 156
Framing the Problem: Barriers to Resilient Supply Chains . . . 159
A Stylized Example . . . 159
Opportunity Cost . . . 161
The Problem of Incomplete Information . . . 161
Externalities . . . 162
Noncompetitive Practices . . . 163
The Solution: The Trump Administration's Actions to Strengthen Supply Chains . . . 164
Public-Private Partnerships . . . 165
Executive Actions . . . 166
Conclusion . . . 168
Chapter 8: Strengthening the United States' Defense Industrial Base . . . 171
The U.S. DIB in International Context . . . 173
The Domestic Context of the U.S. DIB Since the Cold War . . . 177
Concentration . . . 177
Isolation . . . 177
Reduced Competitiveness Resulting from DIB Consolidation and Isolation . . . 178

Benefits of Enhancing the Defense Industrial Base . . . 179
R&D Spillover from DIB Investment . . . 179
Addressing Demand-Side Barriers to DIB Enhancement . . . 180
Demand-Side Barriers: Internal and External Uncertainty . . . 181
Solution to Demand-Side Barriers . . . 182
Addressing Supply-Side Barriers to DIB Enhancement . . . 183
Supply-Side Barriers . . . 183
Solutions to Supply-Side Barriers . . . 184
Conclusion . . . 186

Chapter 9: Work Means More Than Making a Living: Labor, Challenges, and Opportunity . . . 189

The Value of Work . . . 189
Data Description and Methodology . . . 190
Work Extends Life and Improves Health . . . 190
Work Makes People Happy . . . 192
Work Builds Skill and Preserves Cognitive Function . . . 193
Work Provides a Webbing of Vital Social Connections . . . 195
The Positive Externalities of Employment . . . 196
Labor Market Challenges . . . 197
The Participation Problem: Mismatch and Disincentives . . . 197
Demographic Decline and the Shrinking Workforce . . . 198
Critical Shortages and the Faltering Education System . . . 199
Labor Market Solutions That Put America First . . . 200
Reestablishing Work as the Center of Social Policy . . . 200
A Pro-Family Agenda for a Stronger Workforce . . . 201
Investing in People and Building Capacity in Critical Industries . . . 202
Conclusion: Reconnecting America with Work . . . 205

Chapter 10: The Economic Consequences of DEI . . . 207

The Rise of DEI . . . 209
The Results of DEI: Effects on Productivity . . . 211
The Results of DEI: Overall Effects on GDP . . . 214
The Restoration of Equal Treatment Under the Law . . . 215

Chapter 11: Making America Healthy by Unleashing Competition in Physicians' Markets . . . 217
Addressing Biases Against Rural Americans . . . 221
Addressing Distortions Caused by Regulations and Flawed Payment Programs . . . 222
Addressing the Regulatory and Administrative Burden . . . 223
Addressing Distortions Caused by Physicians' Payment Methods . . . 223
Meeting America's Needs with Transparency, Technology, and Scientific Transformation . . . 225
Conclusion . . . 227
Chapter 12: Unlocking Retail Access to Private Equity Investments through Defined Contribution Plans . . . 229
The Evolving U.S. Capital Market and Retirement System . . . 230
Retail Access to Investments in Private Markets: An Overview of Regulatory Barriers . . . 233
The Quantitative Benefits of Expanding Retail Access to Private Equity Investments through Defined Contribution Plans . . . 235
Diversification and Higher Risk-Adjusted Returns for Retail Investors . . . 235
Household Retirement Saving and Output Gains for the Real Economy . . . 239
Access to a Large, Diversified, and Stickier Capital Base for Fund Managers and Private Companies . . . 243
Liquidity and Price Discovery for Financial Markets . . . 244
Conclusion . . . 244
Appendix: Quantifying the Macro and Micro Effects of Portfolio Allocation to Private Equity Through Defined Contribution Plans . . . 245
Micro Effect: Portfolio Choice Problem . . . 245
The Macroeconomic Consequences of Private Equity Reform . . . 248
Chapter 13: The Cost of Capital Misallocation to ESG Investments with an Environmental Focus . . . 251
The Rise of ESG Investing and Resulting Capital Misallocation . . . 252
Estimating Output Losses and the Share of U.S. Capital Misallocation from Environmentally-Focused ESG Investments . . . 254
Output Losses . . . 254
Share of Total U.S. Capital Misallocation . . . 255
The Administration's Efforts to Eliminate Capital Misallocation to ESG Investments . . . 257

Conclusion . . . 257
Appendix: Quantifying Output Losses from ESG Investments with an Environmental Focus . . . 258
An Overview of the Model . . . 258
Model Parameter Calibration and Identification . . . 262
Model Results: Output Losses . . . 263
Chapter 14: The Year in Review and the Years Ahead . . . 265
Real GDP and Its Components . . . 266
Consumer Spending . . . 268
Business Fixed Investment . . . 270
Inventory Investment . . . 271
Government Consumption and Gross Investment . . . 272
The Federal Government . . . 272
State and Local Government . . . 273
Exports . . . 273
Imports . . . 275
Inflation . . . 277
Productivity and Compensation . . . 279
Financial Markets . . . 282
The Labor Market . . . 287
The Forecast for the Years Ahead . . . 292
The Population 16 and Over . . . 294
The Labor Force Participation Rate . . . 296
The Employment Rate . . . 296
The Workweek . . . 296
Labor Productivity . . . 297
Output per Worker Differential . . . 297
Adding It All Up . . . 297
Conclusion . . . 298
References . . . 299
Appendix A: Report to the President on the Activities of the Council of Economic Advisers during 2025 . . . 351
Appendix B: Statistical Tables Relating to Income, Employment, and Production . . . 363

Figures

1-1 Post-TCJA GDP Growth Has Outperformed Forecasts 24

1-2 The Post-TCJA Unemployment Rate Has Outperformed Forecasts 25

1-3 Cumulative Real Growth in Total Tax Revenue, 2017–24 25

1-4 Average Housing Starts per Million People, 1983–2024 38

1-5 Primary Deficit Impact of Trump Administration Policies Compared with Current Law Baseline (pre-OBBBA) 41

1-6 Primary Deficit Impact of Trump Administration Policies Compared with Current Law Baseline (pre-OBBBA) 41

1-7 Debt-to-GDP Ratio in 2034 under Various Scenarios 43

2-1 Regulatory Restrictions in the U.S. Code of Federal Regulations, 1970–2024 46

3-1 U.S. Goods Trade Balance as a Share of GDP, 1976–2024 65

3-2 U.S. Manufacturing Employment and Share of Total Employment, 1970–2024 66

3-3 U.S. Goods Trade Balance, by Country, 2024 66

3-4 U.S. Production of Steel, Aluminum, Copper, and Automobiles, 1972–2025 68

3-5 Import Statistics for De Minimis 76

4-1 Annual U.S. Electricity Output, 1940–2025 80

4-i Average Premium for Electric Vehicles, by Vehicle Type 95

5-1 The Amount of Computing Power Used to Train AI Models 105

5-2 External Funding for Privately Held AI Companies 105

5-3 Cloud Compute Cost to Train AI Models 106

5-4 Lengths of Software Engineering Tasks That AI Can Complete with a 50 Percent Success Rate 107

5-5 Revenue from Sales of AI Products to the Public, by Company 108

5-6 Actual Revenue of OpenAI versus Other Companies' Historically Rapid Revenue Increases 109

5-7 Projected Revenue of OpenAI versus Other Companies' Historically Rapid Revenue Increases 110

5-8 Percentage of U.S. Firms Using AI to Produce Goods and Services . . 110

5-9 Percentage of U.S. Workers Who Use Generative AI at Work 111

5-10 Private Investment in AI, by Country, 2024 112

5-11 Number of Notable Announcements of Direct AI Spending by Nations and Sovereign Wealth Funds 112

5-12 Cumulative Number of Large-Scale AI Systems by Country 113
5-13 Percentage of Graphics Processing Unit Clusters (Weighted by Cluster Performance) by Country or Region 114
5-14 Chinese AI Models by Country of Hardware Origin 115
6-1 Average Real Income and House Prices for Median-Income Homeowners 122
6-2 Homeowner Household Income, 2000 versus 2023 123
6-3 Real Homeowner House Values, 2000 versus 2023 123
6-4 Homeownership Rate by Five-Year Age Group 124
6-5 U.S. Total Fertility Rate 125
6-6 Adult Children Living at Home 125
6-7 Adoption Rates for Statewide Building Codes 130
6-8 Energy Codes in the 100 Largest Metro Areas, by Permit Type and Number 131
6-9 A Map of the Biden Administration's National Building Performance Standards Coalition 132
6-10 Decomposition of the Bureaucrat Tax 133
6-11 Shift of the Housing Supply Curve and the Bureaucrat Tax Due to Regulatory Barriers 135
6-12 Average Single-Family Housing Starts per Million People, 1983–2024 140
6-13 Single-Family Housing Stock 140
6-14 Subsidizing Demand in a Supply-Constrained Market 141
6-15 Subsidizing Demand in a Supply-Abundant Market 141
6-16 House Price and Income Dynamics under Alternative Housing Market Conditions with Strong Supply 143
6-17 The 2000s Texas Miracle and the Importance of Supply for Affordability 144
7-1 Number of Publicly Traded Firms in the United States That Mention "Supply Chain" 157
8-1 Total U.S. Industrial Production for Defense and Space 172
8-2 Federal Spending on Defense Procurement and Research-Related Activity 176
8-i Distribution of Military Spending in 2024 by Country 175
8-3 Major Weapon Systems Acquisition Budget: Share by Industrial Base Category 178
9-1 Index of Depression Scores (on an Eight-Point CES-D Scale) Before and After Job Transitions 192

9-2 Loneliness Before and After Employment Transitions (on a 0–1 Scale) . . . 195
10-1 The Share of Minorities in Management Positions as a Fraction of All Management Positions . . . 211
10-2 Noticeable Effect of DEI Practices on Productivity (Log Output per Hour) . . . 213
10-3 No Effect of Minority Nonmanager Share on Productivity (Log Output per Hour) . . . 214
11-1 Average Waiting Time for a New Patient Visit, by Specialty and Year . . . 219
11-2 Average Number of Physicians per 10,000 Population by Type and Location . . . 219
11-3 County-Level Distribution of the Number of Physicians per 10,000 Population by Type and Location . . . 220
12-1 Number of U.S. Private and Public Firms, 1997–2022 . . . 231
12-2 Private Equity Performance–Public Market Equivalent (PME) by Vintage Year . . . 232
12-3 U.S. Defined Benefit (DB) versus Defined Contribution (DC) Plan Assets, 2015–24 . . . 233
12-4 Illustrative Private Equity (PE) Allocations (Weights) by Age Cohort . . . 236
12-5 Portfolio Allocations (Weights) in Simulated Private Equity (PE) versus non-PE Portfolios . . . 237
12-6 Difference in Sharpe Ratios Between Private Equity (PE) and non-PE Portfolios by Age Cohort . . . 239
12-7 Portfolio Allocations Before and After Eliminating Private Equity Restrictions . . . 240
12-8 Annuitized Increase in Lifetime Income by Age Group . . . 241
12-9 Output Gain as a Function of the Private Equity Cap . . . 242
13-1 Green Share of Market Capitalization and Green-to-Brown Return Ratio, 2009–23 . . . 253
13-2 Estimated Output Losses from Capital Misallocation to Environmentally-Focused ESG Investments . . . 255
13-3 Estimated Share of Total U.S. Capital Misallocation from Environmentally-Focused ESG Investments . . . 256
14-1 Quarterly U.S. GDP Growth (Percent) and Contributions (Percentage Points) . . . 266
14-2 Quarterly Real U.S. GDP versus GDI Growth . . . 267
14-3 Consumption Rate versus Wealth-to-Income Ratio . . . 268

14-4 Opposing Influences on U.S. Consumer Spending 269
14-5 U.S. Real Durables Consumption, Monthly Change. 269
14-6 Contributions of Business Investment to U.S. GDP Growth 270
14-7 Ratio of U.S. Nonfarm Inventories to Final Sales of Goods and Structures. 271
14-8 Contributions of U.S. Government Consumption and Gross Investment to Quarterly Real GDP Growth. 272
14-9 Growth of Real Foreign GDP and U.S. Exports 274
14-10 U.S. Imports of Goods and Services 276
14-11 Total and Core U.S. Consumer Price Index 277
14-12 Core U.S. Consumer Price Index Inflation and Components. 278
14-13 U.S. Productivity versus Previous Trend. 278
14-i U.S. Real Compensation per Hour, Various Measures 280
14-14 Financial Conditions Impulse to U.S. Growth and Underlying Components 282
14-15 Key U.S. Interest Rates 283
14-16 Nominal and TIPS U.S. Treasury Yield Curves. 283
14-17 Cyclically Adjusted Standard & Poor's Price-to-Earnings Ratio 284
14-18 Exchange Value of the Dollar Relative to Advanced-Economy Currencies 285
14-19 U.S. Outstanding Loan Balances Relative to Annualized GDP. 286
14-20 Serious Delinquency Rates for U.S Consumer Loans 287
14-21 The United States' Unemployment Rate 288
14-22 The United States' Labor Force Participation Rate 288
14-23 Effect of Declining U.S. Net Migration on Breakeven Employment . 289
14-24 U.S. Private Nonfarm Employment 291
14-25 U.S. Job Openings per Unemployed Individual. 291

Tables

1-1 The One Big Beautiful Bill Act's Macroeconomic and Fiscal Effects: Lower Tax Rates for Small Businesses. 30
1-2 One Big Beautiful Bill Macroeconomic and Fiscal Effects: Full Expensing Provisions. 31
1-3 The One Big Beautiful Bill Act's Macroeconomic and Fiscal Effects: Business Provisions Combined. 31

1-i One Big Beautiful Bill Macroeconomic and Fiscal Effects: Nonlinear Model (All OBBBA Tax Provisions) . . . 33
1-4 One Big Beautiful Bill's Macroeconomic and Fiscal Effects: Household Tax Relief . . . 36
1-5 The Benefits of OBBBA for Seniors . . . 36
1-6 Deductions for Seniors under the One Big Beautiful Bill for 2025 . . . 37
1-7 Summary of the Economic Impact of the OBBBA's Tax Provisions . . . 39
1-8 Summarizing Key Differences between pre-OBBBA Current Law, pre-OBBBA Current Policy, and the OBBBA . . . 40
2-1 Presidential Actions with a Deregulatory Effect . . . 56
3-1 Top Five Changes in U.S. Goods Imports, 2024 versus 2025, January through October, by Trading Partner . . . 67
4-1 Data Center Projects Announced Since the Start of the Second Trump Administration . . . 82
4-2 Energy-Specific Investment Pledged Since the Start of the Second Trump Administration . . . 87
4-i Annual Costs of California's Advanced Clean Cars II Rule . . . 96
5-1 Estimates of AI's Impact on GDP Level . . . 100
12-1 Inputs for Portfolio Mean-Variance Analysis . . . 238
14-1 Trends in Real U.S. Exports, by Type . . . 274
14-2 Trends in U.S. Real Imports, by Type . . . 276
14-3 U.S. Nonfarm Employment, December 2025 from December 2024 . . . 292
14-4 U.S. Economic Projections, 2025–36 . . . 293
14-5 Supply-Side Components of Actual and Potential Real U.S. Output Growth, 1953–2036 . . . 295

Boxes

1-1 Analysis from the CEA's Nonlinear Model . . . 32
4-1 Local Policies Do Not Solve Global Problems . . . 92
4-2 The Costs of California's Green Mandates . . . 94
8-1 Defense Spending by the United States and Its Allies . . . 175
14-1 Productivity and the Real Wage . . . 280
